In lieu of completing a full thesis, with faculty approval students may complete (1) an additional 3 credit hour course (e.g., PSYC-509) and (2) a 3 credit hour applied research internship (PSYC-5903). Students will be required to write an executive summary and do an oral presentation of their applied research internship. This non-Thesis option achieves the goals of the program and the field in training knowledgeable and competent researchers and practitioners.

# Minor in Gerontology

---

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6
<b>Humanities (HU)*</b> 3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	9
<b>Behavioral/Social Sciences (SB)*</b> 3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	9
<b>Natural Sciences (NS and NSL)**</b> 3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	9

### Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

### Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

### Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

### Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

\* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

\*\* Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/graduation-requirements/bachelors-degree/>)

## Minor in Gerontology (18 credit hours)

The minor in gerontology is designed to provide a broad, interdisciplinary introduction to various aspects of aging, and to prepare students to become professionals in aging-related fields. The minor consists of a core classroom component (12 credit hours), the field component (3 credit hours), and the interdisciplinary component (3 credit hours).

<b>Code</b>	<b>Title</b>	<b>Hours</b>
<b>Required Courses</b>		
PSYC-324	Geropsychology	3
PSYC-325	Psychosocial Development And Aging	3
PSYC-328	Seminar In Aging	3
PSYC-391	Field Experiences In Psychology I	3
One course in Research Methods		3
One interdisciplinary elective course from the department's approved list		3
<b>Total Hours</b>		<b>18</b>

# Social Work

---

The Social Work Program offers a Bachelor of Social Work (BSW) accredited by the Council on Social Work Education. The curriculum is designed to prepare beginning level generalist social work practitioners who are committed to the values and ethics of the profession and the provision of quality services to diverse clients. Coursework and field experiences expose students to a variety of social work settings and clients who represent diverse socio-cultural backgrounds.

The Social Work Program also offers a Masters in Social Work degree (MSW). The Masters degree program in social work is designed to prepare advanced social work practitioners who can serve vulnerable populations and contribute to their functioning and well-being. There are two levels of curriculum: the foundation and the advanced. The foundation curriculum consists of 30 credit hours, preparers done for generalist practice with individuals, groups, communities and organizations and is similar to the curriculum for the bachelor's degree in social work. The advanced level curriculum is built upon the foundation curriculum and prepares students for direct and indirect practice categorized as concentrations. The concentration offered is Practice with Vulnerable Populations.

The Social Work Program faculty members represent a number of practice perspectives and theoretical approaches as well as work with a variety of populations in the area of child welfare, family, immigration, mental health, domestic violence, and social justice issues.

- Major in Social Work (<http://catalog.neiu.edu/arts-sciences/social-work/social-work/>)
- Minor in Social Work (<http://catalog.neiu.edu/arts-sciences/social-work/minor-social-work/>)

## **SWK-200. Introduction To Social Work. 3 Hours.**

Overview of the social work profession, its philosophical basis, historical development and future growth; introduction to the concept of generalist practice.

## **SWK-202. Community Analysis. 3 Hours.**

Methods of conducting research on local communities and racial/ethnic backgrounds. Role of culture in human behavior and how one's culture interfaces with other cultures. This is a values and knowledge elective course.

**Prerequisite:** SWK-200 with a minimum grade of C.

## **SWK-203. Analysis Of Cross Culture Interaction. 3 Hours.**

This is a pre-practice elective. Development of sensitivity when interacting with persons of diverse racial- ethnic backgrounds. Role of culutre in human behavior and how one's culture interfaces with other cultures.

## **SWK-207. Social Welfare Policy I. 3 Hours.**

This course covers content on the history of social welfare, characteristics of current social welfare programs, and the social, economic, and political contexts of social welfare policy.

**Prerequisite:** SWK-200 (may be taken concurrently) with a minimum grade of C.

## **SWK-250. Issues In Social Service Delivery. 3 Hours.**

Covers major problems and issues in the field of social work. Topics vary. This is a values and knowledge elective course.

## **SWK-300. Human Sexuality And Social Work. 3 Hours.**

Knowledge of sexuality as it is expressed in a variety of lifestyles and the application of social work values and ethics when working with sensitive issues in sexuality. This is a values and knowledge elective course.

**SWK-301. Social Work And The Law. 3 Hours.**

This course will introduce and provide a basic understanding to the social work student of the law, legal processes, and legal systems as they relate to social work fields' of practice. This course will challenge students to consider and begin to understand how the fields of social work and law intersect. They will develop an understanding of how the practice of social work is continually influenced and, often time regulated, by legislative and judicial decisions. The student will begin to explore how to advocate within the legal system on behalf of the populations that they serve. This is a values and knowledge elective course.

**Prerequisite:** SWK-200 with a minimum grade of C.

**SWK-303. Writing Intensive Program: Human Behavior And The Social Environment I. 3 Hours.**

A first course of a two-part sequence designed to develop understanding about human behavior and the social environment. Students will enhance their critical thinking skills by focusing on analyzing how people understand themselves, how people create meaning in their lives, how people change, and how your own perspective influences understanding client-systems. The generalist practice model is used to understand the central principles of empowerment: client capacity, resiliency, opportunities, context, constitution and construction. As a writing intensive course students develop the fundamentals of professional writing skills for the social work field.

**Prerequisite:** SWK-207 with a minimum grade of C and SWK-200 with a minimum grade of C.

**Corequisites:** SWK-304, SWK-309.

**SWK-304. Social Work Practice I. 3 Hours.**

A first course in a two-part sequence designed to provide the student with a foundation in generalist social work practice i.e. knowledge, values and skills. The central premise is that generalist practice is about client empowerment through collaborative work with clients. This involves empowerment of clients through preparation for first contact, learning how to dialogue across client systems, learning how to define directions with the client and collaborating about the client needs and resources. Bridging knowledge from HUBSE I is done through practical application.

**Prerequisite:** SWK-200 with a minimum grade of C and SWK-207 with a minimum grade of C.

**Corequisites:** SWK-303, SWK-309.

**SWK-305. Social Work Practice II. 3 Hours.**

The second course of a two-semester practice foundation. Course content will focus on the social work processes of goal setting, application of models for action, and integrating gains in the generalist method of practice. The social worker's role and activities will be examined in light of the values and ethics of the profession, which includes conducting oneself as an ethnically sensitive worker with diverse client systems in the urban environment.

**Prerequisite:** SWK-200 with a minimum grade of C and SWK-207 with a minimum grade of C and SWK-303 with a minimum grade of C and SWK-304 with a minimum grade of C and SWK-309 with a minimum grade of C.

**Corequisites:** SWK-306, SWK-357.

**SWK-306. Human Behavior In The Social Environment II. 3 Hours.**

This is the second course in the Human Behavior and Social Environment (HBSE) foundation area. It is designed to examine the dynamic interplay between the individual's development and the functioning of groups, families, organizations and communities and builds on the objectives of SWK-303: HBSE I. Each unit integrates the student's knowledge about the generalist model, the concepts and assumptions within, understanding of the concept of self, the value of honoring diversity and the commitment of the social work profession to social and economic justice.

**Prerequisite:** SWK-303 with a minimum grade of C and SWK-304 with a minimum grade of C and SWK-309 with a minimum grade of C.

**Corequisites:** SWK-305, SWK-357.

**SWK-307. Services To Children & Adolescents. 3 Hours.**

This course focuses on culturally competent social work practice with children and adolescents living in diverse family arrangements. The continuum of services and resources available to children and adolescents and the roles and functions of the social worker in these settings are examined. Economic, social, and psychological concerns of vulnerable children are identified, and intervention strategies that will effectively meet these needs are addressed. Students are presented with specialized knowledge and skills essential for working with children and adolescents. Students will be exposed to fundamental training that prepares them for DCFS Licensure. This is a skills elective course.

**SWK-308. Social Work Practice With Immigrants & Refugees I. 3 Hours.**

Professional social work in the United States began in the late 19th century largely as a response to what was then the largest wave of immigration to this country. Jane Addams's Hull House settlement house served many of Chicago's newly arrived European migrants helping them adjust to life in their new home. Today, we are in the midst of another great wave of migrants; 12% of the U.S. population is foreign-born, representing over 35 million individuals. This group of immigrants are much more diverse racially, ethnically, and socio-economically than ever before. This diversity presents a unique set of challenges for policymakers and practitioners trying to facilitate their adaptation to the US. This course is thus designed to help students planning to work with foreign-born populations (and their offspring) gain the knowledge and skills necessary to address their needs. This is a values and knowledge elective course.

**Prerequisite:** SWK-200 with a minimum grade of C and SWK-207 with a minimum grade of C.

**SWK-309. Introduction To Social Work Research. 3 Hours.**

SWK-309 is the first of the three required research courses in the bachelor of social work (BSW) program. This course focuses on the foundation content in research methods and designs that may be utilized by social workers to evaluate practice and programs and to advance practice knowledge. Specifically, this course will (1) introduce students to the contributions of research to the social work profession; (2) enable students to develop and apply the scientific research method; (3) help students acquire a working knowledge of the research methods/research designs; and (4) help students learn how to critically analyze and evaluate social work research.

**Prerequisite:** SWK-200 with a minimum grade of C and SWK-207 with a minimum grade of C.

**Corequisites:** SWK-303, SWK-304.

**SWK-310. Research Seminar I. 3 Hours.**

This course is designed to prepare students to conduct qualitative and quantitative research in their field practicum agency. At the completion of the course each student will complete a detailed proposal for research that will be completed in the subsequent term. The course will cover the various approaches to qualitative and quantitative research methods. Special attention will be given to problem formulation, literature review, and data collection techniques.

**Prerequisite:** SWK-200 with a minimum grade of C and SWK-207 with a minimum grade of C and SWK-309 with a minimum grade of C.

**Corequisites:** SWK-353, SWK-355.

**SWK-311. Research Seminar II. 3 Hours.**

This course is designed to enable students to complete the research study that they proposed in SWK-310 – Research Seminar I. While some conceptual information will be provided, primary focus will be on the use of basic qualitative and statistical methods to complete the tasks of data collection, data analysis, interpretation and discussion of results, and presentation of completed research projects. Attention will be given to ethical considerations and considerations of race, gender, culture, and sexual orientation.

**Prerequisite:** SWK-310 with a minimum grade of C.

**Corequisites:** SWK-354, SWK-356.

**SWK-312. Women And Social Work. 3 Hours.**

Women and Social Work is an elective course focusing on women's issues in social work, both for women as social work practitioners and for women as clients/ participants in social service delivery systems. The course will cover aspects of feminist thought, non-sexist therapy, feminist therapy, sexist biases in research, feminist research in social work and social welfare policies and practice which have an impact on women. This is a values and knowledge elective course.

**SWK-313. Child Advocacy Studies: Assessment And Evaluation. 3 Hours.**

This course provides a survey of the emerging field of Child Advocacy Studies, which researches and seeks remedies for the maltreatment of children and youth, including specific acts of violence and neglect, in the context of the pernicious effects of racism, poverty, sexism, and heterosexism, including the unique problems faced by immigrant and displaced children. The course examines the various economic, political, social and cultural circumstances that may contribute to the abuse and maltreatment of children and youth. It also teaches students about the strategies and tactics used by various local governmental and nongovernmental agencies, courts and medical establishments to address these problems. This is an elective class for Social Work majors and minors, and one of the required courses in the sequence for a Child Advocacy Studies minor.

**SWK-314. Social Work Advocacy. 3 Hours.**

This course is designed to enhance students' understanding of social work advocacy. It is an elective course and is geared to develop an awareness about social work advocacy and its role in: organizational change, political campaigns and lobbying. This is a values and knowledge elective course.

**SWK-315. Recidivism And Reentry From Social Work Perspectives. 3 Hours.**

In this class, students will explore the reasons for mass incarceration and the changing population of incarcerated people from a social work perspective. Recidivism will be defined and explored using social work terminology and concepts. In particular, this class considers how incarcerated people re-enter society: how they obtain housing, find jobs, create community, and navigate legal issues and social services associated with parole and probation. The class will explore the Communities most impacted by mass incarceration, and will analyze the complexity and layers of re-entering society for those who have been confined by the state.

**SWK-320. Domestic Violence Social Work:Theory And Practice. 3 Hours.**

This course will explore the theory and research on the causes of abuse, including individual and family factors, intergenerational aspects, gender issues, community and societal influences, as well as cultural factors. Strategies and treatment for alleviating family violence will be explored, including systems which are currently in place and other societal systems of response to this social problem. This is a skills elective course.

**Prerequisite:** SWK-200 with a minimum grade of C and SWK-207 with a minimum grade of C.

**SWK-321. Social Work Practice In Schools. 3 Hours.**

This elective course will present essential knowledge and skills for engaging in effective generalist social work practice with youth and families in public elementary, middle, and high schools. It will focus on four key domains of social work practice in school settings: 1) culturally competent practice, 2) social emotional learning, 3) positive youth development, and 4) community collaboration. Drawing upon a comprehensive community schools framework, students in this course will be exposed to the current research, critical issues, and essential practice skills relevant to generalist social work practice in schools.

**Prerequisite:** SWK-200 with a minimum grade of C and SWK-207 with a minimum grade of C and SWK-303 with a minimum grade of C and SWK-304 with a minimum grade of C.

**SWK-322. Writing Intensive Program:International Social Work. 3 Hours.**

This course is intended to provide students with an understanding of social policy issues and programs in other countries. Examination of the political, economic, and social conditions that either enhance or impinge upon the wellbeing of people and policy development will be explored. Students will utilize critical thinking skills to deepen their understanding of international social work issues. Students will be able to understand how cultural values and beliefs are translated into policies and enacted through programs. This is a skills elective course.

**Prerequisite:** ENGL-101 with a minimum grade of C and SWK-303 with a minimum grade of C and SWK-304 with a minimum grade of C.

**SWK-323. Social Work Practice With Immigrants & Refugees II. 3 Hours.**

This course is designed to help students planning to work with immigrant and refugee populations gain the knowledge and skills necessary to address their needs. This course connects the social work profession's values of diversity, social justice, and social change to social policy and direct practice with the foreign-born. This is a skills elective course.

**Prerequisite:** SWK-200 with a minimum grade of D and SWK-207 with a minimum grade of D.

**SWK-324. Social Work With Latino Communities. 3 Hours.**

This course is designed to help students gain the knowledge and skills necessary to address the needs of the Latino community. This course will use applied learning and participatory action research methods to connect the social work profession's values of diversity, social justice, and social change to positively affect the development of local Latino communities. This is a skills elective course.

**Prerequisite:** SWK-303 with a minimum grade of C and SWK-304 with a minimum grade of C.

**SWK-326. Independent Study In Social Work. 3 Hours.****SWK-327. Social Work Practice With Families. 3 Hours.**

This is a post-practice elective course. Overview of the field of family therapy; various approaches, differences in their underlying theoretical assumptions and their application in social work, family assessments and interventions. This is a skills elective course.

**SWK-328. Social Work With Groups. 3 Hours.**

This is a post-practice elective course, majors only. The purpose of this course is to emphasize concepts, methods and issues in social group work practice beyond what has been learned in SWK Practice I & II. The focus will be on group work theory and practice as it applies to different practice settings and different populations. Emphasis will be placed on the social worker's developing self-awareness, ethical competence and practice skills in working with groups. This is a skills elective course.

**Prerequisite:** SWK-304 with a minimum grade of C and SWK-303 with a minimum grade of C and SWK-207 with a minimum grade of C and SWK-200 with a minimum grade of C.

**SWK-329. Administration And Planning In Social Work. 3 Hours.**

This is a post-practice elective course, majors only. It is designed to expose the beginning level practitioner to administrative and planning functions with emphasis on how these impact the direct service practitioner. This is a skills elective course.

**SWK-330. Social Work Practice In Community Settings. 3 Hours.**

This is a post-practice elective course. Structure and functions of communities and models of community organizing; development of community organizing skills. This is a skills elective course.

**SWK-337. Child Welfare II. 3 Hours.**

This is an elective course that focuses on culturally competent social work practice with children and adolescents living in diverse family arrangements. The continuum of services and resources available to children and adolescents and the roles and functions of the social worker in these settings are examined. Economic, social and psychological concerns of vulnerable children are identified. Intervention strategies that will effectively meet these needs are addressed. Students are presented with specialized knowledge and skills essential for working with children and adolescents. Students will be exposed to fundamental training that prepares them for DCFS Licensure. This is a skills elective.

**Prerequisite:** SWK-307 with a minimum grade of C.

**SWK-353. Field Seminar I. 3 Hours.**

Field Seminar I is taken concurrently with the Field Practicum I. The goal of the Field Seminar Courses is to increase students' sense of confidence in practicing as beginning-level practitioners. The seminar classes are designed 1) to integrate theory and knowledge from the classroom with the students' experiences from the field placement, and 2) to reinforce generalist social work values and skills to be used as a beginning level practitioner. The class format will consist of a combination of structured discussion and experiential exercises and role-plays.

**Prerequisite:** SWK-305 with a minimum grade of C and SWK-306 with a minimum grade of C and SWK-357 with a minimum grade of C.

**Corequisites:** SWK-310, SWK-355.

**SWK-354. Field Seminar II. 3 Hours.**

Field Seminar II is taken concurrently with Field Practicum II. The goal of the Field Seminar Courses is to increase students' sense of confidence in practicing as beginning-level practitioners. This goal is achieved by students' awareness of their own strengths and limitations as a worker, along with the integration of knowledge, values, and skills used in the generalist approach to social work practice. The goals of the seminar classes are 1) Integrate theory and knowledge from the classroom with the students' experiences from the field placement, and 2) Reinforce generalist social work values and skills to be used as a beginning-level practitioner.

**Prerequisite:** SWK-305 with a minimum grade of C and SWK-306 with a minimum grade of C and SWK-357 with a minimum grade of C.

**Corequisites:** SWK-311, SWK-356.

**SWK-355. Field Practicum I. 3 Hours.**

SWK-355 provides beginning field experience and is taken concurrently with SWK-353. Students are placed in a social work agency providing the opportunity to develop, test, and reinforce social work knowledge, values, and skills.

**Prerequisite:** SWK-305 with a minimum grade of C and SWK-306 with a minimum grade of C and SWK-357 with a minimum grade of C.

**Corequisites:** SWK-311, SWK-354.

**SWK-356. Field Practicum II. 3 Hours.**

SWK-356 is a continuation of SWK-355 and is taken concurrently with SWK-354. Students work in a social work agency, providing the opportunity to develop, test, and reinforce social work knowledge, values, and skills.

**Prerequisite:** SWK-310 with a minimum grade of C and SWK-353 with a minimum grade of C and SWK-355 with a minimum grade of C.

**Corequisites:** SWK-311, SWK-354.

**SWK-357. Social Welfare Policy II. 3 Hours.**

Covers content on the rationales and goals for government intervention and provides an introduction to the professional practice of policy analysis.

**Prerequisite:** SWK-207 with a minimum grade of C and SWK-303 with a minimum grade of C and SWK-304 with a minimum grade of C and SWK-309 with a minimum grade of C.

**Corequisites:** SWK-305, SWK-306.

**SWK-358. Social Work Advocacy. 3 Hours.****SWK-400. Overview Of The Social Work Profession. 3 Hours.**

Overview of the Social Work Profession is a 3 credit hour course for students who have a bachelor's degree in a major other than social work. This course is designed to provide students with an overview of the profession providing a context of the knowledge, values, and skills in the social work profession. The course covers the history of social work, the values and ethics of the profession, the perspectives of empowerment and social justice, the varied fields of social work practice, and how social workers help individuals, families, groups, and society.

**SWK-401. Oppression, Decolonization And Equity In Social Work. 3 Hours.**

The course provides an overview of the conceptual and theoretical knowledge related to difference, oppression, social justice, and empowerment.

Students explore power issues in race, class, gender, sexuality, and other societal forces that affect individuals. This course provides a forum for students to critically examine their assumptions, beliefs, and behaviors and reflect on how these personal ethics and values enhance or hinder their work with people of diverse backgrounds.

**SWK-402. Human Behavior And The Social Environment I. 3 Hours.**

This is the first half of a two-semester sequence designed to inform students about human development throughout the life course. Students will gain an understanding of the reciprocal interaction between individuals and the ecological context in which they live and grow. This course focuses on theories and research findings related to 1) the Eco-systemic approach to social work practice; 2) the functioning of individuals, families, and communities; and 3) the analysis of human development theories from birth through late-childhood and preadolescence.

**SWK-403. Generalist Practice I. 3 Hours.**

This course introduces students to generalist social work practice and addresses values, knowledge, skills, issues and processes relevant to social work practice regardless of client population, size of client system, or type of agency setting. The course focuses on basic social work practice principles, concepts, goals, and methods. Particular attention is paid to culturally diverse and oppressed populations. This course includes a practice skills laboratory in which students have the opportunity to practice their relationship building, interviewing, and assessment skills. The practice skills laboratory is also designed to give students the opportunity to integrate fieldwork experiences with classroom learning.

**Corequisite:** SWK-402.

**SWK-404. Human Behavior And The Social Environment II. 3 Hours.**

This is the second of a two-semester sequence that examines human development throughout the life cycle and the interaction of individuals with environmental conditions. This course explores traditional and non-traditional paradigms in examining human behavior and the social environment. Students will examine human behavior in the context of the larger macrosystemic environment that includes groups, organizations, communities, and globalization. Students will recognize the range of social systems in which people live and the effects of diversity and oppression on the development and functioning of individuals.

**Prerequisite:** SWK-402 with a minimum grade of B.

**SWK-405. Generalist Practice II. 3 Hours.**

Generalist Practice II is the second part of a two-semester sequence and addresses values, knowledge, skills, issues and processes which are relevant to clinical social work practice regardless of agency setting. This course uses an ecosystems assessment perspective and a problem solving process as the framework for intervention. Particular attention is paid to cultural diversity and the dynamics of oppression in clinical social work practice. This course also includes a concurrent practice skills laboratory in which students have the opportunity to practice their clinical social work practice skills.

**Prerequisite:** SWK-403 with a minimum grade of B.

**Corequisite:** SWK-404.

**SWK-406. Social Welfare Policy. 3 Hours.**

This course is designed to provide students with an overview of the major social welfare policies such as health care, children and families, poverty, mental health, and substance abuse, and provides a conceptual framework in which these policies are analyzed. Students learn the underlying values that are used to formulate such policies as well as debate the direction of policy changes. It examines the government's role in the development of social policies and the social work role in advocating for change. Special emphasis is placed on how these social welfare policies affect diverse population. This course is for graduate social work students.

**Requirements:** Bachelor's Degree and admission to the graduate program in social work.

**SWK-407. Social Work Research. 3 Hours.**

This foundation research course is designed to provide the students with an overview of the scientific research process, to enable students to critique research, and prepares students to develop a research proposal. The course covers the research formulation process, research methodology, and research findings and their implications for further research. Emphasis is placed on critiques of actual research appearing in the social work literature and the development of a research proposal on a topic in social work. It is expected at the completion of this course students will be prepared to engage in a research project in the advanced curriculum.

**SWK-415. Foundation Field Practicum I. 3 Hours.**

This course is the first of a 2-semester sequence and provides students with a generalist practice experience with individuals, families, small groups, and communities. Students spend 240 clock hours in an agency for the 3 credit hours of course work. Students are integrating classroom learning such as communication skills, professional values and ethics, and practice models with multiple system levels. They also are learning to employ a bio-psycho-social assessment model and utilize a strengths perspective with client systems. In addition, students are learning how important it is to evaluate their practice.

**Requirement:** Admission to the graduate social work program and approval of the Field Placement Application.

**SWK-416. Foundation Field Practicum II. 3 Hours.**

This course is the second course in a 2-semester sequence and provides students with a generalist practice experience with individuals, families, groups, and communities. Students spend 240 clock hours in an agency for the 3 credit hours of course work. Students are integrating classroom learning such as communication skills, professional values and ethics, and practice models with multiple system levels. They also are learning to employ a bio-psycho-social assessment model and utilize a strengths perspective with client systems. In addition, students learn to evaluate their practice.

**Prerequisite:** SWK-415 with a minimum grade of B.

**SWK-421. Critical Social Work In Schools: Policy, Practice & Leadership. 3 Hours.**

This course presents knowledge and skills for critically engaging in social work policy, practice, and leadership when serving and advocating for children, youth and families in public elementary, middle and high schools. It focuses on four key domains for effective social work in schools: 1) positive youth development, 2) trust, collaboration and community partnerships, 3) culturally sustaining practice, and 4) school mental health. Drawing on a comprehensive community schools framework students in this course will learn the key roles and responsibilities of social workers in helping lead schools to be more equitable, inclusive and just places for learning and support.

**Requirement:** Completion of the foundation curriculum or admission to the advanced standing graduate degree program in social work. This course is required for all students in the School Social Work specialization.

**SWK-422. Social Work Practice In Global Cross-Cultural Contexts. 3 Hours.**

This elective course will present essential knowledge and skills for engaging in international and global social work practice with individuals, families and communities. Students will study theoretical models to consider processes of social development in a global, cross-cultural context. Dynamics of power in global social work will be a central focus as well as understanding diverse roles and activities in which social workers engage. Students will critically assess policies and programs designed to increase the responsiveness of social, economic, and political institutions to human needs. Issues of culture, vulnerable populations, and social and economic justice will be explored.

**Requirement:** Completion of the MSW Foundation Curriculum.

**SWK-423. School Social Work With Exceptional Students. 3 Hours.**

This advanced practice course prepares social work students to effectively advocate for and serve students with exceptional learning needs in public K-12 schools. Categories of exceptional children and youth are examined, as defined by federal and state legislation, including the Individuals with Disabilities Education Act (P.L. 94-142) and the Vocational Rehabilitation Act (Section 504). Particular emphasis is placed on how school social workers provide equitable, inclusive, and just school mental health services and supports to students and their families. Evidence-informed approaches for assessment, evaluation and advocacy for developing equitable and inclusive school policies and practices are all discussed.

**Prerequisite:** SWK-421 with a minimum grade of B.

**SWK-425. Assessment And Diagnosis In Social Work With A Critical Lens. 3 Hours.**

This elective course will present essential knowledge and skills for understanding clinical diagnosis using the Diagnostic and Statistical Manual of Mental Disorders, 5th edition (DSM-V) and competency-based and strengths-based assessments applied in the social work field. It focuses on application of diagnostic criteria for mental disorders with careful consideration of the role of intersectionality, stigma and systems of oppression influencing assessment and treatment. This course reflects current issues in mental health access and culturally sensitive treatment from a social justice lens, reflecting the need for funding, equitable policies and research to support effective practice.

**Requirement:** Completion of the MSW Foundation Curriculum or admission to the MSW Advanced Standing Program.

**SWK-426. Independent Study. 3 Hours.**

Students wishing to develop their own course of study not covered in the standard curriculum may do so by registering for an Independent Study under the supervision of a full-time Social Work Department faculty member. An Independent Study requires the signature of the faculty member, department chairperson, college dean, and Academic Affairs on the Independent Study/Tutored Study request form. To initiate the planning of an independent study, students should consult with the faculty member with whom they intend to be supervisor for the independent study, as well as the Social Work Department Advisor.

**Prerequisite:** SWK-400 with a minimum grade of C and SWK-402 with a minimum grade of C and SWK-403 with a minimum grade of C and SWK-415 with a minimum grade of C and SWK-401 with a minimum grade of C and SWK-404 with a minimum grade of C and SWK-405 with a minimum grade of C and SWK-416 with a minimum grade of C and SWK-406 with a minimum grade of C and SWK-407 with a minimum grade of C.

**SWK-429. Nonprofit Management & Leadership In Social Work. 3 Hours.**

This elective course will present essential knowledge and skills for nonprofit managers, supervisors and administrators working in nonprofit or human service organizations. This course will examine the evolution of the nonprofit sector and explore some of the critical management, leadership, and policy issues that are key to running an effective nonprofit organization. It will also focus on the philosophies and theories of leadership and management; understanding management systems, internal and external ecology of organizations; strategic planning, managing technology and information; resource/financial development and philanthropy; human resources practices and development; board development; marketing strategies; and monitoring and evaluating organizational effectiveness.

**Requirement:** Completion of the MSW Foundation Curriculum or admission to the MSW Advanced Standing Program.

**SWK-430. Transition To The Advanced Curriculum. 4 Hours.**

This course is designed to enable those who have a Bachelor's in Social Work to transition to the advanced curriculum. This course provides an overview of the foundation curriculum and ensures the consistency in exposure to this foundation curriculum between those who are full-program students and those who are advanced standing degree program students. The students will then complete short papers that allows the demonstration of the primary concepts and principles in the foundation areas.

**Requirements:** Admission to the Advanced Standing Degree graduate program in social work; a bachelor's degree in social work within the past 10 years.

**SWK-431. Social Work Practice With Families. 3 Hours.**

Building on a bio-psycho-social spiritual framework, this advanced practice course utilizes a case analysis format to focus on clinical practice skills within the context of culture. Specific strategies and tools for evaluating clinical social work practice and ethical dilemmas that arise in clinical social work practice are addressed. The course emphasizes the ways in which socio-economic status, ethnicity, sexual orientation, race, gender, and physical and mental disability affect the processes of clinical assessment and intervention. In addition, this course addresses the role of the clinical social worker when advocating for social and economic justice on behalf of their clients.

**Requirement:** Completion of the Foundation Curriculum or Admission to the Advanced Standing Degree Program.

**SWK-432. Family-centered Policy. 3 Hours.**

The course enables students to learn about child and family-centered policy and to critically analyze these policies using a conceptual framework. This course examines the various effects policies and programs have on different types of families and different aspects of family functioning. The course focuses on the connections between public policies and the values that enter into policy debates and explores the reciprocal linkages between family functioning and public policies at the federal, state, and local levels.

**Requirement:** Completion of the foundation curriculum or admission to the advanced standing graduate degree program.

**SWK-433. Social Work Practice With Children. 3 Hours.**

This course is designed to enhance knowledge, values and skills for practice with children. The course prepares advanced practitioners to provide culturally competent services for a broad range of families and children. This course emphasizes the provision of services for children and their families that enhance and support family life as well as substitute a home life for those who need this. The course focuses on a full range of services available for children and families and emphasizes the impact of these various services. The course also covers various treatment approaches especially for children who are traumatized.

**Prerequisite:** SWK-431 with a minimum grade of C.

**SWK-434. Child Welfare Policy And Legislation. 3 Hours.**

This course is designed to enable students to analyze policies affecting children and to prepare students to function in the legal system on behalf of children. This course provides students an overview of the federal and state policy in child welfare and the legal system which provides oversight of these policies. The course equips students with the knowledge and skills to advocate on their behalf children.

**Requirement:** Completion of the foundation curriculum or admission to the advanced standing graduate degree program.

**SWK-441. Anti-Oppressive Social Work Practice. 3 Hours.**

This course provides an understanding of both the theoretical roots and the specific work of anti-oppressive social work practice. In this course, students examine how social work has been complicit in creating and reinforcing structures of oppression. Students explore strategies to critically challenge power structures maintaining these practices as well as learn approaches to effectively carry out anti-oppressive, socially just social work practice in their daily work.

**Requirement:** Completion of the generalist curriculum or admission to the advanced standing graduate degree program in social work.

**SWK-442. Political Advocacy. 3 Hours.**

This course provides an overview of the role of social workers within the electoral and legislative arenas. The nature of the legislative policy making process and the role of partisan politics in the policy-making process is explored. The course focuses on selected strategies and tactics of advocacy aimed at changing legislation. Topics covered include lobbying, coalition-building, and legal and ethical dilemmas in building or strengthening the power base for advocacy.

**Requirement:** completion of the Foundation Curriculum or admission to the Advanced Standing program in social work.

**SWK-443. Social Justice And Social Change. 3 Hours.**

Through the lenses of power, resistance, and identity, this course examines a range of social movements, such as: labor, civil rights, feminist, LGBTQ, Black Lives Matter and immigrant justice. Students will examine under what conditions people successfully mobilize to achieve change and translate these lessons to the unique challenges of the current political moment.

**Requirement:** Completion of the generalist curriculum or admission to the advanced standing graduate degree program in social work.

**SWK-444. Community Practice. 3 Hours.**

This course is designed to prepare students to lead the development of socially just activities that will bring about change for communities. This course focuses on the work of grassroots community organizing as well as that of nonprofit organizations and critically examines this work through relevant social, economic and political contexts. Students gain strategies and skills related to outreach, capacity-building, marketing, communications, and coalition-building.

**Requirement:** Completion of the generalist curriculum or admission to the advanced standing graduate degree program in social work.

**SWK-450. African Studies Institute (AfSI). 3 Hours.**

As the origin of humanity, Africa's history is steeped in culture, biodiversity, and indigenous knowledge. The African Studies Institute (AfSI) introduces students to Africa and heightens their curiosity to research and explore more about this fascinating continent. AfSI is a good fit for students in any field who are interested in learning about Africa and/or will be working with refugees and immigrants from Africa. Moreover, AfSI provides the necessary tools for teachers, social workers and other professionals who are interested in integrating African sociocultural, linguistic, historical, political, human rights, and economic contexts into their workplace.

**SWK-451. Introduction To Genocide And Human Rights Studies In Africa And The Diaspora. 3 Hours.**

This course introduces the concept of genocide and human rights in Africa and the diaspora exploring accounts of genocide in different countries around the globe. It investigates the possibilities and limitations of justice and reconciliation in societies emerging from genocide and mass atrocities. This course also analyzes the uses of truth commissions and trials in transitional societies, and the roles of civil society, political elites, and international actors. Students are challenged to analyze the roles of resisters, rescuers, bystanders, victims, survivors, perpetrators, and collaborators, and ways to exert their leverage and responsibility in preventing genocide and protecting human rights.

**SWK-470. Social Work Practice With Immigrants And Refugees. 3 Hours.**

This course examines the diverse migration experiences of individuals and families with a focus on vulnerability and challenges faced. Students will learn and apply concepts relevant to social work that define specific needs and issues facing immigrant and refugee populations at the practice and policy levels. Students will explore the social, political and economic context of migration and resettlement, organizational and structural barriers, and culturally relevant, trauma-informed practices in services to immigrants and refugees.

**Requirement:** Completion of the generalist curriculum or admission to the advanced standing graduate degree program in social work; or permission of the instructor.

**SWK-471. Practice With Lesbian, Gay Bisexual, Transgender And Queer Population. 3 Hours.**

This course is designed to enhance student understanding of issues related to LGBT populations in the U.S. Students will be exposed to empirical literature on LGBT issues that will inform an understanding of past, present and future challenges facing the LGBT communities. Raising students' awareness of personal, interpersonal and institutional values and biases is examined and a life cycle perspective is presented to highlight the unique issues of LGBT communities. Students are introduced to the history of the LGBT civil rights movements and the underlying theories of sexual orientation and sexual identity formation.

**Requirement:** Completion of the foundation curriculum or admission to the advanced standing graduate degree program.

**SWK-472. Trauma Treatment With Children And Families. 3 Hours.**

This course is designed to provide students with intermediate knowledge and skills to assess the impact of potentially traumatic events and to plan for evidence informed interventions across a variety of family system. The impact of trauma is considered within the context of biological, developmental, psychological, economic, educational, cultural, and social factors. The role of the therapist is covered and intervention techniques that empower families is presented. Consideration is given to those factors that enhance the protective capacity, strengths and resilience of children and their families who have been exposed to violence, abuse and trauma.

**Requirement:** Completion of the foundation curriculum or admission to the advanced standing graduate degree program in social work.

**SWK-473. Topics In Advocacy. 3 Hours.**

The purpose of this course is to enable students to design an advocacy project in a specified topic area. Students select a topic of their choice and complete the project in its entirety. The class focuses on the steps or process for launching an advocacy project from assessing the need, mobilizing resources, and engaging in activities. At the conclusion of the course students evaluate their efforts and identify the next steps.

**Requirement:** Completion of the foundation curriculum or the Bachelor's Degree in Social Work.

**SWK-474. Social Work And The Law. 3 Hours.**

This course examines the law, legal processes, and legal systems as they relate to social work fields' of practice. The course challenges students to consider how the fields of social work and law intersect. Throughout the course, students critically analyze how the practice of social work is continually influenced by judicial decisions. The students also attain skills in advocating within the legal system on behalf of the populations that they serve.

**Requirement:** Completion of the foundation curriculum or admission to the advanced standing graduate degree program.

**SWK-475. Social Work Practice With Latino/a/x Communities In The United States. 3 Hours.**

This course prepares social workers in training to provide culturally sensitive services to members of Latino/a/x communities in the United States. It examines aspects of service delivery and is designed to provide an applied approach to social work with Latino/a/x communities in the United States. Students will learn specific skills and competencies to work with Latinos from different backgrounds in diverse settings. Barriers and best practices to social services with Latino communities such as education, healthcare, and mental health care will be discussed throughout the course.

**Requirement:** Completion of the MSW Foundation Curriculum or admission to the MSW Advanced Standing Program.

**SWK-491. Advanced Research I. 3 Hours.**

This advanced research course will provide students with the skills necessary to conceptualize, plan, and evaluate social work practice. The course will focus on evaluation as a means for assessing social work practice, including the identification of needs, process, and outcomes. It will cover topics such as developing research questions, conducting literature reviews, sampling, data collection and analysis techniques, and the reporting and dissemination of findings, including the limitations and significance of research. This course will cover ethical considerations in evaluation research and will provide students with hands-on experience planning evaluations in a variety of settings.

**Corequisite:** SWK-495.

**SWK-492. Advanced Research II. 3 Hours.**

This course is designed to afford students the opportunity to implement the research project for which they developed a research proposal in SWK-491. This course is designed to assist students in the collection and analysis of their data as well as the identification of the contributions and limitations and the implications of this research.

**Prerequisite:** SWK-491 with a minimum grade of B.

**Corequisite:** SWK-496.

**SWK-495. Advanced Field Practicum I. 3 Hours.**

This is an advanced practicum designed to engage students in experiences and activities in their concentration. This is the first semester of a 2-semester sequence and is designed to expose students to the roles and tasks of a professional social worker in their desired concentration.

**Requirement:** Completion of the foundation curriculum or admission to the advanced standing graduate degree program in social work

**Corequisite:** SWK-491.

**SWK-496. Advanced Field Practicum II. 3 Hours.**

This is an advanced practicum designed to engage students in experiences and activities in their concentration. This is the second semester of a 2-semester sequence and is designed to further students learning and advance their understanding of the roles and tasks of a professional social worker in their desired concentration.

**Prerequisite:** SWK-495 with a minimum grade of B.

**Corequisite:** SWK-492.

# Major in Social Work

---

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6
<b>Humanities (HU)*</b> 3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	9
<b>Behavioral/Social Sciences (SB)*</b> 3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	9
<b>Natural Sciences (NS and NSL)**</b> 3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	9

### Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

### Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

### Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

### Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

\* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

\*\* Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/graduation-requirements/bachelors-degree/>)

## Major in Social Work for the Bachelor of Social Work Degree

Code	Title	Hours
<b>Required Courses</b>		
Liberal Arts		
ANTH-212	Introduction To Cultural Anthropology	3
BIO-100	Introduction To Biology	3

SWK-203	Analysis Of Cross Culture Interaction	
SWK-250	Issues In Social Service Delivery	
SWK-300	Human Sexuality And Social Work	
SWK-301	Social Work And The Law	
SWK-307	Services To Children & Adolescents	
SWK-312	Women And Social Work	
SWK-308	Social Work Practice With Immigrants & Refugees I	
SWK-314	Social Work Advocacy	
SWK-320	Domestic Violence Social Work:Theory And Practice	
Select one of the following Skills electives:		3
SWK-322	Writing Intensive Program:International Social Work	
SWK-323	Social Work Practice With Immigrants & Refugees II	
SWK-324	Social Work With Latino Communities	
SWK-327	Social Work Practice With Families	
SWK-328	Social Work With Groups	
SWK-329	Administration And Planning In Social Work	
SWK-330	Social Work Practice In Community Settings	
<b>Total Hours</b>		<b>60</b>

Students must maintain a 2.5 cumulative GPA and no less than a C in all required courses for the social work major. Students planning to pursue the MSW need a 3.0 cumulative GPA and no less than a B in all social work courses.

Students interested in the major in social work must schedule an appointment with a social work advisor by calling the social work office: (773) 442-4760

Students should seek advisement from a program advisor right away to assure compliance with prerequisites and required sequencing of courses.

Students need to complete all General Education and Liberal Arts requirements in order to move beyond SWK-200 SWK-207.

Social Work students are suggested to take MATH-112 or MATH-113 to meet math requirement.

This sample curricular map is provided to guide you in the planning of your progression for this major. This guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor.

# Master of Social Work

---

## Master of Social Work

Northeastern Illinois University (NEIU) offers a Master of Social Work (MSW) degree designed to prepare students for leadership roles and professional practice with individuals, families, organizations and communities with a trauma-informed lens.

Students admitted with a Bachelor's degree in a major other than Social Work must complete the 60 credit-hour Full Program. The Full Program consists of the 30 credit-hour Foundation Curriculum and the 30 credit-hour Advanced Curriculum. Students completing the Full Program can do so in two years full-time or three to four years part-time.

Students admitted to the MSW Program who have earned a Bachelor of Social Work (BSW) degree in the past five years from a college or university accredited by Council on Social Work Education (CSWE) can immediately transition into the 33 credit-hour Advanced Curriculum. This curriculum can be completed in one year full-time, or two years part-time.

### Concentrations & Specializations

There are two concentrations in the MSW program: 1) Social Work Practice with Children, Youth, and Families and 2) Leadership and Change. Students in the Children, Youth, and Families concentration acquire knowledge and skills that prepare them for interpersonal practice in a range of direct practice settings that support vulnerable populations. Students in the Leadership and Change concentration acquire knowledge and skills that prepare them for leadership, community organizing, advocacy, and administrative roles in the field. Students in either concentration can also choose the School Social Work specialization which prepares them with the knowledge and skills to be professional school social workers. Students in this specialization are eligible to earn a Professional Educator License (PEL--support personnel only) endorsed in School Social Worker (Pre K - Age 21) in the State of Illinois. This specialization is a State-approved program in Social Worker - Pre K - Age 21 by the Illinois State Board of Education (ISBE).

Students select a concentration (as well the option of the School Social Work specialization, if they choose) in consultation with their MSW Program Advisor prior to beginning the Advanced Curriculum. Together, these concentrations and specializations prepare students for professional practice with children, families, organizations, and communities, respectively.

### Field Work & Practical Experience

Practical experience is built into the MSW curriculum, often referred to as "Field Work" and is the signature pedagogy of the curriculum. All fieldwork experiences are credit-bearing internship experiences. These experiences offer students an opportunity to integrate and apply their academic knowledge in a real-world setting and prepares them with the skills essential to take on the responsibilities of beginning professional practice.

In order to receive credit for fieldwork experiences, students must work with the MSW Director of Field Education to complete an internship placement and referral process. To start this process, a student must submit a formal application to apply for fieldwork with the Social Work Department. All applications have deadlines and require collaboration and communication between the student and the respective internship coordinator to secure a placement. It is the policy of the NEIU Social Work Department that all referrals of students to field placement sites be made by internship coordinators in the Field Office. Students may offer suggestions about field sites and can also begin the process of connecting the Social Work Program with new partnering Field Placement sites. After full review by the Field Director of the site and their capacity to host social work student interns, a determination is made if this partnership is approved before a student can be matched to a site for internship.

Fieldwork experiences are usually taken concurrently with academic classes. Students complete fieldwork experiences that typically span two semesters. MSW students completing the Foundation Curriculum must complete 480 hours in a field placement, while enrolled in 400-level foundation coursework. Advanced Curriculum students must complete 600 hours at a field placement, while enrolled in 400 level advanced courses. Students in the School Social Work specialization must complete 600 hours of internship experience in a school setting with at least 400 hours of field experience supervised by a field instructor holding a MSW degree or higher, and with at least two years of experience with a PEL with a school social worker endorsement.

### Admission Requirements

- 1) Official transcripts from all colleges and universities attended.
- 2) A two-page professional statement addressing your goals and objectives specific to the MSW program.
- 3) Additional requirements for the Full and Advanced Standing Programs, and the School Social Work Specialization as follows:

#### *Full Program (Foundation Curriculum & Advanced Curriculum)*

An undergraduate GPA of 3.0 or a post-graduate GPA of 3.0 in at least 6 credit hours is required; liberal arts coursework that includes coursework in the social and behavioral sciences, the natural sciences, and the humanities. Three letters of recommendation. Professional statement. Additional requirements may include a background check (See Additional School Social Work Specialization Admission Requirements below).

#### *Advanced Standing Program (Advanced Curriculum Only)*

Undergraduate GPA of 3.25. Three letters of recommendation. One of the letters of recommendation should be from the BSW Program Director, Field Director, or faculty of the transfer school. Additional requirements may include a background check (See Additional School Social Work Specialization Admission Requirements).

*Additional School Social Work specialization admission requirements (Leading to earn a PEL endorsed in School Social Work)*

Students applying for admission to the Advanced Standing Program who intend to complete the School Social Work specialization, leading to earn a PEL endorsed in School Social Work must also:

1. Submit a completed NEIU School Social Work Specialization Admission Application Form. To obtain this form, please contact the NEIU Social Work Department Office Manager.
2. Complete a Federal and State Fingerprint Background check with the Daniel Goodwin College of Education (DGCOE) by following the instructions on this page: <https://www.neiu.edu/academics/daniel-i-goodwin-college-of-education/admission-requirements/federal-and-state-fingerprint-background-check-instructions-0> (<https://www.neiu.edu/academics/daniel-i-goodwin-college-of-education/admission-requirements/federal-and-state-fingerprint-background-check-instructions-0/>)

## Master of Social Work Foundation Curriculum Requirements

Code	Title	Hours
<b>Required Courses</b>		
SWK-401	Oppression, Decolonization And Equity In Social Work	3
SWK-402	Human Behavior And The Social Environment I	3
SWK-403	Generalist Practice I	3
SWK-406	Social Welfare Policy	3
SWK-415	Foundation Field Practicum I	3
SWK-404	Human Behavior And The Social Environment II	3
SWK-405	Generalist Practice II	3
SWK-416	Foundation Field Practicum II	3
SWK-407	Social Work Research	3
SWK-472	Trauma Treatment With Children And Families	3
<b>Total Hours</b>		<b>30</b>

# Sociology

The Sociology Department offers a 40-credit **major** (22 credit hours of required courses and 18 credits of electives). We also offer an 18-credit **minor** (9 credits of required courses and 9 credit hours of electives).

Sociology is the systematic study of human social interactions and institutions, and the social causes and consequences of human behavior. NEIU's Sociology Department offers students a world of difference through dynamic faculty and engaging course offerings that help to develop students' critical understandings of social life through the shared power of knowledge and resourceful action. Our faculty is committed to working with students to understand how classism, racism, sexism, homophobia, and other forms of oppression intersect and operate, and how individuals, groups, and organizations challenge these inequalities. Our primary aim is thus to equip students with a lifelong love of learning; broad, diverse, and critical perspectives of the social world; and relevant and important life skills that are consistent with the goals of a liberal arts education. By deepening students' critical understandings of the structures and patterns upon which everyday life rests, the Department fosters the students' "sociological imaginations" through empowerment, social engagement, and commitment to social justice.

A major or minor in sociology can provide a useful orientation for students who plan to attend graduate school or seek careers in community-based organizations or in such fields as education, human resources, urban planning, law, community organizing, social welfare, research in government and private organizations, and much more.

Students interested in declaring a major or minor in sociology or that have any questions, should email [soc@neu.edu](mailto:soc@neu.edu). Students may also stop by the Department office (LWH 2090). Students will be assigned a faculty advisor upon declaring a major in sociology.

Students in other majors who are looking for First-Year Experience (FYE) courses, General Education courses, or Engaged Learning Experience Boundary-Crossing (ELE-X) courses may be interested in taking any of the following sociology courses:

Code	Title	Hours
<b>First-Year Experience (FYE) Courses</b>		
SOC-109A	First Year Experience: Investigating Chicago: Immigration & Migration	3
<b>General Education Courses</b>		
SOC-100	Introduction To Sociology	3
SOC-104	Schools And Society	3
SOC-105	Social Inequalities And Social Change	3
SOC-205	Contemporary Social Issues	3
<b>Engaged Learning Experience Boundary-Crossing (ELE-X) Courses</b>		
SOC-311	Sociology Of Sports	3
SOC-312	Sociology Of Health And Illness	3
SOC-314	Urban Sociology	3
SOC-316	Race And Ethnic Relations	3
SOC-318	Sociology Through Film	3
SOC-324	Power, Politics & Society	3
SOC-338	Environmental Sociology	3
SOC-350	Sociology Of Black Communities	3
SOC-362	Identity And Social Policy	3
SOC-370	Sociology Of Food	3
SOC-371	Sociology Through Service Learning	1

- Minor in Sociology (<http://catalog.neiu.edu/arts-sciences/sociology/minor-sociology/>)
- Minor in Disability Studies (<http://catalog.neiu.edu/arts-sciences/sociology/minor-disability-studies/>)

Adam Messinger, Ph.D., Professor of Justice Studies, Chair

Brooke Johnson, Ph.D., Professor, Coordinator

Aneta Galary, Ph.D., Senior Instructor

Erika Husby, Instructor

Cristen Jenkins, Ph.D., Senior Instructor

Juan R. Martinez, Ph.D., Associate Professor

Olivia N. Perlow, Ph.D., Professor

Andreas Y. Savas Kourvetaris, Ph.D., Associate Professor

Brett C. Stockdill, Ph.D., Professor

Mark Wodziak, Instructor

**SOC-100. Introduction To Sociology. 3 Hours.**

Fundamental concepts involved in understanding human societies. Socialization, culture, social interaction, social institutions, social stratification, and social change are discussed.

**SOC-104. Schools And Society. 3 Hours.**

This course examines the different roles that educational institutions play in fostering, perpetuating, and challenging inequalities for different social groups in American society.

**SOC-105. Social Inequalities And Social Change. 3 Hours.**

Examines critical sociological explanations of the causes and consequences of classism, racism, sexism, homophobia and other social inequalities; explores how inequalities are institutionalized, legitimized, and experienced by different groups of people; examines collective efforts to promote social change, including collective action and social movements.

**SOC-109A. First Year Experience: Investigating Chicago: Immigration & Migration. 3 Hours.**

In this course, the five foundations of the First-Year Experience (Future Planning, Integral Preparation, Research, Self-discovery and Transitions) are interwoven with the field-specific concepts and terminology of sociology. Using the city as a lab, freshmen explore Chicago's immigrants and immigration patterns, actively discovering the complexity and diversity of Chicago as an immigrant destination through readings, films, speakers, and out-of-class experiences.

**SOC-204. Sociology Of Small Groups. 3 Hours.**

A study of the individual and group relationships in society in terms of the various types of social collectives; primary and secondary groups, crowds and publics, collective behavior and social movements with emphasis on the symbolic nature of social interaction.

**Prerequisite:** SOC-100 with a minimum grade of C.

**SOC-205. Contemporary Social Issues. 3 Hours.**

Analysis and interpretation of major contemporary social issues, such as war and peace, poverty, racism, sexism, power structures; critical evaluation of present and suggested programs to meet current problems.

**SOC-206. Drugs And Society. 3 Hours.**

Review of literature and current research on drug use. Examination of patterns of drug use, drug-related policies and their enforcement, and examination of responses to addiction.

**SOC-214. Sociology Of Intimacy, Marriages And Families. 3 Hours.**

Examination of dynamics and trends in relationships and families. Areas of study include history of families, changing demographic patterns, family structures, gender, sexuality, reproductive technology, power in relationships, and divorce.

**SOC-250. Sociology Of Deviance. 3 Hours.**

Employs sociological approach to deviance in society. Origins and functions of deviance; the ambiguous institutionally and socially constructed nature, definitions, and measurement of deviance; the impact of deviance on personal and social identity; deviant behavior; and deviance and social change. Major theoretical perspectives on deviance, current research, and portrayals of deviance in popular culture.

**SOC-270. Sociology Of Latinas. 3 Hours.**

This course examines the diversity of Latina experiences in the United States and other countries. Students will explore social, economic, cultural, and political issues that affect the lives of Latinas. The course will examine the historical and contemporary construction of Latina identities, communities, and political struggles. Of particular interest will be the impact of social inequalities on Latina lives as well as Latina responses to these inequalities.

**SOC-300. Queering Sociology. 3 Hours.**

This course introduces students to radical queer activism and scholarship aimed at creating a more just and inclusive world. Using a queer intersectional perspective, this course explores alternatives to traditional notions about sex, gender, sexuality, relationships, family, assimilation and democracy. Students learn to examine how interdependent oppressions (e.g., homophobia, transphobia, racism, classism, sexism) interact to shape the lives of queer and trans people—and straight and cisgender people too. Topics include incarceration, gender violence, homelessness, policing, education, marriage, sex, intimacy, (dis)ability, health and disease, immigration, gentrification and war.

**Prerequisite:** SOC-100 with a minimum grade of C and SOC-105 with a minimum grade of C or (WGS-101 with a minimum grade of C or WGS-210 with a minimum grade of C).

**SOC-302. Sociology Of Aging. 3 Hours.**

The aging process, examined from both an individual and societal perspective; problems, potentials, and realities of aging. Topics of study include the nature and quality of relations among members of different generations, age norms, age constraints, and adult socialization as well as historical and cross-cultural comparisons of aging.

**Prerequisite:** SOC-100 with a minimum grade of C.

**SOC-304. Sociology Of Law. 3 Hours.**

This course explores key issues and debates in the sociological study of law, legal systems, and legal institutions. Students will analyze theories of law and justice, examine the relationship between law and society, and investigate how law reinforces inequalities and shapes social change.

**SOC-305. Sociology Of (Dis)ability. 3 Hours.**

This course employs the social/minority group model of disability — the view that the status of minoritized people shapes their experiences in society, challenging dominant societal attitudes about disability and (ab)normality that stigmatize, dehumanize, and/or pathologize people with disabilities. It employs a critical framework that considers how thinking surrounding disability is constructed through social, political, cultural, and economic forces rooted in colonialism, capitalism, white supremacy, and patriarchy. From an intersectional, interdisciplinary perspective and based on knowledge created by disabled people, this course centers the experiences of disabled people, with a special focus on resistance and disability justice.

**SOC-306. Women, Gender And The "F Word". 3 Hours.**

Analyzes changing representations of women in popular culture. Critically explores Western feminist struggles, commitments, and perspectives with special emphasis on the intersections of gender, race, ethnicity, social class, sexuality, and nation of origin in women's lives.

**Prerequisite:** SOC-100 with a minimum grade of C or SOC-105 with a minimum grade of C or WSP-101 with a minimum grade of C.

**SOC-307. Men & Masculinities. 3 Hours.**

Addresses the central themes that have emerged in the feminist-inspired sociological research on men and masculinities. These themes include men's institutionalized power and privilege over women, inequalities among different groups of men (e.g., power disparities across race, ethnicity, class, sexuality, and nation of origin), and the costs men and women pay for men's conformity to rigid notions of masculinity. In our exploration of these themes, we will discuss masculinities at the individual, interpersonal, institutional, societal, and global levels.

**Prerequisite:** SOC-100 with a minimum grade of C or SOC-105 with a minimum grade of C.

**SOC-309. Sociology Of Racism. 3 Hours.**

Survey of the sociological and historical development of the theories of race and racism and the impact these theories have had on the implementation of social policy. Black experience in America is highlighted and special attention is given to institutional expressions of racism in the Western World.

**Prerequisite:** SOC-100 with a minimum grade of C or AFAM-200 with a minimum grade of C.

**SOC-310. Social Movements. 3 Hours.**

A systematic analysis of selected social and political revolutions and/or revolutionary movements in the United States and globally.

**Prerequisite:** (LLAS-101 with a minimum grade of C or MCS-101 with a minimum grade of C) or SOC-100 with a minimum grade of C.

**SOC-311. Sociology Of Sports. 3 Hours.**

This course examines the ways in which sports are entangled in socio-political, cultural, and economic forces. To view sports sociologically means to investigate how people think about sports themselves, the individuals who participate in them, and the people who watch them. These elements cannot be separated from social norms, practices, and inequalities based on race, class, gender, sexuality, ability, age, etc. This course covers a wide range of topics as they relate to the consumption and performance of sports in American culture and beyond, from consequences, risks, and ethical issues, to community, socialization, and violence in sports.

**SOC-312. Sociology Of Health And Illness. 3 Hours.**

Examines the social, political, economic and cultural aspects of health and illness. Emphasis on the interaction between social inequalities and health/illness. Topics will include social factors and illness, the meaning and experience of illness, health care systems and providers, bioethics, environmental injustice, violence, and militarism. Also explores the links between patterns of health/illness in the United States and globally as well as activism around health/illness.

**SOC-313. Social Demography. 3 Hours.**

Population characteristics and population dynamics in a variety of cultural settings; political, economic and sociological implications of population trends, resources and approaches in demographic analysis.

**Prerequisite:** SOC-100 with a minimum grade of C.

**SOC-314. Urban Sociology. 3 Hours.**

This course examines population characteristics, social structure, social policy and social change associated with cities and urban communities. This course emphasizes class, race, gender and sexual inequalities and their relationship to gentrification, urban-suburban relations, and urban movements for social justice.

**SOC-316. Race And Ethnic Relations. 3 Hours.**

A cross-cultural study of the patterns of interaction between racial and ethnic groups, analysis of the sources of prejudice and discrimination; examination of the relationships between race and ethnic relations and patterns of stratification.

**SOC-317. Sociology Of Religions And Spirituality. 3 Hours.**

Study of the social aspects of religious beliefs, practices and participation. The Church as a social institution and its relationship to social class, social control. Religion as a form of expressive behavior. The function of religion for the individual and for different social groups.

**Prerequisite:** SOC-100 with a minimum grade of C.

**SOC-318. Sociology Through Film. 3 Hours.**

This course utilizes different types of films (i.e. narrative feature-length and documentary) to illuminate sociological phenomena. In addition, this course teaches students how to apply relevant sociological concepts and research to film and to the real world. Topics may vary widely, ranging from gentrification to globalization. This course also facilitates critical analysis of film, where students become active participants, identifying ways in which films can uncritically transmit stereotypes, misconceptions and ideologies regarding race/ethnicity, gender, class, social and political life, and more.

**SOC-320. Sociological Analysis. 3 Hours.**

An introduction to when and how to do sociological analysis of popular and scholarly opinion, with a focus on developing and/or improving communication and critical thinking skills. The course integrates sociological theory and methods and requires students to analyze and critique theories, opinions, and research found in a variety of popular and scholarly materials using a sociological perspective.

**Prerequisite:** SOC-100 with a minimum grade of C or SOC-105 with a minimum grade of C.

**SOC-321. Class, Labor Inequalities, And Work. 3 Hours.**

Examines how social and economic relations produce and reproduce class and labor inequalities. Analyzes the intersections of class with multiple forms of oppression; the conditions faced by low-wage workers in industrial, agricultural and service jobs; the impact of globalization on labor markets, labor organizations and politics in the U.S. and globally; and how class and labor inequalities are resisted and changed.

**Prerequisite:** SOC-100 with a minimum grade of C or SOC-105 with a minimum grade of C.

**SOC-324. Power, Politics & Society. 3 Hours.**

Centers on the intersection of politics and social change. Critically examines political relations with respect to, but not limited to, the social roles of power, conflict, cooperation, practices, influence, authority, identities, nationalism, and transnational processes. Explains how power and politics structure society to consistently advantage particular groups and disadvantage other groups.

**Prerequisite:** SOC-100 with a minimum grade of C or SOC-105 with a minimum grade of C.

**SOC-328. Extreme Right Groups. 3 Hours.****SOC-329. Sociology Of Violence. 3 Hours.**

This course covers cross-cultural examinations of violence. It explores the implications of and responses to violence.

**Prerequisite:** SOC-100 with a minimum grade of C or SOC-105 with a minimum grade of C.

**SOC-331. Militarization, Power, And Inequality. 3 Hours.**

Examines the interplay between race, gender, class, sexualities, globalization, power and militarization through engagement with sociological scholarship. Additionally, analysis of the historical and sociopolitical conditions, complex processes, and multiple practices that enable the militarization of a society are examined. Resistance and alternatives to militarization are also examined.

**Prerequisite:** SOC-100 with a minimum grade of C or SOC-105 with a minimum grade of C.

**SOC-332. Schools, Domination & Liberation: Sociology Of Education. 3 Hours.**

Introduces the major theoretical trajectories in the sociology of education. Examines the structure, practices and outcomes of schooling in light of their relationships to the wider society in which schools are situated. Studies the links between schools and social inequality, educational opportunity, educational stratification by race, class, gender, ability, immigration, and sexuality. Analyzes sociological perspectives on contemporary education reform.

**Prerequisite:** SOC-100 with a minimum grade of C or SOC-105 with a minimum grade of C.

**SOC-335. Sociological Theory. 3 Hours.**

Explores how different sociological theorists make sense of society with particular emphasis on capitalism, white supremacy, patriarchy and homophobia. This course is an overview of social theory including both classic and modern theorists paying close attention to how historical power and inequality shaped "the canon" and the voices at the center and margins of social theory.

**Prerequisite:** SOC-100 with a minimum grade of C or SOC-105 with a minimum grade of C.

**SOC-336. Contemporary Sociological Theory. 3 Hours.**

A survey of contemporary sociological theories and paradigms, with a focus on writings that have most influenced the development of contemporary sociological theory and the way sociologists currently approach and analyze their subject matter. The course will explore theories, perspectives, ideas and works from voices generally unheard in discussions of formal sociological theory - namely, the voices of people of color and women.

**Prerequisite:** SOC-100 with a minimum grade of C and (SOC-211 with a minimum grade of C or SOC-335 with a minimum grade of C).

**SOC-337. Sociological Research Methods. 3 Hours.**

Emphasis on increasing student's abilities to communicate their understanding of social science research. Focus on learning social science research vocabulary, developing an understanding of issues in the philosophy of the social sciences, learning steps and procedures in sociological research, and using writing skills relevant to social science research.

**SOC-338. Environmental Sociology. 3 Hours.**

This course examines the relationship between social change, social systems, and the environment. It explores multiple perspectives in the field of environmental sociology, including political economy, environmental inequalities, environmental discourse, and environmental justice, and the intersections of race, gender, class, nation, and environmental disruptions.

**SOC-339. Introduction To Social Statistics. 4 Hours.**

This course is an introduction to descriptive and inferential statistics which are the basic statistical methods used in sociology and other social and behavioral science disciplines. Students will also learn to use a statistical software package to analyze and interpret survey data.

**Prerequisites:** ((SOC-100 and SOC-105 and ((SOC-211 and SOC-211 or (SOC-337 and SOC-337) and ((MATH-092 - 499 or (MATH-101B - 147Z or (MATH-148B - 499Z and MATH-148B - 499Z or (ACT Math 22 - 36 and ACT Math 22 - 36 or (Accuplacer Adv. Algebra & Func 237 - 300 and Accuplacer College Level Math 020 - 120 or (SAT Math 530 - 800 and SAT Math 530 - 800 or Accuplacer Adv. Algebra & Func 237 - 300 or NEIU Math Placement Result 30 - 45).

**SOC-340. Sociology Of Sexualities. 3 Hours.**

Examines sexualities across dimensions of time, place, social institutions, race, class, sex and gender. Emphasizes the dual themes of social construction and social control. This course challenges the binary construction of sex, gender, and sexuality and encourages students to view sex as a positive life force rather than one based on shame, guilt, danger or morality. Explores individual and collective resistance to oppressive sexual norms and practices.

**Prerequisite:** SOC-100 with a minimum grade of C or SOC-105 with a minimum grade of C.

**SOC-341. Independent Study In Sociology. 3 Hours.**

Research study in an area of special interest to the student involving research methodology and field studies. Independent Studies require the approval of the instructor, department chair and the College Dean.

**Prerequisite:** SOC-100 with a minimum grade of C.

**SOC-341A. Independent Study In Sociology. 3 Hours.**

This independent study covers a sociological research study in an area of special interest to the student. Independent Studies require the approval of the instructor, department chair and the College Dean.

**Prerequisite:** SOC-100 with a minimum grade of C or SOC-105 with a minimum grade of C.

**SOC-341B. Independent Study In Sociology. 2 Hours.**

This independent study covers a sociological research study in an area of special interest to the student. Independent Studies require the approval of the instructor, department chair and the College Dean.

**Prerequisite:** SOC-100 with a minimum grade of C or SOC-105 with a minimum grade of C.

**SOC-341C. Independent Study In Sociology. 1 Hour.**

This independent study covers a sociological research study in an area of special interest to the student. Independent Studies require the approval of the instructor, department chair and the College Dean.

**Prerequisite:** SOC-100 with a minimum grade of C or SOC-105 with a minimum grade of C.

**SOC-342. Sociology Internship Seminar. 3 Hours.**

Taken concurrently with SOC-345. The Sociology Internship Seminar investigates the application of sociological knowledge and skills to an actual organizational setting. Investigates interpersonal relationships, internal organizational relationships and dynamics, and the social context of organizations within the larger community and society at large. Critical examination of the relationships between organizations, social inequalities, and social justice. Exploration of career and graduate school resources and information.

**Prerequisite:** SOC-100 with a minimum grade of C and SOC-105 with a minimum grade of C and (SOC-211 with a minimum grade of C or SOC-337 with a minimum grade of C) and SOC-335 with a minimum grade of C.

**Corequisite:** SOC-345.

**SOC-343. Sociological Practice And Social Action Seminar. 3 Hours.**

This seminar provides students with an opportunity to do service and research in an applied organizational setting. It includes problem solving through involvement and social action research in one organizational setting. As an applied sociologist, the student will learn to produce information that is useful in resolving problems in community organizations, social service organizations and grass roots social change organizations.

**Prerequisite:** SOC-100 with a minimum grade of C.

**SOC-344. African American Women:Feminism, Race, And Resistance. 3 Hours.**

A systematic examination of the collective experiences of African American women, historical and contemporary; the myths versus the realities of their everyday lives, including the interrelatedness and simultaneous effect of race, class, gender, sexual orientation and age in their lived experiences.

**Prerequisite:** SOC-100 with a minimum grade of C or AFAM-200 with a minimum grade of C.

**SOC-345. Sociology Internship Placement. 3 Hours.**

Taken concurrently with SOC-342. Students will complete 144 hours at an internship placement in an organization chosen in collaboration with the professor. Performance of various tasks under the direction of a site supervisor to enhance the understanding and application of sociological theories and concepts and to gain experience relevant to career and/or graduate school interests. Prereq.: Senior status; SOC-100; SOC-211; SOC-335.

**Prerequisite:** SOC-100 with a minimum grade of C and SOC-211 with a minimum grade of C and SOC-335 with a minimum grade of C.

**Corequisite:** SOC-342.

**SOC-346A. Writing Intensive Program: Critical Writing For Sociology. 3 Hours.**

Teaches different types of critical sociological writing for different audiences through the examination of different sociological themes. Includes library and online research, ASA citation style, organizational structure, thesis statements, summary and analysis, and plagiarism. Fulfills the Writing Intensive Program requirement.

**Prerequisite:** SOC-100 with a minimum grade of C and SOC-105 with a minimum grade of C and ENGL-101 with a minimum grade of C.

**SOC-347. Sociology Of Media. 3 Hours.**

A systematic examination of mass media as a social construction of knowledge. Major focus is on the social and historical contexts within which the media are created, the powerful influence of the various media on the socialization process, and the intersections of race, class, gender, sexual orientation and age in the images and knowledge created by mass media.

**SOC-349. Black Social Movements. 3 Hours.**

Examination of the African American civil rights movement. Analysis of the origins and development of the modern civil rights movement, a movement that emerged in the South during the 1950s. Exploration of organized, collective forms of social change and theories of social movements and collective action. Emphasis on local, regional and national civil rights campaigns; the development, achievements, and disintegration of the national civil rights coalition; and the contributions of the male and female unsung heroes of the movement.

**Prerequisite:** SOC-100 with a minimum grade of C.

**SOC-350. Sociology Of Black Communities. 3 Hours.**

This course is designed to explore institutional variation and social change within African-American communities. We will examine African-American populations in different settings, both contemporary and historical, and attention will be given to major traditions of sociological theory and research related to these communities. We will additionally explore the origin, structure, reproduction, and outcomes of racism and white supremacy, and how this relates to labor market processes and outcomes, social mobility and living standards, and major social institutions such as healthcare, education, and criminal justice systems, as they relate to African Americans.

**SOC-351. Senior Seminar In Sociology. 3 Hours.**

Discussion, critical review and integration of student's work with current research. Preparation of a research paper with ongoing feedback from the instructor.

**SOC-352. Sociology Of HIV/AIDS. 3 Hours.**

Examination of the sociological aspects of the AIDS crisis. Socio-history of the HIV/AIDS crisis in the United States and globally. Emphasis on how racial, class, gender and sexual inequalities have shaped the epidemiology of HIV/AIDS. Responses of dominant social institutions to the AIDS crisis. Collective action by impacted communities around issues of education, prevention, research, health care and support services. Contemporary issues facing people living with HIV/AIDS including stigma, discrimination, mental health, access to treatment, legal issues, and empowerment.

**Prerequisite:** SOC-100 with a minimum grade of C.

**SOC-358. Sociology Of Youth And Youth Culture. 3 Hours.**

An analysis of youth and youth culture including the historical context of adolescence, sociopolitical issues confronting youth and youth culture as a form of social and political resistance. Each topic will be explored through detailed analyses of relevant literature, discussions with professionals who work with youth, and student research projects.

**Prerequisite:** SOC-100 with a minimum grade of C.

**SOC-360. Sociology Of Occupations And Professions. 3 Hours.**

Exploration of the historical, theoretical and empirical literature on occupations and professions. Issues to be explored include the relationship between occupations and the family, education, technology and the political environment.

**Prerequisite:** SOC-100 with a minimum grade of C and SOC-221 with a minimum grade of C.

**SOC-362. Identity And Social Policy. 3 Hours.**

Critically examines the relationship between social policy, culture, identity, and change. Explores different perspectives on American and international social policy development, identity, and advocacy.

**Requirement:** noted prerequisites or permission of instructor

**Prerequisite:** SOC-100 with a minimum grade of C or SOC-105 with a minimum grade of C.

**SOC-365. Sociology Of Globalization. 3 Hours.**

Globalization is the worldwide integration of government policies, cultures, social movements, and financial markets through trade and the exchange of ideas. This course analyzes the processes that produce globalization and the outcomes of globalization, with a special focus on Chicago. Using a sociological lens we examine the development of globalization and its effects upon nation-states, individuals, culture, politics, inequality, and other aspects of society. Students will critically evaluate the effects of globalization with the goal of becoming engaged and empowered members of the global community.

**Prerequisite:** SOC 100 with a minimum grade of C.

**SOC-370. Sociology Of Food. 3 Hours.**

This course examines the relationship between food, society, and the environment. It explores the ways in which social structures and relations affect what people eat, how politics and economics affect the kinds of food that is produced, and where, how, and by whom it is produced. It also examines the social and environmental problems associated with food and agriculture, with a special emphasis on how global capitalism and inequalities affect both.

**SOC-371. Sociology Through Service Learning. 1 Hour.**

This course offers students an opportunity to acquire sociological content knowledge and develop analytical skills while providing important service at self-selected sites within the Chicagoland area that specifically serve marginalized populations. Students learn by applying course material to their experiences, and reflecting on those experiences. Students are expected to develop a sociological understanding of issues impacting marginalized communities and a commitment to civic responsibility and social justice.

**SOC-373. Community Action And Resistance. 3 Hours.**

Chicago metropolitan field investigation of community conditions, local institutions and action programs. Field investigations may be broad or concentrate on a particular school or community.

**Prerequisite:** SOC-100 with a minimum grade of C and (SOC-211 with a minimum grade of C or SOC-337 with a minimum grade of C).

**SOC-375. Government Intelligence Agencies. 3 Hours.**

A study of the various government agencies which collect intelligence within the U.S. and in foreign countries with emphasis on the kinds of intelligence gathered and the political uses to which it is put. The work of the CIA and the FBI are critically examined.

# Major in Sociology

---

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6
<b>Humanities (HU)*</b> 3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	9
<b>Behavioral/Social Sciences (SB)*</b> 3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	9
<b>Natural Sciences (NS and NSL)**</b> 3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	9

### Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

### Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

### Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

### Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

\* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

\*\* Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/graduation-requirements/bachelors-degree/>)

## Major in Sociology for the Bachelor of Arts Degree

Code	Title	Hours
<b>Required Core Courses</b>		
SOC-100	Introduction To Sociology	3
SOC-105	Social Inequalities And Social Change	3
SOC-335	Sociological Theory	3
SOC-337	Sociological Research Methods	3

## Minor in Sociology

All Sociology minors must complete three core courses (9 credit hours) and three electives (9 credit hours) for a total of 18 credit hours.

<b>Code</b>	<b>Title</b>	<b>Hours</b>
<b>Required Core Courses</b>		
SOC-100	Introduction To Sociology	3
SOC-105	Social Inequalities And Social Change	3
SOC-320	Sociological Analysis	3
Electives in Sociology		9
Total		18

Students majoring in Elementary Education and Early Childhood Education who have selected Sociology as a minor must complete a minimum of 9 hours of the minor in courses at the 300-level to meet graduation and certification requirements.

# Minor in Disability Studies

---

Disability Studies (DS) is an emerging interdisciplinary field that challenges dominant societal assumptions and attitudes about disability (physical, cognitive, emotional, or sensory) by reframing disability as a social and cultural construct used to differentially categorize bodies as "disabled" or "nondisabled." The DS minor offers students a new lens for thinking about "normality" by acknowledging disability as a universal part of the human experience, rather than a deficit that must be fixed, cured, or hidden. The minor critically examines the ways in which normative ideologies and systems stigmatize, dehumanize, pathologize, and minoritize disabled people (e.g., by justifying and maintaining exclusionary and ableist practices such as institutionalization, disenfranchisement, and immigration restrictions). It also highlights the ways in which disability simultaneously functions as a source of empowerment, pride, collective identity, and community for people with disabilities.

The minor draws on a variety of disciplines, including the humanities, social sciences, education, and law. By rethinking disability through multiple disciplinary perspectives, the minor prepares students to critically engage in working towards the inclusion and emancipation of people with disabilities throughout contemporary social systems and institutions.

Undergraduate admission to Northeastern Illinois University

For more information about the minor, contact program advisor Ashley Elrod [a-elrod@neiu.edu](mailto:a-elrod@neiu.edu).

---

## Why study disability?

Disability is a universal part of the human experience. It affects at least 15% of the global population and 25% of the U.S. population, in addition to the chronic illnesses and mental illnesses experienced by 60% and 20% of the U.S. population, respectively. Over the course of our lifetimes, we can expect to experience temporary or chronic disability ourselves or through our relationships with others, whether from birth or through injury, illness, or aging.

In addition to the knowledge and skills that students develop in their coursework, Disability Studies equips students with an invaluable tool for their careers and life-long learning: "a disability-studies consciousness [that] can alter the way we see" (Davis 2018). A disability-studies consciousness lends students a deeper, more nuanced insight into human social relations, institutions, and identity. They perceive that disability is far from marginal or tragic, but rather "fundamental to being human—a part of every life" (Garland-Thomson 2018). Participating in the DS minor will equip students with the tools to perceive, critically analyze, and equitably respond to disability issues that they encounter both in their own lives and in the larger society they navigate.

# Teaching English to Speakers of Other Languages (TESOL)

---

Teaching English to Speakers of Other Languages (TESOL) is the application of linguistics to the teaching of English to speakers of other languages. A degree in TESOL is in great demand, both in the U.S. and abroad. A career path in TESOL can result not only in the more obvious professions related to education (e.g., English language teacher, teacher trainer, program administrator, curriculum developer, materials developer) at the primary, secondary, and tertiary levels, but also in a variety of areas that require the skills set developed within a TESOL degree program (e.g., research, publishing, advocacy, government).

The NEIU TESOL Program (<https://www.neiu.edu/academics/college-of-arts-and-sciences/departments/teaching-english-speakers-of-other-languages-tesol/>) offers courses leading to a Master of Arts degree and a TESOL Graduate Certificate. The program also offers courses leading to an undergraduate minor in TESOL as well as an Illinois State Endorsement to teach ESL.

**Further information about our programs can be found on our website:** TESOL (<http://www.neiu.edu/academics/college-of-arts-and-sciences/departments/teaching-english-speakers-other-languages-tesol/>)

- Minor in TESL (<http://catalog.neiu.edu/arts-sciences/teaching-english-second-foreign-language/minor-tes-ltefl/>)
- ESL Endorsement Courses (<http://catalog.neiu.edu/arts-sciences/teaching-english-second-foreign-language/minor-tes-ltefl/#requirementstext>)

Undergraduate students may complete a minor in Teaching English to Speakers of Other Languages (TESOL). Minor Declaration Forms may be obtained from the department advisor, John Armour ([j-armour@neiu.edu](mailto:j-armour@neiu.edu)).

Undergraduate students (Type 03, 04, 09, 10) may simultaneously complete the requirements recognized by Northeastern Illinois University's Goodwin College of Education and take TESOL courses towards ESL endorsement. The state requirements include successful completion of the coursework identified for the minor, along with completion of 100 hours of TESOL clinical experience (TESL 399).

**Further information about our programs can be found on our website:** TESOL (<http://www.neiu.edu/academics/college-of-arts-and-sciences/departments/teaching-english-speakers-other-languages-tesol/>)

- Master of Arts in Teaching English to Speakers of Other Languages (<http://catalog.neiu.edu/arts-sciences/teaching-english-second-foreign-language/master-arts-tesl-tefl/>)
- TESOL Endorsement (<http://catalog.neiu.edu/arts-sciences/teaching-english-second-foreign-language/tesl-endorsement/>)
- TESOL Graduate Certificate Program (<http://catalog.neiu.edu/arts-sciences/teaching-english-second-foreign-language/certificate-tesol-graduate/>)

**Further information about our programs can be found on our website:** TESOL (<http://www.neiu.edu/academics/college-of-arts-and-sciences/departments/teaching-english-speakers-other-languages-tesol/>)

Denise Cloonan Cortez de Andersen, Ph.D., Professor of Spanish, Chair  
Jeanine Ntahirageza, Ph.D., Professor and Program Coordinator

**John Armour, M.A., Instructor and TESOL Graduate Certificate and Minor Advisor**

**Anne Gill-Bloyer, M.A., Instructor and SAELL Program Coordinator**

**Courtney Francis, M.A., Instructor and TESOL Clinicals Supervisor**

**Senyung Lee, Ph.D., Assistant Professor**

**Ulugbek Nurmukhamedov, Ph.D., Associate Professor**

**Tina Villa, Ph.D., Instructor and Coordinator of the English Language Program**

**Gina Wells, Ph.D., Instructor and Graduate Student Advisor**

**TESL-109A. First Year Experience: Chicago Speaks: Helping Immigrants Communicate. 3 Hours.**

In this course, the four foundations (Future Planning, Academics, Self-Discovery and Transitions) of the First-Year Experience are interwoven with the field specific concepts and terminology of teaching English as a second language (TESL). This course introduces the structure of the English language and methods of teaching it to speakers of other languages. This involves investigating the pronunciation and grammar of English as well as looking at ways to teach these subjects along with listening, speaking, reading and writing skills to English Language Learners (ELLs). The course will involve a service learning component in which students will tutor ELLs in various sites throughout Chicagoland. As students study the basics of teaching English as a second language, they will develop academic skills that will contribute to their success in college and beyond.

**TESL-301. The English Language For Teachers. 3 Hours.**

All language teachers must understand how the English language works and must be able to describe how it works. This course is designed for future teachers of the English language. It covers the structure of sounds, words, phrases, and sentences; language use; and the structure of meaning of the English language, with applications of each topic to the teaching of the English language and English language arts. The history of the English language will also be included, as background to English word and sentence structure.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**TESL-310. English Grammar: Description & Instruction. 3 Hours.**

All teachers of English as a second or foreign language must have a good descriptive knowledge of English grammar as well as an arsenal of techniques for instructing their students. This course is intended to help future ESL/EFL teachers develop an understanding of the structure of English sentences and the problems that non-native students face when learning English grammar. This course will also investigate ways of teaching grammar to English language learners.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**TESL-320A. Language & Culture: General. 3 Hours.**

**Prerequisite:** ENGL-101 with a minimum grade of C.

**TESL-320D. Language & Culture: Japan. 3 Hours.**

**Prerequisite:** ENGL-101 with a minimum grade of C.

**TESL-320G. Language & Culture: Southeast Asia. 3 Hours.**

**Prerequisite:** ENGL-101 with a minimum grade of C.

**TESL-320H. Language & Culture: Thailand. 3 Hours.**

**Prerequisite:** ENGL-101 with a minimum grade of C.

**TESL-320K. Language & Culture: Latin America. 3 Hours.**

**Prerequisite:** ENGL-101 with a minimum grade of C.

**TESL-320N. Language & Culture: Native American. 3 Hours.**

**Prerequisite:** ENGL-101 with a minimum grade of C.

**TESL-320O. Language & Culture: Afro-American. 3 Hours.**

**Prerequisite:** ENGL-101 with a minimum grade of C.

**TESL-320P. Language & Culture: The Deaf. 3 Hours.**

**Prerequisite:** ENGL-101 with a minimum grade of C.

**TESL-320Q. Language & Culture: Maya. 3 Hours.**

**Prerequisite:** ENGL-101 with a minimum grade of C.

**TESL-321. 1st & 2nd Language Acquisition. 3 Hours.**

Survey of recent theories and research on children's acquisition of phonological, morphological, syntactic, semantic and pragmatic systems of their first language. Survey of recent theories and research on second language acquisition.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**TESL-330. Language, Society, And Education. 3 Hours.**

Researchers who study the relationship between language and society or culture are in a unique position to provide insight into language- and culture-related social problems. This course is based on the notion that many educational problems are related to differences between students' home language or dialect and the "official" school variety. It examines the relationship between language, society, and culture with particular attention to how factors such as class, gender, race, and ethnicity impact student performance in the classroom. Issues of identity, bilingualism, and language prejudice will also be addressed.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**TESL-331. Investigation Of African American English. 3 Hours.**

TESL-331 offers the opportunity to explore longstanding questions about African American English, a variety of English that is prevalent in Chicago and nationwide. As a foundation, students will learn about the features of African American English. With the support of the instructor, students will choose and develop their own research questions and hypotheses, a research proposal, and conduct a short study. Students will learn, as they progress, how to create an abstract, annotated bibliography, literature review, and research methodology. Students will conduct their studies with the support of the instructor. This course culminates in the sharing of the research findings.

**TESL-340. Practices & Procedures. 3 Hours.**

Practices and techniques related to the teaching of English as a second language, in ESL or bilingual education programs; meant for those students who are not yet teaching in the field.

**Prerequisite:** ENGL-101 with a minimum grade of C and (TESL-321 with a minimum grade of C or TESL-341 with a minimum grade of C).

**TESL-341. Principles Of Language Teaching. 3 Hours.**

Theories and principles underlying the teaching of English as a second language to limited-English speaking children and adults. Survey of various methodologies in second language teaching and bilingual education. Reviews relationships between language and culture and discusses the major problems in language education.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**TESL-343. Introduction To Language Assessment. 3 Hours.**

This is an introductory language assessment course that offers an opportunity to gain knowledge in the basic concepts in language assessment. It covers basic principles and procedures of assessment, with an emphasis on the second language context. In addition to theoretical foundations, students will gain practical experience in how to construct test items with considerations of reliability and validity, use alternative assessment, analyze test results, and communicate test results with diverse audiences.

**Prerequisite:** TESL-340 with a minimum grade of C or TESL-341 with a minimum grade of C.

**TESL-345. Linguistics & Reading. 3 Hours.**

Relationship between language structure and the reading process with emphasis on the practical problems such as the variety of dialectally different sound-symbol-correspondences in English, the perception of speech sounds, the reader's interpretation of syntactic and semantic structures, various alphabetic systems for teaching reading. Designed to be useful to the in-service classroom teacher as well as to undergraduates.

**Prerequisite:** TESL-301 with a minimum grade of C.

**TESL-399. Clinical Experience In TESOL. 1 Hour.**

This course is designed to provide on-site experience in teaching English to non-native speakers in grades K-12. Students will observe and work with a master teacher and be supervised by a TESOL/TEFL professor. Student will engage in classroom discussion and various projects based on their classroom work.

**Prerequisite:** TESL-340 with a minimum grade of C.

**TESL-402. Principles Of Linguistics For Teachers. 3 Hours.**

This course examines the components of the science of language and how these relate to teaching English as a second/foreign language. Although the emphasis is on the linguistic components of English, a comparison with other languages and implications for teaching a second/foreign language will be integral to the course. Among other topics, it will cover English phonetics, phonology, morphology, syntax, and semantics and offer classroom-oriented applications of linguistic principles for effective instruction of English as a second or foreign language.

**TESL-406. Adult Needs, Design And Assessment. 3 Hours.**

Adult English language learners represent a wide variety of linguistic backgrounds, cultural experiences and personal needs. They may learn English for survival/life skills, job improvement or academic preparation. This course provides instructors with an appreciation for cross-cultural learners and their communication skills. In addition, this course looks at adult program options and their relationship to curriculum design. Principles of assessment, and varied assessment tools used in the adult education setting will also be addressed. Website tools aiding course management, assessment and self-study will be utilized.

**Prerequisite:** TESL-410 with a minimum grade of B.

**TESL-409. Research Design & Methods. 3 Hours.**

Survey course, reviewing the major trends and methodologies used in linguistics, language acquisition, and language teaching. Exploration of quantitative approaches used in language-specific inquiry through the examination of a variety of studies from the literature, their questions, their underlying assumptions, and their design. Prior knowledge of statistics is not required.

**Prerequisite:** TESL-402 with a minimum grade of C.

**TESL-410. Techniques Of Teaching English As A Second Language. 3 Hours.**

Survey of techniques specifically relevant to the teaching of English as a second language. Questions relating to the design and sequencing of ESL courses, to procedures for evaluation of ESL students and to criteria for choosing, adapting and creating teaching materials.

**Prerequisite:** TESL-414 with a minimum grade of C and TESL-402 with a minimum grade of C.

**TESL-414. Theories Of Teaching English As A Second Language. 3 Hours.**

Survey of theories of the teaching and learning of English as a second or foreign language. A look at the historical growth and development of second language methodologies from grammar-translation and the direct method, through the audio-lingual method and its offspring, and up to the current natural and eclectic period.

**TESL-420. Structure Of Modern English. 3 Hours.**

Description and analysis of the major grammatical structures of spoken and written English in light of traditional and descriptivist theories. This course covers practical issues and procedures involved in teaching grammar to ESL/EFL learners.

**TESL-426. Advanced Linguistic Analysis. 3 Hours.**

Advanced analysis of the structure of language, including phonology, morphology, syntax and semantics. Each topic will be explored through detailed analysis and comparison of data from a variety of languages in addition to English.

**Prerequisite:** TESL-402 with a minimum grade of C.

**TESL-427. Teaching Pronunciation. 3 Hours.**

This course covers practices and procedures involved in helping English Language Learners (ELLs) improve their intelligibility and increase their speech perception. Through an applied approach, students will develop a deeper understanding of English phonetics and phonology at both the segmental and prosodic levels. They will learn how to apply this knowledge to teaching pronunciation to English language learners (ELLs) of all ages. The course will also cover societal attitudes about accent through an investigation of current research.

**Prerequisite:** TESL-402 with a minimum grade of C and TESL-414 with a minimum grade of C and TESL-410 with a minimum grade of C.

**TESL-430B. Structure Of Language: Latin. 3 Hours.**

**Prerequisite:** TESL-402 with a minimum grade of C and TESL-420 with a minimum grade of C and TESL-426 with a minimum grade of C.

**TESL-430C. Structure Of Language: Lakhota. 3 Hours.**

**Prerequisite:** TESL-402 with a minimum grade of C and TESL-420 with a minimum grade of C and TESL-426 with a minimum grade of C.

**TESL-430D. Structure Of Language: Rotuman. 3 Hours.**

**Prerequisite:** TESL-402 with a minimum grade of C and TESL-420 with a minimum grade of C and TESL-426 with a minimum grade of C.

**TESL-430E. Structure Of Language: Thai. 3 Hours.**

**Prerequisite:** TESL-402 with a minimum grade of C and TESL-420 with a minimum grade of C and TESL-426 with a minimum grade of C.

**TESL-430F. Structure Of Language: Tai, Kirundi, Tun, Arabic. 3 Hours.**

**Prerequisite:** TESL-402 with a minimum grade of C and TESL-420 with a minimum grade of C and TESL-426 with a minimum grade of C.

**TESL-433. Lexicography. 3 Hours.**

Review of the problems and trends of word study in the past, especially the notions surrounding the concepts of authority and usage of language: scrutiny of the various types and sources of English vocabulary; recent linguistic insights considered in the light of their value for various kinds of handbooks.

**TESL-440. Language & Literacy. 3 Hours.**

Differences between spoken and written languages; the functions of writing in a literate society; writing systems with particular reference to English orthography; current psycholinguistic research on the acquisition of written language skill; pedagogical implications of linguistic views on literacy.

**Prerequisite:** TESL-402 with a minimum grade of C.

**TESL-442. Using Technology With Second Language Learners. 3 Hours.**

In this class, students will explore the interface between current approaches to second language pedagogy, theories of language learning, and technology. They will examine questions of the development and current status of computer applied language learning; the digital divide and language minority students; appropriate and inappropriate uses of technology for language learning; use of technology to support student instruction in listening, speaking, reading, writing, culture, pronunciation, vocabulary and grammar; technology and learner variation; and issues of technology and assessment.

**Prerequisite:** TESL-410 with a minimum grade of C.

**TESL-445. Language Variation. 3 Hours.**

All languages vary- across time, distance, social class, gender, situation, and ethnicity. This course examines the societal and cultural influences on both the forms and uses of different varieties of English as well as other languages, and demonstrates how one's language and language variety affect one's identity, school achievement, etc. Topics include language attitudes and stereotypes, ideology, intercultural and interethnic communication, and the spread of English. Special emphasis will be placed on how these notions of language varieties apply to the teaching and learning of second and foreign languages.

**TESL-447. Pragmatics. 3 Hours.**

Study of the interface between language and meaning at the level of discourse. Focuses on communication as dialogic interaction and the nexus of word meanings and speaker intentions in language use. Considers the multiple layers of context as factors that affect the interpretation of speaker role and appropriateness of use. Additionally, examines intercultural pragmatics as it pertains to the acquisition of second language culture and the communicative differences between cultures.

**Prerequisite:** TESL-445 with a minimum grade of C.

**TESL-451. Lexically-Based Instruction. 3 Hours.**

This course is built on the notion that the optimal second-foreign language syllabus is a lexically-based one. The course covers vocabulary knowledge and acquisition from the perspectives of both the second language learner and the teacher. Topics covered include what it means to "know a word", memory, dictionaries and other tools, learner strategies, vocabulary assessment, selection criteria, and teaching techniques.

**Prerequisite:** TESL-402 with a minimum grade of C and TESL-410 with a minimum grade of C.

**TESL-452. Content-Based Instruction. 3 Hours.**

Exploration of content-based instruction as an approach to teaching English language learners. Functioning as both a method in the English as a second or foreign language classroom and as a technique for meeting the needs of English language learners in the content area classroom, its theory and practice are examined through the various models and the standard-based curriculum. Additionally, practices and strategies related to planning, implementing, and managing ESL and content instruction, including classroom organization, teaching strategies for developing and integrating language skills, and choosing and adapting classroom resources are addressed.

**Prerequisite:** TESL-414 with a minimum grade of C.

**TESL-460. Second Language Acquisition. 3 Hours.**

This course provides a general introduction to the field of second language acquisition (SLA), giving a broad overview of the history of the field and helping students attain foundational SLA literacy. Through developing an understanding of linguistic, social, affective, and cognitive influences, students will familiarize themselves with key SLA concepts, review pedagogical implications of empirical research and explore ways of modifying instruction to facilitate the acquisition of a primary and a new language in and out of classroom settings.

**Prerequisite:** TESL-410 with a minimum grade of C and TESL-420 with a minimum grade of C.

**TESL-465. Experiential Preparation For Teaching English As A Second Language. 3 Hours.**

Emphasis on the preparation of materials and the development of teaching strategies for specific ESL classroom uses. Students examine and evaluate commercially prepared and teacher made materials and lesson plans and devise a limited set of materials of their own. Students will either demonstrate these materials or observe their use in an actual classroom or tutoring situation.

**Prerequisite:** TESL-402 with a minimum grade of B and TESL-410 with a minimum grade of B and TESL-414 with a minimum grade of B.

**TESL-468. Principles Of Language Assessment. 3 Hours.**

The purpose of the course is to familiarize students with the fundamental concepts and principles of second language (L2) assessment. The students will gain hands-on experience in designing and administering language assessments in the areas of L2 reading, writing, listening, speaking, including vocabulary and grammar. In addition, this course is intended to train teachers how to evaluate popular standardized tests (e.g., iBT TOEFL, ACCESS for ELLs, IELTS) and help them interpret and write clearly about test results.

**Prerequisite:** TESL-410 with a minimum grade of C.

**TESL-471. Evolution Of Laws & Policies In Language Instruction. 3 Hours.**

Survey of the historical and current ideologies, the laws which they informed, and the policies and practices which resulted regarding language use in the educational system. Use will be explored in terms of language as a medium of communication, language as a medium of instruction, and language as a content area. Comparisons will be drawn between the US and international contexts. After extensive readings in the literature and in class preparation, students will be expected to design a grant proposal and make a presentation on a topic directly related to an area of their choice.

**TESL-490A. Seminar In TESL: Materials Preparation. 3 Hours.**

**Prerequisite:** TESL-426 with a minimum grade of B and TESL-445 with a minimum grade of B and TESL-460 with a minimum grade of B.

**TESL-490C. Seminar In TESL: Special Education. 3 Hours.**

**Prerequisite:** TESL-426 with a minimum grade of B and TESL-445 with a minimum grade of B and TESL-460 with a minimum grade of B.

**TESL-490E. Seminar In TESL: Current Research. 3 Hours.**

**Prerequisite:** TESL-426 with a minimum grade of B and TESL-445 with a minimum grade of B and TESL-460 with a minimum grade of B.

**TESL-490F. Seminar In TESL: Language & Culture. 3 Hours.**

**Prerequisite:** TESL-426 with a minimum grade of B and TESL-445 with a minimum grade of B and TESL-460 with a minimum grade of B.

**TESL-490J. Seminar In TESL: Vocabulary. 3 Hours.**

**Prerequisite:** TESL-426 with a minimum grade of B and TESL-445 with a minimum grade of B and TESL-460 with a minimum grade of B.

**TESL-490K. Seminar In TESL: 1st & 2nd Language Acquisition. 3 Hours.**

**Prerequisite:** TESL-426 with a minimum grade of B and TESL-445 with a minimum grade of B and TESL-460 with a minimum grade of B.

**TESL-5901. Thesis Hours. 1 Hour.**

Guidance of students conducting research and writing a thesis to fulfill the requirements for the Master of Arts degree in TESL/TEFL. This course requires approval of the instructor, Department Chair and the appropriate College Dean(s).

**Prerequisite:** TESL-402 with a minimum grade of C and TESL-420 with a minimum grade of C and TESL-426 with a minimum grade of C.

**TESL-5902. Thesis Hours. 2 Hours.**

See course description for TESL-5901.

**Prerequisite:** TESL-402 with a minimum grade of C and TESL-420 with a minimum grade of C and TESL-426 with a minimum grade of C.

**TESL-5903. Thesis Hours. 3 Hours.**

See course description for TESL-5901.

**Prerequisite:** TESL-402 with a minimum grade of C and TESL-420 with a minimum grade of C and TESL-426 with a minimum grade of C.

# Master of Arts in Teaching English to Speakers of Other Languages

---

## Master of Arts in Teaching English to Speakers of Other Languages

The M.A. in Teaching English to Speakers of Other Languages gives students an understanding of the nature of language, culture, instruction, assessment, and professionalism, and their interrelationships. The M.A. in TESOL prepares one to teach English in the US or overseas. In addition, students who have a valid teaching certificate can take courses leading to the Illinois State Endorsement to teach ESL. See more below under “TESOL Endorsement”.

The program is designed for full- or part-time students, and all master’s level courses in the fall and spring are offered in the evenings.

### Requirements for Admission to the M.A. Program:

Students must fulfill the requirements for admission to the Graduate College of Northeastern Illinois University and apply to the TESOL Program for admission to the degree program. A student-at-large may transfer no more than 9 credit hours of graduate coursework into the graduate TESOL program.

### Program Prerequisites:

Students entering the M.A. in TESOL program are not expected to have any prior preparation or knowledge of the field.

Language requirement:

- For students whose native language is English: 9 hours of college level work—or the equivalent—in one or more foreign languages, or a demonstrated proficiency in a foreign language at ACTFL level 2 or above.

- For students whose native language is not English: English proficiency demonstrated by a score of 95 on the internet based TOEFL (IBT), with a minimum of 20 on each of the four sections; or by a score of 7.0 on IELTS, with a minimum of 6.5 on each of the four sections; or by a score of 587 on the paper-based TOEFL.

**For additional information visit the TESOL program website.** (<https://www.neiu.edu/academics/college-of-arts-and-sciences/departments/teaching-english-speakers-of-other-languages-tesol/>)

### Requirements for the Degree:

All graduate credits must be at the 400 level.

Students enrolled in the TESOL M.A. program must have a cumulative grade point average of at least 3.0 in all courses taken in fulfillment of the degree program.

All students pursuing a Master of Arts in TESOL will be required to submit a graduation project as one part of their graduation requirements. The project will consist of a capstone paper with 5 elements to be included as appendices. Students pursuing the M.A. in TESOL will be assigned an advisor early in their degree program for assistance in the preparation of the capstone paper. Please refer to the program website for specific information with regard to timing, formatting, etc.

Additionally, students can choose from two options: a thesis and a non-thesis option.

The thesis option requires 30 hours of completed coursework, including

1. all required courses with a cumulative grade point average of at least 3.0 and no more than two grades of C;
2. a master’s thesis for an additional 6 hours credit.

The thesis option may be exercised only with department approval.

The non-thesis option requires 36 hours of 400-level course work as specified with a cumulative grade point average of at least 3.0 and no more than two grades of C, plus the final capstone paper (“Graduation Project”).

Any special program design, tutored study, or independent study must be approved in advance by the graduate advisor, and also requires the approval of the instructor, department chair, and the appropriate college dean(s).

Code	Title	Hours
<b>Course Requirements</b>		
	Language	

TESL-402	Principles Of Linguistics For Teachers	3
TESL-420	Structure Of Modern English	3
TESL-426	Advanced Linguistic Analysis	3
<b>Culture</b>		
TESL-445	Language Variation	3
TESL-447	Pragmatics (or another culture-related course, in consultation with the advisor)	3

TESL-410	Techniques Of Teaching English As A Second Language	3
One other course, in consultation with the advisor		
<b>Assessment</b>		
TESL-468	Principles Of Language Assessment	3
<b>Professionalism</b>		
TESL-414	Theories Of Teaching English As A Second Language	3
TESL-460	Second Language Acquisition	3
<b>Total Hours</b>		<b>30</b>

## Electives

Non-thesis Option: Six credits worth of electives are selected from the list of 400-level courses approved by the TESOL graduate advisor. In addition, a limited number of courses offered by other departments may be taken as electives. See your advisor for more information.

Thesis Option: Six credits of Thesis Hours (TESL 5901-3).

TESL courses which may be taken as electives include:

Code	Title	Hours
TESL-409	Research Design & Methods	3
TESL-430F	Structure Of Language: Tai, Kirundi, Tun, Arabic	3
TESL-433	Lexicography	3

# TESOL Graduate Certificate

## TESOL Graduate Certificate Program

The TESOL Graduate Certificate Program will provide practical skills and knowledge to individuals who wish to teach English language learners. It is designed for individuals who want to work at community colleges, community-based organizations, or language schools in the U.S. or abroad. The Certificate consists of six courses (18 credits), including a 60-hour practicum. It prepares individuals to create lessons, develop materials, and assess English learners, with a particular emphasis on adult learners. It is designed to be completed in one year or two semesters, depending on which of the three scheduling options is chosen. Of the three options, one would take a year, while the other two offer an intensive option in a cohort model.

## ADMISSION REQUIREMENTS

Individuals who wish to study in the TESOL Graduate Certificate Program must fulfill the requirements for admission to the College of Graduate Studies & Research and apply to the TESOL Graduate Certificate Program. Prior experience in education or teaching is not required. Requirements to the College of Graduate Studies & Research are:

1. Transcripts submitted from previous college work with a minimum undergraduate grade point average of 2.75.
2. Possess an undergraduate degree from a regionally accredited college or university.
3. A completed graduate application accompanied by a \$30 fee.

Additionally, the TESOL Graduate Certificate Program admission requirements are:

Language requirement:

- For native speakers, 9 credits of college level work, or the equivalent, in one or more foreign languages, or a level 2 in a foreign language on the American Council on the Teaching of Foreign Languages Proficiency Assessment.
- For non-native speakers, English proficiency demonstrated by a score of 95 on the internet-based TOEFL (IBT), with a minimum of 20 on each of 4 sections or by a score of 7.0 on IELTS, with a minimum of 6.5 on each of the four sections; or by a score of 587 on the paper-based TOEFL.

## Requirements for the TESOL Graduate Certificate Program:

The 18-credit curriculum of the TESOL Graduate Certificate reflects the practical knowledge and skills conveyed in the five already existing TESOL graduate courses, the *Adult Needs, Course Design, and Assessment* course, and the 60-hour practicum.

Students are required to complete the five courses (15 credits) plus the practicum (3 credits) indicated below.

Code	Title	Hours
TESL-402	Principles Of Linguistics For Teachers	3
TESL-410	Techniques Of Teaching English As A Second Language	3
TESL-414	Theories Of Teaching English As A Second Language	3
TESL-420	Structure Of Modern English	3
TESL-406	Adult Needs, Design And Assessment	3
TESL-465	Experiential Preparation For Teaching English As A Second Language	3

**The sample plans of study are provided to guide you in the progression for this program. This guide should not replace regular consultations with the program coordinator. For specific recommendations of courses not identified, please consult the program coordinator.**

# Minor in TESL

---

The TESOL Program offers courses leading to an undergraduate minor. In addition, these same courses can be taken by students in the College of Education who are pursuing state licensure for teaching (license types 03, 04, 09, or 10) and would simultaneously like to work toward an endorsement for teaching English as a second language in the State of Illinois. Students seeking the TESOL Endorsement will also need to complete an additional 100 clinical hours in an ESL setting; these should be completed in conjunction with enrollment in TESL 399.

Please note: The 100 clinical hours are NOT a requirement of the Minor in TESL; they are one of the state's requirements for receiving the TESOL endorsement.

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6
<b>Humanities (HU)*</b> 3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	9
<b>Behavioral/Social Sciences (SB)*</b> 3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	9
<b>Natural Sciences (NS and NSL)**</b> 3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	9

### Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

#### Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

#### Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

### Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

\* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

\*\* Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/graduation-requirements/bachelors-degree/>)

## Minor in TESL (18 credit hours)

Code	Title	Hours
<b>Required Courses <sup>1</sup></b>		
TESL-301	The English Language For Teachers	3
TESL-310	English Grammar: Description & Instruction	3
TESL-330 or TESL-320K	Language, Society, And Education Language & Culture: Latin America	3
TESL-341	Principles Of Language Teaching	3
TESL-340	Practices & Procedures	3
TESL-343 or BLBC-342	Introduction To Language Assessment Assessment In The Bilingual Classroom	3
<b>Total Hours</b>		<b>18</b>

<sup>1</sup> Alternate options may be available to fulfill the minor. Please contact the TESOL undergraduate advisor.

**This sample plan of study is provided to guide you in the planning of your progression for this program. This guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor (<https://www.neiu.edu/faculty/john-r-armour/>).**

### Sample Plan of Study:

<b>First Year</b>		
<b>Term 1</b>		
TESL-301	The English Language For Teachers	3
TESL-341	Principles Of Language Teaching	3
<b>Term Hours</b>		<b>6</b>
<b>Term 2</b>		
TESL-310	English Grammar: Description Instruction	3
TESL-340	Practices Procedures	3
<b>Term Hours</b>		<b>6</b>
<b>Second Year</b>		
<b>Term 1</b>		
TESL-330	Language, Society, And Education	3
<b>Term Hours</b>		<b>3</b>
<b>Term 2</b>		
TESL-343	Introduction To Language Assessment	3
<b>Term Hours</b>		<b>3</b>
<b>Total Hours:</b>		<b>18</b>

**Please note: It is possible to complete the program requirements while earning the credits necessary for approval to teach English as a Second Language on a valid Illinois teaching certificate (03, 04, 09, or 10). The state approval also requires 100 clock hours of ESL experience, but this is NOT a requirement of the minor; they can be fulfilled by taking TESL 399. Please contact your advisor for more information and to discuss your course sequence**

# TESOL Endorsement

## ESL Endorsement Courses

The TESOL Program offers graduate courses that can be taken by individuals who are already state licensed teachers who wish to qualify for State of Illinois Endorsement to teach ESL. For undergraduate students who are working toward a state certification and would like to simultaneously complete coursework leading to the endorsement at the undergraduate level, please see "Minor in TESL (<http://catalog.neiu.edu/arts-sciences/teaching-english-second-foreign-language/minor-tes-ltefl/>)".

### To obtain an ESL Endorsement you need to:

- Possess or working towards a valid Early Childhood, Elementary, Secondary, or Special Education Illinois Teaching License (license types 03, 04, 09, or 10)
- Complete 18 credit hours distributed among five course areas designated by the state. NEIU offers the courses below to fulfill TESOL Endorsement requirements. See your advisor for other courses that may be acceptable.

Code	Title	Hours
Linguistics		
TESL-402	Principles Of Linguistics For Teachers	3
TESL-420	Structure Of Modern English (Prereq: TESL-402)	3
Theoretical Foundations of Teaching ESL		
TESL-414	Theories Of Teaching English As A Second Language	3
Assessment of the Bilingual Student		
TESL-468	Principles Of Language Assessment (Prereq: TESL-410 and TESL-414)	3
Methods and Materials of Teaching ESL		
TESL-410	Techniques Of Teaching English As A Second Language (Prereq: TESL-414)	3
Cross-Cultural Studies for Teaching Limited English-Proficient (LEP) Students		
TESL-445	Language Variation	3

- Complete 100 clock hours of ESL clinical experience. See your advisor for placement.
- **Please note:** Teachers with an Illinois teaching license endorsed in a special education teaching field, or a license with a special education approval, can meet requirements for the ISBE ESL Special Education Approval by completing three (3) classes or a total of 9 credit hours: TESL 414, TESL 410, and TESL 468.

**This sample plan of study is provided to guide you in the planning of your progression for this program. This guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor.**

# Women's, Gender and Sexuality Studies Program

---

Women's, Gender & Sexuality Studies (WGS) is an interdisciplinary field that centers intersectional feminism. WGS explores the many ways that sexism, heterosexism, and other forms of oppression shape identities and impact lived experiences. WGS recognizes that the problem is unjust systems not individuals, that the personal is political, and that sexism and heteronormativity intersect with other forms of oppression such as racism, classism, and ableism. WGS centers the experiences of marginalized groups including people of color and those who are women, trans, queer, non binary, disabled, poor, and/or undocumented, among others.

The mission of the program is to empower students to reimagine the future and work towards liberation for all communities. WGS is not just about learning facts and theories, but also about praxis—using learned and experiential knowledge to become practitioners, researchers, learners, leaders and activists. WGS works to create an environment of learning and passionate commitment to the development and implementation of meaningful social change within the university and beyond.

The program operates the Blanche Hersh Women's, Gender and Sexuality Studies Resource Center located in LWH 2096. The Center is place where students, faculty and staff can gather in a more informal setting. It houses a library of books and periodicals.

- Major in Women's, Gender and Sexuality Studies (<http://catalog.neiu.edu/arts-sciences/womens-gender-studies-program/womens-gender-studies/>)
- Minor in Women's, Gender and Sexuality Studies (<http://catalog.neiu.edu/arts-sciences/womens-gender-studies-program/minor-womens-gender-studies/>)
- Minor in Lesbian, Gay, Bisexual, Transgender and Queer Studies (<http://catalog.neiu.edu/arts-sciences/womens-gender-studies-program/minor-lgbtq-studies/>)

Adam M. Messinger, Ph.D., Professor, Justice Studies, Chair  
 Kristen Over, Ph.D., Associate Professor, English, Program Coordinator

## Core Faculty

Brandon Bisbey, Ph.D., Professor, World Languages & Cultures  
 Laurie Fuller, Ph.D., Professor, Women's, Gender and Sexuality Studies  
 Stacey Goguen, Ph.D., Associate Professor, Philosophy  
 Brooke Johnson, Ph.D., Professor, Sociology  
 Erica Meiners, Ph.D., Professor, Educational Inquiry & Curriculum Studies  
 Olivia Perlow, Ph.D., Professor, Sociology  
 Lisa Hollis-Sawyer, Ph.D., Associate Professor, Psychology  
 Brett C. Stockdill, Ph.D., Professor, Sociology  
 Durene Wheeler, Ph.D., Professor, Educational Inquiry & Curriculum Studies

## Affiliate Faculty

Gaylon Alcaraz, Instructor, Justice Studies  
 Tim Barnett, Ph.D., Professor, English  
 Ashley L. Elrod, Ph.D., Assistant Professor, History  
 Aneta Galary, Ph.D., Instructor, Sociology  
 E. Mar García, Ph.D., Associate Professor, English  
 Nikolas Hoel, Ph.D., Instructor, History  
 Tracy Luedke, Ph.D., Professor, Anthropology  
 Lauren A. Meranda, M.F.A, Assistant Professor, Art + Design  
 Christopher Merchant, Ph.D., Associate Professor, Psychology  
 Sophia Mihic, Ph.D., Professor, Political Science  
 Francesca Morgan, Ph.D., Professor, History  
 DeWitt Scott, Ed.D., Director, Angelina Pedroso Center for Diversity and Intercultural Affairs  
 Cynthia H. Sims, Ed.D., Instructor, Literacy, Leadership, and Development

## WGS-101. Introduction To Women's, Gender & Sexuality Studies. 3 Hours.

This course introduces students to major issues and debates within the interdisciplinary field of women's, gender, and sexuality studies. (This is a General Education course in the area of Humanities.)

## WGS-109A. First Year Experience: Sex Lives In Chicago. 3 Hours.

FYE: Sex Lives in Chicago critically examines sexualities in the social and physical space of Chicago from a feminist, sex-positive standpoint. In this course, the five foundations of the First-Year Experience (Future Planning, Integral Preparation, Research, Self-discovery and Transitions) are interwoven into the concepts of sexualities, gender and power. This course explores the diversity of sexual identities, practices, and behaviors in historical and modern Chicago. Students will discover the diversity and complexity of sexualities in Chicago through readings, speakers, films, and field experiences while simultaneously building personal and academic skills that ensure success at NEIU.

**WGS-150. Women's Self-Defense. 1 Hour.**

This course develops a framework for understanding violence and self-defense. Major focus is on learning and practicing awareness, prevention, assessment, verbal boundary setting and physical self-defense skills in simulated scenarios. (This course is not repeatable.).

**WGS-201. Writing Intensive Program: Writing For Social Change. 3 Hours.**

Examines the importance of writing for resistance and advocacy in struggles for social change and justice. Students also learn and practice writing in the discipline of Women's, Gender & Sexuality Studies.

**Prerequisite:** (WSP-101 with a minimum grade of C or WGS-101 with a minimum grade of C) and ENGL-101 with a minimum grade of C.

**WGS-210. Introduction To Lesbian, Gay, Bisexual, Transgender & Queer Studies. 3 Hours.**

The Introduction to Lesbian, Gay, Bisexual, Transgendered and Queer (LGBTQ) Studies offers an introductory and interdisciplinary approach to studying the lives, histories and cultures of LGBTQ communities and allies. This course focuses on the multiplicity and diversity in gender and sexual expression including how race, class, ability and other identity markers shape LGBTQ lives. Examining introductory questions in gender and sexualities studies, the course addresses the intersection of identity, knowledge and action through critical thinking, analysis, active learning and social engagement.

**WGS-300. Feminist Activism. 3 Hours.**

This course focuses on the many forms of feminist activism in the U.S. and beyond, including examining the ways that racism, gender and class politics are intertwined with feminist activism of the past and present. This course also explores feminist struggles against domestic and sexual violence, as well as their fight for personhood, citizenship, legal rights, property rights, disability rights, personal freedom, suffrage, education, reproductive rights, workplace equality, and more. Students in the course will create and participate in activist projects during the semester.

**Prerequisite:** WGS-101 with a minimum grade of C.

**WGS-302. Feminist Theory. 3 Hours.**

This course examines feminist theory and the complex issues that feminist activism raises including the multiple ways that feminist theory challenges students to imagine justice and liberation.

**Prerequisite:** WSP-101 with a minimum grade of C or WGS-101 with a minimum grade of C.

**WGS-303. Writing Intensive Program: The Power Of Writing: Interdisciplinarity As Critical Practice. 3 Hours.**

This course examines the importance of writing for resistance and advocacy in struggles for social change and justice. Students learn and practice writing in the discipline of Women's, Gender & Sexuality Studies. The course encourages students to embrace writing critically and creatively in order to express themselves effectively in a broad range of contexts. The course, and the interdisciplinary writing skills on which it focuses, are relevant to students from many academic fields.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**WGS-310. Lesbian & Queer Cultures: Identities, Histories & Resistance. 3 Hours.**

This interdisciplinary course introduces students to historical and theoretical research through a series of topics: Identity, Sex, Violence, Activism, and Beyond. This will form the contexts for exploring issues and questions surrounding lesbian and queer cultures. Books, articles, magazines, videos, films, music, art, and more will be used. What makes up, establishes, creates, develops, organizes lesbian and queer cultures? This will be examined, in the context of various struggles over meanings and identities, considering that those meanings change over time and context and differ across race, class and other identity markers.

**WGS-311. Power, Knowledge & Communities: Feminists Engagements With Education. 3 Hours.**

This course focuses on the role of the educational system in the constructions and reproduction of gender and racial inequality. Using both academic and popular literature to gain perspectives, we will examine relationships between school and society. Topics to be addressed include the historical constructions, representation of schooling and the teaching profession, popular culture and education, and sexuality and schooling.

**WGS-312. Women & Global Human Rights. 3 Hours.**

Women's issues have recently been viewed through the lens of human rights. Increasingly they are included in the goals, programs and policies of international human rights organizations, from the United Nations to Amnesty International. This course will examine this shift in perspective and the impact it is having on women's lives worldwide. We will explore international human rights as they apply to women. What do we mean by "human rights"? How have these rights been socially defined, struggled over, and, in some cases, won? To what extent have women and women's rights been included in these conversations and struggles?.

**WGS-313. Radical Feminist Imagination. 3 Hours.**

Examination of literary works broadly representative of something called feminist imaginative response to U.S. patriarchy. The meaning of radical feminism will be explored as authors from a range of racial, class, and sexual identities are placed in dialogue with each other and with their respective socio-historical and cultural contexts. Focus will be on textual interpretation and exploring how each work attempts to develop its version of feminist consciousness. The course will investigate how these texts formulate a narrative of women's liberation against the dominant patriarchal narratives that inform cultural consciousness and social relations.

**WGS-316. Science And The Gendered Body. 3 Hours.**

This course traces the history of how gender and sex are identified and studied in scientific and medical fields and how cultural conception of gender and sex can influence the interpretation of scientific phenomena. Readings draw from the primary scientific literature, the history and philosophy of science, and cultural anthropological analyses of science and medicine.

**Prerequisite:** (or).

**WGS-318. Fatness, Feminism And Critical Weight Studies. 3 Hours.**

We will consider alternatives to the dominant biomedical size discourse that unproblematically considers a large body size as a gendered and racialized "health risk factor." To this end, this course makes use the term "fat" as a reclaimed descriptive term, like short or tall, instead of terms like terms "overweight" and "obese," which reflect medical pathologizations of body size. We will first explore Fat Studies and the ways it challenges dominant belief systems while speaking to power, oppression, and privilege. Then, we will historicize those belief systems as they developed during the 20th century to the present.

**WGS-320. Feminisms In Islam. 3 Hours.**

This course examines theories, political goals, strategies and activism(s) of the emerging global trend of Islamic feminism(s). Understood as part of a much broader trend in post-colonial and transitional feminisms, Islamic feminism is one of the responses to the hegemonic tendencies of which secular, Western, white, and middle-class focused feminism often accused. This class analyzes Islam through a gendered lens and focuses on how Islamic feminists promote gender equality and social justice based on a feminist reading of Islam's sacred texts. (Please note: this course is not a theology course).

**WGS-321. Internship In Women's, Gender And Sexuality Studies. 1 Hour.**

Placement in a university or community agency that provides services to women. This will be an opportunity to test classroom concepts in a field setting.

**Prerequisite:** WGS-101 with a minimum grade of C.

**WGS-322. Internship In Women's, Gender And Sexuality Studies. 2 Hours.**

Placement in a university or community agency that provides services to women. This will be an opportunity to test classroom concepts in a field setting.

**Prerequisite:** WGS-101 with a minimum grade of C.

**WGS-323. Internship In Women's, Gender And Sexuality Studies. 3 Hours.**

Placement in a university or community agency that provides services to women. This will be an opportunity to test classroom concepts in a field setting.

**Prerequisite:** WGS-101 with a minimum grade of C.

**WGS-324. Black Girlhood Studies. 3 Hours.**

This course examines the complexities of Black girlhood, particularly from the perspectives of Black girls and women. From an examination of adultification to hypersexualization, this course offers a critical analysis of the various aspects and dynamics of Black girlhood, and how race/ethnicity, class, gender, sexuality, and ability specifically impact Black girls' lived experiences. This course spans a wide range of topics, from schooling experiences and representation of Black girlhood in popular culture, to the ways in which Black girls exert radical and humanizing agency — as artists, scholars, activists, and more, reframing dominant narratives about themselves and their communities.

**Prerequisite:** WGS-101 with a minimum grade of C or AFAM-200 with a minimum grade of C.

**WGS-331. Independent Study In Women's, Gender And Sexuality Studies. 1 Hour.**

An intensive investigation of a special area of Women's, Gender and Sexuality Studies.

**Prerequisite:** WGS-101 with a minimum grade of C.

**WGS-332. Independent Study In Women's, Gender And Sexuality Studies. 2 Hours.**

An intensive investigation of a special area of Women's, Gender and Sexuality Studies.

**Prerequisite:** WGS-101 with a minimum grade of C.

**WGS-333. Independent Study In Women's, Gender And Sexuality Studies. 3 Hours.**

An intensive investigation of a special area of Women's, Gender and Sexuality Studies.

**Prerequisite:** WGS-101 with a minimum grade of C.

**WGS-340. Latina/x Feminisms & Social Media. 3 Hours.**

This course has two goals: first, students will become familiarized with a panorama of texts exemplifying the historical trajectory of Latina/x intersectional feminist thought in the United States. During the second half of the course, students will research social media activism and contextualize popular Latina/x social media activists and representation, with special emphasis on the disputes and ongoing developments in group identities and senses of self, as well as broad social and political questions relevant to Latina/o/xs, with an eye towards citizenship, consumerism, and immigration issues.

**WGS-349. Gloria Anzaldúa: A Deep Dive. 3 Hours.**

This course is a "deep dive" into the particular social, political and economic factors contributing to the work of a single author over the long arc of her career, along with her particular contributions to literary culture in her time. Extensive reading involving a representative array of the author's work and a wide variety of critical essays on that work will provide students excellent bases for their research, writing and class discussion, culminating in an essay or creative project suitable for public presentation or publication. This section of the course focuses on the work of Gloria Anzaldúa, as well as her collaborators and literary intellectual/artistic successors.

