Accreditation

Northeastern Illinois University is accredited by the Higher Learning Commission of the North Central Association, 230 South LaSalle Street, Suite 7-500, Chicago, Illinois 60604, telephone number (800) 621-7440.

In addition, Northeastern is accredited through these disciplinary bodies:

- National Association of Schools of Music (<http://www.nasm.arts-accredit.org/>)
- National Association of Schools of Art and Design (<http://www.nasad.arts-accredit.org/>)
- Council on Social Work Education (<https://www.cswe.org/>)
- National Council for Accreditation of Teacher Education (<http://www.ncate.org/>)
- Council for Accreditation of Counseling and Related Educational Programs (<http://www.cacrep.org/>)
- Association to Advance Collegiate Schools of Business (<http://www.aacsb.edu/>)

If you have questions regarding accreditation at Northeastern Illinois University, please contact the Office of Institutional Research and Assessment at (773) 442-4890.

Baccalaureate Goals

NEIU Baccalaureate Goals

Northeastern Illinois University prepares a diverse community of students for leadership and service in our region and in a dynamic multicultural world. This is achieved through pursuit of the following goals:

1. Intellectual and Practical Skills

- Inquiry, evaluation and analysis
- Critical and creative thinking
- Written and oral communication proficiency
- Original design and artistic performance
- Quantitative literacy
- Information literacy and research skills
- Technological fluency
- Teamwork and problem solving

2. Immersion in Disciplines and Fields of Study

- Knowledge of human cultures and the physical and natural world
- Mastery of different modes of knowing and integrative learning in a student's major, with a broad awareness of other areas of study
- Ability to synthesize general and specialized studies both within and across disciplines
- Use of classroom knowledge to identify and engage big questions, as well as the practical issues of everyday life

3. Learning within the Framework and Resources of NEIU

- Integration of knowledge through internships, volunteerism, service learning, student teaching, applied research and writing, creative work and performance, etc.
- Engagement at the personal and community level
- Application of local and global civic knowledge
- Understanding and appreciation of the complexities of individual identities
- Intercultural knowledge and competence

These goals promote intellectual development and mastery of knowledge across the curriculum. The experiences of applied learning and engaging diversity foster life-long learning, social responsibility and ethical professionalism in the NEIU graduate.

Campus Locations

Northeastern Illinois University believes in access to opportunity. We offer a variety of classes and degree-granting programs at our campus locations. Enrollment, financial aid and academic support services are offered at most of the locations.

Grayslake, IL 60030

Center for College Access and Success

770 N. Halsted St, Suite 420
Chicago, IL 60642

History

History of the University

Northeastern Illinois University traces its origin to the beginnings of teacher training in Illinois. Founded in September, 1867 in Blue Island as the Normal School, Cook County's first teacher training school, the institution has evolved into the comprehensive university that it is today. Its main campus, located at 5500 North St. Louis Avenue, opened in 1961 and was then called, Chicago Teachers College North.

In 1961, total enrollment was 1,348 students, who pursued Bachelor of Arts or Bachelor of Science degrees although the major concentration was primarily in education. Throughout the 1960s, enrollment increased, programs were expanded, and the institution's mission broadened. In 1971, with a total enrollment of approximately 7,000, the college became Northeastern Illinois University.

Today, the 67-acre main campus is an attractively landscaped urban oasis near the north branch of the Chicago River. Its location eight miles northwest of downtown Chicago, only 20 minutes from O'Hare Airport, and convenient to expressways and public transportation, makes it an ideal campus for commuter students.

The main campus consists of 18 modern buildings of more than 1,000,000 square feet. Instruction is supported by technology-enhanced as well as conventional classrooms, a modern four-story library with access to local, regional and Internet resources and a wide assortment of traditional and computer laboratories. A redesigned Student Union, a modern Physical Education Complex and a state-of-the-art Fine Arts Center, containing both academic and performance space, complete the opportunities for students to attain an excellent, well-rounded education. Satellite campuses El Centro, the Jacob Carruthers Center for Inner City Studies, Center for College Access and Success, and the Multi-University Center in Lake County enhance the University's ability to serve the entire metropolitan area.

Northeastern is a 21st-century learning community that is richly diverse in ethnicity, culture, age, and language with a strong commitment to raising global awareness and understanding. Northeastern provides a high quality, affordable education through low tuition as well as scholarships and financial aid opportunities for both full- and part-time students.

Mission, Vision, and Values

Mission

Northeastern Illinois University, as a public comprehensive university with locations throughout Chicago, provides an exceptional environment for learning, teaching, and scholarship. We prepare a diverse community of students for leadership and service in our region and in a dynamic multicultural world.

Vision

Northeastern Illinois University will be a leader among metropolitan universities, known for its dedication to its urban mission, for the quality of its programs, for the success of its graduates, and for the diversity of its learning environment.

Values

Northeastern Illinois University is committed to a set of shared values that, taken collectively, guides our actions and interactions as we work together to prepare graduates for the responsible exercise of citizenship. We, the NEIU community, believe it is critical for our democracy to create a space in which the commitment to these values results in a thriving educational community that transforms the lives of all. As we take stock of the present and look to the future, these values serve as the touchstone for planning how we will best achieve the educational mission entrusted to us.

Integrity

NEIU is accountable to those we serve and to those from whom we receive support. We are committed to honesty, respect, and transparency in our words and our actions. In that regard, we work to be good stewards of the resources we are entrusted to use. This includes human, physical, fiscal, and environmental resources.

Excellence

In our pursuit of and commitment to excellence, we value the highest quality of learning and teaching, scholarship, and service. We value opportunities and experiences that support personal and professional development for all members of our community. In all that we say and do, we are committed to the process and products of excellence.

Access to Opportunity

NEIU values access to opportunity; we value a welcoming environment that provides appropriate support as well as encourages mutual responsibility for and commitment to learning.

Diversity

NEIU values the inclusion of a broad spectrum of students, staff, and faculty in the life of the University. We celebrate and foster global perspectives. We encourage the open and respectful expression of ideas and differences in thoughts, experiences, and opinions.

Community

As a commuter institution, NEIU has a special obligation to provide an environment that is supportive, nurturing, and participatory. Such an environment is characterized by civility, fostering humanity and engagement, and creates a sense of community through inclusion, mutual respect, and empowerment. NEIU values our metropolitan setting as a laboratory for learning, and we foster partnerships for learning, research, and service throughout this dynamic region to promote the public good.

Empowerment Through Learning

NEIU is dedicated to creating a culture that provides life-long learning opportunities for all members of the University community. We are especially committed to transforming students' lives by engaging them in an educational experience that empowers them to graduate with the skills and knowledge to effectively participate and lead in personal, professional and civic realms.

Accreditation

Northeastern Illinois University is accredited by the Higher Learning Commission of the North Central Association, 230 South LaSalle Street, Suite 7-500, Chicago, Illinois 60604, telephone number (800) 621-7440.

Admissions

Admissions and Transfer Center

The Admissions Office and Transfer Center are part of Enrollment Management Services (D-130) and assist prospective undergraduate students with the process of applying for admission and learning more about opportunities at Northeastern Illinois University. Admissions Counselors review admission requirements and procedures, discuss academic programs, and explain how transfer credits apply toward university degree requirements. For more information, contact the Admissions Office at (773) 442-4050 or visit our website at [Admissions \(http://www.neiu.edu/future-students/how-apply/\)](http://www.neiu.edu/future-students/how-apply/).

General Information

Factors considered in evaluating an undergraduate applicant for admission to Northeastern include: an applicant's GPA and standardized test scores. A non-refundable application fee of \$30 must be submitted with all applications. Applications received without the required fee will not be processed.

Admission Requirements and Application Procedures

Applicants for undergraduate admission at Northeastern Illinois University must:

1. Submit a completed paper application or apply online.
2. Submit a non-refundable application fee or approved application fee waiver accompanying the application. The application fee can be in the form of a check or money order payable to Northeastern Illinois University. If paid in cash at the Student Payment Services Office, the receipt should be attached with the application package.
3. Provide official transcripts and/or test scores. Transcripts and examination scores must be official and received in an envelope sealed by the sending institution. Hand-carried transcripts will be considered official as long as they are delivered in the sealed envelope. Transcripts become the property of the University and cannot be released.
4. Meet the admission requirements of your admission type (Click on Admission Type on left menu).

Refer to individual applications for specific instructions.

Application Processing

Applications are processed continuously throughout the year in accordance with published deadlines for each term. Applicants who send all required credentials well in advance of the term for which admission is being sought benefit by receiving earlier notification of admission decisions, and may be eligible to participate in Advance Registration.

International students who carry B1/B2, F, or J visas must complete their files by the published International student deadline for the term in which the student is applying in order to ensure proper processing of the I-20 form or DS-2019.

All transcripts and other documents submitted in support of a student's application for admission become the property of the University. The Admissions Review and Processing Office will retain these credentials for a period of one year from the time of initial application. At the close of this period, all such documents submitted by applicants who do not enroll at Northeastern will be destroyed.

The discovery of omitted previous post-secondary attendance may be cause for the student's admission to be rescinded and, if a current student, for the student to be considered for dismissal from the University. An administrative hold will be put on the student's record blocking further registration. Petitions to reenter will be reviewed by the Admissions Appeal Committee.

Applicants must be in good disciplinary standing at schools previously attended. Applicants who are not in good disciplinary standing will be reviewed on a case-by-case basis.

Admission by Appeal

Undergraduate applicants who are not granted admission will have the opportunity to appeal their admissions decision by submitting an admissions portfolio. The portfolio requires a letter from a teacher or counselor, personal statement and the answer to two questions provided by the admissions committee. Complete instructions are sent to the applicant at the time of their admissions decision. Admission portfolios will be reviewed by an Admissions Appeal Committee. Contact the Admissions Office for additional information.

Admission to Major Programs

Undergraduate applicants are first approved for admission to the university. It is then the student's responsibility to apply to the academic department in which he/she wishes to major, to the Daniel L. Goodwin College of Education if pursuing a teacher education program, and to the College of Business and Management if pursuing a business degree.

Students who are readmitted to the University must re-declare their major(s) and minor(s).

The University requires all undergraduate students to declare a major by the time they have earned a total of 45 credit hours. Students intending to major in business, education, or graphic design can declare a "Pre-major" until the program admission requirements to the College of Business and Management, Daniel L. Goodwin College of Education, or the BFA program are met.

Freshmen

Admission Requirements and Application Procedures

Classification and Definition

A student currently attending high school or a high school graduate who has never attended a college or university **OR** a student who has satisfactorily passed the G.E.D. and has never attended a college or university.

Requirements For Admission

An admissions formula that contains an applicant's grade point averages and SAT/ACT scores is used to determine eligibility for admission to Northeastern Illinois University.

Students with GEDs: If you are 18 years of age, or older, you can be considered for admission upon successful completion of the GED. The SAT or ACT is required if you are under 21 years of age.

Applicants with conditional admission must participate in one of our Student Success programs, such as CCICS Allstars, El Centro Scholars, Project Success, Proyecto Pa'Lante or Wentworth Scholars.

Subject Requirements for Freshmen

In addition to meeting the Admission Decision Score minimum requirement for admission, freshmen must also have completed the following high school subjects in accordance with the Illinois Board of Higher Education requirements*:

- 4 years of Language Arts
- 3 years of Mathematics (1 year must be algebra and 1 year must be a course that includes geometry content)
- 2 years of Writing (1 year must be an English course and 1 year may be provided as part of any course offered)
- 2 years of Social Science (must include 1 year of U.S. history or combination of U.S. history and American government and 1 semester of civics)
- 2 years of Science
- 1 year of Electives (Includes art, music, foreign language, or vocational education)

*First time freshmen and transfer applicants with fewer than 24 hours of transferable credit, who meet all criteria for admission except high school subject requirements, may be admitted on a provisional basis.

How to Apply for Admission and required documents

1. Submit application for admission with a \$30 application fee to the Admissions Office. We encourage students to apply online (<https://neu.elluciancrmrecruit.com/Apply/Account/Login?ReturnUrl=/Apply/>) for faster processing. Freshmen who are eligible for application fee waiver may also apply online and may upload their fee waiver form.
2. Arrange to have an official high school transcript from each high school attended or GED transcript sent to the Admissions Office. You may send electronic transcripts (please check with your high school to determine if this is an option). If you attended high school outside the United States you must provide a general evaluation from Educational Credentials Evaluators, Inc. (ECE) or World Education Services (WES).
3. Arrange for your ACT/SAT scores sent directly to the Admissions Office.
4. If you are currently attending high school, request a copy of your "courses in progress" be sent along with your transcript to ensure your high school subject requirements do not appear deficient.
5. If you are a veteran, you must submit a photocopy of your DD214.
6. If you are a Permanent Resident of the United States, attach a clear photocopy of the front of your Permanent Resident card. If you have been granted temporary residence, conditional entrance, are a parolee, refugee, asylee, or in the process of becoming a Permanent Resident, you must submit appropriate U.S. Citizenship and Immigration Services documentation and/or copy of a valid visa.

Transfer

Admission Requirements and Application Procedures

Classification and Definition

A student who has at some time registered at an institution of higher learning following high school graduation whether or not any college-level work was completed.

Requirements For Admission

The applicant must have an overall "C" average in all coursework attempted and be in good academic standing at the last school attended full time. An applicant with less than 24 semester hours of college credit must also meet freshman requirements.

Applicants must be in good disciplinary standing at schools previously attended. Applicants who are not in good disciplinary standing will be reviewed on a case-by-case basis.

How to Apply for Admission

1. Submit application for admission with a \$30 application fee to the Admissions Office. We encourage students to apply online (<https://neiu.elluciancrmrecruit.com/Apply/Account/Login?ReturnUrl=/Apply/>) for faster processing.
2. The applicant must have an overall "C" average in all coursework attempted and be in good academic standing at the last school attended full time. Students with less than 24 semester hours of college credit must also meet freshman requirements.
3. Arrange to have official transcripts sent directly to the Admissions Office from all colleges and universities attended. If you attended high school or college outside the United States you must provide an evaluation from Educational Credentials Evaluators, Inc. (ECE) or World Education Services (WES).
4. If you have earned less than 24 semester hours of college credit, you must also have an official high school transcript and ACT/SAT scores sent from your high school.
5. If you are a veteran, you must submit a photocopy of your DD214.
6. If you are a Permanent Resident of the United States, attach a clear photocopy of the front of your Permanent Resident card. If you have been granted temporary residence, conditional entrance, are a parolee, refugee, asylee, or in the process of becoming a Permanent Resident, you must submit appropriate U.S. Citizenship and Immigration Services documentation and/or copy of a valid visa.

Undergraduate Transfer Credit Policy

Community College work: A maximum of 64 semester hours will be accepted in transfer from a community college and used toward graduation. Students who have completed more than 64 hours at a community college will only have 64 hours reflected on the NEIU transcript. Students who need to have a transfer course not listed on their NEIU transcript added may complete a Request for Re-evaluation form available in Enrollment Management Services. Adjustments will only be made for courses that are required for a student's major or minor and the request must be accompanied by a memo from the advisor.

4-year College/University work: A maximum of 90 semester hours is counted toward graduation. Students who have completed more than 90 hours will only have 90 hours reflected on the NEIU transcript. Students who need to have a transfer course not listed on their NEIU transcript added may complete a Request for Re-evaluation form available in Enrollment Management Services. Adjustments will only be made for courses that are required for a student's major or minor and the request must be accompanied by a memo from the advisor.

Combination of Community College and College/University work:

In cases where both a community college and a four-year college/university were attended, a maximum of 90 semester hours will be accepted in transfer; however, the maximum of 64 semester hours earned from a community college or through credit by examination or the military still applies.

Bachelor of Arts in Interdisciplinary Studies

Students majoring in the Bachelor of Arts in Interdisciplinary Studies program are permitted to transfer up to 96 semester hours.

Acceptance of Associate Degrees

Students graduating with an approved Illinois Community College Board (ICCB) Model Associate of Arts (AA), Associate of Science (AS)*, or Associate of Arts in Teaching (AAT) degree will be granted junior standing and will have fulfilled Northeastern Illinois University's General Education-Distributive Learning requirements.

*Students who complete the AS degree after Fall 2016 may have to take one additional humanities and one additional social/behavioral science course to complete the General Education Distributive Learning requirements, depending on how many hours were completed in each of these areas when the AS degree was conferred.

Preliminary Degree Evaluation

Transfer students will be able to run their online degree evaluation to see how Northeastern has accepted their transfer courses. Information on how to run the online degree evaluation will be sent with the student's admissions letter. Transferred courses accepted by the University do not necessarily meet specific program requirements.

Transfer Advisors

Students attending community colleges should check with their community college counselors or the NEIU Transfer Center to select appropriate courses for transfer to Northeastern.

Transfer Credit Policies

- Courses from institutions without regional accreditation are nontransferable. For admission purposes only, all college level course work at post-secondary institutions previously attended will be considered in the calculation of grade point average. Repeated courses are accepted only once in transfer. In the case where a repeated course is one which the student failed initially, the "F" grade will not be counted in the grade point average. This will apply to one "F" grade per course repeated.
- Transfer credit in technical and vocational areas will be accepted if the course work is academic in nature and is designed to transfer into a baccalaureate program at Northeastern. In general, technical and vocational courses are acceptable if comparable programs or areas of study are offered at Northeastern. There is a limit of 30 semester hours of technical and vocational courses accepted in transfer.
- Courses from other colleges or universities must have been completed at the appropriate level to be eligible for transfer credit consideration. Developmental and remedial courses are examples of courses not transferable.
- "Credit by examination" equated to an actual course and listed on an official transcript must be stated in terms of Credits Awarded and must include a semester hour assignment to be accepted by Northeastern in transfer.
- Credit for prior learning through portfolio submission is only considered for students in the Bachelor of Arts in Interdisciplinary Studies (BAIS) program. Credit for prior learning will not be accepted for transfer credit into Northeastern's traditional programs nor will prior learning credit be counted when students change from non-traditional to traditional programs of study while at Northeastern.
- Credit earned at institutions without regional accreditation but approved for candidacy status by the recognized regional accrediting agencies may be accepted by Northeastern upon request once the institution has been officially accredited. Proof of accreditation and candidacy period are required.
- Science and education courses which are 15 years old or more are not transferable to NEIU without special departmental and/or college approval. This restriction does not apply to a student majoring in the Bachelor of Arts in Interdisciplinary Studies (BAIS) program.
- Business courses which are 6 years old or more are generally not applicable toward a Business and Management major for reasons of datedness.
- A maximum of 30 credit hours of ROTC/Military Science coursework is acceptable as elective transfer credit subject to the credit being properly recorded on the student's transcript. Students in the BAIS program may transfer more than 30 credit hours of ROTC/Military Science coursework.
- All transfer students must earn a minimum 30 credit hours (24 hours for BAIS students) of coursework in residence at Northeastern to be eligible to graduate.
- Grades of "D" are accepted in transfer in limited cases but no more than 6 credits may be counted toward meeting General Education requirements. Grades of "D" will not be accepted in a student's major, minor or professional sequence. This restriction does not apply to a student majoring in the Bachelor of Arts in Interdisciplinary Studies (BAIS) program.
- Course work transferred for credit in the student's major is subject to departmental and/or college approval.

Credit by Examination

Credit for Advanced Placement (AP)

Students who have successfully completed Advanced Placement exams may receive college credit for this work. Please refer to the Advanced Placement Transfer Guide for Information about the subjects and minimum passing scores. The guide is available online at the Credit by Examination page (<http://admissions.neiu.edu/transfer-center/credit-examination/>) or in Enrollment Management Services.

Please send official Advanced Placement score reports to the Admissions Review and Processing Office for review. A maximum of 30 credit hours may be awarded for Advanced Placement exams. This credit is included in the maximum of 64 semester hours transferable from community colleges.

Credit for College Level Examination Program (CLEP)

Students who have successfully completed College Level Examination Program (CLEP) general or subject exams may receive college credit for this work. Please refer to the CLEP Transfer Guide for information regarding transferable subjects and minimum passing scores. The guide is available online on our Credit by Examination page (<http://admissions.neiu.edu/transfer-center/credit-examination/>) or in Enrollment Management Services.

Please send official CLEP score reports to the Admissions Review and Processing Office for review. A maximum of 30 credit hours may be awarded for CLEP exams. This credit is included in the maximum of 64 semester hours transferable from community colleges.

Credit for International Baccalaureate (IB)

Students who successfully complete the International Baccalaureate (IB) Diploma Programme may receive college credit for this work. Please refer to the International Baccalaureate Transfer Guide for information regarding transferable subjects and minimum passing scores. The guide is available online at the Credit by Examination page (<http://admissions.neiu.edu/transfer-center/credit-examination/>) or in Enrollment Management Services.

Please send official IB score reports to the Admissions Review and Processing Office for review. A maximum of 30 credit hours may be awarded for International Baccalaureate exams. This credit is included in the maximum of 64 semester hours transferable from community colleges.

Credit for Military Service

Four credit hours are awarded to veterans who have been honorably discharged and have served a minimum of one year on active duty or in the guard/reserve. Veterans must submit Member 4 of their DD214 to the Admissions Review and Processing Office at the time of application for admission.

Credit is also allowed for those United States Armed Forces Institute (USAFI) courses for which the American Council on Education recommends credit at the baccalaureate level, provided the student has passed the appropriate USAFI end-of-course test or examination.

Credit for service schools successfully completed may be evaluated upon request. In order to grant credit to veterans for service/school training, veterans must provide transcripts. These transcripts are free to all eligible soldiers, sailors, marines, and airmen. More details are available at the following websites:

- USAF—CCAF Transcripts <http://www.au.af.mil/au/ccaf/transcripts.asp>
- Joint Services Transcripts for Army, Coast Guard, Marine Corps, and Navy are requested at <https://jst.doded.mil>

The student must file the Request for Evaluation form available in Enrollment Management Services.

DSST

Northeastern accepts DSST credit for students who major in the Bachelor of Arts in Interdisciplinary Studies (BAIS) program. For more information, contact the Nontraditional Degree Programs Office at (773) 442-6030.

Guaranteed and Dual Admission Program

Northeastern has agreements with many area community colleges that allow for concurrent admission to the community college and Northeastern, simplifying the transfer process. Under the agreement, students who wish to participate must meet the admissions requirements of both institutions as well as the admissions requirements of the Northeastern program in which they desire to major. Both institutions will provide students with select services to guarantee a seamless transfer process.

Students who wish to be admitted to Northeastern will submit an application to both Northeastern and one of the community colleges with which there is an agreement in place. The applications and academic credentials will be reviewed by both institutions. Students who enroll in the program will have access to Northeastern's campus and select services while attending their community college. Students must maintain continuous full- or part-time enrollment with a 2.0 grade point average to remain eligible for the dual admission program. Agreements can be found under the Dual Admissions category at <http://admissions.neiu.edu/transfer-center> (<http://admissions.neiu.edu/transfer-center/>).

Students who are interested in this program should contact the Northeastern Illinois University Admissions Office.

Second Bachelor's Degree

Admission Requirements and Application Procedures

Students who wish to earn a second bachelor's degree must submit to the Admissions Review and Processing Office a completed Northeastern undergraduate application form, a non-refundable \$30 application fee and an official college transcript from the regionally accredited institution which awarded the first baccalaureate degree.

Classification and Definition

A student who has earned a bachelor's degree and wishes to earn a second undergraduate degree. If the degree was earned outside of the United States, the Educational Credentials Evaluators, Inc. (ECE) evaluation must state that the degree is equivalent to a U.S. bachelor's degree. If it is not equivalent the student will be processed as a transfer student.

NOTE: Tuition and fees will be assessed at the graduate student rate.

Requirements For Admission

Evidence of graduation from a regionally accredited college or university.

How to Apply for Admission

1. Submit undergraduate application form with a \$30 application fee to the Admissions Office. We encourage students to apply online for faster processing.
2. Arrange to have an official transcript sent showing graduation from the college or university which awarded the previous degree. If your degree was received from a college or university outside the United States you must provide an evaluation from Educational Credentials Evaluators, Inc. (ECE) or World Education Services (WES).
3. If you are a Permanent Resident of the United States, attach a clear photocopy of the front of your Permanent Resident card. If you have been granted temporary residence, conditional entrance, are a parolee, refugee, asylee, or in the process of becoming a Permanent Resident, you must submit appropriate U.S. Citizenship and Immigration Services documentation and/or copy of a valid visa.

International Students

Admission Requirements and Application Procedures

Classification and Definition

Students from other countries who carry a valid visa or are applying to the university as an international student.

International Students with an F1 Visa are eligible for admissions to degree programs only, with exception that they may apply as an undergraduate student at-large for the Summer session only, provided they submit a copy of their I-20, I-94, visa letter from the Designated School Official (DSO) of their home school giving permission to attend and affirming the home school will take responsibility in making sure the student stays in status. J Visa holders must submit a copy of their DS-2019, I-94 and visa and may attend one semester only during the summer.

Students with J visas must apply as a student-at-large unless they intend to become a full-time degree seeking student and must then apply as an international student. Students who are out-of-status will not be considered for admission.

NOTE: Students must complete their files by the published deadline for the term in which the student is applying to ensure proper processing of I-20 forms. An I-20 will not be issued until the student has received notification of admission from Northeastern's Office of Admissions. At no time will any student on an F or J visa be eligible for resident tuition assessment.

Requirements For Admission

1. Submit application for admission with a \$30 application fee to the Admissions Office. We encourage students to apply online for faster processing.
2. Submit current official copies of transcripts of schools attended within the United States. All transcripts from non U.S. colleges or universities must be evaluated by Educational Credential Evaluators, Inc. (ECE) or World Education Services (WES) sent to the Admissions Office.
3. Arrange to have official TOEFL or IELTS scores sent to the Admissions Office. You must pass the written version of the Test of English as a Foreign Language (TOEFL) with a minimum score of 500 (masters admission requires 550) or you must pass the computerized version of the TOEFL test with a minimum score of 173 (master admission requires 213) or the internet based test with minimum score of 61 (masters admission requires 79). The International English Language Testing System (IELTS) may be submitted in lieu of TOEFL. An IELTS minimum score of 6 (masters admissions 6.5) is required.
4. Masters applicants must also submit 2 letters of recommendation, statement of goals and objectives, and any additional documents required by the program. Please refer to Graduate Students section for more information.
5. Your file will be reviewed for admission decision when the application, fee and all academic documents, such as transcripts and test scores are received. However, an I-20 will not be issued until the Requirements for I-20 Processing have been met. Please see below.

Requirements for I-20 Processing

In order to attend Northeastern Illinois University, you must be issued an I-20 from the Office of International Programs. In addition to submitting the required admissions documents and receiving an admission letter, you must submit the following documents to the Office of International Programs for the I-20 to be processed. For more information, contact the Office of International Programs.

1. You must file a Northeastern Financial Statement that indicates your sponsor has sufficient finances to support you for the duration of your stay in the United States. Submit sponsor's bank and/or employment letter. All financial statements and supporting documents must be in exact U.S. dollar amounts. Bank certification letters must reflect savings or Certificates of Deposit.
2. If applicant is currently in the United States, a copy of the I-94 must also be submitted.
3. You must indicate your home country address on the application form. Additional information may be requested by the Office of International Programs such as transfer release forms, proof of Optional Practical Training (OPT) and additional financial statements.

Graduate Students

General Admission Requirements

Applicants for graduate admission at Northeastern Illinois University must:

1. Submit a completed application.
2. Submit a non-refundable application fee accompanying the application. The application fee can be in the form of a check, money order or bank draft payable to Northeastern Illinois University. If paid in cash at the Student Payment Services Office, the receipt should be attached with the application package.
3. Possess an undergraduate degree from a regionally-accredited college or university or recognized international college or university.
4. Provide current official transcripts. Transcripts and examination scores must be official and received in an envelope sealed by the sending institution or electronically via credential third-party transcript provider. Hand-carried transcripts will be considered official as long as they are delivered in the sealed envelope. Transcripts become the property of the University and cannot be released.
5. Meet the requirements of the specific program to which they are applying (see below).

Transcripts from recognized colleges/universities outside of the U.S. require course-by-course evaluation through either Educational Credentials Evaluators, Inc. (ECE) or World Education Services (WES). Three-year degrees from a college or university in a country that is a signed participant in the Bologna Process are eligible to be officially accepted as equivalent to a four-year U.S. degree. In addition to all required documents listed above, students who graduated with a three-year Bologna-compliant degree must submit the accompanying Diploma Supplement (DS).

Admission to a Degree Program

In addition to the general requirements listed above, application to a master's degree program requires the following additional materials:

1. Two letters of recommendation.
2. A two-page statement of goals and objectives.
3. Transcripts from all institutions of higher education attended for which the applicant enrolled in credit-earning courses. Transcripts from NEIU do NOT need to be submitted. It is also not necessary to re-submit any transcripts that have been submitted in a previous application to an NEIU graduate program, as long as no additional coursework was completed since the initial transcript was sent to NEIU.
4. Consult the application instructions for additional application requirements for specific degree programs. Some programs require applicants to take the Graduate Record Examination (GRE general as well as the subject test) or the Graduate Management Admission Test (GMAT). Students applying to these programs must arrange to send the test scores to the Graduate Admissions Office at Northeastern Illinois University to avoid delay or denial of admission. The code for Northeastern Illinois University is 1090.

Admission to a master's degree program requires the following level of academic achievement:

1. Demonstrate a high level of scholastic ability as reflected by an undergraduate grade point average of 2.75 or better (4-point scale), though some programs require 3.00 or higher. All undergraduate coursework completed prior to the conferral of the bachelor's degree is computed in this average. Any previous graduate credit is also taken into appropriate consideration.
2. An average of at least B (3.0) in the undergraduate coursework that is the foundation for the master's program.
3. Satisfactory mastery of the program prerequisites.

Applicants must be in good disciplinary standing at schools previously attended. Applicants who are not in good disciplinary standing will be reviewed on a case-by-case basis. The final admission decision rests with the program faculty.

An undergraduate senior who meets all of the requirements for admission to the College and the specific degree program, and is within 9 semester hours of completing an undergraduate degree may be granted **Contingent Admission**. Prior to the start of classes in the term of admission, an applicant granted contingent admission must submit an official transcript showing conferral of the degree in order to start graduate coursework. Courses used to fulfill the undergraduate degree requirements will not apply to the graduate degree program of study.

Conditional and Provisional Admission

An applicant who does not meet all of the academic requirements for admission to a degree program may be admitted into one of the following two graduate admission categories upon the recommendation of the graduate program and the approval of the College of Graduate Studies and Research.

Conditional Admission: Applicants lacking mastery of certain, specific program prerequisites may be allowed to obtain that mastery by completing prerequisite coursework by a specified time or point in the graduate program as deemed appropriate by the graduate program. Such applicants will be granted admission and assigned to “conditional status.” Students in conditional status will be required to complete their prerequisite work early in their graduate program, in accordance with the sequence of courses recommended by their graduate program advisor. Failure to complete the prerequisite work by the time the student earns 12 credit hours of graduate-level work will result in a hold being placed on their ability to register for courses in all future terms until the completion of the prerequisite work. Registration holds may only be released for the upcoming semester upon a plan of prerequisite course completion agreed upon by the student and the graduate program advisor.

Provisional Admission: Applicants who do not meet the standard academic background expected for full admission to a degree program, may, in some cases, be granted admission to “provisional status” upon the recommendation of the graduate program and the approval of the College of Graduate Studies and Research. Admission to provisional status may result from an applicant having:

1. a degree from an institution for which academic credit equivalency cannot be established, or one that issues transcripts with ungraded academic records.
2. an undergraduate cumulative grade point average that is below 2.75.
3. an erratic undergraduate academic record.

Students admitted to provisional status must achieve a grade of B or better in all courses taken until the term of completion of the first 9 graduate-level credits in the program. Failure to meet this performance standard will result in dismissal from the program.

Students admitted to provisional status who also lack mastery of certain, specific program prerequisites may also be allowed to obtain that mastery by completing prerequisite coursework as described above. Such students will be subject to both expectations described above for students in provisional and conditional status.

Applicants must be in good disciplinary standing at schools previously attended. Applicants who are not in good disciplinary standing will be reviewed on a case-by-case basis.

Notification of Admission

The Graduate Admissions Office will inform students in writing of the admissions decision. Students who are admitted should contact their program advisor within two weeks of receiving notification of admission, register for the courses they plan to take in their first term, and participate in orientation programs as specified by the college and/or program.

Since each graduate degree program has its own specific course requirements, it is imperative that the student assumes the responsibility for contacting the assigned advisor in the program. The letter of admission will identify the advisor. The student should contact the program advisor well in advance of any registration period, as detailed program advising cannot be done, and should not be expected, just prior to the start of classes.

International Students

International Students are required to follow all admissions processes and fulfill all of the admissions requirements noted above. Additionally, they must demonstrate that they meet eligibility requirements for F-1 visa status and English language proficiency.

Eligibility for F-1 visa status requires demonstrating the availability of sufficient funds for attending school and for living expenses. This is done by completing and submitting a notarized Northeastern Financial Statement along with notarized supporting documents, which include an official, notarized bank letter obtained from the financial institution(s) of the sponsor(s) identified in the Northeastern Financial Statement. Further details can be obtained on the website of the Office of International Programs (<http://www.neiu.edu/international/>).

English language proficiency: International students must demonstrate English language proficiency as evidenced by an approved standardized test. International applicants are exempt from this requirement if they have earned a degree from a regionally-accredited U.S. college or university.

NEIU accepts scores from both the Test of English as a Foreign Language (TOEFL) as well as from the International English Language Testing System (IELTS). Minimum acceptable scores are 79 on the TOEFL iBT or a 6.5 composite score on the IELTS. Some programs require a TOEFL or IELTS score that is higher than the university minimum requirement; these can be found on the application along with other program-specific requirements.

Applicants who do not meet the English language proficiency minimum scores may be considered for conditional admission to a graduate degree program in conjunction with Northeastern's intensive English program (SAELL). SAELL provides training for international students to meet the English language proficiency requirement. International applicants with IELTS composite scores of 5.0 or better or TOEFL iBT scores of 35 or better may be considered for a special joint admission to SAELL with conditional admission to a graduate degree program. Joint conditional admission requires international students to begin studies at NEIU in the SAELL intensive English program, with a guarantee of admission to the graduate degree program upon demonstration of English language proficiency within 12 months of beginning in the SAELL program. Further details can be obtained on the website of the Office of International Programs (<http://www.neiu.edu/international/>).

Admission Acceptance / Deferral

Students may request, in writing, a deferral of their matriculation for up to one year. Requests for deferment should be submitted to the Graduate Admissions Office at grdeferment@neiu.edu.

Graduate Transfer Credit Policy

Graduate transfer credits are any credits used to fulfill Northeastern Illinois University graduate degree requirements which are:

1. earned at Northeastern prior to the term of admission to a graduate program: OR
2. earned at a regionally accredited college or university or recognized international college or university. These transfer credits may be earned either prior to or after admission to a Northeastern graduate program.

All graduate transfer credits that are used to fulfill degree requirements need to be approved by the program.

Students should submit their transfer credit request form before the completion of 9 credit hours after admission to the program. Any delay in the completion of the transfer credit request may impact the student's graduation date. Credits transferred in the final semester before graduation will delay graduation until the credits are posted.

Credits earned for thesis hours are not transferable.

Coursework credits are eligible for transfer credit only if they meet the following criteria:

- a. Credits must be for graduate-level work;
- b. The course grade must be a B- or higher;
- c. Credits must have been completed within 6 years of expected graduation.

See the Graduate Certificate Programs policy (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/graduate-certificate-programs/>) for information explaining the relationship between related certificates and degree programs.

1. Coursework taken at Northeastern prior to admission to a graduate program: Credit for coursework taken at Northeastern prior to admission to a graduate program, which the student wishes to count towards that graduate program, is limited to no more than 50% of the program requirements, except in the case of credits from an earned graduate certificate. The entirety of credits from an earned graduate certificate can be counted towards a graduate degree program (see the Graduate Certificate Programs policy (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/graduate-certificate-programs/>)). No additional transfer credit is allowed if credits from an earned certificate represent 50% or more of the total program requirement credits.
2. Coursework taken outside of Northeastern: Graduate transfer credits can be earned either before admission to the student's program or after admission to the program, provided that the total number of transfer credits (regardless of when they were earned) does not exceed 9 hours, unless approved specially as part of a formal university agreement. Formal university agreements allowing external transfer credits that would exceed 50% of the course credit requirements for any graduate program must be reviewed and approved via normal governance process. All transfer credits earned after the student has been admitted to his/her program must be approved by the advisor, program advisor, and the Dean of the College of Graduate Studies and Research prior to enrollment at the other institution.

Student-At-Large

STUDENT-AT-LARGE WITH DEGREE

CLASSIFICATION AND DEFINITION

Students with bachelor's or graduate degrees who wish to enroll at Northeastern as non-degree candidates. Students who wish to enter a master's program must make formal application to the Graduate Admissions Office. A maximum of nine credit hours taken in this at-large classification may apply toward a master's degree.

Courses are not automatically accepted into a master's program. Such work would have to correspond to specific program requirements and satisfy all scholastic requirements of the master's program.

Students-at-Large with degree are not eligible to receive financial aid.

REQUIREMENTS FOR ADMISSION

Graduation from a regionally accredited college or university.

HOW TO APPLY FOR ADMISSION

1. Submit Student-at-Large application for admission with a \$30 application fee to the Admissions Office. We encourage students to apply online for faster processing.
2. Submit official transcript from which the highest degree was awarded.
3. If you are a Permanent Resident of the United States, attach a clear photocopy of the front of your Permanent Resident card. If you have been granted temporary residence, conditional entrance, are a parolee, refugee, asylee, or in the process of becoming a Permanent Resident, you must submit appropriate U.S. Citizenship and Immigration Services documentation and/or copy of a valid visa.

NOTE: If you have previously attended Northeastern Illinois University as an undergraduate student, you must submit proof of your degree to the Admissions Review and Processing Office.

STUDENT-AT-LARGE WITHOUT DEGREE

CLASSIFICATION AND DEFINITION

Undergraduate students working toward a baccalaureate degree at another college or university. NOTE: Students-at-large interested in earning an undergraduate degree at Northeastern must submit an application for admission and meet undergraduate admission requirements.

Students-at-Large without degree are not eligible to receive financial aid.

Students-at-Large who later apply as degree-seeking students and are denied will not be allowed to continue to enroll in the Student-at-Large status. An appeal may be submitted to the Admissions Appeal Committee.

REQUIREMENTS FOR ADMISSION

Graduation from high school or Satisfactory completion of the G.E.D. **AND** must be in good academic standing at last college attended and have cumulative GPA of 2.0 or higher (4.0 scale).

HOW TO APPLY FOR ADMISSION

1. Submit Student-at-Large application for admission with a \$30 application fee to the Admissions Office. We encourage students to apply online for faster processing.
2. If you are a Permanent Resident of the United States, attach a clear photocopy of the front of your Permanent Resident card. If you have been granted temporary residence, conditional entrance, are a parolee, refugee, asylee, or in the process of becoming a Permanent Resident, you must submit appropriate U.S. Citizenship and Immigration Services documentation and/or copy of a valid visa.

NOTE: Transcripts are not required.

Readmission

Admission Requirements and Application Procedures

Inactivation/Re-admission Policy

An undergraduate or graduate student who does not enroll in at least one course over three consecutive semesters, including the summer semester, will have his/her student status changed from "Active" to "Inactive". An undergraduate student must be re-admitted to the University or as a student-at-large to register for additional classes.

A graduate student must be re-admitted to the same program, admitted to a different program, or admitted as a student-at-large to register for additional classes. Re-admission to a student's original program is not guaranteed.

All re-admitted students are subject to the catalog year requirements based on their semester of re-admission and enrollment.

Bachelor of Arts in Interdisciplinary Studies (BAIS) Inactivation/Re-admission Policy

An undergraduate Interdisciplinary Studies student who does not enroll in at least one course over six semesters, including the summer semester, will have his/her student status changed from "Active" to "Inactive". An inactive Interdisciplinary Studies student will need to be re-admitted to the University and the Interdisciplinary Studies program. Re-admitted students are subject to the catalog year requirements based on their semester of re-admission and enrollment.

Requirements For UNDERGRADUATE RE-Admission

Good standing at the time of last attendance at Northeastern. Students who have enrolled at other institutions since leaving Northeastern must have an overall "C" average and be in good standing at those institutions.

How to Apply for Admission

1. Submit an application for admission with a \$30 application fee to the Admissions Office. We encourage students to apply online for faster processing.
2. Arrange to have official transcripts sent from any colleges or universities attended since leaving Northeastern.
3. If you are a Permanent Resident of the United States, attach a clear photocopy of the front of your Permanent Resident card. If you have been granted temporary residence, conditional entrance, are a parolee, refugee, asylee, or in the process of becoming a Permanent Resident, you must submit appropriate U.S. Citizenship and Immigration Services documentation and/or copy of a valid visa.
4. International Students must submit a new/updated Northeastern Financial Statement and required supporting documents.

Veterans

Veterans Admission Requirements and Application Procedures

Classification and Definition

Persons returning from at least one year of active military service will be readmitted or reinstated regardless of previous scholastic record, provided Northeastern Illinois University is the first institution of higher education attended following release from service.

Veterans Services Office

The Veterans Services Office (D-130) provides veterans, active military members, reservists, and their families guidance on obtaining their federal and state veterans educational benefits. The Veterans Services Office strives to assist the military community with all aspects of their NEIU experience.

Note: Veterans benefits are approved by the Illinois State Approving Agency.

Prospective military-connected students are encouraged to contact the Coordinator of Veterans Services for assistance with navigating the admissions application process. Please visit the Veterans Services Office (D-130) to learn what veterans' resources NEIU offers. For more information, call (773) 442-4005, email veterans@neiu.edu or visit our webpage, <http://admissions.neiu.edu/veterans-services> (<http://admissions.neiu.edu/veterans-services/>).

Credit for Military Service

Four credit hours are awarded to veterans who have been honorably discharged and have served a minimum of one year on active duty or in the guard/reserve. Veterans must submit Member 4 of their DD214 to the Admissions Review and Processing Office at the time of application for admission.

Credit is also allowed for those United States Armed Forces Institute (USAFI) courses for which the American Council on Education recommends credit at the baccalaureate level, provided the student has passed the appropriate USAFI end-of-course test or examination.

Credit for service schools successfully completed may be evaluated upon request. In order to grant credit to veterans for service/school training, veterans must provide transcripts. These transcripts are free to all eligible soldiers, sailors, marines, and airmen. More details are available at the following websites.

USAF-CCAF Transcripts: <http://www.airuniversity.af.mil/Barnes/CCAF> (<http://www.airuniversity.af.mil/Barnes/CCAF/>)

Joint Services Transcripts for Army, Coast Guard, Marine Corps, and Navy: <https://jst.doded.mil>

The student must file the Request for Evaluation form available in Enrollment Management Services (D-101).

ROTC Programs

Air Force ROTC

Students may enroll in the Air Force ROTC program at the Illinois Institute of Technology (IIT). The four-year and two-year programs allow qualified men and women the opportunity to earn commissions as Second Lieutenants in the U.S. Air Force upon graduation and completion of Air Force ROTC. Federal scholarships are available to qualified students of either program and pay full tuition and fees, \$600 a year towards textbooks, and \$250-400 monthly subsistence allowance. State of Illinois ROTC scholarships are also available to qualified students and pay full tuition. All members of the Professional Officer Course also receive the monthly subsistence allowance.

The Air Force ROTC courses are taught on the IIT campus. For more information on Air Force ROTC, call (312) 567-3535/(312) 567-3526 or stop by 10 W. 21st Street (IIT Stuart Building) in Chicago.

Military Science (Army ROTC)

Military Science (Army ROTC) is offered through Northeastern Illinois University in conjunction with Loyola University Chicago. Loyola is the host school for all of Army ROTC in the northern Chicago area. Basic courses (freshman and sophomore level) are open to all students and require no prerequisites. The advanced portion of the course for juniors and seniors is only open to those students who meet special ROTC criteria.

All lecture courses, physical training courses and Leadership Labs are offered off campus at Loyola University Chicago or alternate locations near Northeastern. Army ROTC is time-intensive and on average meets five times per week or more. For further information on scholarship opportunities call the Recruiting Operations Officer at Loyola University Chicago, Army ROTC at (773) 508-8980.

AP, IB, CLEP, Dual Admission

Credit for Advanced Placement (AP)

Students who have successfully completed Advanced Placement exams may receive college credit for this work. Please refer to the Advanced Placement Transfer Guide for information about the subjects and minimum passing scores. The guide is available online on our Credit by Examination page (<http://admissions.neiu.edu/transfer-center/credit-examination/>) or in Enrollment Management Services.

Please send official Advanced Placement score reports to the Admissions Review and Processing Office for review. A maximum of 30 credit hours may be awarded for Advanced Placement exams. This credit is included in the maximum of 64 semester hours transferable from community colleges.

Credit for College Level Examination Program (CLEP)

Students who have successfully completed College Level Examination Program (CLEP) general or subject exams may receive college credit for this work. Please refer to the CLEP Transfer Guide for information regarding transferable subjects and minimum passing scores. The guide is available online at the Credit by Examination page (<http://admissions.neiu.edu/transfer-center/credit-examination/>) or in Enrollment Management Services.

Please send official CLEP score reports to the Admissions Review and Processing Office for review. A maximum of 30 credit hours may be awarded for CLEP exams. This credit is included in the maximum of 64 semester hours transferable from community colleges.

Credit for International Baccalaureate (IB)

Students who successfully complete the International Baccalaureate (IB) Diploma Programme may receive college credit for this work. Please refer to the International Baccalaureate Transfer Guide for information regarding transferable subjects and minimum passing scores. The guide is available online at the Credit by Examination page (<http://admissions.neiu.edu/transfer-center/credit-examination/>) or in Enrollment Management Services.

Please send official IB score reports to the Admissions Review and Processing Office for review. A maximum of 30 credit hours may be awarded for International Baccalaureate exams. This credit is included in the maximum of 64 semester hours transferable from community colleges.

State Seal of Biliteracy

As required by Illinois HB 4330, the State Seal of Biliteracy recognizes Illinois public high school graduates who have attained a high level of proficiency in one or more languages in addition to English.

Requests for translation of a State Seal of Biliteracy are to be made by contacting the Admissions Office for the request form. The course credit review will be completed by the Department of World Languages and Cultures.

Guaranteed and Dual Admission

Northeastern has agreements with many area community colleges that allow for concurrent admission to the community college and Northeastern, simplifying the transfer process. Under the agreement, students who wish to participate must meet the admissions requirements of both institutions as well as the admissions requirements of the Northeastern program in which they desire to major. Both institutions will provide students with select services to guarantee a seamless transfer process.

Students who wish to be admitted to Northeastern will submit an application to both Northeastern and one of the community colleges with which there is an agreement in place. The applications and academic credentials will be reviewed by both institutions. Students who enroll in the program will have access to Northeastern's campus and select services while attending their community college. Students must maintain continuous full- or part-time enrollment with a 2.0 grade point average to remain eligible for the dual admission program. Agreements can be found under the Dual Admissions category at <http://admissions.neiu.edu/transfer-center> (<http://admissions.neiu.edu/transfer-center/>).

Students who are interested in this program should contact the Northeastern Illinois University Admissions Office.

Tuition and Fees

Tuition Guarantee Plan - Undergraduate Students

Beginning with the Fall 2004 semester, tuition for newly enrolled undergraduate students seeking their first bachelor's degree is guaranteed for four consecutive years. The Tuition Guarantee Plan will help you and your family budget your educational expenses. The Tuition Guarantee Plan applies only to tuition. Fees may increase during the four years. See the current Class Schedule online for more information.

Extension to Tuition Guarantee Plan

Beginning in the Fall 2010 term, undergraduate students who previously qualified for the Tuition Guarantee Plan, as defined above, will now qualify for two additional years of guaranteed tuition. The tuition rate for the additional two years is equal to the amount charged to undergraduate students seeking their first Bachelor's degree who initially enrolled in the academic year following the students with the additional tuition guarantee. For example, students who first enrolled in Fall 2007 had their tuition guaranteed at the same rate through Summer 2011, and now will have their tuition rate guaranteed for two additional consecutive academic years at the rate charged to students who first enrolled in Fall 2008.

Please note: Tuition and fees are assessed per credit hour up to a total of 16 credit hours.

Tuition

Tuition Per Credit Hour

Undergraduate (Newly Enrolled Fall 2019 or Spring 2020)	\$404.11
Graduate	\$412.20
Non-Resident Undergraduate (Newly Enrolled Fall 2019 or Spring 2020)	\$808.22
Non-Resident Graduate	\$824.40
Fees Per Credit Hour	\$76.25

Tuition and Fees for Enrollment of 12 credit hours ^{1,2}

Undergraduate (Newly Enrolled Fall 2019 or Spring 2020)	\$5,886.32
Graduate	\$5,983.40
Non-Resident Undergraduate (Newly Enrolled Fall 2019 or Spring 2020)	\$10,735.88
Non-Resident Graduate	\$10,929.80

¹ These totals do not include the cost of health insurance.

² These totals do include the \$3 per semester Green Fee as well as the \$155 U-Pass fee.

Tuition and fees are subject to change without notice.

Refunds

Final dates for refunds when withdrawing from classes are stated in the online Schedule of Classes. A service charge will be deducted for processing refunds for complete withdrawal of all classes.

Parking fees are not refundable and may not be waived after the tenth day of classes.

Fees

Mandatory Student Fees

Students registered at Northeastern Illinois University pay a variety of fees intended to enhance and facilitate many aspects of campus life.

Parking Fee – University students have three options regarding on-campus parking.

1. Participate in the Blue level parking program
2. Participate in the Gold level parking program
3. Waive out of the parking program entirely

Students are automatically billed a Blue level parking fee of \$9.00 per credit hour, up to a maximum of 16 enrolled credit hours per semester. Vehicle registration for a virtual parking permit can be done on-line (<http://www.neiu.edu/university-life/parking/virtual-permit-parking/>).

Gold level parking is available at a rate of \$379.00 per semester. Students who wish to participate in Gold level parking must visit Student Payment Services to sign a waiver form to opt out of Blue level parking and purchase Gold level parking.

Students who do not want to participate in the parking program must opt out of the program by submitting a waiver form to Student Payment Services in person or via email. The waiver form and more parking information are available in Student Payment Services or on the University Parking (<http://www.neiu.edu/university-life/parking/>) web page.

The **Student Union Fee** helps support the Student Union, which is the heart of the activity program on campus. It is the setting for lectures, discussions, concerts, dances, meetings and other activities. The facilities include food services, lounges and meeting rooms.

The **Student Activity Fee** is used to support the Student Government, student organizations and clubs, and the many activities, programs, media and events sponsored by the above groups.

The **Computer Resource Fee** is dedicated to the enhancement of computer services available to students. Such purposes shall include the addition of computer workstations in a lab situation, additional “smart classrooms,” and increased access to all the networks and communications highway currently in place as well as those to be built in the future. There will be an increased availability of staff to assist students in learning to take advantage of the new and evolving information technologies.

The **Campus Improvement Fee** supports current and future long-term investments in capital facilities and technology infrastructure.

The **Green Fee** funds implementation of clean and renewable energy technologies and improvement of campus energy efficiency at Northeastern Illinois University.

The **Library Fee** supports library initiatives such as purchasing books and other learning materials.

The **Freshman Orientation Fee** is a mandatory one-time fee paid by freshmen who are not transferring previously earned college credit; this fee supports orientation programs for these students.

The **Performing Arts Fee** helps to support university theatre and dance productions and musical concerts.

The **Campus Recreation Fee** supports a comprehensive recreation program, including intramurals, wellness and fitness programs, aquatics, sport clubs and informal recreation.

The **Health Service Fee** enables the university to provide assessments and care for a wide range of student health concerns.

The **Chicago Transit Authority (CTA) U-Pass Fee** provides an unlimited ride pass for the CTA, available to all full-time students. For the Spring, Summer and Fall terms, full-time is defined as 12 credit hours minimum for undergraduate students and 9 credit hours minimum for graduate students.

The **Academic Enhancement Fee** is dedicated to University renovation, improvement and upgrade of classrooms, laboratories and other academic space.

Student Health Insurance

Student health insurance is no longer a mandatory University fee for full-time undergraduate students. Students looking for health insurance that meets ACA (Affordable Care Act) requirements may enroll in an optional student health insurance plan offered by Aetna Student Health.

The following students and dependents are eligible to enroll in the plan on a voluntary basis:

- Registered undergraduate students taking a minimum of 6 credit hours, including those registered in the University Without Walls program.
- Registered graduate students enrolled for a minimum of 3 credit hours.

- Registered international students holding an F1 or J1 visa and enrolled in (1) or more credit hours.
- Spouses, domestic partners and children of eligible students.

Enrollment will begin in July 2018 for the fall term. To enroll online, please refer to Aetna's Northeastern Illinois University student health insurance plan (<https://www.aetnastudenthealth.com/en/school/697402/>) and follow the instructions. Premium payment will be made directly to Aetna Student Health. The University will no longer directly enroll or charge students for health insurance.

Students may also qualify for health insurance through the State of Illinois official ACA health marketplace (<https://getcovered.illinois.gov/en/>).

Financial Aid, Scholarships and Student Employment

Northeastern Illinois University is committed to providing an affordable education to all qualified students. The primary responsibility for covering the cost of attendance rests with the family and is reflected in the Expected Family Contribution. Determined by the Free Application for Federal Student Aid (FAFSA), Federal and State assistance programs are meant to supplement educational costs. For purposes of financial aid eligibility, half time enrollment is defined as six (6) credit hours. Financial Aid is located in D-200 (773-442-5016) and offers assistance in meeting educational expenses through grants, scholarships, student employment programs and loans.

Federal Grants

Programs	Eligibility	Description of Programs	Repayment	Office to Contact
Federal Pell Grant	The Federal Pell Grant eligibility is determined by the completion of the FREE Application for Federal Student Aid or FAFSA. Students with an Expected Family Contribution or EFC of 5,576 or less are eligible for the Federal Pell Grant. The amount of Federal Pell Grant funds a student may receive over his or her lifetime is limited by federal law to be the equivalent of six years of Pell Grant funding. Since the maximum amount of Pell Grant funding a student can receive each year is equal to 100%, the six-year equivalent is 600% (or six years, full-time).	Applies to tuition and fees plus other educational expenses. Possible summer eligibility.	No repayment obligation. Expires after six (6) years, fulltime awards.	Northeastern Financial Aid
Federal Supplemental Educational Opportunity Grant	(Undergraduate) Limited availability. Must show exceptional need and be Pell Grant eligible. Must be enrolled at least half time, in a degree program. Must file FAFSA by NEIU priority file date – possible summer term eligibility.	Program is considered a source of grant funds to supplement other federal aid programs such as the Federal Pell grant (described immediately above) if the student continues to show need.	No repayment obligation.	Northeastern Financial Aid
Federal TEACH (Teacher Education Assistance for College and Higher Education)	U.S. citizen; FREE Application for Federal Student Aid or FAFSA required; Full acceptance into the College of Education; Declared major in a 'high need' field; Signed Agreement to Serve with the U.S. Department of Education	Up to \$4,000	Reverts to Unsubsidized Direct Stafford Loan IF conditions of Agreement to Serve are not met	Northeastern Financial Aid

State Grants

Programs	Eligibility	Description of Programs	Repayment	Office to Contact
Illinois Monetary Award Program (ISAC)	(Undergraduate) Must be resident of Illinois and enroll for at least three credit hours. Based on need only. Must be enrolled in a degree program. Expires after ten (10) full-time terms of use.	Applies to tuition and fees only. Must apply annually.	No repayment obligation. Expires after 135 paid credit hours.	Northeastern Financial Aid or ISAC, 1755 Lake Cook Rd., Deerfield, IL 60015-5209, (847) 948-8500.
Illinois AIM HIGH/NEIU Golden Opportunity Scholarship	(Undergraduate) Renewable scholarship for first-time, full-time freshmen enrolled in at least fifteen (15) credit hours. FAFSA required with Annual Available Income below \$61,000 and official high school academic grade point average of 3.0 or greater.	Applies to Cost of Attendance for an equivalent of four years of enrollment.	No repayment obligation. Expires after four (4) years, fulltime awards.	Northeastern Financial Aid
Illinois Veterans Grant (ISAC)	Undergraduate or Graduate) Veterans must: Have at least one full year of active duty in the U.S. Armed Forces (or served in a foreign country in a time of hostility), and received an honorable discharge; Have completed his or her initial activity duty commitment; Have resided in Illinois within six months before entering the service; Have returned to Illinois within six months after discharge from the service; Be enrolled at an Illinois public2 or 4 year college; Not be in default on any student loan, nor owe a refund on any state or federal grant; and maintain the minimum grade point average (GPA) required by the applicant's college	Payment of tuition and some fees for an equivalent of four years of enrollment at any state university or Illinois public community college.	No repayment obligation.	Northeastern's Veterans Services Office (773) 442-4005 or ISAC, 1755 Lake Cook Rd., Deerfield, IL 60015-5209, (847) 948-8500.

Illinois National Guard/ Naval Militia (ISAC)	(Undergraduate and Graduate) to be eligible for the Illinois National Guard grant a student must: be an Illinois National Guard member, defined as meeting one of these two criteria: Be active in the Illinois National guard or have been active in the Illinois National guard for at least five consecutive years and have been called to federal active duty for at least six months and be within 12 months after your discharge date from the Illinois National Guard. Have completed one full year of service in Illinois National Guard; be an enlisted member or an officer (Public Act 94-583); be enrolled at an Illinois public 2 or 4 year college; not be in default on any student loan, nor owe a refund on any state or federal grant; and maintain an acceptable grade point average according to the policy determined by their college.	No repayment obligation	Payment of tuition and some fees. at any state school. Students may enroll full or part-time.	Northeastern's Veterans Services Office (773) 442-4005 or ISAC, 1755 Lake Cook Rd., Deerfield, IL 60015, (847) 948-8500.
Illinois Special Education Teacher Tuition Waiver	(Undergraduate or Graduate) Be an Illinois Resident. Student must sign the application's Teaching Agreement/Master Promissory Note promising to fulfill the teaching commitment or repay funds received plus interest and Not receive funds from the Minority Teachers of Illinois (MTI) Scholarship Program or the Golden Apple Scholars of Illinois Program during the same term(s).	For teachers or an academically talented students pursuing a career in special education as a nonprofit public, private or parochial preschool, elementary or secondary school teacher in Illinois, you may be eligible for the Illinois Special Education Teacher Tuition Waiver Program.	Sign the application's Teaching Agreement/ Master Promissory Note promising to fulfill the teaching commitment or repay funds received plus interest	ISAC, 1755 Lake Cook Rd., Deerfield, IL 60015, (847) 948-8500

Illinois Minority Teachers Scholarship	Be an Illinois resident, be a minority student of either African American/ Black, Hispanic American, Asian American or Native American origin; sign the application's Teaching Agreement/Promissory Note promising to fulfill the teaching commitment or repay funds received plus interest; ; not receive funds from the Illinois Special Education Teacher Tuition Waiver (SETTW) Program or the Golden Apple Scholars of Illinois Program during the same term(s)	If: 1) you plan to teach at a nonprofit Illinois public, private, or parochial preschool, elementary school, or secondary school, for which the Illinois State Board of Education (ISBE) has determined that no less than 30 percent of the enrolled students are African American/Black, Hispanic American, Asian American, or Native American; and 2) you are of African American/ Black, Hispanic American, Asian American or Native American origin, then you may qualify for up to \$5,000 per year as part of the Minority Teachers of Illinois (MTI) Scholarship Program.	the teaching commitment for this program must be fulfilled at a nonprofit Illinois public, private, or parochial preschool, elementary school, or secondary school, for which the Illinois State Board of Education (ISBE) has determined that no less than 30 percent of the enrolled students are African American/ Black, Asian American, Hispanic American, or Native American	ISAC, 1755 Lake Cooke Rd., Deerfield, IL 60015, (847) 948-8500

INSTITUTIONAL SCHOLARSHIPS

Programs	Eligibility	Description of Programs	Repayment	Office to Contact
Eagle Performance Funds	(Undergraduate) Enrolled full-time. Must complete FAFSA. Must be enrolled in a degree program. Must show need. Must file FAFSA by NEIU priority file date, be in MAP Grant suspense and maintain academic grade point average of 3.0 or above	Supplement educational costs for those students eligible for the Monetary Award Program grant but who are in a suspense statuses due to limited State of Illinois funding	Not applicable	Northeastern Financial Aid
City of Chicago Star Scholarships	Complete an associate's degree from one of the City Colleges of Chicago, submission of FAFSA, enroll full time and maintain cumulative academic grade point average of 3.0	In recognition of the educational excellence of Chicago Star Scholarship students, CCC Star Scholars who graduate from CCC with an Associate Degree and a minimum GPA of 3.0 will be admitted to Northeastern Illinois University and will be eligible to receive an NEIU Star Scholar Award of \$2,500.	Not applicable; scholarship expires after 2 years	Northeastern Financial Aid

William D. Ford Federal Direct Loan Program

Programs	Eligibility	Description of Programs	Repayment	Office to Contact
Direct Loans (Subsidized & Unsubsidized)	(Undergraduate and Graduate) Enrolled full or half-time. Must complete FAFSA. Must be citizen or permanent resident of the United States.	Dependent undergraduate loan limits according to academic level: \$3,500 to \$7,500 per yr. Independent undergraduate loan limits according to academic level: \$3,500 to \$12,500 per yr. Subsidized Eligibility limited to equivalent of six years full time. Graduate (masters and TLP) loan limits according to \$20,500 per yr. Unsubsidized eligibility only.	The loan has a fixed rate with a cap of 6.8%. Repayment begins 6 months after you graduate, leave school or drop below half-time status.	Northeastern Financial Aid
PLUS Loans (Parent Loan for Undergraduate Students)	Dependent undergraduate students. Credit worthiness required.	Amount not to exceed student's cost of attendance.	Fixed interest rate of 8.5%. The full loan amount plus interest must be repaid. The first payment is due within 60 days after the final disbursement of the loan (unless a deferment is obtained).	Northeastern Financial Aid
Graduate PLUS Loans	Graduate master's degree students. Credit worthiness required.	Amount not to exceed student's cost of attendance	Fixed interest rate of 8.5%. The full loan amount plus interest must be repaid. The first payment is due within 60 days after the final disbursement of the loan (unless a deferment is obtained).	Northeastern Financial Aid

Applying for Student Financial Assistance

How To Apply For Financial Aid

The primary financial aid application form is the Free Application for Federal Student Aid (FAFSA (<https://fafsa.ed.gov/>)). This form is available on-line beginning October 1 for the upcoming award year.

- Your admission application to the University must include your social security number and date of birth in order to match receipt of the FAFSA.
- If you have completed the FAFSA and need to add NEIU as a school to receive your information, enter the Title IV school code of 001693 in the application.
- Using FAFSA (<https://fafsa.ed.gov/>) on the web to file, students can select to sign electronically using a Federal Student Aid Identification Number or FSA ID. Students can apply for a Federal Student Aid ID (FSA ID) (<https://fsaid.ed.gov/npas/>) on the FAFSA site. Dependent students will also need at least one FSA ID from one parent.
- For priority consideration for all institutional financial aid, your FAFSA should be received at NEIU by February 15.
- The Internal Revenue Service (IRS) Data Retrieval is available to streamline the FAFSA completion and verification process. If the federal tax return is 'Already Completed' for the appropriate tax year, the student and/or spouse/parent can retrieve data directly from the IRS into the FAFSA. Note that once IRS data is transferred, all amounts will be masked.

You will receive a Student Aid Report or SAR through the email address provided on the FAFSA. If any of the information on the SAR is incorrect, make the necessary corrections through the FAFSA (<https://fafsa.ed.gov/>) site. If all the information is correct, save a copy for your records. To have Northeastern Illinois University receive the data from the FAFSA, add the University to the listing of schools by name search or by Title IV School Code (001693). Once received, the University will update the NEIUport student portal with the most current status.

Applicants and their parents should be prepared to furnish any information verifying data on the application. This may include documents from the Internal Revenue Service for the verification process.

Applications will be processed and awards will be made on a first come, first served basis for campus-based funds (Federal Work Study, Federal Supplemental Educational Opportunity Grants). Federal Pell Grant, Monetary Award Program Grant (ISAC), AIM HIGH/Golden Opportunity Scholarship (ISAC) and Direct Loan applications are also reviewed in date order. Although the amounts of these awards are not determined by the date priority, early applicants will receive their award offers first.

You will receive an award offer detailing the financial aid for which you qualify. All financial aid funds will be credited to your NEIU billing account. If the total credited funds exceed your NEIU bill, you will be notified of the credit balance refund distribution process from Student Payment Services. Students can register for direct deposit using NEIUport, Registration Tools in the Student tab. Students choosing to pick up a paper check must provide two documents of identification, one of which must be the University ID.

Additional information concerning financial assistance and filing deadlines can be obtained by checking the student portal, the website, email at Financial-Aid@neiu.edu or fax at (773) 442-5040.

Steps to Apply for Federal Student Assistance

1. Create a Federal Student Aid ID (<https://fsaid.ed.gov/npas/>). A FSA ID gives you access to Federal Student Aid's online systems and can serve as your legal signature.
2. Use your FSA ID log into the FAFSA (<https://fafsa.gov/>) site and complete the **FREE Application for Federal Student Aid** using the household income for two years prior to the year you plan to enroll. For example, if you plan to enroll in 2018-2019, the income required for the FAFSA is 2016.
 - a. Transfer income using the **IRS Data Retrieval**: Secured file transfer based on address information from the actual tax return. Check the appropriate box to transfer the data from IRS into the FAFSA. Due to security all income information transferred will be 'masked.'
 - b. Manually enter income without using the IRS Data Retrieval: First, the benefit for using the IRS Data Retrieval is that - if selected for the verification process - Financial Aid will waive the request for tax transcripts and W-2 forms.
3. Most information on the FAFSA - with exception of the income - is based on the day on which you are submitting the application. An example of this is marital status.
4. Submit the FAFSA using the Title IV School Code for Northeastern Illinois University (001693) and monitor your email for your Student Aid Report.

Federal Student Aid Programs

Federal Pell Grant
Federal Supplemental Educational Opportunity Grant
Federal TEACH Grant
Federal Direct Subsidized Loan

Federal Direct Unsubsidized Loan

Steps to apply for State of Illinois Assistance

1. Complete and submit the **FREE Application for Federal Student Aid** (FAFSA (<https://fafsa.gov/>)).
2. Based on the date in which you submit your FAFSA, eligibility for the **Illinois Monetary Award Program** Grant will be determined by Northeastern Illinois University. If you are in a suspense status based on the date the FAFSA is submitted and have a cumulative academic grade point average of 3.0 or above, eligibility will be determined for Eagle Performance Awards.
3. **Teacher-Based scholarship** applications are available through the Illinois Student Assistance Commission (ISAC (<http://www.isac.org/students/during-college/applying-for-financial-aid/applications/>)). These scholarships include:
 - a. Special Education Teacher Tuition Waiver
 - b. Minority Teacher Scholarship
 - c. Golden Apple
4. **Veteran-Based scholarship** applications are available through ISAC (<http://www.isac.org/students/during-college/applying-for-financial-aid/applications/>). These scholarships include:
 - a. Illinois Veteran's Grant
 - b. Illinois National Guard
 - c. MIA/POW Scholarships

Steps to Apply for Institutional Assistance: Don't Stop at the FAFSA!

Once your **FREE Application for Federal Student Aid** (FAFSA (<https://fafsa.gov/>)) is submitted each October 1st, do not stop there. Your next stop is to complete an online Northeastern Illinois University scholarship application using AcademicWorks! Students are able to search and apply for NEIU Foundation and Tuition Scholarships using the AcademicWorks online scholarship system.

Accessing AcademicWorks

- Go to AcademicWorks (<https://neiu.academicworks.com/>).
- Sign in using your NEIUport login information

Institutional Payment Plan Option

Students and families may pay online or in person at Student Payment Services. For a \$10 Deferment Fee, the following payment plan is available for balances remaining after grants, scholarships and/or loans are applied:

FALL SEMESTER

- August – ¼ balance
- September – ¼ balance
- October – ¼ balance
- November – remaining balance

SPRING SEMESTER

- January – ¼ balance
- February – ¼ balance
- March – ¼ balance
- April – remaining balance

Balances remaining after the end of a semester are subject to a \$50 outstanding balance fee and an Accounts Receivable hold on future registration.

Steps to Apply for Private Assistance

Seek FREE money options first

1. If you have not already, sign up for at least three scholarship searches by creating a profile and a personal statement that can be used as a template for all applications. It is recommended to use one of the following search engines:
 - My Scholly (<https://myscholly.com/theplatform/>) (one-time charge for mobile app)
 - FastWeb (<https://www.fastweb.com/>)

- Sallie Mae (<https://www.salliemae.com/college-planning/tools/scholarship-search/>)
 - Scholarship Owl (<https://scholarshipowl.com/>)
2. If you have not already completed the 'household inventory' of restaurants, entertainment venues, social media and retailers to inquire about scholarships, apply for at least 2 per week.

NEIU and Private Loan Borrowing

The University policy on alternative or private loans is that they be limited to those students who: 1) have student-at-large academic status, 2) are not eligible for financial assistance under Title IV Financial Aid Programs and 3) have exhausted all Direct Loan eligibility. The maximum certification for borrowers not studying abroad is \$9,000.

The process for approval, certification and disbursement of Alternative/Private Loans may be delayed with the new requirement to complete a Private Education Loan Self-Certification Form. Before a borrower can be approved, the student must complete an Alternative/Private Loan Self-Certification (<http://ifap.ed.gov/dpcletters/attachments/GEN1001A-AppSelfCert.pdf>) and have the form mailed or faxed to the lender. The Self-Certification requires the Cost of Attendance for the loan period. A private loan borrower has a 90-day right of refusal to either reject or reduce the loan. For more information on private loans, view the Private Student Loan Comparison Chart. (<http://www.finaid.org/loans/privatestudentloans.phtml/>) Students are also encouraged to refer to the *Understanding Credit* brochure for information about what credit is, why it is important, and how to maintain it.

Minimum Standards of Academic Progress

The U.S. Department of Education Student Financial Aid regulations require that NEIU establish and maintain a policy to measure whether students applying for financial aid are making satisfactory academic progress toward degree completion. NEIU has implemented the following Minimum Satisfactory Academic Progress standards necessary to evaluate a financial aid recipient's continued eligibility for funds.

Types of Aid Covered by the Policy

Grants	Loans	Other
Federal Pell Grant	Federal Subsidized Direct Loan	Federal College Work-Study
Federal Supplemental Education Opportunity Grant (SEOG)	Federal Unsubsidized Direct Loan	ISAC Monetary Award Program (MAP) Grant
Federal TEACH	Federal PLUS Direct Loan	ISAC Minority Teachers
ISAC National Guard Grant(ING)*	Federal GRAD PLUS Direct Loan	ISAC Special Education Teacher
ISAC Veteran's Grant (IVG)*		ISAC AIM HIGH/Golden Opportunity Scholarship

Policy Statement

At the completion of each academic term, students are expected to:

- Complete successfully sixty-seven percent (67%) of attempted credit hours in which they enroll. [The cumulative completion rate is reviewed each term.] -- **AND**
- Maintain a minimum cumulative grade point average of 2.0 or "C" as an undergraduate by the end of each term. [Graduate students are expected to maintain a minimum cumulative grade point average of 3.0 or "B" by the end of each term.] -- **AND**
- Complete the program of study within a maximum timeframe of 180 semester credit hours (undergraduate) or 54 semester credit hours (graduate/ masters).

Academic progress requirements apply to all semesters of enrollment, including those semesters for which no financial aid was disbursed. Although credit hours attempted in developmental coursework do not count toward degree requirements, they do count for academic progress purposes – academic grade point average, completion rate and maximum time frame.

*Pursuant to 23 IL Adm Code 2730 and 2733 students receiving ONLY Illinois National Guard Grant Program OR Illinois Veteran Grant Program awards are exempt from pace and time frame criteria.

Academic Grade Point Average (GPA) Requirement

1. The student's cumulative academic grade point average will be evaluated at the end of each term based on grades received from all attempted coursework including those taken prior to a major change and repeats.
2. If the GPA falls below the requirement, the student's aid will be **suspended**.
3. GPA for developmental coursework is factored into enrollment status and total attempted coursework for financial aid purposes only. Developmental coursework is not factored into a student's official academic standing or degree requirements; however, they are factored in for academic progress purposes.
4. Financial aid eligibility will be reinstated once the student has achieved the minimum requirement or successfully reinstated through the appeal process.

Course Work Completion Rate (PACE) Requirement

A student must successfully complete at least 67% of the cumulative credit hours attempted. **Hours attempted** is defined as semester hours a student is registered after the add/drop period or census date. **Successfully completed** is defined as the total earned number of hours toward graduation in which a student receives a grade of A, B, C, D or P. This includes attempted courses prior to a change in major or academic program, repeat courses as well as developmental coursework and accepted transfer coursework.

1. **Official Withdrawals** are defined as courses dropped after the census date either in person or by way of NEIUport and will be included in hours attempted. A semester of complete withdrawals results in financial aid **suspension**.
2. **Unofficial Withdrawals** are defined as a term of unearned grade points. Examples of unearned grade points include: incomplete (I), failing (F), unofficial withdrawal failing (UWF), never attended failing (NAF) and missing (X). A semester of unofficial withdrawals results in financial aid **suspension**.

3. The standard of 67% will be monitored cumulatively at the end of each term. If, at the end of the term, a student is below the cumulative 67% standard, the student's aid will be **suspended**. This includes terms in which the student is not receiving aid. Aid will be reinstated once the student has achieved the 67% cumulative completion rate or successfully reinstated through the appeal process.

Maximum Timeframe Requirements

1. Full-time undergraduate students are expected to complete their program of study within a maximum time frame not to exceed six years. The time frame for part-time undergraduate students is prorated beyond six years. As 120 credit hours are required for undergraduate programs, students may take up to a maximum 150% or 180 attempted semester hours. **This also includes a limit of 30 semester hours of ESL and/or developmental course work.**
2. Students attempting to earn a second Undergraduate Degree may take up to a maximum 150% of the hours required (as determined by their department) to complete their second Bachelor's degree. This includes the Teacher Certification Program.
3. Full-time graduate (masters) students are expected to complete their program of study within two and one half years. The time frame for part-time graduate students is prorated to a maximum of 54 attempted semesters with the exception of those pursuing Counselor Education and Social Work where the maximum time frame is 60 attempted semester hours.
4. **Attempted semester hours** include successfully completed coursework, accepted transfer credit hours, incompletes, withdrawals – official and unofficial - as well as credit hours resulting from change in major declaration. An NEIU student may repeat coursework once in order to receive a higher grade. Each attempt counts within maximum time frame requirements. Withdrawals do not count as repeat coursework.

Financial Aid Warning, Probation & Suspension

Students will be notified at the end of each semester if they are in a warning, suspension status or approaching maximum time frame by Financial Aid. New students who fail to meet the minimum grade point average and/or pace requirements for their first term will be placed on warning status for the following term. Continuing students approaching maximum time frame will be placed on a warning status when they fall within 20 semester hours of the requirement. Students maintain eligibility while on warning status. Once a student's eligibility is suspended, all future financial aid disbursements stop. Students can request to be reinstated through the appeal process. In the instance students are reinstated on a term-by-term basis, the student will remain in a probationary status until the cumulative requirements are achieved. When conditions of reinstatement are not met, students will be suspended.

Satisfactory Academic Progress Appeal Guidelines

If a student is unable to meet the Satisfactory Academic Progress requirements due to extenuating circumstances, they may submit an appeal requesting the reinstatement of their financial aid eligibility. Grade changes (e.g. incomplete to an earned grade) submitted after the determination of suspension should be communicated to Financial Aid, as an appeal may no longer be required. Students who wish to appeal after being placed on suspension status must complete the following steps:

1. Submit a signed **typewritten statement** to NEIU Financial Aid explaining why the requirements were not met. The petition is available in downloadable form on the Financial Aid website (<http://www.neiu.edu/financial-aid/>). Letters of appeal sent by e-mail will not be accepted.
2. **Include supporting documentation** verifying the situation (letter from physician, copy of memorial service, police or accident report, etc.) with the appeal petition.
3. Include an academic plan of action that will enable the student to meet the minimum Standards of Academic Progress requirements in the future.
4. Students suspended for exceeding the maximum hours requirement should also **include a degree audit from their department academic advisor** listing the courses still needed to complete their degree AND the anticipated date of graduation.
5. **Deadlines for appeals:** Fall semester – October 15, Spring semester – March 15 and Summer semester – June 15.

Appeals will be considered by the Satisfactory Academic Progress Appeal Committee, which will render a decision. There is no defined limit on how many appeals a student can submit for review. This committee consists of members from various NEIU faculty and advisors, including Financial Aid. The Committee meets every six to eight weeks during the semester unless an emergency situation occurs and the meeting is rescheduled. Financial Aid will notify the student in writing of the committee's decision.

Students in suspension status may enroll in classes. However, if their appeal is denied the student is responsible for any charges incurred at NEIU. Financial aid cannot be retroactively reinstated if an appeal is approved AFTER a semester has ended.

Return of Federal Title IV Assistance

NEIU Financial Aid Withdrawal & Return of Title IV Policy

Federal Title IV funds are awarded and disbursed with the expectation that a student will attend coursework for the entire semester for which the assistance is disbursed. Most Financial Aid Programs will not pay for courses dropped during the add/drop period (before census date). After this period has expired, student enrollment is captured for the remainder of the term. Financial Aid Programs will disburse against the student's University billing account based on the captured enrollment hours. The return of funds is based upon the concept that students earn their financial aid in proportion to the amount of time in which they are enrolled. If the student withdraws from all courses prior to completing more than 60% of a semester, he/she may be required to repay a portion of the federal financial aid disbursed. A pro rata schedule is used to determine the amount of federal funds a student will have earned at the time of the withdrawal. All returns are required within 45 days of the date the withdrawal occurred ('date of determination'). Weekends are included in the calculation except where a break coinciding with a weekend exceeds five days.

NEIU returns a calculated amount based on a percentage earned, thereby creating a bill against the student's accounts receivable. Federal Title IV funds include:

- Federal Pell Grant
- Federal Supplemental Education Opportunity Grant
- Federal Direct Subsidized Stafford Loan
- Federal Direct Unsubsidized Stafford Loan
- Federal Parent Loan for Undergraduate Students (PLUS)
- Federal TEACH Grant

Once determined, Federal Title IV funds are returned in the following order: Direct Unsubsidized Loan, Direct Subsidized Loan, Direct PLUS Loan, Federal TEACH, Federal Pell Grant and Federal Supplemental Educational Opportunity Grant (FSEOG).

Complete (OFFICIAL) Withdrawals

Financial Aid is required to perform a Return of Title IV calculation for students receiving Federal funds and who **completely withdraw** from all registered courses before 60% of the term has expired. The date of determination used in the calculation is the date in which the last course was withdrawn for that term. Once the calculation is performed, any Federal assistance is adjusted and the student is notified of the amount that must be returned to the U.S. Department of Education.

Unofficial Withdrawals

Financial Aid is required to perform a Return of Title IV calculation for students receiving Federal funds and who receive no grade point average for a given semester. This includes any combination of I, F, NAF, RNAF, UWF, RUWF, W or X grades. This is referred to as an unofficial withdrawal. Once the calculation is performed, the student is notified and has the opportunity to submit documentation from instructors to Financial Aid verifying the actual last date of attendance. In addition, Financial Aid will contact each instructor requesting the last date of attendance or 'active participation' in order to determine if the student is eligible for a prorated portion of their disbursed aid or a Post Withdrawal Disbursement (PWD) of aid. If the last date of attendance is after the mid-point of the term, it minimizes the amount that must be returned to the U.S. Department of Education.

For courses with 'NAF' or 'RNAF' grades, all Title IV funds are returned as this grade reflects the student never attended. For courses with 'UWF' or 'RUWF' grades, the last date of attendance is a required entry for the instructors during grading and that last date of attendance is used in the calculation. Once it is determined that funds must be returned, NEIU returns the calculated amount thereby creating a bill against the student's accounts receivable.

INVOLUNTARY WITHDRAWALS

Northeastern Illinois University (NEIU) reserves the right to involuntarily withdraw a student whose behavior suggests a significant risk of harm to self or others. Involuntary student withdrawal may or may not include plans or contingencies that condition the return of a student to the University.

POST WITHDRAWAL DISBURSEMENTS

If the student has accepted his/her federal aid and it has not disbursed, the reason for the non-disbursal will be identified by Financial Aid. If any of the following conditions have been met, the aid will be included in the "Post Withdrawal Disbursement" section of the calculation:

1. **Federal Pell Grant:** FREE Application for Federal Student Aid received date with a valid expected family contribution (EFC) is prior to the official withdrawal date
2. **FSEOG:** Federal student aid was awarded prior to official withdrawal date
3. **Federal Direct PLUS, Subsidized and Unsubsidized:** Loan 'accepted' (originated) by federal processor prior to official withdrawal date and electronic Master Promissory Note signed prior to calculation

The post-withdrawal disbursement calculation identifies whether a student is eligible for an additional disbursement despite no longer being enrolled. If the student has outstanding institutional charges, the funds are automatically applied to the student's billing account. If a credit balance results from a post-withdrawal disbursement, the student/parent is sent a letter notifying him/her of the amount available. The student/parent is asked to return the letter within 14 days indicating whether he/she wishes to receive the credit balance. Northeastern Illinois University cannot make a Post-Withdrawal Disbursement to the account or estate of a student who is deceased. Further, a student's estate is not required to return any Title IV funds.

REPORTS OF NON-ATTENDANCE

Students who are reported for non-attendance for coursework while enrolled at Northeastern Illinois University forfeit eligibility to any Federal, State, Institutional or Private financial assistance. The University will return all assistance to the appropriate source which will result in an outstanding balance due. Deferred and late fees apply.

Scholarships

Students are often faced with the dilemma of how they will pay for their education. For many, the financing of a university education becomes a barrier to learning. With this in mind, Scholarships' mission is to lead in the promotion and awarding of university scholarship funds to deserving students. Therefore, the goal is to assist in lessening the financial burden that many students seek to overcome. Many of the Merit and Talent Awards are open to students regardless of citizenship status.

Students seeking additional information about scholarships should call (773) 442-4606 or e-mail scholarships@neiu.edu (M-Morrow@neiu.edu). Students are also encouraged to visit the Scholarships (<https://www.neiu.edu/financial-aid/scholarship-opportunities/>) website.

Institutional Scholarships / Merit/Talent Scholarships

Programs	Eligibility	Description of Programs	Repayment	Office to Contact
NEIU Presidential Scholarship	(Only Open to Entering Freshmen) Must have a minimum ACT of 27 (or 1280 SAT), 3.50 GPA, graduate of an Illinois high school, and submit application.	Covers in-state tuition (120 credit hours), fees, and books for a maximum of four years. (Must maintain a GPA of 3.50 for eligibility for renewal.)	No repayment obligation.	Northeastern Scholarships - Michelle Morrow M-Morrow@neiu.edu 773-442-4606
NEIU Provost Merit Freshman Scholarship	Freshmen who have applied for early admission; selection based on a sliding scale using ACT/SAT and GPA	Up to \$2,000. Determined upon admission – no application necessary	No repayment obligation	Northeastern Scholarships - Michelle Morrow m-morrow@neiu.edu 773-442-4606
NEIU Provost Merit Transfer Scholarship	Transfer students who have applied for early admission; earned Associate of Arts or Associate of Science degree; cumulative GPA of 3.50	Up to \$2,000. Determined upon admission – no application necessary	No repayment obligation	Northeastern Scholarships - Michelle Morrow m-morrow@neiu.edu 773-442-4606
NEIU Deans Merit Freshman Scholarship	Freshmen who have applied for early admission; ACT composite score of 22 or higher (or 1100 SAT Score); cumulative GPA of 3.00	Up to \$1,000. Determined upon admission – no application necessary	No repayment obligation	Northeastern Scholarships - Michelle Morrow m-morrow@neiu.edu 773-442-4606
NEIU Deans Merit Transfer Scholarship	Transfer students who have applied for early admission; earned Associate of Arts or Associate of Science degree; cumulative GPA of 3.00	\$1,000. Determined upon admission – no application necessary	No repayment obligation	Northeastern Scholarships - Michelle Morrow m-morrow@neiu.edu 773-442-4606
Graduate Merit Tuition Scholarship	(Graduate) Must be in graduate program and have 3.50 G.P.A.	Covers tuition only	No repayment obligation	Northeastern's College of Graduate Studies & Research or academic department chairperson or advisor or send email to graduatestudies@neiu.edu
NEIU Phi Theta Kappa Scholarship	A minimum 3.50 GPA and an A.A. or A.S. degree are required. In addition, student must be enrolled full-time and a resident of Illinois; enroll in the Fall at NEIU immediately following the completion of an Associate's degree program; working towards their first baccalaureate degree; and provide recommendation from Phi Theta Kappa advisor. One new recipient is selected each year for the fall.	Covers tuition for the first 60 credit hours at NEIU. Must maintain 3.5 GPA. June 30th application deadline. Only awarded in the fall.	No repayment obligation.	Northeastern Scholarships - Michelle Morrow m-morrow@neiu.edu 773-442-4606

Scholarship for Children of Deceased Faculty/Staff	(Civil Service and Academic & Professional) The natural, adopted, foster, step-child of the deceased employee shall be entitled to a tuition scholarship of 50% for tuition and fees for the duration of time for the child to receive a baccalaureate degree from the University. Children of a divorced employee are also eligible if the deceased employee had been contributing to their support.	Undergraduate only. Covers tuition and fees.	No repayment obligation	NEIU Office of Human Resources 773-442-5200
NEIU College of Arts & Science	Freshman-upper 15% of graduating class or minimum ACT of 24 or SAT of 1110. Transfer or current NEIU student – minimum cumulative GPA of 3.25. All students must submit a one page detailed intention of educational career goals, a transcript, and one letter of recommendation from a teacher, counselor, or employer.	Full-time or half-time tuition scholarship.	No repayment obligation.	Northeastern's College of Arts & Sciences, Office of the Dean Mary Hay Verne m-verne@neiu.edu, 773-442-5708 and 773-442-5700
NEIU College of Business & Management	Freshman-upper 15% of graduating class or minimum ACT of 24 or SAT of 1110, one page essay, submit two letters of recommendation from teachers and/or employers. NEIU Foundation Scholarships and Awards

The Northeastern Illinois University Foundation annually awards thousands of dollars in scholarships and awards supported by the generous contributions of University alumni, faculty, staff and friends. Some scholarships are based on financial need. Some are merit-based, awarded to students whose ability to contribute to campus life is significant because of their academic potential or talent in a particular field. To be considered for Foundation scholarships awarded by Scholarships, students should contact the Director of Scholarships. For all others, contact the specific academic departments as indicated below. Most opportunities are open to students regardless of citizenship status. For specific criteria and eligibility requirements, students may contact the individual departments or visit Northeastern's AcademicWorks (<https://neiu.academicworks.com/>) website.

Scholarships

- The Alumni Study Tour Scholarship
- Sherman P. Appel Scholarship
- Aspire Scholarship (Specifically for undocumented students)
- Professor Bonnie B. Busse Merit Scholarship
- Berlinger Humanities Scholarship

- Arturo Najera Mexican American Scholarship

Student Employment

Building D, D-012
(773) 442-4697

Student Employment serves currently enrolled Northeastern students who are seeking part-time, seasonal, temporary and on-campus employment. Job opportunities such as these assist students in meeting college expenses and/or gaining career-related experience. All job opportunities received by Student Employment are for enrolled students who have not graduated.

Eligibility for certain on-campus jobs, such as those funded by the Federal Work-Study Program, are based on demonstrated financial need resulting from an approved financial aid application. Other on-campus jobs (Student Aide) are open to all students who are enrolled for a minimum of six credit hours (half time) per semester.

All jobs received by Student Employment are posted online at NEIUhire (<https://neiu-csm.symplicity.com/>). Other useful information can be found on the Student Employment (<https://www.neiu.edu/financial-aid/student-employment-opportunities/>) website. A limited number of job openings are posted on bulletin boards just north of the entrance to Enrollment Management Services (D-120).

Federal Work-Study Program

Programs	Eligibility	Description of Programs	Repayment	Office to Contact
Federal Work-Study Employment	(Undergraduate and Graduate) Enrolled full or half-time. Eligibility of students is determined by approved needs analysis methods. Must complete FAFSA. Must be enrolled in a degree program. Must file FAFSA by NEIU priority file date.	Federally funded on or off-campus employment. Off-campus employment is arranged through Student Employment with public and/or private not-for-profit agencies operating in the public interest. Includes America Reads/ Counts Tutoring Opportunities.	No repayment obligation.	Northeastern Student Employment (D-012) or Financial Aid (D-200)

Institutional Work Program

Programs	Eligibility	Description of Programs	Repayment	Office to Contact
Student Aide Employment	(Undergraduate and Graduate)	All enrolled students are eligible to apply for part-time on campus employment.	No repayment obligation.	Northeastern Student Employment (D-012) or Financial Aid (D-200)

Academics

Academics at Northeastern

Northeastern offers a rigorous academic experience tailored to your needs. We think pursuit of excellence happens best in a supportive, individualized environment. The diversity of our faculty and students means that you will benefit from both the understanding that comes from shared cultural backgrounds and the enrichment that comes from a variety of cultures.

- We have approximately 500 faculty. Many of the faculty bring with them experiences from different countries.
- Our student body is the most diverse in the Midwest.
- Northeastern is a federally designated Hispanic-Serving Institution.

Thursday, August 6, 2020	Second Half of Summer Session Ends
Wednesday, August 12, 2020	Grades Due at 11:59 p.m.
Thursday, August 13, 2020 - Tuesday, August 23, 2020	Recess

All dates are subject to change.

Registration

Student Responsibility

Each student is ultimately responsible for knowledge of, and adherence to, all University requirements and regulations, including all degree and graduation requirements. All students are strongly encouraged to meet with an academic advisor each semester, and to seek information and assistance from appropriate staff should they have any questions regarding requirements or regulations.

The Academic Year

The academic year consists of a Fall Semester, a Spring Semester, and three Summer terms of varying lengths. Specific dates for Fall 2019 through Summer 2020 can be found in the Academic Calendar section of the Catalog.

Registration Procedures

Currently enrolled students and students admitted or readmitted prior to the beginning of Advance Registration are eligible to participate in the Advance Registration process. This allows students to register for upcoming semesters based upon their student classification (master's, senior, junior, etc.) and the number of credit hours completed. Students register online via NEIUport (<http://neiuport.neiu.edu>). Detailed information regarding online registration procedures and registration dates can be found in the online Schedule of Classes (<http://www.neiu.edu/academics/registrar-services/class-schedules-and-registration/>).

Northeastern provides priority registration to veterans, active duty military, reservists, and dependents using benefits by permitting these students to register for classes on the first day of the Advance Registration period in support of Section 303 of the Harry W. Colmery Veterans Educational Assistance Act of 2017.

Any eligible student who does not advance register may register online for classes during the Open Registration and Change of Registration periods. Students are responsible for viewing and/or printing their student schedule and registration fee assessment (bill) via NEIUport. Students must register for all classes before the last day of the Change of Registration period.

Students who fail to complete all admissions requirements, have outstanding tuition/fees or other financial obligations, receive academic dismissal or disciplinary notices, or have other holds that prevent registration must resolve the issue before being permitted to register.

Undergraduate Students Enrolling in Graduate Courses

An undergraduate student must meet the following minimum requirements to be considered for enrollment in a graduate course, in addition to meeting all prerequisites for the course (except for graduate standing): 1) completed one semester in residency at Northeastern, 2) be in the final year of undergraduate study and 3) currently has at least a 3.0 cumulative undergraduate GPA.

Some undergraduate students may elect to count the graduate course toward undergraduate degree requirements. If so, the course will carry an undergraduate course-level classification and cannot be used in the future to fulfill graduate requirements. All students enrolled in the course will do the same work, regardless of course-level classification.

Students must submit the **Undergraduate Students Enrolling in a Graduate Course form** to the Graduate Records Office no later than the end of the Change of Registration (Add/Drop) registration period, which is published in the official Schedule of Classes. After the end of the Change of Registration period, the student's decision about the course-level classification cannot be changed.

Course Numbers

A general guideline to Northeastern's course numbering system is:

- 000-099: Developmental courses. Credit does not apply towards graduation. Effective Fall 2010, grades earned in developmental courses will not be counted in the hours earned nor in the grade point average.
- 100-199: Lower-division courses usually taken during the freshman year.
- 200-299: Lower-division courses usually taken by sophomores.
- 300-399: Upper-division courses which are for advanced undergraduates and, under some conditions, graduate students.
- 400-499: Graduate-level courses only for graduate students.
- 500-599: Graduate-level courses only for graduate students.

Undergraduate students must complete a minimum of 40 semester hours at the upper-division level (i.e., courses number 300 to 499).

Student Classification

Total Hours Earned:

Freshman	0 - 29 hours
Sophomore	30 - 59 hours
Junior	60 - 89 hours
Senior	90+ hours
Graduate	Admitted to a graduate degree program
Student-at-Large	Not admitted to a degree program
Student-at-Large Seeking Licensure	Admitted to a licensure program
Second Bachelor's Degree	Admitted to an undergraduate degree program

Major/Minor Declaration

Declaring a Major, Pre-major, Minor, or Concentration

Northeastern requires all undergraduate students to declare a major by the time they have earned a total of 45 credit hours.

Students intending to major in business, education, or graphic design can declare a “pre-major” until the program admission requirements to the College of Business and Management, the Daniel L. Goodwin College of Education, or the BFA in Graphic Design are met.

Declaring a Major, Pre-Major, Minor or Concentration

The Undergraduate Major/Minor Declaration form must be completed to declare a major or pre-major, to declare a minor, to declare a concentration, or to make any changes to previously declared majors or pre-majors, minors, or concentrations. The procedure is as follows.

1. Obtain the Undergraduate Major/Minor Declaration form online, from Enrollment Management Services, or from your academic program.
2. Obtain the necessary signatures, and submit the form to Enrollment Management Services.

In most cases, students may follow this procedure at any time throughout the school year. Please check with the major or minor department for specific requirements and deadlines.

Students who double major in both the Bachelor of Arts in Interdisciplinary Studies (BAIS) program and another major will have the BAIS program listed as their primary major, and this major will display on the student's diploma. Both majors will appear on the student's transcript.

Area of Study in Addition to the Major

Undergraduate students are not required to have a minor, with the following exceptions:

- A student in the College of Arts and Sciences who majors in Biology, Chemistry, Earth Science, or Physics must complete a required set of cognate courses in other sciences and mathematics.
- A student in the College of Business and Management must complete a required set of cognate courses in the Business and Management core in addition to courses for the major.
- Some majors in the Goodwin College of Education require a minor. Students should refer to the section of the Academic Catalog which details the requirements for each major to determine if a minor or a set of cognate courses is required.

Residency Status

Residency Status

For the purpose of this regulation an “adult” is considered to be a student 18 years of age or over; a “minor” student is a student under 18 years of age. The term “the State” means the State of Illinois. Except for those exceptions clearly indicated in this regulation, in all cases where records establish that the person does not meet the requirements for resident status as defined in this regulation, the nonresident status shall be assigned.

Residency Determination

Evidence for determination of residence status of each applicant for admission to the University shall be submitted to the Admissions Office at the time of application for admission. A student may submit additional or changed information to the University to request a reclassification of the student's residency status. However, if the student's residency status is classified in error as a resident student, the change in tuition shall be applicable beginning with the semester following the reclassification; if the student is classified in error as a nonresident, the change in tuition shall be applicable to the semester in which the reclassification occurs, provided the student has filed a written request for a review in accordance with this regulation.

Adult Student

An adult, to be considered a resident, must have been a bona fide resident of the state for a period of at least 6 consecutive months immediately preceding the beginning of any term for which he/she registers at the university, and must continue to maintain a bona fide residency in the state, except that an adult student whose parents (or one of them if only one parent is living or the parents are separated or divorced) have established and are maintaining a bona fide residence in the state and who resides with them (or the one residing in the state) or elsewhere in the state will be regarded as a resident student.

Minor Student

The residence of a minor shall be considered to be, and to change with and follow:

1. That of the person's parents, if they are living together, or living parent, if one is dead; or
2. if the parents are separated or divorced, that of the parent to whom the custody of the person has been awarded by court decree or order, or, in the absence of a court decree or order, that of the father unless the person has continuously resided with the mother for a period of at least six consecutive months immediately preceding his/her registration at the university, in which latter event the person's residence shall be considered to be that of his/her mother; or
3. that of the adoptive parents, if the person has been legally adopted and, in the event the adoptive parents become divorced or separated, that of the adoptive parent whose residence would govern under the foregoing rules if that parent had been a natural parent; or
4. that of the legally appointed guardian of the person if the minor resides with such guardian; or
5. that of a “natural” guardian, such as a grandparent, adult brother or adult sister, adult uncle or aunt, or other adult with whom the person has resided and has been supported by for a period of at least six consecutive months immediately preceding his/her registration at the university for any term if the person's parents are dead or have abandoned him/her and if no legal guardian of the person has been appointed and qualified.

Parent or Guardian

Except as provided in paragraph 10 of this regulation, no parent or legal or natural guardian will be considered a resident of the state unless the parent or guardian (a) maintains a bona fide and permanent place of abode within the state, and (b) lives within the state, except when temporarily absent from the state, with no intention of changing his/her legal residence to some other state or country.

Emancipated Minor

If a minor has been emancipated, is completely self-supporting, and actually resides in the state, the minor shall be considered to be a resident even though his/her parent or guardian may reside outside the state. An emancipated minor who is completely self-supporting shall be considered to “actually reside in the state of Illinois” if he/she maintained a dwelling place within the state uninterrupted for a period of at least 12 consecutive months immediately preceding the beginning of any term for which he/she registers at the university. Marriage or active military service shall be regarded as effecting the emancipation of minors, whether male or female, for the purposes of this regulation. An emancipated minor whose parents (or one of them if only one parent is living or the parents are separated or divorced) have established and are maintaining a bona fide residence in the state and who resides with them (or the one residing in the state) or elsewhere in the state will be regarded as a resident student.

In-State Tuition for Individuals from Bordering States

Beginning Fall 2015, incoming freshmen, transfer and graduate students from neighboring states will be assessed in-state tuition rates. Students will qualify if they reside in Indiana, Wisconsin, Michigan, Iowa, Kentucky or Missouri.

Armed Forces Personnel

Beginning Fall 2015, an incoming freshman, transfer, or graduate student who is an active member of the United States Armed Forces or who is an honorably discharged veteran, regardless of state residency, will qualify for in-state tuition. This policy also applies to the spouse and dependent children of active duty military and veterans.

Persons without United States Citizenship

A person who is not a citizen of the United States of America, to be considered a resident must have approved permanent resident status with the United States Citizenship and Immigration Services or a visa that allows the applicant to stay in the United States indefinitely. They must also meet and comply with all of the other applicable requirements to establish resident status.

Effective Fall 2003 and thereafter, in accordance with 110 ILCS 680/25-88 of the Illinois General Assembly, students with an undocumented status may be eligible for in-state tuition if all conditions of HB0060 are met. For more information, please contact the Admissions Office at (773) 442-4000.

Marriage of Students

1. If a resident student marries a nonresident, then the resident student shall continue to be classified as a resident unless the student requests reclassification to a nonresident status.
2. If a nonresident student marries a resident, then the nonresident student shall continue to be classified as a nonresident unless the student executes a declaration of residency, in such form as may be prescribed by the Admissions Office and requests reclassification to resident status.

Minor Children of Parents Transferred Outside the United States

The minor children of persons who have resided in the state for at least 12 consecutive months immediately prior to a transfer by their employers to some location outside the United States shall be considered residents. However, this shall apply only when the minor children of such parents enroll in the University within five years from the time their parents are transferred by their employer to some location outside the United States.

Staff Members of the University, Allied Agencies, and Faculties of State-Supported Institutions in Illinois

Staff members of the University and of allied agencies, and faculties of state-supported institutions of higher education in Illinois, holding an appointment of at least one-quarter time, and their spouses and dependent children, shall be treated as residents.

Teachers in Public and Private Illinois Schools

Teachers in the private and public elementary and secondary schools in Illinois shall, if subject to the payment of tuition, be assessed at the resident rate during the term in which the staff member or teacher holds such an appointment at least one-quarter time. This privilege also extends to the summer session or off-term vacation immediately following the term for which such appointment was effective.

Definition of Terminology

To the extent that the terms "bona fide residence," "independent," "dependent," and "emancipation," are not defined in this regulation, definitions shall be determined by according due consideration to all of the facts pertinent and material to the question and to the applicable laws and court decisions of the state of Illinois.

Voter registration, the filing of tax returns, proper license and registration for the driving or ownership of a vehicle, and other such transactions may verify intent of residence in a state. Neither length of university attendance nor continued presence in the university community during vacation period shall be constructed to be proof of Illinois residence.

The term "staff member" as used in this regulation shall mean a person appointed to an established position for a specific amount of time at a salary commensurate with the percentage of time required, under an appointment requiring service for not less than three-fourths of the term. The term "staff member" as defined herein shall not apply to persons employed on an hourly basis in either an academic or non-academic capacity, nor to persons on leave without pay. Persons appointed to established civil service positions, whose rate of pay is determined by negotiation or prevailing rates, shall not be considered as being paid on an hourly basis.

Procedure for Review of Residency Status

A student who takes exception to the residency status assigned and/or tuition assessed shall pay the tuition assessed but may file a written petition to the Residency Review Committee for a reconsideration of residency status and/or an adjustment of the tuition assessed. The written claim for reconsideration of residency status must include three documents which indicate the student's address within Illinois and dated at least 6 months prior to the beginning of the term for which an adjustment is requested. Acceptable documents include voter registration card, tax return, state ID or driver's license, bank statement, credit card bill, utility bill, lease/rental agreement, and insurance document. The written claim must be filed within 30 calendar days from the date of assessment of tuition or the date designated in the official University calendar as that upon which instruction begins for the academic period for which the tuition is payable, whichever is later, or the student loses all rights to a change of status and/or adjustment of the tuition assessed for the term in question. An official decision is typically communicated within 2 to 3 weeks, and the decision of the Residency Review Committee is final.

Residency Review Committee
c/o Enrollment Management Services (D-101)
5500 N. St. Louis Ave
Chicago, IL 60625

Grading and Transcripts

Grading and Transcripts

Northeastern Illinois University is on a 4.0 grading scale, i.e., each credit hour of "A" equals 4 grade points. An "A" earned in a 3 credit hour course generates 12 grade points.

The student's grade point average (GPA) is calculated by total number of grade points earned divided by total number of credit hours earned. Credit hours for courses in which a failing grade is earned (i.e., F, NAF, RNAF, UWF, and RUWF) are used to calculate the grade point average. Transfer hours and courses in which a "P" grade is earned are not used to calculate the grade point average.

Graduation Requirements

Graduation Requirements

Each student is ultimately responsible for knowledge of, and adherence to, all University requirements and regulations, including all degree and graduation requirements.

All students are strongly encouraged to meet with an academic advisor each semester, and to seek information and assistance from appropriate staff should they have any questions.

In addition to meeting with their academic advisor, undergraduate students should also run their Degree Evaluation (degree audit) each semester. The Degree Evaluation tool is available in the Registration Tools channel in NEIUport.

Catalog Year

Catalog Year

Undergraduate Students

An undergraduate student's catalog year is the academic year when the student is first enrolled in an undergraduate degree program. Catalog year is not affected by a student declaring his/her major or minor. A re-admitted student is subject to the catalog year requirements based on the semester of his/her re-admission (see Inactivation/Re-admission Policy).

Graduate Students

A graduate student's catalog year is the academic year when the student is first enrolled after being admitted to a graduate program. A student's catalog year is not affected while the student is on an approved leave of absence. A re-admitted student is subject to the catalog year requirements based on the semester of his/her re-admission (see Inactivation/Re-admission Policy).

Change of Catalog Year

An active student may change his/her catalog year to a succeeding catalog if it is to the student's benefit. A completed Change of Catalog Year form should be submitted to Enrollment Management Services to update the student's record.

Bachelor's Degree

Bachelor's Degree Graduation Requirements

Refer to your Academic Catalog (<http://www.neiu.edu/academics/academic-catalog/>) for specific graduation and degree requirements.

Total Credits

Undergraduate students must earn a minimum of 120 semester hours, of which 40 semester hours must be at the upper-division level (300-level) to be eligible to graduate from Northeastern.

Residency

Undergraduate students must earn at least 30 semester hours at Northeastern Illinois University. Bachelor of Arts in Interdisciplinary Studies (BAIS) and University Without Walls (UWW) students must earn at least 24 semester hours at Northeastern.

Grade Point Average

To be eligible to graduate, undergraduate students and second bachelor's degree students must have a minimum cumulative 2.0 GPA (overall "C" average). Some academic programs and departments have other specific grade requirements. Check with your academic advisor.

Academic College or Nontraditional Degree Programs

All undergraduates must also satisfy the requirements of their individual college (College of Arts and Sciences, College of Business and Management, College of Education) or the Nontraditional Degree Programs.

Academic Major and Minor

Undergraduate students must complete a major. Some majors require a minor or set of cognate courses. Students should refer to the section of the Academic Catalog which details the requirements for each major to determine if a minor or a set of cognate courses is required. Students must earn a grade of "C" or higher in all courses counted toward the major, the minor, cognate, and professional sequences. No "P" grades will count toward a major, a minor, or cognate courses. All grade point average requirements must be met for the successful completion of a program of study.

General Education-Distributive Learning Program

All undergraduate students must complete the General Education-Distributive Learning Program requirements which include coursework in Fine Arts, Humanities, Natural Sciences, and Social/Behavioral Sciences. Refer to the General Education-Distributive Learning section of the Academic Catalog for more information.

Engaged Learning Experiences Requirement

In addition to the General Education-Distributive Learning requirements, all undergraduate students must complete three Engaged Learning Experiences (ELE) courses, designated as Boundary Crossing (ELE-X) and Discipline Specific (ELE-DS), to satisfy the Engaged Learning Experiences requirement. The ELE requirement must be completed at Northeastern Illinois University. Three ELE courses (minimum of 7 hours) must be completed to graduate. At least one of the three ELE courses must be a Boundary-Crossing (ELE-X) course. (Students can take more than one ELE-X course to fulfill the requirement.) At least one of the three ELE courses must be at the 300-level. A course can only be counted only once toward meeting the ELE requirement, even if it is repeatable within the major or program.

To count toward the ELE requirement, a course must be graded with a letter grade (i.e., A, B, C, D). No courses graded as pass/fail can count toward meeting the ELE requirement. Only one "D" grade is permitted to count toward the ELE requirement. Furthermore, the "D" can only be accepted if the course is not counting for completion of the student's major. If a course is counted as a major requirement, it must follow the requirements of the major, which is often receiving a "C" or better.

Students can search the online Schedule of Classes by "Attribute Type" to find approved ELE Discipline Specific and ELE Boundary Crossing courses.

A listing of the approved ELE courses is also available on the University Core Curriculum web page (<https://www.neiu.edu/academics/university-core-curriculumgeneral-education/>).

English Composition Requirement

All students must successfully complete ENGL-101 or its equivalent, with a grade of "C" or better. This requirement should be completed within the first 30 credit hours at Northeastern in order to ensure that students have the necessary writing skills to complete their studies.

Writing Intensive Requirement

All students must successfully complete a writing intensive (WIP) course of at least 3 credit hours within their discipline. This requirement cannot be fulfilled with transfer credit. Students should check with an academic advisor or the Center for Academic Writing to determine which WIP course(s) may fulfill this requirement for their major.

Math/Quantitative Reasoning Requirement (MA)

One course, 3 credit hours math/quantitative reasoning course that has Intermediate Algebra as a prerequisite. Any 3 semester hour college-level math course, beyond Intermediate Algebra, meets this requirement. No grade of "D" is allowed to satisfy the Mathematics/Quantitative Reasoning

requirement. This requirement should be completed within the first 30 credit hours at Northeastern in order to ensure that students have the necessary mathematics skills to complete their studies.

See the University Core Curriculum (<https://www.neiu.edu/academics/university-core-curriculumgeneral-education/>) web page for the list of General Education-Distributive Education Program List of Approved Courses which shows which courses satisfy this requirement. Students can also fulfill the Math/Quantitative requirement in one of the following ways:

1. Transfer credit with a grade of "C" or better in any math course College Algebra level or higher.
2. An Associate of Arts (A.A.) or Associate of Science (A.S.) degree from a community college meeting the standards of the 1991 Illinois Community College Board model General Education curriculum in Mathematics or completion of the Illinois Articulation Initiative's General Education Core curriculum after transferring to Northeastern Illinois University.
3. Placing at College Level II Math on the NEIU Math Placement Test (October 2018 and later).
4. A Math ACT score of 25 or higher, or a 580 or higher SAT score.
5. A score of three or higher on the Advanced Placement (AP) Calculus examination.
6. A minimum score of 31 on the Northeastern Accuplacer **College Level Math** placement test (Fall 2014 through October 2018).
7. A minimum score of 35 on the Northeastern Mathematics placement test (pre-Fall 2014).
8. Completion of one of the majors or minors listed below will automatically fulfill the Math/Quantitative Reasoning requirement.

College of Arts and Sciences

Biology major
Chemistry major
Computer Science (major or minor)
Earth Science major
Environmental Science (major)
Physics (major or minor)
Economics (major or minor)
Mathematics (major or minor)
Psychology major

College of Business and Management

Accounting (major or minor)
Finance (major or minor)
General Business Administration major
International Business minor
Marketing (major or minor)
Management (major or minor)

Improving Human Relations Requirement

Illinois Bill 110 ILCS 205/9.21 requires that "each public institution of higher education to include, in the general education requirements for obtaining a degree, coursework on improving human relations to include race, ethnicity, gender and other issues related to improving human relations to address racism and sexual harassment on their campuses, through existing courses." The General Education Program includes coursework on improving race and ethnic relations. The current Schedule of Classes will identify the list from which the students will choose a course that satisfies the Improving Human Relations requirement. Students who complete one of the following programs of study have met the requirement:

Anthropology (major or minor)
Bilingual/Bicultural Education (major)
Justice Studies (major or minor)
Geography (major)
History (major)
Inner City Studies (major)
Latino and Latin American Studies (major or minor)
Political Science (major or minor)
Psychology (major or minor)
Social Work (major or minor)
Sociology (major or minor)
Women's and Gender Studies (major or minor)

Second Bachelor's Degree Graduation Requirements

Second Bachelor's Degree Graduation Requirements

A student completing a second bachelor's degree must complete a minimum of 30 credit hours at Northeastern Illinois University. Students may not be enrolled in two programs simultaneously.

Coursework counted toward a previous undergraduate or graduate degree may not be used to fulfill the 30-credit hour requirement for the second bachelor's degree. Speak with your major department regarding courses which satisfy the requirement.

Applicants for a second bachelor's degree who were awarded a degree from an accredited college or university in the United States have met the following Northeastern graduation requirements: the University Core Curriculum including all General Education-Distributive Learning and Engaged Learning Experiences requirements, ENGL-101, the Writing Intensive requirement, the Math/Quantitative Reasoning requirement, and the 40 hours at the upper-division (300-level) requirement.

Second bachelor's degree candidates are required to fulfill the Improving Human Relations requirement.

University Core Curriculum

University Core Curriculum

Effective for students admitted or readmitted in Fall 2016, or later, the University Core Curriculum, encompassing both the General Education-Distributive Learning ("Gen Ed) program and Engaged Learning Experiences (ELE) courses will develop and enhance students' intellectual and practical skills through immersion in disciplines and fields of study and by learning within the resources of community and diversity at Northeastern. Critical inquiry, learning how to recognize and respond to important questions, is the essence of the liberal arts and sciences. Through public engagement, including research experiences, creative performance, and civic involvement, students can connect and adapt disciplinary practices and thinking beyond the classroom. Students completing the requirements of the University Core Curriculum will gain tools to become life-long learners, reflective individuals, ethical professionals, and active members of their communities. Through the University Core Curriculum, students will develop a broad foundation of knowledge and skills that will support advanced study and civic responsibility; and integrate and apply multiple intellectual perspectives of increasing complexity to new situations.

The University Core Curriculum includes both the General Education-Distributive Learning Program consisting of twelve courses, and Engaged Learning Experiences consisting of three courses.

General Education-Distributive Learning Program

For specific information on how to complete the requirements of the General Education-Distributive Learning Program, refer to the General Education-Distributive Learning (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/general-education-program/>) section of this catalog.

Engaged Learning Experiences

Engaged Learning Experiences courses provide opportunities for deep reflection and integration of knowledge across boundaries through experiences such as interdisciplinary seminar classes, capstone projects, fieldwork, internships, study abroad, and student research. Courses that satisfy these requirements will be designated as such in the Schedule of Classes by searching using "Attributes Type" field.

- **Discipline Specific (ELE-DS)**

These courses have prerequisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

- **Boundary Crossing (ELE-X)**

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Please note the following requirements regarding the Engaged Learning Experiences requirement:

- The ELE requirement must be completed at Northeastern Illinois University.
- Three ELE courses (minimum of 7 hours) must be completed to graduate.
- At least one of the three ELE courses must be a Boundary-Crossing (ELE-X) course. Students can take more than one ELE-X course to fulfill the requirement.
- At least one of the three ELE courses must be at the 300-level.
- A course can only be counted only once toward meeting the ELE requirement, even if it is repeatable within the major or program.
- To count toward the ELE requirement, a course must be graded with a letter grade (i.e., A, B, C, D). No courses graded as pass/fail can count toward meeting the ELE requirement.
- Only one "D" grade is permitted to count toward the ELE requirement. Furthermore, the "D" can only be accepted if the course is not counting for completion of the student's major. If a course is counted as a major requirement, it must follow the requirements of the major, which is often receiving a "C" or better.

General Education Program

General Education - Distributive Learning Program

The General Education-Distributive Learning Program, part of the University Core Curriculum, consists of four areas in which undergraduate students gain knowledge to enrich their lives and enhance their academic experience. These four areas are Fine Arts, Humanities, Natural Sciences, and Social/Behavioral Sciences. Every degree-seeking undergraduate student must take courses from the General Education-Distributive Learning List of Approved Courses to meet these requirements. Courses that satisfy these requirements will be designated as such in the Schedule of Classes by searching using the "Attributes Type" field.

It is expected that the knowledge gained in these courses will provide an academic foundation that will help prepare students for the major and minor course areas and will encourage students to become life-long learners in many different and divergent fields of study.

The goal of the General Education-Distributive Learning Program (often called 'Gen Ed') is to assist students in developing the following:

- the ability to communicate both in writing and orally;
- the skills required to gather, analyze, document, and integrate information;
- an understanding of historical processes and cultural differences; aesthetic and literary sensitivity;
- an understanding of the modes of thought, concerns, and methodologies of the fine arts, the humanities, the social and behavioral sciences, and the natural sciences;
- and the ability to use quantitative methods in the natural, social, and behavioral sciences.

Students are required to take a minimum of 33 credit hours of General Education-Distributive Learning courses. Transfer students may fulfill General Education-Distributive Learning requirements with courses taken at other colleges or universities. Students who transfer with an approved Illinois Community College Board (ICCB) Model Associate of Arts (A.A.), Associate of Science (A.S.), or Associate of Arts in Teaching (A.A.T.) degree or have completed the Illinois General Education Core Curriculum after transferring to Northeastern Illinois University will have met their General Education-Distributive Learning requirements. For information regarding the Illinois General Education Core Curriculum, visit the web site at <http://www.iTransfer.org> (<http://www.itransfer.org/>).

Students are encouraged to complete their General Education-Distributive Learning courses during their first 75 hours of course work. These courses are distributed as described in detail below, and require students to take two courses in the Fine Arts, three courses in the Humanities, three courses in the Social/ Behavioral Sciences, and three Natural Science courses (including one laboratory course). Students seeking a teaching license may be required to take additional coursework.

Fine Arts (FA)

2 courses, 6 credit hours from two of the following areas of study: Art, CMT (Mass Media or Theatre only), Music (includes Dance).

Humanities (HU)

3 courses, 9 credit hours from at least two of the following areas of study: CMT (Communication only), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)

Social/Behavioral Sciences (SB)

3 courses, 9 credit hours from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work. (Note: Students admitted or readmitted before Fall 2016, must complete 4 courses (12 credit hours) of Social/Behavioral Sciences courses in at least two of the above areas of study.)

Natural Sciences (NS and NSL)

3 courses, 9 credit hours from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE Anthropology course that counts as Natural Science is taken, then only one Biology course may be used for Natural Science).

Please note the following requirements regarding the General Education-Distributive Learning Program:

- Only courses included on the General Education-Distributive Learning Program List of Approved Courses during the term of enrollment are applicable towards the General Education-Distributive Learning requirements. Courses that satisfy these requirements will be designated as such in the Schedule of Classes by searching using the "Attributes Type" field.
- The Pass/Fail option may not be used to meet any General Education-Distributive Learning requirements.
- A student may use no more than six (6) hours of "D" to meet the distribution area requirements.
- By the tenth week of the Fall and Spring semesters, faculty teaching General Education-Distributive Learning courses should notify any student with less than a "C" average of his/her grade in the course.

- Majors in the Fine Arts, Humanities, and Social/Behavioral Sciences may waive up to six credit hours of General Education-Distributive Learning requirements in the corresponding distribution area.
- Majors in the Natural Sciences may waive up to nine credit hours of General Education-Distributive Learning in the Natural Science distribution area.
- A student may use no more than two courses from any one area of study (including courses transferred to Northeastern) to meet the distribution requirements in Humanities, Natural Sciences, and Social/Behavioral Sciences. No more than one course from any area of study (including transferred courses) may be used to meet the Fine Arts distribution requirements.
- Courses completed elsewhere by students transferring to Northeastern may be applied to General Education-Distributive Learning requirements. Transfer courses will be evaluated by the Admissions Office to determine appropriate General Education-Distributive Learning credit.
- Students who have specific questions about General Education-Distributive Learning should contact either their academic advisor or the College of Arts and Sciences Dean's Office. Departments that have questions regarding the Engaged Learning Experiences should contact the Chair of the University Core Curriculum Committee.

Bachelor of Arts in Interdisciplinary Studies (BAIS) General Education-Distributive Learning Program

The Bachelor of Arts in Interdisciplinary Studies General Education-Distributive Learning program was designed to help returning adult students complete their foundational work, thereby allowing them to move into more advanced coursework as soon as they meet criteria. Below are the General Education-Distributive Learning requirements for students who are majoring in the Bachelor of Arts in Interdisciplinary Studies (BAIS) program.

Humanities and Arts (12 credit hours)

- Art
- Communication, Media, and Theatre
- English
- Linguistics
- Music and Dance
- Philosophy
- World Languages and Cultures

Social Sciences (12 credit hours)

- Anthropology
- Economics
- Geography and Environmental Studies
- History
- Justice Studies
- Political Science
- Psychology
- Sociology

Natural Sciences (12 credit hours)

- Biology
- Chemistry
- Computer Science
- Earth Science
- Mathematics
- Physics

Applying for Graduation

Filing for Undergraduate Graduation

Undergraduate students and second bachelor's degree students must apply for graduation by submitting an Application for Graduation and Academic Course Record forms for each major or minor. The required documents are to be submitted to the Graduation Evaluations Office in Enrollment Services.

Students should apply for graduation once they have earned a minimum of 85 hours of credit and after being formally accepted by their major department and minor department (if applicable).

NEIU makes available, via NEIUport, a degree evaluation tool, that allows undergraduate students to check on their degree progress by running the degree evaluation tool. It is strongly recommended that students review their degree evaluation at least once each semester in addition to meeting with their academic advisor.

Undergraduate Graduation Application Filing Deadlines

Month of Anticipated Completion of Degree Requirements	Filing Deadline
May 2020	September 15
August 2020	January 15
December 2020	May 15

Each student anticipating graduation is fully responsible for submitting the graduation application and supporting documents by the above deadlines.

A student who files the required application and supporting documents but fails to complete all graduation requirements by the appropriate date will be dropped from the graduation list and must reapply for a later graduation date by completing a Change of Graduation Date form available in Enrollment Management Services. NEIU will not backdate a student's graduation date to a previous semester should the student fail to submit the Change of Graduation Date form.

Diplomas and transcripts are not released to graduates until they have paid the graduation fee and all holds and/or indebtedness to the University have been resolved.

Commencement Ceremony Participation

Students who apply for December graduation are eligible to participate in the December commencement ceremony. Students who apply for May graduation are eligible to participate in the May commencement ceremony. Students who apply for August graduation are eligible to participate in the following December commencement ceremony.

Honors Recognition

Latin Honors Recognition

Latin Honors Recognition

Baccalaureate degree-seeking students who graduate with at least a 3.5 cumulative grade point average (on a 4.0 scale), and who complete, at Northeastern, a minimum of 30 semester hours (excluding developmental and pass/fail hours) will have Latin Honors appear on his/her transcript and diploma. Those students in the Honors Program and who are Honors Scholars will have their transcripts and diplomas indicate that they are graduating as Honors Scholars.

Latin Honors Recognition - Nontraditional Degree Programs

Students majoring in the Bachelor of Arts in Interdisciplinary Studies (BAIS) program or the University Without Walls (UWW) program who complete, at Northeastern, 24 semester hours that count toward graduation (excluding developmental and pass/fail hours), and graduate with at least a 3.5 cumulative grade point average (on a 4.0 scale) will have Latin Honors appear on his/her transcript and diploma.

Latin Honors	Definition	GPA
Summa Cum Laude	With Highest Honor	3.9 - 4.0
Magna Cum Laude	With Great Honor	3.75 - 3.89
Cum Laude	With Honor	3.5 - 3.74

Latin Honors Recognition - University Honors Program

A baccalaureate degree-seeking student who completes the Honors Program's Honors Scholar curriculum with at least a 3.5 cumulative grade point average (on a 4.0 scale), and who completes, at Northeastern, a minimum of 30 semester hours (excluding developmental and pass/fail hours) will have Latin Honors appear on his/her transcript and diploma.

Latin Honors for Honors Scholars	Definition	GPA
Honors Scholar - Summa Cum Laude	With Highest Honor	3.9 - 4.0
Honors Scholar - Magna Cum Laude	With Great Honor	3.75 - 3.89
Honors Scholar - Cum Laude	With Honor	3.5 - 3.74

Master's Degree

Master's Degree Graduation Requirements

Master's degree students must have a cumulative graduate GPA of 3.0 or higher to graduate. Refer to the Academic Catalog (<http://www.neiu.edu/academics/academic-catalog/>) for the semester/academic year for which you were admitted for specific graduation and degree requirements.

Applying for Graduation

An application for graduation should be filed according to the instructions provided with the application. Dates are also listed on the Registrar Services Office web page (<http://www.neiu.edu/academics/registrar-services/applying-graduation/>). A non-refundable graduation fee must accompany the application. Upon evaluation of the graduation application, the student will receive a response from the Graduate Records Office indicating outstanding requirements and whether or not there is a possibility for completion of all requirements to graduate in that semester.

Students must submit both an Application for Graduation and a completed Academic Course Record form to the Graduate Records Office (D-101D).

Students completing a master's thesis must submit it electronically through ProQuest's Submission Process.

- **Preliminary Thesis Deadline:** Students planning to defend and submit their thesis should create their ProQuest ETD account and enter their background information into the system at least four weeks before the last day of finals of the semester in which the student plans to graduate. To create an account, go to <http://www.etdadmin.com/neiu> (<http://www.etdadmin.com/neiu/>) and follow the instructions. Contact the College of Graduate Studies and Research Dean's Office at graduatestudies@neiu.edu with any questions you may have.
- **Thesis Deadline:** The thesis must be submitted via ETD for review by the College of Graduate Studies and Research Dean's Office at least three weeks before the last day of finals of the semester in which the student plans to graduate. This will allow sufficient time for corrections and/or adjustments. The submission deadline will be publicized at the beginning of each semester.

Master's Graduation Application Filing Deadlines

Month of Anticipated Completion of Degree Requirements	Filing Deadline
May 2020	September 1 until Nov. 1
August 2020	Feb. 1 until April 1
December 2020	March 15 until May 15

A student who files the required forms but fails to complete all graduation requirements by the appropriate date will be dropped from the graduation list and must reapply for a later graduation date by completing a Change of Graduation Date form available in the Graduate Records Office. NEIU will not backdate a student's graduation to a previous semester should the student fail to submit a Change of Graduation Date form.

Diplomas and transcripts are not released to graduates until they have paid the graduation fee and all holds and/or indebtedness to the University have been resolved.

Commencement Ceremony Participation

Students who apply for December graduation are eligible to participate in the December commencement ceremony. Students who apply for May graduation are eligible to participate in the May commencement ceremony. Students who apply for August graduation are eligible to participate in the following December commencement ceremony.

Graduate Certificate Programs

Graduate Certificate Programs

A Graduate Certificate Program is composed of a focused collection of courses that offers a skill set in and/or distinctive approach to a subject that cannot be otherwise gained through an existing Northeastern degree program or academic minor.

Graduate certificate programs must conform to Illinois Board of Higher Education (IBHE) guidelines and to the following IBHE Program Inventory Definitions:

1. A post-baccalaureate certificate "requiring completion of an organized program of study requiring at least 18 semester credit hours beyond the bachelor's and...designed for persons who have completed a baccalaureate degree but do not meet the requirements of academic degrees at the master's level."
2. A post-master's certificate "requiring completion of an organized program of academic study of at least 24 semester credit hours beyond the master's degree but does not meet the requirements of academic degrees at the doctoral level."

Students may be concurrently enrolled in a degree program and a certificate program. Such students will complete separate application to each program.

Courses composing a Northeastern graduate certificate will, upon their completion, be included on a student's transcript and in the computation of a student's grade point average.

Credit hours earned through a post-baccalaureate certificate from a program or combination of programs in which there is/are (an) approved graduate degree(s) may, upon approval of the program and the College of Graduate Studies and Research, count toward a master's degree. At its discretion, a Northeastern graduate program may count all credits earned in certificate courses offered by that program. At its discretion, a Northeastern program may count up to 9 hours of credits in certificate courses offered by another program that offers courses in the shared certificate program.

A student enrolled in a graduate degree program in which there is a fully- or partially-embedded graduate certificate program is eligible to receive the certificate only if the student has made separate application and has been admitted to the certificate program.

A minimum grade point average of 3.0 must be achieved in graduate course work for the certificate to be awarded.

Acceptance of transfer credits toward a graduate certificate is at the discretion of the graduate program. Graduate programs may accept up to 9 hours of graduate transfer credits. Programs may set more stringent transfer credit limits.

Policies

Compliance / Policies

Northeastern Illinois University policies are intended to supplement and clarify Northeastern Board of Trustees (BOT) policies and regulations, and to comply with local, state, and federal laws and regulations. The following NEIU, state and federal policies are referenced:

- Student Code of Conduct
- Americans with Disabilities Act (ADA)
- Credit Hour Definition
- Crime Awareness and Campus Security Act
- Family Educational Rights and Privacy Act (FERPA)
- Grade Appeal
- NEIU Policy on Nondiscrimination
- Voter Registration Information
- Oral Proficiency
- Policy on Drug and Alcohol Abuse
- Reasonable Accommodation of Religious Observances
- Sexual Misconduct
- Student Right to Know Act

Student Code of Conduct

Northeastern Illinois University students are expected to exhibit the highest standards of academic integrity. Academic misconduct such as plagiarism or cheating is unacceptable and will be investigated in accordance with University policy on academic misconduct.

Student Code of Conduct

Northeastern Illinois University exists for the transmission of knowledge, the pursuit of truth, the development of students, and the general well being of society. Free inquiry and free expression are indispensable to the attainment of these goals. As members of the academic community, students are encouraged to develop the capacity for critical judgment and to engage in a sustained and independent search for truth.

Freedom to teach and freedom to learn are inseparable facets of academic freedom. The freedom to learn depends upon appropriate opportunities and conditions in the classroom, on the campus, and within the larger community. All of those involved in the teaching/learning process should exercise their freedom with responsibility. Students have the responsibility to know and act in accordance with the rules, policies, and regulations that govern our University. Any student who violates the University's rules, policies, and regulations will be subject to a conduct proceeding. In addition, at all times students are expected to act ethically and in a manner that is appropriate and reflects the core values of Northeastern Illinois University, which include Integrity, Excellence, Access to Opportunity, Diversity, Community, and Empowerment Through Learning. The Student Code of Conduct is implemented within a culturally diverse environment that stresses fairness and equal access. **All Students are Guaranteed the Right of Due Process.**

STUDENT CONDUCT CODE DISCIPLINARY PROCEEDING

Conduct proceedings are administrative, and accordingly, will not be governed by strict rules of documentation as applicable in a court of law. The University Student Code of Conduct is administered as a University procedure to process potential violations of misconduct and is distinct from criminal and civil litigation. Certain Code of Conduct violations that also violate city, state, or federal laws may, additionally, be processed in a court of law. The standard of proof required to find a student in violation under the University Student Code of Conduct is "more likely than not". Cited misconduct violation(s) will be governed by the procedures outlined within the University Student Code of Conduct as outlined below. However, in the event that a student's behavior causes or threatens to cause harm to the student, other persons, or property, or creates a pattern of extreme disruption, or indicates an extreme inability to cope with his/her own needs, and also suggests the possibility of a mental disorder, the policy on Involuntary Student Withdrawal will be used to determine: a) whether or not, from the available information, a student is suffering from a mental disorder, and b) the appropriate course of action.

Both academic and non-academic misconduct proceedings may be initiated as the result of a single event or series of events. The student and the person reporting the violation(s) must submit reporting forms and/or any supporting documentation to the Dean of Students (DOS). Supporting documents should be of the kind that responsible persons are accustomed to rely on in serious matters. All documents submitted will be treated as confidential outside applicable use for the conduct process.

Upon submission of a misconduct report, a temporary hold may be placed on the referred student's academic records by the Dean of Students. The hold will be removed at the conclusion of the conduct proceeding. No changes to the student's academic records will be permitted during this period without the approval of the Dean of Students or designee. This does not prevent the student from examining his or her academic records. The student will be notified of the placement and removal of the hold, along with all relevant University personnel. Inquiries regarding referring a student for the misconduct process should be directed to the Dean of Students (DOS).

ACTS OF MISCONDUCT

Students and registered student organizations (RSOs) are subject to University Student Code of Conduct proceedings for participating in the following acts of misconduct:

Academic

Academic misconduct is a violation of the University Student Code of Conduct. Acts of academic misconduct include, but are not limited to:

1. **Cheating.** Use or attempted use of any unauthorized assistance in taking an exam, test, quiz, or other assignment. (Note: Includes cheating on exams includes all required University, state, and/or national assessment exams.)
2. **Encouraging Academic Dishonesty.** Intentionally or knowingly helping or attempting to persuade and/or influence another to violate the University's rules, policies, and regulations governing academic integrity.
3. **Fabrication.** Deliberate falsification or design of any material or excerpt in an academic assignment or exercise.
4. **Misrepresentation to Avoid Academic Work.** Misrepresentation by fabrication of an otherwise justifiable excuse such as illness, injury, accident, etc., in order to avoid or delay timely submission of academic work or to avoid or delay the taking of a quiz, test or examination.

5. **Plagiarism.** Appropriation or imitation of the language, ideas, and thoughts of another author and representation of them as one's original work. This includes (1) paraphrasing another's ideas or conclusions without acknowledgement; (2) lifting of entire paragraphs, chapters, etc. from another's work; and (3) submission as one's own work, any work prepared by another person or agency.

If the student's observed conduct or apparent behavior leads the faculty member to believe there was academic misconduct, the faculty member may adjust the grade downward (including F - failure) for the test, paper, or course, or other course-related activity in question. In such instances, the faculty member will notify the student, the Department/Unit Head, the Dean of the appropriate College as well as the Dean of Students of the reason for such action in writing via the "Academic Misconduct Reporting Form." The student has the right to appeal the grade (see Grade Appeal Policy in the Student Handbook).

If the faculty member perceives that the academic misconduct requires additional or other action (beyond adjusting the grade downward for the test, paper, or course or other course-related activity), she/he will make a referral for conduct proceedings via the "Academic Misconduct Reporting Form". The reporting form should be delivered to the Dean of Students.

For Non-Academic Code of Conduct violations please consult the Student Handbook.

Americans with Disabilities Act

Americans with Disabilities Act (ADA)

The Rehabilitation Act of 1973, Section 504 (<https://www.dol.gov/general/topic/disability/ada/>) / The Americans with Disabilities Act of 1990 (ADA) and amendments:

This legislation applies to the opportunities that must be available to students choosing to attend an institution of higher education. Under ADA, students pursuing a post-secondary education are responsible for documenting and requesting accommodations for their specific needs. Students are responsible for identifying themselves as students who have a disability. The student must provide the University with appropriate documentation regarding their disability and recommended accommodations.

Students are responsible for requesting specific academic adjustments or accommodations according to their documented needs. Eligibility for reasonable accommodations in post-secondary institutions is driven by the federal definition of disability as a physical or mental impairment that substantially limits or restricts the conditions, manner, or duration under which an average person in the general population can perform a major life activity, such as walking, seeing, hearing, speaking, breathing, learning, working, or taking care of oneself. In a university setting, students must advocate for their own academic needs.

Services for Students With Disabilities

1. Student Disability Services (<https://www.neiu.edu/university-life/student-disability-services/>) (SDS) assumes responsibility for seeing that the University is properly interpreting federal regulations requiring that the University take such steps as are necessary to ensure that no qualified student with disabilities is denied the benefits of, excluded from participation in, or otherwise subjected to discrimination because of the absence of educational auxiliary aids for students with impaired sensory, manual, or speaking skills. The Affirmative Action Officer is responsible for coordinating the University's compliance with these regulations. Student Disability Services is responsible for receiving and coordinating inquiries from students regarding auxiliary aids, academic adjustments, or other reasonable accommodations.
2. The following procedure will apply for consideration of requests for auxiliary aids, academic adjustments, or other reasonable accommodations. Students should complete the steps listed below sufficiently in advance of the anticipated need for services. Such notice is required in order to give the various academic and service areas a reasonable period of time in which to evaluate requests.
 - a. Students must be admitted to and/or enrolled in the University.
 - b. Students requesting auxiliary aids, academic adjustments, or other reasonable accommodations should first contact the Student Disability Services. If the request requires modification of academic procedural requirements or necessitates special testing and/or course evaluation methods, students must provide a Provider's Report from a professional, licensed clinician. Such report is subject to verification by the University. If the request cannot be granted by the Student Disability Services, students should contact the University's Equal Opportunity Officer.
 - c. SDS will make a case-by-case determination of the student's educational need for the requested auxiliary aid, academic adjustments, or other reasonable accommodations. Auxiliary aids, academic adjustments, or other reasonable accommodations determined to be necessary will be provided at no cost to the student.
3. Students who believe that they have been discriminated against on the basis of a disability can seek resolution through the University's Discrimination Grievance Procedure (http://catalog.neiu.edu/policies/american-disability-act/Pol_G1_07_EO_Nondiscr_Appendix_0.pdf). Information and consultation on these procedures are available through the Equal Opportunity Office, Room C-216, phone: (773) 442-5412.

Credit Hour Definition

Credit Hour Definition

Consistent with the U.S. Department of Education (DOE) Program Integrity rules published October 29, 2010, Northeastern defines a credit hour as “an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates not less than:

- (1) One hour of classroom or direct faculty instruction and a minimum of two hours of out of class student work each week for approximately 15 weeks for one semester hour of credit, or the equivalent amount of work over a different amount of time; or
- (2) At least an equivalent amount of work as required in paragraph (1) of this definition for other academic activities as established by the institution including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours.”

For traditional lecture, seminar, special topics, contract, grant, video conferencing, and temporary courses, a one credit hour class meets a minimum of 50 minutes per week, and includes 100 minutes of out of class student work totaling 150 minutes per week over the course of the semester. For example, a three credit hour class meets 150 minutes per week and requires 300 minutes out of class student work per week.

Courses such as science laboratories, music ensembles, applied music, and art studios, typically meet a minimum of 100 minutes per credit hour per week.

Thesis, master’s project, independent study, tutored study, internship, practicum, fieldwork, and other individualized instruction courses must include: a) regularly scheduled contact, evaluation, and/or assessment with faculty, b) appropriate site experience and/or project activities, and c) independent work by the student, the combination of which must be equivalent to the amount of work as required in paragraph (1) of the DOE definition.

Credit hour criteria for student teaching, clinical, or practicum experience are determined in accordance with recommendations of a program’s specific accrediting body or applicable state regulation. In the event that the specific accrediting body or the applicable state regulation does not meet Northeastern’s credit hour policy minima, the program must obtain approval for an exemption from the University’s credit hour policy from the Faculty Council on Academic Affairs and the Provost.

Northeastern’s credit hour policy applies to all courses that award academic credit, regardless of the location of the course or the mode of delivery (e.g., hybrid, blended, online, etc.). Courses offered over a different period of time (i.e., half-semester courses, summer session courses, etc.) will require the same amount of classroom and out of class student work per credit hour as required of semester-long courses.

Curriculum committees and administration are charged with upholding the credit hour policy in their review and approval of all courses.

Crime Awareness and Campus Security Act

Security Awareness and Crime Prevention Program

The University's crime prevention program is based upon the dual concepts of minimizing criminal opportunities whenever possible, and encouraging students and employees to take an active role in their own security and the security of others. The University Police Department offers crime prevention training on a number of topics. Crime prevention officers conduct physical security surveys of the campus and conduct crime prevention presentations for the campus community. The following is a listing of some activities of the crime prevention program:

1. Escort Service - Police officers provide an escort service, particularly during hours of darkness, for persons walking on campus to the parking lots or adjacent city streets.
2. New Student Orientation Presentations
3. School Year Kick-off Presentations - A crime prevention presentation accompanied by brochures and other printed material is made available to students during a special presentation at the beginning of the school year.
4. Closed-Circuit Television Surveillance - Closed circuit television cameras survey all of the parking lots on campus and are recorded in the University Police Department.
5. Crime Prevention Presentations - Numerous crime prevention presentations are made annually to such campus groups as the Day Care Center staff and children, students with disabilities, international students, and other student or staff organizations upon request.
6. Printed Crime Prevention Materials - Printed crime prevention brochures, posters, and bookmarks related to personal security and our escort service are distributed at various locations on campus.
7. Computerized Alarm System - A computerized alarm monitoring system located in the University Police Department monitors a comprehensive network of intrusion, detection, and duress alarms.
8. Security Surveys - Comprehensive physical security surveys are made of campus facilities upon request.
9. Crime Prevention News - Crime prevention articles and materials are published in the student newspaper.
10. Sexual Assault Awareness, Education, and Prevention - In cooperation with several departments on campus, sexual assault awareness, education, and prevention presentations are made available to members of the campus community.
11. Code Blue Emergency Phones - The University has emergency direct dial phones located on campus walkways and throughout the parking facility and lots. The phones are readily recognizable by the blue light on top of the column that houses the emergency phone. These phones dial the University Police Department directly at the push of a button.
12. N-Safe and the Mobile 911 Shield Application

The 2018 Annual Safety & Security Information Report (<https://www.neiu.edu/sites/neiu.edu/files/migrated-uni-body/documents/mmdizon/2018%20SafetyandSecurityInformationReport.pdf>) is provided as part of Northeastern Illinois University's commitment to safety and security on campus and is in compliance with the Jeanne Clery Disclosure of Campus Security Policies and Campus Crime Statistics Act, 20 U.S.C. (a) and (f).

Family and Educational Rights Privacy Act

Release of Information Pertaining to Students

In compliance with the Family Educational Rights and Privacy Act of 1974, as amended, the following policy outlines the procedures available for access to student records. This policy is intended to ensure the confidentiality of student records.

1. Definitions

- "Student" is defined as one who has attended or is attending Northeastern Illinois University and whose records are in the files of the University.
- "Education records" are those records which are directly related to a student and maintained by the institution or by a party acting for the institution. "Education records" do not include files made by and kept in the sole possession of the maker which are not accessible to any other person.
- "Directory information" includes name, address, telephone number, dates of attendance, enrollment status, level, previous institutions attended, field(s) of study, awards, honors, degrees conferred with dates, past and present participation in officially recognized sports and activities, prior military service, campus e-mail address, date and place of birth, and photographs. (See Section V, Release of Information).

2. Location of Education Records

All students have records in Enrollment Management Services and are maintained by the University Registrar.

Students may also have records in the following offices which are maintained by the administrative officer listed:

Nontraditional Degree Programs ¹	B-151	Director
College of Arts and Sciences ¹	BBH-158A	Dean
Daniel L. Goodwin College of Education ¹	LWH-4044	Dean
College of Business and Management ¹	CBM-184	Dean
Career Development	B-119	Director
Financial Aid	D-201	Director
College of Graduate Studies and Research	LWH-0006	Dean
Student Affairs	C-336	Vice President/Dean

¹ Some departments maintain records separate from the College. A list of departments or programs which have separate records, their location, and the person responsible for the record may be obtained from the office of the dean of the college in which the department or program is located.

3. Availability of Records to Students

A student's record is open to the student, with the following exceptions:

- Letters of recommendation placed in files prior to January 1, 1975 which were intended to be confidential and used only for the purpose for which they were prepared.
- Records of parents' financial status.
- Medical and psychological records. Medical and psychological records are not available to anyone other than those providing treatment, but can be reviewed by a physician or licensed professional of the student patient's choice.
- Some items of academic record under certain conditions. To ensure the validity and confidentiality of references prepared off campus and on campus, certain documents may carry waivers, signed by the student, relinquishing the student's right of access to the document.

Waivers are subject to the following conditions:

- Waivers can be signed only for the specific purposes of application for admission, candidacy for honor or honorary recognition, including financial aid, based at least in part on merit, and candidacy for employment;
- Waivers cannot be required;
- The student shall be told, upon request, the names of those supplying references. All items in the academic record not covered by waivers are open to the student. Material not covered by waivers may not be protected by keeping it out of the student's file.

4. Availability of Records to University Personnel

Student records are open to members of the currently employed University faculty and staff who have a legitimate need to know their contents, with the following provisions/ restrictions:

The university faculty or staff member must be performing a task that is specified in his or her position description or by a contract agreement, OR performing a task related to student's education, OR providing a service or benefit relating to the student such as health care, counseling, job placement or financial aid. A professor, therefore, may access the records of an enrolled student in his or her class.

In addition, Northeastern has contracted with The National Student Clearinghouse to provide services to students on our behalf (e.g., degree and enrollment verification).

- a. The determination of a "legitimate need to know" will be made by the person responsible for the maintenance of the record. This determination must be made scrupulously and with respect for the individual whose record is involved.
- b. Those letters and statements in an education record which are inaccessible to students (filed before January 1, 1975, or segregated by waivers) are to be used only for the purposes for which they were prepared.

5. Release of Information to Third Parties

- a. Directory information may be released to agencies or persons outside the university unless the student completes the appropriate form which indicates that this information should be withheld. This form may be obtained in Enrollment Management Services and must be filed within the first ten days of classes.
- b. Other information in the education record normally will be released to third parties (i.e., anyone not a member of the faculty or staff) only at the written request of the student. A student may secure from the appropriate office a "consent form" authorizing the release of specified records to specific individuals.
- c. Other information in the education record will be released to third parties without the consent of the student only as follows:
 - i. Information will be released:
 - To Federal and State Officers in connection with the audit and evaluation of federally supported educational programs and to enforce federal laws;
 - As required by State law;
 - To research projects on behalf of educational agencies seeking test norms, improving instruction, etc., provided that there is no personal identification of students;
 - To accrediting agencies carrying out their functions;
 - In response to a subpoena or court order;
 - To officials of another school, upon request, in which a student seeks or intends to enroll
 - To parents of a dependent (as defined by the IRS code) student.
 - Results of a disciplinary hearing to an alleged victim of a crime of violence.
 - To persons in an emergency if the knowledge of information is necessary to protect the health or safety of the student or other persons.
 - ii. Education records will be released to third parties only by the University Registrar, Director of Financial Aid or the Vice President for Student Affairs. No other University office will release education record information to third parties directly except in the case of institutional audits. Third party requests to other University offices shall be referred to one of the aforementioned officials.
 - iii. The third party must submit the request in writing and must specify a legitimate reason. A copy shall be filed with the University's General Counsel.
 - iv. A reasonable attempt will be made to notify the student prior to the release of information if: (a) the request for information takes the form of a subpoena or a court order (excluding certain law enforcement subpoenas and ex parte orders), and (b) disclosure without notice would infringe upon the student's rights under the Family Educational Rights and Privacy Act. Judgments on condition (b) will be made by the University's General Counsel.
 - v. A notation of the release made to third parties will be kept in the student's record by the University Registrar, Director of Financial Aid or the Vice President for Student Affairs except when the reason for the request is an institutional audit, procedural evaluation, or research. Reasons shall be evaluated in consultation with the University's General Counsel. Such notation is open only to the student and the person in charge of the record.
- d. The third party is prohibited by the Family Educational Rights and Privacy Act from subsequently releasing personally identifiable information to other (or fourth) parties, and shall be so informed in writing by the University official who releases information.

6. Access Procedure

The University has established the following procedures enabling the student to have access to his or her record within 15 working days of the request and has provided for interpretation and challenge.

- a. The student may see his or her file by filling out a specific request form at the office where the record of interest is maintained.
- b. Access is to be granted promptly and no later than 15 working days from the date of request.
- c. The student may make the request in person or by mail.
- d. The student may obtain copies of records upon request (for which the university may charge an appropriate fee per page) with the following exceptions:
 - i. Copies of transcripts from other schools will not be released.
 - ii. Copies of NEIU transcripts will not be released if the student is indebted to the University.
- e. The student may request and receive interpretation of his or her record from the person (or designate) responsible for the maintenance of the record.

7. Review on Challenge

- a. In the event a student challenges the content of the education record on the basis that an item(s) is inaccurate, misleading, or violates the privacy or other rights of the student, the custodian of the education record shall discuss the challenge with the student and attempt to resolve the challenge within a framework of maintaining the integrity, accuracy, and usefulness of the record. If the student wishes to insert a written explanation regarding the content of the record, such written explanation is to be accepted and included in the record.

- b. If the custodian and student are unable to resolve the challenge, they shall schedule a meeting with the appropriate dean, within 15 days of the challenge for further review.
- c. If no resolution can be effected, the matter will be referred to the appropriate Vice President's Hearing Panel.
- d. It is the obligation of the University to amend the education record if it is found that information contained therein is inaccurate, misleading, or otherwise in violation of the privacy or other rights of the student, and the student's statement commenting on the education records which may be inserted therein shall be maintained as part of the educational records and shall be disclosed, together with the contested portion, to any party entitled to receive the education records.

8. The Hearing

a. General principles:

A request for a hearing must be specific to a record, be submitted in writing to the custodian of the record, and include an explanation or justification of the request for a hearing. It is the responsibility of the student to prepare the written request.

b. The Hearing Panel shall be appointed by the appropriate Vice President. It shall consist of:

- i. At least one administration official of the University who does not have an interest in the direct outcome of the hearing;
- ii. One faculty member of the University who does not have an interest in the direct outcome of the hearing;
- iii. Two representatives from the Student Government or appropriate body.

The custodian of the record(s) or his or her designate shall be present as a resource person, but only as an *ex-officio* member of the panel.

c. The hearing panel process shall afford the student a full and fair opportunity to present evidence relevant to the issue being raised. The process will ensure that:

- i. Hearings will be scheduled within a reasonable period of time not to exceed 45 days from the date on which the appeal was heard by the appropriate dean;
- ii. Hearings will not be open to the public;
- iii. Neither the student in question, nor his/her representative, shall serve on the panel;
- iv. Decisions of the panel will be by majority vote and will be final;
- v. Results of the hearing, to include a summary of the evidence and the reasons for such decision, will be communicated in writing to the student and to the custodian(s) of the record being challenged within a period not to exceed 45 days after the conclusion of the hearing.

9. Notification Regarding Access to Records

Annual notification of this policy shall be made in official publications, such as the online Schedule of Classes and the Academic Catalog.

10. Continued Maintenance

Nothing in this policy requires the continued maintenance of any student record. However, if under the terms of this policy a student has requested access to the record, no destruction of the record shall be made before access has been granted to the student. Persons in charge of records should ensure that only pertinent items are retained in student files.

Students have the right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with requirements of FERPA. The name and address of the office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue SW
Washington, DC 20202-4605

Grade Appeal

Undergraduate and Graduate Grade Appeal Policies

Undergraduate Grade Appeal Policy

All students have a legitimate right to seek redress when they consider their final grade in a course to be unreasonable, unjust, or capricious. This grade appeal procedure shall be initiated during the term immediately following issuance of the grade in question; in cases involving special and unusual circumstances, this time period may be reasonably extended.

Procedure:

1. The student should consult the faculty member who issued the grade for reconsideration of the grade.
2. If, after seeing the faculty member, the student wishes to pursue the issue or if the faculty member is unavailable, he/she should then approach the faculty member's Coordinator or Department Chair and ask for an investigation of the grade appeal.

At this time the student must present a written statement to the Coordinator or Department Chair explaining the reasons for believing the grade to be unreasonable, unjust, or capricious. The Department/Unit Head is responsible for consulting the parties involved, gathering all pertinent information, and for preparing a written statement of the facts which will be given to the student and faculty member and be used in reviewing the facts with the student and the faculty member. The Coordinator or Department Chair shall be responsible for:

- a) either concurring with the faculty member that the grade should remain as recorded, or
- b) suggesting to the faculty member that the grade be reviewed.
- c) The student and faculty member shall be informed in writing of this conclusion. If the student believes the grade appeal has not been resolved satisfactorily, he/she may appeal the grade in writing to the appropriate dean.

3. If the Coordinator or Department Chair is the teacher of record, the student shall appeal in writing directly to the appropriate dean, instead of to the Department/Unit Head as in 2 above. (For undergraduate and unclassified graduate students, the appropriate dean is the Dean of the College in which the academic department is located. For graduate students in a degree program, the appropriate dean is the Dean of the Graduate College). The Academic Dean shall be responsible for requesting a written statement from the Coordinator or Department Chair. If the issue is not resolved to the student's satisfaction, the student may write to the Dean and request a hearing by the Grade Appeal Committee.

4. The Dean, in consultation with the Grade Appeal Committee, will review the statement prepared by the Coordinator or Department Chair. If the Dean believes the issue should be pursued, he/she will convene the Grade Appeal Committee for a hearing. If the Dean decides the issue should not be pursued, the grade remains as recorded. The decision of the Dean is final. All parties must be so notified.

5. For undergraduate and unclassified graduate students, the Academic Dean will have a standing Grade Appeal Committee, to be selected each year, composed of five members as follows:

- Two faculty members and two alternates selected by the college assembly.
- Two student members with two alternates selected by the Student Senate.
- The dean of the college involved, or his/her representative. For students in a graduate degree program, the Dean of the Graduate College will have a standing Grade Appeal Committee, selected each year, consisting of five members, as follows:
 - Two faculty members and two alternates selected by the Graduate Advisory Committee.
 - Two students in good standing, in a Master's Degree Program, selected by the Dean of the College.
 - The graduate dean or his/her representative.

6. The Grade Appeal Committee will investigate the case, and hold a hearing in which the student, the faculty member, and the Coordinator or Department Chair shall be invited to participate. The Committee deliberations following the hearing will be confidential.

7. If the Committee decides the challenged grade is unreasonable, unjust, or capricious, it shall so recommend to the Dean, who shall have the power to change the grade from a letter grade to a grade of "P" (pass). The credits for this course will count toward undergraduate degree requirements. If the committee decides there is insufficient evidence to support the student's claim, it shall recommend to the Dean that the original grade should stand.

8. In all instances the Committee will reach a conclusion and submit its recommendation in writing to the Dean, who shall render a written decision, copies of which shall be sent to the student and faculty member. The decision of the Dean shall be final.

Graduate Grade Appeal Policy

Every student has the right to appeal if they consider their final grade in a graduate-level course to be unreasonable, unjust, or capricious. A grade appeal can be initiated no later than two semesters (including summer) after the grade was assigned. The Dean of the College of Graduate Studies and Research makes the final decision on graduate grade appeals.