**WGS-350. Women's, Gender And Sexuality Studies Seminar. 3 Hours.**

This interdisciplinary capstone course builds on knowledge gained in other Women's, Gender and Sexuality Studies courses. Students are asked to reflect on their anti-racist and intersectional feminist learning, produce a portfolio of their work and participate in the WGS student symposium. This course is a requirement for students completing the WGS Major and Minor.

**Prerequisite:** WGS-101 with a minimum grade of C.

**WGS-352. Politics Of Women Of Color. 3 Hours.**

"Women of Color" names a feminist coalitional politics that emerged in the 1960s among women differently racialized as non-white in the United States. Foundational to this politics is an understanding of racial, gender, sexual, class and colonial oppressions as interdependent, historically specific, and always occurring simultaneously. This course explores the elaboration of the coalitional politics of Women of Color from its emergence into the present, emphasizing the conceptual and practical strategies that feminists of color have developed in resistance to the divide-and-conquer legacies encountered both within community and the mainstream feminist movement.

**WGS-359. Queering Disability. 3 Hours.**

This course questions the "normal" and "natural" bodymind and argues that disability is not natural or biological, but a category invented and managed through powerful institutions - for example law and medicine. Building on the analysis and scholarship of feminist, queer and critical race scholars, we will engage queer theory to explore systems of oppression and how constructions of disability produce presumed deviancy and deficiency. Course materials will engage scholarship in fields including fat studies, ethnic studies, and animal studies. Throughout the course students explore, question, and queer various issues affecting the sexual lives and subjectivities of persons with disabilities.

**Prerequisite:** (100 - 399 or 100A - 399Z).

**WGS-360. Queer Theory. 3 Hours.**

Queer theory developed in the early 1990s out of the conjunction of feminist theory, sexuality studies, and queer activism. This course introduces students to some of the key authors and texts in queer theory, shows students how queer theory may be applied in a variety of academic fields, and examines critiques of queer theory as androcentric, Eurocentric, overly intellectual, and impractical. This course aims to foster critical thinking, writing, and discussion. We will go beyond merely digesting theorists' work to actively engaging with the material and critiquing both commonly held assumptions and academic theories about gender and sexuality.

**WGS-361. Queer Latin American Narrative And Film. 3 Hours.**

This course explores the representation of sexual diversity and gender nonconformity in Latin American cultural production (narrative and film) from a perspective informed by feminist theory, LGBT studies and queer theory. Students critically engage these theoretical paradigms while developing research skills and proficiency in oral and written expression through class assignments, including a final research paper.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**WGS-362. Gender And Sexuality In Latin American And Latinx Resistance Movements. 3 Hours.**

The course Gender and Sexuality in Latin American and Latinx Resistance Movements will take a cross-border, feminist, and queer approach to the analysis of the histories of resistance movements in the United States, Mexico, Central America, South America and the Caribbean. The course will explore the comprehensive history of resistance movements through cross-border, feminist, and queer theory and the visual arts, music, and literature that played an integral part in their development and sustainability.

**WGS-370. Trans\* Feminism: Theories And Approaches To Life Beyond Binaries. 3 Hours.**

In this course, we explore activist and academic world-making approaches to the eradication of the gender binary. In the first part of the course, we define trans\* feminism—where the asterisk indexes an opening up of the term to include a greater range of gender identities, following Avery Tompkins—via its central assumption that all forms of social oppression are implicated by the logics of gender. From there, we discuss how (gender) binaries are upheld and curated by the state and social cisheteronormative practices while exploring the poetry, art, and intellectual expression of people who seek to live outside those boundaries.

# Major in Women's, Gender and Sexuality Studies

---

Women's, Gender & Sexuality Studies (WGS) is an interdisciplinary field that centers intersectional feminism. WGS explores the many ways that sexism, heterosexism, and other forms of oppression shape identities and impact lived experiences. WGS recognizes that the problem is unjust systems not individuals, that the personal is political, and that sexism and heteronormativity intersect with other forms of oppression such as racism, classism, and ableism. WGS centers the experiences of marginalized groups including people of color and those who are women, trans, queer, non binary, disabled, poor, and/or undocumented, among others.

The mission of the program is to empower students to reimagine the future and work towards liberation for all communities. WGS is not just about learning facts and theories, but also about praxis—using learned and experiential knowledge to become practitioners, researchers, learners, leaders and activists. WGS works to create an environment of learning and passionate commitment to the development and implementation of meaningful social change within the university and beyond.

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6
<b>Humanities (HU)*</b> 3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	9
<b>Behavioral/Social Sciences (SB)*</b> 3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	9
<b>Natural Sciences (NS and NSL)**</b> 3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	9

### Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

### Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

### Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

### Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

\* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

\*\* Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/graduation-requirements/bachelors-degree/>)

## Major in Women's, Gender & Sexuality Studies

Majors in Women's, Gender & Sexuality Studies (WGS) will fill out the WGS Major Declaration form in the Program office. All Women's and Gender Studies majors must complete six required courses (18 credit hours) and six courses of electives (18 credit hours) from at least two academic departments for a total of 36 credit hours.

Code	Title	Hours
<b>Required Courses</b>		
WGS-101	Introduction To Women's, Gender & Sexuality Studies	3
WGS-300	Feminist Activism	3
WGS-302	Feminist Theory	3

# Minor in Lesbian, Gay, Bisexual, Transgender and Queer Studies

---

## Minor in Lesbian, Gay, Bisexual, Transgender and Queer (LGBTQ) Studies

The LGBTQ Studies Minor offers an interdisciplinary approach to studying the lives, histories and cultures of Lesbian, Gay, Bisexual, Transgender and Queer communities and allies. Courses in history, culture, health, politics, justice, education, literature and the arts reflect a commitment to understanding and representing the contributions of LGBTQ individuals and communities. The program focuses on justice, knowledge and action that honor multiplicity and diversity in gender and sexual expression including how race, class, ability and other identity markers shape LGBTQ lives.

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6
<b>Humanities (HU)*</b> 3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	9
<b>Behavioral/Social Sciences (SB)*</b> 3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	9
<b>Natural Sciences (NS and NSL)**</b> 3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	9

### Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

### Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

### Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

### Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

\* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

\*\* Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/graduation-requirements/bachelors-degree/>)

## Minor in Lesbian, Gay, Bisexual, Transgender and Queer Studies requirements

Code	Title	Hours
Minors in LGBTQ Studies will fill out the LGBTQ Minor Declaration form in the Program office.		
<b>Required Courses</b>		
WGS-210	Introduction To Lesbian, Gay, Bisexual, Transgender & Queer Studies	3
WGS-360	Queer Theory	3
Select one of the following:		3
ENGL-303	Contemporary LGBTQ+ Literature <sup>1</sup>	
HIST-339A	Sexuality And Intimacy In America <sup>1</sup>	
LING-330	Language, Gender, And Sexuality <sup>1</sup>	
LLAS-361	Queer Latin American Narrative And Film <sup>1</sup>	
WGS-310	Lesbian & Queer Cultures: Identities, Histories & Resistance <sup>1</sup>	
Electives		
Select three of the following:		9
ANTH-325	Archaeology Of Sex, Gender, And Sexuality	
CMTC-313	Communication, Gender & Identity	
CMTM-377	Gender And Media	
ENGL-303	Contemporary LGBTQ+ Literature <sup>1</sup>	
ENGL-349G	Gloria Anzaldúa: A Deep Dive	
HIST-309	The History Of Disability	
HIST-339A	Sexuality And Intimacy In America <sup>1</sup>	
JUST-328	Social Justice & LGBTQ Issues	
JUST-355	LGBTQ Communities & Crime	
LING-330	Language, Gender, And Sexuality <sup>1</sup>

SWK-300	Human Sexuality And Social Work	
WGS-310	Lesbian & Queer Cultures: Identities, Histories & Resistance <sup>1</sup>	
WGS-316	Science And The Gendered Body	
WGS-349	Gloria Anzaldúa: A Deep Dive	
WGS-361	Queer Latin American Narrative And Film	
<b>Total Hours</b>		<b>18</b>

<sup>1</sup> These courses may only be counted once toward the minor in LGBTQ Studies. Note: Elective cross-listed courses which do not appear on the above list may be approved for minor credit by the LGBTQ Studies coordinator, not to exceed 3 credit hours.

# Minor in Women's, Gender and Sexuality Studies

---

Women's, Gender & Sexuality Studies (WGS) is an interdisciplinary field that centers intersectional feminism. WGS explores the many ways that sexism, heterosexism, and other forms of oppression shape identities and impact lived experiences. WGS recognizes that the problem is unjust systems not individuals, that the personal is political, and that sexism and heteronormativity intersect with other forms of oppression such as racism, classism, and ableism. WGS centers the experiences of marginalized groups including people of color and those who are women, trans, queer, non binary, disabled, poor, and/or undocumented, among others.

The mission of the program is to empower students to reimagine the future and work towards liberation for all communities. WGS is not just about learning facts and theories, but also about praxis—using learned and experiential knowledge to become practitioners, researchers, learners, leaders and activists. WGS works to create an environment of learning and passionate commitment to the development and implementation of meaningful social change within the university and beyond.

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6
<b>Humanities (HU)*</b> 3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	9
<b>Behavioral/Social Sciences (SB)*</b> 3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	9
<b>Natural Sciences (NS and NSL)**</b> 3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	9

### Engaged Learning Experiences

# World Languages and Cultures

The mission of the Department of World Languages and Cultures is to provide high quality instruction in world languages, and to prepare students to be lifelong learners and engaged citizens through the critical study of the literatures and cultures associated with these languages.

The language and critical thinking skills you develop through written and oral exposition, research, and service learning will enhance your career opportunities in today's global society and provide the basis for a lifetime exploration of multiple cultures and worldviews.

We offer courses leading to:

1. A Master of Arts in Latin American Literatures and Cultures
2. A Bachelor of Arts in Spanish
3. Minors in Spanish, French Studies, and Korean.

For the Korean Minor, please consult the Department. For other programs, visit our undergraduate and graduate program pages. We also offer basic language courses in Arabic, Aramaic, Chinese, French, German, Hebrew, Italian, Japanese, Kurdish, Korean, Persian, Polish, Portuguese and Spanish, as well as introductory courses taught in English on the cultures associated with these languages.

## Language Learning Laboratory

The Department of World Languages and Cultures is pleased to provide a technology-rich and comfortable environment to study and practice a second language. Find us in Rooms LIB 449 and Room LIB 451 on the fourth floor of the Ronald Williams Library (<http://library.neiu.edu/>) around the corner from the Learning Success Center (<http://www.neiu.edu/university-life/learning-support-center/>). At the Language Learning Lab (LLL), we provide technical support and instructional media for students taking courses in the various languages taught by our department. To our faculty and instructors, we provide a place to integrate audio, video, computer and Internet resources into language teaching, by which students can gain communication skills and an authentic cultural experience.

## NEIU Language Back Credit Policy

Complete Course	With Grade(s)	Back credits for these courses	Credits Earned	Back Credits Received	Credits Total
101 = 3	D or above	n/a	3	0	3
102 = 3	B or above	101 = 3	3	3	6
103/201 = 3	B or above	102 = 3	3	3	6
103/201 & 202	B or above	101 & 102 = 6	6	6	12
Any <b>one</b> course higher than 103/201	B or above	103/201 = 3	3	3	6
<b>Two</b> courses higher than 103/201	B or above	101 & 102 = 6	6	6	12
<b>Three</b> courses higher than 103/201	B or above	101, 102 & 103/201 = 9	9	9	18

## Notes on the Back Credit Policy:

- 103 and 201 are equivalent courses for the third semester of the language sequence.
- If you have not taken a college-level language course before, take NEIU's language placement exam ([www.neiu.edu/languages](http://www.neiu.edu/languages) (<http://www.neiu.edu/languages/>)) to determine what course you should take.
- For more information on the AP and CLEP Exams visit: [www.collegeboard.com](http://catalog.neiu.edu) (<http://catalog.neiu.edu>) (<http://www.collegeboard.com/student/testing/ap/about.html>)
- Major in Spanish (<http://catalog.neiu.edu/arts-sciences/world-languages-cultures/spanish/>)
- Minor in Spanish (<http://catalog.neiu.edu/arts-sciences/world-languages-cultures/minor-spanish/>)
- Minor in French Studies (<http://catalog.neiu.edu/arts-sciences/world-languages-cultures/minor-french-studies/>)
- Teacher Licensure in Spanish K-12 (<http://catalog.neiu.edu/arts-sciences/world-languages-cultures/teacher-licensure-spanish-k-12/>)

- Master of Arts in Latin American Literatures and Cultures (<http://catalog.neiu.edu/arts-sciences/world-languages-cultures/master-arts-latin-american-literatures-cultures/>)

Denise Cloonan Cortez, Ph.D., Professor of Spanish, Chair

### **Faculty**

Brandon Bisbey, Ph.D., Professor of Spanish

Esther M. Santana, Ph.D., Associate Professor of Spanish

## **World Languages and Cultures**

### **WLC-190. Language Immersion. 3 Hours.**

Language immersion affords a multidimensional approach to language learning that facilitates successful acquisition. By its very nature, immersion provides experiences in multiple linguistic contexts so that the student is exposed to more than just academic input in the target language. This course is designed for students that undertake the study language in both formal and informal environments. While the academic portion of this course is guided by the established curriculum, both the quality and quantity of the informal experience is determined by the student according to his/her individual needs and interests, leading to the integration of formal and informal contexts.

### **WLC-191. Language Immersion II. 3 Hours.**

As a continuation of WLC-190, this second semester course is designed for students who wish to continue the study of language in both formal and informal environments. While the academic portion of this course is guided by the established curriculum, both the quality and quantity of the informal experience is determined by the student according to his/her individual needs and interests, leading to the integration of formal and informal contexts.

### **WLC-200A. Introduction To Arab Cultures. 3 Hours.**

This course introduces students to the wealth of literary, artistic, and musical cultures in the Arabic-speaking world. You will learn to describe, contextualize, and analyze representative cultural texts from literature (e.g., poems, short stories, folk tales and legends), fine arts (e.g., painting and photography), and popular culture (e.g., popular music, films, comics), and to evaluate how they reinforce, question or subvert normative constructions of gender, ethnicity, race, sexuality and nationalism specific to but not limited to the Arabic-speaking world. Taught in English. Sophomore standing or above.

### **WLC-200B. Introduction To Brazilian Culture. 3 Hours.**

This course introduces students to the wealth of literary, artistic, and musical cultures in Brazil. You will learn to describe, contextualize, and analyze representative cultural texts from literature (e.g., poems, short stories, folk tales and legends), fine arts (e.g., painting and photography), and popular culture (e.g., popular music, films, comics), and to evaluate how they reinforce, question or subvert normative constructions of gender, ethnicity, race, sexuality and nationalism specific to but not limited to Brazil. Taught in English. Sophomore standing or above.

### **WLC-200C. Introduction To Chinese Culture. 3 Hours.**

This course introduces students to the wealth of literary, artistic, and musical cultures in China. You will learn to describe, contextualize, and analyze representative cultural texts from literature (e.g., poems, short stories, folk tales and legends), fine arts (e.g., painting and photography), and popular culture (e.g., popular music, films, comics), and to evaluate how they reinforce, question or subvert normative constructions of gender, ethnicity, race, sexuality and nationalism specific to but not limited to China. Taught in English. Sophomore standing or above.

### **WLC-200E. Intermediate Studies In Foreign Language: Introduction To Korean Culture. 3 Hours.**

### **WLC-200F. Introduction To French And Francophone Cultures. 3 Hours.**

This course introduces students to France and francophone cultures and to the French and francophone influences in Chicago and the Midwest. Students will learn to describe, contextualize, and analyze representative cultural texts from literature (i.e., poems, short stories, folk tales, and legends), fine arts (i.e., painting and photography), and popular culture (i.e., popular music, films, comics), and to evaluate how they reinforce, question or subvert normative constructions of gender, ethnicity, race, sexuality and nationalism in France and the international francophone community. Taught in English. Sophomore standing or above.

### **WLC-200I. Introduction To Italian Culture. 3 Hours.**

This course introduces students to the wealth of literary, artistic, and musical cultures in culture of Italy. You will learn to describe, contextualize, and analyze representative cultural texts from literature (i.e., poems, short stories, folk tales and legends), fine arts (i.e., painting and photography), and popular culture (i.e., popular music, films, comics), and to evaluate how they reinforce, question or subvert normative constructions of gender, ethnicity, race, sexuality and nationalism specific to but not limited to culture of the Italian peninsula. Taught in English. Sophomore standing or above.

### **WLC-200J. Introduction To Japanese Culture. 3 Hours.**

This course introduces student to the wealth of literary, artistic, and musical cultures in Japan. You will learn to describe, contextualize, and analyze representative cultural texts from literature (e.g., poems, short stories, folk tales and legends), fine arts (e.g., painting and photography), and popular culture (e.g., popular music, films, comics), and to evaluate how these texts reinforce, question or subvert normative constructions of gender, ethnicity, race, sexuality and nationalism specific to but not limited to Japan. Knowledge of Japanese language is not required, but because the Japanese often integrate their culture and language, a discussion of some elements of the Japanese language will be part of the class. Taught in English. Sophomore standing or above.

**WLC-200K. Kurdish Culture. 3 Hours.**

This course introduces students to various aspects of Kurdish society. The course incorporates a number of perspectives: anthropological, sociological and cultural studies. It provides an overview of Kurdish society with special attention given to questions of identity, history, important literary and cultural texts and figures, music and dance, food and folkways. Finally, contemporary challenges faced by various parts of Kurdish society will be explored in relation to statelessness and diaspora.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**WLC-200L. Introduction To Latin American Cultures. 3 Hours.**

This course introduces students to the wealth of literary, artistic, and musical cultures in Latin America. Students will learn to describe, contextualize, and analyze representative cultural texts from literature (e.g., poems, short stories, folk tales and legends), fine arts (e.g., painting and photography), and popular culture (e.g., popular music, films, comics), and to evaluate how they reinforce, question or subvert normative constructions of gender, ethnicity, race, sexuality and nationalism specific to but not limited to Latin America. Taught in English.

**WLC-200P. Introduction To Polish Culture. 3 Hours.**

This course introduces students to the wealth of literary, artistic, and musical cultures in Poland. Students will learn to describe, contextualize, and analyze representative cultural texts from literature (e.g., poems, short stories, folk tales and legends), fine arts (e.g., painting and photography), and popular culture (e.g., popular music, films, comics), and to evaluate how they reinforce, question or subvert normative constructions of gender, ethnicity, race, sexuality and nationalism specific to but not limited to Poland. Taught in English. Sophomore standing or above.

**WLC-200S. Introduction To Assyrian Culture. 3 Hours.**

This course will serve as an introduction to the literary, artistic, and musical traditions in the Assyrian culture. You will learn to describe, contextualize, and analyze representative cultural texts from literature, fine arts, and popular culture, and to evaluate how they reinforce, question or subvert normative constructions of gender, ethnicity, race, sexuality and nationalism specific to but not limited to Assyrian culture. Taught in English.

**WLC-220. French Culture Through Film. 3 Hours.**

Explores the successive historical, political, social and aesthetic climates of modern France and francophone countries through the study of film. Conducted in English.

**WLC-220A. Arab Culture Through Film. 3 Hours.**

This course uses cinema as a tool to think critically about key topics of modern Arab cultures, including ethnicity, nationalism, religion, and gender roles, among others. Students will learn to situate films in specific political and cultural contexts, and to discuss how aesthetic choices guide possible interpretations. Taught in English. Sophomore standing or above.

**WLC-220T. Italian Culture Through Film. 3 Hours.**

This course uses cinema as a tool to think critically about key topics of Italian culture, including national identity, religion, and gender roles, among others. Students will learn to situate films in specific historical and cultural contexts, and to discuss how aesthetic choices guide possible interpretations. Taught in English.

**WLC-221J. Japanese Culture Through Film. 3 Hours.**

This course uses cinema as a tool to think critically about key topics of Japanese culture, including nationalism, religion, and gender roles, among others. Students will learn to situate films in specific historical and cultural contexts, and to discuss how aesthetic choices guide possible interpretations. Taught in English. Sophomore standing or above.

**WLC-302. Introduction To Teaching World Languages. 3 Hours.**

The nature of language and language-learning processes; demonstration of specific organizational patterns and teaching methods in keeping with these; the changing status of foreign language teaching; and the importance of language teaching in an interdependent world. Implications for foreign language teaching of recent developments in linguistics, psychology, psycholinguistics, curriculum, teaching materials and technology. Emphasis on designing, presenting and evaluating specific classroom procedures in the linguistically oriented teaching of the communicative skills.

**WLC-320. Feminisms In Islam. 3 Hours.**

This course examines theories, political goals, strategies and activism(s) of the emerging global trend of Islamic feminism(s). Understood as part of a much broader trend in post-colonial and transitional feminisms, Islamic feminism is one of the responses to the hegemonic tendencies of which secular, Western, white, and middle-class focused feminism is often accused. This class analyzes Islam through a gendered lens and focuses on how Islamic feminists promote gender equality and social justice based on a feminist reading of Islam's sacred texts. (Please note: this course is not a theology course).

**WLC-333. Writing Intensive Program: Cross-Cultural Communication. 3 Hours.**

In this course the student will be provided with multiple opportunities for writing in English about the study of world languages in both literary and linguistic contexts. The language professional will need to be prepared for writing various types of texts including: description, narration, exposition and argumentation. The broader focus of cross-cultural communication is explored in this course via the fundamentals of translation with a narrow focus on the cultural nuances embedded in the lexicon. A comparison of texts written in their original language and in their translated version will be one of the many components explored in the course.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**WLC-340. Latina/x Feminisms & Social Media. 3 Hours.**

This course has two goals: first, students will become familiarized with a panorama of texts exemplifying the historical trajectory of Latina/x intersectional feminist thought in the United States. During the second half of the course, students will research social media activism and contextualize popular Latina/x social media activists and representation, with special emphasis on the disputes and ongoing developments in group identities and senses of self, as well as broad social and political questions relevant to Latina/o/xs, with an eye towards citizenship, consumerism, and immigration issues.

**WLC-383S. Special Topics In Latina/o And Latin American Literary And Cultural Studies. 3 Hours.**

Varying topics in the field of Latinx and Latin American literary and cultural studies.

**WLC-384. Drugs, Intoxication And Addiction In The Americas. 3 Hours.**

This course is an interdisciplinary approach to drugs, intoxication and addiction in the Americas. Students will challenge received knowledge on these topics by analyzing cultural products that portray drug trafficking, consumption and addiction and by engaging with critical theory that problematizes the role of drugs in our society and the social harms caused by prohibition. Special emphasis will be given to the ways that various systems of oppression, such as capitalism, racism, (neo)colonialism and patriarchy, intersect in the economy of drugs and how peripheral perspectives from the Global South can indicate more liberating perspectives on the relationship between humans and intoxicants.

**Prerequisite:** (100 - 399 or 100A - 399Z).

## Arabic

**ARAB-101. Arabic I. 3 Hours.**

Development of basic skills in listening, speaking, reading and writing. Cultural appreciation.

**ARAB-102. Arabic II. 3 Hours.**

Continuation of ARAB-101.

**Prerequisite:** ARAB-101 with a minimum grade of D.

**ARAB-203. Arabic III. 3 Hours.**

Arabic III is the continuation of the sequence of Arabic I and Arabic II. Students develop proficiency of Modern Standard Arabic in listening, speaking, reading and writing at the Intermediate Low level, using Arab cultures as content for the development of these skills.

**Requirement:** must have course prerequisite or by placement exam

**Prerequisite:** ARAB-102 with a minimum grade of C.

## Chinese

**CHIN-101. Chinese I. 3 Hours.**

Development of basic skills in listening, speaking, reading and writing. Cultural appreciation.

**CHIN-102. Chinese II. 3 Hours.**

Continuation of CHIN-101.

**Prerequisite:** CHIN-101 with a minimum grade of D.

**CHIN-201. Chinese III. 3 Hours.**

This course is a continuation of CHIN-102 and focuses on the listening, speaking, and writing of Mandarin Chinese at the intermediate-low level.

This course also explores cultural expressions and values in contemporary Chinese Society. Prerequisite: CHIN-102, placement exam, or consent of instructor.

**CHIN-202. Chinese IV. 3 Hours.**

This course is a continuation of CHIN-201 and focuses on the listening, speaking, and writing of Mandarin Chinese at the intermediate-mid level.

This course also explores cultural expressions and values in contemporary Chinese Society. Prerequisite: CHIN-201, placement exam, or consent of instructor.

**Prerequisite:** (CHIN-103 with a minimum grade of D or CHIN-201 with a minimum grade of D).

## French

**FREN-101. Beginning French I. 3 Hours.**

Development of basic skills in listening, speaking, reading and writing. Cultural appreciation.

**FREN-102. Beginning French II. 3 Hours.**

Continuation of FREN-101.

**Prerequisite:** (FREN-101 or NEIU French Placement Score 283 - 310).

**FREN-201. Intermediate French I. 3 Hours.**

Continuation of FREN-102.

**Prerequisite:** (FREN-102 or NEIU French Placement Score 311 - 445).

**FREN-202. Intermediate French II. 3 Hours.**

**Prerequisite:** (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 311 - 445).

**FREN-210. Reading Modern French. 3 Hours.**

Practice in reading modern texts of current interest and moderate difficulty.

**Prerequisite:** (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 311 - 445).

**FREN-220. French Conversation I. 3 Hours.**

Development of oral-aural communication skills with emphasis on everyday situations. Conducted in French.

**Prerequisite:** (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 311 - 445).

**FREN-221. French Grammar And Composition I. 3 Hours.**

Overview of grammar with emphasis on writing skills.

**Prerequisite:** (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 311 - 445).

**FREN-230. French Phonetics. 3 Hours.**

Presentation, classification and analysis of the sounds of the French language with special emphasis on techniques and drills leading to habits of correct pronunciation. Conducted in French.

**Prerequisite:** (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 311 - 445).

**FREN-251. French Conversation II. 3 Hours.**

Continuation of FREN-220.

**Prerequisite:** (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 311 - 445).

**FREN-252. Grammar & Composition II. 3 Hours.**

Continuation of FREN-221.

**Prerequisite:** (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 311 - 445).

**FREN-300. Introduction To French Civilization. 3 Hours.**

**Prerequisite:** (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 446 - 999).

**FREN-312. French Conversation III. 3 Hours.**

**Prerequisite:** (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 446 - 999).

**FREN-313. French Grammar And Stylistics. 3 Hours.**

Identification, analysis and use of French structure; extensive exercises in grammatical and logical analysis. Conducted in French.

**Prerequisite:** (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 446 - 999).

**FREN-315. Applied French Linguistics. 3 Hours.**

A systematic comparison of French and English. Application of teaching techniques related to modern theories of language learning. Required for secondary school teacher certification.

**Prerequisite:** (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 446 - 999).

**FREN-320. Introduction To French Literature. 3 Hours.**

Outline of French literature; outstanding authors and their works from the Middle Ages to the present. Conducted in French.

**Prerequisite:** (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 446 - 999).

**FREN-350. Independent Study In French. 3 Hours.**

Project or research on a special topic relevant to the student's degree program. The course will be designed in consultation with an instructor who will also supervise the student's work.

**Prerequisite:** (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 446 - 999).

**FREN-357. Contemporary French Society. 3 Hours.**

The study and discussions of major debates in French society today. Topics explored may include: family, gender, the media, fashion, music, culinary arts, the education system, urban problems, social stratification, immigration, and French politics. Taught in French.

**Prerequisite:** (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 446 - 999).

**FREN-361. Advanced French Conversation. 3 Hours.**

Development of communicative skills primarily in speaking and listening in French at the Advanced Level. This course may be repeated once.

**Prerequisite:** (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 446 - 999).

## Italian

**ITAL-101. Italian I. 3 Hours.**

Development of basic skills in listening, speaking, reading and writing. Cultural appreciation.

**ITAL-102. Italian II. 3 Hours.**

Continuation of ITAL-101.

**Prerequisite:** ITAL-101 with a minimum grade of D.

**ITAL-103. Italian III. 3 Hours.**

Continuation of ITAL-102. Completes the study of the basic elements of Italian.

## Japanese

### **JPN-101. Japanese I. 3 Hours.**

Development of basic skill in listening, speaking, reading and writing. Cultural appreciation.

### **JPN-102. Japanese II. 3 Hours.**

Continuation of basic skill in listening, speaking, reading and writing. Cultural appreciation.

**Prerequisite:** JPN-101 with a minimum grade of D.

### **JPN-103. Japanese III. 3 Hours.**

Continuation of basic skill in listening, speaking, reading and writing. Cultural appreciation.

### **JPN-104. Japanese IV. 3 Hours.**

Continuation of basic skill in listening, speaking, reading and writing. Cultural appreciation.

## Korean

### **KOR-101. Korean I. 3 Hours.**

Development of basic skill in listening, speaking, reading and writing. Cultural appreciation.

### **KOR-102. Korean II. 3 Hours.**

Continuation of basic skill in listening, speaking, reading and writing. Cultural appreciation.

**Prerequisite:** KOR-101 with a minimum grade of D.

### **KOR-103. Korean III. 3 Hours.**

Continuation of basic skill in listening, speaking, reading and writing. Cultural appreciation.

**Prerequisite:** KOR-102 with a minimum grade of D.

### **KOR-205. Business Korean. 3 Hours.**

Study of basic skills needed to conduct low-to-midlevel business transactions in Korean with emphasis on aspects of Korean culture that occur most frequently in a business environment. Conducted in English.

**Prerequisite:** KOR-103 with a minimum grade of D.

### **KOR-220. Korean Conversation I. 3 Hours.**

Development of oral-aural communication skills with emphasis on everyday situations.

**Prerequisite:** KOR-103 with a minimum grade of D.

### **KOR-221. Korean Grammar And Composition I. 3 Hours.**

Overview of grammar with emphasis on writing skills.

**Prerequisite:** KOR-103 with a minimum grade of D.

### **KOR-222. Korean Conversation II. 3 Hours.**

Continuation of KOR-220 with emphasis on sophistication in speaking Korean through simulation and role playing.

**Prerequisite:** KOR-220 with a minimum grade of D.

### **KOR-223. Korean Grammar And Composition II. 3 Hours.**

Continuation of KOR-221.

**Prerequisite:** KOR-221 with a minimum grade of D.

### **KOR-313. Introduction To Korean Literature. 3 Hours.**

Overview of literary periods and significant trends in Korean and Korean-American Literature. Survey of major writers and their principal works.

### **KOR-360. The Confucian Tradition In Korea. 3 Hours.**

An in-depth study of Korean ideas and values which explain some of the most fundamental traditional Korean assumptions about humanity, society and the world. This course will examine ideas and values, rooted in the Confucian tradition, which have influenced pre-modern Korean culture and in many ways remain in force in modern society.

## Kurdish

### **KURD-101. Beginning Kurdish I. 3 Hours.**

This beginning level language course is an introduction to the Kurdish language and the student will develop basic skills in listening, speaking, reading and writing Kurdish. Additionally, the student will acquire cultural appreciation.

### **KURD-102. Beginning Kurdish II. 3 Hours.**

A continuation and further development of the basic skills in listening, speaking, reading and writing of Kurdish, and cultural appreciation, introduced in KURD-101: Beginning Kurdish I.

**Prerequisite:** KURD-101 with a minimum grade of C.

### **KURD-201. Intermediate Kurdish I. 3 Hours.**

This course is designed to teach intermediate-level Kurdish to enable students to function in informal, formal, and academic contexts where Kurdish is spoken or used as a medium of communication and/or research.

## Persian

### **PERS-101. Modern Persian I. 3 Hours.**

This beginning level language course is an introduction to the Persian language and the student will develop basic skills in listening, speaking, reading and writing modern Persian. Additionally, the student will acquire cultural appreciation.

### **PERS-102. Modern Persian II. 3 Hours.**

This course is a continuation and further development of topics and skills introduced in WLC/PERS-101: Modern Persian I.

**Prerequisite:** PERS-101 with a minimum grade of C.

## Polish

### **POL-101. Polish I. 3 Hours.**

Development of basic skill in listening, speaking, reading and writing. Cultural appreciation.

### **POL-102. Polish II. 3 Hours.**

Continuation of POL-101.

**Prerequisite:** POL-101 with a minimum grade of D.

### **POL-103. Polish III. 3 Hours.**

Continuation of POL-102.

**Prerequisite:** POL-102 with a minimum grade of D.

## Portuguese

### **PORT-101. Portuguese I. 3 Hours.**

Development of basic skill in listening, speaking, reading and writing. Cultural appreciation.

### **PORT-102. Portuguese II. 3 Hours.**

Continuation of PORT-101.

**Prerequisite:** PORT-101 with a minimum grade of D.

### **PORT-103. Portuguese III. 3 Hours.**

**Prerequisite:** PORT-102 with a minimum grade of D.

## Spanish

### **SPAN-101. Beginning Spanish I. 3 Hours.**

This course will develop and review basic skills in listening, speaking, reading and writing for both heritage and non-heritage learners. This course will include cultural appreciation.

### **SPAN-102. Beginning Spanish II. 3 Hours.**

Continuation of SPAN-101.

**Prerequisite:** (SPAN-101 or NEIU Spanish Placement Score 234 - 311).

### **SPAN-109. First Year Experience: Chicago's Latina/o Cultures. 3 Hours.**

Freshmen explore Chicago's vibrant Latina/o culture as an integral part of the city's cultural landscape through short stories, poetry, films, speakers, and field trips to cultural venues or activities. In the course, the five foundations of the First-Year Experience (Future Planning, Integral Preparation, Research, Self-discovery, and Transitions) are interwoven with concepts and terminology specific to cultural and literary studies. Taught in Spanish and English. **Prerequisite:** Score of 384 or above in the Spanish placement exam (available online at [www.neiu.edu/~fldept/placement.htm](http://www.neiu.edu/~fldept/placement.htm)).

### **SPAN-123. Accelerated Spanish I-II-III. 9 Hours.**

Accelerated study of Spanish, covering SPAN-101, SPAN-102, SPAN-103.

### **SPAN-201. Intermediate Spanish I. 3 Hours.**

Continuation of SPAN-102. Completes the study of the basic elements of Spanish.

**Prerequisite:** (SPAN-102 or NEIU Spanish Placement Score 312 - 383).

### **SPAN-202. Intermediate Spanish II. 3 Hours.**

Review of grammar. Short readings and practice in writing brief compositions. Exercises in oral communication.

**Prerequisite:** (SPAN-201 or NEIU Spanish Placement Score 384 - 445).

### **SPAN-206. Spanish For First Responders. 3 Hours.**

This course is designed to provide students with the specific medical vocabulary and terminology necessary to communicate with and help treat Spanish-speaking patients with limited English proficiency. Course includes specific vocabulary groups relating to assessment and care of patients, vocabulary to establish rapport, and discussions leading to cultural competencies. Course uses pre-designed dialogues to review and learn vocabulary and grammar structures, as well as workshops settings designed to put students into scenarios where they can use both their speaking and listening skills. Course is taught in almost entirely in Spanish; students are expected to have some prior experience with Spanish.

**SPAN-209. Spanish For Spanish Speakers I. 3 Hours.**

This course is the first in two-semester sequence of intermediate-level Spanish designed for students who speak Spanish at home and/or in the community, but have not studied it formally and /or whose reading and writing abilities in Spanish are limited. The focus of the first semester is on orthography while the focus of the second semester is on syntax. Both semesters include reading comprehension and basic literary analysis of short texts.

**SPAN-211. Spanish For Spanish Speakers II. 3 Hours.**

This course is the second in a two-semester sequence of intermediate-level Spanish designed for students who speak Spanish at home and/or in the community, but have not studied it formally and/or whose reading and writing abilities in Spanish are limited. The focus of the first semester is on orthography while the focus of the second semester is on syntax. Both semesters include reading comprehension and basic literary analysis of short texts.

**SPAN-220. Conversation Skills For Community Action. 3 Hours.**

Course develops specialized conversational skills and vocabulary for non-profit organizations, political campaigning, and community organizing, among other topics. Conducted primarily in Spanish.

**Prerequisite:** (SPAN-202 or NEIU Spanish Placement Score 446 - 999).

**SPAN-224. The World Of Texts: Developing Essential Reading Skills In Spanish. 3 Hours.**

This course focuses primarily on short-form texts ranging from advertisements, newspaper articles, movie descriptions and critiques, as well as blogs in Spanish. Students are equipped with strategic, concrete approaches to reading, empowering students to rely less on the dictionary and more on filling in gaps in comprehension through deduction skills based on context and background knowledge. This course also focuses on the acquisition of new vocabulary and language registers. This course is conducted entirely in Spanish.

**Prerequisite:** (SPAN-202 or NEIU Spanish Placement Score 446 - 999).

**SPAN-225. Practical Writing: An Introduction To Personal Expression In Spanish. 3 Hours.**

This course is designed as a workshop to develop students' practical writing needs based on personal preferences, daily routines, common events, and other topics related to their own experiences and immediate surroundings. Writing tasks focus on short, simple formats such as letters, diary entries, and descriptions. The course also addresses different tenses and moods in Spanish, normative orthography, correct use of accents, and building of vocabulary. Taught in Spanish.

**Prerequisite:** (SPAN-202 or SPAN-211 or NEIU Spanish Placement Score 446 - 999).

**SPAN-251. Oral Skills For Public Speaking And Podcasting. 3 Hours.**

Course focuses on public speaking skills in Spanish, including stage presence, voice control, and audience relations. Course also provides students with an in-depth understanding of podcasting as a genre. Course evaluations include the creation of podcasts to be published on course podcast station. Conducted in Spanish.

**Prerequisite:** SPAN-220 with a minimum grade of C.

**SPAN-252. Introduction To Literary & Cultural Analysis. 3 Hours.**

This course is an introduction to the analysis of literature and culture as a concept, practice and form of representation, including a consideration of the debates that the idea of culture has provoked in different contexts. The course will provide analytical and methodological tools to discuss a full range of cultural forms and to develop key skills in the analysis of culture. Course represents diverse geographical and cultural locations, with special emphasis on materials that explore cultural issues in the context of Spain, Latin America and U.S. Latinos/a/xs. Conducted in Spanish.

**Prerequisite:** SPAN-224 with a minimum grade of C.

**SPAN-253. Academic Research & Writing In Spanish. 3 Hours.**

This workshop-style course develops students' critical writing skills in preparation for 300-level courses in the Spanish major, with special emphasis on the Spanish-speaking world. It also serves as an introduction to research skills in the humanities, including techniques to read cultural and literary texts critically. Taught in Spanish.

**Prerequisite:** SPAN-225 with a minimum grade of C.

**SPAN-255. Bilingual Creative Writing: Spanish And English. 3 Hours.**

This course offers preliminary study in Creative Writing in Spanish and English. It enables students to study creative writing in the bilingual mode and to 1) develop effective approaches to the craft of writing, 2) explore new techniques of the craft, and 3) consider their own craft and techniques in the context of two languages.

**Prerequisite:** SPAN-225 with a minimum grade of C.

**SPAN-301. Advanced Spanish Grammar. 3 Hours.**

Comprehensive review of Spanish grammar for students at the Advanced Level. Focus on the structure of the Spanish sentence (morphology and syntax) as a means to successfully master normative writing styles.

**Prerequisite:** SPAN-253 with a minimum grade of D.

**SPAN-310. Creative Writing In Spanish. 3 Hours.**

Creative Writing in Spanish introduces students to creative writing in two different genres: poetry and short story. Students will learn the defining characteristics of these genres through the production, reading and analysis of their own texts and the text of peers. Student will also learn how to produce a literary publication through their participation in *Consenso*, the literary magazine run by students in the Masters program in Latin American Literatures and Cultures. Local authors who publish in Spanish will be invited to class to read from their work, share their experience and give advice. Taught in Spanish.

**Prerequisite:** SPAN-253 with a minimum grade of C.

**SPAN-312. Advanced Conversation. 3 Hours.**

Continuation of SPAN-251. Mastery of various speaking skills leading toward communicative competence. Conducted in Spanish.

**Prerequisite:** SPAN-251 with a minimum grade of D.

**SPAN-314. Latin American Culture. 3 Hours.**

This course offers students an introduction to Latin American culture from pre-Columbian times to the present, through the contextualized study of representative cultural texts, including literature, music, painting, and film. Topics include pre-Columbian civilizations, the European Conquest, Colonial Baroque culture, Independence movements, 19th century nation building, 20th century revolutions, and contemporary issues. Taught in Spanish.

**Prerequisite:** SPAN-253 with a minimum grade of D.

**SPAN-315. Spanish Culture. 3 Hours.**

This course offers students an introduction to Spanish culture from its roots in pre-Roman times to the present, through the contextualized study of representative cultural texts, including literature, music, painting and film. Topics include the legacy of the Roman Empire, Muslim, Jewish and Christian coexistence during the Middle Ages, the Spanish Golden Age, Bourbon Spain, the Second Republic, Spain under Franco, and contemporary issues. Taught in Spanish.

**Prerequisite:** SPAN-253 with a minimum grade of D.

**SPAN-319. Applied Spanish Linguistics. 3 Hours.**

Linguistic principles and their application in the preparation of teaching materials and of microlessons.

**Prerequisite:** SPAN-253 with a minimum grade of D.

**SPAN-321. Latin American Literature I. 3 Hours.**

This course offers students an introduction to Latin American Literature from pre-Columbian times to the end of the 19th Century, through a critical analysis of representative works of poetry, narrative and drama. Topics include Nahuatl, Inca and Maya cosmogonies and poetry, literary perspectives on the Conquest, the New World Baroque, Latin American Romanticism, and Modernismo. Taught in Spanish.

**Prerequisite:** SPAN-252 with a minimum grade of D and SPAN-253 with a minimum grade of D.

**SPAN-322. Independent Study In Spanish. 3 Hours.****SPAN-323. Latin American Literature II. 3 Hours.**

This course offers students an introduction to Latin American Literature of the 20th and 21st centuries, through the critical analysis of representative works of poetry, narrative, drama, and the essay. Topics include Posmodernismo, Vanguardias, Social Realism, Regionalism, Indigenismo, Negritud, the Neobaroque, Magical Realism, Feminist Literature, Testimonio, U.S. Latina/o Literature, and contemporary trends. Taught in Spanish.

**Prerequisite:** SPAN-252 with a minimum grade of D and SPAN-253 with a minimum grade of D.

**SPAN-324. Advanced Composition. 3 Hours.**

Advanced study of Spanish composition using complex grammatical structures with special attention to style. Conducted in Spanish.

**Prerequisite:** SPAN-253 with a minimum grade of D.

**SPAN-326. Spanish Literature I. 3 Hours.**

This course offers an introduction to Spanish literature written between 1200 and 1700, through a critical analysis and contextualization of representative works of poetry, fiction and drama. Topics include Medieval secular and sacred literature, the literature of the Spanish Golden Age, the rise of the modern novel, Renaissance poetry, and literature of the Baroque. Taught in Spanish.

**Prerequisite:** SPAN-252 with a minimum grade of D and SPAN-253 with a minimum grade of D.

**SPAN-327. Business Spanish I. 3 Hours.**

Foundations of business vocabulary, business writing, basic business and cultural concepts, and situational practices to be successful in today's Spanish-speaking business world. The course interweaves three thematic threads: a business context, a geographic context and a cultural context.

**Prerequisite:** SPAN-253 with a minimum grade of D.

**SPAN-328. Spanish Literature II. 3 Hours.**

This course offers an introduction to Spanish literature written between 1700 and the present, through a critical analysis and contextualization of representative works of poetry, fiction and drama. Topics include Romanticism, Realism and Naturalism, Generación del 98, Generación del 27, literature of the Spanish Civil War and its aftermath, and recent literature. Taught in Spanish.

**Prerequisite:** SPAN-252 with a minimum grade of D and SPAN-253 with a minimum grade of D.

**SPAN-329. Introduction To Spanish American And Spanish Literature. 3 Hours.**

Overview of literary periods and significant trends in Spanish-American and Spanish Literature. Survey of major writers and their principal works. Conducted in Spanish.

**Prerequisite:** SPAN-312 with a minimum grade of D or SPAN-317 with a minimum grade of D.

**SPAN-331. Hispanic World Cultures. 3 Hours.**

Study of the various aspects of the cultures of the Hispanic World. Conducted in Spanish.

**Prerequisite:** SPAN-317 with a minimum grade of D.

**SPAN-351. Generation Of 1898. 3 Hours.**

Analysis of the general character of the period called Generation of 1898 in Spanish Literature. Conducted in Spanish.

**Prerequisite:** SPAN-326 with a minimum grade of D or SPAN-328 with a minimum grade of D.

**SPAN-352. Puerto Rican Literature. 3 Hours.**

Survey of Puerto Rican literature from 1650 to the present; principal literary movements in novel, short story, poetry, and drama. Conducted in Spanish.

**Prerequisite:** SPAN-321 with a minimum grade of D or SPAN-323 with a minimum grade of D.

**SPAN-353. Spanish For Teachers Of Spanish. 3 Hours.**

This capstone course is designed for the Spanish major, and in particular, for those seeking K-12 certification. In terms of language pedagogy, expressions such as student-centered and teaching-centered approaches figure prominently. In this course different pedagogical approaches will be explored as they relate to the teaching of grammar, writing, reading, vocabulary acquisition, pronunciation and intonation in Spanish. The course is conducted entirely in Spanish.

**Prerequisite:** SPAN-253 with a minimum grade of D.

**SPAN-354. Spanish American Literature To 1888. 3 Hours.**

Reading and study of Spanish-American literature from its beginning up to and including the Romantic period. Conducted in Spanish.

**Prerequisite:** SPAN-329 with a minimum grade of D.

**SPAN-356. Realism And Naturalism In Spanish American Literature. 3 Hours.**

Reading and study of Spanish-American literature emphasizing "criollismo", "indianista", and Gaucho literature. Conducted in Spanish.

**Prerequisite:** SPAN-321 with a minimum grade of D or SPAN-323 with a minimum grade of D.

**SPAN-357. Prose Of The Golden Age. 3 Hours.**

Reading and study of the literary prose of the Spanish Golden Age. Emphasis on Don Quixote and the Picaresque novel. Conducted in Spanish.

**Prerequisite:** SPAN-326 with a minimum grade of D or SPAN-328 with a minimum grade of D.

**SPAN-358. El Modernismo. 3 Hours.**

Reading and study of the prose and poetry of the Modernist authors of Spanish America. Conducted in Spanish.

**Prerequisite:** SPAN-321 with a minimum grade of D or SPAN-323 with a minimum grade of D.

**SPAN-359. Spanish Literature Of The 19th Century. 3 Hours.**

Study of Romanticism, Realism, and Naturalism in Spain. Conducted in Spanish.

**Prerequisite:** SPAN-326 with a minimum grade of D or SPAN-328 with a minimum grade of D.

**SPAN-363. The Generation Of 1927. 3 Hours.**

Works of the principal figures of the Generation of 1927. Conducted in Spanish.

**Prerequisite:** SPAN-326 with a minimum grade of D or SPAN-328 with a minimum grade of D.

**SPAN-364. Chicago's Latin@ Literature & Culture. 3 Hours.**

Contributions of Spanish-American to Chicago and their impact on the city. Conducted in Spanish.

**Prerequisite:** SPAN-321 with a minimum grade of D or SPAN-323 with a minimum grade of D.

**SPAN-366. Literatura Indígena En Las Américas. 3 Hours.**

In this course, we will engage contemporary indigenous literature published bilingually (Maya T'aan, Zapotec, Tzotzil, etc. - Spanish), as well as indigenous oral traditions, textiles, musical production and performances, social relations, politics, and other forms of expressive culture. From within those (con)texts, we will consider the cultural combinations that emerge from Latin America's tripartite indigenous, Iberian and African heritage. Topics will vary and include indigenous cosmovision, coloniality, hegemony, ontology and cultural reification, ethnogenesis, identity politics, indigenous resistance and revitalization, diaspora, transnationalism, globalization, migration, modernity and tradition, cultural authenticity and social transformation.

**SPAN-367. Business Spanish II. 3 Hours.**

Advanced business vocabulary, business writing, basic business and cultural concepts, and situational practice for success in today's Spanish-speaking business world. Course develops along three primary inter-related thematic threads: A business context, a geographic context and a cultural context.

**Prerequisite:** SPAN-327 with a minimum grade of D.

**SPAN-368. Latin American Cinema. 3 Hours.**

This course offers students a panoramic overview of Latin American cinema through the critical study of representative films in their political, economic and aesthetic contexts. Conceptually, the course is a cultural history of Latin America in the twentieth and twenty-first centuries, as seen through paradigmatic films of the Silent Period, the Avant-Garde, Studio Cinema, Neorealism, New Latin American Cinema, and contemporary cinema. Taught in Spanish.

**Prerequisite:** SPAN-314 with a minimum grade of C.

**SPAN-369. Latin America Culture Through Music. 3 Hours.**

This course develops an understanding of Latin American music as a cultural artifact, traces its roots and origins in Europe, Africa and indigenous cultures, and explores its central role in shaping cultural values and identities, both in Latin America and in U.S. cities like Chicago. Taught in Spanish.

**Prerequisite:** SPAN-314 with a minimum grade of C.

**SPAN-370. Seminar On Don Quixote. 3 Hours.**

This course explores the many and complex fictional worlds of Miguel de Cervantes's Don Quixote, the two-part novel which is widely considered to be one of the greatest pieces of fiction ever written. Through a complete reading of Parts I and II, students will investigate the interplay between this important masterpiece and its socio-historical contexts in Renaissance Europe.

**Prerequisite:** SPAN-326 with a minimum grade of D or SPAN-328 with a minimum grade of D.

**SPAN-371. Seminar: José Martí. 3 Hours.**

Critical study of the life and work of Cuban poet, essayist and political philosopher José Martí (1853-1895).

**Prerequisite:** SPAN-321 with a minimum grade of D or SPAN-323 with a minimum grade of D.

**SPAN-372. Alejo Carpentier. 3 Hours.**

Critical study of selected works by Alejo Carpentier, a leading 20th century Latin American writer and critic.

**Prerequisite:** SPAN-321 with a minimum grade of D or SPAN-323 with a minimum grade of D.

**SPAN-373. Latin American Short Story. 3 Hours.**

Critical study of the development of the short story in Latin America from the 19th century to the present, and as part of broad movements such as Romanticism, Realism, Modernismo, Criollismo, Magical Realism, and Feminism. Emphasis on short-stories published during the last two decades.

**Prerequisite:** SPAN-321 with a minimum grade of D or SPAN-323 with a minimum grade of D.

**SPAN-374. Isabel Allende. 3 Hours.**

Critical study of short stories and novels by Isabel Allende, a popular contemporary Latin American writer whose commercial and critical success rests on the combination of Magical Realism and Feminism.

**Prerequisite:** SPAN-321 with a minimum grade of D or SPAN-323 with a minimum grade of D.

**SPAN-375. Literature Of The Southern Cone. 3 Hours.**

Critical overview of the historical evolution of the literature of Southern South America (Argentina, Chile and Uruguay) from the 19th Century to the 21st Century.

**Prerequisite:** SPAN-321 with a minimum grade of D or SPAN-323 with a minimum grade of D.

**SPAN-376. Gabriel García Márquez. 3 Hours.**

Critical study of the fiction of Nobel Prize Winner Gabriel García Márquez, including *One Hundred Years of Solitude*, the paradigmatic novel of Magical Realism, as well as his more recent work.

**Prerequisite:** SPAN-321 with a minimum grade of D or SPAN-323 with a minimum grade of D.

**SPAN-377. Caribbean Literature. 3 Hours.**

Critical study of Caribbean literature, with special emphasis on the literature of Puerto Rico, Cuba, and the Dominican Republic in the 20th and 21st centuries. The course explores the Caribbean as a socio-cultural area where the interaction between Indigenous, European, and African cultures over five centuries has created hybrid identities and worldviews.

**Prerequisite:** SPAN-321 with a minimum grade of D or SPAN-323 with a minimum grade of D.

**SPAN-378. Mexican Literature. 3 Hours.**

This course explores Mexican literary production from pre-Hispanic times to the present, including key texts by Netzahualcōyotl, Sor Juana Inés de la Cruz, Juan Rulfo, Rosario Castellanos, Octavio Paz, and Carlos Fuentes, among others. Conducted in Spanish.

**Prerequisite:** SPAN-321 with a minimum grade of D or SPAN-323 with a minimum grade of D.

**SPAN-379. Latin American Theater. 3 Hours.**

This course provides students with a thorough overview of Latin American theater through the study of key plays and theories of drama. Conducted in Spanish.

**Prerequisite:** SPAN-321 with a minimum grade of D or SPAN-323 with a minimum grade of D.

**SPAN-380. Literary Criticism. 3 Hours.**

This course explores the origins and evolution of a variety of literary genres as a starting point to analyze and evaluate the relationship between content, form and context in specific works. Conducted in Spanish.

**Prerequisite:** SPAN-321 with a minimum grade of D or SPAN-323 with a minimum grade of D or SPAN-326 with a minimum grade of D or SPAN-328 with a minimum grade of D.

**SPAN-380C. Seminar In Latin American Literary & Cultural Studies. 3 Hours.**

This course prepares students to frame, conduct, explore the origins and produce research on Latin American literature evolution of a variety of literary genres as a starting point to analyze and culture; students are required to take it before graduating from the BA evaluate the relationship between content, form and context in Spanish. specific works. The course has three overlapping learning objectives: (1) to develop students' ability to analyze literary and cultural texts; (2) to develop strategies and methods to locate, evaluate, and manage primary and secondary sources related to a specific research project; (3) to acquaint students with some of the major critical and theoretical debates in the field. Taught Conducted in Spanish. Students in the Accelerated Program should enroll in SPAN-401 instead 380C.

**SPAN-381. Contemporary Latin American Narrative. 3 Hours.**

This course is a critical study of major works and currents of contemporary Latin American narrative, as well as relevant critical and theoretical perspectives. Primary texts studied may include novels, short stories, testimonials, chronicles and narrative film. Students develop research skills and proficiency in oral and written expression through class assignments, including a final research paper. May be repeated for credit when primary texts studied vary.

**SPAN-382. Literature, Indios & The Yucatec Maya. 3 Hours.**

In this course, we will delve into the literary and cultural traditions of Latin America in order to answer the following question: who is the Indio? Students will discover that the answer to this question depends greatly on the social, economic, and political context in which the idea of Indio is constructed. Course emphasizes the context within Mexico's Yucatán peninsula, focusing on the nineteenth-century Caste War, henequen monoculture, and the environmental effects of tourism.

**Prerequisite:** SPAN-321 with a minimum grade of C or SPAN-323 with a minimum grade of C.

**SPAN-383S. Special Topics In Spanish-Language Literary And Cultural Studies. 3 Hours.**

Study of a selected theme in Spanish, Latin American, or Latina/o/x literature, culture, or linguistics depending on the professor's area of expertise. Consult with department for more information. Course is taught in Spanish. May be repeated for credit when topic is different. A student needs intermediate to advanced fluency in Spanish in order to enroll in this course.

**SPAN-384. Drogas, Intoxicación Y Adicción En Las Américas. 3 Hours.**

In this interdisciplinary approach to drugs, intoxication and addiction in the Americas students challenge received knowledge on these topics by analyzing cultural products that portray drug trafficking, consumption and addiction and by engaging with critical theory that problematizes the role of drugs in our society and the social harms caused by prohibition. Emphasis is given to the ways that various systems of oppression, such as capitalism, racism, (neo)colonialism and patriarchy, intersect in the economy of drugs and how perspectives from the Global South can illuminate more liberating perspectives on the relationship between humans and intoxicants. Taught in Spanish.

**Prerequisite:** SPAN-321 with a minimum grade of C or SPAN-323 with a minimum grade of C.

**SPAN-391. Internship: Community Spanish. 3 Hours.**

This capstone course is an opportunity for students to demonstrate what they have acquired in their Spanish language, literature and culture concentration through an internship tailored to enhance their understanding of the social and political life of Latinos in the surrounding communities. The internship will be an intense course that will give students the opportunity to apply the knowledge and skills developed over the course of their undergraduate career to an actual work or service setting. Students should expect to work closely with site supervisor, others at internship site, seminar classmates, and the assigned Professor.

**Prerequisite:** SPAN-314 with a minimum grade of C.

**SPAN-3981. Independent Study In Spanish. 1 Hour.**

An intensive investigation of an area of Spanish studies.

**Prerequisite:** SPAN-252 with a minimum grade of C and SPAN-253 with a minimum grade of C.

**SPAN-3982. Independent Study In Spanish. 2 Hours.**

An intensive investigation of an area of Spanish studies.

**Prerequisite:** SPAN-252 with a minimum grade of C and SPAN-253 with a minimum grade of C.

**SPAN-3983. Independent Study In Spanish. 3 Hours.**

An intensive investigation of an area of Spanish studies.

**Prerequisite:** SPAN-252 with a minimum grade of C and SPAN-253 with a minimum grade of C.

**SPAN-400. Visión De América I. 3 Hours.**

This course explores the images of and ideas about "America" contained primarily but not exclusively in literary works prior to the twentieth century. May address issues relevant to the field of Cultural Studies. Must be taken within the first 12 hours of enrollment in the M.A. Program.

**SPAN-401. Introduction To Latin American Literary & Cultural Studies. 3 Hours.**

Designed as a workshop, this course prepares students to frame, conduct, and produce research on Latin American literature and culture; students are required to take it upon entering the program. The course has three overlapping learning objectives (1) to develop students' ability to analyze literary and cultural texts; (2) to develop strategies and methods to locate, evaluate, and manage primary and secondary sources related to a specific research project; and (3) to acquaint students with some of the major critical and theoretical debates in the field. Taught in Spanish.

**SPAN-407. Latin American Baroque Literature And Culture. 3 Hours.**

This seminar will explore key aspects of the Latin American Baroque as an original contribution to global baroque culture in the seventeenth and eighteenth centuries, and as a period when a Latin American identity began to crystallize. Taught in Spanish.

**SPAN-408. Topics In Latin American Cinema. 3 Hours.**

This seminar will examine one or more modes of production and/or representation in Latin American Cinema. Possible topics include periods, genres, auteurs, and national cinemas, and the role of theory and criticism in the reception and evaluation of specific films and cinematic movements. Taught in Spanish.

**SPAN-410. History Of The Spanish Language. 3 Hours.**

Study of the historical, geo-political, sociological, and linguistic (phonological, morphological, syntactical) factors that have shaped the evolution of the Spanish Language.

**SPAN-413. Spanish Dialectology. 3 Hours.**

Phonetics and phonology of Spanish, evolution of Spanish from its Latin roots to the present, and general dialectal tendencies of the Spanish language from each of the Spanish-speaking nations in the Americas. Research project requires theoretically informed analysis of student-gathered data. Taught in Spanish.

**SPAN-414. U.S. Latina/o Literature & Culture. 3 Hours.**

This course supplements these offerings by focusing on the literary production of Hispanophone and Latino/a-identified writers and artists in the US, including native Latinos, exiles and immigrants. Assignments, lectures and discussion will center on questions of identity, culture, history, politics and aesthetics. Readings will offer a broad representation of writers from North America, South America, Central America and the Caribbean and will cover various genres including essays, novels, poetry and drama. The course is taught in Spanish with readings in Spanish and English. For students who are teaching or plan to teach, the course will also provide analysis of pedagogical methods in Latino/a studies.

**SPAN-415. Andean Literature & Culture. 3 Hours.**

Critical study of the literary and cultural production in the Andean region of South America, with special emphasis on the worldviews of its predominantly indigenous and mestizo populations. Taught in Spanish.

**SPAN-416. Latin American Avant-Gardes. 3 Hours.**

Critical study of experimental literature and art in 20th century in Latin America, with special emphasis on the historical avant-gardes (i.e., 1920s and 1930s), and their legacy on subsequent cultural production. Taught in Spanish.

**SPAN-418. Novels Of The Mexican Revolution. 3 Hours.**

This course explores the representation of the Mexican Revolution and its aftermath in Mexican literature, and the novel in particular. Conducted in Spanish.

**SPAN-419. Topics In Contemporary Mexican Literature. 3 Hours.**

This course offers a critical study of major works and currents in contemporary (1960s-present) Mexican literature, focusing on literary trends and the role of criticism in the reception and evaluation of works and literary movements. Taught in Spanish.

**SPAN-420. Visión De América II. 3 Hours.**

This course explores the images of and ideas about "America" contained primarily but not exclusively in literary works of the twentieth and twenty-first centuries. Must be taken within the first 12 hours of enrollment in the M.A. Program.

**SPAN-421. Spanish Pedagogy: How To Teach Grammar, Vocabulary, Culture, Literature And Writing. 3 Hours.**

This graduate level seminar will begin by briefly exploring the pedagogical history of language teaching: approaches, methods and techniques. The course will focus more specifically on the pedagogical challenges posed by the teaching of culture, literature, grammar, vocabulary, writing and conversation in the diversified classroom with students of varying levels of linguistic proficiency. The students will develop classroom skills and strategies by designing materials for these pedagogical issues. The students will be able to formulate contextualized lesson plans and assessment measures in accordance with the National Standards for Foreign Language Learning. The course is conducted entirely in Spanish.

**SPAN-428. Topics In Pre-Columbian Art. 3 Hours.**

Selected topics in Pre-Columbian art. Advanced research papers and presentations. Content changes. May be repeated for 6 credits. Taught in Spanish.

**SPAN-431. Latin American Romanticism. 3 Hours.**

Critical study of the origins, evolution and legacy of Romanticism in Latin American literature. Authors include José María Heredia, Gertrudis Gómez de Avellaneda, Ricardo Palma, Jorge Isaacs, José Mármol and Manuel de Jesús Galván and in particular their adaptation of Rousseau's project for a utopian society to a Latin American context.

**SPAN-432. Latin American Modernismo. 3 Hours.**

Critical study of the origins, evolution and legacy of Modernismo, the first autochthonous literary movement to emerge in Latin America. Authors include José Martí, Rubén Darío, Manuel Gutiérrez Nájera and Amado Nervo.

**SPAN-433. José Martí. 3 Hours.**

Critical perspectives on the life and work of Cuban poet, essayist and political philosopher José Martí (1853-1895).

**SPAN-434. Latin American Magical Realism. 3 Hours.**

Critical study of the origins, evolution and legacy of Magical Realism in Latin American Literature. Representative works by Alejo Carpentier, Miguel Ángel Asturias, Gabriel García Márquez, Isabel Allende, Cristina García, and Laura Restrepo.

**SPAN-435. Gabriel García Márquez. 3 Hours.**

Critical perspectives on the writings of Gabriel García Márquez, and in particular his seminal *One Hundred Years of Solitude*.

**SPAN-436. Hablares En Contacto: El Español En Estados Unidos. 3 Hours.**

Language change accelerates when two or more languages or dialects are in contact; such is the case between English and Spanish, and between different dialects of Spanish in the United States. This course will examine the lexical, structural, phonological, morphological and syntactic influences from English and various dialects of Spanish on U.S. Spanish, and their impact on the linguistic landscape and the construction of identity in the United States. Taught in Spanish.

**SPAN-440. Teaching Spanish-Language Heritage Learners. 3 Hours.**

This seminar is an exploration of the research and practice of teaching Spanish to Heritage Language (HL) learners, a term broadly defined as students who choose to formally study a language they speak or hear (or spoke or heard in childhood). We will consider the goals and principles in HL instruction, as well as ways to adopt HL pedagogy in mixed classrooms with Second Language (L2) learners, or those who study a language with which they have little to no prior experience.

**SPAN-460. Literatura(s) trans\*. 3 Hours.**

In this seminar, we approach the study of Spanish-language novels, art, and essays from multiple geopolitical spaces in order to consider how trans\*-identifying authors, activists and artists represent trans\*ness and queerness writ large as redefining of subjectivity and belonging. We will define and complicate the asterisk in Trans\* theory in order to discuss relationality with belonging mediated by the state and by cisheteronormative practices. This course is taught in Spanish, with texts in Spanish, Spanglish, and English.

**Requirement:** Near-native Spanish language proficiency as demonstrated by major standing in LALC program or department approval.

**SPAN-466. Literatura Indígena En Las Américas. 3 Hours.**

In this course, we will engage contemporary indigenous literature published bilingually (Maya T'aan, Zapotec, Tzotzil, etc. - Spanish), as well as indigenous oral traditions, textiles, musical production and performances, social relations, politics, and other forms of expressive culture. From within those (con)texts, we will consider the cultural combinations that emerge from Latin America's tripartite indigenous, Iberian and African heritage. Topics will vary and include indigenous cosmovision, coloniality, hegemony, ontology and cultural reification, ethnogenesis, identity politics, indigenous resistance and revitalization, diaspora, transnationalism, globalization, migration, modernity and tradition, cultural authenticity and social transformation.

**SPAN-470. Feminismos Decoloniales Desde Abya Yala. 3 Hours.**

The course defines and contextualizes decolonial feminist praxis among Indigenous/Native and Latin American activists and academics. In the first part of the course, we begin to make sense of what decoloniality is via the notion of coloniality and its extension and antecedents beyond academia. In the second part of the course, we will think beside Sara Ahmed's notion of "the personal is theoretical," via the oppressive structures of coloniality and how they affect every aspect of one's lived experience, from ways of thinking and being to enactments of labor, sexuality, gender, and reproduction.

**SPAN-481. Contemporary Latin American Narrative. 3 Hours.**

This course is a critical study of major works and currents of contemporary Latin American narrative, including novels, short stories, testimonial narrative, chronicles and narrative film. The course also focuses on the role of criticism in the reception and evaluation of narrative works. Taught in Spanish.

**SPAN-484. Drogas, Intoxicación Y Adicción En Las Américas. 3 Hours.**

In this interdisciplinary approach to drugs, intoxication and addiction in the Americas students challenge received knowledge on these topics by analyzing cultural products that portray drug trafficking, consumption and addiction and by engaging with critical theory that problematizes the role of drugs in our society and the social harms caused by prohibition. Emphasis is given to the ways that various systems of oppression, such as capitalism, racism, (neo)colonialism and patriarchy, intersect in the economy of drugs and how perspectives from the Global South can illuminate more liberating perspectives on the relationship between humans and intoxicants. Taught in Spanish.

**SPAN-485. Study Tour: Latin America. 3 Hours.**

This course is designed as a seminar that culminates in a Study Tour to a Latin American country. Students will be able to research and discuss subjects related to the Study Tour before the trip and will continue exploring these subjects while visiting the country.

**SPAN-493. La Voz Del Pueblo: Eye Dialect And The Regional Text. 3 Hours.**

Regional authors embed national and regional history and culture in their writing, validating the voice and identity of marginalized community/ies. This course approaches regional texts from a linguistic perspective, exploring how authors code speech phenomena using spelling representative of pronunciation instead of standard orthography. This technique, known as eye dialect, emphasizes power imbalances between characters whose dialect follows orthographic conventions and those who do not. Students will decode eye dialect and regionalisms in diverse texts to discover what direct and indirect messages they convey about class, privilege and prestige.

**Prerequisite:** SPAN-413 with a minimum grade of C.

**SPAN-5901. Thesis Hours. 1 Hour.****SPAN-5902. Thesis Hours. 2 Hours.****SPAN-5903. Thesis Hours. 3 Hours.**

## Swahili

**SWAH-101. Swahili I. 3 Hours.**

Development of basic skills in listening, speaking, reading and writing. Culture appreciation.

**SWAH-102. Swahili II. 3 Hours.**

Continuation of SWAH-101.

# Major in Spanish

---

The mission of the Department of World Languages and Cultures (<http://neiu.edu/languages/>) is to provide high quality instruction in world languages, and to prepare students to be lifelong learners and engaged citizens through the critical study of the literatures and cultures associated with these languages. As a Spanish major, the language and critical thinking skills you develop through written and oral exposition, research, and service learning will enhance your career opportunities in today's global society and provide the basis for a lifetime exploration of multiple cultures and worldviews. The accelerated concentration strand of the B.A. in Spanish provides a pathway for qualified students to move seamlessly into the M.A. in Latin American Literatures and Cultures while sharing up to 12 credits between the two.

To apply to the Accelerated Concentration strand of the B.A. in Spanish, students must have a cumulative grade point average of at least 3.0 and have earned at least 60 credits toward their bachelor's degree; at least 12 of those credits must have been earned at NEIU. In addition, students must complete the online application for the M.A. in Latin American Literatures and Cultures and meet the admission requirements for that program. Accepted students may begin the graduate-level shared coursework once they have earned 72 undergraduate credits, at least 12 of which were at NEIU.

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6
<b>Humanities (HU)*</b> 3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	9
<b>Behavioral/Social Sciences (SB)*</b> 3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	9
<b>Natural Sciences (NS and NSL)**</b> 3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	9

### Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

### Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

### Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

### Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

- \* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.
- \*\* Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/graduation-requirements/bachelors-degree/>)

## Major in Spanish

The B.A. in Spanish consists of thirteen courses (39 credit hours): 7 required courses (listed below), one capstone seminar (SPAN 380C), and 5 elective courses at the 300-level. Majors are also required to create an electronic portfolio of work done in the required courses. Majors are encouraged, but not required, to pass both the OPI (Oral Proficiency Interview (<https://tms.languagetesting.com/IndividualSite/>)) and the WPT (Writing Proficiency Test (<https://tms.languagetesting.com/IndividualSite/>)) at the level of Advanced Low or above. Both tests are administered by the American Council of Teachers of Foreign Languages (ACTFL), and are nationally recognized for assessing oral and written proficiency according to the ACTFL Proficiency Guidelines. Students in the Accelerated Program (BA + MA) must maintain a 3.0 cumulative undergraduate GPA and earn at least a "B" in all graduate-level courses taken for shared credit. In the Accelerated Program, the undergraduate degree must be completed within four (4) semesters of the start of the shared graduate-level courses.

### Required Courses (8) 24 credits:

SPAN 252, 253, 301, 319 (12 credits)

SPAN 314 or 331 (select one culture course from this list) (3 credits)

SPAN 321, 323, 326, 328 and 329 (select two literature courses from this list) (6 credits)

One capstone seminar: SPAN 380C (3 credits)

**Elective Courses (5) 15 credits:** any additional courses numbered SPAN 300-399.

**Total: 24 credits (required) + 15 credits (electives) = 39 credits**

Code	Title	Hours
SPAN-252	Introduction To Literary & Cultural Analysis (Required Courses)	3
SPAN-253	Academic Research & Writing In Spanish	3
SPAN-301	Advanced Spanish Grammar	3
SPAN-319	Applied Spanish Linguistics	3
SPAN-380C	Seminar In Latin American Literary & Cultural Studies	3
One of the following culture courses:		3 crs.
SPAN-314	Latin American Culture	
SPAN-331	Hispanic World Cultures	
Two of the following literature courses, one of which must be SPAN 321, 323, or 329:		6 crs.
SPAN-321	Latin American Literature I	
SPAN-323	Latin American Literature II	
SPAN-326	Spanish Literature I	
SPAN-328	Spanish Literature II	
SPAN-329	Introduction To Spanish American And Spanish Literature	
In addition to 5 elective courses, at the 300-level SPAN 300-399		15 crs.

## Writing Intensive Requirement

Majors in Spanish can meet the Writing Intensive Program (WIP) graduation requirement by taking WLC 333 (WIP: *Cross-Cultural Communication: Fundamentals of Translation*) or LLAS 201 (WIP: *History and Culture of Latinos*) or SCED 311 (WIP: *School Curriculum*). Visit the Center for Academic Writing on the fourth floor of the Ronald Williams Library for peer tutoring and other writing resources. Double Majors, (students who major in Spanish and another discipline) need only take one WIP course in the major of their choosing.

## Proficiency Testing

The Oral Proficiency Interview and Writing Proficiency Test are administered by the American Council of Teachers of Foreign Languages (ACTFL), and are nationally recognized for assessing oral and written proficiency according to the ACTFL Proficiency Guidelines. Register online (<https://tms.languagetesting.com/ProctorSite/login.aspx>) for an appointment to take the tests at the Language Learning Lab.

This sample curricular map is provided to guide you in the planning of your progression for this major. This guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor.

# Master of Arts in Latin American Literatures and Cultures

---

## Master of Arts in Latin American Literatures and Cultures

### Program Description

The Master of Arts Program critically examines Latin American cultural forms of expression in their socio-historical contexts; develops skills to work with Latin American and US Latina/o populations in linguistically and culturally appropriate ways; and enhances career opportunities in education, government, international business, and the culture industries. Courses are regularly offered during the late afternoon and evening.

### Requirements for Admission to the Program

- Bachelor's Degree from an accredited institution.
- Advanced-level proficiency in written and oral Spanish as evidenced by a score of at least Advanced Low in the OPI (Oral Proficiency Interview) and WPT (Writing Proficiency Test) administered by ACTFL (American Council of Teachers of Foreign Languages). To register for the exams, visit <https://tms.languagetesting.com/IndividualSite/>, and have the results be sent directly to Northeastern Illinois University's Graduate College.
- Online application: graduate-college (<http://www.neiu.edu/academics/graduate-college/>)

### Teacher Licensure Option

M.A. students who already have a B.A. in Spanish or who complete a Second Bachelor's in Spanish may also enroll in a dual MA/TLP track to become certified as Spanish K-12 teachers through the College of Education.

### Degree requirements (36 credits)

Code	Title	Hours
<b>Required Courses:</b>		
SPAN-401	Introduction To Latin American Literary & Cultural Studies (to be completed during the first semester of the program)	3
Eleven graduate-level courses (which may include):		33
Up to eleven SPAN 400-level courses at NEIU		
Up to 3 graduate level courses from other departments at NEIU (approval of the graduate advisor required)		
Up to 9 credits of graduate level coursework from an accredited institution other than NEIU (approval of the department chair required)		
Up to 6 credits of Master's Thesis		
<b>Total Hours</b>		<b>36</b>

#### Non-thesis Option:

Students take 1 required course and 11 electives.

#### Thesis Option:

Students who opt for a thesis must, the semester before they intend to enroll in thesis hours, form a committee of three faculty members (1 primary and 2 readers), and submit a proposal with the following items:

- A 500-word narrative with a tentative title, corpus, hypothesis, methodology, theoretical framework, and the objective(s) of the study.
- A 1-2 page bibliography of primary and secondary sources in MLA format.

The committee will decide on the merits of the proposal, and whether or not to grant permission for the student to conduct the thesis. Students granted permission to write a thesis must follow the Graduate College Thesis Manual (<https://www.neiu.edu/academics/college-of-graduate-studies-and-research/masters-thesis-resources/masters-thesis-manual-documents/>).

#### Comprehensive Written Examination:

At the beginning of the program, students receive a list of eight general questions on Latin American literature and culture, with accompanying bibliography. For the comprehensive exam, students choose and answer four of these questions. A student who fails any part of the Comprehensive Exam may take that part a second time. Permission to take it a third time may be granted by the Departmental Graduate Committee after a review of the student's record. Additional coursework may be required before a third and final attempt.

**Electronic Portfolio:** The electronic portfolio includes copies of the final essays submitted for each course, a copy of the comprehensive examination, and the corresponding evaluation rubrics submitted by the program's faculty for each of these items.

# Minor in French Studies

---

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6
<b>Humanities (HU)*</b> 3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	9
<b>Behavioral/Social Sciences (SB)*</b> 3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	9
<b>Natural Sciences (NS and NSL)**</b> 3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	9

### Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

#### Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

#### Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

### Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

\* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

\*\* Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/graduation-requirements/bachelors-degree/>)

## **Minor in French Studies**

The Minor in French Studies consists of six courses (18 units) focusing on French and/or Francophone cultures. Of these six courses, at least four (12 units) must be taught in French at the 200-level or above. English-taught courses pre-approved for credit towards the Major in French Studies include: WLC-220 . Consult the French Advisor for approval of other English-taught courses towards the Minor.

## Minor in Spanish

The Minor in Spanish consists of 21 credits at the Intermediate Medium Level and above.

# Teacher Licensure in Spanish K-12

---

To become a licensed K-12 teacher of Spanish, students must:

1. Complete the requirements for a major in Spanish.
2. Pass the Oral Proficiency Interview (OPI) administered by ACTFL (American Council of Teachers of Foreign Languages) with a score of Advanced Low or above.
3. Pass the Content Area Exams in Spanish administered by ILTS (Illinois Licensure Testing System) with a minimum average score of 240.
4. Complete the following professional education sequence in secondary education:

Code	Title	Hours
WLC-302	Introduction To Teaching World Languages	3
SPAN-319	Applied Spanish Linguistics <sup>4</sup>	3
EDFN-305	Philosophical And Historical Foundations Of Public Education <sup>1</sup>	3
EDFN-306	Education And Individual Differences <sup>1,3</sup>	3

Student must apply and be admitted to the College of Education to continue with the remaining courses in the sequence:

Code	Title	Hours
LTCY-301	Foundations Of Literacy Instruction In Secondary Grades <sup>1</sup>	3
EDFN-307	Psychology Of Instruction And Learning <sup>1,3</sup>	3
SCED-311	Writing Intensive Program: School Curriculum <sup>1</sup>	3
SCED-303F	Teaching Modern Foreign Languages In The Secondary School <sup>1,5</sup>	3
SCED-304J	Foreign Language Clinical Experience In The Secondary School <sup>2,4,5</sup>	1
SCED-305J	Secondary Student Teaching And Seminar In Spanish <sup>2</sup>	9

<sup>1</sup> C or better grade required

<sup>2</sup> B or better required

<sup>3</sup> EDFN-306 & EDFN-307 each have 20 clock hours of clinical experience attached.

<sup>4</sup> Spanish K-12 majors must take SPAN-319 prior to enrolling in SCED-304J.

<sup>5</sup> SCED-304F/SCED-304J and SCED-303F must be taken concurrently.

# College of Business and Technology

**Michael Bedell, Ph.D., Professor, Dean**

**Qiumei Jane Xu, Ph.D., Professor, Associate Dean**

## College of Business and Technology Overview

cbt-do@neiu.edu (773) 442-6100

### Mission

The College of Business and Technology (CBT) delivers accessible, applied, market-driven business and technology education in an inclusive and supportive environment for diverse learners.

### Vision

We endeavor to be a leading metropolitan college of business and technology, known for the quality of our academic programs, our graduates, and our community engagement within Chicago.

### Goals

1. Attract, educate, retain, and graduate students who will be equipped with the knowledge & skills to succeed in a diverse global business/scientific environment.
2. Foster high quality curricular and pedagogical activities aligned with the mission of the college.
3. Foster scientific curiosity and provide opportunities to research practical solutions to real-world problems.
4. Develop, maintain, and enhance collaborative relationships with other units of our university community, with federal, state, and local governments, and with business communities in Chicago and beyond.
5. Provide opportunities and resources to support the professional development of faculty and staff.
6. Enhance technological and physical infrastructures to develop flexible working and learning environments.
7. Continuously improve the college's financial position by diversifying and enhancing revenue sources.

### Accreditation

The Business Programs within the NEIU College of Business and Technology are accredited by AACSB International -- the Association to Advance Collegiate Schools of Business (denoted below by \* ). Of the more than 16,000 business programs worldwide only 5% have been awarded AACSB Accreditation. For more information about AACSB Accreditation please see their website: [www.aacsb.edu](http://www.aacsb.edu).

### Degree Programs

The College of Business and Technology offers six degree programs: three in Business and three in Computer Science -- with natural crossover between areas of study where appropriate. Degree programs listed below with a "\*" are Accredited by AACSB. Degree programs listed below with "2" are STEM designated. The degree programs are as follows:

- Bachelor of Science in Business\* (B.S.)
- Bachelor of Science in Computer Science (B.S.)
- Bachelor of Science in Information Technology (B.S.)
- Bachelor of Science in Cybersecurity (B.S.)
- Master of Business Administration\*<sup>2</sup>(M.B.A.)
- Master of Science in Accounting\*<sup>2</sup> (M.S.)
- Master of Science in Computer Science<sup>2</sup>(M.S.)

Both the Bachelor of Science in Business and Computer Science rely on a general education foundation followed by professional preparation in their respective fields. Students enrolling in the **B.S. in Business** may elect to major in **Accounting, Finance, General Business Administration, Marketing, and Management (General Management, Management with Human Resources, or Management with Business Analytics)**.

Students enrolling in the **B.S. in Computer Science** may elect to major in **Computer Science (General track, Computer Network and Security, or Data Science concentration), Information Technology and Cybersecurity**.

The College offers Business undergraduate **minors in Accounting, Business Analytics, Finance, FinTech, Forensic Accounting, Human Resource Management, Marketing, Management, Entrepreneurship for Business Majors, Entrepreneurship for Non-Business Majors, Global Business Management and Computer Science** for those who wish to supplement or expand coursework in other disciplines. A **pre-MBA minor** is also offered to facilitate entering the MBA program for students who did not major in a business discipline for their undergraduate degree. A minor is not a graduation requirement for Business students.

Business graduate degrees offered are the **Master of Business Administration (MBA)** and **Master of Science in Accounting (MS)** degrees. **Both business graduate degrees are Accredited by AACSB International.** Beyond the general MBA program, there are also **MBA elective tracks in Entrepreneurship, Marketing, Finance, Global Business Management, Human Resource Management, Information Technology, Sports Management/Exercise Science, and Public Health.** The last four tracks are partnerships with other graduate programs including the MS in Computer Science; MS in Public Health; Human Resource Development Masters in the Goodwin College of Education; and the Chemistry Separation Sciences Masters in the College of Arts and Sciences.

The College offers a **Master of Science in Computer Science** degree which has two concentrations. The first is an **industry focused** concentration and provides advanced skills for those wishing to advance in industry roles. The second is a **science focused** concentration designed for those wishing to pursue a Ph.D. in Computer Science. The MS in Computer Science also provides the MBA with an Information Technology track.

Courses at the College of Business and Technology are delivered primarily through traditional in-person classes and asynchronous online classes. Two undergraduate degree majors -- **Management and Marketing** -- may also be completed in a completely online modality. Faculty teaching online courses are certified using the Quality Matters standards for online teaching. Classes are scheduled to accommodate the needs of full-time, part-time, and evening students.

The **MBA program core** is delivered using a traditional lecture/video conference modality where meetings are in a classroom that has active video conferencing so that students who are unable to come to class in person may still attend via video conference. Elective courses are all delivered using an asynchronous online modality.

All business programs in the College of Business and Technology adhere to quality standards established by AACSB International. Details about these standards such as admission, course enrollment, academic requirements, and graduation are found in a separate tab. The Association to Advance Collegiate Schools of Business, and is committed to providing a well-rounded education for a career in business, government, or non-profit organizations.

## College Organization

The College of Business and Technology is organized into four academic units and two student facing units.

- Department of Accounting, Business Law, and Finance (773) 442-6140
- Department of Computer Science (773) 442-4720
- Department of Management and Marketing (773) 442-6120
- CBT Graduate Studies (773) 442-6107, (MBA program; MS Accounting Program) (773) 442-6160, (MS in Computer Science Program)
- CBT Undergraduate Program Advisement and Outreach (see below)
- CBT Student Development (see below) (773) 442-6100
- CBT Business, Innovation and Growth (BIG) Center (773) 442-6105

## Advisement

### UNDERGRADUATE PROGRAMS

The University Advising Center (<https://neiu.edu/academics/advising-center/>) advises freshman and sophomores who have not yet declared a major. The Office of Undergraduate Program Advisement in the College of Business and Technology provides professionally staffed, centralized advising to students who are (1) freshmen and sophomore pre-business and computer science majors focusing on their general education curriculum and (2) juniors and seniors wishing to enroll in undergraduate business or computer science courses. Please see advisor contact and program information on the College of Business and Technology Advising Center. (<https://www.neiu.edu/academics/college-of-business-and-technology/cbt-advising-center/>)

If you're considering College of Business and Technology programs, we encourage you to contact one of the College advisors immediately to learn about the College's programs and procedures and to declare your intent to pursue a Business or Computer Science major/minor. Once you meet with an advisor, the Office of Undergraduate Program Advisement maintains records of your progress toward graduation and serves as a resource for information about University and College of Business and Technology policies and requirements.

- Location: CBT 178
- Phone: (773) 442-6111
- E-mail: [cbt-ug@neiu.edu](mailto:cbt-ug@neiu.edu)

## GRADUATE PROGRAMS

- For general questions regarding CBT graduate programs: [cbt-grad@neiu.edu](mailto:cbt-grad@neiu.edu)
- For questions regarding CBT MBA: [mba@neiu.edu](mailto:mba@neiu.edu)
- For questions regarding CBT MSA: [msaccounting@neiu.edu](mailto:msaccounting@neiu.edu)
- For questions regarding C.S. Graduate Program: [ms-cs@neiu.edu](mailto:ms-cs@neiu.edu)

## Office of Student Development

The Office of Student Development provides professionally staffed support to student professional development activities and students career preparation. Student professional development activities include more than 15 student clubs; annual events such as the International Business Conference; and annual study tours. Career preparation activities include job announcements, resume review, mock interviews, Handshake support, and more. This office also is the liaison to the main campus career center.

- Location: CBT 184
- Phone: (773) 442-6100
- E-mail: [cbt-do@neiu.edu](mailto:cbt-do@neiu.edu)

## Enrolling in Multiple Institutions

Students interested in completing courses at alternate institutions after beginning enrollment at Northeastern must contact their advisor PRIOR to enrollment in the course(s) to confirm if the course may apply to degree requirements. As a general rule, all upper-division business-related coursework must be completed at Northeastern (Core, Required, and Elective business courses) once you have been admitted or re-admitted to Northeastern. (Business courses may NOT be completed at alternate institutions.) Failure to obtain permission to complete courses at an alternative institution prior to enrollment may result in rejection of the course by the University and the College. A limited number of computer science courses may be taken on a dual enrollment basis with several Chicago area high schools.

## Enrollment In Business Courses for Non-Business Students

If you're a Northeastern student not officially declared in any business major or minor program who would like to enroll in one or more business courses, you must meet the prerequisites specified by the course(s) or minor you wish to study. In some cases this will consist of the same prerequisites as business majors, including completion of the College's Foundation Requirement. In some cases, a course may only require one prerequisite. A maximum of 12 hours of business courses (4 courses) at 300-level may be completed prior to formally declaring a business major or minor.

Students-at-large must secure approval from the Office of Program Advisement to register in any business course. In general, the College's Foundation Requirement is waived for visiting students-at-large, but you must meet the specific prerequisites for business course(s) in which you seek to enroll. Students-at-large enrolled in degree programs at other institutions are responsible for confirming courses completed at Northeastern will transfer to their primary institution to satisfy degree requirements.

## Graduation Requirements

To earn a degree from the College of Business and Technology, you must meet all University graduation requirements, have completed all required and elective courses in the College of Business and Technology program and an adequate program GPA for all of your Major course work (Core Courses plus required and elective courses in your Major).

## Filing for Graduation

To apply for graduation, contact the Program Advisors two semesters prior to the term in which you plan to graduate. See approximate dates below:

Month of Anticipated Completion of Degree Requirements	Filing Deadline
May	Previous September
August	Previous January
December	Previous May

Major and minor graduation forms are valid for a one-year period from the date on the form. If you do not graduate within that period, you must contact the Program Advisors to complete a new graduation form for the University's graduation evaluators.

## Additional Academic Regulations

### Governing Standards

The requirements that govern business major and minor programs are those that were published in the Academic Catalog at the time you were admitted to Northeastern Illinois University. Changes in course prerequisites are an exception, becoming applicable as they are enacted.

If you are absent from the University for one year or longer, your student status is inactivated. You revert to undeclared status, must re-apply for admission to the University and the College upon return, and must meet all current University, major/minor declaration, and business program requirements to qualify for a Bachelor's Degree.

## Repeat Course Policy/Duplication of Course Credit

Courses may only apply to one degree program. You must complete separate courses to fulfill credit hour requirements for all programs when completing multiple business programs (two majors or a major and a minor program). When the same course is required for multiple programs, the department chairperson of the second program must approve a course to be completed to satisfy credit hour requirements for that program.

The College calculates your Foundation and Major grade point averages for College requirements using the most recent grade for repeated courses. This is in compliance with the University's cumulative grade point average policy (discussed below).

University policy permits students to repeat courses. The most recent grade and corresponding grade points from repeated courses are used to calculate the cumulative grade point average. Previous grade(s) are not included in calculation of cumulative grade point average or hours earned regardless of which grade is higher. All courses count only once toward the 120 credit hour minimum required for graduation. Students who repeated a course prior to Summer 2008 in which a grade of "C" or above was earned will have all grades calculated in the cumulative grade point average, but will only earn credit hours for the course once.

Note: **ALL grades received for all courses appear on the transcript.**

## Class Attendance/Course Withdrawals

In accordance with University policy, students are expected to attend the first class session of all courses in which they are enrolled to confirm their registration. If they stop attending classes, they must officially withdraw from the course through established University procedures (NEIUport). Failure to officially withdraw from a course you stop attending for any reason is the same as failing the course. A permanent grade of F, NAF or UWF will appear on your transcript.

## Pass/Fail Policy

Pass grades ("P") are not permitted to satisfy any degree requirements. Only grades of "C" or better fulfill course requirements.

## Currency of courses

The College of Business and Technology may evaluate courses for currency. Courses completed six or more years prior to enrollment or re-enrollment at NEIU will not be applied toward degree program completion.

## Academic Practices and Policies

### Professional School Curriculum Model

Consistent with the emphasis on excellence in its mission, the College of Business and Technology has implemented a professional school curriculum model that concentrates advanced study in Business and Computer Science subjects during the last two years of a four-year program.

All students majoring in a College of Business and Technology discipline must complete liberal arts focused General Education and appropriate business or computer science preparatory courses in the earlier years of your academic experience to ensure you are well-equipped for success in your major studies.

Admission to Northeastern Illinois University does not automatically constitute admission to programs offered by the College of Business and Technology. If you plan to pursue a baccalaureate degree in business, you must formally apply for admission to the College after you have completed the University's General Education requirements along with eight Foundation courses that provide basic skills critical for success in a business program.

If you are a Northeastern non-business student who wants to take one or more Business courses, you need not apply for admission to the College of Business and Technology. You must, however, meet the prerequisites as prescribed by the course(s) or minor you wish to take, and meet with the Business Program Advisers to register.

At-large students – students (with or without degrees) registered at other institutions who enroll for Northeastern classes – must secure approval from the Business Program Advisers to register for any Business course.

Students interested in pursuing Computer Science, Cybersecurity, and Information Technology are welcome to join these programs at any time. Please make an appointment with the college advisors as the first step.

### Enrollment in Business Courses for Non-Business Students

If you are a Northeastern student not officially declared in any business major or minor program and would like to enroll in one or more business courses, you must meet the prerequisites (if any) specified by the course(s) or minor you wish to study. In some cases this will consist of the same prerequisites as business majors, including completion of the College's Foundation Requirement. In some cases, a course may only require one

prerequisite. A maximum of 12 hours of business courses (4 courses) at 300-level may be completed prior to formally declaring a business major or minor.

Students-at-large must secure approval from the Program Advisement Office (CBT 178) to register in any business course. In general, the College's Foundation Requirement is waived for students-at-large, but you must meet the specific prerequisites for business course(s) in which you seek to enroll. Students-at-large enrolled in degree programs at other institutions are responsible for confirming courses completed at Northeastern will transfer to their primary institution to satisfy degree requirements.

## Sequence of Courses and Admission Requirements for Business Students

The requirements below apply only to students who wish to major in Business. Non-business students should check the requirements specified in the section "Enrollment in Business Courses for Non-Business Students".

Students majoring in Business are required to take three sets of courses:

- The University Core Curriculum and General Education Courses
- Foundation Courses and Core Courses
- Major-specific courses

## UNIVERSITY CORE CURRICULUM AND GENERAL EDUCATION COURSES

University Core Curriculum and General Education Courses are outlined in the University Academic Catalog and in the Schedule of Classes each semester. The College of Business and Technology requires students complete the General Education Requirement before enrollment in any upper division (300-level) business courses. BLAW-109 satisfies the FYE requirement for freshman students.

ECON-215, ECON-217, MATH-165, and PHIL-213 fulfill both College of Business and Technology course requirements and the University's General Education Requirement; however, course credit hours are only recognized once toward graduation requirements.

## FOUNDATION COURSES

These are basic skills courses that you complete before being admitted to upper-division (300-level) study in business. Three are specific courses in Business, and six are in Arts and Sciences. Check the course descriptions in this catalog for course prerequisites.

Code	Title	Hours
<b>Foundation Courses</b>		
ENGL-101	Writing I	3
ENGL-102	Writing II	3
MATH-165	Finite Mathematics For Business And The Social Sciences	3
PHIL-213 or PHIL-215	Ethics ( This also satisfies a Human Relations requirement) Business Ethics	3
ECON-217	Principles Of Microeconomics <sup>1</sup>	3
ACTG-201	Introduction To Financial Accounting <sup>1</sup>	3
ACTG-202	Introduction To Managerial Accounting <sup>1</sup>	3
BLAW-285	Legal Environment Of Business <sup>1</sup>	3
<b>Total Hours</b>		<b>24</b>

<sup>1</sup> Foundation Courses that are also Core Courses.

\* PHIL-215 Satisfies the CPA Ethics requirement

## CORE COURSES

Core courses are those that are required of all majors. Four of the Core Courses are also Foundation Courses. Please check the course descriptions in the catalog for course prerequisites.

Code	Title	Hours
ACTG-201	Introduction To Financial Accounting <sup>1</sup>	3
ACTG-202	Introduction To Managerial Accounting <sup>1</sup>	3
BLAW-285	Legal Environment Of Business <sup>1</sup>	3
ECON-215	Principles Of Macroeconomics	3
ECON-217	Principles Of Microeconomics <sup>1</sup>	3
ABF-350	Management Information Systems	3

FINA-360	Principles Of Financial Management	3
MKTG-350	Principles Of Marketing	3
MNGT-368	Business Statistics	3
MNGT-370	Writing Intensive Program: Managing Global Business Organization <sup>2</sup>	3
MNGT-377	Production/Operations Management	3
MNGT-379	Business Analytics	3

---

**Total Hours** **36**

<sup>1</sup> Core Courses that are also part of the Foundation.

<sup>2</sup> MNGT-370 is the department course that fulfills the University Writing Intensive Program (WIP) Requirement

FINA-360, MKTG-350, MNGT-368, and MNGT-370 are prerequisites for more advanced business major courses. These courses must be completed prior to enrollment in advanced courses in your particular major.

## MAJOR/MINOR REQUIRED COURSES

Major/Minor Required Courses are those that departments require for the specialized majors and minors they offer. Specific requirements for each major and minor are listed under the departmental headings in this catalog.

All Business majors are required to take MNGT-393, as the capstone course. To enroll in MNGT-393, you must be in your final semester before graduation, have completed all business Core courses (some exceptions apply), have applied for graduation, have met all university graduation requirements, and have earned a 2.50 GPA in your major courses and a 2.50 Cumulative GPA.

## BUSINESS ELECTIVES

Elective Courses are those you choose to match your own special interests and abilities. Specific elective choices and prerequisites for each major and minor program are listed under the departmental headings in this catalog. Electives must be chosen from the preapproved list.

## Pre-Major Transition Semester

If you are completing the Foundation Courses, you may enroll in 300-level business courses during the same semester under the following conditions:

1. You must be able to complete the Foundation Requirement and the General Education Requirement within that semester.
2. You must be able to complete at least 60 credit hours (45 hours for business minors) of college-level course work by the end of that semester.
3. You must have earned a 2.50 GPA for Foundation Courses that you've already completed and a 2.00 cumulative GPA for all course work you've completed at Northeastern.

Guidelines for using this privilege:

- Students must request authorization from the Program Advisement Office to utilize the transition semester opportunity through submission of the Course Request Form.
- Students failing to complete all requirements for admission to the College of Business and Technology by the end of the Transition Semester may be denied permission to continue the business course sequence (restriction from enrollment in 300-level business courses) until all program admission requirements have been met.
- Generally, students will be allowed ONE SEMESTER to utilize the Transition Semester Opportunity. This includes semesters in which students receive a grade of D, F, NAF, UWF or I, and semesters in which students withdraw from courses.
- Should a student drop a required Foundation Course during the Transition Semester, they will be expected to also drop all 300-level business courses in which they are enrolled.

## Prerequisites

The curriculum in the College of Business and Technology is highly structured and carefully integrated. The content and methods of upper division courses assume that you have already completed a sequence of lower division courses, the prerequisites for those courses, and other program prerequisites that provide you with skills you will need for more advanced study. The minimum acceptable grade for a course is "C". Grades of "D", "F", "NAF", "UWF", "P", "S", and "I" are not recognized as successful completion of a course or course prerequisite.

Students-at-large, non-Business majors, and non-traditional degree students must meet the prerequisites as prescribed by the course(s) or minor you wish to take, and meet with the Business Program Advisers to register. At-large students – students (with or without degrees) registered at other institutions who enroll for Northeastern classes – must secure approval from the Business Program Advisers to register for any Business course.

Class registration lists are monitored by the Office of Program Advisement. If you do not meet all published prerequisites for courses in which you have enrolled, you will be so notified and will be required to withdraw from those courses.

## ADMISSION TO THE COLLEGE OF BUSINESS AND TECHNOLOGY:

### DECLARING A BUSINESS MAJOR AND/OR MINOR

Students who wish to declare a major or minor must complete at the Undergraduate Major/Minor Declaration form and submit it to the Program Advisement Office. In addition to being available online, forms are available in the College Program Advisement Office (CBT 178). All declared majors or minors should request assigning a program advisor from the College.

The following admission standards must be fulfilled to become eligible to officially declare a business major in the College of Business and Technology:

1. Fulfill the University's General Education Requirement (See the Academic Catalog or Schedule of Classes for details on fulfilling the General Education Requirement).
2. Complete each of the eight Foundation Courses (listed above) with a grade of "C" or better in each course AND earn a Foundation Course grade point average of 2.50 or higher (on a 4-point scale). CBT does not round up GPA. A 2.49 GPA would require re-taking a course(s) to earn a 2.5 foundation GPA.
3. Complete at least 60 college credit hours of course work (45 hours for business minors), including the Foundation Courses and General Education Courses, with a cumulative grade point average of 2.00 or higher.
4. Apply and be approved for admission to the College of Business and Technology. This step is equivalent to officially declaring a business major and/or minor. Contact the Office of Program Advisement at (773) 442-6111 to schedule an advisement appointment to officially declare a business major or minor.

The admission standards to declare a business minor in the Department of Management and Marketing and Department of Accounting, Business Law and Finance are available under the department's headings.

### DECLARING A COMPUTER SCIENCE, CYBERSECURITY, OR INFORMATION TECHNOLOGY MAJOR AND/OR MINOR

Students who wish to declare a major or minor must complete at the Undergraduate Major/Minor Declaration form and submit it to the Program Advisement Office. In addition to being available online, forms are available in the College Program Advisement Office (CBT 178). All declared majors or minors should request assigning a program advisor from the College. Students majoring in the above majors/minors must maintain a 2.0 GPA.

### Declaring General Business Administration (Option 1) as a second major for Non-traditional Degree Program (NDP) students

NDP students who have a 2.0 GPA and seek to declare the General Business Administration major (option 1) may be admitted to the College of Business and Technology. Students will be expected to meet the same GPA standards as traditional business majors:

1. Fulfill the University's General Education Requirement as defined by NDP, with a cumulative grade point average of 2.00 or higher.
2. Complete the four business foundation courses (Actg 201, Actg 202, Blaw 285, and Econ 217) with a foundation course grade point average of 2.50 or higher (on a 4-point scale) –or have these verified through NDP.
3. General education coursework complete and verified by NDP advising. Four business foundation courses completed and verified by CBT advising. Minimum cumulative GPA of 2.0.
4. Apply and be approved for admission to the College of Business and Technology. This step is equivalent to officially declaring a major in general business (option 1). Contact the Office of Program Advisement at (773) 442-6111 to schedule an advisement appointment.

## Registration Information

You can register for College of Business and Technology classes online through NEIUport. Before you register, be sure that you make an appointment with your program advisor to review your academic study plan, review and comply with published prerequisites and other registration requirements.

All courses with Incomplete grades are treated as courses in progress. A course with an Incomplete grade cannot be used to satisfy course prerequisites. Effective fall 2016, courses with incomplete grades revert to a failing grade after one semester.

## Transfer Credits From Other Institutions

Northeastern Illinois University generally accepts courses completed at accredited colleges and universities. While the College of Business and Technology usually accepts advanced business courses completed at accredited four-year colleges and universities less than six years prior, acceptance of transfer course work by Northeastern's Office of Enrollment Management Services does not indicate the course is equivalent to a College of Business and Technology course, nor does it guarantee the transferred course(s) will meet business program requirements. In addition, lower division courses (100 or 200-level) transferred to Northeastern may not be accepted as equivalent to College of Business and Technology upper division courses (300-level) even if an upper division course appears to be comparable and the course was accepted as a general elective by the Office of Enrollment Management Services. As a result, **TRANSFER STUDENTS SHOULD CONTACT THE PROGRAM ADVISEMENT OFFICE AS SOON AS POSSIBLE TO DETERMINE IF TRANSFER COURSES ARE APPLICABLE TO BUSINESS PROGRAMS** and if you have completed criteria to officially declare a business major or minor.

Completion of the transfer course evaluation process is necessary to confirm transfer courses may apply to College of Business and Technology program requirements. Transfer course evaluation requires submission of course syllabi to the Program Advisement Office.

The College of Business and Technology will accept a maximum of 24 business transfer credit hours (8 courses) toward a major program and a maximum of 9 business transfer credit hours (3 courses) toward a minor program. All transfer students planning to major in a business program must complete a minimum of 10 business courses at Northeastern.

Introduction to Financial Accounting, Introduction to Managerial Accounting, and Legal Environment of Business are lower division courses at Northeastern. The College will accept credit for these courses from accredited community colleges and other four-year institutions attended prior to enrollment at Northeastern provided the courses are deemed equivalent

NOTE: Transfer information is available on the College of Business and Technology homepage.

## PROFICIENCY EXAMINATIONS

The College of Business and Technology may accept a transferred 200-level course to satisfy a 300-level course requirement only IF you complete and pass a proficiency exam. The College offers proficiency exams BY APPOINTMENT ONLY through the Program Advisement Office for:

- Principles of Marketing
- Principles of Financial Management
- Cost Accounting
- Federal Income Tax (Individual)
- Intermediate Financial Accounting I
- Intermediate Financial Accounting II
- Management Information Systems
- Business Law I
- Business Law II
- Business Statistics

To attempt proficiency exams, you must provide documentation confirming you earned a grade of "C" or better less than six years ago in an equivalent 200-level transfer course.

("D", "F", "NAF", "UWF", "P", and "S" are not acceptable grades.) You may attempt an exam for a given course only ONCE and you must make the attempt prior to completion of all other College of Business and Technology admission requirements. You will receive a PASS or FAIL for your performance on the exam. If you pass the exam, the credit for the transferred course and the grade earned will be applied to your business major or minor program as appropriate; however, the course credit hours will not be recognized as 300-level toward the University's upper-level course requirement.

The best strategy is to attempt proficiency exams as early as possible to allow you to plan your academic career accordingly. Contact the Program Advisement Office at (773) 442-6111 to obtain information or to schedule an exam.

## REQUIREMENTS FOR MULTIPLE BUSINESS MAJORS

Students who wish to complete a second business major must take a minimum of 30 additional credit hours beyond the course work required for the first major. These credit hours must consist of at least 24 credits in the second major discipline. The remaining 6 elective credits may be any course offered by the College of Business and Technology.

Contact the College's Office of Program Advisement for further information.

## Graduation Requirements

To earn a Bachelor of Science degree in a business major, you must meet all University graduation requirements, have completed all Foundation, Core, and Major required and elective courses in the College of Business and Technology with a grade of C or better, achieved a minimum cumulative 2.50 (on a 4-point scale) grade point average for all course work at Northeastern, and a 2.50 GPA for all of your Major course work (Core Courses plus required and elective courses in your Major). Business Minors must earn a 2.50 or higher GPA for all required and elective courses in the Minor.

# Graduate Programs

---

**The College of Business and Technology offers graduate programs in business leading to the Master of Business Administration (M.B.A.) degree (<http://catalog.neiu.edu/business-management/management-marketing/master-business-administration/>) and the Master of Science (M.S.) in Accounting degree (<http://catalog.neiu.edu/business-management/accounting-business-law-finance/master-science-accounting/>), and Master of Science (M.S) in Computer Science (<http://catalog.neiu.edu/business-management/computer-science/master-science-computer-science/>).**

At Northeastern, you'll take classes in the most diverse cultural environment in the Midwest—an important advantage for developing effective management skills in an increasingly global and multicultural world. A hallmark of both programs is their flexibility, which allows you to earn your degree even while you pursue your current career. This includes:

- All Masters Programs in the College of Business and Technology are STEM-designated.
- Evening and weekend classes
- In-person and online classes
- Full-time or part-time enrollment
- Business or non-business undergraduate degree accepted for admission
- Small classes and individual attention that challenge you to learn and grow
- Most affordable M.B.A., M.S. Accounting programs and M.S. Computer Science program in the Chicago area

## M.B.A. Program

The Master of Business Administration program provides students with a broad knowledge base in business and management which prepare you for mid- and upper-level management positions.

The MBA Program provides students with a broad knowledge base in business and management which will prepare them for mid- and upper-level positions in both the private and public sectors, including the manufacturing, service, financial, institutional, and government fields. The MBA Program offers a challenging and practical orientation to the complexities of modern business management and exposure to the tools necessary for business decision-making. The Northeastern Illinois University M.B.A. is also an excellent value—total tuition and fees are lower than virtually any other M.B.A. program in Illinois. To make your graduate program even more affordable, we offer a variety of financial-aid packages, individually configured to meet your needs.

If your undergraduate degree includes business course work, you may be able to enter directly into the M.B.A. core courses. Students without undergraduate business coursework may be required to take up to four prerequisite courses. Alternatively, students can participate in the MBA Math pilot program, where students can fast-track their prerequisites by completing the five MBA Math Modules (see [www.MBAMath.com](http://www.MBAMath.com)).

For additional information about MBA Program at Northeastern Illinois University, contact the College Graduate Studies Office at [mba@neiu.edu](mailto:mba@neiu.edu) or call (773) 442-6107.

## M.S. IN Accounting Program

The Master of Science in Accounting program offers you a broad base of knowledge about accounting and business theory and practice, tailored for students who wish to meet Illinois' 150 credit-hour requirement to become a Certified Public Accountant (CPA). Accountants with a graduate degree and CPA certification are well qualified to provide leadership in planning, coordinating and controlling the economic activities of business and non-business enterprises. The combination of a graduate Accounting degree and CPA certification is a powerful set of credentials for career success.

The Northeastern Illinois University M.S. Accounting program includes 30 credit hours of graduate credit. If you have an undergraduate degree in Accounting, you may be able to enroll in advanced M.S. Accounting courses right away.

For additional information about M.S. Accounting Program at Northeastern Illinois University, contact the College Graduate Studies Office at [msaccounting@neiu.edu](mailto:msaccounting@neiu.edu) or call (773) 442-6107.

## **M.S. in Computer Science**

The Master of Science in Computer Science has three concentrations: one for individuals who want to enter careers in industry, one for individuals who want to pursue a Ph.D., and one for high school teachers who want to obtain an endorsement to teach computer science. The program is designed especially for the convenience of the part-time student; courses are scheduled in the evening and on Saturday.

For additional information about Master of Science in Computer Science Program at Northeastern Illinois University, contact the College Graduate Studies Office at [ms-cs@neiu.edu](mailto:ms-cs@neiu.edu) or call (773) 442-6160.

# Accounting, Business Law and Finance

---

Accounting is the language of business, and employees of small and large organizations must understand basic accounting principles. The knowledge of debits and credits, financial statements, and accounting information systems is basic for all business activities. Accounting majors must, of course, be well grounded in accounting theory and practice. Many accounting majors sit for the Uniformed Certified Public Accountant (C.P.A.) Examination and embark on meaningful careers in the public accounting field, and some seek to take the Certified Management Accountant (C.M.A.) Examination

Finance is the study of value. Using basic principles from the fields of accounting, economics, and statistics, finance involves analysis of financial institutions, financial markets, and financial concepts. Finance majors can emphasize the study of markets or the study of financial management practices. The financial services field has exploded with new kinds of products and services, creating a need for individuals to sell new financial and investment instruments and services and to manage the entities which provide them. Banking, stock brokerage, commodities/futures/options trading, and financial planning and analysis are traditional areas where finance majors find employment. Frequently finance majors are sought for entry level positions in the allied fields of real estate and insurance.

It is important to understand the legal implications of key business decisions, as business law constitutes the protocols for managerial action. Business law courses offered at Northeastern are not a pre-law program and are not intended to be preparation for law school.

## Accounting, Business Law and Finance

### **ABF-350. Management Information Systems. 3 Hours.**

This course centers on the use of computer based information systems (IS) to provide quality information upon which business decisions are made. The course presents the theory and practice involved with organization-wide usage of information technology (IT). The course also integrates the core business areas of management, marketing, finance, international activities, and ethics as they relate to information systems. Special attention is given to the tools available for providing decision makers with quality information and the implications of information systems for achieving a competitive advantage. Prereq.: Junior or Above.

### **ABF-360. Business Intelligence. 3 Hours.**

The course introduces students to emerging concepts, methods, and tools that provide effective business intelligence (BI). Rooting on a data-driven BI architecture, this course presents students with BI-related topics including business analytics continuum (e.g., descriptive analytics, predictive analytics, and prescriptive analytics), business performance management, Big Data and future trends. Special attention is given to the interplay between business and technology as a core approach for business organizations to make smarter decisions.

**Prerequisite:** ABF-350 with a minimum grade of C.

**ABF-365. Enterprise Systems. 3 Hours.**

This course focuses on the role of enterprise resource planning (ERP) and business processes within and between organizations. Providing an introduction to enterprise systems (ES) for data and process integration. Topics include the requirements of ES, application architecture, and functionality of leading ES. Also covered are the life cycle and methodologies for systems integration, selection, implementation strategies and the emerging trends for ES, as well as, the relationship among component systems. Emphasis is placed on the use of ERP systems to integrate processes across marketing, finance/accounting, operations and HR management. The course tools include Excel, SAP and data flow diagrams.

**Prerequisite:** ABF-350 with a minimum grade of C.

**ABF-370. Blockchain Technologies And Business Applications. 3 Hours.**

The course introduces students to essential concepts and techniques of blockchain and how to advance this knowledge in business applications. Starting with the fundamentals of what blockchain technology is, this course takes students on an interactive journey through different applications of blockchain such as bitcoin, cryptocurrencies, tokens, and smart contract. Special attention is given to discussions of blockchain as fundamentals of information security and the transformation from cryptocurrency to cryptoeconomics in shaping how future business will be conducted.

**Prerequisite:** ABF-350 with a minimum grade of C.

**ABF-403. Management Of Information Systems & Technology. 3 Hours.**

ABF-403 Management of Information Systems and Technology, 3 cr. This course examines two major and related concepts: the management of information and the management of technology. Students investigate issues and approaches in managing the information system (IS) function and how the IS function supports and enables organizational capabilities and strategies. Principles underlying the acquisition, application, and management of technology are considered. Special attention is given to management information systems (MIS) and to information technology (IT) applications which support managerial decision-making and enhance organizational competitiveness. Relevant business cases are studied to reinforce conceptual learning.

## Accounting

**ACTG-201. Introduction To Financial Accounting. 3 Hours.**

Accounting is a system for measuring economic activities. This course introduces to students the underlying assumptions, concepts, and methods of financial accounting regarding the recording, processing, and reporting of an organization's economic activities in financial statements to external decision makers. Prereq.: MATH-165.

**Prerequisite:** MATH-165 with a minimum grade of C.

**ACTG-202. Introduction To Managerial Accounting. 3 Hours.**

This course focuses on managerial accounting. It emphasizes the use of accounting information for management planning and control decisions. Topics include analysis of cost behavior, budgeting, and other managerial issues. Prereq.: MATH-165 and ACTG-201.

**Prerequisite:** ACTG-201 with a minimum grade of C and MATH-165 with a minimum grade of C.

**ACTG-300. Principles Of Accounting. 3 Hours.**

This course surveys the basic accounting concepts and procedures used in the preparation of financial statements, statement analysis and managerial planning and control. Topics covered include accounting for internal planning. The course is targeted toward undergraduate non-business-major students with no prior knowledge of accounting, to study and obtain an overall fundamental understanding and appreciation of the use of accounting information. This course cannot be counted for credit toward a major in business.

**Prerequisite:** (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120 or SAT Math 530 - 800 or Accuplacer Adv. Algebra & Func 237 - 300).

**ACTG-301. Cost Accounting I. 3 Hours.**

The course expands upon the study of accounting information that is needed by management to plan and control various operations of an organization and to price products and services. Topics include job order and process costing systems, standard costing and variance analysis, budgeting, direct, absorption and throughput costing, and cost-volume-profit (including break-even) analysis.

**Requirement:** All Foundation Courses Including ACTG-202

**Prerequisite:** ACTG-202 with a minimum grade of C.

**ACTG-306. Accounting For Non-Profit Organizations. 3 Hours.**

A study of the special techniques employed in recording and reporting financial data of non-profit government units and private non-profit organizations.

**Prerequisite:** ACTG-322 with a minimum grade of C.

**ACTG-307. Auditing Theory And Problems. 3 Hours.**

Auditing contributes to the reliability of financial and other data. This course, comprised of theory and philosophy of auditing, makes it an essential part of an accountant's knowledge. Topics include standards-general, field work and reporting, evidential matter, review of internal control, auditing techniques, practices, problem-solving, and a study of A.I.C.P.A. industry audit guides.

**Prerequisite:** ACTG-322 with a minimum grade of C.

**ACTG-308. Advanced Auditing. 3 Hours.**

This course enhances the students understanding of auditing principles. Included is a detailed study of statements of auditing standard, evidential matter, techniques, problem solving, and a study of AICPA industry audit guidelines.

**Prerequisite:** ACTG-307 with a minimum grade of C.

**ACTG-309. Foundations Of Forensic & Investigative Accounting. 3 Hours.**

The purpose of this course is to cover important topics associated with contemporary forensic and investigative accounting. Topics include fraud auditing, litigation support, valuation, cybercrime, and other key forensic topics. Prereq. ACTG-201 and ACTG-202.

**Prerequisite:** ACTG-201 with a minimum grade of C and ACTG-202 with a minimum grade of C.

**ACTG-310. Federal Income Tax (Individual). 3 Hours.**

Fundamentals of tax accounting and reporting with emphasis on individuals. Topics include gross income and exclusions, deductions to arrive at and deductions from gross income, gain or loss recognition, basis, capital gains and losses, credits and administration.

**Prerequisite:** ACTG-202 with a minimum grade of C.

**ACTG-311. Federal Income Tax (Corporate). 3 Hours.**

Advanced development of topics discussed in the first tax course. Additional topics include matters specifically applicable to partnerships, corporations, and basic introductions to estate and gift taxes. Tax research techniques are also developed in the subject.

**Prerequisite:** ACTG-310 with a minimum grade of C.

**ACTG-312. Cost Accounting II. 3 Hours.**

This course is a logical continuation of the prerequisite course with even greater emphasis on accounting information used for management planning and control. Topics include division performance measurement, transfer pricing, and application of quantitative techniques to cost accounting.

**Prerequisite:** ACTG-301 with a minimum grade of C.

**ACTG-313. Internal Auditing And Management Control. 3 Hours.**

Internal auditing is an independent appraisal activity within an organization for the review of operations aimed at promoting its efficiency and effectiveness. This course explores the concepts and standards of internal auditing and their applications. Topics include the discussion of the nature and environment of internal auditing, disciplines related to internal auditing, internal auditing process and the organization and administration of an internal auditing department.

**Prerequisite:** ABF-350 with a minimum grade of C and ACTG-307 with a minimum grade of C.

**ACTG-319. Fraud Examination. 3 Hours.**

This course is designed to introduce students to basic topics associated with fraud involving accounting information. It provides an overview of techniques to detect fraud, procedures to assess fraud risk, and measures to deter and prevent fraud.

**Prerequisite:** ACTG-321 with a minimum grade of C.

**ACTG-321. Intermediate Financial Accounting I. 3 Hours.**

This is the first course in the professional financial accounting sequence. This course emphasizes the conceptual framework underlying financial accounting, preparation of financial statements, and the accounting treatment of current assets, long-term assets, and current liabilities.

**Requirement:** All Foundation Courses including ACTG-202

**Prerequisite:** ACTG-202 with a minimum grade of C.

**ACTG-322. Intermediate Financial Accounting II. 3 Hours.**

This is the second course in the professional financial accounting sequence. This course emphasizes long-term liabilities, equity, revenue recognition and the statement of changes.

**Prerequisite:** ACTG-321 with a minimum grade of C.

**ACTG-324. Advanced Financial Accounting IV. 3 Hours.**

This is the third course in the professional financial accounting sequence. This course emphasizes consolidations for large multi-national and domestic corporations. Prereq.: ACTG-322.

**Prerequisite:** ACTG-322 with a minimum grade of C.

**ACTG-325. Contemporary Financial Accounting Issues. 3 Hours.**

The course covers an in-depth investigation of contemporary accounting issues and problems, including analysis and evaluation of most recent accounting pronouncements and articles in major accounting journals.

**Prerequisite:** ACTG-322 with a minimum grade of C.

**ACTG-330. Data Analytics For Accounting. 3 Hours.**

This course is intended to provide our students with critical skills and analytics mindsets to enable them to understand data structuring and data preparation, data quality, descriptive data analysis, data analysis through data manipulation, problem solving through statistical data analysis, data visualization, and relevant data reporting.

**Prerequisite:** ACTG-201 with a minimum grade of C and ACTG-202 with a minimum grade of C.

**ACTG-380. International Accounting. 3 Hours.**

This course is concerned with an examination of the environmental factors affecting accounting concepts and standards. Differences in the cultural, social, political, legal and economic environment are the determining factors in the selection of accounting concepts and standards. Coverage will include country and regional studies and accounting problems related to multinational businesses such as foreign currency translation.

**Prerequisite:** ACTG-322 with a minimum grade of C.

**ACTG-382. Internship In Accounting. 3 Hours.****ACTG-383. Internship In Accounting. 4 Hours.****ACTG-384. Internship In Accounting. 5 Hours.****ACTG-385. Internship In Accounting. 6 Hours.****ACTG-386. Independent Study In Accounting. 3 Hours.****ACTG-387. Independent Study In Accounting. 2 Hours.****ACTG-388. Independent Study In Accounting. 1 Hour.****ACTG-400. Fundamentals Of Accounting. 4 Hours.**

This course is designed for graduate students with no prior knowledge of accounting. Students will study and obtain an overall fundamental understanding and appreciation of the use of accounting information for making business decisions. This is a condensed, fast-paced course that addresses the topics of financial accounting for external reporting and managerial accounting for internal planning, control and decision-making of business operations.

**ACTG-402. Managerial Accounting. 3 Hours.**

This course focuses on managerial accounting. Managerial accounting is a company's internal language. It emphasizes the use of accounting information for planning, control, and decision making. Topics include relevant costing, cost behavior analysis, product costing, budgetary control, and performance evaluation. Undergraduate/graduate exposure to Financial and Managerial Accounting required. Prereq.: COBM-401 or equivalent and graduate standing.

**Prerequisite:** COBM-401 with a minimum grade of C.

**ACTG-406. Governmental & Not-For-Profit Accounting. 3 Hours.**

The course is designed to introduce students to the requirements of accounting for not-for-profit and federal, state, and local governmental entities. These entities are required to follow the pronouncements of either the Financial Accounting Standards Board or the Government Accounting Standards Board. The financial accounting and reporting concepts, standards and procedures applicable to federal, state, and local governmental entities and not-for-profit organizations will be discussed.

**Prerequisite:** ACTG-400 with a minimum grade of C.

**ACTG-407. Auditing Theory And Practice. 3 Hours.**

Integrates accounting standards, accounting systems, internal control structures and the dual auditing functions of obtaining and evaluating evidence- all within the context of a professional environment.

**Prerequisite:** ACTG-421 with a minimum grade of C.

**ACTG-408. Information Technology Auditing. 3 Hours.**

The purpose of this course is to teach students how to audit computer-based accounting information systems; therefore, this course focuses on evaluation of accounting systems controls, tests accounting data integrity, and discusses the nature and use of expert systems in accounting with emphasis on their use as an audit tool.

**Prerequisite:** ACTG-307 with a minimum grade of C.

**ACTG-409. Forensic And Investigative Accounting. 3 Hours.**

This course is designed to introduce students to basic topics associated with forensic and investigative accounting. It helps students to understand and design procedures related to fraud detection, computing economic damages, and business valuation, among other topics. To enroll in this course, you must have completed ACTG-307, with a graduate standing. If you have not met these prerequisites, you must withdraw from this class. Students who do not meet the course prerequisites and who do not drop voluntarily during the first week of class will be administratively withdrawn later in the semester.

**Prerequisite:** ACTG-307 with a minimum grade of C.

**ACTG-410. Seminar In Tax Planning. 3 Hours.**

This course focuses on a managerial approach to taxation through emphasis on major provisions of the income tax law and related administrative and judicial rulings as they affect business transactions. This course also includes consideration for the tax structure and its role as a tool for business planning.

**Prerequisite:** ACTG-400 with a minimum grade of C.

**ACTG-412. Accounting For Planning And Control. 3 Hours.**

This course provides for systematic and in-depth discussion and analysis of various accounting models which are useful to organizational planning and control, including the role of accounting systems in developing and refining data necessary for cost and managerial planning. Undergraduate/graduate exposure to Financial and Managerial Accounting required.

**Prerequisite:** COBM-401 with a minimum grade of C.

**ACTG-421. Current Topics In Financial Accounting. 3 Hours.**

This course provides a conceptual framework for current issues in financial accounting measurement and reporting, and valuation of assets, liabilities and income determination and other necessary disclosures of financial information. Undergraduate/graduate exposure to Financial and Managerial Accounting required.

**Prerequisite:** COBM-401 with a minimum grade of C.

**ACTG-422. Financial Statement Analysis. 3 Hours.**

This course is designed to prepare students to interpret, analyze and evaluate corporate financial statements effectively for the purpose of reaching informed lending, investment, and other business related decisions. Topics include overview of financial statements, assessment of accounting quality, tools of profitability and risk analysis, preparation of forecasted financial statements, and firm valuation models.

**Prerequisite:** ACTG-421 with a minimum grade of C.

**ACTG-430. Research Methodology In Accounting. 3 Hours.**

Provides a thorough understanding of research methodologies in accounting. The approach is to take a central research question and pursue its dimensions which include: importance of the question posed, the research design to evaluate that question, threats to the credibility of potential inferences drawn, research types that could be applied to the same question, and challenges in communication and interpretation. Undergraduate/graduate exposure to Financial and Managerial Accounting required.

**Prerequisite:** COBM-401 with a minimum grade of C.

**ACTG-440. Tax Research And Procedure. 3 Hours.**

The purpose and methods of conducting tax research and communicating tax research conclusions. The course will focus on Internal Revenue practice and procedures, tax policy, issues in taxpayer compliance, and tax payer and tax preparer responsibilities will also be addressed. Graduate Standing.

**Prerequisite:** ACTG-310 with a minimum grade of C.

**ACTG-441. Estate, Gift And Trust Taxation. 3 Hours.**

Current laws, cases, rulings and regulations useful for estate planning purposes are discussed. Topics include estate valuation, gift planning, estate planning and trusts, life insurance, joint tenancy, powers of appointment, pre-marital and marital dissolution agreements, community property, and generation-skipping transfer tax. Planning for estate tax minimization will be emphasized.

**Prerequisite:** ACTG-410 with a minimum grade of C.

**ACTG-451. Accounting Information Systems. 3 Hours.**

In-depth coverage of the concepts and techniques underlying the development, use and control of computerized accounting information systems are evaluated. Focus is on the understanding of accounting information and accounting information systems, and the underlying theory and practice of internal control systems. Particular emphasis will be placed on how information systems, including spreadsheets, databases, and other information technologies, serve as the basis for the functional areas of accounting and business through a case study approach. Prereq.: ACTG-400 or equivalent and graduate standing.

**Prerequisite:** ACTG-400 with a minimum grade of C.

**ACTG-480. Issues In International Accounting And Multinational Business Operations. 3 Hours.**

In-depth discussions of accounting issues and problems faced by companies with multinational operations. Topics include issues related to foreign currency translator, consolidation of foreign subsidiaries, foreign investment, international transfer pricing, analysis of foreign investment. Issues in the ethical conduct of multifunctional operations and in the Foreign Corrupt Practices Act will also be discussed.

**Prerequisite:** ACTG-421 with a minimum grade of C.

**ACTG-500. Project. 3 Hours.**

Approval of major advisor is necessary.

**ACTG-501. Thesis. 3 Hours.**

Approval of major advisor is necessary.

## Business Law

**BLAW-109. First Year Experience: Professionalism, Ethics, Law & Chicago Scandals. 3 Hours.**

This course examines the intersection between professionalism, ethics and law from a business perspective. We will look at these issues through the lens of major business-related Chicago scandals, predominantly non-political, and we will take multiple trips to visit some of the actors involved in these scandals, such as judges, lawyers and businessmen, who will further inform students about the importance of professionalism, ethics and compliance with laws. The topics covered in this course include defining professionalism, comparing professionalism to ethics, critically evaluating the differences and the importance of both, and discussing the legal process as it applies to white collar crimes.

**BLAW-285. Legal Environment Of Business. 3 Hours.**

This survey course traces the history and development of the legal environment of business. Topics include elements of the law and the judicial process, elements of traditional business law, and the government regulation of business. Prereq.: 30 credit hours of college work.

**BLAW-310. Legal Issues In International Business Transactions. 3 Hours.**

The study of laws, policies, and institutions associated with international business practice, including the international sale of goods, multimodal transportation and logistics, international and regional trade agreements, U.S. import/ export regulation, and transnational dispute resolution.

**Requirement:** Completion of all foundation courses required for COBM majors

**Prerequisite:** BLAW-285 with a minimum grade of C.

**BLAW-380. Business Law I. 3 Hours.**

The study of the law of contracts, including mutual assent, consideration, legality, capacity, statute of frauds, third parties, performance, breach, discharge, and remedies; UCC sales, including transfer of title, risk of loss, bulk sales, product liability and strict liability.

**Prerequisite:** BLAW-285 with a minimum grade of C.

**BLAW-381. Business Law II. 3 Hours.**

Continuation of BLAW-380 and covers: Agency, partnerships, corporations and UCC commercial paper. The rights and liabilities of corporate and partnership forms of business organization are covered. Negotiation, warranties, holder in due course, bank items are covered as part of UCC commercial paper.

**Prerequisite:** BLAW-285 with a minimum grade of C.

**BLAW-383. Legal Aspects Of Entrepreneurship. 3 Hours.**

This course offers a framework for understanding legal aspects of entrepreneurial process. Topics include selecting a business form, obtaining financial capital, marshaling human resources, securing and protecting intellectual property rights, anticipating and managing risks, and engaging in e-commerce.

**BLAW-384. Labor & Employment Law. 3 Hours.**

The course provides a broad overview of major areas of law concerning the regulation of the workplace, including the law of labor relations. The course focuses primarily on federal laws governing employment and examines specific employment issues, such as unfair labor practices, regulation of union activities, discrimination laws, pay equity laws, employee privacy topics, wage and hour laws, dispute settlement laws, health and occupational safety laws, and employment relations laws.

**BLAW-391. Intellectual Property Creation And Management. 3 Hours.**

This survey course provides an overview of the United States' system of intellectual property protection. Topics covered include trademark law, copyright law, patent law trade secrets, domain names, and geographical indication. Besides substantive laws, the course covers other issues related to intellectual property, such as marketing strategy for licensing intellectual property assets, negotiations involving intellectual property rights, valuation of intellectual property, taxation of intangible assets, and commercialization and monetization of intellectual property assets. In addition to legal and business aspects of intellectual property rights, this course examines the interplay between cultural appropriation and intellectual property laws.

**BLAW-400. Legal Environment Of Business And Management. 2 Hours.**

This course centers on the American legal system as one sphere of influence in the business operations of an organization. Topics include anti-trust laws, mergers and acquisitions, securities regulations, equal employment, and labor management regulations, product liability, and consumer protection. Litigation and arbitration as methods for resolving disputes are also covered. The social responsibilities, ethical concerns, and dilemmas of the organization's manager are stressed as part of the practical decision making environment.

**BLAW-410. International Business Law. 3 Hours.**

This course will include material on the international legal environment, international economic associations, such as WTO, conflicts of law, international contracting, letters of credit, exporting/importing issues, including tariffs and other aspects of international business transactions. The purpose is to prepare an MBA student to be able to understand the legal issues that are involved in international business transactions.

## Finance

**FINA-109. First Year Experience: Financial Literacy And Making Smart Financial Decision In Chicago. 3 Hours.**

In this course the four foundations (Future planning, Academics, Self-discovery and Transitions) of the First-year Experience are interwoven with the field specific concepts of financial literacy. Students will be introduced to basic knowledge and skills to manage their financial resources effectively in college and beyond. Students will learn to understand the importance of financial literacy, identify important personal financial goals, and develop financial planning skills to achieve goals such as college financing, debt repayment, investment and retirement planning. Livelihood in Chicago is incorporated throughout the course to aid students to make better and more informed personal finance decisions in Chicago.

**FINA-309. Foundations In Personal Finance. 3 Hours.**

This course introduces knowledge and skills necessary to understand, plan, and manage personal financial affairs. Topics include cash management, budgeting, goal attainment, spending and credit, insurance, tax, and savings and investing. This course will provide a foundational understanding for making informed and responsible personal financial decisions.

**FINA-350. Foundations Of FinTech. 3 Hours.**

This course is to provide an overview of the technological innovations in the finance industry. Topics include new and disruptive financial products and services, new technology related to fintech, and fintech regulations.

**Prerequisite:** FINA-360 with a minimum grade of C.

**FINA-360. Principles Of Financial Management. 3 Hours.**

The purpose of this course is to provide a broad overview of the fundamental concepts in financial management such as creation of value for the shareholders, ratio analysis, time value of money, stock and bond valuation, risk and return, cost of capital and capital budgeting.

**Requirement:** All Foundation Courses completed

**Prerequisite:** ACTG-201 with a minimum grade of C.

**FINA-362. Investment. 3 Hours.**

An introduction to financial markets. Particular emphasis is placed on valuation and the characteristics of different financial assets.

**Prerequisite:** FINA-360 with a minimum grade of C.

**FINA-363. Security Analysis. 3 Hours.**

This course analyzes the factors affecting the market valuation of securities utilizing fundamental analysis and modern portfolio theory.

**Prerequisite:** FINA-360 with a minimum grade of C.

**FINA-364. Problems In Business Finance. 3 Hours.**

This course, employing the case method, is designed to help the student through problem-solving as well as learning skills for making financial decisions for corporations.

**Prerequisite:** FINA-360 with a minimum grade of C.

**FINA-365. Personal Financial Planning. 3 Hours.**

This course is a broad-based introduction to a wide range of personal financial topics, including setting financial goals, budgeting, saving and credit management, insurance, tax planning, asset acquisition, investments, and retirement planning. It will provide the informational and decision-making tools needed for implementing a sound personal financial plan. Prereq.:MATH-165 and FINA-360.

**Prerequisite:** (MATH-110 with a minimum grade of C or MATH-165 with a minimum grade of C) and FINA-360 with a minimum grade of C.

**FINA-366. Financial Institutions And Markets. 3 Hours.**

The course is designed to provide students with a broad and integrated view of the concepts and principles of the financial system as well as an understanding of pertinent issues faced by different types of financial institutions. Prereq.: FINA-360.

**Prerequisite:** FINA-360 with a minimum grade of C.

**FINA-367. Short-Term Financial Management. 3 Hours.**

This course focuses on short-term assets and liabilities and discusses the implications of short-term financial management from the perspective of value creation. It also develops skills useful to a bank loan officer, a credit analyst, a cash manager, or a corporate treasurer. Prereq.: FINA-360.

**Prerequisite:** FINA-360 with a minimum grade of C.

**FINA-368. Financial Management Of Financial Institutions. 3 Hours.**

The objective of this course is to expose the student to the techniques of financial management employed by the financial institutions and other financial intermediaries. The course emphasizes the use of tools for decision making within a financial institution framework which is in a state of transition.

**Prerequisite:** FINA-360 with a minimum grade of C.

**FINA-369. Speculative Markets. 3 Hours.**

This course reviews the mechanics of the major futures contracts: commodities, financial, stock index, and currency futures. Particular emphasis is placed on hedging price risk with futures contracts, and speculating with futures and options contracts. The student is expected to complete a project involving a simulated trading game involving futures and options. Prereq.: FINA-360.

**Prerequisite:** FINA-360 with a minimum grade of C.

**FINA-370. Option Pricing:Theory And Strategic Applications. 3 Hours.**

The course is designed to familiarize students with the theoretical foundations of options pricing. This knowledge is then used to design strategies for profiting from mispriced options. Mathematical complexity will be kept to a minimum. The use of personal computers as decision-making aids will be strongly emphasized.

**FINA-371. International Financial Management. 3 Hours.**

The course focuses on the international aspects of finance management. Particular emphasis is placed on the control of exchange rate risk and financing multinational corporations.

**Prerequisite:** FINA-360 with a minimum grade of C.

**FINA-372. Portfolio Management. 3 Hours.**

The course covers the theory and the techniques of portfolio management. Particular emphasis is placed on definition of objectives for and the construction of portfolios. This course prepares the student for the first CFA exam.

**Prerequisite:** FINA-360 with a minimum grade of C and MNGT-368 with a minimum grade of C.

**FINA-373. Intermediate Financial Management. 3 Hours.**

This course is an extension of FINA-360. It seeks to build upon the theoretical framework developed in FINA-360, enabling students to acquire new conceptual and applied knowledge of corporate finance. The course covers, among other topics, advanced issues in capital budgeting, optimal capital structure theory, debt policy, dividend policy, buy versus lease decisions, current asset management, mergers, bankruptcies and reorganizations. Students are expected to have a familiarity with a spreadsheet package.

**Prerequisite:** FINA-360 with a minimum grade of C.

**FINA-374. Futures Trading Strategies. 3 Hours.**

The course is designed to emphasize the practical, rather than theoretical, aspects of futures markets. Students will be exposed to technical analysis, mechanical system development, and to disciplined money management techniques. The student is expected to participate in a simulated trading game involving futures. Prereq.: FINA-360.

**Prerequisite:** FINA-360 with a minimum grade of C.

**FINA-375. Debt Markets And Portfolio Strategies. 3 Hours.**

The first part of the course is designed to introduce students to some of the very recent innovations in the fixed-income securities market, as for example, zero coupon bonds, floating rate notes and convertible issues. The next segment familiarizes students with portfolio management considerations unique to debt instruments. Mathematical complexity, though inevitable, will be kept to a minimum.

**Prerequisite:** FINA-360 with a minimum grade of C.

**FINA-376. Technical Analysis Of The Futures Market. 3 Hours.**

This course will enable students to read and interpret futures price charts. Technical analysis (as opposed to fundamental analysis) stresses the information content of part and price data and is based on the premise that prices do not always move randomly. Students believing in this underlying philosophy ought to benefit from this course.

**Prerequisite:** FINA-360 with a minimum grade of C.

**FINA-377. Real Estate Finance. 3 Hours.**

The primary objective of this course is to provide an overview of real estate finance. This course involves an exploration of the characteristics, institutions, and markets through which financing of real estate occurs. This course focuses on the dynamic changes that have occurred in the real estate field in the past few years and also assess the impact that these changes have had on both the availability and costs of mortgage debt and the risks associated with its use.

**Prerequisite:** FINA-360 with a minimum grade of C.

**FINA-378. Introduction To Risk Management And Insurance. 3 Hours.**

The individual, family, business entity, and society are all exposed to accidental loss events that may have a significant bearing on their financial, analyzing, controlling, financing, and monitoring these loss exposures. The primary focus of this introductory course is to provide an understanding of the various risks that businesses and individuals are exposed to and the alternative methods that are available to manage these risks.

**Prerequisite:** FINA-360 with a minimum grade of C.

**FINA-380. Entrepreneurial Finance. 3 Hours.**

This course offers a framework for understanding fundamentals of entrepreneurial finance. Topics include introduction to entrepreneurial finance, financial statement analysis, cash flow management, valuation of business, raising capital, debt financing, equity financing and other sources of funding.

**Prerequisite:** ACTG-201 with a minimum grade of C.

**FINA-382. Internship In Finance. 3 Hours.****FINA-383. Internship In Finance. 4 Hours.****FINA-384. Internship In Finance. 5 Hours.****FINA-385. Internship In Finance. 6 Hours.****FINA-395. Independent Study In Finance. 3 Hours.****FINA-396. Independent Study In Finance. 2 Hours.****FINA-397. Independent Study In Finance. 1 Hour.****FINA-400. Fundamentals Of Financial Management. 2 Hours.**

This course centers on corporate financial management, providing students with an overview of essential financial concepts such as time value of money, the relation between risk and return, stock valuation, bond valuation, and the analysis of corporate financial performance.

**Prerequisite:** ACTG-400 with a minimum grade of C.

**FINA-402. Issues In Corporate Finance. 3 Hours.**

This course provides a broad exposure to the principles and techniques of Financial Management. The course discusses how important areas in Financial Management, namely, the Investment Decision, Financing Decision, and Payout Decision can contribute to the goal of shareholder value creation, from a domestic and international perspective. Prereq.: COBM-402 or undergraduate/graduate exposure to Financial Management.

**Prerequisite:** COBM-402 with a minimum grade of C.

**FINA-460. Financial Management. 3 Hours.**

**Prerequisite:** MNGT-368 with a minimum grade of C.

**FINA-462. Investment Strategies. 3 Hours.**

This course provides an overview of investing with an emphasis on the fundamental approach to investing. Students will be exposed to modern portfolio theory and its implications and gain an understanding of asset pricing models, bond portfolio management strategies, and equity portfolio management strategies. Prereq.: FINA-400 or equivalent and graduate standing.

**Prerequisite:** FINA-460 with a minimum grade of C.

**FINA-469. Mergers And Acquisitions. 3 Hours.**

This course involves an examination of the key elements of the mergers and acquisitions process. It provides the analytical framework and vital tools necessary to successfully plan and execute mergers, acquisitions, and corporate restructuring. One key goal of this course is for the students to develop a critical appreciation of the key financial and strategic criteria in a proposed acquisition. The primary purpose of this course is to make sure students understand what works and what does not, in the world of mergers and acquisitions.

**Prerequisite:** FINA-400 with a minimum grade of C.

**FINA-470. Corporate Financial Strategy. 3 Hours.**

Corporate financial strategy in practice is emphasized in this course. Topics to be discussed include: (a) financial planning, (b) strategies for raising capital, (c) strategies for allocating capital among different uses, and (d) strategies for working capital management.

**Prerequisite:** FINA-400 with a minimum grade of C.

**FINA-471. International Financial Management. 3 Hours.**

This course emphasizes the theoretical concepts of international finance such as currency arbitrage and interest rate parity and their practical ramifications. Particular emphasis is placed on the hedging of exchange risks for importers and exporters, swap financing, international capital budgeting, and the cost of capital for local and foreign currency borrowing. Prereq.: FINA-400 or equivalent and graduate standing.

**Prerequisite:** FINA-400 with a minimum grade of C.

**FINA-474. Seminar On Futures And Options Markets. 3 Hours.**

This seminar provides an overview of the commodity/financial futures and options markets. Particular emphasis is placed on hedging price risk with futures contracts, valuing options contracts, and speculating with trading strategies involving futures and options contracts. The course will emphasize trading strategies using the futures and options markets with the help of a simulated trading game. Prereq.: FINA-400 or equivalent and graduate standing.

**Prerequisite:** FINA-400 with a minimum grade of C.

**FINA-475. Management Of Financial Institutions. 3 Hours.**

This course focuses on the application of traditional finance concepts to the management of commercial banks and other depository intermediaries, which are part of the Financial Services Industry, operating in domestic and international markets.

**Prerequisite:** FINA-400 with a minimum grade of C.

**FINA-500. Project. 3 Hours.**

Approval of major advisor is necessary.

**FINA-501. Thesis. 3 Hours.**

Approval of major advisor is necessary.

# Major in Accounting

---

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6
<b>Humanities (HU)*</b> 3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	9
<b>Behavioral/Social Sciences (SB)*</b> 3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	9
<b>Natural Sciences (NS and NSL)**</b> 3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	9

### Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

### Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

### Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

### Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

\* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

\*\* Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/graduation-requirements/bachelors-degree/>)

# Master of Science in Accounting (MSA) Program

---

The Accounting MS Program prepares students for the changing accounting profession of the new millennium. The Accounting MS Program provides students with a balanced, rigorous, and in-depth core-course exposure that covers financial accounting, managerial accounting, auditing, income taxation, and research methodology. . In addition to the core accounting course, students may choose to concentrate in several different areas: Auditing, Accounting Information Systems, and Taxation. The Accounting MS program also exposes students to non-accounting fields so that graduates from the program can make decisions in multi-disciplinary business environments. In addition, **the program enables students to meet the 150 credit hours requirement for the CPA exam in the states which have enacted this legislation.** The program consists of curricular studies of 30 credit hours in the Accounting Core and Elective Curriculum. Most courses are offered Face-to-Face, Online (asynchronously), Hybrid (both online and Face-to-Face) or Remote Learning (online synchronously). These courses are offered in the evening and/or on Saturday.

## Admission to the Accounting MS Program

The Accounting MS Program is open to applicants who hold a bachelor's degree from a regionally-accredited college/university or recognized international institution. Acceptance to the Accounting MS Program is contingent upon either: a bachelor's degree in Accounting from a regionally-accredited college/university or recognized international institution; or successful completion of the equivalent content of (1) BLAW 285 The Legal Environment of Business, and (2) the following five undergraduate-level accounting courses:

- ACTG 301 Cost Accounting
- ACTG 307 Auditing Theory and Problems
- ACTG 310 Federal Income Tax (Individual)
- ACTG 321 Intermediate Financial Accounting I
- ACTG 322 Intermediate Financial Accounting II

Each application is evaluated on the basis of: (1) transcripts of all prior undergraduate and graduate coursework; (2) performance on the Graduate Management Admissions Test (GMAT) or Graduate Records Exam (GRE); (3) a statement of career goals and objectives; (4) two letters of recommendation; and (5) curriculum vitae (C.V.) or resume and any other evidence that can help the committee assess the applicant's qualifications. International applicants are required to submit (6) proof of English proficiency. For the Test of English as a Foreign Language (TOEFL) a minimum score of 550 on the paper-based test (or, equivalently, 213 on the computer-based test, or 79 on the internet-based test). Alternatively, for the International English Language Testing System (IELTS) a minimum score of 6.5, for the Duolingo the minimum score must be 100 and for the Pearson English Language Test the minimum score must reach 53. (7) All transcripts from foreign countries must be professionally evaluated on a course-by-course basis by an evaluation service that is a member of NACES (<https://www.naces.org/members> (<https://www.naces.org/members/>)) for equivalence to our degrees.

The Accounting MS program requires an undergraduate cumulative GPA of at least 2.75 (on a 4.0 scale) and a GMAT score of at least 450 or an equivalent GRE score computed using the published GRE conversion table (generally, 149 on each part of GRE is equivalent to 450 on GMAT).

Minimum competency in Mathematics (i.e., Finite Mathematics, Business Calculus, or their equivalent) will be expected before entry into the program. Those who have not acquired appropriate mathematical skills as part of their undergraduate programs may be required by the Graduate Program Coordinator to take appropriate remedial course(s).

## Admission to provisional status:

Applicants may be admitted to provisional status if their GPA is slightly below the minimum requirement as specified above, provided that the composite index score calculated following the formula below is greater than or equal to 1,000.

$$\text{Composite index score} = (\text{GPA} \times 200) + \text{GMAT score (or equivalent GMAT score in the case of GRE)}$$

Each applicant admitted to provisional status is required to obtain a letter grade of B or A in all courses in the first 9 credit hours.

## Exceptions policy for GMAT/GRE:

An applicant may request a GMAT/GRE waiver during the application process, if one of the following three conditions is satisfied.

1. An advanced degree (e.g., masters or higher) from a U.S. regionally-accredited institution with a GPA of 3.5 or higher;
2. A combination of an undergraduate GPA of 3.25 or higher from a U.S. regionally-accredited institution, at least five years of management experience, and at least 7 years of working experiences in total;
3. A combination of an undergraduate GPA of 3.25 or higher from a U.S. regionally-accredited institution, and active (or current) certification of ongoing continuing education (i.e., CPA, CMA, CIA, PHR, SPHR)).

If, upon review by the Admissions Committee, the applicant is considered admissible without a GMAT/GRE score, then the GMAT/GRE requirement will be waived. An applicant may also request a personal interview.

Note: A GMAT preparation course is available through the Office of Community and Professional Education (<http://www.neiu.edu/academics/college-of-business-and-management/graduate-programs-business/gmat-preparation-course/>).

## Course Scheduling

All graduate courses being offered are scheduled on the evenings of workdays most of the time and on Saturday occasionally. The College of Business and Technology makes an effort to schedule the graduate courses by following a predictable pattern. Students are cautioned to make course choices carefully and plan well in advance so that program completion will not be delayed.

Additional information for the MSA Program can be found on the website of the College of Business and T (<http://www.neiu.edu/academics/college-of-business-and-management/>).

## MS in Accounting Program Requirements

### Accounting Cores --- 15 cr.

All Accounting MS students are required to take the following five core courses.

Code	Title	Hours
ACTG-407	Auditing Theory And Practice	3
ACTG-412	Accounting For Planning And Control	3
ACTG-421	Current Topics In Financial Accounting	3
ACTG-430	Research Methodology In Accounting	3
ACTG-440	Tax Research And Procedure	3
<b>Total Hours</b>		<b>15</b>

### Accounting Electives --- 9 cr.

Each Accounting MS student is required to take three elective courses from the list below.

Code	Title	Hours
ACTG-406	Governmental & Not-For-Profit Accounting	3
ACTG-408	Information Technology Auditing	3
ACTG-409	Forensic And Investigative Accounting	3
ACTG-410	Seminar In Tax Planning	3
ACTG-422	Financial Statement Analysis	3
ACTG-441	Estate, Gift And Trust Taxation	3
ACTG-451	Accounting Information Systems	3
ACTG-480	Issues In International Accounting And Multinational Business Operations	3
ACTG-500	Project	3

### Non-Accounting Electives --- 6 cr.

Each Accounting MS student is required to take two non-accounting elective courses from the list below.

Code	Title	Hours
ABF-403	Management Of Information Systems & Technology	3
BLAW-410	International Business Law	3
COBM-482	Business Internship/ Practicum For Graduate Students	3
FINA-402	Issues In Corporate Finance	3
FINA-462	Investment Strategies	3
FINA-469	Mergers And Acquisitions	3
FINA-470	Corporate Financial Strategy	3
FINA-471	International Financial Management	3
FINA-474	Seminar On Futures And Options Markets	3
FINA-475	Management Of Financial Institutions	3
MNGT-402	Applied Business Research	3
MNGT-403	Leadership And Organizational Behavior	3
MNGT-404	Operations Management	3

MNGT-474	Human Resources Policy And Decision Making	3
MNGT-480	Entrepreneurship	3
MNGT-481	International Management	3
MNGT-487	Strategy And Organization	3
MNGT-489	Management Of Organizational Change	3
MNGT-491	Strategic Technology & Innovation Management	3
MNGT-490	Innovation And Creativity	3
MNGT-498	International Business	3
MKTG-402	Marketing Management	3
MKTG-451	Consumer Behavior And Marketing Action	3
MKTG-453	Marketing Research - Techniques And Applications	3
MKTG-454	Digital Marketing Strategy	3
MKTG-456	Channel Distribution And Retailing	3
MKTG-458	Global Marketing	3
MKTG-461	Services Marketing Management	3

## Concentrations --- 9 cr.

Students may choose a combination of accounting electives and non-accounting elective courses to create a concentration from the list below.

Code	Title	Hours
<b>Auditing (9 hrs.)</b>		
ACTG-408	Information Technology Auditing	3
ACTG-409	Forensic And Investigative Accounting	3
ACTG-422	Financial Statement Analysis	3
<b>Information Systems (9 hrs.) must include ACTG-451</b>		
ACTG-451	Accounting Information Systems	3
ABF-403	Management Of Information Systems & Technology	3
ACTG-408	Information Technology Auditing	3
CS-413	IT Project Management	3
CS-415	Design Of Data Base Systems	3
<b>Taxation (9 hrs.)</b>		
ACTG-406	Governmental & Not-For-Profit Accounting	3
ACTG-410	Seminar In Tax Planning	3
ACTG-441	Estate, Gift And Trust Taxation	3

## Managerial Competencies

Prior to enrolling in the Accounting MS cores and/or electives, students must demonstrate certain managerial competencies. This requirement can be fulfilled by completing, with an average GPA of 3.0 or higher, four graduate-level courses given below:

- COBM 401 Accounting for Managers
- COBM 402 Business Economics and Finance for Managers
- COBM 403 Topics in Management and Marketing
- COBM 404 Business Statistics and Operations Decisions for Managers

The managerial competencies can also be satisfied by having successfully completed equivalent coursework from a regionally-accredited institution. For example, the corresponding conversion table for NEIU undergraduate coursework is given below.

Graduate-Level Courses	Prior Coursework at Undergraduate Level
COBM-401 Accounting for Managers	ACTG-201 and ACTG-202
COBM-402 Business Economics and Finance for Managers	FINA-360 and ECON-215
COBM-403 Topics in Management and Marketing	MNGT-370 and MKTG-350
COBM-404 Business Statistics and Operations Decisions for Managers	MNGT-368 and MNGT-377

# Minor in Accounting

---

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6
<b>Humanities (HU)*</b> 3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	9
<b>Behavioral/Social Sciences (SB)*</b> 3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	9
<b>Natural Sciences (NS and NSL)**</b> 3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	9

### Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

### Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

### Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

### Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

\* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

\*\* Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/graduation-requirements/bachelors-degree/>)

## Minor in Accounting requirements

This minor provides the background for professional entry level positions in accounting.

<b>Code</b>	<b>Title</b>	<b>Hours</b>
Required Courses		
ACTG-301	Cost Accounting I	3
ACTG-307	Auditing Theory And Problems	3
ACTG-310	Federal Income Tax (Individual)	3
ACTG-321	Intermediate Financial Accounting I	3
ACTG-322	Intermediate Financial Accounting II	3
Select two of the following:		6
ACTG-306	Accounting For Non-Profit Organizations	
ACTG-311	Federal Income Tax (Corporate)	
ACTG-312	Cost Accounting II	
ACTG-324	Advanced Financial Accounting IV	
ACTG-325	Contemporary Financial Accounting Issues	
<b>Total Hours</b>		<b>21</b>

# Minor in Commercial Transactions

---

The minor in Commercial Transactions is designed to enable students to understand multiple aspects of planning and executing commercial transactions. Due to vast legal regulations and social/cultural changes in our society, commercial transactions are becoming more and more complex, both domestically and internationally. In order to avoid extremely consequential legal and business setbacks, it is critical to understand not only business aspects, but also legal and moral aspects of business transactions. The courses touch upon areas as diverse as contracts, sales, the uniform commercial code, business entities, intellectual property, taxation, private law aspects international business transactions, finance, accounting, and corporate social responsibility.

Junior Standing.

# Minor in Financial Technology

---

The Financial Technology (FinTech) minor is designed to introduce students to the fundamental building blocks of financial technologies and real-world applications. Students will learn the essential components of technology-driven financial strategies, from cryptocurrencies to portfolio optimization to regulations related to FinTech. Students will also learn how to explore the disruptive force of changing financial methods and gain a deeper understanding of robot-advising, E-crowdfunding, virtual peer-to-peer lending, and blockchain.

The following admission standards must be fulfilled to become eligible to officially declare the Financial Technology minor:

- 1) Fulfill the University's General Education Requirement (See the Academic Catalog or Schedule of Classes for details on fulfilling the General Education Requirement).
- 2) Complete at least 45 college credit hours of course work, including General Education Courses, with a cumulative grade point average of 2.00 or higher.
- 3) Declare a major in the student's area of study.
- 4) Contact the Office of Program Advisement at (773) 442-6111 in the College of Business and Technology to schedule an advisement appointment to officially declare a Financial Technology minor.

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

\* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

\*\* Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/graduation-requirements/bachelors-degree/>)

## Minor in Forensic Accounting

This minor provides students with basic forensic and investigative accounting knowledge and skills.

The program consists of 21 credit hours, 15 required and 6 elective, as follow:

<b>Code</b>	<b>Title</b>	<b>Hours</b>
<b>Required Courses</b>		
ACTG-321	Intermediate Financial Accounting I	3
ACTG-307	Auditing Theory And Problems	3
ACTG-309	Foundations Of Forensic & Investigative Accounting	3
ACTG-319	Fraud Examination	3
JUST-317	White Collar Crime & Elite Deviance	3
Two courses from the following		6
ACTG-310	Federal Income Tax (Individual)	
BLAW-285	Legal Environment Of Business	
JUST-334	Criminal Law And Procedure	
CS-323	Cyberlaw	
CS-360	CyberSecurity	
<b>Total Hours</b>		<b>21</b>

# Computer Science

---

The goal of the Department of Computer Science (<http://www.neiu.edu/academics/college-of-arts-and-sciences/departments/computer-science/>) is to provide individuals with a broad-based theoretical and practical understanding of Computer Science and its sub-disciplines. The programs offered by the Department prepare students to pursue graduate study or to assume positions which include software engineering, network design and management, web design, data science, and the application of computers and related technologies to problems in industry such as cybersecurity.

The Department of Computer Science offers courses leading to the degrees of Bachelor of Science in Computer Science (CS), Bachelor of Science in Cybersecurity, Bachelor of Science in Information Technology (IT), and Master of Science in Computer Science.

The undergraduate curriculum offered by the Department of Computer Science is designed to serve these purposes: to offer undergraduate majors in CS, IT, and Cybersecurity for individuals who wish to pursue a career in these fields; to offer corresponding minors for those who feel the need for a less extensive concentration in computing; to prepare students for graduate work in computer science; and to serve students in other academic disciplines by offering instruction in computer applications that are useful in these disciplines.

In each of the degree programs offered by the Department, students are guided through a carefully selected sequence of courses designed to provide a thorough grounding in practical aspects of the field. Students will also acquire sufficient theoretical background to enable them to keep up with the rapid changes in computer technology and methodology. Students should consult a Department advisor to determine which degree program and electives to choose.

Major in Computer Science (<http://catalog.neiu.edu/business-management/computer-science/computer-science/>)

Major in Cybersecurity (<http://catalog.neiu.edu/business-management/computer-science/cybersecurity/>)

Major in Information Technology (<http://catalog.neiu.edu/business-management/computer-science/information-technology/>)

Minor in Computer Science (<http://catalog.neiu.edu/business-management/computer-science/minor-computer-science/>)

Minor in Information Technology (<http://catalog.neiu.edu/business-management/computer-science/minor-information-technology/>)

Minor in Cybersecurity (<http://catalog.neiu.edu/business-management/computer-science/minor-cybersecurity/>)

## General Requirements:

During their first term, transfer students should have all transferred Computer Science courses evaluated by an advisor in the College of Business and Technology for possible acceptance towards major or minor requirements. Acceptance of credit by the University does not guarantee acceptance by the Department.

NOTE: CONTACT THE ADVISING OFFICE IN THE COLLEGE OF BUSINESS AND TECHNOLOGY FOR CURRENT REQUIREMENTS.

Master of Science in Computer Science (<http://catalog.neiu.edu/business-management/computer-science/master-science-computer-science/>)

Xiwei Wang, Ph.D., Associate Professor, Chair  
 Francisco Iacobelli, Ph.D., Associate Professor  
 Ahmed E. Khaled, Ph.D., Associate Professor  
 Peter G. Kimmel, Ph.D., Professor  
 Manar S.H. Mohaisen, Ph.D., Associate Professor  
 Graciela Perera, Ph.D., Associate Professor  
 Leesha (Aisha) Shah, Ph.D., Assistant Professor  
 Marcelo O. Sztainberg, Ph.D., Professor  
 Li Wang, Ph.D., Assistant Professor  
 Yi Yang, Ph.D., Associate Professor  
 Lizi Zhu, Ph.D., Assistant Professor  
 Freddy A. Porps, M.S., Instructor  
 Kenneth Sotak, Ph.D., Instructor  
 Akkady Tchaba, M.S., Instructor

### CS-100. Computers And Society. 3 Hours.

This course provides an introduction to the history of computing and how computers have affected society. Furthermore, it covers the basic computer skills needed to be truly computer literate in modern society. Topics include, but are not limited to the history of computing, the social context of computing, ethical issues in computing, computer security and privacy, the impact of the Internet and the World Wide Web, an introduction to computer architecture and operating systems, and basic computer programs utilized for school, work, and home.

**CS-101. Creative Problem Solving. 3 Hours.**

The goal of this course is to focus on the skills required to analyze a problem and create a step-by-step (algorithmic) solution to that problem. Basic computation using arithmetic, relational, and logical operators will be covered as well as an in-depth treatment of decision and repetition control structures to create algorithms based on mathematical concepts such as summation, averages, exponentiation, prime and perfect numbers, algebraic and geometric sequences, etc.

**Prerequisite:** MATH-092 with a minimum grade of C.

**CS-108. Computer Science For All. 3 Hours.**

Computer science has revolutionized many disciplines and it is no longer only for computer scientists. By studying computer science students will use computational thinking and apply programming to real world scenarios and interdisciplinary examples from science, math and teacher education. Robots and web and mobile-based coding platforms will be used to expose students to coding through different technologies. Students will learn computer science concepts such as algorithms, loops, and conditionals. Each week students will engage in hands-on computational thinking or coding exercises. Finally, students will complete a project using coding to demonstrate scientific, mathematical, or concepts from other disciplines.

**Prerequisites:** ENGL-101 and Accuplacer College Level Math 020 - 120 (or Accuplacer Adv. Algebra & Func 237 - 300 or NEIU Math Placement Result 30 - 45).

**CS-109. First Year Experience: The Information Age: Its Impact On Chicago's Culture. 3 Hours.**

The 21st century has seen the genesis of the Information Age. Advances in computer technology have made immediate access to information and sophisticated processing of information commonplace in business, science, medicine, education, various professional areas and many aspects of personal life. This course focuses on how this has impacted Chicago's culture and its diverse communities. This course fulfills the First Year Experience (FYE) requirement. FYE-109 courses are intended for Freshmen only. Students may not take more than one FYE-109 course.

**CS-180. Fundamentals Of Data Science. 4 Hours.**

Foundations of data science considers data from three perspectives: inferential thinking, computational thinking, and real-world relevance. Given data arising from some real-world phenomenon, how does one analyze that data to understand that phenomenon? The course teaches critical concepts and skills in computation and statistical inference, in conjunction with hands on analysis of real-world datasets, including economic data, document collections, geographical data, and data from social networks. It delves into social, ethical, and legal issues surrounding data analysis, including privacy and data ownership.

**Prerequisite:** MATH-173 with a minimum grade of C.

**CS-200. Programming Fundamentals. 4 Hours.**

This course serves as an introduction to principles of computer programming. It covers fundamental concepts including input/output, data types, arithmetic, relational and logical operators, branching, looping, arrays, classes and objects, wrapper classes and strings. Programming projects involving these concepts will be assigned for interactive applications, numeric computations, and analysis of data.

**Prerequisite:** MATH-173 with a minimum grade of C.

**CS-201. Discrete Structures. 3 Hours.**

Introduction to the fundamental number theoretic, logical, algorithmic, combinatoric, and computational concepts from discrete structures and their applications to computer science. This course involves no programming.

**Prerequisite:** MATH-173 with a minimum grade of C or MATH-104 with a minimum grade of C.

**CS-203. Introduction To Problem Solving & Computational Thinking. 2 Hours.**

The goal of this course is to focus on the skills required to analyze a problem and create a step-by-step solution to that problem using the Bransford's IDEAL problem-solving approach (Identify the problem, Define the problem, Examine the options, Act on a plan, look at the consequences) and hone their problem-solving skills by applying the IDEAL approach to a variety of problems in a wide range of domains. Students integrate computational thinking into the IDEAL and Duke's 7 steps problem-solving approaches, recognize patterns in the problems they are solving (similarities and differences), identify abstractions, decompose a problem, and convert a real-world problem to its computational equivalent problem.

**Corequisite:** CS-200.

**CS-207. Object-Oriented Programming And Data Structures. 5 Hours.**

This course provides an in-depth study of object-oriented programming and abstract data structures implementation and application. It covers inheritance and polymorphism, abstract classes and interfaces, exception handling, file operations, stacks, queues, lists, trees, heaps, and graphs. Additional topics include recursion, searching, and sorting algorithms.

**Prerequisite:** CS-200 with a minimum grade of C.

**CS-260. Computer Security. 3 Hours.**

This course serves as an introduction to computer security. It covers the basic components of modern computers, and the fundamental concepts of security including assets, threats, adversaries, cryptosystems, confidentiality, integrity, availability, assurance, authenticity, anonymity, privacy, and security principles. Building upon these fundamental concepts, this course also covers user authentication, security management and risk assessment, implementation of security plans to keep systems secure, and physical and infrastructure security. Finally, the course introduces human resources security, and legal and ethical aspects of security practices.

**Prerequisite:** CS-200 with a minimum grade of C.

**CS-300. Client Side Web Development. 3 Hours.**

The course discusses web site design issues and the requirements of e-commerce. Furthermore, it covers the creation of web pages. Hands-on development and group projects are an essential part of this course.

**Prerequisite:** CS-200 with a minimum grade of C.

**CS-301. Computer Organization. 3 Hours.**

Representation of data, machine arithmetic, processor and memory organizations, instruction execution, assembly and machine languages, addressing mechanisms, and implementation of high level language constructs. Students will gain a vision of levels of abstraction in hardware and software, the nature of the Von Neumann machine and the nature of high level languages.

**Prerequisite:** CS-200 with a minimum grade of C and CS-201 with a minimum grade of C.

**CS-302. Systems Programming. 3 Hours.**

Introduction to systems programming, including use and implementation of assembler, macros, loaders, compilers, and operating systems.

**Prerequisite:** CS-207 with a minimum grade of C and CS-308 with a minimum grade of C.

**CS-304. Data Structures. 3 Hours.**

This course provides experience implementing and manipulating basic data structures, as well as analyzing their applications in Computer Science.

Topics covered will include: Stacks, Queues, Linked Lists, Binary Tree Structures, Heaps, Graphs, and Sorting Algorithms.

**Prerequisite:** CS-201 with a minimum grade of C and CS-207 with a minimum grade of C.

**CS-305. Computer Logic And Circuitry. 3 Hours.**

Introduction to logical design of computers and some of their applications. Included are Boolean algebra, switching theory, number systems, numerical codes, and computer organization. Engineering problems are de-emphasized. Computer word organization, languages and use of computers for simple problems will be explained.

**Prerequisite:** CS-200 with a minimum grade of C.

**CS-307. Programming Languages. 3 Hours.**

This course provides an introduction to the fundamental concepts of programming languages their structural definition and run time implementation. It equips the students with the tools necessary for the critical evaluation of existing programming languages, and the learning of new ones. In addition, it prepares students for the study of computer design.

**Prerequisite:** CS-207 with a minimum grade of C or CS-424 with a minimum grade of C.

**CS-308. Operating Systems. 3 Hours.**

A general overview of the ideas underlying operating systems. Included are traditional topics such as file systems, CPU scheduling, memory management and device scheduling, along with the topics of more current interest such as deadlock handling, process synchronization and distributed systems. No single operating system is studied; examples are drawn from many sources.

**Prerequisite:** CS-207 with a minimum grade of C and CS-301 with a minimum grade of C.

**CS-309. Compiler Theory. 3 Hours.**

Introduction to basic structure and components of a compiler. Finite automata, lexical analysis, regular grammar, context free grammar, top-down and bottom-up parsing techniques.

**Prerequisite:** CS-207 with a minimum grade of C.

**CS-310. Algorithmic Thinking In Problem Solving. 1 Hour.**

In this course, students focus on learning advanced problem-solving strategies and apply them to more challenging problems in computer science and business. Students synthesize information that they have learned across different computer science courses, in particular data structures, to solve complex problems efficiently and communicate solutions to teammates and industry professionals. The course provides practice on problems drawn from different domains, characterized by incomplete, vague, and possibly inconsistent specifications. Emphasis is on problems that have practical and real-world relevance.

**Prerequisite:** CS-203 with a minimum grade of C.

**Corequisite:** CS-207.

**CS-311. Modern Computer Architecture. 3 Hours.**

This course is intended for those students who wish to understand the architecture and operation of computer systems. Methods for interconnecting processors, memories and I/O devices are discussed. The addressing modes and instruction techniques for manipulation of more complex data structures such as queues, lists and trees are covered.

**Prerequisite:** (CS-207 with a minimum grade of C or CS-406 with a minimum grade of C) and CS-301 with a minimum grade of C.

**CS-314. Independent Study In Computer Science. 3 Hours.**

An opportunity for an individual research or applications project under the direction of an advisor knowledgeable in the field of endeavor. The project will be designed by the student and his/her project advisor, and must be approved by the chairperson of the Department of Computer Science before the project itself is undertaken.

**CS-315. Modern Database Management. 3 Hours.**

Theoretical foundations and state-of-the-art data base management systems. The relational, hierarchical and network approaches to data base management systems and representative systems are described. User interfaces are emphasized.

**Prerequisite:** CS-200 with a minimum grade of C.

**CS-317. Event-Driven Programming. 3 Hours.**

This course serves as an introduction to techniques and tools for the design of graphical user interfaces and event-driven applications. Topics covered include layering, domain logics, form and control basics, custom control, database mapping, and application embedded support. Students will be expected to apply these concepts in programming projects.

**Prerequisite:** CS-207 with a minimum grade of C.

**CS-319. Writing Intensive Program: Fundamentals Of Software Engineering. 3 Hours.**

This course serves as an introduction to the life cycle of the software development process. Topics covered include each phase of the cycle, and techniques and paradigms that result in the successful realization of each stage. Students will be expected to apply these concepts in a large-scale project.

**Prerequisite:** CS-207 with a minimum grade of C and ENGL-101 with a minimum grade of C.

**CS-320. Object-Oriented Programming. 3 Hours.**

This course provides an introduction to Object-Oriented Design (OOD) and Object-Oriented Programming (OOP), which is a highly used contemporary programming paradigm. The three main features of OOD, namely encapsulation, polymorphism and inheritance are discussed. The student must implement these concepts in a project.

**Prerequisite:** CS-207 with a minimum grade of C.

**CS-321. Server Side Web Development. 3 Hours.**

This course is an introduction to techniques and tools for designing server side web applications. Topics covered include web application flow, object oriented programming, design of classes, dynamic content, scripting languages, implicit objects and database accessing. Students will be expected to apply these concepts in the development of a website.

**Prerequisite:** CS-207 with a minimum grade of C and CS-300 with a minimum grade of C.

**CS-322. Applied Research And Statistical Data Analysis. 3 Hours.**

This course provides an in-depth study of research methods in computer science, probability theory, and modern statistical data analysis using the Binomial (discrete) and Normal (continuous) distribution, the Linear Regression model, Analysis of Variance, Nonparametric methods and Computer Random Sampling techniques. In addition, students will become experienced in the actual implementation of these statistical models with data sets using modern computer statistical software packages.

**Prerequisite:** CS-200 with a minimum grade of C and MATH-173 with a minimum grade of C.

**CS-323. Cyberlaw. 3 Hours.**

This course presents an introduction to the legal issues relating to the use of computers and the Internet. Topics covered include privacy, freedom of speech, intellectual property in cyberspace, encryption and interception of communication, computer crime, professional ethics and codes of conduct and work related ethical and legal issues.

**CS-324. Introduction To The Design Of Algorithms. 3 Hours.**

Methods for analyzing algorithms are discussed including an introduction to asymptotic notation. Several approaches to designing algorithms are covered using theory, examples and problems. Those approaches include divide-and-conquer, dynamic programming, the greedy approach backtracking and branch-and-bound. Different approaches are applied to the same problem to illuminate the relative advantages.

**Prerequisite:** CS-201 with a minimum grade of C and CS-207 with a minimum grade of C.

**CS-325. Theory Of Computation. 3 Hours.**

This course discusses several models of computation, including finite automata, pushdown automata and deterministic and nondeterministic Turing machines. The notions of undecidability, computational complexity, intractability and NP completeness are also discussed. The course is mainly theoretical in nature, but some applications, such as finite state systems and parsing, will be discussed.

**Prerequisite:** CS-201 with a minimum grade of C and CS-207 with a minimum grade of C or (CS-424 with a minimum grade of C).

**CS-326. Numerical Methods Using Fortran Programming. 3 Hours.**

An introduction to structured Fortran programming, Computational errors, Solving nonlinear equations, Solving sets of Equations, Determinants and matrix inversions, Interpolating polynomials.

**Prerequisite:** MATH-106 with a minimum grade of C or MATH-185 with a minimum grade of C.

**CS-327. Computational Methods In Biology. 3 Hours.**

Bioinformatics is the discipline that applies mathematics, statistics, computer science, chemistry, and biology to solving problems in biology using biological data sets. The problems investigated are usually at the molecular level. These problems include sequence alignment, genome assembly, models of evolution and phylogenetic trees, analyzing gene expression data, and gene linkage analysis. One of the most important statistical tools used in bioinformatics is the Bayesian network. This course introduces the techniques used in bioinformatics, in particular Bayesian networks, and provides solutions to several bioinformatics problems.

**Prerequisite:** (CS-201 with a minimum grade of C or MATH-251 with a minimum grade of C) and (BIO-100 with a minimum grade of C or BIO-201 with a minimum grade of C) and CS-200 with a minimum grade of C.

**CS-329. Decision Theory. 3 Hours.**

This course covers probabilistic networks, influence diagrams, and decision trees, and their application to making decisions in the face of uncertainty. It addresses modeling one-time decisions and also modeling repeatable decisions as done by an expert system. An expert system is a system that makes the judgments and decisions of an expert. Classical examples of expert systems are systems that make financial decisions and ones that perform medical diagnosis. This course will concentrate more of the latter. Methods for building expert systems and for doing inference with them will be covered.

**Prerequisite:** CS-201 with a minimum grade of C and CS-207 with a minimum grade of C.

**CS-331. Computer Networks. 3 Hours.**

This course covers concepts in data communications, emphasizing protocols. An overview of all protocol layers will be covered, with emphasis on OSI and TCP/IP.

**Prerequisite:** CS-207 with a minimum grade of C or CS-406 with a minimum grade of C or CS-424 with a minimum grade of C.

**CS-334. Open Source Systems. 3 Hours.**

This course is an introduction to the open source domain, including the Linux operating system and other technologies. Topics covered include open source licensing, Linux administration and characteristics of open source applications. Students will be expected to understand the main concepts, and become capable of researching available resources and participating in open source communities.

**Prerequisite:** CS-308 with a minimum grade of C.

**CS-335. Artificial Intelligence. 3 Hours.**

This course covers strong artificial intelligence methods, which have resulted in the development of systems that solve open problems in specialized domains. Such methods include 1) AI models based on logical reasoning, in particular decision trees and learning decision trees, rule-based expert systems, semantics nets, and frames; 2) AI models based on probabilistic reasoning, in particular Bayesian networks and learning Bayesian networks, influence diagrams, and class probability trees; and 3) AI models based on emergent intelligence, in particular evolutionary computation and swarm intelligence. Lastly, the course discusses an important endeavor in AI, namely language processing.

**Prerequisite:** CS-207 with a minimum grade of C and (CS-201 with a minimum grade of C or CS-400 with a minimum grade of C).

**CS-336. History Of Computing. 3 Hours.**

This course discusses the history of computing beginning with the earliest computational devices and continuing to current technologies. The history of computing is much more than the study of computers. It also involves the study of how computing is done and approached and how it has evolved over time. This course covers the following aspects of computing history: technology, both hardware and software; business history; and sociological impacts and key turning points. Within those aspects, trends and evolution are covered as well.

**CS-338. Science, Women, And Technology. 3 Hours.**

This course includes an overview of the women who have made major contributions to computing from Grace Hopper to Ellen Spertus. Furthermore, it provides a life-course analysis of women in computing from an early childhood interest, through university, to graduate school and finally into the work place. This analysis will provide the seed for research topics. Each student will choose a research topic, conduct the research, and present the results to the class.

**CS-339. Fundamentals Of Information Technology Project Management. 3 Hours.**

An Information System is a well-coordinated collection of technological and human resources that gathers and transforms data into information that enables decision making and process improvement within organizations. Information Technology Project Management is the application of knowledge, skills, tools, and techniques to project activities in order to meet project requirements. This course serves as an introduction to these concepts. Students will be expected to apply these tools and techniques in a group based project.

**Prerequisite:** CS-207 with a minimum grade of C.

**Corequisite:** CS-319.

**CS-340. Fundamentals Of Computer Graphics. 3 Hours.**

This course provides a unified introduction to computer graphics and computer vision for students with an interest in imaging or digital visual arts. Topics covered include the fundamentals of display hardware and applications, interactive techniques and color models, 3D viewing pipeline, 3D polygon rendering (clipping, scan conversion, and visibility algorithms), illumination models, transparency, and ray-tracing. The student must write programs using these methodologies.

**Prerequisite:** CS-207 with a minimum grade of C.

**CS-341. Parallel Computing And Distributed Systems. 3 Hours.**

This course works on the fundamental concepts of building systems that work across multiple computing platforms. The course includes topics of distributed operating systems and network protocols for process communication, synchronization, scheduling, and exception and deadlock resolution; understanding of client-server, web-based collaborative systems; parallel computing; concurrency issues; and APIs for distributed application development. Several distributed computing environments are discussed and used in developing experimental projects in a cluster of networked computers. Building systems using cloud-based and service-oriented architectures may also be included.

**Prerequisite:** CS-308 with a minimum grade of C and CS-207 with a minimum grade of C.

**CS-342. Introduction To Human Computer Interaction. 3 Hours.**

A good understanding of how a system/device interacts with its users is what differentiates a product that is technically sound from a usable one. HCI is the science that explores these interactions. HCI is at the intersection of many disciplines including cognitive psychology, linguistics, design and engineering. HCI considerations are increasingly cited as key factors in product design. In this course we will explore the science behind HCI and we will put parts of it into practice.

**CS-343. Introduction To Natural Language Processing. 3 Hours.**

Computers have tried to understand humans since the beginning. Today, with social media, globalization and the widespread use of computing devices the task of understanding is facing new challenges. In this course the students will learn the core techniques used by computers to understand and generate language, as well as state of the art research in the field.

**Prerequisite:** CS-207 with a minimum grade of C.

**CS-345. Network Security. 3 Hours.**

This course discusses the principles and practice of network security applications and standards that are widely used on the internet and on corporate networks. Building upon a review of networking and cryptographic algorithms, topics covered include network access control, network attacks and countermeasures, Internet security protocols, intrusion detection systems, firewalls and intrusion prevention systems, tunneling and virtual private networks, proxy firewalls and servers, anonymizing proxies, and cloud computing security.

**Prerequisite:** CS-331 with a minimum grade of C.

**CS-346. Interdisciplinary Seminar In STEM. 2 Hours.**

This course uses a hands-on approach to modern inquiry-based research problems and techniques in the physical and computational sciences. The course is structured around a series of modular problem-based exercises, covering topics from the fields of Chemistry, Computer Science, Earth Science, Mathematics and Physics, and is designed to provide the content and pedagogical background for students to be successful peer leaders. The cross-disciplinary modules will draw connections between scientific disciplines, and showcase common research tools and techniques used in the sciences. The workshop will also incorporate discussions on a range of topics, from scientific ethics, scientific methodology and error analysis.

**Prerequisite:** MATH-185 with a minimum grade of C.

**CS-347. Mobile Application Development. 3 Hours.**

This course covers programming applications for mobile platforms. Students will learn about mobile application environments and platforms and how to design and develop applications to account for the limited screen size, memory, and access to the internet. Students will incorporate graphics, networking, security, media to create new, real world, practical applications. Development, design, implementation, testing, debugging, and maintaining these applications will also be covered. Students will use a variety of programming languages to create these applications.

**Prerequisite:** CS-207 with a minimum grade of C and CS-300 with a minimum grade of C.

**CS-348. Computer Ethics And Public Policy. 3 Hours.**

This course discusses ethical and social issues related to the development and use of computer technology. The course provides students with historical and philosophical context to understand the evolution of ethics and its intersection with the use of technology as well as touching on major ethical issues currently affecting the use of computer technology. Topics involve ethics, public policy, privacy, responsibility and legal considerations.

**CS-349. Introduction To The Internet Of Things. 3 Hours.**

Internet of Things (IoT) is an emerging technology that actively brings informative and interactive dimensions to the spaces we live and work in. IoT is about creating a fully integrated Internet that includes both cyber elements and physical devices, where the interactions and interconnections between them build smart spaces and trigger applications in many areas (e.g., home automation, transportation, healthcare). This course introduces the fundamentals of IoT, ad-hoc systems, and sensor networks. The topics covered include the different architectures and platforms, communication modules and protocols, hardware accessories and devices, application models and IoT programmability. The course then focuses on the different challenges, limitations, security threats and attacks, and privacy and security measures and protocols.

**Prerequisite:** CS-200 with a minimum grade of C and CS-331 with a minimum grade of C.

**CS-351. Data Wrangling For Data Analysis. 3 Hours.**

Data is messy, comes from different sources and it is seldom complete. This course provides an in-depth study of how to prepare data coming from various sources, in different formats, with noisy information, in order to perform meaningful and sound analyses. Contents include grouping data, visualizing data, and aggregating data from the web and other sources.

**Prerequisite:** MATH-173 with a minimum grade of C.

**CS-355. Cryptography. 3 Hours.**

This course covers cryptography and a wide range of cryptographic applications. Theory discussed includes the design and analysis of cryptographic algorithms such as private key and public key cryptosystems used to secure data transmission and electronic system communications. Cryptographic applications such as digital signatures, entity identification, key exchange and e-commerce transactions are discussed.

**Prerequisite:** CS-324 with a minimum grade of C or (CS-400 with a minimum grade of C and CS-404 with a minimum grade of C).

**CS-359. Machine Learning. 3 Hours.**

This course provides an introduction to machine learning and its underlying fundamental statistical concepts. Building upon basic probability theory and linear algebra, the course addresses several concepts essential to the understanding of machine learning, including approximation, generalization, overfitting, underfitting, and linear and nonlinear systems. Several supervised and unsupervised learning algorithms are covered and used to solve real-world problems. The course will also introduce neural networks, ensemble learning, and active learning. Hands-on projects and in-class laboratories of the application of machine learning to the broad field of computer science and related fields will be given.

**Prerequisite:** CS-207 with a minimum grade of C.

**CS-360. Cybersecurity. 3 Hours.**

This course covers various advanced security concepts, tools, and models. Topics covered include denial-of-service attacks, web security and client- and server-side attacks, email security, database security, payment system security, digital rights management, network security, and incident response. Building upon the introduced security fundamental concepts, advanced enterprise security topics such as static and dynamic malware analysis, security auditing architecture and trails, incident response, and threat intelligence frameworks will be introduced. Hands-on experience will be provided through several laboratory sessions and a final module on penetration testing.

**Prerequisite:** CS-260 with a minimum grade of C and CS-331 with a minimum grade of C.

**CS-361. Secure Programming And Testing. 3 Hours.**

This course details how to design, build, and test programs in order to make them more secure. The course will discuss the following topics: concepts of secure programming (including risk management), techniques and tools used to build secure systems, techniques to test for security in programs and systems, specific vulnerabilities to avoid (and how to do so), and how to test for those vulnerabilities. Specific common classes of programming-induced vulnerabilities will be included such as buffer overflows, race conditions, off-by-one errors, integer overflow, and improper use of randomness functions.

**Prerequisite:** CS-331 with a minimum grade of C.

**CS-362. Writing Intensive Program: Digital Forensics. 3 Hours.**

Digital forensic science concerns the acquisition, recovery, and investigation of digital data. This course provides an introduction to computer components, storage devices, and file systems. Topics covered include forensic algorithms, operating systems artifacts analysis, files analysis, network attacks and forensics, Internet artifacts with emphasis on browser and mail applications, and memory forensics. Students will use tools and create scripts for digital forensic investigation.

**Prerequisite:** CS-207 with a minimum grade of C and CS-260 with a minimum grade of C and ENGL-101 with a minimum grade of C.

**CS-390. Supervised Field Study I. 3 Hours.**

(Internship) The student completes a computer programming project for an institution at the institution site. The institution defines the project which must be approved by the Department of Computer Science for the purpose of satisfying the course requirement. The project should take approximately 168 hours to complete. NOTE: CS-390 is repeatable for a maximum of 9 credit hours.

**CS-391. Supervised Field Study II. 6 Hours.**

(Internship) Same as CS-390 except that project should take approximately 336 hours to complete.

**CS-392. Supervised Field Study III. 9 Hours.**

(Internship) Same as CS-390 except that project should take approximately 504 hours to complete.

**CS-400. Discrete Modeling And Analysis. 3 Hours.**

This course provides necessary tools to develop mathematical maturity through the study of important topics such as combinatorial analysis, discrete structures, algorithmic thinking and mathematical reasoning. Topics include Advanced Enumeration Methods, Recurrence Relations (Equations), Graph Theory, Automata and Formal Languages, Proof Techniques and Probability and Statistics.

**Prerequisite:** CS-201 with a minimum grade of B or CS-405 with a minimum grade of C.

**CS-401. Software Engineering. 3 Hours.**

The complete software development process: requirement specification, design, coding, testing and maintenance. Various software engineering methods for the development of large-scale quality software are presented.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-404. Analysis Of Algorithms. 3 Hours.**

This course provides various methodologies to design and analyze algorithms. Topics include incremental, divide-and-conquer, dynamic programming, greedy, backtracking, and branch-and-bound methodologies. Additional topics include sorting and searching algorithms, and computational complexity and Intractability.

**Prerequisite:** CS-207 with a minimum grade of B or CS-425 with a minimum grade of C.

**Corequisite:** CS-400.

**CS-408. Advanced Operating Systems. 3 Hours.**

Advanced operating system design and construction concepts such as memory, processor, process and secondary device management, synchronization and communication, security and protection, system performance and evaluation, network, distributed and fault-tolerant systems. Study of operating systems highlighting these concepts.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-409. Topics In Compiler Theory. 3 Hours.**

This course describes the procedures used to develop a compiler for a high level language. First a simple high level language is defined and a simple program is written using this language. Then the concepts of a scanner and a parser are presented and students write the software for a scanner and a parser. Gradually, software for all phases of a compiler is developed and by the end of the semester, every student has developed a compiler that can produce assembly code for a microprocessor for a program written in a predefined simple high level language.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-411. Professional Computing. 3 Hours.**

This course introduces the technical and communication skills needed for a successful career in the field of Information Technology. This course is designed to enhance the student's technical research, writing, and presentation skills, as well as to empower the student to use and understand technology more effectively. Utilizing Computer Science-focused topics, this course equips the student with today's technological knowledge and prepares the student for their future career. The student will learn methods for gathering information, writing good documentation, rendering technical information usable to the intended audience, and delivering presentations.

**CS-412. Web Application Development. 3 Hours.**

This course serves as an introduction to different techniques and tools for the design of web applications. Topics covered include web applications flow, object oriented programming, design of classes, dynamic content, scripting languages, implicit objects, and database accessing. Students will be expected to understand and apply these concepts into the generation of sample websites.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-413. IT Project Management. 3 Hours.**

IT Project Management is the discipline that applies management principles to the development of information systems projects. It uses techniques developed by Industrial Engineers and used by other engineers and business managers to bring in projects within time and budget. This course supplements Software Engineering by focusing on the management aspects of investing in the development of information systems. Required: CS-401 or can be taken concurrently.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-414. Independent Study. 3 Hours.**

An opportunity for advanced study under the direction of an advisor knowledgeable in the field. The area of study will be selected by the student and his/her advisor, and must be approved by the department chair.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-415. Design Of Data Base Systems. 3 Hours.**

This course covers various concepts associated with design and construction of data base systems. Topics include data base architecture, relational model, relational languages (SQL), normalization theory, Entity-Relationship theory and physical data base design. Students will develop a simple data base system.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-416. AI And Robotics. 3 Hours.**

This course serves as an introduction to aspects of Artificial Intelligence applied to the robotics field. Students will learn different techniques to approach problems using simple robotics. Students will be expected to understand the main concepts, research for available resources, and participate in projects where these concepts will be applied.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-417. Video Game Programming. 3 Hours.**

The aim of this course is to explore the basics game programming and the gaming industry, including elements of computer graphics and computer vision as well as advanced stereoscopic computer applications. Following the nature of computer/video games development as a team effort, for this course, we shall design and implement one large class project for game prototype as a team.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-418. Research Topics In Artificial Intelligence. 3 Hours.**

This course covers current research topics in artificial intelligence (AI) theory and applications. Topics will vary from semester to semester, and will include a detailed study of one or more of the following: the application of Bayesian networks and other machine learning methodologies to artificial intelligence; the use of decision theory to model intelligent agent behavior; genetic algorithms and programming; evolutionary strategies; multi-agent systems and models; hybrid heuristics and non-deterministic optimization algorithms.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-419. Informatics. 3 Hours.**

Information is the discipline that applies the methodologies of science and engineering to information. It concerns organizing data into information, learning knowledge from information, learning new information from knowledge and making decisions based on the knowledge and information learned. This course concerns computational methods for analyzing data and processing information in applications to business decisions.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-420. Object-Oriented Design. 3 Hours.**

This course provides student with a solid foundation in object oriented design (OOD) and programming (OOP), a contemporary and highly used programming paradigm. OOD involves the presentation of three main concepts: encapsulation, polymorphism, and inheritance. These concepts and implementation techniques are presented in an object oriented programming language and students become experienced in OOD projects.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-421. Applied Programming Fundamentals I. 3 Hours.**

This is a course that covers the principles of computer programming using an object-oriented programming language. Topics will include fundamental constructs of an applied object-oriented programming language such as variables, methods/functions, classes, dynamic object construction, and elementary data structures as well as abstract thinking techniques. A key component of this course is the presentation of programming concepts with relevant and interdisciplinary examples, and project-based experiences. Students will learn how to read and understand documentation, as well as install and access code management tools. This is a project-oriented course.

**CS-422. Data Mining. 3 Hours.**

Data mining is a powerful technology that extracts useful knowledge hidden in large datasets. This knowledge can be utilized to help people make decisions and predict future events. Data mining has its wide application in many areas, including science and engineering, finance and marketing research, medicine and healthcare, etc. This course covers common data preprocessing techniques and data mining algorithms, such as data preparation, aggregation and visualization, classification, regression analysis, clustering, and model evaluation. Some special topics will also be discussed in this course.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-423. Enterprise Architecture & IT Strategy. 3 Hours.**

Enterprise Architecture (EA) is the process of translating organizational vision & strategy into effective & agile business processes that utilize integrated management information systems. These systems allow for; timely decision making, speed to market for competitive advantage or to create a significant barrier to entry. This course studies organizational strategy and its interrelationship & importance with major supporting business systems. The student will gain an understanding of Enterprise Resource Planning (ERP), Product Lifecycle Management (PLM), Customer Relationship Management (CRM), Business Intelligence, & Ecommerce systems and how the use & selection of these systems are critical to an overall IT Strategy.

**Prerequisite:** CS-413 with a minimum grade of C.

**CS-425. Applied Programming Fundamentals II. 3 Hours.**

This is an introductory course covering the principles of object-oriented programming and data structures. Topics include fundamental constructs such as inheritance, polymorphism, exception handling, and commonly used data structures. A key component is the presentation of programming concepts with relevant, interdisciplinary examples and project-based experiences. Students will learn how to utilize data structures and object-oriented techniques to develop large-scale projects. This is a project-oriented course where a variety of teaching methods will be introduced. These methods can include pair programming, in-class presentation of topics, and class projects utilizing communication and collaboration tools.

**Prerequisite:** CS-421 with a minimum grade of C.

**CS-426. Advanced Numerical Methods. 3 Hours.**

This course covers the elements of the design and analysis of numerical methods. Topics include errors in numerical methods, floating-point and interval arithmetic, measuring and efficiency of numerical methods, interpolation and curve fitting, numerical differentiation, numerical integration, and numerical optimization.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C and MATH-301 with a minimum grade of C.

**CS-427. Cross-Platform Mobile Application Development. 3 Hours.**

The course introduces the student to modern mobile application development languages. Then, through hands-on projects, the students will gain experience with paradigms, app architecture, and user interfaces. The course culminates in a final project for which students implement an app entirely. Students will incorporate graphics, networking, security, media to create new, real world, practical applications. Development, design, implementation, testing, debugging, and maintaining these applications will also be covered. Students will use a variety of programming languages to create these applications.

**Prerequisite:** CS-412 with a minimum grade of C.

**CS-435. Expert Systems. 3 Hours.**

An expert system is a program that is capable of making the judgements and decisions of an expert. An example of an expert system is a program that does medical diagnosis. This course covers methods for designing expert systems and for reasoning using expert systems.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-440. Computer Graphics. 3 Hours.**

Graphics hardware. Scaling and data charting. Representation of two-dimensional objects. Translation and rotation of objects. Two-dimensional line clipping. Three-dimensional object representation. Perspective in three-dimensional object representation. Line-clipping and hidden line and face removal in three dimensions.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-442. Topics In Network Design. 3 Hours.**

Protocols for computer networks. Performance requirements, evaluation and analysis. Case studies of actual networks.

**CS-450. Advanced Computer Architecture. 3 Hours.**

Computer system structure and design issues such as ALU design, arithmetic algorithms, memory hierarchy, control, microprogramming, instruction sets, addressing, input-output. Comparison of specific examples of computer models and selected topics on parallel processors.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-460. Computer Security. 3 Hours.**

Study of existing hardware and software techniques for implementing security. Passwords, encryption and authorization schemes. Special security problems presented by distributed and network environments.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-490. Master's Project. 3 Hours.**

Large scale software project and associated documentation. Topic for the project is chosen in conjunction with a project advisor. Master's Project requires the approval of the instructor, the Department Chair, and the appropriate College Dean.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-5901. Thesis Hours. 1 Hour.**

Student conducts and writes a thesis in Computer Science. This is an alternative to CS-490 for those who want to pursue a more ambitious project. Master's Thesis requires the approval of the instructor, the Department Chair, and the appropriate College Dean.

**CS-5902. Thesis Hours. 2 Hours.**

See course description for CS-5901.

**CS-5903. Thesis Hours. 3 Hours.**

See course description for CS-5901.

# Major in Computer Science

---

## Major in Computer Science for the Bachelor of Science Degree

To declare a major in Computer Science, a student must fill out the "Declaration of Major Form" available in the Department Office. A student must complete the major requirements in effect when the declaration of major is accepted by the Department. Students should obtain a Computer Science Major handbook in order to be aware of any changes in requirements.

### University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6
<b>Humanities (HU)*</b> 3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	9
<b>Behavioral/Social Sciences (SB)*</b> 3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	9
<b>Natural Sciences (NS and NSL)**</b> 3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	9

### Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

### Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

### Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

### Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

\* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

\*\* Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/graduation-requirements/bachelors-degree/>)

## Major Requirements

Students in this major can choose from below:

- A general computer science track;
- Computer networks and security concentration;
- Data science concentration.
- For all concentrations, students are required to complete forty-eight hours of computer science course work (including at least 36 hours of 300-level courses).

For the general Computer Science track, students have a total of 17-18 hours of math requirements including CS 201: Discrete Structures (3 credits), which include:

- MATH-187 Calculus I (4 credits)
- MATH-202 Calculus II (4 credits)
- MATH-253 Linear Algebra (3 credits)
- And one of the following:
  - MATH-305 Probability and Statistics (4 credits)
  - MNGT-368 Business Statistics (3 credits)
  - CS-322 Applied Research And Statistical Data Analysis (3 credits)
- Students should also be aware of the University requirements for the Bachelor's degree.
- Transfer students must complete a minimum of 24 credit hours of 300-level Computer Science courses at Northeastern and meet all major requirements.
- Students who intend to pursue a Master's degree in Computer Science should plan on completing Calculus II and are advised to take a course in Linear Algebra.

The following core courses are required for all students in the computer science major.

Code	Title	Hours
<b>Required Core Courses:</b>		
CS-200	Programming Fundamentals	4
CS-201	Discrete Structures	3
CS-207	Object-Oriented Programming And Data Structures	5
CS-301	Computer Organization	3
CS-308	Operating Systems	3
CS-319	Writing Intensive Program: Fundamentals Of Software Engineering	3
CS-324	Introduction To The Design Of Algorithms	3
<b>Total Hours</b>		<b>24</b>

NO SUBSTITUTIONS ARE ALLOWED FOR CORE COURSES.

### Option 1: Major in Computer Science, general track:

This track is designed primarily for students intending to pursue an advanced degree in Computer Science. However, it is appropriate for any student whose goal is to understand the fundamentals of Computer Science.

Code	Title	Hours
<b>Required Courses</b>		
CS-335	Artificial Intelligence	3
CS-315	Modern Database Management	3
CS-331	Computer Networks	3
CS-325	Theory Of Computation	3
CS-348	Computer Ethics And Public Policy	3
CS-355	Cryptography	3
Select two of the following:		6

CS-260	Computer Security	
CS-300	Client Side Web Development	
CS-307	Programming Languages	
CS-321	Server Side Web Development	
CS-334	Open Source Systems	
CS-345	Network Security	
CS-340	Fundamentals Of Computer Graphics	
CS-341	Parallel Computing And Distributed Systems	
CS-347	Mobile Application Development	
CS-342	Introduction To Human Computer Interaction	
CS-343	Introduction To Natural Language Processing	
CS-359	Machine Learning	
One CS 300-level elective, approved by the CS Department		3
CS Core Courses (Including CS 201)		24
Required Additional Math courses		14 or 15
<b>Total Hours</b>		<b>65-66</b>

### Option 2: Major in computer science with Computer Networks and Security Concentration:

This concentration is designed to prepare students for employment in a computer security related field.

Code	Title	Hours
Required Courses		
CS-331	Computer Networks	3
CS-355	Cryptography	3
CS-360	Cybersecurity	3
Select three of the following:		9
CS-315	Modern Database Management	
CS-323	Cyberlaw	
CS-334	Open Source Systems	
CS-335	Artificial Intelligence	
CS-341	Parallel Computing And Distributed Systems	
CS-345	Network Security	
CS-361	Secure Programming And Testing	
Two CS 300-level electives, approved by the CS Department		6
CS Core Courses		24
<b>Total Hours</b>		<b>48</b>

### OPTION 3: MAJOR IN COMPUTER SCIENCE WITH Data Science Concentration:

This concentration is designed to prepare students for employment involving data analysis, research and also prepares students to conduct academic research

Code	Title	Hours
Required Courses		
CS-315	Modern Database Management	3
CS-322	Applied Research And Statistical Data Analysis	3
CS-351	Data Wrangling For Data Analysis	3
Select three of the following:		9
CS-327	Computational Methods In Biology	
CS-329	Decision Theory	
CS-335	Artificial Intelligence	
CS-342	Introduction To Human Computer Interaction	
CS-343	Introduction To Natural Language Processing	

CS-349	Introduction To The Internet Of Things	
GES-372	GIS Across Disciplines	
MATH-275	Applied And Computational Statistics	
MATH-305	Probability And Statistics	
MATH-307	Introduction To Stochastic Processes	
MATH-365	Statistical Computer And Data Analysis Packages	
ECON-220	Business And Economics Statistics I	
ECON-318	Introduction To Econometrics And Forecasting	
ECON-343	Macroeconomic Data Analysis	
ECON-346	Applied Economic Statistics Using R	
MNGT-351	Data Visualization And Management	
MNGT-352	Model-Based Decision Making	
MNGT-353	Supply Chain Analytics	
MNGT-368	Business Statistics	
MNGT-377	Production/Operations Management	
MNGT-379	Business Analytics	
MKTG-353	Marketing Research	
Two CS 300-level electives, approved by the CS Department		6
CS Core Courses		24
<b>Total Hours</b>		<b>48</b>

This sample curricular map is provided to guide you in the planning of your progression for this major, from freshman through senior year. All undergraduate students must earn a minimum of 120 semester hours. This guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor.

# Major in Cybersecurity

---

Cybersecurity is an emerging science that concerns the protection of assets through assessing the vulnerabilities of cyber systems and creating incident response strategies to promptly countermeasure adversaries attacks. A wide range of knowledge and practical skills is needed to design and maintain the security of information systems and underlying infrastructures. The Cybersecurity Program at the Department of Computer Science covers fundamental and advanced security topics to prepare graduates for joining the cybersecurity workforce or starting and successfully completing a Master's degree in Cybersecurity or related fields. In addition to the fundamentals of programming, data structures, and algorithms, students who complete the program will learn cryptography and its applications, networking and network security, operating systems and security, Internet and application security, security auditing, vulnerability assessment and penetration testing, incident response and enterprise security frameworks, and digital forensics. Hands-on laboratories are an essential component of the security courses, where students put the learned knowledge into practice.

Same as the admission requirements of the Major in Computer Science.

## Freshman Applicants:

Beginning in Fall 2021, NEIU, and implicitly the proposed Cybersecurity program, are test-optional. Standardized test scores are not required for admission to the University. Applicants, however, are encouraged to submit test scores in order to meet some scholarship and prerequisite requirements. Test scores also can be helpful with determining your placement in math and English courses. Scores will not be used to make an admissions decision. Applicants with a 2.5 cumulative high school grade-point average will be guaranteed admission.

## Transfer Applicants:

Transfer students must have a cumulative grade point average (GPA) of 2.0 or higher on a 4.0 scale from all colleges, universities and trade schools attended. Upon admission, an evaluation of the prospective transfer student's credits will be undertaken to determine which and how many of the previously-earned credits will meet the degree requirements at Northeastern. High school transcript is required if the applicant has completed fewer than 24 semester hours of college credit.

## International Applicants:

An international applicant must fulfill all of the admission requirements and submit all the required documents that domestic applicants do. Additionally, they must demonstrate that they meet eligibility requirements for:

- Non-immigrant student visa status
- English language proficiency: TOEFL (Paper-based TOEFL: 500, Computer-based TOEFL: 173, Internet-based TOEFL: 61), IELTS (Composite score of 6.0)

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6
<b>Humanities (HU)*</b> 3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	9
<b>Behavioral/Social Sciences (SB)*</b> 3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	9
<b>Natural Sciences (NS and NSL)**</b> 3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	9

## Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

**Discipline Specific (ELE-DS)**

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

**Boundary Crossing (ELE-X)**

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

**Math/Quantitative Reasoning (MA)**

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

\* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

\*\* Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/graduation-requirements/bachelors-degree/>)

## Major Requirements

Forty-eight hours of Cybersecurity course work including at least 33 hours of 300-level courses. Students should also be aware of the University requirements for the Bachelor's degree. Transfer students must complete a minimum of 24 credit hours of 300-level Cybersecurity courses at Northeastern and meet all major requirements.

Students who intend to pursue a Master's degree in Computer Science should plan on completing Calculus II and are advised to take a course in Linear Algebra.

Code	Title	Hours
<b>Required Major Courses</b>		<b>42</b>
CS-200	Programming Fundamentals	4
CS-201	Discrete Structures	3
CS-323	Cyberlaw	3
CS-207	Object-Oriented Programming And Data Structures	5
CS-260	Computer Security	3
CS-331	Computer Networks	3
CS-315	Modern Database Management	3

CS-362	Digital Forensics	3
CS-345	Network Security	3
<b>Select two from the following:</b>		<b>6</b>
CS-349	Introduction To The Internet Of Things	
CS-359	Machine Learning	
CS-301	Computer Organization	
CS-319	Writing Intensive Program: Fundamentals Of Software Engineering	
CS-314	Independent Study In Computer Science	
<b>or any CS 300-level courses, approved by the department</b>		

NO SUBSTITUTIONS ARE ALLOWED FOR MAJOR COURSES.

# Major in Information Technology

---

The Information Technology Major is designed to prepare students for employment involving information management, user experience design, and platform technologies. It covers fundamental and advanced IT topics to prepare graduates for joining the information technology workforce or starting and successfully completing a Master's degree in IT or related fields. Hands-on laboratories are an essential component of the program, where students put their classroom knowledge into practice.

## Freshman Applicants:

Beginning in Fall 2021, NEIU, and implicitly the proposed Cybersecurity program, are test-optional. Standardized test scores are not required for admission to the University. Applicants, however, are encouraged to submit test scores in order to meet some scholarship and prerequisite requirements. Test scores also can be helpful with determining your placement in math and English courses. Scores will not be used to make an admissions decision. Applicants with a 2.5 cumulative high school grade-point average will be guaranteed admission.

## Transfer Applicants:

Transfer students must have a cumulative grade point average (GPA) of 2.0 or higher on a 4.0 scale from all colleges, universities and trade schools attended. Upon admission, an evaluation of the prospective transfer student's credits will be undertaken to determine which and how many of the previously-earned credits will meet the degree requirements at Northeastern. High school transcript is required if the applicant has completed fewer than 24 semester hours of college credit.

## International Applicants:

An international applicant must fulfill all of the admission requirements and submit all the required documents that domestic applicants do. Additionally, they must demonstrate that they meet eligibility requirements for:

# Master of Science in Computer Science

---

## Master of Science in Computer Science

The Master's Degree in Computer Science has three concentrations: one for individuals who want to enter careers in industry, one for individuals who want to pursue a Ph.D., and one for high school teachers who want to obtain an endorsement to teach computer science. The program is designed especially for the convenience of the part-time student; courses are scheduled in the evening and on Saturday.

NOTE: CONTACT A DEPARTMENT ADVISOR FOR CURRENT REQUIREMENTS.

### Requirements for Admission to the Program:

Students must satisfy all requirements for admission to the Graduate College. Applicants must have a four year degree from an accredited undergraduate college, with an overall undergraduate grade point average of not less than 2.75 (on a 4.0 scale).

Departmental approval is required for full admission to the Computer Science Master's program, and is based upon an evaluation of the candidate's ability to study computer science at the graduate level. No previous course work in computer science is necessary to enter the program; however, the student must have knowledge of discrete structures and programming in order to take courses which count towards the degree. If the student does not have this background, it is necessary for the student to take background courses before beginning course work towards the degree.

INTERNATIONAL STUDENTS, PLEASE CHECK THE ADMISSION REQUIREMENTS HERE (<https://admissions.neiu.edu/international-applicants/>).

### Requirements for the Degree:

The Master's Degree in Computer Science requires 36 credit hours of course work, 27 of which must be earned at Northeastern Illinois University. The remaining 9 credit hours may represent courses taken at accredited institutions with graduate programs in computer science and in conformance with the rules of the Graduate College, except for CS-400, CS-404, and CS-420, which must be taken at NEIU in order to receive credit for NEIU Master's degree in Computer Science. The 36 hours will be made up of 12 credit hours of core course work, 9 credit hours from three required categories/tracks, and 15 credit hours of elective course work (or 12 credit hours, if the student completes a Master's Thesis). Three of the five elective courses **must** be from the Computer Science Department. Completion of a Master's Thesis or Project is required. The choice will be agreed upon by the student and the graduate advisor.

No more than 9 hours of specifically approved 300 level courses may be selected to satisfy course requirements for the Master's Degree. Courses taken to remove deficiencies will not be counted toward the 36 hours of course work required for the Master's Degree. Courses taken to satisfy undergraduate degree requirements cannot be used toward the Master's Degree. All elective course work is to be selected in consultation with and approved by the graduate advisor.

For more information a student should visit the Computer Science website. Consult with your program advisor or the Graduate College for details.

### Required Core Courses:

Code	Title	Hours
CS-400	Discrete Modeling And Analysis	3
CS-404	Analysis Of Algorithms	3

# Minor in Computer Science

---

Having a minor in Computer Science can complement almost any major and gives one an advantage when applying for jobs in any field, since computers are used in every profession. This minor will provide both a practical and a theoretical foundation in Computer Science as well as provide an understanding of the underlying components of computer systems.

Student must have officially declared a major.

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6
<b>Humanities (HU)*</b> 3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	9
<b>Behavioral/Social Sciences (SB)*</b> 3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	9
<b>Natural Sciences (NS and NSL)**</b> 3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	9

### Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

### Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

### Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

### Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

\* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

\*\* Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/graduation-requirements/bachelors-degree/>)

## Minor Requirements:

Code	Title	Hours
Minor requirements (15 hours excluding prerequisites)		
<b>Required Courses</b>		<b>9</b>
CS-201	Discrete Structures	
CS-301	Computer Organization	
CS-308	Operating Systems	
<b>Select two courses from the following list:</b>		<b>6</b>
CS-307	Programming Languages	
CS-315	Modern Database Management	
CS-324	Introduction To The Design Of Algorithms	
CS-325	Theory Of Computation	
CS-331	Computer Networks	
CS-334	Open Source Systems	
CS-335	Artificial Intelligence	
CS-340	Fundamentals Of Computer Graphics	
CS-341	Parallel Computing And Distributed Systems	
CS-342	Introduction To Human Computer Interaction	
CS-343	Introduction To Natural Language Processing	
CS-355	Cryptography	
A student may complete a minor in Computer Science by selecting courses totaling at least 15 hours from those offered by the Department of Computer Science. Transfer students must complete a minimum of 9 credit hours toward a minor at Northeastern. The courses must be chosen in consultation with the Department advisor or chairperson.		
<b>Total Hours</b>		<b>15</b>

# Minor in Cybersecurity

---

In this digital era, computer security is a fundamental component of every system, where confidentiality, integrity, availability, authentication, and non-repudiation are of concern. This minor in cybersecurity prepares students to build efficient and secure information systems in various fields, including web development, computer networks, and healthcare information systems.

Students must have officially declared a major.

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6
<b>Humanities (HU)*</b> 3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	9
<b>Behavioral/Social Sciences (SB)*</b> 3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	9
<b>Natural Sciences (NS and NSL)**</b> 3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	9

### Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

#### Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

#### Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

### Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

\* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

\*\* Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/graduation-requirements/bachelors-degree/>)

**1. Cybersecurity Minor Required Courses:**

<b>Code</b>	<b>Title</b>	<b>Hours</b>
CS-260	Computer Security	3
CS-331	Computer Networks	3
CS-360	Cybersecurity	3
<b>Total Hours</b>		<b>9</b>

**2. Select two courses from the following list: 6**

<b>Code</b>	<b>Title</b>	<b>Hours</b>
CS-315	Modern Database Management	3
CS-323	Cyberlaw	3
CS-343	Introduction To Natural Language Processing	3
CS-345	Network Security	3
CS-349	Introduction To The Internet Of Things	3
CS-351	Data Wrangling For Data Analysis	3
CS-355	Cryptography	3
CS-362	Writing Intensive Program: Digital Forensics	3

Total Hours 15

A student may complete a minor in Cybersecurity by selecting courses totaling at least 15 hours from those offered by the Department of Computer Science. Transfer students must complete a minimum of 9 credit hours toward a minor at Northeastern. The courses must be chosen in consultation with the Department advisor or chairperson.

# Minor in Information Technology

---

The Information Technology minor equips students with theoretical and hands-on skills in programming, networking, software engineering, and databases. These skills can lead to programming jobs, networking positions, IT positions, and more.

Student must have officially declared a major.

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6
<b>Humanities (HU)*</b> 3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	9
<b>Behavioral/Social Sciences (SB)*</b> 3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	9
<b>Natural Sciences (NS and NSL)**</b> 3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	9

# Management and Marketing

---

The Management and Marketing majors may be completed using either a traditional in-person modality or through an online modality.

**Management** is the art and science of managing and leading people, organizations and businesses. The central function of management is to create and maintain a productive and constructive environment for reaching organizational goals in an effective and efficient way. Majors will learn the theory and practice of management by studying organizations, entrepreneurship, production and operations management, international business and management, leadership, human resource management, management of change, and many other related topics as they pertain to the management of all sizes of organizations in both for profit and non-profit sectors. Management preparation can be applied in many areas; therefore, students majoring in this field may find jobs in a variety of industries and organizations. Examples include:

- human resource management specialists,
- production and inventory control specialists,
- quality assurance analysts,
- production planners,
- unit managers,
- retail management,
- management consulting and
- management trainees in a number of organizations.

**Marketing** is an essential function in any business; it deals with the strategic and tactical planning activities of organizations which develop, price, promote, and distribute goods and services aimed at meeting the needs of customers through commercial exchanges. The marketing courses are designed to provide students with a foundation of marketing theory and practice in manufacturing and service organizations in both for profit and non-profit sectors. Students majoring in marketing can choose from a variety of career areas. Examples include:

- personal selling,
  - retail management,
  - distribution planning,
  - customer service,
  - advertising/sales promotion,
  - product/brand management,
  - digital and social media marketing
  - telemarketing, and
  - franchise unit management.
- Major in General Business Administration (<http://catalog.neiu.edu/business-management/management-marketing/general-business-administration/>)
  - Major in Management (<http://catalog.neiu.edu/business-management/management-marketing/management/>)
  - Major in Marketing (<http://catalog.neiu.edu/business-management/management-marketing/marketing/>)
  - Minor in Business Analytics (<http://catalog.neiu.edu/business-management/management-marketing/minor-data-analytics/>)
  - Minor in Entrepreneurship for Business Majors (<http://catalog.neiu.edu/business-management/management-marketing/minor-entrepreneurship/>)
  - Minor in (<http://catalog.neiu.edu/business-management/management-marketing/entrepreneurship-non-business/>)Entrepreneurship (<http://catalog.neiu.edu/business-management/management-marketing/entrepreneurship-non-business/>)for Non-Business Majors (<http://catalog.neiu.edu/business-management/management-marketing/entrepreneurship-non-business/>)
  - Minor in Global Business Management (<http://catalog.neiu.edu/business-management/management-marketing/minor-international-business/>)
  - Minor in Human Resource Management (<http://catalog.neiu.edu/business-management/management-marketing/minor-human-resource-management/>)
  - Minor in Management (<http://catalog.neiu.edu/business-management/management-marketing/minor-management/>)
  - Minor in Marketing (<http://catalog.neiu.edu/business-management/management-marketing/minor-marketing/>)
  - Minor in Pre-MBA (<http://catalog.neiu.edu/business-management/management-marketing/minor-mba/>)
  - Master of Business Administration (<http://catalog.neiu.edu/business-management/management-marketing/master-business-administration/>)

Garo L. Agopian, Ph.D., Assistant Professor of Marketing  
 Michael Bedell, Ph.D., Professor of Management, Dean  
 Robert Cook, Ph.D., Assistant Professor of Management  
 Sundaram Dorai, D.B.A., Associate Professor of Marketing  
 Charles Funk, Ph.D., Associate Professor of Management  
 Sungdo Kim, Ph.D., Associate Professor of Management

Cigdem Gonul Kochan, Ph.D., Assistant Professor of Management  
 Jian Li, Ph.D., Professor of Management, Chair  
 Amirhossein Maleki, Ph.D., Assistant Professor of Management  
 Deepa Anil Pillai, Ph.D., Associate Professor of Marketing  
 Suresh Singh, Ph.D., Associate Professor of Management  
 Qiumei Jane Xu, Ph.D., Professor of Management, Associate Dean  
 Shubin Xu, Ph.D., Associate Professor of Management  
 Dilek Yunlu, Ph.D., Associate Professor of Management

## Management

### **MNGT-180. Fundamentals Of Data Science. 4 Hours.**

Foundations of data science considers data from three perspectives: inferential thinking, computational thinking, and real-world relevance. Given data arising from some real-world phenomenon, how does one analyze that data to understand that phenomenon? The course teaches critical concepts and skills in computation and statistical inference, in conjunction with hands on analysis of real-world datasets, including economic data, document collections, geographical data, and data from social networks. It delves into social, ethical, and legal issues surrounding data analysis, including privacy and data ownership.

**Prerequisite:** MATH-173 with a minimum grade of C.

### **MNGT-201. Introduction To Business. 3 Hours.**

The course provides a general overview of the field of business. Major components of business activity such as management, marketing, accounting, finance, and operations will be discussed. The course will enable students to identify potential careers or advanced coursework in business.

### **MNGT-350. Introduction To Entrepreneurship. 3 Hours.**

The course provides a general overview of the field of entrepreneurship. The focus is on introduction to entrepreneurship from the perspectives of start-up entrepreneurs and early stage investors. Special consideration is given to the processes of entrepreneurial mindset, design thinking, proof-of-concept testing and product-market fit. The course will enable students to identify potential ideas for advanced coursework in entrepreneurship.

### **MNGT-351. Data Visualization And Management. 3 Hours.**

This application-based course covers the core concepts of data retrieval, cleaning, and reporting implemented in current analytics software. The course focuses on data warehousing, accessing data from sources, data cleaning, data manipulation, and a wide range of data visualization methods.

**Prerequisite:** MNGT-368 with a minimum grade of C or MATH-275 with a minimum grade of C or MATH-305 with a minimum grade of C or ECON-220 with a minimum grade of C.

### **MNGT-352. Model-Based Decision Making. 3 Hours.**

This course introduces business intelligence and analytics techniques to develop skills for decision-making and complex business problem-solving. These techniques focus on prescriptive analytics including optimization and simulation methods, and predictive analytics including data and text mining, machine learning, and forecasting. The course presents state-of-the-art decision support technologies required to solve real business problems primarily using Excel spreadsheets and SAP business analytics tools.

**Prerequisite:** MNGT-368 with a minimum grade of C or MATH-275 with a minimum grade of C or MATH-305 with a minimum grade of C or ECON-220 with a minimum grade of C.

### **MNGT-353. Supply Chain Analytics. 3 Hours.**

The course provides an introduction to supply chain management involving the flows of materials, information, and cash, from the source of raw materials to end customers. The focus is on decisions involving the investment in productive resources, configuration of processes, product designs, and development of partnerships with suppliers and channels of distribution. Perspectives on marketing (channels of distribution), logistics, and operations management will be analyzed.

**Prerequisite:** MNGT-377 with a minimum grade of C.

### **MNGT-354. Logistics Management. 3 Hours.**

Introduction to the business logistics environment. Detailed coverage of the use of concepts and quantitative techniques in facility location, distribution, warehousing, scheduling, order processing, storage, material handling and other logistics design and operating decisions.

**Prerequisite:** MNGT-377 with a minimum grade of C.

### **MNGT-355. Creativity And Innovation. 3 Hours.**

This course focuses on innovation and creativity from the perspectives of the organizations, teams and individual employees. Special consideration is given to the processes of creativity, the relationship between creativity and innovation, development of creativity, multiple facets of creativity, building and managing creative teams, and development of original thinking.

### **MNGT-368. Business Statistics. 3 Hours.**

This course introduces students to both descriptive and inferential statistics as they apply to business. Its focus is on descriptive measures, probability concepts, discrete and continuous probability distributions, sampling distributions, estimation, hypothesis testing, and simple linear regression. Prereq.: MATH-165.

**Prerequisite:** MATH-165 with a minimum grade of C.

**MNGT-369. Introduction To Data Science. 3 Hours.**

The course exposes students to key concepts, techniques and tools of business data science. Using R-scripts, students apply tools to analyze business data for decision making. The topics covered include, but are not limited to, regression, regularization, classification, experiments, controls, factorization, text data, and nonparametrics.

**Prerequisite:** (MNGT-368 with a minimum grade of C or MATH-275 with a minimum grade of C or MATH-305 with a minimum grade of C) or ECON-220 with a minimum grade of C.

**MNGT-370. Writing Intensive Program: Managing Global Business Organization. 3 Hours.**

This course addresses four critical areas of the emerging management environment: globalization, diversity, leadership, and teamwork. Traditional and projected theories of organization management and organization behavior, as focused toward these four themes, are examined. Additionally, the writing intensive component of this course includes a variety of written communication activities to develop a discipline-focused writing skill.

**Requirement:** All foundation courses completed with a grade of C or better

**Prerequisite:** ENGL-101 with a minimum grade of C.

**MNGT-371. Organizational Behavior. 3 Hours.**

A broad survey analyzing the contributions of behavioral science to management and administration. Topics stressed are scientific method in organizational research, individual and group dimensions of organizational behavior, decision making, barriers to communication, work motivation, intergroup conflict, leadership, organizational climate and development, and analysis of power in organizations. Role playing, simulations, class exercises and case studies are used.

**Prerequisite:** MNGT-370 with a minimum grade of C.

**MNGT-372. Organization Theory And Design. 3 Hours.**

This course approaches the study of business organizations and their management from a macro perspective. The focus of organization theory is to study the structure and design of organizations. Students are presented with both the descriptive and prescriptive aspects of the discipline in order to provide insight into the planning and designing of organizations for effectiveness. Major topics include rational and social systems views of organizations; the social, technical, legal and economic environments of organizations; organizational characteristics such as size, technology, structure, climate and administrative philosophy; elements of organizational structure and design (authority structure); specialization; degree of centralization; policies; communication channels; and reward systems; organizational processes including goal setting; strategic planning; decision making; coordinating and controlling; and organizational survival.

**Prerequisite:** MNGT-370 with a minimum grade of C.

**MNGT-373. Human Resource Management. 3 Hours.**

Organization and operation of the personnel department. Role of the personnel department in the organization. Topics include task/job development (job analysis, job design, job specification, job enlargement, job enrichment, performance standards, work rules, work conditions); staffing the organization (recruitment, selection, placement, promotion, demotion, interviewing, testing); performance appraisal; training and development; compensation (wage and salary administration, supplementary benefits, incentives); collective bargaining (unionization, negotiation, grievance and arbitration); legal and other environmental issues are stressed.

**Prerequisite:** MNGT-370 with a minimum grade of C.

**MNGT-374. Staffing & Selection. 3 Hours.**

This course focuses on Staffing and Selection from the perspectives of the organization. Special consideration is given to the processes of Human Resource Planning, hiring, firing, the underlying legal environment, as well as ethical issues. The major topics include labor market, legal environment, HR planning, job analysis, measurement, recruiting, and selection. Prerequisites: (1) completion of at least 60 credit hours of course work, (2) completion of the eight 100-level and 200-level College of Business & Management Foundation courses, each with "C" or higher, and Foundation GPA of 2.50, and (3) MNGT-370 with a "C" or higher.

**Prerequisite:** MNGT-370 with a minimum grade of C.

**MNGT-375. Management And Organization Communications. 3 Hours.**

Formal structures, channels and mechanism for communication within the organization and its environment. Informal process of communication within the organization. Supervisory and management roles in organizational communication. Dynamics of communication in and between organization work units. Functional roles/ perspectives affecting organizational communications. Class exercises and case studies will be used.

**Prerequisite:** MNGT-370 with a minimum grade of C.

**MNGT-376. Small Business Management. 3 Hours.**

Application of management concepts and techniques to the small firm. Special attention will be given to the particular nature, opportunities, needs, and problems of small manufacturing, wholesale, retail, and business service firms. Topics include comparison of similarities, differences and relations between small and large firms, issues and methods in starting a small firm (including selecting the legal mode of organization, buying an existing firm, franchising); funding; risk and venture management for small firms; the role of local, state, and federal government. Case studies and field research may be included.

**Prerequisite:** FINA-360 with a minimum grade of C and MKTG-350 with a minimum grade of C and MNGT-370 with a minimum grade of C.

**MNGT-377. Production/Operations Management. 3 Hours.**

This course covers subjects related to the design of production, inventory and quality control systems. In the production systems design the following topics are covered: design of products and services, capacity planning, process design, work analysis and measurement, facility location, production scheduling. In the inventory control systems design the following issues will be discussed: relation of inventory system to the other functions of organizations, cost structure, deterministic and probabilistic control models. In the quality control design the following are covered: quality concept, statistical quality control methods such as control charts, sampling etc.

**Prerequisite:** MNGT-368 with a minimum grade of C and MNGT-370 with a minimum grade of C.

**MNGT-378. Managing Diversity In Organizations. 3 Hours.**

This class addresses the issues, knowledge, theories, and applications related to managing diversity in organizations. Topics covered in this class will enhance awareness of existence of diversity at the workplace and address approaches of creation of productive diverse workforce. Class discussion will include topics such as glass ceiling effect, stereotyping process, sexual harassment, work and family conflicts, and reverse discrimination. Readings related to the implementation of diversity training programs as well as fair recruitment and selection processes will be discussed.

**Prerequisite:** MNGT-370 with a minimum grade of C.

**MNGT-379. Business Analytics. 3 Hours.**

This application-based course covers descriptive, predictive, as well as prescriptive analytics. It focuses on data visualization, multiple regression, data mining, linear optimization models, integer linear optimization models, simulation and decision analysis.

**Prerequisite:** MNGT-368 with a minimum grade of C or MATH-275 with a minimum grade of C or MATH-305 with a minimum grade of C or ECON-220 with a minimum grade of C.

**MNGT-380. Entrepreneurship. 3 Hours.**

Examination of the entrepreneurial process and the role of entrepreneurship in new ventures and small businesses, obtaining financing for new businesses; marketing, R & D, and production of new products and services. Evaluation of the entrepreneurs and ways to encourage the entrepreneurial spirit in organizations of all sizes. Students will be required to write a realistic business plan.

**Prerequisite:** (FINA-360 with a minimum grade of C and MKTG-350 with a minimum grade of C and MNGT-370 with a minimum grade of C) or (MNGT-201 with a minimum grade of C and MNGT-350 with a minimum grade of C).

**MNGT-381. Managing International Business. 3 Hours.**

This course examines the following issues: Brief history of international business and globalization; opportunities and risks arising out of the economic, political, and socio-cultural similarities and differences among countries or regions; the role of governments, international institutions and agreements such as trade agreements in facilitating or influencing international business; variety of international business transactions including international trade and foreign direct investment and factors to consider while selecting and managing one or more of these business transactions and doing business abroad including cross-cultural management of stakeholders.

**Prerequisite:** MNGT-370 with a minimum grade of C.

**MNGT-382. Internship In Management. 3 Hours.****MNGT-383. Internship In Management. 4 Hours.****MNGT-384. Internship In Management. 5 Hours.****MNGT-385. Internship In Management. 6 Hours.****MNGT-386. Independent Study In Management. 3 Hours.****MNGT-387. Independent Study In Management. 2 Hours.****MNGT-388. Independent Study In Management. 1 Hour.****MNGT-390. Compensation Management. 3 Hours.**

This course provides students with a practical and theoretical understanding of compensation from the perspectives of managers (who make reward decisions), employees (who receive the rewards and are the "customers" of the reward system), and human resource practitioners (who assist in the design and maintenance of reward systems). It also provides an overview of the considerations necessary to develop a compensation system that is internally and externally equitable and fiscally responsible. Legislative and social issues affecting pay decisions and alignment of pay policies with business strategy and other human resource programs are also covered.

**Prerequisite:** MNGT-370 with a minimum grade of C and MNGT-373 with a minimum grade of C.

**MNGT-391. Human Resource Information System. 3 Hours.**

This course will help develop information system knowledge and skills that are necessary for Human Resource (HR) professionals. It will focus on the structure and strategic capabilities of a Human Resources Information System (HRIS); the identification of Human Resource information needs; the HRIS implementation process; and how HRIS supports various HR practices.

**Prerequisite:** MNGT-370 with a minimum grade of C and MNGT-373 with a minimum grade of C.

**MNGT-392. Business, Technology And Society. 3 Hours.**

Course deals with the environment of business. The role of technology in modern business organizations is considered as well as social change and social pressure on the business community. Other topics to be covered are the social responsibility of business; "The Social Adult" : its function in business organizations; managing modern business: changes and adaptability; technology transfer activities in modern business: the U.S. and developing countries' experiences.

**Prerequisite:** MNGT-370 with a minimum grade of C.

**MNGT-393. Strategic Management. 3 Hours.**

This advanced capstone course involves the study of the concepts and techniques of determining strategies and operational policies of business organizations. Primarily through the use of cases, students are exposed to theories of business policy, business environment, and the impact of different policy making scenarios on selected functions of the business organizations.

**MNGT-399. Management Of Change. 3 Hours.**

An advanced seminar course focusing on organizational change management by managers and employees who wish to initiate a change, are assigned responsibility to manage a change, or who are affected by change initiated by others. Major topics include: nature and dynamics of change and change management; dimensions of change; change management strategies; cycle theories; stability and change; resistance to change; the change manager as change agent or resister/defender.

**Prerequisite:** MNGT-370 with a minimum grade of C.

**MNGT-401. Fundamentals Of Business Statistics. 2 Hours.**

This course provides graduate students without a recent business academic background a foundation in the field of business statistics. It addresses the concepts of probability distributions and statistical inference and considers various methods of describing data, including the normal distribution. Statistical estimation, sampling and methods of testing hypotheses of means and proportions using various distributions are discussed. A brief consideration is given to quality control, analysis of variance, and linear regression.

**MNGT-402. Applied Business Research. 3 Hours.**

This course conveys the nature, purpose and method of applied business research for practicing managers and owner-operators and enables them to acquire research skills. Course topics include problem or project definition, data gathering, hypothesis testing, analysis of result, and developing and reporting of conclusions. Special attention is devoted to the communication process, reporting research findings at various stages, and the use of traditional and high-tech sources of business information.

**Prerequisite:** COBM-404 with a minimum grade of C or MNGT-368 with a minimum grade of C.

**MNGT-403. Leadership And Organizational Behavior. 3 Hours.**

This course addresses the concepts of perception, learning and motivation, and focuses on work-related attitudes and personalities of individual employees and managers. Organizational facets of stress, group dynamics and organization culture and socialization provide a foundation for the discussion of cooperation, conflict, and influence. The role of leaders and leadership upon organizational behavior and cultures is emphasized. Management communication methods and decision-making processes are considered.

**MNGT-404. Operations Management. 3 Hours.**

This course provides a general introduction to operations management in organizations. Emphasis is placed on the application of the main principles and concepts of operations management. Among the topics covered are: operations strategy, capacity analysis, queuing theory, service management, quality management, inventory management, and a brief introduction to supply chain management.

**Prerequisite:** COBM-404 with a minimum grade of C or (MNGT-368 with a minimum grade of C and MNGT-377 with a minimum grade of C).

**MNGT-474. Human Resources Policy And Decision Making. 3 Hours.**

This course addresses personnel policy formulation and implementation. Consideration is given to human resources planning, staffing, development and placement issues in the context of legal and collective bargaining constraints. A review of topical issues such as employment-at-will, drug testing, honesty in the workplace and other special topics is provided.

**MNGT-480. Entrepreneurship. 3 Hours.**

This course focuses on the initiation of new business ventures as contrasted with the management of on-going enterprises. Topics covered include the characteristics of successful entrepreneurs, methods of identifying market opportunities, appraising market potential, determining startup costs of acceptable purchase price, legal aspects of organization or acquisition, raising venture, capital, initial capital structure, selection of the board of directors and key managers, allocation of control among involved parties, and method of rewarding entrepreneurs and key managers. Cases, readings and some outside speakers will be used. The major emphasis, however, will be on the evaluation of prospective "real world" ventures.

**MNGT-481. International Management. 3 Hours.**

This course examines the salient features of decision-making and management practices in multinational firms. Particular attention is given to organizational planning and control functions, and to problems encountered by managers as they interact with host governments and institutions. Linkages between certain cultural factors and features of the managerial climate are also examined.

**MNGT-487. Strategy And Organization. 3 Hours.**

This course serves to integrate preceding courses through the study of strategy to integrate preceding courses through the study of strategy formulation and implementation functions and responsibilities of top-level management. The topics addressed include the concept of corporate strategy, the strategic planning and resource allocation, the design of formal organizational structure, management control systems, reward and sanction systems, the selection and training of key personnel and the leadership role of the chief executive officer. Cases and readings are drawn from a variety of types of organizations.

**MNGT-489. Management Of Organizational Change. 3 Hours.**

This course explores the concept of successful management of organizational and behavioral change, focusing on both "planned" and "unplanned" changes and emphasizing the development of change strategies and measurement of change effectiveness. Included will be group laboratory work using video tape systems. Attention will also be given in response to external (e.g., social) changes. Opportunities exist for field work in various institutional contexts.

**MNGT-490. Innovation And Creativity. 3 Hours.**

This course focuses on innovation and creativity from the perspectives of the organization and individual employees. Special consideration is given to the processes of creativity, the relationship between creativity and innovation, development of creativity, and multiple facets of creativity. Within these major emphases, topics include definition of creativity, inhibitors and activators of creativity in individuals, teams, and organizations, idea creation and evaluation, building and managing creative teams.

**MNGT-491. Strategic Technology & Innovation Management. 3 Hours.**

This course will discuss how technological changes create opportunities for value creation and capture; different types of product and process innovations; and challenges and opportunities created by technological changes. Students will explore how industries are transformed by technological changes; how managerial action shapes opportunities for value creation and capture from new innovations; analytical tools that are vital to understanding which innovations create value and which ones do not; and how technological changes and innovation affect competitive advantages. Emphasis will be on learning conceptual models and frameworks that help firms navigate the complex and dynamic technological changes.

**MNGT-498. International Business. 3 Hours.**

This course examines the cultural, social, political and economic factors which underlie certain business practices in foreign countries. Depending upon the expertise and preference of the instructor, the course may focus upon a few primary geographical areas (e.g., Eastern Europe, Far East) intensively, or it may present a wide array of cultural environments in survey fashion.

**MNGT-500. Project. 3 Hours.**

Approval of major advisor is necessary.

**MNGT-501. Thesis. 3 Hours.**

Approval of major advisor is necessary.

**MNGT-502. Business Policy And Strategy. 3 Hours.**

This course focuses upon strategy formulation and implementation at the highest level of organizations. Methods of obtaining resources and creating systems, structures and policies needed to attain strategic goals are addressed, as is the critical role of the chief executive officer (CEO) or the owner-operation of smaller entities. The common body of knowledge acquired from other graduate business courses is integrated and applied to policy and strategy issues or practices within a wide range of organizational frameworks, including multinational corporations, small-to-medium-sized enterprises (SMEs), and sole proprietorship. The case method of instruction is emphasized.

## Marketing

**MKTG-350. Principles Of Marketing. 3 Hours.**

This course provides a comprehensive overview of the marketing process by explaining its role in business and society. Major topics include market segmentation and research, purchasing behavior in consumer and industrial markets, the marketing mix (product, price, distribution and promotion) and the planning and evaluation of the overall marketing effort.

**MKTG-351. Consumer Behavior. 3 Hours.**

This course examines: the buyer as a problem solver; buying decision processes; sociological and psychological factors affecting buyer behavior; and consumer behavior models. The course shows how consumer behavior concepts are used in the formulation of the firm's marketing strategy.

**Prerequisite:** MKTG-350 with a minimum grade of C.

**MKTG-352. Integrated Marketing Communication. 3 Hours.**

This course provides an overview of the planning, execution, and evaluation of integrated marketing communication programs. Topics covered include creative and media strategies, budgeting, evaluation, and the roles of individual components of the communications mix, such as advertising, sales promotion, internet and interactive media, and direct marketing. Prereq.: MKTG-350.

**Prerequisite:** MKTG-350 with a minimum grade of C.

**MKTG-353. Marketing Research. 3 Hours.**

An investigation of the research necessary for the formulation of marketing policies. Topics include research design; sampling; and statistical analysis.

**Prerequisite:** MKTG-350 with a minimum grade of C and MNGT-368 with a minimum grade of C.

**MKTG-354. Personal Selling. 3 Hours.**

Introduction to the rationale and methods for effective person-to-person communications in the marketing of products, services and ideas. Application of the marketing concept of the personal selling process and development of customer relationships. Course makes use of in-class presentations and role-playing.

**Prerequisite:** MKTG-350 with a minimum grade of C.

**MKTG-355. Digital Marketing. 3 Hours.**

This course provides an introduction to digital marketing. This course examines the integration of Internet, digital media, and interactive technologies in marketing strategy to leverage the impact of marketing mix. Current digital marketing driven applications for customer acquisition, retention, and management in e-business will be examined. Prereq.: MKTG-350 or consent of instructor.

**Prerequisite:** MKTG-350 with a minimum grade of C.

**MKTG-356. Retail Management. 3 Hours.**

The various marketing activities involved in managing the retail enterprise are examined individually and as a part of the overall retail system. Emphasis is placed upon technological changes and upon factors determining store location, merchandise management, organization purchasing and competition in the retail environment.

**Prerequisite:** MKTG-350 with a minimum grade of C.

**MKTG-357. Sales Management. 3 Hours.**

This course exposes students to the roles of professional sales people in the marketing system, It focuses on the development of essential selling skills and the management of sales people.

**Prerequisite:** MKTG-350 with a minimum grade of C.

**MKTG-358. International Marketing. 3 Hours.**

This course examines the special problems of marketing in an international setting. Reasons for international expansion, both historically and in the present, are discussed. The cultural, political and legal environments for international marketing are examined. Problems of product, promotion, price, physical distribution, and organization on an international scale are also examined.

**Prerequisite:** MKTG-350 with a minimum grade of C.

**MKTG-359. Marketing Management. 3 Hours.**

A capstone course designed to stress the managerial aspects of marketing. Consideration of product, pricing, distribution, promotion and organization design are related through student projects to the development of the firm's marketing strategy.

**Prerequisite:** MKTG-350 with a minimum grade of C.

**MKTG-360. Marketing Channels. 3 Hours.**

This course is designed to prepare future managers to successfully handle the interrelationships among manufacturers, wholesalers, retailers and consumers. Topics covered include analysis of marketing channel structures, development of channel strategy and management of marketing channels. The course will emphasize how to plan, organize and control the economic, political and social relationships among institutions and agencies to make certain that products and service are available for use or consumption by industrial, commercial and household consumers.

**Prerequisite:** MKTG-350 with a minimum grade of C.

**MKTG-361. Social Media Marketing. 3 Hours.**

This course provides an overview of the core strategies used by companies to leverage the marketing power of social media. Through integration of concepts from marketing, communications, sociology, and web analytics, students will learn how to develop a social media plan and implement a persuasive social media campaign. Students will learn a variety of techniques and strategies for monitoring user behavior on social media platforms, with an emphasis on applying the analytical concepts and tools of marketing for business decisions.

**Prerequisite:** MKTG-350 with a minimum grade of C.

**MKTG-362. Mobile Marketing. 3 Hours.**

This course provides an overview of the core strategies used by companies to leverage the marketing power of mobile devices. Through integration of concepts from marketing, psychology, communications, and sociology, students will learn how to develop a mobile marketing plan and implement a persuasive mobile marketing campaign. Students will learn a variety of techniques and strategies for monitoring user behavior on mobile devices, with an emphasis on applying the analytical concepts and tools of mobile marketing.

**Prerequisite:** MKTG-350 with a minimum grade of C.

**MKTG-382. Internship In Marketing. 3 Hours.****MKTG-383. Internship In Marketing. 4 Hours.****MKTG-384. Internship In Marketing. 5 Hours.****MKTG-385. Internship In Marketing. 6 Hours.****MKTG-389. Independent Study In Marketing. 3 Hours.****MKTG-390. Independent Study In Marketing. 2 Hours.****MKTG-391. Independent Study In Marketing. 1 Hour.****MKTG-402. Marketing Management. 3 Hours.**

This course focuses on the techniques of management as applied to the functional areas of marketing.

**MKTG-451. Consumer Behavior And Marketing Action. 3 Hours.**

This course focuses in analyzing demand, identifying market segments and predicting customer response to alternative marketing strategies using concepts from the behavioral sciences.

**Prerequisite:** MKTG-402 with a minimum grade of C or MKTG-450 with a minimum grade of C.

**MKTG-453. Marketing Research - Techniques And Applications. 3 Hours.**

This course explores different approaches to planning, collecting, analyzing and communicating information from the marketplace, including techniques and applications for specific marketing areas.

**Prerequisite:** (MKTG-402 with a minimum grade of C or MKTG-450 with a minimum grade of C) and MNGT-368 with a minimum grade of C.

**MKTG-454. Digital Marketing Strategy. 3 Hours.**

This course introduces students to strategy and tactics in digital marketing in the context of a company's overall marketing strategy. Topics covered include an overview of existing and emerging digital trends, consumer experience in the cross-channel context, digital branding and positioning, and best practices in digital marketing strategy.

**Prerequisite:** MKTG-402 with a minimum grade of C.

**MKTG-456. Channel Distribution And Retailing. 3 Hours.**

This course provides for the study of retailing as an integral part of the economic system and examines retailing from both the manufacturer's perspective and consumer's perspective. It focuses on management and behavioral theories.

**Prerequisite:** MKTG-402 with a minimum grade of C or MKTG-450 with a minimum grade of C.

**MKTG-458. Global Marketing. 3 Hours.**

This course focuses on identifying and analyzing worldwide marketing opportunities and generating strategies for overseas marketing, and explores the impact of environmental differences on marketing strategies and customer response.

**Prerequisite:** MKTG-402 with a minimum grade of C or MKTG-450 with a minimum grade of C.

**MKTG-461. Services Marketing Management. 3 Hours.**

Perspectives on managing the distinctive aspects of services as opposed to the marketing and buying of physical goods. The course examines ways in which various kinds of services differ from tangible goods and from each other along social and technological dimensions. Topics include services value creation, services marketing strategies, management of service production and quality and means for balancing supply and demand for services.

**Prerequisite:** MKTG-402 with a minimum grade of C or MKTG-450 with a minimum grade of C.

**MKTG-500. Project. 3 Hours.**

Approval of major advisor is necessary.

**MKTG-501. Thesis. 3 Hours.**

Approval of major advisor is necessary.

# Major in General Business Administration

---

The **General Business Administration program** trains business generalists. While General Business majors learn about different functional areas of business, including Management, Marketing, Accounting and Finance, they do not specialize in any particular area. This program is most suitable for those students who may not have strong interest in any particular area of business, and who may wish to start or work in a small or medium-sized enterprise where employees and managers will be required to exhibit a broad range of business competencies. Students can qualify for a variety of jobs in many sectors of business because of their broad based preparation in general business. This preparation is especially suitable for those who want to become entrepreneurs and interested in starting or managing small to medium-sized businesses. The General Business Administration major has two options.

## DECLARING GENERAL BUSINESS ADMINISTRATION (OPTION 1) AS A SECOND MAJOR FOR NON-TRADITIONAL DEGREE PROGRAM (NDP) STUDENTS

NDP students who have a 2.0 GPA and seek to declare the General Business Administration major (option 1) may be admitted to the College of Business and Technology. Students will be expected to meet the same GPA standards as traditional business majors:

1. Fulfill the University's General Education Requirement as defined by NDP, with a cumulative grade point average of 2.00 or higher.
2. Complete the four business foundation courses (Actg 201, Actg 202, Blaw 285, and Econ 217) with a foundation course grade point average of 2.50 or higher (on a 4-point scale) –or have these verified through NDP.
3. General education coursework complete and verified by NDP advising. Four business foundation courses completed and verified by CBT advising. Minimum cumulative GPA of 2.0.
4. Apply and be approved for admission to the College of Business and Technology. This step is equivalent to officially declaring a major in general business (option 1). Contact the Office of Program Advisement at (773) 442-6111 to schedule an advisement appointment

Up to two 300-level courses can be counted twice between any major and minor combination toward a General Business Administration Major's degree credit hour fulfillment.