Process for appealing a grade in a graduate course:

1. The student must first consult the faculty member who issued the grade for reconsideration of the grade. The Chair or Coordinator and other members of the department are encouraged to be available for consultation with the faculty member and the student at this stage. Note: This is the only stage at which an appealed grade can be changed to an A, B, C, D, or F. At every subsequent stage of the grade appeal process, the Chair, Associate Dean of the graduate program's college or Dean of the College of Graduate Studies and Research can change the grade to a P only.
2. If the faculty member is unavailable or the student contests the faculty member's decision and wishes to continue the appeal, the student should (next) approach the Chair of the department in which the course was taught. The Chair may designate the relevant program's Coordinator to serve this role for this stage, if the department has a Coordinator. The student must present a written statement to the Chair explaining the reasons he/she believes the grade is unreasonable, unjust, or capricious. The Chair is responsible for investigating the student's claims by gathering relevant information, and preparing a written statement of the findings of the investigation. At the conclusion of this investigation, the Chair must recommend that the student's grade appeal be supported or denied. The Chair shall communicate this recommendation and its rationale in writing to the student and the faculty member.
3. If the faculty member who issued the grade is also the Chair, the student should appeal directly to the Associate Dean of the college in which the course was taught, submitting a written statement explaining the reasons he or she believes the grade is unreasonable, unjust, or capricious. The Associate Dean is responsible for investigating the student's claims by gathering relevant information, and preparing a written statement of the findings of the investigation. At the conclusion of this investigation, the Associate Dean must recommend that the student's grade appeal be supported or denied. The Associate Dean shall communicate this recommendation and its rationale in writing to the student and the faculty member (Chair).
4. If the student believes that the process was flawed or that there was evidence that was not considered, he/she can bring the appeal to the Dean of the College of Graduate Studies and Research. In addition to the appeal materials already provided to the Chair, Coordinator, or Associate Dean in Step 2 above, the student must justify in the appeal why he or she believes the decision should be reconsidered, including any new pertinent information. Disagreement with the outcome of the deliberations of the Chair, Coordinator, or Associate Dean is not sufficient on its own to pursue an appeal with the Dean. If the Dean of the College of Graduate Studies and Research agrees that the process was possibly flawed or there was evidence not considered, he/she will convene the Graduate Grade Appeal Committee to hear the grade appeal. The Graduate Grade Appeal Committee, selected each year, will consist of five members, as follows:
 - a. Two faculty members from the Graduate College Advisory Committee,
 - b. Two master's degree program students in good standing selected by the Dean of the College of Graduate Studies and Research, and
 - c. The representative of the Dean of the College of Graduate Studies and Research.
5. Before hearing any appeals, any student serving on the Graduate Grade Appeal Committee must fill out and sign a FERPA Privacy and Confidentiality Understanding/Agreement, available from the Associate Dean of the College of Graduate Studies and Research or the University Registrar.
6. The Graduate Grade Appeal Committee will investigate the case and will hold a hearing. The student, the faculty member, and the Chair, Coordinator, or Associate Dean involved with Step 2 shall be invited to participate. If the student fails to attend the agreed-upon, scheduled hearing, then the hearing will be cancelled and the grade appeal dismissed without further review.
7. The Graduate Grade Appeal hearing generally takes about one hour and has the following format:
 - a. The student has 10 minutes to present the appeal, after which the committee members may ask questions of the student.
 - b. The faculty member of the course has 10 minutes to respond, after which the committee members may ask questions of the instructor.
 - c. The Chair (if he/she is not the faculty member), Coordinator, or Associate Dean may add comments and answer any questions the committee members may have.
 - d. The student does not ask questions of the faculty member, Chair, Coordinator, or Associate Dean, and the faculty member, Chair, Coordinator, and Associate Dean do not ask questions of the student.
 - e. The student may have 2 or 3 minutes for final rebuttal and the committee may ask final questions of the student, faculty member, Chair, Coordinator, or Associate Dean.
 - f. Everyone except for the Graduate Grade Appeal Committee leaves the hearing room.
 - g. The committee members discuss the appeal. The Dean's representative will lead the discussion. When the discussion is complete, the committee members will take a vote on the appeal.
8. The committee will communicate to the Dean of the College of Graduate Studies and Research its written recommendation, which will be one of the following:

- a. If the Committee decides that the challenged grade is unreasonable, unjust, or capricious, it shall so communicate to the Dean its recommendation that the grade be changed to a P.
 - b. If the Committee decides there is insufficient evidence to support the student's claim, it shall recommend to the Dean that the original grade should stand.
 - c. If the committee cannot agree on the appeal, the lack of agreement will be communicated to the Dean.
9. After receiving the recommendation of the committee and reviewing the materials submitted by the student, the faculty member, and the Chair, Coordinator, or Associate Dean, the Dean of the College of Graduate Studies and Research may decide that the grade should remain as recorded, or that it should be changed to a P (Pass). If the grade is changed to a P, the credits for the course will count toward the student's degree requirements, but the grade will not contribute to the GPA.
 10. The Dean of the College of Graduate Studies and Research will share his/her decision in writing with the student, the faculty member, and the Chair, Coordinator, and/or Associate Dean, and a copy of the decision will be placed in the student's records. The decision of the Dean is final.

NEIU Policy on Equal Opportunity and Nondiscrimination

Policy on Equal Opportunity and Nondiscrimination

Northeastern Illinois University supports the principles of equal opportunity in employment and education. Northeastern does not discriminate in employment or education on the basis of race, color, religion, sex, pregnancy, disability, national origin, citizenship status, ancestry, age, order of protection status, genetic information, marital status, sexual orientation, gender identity, gender expression, arrest record status, military status, or unfavorable discharge from military service. Northeastern accepts complaints of discrimination and harassment from students, employees, applicants for admission or employment, and University visitors. The University does not tolerate retaliation against any person for coming forward with a complaint or concern, or for otherwise participating in the process of addressing discrimination or harassment.

This policy furthers Northeastern's commitment to the principles of equality and equal opportunity for applicants, students, faculty, staff and visitors to the University. It outlines how the University promotes learning and working environments free from all forms of discrimination and harassment. The policy provides a means to address complaints of discrimination and harassment based on the protected categories identified herein. The University will comply with all federal, state, and applicable local nondiscrimination and equal opportunity laws, orders, and regulations.

To access the full policy, click on this link - Equal Opportunity and Nondiscrimination (http://catalog.neiu.edu/policies/neiu-policy-nondiscrimination/Pol_G1_07_EO_Nondiscr_FINAL_.pdf)

To access the complaint form, click on this link - Discrimination Grievance Form (http://catalog.neiu.edu/policies/neiu-policy-nondiscrimination/Pol_G1_07_EO_Nondiscr_Appendix_0.pdf)

Students who believe that they have been discriminated against or harassed on the basis of a protected equal opportunity category can seek resolution through the University's Discrimination Grievance Procedure. Information and consultation on these procedures are available through the Equal Opportunity Office, main campus, room C-216, or at eeo@neiu.edu or (773) 442-5412.

Voter Registration Information

Voter Registration Information

The 1998 Higher Education Act Mandatory Good Faith Effort for the National Voter Registration Act reads, in part, that "[t]he institution will make good faith effort to distribute a mail voter registration form, requested and received from the State, to each student enrolled in a degree or certificate program and physically in attendance at the institution, and to make such forms widely available to students at the institution." The State of Illinois has provided the following link for students to use to print a voter registration form:

Illinois Online Voter Registration (<https://ova.elections.il.gov/>)

English Voter Registration Form and Spanish Voter Registration Form are available.

TurboVote

Northeastern Illinois University is committed to providing you with the information and materials you need to vote. Go here to NEIU's Turbovote site (<https://neiu.turbovote.org/register/>) and register online to vote in Illinois (you can also register if you live in another state – though online registration restrictions vary from state to state). Once you are registered in the TurboVote system it is easy to verify or update your voter registration, request an absentee ballot form by mail, and sign up for text and/or email election reminders. You can do this all for free. If you have already registered to vote, you can still sign up at NEIU's Turbovote site (<https://neiu.turbovote.org/register/>) to receive text or email reminders so you will not miss an election.

Oral Proficiency

Oral Proficiency

Northeastern Illinois University, in accordance with a 1987 State of Illinois statute, ensures that all persons providing classroom instruction to students are proficient in oral English. If an instructor's oral proficiency is in doubt, students should contact the department chair to obtain information about the University's procedure for handling complaints.

Alcohol and Drug Abuse Prevention Information

Alcohol and Drug Abuse Prevention Information

Consistent with its mission as a public institution of higher education, the University is committed to educating students, faculty, and staff on the dangers of alcohol and drug abuse, and to establishing standards of conduct that maintain a campus environment in which such abuse is prohibited. These standards are intended to be in full compliance with the Drug-Free Schools and Campuses Regulations (34 CFR Part 86) promulgated by the Department of Education to implement section 22 of the Drug-Free Schools and Communities Act Amendments of 1989, which adds section 1213 to the Higher Education Act and section 5145 to the Drug-Free Schools and Communities Act (collectively referred to as the "Act").

Students should refer to the Dean of Students website and the Student Handbook, for the comprehensive Alcohol and Drug Abuse Prevention Information. For further information, call the Dean of Students at (773) 442-4610.

Standards of Conduct and Prohibitions

Employees and students, in their affiliation with the university, shall not manufacture, possess, use, deliver, sell or distribute any substance prohibited by the Illinois Cannabis Control Act, the Illinois Controlled Substance Act, or any other State or federal statute, except as authorized by law, consistent with the regulations of the University's Board of Trustees. Further, faculty, staff, and students may not possess or consume alcoholic beverages on university property or at university-sponsored activities except in accordance with the university's alcohol policy (see use of facilities policies and procedures manual) — which expressly limits consumption of alcoholic beverages to persons 21 years of age or older, who are attending as specific invitees of the President or appropriate Vice President or designee, a function specifically approved by the President or appropriate Vice President or designee, held in a specifically approved designated area.

Applicable Legal Sanctions

Employees and students who violate State and/or Federal law may be subject to criminal prosecution. A number of Illinois and Federal criminal statutes provide extended definitions of what constitutes illegal possession, use, and distribution of alcohol and drugs. Criminal penalties for violations of Illinois statutes include terms of imprisonment for up to sixty (60) years and fines of up to \$500,000. Equally severe penalties and sanctions may be imposed for violations of Federal statutes. Definitions of legal sanctions under Illinois law for the unlawful possession, use, and distribution of illicit drugs and alcohol are included in 720 ILCS Sec. 570/201 et seq. and 720 ILCS Sec. 550/1 et seq., copies of which are available for review by students and employees in the University library.

Health Risks

The abuse or illegal use of alcohol and the illegal use of controlled substances can seriously injure the health of employees and students, adversely impair the performance of their duties and their academic achievements, and endanger the safety and well-being of fellow employees, students, and others. Further information about the health risks associated with the use of alcohol and controlled substances is available in Student Health Services and Student Counseling Services offices.

Counseling and Support Services

STUDENTS

Student Counseling Services offer counseling and referral services to students who have drug or alcohol abuse-related problems. Additionally, the office provides:

1. information about on-campus substance abuse self-help groups
2. referrals to off-campus prevention and treatment resources
3. substance abuse information and prevention literature

Disciplinary Sanctions

STUDENT SANCTIONS

The University will impose disciplinary sanctions on students who violate the University's foregoing policy up to and including expulsion and referral for prosecution and completion of an appropriate rehabilitation program, all in accordance with the Student Code of Conduct. Furthermore, student employees who violate the University's foregoing policy may be subject to termination of employment.

Reasonable Accommodation of Religious Observances

Reasonable Accommodation of Religious Observances

Consistent with Illinois Public Act 84-212 (<http://www.ilga.gov/legislation/ilcs/documents/010500050K26-2b.htm>), an act to prohibit public school districts and institutions of higher education from discriminating against students for observing religious holidays (effective August 26, 1985), Northeastern Illinois University subscribes to the following policy and procedures:

1. Northeastern Illinois University supports the concept of "Reasonable Accommodations of Religious Observances" in regard to admissions, class attendance, and the scheduling of examinations and other academic work requirements.
2. A student who is unable because of the observance of a religious holiday to attend classes on a particular day or days, or at a particular time of day, shall be excused from any examination or any study or other academic work assignments on such days or times.
3. Faculty and administrative personnel may require up to 10 calendar days advance notice of absences to observe religious holidays.
4. It is the responsibility of the faculty and administrative personnel to make available to such students an equivalent opportunity to make up the examinations, study or other academic work requirements which they missed due to such absences.
5. It is the responsibility of all students who also are employees of the University to make arrangements to fulfill their obligations to the University in advance of their absences, and/or to utilize accrued leave (if applicable) during the absences.
6. No fees or penalties may be imposed against the students who exercise such afforded opportunities.

To access the full policy, click on this link: Reasonable Accommodations of Religious Observances for Students and Employees (http://catalog.neiu.edu/policies/reasonable-accommodation-religious-observances/Reas_Accom_Religious_FINAL.pdf)

To access the complaint form, click on this link: Discrimination Grievance Procedure Form (http://catalog.neiu.edu/policies/reasonable-accommodation-religious-observances/Reas_Accom_Religious_Appendix.pdf)

Students who believe that they have been discriminated against or harassed on the basis of religious observances can seek resolution through the University's Discrimination Grievance Procedure. Information and consultation on these procedures are available through the Equal Opportunity Office, main campus, room C-216, or at eeo@neiu.edu or (773) 442-5412

Sexual Misconduct

Sexual Misconduct Policy

University Policy Statement

Northeastern Illinois University does not tolerate sexual misconduct, including but not limited to, sexual assault, sexual violence, sexual exploitation, stalking, dating or domestic violence, and sexual harassment. Sexual misconduct is strictly prohibited by Title IX of the Education Amendments of 1972 (Title IX) of the Civil Rights Act of 1964, a federal law which protects individuals from discrimination based on sex in any educational program or activity operated by recipients of federal financial assistance. Northeastern does not discriminate on the basis of sex, gender, sexual orientation, gender identity, or gender expression in the employment, education programs or activities it operates. Northeastern cooperates fully with legal authorities in preventing and prosecuting Title IX offenses, and imposes remedial measures and/or disciplinary sanctions against those found responsible for violations. The University offers educational programs and resources designed to promote the awareness and prevention of sexual misconduct at all Northeastern locations. This policy applies to all individuals irrespective of their sex, gender, sexual orientation, gender identity, or gender expression. Northeastern expects members of the University community to help maintain a safe environment.

Purpose of the Policy

The purpose of this policy is to advance Northeastern's long-held position that sexual misconduct violates the standards of our community and is unacceptable, and to provide prompt and equitable resolution of sexual misconduct complaints. This policy furthers Northeastern's commitment to providing locations that are safe and secure from sexual misconduct.

To access the full policy, click on this link – Sexual Misconduct (http://catalog.neiu.edu/policies/sexual-harassment/Sexual_Misconduct_policy.pdf)

Students who believe they have been subjected to sexual misconduct can speak with the Title IX Coordinator and seek resolution through the University's Grievance Procedure by filing a complaint (<https://www.neiu.edu/about/title-ix-sexual-misconduct-complaint-form/>). Anonymous complaints are accepted via online submission.

Learn more about additional Title IX resources (<https://neiu.edu/about/university-leadership/executive-team/legal-affairs-and-general-counsel/equal-opportunity-and-ethic-4/>) available regarding confidential services such as health and counseling, or by contacting the University's Confidential Advisor.*

** The Confidential Advisor, Student Health Services staff, and Student Counseling Services counselors are permitted to keep communications confidential.*

Students may contact the Title IX Coordinator in the Title IX Office, main campus, room C-216, at titleix@neiu.edu or (773) 442-5412.

Student Right to Know Act

Student Right to Know

In compliance with federal regulations, Northeastern Illinois University discloses our graduation rate to students, prospective students, and the general public, upon request.

Information regarding our graduation rate can be found at <http://www.neiu.edu/about/office-institutional-research-and-assessment> (<http://www.neiu.edu/about/office-institutional-research-and-assessment/>), (click on Data Digest, then, Graduation and Retention rates).

A printed copy may be obtained by sending a written request to:

Chicago, Illinois 60625

College of Graduate Studies and Research

College of Graduate Studies and Research

Michael J. Stern, Ph.D., Dean and Professor of Biology

Northeastern Illinois University, through its College of Graduate Studies and Research (CGSR), and in collaboration with the other colleges and faculty, provides the resources, facilities, and academic environment to advance learning, to foster creativity, and to nurture intellectual independence in graduate education. Graduate students pursue advanced studies and join the faculty in extending knowledge through research, scholarly and creative activities.

The College of Graduate Studies and Research offers the majority of its coursework during the late afternoon and evening hours to accommodate individuals who work during the day. Students should consult with their Graduate Program Advisor/Coordinator to plan an appropriate schedule of courses.

The College of Graduate Studies and Research offers master's degrees in 40 academic concentrations, as well as a variety of graduate certificate, licensure, endorsement, and FOCUS programs. All students engaged in graduate work at Northeastern Illinois University are admitted to the College of Graduate Studies and Research and are governed by its policies and procedures. Graduate students, therefore, have different tuition rates and grievance procedures. They are eligible to apply for graduate assistantships and tuition scholarships available through the College and departments.

Applications for admission are accepted for the academic terms as per the schedule provided with the application materials. Applicants are advised to check the College of Graduate Studies and Research website for any changes or special situations.

Organization of The College

The Dean is responsible for the implementation of institutional policies related to graduate education at Northeastern Illinois University. Such policies are established in collaboration with the Graduate College Advisory Committee, a group elected by and from the faculty of the University. The Dean's Office handles petitions for any exceptions to University policy related to graduate studies, and addresses graduate student issues, including complaints and graduate grade appeals. The Dean's Office also oversees the processes involved in the appointment of Graduate Assistants. The Graduate Admissions handles all matters related to admissions and the Graduate Records Office handles matters related to graduation and the student's graduate records. Applications for graduation are accepted for each academic term, as per the schedule published in the Schedule of Classes.

Each graduate program has a Graduate Program Advisor/Coordinator who serves as an important link with the College of Graduate Studies and Research in overseeing graduate education at Northeastern Illinois University. The Graduate Program Advisor/Coordinator evaluates applications for admission to their program, advises on programs of study, informs students of departmental regulations and procedures, monitors students' academic progress, and reviews and approves applications for graduation. Students are urged to keep in contact with their advisors and to visit the CGSR website (www.neiu.edu/graduatestudies (<http://www.neiu.edu/graduatestudies/>)) periodically for important information updates.

The Dean is also responsible for overseeing the administration of research at the University. In this capacity, the Dean works closely with the Research and Creative Activities Advisory Group to support and enhance research and creative activities throughout the university community.

Mailing Addresses and Office Hours:

College of Graduate Studies and Research Dean's Office (LWH-0041)

Northeastern Illinois University
5500 N. St. Louis Avenue
Chicago, Illinois 60625-4699

Graduate Admissions Office (D-101D)

Graduate Records Office (D-101D)

Northeastern Illinois University
5500 N. St. Louis Avenue
Chicago, Illinois 60625-4799

The CGSR Dean's Office is open Monday through Friday, from 8:30 a.m. to 4:30 p.m., and can be reached at graduatestudies@neiu.edu or (773) 442-6012. Both the Graduate Admissions and Graduate Records offices are typically open between 8:30 a.m. and 4:30 p.m. on Monday and Friday, and 8:30 a.m. to 6:00 p.m. on Tuesday through Thursday. You may reach the Graduate Admissions Office at graduateadmissions@neiu.edu or (773) 442-6001, and the Graduate Records Office at graduate-records@neiu.edu or (773) 442-6001.

Graduate student funding

The University provides a limited number of graduate merit and need-based tuition scholarships to qualified students in good academic standing upon the recommendation of their program faculty.

Students interested in an appointment as a graduate assistant may fill out the form available on the College of Graduate Studies and Research website at www.neiu.edu/graduatestudies (<http://www.neiu.edu/graduatestudies/>). A student's skills will be matched to available positions, and interviews will be arranged if an assistantship opportunity becomes available.

Graduate students should also contact the Financial Aid Office for the availability of various fellowships and other forms of financial assistance: <http://www.neiu.edu/financial-aid/>

Master's Goals

College of Graduate Studies and Research Master's Goals

It is the mission of Northeastern Illinois University to prepare a diverse community of students for leadership and service in our region and in a dynamic, multicultural world. In the College of Graduate Studies and Research, our programs offer opportunities for our students to achieve mastery in the following areas: Knowledge, Tools of Inquiry, Relevance, Communication, and Professionalism. Students will demonstrate that mastery through both coursework and a culminating experience appropriate to the program.

Knowledge

Graduate students will pursue and master advanced, specialized knowledge within their discipline.

Tools of Inquiry

Graduate students will develop academic curiosity and expertise in using tools of inquiry reflecting the norms and standards of their discipline. This expertise includes research ethics and methodologies, modes of critical thinking and problem solving, and appropriate uses of technology.

Relevance

Graduate students will apply their knowledge and tools of inquiry to contextualize their learning within broad global, public, and academic communities.

Communication

Graduate students will develop professional communication skills, giving them the ability to engage in the critical, open exchange of ideas. They will be able to participate in diverse, collaborative networks within and across disciplines.

Professionalism

Graduate students will be prepared to serve and lead effectively in a diverse, global society according to the professional standards of their discipline. They will be ready to establish themselves as ethical individuals in their professional lives.

Graduate Policies

GRADUATE POLICIES

The Graduate Policies section contains policies which pertain to all graduate students, such as policies regarding Academic Standing, Graduate Transfer Credits, Thesis, and Graduate Grade Appeals. Questions concerning these policies can be directed to the College of Graduate Studies and Research: graduatestudies@neu.edu.

Active Status

When a student is admitted to Northeastern's College of Graduate Studies and Research for graduate study, they are given an active student status that entitles them to various privileges of active students, such as the ability to register for courses and access to the library. A graduate student is expected to maintain active status from the time he/she begins the graduate program to the time he/she graduates.

Inactivation/Re-admission Policy

A graduate student who does not enroll in at least one course over three consecutive semesters, including the summer semester, will have his/her student status changed from "Active" to "Inactive".

A graduate student must be re-admitted to the same program, admitted to a different program, or admitted as a student-at-large to register for additional classes. Re-admission to a student's original program is not guaranteed.

All re-admitted students are subject to the catalog year requirements based on their semester of re-admission and enrollment.

Leave of Absence

Circumstances sometimes require that students interrupt their studies for longer than three semesters. Such students can apply for a Leave of Absence to avoid inactivation.

1. Only an active graduate student is eligible to apply for a leave of absence.
2. A graduate student may request a maximum of six consecutive academic terms of absence, including summer.
3. A graduate student is not expected to make any academic progress towards his/her degree while on a leave of absence.
4. A graduate student may not use any University resources while on a leave of absence.
5. A graduate student's academic status will not change during a leave of absence.
6. Students applying for a leave of absence must submit to their graduate program the Graduate Leave of Absence Request Form, located on the Registrar Services' forms page.
7. An international student must also gain approval via a signed memo from his/her International Programs advisor. The approval memo must be included with the form submitted to the graduate program.
8. Programs submitting a Leave of Absence Request form to the College of Graduate Studies and Research Dean's office must include a memo of support explaining how the student will complete his/her requirements within six years of his/her initial enrollment.

A graduate student finishing a leave of absence must register for coursework the semester of return as specified on the form. Failure to register for coursework the semester the student is scheduled to return will result in being moved to inactive status that semester. An inactive graduate student must reapply to the University for readmission to his/her graduate program. Readmission is not guaranteed. A readmitted student is subject to the catalog year requirements based on the semester of readmission (see Catalog Year policy).

Graduate Academic Standing Policies

To remain in good academic standing, a student in a graduate program (degree-seeking, licensure, endorsement, or certificate) must maintain a minimum cumulative GPA of 3.0. In addition, a graduate student in a degree or certificate program must make satisfactory progress toward his/her degree or certificate. A student must be in good academic standing to graduate.

Grade Point Average

A graduate student's Grade Point Average (GPA) is determined based on the grades received in all graduate-level courses taken, beginning from the term of initial enrollment in graduate status at Northeastern. All grades received, including those of courses that were taken multiple times (see Repeating Courses policy), will count toward a student's GPA and will appear on a student's transcript. A graduate student must have a minimum cumulative GPA of 3.0 to be awarded his/her degree or certificate.

DISMISSAL FOR ACADEMIC REASONS

A student in a graduate program (degree-seeking, licensure, endorsement, or certificate) may be dismissed from his/her program for the following academic reasons: sub-standard GPA (see Academic Probation policy); failure to make satisfactory progress toward completion of his/her program;

or receiving more than six credit hours of unsatisfactory grades (C, D, or F). A student may also be dismissed as a consequence of acts of academic misconduct (see the University Code of Conduct).

To avoid dismissal, a student who has experienced extenuating circumstances may meet with his/her program advisor to request development of a plan outlining the course of action the student must follow to return to good academic standing. This plan must be approved by both the program and the Dean of the College of Graduate Studies and Research or the Dean's designee. Failure to meet the terms of this plan may not be appealed and will result in dismissal.

ACADEMIC PROBATION

A student in a graduate program (degree-seeking, licensure, endorsement, or certificate) whose cumulative GPA falls below 3.0 will be placed on academic probation. If in subsequent terms, the student earns grades that restore his/her cumulative GPA to 3.0 or above, he/she will be returned to good academic standing. If a student needs to be placed on academic probation for a third time after he/she returned to good academic standing in two previous probation instances, he/she will be dismissed. A student whose cumulative GPA falls below 2.0 will be dismissed without academic probation.

A student who is on academic probation and who does not restore his/her cumulative GPA to 3.0 in subsequent terms will be permitted to remain on academic probation as long as he/she earns at least a 3.0 GPA for the term. If in any subsequent term, the student on academic probation fails to earn a 3.0 GPA for the term, he/she will be dismissed.

Graduate Student-at-Large: Dismissal and Reinstatement/Readmission

A graduate student-at-large will be dismissed if, upon the completion of four courses, they have earned a cumulative grade point average that is less than 2.0 (on a 4.0 scale; equivalent to a "C" average). A graduate student-at-large who has been dismissed may apply to be reinstated/readmitted no earlier than the second semester following the dismissal. The reinstatement/readmission application must include an appeal letter addressed to the Academic Standards Committee explaining the new circumstances that will allow the applicant to improve their academic performance. Deadlines for reinstatement/readmission following dismissal are July 15 for the Fall semester, November 15 for the Spring semester, and March 15 for the Summer semester. If reinstatement/readmission is granted, the student will be reinstated/readmitted on academic probation (see Graduate Academic Probation section).

Fulfilling Graduate Academic Requirements

The academic requirements of any degree or certificate program that a student is admitted to are determined by a student's "catalog year".

CATALOG YEAR

A graduate student's catalog year is the academic year when the student is first enrolled after being admitted to a graduate program. A student's catalog year is not affected while the student is on an approved leave of absence. A readmitted student is subject to the catalog year requirements based on the semester of his/her re-admission (see Inactivation/Re-admission Policy).

Change of Catalog Year

An active student may change his/her catalog year to a succeeding catalog if it is to the student's benefit. A completed Change of Catalog Year form should be submitted to Enrollment Management Services to update the student's record.

Graduate Degree Credits

All graduate credits are at the 400 level or above, except for a limited number of 300 level courses that have been approved for graduate degree credits in a specific master's degree program (referred to as "300-starred" (300*) courses). Programs may permit students to apply up to three 300* courses, to a maximum of ten credit hours, to fulfill program requirements. Students should consult with their program advisors for details concerning graduate degree credits for 300*-level courses.

A maximum of two courses with grades of "C" may be counted toward satisfying program requirements. Courses with grades below "C" do not count toward satisfying program requirements.

Repeating Courses

A student can take a specific course a maximum of two times (excluding course withdrawals), unless the course is formally approved as "repeatable."

6-Year Completion

A graduate student has six years to complete his/her program. Courses that are more than six years old do not count toward fulfilling the requirements of a graduate program.

Waiver of Course Requirements

Students considering applying for a waiver of specific course requirements based on demonstrated competence may petition the appropriate graduate program advisor(s). If a waiver is approved, the student must complete alternate credits equal in number to those waived.

Graduate Transfer Credit Policy

Graduate transfer credits are any credits used to fulfill Northeastern Illinois University graduate degree requirements which are:

1. earned at Northeastern prior to the term of admission to a graduate program; OR
2. earned at a regionally accredited college or university or recognized international college or university. These transfer credits may be earned either prior to or after admission to a Northeastern graduate program.

All graduate transfer credits that are used to fulfill degree requirements need to be approved by the program.

Students should submit their transfer credit request form before the completion of 9 credit hours after admission to the program. Any delay in the completion of the transfer credit request may impact the student's graduation date. Credits transferred in the final semester before graduation will delay graduation until the credits are posted.

Credits earned for thesis hours are not transferable. Coursework credits are eligible for transfer credit only if they meet the following criteria:

1. Credits must be for graduate-level work;
2. The course grade must be a "B-" or higher;
3. Credits must have been completed within 6 years of expected graduation.

See the Graduate Certificate Programs policy (see below) for information explaining the relationship between related certificates and degree programs.

Coursework taken at Northeastern prior to admission to a graduate program: Credit for coursework taken at Northeastern prior to admission to a graduate program, which the student wishes to count towards that graduate program, is limited to no more than 50% of the program requirements, except in the case of credits from an earned graduate certificate. The entirety of credits from an earned graduate certificate can be counted towards a graduate degree program (see the Graduate Certificate Programs policy below). No additional transfer credit is allowed if credits from an earned certificate represent 50% or more of the total program requirement credits.

Coursework taken outside of Northeastern: Graduate transfer credits can be earned either before admission to the student's program or after admission to the program, provided that the total number of transfer credits (regardless of when they were earned) does not exceed 9 hours, unless approved specially as part of a formal university agreement. Formal university agreements allowing external transfer credits that would exceed 50% of the course credit requirements for any graduate program must be reviewed and approved via normal governance process. All transfer credits earned after the student has been admitted to his/her program must be approved by the advisor, program advisor, and the Dean of the College of Graduate Studies and Research prior to enrollment at the other institution.

Thesis Policy

In some graduate programs, the completion of a master's thesis represents one of a number of possible culminating experiences in the discipline. Completion of the thesis requirement includes successfully fulfilling: 1) generally, at least six credit hours of thesis with a grade of P or HP; 2) a thesis defense; and 3) the approved submission of the finalized thesis to the College of Graduate Studies and Research. Students fulfilling the requirements of a thesis option must register for at least one graduate-level credit hour in all semesters in which they are actively working on their thesis, until the completion of the thesis requirements. The successful completion of six credits of thesis hours does not guarantee the satisfactory completion of the thesis requirement.

Thesis credit is graded each term a student is engaged in thesis work using grades of High Pass (HP), Pass (P), or No Pass (NP). Only HP and P grades are satisfactory and count for credit toward the degree. At most, six credits of thesis hours may be counted toward fulfilling degree requirements that include a thesis option.

If a student receives a grade of NP for thesis hours, a program may require the student to switch to one of the other possible culminating experiences in the discipline. Students receiving grades of NP in their thesis hours for two consecutive semesters will not be allowed to continue with the thesis.

Substitution of up to six credits of P/HP (Pass/High Pass) thesis hours for non-thesis research credit hours is allowable, with the approval of the program.

For more information about the thesis process and for program-specific guidance on the graduate thesis, please consult the College of Graduate Studies and Research *Manual of Thesis Procedures* and the program's graduate handbook.

Grading Scale for Graduate Thesis work:

High Pass: Outstanding academic progress on the thesis, an outstanding defense of the thesis, or an outstanding thesis.

Pass: Satisfactory academic progress on the thesis, a satisfactory defense of the thesis, or a satisfactory thesis.

No Pass: Student has not made satisfactory academic progress on their thesis or their thesis does not meet the academic standards of the program.

Degree Verification

If a graduate student has completed all academic requirements with a current application for graduation on file and he/she is waiting for the formal awarding of the degree, the University Registrar, upon the student's written request, will issue a letter certifying the student's status. Such letters are normally accepted by boards of education for salary increment purposes and by other universities as verification that the degree has been earned.

Graduate Grade Appeal Policy

Every student has the right to appeal if they consider their final grade in a graduate-level course to be unreasonable, unjust, or capricious. A grade appeal can be initiated no later than two semesters (including summer) after the grade was assigned. The Dean of the College of Graduate Studies and Research makes the final decision on graduate grade appeals.

Process for appealing a grade in a graduate course:

1. The student must first consult the faculty member who issued the grade for reconsideration of the grade. The Chair or Coordinator and other members of the department are encouraged to be available for consultation with the faculty member and the student at this stage. Note: This is the only stage at which an appealed grade can be changed to an A, B, C, D, or F. At every subsequent stage of the grade appeal process, the Chair, Associate Dean of the graduate program's college or Dean of the College of Graduate Studies and Research can change the grade to a P only.
2. If the faculty member is unavailable or the student contests the faculty member's decision and wishes to continue the appeal, the student should (next) approach the Chair of the department in which the course was taught. The Chair may designate the relevant program's Coordinator to serve this role for this stage, if the department has a Coordinator. The student must present a written statement to the Chair explaining the reasons he/she believes the grade is unreasonable, unjust, or capricious. The Chair is responsible for investigating the student's claims by gathering relevant information, and preparing a written statement of the findings of the investigation. At the conclusion of this investigation, the Chair must recommend that the student's grade appeal be supported or denied. The Chair shall communicate this recommendation and its rationale in writing to the student and the faculty member.
3. If the faculty member who issued the grade is also the Chair, the student should appeal directly to the Associate Dean of the college in which the course was taught, submitting a written statement explaining the reasons he or she believes the grade is unreasonable, unjust, or capricious. The Associate Dean is responsible for investigating the student's claims by gathering relevant information, and preparing a written statement of the findings of the investigation. At the conclusion of this investigation, the Associate Dean must recommend that the student's grade appeal be supported or denied. The Associate Dean shall communicate this recommendation and its rationale in writing to the student and the faculty member (Chair).
4. If the student believes that the process was flawed or that there was evidence that was not considered, he/she can bring the appeal to the Dean of the College of Graduate Studies and Research. In addition to the appeal materials already provided to the Chair, Coordinator, or Associate Dean in Step 2 above, the student must justify in the appeal why he or she believes the decision should be reconsidered, including any new pertinent information. Disagreement with the outcome of the deliberations of the Chair, Coordinator, or Associate Dean is not sufficient on its own to pursue an appeal with the Dean. If the Dean of the College of Graduate Studies and Research agrees that the process was possibly flawed or that there is substantive new evidence that was not considered, he/she will convene the Graduate Grade Appeal Committee to hear the grade appeal. The Graduate Grade Appeal Committee, selected each year, will consist of five members, as follows:
 - a. Two faculty members from the Graduate College Advisory Committee,
 - b. Two master's degree program students in good standing selected by the Dean of the College of Graduate Studies and Research, and
 - c. The representative of the Dean of the College of Graduate Studies and Research.
5. Before hearing any appeals, any student serving on the Graduate Grade Appeal Committee must fill out and sign a FERPA Privacy and Confidentiality Understanding/Agreement, available from the representative of the Dean of the College of Graduate Studies and Research or the University Registrar.
6. The Graduate Grade Appeal Committee will investigate the case and will hold a hearing. The student, the faculty member, and the Chair, Coordinator, or Associate Dean involved with Step 2 shall be invited to participate. If the student fails to attend the agreed-upon, scheduled hearing, then the hearing will be cancelled and the grade appeal dismissed without further review.
7. The Graduate Grade Appeal hearing generally takes about one hour and has the following format:
 - a. The student has 10 minutes to present the appeal, after which the committee members may ask questions of the student.
 - b. The faculty member of the course has 10 minutes to respond, after which the committee members may ask questions of the instructor.

- c. The Chair (if he/she is not the faculty member), Coordinator, or Associate Dean may add comments and answer any questions the committee members may have.
 - d. The student does not ask questions of the faculty member, Chair, Coordinator, or Associate Dean, and the faculty member, Chair, Coordinator, and Associate Dean do not ask questions of the student.
 - e. The student may have 2 or 3 minutes for final rebuttal and the committee may ask final questions of the student, faculty member, Chair, Coordinator, or Associate Dean.
 - f. Everyone except for the Graduate Grade Appeal Committee leaves the hearing room.
 - g. The committee members discuss the appeal. The Dean's representative will lead the discussion. When the discussion is complete, the committee members will take a vote on the appeal.
8. The committee will communicate to the Dean of the College of Graduate Studies and Research its written recommendation, which will be one of the following:
- a. If the Committee decides that the challenged grade is unreasonable, unjust, or capricious, it shall so communicate to the Dean its recommendation that the grade be changed to a P.
 - b. If the Committee decides there is insufficient evidence to support the student's claim, it shall recommend to the Dean that the original grade should stand.
 - c. If the committee cannot agree on the appeal, the lack of agreement will be communicated to the Dean.
9. After receiving the recommendation of the committee and reviewing the materials submitted by the student, the faculty member, and the Chair, Coordinator, or Associate Dean, the Dean of the College of Graduate Studies and Research may decide that the grade should remain as recorded, or that it should be changed to a P (Pass). If the grade is changed to a P, the credits for the course will count toward the student's degree requirements, but the grade will not contribute to the GPA.
10. The Dean of the College of Graduate Studies and Research will share his or her decision in writing with the student, the faculty member, and the Chair, Coordinator, and/or Associate Dean, and a copy of the decision will be placed in the student's records. The decision of the Dean is final.

Graduate Admissions Policy

Please see this policy in the Admissions section of the Catalog. (<http://catalog.neiu.edu/archive/2019-2020/admissions/graduate-students/>)

Graduate Certificate Programs

A Graduate Certificate Program is composed of a focused collection of courses that offers a skill set in and/or distinctive approach to a subject that cannot be otherwise gained through an existing Northeastern degree program or academic minor.

Graduate certificate programs must conform to Illinois Board of Higher Education (IBHE) guidelines and to the following IBHE Program Inventory Definitions:

- 1. A post-baccalaureate certificate "requiring completion of an organized program of study requiring at least 18 semester credit hours beyond the bachelor's and...designed for persons who have completed a baccalaureate degree but do not meet the requirements of academic degrees at the master's level."
- 2. A post-master's certificate "requiring completion of an organized program of academic study of at least 24 semester credit hours beyond the master's degree but does not meet the requirements of academic degrees at the doctoral level."

Students may be concurrently enrolled in a degree program and a certificate program. Such students will complete a separate application to each program.

Courses composing a Northeastern graduate certificate will, upon their completion, be included on a student's transcript and in the computation of a student's grade point average.

Credit hours earned through a post-baccalaureate certificate from a program or combination of programs in which there is/are (an) approved graduate degree(s) may, upon approval of the program and the College of Graduate Studies and Research, count toward a master's degree. At its discretion, a Northeastern graduate program may count all credits earned in certificate courses offered by that program. At its discretion, a Northeastern program may count up to 9 hours of credits in certificate courses offered by another program that offers courses in the shared certificate program.

A student enrolled in a graduate degree program in which there is a fully- or partially-embedded graduate certificate program is eligible to receive the certificate only if the student has made a separate application and has been admitted to the certificate program.

A minimum grade point average of 3.0 must be achieved in graduate course work for the certificate to be awarded.

Acceptance of transfer credits toward a graduate certificate is at the discretion of the graduate program. Graduate programs may accept up to 9 hours of graduate transfer credits. Programs may set more stringent transfer credit limits.

Exceptions and Changes to Graduate Policies

Individual exceptions to the published policies of the College of Graduate Studies and Research may be made only after approval of the Dean or the Dean's designate following the submission of a written petition. Northeastern Illinois University and the College of Graduate Studies and Research reserve the right to make policy changes from time to time when necessary.

Graduate Programs

Master's Degree Programs

Degree Programs In Arts and Sciences:

- Biology, M.S. (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/biology/master-science-biology/>)
- Chemistry, M.S. (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/chemistry/master-science-chemistry/>)
- Communication, Media & Theatre, M.A. (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/communication-media-theatre/master-arts-communication-media-theatre/>)
- Computer Science, M.S. (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/computer-science/master-science-computer-science/>)
- Computer Science, M.S., Management Information Systems Concentration (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/computer-science/master-science-computer-science/>)
- English, M.A., Composition Concentration (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/english/master-arts-english/>)
- English, M.A., Literature Concentration (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/english/master-arts-english/>)
- Geography and Environmental Studies, M.A. (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/geography-environmental-studies/master-arts-geography-environmental-studies/>)

- Teacher Licensure Program, Secondary Education, K-12 (Art, Music, Physical Education, Spanish) (<http://catalog.neiu.edu/archive/2019-2020/education/special-licensure-endorsement-programs/>)
- Teaching English as a Second Language (TESL) Endorsement

McNair Scholars Program

Angela Vidal-Rodriguez, Director

Purpose

The goal of the McNair Program is to increase the attainment of a Ph.D. by students from traditionally underrepresented groups in higher education. McNair participants are from disadvantaged backgrounds and have demonstrated strong academic potential. Program staff and university faculty members work closely with these participants through completion of a research project and undergraduate requirements. The program staff encourage their entrance into graduate programs, and track their progress to successful completion of advanced degrees.

Eligibility

Undergraduate students who intend to pursue a career that requires a Ph.D., and who meet the following criteria, may apply to the program:

- Completed at least 60 credit hours
- Status as a first-generation college student with income eligibility and/or a member of a group underrepresented in graduate education
- A GPA of 2.8 or above
- Strong desire to continue directly into graduate school shortly after graduation
- US citizenship or residency

Program Participation

McNair Scholars conduct a summer research project under the direction of a faculty mentor. Mentors and Scholars attend professional conferences and work together on the presentation of their research. Regular meetings with the program Academic Specialist and Director guide Scholars through the completion of their undergraduate degree requirements and assist with graduate school selection and application. Scholars attend three one credit seminars and graduate school visits. Workshops to support graduate school application include, financial literacy, GRE instruction, library skills, and presentations skills.

Complete program information is available in the McNair Scholars Program Office, B-141, by contacting the Program Director at (773) 442-4253, or at <http://www.neiu.edu/academics/mcnair-scholars> (<http://www.neiu.edu/academics/mcnair-scholars/>).

NEIU-100. ACE The Sciences: Research Community I. 3 Hours.

NEIU-100 creates a research community among student participants in Agua en Comunidades Experimentales (ACE) project through a series of community-building activities, research experiences, academic supports, and social activities. In this course, students participate in activities that introduce research in the fields of water science, create a community of science scholars, and build relationships with faculty mentors. Activities include local field trips, laboratory experiences, and building academic success skills. Only students accepted in the ACE program are eligible to register for the course.

Requirement: By instructor permission only.

NEIU-301M. Developing A Research Thesis. 1 Hour.

An integrative, collaborative, research-based introduction to the process of thesis writing. Each student conducts a focused search of the literature and prepares a research proposal in response to a specific, identified issue and is introduced to the elements of scholarly writing. Epistemological and ethical issues of inquiry are explored.

NEIU-302M. College Teaching For TA's. 1 Hour.

A seminar class to introduce students to college teaching skills and prepare them for teaching assistantships. Class discussion, assignments, and activities focus on the theory and practice of teaching and learning at the post-secondary level. Students draw on their own college learning experiences to evaluate instructional techniques and materials for effectiveness and meaning.

NEIU-303. Preparing For Graduate Study. 1 Hour.

College of Arts and Sciences

Katrina Bell-Jordan, Ph.D., Acting Dean, Professor of Communication, Media and Theatre
Sudha Srinivas, Ph.D., Acting Associate Dean, Professor of Physics
Timothy Libretti, Ph.D., Acting Associate Dean, Professor of English

The College of Arts and Sciences comprises 18 departments which offer bachelor's degrees in 28 majors with 50 minors, master's degrees in 16 different disciplines, and additional certificate programs. As the largest of Northeastern's three academic colleges, the College of Arts and Sciences also offers most of the undergraduate General Education-Distributive Learning curriculum.

The College of Arts and Sciences helps students develop their individual world view, encouraging them to acquire social and cultural awareness, as well as a broad knowledge of a variety of disciplines. Fine arts, humanities, natural sciences, social/behavioral sciences, and professional studies all enrich our students' learning environment by offering abundant opportunities for intellectual discovery, and by enabling them to become informed and responsible citizens. It is a further goal of the College to offer our students both academic and career-oriented programs of study. We support faculty/student research, peer-led team learning, internships and community-based fieldwork. Students have the opportunity to learn from professors who are outstanding in their fields and passionate about teaching.

Further information about the College can be found at www.neiu.edu (<http://www.neiu.edu>) under Academics.

Pre-Health and Pre-Law Advising

Pre-Professional Advising is available from David Nissim-Sabat, Director of Pre-Professional Advising in the College of Arts and Sciences. Pre-Professional students benefit from individualized advising in a student-centered atmosphere to create long-term planning. The goal is to build your future professional school prerequisites into your current degree program while also considering additional pre-professional experiences such as research, volunteer work, community service, campus involvement, entrance exam preparation, obtaining letters of recommendation and writing personal statements.

Departments/Programs

Anthropology, English Language Program, global studies, Philosophy, Teaching English to speakers of other Languages (TESOL), School for the advancement of English Language and learning (SAELL)

Lesa C. Davis, Ph.D., Professor of Anthropology, Chair
Tracy Luedke, Ph.D., Professor, Coordinator of Global Studies
Tina Villa, Ph.D., Coordinator of English Language Program
John Casey, Ph.D., Associate Professor, Coordinator of Philosophy
Jeanine Ntahirageza, Ph.D., Associate Professor, Coordinator of TESOL
John Armour, M.A., Director of SAELL

Art

Kimberly Ambriz, M.F.A., Associate Professor of Art, Chair

Biology

John M. Kasmer, Ph.D., Associate Professor of Biology, Chair

Chemistry

John Al-Bazi, Ph.D., Professor of Chemistry, Chair

Communication, Media and Theatre

Shayne Pepper, Ph.D., Associate Professor of Communications, Media and Theatre, Chair

Computer Science

Marcelo Stzainberg, Ph.D., Professor of Computer Science, Chair

Earth Science, Environmental Science and Physics

Paulo Acioli, Ph.D., Professor of Physics, Chair
Elisabet Head, Ph.D., Associate Professor, Coordinator of Earth Science

Economics and Geography & Environmental Studies

Erick Howenstine, Ph.D., Professor of Geography & Environmental Studies, Chair
Scott Hegerty, Ph.D., Associate Professor, Coordinator of Economics

English and Linguistics

Timothy H. Scherman, Ph.D., Associate Professor, Acting Chair
Richard Hallett, Ph.D., Professor, Coordinator of Linguistics

History

Charles Steinwedel, Ph.D., Professor of History, Chair

Justice Studies and Child Advocacy studies

Maria De La Torre, Ph.D., Associate Professor of Justice Studies, Acting Chair
Rachel Birmingham, Ph.D., Associate Professor, Coordinator of Child Advocacy Studies

Mathematics and Math Development

Lidia Z. Filus, Ph.D., Professor of Mathematics, Chair
Matthew Graham, Ph.D., Assistant Professor, Coordinator of Math Development

Music

Travis M. Heath, D.M., Associate Professor of Music, Acting Chair

Political Science

Marshall Thompson, Ph.D., Associate Professor of Political Science, Chair

Psychology

Amanda Dykema-Engblade, Ph.D., Associate Professor of Psychology, Chair
Lisa A. Hollis-Sawyer, Ph.D., Associate Professor, Coordinator of Gerontology Program

Social Work

Job Ngwe, Ph.D., Professor of Social Work, Chair

Sociology, Women's and Gender Studies, Latina/o & Latin American Studies, and African & African American Studies

Andreas Savas Kourvetaris, Ph.D., Associate Professor of Sociology, Chair
Sharon Bethea, Ph.D., Professor, Coordinator of African & African American Studies
Brandon Bisbey, Ph.D., Associate Professor, Coordinator of Latina/o & Latin American Studies
Olivia Perlow, Ph.D., Associate Professor, Coordinator of Women's and Gender Studies

World Languages and Cultures

Denise L. Cloonan Cortez de Andersen, Ph.D., Professor of Spanish, Chair

Undergraduate Majors

Baccalaureate degrees are offered in the following disciplines:

- Anthropology
- Art - (Art History and Studio Art)
- Biology
- Chemistry
- Communication, Media and Theatre
- Computer Science
- Earth Science
- Economics
- English
- Environmental Science

- Environmental Studies
- Geography
- Global Studies
- Graphic Design
- History
- Justice Studies
- Latina/o and Latin American Studies
- Mathematics
- Music
- Philosophy
- Physics
- Political Science
- Psychology
- Social Work
- Sociology
- Spanish
- Women's and Gender Studies

The University offers licensure for teaching in PK-12, K-12 and 9-12 (Secondary) schools in the following disciplines:

PK-12

- FOREIGN LANGUAGE: SPANISH

K-12

- VISUAL ARTS
- MUSIC
- PHYSICAL EDUCATION

9-12

- SCIENCE: BIOLOGY
- ENGLISH LANGUAGE ARTS
- SCIENCE: CHEMISTRY
- SCIENCE: PHYSICS
- SOCIAL SCIENCE: HISTORY
- MATHEMATICS

Students interested in Secondary Education should consult the appropriate department and the College of Education section of this catalog.

Undergraduate Minors

- African and African American Studies
- Anthropology
- Art History
- Art, Studio
- Asian Studies
- Biology
- Chemistry
- Child Advocacy Studies
- Communication
- Communication, Media and Theatre
- Computer Science
- Creative Writing
- Criminology
- Dance

- Earth Science
- Economics
- English
- Environmental Studies
- French Studies
- Geography
- Geographic Information Science
- Gerontology
- Global Studies
- History
- Interaction Design
- Interdisciplinary English Studies
- Jewish Studies
- Journalism
- Korean
- Latina/o and Latin American Studies
- Lesbian, Gay, Bisexual, Transgender and Queer (LGBTQ) Studies
- Linguistics
- Mathematics Applied
- Mathematics ELED and Humanities
- Mathematical & Statistical Modeling of Complex Systems
- Media
- Music
- Philosophy
- Photography
- Physics
- Political Science
- Psychology
- Public Administration
- Social Justice
- Social Work
- Sociology
- Spanish
- Teaching English to Speakers of Other Languages
- Theatre
- Women's and Gender Studies

Graduate Programs

Departments in the College of Arts and Sciences offer 16 master's degree programs which are listed below.

General requirements for graduate admission to the University and to specific degree programs can be found in the College of Graduate Studies section and in the appropriate departmental sections of this catalog. Graduate students who have specific questions should contact the appropriate departmental office.

- Master of Science in Biology
- Master of Science in Chemistry
- Master of Arts in Communication, Media and Theatre
- Master of Science in Computer Science
- Master of Arts in English
- Master of Arts in Geography & Environmental Studies
- Master of Arts in Gerontology
- Master of Arts in History
- Master of Arts in Latin American Literatures and Cultures

- Master of Arts in Linguistics
- Master of Science in Mathematics
- Master of Arts in Pedagogical Content Knowledge for Teaching Elementary and Middle School Mathematics (*not admitting at this time*)
- Master of Arts in Music
- Master of Arts in Political Science
- Master of Social Work
- Master of Arts in Teaching English to Speakers of Other Languages

Certificate Programs

- Geographic Information Science (GIS), Graduate Certificate
- Gerontology Senior Advocate, Certificate
- Teaching English to Speakers of Other Languages, Graduate Certificate

Declaration of Major

Students who wish to declare a major or minor must complete the Undergraduate Major/Minor Declaration and TLP Declaration form and submit it to the appropriate College of Arts and Sciences Department. Forms are available in all departmental offices, Enrollment Management Services, the Dean's Office in the College of Arts and Sciences, Academic Advising, and online. All declared majors should request the name of an advisor from their major departments.

In certain programs, special requirements must be fulfilled prior to admission to the major program. Students should consult the appropriate sections of this catalog for additional information, and contact the departmental chairperson.

Graduation Requirements

Students in the College of Arts and Sciences must meet all university requirements as well as the specific requirements for graduation within their particular major.

To be counted toward the major, courses transferred to the University must be accepted by the student's major department.

Transfer students must complete a minimum of 15 credit hours in courses at the 200 and/or 300-level in their majors at Northeastern Illinois University. At least 9 credit hours for a minor must be completed at NEIU.

CASEP - College of Arts & Sciences Education Program

Jeremy Babcock, Coordinator and Instructor
Lech Walesa Hall, 3098
(773) 442-5654

The College of Arts and Sciences Education Program (CASEP), now entering its 19th year, is an educational initiative for full-time, first-year students interested in exploring the field of teaching. Seeking to provide early insights into teaching, CASEP's mission is focused on offering classroom coursework and field experiences that highlight content as well as pedagogical practices. CASEP combines general education courses, supportive services for students, and early field experiences with discussion and feedback about teaching. CASEP's ultimate goal is to increase student success, which includes increasing overall student retention and decreasing time to degree.

When accepted into CASEP, the program allows students to begin teacher training during their first year of college, at least two years prior to entering Northeastern's Goodwin College of Education. CASEP comprises 12 courses, which satisfy general education requirements or requirements for the Goodwin College. As a member of CASEP, students take their courses with a cohort of like-minded individuals also interested in becoming teachers. CASEP students are engaged by arts integration, communication, and team building strategies, and also conduct field trips and/or observations in Pre K-12 classrooms. Students in CASEP may participate in service learning or part-time employment opportunities in educational settings. CASEP is a selective program with a limited enrollment of 35-40 first-year students.

Once accepted to Northeastern, students can obtain an application to CASEP at this link (<http://www.neiu.edu/academics/college-of-arts-and-sciences/departments/college-arts-and-sciences-education-program-casep/>) . If qualified, you will be invited to interview with the CASEP Coordinator.

The following is the list of CASEP courses for 2019-20:

First Year Courses:

- Introduction to Communication, CMTC-100 (**required**)
- Writing I, ENGL-101 (**required**)
- Introduction to Theatre, CMTT-130 (**required**)
- U.S. History: 1877-Present, HIST-215 (**required**)

- One FYE course (**required**): ELED 109 or PENT 109B
- Schools and Society, SOC-104 (**elective**)

Sophomore Courses:

- Public Speaking, CMTC-101
- Writing II, ENGL-102
- American National Government, PSCI 216
- Philosophical & Historical Foundations of Public Education, EDFN-305
- Education and Individual Differences, EDFN-306

STUDENT CENTER FOR SCIENCE ENGAGEMENT

The Student Center for Science Engagement (SCSE) supports students in STEM disciplines in achieving academic and professional success. The Center's mission is to increase student interest and achievement in the sciences and to help prepare them for cutting edge, scientifically driven careers. The Center primarily serves students in the departments of Biology, Chemistry, Computer Science, Environmental Science, Earth Science, Mathematics, Physics, and Psychology, assisting students to explore these areas of study and showing them how to lead fulfilling careers.

Center staff, with graduate degrees in the sciences and education, offer one-on-one advising to help with creating a plan for gaining professional experience and with taking the steps needed to pursue careers and graduate study. SCSE staff engage with students to identify and pursue internships, jobs, and graduate study opportunities and also help with preparing application materials. The SCSE hosts a summer research program for students and faculty. Events and workshops are offered throughout the year to help students network with professionals in the sciences and find ways to apply their studies, find out about careers in the sciences, and prepare for life after graduation. Tutors in select upper level science courses are also available.

To meet with an advisor for help with academic and professional development planning, consult with a tutor, study alone or in a small group, receive one of many information handouts and tipsheets, attend a workshop or event, or, to receive more information about summer internship, visit the Student Center for Science Engagement located in BBH 235 and BBH 247, and check out SCSE website (<http://www.neiu.edu/academics/student-center-science-engagement/>).

African and African American Studies

- Minor in African and African American Studies (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/african-african-american-studies/minor-african-african-american-studies/>)

Andreas G. Savas-Kourvetaris, Ph.D., Associate Professor, Chair
Sharon L. Bethea, Ph.D., Professor, Program Coordinator

Core Faculty

Russell Benjamin, Ph.D., Professor, Political Science
Chielozone Eze, Ph.D., Professor, English
Alvin David Farmer, Jr., Ph.D., Associate Professor, Psychology
Courtney Francis, M.A., Instructor, Teaching English to Speakers of Other Languages
Nicole Holland, Ph.D., Professor, Educational Inquiry and Curriculum Studies
Tracy Luedke, Ph.D., Professor, Anthropology
Christopher Merchant, Ph.D., Associate Professor, Psychology
Job Ngwe, Ph.D., Professor, Social Work
Jeanine Ntahirageza, Ph.D., Professor, Teaching English to Speakers of Other Languages
Theophilus Okosun, Ph.D., Professor, Justice Studies
Olivia Perlow, Ph.D., Associate Professor, Sociology
Donald Waddel, M.A., Instructor, Social Work
Durene Wheeler, Ph.D., Professor, Educational Inquiry and Curriculum Studies
Lance Williams, Ph.D., Professor, Educational Inquiry and Curriculum Studies

AFAM-109. First Year Experience: Exploring Africa In Chicago. 3 Hours.

The Exploring Africa in Chicago course is designed to provide first year students with a brief overview of the African continent, and an opportunity to understand the rich and varied diversity of Africa and its peoples. Using Chicago as a lab, students will use standard research methods, library databases, websites, readings, speakers, films, and field experiences to discuss the rich heritage of African culture, music and arts, the continent's geography, pre-colonial and colonial history, oral and written history, its languages and ethnicity, the family systems, and political, economic, and democratic systems. Students will be encouraged to get out of the classroom and into various communities and institutions in the Chicagoland area, seek out individuals of African descent in academia, healthcare, business, industry and other professions, and use standard interview techniques to critically examine their contributions to the city of Chicago, to the United States, and to the world.

AFAM-200. Introduction To African And African American Studies. 3 Hours.

Introduction to African and African American Studies is an interdisciplinary and foundational course that introduces students to the field of African and African American Studies through an overview of the socio-economic, historical, psychological, political and cultural experiences of African peoples on the continent of Africa and throughout the Diaspora. Selected teachings are designed to give students a concise understanding of the heritage of African people in America and a framework to analyze the culture and institutional arrangements which both shaped the African Diaspora and was shaped by people of African descent throughout different parts of the world. Emphasizing an African-Centered philosophy and framework of analysis, the course content and emphasis includes a focus on students' acquisition of both an analytic ability and interdisciplinary skills of investigation and research and their development of a critical and comprehensive approach to challenging traditional Western orthodoxy, intellectual hegemony, and misinformation about Africa and its peoples. Particular emphasis is placed on the role of race, class, and gender in assessing similarities and differences in the African experience throughout the Diaspora.

AFAM-224. Contemporary African Culture. 3 Hours.

This course introduces students to the diversity of contemporary African cultural life as it has been addressed by cultural anthropologists. In Africa, one can find unique cultural practices and ways of living, as well as evidence that Africa is very much integrated into global economic and cultural flows. In this course students learn about Africans' experiences, both the patterns and the particularities, and gain a greater appreciation for the roles that Africans and African culture play in the world, including in the U.S. This course is cross-listed in the Anthropology Program (ANTH-224).

AFAM-301. Foundations Of African Civilizations. 3 Hours.

This is an interdisciplinary course examining African civilizations from the prehistoric past to contemporary periods utilizing an African centered perspective. The course uniquely employs a variety of multidisciplinary perspectives and materials from history, geography, anthropology, political science, art, sociology, linguistics and other disciplines. Course content and emphasis is placed on correcting misperceptions and stereotypes of Africa while exploring the rich and varied diversity of Africa, its rich history, the fundamental cultural commonalities shared by African peoples despite the diversity, and the significance and place of African civilizations on the world scene.

AFAM-302. Foundations Of Africans In The Diaspora. 3 Hours.

Foundations of Africans in the Diaspora is an interdisciplinary course that focuses on the history, culture and experiences of African descendents in North America, South America and the Caribbean utilizing the research and writings from history, sociology, and anthropology conducted on and by the descendents of African peoples in these geographic areas. The objectives that form the foundation of the content for this course represent several topical areas that are in keeping with the overall goals of the minor in African and African American Studies. The topical areas are aligned into units of study and include: The African Diaspora, Africans in North America, The African American experience, Africans in Latin America and the Caribbean, and the Afro-Brazilian, Mexican, Columbian, Jamaican, French, Cuban experiences. Course objectives will be achieved through individual readings and study, and class activities and lectures. The methods used in this course include lectures, open discussions, seminar discussions, structured activities, and media and are designed to accommodate diverse learning styles.

AFAM-303. Global Collaborations-Ghana. 4 Hours.

AFAM-303 provides students with an intensive, yet short-term cross-cultural exchange program that also provides significant experience in research and creative practices. Students travel to Ghana, West Africa, visit key cultural and historical sites, and engage in collaborative research and/or creative projects with students at Kwame Nkrumah University of Science and Technology (KNUST), guided by faculty from both NEIU and KNUST. Course sessions at NEIU before and after travel will frame the experience.

AFAM-319. Prehistory of Africa. 3 Hours.

Africa is the sole source of evidence for the origins of human culture. Many significant cultural developments and technological innovations occurred first in Africa. This course surveys the archaeological evidence for the origins of human behavioral patterns from the earliest hominins to the eve of European colonization of this diverse continent. Principal course themes include: the origins of human culture; the Early, Middle, and Late Stone Ages; the origins of food production and complex societies; the history of ancient kingdoms including internal growth and external influences; the impact of Islam and the European contact with Africa. This course is cross-listed in the Anthropology Program (ANTH-319).

AFAM-320. Religion And Healing In Africa and the African Diaspora. 3 Hours.

In numerous contexts throughout Africa and the African Diaspora there are cultural institutions that bring together healing, religious practices, spirit possession, and expressive culture (including music, dance, and costume) and direct them toward resolving the bodily and social misfortunes of participants. This course will investigate variations and continuities amongst a range of examples of this cultural institution, including African independent Christian churches, Candomble, Santeria, Vodou, and the "cults of affliction" or "ngoma" of Africa, in order to understand the resilience and relevance of an institution by means of which participants both analyze and respond to the world around them. This course is cross-listed in the Anthropology Program (ANTH-320).

Minor in African and African American Studies

The African and African American Studies Minor (AFAM) is the study, research, interpretation and dissemination of knowledge about the African/African Diaspora worlds that are found primarily in Africa, the United States, the Caribbean and South America but also among peoples of Asia and Europe. Interdisciplinary in both conception and practice, the AFAM program provides a challenging curriculum designed to critically examine the structure, organization, contributions, and perspectives of Africa and its peoples throughout the Diaspora. A major paradigm that informs the program's curriculum is an African-Centered framework that proceeds from a position internal to the cultures of African peoples. This approach is used concurrently with an awareness of and openness to the variation and richness of the total human experience. Additionally, selected teaching and course materials are designed to provide students with a concise understanding of the specific history, heritage and culture of African Americans. With a strong commitment to teaching excellence, the primary goals of the African and African American Studies program are to:

1. provide students with a comprehensive quality multicultural education and,
2. provide students the opportunity for a creative intellectual experience based upon the critical and systematic study of the life, thought and practice of African peoples in their current and historical development.

The AFAM minor is currently housed in the Sociology Department.

Note: Sociology majors and minors may use as electives any of the courses offered through the African and African American Studies Program.

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

- * Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.
- ** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Minor in African and african american studies:

Code	Title	Hours
Required Courses:		
AFAM-200	Introduction To African And African American Studies	3
AFAM-301	Foundations Of African Civilizations	3
AFAM-302	Foundations Of Africans In The Diaspora	3
Electives		9
Total Hours		18

Electives must be chosen from the selected interdisciplinary list of courses shown below.

Code	Title	Hours
ELECTIVES		
African and African American Studies		
AFAM-109	First Year Experience: Exploring Africa In Chicago	3
AFAM-224	Contemporary African Culture	3
AFAM-303	Global Collaborations-Ghana	4
AFAM-319	Prehistory of Africa	3
AFAM-320	Religion And Healing In Africa and the African Diaspora	3
Anthropology		
ANTH/AFAM-224	Contemporary African Culture	3
ANTH-225	Peoples Of Mexico/Central America/Caribbean	3

Communication, Media & Theatre		
CMTT-335	American Theatre And Society	3
English		
ENGL-365	Caribbean Literature	3
ENGL-381	African-American Literature	3
ENGL-383	Postcolonial African Literature	3
Geography and Environmental Studies		
GES-302C	Regional Geography: Africa (Geography and Environmental Studies)	3
History		
HIST-111E	World History: Africa	3
HIST-329A	African American History To 1865	3
HIST-329B	African American History And Race Relations Since 1865	3
HIST-370	Precolonial Sub-Saharan Africa	3
HIST-371	Nineteenth And Twentieth Century Africa	3
HIST-372	History Of Southern Africa, 1800-Present	3
HIST-373	Women & Gender In African History (History)	3
Inner City Studies		

ICSE-301	Racism In Theory And Fact	3
ICSE-304	Communication In The Inner City	3
Justice Studies		
JUST-202	Writing Intensive Program:Justice And Inequality	3
JUST-314	Police In The Minority Community	3
JUST-331	Law And Racism In America	3
Music		
MUS-342	World Music	2
Philosophy		
PHIL-364	Critical Race Theory	3
Political Science		
PSCI-330	African American Politics and Social Change	3
PSCI-360	Politics Of Sub-Saharan Africa	3
PSCI-397	African Political Thought	3
Psychology		
PSYC-314	Psychology Of The African American Family	3
Social Work		
SWK-202	Community Analysis	3
SWK-203	Analysis Of Cross Culture Interaction	3
SWK-250	Issues In Social Service Delivery	3
SWK-314	Social Work Advocacy	3
Sociology		
SOC-309	Sociology Of Racism	3
SOC-316	Race And Ethnic Relations	3
SOC-344	African American Women:Feminism, Race, And Resistance	3
SOC-349	Black Social Movements	3

In order to ensure that minors obtain a wide range of knowledge and analytical ability, students are required to take elective courses in, at minimum, two different disciplines. Students must consult with a program adviser to plan a sequence of study through elective courses.

Anthropology

The discipline of anthropology uniquely incorporates both cultural and biological perspectives in its study of the diversity of past and present humans, as well as that of our close primate relatives. With a strong commitment to teaching excellence, the NEIU Department of Anthropology offers courses leading to the degree of Bachelor of Arts.

The Department of Anthropology provides a challenging curriculum in the subfields of cultural anthropology, biological anthropology, and archaeology that encourages field-based learning, data-oriented research, and a solid grounding in the theoretical constructs and ethics of the discipline. Students taking courses in Anthropology develop a multifaceted understanding of human diversity steeped in time, multicultural ethnographic comparisons, and the science of our physical form. This enriching perspective is not only well suited for subsequent graduate studies and professional careers both in and outside of anthropology, but also for fostering an acceptance of others and negotiating the many facets of our modern global society.

NEIU Anthropology also offers a variety of exciting internship and field opportunities to highly motivated, advanced students, including internships at the Field Museum (zoological prep and curation; scientific illustration), Lincoln Park Zoo (ethology), Pan African Association (refugee assistance), National Museum of Mexican Art (museum studies) and others. We also have digital imaging and morphometrics facilities we share with the Art Department. These resources, including a 3D printer, laser scanner, and a MicroScribe digitizing arm, are available for faculty and student research. Contact your anthropology advisor to discuss these and other research and field opportunities.

If you are a freshman interested in learning more about Anthropology, consider taking one of our First Year Experience (<http://catalog.neiu.edu/archive/2019-2020/university/organization-university/academic-affairs/first-year-experience/>) (FYE) courses that carry General Education credit in the Natural Sciences (ANTH 109B) and the Social/Behavioral Sciences (ANTH 109D) (listed below), or our new ANTH 109E (FYE) Who Do You Think You Are cultural anthropology course premiering Fall 2017:

Code	Title	Hours
ANTH-109B	First Year Experience: Skeletons In Chicago's Closet	3
ANTH-109D	First Year Experience: Aliens, Curses, And The Chicago Cemetery: Explaining The Past	3

- Major in Anthropology (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/anthropology/anthropology/>)
- Minor in Anthropology (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/anthropology/minor-anthropology/>)

Lesia C. Davis, Ph.D., Professor of Anthropology, Chair

Tracy J. Luedke, Ph.D., Professor of Anthropology, Coordinator of Global Studies Program

Jon B. Hageman, Ph.D., Professor of Anthropology, Coordinator of University Honors Program

Russell Zanca, Ph.D., Professor of Anthropology

ANTH-109B. First Year Experience: Skeletons In Chicago's Closet. 3 Hours.

Bones hold an enormous amount of information about individuals and populations. This active class investigates what can be learned from bones and teeth in the context of forensic anthropology, bioarchaeology, and paleobiology. We will start by learning the bones of the skeleton and move on to identifying age, sex, trauma, etc., in forensic and archaeological contexts. Finally, we will look at fossil bone and what it can reveal about past life. Students will work with bones and models in lab, complete group and individual projects, and will learn and apply useful techniques for college success. First year students only.

ANTH-109C. First Year Experience: Skin Of Chicago. 3 Hours.

We wear about 9 lbs. of it every day, but we take most of its functions, adaptations, uses, and subtle cultural signals for granted. Skin is something everyone should know inside and out. For anthropologists, skin is a place where issues of biology, comparative anatomy, culture, evolution, archaeology, tradition, taboo, ritual, art, diversity, and race all come together. An understanding of human skin helps to turn over the judgments people make about others based on skin color. Using Chicago as a field laboratory, we will discover the wonders of skin, ever mindful of how we fit inside our own.

ANTH-109D. First Year Experience: Aliens, Curses, And The Chicago Cemetery: Explaining The Past. 3 Hours.

Why have people proposed that aliens are responsible for the pyramids? This course explores how archaeologists evaluate data and reconstruct societies of the past by examining specific cases from scientific and other perspectives. You will also examine the implications of various interpretations of the past. The way we interpret the past can teach us a great deal about how modern thinking has informed, and is informed by, archaeology. This First Year Experience course counts for General Education credit in the Social/Behavioral Sciences.

ANTH-109E. FYE: Who Do You Think You Are: Chicago's Identities & The Wider Making Of Social Beings. 3 Hours.

Identities comprise our sense of who we think we are. Stemming from numerous aspects, identities include ethnicity, race, religion, gender, class, etc. In learning about anthropology's development, we will appreciate human origins and early concepts about our contemporary notions of identity. We will learn that fixed ideas about global populations, and the people we live and work among every day, have changed and been re-imagined often just in the past few centuries. Students will gain numerous perspectives about a given person's variable identity, which will help develop the potential for intellectual rigor, crucial for university success. First year students only.

ANTH-212. Introduction To Cultural Anthropology. 3 Hours.

Cultural anthropology is the study of contemporary human social life. In this course, students learn about the discipline by reading its recent scholarship and experimenting with its research methods. The course addresses multiple, diverse domains of the human experience, including language and art, gender and sexuality, kinship and family, race and ethnicity, economics and politics, religion and health, globalization and migration. Students develop an appreciation for cultural diversity as they read the results of anthropological research conducted the world over and hone their analytical skills as they investigate the cultural worlds they engage with right here in Chicago.

ANTH-213. Introduction To Archaeology. 3 Hours.

Archaeology focuses on past societies by uncovering and analyzing what they left behind. Students will explore the theories and methods archaeologists use to interpret, reconstruct, preserve, and ultimately learn from the past. This class highlights how archaeology can address important social, economic, and ideological questions including the origins of food production, social inequality, and civilization. This course fulfills General Education/UCC credit in the Social/Behavioral Sciences area.

ANTH-215. Human Origins: Introduction To Biological Anthropology. 3 Hours.

This multi-faceted, data-oriented course explores the biological diversity of humans and other primates in the past and present. Using fossil casts, hands-on activities, and the scientific method, students will analyze the evidence for more than six million years of human evolution. This course reviews the principles of genetics and inheritance and examines the evolutionary processes that contribute to modern human variation. Students will also explore the ecology and behavior of lemurs, monkeys, apes, and other primates and their significance for understanding our origins.

ANTH-221. Peoples Of South America. 3 Hours.

South America is home to the world's driest deserts, some of its highest mountains, one of its richest fisheries, and an immense area of lowland rainforest. Explore the contemporary peoples and cultures of South America from the colonial period to the 21st century from Panama to the tip of Argentina. Students will learn about the effects of European and later national policies on indigenous populations, as well as strategies of resistance to those external pressures. (C).

ANTH-223. North American Indians. 3 Hours.

This course examines the cultures of North American Indian populations from the time of European contact to the modern day. The record of Indian-non-Indian interactions and relationships from colonial times to the present is analyzed. Changes in Indian cultures are explored in light of external pressures from the state, environmental changes, and shifting internal dynamics. (C).

ANTH-224. Contemporary African Culture. 3 Hours.

This course introduces students to the diversity of contemporary African cultural life as it has been addressed by cultural anthropologists. In Africa one can find unique cultural practices and ways of living, as well as evidence that Africa is very much integrated into global economic and cultural flows. In this course students learn about Africans' experiences, both the patterns and the particularities, and gain a greater appreciation for the roles that Africans and African culture play in the world, including in the U.S. This course is cross-listed in the African and African American Studies Program (AFAM-224). (C).

ANTH-225. Peoples Of Mexico/Central America/Caribbean. 3 Hours.

This wide-ranging course surveys the contemporary peoples and cultures of Mexico, Central America, and the Caribbean Islands, focusing on the diversity of ethnicities, languages, and local perspectives and responses to colonialism and globalization. (C).

ANTH-238. Peoples Of Central Asia. 3 Hours.

Survey of Turkic, Mongolian and Iranic peoples, including Siberia, Uzbekistan, India and Iran. Students study Silk Roads archaeology and history, music, cuisine, religions, and politics of contemporary Central Asian societies. Extensive use of artifacts, songs, maps, photos, and videos from the region illustrate this most fascinating part of the world. (C).

ANTH-250. Latin American Archaeology. 3 Hours.

Interested in the roots of Latin American culture? This course provides an introduction to ancient indigenous civilizations that rose in three different geographic regions of Latin America: The Maya of Belize, Guatemala, Honduras, El Salvador and Mexico; the Mexica or Aztec of the Central Mexican Highlands; and the Inka of the Andes Mountains of Peru, Bolivia, and Ecuador. The dramatic impact of Spanish contact and conquest on native populations will also be covered. This course is broadly comparative and relies heavily on visual media to convey essence of prehistory and early history of Latin American civilization. (A).

ANTH-252. North American Archaeology. 3 Hours.

This fascinating course explores the prehistory of Native Americans in the from the initial peopling of the New World through the subsequent domestication of plants and development of complex civilizations in the United States, Canada, and northern Mexico. The wide variation, and commonalities, in cultures, practices, and material remain are explored. (A).

ANTH-261. Biology Of Behavior. 3 Hours.

Why do we act the way we do? Are we at the mercy of our genes or does environment shape our behavior? This engaging course looks at the nature/nurture debate and will evaluate claims of the biological basis of behavior. Topics discussed include: communication and the origins of language, hormonal and genetic influences on behavior, sociobiology and the evolution of behavior, possible universals of human nature, and the use and misuse of biology to justify or condemn human behavior. Special emphasis on critical review of popular media claims of the biological basis of behavior. (B).

ANTH-290. Graduating Anthropology. 1 Hour.

This course highlights the relevance of a liberal arts education in today's world and the particular strengths of an anthropological perspective. The course guides students in identifying the key skills they have gained through completing a degree in anthropology and in articulating the value of those skills to potential employers and graduate programs. Coursework includes preparation for postgraduation endeavors and hands-on training in producing effective c.v./resumes, cover letters, and graduate program statements of purpose. This course should be taken within one year prior to graduation.

ANTH-300. Writing Intensive Program: Writing In Anthropology. 3 Hours.

This required course provides anthropology majors with practical training in all aspects of effective disciplinary writing, from the mechanical to the conceptual. Topics covered include: identifying and vetting sources, critical reading and note-taking skills, writing conventions, literature reviews, citations, crafting an argument, outlining, revision, academic integrity, and presentations. Students will engage in a series of stepped research and writing activities leading to a final project that demonstrates the skills accrued over the semester. This course fulfills the Writing Intensive requirement. It must be taken within 2 semesters of declaring the major and before taking most 300 level ANTH courses.

Prerequisite: ENGL-101 minimum grade of C.

ANTH-302. Human Osteology. 4 Hours.

There are 206 bones in the adult human skeleton and more in that of a juvenile. Skeletal analysis is a core focus of biological anthropology with applications in archaeology, anatomy, medicine, forensics, and paleontology. This course represents an intensive study of the human skeleton focusing on bone growth, morphological variation (sex, ancestry, etc.), and identifying trauma/pathology. Students will learn to identify and side each bone, its landmarks, and bone fragments in fetal through adult skeletons. Class will include a mix of lecture and concentrated work with the osteology collection. Students will complete a comprehensive analysis of a human skeleton. (B).

ANTH-306. The Rise Of Complex Societies: The Archaeology Of State Formation And Urbanization. 3 Hours.

This course provides an in-depth, comparative exploration of the emergence of social hierarchy and centralized political formations in the Old and New Worlds. Students will become familiar with the political institutions, economic structures, and religious traditions of the world's earliest "civilizations" in the Americas, the Near East and China while probing anthropological theories on the rise of cities and states. Students will develop an understanding of the varied factors that drove parallel or divergent forms of social complexity and will partake in archaeological problem-solving involving both method and theory. (A).

Prerequisite: ANTH-213 minimum grade of C.

ANTH-307. Anthropology Of Gender, Sexuality And The Body. 3 Hours.

The course introduces students to approaches to gender in cultural anthropology, focusing especially on the body as the site where these historically and culturally specific notions of difference and identity are realized. Course materials address a variety of gendered bodily experiences cross-culturally and investigate the ways they are implicated in notions of masculinity and femininity. Course topics include initiation practices and other means of attributing sex/gender identities; reproduction and fertility control; beauty and body image; health and illness; warfare and violence; and sexuality and sexual orientation. (C).

ANTH-309. Egyptian Archaeology. 3 Hours.

This course explores ancient Egyptian society and culture from the Predynastic through the New Kingdom periods, with an emphasis on internal and external factors that helped shape and mold change and expansion of Egyptian society. Students will develop an understanding of long-term political, social, religious, and economic developments along the lower Nile River. (A).

Prerequisite: ANTH-213 minimum grade of C or ANTH-240A minimum grade of C.

ANTH-310. Middle Eastern Archaeology. 3 Hours.

The Middle East is widely known as "the cradle of Western Civilization," and this course explores the archaeological evidence for ancient cultures of the Middle East, particularly areas of modern-day Kuwait, Iran, Iraq, Syria, and Turkey, from prehistoric times to the fifth century B.C. Ancient Mesopotamian societies, including Akkadia, Assyria, Babylonia, and Sumer are examined through the end of the Iron Age. (A).

Prerequisite: ANTH-213 minimum grade of C.

ANTH-314. Anthropology Of Religion. 3 Hours.

Study of the ways that religions, both past and present, act to support or alter the social systems or sub-systems with which they are associated. The ways that individuals respond to the value systems and world views of various religions are examined, as well as the individual motivations for adherence to the various religions. (C).

Prerequisite: ANTH-212 minimum grade of C.

ANTH-315. Greek Archaeology: Bronze Age. 3 Hours.

The archaeology of Aegean Greece, from 3600-1000 BCE, is the focus of this engaging course. It includes the ancient societies of mainland Greece, Crete, and the Cyclades. As the origins of dynamic city-states, urbanization, art, and a writing system in the eastern Mediterranean, these areas are not only fascinating in their own right, but also prefigured later Classical and Hellenistic civilizations. (A).

Prerequisite: ANTH-213 minimum grade of C.

ANTH-316. Greek Archaeology: Classical Age. 3 Hours.

This course explores the archaeology of ancient Greece from the end of the Bronze Age (1000 BCE) through the death of Alexander the Great (323 BCE). This fascinating era includes an examination of the Greco-Persian wars and the Greek colonization of Spain, France, Italy, and the shores of the Black Sea. We will explore the roles that politics, religion, and commerce played in the development of Classical Greek society, as evidenced in the archaeological record. (A).

Prerequisite: ANTH-213 minimum grade of C.

ANTH-317. Medical Anthropology. 3 Hours.

This course presents cultural anthropological perspectives on the subjects of health, illness, and healing. Students are introduced to illness categories, healing practices, relationships between patients and healers, and notions of the body as they exist cross-culturally. Course materials will address health and healing as associated with biomedicine, religion, spirit possession, and a range of other cultural responses to human suffering and its resolution. (C).

ANTH-319. Prehistory Of Africa. 3 Hours.

Africa is the sole source of evidence for the origins of many significant cultural developments and technological innovations. This course surveys the archaeological evidence for human behavioral patterns from the earliest hominins to the eve of European colonization of this highly diverse continent. Principal themes include: origins of human culture; Early, Middle, and Late Stone Ages; origins of food production and complex societies; history of ancient kingdoms including internal growth and external influences; and the impact of Islam and the European contact with Africa. This course is cross-listed in the African and African American Studies Program (AFAM-319). (A).

Prerequisite: ANTH-213 minimum grade of C or ANTH-240A minimum grade of C.

ANTH-320. Religion In Africa. 3 Hours.

Religion is a subject that has fascinated anthropologists since the discipline's beginnings. In this course, we look at religion as it is practiced across the African continent, in all its diversity and complexity. Readings include ethnographic examples of African approaches to Christianity, Islam, spirit possession, and religious healing that reveal the relevance of practices by means of which participants both analyze and respond to the world around them. This course is cross-listed in the African and African American Studies Program (AFAM-320). (C).

ANTH-327. Dental Anthropology: Dental Morphology, Evolution, And Adaptation. 3 Hours.

This class will explore the evolution of mammalian teeth with a specific focus on primates. Students will first study the morphology, development, and functional adaptations of dentition. Special attention will be paid to the relationship between dentition and feeding ecology. The second portion of the class will primarily focus on the human dentition. Topics covered will include dental traits, the genetics of trait inheritance, geographic variability, and the application of dental anthropology in the bioarchaeological context. Throughout the semester students will be able to handle and study dental casts and will complete in-class labs on a variety of topics.

Prerequisite: ANTH-215 minimum grade of C.

ANTH-329A. Evolution Of The Human Diet. 3 Hours.

The human diet is a product of evolution, culture, and the environment. This class will explore nutrition, its influence during development, the role of diet in human speciation events, and evidence of diet in the archaeological record. Students will examine foraging strategies in contemporary human populations and how food choice might be influenced by genetics. Health implications of dietary shifts, including the development of agriculture and industrialization, will also be discussed. Finally, a portion of the course will focus on how non-human primate dietary adaptations and behaviors can be used to better understand our own lineage's changing dietary profile. (B).

Prerequisite: (or) and.

ANTH-332. Human Growth And Development In Evolutionary Perspective. 3 Hours.

Anthropologists study the dynamics of human growth and development from an evolutionary perspective. In this course, we will investigate the history of the study of human growth and the biological principles of growth. Students will examine the genetic and hormonal effects on human and other mammal growth including nutrition, disease, socio-economic status, pollution etc. Highlighting unique features of human growth in its various stages, we will also examine how anthropologists interpret variation in growth patterns among human populations and the possible adaptive significance of this variation. (B).

Prerequisite: ANTH-215 minimum grade of C.

ANTH-335A. Zooarchaeology. 3 Hours.

Zooarchaeology focuses on the identification and analysis of faunal (animal) remains from archaeological sites and what they can tell us about past human ecology and behavior. Zooarchaeologists study which animals were hunted and how they were butchered, prey and camp seasonality, the role of hunting versus scavenging, and the processes of animal domestication. This course will introduce students to theory and method in zooarchaeology and the basics of faunal analysis using lecture, review of current professional literature, discussion, and hands on labs. Students will relate their findings to broader questions in archaeology, paleontology, and paleoanthropology. (A).

Prerequisite: ANTH-213 minimum grade of C.

ANTH-337A. Anthropology Of Death. 3 Hours.

In death, the human body is transformed by the living into a powerful symbol. Treatment of the corpse is linked to ideas of death, the afterlife, and social boundaries. Studies of ancient burials reveal the nature of funerary practice and belief, as well as social organization. Human remains are often involved in rites of passage where the deceased are separated from the living and transformed into ancestors and other beings. This course focuses on how anthropologists study funerary rituals and beliefs about death from a cross-cultural perspective, and will examine the meaning of human practices of death and burial. (A).

Prerequisites: ANTH-212 minimum grade of C and ANTH-213 minimum grade of C and ANTH-215 minimum grade of C.

ANTH-339. Paleoanthropology: The Fossil Record Of Human Evolution. 3 Hours.

Paleoanthropology is the study of the human fossil record. This exciting course examines over 7 million years of human evolution and the biological processes that have shaped this most unique radiation. Using fossil casts, computer models of early humans as well as replicas of archaeological artifacts, students will explore the fundamentals of paleoanthropological research. The course will detail the controversies and differing interpretations of the fossil evidence for human evolution including the most current proposed evolutionary relationships of early humans to *Homo sapiens*. (B).

Prerequisite: ANTH-215 minimum grade of C.

ANTH-343. Anthropology Of The Body. 3 Hours.

The human body is a simultaneously biological and cultural entity—bones, blood, and flesh reveal the processes of biological evolution and also reflect cultural practices and ideas. This course takes a holistic approach to the body by juxtaposing perspectives from biological and cultural anthropology. For example, blood has adaptive biological qualities and is also a cultural metaphor for familial, ethnic, and national belonging. Senses reveal the evolutionary divergence of the human lineage and have prominent roles in different religious and healing practices. At the intersection of these perspectives lie significant insights regarding what it means to be a human being.

ANTH-347. Archaeology Of Colonialism. 3 Hours.

This course examines colonialism from an archaeological perspective. Students will analyze the theoretical literature and unpack multiple types of evidence from archaeology, anthropology, and related disciplines, developing the tools to critically engage with colonial histories and the production of narratives about them. The course takes a comparative and interdisciplinary approach to understanding the violent and exploitative processes of colonization, engaging with case studies from across the world and through time, with particular attention to gender, race, and identity as elements of colonial power relations, the persistence of colonial legacies today, and the politics of archaeological practice. (A).

ANTH-349E. Environmental Archaeology. 3 Hours.

This course will provide an overview of how archaeologists study human-environment relationships. It will treat landscapes as dynamic products of natural processes, cultural activities, and social practices and expose students to the various techniques and methods by which archaeologists reconstruct ancient human-environment relationships, ranging from geomorphological to paleoecological methods. In addition to surveying techniques and methods useful to environmental archaeology, the course materials will include a series of empirical case studies detailing the anthropogenic landscape histories of several world regions. (A).

Prerequisite: ANTH-213 minimum grade of C.

ANTH-349S. Archaeology of South Asia. 3 Hours.

This course surveys the archaeology of South Asia, beginning with animal and plant domestication in the early Holocene and ending with the arrival of the British East India Company in the 17th century AD. Given the chronological breadth and spatial scope, the class will most fully detail archaeological and historical periods that contribute significantly to anthropological questions on the origins of domestication, the development of complex societies, the role of religion in early state authority, climate change and cultural change in the past, and the relationships between ancient agricultural and pastoral-based societies. (A).

Prerequisite: ANTH-213 minimum grade of C.

ANTH-355. History Of Anthropology. 3 Hours.

The course addresses developments in anthropology by tracing changes and continuities in the topics, theories, and methods employed in archaeology, biological anthropology, and cultural anthropology. Students will focus on the ideas and approaches that have informed the trajectory of a particular subfield. The course provides a historical context that enriches an understanding of anthropology not only as a field, but also as a part of a long, multidirectional disciplinary conversation.

ANTH-356. Human Variation. 3 Hours.

People look different from each other. Can we be classified into races or do we follow other patterns of variation? This provocative course will examine the role of heredity and environment in determining the world distribution of human biological traits. Students will study the adaptive significance of observable phenotypic differences in skin, hair, and eye color, facial features, and body proportions. Less obvious traits such as blood type and differential adaptation to disease and diet will also be explored. Finally, students will learn about and critically analyze the history of race studies and their far-reaching social and political implications. (B).

Prerequisite: ANTH-215 minimum grade of C or BIO-303 minimum grade of C.

ANTH-357. Economic Anthropology: Shells, Pigs, And Gold. 3 Hours.

Is greed simply a part of human nature? do all humans simply have endless wants and desires for material goods? More than a century ago anthropologists began questioning assumptions of classical Western economics, and began to show that societies have diverse values as people pursue wealth and the good life. The course design gives students insights into the variety of economic systems by tapping into ethnographic literature that has overturned mainstream economic wisdom. Take a look at economics from a fresh and intriguing micro-level perspective that incorporates many other aspects of cultural life, including marriage and ecology. (C).

ANTH-359. Museum Studies. 3 Hours.

This class will take the student on a tour of some of the world's most fascinating institutions, and teach the history and theory behind their development. The course will also focus on many of the activities that take place in museums that make them such a valuable asset to the scientific and educational communities. (C).

ANTH-364. Culinary Anthropology. 3 Hours.

Anthropologists and historians research behaviors, origins, and traditions of human association with a variety of foodstuffs and foodways. We do so all in an effort to answer the "when", "how", and "why" questions connected to particular foods and the contexts in which eating them became appropriate and sought after. In this course we explore eating, foodstuffs, and cookery from nutritional, artistic, sensual, political, socioeconomic, and popular perspectives, among others. Students also explore Chicago's world cuisines by dining in and out in a variety of symposia, combining good eating and good thinking. (C).

Prerequisite: ANTH-212 minimum grade of C or HIST-111 minimum grade of C.

ANTH-365. Anthropology Of Islam. 3 Hours.

Do all Muslims practice their faith in the same way? Is there really only one type of Muslim society? Based on consideration of major Islamic beliefs, the history of Islamic expansion and civilization, and the cultures of contemporary Muslim societies, the thesis of this course is that there are numerous cultural approaches to Islam. Students learn by reading within and outside of anthropology to better inform themselves of contemporary issues and understandings of the dynamism that characterizes Islamic cultures. (C).

ANTH-368. Primate Biology And Adaptation. 3 Hours.

The primate adaptive radiation is over 50 million years old and exhibits some of the most striking anatomical adaptations found among mammals. This course focuses on the morphological diversity of primates. We will first examine the evolution of traits that distinguish primates from other mammals, and will then shift focus to features that differentiate species and lineages within the Order. Specifically, adaptations related to diet, feeding, foraging, communication, predator avoidance, positional behavior, habitat, reproduction, among others, will be highlighted. Students will work extensively with scientific literature and the bone and cast collection. (B).

Prerequisite: ANTH-215 minimum grade of C or BIO-320 minimum grade of C or BIO-327 minimum grade of C.

ANTH-371. Forensic Anthropology. 3 Hours.

Forensic anthropology is an applied science that uses the methodology of biological anthropology to evaluate human skeletal remains in a medico-legal context. This course focuses on the theory and practice of building biological profiles and analyzing circumstances surrounding human death. Students will review the current state of forensic anthropology using published studies on estimating age/sex/ancestry/etc., identifying bone trauma and the postmortem interval, and applying methods of individuation (facial reconstruction, odontology, X-ray, DNA, etc.). The course also highlights the ethics and cross-disciplinary nature of forensic anthropology, and its central role in mass/natural disasters and worldwide human rights violations. (B).

Prerequisite: ANTH-215 minimum grade of C or ANTH-302 minimum grade of C.

ANTH-373. Urban Anthropology. 3 Hours.

Urban anthropology is the holistic study of human beings in cities. This course addresses various aspects of the broad sweep of urbanization, from the ancient urban revolution of the present shift to a majority of people living in cities, focusing especially on the urban United States. We will engage with anthropological work that balances social theory with rich ethnographic portraits, opening debates on the meanings and values of urban life. We will examine race, gender, inequality, institutions, and case studies on immigration, gentrification and sustainability, and using Chicago as our laboratory, students will conduct and write ethnographies of their own. (C).

Prerequisite: ANTH-212 minimum grade of C.

ANTH-374. The Maya. 3 Hours.

This is an exciting and in-depth exploration of ancient Maya society from its origins to Spanish contact. The course reviews chronologies, geography, and time periods used by Mayanists to help understand larger trends in Maya society. You will also evaluate issues and debates that currently exist within Maya studies. These include questions of economy, politics, social organization, religion, and ideology. Finally, the decipherment of the Maya script is examined. You will have the opportunity to critically examine a specific topic during the semester. (A).

Prerequisite: ANTH-213 minimum grade of C or ANTH-250 minimum grade of C.

ANTH-375. Anthropology Of Globalization. 3 Hours.

The course will address social forces, practices, and experiences related to the ever-increasing transnational interconnectedness of societies across the world. Through readings from the anthropological literature on globalization and related issues, we will critically address the ways "globalization" is conceived and theorized by contemporary scholars; its effects on the construction of identity; the roles of commodities, consumer culture, and the media; and the ways in which the processes referred to as globalization both broaden and expand notions of "community" and "culture", and present new varieties and intensities of difference, disjuncture, and marginalization. (C).

ANTH-376. Primate Behavior. 3 Hours.

One of the evolutionary hallmarks of being a primate is sociality and primates exhibit a diverse array of behavioral adaptations for navigating complex social groups. Primate behavioral ecology is a fascinating field that informs our understanding of primate interactions and the origins of our own behavior. This course will highlight how primatologists study behavior and how evolution and ecological variables shape primate sociality in the contexts of group structure, male/female dynamics, reproduction, feeding, predation pressure and social learning, among other topics. Students will examine the diversity of primate sociality using current primatological literature, discussion, video, assignments and zoo visits. (B).

ANTH-377A. Anthropology Of Television. 3 Hours.

Cultural anthropologists have long trained their sights on the ordinary practices of everyday life, understanding that careful study of mundane activities yields insights into the weightiest questions of human experience. However, despite its ubiquity in popular culture and centrality as a form of representation and forum for cultural debate, anthropologists have only slowly come to the study of television. This course addresses the relatively recent but burgeoning anthropology of television and suggests that attention to the ways people around the world make, watch, interpret, discuss, and critique television programs provides an important vantage on the workings of culture, power, and knowledge in the contemporary world.

ANTH-378. Anthropology Of Power. 3 Hours.

The study of politics concerns who gets what, why, and how in societies. Anthropologists study political systems by examining the varieties of human practices involving rules and laws, persuasion and coercion. This course surveys how politics have been studied by anthropologists for the past 130 years, from indigenous North Americans to Trobriand Islanders and especially how anthropologists increasingly became political themselves as more and more peoples began living under the authority of modern nation states. (C).

ANTH-379A. Pan-African Association Internship. 3 Hours.

Interns work 10 hours per week for the duration of a semester at the Pan-African Association, an organization that provides services to refugees in Chicago. Interns assist with in-home mentoring, English language training, job readiness training, and community outreach, among other duties and projects. The PAA Internship provides high-achieving Northeastern students with the opportunity to learn about the experiences of refugees in the U.S. and gain experience in the work of a refugee services organization and provides PAA with committed, hardworking students who can serve the goals of the organization and the needs of its clients.

Prerequisite: ANTH-212 minimum grade of C or GS-201 minimum grade of C.

ANTH-380. Archaeological Field School. 6 Hours.

Want to work on an archaeological site? In this intensive field course, students will explore field, lab and survey techniques on an actual archaeological dig. Students will learn excavation techniques and protocol in the treatment and recovery of artifacts, ecofacts, features, and structures. Students will also develop skills in mapping and use of various field technologies including GPS. Instruction will also include lab methods for processing, analyzing and curating material remains. Location of Field School may vary year to year. (A) Prereq.: ANTH-213 or ANTH-250 or ANTH-374 or consent of instructor.

ANTH-3811. Independent Study In Anthropology. 1 Hour.

Academic credit for special research project student conducts with individual guidance from a faculty member. Projects that could be completed in an established course are not appropriate for Independent Study. Student must submit project proposal to the faculty member in the semester prior to the one in which project is to be conducted; see "Individualized Study" in anthropology program entry for more information. Student must have completed two courses in the anthropological subdiscipline of proposed topic prior to enrolling in Independent Study. Independent Study requires approval of instructor, department chair and college dean. (A,B,C) Prereq.: Consent of Instructor.

ANTH-3812. Independent Study In Anthropology. 2 Hours.

See course description for ANTH-3811.

ANTH-3813. Independent Study In Anthropology. 3 Hours.

See course description for ANTH-3811.

ANTH-3821. Fieldwork In Anthropology. 1 Hour.

Academic credit for ethnographic, primatological, archaeological, paleontological, forensic, applied, or other relevant and typically off-campus anthropological fieldwork opportunities arranged for by the student. Student enrolls with anthropology faculty member who guides and oversees work. Fieldwork in Anthropology credits are designed to help students improve research skills, apply principles learned in the classroom, take advantage of fieldwork opportunities, and explore career options. Students must have completed two courses in the anthropological subdiscipline of the proposed fieldwork prior to enrolling in Fieldwork in Anthropology. Fieldwork in Anthropology requires approval of instructor, department chair and college dean. (A,B,C).

ANTH-3822. Fieldwork In Anthropology. 2 Hours.

See course description for ANTH-3821.

ANTH-3823. Fieldwork In Anthropology. 3 Hours.

See course description for ANTH-3821.

ANTH-3824. Fieldwork In Anthropology. 4 Hours.

See course description for ANTH-3821.

ANTH-3871. Field Museum Internship. 1 Hour.

Student intern assists Field Museum staff behind the scenes in the Mammals section (anatomy, prep, curation) or Anthropology section (scientific illustration). Work varies with assignment and can include specimen preparation/processing, collections management, resolving taxonomic issues, research, data management, apprenticeship with professional illustrator, and more. Internship requires significant commitment of 15-20 hours/week for the semester and a journal or final project depending on credit hours (1-6). Additional requirements listed in Anthropology entry of online Academic Catalog. Eligible students apply for internship through NEIU Anthropology Department. Approval is subject to consent of Field Museum staff. (B).

Prerequisite: ANTH-302 minimum grade of C or ANTH-368 minimum grade of C.

ANTH-3872. Field Museum Internship. 2 Hours.

(See ANTH-3871 for description.).

Prerequisite: ANTH-302 minimum grade of C or ANTH-368 minimum grade of C.

ANTH-3873. Field Museum Internship. 3 Hours.

(See ANTH-3871 for description.).

Prerequisite: ANTH-302 minimum grade of C or ANTH-368 minimum grade of C.

ANTH-3874. Field Museum Internship. 4 Hours.

(See ANTH-3871 for description.).

Prerequisite: ANTH-302 minimum grade of C or ANTH-368 minimum grade of C.

ANTH-3875. Field Museum Internship. 5 Hours.

(See ANTH-3871 for description.).

Prerequisite: ANTH-302 minimum grade of C or ANTH-368 minimum grade of C.

ANTH-3876. Field Museum Internship. 6 Hours.

(See ANTH-3871 for description.).

Prerequisite: ANTH-302 minimum grade of C or ANTH-368 minimum grade of C.

ANTH-3891. Lincoln Park Zoo Research. 1 Hour.

Student works with Lincoln Park Zoo biologists on a zoo-sponsored research project on primate or other mammal species. Focus can include: development and implementation of research design, ethological data collection including behavioral observations, analysis etc. Student arranges for project through NEIU Anthropology Department. These credit hours require a significant commitment on the part of the student and are only open to highly motivated, responsible students. Arrangements are subject to consent of Lincoln Park Zoo staff. Approximate credit to field hour ratios from 1cr., 50 field hours to 6 cr., 300 field hours. (B) Prereq.: ANTH-376.

Prerequisite: ANTH-376 minimum grade of C.

ANTH-3892. Lincoln Park Zoo Research. 2 Hours.

(See ANTH-3891 for description.).

Prerequisite: ANTH-376 minimum grade of C.

ANTH-3893. Lincoln Park Zoo Research. 3 Hours.

(See ANTH-3891 for description.).

Prerequisite: ANTH-376 minimum grade of C.

ANTH-3894. Lincoln Park Zoo Research. 4 Hours.

(See ANTH-3891 for description.).

Prerequisite: ANTH-376 minimum grade of C.

ANTH-3895. Lincoln Park Zoo Research. 5 Hours.

(See ANTH-3891 for description.).

Prerequisite: ANTH-376 minimum grade of C.

ANTH-3896. Lincoln Park Zoo Research. 6 Hours.

(See ANTH-3891 for description.).

Prerequisite: ANTH-376 minimum grade of C.

ANTH-390A. Senior Thesis Research. 2 Hours.

High achieving anthropology majors may enrich their academic experience by conducting a senior thesis. Student enrolls in Senior Thesis Research hours for the first semester and works one-on-one with faculty thesis advisor to develop project and outline steps and a timeline for completion. Grade earned will be based on the completed thesis proposal and other requirements as agreed to by student and thesis advisor. Other requirements may include obtaining necessary outside permissions, completion of literature review, data collection, etc. See anthropology program entry above for minimum GPA and additional requirements. Prereq.: Consent of faculty mentor.

ANTH-390B. Senior Thesis Writing. 2 Hours.

Student enrolls in Senior Thesis Writing for the 2nd semester of their thesis project in order to complete thesis. Student works one-on-one with faculty thesis advisor to develop project and outline steps and a timeline for completion. Grade earned will be based on the completed thesis. Final thesis product must follow departmental thesis format guidelines. Student is strongly encouraged to present their work at the annual NEIU Student Research/Creative Activities Symposium or similar venue. See "Senior Thesis Option" in anthropology program entry above for additional information. Prereq.: ANTH-390a.

Prerequisite: ANTH-390A minimum grade of C.

ANTH-401. Independent Graduate Study In Anthropology. 3 Hours.

Major in Anthropology

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Major in Anthropology for the Bachelor of Arts Degree (34 credit hours)

Note that the Anthropology Writing Intensive (WIP) class has changed as of Fall 2016. The new WIP class is ANTH 300 WIP: Writing in Anthropology. Please consult with the anthropology advisor if you declared your major before Fall 2016 and have not satisfied the WIP requirement yet.

Code	Title	Hours
Required Courses:		
ANTH-212	Introduction To Cultural Anthropology	3
ANTH-213	Introduction To Archaeology	3
ANTH-215	Human Origins: Introduction To Biological Anthropology	3
ANTH-290	Graduating Anthropology	1
ANTH-300	Writing Intensive Program: Writing In Anthropology	3
One 300 level archaeology course (see course description with "(A)")		3
One 300 level biological anthropology course (see course descriptions with "(B)")		3
One 300 level cultural anthropology course (see course descriptions with "(C)")		3
Four ANTH electives of the student's choice, at least two of which must be at the 300 level; the remaining two may be 200 or 300 level		12
Total Hours		34

INDIVIDUALIZED FIELD, RESEARCH, INTERNSHIP, AND SENIOR THESIS ELECTIVES IN ANTHROPOLOGY NEIU Anthropology offers a variety of individualized study options, including internships, field, research, and senior thesis hours that may be counted as electives to satisfy ANTH major requirements. These are listed below. Note that only six individualized credit hours may count towards the major, and these hours must be spread across two or more subfields.

Code	Title	Hours
ANTH-379A	Pan-African Association Internship	3
ANTH-3813	Independent Study In Anthropology	3
ANTH-3824	Fieldwork In Anthropology (various options, including National Museum of Mexican Art Internship)	4
ANTH-3876	Field Museum Internship	6
ANTH-3896	Lincoln Park Zoo Research	6
ANTH-390A	Senior Thesis Research	2
ANTH-390B	Senior Thesis Writing	2

All individualized learning opportunities are reserved for highly motivated, self-directed, mature students. Research and/or fieldwork projects should be developed with a faculty advisor and their scope must extend beyond that covered in a class. Internships place students in a professional setting where they participate in the workload experience. Senior thesis projects typically span two semesters with the research being completed in the first semester, and writing and completion of the thesis in semester two.

Please see individual course descriptions for specific information. Students wishing to enroll in any individualized learning opportunities must satisfy the following requirements:

- Minimum GPA of 3.0/4.0;
- Declared major, or in exceptional cases, minor, in anthropology;
- Prior completion of a minimum of two ANTH courses in the subfield area (e.g., archaeology, biological anthropology, cultural anthropology) of the proposed project
- For research, field, and senior thesis projects: completion of a written project proposal and Student Contract that has received departmental approval, preferably in the semester before the project is to take place;
- For internships: completed Student Contract and successful interviews with anthropology advisor and supervisor at place of internship.

TRANSFER STUDENTS

We welcome transfer students who want to study anthropology at NEIU! Students transferring from other institutions must complete a minimum of 15 ANTH credit hours at NEIU including:

- ANTH-300 WIP: Writing in Anthropology
- At least one 300-level course in each subfield (archaeology, biological anthropology, cultural anthropology)
- One additional 300 level ANTH elective of your choice.

For transferring anthropology courses not covered by articulation agreements, a syllabus of the course in question should be submitted to the Anthropology Coordinator for review.

Please consult with the anthropology coordinator or advisor if you have any questions.

This sample curricular map is provided to guide you in the planning of your progression for this major. This guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor.

Minor in Anthropology

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Minor in Anthropology (19 credit hours)

Code	Title	Hours
ANTH-212	Introduction To Cultural Anthropology	3
ANTH-213	Introduction To Archaeology	3

ANTH-215	Human Origins: Introduction To Biological Anthropology	3
Three 300-level anthropology courses of the student's choice. No more than 3 individualized credit hours may apply to the minor. Individualized credit hours include internships, field hours, and independent study projects.		9
Total Hours		18

Art

The fundamental objective of the programs in the Art Department is to provide and promote a knowledge and understanding of the visual arts. The Bachelor of Arts in Art with a concentration in Studio Art gives students hands on exposure to a variety of skills, both analytic and technical, in order to help students express concepts visually. The Bachelor of Arts in Art with a concentration in Art History introduces students to numerous periods of art, cultural and historical events, visual means of expression and communication, and research methods. The Art Education program prepares students to teach the visual arts in a K-12 environment, and upholds state and national performance standards. The Bachelor of Fine Arts in Graphic Design is an applied arts program with a focus on the development of visual solutions to communication problems, and offers students guided hands-on experience in the creation of visual messages in print and electronic media. All of our programs prepare students to pursue graduate school, careers in the fine and applied arts, teaching, and lifelong learning.

The Art Department offers three sequences leading to a Bachelor of Arts degree (Studio Art, Art History, and K-12) and a Bachelor of Fine Arts in Graphic Design. Additional offerings include minors for Education majors and Liberal Arts students and advanced courses for undergraduate students, in-service teachers and post-graduate students. Students who wish to declare a major or minor should contact the Art Department at 1.773.442.4910 and schedule an appointment with a departmental advisor. Transfer students should bring an evaluation of transfer credits to their first advisement session.

For the majors: transfer students must complete a minimum of 15 credit hours of art courses at NEIU and meet all requirements for the major. For the minors: transfer students must complete a minimum of 9 credit hours of art courses at NEIU and meet all requirements for the minor. Transfer students are required to consult with a departmental undergraduate advisor to review transfer coursework prior to registering for art courses at Northeastern. The Department utilizes course titles and course descriptions taken from the catalog of the transfer school to assist in making decisions on the appropriateness of transfer credit.

General Education credit is allowed when courses provide a survey of introductory art material with breadth and appropriate concepts consistent with NEIU Art General Education courses. Students should also be aware of the University requirements for the Bachelor's degree. All students must complete a minimum of 40 credit hours at the 300 level and fulfill the university's general education requirements.

The special requirements of studio and lecture courses demand regular attendance. The department policy on attendance is aligned with the university attendance policy; more than three absences may affect your grade. Prerequisites are strictly enforced.

The art department assesses fees to support students in the production of art and to maintain a safe and healthy working environment. Additional information on individual course fees may be obtained by contacting the department.

Northeastern Illinois University is an accredited institutional member of the National Association of Schools of Art and Design.

- Major in Art (Studio Art concentration) (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/art/studio-art/>)

ART

ART-109. First Year Experience: Art, Architecture And Urban Design In Chicago. 3 Hours.

This field-based course explores art in an urban environment, examines the relationships between art and urban culture, and considers the role of art in an urban setting. Students will gain a familiarity with Chicago as a cultural home; they will evaluate the role of public art in Chicago, examine the design and purpose of open spaces, and gain a familiarity with the Chicago school of architecture.

ART-109B. First Year Experience: ChicaGo Create: Graphic Design For Fun & Communication. 3 Hours.

This course examines the lively graphic design community of the city of Chicago. Lectures will focus on introducing graphic design topics to students, as well as learning the skills needed to succeed in college. Students will learn about our community, local arts, local graphic designers and get the opportunity to learn basic design principles. This course includes field trips.

ART-120. Drawing I. 3 Hours.

Basic drawing, stressing individual perceptual growth and the importance of physical and psychological factors in structuring visual experiences; emphasis on design and perception; discussion of systems of perceptual interpretation and structure, concepts of abstraction and problems of evaluation.

ART-130. Two-Dimensional Design. 3 Hours.

Systematic exploration of order in two-dimensional space and study of the interaction of method and technique in organizing form on a two-dimensional surface.

ART-140. Three Dimensional Design. 3 Hours.

Studio experience and lecture exploring fundamental 3-D design theory and concepts through the solution of studio problems utilizing 3-D materials and techniques.

ART-170A. Studio Experiences: Photography. 3 Hours.

Problem solving approach in studio experiences with lecture and discussion. This course does not count towards major or minor requirements in Art.

ART-170B. Studio Experiences: Painting. 3 Hours.

Problem solving approach in studio experiences with lecture and discussion. This course does not count towards major or minor requirements in Art.

ART-170C. Studio Experiences: Sculpture. 3 Hours.

Problem solving approach in studio experiences with lecture and discussion. This course does not count towards major or minor requirements in Art.

ART-170D. Studio Experiences: Metals And Jewelry. 3 Hours.

Problem solving approach in studio experiences with lecture and discussion. This course does not count towards major or minor requirements in Art.

ART-170E. Studio Experiences: Printmaking. 3 Hours.

Problem solving approach in studio experiences with lecture and discussion. This course does not count towards major or minor requirements in Art.

ART-170F. Studio Experiences: Ceramics. 3 Hours.

Problem solving approach in studio experiences with lecture and discussion. This course does not count towards major or minor requirements in Art.

ART-170G. Studio Experiences: Drawing. 3 Hours.

Problem solving approach in studio experiences with lecture and discussion. This course does not count towards major or minor requirements in Art.

ART-170H. Studio Experiences: Graphic Design. 3 Hours.

Problem solving approach in studio experiences with lecture and discussion. This course does not count towards major or minor requirements in Art.

ART-220. Drawing II. 3 Hours.

Interpretive drawing experiences, concentration on individual growth and perceptual acuity, principally studying the human form through live models, other supportive materials and a variety of media.

Prerequisite: ART-120 minimum grade of C.

ART-230. Painting I. 3 Hours.

This introductory painting course familiarizes students with the painting process. Using oil paint as medium, students will explore themes such as still life, abstraction, symbolism, and the landscape. Students will be exposed to a variety of oil painting techniques and materials.

Prerequisite: ART-120 minimum grade of C.

ART-234. Digital Foundations. 3 Hours.

This course addresses foundational toolsets in the Adobe Creative Suite while introducing students to the basic logical processes required for using code as a creative material. This course combines technical training with processed based creative projects in order to familiarize students with the essential tools and modes of thinking for creating digital art and design. Students will gain an essential understanding of the importance of digital literacy and content creation within broad professional disciplines.

ART-240. Sculpture I. 3 Hours.

This introductory sculpture course familiarizes students with traditional and contemporary sculpture concepts, and exposes students to an overview of processes, tools, and materials used in sculpture. Students will also explore modeling, casting, and construction techniques.

Prerequisite: ART-140 minimum grade of C.

ART-250. Printmaking I. 3 Hours.

This introductory printmaking course emphasizes the processes of intaglio and relief. This course will also explore the possibility of the monoprint, as well as introduce basic research methods associated with personal studio practice.

Prerequisite: ART-120 minimum grade of C.

ART-261. Photography I. 3 Hours.

This course will familiarize students with digital photography techniques and computer software to use photography as a creative medium. Students will be introduced to basic aesthetic grammar of photography and a preliminary historical context for visually analyzing and creating photographs.

Prerequisite: ART-130 minimum grade of C.

ART-270. Ceramics I. 3 Hours.

This introductory ceramic course explores building techniques, surface treatment, design and decoration of ceramic objects. Through class projects students will be introduced to a variety of methods of constructing sculptural as well as functional objects. Focus will be placed on technique, craftsmanship and the development of individual artistic direction.

Prerequisite: ART-140 minimum grade of C.

ART-273. Metals And Jewelry I. 3 Hours.

This introductory metals and jewelry course emphasizes a mastery of basic tools, materials and processes used in the creation of jewelry, functional objects and small sculpture. Students will create a range of objects that address basic design problems, functional considerations and conceptual ideas.

Prerequisite: ART-140 minimum grade of C.

ART-280. Art + Tech I. 3 Hours.

Through tutorials, collaborative experimentation and guided studio time this course introduces students to a variety of topics related to the intersection of art and technology. The course will survey techniques to utilize web code as a creative medium, design and digitally fabricate objects, investigate modes of interactivity via physical computing and reshape the frame of moving images. Readings will provide a historical and technical framework for examining the ever-evolving role that technology plays within society. Lectures will encourage students to approach software and electronics as art materials, while hands-on tutorials and collaborative making will encourage skill development.

Prerequisite: ART-130 minimum grade of C.

ART-281. Graphic Design I. 3 Hours.

Introduction to techniques and concepts of graphic design and visual communications. Lectures and studio time will be used to analyze and practice applied creative activity of design, image-making, typography and layout, as well as it's historical and contemporary social aspects.

Prerequisite: ART-130 minimum grade of C.

ART-285. Image. 3 Hours.

Image class offers a guided exploration of techniques and processes used to create images for the purpose of specific communication. The course pays special attention to current trends in graphic design and fine art and includes discussions of various contemporary illustration techniques. Special attention is paid to both visual form, as well as the design process, communication and interpretation of work to challenge the student's ability to generate innovative images with a regard for both visual form and conceptual content.

Prerequisite: ART-281 minimum grade of C.

ART-289. Graphic Design (Survey). 3 Hours.

This course chronicles the development of visual communication methods from prehistoric times to late 20th century. Emphasis will be placed on the period from the mid 19th century to late 20th century developments in the field of graphic design. The course is structured as a lecture and discussion class. The class will take a contemporary approach to the subject, drawing parallels between the historical movements and the way that things look in design today. Topics will involve a critical approach to the subject matter.

ART-294. Writing Intensive Program: Professional Practices In Graphic Design 1. 1 Hour.

Professional Practices is three-part series of one-credit courses that are to be taken in sequence. This course will introduce students to general business practices that are prevalent in the graphic design field. Topics to be covered are professional portfolio presentation skills, freelance business skills, marketing strategies, joining professional organizations, online portfolio development, writing job application materials and understanding the Chicago job market. This course is required for all graphic design majors and fulfills the university writing intensive requirement within the major.

Prerequisites: ART-281 minimum grade of C and ENGL-101 minimum grade of C.

ART-301. Contemporary Design. 3 Hours.

This class combines academic study of late 20th century and contemporary Graphic Design practices with an exploration of the professional design world. Graphic Design of the present day is examined in relation to architecture and interiors, and wider theoretical and contextual issues. The interrelationship between the fine and decorative arts is a strong theme throughout the class. Visits to museums, professional events, galleries, design fairs and studios provide opportunities to examine objects and meet practicing designer first hand.

Prerequisite: ART-284 minimum grade of C.

ART-303. Images Of Woman In Art. 3 Hours.

Iconographical study of the images of woman in the visual arts. Exploration into stereotypes, archetypes and prototypes in the context of historical and societal conditions, using primary literary sources and archaeological evidence to support interpretive hypotheses.

ART-314. Typography. 3 Hours.

The second course in the graphic design sequence takes a deeper look at design and use of letter forms. Lectures and assignments focus on examining major type families and their characteristics, creating typographic contrast and hierarchy of information, history of type design and typographic grids. Students build skills for the art of typesetting and typographic layout, conceptual thinking and expressive typography.

ART-315. Letterpress. 3 Hours.

Introduction to letterpress printing techniques including discussion of typographic rules using wood and metal type and image making using contemporary photopolymer plate making techniques.

Prerequisite: ART-281 minimum grade of C.

ART-320. Drawing III. 3 Hours.

This advanced drawing course emphasizes drawing concepts and techniques. Students will utilize a variety of traditional and nontraditional media in developing their own personal artistic vision. This course may be repeated up to three times.

Prerequisite: ART-220 minimum grade of C.

ART-321. Drawing IV. 3 Hours.

This advanced drawing course will continue the exploration of contemporary concepts and drawing techniques emphasizing personal expression. This course may be repeated up to three times.

Prerequisite: ART-320 minimum grade of C.

ART-330. Painting II. 3 Hours.

This course is designed as a continuation of the exploration of the painting process. During this semester, students will be using acrylic paints to investigate themes both contemporary and historical such as abstraction, the figure, narrative painting and mixed media. Students will also learn about the use of mediums, brushes, and painting techniques.

Prerequisite: ART-230 minimum grade of C.

ART-331. Painting III. 3 Hours.

This advanced painting course will emphasize personal development and expression using the medium of choice. This course may be repeated up to three times.

Prerequisite: ART-330 minimum grade of C.

ART-332. Painting IV. 3 Hours.

This advanced painting course will focus on individual personal imagery, concepts, and ideas, with the goal of developing a personal voice. This course may be repeated up to three times.

Prerequisite: ART-331 minimum grade of C.

ART-333. Mural Painting. 3 Hours.

Working with a Chicago neighborhood, students will develop an understanding of the role of public art by collaborating on the planning and execution of a painted mural. This course may be repeated up to two times.

Prerequisite: ART-120 minimum grade of C.

ART-340. Sculpture II. 3 Hours.

This intermediate sculpture course introduces students to the fundamentals of figure modeling and casting methods. Class time is devoted exclusively to modeling, mold making, and various casting techniques.

Prerequisite: ART-240 minimum grade of C.

ART-341. Sculpture III. 3 Hours.

This is an advanced level sculpture studio course, which revolves around wood and metal working techniques in relation to the sculptural object. This course will cover shop safety and also focus on experimentation with hand and power tools as well as finishing processes. This course may be repeated up to three times.

Prerequisite: ART-340 minimum grade of C.

ART-342. Sculpture IV. 3 Hours.

This advanced sculpture course continues to explore advanced sculpture techniques with an emphasis on independent studio practice and research.

Students will demonstrate a working knowledge of advanced sculpture techniques by creating a body of coherent and creative work. This course may be repeated up to two times.

Prerequisite: ART-340 minimum grade of C.

ART-343. Art & Culture Study Tour To China. 3 Hours.

This course focuses on historic and contemporary art and culture in China, and includes a study tour to multiple cities in China. Students will have the opportunity to investigate a wide variety of art making processes as well as develop conceptual works based on both historic and contemporary practices as they relate to the travel experience in China. Together, the artistic and cultural experiences in this course will broaden student perspectives and provide new avenues for personal expressions in art and culture studies.

ART-344. Writing Intensive Program: Professional Practices In Graphic Design. 3 Hours.

This writing intensive course will introduce students to writing and general business practices that are applicable to a career in graphic design. The course will cover such topics as: graduate school research, resume building, freelance business documents development (business plan, invoice and contacts for design services) and the development of a professional portfolio for pursuing a career in graphic design. Required for all Graphic Design majors and open to Studio Art majors with a concentration in Graphic Design.

ART-350. Printmaking II. 3 Hours.

This intermediate printmaking course will emphasize the planographic processes, which include screenprint, lithography and monotype. This course will also explore the possibility of the monoprint as it relates to these processes as well as continue a focus on research as it relates to personal studio practice.

Prerequisite: ART-250 minimum grade of C.

ART-351. Printmaking III. 3 Hours.

This advanced printmaking course introduces students to advanced techniques within traditional printmaking processes as well as experimental and non-traditional approaches. Students will investigate the possibilities of advanced printmaking techniques in relation to personal artistic vision and continue a focus on the development of independent studio practice and research. This course may be repeated up to three times.

Prerequisite: ART-350 minimum grade of C.

ART-352. Printmaking IV. 3 Hours.

This advanced printmaking course continues to explore advanced printmaking techniques with an emphasis on independent studio practice and research. Students will demonstrate a working knowledge of advanced printmaking techniques by creating a body of coherent and creative work. This course may be repeated up to two times.

Prerequisite: ART-351 minimum grade of C.

ART-355. Studies In Art & Social Practice. 3 Hours.

In this studio art course, students will be introduced to the concept of socially engaged art and produce studio projects that consider art in its relationship to social change. Students explore creative solutions that promote and affect social engagement, social interaction and community building. Social practice-based artwork includes a wide range of media and concepts in contemporary art practice and in this course, students connect their art practice to political, cultural and ethical conversations with an emphasis on participation, dialogue and action. Consult the Schedule of Classes for studio discipline and/or specific topic to be covered.

Prerequisites: ART-120 minimum grade of C and ART-130 minimum grade of C and ART-140 minimum grade of C and (ART-170A minimum grade of C or ART-170B minimum grade of C or ART-170C minimum grade of C or ART-170D minimum grade of C or ART-170E minimum grade of C or ART-170F minimum grade of C or ART-170G minimum grade of C).

ART-356. Studio Thesis Seminar. 1 Hour.

This course will introduce students to practices associated with the creation of a coherent and comprehensive studio project, with an emphasis on research that compliments a creative practice. Students will gain experience with a project from start to finish, which will include preliminary assignments to explore formal and conceptual aspects of their work, group critiques and research. This course will give students the opportunity to work on a project outside of a specific studio course as well as provide experience for the senior capstone exhibition. **Prerequisite:** Completion of all seven Foundations courses with a minimum grade of C.

ART-358. Studies In Studio Art. 3 Hours.

This course is a theme-based studio course that will give students an in-depth understanding of a particular topic in the studio arts that might not be included in permanent course offerings. Techniques and ideas appropriate to the topic will be explored through assignments, research, and critiques. Students will be encouraged to develop their individual interpretation and understanding of the topic through course discussion and studio work.

Prerequisite: Completion of all seven Foundations courses with a minimum grade of C.

ART-362. Digital Imaging For Photographers. 3 Hours.

In this course digital photography techniques and printing are introduced and complemented development of a body of work. Assignments incorporate the technical aspects of specific skills while emphasizing their conceptual application. **Prereq.:** ART-261 or a portfolio of photographic work that demonstrates equivalent proficiency.

Prerequisite: ART-170A minimum grade of C or ART-261 minimum grade of C.

ART-363. Controlled Photographic Lighting For In Studio and On Location. 3 Hours.

This course will cover the tools and techniques used to control photographic lighting. Emphasis is placed on creating solutions to complex lighting situations.

Prerequisite: ART-170A minimum grade of C or ART-261 minimum grade of C.

ART-364. Historic And Alternative Photographic Processes. 3 Hours.

This course will cover a variety of advanced historic photographic processes and alternative ways of making images. Students will create a portfolio demonstrating conceptual maturation, advanced aesthetic skill, and technical competence in photography.

Prerequisite: ART-170A minimum grade of C or ART-261 minimum grade of C.

ART-365. Photography Seminar. 3 Hours.

This course focuses on refinement of aesthetic and technical skills while developing a personal style in a self-directed, long-term photography project. Instructor permission required.

Prerequisites: ART-362 minimum grade of C and ART-363 minimum grade of C and ART-364 minimum grade of C.

ART-366. View Camera. 3 Hours.

This class explores the tradition and benefits of using the large format view camera. Emphasis is placed on technical proficiency with the camera to control perspective and manipulate the plane of focus. Topics range from landscape, architectural and portrait photography. Cameras are supplied to students for the duration of the class.

ART-370. Ceramics II. 3 Hours.

This intermediate ceramic studio course will emphasize materials, techniques, and design within a problem solving environment. Specific aesthetic and technical criteria will be examined and individual development will continue to be emphasized.

Prerequisite: ART-270 minimum grade of C.

ART-371. Ceramics III. 3 Hours.

This advanced ceramics course focuses on continuing the development of strong craftsmanship and knowledge of ceramic processes and techniques including developing personal clay bodies, glazes and firing kilns. Emphasis will be placed on reinforcing the principles of ceramic building techniques while exploring a personal artistic direction. This course can be repeated up to three times.

Prerequisite: ART-370 minimum grade of C.

ART-372. Ceramics IV. 3 Hours.

This advanced ceramics course emphasizes advanced ceramic processes and thematic investigations for creating relevant and meaningful work using traditional and non-traditional approaches to clay. This class focuses on the development of an independent artist's practice through open assignments designed to engage students in self-directed research of conceptual themes and advanced technical processes. This course can be repeated up to three times.

Prerequisite: ART-371 minimum grade of C.

ART-373. Metals And Jewelry II. 3 Hours.

This advanced metals and jewelry course will emphasize intermediate construction processes used in metalsmithing and jewelry. Students will continue to work on issues of design, function and concept.

Prerequisite: ART-273 minimum grade of C.

ART-374. Metals And Jewelry III. 3 Hours.

This advanced metals and jewelry course will emphasize advanced metalsmithing and jewelry techniques and modes of personal expression. Students will demonstrate the ability to arrive at unique design solutions and are expected to begin developing a personal voice. This course may be repeated up to three times.

Prerequisite: ART-373 minimum grade of C.

ART-375. Metals And Jewelry IV. 3 Hours.

This advanced metals and jewelry course emphasizes critical thinking skills, the synthesis of conceptual ideas and the notion of intentionality in finished work. This course may be repeated up to three times.

Prerequisite: ART-374 minimum grade of C.

ART-379. Interactive Arts: Web I. 3 Hours.

This course is an introduction to the design processes and web code languages essential for building websites and creating art on the web. Course projects will center on current web design best practices, contemporary standards and will cover how to write syntactically correct HTML5 and CSS3. Students will gather information, explore potential concepts, and iterate on design mockups in order to design and implement responsive web projects, which address User Interface and User Experience.

ART-380. Interactive Arts: Web II. 3 Hours.

Interactive Arts: Web II focuses on advanced modes of web interaction and User Experience/User Interface design. Students will expand their code knowledge to include PHP, AJAX and XML, with a focus on SASS and JavaScript. Students will be introduced to libraries, plugins and APIs, which allow for advanced control and creativity with web projects, including Dom and data manipulation, object oriented programming, and advanced animation. Students will navigate advanced programming concepts while iterating solutions with design thinking. Course projects will engage experimental & emerging approaches to design on the web, interactive pieces of net art, sequential animations and web apps.

ART-381. Studio In Graphic Design. 3 Hours.

Through a combination of digital and analog media, students will create applied design projects and discuss principles involved in the thought process, creation and production of a design project. Suggested readings supplement the class experience. This course may be repeated up to three times.

Prerequisites: ART-281 minimum grade of C and ART-284 minimum grade of C.

ART-384. Internship In Graphic Design. 3 Hours.

On-site experience in a design studio, design department or advertising agency observing and participating in the everyday activities and projects.

Prerequisites: ART-281 minimum grade of C and ART-284 minimum grade of C.

ART-3841. Internship In Graphic Design. 1 Hour.

On-site experience in a design studio, design department or advertising agency observing and participating in the everyday activities and projects.

ART-3842. Internship In Graphic Design. 2 Hours.

On-site experience in a design studio, design department or advertising agency observing and participating in the everyday activities and projects.

ART-3843. Internship In Graphic Design. 3 Hours.

On-site experience in a design studio, design department or advertising agency observing and participating in the everyday activities and projects.

ART-385. Web Design. 3 Hours.

Studio course emphasizing the techniques, processes, and tools required to create interactive web sites using current authoring technologies. Students will be introduced to contemporary authoring and management tools.

ART-386. Interactive Arts: Form & Motion. 3 Hours.

This course will examine intermediate approaches to 3d design, digital fabrication and time-based media. Through tutorials, collaborative experimentation and guided studio time, this course encourages students to experiment with new media technology and collaborative approaches to reach new audiences. Course projects are multidisciplinary in nature and are supplemented by the tools available in the Make Space, which students will be trained on at the beginning of the course. Guest lectures and readings will provide a cultural and technical framework for process-based projects. This course is open to novices and to those seeking to expand their existing studio practice.

Prerequisite: ART-130 minimum grade of C.

ART-387. Special Topics In Graphic Design. 3 Hours.

This course offers an opportunity for advanced study in the field of graphic design, focusing on one particular area within the broad spectrum of design practice. The topics examined in the class will rotate to cover a different area of focus each semester. The course is structured as a lecture and studio class offering an opportunity for in-depth analysis and practice. Topics covered include editorial design, branding and identity design, interactive design, art direction for advertising etc. This course may be repeated up to three times.

Prerequisite: ART-381 minimum grade of C.

ART-388. Typography II. 3 Hours.

Typography II focuses on advanced study of typographic form, as well as experimental approaches to typographic practice. In addition to advanced typesetting studies of multiple-page documents, students will work on customizing display typefaces, using non-traditional methods to generate unique typographic elements and exploring alternative methods for making meaning through the intersection of language and typography.

Prerequisite: ART-284 minimum grade of C.

ART-389. Print Production. 3 Hours.

This course will provide the information and techniques necessary to prepare graphics and text for professional printing. Projects will address pre-press procedures such as specifying output requirements, obtaining cost estimates, determining paper selection and performing press checks. Lecture topics cover techniques and terminology necessary for traditional and digital printing. Students will practice creating and preparing digital files for high resolution output and offset printing. The class will visit local companies involved in print production.

Prerequisite: ART-388 minimum grade of C.

ART-3901. Independent Study In Visual Art. 1 Hour.**ART-3902. Independent Study In Visual Art. 2 Hours.****ART-3903. Independent Study In Visual Art. 3 Hours.****ART-3911. Internship In Art. 1 Hour.**

On-site experience in commercial or fine art studio observing and participating in everyday activities and projects. Course can be repeated up to a maximum of 6 credits of internship. Prereq.: A 300 level art course in the medium related to the internship.

ART-3912. Internship In Art. 2 Hours.

On-site experience in commercial or fine art studio observing and participating in everyday activities and projects. Course can be repeated up to a maximum of 6 credits of internship. Prereq.: A 300 level art course in the medium related to the internship.

ART-3913. Internship In Art. 3 Hours.

On-site experience in commercial or fine art studio observing and participating in everyday activities and projects. Course can be repeated up to a maximum of 6 credits of internship. Prereq.: A 300 level art course in the medium related to the internship.

ART-394A. Writing Intensive Program: Professional Practices In Graphic Design 2. 1 Hour.

Professional Practices is three-part series of one-credit courses that are to be taken in sequence. This course will introduce students to general business practices that are prevalent in the graphic design field. Topics to be covered are professional portfolio presentation skills, freelance business skills, marketing strategies, joining professional organizations, online portfolio development, writing job application materials and understanding the Chicago job market. This course is required for all graphic design majors and fulfills the university writing intensive requirement within the major.

Prerequisite: ART-294 minimum grade of C.

ART-394B. Writing Intensive Program: Professional Practices In Graphic Design 3. 1 Hour.

Professional Practices is three-part series of one-credit courses that are to be taken in sequence. This course will introduce students to general business practices that are prevalent in the graphic design field. Topics to be covered are professional portfolio presentation skills, freelance business skills, marketing strategies, joining professional organizations, online portfolio development, writing job application materials and understanding the Chicago job market. This course is required for all graphic design majors and fulfills the university writing intensive requirement within the major.

Prerequisite: ART-394A minimum grade of C.

ART-394C. Senior Exhibition In Graphic Design. 2 Hours.

All students pursuing a BFA degree in Graphic Design are required to participate in a senior exhibition, under the guidance of a graphic design faculty mentor. Students are free to select their mentor, however the department recommends that this be someone that the student has worked with in the past. Students are responsible for creating exhibition level projects in cooperation with their faculty mentors in order to receive a passing grade. The final projects should have a specific, well-conceived theme, direction and intent and demonstrate the formal skills learned during the pursuit of a BFA in Graphic Design.

Prerequisite: ART-394B minimum grade of C.

ART-395. Writing Intensive Program: Professional Practices In Studio Art. 3 Hours.

This writing intensive course will introduce students to writing and general business practices that are applicable to a career in the visual arts. The course will cover such topics as: resume building, grant writing, statement writing, application writing for galleries, internships and residencies as well as other methods for sustaining a career in the visual arts. This course is an investigation, discussion and evaluation of what it means to live and work as an artist now and examines research strategies for both professional activities and personal artistic growth. Required for all Art majors with a concentration in Studio Art.

Prerequisite: ENGL-101 minimum grade of C.

ART-396. Senior Seminar And Exhibition. 3 Hours.

Senior Seminar and Exhibition is a required capstone course for all Art majors with a concentration in Studio Art and will guide students to prepare and complete their senior exhibition. This course provides a studio-based experience with intensive critique sessions to facilitate the completion of the student's final body of work and offers the benefit of concentrated faculty input as well as critical dialogue among peers. Students will explore the concepts, theories, influences and experiences that inform and support the self-directed work they present for review up to and in their senior solo exhibition.

Prerequisite: ART-395 minimum grade of C.

ART HISTORY

ARTH-101. Art And Society. 3 Hours.

Study the function of art in a variety of cultures with specific reference to American culture. Application of insights gained through inter-cultural analysis of contemporary issues. Slide lectures, films, gallery and museum visits.

ARTH-106. Introduction To Art History I. 3 Hours.

A survey of the visual arts from ancient to medieval times, emphasizing the major styles in their historical contexts. Introduces the basic qualities of each medium, the descriptive and critical vocabulary of art history, and the concepts of style, subject matter and content in the visual arts. Topics include the patronage of, and audience for, art; the changing social status of the artist; and the social, political and religious functions of art and architecture. Slide lectures and museum assignments.

ARTH-107. Introduction To Art History II. 3 Hours.

A survey of the visual arts from ancient to medieval times, emphasizing the major styles in their historical contexts. Introduces the basic qualities of each medium, the descriptive and critical vocabulary of art history, and the concepts of style, subject matter and content in the visual arts. Topics include the patronage of, and audience for, art; the changing social status of the artist; and the social, political and religious functions of art and architecture. Slide lectures and museum assignments.

ARTH-202. Writing Intensive Program: Methods Of Research In Art History. 3 Hours.

This course is a focused and in-depth study of art historical research and methodology. It includes a critical review of the history of art historical studies, presentations on research methods for primary and secondary resources, and a systematic consideration of art historical methodology. Special attention is given to the critical and theoretical approaches of the "new" art history. The course is conducted in an informal seminar format with slide presentations and classroom discussions of artworks and required readings. It fulfills the university writing intensive requirement within the major.

Requirement: one 300-level ARTH course minimum grade of C

Prerequisites: ENGL-101 minimum grade of C and ARTH-106 minimum grade of C and ARTH-107 minimum grade of C.

ARTH-300. Contemporary Art. 3 Hours.

This course examines American and European painting, sculpture, and related artworks from 1950 to the present. The major artists and styles of the period are presented chronologically and discussed in the context of contemporary culture and events. Other topics include the development of new media, the relationship of art to politics, the major critical and theoretical approaches to contemporary art, the concept of postmodernism in the visual arts, and the rise of the art market and its relationship to the avant-garde.

ARTH-305. Ancient Mesoamerican Art & Architecture. 3 Hours.

This course introduces students to the art and architecture of ancient civilizations of Mesoamerica. We will discuss the art of the Olmec, Teotihuacan, Maya, and the Aztec Empire. The course focuses on the styles and iconography of these civilizations and takes an interdisciplinary approach to examine the function and symbolism of the works.

ARTH-306. Ancient South American Art & Architecture. 3 Hours.

This course is an introduction to the art of the ancient civilizations that inhabited the Andean region (primarily Peru, Ecuador, and Bolivia). Since these cultures did not develop a written language, information about their worldview and religious practices comes from their art and the archaeological record. The course focuses on the styles and iconography of these civilizations and takes an interdisciplinary approach to examine the function and symbolism of the works.

ARTH-306T. Peru Study Tour. 3 Hours.

This course is designed as a seminar that culminates in a Study Tour to Peru. Students will be able to explore the arts in Lima and Cusco while discussing important issues regarding the establishment of museum collections, the looting of ancient objects, the production of art forgeries, and the role of ancient art in Peruvian tourism.

ARTH-307. Art Of Latin America (1810-Present). 3 Hours.

This course covers the art of Latin America from the period of Independence to the present. The focus will be primarily on the arts of Mexico and South America, although some time will be dedicated to movements in Cuba and Haiti as well. Topics include: Romanticism in Latin America, Modernismo, Mexican Muralism, Indigenismo, Constructivism, Surrealism, Concrete and Neo-Concrete Art, Geometric art, Optical and Kinetic art, Conceptual and Political Art, and contemporary issues.

ARTH-308. Art And Ritual: African, Oceanic, And Native North American Art. 3 Hours.

This is an interdisciplinary course that will engage students in the study of artistic traditions outside of the Western world. Students will examine the relationship between art and ritual through specific case studies, with an emphasis on African, Oceanic, and Native North American traditions. Topics may include: art and rites of passage, masking and performance, and the use of objects as mediators with the supernatural realm.

ARTH-309. Asian Art. 3 Hours.

This course focuses on the arts of India, China and Japan. Lectures discuss representative works in painting, sculpture, architecture, calligraphy and decorative arts from each of these areas as well as the cultural and historical context in which they were created.

ARTH-310. Early Christian And Byzantine Art. 3 Hours.

Study of the arts from the early Christian period to the end of the Byzantine Empire in the east: stylistic and iconographic development of architecture, painting, sculpture, manuscript illustration and minor arts in context of contemporary politics and religion.

ARTH-311. Medieval Art of the West. 3 Hours.

This course examines the history of medieval western European art and architecture from the sixth to the fifteenth century. The major works, styles, and regions of this period are presented chronologically and discussed within the context of the culture and events of the day. Individual works of art are analyzed for style, subject matter, iconography, and content. Works of architecture are analyzed for style, function, materials, and structure. Special attention is given to the political and religious institutions, the religious and philosophical trends, and the social structures that shaped medieval art, architecture, and aesthetic theory.

ARTH-312. Italian Renaissance Art. 3 Hours.

This course focuses on the history of Italian art from the fourteenth century to the early sixteenth century. The major artists, styles, and regions are presented chronologically and considered within the context of the culture and events of the day. Individual works of art are analyzed for style, subject matter, iconography, and content. The social status of the artist and the patronage of works of art during this period are discussed, and special attention is given to the political and religious institutions, the religious and philosophical trends, and the social structures that shaped Italian Renaissance art and aesthetic theory.

ARTH-312T. Study Tour In Italy: Venice, Florence, Rome. 3 Hours.

This course focuses on Italian art from 1300 to 1550. It includes a two-week study tour to Venice, Florence, and Rome. The major artists, styles, and regions are presented chronologically and considered within the context of the culture and events of the day. Individual works of art are analyzed for style, subject matter, iconography, and content. The social status of the artist and the patronage of art during this period are discussed, and special attention is given to the political and religious institutions, the religious and philosophical trends, and the social structures that shaped Italian Renaissance art and aesthetic theory.

ARTH-313. Art Of The United States Of America. 3 Hours.

This course examines the history of painting and sculpture in the United States from colonial times to World War II. The major artists and styles are presented chronologically and considered within the context of the culture and events of the day. Individual works of art are analyzed for style, subject matter, iconography, and content. The changing roles of artists and patrons are discussed, along with the complex relationship of American art to European art and culture. Special attention is given to the political institutions, the religious and philosophical trends, and the social structures that shaped American art and aesthetic theory.

ARTH-316. Seventeenth Century European Art. 3 Hours.

This course examines the history of European painting and sculpture of the seventeenth century. The major works, artists, styles, and regions are presented chronologically and discussed within the context of the culture and events of the day. Individual works of art are analyzed for style, subject matter, iconography, and content. The social status of the artist, the mechanisms of patronage, and the location and function of works of art are discussed. Special attention is given to the political and religious institutions, the religious and philosophical trends, and the social structures that shaped the art and aesthetic theory of the period.

ARTH-318. 19th Century European Art. 3 Hours.

This course investigates the history of nineteenth-century western European painting and sculpture. The major works, artists, styles, and countries are presented chronologically and discussed within the context of the culture and events of the day. Individual works of art are analyzed for style, subject matter, iconography, and content. The rise of the avant-garde, the decline of the art academies, and the beginnings of the commercial gallery system are discussed. Special attention is given to the political institutions, the philosophical and intellectual trends, and the social structures that shaped nineteenth-century European art and aesthetic theory.

ARTH-319. European Art 1900-1950. 3 Hours.

This course focuses on European painting and sculpture from 1900 to 1950. The major works, artists, styles, and countries are presented chronologically and discussed within the context of the culture and events of the day. Individual works of art are analyzed for style, subject matter, iconography, and content. The rise of the avant-garde is discussed, as are the decline of the traditional art academies, the beginnings of the commercial gallery system, and the introduction of new media. Special attention is given to the political circumstances, the intellectual trends, and the historical events that shaped the art and aesthetic theory.

ARTH-360. History Of Photography: 1820's To Present. 3 Hours.

Students investigate the history of photography, including social, aesthetic, theoretical, and technical aspects, through lectures, discussions, field trips to relevant photographic exhibitions, readings, group projects, writing assignments, and/or exams.

ARTH-3901. Independent Study In Art History. 1 Hour.

Independent Study is available for juniors and seniors who are prepared to formulate and execute an independent research project in Art History, working under the direction of a faculty member. Students are expected to write a research paper. Independent Studies require the approval of a faculty mentor, the Art Department chair and the College Dean.

Requirement: at least one 300-level ARTH course

Prerequisites: ARTH-106 minimum grade of C and ARTH-107 minimum grade of C.

ARTH-3902. Independent Study In Art History. 2 Hours.

Independent Study is available for juniors and seniors who are prepared to formulate and execute an independent research project in Art History, working under the direction of a faculty member. Students are expected to write a research paper. Independent Studies require the approval of a faculty mentor, the Art Department chair and the College Dean.

Requirement: at least one 300-level course

Prerequisites: ARTH-106 minimum grade of C and ARTH-107 minimum grade of C.

ARTH-3903. Independent Study In Art History. 3 Hours.

Independent Study is available for juniors and seniors who are prepared to formulate and execute an independent research project in Art History, working under the direction of a faculty member. Students are expected to write a research paper. Independent Studies require the approval of a faculty mentor, the Art Department chair and the College Dean.

Requirement: at least one 300-level course

Prerequisites: ARTH-106 minimum grade of C and ARTH-107 minimum grade of C.

ARTH-3931. Art History/ Museum Studies Internship. 1 Hour.

This internship allows students to get supervised professional experience in an art museum, gallery, or arts center. Hands-on experience may include: art handling, cataloguing, exhibition installation, research, acting as docents for exhibitions, writing and editing informational materials, press releases, and proposals, as well as participating in the daily operations of a museum, gallery, or arts center. The course can be repeated up to a maximum of 6 credits.

Requirement: the approval of the instructor and the department chair, and the consent of the museum, gallery, or arts center staff

Prerequisites: ARTH-106 minimum grade of C and ARTH-107 minimum grade of C.

ARTH-3932. Art History/ Museum Studies Internship. 2 Hours.

This internship allows students to get supervised professional experience in an art museum, gallery, or arts center. Hands-on experience may include: art handling, cataloguing, exhibition installation, research, acting as docents for exhibitions, writing and editing informational materials, press releases, and proposals, as well as participating in the daily operations of a museum, gallery, or arts center. The course can be repeated up to a maximum of 6 credits.

Requirement: the approval of the instructor and the department chair, and the consent of the museum, gallery, or arts center staff

Prerequisites: ARTH-106 minimum grade of C and ARTH-107 minimum grade of C.

ARTH-3933. Art History/ Museum Studies Internship. 3 Hours.

This internship allows students to get supervised professional experience in an art museum, gallery, or arts center. Hands-on experience may include: art handling, cataloguing, exhibition installation, research, acting as docents for exhibitions, writing and editing informational materials, press releases, and proposals, as well as participating in the daily operations of a museum, gallery, or arts center. The course can be repeated up to a maximum of 6 credits.

Requirement: the approval of the instructor and the department chair, and the consent of the museum, gallery, or arts center staff

Prerequisites: ARTH-106 minimum grade of C and ARTH-107 minimum grade of C.

Major in Art (Art History)

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Major in Art (Art History)

Art majors in the Art History concentration must complete 39 credit hours of the following courses:

Code	Title	Hours
Art History Concentration Requirements		
15 Hours of Core Requirements:		
ARTH-106	Introduction To Art History I	3
ARTH-107	Introduction To Art History II	3
ART-120	Drawing I	3
ART-130	Two-Dimensional Design	3
ART-140	Three Dimensional Design	3
Writing Intensive Requirement		
ARTH-202	Writing Intensive Program: Methods Of Research In Art History	3
Additional Requirements		
Select 21 hours of 300 level art history courses		21
Total Hours		39

In addition, there must be a demonstration of reading competence in a foreign language approved by the advisor or 6 credit hours of a foreign language.

This sample curricular map is provided to guide you in the planning of your progression for this major. This guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor.

3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Major in K-12 Art Education

All undergraduate students majoring in Art Education must be admitted to the College of Education. Students must complete 54 credit hours in Art, specific general education requirements, and the College of Education professional K-12 requirements. (Refer to the College of Education's section on Teacher Education for additional details.)

Code	Title	Hours

Major in Graphic Design

The Bachelor of Fine Arts in Graphic Design is an applied arts program with a focus on the development of visual solutions to communication problems, and offers students guided hands-on experience in the creation of visual messages in print and electronic media through the use of type, color, photography, animation and various other techniques. In addition, students will receive a broad historic and theoretical understanding of Graphic Design. Career opportunities in advertising, marketing, publishing, branding and interactive services will be introduced to students and special attention will be paid to establishing a relationship with the local design community.

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Bachelor of Fine Arts in Graphic Design

Admission Requirements to the program

To be admitted to BFA in Graphic Design, students must complete the following courses with a 3.0 GPA or higher and undergo a portfolio evaluation. Applicants to the program must have a 2.5 or higher overall university grade point average. Students are admitted in the fall semester of each year only and must submit all materials (including the portfolio) for fall admission during the spring semester of their sophomore year.

Code	Title	Hours

Minor in Art History Requirements		
ARTH-106	Introduction To Art History I	3
ARTH-107	Introduction To Art History II	3
Select four courses at the 300-level in Art History in consultation with an an advisor		12
Total Hours		18

Minor in Interaction Design

Through intensive skill building and guided studio and collaborative projects, students will develop processes and approaches applicable to various forms of making within the field of interactive/digital media. Coursework focuses on the integration of digital media and design through aesthetics, usability and creativity. Required courses cover skills in web programming, design for interaction, UX/UI design, new and alternative media, machine language, computer vision, digital fabrication and physical computing. Students will have opportunities to design and fabricate cross-disciplinary products while embracing an interdisciplinary approach to making through various languages, processes and terminologies in a variety of disciplines.

Admission Requirements:

- A minimum cumulative GPA of 2.5
- Successful completion of ART 234: Digital Foundations with a minimum grade of C
- Successful completion of ART 280: Art + Tech I with a minimum grade of C

University Core Curriculum Requirements

Minor in Photography

Students in the Photography Minor acquire technical skills in digital imaging, photographic lighting, and traditional and alternative processes. The curriculum emphasizes individual artistic development while integrating the history of photography and critical theory. Students are given the tools to create visually compelling photographs that communicate their artistic ideas.

Admission Requirements:

- A minimum cumulative GPA of 2.5
- Complete Art 130 (2D Design) with a minimum of C
- Complete Art 261 (Photography I) with a minimum of C (or ART 170A - Studio Experiences: Photography)

University Core Curriculum Requirements

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Minor in Asian Studies (18 credit hours)

1. Courses selected to complete this minor
 - a. must be chosen from two or more academic disciplines,
 - b. must include at least 12 hours in 300-level courses,

- c. must cover material about more than one Asian country,
and
 - d. cannot be counted toward meeting requirements for any other major or minor.
- 2. The student must secure the approval of the Program Coordinator for the list of courses selected to complete the minor. This approval should be requested well before the completion of the courses themselves.

Biology

The Department of Biology currently offers courses of study leading to the degrees of Bachelor of Science and Master of Science. The broadly-based requirements of the major are designed to prepare students for:

1. advanced studies in biology, biomedical sciences, environmental biology, ecology and applied ecology;
2. professional training in medicine, dentistry, optometry, chiropractic, pharmacy, veterinary medicine and other health professions;
3. teaching of biology in secondary schools; or
4. career opportunities in research, biomedical sciences, agriculture, industry, government, and academic institutions.

The graduate program leading to the Master of Science degree is also flexible, and can meet the needs of:

1. students seeking additional training and/ or research experience in order to obtain employment that requires post-baccalaureate training,
2. current high-school teachers and other professionals who seek advancement in their careers or who want to stay current in the field, and
3. students interested in completing an M.S. before going on to a doctoral program.

Students interested in completing a major in biology are strongly urged to declare the major early and seek advisement from a departmental advisor.

It is particularly important to note that students who complete the major in Biology are exempted from having to take any courses in the Natural Sciences distribution area of the General Education Program.

In addition, students should be aware that a maximum of 18 credit hours of biology courses can be accepted toward the Biology Major in transfer credits, and a maximum of three courses can be transferred to satisfy biology electives. A maximum of 9 credit hours of transfer credits can be accepted toward the Biology Minor (in practice three courses). In order for introductory biology courses taken at another institution to be accepted in place of BIO-201 or BIO-202, they must be specifically designated as being courses for Biology majors. Students seeking to transfer courses from other institutions should have their coursework evaluated by an advisor in Biology at the time they declare the major or minor.

NOTE – Beginning in the Fall semester of 2007:

In order to register for Biology courses which apply toward the Major or Minor, students must demonstrate proficiency in Reading Comprehension, Writing, and Math and be eligible to register for College Level courses in these subjects. Students may demonstrate proficiency by placing into College Level courses on the Accuplacer Tests offered through Testing Services at NEIU; by completing appropriate coursework with a “C” or better; or through ACT scores. Please see pre-requisites for BIO-150 (<http://catalog.neiu.edu/archive/2019-2020/search/?P=BIO-150/>) for a complete list of how these proficiencies can be satisfied.

Students are encouraged to take ENGL-101, ENGL-102, CHEM-211 as early as possible in their academic careers as successful completion of both ENGL courses is required for WIP: General Ecology (a core course), and CHEM-211 is required for Cell Biology (another core course). Likewise, completing MATH-187 or MATH-275 early on will help students with the quantitative aspects of many Biology courses, and MATH-187 will satisfy the pre-requisite requirement for the Physics courses that are required by the major.

- Major in Biology (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/biology/biology/>)
- Minor in Biology (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/biology/minor-biology/>)
- Master of Science in Biology (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/biology/master-science-biology/>)

John M. Kasmer, Ph.D., Associate Professor, Chair
 Elyse Bolterstein, Ph.D., Assistant Professor
 Jorge Cantú, Ph.D., Assistant Professor
 Pamela Geddes, Ph.D., Associate Professor
 Shubhangee Mungre, Ph.D., Professor
 Joel Olfelt, Ph.D., Professor
 Beth A. Reinke, Ph.D., Assistant Professor
 Emily Rumschlag-Booms, Ph.D., Associate Professor
 Aaron Schirmer, Ph.D., Associate Professor
 Jennifer Slate, Ph.D., Professor
 Michael Stern, Ph.D., Professor
 Emina Stojkovi#, Ph.D., Professor
 John N. Thomas, Ph.D., Associate Professor
 Cindy Voisine, Ph.D., Associate Professor

BIO-100. Introduction To Biology. 3 Hours.

This course addresses the problems of living things with emphasis on human physiology and the propagation of life, covering major biological concepts and principles. The course consists of lectures and labs; labs include required dissection. (the course does not fulfill major or minor requirements in biology.).

BIO-104. The Changing Natural Environment. 3 Hours.

A biological approach to understanding the natural environment. This course introduces basic ecological principles including biogeochemical cycling, energy flow, the origins of biodiversity, and population growth; considers how humans interact with natural systems; examines the origins of contemporary environmental issues, including the role of humans in contributing to environmental changes; and explores potential solutions to environmental issues that are based on biological and ecological principles. Lecture only. (Does not fulfill major or minor requirements in biology.).

BIO-105. Environmental Biology Lab. 1 Hour.

This course provides a field and laboratory experience to accompany the M&S Concepts Minor Section of "Changing Natural Environment". Data collected in the field and laboratory will be used for analysis in the paired MATH-147 course in statistics and probability. The field and lab course will focus on the process of science-from exploratory and inquiry based laboratory field work to scientific communication and presentation skill. Technology will be threaded throughout the course. Topics include diversity and viability in nature, ecosystem services, and flows of matter and energy. This course is linked to BIO-104 and MATH-147.

Prerequisites: (BIO-100 minimum grade of C or BIOL-100 minimum grade of C) and (MATH-180 minimum grade of C or MATH-199A minimum grade of C).

BIO-109A. First Year Experience: Alien Invasions Of Chicago. 3 Hours.

Global trade and travel has been responsible for spreading microbes, plants and animals across great distances and previously insurmountable barriers, and many of these species, once introduced into a new area become ecological invaders. Species that become invasive have strong negative impacts, both economic and ecological, so a great deal of resources are dedicated to controlling or removing them. This course will survey the diversity of species that have invaded ecological communities in the Chicago area, look at the factors that allowed them to become invasive, look at the ways in which these invaders have had negative ecological and economic impacts in the region, and review examples of how ecological principles have been and are being applied to control them. Students will meet with local experts in the field, in order to get first-hand experience with some of the more infamous invasive species and see Chicago from the perspective of urban ecologists.

BIO-150. Essential Skills For Biologists. 2 Hours.

A practical approach to providing students with the basic skill they will be expected to have in upper-division biology courses, including lab safety; methods and units of scientific measurement; scientific record-keeping, communication and library research skills; and summarizing and presenting data. Lecture and laboratory with a significant web-based component.

Prerequisites: (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 45 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120) and (ESL-120 or ELP-099 or NEIU English Placement Writing 7 - 9 or ENGL-101 - 102 or (Accuplacer WritePlacer 4 and Accuplacer Sentence Skills 095 - 120) or (Accuplacer WritePlacer 5 - 8 and Accuplacer Sentence Skills 020 - 120)) and (READ-095 - 116 or ACT Reading 20 - 36 or NEIU English Placement Reading 5 - 9 or Accuplacer Reading Comp 080 - 120).

BIO-199. Topics In Teaching Middle School Biology. 4 Hours.**BIO-201. General Biology I. 4 Hours.**

The first course of our introductory biology series focuses on the organismal aspects of biology, including: the basic structure of animal and plant cells; intracellular organelles; metabolic pathways; the cell cycle; and basic genetics. Laboratory exercises emphasize scientific method and writing, and include experience with basic techniques such as microscopy, biological assays, and gel electrophoresis. Lecture and laboratory.

Prerequisites: (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 45 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120) and (ESL-120 or ELP-099 or NEIU English Placement Writing 7 - 9 or ENGL-101 - 102 or (Accuplacer WritePlacer 4 and Accuplacer Sentence Skills 095 - 120) or (Accuplacer WritePlacer 5 - 8 and Accuplacer Sentence Skills 020 - 120)) and (READ-095 - 116 or ACT Reading 20 - 36 or NEIU English Placement Reading 5 - 9 or Accuplacer Reading Comp 080 - 120).

BIO-202. General Biology II. 4 Hours.

In this second course of our introductory biology series we introduce the diversity of life in the context of evolutionary theory, studying biological processes at levels of organization ranging from populations to ecosystems. Laboratory exercises emphasize scientific method and writing and include surveys of major groups of organisms and dissections. Lecture and laboratory.

Prerequisites: BIO-150 minimum grade of C and (BIO-201 minimum grade of C or BIOL-102 minimum grade of C).

BIO-299. Ecology Concepts. 3 Hours.

This course provides a foundation in core ecology concepts as they relate to the practice of middle school teaching. A quantitative perspective will be stressed and topic will be analyzed using tools from calculus, technology, concept and agent modeling whenever possible. Course will focus on scientific inquiry methodology and process, from exploratory and inquiry-based laboratory and field work to scientific communication and presentation skills. Topics include population growth, competition, and flows of matter and energy. This course is linked to MATH-380.

Prerequisites: BIO-100 minimum grade of C or BIOL-100 minimum grade of C and (BIO-104 minimum grade of C or BIOL-104 minimum grade of C) and (MATH-380 minimum grade of C or MATH-199X minimum grade of C).

BIO-301. Cell Biology. 4 Hours.