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6
<b>Humanities (HU)*</b> 3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	9
<b>Behavioral/Social Sciences (SB)*</b> 3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	9
<b>Natural Sciences (NS and NSL)**</b> 3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	9

### Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

### Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

**Boundary Crossing (ELE-X)**

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

**Math/Quantitative Reasoning (MA)**

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

\* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

\*\* Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/graduation-requirements/bachelors-degree/>)

**Option I-Business Administration for Second Majors**

This program is designed for students who wish to combine coursework in a non-business discipline with a solid foundation in business administration. Students with an interest in International Business may use this option in conjunction with a major in the Foreign Languages Department. Other combinations of double majors with this option are possible, such as Computer Science, Anthropology, and Political Science. Students in this option must fulfill the complete College of Business Core Curriculum, along with twelve other credit hours in Business. An outline of this option is as follows:

Code	Title	Hours
<b>Required Courses</b>		
Business and Management Core Courses		36
MNGT-393	Strategic Management	3
MKTG-358	International Marketing	3
or MNGT-381	Managing International Business	
Approved Elective		
Choose two courses from one area Management, Marketing, Finance, Accounting		6
<b>Total Hours</b>		<b>48</b>

**Option II-General Business Administration**

This program is designed for students completing General Business as a primary (first or only) major. It offers a broad, interdisciplinary orientation to modern business theory and practice. Students in this option must fulfill the complete College of Business Core Curriculum, along with twenty-four other credit hours in Business. An outline of this option is as follows:

Code	Title	Hours
<b>Business and Management Core Courses</b>		<b>36</b>
Required Courses:		
MNGT-393	Strategic Management	3
Select one 300-Level Course from each of the following business disciplines (beyond the Core): <sup>1</sup>		12
	Accounting	
	Finance	
	Marketing	
	Management	
Select three 300-Level Business Courses from any combination of business disciplines <sup>1</sup>		9
<b>Total Hours</b>		<b>60</b>

<sup>1</sup> Excludes MNGT-393, ACTG-300, BLAW-380, BLAW-381 and 300-level Core Courses.

This sample curricular map is provided to guide you in the planning of your progression for this major. This guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor. To apply for graduation, contact the Program Advisors two semesters prior to the term in which you plan to graduate.

# Major in Management

---

The Major in Management will equip students with the necessary knowledge and skills to successfully lead and manage people and organizations, with a curriculum encompassing leadership and managerial skills, organization theories, international business, and strategic management. Students in this major can complete the degree requirements in a variety of tracks (i) General Management (On-Campus or Online), (ii) Human Resources concentration and (iii) Business Analytics concentration.

Those students pursuing the general management track have the option to complete their Management Major (48 credits) online.

- Major in Management (On-campus): Students in this track can take classes that are offered on campus, remote learning, and online. The large set of permissible electives caters to students' own career interests to build strengths and allows for the development of a broad range of business competencies.

- Major in Management (Online): Students in this track take only online classes to complete the Management Major requirements, which are the same as those for the on-campus track. Adding to the elective flexibility of the general management track, the Online option offers students an increased flexibility in regard to where and when they complete the major's coursework.

- Major in Management with Human Resources Concentration: Designed for students who aspire for knowledge of a broad range of human resources principles and practices, this major has a focused elective curriculum on knowledge and tools in human resource management aligned with the current needs of organizations. Upon the successful completion of the concentration, students will be better prepared for the role of HR generalist or specialist in a variety of organizations.

- Major in Management with Business Analytics Concentration: This concentration is designed for students who wish to focus on the tools and techniques related to modern business analytics applications as part of their Management coursework. The tools and techniques cover the five pillars of Business Analytics - Data Collection, Data Preparation, Data Modeling, Data Visualization and Analysis, and Reporting - both in theory and practice using cutting-edge software. Students who complete this major will understand both management issues and data-driven decision making, able to dive into data to glean insights and solve business problems.

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6
<b>Humanities (HU)*</b> 3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	9
<b>Behavioral/Social Sciences (SB)*</b> 3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	9
<b>Natural Sciences (NS and NSL)**</b> 3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	9

### Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

### Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

**Boundary Crossing (ELE-X)**

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

**Math/Quantitative Reasoning (MA)**

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

\* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

\*\* Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/graduation-requirements/bachelors-degree/>)

**Option I: Major in Management for the Bachelor of Science Degree (On-campus)**

\*Up to two 300-level courses can be counted twice between any major and minor combination toward a Management Major's degree credit hour fulfillment.

Code	Title	Hours

# Master of Business Administration (MBA) Program

---

The MBA Program provides students with a broad knowledge base in the area of business and management which will prepare them for mid- and upper-level positions in both the private and public sectors, including the manufacturing, service, financial, institutional, and government fields. The MBA Program offers a challenging and practical orientation to the complexities of modern business management and exposure to the tools necessary for business decision-making. It consists of curricular studies of 33 credit hours in the Business Core and Elective Curriculum. In addition to the general MBA, students can choose to concentrate in several different areas: Finance, Marketing, Entrepreneurship, Global/International, Human Resource Management, Information Technology, Public Health, and Sports Management/Exercise Science. The program is designed for the working individual; many of the courses are offered online. Most other courses are offered Face-to-Face or Hybrid (both online and Face-to-Face)/webcast (Face-to-Face and video broadcast, i.e., Distance Learning). These courses are offered in the evening or on Saturday.

## Admission to the MBA Program

The MBA Program is open to applicants who hold a bachelor's degree from a regionally-accredited college/university or recognized international institution. Each application is evaluated on the basis of: (1) transcripts of all prior undergraduate and graduate coursework; (2) performance on the Graduate Management Admissions Test (GMAT) or Graduate Records Exam (GRE); (3) a statement of career goals and objectives; (4) two letters of recommendation; and (5) curriculum vitae (C.V.) or resume and any other evidence that can help the committee assess the applicant's qualifications. International applicants are required to submit proof of English proficiency. Test of English as a Foreign Language (TOEFL) score of 550 on the paper-based test (or, equivalently, 213 on the computer-based test, or 79 on the internet-based test). A minimum score of 6.5 on the International English Language Testing System (IELTS), a minimum score of 100 on the Duolingo or a minimum score of 53 on the Pearson English Language Test. All transcripts from foreign countries must be professionally evaluated on a course-by-course basis by an evaluation service that is a member of NACES (<https://www.naces.org/members>) for equivalence to our degrees.

The MBA program requires an undergraduate cumulative GPA of at least 2.75 (on a 4.0 scale) and a GMAT score of at least 450 or an equivalent GRE score computed using the published GRE conversion table (generally, 149 on each part of GRE is equivalent to 450 on GMAT).

Minimum competency in Mathematics (i.e., Finite Mathematics, Business Calculus, or their equivalent) will be expected before entry into the program. Those who have not acquired appropriate mathematical skills as part of their undergraduate programs may be required by the Graduate Program Coordinator to take the appropriate remedial course(s).

## Admission to provisional status:

Applicants may be admitted to provisional status if their GPA or GMAT/GRE score is slightly lower than the minimum requirement as specified above, provided that the composite index score calculated following the formula below is greater than or equal to 1,000.

$$\text{Composite index score} = (\text{GPA} \times 200) + \text{GMAT score (or equivalent GMAT score in the case of GRE)}$$

Each applicant admitted to provisional status is required to obtain a letter grade of B or A in all courses in the first 9 credit hours.

## Exceptions policy for GMAT/GRE:

An applicant may request a GMAT/GRE waiver during the application process, if one of the following three conditions is satisfied.

1. An advanced degree (e.g., masters or higher) from a U.S. regionally-accredited institution with a GPA of 3.5 or higher;
2. A combination of an undergraduate GPA of 3.25 or higher from a U.S. regionally-accredited institution, at least five years of management experience, and at least 7 years of work experience in total;
3. A combination of an undergraduate GPA of 3.25 or higher from a U.S. regionally-accredited institution, and active (or current) certification of ongoing continuing education (i.e., CPA, CMA, CIA, PHR, SPHR)).

If upon review by the Admissions Committee, the applicant is considered admissible without a GMAT/GRE score, then the GMAT/GRE requirement will be waived. An applicant may also request a personal interview.

Note: A GMAT preparation course is available through the Office of Community and Professional Education (<https://www.neiu.edu/academics/our-centers-and-programs/community-and-professional-education/>) (CAPE).

## Course Scheduling

All MBA Core courses being offered are scheduled on the evenings of workdays while electives are generally offered Online (self-paced). The College of Business and Technology makes an effort to schedule the graduate courses by following a predictable pattern. Students are cautioned to consult with the MBA Program Advisor, make course choices carefully, and plan well in advance so that program completion will not be delayed.

Additional information for the MBA Program can be found on the website of the College of Business and Technology (<https://www.neiu.edu/academics/college-of-business-and-technology/>).

## MBA Program Requirements

### Cores and Capstone --- 24 cr.

All MBA students are required to finish the following **EIGHT** courses.

Code	Title	Hours
ABF-403	Management Of Information Systems & Technology	3
ACTG-402	Managerial Accounting	3
FINA-402	Issues In Corporate Finance	3
MKTG-402	Marketing Management	3
MNGT-402	Applied Business Research	3
MNGT-403	Leadership And Organizational Behavior	3
MNGT-404	Operations Management	3
MNGT-502	Business Policy And Strategy	3
<b>Total Hours</b>		<b>24</b>

### Electives --- 9 cr.

Each MBA student is required to take **THREE** elective courses from the list below. Students may choose any combination of three courses for the general MBA. If they choose to concentrate in one of the areas offered, they are required to choose all three courses from that area.

Code	Title	Hours
<b>General MBA - Take 3 classes from any area (9 hrs.)</b>		
ACTG-406	Governmental & Not-For-Profit Accounting	3
ACTG-407	Auditing Theory And Practice	3
ACTG-409	Forensic And Investigative Accounting	3
ACTG-412	Accounting For Planning And Control	3
ACTG-421	Current Topics In Financial Accounting	3
ACTG-422	Financial Statement Analysis	3
ACTG-430	Research Methodology In Accounting	3
ACTG-440	Tax Research And Procedure	3
ACTG-441	Estate, Gift And Trust Taxation	3
COBM-482	Business Internship/ Practicum For Graduate Students	3
<b>ENTREPRENEURSHIP CONCENTRATION (9 hrs.)</b>		
MNGT-474	Human Resources Policy And Decision Making	3
MNGT-480	Entrepreneurship	3
MNGT-487	Strategy And Organization	3
MNGT-489	Management Of Organizational Change	3
MNGT-490	Innovation And Creativity	3
<b>FINANCE CONCENTRATION (9 hrs.)</b>		
FINA-462	Investment Strategies	3
FINA-469	Mergers And Acquisitions	3
FINA-470	Corporate Financial Strategy	3
FINA-474	Seminar On Futures And Options Markets	3
FINA-475	Management Of Financial Institutions	3
<b>GLOBAL/INTERNATIONAL CONCENTRATION (9 hrs.)</b>		
ACTG-480	Issues In International Accounting And Multinational Business Operations	3
BLAW-410	International Business Law	3
FINA-471	International Financial Management	3
MNGT-481	International Management	3
MNGT-498	International Business	3
MKTG-458	Global Marketing	3
<b>HUMAN RESOURCES MANAGEMENT CONCENTRATION (9 hrs)</b>		
MNGT-474	Human Resources Policy And Decision Making	3

HRD-400	Hrd And The Organization	3
HRD-403	Leadership & Political Savvy In The Workplace	3
HRD-407	Measurement And Evaluation In Hrd	3
HRD-410	Talent Management	3
HRD-415	Seminar In Human Resource Development- Organizational Development	3
HRD-418E	Topical Seminar In Global/Cultural Issues In Human Resource Development	3
HRD-418F	Topical Seminar: Group Dynamics In Human Resource Development	3
<b>INFORMATION TECHNOLOGY CONCENTRATION (9 hrs.)</b>		
ACTG-408	Information Technology Auditing	3
ACTG-451	Accounting Information Systems	3
CS-401	Software Engineering	3
CS-415	Design Of Data Base Systems	3
CS-419	Informatics	3
CS-423	Enterprise Architecture & IT Strategy	3
<b>MARKETING CONCENTRATION (9 hrs.)</b>		
MKTG-451	Consumer Behavior And Marketing Action	3
MKTG-452	Advertising Management	3
MKTG-453	Marketing Research - Techniques And Applications	3
MKTG-454	Digital Marketing Strategy	3
MKTG-458	Global Marketing	3
MKTG-461	Services Marketing Management	3
<b>PUBLIC HEALTH CONCENTRATION (9 Hrs.)</b>		
PH-400	Introduction To Public Health	3
PH-450	Health Care Program And Services Administration	3
PH-460	Design And Development Of Public Health Programs	3
<ul style="list-style-type: none"> <li>Note: Students may earn a Certificate in Public Health with only 3 additional courses from the PH Graduate Program</li> </ul>		
<b>SPORTS/EXERCISE MANAGEMENT CONCENTRATION (9 hrs.)</b>		
EXSC-404	Exercise Testing And Prescription	3
EXSC-413	Development And Management Of Physical Education, Recreation, And Sport Programs	3
EXSC-418	Current Topics In Exercise And Sport Science	3
EXSC-419	Psychology Of Exercise & Health Behaviors	3
EXSC-427	Adapted Physical Education, Recreation, And Sport Programs	3
PEMT-400	Adventure Education	3

## Managerial Competencies

Prior to enrolling in MBA cores and/or electives, students must demonstrate certain managerial competencies. This requirement can be fulfilled by completing, with an average GPA of 3.0 or higher, four graduate-level courses given below:

- COBM 401 Accounting for Managers
- COBM 402 Business Economics and Finance for Managers
- COBM 403 Topics in Management and Marketing
- COBM 404 Business Statistics and Operations Decisions for Managers

The managerial competencies can also be satisfied by having successfully completed equivalent coursework from a regionally-accredited institution. For example, the corresponding conversion table for NEIU undergraduate coursework is given below.

Graduate-Level Courses	Prior Coursework at Undergraduate Level
COBM-401 Accounting for Managers	ACTG-201 and ACTG-202
COBM-402 Business Economics and Finance for Managers	FINA-360 and ECON-215
COBM-403 Topics in Management and Marketing	MNGT-370 and MKTG-350
COBM-404 Business Statistics and Operations Decisions for Managers	MNGT-368 and MNGT-377

# Minor in Business Analytics

---

The minor in Business Analytics is intended to arm students with the tools and skills to answer data-driven questions relevant to their field. To meet this goal, the required courses will cover the five pillars of business analytics - Data Collection, Data Preparation, Data Modeling, Data Visualization and Analysis, and Reporting - both in theory and practice using cutting-edge software. Electives tailor to students from a variety of majors and allow students to build their own "concentration." Consult an advisor to discuss courses and prerequisites in this minor.

## Admission Requirements

One of the following courses or pairs of courses:

- MNGT-368 Business Statistics
- MATH-275 Applied And Computational Statistics
- MATH-305 Probability And Statistics
- ECON-220 Business And Economics Statistics I
- PSYC-202 Writing Intensive Program: Statistics And Research Methods I AND PSYC-302 Statistics And Research Methods II

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6
<b>Humanities (HU)*</b> 3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	9
<b>Behavioral/Social Sciences (SB)*</b> 3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	9
<b>Natural Sciences (NS and NSL)**</b> 3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	9

## Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

### Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

### Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

**Math/Quantitative Reasoning (MA)**

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

- \* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.
- \*\* Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/graduation-requirements/bachelors-degree/>)

Code	Title	Hours
<b>Required Courses:</b>		
MNGT-379	Business Analytics	3
MNGT-351	Data Visualization And Management	3
MNGT-352	Model-Based Decision Making	3
Electives (choose 2):		6
CS-315	Modern Database Management	
CS-327	Computational Methods In Biology	
CS-335	Artificial Intelligence	
ECON-318	Introduction To Econometrics And Forecasting	
ECON-343	Macroeconomic Data Analysis	
ECON-346	Applied Economic Statistics Using R	
GES-372	GIS Across Disciplines	
MATH-307	Introduction To Stochastic Processes	
MATH-365	Statistical Computer And Data Analysis Packages	
MKTG-353	Marketing Research	
MNGT-353	Supply Chain Analytics	
MNGT-369	Introduction To Data Science	
MNGT-377	Production/Operations Management	
PSYC-307	Psychological Tests And Measurements	
<b>Total Hours</b>		<b>15</b>

# Minor in Entrepreneurship for Business Majors

---

This minor is designed to develop entrepreneurial skills for business majors interested in the entrepreneurial activities in start#up and corporate organizations.

## Admission Requirements for Minor in Entrepreneurship

The following admission standards must be fulfilled to become eligible to officially declare a minor in Entrepreneurship:

1. Fulfill the University's General Education Requirement (See the Academic Catalog or Schedule of Classes for details on fulfilling the General Education Requirement).
2. Complete each of the nine Foundation Courses (listed above) with a grade of "C" or better in each course AND earn a Foundation Course grade point average of 2.50 or higher (on a 4-point scale). COBM does not round up GPA. A 2.49 GPA would require re-taking a course(s) to earn a 2.5 foundation GPA.
3. Complete at least 45 college credit hours of course work, including the Foundation Courses and General Education Courses, with a cumulative grade point average of 2.00 or higher.

Contact the Office of Program Advisement at (773) 442-6111 to schedule an advisement appointment to officially declare an entrepreneurship minor.

## Program Completion

Entrepreneurship Minors must earn a 2.50 or higher GPA for all required and elective courses in the Minor.

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6
<b>Humanities (HU)*</b> 3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	9

<b>Total Hours</b>		<b>15</b>

Courses applied to this minor can not be applied to other majors and minors.

# Entrepreneurship Minor for Non-Business Majors

---

This minor is designed to develop entrepreneurial skills for non-business majors interested in the entrepreneurial activities in start-up and corporate organizations.

## Admission Requirements:

The following admission standards must be fulfilled to become eligible to officially declare the Entrepreneurship Minor for Non-Business Majors:

1. Fulfill the University's General Education Requirement (See the Academic Catalog or Schedule of Classes for details on fulfilling the General Education Requirement).
2. Complete at least 45 credit hours of course work, including General Education Courses, with a cumulative grade point average of 2.00 or higher.
3. Declare a major in the student's area of study.
4. Contact the Office of Program Advisement at (773) 442-6111 to schedule an advisement appointment to officially declare Entrepreneurship Minor for Non-Business Majors.

## Program Requirements

Entrepreneurship Minors (for Non-Business Majors) must earn a 2.50 or higher GPA for all required courses with a total of 15 credit hours in the Minor.

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6
<b>Humanities (HU)*</b> 3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	9

# Minor in Global Business Management

---

The Global Business Management Minor is intended for any student who is interested in enhancing his or her business and management skills for working in an increasingly complex global business environment.

## Admission Requirements

The following admission standards must be fulfilled to become eligible to officially declare the Global Business Management minor:

- 1) Fulfill the University's General Education Requirement (See the Academic Catalog or Schedule of Classes for details on fulfilling the General Education Requirement).
- 2) Complete at least 45 college credit hours of course work, including General Education Courses, with a cumulative grade point average of 2.00 or higher.
- 3) Declare a major in the student's area of study.
- 4) Contact the Office of Program Advisement at (773) 442-6111 in the College of Business and Management to schedule an advisement appointment to officially declare a Global Business Management minor.

## Global Business Management Minor Program Completion

Global Business Management Minors must earn a 2.50 or higher GPA for all required and elective courses in the Minor.

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6

# Minor in Human Resource Management

---

The Human Resource Management (HRM) Minor is designed to expose students to the key functional areas of human resource management. The minor prepares students to effectively manage a company's human resources in different positions, including HR professionals who are tasked with attracting, developing, retaining, and managing an organization's employees; line managers who have day-to-day responsibilities to implement HR policies in the workgroup; entrepreneurs who need fundamental knowledge of HRM to successfully meet a myriad of HR-related challenges in their new firms; and members of not-for-profit organizations who should recruit and manage employees, often with no specialist HR staff.

## Admission Requirements

60 semester hours completed

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6
<b>Humanities (HU)*</b> 3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	9
<b>Behavioral/Social Sciences (SB)*</b> 3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	9
<b>Natural Sciences (NS and NSL)**</b> 3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	9

### Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

### Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

### Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

### Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

\* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

\*\* Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/graduation-requirements/bachelors-degree/>)

## Minor in HRM Requirements

<b>Total Hours</b>		<b>15</b>

# Minor in Management

---

This minor is designed for students interested in entry-level management positions and/or general managerial careers in business organizations.

## Admission Requirements

The following admission standards must be fulfilled to become eligible to officially declare the Management minor:

- 1) Fulfill the University's General Education Requirement (See the Academic Catalog or Schedule of Classes for details on fulfilling the General Education Requirement).
- 2) Complete at least 45 college credit hours of course work, including General Education Courses, with a cumulative grade point average of 2.00 or higher.
- 3) Declare a major in the student's area of study.
- 4) Contact the Office of Program Advisement at (773) 442- 6111 in the College of Business and Management to schedule an advisement appointment to officially declare a Management minor.

## Program Requirements

- a) Management Minors must earn a 2.50 or higher GPA for all required and elective courses in the Minor.
- b) Successful completion of ENGL 102.

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6

# Minor in Marketing

---

This program is for students interested in complementing their major discipline (either another field of business other than marketing, or a non-business field) with a minor in marketing.

## Admission Requirements

The following admission standards must be fulfilled to become eligible to officially declare the marketing minor:

1. Fulfill the University's General Education Requirement (See the Academic Catalog or Schedule of Classes for details on fulfilling the General Education Requirement).
2. Complete at least 45 credit hours of course work, including General Education Courses, with a cumulative grade point average of 2.00 or higher.
3. Declare a major in the student's area of study.
4. Contact the Office of Program Advisement at (773) 442-6111 in the College of Business and Management to schedule an advisement appointment to officially declare a marketing minor.

## Program Requirements

Marketing Minors must earn a 2.50 or higher GPA for all required and elective courses with a total of 15 credit hours in the Minor.

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6
<b>Humanities (HU)*</b> 3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	9

# Minor in Pre-MBA

---

The Pre-MBA Minor is designed for non-business undergraduate students who wish to pursue a masters program in a business field. More specifically, it aims to expose students to the important foundation of theory/practices in Accounting, Economics, Finance, Management, Marketing, Operations Management and Business Statistics.

## Pre-MBA Minor Admission

The following admission standards must be fulfilled to become eligible to officially declare the Pre-MBA minor:

- 1) Fulfill the University's General Education Requirement (See the Academic Catalog or Schedule of Classes for details on fulfilling the General Education Requirement).
- 2) Complete at least 45 college credit hours of course work, including General Education Courses, with a cumulative grade point average of 2.00 or higher.
- 3) Declare a major in the student's area of study.
- 4) Contact the Office of Program Advisement at (773) 442- 6111 in the College of Business and Management to schedule an advisement appointment to officially declare a Pre-MBA minor.

## Pre-MBA Minor Program Completion

To earn a Minor in Pre-MBA, students need to have a cumulative GPA of 2.5 or above for all the required courses in the Minor with a grade of C or better.

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6

# Daniel L. Goodwin College of Education

---

**Thomas Phillion, Ph.D., Professor, Dean**

**Alberto López-Carrasquillo, Ph.D., Professor, Associate Dean**

The faculty and staff of the Daniel L. Goodwin College of Education of Northeastern Illinois University are dedicated to excellence and innovation in education and professional program preparation. Serving the greater Chicago metropolitan area, our teaching, research, and service efforts respond to the needs and aspirations of a diverse student body and community. The Goodwin College of Education as a fundamental component of a comprehensive public urban university, dedicates itself to using current and reliable evidence of teaching and learning as a source of continuous improvement of its programs, policies, and practices. We regard diversity as a source of strength and as the foundation for our work. We offer high quality experiential learning opportunities to help our candidates bridge the gap from research to practice.

## Goodwin College of Education Goals

**The Goodwin College of Education cultivates professionals who:**

1. Embrace diversity in individuals and perspectives as a source of strength and as the foundation for excellence and innovation in one's professional practice
2. Create equity, inclusiveness and social justice for individuals, groups, communities and organizations
3. Anchor excellent professional practice in inquiry, evidence, scholarship, and real world application
4. Apply lifelong learning to expand one's knowledge, abilities, practice, and perspectives
5. Create positive change in environments, communities, organizations, and individuals by forging positive relationships with others

## Shared Beliefs

**Goodwin College of Education's shared beliefs are reflected in our conceptual framework.** The Daniel L. Goodwin College of Education (GCOE) community is proud of its commitment to the exemplary professional preparation of P-12 educators, school and community leaders, counselors, and health care professionals as well as its human resource professionals. Central to this purpose is the guiding belief that professional practice in education should be reflective, collaborative, and personally and socially transformative. Therefore, the GCOE adheres to its conceptual framework, a statement of the fundamental principles to guide our work: Professional Practitioners: Reflective, Collaborative, Transformative.

The Goodwin College of Education takes an all-university approach, requiring its candidates to have a well-rounded general education in the liberal arts, thorough training in professional education courses, and extensive school-community clinical experiences. Candidates completing teacher preparation programs receive entitlement to licensure from the Illinois State Board of Education. Occasionally, state requirements for endorsements may change. Consult the Program Advisor regarding licensure and endorsement requirements.

## Accreditation and Approval

The Goodwin College of Education is proud of its distinction of being nationally accredited (<https://www.neiu.edu/academics/daniel-l-goodwin-college-of-education/>) for its teacher preparation and school leadership programs by the Council for the Accreditation of Educator Preparation (CAEP) (<http://caepnet.org/provider-search/?tab=provider&state=IL#provresults>). As well, the college's excellent counseling programs are accredited through the Council for Accreditation of Counseling and Related Educational Programs (CACREP). Finally, the school social work specialization in the MSW graduate program is accredited by Council on Social Work Education.

Northeastern also has full approval for all of its undergraduate and graduate licensure programs for teachers, administrators, and school service personnel by the Illinois State Board of Education (ISBE). These licensure programs are:

- **Early Childhood Education (Birth - Grade 2)**
- **Administrative (PK-Age 21)** (Graduate level only)
  - Principal
  - Teacher Leader
- **Elementary Education (1-6)**
  - Self-Contained General Elementary Education
  - Self-Contained General Elementary Education with Bilingual Endorsement
- **Middle Level Education (5-8)**
  - Language Arts
  - Mathematics

- Science
- Social Studies
- **Literacy Education(PK-12)**
  - Reading Specialist (Graduate level only)
  - Reading Teacher
- **Secondary Education (9-12)**
  - English Language Arts
  - Mathematics
  - Social Science: History
  - Science: Biology
  - Science: Chemistry
  - Science: Earth Science
  - Science: Physics
- **PK-12 Programs**
  - Visual Arts
  - Music Education
  - Physical Education
  - Foreign Language: Spanish
- **Special Education (K-Age 21)**
  - Learning Behavior Specialist I (LBS I)
  - Learning Behavior Specialist (LBS II)
    - Behavior Intervention Specialist
    - Curriculum Adaptation Specialist
- **School Support Personnel (PK-Age 21)**
  - School Counselor (Graduate level only)
  - School Social Worker (Graduate level only)
- **Endorsements (PK-12)**
  - Bilingual/ESL option

## Undergraduate Majors

The Goodwin College of Education offers the following undergraduate programs:

- Community Health (E003) <sup>1</sup>
- Early Childhood Education (E113)
- Elementary Education (E100)
- Elementary Education with Bilingual Endorsement (E101)
- Human Resource Development (E004) <sup>1</sup>
- Middle Level Education (area of concentration in Language Arts or Mathematics or Science or Social Studies) (E170)
- Music Education PK-12 (F291)
- Physical Education PK-12 (E261)
- Spanish PK-12 (F276)
- Special Education (E320)
- Urban Community Studies (E119) <sup>1</sup>
- Visual Arts PK-12 (F206)

<sup>1</sup> In order to graduate, majors not seeking licensure must complete all the requirements for their academic programs and complete major declaration form.

## Undergraduate Minors

The Goodwin College of Education offers minor programs that supplement other academic programs offered at Northeastern Illinois University. These minors include:

### Educational Foundations

- Educational Studies (L020)

#### **Health Sciences and Physical Education**

- Health Promotion (L027)
- Exercise Science (L046)

#### **Human Resource Development**

- Human Resource Development (L034)

#### **Bilingual/Bicultural Education**

- Bilingual Endorsement minor (L052)

#### **Urban Community Studies**

- Urban Community Studies minor (L047)

## **Graduate Programs**

The Goodwin College of Education offers the following graduate programs:

#### **Master of Arts (MA) in:**

- Educational Leadership:
  - School Leadership
  - Higher Education
- Community and Teacher Leaders
- Couple and Family Counseling
- School Counseling
- Clinical Mental Health Counseling
- Rehabilitation Counseling
- Human Resource Development
- Urban Community Studies
- Literacy Education
- Special Education
  - Learning Behavior Specialist I (LBS I)
- Teaching: Early Childhood Education
- Teaching: Elementary Education
- Teaching: Middle-Level Education (areas of concentration in Language Arts, Mathematics, General Science, Social Studies)
- Teaching: Secondary Education (areas of concentration in English Language Arts, Mathematics, Social Science: History, Science: Biology/Chemistry/Physics/Earth Science)

#### **Master of Science (MS) in:**

- Special Education (LBS II):
  - Behavior Intervention Specialist (BIS)
  - Curriculum Adaptation Specialist (CAS)
  - Combined BIS-CAS
- Exercise Science
- Teaching and Inquiry

#### **Master of Public Health (M.P.H)**

(In collaboration with the MSW in the College of Arts & Sciences, we provide guidance and resources for the School Social Work specialization.)

#### **Focus Programs in:**

- Bilingual Education Endorsement
- Early Childhood (B-2)
- Elementary Education (1-6)

- Middle-Level Education (5-8)
- Secondary Education (9-12)
- Special Education (LBS I Endorsement) (K-Age 21)
- Health Education (9-12)
- Visual Arts (PK-12)
- Physical Education (PK-12)
- School Counselor (PK-Age 21)
- Reading Teacher (PK-12)
- Special Education (LBS II --Learning Behavior/Curriculum Adaptation-- Endorsement) (K-Age 21)

**Teacher Licensure Program (TLP) in:**

- Early Childhood Education (B-2)
- Elementary Education (1-6)
- Secondary Education (9-12):
  - English Language Arts
  - Mathematics
  - Social Science: History
  - Science: Biology
  - Science: Chemistry
  - Science: Physics
  - Science: Earth Science
- PK-12 Education:
  - Foreign Language: Spanish
  - Music Education
  - Physical Education
  - Visual Arts

**Certificate Program in:**

- Couple and Family Counseling
- Addiction Counseling
- Public Health
- Rehabilitation Counseling
- School Health
- Trauma-Informed Counseling
- Workplace Learning & Performance

**Cross Program Course Offerings in Education**

Cross Program Courses in Education (EDUC) are offered in the area of Educational Foundations.

**Educational Foundations Courses**

Code	Title	Hours
EDFN-302	Philosophical And Historical Foundations Of Early Childhood Education	3
EDFN-303	Early Childhood Development	3
EDFN-305	Philosophical And Historical Foundations Of Public Education	3
EDFN-306	Education And Individual Differences	3

Catalog descriptions of these courses are located in the Educational Foundations section of the catalog.

**Advisement**

**Undergraduate Programs**

The University Advising Center (<https://neu.edu/academics/advising-center/>) advises freshman and sophomores who have not yet declared a major. Students who are interested in becoming teachers should seek guidance from one of the Goodwin College of Education advisors according to the

program to which they are interested in applying. Please see contact and program information on the Goodwin College of Education Undergraduate Advisors List (<https://www.neiu.edu/academics/daniel-l-goodwin-college-of-education/advisors/>).

## Graduate Programs

Students who are interested in graduate programs, please see contact and program information on the Graduate Advisors List (<https://www.neiu.edu/academics/college-of-graduate-studies-and-research/graduate-advising/>).

## Declaring a Major

1. Candidates who have already been admitted to NEIU and are seeking to major in undergraduate programs offered at the Goodwin College of Education must complete a major declaration form after receiving approval from the program advisor. Transfer students who have been admitted to NEIU with 60 credit hours, and have met all general education and specialized content courses but have not met the minimum retention GPAs required by their NEIU academic major, will be approved for one semester of study in their academic major if it is possible to meet the retention requirements within the one semester of study.
2. A program may request an interview with any candidate or have any candidate meet with the respective Department Professional Standards Committee. That candidate's continuation, admission, retention, or graduation may be withheld until the candidate meets and complies with the Committee's recommendations.
3. A program may deny a student admission or retention based on information that indicates the candidate lacks professional judgment or has exhibited behavior that calls into question the student's suitability for the teaching profession. Any student denied admission or not retained in a graduate or graduate-level licensure program may appeal in writing to the Appeals Committee (AC) within ten days of receiving the determination. The student will send the written appeal to [gcoe@neiu.edu](mailto:gcoe@neiu.edu) with attention to the Associate Dean. Students enrolled in graduate programs will contact the College of Graduate Studies and Research to follow their procedures to appeal. The Dean of Students will be informed about these cases.
4. Prior conviction of certain felonies may preclude State Teacher Licensure. Candidates should contact the Licensure Officer at [cgcoe@neiu.edu](mailto:cgcoe@neiu.edu) before declaring a major in any licensure program. Prior conviction of certain felonies may also prevent placement in certain field experiences. Individuals must notify the Clinical Experiences and Student Teaching Office at [cstdept@neiu.edu](mailto:cstdept@neiu.edu) of felony convictions before placement in any field experience.
5. Candidates with degrees seeking licensure under Illinois House Bill 2207 must seek admission to the Teacher Licensure Program (TLP) for Post-Baccalaureate Students. These are separate processes. For requirements and advisement, contact the program advisor.

## Undergraduate Teacher Licensure Programs

The Goodwin College of Education offers the following programs that lead to licensure, which is required for teaching in the state of Illinois:

ECED (Birth – Grade 2)

ELED (Grades 1-6)

Elementary Education with Bilingual Endorsement

MLED (Grades 5-8 in ELA, Science, Math, Social Studies)

Physical Education

Special Education

---

## Graduation Requirements

To be eligible for graduation all candidates must:

- be admitted to the Program (Goodwin College of Education for undergraduate, and College of Graduate Studies and Research for graduate candidates)
- follow College retention policies (Goodwin College of Education for undergraduate students, and College of Graduate Studies and Research for graduate students)
- have a cumulative GPA of 2.50 and have a GPA of 2.75 or higher in all professional courses (some programs might have a different GPA requirement, please consult your program advisor). Grade of "B" or better in all Clinical Experiences and Student Teaching is required.
- successfully complete:

- required courses in the professional education sequence
- all requirements of their academic program
- all University graduation requirements

## Licensure Requirements

General Education and coursework Requirements: Undergraduate candidates pursuing teacher licensure are required to complete general education and professional coursework as specified by their respective programs. For further information concerning the general education requirements, candidates should consult with the Goodwin College of Education departments offering teacher licensure programs. All candidates in licensure programs at undergraduate or graduate (including TLP and Focus) level programs must meet all the State of Illinois current requirements pertaining to the specific endorsement(s) to be recommended for licensure through university entitlement by the Goodwin College of Education.

Compensated Student Teaching Policy: Per IL. School Code [ISBE Rule Section 25.620 f)] –see appendix I -- student teachers may be compensated for their services. Consult with your program advisor regarding the college policy allowing compensation in student teaching.

## Educator Licensure Information System (ELIS)

The State of Illinois requires that all candidates seeking endorsements in early childhood education, elementary education, middle-level education, secondary education, PK-12 programs, reading specialist, reading teacher, special education, school service personnel, or administrative endorsements must pass a series of examinations in order to be licensed. All candidates in licensure programs must also pass the Content Area Test (when applicable), for which endorsement is sought prior to receiving the authorization for any student teaching, practicum, or culminating internship.

Candidates seeking licensure in early childhood education, elementary education, middle-level education, secondary education, PK-12 programs, or special education (LBS I) must also pass the Teacher Performance Assessment (edTPA) during the student teaching experience. edTPA is only required for the initial licensure in Illinois. Subsequent or advanced endorsements do not require edTPA. Per ISBE Rules 25.127, the Goodwin College has approved an edTPA policy that includes a section on plagiarism and cheating on the edTPA. This section includes disciplinary actions. Additional information is available at edTPA Important Information. Per the Illinois School Code, this assessment has been paused as a licensure requirement until September 2025.

Additional information for these tests is available at ISBE Licensure Testing (<https://www.isbe.net/Pages/Educator-Licensure-Testing.aspx>).

---

# PROFESSIONAL STANDARDS FOR STUDENTS' ACADEMIC AND NON-ACADEMIC PERFORMANCE AND BEHAVIOR

## PREAMBLE

The Daniel L. Goodwin College of Education (GCOE) community is proud of its commitment to the exemplary professional preparation of P-12 educators, school and community leaders, counselors, and health and human development resource professionals. Central to this purpose is the guiding belief that professional practice in education and training should be reflective, collaborative, and personally and socially transformative.

Accordingly, GCOE candidates are expected to abide by certain academic and non-academic behaviors that align with this mission. Adherence to high standards of behavior enables candidates to have a positive influence on their colleagues and those individuals directly and indirectly impacted by their professional practice.

Therefore, the GCOE sets forth the following professional standards of academic and non-academic performance and behavior for students to observe and adhere to.

## OVERVIEW OF STANDARDS

The following professional standards for students' performance and behavior have been developed in line with all the University documents pertaining to academic and non-academic standards, which are included in Northeastern Illinois University's Academic Catalog, Student Handbook, and the Goodwin Clinical Experiences and Student Teaching Handbook.

The NEIU Academic Catalog and Student Handbook contain the following policies:

- Academic Conduct
- Americans with Disabilities Act (ADA)
- Crime Awareness and Campus Security Act
- Family Educational Rights and Privacy Act (FERPA)
- Grade Appeal
- NEIU Policy on Nondiscrimination

- National Voter Registration Act
- Oral Proficiency
- Policy on Drug and Alcohol Abuse
- Reasonable Accommodation of Religious Observances
- Sexual Misconduct
- Smoke-Free University Policy
- Student Conduct
- Student Grievance Policy
- Student Right to Know Act
- University Email

Additionally, students must adhere to academic and non-academic behaviors in accordance with the Daniel L. Goodwin Clinical Experiences and Student Teaching Handbook, the GCOE Diversity Proficiencies, and the GCOE Technology Proficiencies.

Finally, students are expected to adhere to the professional code of ethics governing their profession and department policies pertaining to academic and non-academic standards.

Students are to achieve the following standards in a satisfactory manner and timely fashion or risk a lower grade and/or removal from the professional degree, endorsement or licensure program. Students in GCOE courses are expected to abide by all policies and procedures contained in the Academic Catalog and Student Handbook, which cover academic and non-academic performance and behavior.

## **ACADEMIC STANDARDS OF BEHAVIOR**

- A. Students in the GCOE are expected to demonstrate and maintain a satisfactory level of academic competency in all courses and experiences pertinent to their profession.
- B. Students in the GCOE are expected to complete all required assignments as delineated in the syllabus and determined by the instructor's preference.
- C. Students in the GCOE are expected to demonstrate developmentally appropriate levels of proficiency in language skills (listening, speaking, reading, writing, spelling, handwriting, etc.) as commensurate with those required of the competent professional.
- D. Students in the GCOE are expected to demonstrate developmentally appropriate professional, affective, and physical competencies as necessary for their profession.
- E. Students in the GCOE are expected to demonstrate attentiveness, disciplined cooperation, interaction, and appropriately timed participation and civility.
- F. Students in the GCOE are expected to demonstrate awareness of all the information stated in the above NEIU, GCOE, and department documents, especially the NEIU Student Conduct Code pertaining to academic honesty, plagiarism, fabrication, and cheating.

## **NON-ACADEMIC STANDARDS OF BEHAVIOR**

- A. Students in the GCOE are expected to demonstrate fidelity to the NEIU Student Conduct Code regarding the creation of false information, forgery of documents, abusive/ threatening conduct, theft, possession/use/sale of narcotics, unauthorized possession of alcohol and weapons, harassment, etc.
- B. Students in the GCOE are expected to demonstrate dependability and punctuality at the University and in any related professional settings.
- C. Students in the GCOE are expected to interact with learners and clients within University courses and professional preparation experiences, both face-to-face and online, in a nurturing and appropriate manner.
- D. Students in the GCOE are expected to set a positive example by their dress. A student's appearance will be clean, neat, and conducive to the professional environment.
- E. Students in the GCOE are expected to maintain a professional identity on all searchable social media and refrain from making available media (e.g., pictures, video, text) that reflect poorly on their professional dispositions.
- F. Students in the GCOE are expected to adhere to the confidentiality practices of their profession by not sharing sensitive information or information protected under the Family Educational Rights and Privacy Act (FERPA) or Health Insurance Portability and Accountability Act (HIPAA) outside of a classroom setting or online.
- G. Students in the GCOE are expected to interact with mentors and other people in professional settings in a respectful manner, including receiving advice, feedback, and criticism of tasks performed.
- H. There will be no evidence of disruptive conduct as stipulated in the Student Handbook.

I. Students are expected to maintain consistent attendance and abide by the attendance policies established in each course syllabus.

J. Students are expected to communicate in a manner professionally appropriate to the subject matter and/or internship situation.

K. Students are expected to adhere to the University's value of diversity as stipulated in the Student Code of Conduct.

Certain provisions in these Academic and Non-Academic Standards of Behavior may not be applicable to every GCOE program. In addition, some programs within the GCOE may stipulate performances and behaviors above and beyond those described above as these pertain to standards for quality program preparation, licensure, and accreditation.

## PROFESSIONAL STANDARDS COMMITTEE PROCESS

The faculty and professional staff of the Daniel L. Goodwin College of Education (GCOE) will monitor students' adherence to the Academic and Non-Academic Standards of Behavior through the GCOE Disposition and Professional Behaviors Assessment and program or department-specific assessments.

The following procedures will be applied as needed. All involved parties will maintain appropriate levels of confidentiality throughout the application of these procedures.

1. The faculty or professional staff member observing a student's conduct or attitudes that fail to meet expected standards shall meet with the student/candidate directly to discuss these concerns. At this stage, the faculty member will clarify the expectations and may provide the student with a plan to remediate the concerns. The faculty member will summarize the plan in writing and inform the Department Chair about the incident. This communication is for progress monitoring purposes only, should other or similar concerns arise about the student at a later point in the student's program.
2. If the student does not follow his/her plan and/or concerns persist, the faculty shall complete an evaluation of the student's dispositions and professional behaviors and forward this assessment to the respective Department Chair. The faculty member may also provide additional written documentation of relevance to the student's case.
3. The Department Chair will refer to the reported incident to the Department's Professional Standards Committee (PSC) Chair requesting the PSC Chair to convene the PSC meeting.
4. The Department Chair shall inform the student in writing of the incident and the referral to the PSC within 3 working days. The Department Chair also will describe for the student the role and procedures of the PSC and the student's rights and responsibilities within the process.
5. The PSC and its designees shall investigate and review referred incidents. This review may include but may not be limited to (1) review of relevant documentation, (2) interview with the student(s) involved, (3) interview with the faculty or staff involved, (4) interview with other appropriate universities personnel.
6. Upon completion of the investigation, the PSC will render a written recommendation to the Department Chair regarding the student's academic status and standing in his/her program(s) within 3 working days. The recommendation may or may not include a remediation plan for the student's growth. If a remediation plan is recommended, the plan will include the specific action steps to be taken by the student along with deadlines by which these steps will be performed.
7. The Department Chair shall then render a determination of the student's academic status and standing in his/her program(s) within 3 working days. The Department Chair shall inform the student, the PSC Chair, the involved faculty or staff, and the appropriate Department Chair in other colleges of the University of his/her determination in writing.
8. The student, faculty, or staff may appeal to the Department Chair's decision to the Office of the Dean of the GCOE. The appeal must be initiated within 10 working days of the date of the Department Chair's notification.

## Communication

Per FERPA Rules, all communication from the Goodwin College of Education Admissions Office will be sent exclusively through Nmail, the NEIU email system. It is the candidates' responsibility to regularly check their NEIU email account. Failure to do so may cause the candidates to miss important information, including critical updates about program changes and deadlines. Also, per FERPA Rules all communication between NEIU employees and NEIU enrolled students must occur exclusively through the NEIU email system.

## Dean's List Requirements

The Dean's List recognizes undergraduate students in the Goodwin College of Education who have achieved academic success in the fall and spring semesters. Currently, there is no Dean's List recognition for TLP and graduate students.

Criteria for determining eligibility for the Dean's List:

- Major, including second majors, must have been declared by the start of the semester being awarded
- A semester GPA of 3.80 or higher for the semester being awarded

- Successful completion of six (6) or more credit hours with letter grades of A, B, C, or D
- Student may not have any incomplete grades

## CPDUs: Clock Hours of Professional Development Activity Policy

The Goodwin College of Education has been approved provider of CPDUs by the State of Illinois. Please contact the Goodwin College of Education Dean's office at [gcoecpdu@neiu.edu](mailto:gcoecpdu@neiu.edu) for further information about professional development opportunities.

## Kappa Delta Pi at Daniel L. Goodwin College of Education

The Goodwin College of Education students with a GPA of 3.50 or higher will be invited to join NEIU's Sigma Epsilon Chapter of the Kappa Delta Pi International Education Honor Society. Learn more about the advantages of membership in this International Society by visiting Kappa Delta Pi website (<http://www.kdp.org/>). For questions about the local chapter, please contact the Goodwin College of Education, Office of Dean, at [gcoe@neiu.edu](mailto:gcoe@neiu.edu).

## Teacher Preparation Candidacy Policy for Undergraduate Programs

Undergraduate students are considered candidates for teacher licensure when they have declared a major in one of the above areas, have earned at least 60 credit hours including grades of C or higher in professional sequence courses\*, and have a GPA of at least 2.5. Students should consult their academic advisors to determine whether they have met these requirements and are eligible to begin taking upper level program courses.

\*grades of C or higher are also required for content area coursework for middle-level licensure.

Once this eligibility has been met, the Goodwin College will enter the initial license in pre-completion status in the Educator Licensure Information System (ELIS). Students considered teacher candidates must create an ELIS account immediately. If this is the first time, they have created one by visiting: <https://www.isbe.net/Pages/Educator-Licensure-Information-System.aspx>.

Candidates should consult with program advisors if they have questions about how to create an ELIS account. Once a candidate has started taking courses in their teacher licensure program, they are expected to meet additional academic and dispositional standards, including, but not limited to, maintaining the GPA required by the program; completing applications and state-mandated tests; and meeting deadlines and expectations for clinical experiences.

## Undergraduate Non-Licensure Programs

The Goodwin College of Education provides non-licensure programs that prepare students seeking degrees to acquire knowledge and professional dispositions in various fields without obtaining a Professional License issued by the Illinois State Board of Education (ISBE). These programs are available in Human Resource Development, Urban Community Studies, Early Childhood Education Non-Licensure, Physical Education Non-Licensure, and Community Health.

## Retention Policies for Admitted Undergraduates

Once a student has declared a major (licensure and non-licensure tracks) in the Goodwin College of Education, they must maintain specific academic and professional standards to be retained within their academic program. These standards include maintaining the following:

1. A University cumulative GPA of at least 2.50 (on a 4.0 scale) is required for retention after completing sixty semester hours of undergraduate courses. Some programs may require a higher cumulative GPA.
2. A cumulative GPA of 2.75 (on a 4.0 scale) in professional courses and majors within the Goodwin College of Education. Students should check with their major advisor, as departmental requirements may vary. Some programs may require a higher cumulative GPA in professional courses and majors.
3. A "C" or better grade in professional education courses and majors within the Goodwin College of Education must be in good standing. 4. A "C" grade or better is required in ENGL-101 and ENGL-102 and college-level math, leading to NEIU math competency (at least three credit hours). All undergraduates must complete these requirements by the time they achieve junior status (60 credit hours) in their academic program.

**Students receiving a grade lower than "C" will be placed on academic probation by their programs and will not be permitted to do the major field experience, practicum, Internship, or student teaching. See specific program requirements for courses requiring a "B" or better.**

## Probation and Petition for Extension Procedures

Students will be placed on probation when they do not meet the minimum retention requirements of the Goodwin College or their program. The department chair or their representative (e.g., program coordinator/facilitator) will send a letter notifying the student that they have not met the retention requirements; therefore, the program will place the student on academic probation. Students are allowed one term (subsequently attended) while on probation to raise their cumulative GPA to 2.50. Students are permitted one term (during the next feasible semester) to retake a professional education course to earn a "C" or higher grade. Professional education courses can be retaken only once.

The Goodwin College of Education recommends that students take the following actions when on probation:

# Meet with their academic advisor before the Change of Registration period ends in the next semester the student enrolls.

# Meet at least three times per semester with the academic advisor.

# Utilize appropriate University and community support services.

By the end of the probation period, the Department Chair or their representative will notify the student in writing if the probation terms have been met. Students not meeting the probation terms will be dismissed from the program. Once the five-day petition for an extension period ends, the department chair will write to the university registrar about the dismissal.

## PETITION FOR AN EXTENSION OF THE PROBATION

If a student does not meet the terms of the probation and exceptional circumstances exist, the student may petition for an extension within five business days of being notified by the department chair that the terms of the probation have yet to be met. The student will write the petition to the Department Chair with attention to the Department Professional Standards Committee (DPS). The Department Chair will convene the DPS committee to consider the petition's merits. The Committee may request a hearing with the student. The Committee will render a decision in writing within 15 business days of receiving the petition. The committee chair will notify the student, the program advisor, the University Registrar, and the department chair about the decision. During the Summer term, the Department Chair will decide within 15 business days of receiving the petition to extend the probation period when the DPS members are unavailable.

## APPEAL PROCESS

If the Department Professional Standards Committee or the Department Chair during the Summer term denies an extension of probation, the student has the right to appeal in writing to the Associate Dean of the Goodwin College of Education within 15 business days after receiving the decision from the DPS committee using the following email: gcoe (gcoe@neiu.edu)@neiu.edu. The Associate Dean will consider the appeal and decide whether to approve or deny it. The Associate Dean's decision is final, and all parties will be notified of the outcome.

If requested by the Associate Dean, the ARA Committee will hold a hearing to discuss the merits of the appeal and make a recommendation. In all instances, the Committee will conclude and submit its recommendation in writing to the Associate Dean. Based on these recommendations, the Associate Dean will render a final decision. The decision of the Associate Dean shall be final. All parties will be notified.

## Grade Appeal Policy: Undergraduate Grade Appeal Policy

All students have a legitimate right to seek redress when they consider their final grade in an undergraduate course to be unreasonable, unjust, or capricious. This grade appeal procedure shall be initiated during the term immediately following the issuance of the grade in question; in cases involving special and unusual circumstances, this time period may be reasonably extended.

### Procedure:

1. The student should consult the faculty member who issued the grade for the reconsideration of the grade.
2. If, after seeing the faculty member, the student wishes to pursue the issue or if the faculty member is unavailable, he/she should then approach the faculty member's Coordinator or Department Chair and ask for an investigation of the grade appeal. At this time the student must present a written statement to the Coordinator or Department Chair explaining the reasons for believing the grade to be unreasonable, unjust, or capricious. The Department/Unit Head is responsible for consulting the parties involved, gathering all pertinent information, and for preparing a written statement of the facts which will be given to the student and faculty member and be used in reviewing the facts with the student and the faculty member. The Coordinator or Department Chair shall be responsible for:
  - either concurring with the faculty member that the grade should remain as recorded, or
  - suggesting to the faculty member that the grade be reviewed.
  - The student and faculty member shall be informed in writing of this conclusion. If the student believes the grade appeal has not been resolved satisfactorily, he/she may appeal the grade in writing to the appropriate dean.
3. If the Coordinator or Department Chair is the teacher of record, the student shall appeal in writing directly to the appropriate dean, instead of to the Department/Unit Head as in 2 above. The appropriate dean is the Dean of the College in which the academic department is located. The Academic Dean shall be responsible for requesting a written statement from the Coordinator or Department Chair. If the issue is not resolved to the student's satisfaction, the student may write to the Dean and request a hearing by the Grade Appeal Committee.
4. The Dean, in consultation with the Grade Appeal Committee, will review the statement prepared by the Coordinator or Department Chair. If the Dean believes the issue should be pursued, he/she will convene the Grade Appeal Committee for a hearing. If the Dean decides the issue should not be pursued, the grade remains as recorded. The decision of the Dean is final. All parties must be so notified
5. The Academic Dean will have a standing Grade Appeal Committee, to be selected each year, composed of five members as follows:

- Two faculty members and two alternates selected by the college assembly.
- Two student members with two alternates selected by the Student Senate.
- The dean of the college involved, or his/her representative.

6. The Grade Appeal Committee will investigate the case and hold a hearing in which the student, the faculty member, and the Coordinator or Department Chair shall be invited to participate. The Committee deliberations following the hearing will be confidential.

7. If the Committee decides the challenged grade is unreasonable, unjust, or capricious, it shall so recommend to the Dean, who shall have the power to change the grade from a letter grade to a grade of "P" (pass). The credits for this course will count toward undergraduate degree requirements. If the committee decides there is insufficient evidence to support the student's claim, it shall recommend to the Dean that the original grade should stand.

8. In all instances, the Committee will reach a conclusion and submit its recommendation in writing to the Dean, who shall render a written decision, copies of which shall be sent to the student and faculty member. The decision of the Dean shall be final.

## Miscellaneous Petition and Appeal Policy

### Introduction:

The Daniel L. Goodwin College of Education (GCOE) allows admitted students with unusual and/or extenuating circumstances to petition their case to the Associate Dean of the GCOE and the Admission, Retention, and Appeals (ARA) Committee. Individual exceptions to the published policies of the GCOE may be made only after following the submission of a written petition as established in this policy. Northeastern Illinois University and the GCOE reserve the right to make policy changes from time to time when necessary.

PLEASE NOTE: The Miscellaneous Petition and Appeal Policy is not applicable to any cases for which specific petition and appeal policies already exist (e.g., grade appeal).

### Before starting a petition:

The student should consult with his/her academic program representative (e.g., academic/faculty advisor, program coordinator, department chair) prior to initiating the petition process. This initial step ensures that a student is fully informed of the process prior to submitting a formal petition. Additionally, the program representative can offer student guidance regarding general petition information and necessary documentation/evidence.

### The Petition Process:

If the student wishes to pursue the petition process after consultation with the appropriate program/department representative, the student shall follow the required steps. First, the student shall write a formal letter detailing the nature and reason(s) for the petition and provide appropriate supporting documentation/evidence. Second, the student shall submit the written petition to the Dean's Office, to the attention of the Associate Dean, and include supporting documentation/evidence. The petition and documentation/evidence should be sent to COE@neiu.edu.

The Associate Dean shall determine the merit of the petition and, within 10-business days, inform the student if the petition was accepted or denied. If requested by the Associate Dean, the ARA Committee will hold a hearing to discuss the petition's merits and make a recommendation. In all instances, the Committee will write its recommendation to the Associate Dean. Based on these recommendations, the Associate Dean will render a decision. All parties will be notified.

### The Appeal Process:

The student has the right to appeal the decision of the Associate Dean or a decision made by a department chair for outcomes of petitions requested at department-level policies. If the student wishes to pursue the Appeal Process, the student has five business days after receiving the decision to initiate the process. The student shall follow the required steps. First, the student shall write a formal letter detailing the reasons for appealing the Associate Dean's decision or department chair. Second, the student shall submit the written appeal to the Goodwin College of Education Dean's office to the attention of the Dean, which must include supporting documentation/evidence. The petition and documentation/evidence should be sent to COE@neiu.edu. The Dean shall evaluate the appeal and render a decision to the student within 10 business days. The Dean may uphold the decision of the Associate Dean or the department chair or render a new decision. The decision of the Dean is final. The Department Chair, academic/faculty advisor, program coordinator, ARA chair, and Associate Dean will receive a copy of the Dean's letter.

## Credit for Prior Learning (CPL) Policy

### Section I: Illinois Board of Education Authorization to Approved Programs

#### A. Section 25.25 Requirements for the Professional Educator License

The Illinois Administrative Rules: Section 25.25 a) 2) A) states that applicants for a Professional Education License (PEL) shall *have completed an approved Illinois educator preparation program for the type of endorsement (i.e., teaching, administrative, or school support personnel) sought on the PEL (see Subpart C). (Thirty-two semester hours of content and pedagogy coursework, or a combination of experience and coursework, with at least 18 hours of content coursework (or its equivalent experience) specific to the endorsement sought, are required for teaching endorsements.)*

## B. ISBE Form 83-85: Verification of Individualized Pathway to Licensure

Educator preparation providers shall use this form when honoring prior learning assessments or other alternative means in place of coursework required as part of a licensure program. The form should be verified by the licensure officer or department dean and uploaded to the educator's ELIS account before program completion.

<https://www.isbe.net/Documents/83-85-Verification-Individualized-Pathways.pdf>

## Section II: Goodwin College of Education Internal Policy

### A. Credit by Portfolio Evaluation

At Daniel Goodwin College of Education, personal and prior professional experience and knowledge may be worth college credit via Credit for Prior Learning (CPL). Credit for Prior Learning (CPL) is academic credit awarded to students who successfully demonstrate college or university-level learning achieved through informal or formal learning outside of the classroom. CPL offers only one option, credit by portfolio development and evaluation. This policy applies to all approved licensure programs authorized by the State Board of Education at Northeastern Illinois University. A student may earn a maximum of 12 credit hours in the Professional Pedagogy Sequence by CPL evaluation; other courses required for the degree (i.e., General Education Requirements, minor requirements) or license do not qualify as part of this policy. No partial credit will be earned; hence the portfolio must demonstrate the equivalent experience for the total credit hours of the course. Only one attempt per course will be allotted via CPL. Students will pay a fee of \$100 per credit hour per portfolio before submission.

## Section III: Procedures for Requesting and Evaluating Credit for Prior Learning (CPL)

### A. Request Process

A student requesting Credit for Prior Learning (CPL) should consult the program coordinator or graduate advisor before formally initiating the process. Each course will be requested individually. To request CPL, the Student will follow these steps:

1. Submit an in-writing petition to the Associate Dean and a letter of support from the program coordinator or graduate advisor, specifying what course and a brief narrative with the equivalent experience to earn CPL. Send the petition and the letter of support to [gcoe@neiu.edu](mailto:gcoe@neiu.edu), with attention to the Associate Dean.
2. The Associate Dean will determine the petition's merits in consultation with the program. The Associate Dean will decide within ten business days of receiving the request. If the petition is approved, the student will continue with the next steps. If the petition is denied, the student has the right to appeal the decision to the Dean of the college in writing within five business days of receiving the decision. Send the petition to [gcoe@neiu.edu](mailto:gcoe@neiu.edu), with attention to the Dean.
3. Once the petition is approved, the student will pay a fee of \$100 per credit hour to the Office of Students Payment Services.
4. Once the payment has been processed, the candidate will receive a letter from the Associate Dean with further details about the portfolio submission electronically and the evaluation process.
5. If the student only would like to request waiving of clinical hours prior to student teaching related to field experience associated with a course (excluding student teaching) and not credit hours, submit a written petition to the Associate Dean and Licensure Officer explaining how their prior experience meets the hours required by the program. The student will include any documentation as evidence along with the letter. The Associate Dean and Licensure Officer will consult with the program coordinator and notify the student in writing if partial, full, or no waiver of clinical hours is approved. The request for waiving clinical hours must be submitted at least one semester before registering for the class. The Associate Dean will notify the decision within five weeks of receiving the request. The decision of the Associate Dean is final. The other sections of this policy do not apply to Section III, A5.

### B. Evaluation Process

The following steps shall be followed to submit and evaluate a portfolio:

1. In consultation with the department chair, the Associate Dean will identify a course syllabus and a program faculty with expertise in the area who agree to evaluate the portfolio. The faculty will receive a compensation of \$80 per credit hour for each portfolio.
2. The student will receive a copy of the course syllabus to demonstrate that their prior learning meets each course's objectives. Each portfolio component included in Section C of this part will be written around the course's objectives. The portfolio will be submitted electronically. The Dean's Office will send further instructions to the student on how to submit the electronic portfolio.
3. The student will meet with the faculty assigned as the evaluator to delineate an action plan for developing and submitting the portfolio. The action plan will include due dates and the final submission due date. The faculty will send a copy of the action plan to the Department Chair, the program advisor, and the Associate Dean. An action plan should not exceed ten weeks.
4. Once the portfolio is submitted, the faculty will render an evaluation within the next 13 business days. A rubric aligned with The Council for Adult and Experiential Learning (CAEL (<https://www.cael.org/>)) Standards will be used to evaluate the student's prior experience. No partial credit will be earned; hence the portfolio must demonstrate the equivalent experience for the total credit hours of the course and meet all the course's objectives.
5. Students who receive a positive portfolio evaluation will earn a grade of P in the course and the total amount of credit hours.

6. Students who receive a negative portfolio evaluation must register and pass the course to earn credit. Only one attempt per course will be allowed via CPL.

### C. Portfolio Components

A Portfolio comprises four major components around the course's objectives: *Course Narrative, Documentation, Autobiographical Essay, and Chronological Record.*

The Course Narrative describes the learning in detail and is often like a major term paper for a course. The narrative discusses theories, concepts, and corresponding literature, demonstrating the student's mastery of the subject area. The narrative must be well documented. Documentation supports the experiential statements in the narrative. Examples of supporting documentation are Job descriptions, letters from employers, certificates, work products like lesson plans, assessments, instruction videos, rubrics, transcripts, performance evaluations, and employee records.

Autobiographical Statement describes learning experiences and educational goals. It is a method for the students to introduce themselves to the faculty who will evaluate the portfolio, and it will establish a context of experiential learning. The autobiographical Statement should describe the values as a student and short- and long-term educational goals.

The Chronological Records include an account of each event that describes the student's learning experiences and circumstances. A Chronological Record lists the significant life experiences the student has had since they began working in the professional field.

## Clinical Experience and Student Teaching (CEST)

Programs that prepare candidates to obtain an Illinois Professional Educator License require students to participate in a variety of courses that include field-based experiences as required by State Law. These field-based experiences occur in public, charter, private, and parochial schools, child care centers, and community agencies, depending on the program of stud.. The Clinical Experiences and Student Teaching Office collaborates with school partners to identify a variety of diverse field sites for placements.

Candidates complete supervised field-based activities at these partner sites to develop a practical skill set and gain a deeper awareness of the knowledge, skills, and dispositions required of a practicing professional in the field. All field-based experiences are conducted under the supervision of a licensed teacher at the field site and a university supervisor. The candidate is evaluated by both.

## Office of Clinical Experiences and Student Teaching (CEST)

Catherine E. Wycoff, Director

### OVERVIEW

Clinical and student teaching experiences support the development of knowledge, skills, and dispositions future teachers require to educate diverse student populations. These are managed, assigned, supervised, and evaluated through the CEST Office. Design, implementation, and evaluation of field experiences are done in collaboration with faculty, staff, and school-based partners to provide optimum opportunities for the growth and development of candidates. Illinois state law requires those seeking an Illinois Initial Professional Educator License to complete field-based experiences which include student teaching. These must be completed while enrolled in a State Approved Program under the direct supervision of a teacher holding the appropriate teaching certificate/license and a university supervisor.

All field-based experiences are components of university courses and are completed at field sites selected solely by the university. One or more placements will be in diverse and/or urban settings. Field sites are selected to assure compliance with CAEP Standards, Illinois State Law, School District/School policies, procedures, and regulations, and NEIU policies and procedures. Processes or procedures may be altered in response to changes made by any of the aforementioned.

All clinical and student teaching experiences include a field-based component and university-based coursework and/ or a seminar. In addition, concurrent registration in other courses may be required. Students must demonstrate success in the field and with seminar and classroom course components. A candidate, who is successful in one, but not the other, will be unable to successfully complete the course, without exception.

### REQUIREMENTS

Multiple requirements must be met prior to participation in any course, other than EDFN courses, that includes a field-based component. These are listed below and apply to all candidates, including those pursuing a Focused Program of study to obtain a subsequent endorsement or an Illinois Professional Educator License.

1. GPA of 2.5/4.0 overall
2. GPA of 2.75/4.0 in all professional education courses and majors within the Daniel L. Goodwin College of Education
3. Grades of "C" or better in all professional education courses required within the licensure program being pursued
4. All "I" grades converted to grades of "C" or better in professional education and major courses
5. Evidence of freedom from tuberculosis and communicable diseases dated less than one year prior to the start of the semester for clinical students and within 90 days of the start of the semester for student teachers

6. Grade of "B" or better in all previous clinical experiences, unless the course is being re-taken for a second time
7. Any additional requirements established by the department or program in which the course is housed, or defined within a Remediation Plan
8. Evidence of completion of required Illinois State Police and Federal Fingerprint background check for pre-student teaching placement site.
9. Evidence of a successful LIVESCAN Illinois State Police and Federal Fingerprint Background Check less than 90 days prior to the start of the semester in which student teaching is taken
10. Successful completion of the Chicago Public School Field Experience Registration process
11. Successful completion of the Chicago Public School Student Teaching On-Line Application
12. Departmental approval
13. Evidence of passing the Illinois Licensure Testing System test for the appropriate content area prior to student teaching (Consult <http://www.il.nesinc.com> for dates, times, locations, and requirements.)
14. Attendance at the Goodwin College of Education Student Teaching Orientation prior to the start of the student teaching semester.

## COMMUNICATION

Per FERPA Rules, all communications from the CEST Office will be sent only through NEIU email.

### The Application Process:

**Mandatory CEST Clinical and Student Teaching Information sessions:** Candidates who intend to apply for a clinical/ student teaching experience must attend one **CEST information session**. Candidates may attend either a "live" clinical/student teaching information session or watch the recorded meeting through D2L. The information sessions explain application procedures, policies, expectations, timelines, and other related field experience matters. After candidates attend the "live" or recorded clinical/student teaching information session, they may submit their clinical/student teaching application. Students who do not attend an information session within the specified time frame must contact the Director of the CEST Office. This may result in a delay of their field experience.

**Application deadlines:** November (fall applications) and May (spring applications), one year in advance of the semester in which a clinical or student teaching course will be taken. Candidates will submit their clinical/student teaching applications electronically via D2L and Google. Candidates must submit a new clinical application for each clinical experience.

## REGISTRATION FOR COURSES WITH FIELD-BASED EXPERIENCES

Courses requiring field-based experiences require the following:

1. submission of application materials and other required items to the CEST Office by the established deadlines,
2. registration in the course(s) using regular university procedures during registration and payments made on schedule to assure that registration is maintained, and
3. final approval from the CEST Office and respective academic department to enroll/remain enrolled in associated courses based on a review of program requirements.

To be considered fully registered in a field-based course, the course must appear on the student's record in the official university student registration system. Those who are not fully registered into a course with field-based placements will not be permitted to report to a placement site. Candidates will be immediately removed from a field site and notified at the time the CEST Office becomes aware of removal from a course for non-payment or any other reason. Reporting to a placement site with knowledge of not being fully enrolled or after being terminated is cause for disciplinary action.

## ADMINISTRATIVE DROPS FROM FIELD BASED COURSES

Candidates will be administratively dropped by their academic department when prerequisites or requirements for courses, having field placements have not been fulfilled, for the following reasons: 1) when procedures have not been followed, 2) registration in required concurrent courses has not occurred, 3) student has been removed from their placement site by school administration or NEIU.

## PLACEMENT

Field placements are solely managed by the CEST Office. Placements are driven by CAEP Standards, Illinois State Law, school district or private school requirements, and availability of supervisors. As such, a placement site cannot be guaranteed. Placement at some sites is contingent upon completion of a successful interview with the administration and/or other staff as well as other requirements including but not limited to a successful background check, negative TB test results, and passing medical physical examination. In the event a candidate is unsuccessful in two interviews, no further attempts to place will be made.

## CHANGES IN PLACEMENT

Changes will not be made once a placement has been confirmed by a School/District. Unless given written permission by the CEST Office to do so, candidates may NOT contact schools or districts in attempts to secure a placement. This behavior is cause for disciplinary action, including potential removal from the program. Candidates who reject placements will not be placed until the next semester in which placements are made.

## CONFLICTS OF INTEREST

Placements will be made to assure that no conflicts of interest occur so that candidates receive an experience that is free of bias and external influence. Candidates will not be placed in schools they attended or where they serve on LSCs or school boards., Candidates also will not be placed in schools where family members or significant others attend, are employed, or, serve on school boards or LSCs.

## PLACEMENT SITE LOCATIONS

Placements will be made in diverse settings within a 25-mile radius of the NEIU Main Campus.

Field placement sites are selected to prepare teacher candidates to effectively teach students with special needs, newcomers, English Language Learners (ELLs), students in high needs schools, and students from varied racial, cultural, ethnic and socioeconomic groups. Every effort is made to provide candidates with a variety of experiences within the grade range required under the endorsement; however, this may not always be possible. All placements are made within the age/grade span covered on the endorsement under the Professional Educator License (PEL) candidates are seeking to earn as follows:

PEL Endorsement	Placement
Early Childhood Education	Birth-Grade 2
Elementary Education	Grades 1-6
Middle Level Education	Grades 5-8 (specific subject)
Secondary Education	Grades 9-12 (specific subject)
PK-12 Education Programs	PK-12 (specific subject)
Special Education	K-Age 21

## POLICY AND PROCEDURES TO REQUEST TO RETURN TO CLINICAL PLACEMENT SITE FOR STUDENT TEACHING

Teacher candidates may return to their clinical site for student teaching. Please note that a candidate may only return to their clinical placement site if the following criteria are met.

- The teacher candidate has had a minimum of one field experience in a diverse setting.
- The candidate receives student teaching placement approval from the respective school/school district to return to the clinical placement site.

During the third week of the fall/spring semester, the Director of Clinical Experiences and Student Teaching (CEST) will contact candidates via email and inquire as to whether they wish to return to their clinical placement site with the same cooperating teacher for their student teaching. Teacher candidates will have 10 working days to submit a written request to the CEST Director if they wish to return to a clinical placement site.

If a teacher candidate submits a written request to return to a clinical placement site for student teaching after the given deadline, the CEST Office will consider the request. However, if the teacher candidate already has pending placement requests or a confirmed alternative student teaching placement, the CEST Office will not attempt to place the teacher candidate at the requested clinical site. All pending or confirmed student teaching placements will be honored and only cancelled at the request of the respective school/district.

Please note that while a candidate may request to return to their clinical placement site for student teaching, the Clinical Experiences and Student Teaching Office cannot guarantee any placement site due to the complexity of the placement process.

If the teacher candidate is declined by the clinical placement site for student teaching, they will be informed by the CEST Office after the decline is received. The respective department chair will be copied on the email sent to the teacher candidate informing her/him of the student teaching placement decline. The CEST Office will immediately work on a different student teaching placement for the teacher candidate.

A teacher candidate who is asked to conduct their student teaching at a non-clinical placement site by a school administrator or teacher should inform the CEST Director by the fifth week of the semester prior to student teaching. In the written request, the teacher candidate should indicate how long they have known the cooperating teacher and in what capacity. The teacher candidate should copy their department chair on the email request sent to the CEST Director. The CEST Director and appropriate department chair will discuss the teacher candidate's request and a decision will be made as to whether the teacher candidate may conduct their student teaching with the requested teacher and/or school site. The CEST Director will inform the teacher candidate of this decision.

## Candidates conducting their clinical experiences and student teaching at their own school sites

Other teacher candidate may request to conduct their pre-student teaching clinical experience at their own school. The teacher candidate must contact the Director of Clinical Experiences and Student Teaching to make such a request prior to the submission of their CEST pre-student teaching clinical application. The teacher candidate must provide the required "School Administrator Agreement" form to their building principal and/or school district administration. The teacher candidate is responsible for obtaining the necessary signatures from school/district administration and a cooperating teacher

assignment in their licensure area for the pre-student teaching clinical experience. The candidate must submit their completed "School Administrator Agreement" form to the Director of Clinical Experiences and Student Teaching on or before the CEST clinical application deadline. The candidate is responsible for arranging with their school administration how to complete the required pre-student teaching clinical hours while a full-time employee.

A teacher candidate may conduct their second clinical experience at their place of employment provided they are assigned to a different cooperating teacher in their licensure area.

A teacher candidate may conduct his/her student teaching at their own school site provided they have the approval of their academic program and building principal and school district administration.

During the first three weeks of the fall/spring semester, the Director of Clinical Experiences and Student Teaching (CEST) will contact student teaching applicants via email and inquire as to whether they wish to conduct their student teaching at their own school site. Teacher candidates will have five working days to submit a written request to the CEST Director if they wish to conduct their student teaching at their own school site.

The teacher candidate will need to provide the "Student Teaching School Administrator Agreement" form to their building principal and/or school district administration. The teacher candidate is responsible for obtaining the necessary signatures from the school/district administration and being assigned to a cooperating teacher in their licensure area.. The candidate must submit their completed "School Administrator Agreement" form to the Director of Clinical Experiences and Student Teaching by the given deadline.

A teacher candidate conducting their student teaching at their own school site must take a leave of absence or resign from their position during the student teaching semester. A teacher candidate who wishes to receive compensation from their school site during student teaching may submit a petition to do so. To have their petition considered, the student teacher must follow the directions on the policy available on the Goodwin College of Education website at this LINK (<https://www.neiu.edu/sites/default/files/documents/2022/06/29/Paid%20student%20teaching%20policy%20Fall%202022.pdf>) .

## PLACEMENTS OUT OF AREA

Candidates may submit a written request for the Director to grant permission to complete student teaching as guest student at another CAEP accredited institution in the event of a move out of the area. Such situations generally occur due to a move out of state with student teaching the only class left for completion. If permission is granted, the candidate registers at NEIU and pays tuition and fees and the Director defines procedures for supervision and evaluation. The candidate usually incurs additional fees to be paid to the host institution directly.

### STUDENTS SEEKING A SUBSEQUENT ENDORSEMENT

Illinois State Law allows those possessing a current Illinois Teaching License to obtain one or more subsequent teaching endorsements by pursuing a focused program of study. The configuration of clinical experiences and student teaching required will be based on the results of an evaluation of credentials and professional teaching experiences.

These students will apply and be processed individually consistent with the law and in accordance with NEIU policies and procedures.

## TB TEST

NEIU requires clinical students and student teachers to provide evidence of freedom from communicable diseases, including tuberculosis. Such evidence shall consist of a tuberculin skin test (TB Test) (NEIU Health Services requires Mantoux) and, if appropriate, an X-Ray, made by a physician licensed in Illinois or any other state to practice medicine and surgery in all its branches, an advanced practice nurse who has a written collaborative agreement with a collaborating physician that authorizes the advanced practice nurse to perform health examinations, or a physician assistant who has been delegated the authority to perform health examinations by his or her supervising physician not more than 90 days preceding the start date. T.B. Test may be obtained at no cost from the NEIU Health Services Department ((773) 442-5800, Room E-051).

Those tested outside of NEIU must present their results to the NEIU Health Services Department and receive a Tuberculosis Test Report Form. The student then brings this form to this office.

A TB test may be obtained in the Health Services Office or from a health provider outside the university.

## PHYSICAL EXAM

Candidates may have to complete a physical exam. Illinois School Code, 105 ILCS 5/24-5) (from Ch. 122, par. 24-5) identifies the need for new employees, including *student teachers*, to provide evidence of physical fitness to perform the duties assigned and freedom from communicable disease. It will be the student teacher's responsibility to comply with the Illinois School Code physical exam requirements if requested by a hosting school district/ school during your student teaching assignment.

In accordance with the Illinois School Code (105 ILCS 5/24-5 (a) and (b)):

- (a) *In this Section, "employee" means any employee of a school district, a student teacher, an employee of a contractor that provides services to students or in schools, or any other individual subject to the requirements of Section 10-21.9 or 34-18.5 of this Code.*
- (b) *School boards shall require of new employees evidence of physical fitness to perform duties assigned and freedom from communicable disease. Such evidence shall consist of a physical examination by a physician licensed in Illinois or any other state to practice medicine and surgery in all its*

branches, an advanced practice nurse who has a written collaborative agreement with a collaborating physician that authorizes the advanced practice nurse to perform health examinations, or a physician assistant who has been delegated the authority to perform health examinations by his or her supervising physician not more than 90 days preceding time of presentation to the board, and the cost of such examination shall rest with the employee. A new or existing employee may be subject to additional health examinations, including screening for tuberculosis, as required by rules adopted by the Department of Public Health or by order of a local public health official. The board may from time to time require an examination of any employee by a physician licensed in Illinois to practice medicine and surgery in all its branches, an advanced practice nurse who has a written collaborative agreement with a collaborating physician that authorizes the advanced practice nurse to perform health examinations, or a physician assistant who has been delegated the authority to perform health examinations by his or her supervising physician and shall pay the expenses thereof from school funds.

## BACKGROUND CHECKS

Teacher candidates must be aware that the Illinois School Code (ILSC 5/10-21.9) requires school boards to conduct a criminal background investigation on applicants for employment. This law also prohibits the employment of any person who has been convicted of committing or attempting to commit any one or more of a number of offenses. At present, offenses include:

- first degree murder;
- any Class X felony;
- juvenile pimping;
- soliciting for a juvenile prostitute;
- exploitation of a child;
- obscenity;
- child pornography;
- harmful material;
- criminal sexual assault;
- aggravated criminal sexual assault;
- criminal sexual abuse;
- aggravated criminal sexual abuse;
- offenses set forth in the Cannabis Control Act, and
- crimes defined in the Illinois Controlled Substances Act.

Employment must be denied where the offenses and/or conviction occurred inside or outside the state of Illinois.

In addition, convictions related to certain offenses, other than those listed in Section 21B-80 of the School Code [105 ILCS 5/21B-80] that result in automatic revocation or *denial of licensure*, may lead to denial of licensure if they demonstrate that the applicant is not of good character as required by Section 21B-15 of the School Code. Accordingly, each applicant for the issuance, registration, or renewal of an Illinois professional educator license, educator license with stipulations or substitute teaching license or for the addition of another credential (e.g., endorsement, approval, designation), including any credential issued under Subpart G of this Part, shall be required to indicate on the relevant form whether he or she has ever been convicted of a felony or of any sex, narcotics, or drug offense (whether felony or misdemeanor) in Illinois or any other state.

The Daniel L. Goodwin College of Education requires LIVESCAN Illinois State Police and Federal Fingerprint Background Checks of those registering to complete *field-based experiences*. Students may be subject to multiple checks if enrolling or participating in a field experience where an additional background check is required.

The Daniel L. Goodwin College of Education requires LIVESCAN Illinois State Police and Federal Fingerprint background checks of those registering to complete *student teaching* less than three months prior to the start of the semester in which student teaching is taken.

## CLINICAL AND STUDENT TEACHING CALENDARS

All courses requiring students to complete field-based clinical components are University courses and follow the University calendar. Pre-student teaching clinical students may not begin at their placement site until they have had their first on-campus clinical course after the official start of the semester. Clinical students follow the calendar of NEIU, not their placement site, with respect to holidays and vacations.

Student teachers begin and end on the first and last day of the NEIU semester as published in the University Schedule. Students may not report to a school to begin student teaching before the official first day of the NEIU semester, without written approval of the principal/school district and the CEST Director.

During the student teaching period, the student-teacher follows the calendar of the school/district, not NEIU, with respect to holidays and vacations. Those planning to student teach in the Spring semester must not plan travel or vacations in advance of receiving a confirmed student teaching assignment. If advance plans are made and conflict with school/district Spring Vacation times, travel plans will need to be altered. Teacher Candidates who plan vacations in advance of knowing the school district calendar risk being unable to complete their plans as scheduled if the vacation period conflicts with the school/district calendar.

## PRE-STUDENT TEACHING CLINICALS: SCHEDULING

Pre-student teaching clinical experiences are scheduled at dates and times mutually agreed upon between the teacher candidate and the school/site cooperating teacher(s) and/or administration. These will be planned between the start and end dates of the semester and only after being assigned to a placement site by the CEST Office.

Candidates must conduct their clinical hours at a school in no less than half day increments. Additionally, clinical candidates should plan to be at their clinical site more than one day a week throughout the semester.

Pre-student teaching clinicals may not be completed sporadically or clustered into a two or three week period.

Pre-student teaching clinical students must create a written schedule for the completion of their required clinical hours. This schedule must include the dates and times the clinical student will be at their placement site during the semester. It must be presented to and approved by both the cooperating teacher(s) and university supervisor within two weeks of the start of the semester. Clinical students must adhere to this schedule throughout the semester. Any changes to the schedule must first be approved by the cooperating teacher and university supervisor in writing.

Pre-student teaching clinical students must plan other coursework, work, personal, and family obligations in a way that allows sufficient time to travel to and from the site, fulfill clinical expectations at the site, and complete any associated requirements such as research, lesson planning, and other work required outside of the placement site.

Scheduling conflicts for seminars and other University-based activities may occur as a result of variations in holiday, break, or vacation periods of schools/districts and NEIU, and/or variations among the school/district calendars of the students under the supervision of a single supervisor and/or seminar leader. Conflicts will need to be discussed with the supervisor who may or may not make an accommodation.

The supervisor or the candidate may seek assistance from the CEST Director to resolve such matters. Nothing in this section should be construed to suggest that matters will automatically resolve as the teacher candidate desires because the University is responsible to maintain program integrity.

## SEMINARS

All clinical and student teaching courses include a class seminar held on or off campus. Dates and times are published in the University Schedule for the semester. Seminars begin during the first week of classes and continue throughout the semester.

Seminars follow a defined syllabus and complement the field-based component of the course. The syllabus includes specific content to be learned. Written and other assignments also are required. Discussions will include reflections about the field-based experience and progress toward becoming a professional educator.

Seminars may be conducted by the same person supervising the clinical student/student teacher and may include teacher candidates supervised by multiple supervisors. In this case, the final grade will be determined collaboratively by the supervisor and the seminar leader. Supervisors who are not seminar leaders may need to schedule additional meetings with those being supervised if deemed necessary.

## STUDENT TEACHER ORIENTATION

The Student-Teacher Orientation is **mandatory**. Student teachers who fail to attend may be prohibited from student teaching during that semester. Additional professional development days may be scheduled at other times during the semester in which student teaching occurs and attendance is required.

Student teachers who are full-time teachers and teaching in their own classroom as permitted by law may request an exemption from attendance at the Student Teacher Orientation only if the event conflicts with the school work calendar.

Additional days may be scheduled during the semester, as deemed necessary by the Daniel L. Goodwin College of Education and/or CEST Director.

## EVALUATION

The university supervisor assigns a final grade with input from the cooperating teacher(s). A teacher candidate must be successful in the field-based component to successfully complete any course requiring a component regardless of the quality of work in the non-field based component of the course. Failure to successfully complete non-field based work or assignments will negatively impact a course grade.

A grade of "A" or "B" must be earned in a pre-student teaching clinical course to enroll in a subsequent course requiring a field-based clinical component, and in student teaching to be entitled to receive an Illinois Professional Educator License. Student teachers receiving a grade of "C" or "D" will not be entitled to Illinois Licensure but may be eligible for graduation.

A Teacher Candidate who is unable to complete a field-based component of a course within the semester due to an extenuating circumstance may request to receive an "I" grade (Incomplete Grade Policy). When an "I" grade is issued, an Incomplete Contract will be developed to define the requirements, procedures, and timelines to be followed. Deviations from this contract minimally require the written approval of the academic program and CEST Director. Lack of success in the placement is not cause to issue an "I" grade.

The Teacher Candidate may appeal a final grade in accordance to University Policy, see Student Handbook.

## RE-ENROLLMENT IN A CLINICAL COURSE OR STUDENT TEACHING

Those earning less than a "B" in any course requiring a field-based component must submit a written appeal to the chair of their respective academic department. The chair will then forward the appeal to the department's professional standards committee (PSC). The PSC will review the teacher candidate's appeal to determine eligibility to re-enroll in the course. Re-enrollment in a field experience course will not be permitted in the semester following the candidate's first attempt at a clinical or student teaching experience. If allowed to re-enroll in a clinical or student teaching course, the teacher candidate will have a remediation plan.

## INTERRUPTED PLACEMENTS

Interruptions in placements may occur due to changes in staffing at the school or personal or health issues. When the placement is interrupted due to unexpected changes in staffing at the site or for some other reason beyond control of the university or the candidate, a new placement site will be secured within the semester.

## SELF-SELECTED TERMINATION

Those who self-select to terminate a clinical experience or student teaching are required to discuss this matter with the University supervisor and CEST Director prior to making a final decision or notifying their cooperating teacher and school site.

A final decision to self-terminate a clinical experience or student teaching must be submitted to the CEST Director in writing prior to notifying the placement site and cooperating teacher. Teacher candidates who self-terminate are responsible to withdraw from the course in accordance with University procedures and according to timelines printed in the University Schedule. Standard university timelines and procedures influence grading and ability to recover tuition and fees.

Teacher candidates who self-terminate may submit a letter of appeal to the respective academic program and/or department for permission to reapply in a future semester provided the self-termination was not done to avoid remedial or disciplinary actions resulting from deficiencies in knowledge, skills, and/or dispositions. The respective department's PSC will review and make a decision as to whether to allow the candidate to re-enroll in the clinical or student teaching course. Candidates who self-terminate will not be allowed to re-take the respective clinical/student teaching course in the subsequent semester. A candidate who receives PSC approval to re-enroll in a clinical/student teaching course typically will have an action/remediation plan.

A teacher candidate who self-terminates without discussing the matter with the University Supervisor and without submitting a written notice to the CEST Director may receive a "F" in the clinical/student teaching course, be referred to the respective academic department's professional standards committee, and/or dismissed from the academic program.

## TERMINATED PLACEMENTS

Placements may be terminated due to a lack of candidate success in the field experience. A request to terminate any field-based clinical/student teaching experience may be initiated by the University supervisor, cooperating teacher, school/site administrator, the academic program, CEST Director, or other NEIU faculty or administrators.

If asked to leave a field experience placement by the placement site/school district, cooperating teacher, or NEIU, the teacher candidate will receive an automatic "F" in the respective clinical/student teaching course and will not be given a new placement or allowed to continue his/her field experience within the same semester. The teacher candidate also may be referred to his/her respective academic department's professional standards committee and/or dismissed from his/her academic program.

If a teacher candidate is asked to leave his/her field experience placement, he/she may not have any further communication with the school administration, the cooperating teacher, school staff, or students at the school. If the teacher candidate does so, he/she may be referred to his/her respective academic department's professional standards committee and/or dismissed from his/her academic program.

Candidates who are removed from the field experience site may submit a letter of appeal to the respective academic program and/or department for permission to reapply in a future semester. The respective department's PSC will review and make a decision as to whether to allow the candidate to re-enroll in the clinical or student teaching course. A candidate who receives PSC approval to re-enroll in a clinical/student teaching course may not do so in the semester following his/her first attempt at the respective field experience course. If allowed to re-enroll in a clinical or student teaching course, the teacher candidate will have a remediation plan.

Candidates who do not successfully complete a second field-based clinical/student teaching experience will not be permitted to complete the program.

## CAUSES FOR REMOVAL

The following is a representative, not exhaustive, list of events that are generally considered serious enough to warrant removal from a placement site by the supervisor, cooperating teacher, or site administration:

- failure to abide by school/school district or NEIU regulations and policies
- frequent absences and tardiness (regardless of reason)

- completing personal work at the school site
- leaving the building, classroom, or assignment area without authorization
- inappropriate interactions with students, teachers, school staff, parents
- verbal or physical abuse
- fighting
- falsification of time sheets by failing to sign in/out at actual times
- failure to sign in/out
- multiple changes of clinical schedule
- failure to submit lesson plans in advance
- failure to develop adequate lesson plans
- failure to complete/submit items to CT or US on schedule
- lack of content knowledge
- sleeping
- inability to cope with the demands of teaching
- lack of appropriate and professional dispositions as determined by the CT and/or US
- failure to implement directions and/or suggestions for improvement
- disruptive to classroom or school (e.g. misuse of cellphone and social media)
- failure to abide by the school/school district's technology policies
- failure to return student grading by given deadline
- failure to meet the expectations and requirements of the candidate's action/remediation plan

## LEVELS OF CLINICAL/STUDENT TEACHING SUPPORT AND SUPERVISION

The Goodwin College of Education provides extensive support and supervision of teacher candidates participating in clinical experiences and student teaching. Support and supervision are provided at three levels: course, program and college.

### LEVEL 1: Clinical Performance Alert Meeting

University supervisors are responsible for supporting and supervising clinical students and student teachers for the purpose of enhancing their content and pedagogical knowledge and professional dispositions and ensuring that all licensure requirements are met. University supervisors are expected to address issues related to course performance, such as tardiness, absences, missing assignments, grades, and class participation. University supervisors also are responsible for identifying and addressing areas for improvement related to performance at placement sites (for example, lesson planning, classroom management, professional dispositions, attendance, instructional delivery and receptiveness to feedback). When appropriate, university supervisors will ask cooperating teachers to participate in discussions about areas for improvement and, in some cases, the creation of an informal improvement plan. University supervisors are expected to apprise program coordinators when the issues that they have identified have the potential to impede a candidate's normal progress toward the completion of the clinical/student teaching experience. In these situations, program coordinators may be invited to participate in discussions with candidates to provide additional support and guidance.

### LEVEL 2: PROGRAM

In some instances, teacher candidates may experience significant issues in their clinical/student teaching experiences. For example, candidates may not improve their performance after a Level 1 intervention in a way sufficient enough to meet professional expectations for program completion. Alternatively, they may be informed that they are in danger of being removed from a placement site because their behavior and/or performance is not meeting professional expectations.

When the issues are significant, a *Program Performance Alert* will be completed by the university supervisor, cooperating teacher, program coordinator, and/or Director of the Clinical and Student Teaching (CEST) Office. *The Program Performance Alert* will provide details about the nature of the concerns and any evidence to support the claims, including completed assessments. The alert and all evidence will be submitted to the CEST Office, the appropriate program coordinator, and the chair of the department. Within five (5) working days of the submission of the *Program Performance Alert*, the program coordinator or department chair (in cases where the program coordinator is the initiator of the alert or not available) will schedule a meeting to discuss the issues and determine an appropriate response. The participants in the meeting will be the teacher candidate and the university supervisor, the program coordinator and/or department chair, the Director of the CEST Office, and at least one program faculty member. Program advisors, other program faculty members, and school personnel may be invited by the program coordinator and/or department chair to provide relevant information and perspective. If the teacher candidate does not respond to the meeting invitation or does not attend the meeting, they will be terminated from their field experience, initiating a Level III intervention by the Associate Dean.

The meeting to discuss the *Program Performance Alert* and determine a resolution will be held within ten (10) working days of its initial submission. The program coordinator or department chair will lead the meeting. No later than five working days after the *Program Performance Alert* meeting, the program coordinator or department chair will communicate the program response and proposed resolution to the teacher candidate and the CEST Office director. While candidates await a *Program Performance Alert* meeting and resolution, they should attend the courses in which they are enrolled

and continue to participate in activities at their placement site, unless explicitly directed not to by their university supervisor, program coordinator or department chair.

Three outcomes are possible from a Level 2 *Program Performance Alert* meeting. First, the program may decide to allow the teacher candidate to proceed with their clinical experiences or student teaching, but only under the terms of a formal Professional Improvement Plan. *Professional Improvement Plans are developed by the program coordinator or department chair in collaboration with the other participants in the Program Performance Alert meeting.* Program Improvement Plans will be communicated to teacher candidates and the CEST Office within five (5) working days of the *Program Performance Alert* meeting. Professional Improvement Plans will identify a) areas in need of remediation, b) professional development activities and timelines, c) outcomes expected and/or deliverables, d) assigned roles and responsibilities, and e) future actions or steps to be taken. Within two working days of receiving their Professional Improvement Plans, teacher candidates must sign and return them to their program coordinators or department chairs and the CEST Office. If the teacher candidate does not do so, they will be removed from their field experience, initiating a Level III intervention by the Associate Dean. University supervisors will review Professional Improvement Plans with teacher candidates and cooperating teachers to ensure that everyone is fully aware of the activities, timelines and outcomes expected.

A second possible outcome from a *Program Performance Alert* meeting is that the program may request immediate withdrawal from the clinical/student teaching course and placement and at the same time approve a Professional Improvement Plan that includes an opportunity to repeat the clinical/student teaching course and experience at a time jointly agreed to by the CEST Office and the program coordinator or department chair. Within five (5) working days of the *Program Performance Alert* meeting, the program coordinator or department chair will 1) consult with the Associate Dean of the Goodwin College of Education to ensure that all communications about the decision adhere to college and university policies for withdrawals, and 2) prepare and communicate a Professional Improvement Plan that has the components listed above but also explicitly identifies any intermediate steps, such as the completion of additional coursework or the completion of additional clinical experiences, that must be completed prior to the repetition of the experience. The Professional Improvement Plan will be communicated to the teacher candidate, the CEST Office, and the GCOE Associate Dean. The program coordinator or department chair will indicate in their communication that a W grade is to be given for the course. University policy regarding withdrawals will determine the tuition and fees due for the withdrawal. Requests for waivers of university tuition and fee charges will not be accepted through the program, department, or the Goodwin College of Education.

A third possible outcome is that the program may terminate the clinical/student teaching placement and recommend the teacher candidate for dismissal from the program. Typically, these decisions are the product of the teacher candidate's failure to fulfill Professional Improvement Plan requirements or the program's inability to identify effective remediation measures. Termination and dismissal decisions will be communicated by the program coordinator or department chair to the teacher candidate, the CEST Office, and the GCOE Associate Dean. The communication will explain the rationale for the decision and will require the candidate to immediately cease all communications with and activities at the placement site and in the clinical experience/student teaching courses. The program coordinator or department chair will describe any impacts on the student's grade or ability to complete the course and will explain that they are referring the recommendation for dismissal to the department's Professional Standards Committee. The dismissal recommendation will then be considered and reviewed, as outlined in the Professional Standards for Academic and Non-Academic Performance and Behavior section of the NEIU Academic Catalog.

### **LEVEL 3: COLLEGE**

Although it is rare, placements for clinical experiences and student teaching are sometimes terminated. Typically, termination occurs when a school site decides that it is no longer able to support and supervise a teacher candidate due to extraordinary dispositional or performance shortcomings. Less frequently, the Office of Clinical Experiences and Student Teaching decides to terminate placements because it receives substantial evidence that the supervision and support of teacher candidates at their placement sites is inconsistent with licensure rules or expectations of the Goodwin College of Education.

The Associate Dean or their designee will inform teacher candidates in writing when their placement has been terminated. Teacher candidates are required to immediately cease all communications with and activities at the placement site. They may continue to attend all required classes while the termination decision is reviewed.

The Associate Dean of the Goodwin College of Education leads the process to review terminations from clinical experiences and student teaching. The Associate Dean or their designee (e.g., the Director of Clinical Experiences) will collect completed assessments, observation reports, notes, emails, and other evidence and request any additional written documentation of the events, activities or behavior that led to the termination. University supervisors, cooperating teachers, and other school and university personnel with direct knowledge of the reasons for the termination are expected to cooperate with the investigation and may be asked to complete key assessments that are missing or unavailable. Evidence that the teacher candidate has not ceased all communications with and activities at the placement site also will be considered as part of the investigation, should such evidence emerge.

Within ten (10) working days of the termination, the Associate Dean will schedule a meeting to discuss the termination and determine appropriate next steps. The participants in the meeting will be the teacher candidate and the university supervisor, the program coordinator, the department chair, and the Director of Clinical Experiences. Program advisors, other program faculty members, and school personnel may be invited by the Associate Dean to provide relevant information and perspective.

The Associate Dean will lead the meeting to review the termination of the placement. No later than five working (5) days after it is held, the Associate Dean will communicate the college response to the termination. Three outcomes are possible.

First, the Associate Dean may determine that the teacher candidate is not substantially responsible for the termination. The Associate Dean will explain in a written communication to the teacher candidate, the program, the department and the Office of Clinical Experiences and Student Teaching what is required to obtain a new placement within the current semester (if possible) or repeat the required course and placement in the following semester. The Associate Dean will advise the teacher candidate about how to withdraw from courses, if needed. University policy regarding withdrawals will determine the tuition and fees due for the withdrawal.

Second, the Associate Dean may determine that the teacher candidate is substantially responsible for the termination, but the areas of concerns are remediable. With input from the program and department, the Associate Dean will communicate and approve a Professional Improvement Plan that will allow the teacher candidate to repeat the required courses and experiences in a future semester if outcomes and deliverables are met. The Associate Dean will explain what is required to withdraw from courses associated with the terminated placement and will advise as to whether a grade of W or F will be given. The grade determination will depend on the timing and the level of responsibility that the Associate Dean assigns to the student for the termination. The communication of the decision will be sent to the teacher candidate, the program, the department and the Office of Clinical Experiences and Student Teaching.

A third possible outcome is that the Associate Dean may dismiss the teacher candidate from the teacher licensure program. If a dismissal decision is recommended, the Associate Dean will communicate it to the teacher candidate, the CEST Office, the program, and the department. The communication will explain the rationale for the decision and any impacts on the student's grade or ability to complete the course.

Should teacher candidates wish to appeal the dismissal decisions of the Associate Dean, they should follow the process outlined in the subsection of the Academic Catalog entitled "The Appeal Process," within the larger section entitled Miscellaneous Petition and Appeal Policy of the Goodwin College of Education.

## **OBTAINING AN INITIAL ILLINOIS PROFESSIONAL EDUCATOR LICENSE**

Successful completion of one of the teacher preparation programs on the Daniel L. Goodwin College of Education entitles one to obtain an Illinois Professional Educator License (PEL). Applications and procedures are available under the Goodwin College of Education Webpage: Teacher Licensure. For additional information about licensure, please contact [coe@neiu.edu](mailto:coe@neiu.edu). The CEST office does not work directly with this process.

Those who meet the requirements for additional endorsements will have them added at the time the License is processed. An application for additional endorsement is available in the Daniel L. Goodwin College of Education Dean's Office (LWH 4040) and online at Teacher Licensure. Candidates must submit this form online. While NEIU informs the State of those entitled to receive a license, the License is issued by the State, and regulations for maintaining and renewing it are governed by the State. Illinois licensure laws and procedures are online (<https://www.isbe.net/Pages/Educator-Licensure.aspx>).

## **INSURANCE**

Accidents or unforeseen health challenges may occur at any time. Teacher Candidates are especially vulnerable due to contact with large numbers of people. Students completing field-based clinicals/student teaching are strongly encouraged to have their own health insurance which covers medical services, ambulance transportation, mental health services, and prescription needs whether purchased through NEIU or a private provider.

## **LIABILITY**

Pursuant to Illinois law, the school district must provide NEIU Teacher Candidates with liability protection as is provided to regular employees of the district. See 105 ILCS 5/10-20.20 and 105 ILCS 5/10-22.3.

# Counselor Education

---

The Department of Counselor Education has been offering Master of Arts in Counseling programs in preparing professional counselors for over forty years. Students are attracted to our counseling program because it is a terminal degree leading to a career in counseling with a foundation that is both theoretical and applied. Our faculty models this orientation with scholarly activities and a strong emphasis in the applied. Most of the Counselor Education faculty have many years of work experience in the field as professional counselors and psychologists providing services to children, youth, and adults in individual, couples, and family counseling. The Counselor Education programs are nationally accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP).

## The Department of Counselor Education Counseling Programs

**CLINICAL MENTAL HEALTH COUNSELING, M.A.** (<https://www.neiu.edu/academics/college-of-education/departments/counselor-education/clinical-mental-health-counseling-ma/>)

- 60-credit hour program
- Accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP)
- Eligible for Illinois licensure: Licensed Professional Counselor (LPC) and Licensed Clinical Professional Counselor (LCPC)
- Eligible for the Certificate in Clinical Mental Health Counseling (CCMHC) upon completion of required post-degree clinical experience and supervision

**FAMILY COUNSELING, M.A.** (<https://www.neiu.edu/academics/college-of-education/departments/counselor-education/family-counseling-ma/>)

- 60-credit hour program
- Accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP)
- Eligible for Illinois licensure: Licensed Professional Counselor (LPC) and Licensed Clinical Professional Counselor (LCPC)
- Eligible for Illinois Licensure: Associate Licensed Marriage & Family Therapist (ALMFT) and Licensed Marriage & Family Therapist (LMFT)
- Eligible for the Clinical Fellow credential of the American Association for Marriage and Family Therapy upon completion of required post-degree clinical experience and supervision

**SCHOOL COUNSELING, M.A.** (<https://www.neiu.edu/academics/college-of-education/departments/counselor-education/school-counseling-ma/>)

- 60-credit hour program (for applicants with a Professional Educator License)
- 72-credit hour program (for applicants without a Professional Educator License)
- Accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP)
- Eligible for Illinois licensure: Licensed Professional Counselor (LPC) and Licensed Clinical Professional Counselor (LCPC)
- Eligible for an Illinois Professional Educator License (PEL) with an Endorsement in School Counseling

**REHABILITATION COUNSELING, M.A.** (<http://catalog.neiu.edu/education/counselor-education/master-arts-rehabilitation-counseling/>)

- 60-credit hour program
- Accredited by the Council Council for Accreditation of Counseling and Related Educational Programs (CACREP)
- Eligible for Illinois licensure: Licensed Professional Counselor (LPC) and Licensed Clinical Professional Counselor (LCPC)
- Eligible for certification as a certified rehabilitation counselor (CRC)

## The Department of Counselor Education Mission

The Mission of the Department of Counselor Education at Northeastern Illinois University is to provide a quality graduate education in Clinical Mental Health, Family, School, and Rehabilitation Counseling. Through a reflective, collaborative pedagogical approach, graduate students acquire transformative as well as culturally-sensitive knowledge and skills that promote personal, interpersonal, and professional development. The programs train graduate students to become skilled counselors in a diverse and changing world.

## Mission Objectives

1. The Department of Counselor Education will recruit qualified applicants from culturally diverse backgrounds and will train counselors-in-training to be self-reflective, effective, and competent providers of services.
2. Program faculty will endeavor to include the most current evidence-based and outcome-based research in their coursework.
3. Syllabi will include current CACREP standards, as well as information from other sources to maintain an open and engaging curriculum that equips students to work in a variety of counseling settings.
4. The Department will conduct program evaluations, including recommendations and feedback from advisory board meetings, employers, program faculty, and current and former students. The information obtained will be reviewed annually for program evaluation purposes and incorporated into the program as appropriate.

## Student Learning Outcomes

At completion of their training program, Counselor Education students will:

1. understand ethical standards of professional counseling organizations in all program areas and credentialing bodies, and demonstrate application of ethical and legal considerations in professional counseling in a multicultural context;
2. demonstrate the ability to integrate awareness, knowledge and skills in advocacy and social justice competencies within a multicultural counseling context;
3. understand and consider the application of developmental theories across the lifespan, including ethical and culturally relevant strategies for promoting resilience, optimum development, and wellness;
4. demonstrate understanding of career development in a multicultural setting and demonstrate the application of clinical interventions that consider the interrelationships among related life factors including work, well-being, mental health, relationships, and other life roles;
5. demonstrate understanding and competent application of counselor characteristics, behaviors, interviewing, techniques and counseling skills that influence the helping relationship for diverse clients across the lifespan;
6. demonstrate understanding and competent application of the dynamics, strategies, and conditions associated with effective group work with diverse clients in various counseling settings;
7. demonstrate understanding of principles and practice of culturally-informed and ethical use of strategies for the assessment and diagnosis of mental and emotional disorders, academic/education, career, personal, and social development; and
8. understand how to critique research to inform culturally informed and trauma-sensitive clinical practice and demonstrate competent use of research methods, needs assessment, and program evaluation skills important to the counseling profession.

Student Learning Outcome for Each Program Speciality

9. Students who are preparing to specialize as clinical mental health counselors will demonstrate the knowledge and skills necessary to address a wide variety of circumstances within the context of clinical mental health counseling.
10. Students who are preparing to specialize as marriage, couple, and family counselors are expected to possess the knowledge and skills necessary to address a wide variety of issues in the context of relationships and families.
11. Students who are preparing to specialize as school counselors will demonstrate the professional knowledge and skills necessary to promote the academic, career, and personal/social development of all P-12 students through data-informed school counseling programs.
12. Students who are preparing to specialize as rehabilitation counselors will demonstrate the knowledge, skills, and attitudes necessary to address varied issues within the rehabilitation counseling context.

## Accreditation

Accreditation is the primary means of assuring both a high quality program and a systematic evaluation leading to its improvement. Northeastern Illinois University is accredited by the Higher Learning Commission (HLC) of the North Central Association. The Daniel L. Goodwin College of Education and the Department of Counselor Education are accredited by the Council for the Accreditation of Educator Preparation (CAEP) and the Illinois State Board of Education (ISBE).

## CACREP Accreditation

The Department's Clinical Mental Health, Family, School, and Rehabilitation Counseling programs are accredited through the year 2024 by the Council for the Accreditation of Counseling and Related Educational Programs (CACREP) (<https://www.cacrep.org>). The department has submitted the self-study of all four programs to CACREP and awaiting their decision for re-accreditation. The department has been informed by CACREP if the review goes beyond October 30, 2024, the program's accreditation will be extended for an additional year until their review is completed.

## Licensure and Certification

### LPC/LCPC LICENSURE

Graduates of the Clinical Mental Health, Couple and Family, School, and Rehabilitation Counseling programs are also eligible to apply for and receive licensure as a Licensed Professional Counselor (LPC) (<http://www.idfpr.com/profs/ProfCounselor.asp>) upon successful completion of the educational requirements, receiving a passing score on the National Counselor Examination (NCE), licensure application(s), and other requirements set forth by the state of Illinois.

Counselor Education's graduate students are eligible to sit for the NCE during their last year of study. The eight core curricular areas of CACREP are the comprehensive foundation of the exam questions used for the NCE. A passing score on the NCE is one of the requirements for obtaining Illinois licensure (LPC and/or LCPC).

### ALMFT/LMFT LICENSURE

Graduates of the M.A. in Family Counseling program are immediately eligible for the Associate Licensed Marriage and Family Therapist (ALMFT) credential in Illinois upon approval of their ALMFT application. Family Counseling graduates can apply for the Illinois Licensed Marriage and Family Therapist license (LMFT) upon successful completion of the post-degree credentialing exam, clinical experience, and supervision requirements as set forth by the state of Illinois.

### CRC

Graduates of the Rehabilitation Counseling Program qualify to take the Certified Rehabilitation Counselor (CRC) (<https://www.crccertification.com/>) exam. Passage of this examination and its designation is an indication of an advanced level of specialized education and training.

## ILLINOIS SCHOOL COUNSELOR ENDORSEMENT

The School Counseling program meets the educational requirements for the state of Illinois for a Professional Educator License (PEL) with a School Counselor Endorsement (PK-Age 21). Further information on school counseling and teacher education can be found at the Illinois State Board of Education (ISBE) (<https://www.isbe.net/>). In addition, students with an M.A. in Counseling (other than school counseling) or related degree who complete the School Counselor Endorsement component meet the educational requirements for the PEL, with a School Counselor Endorsement.

---

## Non-Degree Endorsement in School Counselor Option

**COUN-401. Professional Orientation & Legal/Ethical Practices. 3 Hours.**

This course offers an orientation to the counseling profession, including professional identity issues and the professional career options. Students will study the history of the profession, ethical and legal standards and practices, credentialing, professional organizations, functions of a counselor, and professional journals. Students will also be oriented to skills required for multicultural counseling competency.

**COUN-402. Developmental Counseling. 3 Hours.**

Course focuses on the concept of developmentally oriented counseling. It is based upon lifespan theory which makes the assumption that there is developmental logic to behavior. Counselors learn to assess and understand the client's developmental processes and provide appropriate helping strategies for clients working through developmental blocks. Students study developmental theories, concepts and principles, including psychosocial, cognitive, moral, emotional, family, career, self and cultural development.

**COUN-403. Theories Of Counseling. 3 Hours.**

Focuses on various theories of counseling and their associated techniques. Students study a range of theories and their application in various professional settings and are required to synthesize their own approach. This course contributes to the theoretical foundations of the helping relationships component of the program and is required of all students.

**COUN-404. Assessment And Evaluation In Counseling. 3 Hours.**

Principles of test construction, basic statistical concepts, study of commonly used standardized tests and other evaluative procedures. Interpretations of test data are an integral part of this course.

**COUN-405. Individual Counseling Skills. 3 Hours.**

A laboratory course providing competency-building experiences to prepare counselors for helping relationships. Supervised counseling of fellow students and outside clients is required. Both a knowledge base and a skill base are developed. In all aspects of this course, confidentiality and ethical behavior are stressed. The course contributes to the helping relationships component of the program and is required of all students.

**Prerequisite:** (COUN-401 with a minimum grade of C or COUN-433 with a minimum grade of C) and COUN-403 with a minimum grade of C and COUN-430 with a minimum grade of C.

**COUN-406. Group Counseling. 3 Hours.**

Course focuses on groups and group leadership. Knowledge base includes theory, group processes, group dynamics, interventions, roles of members and leaders, facilitative and debilitative behaviors, characteristics of developmental stages, ethics and therapeutic ingredients of group work. Experiential group activities develop self-awareness, interpersonal skills and leadership ability. Confidentiality and ethical behavior are stressed. Course contributes to the helping relationships and group work components of the program and is required of all students.

**Prerequisite:** COUN-405 with a minimum grade of B.

**COUN-407. Advanced Clinical Mental Health Counseling. 3 Hours.**

This advanced clinical mental health counseling course will address the contextual complexity of the constructs of "mental health" and "mental illness." Students will review service delivery strategies and evaluate the effectiveness of clinical mental health counseling approaches through the lenses of strengths-based and wellness-informed practices. Students will work to foster resilience in their clients and practice self-care strategies to prevent against burnout in themselves. Students will apply these skills within a theoretical framework, consistent with best practices, in a laboratory setting with community clients under live supervision of the faculty supervisor.

**Prerequisite:** COUN-405 with a minimum grade of B.

**COUN-408. Research Seminar. 3 Hours.**

Introduces students to the nature of scientific research, with particular reference to the research methods and statistical treatments that are appropriate to the study of problems and issues related to professional counseling. Students demonstrate their critical understanding by designing a research proposal. Course contributes to the research and evaluation component of the program and is required of all students.

**Prerequisite:** COUN-404 with a minimum grade of C.

**COUN-409. Career Development. 3 Hours.**

This introductory course provides an overview of the field of career development with applications appropriate to the student's sequence. The focus is on career development theories; occupational and educational information; career and leisure counseling; lifestyle and career decision making; and program planning and evaluation. A whole life perspective facilitates the personal, social and career development of children, adolescents and adults. This course contributes to the lifestyle and career development component of the program. Required of all student in the Counselor Education Program.

**COUN-410. Seminar In School Counseling. 3 Hours.**

This course provides an overview of the field of school counseling in elementary, middle and secondary schools. Emphasis is on the role of the school counselor as well as an examination of the history and current trends in school counseling programs and services. The developmental school counseling model offers a foundation for understanding various interventions, including individual and group counseling, crisis intervention, consultation, appraisal and coordination of counseling services. Required of all students in the School Counseling Program.

**COUN-411. Post Secondary College & Career Counseling. 3 Hours.**

This course is intended to provide school counseling students with specialized information about the college and career search, admissions, and financial aid processes. This course will provide an overview of the field of college counseling and the basics of the college admission and selection process. It will emphasize the role of the school counselor in providing information, assistance, and support in the students' and families' decision-making.

**Prerequisite:** COUN-410 with a minimum grade of B.

**COUN-412. Topics In School Counseling. 3 Hours.**

This course examines important topics for professional school counselors: collaboration and consultation in schools; crisis management in schools; and academic development of students. It also addresses current Illinois Learning Standards for counselors: reading methods, social/emotional learning, and bilingual/bicultural education. Critical analysis of best practice is considered as well as strategies to maximize learning and development of Pre K - Age 21 students.

**Prerequisite:** COUN-410 with a minimum grade of C.

**COUN-414. Advanced Career Counseling. 3 Hours.**

Advanced Career Counseling provides students with an in-depth laboratory experience in career counseling which will require them to integrate their knowledge of career and counseling theories, individual counseling skills, evaluation techniques and skills related to the job search process. Students will be required to formulate, present and write an in-depth client case study. This course is required of all students in the career development sequence.

**Prerequisite:** COUN-409 with a minimum grade of C.

**COUN-415. Children And Youth In School And Family Systems. 3 Hours.**

This clinically-focused graduate course offers an in-depth exploration of play therapy, blending theory, research, and practice. Students will study its application in diverse settings, engage in comparative analysis of therapeutic models, and develop practical skills through supervised laboratory experience. This course aims to advance student's clinical practice with children and youth using play-based assessment and therapeutic techniques.

**Prerequisite:** COUN-402 with a minimum grade of C.

**COUN-416. Introduction To Play Therapy. 3 Hours.**

Study of play therapy theory, research, and utility in school and clinical settings. Application of play-based assessment, treatment planning, and therapeutic skills through supervised laboratory experience.

**Prerequisite:** COUN-401 with a minimum grade of B and COUN-402 with a minimum grade of B and COUN-403 with a minimum grade of B and COUN-405 with a minimum grade of B and COUN-415 with a minimum grade of B.

**COUN-420. Introduction To Family Counseling. 3 Hours.**

Course focuses on major theories and techniques of family counseling. Lectures, student research and role playing are utilized as presentation forms.

**Requirement:** Master's degree candidacy in Counseling or consent of the instructor.

**COUN-421. Advanced Couple And Family Counseling. 3 Hours.**

This advanced clinical class and lab experience in couple and family counseling will increase the student's knowledge and skills in the practice of relational therapy within a culturally-responsive framework. Students will study couple and family therapy treatment models which focus on promoting relational wellness and strengths. Students will apply these skills in a laboratory setting with community clients under the live supervision of the faculty instructor. Skills in clinical assessment and record-keeping will be taught and practiced. Introductory self-supervision strategies will be explored.

**Prerequisite:** COUN-401 with a minimum grade of C and COUN-403 with a minimum grade of C and COUN-420 with a minimum grade of C.

**COUN-422. Interventions For Grief & Traumatic Bereavement Across The Lifespan. 3 Hours.**

This skill-building course will present an overview of clinical interventions for grief and traumatic bereavement across the lifespan. Evidence-based, developmentally-appropriate and culturally-informed intervention models to build and repair attachment bonds and resilience will be taught. Students will practice skills in active role plays during class sessions.

**Prerequisite:** (COUN-401 with a minimum grade of C or COUN-433 with a minimum grade of C) and COUN-403 with a minimum grade of C and COUN-420 with a minimum grade of C.

**COUN-423. Counseling For Business And Industry. 3 Hours.**

This course is designed for students in the Career Development Sequence. Focuses on the counseling needs in business and industry. The course builds on the work done in COUN-414 Advanced Career Counseling, with the emphasis on the career counseling needs of the adult worker. Course is of value to students seeking careers in the business world, community colleges and vocational agencies.

**Prerequisite:** COUN-409 with a minimum grade of C.

**COUN-424. Resiliency, Wellness, And Self-Care In Trauma Counseling. 3 Hours.**

This course provides an overview of the complexities of working with trauma survivors and the role of mental health professionals within the context of lifespan development of resiliency, posttraumatic growth, resistance, and recovery skills during prevention and intervention. Students learn about countertransference reactions, vicarious trauma, and symptoms of compassion fatigue. The course provides an overview of stress management techniques to enhance sense of well-being, develop resilience and skills to apply self-care strategies. Each student designs, implements and evaluates a personal self-care program appropriate to their own needs and resources. Students engage in research and support group activities to work with various aspects of self-care.

**COUN-425. Diagnosis And Treatment Of Addictive Disorders. 3 Hours.**

This course is an introduction to alcoholism, substance abuse, and other addictive disorders. The course provides an overview of screening, assessment, and treatment models of addictive disorders. The course is presented in three modules: 1) a contextual understanding of substance addiction including the pharmacological, socioeconomic and psychological aspects of addiction; 2) screening, assessment, treatment planning, referral and counseling, interventions; and 3) specialty addiction areas such as gambling, sexual, food, and relationship addictions. An overview of current best practices in counseling is presented such as motivational interviewing and cognitive/ behavioral approaches.

**Prerequisite:** (COUN-401 with a minimum grade of C or COUN-433 with a minimum grade of C) and COUN-403 with a minimum grade of C.

**COUN-426. Advanced Treatment Of Addictive Disorders. 3 Hours.**

This course focuses on the examination and evaluation of evidence based treatment practices for addictive disorders, including process addictions. The course also examines core functions of the alcohol and other drug therapist. Clinical concepts, terminology, and treatment modalities including group, individual, couple, and family counseling techniques are reviewed. The importance of the clinical continuum of care is discussed with additional emphasis on prevention, intervention, treatment and aftercare. Other topics relevant to the ATOD counselor from the treatment perspective, ethical practices, and legal aspects are presented.

**Prerequisite:** COUN-425 with a minimum grade of C.

**COUN-427. Diagnostic Systems For Counseling. 3 Hours.**

This course acquaints counselors with descriptive, research-based and clinical knowledge that contributes to the diagnosis and treatment of mental disorders, including disorders of behavior and impulse control, mood and anxiety as well as the various personality disorders and disorders involving loss of contact with reality. Students study the current Diagnostic and Statistical Manual of Mental Disorders of the American Psychiatric Assn. and the ways the manual is used in clinical practice.

**Prerequisite:** COUN-403 with a minimum grade of C.

**COUN-428. Advanced Issues In Co-occurring Disorders And Counseling Interventions. 3 Hours.**

This advanced course builds on foundation knowledge from Diagnosis and Treatment of Addictive Disorders (COUN-425) and Crisis and Trauma Counseling (COUN-438). This course explores selected theories and methods for engaging and retaining clients in substance abuse and trauma treatment. In addition, the course reviews and discusses advanced issues resulting from co-morbid substance abuse and mental health problems and identifies system interventions and support strategies for this population. The course specifically focuses on the intersection of traumatic experiences, substance misuse, and mental illness. The behavioral health model and dual-diagnosis are also covered. This course meets curricular requirements for CACREP standards.

**COUN-429. Psychopharmacology. 3 Hours.**

This is an introductory course to psychopharmacology for non-medical, helping professionals. Students will be informed about the pharmacological aspects of addiction, psychotherapeutic medications and drugs of abuse. Emphasis is placed on the basic principles of pharmacology, the effects of drugs on the human central and peripheral nervous systems; and psychoactive drug effects and side effects. It is also designed to provide an overview of pharmacological classification systems and pharmacological interventions for psychiatric disorders. It will address benefits and side effects, trends and physiological principles as well as medical and pharmacological lexicon.

**COUN-430. Social & Cultural Diversity In Counseling. 3 Hours.**

Students will be introduced to the training model for multicultural competency, which includes awareness of cultural assumptions, knowledge of cultural diversity and racial/ethnic issues, and skills for social and cultural diversity counseling. Students will gain understanding of the impact of their own cultural identity on behavior, functioning, and the therapeutic relationship. Skills for successful social and cultural diversity counseling will be taught, including assessment of cultural identity and worldview, acculturation, spirituality, gender, socioeconomic status, and oppression.

**COUN-431. Couple And Family Systems Study. 3 Hours.**

An in-depth look at family systems, including a family's developmental and life cycles. Attention will be given to various contemporary family structures with a focus on family assessment of contemporary problems such as substance abuse, domestic violence and sexual dysfunction. Comparison of a systemic view and the traditional medically modeled psychological and psychiatric view will be addressed. Students will also study the assessment of families through the use of standardized instruments.

**Prerequisite:** COUN-420 with a minimum grade of C and COUN-405 with a minimum grade of B.

**COUN-432. Couples Counseling And Human Sexuality. 3 Hours.**

This course provides students with knowledge and understanding of principal theoretical frameworks and the existing clinical approaches to human sexuality and counseling couples. The course exposes students to a variety of clinical topics a counselor is most likely to encounter in clinical work with couples and when addressing issues of human sexuality.

**Prerequisite:** COUN-420 with a minimum grade of C and COUN-405 with a minimum grade of B.

**COUN-433. Foundation Of Rehabilitation Counseling. 3 Hours.**

This course will provide students with the foundations of rehabilitation and the rehabilitation counseling profession. The course will introduce students to relevant aspects of rehabilitation history, philosophy, values and practice, with an emphasis on the operational aspects of the rehabilitation service delivery system. The course will examine current issues, community resources, services and the vocational rehabilitation process.

**COUN-434. Medical & Psychosocial Aspects Of Disability. 3 Hours.**

Involves study of medical information on a wide range of disabilities from systems perspective. The psychological, social and vocational implications of the experience of the various disorders will be integrated into the course. Medical terminology, medical specialty practices and health care systems providing diagnosis, treatment, restorative services, or therapy to individuals with disabilities will be discussed. The course, nature, etiology, effects and prognosis of physical, sensory, mental, neurological, developmental and other disability/disease processes will be covered. Case studies of system-related disabilities will be presented with emphasis on understanding the psychosocial, functional and vocational implications of disease, congenital and adventitious disability.

**COUN-435. Work & Disability. 3 Hours.**

This course involves both didactic and experiential modes of instruction enabling students to build competencies in the career development and job placement of persons with disabilities. Students will learn the procedures in developing effective job development and placement strategies and obtain knowledge of labor market trends, employment law, and vocational issues surrounding the acquisition and maintenance of competitive employment in today's society. Specific emphasis will be placed on the unique challenges faced by people from non-majority and traditionally underserved groups.

**Prerequisite:** COUN-433 with a minimum grade of C.

**COUN-436. Case Management In Rehabilitation Counseling. 3 Hours.**

The course is intended to be a capstone experience whereby the rehabilitation counselor-in-training applies principles, skills and knowledge to simulated case examples. Topics include: the goals and models of case management in rehabilitation; client/consumer interviewing and assessment; planning for appropriate and effective intervention strategies, services and benefits included in a rehabilitation plan; plan monitoring and evaluation; and job placement, closure and follow-up. Various models of case management will be presented with a primary focus on the State-Federal Vocational Rehabilitation model.

**Prerequisite:** COUN-433 with a minimum grade of C and COUN-434 with a minimum grade of C and COUN-435 with a minimum grade of C.

**COUN-437. Trauma-Focused Assessment And Integrative Counseling Interventions. 3 Hours.**

The purpose of this course is to advance the student's knowledge and skills in trauma-informed integrative approaches. The course covers commonly used trauma-informed counseling assessments and interventions with an emphasis on the integration of neuroscience. Students will learn the roles and responsibilities of helping professionals working with clients who have experienced trauma by examining the affective, neurobiological, developmental, cognitive, behavioral, and systemic issues that emerge from exposure to crisis and trauma.

**Prerequisite:** COUN-405 with a minimum grade of B and COUN-427 with a minimum grade of C.

**COUN-438. Trauma And Crisis Counseling. 3 Hours.**

This course provides the counseling student with an introduction to research, theory, and practices within the field of trauma and crisis diagnosis, assessment and intervention. The course will cover the historical evolution of the field; biopsychosocial underpinnings of trauma and trauma spectrum disorders; issues in diagnosis, assessment, and intervention from a culturally diverse and systemic framework; and a synthesis of best practices as they are currently evolving.

**Prerequisite:** COUN-405 with a minimum grade of B and COUN-427 with a minimum grade of C.

**COUN-439. Case Conceptualization & Treatment Planning. 3 Hours.**

This course will focus on using integrative conceptualization and counseling models and a basis for on-going assessment (clinical understanding of the client), diagnosis (identification and labeling of a problem), and treatment planning (interventions and strategies) to help clients make changes and improve their coping and resiliency. The course builds on the knowledge of theories of counseling (COUN-403) and diagnosis of mental disorders with the current, Diagnostic and Statistical Manual of Mental Disorders of the American Psychiatric Association (COUN-427).

**Prerequisite:** COUN-403 with a minimum grade of C and COUN-427 with a minimum grade of C.

**COUN-442. Practicum I: Group Supervision In School Counseling. 3 Hours.**

This course focuses on the integration of counseling skills and conceptual frameworks to create strategies to assist children in the areas of personal, social, education and career development. Clinical experiences in school counseling, in which these strategies are applied in supervised counseling sessions with individuals and groups, will be discussed in group supervision. This course contributes to the counseling proficiency component of the program, and is required of all students enrolled in the school counseling program.

**Prerequisite:** COUN-401 with a minimum grade of C and COUN-402 with a minimum grade of C and COUN-403 with a minimum grade of C and COUN-404 with a minimum grade of C and COUN-405 with a minimum grade of B and COUN-406 with a minimum grade of B and COUN-409 with a minimum grade of C and COUN-410 with a minimum grade of C and COUN-412 with a minimum grade of C and COUN-430 with a minimum grade of C.

**COUN-444. Practicum: Group Supervision In Clinical Mental Health Counseling. 3 Hours.**

This course focuses on group supervision of clinical experiences. Students receive weekly supervision from university supervisor and site supervisor, while practicing their skills in conducting intake, mental health assessment, diagnosis, case conceptualization, treatment planning, and mental health counseling. This course contributes to the counseling proficiency component of the program and is required of all students in the Clinical Mental Health Counseling program.

**Prerequisite:** COUN-403 with a minimum grade of C and COUN-404 with a minimum grade of C and COUN-401 with a minimum grade of C and COUN-402 with a minimum grade of C and COUN-405 with a minimum grade of B and COUN-406 with a minimum grade of B and COUN-407 with a minimum grade of B and COUN-409 with a minimum grade of C and COUN-420 with a minimum grade of C and COUN-427 with a minimum grade of C and COUN-430 with a minimum grade of C.

**COUN-445. Practicum I: Group Supervision In Couple And Family Counseling. 3 Hours.**

Practicum I focuses on group supervision of the clinical experiences as well as on assessment and planning procedures for counselors within the context of legal and ethical guidelines. A review of major theories and Couple/ Marriage & Family techniques are applied to case material generated from the field experience of Practicum I. This course contributes to the counseling proficiency component of the program and is required of all students in the family counseling program.

**Prerequisite:** COUN-401 with a minimum grade of C and COUN-402 with a minimum grade of C and COUN-403 with a minimum grade of C and COUN-404 with a minimum grade of C and COUN-405 with a minimum grade of B and COUN-406 with a minimum grade of B and COUN-409 with a minimum grade of C and COUN-415 with a minimum grade of C and COUN-420 with a minimum grade of C and COUN-421 with a minimum grade of B and COUN-427 with a minimum grade of C and COUN-430 with a minimum grade of C and COUN-432 with a minimum grade of C.

**COUN-446. Practicum In Rehabilitation Counseling. 3 Hours.**

Students will apply rehabilitation counseling knowledge and skills introduced in previous courses. The purpose of the course is to enhance basic rehabilitation counseling skills including interviewing, listening skills, assessment, documentation and case recording, referral and follow-up services. There will be periodic and direct communications throughout the semester between the site supervisor and the faculty through site visits, conference calls, electronic communications and either video-taping or audio-recording of individual counseling sessions between the student and client.

**Prerequisite:** COUN-402 with a minimum grade of C and COUN-403 with a minimum grade of C and COUN-404 with a minimum grade of C and COUN-405 with a minimum grade of B and COUN-406 with a minimum grade of B and COUN-409 with a minimum grade of C and COUN-433 with a minimum grade of C and COUN-434 with a minimum grade of C and COUN-435 with a minimum grade of C and COUN-436 with a minimum grade of C.

**COUN-462. Internship I: School Counseling. 3 Hours.**

This is the first of two supervised internship courses required for the school counseling program. The focus of the course is on the implementation of the role of the school counselor in school settings. Interns work under the supervision of a site supervisor and a university faculty person. The course will require the intern to complete 300 hours of field related activities and participate in an on-campus seminar every other week.

**Prerequisite:** COUN-442 with a minimum grade of B.

**COUN-463. Internship I: Rehabilitation Counseling. 3 Hours.**

Students will apply rehabilitation counseling knowledge and skills introduced in previous courses through classroom-based activities and supervision provided by university-based certified rehabilitation counselor. The purpose of the course is to enhance basic rehabilitation counseling skills through Socratic, individualized and group supervision including interviewing, listening skills, ethical/professional issues, case studies, community resource reports, assessment, documentation and case recording, referral and follow-up services in actual community-based settings serving persons with disability.

**Prerequisite:** COUN-446 with a minimum grade of B.

**COUN-464. Internship I: Clinical Mental Health Counseling. 3 Hours.**

The course focuses on group supervision of students in the Clinical Mental Health Counseling program during their internship experience. Students receive supervision from faculty supervisor and site supervisor while they master skills learned throughout their program by demonstrating effective counseling skills with actual clients in individual and group counseling sessions. Students are required to complete a minimum of 300-hours of supervised field-related experience such as intake, mental health assessment, diagnosis, case conceptualization, treatment planning, and mental health counseling.

**Prerequisite:** COUN-444 with a minimum grade of B.

**COUN-465. Internship I: Group Supervision In Couple And Family Counseling. 3 Hours.**

This is the first of the supervised internship courses required for the family counseling program. The focus of this course is on the implementation of the role of the family counselor in a community agency, family guidance clinic, community mental health center, hospital, substance abuse treatment program, aging center or court services setting. Interns will be working under the supervision of a site supervisor and a counselor education faculty person. The course will require the intern to complete 300 hours of field-related activities, including participation in an on-campus seminar every other week.

**Prerequisite:** COUN-445 with a minimum grade of B.

**COUN-466. Independent Study In Guidance And Personnel Work. 3 Hours.**

Intensive guided study in selected areas of guidance and personnel work. Consultation with instructor prior to registration is mandatory.

**COUN-468H. Seminar In Counseling: Student Personnel Work In Higher Education. 3 Hours.****COUN-469. Independent Study In Guidance And Personnel Work. 1 Hour.**

Intensive guided study in selected areas of guidance and personnel work. Consultation with instructor prior to registration is mandatory.

**COUN-470. Independent Study In Guidance And Personnel Work. 2 Hours.**

(See COUN-469 for description.)

**COUN-472. Internship II:School Counseling. 3 Hours.**

Second of two supervised internship courses required for the school counseling program. A continuation of COUN-462 focusing on the implementation of the role of the school counselor in school settings. Additionally, Illinois Professional Teaching Standard 6: Reading, Writing, and Oral Communication is addressed in the course. Interns work under the supervision of a site supervisor and a counselor education staff person. The course requires the interns to complete 300 hours of field-related activities and participate in an on-campus seminar every other week.

**Prerequisite:** COUN-442 with a minimum grade of C.

**COUN-473. Internship II:Rehabilitation Counseling. 3 Hours.**

Students will apply rehabilitation counseling knowledge and skills introduced in previous courses in a community-based, field experience. The purpose of the course is to further develop rehabilitation counseling skills including counseling interventions, intake interviewing and eligibility determination, assessment, rehabilitation plan development and construction, documentation and case recording, case management and follow-up services. There will be periodic and direct communications throughout the semester between the site supervisor and the faculty through site visits, conference calls, electronic communications and either videotaping or audiorecording of individual counseling sessions between the student and client.

**Prerequisite:** COUN-463 with a minimum grade of B.

**COUN-474. Internship II: Clinical Mental Health Counseling. 3 Hours.**

This course is a continuation of COUN-464 which further involves the intern in mastering individual and group counseling skills. Students are required to complete a minimum of 300-hours of supervised field-related experience such as intake, mental health assessment, diagnosis, case conceptualization, treatment planning, and mental health counseling.

**Prerequisite:** COUN-464 with a minimum grade of B.

**COUN-475. Internship II:Group Supervision In Couple And Family Counseling. 3 Hours.**

This course is a continuation of COUN-465 and further involves the intern in the implementation of the role of the family counselor in an approved internship placement. Interns will be working under the supervision of a site supervisor and a counselor education staff person. The course will require the intern to complete 300 hours of field related activities, including participation in an on-campus seminar every other week.

**Prerequisite:** COUN-465 with a minimum grade of B.

**COUN-476. Internship II:Rehabilitation Counseling. 3 Hours.**

Students will apply rehabilitation counseling knowledge and skills introduced in previous courses in a community-based, field experience. The purpose of the course is to further develop rehabilitation counseling skills including counseling interventions, intake interviewing and eligibility determination, assessment, rehabilitation plan development and construction, documentation and case recording, case management and follow-up services. There will be periodic and direct communications throughout the semester between the site supervisor and the faculty through site visits, conference calls, electronic communications and either videotaping or audiorecording of individual counseling sessions between the student and client.

**Prerequisite:** COUN-466 with a minimum grade of B.

**COUN-477. Current Issues:Marriage And Family Therapy. 1 Hour.**

Presents detailed treatment of selected issues and concerns in Marriage and Family Therapy. Consult the Schedule of Classes for current offerings. Prospective topics will include the Theory and Treatment of Sexual Dysfunction, Treating the Sexually Abusive Family, and Divorce Mediation.

**COUN-478. Advanced Counseling. 3 Hours.**

The purpose of this course is to provide the counselor education students with advanced practice in individual counseling. Students will serve as graduate mentors to those who are taking COUN-405 Individual Counseling Skills. The students in this course will assist the instructor in demonstrations of proper counseling skills, in supervision of counseling sessions held in the counselor education laboratory, and in giving feedback to students in COUN-405.

**Prerequisite:** COUN-405 with a minimum grade of C.

**COUN-479. Supervision:Marriage And Family Therapy. 3 Hours.****COUN-490. Thesis Research. 3 Hours.**

This course includes the preparation and submission of a master of arts thesis under the supervision of a faculty committee. Thesis topics will reflect students' interest in a variety of counseling areas. Theses may be based on quantitative and/or qualitative methodologies.

**Prerequisite:** COUN-408 with a minimum grade of C.

**COUN-499. Clinical Supervision. 3 Hours.**

This course will examine clinical supervision theory and techniques currently used in counseling and psychotherapy and introduce students to supervision as a specialty. Focusing on developmental issues of both supervisors and clinicians, this course will study methods that can be used to enhance counselor competency and issues related to supervising multiple counseling models. Students are expected to be supervising already, as a group and individual supervision-of-supervision will be a component of the class.

**COUN-5901. Thesis Research. 1 Hour.**

This course includes the preparation and submission of a Master of Arts thesis under the supervision of a faculty committee. Thesis topics will reflect students' interest in a variety of counseling areas. Theses may be based on quantitative and/or qualitative methodologies. Students will enroll in a total of 3 credits of thesis hours over one or more semesters while working on the thesis.

**Requirement:** consent of Department or Instructor

**Prerequisite:** COUN-403 with a minimum grade of C and COUN-404 with a minimum grade of C and COUN-408 with a minimum grade of C.

**COUN-5902. Thesis Research. 2 Hours.**

This course includes the preparation and submission of a Master of Arts thesis under the supervision of a faculty committee. Thesis topics will reflect students' interest in a variety of counseling areas. Theses may be based on quantitative and/or qualitative methodologies. Students will enroll in a total of 3 credits of thesis hours over one or more semesters while working on the thesis.

**Requirement:** consent of Department or Instructor

**Prerequisite:** COUN-403 with a minimum grade of C and COUN-404 with a minimum grade of C and COUN-408 with a minimum grade of C.

**COUN-5903. Thesis Research. 3 Hours.**

This course includes the preparation and submission of a Master of Arts thesis under the supervision of a faculty committee. Thesis topics will reflect students' interest in a variety of counseling areas. Theses may be based on quantitative and/or qualitative methodologies. Students will enroll in a total of 3 credits of thesis hours over one or more semesters while working on the thesis.

**Requirement:** consent of Department or Instructor

**Prerequisite:** COUN-403 with a minimum grade of C and COUN-404 with a minimum grade of C and COUN-408 with a minimum grade of C.

# Master of Arts in Clinical Mental Health Counseling

---

NEIU's Counseling Department strives to remain committed to equity, diversity, and inclusion throughout our scholarship, service, advocacy, leadership, mentorship, and teaching. Therefore, we seek candidates who advocate for social justice and antiracist policies, and utilize culturally relevant teaching, clinical practice, research, and service. We are dedicated to preparing counselors who are leaders and advocates in social justice and who will provide professional counseling services to adults, children, youth, individuals, couples, groups, and families.

The Department of Counselor Education offers a 60-credit hour program (20 courses) leading to the Master of Arts in Counseling: Clinical Mental Health Counseling (CMHC). This degree fulfills the educational requirements for the two levels of licensure as professional counselors in the State of Illinois: Licensed Professional Counselor (LPC) and Licensed Clinical Professional Counselor (LCPC).

The Clinical Mental Health Counseling (CMHC) program at NEIU delivers a comprehensive academic curriculum and supervised clinical experiences that integrate the standards of CACREP. CMHC students will demonstrate understanding of foundational knowledge, contextual dimensions, and competence in clinical mental health counseling practice with individuals from diverse cultural backgrounds who seek counseling for a wide array of clinical issues. The NEIU CMHC program emphasizes social justice, advocacy, and structural competence, particularly to affect systemic change and promote diversity, equity, and inclusion.

The Clinical Mental Health Counseling program is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). Find out more information at Counselor Education accreditation, licensures, and credentialing (<https://www.neiu.edu/academics/college-of-education/departments/counselor-education/accreditation-licensure-and-credentialing/>).

## Admission Requirements

Counselor Education admits students twice a year, in January and August. The deadline to submit a complete application for the program for the spring term is Aug. 15. The deadline to apply for the fall term is March 15. Counselor Education deadline dates differ from other Northeastern M.A. program deadline dates.

Applicants can apply to the program through NEIU's online application system (<https://apply.neiu.edu/apply/>). The online application requires submission of the following:

- Application form
- Application fee
- Official transcripts from all colleges and universities attended
- Two recommenders (applicants will be prompted to enter contact information for 2 professional recommenders)
- Current resume
- Signed informed consent
- An Essay (500-700 words or less), typed and double-spaced (instructions provided in the application).

Application materials will be evaluated in regard to an applicant's academic aptitude, relevance of career goals, cultural competence, and potential for fostering therapeutic relationships. Applicants who meet the minimum requirements in their specific program (i.e., Clinical Mental Health Counseling, Couple and Family Counseling, School Counseling, Rehabilitation Counseling) will be invited to attend a Pre-admission Workshop (PAW). The PAW involves applicants participating in a series of group discussions facilitated by Counselor Education faculty. Dates and times to attend a PAW session are available on Slate.

## MINIMUM STANDARDS FOR ADMISSION TO THE PROGRAM

- Graduate Admissions and Records has established a minimum grade point average of 2.75 for undergraduate degrees. Applicants with undergraduate GPAs below 2.75 will not be admitted. Applicants who have earned a graduate degree from an accredited university are exempt from this requirement.
- Problematic or poor performance during the PAW will make an applicant ineligible for admission.
- Meeting the minimum academic requirements is no guarantee of admission.
- Admission to the Counselor Education Department is competitive. It is possible for an otherwise acceptable applicant to be denied admission due to the competitive strength of the applicant pool. The number of applicants that can be admitted to the program is limited. Those not selected for admission may reapply only once.

## ADMISSION DECISIONS

Admission decisions are based on the following:

- Relevance of career goals
- Aptitude for graduate-level study

- Potential success in forming effective counseling relationships
- Respect for cultural differences

## Eligibility to Enroll in Classes

Once applicants are officially admitted to a program, they may register for classes during online registration periods. Those who have not yet been reviewed for selection may take only one course before being admitted: COUN 401 Professional Orientation and Legal/Ethical Practices. If an applicant is formally accepted into the program, the credits for the course will count towards their degree requirements. However, taking a course as a student-at-large does not guarantee admission to the program. Applicants admitted to the fall semester may begin taking classes in the summer semester.

The Department of Counselor Education allows non-degree-seeking students to take courses as a student-at-large under certain circumstances, such as completing deficiencies for licensure. To request approval to take a course as a non-degree seeking student, please click on the following link and complete the form: <https://www.neiu.edu/academics/college-of-education/content/permission-take-courses-counselor-education-student-large>. We will contact you with an answer within five working days of receiving your form.

Authorization to enroll in courses as a non-degree seeking student in Counselor Education does not constitute admission to any of the Department's programs. Students who wish to pursue a master's degree in counseling must submit a formal application to Graduate Admissions. Non-degree seeking students can enroll only in courses for which they have been authorized by this Department. Some of the courses in the Department are not open to non-degree seeking students.

## Clinical Mental Health Counseling

The Clinical Mental Health Counseling Program requires completion of 60-credit hours (20 courses):

Code	Title	Hours
<b>Clinical Mental Health Counseling required courses:</b>		
COUN-401	Professional Orientation & Legal/Ethical Practices	3
COUN-402	Developmental Counseling	3
COUN-403	Theories Of Counseling	3
COUN-404	Assessment And Evaluation In Counseling	3
COUN-405	Individual Counseling Skills	3
COUN-406	Group Counseling	3
COUN-407	Advanced Clinical Mental Health Counseling	3
COUN-408	Research Seminar	3
COUN-409	Career Development	3
COUN-415	Children And Youth In School And Family Systems	3
COUN-420	Introduction To Family Counseling	3
COUN-425	Diagnosis And Treatment Of Addictive Disorders	3
COUN-427	Diagnostic Systems For Counseling	3
COUN-429	Psychopharmacology	3
COUN-430	Social & Cultural Diversity In Counseling	3
COUN-438	Trauma And Crisis Counseling	3
COUN-439	Case Conceptualization & Treatment Planning	3
COUN-444	Practicum: Group Supervision In Clinical Mental Health Counseling	3
COUN-464	Internship I: Clinical Mental Health Counseling	3
COUN-474	Internship II: Clinical Mental Health Counseling	3
<b>Total Hours</b>		<b>60</b>

## PROGRAM COMPLETION REQUIREMENTS

Clinical Mental Health Counseling students must complete all course requirements, successfully pass each transition level, and meet the graduation requirements.

### PROGRAM TRANSITION LEVELS:

Students must successfully complete all the program transition levels. Students cannot obtain more than two grades of "C" in graduate work as per the College of Graduate Studies and Research Policy. Students are required to earn a grade of "B" or better in their clinical courses (e.g., COUN 405, COUN 406, Practicum and Internship).

## TRANSITION LEVEL I

- Successful completion of prerequisites for clinical skills training courses
- Completion of first-semester student survey
- Demonstration of appropriate professional and ethical behaviors and dispositions
- Minimum GPA of 3.00
- Passing key program assessments for level I

## TRANSITION LEVEL II

- Successful completion of clinical skills training coursework
- Demonstration of appropriate professional and ethical behaviors and dispositions
- Minimum GPA of 3.00
- Satisfactory rating on professional disposition evaluation
- Complete the Practicum application and submit to the Coordinator for Clinical Experiences
- Passing key program assessments for level II

## TRANSITION LEVEL III

- Successful completion of clinical experiences including Practicum and Internship
- Completion of minimum of 100 hours of Practicum
- Completion of minimum 600 hours of Internship
- Satisfactory ratings on all evaluations from site and university supervisors
- Demonstration of appropriate professional and ethical behaviors and dispositions
- Minimum GPA of 3.00
- Passing key program assessments for level III

## TRANSITION LEVEL IV

- Completion of student exit survey
- Passing of the departmental proficiency examination (DPE) prior to graduation

## EXIT REQUIREMENTS FOR DEGREE COMPLETION:

- Successful completion of all transition levels and required credit hours
- Minimum GPA of 3.00

## Clinical Experience

During the fall semester of the year before planning to do Practicum/Internship, students meet with their advisor to review readiness for Practicum and to sign the application form. Applications for clinical experience are distributed at the mandatory Practicum Orientation meeting or may be printed from the forms tab of the Department website. Applications for Practicum/Internship are due November 1 for fall placements of the following year. Students must attend a mandatory orientation meeting before submitting the application form. The date and the place of the orientation meeting are posted on the Department website, listserv, and Departmental bulletin boards. All applications must be reviewed and signed by the student's advisor. The student may then submit the signed application and the student's resume to the Coordinator of Clinical Experiences.

Practicum and Internship consists of 700 hours of documented field-related experience, of which 280 hours of face-to-face counseling is required. COUN 444 Practicum: Ethical/Legal Issues in Mental Health Counseling is a 100-hour, field-based experience requiring a minimum of 40 hours of direct contact with clients. COUN 464 Internship I: Mental Health Counseling and COUN 474 Internship II: Mental Health Counseling together consist of a 600-hour, field-based experience requiring a minimum of 240 hours of clinical contact with clients.

## Departmental Proficiency Examination (DPE)

Prior to graduation, all students are required to pass a comprehensive examination. The DPE application (<https://www.neiu.edu/sites/neiu.edu/files/migrated-education-body/documents/2014/11/DPE-application-11-2014.pdf>) must be completed and signed by the student and their advisor and submitted to the Department of Counselor Education no later than two weeks prior to the exam date. Students in Clinical Mental Health Counseling program may take the examination after completion of 33 credit hours of coursework including, but not limited to:

Code	Title	Hours
COUN-401	Professional Orientation & Legal/Ethical Practices	3
COUN-402	Developmental Counseling	3
COUN-403	Theories Of Counseling	3
COUN-404	Assessment And Evaluation In Counseling	3

COUN-405	Individual Counseling Skills	3
COUN-406	Group Counseling	3
COUN-407	Advanced Clinical Mental Health Counseling	3
COUN-408	Research Seminar	3
COUN-409	Career Development	3
COUN-427	Diagnostic Systems For Counseling	3
COUN-430	Social & Cultural Diversity In Counseling	3
<b>Total Hours</b>		<b>33</b>

***Please make note of this important correction to the above DPE information: The DPE is offered once each semester: Fall, Spring, and Summer. The dates are subject to change. All degree-seeking counselor education students are required to successfully pass the DPE to graduate. See the Counselor Education Current Student Resources Webpage (<https://www.neiu.edu/academics/daniel-l-goodwin-college-of-education/departments/counselor-education/current-student-resources/>) for the most recent and accurate dates and instructions.***

## Notification of Student Recess

Once having begun the Clinical Mental Health Counseling program, if a student does not attend classes for more than two consecutive semesters (Fall, Spring, Summer), the student must notify the College of Graduate Studies and Research and their program advisor regarding intent to continue in the program. The Department reserves the right to review the student's course work upon reentry by the student and to require that certain courses be repeated if necessary. Students have a maximum of six years in which to complete their degree programs.

***This sample curricular map is provided to guide program planning for graduate students who plan to attend as full-time students. This guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor. Please note that students may choose to attend either full-time or part-time, depending on their need.***

***The Plans of Study for the programs in Counselor Education should be used as general guidelines for the completion of courses. These plans suggest how a student might complete a program in two calendar years by beginning in the fall semester and attending through two summer semesters. There are many factors that affect how students complete their programs, including whether they begin in the fall or spring semesters and whether they attend full-time or part-time.***

***All students in the Clinical Mental Health Counseling program have a mandatory orientation at the beginning of their program and have a faculty advisor who will help in the planning of each student's course of study.***

### Plan of Study Grid

# Master of Arts in Couple & Family Counseling

---

NEIU's Counseling Department strives to remain committed to equity, diversity, and inclusion throughout our scholarship, service, advocacy, leadership, mentorship, and teaching. Therefore, we seek candidates who advocate for social justice and antiracist policies, and utilize culturally relevant teaching, clinical practice, research, and service. We are dedicated to preparing counselors who are leaders and advocates in social justice and who will provide professional counseling services to adults, children, youth, individuals, couples, groups, and families.

The Couple & Family Counseling, M.A., offered through the Department of Counselor Education, fulfills the educational requirements for the two levels of licensure as a Professional Counselor and Marriage and Family Therapist in the State of Illinois: Licensed Professional Counselor (LPC) and Licensed Clinical Professional Counselor (LCPC), and Associate Licensed Marriage and Family Therapist (ALMFT) and the Licensed Marriage and Family Therapist (LMFT). Graduates of this program also meet the educational requirements for Clinical Membership in the American Association for Marriage and Family Therapy. The Couple and Family Counseling program is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP) through the year 2024. In addition, the program's graduate students are eligible to sit for the National Counselor Examination (NCE) during their last year of study. A passing score on the NCE is one of the requirements for the LPC or LCPC. Graduates from the Couple and Family Counseling Program are eligible to sit for the MFT National Examination upon application for the ALMFT credential, a requirement for the Illinois LMFT.

## Admission Requirements

Counselor Education admits students twice a year, in January and August. The deadline to submit a complete application for the program for the spring term is Aug. 15. The deadline to apply for the fall term is March 15. Counselor Education deadline dates differ from other Northeastern M.A. program deadline dates.

Applicants can apply to the program through NEIU's online application system (<https://apply.neiu.edu/apply/>). The online application requires submission of the following:

- Application form
- Application fee
- Official transcripts from all colleges and universities attended
- Two recommenders (applicants will be prompted to enter contact information for 2 professional recommenders)
- Current resume
- Signed informed consent
- An Essay (500-700 words or less), typed and double-spaced (instructions provided in the application).

Application materials will be evaluated in regard to an applicant's academic aptitude, relevance of career goals, cultural competence, and potential for fostering therapeutic relationships. Applicants who meet the minimum requirements in their specific program (i.e., Clinical Mental Health Counseling, Couple and Family Counseling, School Counseling, Rehabilitation Counseling) will be invited to attend a Pre-admission Workshop (PAW). The PAW involves applicants participating in a series of group discussions facilitated by Counselor Education faculty. Dates and times to attend a PAW session are available on Slate.

## MINIMUM STANDARDS FOR ADMISSION TO THE PROGRAM

- Graduate Admissions and Records has established a minimum grade point average of 2.75 for undergraduate degrees. Applicants with undergraduate GPAs below 2.75 will not be admitted. Applicants who have earned a graduate degree from an accredited university are exempt from this requirement.
- Problematic or poor performance during the PAW will make an applicant ineligible for admission.
- Meeting the minimum academic requirements is no guarantee of admission.
- Admission to the Counselor Education Department is competitive. It is possible for an otherwise acceptable applicant to be denied admission due to the competitive strength of the applicant pool. The number of applicants that can be admitted to the program is limited. Those not selected for admission may reapply only once.

## ADMISSION DECISIONS

Admission decisions are based on the following:

- Relevance of career goals
- Aptitude for graduate-level study
- Potential success in forming effective counseling relationships
- Respect for cultural differences

## Eligibility to Enroll in Classes

Once applicants are officially admitted to a program, they may register for classes during online registration periods. Those who have not yet been reviewed for selection may take only one course before being admitted: COUN 401 Professional Orientation and Legal/Ethical Practices. If an applicant is formally accepted into the program, the credits for the course will count towards their degree requirements. However, taking a course as a student-at-large does not guarantee admission to the program. Applicants admitted to the fall semester may begin taking classes in the summer semester.

The Department of Counselor Education allows non-degree seeking students to take courses as a student-at-large under certain circumstances, such as completing deficiencies for licensure and applying for licensure directly through ISBE or a Regional Office of Education. To request approval to take a course as a non-degree seeking student, please click on the following link and complete: form (<https://www.neiu.edu/academics/daniel-l-goodwin-college-of-education/departments/counselor-education/permission-take-courses-counselor-education-non-degree-seeking-student/>)

We will contact you with an answer within five working days of receiving your form.

Authorization to enroll in courses as a non-degree seeking student in Counselor Education does not constitute admission to any of the Department's programs. Students who wish to pursue a master's degree in counseling must submit a formal application to Graduate Admissions. Non-degree seeking students can enroll only in courses for which they have been authorized by this Department. Some of the courses in the Department are not open to non-degree seeking students.

---

## Minimum Standards for the Program

Graduate Admissions and Records has established a minimum grade point average of 2.75 for undergraduate degrees. Applicants with undergraduate GPAs below 2.75 will not be admitted unless their overall application suggests areas of exceptionality. Applicants who have earned M.A. degrees are exempt from this requirement:

- Problematic or poor performance during the PAW will make an applicant ineligible for admission.
- Meeting the minimum requirements is no guarantee of admission.
- Admission to the Counselor Education Department is competitive. It is possible for an otherwise acceptable applicant to be denied admission due to the competitive strength of the applicant pool. The number of applicants that can be admitted to the program is limited. Those not selected for admission may reapply only once.
- Applicants with undergraduate GPA below 2.75 may consider submitting GRE scores with a verbal reasoning and analytical writing scores within the 50th percentile as a measure of exceptionality.

**Find out more information at Counselor Education accreditation, licensures, and credentialing (<https://www.neiu.edu/academics/college-of-education/departments/counselor-education/accreditation-licensure-and-credentialing/>).**

## Curriculum in Couple & Family Counseling

Couple & Family Counseling requires a minimum of 60-credit hours (20 courses):

Code	Title	Hours
COUN-401	Professional Orientation & Legal/Ethical Practices	3
COUN-402	Developmental Counseling	3
COUN-403	Theories Of Counseling	3
COUN-404	Assessment And Evaluation In Counseling	3
COUN-405	Individual Counseling Skills	3
COUN-406	Group Counseling	3
COUN-408	Research Seminar	3
COUN-409	Career Development	3
COUN-415	Children And Youth In School And Family Systems	3
COUN-420	Introduction To Family Counseling	3
COUN-421	Advanced Couple And Family Counseling	3
COUN-425	Diagnosis And Treatment Of Addictive Disorders	3
COUN-427	Diagnostic Systems For Counseling	3
COUN-430	Social & Cultural Diversity In Counseling	3

COUN-431	Couple And Family Systems Study	3
COUN-432	Couples Counseling And Human Sexuality	3
COUN-445	Practicum I:Group Supervision In Couple And Family Counseling	3
COUN-465	Internship I:Group Supervision In Couple And Family Counseling	3
COUN-475	Internship II:Group Supervision In Couple And Family Counseling	3
Elective #1 (Consult with faculty advisor)		3

**Total Hours****60**

## Clinical Experience

During the fall semester of the year before planning to do Practicum/Internship, students meet with their advisor to review readiness for Practicum.

Applications for Practicum/Internship are due each fall for placements in fall of the following year. Students must attend a mandatory orientation meeting before submitting the application form. The date and the place of the orientation meeting are posted on the Department website, listserv, and Departmental bulletin boards. All applications must be reviewed and approved by the student's advisor. Applications are then reviewed by the Coordinator of Clinical Experiences.

Practicum and Internship consists of 700 hours of documented field-related experience, of which a cumulative 300 hours of face-to-face counseling is required. COUN 445 Practicum: Group Supervision in Couple and Family Counseling is a 100-hour, field-based experience requiring a minimum of 40 hours of direct contact with clients. COUN 465 Internship I: Group Supervision in Couple and Family Counseling and COUN 475 Internship II: Group Supervision in Couple and Family Counseling together consist of a 600-hour, field-based experience requiring a minimum of 240 hours of clinical contact with clients. A minimum of 150 of these clinical contact hours must be counseling couples and/or families.

## Departmental Proficiency Examination (DPE)

Prior to graduation, all students are required to pass a comprehensive examination. The DPE application must be completed **and signed** by the student and **approved by their program advisor and submitted to the Department of Counselor Education** no later than two weeks prior to the exam date. Students in the Family Counseling program may take the examination after completion of 36 credit hours of the following coursework:

Code	Title	Hours
COUN-401	Professional Orientation & Legal/Ethical Practices	3
COUN-402	Developmental Counseling	3
COUN-403	Theories Of Counseling	3
COUN-404	Assessment And Evaluation In Counseling	3
COUN-405	Individual Counseling Skills	3
COUN-406	Group Counseling	3
COUN-408	Research Seminar	3
COUN-409	Career Development	3
COUN-415	Children And Youth In School And Family Systems	3
COUN-420	Introduction To Family Counseling	3
COUN-421	Advanced Couple And Family Counseling	3
COUN-430	Social & Cultural Diversity In Counseling	3
<b>Total Hours</b>		<b>36</b>

## PROGRAM TRANSITION LEVELS:

Students must successfully complete all the program transition levels. Students are required to earn a grade of "B" or better in their clinical courses (e.g., COUN 405, COUN 406, Practicum and Internship).

Students are also required to maintain good academic standing, in accordance with university graduate policies (<http://catalog.neiu.edu/graduate-studies-research/graduate-policies/>), which can be found in the Academic Catalog in the section of the College of Graduate Studies and Research.

### TRANSITION LEVEL I

- Successful completion of prerequisites for clinical skills training courses
- Completion of first-semester student survey
- Demonstration of appropriate professional and ethical behaviors and dispositions
- Minimum GPA of 3.00
- Passing key program assessments for level I

## TRANSITION LEVEL II

- Successful completion of clinical skills training coursework
- Demonstration of appropriate professional and ethical behaviors and dispositions
- Minimum GPA of 3.00
- Satisfactory rating on professional disposition evaluation
- Complete the Practicum application and submit to the Coordinator for Clinical Experiences
- Passing key program assessments for level II

## TRANSITION LEVEL III

- Successful completion of clinical experiences including Practicum and Internship
- Completion of minimum of 100 hours of Practicum
- Completion of minimum 600 hours of Internship
- Satisfactory ratings on all evaluations from site and university supervisors
- Demonstration of appropriate professional and ethical behaviors and dispositions
- Minimum GPA of 3.00
- Passing key program assessments for level III

## TRANSITION LEVEL IV

- Completion of student exit survey
- Passing of the departmental proficiency examination (DPE) prior to graduation

## EXIT REQUIREMENTS FOR DEGREE COMPLETION:

- Successful completion of all transition levels and required credit hours
- Minimum GPA of 3.00

***Please make note of this important change: The DPE is offered once each semester: Fall, Spring, and Summer. The dates are subject to change. All degree-seeking counselor education students are required to successfully pass the DPE to graduate. See the Counselor Education Current Student Resources Webpage (<https://www.neiu.edu/academics/daniel-l-goodwin-college-of-education/departments/counselor-education/current-student-resources/>) for the most recent and accurate dates and instructions.***

***This sample curricular map is provided to guide program planning for graduate students in the Family Counseling program. This guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor. Please note that students may choose to attend either full-time or part-time, depending on their need.***

***The Plans of Study for the programs in Counselor Education should be used as general guidelines for the completion of courses. These plans suggest how a student might complete a program in two calendar years by beginning in the fall semester and attending through two summer semesters. There are many factors that affect how students complete their programs, including whether they begin in the fall or spring semesters and whether they attend full-time or part-time.***

***All students in the Family Counseling program have a mandatory orientation at the beginning of their program and have a faculty advisor who will help in the planning of each student's course of study.***

# Master of Arts in Rehabilitation Counseling (GG12)

---

NEIU's Counseling Department strives to remain committed to equity, diversity, and inclusion throughout our scholarship, service, advocacy, leadership, mentorship, and teaching. Therefore, we seek candidates who advocate for social justice and antiracist policies, and utilize culturally relevant teaching, clinical practice, research, and service. We are dedicated to preparing counselors who are leaders and advocates in social justice and who will provide professional counseling services to adults, children, youth, individuals, couples, groups, and families.

The Department of Counselor Education offers a 60-credit hour program (20 courses) leading to the Master of Arts in Counseling: Rehabilitation Counseling. The Rehabilitation Counseling (RC) program at NEIU delivers a comprehensive academic curriculum and supervised clinical experience that integrates the standards of CACREP. Students who are preparing to specialize as rehabilitation counselors will demonstrate knowledge, skills, and attitudes necessary to address varied issues within the rehabilitation counseling context. Students will learn how to work collaboratively with individuals with disabilities, their support systems, and their environments to achieve their personal, social, psychological, and vocational goals. The NEIU RC program emphasizes social justice, advocacy, and structural competence, particularly to affect systemic change and promote diversity, equity, and inclusion.

The degree in Rehabilitation Counseling fulfills the educational requirements for the two levels of licensure as professional counselors in the State of Illinois: Licensed Professional Counselor (LPC) and Licensed Clinical Professional Counselor (LCPC). Graduates of the Rehabilitation Counseling program can also obtain Certified Rehabilitation Counseling (CRC) certification.

On July 1, 2017, the Council for Rehabilitation Education (CORE), the accrediting body of this rehabilitation counseling program, merged with the Council for the Accreditation of Counseling and Related Educational Programs (CACREP). CACREP now has the responsibility for the review of Rehabilitation Counselor graduate programs. Find out more information at Counselor Education accreditation, licensures, and credentialing (<https://www.neiu.edu/academics/college-of-education/departments/counselor-education/accreditation-licensure-and-credentialing/>).

## Admission Requirements

Counselor Education admits students twice a year, in January and August. The deadline to submit a complete application for the program for the spring term is Aug. 15. The deadline to apply for the fall term is March 15. Counselor Education deadline dates differ from other Northeastern M.A. program deadline dates.

Applicants can apply to the program through NEIU's online application system (<https://apply.neiu.edu/apply/>). The online application requires submission of the following:

- Application form
- Application fee
- Official transcripts from all colleges and universities attended
- Two recommenders (applicants will be prompted to enter contact information for 2 professional recommenders)
- Current resume
- Signed informed consent
- An Essay (500-700 words or less), typed and double-spaced (instructions provided in the application).

Application materials will be evaluated in regard to an applicant's academic aptitude, relevance of career goals, cultural competence, and potential for fostering therapeutic relationships. Applicants who meet the minimum requirements in their specific program (i.e., Clinical Mental Health Counseling, Couple and Family Counseling, School Counseling, Rehabilitation Counseling) will be invited to attend a Pre-admission Workshop (PAW). The PAW involves applicants participating in a series of group discussions facilitated by Counselor Education faculty. Dates and times to attend a PAW session are available on Slate.

## MINIMUM STANDARDS FOR ADMISSION TO THE PROGRAM

- Graduate Admissions and Records has established a minimum grade point average of 2.75 for undergraduate degrees. Applicants with undergraduate GPAs below 2.75 will not be admitted. Applicants who have earned a graduate degree from an accredited university are exempt from this requirement.
- Problematic or poor performance during the PAW will make an applicant ineligible for admission.
- Meeting the minimum academic requirements is no guarantee of admission.
- Admission to the Counselor Education Department is competitive. It is possible for an otherwise acceptable applicant to be denied admission due to the competitive strength of the applicant pool. The number of applicants that can be admitted to the program is limited. Those not selected for admission may reapply only once.

## ADMISSION DECISIONS

Admission decisions are based on the following:

- Relevance of career goals
- Aptitude for graduate-level study
- Potential success in forming effective counseling relationships
- Respect for cultural differences

## Eligibility to Enroll in Classes

Once applicants are officially admitted to a program, they may register for classes during online registration periods. Those who have not yet been reviewed for selection may take only one course before being admitted: COUN 433 Foundations of Rehabilitation Counseling (Rehab). If an applicant is formally accepted into the program, the credits for the course will count towards their degree requirements. However, taking a course as a student-at-large does not guarantee admission to the program. Applicants admitted to the fall semester may begin taking classes in the summer semester.

The Department of Counselor Education allows non-degree seeking students to take courses as a student-at-large under certain circumstances, such as completing deficiencies for licensure. To request approval to take a course as a non-degree seeking student, please click on the following link and complete the form: <https://www.neiu.edu/academics/college-of-education/content/permission-take-courses-counselor-education-student-large>. We will contact you with an answer within five working days of receiving your form.

Authorization to enroll in courses as a non-degree seeking student in Counselor Education does not constitute admission to any of the Department's programs. Students who wish to pursue a master's degree in counseling must submit a formal application to Graduate Admissions. Non-degree seeking students can enroll only in courses for which they have been authorized by this Department. Some of the courses in the Department are not open to non-degree-seeking students.

## Rehabilitation Counseling

Rehabilitation Counseling requires a minimum of 60-credit hours (20 courses):

Code	Title	Hours
<b>Rehabilitation Counseling required courses:</b>		
COUN-401	Professional Orientation & Legal/Ethical Practices	3
COUN-402	Developmental Counseling	3
COUN-403	Theories Of Counseling	3
COUN-404	Assessment And Evaluation In Counseling	3
COUN-405	Individual Counseling Skills	3
COUN-406	Group Counseling	3
COUN-408	Research Seminar	3
COUN-409	Career Development	3
COUN-420	Introduction To Family Counseling	3
COUN-425	Diagnosis And Treatment Of Addictive Disorders	3
COUN-427	Diagnostic Systems For Counseling	3
COUN-430	Social & Cultural Diversity In Counseling	3
COUN-433	Foundation Of Rehabilitation Counseling	3
COUN-434	Medical & Psychosocial Aspects Of Disability	3
COUN-435	Work & Disability	3
COUN-436	Case Management In Rehabilitation Counseling	3
COUN-438	Trauma And Crisis Counseling	3
COUN-446	Practicum In Rehabilitation Counseling	3
COUN-463	Internship I:Rehabilitation Counseling	3
COUN-473	Internship II:Rehabilitation Counseling	3
<b>Total Hours</b>		<b>60</b>

## PROGRAM COMPLETION REQUIREMENTS

Rehabilitation Counseling students must complete all course requirements, successfully pass each transition level, and meet the graduation requirements.

## PROGRAM TRANSITION LEVELS:

Students must successfully complete all the program transition levels. Students cannot obtain more than two grades of "C" in graduate work as per the College of Graduate Studies and Research Policy. Students are required to earn a grade of "B" or better in their clinical courses (e.g., COUN 405, COUN 406, Practicum and Internship).

### TRANSITION LEVEL I

- Successful completion of prerequisites for clinical skills training courses
- Completion of first-semester student survey
- Demonstration of appropriate professional and ethical behaviors and dispositions
- Minimum GPA of 3.00
- Passing key program assessments for level I

### TRANSITION LEVEL II

- Successful completion of clinical skills training coursework
- Demonstration of appropriate professional and ethical behaviors and dispositions
- Minimum GPA of 3.00
- Satisfactory rating on professional disposition evaluation
- Complete the Practicum application and submit to the Coordinator for Clinical Experiences
- Passing key program assessments for level II

### TRANSITION LEVEL III

- Successful completion of clinical experiences including Practicum and Internship
- Completion of minimum of 100 hours of Practicum
- Completion of minimum 600 hours of Internship
- Satisfactory ratings on all evaluations from site and university supervisors
- Demonstration of appropriate professional and ethical behaviors and dispositions
- Minimum GPA of 3.00
- Passing key program assessments for level III

### TRANSITION LEVEL IV

- Completion of student exit survey
- Passing of the departmental proficiency examination (DPE) prior to graduation

## EXIT REQUIREMENTS FOR DEGREE COMPLETION:

- Successful completion of all transition levels and required credit hours
- Minimum GPA of 3.00

## Clinical Experience

During the fall semester of the year before planning to do Practicum/Internship, students meet with their advisor to review readiness for Practicum and to sign the application form. Applications for clinical experience are distributed at the mandatory Practicum Orientation meeting or may be printed from the forms tab of the Department website. Applications for Practicum/Internship are due November 1 for fall placements of the following year. Students must attend a mandatory orientation meeting before submitting the application form. The date and the place of the orientation meeting are posted on the Department website, listserv, and Departmental bulletin boards. All applications must be reviewed and signed by the student's advisor. The student may then submit the signed application and the student's resume to the Coordinator of Clinical Experiences.

**Practicum:** Practicum is a 100 hour, field-based experience which requires a minimum of 40 hours of clinical contact with clients (contact hours), and is a prerequisite for Internship. Practicum is offered in the Fall semester.

**Internship:** Internship is a 600 hour, field-based experience which requires a minimum of 240 hours of clinical contact with clients. Students earn six credit hours for Internships I and II.

## Departmental Proficiency Examination (DPE)

Prior to graduation, all students are required to pass a comprehensive examination. The DPE application (<https://www.neiu.edu/sites/neiu.edu/files/migrated-education-body/documents/2014/11/DPE-application-11-2014.pdf>) must be completed and signed by the student and their advisor and submitted to the Department of Counselor Education no later than two weeks prior to the exam date. Rehabilitation Counseling students may take the examination after completion of 48 credit hours of coursework:

Code	Title	Hours
COUN-401	Professional Orientation & Legal/Ethical Practices	3
COUN-402	Developmental Counseling	3
COUN-403	Theories Of Counseling	3
COUN-404	Assessment And Evaluation In Counseling	3
COUN-405	Individual Counseling Skills	3
COUN-406	Group Counseling	3
COUN-408	Research Seminar	3
COUN-409	Career Development	3
COUN-420	Introduction To Family Counseling	3
COUN-425	Diagnosis And Treatment Of Addictive Disorders	3
COUN-430	Social & Cultural Diversity In Counseling	3
COUN-433	Foundation Of Rehabilitation Counseling	3
COUN-434	Medical & Psychosocial Aspects Of Disability	3
COUN-435	Work & Disability	3
COUN-436	Case Management In Rehabilitation Counseling	3
COUN-438	Trauma And Crisis Counseling	3
<b>Total Hours</b>		<b>48</b>

## Notification of Student Recess

Once having begun the Counselor Education program, if a student does not attend classes for more than two consecutive semesters (Fall, Spring, Summer), the student must notify the College of Graduate Studies and Research and the advisor of his/her intent to continue in the program. Faculty members reserve the right to review the student's course work upon reentry by the student and to require that certain courses be repeated if necessary. Students have a maximum of six years in which to complete their degree programs.

**Please take note of the following critical update to the preceding DPE information:** Each of the three semesters—Fall, Spring, and Summer—offers the DPE just once. To graduate, all students pursuing degrees in counselor education must pass the DPE. The scheduled dates are subject to change annually. For the most up-to-date and correct dates and instructions, visit the Counselor Education Current Student Resources (<https://www.neiu.edu/academics/daniel-l-goodwin-college-of-education/departments/counselor-education/current-student-resources/>) Website.

***This sample curricular map is provided to guide your program planning. This guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor.***

***The Plans of Study for the programs in Counselor Education should be used as general guidelines for the completion of courses. These plans suggest how a student might complete a program in two calendar years by beginning in the fall semester and attending through two summer semesters. There are many factors that affect how students complete their programs, including whether they begin in the fall or spring semesters and whether they attend full-time or part-time.***

***All students in Counselor Education will have a mandatory orientation at the beginning of their programs and have a faculty advisor who will help in the planning of each student's course of study.***

# Master of Arts in School Counseling (GG11)

---

NEIU's Counseling Department strives to remain committed to equity, diversity, and inclusion throughout our scholarship, service, advocacy, leadership, mentorship, and teaching. Therefore, we seek candidates who advocate for social justice and antiracist policies, and utilize culturally relevant teaching, clinical practice, research, and service. We are dedicated to preparing counselors who are leaders and advocates in social justice and who will provide professional counseling services to adults, children, youth, individuals, couples, groups, and families.

The Department of Counselor Education offers a 60 credit-hour program leading to the Master of Arts in School Counseling. Additional coursework is required for students without an Illinois Professional Educator License. The School Counseling program is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). Find out more information at Counselor Education accreditation, licensure, and credentialing (<https://www.neiu.edu/academics/college-of-education/departments/counselor-education/accreditation-licensure-and-credentialing/>). The School Counseling program at Northeastern Illinois University prepares students for employment as school counselors in elementary, middle and high schools. The School Counseling program emphasizes a developmental counseling approach integrating the philosophy and standards of the American School Counselor Association's (ASCA) National Model, the Developmental Counseling Model for Illinois schools, and the Illinois State Standards for School Counselors. NEIU school counseling program emphasizes social justice and advocacy in schools and data-driven practices, particularly to affect systemic change in educational settings to promote diversity, equity, and inclusion.

Students completing the master's degree in school counseling will meet the educational requirements for the Professional Educator License (PEL) in Illinois with an endorsement as a School Counselor, Pre-K-Age 22. The degree also meets the educational requirements for licensure in Illinois as a Licensed Professional Counselor (LPC) and Licensed Clinical Professional Counselor (LCPC).

The Department of Counselor Education also offers a Non-Degree School Counselor Endorsement leading to licensure as a school counselor for individuals with an advanced graduate degree in counseling or related fields.

## Admission Requirements

Counselor Education admits students twice a year, in January and August. The deadline to submit a complete application for the program for the spring term is Aug. 15. The deadline to apply for the fall term is March 15. Counselor Education deadline dates differ from other Northeastern M.A. program deadline dates.

Applicants can apply to the program through NEIU's online application system (<https://apply.neiu.edu/apply/>). The online application requires submission of the following:

- Application form
- Application fee
- Official transcripts from all colleges and universities attended
- Two recommenders (applicants will be prompted to enter contact information for 2 professional recommenders)
- Current resume
- Signed informed consent
- An Essay (500-700 words or less), typed and double-spaced (instructions provided in the application).

Application materials will be evaluated in regard to an applicant's academic aptitude, relevance of career goals, cultural competence, and potential for fostering therapeutic relationships. Applicants who meet the minimum requirements in their specific program (i.e., Clinical Mental Health Counseling, Couple and Family Counseling, School Counseling, Rehabilitation Counseling) will be invited to attend a Pre-admission Workshop (PAW). The PAW involves applicants participating in a series of group discussions facilitated by Counselor Education faculty. Dates and times to attend a PAW session are available on Slate.

## MINIMUM STANDARDS FOR ADMISSION TO THE PROGRAM

- Graduate Admissions and Records has established a minimum grade point average of 2.75 for undergraduate degrees. Applicants with undergraduate GPAs below 2.75 will not be admitted. Applicants who have earned a graduate degree from an accredited university are exempt from this requirement.
- Problematic or poor performance during the PAW will make an applicant ineligible for admission.
- Meeting the minimum academic requirements is no guarantee of admission.
- Admission to the Counselor Education Department is competitive. It is possible for an otherwise acceptable applicant to be denied admission due to the competitive strength of the applicant pool. The number of applicants that can be admitted to the program is limited. Those not selected for admission may reapply only once.

## ADMISSION DECISIONS

Admission decisions are based on the following:

- Relevance of career goals
- Aptitude for graduate-level study
- Potential success in forming effective counseling relationships
- Respect for cultural differences

**Prerequisites:**

- An Illinois Professional Educator License (PEL) meets the requirement.
- School Counseling applicants without a PEL are required to provide results of a state and federal fingerprint background check as part of the application process

---

## Non-Degree School Counselor Endorsement

The Department of Counselor Education offers a Non-Degree School Counselor Endorsement program designed for individuals who have completed a graduate degree in counseling or a closely related field and are seeking to meet the academic and clinical requirements to be eligible for endorsement as a school counselor in the state of Illinois.

**Applicants who are not current Counselor Education students must have a degree in counseling or a closely related mental health degree from an accredited university program that meets the academic and clinical requirements for licensure as a master's level mental health professional. Applicants can apply through NEIUs online application system. The online application (<https://apply.neiu.edu/apply/>) requires the following:**

### Admission Requirements for Non-Degree School Counselor Endorsement:

To be considered for admission, the applicant must have a GPA of 3.0 on a 4.0 scale and can apply to the program through NEIUs online application system. The online application (<https://apply.neiu.edu/apply/>) requires the following:

- Application form (<https://apply.neiu.edu/apply/>)
- Application fee
- Official transcripts from all colleges/universities attended
- Current resume
- Two recommenders (applicants will be prompted to enter contact information for two professional recommenders)
- Signed Informed Consent
- Essay: In 500-700 words, please respond to the following prompts:  
How do you see yourself aligning with NEIU's Counseling Department?  
Talk about your personal and/or professional experiences that make you a strong candidate.
- For applicants who hold a Professional Educator License (PEL): upload the PEL to your application portal
- For applicants who do not hold a PEL: results of a state and federal fingerprint background check. Review the instructions (<https://www.neiu.edu/sites/default/files/documents/2022/02/16/Accurate.Biometrics.Information.pdf>) for taking and submitting your background check results. The state results will be sent directly to the Goodwin College of Education. Upload the federal results to your application portal. If you are a DACA student we recommend going through Scenario B exclusively, listed on the GCOE (<https://www.neiu.edu/academics/daniel-i-goodwin-college-of-education/admission-requirements/federal-and-state-fingerprint-background-check-instructions-0/>) website under the Federal and State Fingerprint Background Check Instructions. Please contact the Associate Dean of the Goodwin College of Education at [gcoe@neiu.edu](mailto:gcoe@neiu.edu) for more information.
- Successful completion of coursework in the following areas: counseling theories and interviewing, human growth and development; assessment and evaluation; individual and group counseling; career development; family counseling; and multicultural counseling.

Contact Counselor Education at (773) 442-5550 or [counsedu@neiu.edu](mailto:counsedu@neiu.edu) for further questions or if the links are not working.

---

## Eligibility to Enroll in Classes

Once applicants are officially admitted to a program, they may register for classes during online registration periods. Those who have not yet been reviewed for selection may take only one course before being admitted: COUN 401 Professional Orientation and Legal/Ethical Practices. If an applicant is formally accepted into the program, the credits for the course will count towards their degree requirements. However, taking a course as a student-at-large does not guarantee admission to the program. Applicants admitted to the fall semester may begin taking classes in the summer semester.

The Department of Counselor Education allows non-degree seeking students to take courses as a student-at-large under certain circumstances, such as completing deficiencies for licensure. To request approval to take a course as a non-degree seeking student, please click on the following link and complete the form: <https://www.neiu.edu/academics/college-of-education/content/permission-take-courses-counselor-education-student-large>. We will contact you with an answer within five working days of receiving your form.

Authorization to enroll in courses as a non-degree seeking student in Counselor Education does not constitute admission to any of the Department's programs. Students who wish to pursue a master's degree in counseling must submit a formal application to Graduate Admissions. Non-degree seeking students can enroll only in courses for which they have been authorized by this Department. Some of the courses in the Department are not open to non-degree seeking students.

## Master of Arts in School Counseling

The Department of Counselor Education offers a 60 credit-hour program leading to the Master of Arts in School Counseling that also meets the educational requirements for obtaining an Illinois Professional Educator License (PEL).

Code	Title	Hours
<b>School Counseling required courses:</b>		
COUN-401	Professional Orientation & Legal/Ethical Practices	3
COUN-402	Developmental Counseling	3
COUN-403	Theories Of Counseling	3
COUN-404	Assessment And Evaluation In Counseling	3
COUN-405	Individual Counseling Skills	3
COUN-406	Group Counseling	3
COUN-408	Research Seminar	3
COUN-409	Career Development	3
COUN-410	Seminar In School Counseling	3
COUN-411	Post Secondary College & Career Counseling	3
COUN-412	Topics In School Counseling	3
COUN-415	Children And Youth In School And Family Systems	3
COUN-425	Diagnosis And Treatment Of Addictive Disorders	3
COUN-427	Diagnostic Systems For Counseling	3
COUN-430	Social & Cultural Diversity In Counseling	3
COUN-442	Practicum I:Group Supervision In School Counseling	3
COUN-462	Internship I:School Counseling	3
COUN-472	Internship II:School Counseling	3
Elective #1 (Consult with Advisor)		3
Elective #2 (Consult with Advisor)		3
<b>Total Hours</b>		<b>60</b>

### Program Completion Requirements

School Counseling students must complete all course prerequisites and pass the School Counselor (235) exam prior to beginning Practicum.

### Program Transition Levels:

Students must successfully complete all the program transition levels. Students cannot obtain more than two grades of "C" in graduate work as per the College of Graduate Studies and Research Policy. Students are required to earn a grade of "B" or better in their clinical courses (e.g., COUN 405, COUN 406, Practicum and Internship).

### Transition Level I

- Successful completion of prerequisites for clinical skills training courses
- Completion of first-semester student survey
- Demonstration of appropriate professional and ethical behaviors and dispositions
- Minimum GPA of 3.00
- Passing key program assessments

### Transition Level II

- Successful completion of clinical skills training coursework
- Demonstration of appropriate professional and ethical behaviors and dispositions
- Minimum GPA of 3.00
- Satisfactory rating on professional disposition evaluation
- Complete the Practicum application and submit to the Coordinator for Clinical Experiences
- Passing key program assessments for level II

### Transition Level III

- Successful completion of clinical experiences including Practicum and Internship
- Completion of minimum of 100 hours of Practicum
- Completion of 600 hours of Internship
- Satisfactory ratings on all evaluations from site and university supervisors
- Demonstration of appropriate professional and ethical behaviors and dispositions
- Minimum GPA of 3.00
- Passing key program assessments for level III

### Transition Level IV

- Completion of Exit Survey
- Passing of the departmental proficiency examination (DPE) prior to graduation

### Exit requirements for degree completion:

- Successful completion of all transition levels and required credit hours
- Minimum GPA of 3.00

## Clinical Experience

During the fall semester of the year before planning to do Practicum/Internship, students meet with their advisor to review readiness for Practicum and to sign the application form. Applications for clinical experience are distributed at the mandatory Practicum Orientation meeting or may be printed from the forms tab of the Department website. Applications for Practicum/Internship are due November 1 for fall placements of the following year. Students must attend a mandatory orientation meeting before submitting the application form. The date and the place of the orientation meeting are posted on the Department website, listserv, and Departmental bulletin boards. All applications must be reviewed and signed by the student's advisor. The student may then submit the signed application and the student's resume to the Coordinator of Clinical Experiences.

#### Practicum

Practicum is a 100 hour, field-based experience which requires a minimum of 40 hours of clinical contact with clients (contact hours), and is a prerequisite for Internship. Practicum is offered in the Fall semester.

#### Internship

Internship is a 600 hour, field-based experience which requires a minimum of 240 hours of clinical contact with clients. Students earn six credit hours for Internships I and II.

## Departmental Proficiency Examination

Prior to graduation, all students are required to pass a comprehensive examination. The DPE application (<https://www.neiu.edu/sites/neiu.edu/files/migrated-education-body/documents/2014/11/DPE-application-11-2014.pdf>) must be completed and signed by the student and their advisor and submitted to the Department of Counselor Education no later than two weeks prior to the exam date. School Counseling students may take the examination after completion of 36 credit hours of the following coursework:

Code	Title	Hours
COUN-401	Professional Orientation & Legal/Ethical Practices	3
COUN-402	Developmental Counseling	3
COUN-403	Theories Of Counseling	3
COUN-404	Assessment And Evaluation In Counseling	3
COUN-405	Individual Counseling Skills	3
COUN-406	Group Counseling	3
COUN-408	Research Seminar	3
COUN-409	Career Development	3
COUN-427	Diagnostic Systems For Counseling	3
COUN-430	Social & Cultural Diversity In Counseling	3
COUN-410	Seminar In School Counseling	3
COUN-412	Topics In School Counseling	3

## Requirements for Non-Degree School Counselor Endorsement

To complete the requirements for Non-Degree School Counseling Endorsement, students must successfully pass the following courses:

Code	Title	Hours
COUN-410	Seminar In School Counseling	3
COUN-411	Post Secondary College & Career Counseling	3
COUN-412	Topics In School Counseling	3
COUN-415	Children And Youth In School And Family Systems	3
COUN-442	Practicum I:Group Supervision In School Counseling	3
COUN-462	Internship I:School Counseling	3
COUN-472	Internship II:School Counseling	3

Please take note of the following critical update to the preceding DPE information: Each of the three semesters—Fall, Spring, and Summer—offers the DPE just once. To graduate, all students pursuing degrees in counselor education must pass the DPE. The scheduled dates are subject to change annually. For the most up-to-date and correct dates and instructions, visit the Counselor Education Current Student Resources (<https://www.neiu.edu/academics/daniel-l-goodwin-college-of-education/departments/counselor-education/current-student-resources/>) Website.

### Notification of Student Recess

Once having begun the Counselor Education program, if a student does not attend classes for more than two consecutive semesters (Fall, Spring, Summer), the student must notify the College of Graduate Studies and Research and the advisor of his/her intent to continue in the program. Faculty members reserve the right to review the student's course work upon reentry by the student and to require that certain courses be repeated if necessary. Students have a maximum of six years in which to complete their degree programs.

*This sample curricular map is provided to guide program planning for graduate students who plan to attend as full-time students. This guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor. Please note that students may choose to attend either full-time or part-time, depending on their need.*

*The Plans of Study for the programs in Counselor Education should be used as general guidelines for the completion of courses. These plans suggest how a student might complete a program in two calendar years by beginning in the fall semester and attending through two summer semesters. There are many factors that affect how students complete their programs, including whether they begin in the fall or spring semesters and whether they attend full-time or part-time.*

*All students in Counselor Education will have a mandatory orientation at the beginning of their programs and have a faculty advisor who will help in the planning of each student's course of study.*

# Certificate in Couple & Family Counseling

---

The Certificate in Couple & Family Counseling (CCFC) provides specialized training for counseling students and counseling professionals interested in learning how to apply evidence-based systemic theory, assessment, and intervention to their work with individuals, couples, and families. Mental health professionals with qualifying graduate degrees and students in graduate mental health professional counseling programs who complete the 6 course (18 credits) CCFC are eligible to accrue hours of supervised clinical experience and complete the MFT National Examination for licensure as a Marriage and Family Therapist (LMFT) in the State of Illinois. Additional information regarding licensure as an LMFT can be found on the website of the Illinois Department of Financial and Professional Regulation (<https://idfpr.illinois.gov/profs/marrfamtherapy.html>).

## Admission Requirements:

A graduate degree in Counseling or closely-related mental health field from an accredited university program in counseling, social work, clinical or counseling psychology that meets the academic and clinical requirements for licensure as a Master's level mental health professional  
OR

Enrollment as a student in good standing in one of Northeastern Illinois University's Counselor Education programs.

## Application terms:

To be considered for admission, the applicant must submit the following to Graduate Admissions:

### For applicants who are current Northeastern Illinois University students in Clinical Mental Health, Rehabilitation, or School Counseling:

- Certificate in Couple and Family Counseling application for Current Counselor Education Students (<https://www.neiu.edu/sites/neiu.edu/files/documents/dmwisnie/Application-CFC-current-students.pdf>)

For additional information regarding the application process for the CFC, or if the links are not working, please contact the Department at (773) 442-5550 or email [counsedu@neiu.edu](mailto:counsedu@neiu.edu).

**For applicants who are not current Counselor Education students, the applicant must have a degree in counseling or a closely-related mental health degree from an accredited university that meets the academic and clinical requirements for licensure as a master's level mental health professional, and submit:**

- Application for Admission to Graduate Programs - use the online application (<https://apply.neiu.edu/apply/>) (with \$30 application fee)
- Certificate in Couple and Family Counseling application (<https://www.neiu.edu/sites/neiu.edu/files/documents/dmwisnie/Application-Cert-Couple-Family-Counseling.pdf>)
- Official transcripts from all colleges and universities attended
- Two letters of recommendation
- Current resume
- Essay (see p. 2 of the Certificate in Couple and Family Counseling application)

## Curriculum in the Certificate in Couple and Family Counseling

The courses required to complete the CFC program are listed below. The two graduate-level elective courses are selected in consultation with the advisor for the Family Counseling Program in the Department of Counselor Education. All courses are 3-credit hour graduate courses. Students must successfully complete 18 credit hours of the following courses:

Code	Title	Hours
<b>Required Core Courses:</b>		
COUN-420	Introduction To Family Counseling	3
COUN-421	Advanced Couple And Family Counseling	3
COUN-431	Couple And Family Systems Study	3
COUN-432	Couples Counseling And Human Sexuality	3
<b>Elective Courses. Choose any two (total of 6 credit hours) of the following:</b>		
COUN-415	Children And Youth In School And Family Systems	
COUN-425	Diagnosis And Treatment Of Addictive Disorders	
COUN-429	Psychopharmacology	
COUN-434	Medical & Psychosocial Aspects Of Disability	
COUN-438	Trauma And Crisis Counseling	
COUN-439	Case Conceptualization & Treatment Planning	
PSYC-406	Aging And The Family	

# Addiction Counseling Certificate

---

The Addiction Counseling Certificate (ACC) provides specialized education and training in the prevention, intervention, and treatment of Alcohol and Other Drug Abuse (AODA) disorders. Specifically, the coursework provides education in the theories, techniques, and core functions of substance abuse counseling, focusing on evidence-based research and best practice standards. Specialized clinical experience complements coursework. This certificate program fulfills the educational requirements for Certified Alcohol and Drug Abuse Counselor (CADC).

**Applicants who are not current Counselor Education students must have a degree in counseling or a closely related mental health degree from an accredited university program that meets the academic and clinical requirements for licensure as a master's-level mental health professional. Applicants can apply through NEIU's online application system. The online application (<https://apply.neiu.edu/apply/>) requires the following:**

- Application form
- Application fee
- Official transcripts from all universities and colleges attended
- Current resume
- Two recommenders (applicants will be prompted to enter contact information for two professional recommenders)
- Signed Informed Consent
- Essay: In 500-700 words, please respond to the following prompts:  
How do you see yourself aligning with NEIU's Counseling Department?  
Please talk about your personal and/or professional experiences that make you a strong candidate for this program.

An application is reviewed only if all application materials are received by Graduate Admissions by the deadline date for the semester applied for.

---

**For applicants who are current Northeastern Illinois University students in Clinical Mental Health, Couple and Family, Rehabilitation or School Counseling:**

- Minimum GPA 3.0 on a 4.0 scale
- Addiction Counseling Certificate Application for Current Students ([https://www.neiu.edu/sites/default/files/documents/2022/05/12/Application.Current.Students.rev1\\_10.22.pdf](https://www.neiu.edu/sites/default/files/documents/2022/05/12/Application.Current.Students.rev1_10.22.pdf)). Once all signatures are collected, submit to Graduate Records at [graduate-records@neiu.edu](mailto:graduate-records@neiu.edu).
- Graduate Program Add Request Form (<https://www.neiu.edu/sites/neiu.edu/files/documents/2020/10/22/Program%20Add%20Request.pdf>). Once all signatures are collected, submit to Graduate Records at [graduate-records@neiu.edu](mailto:graduate-records@neiu.edu).
- An application is reviewed only if all application materials are received by Graduate Records by the deadline date for the semester applied for.

Contact Counselor Education at (773) 442-5550 or [counsedu@neiu.edu](mailto:counsedu@neiu.edu) if you have further questions or if the links are not working.

## The proposed Addiction Counseling Certificate (ACC) requires completion of 21 graduate credits.

### Required Core Courses

Code	Title	Hours
COUN-425	Diagnosis And Treatment Of Addictive Disorders	3
COUN-426	Advanced Treatment Of Addictive Disorders	3
COUN-428	Advanced Issues In Co-occurring Disorders And Counseling Interventions	3
COUN-429	Psychopharmacology	3
COUN-438	Trauma And Crisis Counseling	3

### Required Clinical Courses

Completion of 500 supervised clinical experience at an approved addiction counseling site. Students may choose from **one** of the four counselor education programs' Practicum and Internship courses:

**Clinical Mental Health Counseling:**

<b>Code</b>	<b>Title</b>	<b>Hours</b>
COUN-444	Practicum: Group Supervision In Clinical Mental Health Counseling	3
COUN-464	Internship I: Clinical Mental Health Counseling	3

**family counseling:**

<b>Code</b>	<b>Title</b>	<b>Hours</b>
COUN-445	Practicum I:Group Supervision In Couple And Family Counseling	3
COUN-465	Internship I:Group Supervision In Couple And Family Counseling	3

**rehabilitation counseling:**

<b>Code</b>	<b>Title</b>	<b>Hours</b>
COUN-446	Practicum In Rehabilitation Counseling	3
COUN-463	Internship I:Rehabilitation Counseling	3

**School counseling:**

<b>Code</b>	<b>Title</b>	<b>Hours</b>
COUN-442	Practicum I:Group Supervision In School Counseling	3
COUN-462	Internship I:School Counseling	3

# Certificate in Rehabilitation Counseling

---

The graduate certificate program in Rehabilitation Counseling prepares students to assist individuals with psychiatric, developmental, cognitive, emotional, or physical disabilities to achieve their maximum level of independence, integration, and inclusion into employment and the community. The certificate program is open to applicants who already possess a Masters or Doctoral degree in a related field of study, and desire to obtain certification in rehabilitation counseling through Category 3 eligibility requirements set forth by the Commission on Rehabilitation Counselor Certification.

The applicant must have a degree in counseling or a closely-related field from an accredited university program that meets the academic and clinical requirements for certification from the Commission on Rehabilitation Counseling Certification (CRCC), and submit the following to Graduate Admissions. Applications are accepted for the Fall semester only:

- Application for Admission to Graduate Programs (with \$30 application fee)
- Certificate in Rehabilitation Counseling application
- Official transcripts from all colleges and universities attended (must be in a sealed envelope or protectively e-scripted/mailed to Graduate Admissions from the sending institution)
- A letter of recommendation (must be mailed to Graduate Admissions if not submitted through the Graduate Programs online application)
- Current resume
- Informed Consent

The courses required to complete the 30-credit hour Certificate in the Rehabilitation Counseling program are listed below. All are graduate level courses offered via remote instruction:

Code	Title	Hours
Required Courses:		
COUN-403	Theories Of Counseling	3
COUN-408	Research Seminar	3
COUN-409	Career Development	3
COUN-433	Foundation Of Rehabilitation Counseling	3
COUN-434	Medical & Psychosocial Aspects Of Disability	3
COUN-435	Work & Disability	3
COUN-436	Case Management In Rehabilitation Counseling	3
COUN-446	Practicum In Rehabilitation Counseling	3
COUN-463	Internship I:Rehabilitation Counseling	3
COUN-473	Internship II:Rehabilitation Counseling	3
<b>Total Hours</b>		<b>30</b>

# Graduate Certificate in Trauma-Informed Counseling

---

The graduate certificate program in Trauma-Informed Counseling is designed for current students, alumni, and professionals who have already earned their Master's degree in the field to enhance their understanding of the effects of trauma on clients' emotional, cognitive, behavioral, neurological, and physical systems across the lifespan. Courses focus on topics such as the effects of trauma exposure, grief and complex trauma, culturally appropriate and gender-responsive assessment and interventions, relational trauma, developmental trauma, secondary trauma, self-care, and self-compassion. The certificate program meets the educational requirements of Certified Clinical Trauma Professional (CCTP) certification standards.

## Admission Requirements

The graduate certificate in Trauma-Informed Counseling is designed for current NEIU graduate students in the Department of Counselor Education, students in mental health-related graduate programs at NEIU, and post-graduates with a master's degree or above in a mental health-related field.

Applicants who are not current Counselor Education students must have a degree in counseling or a closely related mental health field from an accredited university program that meets the academic and clinical requirements for licensure as a master's level mental health professional. Applicants can apply through NEIU's online application system. For applicants **not** enrolled in one of NEIU's graduate programs in mental-health related fields:

- Minimum GPA of 3.0 on a 4.0 scale
- Application for Admission to Graduate Programs
- Application for Certificate in Trauma-informed Counseling
- Official Transcripts from all universities and colleges attended
- Two letters of recommendation
- Current resume
- Informed Consent
- Successful completion of graduate coursework in the following areas: counseling theories and interviewing, human growth and development, assessment and evaluation, individual and group counseling, and family counseling. Applicants who have not successfully completed the required coursework may fulfill them during the course of their studies toward the certificate in trauma-informed counseling program.

For applicants enrolled at NEIU in a mental health-related graduate program:

- Minimum GPA 3.0 on a 4.0 scale
- Application for Certificate in Trauma-informed Counseling
- A letter of support from current graduate advisor

Please contact Counselor Education at (773) 442-5550 or [counselu@neu.edu](mailto:counselu@neu.edu) if you have further questions or if the links are not working.

The courses required to complete the 18-credit hour Certificate in Trauma-Informed Counseling program are listed below. All courses are graduate courses:

Code	Title	Hours
Required Courses:		
COUN-422	Interventions For Grief & Traumatic Bereavement Across The Lifespan	3
COUN-424	Resiliency, Wellness, And Self-Care In Trauma Counseling	3
COUN-428	Advanced Issues In Co-occurring Disorders And Counseling Interventions	3
COUN-437	Trauma-Focused Assessment And Integrative Counseling Interventions	3
COUN-438	Trauma And Crisis Counseling	3
Choose from one of the following elective courses:		3
COUN-429	Psychopharmacology	
COUN-439	Case Conceptualization & Treatment Planning	
COUN-432	Couples Counseling And Human Sexuality	
COUN-412	Topics In School Counseling	
COUN-434	Medical & Psychosocial Aspects Of Disability	
PH-410	Epidemiology	
<b>Total Hours</b>		<b>18</b>

# Health Sciences, Physical Education, Educational Foundations, and Urban Community Studies

---

The Department of Health Sciences & Physical Education (HSPE) is located in the Physical Education Complex at the south end of the campus. This facility includes two gymnasias, a suspended jogging track, a climbing wall, one high ropes course, four racquetball courts, two mirrored fitness studios, a 25 yard swimming pool and diving well, a fitness center, four tennis courts, a baseball field, a softball field, a soccer field, classrooms, the Department of HSPE's Human Performance Laboratory, and faculty/staff offices.

The goals of the Department are to provide students with:

1. An awareness of the role of health, physical education, recreation, athletics, and exercise sciences in schools and society;
2. The opportunity to acquire competencies that will enable them to be successful in varied educational and professional settings;
3. The opportunity to develop a satisfactory level of proficiency in many areas of the discipline; and
4. A basis and desire for continued professional growth following graduation.

The Department of Health Sciences and Physical Education offers a Bachelor of Arts in Physical Education K-12 Licensure, Bachelor of Science in Community Health, Master of Public Health, Master of Science in Exercise Science, Graduate Certificate in Public Health, Graduate Certificate in School Health, Minor in Health Promotion, and Minor in Exercise Science.

---

## Educational Foundations

The Educational Foundations is home to coursework for those seeking to become educators in alternative contexts, to develop as community and teacher leaders, or to enhance their understanding of the historical, political, and social underpinnings of education in and out of classrooms within urban areas and beyond. Our students leave our department uniquely prepared as reflective, collaborative, and transformative education professionals.

The coursework introduces students to content and application of educational ideas from the disciplines of philosophy, psychology, history, anthropology, economics, political science and sociology as basic to understanding educational processes. Each program in the Goodwin College of Education requires specific Educational Foundations coursework. Please refer to the specific program for the program's required Educational Foundations courses.

---

## Urban Community Studies

Programs in Urban Community Studies (UCS) are offered at the Jacob H. Carruthers Center for Inner City Studies (CCICS), 700 East Oakwood Boulevard, 60653, in the heart of Chicago's historic Bronzeville community. The scholar/activist thrust is the overriding entity that drives the community and academic programming of the programs of the Carruthers Center.

The Programs in Urban Community Studies, through the Goodwin College of Education, offer the following degrees:

Bachelor of Arts in Urban Community Studies  
 Minor in Urban Community Studies  
 Master of Arts in Urban Community Studies

### Health Sciences and Physical Education

- Major in Physical Education PreK-12 Licensure (<http://catalog.neiu.edu/education/health-sciences-physical-education/physical-education-k-12-licensure/>)
- Major in Community Health (<http://catalog.neiu.edu/education/health-sciences-physical-education/community-health/>)
- Minor in Health Promotion (<http://catalog.neiu.edu/education/health-sciences-physical-education/minor-health-education/>)
- Minor in Exercise Science (<http://catalog.neiu.edu/education/health-sciences-physical-education/minor-exercise-science/>)

### Educational Foundations

- Educational Foundations Coursework (<http://catalog.neiu.edu/education/educational-inquiry-curriculum-studies/educational-foundations-sequence/>)
- Minor in Educational Studies (<http://catalog.neiu.edu/education/educational-inquiry-curriculum-studies/minor-educational-foundations/>)

### Urban Community Studies

- Major in Urban Community Studies (<http://catalog.neiu.edu/education/educational-inquiry-curriculum-studies/inner-city-studies-education/>)
  - Minor in Urban Community Studies (<http://catalog.neiu.edu/education/educational-inquiry-curriculum-studies/minor-inner-city-careers/>)
-

Students considering a major or minor in the Department of Health Sciences, Physical Education, Educational Foundations, and Urban Community Studies should make an appointment with the program advisor and/or the Department Chair.

Students pursuing a degree in the Department must maintain a 2.75 (on a 4.0 scale) grade point average in all major courses for admission and retention.

NOTE: For all undergraduate programs, students must receive a grade of "C" or above in all major courses. Students with a grade below a "C" will have the opportunity to repeat the course only once.

The Department Professional Standards Committee reviews faculty recommendations for students requiring special attention and meets with the student to discuss and remedy any areas of improvement.

### **Health Sciences and Physical Education**

Master of Science in Exercise Science (<http://catalog.neiu.edu/education/health-sciences-physical-education/master-science-exercise-science/>)

Master of Public Health (<http://catalog.neiu.edu/education/health-sciences-physical-education/master-public-health/>)

Graduate Certificate in Public Health (<http://catalog.neiu.edu/education/health-sciences-physical-education/graduate-certificate-public-health/>)

School Health Graduate Certificate (<http://catalog.neiu.edu/education/health-sciences-physical-education/school-health-graduate-certificate/>)

### **Educational Foundations**

## **educational foundations**

### **EDFN-109. First Year Experience: Schooling Chicago: Communities, Public Education And Change. 3 Hours.**

This course analyzes education in and outside Chicago Public Schools as a key social institution that both influences and is influenced by the larger society. You will be introduced to a wide array of topics and case studies that elaborate on the embeddedness of classrooms and schools in social environments across Chicago. This course will span a variety of school processes such as curricular differentiation, social and economic reproduction, voluntary associations (extra-curricular clubs, parent organizations), social groupings and peer influence. Particular attention is paid to questions about the relationship between social stratification and education. For example, how is the structure, content and funding of schools across Illinois affected by wider social and political conflicts? Does educational attainment affect an individual's economic status? Does education promote social equality? This course will introduce students to use of new information technologies in k-12 education.

### **EDFN-202. Laboratory In The Foundations Of Education. 1 Hour.**

Students will be guided toward appropriate experiences in a school setting that will increase their understanding and utilization of concepts developed in the foundations courses. Chicago metropolitan area schools and other settings will be used as the laboratory.

**EDFN-203. Laboratory In The Foundations Of Education. 2 Hours.**

(See EDFN-202 for description.).

**EDFN-204. Laboratory In The Foundations Of Education. 3 Hours.**

(See EDFN-202 for description.).

**EDFN-206. Laboratory In Foundations Of Education. 1 Hour.**

(See EDFN-202 for general description) Specific to understanding and utilization of concepts developed in EDFN-306 (Educational and Individual Differences).

**EDFN-207. Laboratory In Foundations Of Education. 1 Hour.**

(See EDFN-202 for general description) Specific to understanding and utilization of concepts developed in EDFN-307 (Psychology of Instruction and Learning).

**EDFN-214. Technology In The Classroom. 3 Hours.**

This course focuses on instructional use of media technology and helps participants develop foundational skills in technology integration in the classroom. They will learn to use various programs and tools in the educational context. Participants will understand how to enhance teaching and learning experiences through the meaningful integration of technology.

**EDFN-215. Schools As A Social Institution. 3 Hours.**

This course explores the underpinnings of American public education. Students explore key historical moments, within broader social, cultural, political and economic developments, that shape responses to questions about the role of schools in society. For example, what is the purpose of schools? Who should be educated? What should that education consist of? Students will unpack the different perspectives surrounding these questions and explore parallels to debates in education today. This course lays the foundations to understand schools as a complex social institution that can potentially empower individuals and simultaneously operate in contradictory ways.

**EDFN-216. Child And Adolescent Development:Individual Differences. 3 Hours.**

Consideration of Human developmental individual differences, including diversity within physical, social, emotional, and cognitive domains from birth through adolescence. Focus will include: 1) genetic, maturational, and environmental factors effects on development; 2) impact of special education and other federal laws on working with children in the classroom; 3) building observational skills for assessing differences to aid student development; 4) study of selected individual children or adolescents; 5) application of principles to classroom practice. Ten hours of classroom observation required. Ten hours of service required.

**EDFN-217. Educational Psychology. 3 Hours.**

Principles of educational psychology, focusing on learning, assessment of learning, motivation and classroom management for a diverse, global society, including special need students. Ten hours of classroom observation required. Ten hours of service learning required.

**EDFN-302. Philosophical And Historical Foundations Of Early Childhood Education. 3 Hours.**

This course examines the philosophical, historical, and psychological underpinnings of early childhood education for children from birth to age eight in public and private school settings. It evaluates trends in the field, current social and family issues that affect young children and their families. It examines children's health, wellness, safety and nutrition and how families' access to resources often impacts these factors. The course also evaluates different types of programs and services for young children and families, and examines early childhood educators' professional standards with an emphasis on linking theory with classroom practice.

**EDFN-303. Early Childhood Development. 3 Hours.**

This course is designed to study the growth and development of young children from birth through second grade, including physical, cognitive, language and socio-emotional development. The course presents major theories, principles, concepts and research in child development and how to provide learning opportunities that support these areas of development. Candidates learn how early brain development is promoted through developmentally and culturally appropriate learning experiences, and discuss how children differ in their development and approaches to learning. The course also addresses the basic principles of health, nutrition, children's safety needs, and trauma and resiliency.

**EDFN-305. Philosophical And Historical Foundations Of Public Education. 3 Hours.**

The exploration of differing views of the aims of public education in America. The study of the historic settings in which the system developed. Identification of major social and cultural problems in relation to their historic antecedents. The study of various philosophic schools of thought and their impact on educational theory and practice, past and present.

**EDFN-306. Education And Individual Differences. 3 Hours.**

Consideration of individual differences and principles of human development as factors in creating effective learning environments. Emphasis on: (1) understanding children and adolescents as individuals with differing abilities, aptitudes, interests, emotional responses and accomplishments as the result of genetic, maturational and environmental factors. Special attention given to children and adolescents covered by Public Law 94-142; (2) observational skills for assessing differences in order to aid student development. Focused study by each student of children or adolescents at a particular age level; (3) application of knowledge of developmental and individual differences to classroom practice. Twenty hours of classroom observation required. A federal background check will be required for in-person school observations.

**EDFN-307. Psychology Of Instruction And Learning. 3 Hours.**

Study and application to the teaching situation of theories and principles of learning (cognitive, affective, behavioral), motivation and classroom management including problems of mainstreaming. Also attention to establishing objectives, instructional design concepts, evaluation of learning and introduction to statistical analysis of scores. Focused study by each student of classroom in terms of application of theories and applications associated with learning and instruction. Twenty hours of classroom observation required. A federal background check will be required for in-person school observations.

**Prerequisites:** College of Education Admission YES and (EDFN-306 minimum grade of C or ZFND-306 minimum grade of C).

**EDFN-308. Teaching And Learning. 1.5 Hour.**

This course is designed to have the learner study and apply psychological theories and principles of instruction, learning (cognitive, affective, and behavioral), classroom and school-wide diversity, motivation, productive learning environments, assessment strategies, achievement, classroom management including inclusion, standardized testing and interpreting test scores. Offering this course concurrently with student teaching will allow students an authentic learning experience allowing them to directly apply theory learned in this course to real life issues that they are experiencing in their student teaching.

**Prerequisite:** College of Education Admission YES.

**EDFN-312. Seminar In Current Educational Literature. 3 Hours.**

An examination of current educational literature included would be recent research findings, important views of educational critics, newly developed theories of learning and education and innovative practices in educational institutions.

**EDFN-313. Problems, Issues And Practices In Education. 3 Hours.**

An in-depth examination of salient issues confronting contemporary American education. Topics selected are varied in accordance with student interest.

**Prerequisite:** College of Education Admission YES.

**EDFN-314B. Race, Identity, & Cultures In Education. 3 Hours.**

This course examines theories and methods of educating children of diverse racial, cultural and linguistic backgrounds in the U.S. school system. Students will learn how to identify cultural, and linguistic differences that may impede a person's progress in an educational system or in learning a new language or culture. Students will develop an understanding of how these differences can be used as a positive rather than negative resource in the teaching-learning process.

**EDFN-314K. Social Justice And The Politics Of Education. 3 Hours.**

In this course, students will examine social justice concerns in educational policy and practice. This course will explore theories and debates about social justice goals and themes, and education. Through our study of critical issues in education globally and locally, we will explore ideas about the role of education in society. The following questions are central to the course: What concepts and conditions constitute "social justice"? What kind of education is needed in a democracy? What is the relationship between schooling and participation in democratic life?.

**EDFN-314L. Gender, Race, And Class Issues In Education. 3 Hours.**

This course focuses on the role of the educational system in the constructions and reproduction of gender and racial inequality. Using both academic and popular literature to gain perspectives, we will examine relationships between school and society. Topics to be addresses include the historical constructions, representation of schooling and the teaching profession, popular culture and education, class and schooling, access and equity of schooling experiences, as well as sexuality and schooling.

**EDFN-319. Adolescent Development. 3 Hours.**

This course focuses on adolescent development of middle level students with attention to its impact on psychology and education. The content includes theories related to middle school students' self-concept, affect, motivation, effective thinking, interpersonal skills, classroom diagnosis, individualization, teacher effectiveness, roles and problems of teachers, moral development, diversity, inclusion, effective parenting, learning styles, and developing independent learners.

**Prerequisite:** College of Education Admission YES.

**EDFN-342. Teaching With Technology. 3 Hours.**

This course focuses on instructional use of computer technology and helps students develop technology integration skills. Students will understand how to enhance learning experiences through meaningful integration of technology. They will learn to use different programs and tools to facilitate teaching and learning in classrooms.

**Prerequisite:** College of Education Admission YES.

**EDFN-343. Using Technology In Classrooms. 2 Hours.**

This course focuses on the instructional use of computer technology and helps students develop foundational skills in technology integration in K-8 classrooms. Students will understand how to enhance learning experiences through meaningful integration of technology. They will learn to use different programs and tools to facilitate teaching and learning in classrooms.

**EDFN-350. Philosophy Of Curriculum Integration In Middle Grades. 3 Hours.**

This course focuses on the philosophical, theoretical, and practical tenets of middle level education. The course explores interdisciplinary project-, problem-, and challenge-based curriculum to learn various approaches for developing cohesive, integrated curriculum and authentic assessment in the middle grades 5-8. Particular attention will focus on developing skills through inquiry and justice-oriented projects that transcend disciplinary boundaries and are relevant and responsive to students' questions and curiosities.

**Prerequisite:** EDFN-305 with a minimum grade of C and EDFN-319 with a minimum grade of C and ELED-300 with a minimum grade of B and SPED-317 with a minimum grade of B and MLED-302 with a minimum grade of B and MLED-310 with a minimum grade of B and BLBC-338 with a minimum grade of B and MLED-328A with a minimum grade of B and ELED-303 with a minimum grade of B and MLED-309 with a minimum grade of B and MLED-305 with a minimum grade of B.

**EDFN-405. Development Of Educational Thought. 3 Hours.**

An examination of the historical development of American education and some of its antecedents. A study of the educational theories of selected philosophies; an examination of the purposes of education in pluralistic America; an evaluation of educational institutions and practices in terms of present circumstances.

**EDFN-406. Human Development And Learning. 3 Hours.**

The study of theories and principles of development of school age children and youth. Focus on current theories and research and their implications for learning and identification of teaching practices that facilitate the acquisition of intellectual and social skills of children and youth. Attention to characteristics covered by PL.94-142 as well as differences due to social, cultural and ethnic factors. Twenty hours of classroom observation required. A federal background check will be required for in-person school observations.

**EDFN-407. Learning Theories And Educational Practices. 3 Hours.**

Analysis of classroom learning and management in terms of principles and theories of learning and motivation and recent research on effective teaching. Twenty hours of classroom observations required. A federal background check will be required for in-person school observations.

**Prerequisite:** College of Education Admission YES.

**EDFN-409. Individual Differences And Educational Practice. 3 Hours.**

This course is designed to have candidates consider individual differences of human development and how these changes impact learning. Current educational and human development theories and research will be used to understand that children and adolescents are individuals with differing abilities, aptitudes, interests and emotional responses due to genetic, maturational, cultural, societal and environmental factors. Candidates will apply theories and principles of instruction, learning, diversity, motivation, bullying prevention and intervention, social emotional development and socially just classroom management to guide and inform teaching practice.

**Prerequisite:** College of Education Admission YES.

**EDFN-410. Education As A Social Institution. 3 Hours.**

Study of the school as a social system and as an institution which influences and is shaped by other institutions of society. Particular attention is given to urban education. Laboratory experiences are expected.

**EDFN-411. Comparative Education. 3 Hours.**

This course provides the student in the College of Education with an opportunity to study a variety of critical issues and current topics which relate to the fields of comparative and international education. This course will provide students with an opportunity to utilize Internet and other distance education opportunities. Students participating in this course will also have the option of participating in an educational experience outside of the United States. This international experience is designed to enhance the students's mastery of international and comparative education elements of the course topic.

**EDFN-411B. Leadership In Communities And School. 3 Hours.**

This course provides the student with an opportunity to analyze and examine leadership as a theoretical process with consideration of practical applications. Leadership models will be used to plan, evaluate, implement and facilitate positive change in and among schools and communities.

**EDFN-413. Power, Communities And Change. 3 Hours.**

The purpose of this course is to provide a forum and structure for community and school leaders to increase their understanding of school-community relations while enhancing their ability to implement effective programs and act as change agents. Participants will deepen their understanding of salient and critical global and local policy issues and develop skills to actively and participate in the public life of their communities. Course involves out of class time activities and community engagement.

**EDFN-415. Educational Thought And Secondary Schooling. 3 Hours.**

In this course, candidates examine critical issues in U.S. education and discuss them in light of the social, economic, and political conditions of the times. Throughout the course, candidates focus on the following recurring themes: (a) sociopolitical consciousness; (b) cultural competence; and (c) academic success. Candidates will analyze how these themes manifest in contemporary contexts, examine their own educational experiences and philosophies, and identify curricular and pedagogical strategies for promoting success among diverse students. This course includes a variety of instructional strategies: reading, research, lecture, guided discussion, small group discussion, candidate presentations, group projects, directed writing assignments and community engagement/experiences.

**Corequisite:** SCED-415.

**EDFN-416. Cultural Pluralism And Schools. 3 Hours.**

The study of multicultural groups: differences and commonalities. Special emphasis is on the investigation and evaluation of various concepts and models of cultural and subcultural relationships as manifested in the schools. Study and application of ethnographic methods to sub-cultures related to and within the educational context.

**EDFN-420A. Seminar In Development & Learning: Contemporary Issues In Middle Level Education. 3 Hours.**

This course examines theory and key components involved in middle level education settings relating to historical and contemporary issues facing middle schools. In focusing on historical, organizational, and philosophical characteristics of middle schools, and how these impact middle level education as well as educators, the course explores social and cultural issues and their impact on middle level students, and his/her school. Topics include but not limited to an overview of challenging curriculum and instruction, empowering and equitable schools and classrooms for all middle level students and their families, and dealing with special aspects of middle school design and development.

**EDFN-421. Middle School Advisory & Counseling. 3 Hours.**

This course emphasizes the ways middle school teachers can help meet the developmental needs of early adolescents through consultation, collaboration and counseling. Content includes key elements of an effective middle school guidance program and how to implement these elements in schools; the developmental characteristics and needs of early adolescents as related to the development of school guidance, advisory, special education and regular education programs and the teacher advisor as a communicator, student advocate, supporter-confidant and home-school liaison who can assess, coordinate and refer students for various health, social and special needs services.

**EDFN-441. Digital Literacy: Learning And Leadership. 3 Hours.**

This course is intended to foster digital literacy among participants as it applies to education and leadership. Course content will emphasize contemporary issues and utilize authentic learning experiences to improve participants' digital technology knowledge and skills. Through the improvement of technology knowledge and skills, participants' leadership capacity will be developed or enhanced so that they may be able to use technology effectively as school leaders or community leaders.

**EDFN-442. Media Technology For Educators. 3 Hours.**

The media technology course will encompass all types of curricular/learning materials in varied formats  $\zeta$  CD-ROM, laser disc technology, telecommunications, satellite learning, and online databases. Multimedia educational software will be integrated into computer instruction in multicultural/multiethnic learning presentations. Electronic data management, classroom application, and integrated learning systems will be utilized in educational settings.

**EDFN-443. Integrating Media Technology Into Elementary Classroom. 3 Hours.**

This class will familiarize participants with media and technology for instructional use in K-8 classroom settings. Participants will learn to utilize current media technology to enhance teaching, learning, and assessments. The learning activities in this class include the development of projects that enhance the creativity and media technology knowledge base of teacher candidates. This knowledge base will be developed through readings, interactive discussions, reflections, creative process, and presentations. This course focuses on both the knowledge and skills needed to use technology to teach, to design curriculum, and also to enable elementary students use the technology in their assignments.

**EDFN-450. African Studies Institute (AfSI). 3 Hours.**

As the origin of humanity, Africa's history is steeped in culture, biodiversity, and indigenous knowledge. The African Studies Institute (AfSI) introduces students to Africa and heightens their curiosity to research and explore more about this fascinating continent. AfSI is a good fit for students in education who are interested in learning about Africa and/or will be working with students, refugees and immigrants from Africa. Moreover, AfSI provides the necessary tools for teachers and other professionals who are interested in integrating African sociocultural, linguistic, historical, political, human rights, and economic contexts into their teaching practice and workplace.

**Requirement:** Graduate standing or approval from the instructor and the Dean of the College of Graduate Studies and Research for undergraduates.

**EDFN-451. Research Methods. 3 Hours.**

The purpose of this course is to help develop knowledge, skills and dispositions related to standardized and action research methods. This course will include quantitative, qualitative and mixed methods designs, data collection, analysis and interpretation as they relate to teaching and leadership. Students will understand how assessment is used to improve learning and achievement, how professional development improves learning and how leadership enhances learning and development.

**EDFN-452. Technology In Content Area Teaching. 1.5 Hour.**

This course intends to familiarize participants with technology for instructional use in secondary school classrooms. Participants will gain insights into how technology could be used for instructional applications, and learn to implement current technology to enhance teaching and learning in content areas. Participants in this course will gain hands-on experience in technology integration in instructional activities. The activities in this class include the development of projects that enhance the creativity and technology knowledge base of teacher candidates. This knowledge base will be developed through readings, reflections, interactive discussions, creative process, and presentations.

**EDFN-453. E-learning Design And Development. 3 Hours.**

This course is designed to empower participants to create effective e-learning experiences for instruction, training, professional development and other learning environments. Educators, instructional designers, trainers or anyone who is interested in e-learning will be equipped with the essential guidelines and multimedia programs to design and develop e-learning content and activities. Participants will also explore the trends of e-learning.

**EDFN-455A. Seminar I. 3 Hours.**

This seminar provides an opportunity for students to synthesize educational, intellectual and experiential interests. Students apply relevant research to their area of inquiry and utilize this research to write a master's level research paper. This process will involve both intensive individual work and significant engagement with peers' projects creating an interdisciplinary learning community through interaction and collaboration. Students are expected to follow a prescribed procedure under the direct guidance and supervision of the instructor that will produce a research proposal.

**EDFN-455B. Seminar II. 3 Hours.**

This seminar provides an opportunity for students to synthesize educational, intellectual and experiential interests. Students apply relevant research to their area of inquiry and utilize this research to write a master's level research paper. This process will involve both intensive individual work and significant engagement with peers' projects creating an interdisciplinary learning community through interaction and collaboration which implements a research proposal and culminates in a completed research study. Students are expected to follow a prescribed procedure under the direct guidance and supervision of the instructor.

**Prerequisite:** EDFN-455A with a minimum grade of C.

**EDFN-492. Social Justice Education In Schools. 3 Hours.**

This course engages students in an examination of historical and contemporary approaches to promoting equity and justice in K-12 education, including curricular, pedagogical, and policy-related interventions. Topics include but are not limited to the relationship between social justice education and student outcomes, strategies for enacting social justice in standards-based classrooms, and approaches to designing, implementing and evaluating social justice curriculum and policy.

**EDFN-497. Critical Race Theory In Education. 3 Hours.**

The purpose of this course is to provide an introduction to the tenets of Critical Race Theory (CRT) in legal scholarship and education as a means to interpret education in school and community contexts. Incorporating legal, historical, policy analysis and sociological approaches, this class develops analysis and praxis through CRT in the examination of educational concerns. Through the incorporation of various segments of critical theory (e.g. post-modern, post-structural, post-colonial, critical feminism, etc.) the class seeks to place CRT in the realm of education for social justice. This course is reading and writing intensive.

**Exercise Science****EXSC-210. Group Exercise Instructor. 3 Hours.**

In this course students will learn how to design resistance and cardiovascular training programs based on periodization principles that are specific to group exercise classes. Successful completion of this course will allow students to sit for the exam to become a Certified Group Exercise Instructor.

**EXSC-215. Resistance & Cardiovascular Training For Health & Fitness. 3 Hours.**

In this course students will learn how to design a resistance and cardiovascular training program based on periodization principles that are specific to an individual. Successful completion of this course will allow students to sit for the exam to become a Certified Personal Trainer.

**EXSC-304. Testing And Prescription For Health And Fitness. 3 Hours.**

This course focuses on the physiological rationale for health-related fitness tests (i.e., cardiorespiratory endurance, muscular strength/endurance, muscular flexibility, and body composition) and covers the procedures for utilizing the information collected from these tests. The course also provides laboratory and field experiences on how to conduct and evaluate health-related fitness tests.

**Prerequisite:** PEEMT-306 with a minimum grade of C.

**EXSC-315. Design Of Specific Exercise Programs. 3 Hours.**

In this course students will learn how to design a resistance and cardiovascular training program based on periodization principles that are specific to an individual or sport. Successful completion of this course will allow students to sit for the exam to become a Certified Strength and Conditioning Specialist.

**Prerequisite:** EXSC-215 with a minimum grade of C.

**EXSC-350. Independent Study Exercise Science. 3 Hours.**

In this course the instructor will work with the student to develop classroom materials as well as field experiences that are directly related to the students' future career interests. This course is taken in the students' final semester and needs departmental approval to enroll in it.

**Requirement:** Departmental Approval.

**EXSC-403. Research Methods In Exercise Science, Physical Education, Sport, And Recreation Settings. 3 Hours.**

This course provides an introduction to the types of research methods and design utilized in exercise science, physical education, sport, and recreation settings. Students will learn how to read and interpret peer-reviewed literature and use that literature to develop a research proposal.

**EXSC-404. Exercise Testing And Prescription. 3 Hours.**

The laboratory component of the course provides instruction and experience in the performance of laboratory and field tests for the measurement of variables needed to evaluate the health-related fitness components (i.e., cardiorespiratory endurance, muscular strength/endurance, muscular flexibility, and body composition). The lecture component of the course focuses on the physiological rationale for these tests and covers the procedures for utilizing the information collected in laboratory and field testing. Specifically, students will be instructed on the evaluation the health-related fitness status of tested individuals and on the prescription of exercise training regimens for health-related fitness status alteration and physical performance enhancement. An equipment fee of \$125 is required.

**EXSC-405. Applied Nutrition. 3 Hours.**

The course provides instruction in macronutrient requirements at rest and during exercise, energy balance for body composition alteration or maintenance (i.e., obesity prevention), fluid and electrolyte balance during exercise, and the vitamin/mineral concerns associated with exercise and performance. Additionally, the course will consider the preventative role of nutrition in various disease states including cardiovascular disease, degenerative bone disease, and diabetes.

**EXSC-413. Development And Management Of Physical Education, Recreation, And Sport Programs. 3 Hours.**

The course provides instruction on the development and management of physical education, recreation, and sport programs in schools, universities, corporations, and recreational facilities. Specifically, an overview and the underlying principles of operating facilities, sales/marketing strategies, member/ staff recruitment, management practices, equipment purchase/ maintenance, health/ safety considerations, financial management, legal issues, and insurance considerations will be discussed.

**EXSC-414. Program Development And Management In Health Promotion. 3 Hours.**

The course provides instruction in the area of organizational development and management in the health promotion field. Specifically, the procedures for needs assessment, planning, implementation, resource identification/ allocation, marketing and evaluation for health promotion programs will be discussed.

**EXSC-415. Exercise Management In Chronic Diseases And Disabilities. 3 Hours.**

The course expands on the exercise testing and prescription information covered in EXSC-404 to include special population with chronic disease and/or disabilities. The course provides a pathophysiological overview of various cardiovascular, pulmonary, metabolic, immunological/hematological, orthopedic, neuromuscular, cognitive, emotional and sensory disorders. A major portion of the course deals with exercise management in people with these disease/ disabilities and, in particular, instruction on the special exercise testing and prescription considerations for these populations (e.g., abnormal exercise response potential, exercise interaction with commonly prescribed medication, etc.).

**Prerequisite:** EXSC-404 with a minimum grade of D.

**EXSC-416. Practices In Cardiac Rehabilitation. 3 Hours.**

The course provides the student with a concise and comprehensive overview of the research and currently accepted professional practice in the fields of heart disease primary prevention and cardiac rehabilitation. Specifically, the epidemiology, pathophysiology, diagnosis and treatment of heart disease will be discussed. Included in these discussions will be the diagnostic and prognostic use of exercise testing in cardiac patients. Additionally, a significant portion of the course will cover cardiovascular disease risk factor modification and the rehabilitation cardiac patients, including exercise prescription guidelines for this special population.

**Prerequisite:** EXSC-404 with a minimum grade of D.

**EXSC-418. Current Topics In Exercise And Sport Science. 3 Hours.**

The course provides students with the opportunity to explore the current research in the various areas that encompass the Exercise Sciences. Additionally, students are provided with a venue in which to discuss, with their peers and their professors, these topics salient to their professional growth and development. Understanding of these current topics is evaluated through the students' written reviews, oral presentations, and participation in class discussions of the presented reviews.

**EXSC-419. Psychology Of Exercise & Health Behaviors. 3 Hours.**

Research and psychological theories are examined in relation to Exercise and Physical activity behaviors across the lifespan; Psychological responses to exercise, sport and physical activity are examined in relation to behavior change and adherence. Students learn how to develop psychological interventions for increasing exercise participation and adherence.

**EXSC-420. Prevention Of Chronic Disease Through Diet & Exercise. 3 Hours.**

The course covers the molecular and cellular basis of prevention of chronic diseases. The emphasis is on the biological mechanisms of the causes of chronic diseases and on how dietary components and repeated stressful exercise alter the mechanisms of cause to reduce risk for these diseases. The major topics include: inflammation, obesity, metabolic syndrome and diabetes, atherosclerosis, and cancer.

**EXSC-421. Motor Control And Learning. 3 Hours.**

The course provides instruction in how humans control locomotion and how they learn/re-learn motor skills. Specifically, the course emphasizes the observable behavioral aspects of motor control/learning while detailing the neurophysiological and biomechanical processes that result in the aforementioned motor behaviors.

**EXSC-422. Biomechanics. 3 Hours.**

The course provides instruction in how the interaction between anatomy, physiology, and the laws of physics affect and control human movement and performance. Specifically, the biomechanics of work and energy, balance and movement control, force load and force production, and fatigue during exercise and performance will be discussed.

**EXSC-427. Adapted Physical Education, Recreation, And Sport Programs. 3 Hours.**

The course provides instruction on the history, current status, and future directions of adapted physical education, recreation, and sport programs within our society. The course will include discussions on the psychosocial and medical issues that must be considered when working with individuals with disabilities. Students will learn about existing sports, sport modifications, participation opportunities, and participation barriers for individuals with performance-altering impairments. Field work and visits to various agencies included in these programs.

**EXSC-430. Internship. 3 Hours.**

The course provides students the opportunity to gain practical exercise science (e.g., fitness, wellness, or human performance) career experience in corporate, commercial, institutional, community, educational, rehabilitative or research settings.

**EXSC-431. Independent Study/Research. 3 Hours.**

The course affords students the opportunity to conduct an independent experimental, descriptive, analytical or qualitative research project within the exercise sciences. The credit hours can also be used for faculty-monitored learning of advanced laboratory methodology not covered in the current curriculum. Planning of the proposed research project or independent study must be supervised and approved by an EXSC faculty member prior to course enrollment approval. Submission of a written report of the completed research project or independent study will be required for all students.

**Prerequisite:** EXSC-403 with a minimum grade of D.

**EXSC-433. Rehabilitation And Performance Injuries. 3 Hours.**

The course provides instruction in the prevention, management, and rehabilitation of performance injuries. The topics discussed include an overview of the prevention and care of injury, techniques for injury risk management, the pathology of injury, various injury management skills (e.g., psychosocial intervention, injury evaluation/emergency care, therapeutic modalities, and exercise rehabilitation), and an overview of the evaluation, care, and rehabilitation of various specific performance-related injuries.

**EXSC-434. Physiology Of Aging And Physical Activity. 3 Hours.**

The course provides instruction in the theories of the aging process and the age-related changes in the functioning of various physiological systems. Specifically, the age-related changes in bioenergetics, work capacity/ efficiency, cardiopulmonary function, muscular strength, endurance, motor control, motor performance, and psychosocial functioning, among other variables are discussed. Additionally, the potential role of physical activity and exercise in the alteration of these age-related changes, quality of life indices, functional capacity, and productivity in the elderly will be presented.

**Prerequisite:** EXSC-402 with a minimum grade of D.

**EXSC-435. Theory & Methodology Of Coaching. 3 Hours.**

The course provides instruction on the theories and methodologies of sport coaching. Specific emphasis will be placed on the planning, implementation and assessment aspects of coaching, including the philosophical foundations of coaching, technical and tactical coaching principles and player assessment strategies.

**EXSC-442. Sports-Specific Exercise Training. 3 Hours.**

This course integrates the cellular basis of performance enhancement with the components of fitness and of skill enhancement to develop an integrated and applied-science approach to exercise training for: the maximum-performance/moderate-skill sports of sprint & long-distance running, cycling, and swimming; the high-level fitness/high-skill sports of gymnastics, hockey, and soccer, and to the lower-level fitness/high-skill sports of basketball, football, and golf.

**EXSC-444. Cellular Physiology Of Exercise. 3 Hours.**

The course provides instruction in the bioenergetics of human movement. Specifically, cellular metabolism and its neuroendocrine control, at rest and in response to both acute and chronic exercise, will be discussed. Additionally, the processes and control of transcription, protein synthesis, and protein degradation will be covered.

**EXSC-445. Cardiovascular & Respiratory Physiology Of Exercise. 3 Hours.**

The course provides advanced instruction in the functioning of the respiratory, cardiovascular and skeletal muscular systems at rest and during exercise. Specifically, the course will provide instruction in pulmonary ventilation, myocardial functioning, circulatory response and skeletal muscle contraction, as well as neuroendocrine control of these processes, at rest and during exercise. Additionally, the exercise-specific application of these physiological processes will be discussed in reference to strength/endurance exercise training adaptations, neuro-muscular fatigue, ergogenic aids (i.e., human performance enhancement substances), gender-related performance differences, and youth exercise/performance.

**EXSC-5901. Thesis Hours. 1 Hour.**

For those students selecting the Thesis Option for the Master of Science in Exercise and Sport Science degree, the course provides faculty guidance in the areas of research question development, research design, data analyses, data interpretation, written research presentation and oral research presentation.

**EXSC-5902. Thesis Hours. 2 Hours.**

For those students selecting the Thesis Option for the Master of Science in Exercise and Sport Science degree, the course provides faculty guidance in the areas of research question development, research design, data analyses, data interpretation, written research presentation and oral research presentation.

**EXSC-5903. Thesis Hours. 3 Hours.**

For those students selecting the Thesis Option for the Master of Science in Exercise and Sport Science degree, the course provides faculty guidance in the areas of research question development, research design, data analyses, data interpretation, written research presentation and oral research presentation.

## Health Science

**HSCI-107. Health For Effective Living. 3 Hours.**

Consideration of concepts related to the physical, mental and social dimensions underlying personal health. Emphasis upon motivation for intelligent self-direction of health behavior based upon current scientific facts.

**HSCI-109. First Year Experience: Health And Wellness In Chicago. 3 Hours.**

In this course the four foundations (Future planning, Academics, Self-discovery and Transitions) of the First-year Experience are interwoven with the field specific concepts of health, wellness, and the urban environment of Chicago. Students will learn basic skills and identify resources throughout the city to help them become successful students. Students will learn the importance of addressing issues related to health in the urban environment and the professions they might pursue to address these issues.

**HSCI-200. Community Health. 3 Hours.**

This course is an introduction to community health, public health, and health education that includes health services, environmental health, behavioral health, public policy, healthcare systems, occupational health and other subfields. Students will explore the concepts of advocacy and health disparities on local and global levels in the context of historical and contemporary events. Students will locate and interpret valid health information, practice assessment skills, develop educational interventions for priority populations, act as a resource person, and advocate for the profession and health of others. This will be accomplished through course discussions, assignments, and presentations.

**HSCI-203. Fitness Education. 3 Hours.**

This course will cover the development and implementation of numerous fitness-related activities and current trends in fitness for physical education. Students will be introduced to the components of health and skill related fitness, principles of training and fitness pedagogy through experiential activities. Students will achieve a thorough understanding of fitness.

**HSCI-303. Human Sexuality And Sex Education. 3 Hours.**

This course provides a foundation for educating others in the area of human sexuality. Students will acquire knowledge about anatomy, pregnancy, childbirth, contraception, sexually transmitted infections, and the consequences of inadequate sex education at the individual, community, and societal levels. An emphasis will be placed on social, cultural, political, and religious influences and historical context. Students will evaluate their own values and beliefs and apply health education, learning, and behavior principles to the design and development of sex education.

**HSCI-307. Human Diseases. 3 Hours.**

This course uses a multidisciplinary approach to discuss the etiology, the major underlying determinants, transmission, prevention, control, and treatment of communicable, chronic, and degenerative diseases. It examines the relationship between disease and political, social and economic development. Drawing upon the sciences, social sciences and humanities, students are introduced to the nature and determinants of communicable, non-communicable, and neglected tropical diseases; and they explore the factors shaping the distribution of disease, as reflected in local, national, and international health goals and research. They also will examine modern approaches disease prevention and health promotion priorities.

**HSCI-309. Nutrition And Health. 3 Hours.**

This course provides a foundation in nutrition through the examination of the connection between eating and personal health. It also discusses the biological, socioeconomic, cultural, environmental and psychological factors that impact dietary intake. Using a prevention framework, students will explore chronic diseases and intuitive eating. Emphasis will be placed on the relationships between dietary nourishment, health, and quality of life.

**HSCI-312. Global And Environmental Health. 3 Hours.**

This course will address the relationships between global health, environmental health, and political, social and economic development. Drawing upon the biological, social, and behavioral sciences, students will examine the determinants related to population health throughout the world. Understanding historical context and applying theoretical constructs are critical to this process. Local, national, and international goals, as well as current research, serve as both evidence and resources.

**HSCI-314. Epidemiology And Human Diseases. 3 Hours.**

Presents principles and practices related to the cause, prevention and control of disease. Emphasis is placed on understanding the occurrence and distribution of disease, incidence and prevalence rates and descriptive and analytic epidemiological studies. Additional emphasis is placed on the application of epidemiologic data to primary, secondary and tertiary prevention.

**HSCI-315. Writing Intensive Program: Writing In The Health Sciences And Physical Education. 3 Hours.**

This course is a writing intensive experience, offering students the opportunity to develop written communication skills in their profession. Topics include evaluating sources of information, conducting an annotated bibliography using library databases, citing references using APA format, ethical use of resources, utilizing a multi-step writing process, summarizing communications, building a persuasive argument, proposing a solution to a problem, and explaining a phenomenon. Exercises include developing press releases, memo, article critiques, newsletter articles, a grant application, resume, and cover letter in application for a job. Information sources include peer-reviewed and popular periodicals, videos, websites, textbook, and other appropriate media.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**HSCI-316. Health Disparities: Individual, Communities, And Systems. 3 Hours.**

In this course, learners will examine how health disparities are defined and discuss the major underlying determinants of poor health and the relationship between health and key socio-demographic variables, including race, sex/gender, age, income, education, and immigrant status. It explores the factors shaping the distribution of poor health, locally and globally, and their connection with historical, social, environmental, economic, and political systems. It also considers the impact of global income inequality on health risks, availability and access to health resources. Learners will explore local and global efforts to narrow and eliminate inequalities via a variety of interventions.

**HSCI-317. Age, Death, And Dying. 3 Hours.**

This course will provide students with an interdisciplinary understanding of the human experiences of aging, death and dying, focusing primarily on psychosocial, mental health, behavioral, and ethical issues. Students will examine the way individuals, communities, and societies perceive and manage the elderly and the issues surrounding the end of life. The causes and effects of attitudes towards these subjects will be explored as well as how these perceptions relate to health behavior.

**HSCI-318. Consumer Health. 3 Hours.**

Prepares the student to make wise choices in the selection of health products and health services. Emphasis on proper utilization of the health care system and evaluation of products and services with regard to cost and impact on physical and mental health. Includes identification of reliable sources of health-related information, laws and agencies to protect the consumer.

**HSCI-319. Substance Use And Abuse Education. 3 Hours.**

This course provides a foundation for educating others in the area of substance use and abuse. Students will acquire knowledge about addiction and legal/illegal drug use and the consequences of inadequate drug education at the individual, community, and societal levels. An emphasis will be placed on social, cultural, political, and religious influences and historical context. Students will evaluate their own values and beliefs about substance usage and apply health education, learning, and behavior principles to the design and development of drug education.

**HSCI-320. Cancer Health Policy. 3 Hours.**

This course on cancer-related policy cross-examines topics related to cancer as a chronic degenerative disease from diverse disciplinary lenses including public health, biology, economics, and social science. Students will be exposed to various cancer-related issues under the guidance of an instructor and experts in the oncological, social sciences and health policy fields. This course will also explore socio-political issues that influence cancer related policy in United States and other countries.

**HSCI-323. Mental And Emotional Health. 3 Hours.**

This course covers the principles of community and personal mental, emotional, and social well-being. Employing a socio-ecological approach, students study the individual, family, organizational, biological, historical, and societal factors influencing mental health. Students learn how to improve personal mental health through reflective practice and behavioral strategies, promote community mental health through educational strategies, and advocate for the mental health of others. Ethical use of technology to support learning, reflection, communication, and collaboration is foundational to this course.

**HSCI-340. Health Behavior Theory & Practice. 3 Hours.**

This course is an introduction to the fundamental theories in behavior. Because theory and practice are driven by research, the course will also introduce students to examples of health promotion research. Students will analyze constructs that explain or predict behavior including intrapersonal capacity, interpersonal supports, and environmental contexts. They also will apply individual and community-based theories to the design of a community health intervention.

**HSCI-350. Community And Public Health Education Methods. 3 Hours.**

In this course, students develop skills to communicate health information effectively and positively affect population health at the individual, community, and societal levels. Students apply health behavior, communication, and learning theories and models to develop, implement, and evaluate community and public health messages for selected audiences. Emphasis is placed on multicultural humility and competence, health literacy, empowerment, and equity. Ethical use of technology to support learning, reflection, communication, and collaboration is foundational to this course.

**Prerequisite:** College of Education Admission with a score of Y and HSCI-340 with a minimum grade of C.

**HSCI-355. Organization & Administration Of School Health. 3 Hours.**

This course introduces students to the connections between health and student learning and to the components of a coordinated school health approach. Students will explain the role of the school health coordinator, assess and advocate for school health needs, plan a school health initiative, and identify opportunities for professional growth. Collaboration and the ethical use of technology to support learning, reflection, and communication is foundational to this course.

**HSCI-357. Introduction To Health Care Management And Leadership. 3 Hours.**

This course will provide a general introduction to leadership and management in the field of health care. Students will explore concepts, processes, and theoretical content considered necessary for persons who intend to practice in a health care administrative position. Emphasis is placed on the differences between leadership and management, profit and nonprofit, and health care and other commodities with ongoing attention to social, cultural, economic, and environmental accountability.

**HSCI-360. Health Program Management & Evaluation. 3 Hours.**

In this course, students develop skills to design, develop, and implement a health promotion program that addresses population health. After identifying stakeholders and partners, students conduct a community health assessment, establish program goals, and develop implementation, management, and evaluation plans. Emphasis is placed on multicultural humility and competence, empowerment, and equity. Ethical use of technology to support learning, reflection, communication, and collaboration is foundational to the course.