Basic molecular and cellular processes. Structures of biomolecules. Energetics: enzymes, photosynthesis, respiration. Genetic control: chromatin, DNA replication, RNA transcription and regulation, protein synthesis. Cell functions, including: protein secretion; cell membrane structure; transport and surface interactions; cell cycle; cell motility; cell growth; cell origins. Lecture and laboratory.

Prerequisites: (BIO-201 minimum grade of C or BIOL-102 minimum grade of C) and BIO-150 minimum grade of C and CHEM-211 minimum grade of C.

BIO-303. General Genetics. 4 Hours.

This course is designed to provide students with a comprehensive background in genetics including classical/Mendelian genetics, bacterial and phage/viral genetics, the chromosomal and molecular basis of heredity, and population genetics. Lecture and laboratory.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C.

BIO-305. Writing Intensive Program:General Ecology. 4 Hours.

An introduction to the basic concepts of ecology. Study of the factors/interactions that determine the distribution and abundance of species at the individual, population, community, and ecosystem levels. You will satisfy the writing intensive requirement by writing in a variety of discipline-specific formats. Lecture, laboratory, and fieldwork, with up to two field trips scheduled on a Friday, Saturday, or Sunday.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C and ENGL-101 minimum grade of C and ENGL-102 minimum grade of C.

BIO-307A. Interdisciplinary Research Skills I. 3 Hours.

This course provides an introduction to a set of topics that are at the forefront of research in the sciences. The course is structured around a series of modules, each covering a topic that is among the most significant in the fields of Biology, Mathematics and Psychology (see course schedule below). The modules, while complete in themselves, will also draw connections between scientific disciplines, and explore the inter-relationships between them.

BIO-308. Interdisciplinary Research Skills II. 3 Hours.

In this second course of our research skills series we introduce a set of topics that are at the forefront of research in the natural sciences with emphasis on quantitative analysis and interpretation of research articles. The course is structured around a series of modules, each covering a topic in the fields of Biology and/or Mathematics. The modules, while complete in themselves, will also draw connections between scientific disciplines, and explore the inter-relationships between them. The modules will vary depending on the assigned faculty to teach this course.

Prerequisite: BIO-307A minimum grade of C or BIO-307 minimum grade of C.

BIO-310. Evolution. 3 Hours.

A reading/lecture/discussion course on the facts, theories and principles of organic evolution. Lecture only.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C.

BIO-311. History of Science. 3 Hours.

Development of the scientific method and knowledge of the natural sciences from ancient civilization to the present. Lecture only.

BIO-312. Foods And Drugs: Biology And Society. 3 Hours.

This course explores the biological effects of food and drugs. Topics include, but are not limited to, the structures, types, and metabolism of various macronutrients (carbohydrates, fats, proteins) and legal and illegal substances (opioids, alcohol, cannabinoids). The course also covers relevant aspects of human physiology; the role of foods and drugs in causing, treating, and preventing disease; and critiques of current and historical views on food and drugs.

BIO-318. Human Anatomy And Physiology I. 4 Hours.

This is the first course in a two course series of human anatomy and physiology. It will provide a foundation of anatomical terms and explain structure-function relationships of tissues and organs. The course will focus on the anatomy and physiology of integumentary, skeletal, muscular and nervous systems. Interaction and regulation of various systems to maintain homeostasis will be studied. In the lab component, students will get hands on experience with a human cadaver. They will examine and identify each system studied in class. Wherever possible, histology of tissues will be studied. Pathological conditions of each system will be discussed, including recent advances in treatment.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C and BIO-301 minimum grade of C.

BIO-319. Human Anatomy And Physiology II. 4 Hours.

This is the second course in a two course series of human anatomy and physiology. The course will focus on the anatomy and physiology of respiratory, circulatory, digestive, urinary, reproductive and endocrine systems. Interaction and regulation of these systems to maintain homeostasis will be studied. In the lab component, students will study human cadaver as well as anatomical models. Wherever possible, histology of tissues will be studied. Pathological conditions of each system will be discussed, including recent advances in treatment.

Prerequisites: BIO-318 minimum grade of C and BIO-301 minimum grade of C.

BIO-320. Animal Kingdom. 4 Hours.

Anatomy, physiology, classification and phylogeny of animals. Lecture and laboratory.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C.

BIO-322. Invertebrate Zoology. 4 Hours.

Taxonomy and comparative morphology of the major phyla of invertebrates, organisms that comprise about 95% of animal life. Topics include life histories of representative species. Lecture and laboratory.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C.

BIO-323. Entomology. 4 Hours.

Insects, their identification, classification, habits and ecological relationships with special emphasis on those common to the Chicago area. Lecture, laboratory and fieldwork.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C.

BIO-324. Ornithology. 4 Hours.

Birds, their identification, classification, habits and ecological relationships with special emphasis on those common to the Chicago area. Lecture, laboratory and fieldwork.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C.

BIO-325. Local Fauna. 4 Hours.

Taxonomy and field identification characteristics of local animal groups with emphasis on collecting organisms in selected ecosystems in the region. Both major invertebrate and vertebrate taxa are surveyed; organisms collected in the field are studied in the laboratory. Student prepare a collection of labeled organisms. Lecture, laboratory and fieldwork.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C.

BIO-326. Animal Parasitology. 4 Hours.

Taxonomy, anatomy, physiology and significance of parasitic animals; host-parasite interactions; distribution of parasites throughout the world; examination of their life cycles, and prophylaxis and therapy of parasitic infections. Lecture and laboratory.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C.

BIO-327. Mammalian Anatomy. 4 Hours.

Gross architectural elements of the mammalian body, with emphasis upon correlation of form and function. Lecture and laboratory.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C.

BIO-328. Animal Behavior. 3 Hours.

Comparative ethology in the animal kingdom and its adaptive significance based upon the evolution of form and function of the nervous system, sense organs and effector organs. Topics include instinct, learning, intelligence, social organization and their physiological integrating mechanisms. Lecture only.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C.

BIO-330. Plant Anatomy And Morphology. 4 Hours.

Plants are a diverse and important group of organisms. In this course students compare the morphology and anatomy of vascular and nonvascular plants, use scientific method to answer a question about plants using microscopy and other anatomical or morphological techniques, and communicate results of their studies to classmates. The course includes instruction in plant identification techniques and in taxonomic methods. Lecture and laboratory.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C.

BIO-331. Plant Physiology. 4 Hours.

Physiochemical basis of plant life, emphasizing life processes of major significance to the seed plants. Lecture and laboratory.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C and BIO-301 minimum grade of C.

BIO-332. Local Flora. 4 Hours.

The study of local plant species, with emphasis on phylogenetic relationships, systematics, ecological relationships and economic or ethnobotanic uses. Focus will be on species that are flowering during the semester that the course is taught, usually summer or fall. Lecture, laboratory and field trips.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C.

BIO-333. Economic Botany. 3 Hours.

Plants of particular economic significance to humans as sources of food, fibers, flavoring agents, drugs and industrial chemical; horticultural plants; the role of economic plants in past and modern society. Lecture Only.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C.

BIO-334. General Mycology. 4 Hours.

The study of fungi, a distinct kingdom of unicellular and filamentous organisms, Fungi have tremendous ecological importance playing essential roles as decomposers as well as parasites and symbionts. Fungi also have significant economic importance in the food and beverage industries. This course covers all aspects of fungal biology, including laboratory culture, natural history, morphogenesis, genetics and physiology. Lecture and laboratory.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C.

BIO-340. Molecular Biology. 4 Hours.

This course is designed for upper level undergraduates and builds on Genetics and Cell Biology. Molecular biology is rapidly advancing the fields of biomedical sciences and agricultural sciences. Understanding the chemistry of DNA, RNA and proteins has allowed scientists in biomedical and agricultural sciences the ability to manipulate these macromolecules to more fully understand cellular functions, treat human diseases and engineer more viable crops and live stock. This course is designed to provide students with a broad understanding of molecular biology as well as teach modern molecular biology techniques routinely used in research labs, forensics labs and hospital diagnostic labs. Lecture and Laboratory.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C and BIO-301 minimum grade of C and BIO-303 minimum grade of C.

BIO-341. General Microbiology. 4 Hours.

Study of the taxonomy and identification, ultrastructure and function, nutrition and growth, physiology, metabolism, molecular genetics, host-microbial interactions, immunology ecology and biotechnology of microorganisms and viruses. Lecture and laboratory.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C and BIO-301 minimum grade of C.

BIO-342. Pathogenic Microbiology. 3 Hours.

Systematic study of the distinctive cellular and molecular properties of pathogenic microorganisms including bacteria, fungi, viruses and protozoans.

Mechanisms of infection, diagnosis, treatment and control of these microorganisms. Lecture only.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C and BIO-341 minimum grade of C.

BIO-343. Virology. 4 Hours.

The course is designed to give students a background of animal, plant and bacterial viruses with further emphasis on animal viruses. Topics covered will include but are not restricted to, replication strategies and life cycle, molecular mechanisms of infection, virus host interactions, viral evasion of body's immune response and various pathological conditions. Laboratory exercises will include growth and isolation of virus, plaques assays, DNA cloning and expression of heterologous gene using a viral vector. Upon completion of the course, students will have a knowledge base useful towards medical or other health related careers. Lecture and laboratory.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C and BIO-341 minimum grade of C.

BIO-344. Vertebrate Histology. 4 Hours.

This course will focus on the basic characteristics and identification of the primary vertebrate tissues, as well as their organization into organ systems. Where appropriate microanatomy will be integrated with organ functions. Examination of microscope slides, light micrographs, and electronmicrographs of tissues and organs will be used in the study of vertebrate histology. Lecture and laboratory.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C and BIO-301 minimum grade of C.

BIO-345. Emerging Infectious Diseases. 3 Hours.

Emerging infectious diseases are those that have not previously been seen and those that are re-emerging after having been controlled. This course will provide an introduction to significant emerging infectious diseases in humans. Through a combination of lecture, discussion, and in-class activities, this course will focus on factors that contribute to emerging infectious diseases, mechanisms of disease transmission, as well as analysis of specific diseases, their associated diagnosis and prevention.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C and BIO-341 minimum grade of C.

BIO-346. Parasites And Human Health. 3 Hours.

In-depth study of the major helminth, protozoan, and arthropod parasites of humans. The course will compare these organisms to other human pathogens and provide insight into their unique historical and contemporary importance at the individual host, population, and global scales. Using a mathematical epidemiological approach, this course is designed to give students a hands-on experience with topics including transmission, pathology, immunology, and distributions of parasites within and among human hosts. The course will also provide students with a broad understanding of diagnosis, control, treatment, and prevention. Lecture. **Prerequisites:** BIO-150, BIO-201, BIO-202, BIO-305, MATH-187 OR MATH-275. BIO-326 recommended.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C and BIO-305 minimum grade of C and (MATH-187 minimum grade of C or MATH-275 minimum grade of C).

BIO-350. Plant Ecology. 4 Hours.

An introduction to how the concepts of ecology have been developed for and applied to plant systems. This course is an extension of General Ecology and emphasizes not only the ways in which general principles have been applied to plants, but also concepts and methodology unique to plants.

Lecture, laboratory and fieldwork.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C and BIO-305 minimum grade of C.

BIO-351. Phycology. 4 Hours.

By studying the biology of algae, students will examine the complex ecological interactions of algae with their environments, the roles that algae have played in the evolution of life, and the increasing uses of algae in biotechnology. There will be several sampling trips to wetlands, lakes, and streams, including a Friday or Saturday field trip outside of Cook County. Students will design and conduct original research projects involving identification and study of algal taxa. The course fulfills the undergraduate requirement for a botany elective and can also be taken for graduate credit. Lecture, laboratory, and fieldwork.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C.

BIO-352. Aquatic Biology. 4 Hours.

Students will study the biological processes that occur in freshwaters, the measurement of those processes, and the interaction of biological processes with water chemistry. Students will learn to collect quantitative ecological samples through field work in area lakes and rivers and they will analyze the biological organisms and related water chemistry of their samples upon return to the lab. Students will design and conduct original research projects. There will be several field trips, including a Friday or Saturday field trip outside of Cook County. Lecture, laboratory and fieldwork.

Prerequisites: CHEM-211 minimum grade of C and BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C.

BIO-356. Microbial Ecology. 3 Hours.

This course focuses on the essential roles played by Bacteria, Archaea, and Fungi in the world around us and within us, and is recommended for students interested in environmental science, ecology, or medicine. The course builds on fundamental biological and ecological principles; explores ways that microbial communities are similar to plant and animal communities, and ways in which they are unique; examines microbial drivers of major biogeochemical cycles and ecosystem services; characterizes relationships of microbes with other organisms; and considers the history of microbial interactions with humans, as antagonists (diseases), symbionts (microbiomes), and tools (food and biofuels). Lecture only.

Prerequisite: BIO-305 minimum grade of C.

BIO-357. Community Ecology. 3 Hours.

The course is designed for upper-level undergraduates and graduate students who are generally interested in ecology, conservation biology, and restoration ecology. Specifically, the course focuses on community ecology, an area of ecology that emphasizes how the interrelationships among several species within an area determine the structure and function of ecological communities within an ecosystem. The course explores the attributes that characterize communities as well as their organizing principles. In addition, the course covers approaches to their study and the implications they have on ecosystems. Throughout the course, examples from marine, terrestrial, and freshwater communities will be used to address the conceptual basis of the class. This class relies heavily on active discussion of primary literature (current and classic) as well as in-depth writing on selected topics.

Prerequisite: BIO-305 minimum grade of C.

BIO-358. Biological Geography. 3 Hours.

Geographic distribution of living organisms and the biological and geological principles underlying this distribution. Lecture only.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C and BIO-305 minimum grade of C.

BIO-359. Ecological Methods. 4 Hours.

Field and laboratory methodology for the ecologist. Includes instruction on experimental design, quantitative sampling, data acquisition and interpretation as well as the preparation of project reports. Lecture and laboratory.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C and BIO-305 minimum grade of C and MATH-275 minimum grade of C.

BIO-360. Vertebrate Physiology. 4 Hours.

Functions and interrelationships of organ systems. Lecture and laboratory.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C and BIO-301 minimum grade of C.

BIO-361. Human Genetics. 4 Hours.

This course is designed for upper level undergraduate and graduate students, builds on General Genetics, and emphasizes human medical genetics. Topics covered include but are not restricted to: known human genetic disorders; use of karyotyping, microsatellite analysis and sequencing in the diagnosis of genetic disorders; use of pedigrees, epidemiological and molecular studies in the identification of genetic contributions to multifactorial conditions and diseases. Lecture and laboratory.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C and BIO-303 minimum grade of C.

BIO-362. Biochemistry. 4 Hours.

Chemistry and metabolism of carbohydrates, proteins, nucleic acids, lipids, vitamins and minerals associated with animal and plant life. Lecture and laboratory.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C and BIO-301 minimum grade of C and CHEM-231 minimum grade of C.

BIO-363. Immunology. 4 Hours.

The goals of the course are to study the role of cells and organs of immune system in health and disease. Topics covered will include but are not restricted to innate and adaptive immunity, molecular mechanisms of antibody diversity, major histocompatibility complex, complement system, immunodeficiency, allergies, immunology of cancer and organ transplantation. Recent developments in techniques and immunotherapies will also be discussed. The course will give the students theoretical and practical knowledge applicable to medical and other health related fields.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C and BIO-301 minimum grade of C.

BIO-364. Endocrinology. 4 Hours.

The study of hormones and other signaling molecules and their functions in growth control, maintaining homeostasis and reproduction. Lecture and laboratory.

Prerequisites: CHEM-231 minimum grade of C and BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C and BIO-360 minimum grade of C.

BIO-365. Neurobiology. 4 Hours.

This course is designed for upper level undergraduate and graduate students. An in depth examination of nervous systems in vertebrates and invertebrates. Topics covered include but are not restricted to: excitable membrane physiology, synaptic mechanisms, and neuronal organization with emphasis on the integrative aspects of neural function. Lecture and laboratory. (Recommended one Physiology course - Bio 318, Bio 319, Bio 331 or Bio 360).

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C and BIO-301 minimum grade of C.

BIO-366. Cancer Biology. 3 Hours.

This course is designed for upper level undergraduate and graduate students and emphasizes the molecular and cellular basis of cancer. Topics covered include epidemiology of cancer, genetics of cancer, molecular mechanisms behind cancer, impact of viruses on human cancer development, and the biochemistry of cancer. Lecture only.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C and BIO-301 minimum grade of C and BIO-303 minimum grade of C.

BIO-367. Developmental Biology. 4 Hours.

This course is designed for upper level undergraduate and will build on concepts covered in introductory biology using skills and knowledge gained in Cell Biology and Physiology. We will look at patterns of normal and abnormal development in the embryo emphasizing development interactions between cells and systems and how these systems are disrupted during development leading to birth defects. The course is designed to give students the basic knowledge needed to go on into research or professional school. Lecture and laboratory.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C and BIO-303 minimum grade of C and (BIO-301 minimum grade of C or BIO-327 minimum grade of C).

BIO-368. Genomics and Proteomics. 3 Hours.

Genomics and Proteomics involves the use of high throughput methods and state of the art techniques, databases, and computations to generate, organize, explore, and analyze large data sets of DNA and/or protein sequence. This course will provide an introduction to the fields of genomics and proteomics. Through a combination of lecture, discussion, and hands on activities this course will focus on the methods and techniques used in gathering and interpreting genomic and proteomic data to answer questions important to various aspects of modern day biology.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C and BIO-303 minimum grade of C.

BIO-372. Biochemistry Of Metabolism. 3 Hours.

Biochemistry of Metabolism is lecture-based course that focuses on the processing of carbohydrates, lipids, proteins, and nucleotides. This course will offer a mechanistic view of metabolic pathways related to each macromolecule group, including feedback control. Each section will be linked to clinical situations and will incorporate current primary research literature in the field of metabolism. Quantitative analysis of chemical reactions, bioenergetics, thermodynamics and interpretation of research articles will be incorporated as part of the lectures.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C and BIO-362 minimum grade of C.

BIO-380D. Topics In Biology:Microbial Genetics. 3 Hours.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C and BIO-341 minimum grade of C.

BIO-380E. Topics In Biology:Introductory Bryology. 3 Hours.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C.

BIO-380H. Topics In Biology:Sensory Mechanisms. 3 Hours.

Prerequisites: BIO-150 minimum grade of C and BIO-201 minimum grade of C and BIO-202 minimum grade of C and BIO-360 minimum grade of C.

BIO-381. Independent Study I. 1 Hour.

Library study of a biological topic, including a thorough literature search and production of a review paper on the chosen topic.

BIO-382. Independent Study II. 2 Hours.

(See BIO-381 for description and prerequisites.).

BIO-383. Independent Study III. 3 Hours.

(See BIO-381 for description and prerequisites.).

BIO-390. Biology Senior Seminar. 3 Hours.

This course is intended for students who are within two semesters of graduation. The goals of the course are to provide students with the opportunity to explore topics of particular interest to them, in greater depth than is usually possible within the context of topic specific courses and to assess whether students are able to integrate knowledge gained from different courses and/or disciplines. As part of the course, students will be required to take the MFAT. THIS COURSE FULFILLS THE CAPSTONE REQUIREMENT FOR THE BIOLOGY MAJOR.

BIO-391. Internship In Biology. 3 Hours.

Field or laboratory experience at an off-campus site guided by a faculty advisor, and a site supervisor. Requirements include; submission of a summary of the planned intern project and results, including a review of the relevant literature; presentation of the project in either podium format. Students are also required to take the MFAT. THIS COURSE FULFILLS THE CAPSTONE REQUIREMENT FOR THE BIOLOGY MAJOR.

BIO-392. Independent Research I. 2 Hours.

Field or laboratory study of a biological topic or question to be carried out over the course of 1-2 terms. Requirements include; design and execution of the research project; review of relevant scientific literature; production of a scientific style paper describing the project and results; presentation of the project in either podium or poster format. Students will also be required to take the MFAT. THIS COURSE FULFILLS THE CAPSTONE REQUIREMENT FOR THE BIOLOGY MAJOR.

BIO-393. Independent Research II. 2 Hours.

Field or laboratory study of a biological topic or question to be carried out over the course of 1-2 terms. Requirements include; design and execution of the research project; review of relevant scientific literature; production of a scientific style paper describing the project and results; presentation of the project in either podium or poster format. Students will also be required to take the MFAT. THIS COURSE FULFILLS THE CAPSTONE REQUIREMENT FOR THE BIOLOGY MAJOR.

BIO-394. Seminar In Teaching Of Biology. 3 Hours.

This course will provide students with the opportunity to gain practical experience with methods of post-secondary teaching in the biological sciences. Students will participate in preparation, presentation and grading of lecture, laboratory and assessment materials. Students are required to identify a faculty mentor to advise and guide the teaching experience no later than the term before he/she registers for the course. As part of the course, students will be required to take the MFAT. THIS COURSE FULFILLS THE CAPSTONE REQUIREMENT FOR THE BIOLOGY MAJOR.

BIO-405. Biological Literature. 3 Hours.

Overview of scientific communication in biology with the focus on the researching, critiquing, and synthesizing of primary scientific literature. Other activities may include, but are not limited to writing grant proposals, presenting research, creating scientific posters, participating in peer review, and engaging in professional development to help further students' careers in biology.

BIO-408. Environmental Biology for Middle School Teaching. 4 Hours.**BIO-411. Spreadsheet Modeling In Ecology & Evolution. 3 Hours.**

Use of basic and advanced spreadsheet applications to model a wide variety of ecological and evolutionary processes and systems. Extensive use of graphing capabilities, complex nested functions, and advanced software functions including writing macros, sampling from statistical distributions, using lookup tables, etc. Students will complete independent projects in which they generate their own models using data from the literature and present their results both orally and in writing. Extensive work outside of the classroom will be required.

Prerequisite: BIO-305 minimum grade of C.

BIO-412. Chronobiology. 3 Hours.

Most living organisms display oscillations in many biological, physiological, and behavioral processes. These oscillations confer adaptive advantages for survival on a planet that revolves on its axis once every 24 hours. Chronobiology is the study of these adaptations. Through a combination of group activities, discussion, and lecture this course focuses on the physiologic and genetic generation of 24 hour rhythms, as well as the behavioral and physiological processes that they control in various species.

BIO-413. Evolutionary Biology. 3 Hours.

Comprehensive analysis of evolutionary patterns in both fossil and contemporary species. Studies include an overview of the history of evolutionary biology, Hardy-Weinberg equilibrium assumptions about non-evolving systems, Darwinian and non-Darwinian mechanisms of evolutionary change, the Biological Species Concept and alternative species definitions, pre-zygotic and post-zygotic mechanisms of speciation, and current views on the origin and natural history of life on Earth.

Prerequisite: BIO-202 minimum grade of C.

BIO-414. Comparative Biology Of Aging. 3 Hours.

Comparative analysis of aging, longevity, and mortality patterns in diverse prokaryotic and eukaryotic species. Studies include an overview of the history of biological gerontology, life-table construction and analysis, populational and physiological measurements of senescence, theoretical models of aging and longevity, use of vital statistics mortality data, biochemistry of free-radicals and antioxidant molecules, and therapeutic intervention to prolong lifespan in various species.

Prerequisite: BIO-301 minimum grade of C.

BIO-415. Animal Behavior. 3 Hours.

Advanced study and analysis of selected topics within the field of Animal Behavior with emphasis on topics that are currently at the forefront of the discipline. Depending on the term, the course may emphasize studies of animal behavior within an ecological, evolutionary and/or neuroethological context.

Prerequisite: BIO-360 minimum grade of C.

BIO-421. Biochemical Genetics. 3 Hours.

Explores the biochemistry of the genetic material and the cell's ability to replicate, transcribe and translate genetic information. Recent discoveries in gene manipulation are discussed. Lecture and discussion.

Prerequisite: BIO-303 minimum grade of C or BIOL-380 minimum grade of C.

BIO-424. Analysis Of Development. 3 Hours.

Analysis of mechanisms underlying developmental processes in the embryo and adult organisms with special emphasis on the role of the genes in development. Lecture only.

Prerequisite: BIO-303 minimum grade of C.

BIO-425. Animal Models of Human Disease. 3 Hours.

Because of the ethical and logistical challenges of studying disease using human subjects, biologists use model organisms and model systems to understand the underlying mechanisms responsible for diseases, and to identify potential treatments and cures. Through lecture, literature research, and discussion this course will examine examples of how animal models are being used in biomedical research. Systems covered include mammalian species, non-mammalian vertebrate species, and invertebrate species. Course may be repeated for credit with permission from the Graduate Advisor.

BIO-427. Current Topics In Genetics. 3 Hours.

Advanced study and analysis of selected topics within the field of Genetics, with emphasis on topics that are at the forefront of advances in the discipline. Course may be repeated for credit one time with permission from the Graduate Advisor.

Prerequisite: BIO-303 minimum grade of C.

BIO-428. Current Topics In Human Genetics. 3 Hours.

Advanced study and analysis of selected topics within the field of Human Genetics, with emphasis on topics, such as the Human Genome and HapMap projects, epistasis, etc., that are at the forefront of advances in our understanding of human heredity, development and disease.

Prerequisite: BIO-303 minimum grade of C.

BIO-441. Biology Of Viruses. 3 Hours.

The structure and replication of viruses, strategies of host defense and viral evasion, and use of viruses in biotechnology. RNA- as well as DNA-viruses will be included. Current research papers will be discussed to make students aware of advances being made in the field.

BIO-447. Current Topics In Cell Biology. 3 Hours.

Advanced study and analysis of selected topics within the field of Cell Biology, with emphasis on topics that are at the forefront of advances in the discipline. Course may be repeated for credit one time with permission from the Graduate Advisor.

Prerequisites: BIO-301 minimum grade of C and BIO-303 minimum grade of C.

BIO-450. Foundations Of Ecology. 3 Hours.

Readings and discussions of foundational papers in ecology, and classic case studies of field and laboratory experiments in ecology. Overviews of the development of ecology as a science, major debates in ecology, and the development of both theory and methodologies in ecology will be presented. Students will also present and discuss contemporary papers in light of these historical contexts.

Prerequisite: BIO-305 minimum grade of C.

BIO-451. Biological Diversity. 3 Hours.

The course covers contemporary and historical patterns of biodiversity, current hypotheses for local, regional and global diversity trends, diversity case studies from plant and animal communities in aquatic and terrestrial systems. Lecture and discussion.

Prerequisite: BIO-305 minimum grade of C.

BIO-452. Quaternary Ecology. 4 Hours.

Introduction to the principles and techniques of paleoecology with emphasis on the effects of global and regional climate/environmental change on ecosystems, communities, and populations during the Quaternary Period. Lecture and laboratory.

Prerequisite: BIO-305 minimum grade of C or ESCI-312 minimum grade of C.

BIO-453. Conservation Biology. 3 Hours.

This course will explore how ecological theory (including mathematical models), principles, and methodologies are applied to the conservation of populations, species, communities, and landscapes. Covered topics include biodiversity, the demographic and genetic structure of populations, population viability analysis, the problems that small populations face, extinction as a historical and contemporary process, current tools applied in conservation (e.g., GIS, molecular tools), and the application of ecological principles nature reserve design and ecosystem management. Students will read extensively from the primary literature, lead class discussions, and solve applied and quantitative problems.

Prerequisite: BIO-305 minimum grade of C.

BIO-454. Conservation Genetics. 3 Hours.

Advanced study of genetic theory and practice applied to the conservation of organisms. Current primary literature will be incorporated into the course through written assignments and discussions. Current conservation genetic techniques and computer-based data analysis methods will be practiced in the laboratory.

Prerequisites: BIO-303 minimum grade of C and BIO-305 minimum grade of C.

BIO-455. Restoration Ecology. 3 Hours.

Application of ecological research and concepts to restoration of disturbed ecosystems. Current trends and challenges in restoring populations, communities and ecosystems.

Prerequisite: BIO-305 minimum grade of C.

BIO-456. Bio-Environmental Analysis. 3 Hours.

Individual and group field projects providing experience in techniques appropriate to the analysis of natural communities and their environmental components. Studies include contrasts between selected natural areas and similar ones altered by humans. A summary interpretive paper, using data acquired, is required from each student. Lecture, laboratory, and fieldwork.

BIO-457. Current Topics In Ecology & Evolution. 3 Hours.

This course provides graduate students with an opportunity to explore a current topic in ecology and evolutionary biology from a variety of perspectives and scales, ranging from theory to molecular biology to community ecology. Each semester will be organized around a single book or edited volume. Students will read, present, and lead discussions on chapters from the selected book, along with related papers chosen from the recent primary literature. Students may take the course twice for credit, as long as the focal topic of the course is different.

Prerequisites: BIO-301 minimum grade of C and BIO-303 minimum grade of C and BIO-305 minimum grade of C.

BIO-462. Enzymology. 3 Hours.

The course covers enzymes as protein catalysts. The structure of a biological catalyst as discerned by x-ray diffraction, chemical modification, nuclear magnetic resonance, and kinetic studies is analyzed and related to function. Lecture, demonstration, discussion, and laboratory.

Prerequisite: BIO-362 minimum grade of C.

BIO-463. Plant Biochemistry. 3 Hours.

The course focuses on metabolic pathways of particular importance to plants, such as photosynthesis, the dissemination of starch, nitrogen fixation, and the formation of certain secondary products. Also covered are metabolic pathways common to plants and other groups of organisms and phytohormonal control. Lecture only.

Prerequisite: BIO-362 minimum grade of C.

BIO-464. Biochemistry And Molecular Biology Methods. 4 Hours.

A graduate level lecture and lab course that provides training in essential experimental methods used in modern Biochemistry and Molecular Biology, including computer analysis tools, while reviewing basic structure and function of biological molecules.

Prerequisite: BIO-362 minimum grade of C or BIO-340 minimum grade of C.

BIO-470A. Seminars In Biology. 1 Hour.**BIO-471. Comparative Animal Physiology. 3 Hours.**

Physiological and biochemical evolution of animals with emphasis on the range and variety of physiological mechanisms and processes involved in adaptations to special habits and habitats. Lecture and laboratory.

Prerequisite: BIO-360 minimum grade of C.

BIO-475. Advanced Immunology. 3 Hours.

Contemporary issues in immunology, related to diversity in immune response. Lecture and discussion of current papers on inheritance of immune response, tolerance, cancer immunology and immunotherapy. Lecture and discussion.

Prerequisite: BIO-301 minimum grade of C.

BIO-4821. Independent Investigations. 1 Hour.

Field or laboratory study of a biological topic or question, to be carried out over the course of 1-2 terms. Requirements include two or more of the following- design and execution of the research project; review of relevant scientific literature; production of a scientific style paper describing the project and results; presentation of the project in either podium or poster format. No more than 3 credits of BIO-482 can be applied to the requirements for the Biology MS.

Prerequisite: BIO-405 minimum grade of C.

BIO-4822. Independent Investigations. 2 Hours.

See course description for BIO-4821.

Prerequisite: BIO-405 minimum grade of C.

BIO-4823. Independent Investigations. 3 Hours.

See course description for BIO-4821.

Prerequisite: BIO-405 minimum grade of C.

BIO-485L. Advance Topics In Biology: Applied & Environmental Microbiology. 3 Hours.**BIO-491. Seminars In Biology. 1 Hour.**

Students select a specific topic of interest to them. They research the topic and give an oral presentation on the topic to a peer group. Time commitment is approximately 2 hrs per week.

Requirement: Departmental approval.

BIO-4994. Research Thesis. 4 Hours.

Guidance of students conducting research and writing a thesis to fulfill requirements for the Master of Science degree in Biology, Option II. Students may register for 1-4 credits per term with a 6 credits required for Option I of the Biology M.S. All BIO-499 credits must be earned within the equivalent of 2 academic years.

Prerequisite: BIO-405 minimum grade of C.

BIO-5901. Library Thesis Hours. 1 Hour.

Guidance of students conducting literature/library research and writing a Thesis to fulfill requirements for the Master of Science degree in Biology, Option II. Students may register for 1-3 credits per term with a minimum of 4 credits required for Option II of the Biology M.S. All BIO-590 credits must be earned within the equivalent of 2 academic years.

Prerequisite: BIO-405 minimum grade of C.

BIO-5902. Library Thesis Hours. 2 Hours.

See course description for BIO-5901.

Prerequisite: BIO-405 minimum grade of C.

BIO-5903. Library Thesis Hours. 3 Hours.

See course description for BIO-5901.

Prerequisite: BIO-405 minimum grade of C.

BIO-5991. Research Thesis Hours. 1 Hour.

Guidance of students conducting research and writing a thesis to fulfill requirements for the Master of Science degree in Biology, Option II. Students may register for 1-4 credits per term with a 6 credits required for Option I of the Biology M.S. All BIO-599 credits must be earned within the equivalent of 2 academic years.

Prerequisite: BIO-405 minimum grade of C.

BIO-5992. Research Thesis Hours. 2 Hours.

See course description for BIO-5991.

Prerequisite: BIO-405 minimum grade of C.

BIO-5993. Research Thesis Hours. 3 Hours.

See course description for BIO-5991.

Prerequisite: BIO-405 minimum grade of C.

Major in Biology

Major in Biology for the Bachelor of Science Degree

(68-71 credit hours total: 43-46 credits in Biology + 25 credits in cognate areas)

The major requires a set of six required Biology courses (including a cornerstone course, BIO-150), five elective courses in Biology, a capstone course in Biology, and a set of cognate courses in Chemistry, Mathematics and Physics. As such, the curriculum provides broad training in the sciences, allows for students to take a sequence of courses that fit their particular interests within Biology and allows students to prepare themselves for specific careers in Biology.

Students who are seeking to be licensed to teach Biology in secondary schools should consult with both an advisor in Biology and an advisor in the Goodwin College of Education.

Students interested in pursuing graduate studies are strongly encouraged to take one year each of organic chemistry and calculus, and a course in statistics.

Students who are planning to pursue professional training in medicine, dentistry, pharmacy and other health professions should contact the professional schools to which they intend to apply in order to determine their specific program requirements. Students should also consult regularly with an advisor in Biology to ensure that they take an appropriate set of elective courses. Finally, these students can receive guidance on recommended courses, graduate-school test preparation and the application process from the Coordinator of Student Services in the Office of the Dean of the College of Arts and Sciences as well as the Student Center for Science Engagement.

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Required Biology Courses

The following six core courses are required of all majors. (Note that BIO-150 must be taken concurrently with BIO-201 or, for transfer students, in their first semester at NEIU.)

Code	Title	Hours
BIO-150	Essential Skills For Biologists	2
BIO-201	General Biology I	4
BIO-202	General Biology II	4
BIO-301	Cell Biology	4
BIO-303	General Genetics	4
BIO-305	Writing Intensive Program:General Ecology	4
Total Hours		22

Five elective courses must also be taken. At least three courses must have a lab component. Four of these must be Biology courses, one of which must focus on plants and one must focus on animals. The fifth course may be in Biology, or can be a course from another department, as long as it has been approved by the Biology Department to count as an elective. Students should check with the Biology Department Office or their advisor for a list of approved courses. 18-20 cr. A maximum of three courses can be transferred to satisfy the Biology electives.

One capstone course must also be taken after a student has made substantial progress toward completing the major requirements. The capstone requirement can be satisfied by taking:

Code	Title	Hours
Select one of the following:		3-4
BIO-390	Biology Senior Seminar	
BIO-391	Internship In Biology	
BIO-392 & BIO-393	Independent Research I and Independent Research II	
BIO-394	Seminar In Teaching Of Biology	

Students should check the catalog or their advisor to determine the pre-requisites for each of these options 3-4 cr.

Required Cognate Courses

Code	Title	Hours
CHEM-211	General Chemistry I	5
CHEM-212	General Chemistry II	4
CHEM-231	Organic Chemistry I	4
MATH-187	Calculus I	4
or MATH-275	Applied And Computational Statistics	
Two semesters of Physics, either algebra-based or calculus-based with labs		8
PHYS-201 & PHYS-202	College Physics I and College Physics II	
PHYS-206 & PHYS-207	University Physics I and University Physics II	

PHYS-203 & PHYS-204	Physics I Laboratory and Physics II Laboratory	
Total Hours		25

Requirements for Secondary Education Licensure

In completing the Major in Biology, students seeking license to teach biology must earn 8 semester hours in botany including 5 semester hours in laboratory work, 8 semester hours in zoology including 5 semester hours in laboratory work, and 8 semester hours in physiology including 5 semester hours in laboratory work. Students who major in Biology and Secondary Education should consult with both an advisor in Biology and an advisor in the Goodwin College of Education.

This sample curricular map is provided to guide you in the planning of your progression for this major. This guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor.

Master of Science in Biology

Master of Science in Biology

The Master of Science in Biology program serves those interested in advanced training in applied or basic biological research and teaching. The program also provides a basis for further graduate or professional studies. The M.S. in Biology is broadly based, allowing students to tailor their courses to suit their interests. Laboratory skills are integral to many Biology careers, thus students are encouraged to include lab courses in their program of study. Faculty in the M.S. in Biology program have expertise in a range of sub-disciplines including ecology, organismal, cell, and molecular biology. All newly admitted students matriculate in the Fall semester.

Program Goals

Upon completion of the M.S. in Biology program students will have:

1. a strong understanding of disciplines across the breadth of Biology and a deep understanding of select Biology sub-disciplines.
2. developed the knowledge base necessary to critically evaluate research methods, data, and results, either produced by them or published in the primary literature.
3. developed strong written and oral presentation skills.
4. developed the analytical skills necessary to synthesize information in an area of research based on existing and new data.
5. developed strong research design and laboratory/field research skills.

Graduates completing the Non-Thesis or Library Thesis options for the M.S. in Biology will meet goals 1-4. Graduates completing the Research Thesis option will meet all 5 goals.

Admission Requirements

Note: Although applications for admission to the M.S. in Biology program are accepted throughout the year, all new students will start coursework (matriculate) in the Fall semester and are required to take BIO-405 during their first semester in the program. The application deadline for admission in the upcoming academic year is June 15.

Application forms for admission to the program may be obtained from, and must be submitted to, the College of Graduate Studies and Research (CGSR) Admissions Office. All students must fulfill the general requirements for admission to the CGSR. In addition, all students must meet the following requirements for admission to the M.S. in Biology program:

1. A Bachelor's degree in Biology or the course equivalent. The undergraduate course work must include both the Biology and related science courses (Chemistry, Physics and Math) that are standard components of the Biology major: two semesters each of General Biology, General Chemistry and Physics, and one semester each of Cell Biology, Ecology, Genetics, Organic Chemistry and Precalculus Mathematics or Statistics. General Education courses cannot be used to satisfy the Biology or cognate area requirements. Note: Undergraduate students who have not yet completed the Bachelor's degree are welcome to apply. Acceptance will be contingent on completion of the undergraduate degree and submission of official transcripts to the College of Graduate Studies and Research indicating that the degree was conferred.
2. An overall undergraduate GPA of 2.75, with a GPA of 3.0 in the undergraduate biology courses, is required for full admission to the program.
3. A typed, 1-2 page statement of Goals and Objectives. This statement must be written by the applicant to demonstrate their writing skills. It should specify as clearly as possible the applicant's academic and professional goals and the reasons for selecting the Biology M.S. program.
4. Two letters of recommendation from academic references (such as former or current professors) or work-related supervisors who are able to assess the applicant's potential for advanced graduate study.
5. GRE (Graduate Record Examination) scores are not required for admission, but they may be submitted to supplement an application.

Provisional Admission may be granted in exceptional circumstances. For more information, please refer to the section of the university catalog for the College of Graduate Studies & Research. Decisions regarding provisional admission are made on a case-by-case basis.

Degree Requirements

The M.S. in Biology allows students to tailor their program of study to meet their individual needs. Students may attend full-time or part-time and have up to 6 years to finish the M.S. degree requirements. Graduate courses are offered during the late afternoon and evening hours and sometimes on Saturday mornings. Courses that are lecture only meet one evening per week and courses that include a laboratory/field component meet two evenings per week (Fall & Spring semesters). For summer classes the meeting times are similar but the number of meetings per week may increase. All graduate

students are required to take BIO-405 and at least one course that includes a laboratory or field component. For students pursuing the Research Thesis Option, the research thesis fulfills the latter requirement.

Each student in the M.S. in Biology program will be required to assemble a portfolio of work that they complete during their tenure in the program. The portfolios will serve to:

1. document the progress of each student toward the degree, and the skills and knowledge base that they have achieved by the end of their tenure.
2. provide students with materials that will help them reach their professional goals.
3. provide the department with information that will allow us to assess the effectiveness of the program at achieving the goals and learning outcomes that we have established for the graduate curriculum.

Portfolios will be assembled on an ongoing basis, and will include examples of scholarly work from courses completed by the student in the NEIU graduate program and work produced specifically for the portfolio. Work produced specifically for the portfolio will be produced independently and will be for the purpose of achieving candidacy in the program (see below) or for being awarded the M.S. degree at the end of a student's tenure.

Specific requirements for the portfolio will be provided by the department, but all portfolios will include:

1. Personal statements, reports of academic progress and/or self-assessments written at different stages of completion of the degree requirements.
2. Curriculum vitae or resumé written at several stages of degree completion.
3. Representative samples from student's coursework (e.g., annotated bibliographies, summary/critiques of papers from the primary literature, poster presentations, supporting documentation for oral presentations, research proposals, review papers or research papers, and other examples of critical or synthetic writing).
For students who choose to complete the Research Thesis or Library Thesis Option, the portfolio will include (in addition to the items in categories a, b, and c above) their approved thesis proposal and a copy of the final thesis manuscript.
4. Literature-based writing assignments in which students demonstrate their ability to read, interpret, and synthesize information at a level expected of a graduate student in biology.
5. Short pieces of writing that demonstrates a student's ability to communicate their skills or expertise to both professional and lay audiences.

Candidacy in the Biology Program

Students need to apply for candidacy within the Biology program after they have completed at least 12 and no more than 18 credit hours of course work, including BIO-405. Candidacy also requires a GPA in courses that count towards the M.S. in Biology degree of at least 3.0. Students admitted on a provisional basis must satisfy all prerequisite deficiencies before they can receive candidacy. Evaluation of the portfolio will be included in decisions regarding advancement to candidacy. Students must satisfy their candidacy requirements and be declared candidates for the degree before they can register for either Library or Research Thesis credits. Candidacy application forms can be obtained through the Graduate Advisor or the Biology Department Office.

Degree Tracks

Research Thesis Option

This option is recommended for individuals who are interested in a career in biological research, are working in applied fields of Biology or are interested in further graduate or professional studies. Students interested in this option should arrange appointments with faculty in their area of interest and the graduate program advisor early in their program, to discuss potential thesis topics. Students completing the Research Thesis option will meet all 5 program goals listed above.

Students pursuing the Research Thesis Option must complete a minimum of 33 credit hours of graduate course work, including BIO-405 and Research Thesis Hours. Up to two (2) credits of Independent Investigations (BIO 4821-3) can replace an equal number of the Research Thesis Hours credits. Students must have advanced to candidacy (see below), identified a thesis advisor, and formed a thesis committee before they can submit the research proposal. The research proposal must be approved by the Biology Department before the student can register for Research Thesis credits. Exit requirement for the Research Thesis Option is successful completion of the research project and the public, oral defense of the Research Thesis. Students who register for the research thesis and subsequently decide not to complete the thesis may apply the credits they do complete for research thesis towards the requirements of the other options.

Library Thesis Option

This option is recommended for students who are interested in exploring a particular topic through literature research. The student will choose a library thesis advisor who will guide the student in identifying an appropriate question, preparing a thesis proposal, and writing the thesis. The goals of the library thesis are to explore a specific topic through the current literature with the aim of determining whether a specific question or questions can be

answered through existing knowledge or whether additional experimentation/ research are required to address the question. Students completing the Library Thesis Option will meet program goals 1-4 listed above.

Students pursuing the Library Thesis track must complete a minimum of 34 credit hours of graduate course work, including BIO-405, at least one course that includes a laboratory or field component, and Library Thesis Hours. The student must have advanced to candidacy (see above), have identified a thesis advisor and two readers, and obtained department approval of the thesis project before registering for Library Thesis Hours credits. Exit requirement for the Library Thesis Option is successful public, oral presentation and defense of the Library Thesis.

Non-Thesis Option

This option is recommended for students who desire a more flexible approach to graduate training in Biology, and who are not interested in research. It is a popular track for those in teaching or using the M.S. to become more competitive for admission to professional/health programs. Students completing the Non-Thesis Option will meet program goals 1-4 listed above.

Students must complete a minimum of 36 credit hours of graduate course work, including BIO-405, at least one course that includes a laboratory or field component, and the professional/academic portfolio. For students in the Non-Thesis Option, the portfolio will be evaluated at least 3 times during their tenure and the final portfolio must be submitted to their advisor no later than week 8 of their final semester in the program. Exit requirement for the Non-thesis track is acceptance of the portfolio by the Biology Graduate Advisory Committee.

Thesis Proposals

Students interested in pursuing either the Library or Research Thesis options need to submit a thesis proposal for review and consideration by the department before they will be permitted to register for thesis credits. Potential topics are first discussed with a prospective thesis advisor to determine a project focus. The student drafts a proposal for review by the faculty advisor, which presents the background and scope of the project, hypothesis/hypotheses to be tested (question(s) to be addressed in the case of a library thesis), methodology (for research theses only), anticipated timetable, and literature review. At the same time, in consultation with the research advisor, the student must form his/her thesis committee (thesis advisor + 2 additional Biology faculty members for the Research Thesis or thesis advisor + 2 additional readers for the Library Thesis). Once approved by the committee, the proposal is then submitted to the Biology faculty for review and consideration. Faculty members are typically given a minimum of one week to provide comments and recommendations about the proposal. Students are required to have their proposal circulated to the department at least three weeks before the first semester in which they want/plan to register for thesis credits. The deadline for registering for thesis credits is the end of the first week of classes during a given semester. Check the current schedule of classes for specific dates.

Graduate Degree Time-Limit

Students in all Options have a maximum of 6 yrs to complete their degree. Students requiring an extension of an additional semester or more to complete their degree should petition the College of Graduate Study & Research and the Biology Graduate Advisory Committee before the 6-yr deadline is reached. Students taking more than 6 yrs may lose credits earned early in the program and may be required by the CGSR to complete additional course work. Students not taking courses regularly (every year) may be dropped from the program.

Courses

Only 400-level and a limited number of select 300-level courses (i.e. the 300* courses), can be applied toward the credit requirements for the graduate degree. The College of Graduate Study & Research limits the number of 300* credits that can count towards the M.S. degree to 10 credits.

Transfer credits: A maximum of 9 hours of transfer graduate credit can be applied to the requirements for the M.S. degree. The transfer credits must be approved by both the College of Graduate Study & Research (CGSR) and the Biology Department. Students interested in transferring credits need to submit official transcripts, a complete/detailed syllabus from the course(s), and rationale for transfer to the CGSR representative in Enrollment Management Services. The petition form for transferring credits is available on the College of Graduate Study and Research web page. Following matriculation, students wishing to take classes at another institution and transfer the credits to NEIU must have the courses preapproved by the Biology Graduate Advisor.

Courses from other NEIU departments: Students may have up to 9 cr. hours of graduate level course work taken in other departments counted toward their Biology degree. The Biology Graduate Advisor must pre-approve all course work from other NEIU departments. Students interested in taking graduate courses outside the Biology Department should first contact the Biology Graduate Advisor to verify that the course credits can count towards the M.S. in Biology degree; the student then needs to contact the Department offering the course to request permission to enroll in the course. Lastly, to be considered as part of the student's degree requirements, the student must submit a written rationale for the course, as well as a copy of the course syllabus. This should be done no later than the first week of classes during the semester the course is taken.

Minor in Biology

miNOR IN BIOLOGY (21-22 credit hours)

Students who are interested in gaining a deeper understanding of a few disciplines within Biology are encouraged to minor in Biology. In addition, students who are interested in pursuing a career in the health professions, but who do not want to major in Biology will benefit by choosing Biology as a minor.

A maximum of 9 cr. toward the Minor in Biology will be accepted in transfer credits and at least 9 cr. toward the Minor must be completed at NEIU. Note that students in the Early Education and Early Childhood Education programs who select this minor must complete a minimum of 9 hours of coursework at the 300-level in order to meet graduation and licensure requirements.

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Required courses for the Biology Minor

Code	Title	Hours
BIO-150	Essential Skills For Biologists	2
BIO-201	General Biology I	4
BIO-202	General Biology II	4
Three elective courses in Biology must also be taken, at least two of which must have a laboratory component		11-12
Total Hours		21-22

Chemistry

Chemistry is a physical science with far-reaching applications that touch virtually every aspect of our day-to-day existence. Careers in chemistry offer numerous possibilities in a wide range of industries and in education.

The Chemistry program offers courses leading to the degrees of Bachelor of Science and Master of Science. The undergraduate curriculum in Chemistry and Biochemistry programs prepares students for careers in industry and environmental chemistry positions as well as for graduate study. Undergraduate courses also provide appropriate backgrounds for students planning careers in medicine, dentistry, pharmacy, nursing and related professional health fields.

In 1985, Northeastern Illinois University was added to the American Chemical Society's (ACS) Approved List of baccalaureate chemistry programs in colleges and universities. Being included on the Approved List means that the chemistry curriculum meets standards established by the ACS Committee on Professional Training. Students completing the ACS track will earn a certificate stating that they have met ACS standards for professional training.

Transfer students majoring in chemistry need to contact a program advisor immediately so that transfer credits may be evaluated and an appropriate program of study planned.

Chemistry courses are designed to be taken in sequence. Students will not be permitted to register for courses if they do not have credit for the required prerequisites.

Undergraduate students are encouraged to participate in research programs with faculty members and may take CHEM-305, and CHEM-399 for that purpose. Internships with local chemical industries and laboratories are also encouraged through CHEM-365, and CHEM-366. Please consult with the undergraduate advisor concerning these courses.

Students should also be aware of the University requirements for the Bachelor's degree.

- Major in Chemistry (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/chemistry/chemistry/>)
- Minor in Chemistry (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/chemistry/minor-chemistry/>)
- Master of Science in Chemistry (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/chemistry/master-science-chemistry/>)

Sargon John Al-Bazi, Ph.D., Professor, Chair
 Samantha Brown-Xu, Ph.D., Assistant Professor
 Kenneth Nicholson, Ph.D., Associate Professor
 Jing Su, Ph.D., Associate Professor
 Stefan Tsonchev, Ph.D., Professor

CHEM-103. Chemistry And Society. 3 Hours.

Introduction to chemistry based on the study of some of the processes and materials which chemistry contributes to our civilization. Elementary chemical principles are used to explain the behavior of synthetic polymers, toxic substances, food additives, cleaning products, and other chemically manufactured materials. Knowledge of basic algebra skills assumed. Lecture 3 hours.

Prerequisite: (MATH-091 - 499 or MATH-091A - 499Z or NEIU Math Placement Result 02 - 45 or ACT Math 19 - 36 or Accuplacer Elementary Algebra 060 - 084 or Accuplacer College Level Math 020 - 120).

CHEM-108. Chemistry Concepts For Educators. 4 Hours.

This course covers the basic principles of chemistry including atomic theory, solution chemistry, organic and biochemistry, states of matter and its various physical and chemical properties, appropriate use of nomenclature, chemical bonding, and use of quantitative calculations based on chemical equations including scientific notation, significant figures and dimensional analysis. The historical development of how chemistry contributes to our civilization will also be considered. Elementary chemical principles will be used to explain the behavior of synthetic polymers, toxic substances, food additives, cleaning products and other chemically manufactured materials. Issues of contemporary critical technologies such as biomaterials, natural products, alternative fuels, bioremediation, fuel cells, green technology, bio-defense and smart materials may be examined. This course is aligned to the ISBE Standards for General Science Educators, National Science Teachers Association Standards and the Next Generation of Science Standards. Course outcomes include developing students' ability to apply knowledge of chemistry to a variety of real world problems and settings with particular emphasis on scientific inquiry, the nature of science, civic engagement and applications to teaching. CHEM-108 is an interdisciplinary lab-oriented course that integrates concepts from the life, physical, social sciences, and mathematics and is linked to MATH-281.

Prerequisites: (MATH-180 minimum grade of C or MATH-199A minimum grade of C) and (MATH-280 minimum grade of C or MATH-199G minimum grade of C).

CHEM-110. Chemical Concepts. 3 Hours.

Lab-oriented survey course in chemistry designed for the non-science major including such topics as the historical development of chemistry, atomic theory, solution chemistry, organic and biochemistry. Knowledge of basic algebra skills assumed. Lecture 2 hours, lab, 2 hours.

Prerequisite: (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120).

CHEM-211. General Chemistry I. 5 Hours.

Introduction to general inorganic chemistry, including stoichiometry, concentration units, gas laws, atomic structure, bonding, periodic laws, states of matter, solutions, acid-base theories, rate, equilibrium and oxidation-reduction theory. Lecture and Laboratory. Lecture 4 hours, lab 3 hours.

Prerequisite: (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120).

CHEM-211C. Enrichment Seminar In General Chemistry I. 1 Hour.

Enrichment seminar accompanying CHEM-211. Students do problem solving in collaborative learning groups on material derived from and supplementing General Chemistry I to gain a deeper understanding of concepts and applications. Lecture 2 hours.

CHEM-212. General Chemistry II. 4 Hours.

Continuation of General Chemistry I with emphasis on reaction rates, equilibria in aqueous solutions, thermochemistry, oxidation-reduction reactions and the methods of qualitative analysis. Lecture and Laboratory. Lecture 3 hours, lab 3 hours. Can be taken concurrently with MATH-185.

Prerequisites: CHEM-211 minimum grade of C and MATH-185 minimum grade of C.

CHEM-212C. Enrichment Seminar In General Chemistry II. 1 Hour.

Enrichment seminar accompanying CHEM-212. Students do problem solving in collaborative groups on material derived from and supplementing General Chemistry II to gain a deeper understanding of concepts and applications. Lecture 2 hours.

CHEM-213. Writing Intensive Program: Quantitative Analysis. 5 Hours.

Statistical analysis of data, chemical equilibrium, simultaneous equilibria, classical and non-classical gravimetric and volumetric techniques, acid-base and oxidation-reduction reactions, spectrophotometric and potentiometric measurements. Lecture 3 hours, lab 6 hours.

Prerequisites: CHEM-212 minimum grade of C and ENGL-101 minimum grade of C.

CHEM-231. Organic Chemistry I. 4 Hours.

Study of the structure, properties, reaction mechanisms and nomenclature of aliphatic and aromatic hydrocarbons and their derivatives. Lecture and laboratory. Lecture 3 hours, lab 3 hours.

Prerequisites: CHEM-212 minimum grade of C and CHEM-211 minimum grade of C.

CHEM-231C. Enrichment Seminar In Organic Chemistry I. 1 Hour.

Enrichment seminar accompanying CHEM-231. Students do problem solving in collaborative learning groups on material derived from and supplementing Organic Chemistry I to gain a deeper understanding of concepts and applications. Lecture 2 hours.

CHEM-232. Organic Chemistry II. 4 Hours.

Continuation of CHEM-231. A study of structure, properties, reaction mechanisms, synthesis and infrared and nuclear magnetic resonance spectroscopy of the alcohols, acids, amines and other monofunctional compounds. Lecture and laboratory. Lecture 3 hours, lab 3 hours.

Prerequisite: CHEM-231 minimum grade of C.

CHEM-232C. Enrichment Seminar In Organic Chemistry II. 1 Hour.

Enrichment seminar accompanying CHEM-232. Students do problem solving in collaborative learning groups on material derived from and supplementing Organic Chemistry II to gain a deeper understanding of concepts and applications. Lecture 2 hours.

CHEM-300. Interdisciplinary Seminar In STEM. 2 Hours.

This course uses a hands-on approach to modern inquiry-based research problems and techniques in the physical and computational sciences. The course is structured around a series of modular problem-based exercises, covering topics from the fields of Chemistry, Computer Science, Earth Science, Mathematics, and Physics, and is designed to provide the content and pedagogical background for students to be successful peer leaders. The cross-disciplinary modules will draw connections between scientific disciplines, and showcase common research tools and techniques used in the sciences. The workshop will also incorporate discussions on a range of topics, from scientific ethics, scientific methodology, and error analysis.

Prerequisite: MATH-185 minimum grade of C.

CHEM-305. Independent Study In Chemistry. 3 Hours.

An introduction to original chemical research under faculty supervision. Independent Studies require the approval of the instructor, department chair and the College Dean.

Prerequisites: CHEM-213 minimum grade of C and CHEM-232 minimum grade of C.

CHEM-311. Physical Chemistry I. 4 Hours.

Theoretical and experimental study of the structure and properties of matter, including the gaseous state, chemical thermodynamics, chemical equilibrium, liquids and phase equilibria, solutions of nonelectrolytes and ionic solutions. Lecture and laboratory. Lecture 3 hours, lab 3 hours. It is strongly suggested that the student has completed a year of physics with laboratory.

Prerequisites: CHEM-213 minimum grade of C and CHEM-232 minimum grade of C and MATH-187 minimum grade of C and PHYS-203 minimum grade of C and (PHYS-201 minimum grade of C or PHYS-206 minimum grade of C).

CHEM-311C. Physical Chemistry I Seminar. 1 Hour.

This course accompanies Physical Chemistry I, CHEM-311. Students will do problem solving in collaborative learning groups on material derived from and supplementing Physical Chemistry I lecture, in order to gain a deeper understanding of concepts and applications.

CHEM-312. Physical Chemistry II. 4 Hours.

Continuation of CHEM- 311, including the kinetic-molecular theory, transport properties, chemical kinetics, statistical mechanics, quantum theory, atoms and diatomic molecules and spectroscopy. Lecture and laboratory. Lecture 3 hours, lab 3 hours.

Prerequisites: CHEM-311 minimum grade of C and MATH-202 minimum grade of C and PHYS-204 minimum grade of C and (PHYS-202 minimum grade of C or PHYS-207 minimum grade of C).

CHEM-312C. Physical Chemistry II Seminar. 1 Hour.

This course accompanies Physical Chemistry II, CHEM-312. Students will do problem solving in collaborative learning groups on material derived from and supplementing Physical Chemistry II lecture, in order to gain a deeper understanding of concepts and applications.

CHEM-316. Inorganic Chemistry. 4 Hours.

A thorough study of bonding in non-transition and transition elements, periodic trends and tendencies, structural relationships and mechanisms of inorganic reactions. Lecture and laboratory. Lecture 3 hours, lab 3 hours.

Prerequisite: CHEM-232 minimum grade of C.

CHEM-319. Chemical Aspects Of Environmental Chemistry. 3 Hours.

A survey of the chemical principles involved in environmental problems. Topics include atmospheric, aquatic and geographic chemistry, sources of pollutants and the consequences of pollution. Lecture 3 hours.

Prerequisites: CHEM-212 minimum grade of C and CHEM-232 minimum grade of C.

CHEM-320. Industrial Aspects Of Environmental Chemistry. 3 Hours.

Industrial aspects of environmental chemistry covering specific topics such as energy, water and wastewater treatment, treatment and disposal of domestic and industrial wastes, techniques for detecting and analyzing chemical pollutants, environmental modeling and analyzing chemical pollutants, environmental modeling and recycling strategies. Lecture 3 hours.

Prerequisites: CHEM-213 minimum grade of C and CHEM-232 minimum grade of C.

CHEM-321. Environmental Chemistry In The City. 2 Hours.

This is a laboratory and field course that will concentrate on topics of environmental interest in the city of Chicago. Field work will include visits to the Chicago River, Lake Michigan, the Chicago Forest Preserve, and other locations in the metropolitan area. Students will learn proper methods of sample collection, storage, and transport. Chemical analysis of collected samples by titrimetric, gravimetric, spectroscopic, chromatographic, and electrochemical methods will take place in the field and in the laboratory. Lecture 1 hr, Lab/Field 2.5 hrs. Prerequisite: CHEM-213 with a Grade of C or better.

Prerequisite: CHEM-213 minimum grade of C.

CHEM-330. Instrumental Analysis: Spectroscopy. 4 Hours.

The course includes an intensive laboratory introduction to infrared spectroscopy, mass spectrometry, nuclear magnetic resonance spectroscopy and Raman spectroscopy. Research projects are part of the course to develop instrumental methods for qualitative and quantitative analysis of various chemical materials used in everyday life. Lecture and laboratory. Lecture 3 hours, lab 6 hours.

Prerequisites: CHEM-213 minimum grade of C and CHEM-232 minimum grade of C.

CHEM-331. Instrumental Analysis: Quantitative Methods. 4 Hours.

Introduction to the theory and practice of instrumental methods used to determine composition of materials, including gas and liquid chromatography, atomic absorption and emission, X-ray diffraction and fluorescence and potentiometry. Lecture and laboratory. Lecture 3 hours, lab 6 hours.

Prerequisites: CHEM-213 minimum grade of C and CHEM-231 minimum grade of C.

CHEM-333. Introduction To Polymer Chemistry. 3 Hours.

An introduction to the broad field of polymer chemistry that focuses on the synthesis, processing, and applications of polymers of industrial and commercial importance.

CHEM-347. Advanced Organic Chemistry: Polyfunctional Compounds. 3 Hours.

Chemistry of polyfunctional compounds, condensed aromatic and heterocyclic systems, electrocyclic reactions and molecular rearrangements. Lecture 3 hours.

Prerequisite: CHEM-232 minimum grade of C.

CHEM-348. Advanced Organic Chemistry: Bio-Organic Compounds. 3 Hours.

The chemistry of complex molecules such as proteins, nucleic acids and carbohydrates is studied from the point of view of their physical properties and their reaction, synthesis and structure-function relationships. Lecture 3 hours.

Prerequisite: CHEM-232 minimum grade of C.

CHEM-349. Organic Synthesis. 4 Hours.

A systematic approach to the synthesis of complex organic compounds will be developed. The retrosynthetic approach will be taken, with a final target molecule being the goal of the synthesis. It will be taken apart, step-by-step to arrive at reasonable starting materials for the synthesis. Availability and expense of potential starting materials, necessity of protecting groups, and production of isomeric and/or stereoisomeric mixtures will be among the points of consideration for each synthesis. An accompanying laboratory will involve several multistep syntheses, which serve to illustrate principles developed in lecture and build upon experimental techniques encountered in prerequisite organic chemistry courses.

Prerequisite: CHEM-232 minimum grade of C or CHEM-330 minimum grade of C.

CHEM-350. Principles Of Toxicology. 3 Hours.

This course offers an introduction to the basic principles of the broad field of toxicology. The mechanisms involved in what constitutes a toxic response will be explored, including examples of toxic chemicals targeting specific biochemical pathways in the human body. Major groups of toxic chemicals such as pesticides, metals, solvents, vapors, radiation and radioactive materials, animal venoms and poisons, will be surveyed. Also addressed are the applied areas of food, forensic/ analytical, and occupational toxicology.

Prerequisite: CHEM-231 minimum grade of C.

CHEM-353. Principles of Pharmacology. 3 Hours.

This course will focus on the action of drugs on major organ systems, including the nervous, cardiovascular, gastrointestinal, respiratory, and reproductive systems, as well as drugs for cancer, infectious, and inflammatory diseases. It is also covers pharmacokinetics, drug-receptor interactions, and drug metabolism for these categories of therapeutic agents.

Prerequisite: CHEM-231 minimum grade of C.

CHEM-355. Principles Of Medicinal Chemistry. 3 Hours.

This course offers an introduction to the principles of drug design and the molecular mechanism by which drugs act on the human body. It covers basic structure and function of drug targets, lead compound identification, optimization of drug-target interaction and improvement of pharmacokinetic properties of drugs. Tools in the modern drug discovery and development such as high-through-put synthesis and screening, structure-activity relationships, and computer-aided drug design will be also addressed.

Prerequisite: CHEM-231 minimum grade of C.

CHEM-356. Bioorganic Chemistry Laboratory. 4 Hours.

This course offers a laboratory introduction to bioorganic chemistry, with experiments involving each of the main classes of biomolecules, including proteins, carbohydrates, lipids, and nucleic acids.

Prerequisites: CHEM-231 minimum grade of C and CHEM-232 minimum grade of C.

CHEM-357. Chemical Kinetics. 3 Hours.

The study and evaluation of various theories of reaction rates and mechanisms of chemical reactions. Lecture 3 hours.

Prerequisite: CHEM-311 minimum grade of C.

CHEM-362. Biochemistry. 4 Hours.

Chemistry and metabolism of carbohydrates, proteins, nucleic acids, lipids, vitamins and minerals associated with animal and plant life. Lecture and laboratory.

CHEM-365. Internship In Chemistry I. 6 Hours.

Experience in chemistry in an off-campus location, e.g. business or government. The student registering selects well-defined academic goals to be achieved. These goals will be selected in cooperation with an on-campus advisor. Independent studies require the approval of the instructor, department chair and the College Dean.

CHEM-366. Internship In Chemistry II. 6 Hours.

Continuation of CHEM-365. Independent studies require the approval of the instructor, department chair and the College Dean.

CHEM-372. Biochemistry Of Metabolism. 3 Hours.

Biochemistry of Metabolism is lecture-based course that focuses on the processing of carbohydrates, lipids, proteins, and nucleotides. This course will offer a mechanistic view of metabolic pathways related to each macromolecule group, including feedback control. Each section will be linked to clinical situations and will incorporate current primary research literature in the field of metabolism. Quantitative analysis of chemical reactions, bioenergetics, thermodynamics and interpretation of research articles will be incorporated as part of the lectures.

CHEM-391. Chemistry Capstone Seminar. 3 Hours.

Critical review of research presented by visiting university and industrial chemists and student preparation of original and library research topics. The course will also explore issues related to becoming a morally responsible scientist and will include ethical problem solving. Lecture 4 hours. May be taken concurrently with CHEM-311.

Prerequisite: CHEM-311 minimum grade of C.

CHEM-399. Undergraduate Research. 3 Hours.

Original laboratory research conducted with a faculty member. The course will usually require some library research, 10-12 hours per week laboratory work and the preparation of a formal, typed report. The course is useful for those students seeking recognition under the guidelines authorized by the American Chemical Society.

Prerequisites: CHEM-311 minimum grade of C and CHEM-330 minimum grade of C.

CHEM-401. Carbohydrates. 3 Hours.

Structure, stereochemistry and reactions of monosaccharides, disaccharides, oligosaccharides and polysaccharides. Lecture 3 hours. Graduate Standing.

Prerequisite: CHEM-312 minimum grade of C.

CHEM-402. Organometallic Chemistry. 3 Hours.

The metal-carbon bond including organometallic synthesis, structure, reaction mechanisms and thermodynamics. Main group metal-carbon compounds, transition metal-carbon compounds and such special topics as Grignard compounds, ferrocenes, carbonyl complexes and inorganic multiple bonding. Lecture 3 hours. Graduate Standing.

Prerequisites: CHEM-312 minimum grade of C and CHEM-316 minimum grade of C.

CHEM-403. Physical Methods Of Organic Chemistry. 3 Hours.

Various physical techniques of interest to the organic chemist are discussed including spectroscopic methods as proton and carbon-13 nuclear magnetic resonance, infrared and electronic spectroscopy and mass spectrometry, with emphasis on interpreting the combined data. The three credit hours include 2 hours of lecture and 1 hour of lab. Graduate standing.

Prerequisite: CHEM-312 minimum grade of C.

CHEM-404. Chemical Thermodynamics. 3 Hours.

Principles of thermodynamics and their application to chemical problems with particular emphasis on partial molal qualities, the chemical potential and the thermodynamics of chemical equilibria. Lecture 3 hours. Graduate Standing.

Prerequisite: CHEM-312 minimum grade of C.

CHEM-405. Quantum Chemistry. 3 Hours.

Application of quantum mechanism to chemistry. Topics include the Schrodinger equation and simple applications, the postulates and general principles of quantum mechanics, the harmonic oscillator, three-dimensional systems, atoms and molecules, and molecular spectroscopy. Lecture 3 hours. Graduate standing.

Prerequisite: CHEM-312 minimum grade of C.

CHEM-406. Coordination Chemistry. 3 Hours.

Scope of transition metal coordination complexes, coordination number and structure, ligand types, isomerization, complex stability, bonding, reaction mechanisms, magnetic moments. Lecture 3 hours. Graduate Standing.

Prerequisites: CHEM-312 minimum grade of C and CHEM-316 minimum grade of C.

CHEM-407. Symmetry In Chemistry. 3 Hours.

Introduction to those aspects of group theory and symmetry which are particularly relevant to chemistry including point groups, molecular vibrations, hybrid orbitals and crystal field theory. Lecture 3 hours.

Prerequisite: CHEM-312 minimum grade of C or PHYS-335 minimum grade of C.

CHEM-408. Independent Study In Chemistry. 3 Hours.

Research in a particular area of chemistry under faculty supervision.

CHEM-408A. Independent Study In Chemistry. 3 Hours.**CHEM-411. Organic Reaction Mechanisms. 3 Hours.**

Reaction pathways in organic chemistry including isotope effects, linear free energy relationships, stereochemistry, configurational analysis and pericyclic reactions. Lecture 3 hours. Graduate Standing.

Prerequisite: CHEM-312 minimum grade of C.

CHEM-412. Reaction Kinetics. 3 Hours.

Methods of studying reaction rates and mechanisms, derivation of mechanisms from rate laws. Theories of unimolecular and bimolecular reactions, and chain mechanisms and appropriate mathematical analysis. Lecture only. Lecture 3 hours. Graduate Standing.

Prerequisite: CHEM-312 minimum grade of C.

CHEM-413. Modern Inorganic Chemistry. 3 Hours.

In-depth survey of modern developments in inorganic chemistry, including noble gas chemistry, multiple bonding in coordination complexes, unusual oxidation states of elements, template reactions, inorganic polymers, and inorganic catalysis. Lecture 3 hours. Graduate Standing.

Prerequisite: CHEM-316 minimum grade of C.

CHEM-414. Advanced Analytical Chemistry. 3 Hours.

Electronic and computer-instrument interface, practical aspects of modern instrumental techniques based on various methods of optical spectroscopy and chromatography. Lecture 3 hours.

Prerequisite: CHEM-331 minimum grade of C.

CHEM-416. Nanoscience. 3 Hours.

This course introduces the students to the modern field of nanoscience and develops concepts and methodology for creation of new functional nanomaterials. Emphasis is put on the molecular self-assembly approach. The methods of film deposition, lithography, chemical synthesis and atom optics are covered as well. Scanning probe microscopy is introduced as a method of choice for studying and building nanoscale materials. Applications in the fields of electronic devices and nanomedicine are discussed.

Prerequisite: CHEM-312 minimum grade of C.

CHEM-430. Fourier Transform Spectroscopy. 3 Hours.

Prerequisites: CHEM-311 minimum grade of C and CHEM-312 minimum grade of C.

CHEM-431. Separation Methods. 3 Hours.

Review of thermodynamic and kinetic parameters as their impact on selectivity and efficiency of separation process, classification and application of modern chromatographic techniques. Lecture 3 hours.

Prerequisite: CHEM-331 minimum grade of C.

CHEM-450. Gas Chromatography. 3 Hours.

Principles and instrumentation, including classification and methods for selection of stationary phases, optimization of operational parameters, and various detection systems. Separation techniques prior to analysis, applications and hyphenated methods will be discussed. Lecture 3 hours. Graduate Standing and Consent of Instructor.

Prerequisite: CHEM-331 minimum grade of C.

CHEM-451. Liquid Chromatography. 3 Hours.

Review of thermodynamic and kinetic parameters as they impact on selectivity and efficiency of liquid chromatographic separations. Classification of mobile phases, including selection and ways to improve resolution. Principles of conventional liquid chromatographic techniques and their applications, including hyphenated methods. Lecture 3 hours. Consent of instructor. Graduate Standing.

Prerequisites: CHEM-331 minimum grade of C and CHEM-450 minimum grade of C.

CHEM-455. Method Development And Validation In Liquid Chromatography. 3 Hours.

Systematic approaches to the successful development of HPLC-based analytical methods and their optimization. Practical tools based on the use of computer simulation in method development. HPLC-methods validation presented on the basis of the currently accepted United States Pharmacopeia terminology.

Prerequisite: CHEM-451 minimum grade of C.

CHEM-456. Advanced Chromatographic Methods. 3 Hours.

Principles, methods and applications of various advanced chromatographic techniques of interest to the analytical chemist, including such chromatographic methods as chiral separations, ligand exchange chromatography, capillary electrophoresis, micellar chromatography, micellar electrokinetic capillary chromatography, and supercritical fluid chromatography. Lecture 3 hours.

Prerequisite: CHEM-451 minimum grade of C.

CHEM-5901. Thesis Hours: Chemistry. 1 Hour.

Guidance of students conducting research and writing a thesis to fulfill the requirements for the Master of Science degree in Chemistry.

CHEM-5902. Thesis Hours: Chemistry. 2 Hours.

See course description for CHEM-5901.

CHEM-5903. Thesis Hours: Chemistry. 3 Hours.

See course description for CHEM-5901.

Major in Chemistry

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Major in Chemistry for the Bachelor of Science Degree --Track in chemistry

Code	Title	Hours
Required Courses		
CHEM-211	General Chemistry I ¹	5
CHEM-212	General Chemistry II ¹	4
CHEM-213	Writing Intensive Program: Quantitative Analysis	5
CHEM-231	Organic Chemistry I ²	4
CHEM-232	Organic Chemistry II ²	4
CHEM-311	Physical Chemistry I ³	4
CHEM-312	Physical Chemistry II ³	4
CHEM-330	Instrumental Analysis: Spectroscopy	4
or CHEM-331	Instrumental Analysis: Quantitative Methods	
CHEM-391	Chemistry Capstone Seminar	3
Select two elective from the following:		6-8
CHEM-316	Inorganic Chemistry	
CHEM-319	Chemical Aspects Of Environmental Chemistry	
CHEM-320	Industrial Aspects Of Environmental Chemistry	
CHEM-321	Environmental Chemistry In The City	
CHEM-330	Instrumental Analysis: Spectroscopy ⁴	
CHEM-331	Instrumental Analysis: Quantitative Methods ⁴	
CHEM-347	Advanced Organic Chemistry: Polyfunctional Compounds	
CHEM-348	Advanced Organic Chemistry: Bio-Organic Compounds	
CHEM-349	Organic Synthesis	
CHEM-350	Principles Of Toxicology	
CHEM-353	Principles of Pharmacology	
CHEM-355	Principles Of Medicinal Chemistry	
CHEM-357	Chemical Kinetics	
Any other 300-level chemistry course approved by the department.		
Total Hours		43-45

Code	Title	Hours

CHEM-353	Principles of Pharmacology	
CHEM-355	Principles Of Medicinal Chemistry	
CHEM-357	Chemical Kinetics	
BIO-368	Genomics and Proteomics	
Any other 300-level chemistry course approved by the department		
Total Hours		38-40

¹ Major elective credit is given only if the course is not used to count towards the required courses in the major.

Students with foreign credentials are evaluated by the Office of Admissions as having 90 credit hours must take as a minimum the following six courses:

Code	Title	Hours
CHEM-213	Writing Intensive Program: Quantitative Analysis	5
CHEM-232	Organic Chemistry II	4
CHEM-311	Physical Chemistry I	4
CHEM-312	Physical Chemistry II	4
CHEM-330	Instrumental Analysis: Spectroscopy	4
or CHEM-331	Instrumental Analysis: Quantitative Methods	
CHEM-391	Chemistry Capstone Seminar	3

Additional courses may be required in chemistry, physics or mathematics. Students should see their advisor.

Total Hours	24
-------------	----

American Chemical Society (ACS) approved program in Chemistry:

Graduating majors may receive a certificate stating that they have completed a program which meets the ACS standards for Professional Training if they fulfill the following requirements:

1. Take PHYS-206L as prerequisite for CHEM-311.
2. Take PHYS-207L as prerequisite for CHEM-312.
3. Take CHEM-311 and CHEM-312 during the junior year.

CHEM-316, CHEM-330, CHEM-331, CHEM-347 and CHEM-348 are required. Two additional 300-level electives must then be selected.

Completion of this program requires a minimum of 50 cr. in chemistry with a minimum grade point average of 3.0 and no chemistry grades below C in any required course.

This sample curricular map is provided to guide you in the planning of your progression for this major. **This guide should not replace regular consultations with your program advisor.** For specific recommendations of courses not identified, please consult your program advisor.

Master of Science in Chemistry

This program provides graduate education for students planning careers in industry, business, teaching or planning additional graduate work or professional studies. Four options in the program are available, the Separation Science Emphasis, the Business-Oriented Separation Science Emphasis, the General Program Emphasis, and the Chemical Education Emphasis. Students in the program can follow the Separation Science Emphasis in order to be prepared for careers in pharmaceutical, cosmetics, nutrients, and food industries. The Business-Oriented Separation Science Emphasis enhance the educational experience of the Separation Science chemists beyond what could be achieved if the Separation Science and the Business Administration were pursued independently. It serves those who would like to advance into management positions. The General Program Emphasis prepares students to enter professional schools or to continue further graduate work in chemistry. The Chemical Education Emphasis serves in-service middle and high school teachers who attained a bachelor's degree in chemistry and hold a teaching certification/license to become highly qualified teachers trained in advanced chemistry and pedagogical content knowledge of teaching science in secondary schools. They will also be well prepared to conduct research in the area of Chemical Education or teach at 2-year colleges.

Requirements for Admission to the Program:

Students must fulfill the requirements for admission to the College of Graduate Studies and Research.

Full admission to the program requires at least a 3.0 (B) average in the following prerequisite undergraduate courses:

1. two semesters of general chemistry, two semesters of organic chemistry, two semesters of physical chemistry, and one semester of analytical chemistry (all of these must include laboratory);
2. two semesters (normally eight credit hours) of physics including laboratory; and
3. two semesters (normally eight credit hours) of calculus.

Conditional admission to the program may be granted when a student has a marginal undergraduate record or a deficiency in prerequisite undergraduate courses. All conditions must be fulfilled for candidacy (see below).

If the admission file/evaluation is not completed by the time of registration, the student may choose to register as a graduate student-at-large provided the appropriate application has been filed with the Office of Admission and Records in accordance with their established deadlines.

Requirements for the Degree:

- **Course Work: (30 credit hours)** A total of 30 credit hours must be earned. The majority of students take approximately ten formal courses. Options are available to earn credit hours for research, independent study, and thesis work as outlined below.
- For students admitted to Master's programs for the Fall 1997 semester and thereafter, graduate coursework is at the 400-level. However, two of the following courses may be taken as part of the master's program if they have not been previously taken as part of an undergraduate program. No other 300 level courses can apply. Consult with your program advisor or the Graduate College for details

Code	Title	Hours
CHEM-316	Inorganic Chemistry	4
CHEM-330	Instrumental Analysis: Spectroscopy	4
or CHEM-331	Instrumental Analysis: Quantitative Methods	
Total Hours		8

Core Courses

All students with the exception of the Business-Oriented Separation Science Emphasis must take at least one course in each of the four areas of the Core Courses.

Code	Title	Hours
Analytical Chemistry		
CHEM-450	Gas Chromatography	3
Inorganic Chemistry		
CHEM-402	Organometallic Chemistry	3
CHEM-406	Coordination Chemistry	3
CHEM-413	Modern Inorganic Chemistry	3
Organic Chemistry		
CHEM-403	Physical Methods Of Organic Chemistry	3
CHEM-411	Organic Reaction Mechanisms	3
Physical Chemistry		

CHEM-404	Chemical Thermodynamics	3
CHEM-405	Quantum Chemistry	3
CHEM-412	Reaction Kinetics	3

Separation Science Emphasis

Required Coursework:

Students in the Separation Science Emphasis program must take 21 hours from the CORE and 9 hours of the following Required Coursework in the Separation Science:

Code	Title	Hours
CHEM-451	Liquid Chromatography	3
CHEM-455	Method Development And Validation In Liquid Chromatography	3
CHEM-456	Advanced Chromatographic Methods	3
Total Hours		9

Students writing a thesis take 12 hours from the CORE, the 9 hours of Required Coursework in the Separation Science Emphasis, and 9 hours of Independent Study (CHEM-408, 3 cr.) and Thesis hours: Chemistry, 1 - 3 cr. in the area of Separation Science. These Thesis credit hours are added over multiple semesters to make 6 credits total. Non-thesis students take 18 hours from the CORE, the 9 hours of Required Coursework in the Separation Science, and 3 hours of Independent Study in the area of Separation Science.

BUSINESS-ORIENTED SEPARATION SCIENCE EMPHASIS

REQUIRED COURSEWORK:

Students in the Business-Oriented Separation Science Emphasis program must take 3 hours Gas- Chromatography (CHEM 450) from the CORE, 9 hours of the required course work in the Separation science, 3 hours Independent Study in the area of Separation Science, and 15 hours of the following Required Business Competencies Coursework:

Code	Title	Hours
Required Courses:		
COBM-401	Accounting For Managers	3
COBM-402	Business Economics And Finance For Managers	3
COBM-403	Topics In Management And Marketing	3
COBM-404	Business Statistics And Operations Decisions For Managers	3
Select one elective from the following Managerial Competencies courses or approved by the department:		
MNGT-474	Human Resources Policy And Decision Making	3
MNGT-480	Entrepreneurship	3
MNGT-489	Management Of Organizational Change	3
MNGT-490	Innovation And Creativity	3
MNGT-491	Strategic Technology & Innovation Management	3

General Program Emphasis

Students in the General Program Emphasis must take 30 credit hours from the CORE and/or Separation Science Emphasis and are also encouraged to do research and/or thesis work. Students writing a thesis take 21 hours from the CORE and/or Separation Science Emphasis and 9 hours of the Independent Study (CHEM-408 3 cr.) and Thesis hours: Chemistry 1-3 cr. in the area of Chemistry. These Thesis credit hours are added over multiple semesters to make 6 credits total. Non-thesis students take 27 hours from the Core and/or Separation Science Emphasis and 3 hours of Independent Study in the area of Chemistry.

Chemical Education Emphasis

Required coursework:

Students in the Chemical Education Emphasis program must take 21 hours from the CORE and/or Separation Science Emphasis and 9 hours of Required Coursework in Education listed below or other 400 level courses from the College of Education approved by the Chemistry Department.

Code	Title	Hours
EDFN-410	Education As A Social Institution	3
LTCY-502	Literacy Instruction In Content Areas In Secondary Grades	3
LTCY-506	Writing Instruction In Middle & High School	3

EDFN-442	Media Technology For Educators ¹	3
Total Hours		12

¹ EDFN-442 Highly Recommended

Students writing a thesis take 12 hours from the CORE and/or Separation Science Emphasis, the 9 credit hours from the Required Coursework in Education and/or other 400 level courses from the College of Education approved by the Chemistry Department, and 9 hours of Independent Study (CHEM-408) and Thesis hours: Chemistry 1-3 cr. in the area of Chemical Education. These Thesis credit hours are added over multiple semesters to make 6 credits total. Non-thesis students must take 18 hours from the Core and/or Separation Science, the 9 hours of Required Coursework in Education and/or other 400 level courses from the College of Education approved by the Chemistry Department, and 3 hours of Independent Study in the area of Chemical Education.

- **Research and Thesis Work:** Students are encouraged to do laboratory or library research and/or more formally, write a thesis, and may do so under the following condition:
 - acceptance by research or thesis advisor.
Academic credit for research and thesis work is normally earned through Independent Study (CHEM-408) and Thesis hours: Chemistry (CHEM-5901, 1 cr., CHEM-5902, 2 cr., and CHEM-5903, 3 cr.) Individual arrangements are made between the student and the research advisor.
- **Final Examination:** Students writing master's theses are required to make a public oral defense of their work. Non-thesis students must make a public oral presentation of their research work, or take a comprehensive written departmental examination. Consult the graduate advisor for details.
- **Students with Foreign Credentials:** Students with foreign credentials should check with the Graduate College regarding transcript evaluation and English language testing. Since this is often a lengthy process, it is advisable for the international student with residency status to begin taking graduate courses in chemistry as a student-at-large while waiting for official word on admission. Consult the graduate advisor.
- **Merit Tuition Scholarships and Assistantships:** The Chemistry program is regularly allotted Tuition Scholarships to defray the cost of tuition for graduate students. Check with the graduate advisor for eligibility requirements well in advance of registration.

Students wishing to pursue their master of science degree on a full-time basis may occasionally do so with modest support from the University in the form of an assistantship. To be eligible for an assistantship the student must have completed at least two terms at the University and have a grade point average of at least 3.25 (on a 4.0 scale).

Minor in Chemistry

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Minor in Chemistry (22 credit hours)

Code	Title	Hours
CHEM-211	General Chemistry I	5
CHEM-212	General Chemistry II	4

CHEM-213	Writing Intensive Program: Quantitative Analysis	5
CHEM-231	Organic Chemistry I	4
CHEM-232	Organic Chemistry II	4
Total Hours		22

Substitutions require written approval by the chemistry advisor.

Transfer students must take a minimum 9 credit hours in chemistry at Northeastern to complete a Chemistry Minor. These courses must be approved by the chemistry advisor.

Students in the Elementary Education and Early Childhood Education programs who have selected this minor must complete a minimum of 9 hours at the 300-level to meet graduation and certification requirements.

Child Advocacy Studies

- Minor in Child Advocacy Studies (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/child-advocacy-studies/minor-child-advocacy-studies/>)

Core Faculty

Rachel Birmingham, Ph.D., Associate Professor, Justice Studies, Coordinator of CAST

Susan Auman, M.S.W., Instructor, Social Work

Catherine Korda, M.S.W., Instructor, Justice Studies

Christopher Merchant, Ph.D., Associate Professor, Psychology

CAST-301. Introduction To Child Advocacy Studies. 3 Hours.

This course provides a survey of the emerging field of Child Advocacy Studies, which researches and seeks remedies for the maltreatment of children and youth, including specific acts of violence and neglect, in the context of the pernicious effects of racism, poverty, sexism, and heterosexism, including the unique problems faced by immigrant and displaced children. The course examines the various economic, political, social and cultural circumstances that may contribute to the abuse and maltreatment of children and youth. It also teaches students about the strategies and tactics used by various local governmental and nongovernmental agencies, courts and medical establishments to address these problems.

CAST-302. Psychosocial Advocacy For Developmental Maladjustment. 3 Hours.

This course is designed to provide the student with a survey of the various psychosocial, developmental, and public health difficulties that are faced by children and adolescents with specific focus on prevention and intervention strategies that are being employed by mental health and social service professionals at both community and societal levels. This course will also introduce the student to the ways that prevention/intervention strategies are developed, employed, and evaluated.

Prerequisite: CAST-301 minimum grade of C.

CAST-303. Child Advocacy Studies: Assessment And Evaluation. 3 Hours.

This is the third required course of the Child Advocacy Studies minor. It focuses on a combination of knowledge and skills necessary to providing direct service to children. The course begins with an examination of the mezzo- and macro-level systems and institutions that provide services for children and youth in the United States. The skills portion of the course supports students in gaining a beginning level of mastery in interviewing, assessment, and evaluation pertinent to serving children and youth who become identified as potential victims of abuse and neglect. The age-focus in this course includes early childhood, middle childhood, and adolescence.

Prerequisites: CAST-301 minimum grade of C and CAST-302 minimum grade of C.

CAST-304. CAST Internship Seminar. 3 Hours.

The focus of the CAST seminar course is to increase the student's sense of confidence in practicing as beginning level practitioners. This goal is achieved by building the student's awareness of her/his own strengths and limitations as a worker, along with the integration of knowledge, values and skills used in the generalist approach to practice with children, adolescents, and their families. Utilizing a collaborative supervision model, this experiential course supports students in achieving further mastery in the knowledge and skills obtained throughout the CAST coursework.

Prerequisites: CAST-301 minimum grade of C and CAST-302 minimum grade of C and CAST-303 minimum grade of C.

Minor in Child Advocacy Studies

Minor in Child Advocacy Studies (18 credit hours)

The Child Advocacy Studies minor provides students with knowledge and skills to deliver high quality services to infants, children, youth and their families. The program's goal is to prepare emerging practitioners to work effectively within various child-serving organizations and institutions. The program includes a focus on immigrant children and their families as well as children who are at risk or who have been impacted by violence and trauma. It also includes collaborative relationships with community-based providers that directly serve children and their families, and with advocates for equitable access to programs and services.

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Requirements for the MINOR in Child Advocacy Studies

To earn a CAST minor students must complete six classes (18 cr.) as follows:

- Four required courses (12 cr.),
- Two electives (6 cr.) from different disciplines drawn from the list of approved electives below.

While completing the final required course, CAST-304 students work 80 hours in the field at a site that has been approved by the CAST advisor.

Core Courses Required for Minor:

Code	Title	Hours
CAST Required Courses		12
CAST-301	Introduction To Child Advocacy Studies	
CAST-302	Psychosocial Advocacy For Developmental Maladjustment	
CAST-303	Child Advocacy Studies: Assessment And Evaluation

¹ Approved Electives are chosen from the selected interdisciplinary list of courses shown above.

The program will accept one elective course (3 cr.) from another college or university toward the minor, subject to the approval of the advisor.

Communication, Media, and Theatre

The Department of Communication, Media and Theatre (CMT) links three creative and demanding disciplines, all of which focus on social interaction, technology, and performance. The department offers an undergraduate Bachelor of Arts degree and a graduate Master of Arts degree.

CMT Undergraduate Program - Bachelor of Arts Degree

The undergraduate Bachelor of Arts degree includes courses on public speaking, group dynamics, intercultural communication, relationships, critical thinking, political activism, audio and visual media production, media literacy, journalism, film and television studies, performance, theatre literature, theatre production, and theatre education. Undergraduate students in the CMT program acquire proficiency in the theory and practice of communication, media, and theatre arts as well as develop an appreciation of differing values and perceptions of the world. Students acquire hands-on media training in a state-of-the-art media laboratory and firsthand theatre experience in the Stage Center Theatre. The CMT department also has a successful internship program that has helped many of our graduates secure employment upon graduation.

Students may declare a Communication, Media, and Theatre major or one of our six minors by visiting the CMT Department office (FA 240). At the time of declaring a major or minor in the Department, the student will be assigned an academic advisor from the Department faculty.

CMT majors may waive up to six credit hours of General Education requirements in either the Fine Arts or Humanities distribution area (or a combination of three credits in each distribution area).

Students in other majors who are looking for First-Year Experience (FYE) courses, General Education Courses, or a one-credit course at the 300-level to complete the 40-credit 300-level requirement may be interested in taking any of the following courses:

Code	Title	Hours
Courses of Interest for Non-CMT Majors		
First-Year Experience (FYE) Courses		
CMTM-109A	First Year Experience: Chicago On Video: One Pixel At A Time	3
CMTT-109	First Year Experience: Staging Chicago: Performances In, For, & About Chicago	3
General Education Courses		
CMTC-100	Introduction to Communication	3
CMTM-160	Introduction To Cinema	3
CMTT-130	Introduction to Theatre	3
One-Credit 300-Level Courses		
CMTM-390	NEIU Cinémathèque	1

CMT Graduate Program - Master of Arts Degree

The graduate Master of Arts degree in Communication, Media, and Theatre includes coursework that is largely historical and theoretical in nature and is designed to provide advanced study in these disciplines. Students will further their understanding of interpersonal, intercultural, and organizational relationships; confront complex social problems; think critically about new media technologies; and understand the role of film, television, and the dramatic arts in contemporary social life. The program is designed for students interested in advanced corporate, non-profit, or public service positions; current teachers at the elementary or secondary level; and those preparing for positions in higher education or further graduate study.

All newly admitted students begin coursework in the fall semester in a cohort

- Major in Communication, Media and Theatre (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/communication-media-theatre/communication-media-theatre/>)
- Minor in Communication, Media and Theatre (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/communication-media-theatre/minor-communication-media-theatre/>)
- Minor in Communication (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/communication-media-theatre/minor-communication/>)
- Minor in Media (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/communication-media-theatre/minor-media/>)
- Minor in Journalism (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/communication-media-theatre/minor-journalism/>)

- Master of Arts in Communication, Media and Theatre (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/communication-media-theatre/master-arts-communication-media-theatre/>)

Shayne Pepper, Ph.D., Associate Professor, Chair
Katrina E. Bell-Jordan, Ph.D., Professor

Maura Cherney, Ph.D., Assistant Professor
 Sarah Fabian, M.F.A., Assistant Professor
 Adam Goldstein, M.F.A., Assistant Professor
 Rodney Higginbotham, M.F.A., Professor
 Cyndi Moran, M.F.A., Professor
 Seung-Hwan Mun, Ph.D., Associate Professor
 Edie Rubinowitz, M.P.A., Associate Professor

CMTC-100. Introduction to Communication. 3 Hours.

The study of human communication with emphasis on how we communicate, the factors that influence the success of our communication interactions, and the areas in which communication take place.

CMTC-101. Public Speaking. 3 Hours.

The development of skills common to all forms of oral communication with emphasis on public speaking. Students will study organization, delivery, sources of materials and language usage.

CMTC-202. Voice and Diction. 3 Hours.

Emphasis on improving voice quality, volume, projection, rate, articulation, and pronunciation.

CMTC-210. Advanced Public Speaking. 3 Hours.

Concentrated study of public speaking and research for public speech, with attention to speech criticism and providing experience in various types of public speaking. Students will videotape selected talks for critique.

CMTC-213. Interpersonal Communication. 3 Hours.

This course studies how humans relate through the use of verbal and nonverbal symbols. Through participation and involvement, students explore how communication creates, maintains, and deteriorates relationships. Students also examine messages, meanings, feedback, nonverbal elements, listening, barriers and breakdowns as they affect relationships.

CMTC-214. Business and Professional Communication. 3 Hours.

This course focuses on the development of oral and written communication skills that are essential for professional life, including topics such as problem solving, listening, interviewing, and presentational skills.

CMTC-215. Small Group Communication. 3 Hours.

This course provides an in-depth study of small group communication processes. Students explore topics such as decision-making and problem solving, leadership, conflict, and diversity issues. Students are required to participate in group project.

CMTC-300. Mediated Communication. 3 Hours.

This is an investigation of the effects media and technologies have on social interaction and communication behaviors such as speaking, listening, understanding, and interpreting.

CMTC-301. Nonverbal Communication. 3 Hours.

This course explores the nature of non-verbal messages such as body language, facial expression, and artifacts in various communication contexts.

CMTC-305. Writing Intensive Program: Writing In Communication, Media & Theatre. 3 Hours.

This course is a writing intensive experience designed to introduce students to the functions and applications of various writing practices and theories in communication, media, and theatre. Students will gain an understanding of the foundations of these disciplines; recognize the broad categories of theoretical perspectives, such as humanistic, social scientific, and critical; and evaluate the contributions of various theories in interpersonal, rhetorical, organizational, media, dramatic, and intercultural contexts. This course includes formal (graded) and informal writing exercises of varying length and complexity, including but not limited to: free-writing, reading responses, and article critiques, as well as more advanced analysis and application papers.

Prerequisite: ENGL-101 minimum grade of C.

CMTC-306. Special Topics In Communication. 3 Hours.

This special topics course provides undergraduate students with the opportunity to study in depth a particular topic of communication. Topics will include, but are not limited to, the role and importance of communication in religion and science, politics, negotiation, intimacy and desire, and social difference.

CMTC-308. Independent Study in Communication. 3 Hours.

Individual investigation into a topic of the student's choice. Requires approval of instructor, chair and dean.

CMTC-310. Persuasion. 3 Hours.

This course examines contemporary theories and practices of persuasion through analysis and evaluation of persuasive messages in society from the used car lot to the presidential campaign.

CMTC-313. Communication, Gender & Identity. 3 Hours.

This course investigates some of the effects that gender and other identities have on communication behaviors, such as naming, language acquisition, professional orientation, conflict management, self-image, dress and social roles.

CMTC-314. Organizational Communication. 3 Hours.

This course examines organizational communication processes such as organizational culture, diversity, workplace participation and democracy. Students will assess (in)effective communication practices in organizations.

CMTC-315. Leadership Communication. 3 Hours.

This course examines the theory and practice of the social-emotional and task-related aspects of leadership processes. Students will explore standard works in classical leadership theory and contemporary frameworks related to motivation, emotional intelligence, and toxic leadership dynamics.

CMTC-316. Family Communication. 3 Hours.

This course studies the family system with a focus on the role communication plays in maintaining it. Students explore the functions of family roles, rules, and power and ways to increase or decrease communication effectiveness in this system.

CMTC-317. Intercultural Communication. 3 Hours.

This course explores issues in intercultural communication. Students will examine their own as well as other people's cultures. Major topics include race and ethnicity, immigration, social class, intercultural conflict, and social justice and how these reflect and/or affect verbal and nonverbal communication processes.

CMTC-319. Conflict Communication. 3 Hours.

This course examines the communication processes in interpersonal, organizational, and intercultural conflict, with attention to theories, research and practice related to conflict management.

CMTC-320. Classical Rhetoric. 3 Hours.**CMTC-322. Rhetorical Theory and Criticism. 3 Hours.**

Rhetorical theories from the modern era with attention to principal figures and critical methods. Consent of instructor.

CMTC-324. Rhetoric of Protest and Reform. 3 Hours.

Study of the speakers who through public communication had an impact on the course of American history from the colonial period to the present, such as Jonathan Edwards, Patrick Henry, Wendell Phillips, Robert Ingersoll, Angelina Grimke, William Lloyd Garrison, Carry Nation, Eugene V. Debs, Harry Truman and Martin Luther King. Consent of instructor.

CMTC-328. Rhetoric - Selected Studies. 1 Hour.

In-depth study of particular rhetorical figure, tradition or period. Emphasis placed on the impact of rhetorical communication in a specific social, cultural or historical context. Consent of instructor.

CMTC-329. Health Communication. 3 Hours.

This course is designed to provide an introduction to communication processes in various health care contexts. The course will integrate interpersonal, small group, organizational, and mass communication theory and research into a survey of areas such as communication between patients and caregivers, the role of culture in health practices, images of health in the mass media, and new directions in health communication technologies.

CMTC-330. Communication Research Methods. 3 Hours.

An introduction to the principles and methods of social scientific research as they relate to the antecedents, processes and outcomes of communication behaviors. This course is intended to cultivate skills necessary for interpreting and critically evaluating research results and for designing research projects. Topics include forming research questions and hypotheses, reviewing and critiquing literature, applying quantitative and qualitative research techniques, coding and analyzing observations and writing research reports.

CMTC-383. Professional Internship 1. 3 Hours.

Professional activities in a selected field of communication, performed and supervised at public or private facilities, corporate communication sites, businesses, agencies, etc.

CMTC-384. Professional Internship 2. 6 Hours.

(See CMTC-383 for description.).

CMTC-385. Professional Internship 3. 9 Hours.

(See CMTC-383 for description.).

CMTC-386. Professional Experience Seminar. 3 Hours.

The course will provide students with an opportunity to work in a professional communication, media or theatre position while examining the experience with a faculty member and their peers. For many students, a professional placement is a new, unfamiliar experience with a set of demands that are distinct from the academic world. This course will allow students to earn credit for an internship in their desired field, while enhancing their professionalism through discussion and reflection. Consent of the instructor is required.

CMTC-400. Special Topics In Communication. 3 Hours.

This special topics course provides graduate students with the opportunity to study in depth a particular area (e.g., intercultural, group, gender, family, organizational, interpersonal), topic (e.g., identity and difference, intimacy and desire, corporate consulting, political rhetoric), or method (e.g., rhetorical criticism, auto/ethnography, content analysis) of communication. The focus will be on critically examining foundational and contemporary works that advance the theory, research, and practice about this area, topic, or method.

CMTC-401. Introduction to Graduate Study. 3 Hours.

Problems, methods and resources involved in graduate study and research in all areas of communication, media and theatre.

CMTC-402. Seminar In Research Methods. 3 Hours.

An introduction to the principles and methods of Communication, Media and Theatre research. This course is intended to cultivate skills necessary for interpreting and critically evaluating research results and for designing research critiquing literature, applying quantitative and qualitative research techniques, coding and analyzing observations, and writing research reports.

CMTC-404. Communication Theory. 3 Hours.

An analysis of communication theories, including the nature of theories, message design and reception. Course covers a broad range of theories in the communication discipline, including both humanistic and social scientific approaches. Nonetheless, particular theories analyzed each semester will vary, depending on the instructor.

CMTC-414. Seminar In Organizational Communication. 3 Hours.

This course will provide an advanced look at the major elements of organizational theory that apply to organizational communication. This field, in a modern sense, began in the 1950's and since then has grown to be one of the biggest forces in communication today. We will examine what theories direct the reality of organizations and how much of that reality is managed for the purposes of controlling individuals, whether overtly or symbolically.

CMTC-416. Seminar In Interpersonal Communication. 3 Hours.

This is a seminar exploring the basic themes, concepts and debates in research on personal relationships. Students will learn to critically analyze theory and research about relationships. The course requires a major paper on one particular facet of communication in personal relationships.

CMTC-434. Independent Study In Communication. 3 Hours.

Individual investigation into selected topics in the theory and practice of communication. This course requires approval of the instructor, Department Chair and the appropriate College Dean(s).

CMTC-5901. Thesis Hours. 1 Hour.

Guidance of student work toward the completion of a thesis to fulfill the requirements for the Master of Arts degree in Communication, Media, and Theatre. Students may register for 1--#3 credits per term with a total of 6 credits required to complete the thesis project. This course requires approval of the instructor, Department Chair, and the appropriate College Dean(s).

Requirement: Approval of the graduate advisor.

CMTC-5902. Thesis Hours. 2 Hours.

See course description for CMTC-5901.

CMTC-5903. Thesis Hours. 3 Hours.

See course description for CMTC-5901.

CMTE-490. Instructional Communication. 3 Hours.

Selected topics in methods and materials related to speaking and listening; instructional problems relative to type of programs, trends in instruction, sources, resources and research. Individual projects will adapt resources and methodology to a particular type of school and classroom, such as the inner city.

CMTE-492. Teaching College Speech. 3 Hours.

This course examines the tasks of the communication teacher; philosophy, objectives, materials and methods of instruction, communication curricula and departmental operations; and professional relationships in the community.

CMTM-105. Introduction To Journalism. 3 Hours.

This survey course introduces students to the field of journalism, its basic concepts, processes and practices. It is intended as a guide to the workings of the journalism industry, including its various branches, the basis of news judgment, and the nature of journalism in the era of new media. Its hands-on approach is designed to provide a theoretical as well as "real world" understanding of the news and application of principles related to the production and dissemination of the news.

CMTM-109A. First Year Experience: Chicago On Video: One Pixel At A Time. 3 Hours.

In this course, the five foundations of the First-Year Experience (Future Planning, Integral Preparation, Research, Self-discovery and Transitions) are interwoven with the field-specific concepts and terminology of video production. Students in this dynamic, hands-on class will turn the lens on other students engaged in hands-on learning....producing children's theatre, testing water samples, conducting fieldwork, examining issues of social justice... and get a taste of both documentary production and advanced undergraduate coursework at NEIU. Students will also get to explore uses of video at the community level - from high school students covering sports events, to local immigrants keeping their cultural ties alive.

CMTM-160. Introduction To Cinema. 3 Hours.

This course introduces students to the basic elements of cinema (editing, cinematography, sound, etc.) and explores how these elements contribute to our understanding of the themes and meanings of a particular film. After gaining a foundational understanding of these formal elements, students assess how topics such as genre, narrative, authorship, and ideology help to shape cinema.

CMTM-165. Broadcasting & New Media. 3 Hours.

Introduction to the business and creative processes, structure and function of American television and radio, emphasizing the production, distribution and reception of news and information programming.

CMTM-205. Fundamentals Of Media Writing. 3 Hours.

This course helps students solidify grammar and writing skills so they can enter the competitive field of media. It focuses on punctuation and spelling issues and introduces the "Bible" of print media, The Associated Press Stylebook. Fundamentals of Media Writing picks up where Introduction to Journalism, CMTM-105, leaves off by moving students from talking about and analyzing journalistic writing to learning the basic tools to begin practicing the profession. The course serves as a skill-building foundation and prerequisite for News Writing, CMTM-367.

CMTM-208. Media Laboratory. 1 Hour.

Participation in various phases of production and management for either on campus or off-campus radio, television, or film activities. Communication, Media and Theatre majors may repeat this course once for laboratory credit towards graduation requirements only.

CMTM-250. Introduction To Audio Production. 3 Hours.

This course introduces students to the process of audio production. The course also explores sound as an industry and an art form, as well as a tool of self-expression and of story telling. Through a series of production exercises, working individually and in groups, the student becomes familiar with the process of audio production from concept to field recordings, to scripting and editing, to producing and mixing and then to sharing the finished work with others.

CMTM-260. Introduction to Video Production. 3 Hours.

This class will introduce students to the principles and practices of digital video production, with an emphasis on single camera field production and digital, non-linear editing. Aesthetics and conventions of television programs, independent/ art videos, and documentaries will also be examined.

CMTM-265. Mass Media and Society. 3 Hours.

Development and problems of the media; the history, regulation, and social and economic implications of the media; American media systems and their relation to the media's cultural content and function.

CMTM-310. Independent Study In Media. 3 Hours.

Individual investigation into a topic of the student's choice. Must have approval of instructor, chair and dean.

CMTM-3111. Fieldwork in Video Production. 1 Hour.

Academic credit (1-6 cr.) for guided video production fieldwork. Reserved for students who have been invited to participate in documentary, narrative, experimental, commercial or other relevant and typically off-campus field production opportunities. Student enrolls with media faculty who directs project and oversees student performance. Students will utilize research skills, apply principles learned in classroom, contribute meaningfully to a long-strand production, earn credit in a broadcast or higher-profile production, and explore career options. May be taken more than once, for a maximum of six credit hours.

Prerequisite: CMTM-260 minimum grade of C or MASS-260 minimum grade of C.

CMTM-3112. Fieldwork in Video Production. 2 Hours.

See CMTM-311 for course description.

Prerequisite: CMTM-260 minimum grade of C or MASS-260 minimum grade of C.

CMTM-3113. Fieldwork in Video Production. 3 Hours.

See CMTM-311 for course description.

Prerequisite: CMTM-260 minimum grade of C or MASS-260 minimum grade of C.

CMTM-3114. Fieldwork in Video Production. 4 Hours.

See CMTM-311 for course description.

Prerequisite: CMTM-260 minimum grade of C or MASS-260 minimum grade of C.

CMTM-3115. Fieldwork in Video Production. 5 Hours.

See CMTM-311 for course description.

Prerequisite: CMTM-260 minimum grade of C or MASS-260 minimum grade of C.

CMTM-3116. Fieldwork in Video Production. 6 Hours.

See CMTM-311 for course description.

Prerequisite: CMTM-260 minimum grade of C or MASS-260 minimum grade of C.

CMTM-360. Advanced Video Production. 3 Hours.

This hands-on class will expand students' understanding and application of the tools of video production. Student projects will primarily be individually produced, single camera video programs. We will screen many examples of video works, of a variety of genres and with an eye for the impact of the mode of transmission on the product. We will pay critical attention to audio for video, focus on the development of one's own "voice," and emphasize constructive criticism and revision.

Prerequisite: CMTM-260 minimum grade of C or MASS-260 minimum grade of C.

CMTM-361. Digital Video Editing. 4 Hours.

This hands-on class introduces students to the principles and practices of digital, non-linear video editing, including the aesthetics and conventions of film and video cutting, history and theories of editing, and technical aspects of editing. Students will use sample footage to edit, present and critique several projects, and they will edit a final piece using footage of their own choosing.

Prerequisite: CMTM-260 minimum grade of C or MASS-260 minimum grade of C.

CMTM-362. Video Production Workshop. 3 Hours.

In this intensive, hands-on class students will produce short non-fiction video modules, linked to a specific theme each term. Students will work in small production teams, and will write, direct, shoot and edit their segments, rotating responsibilities. Students will screen, critique and revise modules, create finished shows, and organize and promote screenings.

Prerequisite: CMTM-260 minimum grade of C or MASS-260 minimum grade of C.

CMTM-363. Documentary Film. 3 Hours.

Historical survey of the international non-fiction film, including creative films, anthropological films, and television journalistic documentaries.

CMTM-364. Writing For Media - Revolving Topics. 3 Hours.

This revolving topics course provides exposure to a variety of writing topics and writing formats that will give students studying media the opportunity to develop in-depth written works in a workshop environment, with an emphasis on constructive criticism and revision. Consult the Schedule of Classes for specific topics.

CMTM-364A. Writing The Sitcom. 3 Hours.

This is a course devoted to writing the television half-hour situation comedy - a highly conventionalized television form. Students will discuss theories of comedy, analyze the structure of the sitcom, and learn industry standards for formatting and developing a script from initial idea to final script. Students will work in an approximation of a television "writers' room" in which feedback and critique are part of the creative process.

CMTM-364B. Writing For Media: Solutions Journalism. 3 Hours.

This version of Writing for Media will focus on a new way of covering the news called "Solutions Journalism." Students will read, analyze, and write news stories that address problems but also focus on the solutions.

CMTM-365. Contemporary Issues in Mass Media. 3 Hours.

Advanced study of the socio-psychological impact of the media upon contemporary society.

Prerequisite: CMTM-265 minimum grade of C or MASS-265 minimum grade of C.

CMTM-366. Multimedia Storytelling. 3 Hours.

This course will involve writing for various media platforms with practice in the multimedia creation of original works; experience in writing forms and content typical of various media and criteria for evaluating written work; discussion of career opportunities.

Prerequisite: CMTM-260 minimum grade of C or CMTM-250 minimum grade of C.

CMTM-367. News Writing. 3 Hours.

This course will take students through the basics of news writing and reporting. The course will demand in-class writing assignments that will help students prioritize information and write with accuracy under deadline. Students will discuss and be tested on current affairs and evaluate a variety of news sources. Students will cover local events and generate story ideas.

Prerequisite: CMTM-205 minimum grade of D.

CMTM-368. Community Media. 3 Hours.

The course will familiarize students with the important journalistic function uniquely served by community-based media, a function increasingly important in today's media landscape of centrally produced content controlled by fewer and fewer owners focused primarily on the economic needs of those owners and the advertisers. The course will introduce students to different forms of community media - print, video, audio, and new technologies - and how these contribute to the building of community.

CMTM-370. Public Relations. 3 Hours.

Examination of the history, development and practice of the public relations field, with attention to the planning, implementation and execution of public relations campaigns and the survey techniques and strategies used by public relations practitioners.

CMTM-371. American Cinema (Origins-1950). 3 Hours.

This course is an investigation of the evolution of American film history from its origins to the end of World War II. Students are introduced to the creative, industrial, and technological developments of the given period using a variety of analytical approaches. Films are investigated according to their historical, technological, aesthetic, and ideological significance as well as their genre placement.

CMTM-372. American Cinema (1950-Present). 3 Hours.

This course is an investigation of the evolution of American film history from the end of World War II until the present. Students are introduced to the creative, industrial, and technological developments of the given period using a variety of analytical approaches. Films are investigated according to their historical, technological, aesthetic, and ideological significance as well as their genre placement.

CMTM-373. World Cinema. 3 Hours.

An examination of the major influential film movements and filmmakers from around the world and their impact on the language of cinema. This course is intended to develop an understanding of the evolution of narrative film history by analyzing films according to their historical, technological, aesthetic and ideological significance.

CMTM-374. Special Topics In Film. 3 Hours.

This revolving topics course provides exposure to a variety of topics that will give students studying film the opportunity to engage in broader as well as more in-depth investigations of the history, concepts and theoretical approaches to film studies and the body of scholarship in this field. Consult the Schedule of Classes for specific topics.

CMTM-374A. American Horror Film. 3 Hours.

As one of the revolving topics in the Studies in Film course, this class will introduce the history, evolution, and important themes of the American horror film, serving as an overview of the genre and locating it in American historical, cultural, and literary contexts. Approaches will include close readings of films as well as psychoanalytic, ideological, and feminist analyses. A number of films and clips will be screened and discussed in the context of course readings.

CMTM-375. Contemporary Hispanic Cinema. 3 Hours.

An introduction to some of the major contemporary films and filmmakers from Spain and Latin American countries. The course will not only analyze the artistic merits of the films, but also examine the social, economic, historical and political context within which they were created and how their themes are related to national identity, as well as international concerns.

CMTM-376. Television History. 3 Hours.

An overview of the cultural history of television from its origins in radio to cable and satellite communication, primarily in the U.S., but with some comparison to international contexts. Television programs are the primary focus and will be used to explore topics such as technology, regulation, audience measurement, commercial and educational/public broadcasting, advertising and programming strategies.

CMTM-377. Gender And Media. 3 Hours.

This course examines representations of gender and sexuality in popular media. Students will begin with feminist theories of representation and follow theoretical developments that include issues of race, ethnicity, masculinity, and queer theory as they relate to film, television, and new media.

CMTM-378. New Media Technologies. 3 Hours.

This course explores emerging media technologies, including descriptions of the technologies, how their implementation affects existing media institutions, and social implications of the technologies. Emphasis is on historical perspectives on emerging media technologies in the global information society including digital audio-visual media, computers and consumer electronics, and various networking technologies. The course provides students with an understanding of the background, structure, functions, and current status for each technology. Emerging convergent media revolutionizing the global knowledge system will also be covered, including deregulatory policies, corporate mergers, and industrial restructuring.

CMTM-379. Media Law & Ethics. 3 Hours.

This course introduces students to the study of legal and ethical issues affecting U.S. mass media from journalistic and business perspectives. Specifically, the course will explore the legal and ethical responsibilities and rights of communicators and media professionals across various issues, including the First Amendment, defamation, privacy, newsgathering, regulation over media content, intellectual property rights, and regulation of electronic media and advertising industry. It will also help students think through media issues from a moral reasoning perspective by taking a variety of cases through an ethical framework.

CMTM-380. Special Topics In Television. 3 Hours.

This special topics course provides exposure to a variety of topics in television studies. Students will investigate historical, industrial, theoretical, and critical approaches to television studies. Consult the Schedule of Classes for specific topics.

CMTM-380A. Television Genres. 3 Hours.

Television Genres will cover a variety of scholarly approaches to the study of television programs. Genres can be studied for how they change over time, in response to cultural changes or economic exigencies. This course will take up theoretical questions of televisuality (the aesthetic conditions of the television text), and then focus on a number of particular genres. We will be primarily focusing on U.S. television, but there will be some attention to global questions, especially those of flow and format.

CMTM-383. Professional Internship 1. 3 Hours.

Professional activities in a selected field of media, performed and supervised at public or private facilities, corporations, business agencies, etc.

CMTM-384. Professional Internship 2. 6 Hours.

(See CMTM-383 for description).

CMTM-385. Professional Internship 3. 9 Hours.

(See CMTM-383 for description).

CMTM-390. NEIU Cinémathèque. 1 Hour.

A "cinémathèque" is a small, specialized theater where important films are screened, discussed, archived, preserved, and loved. Drawing upon the tradition of cinémathèques across the world, this course will provide an opportunity for students to screen, discuss, and research important works of cinema here at Northeastern Illinois University. With on-campus resources such as 35mm prints screened by the Chicago Film Society and our extensive holdings of the Criterion Collection in the Ronald Williams Library, students will learn about the material practices surrounding film such as archival collection, preservation, and restoration as well as distribution, exhibition, criticism, and reception.

CMTM-410. Independent Study In Media. 3 Hours.

Individual investigation into selected topics in theory and practice of media. Independent studies require the approval of the instructor, Department Chair and appropriate College Dean (s).

CMTM-465. Mass Communication Theory. 3 Hours.

This course is designed to investigate the concepts, ideologies, and resulting scholarship that are relevant to the study of mass communication. Students will study a variety of mass communication theories and will critically evaluate the merits of these perspectives. Students will develop research projects to further interpret and utilize mass communication theories.

CMTM-466. Media And Cultural Studies. 3 Hours.

This graduate seminar is designed to expose students to a "cultural studies" approach to media. Cultural studies scholars are primarily concerned with issues of power, and this approach has long informed the discipline of critical media studies. The focus on media will explore structures of power and inequality as they relate to the politics of identity and experience. Drawing upon foundational readings in the field as well as current media and cultural studies scholarship, students will spend the semester exploring the way in which these structures of power materialize in media texts and industrial formations.

CMTM-467. Special Topics In Film & Television. 3 Hours.

This special topics course provides graduate students an opportunity to explore historical and theoretical approaches specific to studies of film and television. Special topics may include film history and theory, television history, national cinemas, genres, industrial technologies and trends, and issues of representation such as race, class, and gender. Required: Graduate standing.

CMTM-468. Seminar In New Media. 3 Hours.

This course will explore critical approaches to "new media" by considering the dual meaning of the term. On one hand it describes the sense of "newness" often accompanying emerging media technologies throughout history, but it also describes the important contemporary shift from analog to digital media. Students will examine the history of several media technologies at critical moments of development, change, or rupture as well as analyze issues relevant to digital media such as file sharing, social networking, identity theft, surveillance, and cyberwarfare.

CMTT-109. First Year Experience: Staging Chicago: Performances In, For, & About Chicago. 3 Hours.

In Staging Chicago students will read, watch, write, and perform plays about Chicago. Special attention will be paid to plays that premiered in Chicago and were produced by Chicago artists. In addition to reading plays, students will have an opportunity to stage scenes and present their own theatrical interpretation of the Second City.

CMTT-130. Introduction to Theatre. 3 Hours.

Survey of the components of theatrical experience and the function of the various contributors to theatrical production. Attendance at selected theatrical productions is required.

CMTT-139. Theatre Practicum 1. 1 Hour.

Practical, hands-on experience in all technical areas of theatre for main stage productions. Communication, Media and Theatre majors may repeat this course once for laboratory credit towards graduation requirements.

CMTT-203. Voice For The Performer. 3 Hours.

This course offers an intensive exploration of spoken vocal performance technique for the actor. Students will examine the function and usage of breath, create healthy connection between breath and sound, build resonance, and improve articulation skills leading to dynamic performances in a variety of texts and forms.

CMTT-220. Improvisation. 3 Hours.

Emphasis on mastering improvisational theatre games for both actor training and performance.

CMTT-221. Acting 1. 3 Hours.

The basic skills of acting including the actor's internal preparation for playing a role and the development of his/her external technique for projecting the role to the audience.

CMTT-239. Theatre Practicum. 3 Hours.

Practical, hands-on experience in all technical areas of theatre for main stage productions.

CMTT-240. Stagecraft. 3 Hours.

An introduction to all aspects of backstage technical production.

CMTT-242. Costume Construction. 3 Hours.

Students will learn theatrical costume construction techniques through the study of basic fabric handling, pattern cutting, hand and machine sewing, and fabric dying. Students will also learn costume care and storage.

CMTT-249. Makeup. 3 Hours.

Fundamentals of stage and television makeup for straight and character roles; emphasis on the application of makeup, historical periods and uses of masks.

CMTT-255. Performance of Literature. 3 Hours.

Development of intellectual and emotional responsiveness to prose, poetry and drama, and the ability to communicate effectively in performance.

CMTT-309. Independent Study in Theatre. 3 Hours.

Individual investigation into a topic of the student's choice. Approval of instructor, department chair and dean.

CMTT-321. Acting 2. 4 Hours.

Refinement of skills developed in Acting 1 with emphasis on the use of improvisation to develop and project characters from standard plays.

Prerequisite: CMTT-221 minimum grade of C.

CMTT-331. History of Theatre 1. 3 Hours.

Chronological survey of the development of theatre and drama of the Western World from the early Greek festivals to the early Renaissance period.

CMTT-332. History of Theatre 2. 3 Hours.

Chronological survey of the development of theatre and drama of the Western World from the Renaissance period to the twentieth century.

CMTT-333. Contemporary Theatre. 3 Hours.

This course provides a survey of theatre and drama from the twentieth century to the present.

CMTT-334. Special Topics In Theatre. 3 Hours.

In-depth study of the major works of a single dramatist or movement, the relationship of those works to the period in which they were produced, and their place in the history of dramatic literature. Consult the Schedule of Classes for specific topics.

CMTT-335. American Theatre And Society. 3 Hours.

In-depth study of American plays in the 20th century that reflect the political and social changes in the society. Plays will be analyzed in relation to the literary text, the theatrical texts in their historical and social context, and social issues through literature.

CMTT-336. Realism and Naturalism. 3 Hours.

A survey of naturalism and realism in drama and theatre from the late 19th century to the present, covering major plays, playwrights and theatre practitioners.

CMTT-337. Women In Playwriting. 3 Hours.

This course examines the work of the dynamic women who have shaped theatre through their words and stories. The class will investigate the lens of women playwrights and the diverse range of art created through that lens.

CMTT-338. Melodrama. 3 Hours.

An exploration of melodrama as the dramatic form that dominated the nineteenth century stage in the United States. The course focuses on identifying the characteristics of melodrama and contemporaneous theatre practice, reading representative plays, and exploring the social and political issues of the day reflected in the plays.

CMTT-339. Technical Theatre Production. 3 Hours.

The study and practice of technical theatre production in the areas of scenery, lighting, costumes, and props. Students collaborate and execute the designs for the Stage Center Theatre Mainstage Season.

CMTT-340. Set Design. 3 Hours.

Comprehensive study of the principles of scene design theory and practice.

Prerequisite: CMTT-130 minimum grade of C.

CMTT-341. Lighting Design. 3 Hours.

Comprehensive study of the principles of lighting design theory and practical application.

Prerequisite: CMTT-130 minimum grade of C or PERF-130 minimum grade of C.

CMTT-342. Costume Design. 3 Hours.

In-depth study of the basic design skills, identification of textiles, as well as analysis of dramatic texts for costuming and coordinating designs with a theatre production team.

Prerequisite: CMTT-130 minimum grade of C.

CMTT-343. Stage Management. 3 Hours.

In-depth study of the job of the Stage Manager, including production planning, prompt book design, scheduling and managing rehearsal time, and actually stage managing and calling a show.

CMTT-345. Directing. 3 Hours.

Principles and techniques of the director's art.

Prerequisite: CMTT-130 minimum grade of C.

CMTT-346. American Musical Theatre. 3 Hours.

Survey of the history and evolution of American musical theatre, particularly focusing on the "Broadway musical", within the context of the political, economic, social and cultural events.

CMTT-347. Playwriting. 3 Hours.

Study of dramatic art with practice in the writing of plays for dramatic production. An attempt will be made to provide laboratory productions of outstanding student works.

CMTT-348. Advanced Stagecraft. 3 Hours.

Advanced methods in backstage technical production.

Prerequisite: CMTT-240 minimum grade of C.

CMTT-349. Summer Theatre. 3 Hours.

A laboratory class covering all phases of theatre production in conjunction with the production of a play script. Includes acting, directing, set and costume design, choreography, lighting, props publicity and theatre management as related to the production of a play script.

CMTT-350. Children's Theatre Workshop:Elementary. 4 Hours.

This course offers a comprehensive look at all facets of creating and producing theatre for Elementary school aged youth. Students research professional approaches to theatre for young audiences, rehearse, design, market, create youth engagement experiences, and build education strategies in order to generate critical storytelling experiences for young people. The course culminates in a class mounted production of a play for Chicago Public School student audiences in Stage Center Theatre.

CMTT-351. Children's Theatre Workshop:Middle and High School. 4 Hours.

This course offers a comprehensive look at all facets of creating and producing theatre for Middle and High School aged youth. Students research professional approaches to theatre for young audiences, rehearse, design, market, create youth engagement experiences, and build education strategies in order to generate critical storytelling experiences for young people. The course culminates in a class mounted production of a play for Chicago Public School student audiences in Stage Center Theatre.

CMTT-355. Advanced Performance Of Literature. 3 Hours.

Literary analysis of poetry and prose; presentation of individual and multiple performers.

Prerequisite: CMTT-255 minimum grade of C or PERF-255 minimum grade of C.

CMTT-357. Interpretation of Shakespeare. 3 Hours.

Selected comedies, tragedies and histories, tracing the development of the dramatist; emphasis on special performance techniques to illuminate a thorough study of the plays.

Prerequisite: CMTT-255 minimum grade of C or PERF-255 minimum grade of C.

CMTT-358. Acting 3. 4 Hours.

Advanced methods in acting including analyzing language and approaching language problems in theatre production. Scene work is taken from classic dramas.

Prerequisite: CMTT-321 minimum grade of C.

CMTT-359. Experimental Theatre. 3 Hours.

In this course, students will study and perform experimental modes of theatre. Methods may include collaborative devising, verbatim theatre, playback theatre, physical theatre, relational performance, solo storytelling, game theatre, and live art techniques.

CMTT-383. Professional Internship 1. 3 Hours.

Professional activities in a selected field of theatre, performed and supervised at public or private facilities, theatres, organizations, schools, etc.

CMTT-384. Professional Internship 2. 6 Hours.

(See CMTT-383 for description.).

CMTT-385. Professional Internship 3. 9 Hours.

(See CMTT-383 for description.).

CMTT-392. Integrating The Arts Across Disciplines: Art As A Tool For Teaching & Training. 3 Hours.

This course instructs aspiring leaders in the fields of education, business, science, and the arts in utilizing the skills of collaboration, innovation, and project management employed across the disciplines as tools for teaching, training, creativity, and innovation. This experiential course delivers the fundamental concepts and pedagogy of creative leadership through field experience, guest interviews, and documentation projects.

CMTT-393. Drama For Teaching And Learning. 3 Hours.

CMTT-393 is a practical, process-oriented course designed to introduce students to techniques for using drama as a teaching tool. From 20th century techniques for using drama as a teaching tool in elementary and middle schools, to contemporary approaches to drama as a means of community engagement and social intervention with youth and adults, students will explore multiple methods for applying drama and theatre in a variety of pedagogical settings. Course assignments are hands-on and emphasize various techniques in a space conducive to developing increased proficiency, both individually and in groups.

CMTT-423. Independent Study in Theatre. 3 Hours.

Individual investigation into selected topics in methods and materials for dramatic activities. Permission of instructor, chair, dean & graduate director.

CMTT-430. Dramatic Theory. 3 Hours.

This course offers an analysis of major theories of dramatic writing and dramatic production from Aristotle to contemporary theorists, and explores how these theories influence theatre and drama.

CMTT-431. Comparative Performing Arts. 3 Hours.

This course compares various examples and methodologies of adaptation in performing arts such as ballet, opera, drama, film, and television. Students are required to attend performances.

CMTT-446. Theatre Management. 3 Hours.

Managerial policies and practices in educational and community theatres with emphasis upon common problems and solutions.

CMTT-473. Special Topics In Theatre. 3 Hours.

This revolving topics course allows graduate students the opportunity to study in-depth, specific theatre methods, movements and motivators. Consult the Schedule of Classes for specific topics.

Major in Communication, Media, and Theatre

The undergraduate degree is a liberal arts oriented degree program which allows students to concentrate, via elective course selection, in any of the three areas of study offered within the department:

Communication (CMTC), Theatre (CMTT), and Media (CMTM).

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Master of Arts in Communication, Media, and Theatre

Master of Arts in Communication, Media and Theatre (30 credit hours)

This graduate program is designed to provide advanced study of communication research and the principles and practices of communication, media and theatre, for teachers of communication at the secondary level, elementary school teachers, candidates for teaching positions in higher education, students interested in positions in business and industry, and as a preparation for further graduate study. All newly admitted students begin coursework in the fall semester.

Minimum Requirements for Admission to the Program

Students must fulfill the requirements for admission to the College of Graduate Studies and Research before admission into the CMT graduate program can be considered. Applicants are required to have completed 15 undergraduate credit hours (a minimum of 9 credit hours at the advanced [300 or above] undergraduate level) in Communication, Media or Theatre or related areas at an accredited institution of higher education with a B average. Applicants will also be asked to submit a writing sample. Students must satisfy these requirements prior to being admitted into the program. All final admission decisions rest with the CMT Graduate Advisor.

Students at large will only be authorized to enroll in graduate-level courses with approval of the graduate advisor and the course instructor.

Requirements for the Degree:

30 credit hours are required in consultation with the graduate advisor. A maximum of six hours in cognate areas may be included in the program with the approval of the graduate faculty committee of the Department of Communication, Media and Theatre.

Required Courses:

Code	Title	Hours
Core courses		
CMTC-401	Introduction to Graduate Study	3
CMTC-402	Seminar In Research Methods	3
CMTC-404	Communication Theory	3
CMTT-430	Dramatic Theory	3
CMTM-465	Mass Communication Theory	3
5 Electives selected from 400-level courses in Communication, Media and Theatre		15
Total Hours		30

Electives

Code	Title	Hours
CMTC-400	Special Topics In Communication	3
CMTC-414	Seminar In Organizational Communication	3
CMTC-416	Seminar In Interpersonal Communication	3
CMTC-434	Independent Study In Communication	3
CMTE-490	Instructional Communication	3
CMTE-492	Teaching College Speech	3
CMTM-410	Independent Study In Media	3
CMTM-466	Media And Cultural Studies	3
CMTM-467	Special Topics In Film & Television	3
CMTM-468	Seminar In New Media	3
CMTT-423	Independent Study in Theatre	3
CMTT-431	Comparative Performing Arts	3
CMTT-446	Theatre Management	3
CMTT-473	Special Topics In Theatre	3

In addition to coursework, students must (a) take comprehensive exams, or (b) apply to write a thesis, in order to graduate. Theses must have the approval of the appropriate graduate committee. Students should enroll in CMTC-5901, CMTC-5902 or CMTC-5903. The course counts towards the requirement of 400-level electives. Students may enroll one time only.

Students who complete a thesis must pass an oral examination on topics included in the thesis.

Further information will be provided upon acceptance into the program. Please contact the CMT Graduate Advisor for current information about CMT Graduate Course offerings.

30 credit hours are required in consultation with the graduate advisor. A maximum of six hours in cognate areas may be included in the program with the approval of the graduate faculty committee of the Department of Communication, Media and Theatre.

3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Minor in Media (15 credit hours)

Code	Title	Hours
Required Courses		
Select one of the following Production/Writing courses:		
		3

CMTM-205	Fundamentals Of Media Writing	
CMTM-260	Introduction to Video Production	
CMTM-360	Advanced Video Production ¹	
CMTM-361	Digital Video Editing	
CMTM-362	Video Production Workshop ¹	
CMTM-364	Writing For Media - Revolving Topics	
CMTM-366	Multimedia Storytelling ²	
CMTM-367	News Writing ³	
Select one of the following Content/Theory courses:		3
CMTM-265	Mass Media and Society	
CMTM-363	Documentary Film	
CMTM-365	Contemporary Issues in Mass Media	
CMTM-370	Public Relations	
CMTM-371	American Cinema (Origins-1950)	
CMTM-372	American Cinema (1950-Present)	
CMTM-373	World Cinema	
CMTM-376	Television History	
CMTM-377	Gender And Media	
Two Media (CMTM) Electives (300-Level)		6
One Media (CMTM) Elective (Any Level)		3
Total Hours		15
¹	CMTM-260 prerequisite	
²	CMTM-250 or CMTM-260 prerequisite	
³	CMTM-205 prerequisite	

Minor in Theatre

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

CMTT-334	Special Topics In Theatre	
CMTT-335	American Theatre And Society	
CMTT-336	Realism and Naturalism	
CMTT-337	Women In Playwriting	
CMTT-338	Melodrama	
CMTT-346	American Musical Theatre	
Elective:		3
One Theatre (CMTT) Elective (Any Level)		
Total Hours		18

¹ CMTT-221 or equivalent prerequisite

² CMTT-130 prerequisite

Students interested in a CMT major or minor should consult with the Department chairperson.

Computer Science

The goal of the Department of Computer Science (<http://www.neiu.edu/academics/college-of-arts-and-sciences/departments/computer-science/>) is to provide individuals with a broad-based theoretical and practical understanding of Computer Science. Students who complete the program are prepared to pursue graduate study or to assume positions which include software engineering, network design and management, Web design, and the application of computers and related technologies to problems in industry such as computer security.

The Department of Computer Science offers courses leading to the degrees of Bachelor of Science in Computer Science and Master of Science in Computer Science.

The undergraduate curriculum offered by the Department of Computer Science is designed to serve these purposes: to offer an undergraduate major in computer science for individuals who wish to pursue a career in this field; to offer a minor in computer science for those who feel the need for a less extensive concentration in computing; to prepare students for graduate work in computer science; and to serve students in other academic disciplines by offering instruction in computer applications that are useful in these disciplines.

The Department offers an undergraduate major with three choices of concentration. In each concentration, students are guided through a carefully selected sequence of courses designed to provide a thorough grounding in practical aspects of the field. Students will also acquire sufficient theoretical background to enable them to keep up with the rapid changes in computer technology and methodology. Students should consult a Department advisor to determine which concentration and electives to choose.

- Major in Computer Science (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/computer-science/computer-science/>)
- Minor in Computer Science (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/computer-science/minor-computer-science/>)

General Requirements:

During their first term, transfer students should have all transferred Computer Science courses evaluated by a Computer Science Department advisor for possible acceptance towards major or minor requirements. Acceptance of credit by the University does not guarantee acceptance by the Department.

NOTE: CONTACT A DEPARTMENT ADVISOR FOR CURRENT REQUIREMENTS.

- Master of Science in Computer Science (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/computer-science/master-science-computer-science/>)

Marcelo O. Sztainberg, Ph.D., Associate Professor, Chair

Rachel Adler, Ph.D., Associate Professor

Francisco Iacobelli, Ph.D., Associate Professor

Ahmed E. Khaled, Ph.D., Assistant Professor

Peter G. Kimmel, Ph.D., Professor

Manar S.H. Mohaisen, Ph.D., Assistant Professor

Graciela Perera, Ph.D., Associate Professor

Pericles Prezas, Ph.D., Assistant Professor

Rachel Trana, Ph.D., Assistant Professor

Xiwei Wang, Ph.D., Assistant Professor

CS-100. Computers And Society. 3 Hours.

This course provides an introduction to the history of computing and how computers have affected society. Furthermore, it covers the basic computer skills needed to be truly computer literate in modern society. Topics include, but are not limited to the history of computing, the social context of computing, ethical issues in computing, computer security and privacy, the impact of the Internet and the World Wide Web, an introduction to computer architecture and operating systems, and basic computer programs utilized for school, work, and home.

CS-101. Creative Problem Solving. 3 Hours.

The goal of this course is to focus on the skills required to analyze a problem and create a step-by-step (algorithmic) solution to that problem. Basic computation using arithmetic, relational, and logical operators will be covered as well as an in-depth treatment of decision and repetition control structures to create algorithms based on mathematical concepts such as summation, averages, exponentiation, prime and perfect numbers, algebraic and geometric sequences, etc.

Prerequisite: MATH-092 minimum grade of C.

CS-108. Computer Science For All. 3 Hours.

Computer science has revolutionized many disciplines and it is no longer only for computer scientists. By studying computer science students will use computational thinking and apply programming to real world scenarios and interdisciplinary examples from science, math and teacher education. Robots and web and mobile-based coding platforms will be used to expose students to coding through different technologies. Students will learn computer science concepts such as algorithms, loops, and conditionals. Each week students will engage in hands-on computational thinking or coding exercises. Finally, students will complete a project using coding to demonstrate scientific, mathematical, or concepts from other disciplines.

Prerequisite: ENGL-101 minimum grade of C.

CS-109. First Year Experience: The Information Age: Its Impact On Chicago's Culture. 3 Hours.

The 21st century has seen the genesis of the Information Age. Advances in computer technology have made immediate access to information and sophisticated processing of information commonplace in business, science, medicine, education, various professional areas and many aspects of personal life. This course focuses on how this has impacted Chicago's culture and its diverse communities. This course fulfills the First Year Experience (FYE) requirement. FYE-109 courses are intended for Freshmen only. Students may not take more than one FYE-109 course.

CS-200. Programming I. 3 Hours.

This course serves as an introduction to principles of computer programming. It covers fundamental concepts including input/output, data types, arithmetic, relational, and logical operators, branching, looping, methods, and arrays. Programming projects involving these concepts will be assigned for interactive applications, numeric computations, and analysis of data. A common comprehensive final exam will be given for all sections of CS-200, Programming I—the date of the final exam will be published within the section record each term.

Prerequisite: MATH-173 minimum grade of C.

CS-201. Discrete Structures. 3 Hours.

Introduction to the fundamental number theoretic, logical, algorithmic, combinatoric, and computational concepts from discrete structures and their applications to computer science. This course involves no programming.

Prerequisite: MATH-173 minimum grade of C or MATH-104 minimum grade of C.

CS-207. Programming II. 3 Hours.

This course provides an in-depth study of the principles of object oriented programming, including Classes, Objects, Methods, Arrays, Inheritance, and Polymorphism. Within this framework, the course will cover Sorting and Searching Arrays, Two-Dimensional Arrays, Exception Handling, and File Input/Output. Emphasis is given to the design of algorithms and program development, involving both numeric computations and string manipulation techniques. A common comprehensive final exam will be given for all sections of CS-207, Programming II—the date of this final exam will be published within the section record each term.

Prerequisite: CS-200 minimum grade of C.

CS-300. Client Side Web Development. 3 Hours.

The course discusses web site design issues and the requirements of e-commerce. Furthermore, it covers the creation of web pages. Hands-on development and group projects are an essential part of this course.

Prerequisite: CS-200 minimum grade of C.

CS-301. Computer Organization. 3 Hours.

Representation of data, machine arithmetic, processor and memory organizations, instruction execution, assembly and machine languages, addressing mechanisms, and implementation of high level language constructs. Students will gain a vision of levels of abstraction in hardware and software, the nature of the Von Neumann machine and the nature of high level languages.

Prerequisites: CS-200 minimum grade of C and CS-201 minimum grade of C.

CS-302. Systems Programming. 3 Hours.

Introduction to systems programming, including use and implementation of assembler, macros, loaders, compilers, and operating systems.

Prerequisites: CS-304 minimum grade of C and CS-308 minimum grade of C.

CS-304. Data Structures. 3 Hours.

This course provides experience implementing and manipulating basic data structures, as well as analyzing their applications in Computer Science. Topics covered will include: Stacks, Queues, Linked Lists, Binary Tree Structures, Heaps, Graphs, and Sorting Algorithms.

Prerequisite: CS-207 minimum grade of C.

CS-305. Computer Logic And Circuitry. 3 Hours.

Introduction to logical design of computers and some of their applications. Included are Boolean algebra, switching theory, number systems, numerical codes, and computer organization. Engineering problems are de-emphasized. Computer word organization, languages and use of computers for simple problems will be explained.

Prerequisite: CS-200 minimum grade of C.

CS-307. Programming Languages. 3 Hours.

This course provides an introduction to the fundamental concepts of programming languages their structural definition and run time implementation. It equips the students with the tools necessary for the critical evaluation of existing programming languages, and the learning of new ones. In addition, it prepares students for the study of computer design.

Prerequisite: CS-304 minimum grade of C or CS-407 minimum grade of C or CS-400 minimum grade of C or CS-404 minimum grade of C.

CS-308. Operating Systems. 3 Hours.

A general overview of the ideas underlying operating systems. Included are traditional topics such as file systems, CPU scheduling, memory management and device scheduling, along with the topics of more current interest such as deadlock handling, process synchronization and distributed systems. No single operating system is studied; examples are drawn from many sources.

Prerequisites: CS-207 minimum grade of C and CS-301 minimum grade of C.

CS-309. Compiler Theory. 3 Hours.

Introduction to basic structure and components of a compiler. Finite automata, lexical analysis, regular grammar, context free grammar, top-down and bottom-up parsing techniques.

Prerequisite: CS-304 minimum grade of C.

CS-311. Modern Computer Architecture. 3 Hours.

This course is intended for those students who wish to understand the architecture and operation of computer systems. Methods for interconnecting processors, memories and I/O devices are discussed. The addressing modes and instruction techniques for manipulation of more complex data structures such as queues, lists and trees are covered.

Prerequisites: (CS-207 minimum grade of C or CS-406 minimum grade of C) and CS-301 minimum grade of C.

CS-314. Independent Study In Computer Science. 3 Hours.

An opportunity for an individual research or applications project under the direction of an advisor knowledgeable in the field of endeavor. The project will be designed by the student and his/her project advisor, and must be approved by the chairperson of the Department of Computer Science before the project itself is undertaken.

CS-315. Modern Database Management. 3 Hours.

Theoretical foundations and state-of-the-art data base management systems. The relational, hierarchical and network approaches to data base management systems and representative systems are described. User interfaces are emphasized.

Prerequisite: CS-207 minimum grade of C.

CS-317. Event-Driven Programming. 3 Hours.

This course serves as an introduction to techniques and tools for the design of graphical user interfaces and event-driven applications. Topics covered include layering, domain logics, form and control basics, custom control, database mapping, and application embedded support. Students will be expected to apply these concepts in programming projects.

Prerequisite: CS-207 minimum grade of C.

CS-319. Writing Intensive Program: Fundamentals Of Software Engineering. 3 Hours.

This course serves as an introduction to the life cycle of the software development process. Topics covered include each phase of the cycle, and techniques and paradigms that result in the successful realization of each stage. Students will be expected to apply these concepts in a large-scale project.

Prerequisites: CS-304 minimum grade of C and ENGL-101 minimum grade of C.

CS-320. Object-Oriented Programming. 3 Hours.

This course provides an introduction to Object-Oriented Design (OOD) and Object-Oriented Programming (OOP), which is a highly used contemporary programming paradigm. The three main features of OOD, namely encapsulation, polymorphism and inheritance are discussed. The student must implement these concepts in a project.

Prerequisite: CS-304 minimum grade of C.

CS-321. Server Side Web Development. 3 Hours.

This course is an introduction to techniques and tools for designing server side web applications. Topics covered include web application flow, object oriented programming, design of classes, dynamic content, scripting languages, implicit objects and database accessing. Students will be expected to apply these concepts in the development of a website.

Prerequisites: CS-207 minimum grade of C and CS-300 minimum grade of C.

CS-322. Statistical Computer Program Packages. 3 Hours.

This course provides an in depth study of modern statistical data analysis using as the Binomial and Normal distribution, the Linear Regression model, Analysis of Variance, Nonparametric methods and Computer Random Sampling techniques using MINITAB and GPSS. In addition, students will become experienced in the actual implementation of these statistical models with data sets using such statistical software packages as MINITAB, SPSS, BMDP and SAS.

Prerequisites: CS-200 minimum grade of C and MATH-275 minimum grade of C.

CS-323. Cyberlaw. 3 Hours.

This course presents an introduction to the legal issues relating to the use of computers and the Internet. Topics covered include privacy, freedom of speech, intellectual property in cyberspace, encryption and interception of communication, computer crime, professional ethics and codes of conduct and work related ethical and legal issues.

CS-324. Introduction To The Design Of Algorithms. 3 Hours.

Methods for analyzing algorithms are discussed including an introduction to asymptotic notation. Several approaches to designing algorithms are covered using theory, examples and problems. Those approaches include divide-and-conquer, dynamic programming, the greedy approach backtracking and branch-and-bound. Different approaches are applied to the same problem to illuminate the relative advantages.

Prerequisites: CS-201 minimum grade of C and CS-304 minimum grade of C.

CS-325. Theory Of Computation. 3 Hours.

This course discusses several models of computation, including finite automata, pushdown automata and deterministic and nondeterministic Turing machines. The notions of undecidability, computational complexity, intractability and NP completeness are also discussed. The course is mainly theoretical in nature, but some applications, such as finite state systems and parsing, will be discussed.

Prerequisites: CS-201 minimum grade of C and CS-304 minimum grade of C or (CS-400 minimum grade of C and CS-404 minimum grade of C).

CS-326. Numerical Methods Using Fortran Programming. 3 Hours.

An introduction to structured Fortran programming, Computational errors, Solving nonlinear equations, Solving sets of Equations, Determinants and matrix inversions, Interpolating polynomials.

Prerequisite: MATH-106 minimum grade of C or MATH-185 minimum grade of C.

CS-327. Computational Methods In Biology. 3 Hours.

Bioinformatics is the discipline that applies mathematics, statistics, computer science, chemistry, and biology to solving problems in biology using biological data sets. The problems investigated are usually at the molecular level. These problems include sequence alignment, genome assembly, models of evolution and phylogenetic trees, analyzing gene expression data, and gene linkage analysis. One of the most important statistical tools used in bioinformatics is the Bayesian network. This course introduces the techniques used in bioinformatics, in particular Bayesian networks, and provides solutions to several bioinformatics problems.

Prerequisites: (CS-201 minimum grade of C or MATH-251 minimum grade of C) and (BIO-100 minimum grade of C or BIO-201 minimum grade of C) and CS-200 minimum grade of C.

CS-329. Decision Theory. 3 Hours.

This course covers probabilistic networks, influence diagrams, and decision trees, and their application to making decisions in the face of uncertainty. It addresses modeling one-time decisions and also modeling repeatable decisions as done by an expert system. An expert system is a system that makes the judgments and decisions of an expert. Classical examples of expert systems are systems that make financial decisions and ones that perform medical diagnosis. This course will concentrate more of the latter. Methods for building expert systems and for doing inference with them will be covered.

Prerequisites: CS-201 minimum grade of C and CS-304 minimum grade of C.

CS-331. Computer Networks. 3 Hours.

This course covers concepts in data communications, emphasizing protocols. An overview of all protocol layers will be covered, with emphasis on OSI and TCP/IP.

Prerequisites: CS-207 minimum grade of C or CS-406 minimum grade of C or (CS-400 minimum grade of C and CS-404 minimum grade of C).

CS-334. Open Source Systems. 3 Hours.

This course is an introduction to the open source domain, including the Linux operating system and other technologies. Topics covered include open source licensing, Linux administration and characteristics of open source applications. Students will be expected to understand the main concepts, and become capable of researching available resources and participating in open source communities.

Prerequisite: CS-308 minimum grade of C.

CS-335. Artificial Intelligence. 3 Hours.

This course covers strong artificial intelligence methods, which have resulted in the development of systems that solve open problems in specialized domains. Such methods include 1) AI models based on logical reasoning, in particular decision trees and learning decision trees, rule-based expert systems, semantics nets, and frames; 2) AI models based on probabilistic reasoning, in particular Bayesian networks and learning Bayesian networks, influence diagrams, and class probability trees; and 3) AI models based on emergent intelligence, in particular evolutionary computation and swarm intelligence. Lastly, the course discusses an important endeavor in AI, namely language processing.

Prerequisites: CS-304 minimum grade of C or CS-407 minimum grade of C or (CS-400 minimum grade of C and CS-404 minimum grade of C).

CS-336. History Of Computing. 3 Hours.

This course discusses the history of computing beginning with the earliest computational devices and continuing to current technologies. The history of computing is much more than the study of computers. It also involves the study of how computing is done and approached and how it has evolved over time. This course covers the following aspects of computing history: technology, both hardware and software; business history; and sociological impacts and key turning points. Within those aspects, trends and evolution are covered as well.

CS-338. Science, Women, And Technology. 3 Hours.

This course includes an overview of the women who have made major contributions to computing from Grace Hopper to Ellen Spertus. Furthermore, it provides a life-course analysis of women in computing from an early childhood interest, through university, to graduate school and finally into the work place. This analysis will provide the seed for research topics. Each student will choose a research topic, conduct the research, and present the results to the class.

CS-339. Fundamentals Of Information Technology Project Management. 3 Hours.

An Information System is a well-coordinated collection of technological and human resources that gathers and transforms data into information that enables decision making and process improvement within organizations. Information Technology Project Management is the application of knowledge, skills, tools, and techniques to project activities in order to meet project requirements. This course serves as an introduction to these concepts. Students will be expected to apply these tools and techniques in a group based project.

Prerequisite: CS-304 minimum grade of C.

CS-340. Fundamentals Of Computer Graphics. 3 Hours.

This course provides a unified introduction to computer graphics and computer vision for students with an interest in imaging or digital visual arts. Topics covered include the fundamentals of display hardware and applications, interactive techniques and color models, 3D viewing pipeline, 3D polygon rendering (clipping, scan conversion, and visibility algorithms), illumination models, transparency, and ray-tracing. The student must write programs using these methodologies.

Prerequisites: CS-304 minimum grade of C and MATH-110 minimum grade of C.

CS-341. Parallel Computing And Distributed Systems. 3 Hours.

This course works on the fundamental concepts of building systems that work across multiple computing platforms. The course includes topics of distributed operating systems and network protocols for process communication, synchronization, scheduling, and exception and deadlock resolution; understanding of client-server, web-based collaborative systems; parallel computing; concurrency issues; and API's for distributed application development. Several distributed computing environments are discussed and used in developing experimental projects in a cluster of networked computers. Building systems using cloud-based and service-oriented architectures may also be included.

Prerequisites: CS-308 minimum grade of C and CS-304 minimum grade of C.

CS-342. Introduction To Human Computer Interaction. 3 Hours.

A good understanding of how a system/device interacts with its users is what differentiates a product that is technically sound from a usable one. HCI is the science that explores these interactions. HCI is at the intersection of many disciplines including cognitive psychology, linguistics, design and engineering. HCI considerations are increasingly cited as key factors in product design. In this course we will explore the science behind HCI and we will put parts of it into practice.

CS-343. Introduction To Natural Language Processing. 3 Hours.

Computers have tried to understand humans since the beginning. Today, with social media, globalization and the widespread use of computing devices the task of understanding is facing new challenges. In this course the students will learn the core techniques used by computers to understand and generate language, as well as state of the art research in the field.

Prerequisite: CS-304 minimum grade of C.

CS-345. Network Security. 3 Hours.

This course discusses the principles and practice of network security applications and standards that are widely used on the internet and on corporate networks. Topics include cryptographic algorithms and protocols that underlie network security applications, network security tools, system-level security issues including the threat of intruders, virus countermeasures, the use of firewalls and trusted systems, IP security, electronic mail and web security.

Prerequisites: CS-308 minimum grade of C or CS-408 minimum grade of C or (CS-400 minimum grade of C and CS-404).

CS-346. Interdisciplinary Seminar In STEM. 2 Hours.

This course uses a hands-on approach to modern inquiry-based research problems and techniques in the physical and computational sciences. The course is structured around a series of modular problem-based exercises, covering topics from the fields of Chemistry, Computer Science, Earth Science, Mathematics and Physics, and is designed to provide the content and pedagogical background for students to be successful peer leaders. The cross-disciplinary modules will draw connections between scientific disciplines, and showcase common research tools and techniques used in the sciences. The workshop will also incorporate discussions on a range of topics, from scientific ethics, scientific methodology and error analysis.

Prerequisite: MATH-185 minimum grade of C.

CS-347. Mobile Application Development. 3 Hours.

This course covers programming applications for mobile platforms. Students will learn about mobile application environments and platforms and how to design and develop applications to account for the limited screen size, memory, and access to the internet. Students will incorporate graphics, networking, security, media to create new, real world, practical applications. Development, design, implementation, testing, debugging, and maintaining these applications will also be covered. Students will use a variety of programming languages to create these applications.

Prerequisites: CS-207 minimum grade of C and CS-300 minimum grade of C.

CS-348. Computer Ethics And Public Policy. 3 Hours.

This course discusses ethical and social issues related to the development and use of computer technology. The course provides students with historical and philosophical context to understand the evolution of ethics and its intersection with the use of technology as well as touching on major ethical issues currently affecting the use of computer technology. Topics involve ethics, public policy, privacy, responsibility and legal considerations.

CS-349. Introduction To The Internet Of Things. 3 Hours.

Internet of Things (IoT) is an emerging technology that actively brings informative and interactive flavors to our lives. IoT is about creating a fully integrated Internet that includes cyber elements as well as physical devices, named as things. The interactions and interconnections between these things enable the smart spaces and trigger a wide range of applications in many areas (e.g., home automation, smart transportation, healthcare, smart cities). This course introduces several fundamental topics in IoT, such as architectures and platforms, communication paradigms, security and privacy, and programmability. The course also discusses related topics that include sensor networks and cloud computing.

CS-355. Cryptography. 3 Hours.

This course covers cryptography and a wide range of cryptographic applications. Theory discussed includes the design and analysis of cryptographic algorithms such as private key and public key cryptosystems used to secure data transmission and electronic system communications. Cryptographic applications such as digital signatures, entity identification, key exchange and e-commerce transactions are discussed.

Prerequisites: CS-324 minimum grade of C or CS-404 minimum grade of C or (CS-400 minimum grade of C and CS-404 minimum grade of C).

CS-360. CyberSecurity. 3 Hours.

The basic concepts in computer security as well as the mechanisms located at the heart of a computer system are presented. Topics covered include privacy and personal information, computer crime, legal and ethical issues in computer security, identification and authentication, cryptography, operating system security, network security, World Wide Web security, and database security.

Prerequisite: CS-308 minimum grade of C.

CS-361. Secure Programming And Testing. 3 Hours.

This course details how to design, build, and test programs in order to make them more secure. The course will discuss the following topics: concepts of secure programming (including risk management), techniques and tools used to build secure systems, techniques to test for security in programs and systems, specific vulnerabilities to avoid (and how to do so), and how to test for those vulnerabilities. Specific common classes of programming-induced vulnerabilities will be included such as buffer overflows, race conditions, off-by-one errors, integer overflow, and improper use of randomness functions.

Prerequisite: CS-360 minimum grade of C.

CS-390. Supervised Field Study I. 3 Hours.

(Internship) The student completes a computer programming project for an institution at the institution site. The institution defines the project which must be approved by the Department of Computer Science for the purpose of satisfying the course requirement. The project should take approximately 168 hours to complete. NOTE: CS-390 is repeatable for a maximum of 9 credit hours.

CS-391. Supervised Field Study II. 6 Hours.

(Internship) Same as CS-390 except that project should take approximately 336 hours to complete.

CS-392. Supervised Field Study III. 9 Hours.

(Internship) Same as CS-390 except that project should take approximately 504 hours to complete.

CS-400. Discrete Modeling And Analysis. 3 Hours.

This course provides necessary tools to develop mathematical maturity through the study of important topics such as combinatorial analysis, discrete structures, algorithmic thinking and mathematical reasoning. Topics include Advanced Enumeration Methods, Recurrence Relations (Equations), Graph Theory, Automata and Formal Languages, Proof Techniques and Probability and Statistics.

Prerequisite: CS-201 minimum grade of B or CS-405 minimum grade of C.

CS-401. Software Engineering. 3 Hours.

The complete software development process: requirement specification, design, coding, testing and maintenance. Various software engineering methods for the development of large-scale quality software are presented.

Prerequisites: CS-400 minimum grade of C and CS-404 minimum grade of C.

CS-402. Advanced Systems Programming. 3 Hours.

Study of system programming tools, their use and their construction. Includes the development of an integrated systems programming environment consisting of a processor simulator, an assembler and a loader.