**Prerequisite:** HSCI-340 with a minimum grade of C or HSCI-350 with a minimum grade of C.

**HSCI-364. Theories And Concepts Of School Health Education. 3 Hours.**

This course introduces theories and concepts of health education. Students will explain the role of the health education teacher as a resource person and consider professional and ethical issues in health education. Students also will apply principles and procedures for planning, implementing, and evaluating school health education. This process includes utilizing best practices in instructional and assessment strategies to foster health literacy in the health education classroom. Collaboration and the ethical use of technology to support learning, reflection, and communication is foundational to this course.

**HSCI-365. Health Education For The High School. 3 Hours.**

This course provides future and practicing educators the functional knowledge and skills needed to teach high school health education effectively. Developing a health education learning segment, that aligns with state and national standards, integrates technology to improve learning outcomes, and meets the needs of a diverse student population will form the focus of the course. Inquiry and theoretical approaches, collaboration, and reflective practice are employed.

**HSCI-370. Field Experience: Community Health. 9 Hours.**

The 200-hour community health field experience affords students the opportunity to integrate concepts and skills, learned in the curriculum, while immersed in a community and public health setting. A weekly seminar provides interns a forum to debrief field experiences, learn about the profession, and prepare for a job search. Completion of performance-based assessments aligned with public health competencies support the development of a professional portfolio.

**Prerequisite:** HLED-360 with a minimum grade of C.

**HSCI-375. Health Promotion Field Experience. 3 Hours.**

This course provides a 100-hour field experience for Community Health minors. Students meet weekly to share and debrief their field experiences, collectively solve instructional and site management problems, revisit research and theory regarding addressing the needs of a diverse learning audience, and learn about the health promotion profession. Observation, reflection, presenting, and assessment are critical activities in this course.

## Physical Education

**PEMA-105. Beginning Swimming. 1 Hour.**

The course is designed for participants with little or no swimming ability or experience. Students will acquire basic swimming and water safety skills.

**PEMA-110. Yoga For Beginners. 1 Hour.**

The course is designed for participants with little or no yoga experience. Students will acquire basic yoga skills and practice yoga poses.

**PEMA-115. Meditation For Stress, Anxiety, And Mental Clarity. 1 Hour.**

In this course students will practice a range of meditative techniques ranging from guided meditation, mantra meditation, silent sitting and yoga nidra-deep dreamless yoga sleep. Each class will consist of practice and reflection. Outside class work will include select readings to assist students in understanding the benefits of meditation. Students will develop their own practice using a practice guidebook of their own making.

**PEMA-152. Judo And Self-Defense. 1 Hour.**

Examination and practical application of judo and self-defense techniques. Special emphasis on proper training methods, physical conditioning, teaching techniques, and rules and regulations in contests.

**PEMA-161. Badminton. 1 Hour.**

Introduction to basic skills: clear shots, serves, drop shots, smashes, offensive and defensive strategies. Rules, singles and doubles; tournaments.

**PEMA-162. Bowling. 1 Hour.**

Theory and practices; rules, regulations, skill practice, tournament play and handicapping and coaching.

**PEMA-163. Golf. 1 Hour.**

Instruction designed for beginning and experienced golfers in proper use of woods; long, middle, and short iron shots; putting, and specialty shots. Etiquette and rules of golf; visitation to driving range and golf course.

**PEMA-166. Recreational Games. 1 Hour.**

Choosing, teaching and organizing informal recreational activities, including non-traditional, creative activities, sedentary, competitive and cooperative play situations.

**PEMA-172. Basketball. 1 Hour.**

This course will cover the basic skills of basketball including dribbling, passing, and shooting as well as offensive and defensive strategies. Students will be introduced to small game play and team strategies. They will gain a basic understanding of basketball rules and officiating. Students will achieve proficiency in the fundamentals of basketball.

**PEMA-203. Weight Training. 3 Hours.**

Basic principles of weight training and its effects on the body; proper lifting and training technique, individualized programs for general fitness or athletics, isometrics and safety procedures.

**PEMA-210. Lifeguard Certification American Red Cross. 2 Hours.**

This course is designed to teach the skills required to become an American Red Cross Lifeguard. This will include swimming skills in order to perform lifeguarding skills, Cardiopulmonary Resuscitation (CPR), and Automated External Defibrillation (AED). Students who qualify may be certified as a Lifeguard. Student must pass a pre-course swimming skills test and meet all the requirements by the American Red Cross Lifeguard Course in order to be certified. This will include attendance at a minimum of 25 hours in class and passing the written and skills exams.

**PEMA-215. Water Safety Instructor Certification American Red Cross. 2 Hours.**

This course is designed for physical education students and other professionals who will be expected to teach aquatics. It includes progressive swimming instruction, observation, and participation in other aquatic activities and peer teaching. Students who qualify may be certified as Water Safety instructors (WSI). Students must pass a pre-course swimming skills test and meet all the requirements by the American Red Cross WSI in order to be certified. This will include attendance at a minimum of 32 hours in class.

**PEMA-332. Fundamentals Of Yoga Philosophy And Practice. 3 Hours.**

Introduction to the philosophy and practice of yoga. The philosophical view will be based on Pantanjali's yoga system. In addition, proper breathing techniques, nutrition, positive thinking, relaxation, concentration and stress management will be covered.

**PEMA-334. Philosophy And Practice Of Yoga II. 3 Hours.**

This course builds on PEMA-332: Fundamentals Of Yoga Philosophy And Practice. Through reading, discussion, and practice the following will be covered: anatomy and body systems in relation to advanced yoga asana, advanced yoga asana practice, overcoming obstacles to develop your own personal practice and teaching of advanced asana yoga, historical concepts of Western and Vedic ideas, and metaphors present in Eastern thinking.

**Prerequisite:** PEMA-332 with a minimum grade of C.

**PEMT-109. First Year Experience: Chicago Body Works. 3 Hours.**

This course will give students a comprehensive and practical view of the importance of fitness and nutrition in their daily lives. Students will be engaged in activities that they can participate in for life. They will learn the underlying fundamentals of a fit for life attitude. Each student will be provided with the knowledge and understanding of how to assess their current level of fitness and how to make improvements in the five health-related fitness component areas (cardiovascular fitness, body composition, flexibility, muscular strength and muscular endurance) through various physical and skill related activities. Also emphasized will be the importance and application of proper nutrition. A strong focus will be the multifaceted and diverse challenges faced by individuals committed to pursuing wellness in Chicago.

**PEMT-109B. First Year Experience: Adventure In Chicago. 3 Hours.**

This course is a hands-on experiential based approach to learning about and using cooperative learning, teams, challenge and adventure education, simulations and debriefing processes to create positive learning environments that promote engaged active learning. The course will focus on themes of self-knowledge, diversity, dealing with conflict, classroom dynamics, establishing effective learning environments, building peer and teacher-student trust and relationships that promote a "caring classroom".

**PEMT-151. Fundamentals Of Rhythms. 3 Hours.**

This course will cover basic locomotor movements, choreography skills (movements with music), and several genres of dance (i.e. ballet, jazz, and modern). Students will be introduced to a wide range of dance forms (social, cultural, and creative dance) and dance pedagogy. Students will achieve proficiency in a variety of fundamental dance skills and basic teaching strategies.

**PEMT-201. Introduction To Principles And Methods In Physical Education. 3 Hours.**

Principles, methods, aims and objectives of physical education; the place of physical education in the school curriculum; general and specific objectives; general techniques in teaching; principles of selecting content; progressions, building curricula to fit varying schools; lesson planning leadership, and squad organizations; co-operation with teachers, supervisors and administrators.

**PEMT-203. Fitness Education. 3 Hours.**

This course will cover the development and implementation of numerous fitness-related activities and current trends in fitness for physical education. Students will be introduced to the components of health and skill related fitness, principles of training and fitness pedagogy through experiential activities. Students will achieve a thorough understanding of fitness.

**PEMT-231. Teaching Target, Net, And Wall Activities In Physical Education. 3 Hours.**

A content course focused on movement skills and knowledge for students in grades 3-12 within activity categories aligned to National Standards and Grade Level Outcomes for K-12 Physical Education. Teacher candidates will develop common and specialized content knowledge related to target, net, and wall activity categories. In addition, teacher candidates will recognize and understand academic language and theory related to teaching and learning target, net, and wall activity categories.

**PEMT-235. Teaching Physical And Health Education Concepts For Classroom Teachers. 3 Hours.**

This course will cover the fundamental principles and basic methodology of teaching physical and health education concepts for elementary classroom teachers. Students will be introduced to fundamental content knowledge and introductory teaching methodology. Students will achieve a broad understanding of quality physical and health education concepts and a variety of strategies to successfully implement them into active, developmentally appropriate lessons.

**PEMT-242. Cooperative Learning In Adventure Education. 3 Hours.**

This course is a hands-on experiential based approach to learning about and using cooperative learning, teams, challenge and adventure education, simulations and debriefing processes to create positive learning environments that promote engaged active learning. The course will focus on themes of self-knowledge, diversity, dealing with conflict, classroom dynamics, establishing effective learning environments, building peer and teacher-student trust and relationships that promote a "caring classroom".

**PEMT-251. Fundamentals Of Rhythms. 3 Hours.**

This course will cover basic locomotor movements, choreography skills (movements with music), and several genres of dance (i.e. ballet, jazz, and modern). Students will be introduced to a wide range of dance forms (social, cultural, and creative dance) and dance pedagogy. Students will achieve proficiency in a variety of fundamental dance skills and basic teaching strategies.

**PEMT-276. Teaching Invasion, Striking, And Fielding Activities In Physical Education. 3 Hours.**

A content course focused on movement skills and knowledge for students in grades 3-12 within activity categories aligned to National Standards and Grade Level Outcomes for K-12 Physical Education. Teacher candidates will develop common and specialized content knowledge related to invasion, striking, and fielding activities. In addition, teacher candidates will recognize and understand academic language and theory related to teaching and learning invasion, striking, and fielding activity categories.

**PEMT-300. Adventure Education Programming. 3 Hours.**

Course will focus on how to integrate an interdisciplinary adventure-based program into traditional school curricula. The following topics will be investigated: Philosophical knowledge of adventure education, liability and safety in program design and developing interdisciplinary education units.

**PEMT-302. Kinesiology. 3 Hours.**

A systematic approach to the analysis of the responses of the human organism to both internal and external forces. The human body as an instrument for solving environmental challenges in movement will be investigated from both qualitative and quantitative perspectives. Lecture and laboratory.

**PEMT-303. Adapted Physical Education And Recreation. 3 Hours.**

The purpose of PEMT-303 is to provide students with the knowledge and basic skills required to meet the professional and legal mandates pertaining to kinesiology for individuals with disabilities. This course encompasses all sub-specialties in the profession with particular emphasis on children and their physical and motor development in schools. The course provides lesson plan writing, practical teaching opportunities and experiences for each student enabling each learner to gain the following; understanding of the knowledge and skills for students with disabilities, and planning and teaching students with disabilities in K-12 setting.

**PEMT-305. Functional And Structural Human Anatomy. 3 Hours.**

This course will cover the fundamental functional and structural anatomical aspects of the human body. Students will be introduced to the skeletal, muscular, nervous, respiratory, cardiovascular, endocrine and reproductive systems. Students will achieve a broad understanding of the function and structure of these systems and how this knowledge can be applied in health and physical activity settings.

**PEMT-306. Exercise Physiology. 3 Hours.**

This course will cover a broad understanding of the metabolic processes and various physiological systems that underlie human movement. Students will be introduced to the specific adaptations that occur within the body as a result of various types of physical activity. Students will achieve a strong understanding of how physiological concepts, related to human movement, explain the impact of exercise and physical activity on the body. Additionally, students will be able to apply their knowledge of these systems to provide more effective exercise, sport and physical activity programs. Departmental approval required.

**PEMT-307. Assessment In Physical Education. 3 Hours.**

This course will cover the role of assessment in k-12 physical education programs. Students will be introduced to the development of assessments in the psychomotor, cognitive and affective learning domains. In addition they will learn basic statistics, introductory data manipulation, presentation, and analysis. Students will achieve an understanding of the basic principles of assessment, creation of developmentally appropriate assessments, and achieve proficiency in the manipulation, presentation, and interpretation of assessment data.

**PEMT-308. Motor Skill Behavior. 3 Hours.**

This course will cover the central theories of motor skill behavior, concepts of motor skill behavior, and their practical application in instructional settings. Students will be introduced to motor skill learning theories, concepts explaining central and sensory control of movement, childhood motor development, and factors influencing motor skill learning. Students will achieve a broad understanding of how to apply these theories and concepts in practitioner based settings such as teaching, coaching, clinical and therapeutic environments.

**PEMT-309. Sport & Exercise Psychology. 3 Hours.**

This course will cover the psychological theories and constructs that underlie performance in sport, exercise and physical activity settings. Students will be introduced to the foundational theories that explain individual and contextual factors that influence behavior in the physical realm. A theory to practice approach will be used to understand the psychology of sport and exercise behavior.

**PEMT-310. Socio-Cultural Influences On Physical Activity. 3 Hours.**

This course will cover the contemporary and historical perspectives on social and cultural issues that influence youth in physical activity settings. Students will be introduced to issues including race, gender, sexuality, body image, and socioeconomic status and how they influence physical activity. Students will achieve a broader understanding of how these issues influence physical activity and strategies to encourage participation.

**PEMT-311. Introduction To The Theory And Methodology Of Coaching. 3 Hours.**

This course will cover the basic theory, methodology, and principles of athletic coaching. Students will be introduced to sport and exercise science theory, instructional methodology, and pedagogical principles related to athletic coaching. Students will achieve a broad understanding of how theory and methodology underpin quality athletic coaching and the ability to apply these concepts in practice. Requires Departmental authorization/approval.

**PEMT-341. Physical Education Curriculum Design. 3 Hours.**

This course will cover the design and implementation of current physical education curricular models. Students will be introduced to developmentally appropriate methodologies for lessons, units, and semester planning for a variety of models. Students will achieve an understanding of how to develop and apply these models in k-12 physical education settings.

**Prerequisite:** PEMT-201 with a minimum grade of C and PEMT-203 with a minimum grade of C.

**PEMT-343. Foundations Of Physical Education In Early And Elementary Education. 3 Hours.**

This course will cover the basic pedagogical principles and methodologies for the design and implementation of physical education in PreK thru 6th grades. Students will be introduced to planning, pedagogy, behavior management, assessment, and evaluation of student performance. Students will achieve the theoretical knowledge (classroom) and the practical experiences (field experience) required to fulfill the professional responsibilities of a successful elementary school physical educator. Additionally, students will be required to observe 20 hours in an elementary physical education setting.

**Prerequisite:** PEMT-201 with a minimum grade of C and PEMT-203 with a minimum grade of C.

**PEMT-344. Foundations Of Physical Education For Middle & High Schools. 3 Hours.**

This course will cover the basic pedagogical principles and methodologies for the design and implementation of physical education at the middle and high school levels. Students will be introduced to planning, pedagogy, behavior management, and assessment and evaluation of student performance. Students will achieve the theoretical knowledge (classroom) and the practical experiences (field experience) required to fulfill the professional responsibilities of a successful middle or high school physical educator. Additionally, students will be required to observe 20 hours in middle or high school physical education settings.

**Prerequisite:** PEMT-201 with a minimum grade of C and PEMT-203 with a minimum grade of C.

**PEMT-351. Independent Study In Physical Education. 1 Hour.**

Special project of the student's choosing relating to some facet of physical education.

**PEMT-352. Independent Study In Physical Education. 2 Hours.**

(See PEMT-351 for description.).

**PEMT-353. Independent Study In Physical Education. 3 Hours.**

(See PEMT-351 for description.).

**PEMT-355. Physical Education Clinical Experience. 3 Hours.**

In this course students will be introduced to authentic physical education classroom settings and the planning, implementation, and assessment processes that occur. Students will be required to complete a minimum of 100 hours of clinical observation (50 elementary, 50 secondary) during this course. This course also will cover basic components of the edTPA portfolio, including a review of planning, implementation, and assessment in physical education. Students will achieve a broad understanding of the edTPA process and the factors that influence quality physical education within the school setting. Departmental Authorization/Approval required.

**PEMT-375. Student Teaching And Seminar In Physical Education. 12 Hours.**

This course requires sixteen weeks of full-day student teaching and practical teaching experience in a preK-12 physical education setting. Students enrolled in this course are supervised by a cooperating teacher and a university supervisor, who conducts a weekly seminar associated with student teaching.

**Prerequisite:** PEMT-355 with a minimum grade of C.

**PEMT-375B. Student Teaching And Seminar In Physical Education. 6 Hours.**

This course requires sixteen weeks of full-day student teaching and practical teaching experience in a preK-12 physical education setting. Students enrolled in this course are supervised by a cooperating teacher and a university supervisor, who conducts a weekly seminar associated with student teaching.

**Prerequisite:** PEMT-355 with a minimum grade of C.

**PEMT-400. Adventure Education. 3 Hours.**

The course will focus on how to integrate an interdisciplinary adventure-based program into physical education and recreational settings. The course is an experiential based approach to learning that uses cooperative learning, team building, simulations, and debriefing processes to create positive learning environments that promote engaged active learning. Liability and safety measures to consider when designing and developing adventure education programs will be addressed as well.

**PEMT-410. Socio/Cultural Influences On Physical Activity, Sport, And Recreation. 3 Hours.**

This course will cover contemporary and historical perspectives on social and cultural issues that influence youth and adults in physical activity, sport, and recreation settings. Students will be introduced to issues including race, gender, sexuality, body image, and socioeconomic status and how these factors influence physical activity, sport, and recreation.

**PEMT-440. Contemporary Curricula In Physical Education. 3 Hours.**

This course will cover the design and implementation of current physical education curricular models. Students will be introduced to developmentally appropriate methodologies for lessons, units, and semester planning for a variety of models. Students will discuss the application of these curricula and how to implement them into their current physical education teaching setting.

**PEMT-445. Contemporary Teaching Methods In Physical Education. 3 Hours.**

This course will cover contemporary pedagogical principles and methodologies for the design and implementation of physical education at the elementary, middle, and high school levels. Students will discuss, apply, and implement the most current theoretical knowledge and practical experiences within physical education pedagogy.

## Public Health

**PH-400. Introduction To Public Health. 3 Hours.**

In this course, students will be introduced to the profession and science of public health, inclusive of its history, philosophy, values, and roles. Students also will be introduced to the intersecting factors influencing human health and healthy equity including environmental, biological, genetic, behavioral, psychological, social, political, racism, and economic. With a particular focus on marginalized communities, students examine major trends of morbidity and mortality, explain the role of prevention, and compare the US's and other countries' health care systems. Instruction recognizes students' lived experiences and insights and integrates these into discussions and other exercises that promote critical thinking and analysis.

**PH-405. Social And Behavioral Health Theory. 3 Hours.**

This course will cover theories of social and behavioral health and their application to the assessment, implementation, and evaluation of public health initiatives. In this course students will learn how to implement health behavior interventions that use intrapersonal, interpersonal, and ecological/community theories and models to create positive health behavior changes within individuals, communities, and societies. The assessment, implementation, and evaluation of health behavior interventions will focus particularly on marginalized communities with specific and ongoing attention to the intersections they experience including, but not limited to, race, ethnicity, sexuality, socio-economic position, gender, age, trauma, ability and location.

**Requirement:** Accepted to the MPH program or Program coordinator approval.

**PH-410. Epidemiology. 3 Hours.**

This course provides a foundation in the occurrence, distribution, and determinants of health, diseases, injuries, disability, and mortality in populations. Content includes epidemiological measurements and study designs, their key ethical issues, and their relationship to disease prevention, treatment, and control. Students examine the social, behavioral, and psychological determinants of vulnerability to disease among groups classified by race, ethnicity, sexuality, gender, socio-economic position, gender, age, ability, and location, as well as the intersections of these classifications. Students also practice strategies for designing and supporting public policies that appropriately and effectively promote health in the communities where they live.

**PH-415. Biostatistics. 3 Hours.**

This course provides an introduction to statistical methods with a focus on public health. Topics include collection, summarization, and analysis of data and the interpretation of and inferences from results. It will include analyses of data that demonstrate how bias affects marginalized communities, with specific and ongoing attention to the intersections they experience including, but not limited to race, ethnicity, sexuality, socio-economic position, gender, age, trauma, ability and location. Students will study current research articles to develop their ability to distinguish bias in data collection, data analysis, and resulting government policy. The course includes a project focusing on health disparities.

**Requirement:** Accepted to the MPH program or Program coordinator approval.

**PH-420. Environmental Health. 3 Hours.**

This course addresses topics in Environmental Health as they relate to public health. Students develop the knowledge to discuss topics such as air quality; water quality; food safety; risk assessment; indoor health; vector and pest management; and the management of chemical, biological, and physical environmental agents. The context will focus on marginalized communities with specific and ongoing attention to the intersections they experience including, but not limited to, race, ethnicity, sexuality, socio-economic position, gender, age, trauma, ability and location. This will be accomplished through case analyses and with the goal to advocate for equity and justice in legislation and policy.

**Requirement:** Accepted to the MPH program or Program coordinator approval.

**PH-425. Global Health. 3 Hours.**

This course uses a multidisciplinary approach to discuss the major underlying determinants of poor health. Students will be introduced to the evolution of modern approaches, the setting of global health priorities, the functions and roles of global health systems, and an overview of current global health practices. Students will explore the factors shaping the global distribution of disease and their connection with issues of social, economic, and political development. Students will also consider the impacts of globalization, climate change, and other environmental factors on health risks and availability of health resources.

**PH-430. Health Literacy & Health Communications. 3 Hours.**

In this course, students critically examine the implications of health literacy on health and health outcomes and the role of health communication in helping individuals and populations to access, obtain, understand and act on health information. Students will develop skills in conducting a needs assessment; identifying communication goals, objectives, and strategies; designing and testing messages and materials; and developing an implementation and evaluation plan. Central to this process is the accurate measurement of literacy and sensitivity to marginalized communities, with specific and ongoing attention to the intersections they experience including, but not limited to, race, ethnicity, sexuality, socio-economic position, gender, age, trauma, ability and location.

**PH-440. Health Disparities & Health Advocacy. 3 Hours.**

This course provides students with the theoretical applications to conduct research and to identify the primordial, historical, and contemporary sources of health disparities in the United States and around the world. Content focuses on how health disparities are defined, their prevalence, why and among whom they exist, issues and methods of measurement, and approaches to addressing them. Students learn why scholars and practitioners describe health disparities as unnecessary, avoidable, and unfair. Using multidisciplinary, multisectoral, and culturally-appropriate approaches, students will develop advocacy strategies to target and eliminate health disparities.

**PH-450. Health Care Program And Services Administration. 3 Hours.**

This course is designed to develop skills in healthcare program and services administration, including organizational structures, management styles and challenges in public health and healthcare organizations. Students will practice how to successfully manage change, appropriately solve problems, and make ethical decisions with consideration for social determinants of health. Examples will focus on marginalized communities with specific and ongoing attention to the intersections they experience including, but not limited to, race, ethnicity, sexuality, socio-economic position, gender, age, trauma, ability and location. Achieving quality outcomes through planning, organizing, administering, managing, and evaluating public health policy is integral to this course.

**PH-460. Design And Development Of Public Health Programs. 3 Hours.**

This course develops public health program planning, management, and evaluation skills. Planning activities include conducting a needs assessment, setting goals and objectives, selecting intervention strategies, and building an implementation timeline. Management activities include preparing a budget and developing a marketing plan. Evaluation activities include establishing program performance standards and developing an evaluation plan. Emphasis will be placed on evidence-based approaches to reduce health disparities among marginalized communities with specific and ongoing attention to the intersections they experience including, but not limited to, race, ethnicity, sexuality, socio-economic position, gender, age, trauma, ability and location.

**Prerequisite:** PH-400 with a minimum grade of C.

**PH-470. Research Methods In Public Health. 3 Hours.**

This course will cover all aspects of conducting qualitative and quantitative research in the social sciences. Students will learn how to collect and interpret data in an ethical and diversity-sensitive manner. The assessment, implementation, and evaluation of research-related processes and outcomes will include discussion of the general public as well as marginalized communities with specific and ongoing attention to the intersections they experience including, but not limited to, race, ethnicity, sexuality, socio-economic position, gender, age, trauma, ability and location. Students will learn about the proper reporting of data, the accurate interpretation of findings, and the use of ethical inferential procedures.

**Prerequisite:** PH-400 with a minimum grade of C.

**PH-480. Internship I. 3 Hours.**

This course is a mentored learning experience that serves as a bridge between public health training and practice. During the internship, students complete a site-based project related to one or more core areas of public health and with a focus on marginalized communities and the intersections they experience including, but not limited to, race, ethnicity, sexuality, socio-economic position, gender, age, trauma, ability and location. In addition to the project, the course includes coaching meetings, ongoing self-assessment and reflection, synthesis of professional ethics, collaborative and peer-driven problem-solving, and case-based learning exercises that require critical analysis, systems-based thinking, and transformative approaches.

**PH-485. Internship II. 3 Hours.**

This course is an expansion of Internship I, a mentored learning experience that serves as a bridge between public health training and practice. This course includes additional field experience hours and professional development exercises and opportunities. Internship I and II can be taken in the same semester if it can be clearly established that the student has time for the extended commitment and that the field experience site and site supervisor have the capacity and interest to support this commitment. Department, program, and academic advisor approval are required.

**PH-490. Capstone. 3 Hours.**

This course is an individualized, mentored, culminating learning experience to support students in synthesizing and integrating their public health coursework. Guided by evidence-based approaches, students conduct mixed-method research to identify community health needs, assets, and resources. Students present their findings in ways that reveal a deep understanding of public health functions, an ecological perspective of health, and a capacity to be competent, reflective, collaborative, transformative, and ethical public health researchers, practitioners, and managers. Students also participate in a self-study project during which they examine and reflect on their career interests, personal values, and experiential capital.

**PH-498. Public Health Independent Research Project. 3 Hours.**

This course is for students majoring in public health who choose to fulfill graduation requirements via an approved Independent Study. Directed research, analysis, and presentation of a research paper on an important topic in public health are the focus of the course.

**PH-503. Human Sexuality And Sex Education. 3 Hours.**

This course provides a basic foundation in the area of human sexuality and sex education. In addition to acquiring knowledge in anatomy, pregnancy, childbirth, contraception, sexually transmitted infections, and relationships, students also will examine the evolutionary factors, historical foundations, and contemporary influences on human sexuality and sex education. Students will locate and interpret health data and information, evaluate policy, reflect on personal beliefs, develop educational interventions, and acquire the skills to act as a resource person and advocate for science-based instruction and policies.

**PH-519. Substance Use And Abuse Education. 3 Hours.**

This course is an introduction to substance use and abuse including the role of and effects on human behavior, the neurobiology and complexity of addiction, the impact on health and society, historical foundations and outcomes of substance use laws, and the influence of religion, politics, and other factors on substance use, abuse, and perceptions. Students will locate and interpret health data and information, evaluate policy, reflect on personal beliefs, develop educational interventions, and acquire the skills to act as a resource person.

**PH-523. Mental Health Education And Promotion. 3 Hours.**

This course develops knowledge and competencies related to mental health, education, and promotion. Learners gain insight into the factors that impact mental health across the lifespan, including historical, environmental, biological, genetic, behavioral, psychological, cultural, sociological, political, and economic. Learners administer a community-level mental health assessment, develop culturally and linguistically appropriate mental health curricula, evaluate mental health promotion interventions, and advocate for transformative mental health policies, programs, and services. They also conduct a self-care self-study, examine personal dispositions, and create personal and professional action plans. Cultural humility, ethical practices, and ecological approaches are emphasized throughout.

**PH-555. Organization And Administration Of School Health. 3 Hours.**

This course provides foundational content and builds skills related to the organization and administration of school health. Emphasis is placed on the factors that contribute to a healthy school environment and the social determinants that impact PK-12th grade students' motivation and ability to learn. Learners interpret data to identify school health needs; conduct a personal inventory; make plans to engage stakeholders in the formation of a school health council; select and use sources to advocate for school health; interpret and analyze school health policies; design and develop school health initiatives; and prepare to become a school health leader.

**PH-564. Theories And Concepts Of School Health Education. 3 Hours.**

This course provides foundational knowledge about effective school health education curricula, health behavior theories, health education standards, the whole child approach, risk and protective factors, and the multidimensionality of health. Students practice assessing learners' needs, applying principles of learning towards curriculum design, employing instructional strategies to engage learners, utilizing multiple methods of assessment, and cultivating an inclusive classroom environment. Students also analyze the role of the health education teacher as a resource person; consider professional and ethical issues in health education; and make plans for ongoing professional development.

## urban community studies

**UCS-103. Introduction To Urban Community Studies. 3 Hours.**

Introduction to Urban Community Studies is an overview of the Urban Community Studies program and its interdisciplinary approach to examining the political, economic, social, and cultural forces that impact urban communities in this country and throughout the world. The course is designed to introduce students to core analytical concepts and build their critical thinking and analytic writing skills.

**UCS-201. Power And Oppression In The Urban Community. 3 Hours.**

The purpose of this course is to examine social organization and theories of power and oppression to determine who rules the United States. Moreover, review the "center" of power as a matrix to decide how it impinges in various ways on those who live within the United States society.

**UCS-203. Activism And Community Engagement In The Urban Context. 3 Hours.**

Activism and Community Engagement in the Urban Context explores historic and contemporary forms of activism and community engagement in local, national and global urban communities. Students will become familiar with the analytic frameworks that inform community activism and trace the connections between activism and community engagement. Through an examination of course readings, guest lecturers and visits to community events, students will investigate forms of activism and community engagement as they relate to issues including education, food security, violence prevention, police reform, equal rights, homelessness, health and wellness and voting rights.

**UCS-302. Urban Education And The Art Of Critical Pedagogy. 3 Hours.**

The course provides educational practitioners with multimodal approaches to better engage students in a curriculum to improve the child's learning experiences. Research-based strategies are reviewed to enhance teachers' delivery of instruction to promote student outcomes.

**UCS-303. Writing Intensive Program: Research Writing In Urban Community Studies. 3 Hours.**

Research Writing in Urban Community Studies provides an overview in research methodology. In this course students will learn how to design and write a scholar-activist oriented research proposal on a social science topic pertinent to the urban community. The course covers the following topics: the selection of a research topic, the articulation of research questions, writing a literature review, the development and application of social science theory, the development of methodology, research design, data analysis, research ethics, and research dissemination.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**UCS-304. Contemporary Issues In Urban Community Studies. 3 Hours.**

This course focuses on the contemporary issues surrounding urban communities in the United States. It specifically examines the economic, political, educational, and environmental underpinnings of such communities. Throughout this course the major issues affecting the environment of urban communities, specifically educational inequalities, and the misuse and abuse of economic and political power are discussed. In addition, the discussion of racism as the underlying cause of the historic and contemporary issues in the urban community is explored.

**Prerequisite:** College of Education Admission with a score of Y.

**UCS-305. Urban Entrepreneurship. 3 Hours.**

Urban Entrepreneurship explores the fundamentals of entrepreneurship and its connections to community engagement in the urban context. Students will learn the stages of entrepreneurship including idea generation, developing a business model and financing an entrepreneurship venture. Students will also have an opportunity to explore their own entrepreneurship interests and learn the ways that community engagement and social entrepreneurship can play a role in their entrepreneurial ventures.

**Prerequisite:** (100 - 399 or 100A - 399Z).

**UCS-327. Media And Popular Culture In Urban Communities. 3 Hours.**

Media and Popular Culture in the Urban Community will examine basic concepts of popular culture as they apply to the urban experience. The course will focus on the socio-cultural factors that influence popular culture as well as the way urban communities are represented in mainstream media.

**UCS-328. Trauma, Resilience, And Resistance In Urban Communities. 3 Hours.**

Trauma, Resilience, and Resistance in Urban Communities explores psychological trauma symptomatology and interventions in an urban context. In this course students will use books, articles, and film to learn about: 1) the relationship between trauma and neurobiology; 2) historical trauma impacts affecting multigenerational communities of color, 3) structural factors that impact community violence-induced trauma; and 4) contemporary trauma treatments for individuals, children, families, and groups.

**UCS-329. Structural Violence In The Urban Community. 3 Hours.**

In an attempt to present a holistic perspective of violence in urban spaces, this course will delve into the systemic causes of violence in the urban community. Also, the course will identify the common contributing factors associated with violence, like individual-level influences, to probe deeper into the root causes of violence like misguided public policies, environmental injustices, and the United State's culture producing industries.

**UCS-330. Film Analysis In The Urban Context. 3 Hours.**

This course examines featured films and historical dramas on various topics to provide evidence and information as an alternative source for understanding critical issues and social events.

**UCS-341. Motherhood Studies In The Urban Community. 3 Hours.**

Motherhood Studies in the Urban Community will explore the institution and experience of motherhood as a site of power and healing. Specific emphasis will be given to theorizing about the specific ways African American, Latinx, indigenous, and immigrant mothers experience mothering in an urban context. In addition, this course will use memoirs, articles, and film to explore: 1) the labors of motherhood; 2) how race, socioeconomic status, and sexuality impact mothering; 3) how mothers navigate and resist structural oppression found in education, economic, and political systems; and 4) mothers' hope and resiliency in the wake of urban community violence.

**UCS-342. A Critical Analysis Of Hip Hop Culture. 3 Hours.**

This course explores the social, political, and cultural forces that influence hip hop culture and the rap music industry. Ecological conceptual models will be used to determine if multinational media conglomerates function as one massive empire that uses some aspects of the rap music industry as cultural imperialism, or if they are involved with hip hop for classic capitalism purposes or a combination of both.

**UCS-343. Racism, Xenophobia, And Bias In The Urban Context. 3 Hours.**

Racism, Xenophobia, and Bias in the Urban Context addresses how the construct of race and racism produces economic inequities, biased policy formations, and social injustices toward people of color. The course is designed and framed around contemporary and historic topics allowing students to critically analyze and review the concept of racism as a destructive philosophy and theoretical application.

**UCS-344. Seminar In Urban Community Studies. 3 Hours.**

Seminar in Urban Community Studies explores selected topics in Urban Community Studies including urban history, urban sociology, urban education, urban art/literature, urban social services, urban structural violence, urban politics, urban architecture, and urban culture. Course content varies. Course can be repeated on different topics up to three times.

**Prerequisite:** UCS-303 with a minimum grade of C.

**UCS-411. Theoretical Foundations In Urban Community Studies. 3 Hours.**

This is the orientation for the Master's Degree program in Urban Community Studies. This course is designed to provide students with a rigorous grounding in the theoretical frameworks that analyze and understand the Inner City. This course will explore the intellectual foundations of the human condition in the part of urban America referred to as the "inner city" by comparative investigation of cultural, education, economic, social, and political issues in these spaces.

**UCS-412. Methods In Urban Community Research. 3 Hours.**

Research design and analysis of data; methods for collecting and interpreting data, observation, formulation of hypotheses, techniques of interviewing, questionnaire construction, and writing of reports. The primary objective of the course is to train students to read research studies with understanding and to apply the findings to their own research projects.

**UCS-415. Urban Ethnography. 3 Hours.**

Urban Ethnography introduces students to ethnographic data collection methods associated with the study of urban environments. Students will explore the foundations of urban ethnography through classical sociological and anthropological studies. Students will conduct their own ethnographies and learn how to incorporate ethnographic analysis into their research writing.

**Prerequisite:** UCS-411 with a minimum grade of C.

**UCS-416. The African-American Experience In Urban Communities. 3 Hours.**

This course explores how pull and push factors influence social, political, and economic outcomes for African Americans living in urban spaces. Students will examine how issues of race, class, gender, urban development gentrification and displacement impact African-American urban life.

**UCS-420. Migration And Diaspora In Urban Communities. 3 Hours.**

Migration and Diaspora in Urban Communities is an examination of movement and diaspora in the historical, cultural and socio-political development of urban communities. Special emphasis is placed on the Great Migration and the Bronzeville community as well as migration experiences in local Chicago communities such as Englewood, Austin, Humboldt Park and Pilsen.

**Prerequisite:** UCS-411 with a minimum grade of C.

**UCS-421. Faith Institutions As Political Instruments. 3 Hours.**

The focus of this course is to examine faith institutions as sites of political discourse, engagement, and activism. Special attention is given to examining the history of Black institutions, the intersection of race and gender on religiosity, and the role of resistance movements from contemporary faith-based institutions.

**UCS-426. History And Philosophy Of Urban Education. 3 Hours.**

Examine the various theoretical constructs, pedagogy, and policies defining urban education since the Post Reconstruction Era. Navigate the journey of how school reform from a philanthropic paradigm and urban policy-planning framework develop and influence textbook selections, curriculum benchmarks, testing requirements, school arrangements, and employment trends.

**Prerequisite:** UCS-411 with a minimum grade of C.

**UCS-431. Systemic Challenges In Public Education. 3 Hours.**

The course contrasts and compares how educational ordeals and outcomes are universal throughout many school districts. From addressing minority teacher shortages to cultural curriculum applications, the course will examine a variety of best practices, policy interventions, and instructional strategies required to better teach and service marginalized and traditional youth impacted from external school forces, e.g. family issues, parental arrangements, drugs, social media, poverty.

**UCS-432. Curriculum And Pedagogy In Urban Schools. 3 Hours.**

The course offers a historical analysis, contemporary examination, and ethnographic review of educational policies and school initiatives framing urban America's curriculum pedagogy. The purpose of the course is to advance an interpretive understanding of how urban policy planning and school equity influences the construction of a school curriculum.

**UCS-433. Popular Culture. 3 Hours.**

Popular Culture is an examination of critical issues and theoretical approaches to the study of popular culture with special attention of popular culture within an urban context. The course will explore the way that Popular culture analysis occurs in a number of different fields, including Sociology, Communications, Anthropology, History, Cultural Studies, English, Women's Studies, Ethnic Studies, and Urban Studies. Special focus will be placed on the relationship between urban communities and several areas of popular culture including television, film, advertising, popular music, and social media.

**Prerequisite:** UCS-411 with a minimum grade of C.

**UCS-441. Urban Culture. 3 Hours.**

Urban Culture examines the social practices and shared expression of groups that live in urban settings. This course is intended to introduce students to the changing nature of community, social inequality, political power, socio-spatial change, technological change, and the relationship between the built environment and human behavior. Special emphasis will be placed on the urban cultures of various ethnic groups in Chicago.

**UCS-443. Research Writing. 3 Hours.**

This course will offer instruction in writing reports, proposals, papers and the thesis with consideration given to form and style. Moreover, this course is intended to help you master the strategies and conventions of academic research writing. In the broadest terms, we do research whenever we gather information to answer a question that solves a problem. At its most fundamental level, the basis for research writing is to collect all of the available information/data (within reason) on a specific topic, read it, categorize and analyze the information (process) and produce a written report of your findings.

**UCS-445. Critical Analysis Of Hip Hop Culture. 3 Hours.**

This course explores the social, political, and cultural forces that influence hip-hop culture and the rap music industry. The conceptual paradigm used in this course will be guided by an activist-scholarship paradigm which involves the shaping of public policy via participatory research and community empowerment. The research presented and conducted in this course is intended to contribute to the forces of activism for social justice in the inner city. An outcome of this course will be to use hip-hop to mobilize inner-city populations to become involved in the shaping of public policy and civic engagement.

**Prerequisite:** UCS-411 with a minimum grade of C.

**UCS-446. Urban Health And Wellness. 3 Hours.**

Urban Health and Wellness examines the historical development and current state of urban health and wellness particularly the ability of urban health agencies to meet community health needs. The course will pay special attention to contemporary public health issues and the ways these issues are addressed by urban health agencies and communities as a whole.

**Prerequisite:** UCS-411 with a minimum grade of C.

**UCS-447. Urban Youth Culture And Development. 3 Hours.**

The focus of this course is to examine complexities of youth development within an urban context. Specifically, this course will use critical race theory and systems theory to explore youth development within the context of neurobiology, violence management, sexuality, civic engagement, and media consumption.

**Prerequisite:** UCS-411 with a minimum grade of C.

**UCS-452. Field Internship. 1 Hour.**

The field internship allows students to receive professional training aligned to their existing research topics and thesis to support their completion of the master thesis requirement. Students are not only directly engaged in the fields of varied organizational agencies to gain work-related experience, but also asked to write reflective exercises as a means to apply various data tools to summarize varied learning experiences. Furthermore, students are to develop a portfolio/e-portfolio that captures the intellectual and practical experiences encountered servicing people in urban environments. To be taken concurrently with UCS-453. Students are required to complete 100 intern hours.

**UCS-453. Seminar. 3 Hours.**

ICSE-453 is the seminar section of ICSE-452, which allows students to review and analyze qualitative methodology and data collection tools in the fields including social work, criminal justice, and education. The seminar research course also investigates the theories, perspectives, and data used to assess and interpret urban challenges and social phenomena. To be taken concurrently with UCS-452.

**UCS-5901. Research And Thesis. 1 Hour.**

Supervision and advisement in the research and writing of a thesis to fulfill the requirements for the Master of Arts degree in Urban Community Studies. This course requires the approval of the instructor, program facilitator and the appropriate College Dean(s). Students will have completed the required courses with a B average or higher, and have obtained the approval of their graduate advisor before registering for the thesis hours.

**UCS-5902. Research And Thesis. 2 Hours.**

Supervision and advisement in the research and writing of a thesis to fulfill the requirements for the Master of Arts degree in Urban Community Studies. This course requires the approval of the instructor, program facilitator and the appropriate College Dean(s). Students will have completed the required courses with a B average or higher, and have obtained the approval of their graduate advisor before registering for the thesis hours.

**UCS-5903. Research And Thesis. 3 Hours.**

Supervision and advisement in the research and writing of a thesis to fulfill the requirements for the Master of Arts degree in Urban Community Studies. This course requires the approval of the instructor, program facilitator and the appropriate College Dean(s). Students will have completed the required courses with a B average or higher, and have obtained the approval of their graduate advisor before registering for the thesis hours.

# Major in Physical Education PreK-12 Licensure

---

## MAJOR IN PHYSICAL EDUCATION PreK-12 FOR THE BACHELOR OF ARTS DEGREE

Physical Education majors, upon successful completion of the program and graduation from Northeastern Illinois University, are entitled to the Illinois Professional Educator License (PEL), endorsed in Physical Education PreK-12. Students are encouraged to complete the minor program in Health Education.

### Program Maintenance Criteria

Students must make an appointment to meet with the Physical Education student advisor Marianne Morrissey (mmorris@neiu.edu) to complete the declaration of major form and to review the requirements for admission into the Physical Education program.

Students must maintain a minimum 2.5 grade point average every semester. Should the candidate's cumulative GPA fall below 2.5, the student is allowed two semesters to raise the GPA back to 2.5. Students must receive a grade of "C" or above in all major courses. Students with a grade below a "C" will have the opportunity to repeat the course only twice.

**Student teaching** requires prior to passage of the Physical Education Content Test #213. If passing scores are not reflected in the student's ELIS account, the student will not be able to complete student teaching and will have to sit out each semester until the test is passed. To be entitled for licensure a student must earn a grade of "B" or better in Student Teaching.

---

\*Note: Consult department regarding a non-licensure undergraduate degree.

## ADMISSION REQUIREMENTS

Students must make an appointment to meet with the Physical Education student advisor Marianne Morrissey (mmorris@neiu.edu) to complete the declaration of major form and to review the requirements for admission into the Physical Education program.

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6
<b>Humanities (HU)*</b> 3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	9
<b>Behavioral/Social Sciences (SB)*</b> 3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	9
<b>Natural Sciences (NS and NSL)**</b> 3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	9

### Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

**Discipline Specific (ELE-DS)**

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

**Boundary Crossing (ELE-X)**

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

**Math/Quantitative Reasoning (MA)**

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

\* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

\*\* Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/graduation-requirements/bachelors-degree/>)

**Major in Physical Education PreK-12 Program requirements**

Completion of the Physical Education Program and other requirements leads to the Illinois Professional Educator's License (PEL). Grades in all major courses must be a "C" or higher, with a major GPA of 2.5. Please see course descriptions for prerequisite requirements.

## Exit Requirements for Degree Completion

Successful completion of all program and college requirements with exception of passing score on edTPA.

## EXIT REQUIREMENTS FOR PROGRAM COMPLETION / ENTITLEMENT

Successful completion of all Goodwin College of Education and Department program requirements, with evidence of passing score on edTPA.

Note: Per the State of Illinois School Code, the edTPA has been paused as a licensure requirement until September 2025.

This sample curricular map is provided to guide you in the planning of your progression for this major. This guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor.

# Major in Community Health

## Major in Community Health for the Bachelor of Science Degree

The Community Health (HSCI) program prepares students to work in a variety of settings that include: city, county, and state health departments, hospitals, worksite wellness, college campuses, parks and recreation departments, non-profit organizations (American Diabetes Association, American Cancer Society, YMCA, Boys and Girls Club), and more. Example programs community health majors work with include: nutrition and exercise, alcohol and other drugs, sexual transmitted infections and contraception awareness, social and emotional health, environmental awareness, disease prevention, health disparities, immunization awareness, and many more. Graduates use their knowledge and skills to focus on how best to reach vulnerable community members and to better allocate resources to under-served populations. They may initiate wellness programs, write policies, implement educational and primary prevention activities, or create resources to promote healthy living.

Community Health students complete an internship. The internship is comprised of a semester-long fieldwork experience and a weekly seminar with assignments. Community Health students complete 200 clock hours of work in a community health related agency.

### ADMISSION and RETENTION REQUIREMENTS

Students pursuing a degree in the Department of Health Sciences and Physical Education must receive a grade of "C" or above in all major courses. Students with a grade below a "C" will have the opportunity to repeat the course only once.

#### Accelerated BS in Community Health to Master of Public Health Concentration

Students seeking admission into the accelerated BS in Community Health to the Master of Public Health (MPH) program should meet with their academic advisor **early** in the BS program to meet the requirements and maximize the benefits of this concentration. This concentration requires a 3.0 cumulative GPA average. Upon graduation from the BS, students in the accelerated program will meet with MPH academic advisor to plan the remaining coursework. After graduation with the BS in Community Health and commencement of the MPH, students may choose to substitute an elective for PH 480 should they wish not to complete an additional internship.

### EXIT REQUIREMENTS

Successful completion of all Goodwin College of Education and Department program requirements

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6
<b>Humanities (HU)*</b> 3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	9
<b>Behavioral/Social Sciences (SB)*</b> 3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	9
<b>Natural Sciences (NS and NSL)**</b> 3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	9

### Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

**Discipline Specific (ELE-DS)**

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

**Boundary Crossing (ELE-X)**

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

**Math/Quantitative Reasoning (MA)**

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

\* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

\*\* Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/graduation-requirements/bachelors-degree/>)

# Master of Science in Exercise and Sport Science (GR04)

---

The Masters in Exercise and Sport Science program is a 30-credit hour program which offers two concentration options for degree completion. The Exercise Science concentration is for graduates interested in learning about human performance, disease prevention, and cardiac rehabilitation. The Physical Education, Sport, and Recreation concentration is for graduates interested in learning about contemporary curricula, teaching methods, and the management of programs and facilities in physical education, sport, and recreation.

## Admission Requirements

Applicants can find University Graduate Admissions requirements here (<http://catalog.neiu.edu/admissions/graduate-students/>) in the Academic Catalog. Additional application information can be found on the Admissions website (<https://admissions.neiu.edu/admission-requirements/>).

### **Exercise Science Concentration**

EXSC-5902	Thesis Hours
EXSC-5903	Thesis Hours

or other courses as approved by the EXSC advisor.

#### Graduate Student Requirements:

In addition to program-specific requirements, all graduate students must abide by university graduate policies (<http://catalog.neiu.edu/graduate-studies-research/graduate-policies/>), which can be found in the Academic Catalog in the section of the College of Graduate Studies and Research.

## Culminating Requirements for the Degree

In addition to satisfactorily completing the required concentration-specific coursework, students can select whether to complete coursework, an internship, a capstone project, or a thesis prior to earning the degree.

#### EXIT REQUIREMENTS

Successful completion of all program requirements.

This sample curricular map is provided to guide you in the planning of your progression for this major. This guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor.

# Master of Public Health (GR03)

---

The Master of Public Health (MPH) is a 42-credit hour program that offers broad, interdisciplinary training in public health that prepares students for work in various settings. Settings may include public and private healthcare organizations and businesses, health research facilities, social service, and environmental health agencies, and government institutions dedicated to public health policy, programming, and services. There are three concentrations from which students may choose:

## Public Health Promotion

The Public Health Promotion concentration prepares students to educate others, develop programming, conduct research, and advocate for public health. Attention to improving health equity and reducing health disparities among all populations is a central focus. Additionally, students will be prepared to pursue terminal degrees in the behavioral, epidemiological, or environmental health sciences and health-related law, policy, and healthcare administration.

## School Health

The School Health concentration prepares students for leadership roles in the field of school health. Through applied practice, students learn best practices in curriculum development, selection and design of assessments, skills-based teaching strategies, program planning and evaluation, and advocacy while also building foundational knowledge in health content areas. Additionally, the coursework meets Illinois requirements for certified teachers seeking an endorsement in Health Education. It also prepares them to take the Illinois Health Education content test.

## Healthcare Administration

The Healthcare Administration concentration prepares students for leadership and management positions in various healthcare settings. In addition to learning the basic principles of public health, students explore and apply concepts, processes, and theoretical content related to public policy, human resource management, marketing, financial planning, health economics, health equity, and global health. An emphasis is placed on the differences between leadership and management and the role of ethics, cultural competency, and social, economic, and environmental accountability in effective leadership.

All three concentrations prepare students to sit for the Community Health Education Specialist certification exam. More information about the exam can be found on the National Commission for Health Education Credentialing website.

## Admission Requirements

Applicants can find University Graduate Admissions requirements here (<http://catalog.neiu.edu/admissions/graduate-students/>) in the Academic Catalog. Additional application information can be found on the Admissions website (<https://admissions.neiu.edu/admission-requirements/>). Program-specific admissions information, including when the program accepts applications for admission, please contact department.

# Graduate Certificate in Public Health

---

The Graduate Certificate in Public Health is designed to meet the needs of professionals seeking to gain supplemental knowledge in public health. With a unique emphasis on health disparities and health equity, the certificate prepares learners to collaborate with, conduct research in, and work in a variety of public health settings including public and private health care organizations, health research facilities, social service and environmental health agencies, and government institutions.

## Admission Requirements

Applicants can find University Graduate Admissions requirements here (<http://catalog.neiu.edu/admissions/graduate-students/>) in the Academic Catalog. Additional application information can be found on the Admissions website (<https://admissions.neiu.edu/admission-requirements/>). Program-specific admissions information, including when the program accepts applications for admission, can be found here.

## GRADUATE CERTIFICATE IN PUBLIC HEALTH REQUIREMENTS

Code	Title	Hours
<b>Required Courses</b>		
PH-400	Introduction To Public Health	3
PH-405	Social And Behavioral Health Theory	3
PH-410	Epidemiology	3
PH-440	Health Disparities & Health Advocacy	3
<b>Total Hours</b>		<b>12</b>

Two courses approved by the MPH advisor.		6
<b>Total Hours</b>		<b>6</b>

## Graduate Student Requirements:

In addition to program-specific requirements, all graduate students must abide by university graduate policies (<http://catalog.neiu.edu/graduate-studies-research/graduate-policies/>), which can be found in the Academic Catalog in the section of the College of Graduate Studies and Research.

## EXIT REQUIREMENTS

Successful completion of all program requirements.

# School Health Graduate Certificate

---

The school health graduate certificate is designed to meet the needs of professionals who work in a school setting or with school-related partners. Through applied practice, students are engaged in learning best practices in curriculum development; selection and design of assessments, skills-based teaching strategies, program planning and evaluation, and advocacy while also building foundational knowledge in health content areas. Additionally, the certificate includes coursework that meets Illinois requirements for certified teachers seeking a cross-endorsement in health education.

Applicants can find University Graduate Admissions requirements here (<http://catalog.neiu.edu/admissions/graduate-students/>) in the Academic Catalog. Additional application information can be found on the Admissions website (<https://admissions.neiu.edu/admission-requirements/>). Program-specific admissions information, including when the program accepts applications for admission, can be found here.

<b>Total Hours</b>		<b>18</b>

### Graduate Student Requirements:

In addition to program-specific requirements, all graduate students must abide by university graduate policies (<http://catalog.neiu.edu/graduate-studies-research/graduate-policies/>), which can be found in the Academic Catalog in the section of the College of Graduate Studies and Research.

### EXIT REQUIREMENTS

Successful completion of all program requirements.

# Minor in Exercise Science

---

## Minor in Exercise Science

The Minor in Exercise Science, when combined with the BS in Community Health or Physical Education, prepares individuals to work in a variety of health, wellness, recreation, and sport settings.

### ADMISSION and RETENTION REQUIREMENTS

Students pursuing a degree in the Department of Health Sciences and Physical Education must meet all of the Goodwin College of Education requirements for admission and retention. Students must receive a grade of "C" or above in all major courses. Students with a grade below a "C" will have the opportunity to repeat the course only once.

### EXIT REQUIREMENTS

Successful completion of all Goodwin College of Education and Department program requirements.

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6
<b>Humanities (HU)*</b> 3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	9
<b>Behavioral/Social Sciences (SB)*</b> 3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	9
<b>Natural Sciences (NS and NSL)**</b> 3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	9

### Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

#### Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

#### Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

**Math/Quantitative Reasoning (MA)**

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

- \* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.
- \*\* Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/graduation-requirements/bachelors-degree/>)

**Minor in Exercise Science (18 credit hours)**

Code	Title	Hours
<b>Required courses</b>		
PEMT-302	Kinesiology <sup>1</sup>	3
PEMT-309	Sport & Exercise Psychology	3
EXSC-304	Testing And Prescription For Health And Fitness	3
<b>Electives</b>		<b>9</b>
Select 3 of the following:		
PEMT-308	Motor Skill Behavior	
PEMT-311	Introduction To The Theory And Methodology Of Coaching	
EXSC-210	Group Exercise Instructor	
EXSC-215	Resistance & Cardiovascular Training For Health & Fitness	
EXSC-315	Design Of Specific Exercise Programs	
EXSC-350	Independent Study Exercise Science	
HLED-309	Nutrition And Health	
HSCI-357	Introduction To Health Care Management And Leadership	
<b>Total Hours</b>		<b>18</b>

<sup>1</sup> PEMT-305 is a prerequisite for this course.

# Minor in Health Promotion

---

## Minor in Health Promotion

The Health Promotion Minor is 18 hours. This minor is for students seeking to meet state requirements for an endorsement in health education and students who are interested in learning more about health promotion, community health, and public health.

### ADMISSION and RETENTION REQUIREMENTS

Students pursuing a degree in the Department of Health Sciences and Physical Education must meet all of the Goodwin College of Education requirements for admission and retention. Students must receive a grade of "C" or above in all major courses. Students with a grade below a "C" will have the opportunity to repeat the course only once.

# Master of Arts in Community and Teacher Leaders (GI05)

---

## Master of Arts in Community and Teacher Leaders

NEIU offers a Master of Arts degree for those individuals seeking an advanced degree in Community and Teacher Leaders. The program is designed to develop knowledge, dispositions, and skills to foster reflective, collaborative and transformative leaders in both community and school settings. Specifically, students will learn to harness the collective knowledge of community members and educators to have a positive impact on community and school success in both traditional and non-traditional settings; promote collaborative governance and leadership in communities and schools with a consistent focus on improved outcomes; model excellence in community leadership and teaching with a strong foundation in transforming the climate; and provide coaching, mentoring, and support to educators and community members to promote and influence change. Instructional strategies include research, inquiry, analysis, and evaluation as well digital literacy and technology skills.

Students may select one of two concentrations: community leadership or school-based teacher leadership. While both the Community and Teacher Leaders concentration lead to a Master of Arts degree, the Teacher Leader concentration also leads to a Teacher Leader Endorsement as recognized by the Illinois State Board of Education. Teachers who already have a Master's degree and an Illinois teaching license may take a subset of these courses to earn only the Teacher Leader endorsement. This school-based teacher leader concentration provides knowledge and skills related to leadership and mentoring, professional development, promoting school culture that focuses on student learning, using data to improve educational outcomes, and building collaborative relationships with stakeholders. The community-based leader concentration provides knowledge and skills that foster leadership in ethical and culturally sensitive public engagement, acknowledgement and consideration of the complexities of local and global communities, and leverages community assets to promote social justice.

For Endorsement only option, contact the program advisor. Teachers in the Master of Science in Teaching & Inquiry program can take the Teacher Leader Endorsement (only) courses as electives to earn the Teacher Leader Endorsement.

### Admission requirements:

All students must meet the eligibility requirements for admission to graduate status at NEIU.

Students seeking to earn only the Teacher Leader Endorsement must also hold a Master's degree from a regionally accredited institution and a current Illinois teaching license (PEL). The Master's degree is not required for students completing the Master of Science in Teaching & Inquiry program concurrently.

## Master of Arts in Community and Teacher Leaders

Code	Title	Hours
<b>Required Courses</b>

<sup>1</sup> Courses are required in one or more of the following areas as related to education: anthropology, history, philosophy, program evaluation, psychology, quantitative analysis and/or sociology. Courses will be selected by the student in consultation with the EDFN coordinator.

<sup>2</sup> Electives will be selected by the student in consultation with the EDFN coordinator.

# Major in Urban Community Studies

---

Programs in Urban Community Studies (UCS) are offered at the Jacob H. Carruthers Center for Inner City Studies (CCICS), 700 East Oakwood Boulevard, 60653, in the heart of Chicago's historic Bronzeville community. The scholar/activist thrust is the overriding entity that drives the community and academic programming of the programs of the Carruthers Center.

The Programs in Urban Community Studies, through the Goodwin College of Education, offer the following degrees:

Bachelor of Arts in Urban Community Studies

Minor in Urban Community Studies

Master of Arts in Urban Community Studies

## Major in Urban Community Studies for the Bachelor of Arts Degree

The Urban Community Studies undergraduate program seeks to introduce undergraduate students to the social, cultural, political and economic forces that impact urban communities. It reflects the ongoing trends and developments that continue to be a part of the changing demographics of the city so that students become equipped with understanding the complexity, diversity, and history associated with urban spaces. UCS seeks to prepare students to acquire employment in the broad fields of social and human services including community organizations, alternative educational programs such as charter schools, contract schools, after school programs, and mentorship programs aimed at improving the condition of urban youth. This is not a teacher preparation program and does not lead to licensure.

## Specific Goals of the Bachelor of Arts Degree in Urban Community Studies

1. Identify, deconstruct, and decode the existing socio-economic forces that influence Urban Community structures.
2. Examine the literature, scholarship, social movements, and activism associated with understanding Urban Community issues.
3. Identify and analyze culturally relevant models to navigate dilemmas faced in the Urban Community.
4. Prepare UCS majors to pursue graduate degrees in Urban Community Studies and other related fields.

## Admission Requirements

Undergraduate admission to Northeastern Illinois University

## University Core Curriculum Requirements

<b>Total Hours</b>		<b>30</b>

**Program Maintenance Criteria**

Students must maintain a minimum 2.5 grade point average every semester. Should the candidate's GPA fall below 2.5 in any semester or the cumulative GPA falls below 2.5, the student is allowed one semester to raise the GPA back to 2.5.

**Exit Requirements for Degree Completion**

Minimum credit hours for degree: 120 credit hours

A minimum cumulative GPA of 2.5

# Master of Arts in Urban Community Studies (GI03)

Programs in Urban Community Studies (UCS) are offered at the Jacob H. Carruthers Center for Inner City Studies (CCICS), 700 East Oakwood Boulevard, 60653, in the heart of Chicago's historic Bronzeville community. The scholar/activist thrust is the overriding entity that drives the community and academic programming of the programs of the Carruthers Center.

The Programs in Urban Community Studies, through the Goodwin College of Education, offer the following degrees:

Bachelor of Arts in Urban Community Studies  
 Minor in Urban Community Studies  
 Master of Arts in Urban Community Studies

## Master of Arts in Urban Community Studies

The Urban Community Studies graduate program places intense emphasis on preparing students for scholar/activist work that addresses the interests and issues of urban residents, particularly communities of color. The graduate program is centered on the in-depth examination of social, cultural economic and institutional structures that impact urban communities. Using ethnographic data collection and other action-based research methodologies as a core focus, courses in Urban Community Studies aim to forge culturally relevant understandings of human relationships in urban communities in the Chicago metropolitan area and worldwide. The graduate program seeks to prepare students to acquire employment in administrative, executive and teaching positions in urban educational, human and social service agencies.

## Specific Goals of the Master of Arts Degree in URBAN COMMUNITY STUDIES

1. Students will identify, deconstruct and decode the existing socio-economic forces that influence urban structures.
2. Students will acquire a rigorous grounding in theory and research required to analyze and understand urban dilemmas
3. Students will identify and analyze culturally relevant models of behavior to navigate dilemmas faced in urban communities
4. Students will examine social movements and the role of scholar-activists in the solutions to address contemporary problems and issues in urban communities

**NOTE: This program does not lead to teacher licensure.**

# Minor in Urban Community Studies

---

Programs in Urban Community Studies (UCS) are offered at the Jacob H. Carruthers Center for Inner City Studies (CCICS), 700 East Oakwood Boulevard, 60653, in the heart of Chicago's historic Bronzeville community. The scholar/activist thrust is the overriding entity that drives the community and academic programming of the programs of the Carruthers Center.

The Programs in Urban Community Studies, through the Goodwin College of Education, offer the following degrees:

Bachelor of Arts in Urban Community Studies

Minor in Urban Community Studies

Master of Arts in Urban Community Studies

## Minor in Urban Community Studies (18 credit hours)

The minor Urban Community Studies is designed to meet the needs of non-education majors as well as education majors who plan to work in inner urban communities and schools. It will provide an opportunity for students to engage with the social, political, economic, and cultural issues that define the urban context. It will also provide an opportunity for students to gain exposure to urban communities as well as community-based organizations and community institutions. This is not a teacher preparation program and coursework does not lead to licensure.

Specific Goals of the Minor in Urban Community Studies

Students will:

- Gain knowledge of the specific social, political, economic, and cultural issues related to urban communities.
- Value cultural diversity and individual differences in urban environments.
- Engage in positive interactions with key stakeholders in community settings or educational settings.

## Admission Requirements

undergraduate admission to Northeastern Illinois University

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6

# Literacy, Leadership, Development, and Special Education

---

The Department of Literacy, Leadership, Development, and Special Education offers:

## Educational Leadership

Our programs include a strong emphasis on reflection and skill development and the ability to effectively apply theory in professional settings. Our aim is to prepare students for strategic leadership in educational and corporate organizations, and to train effective leaders and change agents. The curriculum highlights an integrated and interdisciplinary skill-based focus on leadership and administrative development. The programs build a strong sense of community by understanding and celebrating the diversity of the people and communities served by our faculty, graduates and students. Our faculty and students are comprised of professionals with widely diverse interests, expertise and experience. We take great pride in our alumni who serve in schools, universities and businesses throughout the Chicago Metropolitan area.

- Master of Arts degree in Educational Leadership

## Human Resource Development

The Human Resource Development (HRD) (<http://www.neiu.edu/academics/college-of-education/departments/literacy-leadership-and-development/>) Program offers courses of study leading to both undergraduate and graduate degrees in Human Resource Development, as well as to a minor in Human Resource Development, to prepare professionals who will be responsible for the training, education, and development of adults, in settings such as business, industry, health care, social service, and government. Students in the program will be provided opportunities to develop the knowledge and competencies necessary to meet the increasing needs that organizations have for HRD professionals. Competencies that have been identified by professional organizations have been carefully considered in the development of specific objectives for the course work in the program.

- Bachelor and Master of Arts degree in Human Resource Development
- Undergraduate minor in Human Resource Development

## Literacy Education

Literacy Education offers two programs designed to meet the urgent need for highly effective teachers and instructional leaders with expertise in literacy education. The objectives of these programs are to increase candidates' knowledge of literacy processes and development; to advance professional knowledge in the teaching of literacy for all learners, including those from culturally and linguistically diverse backgrounds; and to provide specialized training in assessment and intervention for students who struggle with reading and writing.

The Master of Arts in Literacy Education, leading to PK-12 Reading Specialist endorsement, is designed for licensed teachers who wish to enhance their skills in teaching literacy in their own classroom or to work as Reading Specialists beyond their classroom. Candidates are prepared for leadership in literacy, including coaching and professional support, instructional planning, and curriculum development. The Master of Arts in Literacy Education requires 33 credit hours. Note: In addition to the completed MA, the Illinois State Board of Education requires candidates to have a minimum of two years full-time experience as teacher-of-record and a passing score on the ILTS Reading Specialist Exam for entitlement as a Reading Specialist.

The Reading Teacher Endorsement, PK-12, is a non-degree program designed for licensed teachers who wish to enhance their skills in teaching literacy in their own classroom. It requires 18 credit hours. Note: The Illinois State Board of Education requires a passing score on the Reading Teacher Exam for entitlement as a Reading Teacher, but does not require a minimum number of years as teacher-of-record.

You may also visit the Literacy Education website at Literacy, Leadership and Development (<http://www.neiu.edu/academics/college-of-education/departments/literacy-leadership-and-development/>).

## Special Education

**The Department of Special Education** at Northeastern Illinois University prepares reflective professionals who aim to transform the lives of individuals with exceptionality and their families. We believe there is nothing more important than fostering with dignity and respect, the inclusion of students with exceptional learning needs in every aspect of life. Therefore, our work in teacher preparation is guided by one simple principle...it's about the kids.

One special feature of the department is the *William Itkin Children's Service Center*. Located within the special education department, the technology-enhanced Itkin Center is designed to provide assessment and remediation of learning and behavior problems in school-age children and youth and to provide training to graduate students.

**Program Offerings:**

- **Special Education-Learning Behavior Specialist (LBS) I**
  - Bachelor of Arts in Special Education
  - Master of Arts in Special Education
  - Endorsement-only (Focus LBS I) program (non-degree)
- **(Advanced) Special Education-Learning Behavior Specialist II**
  - Master of Science in Special Education-Behavior Intervention Specialist (BIS)
  - Master of Science in Special Education- Curriculum Adaptation Specialist (CAS)
  - Master of Science in Special Education -Dual BIS and CAS
  - BIS-Endorsement only (non-degree)
  - CAS-Endorsement only (non-degree)

Detailed information on all of our programs can be found on our website at SPED (<https://www.neiu.edu/academics/daniel-i-goodwin-college-of-education/departments/literacy-leadership-development-and-special-education/>).

- Major in Human Resource Development (<http://catalog.neiu.edu/education/human-resource-development/human-resource-development/>)
- Minor in Human Resource Development (<http://catalog.neiu.edu/education/human-resource-development/minor-human-resource-development/>)
- Major in Special Education (<http://catalog.neiu.edu/education/special-education/special-education/>)

#### Educational Leadership

- Master of Arts in Educational Leadership (<http://catalog.neiu.edu/education/educational-leadership-development/master-arts-educational-leadership/>)

#### Human Resource Development

- Master of Arts in Human Resource Development (<http://catalog.neiu.edu/education/human-resource-development/master-arts-human-resource-development/>)
- Graduate Certificate in Workplace Learning and Performance (<http://catalog.neiu.edu/education/human-resource-development/graduate-certificate-workplace-learning-performance/>)

#### Literacy Education

- Master of Arts in Literacy Education (<http://catalog.neiu.edu/education/literacy-education/master-arts-literacy-education/>)
- Reading Teacher Endorsement: (<http://catalog.neiu.edu/education/literacy-education/master-arts-literacy-education/>)

---

#### Special Education:

There are two graduate programs-

- Master of Arts in Special Education (MA LBS I) (<http://catalog.neiu.edu/education/special-education/master-arts-special-education/>) leads to the Illinois Professional Education License with LBS I (K-21) endorsement. A four-course approval may be attached to the MA LBS I for candidates seeking the Early Childhood Special Education Approval.
- Master of Science in Special Education (LBS II) (<http://catalog.neiu.edu/education/special-education/master-science-special-education-lbs-ii/>) is for licensed teachers who hold the LBS I (K-21) Endorsement.

Graduates of a Master's program sequence will be able to

1. design and implement programs for students with exceptional learning needs;
2. consult and collaborate with others on the needs of the students; and
3. analyze and make instructional decisions based on reliable assessments.

There is also a **non-degree Focus LBS I Program in Special Education** for licensed teachers only. This non-degree, online program leads to LBS I endorsement (K-21) **without** a Master's degree.

## **Russell Wartalski, Ed.D., Department Chair & Associate Professor** **Gabriel Cortez, Ph.D., Professor, Leadership**

Wendy Gonzalez, Ph.D., Assistant Professor, Special Education  
Jolanta Jonak, Ed.D., Associate Professor, Special Education

Effie Kritikos, Ph.D., Professor, Special Education

Hsiao-Chin Kuo, Ph.D., Associate Professor, Literacy Education  
 Christina Mada, Ph.D., Professor, Literacy Education

Mark Melton, Ed.D., Associate Professor, Special Education

Gerardo Moreno, Ph.D., Professor, Special Education  
 April Nauman, Ph.D., Professor, Program Coordinator, Literacy Education

## **Noreen Powers, Ph.D., Associate Professor, Leadership Jody Siker, Ph.D., Assistant Professor, Special Education**

## **Jennifer Ventimiglia, Ed.D., Assistant Professor, Leadership Brian Vivona, Ed.D., Associate Professor, Human Resource Development**

### **leadership**

#### **LEAD-333. School Law For Teachers. 3 Hours.**

Provides K-12 teachers and prospective teachers with an understanding of the impact of the legal processes on schools. Attention is given to current issues and their implications for classroom teachers. Topics include: the legal system, sources and levels of law, contracts, tenure, records, collective bargaining, copyright, academic freedom, tort liability, student and teacher rights, discrimination and handicap issues.

#### **LEAD-401. Instructional Leadership. 3 Hours.**

An analysis of the basic determinants of curriculum PreK-12. Emphasis on significant psychological theories and development, learning and motivation for curricula development including impact of sociological, cultural, and ethnic factor. Special education programs are included. Methods are outlined for evaluating the effectiveness of curricula and programs. Roles and responsibilities of an instructional leader are highlighted as well as a focus on the improvement of instruction for school improvement and student achievement for all.

**Prerequisite:** LEAD-421 with a minimum grade of B and LEAD-424 with a minimum grade of B.

#### **LEAD-413. Human Relations And Leadership. 3 Hours.**

Study of basic concepts and principles of interpersonal relationships, communications, group interaction, and leadership and effectiveness. Emphasis on theory, application and skill development. Students will observe and assess interpersonal, group and organizational dynamics with attention to cultural factors and development of effective interaction and problem-solving skills.

#### **LEAD-415. Historical And Philosophical Perspectives In Higher Education. 3 Hours.**

#### **LEAD-421. Educational Leadership And Organizational Studies. 3 Hours.**

This course is designed to introduce the student to the field of educational leadership and management. The purpose of the course is to assist future educational leadership professionals to understand the philosophical, historical and organizational underpinnings of educational leadership. It provides students with a theoretical framework on which to develop and implement sound practical applications and decisions in the educational leadership tasks of communicating, planning, organizing, supervising, leading and evaluating strategies designed to build up highly effective learning communities. Further, it prepares the student to pursue alternative routes to excellence by understanding current education's challenges and by choosing the most successful leadership, management, motivational and decision-making strategies for a constantly changing educational environment.

#### **LEAD-422. The Principalship. 3 Hours.**

The Principalship is an examination of PK-12 schools with an emphasis upon the transforming instructional leadership and school improvement roles of the principal to enhance student learning for all students. The course focus is on practical problem solving through working collaboratively and transformatively with staff through creating a vision of leadership and learning, developing a positive school culture, managing the school and interacting with the external school environment.

**Prerequisite:** LEAD-421 with a minimum grade of B and LEAD-424 with a minimum grade of B.

#### **LEAD-424. Introduction To Evaluation Of Certified & Support Staff. 3 Hours.**

An analysis of the components of supervisory behavior in education and their influence upon the participants in the process of supervision; human and technical skills in personnel management; organizational factors affecting the performance of the supervisor; problematic areas within educational institutions and their influence upon supervisory behavior. Practical aspects of program and personnel evaluation; improvement of school learning climate and academic achievement will be emphasized as they relate to school reform and both multicultural and exceptional populations.

**LEAD-425. Advanced Techniques In The Supervision And Evaluation Of Professional Staff. 3 Hours.**

The main focus of this course is to provide an in-depth analysis of advanced techniques in the supervision and evaluation of K-12 professional personnel. The course builds upon the concepts of LEAD-424 to develop effective and legally formative and summative evaluations. The evaluation functions of monitoring curriculum fidelity, directing personnel for improvement, making personnel decisions and working with incompetent personnel provide a framework for applying course content for k-12 settings.

**LEAD-428A. Seminar In Educational Administration: Educational Decision-Making. 3 Hours.**

The purpose of LEAD-428A is to provide an in-depth analysis of problems and issues associated with program evaluation and school improvement for school leaders.

**Prerequisite:** LEAD-421 with a minimum grade of C and LEAD-424 with a minimum grade of C.

**LEAD-428B. Seminar In Educational Administration: Administrative Theory And Practical Application. 3 Hours.**

The focus of this course is to explore the area of professional development as a vehicle for building capacity in your institution. As an educational leader you will be instrumental in designing or selecting opportunities for professional development as well as evaluating the success of those efforts.

**Prerequisite:** LEAD-424 with a minimum grade of C and LEAD-421 with a minimum grade of C.

**LEAD-428F. Seminar In Educational Leadership In The Middle School. 3 Hours.**

The purpose of this course is to provide an in-depth study of the theory, research and best practices to support contemporary issues in middle level leadership. The course will focus on developing and leading middle level education that meets the diverse needs of emerging adolescents through mission development, program improvement, curriculum assessment, improvement of teaching and learning, staff development and more.

**Prerequisite:** LEAD-421 with a minimum grade of C and LEAD-424 with a minimum grade of C.

**LEAD-429. Research Design & Analysis Of Educational Data. 3 Hours.**

This course develops administrative skills in research design including program statements, hypothesis formulation, population/sample collection, data collection, statistical analysis and interpretation. Quantitative and qualitative research designs will be examined as they relate to effective schools, improving student achievement and administrative research.

**Prerequisite:** LEAD-421 with a minimum grade of B and LEAD-424 with a minimum grade of B.

**LEAD-430. Thesis Seminar. 3 Hours.**

This course provides guidance in the preparation and submission of a master of arts thesis under the supervision of faculty. It will extend the student's knowledge of standard techniques in the collection and analysis of data and facilitate the development of skills in advanced research design for possible future study at the doctoral level.

**LEAD-431. School & Community Relations. 3 Hours.**

The purpose of this course is to provide a forum for the transfer of theory to practice in the area of school-community relations. Additionally a teacher-as-researcher model and community-based research pedagogy are required in order to assist prospective school leaders in investigating their local school communities and increase their leadership skills. Effective school-community relationships begin at home facilitated by skillful leaders who have effective communication, research, collaborative and problem solving skills. These skills form bonds between schools and the local and global communities.

**LEAD-432. School Finance & Budgeting. 3 Hours.**

The goal of the course is to enable a student to demonstrate an understanding of school finance and related issues and to apply that knowledge in hypothetical school leadership situations. The content includes local, state and federal revenue sources, the legal and political settings that influence school finance, budgeting processes, revenue and expenditure management, research on the relationship of expenditures to achievement, the characteristics of a financially healthy school district, the operation of support services and measures to protect school funds and property.

**Prerequisite:** LEAD-421 with a minimum grade of B and LEAD-424 with a minimum grade of B.

**LEAD-433. School Law & Ethics. 3 Hours.**

This course studies the legal and ethical issues as related to practical problems of school administration. Constitutional provisions and court decisions are examined as they impact education. Issues of ethics pertaining to legal tenets will be integrated throughout the semester.

**Prerequisite:** LEAD-421 with a minimum grade of B and LEAD-424 with a minimum grade of B.

**LEAD-434. Internship I. 3 Hours.**

The major purpose of the internship is to comply with Illinois PA 96-903 and to provide the student with a supervised experience in the roles and responsibilities associated with the principalship in Pre-K through grade 12 during the course of a year. Each student will participate in administrative activities related to instructional leadership and school management. The three internships, LEAD-434, LEAD-435 and LEAD-437, are defined as all the experiences that result from applying the strategic, instructional, organizational, and contextual leadership guidelines in a workplace. This course is the first internship experience.

**Prerequisite:** LEAD-421 with a minimum grade of B and LEAD-424 with a minimum grade of B.

**LEAD-435. Internship II. 3 Hours.**

The purpose of this internship is to continue the instructional leadership and school management Pre-K through grade 12 tasks and experiences as described in the school intern's contract and developed in LEAD-434. This is the second internship experience.

**Prerequisite:** LEAD-421 with a minimum grade of B and LEAD-424 with a minimum grade of B.

**LEAD-436. Human Resources Administration In Education. 3 Hours.**

This course provides a general understanding of the personnel functions in educational settings. Decision-making and problem-solving will be emphasized. The functions of planning, recruitment, selection, placement, induction, staff development, motivation, compensation, performance, appraisal, negotiations and dismissal are included.

**Prerequisite:** LEAD-421 with a minimum grade of B and LEAD-424 with a minimum grade of B.

**LEAD-437. Internship III. 3 Hours.**

The purpose of this internship is to continue the instructional leadership and school management Pre-K through grade 12 tasks and experiences as described in the school intern's contract and developed in LEAD-434, and LEAD-435. This is the third internship experience.

**Prerequisite:** LEAD-421 with a minimum grade of B and LEAD-424 with a minimum grade of B.

**LEAD-438. Collective Negotiations. 3 Hours.**

The development and establishment of collective bargaining within the educational enterprise: the public and private sectors; in elementary-secondary education and colleges and universities; historical, sociological and legal perspectives; some consideration and evaluations of various issues (including tactics and process) concepts and current problems.

**LEAD-441. Independent Study In Educational Administration. 1 Hour.****LEAD-445. Practicum In School Business Management. 3 Hours.**

The purpose of the practicum is to provide the student with supervised experiences in the functions and duties of a school business official. The student is required to participate in activities related to finance, purchasing, planning and business management.

**LEAD-447. Introduction To School Business Management. 3 Hours.**

Provides a general understanding of the various task areas involved in the field of school business management including financial control, maintenance of buildings and grounds, maintenance of inventories, purchasing and bidding, transportation, insurance, personnel and office management, lunch programs and administrative relationships.

**LEAD-448. School Business Management II. 3 Hours.**

Incorporates principles of school fund accounting including a study of budgeting, personnel and payroll administration, auditing and reporting expenditures and receipts, assets and liability accounting, capital asset planning and management, cash management, bonded indebtedness, analysis of statements of position and extracurricular funds.

**LEAD-470. Administrative Use Of The Microcomputer. 3 Hours.**

An examination of the use of micro-computers in education administration and supervision. Topics include: Introduction to computers, overview of principles underlying computer-assisted instruction and computer-managed instruction, overview and use of available software, internal monitoring and program evaluation and elementary programming.

**LEAD-480. The Community College. 3 Hours.**

Provides the student with theoretical and practical knowledge about the philosophy, history, students, services, staff and organizational structure of the community college. National trends of the two year college will be analyzed.

**LEAD-481. Community College Administration. 3 Hours.**

Provides the student with practical knowledge about the day to day demands of administering the Community College. Stresses the importance of the Community College to the nation, state and local areas and how good administrators and administration can make a strong contribution to the proper and excellent performance of community colleges.

**LEAD-490. Adult Learner. 3 Hours.**

An examination of demographic changes fostering attention on adults as well as stages and phases of adult life and adult characteristics as a framework for effective planning, programming and marketing adult education.

**LEAD-491. Foundations In Higher Education. 3 Hours.**

This course provides students with knowledge of the historical development of higher education in the United States and its socio economic, political, legal and philosophical underpinnings. This course also provides students with an understanding of the structures and governance higher education in the U.S. Emphasis is given to current issues, opportunities and problems facing higher education and its stakeholders.

**LEAD-492. Resources, Institutional Planning And Finance In Higher Education. 3 Hours.**

This course prepares students to understand how institutions of higher education obtain and utilizes resources. It focuses on resource planning, policy development and implementation, and resource allocation. Topics include: institutional governance, research, marketing, budget development, financial allocation, environmental scans and oversight.

**LEAD-493. The Law Of Higher Education. 3 Hours.**

This course presents legal issues from the perspective of preventive law, policy development and implementation. Content includes the structure of the U.S. legal system, constitutional law, statute and case law. Topics include: affirmative action, employment law, intellectual property, due process, academic freedom, human-subjects research and collective negotiations.

**LEAD-495. Practicum In Higher Education. 3 Hours.**

This course consists of supervised experience in the functions and duties of leaders in higher education settings.

**LEAD-496A. Seminar In Higher Education: The Non-Traditional Student. 3 Hours.**

This course prepares the student to effectively meet the needs of the non-traditional students in higher education settings. Historical evolution and psychosocial factors impacting adult learners, development of student services, curriculum design issues and methods of building a sense of community among adult learners.

**LEAD-496B. Seminar In Higher Education: The Problematic Pipeline - Latinos And Latinas In Higher Education. 3 Hours.**

This course focuses on the contemporary Latino experience in the US educational system. It follows the growing numbers of Latinos with low high school completion rates and low levels of participation/completion in higher education. Emphasis is placed on the diversity of the experience by national origin, region of settlement, and gender as well as the histories of Latino immigration to the US compared to the receptions of other immigrants in history. Predominant theories of international immigration, relationships between the historical and contemporary context, immigration policy, and the adaptation of Latino immigrants in the United States are considered.

**LEAD-496C. Seminar In Higher Education: Critical Policy Issues In Latino Higher Education. 3 Hours.**

An analysis of the critical policy issues in Latino higher education as the US faces a growing increase in Latino college-enrollment (the largest minority), yet with low retention and a scarce presence in higher education discourse. Due to this increase, an exploration of ways to prepare postsecondary institutions for this and the role of more Latinos in the academy is explored. Including: the role of community colleges and four-year institutions in meeting this demand, understanding the historical processes and cultural differences of Latinos in the US, understanding various modes of thought, concerns and methodologies regarding Latino higher education.

**LEAD-496D. Seminar In Higher Education: Current Global Issues & The Latino Community. 3 Hours.**

This course provides an introduction to the cross-cultural, cross-national study of educational institutions and their relationship to society. This cross-national comparison of educational practices occurs in light of cultural, social organization, economic, political, and historical differences with a key goal being further development of understanding how perspectives on education in the United States have been shaped.

**LEAD-497. Student Personnel Work In Higher Education. 3 Hours.**

This course addresses issues relating to the philosophy, organization and administration of student affairs in post-secondary institutions, as well as, the development and implementation of student affairs policy and programs. It emphasizes the roles that student affairs professionals serve to promote intellectual, social, moral, ethical, spiritual, emotional, and physical development and wellbeing of students. Student affairs educators carry out their professional obligations by actively seeking collaborative relationships with each other across units, with students, faculty, and others on and off the campus in order to design, support, maintain, and/or change campus environments to optimally support student learning, wellness, and development.

## human resource development

**HRD-202. Career And Life Planning I. 3 Hours.**

Designed to help students develop a greater understanding of themselves and to identify a satisfying career field that matches their talents and abilities. Students will identify their values, analyze their skills, discover their likes and dislikes and focus on their interests as they relate to possible career choices. A long range plan will be developed and a supportive resume describing capabilities and experience will be prepared.

**HRD-300. Principles And Practices In Human Resource Development. 3 Hours.**

Students explore their aptitudes and interests in relation to the roles of educators in non-school settings. They familiarize themselves with the overall purposes of organizations and the role of educators within such organizations.

**Prerequisite:** (100 - 399 or 100A - 399Z).

**HRD-301. Adult Teaching/Learning Process. 3 Hours.**

Students study the principles of adult learning and instruction and the range and types of desired educational outcomes related to the characteristics of adult learners. Required: HRD-300 or can be taken at the same time as HRD-300; Completion of a Minimum of 45 College-Level Semester Hours.

**Prerequisite:** (100 - 399 or 100A - 399Z).

**HRD-310. Instructional Techniques And Technology. 3 Hours.**

Students apply a systematic approach to the development of instructional materials using the principles of instructional design. Topics covered include needs assessment, task analysis, objective preparation, design documents, material development, and evaluation.

**Prerequisite:** HRD-300 with a minimum grade of C and HRD-301 with a minimum grade of C.

**HRD-313. Political Savvy In The Workplace. 3 Hours.**

This course will explore the concept of political savvy in the workplace as it relates to one's career success and development as well as for others whom the HRD professional might coach. Topics include: how political savvy is defined, the political nature of the workplace, power and the importance of leveraging one's power, personal influence, and the development of a political game plan.

**Prerequisite:** (100 - 399 or 100A - 399Z).

**HRD-313B. Program Development In Human Resource Development. 3 Hours.**

This course will explore the range and types of desired outcomes related to planning programs for adult learners. Not designed or written as an instructional design course, this course looks at the barriers that impede discourages adults in pursuing educational goals and provides various way to enhance opportunities for the adult learning population.

**HRD-315. Computer Utilization In Human Resource Development. 3 Hours.**

Students in this course will be introduced to the use of computers for instructional purposes. Course will focus on design, storyboarding, logic and authoring software. Students will develop computer-based training programs.

**Prerequisite:** HRD-300 with a minimum grade of C and HRD-301 with a minimum grade of C and HRD-310 with a minimum grade of C.

**HRD-320. Dynamics Of Working With Groups And Individuals. 3 Hours.**

Students explore effective interpersonal and group behavior in organizations. Emphasis is placed on understanding the importance of such behaviors. Completion of a minimum of 45 college-level semester hours required.

**Prerequisite:** (100 - 399 or 100A - 399Z).

**HRD-321. Designing Instruction In Human Resource Development. 3 Hours.**

Students apply major principles relating to the design and presentation of training/education programs for adults. Students demonstrate and improve their level of competency on major course tasks. Recommended: HRD-315 or may be taken concurrently.

**Prerequisite:** HRD-310 with a minimum grade of C and HRD-315 with a minimum grade of C and HRD-320 with a minimum grade of C.

**HRD-323. Independent Study In Human Resource Development. 3 Hours.**

In-depth study of special areas in human resource development.

**Prerequisite:** HRD-310 with a minimum grade of C.

**HRD-325. Writing Intensive Program: Communication In Human Resource Development. 3 Hours.**

This course explores the role of oral and written communication skills in the human resource development field. The student will practice the following: impromptu, informational, and persuasive oral presentations; and interviewing, questioning, organizing, researching, and active listening skills.

Additionally, the student will demonstrate competence with the following writing tasks: preparing a meeting agenda, project proposal manuscript with recommendations, an e-mail message, an elevator speech, a claims adjustment request, bad news memorandum, and decline of a request. Professionalism; appropriate non-verbal messages; and accurate and effective organization, flow, and mechanics as appropriate for the context, content, and audience are emphasized.

**Prerequisite:** HRD-300 with a minimum grade of C and ENGL-101 with a minimum grade of C.

**HRD-328. Organizational Project Management. 3 Hours.**

This three-credit hour course guides students through the process of creating a project management proposal including a timeline. The course examines issues relating to project structure and stakeholders. It explores responsibilities within a project as well as how to identify project sponsors and project tasks. Students will be exposed to project management as it relates to organizational goals, preparing them to participate in projects while maintaining an organizational perspective.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**HRD-329. Internship And Seminar In Human Resource Development. 6 Hours.**

The internship and seminar will be the culminating activity for the Human Resource Development major. Internship will be in health care settings, business and industry, community, state and federal agencies, rehabilitation and recreation centers and professional associations. The purpose will be to synthesize what the student has learned in the classroom with practice in the field. Permission from the HRD Advisor or Program Coordinator required.

**Prerequisite:** HRD-301 with a minimum grade of C and HRD-310 with a minimum grade of C and HRD-315 with a minimum grade of C and HRD-321 with a minimum grade of C.

**HRD-362. Instructional Media In Human Resource Development. 3 Hours.**

The purpose of the course is to provide the student with a practical, hands-on approach to selecting and utilizing instructional media, consistent with theories and practices in instructional technology. The emphasis will be placed upon the tools (i.e., equipment and materials) which an instructional designer has available for the production of instructional materials. Students will learn how to operate equipment and will produce instructional materials for media programs.

**Prerequisite:** HRD-301 with a minimum grade of C.

**HRD-390. Computer-Based Training. 3 Hours.**

Systematic approach to the design and use of computer-based and interactive video instructional materials. Course includes courseware development, implementation, training techniques, documentation and state-of-the-art technology.

**Prerequisite:** HRD-300 with a minimum grade of C and HRD-301 with a minimum grade of C and HRD-310 with a minimum grade of C and HRD-315 with a minimum grade of C.

**HRD-400. Hrd And The Organization. 3 Hours.**

Study of the role of HRD in relation to the needs, purposes, structures and processes of organizations in order to maximize the effectiveness and value of HRD to the organization.

**HRD-401. The Adult Learner I. 3 Hours.**

An analysis of adult learning theory and research in relation to practice in the field of training and human resource development, including study of how adults acquire and use knowledge, skills and attitudes. Application of theory in varied adult learning situations will be emphasized.

**Prerequisite:** HRD-400 (may be taken concurrently) with a minimum grade of C or HR-400 with a minimum grade of C.

**HRD-402. Adult Learner II. 3 Hours.**

In-depth focus on individual difference characteristics of adults that affect learning. Consideration of such characteristics as motivation, learning styles, perception of self on other, culture, experiential background, memory/information processing, attribution, cognitive structures and metacognition. Research paper required that includes application to HRD field.

**Prerequisite:** HRD-401 with a minimum grade of D or HR-401 with a minimum grade of D.

**HRD-403. Leadership & Political Savvy In The Workplace. 3 Hours.**

Students will explore the relationship between leadership practices and politically-savvy behaviors in the workplace for human resource development professionals. Students will examine the theoretical and practical aspects of leadership, explore the political nature of the workplace, review the importance of power and influence, and refine interpersonal and communication skills necessary for personal career success.

**Prerequisite:** HRD-400 with a minimum grade of B.

**HRD-404. Applied Technology In Human Resource Development. 3 Hours.**

This course is an introduction to the use of computers and electronic communication devices for HRD-specific purposes. It focuses on the application of software tools and electronic communication devices in instructional design and workplace communication, utilizing storyboarding, mapping logic, and various platforms as authoring programs. Special emphasis is placed on development of proficiency with PowerPoint as an e-learning authoring tool.

**Prerequisite:** HRD-406 with a minimum grade of C and (HRD-400 with a minimum grade of C or HRD-401 with a minimum grade of C).

**HRD-405. Needs And Task Analysis In Hrd. 3 Hours.**

Defining gaps between desired and actual performance and specifying the cause of the gaps. Identifying and analyzing tasks and job content for the purpose of developing training designed to accomplish specific results in a job or organization. The design, development and application of techniques and instruments to use in obtaining information on needs and tasks.

**Prerequisite:** HRD-400 with a minimum grade of C or HR-400 with a minimum grade of C.

**HRD-406. Instructional Design In Hrd I. 3 Hours.**

The process of preparing objectives, defining content, selecting and sequencing learning activities for specific training/ education/ development programs. Includes selection of methodology, including use of media and computer technology, critique and redesign of off-the-shelf materials and evaluation.

**Prerequisite:** HRD-401 with a minimum grade of C or HR-401 with a minimum grade of C.

**HRD-407. Measurement And Evaluation In Hrd. 3 Hours.**

Determining the effectiveness of HRD learning programs and services. Making decisions on how, what and when to measure and what standards to use in evaluation. The design, development and application of techniques and instruments to use in obtaining measurement data. Cost/benefit analysis of the impact of HRD on the organization.

**Prerequisite:** HRD-406 with a minimum grade of C or HR-406 with a minimum grade of C.

**HRD-408. Instructional Design In Human Resource Development II. 3 Hours.**

In this course, students study advanced instructional design techniques as they go through the process of assessing needs, designing and developing instruction and developing both an assessment and an implementation plan for their training. Students develop an instructional program designed to meet client needs, giving them an opportunity to apply theories learned in earlier courses, as well as acquainting them with additional instructional strategies to developing an expanded instructional program.

**Prerequisite:** (HRD-406 with a minimum grade of D or HR-406 with a minimum grade of D) and (HRD-407 with a minimum grade of D or HR-407 with a minimum grade of D) and (HRD-490 with a minimum grade of D or HR-490 with a minimum grade of D or HRD-462 with a minimum grade of D).

**HRD-409. Television Production In Human Resource Development. 3 Hours.**

This course will explore techniques of television production and utilization as they apply to the field of human resource development. Students will learn the principles of camera operation, lighting, composition, video and audio recording, video editing, field production, directing and scripting. The approach will be hands-on; students will write and produce video training materials using instructional design principles.

**Prerequisite:** (HRD-362 with a minimum grade of C or HR-362 with a minimum grade of C) and (HRD-406 with a minimum grade of C or HR-406 with a minimum grade of C).

**HRD-410. Talent Management. 3 Hours.**

Exploration of the major aspects of talent management from developing core competencies to the design and employment of performance management systems. We will study the perspectives, methods, and theoretical framework employed by HRD practitioners in developing HRD strategies to improve organizational performance.

**Prerequisite:** HRD-400 with a minimum grade of C and HRD-401 with a minimum grade of C and HRD-405 with a minimum grade of C.

**HRD-411. Consulting In Human Resource Development. 3 Hours.**

This course examines the roles of both internal and external consultants within an organization as they analyze both training and non-training interventions to improve performance. Students work with case studies to examine various aspects of the consulting process. Topics covered include client-consultant relationships, diagnosing organizational situations, developing contracts, marketing your services, etc.

**Prerequisite:** (HRD-407 with a minimum grade of C or HR-407 with a minimum grade of C) and (HRD-406 with a minimum grade of C or HR-406 with a minimum grade of C).

**HRD-412. Project Management In Human Resource Development. 3 Hours.**

Study of the principles of project management as they relate to the development of HRD programs. Application of the principles to HRD projects that are both in the planning state and in progress will be emphasized.

**Prerequisite:** HRD-405 with a minimum grade of C or HR-405 with a minimum grade of C.

**HRD-413. Independent Study In Human Resource Development. 3 Hours.**

In-depth study of special areas in human resource development.

**HRD-414. Strategic Planning In Human Resource Development. 3 Hours.**

Study of principles of strategic planning as it relates to the HRD field. This course will explore various strategies that can be used to lead, facilitate, or teach others how to work through the strategic planning process. Application of the principles of strategic planning process will be emphasized.

**HRD-415. Seminar In Human Resource Development- Organizational Development. 3 Hours.**

This seminar guides students in developing a broad understanding of various aspects of Organization Development (OD), including: OD field and organizational change; the history of OD; how to manage the OD process; the elements of Action Research in OD; OD interventions; power, culture, and politics as an organization tool.

**Prerequisite:** (HRD-401 with a minimum grade of C or HR-401 with a minimum grade of C) and (HRD-400 with a minimum grade of C or HR-400 with a minimum grade of C) and (HRD-403 with a minimum grade of C or HR-403 with a minimum grade of C) and (HRD-405 with a minimum grade of C or HR-405 with a minimum grade of C) and (HRD-406 with a minimum grade of C or HR-406 with a minimum grade of C) and (HRD-407 with a minimum grade of C or HR-407 with a minimum grade of C).

**HRD-416. Masters Capstone. 3 Hours.**

Students in the MA in Human Resource Development program will complete a capstone course where they will complete one of three capstone projects:  
 Practitioner project: A front-end assessment or performance analysis, white paper, policy analysis, or program evaluation  
 Instructional design: A research-based lesson design and analysis project  
 Internship: A 15-week supervised practicum/internship, either in the field of training and development in an organization in which they are presently working, or in talent development within an appropriate, site-approved organization.  
 The selection of the capstone option must be approved by the instructor of record.

**Requirement:** Departmental Approval, completion of all required courses

**Prerequisite:** (HRD-401 with a minimum grade of C or HR-401 with a minimum grade of C) and (HRD-403 with a minimum grade of C or HR-403 with a minimum grade of C) and (HRD-405 with a minimum grade of C or HR-405 with a minimum grade of C) and (HRD-406 with a minimum grade of C or HR-406 with a minimum grade of C) and (HRD-407 with a minimum grade of C or HR-407 with a minimum grade of C).

**HRD-417. Practicum In Hrd II. 3 Hours.**

See description of Practicum in HRD I. Students have the option of taking additional practicum hours if the field setting provides an opportunity to design and present a training program that is more involved and will require an extended time commitment. Practicum in HRD I and Practicum in HRD II can be taken during the same term if it can be clearly established that the student will have time for an extended commitment.

**Prerequisite:** (HRD-401 with a minimum grade of C or HR-401 with a minimum grade of C) and (HRD-400 with a minimum grade of C or HR-400 with a minimum grade of C) and (HRD-403 with a minimum grade of C or HR-403 with a minimum grade of C) and (HRD-405 with a minimum grade of C or HR-405 with a minimum grade of C) and (HRD-406 with a minimum grade of C or HR-406 with a minimum grade of C) and (HRD-407 with a minimum grade of C or HR-407 with a minimum grade of C).

**HRD-418B. Topical Seminar: Human Performance Technology In Human Resource Development. 3 Hours.**

Study of improving human performance in the workplace. This course will develop awareness about the complexity of this area including the role of the HRD practitioner as the performance consultant. A practical and theoretical foundation for following HTP methodology to solve human performance problems in the workplace will be explored.

**HRD-418E. Topical Seminar In Global/Cultural Issues In Human Resource Development. 3 Hours.**

This course will explore the importance and necessity of HRD practitioners understanding the importance of globalization and the increasing diversity of the work-place and work-force. The design and delivery of instruction and the analysis of the dynamics of organizations requires an understanding of learning and organizational development theory and will be examined through the lens of global and cultural awareness.

**HRD-418F. Topical Seminar: Group Dynamics In Human Resource Development. 3 Hours.**

This course will explore the principles of group dynamics as they affect individuals, groups, and team in organizations. This highly interactive course will explore group and team issues including: the nature of groups, group formation, development and socialization, structure, influence power, decision making, conflict, and additional issues.

**HRD-419. Project In Human Resource Development. 3 Hours.**

Students prepare a project that involves the application and/or extension of the knowledge and skills developed in the courses that they have completed. The project may be in the form of an instructional program or a paper on a specific aspect of Human Resource Development.

**HRD-420. Thesis Seminar In Hrd. 3 Hours.**

Guidance of students conducting research and writing a thesis to fulfill the requirements of the program, Master of Arts in Human Resource Development.

**HRD-421. Leadership And Ethics In HRD. 3 Hours.**

This course presents historical and contemporary leadership theory and models and applies leadership theories and concepts in the context of Human Resource Development. This course also guides students through a personal assessment of leadership characteristics, utilizing different tools to measure the individual's strengths and focus on self-enhancement to better assist in ethical decision making.

**Prerequisite:** HRD-400 with a minimum grade of C and HRD-401 with a minimum grade of C.

**HRD-462. Instructional Strategies In Hrd. 3 Hours.**

This course will explore various strategies that can be used to facilitate learning in a variety of situations. Strategies such as advance organizers, concept mapping, imagery, etc. will be studied in terms of their advantages, limitations and applications. The course will explore different types of learning, such as declarative knowledge, concepts, motor skills, etc. The different types of learning will be studied in terms of their characteristics and the implications those characteristics have for selecting and using instructional strategies.

**HRD-490. Multimedia: Design And Application. 3 Hours.**

This course presents an overview of varied aspects of multimedia as used in the HRD field. Course content blends theory and application as students learn the basic elements of instruction, interaction and the impact of technology on instruction. Students use an authoring program to design instruction which meets criteria for effective teaching/learning. Students will use multimedia as a vehicle for research and communication through e-mail and Internet access.

**Prerequisite:** HRD-404 with a minimum grade of C.

## literacy education

**LTCY-301. Foundations Of Literacy Instruction In Secondary Grades. 3 Hours.**

This course will introduce preservice teachers to literacy teaching and learning across disciplines in middle and high school settings. This class explores theory, practices, and issues in teaching disciplinary literacy, including complex disciplinary texts, reading comprehension processes and strategies, academic vocabulary instruction, and the use of both print and digital materials to support learning across disciplines. Prerequisite: Junior in standing.

**LTCY-311. Foundations Of Literacy Instruction. 3 Hours.**

This course addresses foundations of PK-12 literacy teaching and learning including relevant theory, core components of the literacy curriculum, evidence-based practices, assessments, and materials to meet the needs of all learners across grades including within subject areas. Issues of diversity, equity, inclusion, motivation and engagement, as they relate to literacy learning, are emphasized.

**LTCY-402. Literacy Instruction Across Grades. 3 Hours.**

This course provides an overview of literacy teaching and learning in PK-12 classrooms. Topics include curriculum development, the literacy environment, assessment, and meeting the needs of all learners including culturally and linguistically diverse students and students with reading difficulties.

**LTCY-501. Literacy Instruction In Primary And Elementary Grades. 3 Hours.**

This course addresses emergent and early literacy development, teaching, and learning. Candidates will explore relevant theory, core components of the literacy curriculum, instructional methods, assessments, and materials to meet the needs of young learners through the elementary years. Additional topics include using a variety of print and digital texts to motivate and engage learners and building a literacy-rich learning environment for all students.

**LTCY-502. Disciplinary Literacy Instruction In Secondary Grades. 3 Hours.**

This course addresses the components of academic literacy development with an emphasis on instructional approaches to support and motivate adolescent learners. Candidates will explore literacy instructional practices to support student learning in various subject areas. Topics include comprehension of complex disciplinary text, academic vocabulary, and multimodal text types. Meeting the needs of all adolescent learners, including culturally and linguistically diverse students, is emphasized.

**LTCY-503. Theory And Research In Literacy Education. 3 Hours.**

Candidates develop a knowledge of major theoretical, conceptual, historical, and evidence-based understandings of literacy processes and development. Candidates are introduced to basic research design and methodologies, and will engage in the critical reading of scholarship in the field.

**Prerequisite:** LTCY-501 with a minimum grade of B and LTCY-502 with a minimum grade of B.

**LTCY-504. Children's And Young Adult Literature For Literacy Instruction. 3 Hours.**

This course focuses on the integration of children's and young adult literature to support teaching and learning in all grades and across disciplines. Candidates will develop foundational knowledge about children's and young adult literature, explore instructional approaches, and address relevant topics, including cultural authenticity, multicultural literature, and issues of diversity, equity, and inclusion.

**LTCY-505. Writing Instruction In Elementary Grades. 3 Hours.**

Candidates explore instructional practices for supporting students' writing development from K through fifth grade. Topics include motivation, assessment, and writing to support reading development. Meeting the needs of all learners, including culturally and linguistically diverse students, is emphasized.

**LTCY-506. Writing Instruction In Middle & High School. 3 Hours.**

Candidates explore instructional best practices for supporting students' writing development in middle and high school. Topics include motivation, assessment, and writing to support reading development. Meeting the needs of all learners, including culturally and linguistically diverse students, is emphasized.

**LTCY-507. Literacy Assessment And Instructional Planning. 3 Hours.**

In this course, candidates will learn about various types of literacy assessments, their purposes, strengths, and limitations. Candidates will select and administer multiple assessments to gather information about students' developing literacy skills, progress, and performance. Candidates will learn to analyze and interpret assessment results in order to plan instruction that meets the needs of a range of learners.

**Prerequisite:** LTCY-501 with a minimum grade of B and LTCY-502 with a minimum grade of B.

**LTCY-508. Practicum In Literacy Assessment & Intervention: Elementary Level. 3 Hours.**

In this supervised clinical practicum experience, candidates demonstrate their literacy knowledge and skills as they conduct assessments, analyze and communicate assessment results, and plan appropriate instruction for a K-5 student reading below grade level. Candidates apply theory and evidence-based practices as they design and teach a series of lessons that address the specific word recognition, comprehension, vocabulary, fluency, motivation, and self-efficacy needs of their assigned K-5 student. Candidates also engage in professional learning such as collegial coaching and reflection.

**Prerequisite:** LTCY-507 with a minimum grade of C.

**LTCY-509. Practicum In Literacy Assessment & Intervention: Middle Level. 3 Hours.**

In this supervised clinical practicum experience, candidates demonstrate their literacy knowledge and skills as they conduct assessments, analyze and communicate assessment results, and plan appropriate instruction for a middle grades (6-9) student reading below grade level. Candidates apply theory and evidence-based practices as they design and teach a series of lessons that address the specific word recognition, comprehension, vocabulary, fluency, motivation and self-efficacy needs of their assigned student. Candidates also engage in professional learning such as collegial coaching and reflection.

**Prerequisite:** LTCY-507 with a minimum grade of C or READ-407 with a minimum grade of C.

**LTCY-510. Practicum In Literacy Assessment & Intervention: Secondary Level. 3 Hours.**

In this supervised clinical practicum experience, candidates demonstrate their literacy knowledge and skills as they conduct assessments, analyze and communicate assessment results, and plan appropriate instruction for a grades 6-12 student reading below grade level. Candidates apply theory and evidence-based practices as they design and teach a series of lesson plans that address the specific word recognition, comprehension, vocabulary, fluency, motivation and self-efficacy needs of their assigned student. Candidates also engage in professional learning experiences such as collegial coaching and reflection during the course's seminar component.

**Prerequisite:** LTCY-507 with a minimum grade of C.

**LTCY-511. Research Seminar In Literacy Education. 3 Hours.**

Candidates design and conduct an original action/teacher research study based on a research question of their choosing. After collecting and analyzing data, candidates report their findings following the conventions of scholarly writing and present their study to peers. Advanced study of research methodologies and paradigms is included.

**Prerequisite:** LTCY-503 with a minimum grade of C.

**LTCY-512. Leadership In Literacy Instruction. 3 Hours.**

This course addresses the multifaceted leadership roles of specialized literacy professionals. Topics include the concept of leadership, formation of literacy teams, professional learning, coaching, instructional roles, comprehensive literacy programs, assessment, and school-family-community partnerships.

**Prerequisite:** LTCY-507 with a minimum grade of C.

**LTCY-513. Literacy Instruction For Middle Level Grades. 3 Hours.**

This course addresses motivating middle school learners to read and building the literacy skills needed for learning in subject areas. Topics include nurturing a love of reading, using instructional materials and text types to engage learners, and addressing the developmental needs of young adolescents. Meeting the needs of all students, including culturally and linguistically diverse middle school students, is emphasized.

**LTCY-514. Language And Literacy Instruction For Culturally And Linguistically Diverse Students. 3 Hours.**

This course focuses on instructional approaches and materials to support language and literacy development among culturally and linguistically diverse (CLD) students. Candidates will explore topics and issues of second language acquisition, bilingual and multicultural education, identity and CLD students, language diversity, language policy, and home and community engagement. Candidates will be able to apply their multifaceted knowledge across disciplines and professional contexts.

**Prerequisite:** LTCY-501 with a minimum grade of C and LTCY-502 with a minimum grade of C or LTCY-513 with a minimum grade of C or (READ-416 with a minimum grade of C and READ-417 with a minimum grade of C or READ-440 with a minimum grade of C).

**LTCY-515. Technology For Literacy Instruction. 3 Hours.**

In this course, candidates explore technology tools and digital media to support literacy teaching and learning among students of diverse backgrounds and abilities. Topics include selection and evaluation of technology tools; technology to support the developing needs of all learners; social, legal, and ethical issues related to classroom technology use; and technology use that promotes critical thinking and meaningful learning.

**Prerequisite:** LTCY-501 with a minimum grade of B or LTCY-502 with a minimum grade of B.

**LTCY-516. Advanced Practicum In Literacy Education. 3 Hours.**

This course provides candidates with the opportunity to examine more closely a particular facet of literacy development and/or to explore innovative diagnostic or instructional practices within a clinical setting.

**LTCY-517. Language Development And Early Literacy. 3 Hours.**

This course focuses on the relationship between children's oral language and early literacy development. Emphasis will be on the instructional implications for teachers working with children from infancy through Grade 3. Meeting the needs of all learners, including culturally and linguistically diverse students, is emphasized.

**Prerequisite:** LTCY-501 with a minimum grade of C.

**LTCY-521. Independent Study In Literacy Education. 1 Hour.**

Candidates who have interests in specific literacy topics may be invited by faculty members to conduct independent studies. They must collaborate with faculty members to develop proposals for departmental approval. Credit will be awarded commensurate with the scope of the proposed study and commitment required of faculty.

**Prerequisite:** LTCY-501 with a minimum grade of B or LTCY-502 with a minimum grade of B or LTCY-513 with a minimum grade of B.

**LTCY-522. Independent Study In Literacy Education. 2 Hours.**

Candidates who have interests in specific literacy topics may be invited by faculty members to conduct independent studies. They must collaborate with faculty members to develop proposals for departmental approval. Credit will be awarded commensurate with the scope of the proposed study and commitment required of faculty.

**Prerequisite:** LTCY-501 with a minimum grade of B or LTCY-502 with a minimum grade of B or LTCY-513 with a minimum grade of B.

**LTCY-523. Independent Study In Literacy Education. 3 Hours.**

Candidates who have interests in specific literacy topics may be invited by faculty members to conduct independent studies. They must collaborate with faculty members to develop proposals for departmental approval. Credit will be awarded commensurate with the scope of the proposed study and commitment required of faculty.

**Prerequisite:** LTCY-501 with a minimum grade of B or LTCY-502 with a minimum grade of B or LTCY-513 with a minimum grade of B.

**special education****SPED-109. First Year Experience: Gusty Chicago: Explore Your Inner Rush. 3 Hours.**

In this course, the student will discover strategies to help him or herself and others learn optimally. The student will visit off and on campus resources to become a robust learner and to learn the many pathways that are available for personal and academic success. Also, the student will communicate orally and in writing about the current field of special education and how it affects the lives of individuals with special needs. The student will obtain an opportunity to gain conceptual understanding of Chicago's resources designed to support and broaden strengths, which are critical in a first year experience.

**SPED-272. The Development And Characteristics Of Children And Youth With Exceptional Learning. 3 Hours.**

The development and characteristics of children and youth with exceptional learning needs is examined. Exceptionalities include but are not limited to Intellectual Disabilities, Learning Disabilities, Emotional and Behavior Disorders, ADD, Giftedness, Communication disorders, Physical Disabilities, Traumatic Brain Injury, Severe and Multiple Disabilities, Autism, Health Impairments, and Sensory impairments. Emphasis will be on understanding causes, theories and factors associated with the manifestation of various exceptional learning conditions.

**Prerequisite:** SPED-371 with a minimum grade of C.

**SPED-316. Professional Development Of The Special Educator. 1 Hour.**

Special Education 316 provides special education teacher candidates the opportunity to develop critical skills indicative of a prepared and highly qualified special educator. Candidates will demonstrate the foundational development of cultural competency/reciprocity to work with students from culturally/linguistically diverse (CLD) backgrounds, articulate specific practices/policies regarding professional obligations (e.g., child protection laws, digital etiquette and safety, rights on intellectual property and fair use), discuss collaborative approaches in working with various members of the school/home/community, examine the significance of self-initiated, continuous professional development and improvement for all educators and provide evidence of meeting the professional competencies required of a beginning special educator. Prerequisites: All Bachelor of Arts in Special Education coursework (Block I and II) prior to student teaching.

**SPED-317. Inclusive Teaching Strategies. 1.5 Hour.**

Inclusive Teaching Strategies is designed to provide pre-service teachers with an overview of curricular design and strategies used in teaching students with exceptional learning needs in inclusive elementary school classrooms. Specially designed instructional strategies include the integration of Universal Design for Learning (UDL) tenets to build differentiated learning structures which support learners of varying abilities. The course emphasizes curricular adaptation with focus on anchor skills within Common Core Student Standards (CCSS). The ability to develop instructional plans using multiple means of representation, engagement, and expression will be assessed.

**SPED-323. Consultation In Special Education. 3 Hours.**

This course is designed to foster effective communication skills in dealing with students, families, school professionals and outside agencies to build collaborative partnerships with an understanding of the roles of responsibilities of various stakeholders. Background, theory, and models of consultation and collaboration, co-teaching, pre-referral interventions and inclusion will be covered. Procedure for assuming leadership roles when planning and conducting collaborative meetings, parent participation and staff development will also be addressed.

**SPED-371. Writing Intensive Program: Foundations Of Special Education. 3 Hours.**

Presentation of the philosophical and historical foundations of the field of special education. Discussion of existing law, legal applications, current trends, practices, professional behavior and ethical considerations. Overview of methods of inquiry utilized by the profession. Development of professional writing skills used in the field of special education. This course meets the NEIU Writing Intensive requirement for majors in SPED.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**SPED-374. Supervised Field Experience I. 3 Hours.**

Students will be placed in a school setting, with supervision, to observe and help teach pupils with disabilities. Emphasis will be placed on higher incidence disabilities. Both primary and secondary school placements will be available.

**Prerequisite:** SPED-272 with a minimum grade of C.

**SPED-376. Teaching Learners With Moderate To Severe Disabilities. 3 Hours.**

This course addresses methodologies for teaching individuals with moderate to severe disabilities. Emphasis will be given to the basics of instructional design across the academic and social arena, including assessing and prioritizing skills for instruction, writing goals and objectives and using antecedent and consequence based instructional procedures. The special needs of students with communication deficits, severe cognitive, health and physical disabilities will be addressed.

**Prerequisite:** SPED-373 with a minimum grade of C.

**SPED-377. Supervised Field Experience II. 3 Hours.**

Candidates will be placed in a school setting, with supervision, to observe and help teach students with exceptional learning needs. Emphasis will be placed on assessment and the integration of technology appropriate for meeting the needs of diverse learners.

**Prerequisite:** SPED-373 with a minimum grade of C and SPED-374 with a minimum grade of B.

**SPED-379. Managing Behaviors In The Classroom. 3 Hours.**

The principles of behavior management will be explored. Topics will include managing student progress, classroom management, student interventions, improving social skills, aggressive behavior, and working with autistic behaviors.

**Prerequisite:** SPED-272 with a minimum grade of C.

**SPED-381. Student Teaching In Special Education. 12 Hours.**

Supervised classroom teaching experience combined with seminar discussions. Study of the school community as a social unit; classroom management; candidate teacher's professional disposition and behavior; culture and personality dynamics; instructional/assistive technology; parent/family relationships; diagnoses of disability conditions; recommended teaching techniques and curriculum organization.

**Requirement:** Passing score on LBS I Exam (#155) and Special Education General Curriculum Exam (#163); Evidence of TB test (negative results); Satisfactory completion of all coursework (major and cognate categories) with acceptable final grades, Acceptable rating (or higher) on all key assessments.

**SPED-382. Strategies For Differentiating Instruction For Students With Exceptional Learning Needs. 3 Hours.**

This course focuses on evidence-based instructional strategies appropriate for individuals with disabilities who access the general education curriculum. Specialized strategies to build initial acquisition of knowledge and skills in the areas of reading, spoken and written language, mathematics, social/emotional development, and study skills will be addressed, as well as techniques across the curriculum that enable meaningful inclusion of individuals with a range of abilities. Emphasis will also be given to the development and planning of the individualized educational program (IEP).

**SPED-383. Informal Assessment And Progress Monitoring. 3 Hours.**

Special Education 383 establishes an understanding of the principles of assessment as a means to evaluate and address the academic and/or behavioral needs of students at-risk and students with disabilities. The course provides candidates the opportunity to develop professional skills in assessment administration, score interpretation of psychometric and curriculum-based measurements (CBM); use outcome data results to plan instruction, appropriate accommodations and modifications, monitor student progress, and use assessment data for problem-solving decision making and special education eligibility.

**Prerequisite:** SPED-382 with a minimum grade of C.

**SPED-384. Instructional Design For Individuals With Exceptional Learning Needs. 3 Hours.**

This course focuses on establishing an evidence-based framework for instructional planning appropriate for individuals with exceptional learning needs and grounded in the community assets and real life issues of the learner. Content will address critical features of instructional design including the impact of various cognitive processes and diversity characteristics that impact student learning. Emphasis will be on the developing short-and long-term objectives in an instructional sequence that supports learners' academic and social/emotional learning as well as language/communication needs.

**Prerequisite:** SPED-382 with a minimum grade of D.

**SPED-385. Community Partnership And Advocacy. 3 Hours.**

This course provides undergraduate candidates the opportunity to work collaboratively with peers and community partners to identify needs in Chicago and area communities through service learning projects. Candidates will examine key components in the development of effective community partnerships and the cultivation of advocacy/ leadership skills on behalf of students with exceptionalities. Candidates will engage in establishing partnerships among private and/or public organizations for the purposes of evaluating and improving the family-school-community relationship.

**Prerequisite:** SPED-377 with a minimum grade of B and SPED-379 with a minimum grade of C.

**SPED-395. Technology And Special Education. 3 Hours.**

Candidates will study administrative, assistive and instructional technology applications in the field of special education. Review of research and practices in the field regarding assistive and instructional technology.

**Prerequisite:** SPED-272 with a minimum grade of C and SPED-375 with a minimum grade of C and SPED-378 with a minimum grade of C and (SPED-304 with a minimum grade of D or SPED-404 with a minimum grade of D).

**SPED-400. Vocational/Career Planning For Adolescents With Disabilities. 3 Hours.**

Issues in vocation/career planning for special education secondary students utilizing assessment information, interest, and aptitude findings for vocational/ career planning, including methodology, material, resources, and alternative programs.

**Prerequisite:** SPED-404 with a minimum grade of C.

**SPED-404. Survey Of The Field Of Special Education. 3 Hours.**

Review of the legal, psychological, sociological and educational aspects of the lives of children and youth with disabilities including the learning disabled. For students needing 100 hours of clinical experience, arrangements will be made through SPED-404.

**SPED-417. Inclusive Teaching Strategies For Secondary Teachers. 1.5 Hour.**

Inclusive Teaching Strategies is a course designed to provide candidates with an overview of curricular design and strategies used in teaching students with exceptional learning needs in inclusive secondary school classrooms. Specially designed instructional strategies include the integration of Universal Design for Learning (UDL) tenets to build differentiated learning structures, which support learners of varying abilities. The course emphasizes curricular adaptation with focus on anchor skills within Common Core Student Standards (CCSS). The ability to develop instructional plans using multiple means of representation, engagement, and expression will be assessed.

**SPED-451. Creativity. 3 Hours.**

Discussion and inquiry into the nature and nurture of creative ability, review of research in creativity, practical application of creative processes, ways to develop creative thinking.

**SPED-454. Teaching Gifted Students In The Regular Classroom. 3 Hours.**

Overview of teaching strategies, materials and classroom organization to enhance and foster the potential of student who are gifted and talented.

**SPED-466. Assessing Students With Limited English Proficiency (LEP) And Disabilities. 3 Hours.**

This course provides an overview of strategies and instruments that can be used to assess the academic and social behavior of pupils with limited English proficiency identified as or suspected of having special education needs.

**Prerequisite:** SPED-404 with a minimum grade of C and SPED-409 with a minimum grade of C and SPED-410 with a minimum grade of C.

**SPED-467. Teaching Students With Limited English Proficiency (LEP) And Disabilities. 3 Hours.**

This course will provide a theoretical framework to critically analyze the problems faced by students with LEP and special needs. The focus of the course is on instructional practices and approaches which seem to be effective with handicapped language minority students.

**Prerequisite:** SPED-404 with a minimum grade of C and SPED-409 with a minimum grade of C and SPED-410 with a minimum grade of C.

**SPED-470. Administration And Supervision In Special Education. 3 Hours.**

Introduction to special education administration including legal and financial aspects, staff and community relations, mainstreaming, facilities and curricular design; students will have an opportunity to solve problems using case studies and simulated materials.