Prerequisites: CS-400 minimum grade of C and CS-404 minimum grade of C.

CS-404. Analysis Of Algorithms. 3 Hours.

This course provides various methodologies to design and analyze algorithms. Topics include incremental, divide-and-conquer, dynamic programming, greedy, backtracking, and branch-and-bound methodologies. Additional topics include sorting and searching algorithms, and computational complexity and Intractability.

Prerequisite: CS-304 minimum grade of B or CS-407 minimum grade of C.

CS-408. Advanced Operating Systems. 3 Hours.

Advanced operating system design and construction concepts such as memory, processor, process and secondary device management, synchronization and communication, security and protection, system performance and evaluation, network, distributed and fault-tolerant systems. Study of operating systems highlighting these concepts.

Prerequisites: CS-400 minimum grade of C and CS-404 minimum grade of C.

CS-409. Topics In Compiler Theory. 3 Hours.

This course describes the procedures used to develop a compiler for a high level language. First a simple high level language is defined and a simple program is written using this language. Then the concepts of a scanner and a parser are presented and students write the software for a scanner and a parser. Gradually, software for all phases of a compiler is developed and by the end of the semester, every student has developed a compiler that can produce assembly code for a microprocessor for a program written in a predefined simple high level language.

Prerequisites: CS-400 minimum grade of C and CS-404 minimum grade of C.

CS-411. Professional Computing. 3 Hours.

This course provides a study of the technical communication skills needed for a successful career in the field of Information Technology. This course, therefore, is designed to enhance the student's technical research, writing, and presentation skills. Topics include methods for gathering information, writing good documentation, rendering technical information usable to the intended audience, using proper editing techniques, using rhetoric aspects that are applicable to technical communications, and using appropriate types of presentation delivery. To enhance these skills, class activities will include writing a formal project proposal, writing an abstract, making a formal project presentation, and writing a formal analysis report.

CS-412. Web Application Development. 3 Hours.

This course serves as an introduction to different techniques and tools for the design of web applications. Topics covered include web applications flow, object oriented programming, design of classes, dynamic content, scripting languages, implicit objects, and database accessing. Students will be expected to understand and apply these concepts into the generation of sample websites.

Prerequisites: CS-400 minimum grade of C and CS-404 minimum grade of C.

CS-413. IT Project Management. 3 Hours.

IT Project Management is the discipline that applies management principles to the development of information systems projects. It uses techniques developed by Industrial Engineers and used by other engineers and business managers to bring in projects within time and budget. This course supplements Software Engineering by focusing on the management aspects of investing in the development of information systems. Required: CS-401 or can be taken concurrently.

Prerequisites: CS-400 minimum grade of C and CS-404 minimum grade of C.

CS-414. Independent Study. 3 Hours.

An opportunity for advanced study under the direction of an advisor knowledgeable in the field. The area of study will be selected by the student and his/her advisor, and must be approved by the department chair.

Prerequisites: CS-400 minimum grade of C and CS-404 minimum grade of C.

CS-415. Design Of Data Base Systems. 3 Hours.

This course covers various concepts associated with design and construction of data base systems. Topics include data base architecture, relational model, relational languages (SQL), normalization theory, Entity-Relationship theory and physical data base design. Students will develop a simple data base system.

Prerequisites: CS-400 minimum grade of C and CS-404 minimum grade of C.

CS-416. AI And Robotics. 3 Hours.

This course serves as an introduction to aspects of Artificial Intelligence applied to the robotics field. Students will learn different techniques to approach problems using simple robotics. Students will be expected to understand the main concepts, research for available resources, and participate in projects where these concepts will be applied.

Prerequisites: CS-400 minimum grade of C and CS-404 minimum grade of C.

CS-417. Video Game Programming. 3 Hours.

The aim of this course is to explore the basics game programming and the gaming industry, including elements of computer graphics and computer vision as well as advanced stereoscopic computer applications. Following the nature of computer/video games development as a team effort, for this course, we shall design and implement one large class project for game prototype as a team.

Prerequisites: CS-400 minimum grade of C and CS-404 minimum grade of C.

CS-418. Research Topics In Artificial Intelligence. 3 Hours.

This course covers current research topics in artificial intelligence (AI) theory and applications. Topics will vary from semester to semester, and will include a detailed study of one or more of the following: the application of Bayesian networks and other machine learning methodologies to artificial intelligence; the use of decision theory to model intelligent agent behavior; genetic algorithms and programming; evolutionary strategies; multi-agent systems and models; hybrid heuristics and non-deterministic optimization algorithms.

Prerequisites: CS-400 minimum grade of C and CS-404 minimum grade of C.

CS-419. Informatics. 3 Hours.

Information is the discipline that applies the methodologies of science and engineering to information. It concerns organizing data into information, learning knowledge from information, learning new information from knowledge and making decisions based on the knowledge and information learned. This course concerns computational methods for analyzing data and processing information in applications to business decisions.

Prerequisites: CS-400 minimum grade of C and CS-404 minimum grade of C.

CS-420. Object-Oriented Design. 3 Hours.

This course provides student with a solid foundation in object oriented design (OOD) and programming (OOP), a contemporary and highly used programming paradigm. OOD involves the presentation of three main concepts: encapsulation, polymorphism, and inheritance. These concepts and implementation techniques are presented in an object oriented programming language and students become experienced in OOD projects.

Prerequisites: CS-400 minimum grade of C and CS-404 minimum grade of C.

CS-422. Introduction To Data Mining. 3 Hours.

Data mining is a powerful technology that extracts useful knowledge hidden in large datasets. This knowledge can be utilized to help people make decisions and predict future events. Data mining has its wide application in many areas, including science and engineering, finance and marketing research, medicine and healthcare, etc. This course introduces several fundamental data mining techniques and algorithms, such as data preparation, classification, and clustering. It also discusses some of the related topics like privacy-preserving data mining and big data.

Prerequisites: CS-400 minimum grade of C and CS-404 minimum grade of C.

CS-423. Enterprise Architecture & IT Strategy. 3 Hours.

Enterprise Architecture (EA) is the process of translating organizational vision & strategy into effective & agile business processes that utilize integrated management information systems. These systems allow for; timely decision making, speed to market for competitive advantage or to create a significant barrier to entry. This course studies organizational strategy and its interrelationship & importance with major supporting business systems. The student will gain an understanding of Enterprise Resource Planning (ERP), Product Lifecycle Management (PLM), Customer Relationship Management (CRM), Business Intelligence, & Ecommerce systems and how the use & selection of these systems are critical to an overall IT Strategy.

Prerequisite: CS-413 minimum grade of C.

CS-426. Advanced Numerical Methods. 3 Hours.

This course covers the elements of the design and analysis of numerical methods. Topics include errors in numerical methods, floating-point and interval arithmetic, measuring and efficiency of numerical methods, interpolation and curve fitting, numerical differentiation, numerical integration, and numerical optimization.

Prerequisites: CS-400 minimum grade of C and CS-404 minimum grade of C and MATH-301 minimum grade of C.

CS-435. Expert Systems. 3 Hours.

An expert system is a program that is capable of making the judgements and decisions of an expert. An example of an expert system is a program that does medical diagnosis. This course covers methods for designing expert systems and for reasoning using expert systems.

Prerequisites: CS-400 minimum grade of C and CS-404 minimum grade of C.

CS-440. Computer Graphics. 3 Hours.

Graphics hardware. Scaling and data charting. Representation of two-dimensional objects. Translation and rotation of objects. Two-dimensional line clipping. Three-dimensional object representation. Perspective in three-dimensional object representation. Line- clipping and hidden line and face removal in three dimensions.

Prerequisites: CS-400 minimum grade of C and CS-404 minimum grade of C.

CS-442. Topics In Network Design. 3 Hours.

Protocols for computer networks. Performance requirements, evaluation and analysis. Case studies of actual networks.

CS-450. Advanced Computer Architecture. 3 Hours.

Computer system structure and design issues such as ALU design, arithmetic algorithms, memory hierarchy, control, microprogramming, instruction sets, addressing, input-output. Comparison of specific examples of computer models and selected topics on parallel processors.

Prerequisites: CS-400 minimum grade of C and CS-404 minimum grade of C.

CS-460. Computer Security. 3 Hours.

Study of existing hardware and software techniques for implementing security. Passwords, encryption and authorization schemes. Special security problems presented by distributed and network environments.

Prerequisites: CS-400 minimum grade of C and CS-404 minimum grade of C.

CS-490. Master's Project. 3 Hours.

Large scale software project and associated documentation. Topic for the project is chosen in conjunction with a project advisor. Master's Project requires the approval of the instructor, the Department Chair, and the appropriate College Dean.

Prerequisites: CS-400 minimum grade of C and CS-404 minimum grade of C.

CS-5901. Thesis Hours. 1 Hour.

Student conducts and writes a thesis in Computer Science. This is an alternative to CS-490 for those who want to pursue a more ambitious project. Master's Thesis requires the approval of the instructor, the Department Chair, and the appropriate College Dean.

CS-5902. Thesis Hours. 2 Hours.

See course description for CS-5901.

CS-5903. Thesis Hours. 3 Hours.

See course description for CS-5901.

Major in Computer Science

Major in Computer Science for the Bachelor of Science Degree

To declare a major in Computer Science, a student must fill out the "Declaration of Major Form" available in the Department Office. A student must complete the major requirements in effect when the declaration of major is accepted by the Department. Students should obtain a Computer Science Major handbook in order to be aware of any changes in requirements.

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Major Requirements

Forty-eight hours of computer science course work including at least 36 hours of 300-level courses. Students should also be aware of the University requirements for the Bachelor's degree. Transfer students must complete a minimum of 24 credit hours of 300-level Computer Science courses at Northeastern and meet all major requirements.

Students who intend to pursue a Master's degree in Computer Science should plan on completing Calculus II and are advised to take a course in Linear Algebra.

Code	Title	Hours
Required Core Courses:		
CS-200	Programming I	3
CS-201	Discrete Structures	3
CS-207	Programming II	3
CS-301	Computer Organization	3
CS-304	Data Structures	3
CS-308	Operating Systems	3
CS-319	Writing Intensive Program: Fundamentals Of Software Engineering	3
CS-324	Introduction To The Design Of Algorithms	3
Total Hours		24

NO SUBSTITUTIONS ARE ALLOWED FOR CORE COURSES.

Computer Science Concentration:

This concentration is designed primarily for students intending to pursue an advanced degree in Computer Science. However, it is appropriate for any student whose goal is to understand the fundamentals of Computer Science.

Code	Title	Hours
Required Courses		
CS-325	Theory Of Computation	3
CS-335	Artificial Intelligence	3
CS-355	Cryptography	3
Select three of the following:		9
CS-307	Programming Languages	
CS-315	Modern Database Management	
CS-331	Computer Networks	
CS-334	Open Source Systems	
CS-340	Fundamentals Of Computer Graphics	
CS-341	Parallel Computing And Distributed Systems	
CS-342	Introduction To Human Computer Interaction	
CS-343	Introduction To Natural Language Processing	
Two CS 300-level electives, approved by the CS Department		6
CS Core Courses		24
Total Hours		48

Computer Networks and Security Concentration:

This concentration is designed to prepare students for employment in a computer security related field.

Code	Title	Hours
Required Courses		
CS-331	Computer Networks	3
CS-355	Cryptography	3
CS-360	CyberSecurity	3

Select three of the following:	9
CS-315 Modern Database Management	
CS-323 Cyberlaw	
CS-334 Open Source Systems	
CS-335 Artificial Intelligence	
CS-341 Parallel Computing And Distributed Systems	
CS-345 Network Security	
CS-361 Secure Programming And Testing	
Two CS 300-level electives, approved by the CS Department	6
CS Core Courses	24
Total Hours	48

Information Technology Concentration:

This concentration is designed to prepare students for employment involving Web development and computer network design and maintenance.

Code	Title	Hours
Required Courses		9
CS-315	Modern Database Management	3
CS-331	Computer Networks	3
CS-339	Fundamentals Of Information Technology Project Management	3
Select three of the following:		
CS-300	Client Side Web Development	
CS-317	Event-Driven Programming	
CS-321	Server Side Web Development	
CS-334	Open Source Systems	
CS-335	Artificial Intelligence	
CS-342	Introduction To Human Computer Interaction	
CS-347	Mobile Application Development	
CS-360	CyberSecurity	
Two CS 300-level electives, approved by the CS Department		6
CS Core Courses		24
Total Hours		48

This sample curricular map is provided to guide you in the planning of your progression for this major. This guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor.

Master of Science in Computer Science

Master of Science in Computer Science

The Master's Degree in Computer Science has three concentrations: one for individuals who want to enter careers in industry, one for individuals who want to pursue a Ph.D., and one for high school teachers who want to obtain an endorsement to teach computer science. The program is designed especially for the convenience of the part-time student; courses are scheduled in the evening and on Saturday.

NOTE: CONTACT A DEPARTMENT ADVISOR FOR CURRENT REQUIREMENTS.

Requirements for Admission to the Program:

Students must satisfy all requirements for admission to the Graduate College. Applicants must have a four year degree from an accredited undergraduate college, with an overall undergraduate grade point average of not less than 2.75 (on a 4.0 scale).

Departmental approval is required for full admission to the Computer Science Master's program, and is based upon an evaluation of the candidate's ability to study computer science at the graduate level. No previous course work in computer science is necessary to enter the program; however, the student must have knowledge of discrete structures and programming in order to take courses which count towards the degree. If the student does not have this background, it is necessary for the student to take background courses before beginning course work towards the degree.

INTERNATIONAL STUDENTS, PLEASE CHECK THE ADMISSION REQUIREMENTS HERE (<https://admissions.neiu.edu/international-applicants/>).

Requirements for the Degree:

The Master's Degree in Computer Science requires 36 credit hours of course work, 27 of which must be earned at Northeastern Illinois University. The remaining 9 credit hours may represent courses taken at accredited institutions with graduate programs in computer science and in conformance with the rules of the Graduate College, except for CS-400, CS-404, and CS-420, which must be taken at NEIU in order to receive credit for NEIU Master's degree in Computer Science. The 36 hours will be made up of 12 credit hours of core course work, 9 credit hours from three required categories/tracks, and 15 credit hours of elective course work (or 12 credit hours, if the student completes a Master's Thesis). Three of the five elective courses **must** be offered by the Computer Science Department. Completion of a Master's Thesis or Project is required. The choice will be agreed upon by the student and the graduate advisor.

No more than 9 hours of specifically approved 300 level courses may be selected to satisfy course requirements for the Master's Degree. Courses taken to remove deficiencies will not be counted toward the 36 hours of course work required for the Master's Degree. Courses taken to satisfy undergraduate degree requirements cannot be used toward the Master's Degree. All elective course work is to be selected in consultation with and approved by the graduate advisor.

For more information a student should visit the Computer Science website (<https://www.neiu.edu/academics/college-of-arts-and-sciences/departments/computer-science/computer-science-ms/>). Consult with your program advisor or the Graduate College for details.

Required Core Courses:

Minor in Computer Science

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Minor Requirements:

A student may complete a minor in Computer Science by selecting courses totaling at least 18 hours from those offered by the Department of Computer Science including at least 6 credit hours of 300-level courses. Transfer students must complete a minimum of 9 credit hours toward a minor at Northeastern.

The courses must be chosen in consultation with the Department advisor or chairperson.

Earth Science

Earth Science uses an integrated approach to the study of the problems of the earth environment through a synthesis of geology, hydrology, and geochemistry. The B.S. program emphasizes a foundation in geology with a focus on environmental geosciences.

Strong emphasis is placed on experimental and field studies across the curriculum. Internship opportunities are available for advanced students. An independent study option exists for students who wish to complete individualized research under the direction of a faculty member.

Curricula are individually planned to provide a broad basic training in earth science and, more specifically, to prepare students for further graduate study or for careers in the hydrogeological, geotechnical, and environmental fields, as well as areas related to geologic resources, soils, and other careers related to environmental geosciences. Programs have the flexibility to meet individual student needs for career preparation or for graduate studies.

Areas of concentration of coursework represent an emphasis in environmental geology, including mineralogy-petrology and mineral resources, hydrogeology, soil science and geotechnical areas, and lake systems. Techniques of problem-solving in geology and environmental geoscience are emphasized.

Facilities and available equipment include instrumentation for water quality analysis, a prismless total station, apparatus for X-ray diffraction analysis, ground water flow models, hydrogeological laboratory and testing equipment, field equipment for water and soil sampling, equipment for rock and thin section preparation, and mineral separation. Also available are sedimentation tanks, centrifuge and size analysis apparatus, atomic absorption spectrophotometer, optical microscopy with image analysis capabilities, a student computer lab, a teaching seismograph, and facilities for petrographic, hydrogeologic, and aqueous geochemical analysis. The program maintains three monitoring wells on campus for student practice in hydrologic testing.

Earth Science offers a program leading to a degree of Bachelor of Science. An undergraduate minor is also available.

- Major in Earth Science (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/earth-science/earth-science/>)
- Minor in Earth Science (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/earth-science/minor-earth-science/>)

Paulo Acioli, Ph.D., Professor, Chair

Elisabet Head, Ph.D., Associate Professor, Department Coordinator

Nadja Insel, Ph.D., Assistant Professor

Laura L. Sanders, Ph.D., Professor

Kenneth Voglesonger, Ph.D., Associate Professor

ESCI-109. First Year Experience: Chicago Rocks! Geology In The City. 3 Hours.

Chicago has been at the bottom of the sea, buried under a mile of ice, and set in a warm, tropical paradise. Such diverse changes have shaped Chicago and the surrounding region, including the lake, the rivers, the ground we walk on (and build on), and the decisions we make about land use, resources, and waste management. Explore Chicago Rocks - as well as water, weather, and land forms - in the context of current issues related to resource use and the environment. Field trips and hands-on experiences highlight the extent to which geology influences the character of the Chicago area.

ESCI-109W. First Year Experience: Chicago's Muddy Waters- Environmental Geology. 3 Hours.

Chicago's vital bodies of water - Lake Michigan, Chicago River, and others - interact with the urban landscape and the soils and rocks of the ground beneath. Such interactions influence environmental issues in everyday life, including "What happens when water goes down the drain?" and "Why do certain areas flood after it rains?" These questions are explored in the context of Chicago's geology, to evaluate the critical factors affecting soil and water contamination, flooding, and our drinking water. Laboratory analysis of water and soil, collected on local field trips, will clear the 'muddy water' about environmental geology impacts in local neighborhoods. (Lecture 2 hr., lab 2 hr.).

ESCI-121. Introduction To Earth Science. 3 Hours.

Basic concepts of geology, meteorology, oceanography, and the solar system. Discussion of topics of current interest in the earth sciences. Laboratory involves the study of minerals, rocks, maps and weather instruments. Lecture 2 hours, lab 2 hours.

Prerequisite: (MATH-091 - 499 or MATH-091A - 499Z or NEIU Math Placement Result 02 - 45 or ACT Math 19 - 36 or Accuplacer Elementary Algebra 060 - 084 or Accuplacer College Level Math 020 - 120).

ESCI-123. Environmental Geology. 3 Hours.

Earth, its structure, composition and resources. Mineral and energy resources, their formation and distribution, their supply and demand projections for the future. Water resources and water quality. Environmental impact of resources, nuclear and other waste disposal, geological aspects of earthquake and volcanic hazards. Lecture 3 hours.

Prerequisite: (MATH-091 - 499 or MATH-091A - 499Z or NEIU Math Placement Result 02 - 45 or ACT Math 19 - 36 or Accuplacer Elementary Algebra 060 - 084 or Accuplacer College Level Math 020 - 120).

ESCI-211. Physical Geology. 4 Hours.

This course emphasizes basic geologic processes and concepts with a focus on understanding the Earth as a system. In this course we will study how the rock cycle, geotectonics, volcanoes, and earthquakes are interrelated, and examine the way internal and external processes interact at the Earth's surface to shape our landscape. Formation, relevance, and implication of water, mineral, and energy resources, as well as climate change, will be part of the fundamental intellectual inquiry into the past, present, and future of our planet.

Prerequisite: (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120).

ESCI-303. Environmental Geology In The Field. 4 Hours.

This course introduces students to standard approaches, equipment, and tools used in geological field investigations and lab-based methods in order to develop and test geological ideas and concepts. Special attention is given to the fundamental aspects of geologic mapping, field observations, data gathering, use of a geologic compass, topographic and geologic map use and interpretation, and the construction of geologic cross sections. A significant part of the course will involve case studies as well as hands-on field and laboratory analyses with a focus on Midwestern geological features and landforms.

ESCI-306. Writing Intensive Program: Earth Materials. 4 Hours.

This course focuses on identifying common rocks and minerals and understanding their association to plate tectonic settings and landscape dynamics. Observational skills and hand sample identification are emphasized.

Prerequisites: ESCI-211 minimum grade of C and ENGL-101 minimum grade of C.

ESCI-307. Climate Change: Evidence, Causes, Effects. 4 Hours.

This course will provide an integrative understanding of the components of the climate system, including the science behind climate change, the range of natural climate variability and external drivers of climate change, as well as impacts of a changing climate on multiple sectors. The course explores the basic science underpinning environmental dynamics and climate change, and the practical problem solving and communication skills to critically assess and discuss these topics. We will use case studies and media stories as backdrop to illustrate the many environmental and climate issues we face today.

ESCI-308. Geology Of The National Parks. 3 Hours.

Study of the geological processes producing and controlling the lands within the National Park System. Lecture 3 hours.

Prerequisite: ESCI-121 minimum grade of C or ESCI-211 minimum grade of C.

ESCI-309. Geochemistry. 3 Hours.

Chemical composition of the earth, element abundances, cosmochemistry, meteorites, origin of elements, geochronology, geothermometry, geobarometry, principles of trace element distribution. Igneous, metamorphic and sedimentary environments. Lecture 3 hours.

Prerequisites: CHEM-211 minimum grade of D and (ESCI-306 minimum grade of D or ESCI-206 minimum grade of D).

ESCI-310. Geology Of The Chicago Region. 4 Hours.

The geologic history of Chicago integrates the effects of changes in climate and sea level, varied sedimentary processes, and the influence of the tectonic framework of the Midwestern US region. This course explores the diversity in Chicago's geologic past and present, including the continuing evolution of a geologic landscape affected by glacial, stream, and coastal processes, and examines the impact of local geology on resources and land use, as well as the impact of human processes on the geologic environment. Interpretation of map evidence and real-time data, individual research, and local and regional field experiences supplement class discussion. Lecture 2 hours and Lab 3 hours.

Prerequisite: ESCI-211 minimum grade of C.

ESCI-311. Mineralogy And Petrology I. 4 Hours.

This course is an introduction to fundamental mineralogical and petrological principles. Igneous and metamorphic processes are explained using crystallization theory, phase diagrams, thermodynamics, and geochemistry. We survey the distribution, chemical composition, and mineral associations in rocks of the Earth's crust and upper mantle, and investigate the relationships between these and tectonic environments. Lab methods include studying physical and optical properties of rocks and minerals.

Prerequisites: CHEM-211 minimum grade of C and (ESCI-306 minimum grade of C or ESCI-206 minimum grade of C).

ESCI-312. Historical Geology. 4 Hours.

Evolution of the earth and its flora and fauna, paleoecology; principles of paleontological stratigraphy and techniques of relative and absolute age determination. Lecture 3 hours, lab 2 hours.

Prerequisite: ESCI-121 minimum grade of C or ESCI-211 minimum grade of C.

ESCI-314. Paleontology. 4 Hours.

Principles, study of invertebrate phyla, morphology, taxonomy, evolution and paleoecology as well as occurrence of various fossil types. Lecture 2 hours, lab 3 hours.

Prerequisite: ESCI-212 minimum grade of C or ESCI-312 minimum grade of C.

ESCI-315. Glacial Geology. 4 Hours.

This course focuses on interpreting glacial processes and glacial environments, both past and present. Applying techniques that include map interpretation and correlation, remote sensing, and comparison of sediment and topographic data, students will analyze glacier dynamics, the development of glacial landscapes, and the geologic record of glaciations and glacial processes. Lecture 2 hours, Lab 3 hours. Prereq: ESCI-121 or ESCI-211.

Prerequisite: ESCI-121 minimum grade of C or ESCI-211 minimum grade of C.

ESCI-316. Volcanic Processes And Hazards. 4 Hours.

This course will cover physical and chemical controls on the timing, style, and magnitude of volcanic eruptions, as well as the products (including natural resources) that form from volcanic activity. Data obtained from a variety of analytical techniques associated with physical and chemical processes at volcanoes will be evaluated and applied to solve volcanic problems. Impacts of volcanic eruptions on society and the strategies to reduce risk, such as volcanic monitoring, will be discussed.

Prerequisites: ESCI-211 minimum grade of C and CHEM-211 minimum grade of C.

ESCI-317. Sedimentology And Stratigraphy. 4 Hours.

This course introduces students to the basic principles used in the study of sedimentology and stratigraphy, including the knowledge and tools to investigate sediment formation, transportation, and deposition. Students learn the fundamentals of fluid flow, sediment transport, physical properties of sediments, and the formation of sedimentary structures, as well as how to connect these with the environments in which sedimentary rocks form. Special emphasis is placed on stratigraphic nomenclature and observation of thin sections in the lab, and the application of various concepts to stratigraphic columns in the field.

Prerequisite: ESCI-306 minimum grade of C or ESCI-206 minimum grade of C.

ESCI-319. Petrology. 4 Hours.

Classification of rocks. Study of mineralogical and textural relations of major rock groups in hand specimens and thin sections. Chemical composition of rocks. Chemical and petrographic data interpretation. Interrelation of petrological processes and plate tectonics. Description of selected and widely referred petrologic complexes. Lecture 2 hours, lab 3 hours.

Prerequisite: ESCI-311 minimum grade of C.

ESCI-320. Limnology. 4 Hours.

In this course, students will explore the geological aspects of freshwater systems, focusing on Lake Michigan. Topics that will be covered include the origin of Lake Michigan, tectonic and climatic settings of the Lake, physical sedimentary processes, sedimentary geochemistry, geochronology and paleolimnology. Students will also explore the multidisciplinary aspects of biogeochemical cycling of elements, the role of planktonic organisms in these cycles. Lecture 2 hours, Lab 3 hours.

Prerequisite: ESCI-211 minimum grade of C.

ESCI-324. Oceanography I. 4 Hours.

Ocean boundaries and bottom topography. Origin and evolution of ocean basins. Nature and characteristics of coastal and marine sediments. Gathering of oceanological data development of the marine sciences.

Prerequisites: ESCI-121 minimum grade of C and ESCI-207 minimum grade of C.

ESCI-326. Independent Study In Earth Science. 3 Hours.

Research in the geological sciences, oceanography, meteorology, or astronomy under the guidance of a faculty member. Independent Studies require the approval of the instructor, department chair and the appropriate College Dean.

ESCI-327. Aqueous Environmental Geochemistry. 4 Hours.

This course builds on students' fundamental knowledge of aqueous chemistry and highlights applications relevant to geological sciences. The course focuses on using chemical principles to study surface and near surface water and water-rock/water-soil interactions. Topics include basic thermodynamics, chemical speciation, mineral solubility, complexation, acid-base reactions, oxidation-reduction reactions, carbonate chemistry, and an introduction to geochemical modeling. The practical applications of these topics will develop quantitative skills required for addressing geological and environmental issues.

Prerequisites: ESCI-211 minimum grade of C and CHEM-212 minimum grade of C.

ESCI-329. Soil Science. 4 Hours.

Fundamentals of soil including origin, composition, and classification; physical, chemical and biological properties; significance of soil properties for evaluation of soil as a resource; soil fertility and amelioration, soil and watershed use and conservation, and environmental concerns, including soil contamination and remediation.

Prerequisite: ESCI-121 minimum grade of C or ESCI-211 minimum grade of C.

ESCI-330. Structural Geology. 4 Hours.

This course introduces the basic concepts of brittle and ductile deformation processes and how they control the strength, mechanical behavior and development of structures in the Earth's continental crust. The course provides a basic understanding of the forces driving deformation and associated displacements and strains. Emphasis is placed on (1) illustrating how deformation processes change under the influence of changing pressures and temperatures with increasing depth in the lithosphere, and (2) examining the types of structures produced by single episodes of deformation of crust, and how their styles and geometries vary as a function of depth in the continental crust.

Prerequisites: ESCI-211 minimum grade of C and ESCI-312 minimum grade of C and MATH-185 minimum grade of C.

ESCI-331. Geological Structures And Map Interpretation. 4 Hours.

Determination of the attitude and thickness of inclined strata and their bearing on outcrop patterns; preparation of geological maps from given field data; and interpretations of aerial photos, topographic maps, and geological maps depicting folds, faults, unconformities and intrusive bodies; preparation of geological cross sections. Lecture 2 hours, lab 3 hours.

Prerequisite: ESCI-211 minimum grade of C.

ESCI-333. Internship In Earth Science. 3 Hours.

Field experience at an off-campus site. Student will work a minimum of 150 hours with an earth science agency or organization. Evaluation will be based in part on the student's creation of a tangible product. Details of internship will be arranged by the student, faculty advisor and site supervisor.

ESCI-335. Meteorology. 4 Hours.

This course introduces the processes at work in the earth's atmosphere and the physical laws that control them; horizontal and vertical circulations, atmospheric stability, radiation balance, precipitation, air masses, frontogenesis, and severe weather. Laboratory work involves extensive use of maps and charts.

ESCI-337. Principles Of Hydrogeology. 4 Hours.

Introduction to the theory and principles of groundwater flow as well as streamflow. Topics include the hydrologic equation, evapo-transpiration, well drilling and testing, porosity and permeability, Darcy's law, confined and unconfined aquifers, flow-nets, geology of groundwater occurrence, water table maps, geophysical exploration methods, well logs, streamflow and hydrographs. Lecture 3 hours, Lab 2 hours.

Prerequisites: ESCI-211 and (MATH-185 or MATH-106 or NEIU Math Placement Result 35 - 45 or ACT Math 25 - 36 or Accuplacer College Level Math 031 - 120).

ESCI-339. Field Hydrogeology. 4 Hours.

Field techniques of measuring infiltration, soil moisture, aquifer permeability and hydraulic conductivity. Practice in conducting geophysical surveys and drilling, logging and developing ground water wells. Methods of sampling water for chemical analysis. Visits to drilling, monitoring and waste management sites. Methods of recording, analysing, mapping and reporting field data. Lecture 2 hours, lab 3 hours.

Prerequisite: ESCI-337 minimum grade of C.

ESCI-340. Introduction To Geotechnical Engineering. 4 Hours.

Introduction to basic concepts of design and engineering of earth materials. Geotechnical soil properties, engineering soil classification, site characterization, earthwork, interactions of water with Earth materials. Overview of engineering design of roadways, landfills, dams, levees, and tunnels. Especially useful for those interested in environmental aspects of geology. Lecture 2 hours, laboratory 3 hours.

Prerequisite: (MATH-104 or MATH-177 or MATH-185 or NEIU Math Placement Result 35 - 45 or ACT Math 25 - 36 or Accuplacer College Level Math 031 - 120) and.

ESCI-341. Environmental Hydrology. 4 Hours.

The course introduces surface water hydrology, emphasizing applications in urban and agricultural environments of the glaciated Midwest. The course includes basic principles of the processes, interrelationships, and measurement of precipitation, infiltration, evaporation, evapotranspiration, interflow, overland flow, stream flow, and ground water flow. Also covered are an introduction to quantification of watershed hydrologic budgets, hydrographs, flood routing, hydraulic drainage and control structures, and estimation of extreme events. Lecture 2 hrs., laboratory 3 hrs.

Prerequisites: ESCI-211 minimum grade of C and MATH-185 minimum grade of C.

ESCI-347. Climate Change: Past, Present, Future. 4 Hours.

This course investigates the characteristics and causes of short (1 year) to long-term (>1 million years) climate change over the past ~400 million years and ~100 years into the future. The course will present an overview of the methods and techniques used to reconstruct Earth's climate history in the past, and will investigate ongoing climate changes in the present, and those predicted for the future. Students will be introduced to an educational state-of-the-art climate model (EdGCM) to simulate, implement, and analyze the effects of climate change by using real-world data and scientific approaches.

ESCI-350. Geotectonics. 4 Hours.

Geotectonics is the study of large-scale motion and deformation of earth's crust and mantle, the relationship of geodynamics to volcanic activity, earthquakes, and surface features, as well as the deep structure and movement of the interior of the earth. Interdisciplinary instruction of geological, geophysical, and geochemical concepts will allow students to develop a broad working knowledge of classic and current plate tectonics. Historical and recent papers on plate tectonics will be read, discussed, summarized in written reports, and presented to the class. Laboratories will consist of analyzing geologic, geophysical, geochemical, and remotely sensed evidence of current and ancient geodynamics.

Prerequisite: ESCI-211 minimum grade of C.

ESCI-355. Introduction To Geophysics. 4 Hours.

This course is designed to be a survey of the various subdisciplines of geophysics, including geodesy, gravity, geomagnetism, seismology, and geodynamics. Students will be introduced to geophysical phenomena and techniques through the acquisition, reduction and interpretation of data from geophysical exercises and surveys. We will examine simple physics and processes that govern Earth's dynamic behavior and will investigate the forces that formed the solar system and planet, drive convection in the core and mantle, and power plate tectonics.

ESCI-370. Interdisciplinary Seminar On Climate Change. 2 Hours.

This university-wide seminar provides important views on the critical issue of climate change, drawing from many perspectives and disciplines. Faculty from different NEIU departments and other institutions will present an overview of socio-economic, political, cultural, racial, gender, ethical, and scientific perspectives on the issue of climate change. The main objective of the seminar is to gain an understanding of the dynamic linkages and feedbacks between the climate system and society and to critically evaluate climate change solutions in the context of sustainability and social & environmental justice.

ESCI-390. Field Geology. 5 Hours.

This course introduces standard geologic field techniques and data analysis. It is a multiple-week intensive course in geologic mapping and field investigation that focuses on: (1) Collecting and recording data using common geologic field methods and tools; (2) Synthesizing geologic data collected in the field by producing geologic maps and cross-sections; (3) Developing a reasonable geologic history based on multiple lines of evidence. Students will be exposed to a spectacular landscape, where different geologic processes are present and well-exposed. Lecture 3 hours, Lab 3 hours.

Prerequisites: (ESCI-306 minimum grade of C or ESCI-206 minimum grade of C) and ESCI-331 minimum grade of C.

Major in Earth Science

Major in Earth Science for the Bachelor of Science Degree

The Bachelor of Science in Earth Science prepares students for graduate study, or a wide range of positions in Environmental Geoscience fields, including industry, consulting, or state/federal agencies. In addition to required and elective ESCI courses, additional courses in cognate fields (math and science) are required for completion of the degree program. All students are urged to plan their program with the help of ESCI faculty advising.

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Major in Earth Science requirements (66-67 cr. hrs.)

Code	Title	Hours
Required Courses		
ESCI-211	Physical Geology	4
ESCI-306	Writing Intensive Program: Earth Materials	4
ESCI-307	Climate Change: Evidence, Causes, Effects	4
ESCI-311	Mineralogy And Petrology I	4
ESCI-312	Historical Geology	4
ESCI-317	Sedimentology And Stratigraphy	4
ESCI-330	Structural Geology	4
ESCI-390	Field Geology	5
Electives in Earth Science:		
Choose from 300-level course offerings		8
Required Courses in Related Fields:		
CHEM-211	General Chemistry I	5
MATH-187	Calculus I	4
PHYS-203 & PHYS-201 or PHYS-206L	Physics I Laboratory and College Physics I (with lab) University Physics I With Lab	4
MATH-202 or MATH-275	Calculus II ¹ Applied And Computational Statistics	4
Select two of the following: ²		8-9
BIO-201	General Biology I	
BIO-202	General Biology II	
CHEM-212	General Chemistry II ¹	
CHEM-213	Writing Intensive Program: Quantitative Analysis	
CHEM-231	Organic Chemistry I	
PHYS-202 & PHYS-204 or PHYS-207L	College Physics II and Physics II Laboratory (with lab) ¹ University Physics II With Lab	
PHYS-305	Modern Physics I	
Total Hours		66-67

¹ Students planning to pursue an advanced degree in geoscience should plan to incorporate these cognate courses.

² Course substitutions may be allowed by prior arrangement with the undergraduate program advisor. Check program listings for course pre-requisites/ co-requisites.

This sample curricular map is provided to guide you in the planning of your progression for the Earth Science major. This guide should not replace regular consultations with your Earth Science advisor. Please contact the Earth Science Department to develop your specific plan of study and for recommendations regarding your academic progress. For questions, please contact Professor Ken Voglesonger at k-voglesonger@neu.edu.

3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Minor in Earth Science (19-20 credit hours)

Code	Title	Hours
Required Courses		
ESCI-211	Physical Geology	4

ESCI-306	Writing Intensive Program: Earth Materials	4
ESCI-307	Climate Change: Evidence, Causes, Effects	4
ESCI-312	Historical Geology	4
One elective Earth Science course at the 300-level		3-4
Total Hours		19-20

Students also should be aware of the University requirements for the Bachelor's degree. All students must complete a minimum of 40 semester hours at the 300 level.

Economics

The Department of Economics (<http://econ.neiu.edu>) offers courses of study leading to the degree of Bachelor of Arts. Economics is all about how people make decisions. Business, governments, and non-profits all value people who can help the best course of action and make sense of the complicated issues we face everyday. Not only does an economics degree provide students with an available set of business tools - problem-solving, data analysis, and policy modeling - it gives graduates the ability to handle challenges in a wide range of areas. It's more than a technical degree. It's real world skills for real world problems.

ENROLLING IN COURSES

Students considering a major in Economics should begin with our two-course Principles sequence, including ECON 215: Principles of Macroeconomics and ECON 217: Principles of Microeconomics. In addition, students majoring in Economics should be sure to complete Math 165 or MATH 177, which is a prerequisite for some of our 300-level courses. Upper division courses do not need to be taken in sequence, and course schedules are designed to accommodate students who require either daytime or evening courses.

All students are welcome to enroll in Economics courses. Economics is a valuable complement to any major, and students with interests in political, world affairs, finance, or urban issues may want to go beyond the Principles level and explore our field courses. An Economics minor is an excellent complement to a degree in math, political science, computer science, or almost any other field.

BECOMING A MAJOR

You do not need to declare a major to enroll in degree courses, but you should declare as soon as possible. The Economics Major or Minor can be declared once you are fully admitted student. To become an Economics Major or Minor, please complete the Major Declaration Form (<https://www.neiu.edu/academics/registrar-services/declaring-major/minor/>) and deliver it to the department office in BBH 346C or one of our faculty members. You will then be assigned an advisor and should schedule an advising session as soon as possible to discuss the program and requirements.

After completing the Principles sequence (ECON-215, ECON-217), Economics majors must take our two theory courses (ECON-303 and ECON-304), a statistics course (ECON-220), a writing and tools course (ECON-221) and six elective courses (for 36 credits total).

The department regularly offers elective courses in the following subfields:

- Applied Microeconomics (306, 332, 336, 340)
- Applied Macroeconomics and Financial Economics (307, 343, 344, 345)
- Urban Economics (309, 333, 334, 377)
- International Economics (308, 321, 322, 323)
- Data Analysis and Quantitative Methods (310, 312, 318, 343)

Please contact the faculty advisors in the Department of Economics (<https://www.neiu.edu/academics/college-of-arts-and-sciences/departments/economics/contact-economics/>) to develop a plan of study.

The Department of Economics offers a Major and a Minor program of study. Students should meet with a faculty advisor upon joining the program and throughout their academic careers to develop a plan of study.

- Major in Economics (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/economics/economics/>)
- Minor in Economics (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/economics/minor-economics/>)

The economics major is excellent preparation for careers in the public or private sector, or for graduate study in quantitative or social science fields. An economics minor is an excellent complement to a variety of majors, including mathematics, political science and computer science.

Students should also be aware of the University requirements for the Bachelor's degree (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>).

Erick Howenstine, Ph.D., Professor, Chair
 Scott Hegerty, Ph.D., Associate Professor, Advisor, Coordinator
 Christina Ciecierski, Ph.D., Professor, Advisor
 Ryan Gallagher, Ph.D., Associate Professor, Advisor
 Hardik Marfatia, Ph.D., Associate Professor, Advisor
 Michael Wenz, Ph.D., Associate Professor, Advisor

ECON-100. Financial Literacy. 3 Hours.

This course will provide students with an introduction to basic financial literacy. Students will cover the basics of the financial system, including basic banking, investment, budgeting, contracting and debt management. This course will cover both personal finance, small business organization and the relationships between households and businesses in the economy.

ECON-109. First Year Experience: Money Matters: The Chicago Economy. 3 Hours.

This course is designed to provide students with an introduction to surviving in the Chicago economy. The five foundations of the First Year Experience (Future Planning, Integral Preparation, Research, Self-discovery and Transitions) are interwoven with the introductory field-specific concepts and terminology of economics. Students will be introduced to economic and financial literacy while learning what makes Chicago one of the greatest economic engines in the world. Students will examine the Chicago economy and collect data on major economic sectors in Chicago today with an eye on what it will take for workers, households and businesses to succeed in Chicago's future.

ECON-200. Essentials Of Economics. 3 Hours.

This course will provide students with an overview of general economic issues, principles and concepts in both microeconomics and macroeconomics. Through its integrated design, students will have the opportunity to analyze individual firms and markets as well as aggregate economic indicators. Topics to be covered include: inflation, unemployment and economic growth, with a focus on the government's role in its attempts to regulate the economy. Upon completion of the course, students will have gained a basic understanding of how people make decisions, how people interact, and how the economy as a whole works so that they may be able to conceptualize how the economy works, make better business decisions and establish a framework for viewing and interpreting the economic world around them.

Prerequisite: MATH-091 minimum grade of D.

ECON-215. Principles Of Macroeconomics. 3 Hours.

Elementary aggregate economics. Among the topics covered are economic instability, countercyclical economic policies, money, the banking system, government economic activity, fiscal policy, monetary policy and national income theory.

ECON-217. Principles Of Microeconomics. 3 Hours.

Among the topics covered are supply, demand, prices, the working of markets, the markets of labor and for other factors of production, distribution of the product and contemporary economic problems.

ECON-220. Business And Economics Statistics I. 3 Hours.

Introduction to the principal methods of statistical analysis as applied to business and economic problems. Topics covered include descriptive statistics, introductory probability and probability distributions, statistical estimation, hypothesis testing and regression and correlation analysis with computer applications.

Prerequisite: MATH-165 minimum grade of C or MATH-167 minimum grade of C or MATH-177 minimum grade of C or MATH-185 minimum grade of C or MATH-187 minimum grade of C or MATH-202 minimum grade of C or MATH-203 minimum grade of C.

ECON-221. Writing Intensive Program: Tools For Economists. 3 Hours.

This course introduces students to a wide variety of resources used by academic and applied economists. Students will learn the basics of word processing and spreadsheet design, with particular emphasis placed on the written description of data, tables and graphs, as well as academic and business writing styles. Students will also learn how to locate, interpret, and present publicly available economic data that are commonly cited in academic, business, and mass-audience publications. This is a reading- and writing-intensive course that satisfies NEIU's Writing Intensive Program (WIP) requirement for economics majors.

Prerequisites: (ECON-215 minimum grade of C or ECON-217 minimum grade of C) and ENGL-101 minimum grade of C.

ECON-300. Economic Perspectives. 3 Hours.

This course uses a multidisciplinary pedagogical approach to introduce economic insights to students from all disciplines. This course is designed to engage students from outside economics to combine tools from other disciplines with tools from economics toward problem-solving. Students will be given an introduction to basic economic tools. Students will also identify a topical economic problem and present multiple analyses of the same topic from different perspectives.

ECON-303. Intermediate Macroeconomic Theory. 3 Hours.

Consumption and investment theory, the definitions and determination of national income, employment and the price level. Also considered are the economic effects of fiscal and monetary policy.

Prerequisite: MATH-165 minimum grade of C or MATH-167 minimum grade of C or MATH-177 minimum grade of C or MATH-185 minimum grade of C or MATH-187 minimum grade of C or MATH-202 minimum grade of C or MATH-203 minimum grade of C.

ECON-304. Intermediate Microeconomic Theory. 3 Hours.

A systematic study of the role of the price system in organizing economic activity and an evaluation of its effectiveness; price determination and resource allocation under competition, monopoly, oligopoly and monopolistic competition; theories of demand, cost, partial, and general equilibrium.

Prerequisite: MATH-165 minimum grade of C or MATH-167 minimum grade of C or MATH-177 minimum grade of C or MATH-185 minimum grade of C or MATH-187 minimum grade of C or MATH-202 minimum grade of C or MATH-203 minimum grade of C.

ECON-306. Labor Economics. 3 Hours.

Analysis of supply and demand for labor, the determination of wage rates, employment, working hours and labor force participation; with emphasis on the effects of unionism and government activities on these areas.

Prerequisites: ECON-215 minimum grade of D and ECON-217 minimum grade of D.

ECON-307. Money And Banking. 3 Hours.

The nature and functions of money and the role of the monetary sector in the determination of income and employment with particular attention on the institutional framework, money markets, commercial banking, deposit expansion, the Federal Reserve System and monetary policy and its instruments.

Prerequisites: ECON-215 minimum grade of D and ECON-217 minimum grade of D.

ECON-308. Comparative Economic Systems. 3 Hours.

Analysis of the structure, institutions and performance of alternative economic systems: capitalism, socialism, communism. Selected countries are studied as examples of each system.

Prerequisites: ECON-215 minimum grade of D and ECON-217 minimum grade of D.

ECON-309. Public Finance. 3 Hours.

An investigation of the economic effects of governmental activities. The major types of taxes and expenditure proposals are considered. In addition, intergovernmental fiscal relations and fiscal policy are discussed. The course will emphasize, but not be restricted to American fiscal institutions.

Prerequisites: ECON-215 minimum grade of D and ECON-217 minimum grade of D.

ECON-310. Writing Intensive Program: Business And Economic Statistics II. 3 Hours.

This course is a continuation of ECON-220. Topics to be covered include analysis of variance, multiple regression and correlation, time series analysis, nonparametric tests, and decision theory with computer applications.

Prerequisites: ECON-215 minimum grade of D and ECON-217 minimum grade of D and ECON-220 minimum grade of D and ENGL-101 minimum grade of C.

ECON-312. Mathematical Economics. 3 Hours.

Conventional macro- and microeconomic theories are set out in mathematical form utilizing algebra and calculus. Topics to be covered include sets, functions, matrices, differential and integral calculus and optimization.

Prerequisites: ECON-215 minimum grade of C and ECON-217 minimum grade of C and (MATH-165 minimum grade of C or MATH-167 minimum grade of C or MATH-177 minimum grade of C or MATH-185 minimum grade of C or MATH-187 minimum grade of C or MATH-202 minimum grade of C or MATH-203 minimum grade of C).

ECON-313. Economic History Of Europe. 3 Hours.

Development of the modern economic systems and institutions of Europe from their late medieval and Renaissance beginnings; the revival of trade, the growth of towns, the commercial revolution, the development of new systems of economic thought to support capitalism, the industrial revolution, the rise of new economic forms such as socialism, modified capitalism, and "mixed" economies in the twentieth century.

Prerequisites: ECON-215 minimum grade of D and ECON-217 minimum grade of D.

ECON-314. The Development Of Economic Thought. 3 Hours.

Historical survey of the major streams of economic thought including classical, Marxian, Institutional, neoclassical, radical and monetarist thought. The course covers the origins, methods and validity of economic theories.

Prerequisites: ECON-215 minimum grade of D and ECON-217 minimum grade of D.

ECON-316. Independent Study In Economics. 3 Hours.

Intensive study of special topics of economics; faculty guidance.

ECON-318. Introduction To Econometrics And Forecasting. 3 Hours.

Introduction to the methods by which economic theories are tested with emphasis on applications. Topics include bivariate and multiple regression techniques, hypothesis testing, and violation of the common assumptions. Computer usage.

Prerequisites: ECON-215 minimum grade of D and ECON-217 minimum grade of D and ECON-220 minimum grade of C and (MATH-165 minimum grade of D or MATH-110 minimum grade of D or MATH-177 minimum grade of D).

ECON-320. Writing Intensive Program: Non Profit Management, Administration & Communications. 4 Hours.

This course is designed to prepare students for careers in the non-profit world and to introduce the principles of effective professional communications. Students will be required to volunteer a minimum of two (2) hours per week with a non-profit organization and to produce weekly correspondence related to the internship.

Prerequisite: ENGL-101 minimum grade of C.

ECON-321. International Monetary Theory & Relations. 3 Hours.

This course will provide an analysis of the international monetary system and the institutions that link national economies through exchange rates, balance of payments, and international asset transactions. Particular attention will be paid to the evolving international monetary system of flexible exchange rates and highly mobile international capital. This course will be valuable to students interested in careers in international economic policy, international banking, and finance, and in international political economy.

Prerequisites: ECON-215 minimum grade of C and ECON-217 minimum grade of C.

ECON-322. International Economics. 3 Hours.

This course will examine international trade in goods and services, and international movements of labor capital, with a focus on the role of domestic and international political forces, regional issues, and urban systems. Traditional trade theories and policies will be discussed, as well as topical issues such as immigration, foreign direct investment, environmental policy, international political economy, and "global cities."

Prerequisites: ECON-215 minimum grade of C and ECON-217 minimum grade of C.

ECON-323. Writing Intensive Program: Economic Development. 3 Hours.

This course will examine the process of economic development primarily at the nation level throughout the world. Students will study important theories of development and will be expected to apply these to writing and research on a specific country, and to disseminate their work to the class.

Prerequisites: ECON-215 minimum grade of D and ECON-217 minimum grade of D and ENGL-101 minimum grade of C.

ECON-324. The Economics Of The European Union. 3 Hours.

This course will provide an overview of the history, objectives and economics policy issues of the European Union. The focus of the course will be on a theoretical analysis of the principal economic problems facing the European Union. These problems include: agricultural policy, trade policy, the creation of a single market and single currency, further expansion, and relations with the United States. The course requires that students have a background and sound understanding of the principles of macro and micro economics.

Prerequisites: ECON-215 minimum grade of D and ECON-217 minimum grade of D.

ECON-330. Urban And Regional Economic Development. 3 Hours.

This course introduces students to the basic theories and practice of local economic development. Subject matter is limited to topics most relevant to domestic (i.e. U.S.) local economic development. Topics covered include the history of local economic development policy, competing theories of development, and the structure and impact of various economic development policies. Methods for gauging the composition and health of a local economy are also reviewed in detail. The concepts and methods covered in this course are used regularly by local economic development practitioners. Students interested in urban/regional economics and/or urban planning will find this course especially insightful.

ECON-332. Industrial Organization. 3 Hours.

Analysis of the competitive structure of industries and the major determinants of industrial organization such as economies of scale, mergers, vertical integration, advertising and their effects on competitive firm behavior. Examination of the economic foundations and effects of government policies to regulate monopoly.

Prerequisites: ECON-215 minimum grade of D and ECON-217 minimum grade of D.

ECON-333. Urban Economics. 3 Hours.

Presentations of fundamental economic tools applicable to urban problems; identification of the economic causes of these problems and analysis of policies designed to correct them.

Prerequisites: ECON-215 minimum grade of D and ECON-217 minimum grade of D.

ECON-334. Cost-Benefit Analysis. 3 Hours.

Alternative economic policies resulting from weighing the merits of spending public expenditures on various public projects. A systematic approach to the evaluation of individual projects in the selection of the best project to accomplish a given purpose, and in the establishment of priority order among the projects competing for limited funds.

Prerequisites: ECON-215 minimum grade of D and ECON-217 minimum grade of D.

ECON-336. Health Economics. 3 Hours.

This is a course in applied economic theory that examines the determinants of health status as well as the determinants of the market quantity and price of health care services. Specific topics covered include: consumer factors which determine demand for health and health care utilization; the role of health insurance in determining health and health care utilization; behavior of health care providers under various types of financial reimbursement mechanisms and market structures.

Prerequisites: ECON-217 minimum grade of C and MATH-091 minimum grade of C.

ECON-337. Environmental Economics. 3 Hours.

This course allows students to explore and understand the role of economics in analyzing environmental issues and in the development of environmental policy. Some of the topics covered include: air and water pollution, transitioning from depletable to renewable resources; biodiversity and issues of sustainability, energy and transportation.

Prerequisites: ECON-217 minimum grade of C and ECON-215 minimum grade of C.

ECON-339. Cancer Health Policy Data Science Lab. 3 Hours.

This is a course in applied economic theory that uses real-world data to examine the determinants of health status and cancer-risk behaviors.

ECON-340. Managerial Economics. 3 Hours.

The application of economic theory to the analysis of business decision-making. Topics include the theory of production, cost, pricing, and capital budgeting. Specific tools such as constrained maximization and regression analysis are applied in a case approach to the estimation and forecasting of revenues and costs, and to the preparation of budget forecasts.

Prerequisites: ECON-215 minimum grade of D and ECON-217 minimum grade of D.

ECON-343. Macroeconomic Data Analysis. 3 Hours.

The manipulation, presentation, and interpretation of real macroeconomic data. Concepts include GDP, inflation, interest rates, exchange rates, and nominal and real variables. Students will gain experience applying formulas, preparing graphs, and uncovering basic statistical relationships among data series.

Prerequisites: ECON-215 minimum grade of C and ECON-217 minimum grade of C and (MATH-165 minimum grade of C or MATH-167 minimum grade of C or MATH-177 minimum grade of C or MATH-185 minimum grade of C or MATH-187 minimum grade of C or MATH-202 minimum grade of C or MATH-203 minimum grade of C).

ECON-344. Financial Economics. 3 Hours.

This course will provide students with the economic tools that are critical to understanding the idea of risk and return and how various factors affect the valuations of assets like bonds, stocks, mutual funds or houses. These concepts are also useful for the types of analysis done by financial experts in banks, financial institutions, and companies who also have to understand the risk-return of various assets and overall financial decisions. This course also emphasizes the deep interconnections of finance with macroeconomics more generally.

Prerequisites: ECON-215 minimum grade of C and ECON-217 minimum grade of C.

ECON-345. The U.S. Federal Reserve. 3 Hours.

This is an applied course on the U.S. Federal Reserve policy and practices. Students will be expected to research Fed policy and prepare briefings on the state and trajectory of the U.S. economy. The class will collaborate on a presentation to the Chicago Fed as part of the Student Fed Challenge, a competition involving Universities throughout the Chicago Fed district.

Prerequisites: ECON-215 minimum grade of C and ECON-217 minimum grade of C.

ECON-346. Applied Economic Statistics Using R. 3 Hours.

This course provides an introduction to the open-source statistical software R, including operations, packages, and coding principles. Students will apply statistical concepts using economic data, gaining experience with the software while deepening their knowledge of economics.

ECON-377. Real Estate Economics. 3 Hours.

This course provides an overview of the economics of real estate markets. Primary focus is on the interaction of supply and demand in determining real estate property valuations and other real estate-related assets such as mortgage-backed securities. Different methods of determining real estate valuations are examined, including residential, cost, hedonic, and income-based approaches for commercial and residential properties. Additionally, the link between real estate markets and the broader economy is examined, including emphasis on the mortgage industry and mortgage markets.

Prerequisites: ECON-215 minimum grade of C and ECON-217 minimum grade of C.

ECON-3953. Internship In Economics. 3 Hours.

The internship in economics is designed for students in the Department of Economics with a declared major or minor and who are approaching the terminus of their program and wish to apply their learned knowledge within a non-academic and professional setting. For many students, an internship constitutes a first glimpse into "how economists work" outside of the classroom and, consequently, serves as a guide for future career goals and opportunities. Additionally, well-received interns often obtain strong letters of recommendation and/or the option of permanent employment.

Prerequisites: ECON-215 minimum grade of C and ECON-217 minimum grade of C and ECON-303 minimum grade of C and ECON-304 minimum grade of C.

ECON-3956. Internship In Economics. 6 Hours.

See course description for ECON-3953.

Prerequisites: ECON-215 minimum grade of C and ECON-217 minimum grade of C and ECON-303 minimum grade of C and ECON-304 minimum grade of C.

ECON-401. Fundamentals Of Business Economics. 4 Hours.

Provides knowledge of microeconomic and macroeconomic theory necessary for advanced business analysis.

Major in Economics

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

English

The English Department offers a variety of courses, programs, student organizations and regular events that help students develop a set of crucial skills and dispositions necessary for professional and personal success: critical thinking, creativity, empathy, clear and persuasive written and oral presentation. We offer a range of courses from traditional surveys of British and American literature and canonical authors to specialized electives in Creative Writing, diverse literatures (Latinx, Caribbean, Post-Colonial African, African-American, Chicano), rhetoric and composition, women's and LGBTQ+ literatures and cultures, film and graphic novel. Beyond these classroom experiences, however, students will find support and opportunity to bring their skills and creativity to broader communities within and outside the Department: in research for regional and national conferences built around our courses and our chapter of Sigma Tau Delta English Honors Society; presenting their work at Northeastern's annual student Research and Creative Activities Symposium; attending readings by professional poets and novelists in our 82 Writers Series; or participating in or leading a variety of literary and cultural events run or sponsored by the Department.

Degree and For-Credit Programs

The Department offers an undergraduate (B.A.) degree, two undergraduate minors in English and Creative Writing, and M.A. degree. In addition, we offer the M.A. degree and units of concentration (6 related courses, e.g. Cultural Studies or Literature and Gender Studies) for in-service teachers on a cohort model, on-site at Districts in the Chicago area. We also participate in the College of Arts and Sciences Professional Development Seminar Series of 3-hour seminars for in-service teachers for CPDU credit.

Undergraduate Degrees and Minors

The B.A. in English is a 36-credit major, with six required courses and six electives. In order to ensure student progress, each term our offerings include a full array of our required courses (ENGL 210: Literary Methods and Practice; ENGL 218, 219, 221 and 222—surveys of British and American Literature, three of which must be completed for the degree; a major author—ENGL 330, 331, 329 or 314 (Shakespeare Tragedies or Comedies, Milton, or Chaucer); and ENGL 345: Practical Criticism and Theory. In addition, we offer a wide variety of upper division electives in diverse literatures and cultures, film, composition studies, and creative writing. Eight of our upper-division courses have been designated Engaged Learning Experiences (ELES) with more coming on-line each year.

The B.A. in English/Secondary Education listed under English programs is no longer accepting students. As of Fall 2019, students seeking teacher certification in English/Language Arts need to complete the B.A. in English above and apply to the Teacher Certification/M.A.T. cohort program in the College of Education during their last term as undergraduates. For requirements and information, refer to the Secondary Education Graduate Program (<https://www.neiu.edu/academics/daniel-l-goodwin-college-of-education/departments/educational-inquiry-curriculum-studies/secondary-education-graduate-programs/>).

The English Department's Creative Writing minor (18 credits) provides undergraduate students of any major with opportunities to develop as writers within a variety of creative contexts. The courses in the program enable students to develop both writing craft and technical proficiency. After foundations courses (ENGL 235: Introduction to Creative Writing and ENGL 340A: The Elements of Style, taken in sequential terms) students are encouraged to take a core sequence, which will enable them to move from writing individual pieces to developing longer book-length compositions. Electives are available in a wide variety of sub-genres, including Hybrid Forms, Short Story, Personal Essay, Flash Forms and Creative Non-Fiction. English majors may use up to 9 credit hours of 300-level work in Creative Writing from their major coursework for the Creative Writing minor.

The undergraduate Minor in English (18 credits) provides a broad cultural literacy in British and American literature (students must choose three survey courses (9 credits) from those listed above for the English Major) and a choice of electives at the 300 level (9 credits).

Graduate Programs (M.A. in English - Literature and Composition concentrations)

The graduate program in English (33 credits) develops skills in critical thinking, writing, and research, encourages intellectual curiosity, and provides training for careers and professional advancement in related fields such as teaching, editorial work, journalism, publishing, writing, and research. Students pursuing the MA in English choose between two degree concentrations, Literature or Composition. The two-track curriculum provides two separate fields of study within English, offering multiple career opportunities as well as preparing students for doctoral work. Students may also pursue the M.A. in English at the same time as they complete teacher certification.

 Emily Garcia, Ph.D., Associate Professor
 Bradley Greenburg, Ph.D., Professor
 Julie H. Kim, Ph.D., Professor
 Timothy R. Libretti, Ph.D., Professor
 Kristen L. Over, Ph.D., Associate Professor
 Ryan Poll, Ph.D., Assistant Professor
 Christopher L. Schroeder, Ph.D., Professor

ENGL-101. Writing I. 3 Hours.

Specialized instruction and practice in beginning writing. Work in usage, grammar, style, paragraphs, and short essays.

Prerequisites: (ELP-120 or ELP-099 or NEIU English Placement Writing 7 - 9 or (Accuplacer WritePlacer 4 - 8 and Accuplacer Sentence Skills 095 - 120) or (Accuplacer WritePlacer 5 - 8 and Accuplacer Sentence Skills 020 - 120)).

ENGL-102. Writing II. 3 Hours.

Continuation of practice in composition with emphasis on a variety of forms of writing and long essays, culminating in the annotated research paper.

Prerequisite: (ENGL-101 or NEIU English Placement Writing 8 - 9).

ENGL-109A. First Year Experience: Chicago's Literary Diversity: Reading The Neighborhoods. 3 Hours.

This course explores how literary Chicago enters into discourses on race and ethnicity in twentieth century literature. Beginning with Great Migration, students sample literary history produced by people who settled or passed through Chicago. Writers have used Chicago as a setting for major works and sociological studies have attempted to focus on Chicago's neighborhoods and how they were formed as a result of immigration from other countries and migration from the American South. The course examines several works from popular perspectives, fiction, autobiography, journalism, humor, folktales, cultural criticism and regional studies to reach a better understanding of the city.

ENGL-109B. First Year Experience: Reading And Writing The Literary And Political Landscapes Of Chicago. 3 Hours.

From the Haymarket "riot" of 1886 to the Pullman Strike of 1894 to the Black Sox scandal of 1919 to the trial of Abbie Hoffman and the Chicago Seven in the aftermath of the Democratic Convention of 1968, Chicago has, to say the least, a colorful and quite literally, explosive political history. As with any major urban center in the United States, Chicago bears the historical scars and contemporary fruits of vibrant and violent class conflict, labor insurgencies, racial strife, immigrant struggles, and activism for social justice. Part and parcel of this historical legacy is a rich spate of cultural production that attempts to comprehend this past in those historical moments and in our contemporary era.

ENGL-109C. First Year Experience: Drama And Diversity In Chicago. 3 Hours.

In this class, we will analyze and experience Chicago theater. By emphasizing theater that challenges social cultural norms, we will consider how drama works to create and define diverse urban communities and how it offers alternative visions to the status quo. This class will emphasize writing and reading about drama, interviewing theater personnel and taking notes on actual theater performances, and relating art to social and political diversity. We will attend 3-4 performances during the course of the semester.

ENGL-109D. First Year Experience: Windy City Words: Ethnolinguistic Chicago. 3 Hours.

This course integrates the five foundations of the First-Year Experience (Future Planning, Integral Preparation, Research, Self-Discovery, and Transitions) with concepts from the study of literacy and language. Using the city as a field site, students actively explore the linguistic and cultural diversity of Chicago through independent research, readings, online resources, speakers, and other experiences.

ENGL-109E. First Year Experience: Your Chicago: Write On!. 3 Hours.

This course interweaves foundations of the First-Year Experience (Future Planning, Integral Preparation, Research, Self-discovery, Transitions) with specific concepts of creative writing. Explore and experience Chicago's vibrant cultural scene while cultivating literary culture in class. Students study their local literary heritage reading, analyzing, and discussing works of classic and contemporary Chicago authors and attending and annotating literary readings at local bookstores and cafes; experimenting with a range of writing exercises, prompts, and assignments, students will craft their own stories, recognize their unique writing process, and learn techniques to revise and polish their prose, culminating in a student reading.

ENGL-201. The World Of Poetry. 3 Hours.

A literature course which has three main objectives: 1) to familiarize students with the literary conventions of poetry; 2) to develop in students a critical stance towards literature; and 3) to develop in students an appreciation of both western and non-western cultures as experienced through literature.

Prerequisite: ENGL-101 minimum grade of C.

ENGL-202. The World Of Drama. 3 Hours.

A literature course which has three main objectives: 1) to familiarize students with the literary conventions of drama; 2) to develop in students a critical stance towards literature; and 3) to develop in students an appreciation of both western and non-western cultures as experienced through literature.

Prerequisite: ENGL-101 minimum grade of C.

ENGL-203. The World Of Fiction. 3 Hours.

A literature course which has three main objectives: 1) to familiarize students with the literary conventions of the short story and novel genres; 2) to develop in students a critical stance towards literature; and 3) to develop in students an appreciation of both western and non-western cultures as experienced through literature.

Prerequisite: ENGL-101 minimum grade of C.

ENGL-205. Literatures And Literacies. 3 Hours.

This course an introduction to language arts for elementary education majors. As such, it provides practical foundation in the methods essential to the study of language arts, including active reading, critical thinking, and purposeful writing, and it includes skills such as note taking, quoting, using MLA style, summarizing arguments, and synthesizing and documenting others' opinions. This course will also explore multiple perspectives on controversial topics relevant to literary and literacy studies.

Prerequisite: ENGL-101 minimum grade of C.

ENGL-206. The Bible As Literature. 3 Hours.

This course introduces students to the major characters, settings, and literary devices of the Bible. It deepens students' understanding of the history of canon formation, textual scholarship, and interpretation as it relates to the Bible. Further, it expands their appreciation of the impact of the Bible on literature, history, and culture.

ENGL-209A. Red Scare: Literature Of The McCarthy Era. 3 Hours.

The course focuses on the perceived communist threat on 1940s/50s United States and how politics affected writers such as Arthur Miller, Langston Hughes, Lillian Hellman and others as well as screenwriters in Hollywood through such films as *On The Waterfront* and *High Noon*. Research papers and projects will draw connections between societal perceptions of the times and their influence on Hollywood films and literature through genres of fiction, poetry, and drama.

ENGL-210. Writing Intensive Program: Methods for English Majors. 3 Hours.

Writing Intensive course designed as first course for English majors. Provides practical foundation in the methods essential to English Studies: active reading, critical thinking, and purposeful writing. Skills such as note taking, quoting, using MLA style, summarizing arguments, and synthesizing and documenting others' opinions will be emphasized. Course will also explore multiple perspectives on controversial topics relevant to the discipline. Coursework develops strategies of effective critique, argument, and analysis, and will consist of informal writing, review essays, and thesis-driven analyses of rhetorical and literary texts. Open discussion and critical thinking required.

Prerequisites: ENGL-101 minimum grade of C and ENGL-102 minimum grade of C.

ENGL-218. American Literature:Beginnings To 1865. 3 Hours.

A course covering representative writing of the Colonial, Early National and Romantic periods in American literature, emphasizing both dominant and emergent themes and literary forms in each period where students will build the necessart cultural literacy for higher-level courses in American Literature.

ENGL-219. American Literature:1865 To The Present. 3 Hours.

A course covering representative writings of the Realist, Modern and Postmodern periods in American Literature, emphasizing both dominant and emergent themes and literary forms in each period. Here students will gain a broad background for higher-level courses in postbellum American Literature.

ENGL-221. English Literature:The Beginnings To C. 1750. 3 Hours.

Representative works in English literature from Beowulf to the middle of the eighteenth century.

ENGL-222. English Literature: C. 1750 To The Present. 3 Hours.

Representative works in English literature from the middle of the eighteenth century to the modern era.

ENGL-235. Introduction To Creative Writing I. 3 Hours.

Preliminary study to enable students to develop positive approaches to the craft of writing and to explore techniques of the craft.

ENGL-291. Children's Literature. 3 Hours.

Preparation for effective teaching of literature in the elementary school; wide reading of books for young children; story selection and story telling; authors and illustrators of children's books; classroom methods of stimulating creative expression; individual and group reading guidance.

ENGL-300. Russian Literature: From Gogol To Chekhov. 3 Hours.

Works (primarily novels, novellas and stories) of the major figures in nineteenth-century Russian literature (Turgenev, Tolstoi, Dostoyevski, etc.), relating them to the social, political and religious issues they touched on.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-301. Independent Study In English. 1 Hour.

An independent study on the tutorial model, initiated at the student's suggestion to an instructor; course content designed in consultation with the instructor. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-302. Literatures And Theories Of Love. 3 Hours.

What does it mean to love? As philosopher John Armstrong writes, "This is to raise one of the deepest, and most puzzling, questions we can put to ourselves." This course explores diverse narratives and theories of love, especially emerging from marginalized thinkers such as bell hooks, James Baldwin, and Emma Pérez. As the course explores, love not only underwrites conceptions of the self, but more broadly, enables and generates new forms of community, ethics, and politics. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-303. Contemporary LGBTQ+ Literature. 3 Hours.

This course uses an intersectional approach to explore fiction, film, and other texts that address the ways LGBTQ+ identities are layered, fluid, evolving, and sometimes conflicting. We will emphasize close reading of fiction, the ability to write clearly and analytically about literature, the history and culture of LGBTQ+ lives, and the role literature plays in our everyday lives. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-304A. Literary Editing. 3 Hours.

Students will learn and implement skills involved in literary editing, including developmental and copy editing, and proofreading, supporting the production of the annual issue of SEEDS: A Literary & Visual Arts Journal or a collaborative anthology.

ENGL-305A. Literary Publishing. 3 Hours.

Students will learn and implement skills involved in the publication of a literary journal, including navigation of process and product, supporting the production of the annual issue of SEEDS: A Literary & Visual Arts Journal or a collaborative anthology.

ENGL-307. Medieval Studies- The Development Of The Arthurian Legend. 3 Hours.

The legend of King Arthur from allusions in early chronicles, through Welsh folk tales, through the courtly versions of twelfth-century France to the compilation by Sir Thomas Malory. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-308. English Literature From Beowulf To Malory. 3 Hours.

A survey of English Medieval literature that, in dealing with major works (e.g. Beowulf, The Canterbury Tales, Morte D'Arthur, etc.), situates them in the relevant political and linguistic contexts, as well as the literary context of competing "minor" works and genres. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-309. Reading & Writing In A Changing Digital Economy. 3 Hours.

Through hands on experience and theoretical and rhetorical analyses, students will explore processes and issues with writing and reading in digital environments. Topics include connecting visuality with the written word, exploring online textual identities, collaboration and intellectual property, and web design, with an emphasis on how writing in digital environments impacts English studies. Students will produce a variety of non-traditional and traditional academic texts in this course, using current presentation, web-based or freeware programs. The class is open to students who are new to digital writing but will also benefit those with experience in composing New Media and digital texts.

ENGL-310. Writing Intensive Program: Introduction To Composition Studies. 3 Hours.

Examines some contemporary issues in composition studies, such as process theory, the role of grammar in writing instruction, digital and visual literacies, and scholarly considerations of writers' subjectivities. Introduces the discipline's modes of inquiry: theory, empirical research, and practice. Provides instruction in professional resources and bibliographic databases so that students can become independent learners in the discipline. Written assignments include responses to readings and a literature review. This course fulfills the NEIU Writing Intensive requirement for Secondary Education English majors and for English majors who as transfer students may have already taken a course comparable to ENGL-210.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-311. Introduction To Cultural Studies. 3 Hours.

This course introduces students to the theoretical debates and interpretative strategies of cultural studies. Using an interdisciplinary approach, this course explores how culture is produced, distributed, consumed, and responded to in diverse, contradictory ways. Cultural forms analyzed will include movies, comics, television, photography, music, fan fiction, and video games. Required: ENGL-210 and one other English course at the 200 level.

ENGL-312. Literature Of Colonial Times. 3 Hours.

Prose and poetry of the Puritan and Revolutionary eras. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-313. American Literary Renaissance-1830-1860. 3 Hours.

Prose and poetry of Hawthorne, Melville, Emerson, Thoreau, Whitman, Dickinson, and others. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-314. Chaucer And His Age. 3 Hours.

Close study of selected early poems of Chaucer (ballads, envoys, and narratives), to present and introduction to the language and themes of Chaucer's poetry and his age. The major portion of the course will be devoted to a close reading of The Canterbury Tales in the original Middle English. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-315. Literature Of The English Renaissance. 3 Hours.

Prose and poetry (not drama) of the English Renaissance in the sixteenth century. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-316. Forms Of Poetry. 3 Hours.

This course will examine some of the traditional poetic forms-lyric, narrative, and dramatic- which have been used by poets throughout literary history. Readings and discussion will engage students in an analysis of each form- its technical characteristics, its place in literary history, and its relevance to contemporary writers and readers of poetry. Students will write imitations of several poetic forms as well as critical essays about them. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-317. Modern American Drama. 3 Hours.

This course considers the development of modern American drama, as well as the contributions of regional and storefront theaters. It also examines the convergences and divergences of drama as literature and performance, as well as other challenges and limits to understanding modern American drama, and concludes with original research presentations by students. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-319. Writing Culture And Identity. 3 Hours.

In this course, students will explore theoretical, political, and cultural understandings of difference and identity through intensive reading and writing. Students will develop a deep understanding of cultural difference and the ability to write argumentative, personal, and theoretical essays about human diversity in a variety of forms.

Prerequisites: ENGL-101 minimum grade of C and ENGL-102 minimum grade of C.

ENGL-320. Globalizing Literacies. 3 Hours.

This course presents textual circulation as trade in cultural practices throughout early modern or protoglobalization (1600-1800) when European traditions were exported to the United States that, after being established through cultural syncretism, were exported to the rest of the world throughout the first (1870-1914) and second (1980-present) globalization periods. From these perspectives, students will examine central themes in textual production and consumption, such as the development of an American literary tradition and Americanization educational initiatives through particular genres, such as newspapers and magazines, as a part of a nationalized cultural identity, including ways this identity has been resisted and reconfigured.

ENGL-321. Literature Of The Romantic Movement. 3 Hours.

Poetry and prose from 1780 to 1830 including Blake, Burns, Wordsworth, Coleridge, Byron, Shelley, Keats, Lamb, Hazlitt, and DeQuincey.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-322. The American Short Story. 3 Hours.

The evolution of the American short story as a self-conscious form of literature from Washington Irving to Joyce Carol Oates. The theories of Romanticism, Realism, Naturalism are illustrated. Each student selects one writer of short stories to explore in some depth through an individual report. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-323. Modern British Drama. 3 Hours.

This course examines the development of modern British drama since the 1890s, studying writers like Shaw, Wilde, Yeats, O'Casey, Beckett, Pinter, Stoppard, and Churchill. Covering over a century of a dynamic period in the history of British drama, this course explores important influences such as Norwegian Henrik Ibsen's Realism, French "Symbolism" Movement, Irish Literary Revival, poetic drama, the Theatre of the Absurd, and Postmodernist aesthetics. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-324. The Romantic Novel. 3 Hours.

The nineteenth century novelists from England and the Continent are studied against the great socio-political movements of the age- the French, Russian and Industrial Revolutions. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-327. Chicago Drama. 3 Hours.

This course examines the history of Chicago drama from the early performances of Joseph Jefferson to modern and contemporary playwrights, such as Tennessee Williams and David Mamet, who have found success in or been shaped by Chicago, as well as its contributions to drama in the U.S. and around the world. Required: ENGL-210 and one other English course at the 200 level.

ENGL-328. Seventeenth Century Literature. 3 Hours.

Studies in seventeenth century literature exclusive of Milton. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-329. Milton. 3 Hours.

Milton's work and the intellectual milieu of the period. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-330. Shakespeare: Comedies, Romances And Poetry. 3 Hours.

This course explores Shakespeare's comedies, their late transformation into romances, and select narrative poetry. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-331. Shakespeare: Tragedies And Histories. 3 Hours.

This course explores Shakespeare's works in the genres of tragedy and history, emphasizing close reading and historical context. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-332. Elizabethan And Jacobean Drama. 3 Hours.

Exploration of English dramatic works from circa 1580-1642, including Marlowe, Greene, Middleton, Marston, Dekker, Jonson, Webster, and Beaumont. This course will pay particular attention to genres that dominate outside the Shakespeare canon (revenge tragedy, city comedy, tragicomedy), as well as detailing the social, cultural, and intellectual developments that characterize this golden age of English stagecraft. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-333. Mythological Backgrounds Of English And American Literature. 3 Hours.

Middle-Eastern, Nordic and Graeco-Roman mythological systems; reading in archetypal interpretation of literature with representative illustrations from fiction, drama and poetry. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-334. Biblical Backgrounds Of English And American Literature. 3 Hours.

Influence of the Bible, especially the King James version, on the style and content of famous English and American writers. Selected reading from Old and New Testaments and from writers influenced by them. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-335. Written Communications For Business. 3 Hours.

Designed primarily for Business and Management majors covering principles and practices of writing required in professional work. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-336. Technical Writing. 3 Hours.

This course asks students to study the ways writers prepare professional documents, including reports, proposals, and web sites, in a world where our languages are becoming increasingly technical, jargon-filled, and diverse. Students will write in these modes as well to give them experience with the kinds of technical writing they may encounter in fields such as business, science, engineering, and more.

Prerequisites: ENGL-101 minimum grade of C and ENGL-102 minimum grade of C.

ENGL-340. Independent Study In English. 2 Hours.

An independent study on the tutorial model, initiated at the student's suggestion to an instructor; course content designed in consultation with the instructor. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-340A. Elements Of Style For Creative Writers. 3 Hours.

The course will cover style conventions of the English language, including: punctuation, grammar, usage, and sound. There will be a focus on sentence and line analysis. Students will consider how these conventions and their deployment impact a reader's experience, and the issues of perspective, power, and bias encoded therein. Students will also develop a working definition of their own writerly style while experimenting in using, subverting, and experimenting with conventions. Students will be encouraged to work within their own desired genre(s); the reading selections will be modern and contemporary texts which move across fiction, nonfiction, poetry, drama, and hybrid.

Prerequisites: ENGL-101 minimum grade of C and ENGL-235 minimum grade of C.

ENGL-341. Restoration And Eighteenth Century Literature I. 3 Hours.

Politics in England leading to the restoration of Charles II; his court; Restoration playwrights; the bawdy Restoration stage and reaction to it; the new sentimental drama; the newspaper and the essay. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-342. Restoration And Eighteenth Century Literature II. 3 Hours.

Intensive study of contrasts in the Age of Enlightenment; interrelationship of politics and writers; neoclassic literature; beginning of the novel; eighteenth century criticism and biography. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-343. Global Ecologies: U.S. Literature In The Age Of Environmentalism. 3 Hours.

This interdisciplinary course explores why studying the environment is one of the most urgent, intellectual responsibilities of all disciplines, including English. Global Ecologies centers on how the environment is represented, imagined, and refigured across a range of literary and cultural texts, and the course studies how the environment is inextricable from understanding a range of social relations from race and class to ethics and politics.

ENGL-344. Literatures Of Incarceration. 3 Hours.

This class will examine the literatures that emerge from or deeply engage experiences of prison and confinement. It will consider literature from around the globe and from various moments in history (from authors such as Dostoyevsky, Mandela, and Soyinka), but the focus will be on contemporary work that considers US incarceration from the 1950s through today. This course requires significant writing and will also consider how narrative can give voice to those who are incarcerated as it illuminates the many ways mass incarceration traps us all.

ENGL-345. Practical Criticism. 3 Hours.

Introduction to some of the more important critical approaches to literature, emphasis on application as well as theory. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-346A. Critical Writing For Creative Writers. 3 Hours.

This course is a seminar and writing workshop for creative writers. Students will examine assigned models; choose outside reading of their own; produce various creative, creative-critical, and critical-creative pieces; submit at least one book review for possible publication; and through this process “enter the discourse.”

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-348. Prose And Poetry Of The Victorian Age. 3 Hours.

Selected Victorian poetry, with consideration of the social background of the period (1837-1910). Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-350. The Victorian Novel. 3 Hours.

A study of the development of the novel in England from Dickens to Hardy, seen against the contemporary social and literary background. Theme and technique of the novel, methods of publication, major and minor writers. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-351. The English Novel Of The Eighteenth Century. 3 Hours.

The development of the English novel as a genre in the eighteenth century, including such precursors of the novel as Bunyan, Defoe, Lyly and Behn. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-352. Jewish-American Literature: People Of The Books. 3 Hours.

This course studies how the United States shapes the meaning of Jewish identity and culture, and conversely, how Jewish literature helps shape the meaning of American identity and culture. Working in a range of forms from comic books to genre fiction, Jewish writers throughout the modern era creatively and critically interrogate and re-imagine what it means to be Jewish-American, and more broadly, investigate and challenge what it means to be American. Required: ENGL-210 and one other English course at the 200 level.

ENGL-353. Writing About Music In The U.S.: Contemporary History And Criticism. 3 Hours.

This is a course designed for students who want to read, write, and think about music—and, by extension, literature and culture—more critically. This is not a survey of canonical writing about music, but it will focus on predominantly American writing of the last 20 years that challenges various narratives about popular music, including hip hop, rock, pop, country, and jazz. The course will focus on argumentative and often scholarly writing about music, and each student will write an extended piece of writing about music. Required: ENGL-210 and one other English course at the 200 level.

ENGL-354. Star Wars: Narratives, Politics, And Economics Of A Billion-Dollar, Multi-Media Franchise. 3 Hours.

Star Wars is a billion-dollar franchise that spans multiple generations, nation-states, and media forms. The ever-expanding empire includes movies, novels, toys, comic books, video games, television shows, fan fiction, and cosplay. Taking a multidisciplinary and transmedia approach, this course studies how this fictional galaxy is informed by wider historical, political, economic, and cultural processes from the economic and energy crises of the 1970s to social justice movements in the present. The course explores questions such as: How do historical crises inform global franchises? How do marginalized voices occupy a franchise? No prior knowledge of Star Wars is necessary.

ENGL-355. The Production Of "America": Work, Class, & Political Economy In U.S. Literature & Culture. 3 Hours.

This class will explore U.S. literature and culture with an eye toward understanding the material conditions of production in the United States, particularly as represented in literary and cultural works, as well as how national identity is ideologically produced in U.S. culture. The class will foreground issues of class and political economy in reading literature and culture from a working-class perspective.

Requirement: English 101 with a C or better, and two of the following: ENGL-210 and one other English course at the 200 level

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-356A. Graphic Novels And Comics. 3 Hours.

This course studies comics as a complex medium that offers new ways to think about and represent a range of social and cultural issues, such as gender, sexuality, race, ethnicity, class, national belonging, and the environment. Students will learn the critical vocabulary necessary to understand how the medium works, and read diverse comics in various historical and geographical contexts. Required: ENGL-210 and one other English course at the 200 level.

ENGL-357. Land, Labor, & Literature: Studying The Works Of U.S. Working-Class & Colonized Writers. 3 Hours.

We will study the representations of land and labor and the desire to reclaim them in the works of working-class and colonized writers in the U.S. Particular attention will be paid to the historical and cultural contexts in which texts are produced as well as theories of class and race.

ENGL-358. Making Your Liberal Arts Degree Work: Writing For The Professional World & Internships. 3 Hours.

This course provides a personal and professional communications orientation, covering the integrated landscape of digital media. Students will learn to adapt their writing for such practices as social marketing, blogging, headline writing, messaging, networking, community building and resumé development. Whether a students' ultimate career goals lead them to freelance, startup, non-profit or corporate endeavors, this course helps students learn more about putting their degree to work. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-359. Independent Study In English. 3 Hours.

An independent study on the tutorial model, initiated at the student's suggestion to an instructor; course content designed in consultation with the instructor. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-360. Detective Fiction. 3 Hours.

Literary and historical study of the detective story- from Poe and Sherlock Holmes- to Hammett and the present. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-361. Development Of The American Novel. 3 Hours.

The novel as a developing form from Charles Brockden Brown to William Faulkner and beyond. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-362. United States Fiction: Traditions And Counter-Traditions. 3 Hours.

A study of canonical and non-canonical fiction in the United States and the varieties of traditions composing U.S. literary history. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-364. Reading Film. 3 Hours.

A course in film emphasizing methods of reading films as we would texts. Through close viewing, critical analysis of narrative structure, attention to visual form and representational practice, students will explore the complexity of film beyond the level of "entertainment." To paraphrase a famous question asked about poetry, this course will explore "how a film means." Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-365. Caribbean Literature. 3 Hours.

This course will introduce students to literature (poetry, fiction, non-fiction, and drama) of the Caribbean in its historical, political, social, and cultural contexts. Students will discuss such issues as cultural and racial hybridity, immigration/emigration/exile, and post-colonization, among others. Students will read representative texts from a diverse range of authors such as Jean Rhys, V.S. Naipaul, Earl Lovelace, Edwidge Danticat, and Junot Díaz. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-367. Re-Thinking Race And Gender. 3 Hours.

This intensive summer course runs for ten days over three weeks. It takes up history critically to engage in a concentrated re-thinking of how we learn to see, identify, and inhabit issues of race and gender. Workshops, lectures, and sessions with invited guests will unpack structures and relations of race and gender and the ways they get naturalized. The course is designed for graduates, undergraduates, and teachers, and is cross-listed in the Graduate College and the College of Arts and Sciences. Prereqs: Graduate status or Junior/Senior status in English, Philosophy, Political Science, Sociology, WGS, AFAM, or LGBTQ. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-368. American Realism. 3 Hours.

An examination of the literature that reflects the movement from American romanticism to realism and through realism to literary naturalism, approximately 1865-1910. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-369. U.S. Latino/a Literature And Culture. 3 Hours.

This course introduces students to Latino/a literatures in the US from the contact period to the present. It offers an overview of major forms and themes in literature from Latino/a native, immigrant and exiled writers with in-depth analysis of representative texts from various genres including essays, novels, poetry and drama. Writers will include Latino/as of North American, Central American, South American and Caribbean descent. The course is taught in English with readings in original English or translation. Readings, assignments, instruction and discussion will focus on questions of aesthetics, culture, politics and history, with an added emphasis on inclusion of under-represented groups and intercultural connections.

ENGL-370. Folklore And The Fairy Tale. 3 Hours.

Readings from both traditional and contemporary folktales, including modern adaptations of traditional stories. Emphasis on similarities in different tales, and the differences in similar ones, with the aim of learning how the same elements pervade the archetypal stories and how variations in detail bespeak different ethnic and cultural interests and concerns. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-371. Studies In Women's Literature. 3 Hours.

Literature by or about women; includes writing by women, portrayals of female characters, attitudes toward women and women's roles; other thematic concerns. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-372. American Women Writers Of The Nineteenth Century. 3 Hours.

Comprehensive study of texts and contexts of women's writing in the US during the nineteenth century, including the origins of its feminist tradition. Texts include a variety of genres (novel, short story, lecture, travel narrative) and traditions (sentimental, romantic, realist, political, utopian). Special emphasis on the social, political, economic and legal forces bearing upon women as professional writers along with the ways women's fiction articulates the realities of nineteenth-century women's lives. Assignments include close reading of individual texts and a more comprehensive final project involving primary research. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-373. Yiddish Literature In Translation. 3 Hours.

Yiddish literature from its beginning to the present from Eastern European and West Germany to the East Side and West Roosevelt Road. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-374A. Hybrid-form Writing. 3 Hours.

This course examines models related to and provides tools for the production of Hybrid-form Writing (writing in and across multiple genres/forms). Hybrid-form work takes place at both the discrete level (individual, usually long-form pieces) and the manuscript level (a book-length project that relies on multiple forms). The emphasis is on long-form/extended projects, which must be rooted in a considered line of inquiry. This inquiry happens at multiple stages and levels: students experiment with different forms, students engage in pre-writing to conceive of projects, and students consider how form affects content/why certain forms might be culturally or personally privileged.

Prerequisites: ENGL-235 minimum grade of C and (ENGL-384 minimum grade of C or ENGL-386 minimum grade of C).

ENGL-374B. Creative Writing: Flash Forms. 3 Hours.

Flash forms are often studied (if at all) as a footnote within a contemporary literature or creative writing course, the literary version of the short story's cute younger cousin. However, while flash forms have become increasingly popular over that past two decades, they have been around for centuries. In this course, students will investigate the form's origins and the cultural contexts and developments that gave rise to its current prevalence. Students will study and practice specific craft elements while also exploring the plasticity of the form. They will read and write stand-alone pieces and investigate the possibilities and varieties of collections and chapbooks of flash.

ENGL-374H. Hip Hop Composition. 3 Hours.

Following the work of Elaine Richardson and other hip-hop scholars including Tricia Rose, Geneva Smitherman and Kermit Campbell, this class will focus on the intersection of hip-hop and literacy. We will begin to explore this intersection by looking at how, within the context of a crumbling economic New York driven primarily by a post-industrialization movement, Bronx youth worked with available material from previous generations of Black and Latinx culture to create a set of communicative forms that rapper/political activist Afrika Bambaataa coined as hip-hop. Informed by the work of Adam J. Banks, we will spend the majority of the class exploring how these "communicative forms" operate as multimodal literacies that are inextricably situated within the legacy of an African American communicative tradition.

ENGL-375. Becoming A Writing Tutor. 3 Hours.

This class considers theories of writing and the teaching of writing and trains students to become writing tutors. Students will apply the knowledge gained in class as they work with undergraduate writers, helping them to create ideas, draft and revise essays, and edit their work. To succeed in this class, students need to be strong writers and collaborators and to have an interest in the practice and politics of writing.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-376. Advanced Composition. 3 Hours.

Interdependence of rhetoric, grammar, logic, semantics, psychology, and criticism in communication of ideas; practice in various types of writing with focus on students' interest.

ENGL-377. Argumentative Prose. 3 Hours.

An advanced course in which students will learn to write argumentative essays on a wide range of subjects, using as models for discussion the argumentative prose of professional writers. The course will cover many aspects of argumentative writing, including the study of inductive and deductive reasoning and logical fallacies and the analysis of organizational and stylistic techniques. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-378. Twentieth Century Fiction I. 3 Hours.

Development of the modern novel from Conrad to writers of the 1930s and 1940s against a background of historical and literary movements; emphasis on Conrad, James, Joyce, Lawrence, Faulkner and Hemingway. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-379. Twentieth Century Fiction II. 3 Hours.

Development of the novel in English in recent decades against a background of historical and literary movements; includes work of West, Green, Lowry, Durrell, Bellow, Nabokov, Burgess, Barth, Lessing, Murdoch, Mailer, Updike and Pynchon. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-380. Multi-Cultural Literature In America. 3 Hours.

Designed for future teachers of English, the multi-genre course provides students with an awareness of representative literature from the various ethnic cultures that are a part of American Life. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-381. African-American Literature. 3 Hours.

A survey of African-American Literature in its social, cultural, and political context, beginning with Phyllis Wheatly, continuing through the slave narratives of the pre-Civil War era to the masterpieces of the Harlem Renaissance and the works of contemporary writers, such as James Baldwin, Toni Morrison, Ishmael Reed, Alice Walker, August Wilson and Gwendolyn Brooks. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-382. Chicana/o/x Literature. 3 Hours.

This course examines the emergence and development of Chicana/o/x literature in relation to the historical conditions that gave rise to it within the Chicana/o/x Movement and the definition and redefinition of Chicana/o/x identity and politics. The course will also focus on feminist and LGBTQ perspectives within Chicana/o/x Literature and the Chicana/o/ movement. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-383. Postcolonial African Literature. 3 Hours.

A survey of African literature in its cultural, historical, social and political contexts. Africa is a continent of diverse peoples, cultures, languages, customs, food, economies, experiences of colonialism/imperialism and so on. With such diversity of daily life and historical and cultural experiences comes a wealth of literature; oral literature, drama, poetry, short stories and novels. This course will cover diverse authors such as Chinua Achebe, Wole Soyinka, Zakes Mda, Nuruddin Farah, Buchi Emecheta, Tsitsi Dangarembga, etc. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-384. Creative Writing: Poetry I. 3 Hours.

Students write poetry which is discussed and critiqued in class by instructor and students.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-385. Creative Writing: Poetry II. 3 Hours.

Students write poetry which is discussed and critiqued in class by instructor and students.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-386. Creative Writing: Fiction I. 3 Hours.

Students read published fiction and explore topics in craft while writing, and discussing one another's work.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-387. Creative Writing: Fiction II. 3 Hours.

Students read published fiction and explore topics in craft while writing, and discussing one another's work.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-388. Modern British And American Poetry. 3 Hours.

Introduction to modern poetry in English: its origins, dominant themes, and characteristic techniques. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-389. Contemporary Poetry. 3 Hours.

A survey of poetry in English from 1950 to the present. This course will examine the major themes and techniques of poets writing during the period. Required: ENGL-210 and one other English course at the 200 level.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-390. Young Adult Novel. 3 Hours.

Advanced study in literature for young adults, grades 7-10. Evaluation and selection of recent books in the area as well as the history of the genre. Criteria for selection: Book lists, indexes, professional literature in the field. Individual work on problem of special interest.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-392A. Writing/Life: Advanced Creative Writing Practice. 3 Hours.

Students engage in a semester-long independent creative writing project, while participating in collaborative service learning, and acquiring skills regarding the creative process, participating in creative communities, editing, and publication. Meetings are a combination of seminar, discussion, studio, and workshop.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-393. Literature Live: Studying The Works Of NEIU Visiting Writers. 3 Hours.

Each semester, the Creative Writing Minor hosts "The 82" reading series, named for the Kimball bus line that brings many of us to and from campus. In this course, students will study the works of these local writers and others who have visited or will be coming to campus and with whom they will have a chance to engage. Students will engage with the work of these writers with an eye toward understanding and exploring the subtleties of craft to assist in their own creative writing as well as developing the skills of literary analysis. Students will be expected to attend a certain number of public readings on and off campus.

Prerequisite: ENGL-101 minimum grade of C.

ENGL-394. Writing The Personal Essay. 3 Hours.

In this course students will write in the creative non-fiction genre of the personal essay. This will involve work on techniques and approaches in a workshop setting, as well as critiques of other students' work. This course will also explore the personal essay as a literary form through readings of classic and recent examples.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-3941. Creative Writing Internship. 1 Hour.

This is a supervised field experience in a profession that utilizes creative writing (magazine or book publishing, journalism, advertising, arts non-profit, etc). With the approval of the department chair, students may enroll for academic credit from 1-6 hours. In consultation with a faculty advisor and field supervisor, the student will contract field service hours and create an individualized work plan. Students will also meet regularly with the faculty advisor and be evaluated qualitatively and quantitatively for a final grade. By department permission only.

Prerequisites: ENGL-235 minimum grade of C and (ENGL-384 minimum grade of C or ENGL-386 minimum grade of C) and (ENGL-385 minimum grade of C or ENGL-387 minimum grade of C or ENGL-374 minimum grade of C).

ENGL-3942. Creative Writing Internship. 2 Hours.

This is a supervised field experience in a profession that utilizes creative writing (magazine or book publishing, journalism, advertising, arts non-profit, etc). With the approval of the department chair, students may enroll for academic credit from 1-6 hours. In consultation with a faculty advisor and field supervisor, the student will contract field service hours and create an individualized work plan. Students will also meet regularly with the faculty advisor and be evaluated qualitatively and quantitatively for a final grade. By department permission only.

Prerequisites: ENGL-235 minimum grade of C and (ENGL-384 minimum grade of C or ENGL-386 minimum grade of C) and (ENGL-385 minimum grade of C or ENGL-387 minimum grade of C or ENGL-374 minimum grade of C).

ENGL-3943. Creative Writing Internship. 3 Hours.

This is a supervised field experience in a profession that utilizes creative writing (magazine or book publishing, journalism, advertising, arts non-profit, etc). With the approval of the department chair, students may enroll for academic credit from 1-6 hours. In consultation with a faculty advisor and field supervisor, the student will contract field service hours and create an individualized work plan. Students will also meet regularly with the faculty advisor and be evaluated qualitatively and quantitatively for a final grade. By department permission only.

Prerequisites: ENGL-235 minimum grade of C and (ENGL-384 minimum grade of C or ENGL-386 minimum grade of C) and (ENGL-385 minimum grade of C or ENGL-387 minimum grade of C or ENGL-374 minimum grade of C).

ENGL-3944. Creative Writing Internship. 4 Hours.

This is a supervised field experience in a profession that utilizes creative writing (magazine or book publishing, journalism, advertising, arts non-profit, etc). With the approval of the department chair, students may enroll for academic credit from 1-6 hours. In consultation with a faculty advisor and field supervisor, the student will contract field service hours and create an individualized work plan. Students will also meet regularly with the faculty advisor and be evaluated qualitatively and quantitatively for a final grade. By department permission only.

Prerequisites: ENGL-235 minimum grade of C and (ENGL-384 minimum grade of C or ENGL-386 minimum grade of C) and (ENGL-385 minimum grade of C or ENGL-387 minimum grade of C or ENGL-374 minimum grade of C).

ENGL-3945. Creative Writing Internship. 5 Hours.

This is a supervised field experience in a profession that utilizes creative writing (magazine or book publishing, journalism, advertising, arts non-profit, etc). With the approval of the department chair, students may enroll for academic credit from 1-6 hours. In consultation with a faculty advisor and field supervisor, the student will contract field service hours and create an individualized work plan. Students will also meet regularly with the faculty advisor and be evaluated qualitatively and quantitatively for a final grade. By department permission only.

Prerequisites: ENGL-235 minimum grade of C and (ENGL-384 minimum grade of C or ENGL-386 minimum grade of C) and (ENGL-385 minimum grade of C or ENGL-387 minimum grade of C or ENGL-374 minimum grade of C).

ENGL-3946. Creative Writing Internship. 6 Hours.

This is a supervised field experience in a profession that utilizes creative writing (magazine or book publishing, journalism, advertising, arts non-profit, etc). With the approval of the department chair, students may enroll for academic credit from 1-6 hours. In consultation with a faculty advisor and field supervisor, the student will contract field service hours and create an individualized work plan. Students will also meet regularly with the faculty advisor and be evaluated qualitatively and quantitatively for a final grade. By department permission only.

Prerequisites: ENGL-235 minimum grade of C and (ENGL-384 minimum grade of C or ENGL-386 minimum grade of C) and (ENGL-385 minimum grade of C or ENGL-387 minimum grade of C or ENGL-374 minimum grade of C).

ENGL-395. The Craft Of The Short Story. 3 Hours.

In this course students will combine the study of the form of the short story with writing short stories. Readings will include classical and contemporary works from across many countries and traditions. Emphasis will be on studying texts and working on craft in workshops.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-396. Screenwriting: The Short Script. 3 Hours.

This is a workshop course in screenwriting, concentrating on producing a short script. Students will study the particular form and conventions, as well as the specific format, of writing a screenplay. Readings will include exemplary screenplays in several genres, as well as essays on the philosophy and technique of screen writing. In workshop students will produce a short script.

ENGL-397. Summer Creative Writing Institute. 3 Hours.

Offered only in summer as an intensive course that runs for ten extended class days. Experimenting with both prose and poetry, students participate in workshops as well as sessions with invited speakers covering subjects such as the craft of poetry and prose, the profession of writing and publishing, and the MFA. The emphasis is on an intense workshop experience and an atmosphere of constructive critique leading to the production of a significant portfolio of writing.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-398A. Creative Non-Fiction I. 3 Hours.

Students write non-fiction prose which is discussed and critiqued in class by instructor and students.

Prerequisites: ENGL-102 and ENGL-210 - 236.

ENGL-398B. Creative Non-Fiction II. 3 Hours.

Students write non-fiction prose which is discussed and critiqued in class by instructor and students.

ENGL-409A. Writing In Public: Community Literacies, Public Intellectuals, And Rhetorics Of Change. 3 Hours.

This course looks at "public" writing and teaching in the work of marginalized communities, social movements, and public intellectuals. The primary goal is to understand writing as a contested, political act that can influence the public sphere but can also serve as a tool for oppression and control. This course is appropriate for students interested in theories and the teaching of writing and for students interested in critical and community education.

Requirement: At least six credits in the English MA program or by consent of instructor.

ENGL-410. Literary Methods And Practice. 3 Hours.

A foundation course that will build on existing skills and prepare for further graduate-level studies, with a goal of contextualizing and conceptualizing critical attitudes and approaches to literary text. Its aim is to provide advanced critical and scholarly tools for understanding literature and will address criticism and critical method, close reading and analysis and bibliographical and research technique. Required in the first year of study in the Literature Concentration.

ENGL-411A. Cultural And Literary Studies: History, Theory, Practice. 3 Hours.

This course introduces students to the institutional history, theoretical debates, and interpretative strategies of cultural studies, with a particularly interest in how the study of culture, understood broadly, intersects and changes literary studies. Using an interdisciplinary approach, this course explores how cultural processes and forms are produced, distributed, consumed, and responded to in diverse, contradictory ways. Moreover, the course will emphasize how all culture must be studied on multiple scales, ranging from the local to the global.

ENGL-413A. Crafting The MA List: Composing Literary, Cultural, And Compositional Fields. 3 Hours.

This course examines some of the history and theories of English as a discipline to help students develop deep background knowledge of the field and conduct independent research that will help them construct their MA exam lists/fields of study. The collaborative work of the class helps students connect the various threads of English they are examining individually to the larger context of English Studies, and students are given extensive guidance as they work toward professional research agendas.

ENGL-414. Seminar In Reading Film. 3 Hours.

A seminar in film emphasizing methods of reading films as we would texts. Students will explore the complexity of film through close viewing, critical analysis of narrative structure, and attention to visual form and representational practice. To paraphrase a famous question asked about poetry, this course will explore "how a film means."

ENGL-415. Medieval Literature: Ricardian Poetry. 3 Hours.

This course focuses on the prolific literary production associated with the reign in England of Richard II (1377-1399), including the works of Chaucer, Gower, Langland, the Gawain poet, Julian of Norwich, and others. Using various approaches, course will investigate the period's innovation, its relation to British literary tradition and to 14th - 15th-century historical change.

ENGL-418. Studies In Shakespeare. 3 Hours.

Advanced study of Shakespeare's work, organized by theme. This course will explore a number plays grouped together by an organizing principle (such as "Shakespeare and History," "Shakespeare and the Other," "The Roman Plays," "Romance"). These works will also be placed in their historical context, paying close attention to genre, structure, and language. Students will also study theoretical approaches to Shakespeare's work in reading of contemporary critical works.

ENGL-419. Elizabethan And Jacobean Drama. 3 Hours.

Exploration of English dramatic works from circa 1580-1642, including Marlowe, Greene, Middleton, Marston, Dekker, Jonson, Webster, and Beaumont. This course will pay particular attention to genres that dominate outside the Shakespeare canon (revenge tragedy, city comedy, tragicomedy), as well as detailing the social, cultural, and intellectual developments that characterize this golden age of English stagecraft.

ENGL-420. Teaching Shakespeare. 3 Hours.

This intensive summer course focuses on the teaching of Shakespeare's drama. In order to develop methods for teaching these plays at all levels we will study a few selected plays along with secondary literature. Moving from close textual analysis to a workshop will allow students to work on practical approaches to teaching the plays at the level of plot, characterization, theme, genre, performance, and more. Course material will be expanded with the help of documentaries, films, small group workshops, and guest faculty. Prerequisite: MA or at-large status. Or Permission of Instructor.

ENGL-421. The Metaphysical Poets. 3 Hours.

The metaphysical tradition in seventeenth century poetry and its impact on modern poetry, including works of Donne, Herbert, Crashaw, Vaughan and Traherne and critical studies of Johnson, Grierson, Eliot, Leavis, Williamson and others.

ENGL-422. Milton. 3 Hours.

Study of a turbulent and exciting "century of revolutions" by concentrating on the figure most associated with seventeenth-century English literature, John Milton. We will read all of his major poetry as well as some significant prose writings. We will also attempt to contextualize Milton in his period by studying other major figures such as Ben Jonson, Andrew Marvell, and John Bunyan.

ENGL-426. Seminar In Romantic Literature. 3 Hours.

Advanced study of the major poets of the Romantic period, involving oral reports, and culminating in a term paper.

ENGL-427A. Pedagogies Of College Level Writing. 3 Hours.

In this course, students apply theoretical learning to practical considerations of teaching writing at the college level through textbook and assignment analysis, syllabus design, and lesson design for writing aspects, such as developing rhetorical strategies, attending to grammar and responding to student work. The course also addresses everyday aspects of teaching such as incorporating effective discussions, setting up culturally sensitive classes, and understanding the realities of employment at the college level. The course is open to students in MA composition or literature students, and students with graduate standing in related field.

ENGL-428. The English Novel. 3 Hours.

Study of the English novel from its origins in the 18th century "Rise of the Novel" tradition, through Gothic/Romantic and Victorian Fiction, to Modernism and Post-Modernism. Individual readings may vary, but students are likely to read works by Defoe, Bronte, Woolf, Lawrence, Conrad, etc.

ENGL-429. Writing Across The Curriculum. 3 Hours.

Through class discussion and activities, textual analyses and inquiry-based research assignments, this class explores connections between writing and the creation and representation of knowledge within academic disciplines. Topics include defining what counts as appropriate evidence in various fields, and the role of English departments in writing in the disciplines pedagogy. Though not intended to be guided instruction in the mechanics of writing, students will gain deeper insight into what counts as quality writing in their disciplines, so in addition to MA Composition graduate students, this course is open to graduate students in other fields with written permission by the instructor.

ENGL-430. Studies In Literary Criticism. 3 Hours.

A study of some of the central problems and issues of contemporary criticism, as exemplified by the writings of major theorists.

ENGL-430A. Studies In Literary Criticism: Ideology And Material Form. 3 Hours.

This is a course analyzing the concept and function of ideology as it has been conceived in the Althusserian tradition—that is, not simply as a free-floating set of ideas, biases or illusions but an inescapable condition of being and perception only identifiable, as such, in material forms, institutions and practices. Readings in the elaboration of Althusser's concept through such theorists as Barthes, Jameson, and Macherey will be followed by applications of ideological analysis in more recent, and specifically material, practices of literary and cultural production, from novels and films to social media.

ENGL-431. Bibliography And Research In English. 3 Hours.

Material, methods, and tools of literary research; use of libraries; preparation of scholarly papers.

ENGL-432. Alternative Literacies. 3 Hours.

This course will explore literacy theories within and beyond composition studies by considering competing models of literacy and the cultural dimensions of writings, such as economic class or multilingualism, as well as the implications of these for the practice of writing and writing instruction.

ENGL-433. Seminar In Composition Theory. 3 Hours.

This course includes an extensive examination of current composition methodologies with emphasis upon the eclectic needs of the composition student.

ENGL-434. Seminar In Basic Writing Theory. 3 Hours.

A survey of types of students in basic writing classes, a review of placement tests for identifying levels of writing competency, and a careful examination of various basic writing methodologies.

ENGL-435. Writing Assessment: Theory And Practice. 3 Hours.

Theoretical background on evaluating student writing, as well as practical training in how to diagnose and remediate problems with grammar and content at the secondary and college level.

ENGL-436. Rhetorics Of Composition. 3 Hours.

This course will provide students with a background in Classical Rhetoric and then examine how the conventions of Classical Rhetoric have been translated or transformed into rhetorics of composition, such as Expressionistic Rhetoric, Cognitive Rhetoric, Epistemic Rhetoric and Social Construct Rhetoric.

ENGL-437. English Studies And Technology. 3 Hours.

Many scholars in English argue that the computer is radically revising the way we read and write texts. Using sources from literary and rhetorical studies, this class will consider how computer technology is contributing to new notions of the author, text, and audience as well as to the ways computers affect students' reading and writing.

ENGL-438. Research In Composition. 3 Hours.

Materials and methods for library research in composition theory; preparation of scholarly work on composition; research designs and measurement techniques for qualitative and quantitative studies in composition.

ENGL-439. Stylistics. 3 Hours.

Examination of the historical relationship of style to rhetoric; techniques for improving prose style; aspects of style as a part or writing evaluation.

ENGL-440. Malory. 3 Hours.

Examination of Sir Thomas Malory's *Morte D'Arthur* concentrating on structure and interpretation, while considering current controversies over authorship and the state of the text; attention to the position of the work in the development of the Arthurian legend and in the context of the fifteenth century.

ENGL-456. William Blake. 3 Hours.

Intensive study of the works of Blake, noting the religious, political and social beliefs, opinions and doctrines his works evaluate and challenge.

ENGL-456A. Graphic Novels And Social Conflicts. 3 Hours.

This course studies graphic novels as a complex medium that offers new ways to think about and represent a range of social conflicts, including class, race, gender, ecology, history, and national belonging. Students will learn the vocabulary necessary to understand how the medium functions and how to read diverse graphic novels from various contexts. Some questions considered are: How do the visual and verbal dimensions of the graphic novel enable forms of thinking not possible in other media? Why do some theorists identify graphic novels as a medium in which some of the most progressive forms of feminism are unfolding?

ENGL-457. The Poetry And Prose Of Shelley. 3 Hours.

An intensive study of the poetry and prose works of Shelley in the light of his social, religious, and political milieu and with the aid of pertinent scholarship regarding the poet.

ENGL-458. Troilus And Criseyde. 3 Hours.

Study of the development of the legend of Troilus from a brief mention in The Iliad through the dramatic treatment in 12th century chronicles and Boccaccio's great romance to Chaucer's major verse 'novel' and Shakespeare's enigmatic drama.

ENGL-459. Dante. 3 Hours.

Study of the poetry (in translation) of the major Italian poet of the Middle Ages and Renaissance concentrating on the Vita Nuova and the Divine Comedy with consideration of the theological, philosophical and cultural sources of Dante's work.

ENGL-461. Dostoyevski: The Major Works. 3 Hours.

Dostoevski's major works (such as Notes from the Underground, Crime and Punishment, The Idiot, The Brothers Karamazov) in relation to the social, political and religious issues which concerned the writer.

ENGL-466. American Renaissance Revisited. 3 Hours.

A critical study of mid-19th century U.S. literature that explores the writers identified with the "American Renaissance" and their relationship to other important literary developments such as the slave narrative and women's domestic fiction.

ENGL-467. The Age Of Literary Realism In The United States. 3 Hours.

A study of U.S. literary realism, the cultural and socio-historical conditions of its emergence, and its relation to other later 19th century literary genres such as sentimentalism and naturalism. Authors might include Twain, Howells, James, Chesnutt, Wharton, Dreiser, Chopin, and others.

ENGL-468. U.S. Literary Modernism & Its Others. 3 Hours.

A study of literary developments in the United States from the early 20th century to the Cold War, focusing on the rise of modernism, proletarian literature, literature of the Harlem Renaissance, and other important bodies of literature.

ENGL-469. Seminar In Southern Literature. 3 Hours.

Intensive reading of twentieth-century Southern literature exclusive of Faulkner with emphasis on the sociological and psychological aspects of the literature as they mirror in America's South.

ENGL-470. Seminar In Faulkner. 3 Hours.

Intensive reading of the short fiction and novels of William Faulkner with specific attention on his development as a novelist and his place among twentieth century American authors.

ENGL-471. Studies In The American Novel. 3 Hours.

A study of major developments in the U.S. novel, this course might feature a variety of foci, including the rise of the novel in America, particularly literary periods or genres, key moments of transition in U.S. literary history, or other key evolutions in novelistic practice in the United States.

ENGL-474. Seminar In Byron. 3 Hours.

Close examination of the poetic canon of Lord Byron.

ENGL-475. Seminar In Keats. 3 Hours.

Close examination of the poetic canon of John Keats.

ENGL-476. Oil Fictions: Reading Along The Transnational Pipeline. 3 Hours.

This course brings together multiple literary genres and cultural forms to study diverse voices along the transnational oil pipelines, from privileged subjects whose desires, values, and lifestyles are enabled by mass oil consumption, to the communities and geographies that suffer the consequences of this oil dependency, social relations typically rendered invisible and inaudible by the dominant forms of globalization.

ENGL-477. Producing "America":Issues Of Work, Class, And Political Economy In U.S. Literature And Culture. 3 Hours.

This course will focus on literary and cultural works that represent the material conditions of production in the United States as well as on the way we ideologically produce American identity and culture in ways that obscure or make visible the work people do to make our material lives possible. The class will foreground issues of class and political economy in reading literature and culture from a working-class perspective.

Requirements: Admission to an English MA program or consent of instructor.

ENGL-478. Screenwriting. 3 Hours.

This is a workshop course in screenwriting, concentrating on producing a short to medium-length script. Students will study the particular form and conventions, as well as the specific format, of writing a screenplay. Readings will include exemplary screenplays in several genres, as well as essays on the philosophy and technique of screen writing.

ENGL-480. Ethnic Literatures. 3 Hours.

A study of "ethnic," "minority," and U.S. Third World literatures, of the conditions of their emergence as literary formations in relation to cultural, social, and literary developments, and of their relationship to racial and ethnic studies.

ENGL-481. Latin American Literature. 3 Hours.

This course explores major works in Latin American literature across various genres (novel, drama, poetry). The rich pre-colonial, colonial, and post-colonial periods will be studied through works which represent the struggles of different people from different classes, with differing origins, and who hold disparate religious beliefs in this large and diverse region.

ENGL-482. Contemporary Poetic Forms. 3 Hours.

A study of the diverse poetic forms emerging in American poetry since the 1960's- free verse, new formalism, and many experimental forms- as well as the hands-on experience of writing in these forms.

ENGL-483. Postcolonial Literature. 3 Hours.

This course studies literary works produced by or about peoples who have been colonized by European imperial powers. It situates these literatures within the philosophical frameworks that informed European imperial hegemonies as well as the colonized people's responses to them. While we will draw theoretical examples from every part of the world, our literary readings in this class will concentrate mainly on the literatures of Africa and Asia and their diasporas, especially in the Caribbean.

ENGL-484. Contemporary U.S. Literature Since The Cold War. 3 Hours.

A study of the Cold War critical construction of "American" literature and important literary developments from the 1950s to the present, including the rise of postmodernism, the Beat Generation, and a variety of ethnic literary developments, as well as other important literary phenomena of the period.

ENGL-485. Contemporary European Literature. 3 Hours.

The aim of this course is to examine some important works of European literature from the 20th century till date. The course explores major issues such as the place of ethics in literature, holocaust, the World War I & II, European identity etc.

ENGL-487. Material Culture. 3 Hours.

In this seminar, students will concentrate on the material contexts (legal, economic, social, technological) that inform cultural production. While the cultural forms and historical periods focused upon may vary by instructor, in every case the course will introduce students to the history of critical work in this area and involve projects in which students trace the marks of material forces in cultural forms.

Requirement: two additional courses at the 400 level

Prerequisite: ENGL-410 minimum grade of C.

ENGL-488. Africana Literature: Slavery And The Literary Imagination. 3 Hours.

Through the lens of former slaves and contemporary novelists and scholars, this course explores the ways in which the slavery narrative and the neo-slave narrative attend to the larger existential question of what it means to be free. The corollary notions of race, gender, citizenship, and labor, among others, will also be considered. In addition, this class will investigate the ways in which the re-inscription of slavery, in contemporary literature, has impacted the development of the Africana literary tradition in terms of content, genre, and form.

ENGL-491. Sonnet: Not Just A Love Song. 3 Hours.

This class will explore the sonnet's many voices and subjects-from plaintive to menacing, from romance to racial injustice. We will read across the centuries, from Shakespeare to Keats to Edna St. Vincent Millay. We will read sonnet-variations, and sonnet-spoofs by contemporary American poets and we will experiment with sonnets of our own. Our time will be spent on close readings, discussions, writing, and informal presentations.

ENGL-495. Re-Thinking Race & Gender. 3 Hours.

This is an intensive summer course that runs for ten days over three weeks. It takes up history critically to engage in a concentrated re-thinking of how we learn to see, identify, and inhabit issues of race and gender. Workshops, lectures, and sessions with invited guests will unpack structures and relations of race and gender and the ways they get naturalized. The course is designed for graduates, undergraduates, and teachers, and is cross-listed in the Graduate College and the College of Arts & Sciences.

Requirements: Graduate status or junior-senior status in English, Philosophy, Political Science, Sociology, WGS, AFAM or LGBTQ.

ENGL-4991. Independent Study In English. 1 Hour.

This is a 1-credit course focused on a carefully planned subject area and work plan approved by the professor of record.

ENGL-4993. Independent Study. 3 Hours.

This course is designed for students pursuing independent studies of topics not covered in our catalog of courses at the graduate level in English.

ENGL-5901. Thesis Hours. 1 Hour.

Graduate students complete an extensive, lengthy research or creative project under the guidance of a supervising committee. The thesis is optional for English graduate students and accounts for 6 of the 33 credit hours required for the M.A.

ENGL-5902. Thesis Hours. 2 Hours.

See course description for ENGL-5901.

ENGL-5903. Thesis Hours. 3 Hours.

See course description for ENGL-5901.

Major in English

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Major in English for the Bachelor of Arts Degree

Prerequisites: ENGL-101 AND ENGL-102 or equivalent. Note: No more than 15 hours may be transferred into the major in English.

Core Courses

Code	Title	Hours
Required courses		
ENGL-210	Writing Intensive Program: Methods for English Majors	3
ENGL-345	Practical Criticism	3
Select three Literary Surveys:		9
ENGL-218	American Literature: Beginnings To 1865	
ENGL-219	American Literature: 1865 To The Present	
ENGL-221	English Literature: The Beginnings To C. 1750	
ENGL-222	English Literature: C. 1750 To The Present	
Select one Major Author:		3
ENGL-314	Chaucer And His Age	
ENGL-329	Milton	
ENGL-330	Shakespeare: Comedies, Romances And Poetry	
ENGL-331	Shakespeare: Tragedies And Histories	
Electives: ^{2,3,4}		18
Choose 18 hours from the four categories below, with no more than 12 hours from any one category.		
ENGLISH LITERATURE		
ENGL-307	Medieval Studies- The Development Of The Arthurian Legend	
ENGL-308	English Literature From Beowulf To Malory	
ENGL-321	Literature Of The Romantic Movement	
ENGL-323	Modern British Drama

ENGL-361	Development Of The American Novel	
ENGL-362	United States Fiction: Traditions And Counter-Traditions	
ENGL-367	Re-Thinking Race And Gender	
ENGL-364	Reading Film	
ENGL-368	American Realism	
ENGL-372	American Women Writers Of The Nineteenth Century	
ENGL-378	Twentieth Century Fiction I	
ENGL-379	Twentieth Century Fiction II	
ENGL-380	Multi-Cultural Literature In America	
ENGL-381	African-American Literature	
ENGL-382	Chicana/o/x Literature	
ENGL-389	Contemporary Poetry	
ENGL-393	Literature Live: Studying The Works Of NEIU Visiting Writers	
ENGL-397	Summer Creative Writing Institute	

INTERNATIONAL LITERATURE

ENGL-205	Literatures And Literacies
ENGL-300	Russian Literature: From Gogol To Chekhov
ENGL-302	Literatures And Theories Of Love
ENGL-311	Introduction To Cultural Studies
ENGL-320	Globalizing Literacies
ENGL-333	Mythological Backgrounds Of English And American Literature
ENGL-334	Biblical Backgrounds Of English And American Literature
ENGL-360	Detective Fiction
ENGL-365	Caribbean Literature
ENGL-369	U.S. Latino/a Literature And Culture
ENGL-370	Folklore And The Fairy Tale
ENGL-371	Studies In Women's Literature
ENGL-373	Yiddish Literature In Translation
ENGL-383	Postcolonial African Literature

COMPOSITION and CREATIVE WRITING

ENGL-235	Introduction To Creative Writing I
ENGL-309	Reading & Writing In A Changing Digital Economy
ENGL-335	Written Communications For Business
ENGL-340A	Elements Of Style For Creative Writers ⁵
ENGL-346A	Critical Writing For Creative Writers
ENGL-374A	Hybrid-form Writing
ENGL-374B	Creative Writing: Flash Forms
ENGL-375	Becoming A Writing Tutor
ENGL-376	Advanced Composition
ENGL-377	Argumentative Prose
ENGL-384 & ENGL-385	Creative Writing: Poetry I and Creative Writing: Poetry II
ENGL-386 & ENGL-387	Creative Writing: Fiction I and Creative Writing: Fiction II
ENGL-394	Writing The Personal Essay
ENGL-395	The Craft Of The Short Story
ENGL-396	Screenwriting: The Short Script

Total Hours	36
-------------	----

- ¹ This course is designed as an introduction to the English major, and should be taken as early as possible.
- ² Note: that the English Department is continually creating new courses. Therefore, the list below is not complete.
- ³ Note: Gen. Ed. courses (ENGL-201, ENGL-202, and ENGL-203) do not count towards the Major.
- ⁴ Note: A limit of six 200-level courses may be applied to the English Major.
- ⁵ English 340A is replacing English 240A.

English Majors must complete an electronic portfolio. For more information, please see your English Advisor.

This sample curricular map is provided to guide you in the planning of your progression for this major. This guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor.

Major in English/Secondary Education for the Bachelor of Arts Degree

Teachers of English in secondary schools are typically required to teach a broad language arts curriculum. This interdisciplinary program combines literature, linguistics, reading, composition, and speech, providing excellent preparation for classroom teaching.

In order to meet the language arts/humanities requirements for licensure, students are required to take ENGL-101, ENGL-102, CMTC-101.

NOTE: The required professional education courses must be completed in addition to the requirements listed below. Refer to the Secondary Education section of this catalog for additional information.

- No more than 15 hours may be transferred into the major in English.
- No more than 15 hours at the 200 level may count towards fulfilling the major requirements.

Master of Arts in English

Master of Arts in English

The graduate program in English develops skills in critical thinking, writing, and research, encourages intellectual curiosity, and provides training for careers and professional advancement in related fields such as teaching, editorial work, journalism, publishing, writing, and research.

Students pursuing the MA in English choose between two degree concentrations, Literature or Composition. The two-track curriculum provides two separate fields of study within English, offering multiple career opportunities as well as preparing students for doctoral work.

Requirements for Admission to the Program:

Note: Applications for this program are accepted three times a year.

- Fall admission – July 1
- Summer admission – April 1
- Fall admission – November 1

Students must fulfill the general requirements for admission to the College of Graduate Studies and Research. In addition:

1. Applications must indicate a degree concentration: Literature or Composition.
2. In their personal Statement of Goals and Objectives, applicants to the Program in English should specify their reasons for pursuing graduate-level studies in Literature or Composition, and they should identify the background, strengths, and academic skills that they feel will ensure their success as an MA student.
3. All applicants must submit a representative sample of academic or professional writing that demonstrates their critical thinking and/or research strengths and indicates their ability to do well in advanced study in English Literature or Composition. The writing sample should not exceed 15 pages in length, and should preferably be work completed for an upper-division undergraduate course in English or for a graduate-level English course. (Those who cannot meet this requirement may petition the Graduate Coordinator for admission in a written statement.)
4. GRE scores are not required for admission, but they may be submitted to supplement an application.

Literature Concentration:

As the Master's degree is understood to build upon an already solid foundation of literary study, applicants seeking admission to the MA program in English, Literature concentration, must have a BA in English (or a minimum of 30 credit hours of undergraduate work in literature and composition), including reasonable coverage of British and American literature and at least one course in Literary Criticism. Students who do not meet these requirements may be offered a provisional admission and allowed to complete their undergraduate training at NEIU prior to taking courses toward the MA degree.

Composition Concentration:

As the Master's degree is understood to build upon an already solid foundation of study, applicants seeking admission to the MA program in English, Composition concentration, must have a BA in English, English Education, or a related field subject to the approval of the Graduate Committee in Composition. Students who do not meet these requirements may be offered a provisional admission and allowed to complete their undergraduate training at NEIU prior to taking courses toward the MA degree.

NOTE: All petitions to transfer between degree concentrations are subject to the admissions requirements of the track into which a student is transferring.

Requirements for the Degree:

All graduate credits must be at the 400 level, except for a maximum of two 300-level courses specifically approved for graduate degree credits in English (see list below). Be sure to consult with your program advisor before registering for any 300-level course.

Code	Title	Hours
ENGL-300	Russian Literature: From Gogol To Chekhov	3
ENGL-307	Medieval Studies- The Development Of The Arthurian Legend	3
ENGL-308	English Literature From Beowulf To Malory	3
ENGL-314	Chaucer And His Age	3
ENGL-316	Forms Of Poetry	3
ENGL-368	American Realism	3

ENGL-376	Advanced Composition	3
ENGL-377	Argumentative Prose	3
ENGL-381	African-American Literature	3

The graduate program requires 33 credit hours of coursework in the literature (principally British and American), or 33 hours with a concentration in composition. (The specifics of each program are defined below.) Both programs require a final written examination.

Literature Concentration:

A student's coursework should be planned with a view to achieving adequate and substantial preparation in British and American literature, with some work in world literature. In addition to coursework, students must maintain good academic standing in the program and pass a comprehensive examination in English Literature. The program includes the following coursework:

Code	Title	Hours
Required Courses		
ENGL-410	Literary Methods And Practice	3
Eight 400-level electives selected through consultation with the graduate advisor		24
Thesis Hours - (or two additional 400-level courses)		6
Total Hours		33

Composition Concentration:

Students must complete the 6 hours of Core Requirements, 18 hours of Core Electives and 9 hours of Free Electives. In addition, students must maintain good academic standing in the program and pass a three-part comprehensive exam.

Code	Title	Hours
Core Requirements		
ENGL-433	Seminar In Composition Theory	3
ENGL-435	Writing Assessment: Theory And Practice	3
Core Electives ¹		18
ENGL-376	Advanced Composition *	
ENGL-377	Argumentative Prose *	
ENGL-397	Summer Creative Writing Institute	
ENGL-409A	Writing In Public: Community Literacies, Public Intellectuals, And Rhetorics Of Change	
ENGL-413A	Crafting The MA List: Composing Literary, Cultural, And Compositional Fields	
ENGL-427A	Pedagogies Of College Level Writing	
ENGL-432	Alternative Literacies	
ENGL-434	Seminar In Basic Writing Theory	
ENGL-437	English Studies And Technology *	
ENGL-438	Research In Composition	
ENGL-439	Stylistics	
FREE Electives		9
To Be Chosen from the Categories Below - 9 Credits		
English Department: Any 400-level or graduate-approved 300-level writing, literature, or theory course. Up to six credits from graduate-approved 300-level courses in English can be applied toward the degree.		
Linguistics Department: Any 400-level course relevant to the student's career and academic goals and approved by the graduate advisor.		
TESOL Department: Any 400-level course relevant to student's career and academic goals and approved by the graduate advisor.		
Literacy Education Department: Any 400-level or 500-level course relevant to the student's career and academic goals and approved by the graduate advisor.		
Communications, Media, and Theater Department: Any 400-level course relevant to the student's career and academic goals and approved by the graduate advisor.		
Total Hours		33

Good Standing in the Program

1. All students must maintain a minimum 3.0-grade point average in the program.
2. Regardless of overall grade point average, grades of C or below at the master's level indicate a need for the increased academic application. If more than one grade of C is received, a student must petition the departmental Graduate Committee in writing for permission to continue.

Thesis Option

An optional scholarly thesis is open to degree candidates enrolled in either degree track and may be written in place of two 400-level electives. This option is subject to departmental approval. The student, in consultation with a thesis advisor and the Graduate Coordinator, will submit a thesis proposal that must be approved before they can register for the Thesis Hours (ENGL-5901, ENGL-5902, and ENGL-5903). Students completing the thesis option will give an oral defense of their thesis before a departmental committee prior to filing the project with the Graduate College.

Major Project

Students in the M.A. Literature track, in consultation with a faculty advisor, will develop and deliver in a public presentation a major research project as a degree requirement.

Minor in Creative Writing

Minor in Creative Writing

The English Department's Creative Writing minor provides undergraduate students of any major with opportunities to develop as writers within a variety of creative contexts. The courses in the program enable students to develop both writing craft and technical proficiency. In addition to taking foundations courses that introduce students to the discipline, students are encouraged to take a core sequence, which will enable them to move from writing individual pieces to developing longer book-length compositions. By the program's end, students will have developed a strong representative body of work.

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Minor in Creative Writing

To complete the minor in creative writing, students must take 18 hours of coursework.

Code	Title	Hours
Foundations		6
ENGL-235	Introduction To Creative Writing I ¹	
ENGL-340A	Elements Of Style For Creative Writers ²	
Core Sequence (6 credits) - *Choose two courses within the same genre		6
One course at Intermediate Level		
ENGL-384	Creative Writing: Poetry I	
ENGL-386	Creative Writing: Fiction I	
And		
*Choose one course at the advanced level		
ENGL-385	Creative Writing: Poetry II	
ENGL-387	Creative Writing: Fiction II	
ENGL-374A	Hybrid-form Writing	
Electives (6 credits)		6
ENGL-316	Forms Of Poetry	
ENGL-359	Independent Study In English	
ENGL-374A	Hybrid-form Writing	
ENGL-394	Writing The Personal Essay	
ENGL-395	The Craft Of The Short Story	
ENGL-396	Screenwriting: The Short Script	
ENGL-397	Summer Creative Writing Institute	
ENGL 3941-6 Creative Writing Internship (1 through 6 credit hours)		
Total Hours		18

¹ 235 is the prerequisite for all creative writing courses

² 340A can be taken concurrently with courses at higher levels.

* Note that this course was formerly 240A but has been reclassified to reflect its evolving pedagogy.

** Students who have already taken 240A will not need to retake the course for the satisfaction of the requirement.

* All advanced level courses require successful completion of the intermediate course in the same genre with a grade of "C" or higher. Admission without the prerequisite is at the instructor's discretion.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Minor in English (18 credit hours)

Code	Title	Hours
Select three of the following:		9
ENGL-218	American Literature: Beginnings To 1865	

ENGL-219	American Literature:1865 To The Present	
ENGL-221	English Literature:The Beginnings To C. 1750	
ENGL-222	English Literature: C. 1750 To The Present	
Electives (nine credit hours in English at the 300-level)		9
Total Hours		18

NOTE: No more than nine transfer credit hours may be counted toward the minor in English.

Students in the Elementary Education and Early Childhood Education programs who have selected this minor must complete a minimum of 9 hours at the 300-level to meet graduation and licensure requirements.

English Language Program

The English Language Program is comprised of the Minor in Interdisciplinary English Studies, as well as an array of courses in English as a second language, developmental writing, and developmental reading. These courses are intended to help students acquire the level of oral and written English language skills expected of university students. Courses are offered for both native English speakers and English language learners. Students place into the following courses based on their results on the writing and reading portions of the University placement exam.

Code	Title	Hours
ELP-095	Developmental Writing Workshop I	3
ELP-096	Developmental Writing Workshop II	3
ELP-097	Developmental Writing Workshop III	3
ESL-108	Listening And Speaking	3
ELP-112	ESL Writing Workshop I	3
ELP-114	ESL Writing Workshop II	3
ELP-120	ESL Writing Workshop III	3
READ-096	Developmental Reading Workshop I	3
READ-097	Developmental Reading Workshop II	3
READ-115	ESL Reading Workshop I	3
READ-116	ESL Reading Workshop II	3

Course work indicated by these placement results is required. All other courses are selected by the student in consultation with advisors and instructors. Authorization to enter all courses is required for registration and can be obtained in the English Language Program office (LWH 2046).

- Minor in Interdisciplinary Studies (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/english-language-program/minor-interdisciplinary-english-studies/>)

Lesa C. Davis, Ph.D., Professor of Anthropology, Chair

Tina Villa, Ph.D., Coordinator of English Language Program

ELP-095. Developmental Writing Workshop I. 3 Hours.

(Does not count toward graduation or GPA calculation.) This course presents basic principles of personal essay writing in English, with emphasis on developing sentence level skills. Registration is by placement exam.

Prerequisite: Accuplacer WritePlacer 2.

ELP-096. Developmental Writing Workshop II. 3 Hours.

(Does not count toward graduation or GPA calculation.) This course is an introduction to the basic principles used in writing expository essays based on personal experience, and intensive work to improve sentence level skills. Registration is by placement exam or permit.

Prerequisite: ELP-095 minimum grade of RC or ELP-112 minimum grade of C or Accuplacer WritePlacer 3.

ELP-097. Developmental Writing Workshop III. 3 Hours.

(Does not count toward graduation or GPA calculation.) This course offers practice and instruction in writing expository essays, with emphasis on paragraph development, increased fluency in written English, and proofreading skills. Registration is by placement exam or permit.

Prerequisite: Accuplacer WritePlacer 4 or ELP-096 minimum grade of RC or ELP-114 minimum grade of C.

ELP-098. Supportive Instruction Writing Skills Workshop. 3 Hours.

(This course does not count toward graduation or GPA calculation.) ELP-098 must be taken concurrently with ENGL-101: Writing I. This course provides supportive instruction to reinforce or enhance content from the students' college-level writing course. The instructor works to meet the individual needs of the students emphasizing the skills one needs to develop a framework for writing including paragraph development, increased fluency in written English, and proofreading skills. Registration is by placement exam or permit.

ELP-112. ESL Writing Workshop I. 3 Hours.

Open only to English Language Learners (ELLs). This course provides basic instruction aimed at guiding the ELLs' transition from their existing native language writing skills to academic English with an emphasis on sentence-level skills needed for writing personal narrative essays. Registration is by permit only.

ELP-114. ESL Writing Workshop II. 3 Hours.

Open only to English Language Learners (ELLs). This course provides instruction aimed at continuing the ELLs' transition from their existing native language writing skills to academic English. Work centers on the writing of basic expository essays and intensive work on sentence level skills. Registration is by permit only.

ELP-120. ESL Writing Workshop III. 3 Hours.

Open only to English Language Learners (ELLs). This course provides additional practice and instruction aimed at helping ELLs complete their transition from writing in their native language to writing in college-level academic English. Writing expository essays across various genre, with emphases on paragraph development, increased fluency and editing and proofreading skills form the core content of this course. Registration is by permit only.

ELP-121. English Grammar Skills. 3 Hours.

Analysis of and practice in selected English grammatical patterns, with special emphasis on their academic application.

Minor in Interdisciplinary English Studies

Minor in Interdisciplinary English Studies (21 credit hours)

Language study improves the ability to communicate and enhances understanding and appreciation of others and their cultures. English is widely recognized as a global language, serving as the language of higher education, technology, and media among others. The acquisition of an advanced language proficiency provides access to opportunities for those whose primary language is not English.

Through an integrated-skills approach, the minor in Interdisciplinary English Studies fosters a communicative competence wherein learners gain knowledge about the language, its appropriate use in various contexts, and compensatory strategies for communication breakdowns. Advanced coursework within the minor provides focused study in structure, reading, writing, and/or listening and speaking.

Requirements for Admission to the Minor

Eligibility for this minor is based on identification of students as English language learners. Thus, students must place into the ELP sequence based on a combination of the following:

1. Analysis of student writing on the English Placement Test;
2. Student demographic information provided during the admission process and/or at the time of placement testing;
3. History of primary and/or secondary school attendance in a foreign country, and/or participation in a bilingual education or English as a second language program in the United States.
4. Completion of ELP-112 and/or ELP-114, or direct placement into ELP-120 based on performance on the English Placement Test.
5. Completion of READ-115 or direct placement into READ-116 based on performance on the English Placement Test.

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

- 1

If a student makes exceptional progress in ELP-114 and places out of ELP-120, another writing course must be selected for the minor in consultation with the Minor Program Advisor.
- 2

If a student makes exceptional progress in READ-115 and places out of READ-116, another reading course must be selected for the minor in consultation with the Minor Program Advisor.
- 3

For ECED or ELED majors, 3 courses must be at the 300-level.
- 4

prerequisite: LING-201
- 5

prerequisite: ENGL-101 with a grade of "C" or better, or consent of instructor
- 6

prerequisite: ENGL-101 with a grade of "C" or better, plus 6 hours of 200-level literature courses.
- 7

prerequisite: English Placement Test Score of 7 or 8, ENGL-101 with a grade of "C" or better, or consent of instructor.

Geography and Environmental Studies

DEGREE PROGRAMS

The Department of Geography and Environmental Studies offers degree programs leading to a B.A. in Geography, a B.A. in Environmental Studies, and an M.A. in Geography & Environmental Studies.

CERTIFICATE PROGRAMS

The Department offers two certificate programs in Geographic Information Science (GIS), an exciting and fast-growing field with a broad range of applications. GIS combines data management, spatial analysis and cartography and is widely recognized as a powerful planning tool in resource and environmental management, business and marketing, urban and regional planning, terrain and environment modeling, and more. The certificate programs give students technical skills that they can immediately apply in the workplace.

- Major in Geography (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/geography-environmental-studies/geography/>)
- Major in Environmental Studies (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/geography-environmental-studies/environmental-studies/>)

Erick Howenstine, Ph.D., Professor, Chair

Dennis Grammenos, Ph.D., Associate Professor

Ting Liu, Ph.D., Assistant Professor, GIS Coordinator

Alex Peimer, Ph.D., Assistant Professor

Melinda Storie, Ph.D., Associate Professor, Graduate Coordinator

GES-104. World Geography. 3 Hours.

Students will study the major world regions using a geographic perspective which includes both the physical environment (e.g., climate, soils, natural resources, topography) and the human environment (e.g., population, economic, political, urban, trade, culture, language). The course includes map interpretation and a brief introduction to modern geospatial technologies.

GES-109A. First Year Experience: Global Chicago. 3 Hours.

This First Year course provides a broad overview of the Chicago metropolitan area in the global context and within the framework of urban geography. Students will explore Chicago as a hub in the global economy and the many ways in which global forces have impacted the region.

GES-109B. First Year Experience: Humans And The Chicago Environment. 3 Hours.

Students will explore the relationships between human settlement and the natural environment in the Chicago metropolitan area including local environmental problems, their causes, and their possible solutions. Issues such as waste disposal, recycling, brownfields, suburban sprawl, air and water pollution, water supply, flooding and drainage, invasive species, and urban parks are investigated with classroom discussion. Some field trips are possible.

GES-150. Introduction To Environmental Studies. 3 Hours.

This is an introduction to the study of human-environment relations with a focus on sustainable solutions to environmental problems. Students will learn about fundamentals of environmental systems, human impacts on the environment, and sustainable solutions to environmental issues from local to global scales.

GES-199. Topics In Environmental Studies For Middle School Teaching. 4 Hours.

GES-205. Physical Geography. 3 Hours.

This course introduces students to the geographic distribution and interrelations of Earth's physical environment from a systems perspective. It emphasizes Earth-Sun relations, climate systems, soil, vegetation, and landform types and processes.

GES-218. Conservation Of Natural Resources. 3 Hours.

This course introduces students to contemporary approaches to natural resource management emphasizing efforts toward conservation and preservation. Students will learn how to manage a range of resources such as air, water, soil, forests, grasslands, energy and minerals, and wildlife. They will study the processes, problems, and management methods for different resource types.

GES-250. Writing Intensive Program: Writing in GES. 3 Hours.

In this writing intensive course students develop written communication skills relevant to Geography and Environmental Studies. Topics include note taking, outlines, drafts, writing styles, bibliography and references, essays, reviews, policy statements and reports of varying lengths. Library and online writing resources will be explored. Students will incorporate maps, graphs, and other visual aids.

Prerequisite: ENGL-101 minimum grade of C.

GES-301. Great Lakes Environmental Management. 3 Hours.

This course will survey human/environmental issues in the Great Lakes basin with an emphasis on environmental policy, planning, governance, and management. Topics include water resource use and management, wildlife management, industrial, urban and agricultural pollution and abatement, inter-state and inter-national transportation, and resource conflicts and solutions. Some field trips are possible.

GES-302C. Regional Geography: Africa. 3 Hours.

This is a descriptive and explanatory study of a major region. Emphasis is placed on the region's defining human/social and physical factors, on its distinct problems and opportunities, and its role in a wider spatial context.

GES-302D. Regional Geography: World Oceans. 3 Hours.

Students will study the geography and distribution of the oceans: physical geography of the ocean floor, coastal landforms, earthquakes and volcanoes, oceans and climate, life in the oceans, ocean resources, and human impacts. Contemporary problems and future opportunities include laws of the sea; transportation, and the importance of the oceans to environmental quality of Earth.

GES-302F. Regional Geography: Australia And The Pacific Islands. 3 Hours.

This is a descriptive and explanatory study of a major region. Emphasis is placed on the region's defining human/social and physical factors, on its distinct problems and opportunities, and its role in a wider spatial context.

GES-302G. Regional Geography: Caribbean. 3 Hours.

This is a descriptive and explanatory study of a major region. Emphasis is placed on the region's defining human/social and physical factors, on its distinct problems and opportunities, and its role in a wider spatial context.

GES-302H. Regional Geography: Eastern Europe. 3 Hours.

This is a descriptive and explanatory study of a major region. Emphasis is placed on the region's defining human/social and physical factors, on its distinct problems and opportunities, and its role in a wider spatial context.

GES-302K. Regional Geography: East Asia. 3 Hours.

This is a descriptive and explanatory study of a major region. Emphasis is placed on the region's defining human/social and physical factors, on its distinct problems and opportunities, and its role in a wider spatial context.

GES-302L. Regional Geography: Southeast Asia. 3 Hours.

This is a descriptive and explanatory study of a major region. Emphasis is placed on the region's defining human/social and physical factors, on its distinct problems and opportunities, and its role in a wider spatial context.

GES-302M. Regional Geography: Russia And Central Asia. 3 Hours.

This is a descriptive and explanatory study of a major region. Emphasis is placed on the region's defining human/social and physical factors, on its distinct problems and opportunities, and its role in a wider spatial context.

GES-302N. Regional Geography: South Asia. 3 Hours.

This is a descriptive and explanatory study of a major region. Emphasis is placed on the region's defining human/social and physical factors, on its distinct problems and opportunities, and its role in a wider spatial context.

GES-302O. Regional Geography: Middle East. 3 Hours.

This is a descriptive and explanatory study of a major region. Emphasis is placed on the region's defining human/social and physical factors, on its distinct problems and opportunities, and its role in a wider spatial context.

GES-302Q. Regional Geography: Western Europe. 3 Hours.

This is a descriptive and explanatory study of a major region. Emphasis is placed on the region's defining human/social and physical factors, on its distinct problems and opportunities, and its role in a wider spatial context.

GES-302S. Regional Geography: Developing World. 3 Hours.

This is a descriptive and explanatory study of a major region. Emphasis is placed on the region's defining human/social and physical factors, on its distinct problems and opportunities, and its role in a wider spatial context.

GES-302V. Regional Geography: U.S. And Canada. 3 Hours.

This is a descriptive and explanatory study of a major region. Emphasis is placed on the region's defining human/social and physical factors, on its distinct problems and opportunities, and its role in a wider spatial context.

GES-302X. Regional Geography: Latin America. 3 Hours.

This is a descriptive and explanatory study of a major region. Emphasis is placed on the region's defining human/social and physical factors, on its distinct problems and opportunities, and its role in a wider spatial context.

GES-303A. Topics In Geography: Social Geography. 3 Hours.

A current topic in geography will be explored in depth. See Schedule of Classes, course notes, and consult the department for more information.

GES-303B. Topics In Geography: American Cities: Past, Present And Future. 3 Hours.

This is an overview of geographic and historical development of American cities and an evaluation of contemporary urban issues. It emphasizes spatial processes within cities and within the larger urban system. Using fundamental aspects of urban theory students will discuss how cities developed and how processes such as suburbanization affect the social, economic and environmental aspects of city life.

GES-305. Geography And Map Skills For Teachers. 3 Hours.

Students will review the structure and content of both physical and human geography as well as the themes and standards of geography education. Basic educational concepts will be covered, as will instructional strategies for integrating geographic, geospatial, and GIS concepts into curriculum. This course is intended for those who plan to become formal or informal educators in Grades K-12.

GES-307. Environmental Education. 3 Hours.

This course offers an exploration and analysis of educational theory, various instructional methods, and the design of environmental education and outreach programs. Students will gain practical knowledge in lesson plan design and implementation, current research trends in environmental education, and various conservation-based field techniques related to environmental programming. Curricular development skills will be applied in the context of contemporary environmental issues.

GES-308. Conservation Psychology. 3 Hours.

Students will explore the emerging field of conservation psychology with an emphasis on the psychological characteristics of the relationship between humans and nature, such as environmental values, attitudes, behavior, and decision-making practices. Course topics, including environmental perception, identity, personal morals, ecopsychology, wilderness psychology, domestic nature, managed nature, community dimensions, and environmental education, will be investigated in the context of promoting environmental responsibility.

GES-309. Principles And Methods Of Environmental Interpretation. 3 Hours.

Students will explore the art of interpreting the natural environment of various settings (e.g., parks, camps, historical markers, places of cultural significance) for visitors. Students will practice a variety of interpretive activities and techniques including storytelling, interpretive talks, role-playing, interpretive signage, and guided programs. Projects include the creation of unique interpretive programming under instructor guidance and possibly with external clients. Some field trips are possible.

GES-311. Social Dimensions Of Water Resources Management. 3 Hours.

This course examines the social dimensions of water resources management and development by examining the relationship between humans and the hydrological cycle in the U.S. and world regions. Students will draw from key social theoretical frameworks to better understand and explain the development, use, management, and governance of water resources by humans at various scales and in different settings. Human impacts on natural water systems, the influence of natural water systems on humans, and water conflicts and resolutions will be highlighted. Field trips are possible.

GES-314. Political Geography. 3 Hours.

Students will study the relationship between geographical factors of the physical and human environments and political organization. Topics include territorial claims and conflicts, defining borders and districts, spatial patterns of legislation, development and evolution of nations, and changing patterns in the world political map.

GES-315. Economic Geography. 3 Hours.

Students will explore how economic activities are organized in space at the local, regional and global levels. Geographic frameworks, concepts, explanations and analytical tools will be used to show how space and location are critical elements affecting economic systems and why different places achieve different levels of well-being.

GES-316. Location Analysis. 3 Hours.

This course focuses on the use of location theory and economic modeling to understand spatial patterns of land use and to determine optimal spatial arrangements relating to location of business, services, resources and trade. Environmental influences and impacts are discussed.

GES-319. Environmental And Natural Resources Policy. 3 Hours.

This course analyzes environmental and natural resource policy development, implementation, and revision. It emphasizes contemporary political, environmental, economic, and legal aspects of US federal and state environmental policies in a global.

GES-321. Environmental Impact Assessment. 3 Hours.

Students will analyze the National Environmental Policy Act (NEPA) and its requirement of environmental impact assessment. Topics include NEPA requirements, categories and methods of environmental assessment; agency direction for implementing NEPA; impact assessment in planning and decision making; and public participation and conflict management.

GES-322. Aerial Photo Interpretation. 3 Hours.

This course introduces the use of aerial photographs for evaluating natural and built environments. Students will gather and study information in order to identify various cultural and natural features from aerial photographs.

GES-323. Green Infrastructure Planning And Management. 3 Hours.

This course focuses on the challenges and benefits of incorporating open space, native landscaping, street trees, etc. into urban planning to ameliorate problems such as erosion, storm water management, climate change, habitat loss, and pollution. Plans at differing scales will be compared; case studies of green infrastructure implementation will be examined; and management and maintenance of green infrastructure practices will be discussed. This is a GES-approved field class. Most classes will be held in the field.

GES-327. Forest Resource Management. 3 Hours.

Students will study forest values, management, policies and practices for public and private lands, including national wilderness areas, parks and forests, and the role of trees and forests in urban areas. Some field trips are possible.

GES-328. Wildlife Resource Management. 3 Hours.

This is a general wildlife management course designed for resource planners, environmental managers, interpretive naturalists, and educators. Fish and wildlife values, conservation principles and practices, and current policy issues will be covered.

GES-329. Sustainable Energy Policy. 3 Hours.

Students will study renewable energy resources such as solar, wind, hydro, and biomass sources as alternatives to nuclear energy and traditional fossil fuels. They will examine sustainable energy policy and other ways energy resources can be managed towards a sustainable future.

GES-336. Solid Waste Issues. 3 Hours.

This course examines trends in municipal solid waste generation, collection, disposal and management. Students will explore and discuss the roles of federal, state, county, and municipal governments and policies. International waste issues and management strategies will also be covered.

Prerequisites: GES-150 minimum grade of D and GES-218 minimum grade of D and GES-220 minimum grade of D.

GES-337. Cultural Geography. 3 Hours.

This course will focus on the cultural landscape including patterns of language, religion, ethnicity, gender, and livelihoods as they vary from region to region around the world.

GES-338. Sustainable Development. 3 Hours.

Sustainable development is an alternative to traditional industrial-economic models of growth which often marginalize people and damage ecosystems. The course will cover specific strategies, policies, and implications of the sustainable development approach globally. Environmental, social, and economic aspects of development will be examined at various scales.

GES-339. Geography Of Energy. 3 Hours.

This course examines the changing spatial patterns of the distribution, consumption, and transportation of energy resources in the US and world regions. Students will investigate new technologies and management strategies for production and delivery of energy resources. Some field trips are possible.

GES-344. Chicago River Issues. 3 Hours.

This field class explores the geographic, environmental, historic, economic, engineering, recreation and other aspects of the Chicago River. Students will study water quality, land use and ownership issues, habitat restoration, and the importance of rivers in metropolitan areas. As a GES- approved field class, most classes are held in the field and will include light hiking and paddling.

GES-345. Medical Geography. 3 Hours.

The course will cover health-related topics including infectious and non-infectious diseases, from a spatial perspective. Ecological, social, and spatial factors affecting health and disease will be studied, as will the tools and methods of intervention. Special attention is given to the effects of globalization and urbanization on health and disease.

GES-346. Geography Of Metropolitan Chicago. 3 Hours.

This is a detailed study of communities within Chicago and its surrounding area with an emphasis on the formation and spatial distribution of distinct regions. Some field trips are possible.

GES-347. Gentrification And Urban Redevelopment. 3 Hours.

Students will examine the processes and effects of gentrification, revitalization, restoration and urban redevelopment both in metropolitan Chicago and globally. Some field trips are possible.

GES-348. Latino Metropolis. 3 Hours.

This course explores the processes and sociospatial context of Latino urbanization in the U.S, with an emphasis on metropolitan Chicago. Some field trips are possible. The course is approved for graduate credit.

GES-349. Environment And Urbanization. 3 Hours.

The course focuses on urban development emphasizing the role of the natural environment in cities around the world. The rapid growth of urban areas both within and beyond core regions will be studied, with special attention paid to the environmental factors affecting urbanization and the impacts of urbanization on the natural environment.

GES-350. Climate Change: Policy, Adaptation, And Mitigation. 3 Hours.

This course examines global climate change policy creation and implementation (e.g. Paris Climate Accord) among multiple institutions and countries, as well as the adaptation and mitigation mechanisms put in place to curb the causes and effects of climate change. Students will develop skills necessary to explain how climate change policies, adaptation and mitigation strategies arise in different places. Using case studies and global adaptation and mitigation assessments, students will evaluate and recommend climate change adaptation, mitigation, and planning strategies in various ecological, cultural, societal, and institutional settings.

GES-351. Spatial Statistics. 3 Hours.

This course introduces students to the fundamentals of spatial statistics. Students will explore statistical problems, principles, and techniques for the study of geographic and environmental phenomena with spatially referenced data.

GES-352. Independent Study In Geography And Environmental Studies. 3 Hours.

Students will study a topic of special interest under the supervision of a faculty member. See the Department policy on independent studies.

GES-353. Independent Study In Geography And Environmental Studies. 2 Hours.

(See GES-352 for description.).

GES-354. Independent Study In Geography And Environmental Studies. 1 Hour.

(See GES-352 for description.).

GES-355. Metropolitan Transportation: Problems And Planning. 3 Hours.

This course presents a study of the location, impact, causes, and mitigation of natural hazards globally. Example topics include earthquake, volcano, flooding, landslide, subsidence, extreme weather, wildfire, and tsunamis. Hazard mitigation will also be covered. Some field trips are possible.

GES-357. Geography Of Natural Hazards. 3 Hours.

This course presents a study of the location, impact, causes, and mitigation of natural hazards globally. Example topics include earthquake, volcano, flooding, landslide, subsidence, extreme weather, wildfire, and tsunamis. Hazard mitigation will also be covered. Some field trips are possible.

GES-359. Environmental Planning. 3 Hours.

In this course students will learn how to incorporate environmental factors into land use and resource planning. They will explore interrelations between physical systems and land use; they will identify tools and resources for ecologically sound analysis and planning; and will develop an environmental plan of their own.

GES-360. Environmental Justice And Activism. 3 Hours.

Students will investigate the history and process of environmental equity, grassroots activism, legislation and lobbying, and community organization. Some field trips are possible.

GES-361. Urban Planning. 3 Hours.

Students will study the historical development of urban planning in the United States, the components of a comprehensive plan, and the theory and practice of urban planning.

GES-362. Population Geography. 3 Hours.

Population structure, growth/decline, distribution, and migration from local to global scales will be covered. The impact of population structure on economic growth, and problems including environmental degradation and human suffering will be discussed. The course will also cover population policies and initiatives.

GES-363. Field Experience: Problems In Geography. 3 Hours.**GES-365. Urban Geography. 3 Hours.**

This survey course in urban geography focuses on processes and outcomes of urbanization. It will address the changes unfolding in the metropolitan landscape and will encourage students to develop a deeper and more nuanced understanding of cities and urban socio-spatial processes.

GES-367. Geography Of Tourism. 3 Hours.

Students will examine tourism from a geographic and environmental perspective. Topics include political and economic impact on communities, ecotourism, and the cultural consequences of tourism in different world regions. Students will investigate a local tourist site. Some field trips are possible.

GES-368. Changing Global Climates. 3 Hours.

This course explores the cycles and patterns of global climates with a specific emphasis on global human-climate interactions, climate change management and adaptation at various scales.

GES-370. Interdisciplinary Seminar On Climate Change. 2 Hours.

This university-wide seminar provides important views on the critical issue of climate change, drawing from many perspectives and disciplines. Faculty from different NEIU departments and other institutions will present an overview of socio-economic, political, cultural, racial, gender, ethical, and scientific perspectives on the issue of climate change. The main objective of the seminar is to gain an understanding of the dynamic linkages and feedbacks between the climate system and society and to critically evaluate climate change solutions in the context of sustainability and social & environmental justice.

GES-371. Advanced Physical Geography. 3 Hours.

This course will cover advanced topics in physical geography, focusing primarily on geomorphic systems (e.g., rivers, glaciers, deserts, coastal zones, karst) and biomes. It will cover contemporary approaches to physical geography as a discipline.

Prerequisite: GES-205 minimum grade of C.

GES-372. GIS Across Disciplines. 3 Hours.

This course introduces students to the fundamental concepts of Geographic Information Systems (GIS) and its application in a variety of disciplines including both social and natural sciences. Students will also gain hands-on experiences of collecting and manipulating spatial data and creating effective maps.

GES-374. Research Methods. 3 Hours.