**SPED-481. Principles Of Diagnosis And Teaching The Child With Special Needs Aged Three To Six Years. 3 Hours.**

Principles of diagnosis and teaching the young child with special needs. Aspects of assessment include screening, formal and informal tests, and use of diagnostic information to plan individualized educational program. Theory and practice of teaching techniques for the young child with special needs; discussion of the role of the special education teacher in working with other members of the multidisciplinary team and with parents. Current research and issues.

**SPED-482. Principles Of Diagnosis & Teaching The Child With Special Needs: Birth To Six Years. 3 Hours.**

This course applies the principles of diagnosis and teaching infants, toddlers and young children with special needs. Students will use diagnostic information to design an individual family service plan and individualized education program. Topics include theory and practice of instructional techniques, adaptations, and modifications for infants, toddlers and young children with special needs. Course content will also address the role of the special educator in working with other members of the multidisciplinary team and with parents. Current research and issues will be reviewed.

**SPED-483. Working With Parents Of Young Children With Special Needs. 3 Hours.**

This course will develop skill in working with families of young (birth to six year old) children with special needs. Issues such as family systems approaches, communication skills, parent empowerment, legal rights and working with service agencies are covered.

**SPED-484. Psychology Of Language And Cognitive Development. 3 Hours.**

This course introduces the student to the basic concepts of developmental psycholinguistics and the principles of intervention in language processes.

**SPED-488. Practicum In Early Childhood Special Education: Teaching Young Children With Special Needs. 3 Hours.**

Advanced supervised professional clinical experience in educating young infants, toddlers, or preschoolers with special needs in an appropriate setting; seminar discussions.

**Prerequisite:** SPED-481 with a minimum grade of C and SPED-482 with a minimum grade of C and SPED-483 with a minimum grade of C and SPED-502 with a minimum grade of C and (ECED-403 with a minimum grade of C or ECED-338 with a minimum grade of C).

**SPED-490. Research Seminar In Special Education. 3 Hours.**

Review of research literature on special problems in exceptionality. Research project under the supervision of a faculty advisor.

**SPED-491. Thesis Credit In Special Education. 3 Hours.**

Research project within the area of applicant's field of specialization.

**SPED-494. Research Seminar In Exceptionality. 3 Hours.**

Experimental method applied in a group research project in a specialized area of exceptionality.

**SPED-500. Research I:Special Education. 3 Hours.**

Communicate orally and in writing about the current research in the field of special education and how it affects the lives of individuals with special needs.

**SPED-501. Characteristics Of Children And Youth With Disabilities. 3 Hours.**

Review the psychological, sociological, and educational aspects of the lives of children and youth with disabilities, including legal foundations of special education services. Additionally, graduate students will be able to address the unique needs of working with children/adolescents with disabilities from culturally/linguistically diverse backgrounds as well as demonstrate initial skills in professional reflections as educators.

**SPED-502. Language, Learning And Cognition. 3 Hours.**

This is a graduate level human development course emphasizing cognitive and language development and acquisition and how these processes impact learning throughout the lifespan. Major learning theories and their implications for practice will be examined. Candidates will examine course concepts from the vantage point of supporting the learning of diverse students.

**SPED-503. Foundations Of Special Education. 3 Hours.**

This course examines the historical, philosophical and legal aspects of education that have defined the field of special education.

**SPED-504. Assessment I: Principles Of Educational Assessment In Special Education. 3 Hours.**

Special Education 504 establishes a foundational understanding of the principles of formal and informal assessment to evaluate and address the academic and behavioral needs of students with disabilities. It provides candidates the opportunity to develop professional skills in assessment administration, score interpretation of psychometric and curriculum-based measurements, utilizing ascertained score results to plan instruction and monitor student progress, a working understanding of the principles and practices of Response to Intervention, and understanding of critical considerations in working with students from culturally/linguistically diverse backgrounds.

**Requirement:** Earned minimum grade of C in program courses with no more than 2 'C' grades.

**SPED-505. Consultation & Collaboration. 3 Hours.**

This course prepares the special educator to develop collaborative relationships with a variety of stakeholders and to serve as an informed professional resource for school personnel and families. Topics covered include inclusion, consultation needs, conferencing techniques, collaboration models, in-service education and parent education supports and programs. Also, issues, resources and strategies for integration and transition of students from most restrictive to least restrictive environments will be addressed with emphasis on students who exhibit behavioral challenges.

**Requirement:** Earned minimum grade of C in program courses with no more than 2 'C' grades.

**SPED-506. Instructional & Assistive Technology In Special Education. 3 Hours.**

This course prepares special educators to understand, implement and utilize technology, fostering learning and social outcomes within the context of the Least Restrictive Environment. The course examines special technology used in the assessment and implementation of technology. The legal ramifications of selecting and operating assistive devices are also covered. The relationship of technology theory is also included.

**Requirement:** Earned minimum grade of C in program courses with no more than 2 'C' grades.

**SPED-507. Clinical Experience I: Fundamentals Of Teaching. 2-3 Hours.**

Candidates work on-site in special education programs where services are provided for children and youths with special needs with mild to moderate disabilities. The focus of this experience is on assessing student learning needs and making sound instructional recommendations for students with disabilities who access the general education curriculum. Field-based settings allow candidates to engage in assessment, lesson planning and collaborative activities in school settings.

**Requirement:** Earned minimum grade of C in program courses with no more than 2 'C' grades.

**SPED-507A. Clinical Experience I: Fundamentals Of Teaching. 2 Hours.**

Candidates work on-site in special education programs where services are provided for children and youths with special needs with mild to moderate disabilities. The focus of this experience is on assessing student learning needs and making sound instructional recommendations for students with disabilities who access the general education curriculum. Field-based settings allow candidates to engage in assessment, lesson planning and collaborative activities in school settings. SPED-507A is for students who were admitted prior to FA-2020.

**SPED-508. Methods II: General Curriculum & Methods In Special Education. 3 Hours.**

This course addresses general principles of teaching, including the modifications/ adaptations for individuals (P-21) with disabilities who access the general education curriculum. Candidates will apply individualized goals and planning in the context of the general education curriculum.

**Prerequisite:** SPED-506 with a minimum grade of C and LTCY-402 with a minimum grade of C.

**SPED-509. Methods I: Specialized Curriculum & Methods In Special Education. 3 Hours.**

This course develops candidates' ability to understand the theoretical basis for and implementation of evidence-based strategies to facilitate the meaningful inclusion of students with mild to moderate disabilities in the least restrictive environment. Methodology and strategies to promote development of reading, oral and written expression in the content areas, including language arts, mathematics, science and social studies instruction will be addressed, as well as strategies to support students' social and emotional development. Candidates will demonstrate understanding of Universal Design for Learning to address individual student needs including individual educational goals and objectives.

**SPED-510. Methods III: Strategies Of Behavior Management. 3 Hours.**

Graduate candidates with the principles of applied behavior analysis, positive behavioral supports, and other contemporary approaches for behavior management. Additionally, candidates will be able to address the unique needs of working with children/adolescents with disabilities from culturally/linguistically diverse backgrounds.

**SPED-511. Methods IV: Alternative Programming And Curriculum In Special Education. 3 Hours.**

This course addresses the programming and curriculum issues for students with moderate to severe disabilities who, because of the nature of their disabilities require alternative programs and/or curriculum adaptations within the context of the Least Restrictive Environment.

**Requirement:** No more than 2 C grades in program.

**SPED-512. Clinical Experience II: Intermediate Teaching. 2-3 Hours.**

The purpose of SPED-512 is to involve candidates in working on site in special education programs where services are provided for children and youths with moderate to severe disabilities. It provides initial special education candidates opportunities to apply and reflect upon elements of teaching including instructional design based on the strengths, characteristics, cultural assets and needs of the learner, assessment of student learning, engagement of the learner and implementation of evidence-based strategies in the field. Candidates will learn more about the collaborative role special educators play within the context of the Least Restrictive Environment.

**Prerequisite:** SPED-507 with a minimum grade of C and SPED-509 with a minimum grade of C.

**SPED-512A. Clinical Experience II: Intermediate Teaching. 2 Hours.**

SPED-512A involves candidates in working on site in special education programs where services are provided for children and youths with moderate to severe disabilities. It provides initial special education candidates opportunities to apply and reflect upon elements of teaching, including instructional design, based on the strengths, characteristics, cultural assets and needs of the learner, assessment of student learning, engagement of the learner and implementation of evidence-based strategies in the field. Candidates will learn more about the collaborative role special educators play within the context of the Least Restrictive Environment. This course is for students admitted prior to Fall 2020.

**Prerequisite:** SPED-507 with a minimum grade of C and SPED-509 with a minimum grade of C.

**SPED-513. Assessment II: Applied Diagnostic Testing. 3 Hours.**

Techniques of testing and interpretation of tests in educational diagnosis, familiarity with commonly used assessment instruments, techniques and practice in administering individual diagnostic tests, methods of informal assessment, and interpretation of clinical reports.

**Prerequisite:** SPED-508 with a minimum grade of C and SPED-509 with a minimum grade of C and SPED-510 with a minimum grade of C and SPED-511 with a minimum grade of C.

**SPED-514. Student Teaching In Special Education. 3,6 Hours.**

The candidate will participate in supervised professional experiences in a school setting as a candidate teacher of pupils with disabilities (5-21). Applied teaching will be combined with seminar discussions and required assignments.

**Requirements:** Program approval.

**SPED-514A. Student Teaching In Special Education. 3 Hours.**

The candidate will participate in supervised professional experiences in a school setting as a candidate teacher of pupils with disabilities (5-21). Applied teaching will be combined with seminar discussions and required assignments. SPED-514A is for candidates who entered the program prior to Fall of 2020.

**Requirements:** Program approval

**Prerequisite:** SPED-508 with a minimum grade of C and SPED-509 with a minimum grade of C and SPED-510 with a minimum grade of C and SPED-511 with a minimum grade of C and SPED-520 with a minimum grade of C.

**SPED-514B. Applied Diagnostic Teaching In Special Education. 3 Hours.**

The candidate will participate in supervised professional experiences in the William Itkin Children's Service Clinic in the role as a graduate clinician. Diagnostic teaching will be combined with seminar discussions and required activities.

**Prerequisite:** SPED-508 with a minimum grade of C and SPED-509 with a minimum grade of C and SPED-510 with a minimum grade of C and SPED-511 with a minimum grade of C and SPED-513 with a minimum grade of C.

**SPED-516. Professional Development Of The Special Educator. 1 Hour.**

SPED-516 provides special education teacher candidates the opportunity to develop critical skills indicative of a prepared and highly qualified special educator. Candidates will demonstrate the foundational development of cultural competency/reciprocity to work with students from culturally/linguistically diverse (CLD) backgrounds, articulate specific practices/policies regarding professional obligations (e.g., child protection laws, digital etiquette and safety, rights on intellectual property and fair use), discuss collaborative approaches in working with various members of the school/home/community, examine the significance of self-initiated, continuous professional development and improvement for all educators and provide evidence of meeting the professional competencies required of a beginning special educator. Prereq.: All Master of Arts in Special Education coursework (Block I, II and III) prior to student teaching.

**SPED-518. Practicum In Special Education. 3 Hours.**

The candidate will participate in supervised professional experiences in a school setting as a candidate teacher of pupils with disabilities (5-21) in the Least Restrictive Environment. Applied teaching will be combined with seminar discussions and required assignments.

**Prerequisite:** SPED-501 with a minimum grade of C and SPED-503 with a minimum grade of C and SPED-506 with a minimum grade of C and SPED-504 with a minimum grade of C and SPED-509 with a minimum grade of C and SPED-510 with a minimum grade of C and SPED-511 with a minimum grade of C and SPED-513 with a minimum grade of C.

**SPED-519. Collaborative Relationships In Special Education. 3 Hours.**

SPED-519 prepares advanced credential special education candidates to develop skills and dispositions, which promote leadership in collaborative relationships relating to students with disabilities in school settings. Collaboration with a variety of stakeholders, including peer teachers, parents, community agencies, and related service providers, will be examined. Topics covered include the culture of schools, conferencing techniques, mentoring new teachers, and in-service education. Clinical experience involves mentoring a novice special education teacher.

**SPED-520. Assessment Lab-Applied Diagnostic Assessment. 3 Hours.**

Graduates students will apply assessment principles to design an instructional sequence for children/youth with disabilities served a clinical setting.

**Prerequisite:** SPED-504 with a minimum grade of C and SPED-508 with a minimum grade of C and SPED-509 with a minimum grade of C and SPED-511 with a minimum grade of C.

**SPED-521. Issues & Interventions For Individuals With Autism Spectrum Disorder, Social Communication Disorder. 3 Hours.**

This course presents the knowledge and skills necessary for the professional to understand issues and demonstrate interventions appropriate for individuals with Autism, PDD, and low incidence disorders and syndromes. Content will address cognitive, language, and behavioral/social characteristics, methods and applications in working with and on behalf of these individuals. Emphasis will be on supporting and promoting improvements in the areas of behavior and communication.

**Prerequisite:** SPED-522 with a minimum grade of C and SPED-523 with a minimum grade of C.

**SPED-522. Foundations & Practices In Challenging Behaviors. 3 Hours.**

This course presents the knowledge and skills necessary for the professional to understand the philosophical, historical and legal foundations addressing the management of behavior and to apply various individual and group strategies to meet the needs of individuals who demonstrate challenging behavior in a variety of educational settings.

**SPED-523. Educational Assessment & Planning For Positive Behavior Management. 3 Hours.**

This course presents the knowledge and skills necessary for the professional to interpret various methods of assessment and diagnoses in order to meet the individual needs of students with emotional and behavioral disorders.

**SPED-524. Practicum In Behavior Disorders. 3 Hours.**

This course involves candidates in working on-site in special education programs where services are provided for children and youths with behavioral disorders. Through guided support, candidates employ the advanced elements of behavioral intervention and planning, including the assessment and diagnosis of behavioral disorders and use of functional behavioral analyses (FBA) to support effective intervention strategies. These elements will be applied in field-based settings to allow students, through direct interaction and facilitation of learning, to learn more about the children and youths' characteristics and needs and school-based programming within the context of the least restrictive environment (LRE).

**Prerequisite:** SPED-522 with a minimum grade of C and SPED-521 with a minimum grade of C and SPED-523 with a minimum grade of C.

**SPED-525. Alternative Assessment & Test Accommodations. 3 Hours.**

This course presents the knowledge and skills necessary for the professional to apply various methods of assessment in order to meet the individual needs of students with disabilities. Content will address alternative assessment methods, test accommodations, and applied curriculum based assessment. The instructor will model collaboration and consultation skills for working with families and other professionals.

**SPED-526. Adaptations Of Curriculum. 3 Hours.**

This course provides instruction to students in making adaptations and accommodations to the general curriculum based on an understanding of the academic and non-academic needs of learners with special needs. It prepares the learner to understand how students differ in their approaches to learning, and how to design and adapt instruction to engage all learners, promote positive interactions and develop students' intellectual, social and personal development. Course content will also address sources of specialized materials and resources for assistive technology. Methodology to support the curriculum infusion of real life issues will also be addressed.

**SPED-527. Language Based Disorders. 3 Hours.**

This course addresses the development of auditory and visual symbol systems from the perspective of psycho-neurological learning research. Listening, speaking, reading and written language will be covered. The relationship of these symbol systems to the underlying semiotic function will be emphasized. Diagnosis and remediation of disorders of auditory and visual symbol systems will be covered in depth.

**SPED-528. Teaching Mathematics To Individuals With Special Needs. 3 Hours.**

This course will address the issues of assessment and remediation in mathematics for individuals with special needs. It is based on the understanding that competence in mathematics is a necessity for effective resolution of psychosocial and cognitive developmental life tasks, and as a means of assuring a good quality of life. Candidates will examine the scope and sequence of mathematics curriculum, assessment of mathematics-based learning disabilities, and strategies for teaching mathematics to learners with special needs.

**SPED-529. Curriculum Practicum. 3 Hours.**

This course provides opportunities for students to employ, under supervision, methods and procedures useful for the successful support of learners with special needs in the regular education curriculum. Such guided experiences include the use and modification of assessments, development of curriculum for an individual learner, modification and adaptation of curriculum appropriate to the students learning style, modification of learning environments to meet individual needs, monitoring and assessing the success of curriculum adaptations as well as the selection of research supported instructional strategies.

**Prerequisite:** SPED-526 with a minimum grade of C and SPED-527 with a minimum grade of C and SPED-525 with a minimum grade of C.

**SPED-530. Capstone Project. 3 Hours.**

This course requires candidates for the LBS II Masters Program to apply relevant research to their area of inquiry and utilize this research to write a master's level research paper or conduct an applied clinical/action research project. While papers and projects are individual in nature, each candidate is expected to follow a prescribed procedure under the direct guidance and supervision of the instructor.

**Prerequisite:** (SPED-525 with a minimum grade of C and SPED-526 with a minimum grade of C and SPED-527 with a minimum grade of C and SPED-528 with a minimum grade of C) or (SPED-505 with a minimum grade of C and SPED-521 with a minimum grade of C and SPED-522 with a minimum grade of C and SPED-523 with a minimum grade of C).

# Master of Arts in Educational Leadership

---

Northeastern Illinois University offers the Master of Arts in Educational Leadership degree. Students may select one of two concentrations:

1. School Leadership (PreK- Age 21);
2. Higher Education Leadership.

Program objectives for the concentrations have been designed to develop exemplary administrative leaders and to foster their continuing growth and effectiveness. Specifically, students in the School Leadership (PreK- Age 21) concentration develop competencies related to effective leadership, educational management practices, and staff development at the school level. This concentration leads to The State of Illinois Principal Endorsement.

The Higher Education Leadership concentration provides knowledge and skills related to the history and development of colleges, universities, and community colleges, and to effective administrative practices at that level. It stresses an understanding of administrative and supervisory skills for the development and support of instructional systems at the collegiate level. Students in this concentration have the option of completing a thesis. Courses are taught in the evenings and Saturdays at the main campus, at El Centro, at Carruthers Center, at Lake County, and at a variety of locations in the Chicago metropolitan area through Distance Education and web-enhanced courses.

## Requirements for Admission to the Program:

For students admitted to Master's Programs for the Fall 1997 semester and thereafter, all graduate credits must be at the 400 level. Consult with your program advisor or the Graduate College for details.

In addition to the requirements of the Graduate College for admission (<http://www.neiu.edu/academics/graduate-college/>), students who wish to enroll in the Master's Degree Program in Educational Leadership must meet the following eligibility requirements:

## ADMISSION PROCESS (SCHOOL LEADERSHIP PREK - Age 21)

Candidates desiring admission to the Master's Degree in Educational Leadership (PreK- Age 21 concentration) begin by completing an application for and obtaining Northeastern Illinois University's Student at Large (SAL) designated status. This status allows students to enroll in up to six courses without full admission to the College of Graduate Studies and Research. Students admitted as a SAL then use the program's first introductory course, LEAD 424, to complete the graduate program application for admission<sup>1</sup> as the class professor provides time to assist students with the details of the formal program application process.

### Admission Requirements

- A Bachelor's Degree from an accredited college or university.
- Minimum 2.75 G.P.A. (on a 4.0 scale) from most recent degree.
- Completion of two years of PK- Age 21 teaching (i.e., early childhood, elementary, secondary, special K-21, or special preschool-age 21 certificates) OR in a school support personnel area (i.e., school counselor, school psychologist, a speech-language pathologist (non-teaching), school nurse, school social worker, school marriage and family counselor) for admission to the program and completion of four years of experience to be eligible for graduation and the Principal Endorsement upon completion of the program.
- Two letters of recommendation (completed by supervisors).
- Two NEIU Disposition Assessments (completed by supervisors).
- Successful completion of a written exam provided by the department.
- Completion of a successful teaching or school support personnel portfolio.
- In-person interview.

### ADMISSION PROCESS (HIGHER EDUCATION LEADERSHIP)

Candidates desiring admission to the Master's Degree in Educational Leadership with a concentration in Higher Education should first contact the facilitator of that graduate program. Students then complete the application to the Graduate College indicating their program preference. Additional admission requirements include:

- A personal statement indicating one's experience in Higher Education
- A resume
- In-person interview
- A Bachelor's Degree from an accredited college or university
- Minimum G.P.A. of 2.75 on a 4.0 scale
- Two letters of recommendation

## Program Requirements:

1. Selection of a concentration in School Leadership (PreK-21) or Higher Education Leadership.
2. Completion of 36 credit hours according to prescribed sequences.
3. Successful completion of the Departmental Comprehensive Examinations.

## Required Courses:

### School Leadership (PreK-21) Concentration (36 credit hours)

#### Sequence I

LEAD-424 should be the first course taken as a Student-At-Large. During this course, time is allotted to work on the formal graduate program application process. It is recommended to take LEAD-421 the same semester.

Code	Title	Hours
LEAD-424	Introduction To Evaluation Of Certified & Support Staff	3
LEAD-421	Educational Leadership And Organizational Studies	3
LEAD-429	Research Design & Analysis Of Educational Data	3
LEAD-436	Human Resources Administration In Education	3
LEAD-401	Instructional Leadership	3
LEAD-422	The Principalship	3

**Successfully complete Part I of the Comprehensive Examination.**

**Note:** Upon successful completion of LEAD 424 and LEAD 421 and admittance to the program, Part I of the Comprehensive Examination should be taken.

#### Sequence II

Code	Title	Hours
LEAD-433	School Law & Ethics	3
LEAD-432	School Finance & Budgeting	3
LEAD-431	School & Community Relations	3
LEAD-434 & LEAD-435 & LEAD-437	Internship I and Internship II and Internship III	9

The capstone experience in the Educational Leadership program is the three-course internship sequence. Students must plan their internship experience to provide for three consecutive internship classes.

**Successfully complete Part II of the Comprehensive Examination.**

Additional Program Information:

The Illinois Performance Evaluation- Teacher Evaluation Training (PERA) and the 195 & 196 Principal as Instructional Leader exams are required for graduation from the program.

### Higher Education Leadership Concentration (36 credit hours)

Code	Title	Hours
Sequence I		
LEAD-421	Educational Leadership And Organizational Studies	3
LEAD-491	Foundations In Higher Education	3
COUN-468H	Seminar In Counseling: Student Personnel Work In Higher Education	3
LEAD-429	Research Design & Analysis Of Educational Data	3
LEAD-413	Human Relations And Leadership	3
Elective course		
Sequence II		
LEAD-492	Resources, Institutional Planning And Finance In Higher Education	3
LEAD-493	The Law Of Higher Education	3
LEAD-495	Practicum In Higher Education	3

3 Elective courses 9

OR

LEAD-430 Thesis Seminar (and 1 additional elective)

Comprehensive Examination

**Total Hours 36**

This sample curricular map is provided to guide you in the planning of your progression for this major. This guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor.

## School Leadership

### First Year

**Term 1 Hours**

LEAD-421 Educational Leadership And Organizational Studies 3

LEAD-424 Introduction To Evaluation Of Certified Support Staff 3

**Term Hours 6**

**Term 2**

LEAD-436 Human Resources Administration In Education 3

LEAD-429 Research Design Analysis Of Educational Data 3

**Term Hours 6**

**Term 3**

LEAD-422 The Principalship 3

LEAD-401 Instructional Leadership 3

**Term Hours 6**

### Second Year

**Term 1**

LEAD-433 School Law Ethics 3

LEAD-434 Internship I 3

**Term Hours 6**

**Term 2**

LEAD-432 School Finance Budgeting 3

LEAD-435 Internship II 3

**Term Hours 6**

**Term 3**

LEAD-431 School Community Relations 3

LEAD-437 Internship III 3

**Term Hours 6**

**Total Hours: 36**

## Higher Education Leadership

### First Year

**Term 1 Hours**

LEAD-421 Educational Leadership And Organizational Studies 3

LEAD-491 Foundations In Higher Education 3

**Term Hours 6**

**Term 2**

LEAD-496B Seminar In Higher Education: The Problematic Pipeline - Latinos And Latinas In Higher Education 3

COUN-468H	Seminar In Counseling:Student Personnel Work In Higher Education	3
<b>Term Hours</b>		<b>6</b>
<b>Term 3</b>		
LEAD-429	Research Design Analysis Of Educational Data	3

<b>Term Hours</b>		<b>6</b>
<b>Total Hours:</b>		<b>36</b>

# Major in Human Resource Development

---

## Major in Human Resource Development for the Bachelor of Arts Degree

Upon completion of the major, students will demonstrate:

1. knowledge of different organizational settings in which training and learning occur;
2. knowledge of the training, educational and development needs of organizations;
3. skills in task analysis, program planning, and program design that are in keeping with organizational needs;
4. ability to apply principles of learning and motivation as a basis for decisions regarding instructional programs for adults;
5. sensitivity to the psychological and cultural needs of diverse populations needed for adaptation of training/educational planning; and
6. competency in the use of methods and technology appropriate for the instructional/learning needs of organizations.

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6
<b>Humanities (HU)*</b> 3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	9
<b>Behavioral/Social Sciences (SB)*</b> 3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	9
<b>Natural Sciences (NS and NSL)**</b> 3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	9

### Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

### Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

### Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

### Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

## 2 Major in Human Resource Development

\* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

\*\* Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/graduation-requirements/bachelors-degree/>)

## Major in Human Resource Development requirements

Code	Title	Hours
<b>Required Courses</b>		
HRD-300	Principles And Practices In Human Resource Development	3
HRD-301	Adult Teaching/Learning Process	3
HRD-310	Instructional Techniques And Technology <sup>1</sup>	3
HRD-315	Computer Utilization In Human Resource Development <sup>1</sup>	3
HRD-320	Dynamics Of Working With Groups And Individuals	3
HRD-321	Designing Instruction In Human Resource Development <sup>1</sup>	3
HRD-325	Writing Intensive Program:Communication In Human Resource Development <sup>1</sup>	3
HRD-328	Organizational Project Management	3
HRD-329	Internship And Seminar In Human Resource Development <sup>1</sup>	6
Human Resource Development Electives <sup>2</sup>		6
<b>Total Hours</b>		<b>36</b>

<sup>1</sup> Requires admission to COE

<sup>2</sup> Each student, in consultation with the program coordinator and/or advisor, will select 6 additional credit hours of work. The selection of courses will be guided by the student's career objectives and will focus on competencies relevant to these objectives. The electives will amplify and extend the competencies developed in the core courses

Human Resource Development majors must be fully admitted to the Goodwin College of Education prior to registering for more than 9 hours.

## Additional Electives

Students with weaknesses in any area such as communication skills or career planning skills will be required to select electives with the goal of developing these skills.

# Minor in Human Resource Development

---

## Minor in Human Resource Development (18 credit hours)

The Minor in Human Resource Development allows students to combine their interests in psychology, business, communications, social services, education, political science, interdisciplinary studies, or technical training with study in the field of Adult Training/Human Resource Development. The minor in Human Resource Development focuses on the development of skills important for practitioners in adult learning or employee training.

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6

# Master of Arts in Human Resource Development

---

This Master's program prepares professionals who will be responsible for the training, education, and development of employees in organizations involved in business, health care, human services, and government. The program has been developed especially for those wishing to move into HRD field in a management or planning capacity, as well as for current practitioners desiring more formal training.

The program is designed to develop the ability to:

1. assess the nature of performance problems;
2. apply needs and task/content analysis techniques;
3. assess the relevant characteristics of learners/trainees;
4. design training, education, and instructional programs for adult learners/trainees;
5. determine the effectiveness of training/education/instructional programs;
6. communicate and interact effectively with groups and individuals;
7. consult with managers to address employee and organizational development needs;
8. manage human resource development projects and programs;
9. work effectively across an organization in order to plan, develop and implement performance improvement.

## Requirements for Admission to the Program:

Applicants must fulfill the requirements for admission to the Graduate College, as follows;

1. B.A. degree from an accredited college or university (transcript required.)
2. A minimum grade point average of 2.75 (students not meeting GPA can apply for faculty review.)
3. Two letters of recommendation from professors, employers, or supervisors which provide evidence of an applicant's qualifications.

Individuals who fail to satisfy requirements under number 2 may be asked to complete undergraduate course work in Human Resource Development or other subjects prior to admission. The courses to be taken will be determined by the program advisor and will be based on a review of the individual's academic record and work experience.

## Requirements for the Degree:

Code	Title	Hours
<b>Required Courses</b>		
HRD-400	Hrd And The Organization	3
HRD-401	The Adult Learner I	3
HRD-405	Needs And Task Analysis In Hrd	3
HRD-406	Instructional Design In Hrd I	3
HRD-407	Measurement And Evaluation In Hrd	3
HRD-415	Seminar In Human Resource Development- Organizational Development	3
HRD-418E	Topical Seminar In Global/Cultural Issues In Human Resource Development	3
HRD-416	Masters Capstone	3
Elective Classes (4):		12
<b>HRD electives</b>		
HRD-403	Leadership & Political Savvy In The Workplace	
HRD-410	Talent Management	
HRD-411	Consulting In Human Resource Development	
HRD-418F	Topical Seminar: Group Dynamics In Human Resource Development	
HRD-414	Strategic Planning In Human Resource Development	
HRD-421	Leadership And Ethics In HRD	
HRD-490	Multimedia: Design And Application	

**Management elective**

MNGT-474	Human Resources Policy And Decision Making
----------	--

**Communication elective**

CMTC-414	Seminar In Organizational Communication
----------	---

**Total Hours** **36**

12 courses, 8 core and 4 electives

Additional electives may be considered by the program coordinator/advisor

NOTE: For all students in the program, the following will be required:

1. A total of 36 credit hours of study are required for completion of the Master's Degree program.
2. The successful completion of the Departmental Comprehensive Examination.

**Capstone:**

Each student must complete a capstone project (HRD 416: Capstone). In order to be eligible for the capstone the student must have satisfactorily completed all core required class and at minimum 3 of 4 elective courses. The capstone project, (Practitioner project, Instructional design, or Internship) must receive prior approval of the instructor of record.

**COMPREHENSIVE EXAMINATION;**

At the conclusion of all coursework each student must successfully complete a comprehensive examination, which will be comprised of questions relating to the practice of Human Resource Development. This examination is offered once each semester (Fall, Spring, and Summer).

This sample curricular map is provided to guide you in the planning of your progression for this major. This guide should not replace regular consultations with your HRD program advisor. This is a sample which does not reflect all degree hours or requirements. For specific recommendations of courses not identified, please consult your program advisor.

# Master of Arts in Literacy Education

Literacy Education offers two programs designed to meet the urgent need for highly effective teachers and instructional leaders with expertise in literacy education. The objectives of these programs are to increase candidates' knowledge of literacy processes and development; to advance professional knowledge in the teaching of literacy for all learners, including those from culturally and linguistically diverse backgrounds; and to provide specialized training in assessment and intervention for students who struggle with reading and writing.

The Master of Arts in Literacy Education, leading to PK-12 Reading Specialist entitlement, is designed for licensed teachers who wish to enhance their skills in teaching literacy in their own classroom or to work as Reading Specialists beyond their classroom. Candidates are prepared for leadership in literacy, including coaching and professional support, instructional planning, and curriculum development. The Master of Arts in Literacy Education requires 33 credit hours. Note: In addition to the completed MA, the Illinois State Board of Education requires candidates to have a minimum of two years full-time experience as teacher-of-record and a passing score on the ILTS Reading Specialist Exam for entitlement as a Reading Specialist.

The Reading Teacher Endorsement, PK-12, is a non-degree program designed for licensed teachers who wish to enhance their skills in teaching literacy in their own classroom. It requires 18 credit hours. Note: The Illinois State Board of Education requires a passing score on the Reading Teacher Exam for entitlement as a Reading Teacher, but does not require a minimum number of years as teacher-of-record.

Please visit the Literacy Education website at Literacy, Leadership and Development (<http://www.neiu.edu/academics/college-of-education/departments/literacy-leadership-and-development/>).

Candidates for both the Master of Arts in Literacy Education/Reading Specialist and the Reading Teacher Endorsement must meet the requirements for admission to the College of Graduate Studies and Research. In addition, candidates must provide:

- A copy of their current Illinois Professional Educator License (PEL) endorsed for teaching
- Transcripts showing a minimum grade point average of 2.75 in undergraduate work, with a minimum grade point average of 3.0 in the education major coursework
- A 200- to 250-word statement focused on professional experiences and goals

Note: A minimum of one year of full-time teaching experience is preferred but not required for admission.

## RETENTION REQUIREMENTS

In addition to the retention requirements stated by the College of Graduate Studies and Research, candidates for the Reading Specialist entitlement and for the Reading Teacher endorsement are further expected to adhere to the behaviors described in the Ethics Statement published by the International Literacy Association.

The MA in Literacy Education Program requires the following courses:

Code	Title	Hours
LTCY-501	Literacy Instruction In Elementary Grades	3
LTCY-502	Literacy Instruction In Content Areas In Secondary Grades	3
LTCY-503	Theoretical Foundations Of Literacy Education	3
LTCY-504	Literature For Instruction In A Diverse Society	3
LTCY-505	Writing Instruction In Elementary Grades	3
or LTCY-506	Writing Instruction In Middle & High School	
LTCY-507	Literacy Assessment And Instructional Planning <sup>1,2</sup>	3
(Prerequisites for LTCY 507 are LTCY-501 and LTCY-502)		
Capstone Courses		
LTCY-508	Practicum In Literacy Assessment & Intervention: Elementary Level <sup>1</sup>	3
LTCY-510	Practicum In Literacy Assessment & Intervention: Secondary Level <sup>1</sup>	3
(Prerequisites for LTCY 508 and 510 are LTCY 504 and LTCY 507)		
LTCY-511	Research Seminar In Literacy Education <sup>1</sup>	3
(Prerequisites for LTCY 511 are LTCY-501, LTCY-502 and 503)		
LTCY-512	Leadership In Literacy Instruction <sup>1</sup>	3
(Prerequisites for LTCY 512 are LTCY-501, LTCY-502, LTCY 504, LTCY 507)		
Select one of the following:		3
LTCY-513	Literacy Instruction For Middle Level	
LTCY-514	Literacy Instruction For Linguistically & Culturally Diverse Learners	

or LTCY-515 Integrating Technology With Literacy Instruction

**Total Hours** **33**

- <sup>1</sup> Requires authorization to register
- <sup>2</sup> Candidates must:
- Have the prerequisites
  - Be fully admitted to the MA in Literacy Education or Reading Teacher Endorsement program
  - Have submitted one Self-Evaluation of Professional Dispositions

The Reading Teacher Endorsement Program requires the following courses:

Code	Title	Hours
LTCY-501	Literacy Instruction In Elementary Grades	3
LTCY-502	Literacy Instruction In Content Areas In Secondary Grades	3
LTCY-504	Literature For Instruction In A Diverse Society	3
LTCY-507	Literacy Assessment And Instructional Planning	3
(Prerequisites for LTCY 507 are LTCY-501 and LTCY-502)		
LTCY-508	Practicum In Literacy Assessment & Intervention: Elementary Level <sup>1</sup>	3
LTCY-510	Practicum In Literacy Assessment & Intervention: Secondary Level <sup>1</sup>	3
(Prerequisites for LTCY 508 and 510 are LTCY 504 and LTCY 507)		
<b>Total Hours</b>		<b>18</b>

- <sup>1</sup> Must be authorized to register

## EXIT REQUIREMENTS for the Master of Arts Degree in Literacy Education

- Satisfactory completion of all required courses
- One Self-Evaluation of Professional Dispositions
- Faculty Evaluation of Professional Dispositions from the Supervisor of the Clinical Practicum
- Submission of the program survey

## ENTITLEMENT REQUIREMENTS FOR READING SPECIALIST ENDORSEMENT, PK-12

- Meet all exit requirements for the Master of Arts Degree in Literacy Education
- Earn a passing score on the ILTS content test: Reading Specialist
- Document a minimum of 2 years' experience as the teacher-of-record

## ENTITLEMENT REQUIREMENTS FOR READING TEACHER ENDORSEMENT, PK-12

- Successfully complete all required courses
- Earn a passing score on the ILTS content test: Reading Teacher

Note: To be entitled by the University for the Reading Specialist or Reading Teacher endorsement from the state of Illinois, candidates must provide a copy of their ILTS test passing scores to the Literacy Education Program.

This sample curricular map is provided to guide you in the planning of your progression for this major. This guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor.

# Major in Special Education

---

## Major in Special Education for the Bachelor of Arts Degree

The major in Special Education is designed to meet state teacher licensure requirements by training students to be knowledgeable and skilled regarding the education of all school aged children and adolescents with disabilities. Majors are selected during October to begin studies during the following Spring semester. Majors progress through the program as a cohort. Most coursework is offered during late afternoon and evening hours.

### Admission Requirements

Prospective students apply for admission during Fall semester and must be fully admitted to the University at time of application. Minimum admission requirements include:

1. Minimum GPA of 2.75 based on all undergraduate work. New students must have successfully completed 12 credit hours at NEIU with a 2.75 or greater GPA if their previous work falls below 2.75.

No more than two grades of "C" or less in professional sequence coursework (i.e., SPED, ELED, SCED, TESL, BLBC, LTCY) is allowed. A grade of "D" in any required Special Education course will not be accepted toward the Special Education major. The student may repeat a "D" course once, dependent on departmental review (see program maintenance criteria). If a student fails to get a "C" or better, the student will be removed as a Special Education major.

All students must maintain a 2.75 GPA. To be entitled for licensure a student must earn a grade of "B" or better in Student Teaching. A 2.75 cumulative G.P.A. is required for graduation.

### Program Maintenance Criteria

Students must maintain a minimum 2.75 grade point average every semester. Should the candidate's GPA fall below 2.75 in any semester or the cumulative GPA falls below 2.75, the student is allowed one semester to raise the GPA back to 2.75 or will be dismissed from the program. Education courses completed with a grade less than a "C" must be repeated and the candidate must earn a grade of "C" or above. Education courses refers to any NEIU courses with the following prefixes: EDFN, SPED, ELED, SCED, BLBC, or LTCY.

The candidate must obtain permission from the department's Professional Standards Committee to retake the education course for which a grade lower than "C" was earned.

No more than two grades of "C" are acceptable in professional sequence courses (i.e., any course required for the special education major). If the student earns more than two grades of "C" in professional sequences courses, the student must re-take those courses, no more than once, until grades of "B" or better are earned, or leave the program. The candidate must obtain permission from the department's Professional Standards Committee in order to retake these professional sequence courses.

Students may only repeat a course one time.

All coursework including the removal of incompletes must take place prior to student teaching.

Any course that has been repeated with a final (second) grade of "C," may not be repeated again.

Students must maintain acceptable ratings on all key program assessments in order to progress without interruption through their program. Students who do not meet an acceptable or above rating on any key program assessment must obtain permission from the Program Facilitator to retake the course in which a key program assessment is embedded or to revise the assessment, no more than one time, in order to meet an acceptable rating.

Students must receive acceptable evaluations of their dispositions and professional behaviors in order to progress without interruption through their program. Failing to demonstrate acceptable dispositions and professional behaviors may be grounds for program removal.

### Transfer Students

Students transferring to Northeastern Illinois University must have a minimum 2.75 GPA based on a 4.0 system. If the transfer student's GPA is below 2.75, the student must establish a minimum Northeastern Illinois University GPA of 2.75 based upon 12 credit hours. All majors progress through the program within a cohort. The cohort model fosters professional development. For this reason transfer students must begin the major in January as part of an entering cohort. Advanced standing within the major is not provided.

## University Core Curriculum Requirements

### General Education Distribution Area

#### Fine Arts (FA)\*

2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).

### Cr. Hrs.

6

**Humanities (HU)\*** 9

3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)

**Behavioral/Social Sciences (SB)\*** 9

3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work

**Natural Sciences (NS and NSL)\*\*** 9

3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).

**Engaged Learning Experiences**

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

**Discipline Specific (ELE-DS)**

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

**Boundary Crossing (ELE-X)**

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

**Math/Quantitative Reasoning (MA)**

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

\* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

\*\* Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/graduation-requirements/bachelors-degree/>)

**Requirements for the Bachelor of Arts Degree in Special Education:**

The program is divided into three levels. Progress through each level is contingent upon the successful completion of both prescribed coursework and program benchmarks.

**Coursework**

Code	Title	Hours
<b>Level I</b>		
Fall I (may be completed prior to acceptance into major)		
Spring I		
SCED-311	Writing Intensive Program: School Curriculum	3
SPED-272	The Development And Characteristics Of Children And Youth With Exceptional Learning	3

Summer I		
SPED-382	Strategies For Differentiating Instruction For Students With Exceptional Learning Needs	3
ELED-302	Writing Intensive Program: Foundation Of Teaching The English Language Arts	3
<b>Level II</b>		
Fall II

Fall IV		
SPED-381	Student Teaching In Special Education	12
For BLBC Endorsement		
BLBC-338	Bilingualism And Education	
For TESL Endorsement		
TESL-310	English Grammar: Description & Instruction	

**Total Hours****69**

## Undergraduate Special Education Program Benchmarks

Students must complete all benchmarks for each level before allowed to progress to the next level.

### Level 1

Successful completion of all coursework at this level and completion of the following:

1. Minimum overall GPA of 2.75
2. No more than two grades of "C" or less in professional sequence coursework (see Program Maintenance Criteria)
3. Acceptable or above ratings on all key program assessments and associated professional standards
4. Acceptable or above ratings on all diversity proficiencies and technology proficiencies
5. Acceptable or above evaluations of dispositions and professional behaviors
6. Professional sequence course retaken once if grade lower than "C" and if approved by department (see Program Maintenance Criteria)
7. Meeting all expectations and requirements set forth by the Clinical Experience and Student Teaching (CEST) Office (<http://www.neiu.edu/academics/college-of-education/clinical-experiences-and-student-teaching/>)

### Level 2

Successful completion of all coursework at this level, all of the Level 1 criteria plus:

1. Passing score (<http://www.il.nesinc.com/>) on the Learning Behavior Specialist (LBS) I state exam (#290) prior to student teaching (SPED 381)
2. Ability to meet standard for acceptable professional writing as demonstrated through course work.
3. Grade of "B" or above in clinical experiences

## Level 3

Successful completion of all coursework at this level, all of the Level 1 and 2 criteria plus:

1. Grade of "B" or above in student teaching
2. Submission of passing score on IEP Capstone Project
3. Completion of the Teacher Performance Assessment (edTPA) during student teaching

## Exit Requirements for Degree Completion

Successful completion of Levels one through three, with exception of passing score on edTPA.

In addition to the successful completion of the Special Education major and cognate, students must complete the general education requirements. Transfer students should meet with an advisor before registering for general education courses. Students must complete NEIU General Education Program.

Minimum credit hours for degree: 120 credit hours.

## Exit Requirements for Program Completion/Entitlement

Successful completion of Levels one through three, with evidence of passing score on edTPA

This sample curricular map is provided to guide you in the planning of your progression for this major. This guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor.

# Master of Arts in Special Education (GA10)

---

The Master of Arts in Special Education-LBS I Program develops professionals who are new to teaching and those who are already licensed but seeking a master's degree. Candidates graduate with the ability to work effectively with students across a wide range of disabilities (K-21) in public and private school settings. Our program provides initial teaching licensure with an endorsement in special education (LBS I) from an accredited institution.

The program is a 42-credit hour program sequence that requires a minimum of 5 semesters to complete (Fall, Spring, Summer). Candidates gain hands-on experience in assessment, instructional planning and instruction and state-of-the art technologies designed to foster the learning of students with exceptional learning needs across a wide range of culturally and linguistically diverse backgrounds, learning strengths and needs.

## ADMISSION REQUIREMENTS

1. Bachelor's degree (within or outside of education)
2. Applicants can find University Graduate Admissions requirements here (<http://catalog.neiu.edu/admissions/graduate-students/>) in the Academic Catalog. Additional application information can be found on the Admissions website (<https://admissions.neiu.edu/admission-requirements/>). Program-specific admissions information, including terms when the program accepts applications for admission, can be found here (<https://admissions.neiu.edu/additional-requirements-graduate-programs/>).

Students must fulfill the requirements for admission to the College of Graduate Studies and Research.

All applicants are required to have two letters of recommendation submitted in support of their applications. These letters should be addressed directly to the Dean of the College of Graduate Studies and Research. The recommendations should be made by persons who have had a supervisory relationship with the applicant in a teaching situation. For applicants to the Master of Arts in Special Education with little or no prior teaching experience, letters will be accepted from student teaching supervisors or from professors of education who have observed the applicant's potential as a teacher in the area of Special Education.

For the Master of Science in Special Education letters from school administrators and professional colleagues will be accepted.

## Advisement

All students will be assigned an advisor. Students will plan their programs in consultation with their advisors.

## Changes in Licensure requirements

Teacher preparation program candidates are no longer required to have any scores for tests of basic skills, including the ACT, SAT, and TAP, sent to the Illinois State Board of Education (ISBE). For individuals who are completing a school support internship/program, including a principal preparation or school counselor program, a test of basic skills is no longer required prior to internship.

## Course Requirements for Master of Arts in Special Education, First License

### Student Requirements

Graduate students seeking their initial teaching license must complete the following 42-hour entitlement sequence as part of the requirement for the Learning Behavior Specialist I (LBS I) endorsement. In this program, students will be required to complete two field-based clinical experiences arranged by the College of Education's Clinical Experience and Student Teaching (CEST) Office, in addition to a full-time sixteen week student teaching experience in an approved school setting or an approved site practicum for licensed teachers.

### MA-LBS I Program Maintenance Criteria

- Candidates must maintain acceptable ratings on all key program assessments in order to progress without interruption through their program. Candidates who do not meet an acceptable or above rating on any key program assessment must obtain permission from the Department of Special Education's Professional Standards Committee to retake the course in which a key program assessment is embedded or to revise the assessment, no more than one time, in order to meet an acceptable rating.
- Candidates must earn acceptable evaluations of their dispositions and professional behaviors in order to progress without interruption through their program.
- Candidates must earn grades of "B" or above in SPED 507, SPED 512 and SPED 514.
- In addition to program-specific requirements, all graduate students must abide by university graduate policies (<http://catalog.neiu.edu/graduate-studies-research/graduate-policies/>), which can be found in the Academic Catalog in the section of the College of Graduate Studies and Research.

## Master of Arts in Special Education (LBS I) Program Sequence

<sup>3</sup> Prerequisite: Block I, II, and III

<sup>4</sup> (Prerequisites: All other LBS I coursework must be completed prior to student teaching. ICTS LBS I Test #155 and Special Education General Curriculum Test # 63 must be passed prior to student teaching.) Key program assessments including ILTS Content-area tests, must be passed prior to student teaching.

## Requirements for degree completion

Successful completion of Blocks I-V and corresponding level requirements, 42 hours, with the exception of edTPA.

## Requirements for Program Completion/Entitlement

Candidates must pass the Teacher Performance Assessment (edTPA) for program completion and entitlement.

## Program Benchmarks

Students must complete all benchmarks for each level before being allowed to progress to the next level. Students cannot obtain more than two grades of "C" in graduate work as per the College of Graduate Studies and Research Policy.

### Level I

- Successful completion of Block I coursework.
- Minimum GPA of 3.00
- Completion of any deficiencies for those students admitted conditionally
- Demonstration of appropriate professional teaching behaviors and dispositions
- Passing key program assessments associated with level I

### Level II

- Successful completion of Block II coursework.
- Minimum GPA of 3.00
- Grade of "B" or above in SPED-507
- Demonstration of appropriate professional teaching behaviors and dispositions
- Passing key program assessments associated with level II

### Level III

- Successful completion of Block III coursework.
- Minimum GPA of 3.00
- Demonstration of appropriate professional teaching behaviors and dispositions
- Grade of "B" or above in SPED-512
- Passing key program assessments associated with level III
- Passing score on the ILTS Content Area (<http://www.il.nesinc.com/>) Learning Behavior Specialist (LBS I) exam (#155) and the ILTS Special Education (<http://www.il.nesinc.com/>) General Curriculum exam (#163)

### Level IV

- Successful completion of Block IV coursework.
- Minimum GPA of 3.00
- Completed IEP
- Demonstration of appropriate professional teaching behaviors and dispositions
- Passing key program assessments associated with level IV
- Grade of "B" or above in student teaching
- Completion of the ILTS Teacher Performance Assessment (edTPA (<http://www.neiu.edu/academics/college-of-education/edtpa/>))

## Exit Requirements for Degree Completion

Successful completion of Blocks I-IV and corresponding level requirements, 47 hours, with exception of edTPA.

## Exit Requirements for Program Completion/Entitlement

Successful completion of Blocks I-IV and corresponding level requirements, 47 hours, and passage of edTPA.

## LBS I-Focus Program in Special Education

### Program's purpose:

In order to meet the needs of licensed teachers seeking endorsement in Special Education (SPED): Learning Behavior Specialist I (LBS I), the Department of Special Education is offering the LBS I Focus Program. This program leads to the full Pk-21 LBS I Endorsement.

### Admission requirements:

In order to be accepted into the program, candidates must first apply to the College of Graduate Studies and Research (graduate-college). (<http://www.neiu.edu/academics/graduate-college/>) Candidates must meet all conditions of the College of Graduate Studies and Research to be eligible for admission and retention in the program. In addition, candidates must hold a valid Illinois Professional Educator License (with endorsement in any of the following: elementary, early childhood or one content area in secondary education).

### Program requirements and sequence:

- Upon entrance to the program: Candidates must schedule an academic consultation (in-person or online) with the Focus Program Advisor to develop a course sequence plan. The Focus Program Advisor will determine an appropriate course sequence plan based on the candidate's professional skills, experience, and academic history.
- Each candidate must complete a minimum of 9 out of 12 hours at Northeastern. Courses in the Focus program are delivered either online or in person. Coursework will include:

Code	Title	Hours
SPED-404	Survey Of The Field Of Special Education	3
SPED-501	Characteristics Of Children And Youth With Disabilities	3
SPED-504	Assessment I: Principles Of Educational Assessment In Special Education	3
SPED-509	Methods I:Specialized Curriculum & Methods In Special Education	3

- Candidates must successfully pass the Illinois Licensure Testing System content tests, Learning Behavior Specialist I (#155) and satisfactorily complete all requisite coursework for the endorsement prior to program completion.
- Candidates must maintain the conditions set forth by the College of Graduate Studies and Research for retention in the program.

- Candidates must maintain a GPA of 3.0 or above throughout the program. Earning a GPA below 3.0 in any semester will result in immediate removal from the program.
- Candidates must demonstrate satisfactory performance to the professional disposition standards. Failure to meet professional disposition standards will result in remediation, suspension, or removal from the program as determined by Department of Special Education faculty.

## Applying the Focus Program to the LBS II Master's degree:

Candidates who have completed all of the requirements for the LBS I Focus program may complete the appropriate coursework necessary to earn a Learning Behavior Specialist II (LBS II) endorsement. LBS I Focus courses may be used as electives. Two LBS II endorsements on the Professional Education License paths are offered in the Department of Special Education. These include (a) Curriculum Adaptation Specialist (CAS) and (b) Behavior Intervention Specialist (BIS). Candidates interested in applying their LBS I Focus program coursework toward a Master's degree must submit a written statement to the Focus Program Advisor and the College of Graduate Studies and Research indicating their intention to begin LBS II coursework, and submit a change of program form to the Focus Program Advisor. To obtain an endorsement on the Professional Education License in either CAS or BIS, candidates must also pass the Illinois Licensure Testing System content test for the respective area.

This sample curricular map is provided to guide you in the planning of your progression for this major. This guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor.

### MASTER OF ARTS IN SPECIAL EDUCATION (LBS I) PROGRAM SEQUENCE

<b>First Year</b>		
<b>Term 1</b>		
		<b>Hours</b>
SPED-501	Characteristics Of Children And Youth With Disabilities	3
SPED-503	Foundations Of Special Education	3
SPED-504	Assessment I: Principles Of Educational Assessment In Special Education	3

<b>Total Hours:</b>		<b>40-42</b>

# Master of Science in Special Education (GA11) (LBS II)

---

Candidates successfully completing the Master of Science in Special Education will be able to obtain an endorsement in the areas of Learning Behavior Specialist II (LBS II) Curriculum Adaptation Specialist (CAS) or Behavior Intervention Specialist (BIS) or both. **The LBS II is offered in a hybrid format with only 3 face-to-face Saturday classes each semester.**

The three master's degree options are:

1. Combined Curriculum Adaptation Specialist (CAS) and Behavior Intervention Specialist (BIS) master's program,
2. CAS-only master's program, and
3. BIS-only master's program.

The CAS core courses prepare candidates to work collaboratively with the general education program professionals to include students with disabilities. These courses focus on making adaptations and modifications to curriculum and instruction for individuals with special needs in inclusive classroom settings. The BIS core courses prepare candidates in assessment and intervention for students who exhibit emotional and/ or behavioral challenges in a variety of settings such as public schools, therapeutic day schools and alternative settings. The CAS and BIS core courses are embedded in three master's degree program options.

The **Combined CAS-BIS** masters degree program option is a 30 credit hour program designed to provide advanced training in the areas of curriculum adaptations and behavior intervention for licensed special education teachers, holding an LBS I (P-21) endorsement on the Professional Education License. It leads to preparation for an additional endorsement of Learning Behavior Specialist II in Curriculum Adaptation Specialist (CAS) and Behavior Intervention Specialist (BIS). For the combined CAS-BIS program, candidates will complete the following: the CAS core coursework and the BIS core coursework, plus a three semester hour capstone experience project.

The **CAS-only** option is a 30-hour masters level program designed to offer an endorsement in the CAS area only. Candidates will complete the following: the fifteen semester hour CAS core courses, plus four additional graduate electives (12 semester hours), and the capstone experience course (three semester hours).

The **BIS-only option** is a 30-hour masters level program designed to offer an endorsement in the BIS area only. Candidates will complete the following: the fifteen semester hour BIS core courses, plus four additional graduate electives (12 semester hours), and the capstone experience course (three semester hours).

## Requirements for Admission to the Master of Science Degree Program:

Applicants must fulfill the requirements for admission to the College of Graduate Studies and Research. In addition, applicants must hold an LBS I (K-12 or P-21), Blind and Visually Impaired (or equivalent), Deaf/Hard of Hearing (or equivalent) or Speech-Language Pathology on a type 10 and have passed the ILTS Content Test for that credential. A spontaneous writing sample and department interview are required at the discretion of the Department.

## Course Requirements for Master of Science in Special Education (LBS II)

### Combined CAS-BIS Program/MS Option:

Code	Title	Hours
SPED-522	Foundations & Practices In Challenging Behaviors	3
SPED-523	Educational Assessment & Planning For Positive Behavior Management	3
SPED-521	Issues & Interventions For Individuals With Autism Spectrum Disorder, Social Communication Disorder	3
SPED-519	Collaborative Relationships In Special Education	3
SPED-524	Practicum In Behavior Disorders <sup>1</sup>	3
SPED-526	Adaptations Of Curriculum	3
SPED-527	Language Based Disorders	3
SPED-525	Alternative Assessment & Test Accommodations	3
SPED-529	Curriculum Practicum <sup>2</sup>	3
SPED-530	Capstone Project <sup>3</sup>	3
<b>Total Hours</b>		<b>30</b>

2 Master of Science in Special Education (GA11) (LBS II)

<sup>1</sup> taken after BIS core courses (SPED 521, 522 and 523)

<sup>2</sup> taken after CAS core courses (SPED 525, 526 and 527)

<sup>3</sup> taken after BIS and CAS core courses

### CAS-Only Program/MS Option:

Code	Title	Hours
SPED-526	Adaptations Of Curriculum	3
SPED-527	Language Based Disorders	3
SPED-519	Collaborative Relationships In Special Education	3
SPED-525	Alternative Assessment & Test Accommodations	3
SPED-529	Curriculum Practicum <sup>1</sup>	3
Four graduate elective courses		
SPED-530	Capstone Project <sup>2</sup>	3
Subtotal		30

<sup>1</sup> taken after CAS core courses (SPED 525, 526 and 527)

<sup>2</sup> taken any time after CAS core courses plus at least 24 hours

### BIS-Only Program/MS Option:

Code	Title	Hours
SPED-522	Foundations & Practices In Challenging Behaviors	3
SPED-523	Educational Assessment & Planning For Positive Behavior Management	3
SPED-521	Issues & Interventions For Individuals With Autism Spectrum Disorder, Social Communication Disorder	3
SPED-519	Collaborative Relationships In Special Education	3
SPED-524	Practicum In Behavior Disorders <sup>1</sup>	3
Four graduate elective courses		
SPED-530	Capstone Project <sup>2</sup>	3
Subtotal		30

<sup>1</sup> Taken after BIS core courses (SPED 521, 522, and 523).

<sup>2</sup> Taken anytime after BIS core courses plus at least 24 hours.

#### There are three endorsement-only options:

- Endorsement-only LBS II CAS (15 hours)
- Endorsement-only LBS II BIS (15 hours)
- Endorsement-only LBS II CAS and BIS (25 hours)

Students take the core courses and the ILTS Content Test (LBS II CAS or BIS or both).

### Program Retention Requirements:

- GPA 3.00
- Appropriate Professional Dispositions
- Acceptable rating on applicable key program assessments

### Program Exit Requirements:

- ILTS Content Test (LBS II CAS or BIS or both)
- Acceptable rating on all key assessments
- Successful completion of all required electives
- Successful completion of the capstone experience project

This sample curricular map is provided to guide you in the planning of your progression for the LBS II-Behavior Intervention Specialist (BIS) or LBS I Curriculum Adaptation Specialist (CAS) program. This recommended guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor. **NOTE:** Term 1 = Fall, Term 2 = Spring, Term 3 = Summer.

#### Master of Science in Special Education - Behavior Intervention Specialist (BIS) (30 hours):

**First Year**

<b>Term 1</b>		<b>Hours</b>
SPED-522	Foundations Practices In Challenging Behaviors	3

# Teacher Education

---

The Teacher Education Department offers a variety of undergraduate and graduate programs for pre-service and in-service teachers. While some programs are organized with an orientation to preparing teachers for specific age/grade levels, it is the departmental goal to develop programs with a broader and more integrated perspective which acknowledges the theoretical base common to teacher education programs for all age levels. To achieve this goal, the resources of all of the programs in the Teacher Education Department are being utilized.

## Teacher Education Departmental Policy on Transfer of Professional Education Courses into Undergraduate Teacher Education Programs

Students who are admitted to an undergraduate program in Teacher Education or to the TLP Program (licensure only) may be credited with a maximum of 9 credit hours of professional education coursework provided that:

1. The specific transfer coursework is deemed to be equivalent in scope and credit hours to the required coursework in the respective NEIU Teacher Education program as stated in the current NEIU Catalog.
2. The specific transfer coursework has been completed within five years of the time of acceptance into the undergraduate NEIU Teacher Education Department or TLP Program.
3. The specific transfer coursework was credited with a "B" grade or better.

## Teacher Education Departmental Policy on "Field Experience Only" Requests

All students who seek to enroll in clinical experiences or student teaching in any approved Teacher Education program are required to be admitted to either an undergraduate program, a second B.A. program, TLP program or MAT program. No student with a "student-at-large" status will be admitted to clinical or student teaching experience. No student will be permitted to take clinical experience/ student teaching at NEIU unless they have successfully completed one of our programs.

## Focused Program for Subsequent Teaching Licensure

In accordance with the Illinois State Board of Education and the Illinois Administrative Code Section 25, Northeastern Illinois University now offers Focused Programs for teachers who hold a valid and current Illinois Teaching License.

The Focused Programs allow licensed teachers to obtain subsequent endorsements in the areas of Middle Level Education, Elementary Education, Early Childhood Education, Secondary Education and Bilingual Education.

Candidates who complete a full Focused Program for subsequent endorsements, will be recommended for the endorsement. For further information, please contact the Teacher Education Department at (773) 442-5380.

---

## Secondary Education

Licensure to teach high school students and PK-12 students in special subjects in Illinois requires both a content major and education pedagogy coursework. The department offers undergraduate and post-baccalaureate programs for students seeking PK-12 licensure to teach art, music, or Spanish. For preparation to become a physical education teacher, see the Health Sciences & Physical Education section of the academic catalog.

Aspiring 9-12 biology, chemistry, earth science, English, history, mathematics, and physics teachers complete their pedagogical preparation at the post-baccalaureate level through either the Teacher Licensure Program (TLP) or Master of Arts in Teaching (MAT) program. Students are encouraged to enroll in the CASEP (<https://www.neiu.edu/academics/college-of-arts-and-sciences/departments/college-of-arts-and-sciences-education-program-casep/>) program throughout their undergraduate years. NEIU's policy for Undergraduates Enrolling in Graduate Coursework (see policy here (<https://www.neiu.edu/academics/registrar-services/forms/>)), enables qualified students to begin education coursework as seniors.

Please consult with the Secondary Education Program advisor and content area advisor for guidance to complete the content area major and transition smoothly into the TLP or MAT program.

## POLICY ON TRANSFER OF PROFESSIONAL EDUCATION COURSES INTO TEACHER LICENSURE PROGRAMS

Students who are admitted to a program in secondary or K-12/PK-12 education will be credited with a maximum of 9 semester credit hours of professional education coursework provided that:

The specific transfer coursework is deemed to be equivalent in scope and credit hours to the required coursework in the respective NEIU education program as stated in the current NEIU Catalog.

The specific transfer coursework has been completed within five years of the time of acceptance into the undergraduate NEIU Goodwin College of Education program, or graduate TLP or MAT Program. (ex. If a student is admitted in 2021, no coursework prior to 2016 can be accepted.)

The specific transfer coursework was credited with a “B” grade or better.

## **POLICY ON “FIELD EXPERIENCE ONLY” REQUESTS**

All students who seek to enroll in clinical experiences or student teaching in any approved secondary education or K-12/PK-12 program are required to be admitted to an undergraduate program, a second BA program, a Focused Program, the Teacher Licensure Program (TLP) or MAT program. No student with a “student-at-large” status will be admitted to clinical or student teaching experience, and no student will be permitted to take a clinical experience or student teaching only.

## **FOCUSED PROGRAM**

In accordance with the Illinois State Board of Education and the Illinois Administrative Code Section 25, Northeastern Illinois University offers a Focused Program for teachers who hold current licensure.

The Focused Program allows licensed teachers to obtain additional subsequent endorsements in most subject areas and grade bands, including art, dance, computer science, high school and middle school subjects, and others. An individualized, focused program will be developed based on each student’s transcribed coursework and state requirements.

Candidates who complete a focused subsequent endorsement program will be recommended for the endorsement by entitlement. For further information, please contact Ms. Vanessa King at 773-442-5387 or send an email to [gcoe@neiu.edu](mailto:gcoe@neiu.edu).

## **Bilingual/Bicultural Education**

- Major in Elementary Education with Bilingual Education Endorsement (<http://catalog.neiu.edu/education/teacher-education/elementary-education/>)
- Minor in Bilingual Education (<http://catalog.neiu.edu/education/teacher-education/minor-bilingual-education/>)

## **Early Childhood Education**

- Major in Early Childhood Education (<http://catalog.neiu.edu/education/teacher-education/early-childhood-education/>)

## **Elementary Education**

- Major in Elementary Education (<http://catalog.neiu.edu/education/teacher-education/elementary-education/>)

## **Middle Level Education**

- Major in Middle Level Education (<http://catalog.neiu.edu/education/teacher-education/middle-level-education/>)

---

## **Undergraduate Programs for PK-12 Licensure in Art, Music, or Spanish**

**NOTE: Students who hold a bachelor’s degree and who are seeking PK-12 licensure through the Teacher Licensure Program are admitted through the College of Graduate Studies and Research. See the MAT/TLP-Secondary section of this catalog or contact Ms. Vanessa King at [v-king@neiu.edu](mailto:v-king@neiu.edu) for more information.**

The professional education sequence in PK-12 education leads to entitlement for the Professional Educator License (PEL) in one of the following PK-12 licensure programs:

### **PK-12:**

- Visual Arts
- Music
- Foreign Language: Spanish

Please note that the PK-12 Education Sequence alone does not constitute a major at Northeastern.

Undergraduate students seeking PK-12 teacher licensure declare a major in the academic subject area. The PK-12 education program qualifies as “an area of study in addition to the major” and fulfills graduation requirements.

Each licensure or endorsement program involves three types of requirements:

1. Requirements for an academic major;
2. Specific general education requirements (see advisor for details);
3. Professional PK-12 education requirements.

Upon completion of these requirements, students are expected to demonstrate:

1. A depth of knowledge in their chosen academic discipline;
2. Knowledge of the principles of human growth and development and of learning;
3. Knowledge of students with varying racial/ethnic, linguistic, cultural, and socioeconomic backgrounds;
4. Knowledge of the wide range of abilities and special needs of students; and
5. The ability to apply their knowledge and skills as they develop effective learning experiences for students during the methods and the clinical components of the professional education sequence.

## Requirements for an Academic Major

Students seeking the Illinois Professional Educator License (PEL) endorsed for specific areas at grades PK-12 must fulfill all requirements for their academic major. For specific information about major requirements, please refer to the catalog entry for the content area. If you are interested in adding a middle school endorsement, consult with your advisor (<https://www.neiu.edu/academics/daniel-l-goodwin-college-of-education/departments/teacher-education/faculty-and-staff-contacts/>) for further information.

To be licensed in some academic areas, students are required to make prescribed choices among given electives in the academic major and/or they are required to complete additional courses in their academic area. These prescribed choices and/or additional required courses are specified below for each academic major.

### ART

The Major in Art for the Bachelor of Arts Degree meets the requirements for PK-12 teacher licensure. To fulfill requirements for licensure, students must select the emphasis in Studio Art.

### MUSIC

The Major in Music for the Bachelor of Music Degree including both Emphasis IIa: Secondary Education: Vocal Music and Emphasis IIb: Secondary Education: Instrumental Music meet the requirements for PK-12 teacher licensure. See Music Department, College of Arts and Sciences.

### SPANISH

The Major in Spanish for the Bachelor of Arts Degree meets the requirements for PK-12 teacher licensure.

### PHYSICAL EDUCATION

Students seeking licensure to teach Physical Education should refer to the Department of Health Sciences & Physical Education section of this catalog.

## Admission and Retention Requirements for Undergraduate PK-12 Programs

**Consult with** advisor (<https://www.neiu.edu/academics/daniel-l-goodwin-college-of-education/departments/educational-inquiry-curriculum-studies/advising/>) **for Program Admission Requirements**

### LEVEL I

**Requirements for enrollment in SCED-301 or SCED-311:**

- Completed admission to the Goodwin College of Education
- Completion of EDFN-305 and EDFN-306 with a 'C' or better
- Completion of a minimum 21 semester credit hours in major
- Declaration of Academic Major and secondary education major/area
- Overall grade point of 2.75 or better.

### LEVEL II

**Requirements for admission to courses in the SCED 303 series and SCED 304 series (or MUS-393L):**

- Concurrent registration in EDFN-307 if not taken in Level I
- Completion of or registration in LTCY-301
- Cumulative grade point average of 2.75 or better
- Completion of SCED-301 or SCED-311 with a 'C' or better\*

- Completion of required number of semester hours in major (varies with major). No more than 9 semester credit hours remaining in the major
- Completion of all application requirements for clinical and student teaching experiences, as specified by the Clinical Experiences and Student Teaching (CEST (<http://www.neiu.edu/academics/college-of-education/clinical-experiences-and-student-teaching/>)) Office

### LEVEL III

#### Requirements for admission into the SCED 305 series (Student Teaching):

- Cumulative grade point average of 2.75 or better
- Overall grade point of 2.75 or better in professional education sequence courses
- Completion of required number of credit hours in major (varies with major). No more than six semester hours remaining in the major
- Completion of all application requirements as specified by the CEST Office (<http://www.neiu.edu/academics/college-of-education/clinical-experiences-and-student-teaching/>)
- Completion of EDFN-307 with a 'C' or better
- Completion of the appropriate course in the SCED 303 series specific to discipline (with a 'C' or better), and the appropriate clinical course in the SCED 304 series with a 'B' or better or MUS-393L
- Passing score on the appropriate ILTS Content Area Test (<http://www.il.nesinc.com/>)

### LEVEL IV

#### Required for Program Completion and Entitlement for Illinois Licensure:

- Completion of a minimum of 120 semester credit hours
- Completion of required courses for state licensure
- Completion of NEIU General Education Requirements
- Completion of academic major with no grades less than 'C'
- Completion of all requirements in level I-III
- Completion of the appropriate Student Teaching course in the SCED 305 series with a 'B' or better
- Passing score on the Teacher Performance Assessment (edTPA (<http://www.neiu.edu/academics/college-of-education/edtpa/>)) for program completion/entitlement.
- Overall grade point of 2.75 or better.

If a candidate does not meet the requirements outlined in Level 4, he/she may choose to seek degree completion through the discipline in the College of Arts and Sciences provided he/she meets the degree requirements of the individual discipline.

### ADDITIONAL REQUIREMENTS FOR LICENSURE

In addition to the successful completion of the Academic major, students must complete the general education requirements for the Goodwin College of Education. Transfer students and second BA candidates should consult their advisors concerning general education requirements.

Code	Title	Hours
<b>Other General Education requirements</b>		
<b>Written communication</b>		
ENGL-101 & ENGL-102	Writing I and Writing II	
<b>Oral communication</b>		
CMTC-101 or CMTC-202	Public Speaking Voice and Diction	
<b>Mathematics<sup>1</sup></b>		
Any College-Level Mathematics (100-level or above)		

<sup>1</sup> must receive a grade of "C" or higher

### PROFESSIONAL EDUCATION REQUIREMENTS

NEIU's K-12/PK-12 Programs require all students enrolled in teacher licensure programs to complete 100 hours of clinical experience in a recognized elementary and/or secondary school prior to student teaching. The professional education requirements are as follows:

Code	Title	Hours
EDFN-305	Philosophical And Historical Foundations Of Public Education	3
EDFN-306	Education And Individual Differences <sup>1</sup>	3
EDFN-307	Psychology Of Instruction And Learning <sup>1</sup>	3
LTCY-301	Foundations Of Literacy Instruction In Secondary Grades	3
SCED-311	Writing Intensive Program: School Curriculum	3
SCED-303A	Contemporary Art Education In The Secondary School <sup>2</sup>	3
or SCED-303F	Teaching Modern Foreign Languages In The Secondary School	
or SCED-303I	Methods And Techniques Of Teaching Music In Secondary School:Instrumental	
or SCED-303V	Methods And Techniques Of Teaching Music In Secondary Schools:Vocal	
SCED-304A	Clinical Experiences In The Secondary School:Art <sup>3</sup>	1-2
or SCED-304J	Foreign Language Clinical Experience In The Secondary School	
or MUS-393L	Clinical Field Experience	
SCED-305A	Secondary Student Teaching And Seminar In Art <sup>4</sup>	9
or SCED-305J	Secondary Student Teaching And Seminar In Spanish	
or SCED-305N	Secondary Student Teaching And Seminar In Music	

<sup>1</sup> This course includes ten clock hours of observation and ten clock hours of service experience in an appropriate setting.

<sup>2</sup> Courses in the SCED 303 series must be taken concurrently with the appropriate clinical experience in the SCED 304 series. Music majors must complete 6 credit hours in the SCED 303 series (SCED-303I and SCED-303V), taken concurrently with MUS 393L

<sup>3</sup> This course requires 100 clock hours of clinical experience with a cooperating teacher in the appropriate subject at a local secondary school. It must be taken concurrently with the appropriate course in the SCED 303 series. (See Clinical Experiences and Student Teaching section for application procedures)

<sup>4</sup> This course requires full-time experience with a cooperating teacher in the appropriate subject at a local secondary school. (See Clinical Experiences and Student Teaching section for application procedures)

NOTE: No professional education course may be taken more than twice to achieve an acceptable grade. All students must consult with both the Academic Major advisor and the Secondary Education Major advisor while progressing through the professional sequence coursework, in pursuit of teacher licensure.

## Requirements for the 9-12 MAT and TLP programs are found in the section of the Academic Catalog labeled "Master of Arts in Teaching in Secondary Education."

### Bilingual/Bicultural Education

- Master of Arts in Teaching in Elementary Education with Bilingual Education Endorsement (<http://catalog.neiu.edu/education/teacher-education/master-arts-teaching/>)

### Early Childhood Education

- Master of Arts in Teaching in Early Childhood Education (<http://catalog.neiu.edu/education/teacher-education/master-arts-teaching-early-childhood-education/>)

### Elementary Education

- Master of Arts in Teaching in Elementary Education (<http://catalog.neiu.edu/education/teacher-education/master-arts-teaching/>)
- Master of Science in Teaching & Inquiry (<http://catalog.neiu.edu/education/teacher-education/master-science-teaching-inquiry/>)

### Middle Level Education

- Master of Arts in Teaching in Middle Level Education (<http://catalog.neiu.edu/education/teacher-education/master-arts-teaching-middle-level-education/>)

### Secondary Education

- Master of Arts in Teaching in Secondary Education (<http://catalog.neiu.edu/education/educational-inquiry-curriculum-studies/master-arts-teaching-language-arts/>)
- Master of Science in Instruction in Language Arts: Secondary Education (<http://catalog.neiu.edu/education/educational-inquiry-curriculum-studies/master-science-instruction-language-arts/>)

Steven Wolk, Ed.D., Professor

## Bilingual/Bicultural Education

### **BLBC-328A. Clinical Experiences. 3 Hours.**

This course provides teacher candidates who are enrolled in BLBC-339 Culturally Responsive Teaching in Diverse Classrooms with intensive clinical experience in elementary classrooms with culturally and linguistically diverse (CLD) students. This course provides candidates with opportunities for supervised interactions with children in selected content areas. Candidates meet with a university supervisor in weekly seminars. This course fulfills 100 clock hours of the 200 clinical experience hours required to complete the program.

**Prerequisite:** ELED-300 with a minimum grade of C and SPED-317 with a minimum grade of C and ELED-302 with a minimum grade of C and ELED-310 with a minimum grade of C.

**Corequisite:** BLBC-339.

### **BLBC-328B. Clinical Experiences. 3 Hours.**

BLBC-328 B provides intensive clinical experience in elementary schools for students enrolled in ELED-306. The course involves supervised and graduated teaching interactions with children in literacy in grades 1-6 and includes weekly seminars. The seminars will provide intensive preparation and practice with edTPA and a focus on the clinical context. This course fulfills 100 of the 200 required clock hours of clinical experiences.

**Prerequisite:** ELED-300 with a minimum grade of C and SPED-317 with a minimum grade of C and ELED-302 with a minimum grade of C and ELED-310 with a minimum grade of C and BLBC-339 with a minimum grade of C and ELED-328A with a minimum grade of C and ELED-303 with a minimum grade of C and ELED-309 with a minimum grade of C and ELED-305 with a minimum grade of C and Illinois Content Area Test with a score of P.

**Corequisite:** ELED-306.

### **BLBC-329. Student Teaching In Elementary Grades. 7.5 Hours.**

This course provides the teacher candidate with sixteen weeks of full day supervised classroom teaching experience combined with weekly class discussions. Teacher Candidates must submit a completed edTPA portfolio.

**Requirements:** completion of Blocks 1, 2 and 3; and all remaining required program courses

**Prerequisite:** Illinois Content Area Test with a score of P and ELED-306 with a minimum grade of C and BLBC-328B with a minimum grade of C and ELED-320 with a minimum grade of C and ELED-342 with a minimum grade of C.

**Corequisite:** EDFN-308.

### **BLBC-329B. Student Teaching In Elementary Grades. 3.75 Hours.**

This course provides the teacher candidate with sixteen weeks of full day supervised classroom teaching experience combined with a weekly seminar.

**Requirement:** Successful completion of all program courses with a minimum GPA of 3.0. Passing scores on content area tests.

### **BLBC-338. Bilingualism And Education. 3 Hours.**

This course introduces the fundamentals of bilingual education through the understanding of language and cultural diversity and the emergence of different bilingual teaching and learning situations in schools and communities. It is necessary to understand the politics and policies that govern those situations and the problems associated with them and the manner in which the emerging problems are handled and solved. All instructional problems and solutions are managed in line with the latest philosophies, theories, and principles of bilingual education and their application to culture and language diverse classroom situations.

### **BLBC-339. Culturally Responsive Teaching in Diverse Classrooms. 3 Hours.**

This course will explore the social and educational issues faced by teachers in diverse classrooms. Students will examine the different cultural groups to which students and their families belong, paying special attention to issues of race, ethnicity, gender, class, language, sexual orientation, religion, ability, geography and age. This course will explore instructional strategies and culturally responsive practices for diverse learners.

**BLBC-340. Teaching English Learners In Diverse Classrooms. 3 Hours.**

This course presents candidates with the necessary academic and pedagogical preparation for teaching culturally and linguistically diverse (CLD) students in elementary classrooms who are limited English proficient (English learners). The aim of this course is to provide candidates with the research-based knowledge and skills necessary to differentiate instruction and assessment practices in the content areas for English learners. The focus is also on enabling candidates to create an effective learning environment in which English learners develop English language proficiency and literacy skills. Requisite: Admission to the College of Education.

**BLBC-341. Methods of Teaching in Bilingual Classrooms. 3 Hours.**

This course provides the necessary academic, pedagogical, sociocultural, and clinical preparation for teaching in diverse classrooms that serve culturally and linguistically diverse (CLD) students who are learning through the medium of the first (L1) and second languages (L2). A primary focus is on analyzing, evaluating, and developing the most appropriate materials, approaches, methods, and strategies that foster an effective learning environment in which CLD students acquire literacy, content knowledge and essential academic skills as well as respect for diverse languages and cultures.

**BLBC-342. Assessment In The Bilingual Classroom. 3 Hours.**

This course provides bilingual teacher candidates with the knowledge and skills to effectively plan appropriate instructional objectives and performance based, classroom assessments for students who are English learners (ELs). Candidates will fully understand the difference between formative and summative assessments as well as large-scale versus classroom assessments. Candidates will also understand the process for developing and administering appropriate assessments, both formal and informal, for bilingual students in both the native language and in English. Candidates will properly assess students in all areas of the curriculum.

**BLBC-429. Student Teaching In Bilingual Classrooms - Elementary. 6 Hours.**

This course requires full-day student teaching under the tutelage of a certified bilingual cooperating teacher. Teacher candidates are required to take full responsibility for a class of culturally and linguistically diverse elementary students. Candidates attend weekly seminars and prepare for regular observations and conferences with university supervisors. Candidates are provided the opportunity to plan and implement longitudinal instructional units. Candidates apply knowledge and performance indicators as specified by the IL Professional Teaching Standards (IPTS) during an entire semester by assuming the full range of professional teaching duties in a classroom setting.

**Requirement:** Permission from Office of Student Teaching; Completion of all MAT program courses, completion of all science and social science courses required by the Illinois State Board of Education, and the successful completion of all program courses with no more than two Cs and a minimum grade of B in both clinical courses

**Prerequisite:** Illinois Content Area Test with a score of P.

**BLBC-429B. Student Teaching In Bilingual Classrooms-Elementary. 3 Hours.**

This course requires full-day student teaching under the tutelage of a certified bilingual cooperating teacher. Teacher candidates are required to take full responsibility for a class of culturally and linguistically diverse elementary students. Candidates attend weekly seminars and prepare for regular observations and conferences with university supervisors. Candidates are provided the opportunity to plan and implement longitudinal instructional units. Candidates apply knowledge and performance indicators as specified by the IL Professional Teaching Standards (IPTS) during an entire semester by assuming the full range of professional teaching duties in a classroom setting. In this course, candidates complete licensure requirement and present their MAT Exit Project. Teacher candidates will be observed a minimum of five times by their university supervisor.

**BLBC-438. Foundations Of Bilingual Education. 3 Hours.**

This course introduces the fundamentals of bilingual education through the understanding of language and cultural diversity and the emergence of different bilingual teaching and learning situations in schools and communities. It is necessary to understand the politics and policies that govern those situations and the problems associated with them and the manner in which the emerging problems are handled and solved. All instructional problems and solutions are managed in line with the latest philosophies, theories, and principles of bilingual education and their application to culture and language diverse classroom situations.

**BLBC-439. Cultural Diversity In Our Schools. 3 Hours.**

This course explores various aspects of social and cultural diversity. It focuses on the development of richer and more systematic interpretations of the foundations of multicultural educational history, philosophy, policy and practice. The course aims to develop the ability to understand and describe how educational problems are often rooted in and are symptomatic of social issues. These challenges extend well beyond the classroom into families, communities, and local, national, and global economics and politics.

**BLBC-440. Methods For Teaching English Learners In Diverse Classrooms. 3 Hours.**

This course prepares candidates with the necessary academic and pedagogical preparation for teaching linguistically and culturally diverse students in elementary classrooms. The aim of this course is to provide candidates with the research-based knowledge and skills necessary to differentiate instruction and assessment practices in the content areas for English learners. The focus is also on enabling candidates to create an effective learning environment in which English learners develop English language proficiency and content knowledge.

**BLBC-441. Methods For Teaching Content In Bilingual Classrooms. 3 Hours.**

This course provides bilingual teacher candidates with the knowledge and skills to effectively plan and evaluate program models, materials, instruction, and assessments for culturally and linguistically diverse (CLD) students who are learning English as a new language. Candidates will apply curricular models and pedagogical skills for meeting the needs of English learners (ELs) in the native language and in English. Candidates will teach students literacy skills through the content areas in both languages to foster biliteracy. Candidates will evaluate content area instructional materials for bilingual students.

**BLBC-442. Assessment In Multilingual Classrooms. 3 Hours.**

This course provides bilingual teacher candidates with the knowledge and skills to effectively plan appropriate instructional objectives and performance based, classroom assessments for students who are English learners (ELs). Candidates will fully understand the difference between formative and summative assessments as well as large-scale versus classroom assessments. Candidates will also understand the process for developing and administering appropriate assessments, both formal and informal, for bilingual students in both the native language and in English. Candidates will properly assess students in all areas of the curriculum.

**BLBC-443. Methods For Teaching Reading And Writing In Bilingual Classrooms. 3 Hours.**

This course is designed to enable teacher candidates to plan and implement a content based, balanced, comprehensive biliteracy program for elementary students who are learning to read and write in two languages. Components of the course include understanding research on biliteracy instruction as it relates to first and second language acquisition in a diverse society. This course also addresses advanced methods for teaching reading and writing and the use of materials, including traditional print and digital media. Attention is given to reading and writing across content areas.

**Requirement:** Admission to the Graduate College.

## Early Childhood Education

**ECED-301. Curriculum And Instruction In Early Childhood Education. 3 Hours.**

In this course, candidates learn to create developmentally appropriate lesson plans and implementation strategies for infants and toddlers (ages 0-3), preschool and kindergarten (ages 4-5), and primary grade children (ages 6-8). Appropriate classroom layouts, curricular materials, activities, learning centers, educational play, individualization of instruction, child guidance and classroom management techniques for each age range are discussed. Lesson plans created for infant/toddler, preschool and the primary grades are implemented within the course.

**Prerequisite:** EDFN-302 with a minimum grade of C and EDFN-303 with a minimum grade of C.

**ECED-306. Methods Of Teaching Reading In Early Childhood. 3 Hours.**

This course presents methods, techniques, materials and assessments for early literacy instruction. It examines the nature of the literacy processes (listening, speaking, reading, writing, viewing and visual representation), literacy development in the typically developing child, and the child with special needs. Attention is given to the five major areas of literacy instruction (phonological awareness, phonics, fluency, vocabulary and comprehension). Candidates learn how to use authentic assessment data to monitor children's progress and create flexible groupings for instructional purposes. They also learn strategies to differentiate instruction and support struggling and advanced readers. The course is integrated with technology.

**Prerequisite:** EDFN-302 with a minimum grade of C and EDFN-303 with a minimum grade of C.

**ECED-313. Writing Intensive Program: Language Development And Educational Implications. 3 Hours.**

This Writing Intensive Program (WIP) course is a study of young children's language development, communication theory and analysis of the five aspects of language knowledge-phonemes, semantics, syntax, morphemes and pragmatics. Major language acquisition theories, basic language development inventories and research on early brain development with regard to language growth are studied. Culture, gender, and socio-economic differences as well as the function of the home language in young children's development are discussed in relation to their effect on communication in the classroom. Developmentally appropriate screening tools, observation methods and language assessment approaches, are examined.

**Prerequisite:** ENGL-101 with a minimum grade of C and EDFN-302 with a minimum grade of C and EDFN-303 with a minimum grade of C.

**ECED-316. Child, Family And Community. 3 Hours.**

This course focuses on how to build trusting relationships with families and engage them in the education of their children. It examines various models of family involvement, advocacy and strategies for utilizing families' funds of knowledge, assets and resources that they bring to the school. Candidates create home learning activities that support families in engaging their children and locate, classify and catalogue community resources and programs that support children and families. Community health appraisal procedures are evaluated and emphasis is placed on building a culturally responsive classroom environment that fosters family, school and community cooperation.

**Prerequisite:** EDFN-302 with a minimum grade of C and EDFN-303 with a minimum grade of C.

**ECED-325. Children's Literature Across The Curriculum. 3 Hours.**

Methods, strategies and materials are presented for integrating children's literature across the curriculum in the early grades. Instruction focuses on how to choose books that are developmentally appropriate for children birth through 3rd grade, and how to provide them with enjoyable reading experiences of both fiction and non-fiction. Emphasis is on developing critical thinking skills and generating understanding in children through in-depth exploration of literary element in different genres. Text analysis is guided by reader response theory, which emphasizes the reading transaction balance between the reader, the text and the context. Focus is placed on non-fiction and various text structures.

**Requirement:** minimum cumulative GPA of 2.75 in professional courses is required

**Prerequisite:** EDFN-302 with a minimum grade of C and EDFN-303 with a minimum grade of C and ECED-301 with a minimum grade of C and ECED-306 with a minimum grade of C and ECED-313 with a minimum grade of C and ECED-316 with a minimum grade of C and ECED-338 with a minimum grade of C and ECED-355 with a minimum grade of C and ECED-327A with a minimum grade of B and BLBC-340 with a minimum grade of C.

**ECED-327A. Clinical Experiences In Early Childhood Education: Infant To Preschool. 3 Hours.**

This 100-hour clinical provides a supervised field experience that allows candidates to be integrated into a classroom environment with children from age 0 to 4 under the guidance of a Cooperating Teacher and a University Supervisor. The course unites the theoretical concepts, methods, developmental milestones, and strategies including the basic principles and practices of personal, interpersonal and community health and safety. It emphasizes integrated language and literacy activities that encourage intellectual curiosity using interdisciplinary approaches in multi-ethnic classrooms. The supervised, field experiences are integrated with conferences and weekly classes. A grade of B or better is required to pass the course.

**Requirement:** minimum cumulative GPA of 2.75 in professional courses is required

**Prerequisite:** EDFN-302 with a minimum grade of C and EDFN-303 with a minimum grade of C and ECED-301 with a minimum grade of C and ECED-306 with a minimum grade of C and ECED-313 with a minimum grade of C and ECED-316 with a minimum grade of C.

**ECED-327B. Clinical Experiences In Early Childhood Education: Kindergarten To 2nd Grade. 3 Hours.**

This 100-hour clinical provides opportunity to interact with children in kindergarten, first, or second grade in school settings. Candidates will use interdisciplinary approaches to plan integrated language and literacy as well as Science, Technology, Engineering, Art and Math (STEAM) activities that encourage intellectual curiosity in multi-cultural classrooms. Emphasis is on differentiated instruction for all students. The supervised field experience is integrated with individual conferences and require weekly 3-hour class meetings throughout the semester. A grade of B or better is required to pass the course.

**Requirement:** a minimum cumulative GPA of 2.75 in professional courses

**Prerequisite:** EDFN-302 with a minimum grade of C and EDFN-303 with a minimum grade of C and ECED-301 with a minimum grade of C and ECED-313 with a minimum grade of C and ECED-316 with a minimum grade of C and ECED-306 with a minimum grade of C and ECED-338 with a minimum grade of C and ECED-355 with a minimum grade of C and ECED-327A with a minimum grade of B and BLBC-340 with a minimum grade of C.

**ECED-329. Student Teaching In Early Childhood. 9,12 Hours.**

Student Teaching is the culminating experience of the teacher education program. Teacher candidates spend 16 weeks of full-time teaching in a Preschool, Kindergarten or Primary setting under the supervision of a licensed Cooperating Teacher and a University Supervisor. Teacher candidates apply theory to practice, referencing research-based topics including developmentally appropriate practice and integrating developmental domains into all curriculum areas. Teacher candidates reflect on their professional growth in planning, implementing, assessing and differentiating instruction to address individual strengths and needs and on using authentic assessment data to plan instruction. A minimum cumulative GPA of 2.75 in professional courses is required.

**Requirement:** Successful completion of all Block 4 courses and PASS Illinois Content Area Test

**Prerequisite:** ECED-327A with a minimum grade of B and ECED-327B with a minimum grade of B.

**ECED-329B. Student Teaching In Early Childhood. 6 Hours.**

Student Teaching is the culminating experience of the teacher education program. Teacher candidates spend 16 weeks of full-time teaching in a Preschool, Kindergarten or Primary setting under the supervision of a licensed Cooperating Teacher and a University Supervisor. Teacher candidates apply theory to practice, referencing research-based topics including developmentally appropriate practice and integrating developmental domains into all curriculum areas. Teacher candidates reflect on their professional growth in planning, implementing, assessing and differentiating instruction to address individual strengths and needs and on using authentic assessment data to plan instruction. A minimum cumulative GPA of 2.75 in professional courses is required.

**ECED-338. Developmental Assessment Of Young Children. 3 Hours.**

This course presents approaches, strategies, and tools for authentically assessing young children's development and learning from birth through second grade. Emphasis is on physical, socio-emotional, and mental/cognitive growth. Teacher candidates study varieties of academic achievement and screening tools to monitor children's progress in content-area benchmarks and developmental outcomes. Assessment is presented as an ongoing, informal practice that monitors children's interests, motivation and engagement in instruction, as well as the collection, organization and aggregation of data for communicating academic progress to stakeholders. Candidates discuss family involvement in assessing children's development and learning and how to create positive, high quality learning environments.

**Requirement:** minimum cumulative GPA of 2.75 in the professional sequence

**Prerequisite:** EDFN-302 with a minimum grade of C and EDFN-303 with a minimum grade of C and ECED-301 with a minimum grade of C and ECED-306 with a minimum grade of C and ECED-313 with a minimum grade of C and ECED-316 with a minimum grade of C.

**ECED-352. Methods Of Teaching Language Arts, Music And Art In Early Childhood. 3 Hours.**

In this interdisciplinary course, ECED candidates learn how to facilitate and support language development and children's creative expressions within the aesthetic domain through a variety of sensory experiences including art, drama, music, dance, and a variety of fine and gross motor movement activities. Candidates explore approaches to teaching art, and discuss methods and materials for supporting culturally responsive artistic expressions in young children. Candidates examine cultural dimensions of the visual arts, as well as the interrelations of visual arts and other forms of art, including drama, music, dance and movement. Candidates analyze technological tools for creating works of art.

**Requirement:** Minimum GPA of 2.75 in the professional sequence

**Prerequisite:** EDFN-302 with a minimum grade of C and EDFN-303 with a minimum grade of C and ECED-301 with a minimum grade of C and ECED-306 with a minimum grade of C and ECED-313 with a minimum grade of C and ECED-316 with a minimum grade of C and ECED-338 with a minimum grade of C and ECED-355 with a minimum grade of C and BLBC-340 with a minimum grade of C and ECED-327A with a minimum grade of B.

**ECED-355. Methods Of Teaching Mathematics, Science And Social Science In Early Childhood. 3 Hours.**

This course explores methods and materials for teaching mathematics, science, and social science to young children in multicultural classrooms. ECED candidates explore major concepts and interdisciplinary approaches to learning, including connections to language and literacy. ECED candidates learn to teach U.S. history, world economic systems, and how to summarize and use data in Social Science with the integration of technology. Candidates study children's mathematical development, increase pedagogical knowledge and math proficiency. Science methods and principles include active exploration and experimentation within everyday environments. Emphasis is on preschool, kindergarten and primary grades. Classroom-management techniques conducive to successful individual and group lessons are discussed.

**Requirement:** minimum cumulative GPA of 2.75 in the professional sequence

**Prerequisite:** EDFN-302 with a minimum grade of C and EDFN-303 with a minimum grade of C and ECED-301 with a minimum grade of C and ECED-306 with a minimum grade of C and ECED-313 with a minimum grade of C and ECED-316 with a minimum grade of C.

**ECED-375. Capstone Experience In Early Childhood Studies. 6 Hours.**

The capstone provides students the opportunity to participate in high-level inquiry in an area of specialization within the field of early childhood. Capstone projects will be applied experiences that are inquiry-based and will bridge theory and practice. The capstone aligns student interests and needs within the early childhood field including, original research projects, literature reviews, program development and evaluation, and curriculum development and assessment. The capstone may also build on prior field experiences as appropriate. The capstone supervision and associated course will support students in the creation of their capstone project and provide opportunities for reflective practice.

**Requirement:** Minimum grade of C in not more than two courses completed in the Early Childhood Studies program. A minimum cumulative GPA of 2.5 in professional courses is required.

**ECED-403. Early Childhood Assessment. 3 Hours.**

Focuses upon the use and development of evaluation instruments for collecting information about young children. Instruments used will focus on individuality of the child and his unique growth trends and patterns of developmental needs. The materials studied will help the teacher to identify where the child is developmentally and to use instruments and techniques to evolve ways to help the individual child grow.

**Prerequisite:** PSYC-212 with a minimum grade of C and SPED-303 with a minimum grade of C.

**ECED-408. Language Acquisition And Intervention Strategies For Teachers Of Young Children. 3 Hours.**

Focuses upon the acquisition of language as the young child develops syntactic, semantic and pragmatic understanding. Differing viewpoints of language learning and cognitive interaction are presented. Techniques for both language assessment and intervention by the teacher of the young child are discussed. Reviews recent research and its applicability to assist the preschool teacher in facilitating language learning and evaluating existing language programs for using language as a tool of communication.

**Prerequisite:** (ECED-313 with a minimum grade of D or CIEC-313 with a minimum grade of D) and PSYC-215 with a minimum grade of C.

**ECED-411A. Clinical Experiences In Early Childhood Education: Infant To Preschool. 3 Hours.**

This 100-hour clinical provides a supervised field experience that allows candidates to be integrated into a classroom environment with children from age 0 to 4 years under the guidance of a Cooperating Teacher and a University Supervisor. The course unites the theoretical concepts, methods, developmental milestones, and strategies including the use of assessment tools, learning technologies, and practices of personal, interpersonal and community health and safety. It also emphasizes integrated language and literacy activities that encourage intellectual curiosity using interdisciplinary approaches in multi-ethnic classrooms. The supervised, field experiences are integrated with conferences, and weekly seminars. A grade of B or better is required to pass the course.

**Requirement:** acceptance to master's degree candidacy and 15 credit hours in core courses (ECED-402, ECED-410, ECED-452, LTCY-501, and ECED-408).

**ECED-502. Theories, Philosophies And Technologies Informing Early Childhood Education And Assessment. 3 Hours.**

This course reviews early philosophies, developmental theories and current technologies that inform/influence the understanding of young children's development, learning and assessment. Classroom implications are discussed, highlighting constructivist theories, approaches, strategies and techniques for effective instruction to meet individual needs of diverse groups of young children. Candidates are introduced to key concepts about how to assess children's development and learning through the observation method, play-based and other assessment techniques, and using assessment to inform instruction. Technological tools that promote children's development and learning as well as those used in collecting and organizing assessment information are discussed.

**ECED-503. Early Childhood Curriculum And Assessment. 3 Hours.**

This course studies the implications of research and learning theories on developing curriculum and assessment techniques for young children. Students investigate strategies for planning, teaching, using appropriate technologies, assessing, and evaluating young children's learning to promote physical, cognitive and social-emotional development. Teaching techniques for small-group, large-group and individual children are explored through observing and analyzing classroom interaction through major program models. Basic concepts in measurement are applied to select/develop and/or use assessment tools that yield reliable and valid data to inform instruction. Students discuss community resources, use of learning technologies, learner diversity and parent-teacher relationships to enrich children's learning.

**ECED-504. Early Language Acquisition, Assessment, And School-Family Intervention Strategies. 3 Hours.**

This course focuses on acquisition of language as young children develop phonemic, semantic, syntactic, morphemic and pragmatic understanding through receptive and expressive interaction with parents/caregivers. Based on brain research, the first three years of age are emphasized as critical time period for developing language. Parents'/caregivers' active involvement in children's verbal and nonverbal early language development, assessment and technology use are discussed. Students explore teaching and assessment techniques for preschool and school age children's development of language as a tool for communication and learning. Research on multiple languages and programs is discussed alongside cultural and linguistic diversity of families and classrooms.

**ECED-505. Technology Integrated Practice In ECED: Methods Of Teaching/Assessing Language Arts, Music, And Art. 3 Hours.**

This course explores advanced knowledge of the theoretical foundations, concepts, current research and methods of teaching and assessing language arts, music, drama and visual arts in Early Childhood. Students will learn how to facilitate language and literacy development and support culturally responsive artistic expression in young children through a variety of sensory experiences including art, drama, music, dance, and movement activities. Candidates will also analyze technological tools and develop appropriate assessments for creating, using and evaluating works of art.

**ECED-506. Methods Of Teaching STEAM And Assessing Learning In Early Childhood. 3 Hours.**

This course is designed to help students learn to teach Science, Technology, Engineering, Art and Math (STEAM) and Social Studies to preschool and primary school children and assess their learning. Students explore major concepts and approaches in all six areas and learn to plan and implement thematic units integrating content from all areas, and present it meaningfully to children. Students learn to develop and utilize a variety of assessment strategies and tools. Students also learn classroom management strategies and use of children's diversity as a resource for effective learning.

**Corequisite:** ECED-527B.

**ECED-507. Research Seminar In Early Childhood Education. 3 Hours.**

This capstone course presents fundamental concepts of systematic inquiry and assessment of learning in early childhood education. Various experimental designs and descriptive approaches to research are explored. Focusing on action research, students select research problems, develop and evaluate hypotheses/research questions, collect, organize and analyze data, and summarize findings to inform practice. Techniques for writing research proposals and reports are studied. Students examine strategies for maximizing reliability and validity of research and assessment processes to yield usable results. Students examine current technological tools to ease data organization, analysis and interpretation of findings. This capstone course requires a supervised research project.

**Prerequisite:** ECED-502 with a minimum grade of C and ECED-503 with a minimum grade of C and ECED-504 with a minimum grade of C and ECED-505 with a minimum grade of C and ECED-506 with a minimum grade of C and ECED-527A with a minimum grade of C and ECED-527B with a minimum grade of C and SPED-404 with a minimum grade of C and BLBC-440 with a minimum grade of C and LTCY-501 with a minimum grade of C.

**ECED-510. Early Acquisition & Maintenance Of Multiple Languages. 3 Hours.**

Students will study acquisition of multiple languages at an early age (by age 8), and analyze sociolinguistic factors that help maintain multiple languages throughout early childhood and beyond. Students will view and discuss language modules developed from brain research and relate them to individual experiences of early acquisition of multiple languages after interviewing individuals who grew up with two or more languages from early childhood and observing young children (0-8 years) who have been exposed to more than one language in their natural settings. Students will explore their personal philosophies of educating young children in multilingual classrooms.

**ECED-511. Evaluation & Use Of Research In Early Childhood Education. 3 Hours.**

This course introduces students to evaluating and using research in early childhood education, especially research on early brain development. Employing principles of systematic inquiry and fundamentals of early development and learning, students examine different kinds of research processes and reports to determine application within contexts of working with young children. In particular, students will analyze research reports on early development of the brain, and devise practical and contextually beneficial ways to utilize the research finding to enhance children's development and learning. Students will develop and use research-based, culturally and linguistically sensitive strategies to enrich children's experiences.

**ECED-512. Global Perspectives In Early Childhood Education. 3 Hours.**

Students will study, compare and contrast early childhood education policies, programs and practices in selected countries for the purpose of broadening and deepening knowledge about global education systems and how they interrelate. Students will create profiles of early education practices and the circumstances determining those practices. Electronic contacts will be created between NEIU students and students in other countries (preferably NEIU partnership schools) in order to provide opportunities for students to interact with teacher education candidates in other countries. Students will continue developing their personal philosophies of effective education for young children within multicultural and global contexts.

**ECED-527A. Clinical Experiences In Early Childhood Education - Infant To Preschool. 1.5 Hour.**

This 80-hour clinical provides two supervised field placements that allow candidates to be integrated into a classroom with children ages 0-2 (30 hours) and ages 3-4 years (50 hours) under the guidance of a Cooperating Teacher and a University Supervisor. The course unites the theoretical concepts, methods, developmental milestones, and strategies including the use of assessment tools and learning technologies with the application of interdisciplinary classroom approaches to promote personal, interpersonal and community health and safety in multi-ethnic classrooms. The supervised field experiences require weekly seminars. A grade of B or higher is required to pass the course.

**Prerequisite:** ECED-502 with a minimum grade of C and ECED-503 with a minimum grade of C and ECED-504 with a minimum grade of C and ECED-505 with a minimum grade of C and LTCY-501 with a minimum grade of C.

**ECED-527B. Clinical Experiences In Early Childhood Education - Kindergarten To 2nd Grade. 1.5 Hour.**

In this 80-hour clinical, teacher candidates interact with children in kindergarten, first, or second grades in multicultural school settings. They plan and carry out integrated language, literacy and Science, Technology, Engineering, Art and Math (STEAM) and Social Science activities that capture children's interest and incorporate health and life skills. Candidates are required to respect children's diverse linguistic, cultural and family backgrounds to ensure that learning activities are free from bias. The supervised field experiences require weekly seminars throughout the semester. A grade of B or better is required to pass the course.

**Prerequisite:** ECED-502 with a minimum grade of C and ECED-503 with a minimum grade of C and ECED-504 with a minimum grade of C and ECED-505 with a minimum grade of C and ECED-527A with a minimum grade of C and LTCY-501 with a minimum grade of C and SPED-404 with a minimum grade of C and BLBC-440 with a minimum grade of C.

**Corequisite:** ECED-506.

**ECED-529. Internship - Student Teaching In Early Childhood Education. 6 Hours.**

This course offers supervised teaching experience for graduate students in the Master of Arts in Teaching in ECED program. Candidates will spend 16 weeks full-time teaching in Preschool/Primary settings under the supervision of a Cooperating Teacher and a University Supervisor. Five University supervisor observations are integrated with weekly two-hour seminars throughout the semester. Candidates will reflect on their professional growth in planning, instruction, using authentic assessment, learning technology and differentiated instruction to address individual strengths and needs. Candidates will also complete edTPA portfolio as required by the State. A grade of B or better is required to pass the course.

**Prerequisite:** ECED-502 with a minimum grade of C and ECED-503 with a minimum grade of C and ECED-504 with a minimum grade of C and ECED-505 with a minimum grade of C and ECED-506 with a minimum grade of C and ECED-527A with a minimum grade of C and ECED-527B with a minimum grade of C and LTCY-501 with a minimum grade of C and BLBC-440 with a minimum grade of C and SPED-404 with a minimum grade of C.

## Elementary Education

**ELED-109. First Year Experience: Building Chicago One Teacher At A Time. 3 Hours.**

In this course the five foundations (Future Planning, Integral Preparation, Research, Self-discovery, and Transitions) of Northeastern's First-Year Experience program are taught alongside an introduction to content specific to the discipline of Teaching of Elementary Education. Introduction to Chicago schools, communities, and diverse student population as well as curricular models, school structures and best practices in teaching.

**ELED-300. Instructional Design In The 21st Century Classroom. 1.5 Hour.**

This course prepares future elementary school teachers to teach all learners in today's classrooms. Special focus is given to teaching students in grades 1-6 with a variety of needs and abilities, including English language learners, students with disabilities, gifted/talented students, and reluctant students.

This diversity brings some challenges for teachers. Strategies and practices are taught to prepare future teachers for these challenges in instruction and assessment.

**Prerequisite:** EDFN-305 with a minimum grade of C and EDFN-306 with a minimum grade of C.

**Corequisite:** SPED-317.

**ELED-302. Writing Intensive Program: Foundation Of Teaching The English Language Arts. 3 Hours.**

This course is designed to provide candidates with an overview of learning theories, practices, curriculum design and materials used in teaching Language Arts in grades 1-6. Language Arts instruction includes mastery of six language arts competencies: reading, writing, listening, talking, viewing and visual representation. The course addresses differentiating instruction to meet the needs of diverse learners with attention to special needs students and English Learners (ELs). This is a writing intensive course affording students the opportunity to demonstrate competency in writing in various genres.

**Prerequisite:** EDFN-305 with a minimum grade of C and EDFN-306 with a minimum grade of C.

**Corequisite:** ELED-308.

**ELED-303. Children's And Young Adult Literature. 1.5 Hour.**

This course familiarizes students with quality children's and young adult literature for elementary and middle grades. Students will learn to select, discuss, and critique books appropriate for this age range. Assigned readings and projects will enable students to develop critical, analytical and instructional skills for integrating culturally diverse children's literature across the curriculum.

**Prerequisite:** ELED-302 with a minimum grade of C and ELED-300 with a minimum grade of C and ELED-310 with a minimum grade of C and SPED-317 with a minimum grade of C.

**Corequisites:** ELED-309, ELED-328A.

**ELED-304. Inquiry-Based Social Studies In The Elementary Grades. 3 Hours.**

This course explores teaching, learning, and curriculum for all elementary students in grades 1-6. The course has an emphasis on creating an inquiry-based social studies classroom, designing project-based curriculum units, and finding and teaching with real-world resources. The course explores the vital role of social studies in a democratic society, social responsibility, teaching critical thinking, decision-making, and problem solving skills, and includes a focus on curricular integration of cultural diversity, global awareness, technology, and integrating literature in social studies. Students will also explore integrating standards and teaching skills for reading and writing informational texts in social studies.

**Prerequisite:** ELED-300 with a minimum grade of C and SPED-317 with a minimum grade of C.

**ELED-305. Teaching Science In The Elementary School. 3 Hours.**

This course focuses on the development of elementary science teaching skills and knowledge in grades 1-6. Emphasis is placed on designing inquiry-based science lessons to help linguistically and culturally diverse students engage in science. It addresses the importance of teaching scientific inquiry, the nature of science, and process skills using educational technologies and applying a 5E learning cycle to plan, teach, evaluate, and reflect on science lessons. The course content reflects the curricular emphases of the Next Generation Science Standards (NGSS).

**Prerequisite:** ELED-300 with a minimum grade of C and ELED-302 with a minimum grade of C and ELED-310 with a minimum grade of C and SPED-317 with a minimum grade of C.

**ELED-306. Methods Of Literacy Instruction. 3 Hours.**

This course is designed for pre-service teachers to develop the knowledge and skills to teach literacy in elementary level classrooms, grades 1-6.

Content includes: concepts of print, phonemic awareness, phonics, word knowledge, comprehension, and the writing process, assessment, grouping strategies and differentiated instruction. Issues of diversity and equity as they relate to literacy teaching and learning in today's 21st century context will be threaded throughout the course with an emphasis on working with diverse student populations.

**Prerequisite:** BLBC-339 with a minimum grade of C and ELED-328A with a minimum grade of C and ELED-303 with a minimum grade of C and ELED-309 with a minimum grade of C and ELED-305 with a minimum grade of C.

**Corequisite:** ELED-328B.

**ELED-308. Instructional Design. 3 Hours.**

This course is an introduction to long and short-term curriculum planning and instruction. Candidates learn about the decisions involved in creating classroom communities that are inclusive, culturally responsive, and engaging.

**Prerequisite:** EDFN-305 with a minimum grade of C and EDFN-306 with a minimum grade of C.

**ELED-309. Content Area Literacy. 1.5 Hour.**

In this course, candidates will develop the knowledge, skills, and understandings to support the literacy development of students in elementary grades (1-6) with a focus on literacy in the content areas. Topics include: learning theories, literacy strategies in specific disciplines, assessment, differentiation, use of informational text, technology, and planning for instruction. Issues of motivation, engagement and cultural relevance are integrated throughout.

**Prerequisite:** ELED-300 with a minimum grade of C and ELED-302 with a minimum grade of C and ELED-310 with a minimum grade of C and SPED-317 with a minimum grade of C.

**Corequisite:** ELED-303.

**ELED-310. Methods Of Teaching Mathematics In The Elementary Grades. 3 Hours.**

This course is a study of instructional methods and materials for teaching mathematics to grades 1-6 elementary school level students, including linguistically, culturally diverse learners and exceptional children. Students explore theoretical and practical frameworks and develop materials, lessons, techniques, and assessments for the teaching of early and late elementary grade mathematics. Students engage in mathematical processes to promote critical thinking and explore elementary level math concepts and skills. Problem solving, modeling, teaching, and integrating elementary level mathematics in various content areas are emphasized.

**Prerequisite:** MATH-149 with a minimum grade of C.

**Corequisite:** ELED-308.

**ELED-313. Literature And Literacy In The Content Areas. 3 Hours.**

In this course, candidates will develop the knowledge and skills to support literacy development across the curriculum. Candidates will learn to select, analyze, and evaluate culturally diverse children's literature for use in the content areas.

**ELED-316. Critical Issues In Education. 3 Hours.**

In this course, candidates will examine pedagogical elements such as curriculum, instruction, assessment, classroom management, and more, through critical historical and contemporary perspectives.

**ELED-320. Classroom Management. 1.5 Hour.**

This course will provide teacher candidates with the theoretical and practical foundations necessary to manage and organize the classroom. The class will explore strategies and approaches for guiding student behavior, fostering engagement, and designing a classroom conducive to student learning. Candidates will develop a personal management plan based on the theorists examined and practical examples shared. Candidates will also design an ideal classroom to demonstrate understanding of creating learning contexts to motivate and engage all students.

**Prerequisite:** ELED-303 with a minimum grade of C and ELED-309 with a minimum grade of C and BLBC-339 with a minimum grade of C and ELED-328A with a minimum grade of C.

**ELED-328A. Clinical Experiences. 3 Hours.**

This course provides teacher candidates who are enrolled in BLBC-339 Culturally Responsive Teaching in Diverse Classrooms with intensive clinical experience in elementary classrooms with culturally and linguistically diverse (CLD) students. This course provides candidates with opportunities for supervised interactions with children in selected content areas. Candidates meet with a university supervisor in 3 weekly seminars. This course fulfills 100 clock hours of the 200 clinical experience hours required by the State for licensure.

**Prerequisite:** ELED-300 with a minimum grade of C and SPED-317 with a minimum grade of C and ELED-302 with a minimum grade of C and ELED-310 with a minimum grade of C.

**Corequisite:** BLBC-339.

**ELED-328B. Clinical Experience In Elementary Education. 3 Hours.**

ELED-328B provides intensive clinical experience in elementary schools for students enrolled in ELED-306. Involves supervised and graduated teaching interactions with children in literacy in 1-6 classrooms and includes weekly seminars. The seminars will provide intensive preparation and practice with EdTPA and a focus on the clinical context. This course fulfills 100 of the 200 required clock hours of clinical experiences.

**Prerequisite:** ELED-300 with a minimum grade of C and ELED-309 with a minimum grade of C and BLBC-339 with a minimum grade of C and ELED-328A with a minimum grade of C.

**Corequisite:** ELED-306.

**ELED-329. Student Teaching In Elementary Grades. 7.5-9 Hours.**

This course provides the teacher candidate with sixteen weeks of full day supervised classroom teaching experience combined with weekly class discussions.

**Prerequisite:** Illinois Content Area Test with a score of P.

**ELED-329B. Student Teaching In Elementary Grades. 3.75 Hours.**

This course provides the teacher candidate with sixteen weeks of full day supervised classroom teaching experience combined with a weekly seminar.

**Requirement:** Successful completion of all program courses with a minimum GPA of 3.0. Passing scores on content area tests.

**ELED-342. Classroom Assessment. 1.5 Hour.**

Provides the teacher candidates with a thorough understanding of the purposes, characteristics, and limitations of different types of assessments, including standardized assessments, universal screening, curriculum-based assessment, and progress monitoring tools. Candidates will examine the appropriate uses of formative and summative assessments for determining student needs, measuring student growth, and evaluating student outcomes. Candidates will understand how to make evidence-based decisions about curricular and instructional effectiveness and how to adjust practice to meet the needs of all students.

**Corequisite:** ELED-320.

**ELED-403. Teaching Mathematics In Elementary Grades. 3 Hours.**

This course is for prospective elementary school teachers to learn methods of teaching mathematics in grades 1-6, with an emphasis on culturally and linguistically diverse students, exceptional students, and gifted students in multicultural classrooms. The course provides teacher candidates an opportunity to reflect on their beliefs about teaching, learning, and expectations for students. Additionally, teacher candidates will become familiar with Common Core State Standards for Mathematics, different instructional models, teaching aids for learning mathematics concepts, and current technological resources for teaching mathematics.

**ELED-406. Research Skills For The Classroom Teacher. 3 Hours.**

Enables the regular classroom teacher to use tools and procedures that will demonstrate the working effectiveness of any instructional practice; thus, the teacher will develop data that will foster constructive decision-making for continued curriculum building.

**ELED-414. Principles Of Curriculum Development. 3 Hours.**

Fundamental criteria for curriculum planning and the principal types of curriculum patterns as they apply to various subject-matter disciplines; emphasis focused on the student's subject area of specialization and its applicability to the improvement of the curriculum in the classroom and in the school; study of selection and organization of learning experiences, as well as objectives and evaluation.

**Prerequisite:** EDFN-406 with a minimum grade of C.

**ELED-415. Teaching Science As Inquiry In Elementary Grades. 3 Hours.**

This course focuses on the development of elementary science teaching skills and knowledge in grades 1-6. Emphasis is placed on designing and implementing inquiry-based interdisciplinary science lessons to help linguistically and culturally diverse students engage in science. It addresses the importance of teaching scientific inquiry within the Next Generation Science Standard (NGSS) Framework, the nature of science, research and practices using classroom technologies, science misconceptions, differentiated instruction, classroom management, and informal and formal assessment strategies.

**ELED-416. Teaching Social Studies As Inquiry In Elementary Grades. 3 Hours.**

This course explores the theory and practice of teaching social studies in the elementary grades 1-6 with an emphasis on creating an inquiry-based classroom and designing project-based curriculum. Teacher candidates will learn about the vital role of social studies in a democratic society, teaching critical thinking and decision-making. The course includes a focus on cultural diversity, global awareness, technology, using children's literature in social studies, multiple forms of assessment, and standards. Candidates will also explore strategies for reading and writing informational texts in social studies. ELED-428C Clinical in the Content Areas will be taken simultaneously.

**ELED-417. Multicultural Literature And Drama In The Elementary Classroom. 3 Hours.**

Develops an in-depth understanding of multicultural literature and its application in the classroom through creative drama techniques which include improvisation, role-play, playmaking and guided imagery. Study, discussion and hands-on application through cooperative learning groups focusing on exploration of theoretical and pedagogical research and their relationship to thinking, listening, speaking, reading and writing competencies. Exploration of the use of visual arts and its application to the multicultural classroom.

**ELED-418. Theoretical Implications For Instruction In The Elementary Classroom. 3 Hours.**

The contributions of learning psychologists that are applicable to the teaching-learning process; areas explored include implications of learning in curriculum design, instructional methods, educational decisions and in the use of learning resources; relevant for the classroom teacher who attempts to utilize learning concepts in the classroom and in research.

**ELED-419. Current Issues In Elementary Language Arts Instruction. 3 Hours.**

Developmental of an understanding of principles and techniques of instruction in elementary school language arts; students to investigate research as it relates to the improvement of instruction in language arts.

**ELED-428. Clinical Teaching. 1 Hour.**

This 100-hour clinical teaching experience involves supervised, graduated, and interactive teaching situations with students in culturally and linguistically diverse school settings. This clinical experience and seminar focus on literacy instruction in elementary classrooms. Students will conduct classroom observations and practice teaching one-on-one, in small groups, and with the whole class. A university supervisor will observe students teaching a minimum of three times. Taken concurrently with ELED-504.

**ELED-428A. Clinical Teaching: Literacy. 1 Hour.**

This 50-hour clinical teaching experience involves supervised, graduated, and interactive teaching situations with students in culturally and linguistically diverse school settings. This clinical experience has a thematic focus on teaching reading, writing, and speaking. Clinical seminar is integrated into ELED-504 and ELED-435. Students will conduct classroom observations and will spend a minimum of 35 hours teaching one-on-one, in small groups, and with the whole class. A university supervisor will observe students teaching a minimum of two times.

**Prerequisite:** ELED-506 with a minimum grade of B and EDFN-442 with a minimum grade of B.

**Corequisites:** ELED-435, ELED-504.

**ELED-428B. Clinical Diversity. 1 Hour.**

This 50-hour clinical experience involves supervised, graduated, and interactive teaching situations with students in culturally and linguistically diverse school settings. This clinical experience has a thematic focus on teaching for human diversity, including cultural, linguistic, English language learners, students with special needs, gender, LGBTQ, and socioeconomic. Clinical seminar is integrated into BLBC-440. Students will conduct classroom observations and will spend a minimum of 35 hours teaching one-on-one, in small groups, and with the whole class. A university supervisor will observe students teaching a minimum of two times. Concurrency with EDFN-406 Human Development & Learning OR SPED-404 Survey of the Field of Special Education.

**Prerequisite:** ELED-506 with a minimum grade of B and (INMD-410 with a minimum grade of B or EDFN-442 with a minimum grade of B).

**Corequisite:** BLBC-440.

**ELED-428C. Clinical Teaching: Content Areas. 1 Hour.**

This 100-hour clinical teaching experience involves supervised, graduated, and interactive teaching situations with students in culturally and linguistically diverse school settings. This clinical experience has a content area and inquiry focus integrated through ELED-416 and a weekly seminar. Teacher candidates will observe as well as teach one-on-one, small groups, and the whole class in a content area. A university supervisor will observe students teaching a minimum of three times, once per subject. To be taken concurrently with ELED-416.

**ELED-429. Internship In Elementary Education. 6 Hours.**

In this course teacher candidates are engaged in full-time student teaching for the entire semester in an elementary classroom within grades 1-6. With support from their cooperating teacher and university supervisor, candidates gradually increase their classroom responsibilities and then assume responsibility for all curriculum planning and teaching for a minimum of five weeks. In this course, candidates complete their Illinois licensure requirement and present their MAT Exit Project. Teacher candidates will be observed a minimum of five times by their university supervisor.

**Requirement:** Completion of all MAT program courses, completion of all science and social science courses required by the Illinois State Board of Education, passing score on the ICTS Subject Area Test, and no more than two Cs in all program courses and a minimum grade of B in both clinical courses.

**ELED-429B. Internship In Elementary Education. 3 Hours.**

In this course teacher candidates are engaged in full-time student teaching for the entire semester in an elementary classroom within grades 1-6. With support from their cooperating teacher and university supervisor, candidates gradually increase their classroom responsibilities and then assume responsibility for all curriculum planning and teaching for a minimum of five weeks. In this course, candidates complete their licensure requirement and present their MAT Exit Project. Teacher candidates will be observed a minimum of five times by their university supervisor.

**Requirement:** Completion of all MAT program courses, completion of all science and social science courses required by the Illinois State Board of Education, passing score on the ICTS Subject Area Test, and no more than two Cs in all program courses and a minimum grade of B in both clinical courses.

**ELED-430. Trends And Issues In Assessment. 3 Hours.**

Reviews principles of educational testing and evaluation. Explores trends and critical issues in assessment with emphasis on the teacher's role in relating assessment to instructional objectives. Provides opportunities for students to study assessment strategies and issues specific to the level (elementary or secondary), linguistic-cultural background, and subject-matter area of their teaching or internship assignment.

**ELED-435. Children's And Young Adult Literature. 3 Hours.**

Students will read, peruse, and study all genres of diverse literature written for elementary and middle school students, grades 3-8, as well as some appropriate young adult literature. Topics emphasized are: identifying and locating high quality books, evaluating books for appropriate developmental stages, critical reading, integrating literature across the curriculum, designing curriculum with literature, teaching reading with literature, creating classroom libraries, using a wide variety of multicultural and global literature, connecting books to real-world resources, using literature to cover standards, motivating students to read, and appreciating good writing.