This course explores the foundations and tools of research including quantitative, qualitative, and mixed-methods approaches used in Geography and Environmental Studies. Students will conduct original research from topic selection and development of a research question to a finished paper and presentation. They will gain skills in data collection, analysis, and interpretation as well as in professional writing and presentation.

Prerequisites: GES-250 minimum grade of C and (GES-104 minimum grade of C or GES-150 minimum grade of C).

GES-376. Principles Of Cartography. 3 Hours.

This course covers principles of map making, the history of cartography, evolution of modern techniques, projections, symbolization, visual appeal, thematic mapping techniques, design, production and interpretation.

GES-377. Computer Cartography. 3 Hours.

Students will design, create, and publish a variety of thematic maps using digital graphics programs. The course will include cartographic conventions, aesthetic considerations, and effective symbology.

GES-380. Field Methods. 3 Hours.

Introduction to the instruments, measurements, mapping techniques, and sampling procedures used to acquire primary data from field observations. Development of a field research plan, culminating research projects tailored to each student's interest. Approved for graduate credit.

GES-383. Internship In Geography And Environmental Studies. 3 Hours.

This is a supervised field experience with an agency related to the student's career interest. Prior course work and other disciplinary experiences are evaluated before approval is granted to enroll in the internship. Students will work closely with their advisor in advance of enrollment and will have regular contact throughout the course. There is a formal process for reporting and assessment and 160 work hours are required. This is a GES-approved field class.

GES-387. Interactive Cartography. 3 Hours.

This course focuses on cartographic techniques for web delivery of interactive maps. Students learn basic coding and script modification for interactive map images, and preparation of base maps and data. Emphasis is placed on widely available open source tools. Students will design and complete a research project using new skills for interactive mapping. The course is approved for graduate credit.

GES-388. Field Camp. 3 Hours.

Students must consult the Schedule of Classes for specific destination and costs for this travel-based course. Departmental approval is required for enrollment. There will be classroom meetings prior to travel for discussion of the geographic and environmental issues of the destination. Student will perform a research project based on literature review and field work. This is a GES-approved field class.

GES-389. Urban Design Studio. 3 Hours.

This studio course presents perspectives, standards and techniques used in representing urban plans and projects. Cultural, economic, political and social dimensions of urban life are incorporated in the computer assisted design projects.

GES-390. Remote Sensing And Digital Image Processing. 3 Hours.

This course focuses on the analysis of remotely sensed data for geographic and environmental applications including the detection of a variety of resources in the natural and human environments, measurement of change, and human impact. The course is approved for graduate credit.

GES-391. Geographic Information Systems I. 3 Hours.

This course is an introduction to Geographic Information Systems (GIS) technology for research applications. Students will study the conceptual and technical process of GIS research including project design, data acquisition, data manipulation, analysis, interpretation and display. The course is approved for graduate credit.

GES-392. Geographic Information Systems II. 3 Hours.

This course introduces advanced skills in Geographic Information Systems (GIS), including the concepts, methods and techniques of geospatial analysis and modeling. A variety of spatial data geoprocessing tools will be explored, using both raster and vector formats. Students will apply GIS tools and skills to a real world problem. The course is approved for graduate credit.

Prerequisite: GES-391 minimum grade of C.

GES-393. Geographic Information Systems III. 3 Hours.

This course focuses on advanced analysis of Geographic Information Systems (GIS) data using scripts and programming. Topics will include database management, model building, scripting and programming, and open source GIS. Students will complete several projects related to the course topics. The course is approved for graduate credit.

Prerequisite: GES-391 minimum grade of C.

GES-395. GIS Internship. 3 Hours.

This course is a supervised field experience using Geographic Information Systems (GIS) and related geospatial technologies. A proposal and departmental approval is required in advance of registration. There is a formal process for reporting and assessment, and 160 work hours are required. Students should consult Department materials for specific guidelines and instructions. This is a GES-approved field class.

Prerequisite: GES-391 minimum grade of C.

GES-396. Food And The City. 3 Hours.

In the face of growing awareness of the environmental impacts of conventional agriculture, food insecurity, and climate change, many view urban agriculture as a promising solution to a variety of socio-economic and environmental concerns. This course will examine the historical development, current versions, and future potentials of urban food production in a geographic context. Some field trips are possible.

GES-401. Seminar In Cultural Geography. 3 Hours.

This course will explore dimensions of the cultural landscape emphasizing the influence of location and place in the creation, shaping, and maintenance of cultural regions. Cultural change and interactions will be studied at various scales of analysis.

GES-411. Scope And Philosophy Of Geography And Environmental Studies. 3 Hours.

This is a historical and theoretical review of geography as a spatial discipline, and of the philosophy of conservation and environmental studies. The relationship between these two fields will be examined. The course also provides an overview of the M.A. program and graduate level studies.

GES-413. Advanced Research Methods. 3 Hours.

This course develops concepts and skills for those preparing for graduate research (thesis or research paper) in the Department of Geography and Environmental Studies or related social science fields. Research design, data-gathering techniques, data analysis, research planning, and quantitative, qualitative, and mixed method approaches will be covered. Students will interpret published research and produce a research proposal.

Prerequisite: GES-411 minimum grade of C.

GES-415. Geospatial Data Analysis. 3 Hours.

This course covers the use of contemporary tools used in the design and preparation of thematic maps. It also provides an overview of spatial analyses now possible with geographic information systems (GIS). Topics include data collection, input, storage, retrieval, manipulation and output.

GES-416. GIS For Natural Systems Management. 3 Hours.

This course introduces students to the theory and concepts of data storage, retrieval, visualization, modelling, and output for natural resource applications and management. Mainly with the use of raster GIS students will design and complete their own research projects.

Prerequisite: GES-391 minimum grade of C.

GES-417. Urban Information Systems. 3 Hours.

Students will analyze the urban environment primarily with vector GIS tools and public data. Topics will include suburbanization, segregation, economic development, network-based transportation and site location. Students' exploration will culminate in independently designed research projects.

Prerequisite: GES-391 minimum grade of C.

GES-424. Human Dimensions Of Global Environmental Change. 3 Hours.

This course introduces students to the role of humans in driving environmental change at local to global scales. They will integrate knowledge of human and non-human systems to enhance their understanding of contemporary global environmental problems. By studying academic literature connecting social and ecological systems they will explore the causes and consequences of human activities in relation to anthropogenic issues such as climate change and biodiversity loss. They will also study ways to mitigate or adapt to these changes.

GES-430. Research Seminar. 3 Hours.

Students conduct a focused and comprehensive literature review, and write a research paper on an approved topic to fulfill requirements for the Master of Arts degree. Credit for both this course and the Thesis Seminar will not be permitted. A proposal must be approved by both committee members in advance of registration. See Departmental policies.

GES-435. Seminar In Physical Geography. 3 Hours.

Students will investigate geomorphic systems and the importance of physical geography for studying the Earth. This course will introduce contemporary principles, models, and theories of physical geography, with special attention paid to the application of physical geographic knowledge for G&ES scholars and professionals.

Prerequisite: GES-205 minimum grade of C.

GES-437. Seminar: Global Wildlife Issues. 3 Hours.

Wildlife ecology, management, and policy are studied from global to local scales. Topics will include evolution and distribution of wildlife, habitat and territory, biomes and ecosystems. Human impacts will also be studied. These include habitat loss/disruption, hunting, pollution, introduction of new species and conservation efforts, environmental ethics, and environmental policies.

GES-440. Qualitative Research Methods In Geography And Environmental Studies. 3 Hours.

Students will explore qualitative analytical tools and methods used in geography and environmental studies. They will develop the foundational philosophical knowledge of qualitative inquiry while practicing and applying various qualitative techniques related to the study of complex human-environment phenomena. Individual research projects will involve collecting, analyzing, and representing qualitative data.

Prerequisites: GES-411 minimum grade of C and GES-413 minimum grade of C.

GES-442. Geographic Problems In Quantitative Measurements. 3 Hours.

This course focuses on quantitative and statistical tools used in geography and environmental studies. It will cover common statistical measures and will emphasize geometrics and spatial analyses. Statistical projects are required.

GES-445. Seminar In Resource Management And Decision-Making. 3 Hours.

This research seminar incorporates principles of resource management and environmental governance through research projects conducted in the Chicago metropolitan area.

GES-449. Seminar In Land Use Controls. 3 Hours.

Students will explore the rationale and methods of private land regulation: land subdivision, zoning, regulations, and growth control. Research projects are required.

GES-450. Seminar In Urban Planning. 3 Hours.

This is a broad overview of urban planning as it is practiced in the United States and in the Chicago metropolitan area. It focuses on the fundamental theoretical perspective as well as on the common regulatory and procedural tools utilized by planning professionals. Students will examine the historical context and evolution of the planning profession, the complex issues associated with urbanization, and of the role of planning in contemporary society.

GES-453. Seminar In Sustainable Development. 3 Hours.

This is an advanced study of sustainable development in the context of science, economics, politics, culture, ecology, and ethics. Development and globalization are critiqued from a political economy perspective and both strengths and limitations of conventional systems are investigated. Institutions, policies, and strategies are analyzed, as are indicators of sustainability and development.

GES-454. Seminar: Population And Environment. 3 Hours.

Students will investigate population dynamics at various scales, including distribution and structure, theories, trends, projections, and policies. Environmental constraints and impacts of population on the natural environment will be explored.

GES-455. Seminar In Environmental Planning. 3 Hours.

Proactive land use strategies to minimize pollution, protect biodiversity and water and energy resources, and reduce vulnerability to natural hazards will be explored. Issues such as smart growth, sustainable transportation, sprawl, watershed management, preservation, natural hazard mitigation, and green design will be discussed with emphasis on those in the Chicago area. Tools will include GIS, economic analysis, and environmental impact assessment. Some field trips are possible.

GES-456. Seminar In U.S. Environmental Policy. 3 Hours.

This is a detailed exploration of environmental law and policy in the United States, including legal structures, processes, and constraints, notable successes and failures, the role and influence of advocacy and interest groups, and major controversies relating to decentralization, market-based mechanisms, risk-based analysis, environmental justice, and others. Differences in state laws and performance will also be explored.

GES-457. Seminar: International Environmental Policy. 3 Hours.

Students will study international efforts to address global environmental problems such as deforestation, climate change, ozone depletion, fisheries decline, and toxic chemicals. They will analyze the effectiveness of these measures. The class will explore various theories and philosophies, international regimes, international cooperation, and the promoters of and obstacles to progress. The impact of globalization, of regional disparities, and of international organizations will be examined.

GES-461. Independent Study In Geography And Environmental Studies. 3 Hours.

This independent research is on a topic chosen by the student in consultation with the instructor and approved in advance of registration.

GES-462. Seminar In Environmental Education. 3 Hours.

In this course students will explore, analyze, and critique advanced environmental education theories and practices. Students will gain an understanding of pedagogical tools and techniques related to a variety of ages, locations, and mechanisms of conservation education. Foundational knowledge will be combined with current research trends in the context of individualized projects.

GES-471. Seminar In Urban Geography. 3 Hours.

Students will research and discuss current topics and theories from the academic literature in urban geography.

GES-472. Seminar In Regional Geography: Third World Issues. 3 Hours.

Students will examine the less developed world regions based on current geographical perspectives of development processes. Topics will include social inequity, resource exploration, economic development, and demographic change. Students will develop their own research areas, incorporating the academic literature.

GES-483. Internship. 3 Hours.

This is a supervised field experience (160 work hours) with an agency related to the student's career interest. Prior course work and other experience is evaluated before approval is granted to enroll in the internship. See Department policies and internship procedures.

GES-5901. Thesis Hours. 1 Hour.

Under the supervision of three advisors students conduct independent research and write a thesis to fulfill requirements for the Master of Arts degree. Credit for this course and GES-430 will not be permitted. See Department policies.

GES-5902. Thesis Hours. 2 Hours.

Under the supervision of three advisors students conduct independent research and write a thesis to fulfill requirements for the Master of Arts degree. Credit for this course and GES-430 will not be permitted. See Department policies.

GES-5903. Thesis Hours. 3 Hours.

Under the supervision of three advisors students conduct independent research and write a thesis to fulfill requirements for the Master of Arts degree. Credit for this course and GES-430 will not be permitted. See Department policies.

Graduate Geographic Information Science Certificate

Graduate Geographic Information Science Certificate

Degree-seeking Graduate students and non-degree-seeking Graduate students may enroll in the Graduate Certificate Program.

Total of 18 credits hours which may be completed in one academic year (Fall-Summer):

Code	Title	Hours
Core Courses		12
GES-391	Geographic Information Systems I	
GES-392	Geographic Information Systems II	
GES-393	Geographic Information Systems III	
GES-442	Geographic Problems In Quantitative Measurements	
Electives		6
Select two of the following:		
GES-387	Interactive Cartography	
GES-390	Remote Sensing And Digital Image Processing	
GES-416	GIS For Natural Systems Management	
GES-417	Urban Information Systems	
Total Hours		18

Major in Environmental Studies

Major In Environmental Studies for the Bachelor of Arts Degree

Environmental Studies is an applied major designed to give students knowledge of and the ability to develop solutions to environmental problems. Students can focus on one of two areas:

1. environmental policy and planning, or
2. environmental interpretation / education.

Students in option 1 investigate the causes, results, and solutions to environmental problems from a policy perspective. They study regulations influencing environmental protection and degradation; they also gain practical skills useful in the field.

Students in option 2 specialize in community interaction and will qualify for careers as naturalists with parks and other outdoor agencies and as environmental educators in schools and non-profit organizations.

The program culminates with an internship experience in which the student applies knowledge, gains practical experience; it often constitutes a first job in an environmental career. To earn a Bachelor of Arts in Environmental Studies, students must complete 24 credit hours of core requirements and 18 credit hours of approved electives. Up to nine hours of credit from other relevant fields may be accepted toward the major, with advisor approval.

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

- * Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.
- ** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Major in Geography

Major in Geography for the Bachelor of Arts Degree

Geography is the study of space and location; it is a practical discipline which incorporates knowledge from the natural and social sciences to address problems of a spatial dimension. Geographers describe spatial patterns – where things are, where they are not, and why they are distributed that way. They determine optimal locations – for example, where a business should be or where to purchase a home. They also study interactions, such as travel patterns, trade, and migration.

Many geographers use Geographic Information Systems: computer software that merges maps, data, and analysis. The Department's GIS Certificate Program can be incorporated into their major as electives or may be taken for the Certificate alone, outside of the degree program. A minor in Geographic Information Science, which results in a Certificate as well, is also available.

In addition to the required courses in geography, students may choose to specialize in urban and social geography or geospatial techniques. The first option focuses on the study of metropolitan areas and the socio-spatial patterns that characterize them. Students are introduced to principles of urban planning and urban design and the dynamics of urbanization. The latter option includes instruction in field methods, computer-assisted mapping, statistics, geographic information science, and interpretation of aerial photos and satellite images.

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

Master of Arts in Geography and Environmental Studies

The Master of Arts degree program provides advanced analysis of spatial and environmental interrelationships. This 33 credit hour program prepares students for positions in environmental policy planning, and management in government, industry, and non-profit organizations; in environmental education and nature interpretation; and in other areas where geographers, planners, and environmental professionals are needed.

Requirements for Admission to the Program:

Students must fulfill the requirements for admission to the Graduate College. Applicants must have the equivalent of an undergraduate minor in Geography & Environmental Studies or will be required to take extra undergraduate coursework prior to full admission. Students must provide a two-page Statement of Goals and Objectives as part of their application. This statement should demonstrate the student's writing skills and should specify as clearly as possible academic/professional goals and the reasons for selecting the G&ES program of study.

Degree Requirements:

All graduate credits must be at the 400 level, except for a maximum of 10 credit hours from a limited list of university approved 300-level courses. Students should consult with the Department for the limited list; some courses on the list may require specific approval by the Department's Graduate Coordinator.

Students must write either a thesis (6 cr.) or major research paper (3 cr.) under the supervision of a Program Advisor and faculty committee. A formal approval of the proposal by the committee is required prior to registration. For students undertaking the thesis, an oral defense is also required. For students enrolled in the research paper option, a written comprehensive examination covering their chosen area of specialization as well as knowledge of geography, environmental studies, and disciplinary techniques must be completed.

Code	Title	Hours
Required Courses		
GES-411	Scope And Philosophy Of Geography And Environmental Studies	3
GES-413	Advanced Research Methods	3
Select two of the following:		6
GES-391	Geographic Information Systems I	
GES-442	Geographic Problems In Quantitative Measurements	
GES-440	Qualitative Research Methods In Geography And Environmental Studies	
One of the following:		3-6
GES-430	Research Seminar	
OR 6 cr. hrs. of Thesis Hours (GES 5901, 5902, 5903)		
Approved Electives		15-18
Total Hours		33

Students enrolled in the thesis option (6 credit hours) are required to take 15 credit hours of electives, while students enrolled in the non-thesis option (3 credit hours) are required to take 18 credit hours of electives. In that way, along with the other requirements of the program, ALL students finish with a total of 33 credit hours.

Pass Comprehensive Exam (research paper option)

Thesis Defense (thesis option)

Minor in Environmental Studies

Minor In Environmental Studies (18 credit hours)

The minor in environmental studies provides students a sound foundation in environmental issues at the local and global scales. Problems and solutions are explored in classes covering topics such as resource management, sustainability, environmental interpretation, and more.

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Minor in Environmental Studies requirements

Code	Title	Hours
Requirements		
GES-150	Introduction To Environmental Studies	3
Approved Electives		15
Total Hours		18

Minor in Geography

Minor In Geography (18 credit hours)

The minor in geography complements a wide variety of majors and provides the student with the concepts and tools for understanding places and spatial processes. Geography minors may focus their electives on regional studies, on techniques, or on the more theoretical spatial processes of human and natural environments.

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).

Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Minor in Geography requirements

Code	Title	Hours
GES-104	World Geography	3
Approved Electives		15
Total Hours		18

Minor in Geographic Information Science

Minor in Geographic Information Science (GIS)

Through a series of courses, students will learn how to create, collect, assemble, manage, manipulate, analyze, and display raster images, such as those from aerial photography and remote sensing, and vector spatial data, along with their associated attributes. They will apply the skills gained through lectures, readings, and assignments to analyze data at all scales and produce maps and reports. These skills complement many majors.

Students must also complete a statistics requirement by passing either one statistics class or the proficiency exam. Consult the GIS advisor for more information. Credits obtained in these courses may also be applied towards major or minor degree programs in G&ES.

Global Studies

Global Studies is an interdisciplinary undergraduate program that offers a major leading to the B.A. in Global Studies. The program provides students with the opportunity to investigate and analyze the globalized world and the transnational interconnections that are its hallmark. The innovative curriculum includes required core courses housed in Global Studies as well as cross-listed courses drawn from across the university. Through critical analysis of the contemporary world, carried out in coursework and through hands-on research and internship opportunities, students in the program accrue knowledge, scholarly abilities, and practical skills that will prepare them as informed global citizens and members of the 21st century workforce. The program will prepare students to pursue graduate education and careers in a wide range of fields, including international business and law, applied social sciences, community resources management, social services, and international development.

For further information, please contact the program coordinator:

Dr. Tracy Luedke

Major in Global Studies (<http://catalog.neu.edu/archive/2019-2020/arts-sciences/global-studies/global-studies/>)

Minor in Global Studies (<http://catalog.neu.edu/archive/2019-2020/arts-sciences/global-studies/minor-global-studies/>)

Global Studies Faculty:

Tracy Luedke, Ph.D., Professor, Anthropology (Coordinator of Global Studies)
Denise Cloonan Cortez de Andersen, Ph.D., Professor, Spanish
Maria De La Torre, Ph.D., Associate Professor, Justice Studies
Chielozona Eze, Ph.D., Professor, English
Mateo Mohammad Farzaneh, Ph.D., Associate Professor, History
Scott W. Hegerty, Ph.D., Associate Professor, Economics
Seung-Hwan Mun, Associate Professor, Communication, Media & Theatre
Ryan Poll, Ph.D., Assistant Professor, English
Christopher Schroeder, Ph.D., Professor, English
Isidore Udoh, Ph.D., Assistant Professor, Health Sciences and Physical Education

GS-201. Introduction To Global Studies I. 3 Hours.

This course introduces students to the multiple dimensions and impact of globalization as it is reflected across disciplines. Accordingly, we explore globalization through specific themes and approaches, including those of: 1) Culture, Society, and Identity; 2) Language, Knowledge, and Representation; 3) Power, Movements, and Political Economy; 4) Nature, Technology, and the Body; 5) Violence, Resistance, and Resolution. In this way, the course generates a comparative understanding of the significant implications arising in the wake of an increasingly globalized world.

GS-205. Writing Intensive Program: Interdisciplinary Research And Writing. 3 Hours.

Interdisciplinary Research and Writing provides students with practical training in conducting research and writing effectively in an interdisciplinary field. Students will learn about the advantages and challenges of interdisciplinary scholarship through a series of stepped research and writing assignments, including literature searches and reviews, hands-on experimentation with field methods, and multiple formal and informal writing activities that guide students in creating rough drafts, conducting revisions, and producing polished work. The course serves students in all interdisciplinary fields.

Prerequisite: ENGL-101 minimum grade of C.

GS-399. Capstone Global Studies. 4 Hours.

In this course students will examine and conduct research on global phenomena. We will read and debate a range of approaches to the study of the global, addressing both methodological and theoretical issues. Students will conduct individual research projects, working through all the stages from proposal to completed paper. As the capstone course for the Global Studies Program, the primary course goal is to provide students with practical experience in linking reading and discussion of published sources in Global Studies to the tasks of researching, analyzing, and writing about their own areas of interest in the field.

Prerequisites: GS-201 minimum grade of C and GS-202 minimum grade of C.

History

The Department of History trains students to question essential assumptions about human societies and cultures. Students develop a broad and deep body of historical knowledge that gives important context to human action and events. Our students learn to collect, organize, analyze and interpret complex sources. They use these sources to craft clear and well-supported historical arguments, and to present their findings to a variety of audiences.

We apply historical knowledge and historical thinking to contemporary issues, and learn to weigh diverse points of view. The ability of historians to engage both complexity and detail and to develop critical thinking, clear writing, and persuasive speaking skills prepare our students for successful careers in business, law, education, and government.

The Department of History offers courses leading to the degrees of Bachelor of Arts and Master of Arts. In addition, the Department offers a minor.

NOTE: Some history courses have been renumbered and others consolidated. Students who took a course under one number will not receive credit for taking the same course under its new number.

HIST-109. First Year Experience: History Of Chicago. 3 Hours.

Chicago is the most "American" of the major cities and has been at the forefront of change. In 50 years Chicago transformed from a fur-trading crossroads to a major industrial center, and that speed made it a city of stark contrasts. Enormous tensions emerged between the entrepreneurial forces that built the city and the countervailing social forces that strived to humanize it. A stream of immigrants played an integral role in shaping the city, contributing to economic and cultural development. Chicagoans faced huge challenges and as a result became pioneers of the economic, social, and political trends that shaped modern America.

HIST-111A. World History: The Origins Of The West, To 1500. 3 Hours.

Survey of the formation of Western Civilization from its ancient Mediterranean origins until the European Renaissance.

HIST-111B. World History: The West And The World, 1500-Present. 3 Hours.

Survey of Western Civilization from the Renaissance to the present age of expanded European influence.

HIST-111C. World History: East Asia. 3 Hours.

Survey of the history and culture of East Asia, with emphasis on China and Japan from antiquity to the present.

HIST-111D. World History: Latin America. 3 Hours.

Survey of the history and culture of Latin America, with emphasis on the last 500 years.

HIST-111E. World History: Africa. 3 Hours.

Survey of the history and culture of Africa with emphasis on the relations between Africa and the wider world.

HIST-111F. World History: Islam. 3 Hours.

Survey of the role of Muslims in World History, with emphasis on the diversity of their religious, social, cultural and economic lives and their change over time.

HIST-214. United States History 1607-1877. 3 Hours.

Social, political, intellectual, diplomatic and economic development of the American colonies and the United States from the beginnings through 1877.

HIST-215. United States History 1877-Present. 3 Hours.

Social, political, intellectual, diplomatic and economic development of the United States from 1877 to present.

HIST-230. History Of African Americans. 3 Hours.

The course examines the experiences of African Americans in America, and how those experiences have shaped American life. Using primary and secondary sources, the course will chart the journeys of African Americans from slavery in colonial America to the twenty-first century. The course will conclude with discussion of contemporary issues in African American life.

HIST-275. Writing Intensive Program: Writing And Methods For Majors. 3 Hours.

The purpose of this course is to introduce History majors to the methods and writing skills necessary to succeed in their chosen discipline. The writing assignments in the course are intended to help students develop skills in analyzing sources, evaluating books, and producing historiographical essays that will benefit students in the other courses they take for the major, and beyond. Instructors will choose content on a historical theme that highlights how historians interpret the past from diverse perspectives that change over time.

Requirement: one course in History

Prerequisite: ENGL-101 minimum grade of C.

HIST-300A. Ancient Greece. 3 Hours.

Social, political and intellectual history of Greece, from the age of Homer through the Peloponnesian War. Readings include selections from poetry, drama, history and philosophy of the period. Required: Two courses in history or consent of instructor.

HIST-300B. Ancient Rome. 3 Hours.

The history of Rome from prehistoric cultures to the end of the Roman Empire. Required: Two courses in history or consent of instructor.

HIST-300W. Writing Intensive Program: The Historian's Craft. 3 Hours.

The purpose of this course is to introduce History majors to the methods and writing skills necessary to succeed in their chosen discipline. The writing assignments in the course are intended to help students develop skills in analyzing sources, evaluating books, and producing historiographical essays that will benefit students in the other courses they take for the major, and beyond. Instructors will choose content on a historical theme that highlights how historians interpret the past from diverse perspectives that change over time.

HIST-301. Medieval Europe. 3 Hours.

Major themes of the Middle Ages in Europe with emphasis on Western Europe. Required: Two courses in history or consent of instructor.

HIST-302A. Age Of Renaissance. 3 Hours.

The political and cultural history of Italy and Northern Europe from 1300-1600. Required: Two courses in history or consent of instructor.

HIST-302B. Age Of Reformation. 3 Hours.

The religious crisis within Roman Catholicism and the genesis and growth of the Protestant movement. Required: Two courses in history or consent of instructor.

HIST-303. Europe During The Ancien Regime 17th And 18th Centuries. 3 Hours.

The political, economic, social and intellectual development of Europe in the seventeenth and eighteenth centuries. Required: Two courses in history or consent of instructor.

HIST-304. Europe In The Age Of Revolution 1789-1871. 3 Hours.

The historical forces in European society from the French Revolution to the completion of the unification processes. Required: Two courses in history or consent of instructor.

HIST-305. Europe In The Age Of Imperialism 1871-1919. 3 Hours.

The historical forces in European society during the period of great territorial expansion and rivalry culminating in the First World War. Required: Two courses in history or consent of instructor.

HIST-306. Europe 1919-1948: Fascism, Socialism, And The Second World War. 3 Hours.

This course addresses European history from the Treaties that ended the First World War in 1919 to the Berlin Crisis and the start of the Cold War. Themes will include the Great Depression and crisis of liberal democracy, the challenges to it posed by Mussolini, Hitler, and Stalin, and the culmination of tensions among these in the Second World War. Particular attention will be paid to genocide and the Nazi attempt to destroy the European Jewish community.

HIST-307A. The Age Of The Baroque. 3 Hours.

An examination of the intellectual and cultural history of seventeenth-century Europe, with special emphasis on scientific, philosophical, political and religious thought. Required: Two courses in history or consent of instructor.

HIST-307B. The Age Of The Enlightenment. 3 Hours.

An examination of the intellectual and cultural history of eighteenth-century Europe, with special emphasis on religious, political and philosophical thought. Required: Two courses in history or consent of instructor.

HIST-308. Human Rights In History, Literature, And Law. 3 Hours.

This course examines the development of human rights from the eighteenth century to the Bosnian War of the 1990s. Using a variety of sources and disciplinary perspectives, students will study the origins of discussions of rights in the American and French Revolutions and debates over the nature of rights in the nineteenth century. The laws of war and crimes against humanity in the twentieth century will receive particular attention, along with the causes of the emergence of human rights as a goal of political actors across the globe in the late twentieth century.

HIST-309. The History Of Disability. 3 Hours.

This course examines the history of people with disabilities, a minority that makes up a substantial proportion of the U.S.'s and world's populations. The history of disability reveals how societies understand critical issues like civil rights, social identity, gender and sexuality, "normality," or a "healthy" body. Course topics will explore different facets of disability, including medicine, law, culture, and education.

HIST-311A. History Of England To 1688. 3 Hours.

Survey of English history to the revolution of 1688; emphasis on significant themes, such as the evolution of monarchy and parliament, medieval society, the Elizabethan world and constitutional crisis in Stuart England. Required: Two courses in history or consent of instructor.

HIST-311B. History Of England 1688-Present. 3 Hours.

The political, economic and cultural forces that shaped Great Britain. Emphasis on the class structure, the transition to an industrial society, Georgian and Victorian culture, contemporary Britain. Required: Two courses in history or consent of instructor.

HIST-312. Tudor England. 3 Hours.

Major political, social, intellectual and economic trends in sixteenth century England. Required: Two courses in history or consent of instructor.

HIST-313A. History Of Prussia-Germany 1640-1918. 3 Hours.

Study of the evolution of Prussia in the seventeenth and eighteenth centuries with emphasis upon her role in the political and social institutions of Germany, Europe and the world through 1918. Required: Two courses in history or consent of instructor.

HIST-313B. Twentieth Century Germany. 3 Hours.

Study of the problems faced by twentieth century Germany, including the demise of the Weimar Republic and the political and social origins of the Nazi Movement, and the situation of post-war Germany. Required: Two courses in history or consent of instructor.

HIST-314A. Russian History From The Varangians To 1855. 3 Hours.

The Russian people, state and culture from their origins to the death of Nicholas I. Required: Two courses in history or consent of instructor.

HIST-314B. Russian And Soviet History 1855 To Present. 3 Hours.

The political, diplomatic, intellectual and social development of the peoples of the Russian Empire and the Soviet Union from the accession of Alexander II to the present. Required: Two courses in history or consent of instructor.

HIST-315. Women In Medieval Society. 3 Hours.

Survey of the status of women in medieval Europe beginning with the settlement of the barbarians and ending with the high middle ages. Required: Two courses in history or consent of instructor.

HIST-317. French Revolution, World Revolutions 1789-Present. 3 Hours.

Survey of the French Revolution (1789-1795), with the special emphasis on the political and social principles of the Old Regime and the tension between established order and political discontent. Required: Two courses in history or consent of instructor.

HIST-320. Colonial History Of The United States 1607-1775. 3 Hours.

The nature of colonial government, town life, literature, as well as a comparison of the development of major colonies; key personalities of the period, such as Benjamin Franklin, Cotton Mather, Jonathan Edwards and Thomas Jefferson are studied in detail; designed for American history majors. Required: Two courses in history or consent of instructor.

HIST-321. The American Revolution 1763-1789. 3 Hours.

Intensive study of the events leading to American Independence; social and political changes accompanying independence; America under the Articles of Confederation; the writing and adoption of the Constitution. Required: Two courses in history or consent of instructor.

HIST-322. The National Period 1789-1824. 3 Hours.

Study of the formative years of the American Republic from the promulgation of the Constitution in 1789 to the end of the so-called "era of good feelings" in 1824. Required: Two courses in history or consent of instructor.

HIST-323. Jacksonian Era And Sectional Crisis 1824-1860. 3 Hours.

Various political, economic, social and intellectual developments involved in the rise of Jacksonian Democracy; the growth of democracy at the state and national levels, the new conception of the presidency, economic growth; nationalism, sectionalism and the socioeconomic factors leading to the breakdown of constitutional government and the beginning of the Civil War. Required: Two courses in history or consent of instructor.

HIST-324. The Civil War And Reconstruction 1860-1877. 3 Hours.

The inevitability of the U.S. Civil War (1861-1865); the inevitability of the war's outcome; and the terms on which the Confederacy's eleven states, and what was left of the United States, reunited, will all be explored. The end of slavery, and the Reconstruction-era beginnings of black civil rights, are additional important topics. Required: Two courses in history or consent of instructor.

Prerequisite: ENGL-101 minimum grade of C.

HIST-325. Industrial And Progressive America 1877-1929. 3 Hours.

Study of the formative years of modern America from the conclusion of reconstruction, through the Progressive Era and the administration of Herbert Hoover with emphasis on those ideas, institutions and factors which help explain the growth of present urban and industrial America. Required: Two courses in history or consent of instructor.

HIST-326. The Era Of Franklin D Roosevelt 1929-1945. 3 Hours.

In-depth study of the causes and consequences of the Great Depression, the New Deal response to the crisis, and the road to and involvement in World War II, with special emphasis on the leadership of Franklin D. Roosevelt. Required: Two courses in history or consent of instructor.

HIST-327. The United States In The Age Of Crisis 1945 - Present. 3 Hours.

General survey of the political, diplomatic, economic and social forces which have developed in the U.S. since 1945 with particular emphasis on the crisis in domestic America. Required: Two courses in history or consent of instructor.

HIST-328. Surveillance And Privacy In The United States, 1898-Present. 3 Hours.

This course examines the creation of a surveillance infrastructure in the United States and overseas from 1898 to the present, as well as the privacy and civil rights issues that have resulted from surveillance.

HIST-329A. African American History To 1865. 3 Hours.

Thematic survey of the history of Black Americans from the era of slavery to the conclusion of the Civil War with emphasis on racial ideologies, the experiences of both slaves and free people of color, and the abolitionist crusade. Required: Two courses in history or consent of instructor.

HIST-329B. African American History And Race Relations Since 1865. 3 Hours.

Thematic survey of the history of Black Americans from the end of the Civil War to the present day with an emphasis on such topics as Reconstruction, African American thought and experience during the era of segregation, the great Migration and Cultural Renaissance of the 20's and the modern Civil Rights Movement. Required: Two courses in history or consent of instructor.

HIST-329C. Documenting The "Long" Civil Rights Movement. 3 Hours.

This course examines the "long" civil rights movement that extends back in time and reached forward to Black Power and today's Black Lives Matter. The documentary series, *Eyes on the Prize* and more recent documentary films and public history initiatives serve as a means of assessing the crusade for racial justice that reached its most dramatic stages during the 1950s and 1960s.

HIST-330A. U.S. Social History 1607-1865. 3 Hours.

Introduction to the problems of social history, especially social structure, cohesion, conflict and attitudes applied to the development of American sectional societies from the founding of the colonies to the end of the Civil War with special attention to the variety of forms of social organization and the growth of diversity in American culture. Required: Two courses in history or consent of instructor.

HIST-330B. U.S. Social History 1865-Present. 3 Hours.

The social dimensions of nationalization and industrialization, with special emphasis on the decline of geographically defined communities, the rise of communities of interest, rationalization of social structures, and the process of alienation. Required: Two courses in history or consent of instructor.

HIST-331A. Cultural And Intellectual History Of The United States 1607-1865. 3 Hours.

Introduction to the major ideological systems in the colonial and national periods: political and religious philosophy, as well as key individual thinkers. Required: Two courses in history or consent of instructor.

HIST-331B. Cultural And Intellectual History Of The United States 1865 To Present. 3 Hours.

The modern period in intellectual history including social Darwinism, pragmatism and liberalism. Required: Two courses in history or consent of instructor.

HIST-332A. The U.S. In The World, 1776-1914. 3 Hours.

This class examines the close relationship between domestic and foreign policy in American statecraft from the American Revolution up to World War I, addressing many of the social, economic, and ideological impulses that shaped the U.S. as nation-state. The course offers a unique vantage point for tracing the evolution of American society from an agrarian society based on republican values and oriented toward territorial expansion, to an industrial capitalist economy competing with the imperialist Great Powers for global trade and investment outlets at the outset of the 20th century.

HIST-332B. United States Foreign Relations 1914 - Present. 3 Hours.

The United States as a world power, the aftermath of World War I, new relationships with Latin American, Asia and Europe; the United States and the Long Armistice; American involvement in World War II, and the Cold War. Required: Two courses in history or consent of instructor.

HIST-332C. America In The Vietnam Conflict. 3 Hours.

This class focuses on the American involvement in the Vietnam conflict from World War II to the Communist victory in 1975. It will provide a coherent narrative of the conflict from the 1940s when the U.S. began to take an active role in South East Asia. The class will examine the cultural, economic, ideological, political, strategic and military dimensions of the conflict. This broad perspective will explain why the United States eventually embarked on a large scale military campaign in Vietnam by the mid-1960s.

HIST-333. American Ethnic History. 3 Hours.

The role of ethnicity in the development of American history, with special emphasis on the era of industrialization and urbanization including all major ethnic and racial groups, Blacks, American Indians, Hispanics and western and eastern Europeans with attention to the social and cultural experience of slavery, immigration, alienation, social mobility, acculturation and assimilation, politics and discrimination. Required: Two courses in history or consent of instructor.

HIST-334. History Of American Sports. 3 Hours.

The rise of organized sports from its simple pre-modern origins to its present complex state; the evolution of major amateur and professional sports in relation to prevailing historical developments, emphasizing the impact of industrial capitalism and urbanization with attention to the role of ethnic and racial groups, social classes, gambling, gender, politics, international relations and social mobility. Required: Two courses in history or consent of instructor.

HIST-335. History Of Crime And Violence In America. 3 Hours.

Survey of the historic patterns of crime and violence and the evolution of the criminal justice system in the United States from the colonial era to the present day. Required: Two courses in history or consent of instructor.

HIST-336. Work, Money, And Shopping: The History Of Capitalism. 3 Hours.

This course examines the development of capitalism from the eighteenth century until the present. Using sources from history, economics, and political theory, students will explore how capitalist labor, money and finance, and distribution of goods shape our social and political life and intersect with race and gender.

HIST-337. History Of The South 1877 To The Present. 3 Hours.

Intensive study of the politics of the South after Reconstruction; the emergence of the industrial South; the Black's place in this new situation, and the rise of segregation at the turn of the century with particular attention to the problem of the Black American and the value system of the South in light of civil rights consideration. Required: Two courses in history or consent of instructor.

HIST-338. Women In American History. 3 Hours.

Survey, from colonial times to the present, of the role of woman in America including women's reform movements. Required: Two courses in history or consent of instructor.

HIST-339A. Sexuality And Intimacy In America. 3 Hours.

This course studies the political and social histories of sexuality and private life in American contexts, especially what these histories reveal of the workings of power. Topics will include the history of same-sex love, the sexual revolutions and counterrevolutions of the twentieth century, struggles over reproductive rights, changing perceptions of marriage, and the development of homosexual identity politics.

HIST-340. History Of U.S. Economic Institutions. 3 Hours.

Historical changes from regional markets to national and multinational markets and responses in business institutions, land policies and agriculture; organizations for trade and commerce and for workers; impact of pacesetting industries. Required: Two courses in history or consent of instructor.

HIST-341. Issues In 20th Century Business History. 3 Hours.

Topics in the history of organizational changes in the workplace and the corporation; the relationship between government and business; the non-profit sector and philanthropy; the business of mass media. Required: Two courses in history or consent of instructor.

HIST-342. The City In American History. 3 Hours.

General survey of urban America with emphasis on various topics such as the changing function and character of cities, immigration, reform, and urban planning. Required: Two courses in history or consent of instructor.

HIST-343. Science, Magic, And Religion In History. 3 Hours.

Where does knowledge come from? What authorities do we trust to provide accurate information about human nature, the natural world, or the mysteries of the universe? This course investigates three ways of knowing (or epistemologies) in European and U.S. history: science, magic, and religion. Science has become an important source of knowledge since the Renaissance, while magic and religion lost much authority they once held. However, the relationship between all three ways of knowing has been complex and interdependent into the present day. This course takes a historical approach combined with religious and gender studies, anthropology, and history of science.

HIST-344. The History Of Islamic Spain: 711-1492. 3 Hours.

The course addresses Muslim expansion and rule over Iberians, the development of a hybrid political system, cultural interactions, and causes of the demise of the Moors. This course will evaluate the legacy of Muslim rule in Spanish culture in Europe and in the new world.

HIST-345. Mexican American History. 3 Hours.

An introduction to major themes in the history of Mexicans in America from the colonial era to the present, including discussions of the social, political, and economic conditions Mexicans and Mexican Americans have confronted; examinations of how these conditions differ over time and between regions; and explorations of important issues in contemporary Mexican American history. Surveys a variety of primary and secondary sources from different mediums to offer a better understanding of Mexican-origin populations as immigrants to the United States, internal migrants within the U.S., and settled residents and citizens throughout the nation.

Prerequisites: HIST-111A minimum grade of D and HIST-111B minimum grade of D and HIST-214 minimum grade of D and HIST-215 minimum grade of D.

HIST-346. Environmental History. 3 Hours.

This course examines historical relationships between people—and their economic and political institutions—and non-human nature. Through lectures, discussions, and readings of secondary and primary source materials in history, economics, political science, and the natural sciences, students will examine how people of different races and genders have thought about, used, and been shaped by the natural environment over the last three centuries.

HIST-350. History Of Brazil. 3 Hours.

Survey of the history of Brazil; pre-Columbian roots in the Western Hemisphere, Western Europe's influence, and the present with emphasis on political and economic developments in the last two centuries. Required: Two courses in history or consent of instructor.

HIST-351. Central America And The Caribbean. 3 Hours.

History of Central America and of the major islands of the Caribbean, emphasizing the period since independence and the relation with the United States. Required: Two courses in history or consent of instructor.

HIST-353. History Of Mexico. 3 Hours.

Early Indian civilization; colonial and national periods with emphasis on race relations, the class structure, the church, latifundia, intellectual life, the revolution and the impact of industrialization in the twentieth century. Required: Two courses in history or consent of instructor.

HIST-354. Contemporary Latin America. 3 Hours.

A survey of twentieth century political events and socio-economic factors that have shaped Latin America, beginning with the U.S. intervention in the Spanish-American War to the Age of Privatization. Required: Two courses in history or consent of instructor.

HIST-355. History Of Food And Drink. 3 Hours.

This course explores scholarly approaches to food in a global context. It takes an interdisciplinary approach and draws from fields outside of history to examine the significance of food in a variety of cultural and temporal settings. The last segment of the course focuses on the problems associated with the contemporary industrialized food system.

HIST-356. History Of Revolutionary Movements In Modern Latin America. 3 Hours.

An examination of the origins and processes of revolutionary movements in Latin America since WWII, focusing on Guatemala, Cuba, El Salvador, Peru, Nicaragua, Chile, Colombia, and Mexico. The course looks at the domestic and international factors that have led to revolutionary crises in Latin America and addresses the role of U.S. intervention in the region.

Requirement: Undergraduate students- two courses in history or consent of instructor; Graduate students- Admission to graduate program and consent of instructor.

HIST-360. History Of Pre-Modern China. 3 Hours.

Introduction to the civilizations of China; philosophy, political history, religion, literature, art and material culture with emphasis on both the specific data and broad interpretations of Chinese history. Required: Two courses in history or consent of instructor.

HIST-361. Modern Chinese History. 3 Hours.

Modern Chinese history; institutional and intellectual changes and developments brought about in China by modernization, rebellion, revolution and war. Required: Two courses in history or consent of instructor.

HIST-362. History Of Japan To 1850. 3 Hours.

The development of Japan from its prehistory until the mid-nineteenth century emphasizing the data of Japanese history and the major paradigmatic approaches to its study. Required: Two courses in history or consent of instructor.

HIST-363. History Of Japan Since 1850. 3 Hours.

History of Japan from the mid-nineteenth century, including Japan's opening to the West; the Meiji Restoration, industrialization, constitutional government, imperialism, World War II, the American Occupation and postwar economic, political and cultural developments. Required: Two courses in history or consent of instructor.

HIST-370. Precolonial Sub-Saharan Africa. 3 Hours.

Historical survey of Sub-Saharan Africa until the early nineteenth century with emphasis on such topics as state formation and traditional African politics, the historical significance of African culture, the influence of Christianity and Islam, the slave trade and other consequences of contact with Europe. Required: Two courses in history or consent of instructor.

HIST-371. Nineteenth And Twentieth Century Africa. 3 Hours.

Critical issues in the history of sub-Saharan Africa during the nineteenth and twentieth centuries such as the historical significance of African culture, the structure and function of traditional political institutions, European imperialism, the administration of colonial rule and consequent socioeconomic change, the impact of the world wars, the growth of African nationalist movements and the achievement of independence. Required: Two courses in history or consent of instructor.

HIST-372. History Of Southern Africa, 1800-Present. 3 Hours.

This course covers the major themes in the history of Southern Africa in the last 200 years. The primary focus is on the lives of Africans and how people shaped their world, especially under the strains of colonialism and apartheid, and in their struggle for independence. Although the country of South Africa will occupy a significant place in the course, important processes like industrialization affected the entire region, and surrounding colonies and countries also will be studied. Required: Two courses in history or consent of instructor.

HIST-373. Women & Gender In African History. 3 Hours.

This course examines the related issues of women and gender in Africa, primarily in the last 200 years. Among the major topics it covers are women's experience in agricultural societies and in urban areas, and their roles as traders, laborers, and political leaders. It will also explore differences among women in Africa, for example in social standing, religion, and ethnicity. Required: Two courses in history or consent of instructor.

HIST-380. History Of Christianity. 3 Hours.

Analytical survey of the institutional, social and cultural origins of Christianity and the development of that religion from the ancient world to the present with attention to the dynamics of the relationships between Christianity and the various cultures in which it has been housed. Required: Two courses in history or consent of instructor.

HIST-381. History Of The Second World War. 3 Hours.

Intensive study of the Second World War, in its global aspects and implication, including post-war developments and the cold war. Required: Two courses in history or consent of instructor.

HIST-382. The World In The Twentieth Century. 3 Hours.

Contemporary world developments, including the causes and consequences of the two world wars, their impact on the non-European world, the rise of World Communism, the break up of the colonial empires, etc. Required: Two courses in history or consent of instructor.

HIST-391. Contemporary Historical Problems. 3 Hours.

Exploration and analysis of important current political, economic, social and cultural issues. Consult the schedule of Classes for specific topics. Required: Two courses in history or consent of instructor.

HIST-392. Problems In History. 3 Hours.

Exploration and analysis of topics in history; relevant sources and scholarly research. Consult the Schedule of Classes for specific topics. Required: Two courses in history or consent of instructor.

HIST-393. Capstone Seminar In History. 3 Hours.

The objective of the capstone seminar is for History majors to use the skills they have acquired in History 275 and in their 300-level history courses to write a substantial research paper. Students in the capstone seminar will identify primary and secondary sources and use them to write a research paper that engages an important issue of historical interpretation. Course instructors will choose the course content on a specific historical theme.

HIST-394. Historical Tour. 6 Hours.

Study of the history of a given region or country in conjunction with an on-the-spot investigation of historical and cultural sites and landmarks. Required: Two courses in history or consent of instructor.

HIST-395A. Independent Study In History. 3 Hours.

Intensive study in selected subject and periods of history. Independent Studies require the approval of the instructor, department chair and the College Dean. Required: Two courses in history or consent of instructor.

HIST-395B. Independent Study In History. 2 Hours.

(See HIST-395A for description.) Independent Studies require the approval of the instructor, department chair and the College Dean. Required: Two courses in history or consent of instructor.

HIST-395C. Independent Study In History. 1 Hour.

(See HIST-395A for description.) Independent Studies require the approval of the instructor, department chair and the College Dean. Required: Two courses in history or consent of instructor.

HIST-396. Internship I. 3 Hours.

Situates student interns in workplace positions- museums, research organizations, publishers, advertising agencies, government offices, business corporations, etc. - where historical background, analysis and methodology may be put to practical use. Helps students to improve research skills as well as explore career possibilities. Class consists of at least 8 hours per week at the workplace, in addition to periodic meetings with faculty and other students. Independent Studies require the approval of the instructor, department chair and College Dean.

HIST-401. Historiography And Historical Method. 3 Hours.

Historical understanding; philosophies of history and methods of historical research.

HIST-410. Readings In Medieval History. 3 Hours.

Intensive reading and discussion on a selected topic in Medieval history, such as the Medieval family, church and state, economic organization, the growth of universities, peasant society or feudal society. Consult the Schedule of Classes for the specific topic.

HIST-411. Readings In Early Modern Europe. 3 Hours.

Intensive readings and discussions of aspects of European history during the early modern period.

HIST-412. Readings In English History To 1688. 3 Hours.

Topics in British history until the Glorious Revolution. Consult the Schedule of Classes for specific hours.

HIST-414. Readings In Modern English History. 3 Hours.

Intensive readings and discussion on aspects of the history of Modern England. Consult the Schedule of Classes for specific topics.

HIST-415. Readings In 19th Century Europe. 3 Hours.

Intensive readings and discussion on aspects on nineteenth century European history. Consult the Schedule of Classes for specific topics.

HIST-416. Readings In 20th Century Europe. 3 Hours.

Intensive readings and discussion on aspects of twentieth century European history. Consult the Schedule of Classes for specific topics.

HIST-417. Readings In The History Of Weimar And Nazi Germany. 3 Hours.

Intensive readings and discussion on aspects of Weimar and Nazi Germany.

HIST-420. Seminar In Early Modern Europe. 3 Hours.

Research on various topics in the history of early Modern Europe. A paper based on primary sources is required.

HIST-421. Seminar In English History. 3 Hours.**HIST-422. Seminar In 19th Century Europe. 3 Hours.**

Research on various topics in English history. A paper based on primary sources is required.

HIST-423. Seminar In Modern European Society. 3 Hours.

Research on various topics in the modern history of Europe. A paper based on primary sources is required.

Prerequisite: HIST-401 minimum grade of C.

HIST-424. Seminar In Impact Of War/Revolution In Europe. 3 Hours.

Research on various topics related to war, revolution and their consequences for European history. A paper based on primary sources is required.

HIST-430. Readings In Colonial America. 3 Hours.

Intensive readings and discussion on aspects of Colonial American history.

HIST-431. Readings In The American Revolution. 3 Hours.

Intensive readings and discussion on aspects of the American Revolution.

HIST-432. Readings In Early National America. 3 Hours.

Intensive readings and discussion on aspects of the Early National Period.

HIST-433. Readings In 19th Century America. 3 Hours.

Intensive readings and discussion on aspects of nineteenth century American history.

HIST-434. Readings In 20th Century America. 3 Hours.

Intensive readings and discussion on aspects of twentieth century America. Consult the Schedule of Classes for specific topics.

HIST-435. Readings In Cultural And Intellectual U.S. History. 3 Hours.

Intensive readings and discussion on aspects of American cultural and intellectual history. Consult the Schedule of Classes for specific topics.

HIST-436. Readings In Women's History Of The United States. 3 Hours.

Intensive readings and discussions of American Women's history. Consult the Schedule of Classes for specific topics.

HIST-437. Readings In Afro-American History. 3 Hours.

Intensive readings and discussion on aspects of Afro-American history. Consult the Schedule of Classes for specific topics.

HIST-439. Readings In American Social History. 3 Hours.

Intensive readings and discussion on aspects of American social history. Consult the Schedule of Classes for specific topics.

HIST-440. Seminar In Colonial America. 3 Hours.

Research on various topics in Colonial American history. A paper based on primary sources is required.

HIST-441. Seminar In The American Revolution. 3 Hours.

Research on various topics in the American Revolution. A paper based on primary sources is required.

HIST-442. Seminar In Early National America. 3 Hours.

Research on various topics in the Early National Period. A paper based on primary sources is required.

Prerequisite: HIST-401 minimum grade of C.

HIST-443. Seminar In 19th Century America. 3 Hours.

Research on various topics in nineteenth century America. A paper based on primary sources is required.

HIST-444. Seminar In 20th Century America. 3 Hours.

Research on various topics in twentieth century America. A paper based on primary sources is required.

Prerequisite: HIST-401 minimum grade of C.

HIST-445. Seminar In Cultural And Intellectual U.S. History. 3 Hours.

Research on various topics in American cultural and intellectual history. A paper based on primary sources is required.

HIST-446. Seminar In Women's History Of The U.S.. 3 Hours.

Research on various topics in the history of American women. A paper based on primary sources is required.

HIST-447. Seminar In Afro-American History. 3 Hours.

Research on various in Afro-American history. A paper based on primary sources is required.

HIST-449. Seminar In American Social History. 3 Hours.

Research on various topics in American social history. A paper based on primary sources is required.

HIST-450. Readings In Colonial Latin America. 3 Hours.

Intensive readings and discussion on aspects of colonial Latin America to 1825.

HIST-451. Readings In Modern Latin American History. 3 Hours.

Intensive readings and discussion on aspects of Modern Latin America, since 1825.

HIST-452. Seminar In Latin American History. 3 Hours.

Research on various topics in the history of Latin America. A paper based on primary sources is required.

HIST-453. Seminar In The History Of Mexico. 3 Hours.

Research on various topics in the history of Mexico. A paper based on primary sources is required.

HIST-460. Readings In Modern Japanese History. 3 Hours.

Intensive readings and discussion on the development of the modern Japanese state and society since the nineteenth century.

HIST-461. Readings In Classical Chinese History. 3 Hours.

Intensive readings and discussion Chinese history from the Archaic Shang period (c. 1200 B.C.) through the seventeenth century.

HIST-463. Readings In Modern Chinese Social History. 3 Hours.

Intensive readings and discussion on various aspects of modern Chinese history from the nineteenth century to the present.

HIST-470. Graduate Readings In African History. 3 Hours.

This course is designed to provide the graduate students in history an introduction to the field of African history. Students will explore issues of sources and approaches which make African history distinct from other fields. Students will trace the development of African History in the last few decades, examine some of the major subjects and study the most recent works to see where the field is headed.

HIST-471. Seminar In African History. 3 Hours.

Prerequisites: HIST-401 minimum grade of C and HIST-470 minimum grade of C.

HIST-475. Readings In 19th Century Islamic Middle Eastern History. 3 Hours.

Through intensive reading, students will learn about the social, economic, and political conditions of the Islamic world in the Middle East in the nineteenth century. The course will focus on concepts such as modern nationalism, Islamic intellectual reform, and European colonialism.

HIST-480. Readings In History. 3 Hours.

Exploration and analysis of topics in history. Consult the Schedule of Classes for specific topics.

HIST-480A. Readings In History: Race, Ethnicity & Nationalism. 3 Hours.

Exploration and analysis of topics in history. Consult the Schedule of Classes for specific topics.

HIST-490. Independent Graduate Study In History. 3 Hours.

Intensive and guided study in selected subjects and periods of history. Independent Studies require the approval of the instructor, department chair and the appropriate College Dean.

HIST-496. Internship. 3 Hours.

Situates student interns in workplace positions- museums, research organizations, publishers, advertising agencies, government offices, business corporations, etc. - where historical background, analysis, and methodology may be put to practical use. Helps students to improve research skills as well as explore career possibilities. Class consists of at least 15 hours per week at the workplace, in addition to periodic meetings with faculty and other students. Independent Studies require the approval of the instructor, department chair, and appropriate College Dean.

HIST-5901. Thesis Hours. 1 Hour.

Guidance of students conducting research and writing a thesis to fulfill requirements for the Master of arts degree in History. Independent Studies require the approval of the instructor, department chair and the appropriate College Dean.

HIST-5902. Thesis Hours. 2 Hours.

See course description for HIST-5901.

HIST-5903. Thesis Hours. 3 Hours.

See course description for HIST-5901.

Major in History

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Major in History for the Bachelor of Arts Degree

Code	Title	Hours
Required Courses		
HIST-111A	World History: The Origins Of The West, To 1500	3

HIST-111B	World History: The West And The World, 1500-Present	3
HIST-214	United States History 1607-1877	3
HIST-215	United States History 1877-Present	3
HIST-275	Writing Intensive Program: Writing And Methods For Majors ¹	3
or HIST-300W	Writing Intensive Program: The Historian's Craft	
One course in non-European and non-United States History at the 100-level: 111C, 111D, 111E, or 111F.		3
Six courses chosen from 300-level electives in history with the approval of an advisor. One of these must be in non-European, non-United States History.		18
Total Hours		36

¹ This course must be taken as soon as possible after the declaration of the History major.

Students should also be aware of the University requirements for the Bachelor's degree, in particular all history majors must take a history writing intensive course.

Students wishing to be licensed for teaching history in secondary schools should consult the Secondary Education section of this catalog. Students seeking licensure to teach United States history are required to complete 8 semester hours in U.S. history.

All history majors are required to establish an Assessment Portfolio with the Departmental secretary before graduation. The purpose of this portfolio is solely to assess the effectiveness of the history curriculum in meeting the goals of the major. The portfolio will consist of either one research paper of at least 10 pages in length, or three theme papers of 3-5 pages in length (book reviews are not acceptable). The paper(s) must have been written for course work in history at Northeastern. Although student papers will not be graded and will only be assessed for statistical purposes, students are nonetheless encouraged to submit their best work for evaluation. STUDENTS ARE THEREFORE ADVISED TO KEEP COPIES OF ALL APPROPRIATE HISTORY PAPERS (or they may deposit copies of their papers with the departmental secretary at the time such papers are handed back by their instructors).

This sample curricular map is provided to guide you in the planning of your progression for this major. This guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor.

First Year

Master of Arts in History

Master of Arts in History

REQUIREMENTS FOR ADMISSION TO THE PROGRAM:

Applicants must fulfill the general requirements for admission to the Graduate College. In addition, they must have completed a minimum of 24 credit hours in undergraduate history. (Those who do not meet this requirement may petition the Department's Graduate Advisor in writing for admission.) Applicants must also submit to the Graduate Advisor a graded paper written for an upper division, undergraduate course, preferably in history. (Those who cannot meet this requirement may also petition the Graduate Advisor in writing for admission.) The Department recommends prospective applicants meet with the Graduate Advisor for assistance in planning their graduate program.

Requirements for the Degree:

For students admitted to Master's Programs for the Fall 1997 semester and thereafter, all graduate credits must be at the 400 level, except for a limited number of 300 level courses specifically approved for graduate degree credits in a given Master's degree program. Departments may permit students to apply up to three of these 300 level courses, to a maximum of ten credit hours, to fulfill program requirements. This policy applies to all students entering graduate degree programs beginning with Fall 1997. **Consult with your program advisor or the Graduate College for details.**

Students have the choice between two options.

Thesis Option

Code	Title	Hours
Required Courses		
HIST-401	Historiography And Historical Method	3
Select six graduate-level history electives (2 may be in related fields) chosen in consultation with the Graduate Advisor		18
Select two graduate research seminars		6
Thesis Hours - a total of six hours from 5901, 5902, 5903		6
Total Hours		33

NOTE: Students must pass an oral examination on their thesis.

Non-Thesis Option

Code	Title	Hours
HIST-401	Historiography And Historical Method	3
Select six graduate-level history electives chosen in consultation with the graduate advisor		18
Select two electives in history or another relevant field chosen in consultation with the graduate advisor		6
Select two graduate research seminars		6
Total Hours		33

Minor in History

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)* 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6
Humanities (HU)* 3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	9
Behavioral/Social Sciences (SB)* 3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	9
Natural Sciences (NS and NSL)** 3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	9

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Minor in History (18 credit hours)

Six history courses (18 credit hours) of which a minimum of nine credit hours must be earned at the 300-level, chosen in consultation with a departmental advisor.

Students in the Elementary Education and Early Childhood Education programs who have selected this minor must complete a minimum of 9 hours at the 300-level to meet graduation and certification requirements.

Justice Studies

In Justice Studies, we seek to discover the social and historical roots of justice and injustice and examine how popular understandings of these shape public policies, including those of the criminal justice system. We study systematic explanations for the failure (or triumph) of justice in society and explore the potential for transformative justice. Through critical inquiry, social science investigation, and experiential learning, students develop an understanding of social and economic justice issues and critical criminology. We study the structural roots of crime and take up the legal and social concerns of socially disenfranchised communities whose members are often clients of the criminal justice system, including the poor, people of color, women, LGBTQ persons, prisoners, immigrants, and refugees.

The program makes a special effort to involve and serve community groups. Field experience, focusing on advocacy for community justice and the ethics that inform those practices, complements the academic program.

The Justice Studies major prepares students for human and social service work, research or advocacy positions, law school or graduate school. Criminal justice practitioners who wish to develop a comprehensive understanding of social justice and social policy will find the program well-suited to their needs.

- Major in Justice Studies (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/justice-studies/justice-studies/>)
- Minor in Social Justice (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/justice-studies/minor-social-justice/>)
- Minor in Criminology (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/justice-studies/minor-criminology/>)
- Minor in Child Advocacy Studies (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/child-advocacy-studies/>)

Maria E. De La Torre, Ph.D., Associate Professor, Acting Chair

Rachel Birmingham, Ph.D., Associate Professor

J. Adrian Castrejon, Ph.D., Assistant Professor

Nancy Matthews, Ph.D., Professor

Adam Messinger, Ph.D., Associate Professor

Theophilus Okosun, Ph.D., Professor

JUST-101. Introduction To Social Justice. 3 Hours.

Examines the theme of justice as a foundational goal of all social institutions in a democracy. Introduces students to critically examining social injustices, especially in institutions and social structures. In order to arrive at a vision and practice of justice we will study those "acceptable" injustices through the lens of justice and equality for all.

JUST-109. First Year Experience: Justice In Chicago. 3 Hours.

Using Chicago as a lab, students will experience justice in many forms, from courthouse visits and artistic expressions, to discussions with attorneys, judges, and formerly incarcerated persons. In this course, the five foundations of the First-Year Experience (Future Planning, Integral Preparation, Research, Self-discovery and Transitions) are interwoven with the introductory concepts and terminology of the criminal and social justice systems to provide first-year students with an opportunity to critically examine social injustices in institutions and social structures through a critical lens.

JUST-201. Introduction To The Criminal Justice System. 3 Hours.

Overview of police, court and prison practice with attention to class, race and sex discrimination in the criminal justice system. Emphasis on the relationship between crime and key political and economic structures.

JUST-202. Writing Intensive Program: Justice And Inequality. 3 Hours.

This course focuses on the unfair and unequal treatment occurring in contemporary U.S. society based on people's race, gender, sexual orientation, and class. The course analyzes the ways in which race, class, gender, and sexual orientation work as interlocking systems of privilege and disadvantage affecting all of us. The course also focuses on biases and discrimination in the criminal justice system and in the delivery of justice. Discussions will also identify strategies for reducing injustice. This course fulfills the Writing Intensive Program (WIP) graduation requirement for Justice Studies majors.

Prerequisites: JUST-101 minimum grade of C and ENGL-101 minimum grade of C.

JUST-301. Theories Of Justice And Social Change. 3 Hours.

Explores general theories of social change, such as social evolutionism and historical materialism and the relationship between social change and the pursuit of justice. The starting point is unjust social structures and processes, leading into analysis of how social change occurs, especially through social movements.

Prerequisites: JUST-101 minimum grade of C and JUST-202 minimum grade of C.

JUST-305. The Carceral State: A Contemporary System Of Punishment And Control. 3 Hours.

This course extends students' understanding of mass incarceration and the current state of the criminal legal system by introducing a theoretical understanding of the Carceral State as a system of control and punishment. This course examines the Carceral State through an intersectional framework that considers the relationship between punishment and criminalized identities, such as race, ethnicity, nationality, gender, sexuality, class, and ability. The course focuses on prison abolition work as a response to dismantling the Carceral State.

Prerequisite: JUST-313 minimum grade of C.

JUST-307. Prisoner Reentry Systems. 3 Hours.

This course examines how the prison reentry system works, the causes of recidivism, and how recidivism rates could be lowered. Students will gain applied knowledge of how the criminal justice system works and of patterns of incarceration and release, as well as trends in prisoner reintegration.

Prerequisite: JUST-313 minimum grade of C.

JUST-309. Portrayal Of Crime In Media. 3 Hours.

Analysis of the media's presentation of crime with attention to the historical development of the portrayal of crime and its effect on current public attitudes regarding "crime" and the "criminal." Various forms of the media are individually considered, most notably television, film, and newspaper.

JUST-311. Women, Crime, And The Criminal Justice System. 3 Hours.

This course explores the position of women in society; theories of female criminality; crimes committed by and against women, such as prostitution, rape, physical and psychological abuse, and forced sterilization; the treatment of women by various social and criminal justice agencies.

JUST-312. Theories Of Criminal Behavior. 3 Hours.

Historic overview of theories of crime from the classical school to currently popular viewpoints including Marxist and radical theories with emphasis on the relationship between theory and criminal justice policy formulation.

Prerequisite: JUST-101 minimum grade of C or JUST-201 minimum grade of C.

JUST-313. Prisons And Jails. 3 Hours.

Study of the historic development of prisons focusing on current practice and emphasizing consequences of expanding the prison population and community based alternatives to incarceration.

JUST-314. Police In The Minority Community. 3 Hours.

Overview of the social, political and economic consequences resulting from historical and contemporary treatment of U.S. minorities by law enforcement personnel with emphasis on the development of policy focusing on police methodology in controlling and creating levels of crime within urban areas. Theoretical and practical issues involving bias, discretion and excessive force.

JUST-316. Crime, Violence And Culture. 3 Hours.

Exploration of interpersonal and structural violence and aspects of culture that promote it. The course considers: the criminalization of some and tolerance of other violence; competing theories of violence; and strategies for reducing and preventing violence.

JUST-317. White Collar Crime & Elite Deviance. 3 Hours.

This course examines the problems of defining crimes of the elite, theories related to white collar crime and elite deviance, and the impact of white collar crime and elite deviance on society and justice. We also examine the impact of social institutions upon white collar crime and elite deviance, reactions to these and the forms of punishment available.

JUST-318. Gangs In Chicago. 3 Hours.

This course provides an analysis of the history of, and theories about, gangs in Chicago. It examines how and why gangs develop, how they are structured, their gradual development, and how societal injustices impact the development of gangs generally, and in Chicago.

JUST-319. Latinos/as & The Criminal Justice System. 3 Hours.

Examines the relationship between Latinos/as and the criminal justice system. Issues addressed are what distinguishes Latinos/as from other racial and ethnic groups in the criminal justice system? What sociological and criminological theories can explain these differences. Key variables that are discussed are historical context, race and ethnic relations, current criminal justice policies.

JUST-321. Violence Against Women. 3 Hours.

Overview of the legal, sociological, psychological and medical aspects of rape, battering and related forms of gendered violence. Explores social and cultural context of violence against women, changing definitions of violence and the criminalization of sexual assault and family violence and response to violence, including the anti-rape and battered women's movements.

JUST-322. Women, Justice And The Law. 3 Hours.

A discussion of justice and its intersection with gender. The course focuses on federal statutes and their interpretation, on sexual harassment and employment and state statutes focusing on family law and criminal law.

JUST-323. Introduction To Child Advocacy Studies. 3 Hours.

This course provides a survey of the emerging field of Child Advocacy Studies, which researches and seeks remedies for the maltreatment of children and youth, including specific acts of violence and neglect, in the context of the pernicious effects of racism, poverty, sexism, and heterosexism, including the unique problems faced by immigrant and displaced children. The course examines the various economic, political, social and cultural circumstances that may contribute to the abuse and maltreatment of children and youth. It also teaches students about the strategies and tactics used by various local governmental and nongovernmental agencies, courts and medical establishments to address these problems.

JUST-324. Women As Political Prisoners. 3 Hours.

This course examines the three areas in which women can be defined as political prisoners: 1) women imprisoned for political acts; 2) women imprisoned for self-defense measures; 3) women imprisoned for petty 'economic' crimes such as prostitution.

JUST-325. Women And Revolution: Theories Of Justice. 3 Hours.

Theories of justice informing revolutionary practice with attention to the role played by women in revolution, especially in liberation struggles in Central America.

JUST-326. Juvenile Justice System. 3 Hours.

Socio-economic analysis of the history of the juvenile justice system in an effort to understand how the system functions and whom it serves.

JUST-328. Social Justice & LGBTQ Issues. 3 Hours.

This course explores lesbian, gay, bisexual, transgender and queer social justice issues. Students will study LGBTQ issues and theories in the context of both historic and contemporary social justice practices. This will include an examination of race, class, gender, and ethnicity in LGBTQ communities, along with a discussion of legal, social, and political steps taken and contemplated to end the oppression of LGBTQ people.

JUST-329. Politics Of Punishment. 3 Hours.

Exploration, from a global perspective, of the history, development and philosophies of punishment and of the debate within the United States and the countries of Western Europe over the purpose of correctional institutions.

JUST-330. Legal Research And Bibliography In Criminal Law. 3 Hours.

Study of basic reference and source materials. Visits to law libraries are required. Presentation of a written and oral argument.

Prerequisites: JUST-201 minimum grade of C and JUST-202 minimum grade of C and ENGL-101 minimum grade of C.

JUST-331. Law And Racism In America. 3 Hours.

The nature of racism, its essential features and their relationship to the legal, social and economic practices in the United States.

JUST-332. Race & Ethnic Relations. 3 Hours.

Course provides critical examination of the social construction of race focusing on how ethnicity, ancestry and phenotype are used historically to separate people. Students explore concepts, theoretical perspectives, and research patterns of cooperation and conflict between different racial and ethnic groups. Sources of prejudice, discrimination, power relations and stratification are discussed. Students examine contemporary problems and issues in the area of racial and ethnic relations and global justice.

Prerequisites: JUST-101 minimum grade of C and JUST-202 minimum grade of C.

JUST-333. Community Law. 3 Hours.

General introduction to the impact of law on the public: consumer law, family law and individual rights.

JUST-334. Criminal Law And Procedure. 3 Hours.

The basic principles of American criminal law, current issues and controversies surrounding the criminal justice process, and the constitutional rights of the accused.

JUST-335. Legal Process I. 3 Hours.

Analysis of common law and the role of precedent with emphasis on appellate courts, particularly the U.S. Supreme Court.

JUST-336. Postmodern Law & Criminology. 3 Hours.

This course will introduce the core concepts of postmodern analysis and their application to law, criminology and social justice. It will be a challenge to modernist thought that has dominated the social sciences whose basic assumptions evolved from the Renaissance period. Discourse analysis and chaos theory along with other emerging perspectives will be explicated. Causation, the subject, objectivity, order, linearity, neutrality of language, rationality, universals, among others, will be re-thought via postmodern analysis.

JUST-337. Workers' Rights Clinic. 3 Hours.

The Workers' Rights Clinic will critically examine theoretical, legal and practical aspects of workers' rights and acknowledges the dynamics of the employer-employee power relationship. Readings and classroom activity will ground students in doctrinal aspects of workers rights and the laws governing employment relationships. Students will attend and observe court and administrative and worker related legal cases such as employment termination, discrimination and wage litigation pending in state and federal courts and/or federal, state and municipal administrative agencies. Students will observe courtroom proceedings, examine court papers, and engage with lawyers, judges, court personnel, workers and clients.

JUST-338. Introduction To Human Rights. 3 Hours.

This course provides an introductory overview to human rights. Human rights are examined from several different points of view: as a legal and moral discourse in which justice claims are expressed; as an international regime consisting of many different treaties, legal bodies, United Nations agencies and non-profit organizations which seek to prevent, investigate, and punish human rights violations; as a global social movement that promotes minimum universal standards of human dignity and respect; as a contested philosophical concept that is compared and contrasted with other types of moral claims; and as an increasingly important strategy being used by various communities in the United States to overcome many different types of social injustice. The main human rights organizations and their methods of working will be explained. Each student will also get an opportunity to research one human rights issue in depth.

JUST-339. Tenant's Rights Clinic. 3 Hours.

Under the supervision of a licensed attorney, students study issues relating to landlord/tenant disputes and conflicts. Students are trained to define and negotiate such problems.

JUST-340. Sociology Of Law. 3 Hours.

This course concerns the development of law in society. We cover: historical development of law; functions of law; the connection between political economy and law; various perspectives in studying law; classical thinkers; current and emerging thought; the emergence of lawyers and their language and form of reasoning; the emergence of legal rights and the legal subject; substantive biases of law (gender, race, class, intersectional); how "realities" are constructed in the courtroom; and freedom and coercion in law.

JUST-343. Conflict Transformation. 3 Hours.

Conflict is part of human daily experience. When properly managed, it can lead to awareness, growth, and better human relationships. However, when misdiagnosed and mismanaged, it can sour things and destroy relationships. It also leads to intra and interpersonal, intra- and inter-group/organizational violence, as well as large scale intra-state and international violence. This course explores the connection between justice, peace, and conflict by seeking to understand social conflict and the mechanisms used in its transformation. We begin by examining the theories of conflict analysis and resolution and conclude by exploring methods and best practices.

JUST-345. Practicum In Justice Studies. 3 Hours.

Specific skills necessary for entry level agency/community work.

Prerequisites: JUST-202 minimum grade of C and JUST-101 minimum grade of C and JUST-241 minimum grade of C and JUST-301 minimum grade of C.

JUST-346. Introduction To Oral History For Communities. 3 Hours.

This course introduces students to oral history, a practice that has expanded to many disciplines for its ability to providing information on aspects of life missing from documentary sources and offering different perspectives on historical events and processes. Notably, oral history is used in recovering the experiences of ordinary people. Students will gain knowledge and skills for engaging people in communities in telling their own stories. Students will learn the principles of oral history methodology by analyzing theoretical, ethical, and practical challenges interviewers and researchers face. Students will also learn basic skills on interviewing, transcribing, and abstracting oral histories.

Prerequisite: JUST-241 minimum grade of C or LLAS-290 minimum grade of C.

JUST-347. Restorative Justice Theories And Practices. 3 Hours.

Restorative Justice (RJ) is one of several umbrella concepts gaining in prominence in the Justice Studies arena. It refers to philosophical strategies and diverse practices to resolve conflicts in a way that is less litigious than traditional, adversarial legal proceedings. This course will introduce students to the origins, theories, controversies and practices of restorative justice—both past and present—as an alternative response to harm. It will also interrogate such questions as: When is it appropriate to forgive rather than to punish? What all is entailed in coming to forgiveness, both for the perpetrator and the victim? Students will come to understand the meaning of restorative processes by examining the ways in which they are practiced around the world.

JUST-348. Research Methods In Justice Studies. 3 Hours.

This course introduces majors to quantitative and qualitative research methods used in the social sciences with a focus on Justice Studies issues. Students develop analytical skills through learning how researchers construct and use data to answer questions about human behavior, beliefs, and institutions.

Prerequisites: (JUST-101 minimum grade of C or JUST-201 minimum grade of C) and MATH-090 minimum grade of C.

JUST-350. Field Work Seminar. 6 Hours.

Application of the specific skills learned in the practicum, as well as other classroom theories and concepts, in an agency/ community setting. 180 volunteer hours at work in the field and a 1 1/2 hour weekly seminar.

Prerequisite: JUST-345 minimum grade of D.

JUST-351. Advocating For Social Justice In Illinois. 3 Hours.

This course provides students with a practical introduction to advocating for social justice in Illinois. It is taught from the perspective of marginalized communities that historically have been significantly less able to influence elected officials by donating large sums of money. However, these communities have been able to impact public education, legislation and policy formation/implementation through strategic injections of expertise, organizing, smart coalition building, access to media, litigation, direct action and other techniques. The course will include analyses of such issues as: the legislative process at the local and state levels, an introduction to the players; how to follow the money; the types of power such communities are up against in Chicago and suburbia; strategies to access media and produce a coherent message; the necessity of and methods to reframe and label issues; and the use of organizing, coalition-building, direct action, the courts, initiatives and referendum.

Prerequisites: JUST-101 minimum grade of C and JUST-202 minimum grade of C.

JUST-352. Economic Justice. 3 Hours.

In this course students will analyze economic issues and related inequalities in the context of theories of social justice. Students will learn causes of such injustices and practical strategies to reduce them.

JUST-355. LGBTQ Communities & Crime. 3 Hours.

Research indicates that lesbian, gay, bisexual, trans, and queer (LGBTQ) identities are stigmatized and even criminalized in many nations, LGBTQ individuals are at a heightened risk of crime victimization and face barriers to receiving help, and heterosexism and transphobia play integral roles in the perpetration of crime by LGBTQ individuals as well as in how criminal justice systems respond to them. By applying social justice and criminological lenses, students in this course will explore the nature of and potential resolutions to crime related to LGBTQ people, both in the United States and globally.

JUST-357. Social Justice, Mental Health, And The Law. 3 Hours.

Though one of six Americans suffers from some form of mental illness, there has been little progress in the last fifty years in our protection and treatment of patients who suffer from mental illness. In this course, students will learn about the laws, rights, and treatment of mental illness. They will explore the definitions of mental illness and the stigma and discrimination which ensues for those who are labeled. Students will also examine the arbitrariness of labels and diagnosis in the mental health system, and the devastating impact that this labeling can have on patients and their families.

JUST-361. Five-Hundreds Years Of Resistance. 3 Hours.

This course is a basic study of the over 500-year history of colonization imposed by Europeans and Euro-Americans. It also examines indigenous resistance to colonization and globalization. In this course, critical thinking and reasoning are introduced through the evaluation of historical developments, key contributors, and principle issues of resistance and revolutionary theory.

Prerequisite: JUST-202 minimum grade of C.

JUST-362. Justice Issues In Africa. 3 Hours.

Having lived/living through probing explorers, colonists, imperialists, and natural resources hunters, Africa has also attracted good intentioned development and international collaboration. Even though independence gained from Western nations has improved self-determination in some of its 53 countries, the struggle for justice continues to dominate many political and social activities. This course examines factors that generate inequalities in South Africa; conflict, race, class, ethnic, gender violence, post-apartheid dynamics, neoliberal politics, access, housing, the environment, and exploitation issues in the light of global democracy and social justice.

Prerequisite: JUST-101 minimum grade of C.

JUST-363. Globalization And The Pursuit Of Justice. 3 Hours.

We live in a world interconnected through economics, politics, communications, entertainment and migration. This course explores the emergence of globalization in its contemporary form, and its implications for the lives of everyday people in the global north and south, east and west. Through case studies, we will examine how globalization affects movements for democracy and justice, and vice versa.

Prerequisite: JUST-101 minimum grade of C.

JUST-364. Terrorism In Media & Law. 3 Hours.

Whether used by governments, militaries, corporations, religious institutions, gangs or individuals, terror is an intense overpowering fear caused by the threat and use of violence. This course examines five categories of terrorism. One case study explores how the US responded to 9/11 by framing a long term "War of Terror." Students will learn how to analyze the constantly changing images, propaganda, and tropes manufactured by media to know how to distinguish between terrorists, and those who use violence to defend themselves from aggression and invasion. Also covered are how terrorism is addressed in law; how terrorism impacts institutions/practices; causes of terrorism; ways to prevent/stop terrorism.

Prerequisites: JUST-101 minimum grade of C and JUST-202 minimum grade of C.

JUST-370. Immigration In Global Perspective. 3 Hours.

This course looks at contemporary international population movements and state policies in highly developed countries through the prism of social justice. The course provides an overview of the major theories explaining the nature, causes and consequences of migration including key dimensions such as control policies, integration, security, and citizenship. The course also analyzes current public conversations debating unauthorized immigration, assimilation, and membership and belonging. Through readings, lectures, videos and newspaper articles the course offers students tools for a critical understanding of migration by addressing questions of justice such as the rights of people to mobility, to work, to equality and to inclusion.

JUST-371. U.S. Immigration Policy & Human Rights In The Americas. 3 Hours.

Historical overview of United States' relations with the Americas as these structure economic and security interests in the region and influence regime change, human rights violations, and immigrant and refugee flows. Analysis of contrasting U.S. immigration and refugee policies.

JUST-382. Social Justice & Literature. 3 Hours.

Writers and artists often reflect and inspire major social realignments and radical shifts in the social structure. They have a unique lens with which to focus on society and institutions of power. This course explores the work of several writers and filmmakers to understand how their works mirrored and ignited aspects of social justice. It analyzes how artistic works serve as social critique to enable or inspire social protest and change. The course traces the author's/filmmaker's point of view in each work studied, and examines how they developed their central themes through plot and character.

JUST-383. Social Justice And The Visual Arts. 3 Hours.

Visual artists are important critics of institutions of power and social inequality. Through an exploration of visual media, students will gain insights into issues of power and social inequality based on gender, class, race and sexual orientation. Students will analyze visual media and images utilizing social justice theories, and compare and contrast different visual media to consider their relevance to social change.

Prerequisite: JUST-101 minimum grade of C.

JUST-390. Social Justice And The Environment. 3 Hours.

This course is a comprehensive overview of the connections between environmental justice, social justice, and animal ethics. The topics will be viewed from the following perspectives: 1) Justice and Sustainability; 2) Poverty, Economic Development and Environmental Justice; 3) Eco-Feminist Perspectives on Environmental Justice; 4) Native American Perspectives 5) Animal Ethics and the Relationship to Environmental Justice; and 6) Environmental Law.

JUST-391. Independent Study In Social Justice. 1 Hour.

This course provides a student with the opportunity to undertake an individualized investigation into a topic of the student's choice, under the personalized supervision of a Justice Studies faculty member. The student must fill out the Justice Studies' department's Independent Study form and get the project approved two weeks before the semester begins. Justice Studies major with GPA of 3.0 or above. Approval of instructor, Chair and College Dean required.

Prerequisite: JUST-241 minimum grade of C.

JUST-392. Independent Study In Social Justice. 2 Hours.

This course provides a student with the opportunity to undertake an individualized investigation into a topic of the student's choice, under the personalized supervision of a Justice Studies faculty member. The topic cannot duplicate what is taught in a regularly offered course. The student must fill out the Justice Studies' department's Independent Study form and get the project approved two weeks before the semester begins. Justice Studies major with GPA of 3.0 or above. Approval of instructor, Chair and College Dean required.

Prerequisite: JUST-241 minimum grade of C.

JUST-393. Independent Study In Social Justice. 3 Hours.

This course provides a student with the opportunity to undertake an individualized investigation into a topic of the student's choice, under the personalized supervision of a Justice Studies faculty member. The topic cannot duplicate what is taught in a regularly offered course. The student must fill out the Justice Studies' department's Independent Study form and get the project approved two weeks before the semester begins. Justice Studies major with GPA of 3.0 or above. Approval of instructor, Chair and College Dean required.

Prerequisite: JUST-241 minimum grade of C.

JUST-395. Hunger & Homelessness. 3 Hours.

This class focuses on the lives of people who are underfed, homeless or in precarious housing. Examined are paths to poverty and how poverty is lived in America. Also explored are the structural barriers that prevent one from leaving poverty. These issues are looked at from a variety of perspectives that are introduced through readings, service learning, and guest speakers. One of the perspectives from which hunger and homeless is explored is from the point of view of advocacy: i.e., how can one advocate for homeless people? What assumptions underlie such advocacy?.

Major in Justice Studies

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Major in Justice Studies for the Bachelor of Arts Degree

All Justice Studies majors take six required courses plus eighteen credit hours of electives. Please consult your advisor about the sequence of courses. All students must take a writing-in-the-discipline, "WIP" class. JUST-202 fulfills this requirement.

Code	Title	Hours
Required Courses		
JUST-101	Introduction To Social Justice	3
JUST-202	Writing Intensive Program:Justice And Inequality	3
JUST-301	Theories Of Justice And Social Change	3
JUST-348	Research Methods In Justice Studies	3
Electives (six additional courses in Justice Studies)		18
JUST-345	Practicum In Justice Studies	3
JUST-350	Field Work Seminar	6
Total Hours		39

NOTE: A maximum of nine (9) transfer credit hours in Justice Studies-, Criminal Justice-, or Criminology-oriented courses can be transferred in from other colleges and/or universities toward the major, subject to the approval of a faculty advisor. These courses will usually be counted as electives. All electives in Justice Studies should be selected in consultation with a faculty advisor and chosen in an area of concentration related to the student's academic and career interests.

JUST-339 Tenant's Rights Clinic, JUST-395 Hunger & Homelessness, and JUST-337 Workers' Rights & Human Rights, meet the University Core Curriculum requirements for Boundary Crossing Experiential Learning Experience (ELE-X) classes, and can be taken by all NEIU students, including Justice Studies majors. JUST-350 Field Work Seminar is an ELE class offered only to Justice Studies majors.

This sample curricular map is provided to guide you in the planning of your progression for this major. This guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor.

Latina/o and Latin American Studies

The Latina/o and Latin American Studies (LLAS) Program of Northeastern Illinois University provides academic and experiential opportunities to foster a comprehensive understanding of Latino, Latin American and Caribbean peoples and their relationship to each other, the United States, and the world. The program builds on the University's commitment to diversity and community partnerships as it promotes pride in the values of diverse ethnic heritages. Through the coordination of diverse offerings of various departments, the program fosters an interdisciplinary approach to provide students with concepts and skills to interact effectively and constructively in a multicultural context.

Patricio Rizzo-Vast, Instructor, World Languages and Cultures

Brett C. Stockdill, Ph.D., Professor

LLAS-101. Introduction To Latino & Latin American Studies. 3 Hours.

This course is an introduction to Latino and Latin American Studies. It explores the diverse origins and conditions of the multiple groups encompassed by the terms "Latino" and/or "Hispanic." The course traces connections with ancestral Latin America in terms of its pre-Hispanic and colonial past, as well as its post-colonial present.

LLAS-109. FYE:Art, Thought, And Revolution In Chicago. 3 Hours.

An introduction to the cultural life of Chicago Latino youth with its regional differences with key themes/symbols and cultural norms created by the historical interaction between Latinos and American society as expressed in literature, art, music, and folklore. Attention will also be given to change and continuity in Latino cultural norms on the basis of historical events. This class explores the history of art and its role in the civilizations from Modernism, the Mural Renaissance and the Civil Rights Movement. Using the rich artistic legacy of this area, the class examines the way art functions across borders and how borders have been constructed, debated and lived through in the art of the past.

LLAS-201. Writing Intensive Program: Culture & History Of Latinos. 3 Hours.

Culture and History of Latinos is intended to insure that Latino and Latin American Studies students understand the religious, social, economic and political aspects of Latino groups. It explores their roles and conditions in the new demographic context of the United States as its largest ethnic minority group.

Prerequisite: ENGL-101 minimum grade of C.

LLAS-224. The Chicano Movement. 3 Hours.

This course is an analytical overview of stories and histories of and about people of Mexican ancestry or origin in the United States of America. The course examines involvements, events, and conditions directly affecting the fates and opportunities of this constituency through time. The course focuses on regional, class and gender particularities as well as symbolic and epistemological characteristics.

LLAS-225. Puerto Ricans & The Caribbean. 3 Hours.

This course is an overview of people in the Caribbean and/or in the U.S. with ancestral or migratory ties to the Caribbean.

LLAS-285. Mexican Chicago. 3 Hours.

This course aims to examine the meaning, conditions, and prospective future of the extensive and long-established Mexican presence in the Chicago region. Beginning with a comparison of Mexican populations in major US urban centers, the course proceeds to urban and suburban dimensions in the Midwest. It examines the complexity of the Mexican population in terms of regional, generational and phenotypical characteristics, as well as in relation to other minority populations in the region. The course highlights specific profiles of members of Mexican communities in the region and incorporates field experiences and online tours of cultural sites and manifestations.

LLAS-290. Research Methods In Latino And Latin American Studies. 3 Hours.

The course provides an introduction to the theories and processes of critical inquiry in the social sciences and humanities. Each student conducts a focused review of the literature in response to a specific, identified issue and is introduced to the elements of scholarly writing. The course creates a learning community of scholars working to explore meaningful solutions to identified research questions in Latino and Latin American Studies humanities and social sciences area.

Prerequisites: LLAS-101 minimum grade of D and LLAS-201 minimum grade of D.

LLAS-301. Field Seminar In Latino & Latin American Studies. 3 Hours.

The course aims towards the formulation of a sophisticated understanding of social and political life of Latinos in the current context. It combines theoretical insights and documentary information to examine the assets and current challenges of these communities. This course serves as the capstone course for LLAS minors.

Prerequisites: LLAS-101 minimum grade of C or MCS-101 minimum grade of C and LLAS-201 minimum grade of C or MCS-201 minimum grade of C.

LLAS-312. Introduction To The Barrio. 3 Hours.

Students do research on their residential neighborhoods using historical and demographic data, along with political and theoretical insights from the social sciences and the students' experiences.

LLAS-345. Race, Class, Gender & Latinos. 3 Hours.

This course is an analytical overview of the complexity of Latino community/ies. The course aims towards the formulation of a sophisticated understanding of social and political life of Latinos in the current context. It combines theoretical insights and documentary information to examine the assets and current challenges of these communities.

LLAS-346. Introduction To Oral History For Communities. 3 Hours.

This course introduces students to oral history, a practice that has expanded to many disciplines for its ability to providing information on aspects of life missing from documentary sources and offering different perspectives on historical events and processes. Notably, oral history is used in recovering the experiences of ordinary people. Students will gain knowledge and skills for engaging people in communities in telling their own stories. Students will learn the principles of oral history methodology by analyzing theoretical, ethical, and practical challenges interviewers and researchers face. Students will also learn basic skills on interviewing, transcribing, and abstracting oral histories.

Prerequisite: LLAS-290 minimum grade of C or JUST-241 minimum grade of C.

LLAS-351. Latinos And Immigration. 3 Hours.

The course examines social and cultural dimensions of the arrival and incorporation of Latin American immigrants to the United States. It reviews migratory flows across time and regions of the country. Through a discussion-based class, students explore immigration through diverse readings from a wide variety of fields (i.e. history, political science, sociology). The readings provide a comparative range of immigrant experiences from different Latin American countries and different time periods. This comparison will provide a broad exposure of the topic from which students will select a specific topic pertinent to personal and professional interest for their individual assignments.

LLAS-353. Latino Diversities. 3 Hours.

Latinos, the largest ethnic minority of the country, are far from comprising a homogeneous or cohesive group. This course examines various ways in which members of this umbrella group differ in their respective histories in this country, their integration processes, and potential outlooks. The examination goes beyond the distinction related to migratory or ancestral ties to Latin American countries to ascertain contrasts within and among groups. Thus, beyond contrast among Mexicans and Salvadorans, for example, students will explore differences within each of these two groups. Topics such as social mobility, educational attainments, labor force participation, and political involvement are some of many options students will be able to select for their research projects.

LLAS-361. Queer Latin American Narrative And Film. 3 Hours.

This course explores the representation of sexual diversity and gender nonconformity in Latin American cultural production (narrative and film) from a perspective informed by feminist theory, LGBT studies and queer theory. Students critically engage these theoretical paradigms while developing research skills and proficiency in oral and written expression through class assignments, including a final research paper.

Prerequisite: ENGL-101 minimum grade of C.

LLAS-391. Internship In Latina/o & Latin American Studies. 3 Hours.

This capstone course is an opportunity for students to culminate their Latino studies concentration with an internship tailored to enhance their understanding of social and political life of Latinos. The internship will be an intense course that will give students the opportunity to apply the knowledge and skills developed over the course of their undergraduate career to an actual work setting. Students should expect to work closely with site supervisor, others at internship site, seminar classmates, and Professor.

Prerequisites: LLAS-101 minimum grade of C and LLAS-201 minimum grade of C and LLAS-290 minimum grade of C.

LLAS-392. Internship In Latin American Studies. 3 Hours.

This capstone course is an opportunity for students to culminate their Latin American studies concentration with an internship tailored to enhance their understanding of social and political life of Latin Americans. The internship will be an intense course that will give students the opportunity to apply the knowledge and skills developed over the course of their undergraduate career to an actual work setting. Students should expect to work closely with site supervisor, others at internship site, seminar classmates, and Professor.

Prerequisites: LLAS-101 minimum grade of C and LLAS-201 minimum grade of C and LLAS-290 minimum grade of C.

LLAS-393. Independent Studies In Latino & Latin American Studies. 3 Hours.

Academic credit for special research project student conducts with individual guidance from a faculty member. Projects that could be completed in an established course are not appropriate for Independent Study. Student must submit project proposal to the faculty member in the semester prior to the one in which the project is to be conducted. Independent Study requires approval of instructor, coordinator of program, department chair and college dean.

Prerequisites: LLAS-101 minimum grade of C and LLAS-201 minimum grade of C and LLAS-290 minimum grade of C.

Major in Latina/o & Latin American Studies

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

¹ Requires LLAS Advisor approval to count as a LLAS Major/Minor elective.

Linguistics

The Department of Linguistics is committed to providing students with a solid foundation in the study and understanding of human language as a convergence of genetic, psychological, and social systems and networks. Knowledge of how and why we communicate brings us closer to understanding who we are and how we can affect our worlds.

Exploring language from both theoretical and functional perspectives, our program trains students to critically examine and analyze the world within and around them. The Department offers a minor in Linguistics at the undergraduate level and an MA in Linguistics at the graduate level. Course work in linguistics is a recognized asset for careers in curriculum development, language teaching, publishing, product branding, speech pathology, natural language processing, translation, law, education, and other professions within social and behavioral sciences, especially those concerned with language policies and practices in multilingual settings.

Further information about our programs can be found on our website: <http://www.neiu.edu/academics/college-of-arts-and-sciences/departments/linguistics> (<http://www.neiu.edu/academics/college-of-arts-and-sciences/departments/linguistics/>).

- Minor in Linguistics (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/linguistics/minor-inguistics/>)

The Department of Linguistics offers courses leading to a minor in linguistics for liberal arts majors and for prospective elementary school language arts teachers. In addition, the department offers courses that are required for students majoring in English education on the Secondary level, and Bilingual-Bicultural Education.

Elementary and Early Childhood Minors

Students in the Elementary Education and Early Childhood Education programs who have selected this minor must complete a minimum of 9 hours at the 300-level to meet graduation and licensure requirements.

- Master of Arts in Linguistics (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/linguistics/master-arts-linguistics/>)

Master of Arts in Teaching in elementary education (formerly M.A.T.: Language arts)

MA Linguistics courses are open to students seeking an M.A. in Teaching in Elementary Education. Students may enroll in Linguistics courses as part of their 9 hours elective requirement. Please see the program coordinator or the graduate advisor to seek approval for entrance into these classes.

Master of Science in Instruction: Language Arts

MA Linguistics courses are open to students seeking an M.S. in Instruction: Language Arts. Students may enroll in Linguistics 401 to satisfy the Language Arts concentration in the Secondary Sequence. They may also enroll in other Linguistics courses as part of their 9 hour elective requirement. Please see the program coordinator or the graduate advisor to seek approval for entrance into these classes.

LINGUISTIC FACULTY

Richard W. Hallett, Ph.D., Professor, Program Coordinator
 Lewis Gebhardt, Ph.D., Associate Professor, Graduate Advisor
 Ariana Bancu, M.A., Assistant Professor

Affiliated Faculty

Denise Cloonan Cortez, Ph.D., Professor, Chair of World Languages & Culture Department
 Lisa Hollis-Sawyer, Ph.D., Associate Professor, Gerontology Program Coordinator of Psychology Department
 Francisco Iacobelli, Ph.D., Associate Professor, Computer Science Department
 Christopher L. Schroeder, Ph.D., Professor, English Department

LING-109. First Year Experience: Language And Diversity In Chicago. 3 Hours.

Hands-on research, using Chicago's rich diversity of languages in contact as a laboratory, will enable you to understand the mechanisms, dynamics and manipulations of language and language use. Students will explore the following questions: What is language? What makes it universal? What makes it unique? How can it be used as a tool? How does it unite or divide? What is language contact and how does it affect you? What is the relationship between language and identity? What is language diversity and what brings it about? How does an awareness of language make you a stronger, more confident communicator?.

LING-110. Lexicology: The Study Of Words. 3 Hours.

Introduction to the study of words, with particular attention to English from an historical, structural and sociolinguistic perspective. This course meets one of the Humanities requirements of the General Education Program.

LING-120. Language And Human Behavior. 3 Hours.

Introduction to basic principles of psycholinguistics and sociolinguistics. Subjects covered may include dialect variation, language and the brain, child language acquisition, language and gender, conversational analysis, non-verbal behavioral, pidgins and creoles, and sign language. The course is designed for students having no background in linguistics. This course meets one of the Humanities requirements of the General Education Program as well as the Improving Human Relations requirement.

LING-201. Introduction To General Linguistics. 3 Hours.

Nature and structure of languages and American English in particular. An overview of the description of language systems in terms of phonology (sound systems), morphology (word formation) and syntax (sentence organization). May also include an introduction to the areas of semantics (word meaning), pragmatics (the rules of the use of language in social contexts and conversation), and dialectology (cultural and geographical varieties of language use), and a look at the history of English and its relationship to other languages.

LING-300. English Grammar In The Classroom. 3 Hours.

This course introduces the basics of sentence structure in English with the purpose of enabling future teachers to teach English grammar successfully in a multicultural classroom. To this end, students will learn forms and functions of spoken and written English and learn grammatical terminology. They will also investigate issues related to standard and non-standard varieties of English and to the relationship between grammar and language instruction.

Prerequisite: LING-120 minimum grade of C or LING-201 minimum grade of C.

LING-301. History Of The English Language. 3 Hours.

Historical descriptive linguistic survey of English from its origins to modern English.

Prerequisite: LING-201 minimum grade of C.

LING-302. Theory Of Grammar. 3 Hours.**LING-303. Grammars Of English. 3 Hours.**

A descriptive and historical analysis of English grammar.

Prerequisite: LING-201 minimum grade of C.

LING-304. Introduction To Phonetics & Phonology. 3 Hours.

This class provides a foundation in the acoustic and articulatory properties of the sounds used in human languages and introduces theories about the systematic variation of sounds in ordinary speech. Through reading, problem solving and class discussion, students become familiar with basic phonetics, the analysis of sounds into features, both rule-based and constraint-based theories of sound variation, and the structure of sound at the segment, syllable and phrase levels. Prereq: or consent of instructor.

Prerequisite: LING-201 minimum grade of C.

LING-310. Historical/Comparative Linguistics. 3 Hours.

Prerequisite: LING-201 minimum grade of C.

LING-316. Languages And Cultures: Middle East. 3 Hours.

This courses introduces students to the languages, cultures, values, preconceptions and misconceptions associated with the region known as the Middle East. A variety of sources, including academic texts, articles, fiction, poetry, film and the visual arts are incorporated to better grasp and appreciate the complex of languages and cultures of the region. Check the current schedule for the focus country. By permission of instructor.

Prerequisite: LING-201 minimum grade of C or LING-322 minimum grade of C or ANTH-212 minimum grade of C or HIST-111F minimum grade of C or HIST-391 minimum grade of C.

LING-320G. Language And Culture: Aboriginal Australia. 3 Hours.

This course focuses on the languages and cultures of Aboriginal Australia. It will examine a number of different linguistic features (phonological, morphological, and syntactic) found in a variety of Australian languages. In Addition to structural features, the course will examine Aboriginal languages and their interaction within the social and cultural setting of traditional life as well as issues involving language and cultural contact with European powers.

Prerequisite: LING-201 minimum grade of C.

LING-320N. Language And Culture: Native American. 3 Hours.

This course focuses on the languages and cultures of Native America. It will examine a number of different linguistic features (phonological, morphological, and syntactic) found in a variety of North American languages. In addition to structural features, the course will examine languages and their interaction with social and cultural domains as well as issues of language contact.

Prerequisite: LING-201 minimum grade of C.

LING-322. Introduction To Sociolinguistics. 3 Hours.

A look at language variation based on social contexts. Includes ethnic, regional and social dialects, language and gender, and pidgin and creole language systems.

LING-323. First & Second Language Acquisition. 3 Hours.

Survey of recent theories and research on children's acquisition of phonological, morphological, syntactic, semantic, and pragmatic systems of their first language. Survey of recent theories and research on second language acquisition.

Prerequisite: LING-201 minimum grade of C.

LING-326. Narratives Of The Jewish Experience. 3 Hours.

This course focuses on stories told in contemporary Jewish communities as illustrative of the Jewish experience. Narrative is both representative and constructive of life experience, memory, and identity. We will listen to and analyze stories collected by others and available to wide audiences, and to stories we collect through interactions and interviews. Analyses will be conducted within a narratological framework that blends discursive and psycho-analytic theory and practice. Students will gather oral narratives from family members, community members, political and religious leaders, and educators with the goal of analyzing how stories both reveal and construct personal and social identities.

LING-337. Ethnography Of Communication. 3 Hours.

This course adopts ethnographic methodology to explore the acquisition and performance of communicative competence in a variety of professional settings. The concept of communicative competence has its origins in the field of sociolinguistics - the branch of linguistics that studies the relationship between language and culture or, as sometimes defined, language in society. Key to one segment of sociolinguistic research and practice is the field of ethnography of communication, initiated by anthropological linguist Dell Hymes and John Gumperz. Ethnography of communication focuses on identifying and analyzing "the situations and uses, the patterns and functions of speaking as an activity in its own right" (Hymes 1974). In so doing, the theory and application of this field focuses on identifying the norms of appropriate language use in interaction in given social domains.

Prerequisite: LING-322 minimum grade of B.

LING-338. Introduction To Syntactic Theory. 3 Hours.

Following the ground work established over the past 15 years, this course will introduce students to modern syntactic theory as practiced within the Minimalist Program. An emphasis will be placed on the methodological and theoretical achievements of this area of research as developed in the past decade. Students will further examine the notions of functional and lexical projections, empty categories, feature checking operations, various kinds of movement and merge operations, and locality constraints.

Prerequisites: LING-201 minimum grade of B and LING-303 minimum grade of B.

LING-344. Linguistics And Reading. 3 Hours.

Relationship between language and structure and the reading process with emphasis on the practical problems such as the variety of dialectically different sound-symbol-correspondences in English, the perception of speech sounds, the reader's interpretation of syntactic and semantic structures, various alphabetic systems for teaching beginning reading, and an analysis of linguistic texts for teaching reading. Designed to be useful to the in-service classroom teacher as well as to undergraduates.

LING-347. The Origin Of Language. 3 Hours.

Organized as a seminar, this course discusses recent theories concerned with how, when and why language appeared in the human lineage. Students are introduced to scholarship from a range of fields including linguistics, cognitive science, philosophy, anthropology, primatology and evolutionary biology to address questions including: What is language? What cognitive and social preconditions underlie it? What are the similarities and differences between human language and other animals' communication systems? What language-specific biological wiring may exist at the core of the human language faculty? How was language adaptive for those humans? Did language emerge relatively recently and suddenly, or gradually over millions of years? Permission of instructor required.

Prerequisite: LING-201 minimum grade of C or BIO-201 minimum grade of C or ANTH-212 minimum grade of C or ANTH-215 minimum grade of C.

LING-361. Introduction To World Englishes. 3 Hours.

Examination of issues involved in the development, spread, and maintenance of varieties of English throughout the world, now commonly referred to as Global or World Englishes. This course emphasizes the historical, political, and ideological issues of globalization, nativization, post-colonialism, standardization, and pedagogy of native and non-native varieties of English.

Prerequisite: LING-201 minimum grade of C.

LING-362. Linguistics And Literature. 3 Hours.

This course presents an introduction to linguistic and discourse-analytic approaches to style in literary works. The study of literary language, most typically the domain of courses in literature, is also undertaken by linguists for the obvious reason that literature, as language, is composed of the structures and used for the functions that are the focus of formal and applied linguistic analysis. Linguistics and Literature focuses on the stylistic use of phonological, morphological, syntactic and semantic features; paralinguistic features of intonation, pitch, rhythm, stress, loudness, and speed; and speech acts and pragmatic conventions of indirectness; entailment, presupposition, implication, and persuasion. By permission of instructor.

Prerequisite: LING-201 minimum grade of C.

LING-363. Graphic Narratives: Linguistic And Visual Semiotic Approaches. 3 Hours.

This course situates the graphic narrative as a complex, cultural form that deserves academic attention. Together, we will analyze how images and words interact in graphic narratives to create new identity formations, new cultural meanings, new knowledge webs, new histories, and new narratives.

Prerequisite: LING-120 minimum grade of C or LING-201 minimum grade of C.

LING-391F. Advanced Grammatical Analysis: Mandan. 3 Hours.

This is a course in advanced linguistic analysis. It focuses on the extremely endangered Siouan language, Mandan. Students will learn how to do linguistic research through a critical analysis of existent Mandan texts and explore various aspects of Mandan grammar. Topics may include any aspect of morphology, syntax, or narrative discourse structure.

Prerequisites: LING-201 minimum grade of B and LING-303 minimum grade of B and LING-322 minimum grade of B.

LING-391N. Advanced Grammatical Analysis: Biloxi. 3 Hours.

This is a course in advanced linguistic analysis. It focuses on the extinct Siouan language, Biloxi. Students will learn how to do linguistic research through a critical analysis of existent Biloxi texts and explore various aspects of Biloxi grammar. Topics may include any aspect of morphology, syntax, or narrative discourse structure.

Prerequisites: LING-201 minimum grade of B and LING-303 minimum grade of B and LING-322 minimum grade of B.

LING-391O. Advanced Grammatical Analysis: Crow. 3 Hours.

This is a course in advanced linguistic analysis. It focuses on the endangered Siouan language, Crow. Students will learn how to do linguistic research through a critical analysis of existent Crow texts and explore various aspects of Crow grammar. Topics may include any aspect of morphology, syntax, or narrative discourse structure.

Prerequisites: LING-201 minimum grade of B and LING-303 minimum grade of B and LING-322 minimum grade of B.

LING-401. Fundamentals Of Modern Linguistics. 3 Hours.

Overview of language as a rule-governed system, with particular emphasis on the following subfields of linguistics: phonetics (the sounds of a language), phonology (the functioning and patterning of sounds), morphology (the analysis of word structure), syntax (the analysis of sentence structure), and semantics (the analysis of meaning). This course will also give a historical overview of the field of linguistics. Other topics may include historical linguistics, language typology, pragmatics, sociolinguistics, the brain and language, and computational linguistics. By permission of instructor.

LING-405. Typology. 3 Hours.

Typology studies the similarities and differences among human languages. We observe which categories (such as noun, verb, past) and which structures (such as questions, passive, causative) are universal, common or rare among the world's languages and how they are crosslinguistically similar and different. We then ask why languages seem to prefer some categories and constructions over others and what that might say about the human capacity for language. Through reading, problem solving and fieldwork, students learn about these language structures and discuss proposed explanations for why languages are the way they are.

LING-422. Phonetics & Phonology. 3 Hours.

This class provides a foundation in the acoustic and articulatory properties of the sounds used in human languages and introduces theories about the systematic variation of sounds in ordinary speech. Through reading, problem solving and class discussion, students become familiar with basic phonetics, the analysis of sounds into features, both rule-based and constraint-based theories of sound variation, and the structure of sound at the segment, syllable and phrase levels. By consent of instructor.

Prerequisite: LING-401 minimum grade of C.

LING-423. Advanced Phonetics And Phonology. 3 Hours.

A sequel to LING-422 Phonetics and Phonology, this course advances students' understanding of principles and their ability to critically analyze problems concerning the acoustic and articulatory nature of sounds in human language. Topics include articulatory and acoustic phonetics, rule-based and constraint-based theories, segments and phonological features, syllables and moras, stress, tone and intonation and prosody. This course requires research in sound documentation using current recording technology. Students must evaluate various phonological theories and present findings orally and in written formats, to present data clearly and develop linguistics-oriented argumentation style, readying them for academic participation in scholarly journals, at conferences.

Prerequisite: LING-422 minimum grade of B.

LING-427. Morphology. 3 Hours.

The goal of morphology is to understand word structure and speakers' implicit knowledge of the components of words and their properties. By looking at data from many languages, students will become familiar with morphological processes such as derivation, inflection, compounding, incorporation and cliticization and with various proposals to account for word structure in languages. By consent of instructor.

Prerequisite: LING-401 minimum grade of C.

LING-430C. Structure Of Language: Lakhota. 3 Hours.

Lakhota is a member of the Mississippi Valley branch of the Siouan Language family. The language is an agglutinating one with many synthetic characteristics. This course will examine the structure of the Lakhota language, focusing on the phonology, morphology, and syntax of the language. This will be accomplished by reading and comparing a number of grammars and sketches as well as examining original Lakhota texts.

Prerequisites: LING-401 minimum grade of C and LING-422 minimum grade of C and LING-437 minimum grade of C.

LING-433. Lexicography. 3 Hours.

Review of the problems and trends of word study in the past, especially the notions surrounding the concepts of authority and usage of language: scrutiny of the various types and sources of English vocabulary; recent linguistic insights considered in the light of their value for various kinds of handbooks.

Prerequisite: LING-401 minimum grade of C.

LING-435. Semantics. 3 Hours.

What is meaning? How does word meaning contribute to sentence meaning? How are sentences semantically related to each other? How do words and sentences connect to the world and our thoughts about it? This course introduces the basic principles of semantics and how they are applied to a scientific analysis of meaning in language. Topics covered include the components of word meaning, the composition of words into sentence meaning, logic and truth conditions, lexical semantics, formal semantics and the pragmatic effects of context on meaning.

Prerequisites: LING-401 minimum grade of C and LING-437 minimum grade of C.

LING-436. Advanced Semantics And Pragmatics. 3 Hours.

Building on the introductory LING-435 Semantics course, this course pursues more substantive analyses of fundamental issues in semantics and pragmatics. Through readings of primary sources and analysis of original data, students deepen their understanding of concepts and problems in the field. Among the semantics issues examined are lexical semantics, reference, definiteness and specificity, quantification, and various formal methods for relating expressions to meaning and relating semantics to syntax. The semantic-syntax-pragmatics interface is also explored, with a more detailed study of Gricean implicature as well as recent analyses in neo-Gricean theory and relevance theory.

Prerequisite: LING-435 minimum grade of B.

LING-437. Introduction To Generative Grammar. 3 Hours.

This course introduces the study of sentence structure in natural language, with a goal of characterizing the unconscious knowledge that speakers have for recognizing, producing and interpreting any sentence in their language. Working within a Chomskyan generative approach, students analyze data in English and other languages to become familiar with issues such as constituent structure, argument structure and theta roles, case, movement and empty categories. Emphasis is placed on theory building and generalizing particular solutions to what might be universals about sentence grammar.

Prerequisite: LING-401 minimum grade of C.

LING-438. Syntax. 3 Hours.

This advanced course builds on Ling 437, reviewing basic principles of syntax and investigating them in greater detail. Students are introduced to recent literature on syntax, mostly within a generative perspective, but the strategy of the class is also to have students explore issues, analyze data and come up with their own proposals to various problems under Minimalist assumptions. The class also emphasizes theory building and justifying many assumptions that underlie syntactic theory. Topics include clause structure, noun phrase structure and the interface between syntax and semantics.

Prerequisites: LING-401 minimum grade of C and LING-437 minimum grade of C.

LING-439. Research Methods And Statistics For Linguists. 3 Hours.

LING-439 introduces statistics and research design for linguists, focusing on statistical methods most often used in the fields of language variation and change, meaning and grammaticality judgments, language production and perception, acquisition, etc. Topics include probability, statistical inference, sampling, and common tests such as t-test, chi-square, sign, analysis of variance, linear correlation and regression, each directed toward linguistics research.

LING-440. Linguistics And Literacy. 3 Hours.

Differences between spoken and written languages; the functions of writing in a literate society; writing systems with particular reference to English orthography; current psycholinguistic research on the acquisition of written language skill; pedagogical implications of linguistic views on literacy.

Prerequisite: LING-401 minimum grade of C.

LING-446. Sociolinguistics. 3 Hours.

Sociolinguistics examines ways in which language practices of individuals and communities vary in relation to social, cultural, and individual factors. This course explores topics such as language and identity, language contact, social and regional dialectology, interactional discourse, ethnography of communication, and language and gender.

LING-447. The Origin Of Language. 3 Hours.

The course introduces theorizing about how, when and why language appeared in humans, by considering evidence from linguistics, anthropology, cognitive science, philosophy, primatology and evolutionary biology. The course asks four broad questions: Did language appear gradually or suddenly? Did it appear recently or millions of years ago? How was language adaptive for the individuals who had it? What conditions were necessary for language to appear? Caution: this course is NOT about historical linguistics, the study of language change through time. This course looks at how language evolved in the species.

Prerequisite: LING-201 minimum grade of C or LING-401 minimum grade of C or BIO-201 minimum grade of C or ANTH-212 minimum grade of C or ANTH-215 minimum grade of C.

LING-448. Discourse Analysis. 3 Hours.

Discourse analysis examines the structuring and use of language to promote social action - i.e. language produced in recognition of and response to its role in society and effects on others. Theory and research focus on gathering and analyzing naturally-occurring texts to gain understanding of the patterns of social action they respond to and initiate. Research explores spoken, written, and visual texts and sociolinguistic aspects of the relationship between languages, cultures, and individuals. Students will come to understand that identity - personal, social, national - as well as ideology - are constructed by and, in turn, serve to construct interactional discourse.

Prerequisites: LING-401 minimum grade of C and LING-437 minimum grade of C and LING-446 minimum grade of C.

LING-449. Anthropological Linguistics. 3 Hours.

Combining the theory and methodology of the ethnographic analysis of culture with the theory and methodology of the sociolinguistic analysis of contextualized talk and text, this course examines the social practice of language in use within and across cultures. Through collection and analysis of naturally-occurring culturally-grounded data, students will identify and come to appreciate how language structures and reveals the systems that both influence and expose cultural knowledge. Students can apply their awareness to culturally-bounded events in settings such as education, corporations, families, and the world at large.

Prerequisites: LING-401 minimum grade of C and LING-437 minimum grade of C and LING-446 minimum grade of C.

LING-450. First Language Acquisition. 3 Hours.

In this course we examine the stages through which a child passes towards native language mastery of the phonological, morphological, syntactic, and semantic systems. Various theories which attempt to account for the child's ability to acquire language will be considered in light of the context of monolingual and bilingual language acquisition.

Prerequisite: LING-401 minimum grade of C.

LING-452. Psycholinguistics. 3 Hours.

Theoretical studies in the area of linguistics and psychology; possible implications of the form of grammar for the language learning process; survey of relevant research.

Prerequisite: LING-401 minimum grade of C.

LING-453. Language Contact And Multilingualism. 3 Hours.

This course examines language contact as a sociolinguistic phenomenon and articulates its impact on individuals and society. It focuses on issues such as language choice, language maintenance and language death in multilingual communities, national and individual identity, the structure, function and impact of codeswitching, and controversial issues such as bilingual language acquisition and the relationship between bilingualism and cognitive, linguistic and social development.

Prerequisites: LING-401 minimum grade of C and LING-437 minimum grade of C and LING-446 minimum grade of C.

LING-454. Language and Identity. 3 Hours.

This course explores the role of language in the construction of identities and the significance of identity construction as a negotiated social action within language variation. The concept and construction of identity is investigated at the individual, community, and global levels. The focus of the course is on how these multi-leveled identities are developed and realized through the use of language. The course explores a wide range of theoretical and methodological perspectives on identity in mono- as well as multi-lingual contexts.

Prerequisite: LING-401 minimum grade of C or LING-446 minimum grade of C.

LING-461. Issues In Multiple Language Acquisition. 3 Hours.

This course examines how speakers of one dialect/language learn other dialects/languages. Going beyond the traditional research on second language acquisition, this course emphasizes the theoretical issues of the acquisition of phonology, morphology, syntax, semantics, and pragmatics in a third language. Also emphasized are the differences and similarities in learning a second dialect, which may be more difficult than second language acquisition for learners.

Prerequisites: LING-401 minimum grade of C and LING-422 minimum grade of C and LING-437 minimum grade of C.

LING-462. Lexical Acquisition. 3 Hours.

This course examines how language learners acquire/learn vocabulary. Going beyond the traditional research on second language acquisition, this course focuses solely on the theoretical issues of lexical acquisition. Though the primary emphasis is on the acquisition of vocabulary in a second or third language, first language vocabulary acquisition will also be discussed.

Prerequisites: LING-401 minimum grade of C and (LING-427 minimum grade of C or LING-435 minimum grade of C).

LING-471. World Englishes. 3 Hours.

Examination of issues involved in the development and maintenance of varieties of English throughout the world, now commonly referred to as World Englishes. Specifically, this course emphasizes the historical, political, and ideological issues of post-colonialism, globalization, nativization, standardization, hegemony, canon, and pedagogy of native and non-native varieties of English.

Prerequisites: LING-401 minimum grade of C and LING-446 minimum grade of C.

LING-472. American English - History And Growth. 3 Hours.

Phonology, morphology, syntax, lexicon of English in the United States as well as its cultural history with reference to the mother country and the New World, both in colonial and post-revolutionary times.

Prerequisite: LING-401 minimum grade of C.

LING-473. The English Language - History And Development. 3 Hours.

Survey of English phonology, morphology, syntax, lexicon and cultural history through Old English, Middle English, early Modern English and recent Modern English, using literary documents for the older periods, and literary as well as spoken records for the most recent times.

Prerequisite: LING-401 minimum grade of C.

LING-475. Historical & Comparative Linguistics. 3 Hours.

This course introduces students to the systematic comparison of languages to understand how languages change through time, and how they are thought to be related to one another and to their common ancestors. Students bring together the standard aspects of linguistics – the lexicon, morphology, phonology, syntax, and semantics – and see how these components of grammar changes over time. The course covers the history of the comparative method from the birth of modern linguistics and integrates modern theories about dialectology and sociolinguistics, and how language variation is related to language change. By consent of instructor.

Prerequisites: LING-401 minimum grade of C and LING-405 minimum grade of C and (LING-422 minimum grade of C or LING-427 minimum grade of C or LING-437 minimum grade of C).

LING-481. Language & Tourism. 3 Hours.

Advanced work and individual projects in language and tourism, a growing area of applied linguistics. Topics will include the sociolinguistics of tourism, social/identity construction of not only tourists but also of touristic locations, language use in tourism, discursive, visual semiotic, and ethnomethodological analyses of tourism materials.

Prerequisites: LING-446 minimum grade of C and LING-401 minimum grade of C.

LING-482. Stylistics. 3 Hours.

Adopting theory and techniques of linguistic and discourse analysis, this course in stylistics focuses on the linguistic analysis of literary texts. Both in terms of their structure and their communicative functions, literary texts participate in the construction and presentation of nations, regional and social communities, and individuals. The language of literature -- including word choice, sentence structure, and paralinguistic cues -- functions to position characters and places by forging their identities. At the same, literary texts can be understood, in a social constructionist framework, to construct the identities of those who partake in their consumption. By consent of instructor.

Prerequisites: LING-401 minimum grade of C and LING-448 minimum grade of C.

LING-483. Field Methods In Linguistics. 3 Hours.

This course will introduce students to the goals and methods of linguistics research, including both qualitative and quantitative methodologies. Topics include the scientific method, data collection and transcription, corpus research, psycholinguistic research, field methods, argumentation, structuring of abstracts and research papers, APA vs. MLA style, conferences, ethical issues, professionalization, and interpretation of research articles.

LING-484. Language Endangerment And Documentation. 3 Hours.

This course focuses on language endangerment and documentation. It will look at issues of language shift and discuss how languages become endangered and lost. It will also discuss how languages are best documented and discuss how the field's Best Practices Guide has evolved.

Prerequisites: LING-401 minimum grade of C and LING-405 minimum grade of C and LING-422 minimum grade of C and LING-437 minimum grade of C.

LING-488. Languages & Cultures Of Iran. 3 Hours.

The language and culture of modern Iran are explored through academic readings, essays, autobiographies, and films as we delve into the question, Who are the Iranians? The languages and identities of this multilingual nation are explored through language variation, gender, age, class, and other social variables. Special attention is given to social and linguistic contact phenomena as we trace the history and evolution of the languages spoken in Iran and the communities who speak them. The structure and use of modern Farsi, along with its historical and social development will also be investigated.

Prerequisites: LING-401 minimum grade of C and LING-405 minimum grade of C and LING-437 minimum grade of C and LING-446 minimum grade of C.

LING-489. Linguistics In The Professions. 3 Hours.

Linguistics, defined as the scientific study of language, has both formal aims in describing the structural components of language and functional aims in applying understanding of these formal systems to addressing matters pertinent to interactional discourse, the presentation of self, and the co-construction of social and personal identity. Linguistics offers its graduates many varied opportunities for careers across numerous disciplines. This course offers students new to the field an introduction to many of those disciplines; as they continue their studies in our program, they can do so with the necessary schema for how they can apply what they learn.

LING-491E. Translation And Linguistic Analysis: Aleut. 3 Hours.

This course focuses on the translation of texts for a linguistic analysis of various aspects of the structure of the language in question. Students learn how to do a linguistic analysis of the target language focusing on some aspect of linguistics. The end project is a 15-20 page paper that can be presented at a professional conference. Students can focus on any area of the field of linguistics (these areas can include phonology, morphology, syntax, or discourse analysis).

Prerequisites: LING-401 minimum grade of C and LING-405 minimum grade of C and LING-422 minimum grade of C and LING-437 minimum grade of C.

LING-491F. Translation: Mandan. 3 Hours.

This course is an exercise in linguistic analysis. The Mandan language is an extremely endangered language comprising its own branch of Siouan. Employing a critical linguistic analysis of the existent texts, students will analyze some aspect of Mandan grammar. Topics can include any aspect of phonology, morphology, syntax, or discourse structure.

Prerequisites: LING-401 minimum grade of C and LING-405 minimum grade of C and LING-422 minimum grade of C and LING-437 minimum grade of C.

LING-491N. Translation: Biloxi. 3 Hours.

This course is an exercise in linguistic analysis. The Biloxi language is an extinct member of the Ohio Valley branch of Siouan. Employing a critical linguistic analysis of the existent texts, students will analyze some aspect of Biloxi grammar. Topics can include any aspect of phonology, morphology, syntax, or discourse structure.

Prerequisites: LING-401 minimum grade of C and LING-405 minimum grade of C and LING-422 minimum grade of C and LING-437 minimum grade of C.

LING-5901. Thesis Hours. 1 Hour.

Guidance of students conducting research and writing a thesis to fulfill the requirements for the Master of Arts degree in Linguistics. This course requires approval of the instructor, Department Chair and the appropriate College Dean(s). Students will have completed the required courses with a B average or higher, and have obtained the approval of their graduate advisor before registering for the thesis hours.

LING-5902. Thesis Hours. 2 Hours.

See course description for LING-5901.

LING-5903. Thesis Hours. 3 Hours.

See course description for LING-5901.

Master of Arts in Linguistics

Master of Arts in Linguistics

The graduate program offers work leading to a Master of Arts degree in Linguistics. Our dynamic curriculum combines core studies in the structure of language [phonology, morphology, syntax, semantics] with current approaches in sociolinguistics, language acquisition, psycholinguistics, language contact and bilingualism, World Englishes, native and endangered languages, discourse analysis, and identity studies.

Requirements for Admission to the Program

Students must fulfill the requirements for admission to the College of Graduate Studies & Research of Northeastern Illinois University and apply to the Linguistics Department (GC11) for admission to the degree program. A student-at-large may transfer no more than 9 credit hours of graduate coursework into the graduate Linguistics program.

The applicant must possess:

- a bachelor's degree from an accredited college or university
- an undergraduate academic record with a grade point average of 2.75 or better (4-point scale). No GRE is required.
- nine hours or the equivalent of college-level foreign language study.

When students do not meet the language requirement, they may be given provisional admission and may complete their required foreign language course work while enrolled in the MA program. The language requirement must be fulfilled before applying for graduation. International students must achieve a minimum TOEFL score of 550 (79 on the Internet-based test or 213 on the computer-based exam); or a minimum score of 6.5 on the IELTS. In some instances, a Test of Written English (TWE) score may also be required. Admission to the M.A. program may be restricted if a student possesses a bachelor's degree from a non-accredited or foreign institution.

Requirements for the Degree

12 courses/36 hours of course work; Cumulative 3.0 GPA in Linguistics courses with no more than 2 grades of C; successful completion and oral defense of a Linguistics Capstone course or Thesis.

Completion of the M.A. in Linguistics

Students may choose to complete their MA degree through either a Capstone Experience or the Thesis Seminar. Both options engage students in an assessment component that authentically addresses and evaluates their knowledge and skills in linguistics and applied linguistics. Students will have completed the required courses with a B average or higher, and have obtained the approval of their graduate advisor before registering for a capstone course or thesis.

The Capstone

The Linguistics MA capstone has two components. The first is completion of a capstone course (see list of Capstone Courses). The second component is a 20-minute presentation based on the capstone paper at the NEIU Student Symposium or at a Linguistics Department Student Colloquium.

The capstone offers students a unique opportunity to integrate their MA linguistics education and demonstrate comprehensive knowledge of linguistics. Students complete their capstone research by demonstrating how their understanding of a number of the linguistic sub-areas covered in the required courses are relevant to the content of their capstone course and paper. The product of this capstone experience will be a research paper that is appropriate for conference presentation and/or publication.

Thesis Option

Students will work with a committee of three Linguistics faculty to conduct original research and to write a thesis. Students will have completed the required courses with a B average or higher, and have obtained the approval of their graduate advisor before registering for the thesis hours.

Minor in Linguistics

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Minor in Linguistics (18 credit hours)

Code	Title	Hours
Required Courses		
LING-201	Introduction To General Linguistics	3

LING-300	English Grammar In The Classroom	3
LING-322	Introduction To Sociolinguistics	3
Electives		9

Mathematics

The undergraduate program in Mathematics leads to a Bachelor of Arts degree in Mathematics and has been designed to provide the students with options suitable for various career plans. The choice of concentration determines the set of mathematics courses required, as well as those that can be taken as electives. Mathematics Majors at Northeastern Illinois University can choose any of the two concentrations: Concentration in Applied Mathematics and Concentration in Secondary Mathematics.

All students enrolled in Mathematics Major Program have to complete the entire set of required core courses, all of the courses required for a given concentration, as well as some elective courses, for the total of at least 46 credit hours. While each mathematics course has prerequisites, there are no prerequisites for entering the program.

Undergraduate Programs

MATH-011A. Developmental Stretch I: Statistics In Daily Life. 2 Hours.

Math 011A must be taken concurrently with Math 111A. These two courses comprise the first semester in a two semester sequence. Students completing each of Math 011A, 011B, 111A, and 111B with a C or better will have satisfied the Math 112 requirement and earned a total of 4 college credits. These courses comprise an elementary introduction to statistics. Students will learn: to process and classify observational, experimental, and sampling data; to make decisions using descriptive statistics; to use inferential statistics to test hypotheses and draw conclusions about a population; and to use spreadsheets to perform these tasks.

MATH-011B. Developmental Stretch II: Statistics In Daily Life. 2 Hours.

Math 011B must be taken concurrently with Math 111B. These two courses comprise the second semester in a two semester sequence. Students completing each of Math 011A, 011B, 111A, and 111B with a C or better will have satisfied the Math 112 requirement and earned a total of 4 college credits. These courses comprise an elementary introduction to statistics. Students will learn: to process and classify observational, experimental, and sampling data; to make decisions using descriptive statistics; to use inferential statistics to test hypotheses and draw conclusions about a population; and to use spreadsheets to perform these tasks.

MATH-048A. Developmental Stretch I: Math For Elementary Teachers I. 3 Hours.

Math 048A must be taken concurrently with Math 148A. These two courses comprise the first semester in a two semester sequence. Students completing each of Math 048A, 048B, 148A, and 148B with a C or better will have satisfied the Math 149 requirement and earned a total of 4 college credits. These courses comprise a mathematical introduction for elementary and middle school teachers. Topics include place value, models for and the development of arithmetic, mental math, estimation, word problems, algorithms, factors, primes, proofs, prealgebra, fractions, ratios, rates, and percentages. The development of elementary mathematics from an advanced standpoint is emphasized.

MATH-048B. Developmental Stretch II: Math For Elementary Teachers I. 3 Hours.

Math 048B must be taken concurrently with Math 148B. These two courses comprise the second semester in a two semester sequence. Students completing each of Math 048A, 048B, 148A, and 148B with a C or better will have satisfied the Math 149 requirement and earned a total of 4 college credits. These courses comprise a mathematical introduction for elementary and middle school teachers. Topics include place value, models for and the development of arithmetic, mental math, estimation, word problems, algorithms, factors, primes, proofs, prealgebra, fractions, ratios, rates, and percentages. The development of elementary mathematics from an advanced standpoint is emphasized.

MATH-090. Elementary Algebra. 3 Hours.

This course develops the foundations of algebra, beginning with the real number system and its operations. Topics include: variable expressions, linear equations, exponents and polynomials, applications of proportion, percent, and the use of formulas to develop problem solving skills. Freshman students are initially placed into mathematics courses by their MATH ACT scores, their NEIU Mathematics Placement Test scores, or by an appropriate score on the Advanced Placement Test in Calculus. (This course does not count toward graduation or GPA.).

Prerequisite: NEIU Math Placement Result 00 - 40 (or ACT Math 01 - 36 or Accuplacer Elementary Algebra 020 - 040).

MATH-0901. Math Enrichment Workshop For Math 090. 1 Hour.

Mathematics enrichment workshop for students currently enrolled in MATH-090. The workshops draw on the Peer Led Team Learning (PLTL) and Emerging Scholars Program (ESP) models, which have been nationally identified for increasing students' probability of earning higher grades in their required mathematics courses. Workshop participants will attend a workshop during the same day and time each week; collaboratively solve problems related to their standard Math 090 course within small peer groups; receive guidance from math instructors who are specially trained to facilitate the workshops; and participate in social events with workshop peers during the semester.

MATH-091. Intermediate Algebra I. 3 Hours.

This course develops the foundations of algebra, beginning with the real number system and its operations. Topics include: variable expressions, linear equations and systems of equations, exponents, polynomials, factoring trinomials, and solving equations by factoring. Freshman students are initially placed into mathematics courses by their MATH ACT scores, their NEIU Mathematics Placement Test scores, or by an appropriate score on the Advanced Placement Test in Calculus. (This course does not count toward graduation or GPA.).

Prerequisite: (MATH-090 or NEIU Math Placement Result 01 - 45 or ACT Math 17 - 18 or Accuplacer Elementary Algebra 041 - 059).

MATH-0911. Math Enrichment Workshop For Math 091. 1 Hour.

Mathematics enrichment workshop for students currently enrolled in MATH-091. The workshops draw on the Peer Led Team Learning (PLTL) and Emerging Scholars Program (ESP) models, which have been nationally identified for increasing students' probability of earning higher grades in their required mathematics courses. Workshop participants will attend a workshop during the same day and time each week; collaboratively solve problems related to their standard Math 091 course within small peer groups; receive guidance from math instructors who are specially trained to facilitate the workshops; and participate in social events with workshop peers during the semester.

MATH-092. Intermediate Algebra II. 3 Hours.

This course further develops the concepts and structures of intermediate algebra. A review of linear equations, polynomials, and factoring, prepares students for the study of linear, quadratic, exponential, and logarithmic equations and functions. Additional topics to prepare students for college algebra include: rational expressions and equations, complex numbers, rational exponents, graphing and applications of quadratic functions, and properties of logarithms. Freshman students are initially placed into mathematics courses by MATH ACT scores, NEIU Mathematics Placement Test scores, or by an appropriate score on the Advanced Placement Test in Calculus. (This course does not count toward graduation or GPA.).

Prerequisite: (MATH-091 - 499 or MATH-091A - 499Z or NEIU Math Placement Result 02 - 45 or ACT Math 19 - 36 or Accuplacer Elementary Algebra 060 - 084 or Accuplacer College Level Math 020 - 120).

MATH-0921. Math Enrichment Workshop For Math 092. 1 Hour.

Mathematics enrichment workshop for students currently enrolled in MATH-092. The workshops draw on the Peer Led Team Learning (PLTL) and Emerging Scholars Program (ESP) models, which have been nationally identified for increasing students' probability of earning higher grades in their required mathematics courses. Workshop participants will attend a workshop during the same day and time each week; collaboratively solve problems related to their standard Math 092 course within small peer groups; receive guidance from math instructors who are specially trained to facilitate the workshops; and participate in social events with workshop peers during the semester.

MATH-092C. College Algebra Express I. 3 Hours.

MATH-092C College Algebra Express I must be taken concurrently with Math 173C College Algebra Express II. Math 092C and Math 173C are collectively a 6-credit co-requisite course that provides students a path to finish developmental coursework and college algebra in ONE semester. Background topics which are necessary for a student to successfully complete Math 173C will be covered in Math 092C. Such topics include fractions, factoring polynomials, functions, exponents, and operating with radical and rational expressions. Students who complete MATH-173C with a minimum grade of C will have satisfied the college algebra requirement.

MATH-097. Mathematical Literacy. 4 Hours.

Mathematical Literacy for College Students is a one semester course for non-math and non-science majors integrating numeracy, proportional reasoning, algebraic reasoning, and functions. Students will develop conceptual and procedural tools that support the use of key mathematical concepts in a variety of contexts. Throughout the course, college success content will be integrated with mathematical topics. Upon passing this course, one can enroll in Math 112 (Statistics) or Math 113 (Mathematical Reasoning). (This course is in place of the Math 091/092 sequence and has no college credit. This course does not count toward graduation or GPA).

Prerequisite: (MATH-090 - 499 or MATH-090A - 499Z or Accuplacer Elementary Algebra 041 - 120 or ACT Math 17 - 36).

MATH-101A. Basic Mathematical Reasoning 1. 2 Hours.

This first part of a two-semester stretch course (equivalent to Math 113) provides a foundation for students to become confident and critical users of quantitative information of all kinds: numerical, graphical and verbal. Students analyze data and ideas from a variety of fields, such as psychology, economics, finance, sociology and political science. The course is taught in a computer laboratory environment, where students are introduced to tools for data analysis and presentation. Active learning and reasoning are emphasized. By completing Math 101A and 101B, students needing one credit math course will have completed their math requirement.

Prerequisite: (Accuplacer Elementary Algebra 041 - 120 (or (ACT Math 17 - 36).

MATH-101B. Basic Mathematical Reasoning 2. 2 Hours.

This second part of a two-semester stretch course (equivalent to Math 113) provides a foundation for students to become confident and critical users of quantitative information of all kinds: numerical, graphical and verbal. Students analyze data and ideas from a variety of fields, such as psychology, economics, finance, sociology and political science. The course is taught in a computer laboratory environment, where students are introduced to tools for data analysis and presentation. Active learning and reasoning are emphasized. By completing Math 101A and 101B, students needing one credit math course will have completed their math requirement.

Prerequisite: MATH-101A minimum grade of C.

MATH-111A. Stretch I: Statistics In Daily Life. 2 Hours.

Math 111A must be taken concurrently with Math 011A. These two courses comprise the first semester in a two semester sequence. Students completing each of Math 011A, 011B, 111A, and 111B with a C or better will have satisfied the Math 112 requirement and earned a total of 4 college credits. These courses comprise an elementary introduction to statistics. Students will learn: to process and classify observational, experimental, and sampling data; to make decisions using descriptive statistics; to use inferential statistics to test hypotheses and draw conclusions about a population; and to use spreadsheets to perform these tasks.

MATH-111B. Stretch II: Statistics In Daily Life. 2 Hours.

Math 111B must be taken concurrently with Math 011B. These two courses comprise the second semester in a two semester sequence. Students completing each of Math 011A, 011B, 111A, and 111B with a C or better will have satisfied the Math 112 requirement and earned a total of 4 college credits. These courses comprise an elementary introduction to statistics. Students will learn: to process and classify observational, experimental, and sampling data; to make decisions using descriptive statistics; to use inferential statistics to test hypotheses and draw conclusions about a population; and to use spreadsheets to perform these tasks.

MATH-112. Statistics In Daily Life. 3 Hours.

Process of classifying and drawing conclusions from data obtained from observations, experiment, or sampling. Decision making under uncertainty with emphasis on the behavioral fields. Study of frequency distributions and their use in the decision making process. Usage of computer and prepared software make plus a graphic calculator (TI-83 or equivalent) is required.

Prerequisite: (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120).

MATH-113. Quantitative Reasoning. 3 Hours.

This course provides a foundation for students to become confident and critical users of quantitative information of all kinds: numerical, graphical and verbal. Students analyze data and ideas from a wide variety of fields, such as psychology, economics, finance, sociology and political science. The course is taught in a hands-on laboratory environment where students are introduced to computer tools for data analysis and presentation. Active learning and reasoning are emphasized, and technology is an integral part of the course. Students write critiques of quantitative arguments, gather data and present arguments based on their analysis.

Prerequisite: (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120).

MATH-141. College Mathematics I. 3 Hours.

The purpose of this course is to introduce the students to several of the mathematical tools that are used in all areas of mathematics including subjects that are strongly mathematics driven; these tools facilitate (1) problem-solving in mathematics and (2) mathematical communication and connection with other branches and other disciplines. Graphing calculator will be required and used to facilitate better understanding of some mathematical models, algorithms and applications. Other topics include expressions, mathematical functions, equations, inequalities and complex numbers.

Prerequisite: (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120).

MATH-143. College Mathematics II. 3 Hours.

The purpose of this course is to introduce the new teachers to the structure of Mathematics which include: mathematical reasoning; mathematical communication and connection with other branches and other disciplines; and problem-solving. Topics: number theory, combinatorics, geometry, probability and statistics, mathematics of finance.

Prerequisite: (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120).

MATH-145. Algebra Concepts For Educators. 4 Hours.

This course focuses on algebra concepts and is designed to meet the needs of educators. Some of the concepts covered will be linear, quadratic, exponential and logarithmic functions, systems of equations and introduction to trigonometric functions. Problem solving, development of algebraic thinking and modeling simple and complex linear systems with and without technology will be emphasized. Written assignments and reflections on the learning process will be introduced as appropriate. Algebra concepts will be taught in the context of real world problems and applications. This course has been designed keeping in mind the NCTM teacher standards, Common Core Mathematical Practices, content and ELA Standards in Mathematics and the ISBE mathematics teacher standards and the content and pedagogy necessary to prepare teachers to be developmentally responsive teachers of math and science. Course is linked and integrated with the MSTQE Bios 110.

Prerequisite: MATH-150 minimum grade of C or MATH-151 minimum grade of C.

MATH-147. Statistical Concepts For Educators. 4 Hours.

This course has been designed keeping in mind the NCTM teacher standards, Common Core Mathematical Practices, Content and ELA Standards in Mathematics and the ISBE mathematics teacher standards and the content within the paired interdisciplinary science course. There will be three principle components of the course: 1) descriptive statistics, 2) basic probability theory and central limit theorem, 3) applied statistics in the form of confidence intervals and hypothesis testing. Contemporary critical technologies such as data warehousing and mining, and concept modeling may be considered. This course is linked with BIO-104 Environmental Biology, and BIO-105 Environmental Biology Lab.

Prerequisite: MATH-141 minimum grade of C or MATH-108 minimum grade of C or NEIU Math Placement Result 30 or ACT Math 22 or ACT Math 23 or ACT Math 24 or Accuplacer College Level Math 020 or Accuplacer College Level Math 021 or Accuplacer College Level Math 022 or Accuplacer College Level Math 023 or Accuplacer College Level Math 024 or Accuplacer College Level Math 025 or Accuplacer College Level Math 026 or Accuplacer College Level Math 027 or Accuplacer College Level Math 028 or Accuplacer College Level Math 029 or Accuplacer College Level Math 030.

MATH-148A. Stretch I: Math For Elementary Teachers I. 2 Hours.

Math 148A must be taken concurrently with Math 048A. These two courses comprise the first semester in a two semester sequence. Students completing each of Math 048A, 048B, 148A, and 148B with a C or better will have satisfied the Math 149 requirement and earned a total of 4 college credits. These courses comprise a mathematical introduction for elementary and middle school teachers. Topics include place value, models for and the development of arithmetic, mental math, estimation, word problems, algorithms, factors, primes, proofs, prealgebra, fractions, ratios, rates, and percentages. The development of elementary mathematics from an advanced standpoint is emphasized.

MATH-148B. Stretch II: Math For Elementary Teachers I. 2 Hours.

Math 148B must be taken concurrently with Math 048B. These two courses comprise the second semester in a two semester sequence. Students completing each of Math 048A, 048B, 148A, and 148B with a C or better will have satisfied the Math 149 requirement and earned a total of 4 college credits. These courses comprise a mathematical introduction for elementary and middle school teachers. Topics include place value, models for and the development of arithmetic, mental math, estimation, word problems, algorithms, factors, primes, proofs, prealgebra, fractions, ratios, rates, and percentages. The development of elementary mathematics from an advanced standpoint is emphasized.

MATH-149. Math For Elementary Teachers I. 4 Hours.

This is a foundational class in mathematics for those interested in becoming elementary or middle grades teachers. Topics include place value, models for and the development of arithmetic, mental math, estimation, word problems, algorithms, factors, primes, proofs, prealgebra, fractions, ratios, rates, and percentages. Emphasis on the development of elementary mathematics from an advanced standpoint.

Prerequisite: MATH-092 minimum grade of C.

MATH-150. Math For Elementary Teachers II With Problem Solving. 5 Hours.

This is a foundational class in mathematics for those interested in becoming elementary or middle grades teachers. Topics include measurement, geometric reasoning, similarity and congruence, applications of geometry, geometric proofs, area, volume, surface area, and probability and statistics. Problem solving and mathematical thinking activities covering both number and operations and geometry content will be integrated. Emphasis is on the development of elementary mathematics from an advanced standpoint.

Prerequisite: MATH-149 minimum grade of C.

MATH-151. Bridge Course In Mathematics For Elementary Teachers. 3 Hours.

MATH-151 is a course designed for students who have completed two college-level courses in math for elementary teaching at a community college. The transferred courses should focus on numbers and operations and geometry and measurement, respectively. NEIU's College of Education requires that Elementary Education majors complete at least 9 semester hours in mathematics for teachers that meet a set of common outcomes adopted by the college. This course focuses on concepts addressed by the outcomes that are not typically covered in depth by most 2-course sequences in mathematics for teaching: algebra, data analysis, statistics, probability, problem-solving and mathematical thinking. **Prerequisite:** MATH-151 is restricted to students majoring in Early Childhood Education, Elementary Education, Bilingual/Bicultural Education, and TCP. Enrollment by permit only.

MATH-163. Mathematical Modeling With Elementary Functions For Business. 3 Hours.

This course, at the College Algebra level, is designed to provide quantitative understanding and tools for business students. Students work extensively with the most important functions and equations used for applications in their fields: linear, polynomial, rational, exponential, and logarithmic.

Prerequisite: (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120).

MATH-164. Modeling With Elementary Functions For Business Seminar. 1 Hour.

Enrichment Seminar accompanying MATH-163. Students engage in problem solving in collaborative learning groups on material derived from and complementing Mathematical Modeling with elementary functions in Business to gain a deeper understanding of concepts and application.

MATH-165. Finite Mathematics For Business And The Social Sciences. 3 Hours.

Introduction to matrices, linear programming and probability with emphasis on mathematical models in the social, managerial and behavioral sciences and mathematics of finance.

Prerequisite: (MATH-163 - 499 or MATH-163A - 499Z or NEIU Math Placement Result 35 - 40 or ACT Math 25 - 36 or Accuplacer College Level Math 031 - 120).

MATH-167. Business Calculus I. 4 Hours.

Elements of analytic geometry, differential and integral calculus with application to business, economic and finance.

Prerequisite: (MATH-163 - 499 or MATH-163A - 499Z or NEIU Math Placement Result 35 - 40 or ACT Math 25 - 36 or Accuplacer College Level Math 031 - 120).

MATH-173. College Algebra. 4 Hours.

This course emphasizes the concept of a function as a unifying approach to the topics of college algebra. Families of functions studied in the course include: polynomial, rational, exponential and logarithmic functions. Other topics include conic sections, and sequences and series. Applications and problem solving skills are emphasized throughout the course.

Prerequisite: (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120).

MATH-173C. College Algebra Express II. 4 Hours.

MATH-173C College Algebra Express II must be taken concurrently with Math 092C College Algebra Express I. Math 092C and Math 173C are collectively a 7-credit co-requisite course that provides students a path to finish developmental coursework and college algebra in ONE semester. This course is a functional approach to algebra that emphasizes the study of functions and their graphs, inequalities, and linear, quadratic, piece-wise defined, rational, polynomial, exponential, and logarithmic functions. Appropriate applications and technologies will be included. Students who complete the co-requisite MATH-173C with a minimum grade of C will have satisfied the college algebra requirement.

MATH-173W. College Algebra & Math Enrichment Workshop. 4 Hours.

This course emphasizes the concept of a function as a unifying approach to the topics of college algebra. Topics include: polynomial, rational, exponential and logarithmic functions, conic sections, sequences, and series. Each week students will participate in an enrichment workshop where they will collaboratively solve college algebra problems within peer groups while receiving guidance from a Peer Leader. The workshop draws on the Peer Led Team Learning and Emerging Scholars Program models, which have been nationally identified for increasing students' probability of earning higher grades in their mathematics courses. Students will pay a \$25 fee to support the workshop.

MATH-174. Math Enrichment Workshop For College Algebra. 1 Hour.

Mathematics enrichment workshop for students currently enrolled in MATH-173. The workshops draw on the Peer Led Team Learning (PLTL) and Emerging Scholars Program (ESP) models, which have been nationally identified for increasing students' probability of earning higher grades in their required mathematics courses. Workshop participants will attend a workshop during the same day and time each week; collaboratively solve problems related to their standard MATH-173 course within small peer groups; receive guidance from math instructors who are specially trained to facilitate the workshops; and participate in social events with workshop peers during the semester.

MATH-175. Trigonometry. 3 Hours.

For students who intend to continue with Calculus I, this course uses the concept of a function as a unifying approach to the topics of trigonometry. The course studies trigonometric functions, trigonometric identities and equations, and inverse trigonometric functions. Other topics include: solving triangles, polar coordinates, complex numbers and DeMoivre's theorem; parametric equations, and vectors. Applications and problem solving skills are emphasized throughout the course.

Prerequisite: (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120).

MATH-175W. Trigonometry & Math Enrichment Workshop. 3 Hours.

This course uses the concept of a function as a unifying approach to the topics of trigonometry. Topics include: trigonometric functions, identities, and equations, inverse trigonometric functions, solving triangles, and polar coordinates. Each week students will participate in an enrichment workshop where they will collaboratively solve trigonometry problems within peer groups while receiving guidance from a Peer Leader. The workshop draws on the Peer Led Team Learning and Emerging Scholars Program models, which have been nationally identified for increasing students' probability of earning higher grades in their mathematics courses. Students will pay a \$25 fee to support the workshop.

MATH-176. Mathematics Enrichment Workshop For Trigonometry. 1 Hour.

Mathematics enrichment workshop for students currently enrolled in MATH-175. The workshops draw on the Peer Led Team Learning (PLTL) and Emerging Scholars Program (ESP) models, which have been nationally identified for increasing students' probability of earning higher grades in their required mathematics courses. Workshop participants will attend a workshop during the same day and time each week; collaboratively solve problems related to their standard MATH-175 course within small peer groups; receive guidance from math instructors who are specially trained to facilitate the workshops; and participate in social events with workshop peers during the semester.

MATH-177. Elementary Functions In The Sciences/Math. 3 Hours.

This is an application inspired college algebra course which covers linear, quadratic, general polynomial, exponential and logarithmic functions using applications from science and mathematics. Arithmetic and geometric sequences are introduced as difference equations to motivate the study of quantities that change over time. Curve fitting is used to interpret data. A graphing calculator is required.

Prerequisite: (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120).

MATH-178. Elementary Functions In The Sciences/Math Seminar. 1 Hour.

Enrichment Seminar accompanying MATH-177. Students do problem solving in collaborative learning groups on material derived from and complementing Mathematical Modeling with Elementary Functions in the Sciences and Mathematics to gain a deeper understanding of concepts and applications. The content of the seminar is closely aligned with the content of MATH-177.

MATH-185. Precalculus. 4 Hours.

A functional approach to College Algebra and Trigonometry, for students who intend to continue with Calculus I.

Prerequisite: (MATH-173 - 499 or MATH-173A - 499Z or NEIU Math Placement Result 35 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 031 - 120).

MATH-185W. Precalculus & Math Enrichment Workshop. 4 Hours.

This course offers a functional approach to college algebra and trigonometry, for students who intend to continue with Calculus I. Each week students will participate in an enrichment workshop where they will collaboratively solve precalculus problems within peer groups while receiving guidance from a Peer Leader. The workshop draws on the Peer Led Team Learning and Emerging Scholars Program models, which have been nationally identified for increasing students' probability of earning higher grades in their mathematics courses. Students will pay a \$25 fee to support the workshop.

MATH-186. Mathematics Enrichment Workshop For Precalculus. 1 Hour.

Enrichment workshop accompanying MATH-185. Students do problem solving in collaborative learning groups on material derived from and supplementing Precalculus to gain a deeper understanding of concepts and applications. Prereq.: Restricted to students taking MATH-185 concurrently.

MATH-187. Calculus I. 4 Hours.

Introduction to analytic geometry, limits and derivatives, applications, integration, fundamental theorem of calculus.

Prerequisites: (MATH-185 - 499 or MATH-185A - 499Z or NEIU Math Placement Result 40 - 45 or ACT Math 28 - 36 or Accuplacer College Level Math 061 - 120 or (MATH-173 and MATH-175)).

MATH-187W. Calculus I & Math Enrichment Workshop. 4 Hours.

This course provides an introduction to analytic geometry, limits and derivatives, integration, and the fundamental theorem of calculus. Each week students will participate in an enrichment workshop where they will collaboratively solve calculus I problems within peer groups while receiving guidance from a Peer Leader. The workshop draws on the Peer Led Team Learning and Emerging Scholars Program models, which have been nationally identified for increasing students' probability of earning higher grades in their mathematics courses. Students will pay a \$25 fee to support the workshop.

Prerequisites: MATH-173 minimum grade of C and MATH-175 minimum grade of C.

MATH-188. Mathematics Enrichment Workshop for Calculus I. 1 Hour.

Enrichment Seminar accompanying MATH-107. Students do problem solving in collaborative learning groups on material derived from and supplementing Calculus I to gain a deeper understanding of concept and applications.

MATH-199S. Topics In Probability And Statistics For Middle School Teaching. 4 Hours.**MATH-202. Calculus II. 4 Hours.**

Integration techniques, applications, differential equations and series.

Prerequisite: (MATH-187 or MATH-107 or NEIU Math Placement Result 40 - 45 or Accuplacer College Level Math 061 - 120).

MATH-202W. Calculus II & Math Enrichment Workshop. 4 Hours.

This course provides an introduction to analytic geometry, limits and derivatives, integration, and the fundamental theorem of calculus. Each week students will participate in an enrichment workshop where they will collaboratively solve calculus II problems within peer groups while receiving guidance from a Peer Leader. The workshop draws on the Peer Led Team Learning and Emerging Scholars Program models, which have been nationally identified for increasing students' probability of earning higher grades in their mathematics courses. Students will pay a \$25 fee to support the workshop.

Prerequisite: MATH-187 minimum grade of C or MATH-107 minimum grade of C.

MATH-203. Calculus III. 4 Hours.

3-D analytic geometry, partial derivatives, multiple integrals and vector fields.

Prerequisite: MATH-202 minimum grade of C.

MATH-203W. Calculus III & Math Enrichment Workshop. 4 Hours.

This course focuses on three-dimensional analytic geometry, partial derivatives and multiple integrals. Each week students will participate in an enrichment workshop where they will collaboratively solve calculus III problems within peer groups while receiving guidance from a Peer Leader. The workshop draws on the Peer Led Team Learning and Emerging Scholars Program models, which have been nationally identified for increasing students' probability of earning higher grades in their mathematics courses. Students will pay a \$25 fee to support the workshop.

Prerequisite: MATH-202 minimum grade of C.

MATH-204. Math Enrichment Workshop For Math 203. 1 Hour.

Mathematics enrichment workshop for students currently enrolled in MATH-203. The workshops draw on the Peer Led Team Learning (PLTL) and Emerging Scholars Program (ESP) models, which have been nationally identified for increasing students' probability of earning higher grades in their required mathematics courses. Workshop participants will attend a workshop during the same day and time each week; collaboratively solve problems related to their standard Math 203 course within small peer groups; receive guidance from math instructors who are specially trained to facilitate the workshops; and participate in social events with workshop peers during the semester.

MATH-251W. Introduction To Advanced Mathematics & Math Enrichment Workshop. 5 Hours.

Math 251 is a bridge course between calculus and advanced mathematics. Students study the tools and proof techniques that serve as the basis for theoretical mathematics. Each week students will participate in an enrichment workshop where they will collaboratively solve Math 251 problems within peer groups while receiving guidance from a Peer Leader. The workshop draws on the Peer Led Team Learning and Emerging Scholars Program models, which have been nationally identified for increasing students' probability of earning higher grades in their mathematics courses. Students will pay a \$25 fee to support the workshop.

Prerequisite: MATH-187 minimum grade of C or NEIU Math Placement Result 40 (and ENGL-101 minimum grade of C).

MATH-252. Math Enrichment Workshop For Math 251. 1 Hour.

Mathematics enrichment workshop for students currently enrolled in MATH-251. The workshops draw on the Peer Led Team Learning (PLTL) and Emerging Scholars Program (ESP) models, which have been nationally identified for increasing students' probability of earning higher grades in their required mathematics courses. Workshop participants will attend a workshop during the same day and time each week; collaboratively solve problems related to their standard Math 251 course within small peer groups; receive guidance from math instructors who are specially trained to facilitate the workshops; and participate in social events with workshop peers during the semester.

MATH-253. Linear Algebra I. 3 Hours.

This course covers matrix theory and linear algebra. Linear algebra is the branch of mathematics that studies systems of linear equations and the properties of matrices, which includes among other topics: vector spaces; linear transformations and the matrices that represent them; determinants and inner product spaces; and properties of vectors in n-dimensional space and their applications. Linear algebra has a broad range of applications and is critical to many disciplines such as physics, the social and natural sciences, engineering, and economics.

Prerequisites: (MATH-187 minimum grade of C or MATH-107 minimum grade of C or NEIU Math Placement Result 40) and MATH-251 minimum grade of C.

MATH-262. Mathematics Enrichment Workshop For Calculus II. 1 Hour.

Enrichment Seminar accompanying MATH-202. Students do problem solving in collaborative learning groups on material derived from and supplementing Calculus II to gain a deeper understanding of concepts and applications.

MATH-273. Statistics With Applications. 4 Hours.

Prerequisite: (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120).

MATH-275. Applied And Computational Statistics. 4 Hours.

This course introduces students to the basic concepts, logic, and issues involved in statistical reasoning with wide variety of applications. It is designed to familiarize students to statistical vocabulary and concepts. Major topics include exploratory data analysis, an introduction to research methods, probability, statistical inference, and regression-based analysis of well-defined examples from biology, ecology, environmental sciences, finance, medicine, public health, psychology, and sociology. Computing will be carried out using R or SAS softwares in the course.

Prerequisite: MATH-173 minimum grade of C.

MATH-280. Geometry Concepts For Educators And Art. 4 Hours.

This course focuses on the concepts of plane and solid geometry and trigonometry using art as one method of exploration. It is designed to meet the needs of math teachers in accordance with various national and state mathematical standards. The topics include definitions and properties of plane and solid figures, congruence, similarity, constructions, measurements, transformations, Pythagorean Theorem, right angle trigonometry and the unit circle. Problem solving and computational thinking using computer programs and exploration of artistic concepts is emphasized throughout and are complemented by writing assignments. This course is linked with PHYS-108.

Prerequisite: MATH-141 minimum grade of C or MATH-108 minimum grade of C or NEIU Math Placement Result 30 or ACT Math 22 or ACT Math 23 or ACT Math 24 or Accuplacer College Level Math 020 or Accuplacer College Level Math 021 or Accuplacer College Level Math 022 or Accuplacer College Level Math 023 or Accuplacer College Level Math 024 or Accuplacer College Level Math 025 or Accuplacer College Level Math 026 or Accuplacer College Level Math 027 or Accuplacer College Level Math 028 or Accuplacer College Level Math 029 or Accuplacer College Level Math 030.

MATH-281. Number Concepts For Educators. 4 Hours.

This course has been designed keeping in mind the NCTM teacher standards, Common Core Mathematical Practices, Content and ELA Standards in Mathematics and the ISBE mathematics teacher standards and the content and pedagogy necessary to prepare teachers to be teachers of math and science. A wide range of topics across number theory and measurement will give the students a grasp of the depth and breadth of mathematics outside the traditional course structures. Problem solving, estimation, measurements and construction of simple theories of numbers will be treated with and without the use of technology. Writing assignments will supplant the assignments typically found in a mathematics course. This course is linked with CHEM-108.

Prerequisite: MATH-141 minimum grade of C or MATH-108 minimum grade of C or NEIU Math Placement Result 30 or ACT Math 22 or ACT Math 23 or ACT Math 24 or Accuplacer College Level Math 020 or Accuplacer College Level Math 021 or Accuplacer College Level Math 022 or Accuplacer College Level Math 023 or Accuplacer College Level Math 024 or Accuplacer College Level Math 025 or Accuplacer College Level Math 026 or Accuplacer College Level Math 027 or Accuplacer College Level Math 028 or Accuplacer College Level Math 029 or Accuplacer College Level Math 030.

MATH-300. Interdisciplinary Seminar In STEM. 2 Hours.

This course uses a hands-on approach to modern inquiry-based research problems and techniques in the physical and computational sciences. The course is structured around a series of modular problem-based exercises, covering topics from the fields of Chemistry, Computer Science, Earth Science, Mathematics and Physics and is designed to provide the content and pedagogical background for students to be successful peer leaders. The cross-disciplinary modules will draw connections between scientific disciplines, and showcase common research tools and techniques used in the sciences. The workshop will also incorporate discussions on a range of topics, from scientific ethics, scientific methodology and error analysis.

Prerequisite: MATH-185 minimum grade of C.

MATH-301. Ordinary Differential Equations I. 4 Hours.

This course focuses on the techniques and applications of solving ordinary differential equations, with a focus on first and second order differential equations. Topics include: constant coefficients, nonlinear, numerical methods, Laplace transform, series solutions, and geometric techniques.

Prerequisite: MATH-203 minimum grade of C.

MATH-302. Ordinary Differential Equations II. 3 Hours.

Linear and nonlinear systems, matrix methods and applications to problems in the sciences. Existence and stability theory. Boundary value problems and Fourier series.

Prerequisite: MATH-301 minimum grade of C.

MATH-303. Partial Differential Equations. 3 Hours.

This course covers linear partial differential equations that model physical problems and arise in a variety of contexts. Topics include the study of explicit formulas for solutions (when feasible) and study of the behavior of solutions. Equations covered include: wave equations, diffusion equations, and Laplace's equation on different domains. Other topics discussed are Fourier series, separation of variables, harmonic functions, and Green's functions.

Prerequisite: MATH-301 minimum grade of C.

MATH-304. Introduction To Numerical Analysis. 3 Hours.

Solutions of equations of one variable, interpolation and polynomial approximation, numerical integration and methods of solutions of linear systems.

Prerequisites: MATH-203 minimum grade of C and MATH-253 minimum grade of C and MATH-340 minimum grade of C.

MATH-305. Probability And Statistics. 4 Hours.

This course is an introduction to the probability and statistics. Topics include fundamental rules of probability, discrete and continuous distributions of random variables, central limit theorem, descriptive statistics, confidence intervals and hypothesis tests. Students will build on their basic knowledge of probabilities and distributions; illustrate statistical inference by constructing confidence intervals and hypothesis tests; and calculate basic statistical analysis manually and by computer software. Applications of probability and connections between probability and statistics are emphasized.

Prerequisite: MATH-202 minimum grade of C.

MATH-306. Linear Programming And Extensions. 3 Hours.

Linear Programming is the methodology that can be applied to optimize a linear function of several variables subject to linear constraints. This course focuses on geometric and algebraic foundations of Linear Programming and studies the Simplex Method and its variations, duality, Dual Simplex Method, sensitivity analysis, and methods of Integer Programming.

Prerequisites: MATH-203 minimum grade of C and MATH-253 minimum grade of C.

MATH-307. Introduction To Stochastic Processes. 3 Hours.

This course focuses on basic mathematical aspects of stochastic models with the emphasis on problem solving. Topics include Markov processes, Markov chains, and Queuing Theory.

Prerequisite: MATH-305 minimum grade of C or MATH-334 minimum grade of C.

MATH-309. Numerical Analysis II. 3 Hours.

Iterative methods for linear and non-linear systems of equations, approximation of eigenvalues, initial value problems, ordinary and partial boundary value problems and approximation theory.

Prerequisite: MATH-304 minimum grade of C.

MATH-311. Writing Intensive Program: Introduction To Advanced Mathematics. 5 Hours.

A bridge course between calculus and advanced mathematics. Students study the tools and proof techniques that serve as the basis for theoretical mathematics. Mathematical structure and the development of proficiency in reading, analyzing and constructing mathematical proofs are emphasized. Topics include logic, set theory, methods of proof, combinatorics, relations, functions and cardinality.

Prerequisites: (MATH-187 minimum grade of C or MATH-107 minimum grade of C or NEIU Math Placement Result 40) and ENGL-101 minimum grade of C.

MATH-312. Foundations Of Geometry. 3 Hours.

This course is a rigorous study of Euclidean and non-Euclidean geometries. Topics include transformational and projective geometry, axiomatic systems, and models.

Prerequisites: MATH-253 minimum grade of C and MATH-251 minimum grade of C.

MATH-321. History Of Mathematics. 3 Hours.

History of Mathematics is a chronological survey of the historical growth of mathematical ideas. This includes famous mathematicians and their contributions to the development of modern mathematics. Specific themes may be chosen to align with faculty and/or student interest.

Prerequisites: MATH-253 minimum grade of C and MATH-251 minimum grade of C.

MATH-322. Number Theory. 3 Hours.

This course focuses on integers and their fundamental properties, congruences, quadratic residues, Diophantine equations, primitive roots and discrete logarithms, and cryptography.

Prerequisites: MATH-251 minimum grade of C and MATH-253 minimum grade of C.

MATH-324. Independent Study In Mathematics. 3 Hours.

This course offers students an opportunity to conduct an individualized investigation into a mathematical topic with a mathematics department faculty. The mathematical topic is a topic that would not normally be discussed in the current courses being offered by the math department. The course requires the approval of the instructor, department chair, and the Dean.

MATH-326. Real Analysis. 3 Hours.

An introduction to the methods of classical analysis as applied to the formulation of the theory of Riemann integrable functions and to the theoretical examination of the behavior of sequences and series of functions of a real variable.

Prerequisite: MATH-338 minimum grade of C.

MATH-328. Complex Variables. 3 Hours.

This course is an introduction to the functions of a complex variable. Topics include elementary functions of a complex variable, Cauchy-Riemann Equations, Cauchy integral theorems, Taylor and Laurent series expansions, contour integrals, and residue calculus.

Prerequisites: MATH-338 minimum grade of C and MATH-339 minimum grade of C.

MATH-331. Abstract Algebra I. 3 Hours.

This course is an introduction to the mathematical theory of groups. Topics include: properties of groups, homomorphisms, isomorphisms, Lagrange's Theorem and factor groups. Students will build on their basic knowledge of number systems, linear algebra, set theory, functions and mathematical proofs in order to understand, construct and apply algebraic proofs; illustrate algebraic concepts or disprove false statements by providing examples; and calculate with algebraic objects. Applications of algebra and connections between algebra and other fields of mathematical study are emphasized.

Prerequisites: MATH-251 minimum grade of C and MATH-253 minimum grade of C.

MATH-332. Abstract Algebra II. 3 Hours.

This course is a continuation of Math 331 with a focus on the mathematical theory of rings and fields. Topics include: ideals, factor rings, finite fields, field extensions, and selected applications. Students will build on their prior knowledge of algebraic systems and algebraic proofs in order to understand, construct, and apply proofs about rings and fields; illustrate ring- and field- theoretic concepts or disprove false statements by providing examples; and calculate with algebraic objects. Applications of algebra and connections between algebra and other fields of mathematical study are emphasized.

Prerequisite: MATH-331 minimum grade of C.

MATH-334. Mathematical Statistics I. 3 Hours.

This course is an introduction to probability and mathematical statistics. Topics include fundamental rules of probability, expectations, moment generating functions, common distributions and central limit theorem. The mathematical theories to develop probability and statistical methods are emphasized in this course.

Prerequisite: MATH-203 minimum grade of C.

MATH-336. Statistical Inference. 4 Hours.

Statistical inference is the process of drawing conclusions about populations or scientific truths from data. This course presents the fundamentals of inference in a practical approach for statistical analysis procedures, such as interval estimation, tests of hypothesis, general procedures for developing tests, analyzing different types of data, and linear regression. After taking this course, students will understand the broad directions of statistical inference and use this information for making informed choices in analyzing data using computer software.

Prerequisite: MATH-334 minimum grade of C.

MATH-337. Theory Of Equations. 3 Hours.

This course is an advanced study of algebraic equations. Topics include the existence and properties of solutions, and algebraic, numerical, and algorithmic methods of solving equations.

Prerequisites: MATH-202 minimum grade of C and MATH-251 minimum grade of C.

MATH-338. Introduction To Real Analysis. 3 Hours.

This course is an introductory course in the theory of functions of a real variable. It develops the properties of the real numbers as a complete ordered field and introduces the topological concepts of neighborhoods, open sets, closed sets, and compact sets. Based on this, the course provides a rigorous treatment of: a) sequences of real numbers (convergence, boundedness, upper and lower limits); b) real functions of a single variable including continuity, uniform continuity (optional), differentiability, integrability, and related properties; c) series of real numbers (convergence and absolute convergence); d) introduction to function series (power series).

Prerequisites: MATH-203 minimum grade of C and MATH-251 minimum grade of C.

MATH-339. Vector Calculus. 4 Hours.

This course is a natural extension of differential and integral calculus, where the variables and values of functions are vectors instead of numbers. Such concepts as limits and continuity, derivatives and integrals, extrema and approximation are generalized for multi-dimensional Euclidean spaces. The course also introduces vector fields, line and surface integrals as well as fundamental theorems based on these concepts.

Prerequisites: MATH-203 minimum grade of C and MATH-253 minimum grade of C.

MATH-340. Computing For Mathematicians. 4 Hours.

Fundamentals of computer programming, experimentation, and simulation in mathematics with Maple and Fortran programming language. Introduction to documentation, electronic communication and problem solving in mathematical sciences. No prior computer skills required.

Prerequisite: MATH-202 minimum grade of C.

MATH-343. Linear Algebra II. 3 Hours.

Linear Algebra arose from studying systems of linear equations and their geometric applications. Linear Algebra is the study of vector spaces and the linear maps between them. This second course in Linear Algebra will emphasize theoretical implications and will focus on “why” and “how” questions, such as how can we use eigenvectors and eigenvalues of a linear operator to study the operator itself and the vector space that it acts on. Particular topics that will be covered are: abstract vector spaces; invariant subspaces; Spectral Theorem; LU, QR, and SVD factorizations; Jordan Form; and various computational methods.

Prerequisites: MATH-203 minimum grade of C and MATH-253 minimum grade of C.

MATH-347. Probability For Actuaries With Actuarial Exam Preparation. 4 Hours.

This course is a probability class tailored for students/professionals pursuing a career in the actuarial profession (such as, but not limited to, insurance, finance, banking, and industries) and/or are preparing for the actuarial exams. The course provides knowledge of the fundamental probability tools for quantitatively assessing risk and the application of these tools to problems encountered in actuarial science is emphasized. Topics include general probability theory, counting techniques, combinatorial probabilities, random variables with univariate and/or multivariate probability distributions, and The Central Limit Theorem.

MATH-357. Financial Mathematics For Actuaries With Actuarial Exam Preparation. 4 Hours.

This course is a financial mathematics class tailored for students/professionals pursuing a career in the actuarial profession (such as, but not limited to, insurance, finance, banking, and industries) and/or are preparing for the actuarial exams. The course provides an understanding of the fundamental concepts of financial mathematics, and how those concepts are applied in calculating present and accumulated values for various streams of cash flows such as, loans, annuities, rate of return of an investment, bonds, stocks, and financial derivatives.

MATH-361. Set Theory. 3 Hours.

Set theory is one language/structure that mathematics is constructed within. In this course a brief, but rigorous, history of set theory will be given that pays particular attention to the necessary modifications that have been made throughout the twentieth century. Particular attention will be paid to understanding the Axiom of Choice, Zorn's Lemma, and the Well Ordering Principle. Additional topics might include gentle introductions to Category Theory, Topos Theory, Axiomatic Set Theory, or Gödel's Incompleteness theorem.

MATH-362. Metric Spaces And Topology. 3 Hours.

This course is an introduction to topological spaces with an emphasis on metric spaces. The covered topics include open neighborhoods, limits, closure/interior/boundary of topological/metric spaces; functions, continuity, homeomorphism between topological/metric spaces; and product of topological/metric spaces. The concepts of connectedness, compactness, and completeness will be studied along with fundamental results and examples. This course forms a foundation for all advanced courses in analysis and geometry.

MATH-365. Statistical Computer And Data Analysis Packages. 3 Hours.

This course introduces statistical programming packages R and SPSS. Students will use the statistical software to: study basic functions and graphs; give descriptive analysis; implement testing; and study various modeling techniques.

Prerequisites: MATH-334 minimum grade of C and MATH-340 minimum grade of C.

MATH-370. Mathematical Modeling In The Natural Sciences. 4 Hours.

This course focuses on the formulation, analysis, and interpretation of mathematical models describing certain phenomena in the natural sciences. Topics include: difference equations, systems of difference equations, nonlinear difference equations, continuous models, phase planes – stability analysis, and limit cycles.

Prerequisite: MATH-202 minimum grade of D.

MATH-371. Mathematical Modeling For Cancer Risk Assessment. 4 Hours.

The Cancer Modeling Seminar is an essential educational component for students from the Complex Systems minor, Physics, Chemistry and Biomathematics. The seminar consists of lectures, research projects, interdisciplinary collaborations, presentations and/or posters and conference trips. Students will experience first-hand the research process, employ data analysis tools, contribute, discuss and present their projects under the guidance of the seminar instructor and experts in cancer research. Students will also learn advanced, high-quality typesetting systems designed for technical and scientific documentation and presentation.

MATH-374. Modeling And Simulations Of Complex Systems Networks. 4 Hours.

This course covers basic mathematical and statistical methods for analyzing computational spatial models in various applications, focusing on individual attributes (social influence or contagion) and network structure of groups. The course will incorporate simple graph theoretical approaches as well as construction and analysis of network-based models (NBM) and agent-based models (ABM) with complex systems applications from epidemiology, finance/business, medicine, psychology, and social sciences. The NBM involves the characterization of the structures of social networks or subsets of these networks to understand their influence on behaviors and outcomes. The ABM involves the use of stochastic analysis and simulations of individuals, in space, over time to understand how macro-level distribution patterns of outcomes may emerge from explicitly modeled, micro-level behaviors, social interactions, and movement of these individuals in their environments. Students will interpret published research and produce a research proposal by the end of the semester.

Prerequisites: MATH-202 minimum grade of C and (MATH-275 minimum grade of C or MATH-273 minimum grade of C).

MATH-376. Introduction To Risk Analysis. 3 Hours.

The Introduction to Risk Analysis course is an applied method course focusing on the application of statistical analysis methods on economics using Risk Analysis approaches. Topics include but are not limited to basic concepts of risk analysis, probability theory, probabilistic modeling and application to research projects.

Prerequisite: MATH-187 minimum grade of C.

MATH-380. Calculus Concepts For Educators. 4 Hours.

Course is designed keeping in mind the NCTM teacher standards, Common Core Mathematical Practices, Content and ELA Standards in Mathematics and the ISBE mathematics teacher standards and the understanding that many of the students are preparing to be mathematics teachers. Course emphasis is on developmentally responsive conceptual knowledge, content specific knowledge and pedagogical knowledge. Course will focus on real applications including applications to study of ecology and change and on process not procedures. Topics are consistent with a standard calculus course and include: analytical geometry, limits and derivatives, differential equations, polynomials, applications, integration, series, fundamental theorem of calculus. This course is integrated with NEIU BIO-299.

MATH-381. Concepts In Discrete Mathematics For Educators. 3 Hours.

Designed especially for teachers, this course provides a foundational experience in discrete mathematics through an emphasis on topics in graph theory. Students will learn about mathematics as an active process of making conjectures, testing ideas, and proving conclusions. Special emphasis is given to mathematical communication, problem-solving, and applications to the sciences. Topics include: the Four Color Theorem, trees, digraphs, bipartite graphs, planar graphs, Platonic solids, Euler and Hamilton circuits, the P+NP Problem, algorithms and combinatorial explosion. Students will first learn the mathematics and then explore how it connects to developmentally responsive school curriculum.

Prerequisite: MATH-380 minimum grade of C or MATH-199X minimum grade of C.

MATH-389. Seminar On Belief Systems In Math And Science. 1.5 Hour.

At the core of doing mathematics and science is the ability to update one's belief. In this seminar students will be exposed to: how both mathematicians and scientists update their beliefs; how Bayesian statistics fit into this process; many different fallacies such as positive bias, fundamental attribution error, etc.; and cognitive psychology that describes the inner workings of the brain that make all of these things happen. The students will then use these structures and vocabulary to explore how this knowledge should inform their teaching perspectives and practices.

MATH-406. Linear Programming: Theory And Practice. 3 Hours.

Optimization models; theoretical foundations of simplex algorithms and duality; revised and dual algorithms; sensitivity and analysis; additional topics from extended LP integer programming, networks, recent trends.

MATH-408. Mathematics Structures For Elementary School Teachers I. 3 Hours.

Mathematics topics and techniques that are relevant to advanced mathematics learning and the teaching of mathematics in the schools: Elementary logic, elementary sets, binary operations, introduction to algebraic structures, number systems, geometry and elements of graph theory.

MATH-409. Mathematical Functions For Elementary School Teachers I. 3 Hours.

For elementary school teachers. The function concept; polynomial functions; solution of linear and quadratic equations; simultaneous equations; the binomial theorem; circular functions; solution of triangles; trigonometric identities and equations; exponential and logarithmic functions; rectangular and polar coordinate systems; the conic sections. Graphics calculator required.

Prerequisite: MATH-408 minimum grade of C.

MATH-410. Modern Analysis For The Elementary School Teacher. 3 Hours.

Limits and continuity, derivatives, applications, integral calculus, applications.

Prerequisite: MATH-435 minimum grade of C.

MATH-421. Modern Geometry. 3 Hours.

Classification of geometrical systems; introduction to Euclidean and non-Euclidean geometries, projective geometry; finite geometries.

Prerequisite: MATH-312 minimum grade of C.

MATH-430. Discrete Mathematical Structures. 3 Hours.

Provides a working knowledge of mathematical logic, sets, relations, functions, graphs, and counting techniques.

MATH-432. Applied Combinatorics. 3 Hours.

The course offers broad exposure to combinatorial mathematics using applications to emphasize fundamental concepts and techniques, including graph theory, inclusion/exclusion principle, graph algorithms, and network flows.

Requirement: Admission to MS in Mathematics program or approval of the instructor or graduate advisor in the math department.

MATH-435. Mathematics Structure II. 3 Hours.

The real number system, mathematical systems, inductive and deductive methods, permutations and combinations.

Prerequisite: MATH-408 minimum grade of C.

MATH-436. Modern Algebra. 3 Hours.

Prerequisite: MATH-331 minimum grade of C.

MATH-439. Computers In Education. 3 Hours.

Investigation into the use of computers for CAI, statistical packages and solutions of mathematical problems. Students learn to write programs in Basic.

Prerequisite: MATH-438 minimum grade of C.

MATH-441. Multivariate Statistical Analysis. 3 Hours.

The essential methods of the multivariate statistical analysis; Hotteling's T, discriminant function, principal components, factor analysis, canonical correlations and cluster analysis with emphasis on application and real data analysis.

Prerequisite: MATH-336 minimum grade of C.

MATH-442. Applied Regression Analysis. 3 Hours.

Methodology of regression analysis with attention to model building, evaluating fit, and examining reliability of the model; regression and general least squares theory, estimation of regression coefficients, polynomial regression, step-wise regression, residual analysis, choice of transformation for variable and forecasting; with applications and real data analysis.

Prerequisite: MATH-336 minimum grade of C.

MATH-443. Experimental Design. 3 Hours.

One-way and two-way analysis of variance, fixed and random effects models, multiple comparisons, completely randomized and randomized block designs.

Prerequisite: MATH-336 minimum grade of C.

MATH-444. Problem Solving, Modeling, And Project In Mathematics With Technology. 4 Hours.

This course is problem solving and project oriented, and provides the students with the background in computers and technology needed to be effective teachers of mathematics in the secondary/high schools. The course deals with (1) hands-on applications of (a) a current geometric visualization software (e.g., Geometer's Sketchpad) as a problem solving tool in mathematics and geometry, (b) a statistical package (e.g., Minitab, R) as a problem solving tool in mathematics and statistics, and (c) other technologies (e.g., excel software) as a tool for modeling in mathematics and statistics; and (2) introduction to research methods in the mathematical sciences.

MATH-457. Recent Trends In Mathematics. 3 Hours.

Extended applications of mathematical thinking, operations research, mathematical models, information theory, theory of games, and linear programming.

Prerequisite: MATH-435 minimum grade of C.

MATH-465. Advanced Topics In Numerical Analysis. 3 Hours.

This course aims to teach participants advanced theories, algorithms and computational techniques of numerical analysis. Topics include numerical linear algebra, iteration methods and convex programming, numerical methods for ordinary and partial differential equations, functional approximation and data analysis, digital spectral analysis, design and analysis of mathematical software, and mathematical methods in computer graphics. Participants will become familiar with the process of solving scientific and engineering problems by applying/modifying numerical algorithms that are implemented in standard software packages, designing new algorithms, conducting analysis on accuracy, efficiency and stability, as well as interpreting computational results through graphics and simulations.

Prerequisite: MATH-304 minimum grade of C.

MATH-466. Galois Theory: Historical And Modern. 3 Hours.

Classical and modern Galois theory. Cardano's formulas, symmetric polynomials, permutation groups, field extensions, field automorphisms, the fundamental theorem of Galois theory.

Prerequisite: MATH-331 minimum grade of C.

MATH-471. Introduction To Stochastic Models. 3 Hours.

Markov Chains: the Poisson process; continuous time Markov processes; Renewal Theory; Queuing Theory.

Prerequisite: MATH-305 minimum grade of C.

MATH-472. Simulation Modeling And Analysis. 3 Hours.

Design and analysis of computer simulations of complex systems. Network, discrete event and continuous models are treated in a unifying setting. Computer model of a variety of systems are implemented and analyzed using a general purpose simulation language.

Prerequisite: MATH-334 minimum grade of C.

MATH-473D. Advanced Topics In Operations Research: Decision Theory. 3 Hours.**MATH-474. Mathematical Modeling. 3 Hours.**

Formulation, analysis and interpretation of mathematical models describing phenomena from the natural and social sciences. Topics may include: model construction, explicative versus predictive models, model fitting, optimization, empirical models, simulation models, dynamical models, dimensional analysis and other related topics. A term project (team or individual) will be required.

MATH-475. Advanced Topics In Operations Research: Mathematical Programming. 3 Hours.

This course offers an overview of deterministic optimization models and methods including linear programming methods, multi-objective optimization, methods of discrete optimization, and nonlinear programming methods.

Prerequisites: MATH-253 minimum grade of C and MATH-339 minimum grade of C.

MATH-477. Risk Analysis. 3 Hours.

This course introduces students to the application of statistical analysis in economics using risk analysis. Students will use probability theory, probabilistic modeling, and statistical tools to analyze case studies and current research in risk analysis.

MATH-491. Independent Study In Mathematics. 1 Hour.

Individual investigation into a topic of interest of the student's choice.

MATH-492. Independent Study In Mathematics. 2 Hours.

(See MATH-491 for descriptions.).

MATH-493. Independent Study In Mathematics. 3 Hours.

(See MATH-491 for descriptions.).

MATH-495. Project In Mathematics. 3 Hours.

Students prepare a project involving both the theory and computational tools learned in their concentration. Students present both written and oral reports to the department.

MATH-5901. Thesis Hours. 1 Hour.

Guidance of students conducting research and writing a thesis to fulfill requirements for the Master of Science degree in Mathematics is conducted in this course. Students may register for 1-4 credits per term with 6 credits required for the thesis option of the Master of Science in Mathematics. All MATH-590 credits must be earned within the equivalent of 2 academic years.

MATH-5902. Thesis Hours. 2 Hours.

See course description for MATH-5901.

MATH-5903. Thesis Hours. 3 Hours.

See course description for MATH-5901.

Elementary Education and Humanities Mathematics Minor

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Master of Arts in Pedagogical Content Knowledge for Teaching Elementary and Middle School Mathematics

This program is currently not accepting any applications. Please contact the department for further information.

The Department of Mathematics offers a Master of Arts (MA) degree in Pedagogical Content Knowledge for Teaching Elementary and Middle School Mathematics. This program is designed for teachers who wish to improve their level of competence in mathematics or wish to serve as Elementary or Middle School Mathematics Specialists, Coordinators of Elementary or Middle School Mathematics Programs, or Teachers of Elementary or Middle School Mathematics.

The MA program is mathematics-content oriented with a focus on content-specific pedagogy, mathematics teaching in diverse settings, and current Illinois educator and student standards. Students study elementary and middle school mathematics content from an advanced perspective, exploring the underlying concepts with the goal of improving their teaching of elementary and middle school mathematics. Successful completion of the program leads to a middle school mathematics endorsement. To complete the degree, students must complete 30 hours of coursework at the 400-level, a portfolio and exit exam. Students may complete the program in two years by enrolling in two courses during each of the Fall and Spring semesters and two courses in the intervening Summer. Admission preference will be given to applicants with teaching experience. Students interested in 9-12 mathematics endorsement should contact the program advisor for more information.

Requirements for Admission to the MA Program are:

1. Students must fulfill the requirements for admission to the College of Graduate Studies & Research.
2. Students must hold a current Illinois teaching license for teaching elementary or middle school.
3. Students must have successfully completed 6 or more credit hours of college mathematics content courses.
4. Application must include an essay (not to exceed 1000 words) describing a successful or unsuccessful elementary or middle grades mathematics lesson taught by the applicant. Essays must address mathematics content, teaching and learning.

Exit Requirements:

1. One semester prior to their anticipated graduation date, candidates should make an exit evaluation meeting with their program advisor to discuss upcoming exit requirement deadlines.
2. Upon completing MTHE-496, candidates should submit their portfolios for evaluation.
3. One semester prior to their anticipated graduation date, candidates should submit a copy of their results on either the Praxis® Middle School Mathematics Exam (5169) or the Illinois Subject Matter Test in Mathematics.

Requirements for the Degree:

All courses are required. Note: the MATH prefix has changed to **MTHE** to avoid confusion with courses in the MS in Mathematics program. Students must have completed at least 24 program hours by the time they complete MTHE-496. Course sequence must be chosen in consultation with the MA advisor. All courses are 3 credit hours.

Code	Title	Hours
Required Courses		
MTHE-401	Number And Operations For Elementary And Middle School Teachers	3
MTHE-402	Patterns, Functions, And Algebra For Elementary And Middle School Teachers	3
MTHE-403	Geometry And Measurement For Elementary And Middle School Teachers	3
MTHE-404	History Of Mathematics For Elementary And Middle School Teachers	3
MTHE-438	Data Analysis, Probability, And Statistics For Elementary And Middle School Teachers	3
MTHE-439	Technology For K-8 Math Teachers	3
MTHE-450	Equitable Mathematics Teaching For Elementary And Middle School Teachers	3
MTHE-451	Research Trends In Elementary And Middle School Mathematics Education	3
MTHE-496	Graduate Seminar For Elementary & Middle School Mathematics Teachers	3

ELED-403	Teaching Mathematics In Elementary Grades	3
Total Hours		30

Master of Science in Mathematics

The M.S. program in Mathematics is designed to provide the mathematical background needed to pursue careers in applied mathematics, statistics, industry, and teaching. Students in the program have the option to concentrate in Applied Mathematics or Secondary Education. Applicants for the program must choose their concentration area when they submit their application for admission to the College of Graduate Studies and Research.

Each concentration includes the completion of 30 credit hours of approved coursework for the degree program and passing the M.S. Qualifying Examination.

M.S. Mathematics: Secondary Education Concentration. Overview

The Master of Science in Mathematics (Secondary Education Concentration) prepares students to successfully teach mathematics at High School level. It is designed for teachers who wish to improve their level of competence in mathematics or wish to serve as High School Mathematics Specialists, or wish to teach mathematics at the High School level.

The program is for people who (1) are currently teaching mathematics in the High schools, or (2) plan to teach mathematics in the High schools, or (3) wish to switch careers and would like to obtain the M.S Degree in mathematics and also earn credits toward fulfilling the requirements for a High School Teaching Licensure.

M.S. MATHEMATICS: APPLIED MATHEMATICS CONCENTRATION.

OVERVIEW

The Master of Science in Mathematics (Applied Mathematics Concentration) is designed for those with a strong undergraduate background in mathematics who wish to better prepare themselves for careers that include statistics, applied mathematics, or who intend to pursue a Ph.D. degree at another institute. The program is designed so that the student can concentrate in an area of Applied Mathematics, Statistics, or Operation Research.

ADMISSIONS REQUIREMENTS

Admission to the M.S in Mathematics (Secondary Education Concentration)

1. Applicants must fulfill the requirements for admission to the College of Graduate Studies and Research. (i.e., have a B.A. / B.S. degree).
2. Applicants must have successfully completed 18 or more credit hours of College level Mathematics content courses that include Multivariable Calculus, Linear Algebra, and Discrete mathematics. Equivalent courses completed in other subject areas such as physics, engineering, business, computer sciences etc. may apply.

GRE: Not required

Admission to the M.S in Mathematics (Applied Mathematics Concentration)

1. Applicants must fulfill the requirements for admission to the College of Graduate Studies and Research. (i.e., have a B.A. / B.S. degree).
2. Applicants must have successfully completed at least six courses (i.e., 18 or more credit hours of College level Mathematics content courses) above Multivariable Calculus preferably including two of the following or their equivalent: Ordinary Differential Equations, Introduction to Numerical Analysis, Probability and Statistics, and Advanced Calculus.
3. Applicants are expected to be familiar with at least one mathematical or statistical computer package such as R, Maple, Minitab, Matlab, Mathematica, SPSS, SAS, etc.

GRE: Not required

M.S. Mathematics: Secondary Education Concentration.

Program of Study

The program consists of 10 courses (30 credit hours) to be chosen in consultation with the advisor. At least seven of the courses must be at the 400 level. With the approval of the Department of Mathematics, the program accepts transfer credits in accordance with university-wide graduate policy. The National Council of Teachers of Mathematics (NCTM) and the Mathematical Association of America (MAA) recommend that teachers of secondary school mathematics be knowledgeable in the contents of Probability and Statistics, Geometry, History of Mathematics and Foundations of Algebra.

Graduate Program Policies

The policies for the College of Graduate Studies and Research are found here (<http://catalog.neiu.edu/archive/2019-2020/graduate-studies-research/graduate-policies/>).

SCED-410	Computers In The Teaching Of Secondary School Mathematics	
SCED-408	The Nature Of Mathematical Abilities In School Children	
Total Hours		30

Culminating/Capstone Experience Assessment

Students fulfill their culminating experience requirement for the program through demonstration of their abilities in solving problems (i.e., passing the Qualifying examination) and completing a project.

Students must complete:

1. Qualifying Examination for the M.S in Mathematics

Pass a written comprehensive examination that covers topics in the areas of Linear Algebra, Probability and Statistics, Elementary Analysis, and Mathematics Structures.

2. Project for the M.S in Mathematics (Secondary Education Concentration)

Complete a written project under the supervision of a faculty member while enrolled in Mathematics 495 [Project in Mathematics], or complete a 400 level Mathematics course with a project component, approved by the advisor. The students who enroll in Mathematics 495 must present an oral report to a committee consisting of at least three faculty members.

M.S. Mathematics: Applied Mathematics Concentration.

Program of Study

The program consists of 10 courses (30 credit hours) to be chosen in consultation with the advisor. At least seven of the courses must be at the 400 level. With the approval of the Department of Mathematics, the program accepts transfer credits in accordance with university-wide graduate policy.

Graduate Program Policies

Total hours		30

Culminating/Capstone Experience Assessment

Students fulfill their culminating experience requirement for the program through demonstration of their abilities in solving problems (i.e., passing the Qualifying examination) and completing a project or thesis.

1. Qualifying Examination for the M.S in Mathematics

All students must pass a written comprehensive examination that covers topics in the areas of Linear Algebra, Probability and Statistics, Elementary Analysis, and Mathematics Structures. If a student has passed the first three actuary exams for the SOA or CAS, then they must show proof to the advisor and will be exempted from the Qualifying examination.

2. Project/Thesis for the M.S in Mathematics (Applied Mathematics Concentration)

Complete a written project or thesis under the supervision of a faculty member while enrolled in Mathematics 495 [Project in Mathematics] or MATH 590 [Thesis]. The student must present an oral report to a committee consisting of at least three faculty members.

In order to register for the project course MATH 495 or the thesis course MATH 590, students must submit a signed topic approval form with an abstract of the proposed research project. Students may register for 1-4 credits per term with 6 credits required for the thesis and 3 credits required for the project. All MATH 590 credits must be earned within the equivalent of 2 academic years.

Minor in Applied Mathematics

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Minor in Applied Mathematics (26 cr. hrs.)

MATH-339	Vector Calculus	4
MATH-340	Computing For Mathematicians	4
MATH-343	Linear Algebra II	3
MATH-365	Statistical Computer And Data Analysis Packages	3

At least three classes in the minor must be taken at NEIU. Handbooks on all math minor programs are available from the Department of Mathematics.

Mathematical & Statistical Modeling of Complex Systems Minor

Mathematical and Statistical Modeling of Complex Systems Minor

This minor focuses on training students in current quantitative modeling techniques for understanding complex systems. Complex Systems is a field at the intersection of social, behavioral, and biomedical sciences studying how different parts of a system and its environment interact and give rise to the collective dynamics of the system. This minor program is designed to prepare students for careers, which apply quantitative methodology to government organization, industries and research involving complex behavior and biomedical fields. The courses required in the minor are interdisciplinary crossing mathematics with public health, biology, chemistry, psychology and sociology.

University Core Curriculum Requirements

MATH-302	Ordinary Differential Equations II	
MATH-303	Partial Differential Equations	
MATH-304	Introduction To Numerical Analysis	
MATH-307	Introduction To Stochastic Processes	
MATH-324	Independent Study In Mathematics (minor advisor consultation required)	
MATH-336	Statistical Inference (only if not taken under Group A)	
MATH-340	Computing For Mathematicians (or other 300-level course approved by the advisor)	
Total Hours:		22-24

Mathematics Development

Freshman students are initially placed into mathematics courses by their MATH ACT scores, or the results of the NEIU Mathematics Placement Test, or by an appropriate score on the Advanced Placement Test in Calculus. Course work indicated by these standards is required.

Transfer students with a grade of "C" or higher from another college or university in a developmental course in "Intermediate Algebra" should contact the Mathematics Department as to whether this course would be recognized as a prerequisite for a college mathematics course at Northeastern.

Matthew Graham, Ph.D., Coordinator

Lidia Filus, Ph.D., Professor, Chair

MATH-090. Elementary Algebra. 3 Hours.

This course develops the foundations of algebra, beginning with the real number system and its operations. Topics include: variable expressions, linear equations, exponents and polynomials, applications of proportion, percent, and the use of formulas to develop problem solving skills. Freshman students are initially placed into mathematics courses by their MATH ACT scores, their NEIU Mathematics Placement Test scores, or by an appropriate score on the Advanced Placement Test in Calculus. (This course does not count toward graduation or GPA.).

Prerequisite: NEIU Math Placement Result 00 - 40 (or ACT Math 01 - 36 or Accuplacer Elementary Algebra 020 - 040).

MATH-0901. Math Enrichment Workshop For Math 090. 1 Hour.

Mathematics enrichment workshop for students currently enrolled in MATH-090. The workshops draw on the Peer Led Team Learning (PLTL) and Emerging Scholars Program (ESP) models, which have been nationally identified for increasing students' probability of earning higher grades in their required mathematics courses. Workshop participants will attend a workshop during the same day and time each week; collaboratively solve problems related to their standard Math 090 course within small peer groups; receive guidance from math instructors who are specially trained to facilitate the workshops; and participate in social events with workshop peers during the semester.

MATH-091. Intermediate Algebra I. 3 Hours.

This course develops the foundations of algebra, beginning with the real number system and its operations. Topics include: variable expressions, linear equations and systems of equations, exponents, polynomials, factoring trinomials, and solving equations by factoring. Freshman students are initially placed into mathematics courses by their MATH ACT scores, their NEIU Mathematics Placement Test scores, or by an appropriate score on the Advanced Placement Test in Calculus. (This course does not count toward graduation or GPA.).

Prerequisite: (MATH-090 or NEIU Math Placement Result 01 - 45 or ACT Math 17 - 18 or Accuplacer Elementary Algebra 041 - 059).

MATH-0911. Math Enrichment Workshop For Math 091. 1 Hour.

Mathematics enrichment workshop for students currently enrolled in MATH-091. The workshops draw on the Peer Led Team Learning (PLTL) and Emerging Scholars Program (ESP) models, which have been nationally identified for increasing students' probability of earning higher grades in their required mathematics courses. Workshop participants will attend a workshop during the same day and time each week; collaboratively solve problems related to their standard Math 091 course within small peer groups; receive guidance from math instructors who are specially trained to facilitate the workshops; and participate in social events with workshop peers during the semester.

MATH-092. Intermediate Algebra II. 3 Hours.

This course further develops the concepts and structures of intermediate algebra. A review of linear equations, polynomials, and factoring, prepares students for the study of linear, quadratic, exponential, and logarithmic equations and functions. Additional topics to prepare students for college algebra include: rational expressions and equations, complex numbers, rational exponents, graphing and applications of quadratic functions, and properties of logarithms. Freshman students are initially placed into mathematics courses by MATH ACT scores, NEIU Mathematics Placement Test scores, or by an appropriate score on the Advanced Placement Test in Calculus. (This course does not count toward graduation or GPA.).

Prerequisite: (MATH-091 - 499 or MATH-091A - 499Z or NEIU Math Placement Result 02 - 45 or ACT Math 19 - 36 or Accuplacer Elementary Algebra 060 - 084 or Accuplacer College Level Math 020 - 120).

MATH-0921. Math Enrichment Workshop For Math 092. 1 Hour.

Mathematics enrichment workshop for students currently enrolled in MATH-092. The workshops draw on the Peer Led Team Learning (PLTL) and Emerging Scholars Program (ESP) models, which have been nationally identified for increasing students' probability of earning higher grades in their required mathematics courses. Workshop participants will attend a workshop during the same day and time each week; collaboratively solve problems related to their standard Math 092 course within small peer groups; receive guidance from math instructors who are specially trained to facilitate the workshops; and participate in social events with workshop peers during the semester.

MATH-097. Mathematical Literacy. 4 Hours.

Mathematical Literacy for College Students is a one semester course for non-math and non-science majors integrating numeracy, proportional reasoning, algebraic reasoning, and functions. Students will develop conceptual and procedural tools that support the use of key mathematical concepts in a variety of contexts. Throughout the course, college success content will be integrated with mathematical topics. Upon passing this course, one can enroll in Math 112 (Statistics) or Math 113 (Mathematical Reasoning). (This course is in place of the Math 091/092 sequence and has no college credit. This course does not count toward graduation or GPA).

Prerequisite: (MATH-090 - 499 or MATH-090A - 499Z or Accuplacer Elementary Algebra 041 - 120 or ACT Math 17 - 36).

Music

The Department of Music at Northeastern Illinois University is committed to providing students with a solid foundation in music and dance that fosters quality, creativity, and access to opportunity. Our guiding principle is to provide a variety of experiences and programs which promote professionalism, human enrichment, and diverse cultural perspectives.

The Department of Music offers courses leading to the degrees of Bachelor of Arts, Bachelor of Music, Master of Arts, and to Teacher Licensure

Undergraduate programs are available in:

- B.M. Performance
- B.M. K-12 Music Education: Vocal or Instrumental
- B.A. Music

Graduate program:

- Master of Arts in Applied Music Pedagogy

Minors are available in:

- Individualized Music Minor
- Music Education for Elementary Ed. majors
- Individualized Dance Minor

Teacher Licensure Program

(See College of Education)

Undergraduate Admission

The music major curriculum is designed to begin the first term of the freshman year. Students intending to major in music should contact the department to arrange an interview/ audition for admission to the program. Accepted students should declare their major in music in the first term of enrollment at the University. Students applying to the major must have a background which includes music reading ability and performance ability at the college level. Those without such a background will need to complete additional preparation for acceptance as a major which will extend the time to graduation.

Transfer students

Transfer students intending to major in music should contact the department to arrange an interview/ audition for admission to the program. Transfer students should request a departmental evaluation of transferred credits for acceptance toward the major or minor requirements during their first term of enrollment.

Teacher Licensure Program (TLP) for Post-Baccalaureate Students

This program is designed for returning students **with a degree in music** who wish to obtain K-12 Music teaching licensure. The program is administered through the College of Education (See Special Licensure Programs in the Teacher Education section of this catalog). Once accepted into the program, students meet with the appropriate music advisor to determine required music coursework to obtain state licensure. Students must pass an audition to enroll.

Program Advisors

Each music major, minor, and Teacher Licensure Program student is assigned a faculty advisor who guides the student in selecting courses and in fulfilling academic and departmental requirements for graduation. Majors should obtain their advisor's approval for each semester prior to registration. Students must also be aware of the General Education requirements for the Bachelor's degree. All students must complete a minimum of 24 semester hours at the 300 level to graduate.

Departmental Requirements

In addition to completing course requirements, music majors and minors must fulfill departmental requirements for graduation.

Ensemble Requirement: Music majors, Teacher Licensure Program, and Graduate students are required to participate in a large ensemble. Large ensembles are as follows:

- Wind, brass, and percussion students enroll in Band;
- string students enroll in Orchestra;

- piano students enroll in Accompanying;
- guitar students enroll in Guitar Ensemble;
- and voice students enroll in University Chorus, Chamber Singers, Opera Workshop, or Musical Theater (see Vocal Performance and Music Education programs for specific requirements).

Graduate and Teacher Licensure Program students must complete three semesters of a large ensemble. Undergraduates must participate in a large ensemble every semester they are enrolled in courses at NEIU except while student teaching.

Concert Attendance: Recorded attendance at Department of Music sponsored events is required of all majors and minors. Music majors must attend a total of 80 concerts, seventy of which must be music department concerts. Ten concerts from off-campus venues will be accepted with advisor approval. Music minors must attend 20 music department concerts. Five concerts from off-campus venues will be accepted with advisor approval. It is the student's responsibility to submit and keep a copy of attendance validation records. Concerts in which the student participates/performs may not be counted towards the attendance total.

Convocation: Music majors are required to attend Department of Music Special Convocations, which are scheduled during activity hour (Tuesday / Thursday 3:05 - 4:05 p.m.). Convocation are held 4 times a year (Twice a semester).

Applied Music: Students taking Applied Lessons must be music majors, minors or registered in an ensemble. Music Education and Performance Majors are expected to audition for 300-level applied music upon achieving junior standing (60-89 hrs.). Music Ed or Performance majors failing to reach 300-level after the second attempt may be dropped from the music major program. All students will participate in small ensembles as part of the required Applied Lesson studio class. Students in Applied Lessons are not permitted to study simultaneously with two teachers in the same field.

Students must earn a grade of "C" or higher in all courses counted toward major or minor requirements.

AWARDS

Scholarships are available to outstanding students in Music and Dance. Undergraduate Talent Scholarships (tuition waivers) in Music and in Dance are awarded through audition. Qualified students must not hold a bachelor's degree. Graduate Scholarships are also available through audition. Complete information is available in the Department.

CONCERT SERIES

Approximately 100 afternoon and evening concerts are offered on-campus each year including:

- student recitals,
- departmental concerts,
- the Jewel Box Series,
- the Ruth Page Dance Series,
- Chicago Clarinet Ensemble,
- Chicago Brass Festival,
- American Spanish Dance Festival,
- Faculty Artist Series,
- the Performing Arts Series.

Complete information is published in the Department of Music Concert Calendar and on the music website.

PERFORMING GROUPS

A variety of instrumental and vocal ensembles perform in concerts both on and off-campus and rehearse on a regular basis throughout the year. The ensembles are open to university and community members with appropriate choral/ instrumental/vocal experience through audition and a commitment to artistic performance. Students may enroll for credit in a maximum of three ensembles per term.

LARGE ENSEMBLES INCLUDE:

- Band
- University Chorus
- Opera/Workshop
- Guitar Ensemble
- Orchestra
- Chamber Singers
- Musical Theater
- Piano Accompanying

SMALL ENSEMBLES INCLUDE:

- Jazz Band
- Brass Ensemble
- String Ensemble
- Guitar Ensemble
- Chamber Ensemble
- Jazz Combo
- Woodwind Ensemble
- Percussion Ensemble
- Piano Four Hands

DANCE ENSEMBLES INCLUDE:

- Repertory Ensemble
- Spanish Dance Ensemble

COMPUTER/ELECTRONIC MUSIC AND TECHNOLOGY

Qualified students may enroll in courses utilizing the Computer/Electronic Music Studio, a facility equipped with professional quality MIDI and Digital Audio Workstations.

MULTIMEDIA LEARNING RESOURCES CENTER

The Multimedia Learning Resources Center is a music study facility with computer assisted study materials, fully equipped listening stations, and approximately 4000 recordings and scores. The Multimedia Learning Resource Center is located on the third floor of the Ronald Williams Library.

NAFME

The NEIU Collegiate Chapter of the Music Educators National Conference provides opportunities for professional orientation and development, and opportunities to attend music education festivals, conventions and meetings.

NEIU BRASS CLUB

The NEIU Brass Club is open to all instrumentalists and exists to promote communication among brass players and to improve the artistic level of performance, teaching, and literature associated with brass players. The Brass Club supports departmental programs and sponsors activities that renew the fervor and importance of music in our lives.

Dance

DANC-101. The Dance Experience: Introduction To The Art Of Dance. 3 Hours.

A non-technical introduction to the art of dance designed to enhance appreciation of styles, tradition, history, choreography, aesthetics and personalities. Lectures, films, discussion and participatory classes.

DANC-109. First Year Experience: Steppin' Out: Dance In Chicago. 3 Hours.

A course designed to increase the student's awareness, understanding and enjoyment of a variety of styles of aesthetic/theatrical dance. The course incorporates both movement and non-movement based approaches to learning about dance as an art form, and will focus on learning about ballet, modern, jazz and ethnic dance through lectures, discussions, films, the attendance of outside performances, and written assignments. In this course, the five foundations of the First-Year Experience (Future Planning, Integral Preparation, Research, Self-discovery and Transitions) are interwoven with the field specific concepts in dance.

DANC-131. Introduction To Spanish Dance. 3 Hours.

Introduction to the three types of Spanish dance: Classical, Regional and Flamenco with emphasis on basic technique, and on Spain's varied music; Classical, Flamenco and regional from the 13th through 20th centuries.

DANC-161. Spanish Dance I. 2 Hours.

Continuation of DANC-131 with emphasis on the mastery of two important repertory styles and their dances: Regional and Flamenco.

Prerequisite: DANC-131 minimum grade of C.

DANC-203U. Field Experiences:Dance In Chicago I. 3 Hours.

Field experience in studios or schools. Detailed information is available in the departmental office.

DANC-203V. Field Experiences:Dance In Chicago II. 3 Hours.

Advanced field experience in studios or schools. Detailed information is available in the departmental office.

DANC-203W. Field Experiences:Hispanic Dance I. 3 Hours.

Hispanic dance field experience in studios or schools. Detailed information is available in the departmental office.

DANC-204. Repertory Ensemble. 1.5 Hour.

Open to enrolled students with at least intermediate skills in dance technique (ballet, modern, jazz or combination).

DANC-251. Modern Dance I. 2 Hours.

Practice of movement as an art form suggesting ideas and conveying feelings, including axial and locomotor movements, spontaneous and planned interpretive response, and choreography.

DANC-254. Modern Dance II. 2 Hours.

Continuation of DANC-251. Strength, flexibility, coordination, and balance; locomotor combinations and creative exploration of rhythm and dynamic elements of dance.

DANC-255. Jazz Dance I. 2 Hours.

Fundamental techniques of jazz dance for the beginning student; blues, musical comedy, hard-rock, street dancing and dramatic styles.

DANC-256. Ballet I. 2 Hours.

Fundamentals of ballet techniques for the beginning student; attendance at performances; analysis of filmed performances.

DANC-261. Spanish Dance II. 2 Hours.

Continuation of DANC-161 further exploring the Classical, Regional and Flamenco styles with emphasis on mastery of technique, styles, music and theatrical history.

Prerequisite: DANC-161 minimum grade of C.

DANC-351. Modern Dance III. 3 Hours.

Continuation of DANC-254. Techniques of Graham, Limon and Cunningham; attendance at professional dance presentations and rehearsals; research.

Prerequisite: DANC-254 minimum grade of C.

DANC-355. Jazz Dance II. 2 Hours.

Continuation of DANC-255; more polished techniques and expression; blues, musical comedy, hard-rock, street dancing and dramatic styles.

Prerequisite: DANC-255 minimum grade of C.

DANC-356. Ballet II. 2 Hours.

Continuation of DANC-256. Skill in performance of "school" steps and combinations.

Prerequisite: DANC-256 minimum grade of C.

DANC-357. Ballet III. 2 Hours.

Continuation of DANC-356. Development of greater strength, flexibility, balance, stamina; adagio, allegro and center work. Expressive and creative elements.

Prerequisite: DANC-356 minimum grade of C.

DANC-360. Dance Composition. 3 Hours.

Practical aspects of dance design and theoretical aspects of dance as an art. Creation of dance compositions is required.

DANC-365. Dance Production. 3 Hours.

Costuming, make-up, marketing and lighting for dance.

DANC-370. Musical Resources For Dance. 3 Hours.

Music sources of particular interest to the dancer and choreographer from primitivism to trends in new music. Students develop research techniques and resource files in major areas: jazz, ballet, modern and world music forms, new music, etc.

DANC-371. Theory And Philosophy Of Dance And The Related Arts. 3 Hours.

The nature of dance and its historical interrelatedness with other art forms: poetry, drama (opera), painting and music; the role of the critic.

DANC-380. Contemporary Dance Education. 3 Hours.

Application of educational methods to the field of dance in various settings, such as conservatory and community and specific age interest groups.

DANC-382. Dance Management And Grantsmanship. 3 Hours.**DANC-390B. Jazz Dance. 3 Hours.**

This course is designed to provide students with practical experience in the area of Jazz dance technique, movement development, and expressive movement performance. The goal of the course is to provide students the opportunity to improve their ability to integrate and maintain correction in the areas of jazz technique and Jazz movement development. Advanced Jazz styles are explored.

DANC-390D. Seminar In Dance Performance:Spanish Dance. 3 Hours.

This 300 level seminar is designed to incorporate and continue the technical and stylized materials presented in Introduction to Spanish Dance-131, Spanish Dance I-161, and Spanish Dance II-261. Via the study and rehearsal of Spanish dance choreographic works created and taught by faculty and guest artists and along with regular class instruction, lectures, films, and viewing professional dance companies in performance, each student will be focused on a high level of professional achievement.

Prerequisites: DANC-131 minimum grade of D and DANC-161 minimum grade of D and DANC-261 minimum grade of D.

DANC-390E. Seminar In Dance Performance: Styles. 3 Hours.

This course is designed to provide students with practical experience in the areas of dance technique, movement development, and expressive movement performance. The goal of the course is to provide students the opportunity to improve their ability to integrate and maintain correction in the areas of technique and movement development.

DANC-391. Internship In Dance. 3 Hours.

Practicum in art agencies, dance companies, community organizations or arts-related industries designed by the student, a dance faculty advisor and generally an off-campus agent.

Music

MUS-101. The Musical Experience. 3 Hours.

A non-technical course designed to increase the listener's understanding and enjoyment of music. Not applicable towards music major or minor requirements.

MUS-103. Basic Materials In Sight Reading. 1 Hour.

This course is designed to develop the foundations of sight reading and increase the first year music student's awareness, understanding and enjoyment of sight reading through practical application exercises and lectures. Students will learn the basics of reading and writing music, sight reading and beginning music theory. Practice and application of sight reading techniques, ear training procedures and related aural and oral skills will be emphasized. This course is designed for students at the beginning level, as determined by a placement exam administered to all music major students at the beginning of the semester.

MUS-104. Music Concepts: An Introduction. 3 Hours.

Elements of music, forms and styles; lectures, discussions, readings, recordings and attendance at musical performances. Open to all students; recommended for prospective majors and required for Elementary Education majors.

MUS-105. Basic Materials In Music Theory. 3 Hours.

MUS-105 Basic Materials in Music Theory, 3 cr. Introduction to notation and perception of pitch and rhythm, including: intervals, triads, scales, meter, and key signatures, time signatures, and basic concepts of sight singing and ear training. Recommended as a remedial course for prospective majors whose music theory skills need enhancement in order to qualify for enrollment in MUS-121, Music Theory 1.

MUS-106. Orientation To Music Education. 1 Hour.

A broad view of Music Education in Public School K-12 is required of all Music Education majors. Included are visits to all levels of music instruction in local schools. This course is designed to help students decide whether Music Education K-12 is the appropriate career choice and what the total job entails.

MUS-109. First Year Experience:Chi-Tunes: Music In Chicago. 3 Hours.

In this course, the five foundations of the First-Year Experience (Future Planning, Integral Preparation, Research, Self-discovery and Transitions) are interwoven with the field specific concepts and terminology of music. This course is designed to increase the first year student's awareness, understanding and enjoyment of a variety of musical styles through attending live performances. Students will learn the basics of reading and writing music, music history, and music's place in society and culture through pre and post concert discussions.

MUS-110. Class Voice I. 2 Hours.

For beginning students in voice; fundamentals of vocal technique.

MUS-111. Class Voice II. 2 Hours.

Continuation of MUS-110.

Prerequisite: MUS-110 minimum grade of C.

MUS-112. Class Piano I. 1 Hour.

For beginning piano students. Fundamentals of reading and writing music. Basic keyboard skills in major and minor keys. Outside practice required.

MUS-113. Class Piano II. 1 Hour.

Continuation of MUS-112. Expanded theoretical concepts and keyboard technique. Outside practice required.

Prerequisite: MUS-112 minimum grade of C.

MUS-114. Class Piano III. 1 Hour.

Keyboard skills in all major and minor keys. Piano literature of diverse styles. Outside practice required.

Prerequisite: MUS-113 minimum grade of C.

MUS-115. Instrumental Music Studies Brass Instruments. 1 Hour.

Introduction to the techniques and skills of playing brass instruments. Care and maintenance. Study and evaluation of the music literature available for the various brass instruments.

Prerequisite: MUS-121 minimum grade of C.

MUS-116. Instrumental Music Studies Percussion Instruments. 1 Hour.

Introduction to the techniques and skills of playing percussion instruments. The use of percussion instruments in various types of instrumental ensembles.

Prerequisite: MUS-121 minimum grade of C.

MUS-117. Instrumental Music Studies String Instruments. 1 Hour.

Introduction to the techniques and skills of playing string instruments. Care and maintenance. Study and evaluation of the music literature available for the various string instruments.

Prerequisite: MUS-121 minimum grade of C.

MUS-118. Instrumental Music Studies Woodwind Instruments I. 1 Hour.

Introduction to the techniques and skills of playing flute and clarinet. Care and maintenance of the instruments as well as study and evaluation of the music literature available for the instruments.

Prerequisite: MUS-121 minimum grade of C.

MUS-119. Instrumental Music Studies: Woodwind Instruments II. 1 Hour.

Introduction to the techniques and skills of playing oboe, bassoon, and saxophone. Care and maintenance of the instruments as well as study and evaluation of the music literature available for the instruments.

Prerequisite: MUS-121 minimum grade of C.

MUS-120. Class Guitar I. 2 Hours.

Basic skills in guitar; basic chords and chord progressions, strumming techniques, playing a simple melodic line, and reading guitar tablature as well as standard musical notation.

MUS-121. Music Theory I. 3 Hours.

Study of harmonic materials in tonal music and standard notational practice. Includes written and aural skills development. Structure, doubling, spacing, voice-leading, triads and inversions. Placement testing or consent of instructor.

MUS-122. Music Theory II. 3 Hours.

Continuation of MUS-121. Advancing written and aural skills. Phrase structure, cadences, harmonic progression, harmonization techniques, nonharmonic tones.

Prerequisite: MUS-121 minimum grade of C.

MUS-123. Class Guitar II. 2 Hours.

Continuation of MUS-120. More complex and varied chord formations and strumming techniques; note reading of more difficult melodic lines; basics of classical guitar technique.

Prerequisite: MUS-120 minimum grade of C.

MUS-124. Sight Singing And Ear Training I. 1 Hour.

Practice and application of sight-singing techniques, ear training procedures and related aural/oral skills.

Prerequisites: MUS-121 minimum grade of C and MUS-122 minimum grade of C.

MUS-125. Sight Singing And Ear Training II. 1 Hour.

Continuation of MUS-124.

Prerequisite: MUS-124 minimum grade of C.

MUS-150A. Applied Music: Flute. 1 Hour.

Individual study in voice or instrument for the development of performing skills and musical understanding; knowledge of the repertoire at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied lesson studio class. Students taking applied lessons at this level must be music majors, minors, or registered in an ensemble. Consent of instructor and department chairperson.

MUS-150B. Applied Music: Oboe. 1 Hour.

Individual study in voice or instrument for the development of performing skills and musical understanding; knowledge of the repertoire at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied lesson studio class. Students taking applied lessons at this level must be music majors, minors, or registered in an ensemble. Consent of instructor and department chairperson.

MUS-152U. Music Applied: Harp. 2 Hours.

One-hour weekly lesson for performance majors. Individual study in voice or any instrument for development of performing skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied music studio class. Students taking Applied Lessons must be music majors, minors or registered in an ensemble. Consent of instructor or department chairperson.

MUS-152V. Applied Music: Voice. 2 Hours.

One-hour weekly lesson for performance majors. Individual study in voice or any instrument for development of performing skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied music studio class. Students taking Applied Lessons must be music majors, minors or registered in an ensemble. Consent of instructor or department chairperson.

MUS-152W. Applied Music: Piano. 2 Hours.

One-hour weekly lesson for performance majors. Individual study in voice or any instrument for development of performing skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied music studio class. Students taking Applied Lessons must be music majors, minors or registered in an ensemble. Consent of instructor or department chairperson.

MUS-152X. Applied Music: Jazz String Bass. 2 Hours.

One-hour weekly lesson for performance majors. Individual study in voice or any instrument for development of performing skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied music studio class. Students taking Applied Lessons must be music majors, minors or registered in an ensemble. Consent of instructor or department chairperson.

MUS-152Y. Applied Music: Jazz Guitar. 2 Hours.

One-hour weekly lesson for performance majors. Individual study in voice or any instrument for development of performing skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied music studio class. Students taking Applied Lessons must be music majors, minors or registered in an ensemble. Consent of instructor or department chairperson.

MUS-152Z. Applied Music: Jazz Voice. 2 Hours.

One-hour weekly lesson for performance majors. Individual study in voice or any instrument for development of performing skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied music studio class. Students taking Applied Lessons must be music majors, minors or registered in an ensemble. Consent of instructor or department chairperson.

MUS-201. Music Theory III. 3 Hours.

Study of seventh chords, secondary dominants, altered nonharmonic tones, modulation, borrowed chords, augmented sixth chords. Advancing analytical and written skills.

Prerequisite: MUS-122 minimum grade of C.

MUS-202. Music Theory IV. 3 Hours.

Writing and analysis. Study of Neapolitan sixth; diminished sevenths; altered dominants; chromatic mediant; modulation to foreign keys; ninth, eleventh and thirteenth chords.

Prerequisite: MUS-201 minimum grade of C.

MUS-210. Diction For Singers I. 2 Hours.

Introduction to proper pronunciation of English and Italian texts in classical vocal music. Use of the International Phonetic Alphabet symbols applied to the singing of songs and arias.

Prerequisite: MUS-122 minimum grade of C.

MUS-211. Diction For Singers II. 2 Hours.

Introduction to proper pronunciation of German and French texts in classical vocal music. Use of the International Phonetic Alphabet symbols applied to the singing of songs and arias.

Prerequisite: MUS-122 minimum grade of C.

MUS-221. Concert Choir. 1 Hour.

Vocal ensemble open to enrolled students. Opportunities for school and public performance. Audition and consent of instructor required.

MUS-221A. University Chorus. 1 Hour.

Vocal ensemble open to enrolled students. Opportunities for school and public performance. Audition and consent of instructor required.

MUS-222A. Vocal Ensemble: Chamber Singers. 1 Hour.

Vocal ensemble open to enrolled students. Opportunities for school and public performance. Audition and consent of instructor required.

MUS-222C. Vocal Ensemble: Opera Workshop. 1 Hour.

A practical workshop in learning and performing opera repertoire. Explore the art of singing and acting through research, preparation and performance of opera scenes or a complete opera production. Open to enrolled students. Opportunities for school and public performance. Audition and consent of instructor required.

MUS-222D. Vocal Ensemble: Music Theater. 1 Hour.

A practical workshop in learning and performing musical theater repertoire. Explore the art of singing and acting through research, preparation and performance of a complete musical theater production. Open to enrolled students. Opportunities for school and public performance. Audition and consent of instructor required.

MUS-222E. Vocal Ensemble: Music Production. 1 Hour.

A practical course in learning and executing the technical aspects of a full music theater/opera production. This course will encompass, but is not limited to: staging, costume design, set design and construction, lighting design and execution, props, wigs, make-up and stage crew.

MUS-226. Orchestra. 1 Hour.

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor required.

MUS-231. Band. 1 Hour.

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor required.

MUS-231A. Wind Band. 1 Hour.

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor required.

MUS-234A. Instrumental Ensemble: Brass. 1 Hour.

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor required.

MUS-234B. Instrumental Ensemble: Percussion. 1 Hour.

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor required.

MUS-234C. Instrumental Ensemble: Strings. 1 Hour.

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor required.

MUS-234D. Instrumental Ensemble: Woodwinds. 1 Hour.

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor required.

MUS-234E. Instrumental Ensemble: Accompanying. 1 Hour.

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor required.

MUS-234F. Instrumental Ensemble: Piano Music For Four Hands. 1 Hour.

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor required.

MUS-234M. Instrumental Ensemble: Guitar. 1 Hour.

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor required.

MUS-235A. Instrumental Ensemble: Jazz Band. 1 Hour.

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor required.

MUS-235B. Instrumental Ensemble: Jazz Combo. 1 Hour.

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor required.

MUS-301. Counterpoint I. 3 Hours.

Writing in two parts in various styles and modes, study of species and modal procedures. .

Prerequisite: MUS-201 minimum grade of C.

MUS-302. Counterpoint II. 3 Hours.

Writing in two parts in various styles and modes, study of species and modal procedures.

Prerequisite: MUS-301 minimum grade of C.

MUS-305. Form And Analysis I. 3 Hours.

Structural and stylistic features in their musical context; motif, phrase and period; binary and ternary form, theme and variations, rondo, sonata form and unique forms.

Prerequisite: MUS-202 minimum grade of C.

MUS-306. Form And Analysis II. 3 Hours.

Structural and stylistic features in their musical context, early to contemporary polyphonic forms, multi-movement forms. electronic music, aleatoric music. Consideration of several approaches to structural analysis.

Prerequisite: MUS-305 minimum grade of C.

MUS-307. Class Composition. 3 Hours.

Composition and performance of students' original works.

MUS-308. Orchestration. 3 Hours.

Instrumental timbres and the capabilities of instruments; scoring for instruments in a variety of combinations, including the orchestra and instrumental vocal combinations.

Prerequisite: MUS-202 minimum grade of C.

MUS-312. Writing Intensive Program: Beethoven. 3 Hours.

This seminar explores major issues in Beethoven study through the most relevant literature concerning Beethoven's life, musical style, aesthetics, influence on the next generation of composers, and the socio-cultural forces responsible for shaping his ideas and music. Students will carry out individualized research projects culminating in a research paper, as well as completing reading reports, keeping a listening journal, and analyzing the music studied in class.

Prerequisites: MUS-122 minimum grade of C and ENGL-101 minimum grade of C and MUS-203 minimum grade of C and (MUS-204 minimum grade of C or MUS-205 minimum grade of C).

MUS-317. Music Of The Romantic Era. 3 Hours.

Consideration from a historical point of view of structural, stylistic and formal aspects of the musical art of the Romantic era.

Prerequisites: MUS-122 minimum grade of C and MUS-203 minimum grade of C and (MUS-204 minimum grade of C or MUS-205 minimum grade of C).

MUS-318. Music Of The Twentieth Century. 3 Hours.

Consideration from a historical point of view of structural, stylistic and formal aspects of the musical art of the twentieth century.

Prerequisites: MUS-122 minimum grade of C and MUS-203 minimum grade of C and MUS-204 minimum grade of C and MUS-205 minimum grade of C.

MUS-320. Independent Study In Music. 1 Hour.

Consent of instructor, department Chair and College Dean.

MUS-321D. Writing Intensive Program: Seminar In Music History: Stravinsky. 3 Hours.

This seminar explores major issues in Stravinsky study through the most relevant literature concerning Stravinsky's life, musical style, aesthetics, impact on the development of twentieth-century music, and the socio-cultural forces responsible for shaping his ideas and music. Students will carry out individualized research projects culminating in a research paper, as well as completing reading reports, keeping a listening journal, and analyzing the music studied in class.

Prerequisites: MUS-202 minimum grade of C and MUS-203 minimum grade of C and MUS-204 minimum grade of C and MUS-205 minimum grade of C and ENGL-101 minimum grade of C.

MUS-321F. Seminar In Music History: Jazz. 3 Hours.

This seminar explores major issues in the history of jazz through most the relevant literature concerning development, musical style and prominent musicians through reading, listening and analyzing music, discussions over the reading material, and through individualized research projects.

MUS-322. Independent Study In Music. 3 Hours.

Consent of instructor, department Chair and College Dean.

MUS-323. Music Of The Renaissance Era. 3 Hours.

Consideration from a historical point of view of structural, stylistic and formal aspects of the musical art of the Renaissance Era.

Prerequisites: MUS-122 minimum grade of C and MUS-203 minimum grade of C and MUS-204 minimum grade of C or MUS-205 minimum grade of C.

MUS-324. Independent Study In Music. 2 Hours.

Consent of instructor, department Chair and College Dean.

MUS-325A. Performance Seminar: Brass. 2 Hours.

Performance and critical analysis of performances based upon stylistic, structural, and technical factors. Enrollment in applied lessons and consent of instructor.

MUS-325B. Performance Seminar: Piano. 2 Hours.

Performance and critical analysis of performances based upon stylistic, structural, and technical factors. Enrollment in applied lessons and consent of instructor.

MUS-325C. Performance Seminar: Strings. 2 Hours.

Performance and critical analysis of performances based upon stylistic, structural, and technical factors. Enrollment in applied lessons and consent of instructor.

MUS-325D. Performance Seminar: Wind Instruments. 2 Hours.

Performance and critical analysis of performances based upon stylistic, structural, and technical factors. Enrollment in applied lessons and consent of instructor.

MUS-325E. Performance Seminar: Voice. 2 Hours.

Performance and critical analysis of performances based upon stylistic, structural, and technical factors. Enrollment in applied lessons and consent of instructor.

MUS-326. Songwriting. 3 Hours.

Techniques of songwriting; consideration and analysis of classical and folk song models; emphasis on writing lyrics, melody and accompaniment.

MUS-327A. Repertoire Seminar: Piano. 3 Hours.

This is the first semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied. 300-level in applied lessons or consent of instructor required.

MUS-327B. Repertoire Seminar: Strings. 3 Hours.

This is the first semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied. 300-level in applied lessons or consent of instructor required.

MUS-327C. Repertoire Seminar: Winds. 3 Hours.

This is the first semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied. 300-level in applied lessons or consent of instructor required.

MUS-327D. Repertoire Seminar: Voice. 3 Hours.

This is the first semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied. 300-level in applied lessons or consent of instructor required.

MUS-327E. Repertoire Seminar: Choral. 3 Hours.

This is the first semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied. 300-level in applied lessons or consent of instructor required.

MUS-327F. Repertoire Seminar: Brass. 3 Hours.

This is the first semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied. 300-level in applied lessons or consent of instructor required.

MUS-327G. Repertoire Seminar: Percussion. 3 Hours.

This is the first semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied. 300-level in applied lessons or consent of instructor required.

MUS-328A. Repertoire Seminar: Piano. 3 Hours.

This is the second semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied. 300-level in applied lessons or consent of instructor required.

MUS-328B. Repertoire Seminar: Strings. 3 Hours.

This is the second semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied. 300-level in applied lessons or consent of instructor required.

MUS-328C. Repertoire Seminar: Winds. 3 Hours.

This is the second semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied. 300-level in applied lessons or consent of instructor required.

MUS-328D. Repertoire Seminar Varies: Voice. 3 Hours.

This is the second semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied. 300-level in applied lessons or consent of instructor required.

MUS-328E. Repertoire Seminar: Choral. 3 Hours.

This is the second semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied. 300-level in applied lessons or consent of instructor required.

MUS-328F. Repertoire Seminar: Brass. 3 Hours.

This is the second semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied. 300-level in applied lessons or consent of instructor required.

MUS-328G. Repertoire Seminar: Percussion. 3 Hours.

This is the second semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied. 300-level in applied lessons or consent of instructor required.

MUS-329. Advanced Conducting. 2 Hours.

Prerequisite: MUS-223 minimum grade of D or MUS-224 minimum grade of D.

MUS-330. Music Technology Seminar: Current Topics. 3 Hours.

A survey of the latest developments in music technology designed to keep today's musician up-to-date with current trends and applications, new gear and instruments, software upgrades and other current topics. Includes demonstrations and hands-on experience in the Computer/Electronic Music Lab.

MUS-331A. Applied Music Pedagogy I: Piano. 3 Hours.

Methods of teaching applied music for prospective and experienced teachers. 300 level in applied lessons and consent of instructor.

MUS-331B. Applied Music Pedagogy I: Strings. 3 Hours.

Methods of teaching applied music for prospective and experienced teachers. 300 level in applied lessons and consent of instructor.

MUS-331C. Applied Music Pedagogy I: Brass. 3 Hours.

Methods of teaching applied music for prospective and experienced teachers. 300 level in applied lessons and consent of instructor.

MUS-331D. Applied Music Pedagogy I: Woodwinds. 3 Hours.

Methods of teaching applied music for prospective and experienced teachers. 300 level in applied lessons and consent of instructor.

MUS-331E. Applied Music Pedagogy I: Voice. 3 Hours.

Methods of teaching applied music for prospective and experienced teachers. 300 level in applied lessons and consent of instructor.

MUS-331F. Applied Music Pedagogy I: Percussion. 3 Hours.

Methods of teaching applied music for prospective and experienced teachers. 300 level in applied lessons and consent of instructor.

MUS-332A. Applied Music Pedagogy II: Piano. 2 Hours.

A practicum for implementing the methods of teaching applied music learned in MUS-331.

Prerequisite: MUS-331 minimum grade of C.

MUS-332B. Applied Music Pedagogy II: Strings. 2 Hours.

A practicum for implementing the methods of teaching applied music learned in MUS-331.

Prerequisite: MUS-331 minimum grade of C.

MUS-332C. Applied Music Pedagogy II: Brass. 2 Hours.

A practicum for implementing the methods of teaching applied music learned in MUS-331.

Prerequisite: MUS-331 minimum grade of C.

MUS-332D. Applied Music Pedagogy II: Woodwinds. 2 Hours.

A practicum for implementing the methods of teaching applied music learned in MUS-331.

Prerequisite: MUS-331 minimum grade of C.

MUS-332E. Applied Music Pedagogy II: Voice. 2 Hours.

A practicum for implementing the methods of teaching applied music learned in MUS-331.

Prerequisite: MUS-331 minimum grade of C.

MUS-332F. Applied Music Pedagogy II: Percussion. 2 Hours.

A practicum for implementing the methods of teaching applied music learned in MUS-331.

Prerequisite: MUS-331 minimum grade of C.

MUS-333. Internship In Music. 3 Hours.

Field experience in schools, community organizations or industry. Detailed information is available in the departmental office. Departmental approval required.

MUS-334. Basic Conducting. 2 Hours.

Basic techniques of conducting: meter, dynamics, cuing, etc., applicable to both instrumental and choral conducting. Serves as prerequisite to specialized Instrumental and Choral Conducting courses.

Prerequisite: MUS-122 minimum grade of C.

MUS-335. Choral Conducting. 2 Hours.

Choral conducting techniques; ability to read and analyze choral scores; choral repertoire.

Prerequisite: MUS-122 minimum grade of D.

MUS-336. Instrumental Conducting. 2 Hours.

Techniques of conducting and score reading; rehearsal techniques and interpretation.

Prerequisite: MUS-122 minimum grade of D.

MUS-339. Senior Project. 1 Hour.

A culminating Project presented after the Bachelor of Arts in Music Major reaches their senior year. The Project topic must be approved by the Applied Instructor and Advisor as appropriate to the culminating genre of the students focus. Format style may include, but is not limited to: Research Paper, Lecture Demonstration, Composition(s) (submitted and/or performed), or Recital. Students that choose to give a formal Recital performance must be at the 300-level in Applied Lessons. Students select a committee of three faculty members, in conjunction with, their applied instructor. The student must pass a hearing before a public presentation is given.

MUS-340. Junior Recital. 1 Hour.

A formal 1/2 hour recital given after the music performance major reaches the 300 level in applied instruction and during their junior year. Students select a recital committee of three faculty members including, and in conjunction with, their applied instructor. The student must pass a hearing presented to the recital committee before the recital is given. Once the recital is presented, a grade of pass or fail will be determined by the recital committee.

MUS-341. Senior Recital. 1 Hour.

A formal recital of 50 minutes of music given after the music performance major reaches the-300 level in applied instruction and during their senior year. Students select a recital committee of three faculty members including, and in conjunction with, their applied instructor. The student must pass a hearing presented to the recital committee before the recital is given. Once the recital is presented, a grade of pass or fail will be determined by the recital committee.

MUS-342. World Music. 2 Hours.

A study of world music and various cultures for use by music education students in the classroom. Students experience world music through performance on ethnic instruments, listening to recordings of authentic music, as well as map study, and attendance at live performances. Students develop and implement lesson plans at various levels of music instruction.

Prerequisite: MUS-202 minimum grade of C.

MUS-343. Music Before 1600. 3 Hours.

Survey of musical styles, types and forms from Gregorian Chant through the Renaissance.

Prerequisite: MUS-121 minimum grade of C.

MUS-344. Music From 1600 Through Beethoven. 3 Hours.

Survey of musical styles, types and forms in representative composers of the Baroque and Classical Periods.

Prerequisite: MUS-121 minimum grade of C.

MUS-345. Music After Beethoven. 3 Hours.

Survey of musical styles, types and forms in representative composers of the Romantic Period, the Twentieth Century, and Global Music. By consent of instructor.

Prerequisite: MUS-121 minimum grade of C.

MUS-350A. Applied Music: Flute. 1 Hour.

Individual study in voice or instrument for the development of performing skills and musical understanding; knowledge of the repertoire at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied lesson studio class. Students taking applied lessons at this level must be music majors, minors, or registered in an ensemble. Consent of instructor and department chairperson.

MUS-350B. Applied Music: Oboe. 1 Hour.

Individual study in voice or instrument for the development of performing skills and musical understanding; knowledge of the repertoire at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied lesson studio class. Students taking applied lessons at this level must be music majors, minors, or registered in an ensemble. Consent of instructor and department chairperson.

MUS-350C. Applied Music: Clarinet. 1 Hour.

Individual study in voice or instrument for the development of performing skills and musical understanding; knowledge of the repertoire at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied lesson studio class. Students taking applied lessons at this level must be music majors, minors, or registered in an ensemble. Consent of instructor and department chairperson.

MUS-350D. Applied Music: Saxophone. 1 Hour.

Individual study in voice or instrument for the development of performing skills and musical understanding; knowledge of the repertoire at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied lesson studio class. Students taking applied lessons at this level must be music majors, minors, or registered in an ensemble. Consent of instructor and department chairperson.

MUS-350E. Applied Music: Bassoon. 1 Hour.

Individual study in voice or instrument for the development of performing skills and musical understanding; knowledge of the repertoire at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied lesson studio class. Students taking applied lessons at this level must be music majors, minors, or registered in an ensemble. Consent of instructor and department chairperson.

MUS-350F. Applied Music: French Horn. 1 Hour.

Individual study in voice or instrument for the development of performing skills and musical understanding; knowledge of the repertoire at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied lesson studio class. Students taking applied lessons at this level must be music majors, minors, or registered in an ensemble. Consent of instructor and department chairperson.

MUS-350G. Applied Music: Trumpet. 1 Hour.

Individual study in voice or instrument for the development of performing skills and musical understanding; knowledge of the repertoire at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied lesson studio class. Students taking applied lessons at this level must be music majors, minors, or registered in an ensemble. Consent of instructor and department chairperson.

MUS-350H. Applied Music: Euphonium. 1 Hour.

Individual study in voice or instrument for the development of performing skills and musical understanding; knowledge of the repertoire at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied lesson studio class. Students taking applied lessons at this level must be music majors, minors, or registered in an ensemble. Consent of instructor and department chairperson.

MUS-350J. Applied Music: Trombone. 1 Hour.

Individual study in voice or instrument for the development of performing skills and musical understanding; knowledge of the repertoire at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied lesson studio class. Students taking applied lessons at this level must be music majors, minors, or registered in an ensemble. Consent of instructor and department chairperson.

MUS-350K. Applied Music: Tuba. 1 Hour.

Individual study in voice or instrument for the development of performing skills and musical understanding; knowledge of the repertoire at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied lesson studio class. Students taking applied lessons at this level must be music majors, minors, or registered in an ensemble. Consent of instructor and department chairperson.

MUS-350M. Applied Music: Percussion. 1 Hour.

Individual study in voice or instrument for the development of performing skills and musical understanding; knowledge of the repertoire at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied lesson studio class. Students taking applied lessons at this level must be music majors, minors, or registered in an ensemble. Consent of instructor and department chairperson.

MUS-352R. Applied Music: Cello. 2 Hours.

One-hour weekly lesson for performance majors. Individual study in voice or any instrument for development of performing skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied music studio class. Students taking Applied Lessons must be music majors, minors or registered in an ensemble. Consent of instructor or department chairperson required.

MUS-352S. Applied Music: String Bass. 2 Hours.

One-hour weekly lesson for performance majors. Individual study in voice or any instrument for development of performing skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied music studio class. Students taking Applied Lessons must be music majors, minors or registered in an ensemble. Consent of instructor or department chairperson required.

MUS-352T. Applied Music: Guitar. 2 Hours.

One-hour weekly lesson for performance majors. Individual study in voice or any instrument for development of performing skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied music studio class. Students taking Applied Lessons must be music majors, minors or registered in an ensemble. Consent of instructor or department chairperson required.

MUS-352V. Applied Music: Voice. 2 Hours.

One-hour weekly lesson for performance majors. Individual study in voice or any instrument for development of performing skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied music studio class. Students taking Applied Lessons must be music majors, minors or registered in an ensemble. Consent of instructor or department chairperson required.

MUS-352W. Applied Music: Piano. 2 Hours.

One-hour weekly lesson for performance majors. Individual study in voice or any instrument for development of performing skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied music studio class. Students taking Applied Lessons must be music majors, minors or registered in an ensemble. Consent of instructor or department chairperson required.

MUS-352X. Applied Music: Jazz String Bass. 2 Hours.

One-hour weekly lesson for performance majors. Individual study in voice or any instrument for development of performing skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied music studio class. Students taking Applied Lessons must be music majors, minors or registered in an ensemble. Consent of instructor or department chairperson required.

MUS-352Y. Applied Music: Jazz Guitar. 2 Hours.

One-hour weekly lesson for performance majors. Individual study in voice or any instrument for development of performing skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied music studio class. Students taking Applied Lessons must be music majors, minors or registered in an ensemble. Consent of instructor or department chairperson required.

MUS-352Z. Applied Music: Vocal Coaching. 2 Hours.

One-hour weekly lesson for performance majors. Individual study in voice or any instrument for development of performing skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied music studio class. Students taking Applied Lessons must be music majors, minors or registered in an ensemble. Consent of instructor or department chairperson required.

MUS-391. Contemporary Music Education - Grades K-6. 3 Hours.

This course is designed for music education students and includes a study of philosophy, methods, materials, and assessment techniques suitable for developing music potential in elementary school-aged children. Special areas of focus include long and short term lesson planning, sequencing concepts and skill, ethnic music, music in Special Education, and assessment correlated with State and National Standards for Arts Education.

Prerequisite: MUS-202 minimum grade of C.

MUS-393L. Clinical Field Experience. 2 Hours.

A supervised clinical experience designed with less emphasis on observational experiences and more on direct involvement with the instructional process. Requires 100 hours experience with a broad range of students. Taken with TED SCED-303I and 303V. Completion of all education courses required.

Prerequisite: MUS-391 minimum grade of C.

MUS-396A. Practicum In Music: Chamber Music. 1 Hour.

The purpose of this course is to give the student an opportunity to explore and perform this selected topic in music. Consent of instructor required.

MUS-396B. Practicum In Music: Computer Music. 1 Hour.

The purpose of this course is to give the student an opportunity to explore and perform this selected topic in music. Consent of instructor required.

MUS-396D. Practicum In Music: Choral Music. 1 Hour.

The purpose of this course is to give the student an opportunity to explore and perform this selected topic in music. Consent of instructor required.

MUS-396K. Practicum In Music: Orchestra. 1 Hour.

The purpose of this course is to give the student an opportunity to explore and perform this selected topic in music. Consent of instructor required.

MUS-397A. Practicum In Music: Chamber Music. 2 Hours.

The purpose of this course is to give the student an opportunity to explore and perform this selected topic in music. Consent of instructor required.

MUS-397B. Practicum In Music: Computer Music. 2 Hours.

The purpose of this course is to give the student an opportunity to explore and perform this selected topic in music. Consent of instructor required.

MUS-397C. Practicum In Music: Computerized Notation. 2 Hours.

The purpose of this course is to give the student an opportunity to explore and perform this selected topic in music. Consent of instructor required.

MUS-397K. Practicum In Music: Orchestra. 2 Hours.

The purpose of this course is to give the student an opportunity to explore and perform this selected topic in music. Consent of instructor required.

MUS-398A. Practicum In Music: Chamber Music. 3 Hours.

The purpose of this course is to give the student an opportunity to explore and perform this selected topic in music. Consent of instructor required.

MUS-398B. Practicum In Music: Computer Music Studio. 3 Hours.

The course addresses a broad range of technical and aesthetic issues relevant to the creation of music and artistic manipulation of sound. The course combines theoretical, conceptual and practical information with hands-on experience with software and hardware. Students design and realize projects in consultation with the instructor for presentation in class or public forum. Projects may incorporate elements of audio recording, audio editing, MIDI, sound synthesis, sound design, combined media or other innovative concepts which develop as technology and the arts combine.

MUS-398K. Practicum In Music: Orchestra. 3 Hours.

The purpose of this course is to give the student an opportunity to explore and perform this selected topic in music. Consent of instructor required.

MUS-405. Form and Analysis. 3 Hours.

This course focuses upon advanced analysis of linear, vertical and structural dimensions of western music. Large and small scale works from various historical periods and for a variety of media will be considered. Procedures as appropriate to style and period will be applied with an emphasis upon development of analytical skill as an interpretive tool leading to more insightful performance.

MUS-411. Vocal Ensemble: Chorus. 1 Hour.

The University Chorus is a large choral ensemble which explores the great choral literature from the Middle-Ages and Renaissance periods to the present day in preparation for public and school performances. Emphasis is on choral rehearsal techniques, appropriate vocal technique, historical performance practice for the works being prepared and research on composers and compositions being studied.

MUS-412. Chamber Singers. 1 Hour.

Chamber singers explores the art of ensemble singing through the preparation and performance of choral literature composed for a smaller ensemble. Emphasis is on choral rehearsal techniques, appropriate vocal technique and performance practice for the works being prepared, as well as research about the composers and the compositions being prepared.

MUS-413. Opera Workshop. 1 Hour.

A practical workshop in learning and performing opera literature and exploring the art of singing opera through research, preparation and performance of scene excerpts and complete opera productions. Graduate students are expected to sing the leading roles and/or assist the director in staging, managing and research.

MUS-414. Musical Theater. 1 Hour.

A practical workshop in learning and performing musical theater repertoire and exploring the art of singing and acting through research, preparation and performance of a complete musical theater production. Graduate students are expected to sing the leading roles and/or assist the director in staging, managing and research.

MUS-415. Music Production. 1 Hour.

A practical course in learning and executing the technical aspects of a full music theater/opera production. This course will encompass, but is not limited to: staging, costume design, set design and construction, lighting design and execution, props, wigs, make-up and stage crew.

MUS-420. Independent Study In Music. 1 Hour.

Individual investigation into a topic of the student's choice. Consent of instructor, department Chair and College Dean.

MUS-421. Independent Study In Music. 2 Hours.

(See MUS-420 for description.).

MUS-421A. Independent Study In Music. 2 Hours.

(See MUS-420 for description.).

MUS-421B. Independent Study In Music. 2 Hours.

(See MUS-420 for description.).

MUS-422. Independent Study In Music. 3 Hours.

(See MUS-420 for description.).

MUS-422A. Independent Study In Music. 3 Hours.

(See MUS-420 for description.).

MUS-423. Band. 1 Hour.

Band is a large performing ensemble exploring standard wind band repertoire. Performance of two public and school concerts each semester is required. Graduate students are expected to perform solos, be section leaders, and assist the director in conducting rehearsals.

MUS-424. Music Bibliography And Research. 3 Hours.

Study of basic reference and research materials in music and introduction to methods of research appropriate to music.

MUS-425A. Music Performance Seminar: Brass. 2 Hours.

This seminar is an extension and compliment to the applied lesson and focuses on the art of performance. Enrollment in applied lessons and consent of instructor.

MUS-425B. Music Performance Seminar: Piano. 2 Hours.

This seminar is an extension and compliment to the applied lesson and focuses on the art of performance. Enrollment in applied lessons and consent of instructor.

MUS-425C. Music Performance Seminar: Strings. 2 Hours.

This seminar is an extension and compliment to the applied lesson and focuses on the art of performance. Enrollment in applied lessons and consent of instructor.

MUS-425D. Music Performance Seminar: Woodwind. 2 Hours.

This seminar is an extension and compliment to the applied lesson and focuses on the art of performance. Enrollment in applied lessons and consent of instructor.

MUS-425E. Music Performance Seminar: Voice. 2 Hours.

This seminar is an extension and compliment to the applied lesson and focuses on the art of performance. Enrollment in applied lessons and consent of instructor.

MUS-425F. Music Performance Seminar: Percussion. 2 Hours.

This seminar is an extension and compliment to the applied lesson and focuses on the art of performance. Enrollment in applied lessons and consent of instructor.

MUS-426. Orchestra. 1 Hour.

Open to all students with instrumental experience by audition. Opportunities for school and public performance.

MUS-427. Repertoire Seminar. 3 Hours.

This is the first semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied.

MUS-427A. Repertoire Seminar: Piano. 3 Hours.

This is the first semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied.

MUS-427B. Repertoire Seminar: Strings. 3 Hours.

This is the first semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied.

MUS-427C. Repertoire Seminar: Woodwinds. 3 Hours.

This is the first semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied.

MUS-427D. Repertoire Seminar: Voice. 3 Hours.

This is the first semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied.

MUS-427F. Repertoire Seminar: Brass. 3 Hours.

This is the first semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied.

MUS-427G. Repertoire Seminar: Percussion. 3 Hours.

This is the first semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied.

MUS-428A. Music Repertoire Seminar: Piano. 3 Hours.

This is the second semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied.

MUS-428B. Music Repertoire Seminar: Strings. 3 Hours.

This is the second semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied.

MUS-428C. Music Repertoire Seminar: Woodwinds. 3 Hours.

This is the second semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied.

MUS-428D. Music Repertoire Seminar: Voice. 3 Hours.

This is the second semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied.

MUS-428F. Music Repertoire Seminar:Brass. 3 Hours.

This is the second semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied.

MUS-428G. Music Repertoire Seminar:Percussion. 3 Hours.

This is the second semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied.

MUS-431A. Advanced Applied Music Pedagogy I: Piano. 3 Hours.

At an advanced level, this course explores various aspects of the field of teaching applied music. The course will explore available methods and materials and techniques of teaching students at various ages and levels of advancement. It will also focus on various approaches to teaching technique, placing them in a historical context and learning how to apply them to students at various levels of advancement.

MUS-431B. Advanced Applied Music Pedagogy I: Strings. 3 Hours.

At an advanced level, this course explores various aspects of the field of teaching applied music. The course will explore available methods and materials and techniques of teaching students at various ages and levels of advancement. It will also focus on various approaches to teaching technique, placing them in a historical context and learning how to apply them to students at various levels of advancement.

MUS-431C. Advanced Applied Music Pedagogy I: Brass. 3 Hours.

At an advanced level, this course explores various aspects of the field of teaching applied music. The course will explore available methods and materials and techniques of teaching students at various ages and levels of advancement. It will also focus on various approaches to teaching technique, placing them in a historical context and learning how to apply them to students at various levels of advancement.

MUS-431D. Advanced Applied Music Pedagogy I: Woodwinds. 3 Hours.

At an advanced level, this course explores various aspects of the field of teaching applied music. The course will explore available methods and materials and techniques of teaching students at various ages and levels of advancement. It will also focus on various approaches to teaching technique, placing them in a historical context and learning how to apply them to students at various levels of advancement.

MUS-431E. Advanced Applied Music Pedagogy: Voice. 3 Hours.

At an advanced level, this course explores various aspects of the field of teaching applied music. The course will explore available methods and materials and techniques of teaching students at various ages and levels of advancement. It will also focus on various approaches to teaching technique, placing them in a historical context and learning how to apply them to students at various levels of advancement.

MUS-431F. Advanced Applied Music Pedagogy I: Percussion. 3 Hours.

At an advanced level, this course explores various aspects of the field of teaching applied music. The course will explore available methods and materials and techniques of teaching students at various ages and levels of advancement. It will also focus on various approaches to teaching technique, placing them in a historical context and learning how to apply them to students at various levels of advancement.

MUS-432A. Advanced Applied Music Pedagogy II: Piano. 2 Hours.

This course builds upon the knowledge gained in Pedagogy I and continues its exploration of advanced topics in applied music pedagogy. These include music learning theories and their application to the teaching of applied music, analysis from a pedagogical point of view of teaching repertoire, and further exploration of technique in relation to teaching students of various levels of advancement. Special emphasis will be placed on the difficult problem of choosing appropriate repertoire for students which challenges the student in terms of his/her musical, technical, and psychological development.

Prerequisite: MUS-431A minimum grade of B.

MUS-432B. Advanced Applied Music Pedagogy II: Strings. 2 Hours.

This course builds upon the knowledge gained in Pedagogy I and continues its exploration of advanced topics in applied music pedagogy. These include music learning theories and their application to the teaching of applied music, analysis from a pedagogical point of view of teaching repertoire, and further exploration of technique in relation to teaching students of various levels of advancement. Special emphasis will be placed on the difficult problem of choosing appropriate repertoire for students which challenges the student in terms of his/her musical, technical, and psychological development.

Prerequisite: MUS-431B minimum grade of B.

MUS-432C. Advanced Applied Music Pedagogy II: Brass. 2 Hours.

This course builds upon the knowledge gained in Pedagogy I and continues its exploration of advanced topics in applied music pedagogy. These include music learning theories and their application to the teaching of applied music, analysis from a pedagogical point of view of teaching repertoire, and further exploration of technique in relation to teaching students of various levels of advancement. Special emphasis will be placed on the difficult problem of choosing appropriate repertoire for students which challenges the student in terms of his/her musical, technical, and psychological development.

Prerequisite: MUS-431C minimum grade of B.

MUS-432D. Advanced Applied Music Pedagogy II:Woodwind. 2 Hours.

This course builds upon the knowledge gained in Pedagogy I and continues its exploration of advanced topics in applied music pedagogy. These include music learning theories and their application to the teaching of applied music, analysis from a pedagogical point of view of teaching repertoire, and further exploration of technique in relation to teaching students of various levels of advancement. Special emphasis will be placed on the difficult problem of choosing appropriate repertoire for students which challenges the student in terms of his/her musical, technical, and psychological development.

Prerequisite: MUS-431D minimum grade of B.

MUS-432E. Advanced Applied Music Pedagogy II: Voice. 2 Hours.

This course builds upon the knowledge gained in Pedagogy I and continues its exploration of advanced topics in applied music pedagogy. These include music learning theories and their application to the teaching of applied music, analysis from a pedagogical point of view of teaching repertoire, and further exploration of technique in relation to teaching students of various levels of advancement. Special emphasis will be placed on the difficult problem of choosing appropriate repertoire for students which challenges the student in terms of his/her musical, technical, and psychological development.

Prerequisite: MUS-431E minimum grade of B.

MUS-432F. Advanced Applied Music Pedagogy II: Percussion. 2 Hours.

This course builds upon the knowledge gained in Pedagogy I and continues its exploration of advanced topics in applied music pedagogy. These include music learning theories and their application to the teaching of applied music, analysis from a pedagogical point of view of teaching repertoire, and further exploration of technique in relation to teaching students of various levels of advancement. Special emphasis will be placed on the difficult problem of choosing appropriate repertoire for students which challenges the student in terms of his/her musical, technical, and psychological development.

Prerequisite: MUS-431F minimum grade of B.

MUS-434A. Instrumental Ensemble: Brass. 1 Hour.

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor.

MUS-434B. Instrumental Ensemble: Percussion. 1 Hour.

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor.

MUS-434C. Instrumental Ensemble: Strings. 1 Hour.

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor.

MUS-434D. Instrumental Ensemble: Woodwinds. 1 Hour.

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor.

MUS-434E. Instrumental Ensemble: Accompanying. 1 Hour.

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor.

MUS-434F. Instrumental Ensemble: Piano Ensemble. 1 Hour.

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor.

MUS-434M. Instrumental Ensemble: Guitar. 1 Hour.

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor.

MUS-442. World Music. 3 Hours.

A study of world music, cultures and their values, as reflected in the arts; experiencing their music through performance on ethnic instruments, singing and dancing, listening to recordings, map study, with focus on methodology suitable for public school teaching.

MUS-450A. Applied Music: Flute. 0.5 Hours.

Individual study in voice or any instrument for continued development of performing skills and musical artistry: knowledge of the repertoire for the specific voice or instrument at an appropriate level of performing ability.

MUS-450B. Applied Music: Oboe. 0.5 Hours.

See course description for MUS-450A.

MUS-450C. Applied Music: Clarinet. 0.5 Hours.

See course description for MUS-450A.

MUS-450D. Applied Music: Saxophone. 0.5 Hours.

See course description for MUS-450A.

MUS-450E. Applied Music: Bassoon. 0.5 Hours.

See course description for MUS-450A.

MUS-450F. Applied Music: French Horn. 0.5 Hours.

See course description for MUS-450A.

MUS-450G. Applied Music: Trumpet. 0.5 Hours.

See course description for MUS-450A.

MUS-450H. Applied Music: Euphonium. 0.5 Hours.

See course description for MUS-450A.

MUS-450J. Applied Music: Trombone. 0.5 Hours.

See course description for MUS-450A.

MUS-450K. Applied Music: Tuba. 0.5 Hours.

See course description for MUS-450A.

MUS-450M. Applied Music: Percussion. 0.5 Hours.

See course description for MUS-450A.

MUS-450O. Applied Music: Jazz Piano. 0.5 Hours.

See course description for MUS-450A.

MUS-450P. Applied Music: Violin. 0.5 Hours.

See course description for MUS-450A.

MUS-450Q. Applied Music: Viola. 0.5 Hours.

See course description for MUS-450A.

MUS-450R. Applied Music: Cello. 0.5 Hours.

See course description for MUS-450A.

MUS-450S. Applied Music: String Bass. 0.5 Hours.

See course description for MUS-450A.

MUS-450T. Applied Music: Guitar. 0.5 Hours.

See course description for MUS-450A.

MUS-450U. Applied Music: Harp. 0.5 Hours.

See course description for MUS-450A.

MUS-450V. Applied Music: Voice. 0.5 Hours.

See course description for MUS-450A.

MUS-450W. Applied Music: Piano. 0.5 Hours.

See course description for MUS-450A.

MUS-450X. Applied Music: Jazz String Bass. 0.5 Hours.

See course description for MUS-450A.

MUS-450Y. Applied Music: Jazz Guitar. 0.5 Hours.

See course description for MUS-450A.

MUS-450Z. Applied Music: Jazz Voice. 0.5 Hours.

See course description for MUS-450A.

MUS-451A. Applied Music: Flute. 1 Hour.

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

MUS-451B. Applied Music: Oboe. 1 Hour.

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

MUS-451C. Applied Music: Clarinet. 1 Hour.

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

MUS-451D. Applied Music: Saxophone. 1 Hour.

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

MUS-451E. Applied Music: Bassoon. 1 Hour.

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

MUS-451F. Applied Music: French Horn. 1 Hour.

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

MUS-451G. Applied Music: Trumpet. 1 Hour.

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

MUS-451H. Applied Music: Euphonium. 1 Hour.

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

MUS-451J. Applied Music: Trombone. 1 Hour.

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

MUS-451K. Applied Music: Tuba. 1 Hour.

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

MUS-451O. Applied Music: Jazz Piano. 1 Hour.

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

MUS-451P. Applied Music: Violin. 1 Hour.

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

MUS-451Q. Applied Music: Viola. 1 Hour.

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

MUS-451R. Applied Music: Cello. 1 Hour.

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

MUS-451S. Applied Music: String Bass. 1 Hour.

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

MUS-451T. Applied Music: Guitar. 1 Hour.

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

MUS-451U. Applied Music: Harp. 1 Hour.

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

MUS-451V. Applied Music: Voice. 1 Hour.

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

MUS-451W. Applied Music: Piano. 1 Hour.

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

MUS-451X. Applied Music: Jazz String Bass. 1 Hour.

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

MUS-451Y. Applied Music: Electric Bass. 1 Hour.

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

MUS-452A. Applied Music: Flute. 2 Hours.

One-hour weekly lesson. Individual study in voice or any instrument for continued development of performing skills and musical artistry; knowledge of the repertoire for the specific voice or instrument at an appropriate level of performing ability. Consent of instructor or department chairperson and graduate standing.

MUS-452B. Applied Music: Oboe. 2 Hours.

One-hour weekly lesson. Individual study in voice or any instrument for continued development of performing skills and musical artistry; knowledge of the repertoire for the specific voice or instrument at an appropriate level of performing ability. Consent of instructor or department chairperson and graduate standing.

MUS-452C. Applied Music: Clarinet. 2 Hours.

One-hour weekly lesson. Individual study in voice or any instrument for continued development of performing skills and musical artistry; knowledge of the repertoire for the specific voice or instrument at an appropriate level of performing ability. Consent of instructor or department chairperson and graduate standing.

MUS-452D. Applied Music: Saxophone. 2 Hours.

One-hour weekly lesson. Individual study in voice or any instrument for continued development of performing skills and musical artistry; knowledge of the repertoire for the specific voice or instrument at an appropriate level of performing ability. Consent of instructor or department chairperson and graduate standing.

MUS-452E. Applied Music: Bassoon. 2 Hours.

One-hour weekly lesson. Individual study in voice or any instrument for continued development of performing skills and musical artistry; knowledge of the repertoire for the specific voice or instrument at an appropriate level of performing ability. Consent of instructor or department chairperson and graduate standing.

MUS-452W. Applied Music: Piano. 2 Hours.

One-hour weekly lesson. Individual study in voice or any instrument for continued development of performing skills and musical artistry; knowledge of the repertoire for the specific voice or instrument at an appropriate level of performing ability. Consent of instructor or department chairperson and graduate standing.

MUS-452X. Applied Music: Jazz String Bass. 2 Hours.

One-hour weekly lesson. Individual study in voice or any instrument for continued development of performing skills and musical artistry; knowledge of the repertoire for the specific voice or instrument at an appropriate level of performing ability. Consent of instructor or department chairperson and graduate standing.

MUS-463. Women In Music. 3 Hours.

A study of some of the most notable women composers and musicians from the Middle Ages to the present. Designed both for musicians and non-musicians, the course will focus equally upon aspects of the music of the historical, social and cultural milieu.

MUS-471. Seminar In Music History:Baroque. 3 Hours.

In-depth study of selected topics in the music history and literature of the Baroque. Individual research topics.

MUS-472. Seminar In Music History:Classic Era. 3 Hours.

In-depth study of selected topics in the music history and literature of the Classic era. Individual research topics.

MUS-476A. Theory Seminar: 20th Century Analytical Procedure And Compositional Techniques. 3 Hours.

The purpose of this course is to give the student an opportunity to explore this selected topic in music. Consent of instructor.

MUS-5901. Thesis Hours. 1 Hour.

Guidance of students preparing a thesis, project or recital to fulfill requirements for the Master of Arts in Music.

MUS-5902. Thesis Hours. 2 Hours.

See course description for MUS-5901.

MUS-5903. Thesis Hours. 3 Hours.

See course description for MUS-5901.

Major in Music

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Major in Music for the Bachelor of Music Degree

Emphasis Ia: Vocal Performance

Code	Title	Hours
Required Courses		
MUS-121	Music Theory I ¹	3
MUS-122	Music Theory II ¹	3
MUS-201	Music Theory III ¹	3
MUS-202	Music Theory IV ¹	3
MUS-124	Sight Singing And Ear Training I	1
MUS-125	Sight Singing And Ear Training II	1
MUS-343	Music Before 1600	3
MUS-344	Music From 1600 Through Beethoven	3
MUS-345	Music After Beethoven	3
MUS-334	Basic Conducting	2
Applied Music in the major performance area		16
MUS-335	Choral Conducting	2
Private study in voice:		
MUS-152V	Applied Music: Voice	
MUS-352V	Applied Music: Voice	
Piano ¹		
MUS-112	Class Piano I	1
MUS-113	Class Piano II	1
MUS-114	Class Piano III	1
(Students may fulfill up to 6 required piano hours with music electives after successfully completing a piano skill placement audition)		
MUS-210	Diction For Singers I	2
MUS-211	Diction For Singers II	2
MUS-327D	Repertoire Seminar: Voice	3
MUS-328D	Repertoire Seminar Varies: Voice	3
MUS-331E	Applied Music Pedagogy I: Voice	3
Large Ensemble (minimum) ³		8
MUS-221A	University Chorus	
MUS-222A	Vocal Ensemble: Chamber Singers	
MUS-222C	Vocal Ensemble: Opera Workshop	
MUS-222D	Vocal Ensemble: Music Theater	
Electives		6
Select one of the following in Music Theory:		
MUS-305	Form And Analysis I	
MUS-307	Class Composition	
MUS-308	Orchestration	
MUS-398B	Practicum In Music: Computer Music Studio	
Select one of the following in Music History:		
MUS-312	Writing Intensive Program: Beethoven (or dept. approved course)	
or MUS-321D	Writing Intensive Program: Seminar In Music History:Stravinsky	
MUS-340	Junior Recital	1
MUS-341	Senior Recital (or MUS 300)	1
Total Hours		75

¹ Music Majors take the following courses concurrently:

- Theory I and II (MUS-121 and MUS-122) are taken concurrently with Class Piano I and II (MUS-112 and MUS-113).
- Students with piano skill may audition for advanced placement.
- Theory III and IV (MUS-201 and MUS-202) are taken concurrently with Sight Singing and Ear Training I and II (MUS-124 and MUS-125).

² At least eight credit hours

³ Students must select at least 4 credits from MUS-221A or MUS-222A and 4 credits from MUS-222C or MUS-222D.

Vocal performance majors must also take:

Code	Title	Hours
Required Courses		
Foreign Language		6
Two courses selected from FREN-101 or ITAL-101 (satisfies two General Education requirements)		
Total Hours		6

Emphasis Ib: Instrumental Performance

Code	Title	Hours
Required Courses		
MUS-121	Music Theory I ¹	3
MUS-122	Music Theory II ¹	3
MUS-201	Music Theory III ¹	3
MUS-202	Music Theory IV ¹	3
MUS-124	Sight Singing And Ear Training I	1
MUS-125	Sight Singing And Ear Training II	1
MUS-308	Orchestration	3
Applied Music in the major performance area - Private study in an instrument:		16
MUS 152 (A-Z EXCEPT V)		
MUS 352 (A-Z EXCEPT V)		
Piano		6
MUS-112	Class Piano I	
MUS-113	Class Piano II	
MUS-114	Class Piano III	
Piano majors do not take Class Piano - (Students may fulfill up to 6 required piano hours with music electives after successfully completing a piano skill placement audition).		
MUS 327 (A,B,C,F, or G) Repertoire Seminar		3
MUS 328 (A,B,C,F, or G) Repertoire Seminar		3
MUS 331 (A, B, C, D, or F) Applied Music Pedagogy I		3
Large Ensemble - Select a minimum of 8 hours from the following:		8
MUS-231	Band	
MUS-226	Orchestra	
MUS-234E	Instrumental Ensemble: Accompanying (piano)	
MUS-234M	Instrumental Ensemble: Guitar	
Small Ensemble (see selected list in department)		5
Electives - Select one from each of the following:		6
Music Theory:		
MUS-305	Form And Analysis I	
MUS-307	Class Composition	
MUS-398B	Practicum In Music: Computer Music Studio	
Music History:		
MUS-312	Writing Intensive Program: Beethoven (or dept. approved course)	
or MUS-321D	Writing Intensive Program: Seminar In Music History:Stravinsky	
MUS-343	Music Before 1600	3
MUS-344	Music From 1600 Through Beethoven	3
MUS-345	Music After Beethoven	3
MUS-334	Basic Conducting	2
MUS-336	Instrumental Conducting	2
MUS-340	Junior Recital	1

MUS-341	Senior Recital (or MUS 300)	1
Total Hours		82

- ¹ Music Majors take the following courses concurrently:
- Theory I and II (MUS-121 and MUS-122) are taken concurrently with Class Piano I and II (MUS-112 and MUS-113).
 - Students with piano skill may audition for advanced placement.
 - Theory III and IV (MUS-201 and MUS-202) are taken concurrently with Sight Singing and Ear Training I and II (MUS-124 and MUS-125).

- ² Piano Majors must replace MUS-112, MUS-113 and MUS-114 with MUS-331A, and a 3 credit Elective

Junior and Senior Recitals: Students must select a committee of two music faculty in conjunction with their applied teacher (a total of three members). Students must pass a hearing before the recital is presented, prepare approved program notes, and receive a passing grade by the committee at the conclusion of the recital.

Students must perform a minimum of 30 minutes of music for a junior recital and 50 minutes of music for a senior recital.

Emphasis II a: K-12 Music Education: Vocal

Code	Title	Hours
Required Courses		
MUS-121	Music Theory I ¹	3
MUS-122	Music Theory II ¹	3
MUS-201	Music Theory III ¹	3
MUS-202	Music Theory IV ¹	3

MUS-393L	Clinical Field Experience (See piano proficiency requirement below)	2
Large Ensemble (minimum) ^{4,5}		8
MUS-221A	University Chorus	
MUS-222A	Vocal Ensemble: Chamber Singers	
MUS-222C	Vocal Ensemble: Opera Workshop	

MUS-222D	Vocal Ensemble: Music Theater	
Total Hours		67

- ¹ Music Majors take the following courses concurrently:
 - Theory I and II (MUS-121 and MUS-122) are taken concurrently with Class Piano I and II (MUS-112 and MUS-113).
 - Students with piano skill may audition for advanced placement.
 - Theory III and IV (MUS-201 and MUS-202) are taken concurrently with Sight Singing and Ear Training I and II (MUS-124 and MUS-125).
- ² At least four credit hours
- ³ Voice Students may fulfill up to 6 required piano hours with music electives after successfully completing a piano skill placement audition. Piano majors will replace Class Piano I, II, and III with 4 credits of MUS-151V Applied Vocal Music studies and 2 credits of music electives after passing a proficiency exam in voice.
- ⁴ Voice students must select 6 credits from MUS-221A or MUS-222A and 2 credits from MUS-222C or MUS-222D.
- ⁵ Piano majors must select 6 credits from MUS-221A or MUS-222A, 1 credit from MUS-222C or MUS-222D, and 1 credit of MUS-234E.

Code	Title	Hours
SCED-305N	Secondary Student Teaching And Seminar In Music	9

Students should also consult the Secondary Education and General Education section of this catalog.

Piano Music Education Students:

Piano majors must be proficient in voice to complete the music education program. Students must take applied lessons in voice until they pass the proficiency exam in order to complete the music education degree. The student's program must be approved by the advisor and may extend the time to degree.

NOTE: K-12 Music Education: Majors must obtain departmental approval for admission to student teaching.

Music Education Majors are required to pass the Piano Proficiency Exam prior to enrolling in MUS-393L. The Proficiency Exam is given once each semester. See advisor for schedule.

Upon attaining Junior status Music Education majors must apply for a Music Education Junior Interview. This interview serves as a general review of skill and knowledge applicable to the field of Music Education. The student's progress will be assessed and suggestions for improvement will be made. Contact the Music Education faculty for specific requirements and scheduling.

Emphasis II b: K-12 Music Education: Instrumental

Code	Title	Hours

Major in Music (BA degree)

The Bachelor of Arts offered through the Department of Music is designed for students who wish to study music in the context of a comprehensive liberal arts experience, immersing themselves in both the practice and theory. The B.A.'s flexibility allows for students to pursue specific music topics to augment their interests, as well as broaden their post-graduate career paths.

Students admitted to this program will be enrolled as Music Majors.

Admission Requirements:

- Participation in musical ensembles is a requirement of all music students, as well as attendance at live performances each semester. All students seeking admission to the music program must perform a live audition.

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

HIST-301	Medieval Europe	3
HIST-307A	The Age Of The Baroque	3
ITAL-101	Italian I	3
PSYC-200	General Psychology	4

Additional requirements

- Music Majors must take the following courses concurrently: Theory I and II (MUS 121 and 122) are taken concurrently with Class Piano I and II (MUS 112 and 113). Students with piano skill may audition for advanced placement. Theory III and IV (MUS 201 and 202) are taken concurrently with Sight Singing and Ear Training I and II (MUS 124 and 125).
- Music majors must attend 80 concerts, 70 of which must be Department of Music concerts.
- Music majors are required to attend Department of Music Convocations. Watch departmental bulletin boards for Convocation announcements. A missed Convocation will result in the removal of 2 recital/concert attendance cards from the student file.
- Music majors must earn a C or higher in all music classes.
- Students must complete a minimum of 40 semester hours at the 300 level to graduate.

Master of Arts in Music

MASTER OF ARTS IN MUSIC

The Music Department at NEIU offers a Master of Arts in Music degree in Applied Pedagogy. Pedagogy is defined as the art of teaching. This degree prepares students who already have a Bachelor's degree in music for successful 1) college level teaching, 2) in-service elementary and secondary public or private school teaching, 3) or for continuing into doctoral degree work.

REQUIREMENTS OF THE PROGRAM

- Completion of a Bachelors Degree in Music with a minimum GPA of 2.75
- Audition and approval for 400-level in major applied instrument/voice
- Letters of Recommendation about your music background
- Completion of Entrance Placement Exams in music history and music theory, to be completed before the first semester of enrollment.

AUDITION

Approval for the program requires approval by the appropriate applied faculty through an audition in the student's applied area (instrument or voice). 400-level approval is required. If a student is not approved for graduate (400) level, he/she may be asked to enroll at the 300-level as a remedial option and apply for graduate (400) level at the next audition date. This should be done only if the applied faculty believes strongly that the student has potential to attain 400-level in a reasonable amount of time (one or two semesters).

GRADUATE PLACEMENT EXAMS

The Graduate Placement Exams in Music History and Music Theory are required of all music students entering the graduate program. They are given annually before each semester and must be taken by all incoming students. No student will be accepted into the program until these exams are taken. If deficiencies are noted, the deadline for completing remedial course work or removing deficiencies is one year or 18 credits.

STUDENT-AT-LARGE STATUS

A student may enroll as a "student-at-large" while awaiting completion of his/her application approval. Up to nine (9) credit hours may be taken and transferred into the program. Note: A student-at-large is not eligible for a Graduate Tuition Scholarship.

Requirements for the Degree

The following sequences require a total of 34 credit hours, all of which must be earned in 400-level courses or approved 300-level courses. Participation in large or small ensembles for a minimum of three terms is required.

GRADUATE VIRTUAL COMMUNITY

Graduate music students must participate in the Music Department Virtual Community, an online forum where students and faculty share experiences, ideas, and knowledge.

THESIS HOURS (MUS 5901, 5902, 5903 - CREDIT VALUE VARIES)

Thesis Hours is the culminating course for the M.A. degree. This course is generally taken in the third semester of study after MUS 424 Bibliography has been completed. The student's thesis advisor and faculty thesis committee acts as a mentor and guide as the student pursues his/her research. This work will result in a submission and approval of the Thesis Proposal, Thesis Paper, and Lecture Recital (an hour long recital format in which the student lectures, performs/demonstrates the thesis topic).

COMPREHENSIVE EXAM

A comprehensive examination must be taken at the first possible exam date after the thesis paper is submitted and/or the recital is performed. The dates of the exam are concurrent with the Graduate Placement Exams and are offered on the first Friday in the month in August, December, and April. The Comprehensive Exam is a written test that evaluates what the student has learned in his/her area of specialty during graduate study. The test consists of two pedagogical/historical essay questions of which you choose one, and three score identifications. Students are expected to write intelligently about the musical content providing a thorough stylistic analysis and name a composer, probable date of composition, and title of the work. The Comprehensive Exam will be graded on a Pass/Fail basis. (The completed test must reflect a working knowledge of pedagogical craft, historical and theoretical perspective, and a graduate level writing ability).

Applied Music Pedagogy

Code	Title	Hours
MUS-424	Music Bibliography And Research	3
MUS 431 (A-F) Advanced Applied Music Pedagogy I		3

Select one of the following in Music History:		3
MUS-312	Writing Intensive Program: Beethoven	
MUS-321D	Writing Intensive Program: Seminar In Music History:Stravinsky	
MUS-471	Seminar In Music History:Baroque	
MUS-472	Seminar In Music History:Classic Era	
Select Music Theory:		3
MUS-405	Form and Analysis	
Select the appropriate large ensemble: ¹		3
MUS-411	Vocal Ensemble: Chorus	
MUS-412	Chamber Singers	
MUS-413	Opera Workshop	
MUS-414	Musical Theater	
MUS-423	Band	
MUS-426	Orchestra	
MUS-434E	Instrumental Ensemble: Accompanying	
MUS-434F	Instrumental Ensemble: Piano Ensemble	
MUS-434M	Instrumental Ensemble: Guitar	
Total Hours		34

¹ Ensemble Participation: Participation in a large ensemble for a minimum of three terms is required (wind and percussion students enroll in Band; guitar students enroll in Guitar Ensemble; string students [violin, viola, cello, and string bass] enroll in Orchestra; voice students enroll in University Chorus, Opera Workshop, Chamber Singers, or Musical Theater; piano students enroll in Piano Ensemble Four Hands, or Accompanying).

Minor in Dance

Minor in Dance (30 credit hours)

In consultation with the Dance Minor Advisor, the student designs an individualized and appropriately balanced program to meet personal interests and needs.

Resources in Dance

The department sponsors The Ruth Page Dance Series, a professional dance series which showcases diverse styles of dance. Students also have the opportunity to apprentice with professional dance companies. Ensemble Español, the professional company in residence, offers qualified dance students opportunities to participate in intensive workshops throughout the year, and performs on campus regularly. The Department offers the American Spanish Dance Festival each summer with Ensemble Español and international guest artists. Qualified dance students may enroll for credit.

Awards

Scholarships are available to outstanding students in Music and Dance. Undergraduate Talent Scholarships (tuition waivers) in Music and in Dance are awarded through audition. Qualified students must not hold a bachelor's degree. Graduate Scholarships are also available through audition. Complete information is available in the Department.

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

- * Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.
- ** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Minor in Dance (30 credit hours)

Students entering the program must demonstrate technical ability and must obtain the advisor's approval for the total program plan. Students must complete 6 hours of DANC-360 and 3 hours of DANC-390E Performance to satisfy dance minor requirements. Students in the Early Childhood Education programs who have selected this minor must complete a minimum of 9 hours at the 300-level to meet graduation and licensure requirements. Some dance classes may be taken more than once. Consult with the Coordinator of Dance for more information.

Dance Ensembles include:

- Repertory Ensemble
- Spanish Dance Ensemble

Minor in Music (23 credit hours)

In consultation with the Music Minor Advisor, the student designs an individualized and appropriately balanced program to meet personal interests and needs. Courses are selected from the departmental curriculum and may not include MUS-101. Students must obtain the advisor's approval for the total program plan and declare the minor prior to coursework. The curriculum plan must include:

- Music Theory (6 credits),
- Music History (3 credits), and
- Music Technology (3 credits).

Individual applied instruction and ensemble credits may be combined for a maximum of 5 credits. Applied and ensemble credits must be approved by the minor advisor in advance. All music minors must attend a total of 20 concerts sponsored by the Department of Music. A total of five concerts occurring in off-campus venues may be applied to the required 20 if approved in advance by the student's Music Minor Advisor.

Students in the Elementary Education and Early Childhood Education programs who have selected this minor must complete a departmental course of study and a minimum of 9 hours at the 300-level to meet graduation and licensure requirements.

Please see department office to meet with a music minor advisor.

Philosophy

Philosophy, broadly defined, is the systematic inquiry into some of the fundamental questions of human existence. In this sense, the study of philosophy has always been an essential ingredient of a liberal education.

Philosophy is inherently interdisciplinary. Its focus on the development of the abilities to reflect, analyze, and think critically enables students to understand and correlate all the insights garnered from other disciplines.

Philosophy emphasizes questions of meaning, from linguistic expressions to life itself, and calls for justification of claims to knowledge from any source.

The primary goals of the program are to contribute significantly to the liberal arts education of university students, to prepare students for advanced study in their chosen field, and to help students in their future professional activities by acquainting them with applied philosophy.

- Major in Philosophy (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/philosophy/philosophy/>)
- Minor in Philosophy (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/philosophy/minor-philosophy/>)

Lesa Davis, Ph.D., Professor, Chair

Stacey Goguen, Ph.D., Assistant Professor, Advisor

Affiliate Faculty:

Sophia Mihic, Ph.D., Professor

PHIL-101. Critical Thinking. 3 Hours.

This course teaches the skills necessary to make and evaluate arguments. We cover how arguments are structured and properly used in reasoning, persuasion, deliberation, and inquiry. Students will learn how to distinguish good arguments from bad, to identify common fallacies of argumentation, and to avoid cognitive biases in reasoning.

PHIL-102. Introduction To Philosophy. 3 Hours.

Introduction to the main problems of philosophy, i.e. knowledge, reality, morality, religion and art.

PHIL-201. Logic I. 3 Hours.

Introductory course in symbolic logic, dealing with propositional calculus, quantification theory and the logic of relations and classes.

PHIL-202. Comparative Religion. 3 Hours.

A comparative study of the main beliefs and practices of early and primal religions, Hinduism, Buddhism, Confucianism, Taoism, Judaism, Christianity and Islam.

PHIL-213. Ethics. 3 Hours.

Introduction to some of the main problems of ethics, including the nature of morality, the meaning of ethical terms, standards for evaluating choices and actions, and the major ideas of important moral philosophers.

PHIL-215. Business Ethics. 3 Hours.

Philosophical introduction to the ethical content of some of the current problems confronting the business community, such as the social responsibility of business, poverty and equal rights, the ethical implications of ecology, advertising and consumerism.

PHIL-218. Philosophy Of Sex. 3 Hours.

In this course we will look at a wide range of philosophical topics related to human sexuality-perversion, prostitution gender roles, and sex roles. Along the way will examine the role of power and coercion in sex and we will examine some of the psycho-social implications of sexual violence. The course will have a decidedly normative bent insofar as our analysis and discussion will be conducted through the lens of ethics.

PHIL-251. Philosophy Of Art. 3 Hours.

An examination of art and aesthetic experience, including personal, social and political significance. Issues explored may include artistic concepts pertaining to form and content, representation and expression, meaning and truth critical interpretation and evaluation.

PHIL-300. History Of Ancient Philosophy. 3 Hours.

This course introduces some of the major thinkers and themes of Ancient Western Philosophy. It will focus in particular on the work of Plato, Aristotle, and the Hellenists.

PHIL-301. History Of Medieval Philosophy. 3 Hours.

Critical survey of the development of philosophy in the West from the rise of Christendom to the dawn of the Renaissance.

PHIL-302. History Of Modern Philosophy. 3 Hours.

A critical survey of the development of philosophy in the West in the seventeenth and eighteenth centuries.

PHIL-303. Logic II. 3 Hours.

Study of the theory and development of axiomatic systems, including the problems of definability, completeness and consistency.

Prerequisite: PHIL-201 minimum grade of D.

PHIL-305. Comparative Religion. 3 Hours.

A comparative study of the epistemological, metaphysical, and ethical beliefs and practices of a range of world religions including Hinduism, Buddhism, Confucianism, Taoism, Judaism, Christianity, and Islam.

PHIL-306. Logic III. 3 Hours.

Prerequisite: PHIL-303 minimum grade of D.

PHIL-311. Writing Intensive Program: Reasoning In Writing. 3 Hours.

This is a workshop and discussion-based course that teaches students techniques for reading, writing, and researching philosophy, which form a foundation set of skills for other philosophy courses. Students will learn how to identify an author's philosophical project, how to motivate an introduction, how to assess their own arguments in writing, how to practice philosophical charity, how to further an academic conversation in the service of a real-world issue, and how to engage with multiple sources and authors.

Prerequisite: ENGL-101 minimum grade of C.

PHIL-313. Ethical Theory. 3 Hours.

Study of theories about the meaning and justification of moral judgements: good and bad, right and wrong, human rights, justice, punishment, freedom and responsibility, self-interest, the common good, pleasure and happiness, religion and morality, relativism, subjectivism and scepticism.

PHIL-315. Medical Ethics. 3 Hours.

This course will focus on the ethical dilemmas both doctors and patients confront as practitioners and patients in medicine. We will pay careful attention to the issues of paternalism, voluntary informed consent and personhood and apply these ideas to actual cases.

Prerequisites: PHIL-213 and ((and) or).

PHIL-316. Ethics Bowl. 1 Hour.

Ethics Bowl provides students with a unique opportunity to apply moral argumentation to real world cases. The Intercollegiate Ethics Bowl combines the excitement a competitive tournament with a valuable educational experience. Students will examine a series of case studies from a number of practical contexts, including engineering, law, medicine, personal relationships, school, and politics, both nationally and internationally. During the semester students will research and prepare these cases for competition. All students in the course will practice and present on cases, but students may decide if they wish to compete in the actual Ethics Bowl competition in November.

PHIL-332. Contemporary Philosophy. 3 Hours.

Critical survey of the salient schools of contemporary philosophy, notably idealism, pragmatism, logical positivism, analytic philosophy, phenomenology and existentialism.

PHIL-333. American Philosophy. 3 Hours.

Intensive study of the trends prevalent in the modern American philosophical scene, notably pragmatism, idealism, naturalism, positivism, philosophical analysis and phenomenology.

PHIL-335. Analytic Philosophy. 3 Hours.

Critical survey of the development of analytic philosophy in the twentieth century.

PHIL-337. Existentialism. 3 Hours.

Intensive study of selected works of existentialist thinkers such as Kierkegaard, Nietzsche, Sartre and Camus.

PHIL-339. Post Modernism. 3 Hours.

This course will examine the rise of modernity as an "age of unrest", and therein delineating the confrontation between contemporary philosophy and the current epoch. To this end, we will assess the precise ways in which modernity has cast itself forward as a historical and epistemological rupture of devastating proportions, one that irrevocably alters our understanding of knowledge, society, power, technology, language, and the question of human experience.

PHIL-341. Metaphysics. 3 Hours.

Systematic analysis of some of the main problems of metaphysics, such as existence, substance and attribute, change and permanence, essence and accident, universals and particulars, mind and body, identity, individuation and causality.

PHIL-344. Buddhism. 3 Hours.

The course will begin with an analysis of Buddhism's origins within Hinduism and the early development of its religious beliefs and philosophical concepts in India. It will continue with an in depth look at its spread throughout Asia and the transformation of its core beliefs and concepts within the main traditions of Theravada, Mahayana, and the Vajrayana. The course will include a study of current global trends, such as the rise of political and social engagement and the impact of Buddhism on western philosophical traditions including existentialism and phenomenology.

PHIL-345. Social And Political Philosophy. 3 Hours.

Systematic investigation of some of the salient issues currently discussed by social and political philosophers, such as the nature and origin of the state, political obligation, justice, human rights, authority, liberty and evaluation of social and political institutions.

PHIL-346. 19th Century Continental Philosophy. 3 Hours.

This course focuses on the development of German Idealism and its relation to Continental Philosophy. Thematically the class will cover topics such as freedom, epistemology, aesthetics, philosophy of history, and politics in the work of Kant, Fichte, Schelling, Hegel, and Marx.

PHIL-347. Phenomenology And Hermeneutics. 3 Hours.

This class introduces students to the basic methods, themes, and critiques advanced in the philosophical movements known as phenomenology and hermeneutics. This class will survey three types of phenomenology: transcendental phenomenology, genetic phenomenology, and hermeneutical phenomenology. We will explore the intersections between these types of phenomenology and the analysis of time, embodiment, culture, art, and politics.

PHIL-348. Computer Ethics And Public Policy. 3 Hours.

This course discusses ethical and social issues related to the development and use of computer technology. The course provides students with historical and philosophical context to understand the evolution of ethics and its intersection with the use of technology as well as an examination of major ethical issues currently affecting the use of computer technology. Topics involve ethics, public policy, privacy, responsibility and the law.

PHIL-353. Feminism And The Philosophy Of Science. 3 Hours.

Analytic examination of the concept of femininity as found in the biological and social sciences in order to facilitate discussion of the nature of objectivity and scientific investigation.

PHIL-362. Philosophy Of Law. 3 Hours.

In this course, we will engage in an examination of law and legal systems, as well as of the ideas, ideologies, and principles that are at the core of the establishment and interpretation of law. The pervasive presence of law in our lives should encourage us not only to understand it, but to scrutinize its foundations and presuppositions. Toward this end, we will pay special attention to three aspects of philosophy of law: analytic jurisprudence, normative jurisprudence, and critical law theory.

PHIL-364. Critical Race Theory. 3 Hours.

This course begins with the recognition that racism is prevalent in the United States. Critical Race Theorists confront the historical centrality of white supremacy and the complicity of the law in upholding, indeed constructing, racism. Following the challenge to ahistoricism and acontextualism embedded in standard legal practice brought by Critical Legal Theorists, Critical Race Theorists address racism as embedded in U.S. legal structure. We will examine the law's role in the construction and maintenance of social domination and subordination in order to understand and articulate a critical race theoretical approach to the intersections of race, gender, class and the law.

PHIL-365. Environmental Ethics. 3 Hours.

How ought we behave towards nature and what are the implications of human interaction with ecosystems? We will pay special attention to the value of restored nature and whether it is a form of human domination or whether restoration is a legitimate endeavor to be pursued out of moral obligation. We will integrate actual cases into the class in order to flesh out the policy implications of our philosophical commitments.

PHIL-366. Feminist Ethics. 3 Hours.

What is feminism? What is Feminist Ethics? How do feminists differ in their ways of thinking about the good life and acting in the world than a non-feminist? Why do they differ in their understanding of these issues? How should we live our lives in a way that reflects feminist values? These are just some of the questions we will explore in this class. Specifically, we will explore the key concepts of different types of feminist ethics and the ways to apply it to our everyday lives.

PHIL-367. Postcolonialism. 3 Hours.

In this course we will move toward not a postcolonialism that transcends colonialism, but thinking with those who work toward a practice of decolonial thinking. While there have been many empires which have plundered pre-existing cultures and civilizations, modern colonialism did more than extract tribute, goods and wealth from conquered countries. It restructured economies, societies, languages, histories. Thus, while political colonialism is over in many locales, economic and cultural colonialism reverberate within both former colonies and colonizing countries. Postcolonial theorists write from the margins of and in resistance to reverberating colonial cultural productions.

PHIL-370. Re-Thinking Race & Gender. 3 Hours.

This intensive summer course runs for ten days over three weeks. It takes up history critically to engage in a concentrated re-thinking of how we learn to see, identify, and inhabit issues of race and gender. Workshops, lectures, and sessions with invited guests will unpack structures and relations of race and gender and the ways they get naturalized. The course is designed for graduates, undergraduates, and teachers, and is cross-listed in the Graduate College and the College of Arts and Sciences. Prereqs: Graduate status or Junior/Senior status in English, Philosophy, Political Science, Sociology, WGS, AFAM, or LGBTQ.

PHIL-371. Theory Of Knowledge. 3 Hours.

Systematic inquiry into the nature of knowledge, with a consideration of such topics as ways of knowing, perception, memory, personal identity, and other minds.

PHIL-373. Feminist Philosophy. 3 Hours.

Analytic investigation of the latest feminist theory in order to study the development of feminism.

PHIL-374. Philosophy Of Sex. 3 Hours.

Students will examine philosophical topics related to human sexuality, such as the metaphysics of sex acts; political philosophy of sexual coercion and violence; ethical issues of sex work; and analysis of different types of sexual and romantic relationships, such as monogamy and polyamory.

PHIL-375. Philosophy Of Science. 3 Hours.

Examination of some of the main problems currently discussed by philosophers of science, such as the methodology and foundations of empirical science, the meaning and verification of scientific statements, theories, laws, hypotheses and explanations.

PHIL-381. Independent Study In Philosophy. 3 Hours.

Readings, discussions, and reports on a special topic with faculty supervision. Normally open to majors in their junior or senior year.

PHIL-384. Philosophy Of Religion. 3 Hours.

This course examines questions concerning the existence, nature and evidence for the primary and fundamental objects of religious belief. Topics may include the following: 1) Can we demonstrate God's existence? 2) Is faith irrational? 3) Can we know anything about God? 4) Is the existence of evil evidence against the existence of God? 5) Is religion necessary for morality?.

PHIL-385. Philosophy Of Mind. 3 Hours.

This course examines the central issues and debates in philosophy of mind from both historical and contemporary perspectives. Topics covered may include theories of the mind's relation to the body (dualism, monism, functionalism, behaviorism, identity theory, eliminative materialism), theories of mental content, free will, personal identity and first-person experience, among others.

PHIL-387. The Political Thought Of Hannah Arendt. 3 Hours.

This course investigates the work of Hannah Arendt on politics, society and political action. Our primary questions will be: what does political action require and what can it accomplish? Specific course topics may include civil disobedience, the relationship between history and political theory, the meanings of power and violence, colonialism, totalitarian rule during the Third Reich and the Soviet era, and racial prejudice as a political tool.

PHIL-388. Philosophy Of Language. 3 Hours.

This course focuses on language use and begins with theoretical challenges from both the analytic (Wittgenstein) and continental (Derrida) traditions in philosophy to idealized theories of language, particularly the reference theory of language <the idea that words are mere labels for things> as well as the idea that language is a pure and formal unity. We will explore strategies of using language to construct consensus through both syntax and semantics, generating commitment to particular and tacit understandings. We will also work on theories of metaphor and performatives to become skilled in articulating practical complexities of language use.

PHIL-389. Inter-Disciplined Foucault. 3 Hours.

This course explores Michel Foucault's theories of language, truth, knowledge, and power across academic disciplines. Topics covered will include his work in the philosophy of inquiry, and his studies of prisons, sexuality, the legal order, art, and literary representation.

PHIL-390. Classical Political Theory. 3 Hours.

This course studies the political thought of Socrates, Plato and Aristotle in the broad historical and cultural context of the classical era. Readings may include literary works and histories from Greek, Roman, Biblical and Chinese sources. We will attend carefully to the distinctiveness of ancient texts and historical experiences with the goal of considering how classical formulations of enduring concepts and themes inform and contrast with contemporary ethical and political practices.

PHIL-391. Modern Political Theory. 3 Hours.

This course studies the development of modern political philosophy and practice. We will address the emergence of modern humanism and republican self-rule, analyze obligation and the rule of law in the contract tradition, and examine ongoing conflicts between authority and freedom and power and equality in the 19th, 20th and 21st centuries. Readings may include works by Hegel, Hobbes, Machiavelli, Marx, J.S. Mill, Nietzsche, Rousseau, Wollstonecraft, and American literary perspectives on the problem of race and racism in democratic politics.

PHIL-393. Seminar In Ethics. 3 Hours.

This course involves an intensive study of a topic or philosopher important to the field of ethics. Students should be prepared to engage in critical analysis of current research in the field and be prepared to present a research paper at the end of the course.

PHIL-394. Seminar In Epistemology. 3 Hours.

This course involves an intensive study of a topic or philosopher central to the subfield of Epistemology. Students should be prepared to engage in critical analysis of current research in the field and be prepared to present a research paper at the end of the course.

PHIL-395. Seminar In Metaphysics. 3 Hours.

This course involves an intensive study of a topic or philosopher central to the subfield of Metaphysics. Students should be prepared to engage in critical analysis of current research in the field and be prepared to present a research paper at the end of the course.

PHIL-396. Seminar In The History Of Philosophy. 3 Hours.

This course involves an intensive study of a topic or philosopher central to the field of the History of Philosophy. Students should be prepared to engage in critical analysis of current research in the field and be prepared to present a research paper at the end of the course.

PHIL-397. Seminar In Social And Political Philosophy. 3 Hours.

This course is an intensive study of a topic or philosopher central to the field of social and political philosophy. Students should be prepared to engage in critical analysis of primary sources and current research in the field. Students should also be prepared to present a research paper at the end of the course.

Major in Philosophy

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Major in Philosophy for the Bachelor of Arts Degree (33 credit hours)

Code	Title	Hours

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Minor in Philosophy (18 credit hours)

Code	Title	Hours
Required Courses		
PHIL-213	Ethics	3

History of Philosophy (one course) ¹	3
Elective at the 300-level	3
Additional PHIL electives	9
Total Hours	18

¹ History of Philosophy courses include PHIL 300: History of Ancient Philosophy, PHIL 301: History of Medieval Philosophy, PHIL 302: History of Modern Philosophy, PHIL 390: Classical Political Theory, PHIL 391: Modern Political Theory."

Students in the Elementary Education and Early Childhood Education programs who have selected this minor must complete a minimum of 9 hours at the 300-level to meet graduation and certification requirements.

Physics

The Department of Physics offers a program leading to the Bachelor of Science degree. An undergraduate minor is also available.

The goals of the Physics program are to:

1. provide students with a solid foundation in classical and modern physics;
2. develop skills which enable students to enter careers in business, teaching, research, and technology;
3. prepare students for graduate study in physics.

Courses offered at the 100 level are for non-majors, and can be used to fulfill General Education program requirements, and require minimal math preparation.

Students should also be aware of the University requirements for the Bachelor's degree. All students must complete a minimum of 40 semester hours at the 300 level.

All 300-level courses in Physics are offered in the evening.

Facilities available to students include computer workstations, a BEOWULF supercomputer, a scanning tunneling microscope, a wide array of sophisticated electronic, nuclear, and optical instruments, a Mössbauer effect apparatus, a fully equipped cryogenics laboratory, a fully equipped optics laboratory including a Spiricon Laser Beam Analyzer, a vacuum laboratory, and a 14" reflecting telescope. Students are encouraged to undertake independent projects of their own choosing.

Qualified undergraduate majors and minors are eligible to apply for a limited number of tuition waivers, scholarships, and part-time jobs offered. Please contact the Physics advisor for information and application forms.

Newly admitted students-at-large, and all entering freshmen and transfer students who intend to major in physics must consult the Physics advisor or the Physics Department chair before their first registration.

 Sudha Srinivas, Ph.D., Professor

PHYS-103. The Universe: Past, Present And Future. 3 Hours.

An introductory-level Astronomy/Astrophysics course for non-science majors requiring no previous college-level science background. The evolution of the universe: Big Bang creation, expansion of the universe, formation, development and properties of stars, endings of the universe; as well as the history of our understanding of the universe from the perspectives of culture, philosophy science. Knowledge of basic algebra skills is assumed.

Prerequisite: (MATH-091 - 499 or MATH-091A - 499Z or NEIU Math Placement Result 02 - 45 or ACT Math 19 - 36 or Accuplacer Elementary Algebra 060 - 084 or Accuplacer College Level Math 020 - 120).

PHYS-104. Energy. 3 Hours.

A course for non-science majors requiring no previous college-level mathematics or science background. Physics and its application to the problems of energy consumption and production are discussed. Topics include the need for nuclear reactors and the implications thereof, the dumping of nuclear waste at sea and alternatives, better energy sources and energy depletion, the motion of pollutants through the environment, and other related topics.

PHYS-108. Physics Concepts For Educators. 4 Hours.

A laboratory oriented course that integrates concepts from geometry, algebra and trigonometry. Central concepts of physics (the laws of mechanics and electricity, the properties of light, atoms and nuclei) and how they are applied in the modern world (rockets, electric motors, optical instruments, automobiles, fuel cells, alternative fuels, stationary i.e. power plant and non-stationary i.e. aircraft, green technology etc.) are investigated. Issues of smart materials, celestial mining, nanotechnology, quantum computing and other contemporary critical technologies may be investigated.

Discussion may include topics and concepts related to robotics, kinematics and dynamics of particles and rigid bodies and electrostatics, electric fields, electric potentials, currents, magnetic fields, wave motion. Basic concepts of geology, meteorology, oceanography and the solar system may be threaded throughout. Course content is aligned to the National Science Teachers Association and the dimensions of the Next Generation of Science Standards. PHYS-108 is linked to MATH-280.

PHYS-110. Physics In Everyday Life. 3 Hours.

A laboratory oriented course for the non-science major. Central concepts of physics (the laws of mechanics and electricity, the properties of light, atoms and nuclei) and how they are applied in the modern world (rockets, electric motors, optical instruments, automobiles, toys, etc.). Knowledge of basic algebra skills is assumed. Lecture 2 hours, lab 2 hours.

Prerequisite: (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120).

PHYS-200. Introduction To College Physics. 3 Hours.

Prerequisite: MATH-106 minimum grade of D.

PHYS-201. College Physics I. 3 Hours.

Kinematics and dynamics of particles and rigid bodies: Newton's laws, energy, momentum and angular momentum. Physics of fluids, vibration and sound. Heat and thermodynamics.

Prerequisite: MATH-185 minimum grade of D or MATH-106 minimum grade of D.

PHYS-201L. College Physics I With Lab. 5 Hours.

This is the first course of a two-term algebra based lecture and laboratory sequence intended for non-physics majors, PHYS-201L and PHYS-202L. Kinematics and dynamics of a particle and systems of particles, momentum, energy, angular momentum, conservation laws, applications to problems involving collisions, oscillatory motion and motion in a gravitational field, rigid body motion, temperature, heat, the laws of thermodynamics, application to thermodynamic engines, and ideal gases are discussed. Lecture: 4hrs. Lab: 2 hrs.

PHYS-202. College Physics II. 3 Hours.

Electrostatics, Coulomb's law, electric fields, electric potentials, currents, Ohm's law, magnetism, magnetic fields, the forces on or due to moving charges, induction, electromagnetic radiation, wave motion, physical and geometrical optics.

Prerequisite: PHYS-201 minimum grade of D.

PHYS-202L. College Physics II With Lab. 5 Hours.

This is the second course of a two-term algebra based lecture and laboratory sequence intended for non-physics majors, PHYS-201L and PHYS-202L. Electrostatics, Coulomb's law, electric fields, electric potentials, currents, Ohm's law, magnetism, magnetic fields, the forces on or due to moving charges, induction, electromagnetic radiation, wave motion, physical and geometrical optics will be discussed. Time permitting concepts in modern physics such as special relativity, quantum physics and radioactivity will also be discussed. Lecture: 4 hrs. Lab: 2 hrs.

PHYS-203. Physics I Laboratory. 1 Hour.

Laboratory course covering the subject matter of Physic I, and meant to be taken concurrently.

PHYS-204. Physics II Laboratory. 1 Hour.

Laboratory course covering the subject matter of Physic II, and meant to be taken concurrently.

PHYS-206. University Physics I. 3 Hours.

This is the first term of a three-term sequence intended for students majoring in physics, chemistry, or mathematics, PHYS-206, PHYS-207, PHYS-215. kinematics and dynamics of a particle and systems of particles, momentum, energy, angular momentum, conservation laws, applications to problems involving collisions, oscillatory motion and motion in a gravitational field, rigid body motion, temperature, heat, the laws of thermodynamics, application to thermodynamic engines and ideal gases are discussed.

Prerequisite: (MATH-107 minimum grade of D or MATH-187 minimum grade of D).

PHYS-206L. University Physics I With Lab. 5 Hours.

This is the first term of a two-term calculus based lecture and laboratory sequence intended for students majoring in physics, biology, chemistry, earth science or mathematics, PHYS-206L and PHYS-207L. Kinematics and dynamics of a particle and systems of particles, momentum, energy, angular momentum, conservation laws, applications to problems involving collisions, oscillatory motion and motion in a gravitational field, rigid body motion, temperature, heat, the laws of thermodynamics, application to thermodynamic engines, and ideal gases are discussed. Lecture: 3 hrs. Lab: 2 hrs.

Prerequisite: MATH-187 minimum grade of D.

PHYS-207. University Physics II. 3 Hours.

Charges, Coulomb's and Gauss's laws, conductors and dielectrics, Ohm's law, magnetic fields, Ampere's Law, motion of charges in magnetic field, Faraday's law, inductance, simple L.R.C. circuits, magnetic properties of matter, electromagnetic waves, kinematics of wave motion, reflection, interference and diffraction.

Prerequisite: PHYS-206 minimum grade of D.

PHYS-207L. University Physics II With Lab. 5 Hours.

This is the second course of a two-term calculus based lecture and laboratory sequence intended for students majoring in physics, biology, chemistry, earth science or mathematics. Charges, Coulomb's and Gauss's laws, conductors and dielectrics, Ohm's law, magnetic fields, Ampere's law, motion of charges in a magnetic field, Faraday's law, inductance, simple L.R.C. circuits, magnetic properties of matter, electromagnetic waves, kinematics of wave motion, reflection, refraction, interference, and diffraction are discussed. Lecture: 3 hrs. Lab: 2 hrs.

Prerequisites: PHYS-201 minimum grade of C and MATH-187 minimum grade of C or (PHYS-206 minimum grade of C or PHYS-206L minimum grade of C).

PHYS-211. Physics I Seminar. 1 Hour.

Enrichment Seminar accompanying PHYS-201 or PHYS-206. Students do problem solving in collaborative groups on material derived from and supplementing University Physics I or College Physics I to gain a deeper understanding of concepts and applications.

PHYS-212. Physics II Seminar. 1 Hour.

Enrichment Seminar accompanying PHYS-202 or PHYS-207. Students do problem solving in collaborative groups on material derived from and supplementing University Physics II or College Physics II to gain a deeper understanding of concepts and applications.

PHYS-215. Physics III. 4 Hours.

Introduction to the physics of the twentieth century, including application to related fields such as biology, chemistry, earth science, and engineering. Fundamental concepts of special relativity, quantum mechanics, and statistical physics as applied to atomic, molecular, nuclear and solid state physics.

Prerequisite: PHYS-202 minimum grade of D or PHYS-207 minimum grade of D.

PHYS-300. Interdisciplinary Seminar In STEM. 2 Hours.

This course uses a hands-on approach to modern inquiry-based research problems and techniques in the physical and computational sciences. The course is structured around a series of modular problem-based exercises, covering topics from the fields of Chemistry, Computer Science, Earth Science, Mathematics and Physics, and is designed to provide the content and pedagogical background for students to be successful peer leaders. The cross-disciplinary modules will draw connections between scientific disciplines, and showcase common research tools and techniques used in the sciences. The workshop will also incorporate discussions on a range of topics, from scientific ethics, scientific methodology and error analysis.

Prerequisite: MATH-185 minimum grade of C.

PHYS-301. Independent Study In Physics. 1 Hour.

Research, laboratory work, study or tutorial in a specific area of physics under faculty supervision.

PHYS-302. Independent Study In Physics. 2 Hours.

(See PHYS-301 for description.).

PHYS-303. Independent Study In Physics. 3 Hours.

(See PHYS-301 for description.).

PHYS-304. Physics For Elementary School Teachers I. 3 Hours.**PHYS-305. Modern Physics I. 3 Hours.**

This course covers the advances made in the discipline of physics during the first half of the twentieth century that continue to drive the technologies we use today. Topics that will be covered include an introduction to the theory of relativity, elementary quantum theory, and its applications to atomic, molecular and nuclear physics.

Prerequisite: PHYS-207 minimum grade of C or PHYS-202 minimum grade of C.

PHYS-306A. Modern Physics II. 3 Hours.

Modern Physics II is the second part of a two course sequence covering advances made in physics during the twentieth century. This content includes aspects of the general theory of relativity, cosmology, thermal physics, and applications of elementary quantum theory to atomic physics, molecular physics, nuclear physics, particle physics and condensed matter physics. Prerequisites: PHYS-305: Modern Physics I.

Prerequisite: PHYS-305 minimum grade of D.

PHYS-307. Writing Intensive Program: Modern Physics Lab. 3 Hours.

An introduction to intermediate-level experimental methods, scientific writing, and investigations which provided the experimental foundation for the major revolutions in 20th century physics. Students will perform classic modern physics experiments which demonstrate quantization in nature, wave particle duality, and the properties and interactions of fundamental particles. Students will present written results of their investigations in a variety of formats common in the discipline.

Prerequisites: ENGL-101 minimum grade of C and PHYS-305 minimum grade of C.

PHYS-308. Introductory Mathematical Physics. 3 Hours.

Vector and tensor analysis, matrices and matrix algebra, ordinary differential equations with constant coefficients; Fourier series, introduction to complex variables.

Prerequisites: MATH-203 minimum grade of D and PHYS-207 minimum grade of D.

PHYS-309. Fortran And Numerical Analysis For Scientists. 3 Hours.

Introduction to the use of computers in solving scientific problems; Fortran programming is described and applied to several fundamental problems.

Prerequisite: MATH-202 minimum grade of D.

PHYS-311. Mechanics I. 3 Hours.

Statics of particles and rigid bodies, kinematics and dynamics of particles (including damped and forced harmonic oscillators), work and energy, linear and angular momentum, conservation laws, dynamics of rigid bodies, introduction to special relativity.

Prerequisite: PHYS-308 minimum grade of D.

PHYS-321. Electricity And Magnetism I. 3 Hours.

Coulomb's law, electric fields and electrostatic potential, Gauss's law, Poisson's equation, capacitance, dielectric media, current density, simple circuits, magnetic fields, Lorentz force, magnetic media, induction, Ampere's law, inductance, Maxwell's equations.

Prerequisite: PHYS-308 minimum grade of D.

PHYS-324. Advanced Classical Physics. 3 Hours.

Introduction to advanced topics in classical physics in preparation for the study of modern physics. Topics include the Lagrangian Formalism of classical mechanics and its application to the theories of planetary motion, small oscillations, rigid body mechanics; Maxwell's equations, radiation and propagation of electromagnetic waves, the theory of special relativity.

Prerequisite: PHYS-311 minimum grade of D.

PHYS-330. Intermediate Physics Laboratory. 3 Hours.

An introduction to scientific measurement procedures, with special attention paid to the examination of error and uncertainty and to certain widely used experimental techniques and their application. Techniques used include those in optics, electronics and atomic, solid state and nuclear physics. Experiments are chosen according to the individual student's needs and interests. This course may be taken up to three times.

PHYS-331. Optics. 4 Hours.

The fundamental principle of geometrical and physical optics and their application to the design of modern instruments as well as atomic spectra, properties of photos and lasers. Principles discussed in the lecture will be explored in various lab exercises. Lecture 2 hours, Lab 4 hours.

Prerequisites: PHYS-204 minimum grade of D and (PHYS-202 minimum grade of D or PHYS-207 minimum grade of D).

PHYS-332. Electronics. 4 Hours.

Laboratory and lecture covering both the basic structure of various electronic components, and their use and behavior in circuits. The course begins with linear elements, such as resistors, inductors and capacitors and proceeds through various semiconductor devices, diodes, transistors and operational amplifiers and culminates with the structure and use of logic circuits. Major emphasis is placed on laboratory work where the properties and interactions of various circuits are investigated. Lecture 2 hours, lab 4 hours.

Prerequisite: PHYS-204 minimum grade of D.

PHYS-333. Vibration And Sound. 3 Hours.

Prerequisites: (PHYS-201 minimum grade of D or PHYS-206 minimum grade of D) and PHYS-203 minimum grade of D.

PHYS-335. Thermodynamics And Kinetic Theory. 3 Hours.

Thermodynamic systems; pressure and temperature; ideal gas laws; heat, work and energy; entropy; kinetic theory.

Prerequisites: PHYS-206 minimum grade of D and MATH-202 minimum grade of D.

PHYS-336. Quantum Mechanics. 3 Hours.

This course provides an introduction to Quantum Mechanics and is intended for physics majors/minors, and math or chemistry majors. The knowledge base covered is an essential foundation for students seeking to understand physical phenomenon at a microscopic level where particles are governed by the laws of quantum physics. The statistical formulation of quantum mechanics is introduced and the Schrodinger equation applied to problems in quantum mechanics including the hydrogen atom and many-particle systems.

Prerequisite: PHYS-215 minimum grade of C.

PHYS-337. Modern Physics Laboratory. 2 Hours.

A series of experiments chosen according to each student's needs and interests in the fields of optics, electronics and atomic, nuclear and solid state physics.

PHYS-338. Quantum Mechanics II. 3 Hours.

This second course in quantum mechanics is intended for Physics majors who seek to build a solid background in the applications of quantum mechanics. It builds on the foundations introduced in Quantum Mechanics and covers applications of exact and approximate methods in quantum mechanics to real physical systems.

Prerequisite: PHYS-336 minimum grade of C.

PHYS-340. The Science Of Sustainable Energy. 3 Hours.

Sustainable energy provides a quantitative understanding of energy use and energy resources on both global scales and local settings. This courses will identify and quantify current energy resources, provide an understanding of energy conservation, efficiency, and the conversion of energy from less useful to more useful forms. PHYS-340 investigates the environmental consequences of our energy use, and emphasizes an interdisciplinary approach required to solving real-world problems. This course focuses on the science which informs development, policy, and management decisions.

PHYS-344. Introduction To Solid State Physics. 3 Hours.

Crystal structure, crystal bonding, thermal properties of solids, dielectric properties, free electron model of metals, band theory of solids, magnetism, superconductivity, current applications.

Prerequisite: PHYS-336 minimum grade of D.

PHYS-350. Field Experiences In Physics. 3 Hours.

Practical experience in industrial or government physics laboratories under the joint supervision of the department and the laboratory. There are six hours of field experience required per week. This course may be taken up to three times.

PHYS-361. Materials I: Structural, Mechanical And Thermal Properties. 3 Hours.

An introductory course on the properties of materials for students in all areas of science and technology. Topics include structural, thermal and mechanical properties of metals, alloys, ceramics and plastics, and their explanation in terms of molecular and atomic properties. Lecture 2 hours, lab 2 hours.

Prerequisite: PHYS-215 minimum grade of D.

PHYS-362. Materials II: Electric And Optical Properties. 3 Hours.

Companion course to Material I with primary emphasis on the electronic properties of materials and their industrial use. Topics include conductors, semiconductors, superconductors, ferromagnetism and ferroelectricity, optical and infra-red properties. Lecture 2 hours, lab 2 hours.

Prerequisites: PHYS-202 minimum grade of D and MATH-202 minimum grade of D.

PHYS-363. Mechanical Design And Machine Shop Practice I. 3 Hours.**PHYS-365. Microprocessor Electronics. 4 Hours.**

The course acquaints the students with the basics of microprocessor technology, both from the point of view of understanding the theory of operation, and in learning to program and use these devices to accomplish a given task. The Motorola 6800 is the principal example, and each student has access to a microprocessor trainer for practical lab experiences. Interfacing microprocessors to each other and to the outside world is included, and the course culminates with each student completing a major interfacing project. Lecture 2 hours, lab 4 hours.

PHYS-366. Communication Electronics. 3 Hours.

The course covers tuned circuits, radio frequency amplifiers, intermediate frequency amplifiers, cavity resonators and U.H.F. amplifiers, modulation, detection, R.F. power amplifiers, transmitters, transmission lines, antennas, television and special topics in communication electronics, including digital methods and telemetry. Lecture 2 hours, lab 2 hours.

Prerequisite: PHYS-332 minimum grade of D.

PHYS-367. Transducer And Special Purpose Electronics. 4 Hours.

Lecture and laboratory on the characteristics of devices which convert physical quantities such as heat, light, motion and sound into electrical signal. This includes both the practical aspects of using such devices and the intrinsic physical properties which make their use possible. Sensors used include thermistors, thermopiles, microphones, solar cells, and piezoelectric/ pyroelectric films. The course culminates with each student doing a major project, which may include computer interfacing to the transducers. Lecture 2 hours, lab 4 hours.

PHYS-369. Instrumentation Electronics. 4 Hours.

Lecture and laboratory course on the properties and uses of electronic scientific instruments used in making physical measurements, including computer interfacing. The instruments are studied from input transducer to final output. A major emphasis is placed on laboratory work, where actual instrumentation circuits are built and tested. The course culminates with each student building an actual scientific instrument. Lecture 2 hours, Lab 4 hours.

PHYS-391. Astrophysics. 3 Hours.

An introduction to such topics in astrophysics as the formation, structure, evolution, and death of planets, stars, clusters, galaxies, the universe (Big Bang), and other esoteric objects such as black holes, neutron stars and quasars. Significant applications of physics and mathematics is assumed.

PHYS-392. Beyond The Cosmos' Creation. 3 Hours.

Modern theories for the development of the universe from the Planck Time through the Radiation era and Matter era, to the possible end scenarios, as well as pertinent experimental evidence; Hubble's Law; the Big Bang; the inflationary Big Bang; the evolution of the universe with time and temperature; is the universe open or closed; Dark Mass?; current developments.

Prerequisites: PHYS-215 minimum grade of D and PHYS-311 minimum grade of D.

PHYS-400. Introduction To Quantum Mechanics. 3 Hours.**PHYS-401. Advanced Experimental Physics. 3 Hours.****PHYS-402. Atomic Physics. 3 Hours.****PHYS-403. Solid State Physics. 3 Hours.****PHYS-404. Advanced Electronics For Scientists. 3 Hours.**

Prerequisite: PHYS-393 minimum grade of D.

PHYS-405. Elementary Particles. 3 Hours.**PHYS-406. Statistical Mechanics. 3 Hours.****PHYS-407. Relativity And Gravitation. 3 Hours.****PHYS-408. Independent Study In Physics. 3 Hours.****PHYS-409. Thesis Seminar-Physics. 6 Hours.****PHYS-410. Electrodynamics. 3 Hours.**

Prerequisite: PHYS-323 minimum grade of D.

PHYS-411. Classical Dynamics. 3 Hours.

Prerequisite: PHYS-312 minimum grade of D.

Major in Physics

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Environmental Science

Environmental science integrates a wide range of scientific disciplines necessary to understand the environment and the many interactions among its components. These interactions include the impact of human activities on the environment and the impact of the environment on humans.

University Core Curriculum Requirements

Social Sciences/Policy/Humanities		
GES-319	Environmental And Natural Resources Policy	3
Electives (2 from Social Science/Humanities) <small>in consultation with advisor</small>		6
Total Hours		81-84

Paulo Acioli, Professor, Departments of Earth Science and Physics, Chair

Greg Anderson, Professor, Department of Physics

Pamela Geddes, Associate Professor, Department of Biology

Jean Hemzacek, Instructor, Department of Earth Science

John Kasmer, Associate Professor, Department of Biology

Kenneth Nicholson, Associate Professor, Department of Chemistry

Laura Sanders, Professor, Department of Earth Science

Kenneth Voglesonger, Associate Professor, Department of Earth Science

Students will need to take the following three ENVI designated courses in addition to 42 credit hours of STEM core courses, 17-20 credit hours of STEM elective courses, and 9 credit hours of Social Science/Humanities courses, for a program total of 79 to 82 credit hours for a major in Environmental Science.

ENVI-101. Introduction To Environmental Science. 3 Hours.

This course introduces environmental science as the interdisciplinary study of environmental issues related to human impact on the natural environment. The course addresses environmental science literacy and scientific methods through inquiry into and discussion of biogeochemical cycles, ecosystem dynamics, climate change, conventional and renewable energy, resources, and sustainability. Lecture (2 hrs) and laboratory (2 hrs).

Prerequisite: (MATH-091 - 499 or MATH-091A - 499Z or NEIU Math Placement Result 02 - 45 or ACT Math 19 - 36 or Accuplacer Elementary Algebra 060 - 084 or Accuplacer College Level Math 020 - 120).

ENVI-301. Field Methods In Environmental Science. 3 Hours.

This problem-based interdisciplinary course builds on the knowledge and skills acquired in introductory biology, chemistry, earth science, mathematics, and physics. Topics covered include experimental design, sampling, and analytical techniques that are standard to the different scientific disciplines. Students are introduced to interdisciplinary research methods at field sites and develop skills in group collaboration as well as written and oral presentation. Laboratory (6 hrs).

Prerequisites: BIO-202 minimum grade of C and CHEM-212 minimum grade of C and ENVI-101 minimum grade of C and MATH-275 minimum grade of C and (ESCI-121 minimum grade of C or ESCI-211 minimum grade of C).

ENVI-390. Environmental Science Research & Practice. 4 Hours.

This course puts into practice the knowledge and skills acquired by students throughout the Environmental Science Program. Through case studies, literature review, group discussions, and a research project, students apply concepts from the various scientific disciplines. Working in small teams, students conduct practical scientific research on environmental issues relevant to the local, regional or global community.

Requirements: three electives in BIO, CHEM, ESCI, MATH, and/or PHYS; program approval

Prerequisite: ENVI-301 minimum grade of C.

Political Science

Political Science is central to an understanding of all basic social issues; therefore, an understanding of political life is indispensable for any well-educated person. The department currently offers an undergraduate major, a minor in political science, a minor in public administration, and a graduate program leading to the Master of Arts degree.

Areas of political science in which courses are offered include American Politics and Public Affairs; International Relations and Comparative Politics; and Political Theory. Within each area, major themes are explored (e.g., public policy and administration, political values and change, elite-mass relationships, and political parties and groups.)

Students interested in majoring or minoring in political science are urged to register at the departmental office early, to meet with their advisors regularly, to check the current Schedule of Classes each term, and to become well acquainted with the requirements for political science majors or minors. A minor in public administration is also offered. Information is available in the departmental office.

Other students may also be interested in political science courses. The courses, PSCI 210--Introduction to Political Science and PSCI 216--American National Government, can satisfy the Improving Human Relations requirement. These two courses can also be used to fulfill part of the General Education requirement in Social and Behavioral Sciences. PSCI 216 also fulfills the teachers' certification requirement in American government. .

- Major in Political Science (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/political-science/political-science/>)
- Minor in Political Science (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/political-science/minor-political-science/>)
- Minor in Public Administration (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/political-science/minor-public-administration/>)
- Minor in Jewish Studies (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/political-science/minor-jewish-studies/>)

Master of Arts in Political Science (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/political-science/master-political-science/>)

Marshall Thompson, Ph.D., Associate Professor, Chair

William Adler, Ph.D., Associate Professor

Sangmin Bae, Ph.D., Professor

Russell Benjamin, Ph.D., Professor

Ellen Cannon, Ph.D., Professor

Martyn De Bruyn, Ph.D., Professor

Jeffrey S. Hill, Ph.D., Professor

Sophia Mihic, Ph.D., Professor

Gregory Neddenriep, Ph.D., Associate Professor

PSCI-101. Introduction To Politics. 3 Hours.

PSCI-109. First Year Experience:Civic Engagement, Community And Social Change In Chicago. 3 Hours.

This colloquium is a three-credit course that combines the traditional classroom setting and community service to explore the meaning and interconnection of community, citizenship, politics, diversity, civic engagement and social change. Students enrolled in this course spend time developing their interpersonal and intrapersonal skill (such as, self-awareness, critical thinking and problem-solving skills, leadership skills); become skilled at civic engagement (action strategies and plan, project management, communication, negotiation and teamwork); as well as reading academic literature that examines concepts of democracy, power and justice.

PSCI-210. Introduction To Political Science. 3 Hours.

An introduction to the discipline through an examination of the concepts and skills utilized in the contemporary study of politics. The course provides an overview of political science, including its various sub-fields, and a framework for further study.

PSCI-216. American National Government. 3 Hours.

Description and analysis of national political institutions and processes. Current issues and problems of American government.

PSCI-251. Writing Intensive Program: Comparative Political Systems. 3 Hours.

This course is an introduction to comparative politics. In this course students will study different political systems (democracies, semi-democracies, and authoritarian regimes) by way of selective case studies. Major issues in comparative politics, such as democratization, political culture, political economy, constitutionalism, political leadership, and political parties and elections will be discussed in some detail. Even though this is not a course in American politics, comparisons with the United States will be drawn where appropriate.

Prerequisite: ENGL-101 minimum grade of C.

PSCI-275. Introduction To World Politics. 3 Hours.

General introduction to world politics with emphasis on current issues and events of importance at the international or global level. Basic concepts and methods of political analysis are introduced.

PSCI-291. Concepts Of Political Science. 3 Hours.

Analysis of a number of crucial political concepts, such as equality, justice, political obligation, representation, rights and law.

PSCI-301. Independent Study In Political Science. 3 Hours.

Intensive investigation of a special area of political science or a contemporary political issue.

PSCI-302. Independent Study In Political Science. 2 Hours.

(See PSCI-301 for description.).

PSCI-303. Independent Study In Political Science. 1 Hour.

(See PSCI-301 for description.).

PSCI-304. Field Experience. 3 Hours.

Placement in a government agency, political office or related institution for 8 hours per week. Opportunity for testing classroom concepts and theories, career exploration and the development of problem solving, research and social skill. Meeting arranged.

PSCI-305. Internship I. 6 Hours.

(See description for PSCI-304. Hours in placement increased to 16 hours per week.).

PSCI-306. Internship II. 6 Hours.

(See description for PSCI-304. Hours in placement increased to 16 hours per week.).

PSCI-307O. Topics: Democracy, Responsiveness & Accountability. 3 Hours.

To whom - what interest, whose demands - do elected politicians respond when making policy? In the last thirty years, the number of countries that select their rulers through competitive elections has increased sharply. This class explores the practical implications of ideals like responsiveness and accountability for elected officials, and how these operate in conjunction with the separation of powers, independent judiciaries, political party discipline, pressure from international actors, as well as more base incentives, such as personal ambition and corruption.

Prerequisites: PSCI-210 minimum grade of C and (PSCI-251 minimum grade of C or PSCI-275 minimum grade of C).

PSCI-308. Research Methods And Techniques In Political Science. 3 Hours.

Designed for upper division majors in political science or those intending to undertake graduate study in political science, the course provides an introduction to topics and skills given more intensive and specialized consideration on the graduate level. Topics include an introduction to the various research techniques in political science, with emphasis on developing skills necessary for graduate work in the discipline areas of concentration: development of research designs, identification of appropriate data sources, discussion of alternative methodologies, and data analysis techniques.

Prerequisite: PSCI-210 minimum grade of C or PSCI-216 minimum grade of C or AMER-216 minimum grade of C or PSCI-251 minimum grade of C or COMP-211 minimum grade of C or PSCI-275 minimum grade of C or IR-201 minimum grade of C.

PSCI-309A. Moot Court And Appellate Advocacy. 1 Hour.

This course involves a role-playing simulation where students discharge the responsibilities of attorneys arguing a case before an appellate-level court. Students will wrestle with a challenging hypothetical case that implicates a state or federal statute and/or some aspect of our state or federal constitution. Students will approach the case from the perspective of both the petitioner and respondent, and some students may have an opportunity to play the role of a justice. Although students may be exposed to background readings about courtroom process, procedure, and legal doctrine, the simulation itself will be based on a closed-universe of legal authorities such that no legal research is required. The course is designed to prepare students for a formal moot court competition, but participation in such a competition is voluntary.

PSCI-309B. Model United Nations. 1 Hour.

This course is designed to provide an orientation to the activities of the United Nations, as well as to provide an understanding of the modalities of international diplomacy. This course will include current events, pressing international issues, the basics of international law and some of the protocol and procedures of diplomacy. This course will prepare students to participate as distinguished diplomats at the entirety of the American Model United Nations conference in Chicago.

PSCI-310. Congress And The Legislative Branch. 3 Hours.

Introduction to the U.S. Congress as a political and legislative body; includes analysis of the committee system, rules and differences between House and Senate; examines problems of representation and executive-legislative relations.

Prerequisite: PSCI-216 minimum grade of C or AMER-216 minimum grade of C.

PSCI-311. The American Judiciary And The Judicial Process In American Government. 3 Hours.

An analysis of the judicial policy - making process at all levels of the American judiciary with special emphasis on the Supreme Court's role in constitutional development, separation of powers, and the historical and political context of constitutional law doctrines. Critical cases are examined.

Prerequisite: PSCI-216 minimum grade of C or AMER-216 minimum grade of C.

PSCI-312. American Presidency And The Executive Branch. 3 Hours.

The role of the President and the executive branch in the American governmental system. Contemporary problems of the Presidency and the bureaucracy.

Prerequisite: PSCI-216 minimum grade of C or AMER-216 minimum grade of C.

PSCI-313. State Government And Politics. 3 Hours.

Examination of political institutions at the state level: governor, legislature, judiciary, constitution, parties, and administration. Analysis of state politics within and outside the institutional framework. Discussion of major problems and functions of state governments today. Emphasis on Illinois government and politics.

Prerequisite: PSCI-216 minimum grade of C or AMER-216 minimum grade of C.

PSCI-315. Electoral Politics. 3 Hours.

A review of major developments in electoral politics (including political parties and electoral law) and voting behavior in recent years, and an analysis of current elections.

Prerequisite: PSCI-216 minimum grade of C or AMER-216 minimum grade of C.

PSCI-316. Pressure Groups: Power, Participation And Public Policy. 3 Hours.

Examination of the role of interest groups in political systems, with emphasis on groups in American politics-their membership, organization, activities, goals, and impact on American public policy with special attention on the role of groups as representative agents and their functioning as facilitators or resistors with regard to social change.

Prerequisite: PSCI-216 minimum grade of C or AMER-216 minimum grade of C.

PSCI-317. Public Opinion, Mass Media And American Politics. 3 Hours.

The role of public opinion in American politics, techniques of polling and survey research, the impact of mass media on opinion and on candidate preferences; introduces concepts of political culture and socialization.

Prerequisite: PSCI-216 minimum grade of C or AMER-216 minimum grade of C.

PSCI-318. Pop Culture And Politics. 3 Hours.

This course explores the relationship between popular culture and politics, how celebrities affect political events, the impact of popular culture on politics, and political representations in pop culture especially as they intersect with issues of race, gender, and sexuality. The first half of the course examines the rise of a celebrity-infused political culture and analyzes the changing influence of Hollywood on political campaigns. The remainder of the course considers political representations in TV, film, theater, and music, both in the American context as well as in international relations.

PSCI-319. The Politics Of Law. 3 Hours.

Consideration of various definitions of law, the impact of law on the behavior of various actors; the political, social and economic forces which mold law; the influence of the legal system on the various actors within it; and theoretical efforts to explain the relationships of law and society, with emphasis on the trial courts, the organization of the bar, the origin of litigation and the political consequences of lower court involvement in social conflicts.

Prerequisite: PSCI-216 minimum grade of C or AMER-216 minimum grade of C.

PSCI-320. Constitutional Law. 3 Hours.

The role of the Supreme Court and its impact on the constitutional development of the due process clause, civil liberties, First Amendment freedoms, and the equal protection of the law are traced with particular emphasis on the assessment of the role of the Supreme Court vis-a-vis the states and the national government in protecting and restricting civil liberties.

Prerequisite: PSCI-216 minimum grade of C or AMER-216 minimum grade of C.

PSCI-321. American Jewish Politics. 3 Hours.

This course will cover: Conceptual frameworks of American Jewish political power, institutions and behavior; multiple theories of modern Jewish politics in America; internal and external advocacy institutions from 1820-present; American Jews and the legal process; American Jews and the Labor Movement; American Jews and Feminist politics; Anti-Semitism and the American Jewish response; American Jewish politics and Israel.

Prerequisite: PSCI-216 minimum grade of C.

PSCI-322. Women And Political Influence In The 21st Century. 3 Hours.

This course will examine the changing influence of women both in the American and global context. Some of the questions we will examine include: What does political influence mean in the 21st century and how does it motivate different women in different contexts and cultures to become politically involved? Do certain policy issues appear to increase women's influence more than others? To what extent has capitalism and global entrepreneurship impacted the influence of women? What structural, political, ideological, military, and educational limitations and barriers do women continue to face? How has the meaning of violence against women altered if at all in the 21st century? Do women with political power work to improve the lives of women or do women continue to see the impact of class, race, and gender irrespective of the increase of women's political influence?.

Prerequisite: PSCI-216 minimum grade of C.

PSCI-323. American Ideologies. 3 Hours.

Exploration of various ideologies that attempt to explain the nature of American society and politics; a discussion of belief systems and value orientations; consideration of diversity and change in a system of fundamental stability; analysis of variants of left and right ideologies.

Prerequisite: PSCI-216 minimum grade of C or AMER-216 minimum grade of C.

PSCI-325. Public Policy. 3 Hours.

Introduction to the analysis of public policy, including the policy-making institutions and processes; normative and empirical models of policy-making, and case studies of specific public policies.

Prerequisite: PSCI-216 minimum grade of C or AMER-216 minimum grade of C.

PSCI-326. Educational Policy In America. 3 Hours.

This course examines the politics and policies of education. Education policy encompasses the basic interests and values of society. But in a pluralistic society such as the United States, there is often deep disagreement over those values. Such is the case with education. This course will focus on this struggle with an aim to demonstrate that educational policy is never really about education per se but about politics and struggle over specific interests.

Prerequisite: PSCI-216 minimum grade of C or AMER-216 minimum grade of C.

PSCI-327. Government And Economy. 3 Hours.

Exploration of the role and purpose of government and market in the American economy; discussion of contemporary issues (e.g., income distribution or government regulation); international comparisons.

Prerequisite: PSCI-216 minimum grade of C or AMER-216 minimum grade of C.

PSCI-328. Politics Of Poverty. 3 Hours.

This course examines poverty within the context of the American political system. In particular, it examines public policymaking and public policies in regard to poverty, and the historical and political factors that have impacted upon poverty in this nation. This course also includes an examination of theories that have influenced government policies regarding the poor. Finally, it examines recent changes in poverty programs, a discussion of possible alternatives to these programs, and policies regarding payday loans and similar financial practices that impact the working poor.

Prerequisite: PSCI-216 minimum grade of C or AMER-216 minimum grade of C.

PSCI-329. Minority Politics In The United States. 3 Hours.

This course provides an exploration of the politics of various minority groups in the United States. In a society that is becoming increasingly diverse, it is essential that students gain an appreciation of ethnic, racial, and gender groups in their society. While the course touches upon many groups, the primary focus is upon African Americans, Latinos, and women.

Prerequisite: PSCI-216 minimum grade of C.

PSCI-330. African American Politics and Social Change. 3 Hours.

This course will familiarize students with the political challenges of and strategies employed by African Americans in the United States. The course examines the impacts of these attempts at social and political change. A critical issue is the extent to which black Americans have gained democracy in American society. Additionally, internal black political issues are examined. Further, the American political system itself is examined as part of the global political community.

Prerequisite: PSCI-216 minimum grade of C.

PSCI-331. Latinos & Public Policy. 3 Hours.

This course explores the social, economic and political status of Latinos through a public policy lens. Its goal is to provide a basic understanding of public policies on key issues impacting Latino communities. The course provides a brief history of various Latino populations in the U.S. Most significantly, it provides basic foundations for understanding what public policy is, how it is made, how it affects Latino communities, and how it can be impacted to effect positive change for Latinos.

Prerequisite: PSCI-216 minimum grade of C.

PSCI-332. Latinos & The Law. 3 Hours.

This course critically examines legal topics related to Latinas/os in American society. Students will read and discuss landmark court decisions, law review articles, and chapters from interdisciplinary texts in order to analyze legal doctrines, litigation strategies and the socio-political context in which these legal matters occur. After an initial introductory unit that is heavily historical, we will place a strong emphasis on significant social, political and legal events from the 1940s to the present.

Prerequisite: PSCI-216 minimum grade of C.

PSCI-333. Immigration, Ethnicity, And Citizenship. 3 Hours.

This course is an introduction to the most important political and academic debates surrounding the topic of immigration: How are citizenship and nationhood defined? What is the relationship between ethnicity and citizenship? What comprises our national and ethnic identity? How do our perceptions of citizenship, nationhood, and ethnicity influence each other as well as our outlook on immigration? What are current immigration policies and immigration policy debates in the U.S. and elsewhere? In addressing these questions, this course will explore five major themes: immigration, identity, ethnicity, (trans)nationalism, and citizenship.

Prerequisite: PSCI-210 minimum grade of C or PSCI-216 minimum grade of C.

PSCI-334. Intergovernmental Relations. 3 Hours.

Impact of federalism on policy-making and administration in the American system; focuses on the interaction between federal government and states, metropolitan areas, and cities in the development and implementation of public policy.

Prerequisite: PSCI-216 minimum grade of C or AMER-216 minimum grade of C.

PSCI-335. Urban Politics. 3 Hours.

Types of urban government and politics; ability of the governmental institutions to meet the demands and respond to the needs of urban areas; community power and control; citizen participation and decentralization of governmental services.

Prerequisite: PSCI-216 minimum grade of C or AMER-216 minimum grade of C.

PSCI-336. Urban Government Administration. 3 Hours.

Introductory survey of local governmental administration; powers of municipal corporations, special districts and other jurisdictions; taxation, revenue and budgeting, common administrative structures, and institutionalized forms of urban leadership and control.

Prerequisite: PSCI-216 minimum grade of C or AMER-216 minimum grade of C.

PSCI-338. Chicago Politics. 3 Hours.

The structure of the government of the City of Chicago and its associated politics; the development of the Daley machine and its aftermath with particular focus on the impact of race on contemporary political behavior; including analysis of voting patterns and blocs within the City Council.

Prerequisite: PSCI-216 minimum grade of C or AMER-216 minimum grade of C.

PSCI-339. Laboratory In Urban Politics. 3 Hours.

First-hand observation of urban governmental organization, political parties, and politically active citizen groups; written and oral reports and class discussion of field observations.

Prerequisite: PSCI-216 minimum grade of C or AMER-216 minimum grade of C.

PSCI-341. Public Administration. 3 Hours.

Introduction to the role of public bureaucracies in the political system. A general overview of major concepts, processes and problem areas in the field of public administration. Intended for undergraduate students; graduate students seeking a general overview of the field should take PSCI-441.

Prerequisite: PSCI-216 minimum grade of C or AMER-216 minimum grade of C.

PSCI-344. Writing Intensive Program: Public Organization Theory. 3 Hours.

Review of theories concerning public bureaucracies, their internal functioning and societal roles; analysis of the organizational setting of work and its implications; organizational effectiveness, decision-making, leadership and policy formulation, and change in public organizations. Writing Intensive course.

Prerequisites: (PSCI-216 minimum grade of C or AMER-216 minimum grade of C) and ENGL-101 minimum grade of C.

PSCI-345. Government Budgeting. 3 Hours.

Fiscal policy and budget process: historically changing functions of budgeting-from emphasis on control to managerial effectiveness; reassertion of Congressional authority in 1974 and the new budget cycle; zero-based budgeting; impoundment, transfer payments, and grant-in-aid.

Prerequisite: (PSCI-216 minimum grade of C or AMER-216 minimum grade of C).

PSCI-346. Public Personnel Administration. 3 Hours.

Organization and administration of the personnel function in public bureaucracies; relations of personnel management to operating departments and agencies; the scope of public personnel services; appraisal of policies and practices in selected areas of personnel management, such as selection and training, human relations and motivation.

Prerequisite: PSCI-216 minimum grade of C or AMER-216 minimum grade of C.

PSCI-347. Disaster Policy & Politics. 3 Hours.

This course focuses on the evolution of U.S. disaster policy and the practice of emergency management, with particular attention to the roles of local governments, public agencies, and nonprofit agencies in disaster management. The course examines the major policy issues, including the utility of the "all-hazards" model of emergency management; the role of all first responders in disaster operations (police, firefighters, physicians, and medical emergency personnel); military, state and local capacity building; and the design and implementation of hazard mitigation policies and programs. Particular attention will be given to nuclear waste leaks, chemical biological and nuclear attacks, and urban wildfires.

Prerequisite: PSCI-216 minimum grade of D.

PSCI-348B. Topics In Public Administration: The Federal Role In American Cities. 3 Hours.

Prerequisite: PSCI-216 minimum grade of C or AMER-216 minimum grade of C.

PSCI-350. International Relations In Asia. 3 Hours.

The foreign policies of various Asian nations with special attention to the relations among these nations as well as their relations with other areas of the world.

Prerequisite: PSCI-275 minimum grade of C or IR-201 minimum grade of C or PSCI-251 minimum grade of C or COMP-211 minimum grade of C or PSCI-210 minimum grade of C.

PSCI-351. Government And Politics Of Japan. 3 Hours.

The modern Japanese political system; the relationship between the Japanese people and their institutions, including the interrelationships between the traditional and the modern with emphasis on the structures and processes of Japanese government and politics since World War II.

Prerequisite: PSCI-251 minimum grade of C or COMP-211 minimum grade of C or PSCI-275 minimum grade of C or IR-201 minimum grade of C or PSCI-210 minimum grade of C.

PSCI-353. Government And Politics Of China. 3 Hours.

The structure and activities of the Chinese Communist party and state communist outlook; ideologies and significant internal and foreign problems.

Prerequisite: PSCI-251 minimum grade of C or COMP-211 minimum grade of C or PSCI-275 minimum grade of C or IR-201 minimum grade of C or PSCI-210 minimum grade of C.

PSCI-354. Islamic Civilization II: Government And Politics. 3 Hours.

Islam is not only one of the major religions of the world but also a political ideology claiming nearly one billion adherents~ about one-fourth of the entire world population. Its impact on the world within the last 1400 years is so powerful that one cannot study History, Religion, Culture, Politics, Economics and Civilizations without correctly understanding Islam not only as a Religion but also as a force affecting world events.

Prerequisite: PSCI-251 minimum grade of C or COMP-211 minimum grade of C or PSCI-275 minimum grade of C or IR-201 minimum grade of C or PSCI-210 minimum grade of C.

PSCI-355. The Politics Of Islam. 3 Hours.

Discussion of the religion of Islam and the Islamic political institutions; influence of Islamic political thought and religion on political systems currently operating in major Muslim countries.

Prerequisite: PSCI-251 minimum grade of C or COMP-211 minimum grade of C or PSCI-275 minimum grade of C or IR-201 minimum grade of C or PSCI-210 minimum grade of C.

PSCI-357. Politics Of The European Union. 3 Hours.

Politics of the European Union is an introduction to the history, the institutions, and the policies of the European Union. Students will discuss topics ranging from theories of integration to economic and social policy and issues of democracy in the EU. Students are required to participate in an EU simulation in which they take on an alter ego and learn first hand how to negotiate through the complex system of EU decision making.

Prerequisite: PSCI-210 minimum grade of C or PSCI-251 minimum grade of C or PSCI-275 minimum grade of C.

PSCI-358. Modern European Governments. 3 Hours.

Comparative study of the politics and governments of several major European nations.

Prerequisite: PSCI-251 minimum grade of C or COMP-211 minimum grade of C or PSCI-275 minimum grade of C or IR-201 minimum grade of C or PSCI-210 minimum grade of C.

PSCI-360. Politics Of Sub-Saharan Africa. 3 Hours.

Examination and comparison of the politics of selected African states; particular emphasis on traditional heritage, colonial background, ideological setting, political parties, role of the military, governmental structure, and problems of nation building.

Prerequisite: PSCI-251 minimum grade of C or COMP-211 minimum grade of C or PSCI-275 minimum grade of C or IR-201 minimum grade of C or PSCI-210 minimum grade of C.

PSCI-363. Politics Of The Middle East. 3 Hours.

The impact of the physical environment, the economic conditions, and the historical heritage on the political structures presently operating in the region; analysis of the region in its world context.

Prerequisite: PSCI-251 minimum grade of C or COMP-211 minimum grade of C or PSCI-275 minimum grade of C or IR-201 minimum grade of C or PSCI-210 minimum grade of C.

PSCI-364. Islamic Civilization I: Political Ideology And Theory. 3 Hours.

This course will provide an in-depth view of Islamic Civilization, its development, its rich heritage, and its effects on the social and political life of societies in several parts of the world.

Prerequisite: PSCI-251 minimum grade of C or COMP-211 minimum grade of C or PSCI-275 minimum grade of C or IR-201 minimum grade of C or PSCI-210 minimum grade of C.

PSCI-365. Politics And Government Of Mexico, Central America And The Caribbean. 3 Hours.

The political systems in Mexico, Central America, and the Caribbean; comparison of the social, economic and political conditions of each; the strategic importance of this region to the United States.

Prerequisite: PSCI-251 minimum grade of C or COMP-211 minimum grade of C or PSCI-275 minimum grade of C or IR-201 minimum grade of C or PSCI-210 minimum grade of C.

PSCI-366. Politics And Governments Of South America. 3 Hours.

Examination of the various political systems on the continent of South America with comparisons of social and political institutions of the various countries.

Prerequisite: PSCI-251 minimum grade of C or COMP-211 minimum grade of C or PSCI-275 minimum grade of C or IR-201 minimum grade of C or PSCI-210 minimum grade of C.

PSCI-367. Government And Politics Of South And North Korea. 3 Hours.

Based on a comparative perspective, this course will focus on the two Koreas' political, economic, military, social, educational and cultural developments since the end of the Second World War in 1945. The two Koreas have had different ideologies and different political systems and both of them, like China and Taiwan, have played and will play an extremely important role in the security of the Asian-Pacific Rim. In other words, whether or not the peace in Asia can be maintained depends on the political wisdom of the top leaders in North and South Korea and in the United States.

Prerequisite: PSCI-251 minimum grade of C or COMP-211 minimum grade of C or PSCI-275 minimum grade of C or IR-201 minimum grade of C or PSCI-210 minimum grade of C.

PSCI-368. The Politics Of The Soviet And Post-Soviet World. 3 Hours.

Political history of the Soviet period, including the structure and operation of the Soviet Communist Party. Dissolution of the Soviet system, analysis of present transition period and future economic and political prospects for Russia and bordering states.

Prerequisite: PSCI-251 minimum grade of C or COMP-211 minimum grade of C or PSCI-275 minimum grade of C or IR-201 minimum grade of C or PSCI-210 minimum grade of C.

PSCI-369. Russia In International Politics. 3 Hours.

Analysis of the new Russian state as a leader of the former Soviet states and its former Warsaw Pact allies, tensions and new developments; relations with the United States and with the European Community; Russia as a major actor in global politics.

Prerequisite: PSCI-275 minimum grade of C or IR-201 minimum grade of C or PSCI-251 minimum grade of C or COMP-211 minimum grade of C or PSCI-210 minimum grade of C.

PSCI-371. Canadian Government & Politics. 3 Hours.

The Canadian political system with analysis of the constitutional development, the structure of government, political parties and pressure groups, problems of regionalism and nationality, questions of foreign policy and relationship with the United States.

Prerequisite: PSCI-251 minimum grade of C or COMP-211 minimum grade of C or PSCI-275 minimum grade of C or IR-201 minimum grade of C or PSCI-210 minimum grade of C.

PSCI-372. Democracy, Responsiveness, & Accountability. 3 Hours.

In recent decades the number of countries that select their rulers through competitive elections has increased sharply. The performance of many of these regimes, however, raises serious doubts about the extent to which elections guarantee a close correspondence between citizen preferences and policy outputs. This class explores the practical implications of ideals like responsiveness and accountability for elected and appointed officials, and how these operate in conjunction with separation of powers, judiciaries, party discipline, pressure from international actors as well as more base incentives, such as personal ambition and corruption.

Prerequisite: PSCI-210 minimum grade of C or PSCI-251 minimum grade of C or PSCI-275 minimum grade of C.

PSCI-373. Gender And Politics. 3 Hours.

A study of the relationship of gender and gender roles to political attitudes, beliefs and behavior. The nature of political socialization is considered as well as political and economic structures pertinent to gender distinctions. The approach is comparative.

Prerequisite: PSCI-251 minimum grade of C or COMP-211 minimum grade of C or PSCI-275 minimum grade of C or IR-201 minimum grade of C or WSP-101 minimum grade of C.

PSCI-375. Contemporary International Relations. 3 Hours.

Basic principles and problems; emphasis on contemporary issues in international political life.

Prerequisite: PSCI-275 minimum grade of C or IR-201 minimum grade of C or PSCI-251 minimum grade of C or COMP-211 minimum grade of C or PSCI-210 minimum grade of C.

PSCI-376. Principles Of International Relations. 3 Hours.

Content and method of studying international relations; classical and behavioral approaches.

Prerequisite: PSCI-275 minimum grade of C or IR-201 minimum grade of C or PSCI-251 minimum grade of C or COMP-211 minimum grade of C or PSCI-210 minimum grade of C.

PSCI-377. International Organization: Theory And Practice. 3 Hours.

Evolution of existing theories in the area of worldwide and region-wide cooperation among sovereign states. Survey of writings of recognized scholars, as well as commentaries.

Prerequisite: PSCI-275 minimum grade of C or IR-313 minimum grade of C or PSCI-251 minimum grade of C or COMP-211 minimum grade of C or PSCI-210 minimum grade of C.

PSCI-378. International Political Economy. 3 Hours.

This course provides a study of the structure and development of the global political economy. To this end, the course will cover topics including: the structure of the international system, historical and present globalization, international trade policies, exchange-rate policies, and domestic and international institutions. The course is designed to stress theory, in addition to key events and developments in the world economy. We will explore theoretical and substantive explanations found in the international system as well as those found within domestic political-economies.

Prerequisite: PSCI-210 minimum grade of C or PSCI-251 minimum grade of C or PSCI-275 minimum grade of C.

PSCI-379. War And Peace. 3 Hours.

War as a social institution; causes of war and the conditions of peace; prospects and proposals for a peaceful world order.

Prerequisite: PSCI-275 minimum grade of C or IR-201 minimum grade of C or PSCI-210 minimum grade of C or PSCI-251 minimum grade of C or COMP-211 minimum grade of C.

PSCI-380. International Law. 3 Hours.

Evolution of international law from theological statements to modern jurisprudence; ramifications of the state as the single most important international person and its multifaceted activities; case briefing as a method of studying international law.

Prerequisite: PSCI-275 minimum grade of C or IR-201 minimum grade of C or PSCI-251 minimum grade of C or COMP-211 minimum grade of C or PSCI-210 minimum grade of C.

PSCI-381. International Terrorism. 3 Hours.

Investigation of terrorism, beginning with the problem of definition. Origins and evolution of terrorism as well as motivation and inspirations of those who have embraced terrorism. A selection of terrorist organizations will be studied.

Prerequisite: PSCI-275 minimum grade of C or IR-201 minimum grade of C or PSCI-251 minimum grade of C or COMP-211 minimum grade of C or PSCI-210 minimum grade of C.

PSCI-383. United States Foreign Policy Since Worldwar II. 3 Hours.

Description and analysis of the important changes in traditional American foreign policy that have occurred since World War II; the international responsibilities that the United State has shouldered as a world power; the political, economic, and social factors that are conditioning and limiting American foreign policy today.

Prerequisite: PSCI-275 minimum grade of C or IR-201 minimum grade of C or PSCI-251 minimum grade of C or COMP-211 minimum grade of C or PSCI-210 minimum grade of C.

PSCI-384. United States And The World Economy. 3 Hours.

A study of the nature and structure of the world economy and the role played by the U.S. in the post-World War II economy. Topics such as the Bretton Woods System, the Gold Window and flexible exchange rates and their political, social, economic and strategic dimensions.

Prerequisite: PSCI-275 minimum grade of C or IR-201 minimum grade of C or PSCI-210 minimum grade of C or PSCI-251 minimum grade of C or COMP-211 minimum grade of C.

PSCI-386. Globalization & Politics. 3 Hours.

This course provides a conceptual foundation for understanding the intensifying global system and its impacts on politics, economics, cultures, and transnational relations. In particular, the course explores the effects of economic globalization - and political responses to economic globalization - in nations of Latin America, Africa, and Asia; examines the roles and possible reforms of major global financial institutions; extends analysis to the cultural and ideological aspects of globalization; and assesses prospects for transnational cooperation on human rights and for expanded global governance and citizenship.

Prerequisite: PSCI-210 minimum grade of C or PSCI-251 minimum grade of C or PSCI-275 minimum grade of C.

PSCI-388. International Relations In The Middle East. 3 Hours.

Struggles for power and peace in this strategic region of the world; nature and frequency of interactions between the nations of the region and between these nations and the great powers.

Prerequisite: PSCI-275 minimum grade of C or IR-201 minimum grade of C or PSCI-251 minimum grade of C or COMP-211 minimum grade of C or PSCI-210 minimum grade of C.

PSCI-390. Classical Political Theory. 3 Hours.

Analysis of the concept of a political community in terms of obligations, rights, the public interest, the just state, and the just individual. Selected writing of Plato, Aristotle, Sophocles, Aristophanes, Xenophon, and others.

PSCI-391. Modern Political Theory. 3 Hours.

Analysis of the tensions between the individual and society. Concepts of society, natural rights, political obligation, consent, the rule of law, social contract, and revolution examined through selected writings of Machiavelli, Hobbes, Locke, Rousseau, Burke, Mills, Marx and Pateman.

PSCI-392. Writing Intensive Program: Contemporary Political Philosophy. 3 Hours.

State and governance are among the most traditional, and one might think settled, themes in modern political thought. But recent 21st century events have given these themes a new significance. Were these events, and related problems, prefigured in earlier crises of political order? How does "globalism" affect theories of state and governance? Are the liberal democratic and republican traditions able to meet the dilemmas of security and freedom presented by an increasing inter-connectedness among nation-states? To investigate these questions, this course will explore classics on state and governance and also read selected contemporary theories, histories and literary perspectives on political order.

Prerequisite: ENGL-101 minimum grade of C.

PSCI-393. Contemporary Political Analysis. 3 Hours.

Analysis of behavioralism, decision-making theories, quantitative approaches to politics, structural-functionalism, systems theory, game theory, political development theory, and interest group theory.

Prerequisite: PSCI-291 minimum grade of C or THRY-213 minimum grade of C.

PSCI-394A. Selected Political Theorists: Plato. 3 Hours.**PSCI-394B. Selected Political Theorists: Machiavelli. 3 Hours.****PSCI-394C. Selected Political Theorists: Hobbes. 3 Hours.****PSCI-394D. Selected Political Theorists: Locke. 3 Hours.****PSCI-394E. Selected Political Theorists: Rousseau. 3 Hours.****PSCI-394F. Selected Political Theorists: Adam Smith. 3 Hours.****PSCI-394G. Selected Political Theorists: John Stuart Mill. 3 Hours.****PSCI-394H. Selected Political Theorists: Marx. 3 Hours.****PSCI-394I. Selected Political Theorists: John Rawls. 3 Hours.****PSCI-395. Early American Political Thought. 3 Hours.**

Topics including the American revolution, the writing of the constitution, and the crisis of the Republic will be examined through selected writings of the following theorists and activists: Winthrop, Adams, Paine, Jefferson, Hamilton, Madison, Calhoun, Stanton, Thoreau, Douglass, Grimke, and Lincoln.

PSCI-396. Jewish Political Thought. 3 Hours.

This course explores the Jewish political tradition, focusing particularly on the concepts of power, sovereignty, and community. Starting from the Biblical text, we will examine how both classical and modern thinkers within the Jewish tradition understood the ways in which power was created, the different meanings of leadership, the idea of national independence, and the ultimate question of belonging within a fragmented political community.

PSCI-397. African Political Thought. 3 Hours.

African political thought is examined through selected writings of important African leaders and writers dealing with political developments in the new states of Africa with particular focus on the problems of African identity (African values versus westernization), African socialism, Pan-Africanism, and the one party state.

PSCI-398. Law And Social Change. 3 Hours.

An assessment of the possibilities and limitations of law as an instrument of social change through an examination of the status of minorities and women, the social control of corporate behavior, and the politics of rights.

Prerequisite: PSCI-216 minimum grade of C or AMER-216 minimum grade of C.

PSCI-399H. Proseminar In Political Theory: Political Concepts Through Literature. 3 Hours.**PSCI-401. Classics Of Political Science. 3 Hours.**

An examination of selected classics of the discipline of political science, with a special emphasis on major contributions of the modern era. This course provides students with an opportunity for close analysis of complex works in political science.

PSCI-402. Research Methods In Political Science. 3 Hours.

Introduction to the various techniques in political science with emphasis on developing skills necessary for graduate work in the department. Areas of concentration: development of research designs, identification of appropriate data sources, discussion of alternative methodologies, data analysis techniques.

PSCI-405. Independent Study In Political Science. 3 Hours.

Research and investigation into selected topics and preparation for a research paper(s) under individual faculty guidance.

PSCI-405A. Independent Study In Political Science. 3 Hours.

Research and investigation into selected topics and preparation for a research paper(s) under individual faculty guidance.

PSCI-406. Independent Study In Political Science. 2 Hours.

(See PSCI-405 for description.).

PSCI-407. Independent Study In Political Science. 1 Hour.

(See PSCI-405 for description.).

PSCI-408. Graduate Internship. 3 Hours.

Placement in government agency, voluntary or third-sector organization, advocacy group, political office, or related institution. Opportunity for career-exploration, skill-development, or specialized training. (Hours in placement: 10 per week).

PSCI-412. American Political Elites. 3 Hours.

The nature and impact of elites in the American political system. Readings and discussion will include Plato, Marx, Michels and various contemporary treatments of the nature of American society. Special topics will be covered on the basis of students' particular interest.

PSCI-417. Seminar In Political Behavior. 3 Hours.

Sociological and psychological perspectives in political science; how political attitudes and preferences are formed; comparative political cultures; social and psychological determinants of political cultures; social and psychological determinants of political participation and political decision-making; American voting behavior; discussion of current research in these areas; writing and presentation of seminar papers.

PSCI-420. Religion & Politics In America. 3 Hours.

This course investigates the religious factor in American political life by examining the historical and contemporary effect of religion on political culture, political coalitions, individual political behavior, and public policy. The perspectives of the American founders on the relationship between church and state and the religion clauses in Article IV and the First Amendment will be assessed. We will also look at the major Supreme Court decisions on the meaning of the establishment clause and free exercise clauses in the US Constitution. We will examine the role of the courts in refereeing conflicts over religion in America.

PSCI-421. Congress & The Bureaucracy. 3 Hours.

In this seminar, we will focus on subgovernments in the United States--that is, the administrative agencies, congressional committees, and interest groups associated with a particular policy area. In particular, we will examine the nature of the relationship between congress and regulatory agencies, what congress intended various agencies to do, and whether these agencies generally meet or fail to meet the expectations of congress. We will examine how a bill becomes a law, and then what happens to that law afterwards.

PSCI-424. Law And Equality. 3 Hours.

The course explores how the United States Supreme Court interprets and applies the Equal Protection Clause of the 14th Amendment in situations where a statute or policy contains a classification based race, gender, or sexual orientation. In conjunction with this emphasis on the Court's jurisprudence, other readings will focus on the philosophical underpinnings of the Court's decisions, disparities in power and privilege contained in the law, and personal accounts that detail how the human experience is affected by these disparities. The final segment of the course considers whether the law can be used as a vehicle for social change, and how courts have approached legislative remedies designed to redress past discrimination.

PSCI-425. Presidential Power & The Executive Branch. 3 Hours.

This graduate course explores the power and development of the American presidency and its relationship to other institutions of government. American presidents are at the center of politics, both at home and abroad. But too often our fixation on one individual obscures how other institutions interact with and constrain the presidency. Instead of considering each president as an isolated case, this course analyzes the presidency throughout history, identifying patterns of change as well as continuities in presidential power. We will consider the presidency's design in the Constitution and what has led to departures from that framework.

PSCI-427. Seminar In American Policy-Making Process. 3 Hours.

Analysis of legislative, executive, administrative and judicial policy-making processes at the national government level with emphasis on current research, case studies in policy-making and presentation of seminar papers.

PSCI-437. Seminar In Urban Politics. 3 Hours.

Analysis of the politics of metropolitan areas, with emphasis on the mobilization of resources for urban problem-solving, and the political forces that impede the solution of such problems. Students will write and present research papers on urban politics in the Chicago metropolitan area.

PSCI-439. Minority Economic Development. 3 Hours.

This course investigates political and social factors related to the economic development of minority groups in the United States. The demise of legalized segregation has meant racial and ethnic minorities no longer face official barriers to economic success. However, most minority groups (particularly black Americans and Latinos) continue to have lower levels of overall employment, income, and wealth than do whites. This course investigates political and social phenomena contributing to these patterns, as well as efforts by minority groups, supportive whites, and government actors in addressing minority economic issues. There is a particular interest in minority entrepreneurship and employment issues.

PSCI-440. Research Methods In Public Administration. 3 Hours.

Research techniques in the study of public administration. Methods taught will include techniques utilized by both political scientists and public administrators: case studies, decision-making analysis, cost-benefit analysis and others.

PSCI-441. History And Literature Of Public Administration. 3 Hours.

A review of major historical periods in public administration theory and practice and consideration of present tendencies and possible future developments. Consideration of standard summaries of the development of the discipline and primary, classical sources as well as key theorists and concepts of the discipline.

PSCI-442. Public Bureaucracies: Theory And Practice. 3 Hours.

Review of classic and contemporary literature on bureaucracy; analysis of the concept of bureaucracy; examination of selected public bureaucracies; strengths and limitations of the bureaucratic form of work organization; proposed alternative forms of work organization in the public sector; problems of accountability and public control.

PSCI-444. Comparative Public Administration. 3 Hours.

Study of the significance of public administration in a comparative setting with particular emphasis on the Third World; cultural impact on bureaucratic behavior; international and United States technical assistance in public administration; bureaucracy and development; comparative public policy; Third World perspectives and the recent critiques of administratively generated and First World inspired development.

PSCI-446. Homeland Security: Policies, Politics, And Administration. 3 Hours.

In the wake of the events of September 11, 2001, America has struggled to both re-write its understanding of "security" within its borders and to reorganize its resources committed to maintaining "security". This course is designed to explore the revamping of the bureaucracy responsible for "homeland security," and the impact on the population of the sense of uncertainty within borders. Students will examine the impact of these developments on state and local resources committed to "security" in communities, evaluating the strengths and weaknesses of the new "homeland security" efforts on the national, state, and city levels.

PSCI-447. Seminar In Public Policy Analysis. 3 Hours.

Study of governmental policy and program implementation from the perspective of policy choice, decision-making, and evaluation. Topics include criteria for evaluation of policy, techniques of analysis such as forecasting and scenario development, impact analysis, client satisfaction, and inequalities of result.

PSCI-460. Comparative Democratic Institutions. 3 Hours.

This course develops an understanding of the relationships between citizens' underlying interests and values and the policy output produced in democratic countries. We will explore the ramifications of different constitutional designs and electoral systems for the provision of representation. Furthermore, we will examine: the development of policy preferences, citizens' issuing of mandates, government responsiveness, and the ability of citizens to hold governments to account. The operation of bureaucracies as well as nominally independent arms of government, such as central banks, will also be considered.

PSCI-465. Seminar In African Politics. 3 Hours.

An examination of crucial problems in African politics with particular emphasis on modernization and creating political order. Research will focus on political participation, political institutions, national integration, ideology, the strains of modernization the role of the military.

PSCI-469. Democratization & Capitalism In The 21st Century. 3 Hours.

To understand the "third wave" democratization in the late 20th century, this course engages theories about the causes, meanings, and challenges of "democracy", including its complex relationships with capitalism. What were the roles of elites, classes, and social movements in recent democratic transitions, what types of systems emerged, what conditions can cause "de-democratization", and how does the post-Cold War hegemony of market capitalism affect the prospects for sustaining and deepening democracy in the early 21st century?.

PSCI-475. Seminar In The Behavioral Aspects Of International Relations. 3 Hours.

Research, seminar papers, and discussion on the socio-psychological approaches to the study of international relations; topics include the role of nationalism in international relations; topics include the role of nationalism in international conflict, decision-making in international relations, national and international image formation, and the socio-psychological determinants of foreign policies.

PSCI-476. Unified Germany In Changing Europe. 3 Hours.

The course will review the historical background of post-WW II Germany; the reunification process (its problems and potentials); and the role of the "new" Germany in the "new Europe." Still politically and economically dominant in Europe, the question to be explored is whether Germany's future complements or competes with the attempt to bring all of Europe together.

Prerequisite: PSCI-402 minimum grade of C or PSCI-421 minimum grade of C.

PSCI-477. Political Integration In Western Europe. 3 Hours.

Focus on post-World War II political integration in Europe; examination of various European international and supranational organizations, with emphasis on the dynamics of political integration in the European Community.

PSCI-478. EU - US Transatlantic Relations. 3 Hours.

Relations between the United States and Europe have been challenged frequently during the post-WWII era. These challenges have become more significant after September 11, 2001. The sympathy for the United States directly after the terrorists attacks quickly dissolved over Iraq. Europe itself was divided between supporters of the United States (UK, Spain, Italy, Poland) and opponents (Germany, France, Belgium). The severe strain in diplomatic relations did, however, little harm to the important trade relations. While differences in values between Americans and Europeans should not be marginalized, shared values significantly outnumber values that divide them. This course discusses the continued challenges in the transatlantic relationship.

PSCI-479. International Politics Of East Asia. 3 Hours.

This course is designed for graduate students interested in international relations in East Asia. It examines the political, economic, and social challenges facing East Asian countries from a comparative perspective. The emphasis will be on theories that inform our understanding of international affairs and foreign policy decision-making, as each is related to East Asia, the military security and economic issues in international relations, though we will also study the domestic conditions driving those relations. Major themes include defense and security, trade and development, and human rights. This course is not aimed to survey a general history of these countries but to discuss major issues and challenges associated with their political, economic and social change and development.

PSCI-481. International Human Rights. 3 Hours.

Human rights issues have been central to many of the top international news stories in recent years, including "ethnic cleansing" in Bosnia and Kosovo, genocide in Rwanda, self-determination in East Timor and Tibet, and humanitarian intervention in Somalia and Sudan (and in Afghanistan and Iraq, more controversially). The way in which the international community has responded to each of these examples demonstrates the complex relationship between state sovereignty and the promotion of universal human rights. Looking at human rights in both comparative and international perspectives, we will discuss the philosophical and political bases for the international human rights movement and probe the ongoing debate over universality and culture relativism.

PSCI-483. International Political Economy. 3 Hours.

This course will simultaneously provide students with a broad and deep overview of international economic relations. We will draw from the literature in international relations, comparative politics, and economics to develop an understanding of international political economy. We will examine the interaction between disparate national economies, national politics, and the international system writ large.

PSCI-491. Seminar On The Work Of Hannah Arendt. 3 Hours.

This course investigates the work of Hannah Arendt on politics, society and political action, and provides an introduction to public realm theory that will work toward mastery of Arendt's understanding of politics as, in Latin, the *res publica*, "the public thing." Our primary questions will be what does political action require and what can it accomplish? Our readings will include texts on civil disobedience, the relationship between history and political theory, the meanings of power and violence, colonialism, totalitarian rule during the Third Reich and the Soviet era, and on racial prejudice as political problem and as political tool.

PSCI-5901. Thesis Hours. 1 Hour.

This course is designed to provide structure, guidance, and support for graduate students in political science in the research and writing of a Master's thesis. The objective of the course is to deepen the understanding of theories and methods related to research on the specific subfield in political science and to apply them to a chosen topic. Specific focus includes: (a) identifying a significant research problem on an political science issue and specifying a research question to address it; (b) analyzing the scholarly literature in relation to your research; (c) describing research design and evidence; (d) shaping coherent arguments and assessments; (e) developing skills in formal academic writing and oral presentation.

Requirement: consent of the thesis advisor, graduate coordinator, department chair and the College Dean.

PSCI-5902. Thesis Hours. 2 Hours.

See course description for PSCI-5901.

PSCI-5903. Thesis Hours. 3 Hours.

See course description for PSCI-5901.

Master of Arts in Political Science

MASTER OF ARTS IN POLITICAL SCIENCE

Students have two options to choose from to fulfill the master's degree program requirements:

1. Thirty credit hours of course work, a thesis for six credit hours, and an oral examination, or
2. Thirty-six credit hours of course work, a written comprehensive examination, and an oral examination.

A student interested in the thirty credit thesis option must secure approval of the department. Only students who have demonstrated high proficiency in various aspects of graduate studies (writing, discussion, analysis, creativity, etc.) will be permitted to write a thesis.

REQUIREMENTS FOR ADMISSION TO THE PROGRAM:

Students must fulfill the requirements for admission to the College of Graduate Studies & Research. (These are set out in the academic catalog in the section "College of Graduate Studies & Research ." Applications may be secured from the office, located in LWH-0006).

REQUIREMENTS FOR THE DEGREE:

For students admitted to Master's Programs, all graduate credits must be at the 400 level, except for a limited number of 300 level courses specifically approved for graduate degree credits in a given Master's degree program. Departments may permit students to apply up to three of these 300 level courses, to a maximum of ten credit hours, to fulfill program requirements. This policy applies to all students. **Consult with your program advisor or the College of Graduate Studies & Research for details.**

Students must select one area of emphasis from the following:

- American Politics and Public Affairs
- International and Comparative Politics
- Political Theory

Students are required to take:

Code	Title	Hours
Required Courses		
PSCI-401	Classics Of Political Science	3
PSCI-402	Research Methods In Political Science ¹	3
Five course in the area of emphasis, including a 400-level seminar or a thesis seminar.		15
Three courses selected from a second area.		9
Two elective courses from any area of emphasis.		6
Total Hours		36

¹ If possible before graduate seminar courses.

Students should consult with the graduate advisor before taking their courses.

Major in Political Science

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Major in Political Science for the Bachelor of Arts Degree

Students majoring in political science must take at least 36 credit hours in political science.

Code	Title	Hours
Required Courses		
PSCI-210	Introduction To Political Science ^{1,2}	3
PSCI-308	Research Methods And Techniques In Political Science	3
Along with PSCI 210, students must then select two of the following introductory courses (since all students must take an intensive writing course, we recommend they take PSCI 251. For those who cannot take PSCI 251, other WIP courses are available):		6
PSCI-216	American National Government	
PSCI-251	Writing Intensive Program: Comparative Political Systems	
PSCI-275	Introduction To World Politics	
PSCI-291	Concepts Of Political Science	
Select eight 300-level courses:		24
5 courses in one area of emphasis ³		
2 courses in a second area		
1 course in a third area		
Total Hours		36

¹ These introductory courses are not open to majors in their senior year.

² Must be among the first four political science courses taken.

³ The broad areas of emphasis recognized by the department are American Politics and Public Affairs; International and Comparative Politics; and Political Theory. These eight courses must be at the 300-level.

This sample curricular map is provided to guide you in the planning of your progression for this major. This guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor.

Minor in Political Science

Minor in Political Science (18 credit hours)

A minor in political science may be structured to complement a student's major in another department or to develop an area of interest. An assigned advisor will counsel a student in choosing six appropriate courses. The University requires everyone to take a Writing Intensive Course (WIP) in their major. The Department regularly offers three WIP courses. These are PSCI-251, PSCI-344 and PSCI-392.

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Minor in Political Science requirements (18 cr. hrs.)

The following two courses are required:

Code	Title	Hours
PSCI-210	Introduction To Political Science	3
Select one of the following:		
PSCI-275	Introduction To World Politics	
PSCI-291	Concepts Of Political Science	
PSCI-251	Writing Intensive Program: Comparative Political Systems	
PSCI-216	American National Government	

At least three courses should be taken at the 300-level.

Students in the Elementary Education and Early Childhood Education programs who have selected this minor must complete a minimum of 9 hours at the 300-level to meet graduation and certification requirements. Students in the program should note that if you use PSCI-216 to satisfy the Social and Behavioral Science General Education requirement, you must add a course to the Minor. In that case total credit hours will be 21. This applies only to students in the Elementary Education and Early Childhood Education Programs.

Minor in Public Administration

Minor in Public Administration (18 credit hours)

This minor will be of interest to students who would like to broaden the career opportunities available to them, students interested in public affairs and administration and students in non-traditional programs, such as the BA in Interdisciplinary Studies program, who wish to focus on governmental processes. Students who are also majoring in Political Science are discouraged from minoring in Public Administration. Instead, public administration courses can be incorporated into their major program.

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Minor in Public Administration requirements

Code	Title	Hours
Required Courses		
PSCI-216	American National Government	3
PSCI-341	Public Administration	3
Select two of the following:		6
PSCI-325	Public Policy	
PSCI-344	Writing Intensive Program: Public Organization Theory	
PSCI-345	Government Budgeting	
PSCI-346	Public Personnel Administration	
Two 300-level courses relevant to Public Administration chosen with the aid of a departmental advisor, including, if desired, one or two additional courses from the list of four above		6
Total Hours		18

Minor in Jewish Studies

The minor in Jewish Studies offers an interdisciplinary perspective into the narratives, histories, cultures, literatures, and languages of the international Jewish community and explores the breadth and depth of the Jewish experience globally, historically, and culturally. The program involves faculty from a variety of disciplines to build relationships between the Jewish community and other communities in providing an academic overview of the Jewish experience. Students may choose to participate in engaged learning and take advantage of internship opportunities.

Admission Requirements

Admission is open to all NEIU undergraduates who have completed 21 General Education hours and English 101 and 102 or equivalent.

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9

or JS-352	Jewish-American Literature: People Of The Books	
Elective courses		
LING-316	Languages And Cultures: Middle East	3
HIST-314B	Russian And Soviet History 1855 To Present	3
or JS-314B	Russian And Soviet History 1855 To The Present	
Total Hours		18

JS-301. Jewish Studies Applied Learning Internship. 3 Hours.

Placement in an internship with a Jewish agency, either in social services, nonprofit, or other areas. Students will meet regularly with their instructor and complete assignments and readings relating to their internship work.

JS-306. Europe 1919-1948: Fascism, Socialism, And The Second World War. 3 Hours.

This course addresses European history from the treaties that ended the First World War in 1919 to the Berlin Crisis and the start of the Cold War. Themes will include the Great Depression and crisis of liberal democracy, the challenges to it posed by Mussolini, Hitler, and Stalin, and the culmination of tensions among these in the Second World War. Particular attention will be paid to genocide and the Nazi attempt to destroy the European Jewish community.

JS-314B. Russian And Soviet History 1855 To The Present. 3 Hours.

The political, diplomatic, intellectual and social development of the peoples of the Russian Empire and the Soviet Union from the accession of Alexander II to the present. The great diversity of the Russian Empire and Soviet Union's populations will be a particular focus, with emphasis on the Jewish and the Muslim communities.

JS-316. Languages And Cultures: Middle East. 3 Hours.

This course introduces students to the languages, cultures, values, preconceptions and misconceptions associated with the region known as the Middle East. A variety of sources, including academic texts, articles, fiction, poetry, film and the visual arts are incorporated to better grasp and appreciate the complex of languages and cultures of the region. Check the current schedule for the focus country.

JS-321. American Jewish Politics. 3 Hours.

This course will cover: Conceptual frameworks of American Jewish political power, institutions and behavior; multiple theories of modern Jewish politics in America; internal and external advocacy institutions from 1820-present; American Jews and the legal process; American Jews and the Labor Movement; American Jews and Feminist politics; Anti-Semitism and the American Jewish response; American Jewish politics and Israel.

JS-344. Narratives Of The Jewish Experience. 3 Hours.

This course focuses on stories told in contemporary Jewish communities as illustrative of the Jewish experience. Narrative is representative and constructive of life experience, memory, and identity. We will analyze stories collected by others and available to wide audiences, and to stories we collect through interaction and interviews with members of the Jewish community. Analyses will be conducted within a narratological framework that blends discursive theory and practice. Students will gather oral narratives from family members, community members, political and religious leaders, and educators with the goal of analyzing how stories both reveal and construct personal and social identities.

JS-352. Jewish-American Literature: People Of The Books. 3 Hours.

This course studies how the United States shapes the meaning of Jewish identity and culture, and conversely, how Jewish literature helps shape the meaning of American identity and culture. Working in a range of cultural forms from comic books to genre fiction, Jewish writers throughout the modern era creatively and critically interrogate and re-imagine what it means to be Jewish-American, and more broadly, investigate and challenge what it means to be American.

JS-396. Jewish Political Thought. 3 Hours.

This course explores the Jewish political tradition, focusing particularly on the concepts of power, sovereignty, and community. Starting from the Biblical text, we will examine how both classical and modern thinkers within the Jewish tradition understood the ways in which power was created, the different meanings of leadership, the idea of national independence, and the ultimate question of belonging within a fragmented political community.

Psychology

Psychology is the science that deals with the brain and human behavior in all its forms:

- psychological,
- cognitive,
- emotional,
- individual,
- and group.

Its methods range from those similar to the ones used in the humanities to those used in the natural sciences. Psychology offers students a perspective which is not only a career in itself but also a useful adjunct to any discipline.

The Department of Psychology offers an undergraduate program that leads to a Bachelor of Arts degree in Psychology and a graduate program which leads to a Master of Arts in Gerontology, as well as a certificate option in Gerontology. In these programs, the department prepares students for careers in those areas that make particular use of a knowledge of human behavior and development. These include human resource and personnel positions in industry, direct service work in the social services, and research associate positions in academic and industrial settings. Students are also prepared for pursuing further education in any of the major areas of psychology.

The department faculty members represent a number of theoretical approaches as well as a wide range of content areas. This enhances the student's opportunity to become acquainted with the full scope of this broad and complex subject. Because of the need to create a combination of courses consistent with their career goals, students are urged to form a continuing relationship with a faculty advisor in the department early in their major.

The interdisciplinary nature of psychology requires familiarity with other fields. Students intending to pursue graduate studies should have a strong background in mathematics and the natural sciences. All psychology majors will benefit from course work in philosophy, physiology, literature, history, the social sciences, and computer science.

Students who graduate with a bachelor's degree in psychology from NEIU will develop strong universally applied skills in areas such as statistics, writing and an ability to conduct research. Courses such as PSYC 202 and PSYC 302 Statistics and Research Methods I and II both prepare students to develop skills in these areas through in class assignments as well as required out-of-class meetings with department peer leaders, where students work on projects related to class lectures.

Students have the option of participating in the field experience program. Academic credit may be earned through relevant work at field sites such as human service agencies, community organizations, schools, and business. The experience may include direct work with clients, case management, observation, outreach, tutoring, program evaluation and development, or research. The Field Experience program serves to integrate theoretical concepts with practical experience. Training is jointly supervised by a field supervisor on site and a faculty member on campus. Information about undergraduate field experience may be obtained from the program advisor in the psychology department.

Minors in psychology and in gerontology are also offered.

- Major in Psychology (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/psychology/psychology/>)
- Minor in Psychology (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/psychology/minor-psychology/>)
- Minor in Gerontology (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/psychology/minor-gerontology/>)

The following rules apply to the major and minor in psychology and the minor in gerontology: Transfer courses must be approved by the department before being applied to the major or minors. For transfer students, at least one half of the courses applied to the major (22 semester hours) or minors (9 semester hours) must be taken at Northeastern. No more than two courses (6 semester hours) transferred in from junior/ community colleges may be applied to the major or minors. Junior/community college courses may not be used in place of 300-level Northeastern courses. Students who transfer in an approved 3 semester hour course equivalent to General Psychology may complete the major with 43 semester hours, or the psychology minor with 18 semester hours.

The same courses may not be used to fill requirements in two different programs within the department.

- Master of Arts in Gerontology (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/psychology/master-arts-gerontology/>)
- Gerontology Senior Advocate Certificate (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/psychology/1-year-gerontology-certificate/>)

Amanda Dykema-Engblade, Ph.D., Associate Professor, Chair

Ruth Church, Ph.D., Professor

Maureen Wang Erber, Ph.D., Professor

A. David Farmer, Ph.D., Associate Professor

Lisa Hollis-Sawyer, Ph.D., Associate Professor

Christopher Merchant, Ph.D., Associate Professor

Linda M. Rueckert, Ph.D., Professor

Shannon Saszik, Ph.D., Associate Professor
 Masami Takahashi, Ph.D., Professor
 Andrew Gilbert Young, Ph.D., Assistant Professor

PSYC-100. Survey Of Psychology. 3 Hours.

An introduction of the study of psychology as a dynamic and changing system of interrelated and interacting areas.

PSYC-110. Life Span Development. 3 Hours.

An introductory class on human development across the life span, from conception to death. Explores the description, explanation, and function of different aspects of development: physical, psychological and social. Designed as a general education course for non-majors, the main purpose of the course is to present the general underlying structures and mechanisms of development. Some of the major theories and research findings will also be covered.

PSYC-200. General Psychology. 4 Hours.

General introduction to the study of psychology as a science. A personalized system of instruction permits flexible scheduling and different rates for fulfilling requirements. The text covers approximately 25-30 units of material. Tutoring and instructional aides are available.

PSYC-202. Writing Intensive Program: Statistics And Research Methods I. 3 Hours.

The first half of a sequence that is intended to prepare students to be consumers/ producers of research. In this course students will learn basic descriptive statistics, correlation and regression, basic elements of research design and APA style. Students will be required to design a project and write the introduction and method. This is a Writing Intensive course.

Prerequisites: ENGL-101 - 102 and PSYC-200 and (MATH-092 - 499 or MATH-092A - 499Z or MATH-0092 - 4999 or NEIU Math Placement Result 30 - 45 or Accuplacer College Level Math 020 - 120).

PSYC-210. Parenting. 3 Hours.

Parenting integrates concepts, data and methods from child development, learning theory and applied behavior analysis and utilizes them in the context of a positive parenting philosophy to advance normal child skills development.

PSYC-215. Child Psychology. 3 Hours.

Basic theories, concepts, principles and research data concerning the physical, intellectual, emotional and social aspects of development in children.

PSYC-300J. Special Topics In Psychology: Human Neuropsychology. 3 Hours.

Prerequisite: PSYC-202 minimum grade of C.

PSYC-300N. Proseminar In Psychology: Psychopathology In Film And Literature. 3 Hours.

PSYC-302. Statistics And Research Methods II. 3 Hours.

This course is the second half of a sequence that is intended to prepare students to be consumers/producers of research. In this course students will learn parametric and nonparametric inferential statistics through three-way analysis of variance, elements of complex experimental and quasi-experimental design, and research elements of APA format. Students will be required to collect data, analyze and discuss results, and write a formal result and discussion section.

Prerequisites: ENGL-102 minimum grade of C and PSYC-200 minimum grade of C and PSYC-202 minimum grade of C.

PSYC-307. Psychological Tests And Measurements. 3 Hours.

Principles and methods of measurement and evaluation: elementary statistical concepts, reliability and validity, interpretation of test results, standards for psychological and educational tests, principles of test construction and use of psychological and educational tests.

Prerequisites: PSYC-202 minimum grade of C and PSYC-200 minimum grade of C.

PSYC-308. Laboratory, Research Methods In Psychology: Tests And Measurements. 5 Hours.

Development, construction, scoring, standardization, determination of reliability and validity of simple tests in psychology.

Prerequisites: PSYC-302 minimum grade of C and PSYC-200 minimum grade of C.

PSYC-310. Developmental Psychology. 3 Hours.

Longitudinal study of the development of behavior throughout the life span, including physiological factors and their bearing on the psychological adjustment of the individual in childhood, adolescence, adulthood, and later maturity.

Prerequisites: (PSYC-202 minimum grade of C or PSYC-301 minimum grade of C) and PSYC-200 minimum grade of C.

PSYC-311. Psychosexual Development. 3 Hours.

Study of the development of sex differences, from the acquisition of sex role identity in childhood through sex differences in adult personality, cognition and role behavior.

Prerequisite: PSYC-200 minimum grade of C.

PSYC-312. Psychological Development In Women. 3 Hours.

Psychological development and identity formation in women with emphasis on personality, psychosexual and cognitive development.

Prerequisite: PSYC-200 minimum grade of C or PSYC-100 minimum grade of C or WSP-101 minimum grade of C.

PSYC-314. Psychology Of The African American Family. 3 Hours.

The purpose of this course is for students to gain an understanding of how African American families have evolved in America. The experiences of slavery and racism have influenced the development of African American families and the social policies and practices toward them. These have resulted in the proliferation of myths and perceptions of African American families that often emphasize the negative end results of years of discrimination. The goal of this course is to examine the history of African American families, research performed on African American families, issues facing African American families, and interventions offered to African American families.

Prerequisite: AFAM-200 minimum grade of C or PSYC-200 minimum grade of C.

PSYC-316. Laboratory, Research Methods In Psychology: Child Development. 5 Hours.

Examination and application of research techniques and methods used in child and developmental psychology. Students will collect, analyze, interpret and present research data.

Prerequisites: PSYC-302 minimum grade of C and PSYC-200 minimum grade of C and (PSYC-215 minimum grade of C or PSYC-310 minimum grade of C).

PSYC-317. Latino Psychology: Mental Health & The Latino Experience In The USA. 3 Hours.

This course is designed for students to explore and gain an understanding the multiplicity of factors (biological, psychological, environmental and cultural) that impact and shape the mental health of different Latino groups living in the USA. Immigration, stereotyping, discrimination and prejudice are key topics in determining how Latinos view themselves in American culture.

Prerequisite: PSYC-200 minimum grade of C.

PSYC-318. Psychopathology Of Childhood. 3 Hours.

Study of the dynamics of pre-adolescent neurotic disturbances.

Prerequisite: PSYC-200 minimum grade of C.

PSYC-320. Adolescent Psychology. 3 Hours.

Nature of adolescent development and adjustment: physical, intellectual, emotional, and social aspects.

Prerequisite: PSYC-200 minimum grade of C or PSYC-100 minimum grade of C or PSYC-110 minimum grade of C.

PSYC-322. Emotional Disturbances Of Adolescence. 3 Hours.

Study of the psychological dynamics and of the problems and conflicts which the adolescent may experience during this distinct phase of his/her life.

Prerequisite: PSYC-310 minimum grade of C or PSYC-200 minimum grade of C.

PSYC-324. Geropsychology. 3 Hours.

This course will introduce students to the study of aging and the progression of gerontology. The course focuses on the physical, psychological, social and cognitive aspects of aging from a number of disciplinary perspectives. Micro (individual's process of aging) as well as macro (societal) issues of an aging population will be examined. The course will also introduce students to a number of controversies and debates in gerontology, many of which have implications for social policy.

PSYC-325. Psychosocial Development And Aging. 3 Hours.

Exploration of behavioral development and of the influence of social and environmental factors on the psychosocial development throughout the life span.

Prerequisite: PSYC-200 minimum grade of C.

PSYC-328. Seminar In Aging. 3 Hours.

Integrated and critical evaluation of problems and issues related to aging; assessment of research and of its application to the establishment of programs for the aged.

Prerequisite: PSYC-200 minimum grade of C.

PSYC-330. Psychology Of Personality. 3 Hours.

Contemporary theories of personality development and personality dynamics and definitions of the healthy personality.

Prerequisites: (PSYC-202 minimum grade of C or PSYC-301 minimum grade of C) and PSYC-200 minimum grade of C.

PSYC-331. Laboratory, Research Methods In Psychology: Personality Development. 5 Hours.

Research methods used in the study of "personality." Collection, analysis and interpretation of research data, and reporting results.

Prerequisites: PSYC-302 minimum grade of C and PSYC-200 minimum grade of C and (PSYC-330 minimum grade of C or PSYC-340 minimum grade of C).

PSYC-340. Abnormal Psychology. 3 Hours.

Overview of psychopathology; similarities and differences between "normal" and "abnormal" groups.

Prerequisites: (PSYC-202 minimum grade of C or PSYC-301 minimum grade of C) and PSYC-200 minimum grade of C.

PSYC-341. Laboratory, Research Methods In Psychology: Clinical. 5 Hours.

Application of the techniques learned in the Statistics and Research Methods courses to actual research topics in the clinical field of psychology. The format is one hour of lecture and four hours of laboratory, in which student actually collect and analyze data. Fulfills department major lab requirement.

Prerequisites: PSYC-302 minimum grade of C and PSYC-200 minimum grade of C and (PSYC-330 minimum grade of C or PSYC-340 minimum grade of C).

PSYC-345. Theories And Methods Of Individual Therapy. 3 Hours.

Overview of various approaches to psychotherapy.

Prerequisites: (PSYC-330 minimum grade of C or PSYC-340 minimum grade of C) and PSYC-200 minimum grade of C.

PSYC-346. Introduction To Group Psychotherapy. 3 Hours.

Study and application of the underlying principles of several approaches to group processes; e.g., T-groups, growth (Rogerian) groups, rational-emotive groups, Gestalt groups, T.A. groups.

Prerequisites: (PSYC-330 minimum grade of C or PSYC-340 minimum grade of C) and PSYC-200 minimum grade of C.

PSYC-350. Physiological Psychology. 3 Hours.

Lectures on physiological research techniques; ablation, lesioning, electro-physiology, and neurochemistry. The neuron, synaptic, electrical and chemical events, sensory physiology, psychopharmacology, memory mechanisms, emotions and vegetative functions are covered.

Prerequisites: (PSYC-202 minimum grade of C or PSYC-301 minimum grade of C) and PSYC-200 minimum grade of C.

PSYC-351. Laboratory, Research Methods In Psychology: Physiological Psychology. 5 Hours.

Techniques employed in the investigation of brain functions including surgical and testing procedures such as ablation, electrolytic lesions, implants of permanent electrodes, operant conditioning techniques, pharmacological experiments and demonstrations.

Prerequisites: PSYC-302 minimum grade of C and PSYC-200 minimum grade of C and (PSYC-350 minimum grade of C or PSYC-370 minimum grade of C or PSYC-373 minimum grade of C or PSYC-375 minimum grade of C).

PSYC-352. Introduction To Neuropsychopharmacology. 3 Hours.

Discussion of neuronal synapse and neurotransmitter action, and the physiology and basic chemistry of the better known putative neurotransmitters; overview of the major and minor tranquilizers, the antidepressants, and the hallucinogens; examination of the better known relationships between neurochemistry, psychopharmacology and behavior.

Prerequisite: PSYC-200 minimum grade of C.

PSYC-353. Physiological Bases Of Mental Disorders. 3 Hours.

Physiological and genetic aspects of mental disorders; major theories and current research models with emphasis on current literature and primary sources.

Prerequisites: PSYC-202 minimum grade of C and PSYC-200 minimum grade of C and PSYC-350 minimum grade of C.

PSYC-354. Seminar In Drug Abuse. 3 Hours.

Lectures, discussions and selected readings concerning the psychological, sociological and physiological aspects of drug abuse.

Prerequisite: PSYC-200 minimum grade of C or BIO-100 minimum grade of C or BIOL-100 minimum grade of C.

PSYC-355. Experimental Psychology Of Zebrafish. 3 Hours.

The course will provide a survey of different experimental psychology methods that are used in animal models to understand the corresponding human behavior. Topics discussed in class will focus on the use of animals in research as model systems to understand the neural circuits that underlie normal and abnormal behavior. During the course students will replicate previous research studies to develop an understanding of some of the common methodological issues and to better understand and interpret data from different sources.

PSYC-360. Social Psychology. 3 Hours.

Basic principles and research techniques in social perception, attitude formation, group dynamics, interpersonal attraction, and social influence.

Prerequisites: (PSYC-202 minimum grade of C or PSYC-301 minimum grade of C) and PSYC-200 minimum grade of C.

PSYC-361. Laboratory, Research Methods In Psychology: Social Psychology. 5 Hours.

Application of techniques learned in Statistics and Research Methods to actual research topics in social psychology. Through lecture and laboratory, in which students actually collect and analyze data.

Prerequisites: PSYC-302 minimum grade of C and PSYC-200 minimum grade of C and PSYC-360 minimum grade of C.

PSYC-364. Theories Of Intimate Relationships. 3 Hours.

The advanced study of the field of intimate relationships. Coursework covers social psychological theories and research on romantic relationships and addresses topics such as attraction, communication, attachment, love, infidelity, jealousy, conflict, and relationship dissolution.

Prerequisites: PSYC-360 minimum grade of C and PSYC-200 minimum grade of C.

PSYC-365. Industrial Psychology. 3 Hours.

An introductory survey of the diverse field of industrial psychology. Personnel selection, business organizations, marketing and advertising, human factors and human engineering, worker-supervisor relations and executive behavior.

Prerequisite: PSYC-200 minimum grade of C.

PSYC-367. Psychology Of Food. 3 Hours.

Food and eating play an important role in how we define ourselves and how we relate to other people. This course will explore many aspects of food and food consumption, primarily through the lens of a social psychological perspective. Topics will include: emotions and food (i.e., food and mood); food and health (e.g., obesity and disordered eating); cross cultural perspectives on food; and contextual cues that influence our eating choices. In short, the course will explore the psychological aspects of why we eat, what we eat and how much (or little) we eat. Note: If course is taken as capstone, the prerequisites needed will include PSYC-302 and at least one course from two Psychology core areas with a minimum grade of C.

Prerequisites: PSYC-200 minimum grade of C and PSYC-202 minimum grade of C.

PSYC-368. Consumer Psychology. 3 Hours.

This course is designed to provide the student with an introduction to the field of consumer psychology. The course will emphasize a social psychological perspective. The class will focus on theoretical and applied applications of consumer behavior and advertising through the lens of the psychology field. Topics such as persuasion, the psychology of decision-making, motivation, and income/social class will be discussed as they relate to consumer behavior.

Prerequisite: PSYC-200 minimum grade of C.

PSYC-369. Conservation Psychology. 3 Hours.

Students will explore the emerging field of conservation psychology with an emphasis on the psychological characteristics of the relationship between humans and nature, such as environmental values, attitudes, behavior, and decision-making practices. Course topics, including environmental perception, identity, personal morals, ecopsychology, wilderness psychology, domestic nature, managed nature, community dimensions, and environmental education, will be investigated in the context of promoting environmental responsibility.

PSYC-370. Theories Of Learning. 3 Hours.

Psychological study of the processes of learning, problem-solving, and memory. Major historical theories of learning; demonstration of some basic research techniques.

Prerequisites: (PSYC-202 minimum grade of C or PSYC-301 minimum grade of C) and PSYC-200 minimum grade of C.

PSYC-371. Neuropsychology. 3 Hours.

Neuropsychology is an upper level course that will examine the neural basis of human behavior, and cognition. Students will examine the different methodologies that are used to characterize the underlying neurological function that drives human behavior and cognition under normal conditions. The course will also cover some clinical applications of neuropsychology to explore and understand causes of cognitive dysfunction and pathology. Topics that are discussed will incorporate research from studies using animal models, but always with emphasis on the connection to humans.

Prerequisites: PSYC-200 minimum grade of C and PSYC-202 minimum grade of C.

PSYC-373. Human Perception. 3 Hours.

Study of how our perceiving and performing systems convert information from the environment and the self to action in everyday life.

Prerequisites: (PSYC-202 minimum grade of C or PSYC-301 minimum grade of C) and PSYC-200 minimum grade of C.

PSYC-374. Laboratory, Research Methods In Psychology: Perception. 5 Hours.

Research techniques and experiments in perception, cognition and learning.

Prerequisites: PSYC-302 minimum grade of C and PSYC-200 minimum grade of C and (PSYC-373 minimum grade of C or PSYC-350 minimum grade of C or PSYC-370 minimum grade of C or PSYC-375 minimum grade of C).

PSYC-375. Cognitive Psychology. 3 Hours.

This course is an introduction to cognitive psychology, the study of human thought, information processing, and consciousness. It covers the following topics normally associated with the study of cognition: pattern recognition, learning and memory, language, reasoning, decision making, cognitive neuropsychology, and artificial intelligence.

Prerequisites: PSYC-200 minimum grade of C and PSYC-202 minimum grade of C.

PSYC-376. Social Neuroscience. 3 Hours.

The purpose of this course is to gain an understanding of how the nervous system affects social relationships, and how social relationships affect the nervous system. Although the main focus is on humans, many of the studies we cover will be on non-human animals. We will focus mainly on the macro-level (i.e. parts of the brain), but some information will also be presented at the micro-level (cellular and chemical).

Prerequisites: PSYC-202 minimum grade of C and PSYC-200 minimum grade of C.

PSYC-377. Visual Neuroscience. 3 Hours.

Visual Neuroscience is an upper level course that will examine how data based and knowledge based processing determines an individual's visual experience. To better understand the interaction between data and knowledge, students will learn about the different techniques and methodologies that are used to address research questions in visual perception. Students will explore how visual information is encoded at the early synapses in the retina and is processed as neural signals move into cortex. The effect of different conditions on human visual perception will be further examined to understand how data and knowledge interact to determine a single perceptual experience.

Prerequisites: PSYC-200 minimum grade of C and PSYC-202 minimum grade of C.

PSYC-378. Laboratory, Research Methods In Psychology: Cognitive. 5 Hours.

Examination and application of research techniques and methods used in cognitive psychology. Students will collect, analyze, interpret, and present research data.

Prerequisites: PSYC-302 minimum grade of C and (PSYC-350 minimum grade of C or PSYC-370 minimum grade of C or PSYC-371 minimum grade of C or PSYC-373 minimum grade of C or PSYC-375 minimum grade of C).

PSYC-381. Independent Study In Psychology. 1 Hour.

Special study projects in psychology specifically and individually contracted with the instructor. Arrangements should be made in the term prior to registration.

Prerequisites: (PSYC-202 minimum grade of C or PSYC-301 minimum grade of C or PSYC-317 minimum grade of C or PSYC-317A minimum grade of C) and PSYC-200 minimum grade of C.

PSYC-382. Independent Study In Psychology. 2 Hours.

(See PYSC-381 for description.).

Prerequisites: (PSYC-202 minimum grade of C or PSYC-301 minimum grade of C or PSYC-317 minimum grade of C or PSYC-317A minimum grade of C) and PSYC-200 minimum grade of C.

PSYC-383. Independent Study In Psychology. 3 Hours.

(See PYSC-381 for description.).

Prerequisites: (PSYC-202 minimum grade of C or PSYC-301 minimum grade of C or PSYC-317 minimum grade of C or PSYC-317A minimum grade of C) and PSYC-200 minimum grade of C.

PSYC-385. Capstone Seminar. 2 Hours.

The capstone seminar is to be taken in conjunction with the completion of the student's capstone project. The aim of the course is to provide capstone students with additional, structured contact hours with their advisor/instructor in order to facilitate efficient and superior work.

Prerequisite: PSYC-302 minimum grade of C.

PSYC-391. Field Experiences In Psychology I. 3 Hours.

Experiential learnin in psychology-related settings (such as psychiatric hospitals and schools) integrating both academic work and on-the-job experience. Arrangements should be made in the term prior to registration.

Prerequisite: PSYC-200 minimum grade of C.

PSYC-393. Seminar In The Teaching Of Psychology. 3 Hours.

Introduces students to the theories and methods of post-secondary teching as relevant to the field of psychology. Students participate with faculty in active teaching activities of an undergraduate psychology course.

Prerequisite: PSYC-200 minimum grade of C.

PSYC-395. History Of Psychology. 3 Hours.

Psychology as a science from Wundt to present day. The course examines systems and describes and evaluates theories.

Prerequisites: PSYC-302 minimum grade of C and PSYC-200 minimum grade of C.

PSYC-396. Senior Seminar In Psychology. 3 Hours.

Research and preparation of papers; provides for individual work by the student, and guidance through criticism by fellow students and faculty.

Prerequisites: PSYC-302 minimum grade of C and PSYC-200 minimum grade of C.

PSYC-397. Capstone: Applied Service Learning Lab. 5 Hours.

This capstone course meets the needs and interests of students wishing to seek careers in community settings. Students integrate psychology knowledge and apply it to real world situations and problems as they are immersed in hands-on, community-based learning experiences. Course activities include participation in an agency/institutional setting, reflections on these experiences, and interpretation via an academic/scholarly lens. Students work closely with both a peer-team and with members of a community organization. The capstone project requires on-site volunteer hours and the development and execution of a project specific to the site's needs and demands.

PSYC-401. Gerontology: An Overview. 3 Hours.

Presents an overview of the field of gerontology. It provides an introduction to the demographic, economic and social implications of the growth in the population of older individuals.

PSYC-402. Developmental Processes In Later Life. 3 Hours.

Examines research on how individuals age psychologically throughout adulthood and into advanced old age.

Prerequisite: PSYC-401 minimum grade of C.

PSYC-403. Developmental Processes In Aging:Physiological Aspects. 3 Hours.

In order to understand the aging individual, it is important to understand the normal and pathological physical changes that occur as the person ages. This course is intended to provide students of gerontology with this basic grounding in the physiology of aging and thus is aimed at graduate students with only minimal background in biology. Using a combination of text material and journal readings, it will cover the development changes in all the major biological systems.

Prerequisite: PSYC-401 minimum grade of C.

PSYC-406. Aging And The Family. 3 Hours.

Acquaints students with the research on the inter-generational roles on the nuclear, extended and non-traditional forms of 20th century families in providing physical, emotional, and financial support to members over the life-span in a society that has increasing numbers of three, four, and five generation families.

Prerequisite: PSYC-401 minimum grade of C.

PSYC-408. Research Methods. 3 Hours.

This course introduces research methods and methodological problems encountered in theoretical an applied studies in the field of gerontology and provides guidance in preparing research or program proposals.

Prerequisite: PSYC-402 minimum grade of C.

PSYC-412. Psychopathology And Aging. 3 Hours.

Enables students to differentiate between the psychological characteristics of normal aging in later life and those associated with psychopathology. Differences between chronic mental illness and late onset psychopathology are clarified. Questions of assessment and treatment for these populations are included.

Prerequisite: PSYC-401 minimum grade of C.

PSYC-414. Psychotherapy Of The Elderly. 3 Hours.

This course assists students interested in direct service to develop an awareness of the range of psycho-therapeutic modalities that are effective with elderly clients.

Prerequisite: PSYC-401 minimum grade of C.

PSYC-415. Practicum In Gerontology. 3 Hours.

A supervised practicum, typically 120 clock hours, is required of all students who lack formal experience in working directly with the elderly. It is also recommended for students who have previously worked with this population and whose career objectives make a different type of experience in another setting desirable.

Prerequisite: PSYC-402 minimum grade of C.

PSYC-416. Internship In Gerontology. 3 Hours.

This 120 clock hour supervised field work course is required of all students. Those with no prior experience in gerontology must complete PSYC-415 before registering for this course. The internship site varies according to the interests of the student. The faculty will determine the suitability of the site.

Prerequisite: PSYC-402 minimum grade of C.

PSYC-418. Public Policy And Aging. 3 Hours.

This course will examine major health care, social, and economic policies that affect the elderly. Students will learn to assess and understand the differential impact on life style and quality of life experienced in old age by individuals of various socioeconomic classes.

Prerequisite: PSYC-401 minimum grade of C.

PSYC-420. Seminar In Proposal Writing. 3 Hours.

This seminar covers the whole process of proposal writing as it applies to either grant or thesis proposals. Students are expected to produce an acceptable proposal as part of the course.

Prerequisite: PSYC-408 minimum grade of C.

PSYC-424. Independent Study In Gerontology. 3 Hours.

This course provides an opportunity to specialize in an area of interest not sufficiently covered in either the required or elective courses offered. The plan for independent study (the specific topic, list of possible readings, and plan for a final paper) must be approved in writing by the sponsoring faculty member in the term prior to registration.

Prerequisite: PSYC-402 minimum grade of C.

PSYC-426. Values, Decision Making And The Elderly. 3 Hours.

This course sensitizes students to their own and other's social and personal values pertain to aging and the aged. It covers the ethical issues and dilemmas that arise for the elderly, their advocates, and caretakers when age is a primary factor in making difficult decisions.

Prerequisite: PSYC-401 minimum grade of C.

PSYC-428. Aging And Cultural Diversity In The U.S.. 3 Hours.

This course familiarizes students with the literature and research-in-progress on variations in the process of aging, attitudes toward aging and the aged, and assistance provided to the aged among various major ethnic groups found in the United States.

Prerequisite: PSYC-401 minimum grade of C.

PSYC-432. Meanings Of Old Age. 3 Hours.

This course explores the range of external perceptions and personal experiences of old age and old people by comparing what research scholars say about aging with the writings of older people themselves. Societal ageism and personal beliefs about aging, old age and old people are considered.

Prerequisite: PSYC-401 minimum grade of C.

PSYC-434. Aging Services Network. 3 Hours.

This course examines the wide range of services and programs fostered by the Older American Act and referred to as the "aging network." Interviews with service providers and onsite observations give students an awareness of the issues involved in designing and implementing programs for older people.

Prerequisite: PSYC-401 minimum grade of C.

PSYC-5901. Thesis Hours. 1 Hour.

This course involves guidance of students writing a master's thesis as part of the requirements for the MA. in Gerontology.

Prerequisite: PSYC-420 minimum grade of C.

PSYC-5902. Thesis Hours. 2 Hours.

See course description for PSYC-5901.

Prerequisite: PSYC-420 minimum grade of C.

PSYC-5903. Thesis Hours. 3 Hours.

See course description for PSYC-5901.

Prerequisite: PSYC-420 minimum grade of C.

Gerontology Senior Advocate Certificate

Gerontology Senior Advocate Certificate

The 21-credit hour Gerontology Senior Advocate Certificate is designed to meet the educational needs of a variety of student groups: those already working with older adults, those contemplating a career change, and those working in other fields who wish to increase their knowledge of aging processes to help advocate for this growing segment of the national and internal population. To address these needs, students complete a set of required courses providing a solid background in the concepts of gerontology. To this aim, the two-year Gerontology Senior Advocate Certificate is for those professionals and/or life-long learners interested in short-term training in the field before potentially pursuing more extensive education in gerontology (e.g., M.A. in Gerontology).

Core or Required Courses (15 credit hours):

There are two elective "tracks" for certificate students.

"Track" #1: Individualized/Community Outreach (2 Courses - 6 credit hours)

"Track" #2: Public Policy/Administration (2 Courses - 6 credit hours)

Course Transfer Policy

Students may transfer the full credit hours of the certificate as per university course transfer policy into the M.A. in Gerontology program.

Gerontology Senior Advocate Certificate

Major in Psychology

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Major in Psychology for the Bachelor of Arts Degree

Master of Arts in Gerontology

Master of Arts in Gerontology

The master's degree program in gerontology is a multidisciplinary degree intended to provide both breadth and depth in the study of aging. The required portion of the 36 credit program consists of three parts: The classroom component consists of seven required courses (21 credits), the experiential component consists of an internship (3 credits) and the capstone component involves a thesis (3 credits). In addition to the internship, a practicum is required for those students who do not have prior experience in the field. The thesis may be in basic or applied research or may be a theoretical integration of a topic area.

The combination of required and elective courses prepares graduates to assume positions of responsibility in direct service, administration, social policy, and research with, or on behalf of, older people.

By design the program is part-time, with courses offered in the evening and Saturdays. A student may complete all but the thesis in three academic years by enrolling in one course in the first semester and two courses each semester thereafter. The thesis is the final course and is usually taken after all classroom work is completed.

Requirements for Admission to the Program:

Students must fulfill the general admission requirements of the Graduate College at Northeastern Illinois University.

Students seeking admission to the M.A. in Gerontology program must have completed 15 undergraduate credits in the social sciences (anthropology, psychology, political science, sociology, etc.) In addition, applicants must have completed one (3 credit) course in statistics. If applicants meet all other requirements, the statistics requirement may be fulfilled after conditional admission to the Program. In this case they will be expected to complete an undergraduate course in statistics before being allowed to enter PSYC-408 and before filing for degree candidacy. The undergraduate statistics course does not count toward the 36 hours for the M.A. degree.

Requirements for the Degree:

For students admitted to Master's programs prior to the Fall 1997 semester, the majority of courses applied to the Master's degree must be 400-level; a limited number of appropriate 300-level courses are applicable.

Code	Title	Hours
Required Courses

M.A. in Gerontology:

New non-Thesis Graduation Option

Beginning Spring 2010, the M.A. in Gerontology program will offer the choice of a two-part comprehensive exam (i.e., (1) written multiple-essay comprehensive exam and (2) fully-developed research proposal) in lieu of completing a full thesis. Students will be required to do an oral presentation (“defense”) of their research proposal. This non-Thesis option achieves the goals of the program and the gerontology field in training knowledgeable and competent researchers and practitioners.

Minor in Gerontology

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9

Social Work

The Social Work Program offers a Bachelor of Social Work (BSW) accredited by the Council on Social Work Education. The curriculum is designed to prepare beginning level generalist social work practitioners who are committed to the values and ethics of the profession and the provision of quality services to diverse clients. Coursework and field experiences expose students to a variety of social work settings and clients who represent diverse socio-cultural backgrounds.

The Social Work Program also offers a Masters in Social Work degree (MSW). The Masters degree program in social work is designed to prepare advanced social work practitioners who can serve vulnerable populations and contribute to their functioning and well-being. There are two levels of curriculum: the foundation and the advanced. The foundation curriculum consists of 30 credit hours, preparers done for generalist practice with individuals, groups, communities and organizations and is similar to the curriculum for the bachelor's degree in social work. The advanced level curriculum is built upon the foundation curriculum and prepares students for direct and indirect practice categorized as concentrations. The concentration offered is Practice with Vulnerable Populations.

The Social Work Program faculty members represent a number of practice perspectives and theoretical approaches as well as work with a variety of populations in the area of child welfare, family, immigration, mental health, domestic violence, and social justice issues.

SWK-200. Introduction To Social Work. 3 Hours.

Overview of the social work field, its philosophical basis, historical development and future growth; introduction to the concept of genralist practice.

SWK-202. Community Analysis. 3 Hours.

Methods of conducting research on local communities and racial/ethnic backgrounds. Role of culture in human behavior and how one's culture interfaces with other cultures. This is a values and knowledge elective course.

Prerequisite: SWK-200 minimum grade of C.

SWK-203. Analysis Of Cross Culture Interaction. 3 Hours.

This is a pre-practice elective. Development of sensitivity when interacting with persons of diverse racial- ethnic backgrounds. Role of culutre in human behavior and how one's culture interfaces with other cultures.

SWK-207. Social Welfare Policy I. 3 Hours.

Convers content on the history of social welfare, current social welfare programs and the societal values that underline these provisions.

Prerequisite: SWK-200 minimum grade of C.

SWK-250. Issues In Social Service Delivery. 3 Hours.

Covers major problems and issues in the field of social work. Topics vary. This is a values and knowledge elective course.

SWK-300. Human Sexuality And Social Work. 3 Hours.

Knowledge of sexuality as it is expressed in a variety of lifestyles and the application of social work values and ethics when working with sensitive issues in sexuality. This is a values and knowledge elective course.

SWK-301. Social Work And The Law. 3 Hours.

This course will introduce and provide a basic understanding to the social work student of the law, legal processes, and legal systems as they relate to social work fields' of practice. This course will challenge students to consider and begin to understand how the fields of social work and law intersect. They will develop an understanding of how the practice of social work is continually influenced and, often time regulated, by legislative and judicial decisions. The student will begin to explore how to advocate within the legal system on behalf of the populations that they serve. This is a values and knowledge elective course.

Prerequisite: SWK-200 minimum grade of C.

SWK-303. Writing Intensive Program: Human Behavior And The Social Environment I. 3 Hours.

A first course of a two-part sequence designed to develop understanding about human behavior and the social environment. Students will enhance their critical thinking skills by focusing on analyzing how people understand themselves, how people create meaning in their lives, how people change, and how your own perspective influences understanding client-systems. The generalist practice model is used to understand the central principles of empowerment: client capacity, resiliency, opportunities, context, constitution and construction. As a writing intensive course students develop the fundamentals of professional writing skills for the social work field.

Prerequisites: SOC-100 and PSYC-100 and PSYC-110 and ANTH-212 and BIO-100 and MATH-103 - 499 and SWK-200 and ENGL-101 - 102.

SWK-304. Social Work Practice I. 3 Hours.

A first course in a two-part sequence designed to provide the student with a foundation in generalist social work practice i.e. knowledge, values and skills. The central premise is that generalist practice is about client empowerment through collaborative work with clients. This involves empowerment of clients through preparation for first contact, learning how to dialogue across client systems, learning how to define directions with the client and collaborating about the client needs and resources. Bridging knowledge from HUBSE I is done through practical application.

Prerequisites: SOC-100 and PSYC-100 and PSYC-110 and ANTH-212 and BIO-100 and MATH-103 - 499 and SWK-200 and ENGL-101 - 102.

SWK-305. Social Work Practice II. 3 Hours.

The second course of a two-semester practice foundation. Course content will focus on the social work processes of goal setting, application of models for action, and integrating gains in the generalist method of practice. The social worker's role and activities will be examined in light of the values and ethics of the profession, which includes conducting oneself as an ethnically sensitive worker with diverse client systems in the urban environment.

Prerequisites: SWK-200 minimum grade of C and SWK-207 minimum grade of C and SWK-303 minimum grade of C and SWK-304 minimum grade of C and SWK-309 minimum grade of C.

SWK-306. Human Behavior In The Social Environment II. 3 Hours.

This is the second course in the Human Behavior and Social Environment foundation area. It is designed to examine the dynamic interplay between the individual's development and the functioning of groups, families, organizations and communities and builds on the objectives of SWK-300 HUBSE I. Each unit integrates the student's knowledge about the generalist model, the concepts & assumptions within, understanding of the concept of self, the value of honoring diversity and the commitment to social and economic justice.

Prerequisites: SWK-200 minimum grade of C and SWK-207 minimum grade of C and SWK-303 minimum grade of C and SWK-304 minimum grade of C and SWK-309 minimum grade of C.

SWK-307. Services To Children & Adolescents. 3 Hours.

This course focuses on culturally competent social work practice with children and adolescents living in diverse family arrangements. The continuum of services and resources available to children and adolescents and the roles and functions of the social worker in these settings are examined. Economic, social, and psychological concerns of vulnerable children are identified, and intervention strategies that will effectively meet these needs are addressed. Students are presented with specialized knowledge and skills essential for working with children and adolescents. Students will be exposed to fundamental training that prepares them for DCFS Licensure. This is a values and knowledge elective course.

Prerequisites: SWK-200 minimum grade of C and SWK-207 minimum grade of C.

SWK-308. Social Work Practice With Immigrants & Refugees I. 3 Hours.

Professional social work in the United States began in the late 19th century largely as a response to what was then the largest wave of immigration to this country. Jane Addams's Hull House settlement house served many of Chicago's newly arrived European migrants helping them adjust to life in their new home. Today, we are in the midst of another great wave of migrants; 12% of the U.S. population is foreign-born, representing over 35 million individuals. This group of immigrants are much more diverse racially, ethnically, and socio-economically than ever before. This diversity presents a unique set of challenges for policymakers and practitioners trying to facilitate their adaptation to the US. This course is thus designed to help students planning to work with foreign-born populations (and their offspring) gain the knowledge and skills necessary to address their needs. This is a values and knowledge elective course.

Prerequisites: SWK-200 minimum grade of C and SWK-207 minimum grade of C.

SWK-309. Research And Quantitative Applications In Social Work. 3 Hours.

Content on basic and applied research concepts and methodology; assessment of empirical research published in professional social work literature; interpretation of statistical analyses.

Prerequisites: SOC-100 and PSYC-100 and PSYC-110 and ANTH-212 and BIO-100 and MATH-103 - 499 and SWK-200 and ENGL-101 - 102.

SWK-310. Research Seminar I. 3 Hours.

This course is designed to prepare students to conduct qualitative research in their field practicum agency. At the completion of the course each student will begin a detailed proposal for research that will be completed in the subsequent term. The course will cover the various approaches to qualitative research e.g. ethnographic theory, narrative and the case study. Special attention will be given to problem formulation, literature review, and data collection techniques.

Prerequisites: SWK-200 minimum grade of C and SWK-207 minimum grade of C and SWK-303 minimum grade of C and SWK-304 minimum grade of C and SWK-305 minimum grade of C and SWK-306 minimum grade of C and SWK-309 minimum grade of C and SWK-357 minimum grade of C.

SWK-311. Research Seminar II. 3 Hours.

The focus of this course is the continuation of the research proposal begun in SWK-310- Research Seminar I, which includes procedures, research design, data analysis, interpreting and coding data and evaluation. Attention will be given to ethical considerations and considerations of race, gender, culture and sexual orientation.

Prerequisite: SWK-310 minimum grade of C.

SWK-312. Women And Social Work. 3 Hours.

Women and Social Work is an elective course focusing on women's issues in social work, both for women as social work practitioners and for women as clients/ participants in social service delivery systems. The course will cover aspects of feminist thought, non-sexist therapy, feminist therapy, sexist biases in research, feminist research in social work and social welfare policies and practice which have an impact on women. This is a values and knowledge elective course.

SWK-313. Child Advocacy Studies: Assessment And Evaluation. 3 Hours.

This course provides a survey of the emerging field of Child Advocacy Studies, which researches and seeks remedies for the maltreatment of children and youth, including specific acts of violence and neglect, in the context of the pernicious effects of racism, poverty, sexism, and heterosexism, including the unique problems faced by immigrant and displaced children. The course examines the various economic, political, social and cultural circumstances that may contribute to the abuse and maltreatment of children and youth. It also teaches students about the strategies and tactics used by various local governmental and nongovernmental agencies, courts and medical establishments to address these problems. This is an elective class for Social Work majors and minors, and one of the required courses in the sequence for a Child Advocacy Studies minor.

SWK-314. Social Work Advocacy. 3 Hours.

This course is designed to enhance students' understanding of social work advocacy. It is an elective course and is geared to develop an awareness about social work advocacy and its role in: organizational change, political campaigns and lobbying. This is a values and knowledge elective course.

SWK-320. Domestic Violence Social Work: Theory And Practice. 3 Hours.

This course will explore the theory and research on the causes of abuse, including individual and family factors, intergenerational aspects, gender issues, community and societal influences, as well as cultural factors. Strategies and treatment for alleviating family violence will be explored, including systems which are currently in place and other societal systems of response to this social problem. This is a skills elective course.

Prerequisites: SWK-200 minimum grade of C and SWK-207 minimum grade of C.

SWK-321. Social Work Practice In Schools. 3 Hours.

This elective course will present essential knowledge and skills for engaging in effective generalist social work practice with youth and families in public elementary, middle, and high schools. It will focus on four key domains of social work practice in school settings: 1) culturally competent practice, 2) social emotional learning, 3) positive youth development, and 4) community collaboration. Drawing upon a comprehensive community schools framework, students in this course will be exposed to the current research, critical issues, and essential practice skills relevant to generalist social work practice in schools.

Prerequisites: SWK-200 minimum grade of C and SWK-207 minimum grade of C and SWK-303 minimum grade of C and SWK-304 minimum grade of C.

SWK-322. Writing Intensive Program: International Social Work. 3 Hours.

This course is intended to provide students with an understanding of social policy issues and programs in other countries. Examination of the political, economic, and social conditions that either enhance or impinge upon the wellbeing of people and policy development will be explored. Students will utilize critical thinking skills to deepen their understanding of international social work issues. Students will be able to understand how cultural values and beliefs are translated into policies and enacted through programs. This is a skills elective course.

Prerequisites: ENGL-101 minimum grade of C and SWK-303 minimum grade of C and SWK-304 minimum grade of C.

SWK-323. Social Work Practice With Immigrants & Refugees II. 3 Hours.

This course is designed to help students planning to work with immigrant and refugee populations gain the knowledge and skills necessary to address their needs. This course connects the social work profession's values of diversity, social justice, and social change to social policy and direct practice with the foreign-born. This is a skills elective course.

Prerequisites: SWK-200 minimum grade of D and SWK-207 minimum grade of D.

SWK-324. Social Work With Latino Communities. 3 Hours.

This course is designed to help students gain the knowledge and skills necessary to address the needs of the Latino community. This course will use applied learning and participatory action research methods to connect the social work profession's values of diversity, social justice, and social change to positively affect the development of local Latino communities. This is a skills elective course.

Prerequisites: SWK-303 minimum grade of C and SWK-304 minimum grade of C.

SWK-326. Independent Study In Social Work. 3 Hours.**SWK-327. Social Work Practice With Families. 3 Hours.**

This is a post-practice elective course. Overview of the field of family therapy; various approaches, differences in their underlying theoretical assumptions and their application in social work, family assessments and interventions. This is a skills elective course.

SWK-328. Social Work With Groups. 3 Hours.

This is a post-practice elective course, majors only. The purpose of this course is to emphasize concepts, methods and issues in social group work practice beyond what has been learned in SWK Practice I & II. The focus will be on group work theory and practice as it applies to different practice settings and different populations. Emphasis will be placed on the social worker's developing self-awareness, ethical competence and practice skills in working with groups. This is a skills elective course.

Prerequisites: SWK-304 minimum grade of C and SWK-303 minimum grade of C and SWK-207 minimum grade of C and SWK-200 minimum grade of C.

SWK-329. Administration And Planning In Social Work. 3 Hours.

This is a post-practice elective course, majors only. It is designed to expose the beginning level practitioner to administrative and planning functions with emphasis on how these impact the direct service practitioner. This is a skills elective course.

SWK-330. Social Work Practice In Community Settings. 3 Hours.

This is a post-practice elective course. Structure and functions of communities and models of community organizing; development of community organizing skills. This is a skills elective course.

SWK-353. Field Seminar I. 3 Hours.

Taken concurrently with SWK-355. Integration of knowledge, values and skills with experience in the field practicum.

Prerequisites: SWK-200 minimum grade of C and SWK-207 minimum grade of C and SWK-303 minimum grade of C and SWK-304 minimum grade of C and SWK-305 minimum grade of C and SWK-306 minimum grade of C and SWK-309 minimum grade of C and SWK-357 minimum grade of C.

SWK-354. Field Seminar II. 3 Hours.

Taken concurrently with SWK-356. Continuation of SWK-353.

Prerequisites: SWK-200 minimum grade of C and SWK-207 minimum grade of C and SWK-303 minimum grade of C and SWK-304 minimum grade of C and SWK-305 minimum grade of C and SWK-306 minimum grade of C and SWK-309 minimum grade of C and SWK-357 minimum grade of C.

SWK-355. Field Practicum I. 3 Hours.

Taken concurrently with SWK-353. Beginning field experience; students are placed in a social work agency providing the opportunity to develop, test and reinforce social work knowledge, values and skills.

Prerequisites: SWK-200 minimum grade of C and SWK-207 minimum grade of C and SWK-303 minimum grade of C and SWK-304 minimum grade of C and SWK-305 minimum grade of C and SWK-306 minimum grade of C and SWK-309 minimum grade of C and SWK-357 minimum grade of C.

SWK-356. Field Practicum II. 3 Hours.

Taken concurrently with SWK-354. Continuation of SWK-355.

Prerequisites: SWK-200 minimum grade of C and SWK-207 minimum grade of C and SWK-303 minimum grade of C and SWK-304 minimum grade of C and SWK-305 minimum grade of C and SWK-306 minimum grade of C and SWK-309 minimum grade of C and SWK-357 minimum grade of C.

SWK-357. Social Welfare Policy II. 3 Hours.

Critical analysis of social welfare policies and programs; focus on the impact of policy on direct practice.

Prerequisites: SWK-200 minimum grade of C and SWK-207 minimum grade of C and SWK-303 minimum grade of C and SWK-304 minimum grade of C and SWK-309 minimum grade of C.

SWK-358. Social Work Advocacy. 3 Hours.**SWK-400. Overview Of The Social Work Profession. 3 Hours.**

Overview of the Social Work Profession is a 3 credit hour course for students who have a bachelor's degree in a major other than social work. This course is designed to provide students with an overview of the profession providing a context of the knowledge, values, and skills in the social work profession. The course covers the history of social work, the values and ethics of the profession, the perspectives of empowerment and social justice, the varied fields of social work practice, and how social workers help individuals, families, groups, and society.

SWK-401. Cultural Competence In Social Work. 3 Hours.

The course provides an overview of the conceptual and theoretical knowledge related to difference, oppression, social justice, and empowerment. Students explore power issues in race, class, gender, sexual orientation and other societal forces that affect individuals. This course provides a forum for students to critically examine their assumptions, beliefs, and behaviors and reflect on how these personal ethics and values enhance or hinder their work with people of diverse backgrounds.

Prerequisite: SWK-400 minimum grade of B.

SWK-402. Human Behavior And The Social Environment I. 3 Hours.

This is the first half of a two-semester sequence designed to inform students about human development throughout the life course. Students will gain an understanding of the reciprocal interaction between individuals and the ecological context in which they live and grow. This first course focuses on theories and research findings related to: 1) the Eco-systemic approach to social work practice; 2) the functioning of individuals, families, and communities; and 3) the analysis of human development theories from birth through late-childhood and preadolescence. The semester will also include an overview of the mission of social work and the value base of the profession.

SWK-403. Generalist Practice I. 3 Hours.

This course introduces students to generalist social work practice and addresses values, knowledge, skills, issues and processes relevant to social work practice regardless of client population, size of client system, or type of agency setting. The course focuses on basic social work practice principles, concepts, goals, and methods. Particular attention is paid to culturally diverse and oppressed populations. This course includes a practice skills laboratory in which students have the opportunity to practice their relationship building, interviewing, and assessment skills. The practice skills laboratory is also designed to give students the opportunity to integrate fieldwork experiences with classroom learning.

SWK-404. Human Behavior And The Social Environment II. 3 Hours.

This is the second of a two-semester sequence that examines human development throughout the life cycle and the interaction of individuals with environmental conditions. This course covers the stages of human development from adolescence through old age and focuses on the effects of diversity and oppression on the development and functioning of individuals. The course also focuses on the relationship between individual development and broad, environmental factors that affect individual development. Particular attention is given to issues related to mental health and mental illness. In addition, the examination of the impact of immigration across the life course is examined.

Prerequisite: SWK-402 minimum grade of B.

SWK-405. Generalist Practice II. 3 Hours.

Generalist Practice II is the second part of a two-semester sequence and addresses values, knowledge, skills, issues and processes which are relevant to clinical social work practice regardless of agency setting. This course uses an ecosystems assessment perspective and a problem solving process as the framework for intervention. Particular attention is paid to cultural diversity and the dynamics of oppression in clinical social work practice. This course also includes a concurrent practice skills laboratory in which students have the opportunity to practice their clinical social work practice skills.

Prerequisite: SWK-403 minimum grade of B.

SWK-406. Social Welfare Policy. 3 Hours.

This course is designed to provide students with an overview of the major social welfare policies such as health care, children and families, poverty, mental health, and substance abuse, and provides a conceptual framework in which these policies are analyzed. Students learn the underlying values that are used to formulate such policies as well as debate the direction of policy changes. It examines the government's role in the development of social policies and the social work role in advocating for change. Special emphasis is placed on how these social welfare policies affect diverse population. This course is for graduate social work students.

Requirements: Bachelor's Degree and admission to the graduate program in social work.

SWK-407. Social Work Research. 3 Hours.

This foundation research course is designed to provide the students with an overview of the scientific research process, to enable students to critique research, and prepares students to develop a research proposal. The course covers the research formulation process, research methodology, and research findings and their implications for further research. Emphasis is placed on critiques of actual research appearing in the social work literature and the development of a research proposal on a topic in social work. It is expected at the completion of this course students will be prepared to engage in a research project in the advanced curriculum.

SWK-415. Foundation Field Practicum I. 3 Hours.

This course is the first of a 2-semester sequence and provides students with a generalist practice experience with individuals, families, small groups, and communities. Students spend 240 clock hours in an agency for the 3 credit hours of course work. Students are integrating classroom learning such as communication skills, professional values and ethics, and practice models with multiple system levels. They also are learning to employ a bio-psycho-social assessment model and utilize a strengths perspective with client systems. In addition, students are learning how important it is to evaluate their practice.

Requirement: Admission to the graduate social work program and approval of the Field Placement Application.

SWK-416. Foundation Field Practicum II. 3 Hours.

This course is the second course in a 2-semester sequence and provides students with a generalist practice experience with individuals, families, groups, and communities. Students spend 240 clock hours in an agency for the 3 credit hours of course work. Students are integrating classroom learning such as communication skills, professional values and ethics, and practice models with multiple system levels. They also are learning to employ a bio-psycho-social assessment model and utilize a strengths perspective with client systems. In addition, students learn to evaluate their practice.

Prerequisite: SWK-415 minimum grade of B.

SWK-421. Critical Social Work In Schools: Policy, Practice & Leadership. 3 Hours.

This elective course will present essential knowledge and skills for engaging in effective social work practice with youth and families in public elementary, middle, and high schools. It will focus on four key domains of social work practice in schools: 1) positive youth development, 2) community collaboration, 3) culturally competent practice, and 4) social and emotional learning. Drawing upon a comprehensive community schools framework, students in this course will be exposed to current research, critical issues, and essential knowledge and skills for social work practitioners to help lead schools in strengthening their provision of services across each of these domains.

Requirement: Completion of the MSW Foundation Curriculum or admission to the MSW Advanced Standing Program.

SWK-422. Social Work Practice In Global Cross-Cultural Contexts. 3 Hours.

This elective course will present essential knowledge and skills for engaging in international and global social work practice with individuals, families and communities. Students will study theoretical models to consider processes of social development in a global, cross-cultural context. Dynamics of power in global social work will be a central focus as well as understanding diverse roles and activities in which social workers engage. Students will critically assess policies and programs designed to increase the responsiveness of social, economic, and political institutions to human needs. Issues of culture, vulnerable populations, and social and economic justice will be explored.

Requirement: Completion of the MSW Foundation Curriculum.

SWK-425. Psychopathology & Assessment In Social Work. 3 Hours.

This elective course will present essential knowledge and skills for understanding psychopathology using the Diagnostic and Statistical Manual of Mental Disorders, 5th edition (DSM-V) and competency-based assessments applied in the social work field. It focuses on application of diagnostic criteria for mental disorders with careful consideration of the role of intersectionality, stigma and systems of oppression influencing assessment and treatment. This course reflects current issues in mental health access and culturally sensitive treatment from a social justice lens, reflecting the need for funding, equitable policies and research to support effective practice.

Requirement: Completion of the MSW Foundation Curriculum or admission to the MSW Advanced Standing Program.

SWK-426. Independent Study. 3 Hours.

Students wishing to develop their own course of study not covered in the standard curriculum may do so by registering for an Independent Study under the supervision of a full-time Social Work Department faculty member. An Independent Study requires the signature of the faculty member, department chairperson, college dean, and Academic Affairs on the Independent Study/Tutored Study request form. To initiate the planning of an independent study, students should consult with the faculty member with whom they intend to be supervisor for the independent study, as well as the Social Work Department Advisor.

Prerequisites: SWK-400 minimum grade of C and SWK-402 minimum grade of C and SWK-403 minimum grade of C and SWK-415 minimum grade of C and SWK-401 minimum grade of C and SWK-404 minimum grade of C and SWK-405 minimum grade of C and SWK-416 minimum grade of C and SWK-406 minimum grade of C and SWK-407 minimum grade of C.

SWK-429. Nonprofit Management & Leadership In Social Work. 3 Hours.

This elective course will present essential knowledge and skills for nonprofit managers, supervisors and administrators working in nonprofit or human service organizations. This course will examine the evolution of the nonprofit sector and explore some of the critical management, leadership, and policy issues that are key to running an effective nonprofit organization. It will also focus on the philosophies and theories of leadership and management; understanding management systems, internal and external ecology of organizations; strategic planning, managing technology and information; resource/financial development and philanthropy; human resources practices and development; board development; marketing strategies; and monitoring and evaluating organizational effectiveness.

Requirement: Completion of the MSW Foundation Curriculum or admission to the MSW Advanced Standing Program.

SWK-430. Transition To The Advanced Curriculum. 4 Hours.

This course is designed to enable those who have a Bachelor's in Social Work to transition to the advanced curriculum. This course provides an overview of the foundation curriculum and ensures the consistency in exposure to this foundation curriculum between those who are full-program students and those who are advanced standing degree program students. The students will then complete short papers that allows the demonstration of the primary concepts and principles in the foundation areas.

Requirements: Admission to the Advanced Standing Degree graduate program in social work; a bachelor's degree in social work within the past 10 years.

SWK-431. Social Work Practice With Families. 3 Hours.

Building on a bio-psycho-social spiritual framework, this advanced practice course utilizes a case analysis format to focus on clinical practice skills within the context of culture. Specific strategies and tools for evaluating clinical social work practice and ethical dilemmas that arise in clinical social work practice are addressed. The course emphasizes the ways in which socio-economic status, ethnicity, sexual orientation, race, gender, and physical and mental disability affect the processes of clinical assessment and intervention. In addition, this course addresses the role of the clinical social worker when advocating for social and economic justice on behalf of their clients.

Requirement: Completion of the foundation curriculum or admission to the advanced standing graduate degree program.

SWK-432. Family-centered Policy. 3 Hours.

The course enables students to learn about child and family-centered policy and to critically analyze these policies using a conceptual framework. This course examines the various effects policies and programs have on different types of families and different aspects of family functioning. The course focuses on the connections between public policies and the values that enter into policy debates and explores the reciprocal linkages between family functioning and public policies at the federal, state, and local levels.

Requirement: Completion of the foundation curriculum or admission to the advanced standing graduate degree program.

SWK-433. Social Work Practice With Children. 3 Hours.

This course is designed to enhance knowledge, values and skills for practice with children. The course prepares advanced practitioners to provide culturally competent services for a broad range of families and children. This course emphasizes the provision of services for children and their families that enhance and support family life as well as substitute a home life for those who need this. The course focuses on a full range of services available for children and families and emphasizes the impact of these various services. The course also covers various treatment approaches especially for children who are traumatized.

Requirement: Completion of the Foundation Curriculum or admission to the advanced standing graduate degree program.

SWK-434. Child Welfare Policy And Legislation. 3 Hours.

This course is designed to enable students to analyze policies affecting children and to prepare students to function in the legal system on behalf of children. This course provides students an overview of the federal and state policy in child welfare and the legal system which provides oversight of these policies. The course equips students with the knowledge and skills to advocate on their behalf children.

Requirement: Completion of the foundation curriculum or admission to the advanced standing graduate degree program.

SWK-441. Empowerment And Change. 3 Hours.

This course is designed to provide students with a social justice and empowerment framework for understanding the need to promote social change. The concept of social justice is analyzed emphasizing the moral and ethical imperative to seek the eradication of social injustice. The concept of empowerment is examined as a framework for understanding the process of advocacy and social change. The contexts of advocacy as well as the various models of advocacy are covered. Strategies and tactics of advocacy are presented with an emphasis on the challenges and dilemmas of implementation.

Requirement: Completion of the foundation curriculum or admission to the advanced standing graduate degree program in social work.

SWK-442. Political Advocacy. 3 Hours.

This course provides an overview of the role of social workers within the electoral and legislative arenas. The nature of the legislative policy making process and the role of partisan politics in the policy-making process is explored. The course focuses on selected strategies and tactics of advocacy aimed at changing legislation. Topics covered include lobbying, coalition-building, and legal and ethical dilemmas in building or strengthening the power base for advocacy.

Requirement: completion of the Foundation Curriculum or admission to the Advanced Standing program in social work.

SWK-443. Social Justice And Social Change. 3 Hours.

The purpose of this course is to provide students with a theoretical conceptualization of social justice and enable them to use this knowledge to bring about social change. Various aspects of social justice is explored and specific areas of social injustices is examined. Both economic and social justice for specific vulnerable populations are examined. At the completion of the course it is expected that students gain a firm grasp of the mission of social justice in the social work profession.

Requirement: Completion of the foundation curriculum or admission to the advanced standing graduate degree program.

SWK-444. Community Advocacy. 3 Hours.

This course is designed to prepare students to lead in the development of grassroots activities that will bring about change. Students learn to utilize their knowledge of the process of advocacy to accomplish the tasks that will bring about change. Students learn how to assess community readiness for change and design the elements for bringing about change. The topics covered in this course are capacity-building, collaboration, fundraising, marketing, and using the media and persuasion. Students also learn how to evaluate these efforts to strengthen future work on community change.

Requirement: completion of foundation curriculum or admission to the advanced standing program in social work.

SWK-470. Immigration Practices. 3 Hours.

This course is designed to help students work with foreign-born populations (and their offspring) develop advanced knowledge and practice skills necessary to address their needs. This course will cover issues related to the demographics of immigrant refugees, culturally competent practice at the micro- and mezzo- levels of practice, and an in-depth exploration of legal and policy issues that affect the foreign-born in the United States.

Requirement: completion of foundation curriculum or admission to the advanced standing program of social work; permission of the instructor.

SWK-471. Practice With Lesbian, Gay Bisexual, Transgender And Queer Population. 3 Hours.

This course is designed to enhance student understanding of issues related to LGBT populations in the U.S. Students will be exposed to empirical literature on LGBT issues that will inform an understanding of past, present and future challenges facing the LGBT communities. Raising students' awareness of personal, interpersonal and institutional values and biases is examined and a life cycle perspective is presented to highlight the unique issues of LGBT communities. Students are introduced to the history of the LGBT civil rights movements and the underlying theories of sexual orientation and sexual identity formation.

Requirement: Completion of the foundation curriculum or admission to the advanced standing graduate degree program.

SWK-472. Trauma Treatment With Children And Families. 3 Hours.

This course is designed to provide students with intermediate knowledge and skills to assess the impact of potentially traumatic events and to plan for evidence informed interventions across a variety of family system. The impact of trauma is considered within the context of biological, developmental, psychological, economic, educational, cultural, and social factors. The role of the therapist is covered and intervention techniques that empower families is presented. Consideration is given to those factors that enhance the protective capacity, strengths and resilience of children and their families who have been exposed to violence, abuse and trauma.

Requirement: Completion of the foundation curriculum or admission to the advanced standing graduate degree program in social work.

SWK-473. Topics In Advocacy. 3 Hours.

The purpose of this course is to enable students to design an advocacy project in a specified topic area. Students select a topic of their choice and complete the project in its entirety. The class focuses on the steps or process for launching an advocacy project from assessing the need, mobilizing resources, and engaging in activities. At the conclusion of the course students evaluate their efforts and identify the next steps.

Requirement: Completion of the foundation curriculum or the Bachelor's Degree in Social Work.

SWK-474. Social Work And The Law. 3 Hours.

This course examines the law, legal processes, and legal systems as they relate to social work fields' of practice. The course challenges students to consider how the fields of social work and law intersect. Throughout the course, students critically analyze how the practice of social work is continually influenced by judicial decisions. The students also attain skills in advocating within the legal system on behalf of the populations that they serve.

Requirement: Completion of the foundation curriculum or admission to the advanced standing graduate degree program.

SWK-491. Advanced Research I. 2 Hours.

This course is designed to enable students to develop a research proposal that will be carried out in the following semester. The course focuses on the elements of a research proposal and the steps in developing the proposal. The course helps students decide on the topic and move this to a research problem. The course also facilitates the literature review and helps in the design of the research methodology. In addition, students learn about the limitations of their research as well as the significance.

Requirement: Completion of the foundation curriculum or bachelor's degree in social work and admission to the advanced standing graduate degree program in social work.

SWK-492. Advanced Research II. 2 Hours.

This course is designed to afford students the opportunity to implement the research project for which they developed a research proposal in the previous term. Students must have received the approval of the NEIU Institutional Review Board prior to conducting this research. This course is to assist students in the collection and analysis of their data as well as the identification of the contributions and limitations and the implications of this research.

Requirement: Completion of the foundation curricula or admission to the advanced standing graduate degree program in social work

Prerequisite: SWK-491 minimum grade of B.

SWK-495. Advanced Field Practicum I. 4 Hours.

This is an advanced practicum designed to engage students in experiences and activities in their concentration. This is the first semester of a 2-semester sequence and is designed to expose students to the roles and tasks of a professional social worker in their desired concentration.

Requirement: Completion of the foundation curriculum or admission to the advanced standing graduate degree program in social work.

SWK-496. Advanced Field Practicum II. 4 Hours.

This is an advanced practicum designed to engage students in experiences and activities in their concentration. This is the second semester of a 2-semester sequence and is designed to further students learning and advance their understanding of the roles and tasks of a professional social worker in their desired concentration.

Requirement: Completion of the foundation curriculum or admission to the advanced standing graduate degree program in social work

Prerequisite: SWK-495 minimum grade of B.

Major in Social Work

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

SWK-330	Social Work Practice In Community Settings	
Total Hours		60

Students must maintain a 2.5 cumulative GPA and no less than a C in all required courses for the social work major. Students planning to pursue the MSW need a 3.0 cumulative GPA and no less than a B in all social work courses.

Students interested in the major in social work must schedule an appointment with a social work advisor by calling the social work office: (773) 442-4760

Students should seek advisement from a program advisor right away to assure compliance with prerequisites and required sequencing of courses.

Students need to complete all General Education and Liberal Arts requirements in order to move beyond SWK-200 SWK-207.

Social Work students are suggested to take MATH-112 or MATH-113 to meet math requirement.

This sample curricular map is provided to guide you in the planning of your progression for this major. This guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor.

Minor in Social Work

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Master of Social Work

Master of Social Work

Northeastern Illinois University (NEIU) offers a 60-hour Master of Social Work (MSW) degree designed to prepare students for professional practice with individuals, families, and communities. There are two (2) concentrations in the Masters of Social Work degree program – Social Work Practice with Vulnerable Populations and Leadership and Change. Each of these concentrations currently has one specialization. The specialization within the concentration Social Work Practice with Vulnerable Populations is Practice with Vulnerable Children and Families. This 60-hour degree program can be completed in 2 years full-time and 4 years part-time. These specializations prepare students for professional practice with children and families and organizations and communities respectively.

NEIU also offers the advanced standing degree for those who have completed a bachelor's degree in social work within the past 10 years that was accredited by the Council on Social Work Education (CSWE). This is a 34 credit hour Master of Social Work degree program that can be completed in one year full-time and 2 years part-time.

Field work- Practical Experience

Practical experience is built into the MSW social work curriculum, which is called "Field Work." All fieldwork experiences are credit-bearing internship experiences. These experiences offer students an opportunity to integrate and apply their academic knowledge in a real-world setting and prepares them for the responsibility of beginning professional practice.

In order to receive credit for field work experiences, students must work with the Director of Field Education to complete an internship placement and referral process. To start this process a student must submit a formal application to apply for field work with the Social Work Department Internship Placement. All applications have deadlines and require collaboration and communication between the student and the respective internship coordinator to secure a placement. It is the policy of the NEIU Social Work Program that all referrals of students to field placement sites be made by internship coordinators in the field office. Students may provide a suggestion about a field site, but may not pursue a placement on their own. Field placements independently obtained will not be approved.

Field work courses are usually taken concurrently with academic classes. Students must complete a total of two separate field work experiences that each typically span over two semesters. First level students must complete 480 hours in a fieldwork placement and are typically at their site Tuesday's and Thursday's, while taking 400-level courses. Second level students must complete 600 hours at a fieldwork placement and are at their site Monday's, Wednesday's and Friday's, while taking 400 level advanced courses. In some instances, students can elect to do a summer block placement which is an intensive summer immersion, in which students work full-time at a placement (30-40 hours a week) for three to four months.

Master of Social Work

Admissions requirement: Completion of a Bachelor's degree required.

Sociology

The Sociology Department offers courses leading to a Bachelor of Arts degree in sociology. Additionally, students may choose an eighteen-hour minor in sociology.

Sociology is the systematic study of human societies, their patterns and arrangements, their processes of development and change. Course offerings cover sociological theories, research methods, gender and sexuality, race and ethnicity, inequalities, social institutions, social issues, social action and social change.

A major in sociology can provide a useful orientation for students who plan to attend graduate school or seek careers in community-based organizations or in such fields as education, human resources, urban planning, law, community organizing, social welfare, or research in government and private organizations.

NOTE: The following rules apply to the major and minor in Sociology: Transfer courses must be approved by the department before being applied to the major or minor. For transfer students majoring in Sociology, at least 24 hours must be taken at Northeastern and for students minoring in Sociology, at least 9 hours must be taken at Northeastern.

Students should also be aware of the University requirements for the Bachelor's degree.

- Major in Sociology (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/sociology/sociology/>)
- Minor in Sociology (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/sociology/minor-sociology/>)

Andreas Y. Savas Kourvetaris, Ph.D., Associate Professor, Chair

Brooke Johnson, Ph.D., Associate Professor

Juan R. Martinez, Ph.D., Assistant Professor

Olivia N. Perlow, Ph.D., Associate Professor

Brett C. Stockdill, Ph.D., Professor

SOC-100. Introduction To Sociology. 3 Hours.

Fundamental concepts involved in understanding human societies. Socialization, culture, social interaction, social institutions, social stratification, and social change are discussed.

SOC-104. Schools And Society. 3 Hours.

This course examines the different roles that educational institutions play in fostering, perpetuating, and challenging inequalities for different social groups in American society.

SOC-105. Social Inequalities And Social Change. 3 Hours.

Examines critical sociological explanations of the causes and consequences of classism, racism, sexism, homophobia and other social inequalities; explores how inequalities are institutionalized, legitimized, and experienced by different groups of people; examines collective efforts to promote social change, including collective action and social movements.

SOC-109A. First Year Experience: Investigating Chicago: Immigration & Migration. 3 Hours.

In this course, the five foundations of the First-Year Experience (Future Planning, Integral Preparation, Research, Self-discovery and Transitions) are interwoven with the field-specific concepts and terminology of sociology. Using the city as a lab, freshmen explore Chicago's immigrants and immigration patterns, actively discovering the complexity and diversity of Chicago as an immigrant destination through readings, films, speakers, and out-of-class experiences.

SOC-204. Sociology Of Small Groups. 3 Hours.

A study of the individual and group relationships in society in terms of the various types of social collectives; primary and secondary groups, crowds and publics, collective behavior and social movements with emphasis on the symbolic nature of social interaction.

Prerequisite: SOC-100 minimum grade of C.

SOC-205. Contemporary Social Issues. 3 Hours.

Analysis and interpretation of major contemporary social issues, such as war and peace, poverty, racism, sexism, power structures; critical evaluation of present and suggested programs to meet current problems.

SOC-206. Drugs And Society. 3 Hours.

Review of literature and current research on drug use. Examination of patterns of drug use, drug-related policies and their enforcement, and examination of responses to addiction.

SOC-214. Sociology Of Intimacy, Marriages And Families. 3 Hours.

Examination of dynamics and trends in relationships and families. Areas of study include history of families, changing demographic patterns, family structures, gender, sexuality, reproductive technology, power in relationships, and divorce.

SOC-250. Sociology Of Deviance. 3 Hours.

Employs sociological approach to deviance in society. Origins and functions of deviance; the ambiguous institutionally and socially constructed nature, definitions, and measurement of deviance; the impact of deviance on personal and social identity; deviant behavior; and deviance and social change. Major theoretical perspectives on deviance, current research, and portrayals of deviance in popular culture.

SOC-270. Sociology Of Latinas. 3 Hours.

This course examines the diversity of Latina experiences in the United States and other countries. Students will explore social, economic, cultural, and political issues that affect the lives of Latinas. The course will examine the historical and contemporary construction of Latina identities, communities, and political struggles. Of particular interest will be the impact of social inequalities on Latina lives as well as Latina responses to these inequalities.

SOC-302. Sociology Of Aging. 3 Hours.

The aging process, examined from both an individual and societal perspective; problems, potentials, and realities of aging. Topics of study include the nature and quality of relations among members of different generations, age norms, age constraints, and adult socialization as well as historical and cross-cultural comparisons of aging.

Prerequisite: SOC-100 minimum grade of C.

SOC-306. Women, Gender And The "F Word". 3 Hours.

Analyzes changing representations of women in popular culture. Critically explores Western feminist struggles, commitments, and perspectives with special emphasis on the intersections of gender, race, ethnicity, social class, sexuality, and nation of origin in women's lives.

Prerequisite: SOC-100 minimum grade of C or SOC-105 minimum grade of C or WSP-101 minimum grade of C.

SOC-307. Men & Masculinities. 3 Hours.

Addresses the central themes that have emerged in the feminist-inspired sociological research on men and masculinities. These themes include men's institutionalized power and privilege over women, inequalities among different groups of men (e.g., power disparities across race, ethnicity, class, sexuality, and nation of origin), and the costs men and women pay for men's conformity to rigid notions of masculinity. In our exploration of these themes, we will discuss masculinities at the individual, interpersonal, institutional, societal, and global levels.

Prerequisite: SOC-100 minimum grade of C or SOC-105 minimum grade of C.

SOC-309. Sociology Of Racism. 3 Hours.

Survey of the sociological and historical development of the theories of race and racism and the impact these theories have had on the implementation of social policy. Black experience in America is highlighted and special attention is given to institutional expressions of racism in the Western World.

Prerequisite: SOC-100 minimum grade of C or AFAM-200 minimum grade of C.

SOC-310. Social Movements. 3 Hours.

A systematic analysis of selected social and political revolutions and/or revolutionary movements in the United States and globally.

Prerequisite: (LLAS-101 minimum grade of C or MCS-101 minimum grade of C) or SOC-100 minimum grade of C.

SOC-312. Sociology Of Health And Illness. 3 Hours.

Examines the social, political, economic and cultural aspects of health and illness. Emphasis on the interaction between social inequalities and health/illness. Topics will include social factors and illness, the meaning and experience of illness, health care systems and providers, bioethics, environmental injustice, violence, and militarism. Also explores the links between patterns of health/illness in the United States and globally as well as activism around health/illness.

Prerequisite: SOC-100 minimum grade of C or SOC-105 minimum grade of C.

SOC-313. Social Demography. 3 Hours.

Population characteristics and population dynamics in a variety of cultural settings; political, economic and sociological implications of population trends, resources and approaches in demographic analysis.

Prerequisite: SOC-100 minimum grade of C.

SOC-314. Urban Sociology. 3 Hours.

Examines population characteristics, social structure, social policy and social change associated with cities and urban communities. Emphasizes class, race, gender and sexual inequalities and their relationship to gentrification, urban-suburban relations, and urban movements for social justice.

Prerequisite: SOC-100 minimum grade of C or SOC-105 minimum grade of C.

SOC-316. Race And Ethnic Relations. 3 Hours.

A cross-cultural study of the patterns of interaction between racial and ethnic groups, analysis of the sources of prejudice and discrimination; examination of the relationships between race and ethnic relations and patterns of stratification.

SOC-317. Sociology Of Religions And Spirituality. 3 Hours.

Study of the social aspects of religious beliefs, practices and participation. The Church as a social institution and its relationship to social class, social control. Religion as a form of expressive behavior. The function of religion for the individual and for different social groups.

Prerequisite: SOC-100 minimum grade of C.

SOC-320. Sociological Analysis. 3 Hours.

An introduction to when and how to do sociological analysis of popular and scholarly opinion, with a focus on developing and/or improving communication and critical thinking skills. The course integrates sociological theory and methods and requires students to analyze and critique theories, opinions, and research found in a variety of popular and scholarly materials using a sociological perspective.

Prerequisite: SOC-100 minimum grade of C or SOC-105 minimum grade of C.

SOC-321. Class, Labor Inequalities, And Work. 3 Hours.

Examines how social and economic relations produce and reproduce class and labor inequalities. Analyzes the intersections of class with multiple forms of oppression; the conditions faced by low-wage workers in industrial, agricultural and service jobs; the impact of globalization on labor markets, labor organizations and politics in the U.S. and globally; and how class and labor inequalities are resisted and changed.

Prerequisite: SOC-100 minimum grade of C or SOC-105 minimum grade of C.

SOC-324. Power, Politics & Society. 3 Hours.

Centers on the intersection of politics and social change. Critically examines political relations with respect to, but not limited to, the social roles of power, conflict, cooperation, practices, influence, authority, identities, nationalism, and transnational processes. Explains how power and politics structure society to consistently advantage particular groups and disadvantage other groups.

Prerequisite: SOC-100 minimum grade of C or SOC-105 minimum grade of C.

SOC-328. Extreme Right Groups. 3 Hours.**SOC-329. Sociology Of Violence. 3 Hours.**

This course covers cross-cultural examinations of violence. It explores the implications of and responses to violence.

Prerequisite: SOC-100 minimum grade of C or SOC-105 minimum grade of C.

SOC-331. Militarization, Power, And Inequality. 3 Hours.

Examines the interplay between race, gender, class, sexualities, globalization, power and militarization through engagement with sociological scholarship. Additionally, analysis of the historical and sociopolitical conditions, complex processes, and multiple practices that enable the militarization of a society are examined. Resistance and alternatives to militarization are also examined.

Prerequisite: SOC-100 minimum grade of C or SOC-105 minimum grade of C.

SOC-332. Schools, Domination & Liberation: Sociology Of Education. 3 Hours.

Introduces the major theoretical trajectories in the sociology of education. Examines the structure, practices and outcomes of schooling in light of their relationships to the wider society in which schools are situated. Studies the links between schools and social inequality, educational opportunity, educational stratification by race, class, gender, ability, immigration, and sexuality. Analyzes sociological perspectives on contemporary education reform.

Prerequisite: SOC-100 minimum grade of C or SOC-105 minimum grade of C.

SOC-335. Sociological Theory. 3 Hours.

Explores how different sociological theorists make sense of society with particular emphasis on capitalism, white supremacy, patriarchy and homophobia. This course is an overview of social theory including both classic and modern theorists paying close attention to how historical power and inequality shaped "the canon" and the voices at the center and margins of social theory.

Prerequisite: SOC-100 minimum grade of C or SOC-105 minimum grade of C.

SOC-336. Contemporary Sociological Theory. 3 Hours.

A survey of contemporary sociological theories and paradigms, with a focus on writings that have most influenced the development of contemporary sociological theory and the way sociologists currently approach and analyze their subject matter. The course will explore theories, perspectives, ideas and works from voices generally unheard in discussions of formal sociological theory - namely, the voices of people of color and women.

Prerequisites: SOC-100 minimum grade of C and (SOC-211 minimum grade of C or SOC-335 minimum grade of C).

SOC-337. Sociological Research Methods. 3 Hours.

Emphasis on increasing student's abilities to communicate their understanding of social science research. Focus on learning social science research vocabulary, developing an understanding of issues in the philosophy of the social sciences, learning steps and procedures in sociological research, and using writing skills relevant to social science research.

Prerequisites: SOC-100 minimum grade of C and SOC-105 minimum grade of C.

SOC-338. Environmental Sociology. 3 Hours.

This course examines the relationship between social change, social systems, and the environment. It explores multiple perspectives in the field of environmental sociology, including political economy, environmental inequalities, environmental discourse, and environmental justice, and the intersections of race, gender, class, nation, and environmental disruptions.

SOC-339. Introduction To Social Statistics. 3 Hours.

An introduction to descriptive and inferential statistics which are the basic statistical methods used in Sociology and other Social Science disciplines. Students will also learn how to use a statistical package (SPSS for Windows) to analyze and interpret survey data.

Prerequisites: ((SOC-100 and SOC-211 and SOC-105 or SOC-337 and ((MATH-092 or (MATH-102 or (NEIU Math Placement Result 30 - 45 or (ACT Math 22 - 36 or (Accuplacer College Level Math 020 - 120.

SOC-340. Sociology Of Sexualities. 3 Hours.

Examines sexualities across dimensions of time, place, social institutions, race, class, sex and gender. Emphasizes the dual themes of social construction and social control. This course challenges the binary construction of sex, gender, and sexuality and encourages students to view sex as a positive life force rather than one based on shame, guilt, danger or morality. Explores individual and collective resistance to oppressive sexual norms and practices.

Prerequisite: SOC-100 minimum grade of C or SOC-105 minimum grade of C.

SOC-341. Independent Study In Sociology. 3 Hours.

Research study in an area of special interest to the student involving research methodology and field studies. Independent Studies require the approval of the instructor, department chair and the College Dean.

Prerequisite: SOC-100 minimum grade of C.

SOC-341A. Independent Study In Sociology. 3 Hours.

This independent study covers a sociological research study in an area of special interest to the student. Independent Studies require the approval of the instructor, department chair and the College Dean.

Prerequisite: SOC-100 minimum grade of C or SOC-105 minimum grade of C.

SOC-341B. Independent Study In Sociology. 2 Hours.

This independent study covers a sociological research study in an area of special interest to the student. Independent Studies require the approval of the instructor, department chair and the College Dean.

Prerequisite: SOC-100 minimum grade of C or SOC-105 minimum grade of C.

SOC-341C. Independent Study In Sociology. 1 Hour.

This independent study covers a sociological research study in an area of special interest to the student. Independent Studies require the approval of the instructor, department chair and the College Dean.

Prerequisite: SOC-100 minimum grade of C or SOC-105 minimum grade of C.

SOC-342. Sociology Internship Seminar. 3 Hours.

Taken concurrently with SOC-345. The Sociology Internship Seminar investigates the application of sociological knowledge and skills to an actual organizational setting. Investigates interpersonal relationships, internal organizational relationships and dynamics, and the social context of organizations within the larger community and society at large. Critical examination of the relationships between organizations, social inequalities, and social justice. Exploration of career and graduate school resources and information.

Prerequisites: SOC-100 minimum grade of C and SOC-105 minimum grade of C and (SOC-211 minimum grade of C or SOC-337 minimum grade of C) and SOC-335 minimum grade of C.

SOC-343. Sociological Practice And Social Action Seminar. 3 Hours.

This seminar provides students with an opportunity to do service and research in an applied organizational setting. It includes problem solving through involvement and social action research in one organizational setting. As an applied sociologist, the student will learn to produce information that is useful in resolving problems in community organizations, social service organizations and grass roots social change organizations.

Prerequisite: SOC-100 minimum grade of C.

SOC-344. African American Women:Feminism, Race, And Resistance. 3 Hours.

A systematic examination of the collective experiences of African American women, historical and contemporary; the myths versus the realities of their everyday lives, including the interrelatedness and simultaneous effect of race, class, gender, sexual orientation and age in their lived experiences.

Prerequisite: SOC-100 minimum grade of C or AFAM-200 minimum grade of C.

SOC-345. Sociology Internship Placement. 3 Hours.

Taken concurrently with SOC-342. Students will complete 144 hours at an internship placement in an organization chosen in collaboration with the professor. Performance of various tasks under the direction of a site supervisor to enhance the understanding and application of sociological theories and concepts and to gain experience relevant to career and/or graduate school interests. Prereq.: Senior status; SOC-100; SOC-211; SOC-335.

Prerequisites: SOC-100 minimum grade of C and SOC-211 minimum grade of C and SOC-335 minimum grade of C.

SOC-346A. Writing Intensive Program: Critical Writing For Sociology. 3 Hours.

Teaches different types of critical sociological writing for different audiences through the examination of different sociological themes. Includes library and online research, ASA citation style, organizational structure, thesis statements, summary and analysis, and plagiarism. Fulfills the Writing Intensive Program requirement.

Prerequisites: SOC-100 minimum grade of C and SOC-105 minimum grade of C and ENGL-101 minimum grade of C.

SOC-347. Sociology Of Media. 3 Hours.

A systematic examination of mass media as a social construction of knowledge. Major focus is on the social and historical contexts within which the media are created, the powerful influence of the various media on the socialization process, and the intersections of race, class, gender, sexual orientation and age in the images and knowledge created by mass media.

SOC-349. Black Social Movements. 3 Hours.

Examination of the African American civil rights movement. Analysis of the origins and development of the modern civil rights movement, a movement that emerged in the South during the 1950s. Exploration of organized, collective forms of social change and theories of social movements and collective action. Emphasis on local, regional and national civil rights campaigns; the development, achievements, and disintegration of the national civil rights coalition; and the contributions of the male and female unsung heroes of the movement.

Prerequisite: SOC-100 minimum grade of C.

SOC-350. Social Structure In Black Communities. 3 Hours.

This course is designed to explore institutional variation and social change within African-American communities. We will examine African-American populations in different settings, both contemporary and historical, and attention will be given to major traditions of sociological theory and research related to these communities. We will additionally explore the origin, structure, reproduction, and outcomes of racism and white supremacy, and how this relates to labor market processes and outcomes, social mobility and living standards, and major social institutions such as healthcare, education, and criminal justice systems, as they relate to African Americans.

Prerequisite: SOC-100 minimum grade of C or AFAM-200 minimum grade of C.

SOC-351. Senior Seminar In Sociology. 3 Hours.

Discussion, critical review and integration of student's work with current research. Preparation of a research paper with ongoing feedback from the instructor.

Prerequisites: SOC-100 minimum grade of C and SOC-105 minimum grade of C and (SOC-211 minimum grade of C or SOC-337 minimum grade of C) and SOC-335 minimum grade of C.

SOC-352. Sociology Of HIV/AIDS. 3 Hours.

Examination of the sociological aspects of the AIDS crisis. Socio-history of the HIV/AIDS crisis in the United States and globally. Emphasis on how racial, class, gender and sexual inequalities have shaped the epidemiology of HIV/AIDS. Responses of dominant social institutions to the AIDS crisis. Collective action by impacted communities around issues of education, prevention, research, health care and support services. Contemporary issues facing people living with HIV/AIDS including stigma, discrimination, mental health, access to treatment, legal issues, and empowerment.

Prerequisite: SOC-100 minimum grade of C.

SOC-358. Sociology Of Youth And Youth Culture. 3 Hours.

An analysis of youth and youth culture including the historical context of adolescence, sociopolitical issues confronting youth and youth culture as a form of social and political resistance. Each topic will be explored through detailed analyses of relevant literature, discussions with professionals who work with youth, and student research projects.

Prerequisite: SOC-100 minimum grade of C.

SOC-360. Sociology Of Occupations And Professions. 3 Hours.

Exploration of the historical, theoretical and empirical literature on occupations and professions. Issues to be explored include the relationship between occupations and the family, education, technology and the political environment.

Prerequisites: SOC-100 minimum grade of C and SOC-221 minimum grade of C.

SOC-362. Identity And Social Policy. 3 Hours.

Critically examines the relationship between social policy, culture, identity, and change. Explores different perspectives on American and international social policy development, identity, and advocacy.

Requirement: noted prerequisites or permission of instructor

Prerequisite: SOC-100 minimum grade of C or SOC-105 minimum grade of C.

SOC-365. Sociology Of Globalization. 3 Hours.

Globalization is the worldwide integration of government policies, cultures, social movements, and financial markets through trade and the exchange of ideas. This course analyzes the processes that produce globalization and the outcomes of globalization, with a special focus on Chicago. Using a sociological lens we examine the development of globalization and its effects upon nation-states, individuals, culture, politics, inequality, and other aspects of society. Students will critically evaluate the effects of globalization with the goal of becoming engaged and empowered members of the global community.

Prerequisite: SOC-100 minimum grade of C.

SOC-373. Community Action And Resistance. 3 Hours.

Chicago metropolitan field investigation of community conditions, local institutions and action programs. Field investigations may be broad or concentrate on a particular school or community.

Prerequisites: SOC-100 minimum grade of C and (SOC-211 minimum grade of C or SOC-337 minimum grade of C).

SOC-375. Government Intelligence Agencies. 3 Hours.

A study of the various government agencies which collect intelligence within the U.S. and in foreign countries with emphasis on the kinds of intelligence gathered and the political uses to which it is put. The work of the CIA and the FBI are critically examined.

Major in Sociology

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Major in Sociology for the Bachelor of Arts Degree

Code	Title	Hours
Required Core Courses		
SOC-100	Introduction To Sociology	3

SOC-105	Social Inequalities And Social Change	3
SOC-335	Sociological Theory	3
SOC-337	Sociological Research Methods	3
SOC-339	Introduction To Social Statistics	3
SOC-342	Sociology Internship Seminar ¹	3
or SOC-351	Senior Seminar In Sociology	
SOC-346A	Writing Intensive Program: Critical Writing For Sociology	3
Electives in Sociology ²		18
Total Hours		39

¹ SOC-342 is Spring Semester and can be taken with SOC-345 for a total of 6 credits; SOC-351 is Fall Semester.

² Students should consult with their advisor to select electives that will best suit their academic and career goals. Students may substitute 1 cognate course outside of Sociology for an elective course with the approval of the Department Chair.

This sample curricular map is provided to guide full-time, first year students in planning for their major. This guide should not replace regular consultations with your academic advisor. Part-time and transfer students should consult with an academic advisor to develop curricular plans to accommodate their needs. For specific recommendations of courses not identified, please consult your academic advisor.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Minor in Sociology

All Sociology minors must complete three core courses (9 credit hours) and three electives (9 credit hours) for a total of 18 credit hours.

Code	Title	Hours
Required Core Courses		
SOC-100	Introduction To Sociology	3
SOC-105	Social Inequalities And Social Change	3
SOC-320	Sociological Analysis	3
Electives in Sociology		9
Total		18

Students majoring in Elementary Education and Early Childhood Education who have selected Sociology as a minor must complete a minimum of 9 hours of the minor in courses at the 300-level to meet graduation and certification requirements.

Teaching English to Speakers of Other Languages (TESOL)

Teaching English to Speakers of Other Languages (TESOL) is the application of linguistics to the teaching of English to speakers of other languages. A degree in TESOL is in great demand, both in the U.S. and abroad. A career path in TESOL can result not only in the more obvious professions related to education (e.g., English language teacher, teacher trainer, program administrator, curriculum developer, materials developer) at the primary, secondary, and tertiary levels, but also in a variety of areas that require the skills set developed within a TESOL degree program (e.g., research, publishing, advocacy, government).

The NEIU TESOL Program offers courses leading to a Master of Arts degree. The program also offers courses leading to an undergraduate minor in TESL as well as an Illinois State Endorsement to teach ESL.

Further information about our programs can be found on our website: TESOL (<http://www.neiu.edu/academics/college-of-arts-and-sciences/departments/teaching-english-speakers-other-languages-tesol/>)

- Minor in TESL (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/teaching-english-second-foreign-language/minor-tesl-tefl/>)
- Master of Arts in Teaching English to Speakers of Other Languages (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/teaching-english-second-foreign-language/master-arts-tesl-tefl/>)
- TESOL Endorsement (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/teaching-english-second-foreign-language/tesl-endorsement/>)
- TESOL Graduate Certificate Program (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/teaching-english-second-foreign-language/certificate-tesol-graduate/>)

Lesia C. Davis, Ph.D., Professor, Chair

Senyung Lee, Ph.D., Assistant Professor

Jeanine Ntthirageza, Ph.D., Professor

Ulugbek Nurmukhamedov, Ph.D., Assistant Professor

William Stone, Ph.D., Associate Professor

TESL-109A. First Year Experience: Chicago Speaks: Helping Immigrants Communicate. 3 Hours.

In this course, the four foundations (Future Planning, Academics, Self-Discovery and Transitions) of the First-Year Experience are interwoven with the field specific concepts and terminology of teaching English as a second language (TESL). This course introduces the structure of the English language and methods of teaching it to speakers of other languages. This involves investigating the pronunciation and grammar of English as well as looking at ways to teach these subjects along with listening, speaking, reading and writing skills to English Language Learners (ELLs). The course will involve a service learning component in which students will tutor ELLs in various sites throughout Chicagoland. As students study the basics of teaching English as a second language, they will develop academic skills that will contribute to their success in college and beyond.

TESL-301. The English Language For Teachers. 3 Hours.

All language teachers must understand how the English language works and must be able to describe how it works. This course is designed for future teachers of the English language. It covers the structure of sounds, words, phrases, and sentences; language use; and the structure of meaning of the English language, with applications of each topic to the teaching of the English language and English language arts. The history of the English language will also be included, as background to English word and sentence structure.

Prerequisite: ENGL-101 minimum grade of C.

TESL-310. English Grammar: Description & Instruction. 3 Hours.

All teachers of English as a second or foreign language must have a good descriptive knowledge of English grammar as well as an arsenal of techniques for instructing their students. This course is intended to help future ESL/EFL teachers develop an understanding of the structure of English sentences and the problems that non-native students face when learning English grammar. This course will also investigate ways of teaching grammar to English language learners.

Prerequisite: ENGL-101 minimum grade of C.

TESL-320A. Language & Culture: General. 3 Hours.

Prerequisite: ENGL-101 minimum grade of C.

TESL-320D. Language & Culture: Japan. 3 Hours.

Prerequisite: ENGL-101 minimum grade of C.

TESL-320G. Language & Culture: Southeast Asia. 3 Hours.

Prerequisite: ENGL-101 minimum grade of C.

TESL-320H. Language & Culture: Thailand. 3 Hours.

Prerequisite: ENGL-101 minimum grade of C.

TESL-320K. Language & Culture: Latin America. 3 Hours.

Prerequisite: ENGL-101 minimum grade of C.

TESL-320N. Language & Culture: Native American. 3 Hours.

Prerequisite: ENGL-101 minimum grade of C.

TESL-320O. Language & Culture: Afro-American. 3 Hours.

Prerequisite: ENGL-101 minimum grade of C.

TESL-320P. Language & Culture: The Deaf. 3 Hours.

Prerequisite: ENGL-101 minimum grade of C.

TESL-320Q. Language & Culture: Maya. 3 Hours.

Prerequisite: ENGL-101 minimum grade of C.

TESL-321. 1st & 2nd Language Acquisition. 3 Hours.

Survey of recent theories and research on children's acquisition of phonological, morphological, syntactic, semantic and pragmatic systems of their first language. Survey of recent theories and research on second language acquisition.

Prerequisite: ENGL-101 minimum grade of C.

TESL-330. Language, Society, And Education. 3 Hours.

Researchers who study the relationship between language and society or culture are in a unique position to provide insight into language- and culture-related social problems. This course is based on the notion that many educational problems are related to differences between students' home language or dialect and the "official" school variety. It examines the relationship between language, society, and culture with particular attention to how factors such as class, gender, race, and ethnicity impact student performance in the classroom. Issues of identity, bilingualism, and language prejudice will also be addressed.

Prerequisite: ENGL-101 minimum grade of C.

TESL-340. Practices & Procedures. 3 Hours.

Practices and techniques related to the teaching of English as a second language, in ESL or bilingual education programs; meant for those students who are not yet teaching in the field.

Prerequisites: ENGL-101 minimum grade of C and (TESL-321 minimum grade of C or TESL-341 minimum grade of C).

TESL-341. Principles Of Language Teaching. 3 Hours.

Theories and principles underlying the teaching of English as a second language to limited-English speaking children and adults. Survey of various methodologies in second language teaching and bilingual education. Reviews relationships between language and culture and discusses the major problems in language education.

Prerequisite: ENGL-101 minimum grade of C.

TESL-343. TESL Assessment. 3 Hours.

Testing and Assessment as they relate to limited English proficiency students; information on instruments and procedures for testing language and cognitive development; proficiency, placement and achievement testing. Students look at well known standardized testing devices such as the bilingual syntax measure and the TOEFL test, at cultural and instrumental bias in testing, and at procedures for writing and evaluating classroom tests and various test item types.

Prerequisite: TESL-340 minimum grade of C.

TESL-345. Linguistics & Reading. 3 Hours.

Relationship between language structure and the reading process with emphasis on the practical problems such as the variety of dialectally different sound-symbol-correspondences in English, the perception of speech sounds, the reader's interpretation of syntactic and semantic structures, various alphabetic systems for teaching reading. Designed to be useful to the in-service classroom teacher as well as to undergraduates.

Prerequisite: TESL-301 minimum grade of C.

TESL-399. Clinical Experience In TESL. 1 Hour.

This course is designed to provide on-site experience in teaching English to non-native speakers in grades K-12. Students will observe and work with a master teacher and be supervised by a TESL/TEFL professor. Student will engage in classroom discussion and various projects based on their classroom work.

Prerequisite: TESL-340 minimum grade of C.

TESL-402. Principles Of Linguistics For Teachers. 3 Hours.

This course examines the components of the science of language and how these relate to teaching English as a second/foreign language. Although the emphasis is on the linguistic components of English, a comparison with other languages and implications for teaching a second/foreign language will be integral to the course. Among other topics, it will cover English phonetics, phonology, morphology, syntax, and semantics and offer classroom-oriented applications of linguistic principles for effective instruction of English as a second or foreign language.

TESL-406. Adult Needs, Design And Assessment. 3 Hours.

Adult English language learners represent a wide variety of linguistic backgrounds, cultural experiences and personal needs. They may learn English for survival/life skills, job improvement or academic preparation. This course provides instructors with an appreciation for cross-cultural learners and their communication skills. In addition, this course looks at adult program options and their relationship to curriculum design. Principles of assessment, and varied assessment tools used in the adult education setting will also be addressed. Website tools aiding course management, assessment and self-study will be utilized.

Prerequisite: TESL-410 minimum grade of B.

TESL-409. Research Design & Methods. 3 Hours.

Survey course, reviewing the major trends and methodologies used in linguistics, language acquisition, and language teaching. Exploration of quantitative approaches used in language-specific inquiry through the examination of a variety of studies from the literature, their questions, their underlying assumptions, and their design. Prior knowledge of statistics is not required.

Prerequisite: TESL-402 minimum grade of C.

TESL-410. Techniques Of Teaching English As A Second Language. 3 Hours.

Survey of techniques specifically relevant to the teaching of English as a second language. Questions relating to the design and sequencing of ESL courses, to procedures for evaluation of ESL students and to criteria for choosing, adapting and creating teaching materials.

Prerequisites: TESL-414 minimum grade of C and TESL-402 minimum grade of C.

TESL-414. Theories Of Teaching English As A Second Language. 3 Hours.

Survey of theories of the teaching and learning of English as a second or foreign language. A look at the historical growth and development of second language methodologies from grammar-translation and the direct method, through the audio-lingual method and its offspring, and up to the current natural and eclectic period.

TESL-420. Structure Of Modern English. 3 Hours.

Description and analysis of the major grammatical structures of spoken and written English in light of traditional and descriptivist theories. This course covers practical issues and procedures involved in teaching grammar to ESL/EFL learners.

TESL-426. Advanced Linguistic Analysis. 3 Hours.

Advanced analysis of the structure of language, including phonology, morphology, syntax and semantics. Each topic will be explored through detailed analysis and comparison of data from a variety of languages in addition to English.

Prerequisite: TESL-402 minimum grade of C.

TESL-427. Teaching Pronunciation. 3 Hours.

This course covers practices and procedures involved in helping English Language Learners (ELLs) improve their intelligibility and increase their speech perception. Through an applied approach, students will develop a deeper understanding of English phonetics and phonology at both the segmental and prosodic levels. They will learn how to apply this knowledge to teaching pronunciation to English language learners (ELLs) of all ages. The course will also cover societal attitudes about accent through an investigation of current research.

Prerequisites: TESL-402 minimum grade of C and TESL-414 minimum grade of C and TESL-410 minimum grade of C.

TESL-430B. Structure Of Language: Latin. 3 Hours.

Prerequisites: TESL-402 minimum grade of C and TESL-420 minimum grade of C and TESL-426 minimum grade of C.

TESL-430C. Structure Of Language: Lakhota. 3 Hours.

Prerequisites: TESL-402 minimum grade of C and TESL-420 minimum grade of C and TESL-426 minimum grade of C.

TESL-430D. Structure Of Language: Rotuman. 3 Hours.

Prerequisites: TESL-402 minimum grade of C and TESL-420 minimum grade of C and TESL-426 minimum grade of C.

TESL-430E. Structure Of Language: Thai. 3 Hours.

Prerequisites: TESL-402 minimum grade of C and TESL-420 minimum grade of C and TESL-426 minimum grade of C.

TESL-430F. Structure Of Language: Tai, Kirundi, Tun, Arabic. 3 Hours.

Prerequisites: TESL-402 minimum grade of C and TESL-420 minimum grade of C and TESL-426 minimum grade of C.

TESL-433. Lexicography. 3 Hours.

Review of the problems and trends of word study in the past, especially the notions surrounding the concepts of authority and usage of language: scrutiny of the various types and sources of English vocabulary; recent linguistic insights considered in the light of their value for various kinds of handbooks.

TESL-440. Language & Literacy. 3 Hours.

Differences between spoken and written languages; the functions of writing in a literate society; writing systems with particular reference to English orthography; current psycholinguistic research on the acquisition of written language skill; pedagogical implications of linguistic views on literacy.

Prerequisite: TESL-402 minimum grade of C.

TESL-442. Using Technology With Second Language Learners. 3 Hours.

In this class, students will explore the interface between current approaches to second language pedagogy, theories of language learning, and technology. They will examine questions of the development and current status of computer applied language learning; the digital divide and language minority students; appropriate and inappropriate uses of technology for language learning; use of technology to support student instruction in listening, speaking, reading, writing, culture, pronunciation, vocabulary and grammar; technology and learner variation; and issues of technology and assessment.

Prerequisite: TESL-410 minimum grade of C.

TESL-445. Language Variation. 3 Hours.

All languages vary- across time, distance, social class, gender, situation, and ethnicity. This course examines the societal and cultural influences on both the forms and uses of different varieties of English as well as other languages, and demonstrates how one's language and language variety affect one's identity, school achievement, etc. Topics include language attitudes and stereotypes, ideology, intercultural and interethnic communication, and the spread of English. Special emphasis will be placed on how these notions of language varieties apply to the teaching and learning of second and foreign languages.

TESL-447. Pragmatics. 3 Hours.

Study of the interface between language and meaning at the level of discourse. Focuses on communication as dialogic interaction and the nexus of word meanings and speaker intentions in language use. Considers the multiple layers of context as factors that affect the interpretation of speaker role and appropriateness of use. Additionally, examines intercultural pragmatics as it pertains to the acquisition of second language culture and the communicative differences between cultures.

Prerequisite: TESL-445 minimum grade of C.

TESL-451. Lexically-Based Instruction. 3 Hours.

This course is built on the notion that the optimal second-foreign language syllabus is a lexically-based one. The course covers vocabulary knowledge and acquisition from the perspectives of both the second language learner and the teacher. Topics covered include what it means to "know a word", memory, dictionaries and other tools, learner strategies, vocabulary assessment, selection criteria, and teaching techniques.

Prerequisites: TESL-402 minimum grade of C and TESL-410 minimum grade of C.

TESL-452. Content-Based Instruction. 3 Hours.

Exploration of content-based instruction as an approach to teaching English language learners. Functioning as both a method in the English as a second or foreign language classroom and as a technique for meeting the needs of English language learners in the content area classroom, its theory and practice are examined through the various models and the standard-based curriculum. Additionally, practices and strategies related to planning, implementing, and managing ESL and content instruction, including classroom organization, teaching strategies for developing and integrating language skills, and choosing and adapting classroom resources are addressed.

Prerequisite: TESL-414 minimum grade of C.

TESL-460. Second Language Acquisition. 3 Hours.

Survey of recent theories and research on second language acquisition and bilingualism especially in relation to the process of second language learning; rationales of various language teaching methodologies and techniques as well as the concepts of transfer and interference, contrastive analysis and error analysis.

Prerequisites: TESL-410 minimum grade of C and TESL-420 minimum grade of C.

TESL-465. Experiential Preparation For Teaching English As A Second Language. 3 Hours.

Emphasis on the preparation of materials and the development of teaching strategies for specific ESL classroom uses. Students examine and evaluate commercially prepared and teacher made materials and lesson plans and devise a limited set of materials of their own. Students will either demonstrate these materials or observe their use in an actual classroom or tutoring situation.

Prerequisites: TESL-402 minimum grade of B and TESL-410 minimum grade of B and TESL-414 minimum grade of B.

TESL-468. Assessment Of The Limited English Proficient Student. 3 Hours.

The purpose of the course is to familiarize students with the fundamental concepts and principles of second language (L2) assessment. The students will gain hands-on experience in designing and administering language assessments in the areas of L2 reading, writing, listening, speaking, including vocabulary and grammar. In addition, this course is intended to train teachers how to evaluate popular tests (e.g., iBT TOEFL, ACCESS, DIEBELS) and help them interpret and write clearly about test results.

Prerequisite: TESL-410 minimum grade of C.

TESL-471. Evolution Of Laws & Policies In Language Instruction. 3 Hours.

Survey of the historical and current ideologies, the laws which they informed, and the policies and practices which resulted regarding language use in the educational system. Use will be explored in terms of language as a medium of communication, language as a medium of instruction, and language as a content area. Comparisons will be drawn between the US and international contexts. After extensive readings in the literature and in class preparation, students will be expected to design a grant proposal and make a presentation on a topic directly related to an area of their choice.

TESL-490A. Seminar In TESL: Materials Preparation. 3 Hours.

Prerequisites: TESL-426 minimum grade of B and TESL-445 minimum grade of B and TESL-460 minimum grade of B.

TESL-490C. Seminar In TESL: Special Education. 3 Hours.

Prerequisites: TESL-426 minimum grade of B and TESL-445 minimum grade of B and TESL-460 minimum grade of B.

TESL-490E. Seminar In TESL: Current Research. 3 Hours.

Prerequisites: TESL-426 minimum grade of B and TESL-445 minimum grade of B and TESL-460 minimum grade of B.

TESL-490F. Seminar In TESL: Language & Culture. 3 Hours.

Prerequisites: TESL-426 minimum grade of B and TESL-445 minimum grade of B and TESL-460 minimum grade of B.

TESL-490J. Seminar In TESL: Vocabulary. 3 Hours.

Prerequisites: TESL-426 minimum grade of B and TESL-445 minimum grade of B and TESL-460 minimum grade of B.

TESL-490K. Seminar In TESL: 1st & 2nd Language Acquisition. 3 Hours.

Prerequisites: TESL-426 minimum grade of B and TESL-445 minimum grade of B and TESL-460 minimum grade of B.

TESL-5901. Thesis Hours. 1 Hour.

Guidance of students conducting research and writing a thesis to fulfill the requirements for the Master of Arts degree in TESL/TEFL. This course requires approval of the instructor, Department Chair and the appropriate College Dean(s).

Prerequisites: TESL-402 minimum grade of C and TESL-420 minimum grade of C and TESL-426 minimum grade of C.

TESL-5902. Thesis Hours. 2 Hours.

See course description for TESL-5901.

Prerequisites: TESL-402 minimum grade of C and TESL-420 minimum grade of C and TESL-426 minimum grade of C.

TESL-5903. Thesis Hours. 3 Hours.

See course description for TESL-5901.

Prerequisites: TESL-402 minimum grade of C and TESL-420 minimum grade of C and TESL-426 minimum grade of C.

Master of Arts in Teaching English to Speakers of Other Languages

Master of Arts in Teaching English to Speakers of Other Languages

The M.A. in Teaching English to Speakers of Other Languages gives students an understanding of the nature of language, culture, instruction, assessment, and professionalism, and their interrelationships. The M.A. in TESOL prepares one to teach English in the US or overseas. In addition, students who have a valid teaching certificate can take courses leading to the Illinois State Endorsement to teach ESL. See more below under "TESOL Endorsement".

The program is designed for full- or part-time students, and all master's level courses in the fall and spring are offered in the evenings.

Requirements for Admission to the M.A. Program:

Students must fulfill the requirements for admission to the Graduate College of Northeastern Illinois University and apply to the TESOL Program for admission to the degree program. A student-at-large may transfer no more than 9 credit hours of graduate coursework into the graduate TESOL program.

Program Prerequisites:

Students entering the M.A. in TESOL program are not expected to have any prior preparation or knowledge of the field.

Language requirement:

- For students whose native language is English: 9 hours of college level work—or the equivalent—in one or more foreign languages, or a demonstrated proficiency in a foreign language at ACTFL level 2 or above.
- For students whose native language is not English: English proficiency demonstrated by a score of 95 on the internet based TOEFL (IBT), with a minimum of 20 on each of the four sections; or by a score of 7.0 on IELTS, with a minimum of 6.5 on each of the four sections; or by a score of 587 on the paper-based TOEFL.

Requirements for the Degree:

All graduate credits must be at the 400 level.

Students enrolled in the TESOL M.A. program must have a cumulative grade point average of at least 3.0 in all courses taken in fulfillment of the degree program.

All students pursuing a Master of Arts in TESOL will be required to submit a graduation project as one part of their graduation requirements. The project will consist of a capstone paper with 5 elements to be included as appendices. Students pursuing the M.A. in TESOL will be assigned an advisor early in their degree program for assistance in the preparation of the capstone paper. Please refer to the program website for specific information with regard to timing, formatting, etc.

Additionally, students can choose from two options: a thesis and a non-thesis option.

The thesis option requires 30 hours of completed coursework, including

1. all required courses with a cumulative grade point average of at least 3.0 and no more than two grades of C;
2. a master's thesis for an additional 6 hours credit.

The thesis option may be exercised only with department approval.

The non-thesis option requires 36 hours of 400-level course work as specified with a cumulative grade point average of at least 3.0 and no more than two grades of C, plus the final capstone paper ("Graduation Project").

Any special program design, tutored study, or independent study must be approved in advance by the graduate advisor, and also requires the approval of the instructor, department chair, and the appropriate college dean(s).

Code	Title	Hours
Course Requirements		
Language		
TESL-402	Principles Of Linguistics For Teachers	3
TESL-420	Structure Of Modern English	3

TESOL Graduate Certificate

TESOL Graduate Certificate Program

The TESOL Graduate Certificate Program will provide practical skills and knowledge to individuals who wish to teach English language learners. It is designed for individuals who want to work at community colleges, community-based organizations, or language schools in the U.S. or abroad. The Certificate consists of six courses (18 credits), including a 60-hour practicum. It prepares individuals to create lessons, develop materials, and assess English learners, with a particular emphasis on adult learners. It is designed to be completed in one year or two semesters, depending on which of the three scheduling options is chosen. Of the three options, one would take a year, while the other two offer an intensive option in a cohort model.

ADMISSION REQUIREMENTS

Individuals who wish to study in the TESOL Graduate Certificate Program must fulfill the requirements for admission to the College of Graduate Studies & Research and apply to the TESOL Graduate Certificate Program. Prior experience in education or teaching is not required. Requirements to the College of Graduate Studies & Research are:

1. Transcripts submitted from previous college work with a minimum undergraduate grade point average of 2.75.
2. Possess an undergraduate degree from a regionally accredited college or university.
3. A completed graduate application accompanied by a \$30 fee.

Additionally, the TESOL Graduate Certificate Program admission requirements are:

Language requirement:

- For native speakers, 9 credits of college level work, or the equivalent, in one or more foreign languages, or a level 2 in a foreign language on the American Council on the Teaching of Foreign Languages Proficiency Assessment.
- For non-native speakers, English proficiency demonstrated by a score of 95 on the internet-based TOEFL (IBT), with a minimum of 20 on each of 4 sections or by a score of 7.0 on IELTS, with a minimum of 6.5 on each of the four sections; or by a score of 587 on the paper-based TOEFL.

Requirements for the TESOL Graduate Certificate Program:

The 18-credit curriculum of the TESOL Graduate Certificate reflects the practical knowledge and skills conveyed in the five already existing TESOL graduate courses, the *Adult Needs, Course Design, and Assessment* course, and the 60-hour practicum.

Students are required to complete the five courses (15 credits) plus the practicum (3 credits) indicated below.

Code	Title	Hours
TESL-402	Principles Of Linguistics For Teachers	3
TESL-410	Techniques Of Teaching English As A Second Language	3
TESL-414	Theories Of Teaching English As A Second Language	3
TESL-420	Structure Of Modern English	3
TESL-406	Adult Needs, Design And Assessment	3
TESL-465	Experiential Preparation For Teaching English As A Second Language	3

Minor in TESL

The TESOL Program offers courses leading to an undergraduate minor. In addition, these same courses can be taken by students in the College of Education who are pursuing state licensure for teaching (license types 03, 04, 09, or 10) and would simultaneously like to work toward an endorsement for teaching English as a second language in the State of Illinois. Students seeking the TESOL Endorsement will also need to complete an additional 100 clinical hours in an ESL setting; these should be completed in conjunction with enrollment in TESL 399.

Please note: The 100 clinical hours are NOT a requirement of the Minor in TESL; they are one of the state's requirements for receiving the TESOL endorsement.

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Minor in TESL (18 credit hours)

Code	Title	Hours
Required Courses ¹		
TESL-301	The English Language For Teachers	3
TESL-310	English Grammar: Description & Instruction	3
TESL-330	Language, Society, And Education	3
or TESL-320K	Language & Culture: Latin America	
TESL-341	Principles Of Language Teaching	3
TESL-340	Practices & Procedures	3
TESL-343	TESL Assessment	3
or BLBC-342	Assessment In The Bilingual Classroom	
Total Hours		18

¹ Alternate options may be available to fulfill the minor. Please contact the TESOL undergraduate advisor.

TESOL Endorsement

TESOL Endorsement

The TESOL Program offers graduate courses that can be taken by individuals who are already state licensed teachers who wish to qualify for State Of Illinois Endorsement to teach ESL. For undergraduate students who are working toward a state certification and would like to simultaneously complete coursework leading to the endorsement at the undergraduate level, please see above under “Minor in TESL”.

To get a TESOL Endorsement you need to:

- Possess a valid Early Childhood, Elementary, Secondary, or Special Education Illinois Teaching License (license types 03, 04, 09, or 10)
- Complete 18 credit hours distributed among five course areas designated by the state. NEIU offers the courses below to fulfill TESOL Endorsement requirements. See your advisor for other courses that may be acceptable.

Code	Title	Hours
Linguistics		
TESL-420	Structure Of Modern English (Prereq: TESL-402)	3
or TESL-402	Principles Of Linguistics For Teachers	
Theoretical Foundations of Teaching ESL		
TESL-414	Theories Of Teaching English As A Second Language	3
Assessment of the Bilingual Student		
TESL-468	Assessment Of The Limited English Proficient Student (Prereq: TESL-410 and TESL-414)	3
Methods and Materials of Teaching ESL		
TESL-410 & TESL-402	Techniques Of Teaching English As A Second Language and Principles Of Linguistics For Teachers (Prereq: TESL-414)	6
Cross-Cultural Studies for Teaching Limited English-Proficient (LEP) Students		
TESL-445	Language Variation	3

- Complete 100 clock hours of ESL clinical experience.

Women's and Gender Studies Program

Women's and Gender Studies addresses knowledge and praxis from intersections of feminist, anti-racist, multicultural, global and ecological perspectives. Centering marginalized knowledge and practices, we critique and challenge the dominant social, political and historical production of knowledge. We examine, from interdisciplinary perspectives, how power is distributed and used along the intersections of race, class, gender, geography, age, abilities and sexualities, including studying the lives, histories and cultures of Lesbian, Gay, Bisexual, Transgendered and Queer (LGBTQ) communities and allies. Women's and Gender Studies courses emphasize rigorous critical thinking, innovative scholarship and creativity, to assist students and faculty to radically envision different bodies of knowledge and social change. This creates an environment of learning and passionate commitment to social justice. Through curriculum, pedagogical strategies, university transformation and civic engagement, our community of learners takes up issues of oppression, resistance and social justice to make connections between personal, state and global communities. As a community of practitioners, researchers, learners, leaders and activists, we work to develop and implement meaningful social change within the university and beyond, to create the type of world where injustice and inequality are fought and to resist the daily oppressions of the current social order.

The program operates the Blanche Hersh Women's and Gender Studies Resource Center and the Empowering Students Computer Lab located in LWH-2096. The Center is place where students, faculty and staff can gather in a more informal setting. It houses a Women's and Gender Studies library of books and periodicals. Additionally, the computer lab is a place for students to work on a paper, finish an assignment or check their email in a friendly, supportive environment.

 Kate Kane, Ph.D., Instructor, Communication, Media and Theatre
 Sophia Mihic, Ph.D., Professor, Political Science
 Francesca Morgan, Ph.D., Associate Professor, History

WGS-101. Women's Perspectives And Values. 3 Hours.

This course examines the philosophical basis of patriarchy and analyzes the impact of gender on the lives of women. Emphasis is placed on the effect that ethnicity, race, class and sexual orientation have in determining the status of women in our society. Feminist theory and creative writing are studied; women's voices, perspectives and values are discussed. (This is a General Education course in the area of Humanities.).

WGS-109A. First Year Experience: Sex Lives In Chicago. 3 Hours.

FYE: Sex Lives in Chicago critically examines sexualities in the social and physical space of Chicago from a feminist, sex-positive standpoint. In this course, the five foundations of the First-Year Experience (Future Planning, Integral Preparation, Research, Self-discovery and Transitions) are interwoven into the concepts of sexualities, gender and power. This course explores the diversity of sexual identities, practices, and behaviors in historical and modern Chicago. Students will discover the diversity and complexity of sexualities in Chicago through readings, speakers, films, and field experiences while simultaneously building personal and academic skills that ensure success at NEIU.

WGS-150. Women's Self-Defense. 1 Hour.

This course develops a framework for understanding violence and self-defense. Major focus is on learning and practicing awareness, prevention, assessment, verbal boundary setting and physical self-defense skills in simulated scenarios. (This course is not repeatable.).

WGS-201. Writing Intensive Program:Feminist Ideas. 3 Hours.

Feminist Ideas is intended to insure that students understand what feminist perspectives are and their relationship to Women's and Gender Studies, social issues and social change. With a focus on Organizing, Family, Health/Reproductive Justice, Violence and Work, students will learn to recognize historical and contemporary feminist leaders, understand the implications and applications of feminist ideas, apply lessons learned from past struggles to contemporary social issues and evaluate women's changing status, by race, class, age, ability, and sexual orientation and other inequalities.

Prerequisites: (WSP-101 minimum grade of C or WGS-101 minimum grade of C) and ENGL-101 minimum grade of C.

WGS-202. Feminist Activism. 3 Hours.

This course, subtitled Grassroots Resistance in the U.S., focuses on women as social actors challenging gender stereotypes; organizing to reduce poverty, racism, homophobia and violence; working to expand opportunities; and confronting barriers in education, the criminal justice system and politics. Popular analyses of women and social change often limit themselves to women's roles in families and paid workplaces. Focus is on ordinary women who are working collectively in diverse social settings to empower themselves and others, exploring barriers women face, goals and strategies for social change, and the rewards and challenges of feminist grassroots activism.

Prerequisite: WSP-101 minimum grade of C or WGS-101 minimum grade of C.

WGS-210. Introduction To Lesbian, Gay, Bisexual, Transgender & Queer Studies. 3 Hours.

The Introduction to Lesbian, Gay, Bisexual, Transgendered and Queer (LGBTQ) Studies offers an introductory and interdisciplinary approach to studying the lives, histories and cultures of LGBTQ communities and allies. This course focuses on the multiplicity and diversity in gender and sexual expression including how race, class, ability and other identity markers shape LGBTQ lives. Examining introductory questions in gender and sexualities studies, the course addresses the intersection of identity, knowledge and action through critical thinking, analysis, active learning and social engagement.

WGS-302. Feminist Theory:Questions Of Race, Class, And Sexuality. 3 Hours.

This course, subtitled Questions of Race, Class and Sexuality, is designed to give an introduction into conceptions of feminist theories. Moreover, much of the course will be spent reading and writing about theory. We will begin with an attempt to articulate the assumptions that underlie contemporary feminist theories by tracing the theoretical conceptions they are based upon. Our focus will be on the importance of the position and situation of the subject with respect to questions of class, race, sexuality, gender, historical moment and social location.

Prerequisite: WSP-101 minimum grade of C or WGS-101 minimum grade of C.

WGS-310. Lesbian & Queer Cultures: Identities, Histories & Resistance. 3 Hours.

This interdisciplinary course introduces students to historical and theoretical research through a series of topics: Identity, Sex, Violence, Activism, and Beyond. This will form the contexts for exploring issues and questions surrounding lesbian and queer cultures. Books, articles, magazines, videos, films, music, art, and more will be used. What makes up, establishes, creates, develops, organizes lesbian and queer cultures? This will be examined, in the context of various struggles over meanings and identities, considering that those meanings change over time and context and differ across race, class and other identity markers.

Prerequisite: WSP-101 minimum grade of C or WGS-101 minimum grade of C.

WGS-311. Power, Knowledge & Communities: Feminists Engagements With Education. 3 Hours.

This course focuses on the role of the educational system in the constructions and reproduction of gender and racial inequality. Using both academic and popular literature to gain perspectives, we will examine relationships between school and society. Topics to be addressed include the historical constructions, representation of schooling and the teaching profession, popular culture and education, and sexuality and schooling.

Prerequisite: WSP-101 minimum grade of C or WGS-101 minimum grade of C.

WGS-312. Women & Global Human Rights. 3 Hours.

Women's issues have recently been viewed through the lens of human rights. Increasingly they are included in the goals, programs and policies of international human rights organizations, from the United Nations to Amnesty International. This course will examine this shift in perspective and the impact it is having on women's lives worldwide. We will explore international human rights as they apply to women. What do we mean by "human rights"? How have these rights been socially defined, struggled over, and, in some cases, won? To what extent have women and women's rights been included in these conversations and struggles?.

WGS-313. Radical Feminist Imagination. 3 Hours.

Examination of literary works broadly representative of something called feminist imaginative response to U.S. patriarchy. The meaning of radical feminism will be explored as authors from a range of racial, class, and sexual identities are placed in dialogue with each other and with their respective socio-historical and cultural contexts. Focus will be on textual interpretation and exploring how each work attempts to develop its version of feminist consciousness. The course will investigate how these texts formulate a narrative of women's liberation against the dominant patriarchal narratives that inform cultural consciousness and social relations.

WGS-316. Science And The Gendered Body. 3 Hours.

This course traces the history of how gender and sex are identified and studied in scientific and medical fields and how cultural conception of gender and sex can influence the interpretation of scientific phenomena. Readings draw from the primary scientific literature, the history and philosophy of science, and cultural anthropological analyses of science and medicine.

Prerequisite: (or).

WGS-321. Internship In Women's Studies. 1 Hour.

Placement in a university or community agency that provides services to women. This will be an opportunity to test classroom concepts in a field setting.

WGS-322. Internship In Women's Studies. 2 Hours.

(See description for WGS-321.).

WGS-323. Internship In Women's Studies. 3 Hours.

(See description for WGS-321.).

WGS-331. Independent Study In Women's Studies. 1 Hour.

An intensive investigation of a special area of Women's and Gender Studies.

WGS-332. Independent Study In Women's Studies. 2 Hours.

An intensive investigation of a special area of Women's and Gender Studies.

WGS-333. Independent Study In Women's Studies. 3 Hours.

(See description for WGS-331.).

WGS-333A. Independent Study In Women's Studies. 3 Hours.

(See description for WGS-331.).

WGS-350. Women's & Gender Studies Seminar. 3 Hours.

This interdisciplinary capstone course builds on knowledge gained in other Women's and Gender Studies classes. Advanced instruction in appropriate areas such as: feminist theory and methodology, international women's movements, and other topics. Includes a component on research methods/writing. Consent of the instructor is necessary. This course is a requirement for students completing the Women's Studies Major and Minor.

Prerequisite: WSP-101 minimum grade of C or WGS-101 minimum grade of C.

WGS-360. Queer Theory. 3 Hours.

Queer theory developed in the early 1990s out of the conjunction of feminist theory, sexuality studies, and queer activism. This course introduces students to some of the key authors and texts in queer theory, shows students how queer theory may be applied in a variety of academic fields, and examines critiques of queer theory as androcentric, Eurocentric, overly intellectual, and impractical. This course aims to foster critical thinking, writing, and discussion. We will go beyond merely digesting theorists' work to actively engaging with the material and critiquing both commonly held assumptions and academic theories about gender and sexuality.

Prerequisite: WSP-210 minimum grade of D or WGS-210 minimum grade of D.

WGS-361. Queer Latin American Narrative And Film. 3 Hours.

This course explores the representation of sexual diversity and gender nonconformity in Latin American cultural production (narrative and film) from a perspective informed by feminist theory, LGBT studies and queer theory. Students critically engage these theoretical paradigms while developing research skills and proficiency in oral and written expression through class assignments, including a final research paper.

Prerequisite: ENGL-101 minimum grade of C.

Major in Women's and Gender Studies

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).

Minor in Lesbian, Gay, Bisexual, Transgender and Queer Studies

Minor in Lesbian, Gay, Bisexual, Transgender and Queer (LGBTQ) Studies

The LGBTQ Studies Minor offers an interdisciplinary approach to studying the lives, histories and cultures of Lesbian, Gay, Bisexual, Transgender and Queer communities and allies. Courses in history, culture, health, politics, justice, education, literature and the arts reflect a commitment to understanding and representing the contributions of LGBTQ individuals and communities. The program focuses on justice, knowledge and action that honor multiplicity and diversity in gender and sexual expression including how race, class, ability and other identity markers shape LGBTQ lives.

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

- * Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.
- ** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Minor in Lesbian, Gay, Bisexual, Transgender and Queer Studies requirements

Code	Title	Hours
Minors in LGBTQ Studies will fill out the LGBTQ Minor Declaration form in the Program office.		
Required Courses		
WGS-210	Introduction To Lesbian, Gay, Bisexual, Transgender & Queer Studies	3
WGS-360	Queer Theory	3
Select one of the following:		3
CMTC-313	Communication, Gender & Identity ¹	
ENGL-303	Contemporary LGBTQ+ Literature ¹	
JUST-328	Social Justice & LGBTQ Issues ¹	
WGS-310	Lesbian & Queer Cultures: Identities, Histories & Resistance ¹	
Electives		
Select three of the following:		9
CMTC-313	Communication, Gender & Identity ¹	
CMTM-377	Gender And Media	
ENGL-303	Contemporary LGBTQ+ Literature ¹	
JUST-328	Social Justice & LGBTQ Issues ¹	
JUST-355	LGBTQ Communities & Crime	
PHIL-218	Philosophy Of Sex	
SOC-307	Men & Masculinities	
SOC-340	Sociology Of Sexualities	
SOC-352	Sociology Of HIV/AIDS	
SWK-300	Human Sexuality And Social Work	
WGS-310	Lesbian & Queer Cultures: Identities, Histories & Resistance ¹	
WGS-316	Science And The Gendered Body	
WGS-361	Queer Latin American Narrative And Film	
Total Hours		18

¹ These courses may only be counted once toward the minor in LGBTQ Studies. Note: Elective cross-listed courses which do not appear on the above list may be approved for minor credit by the LGBTQ Studies coordinator, not to exceed 3 credit hours.

World Languages and Cultures

The mission of the Department of World Languages and Cultures is to provide high quality instruction in world languages, and to prepare students to be lifelong learners and engaged citizens through the critical study of the literatures and cultures associated with these languages.

The language and critical thinking skills you develop through written and oral exposition, research, and service learning will enhance your career opportunities in today's global society and provide the basis for a lifetime exploration of multiple cultures and worldviews.

We offer courses leading to

1. A Master of Arts in Latin American Literatures and Cultures,
2. A Bachelor of Arts in Spanish
3. Minors in Spanish, French Studies, and Korean.

For the Korean Minor, please consult the Department. For other programs, visit our undergraduate and graduate program pages. We also offer basic language courses in Arabic, Aramaic, Chinese, French, Hebrew, Italian, Japanese, Kurdish, Korean, Persian, Polish, Portuguese and Spanish, as well as introductory courses taught in English on the cultures associated with these languages.

Language Learning Laboratory

The Department of World Languages and Cultures is pleased to provide a technology-rich and comfortable environment to study and practice a second language. Find us in Rooms LIB 449 and Room LIB 451 on the fourth floor of the Ronald Williams Library (<http://library.neiu.edu/>) around the corner from the Learning Success Center (<http://www.neiu.edu/university-life/learning-support-center/>). At the Language Learning Lab (<http://www.neiu.edu/academics/college-of-arts-and-sciences/departments/world-languages-and-cultures/language-learning-laboratory/>) (LLL), we provide technical support and instructional media for students taking courses in the various languages taught by our department. To our faculty and instructors, we provide a place to integrate audio, video, computer and Internet resources into language teaching, by which students can gain communication skills and an authentic cultural experience.

NEIU Language Back Credit Policy

You may receive up to 9 no-cost credits for language courses not already accredited, through one of the following:

1. College coursework:
 - Complete 102 (or its equivalent) with a B or above =up to 3 credits of 101 in the target language.
 - Complete 201 with a B or above =up to 3 credits in the target language (101 or 102).
 - Complete 201 and any other course beyond 201=up to 6 credits in the target language (101 and 102).
 - Complete three courses beyond 201=up to 9 credits in the target language (101, 102, and 201).
2. Advanced Placement (AP) Exam:
 - Score of 3 = Up to 3 credits in the target language (103/201).
 - Score of 4 = Up to 6 credits in the target language (103/201 and/or 202).
 - Score of 5 = Up to 9 credits in the target language (103/201, 202 and/or one more course to be determined in consultation with the Chair of the Department of World Languages and Cultures).

3. CLEP Exam:

See the CLEP exam policy of this catalog (<http://catalog.neiu.edu/archive/2019-2020/admissions/ap-ib-clep-dual-admission/#creditforcollegelevelexaminationprogramclep>).

Notes on the Back Credit Policy:

- 103 and 201 are equivalent courses for the third semester of the language sequence.
- If you have not taken a college-level language course before, take NEIU's language placement exam (www.neiu.edu/languages (<http://www.neiu.edu/languages/>)) to determine what course you should take.
- For more information on the AP and CLEP Exams visit: www.collegeboard.com/student/testing/ap/about.html (<http://catalog.neiu.eduhttp://www.collegeboard.com/student/testing/ap/about.html>)

- Major in Spanish (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/world-languages-cultures/spanish/>)
- Minor in Spanish (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/world-languages-cultures/minor-spanish/>)
- Minor in French Studies (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/world-languages-cultures/minor-french-studies/>)
- Teacher Licensure in Spanish K-12 (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/world-languages-cultures/teacher-licensure-spanish-k-12/>)
- Master of Arts in Latin American Literatures and Cultures (<http://catalog.neiu.edu/archive/2019-2020/arts-sciences/world-languages-cultures/master-arts-latin-american-literatures-cultures/>)

Denise Cloonan Cortez, Ph.D., Professor of Spanish, Chair
 Brandon Bisbey, Ph.D., Associate Professor
 Lucia Lombardi, Ph.D., Associate Professor of Spanish
 Esther M. Santana, Ph.D., Associate Professor of Spanish
 Sarah M. West, Ph.D., Assistant Professor of Spanish

World Languages and Cultures

WLC-190. Language Immersion. 3 Hours.

Language immersion affords a multidimensional approach to language learning that facilitates successful acquisition. By its very nature, immersion provides experiences in multiple linguistic contexts so that the student is exposed to more than just academic input in the target language. This course is designed for students that undertake the study language in both formal and informal environments. While the academic portion of this course is guided by the established curriculum, both the quality and quantity of the informal experience is determined by the student according to his/her individual needs and interests, leading to the integration of formal and informal contexts.

WLC-191. Language Immersion II. 3 Hours.

As a continuation of WLC-190, this second semester course is designed for students who wish to continue the study of language in both formal and informal environments. While the academic portion of this course is guided by the established curriculum, both the quality and quantity of the informal experience is determined by the student according to his/her individual needs and interests, leading to the integration of formal and informal contexts.

WLC-200A. Introduction To Arab Cultures. 3 Hours.

This course introduces students to the wealth of literary, artistic, and musical cultures in the Arabic-speaking world. You will learn to describe, contextualize, and analyze representative cultural texts from literature (e.g., poems, short stories, folk tales and legends), fine arts (e.g., painting and photography), and popular culture (e.g., popular music, films, comics), and to evaluate how they reinforce, question or subvert normative constructions of gender, ethnicity, race, sexuality and nationalism specific to but not limited to the Arabic-speaking world. Taught in English. Sophomore standing or above.

WLC-200B. Introduction To Brazilian Culture. 3 Hours.

This course introduces students to the wealth of literary, artistic, and musical cultures in Brazil. You will learn to describe, contextualize, and analyze representative cultural texts from literature (e.g., poems, short stories, folk tales and legends), fine arts (e.g., painting and photography), and popular culture (e.g., popular music, films, comics), and to evaluate how they reinforce, question or subvert normative constructions of gender, ethnicity, race, sexuality and nationalism specific to but not limited to Brazil. Taught in English. Sophomore standing or above.

WLC-200C. Introduction To Chinese Culture. 3 Hours.

This course introduces students to the wealth of literary, artistic, and musical cultures in China. You will learn to describe, contextualize, and analyze representative cultural texts from literature (e.g., poems, short stories, folk tales and legends), fine arts (e.g., painting and photography), and popular culture (e.g., popular music, films, comics), and to evaluate how they reinforce, question or subvert normative constructions of gender, ethnicity, race, sexuality and nationalism specific to but not limited to China. Taught in English. Sophomore standing or above.

WLC-200E. Intermediate Studies In Foreign Language: Introduction To Korean Culture. 3 Hours.

WLC-200F. Introduction To French And Francophone Cultures. 3 Hours.

This course introduces students to France and francophone cultures and to the French and francophone influences in Chicago and the Midwest. Students will learn to describe, contextualize, and analyze representative cultural texts from literature (i.e., poems, short stories, folk tales, and legends), fine arts (i.e., painting and photography), and popular culture (i.e., popular music, films, comics), and to evaluate how they reinforce, question or subvert normative constructions of gender, ethnicity, race, sexuality and nationalism in France and the international francophone community. Taught in English. Sophomore standing or above.

WLC-200I. Introduction To Italian Culture. 3 Hours.

This course introduces students to the wealth of literary, artistic, and musical cultures in culture of Italy. You will learn to describe, contextualize, and analyze representative cultural texts from literature (i.e., poems, short stories, folk tales and legends), fine arts (i.e., painting and photography), and popular culture (i.e., popular music, films, comics), and to evaluate how they reinforce, question or subvert normative constructions of gender, ethnicity, race, sexuality and nationalism specific to but not limited to culture of the Italian peninsula. Taught in English. Sophomore standing or above.

WLC-200J. Introduction To Japanese Culture. 3 Hours.

This course introduces student to the wealth of literary, artistic, and musical cultures in Japan. You will learn to describe, contextualize, and analyze representative cultural texts from literature (e.g., poems, short stories, folk tales and legends), fine arts (e.g., painting and photography), and popular culture (e.g., popular music, films, comics), and to evaluate how these texts reinforce, question or subvert normative constructions of gender, ethnicity, race, sexuality and nationalism specific to but not limited to Japan. Knowledge of Japanese language is not required, but because the Japanese often integrate their culture and language, a discussion of some elements of the Japanese language will be part of the class. Taught in English. Sophomore standing or above.

WLC-200K. Kurdish Culture. 3 Hours.

This course introduces students to various aspects of Kurdish society. The course incorporates a number of perspectives: anthropological, sociological and cultural studies. It provides an overview of Kurdish society with special attention given to questions of identity, history, important literary and cultural texts and figures, music and dance, food and folkways. Finally, contemporary challenges faced by various parts of Kurdish society will be explored in relation to statelessness and diaspora.

WLC-200L. Introduction To Latin American Cultures. 3 Hours.

This course introduces students to the wealth of literary, artistic, and musical cultures in Latin America. Students will learn to describe, contextualize, and analyze representative cultural texts from literature (e.g., poems, short stories, folk tales and legends), fine arts (e.g., painting and photography), and popular culture (e.g., popular music, films, comics), and to evaluate how they reinforce, question or subvert normative constructions of gender, ethnicity, race, sexuality and nationalism specific to but not limited to Latin America. Taught in English.

WLC-200P. Introduction To Polish Culture. 3 Hours.

This course introduces students to the wealth of literary, artistic, and musical cultures in Poland. Students will learn to describe, contextualize, and analyze representative cultural texts from literature (e.g., poems, short stories, folk tales and legends), fine arts (e.g., painting and photography), and popular culture (e.g., popular music, films, comics), and to evaluate how they reinforce, question or subvert normative constructions of gender, ethnicity, race, sexuality and nationalism specific to but not limited to Poland. Taught in English. Sophomore standing or above.

WLC-200S. Introduction To Assyrian Culture. 3 Hours.

This course will serve as an introduction to the literary, artistic, and musical traditions in the Assyrian culture. You will learn to describe, contextualize, and analyze representative cultural texts from literature, fine arts, and popular culture, and to evaluate how they reinforce, question or subvert normative constructions of gender, ethnicity, race, sexuality and nationalism specific to but not limited to Assyrian culture. Taught in English.

WLC-220. French Culture Through Film. 3 Hours.

Explores the successive historical, political, social and aesthetic climates of modern France and francophone countries through the study of film. Conducted in English.

WLC-220A. Arab Culture Through Film. 3 Hours.

This course uses cinema as a tool to think critically about key topics of modern Arab cultures, including ethnicity, nationalism, religion, and gender roles, among others. Students will learn to situate films in specific political and cultural contexts, and to discuss how aesthetic choices guide possible interpretations. Taught in English. Sophomore standing or above.

WLC-220T. Italian Culture Through Film. 3 Hours.

This course uses cinema as a tool to think critically about key topics of Italian culture, including national identity, religion, and gender roles, among others. Students will learn to situate films in specific historical and cultural contexts, and to discuss how aesthetic choices guide possible interpretations. Taught in English.

WLC-221J. Japanese Culture Through Film. 3 Hours.

This course uses cinema as a tool to think critically about key topics of Japanese culture, including nationalism, religion, and gender roles, among others. Students will learn to situate films in specific historical and cultural contexts, and to discuss how aesthetic choices guide possible interpretations. Taught in English. Sophomore standing or above.

WLC-302. Introduction To Teaching World Languages. 3 Hours.

The nature of language and language-learning processes; demonstration of specific organizational patterns and teaching methods in keeping with these; the changing status of foreign language teaching; and the importance of language teaching in an interdependent world. Implications for foreign language teaching of recent developments in linguistics, psychology, psycholinguistics, curriculum, teaching materials and technology. Emphasis on designing, presenting and evaluating specific classroom procedures in the linguistically oriented teaching of the communicative skills.

WLC-333. Writing Intensive Program: Cross-Cultural Communication. 3 Hours.

In this course the student will be provided with multiple opportunities for writing in English about the study of world languages in both literary and linguistic contexts. The language professional will need to be prepared for writing various types of texts including: description, narration, exposition and argumentation. The broader focus of cross-cultural communication is explored in this course via the fundamentals of translation with a narrow focus on the cultural nuances embedded in the lexicon. A comparison of texts written in their original language and in their translated version will be one of the many components explored in the course.

Prerequisite: ENGL-101 minimum grade of C.

Arabic

ARAB-101. Arabic I. 3 Hours.

Development of basic skills in listening, speaking, reading and writing. Cultural appreciation.

ARAB-102. Arabic II. 3 Hours.

Continuation of ARAB-101.

Prerequisite: ARAB-101 minimum grade of D.

ARAB-203. Arabic III. 3 Hours.

Arabic III is the continuation of the sequence of Arabic I and Arabic II. Students develop proficiency of Modern Standard Arabic in listening, speaking, reading and writing at the Intermediate Low level, using Arab cultures as content for the development of these skills.

Requirement: must have course prerequisite or by placement exam

Prerequisite: ARAB-102 minimum grade of C.

Chinese

CHIN-101. Chinese I. 3 Hours.

Development of basic skills in listening, speaking, reading and writing. Cultural appreciation.

CHIN-102. Chinese II. 3 Hours.

Continuation of CHIN-101.

Prerequisite: CHIN-101 minimum grade of D.

CHIN-201. Chinese III. 3 Hours.

This course is a continuation of CHIN-102 and focuses on the listening, speaking, and writing of Mandarin Chinese at the intermediate-low level.

This course also explores cultural expressions and values in contemporary Chinese Society. **Prerequisite:** CHIN-102, placement exam, or consent of instructor.

CHIN-202. Chinese IV. 3 Hours.

This course is a continuation of CHIN-201 and focuses on the listening, speaking, and writing of Mandarin Chinese at the intermediate-mid level.

This course also explores cultural expressions and values in contemporary Chinese Society. **Prerequisite:** CHIN-201, placement exam, or consent of instructor.

Prerequisite: (CHIN-103 minimum grade of D or CHIN-201 minimum grade of D).

French

FREN-101. Beginning French I. 3 Hours.

Development of basic skills in listening, speaking, reading and writing. Cultural appreciation.

FREN-102. Beginning French II. 3 Hours.

Continuation of FREN-101.

Prerequisite: (FREN-101 or NEIU French Placement Score 283 - 310).

FREN-201. Intermediate French I. 3 Hours.

Continuation of FREN-102.

Prerequisite: (FREN-102 or NEIU French Placement Score 311 - 445).

FREN-202. Intermediate French II. 3 Hours.

Prerequisite: (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 311 - 445).

FREN-210. Reading Modern French. 3 Hours.

Practice in reading modern texts of current interest and moderate difficulty.

Prerequisite: (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 311 - 445).

FREN-220. French Conversation I. 3 Hours.

Development of oral-aural communication skills with emphasis on everyday situations. Conducted in French.

Prerequisite: (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 311 - 445).

FREN-221. French Grammar And Composition I. 3 Hours.

Overview of grammar with emphasis on writing skills.

Prerequisite: (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 311 - 445).

FREN-230. French Phonetics. 3 Hours.

Presentation, classification and analysis of the sounds of the French language with special emphasis on techniques and drills leading to habits of correct pronunciation. Conducted in French.

Prerequisite: (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 311 - 445).

FREN-251. French Conversation II. 3 Hours.

Continuation of FREN-220.

Prerequisite: (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 311 - 445).

FREN-252. Grammar & Composition II. 3 Hours.

Continuation of FREN-221.

Prerequisite: (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 311 - 445).

FREN-300. Introduction To French Civilization. 3 Hours.

Prerequisite: (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 446 - 999).

FREN-312. French Conversation III. 3 Hours.

Prerequisite: (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 446 - 999).

FREN-313. French Grammar And Stylistics. 3 Hours.

Identification, analysis and use of French structure; extensive exercises in grammatical and logical analysis. Conducted in French.

Prerequisite: (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 446 - 999).

FREN-315. Applied French Linguistics. 3 Hours.

A systematic comparison of French and English. Application of teaching techniques related to modern theories of language learning. Required for secondary school teacher certification.

Prerequisite: (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 446 - 999).

FREN-320. Introduction To French Literature. 3 Hours.

Outline of French literature; outstanding authors and their works from the Middle Ages to the present. Conducted in French.

Prerequisite: (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 446 - 999).

FREN-350. Independent Study In French. 3 Hours.

Project or research on a special topic relevant to the student's degree program. The course will be designed in consultation with an instructor who will also supervise the student's work.

Prerequisite: (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 446 - 999).

FREN-357. Contemporary French Society. 3 Hours.

The study and discussions of major debates in French society today. Topics explored may include: family, gender, the media, fashion, music, culinary arts, the education system, urban problems, social stratification, immigration, and French politics. Taught in French.

Prerequisite: (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 446 - 999).

FREN-361. Advanced French Conversation. 3 Hours.

Development of communicative skills primarily in speaking and listening in French at the Advanced Level. This course may be repeated once.

Prerequisite: (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 446 - 999).

Italian

ITAL-101. Italian I. 3 Hours.

Development of basic skills in listening, speaking, reading and writing. Cultural appreciation.

ITAL-102. Italian II. 3 Hours.

Continuation of ITAL-101.

Prerequisite: ITAL-101 minimum grade of D.

ITAL-103. Italian III. 3 Hours.

Continuation of ITAL-102. Completes the study of the basic elements of Italian.

Japanese

JPN-101. Japanese I. 3 Hours.

Development of basic skill in listening, speaking, reading and writing. Cultural appreciation.

JPN-102. Japanese II. 3 Hours.

Continuation of basic skill in listening, speaking, reading and writing. Cultural appreciation.

Prerequisite: JPN-101 minimum grade of D.

JPN-103. Japanese III. 3 Hours.

Continuation of basic skill in listening, speaking, reading and writing. Cultural appreciation.

JPN-104. Japanese IV. 3 Hours.

Continuation of basic skill in listening, speaking, reading and writing. Cultural appreciation.

Korean

KOR-101. Korean I. 3 Hours.

Development of basic skill in listening, speaking, reading and writing. Cultural appreciation.

KOR-102. Korean II. 3 Hours.

Continuation of basic skill in listening, speaking, reading and writing. Cultural appreciation.

Prerequisite: KOR-101 minimum grade of D.

KOR-103. Korean III. 3 Hours.

Continuation of basic skill in listening, speaking, reading and writing. Cultural appreciation.

Prerequisite: KOR-102 minimum grade of D.

KOR-205. Business Korean. 3 Hours.

Study of basic skills needed to conduct low-to-midlevel business transactions in Korean with emphasis on aspects of Korean culture that occur most frequently in a business environment. Conducted in English.

Prerequisite: KOR-103 minimum grade of D.

KOR-220. Korean Conversation I. 3 Hours.

Development of oral-aural communication skills with emphasis on everyday situations.

Prerequisite: KOR-103 minimum grade of D.

KOR-221. Korean Grammar And Composition I. 3 Hours.

Overview of grammar with emphasis on writing skills.

Prerequisite: KOR-103 minimum grade of D.

KOR-222. Korean Conversation II. 3 Hours.

Continuation of KOR-220 with emphasis on sophistication in speaking Korean through simulation and role playing.

Prerequisite: KOR-220 minimum grade of D.

KOR-223. Korean Grammar And Composition II. 3 Hours.

Continuation of KOR-221.

Prerequisite: KOR-221 minimum grade of D.

KOR-313. Introduction To Korean Literature. 3 Hours.

Overview of literary periods and significant trends in Korean and Korean-American Literature. Survey of major writers and their principal works.

KOR-360. The Confucian Tradition In Korea. 3 Hours.

An in-depth study of Korean ideas and values which explain some of the most fundamental traditional Korean assumptions about humanity, society and the world. This course will examine ideas and values, rooted in the Confucian tradition, which have influenced pre-modern Korean culture and in many ways remain in force in modern society.

Kurdish

KURD-101. Beginning Kurdish I. 3 Hours.

This beginning level language course is an introduction to the Kurdish language and the student will develop basic skills in listening, speaking, reading and writing Kurdish. Additionally, the student will acquire cultural appreciation.

KURD-102. Beginning Kurdish II. 3 Hours.

A continuation and further development of the basic skills in listening, speaking, reading and writing of Kurdish, and cultural appreciation, introduced in KURD-101: Beginning Kurdish I.

KURD-201. Intermediate Kurdish I. 3 Hours.

This course is designed to teach intermediate-level Kurdish to enable students to function in informal, formal, and academic contexts where Kurdish is spoken or used as a medium of communication and/or research.

Polish

POL-101. Polish I. 3 Hours.

Development of basic skill in listening, speaking, reading and writing. Cultural appreciation.

POL-102. Polish II. 3 Hours.

Continuation of POL-101.

Prerequisite: POL-101 minimum grade of D.

POL-103. Polish III. 3 Hours.

Continuation of POL-102.

Prerequisite: POL-102 minimum grade of D.

Portuguese

PORT-101. Portuguese I. 3 Hours.

Development of basic skill in listening, speaking, reading and writing. Cultural appreciation.

PORT-102. Portuguese II. 3 Hours.

Continuation of PORT-101.

Prerequisite: PORT-101 minimum grade of D.

PORT-103. Portuguese III. 3 Hours.

Prerequisite: PORT-102 minimum grade of D.

Spanish

SPAN-101. Beginning Spanish I. 3 Hours.

(For non-native speakers of Spanish.) Development of basic skills in listening, speaking, reading and writing. Cultural appreciation.

SPAN-102. Beginning Spanish II. 3 Hours.

Continuation of SPAN-101.

Prerequisite: (SPAN-101 or NEIU Spanish Placement Score 234 - 311).

SPAN-109. First Year Experience:Chicago's Latina/o Cultures. 3 Hours.

Freshmen explore Chicago's vibrant Latina/o culture as an integral part of the city's cultural landscape through short stories, poetry, films, speakers, and field trips to cultural venues or activities. In the course, the five foundations of the First-Year Experience (Future Planning, Integral Preparation, Research, Self-discovery, and Transitions) are interwoven with concepts and terminology specific to cultural and literary studies. Taught in Spanish and English. **Prerequisite:** Score of 384 or above in the Spanish placement exam (available online at www.neiu.edu/~fldept/placement.htm).

SPAN-123. Accelerated Spanish I-II-III. 9 Hours.

Accelerated study of Spanish, covering SPAN-101, SPAN-102, SPAN-103.

SPAN-201. Intermediate Spanish I. 3 Hours.

Continuation of SPAN-102. Completes the study of the basic elements of Spanish.

Prerequisite: (SPAN-102 or NEIU Spanish Placement Score 312 - 383).

SPAN-202. Intermediate Spanish II. 3 Hours.

Review of grammar. Short readings and practice in writing brief compositions. Exercises in oral communication.

Prerequisite: (SPAN-201 or NEIU Spanish Placement Score 384 - 445).

SPAN-206. Intermediate Spanish For Medical Professions. 3 Hours.

This class is for students who have achieved at least functional fluency in Spanish. This course is designed to provide students with the specific medical vocabulary and terminology necessary to communicate with and help treat Latino patients with limited English proficiency. The course will include specific vocabulary groups relating to assessment and care of patients, vocabulary to establish rapport, and discussions leading to cultural competencies. The course will use pre-designed dialogues to review and learn vocabulary and grammar structures, as well as a workshops settings designed to put students into scenarios where they can use both their speaking and listening skills. Most of the course will be taught in Spanish and because this is an intermediate course, students will be expected to have taken Spanish and retained basic conversational abilities.

SPAN-209. Spanish For Spanish Speakers I. 3 Hours.

This course is the first in two-semester sequence of intermediate-level Spanish designed for students who speak Spanish at home and/or in the community, but have not studied it formally and /or whose reading and writing abilities in Spanish are limited. The focus of the first semester is on orthography while the focus of the second semester is on syntax. Both semesters include reading comprehension and basic literary analysis of short texts.

SPAN-211. Spanish For Spanish Speakers II. 3 Hours.

This course is the second in a two-semester sequence of intermediate-level Spanish designed for students who speak Spanish at home and/or in the community, but have not studied it formally and/or whose reading and writing abilities in Spanish are limited. The focus of the first semester is on orthography while the focus of the second semester is on syntax. Both semesters include reading comprehension and basic literary analysis of short texts.

SPAN-220. Intermediate Conversation I. 3 Hours.

Development of basic conversational skills with emphasis on everyday situations. Conducted primarily in Spanish.

Prerequisite: (SPAN-202 or NEIU Spanish Placement Score 446 - 999).

SPAN-224. Reading Comprehension. 3 Hours.

Developing comprehension by increasing vocabulary and enhancing speed in reading Spanish. Conducted in Spanish.

Prerequisite: (SPAN-202 or NEIU Spanish Placement Score 446 - 999).

SPAN-225. Composition I. 3 Hours.

This course is designed as a workshop to develop students' practical writing needs based on personal preferences, daily routines, common events, and other topics related to personal experiences and immediate surroundings. Writing tasks focus on short, simple formats such as letters, diary entries, and descriptions. The course also addresses different tenses and moods in Spanish, normative orthography, correct use of accents, and building of vocabulary. Taught in Spanish.

Prerequisite: (SPAN-202 or SPAN-211 or NEIU Spanish Placement Score 446 - 999).

SPAN-251. Intermediate Conversation II. 3 Hours.

Continuation of SPAN-220 with emphasis on spontaneous conversation. Conducted in Spanish.

Prerequisite: SPAN-220 minimum grade of D.

SPAN-252. Literary Genres. 3 Hours.

Reading of a wide variety of longer passages with emphasis on general comprehension. Conducted in Spanish.

Prerequisite: SPAN-224 minimum grade of D.

SPAN-253. Composition II. 3 Hours.

This course develops students' critical writing skills in preparation for 300-level courses in literature and culture. It also serves as an introduction to research skills in the humanities, with special emphasis on the Spanish-speaking world. Taught in Spanish.

Prerequisite: SPAN-225 minimum grade of D.

SPAN-301. Advanced Spanish Grammar. 3 Hours.

Comprehensive review of Spanish grammar for students at the Advanced Level. Focus on the structure of the Spanish sentence (morphology and syntax) as a means to successfully master normative writing styles.

Prerequisite: SPAN-253 minimum grade of D.

SPAN-310. Creative Writing In Spanish. 3 Hours.

Creative Writing in Spanish introduces students to creative writing in two different genres: poetry and short story. Students will learn the defining characteristics of these genres through the production, reading and analysis of their own texts and the text of peers. Student will also learn how to produce a literary publication through their participation in *Consenso*, the literary magazine run by students in the Masters program in Latin American Literatures and Cultures. Local authors who publish in Spanish will be invited to class to read from their work, share their experience and give advice. Taught in Spanish.

Prerequisite: SPAN-253 minimum grade of C.

SPAN-312. Advanced Conversation. 3 Hours.

Continuation of SPAN-251. Mastery of various speaking skills leading toward communicative competence. Conducted in Spanish.

Prerequisite: SPAN-251 minimum grade of D.

SPAN-314. Latin American Culture. 3 Hours.

This course offers students an introduction to Latin American culture from pre-Columbian times to the present, through the contextualized study of representative cultural texts, including literature, music, painting, and film. Topics include pre-Columbian civilizations, the European Conquest, Colonial Baroque culture, Independence movements, 19th century nation building, 20th century revolutions, and contemporary issues. Taught in Spanish.

Prerequisite: SPAN-253 minimum grade of D.

SPAN-315. Spanish Culture. 3 Hours.

This course offers students an introduction to Spanish culture from its roots in pre-Roman times to the present, through the contextualized study of representative cultural texts, including literature, music, painting and film. Topics include the legacy of the Roman Empire, Muslim, Jewish and Christian coexistence during the Middle Ages, the Spanish Golden Age, Bourbon Spain, the Second Republic, Spain under Franco, and contemporary issues. Taught in Spanish.

Prerequisite: SPAN-253 minimum grade of D.

SPAN-319. Applied Spanish Linguistics. 3 Hours.

Linguistic principles and their application in the preparation of teaching materials and of microlessons.

Prerequisite: SPAN-253 minimum grade of D.

SPAN-321. Latin American Literature I. 3 Hours.

This course offers students an introduction to Latin American Literature from pre-Columbian times to the end of the 19th Century, through a critical analysis of representative works of poetry, narrative and drama. Topics include Nahuatl, Inca and Maya cosmogonies and poetry, literary perspectives on the Conquest, the New World Baroque, Latin American Romanticism, and Modernismo. Taught in Spanish.

Prerequisites: SPAN-252 minimum grade of D and SPAN-253 minimum grade of D.

SPAN-322. Independent Study In Spanish. 3 Hours.**SPAN-323. Latin American Literature II. 3 Hours.**

This course offers students an introduction to Latin American Literature of the 20th and 21st centuries, through the critical analysis of representative works of poetry, narrative, drama, and the essay. Topics include Posmodernismo, Vanguardias, Social Realism, Regionalism, Indigenismo, Negritud, the Neobaroque, Magical Realism, Feminist Literature, Testimonio, U.S. Latina/o Literature, and contemporary trends. Taught in Spanish.

Prerequisites: SPAN-252 minimum grade of D and SPAN-253 minimum grade of D.

SPAN-324. Advanced Composition. 3 Hours.

Advanced study of Spanish composition using complex grammatical structures with special attention to style. Conducted in Spanish.

Prerequisite: SPAN-253 minimum grade of D.

SPAN-326. Spanish Literature I. 3 Hours.

This course offers an introduction to Spanish literature written between 1200 and 1700, through a critical analysis and contextualization of representative works of poetry, fiction and drama. Topics include Medieval secular and sacred literature, the literature of the Spanish Golden Age, the rise of the modern novel, Renaissance poetry, and literature of the Baroque. Taught in Spanish.

Prerequisites: SPAN-252 minimum grade of D and SPAN-253 minimum grade of D.

SPAN-327. Business Spanish I. 3 Hours.

Foundations of business vocabulary, business writing, basic business and cultural concepts, and situational practices to be successful in today's Spanish-speaking business world. The course interweaves three thematic threads: a business context, a geographic context and a cultural context.

Prerequisite: SPAN-253 minimum grade of D.

SPAN-328. Spanish Literature II. 3 Hours.

This course offers an introduction to Spanish literature written between 1700 and the present, through a critical analysis and contextualization of representative works of poetry, fiction and drama. Topics include Romanticism, Realism and Naturalism, Generación del 98, Generación del 27, literature of the Spanish Civil War and its aftermath, and recent literature. Taught in Spanish.

Prerequisites: SPAN-252 minimum grade of D and SPAN-253 minimum grade of D.

SPAN-329. Introduction To Spanish American And Spanish Literature. 3 Hours.

Overview of literary periods and significant trends in Spanish-American and Spanish Literature. Survey of major writers and their principal works. Conducted in Spanish.

Prerequisite: SPAN-312 minimum grade of D or SPAN-317 minimum grade of D.

SPAN-331. Hispanic World Cultures. 3 Hours.

Study of the various aspects of the cultures of the Hispanic World. Conducted in Spanish.

Prerequisite: SPAN-317 minimum grade of D.

SPAN-351. Generation Of 1898. 3 Hours.

Analysis of the general character of the period called Generation of 1898 in Spanish Literature. Conducted in Spanish.

Prerequisite: SPAN-326 minimum grade of D or SPAN-328 minimum grade of D.

SPAN-352. Puerto Rican Literature. 3 Hours.

Survey of Puerto Rican literature from 1650 to the present; principal literary movements in novel, short story, poetry, and drama. Conducted in Spanish.

Prerequisite: SPAN-321 minimum grade of D or SPAN-323 minimum grade of D.

SPAN-353. Spanish For Teachers Of Spanish. 3 Hours.

This capstone course is designed for the Spanish major, and in particular, for those seeking K-12 certification. In terms of language pedagogy, expressions such as student-centered and teaching-centered approaches figure prominently. In this course different pedagogical approaches will be explored as they relate to the teaching of grammar, writing, reading, vocabulary acquisition, pronunciation and intonation in Spanish. The course is conducted entirely in Spanish.

Prerequisite: SPAN-253 minimum grade of D.

SPAN-354. Spanish American Literature To 1888. 3 Hours.

Reading and study of Spanish-American literature from its beginning up to and including the Romantic period. Conducted in Spanish.

Prerequisite: SPAN-329 minimum grade of D.

SPAN-356. Realism And Naturalism In Spanish American Literature. 3 Hours.

Reading and study of Spanish-American literature emphasizing "criollismo", "indianista", and Gaucho literature. Conducted in Spanish.

Prerequisite: SPAN-321 minimum grade of D or SPAN-323 minimum grade of D.

SPAN-357. Prose Of The Golden Age. 3 Hours.

Reading and study of the literary prose of the Spanish Golden Age. Emphasis on Don Quixote and the Picaresque novel. Conducted in Spanish.

Prerequisite: SPAN-326 minimum grade of D or SPAN-328 minimum grade of D.

SPAN-358. El Modernismo. 3 Hours.

Reading and study of the prose and poetry of the Modernist authors of Spanish America. Conducted in Spanish.

Prerequisite: SPAN-321 minimum grade of D or SPAN-323 minimum grade of D.

SPAN-359. Spanish Literature Of The 19th Century. 3 Hours.

Study of Romanticism, Realism, and Naturalism in Spain. Conducted in Spanish.

Prerequisite: SPAN-326 minimum grade of D or SPAN-328 minimum grade of D.

SPAN-363. The Generation Of 1927. 3 Hours.

Works of the principal figures of the Generation of 1927. Conducted in Spanish.

Prerequisite: SPAN-326 minimum grade of D or SPAN-328 minimum grade of D.

SPAN-364. Chicago's Latin@ Literature & Culture. 3 Hours.

Contributions of Spanish-American to Chicago and their impact on the city. Conducted in Spanish.

Prerequisite: SPAN-321 minimum grade of D or SPAN-323 minimum grade of D.

SPAN-367. Business Spanish II. 3 Hours.

Advanced business vocabulary, business writing, basic business and cultural concepts, and situational practice for success in today's Spanish-speaking business world. Course develops along three primary inter-related thematic threads: A business context, a geographic context and a cultural context.

Prerequisite: SPAN-327 minimum grade of D.

SPAN-368. Latin American Cinema. 3 Hours.

This course offers students a panoramic overview of Latin American cinema through the critical study of representative films in their political, economic and aesthetic contexts. Conceptually, the course is a cultural history of Latin America in the twentieth and twenty-first centuries, as seen through paradigmatic films of the Silent Period, the Avant-Garde, Studio Cinema, Neorealism, New Latin American Cinema, and contemporary cinema. Taught in Spanish.

Prerequisite: SPAN-314 minimum grade of C.

SPAN-369. Latin America Culture Through Music. 3 Hours.

This course develops an understanding of Latin American music as a cultural artifact, traces its roots and origins in Europe, Africa and indigenous cultures, and explores its central role in shaping cultural values and identities, both in Latin America and in U.S. cities like Chicago. Taught in Spanish.

Prerequisite: SPAN-314 minimum grade of C.

SPAN-370. Seminar On Don Quixote. 3 Hours.

This course explores the many and complex fictional worlds of Miguel de Cervantes's *Don Quixote*, the two-part novel which is widely considered to be one of the greatest pieces of fiction ever written. Through a complete reading of Parts I and II, students will investigate the interplay between this important masterpiece and its socio-historical contexts in Renaissance Europe.

Prerequisite: SPAN-326 minimum grade of D or SPAN-328 minimum grade of D.

SPAN-371. Seminar: José Martí. 3 Hours.

Critical study of the life and work of Cuban poet, essayist and political philosopher José Martí (1853-1895).

Prerequisite: SPAN-321 minimum grade of D or SPAN-323 minimum grade of D.

SPAN-372. Alejo Carpentier. 3 Hours.

Critical study of selected works by Alejo Carpentier, a leading 20th century Latin American writer and critic.

Prerequisite: SPAN-321 minimum grade of D or SPAN-323 minimum grade of D.

SPAN-373. Latin American Short Story. 3 Hours.

Critical study of the development of the short story in Latin America from the 19th century to the present, and as part of broad movements such as Romanticism, Realism, Modernismo, Criollismo, Magical Realism, and Feminism. Emphasis on short-stories published during the last two decades.

Prerequisite: SPAN-321 minimum grade of D or SPAN-323 minimum grade of D.

SPAN-374. Isabel Allende. 3 Hours.

Critical study of short stories and novels by Isabel Allende, a popular contemporary Latin American writer whose commercial and critical success rests on the combination of Magical Realism and Feminism.

Prerequisite: SPAN-321 minimum grade of D or SPAN-323 minimum grade of D.

SPAN-375. Literature Of The Southern Cone. 3 Hours.

Critical overview of the historical evolution of the literature of Southern South America (Argentina, Chile and Uruguay) from the 19th Century to the 21st Century.

Prerequisite: SPAN-321 minimum grade of D or SPAN-323 minimum grade of D.

SPAN-376. Gabriel García Márquez. 3 Hours.

Critical study of the fiction of Nobel Prize Winner Gabriel García Márquez, including *One Hundred Years of Solitude*, the paradigmatic novel of Magical Realism, as well as his more recent work.

Prerequisite: SPAN-321 minimum grade of D or SPAN-323 minimum grade of D.

SPAN-377. Caribbean Literature. 3 Hours.

Critical study of Caribbean literature, with special emphasis on the literature of Puerto Rico, Cuba, and the Dominican Republic in the 20th and 21st centuries. The course explores the Caribbean as a socio-cultural area where the interaction between Indigenous, European, and African cultures over five centuries has created hybrid identities and worldviews.

Prerequisite: SPAN-321 minimum grade of D or SPAN-323 minimum grade of D.

SPAN-378. Mexican Literature. 3 Hours.

This course explores Mexican literary production from pre-Hispanic times to the present, including key texts by Netzahualcóyotl, Sor Juana Inés de la Cruz, Juan Rulfo, Rosario Castellanos, Octavio Paz, and Carlos Fuentes, among others. Conducted in Spanish.

Prerequisite: SPAN-321 minimum grade of D or SPAN-323 minimum grade of D.

SPAN-379. Latin American Theater. 3 Hours.

This course provides students with a thorough overview of Latin American theater through the study of key plays and theories of drama. Conducted in Spanish.

Prerequisite: SPAN-321 minimum grade of D or SPAN-323 minimum grade of D.

SPAN-380. Literary Criticism. 3 Hours.

This course explores the origins and evolution of a variety of literary genres as a starting point to analyze and evaluate the relationship between content, form and context in specific works. Conducted in Spanish.

Prerequisite: SPAN-321 minimum grade of D or SPAN-323 minimum grade of D or SPAN-326 minimum grade of D or SPAN-328 minimum grade of D.

SPAN-381. Contemporary Latin American Narrative. 3 Hours.

This course is a critical study of major works and currents of contemporary Latin American narrative, as well as relevant critical and theoretical perspectives. Primary texts studied may include novels, short stories, testimonials, chronicles and narrative film. Students develop research skills and proficiency in oral and written expression through class assignments, including a final research paper. May be repeated for credit when primary texts studied vary.

SPAN-400. Visión De América I. 3 Hours.

This course explores the images of and ideas about "America" contained primarily but not exclusively in literary works prior to the twentieth century. May address issues relevant to the field of Cultural Studies. Must be taken within the first 12 hours of enrollment in the M.A. Program.

SPAN-401. Introduction To Latin American Literary & Cultural Studies. 3 Hours.

Designed as a workshop, this course prepares students to frame, conduct, and produce research on Latin American literature and culture; students are required to take it upon entering the program. The course has three overlapping learning objectives (1) to develop students' ability to analyze literary and cultural texts; (2) to develop strategies and methods to locate, evaluate, and manage primary and secondary sources related to a specific research project; and (3) to acquaint students with some of the major critical and theoretical debates in the field. Taught in Spanish.

SPAN-407. Latin American Baroque Literature And Culture. 3 Hours.

This seminar will explore key aspects of the Latin American Baroque as an original contribution to global baroque culture in the seventeenth and eighteenth centuries, and as a period when a Latin American identity began to crystallize. Taught in Spanish.

SPAN-408. Topics In Latin American Cinema. 3 Hours.

This seminar will examine one or more modes of production and/or representation in Latin American Cinema. Possible topics include periods, genres, auteurs, and national cinemas, and the role of theory and criticism in the reception and evaluation of specific films and cinematic movements. Taught in Spanish.

SPAN-410. History Of The Spanish Language. 3 Hours.

Study of the historical, geo-political, sociological, and linguistic (phonological, morphological, syntactical) factors that have shaped the evolution of the Spanish Language.

SPAN-413. Spanish Dialectology. 3 Hours.

Phonetics and phonology of Spanish, evolution of Spanish from its Latin roots to the present, and general dialectal tendencies of the Spanish language from each of the Spanish-speaking nations in the Americas. Research project requires theoretically informed analysis of student-gathered data. Taught in Spanish.

SPAN-414. U.S. Latina/o Literature & Culture. 3 Hours.

This course supplements these offerings by focusing on the literary production of Hispanophone and Latino/a-identified writers and artists in the US, including native Latinos, exiles and immigrants. Assignments, lectures and discussion will center on questions of identity, culture, history, politics and aesthetics. Readings will offer a broad representation of writers from North America, South America, Central America and the Caribbean and will cover various genres including essays, novels, poetry and drama. The course is taught in Spanish with readings in Spanish and English. For students who are teaching or plan to teach, the course will also provide analysis of pedagogical methods in Latino/a studies.

SPAN-415. Andean Literature & Culture. 3 Hours.

Critical study of the literary and cultural production in the Andean region of South America, with special emphasis on the worldviews of its predominantly indigenous and mestizo populations. Taught in Spanish.

SPAN-416. Latin American Avant-Gardes. 3 Hours.

Critical study of experimental literature and art in 20th century in Latin America, with special emphasis on the historical avant-gardes (i.e., 1920s and 1930s), and their legacy on subsequent cultural production. Taught in Spanish.

SPAN-418. Novels Of The Mexican Revolution. 3 Hours.

This course explores the representation of the Mexican Revolution and its aftermath in Mexican literature, and the novel in particular. Conducted in Spanish.

SPAN-419. Topics In Contemporary Mexican Literature. 3 Hours.

This course offers a critical study of major works and currents in contemporary (1960s-present) Mexican literature, focusing on literary trends and the role of criticism in the reception and evaluation of works and literary movements. Taught in Spanish.

SPAN-420. Visión De América II. 3 Hours.

This course explores the images of and ideas about "America" contained primarily but not exclusively in literary works of the twentieth and twenty-first centuries. Must be taken within the first 12 hours of enrollment in the M.A. Program.

SPAN-421. Spanish Pedagogy: How To Teach Grammar, Vocabulary, Culture, Literature And Writing. 3 Hours.

This graduate level seminar will begin by briefly exploring the pedagogical history of language teaching: approaches, methods and techniques. The course will focus more specifically on the pedagogical challenges posed by the teaching of culture, literature, grammar, vocabulary, writing and conversation in the diversified classroom with students of varying levels of linguistic proficiency. The students will develop classroom skills and strategies by designing materials for these pedagogical issues. The students will be able to formulate contextualized lesson plans and assessment measures in accordance with the National Standards for Foreign Language Learning. The course is conducted entirely in Spanish.

SPAN-428. Topics In Pre-Columbian Art. 3 Hours.

Selected topics in Pre-Columbian art. Advanced research papers and presentations. Content changes. May be repeated for 6 credits. Taught in Spanish.

SPAN-431. Latin American Romanticism. 3 Hours.

Critical study of the origins, evolution and legacy of Romanticism in Latin American literature. Authors include José María Heredia, Gertrudis Gómez de Avellaneda, Ricardo Palma, Jorge Isaacs, José Mármol and Manuel de Jesús Galván and in particular their adaptation of Rousseau's project for a utopian society to a Latin American context.

SPAN-432. Latin American Modernismo. 3 Hours.

Critical study of the origins, evolution and legacy of Modernismo, the first autochthonous literary movement to emerge in Latin America. Authors include José Martí, Rubén Darío, Manuel Gutiérrez Nájera and Amado Nervo.

SPAN-433. José Martí. 3 Hours.

Critical perspectives on the life and work of Cuban poet, essayist and political philosopher José Martí (1853-1895).

SPAN-434. Latin American Magical Realism. 3 Hours.

Critical study of the origins, evolution and legacy of Magical Realism in Latin American Literature. Representative works by Alejo Carpentier, Miguel Ángel Asturias, Gabriel García Márquez, Isabel Allende, Cristina García, and Laura Restrepo.

SPAN-435. Gabriel García Márquez. 3 Hours.

Critical perspectives on the writings of Gabriel García Márquez, and in particular his seminal *One Hundred Years of Solitude*.

SPAN-436. Hablares En Contacto: El Español En Estados Unidos. 3 Hours.

Language change accelerates when two or more languages or dialects are in contact; such is the case between English and Spanish, and between different dialects of Spanish in the United States. This course will examine the lexical, structural, phonological, morphological and syntactic influences from English and various dialects of Spanish on U.S. Spanish, and their impact on the linguistic landscape and the construction of identity in the United States. Taught in Spanish.

SPAN-481. Contemporary Latin American Narrative. 3 Hours.

This course is a critical study of major works and currents of contemporary Latin American narrative, including novels, short stories, testimonial narrative, chronicles and narrative film. The course also focuses on the role of criticism in the reception and evaluation of narrative works. Taught in Spanish.

SPAN-485. Study Tour: Latin America. 3 Hours.

This course is designed as a seminar that culminates in a Study Tour to a Latin American country. Students will be able to research and discuss subjects related to the Study Tour before the trip and will continue exploring these subjects while visiting the country.

SPAN-5901. Thesis Hours. 1 Hour.**SPAN-5902. Thesis Hours. 2 Hours.****SPAN-5903. Thesis Hours. 3 Hours.**

Swahili

SWAH-101. Swahili I. 3 Hours.

Development of basic skills in listening, speaking, reading and writing. Culture appreciation.

SWAH-102. Swahili II. 3 Hours.

Continuation of SWAH-101.

Major in Spanish

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Major in Spanish

The B.A. in Spanish consists of thirteen courses (39 credit hours): ten required courses (listed below), one Capstone Seminar at the Advanced Medium level (i.e., SPAN-351 - SPAN 399), and 2 elective courses at the Intermediate-Medium level or above (i.e., SPAN-202 or above). Majors are also required to create an electronic portfolio (<http://neiu.edu/academics/college-of-arts-and-sciences/departments/world-languages-and-cultures/>)

electronic-portfolio/) of work done in the required courses, and to pass both the OPI (Oral Proficiency Interview (<https://tms.languagetesting.com/IndividualSite/>)) and the WPT (Writing Proficiency Test (<https://tms.languagetesting.com/IndividualSite/>)) at a level of Advanced Low or above. Both tests are administered by the American Council of Teachers of Foreign Languages (ACTFL), and are nationally recognized for assessing oral and written proficiency according to the ACTFL Proficiency Guidelines.

Code	Title	Hours

¹ Consent of Instructor

Writing Intensive Requirement

Majors in Spanish can meet the Writing Intensive Program (WIP) graduation requirement by taking WLC 333 (WIP: *Cross-Cultural Communication: Fundamentals of Translation* or LLAS 201 (WIP: *History and Culture of Latinos*) or SCED 311 (WIP: *School Curriculum*). Visit the Center for Academic Writing on the fourth floor of the Ronald Williams Library for peer tutoring and other writing resources. Double Majors, (students who major in Spanish and another discipline) need only take one WIP course in the major of their choosing.

Proficiency Testing

The Oral Proficiency Interview and Writing Proficiency Test are administered by the American Council of Teachers of Foreign Languages (ACTFL), and are nationally recognized for assessing oral and written proficiency according to the ACTFL Proficiency Guidelines. Register online (<https://tms.languagetesting.com/ProctorSite/login.aspx>) for an appointment to take the tests at the Language Learning Lab (<http://www.neiu.edu/academics/college-of-arts-and-sciences/departments/world-languages-and-cultures/language-learning-laboratory/>).

This sample curricular map is provided to guide you in the planning of your progression for this major. This guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor.

Master of Arts in Latin American Literatures and Cultures

Master of Arts in Latin American Literatures and Cultures

Program Description

The Master of Arts Program critically examines Latin American cultural forms of expression in their socio-historical contexts; develops skills to work with Latin American and US Latina/o populations in linguistically and culturally appropriate ways; and enhances career opportunities in education, government, international business, and the culture industries. Courses are regularly offered during the late afternoon and evening.

Requirements for Admission to the Program

- Bachelor's Degree from an accredited institution.
- Advanced-level proficiency in written and oral Spanish as evidenced by a score of at least Advanced Low in the OPI (Oral Proficiency Interview) and WPT (Writing Proficiency Test) administered by ACTFL (American Council of Teachers of Foreign Languages). To register for the exams, visit <https://tms.languagetesting.com/IndividualSite/>, and have the results be sent directly to Northeastern Illinois University's Graduate College.
- Online application: graduate-college (<http://www.neiu.edu/academics/graduate-college/>)

Teacher Licensure Option

M.A. students who already have a B.A. in Spanish or who complete a Second Bachelor's in Spanish may also enroll in a dual MA/TLP track to become certified as Spanish K-12 teachers through the College of Education.

Degree requirements (36 credits)

Code	Title	Hours
Required Courses:		
SPAN-401	Introduction To Latin American Literary & Cultural Studies (to be completed during the first semester of the program)	3
Eleven graduate-level courses (which may include):		33
Up to eleven SPAN 400-level courses at NEIU		
Up to 3 graduate level courses from other departments at NEIU (approval of the graduate advisor required)		
Up to 9 credits of graduate level coursework from an accredited institution other than NEIU (approval of the department chair required)		
Up to 6 credits of Master's Thesis		
Total Hours		36

Non-thesis Option:

Students take 1 required course and 11 electives.

Thesis Option:

Students who opt for a thesis must, the semester before they intend to enroll in thesis hours, form a committee of three faculty members (1 primary and 2 readers), and submit a proposal with the following items:

- A 500-word narrative with a tentative title, corpus, hypothesis, methodology, theoretical framework, and the objective(s) of the study.
- A 1-2 page bibliography of primary and secondary sources in MLA format.

The committee will decide on the merits of the proposal, and whether or not to grant permission for the student to conduct the thesis. Students granted permission to write a thesis must follow the Graduate College Thesis Manual (<https://www.neiu.edu/academics/college-of-graduate-studies-and-research/masters-thesis-resources/masters-thesis-manual-documents/>).

Comprehensive Written Examination:

At the beginning of the program, students receive a list of eight general questions on Latin American literature and culture, with accompanying bibliography. For the comprehensive exam, students choose and answer four of these questions. A student who fails any part of the Comprehensive Exam may take that part a second time. Permission to take it a third time may be granted by the Departmental Graduate Committee after a review of the student's record. Additional coursework may be required before a third and final attempt.

Electronic Portfolio: The electronic portfolio (<http://neiu.edu/academics/college-of-arts-and-sciences/departments/world-languages-and-cultures/electronic-portfolio/>) includes copies of the final essays submitted for each course, a copy of the comprehensive examination, and the corresponding evaluation rubrics submitted by the program's faculty for each of these items.

Minor in French Studies

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Minor in French Studies

The Minor in French Studies consists of six courses (18 units) focusing on French and/or Francophone cultures. Of these six courses, at least four (12 units) must be taught in French at the 200-level or above. English-taught courses pre-approved for credit towards the Major in French Studies include: WLC-220 . Consult the French Advisor for approval of other English-taught courses towards the Minor.

Minor in Spanish

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Minor in Spanish

The Minor in Spanish consists of 21 credits at the Intermediate Medium Level and above.

Teacher Licensure in Spanish K-12

To become a licensed K-12 teacher of Spanish, students must:

1. Complete the requirements for a major in Spanish.
2. Pass the Oral Proficiency Interview (OPI) administered by ACTFL (American Council of Teachers of Foreign Languages) with a score of Advanced Low or above.
3. Pass the Content Area Exams in Spanish administered by ILTS (Illinois Licensure Testing System) with a minimum average score of 240.
4. Complete the following professional education sequence in secondary education:

Code	Title	Hours
WLC-302	Introduction To Teaching World Languages	3
SPAN-319	Applied Spanish Linguistics ⁴	3
EDFN-305	Philosophical And Historical Foundations Of Public Education ¹	3
EDFN-306	Education And Individual Differences ^{1,3}	3

Student must apply and be admitted to the College of Education to continue with the remaining courses in the sequence:

Code	Title	Hours
LTCY-301	Teaching Literacy In Junior & Senior High Schools ¹	3
EDFN-307	Psychology Of Instruction And Learning ^{1,3}	3
SCED-311	Writing Intensive Program: School Curriculum ¹	3
SCED-303F	Teaching Modern Foreign Languages In The Secondary School ^{1,5}	3
SCED-304J	Foreign Language Clinical Experience In The Secondary School ^{2,4,5}	3
SCED-305J	Secondary Student Teaching And Seminar In Spanish ²	9

- ¹ C or better grade required
- ² B or better required
- ³ EDFN-306 & EDFN-307 each have 20 clock hours of clinical experience attached.
- ⁴ Spanish K-12 majors must take SPAN-319 prior to enrolling in SCED-304J.
- ⁵ SCED-304F/SCED-304J and SCED-303F must be taken concurrently.

College of Business and Management

Michael Bedell, Ph.D., Dean

Nont Dhiensiri, Ph.D., CFA, Associate Dean

College Mission and Overview

The College of Business and Management provides quality and accessible undergraduate and graduate education in business to a diverse community of students from metropolitan Chicago and beyond. Our multicultural faculty prepares students for professional careers in an increasingly interconnected world. The college emphasizes cognitive and experiential learning, research (predominantly applied and pedagogical), and urban leadership through service.

Vision

We aspire to become a leading metropolitan college of business, recognized for the quality of our academic programs and our graduates, as well as for our contributions to Chicago, a major center for global business.

Accreditation

The NEIU College of Business and Management is accredited by AACSB International -- the Association to Advance Collegiate Schools of Business. Of the 16,000 business programs worldwide only 5% of those programs have been awarded AACSB Accreditation. For more information about AACSB Accreditation please see their website: www.aacsb.edu (<http://www.aacsb.edu/>).

Degree Programs

The College of Business and Management combines a liberal arts education with professional career preparation in the Bachelor of Science degree with majors in **Accounting, Finance, General Business Administration, Management, and Marketing**. The five undergraduate degree programs prepare students for careers in business or for additional study in graduate schools of business.

Graduate students may pursue **Master of Business Administration (MBA)** or **Master of Science in Accounting (MS)** degrees.

The College offers undergraduate minors in **Accounting, Finance, Management, Marketing, Human Resource Management, Entrepreneurship for Business Majors, Entrepreneurship for Non-Business Majors, Global Business Management** for those who wish to supplement or expand coursework in other disciplines. A **pre-MBA minor** is also offered to facilitate entering the MBA program for those that are not Business Majors. A minor is not a graduation requirement for Business students.

The College of Business and Management adheres to quality standards established by AACSB International: The Association to Advance Collegiate Schools of Business, and is committed to providing a well-rounded education for a career in business, government, or non-profit organizations.

College Organization

The College of Business and Management is organized into two departments, each headed by a chairperson:

- Department of Accounting, Business Law, and Finance
- Department of Management and Marketing

Classes are scheduled to accommodate the needs of full-time, part-time, and evening students.

Program Advisement Office

The Program Advisement Office provides professionally staffed, centralized advising to students who are (1) freshmen and sophomore pre-business majors focusing on their general education curriculum or (2) juniors and seniors wishing to enroll in undergraduate business courses. One advisor also specializes in graduate programs. If you're considering business course work, we encourage you to contact the Program Advisement Office immediately to learn about the College's programs and procedures and to declare your intent to pursue a business major or minor. Once you meet with a business advisor, the Program Advisement Office maintains records of your progress toward graduation and serves as a resource for information about University and College of Business and Management policies and requirements.

College of Business and Management - Program Advisement Office

Room: CBM 159

Phone: (773) 442-6111

Graduate Advising Phone: (773) 442-6114

Fax: (773) 442-6110

E-mail: P-Advise@neiu.edu

Professional School Curriculum Model

Consistent with the emphasis on excellence in its mission, the College has implemented a professional school curriculum model that concentrates advanced study in business subjects during the last two years of a four-year program. If you plan to enroll in Business and Management classes, you must complete liberal arts and business preparatory courses in the earlier years of your academic experience to ensure you are well-equipped for success in your business studies.

Admission to Northeastern Illinois University does not automatically constitute admission to programs offered by the College of Business and Management. If you plan to pursue a baccalaureate degree in business, you must formally apply for admission to the College after you've completed the University's General Education requirements along with eight Foundation courses that provide basic skills critical for success in a business program.

If you're a Northeastern non-business student who wants to take one or more Business courses, you need not apply for admission to the College of Business and Management. You must, however, meet the prerequisites as prescribed by the course(s) or minor you wish to take, and meet with the Business Program Advisers to register.

At-large students – students (with or without degrees) registered at other institutions who enroll for Northeastern classes – must secure approval from the Business Program Advisers to register for any Business course.

Sequence of Courses and Admission Requirements

University core curriculum and General Education Courses

University Core Curriculum and General Education Courses are outlined in the University Academic Catalog and in the Schedule of Classes each semester. The College of Business and Management requires students complete the General Education Requirement before enrollment in any upper division (300-level) business courses. BLAW-109 satisfies the FYE requirement for freshman students.

ECON-215, ECON-217, MATH-165, and PHIL-213 fulfill both College of Business and Management course requirements and the University's General Education Requirement; however, course credit hours are only recognized once toward graduation requirements.

Foundation Courses

These are basic skills courses that you complete before being admitted to upper-division (300-level) study in business. Three are specific courses in Business and Management, and six are in Arts and Sciences. Check the course descriptions in this catalog for course prerequisites.

Code	Title	Hours
Foundation Courses		
ENGL-101	Writing I	3
ENGL-102	Writing II	3
MATH-165	Finite Mathematics For Business And The Social Sciences	3
PHIL-213	Ethics (This also satisfies a Human Relations requirement)	3
or PHIL-215	Business Ethics	
ECON-217	Principles Of Microeconomics ¹	3
ACTG-201	Introduction To Financial Accounting ¹	3
ACTG-202	Introduction To Managerial Accounting ¹	3
BLAW-285	Legal Environment Of Business ¹	3
Total Hours		24

¹ Foundation Courses that are also Core Courses.

* PHIL-215 Satisfies the CPA Ethics requirement

Pre-Major Transition Semester

If you are completing the Foundation Courses, you may enroll in 300-level business courses during the same semester under the following conditions:

1. You must be able to complete the Foundation Requirement and the General Education Requirement within that semester.
2. You must be able to complete at least 60 credit hours (45 hours for business minors) of college-level course work by the end of that semester.
3. You must have earned a 2.50 GPA for Foundation Courses that you've already completed and a 2.00 cumulative GPA for all course work you've completed at Northeastern.

Guidelines for using this privilege:

- Students must request authorization from the Program Advisement Office to utilize the transition semester opportunity through submission of the Course Request Form.

- Students failing to complete all requirements for admission to the College of Business and Management by the end of the Transition Semester may be denied permission to continue the business course sequence (restriction from enrollment in 300-level business courses) until all program admission requirements have been met.
- Generally, students will be allowed ONE SEMESTER to utilize the Transition Semester Opportunity. This includes semesters in which students receive a grade of D, F, NAF, UWF or I, and semesters in which students withdraw from courses.
- Should a student drop a required Foundation Course during the Transition Semester, they will be expected to also drop all 300-level business courses in which they are enrolled.

Admission to the College of Business and Management:

Declaring a Business Major and/or Minor

The following admission standards must be fulfilled to become eligible to enroll in upper division (300-level) business courses and officially declare a business major in the College of Business and Management or a business minor in the Department of Accounting, Business Law, and Finance:

1. Fulfill the University's General Education Requirement (See the Academic Catalog or Schedule of Classes for details on fulfilling the General Education Requirement).
2. Complete each of the eight Foundation Courses (listed above) with a grade of "C" or better in each course AND earn a Foundation Course grade point average of 2.50 or higher (on a 4-point scale). COBM does not round up GPA. A 2.49 GPA would require re-taking a course(s) to earn a 2.5 foundation GPA.
3. Complete at least 60 college credit hours of course work (45 hours for business minors), including the Foundation Courses and General Education Courses, with a cumulative grade point average of 2.00 or higher.
4. Apply and be approved for admission to the College of Business and Management. This step is equivalent to officially declaring a business major and/or minor. Contact the Office of Program Advisement at (773) 442-6111 to schedule an advisement appointment to officially declare a business major or minor.

The admission standards to declare a business minor in the Department of Management and Marketing are available under the department's headings.

Core Courses

Core courses are those that are required of all majors. Four of the Core Courses are also Foundation Courses. Please check the course descriptions in the catalog for course prerequisites.

Code	Title	Hours
ACTG-201	Introduction To Financial Accounting ¹	3
ACTG-202	Introduction To Managerial Accounting ¹	3
BLAW-285	Legal Environment Of Business ¹	3
ECON-215	Principles Of Macroeconomics	3
ECON-217	Principles Of Microeconomics ¹	3
ABF-350	Management Information Systems	3
FINA-360	Principles Of Financial Management	3
MKTG-350	Principles Of Marketing	3
MNGT-368	Business Statistics	3
MNGT-370	Writing Intensive Program: Managing Global Business Organization ²	3
MNGT-377	Production/Operations Management	3
MNGT-379	Business Analytics	3
Total Hours		36

¹ Core Courses that are also part of the Foundation.

² MNGT-370 is the department course that fulfills the University Writing Intensive Program (WIP) Requirement

FINA-360, MKTG-350, MNGT-368, and MNGT-370 are prerequisites for more advanced business major courses. These courses must be completed prior to enrollment in advanced courses in your particular major.

Major/Minor Required Courses

Major/Minor Required Courses are those that departments require for the specialized majors and minors they offer. Specific requirements for each major and minor are listed under the departmental headings in this catalog.

All Business majors are required to take MNGT-393, as the capstone course. To enroll in MNGT-393, you must be in your final semester before graduation, have completed all business Core courses (some exceptions apply), have applied for graduation, have met all university graduation requirements, and have earned a 2.50 GPA in your major courses and a 2.50 Cumulative GPA.

Business Electives

Elective Courses are those you choose to match your own special interests and abilities. Specific elective choices and prerequisites for each major and minor program are listed under the departmental headings in this catalog. Electives must be chosen from the preapproved list.

Prerequisites

The curriculum in the College of Business and Management is highly structured and carefully integrated. The content and methods of upper division courses assume that you have already completed a sequence of lower division courses, the prerequisites for those courses, and other program prerequisites that provide you with skills you will need for more advanced study. The minimum acceptable grade for a course is "C". Grades of "D", "F", "NAF", "UWF", "P", "S", and "I" are not recognized as successful completion of a course or course prerequisite.

Students-at-large, non-Business majors, and non-traditional degree students must meet the prerequisites as prescribed by the course(s) or minor you wish to take, and meet with the Business Program Advisers to register. At-large students – students (with or without degrees) registered at other institutions who enroll for Northeastern classes – must secure approval from the Business Program Advisers to register for any Business course.

Class registration lists are monitored by the Office of Program Advisement. If you do not meet all published prerequisites for courses in which you have enrolled, you will be so notified and will be required to withdraw from those courses.

Registration Information

You can register for College of Business and Management classes online through NEIUport. Before you register, be sure that you have complied with published prerequisites and other registration requirements. If you're not sure that you have met all of the course prerequisites, contact the Program Advisers.

All courses with Incomplete grades are treated as courses in progress. A course with an Incomplete grade cannot be used to satisfy course prerequisites. Effective fall 2016, courses with incomplete grades revert to a failing grade after one semester.

Transfer Credits From Other Institutions

Northeastern Illinois University generally accepts courses completed at accredited colleges and universities. While the College of Business and Management usually accepts advanced business courses completed at accredited four-year colleges and universities less than six years prior, acceptance of transfer course work by Northeastern's Office of Enrollment Management Services does not indicate the course is equivalent to a College of Business and Management course, nor does it guarantee the transferred course(s) will meet business program requirements. In addition, lower division courses (100 or 200-level) transferred to Northeastern may not be accepted as equivalent to College of Business and Management upper division courses (300-level) even if an upper division course appears to be comparable and the course was accepted as a general elective by the Office of Enrollment Management Services. As a result, **TRANSFER STUDENTS SHOULD CONTACT THE PROGRAM ADVISEMENT OFFICE AS SOON AS POSSIBLE TO DETERMINE IF TRANSFER COURSES ARE APPLICABLE TO BUSINESS PROGRAMS** and if you have completed criteria to officially declare a business major or minor.

Completion of the transfer course evaluation process is necessary to confirm transfer courses may apply to College of Business and Management program requirements. Transfer course evaluation requires submission of course syllabi to the Program Advisement Office.

The College of Business and Management will accept a maximum of 24 business transfer credit hours (8 courses) toward a major program and a maximum of 9 business transfer credit hours (3 courses) toward a minor program. All transfer students planning to major in a business program must complete a minimum of 10 business courses at Northeastern.

Introduction to Financial Accounting, Introduction to Managerial Accounting, and Legal Environment of Business are lower division courses at Northeastern. The College will accept credit for these courses from accredited community colleges and other four-year institutions attended prior to enrollment at Northeastern provided the courses are deemed equivalent.

NOTE: Transfer information is available on the COBM web-page.

Proficiency Examinations

The College of Business and Management may accept a transferred 200-level course to satisfy a 300-level course requirement only IF you complete and pass a proficiency exam. The College offers proficiency exams BY APPOINTMENT ONLY through the Program Advisement Office for:

- Principles of Marketing
- Principles of Financial Management
- Cost Accounting
- Federal Income Tax (Individual)

- Intermediate Financial Accounting I
- Intermediate Financial Accounting II
- Management Information Systems
- Business Law I
- Business Law II
- Business Statistics

To attempt proficiency exams, you must provide documentation confirming you earned a grade of "C" or better less than six years ago in an equivalent 200-level transfer course.

("D", "F", "NAF", "UWF", "P", and "S" are not acceptable grades.) You may attempt an exam for a given course only ONCE and you must make the attempt prior to completion of all other College of Business and Management admission requirements. You will receive a PASS or FAIL for your performance on the exam. If you pass the exam, the credit for the transferred course and the grade earned will be applied to your business major or minor program as appropriate; however, the course credit hours will not be recognized as 300-level toward the University's upper-level course requirement.

The best strategy is to attempt proficiency exams as early as possible to allow you to plan your academic career accordingly. Contact the Program Advisement Office at (773) 442-6111 to obtain information or to schedule an exam

Enrolling in Multiple Institutions

Students interested in completing courses at alternate institutions after beginning enrollment at Northeastern must contact their advisor PRIOR to enrollment in the course(s) to confirm if the course may apply to degree requirements. As a general rule, all upper-division business-related coursework must be completed at Northeastern (Core, Required, and Elective business courses) once you have been admitted or re-admitted to Northeastern. (Business courses may NOT be completed at alternate institutions.) Failure to obtain permission to complete courses at an alternative institution prior to enrollment may result in rejection of the course by the University and the College.

Enrollment In Business Courses for Non-Business Students

If you're a Northeastern student not officially declared in any business major or minor program who would like to enroll in one or more business courses, you must meet the prerequisites specified by the course(s) or minor you wish to study. In some cases this will consist of the same prerequisites as business majors, including completion of the College's Foundation Requirement. In some cases, a course may only require one prerequisite. A maximum of 12 hours of business courses (4 courses) at 300-level may be completed prior to formally declaring a business major or minor.

Students-at-large must secure approval from the Program Advisement Office (CBM 159) to register in any business course. In general, the College's Foundation Requirement is waived for students-at-large, but you must meet the specific prerequisites for business course(s) in which you seek to enroll. Students-at-large enrolled in degree programs at other institutions are responsible for confirming courses completed at Northeastern will transfer to their primary institution to satisfy degree requirements.

Graduation Requirements

To earn a Bachelor of Science degree in a business major, you must meet all University graduation requirements, have completed all Foundation, Core, and Major required and elective courses in the College of Business and Management with a grade of C or better, achieved a minimum cumulative 2.50 (on a 4-point scale) grade point average for all course work at Northeastern, and a 2.50 GPA for all of your Major course work (Core Courses plus required and elective courses in your Major). Business Minors must earn a 2.50 or higher GPA for all required and elective courses in the Minor.

Filing for Graduation

To apply for graduation, contact the Program Advisors two semesters prior to the term in which you plan to graduate. See approximate dates below:

Month of Anticipated Completion of Degree Requirements	Filing Deadline
May	Previous September
August	Previous January
December	Previous May

Major and minor graduation forms are valid for a one-year period from the date on the form. If you do not graduate within that period, you must contact the Program Advisors to complete a new graduation form for the University's graduation evaluators.

Additional Academic Regulations

Governing Standards

The requirements that govern business major and minor programs are those that were published in the Academic Catalog at the time you were admitted to Northeastern Illinois University. Changes in course prerequisites are an exception, becoming applicable as they are enacted.

If you are absent from the University for one year or longer, your student status is inactivated. You revert to undeclared status, must re-apply for admission to the University and the College upon return, and must meet all current University, major/minor declaration, and business program requirements to qualify for a Bachelor's Degree.

Repeat Course Policy/Duplication of Course Credit

Courses may only apply to one degree program. You must complete separate courses to fulfill credit hour requirements for all programs when completing multiple business programs (two majors or a major and a minor program). When the same course is required for multiple programs, the department chairperson of the second program must approve a course to be completed to satisfy credit hour requirements for that program.

The College calculates your Foundation and Major grade point averages for College requirements using the most recent grade for repeated courses. This is in compliance with the University's cumulative grade point average policy (discussed below).

University policy permits students to repeat courses. The most recent grade and corresponding grade points from repeated courses are used to calculate the cumulative grade point average. Previous grade(s) are not included in calculation of cumulative grade point average or hours earned regardless of which grade is higher. All courses count only once toward the 120 credit hour minimum required for graduation. Students who repeated a course prior to Summer 2008 in which a grade of "C" or above was earned will have all grades calculated in the cumulative grade point average, but will only earn credit hours for the course once.

Note: **ALL grades received for all courses appear on the transcript.**

Class Attendance/Course Withdrawals

In accordance with University policy, you're expected to attend the first class session of all courses in which you are enrolled to confirm your registration. If you stop attending classes, you must officially withdraw from the course through established University procedures (NEIUport). Failure to officially withdraw from a course you stop attending for any reason is the same as failing the course. A permanent grade of F, NAF or UWF will appear on your transcript.

Pass/Fail Policy

Pass grades ("P") are not permitted to satisfy any degree requirements. Only grades of "C" or better fulfill course requirements.

Requirements for Multiple Business Majors

Students who wish to complete a second business major must take a minimum of 30 additional credit hours beyond the course work required for the first major. These credit hours must consist of at least 24 credits in the second major discipline. The remaining 6 elective credits may be any course offered by the College of Business and Management.

Contact the College's Office of Program Advisement for further information.

Aging of Course Work

The College of Business and Management may evaluate business coursework for currency and may reject courses that are deemed to be dated/aged (completed six or more years prior to enrollment or re-enrollment at NEIU). These courses must be repeated. This applies to all students - new, returning, and continuing.

Graduate Programs

The College of Business and Management offers graduate programs in business leading to the Master of Business Administration (MBA) degree (<http://catalog.neiu.edu/archive/2019-2020/business-management/management-marketing/master-business-administration/>) and the Master of Science in Accounting degree (<http://catalog.neiu.edu/archive/2019-2020/business-management/accounting-business-law-finance/master-science-accounting/>).

At Northeastern, you'll take classes in the most diverse cultural environment in the Midwest—an important advantage for developing effective management skills in an increasingly global and multicultural world. A hallmark of both programs is their flexibility, which allows you to earn your degree even while you pursue your current career. This includes:

- Evening and weekend classes
- Full-time or part-time enrollment
- Business or non-business undergraduate degree accepted for admission
- Small classes and individual attention that challenge you to learn and grow
- Most affordable M.B.A. and M.S. Accounting programs in the Chicago area

M.B.A. Program

The Master of Business Administration program provides you with a comprehensive knowledge base in business theory and practice to prepare you for mid- and upper-level management positions. The Northeastern Illinois University M.B.A. is also an excellent value—total tuition and fees are lower than virtually any other M.B.A. program in Illinois. To make your graduate program even more affordable, we offer a variety of financial-aid packages, individually configured to meet your needs.

The Northeastern Illinois University M.B.A. program is made up of 33 credit hours (11 courses) of graduate credit. If your undergraduate degree includes business course work, you may be able to enter directly into the advanced phase of the M.B.A. program.

M.S. Accounting Program

The Master of Science in Accounting program offers you a broad base of knowledge about accounting and business theory and practice, tailored for students who wish to meet Illinois' 150 credit-hour requirement to become a Certified Public Accountant (CPA). Accountants with a graduate degree and CPA certification are well qualified to provide leadership in planning, coordinating and controlling the economic activities of business and non-business enterprises. The combination of a graduate Accounting degree and CPA certification is a powerful set of credentials for career success.

The Northeastern Illinois University M.S. Accounting program includes 30 credit hours of graduate credit. If you have an undergraduate degree in Accounting, you may be able to enroll in advanced M.S. Accounting courses right away.

For additional information about graduate programs in business at Northeastern Illinois University, contact the Graduate Studies in Business Office at cobm-grad@neiu.edu or call (773) 442-6114.

Accounting, Business Law and Finance

Accounting is the language of business, and employees of small and large organizations must understand basic accounting principles. The knowledge of debits and credits, financial statements, and accounting information systems is basic for all business activities. Accounting majors must, of course, be well grounded in accounting theory and practice. Many accounting majors sit for the Uniformed Certified Public Accountant (C.P.A.) Examination and embark on meaningful careers in the public accounting field, and some seek to take the Certified Management Accountant (C.M.A.) Examination

Finance is the study of value. Using basic principles from the fields of accounting, economics, and statistics, finance involves analysis of financial institutions, financial markets, and financial concepts. Finance majors can emphasize the study of markets or the study of financial management practices. The financial services field has exploded with new kinds of products and services, creating a need for individuals to sell new financial and investment instruments and services and to manage the entities which provide them. Banking, stock brokerage, commodities/futures/options trading, and financial planning and analysis are traditional areas where finance majors find employment. Frequently finance majors are sought for entry level positions in the allied fields of real estate and insurance.

It is important to understand the legal implications of key business decisions, as business law constitutes the protocols for managerial action. Business law courses offered at Northeastern are not a pre-law program and are not intended to be preparation for law school.

Accounting, Business Law and Finance

ABF-350. Management Information Systems. 3 Hours.

This course centers on the use of computer based information systems (IS) to provide quality information upon which business decisions are made. The course presents the theory and practice involved with organization-wide usage of information technology (IT). The course also integrates the core business areas of management, marketing, finance, international activities, and ethics as they relate to information systems. Special attention is given to the tools available for providing decision makers with quality information and the implications of information systems for achieving a competitive advantage. Prereq.: Junior or Above.

ABF-403. Mngt of Info Systems & Tchnlgy. 3 Hours.

ABF-403 Management of Information Systems and Technology, 3 cr. This course examines two major and related concepts: the management of information and the management of technology. Students investigate issues and approaches in managing the information system (IS) function and how the IS function supports and enables organizational capabilities and strategies. Principles underlying the acquisition, application, and management of technology are considered. Special attention is given to management information systems (MIS) and to information technology (IT) applications which support managerial decision-making and enhance organizational competitiveness. Relevant business cases are studied to reinforce conceptual learning. Prereq.: ACTG-400 or equivalent and graduate standing.

Accounting

ACTG-201. Introduction To Financial Accounting. 3 Hours.

Accounting is a system for measuring economic activities. This course introduces to students the underlying assumptions, concepts, and methods of financial accounting regarding the recording, processing, and reporting of an organization's economic activities in financial statements to external decision makers. Prereq.: MATH-165.

Prerequisite: MATH-165 minimum grade of C.

ACTG-202. Introduction To Managerial Accounting. 3 Hours.

This course focuses on managerial accounting. It emphasizes the use of accounting information for management planning and control decisions. Topics include analysis of cost behavior, budgeting, and other managerial issues. Prereq.: MATH-165 and ACTG-201.

Prerequisites: ACTG-201 minimum grade of C and MATH-165 minimum grade of C.

ACTG-300. Principles Of Accounting. 3 Hours.

This course surveys the basic accounting concepts and procedures used in the preparation of financial statements, statement analysis and managerial planning and control. Topics covered include accounting for internal planning. The course is targeted toward undergraduate non-business-major students with no prior knowledge of accounting, to study and obtain an overall fundamental understanding and appreciation of the use of accounting information. This course cannot be counted for credit toward a major in business.

Prerequisite: (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120).

ACTG-301. Cost Accounting I. 3 Hours.

The course expands upon the study of accounting information that is needed by management to plan and control various operations of an organization and to price products and services. Topics include job order and process costing systems, standard costing and variance analysis, budgeting, direct, absorption and throughput costing, and cost-volume-profit (including break-even) analysis.

Requirement: All Foundation Courses Including ACTG-202

Prerequisite: ACTG-202 minimum grade of C.

ACTG-306. Accounting For Non-Profit Organizations. 3 Hours.

A study of the special techniques employed in recording and reporting financial data of non-profit government units and private non-profit organizations.

Prerequisite: ACTG-322 minimum grade of C.

ACTG-307. Auditing Theory And Problems. 3 Hours.

Auditing contributes to the reliability of financial and other data. This course, comprised of theory and philosophy of auditing, makes it an essential part of an accountant's knowledge. Topics include standards-general, field work and reporting, evidential matter, review of internal control, auditing techniques, practices, problem-solving, and a study of A.I.C.P.A. industry audit guides.

Prerequisite: ACTG-322 minimum grade of C.

ACTG-308. Advanced Auditing. 3 Hours.

This course enhances the students understanding of auditing principles. Included is a detailed study of statements of auditing standard, evidential matter, techniques, problem solving, and a study of AICPA industry audit guidelines.

Prerequisite: ACTG-307 minimum grade of C.

ACTG-309. Foundations Of Forensic & Investigative Accounting. 3 Hours.

The purpose of this course is to cover important topics associated with contemporary forensic and investigative accounting. Topics include fraud auditing, litigation support, valuation, cybercrime, and other key forensic topics. Prereq. ACTG-201 and ACTG-202.

Prerequisites: ACTG-201 minimum grade of C and ACTG-202 minimum grade of C.

ACTG-310. Federal Income Tax (Individual). 3 Hours.

Fundamentals of tax accounting and reporting with emphasis on individuals. Topics include gross income and exclusions, deductions to arrive at and deductions from gross income, gain or loss recognition, basis, capital gains and losses, credits and administration.

Prerequisite: ACTG-202 minimum grade of C.

ACTG-311. Federal Income Tax (Corporate). 3 Hours.

Advanced development of topics discussed in the first tax course. Additional topics include matters specifically applicable to partnerships, corporations, and basic introductions to estate and gift taxes. Tax research techniques are also developed in the subject.

Prerequisite: ACTG-310 minimum grade of C.

ACTG-312. Cost Accounting II. 3 Hours.

This course is a logical continuation of the prerequisite course with even greater emphasis on accounting information used for management planning and control. topics include division performance measurement, transfer pricing, and application of quantitative techniques to cost accounting.

Prerequisite: ACTG-301 minimum grade of C.

ACTG-313. Internal Auditing And Management Control. 3 Hours.

Internal auditing is an independent appraisal activity within an organization for the review of operations aimed at promoting its efficiency and effectiveness. This course explores the concepts and standards of internal auditing and their applications. Topics include the discussion of the nature and environment of internal auditing, disciplines related to internal auditing, internal auditing process and the organization and administration of an internal auditing department.

Prerequisites: ABF-350 minimum grade of C and ACTG-307 minimum grade of C.

ACTG-319. Fraud Examination. 3 Hours.

This course is designed to introduce students to basic topics associated with fraud involving accounting information. It provides an overview of techniques to detect fraud, procedures to assess fraud risk, and measures to deter and prevent fraud.

Prerequisite: ACTG-321 minimum grade of C.

ACTG-321. Intermediate Financial Accounting I. 3 Hours.

This is the first course in the professional financial accounting sequence. This course emphasizes the conceptual framework underlying financial accounting, preparation of financial statements, and the accounting treatment of current assets, long-term assets, and current liabilities.

Requirement: All Foundation Courses including ACTG-202

Prerequisite: ACTG-202 minimum grade of C.

ACTG-322. Intermediate Financial Accounting II. 3 Hours.

This is the second course in the professional financial accounting sequence. This course emphasizes long-term liabilities, equity, revenue recognition and the statement of changes.

Prerequisite: ACTG-321 minimum grade of C.

ACTG-324. Advanced Financial Accounting IV. 3 Hours.

This is the third course in the professional financial accounting sequence. This course emphasizes consolidations for large multi-national and domestic corporations. Prereq.: ACTG-322.

Prerequisite: ACTG-322 minimum grade of C.

ACTG-325. Contemporary Financial Accounting Issues. 3 Hours.

The course covers an in-depth investigation of contemporary accounting issues and problems, including analysis and evaluation of most recent accounting pronouncements and articles in major accounting journals.

Prerequisite: ACTG-322 minimum grade of C.

ACTG-380. International Accounting. 3 Hours.

This course is concerned with an examination of the environmental factors affecting accounting concepts and standards. Differences in the cultural, social, political, legal and economic environment are the determining factors in the selection of accounting concepts and standards. Coverage will include country and regional studies and accounting problems related to multinational businesses such as foreign currency translation.

Prerequisite: ACTG-322 minimum grade of C.

ACTG-382. Internship In Accounting. 3 Hours.**ACTG-383. Internship In Accounting. 4 Hours.****ACTG-384. Internship In Accounting. 5 Hours.****ACTG-385. Internship In Accounting. 6 Hours.****ACTG-386. Independent Study In Accounting. 3 Hours.****ACTG-387. Independent Study In Accounting. 2 Hours.****ACTG-388. Independent Study In Accounting. 1 Hour.****ACTG-400. Fundamentals Of Accounting. 4 Hours.**

This course is designed for graduate students with no prior knowledge of accounting. Students will study and obtain an overall fundamental understanding and appreciation of the use of accounting information for making business decisions. This is a condensed, fast-paced course that addresses the topics of financial accounting for external reporting and managerial accounting for internal planning, control and decision-making of business operations.

ACTG-402. Managerial Accounting. 3 Hours.

This course focuses on managerial accounting. Managerial accounting is a company's internal language. It emphasizes the use of accounting information for planning, control, and decision making. Topics include relevant costing, cost behavior analysis, product costing, budgetary control, and performance evaluation. Prereq.: ACTG-400 or equivalent and graduate standing.

Prerequisite: ACTG-400 minimum grade of C.

ACTG-406. Governmental & Not-For-Profit Accounting. 3 Hours.

The course is designed to introduce students to the requirements of accounting for not-for-profit and federal, state, and local governmental entities. These entities are required to follow the pronouncements of either the Financial Accounting Standards Board or the Government Accounting Standards Board. The financial accounting and reporting concepts, standards and procedures applicable to federal, state, and local governmental entities and not-for-profit organizations will be discussed.

Prerequisite: ACTG-400 minimum grade of C.

ACTG-407. Auditing Theory And Practice. 3 Hours.

Integrates accounting standards, accounting systems, internal control structures and the dual auditing functions of obtaining and evaluating evidence- all within the context of a professional environment.

Prerequisite: ACTG-421 minimum grade of C.

ACTG-408. Information Technology Auditing. 3 Hours.

The purpose of this course is to teach students how to audit computer-based accounting information systems; therefore, this course focuses on evaluation of accounting systems controls, tests accounting data integrity, and discusses the nature and use of expert systems in accounting with emphasis on their use as an audit tool.

Prerequisite: ACTG-307 minimum grade of C.

ACTG-409. Forensic And Investigative Accounting. 3 Hours.

This course is designed to introduce students to basic topics associated with forensic and investigative accounting. It helps students to understand and design procedures related to fraud detection, computing economic damages, and business valuation, among other topics. To enroll in this course, you must have completed ACTG-307, with a graduate standing. If you have not met these prerequisites, you must withdraw from this class. Students who do not meet the course prerequisites and who do not drop voluntarily during the first week of class will be administratively withdrawn later in the semester.

Prerequisite: ACTG-307 minimum grade of C.

ACTG-410. Seminar In Tax Planning. 3 Hours.

This course focuses on a managerial approach to taxation through emphasis on major provisions of the income tax law and related administrative and judicial rulings as they affect business transactions. This course also includes consideration for the tax structure and its role as a tool for business planning.

Prerequisite: ACTG-400 minimum grade of C.

ACTG-412. Accounting For Planning And Control. 3 Hours.

This course provides for systematic and in-depth discussion and analysis of various accounting models which are useful to organizational planning and control, including the role of accounting systems in developing and refining data necessary for cost and managerial planning.

Prerequisites: ACTG-401 minimum grade of C and ACTG-402 minimum grade of C.

ACTG-421. Current Topics In Financial Accounting. 3 Hours.

This course provides a conceptual framework for current issues in financial accounting measurement and reporting, and valuation of assets, liabilities and income determination and other necessary disclosures of financial information.

Prerequisite: ACTG-400 minimum grade of C.

ACTG-422. Financial Statement Analysis. 3 Hours.

This course is designed to prepare students to interpret, analyze and evaluate corporate financial statements effectively for the purpose of reaching informed lending, investment, and other business related decisions. Topics include overview of financial statements, assessment of accounting quality, tools of profitability and risk analysis, preparation of forecasted financial statements, and firm valuation models. Prereq.: ACTG-400 or equivalent and graduate standing.

Prerequisite: ACTG-421 minimum grade of C.

ACTG-430. Research Methodology In Accounting. 3 Hours.

Provides a thorough understanding of research methodologies in accounting. The approach is to take a central research question and pursue its dimensions which include: importance of the question posed, the research design to evaluate that question, threats to the credibility of potential inferences drawn, research types that could be applied to the same question, and challenges in communication and interpretation.

Prerequisite: ACTG-400 minimum grade of C.

ACTG-440. Tax Research And Procedure. 3 Hours.

The purpose and methods of conducting tax research and communicating tax research conclusions. The course will focus on Internal Revenue practice and procedures, tax policy, issues in taxpayer compliance, and tax payer and tax preparer responsibilities will also be addressed. Graduate Standing.

Prerequisite: ACTG-310 minimum grade of C.

ACTG-441. Estate, Gift And Trust Taxation. 3 Hours.

Current laws, cases, rulings and regulations useful for estate planning purposes are discussed. Topics include estate valuation, gift planning, estate planning and trusts, life insurance, joint tenancy, powers of appointment, pre-marital and marital dissolution agreements, community property, and generation-skipping transfer tax. Planning for estate tax minimization will be emphasized.

Prerequisite: ACTG-410 minimum grade of C.

ACTG-451. Accounting Information Systems. 3 Hours.

In-depth coverage of the concepts and techniques underlying the development, use and control of computerized accounting information systems are evaluated. Focus is on the understanding of accounting information and accounting information systems, and the underlying theory and practice of internal control systems. Particular emphasis will be placed on how information systems, including spreadsheets, databases, and other information technologies, serve as the basis for the functional areas of accounting and business through a case study approach. Prereq.: ACTG-400 or equivalent and graduate standing.

Prerequisite: ACTG-400 minimum grade of C.

ACTG-480. Issues In International Accounting And Multinational Business Operations. 3 Hours.

In-depth discussions of accounting issues and problems faced by companies with multinational operations. Topics include issues related to foreign currency translator, consolidation of foreign subsidiaries, foreign investment, international transfer pricing, analysis of foreign investment. Issues in the ethical conduct of multifunctional operations and in the Foreign Corrupt Practices Act will also be discussed.

Prerequisite: ACTG-421 minimum grade of C.

ACTG-500. Project. 3 Hours.

Approval of major advisor is necessary.

ACTG-501. Thesis. 3 Hours.

Approval of major advisor is necessary.

Business Law

BLAW-109. First Year Experience: Professionalism, Ethics, Law & Chicago Scandals. 3 Hours.

This course examines the intersection between professionalism, ethics and law from a business perspective. We will look at these issues through the lens of major business-related Chicago scandals, predominantly non-political, and we will take multiple trips to visit some of the actors involved in these scandals, such as judges, lawyers and businessmen, who will further inform students about the importance of professionalism, ethics and compliance with laws. The topics covered in this course include defining professionalism, comparing professionalism to ethics, critically evaluating the differences and the importance of both, and discussing the legal process as it applies to white collar crimes.

BLAW-285. Legal Environment Of Business. 3 Hours.

This survey course traces the history and development of the legal environment of business. Topics include elements of the law and the judicial process, elements of traditional business law, and the government regulation of business. Prereq.: 30 credit hours of college work.

BLAW-310. Legal Issues In International Business Transactions. 3 Hours.

The study of laws, policies, and institutions associated with international business practice, including the international sale of goods, multimodal transportation and logistics, international and regional trade agreements, U.S. import/ export regulation, and transnational dispute resolution.

Requirement: Completion of all foundation courses required for COBM majors

Prerequisite: BLAW-285 minimum grade of C.

BLAW-380. Business Law I. 3 Hours.

The study of the law of contracts, including mutual assent, consideration, legality, capacity, statute of frauds, third parties, performance, breach, discharge, and remedies; UCC sales, including transfer of title, risk of loss, bulk sales, product liability and strict liability.

Prerequisite: BLAW-285 minimum grade of C.

BLAW-381. Business Law II. 3 Hours.

Continuation of BLAW-380 and covers: Agency, partnerships, corporations and UCC commercial paper. The rights and liabilities of corporate and partnership forms of business organization are covered. Negotiation, warranties, holder in due course, bank items are covered as part of UCC commercial paper.

Prerequisite: BLAW-285 minimum grade of C.

BLAW-383. Legal Aspects Of Entrepreneurship. 3 Hours.

This course offers a framework for understanding legal aspects of entrepreneurial process. Topics include selecting a business form, obtaining financial capital, marshaling human resources, securing and protecting intellectual property rights, anticipating and managing risks, and engaging in e-commerce.

BLAW-384. Labor & Employment Law. 3 Hours.

The course provides a broad overview of major areas of law concerning the regulation of the workplace, including the law of labor relations. The course focuses primarily on federal laws governing employment and examines specific employment issues, such as unfair labor practices, regulation of union activities, discrimination laws, pay equity laws, employee privacy topics, wage and hour laws, dispute settlement laws, health and occupational safety laws, and employment relations laws.

BLAW-400. Legal Environment Of Business And Management. 2 Hours.

This course centers on the American legal system as one sphere of influence in the business operations of an organization. Topics include anti-trust laws, mergers and acquisitions, securities regulations, equal employment, and labor management regulations, product liability, and consumer protection. Litigation and arbitration as methods for resolving disputes are also covered. The social responsibilities, ethical concerns, and dilemmas of the organization's manager are stressed as part of the practical decision making environment.

BLAW-410. International Business Law. 3 Hours.

This course will include material on the international legal environment, international economic associations, such as WTO, conflicts of law, international contracting, letters of credit, exporting/importing issues, including tariffs and other aspects of international business transactions. The purpose is to prepare an MBA student to be able to understand the legal issues that are involved in international business transactions.

Finance

FINA-109. First Year Experience: Financial Literacy And Making Smart Financial Decision In Chicago. 3 Hours.

In this course the four foundations (Future planning, Academics, Self-discovery and Transitions) of the First-year Experience are interwoven with the field specific concepts of financial literacy. Students will be introduced to basic knowledge and skills to manage their financial resources effectively in college and beyond. Students will learn to understand the importance of financial literacy, identify important personal financial goals, and develop financial planning skills to achieve goals such as college financing, debt repayment, investment and retirement planning. Livelihood in Chicago is incorporated throughout the course to aid students to make better and more informed personal finance decisions in Chicago.

FINA-309. Foundations In Personal Finance. 3 Hours.

This course introduces knowledge and skills necessary to understand, plan, and manage personal financial affairs. Topics include cash management, budgeting, goal attainment, spending and credit, insurance, tax, and savings and investing. This course will provide a foundational understanding for making informed and responsible personal financial decisions.

FINA-360. Principles Of Financial Management. 3 Hours.

The purpose of this course is to provide a broad overview of the fundamental concepts in financial management such as creation of value for the shareholders, ratio analysis, time value of money, stock and bond valuation, risk and return, cost of capital and capital budgeting.

Requirement: All Foundation Courses completed

Prerequisite: ACTG-201 minimum grade of C.

FINA-362. Investment. 3 Hours.

An introduction to financial markets. Particular emphasis is placed on valuation and the characteristics of different financial assets.

Prerequisite: FINA-360 minimum grade of C.

FINA-363. Security Analysis. 3 Hours.

This course analyzes the factors affecting the market valuation of securities utilizing fundamental analysis and modern portfolio theory.

Prerequisite: FINA-360 minimum grade of C.

FINA-364. Problems In Business Finance. 3 Hours.

This course, employing the case method, is designed to help the student through problem-solving as well as learning skills for making financial decisions for corporations.

Prerequisite: FINA-360 minimum grade of C.

FINA-365. Personal Financial Planning. 3 Hours.

This course is a broad-based introduction to a wide range of personal financial topics, including setting financial goals, budgeting, saving and credit management, insurance, tax planning, asset acquisition, investments, and retirement planning. It will provide the informational and decision-making tools needed for implementing a sound personal financial plan. Prereq.: MATH-165 and FINA-360.

Prerequisites: (MATH-110 minimum grade of C or MATH-165 minimum grade of C) and FINA-360 minimum grade of C.

FINA-366. Financial Institutions And Markets. 3 Hours.

The course is designed to provide students with a broad and integrated view of the concepts and principles of the financial system as well as an understanding of pertinent issues faced by different types of financial institutions. Prereq.: FINA-360.

Prerequisite: FINA-360 minimum grade of C.

FINA-367. Short-Term Financial Management. 3 Hours.

This course focuses on short-term assets and liabilities and discusses the implications of short-term financial management from the perspective of value creation. It also develops skills useful to a bank loan officer, a credit analyst, a cash manager, or a corporate treasurer. Prereq.: FINA-360.

Prerequisite: FINA-360 minimum grade of C.

FINA-368. Financial Management Of Financial Institutions. 3 Hours.

The objective of this course is to expose the student to the techniques of financial management employed by the financial institutions and other financial intermediaries. The course emphasizes the use of tools for decision making within a financial institution framework which is in a state of transition.

Prerequisite: FINA-360 minimum grade of C.

FINA-369. Speculative Markets. 3 Hours.

This course reviews the mechanics of the major futures contracts: commodities, financial, stock index, and currency futures. Particular emphasis is placed on hedging price risk with futures contracts, and speculating with futures and options contracts. The student is expected to complete a project involving a simulated trading game involving futures and options. Prereq.: FINA-360.

Prerequisite: FINA-360 minimum grade of C.

FINA-370. Option Pricing: Theory And Strategic Applications. 3 Hours.

The course is designed to familiarize students with the theoretical foundations of options pricing. This knowledge is then used to design strategies for profiting from mispriced options. Mathematical complexity will be kept to a minimum. The use of personal computers as decision-making aids will be strongly emphasized.

FINA-371. International Financial Management. 3 Hours.

The course focuses on the international aspects of finance management. Particular emphasis is placed on the control of exchange rate risk and financing multinational corporations.

Prerequisite: FINA-360 minimum grade of C.

FINA-372. Portfolio Management. 3 Hours.

The course covers the theory and the techniques of portfolio management. Particular emphasis is placed on definition of objectives for and the construction of portfolios. This course prepares the student for the first CFA exam.

Prerequisites: FINA-360 minimum grade of C and MNGT-368 minimum grade of C.

FINA-373. Intermediate Financial Management. 3 Hours.

This course is an extension of FINA-360. It seeks to build upon the theoretical framework developed in FINA-360, enabling students to acquire new conceptual and applied knowledge of corporate finance. The course covers, among other topics, advanced issues in capital budgeting, optimal capital structure theory, debt policy, dividend policy, buy versus lease decisions, current asset management, mergers, bankruptcies and reorganizations.

Students are expected to have a familiarity with a spreadsheet package.

Prerequisite: FINA-360 minimum grade of C.

FINA-374. Futures Trading Strategies. 3 Hours.

The course is designed to emphasize the practical, rather than theoretical, aspects of futures markets. Students will be exposed to technical analysis, mechanical system development, and to disciplined money management techniques. The student is expected to participate in a simulated trading game involving futures. Prereq.: FINA-360.

Prerequisite: FINA-360 minimum grade of C.

FINA-375. Debt Markets And Portfolio Strategies. 3 Hours.

The first part of the course is designed to introduce students to some of the very recent innovations in the fixed-income securities market, as for example, zero coupon bonds, floating rate notes and convertible issues. The next segment familiarizes students with portfolio management considerations unique to debt instruments. Mathematical complexity, though inevitable, will be kept to a minimum.

Prerequisite: FINA-360 minimum grade of C.

FINA-376. Technical Analysis Of The Futures Market. 3 Hours.

This course will enable students to read and interpret futures price charts. Technical analysis (as opposed to fundamental analysis) stresses the information content of part and price data and is based on the premise that prices do not always move randomly. Students believing in this underlying philosophy ought to benefit from this course.

Prerequisite: FINA-360 minimum grade of C.

FINA-377. Real Estate Finance. 3 Hours.

The primary objective of this course is to provide an overview of real estate finance. This course involves an exploration of the characteristics, institutions, and markets through which financing of real estate occurs. This course focuses on the dynamic changes that have occurred in the real estate field in the past few years and also assess the impact that these changes have had on both the availability and costs of mortgage debt and the risks associated with its use.

Prerequisite: FINA-360 minimum grade of C.

FINA-378. Introduction To Risk Management And Insurance. 3 Hours.

The individual, family, business entity, and society are all exposed to accidental loss events that may have a significant bearing on their financial, analyzing, controlling, financing, and monitoring these loss exposures. The primary focus of this introductory course is to provide an understanding of the various risks that businesses and individuals are exposed to and the alternative methods that are available to manage these risks.

Prerequisite: FINA-360 minimum grade of C.

FINA-380. Entrepreneurial Finance. 3 Hours.

This course offers a framework for understanding fundamentals of entrepreneurial finance. Topics include introduction to entrepreneurial finance, financial statement analysis, cash flow management, valuation of business, raising capital, debt financing, equity financing and other sources of funding.

Prerequisite: ACTG-201 minimum grade of C.

FINA-382. Internship In Finance. 3 Hours.**FINA-383. Internship In Finance. 4 Hours.****FINA-384. Internship In Finance. 5 Hours.****FINA-385. Internship In Finance. 6 Hours.****FINA-395. Independent Study In Finance. 3 Hours.****FINA-396. Independent Study In Finance. 2 Hours.****FINA-397. Independent Study In Finance. 1 Hour.****FINA-400. Fundamentals Of Financial Management. 2 Hours.**

This course centers on corporate financial management, providing students with an overview of essential financial concepts such as time value of money, the relation between risk and return, stock valuation, bond valuation, and the analysis of corporate financial performance.

Prerequisite: ACTG-400 minimum grade of C.

FINA-402. Issues In Corporate Finance. 3 Hours.

This course provides a broad exposure to the principles and techniques of Financial Management. The course discusses how important areas in Financial Management, namely, the Investment Decision, Financing Decision, and Payout Decision can contribute to the goal of shareholder value creation, from a domestic and international perspective. Prereq.: FINA-400 or equivalent and graduate standing.

Prerequisite: FINA-400 minimum grade of C.

FINA-460. Financial Management. 3 Hours.

Prerequisite: MNGT-368 minimum grade of C.

FINA-462. Investment Strategies. 3 Hours.

This course provides an overview of investing with an emphasis on the fundamental approach to investing. Students will be exposed to modern portfolio theory and its implications and gain an understanding of asset pricing models, bond portfolio management strategies, and equity portfolio management strategies. Prereq.: FINA-400 or equivalent and graduate standing.

Prerequisite: FINA-460 minimum grade of C.

FINA-469. Mergers And Acquisitions. 3 Hours.

This course involves an examination of the key elements of the mergers and acquisitions process. It provides the analytical framework and vital tools necessary to successfully plan and execute mergers, acquisitions, and corporate restructuring. One key goal of this course is for the students to develop a critical appreciation of the key financial and strategic criteria in a proposed acquisition. The primary purpose of this course is to make sure students understand what works and what does not, in the world of mergers and acquisitions.

Prerequisite: FINA-400 minimum grade of C.

FINA-470. Corporate Financial Strategy. 3 Hours.

Corporate financial strategy in practice is emphasized in this course. Topics to be discussed include: (a) financial planning, (b) strategies for raising capital, (c) strategies for allocating capital among different uses, and (d) strategies for working capital management.

Prerequisite: FINA-400 minimum grade of C.

FINA-471. International Financial Management. 3 Hours.

This course emphasizes the theoretical concepts of international finance such as currency arbitrage and interest rate parity and their practical ramifications. Particular emphasis is placed on the hedging of exchange risks for importers and exporters, swap financing, international capital budgeting, and the cost of capital for local and foreign currency borrowing. Prereq.: FINA-400 or equivalent and graduate standing.

Prerequisite: FINA-400 minimum grade of C.

FINA-474. Seminar On Futures And Options Markets. 3 Hours.

This seminar provides an overview of the commodity/financial futures and options markets. Particular emphasis is placed on hedging price risk with futures contracts, valuing options contracts, and speculating with trading strategies involving futures and options contracts. The course will emphasize trading strategies using the futures and options markets with the help of a simulated trading game. Prereq.: FINA-400 or equivalent and graduate standing.

Prerequisite: FINA-400 minimum grade of C.

FINA-475. Management Of Financial Institutions. 3 Hours.

This course focuses on the application of traditional finance concepts to the management of commercial banks and other depository intermediaries, which are part of the Financial Services Industry, operating in domestic and international markets.

Prerequisite: FINA-400 minimum grade of C.

FINA-500. Project. 3 Hours.

Approval of major advisor is necessary.

FINA-501. Thesis. 3 Hours.

Approval of major advisor is necessary.

Major in Accounting

University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Master of Science in Accounting (MSA) Program

The Accounting MS Program prepares students for the changing accounting profession of the new millennium. The Accounting MS Program provides students with a balanced, rigorous, and in-depth core-course exposure that covers financial accounting, managerial accounting, auditing, income taxation, and research methodology. The Accounting MS program also exposes students to non-accounting fields so that graduates from the program can make decisions in multi-disciplinary business environments. In addition, **the program enables students to meet the 150 credit hours requirement for the CPA exam in the states which have enacted this legislation.** The program consists of curricular studies of 30 credit hours in the Accounting Core and Elective Curriculum.

Admission to the Accounting MS Program

The Accounting MS Program is open to applicants who hold a bachelor's degree from a regionally-accredited college/university or recognized international institution. Acceptance to the Accounting MS Program is contingent upon either: a bachelor's degree in Accounting from a regionally-accredited college/university or recognized international institution; or successful completion of the equivalent content of (1) BLAW 285 The Legal Environment of Business, and (2) the following five undergraduate-level accounting courses:

- ACTG 301 Cost Accounting
- ACTG 307 Auditing Theory and Problems
- ACTG 310 Federal Income Tax (Individual)
- ACTG 321 Intermediate Financial Accounting I
- ACTG 322 Intermediate Financial Accounting II

Each application is evaluated on the basis of: (1) transcripts of all prior undergraduate and graduate coursework; (2) performance on the Graduate Management Admissions Test (GMAT) or Graduate Records Exam (GRE); (3) a statement of career goals and objectives; (4) two letters of recommendation; and (5) curriculum vitae (C.V.) and any other evidence that can help the committee assess the applicant's qualifications. International applicants are required to submit a minimum Test of English as a Foreign Language (TOEFL) score of 550 on the paper-based test (or, equivalently, 213 on the computer-based test, or 79 on the internet-based test). A minimum score of 6.5 on International English Language Testing System (IELTS) is also acceptable in lieu of TOEFL. All transcripts from foreign countries must be professionally evaluated on a course-by-course basis by Educational Credential Evaluators (ECE) or World Education Services (WES).

The Accounting MS program requires an undergraduate cumulative GPA of at least 2.75 (on a 4.0 scale) and a GMAT score of at least 450 or an equivalent GRE score computed using the published GRE conversion table (generally, 149 on each part of GRE is equivalent to 450 on GMAT).

Minimum competency in Mathematics (i.e., Finite Mathematics, Business Calculus, or their equivalent) will be expected before entry into the program. Those who have not acquired appropriate mathematical skills as part of their undergraduate programs may be required by the Graduate Program Coordinator to take appropriate remedial course(s).

Admission to provisional status:

Applicants may be admitted to provisional status if their GPA is slightly below the minimum requirement as specified above, provided that the composite index score calculated following the formula below is greater than or equal to 1,000.

$$\text{Composite index score} = (\text{GPA} \times 200) + \text{GMAT score (or equivalent GMAT score in the case of GRE)}$$

Each applicant admitted to provisional status is required to obtain a letter grade of B or A in all courses in the first 9 credit hours.

Exceptions policy for GMAT/GRE:

An applicant may request a GMAT/GRE waiver during the application process, if one of the following three conditions is satisfied.

1. An advanced degree (e.g., masters or higher) from a U.S. regionally-accredited institution with a GPA of 3.5 or higher;
2. A combination of an undergraduate GPA of 3.25 or higher from a U.S. regionally-accredited institution, at least five years of management experience, and at least 7 years of working experiences in total;
3. A combination of an undergraduate GPA of 3.25 or higher from a U.S. regionally-accredited institution, and active (or current) certification of ongoing continuing education (i.e., CPA, CMA, CIA, PHR, SPHR)).

If, upon review by the Admissions Committee, the applicant is considered admissible without a GMAT/GRE score, then the GMAT/GRE requirement will be waived. An applicant may also request personal interview.

Note: A GMAT preparation course is available through the Office of Community and Professional Education (<http://www.neiu.edu/academics/college-of-business-and-management/graduate-programs-business/gmat-preparation-course/>).

Course Scheduling

All graduate courses being offered are scheduled on the evenings of workdays most of the time and on Saturday occasionally. The College of Business and Management makes an effort to schedule the graduate courses by following a predictable pattern. Students are cautioned to make course choices carefully and plan well in advance so that program completion will not be delayed.

Additional information for the MSA Program can be found on the website of the College of Business and Management (<http://www.neiu.edu/academics/college-of-business-and-management/>).

MS in Accounting Program Requirements

Accounting Cores --- 15 cr.

All Accounting MS students are required to take the following five core courses.

Code	Title	Hours
ACTG-407	Auditing Theory And Practice	3
ACTG-412	Accounting For Planning And Control	3
ACTG-421	Current Topics In Financial Accounting	3
ACTG-430	Research Methodology In Accounting	3
ACTG-440	Tax Research And Procedure	3
Total Hours		15

Accounting Electives --- 9 cr.

Each Accounting MS student is required to take three elective courses from the list below.

Code	Title	Hours
ACTG-406	Governmental & Not-For-Profit Accounting	3
ACTG-408	Information Technology Auditing	3
ACTG-409	Forensic And Investigative Accounting	3
ACTG-410	Seminar In Tax Planning	3
ACTG-422	Financial Statement Analysis	3
ACTG-441	Estate, Gift And Trust Taxation	3
ACTG-451	Accounting Information Systems	3
ACTG-480	Issues In International Accounting And Multinational Business Operations	3
ACTG-500	Project	3

Non-Accounting Electives --- 6 cr.

Each Accounting MS student is required to take two non-accounting elective courses from the list below.

Code	Title	Hours
BLAW-410	International Business Law	3
FINA-460	Financial Management	3
FINA-462	Investment Strategies	3
FINA-469	Mergers And Acquisitions	3
FINA-470	Corporate Financial Strategy	3
FINA-471	International Financial Management	3
FINA-474	Seminar On Futures And Options Markets	3
FINA-475	Management Of Financial Institutions	3
MNGT-474	Human Resources Policy And Decision Making	3
MNGT-480	Entrepreneurship	3
MNGT-481	International Management	3
MNGT-487	Strategy And Organization	3
MNGT-489	Management Of Organizational Change	3
MNGT-490	Innovation And Creativity	3
MKTG-451	Consumer Behavior And Marketing Action	3
MKTG-453	Marketing Research - Techniques And Applications	3

MKTG-456	Channel Distribution And Retailing	3
MKTG-458	Global Marketing	3
MKTG-461	Services Marketing Management	3

Managerial Competencies

Prior to enrolling in the Accounting MS cores and/or electives, students must demonstrate certain managerial competencies. This requirement can be fulfilled by completing, with an average GPA of 3.0 or higher, four graduate-level courses given below:

- COBM 401 Accounting for Managers
- COBM 402 Business Economics and Finance for Managers
- COBM 403 Topics in Management and Marketing
- COBM 404 Business Statistics and Operations Decisions for Managers

The managerial competencies can also be satisfied by having successfully completed equivalent coursework from a regionally-accredited institution. For example, the corresponding conversion table for NEIU undergraduate coursework is given below.

Graduate-Level Courses	Prior Coursework at Undergraduate Level
COBM-401 Accounting for Managers	ACTG-201 and ACTG-202
COBM-402 Business Economics and Finance for Managers	FINA-360 and ECON-215
COBM-403 Topics in Management and Marketing	MNGT-370 and MKTG-350
COBM-404 Business Statistics and Operations Decisions for Managers	MNGT-368 and MNGT-377

General Education Distribution Area	Cr. Hrs.
Fine Arts (FA)*	6
2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	
Humanities (HU)*	9
3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	
Behavioral/Social Sciences (SB)*	9
3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	
Natural Sciences (NS and NSL)**	9
3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	

Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

** Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/archive/2019-2020/graduation-requirements/bachelors-degree/>)

Minor in Accounting requirements

This minor provides the background for professional entry level positions in accounting.

Code	Title	Hours
Required Courses		
ACTG-301	Cost Accounting I	3
ACTG-307	Auditing Theory And Problems	3
ACTG-310	Federal Income Tax (Individual)	3
ACTG-321	Intermediate Financial Accounting I	3
ACTG-322	Intermediate Financial Accounting II	3
Select two of the following:		6
ACTG-306	Accounting For Non-Profit Organizations	
ACTG-311	Federal Income Tax (Corporate)	
ACTG-312	Cost Accounting II	
ACTG-324	Advanced Financial Accounting IV	
ACTG-325	Contemporary Financial Accounting Issues	
Total Hours		21

Minor in Finance

Total Hours		21

Management and Marketing

Management is the art and science of managing and leading people, organizations and businesses. The central function of management is to create and maintain a productive and constructive environment for reaching organizational goals in an effective and efficient way. Majors will learn the theory and practice of management by studying organizations, entrepreneurship, production and operations management, international business and management, leadership, human resource management, management of change, and many other related topics as they pertain to the management of all sizes of organizations in both for profit and non-profit sectors. Management preparation can be applied in many areas; therefore, students majoring in this field may find jobs in a variety of industries and organizations. Examples include:

- human resource management specialists,
- production and inventory control specialists,
- quality assurance analysts,
- production planners,
- unit managers,
- retail management,
- management consulting and
- management trainees in a number of organizations.

Marketing is an essential function in any business; it deals with the strategic and tactical planning activities of organizations which develop, price, promote, and distribute goods and services aimed at meeting the needs of customers through commercial exchanges. The marketing courses are designed to provide students with a foundation of marketing theory and practice in manufacturing and service organizations in both for profit and non-profit sectors. Students majoring in marketing can choose from a variety of career areas. Examples include:

- personal selling,
- retail management,
- distribution planning,
- customer service,
- advertising/sales promotion,
- product/brand management,
- digital and social media marketing
- telemarketing, and
- franchise unit management.

Management

MNGT-201. Introduction To Business. 3 Hours.

The course provides a general overview of the field of business. Major components of business activity such as management, marketing, accounting, finance, and operations will be discussed. The course will enable students to identify potential careers or advanced coursework in business.

MNGT-350. Introduction To Entrepreneurship. 3 Hours.

The course provides a general overview of the field of entrepreneurship. The focus is on introduction to entrepreneurship from the perspectives of start-up entrepreneurs and early stage investors. Special consideration is given to the processes of entrepreneurial mindset, design thinking, proof-of-concept testing and product-market fit. The course will enable students to identify potential ideas for advanced coursework in entrepreneurship.

MNGT-354. Logistics Management. 3 Hours.

Introduction to the business logistics environment. Detailed coverage of the use of concepts and quantitative techniques in facility location, distribution, warehousing, scheduling, order processing, storage, material handling and other logistics design and operating decisions.

Prerequisite: MNGT-377 minimum grade of C.

MNGT-355. Creativity And Innovation. 3 Hours.

This course focuses on innovation and creativity from the perspectives of the organizations, teams and individual employees. Special consideration is given to the processes of creativity, the relationship between creativity and innovation, development of creativity, multiple facets of creativity, building and managing creative teams, and development of original thinking.

MNGT-368. Business Statistics. 3 Hours.

This course introduces students to both descriptive and inferential statistics as they apply to business. Its focus is on descriptive measures, probability concepts, discrete and continuous probability distributions, sampling distributions, estimation, hypothesis testing, and simple linear regression. Prereq.: MATH-165.

Prerequisite: MATH-165 minimum grade of C.

MNGT-370. Writing Intensive Program: Managing Global Business Organization. 3 Hours.

This course addresses four critical areas of the emerging management environment: globalization, diversity, leadership, and teamwork. Traditional and projected theories of organization management and organization behavior, as focused toward these four themes, are examined. Additionally, the writing intensive component of this course includes a variety of written communication activities to develop a discipline-focused writing skill.

Requirement: All foundation courses completed with a grade of C or better

Prerequisite: ENGL-101 minimum grade of C.

MNGT-371. Organizational Behavior. 3 Hours.

A broad survey analyzing the contributions of behavioral science to management and administration. Topics stressed are scientific method in organizational research, individual and group dimensions of organizational behavior, decision making, barriers to communication, work motivation, intergroup conflict, leadership, organizational climate and development, and analysis of power in organizations. Role playing, simulations, class exercises and case studies are used.

Prerequisite: MNGT-370 minimum grade of C.

MNGT-372. Organization Theory And Design. 3 Hours.

This course approaches the study of business organizations and their management from a macro perspective. The focus of organization theory is to study the structure and design of organizations. Students are presented with both the descriptive and prescriptive aspects of the discipline in order to provide insight into the planning and designing of organizations for effectiveness. Major topics include rational and social systems views of organizations; the social, technical, legal and economic environments of organizations; organizational characteristics such as size, technology, structure, climate and administrative philosophy; elements of organizational structure and design (authority structure); specialization; degree of centralization; policies; communication channels; and reward systems; organizational processes including goal setting; strategic planning; decision making; coordinating and controlling; and organizational survival.

Prerequisite: MNGT-370 minimum grade of C.

MNGT-373. Human Resource Management. 3 Hours.

Organization and operation of the personnel department. Role of the personnel department in the organization. Topics include task/job development (job analysis, job design, job specification, job enlargement, job enrichment, performance standards, work rules, work conditions); staffing the organization (recruitment, selection, placement, promotion, demotion, interviewing, testing); performance appraisal; training and development; compensation (wage and salary administration, supplementary benefits, incentives); collective bargaining (unionization, negotiation, grievance and arbitration); legal and other environmental issues are stressed.

Prerequisite: MNGT-370 minimum grade of C.

MNGT-374. Staffing & Selection. 3 Hours.

This course focuses on Staffing and Selection from the perspectives of the organization. Special consideration is given to the processes of Human Resource Planning, hiring, firing, the underlying legal environment, as well as ethical issues. The major topics include labor market, legal environment, HR planning, job analysis, measurement, recruiting, and selection. Prerequisites: (1) completion of at least 60 credit hours of course work, (2) completion of the eight 100-level and 200-level College of Business & Management Foundation courses, each with "C" or higher, and Foundation GPA of 2.50, and (3) MNGT-370 with a "C" or higher.

Prerequisite: MNGT-370 minimum grade of C.

MNGT-375. Management And Organization Communications. 3 Hours.

Formal structures, channels and mechanism for communication within the organization and its environment. Informal process of communication within the organization. Supervisory and management roles in organizational communication. Dynamics of communication in and between organization work units. Functional roles/ perspectives affecting organizational communications. Class exercises and case studies will be used.

Prerequisite: MNGT-370 minimum grade of C.

MNGT-376. Small Business Management. 3 Hours.

Application of management concepts and techniques to the small firm. Special attention will be given to the particular nature, opportunities, needs, and problems of small manufacturing, wholesale, retail, and business service firms. Topics include comparison of similarities, differences and relations between small and large firms, issues and methods in starting a small firm (including selecting the legal mode of organization, buying an existing firm, franchising); funding; risk and venture management for small firms; the role of local, state, and federal government. Case studies and field research may be included.

Prerequisites: FINA-360 minimum grade of C and MKTG-350 minimum grade of C and MNGT-370 minimum grade of C.

MNGT-377. Production/Operations Management. 3 Hours.

This course covers subjects related to the design of production, inventory and quality control systems. In the production systems design the following topics are covered: design of products and services, capacity planning, process design, work analysis and measurement, facility location, production scheduling. In the inventory control systems design the following issues will be discussed: relation of inventory system to the other functions of organizations, cost structure, deterministic and probabilistic control models. In the quality control design the following are covered: quality concept, statistical quality control methods such as control charts, sampling etc.

Prerequisites: MNGT-368 minimum grade of C and MNGT-370 minimum grade of C.

MNGT-378. Managing Diversity In Organizations. 3 Hours.

This class addresses the issues, knowledge, theories, and applications related to managing diversity in organizations. Topics covered in this class will enhance awareness of existence of diversity at the workplace and address approaches of creation of productive diverse workforce. Class discussion will include topics such as glass ceiling effect, stereotyping process, sexual harassment, work and family conflicts, and reverse discrimination. Readings related to the implementation of diversity training programs as well as fair recruitment and selection processes will be discussed.

Prerequisite: MNGT-370 minimum grade of C.

MNGT-379. Business Analytics. 3 Hours.

This application-based course covers descriptive, predictive, as well as prescriptive analytics. It focuses on data visualization, multiple regression, data mining, linear optimization models, integer linear optimization models, simulation and decision analysis.

Prerequisite: MNGT-368 minimum grade of C.

MNGT-380. Entrepreneurship. 3 Hours.

Examination of the entrepreneurial process and the role of entrepreneurship in new ventures and small businesses, obtaining financing for new businesses; marketing, R & D, and production of new products and services. Evaluation of the entrepreneurs and ways to encourage the entrepreneurial spirit in organizations of all sizes. Students will be required to write a realistic business plan.

Prerequisites: FINA-360 minimum grade of C and MKTG-350 minimum grade of C and MNGT-370 minimum grade of C.

MNGT-381. Managing International Business. 3 Hours.

This course examines the following issues: Brief history of international business and globalization; opportunities and risks arising out of the economic, political, and socio-cultural similarities and differences among countries or regions; the role of governments, international institutions and agreements such as trade agreements in facilitating or influencing international business; variety of international business transactions including international trade and foreign direct investment and factors to consider while selecting and managing one or more of these business transactions and doing business abroad including cross-cultural management of stakeholders.

Prerequisite: MNGT-370 minimum grade of C.

MNGT-382. Internship In Management. 3 Hours.**MNGT-383. Internship In Management. 4 Hours.****MNGT-384. Internship In Management. 5 Hours.****MNGT-385. Internship In Management. 6 Hours.****MNGT-386. Independent Study In Management. 3 Hours.****MNGT-387. Independent Study In Management. 2 Hours.****MNGT-388. Independent Study In Management. 1 Hour.****MNGT-390. Compensation Management. 3 Hours.**

This course provides students with a practical and theoretical understanding of compensation from the perspectives of managers (who make reward decisions), employees (who receive the rewards and are the "customers" of the reward system), and human resource practitioners (who assist in the design and maintenance of reward systems). It also provides an overview of the considerations necessary to develop a compensation system that is internally and externally equitable and fiscally responsible. Legislative and social issues affecting pay decisions and alignment of pay policies with business strategy and other human resource programs are also covered.

MNGT-392. Business, Technology And Society. 3 Hours.

Course deals with the environment of business. The role of technology in modern business organizations is considered as well as social change and social pressure on the business community. Other topics to be covered are the social responsibility of business; "The Social Adult" : its function in business organizations; managing modern business: changes and adaptability; technology transfer activities in modern business: the U.S. and developing countries' experiences.

Prerequisite: MNGT-370 minimum grade of C.

MNGT-393. Strategic Management. 3 Hours.

This advanced capstone course involves the study of the concepts and techniques of determining strategies and operational policies of business organizations. Primarily through the use of cases, student are exposed to theories of business policy, business environment, and the impact of different policy making scenarios on selected functions of the business organizations.

MNGT-399. Management Of Change. 3 Hours.

An advanced seminar course focusing on organizational change management by managers and employees who wish to initiate a change, are assigned responsibility to manage a change, or who are affected by change initiated by others. Major topics include: nature and dynamics of change and change management; dimensions of change; change management strategies; cycle theories; stability and change; resistance to change; the change manager as change agent or resister/defender.

Prerequisite: MNGT-370 minimum grade of C.

MNGT-401. Fundamentals Of Business Statistics. 2 Hours.

This course provides graduate students without a recent business academic background a foundation in the field of business statistics. It addresses the concepts of probability distributions and statistical inference and considers various methods of describing data, including the normal distribution. Statistical estimation, sampling and methods of testing hypotheses of means and proportions using various distributions are discussed. A brief consideration is given to quality control, analysis of variance, and linear regression.

MNGT-402. Applied Business Research. 3 Hours.

This course conveys the nature, purpose and method of applied business research for practicing managers and owner-operators and enables them to acquire research skills. Course topics include problem or project definition, data gathering, hypothesis testing, analysis of result, and developing and reporting of conclusions. Special attention is devoted to the communication process, reporting research findings at various stages, and the use of traditional and high-tech sources of business information.

Prerequisite: MNGT-401 minimum grade of C.

MNGT-403. Leadership And Organizational Behavior. 3 Hours.

This course addresses the concepts of perception, learning and motivation, and focuses on work-related attitudes and personalities of individual employees and managers. Organizational facets of stress, group dynamics and organization culture and socialization provide a foundation for the discussion of cooperation, conflict, and influence. The role of leaders and leadership upon organizational behavior and cultures is emphasized. Management communication methods and decision-making processes are considered.

MNGT-404. Productions And Operations Management. 3 Hours.

This course provides general coverage of production/operations management in organizations. Emphasis is placed on the application of the POM concepts to both goods and service organizations. The information presented is beneficial to students majoring in all of the business administration functional areas. The course covers production scheduling, materials management, facilities planning and layout, material productivity and quality control. Forecasting, scheduling, inventory and distributed modeling are discussed. Statistical process control is also presented.

Prerequisites: MATH-111 minimum grade of C and MNGT-401 minimum grade of C.