**ELED-453. Inquiry-Based Social Studies Instruction. 3 Hours.**

This course is a study of instructional methods and materials for teaching social studies through inquiry. Explores approaches to promoting children's cognitive and affective knowledge and understanding in the social sciences, including history, current events, and critical thinking skills. The course includes an exploration of teaching for cultural diversity, global awareness, and critical citizenship skills and dispositions, along with a focus on creating an inquiry-based social studies classroom, the teacher as a creator of curriculum and an in-depth examination of the literature within the field of social studies education.

**ELED-501. Curriculum And Instruction. 1 Hour.**

This course introduces teacher candidates to the fundamentals of curriculum and instruction: teaching and learning processes, instructional planning, classroom management, and critical thinking. Candidates explore the relationships between theory and practice and learn about the connections between individuals, classrooms and communities.

**ELED-504. Teaching Writing: Purpose, Voice, Craft. 3 Hours.**

This course is designed to provide teacher candidates with an in-depth exploration of Writer's Workshop and the theory, best practices, curriculum design and materials used in writing in the K-8 school setting. Candidates will engage in writing in a variety of genres using the Writing Workshop model. The course addresses differentiating instruction to meet the needs of diverse learners. To be taken concurrently with ELED-428 or MLED-428.

**ELED-506. Research Methodologies For Classroom Teachers. 3 Hours.**

A general survey of qualitative and quantitative research methods in educational research. The aim of this course is to develop candidates' abilities to design and conduct classroom-based inquiry related to teaching and learning. This course is designed to make candidates knowledgeable consumers of academic research. The survey of methods includes; a brief analysis of paradigms in qualitative and quantitative research, a discussion of the inquiry process, and an synthesis of research designs including; survey, narrative, experimental, ethnographic, correlation, case study, and action research. Action research design is discussed in details. This course is the first course in the sequence of 3 research courses (ELED-506, ELED-507, ELED-508).

**ELED-507. Action Research Design Seminar. 1 Hour.**

Candidates will design an action research plan that involves identifying a significant problem related to student learning in their current classroom. Candidates will locate and review relevant research on the designated problem, and design an intervention plan that will allow the candidate to examine the impact of instructional procedures or interventions on student learning. Candidates will develop reflective decision-making in using data to improve learning in elementary classrooms.

**Prerequisite:** ELED-506 with a minimum grade of B and ELED-525 with a minimum grade of B and ELED-520 with a minimum grade of B and BLBC-439 with a minimum grade of B.

**ELED-508. Action Research Project. 3 Hours.**

This course guides students through finalizing their action research design, implementing that design, collecting data, analyzing their data, and writing their action research paper. Students will implement their action research project in their classroom with a focus on understanding the process of data collection and analysis. Students will write their project as a major paper (including the literature study they completed in ELED-507 Action Research Design Seminar), and formally present their project as a PowerPoint to the class. This is a thesis-model hybrid course with some of the work and feedback given online and in conferences with the Instructor.

**Prerequisite:** ELED-506 with a minimum grade of B and ELED-525 with a minimum grade of B and ELED-520 with a minimum grade of B and BLBC-439 with a minimum grade of B and ELED-507 with a minimum grade of B.

**ELED-520. Curriculum And Inquiry. 3 Hours.**

This course is an overview of curriculum theory, development, design, and implementation for the experienced classroom teacher. The focus is on understanding the theory and practice of inquiry-based and project-based curriculum across subject disciplines, authentic literacy, and finding and using interesting and diverse real-world resources. Course emphasis is also on the history of curriculum development and schooling; and creating multicultural, critical, and creative curriculum that integrates technology, the arts, critical thinking, and standards. Students will critique and analyze their school curriculum and resources, and design curricular units for their own classroom.

**Prerequisite:** ELED-506 with a minimum grade of B and ELED-525 with a minimum grade of B.

**ELED-525. New Literacies For The 21st Century. 3 Hours.**

This course explores how the ideas and understandings of "literacy" have changed and evolved over the past century, the new literacies that are vital to life in the 21st century, and strategies for teaching those literacies. This course develops an understanding of designing curriculum and strategies for teaching critical thinking skills; collaboration; problem solving skills; media, technology, and information literacy; creativity and imagination; innovative thinking; civic, multicultural, and global literacy; critical literacy; environmental literacy; and systems thinking. The course will begin to study the theory and practice of inquiry-based, project-based, and problem-based teaching and learning, as well interdisciplinary curriculum and different forms of 21st century assessment, such as student exhibitions and presentations.

## Middle Level Education

**MLED-301. Curriculum & Instruction In The Middle School. 3 Hours.**

The relationship of theory to practice is studied in a variety of middle school curricula. Analyses and interpretations of teaching-learning processes are conducted. Special attention is directed to: (1) instructional objectives in planning, (2) application of theories of adolescent development, learning, classroom management, and instructional methodology to multicultural curriculum development, (3) unit and lesson planning, and (4) evaluation techniques. Strategies for meeting the needs of students with special needs are explored.

**MLED-302. Writing Intensive Program: Foundations Of Teaching English Language Arts In Middle Grades. 3 Hours.**

This course is designed to provide candidates with an overview of the theory, best practices, curriculum design, and materials used in teaching language arts at the middle school level grades 5-8. Language Arts instruction includes mastery of six language arts competencies: reading, writing, listening, talking, viewing and visual representation. The course addresses differentiating instruction to meet the needs of diverse learners with attention to special needs students and English learners. This is a writing intensive course affording students the opportunity to demonstrate competency in writing in various genres.

**Prerequisite:** College of Education Admission with a score of Y.

**Corequisite:** ELED-308.

**MLED-304. Inquiry-Based Social Studies In The Middle Grades. 3 Hours.**

This course explores teaching, learning, and curriculum in middle grade social studies. The course has an emphasis on creating an interdisciplinary inquiry-based social studies classroom, designing project-based curriculum units, and finding and teaching with real-world resources. The course explores the vital role of social studies in a democratic society, social responsibility, teaching critical thinking, decision-making, and problem solving skills, and includes a focus on curricular integration of cultural diversity, global awareness, technology, and integrating literature in social studies. Students will also explore integrating standards and teaching skills for reading and writing informational texts in social studies.

**Prerequisite:** College of Education Admission with a score of Y.

**MLED-305. Methods Of Teaching Science In Middle School. 3 Hours.**

This course prepares middle level teacher candidates to teach science skills and content. Emphasis is upon the nature of science and scientific inquiry, interdisciplinary inquirybased teaching, multicultural science teaching, classroom management, data-driven assessments, science and civic engagement (i.e., service learning), and contemporary research and practice for science pedagogy in grades 5-8. Innovative education technology is applied to promote candidates' problem solving and effective science teaching and learning as an integral aspect of the course.

**Prerequisite:** College of Education Admission with a score of Y.

**MLED-306. Methods Of Literacy Education In Middle School. 3 Hours.**

This course is designed for candidates to develop the knowledge and skills to teach literacy in middle level classrooms, grades 5#8. Content includes: learning theories, vocabulary, comprehension, the writing process, assessment, and differentiation. Issues of diversity and equity as they relate to literacy teaching and learning in today's 21st century context will be threaded throughout the course and grounded in research on adolescent development.

**Prerequisite:** BLBC-339 with a minimum grade of B and MLED-328A with a minimum grade of B and ELED-303 with a minimum grade of B and MLED-309 with a minimum grade of B.

**MLED-309. Reading And Writing In The Content Areas. 1.5 Hour.**

In this course candidates will develop the knowledge, skills, and understandings to support the literacy development of students in middle grades (5#8) with a focus on literacy in the content areas. Topics include: learning theories, literacy strategies in the disciplines, assessment, differentiation, use of informational text, technology, and planning for instruction. Issues of motivation, engagement, and cultural relevance are integrated throughout.

**Prerequisite:** ELED-300 with a minimum grade of B and SPED-317 with a minimum grade of B and MLED-302 with a minimum grade of B and (MLED-310 with a minimum grade of B or MLED-305 with a minimum grade of B or MLED-304 with a minimum grade of B).

**Corequisite:** ELED-303.

**MLED-310. Math Methods In The Middle Grades. 3 Hours.**

This course is a study of instructional methods and materials for teaching mathematics to middle level students, including linguistically, culturally diverse learners and exceptional children. Students explore theoretical and practical frameworks and develop materials, techniques, and assessments for the teaching of middle school mathematics in grades 5-8. Students engage in mathematical processes to promote critical thinking and explore middle level math concepts and skills. Problem solving, modeling, and teaching middle school mathematics in interdisciplinary contexts are emphasized.

**Prerequisite:** College of Education Admission with a score of Y.

**MLED-328A. Clinical Experience English Learners In Middle Grades. 3 Hours.**

This course provides teacher candidates who are enrolled in BLBC-339 Culturally Responsive Teaching in Diverse Classrooms with intensive clinical experience in grades 6#8 middle level classrooms with culturally and linguistically diverse (CLD) students. This course provides candidates with opportunities for observations and supervised teaching with English learners. Candidates meet with a university supervisor in weekly seminars. This course fulfills 100 clock hours of the 200 clinical experience hours required by the State for certification/licensure.

**Prerequisite:** ELED-300 with a minimum grade of B and SPED-317 with a minimum grade of B and MLED-302 with a minimum grade of B and (MLED-304 with a minimum grade of B or MLED-305 with a minimum grade of B or MLED-310 with a minimum grade of B).

**MLED-328B. Clinical Experience Literacy In Middle Grades. 3 Hours.**

This seminar provides clinical experience in middle school for students enrolled in MLED-306. The clinical involves observation and supervised teaching with a focus on literacy in grades 6#8 classrooms. The seminars will provide an overview and preparation to complete edTPA during student teaching. This course fulfills 100 of the 200 required clock hours of clinical experiences.

**Prerequisite:** BLBC-339 with a minimum grade of B and MLED-309 with a minimum grade of B and ELED-303 with a minimum grade of B and MLED-328A with a minimum grade of B.

**MLED-328M. Clinical Experiences In Elementary/Middle School Math. 1 Hour.**

A supervised clinical experience designed with less emphasis on observational experiences and more on direct involvement in the instructional process. Includes a biweekly seminar meeting on campus and 50 clock hours of individual visits to a local K-8 school with a strong emphasis on middle level mathematics teaching that effectively integrates science into the curriculum. Must be taken with the academic methods course and academic and clinical experiences courses for science. Currently taken only by MSTQE math-science minors in the term before student teaching and completion of the program.

**Prerequisite:** MLED-301 with a minimum grade of C and MLED-340 with a minimum grade of C and MLED-335 with a minimum grade of C.

**MLED-328S. Clinical Experiences In Elementary/ Middle School Science. 1 Hour.**

A supervised clinical experience designed with less emphasis on observational experiences and more on direct involvement in the instructional process. Includes a biweekly seminar meeting on campus and 50 clock hours of individual visits to a local K-8 school with a strong emphasis on middle level science teaching that effectively integrates mathematics into the curriculum. Must be taken with the academic methods course and academic and clinical experiences courses for mathematics. Currently taken only by MSTQE math-science minors in the term before student teaching and completion of the program.

**Prerequisite:** MLED-301 with a minimum grade of C and MLED-340 with a minimum grade of C and MLED-335 with a minimum grade of C.

**MLED-329. Student Teaching In The Middle School. 7.5-9 Hours.**

This course is 16 weeks of full#day student teaching under the tutelage of a licensed cooperating teacher in a middle school classroom in the candidate's endorsement area. Candidates are required to take full responsibility for a class of middle school students, attend weekly seminars, and prepare for regular visits with the university supervisor.

**Prerequisite:** Illinois Content Area Test with a score of P and MLED-328A with a minimum grade of B and MLED-328B with a minimum grade of B.

**MLED-329B. Student Teaching In Middle Grades. 3.75 Hours.**

This course provides the teacher candidate with sixteen weeks of full day supervised classroom teaching experience combined with a weekly seminar.

**Requirement:** Successful completion of all program courses with a minimum GPA of 3.0. Passing scores on content area tests.

**MLED-335. Teaching Science At The Middle School/ Elementary Levels W/ Problem Solving. 3 Hours.**

A study of instructional methods and materials for teaching science to all K-9 students, focusing on the development of lessons and units that promote scientific thinking, utilization of basic scientific principles, and inquiry approaches to learning. Strong emphasis on: (1) planning and methodology to meet the unique needs of middle school science students and (2) integrating mathematics throughout the middle school science curriculum. Includes 50 clock hours of clinical experience with local K-9 teachers of science who effectively integrate mathematics into curriculum.

**MLED-340. Teaching Mathematics At The Middle School/ Elementary Levels W/ Problem Solving. 3 Hours.**

A study of instructional methods and materials for teaching mathematics to all K-9 students, focusing on the development of lessons and units that promote mathematical thinking, utilization of basic mathematical principles, and inquiry approaches to learning. Strong emphasis on: (1) planning and methodology to meet the unique needs of middle school mathematics students and (2) integrating science throughout the middle school mathematics curriculum. Includes 50 clock hours of clinical experience with local k-9 teachers of mathematics who effectively integrate science into curriculum.

**MLED-350. Teaching Interdisciplinary Curriculum In Middle School. 3 Hours.**

This course focuses on the philosophy of teaching middle school and the theory and practice of designing interdisciplinary curriculum in the middle grades 5-8. The course explores the unique characteristics and integration of the organization of middle grades and teaching adolescents. The course includes designing projectbased learning across the disciplines, integrating 21st century skills, teaching through inquiry, and literacy across the curriculum. The course also studies thematic curriculum, integrating standards across the curriculum, working in collaborative teams, and a variety of authentic, formative, and summative assessments.

**Prerequisite:** BLBC-339 with a minimum grade of B and MLED-309 with a minimum grade of B and ELED-303 with a minimum grade of B and MLED-328A with a minimum grade of B.

**MLED-403. Methods Of Teaching Mathematics In Middle School. 3 Hours.**

This course involves the investigation and development of research, methodology, techniques, content, and teaching aids for the teaching of mathematical concepts to all middle grade students, grades 5-8, including special needs, EL, LEP, exceptional, and gifted in diverse, multicultural classrooms. Different instructional models will be explored, research methods considered, current resources identified, and collaborative efforts will be investigated. The course includes a focus on differentiation and appropriate classroom management techniques.

**MLED-415. Teaching Science As Inquiry In Middle School. 3 Hours.**

This course prepares middle level teacher candidates to teach science skills and content in grades 5-8. Emphasis is upon the nature of science and scientific inquiry, interdisciplinary inquiry-based teaching, multicultural science teaching, classroom management, formal and informal assessments, STEM (Science, Technology, Engineering, and Mathematics), science and civic engagement (i.e., service learning), and contemporary research and practice for science pedagogy for diverse adolescent learners. Innovative education technology is applied to promote candidates' problem solving and effective science teaching and learning as an integral aspect of the course.

**MLED-416. Social Studies As Inquiry In The Middle Grades. 3 Hours.**

This course is a study of the theory and practice of teaching social studies in middle grades 5-8. The course has an emphasis on creating an inquiry-based classroom and designing project-based units. The course explores the vital roles of social studies in a democratic society, including active and critical citizenship, social responsibility, teaching critical thinking, decision-making, and problem solving. The course focuses on curricular integration of cultural diversity, global awareness, technology, integrating literature, and strategies for reading and writing informational texts. The course includes teaching with standards and applying assessment strategies.

**MLED-428. Clinical Teaching In The Middle Grades. 1 Hour.**

This 100-hour clinical teaching experience involves supervised, graduated, and interactive teaching situations with students in culturally and linguistically diverse school settings. This clinical experience and seminar focus on literacy instruction in middle grade classrooms. Students will conduct classroom observations and practice teaching one-on-one, in small groups, and with the whole class. A university supervisor will observe students teaching a minimum of three times.

**MLED-428A. Clinical Experience: Literacy In The Middle Grades. 1 Hour.**

This 50-hour clinical teaching experience involves supervised and graduated literacy observation and teaching with middle level students in grades 5-8. This clinical experience has a thematic focus on teaching literacy (language arts). Students will conduct classroom observations and spend a minimum of 35 hours teaching literacy one-on-one, in small groups, and the whole class. A university supervisor will observe students teaching a minimum of two times.

**Corequisite:** ELED-504.

**MLED-428B. Clinical Experience English Learners. 1 Hour.**

This course provides teacher candidates who are enrolled in BLBC-440 Culture and Language in Diverse Classrooms with clinical experience in grades 5-8 in middle level elementary classrooms with culturally and linguistically diverse (CLD) students. This course provides candidates with opportunities for observation and teaching middle grade English learners. This course fulfills 50 clock hours of the 200 clinical experience hours required by the MAT/ MLED program. MLED candidates will be observed teaching a minimum of two times by their University Supervisor.

**Corequisite:** BLBC-440.

**MLED-428C. Clinical Experience Endorsement Areas In The Middle Grades. 1 Hour.**

This 100-hour clinical experience involves supervised teaching with middle level students in grades 5-8 in the candidate's endorsement area (literacy, social studies, math, or science). All 100 hours will be in the endorsement area and participation in grade-level team activities. The clinical seminar is integrated into the methods courses being taken concurrently (LTCY-502, MLED-450 or EDFN-450, MLED-403, MLED-415, or MLED-416). Students will conduct classroom observations and will spend a minimum of 75 hours teaching one-on-one, in small groups, and the whole class. A university supervisor will observe students teaching a minimum of three times. Taken concurrently with at minimum ONE of the following courses in the candidates' endorsement area: LTCY-502 Content Area Literacy; MLED-403 Teaching Math MG; MLED-415 Teaching Science MG; MLED-416 Teaching Social Studies MG.

**MLED-429. Internship In The Middle Grades. 6 Hours.**

This course is the seminar for student teaching in the middle grades. Candidates are engaged in full-time student teaching for 16 weeks in their endorsement area. With support from their Cooperating Teacher and University Supervisor students gradually increase their classroom responsibilities and then assume complete responsibility for all curriculum planning and teaching for five weeks. Students will design and teach an original instructional unit. In this course students complete their Teacher as Learner Presentation (TLP). The University Supervisor will observe candidates teaching a minimum of five times. Completion of all required content courses to earn the endorsement (math, science, literacy, social studies).

**Prerequisite:** ELED-506 with a minimum grade of C and EDFN-442 with a minimum grade of C and ELED-435 with a minimum grade of C and ELED-504 with a minimum grade of C and LTCY-402 with a minimum grade of C and SPED-404 with a minimum grade of C and BLBC-440 with a minimum grade of C and EDFN-405 with a minimum grade of C and ELED-525 with a minimum grade of C and MLED-450 with a minimum grade of C and MLED-428A with a minimum grade of B and MLED-428B with a minimum grade of B and MLED-428C with a minimum grade of B and (ELED-403 with a minimum grade of C or MLED-415 with a minimum grade of C or MLED-416 with a minimum grade of C).

**MLED-429B. Internship In The Middle Grades. 3 Hours.**

This course is the seminar for student teaching in the middle grades. Candidates are engaged in full-time student teaching for 16 weeks in their endorsement area. With support from their Cooperating Teacher and University Supervisor students gradually increase their classroom responsibilities and then assume complete responsibility for all curriculum planning and teaching for five weeks. Students will design and teach an original instructional unit. In this course students complete their Teacher as Learner Presentation (TLP). The University Supervisor will observe candidates teaching a minimum of five times. Completion of all required content courses to earn the endorsement (math, science, literacy, or social studies).

**Requirement:** Completion of all MAT MLED program courses, completion of all content courses required by the Illinois State Board of Education, passing score on the ICTS Subject Area Test, and no more than two Cs in all program courses and a minimum grade of B in both clinical courses.

**MLED-450. Interdisciplinary Curriculum Design In Middle School. 3 Hours.**

This course explores the unique philosophy of middle school and the design of interdisciplinary curriculum. MLED-450 includes the study of the theory, design, implementation, and practice of interdisciplinary curriculum in the middle grades 5-8. The course emphasizes designing authentic learning experiences, inquiry-based and project-based learning across the disciplines, and teaching literacy across the curriculum. The course also focuses on working in collaborative teams, connections to the school community, integrating standards, and a variety of forms of assessment. Taken concurrently with ONE of the following in the candidate's endorsement area: LTCY-502 Reading; MLED-403 Teaching Math; MLED-415 Inquiry Science MS; MLED-416 Social Studies MG.

**Prerequisite:** ELED-506 with a minimum grade of C and EDFN-442 with a minimum grade of C and ELED-435 with a minimum grade of C and ELED-504 with a minimum grade of C and LTCY-513 with a minimum grade of C and SPED-404 with a minimum grade of C and BLBC-440 with a minimum grade of C and EDFN-405 with a minimum grade of C and ELED-525 with a minimum grade of C.

## Secondary Education

**SCED-301. Writing Intensive Program:Methods Of Teaching On The Secondary Level. 3 Hours.**

This course prepares students to become professional secondary educators by examining theories and methods of effective teaching, including: selecting, organizing, and using materials and methods common to varied subject areas in the secondary schools to meet individual student needs, including the needs of exceptional children; developing and writing of lesson plans and unit plans; facilitating class discussion; and managing discipline.

**Prerequisite:** EDFN-305 with a minimum grade of C and EDFN-306 with a minimum grade of C and College of Education Admission with a score of Y and ENGL-101 with a minimum grade of C.

**SCED-303A. Contemporary Art Education In The Secondary School. 3 Hours.**

Designed to develop inquiry and understanding of many problems of communicating or teaching art in the secondary school. Emphasis on planning and methodology to meet individual student needs, including needs of exceptional students. To be taken before student teaching in the Spring semester.

**Prerequisite:** College of Education Admission with a score of Y.

**Corequisite:** SCED-304A.

**SCED-303E. Methods Of Teaching English In The Secondary School. 3 Hours.**

Introduction to the methods, techniques and materials for teaching English in secondary school. Emphasis on planning and methodology to meet individual student needs, including needs of exceptional students. To be taken with SCED-304E.

**Prerequisite:** SCED-301 with a minimum grade of C and College of Education Admission with a score of Y.

**SCED-303F. Teaching Modern Foreign Languages In The Secondary School. 3 Hours.**

Introduction to the methods, techniques and materials for teaching foreign languages in the secondary school. Emphasis in on mastery of selected skills on a performance basis and meeting individual student needs. Prior to taking methods in foreign language ( SCED-303F ), students must score an "Advanced Low" or higher rating on the Oral Proficiency Interview (OPI).

**Prerequisite:** College of Education Admission with a score of Y.

**Corequisite:** SCED-304F.

**SCED-303H. Methods Of Teaching History In The Secondary School. 3 Hours.**

Demonstration of specific organizational patterns and teaching methods in history, teaching for critical thinking and trends in the teaching of history. Emphasis on planning and methodology to meet individual student needs, including needs of exceptional students. To be taken with SCED-304H.

**Prerequisite:** SCED-301 with a minimum grade of C and College of Education Admission with a score of Y.

**SCED-303I. Methods And Techniques Of Teaching Music In Secondary School:Instrumental. 3 Hours.**

Methods and materials utilized in teaching instrumental ensemble classes in middle and high schools; emphasis upon performance based instructional design and rehearsal strategies to meet individual student needs, music literacy, methods of reading, and reading in the content area in instrumental music.

**Prerequisite:** MUS-391 with a minimum grade of C and SCED-311 with a minimum grade of C and College of Education Admission with a score of Y.

**SCED-303M. Methods Of Teaching Mathematics In The Secondary School. 3 Hours.**

Strategies for teaching concepts, principles and mathematical skills. Emphasis on problem solving, proof and planning and methodology to meet individual student needs, including needs of exceptional students. To be taken with SCED-304M.

**Prerequisite:** SCED-301 with a minimum grade of C and College of Education Admission with a score of Y.

**Corequisite:** SCED-304M.

**SCED-303R. Materials And Methods For Teaching High School Science. 3 Hours.**

Interpretation of the content and structure of those areas of natural sciences generally included in secondary school curricula; recent developments in curriculum organization and teaching materials; methods of teaching in the classroom and laboratory, including team teaching and other individualized guided study programs. Emphasis on planning and methodology to meet individual student needs, including needs of exceptional students. Offered during Fall term only.

**Prerequisite:** SCED-311 with a minimum grade of C.

**SCED-303V. Methods And Techniques Of Teaching Music In Secondary Schools:Vocal. 3 Hours.**

Methods and materials utilized in teaching vocal ensemble and general music classes in middle and high schools; emphasis upon performance based instructional design and rehearsal strategies to meet individual student needs, music literacy, methods of reading, and reading in the content area in vocal music.

**Prerequisite:** MUS-391 with a minimum grade of C and SCED-311 with a minimum grade of C and College of Education Admission with a score of Y.

**SCED-304A. Clinical Experiences In The Secondary School:Art. 1 Hour.**

A supervised clinical experience designed with less emphasis on observational experiences and more on direct involvement in the instructional process. Requires experience with broad range of students, including exceptional students. To be taken with the academic methods course, SCED-303A.

**Prerequisite:** College of Education Admission with a score of Y.

**Corequisite:** SCED-303A.

**SCED-304B. Clinical Experiences In The Secondary School:Biography. 1 Hour.**

A supervised clinical experience designed with less emphasis on observational experiences and more on direct involvement in the instructional process. Requires experience with a broad range of students, including exceptional students. To be taken with the academic methods course SCED-303R.

**Prerequisite:** College of Education Admission with a score of Y.

**Corequisite:** SCED-303B.

**SCED-304E. Clinical Experiences In The Secondary School:English. 1 Hour.**

A supervised clinical experience designed with less emphasis on observational experiences and more on direct involvement in the instructional process. Requires experience with a broad range of students, including exceptional students. To be taken with the academic methods course, SCED-303E.

**Prerequisite:** College of Education Admission with a score of Y.

**Corequisite:** SCED-303E.

**SCED-304F. Clinical Experiences In The Secondary School:French. 3 Hours.**

Score of Advanced Low or higher on OPI.

**Prerequisite:** College of Education Admission with a score of Y.

**Corequisite:** SCED-303F.

**SCED-304H. Clinical Experiences In The Secondary School:History. 1 Hour.**

A supervised clinical experience designed with less emphasis on observational experiences and more on direct involvement in the instructional process. Requires experience with a broad range of students, including exceptional students. To be taken with the academic methods course, SCED-303H.

**Prerequisite:** College of Education Admission with a score of Y.

**Corequisite:** SCED-303H.

**SCED-304J. Foreign Language Clinical Experience In The Secondary School. 1 Hour.**

A supervised clinical experience designed with less emphasis on observational experiences and more on direct involvement in the instructional process. Requires experience with a broad range of students, including exceptional students. To be taken with the academic methods course, SCED-303F.

**Prerequisite:** SCED-311 with a minimum grade of C.

**Corequisite:** SCED-303F.

**SCED-304M. Clinical Experiences In The Secondary School:Mathematics. 1 Hour.**

A supervised clinical experience designed with less emphasis on observational experiences and more on direct involvement in the instructional process. Requires experience with a broad range of students, including exceptional students. To be taken with the academic methods course, SCED-303M.

**Prerequisite:** College of Education Admission with a score of Y.

**Corequisite:** SCED-303M.

**SCED-305A. Secondary Student Teaching And Seminar In Art. 9 Hours.**

Sixteen weeks of full-day student teaching providing practical teaching experience in one or more levels of secondary school art. Supervised by secondary school personnel and a university supervisor, who conducts a weekly two-hour seminar associated with student teaching. Requires experience with a broad range of students, including exceptional students. To be taken during Spring semester.

**Prerequisite:** SCED-301 with a minimum grade of C and SCED-303A with a minimum grade of C and Illinois Content Area Test with a score of P.

**SCED-305B. Secondary Student Teaching And Seminar In Biology. 9 Hours.**

Sixteen weeks of full-day student teaching providing practical teaching experience in one or more levels of secondary school biology. Supervised by secondary school personnel and a university supervisor, who conducts a weekly two-hour seminar associated with student teaching. Requires experience with a broad range of students, including exceptional students.

**Prerequisite:** SCED-301 with a minimum grade of B and Illinois Content Area Test with a score of P.

**SCED-305E. Secondary Student Teaching And Seminar In English. 9 Hours.**

Sixteen weeks of full-day student teaching providing practical teaching experience in one or more levels of secondary school English. Supervised by secondary school personnel and a university superior who also conducts a weekly two-hour seminar associated with student teaching. Requires experience with a broad range of students, including exceptional students.

**Prerequisite:** Illinois Content Area Test with a score of P and College of Education Admission with a score of Y.

**SCED-305F. Secondary Student Teaching And Seminar In French. 9 Hours.**

Sixteen weeks of full-day student teaching providing practical teaching experience in secondary school foreign language. Supervised by secondary school personnel and a university supervisor, who conducts a weekly seminar associated with student teaching. Requires experience with a broad range of students, including those with exceptionalities.

**Prerequisite:** SCED-303F with a minimum grade of B and SCED-304J with a minimum grade of C and Illinois Content Area Test with a score of P.

**SCED-305H. Secondary Student Teaching And Seminar In History. 9 Hours.**

Sixteen weeks of full-day student teaching providing practical teaching experience in one or more levels of secondary school history. Supervised by secondary school personnel and a university supervisor who also conducts a weekly two-hour seminar associated with student teaching. Requires experience with a broad range of students, including exceptional students.

**Prerequisite:** Illinois Content Area Test with a score of P and College of Education Admission with a score of Y.

**SCED-305J. Secondary Student Teaching And Seminar In Spanish. 9 Hours.**

Sixteen weeks of full-day student teaching providing practical teaching experience in secondary school foreign language. Supervised by secondary school personnel and a university superior, who conducts a weekly two-hour seminar associated with student teaching. Requires experience with a broad range of students, including exceptional students.

**Prerequisite:** Illinois Content Area Test with a score of P and SCED-304J with a minimum grade of C.

**SCED-305K. Secondary Student Teaching And Seminar - Health Education. 12 Hours.**

Sixteen weeks of full-day student teaching providing practical teaching experience in secondary school health education. Supervised by secondary school personnel and a university supervisor, who conducts a weekly seminar associated with student teaching. Requires experience with a broad range of students, including those with exceptionalities.

**Prerequisite:** SCED-301 with a minimum grade of C and HLED-304 with a minimum grade of C and HLED-305 with a minimum grade of C and HLED-302 with a minimum grade of C.

**SCED-305M. Secondary Student Teaching And Seminar In Mathematics. 9 Hours.**

Sixteen weeks of full-day student teaching providing practical teaching experience in one or more levels of secondary school mathematics. Supervised by secondary school personnel and a university supervisor who also conducts a weekly two-hour seminar associated with student teaching. Requires experience with a broad range of students, including exceptional students.

**Prerequisite:** SCED-301 with a minimum grade of C and Illinois Content Area Test with a score of P and College of Education Admission with a score of Y.

**SCED-305N. Secondary Student Teaching And Seminar In Music. 9 Hours.**

Sixteen weeks of full-day student teaching providing practical teaching experience in K-12 school music. Supervised by K-12 school personnel and a university supervisor, who conducts a weekly two-hour seminar associated with student teaching. Requires experience with a broad range of students, including exceptional students.

**Prerequisite:** SCED-301 with a minimum grade of C and SCED-303I with a minimum grade of C and SCED-303V with a minimum grade of C and SCED-311 with a minimum grade of C and Illinois Content Area Test with a score of P.

**SCED-305P. Secondary Student Teaching And Seminar In Physical Education. 12 Hours.**

Participation in directing learning experiences in secondary physical education at several levels under the supervision of one or more regularly assigned secondary teachers; observation of experienced teachers; familiarization with the daily program of the secondary school; weekly two-hour seminar and critique. Requires experience with a broad range of students, including exceptional students. (full-day, Spring term).

**Prerequisite:** SCED-301 with a minimum grade of C and PEMA-344 with a minimum grade of C and Illinois Content Area Test with a score of P.

**SCED-311. Writing Intensive Program: School Curriculum. 3 Hours.**

Designed for students in Physical Education, Health, Music, Visual Arts, World Languages, and Special Education, this course prepares students to develop and implement curriculum. Focal topics include objectives, unit planning, lesson planning, classroom management, higher order thinking, interdisciplinary collaboration, developmental considerations, and assessment techniques. Specific emphases include strategies for differentiating effectively to meet the needs of academically, culturally, and experientially diverse learners in mainstream classrooms.

**Prerequisite:** EDFN-305 with a minimum grade of C and ENGL-101 with a minimum grade of C and EDFN-306 with a minimum grade of C and EDFN-307 with a minimum grade of C and College of Education Admission with a score of Y.

**SCED-315. Teaching Writing In Junior And Senior High School. 3 Hours.**

This course covers the teaching of writing in the intermediate and upper grades. Mini-lesson design and placement, methods and strategies for teaching sentence completeness, for teaching sentence structure, and for punctuation and capitalization are covered. In addition, students will learn methodology that will be useful and effective with writing genres (e.g. expository, descriptive) and the research paper. The assessment of writing (e.g. rubrics, conferencing, portfolios) approaches for language-and-dialect different learners, and uses of technology in writing instruction. Finally, program issues are approached: the development of writer's workshop, and writing across the curriculum.

**Prerequisite:** College of Education Admission with a score of Y.

**SCED-401E. New Directions In Teaching English In The Junior And Senior High School. 3 Hours.**

Designed for the in-service teacher of middle-secondary school English; study and discussion of new perspectives for the school English program growing out of the reform effort of the past decade.

**SCED-402E. Methods Of Teaching English Language Arts In Secondary Schools. 3 Hours.**

This course is the first of two discipline-specific English Language Arts methods courses. In this course, candidates will explore conceptual, curricular, and pedagogical aspects of teaching English Language Arts in secondary schools. Topics include text selection, differentiation, assessment, and strategies for teaching literature and writing in diverse classrooms.

**SCED-402H. Methods Of Teaching History And Social Sciences In Secondary Schools. 3 Hours.**

This course is the first of two discipline-specific history methods courses. In this course, candidates will explore conceptual, curricular, and pedagogical aspects of teaching history and the social studies in secondary schools. Topics include materials selection, differentiation, assessment, and strategies for teaching history and the social studies in diverse classrooms.

**SCED-402M. Methods Of Teaching Mathematics In Secondary Schools. 3 Hours.**

This course is the first of two mathematics methods courses for prospective secondary mathematics teachers. It examines goals, materials, and methods of instruction and assessment suitable for teaching mathematics to diverse students in middle and high school classrooms. The course will emphasize strategies that promote the development of students' conceptual understanding, procedural fluency, mathematical reasoning and problem solving skills, and their appreciation of mathematics.

**SCED-402S. Methods Of Teaching Science In Secondary Schools. 3 Hours.**

This course is the first science methods course in the SCED MAT/Teacher Licensure program sequence. It explores the interpretation of the content and structure of those areas of natural science generally included in secondary school curricula, recent developments in curriculum organization and teaching materials, and methods of teaching in the classroom and laboratory, including team teaching and other individualized guided study programs. The course emphasizes planning and methodology to meet individual student needs, including the needs of exceptional students.

**SCED-403E. New Directions In Teaching English Language Arts In Secondary Schools. 3 Hours.**

This course is the second discipline-specific course in the SCED MAT/Teacher Licensure program sequence. Study and discussion will focus on an exploration of recent trends and innovations in teaching English Language Arts, including, but not limited to, examination of Common Core State Standards, exploration of 21st Century literacies in the ELA classroom, strategies for teaching English Language Arts in linguistically diverse classrooms, and sustained practice in considering and developing the roles of reading, writing, speaking, listening, language, media, and critical theory in teaching.

**Prerequisite:** SCED-402E with a minimum grade of B and SCED-415 with a minimum grade of B.

**Corequisite:** SCED-404E.

**SCED-403H. New Directions In Teaching History In The Secondary Schools. 3 Hours.**

This course is the second discipline-specific course in the SCED MAT/Teacher Licensure program sequence. In this course, candidates explore key themes related to teaching history, including organizational patterns and teaching methods in history, teaching history for critical thinking, intellectual and practical challenges related to the teaching of history, strategies for teaching history in culturally and linguistically diverse classrooms, and links between theoretical perspectives and practical methodology of teaching history at the secondary level. After completing this course candidates should be able to creatively plan, implement, and assess teaching and learning for culturally and educationally diverse student populations.

**Prerequisite:** SCED-402H with a minimum grade of B.

**Corequisite:** SCED-404H.

**SCED-403M. New Directions In Teaching Mathematics In Secondary Schools. 3 Hours.**

This course is the second mathematics methods course for prospective secondary mathematics teachers. It focuses on an exploration of recent trends, issues, and innovations in mathematics teaching, including strategies for teaching mathematics in culturally and linguistically diverse contexts. It engages candidates in the study of methods of instruction that foster mathematical understanding, mathematical habits of mind, and a positive disposition towards mathematics. Students will concurrently participate in a 70 hour clinical experience where they will observe and apply these methods in secondary mathematics classrooms.

**Prerequisite:** SCED-402M with a minimum grade of B.

**Corequisite:** SCED-404M.

**SCED-403S. New Directions In Teaching Science In Secondary Schools. 3 Hours.**

This course is the second science methods course for prospective secondary science teachers. The course focuses on an exploration of recent trends, issues and innovations in science teaching and engages candidates in the study of methods of instruction that foster scientific understanding, scientific reasoning, and a positive disposition towards science among culturally and linguistically diverse students. Candidates will concurrently participate in a 70-hour clinical experience where they will observe and apply these methods in science classrooms.

**Prerequisite:** SCED-402S with a minimum grade of B.

**Corequisite:** SCED-404S.

**SCED-404E. Clinical Experience In Secondary Schools: English Language Arts. 1 Hour.**

This course is a supervised clinical experience designed with less emphasis on observational experiences and more on direct involvement in the instructional process. It requires experience with a broad range of students, including exceptional students. It is taken concurrently with the academic methods course SCED-403E: New Directions in Teaching English Language Arts in Secondary Schools.

**Prerequisite:** SCED-415 with a minimum grade of B and SCED-402E with a minimum grade of B.

**Corequisite:** SCED-403E.

**SCED-404H. Clinical Experiences In Secondary Schools: History. 1 Hour.**

This course is a supervised clinical experience designed with less emphasis on observational experiences and more on direct involvement in the instructional process. It requires experience with a broad range of students, including exceptional students.

**Prerequisite:** SCED-415 with a minimum grade of B and SCED-402H with a minimum grade of B.

**Corequisite:** SCED-403H.

**SCED-404M. Clinical Experience In Secondary Schools: Mathematics. 1 Hour.**

This course is a supervised clinical experience designed with less emphasis on observational experiences and more on direct involvement in the instructional process. It requires experience with a broad range of students, including exceptional students.

**Prerequisite:** SCED-415 with a minimum grade of B and SCED-402M with a minimum grade of B.

**Corequisite:** SCED-403M.

**SCED-404S. Clinical Experiences In Secondary Schools: Science. 1 Hour.**

This course is a supervised clinical experience designed with less emphasis on observational experiences and more on direct involvement in the instructional process. It requires experience with a broad range of students, including exceptional students.

**Prerequisite:** SCED-415 with a minimum grade of B and SCED-402S with a minimum grade of B.

**Corequisite:** SCED-403S.

**SCED-407A. Teaching Multicultural Young Adult Literature In The Secondary School With Clinical Experience. 3 Hours.**

This course for pre-service secondary English teachers will emphasize curricular design and instructional techniques for selecting and using multicultural young adult (YA) literature in a well-rounded English Language Arts curriculum. Students will read and analyze a wide range of award-winning multicultural YA fiction, non-fiction, and poetry and will develop curriculum for middle and high school students, using YA and canonical multicultural literature. Students will also complete a concurrent, supervised clinical experience of at least 50 clock hours in a secondary English classroom.

**Prerequisites:** Full admission into the MAT: Language Arts--Secondary Program. Apply to CEST Office for placement at least one year in advance.

**SCED-407B. Teaching Multicultural Literature In Middle And Secondary Schools Without Clinical Experience. 3 Hours.**

Designed for middle school and secondary school teachers who have limited knowledge and experience in teaching ethnic minority literature. The course will emphasize curriculum design, teaching techniques and the assessment of appropriate instructional resources. The ultimate purpose of the course is to enable teachers to integrate effectively the multi-ethnic literary experience into traditional literature programs.

**SCED-408. The Nature Of Mathematical Abilities In School Children. 3 Hours.**

An exploration of mathematical learning by all students (K-12), with emphasis on the processes used by exceptional students. The differences that are shown by these students when doing mathematics will be examined, and with this information the class will focus on teaching practices that are most appropriate to these student's needs.

**SCED-409. Teaching Mathematical Problem Solving In The Secondary Schools. 3 Hours.**

An examination of the logical understanding of mathematical problem solving with emphasis on improving competence in teaching problem solving to secondary students; includes theoretical study, preparation of materials, and observations and demonstrations in the teaching of problem solving.

**SCED-410. Computers In The Teaching Of Secondary School Mathematics. 3 Hours.**

A computer application course, using BASIC, designed for teachers of secondary school mathematics. Examples from algebra, geometry, trigonometry, number theory, and probability and statistics will serve as the basis for programming activities. Strategies for effectively using the computer and computer software in the teaching of mathematics will be discussed.

**SCED-415. Introduction To Secondary School Curriculum. 3 Hours.**

Candidates taking this course will develop skills in and strategies for curriculum planning and delivery, with emphasis on meeting urban students' diverse needs. Taken concurrently with EDFN-415, the course will help candidates consider the relationships among subject-area practices, teacher beliefs, learner characteristics, school and community contexts, and other influences on teaching (e.g., educational research, accreditation processes, standards implementation, standardized testing, etc.). Candidates will examine how these relationships impact classroom practice and will apply their understandings by collaborating with peers seeking licensure in different subject areas to develop a critical, interdisciplinary unit of curriculum for students in a specific context.

**Corequisite:** EDFN-415.

**SCED-421. Research In Teaching In Middle And Secondary Schools. 3 Hours.**

This course is the culminating course in candidates' MAT sequence, and is designed to acquaint candidates with research on contemporary trends in teaching. Candidates will critically appraise and discuss classical and contemporary studies in disciplinary and interdisciplinary teaching to identify specific strategies useful in classroom practice. Candidates will examine the role of classroom research in planning, implementing, and assessing the impact of instructional strategies and have the opportunity for individual in-depth study of specific areas related to their needs and interests. This course reinforces candidates' professional literacy and writing skills as related to reading, reviewing, and writing about research.

**Prerequisite:** SCED-404E with a minimum grade of B or SCED-404M with a minimum grade of B or SCED-404S with a minimum grade of B or SCED-404H with a minimum grade of B.

**SCED-429. Student Teaching In Secondary Schools. 6 Hours.**

This course is a capstone course for candidates who plan to teach in grades 6-12. It includes sixteen weeks of full-day student teaching under the supervision of school and university personnel. Candidates will synthesize and apply principles of effective instruction, reflective practice, and culturally responsive teaching in a secondary school setting.

**Corequisite:** SCED-430.

**SCED-430. Student Teaching Seminar: Reflection And Assessment Of Student Learning. 3 Hours.**

In this seminar, candidates will reflect upon their student teaching experiences and examine their impact on student learning. Candidates will prepare formal curricular materials, evaluate their classroom pedagogy, and analyze trends in individual and collective student performance. Additional topics for discussion include classroom management strategies, collaborating with peers, engaging with parents, completing state licensure procedures, and the job search. This course requires co-enrollment in SCED-429: Student Teaching.

**Corequisite:** SCED-429.

**SCED-431. Integrating Engineering, Robotics, And AI In STEM Teaching. 3 Hours.**

This graduate-level course prepares preservice and in-service middle and high school science and math teachers to navigate the exciting intersection of engineering, robotics, and artificial intelligence (AI) within STEM education. Participants will dive into theoretical concepts and apply them through modeling projects, such as building robots and coding them for an instructional purpose, to grasp how these advanced technologies enhance educational settings. The goal of this course is to empower teachers to integrate these innovations into their curriculums, leveraging constructivism, project-based learning, and inquiry-based instruction to prepare students for the 21st-century workforce.

# Major in Early Childhood Education

---

## Program in Early Childhood Education (Licensure)

The Early Childhood Education Program offers a course of study leading to the Bachelor of Arts degree. The major in Early Childhood Education consists of 54 credit hours, including two 100-hour clinical experiences at different age levels of early childhood. Each clinical includes a 3-credit weekly lecture to provide more in-depth examination of field experiences and on time field relevant topics.

In addition, students are required to pursue endorsement in TESOL or BLBC (please contact the TESOL program advisor or ECED program advisor for BLBC endorsement requirements)

Students who complete this program qualify for Early Childhood licensure. Upon licensure, they are eligible to teach early childhood (birth-2nd grade).

## Early Childhood Studies Concentration (Non-Licensure)

This concentration is designed as a non-licensure track for students pursuing the Bachelor of Arts in Early Childhood Education. This concentration prepares students to graduate with knowledge, skills, and dispositions needed to work with children from birth to Grade 2 in a variety of settings which do not require a teaching license. Such settings include museums, child care programs, non-profit organizations, private schools/businesses, and other places which provide conducive environments for young children to engage in active learning as they grow and develop.

Students can enter the program with AA or AAS, or as Freshmen. After the completion of 60 credit hours, all undergraduates will be able to proceed with taking courses if they have the following:

- Minimum GPA 2.5
- No grades below a "C"
- Successfully completed (with a C grade minimum) English 101 and 102 and college level Math

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6
<b>Humanities (HU)*</b> 3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	9
<b>Behavioral/Social Sciences (SB)*</b> 3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	9
<b>Natural Sciences (NS and NSL)**</b> 3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	9

### Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

### Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

**Boundary Crossing (ELE-X)**

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

**Math/Quantitative Reasoning (MA)**

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

- \* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.
- \*\* Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/graduation-requirements/bachelors-degree/>)

**Major in Early Childhood Education for the Bachelor of Arts Degree**

The major in Early Childhood Education is designed to meet the state teacher licensure requirements.

In order to register for Block 2 courses, students must have met the Goodwin College of Education's requirements for licensure candidacy. Students should meet with the program Advisor (<https://www.neiu.edu/academics/college-of-education/goodwin-college-education-advisors/>) to plan their program in Block 1. Students should complete the necessary procedures to achieve licensure candidacy and declare their major before or while they are enrolled in EDFN 302 and EDFN 303 (Block 1). Only students who have declared their major and are candidates for licensure will be permitted to register for Early Childhood Education Professional Courses. An NEIU GPA of 2.5 is required to begin Block 2 classes.

No more than two grades of "C" in professional sequence coursework is allowed. A grade of "D" in any required Early Childhood course will not be accepted toward the Early Childhood major. The student may repeat a course with a "D" grade one time only, depending on program review. If a student fails to earn a "C" or better, the student will be dropped as an Early Childhood major.

All teacher candidates must maintain a 2.75 GPA. To be entitled for licensure, a student must earn a "B" or better in Student Teaching and for graduation, a 2.75 cumulative GPA is required.

**MINOR AREA OF STUDY****MINOR SUBJECT AREA – 18 CREDIT HOURS MINIMUM**

Students are required to declare a minor in TESL (Teaching English as a Second Language) or BLBC (Bilingual/Bicultural) and/or pursue an endorsement in either ESL or Bilingual Education. Please consult with the Early Childhood Program Advisor for more information.

**PROFESSIONAL SEQUENCE WITH ADMISSION AND RETENTION REQUIREMENTS**

-- Consult the program for admission requirements

Code	Title	Hours
<b>Requirements:</b>		
<b>BLOCK 1</b>		
EDFN-302	Philosophical And Historical Foundations Of Early Childhood Education	3
EDFN-303	Early Childhood Development	3
<b>BLOCK 2</b>		
ECED-301	Curriculum And Instruction In Early Childhood Education	3
ECED-306	Methods Of Teaching Reading In Early Childhood	3
ECED-313	Writing Intensive Program: Language Development And Educational Implications	3
ECED-316	Child, Family And Community	3
<b>BLOCK 3</b>		
ECED-338	Developmental Assessment Of Young Children	3
ECED-355	Methods Of Teaching Mathematics, Science And Social Science In Early Childhood	3
BLBC-340	Teaching English Learners In Diverse Classrooms	3

ECED-327A	Clinical Experiences In Early Childhood Education: Infant To Preschool	3
<b>BLOCK 4</b>		
ECED-325	Children's Literature Across The Curriculum	3
ECED-352	Methods Of Teaching Language Arts, Music And Art In Early Childhood	3
SPED-382	Strategies For Differentiating Instruction For Students With Exceptional Learning Needs	3
ECED-327B	Clinical Experiences In Early Childhood Education: Kindergarten To 2nd Grade	3
<b>BLOCK 5</b>		
ECED-329	Student Teaching In Early Childhood	12
ECED-329B	Student Teaching in Early Childhood (ECED 329B is taken only by those in the CPS Residency program ) This course is repeatable so that it is spread over two semesters.	

**Total Hours****54****BLOCK 1:** Do the following in this Block:

- Meet with ECED program Advisor and review the requirements to be eligible for the licensure program.
- Students must successfully complete Block 1 (EDFN 302 and EDFN 303) to be eligible for Block 2 professional courses.
- Create an ELIS teacher licensure account, if one has not already been created, by visiting <https://www.isbe.net/Pages/Educator-Licensure-Information-System.aspx>.
- Register for Block 2
- Attend mandatory clinical information meeting and apply for the first Clinical Experience (ECED-327A). See [clinical-experiences-and-student-teaching office information](#).

**Eligibility for the first Clinical Experience in Block 3**

- In Block 1 students must consult with the Early Childhood program Advisor (<https://www.neiu.edu/academics/college-of-education/goodwin-college-education-advisors/>) to receive guidance about their application for the first clinical experience in Block 3.
- The application for clinical experiences and student teaching is processed by staff in the Clinical Experiences and Student Teaching (CEST) Office (LWH 4023).
- Students must have completed an application for a clinical experience in order to be placed in a school by the CEST office.
- Students must have also completed the Chicago Public Schools (CPS) field experience online registration form as well as a CPS background check.

**BLOCK 2:** Do the following:

- Students must maintain a cumulative GPA of 2.5 and a GPA of 2.75 in professional courses.
- Complete ECED-301, ECED-306, ECED-313 and ECED-316.
- Apply to the CEST (<https://www.neiu.edu/academics/college-of-education/clinical-experiences-and-student-teaching/>) office for the first clinical ECED-327A, if not already completed.

**BLOCK 3:** Do the following:

- Complete ECED-355 concurrently with ECED-327A (with a grade of B or better), ECED-338, and BLBC 340
- Apply to the CEST (<https://www.neiu.edu/academics/college-of-education/clinical-experiences-and-student-teaching/>) office for the next clinical ECED-327B.
- Take and pass the ILTS Content Area test ([http://www.il.nesinc.com/TestView.aspx?f=HTML\\_FRAG/IL206\\_TestPage.html](http://www.il.nesinc.com/TestView.aspx?f=HTML_FRAG/IL206_TestPage.html)) #206 (Early Childhood). Candidates must pass the State Content Area Test in order to be placed for student teaching.
- Apply to the CEST (<https://www.neiu.edu/academics/college-of-education/clinical-experiences-and-student-teaching/>) office for student teaching.
- Students must also maintain a cumulative GPA of 2.5 and a GPA of 2.75 in professional courses.

**BLOCK 4:** Do the following:

- Complete ECED-325, ECED-352, SPED-382 and ECED-327B (with a grade of B or better).
- Attend mandatory CEST office student teaching orientation meeting.
- Pass the ILTS Content Area test ([http://www.il.nesinc.com/TestView.aspx?f=HTML\\_FRAG/IL206\\_TestPage.html](http://www.il.nesinc.com/TestView.aspx?f=HTML_FRAG/IL206_TestPage.html)) #206 (Early Childhood) if not completed or passed in Block 3.
- Meet with the program Advisor (<https://www.neiu.edu/academics/college-of-education/goodwin-college-education-advisors/>) for an academic record review and obtain information on how to be authorized for student teaching.
- Must meet all Blocks 1, 2, 3 and 4 requirements before proceeding to student teaching.

**BLOCK 5:** Do the following:

- Complete Student teaching – ECED-329 **OR** ECED 329B (for those admitted to the CPS Residency Program). Those in the CPS Residency program are employed and paid by the Chicago Public Schools (CPS) during student teaching. If interested, please obtain more information from the CEST office.
- Complete and pass edTPA in ECED-329 during Student Teaching (to be eligible for Licensure).

**LICENSURE REQUIREMENTS**

- In order to be entitled by NEIU for the Illinois Professional Educator License (early childhood-birth to 2nd grade), students must have received a “B” or better in student teaching and have passed the ILTS Content Area Test #206 ([http://www.il.nesinc.com/TestView.aspx?f=HTML\\_FRAG/IL206\\_TestPage.html](http://www.il.nesinc.com/TestView.aspx?f=HTML_FRAG/IL206_TestPage.html)).
- In order to be licensed by the Illinois State Board of Education, students must have passed the Teacher Performance Assessment (edTPA).

**EXIT REQUIREMENTS FOR DEGREE COMPLETION**

- Successful completion of all NEIU and ECED General Education Requirements
- Successful completion of Block 1 through Block 5 Courses
- Must earn a B or better in all Clinical Experiences and Student Teaching
- Must provide evidence of passing ILTS Content Area test ([http://www.il.nesinc.com/TestView.aspx?f=HTML\\_FRAG/IL206\\_TestPage.html](http://www.il.nesinc.com/TestView.aspx?f=HTML_FRAG/IL206_TestPage.html)) #206 (Early Childhood)
- Must successfully complete the required minor
- Must have the minimum credit hours for degree: 120 credit hours
- Must maintain a cumulative GPA of 2.5
- Must maintain an overall GPA of 2.75 in professional sequence courses.

## Early Childhood Studies Concentration (non-licensure)

**BLOCK 1:** Do the following:

- Meet with ECED program Advisor to declare your Major
- Transfer in course equivalents or successfully complete Block 1 (EDFN-302 and EDFN-303) to be eligible for Block 2 professional courses. Consult with the ECED Advisor.

**BLOCK 2:** Do the following:

- Maintain a cumulative GPA of 2.5.
- Complete ECED-301, ECED-306, ECED-313 and ECED-316.

**BLOCK 3:** Do the following:

- Maintain a cumulative GPA of 2.5.
- Complete ECED-338, ECED-355, BLBC-340

**BLOCK 4:** Do the following:

- Complete ECED-325, ECED-352, SPED-382.
- Meet with the program Advisor (<https://www.neiu.edu/academics/college-of-education/goodwin-college-education-advisors/>) for an academic record review and obtain information on how to be authorized for the capstone.
- Must meet all Blocks 1, 2, 3 and 4 requirements before proceeding to the capstone.

**BLOCK 5:** Do the following:

- Complete the capstone
- Maintain a cumulative GPA of 2.5

**EXIT REQUIREMENTS FOR DEGREE COMPLETION**

- Successful completion of NEIU and ECED General Education Requirements
- Successful completion of Block 1 through Block 5 Courses
- Must earn a B or better in the capstone
- Successful completion of the required minor

- Must have the minimum credit hours for degree: 120 credit hours
- Must maintain a cumulative GPA of 2.5

Code	Title	Hours
<b>Requirements:</b>		
<b>BLOCK 1</b>		
EDFN-302	Philosophical And Historical Foundations Of Early Childhood Education	3
EDFN-303	Early Childhood Development	3
<b>BLOCK 2</b>		
ECED-301	Curriculum And Instruction In Early Childhood Education	3
ECED-306	Methods Of Teaching Reading In Early Childhood	3
ECED-313	Writing Intensive Program: Language Development And Educational Implications	3
ECED-316	Child, Family And Community	3
<b>BLOCK 3</b>		
ECED-338	Developmental Assessment Of Young Children	3
ECED-355	Methods Of Teaching Mathematics, Science And Social Science In Early Childhood	3
BLBC-340	Teaching English Learners In Diverse Classrooms	3
<b>BLOCK 4</b>		
ECED-325	Children's Literature Across The Curriculum	3
ECED-352	Methods Of Teaching Language Arts, Music And Art In Early Childhood	3
SPED-382	Strategies For Differentiating Instruction For Students With Exceptional Learning Needs	3
<b>BLOCK 5</b>		
ECED-375	Capstone Experience in Early Childhood Studies	6
<b>Total Hours</b>		<b>42</b>

Please be aware that State of Illinois requirements have changed regarding edTPA completion, and it is no longer required (see Block 5).

In addition to the successful completion of the Early Childhood Education major and the required minor, students must complete the **general education** requirements for the College of Education. These requirements overlap with NEIU's General Education Requirements:

Code	Title	Hours
Fine Arts (6 credit hours)		6
Any Music or Dance Course		
Humanities (9 credit hours)		9
Select one of the following:		
ENGL-201	The World Of Poetry	
or ENGL-202	The World Of Drama	
or ENGL-203	The World Of Fiction	
And choose two courses from Limited List in: English, Foreign Language, Linguistics, Philosophy		
Behavioral and Social Science (12 credit hours)		12
PSCI-216	American National Government	
HIST-214	American History To 1877	
or HIST-215	American History Since 1877	
Select one of the following:		
HIST-111C	World History: East Asia (Non-Western/Third World)	
or HIST-111D	World History: Latin America	
or HIST-111E	World History: Africa	
or HIST-111F	World History: Islam	
or ANTH-212	Introduction To Cultural Anthropology	
Elective		
Biological & Physical Sciences (12 credit hours)		12
Coursework must include Biological, Earth and Space, & Physical Science (include one lab course)		

ENGL-101 & ENGL-102	Writing I and Writing II <sup>1</sup>	6
Select one of the following:		3
CMTC-101 or CMTC-202	Public Speaking <sup>1</sup> Voice and Diction	
HSCI-107	Health For Effective Living	3
College-level Mathematics Course (approved by ECED advisor). <sup>1</sup>		3
Physical Education Elective		1
Total Credit Hours Required for Graduation		120

<sup>1</sup> Students must receive a grade of "C" or higher.

**It is recommended to consult with your advisor at least once each semester.**

This sample curricular map is provided to guide you in the planning of your progression for this major. This guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor.

In order to register for Block 2 courses, you must have declared a major and be admitted to the College of Education.

**First Year**

Term 1		Hours
ENGL-101	Writing I	3
CMTC-101 or 202	Public Speaking	3
Math Course		3
Non-Western/Third World course		3

# Major in Elementary Education

---

## Program in Elementary Education

The Elementary Education Program provides students with knowledge of philosophical and psychological elements of teaching and learning, general and specific methods of instruction, and clinical intern experiences of at least 200 hours in local schools prior to the full-day student teaching experience. Students who complete this program qualify for elementary education licensure. Upon licensure, they are eligible to teach elementary school (grades 1-6).

### Program Outcomes:

Students completing the Elementary Education major will:

1. Develop highly reflective, creative, and critical teaching skills and demonstrate the knowledge to connect theory to practice.
2. Show evidence of a wide repertoire of teaching strategies across the curriculum, and an understanding of inquiry and project-based teaching.
3. Demonstrate deep content knowledge across the curriculum.
4. Demonstrate knowledge of skills and practices in literacy instruction for diverse learners across the curriculum.
5. Develop the skills and habits of mind to critique knowledge, curriculum, and standards, and analyze the political and moral dimensions of schooling and teaching.
6. Develop the skills and knowledge to implement culturally relevant pedagogy that considers all forms of diversity; and show evidence of the ability to integrate this content into their classroom curriculum.
7. Demonstrate their ability to use and integrate technology and media in their teaching and across the curriculum.
8. Demonstrate their ability to use a variety of assessment approaches for instructional decision-making.
9. Have an understanding of educational research and demonstrate the skills to locate and critique scholarly and relevant studies.
10. Demonstrate excellent oral and written communication skills.
11. Demonstrate the ability to create a classroom community that is safe, creative, caring, inclusive, and motivating for learning.
12. Understand the principles of social justice, the role of schooling in a democracy, and the ability to teach for active citizenship and critical literacy.
13. Demonstrate the ability to integrate critical thinking and problem solving in their teaching.
14. Show evidence of professionalism, responsibility, integrity, and the ability to work collaboratively for the success of all students.
15. Assume responsibility for their own ongoing professional development, and understand the role of teachers as school and social change agents

## Elementary Education with Bilingual Education Endorsement (Major)

Candidates in the elementary program who want to add a bilingual education endorsement will declare their major in Elementary Education with a Bilingual Endorsement, pass a Language Proficiency Test (TLP), complete field experience/student teaching in bilingual settings and complete the following 18 credit hours:

- Foundations of Bilingual Education
  - BLBC 338 Bilingualism and Education (3 hours)
- Assessment of Bilingual Students
  - BLBC 342 Assessment in the Bilingual Classroom (3 hours)
- Methods and Materials for Teaching Limited English Proficient Students in Bilingual Programs
  - BLBC 341 Methods of Teaching in Bilingual Classrooms (3 hours)
- Cross-Cultural Studies for Teaching Limited English Proficient Students
  - BLBC 339 Culturally Responsive Teaching in Diverse Classrooms (3 hours) (\*)
- Methods and Materials for Teaching English as a Second Language
  - BLBC 340 Teaching English Learners in Diverse Classrooms (3 hours) (\*)
- ELECTIVE
  - TESL 301 The English Language for Teachers (suggested to be able to add the ESL endorsement) (3 hours)

(\*) Course is part of the Elementary Education Program.

Notes:

- Students declared in Elementary Education with a Bilingual Endorsement major do not need to complete a minor in bilingual education.
- Candidates in the Early Childhood Program who will complete the minor in Bilingual Education will complete ECED 327B (100 hrs.) in a bilingual setting.
- For students in the Elementary education program with a bilingual endorsement major, TESL 301 is suggested to add the ESL endorsement, and you do not take TESL 399.

- TESL 402 is suggested to add the ESL endorsement for MAT-ELED candidates completing the requirements for the bilingual endorsement. Also, since your BLBC 429 is in a bilingual setting, you DO NOT need to take TESL 399.
- Students in the following programs: Middle Level, PE, Special Education, and Secondary education; completing a minor in Bilingual Education must contact their program coordinator/facilitator to determine how to meet the 100 hours of clinical experience in a bilingual setting. The CEST office must be notified to place the students in a bilingual setting. If no placement is possible, NEIU may entitle the candidate for a short-term approval. Contact your program advisor for more information.

no change

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6
<b>Humanities (HU)*</b> 3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	9
<b>Behavioral/Social Sciences (SB)*</b> 3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	9
<b>Natural Sciences (NS and NSL)**</b> 3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	9

### Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

#### Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

#### Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

### Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

\* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

\*\* Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/graduation-requirements/bachelors-degree/>)

## Degree and Program Completion/Entitlement Requirements

To graduate from the program and be entitled to state licensure, students must complete a minimum of 120 credit hours, which include the following requirements:

- University General Education Program Requirements
- Professional Education Coursework
- Approved Area of Concentration
- Additional Courses and Tests Required for State Licensure (<http://www.il.nesinc.com/>)
- Program Completion Criteria

## Required Professional Education Courses

Code	Title	Hours
EDFN-305	Philosophical And Historical Foundations Of Public Education	3
Attend mandatory clinical information meeting and apply for Clinical Field Experiences		
EDFN-306	Education And Individual Differences	3
ELED-308	Instructional Design	3
ELED-302	Writing Intensive Program: Foundation Of Teaching The English Language Arts	3
SPED-382	Strategies For Differentiating Instruction For Students With Exceptional Learning Needs	3
ELED-310	Methods Of Teaching Mathematics In The Elementary Grades	3
ELED-313	Literature And Literacy In The Content Areas	3
BLBC-340	Teaching English Learners In Diverse Classrooms	3
BLBC-339	Culturally Responsive Teaching in Diverse Classrooms	3
ELED-305	Teaching Science In The Elementary School	3
ELED-328A	Clinical Experiences	3
ELED-304	Inquiry-Based Social Studies In The Elementary Grades	3
ELED-306	Methods Of Literacy Instruction	3
ELED-316	Critical Issues In Education	3
ELED-328B	Clinical Experience In Elementary Education	3
ELED-329	Student Teaching In Elementary Grades	9
<b>Total Hours</b>		<b>54</b>

## ELIGIBILITY FOR LICENSURE & THE ELEMENTARY EDUCATION PROGRAM

To register for Block One courses in the ELED program, students must have declared their majors and met the requirements for licensure candidacy in the Goodwin College of Education. Students should meet with program advisors to plan their programs before taking EDFN-306 (<http://catalog.neiu.edu/search/?P=EDFN-306>) and complete the necessary procedures to declare their majors before or while enrolled in EDFN-306 (<http://catalog.neiu.edu/search/?P=EDFN-306>).

- Completion of a minimum of 60 hours or junior status
- Completion of EDFN-305 (<http://catalog.neiu.edu/search/?P=EDFN-305>) and EDFN-306 (<http://catalog.neiu.edu/search/?P=EDFN-306>) with grades of B or better
- NEIU Overall GPA of 2.5 or better
- Creation of an ELIS teacher licensure account, if one has not already been created, by visiting <https://www.isbe.net/Pages/Educator-Licensure-Information-System.aspx>.

## Areas of Concentration

### AREA OF CONCENTRATION – 11 CREDIT HOURS MINIMUM

Students may select an area of concentration with a minimum of 11 credit hours in a content area.

The above requirements apply to undergraduate transfer students and graduates of accredited universities (Second B.A. or TLP Programs). All students must consult with a Program Advisor in the Elementary Education Program.

## ELEMENTARY EDUCATION PROFESSIONAL SEQUENCE WITH ADMISSION AND RETENTION REQUIREMENTS

Each block of courses must be completed before moving forward.

- A 3.0 GPA must be maintained in professional sequence coursework. Students whose program GPA falls below 3.0 will be allowed one (1) semester to take program courses in order to raise their GPA, but will not be allowed to proceed with clinical courses until they have done so.
- A 2.5 GPA must be maintained overall. (If GPA levels are not maintained, student will not be allowed to proceed through the program).
- Students must successfully complete each block of courses in order to move to the next block. All floating courses must be completed before student teaching.

### Block 1

Complete ELED-308, SPED-382, ELED-310, and ELED-302 (<http://catalog.neiu.edu/search/?P=ELED-302>) with an average GPA of 3.0.

- For approval to enroll in ELED-306 (<http://catalog.neiu.edu/search/?P=ELED-306A>) and ELED-328B, a disposition form with a rating of Satisfactory must be obtained from student's instructor in ELED-308. A 2<sup>nd</sup> disposition form, also with a Satisfactory rating must be obtained from the student's instructor of ELED-328B. See Program Advisor for more information.
- Attend mandatory clinical information meeting and apply for Clinical Field Experiences: clinical-experiences-and-student-teaching (<http://www.neiu.edu/academics/college-of-education/clinical-experiences-and-student-teaching/>)
- ELED-308 and ELED-302

### Block 2

Complete BLBC-339, ELED 328A (with a grade of B or better), ELED-313 and ELED-305 (floating courses may be taken concurrently).

Attend mandatory Student Teaching Information meeting and apply for Student Teaching field placement: cestdept (<http://www.neiu.edu/academics/college-of-education/clinical-experiences-and-student-teaching/>)

### block 3

Complete ELED-306, ELED-328B (with a grade of B or better), and ELED-316 (floating courses may be taken concurrently).

Pass the ILTS Content Area Examination, (<http://www.il.nesinc.com/>) # 305 ([http://www.il.nesinc.com/TestView.aspx?f=HTML\\_FRAG/IL305\\_TestPage.html](http://www.il.nesinc.com/TestView.aspx?f=HTML_FRAG/IL305_TestPage.html)).

All of the above requirements must be met before proceeding to student teaching.

Attend mandatory CEST student teaching orientation meeting.

### block 4

Complete student teaching - ELED-329 (<http://catalog.neiu.edu/search/?P=ELED-329>)

### floating courses

The following floating courses may be taken any time after Block 1 and before Block 4: ELED 304: Inquiry-Based Social Studies in the Elementary Grades, and BLBC 340: Methods of Teaching English Learners.

### licensure requirements

For students to be entitled by NEIU for the Illinois Professional Educator License (elementary grades 1-6), they must receive a "B" or better in student teaching and have passed the ILTS Elementary Grades Content Area Test # 305. ([http://www.il.nesinc.com/TestView.aspx?f=HTML\\_FRAG/IL305\\_TestPage.html](http://www.il.nesinc.com/TestView.aspx?f=HTML_FRAG/IL305_TestPage.html)) To be licensed by the Illinois State Board of Education, students must pass the Teacher Performance Assessment (edTPA).

Prior to student teaching, all Elementary Education majors must complete a minimum of 200 clock hours of clinical experience to be eligible for licensure in the State of Illinois. These clinical experiences (completed concurrently with BLBC-339 and ELED-306 (<http://catalog.neiu.edu/search/?P=ELED-306A>)) require placement in a public or private elementary school with a state-licensed teacher. To request placement for clinical experience, students must register in the Office of Clinical Experiences and Student Teaching (Please see the section Clinical Experiences, and Student Teaching in this catalog).

In order to be considered for Clinical Experiences, students must be admitted to Elementary Education Program. In addition, students must have completed courses in Block 1 (to take ELED 328A) and Block 2 (to take ELED 328B) and have a program GPA of 3.0 or higher.

To qualify for Student Teaching, students must maintain a minimum grade point average of 3.0 in the Professional Sequence and a 2.5 cumulative grade point average and have passed the ILTS Content Area Test. No required professional education course may be taken more than twice to achieve an acceptable grade. To be entitled for licensure by the State of Illinois, a student must earn a grade of "B" or better in Student Teaching.

## exit REQUIREMENTS FOR DEGREE COMPLETION

- Successful completion of all NEIU General Education Requirements.
- Minimum credit hours for degree: 120 credit hours.
- Maintain cumulative GPA of 2.5.
- Maintain professional sequence GPA of 3.0.
- Evidence of passing ILTS Content Area Test (<http://www.il.nesinc.com/>) in Elementary Education
- B Grade or better in Student Teaching

In addition to the successful completion of the Elementary Education major and area of concentration, students must complete the **general education** requirements for the College of Education. These requirements overlap with NEIU's General Education Requirements:

Code	Title	Hours
<b>General Education Requirements</b>		
<b>Fine Arts</b>		<b>6</b>
Select 6 credit hours from the General Education Program List		
<b>Humanities</b>		<b>9</b>
ENGL-205	Literatures And Literacies	
6 credit hours to be selected		
<b>Behavioral and Social Science</b>		<b>12</b>
HIST-214 or HIST-215	American History To 1877 American History Since 1877	
PSCI-216	American National Government	
GES-104	World Geography	
HIST-111C	World History: East Asia	
HIST-111D	World History: Latin America	
HIST-111E	World History: Africa	
HIST-111F	World History: Islam	
ANTH-212	Introduction To Cultural Anthropology	
<b>Biological &amp; Physical Sciences</b>		<b>10</b>
BIOS-110	Introduction To Biology For Educators	
ESCI-121	Introduction To Earth Science	
CHEM-110 or PHYS-110	Chemical Concepts Physics In Everyday Life	
Total hours		<b>37</b>

## General Education Requirements which are not on the Gen Ed List

Code	Title	Hours
ENGL-101	Writing I <sup>1</sup>	3
ENGL-102	Writing II <sup>1</sup>	3
CMTC-101 or CMTC-202	Public Speaking <sup>1</sup> Voice and Diction	3
MATH-149 & MATH-150	Math For Elementary Teachers I and Math For Elementary Teachers II With Problem Solving	9
<b>Total Hours</b>		<b>18</b>

<sup>1</sup> Must receive a grade of "C" or higher.

## EXIT REQUIREMENTS FOR LICENSURE

- Successful completion of Block 1-4 with evidence of passing score on the Teacher Performance Assessment (edTPA (<http://www.neiu.edu/academics/college-of-education/edtpa/>)).

It is recommended to consult with your advisor (<http://www.neiu.edu/academics/college-of-education/departments/teacher-education/>) at least once each semester.

This sample curricular map is provided to guide you in the planning of your progression for this major. This guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor.

# Major in Middle Level Education

---

## Program in Middle School Education

The Middle Level Education program (MLED) will provide students with the knowledge, skills, and dispositions to be successful teachers in grades 5-8. Candidates choose a minimum of one discipline to earn their endorsement from Social Studies, Math, Science, and/or Language Arts. Subject area endorsements require 21 hours of approved content courses in the discipline. MLED Candidates complete two clinical experiences in grades 5-8 classrooms totaling 200 hours and full-time student teaching in their endorsement area for 16 weeks. Candidates who complete the MLED program qualify for the Illinois Middle Grade Professional Educator License to teach in their endorsement area(s).

## Program Outcomes:

Students completing the Middle School Education major will:

1. Have the knowledge and skills to create dynamic, creative, critical, and developmentally responsive middle grade classrooms for the 21<sup>st</sup> century
2. Possess the skills and knowledge to design interdisciplinary curriculum based on inquiry, projects, authentic literacy, and standards
3. Work collaboratively with a middle grades team, parents, and the school and local community
4. Have a wide repertoire of teaching strategies for diverse middle grade students
5. Cultivate a safe and caring classroom community for all students
6. Teach culturally diverse and global knowledge
7. Integrate principles of social justice and active citizenship for democracy
8. Integrate technology in their classroom
9. Understand a variety of assessment strategies

NA no change

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6
<b>Humanities (HU)*</b> 3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	9
<b>Behavioral/Social Sciences (SB)*</b> 3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	9
<b>Natural Sciences (NS and NSL)**</b> 3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	9

### Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

**Discipline Specific (ELE-DS)**

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

**Boundary Crossing (ELE-X)**

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

**Math/Quantitative Reasoning (MA)**

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

- \* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.
- \*\* Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/graduation-requirements/bachelors-degree/>)

## Major in Middle-Level Education

Middle-Level Education students must complete the same NEIU General Education requirements that are currently required for Elementary Education students. However, MLED students may be required to take additional general education courses to complete their subject area endorsement(s).

The MLED professional program requires 48 credit hours for graduates with a Literacy endorsement and 51 credit hours for graduates with an endorsement in Math, Science, or Social Studies (in addition to any required general education courses to complete their endorsement). All MLED majors take all literacy methods courses (ELED 313, MLED 306, and WIP MLED 302) that are taken for the Literacy endorsement. Math, Science, and Social Studies candidates also take their endorsement area methods course (MLED 304 or MLED 305 or MLED 310).

## Degree and Program Completion/Entitlement Requirements

In order to graduate from the program and be entitled to state licensure, students must complete a minimum of 120 credit hours, which include the following requirements:

- University General Education Program Requirements
- Professional Education Coursework
- Approved Area of Concentration
- Additional Courses and Tests required for State Licensure (<https://www.isbe.net/Pages/Professional-Educator-License.aspx>)

## Required Professional Education Courses

Code	Title	Hours
EDFN-305	Philosophical And Historical Foundations Of Public Education	3
EDFN-319	Adolescent Development	3
ELED-308	Instructional Design	3
SPED-382	Strategies For Differentiating Instruction For Students With Exceptional Learning Needs	3
MLED-302	Writing Intensive Program: Foundations Of Teaching English Language Arts In Middle Grades	3
BLBC-339	Culturally Responsive Teaching in Diverse Classrooms	3
MLED-328A	Clinical Experience English Learners In Middle Grades	3
MLED-305	Methods Of Teaching Science In Middle School (Taken for Science endorsement only.)	
ELED-313	Literature And Literacy In The Content Areas	3
MLED-304	Inquiry-Based Social Studies In The Middle Grades (Taken for Social Studies endorsement only)	
MLED-310	Math Methods In The Middle Grades (Taken for Math endorsement only)	
MLED-306	Methods Of Literacy Education In Middle School	3
MLED-328B	Clinical Experience Literacy In Middle Grades	3

EDFN-350	Philosophy Of Curriculum Integration In Middle Grades (or MLED 350)	3
ELED-316	Critical Issues In Education	3
BLBC-340	Teaching English Learners In Diverse Classrooms	3
MLED-329	Student Teaching In The Middle School	9

## ELIGIBILITY FOR TEACHER CANDIDACY & THE MIDDLE-LEVEL EDUCATION PROGRAM

To register for Block One, students must have declared their majors and met the requirements for licensure candidacy in the Goodwin College of Education. Students should meet with program advisors to plan their programs before taking EDFN 319. Students should complete the necessary procedures to declare their majors before or while enrolled in EDFN 319.

Each block of courses must be completed before moving forward.

- Completion of a minimum of 60 hours or Junior status
- Completion of EDFN 305 and EDFN 319 with grades of B or better
- NEIU GPA of 2.5 or better
- Creation of an ELIS teacher licensure account, if one has not already been created, by visiting <https://www.isbe.net/Pages/Educator-Licensure-Information-System.aspx>.

### Block 1

Complete ELED 308, SPED 382, MLED 310 (for Math endorsement only) and MLED 302 with an average GPA of 3.0

- For approval to enroll in MLED 306 and MLED 328B, a disposition form with a rating of Satisfactory must be obtained from student's instructor in ELED 308. A second disposition form, also with a Satisfactory rating, must be obtained from the student's instructor of MLED 304, MLED 305 OR MLED 310. See Program Advisor for more information.
- Attend mandatory clinical information meeting and apply for Clinical Field Experience **clinical-experiences-and-student-teaching**.
- ELED 308 and MLED 302 must be completed with a "B" or better.

### Block 2

Complete BLBC 339, MLED 328A (with a grade of B or better), ELED 313, MLED 305 (for science endorsement only) **or** MLED 304 (for social studies endorsement only). Attend mandatory Student Teaching information session (<http://neiu.edu/academics/college-of-education/departments/clinical-experiences-and-student-teaching/pre-application-information-sessions/>) and apply (<http://neiu.edu/academics/college-of-education/departments/clinical-experiences-and-student-teaching/application-process/>) for Student Teaching field placement.

### Block 3

Complete MLED 306, MLED 328B (with a grade of B or better), ELED 316, MLED 350 **or** EDFN 350.

- Pass the ILTS Content Area Examination in the appropriate endorsement area--see program advisor.
- Attend mandatory CEST student teaching orientation meeting.

### Block 4

Complete Student Teaching (<http://neiu.edu/academics/college-of-education/departments/clinical-experiences-and-student-teaching/student-teaching/>) - MLED 329.

### Floating Courses

The following floating courses may be taken any time after Block 1 and before Block 4: BLBC 340: Methods of Teaching English Learners.

### Licensure Requirements

In order for students to be entitled by NEIU for the Illinois Professional Educator License (PEL) endorsed in middle school (grades 5-8), they must receive a "B" or better in student teaching. In order for students to be licensed by the Illinois State Board of Education, they must pass the Teacher Performance Assessment (edTPA).

Prior to student teaching, all Middle School Education majors must complete a minimum of 200 clock hours of clinical experience to be eligible for licensure in the State of Illinois. These clinical experiences (completed concurrent with BLBC 339 and MLED 306) require placement in a public or private school with a state licensed teacher. To request placement for clinical experience, students must register in the Office of Clinical Experiences and Student Teaching. (Please see the section, Clinical Experiences and Student Teaching in this catalog)

In order to be considered for Clinical Experiences, students must be admitted to the College of Education and accepted into the Middle School Education program. In addition, students must have completed courses in Block 1 (in order to take MLED 328A) and Block 2 (in order to take MLED 328B).

To qualify for Student Teaching, students must maintain a minimum grade point average of 3.0 in the Professional Sequence coursework and a 2.5 cumulative grade point average and have passed the ICTS Content Area Test. No required professional education course may be taken more than twice to achieve an acceptable grade. To be entitled for licensure by the State of Illinois, a student must earn a grade of "B" or better in student teaching.

#### EXIT REQUIREMENTS FOR DEGREE COMPLETION

- Successful completion of all NEIU General Education requirements
- Minimum credit hours for degree: 120 credit hours
- Maintain cumulative GPA of 2.5
- Maintain professional sequence GPA of 3.0
- Evidence of passing the content area test in the appropriate endorsement area
- B Grade or better in Student Teaching

In addition to the successful completion of the Middle School Education major and area of concentration, students must complete the **general education** requirements for the College of Education. These requirements overlap with NEIU's General Education Requirements.

#### General Education Requirements which are not on the Gen ED list:

Code	Title	Hours
ENGL-101	Writing I	3
ENGL-102	Writing II	3
CMTC-101 or CMTC-202	Public Speaking Voice and Diction	3
MATH-149	Math For Elementary Teachers I	4
MATH-150	Math For Elementary Teachers II With Problem Solving	5
<b>Total Hours</b>		<b>18</b>

#### EXIT REQUIREMENTS FOR LICENSURE

- Successful completion of Block 4.

It is recommended to consult with your advisor (<http://www.neiu.edu/academics/college-of-education/departments/teacher-education/>) at least once each semester.

This sample curricular map is provided to guide you in the planning of your progression for this major. This guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor.

# Master of Arts in Teaching in Early Childhood Education

---

## Program Overview

The Master of Arts in Teaching (<http://www.neiu.edu/academics/college-of-education/departments/teacher-education/>) (MAT) in Early Childhood Education is designed for students who are seeking a graduate degree and initial licensure to teach young children from birth to 2nd grade. The program also offers the opportunity to earn initial licensure without a graduate degree by enrolling in the Teacher Licensure program (TLP). The program provides a solid academic course of study as well as diverse, dynamic, and enriching learning experiences aimed at preparing high quality teachers who will provide young children with a strong 21st-century foundation for learning and development. Graduates of the program will acquire the knowledge, skills, and dispositions necessary for working effectively with typically and atypically developing children in diverse learning environments. The Masters degree with initial licensure program is composed of 36 credit hours designed to be completed in as few as five semesters, including one summer, while the Teacher Licensure only program (TLP) is composed of 33 credit hours.

### Goals of the Program

Graduates of the program will:

1. Acquire deep understanding of the process of human development and learning from birth to age 8 and become familiar with the field of Early Childhood Education through historical, philosophical, theoretical and practical perspectives as well as legislation impacting early childhood education and the critical role of families in the education of young children.
2. Develop enriched awareness of research in educating young children and understanding of how such research informs practice to make learning effective while also expanding the theoretical base of the field of early childhood education.
3. Build solid academic content knowledge, pedagogical content knowledge, and professional competencies appropriate for 21st century demands of effective teaching, assessment, ethics, and professionalism in the field of Early Childhood Education.
4. Experience working with young children and their families from diverse backgrounds and develop rapport with schools, communities and professional organizations such as the National Association for the Education of Young Children (NAEYC).
5. Develop a comprehensive set of skills in interpersonal, technological, pedagogical, and assessment domains in order to work effectively with young children at different developmental and ability levels in school settings and beyond.

## Requirements for Admission

1. Admission to the College of Graduate Studies and Research (CGSR)
2. A Bachelor's degree from an accredited college or university
3. A cumulative undergraduate GPA of 3.0 or higher on a 4-point scale
4. Two professional letters of recommendation from references who are conversant with the applicant's scholarship and potential as a teacher.
5. A one-page statement indicating reasons for applying to the program.

### NOTE:

1. Provisional admission to the program may be granted to an applicant whose cumulative undergraduate GPA falls slightly below the 3.0 requirement but who is otherwise highly qualified. Consideration will be made on an individual basis after an interview with the applicant.
2. The MAT ECED program admits students in the Fall semester only. It can be completed in 5 consecutive semesters, including one summer.
3. Candidates with experience in teaching young children in a group setting may qualify to have some of their clinical hours waived with documented evidence and as determined by the program.

## Transfer Credits

A maximum of 9 credit hours of graduate level coursework may be accepted into the program upon evaluation of the coursework and determination of equivalence in scope and content.

## Retention Requirements

- Maintain at least 3.0 GPA (4.0 Scale)
- Complete required coursework
- Pass ILTS Content Area Test (<http://www.il.nesinc.com/>) (Required before placement in ECED 429, Internship).

## EXIT REQUIREMENTS FOR THE MAT DEGREE completion:

1. Successful completion of the required courses (36 credit hours).
2. Completion of an action research project (ECED 507).
3. Passing the ILTS Early Childhood Education Content Area Test 206.
4. Passing ECED 529 (16 week full-time internship in ECED) with a grade of B or higher.
5. Minimum overall GPA of 3.0.

## Requirements for Retention

In order to proceed through the program without interruption, candidates are expected to:

1. Maintain a GPA of 3.0 or above throughout the program
2. Earn a grade of "B" or higher in each of the clinical experiences (ECED 527A & 527B) prior to student teaching, as required by ISBE
3. Earn acceptable ratings in the review of candidate dispositions and professional behavior
4. Progress satisfactorily toward program completion
5. Earn a passing score on Illinois State Content Exam prior to student teaching
6. Adhere to the university's graduate policies as documented in the CGSR's section of the catalog, and the Graduate Student Handbook

## Clinical Experience

The MAT (ECED) program has two clinical experiences that must be successfully completed prior to student teaching - ECED 527A and ECED 527B.

Candidates complete 80 hours at two levels in the first clinical ECED 527A. There will be a 30-hour placement with infants and toddlers and 50 hours with preschoolers. This clinical provides the opportunity to observe the rapid development of children in all domains, and to plan and implement engaging activities that are appropriate for each level. In the second clinical, ECED 527B, candidates are placed in a school setting for a 80 hour clinical. This provides the opportunity to plan and implement lessons in a Kindergarten, 1st or 2nd grade classroom, all under the guidance of a Cooperating Teacher in the field and a university supervisor.

NOTE:

Candidates with experience in teaching young children in a group setting may qualify to have some of their clinical hours waived with documented evidence and as determined by the program.

## Student Teaching

Student teaching is completed over 16 weeks of full time, full day teaching experience. Placements for the Clinical Experiences and student teaching are made by the Clinical Experiences and Student Teaching (CEST) office. Candidates are required to complete a criminal background check prior to placement for clinical and student teaching.

## Requirements for Degree Completion

1. Successful completion of all coursework with a minimum GPA of 3.0.
2. Successful completion of clinical experiences and student teaching with a grade of "B" or higher

## Requirements for Degree Completion and Entitlement

Successful completion of all degree requirements.

Requirements for the MAT in Early Childhood Education (ECED)

The Master of Arts in Teaching (MAT) is a 36-credit hour program, and the Teacher Licensure Program (TLP) is a 33-credit hour program. Course requirements are listed below.

All courses are required for Both MAT and TLP except for ECED 507, which is required for the MAT only.

Code	Title	Hours
Fall 1		
Block 1		

ECED-502	Theories, Philosophies And Technologies Informing Early Childhood Education And Assessment	3
ECED-503	Early Childhood Curriculum And Assessment	3

# Master of Arts in Teaching in Elementary Education

---

The Master of Arts in Teaching (MAT) (<http://www.neiu.edu/academics/college-of-education/departments/teacher-education/>): Elementary Education Program is designed for students with a Bachelor's degree in a field other than education who want to become elementary school teachers. Upon successful completion of our MAT program and passing scores on all required state proficiency tests, students will obtain a graduate degree and State of Illinois 1-6 teaching license. All MAT courses meet in the late afternoon and evening with a pre-set class schedule and sequence to allow students to complete the program in six semesters.

Each semester has students focusing on a specific educational theme: Teacher as Learner; Literacy Across the Curriculum; Teaching for Human Diversity; Curriculum & Schooling Past, Present, and Future; and Inquiry Through the Content Areas. For two semesters, students are connecting those themes to their clinical teaching experiences in 1-6 classrooms. In total, the MAT program includes 200 hours of clinical teaching prior to a semester of full-time student teaching within a 1-6 grade level range.

The MAT program is designed to prepare teachers with the knowledge, skills, and dispositions to create dynamic, student-centered classrooms for the 21st century. As designers of creative and critical curriculum, students will learn to truly engage their students in an exploration and understanding of our fascinating, complex, and diverse world. The MAT program has an emphasis on teaching for cultural diversity, teaching diverse students, project- and inquiry-based teaching, authentic literacy across the curriculum, technology integration, and 21st century skills.

## Bilingual Education Endorsement

Candidates in the MAT in Elementary Education program who want to add Bilingual Education and ESL endorsements need to pass a Language Proficiency Test (TLP) ([http://www.il.nesinc.com/PageView.aspx?f=GEN\\_Tests.html](http://www.il.nesinc.com/PageView.aspx?f=GEN_Tests.html)), complete one of the clinical experiences (ELED 428 or 428C) in a bilingual setting, and the following 12 credit hours:

- Foundations of Bilingual Education
  - BLBC 438 Foundations of Bilingual Education (3 hours)
- Assessment of Bilingual Students
  - BLBC 442 Assessment in Multilingual Classrooms (3 hours)
- Methods and Materials for Teaching Limited English Proficient Students in Bilingual Programs
  - BLBC 441 Methods of Teaching Content in Bilingual Classrooms (3 hours)
- Linguistics
  - TESL 402 Principles of Linguistics for Teachers (suggested to be able to add the ESL endorsement) (3 hours)

(\*) Course is part of the MAT in Elementary Education program

### NOTE:

The MAT ELED Program is a Fall admit program that can be completed in seven consecutive semesters.

### NOTE:

Per ISBE requirements, all students admitted into the program **before September 1, 2015** must complete their ELED or ELED/BLBC program by **September 1, 2018** or be subjected to the requirements of the new program. Students must also apply for licensure **and be entitled by September 1, 2019**.

Students who are unable to complete the program by September 1, 2018, will have to be re-admitted to the new program, have transcripts evaluated, and may have to take additional coursework.

## Admission Requirements

Applicants must meet the general requirements for admission to the College of Graduate Studies and Research. Students entering the graduate program are not expected to have any prior preparation or knowledge the field. In addition, applicants must provide:

- 2 letters of professional recommendation
- a cumulative undergraduate GPA of 3.0
- MAT program application and writing sample

## State Teacher Tests and Endorsements

According to Illinois state law, MAT students are required to pass: the Content-Area Test (#197-200) through 3/13/2022 or #305 after 3/16/2020 and the Teacher Performance Assessment (edTPA (<http://www.neiu.edu/academics/college-of-education/edtpa/>)). See your MAT Elementary Education program advisor (<http://www.neiu.edu/academics/college-of-education/departments/teacher-education/>) for more information regarding edTPA. More information is available at: Licensure Testing System (<https://www.il.nesinc.com/>).

## Requirements for the MAT in Elementary Education (ELED)

Code	Title	Hours
BLBC-439	Cultural Diversity In Our Schools	3
ELED-501	Curriculum And Instruction	1
EDFN-443	Integrating Media Technology Into Elementary Classroom	3
LTCY-501 or LTCY-402	Literacy Instruction In Primary And Elementary Grades Literacy Instruction Across Grades	3
SPED-404	Survey Of The Field Of Special Education	3
EDFN-406	Human Development And Learning	3
ELED-525	New Literacies For The 21st Century	3
EDFN-405	Development Of Educational Thought	3
ELED-504	Teaching Writing: Purpose, Voice, Craft	3
ELED-435	Children's And Young Adult Literature	3
BLBC-440	Methods For Teaching English Learners In Diverse Classrooms	3
ELED-428	Clinical Teaching	1
ELED-403	Teaching Mathematics In Elementary Grades	3
ELED-415	Teaching Science As Inquiry In Elementary Grades	3
ELED-416	Teaching Social Studies As Inquiry In Elementary Grades	3
ELED-428C	Clinical Teaching: Content Areas	1
ELED-429	Internship In Elementary Education	6
<b>Total Hours</b>		<b>48</b>

## ADDITIONAL REQUIREMENTS FOR BILINGUAL AND ESL ENDORSEMENTS

Code	Title	Hours
BLBC-438	Foundations Of Bilingual Education	3
BLBC-441	Methods For Teaching Content In Bilingual Classrooms	3
BLBC-442	Assessment In Multilingual Classrooms	3
TESL-402	Principles Of Linguistics For Teachers	3

## Clinical Experience

The MAT-ELED program has two clinical experiences prior to student teaching, ELED-428 (<http://catalog.neiu.edu/search/?P=ELED-428B>), and ELED-428C (<http://catalog.neiu.edu/search/?P=ELED-428C>). Both clinicals are a combination of classroom observation and teaching. Each clinical experience is connected to the courses taken during the term. Discussion and assignments for the clinical experiences are integrated into the courses.

The ELED-428 (<http://catalog.neiu.edu/search/?P=ELED-428A>) clinical experience takes place in grades 1-4; students will be observed teaching by their university supervisor a minimum of three times. For the 428C clinical, the student is placed in a 3-6 classroom, and is observed teaching by their university supervisor a minimum of three times.

## STUDENT TEACHING

Student teaching is full day for 16 weeks. Students will be observed teaching by their university supervisor a minimum of five times. Passing scores on the Content-Area Test (<http://www.il.nesinc.com/>) are required for admission into student teaching.

## EXIT REQUIREMENTS FOR DEGREE COMPLETION

Successful completion of all program coursework, clinical experiences and student teaching. Successful completion of Professional Education sequence courses and requirements. Successful completion of an Exit Project: Teacher as a Learner Project (TLP).

## EXIT REQUIREMENTS FOR PROGRAM COMPLETION/ENTITLEMENT

Successful completion of all exit requirements for degree completion.

This sample curricular map is provided to guide you in the planning of your progression for this major. This guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor.

(\*) Students enrolled in the MAT in Elementary Education with Bilingual Endorsement must complete 4 additional courses in order to obtain Bilingual and ESL endorsements.

# Master of Arts in Teaching in Middle Level Education

---

The Master of Arts in Teaching in Middle Level Education program provides students with the graduate level knowledge, skills, and dispositions to be successful teachers in grades 5-8. Students choose at minimum one disciplinary area to earn their endorsement from social studies, math, science, or literacy (language arts). Subject area endorsements require 21 hours of approved content courses in the discipline. MAT/MLED Candidates complete 200 hours of clinical experience in grades 5-8 and full time student teaching in their endorsement area for 16 weeks. Candidates who complete the MLED program qualify for the Illinois Middle Grade Professional Educator License to teach in their endorsement area.

## Program Outcomes:

- Have the knowledge and skills to create dynamic, creative, critical, and developmentally responsive middle grade classrooms for the 21st century.
- Possess the skills and knowledge to design interdisciplinary curriculum based on inquiry, projects, authentic literacy, and standards.
- Work collaboratively with a middle grades team, parents, and the school and local community.
- Have a wide repertoire of teaching strategies for diverse middle grade students.
- Cultivate a safe and caring classroom community for all students.
- Teach culturally diverse and global knowledge.
- Integrate principles of social justice and active citizenship for democracy.
- Understand the theory and practice of teaching critical thinking and critical literacy.
- Integrate technology in their classroom
- Understand and integrate required standards into their classroom curriculum.
- Understand a variety of assessment strategies.
- Have graduate level knowledge and skills required to pursue a terminal degree.

## Admission Requirements

Applicants must meet the general requirements for admission to the College of Graduate Studies and Research. Students entering the graduate program are not expected to have any prior preparation or knowledge in the field. In addition, applicants must provide:

- 2 letters of professional recommendation
- MAT program application and writing sample
- GPA in undergraduate work of 2.75 on a 4.0 scale
- 21 credits in the endorsement content area (*If a student does not have 21 credits in their endorsement area, a Conditional Admission may be given by the program*)

Courses in the MAT/MLED program are grouped in themes. This allows students to study ideas in-depth, focus on curricular areas each semester and make powerful connections between courses. Students have two clinical teaching experiences that are spread across the program totaling 200 hours. Each clinical is connected to the courses and theme in the respective semester. In the final semester, students complete full-time Student Teaching for 16 weeks in the middle grade classroom in their endorsement area.

The MAT/MLED program requires 45 hours for graduates with a Literacy endorsement and 48 hours for graduates with an endorsement in Math, Science, or Social Studies. The 3 hour difference is because teachers in the "content areas" (Math, Science, and Social Studies) must also possess pedagogical content knowledge to teach literacy across the curriculum. This means that MAT/MLED students will take all literacy methods courses and then Math, Science and Social Studies candidates will also take the content area methods course, which adds 3 hours to the program.

After students have completed the MLED program sequence, they can choose to earn an ESL or Bilingual endorsement by taking the required courses. Bilingual Endorsement also requires passing the Test of Language Proficiency as required by the State of Illinois Board of Education.

## State Teacher Tests and Endorsements

According to Illinois State law, MAT students are required to pass: the Content- Area Test and the Teacher Performance Assessment (edTPA). See your MAT Middle Level Education program advisor for more information regarding edTPA. More information is available at: <http://www.il.nesinc.com> and <https://www.isbe.net/Pages/Educator-Licensure.aspx>

***Program undergoing curricular revisions. Please check with department for more info.***

## MAT in MLED requirements:

Code	Title	Hours
<b>Required courses:</b>		
BLBC-439	Cultural Diversity In Our Schools	3
ELED-501	Curriculum And Instruction	1
EDFN-442	Media Technology For Educators	3
LTCY-513	Literacy Instruction For Middle Level Grades	3
SPED-404	Survey Of The Field Of Special Education	3

MLED-450	Interdisciplinary Curriculum Design In Middle School	3
or EDFN-450	African Studies Institute (AfSI)	
LTCY-502	Disciplinary Literacy Instruction In Secondary Grades	3
MLED-428C	Clinical Experience Endorsement Areas In The Middle Grades	1
MLED-403	Methods Of Teaching Mathematics In Middle School	3
or MLED-415	Teaching Science As Inquiry In Middle School	
or MLED-416	Social Studies As Inquiry In The Middle Grades	
MLED-429	Internship In The Middle Grades	6
<b>Total Hours</b>		<b>48</b>

For candidates with an endorsement in Math, Science, or Social Studies, MLED 403 or MLED 415 or MLED 416 must be taken.

## State Teacher Tests and Endorsements Requirements

According to Illinois State law, MAT students must have a passing score on the Content-Area Test in the content areas they are seeking endorsements prior to student teaching. See your MAT Middle Level Education program advisor for more information regarding these State requirements. More information is available at: <https://www.isbe.net/Pages/Educator-Licensure.aspx>

## Retention Requirements

- Maintain a GPA OF 3.0 in MLED program sequence
- Two satisfactory professional disposition assessments
- No more than two (2) C's in coursework and a B or better in all clinical experiences
- Passing score on the Illinois Content Area Test in the endorsement area prior to Student Teaching

## Exit Requirements for Degree Completion

- Successful completion of all program courses
- Completion of 21 hours of content courses in the endorsement area
- Satisfactory completion of student teaching with a grade of B or better
- Satisfactory presentation of Teacher as a Learner project in ELED 429 Student Teaching in Middle Grades

## Exit Requirements for Program Completion/Entitlement

- Successful completion of all exit requirements for degree completion.

## Teacher Licensure option (non-degree)

NEIU has been approved to offer a Teacher Licensure Option (TLP) in Middle level education grades 5-8 with endorsements in the following areas:

Language Arts

Mathematics

General Science

Social Science

TLP candidates will complete all of the exit requirements program completion/entitlement.

This sample curricular map is provided to guide you in the planning of your progression for this major. This guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor.

# Master of Arts in Teaching in Secondary Education (GL13)

---

The Master of Arts in Teaching (MAT) and Teacher Licensure Programs (TLP) in Secondary Education have been designed for students who wish to obtain initial teacher licensure as part of a Master's Degree, or licensure only. Candidates will enter the program as part of a cohort (in one of four areas: Language Arts, Social Science (History), Mathematics, or Science (Biology, Chemistry, Physics, or Earth Science), and have the opportunity to both work collaboratively with candidates in other disciplines and intensively with those in their own discipline. Candidates will be eligible to apply for licensure following their third semester of full-time coursework, and have the option of completing their MAT as either full- or part-time students. Candidates who opt for the TLP will finish with licensure, but no degree.

The 31-credit TLP and 37-credit MAT program have three components of coursework:

- A professional core in the area of educational foundations, curriculum and instruction, adolescent development, literacy, educational technology and research (15 credit hours, including 20 hours of community-based experiences).
- A content-specific curriculum and pedagogy sequence (7 credit hours, including 80 hours of clinical experiences).
- Student teaching plus seminar (9 credit hours, including a 16 week, full-time student teaching internship and a reflective seminar. Per Illinois State Board of Education Policy, candidates will also complete and submit their edTPA performance assessment during their student teaching semester).

MAT students also complete research and elective courses, including options such as teaching English as a Second Language, Educational Foundations, Multicultural Education, Special Education, Middle Level education, and graduate-level content areas courses (6 credit hours, including one elective and one MAT research course).

MAT and TLP candidates will be eligible for their initial Professional Educators License (PEL) and endorsement after successfully completing their student teaching internship and state licensure requirements. MAT candidates will earn their degree after completing all 37 graduate credits. Some candidates may be eligible for course waivers or additional endorsements based upon their prior content-area, undergraduate, or elective coursework; program advisors will work with candidates to determine whether they qualify for any of these options.

The Master of Arts in Teaching in Secondary Education and Teacher Licensure Programs provide a direct pathway to high school teaching. Both NEIU students and those who have earned a Bachelor's degree from another accredited institution can pursue their teaching goals here.

## ACCELERATED PROGRAM FOR UNDERGRADUATES AT NEIU

NEIU offers an Accelerated Concentration Program in Secondary Education for undergraduate students. In the middle of their junior year, after 72 credit hours are earned from their undergraduate studies, students may apply for an Accelerated Concentration Program in Secondary Education. Once admitted to this program, undergraduate students can complete up to 12 credits in coursework that can be applied to both their undergraduate degree and their Master of Arts in Teaching or Teacher Licensure Program.

### Admission Requirements

- Bachelor's degree from a regionally-accredited university as documented by submission of official transcripts, with undergraduate GPA of 3.0 or greater on a 4-point scale
- Undergraduate major in subject area of desired endorsement OR equivalent coursework to meet ISBE requirements for desired endorsement area. (Candidates who require no more than 2 additional content-area courses may be conditionally admitted but must fulfill their content-area requirements prior to student teaching)
- Admission to the College of Graduate Studies and Research (CGSR)
- 1-2 page statement detailing reasons for applying to the program in their desired content area
- 15-30 minute personal interview

### Retention Requirements

- Program GPA of 3.0, with no more than 6 credits of "C" grades, and no grades lower than "C"
- Successful completion of content deficiencies
- Grade of "B" or "A" for pre-student teaching clinical experience, prior to student teaching
- Satisfactory progress toward program completion, as defined by the College of Graduate Studies and Research
- Satisfactory progress on MAT Program Portfolio (MAT only)
- Satisfactory review from faculty disposition assessments
- Passing score on Illinois State Content Exam prior to student teaching
- Passing score on Illinois Basic Skills requirement at the start of the semester before student teaching (i.e., the first week of September for Spring Student Teaching and the first week of January classes for Fall Student Teaching)

## Program Completion/Licensure Requirements (TLP and MAT)

- Successful completion of all coursework with GPA of 3.0 or better
- Grade of “B” or “A” for student teaching internship
- Passing score on Illinois state-required teacher performance exam, e.g., edTPA

## MAT Only Completion Requirements

- Successful completion of MAT Program Portfolio
- Successful completion of SCED 421: Action Research in Schools and one graduate elective course
- Satisfactory final review from faculty disposition assessment

## Criminal Background Check

Candidates are required to complete a criminal background check prior to school placement for clinicals and student teaching. More information can be obtained from the CEST Office.

## Changes in Licensure Requirements

The Illinois State Board of Education makes changes to licensure requirements from time to time, and the Program will be required to reflect such changes. As of the printing of this catalog, teacher preparation program candidates are required to pass their appropriate State of Illinois Content Area Test to be licensed. In addition, per the Illinois School Code, the edTPA has been paused as a licensure requirement until September 2025. The program will provide information on testing.

High school teachers in Illinois must have both significant content area coursework and education pedagogy preparation. The MAT and TLP course sequences provide the education background needed to earn entitlement for licensure in English, history, mathematics, or science (biology, chemistry, earth science, or physics). Additional endorsements can be added in other disciplines or in middle school education.

## Requirements for the degree

The Master of Arts in Teaching (MAT) is a 37-credit hour program, and the Teacher Licensure Program (TLP) is a 31-credit hour program based on the courses listed below.

### Required for Both MAT and TLP (31 hours)

Code	Title	Hours
EDFN-409	Individual Differences And Educational Practice	3
EDFN-415	Educational Thought And Secondary Schooling	3
EDFN-452	Technology In Content Area Teaching	1.5
LTCY-502	Literacy Instruction In Content Areas In Secondary Grades	3
<b>One of the following disciplinary methods courses:</b>		<b>3</b>
SCED-402E	Methods Of Teaching English Language Arts In Secondary Schools	
SCED-402H	Methods Of Teaching History And Social Sciences In Secondary Schools	
SCED-402M	Methods Of Teaching Mathematics In Secondary Schools	
SCED-402S	Methods Of Teaching Science In Secondary Schools	
<b>One of the following disciplinary advanced methods courses:</b>		<b>3</b>
SCED-403E	New Directions In Teaching English Language Arts In Secondary Schools	
SCED-403H	New Directions In Teaching History In The Secondary Schools	
SCED-403M	New Directions In Teaching Mathematics In Secondary Schools	
SCED-403S	New Directions In Teaching Science In Secondary Schools	
<b>One of the following clinical courses:</b>		<b>1</b>
SCED-404E	Clinical Experience In Secondary Schools: English Language Arts	
SCED-404H	Clinical Experiences In Secondary Schools: History	
SCED-404M	Clinical Experience In Secondary Schools: Mathematics	
SCED-404S	Clinical Experiences In Secondary Schools: Science	
SCED-415	Introduction To Secondary School Curriculum	3
SCED-429	Student Teaching In Secondary Schools	6
SCED-430	Student Teaching Seminar: Reflection And Assessment Of Student Learning	3

SPED-417	Inclusive Teaching Strategies For Secondary Teachers	1.5
<b>Total Hours</b>		<b>31</b>

**Additional Requirements for MAT only (6 hours)**

Code	Title	Hours
SCED-421	Research In Teaching In Middle And Secondary Schools <sup>1</sup>	3
One Elective (ex. SCED, SPED, EDFN, LTCY, TESOL, or Academic Discipline)		3
<b>Total Hours</b>		<b>6</b>

<sup>1</sup> SCED 421 will address research at the 9-12 level only, as the State of Illinois has eliminated 6-12 Secondary Education licensure in favor of separate licensure for 9-12 and 6-8.

This sample plan of study is provided to guide you in your planning and represents a full-time course load. Each block of courses can, however, be split for students who wish to attend part-time. This guide should not replace regular consultations with your program advisor. For specific recommendations of possible elective courses or additional major concentration courses not identified, please consult your program advisor.

**First Year**

Term 1		Hours
EDFN-415	Educational Thought And Secondary Schooling	3
SCED-415	Introduction To Secondary School Curriculum	3
LTCY-502	Disciplinary Literacy Instruction In Secondary Grades	3
Choose one of the following discipline-specific methods courses: SCED-402E, SCED-402H, SCED-402M, or SCED-402-S		3
<b>Term Hours</b>		<b>12</b>

Term 2		Hours
EDFN-409	Individual Differences And Educational Practice	3
SPED-417	Inclusive Teaching Strategies For Secondary Teachers	1.5
EDFN-452	Technology In Content Area Teaching	1.5
Choose one of the following discipline-specific advanced methods courses: SCED-403E, SCED-403H, SCED-403M, or SCED-403-S		3
Choose one of the following discipline-specific clinical courses: SCED-404E, SCED-404H, SCED-404M, or SCED-404-S		1
<b>Term Hours</b>		<b>10</b>

**Second Year**

Term 1		Hours
SCED-429	Student Teaching In Secondary Schools	6
SCED-430	Student Teaching Seminar: Reflection And Assessment Of Student Learning	3
<b>Term Hours</b>		<b>9</b>
<b>Total Hours:</b>		<b>31</b>

**Upon completing the plan of study above, MAT and TLP candidates will be eligible to apply for teacher licensure through the State of Illinois.**

**MAT candidates must complete the additional credits below to receive their degree. The elective may be taken at any point in the program; the research course (SCED 421) may be taken concurrently with or after successful completion of the advanced methods course (SCED 403) and clinical experience (SCED 404).**

Second Year		Hours
Term 2		
SCED-421	Research In Teaching In Middle And Secondary Schools	3
One Elective (ex. SCED, SPED, EDFN, LTCY, TESOL, or Academic Discipline)		3
<b>Term Hours</b>		<b>6</b>
<b>Total Hours:</b>		<b>6</b>

# Master of Science in Teaching & Inquiry

The Master of Science in Teaching & Inquiry (MSTI) Program is designed for licensed PreK-12 teachers with a minimum of one year of successful teaching experience in their own classroom. The MSTI program is designed to cultivate teachers who are critical, creative change agents. Students will develop 21<sup>st</sup> century classroom curricula and demonstrate progressive, inquiry-based teaching competencies.

## Admission Requirements

- An undergraduate Bachelor's degree from an accredited university or college.
- Current and valid state teacher licensure.
- Two letters of recommendation as part of the program application. One must be written by a teacher or administrator at the applicant's school or a previous school.
- A minimum of one year of successful PreK-12 teaching in their own classroom.
- A 400-word essay as part of the program application (<http://neiu.edu/academics/graduate-college/>).

## Requirements for the MSTI Degree

Code	Title	Hours
ELED-506	Research Methodologies For Classroom Teachers	3
ELED-508	Action Research Project	3
ELED-520	Curriculum And Inquiry	3
ELED-525	New Literacies For The 21st Century	3
BLBC-439	Cultural Diversity In Our Schools	3
5 Elective Courses		15
<b>Total Hours</b>		<b>30</b>

### Teacher Action Research Project

In ELED 506 Research Methodologies for Classroom Teachers (in Term 4) students choose a focus for their Teacher Action Research Project and write a Literature Review, design their research study, and write their Methodology. In ELED 508 (in Term 5) students carry out their Teacher Action Research Project. If a student is not currently in a classroom, an alternative program capstone project is designed and approved with the MSTI Advisor. Students will write their research as an Action Research Paper and share their project in a presentation in the MSTI Teacher Action Research Forum. All current MSTI students attend the Action Research Forum.

## EXIT REQUIREMENTS FOR DEGREE COMPLETION

- Successful completion of all core and elective courses with a minimum cumulative GPA of 3.0
- Teacher Action Research Project
- Teacher Action Research Project Presentation

## endorsement requirements (optional)

If students choose to pursue an endorsement with their electives as part of the MSTI Program they must successfully complete all endorsement courses and any tests required by the State of Illinois. See more information on the ISBE Website (<http://www.il.nesinc.com/>).

This sample curricular map is provided to guide you in the planning of your progression for this major. This guide should not replace regular consultations with your program advisor. For specific recommendations of courses not identified, please consult your program advisor.

# Master of Science in Instruction in Language Arts (GL06)

---

The MS in Instruction in Language Arts: Secondary Education Program is designed to offer professional development to classroom teachers who are interested in updating and refining their teaching competencies in the area of English Language Arts instruction at the secondary level. Graduates of this program will have updated and advanced knowledge of the theoretical foundations of literacy and language acquisition, principles of curriculum planning and development, and language arts research, as well as instructional strategies for enhancing young people's acquisition of reading, writing, listening, and speaking competencies in culturally diverse classrooms. Throughout the program, there is an emphasis on enhancing teachers' leadership skills in developing and implementing language arts and English curricula.

Within this program, students complete coursework in two areas:

- a professional core composed of coursework in literacy foundations (theory and pedagogy), curriculum development, cultural diversity, assessment, media technology, and research: 18 credit hours
- a concentration in language arts with interdisciplinary coursework in education, reading/literacy, English, linguistics, and/or speech: 18 credit hours

## Admission Requirements

- A minimum undergraduate GPA of 2.75 (4.0 scale)
- A current, valid, state teaching license
- Eighteen (18) credit hours undergraduate or graduate coursework in English literature/composition, linguistics, TESL, and/or speech
- Fifteen (15) credit hours of undergraduate or graduate coursework in education with at least one, 3 credit hour course in the methods of teaching reading or English
- Completed application with two letters of recommendation and official transcripts

## Requirements for the degree

### Course Sequence and Exit requirements: 36 credit hours

Code	Title	Hours
1. Professional Core		
EDFN-416	Cultural Pluralism And Schools	3
SCED-401E	New Directions In Teaching English In The Junior And Senior High School	3
ELED-430	Trends And Issues In Assessment	3

# Minor in Bilingual Education

---

The Minor in Bilingual Education, when combined with an education major leading to a teaching license: Early Childhood (birth to 2nd grade), Elementary (1<sup>st</sup> to 6<sup>th</sup> grade), Middle Level (5<sup>th</sup> to 8<sup>th</sup> grade), Secondary (9<sup>th</sup>-12<sup>th</sup> grade), Physical Education (K-12<sup>th</sup> grade), or Special Education (K-age 21), prepares individuals to work with English learners in bilingual settings within the grade range of their initial endorsement.

In order to obtain a Bilingual Endorsement, students completing a Minor in Bilingual Education must do one of their clinical experiences in a bilingual classroom and pass a state test of language proficiency.

## University Core Curriculum Requirements

General Education Distribution Area	Cr. Hrs.
<b>Fine Arts (FA)*</b> 2 courses, from at least two of the following areas of study: Art, CMT (Mass Media or Theatre), Music (includes Dance).	6
<b>Humanities (HU)*</b> 3 courses, from at least two of the following areas of study: CMT (Communication), English, Linguistics, Philosophy, Women's and Gender Studies, World Languages and Cultures, (Note: No more than two foreign language courses may be used to fulfill this requirement.)	9
<b>Behavioral/Social Sciences (SB)*</b> 3 courses, from at least two of the following areas of study: African & African American Studies, Anthropology, Computer Science, Economics, Geography & Environmental Studies, History, Justice Studies, Latino & Latin American Studies, Political Science, Psychology, Sociology, Social Work	9
<b>Natural Sciences (NS and NSL)**</b> 3 courses, from at least two of the following areas of study; one course must have a laboratory component (NSL): Biology, Chemistry, Earth Science, Environmental Science, Physics (Note: If an FYE ANTH that counts as Natural Science is taken, only one Biology course may be used for Natural Science).	9

### Engaged Learning Experiences

Students must complete, at Northeastern, three courses designated as Engaged Learning Experiences courses. One of the Engaged Learning Experiences courses must be at the 300-level, and one Engaged Learning Experiences course must be designated as "Boundary Crossing".

#### Discipline Specific (ELE-DS)

These courses have pre-requisites that are specific courses within a program of study. Discipline Specific courses give students a deeper understanding of how knowledge is created and applied in their field.

#### Boundary Crossing (ELE-X)

These are courses that cross disciplinary boundaries and/or cross boundaries through engagements outside the classroom or University allowing students to see how knowledge gained in one field might inform other fields or other aspects of society.

### Math/Quantitative Reasoning (MA)

1 Math course, that has intermediate Algebra as prerequisite OR is a course listed on the General Education Distributive Learning List of Approved Courses. Any 3 hour college level math course, beyond Intermediate Algebra, meets this requirement.

\* Majors in Fine Arts, Humanities or Social/Behavioral Sciences, may waive up to 6 credit hours of General Education requirements in the corresponding distribution area.

\*\* Majors in Natural Sciences may waive up to 9 credit hours of General Education requirements in the Natural Sciences distribution area.

Students should also be aware of all other university requirements to obtain a degree - NEIU requirements (<http://catalog.neiu.edu/graduation-requirements/bachelors-degree/>)

## Minor in Bilingual Education

Code	Title	Hours
<b>Required Courses</b>		
BLBC-338	Bilingualism And Education	3
BLBC-339	Culturally Responsive Teaching in Diverse Classrooms	3
BLBC-340	Teaching English Learners In Diverse Classrooms	3
BLBC-341	Methods of Teaching in Bilingual Classrooms	3
BLBC-342	Assessment In The Bilingual Classroom	3
TESL-301	The English Language For Teachers	3
<b>Total Hours</b>		<b>18</b>

Pass the Illinois State Test of Language Proficiency.

# STEM Teacher Mentorship and Leadership Graduate Certificate

Northeastern Illinois University's Graduate Certificate in STEM Teacher Mentorship and Leadership prepares experienced science, technology, engineering and math teachers to mentor, develop and support new middle and secondary level STEM educators. Approaches used within the program center place-based and culturally responsive learning as well as restorative justice practices. The program requires students to complete 24 credits in a course sequence that draws from multiple programs in the Colleges of Education and Arts and Sciences.

Individuals who wish to study in the Graduate Certificate in STEM Teacher Mentorship and Leadership program must fulfill the requirements for admission to the College of Graduate Studies & Research and apply to the STEM Teacher Mentorship and Leadership Graduate Certificate program. Requirements to the College of Graduate Studies & Research are:

1. Bachelor's degree completed with a minimum undergraduate grade point average of 3.0. and a valid Professional Educator License with an endorsement in math or science is required with submission.
2. Possess an undergraduate degree from a regionally accredited college or university.
3. A completed graduate application accompanied by a \$30 fee.

Additionally, the STEM Teacher Mentorship and Leadership Graduate Certificate program requirements are:

1. A minimum of three full-time years of prior teaching experience.
2. A current résumé.
2. Two letters of recommendation (colleague, student, and/or principal).
3. Essay responses (applicants will be provided with prompt questions).
4. Interview (virtual or in person).

An application is reviewed only if all application materials are received by Graduate Admissions by the deadline date for the semester indicated on the application.

The STEM Teacher Mentorship and Leadership Graduate Certificate requires 24 graduate credits.

# Teacher Licensure Program (TLP) and Focused Programs

---

## Teacher Licensure Program (TLP) for Post-Baccalaureate Students

This program is designed for returning students with degrees in fields other than education who wish to obtain teaching licensure in the following areas:

- Early Childhood Education, Grades B-2
- Elementary Education, Grades 1-6
- Elementary Education with Bilingual Endorsement 1-6
- Middle-Level Education, Grades 5-8
- Secondary Education, Grades 9-12
  - Biology
  - Chemistry
  - Earth Science
  - English
  - History
  - Mathematics
- Grades PK-12
  - Art
  - Music Education
  - Physical Education
  - World Languages: Spanish

The coursework consists of blocks of undergraduate courses and/or graduate courses that do not lead to a master's degree. (EXCEPTION: there is an option for combining certification with a Master's Degree in content-specific areas. Contact the College of Graduate Studies and Research for details.)

### Admission Requirements:

- Bachelor's degree from a regionally accredited college or university.
- Minimum GPA as required by the endorsement area.
- Evaluation of content coursework for admission into B-2, 1-6, 5-8, 9-12, or PK-12 TLP.

NOTE: Returning students interested in Elementary Education licensure with Bilingual endorsement may instead pursue a Master of Arts in Elementary Education with Bilingual Endorsement. Contact the Teacher Education Department at 773-442-5380.

Returning students interested in Secondary Education licensure may instead pursue a Master of Arts in Teaching: Secondary Education. See the Graduate Programs section of the Educational Inquiry and Curriculum Studies Department (EICS) in this catalog for admission and program requirements. Contact EICS at 773-442-5586.

Returning students interested in Physical Education licensure may contact the Department of Health Science and Physical Education at 773-442-5560.

**State teacher examinations:** Program students must pass the appropriate ILTS (<http://www.il.nesinc.com/>) content-area test prior to student teaching (e.g. Elementary Education, Biology). Students must also pass the Teacher Performance Assessment (edTPA (<http://neiu.edu/academics/college-of-education/edtpa/>)) for program completion/entitlement. Information on these tests is available from the TLP Advisors, Ms. Ulisa Blakely at 773-442-5389 (B-2), Mr. Sean Condon at (773) 442-5374 (Elementary, or Elementary with a Bilingual endorsement), or Ms. Vanessa King at (773) 442-5387 (9-12 and PK-12), or Ms. Marianne Morrissey at 773-442-4159 (PK-12 Physical Education).

### Elementary Education Endorsement:

Code	Title	Hours
	Requirements	
	Professional Sequence	42

NOTE: Returning students interested in an Elementary Education license may instead pursue a Master of Arts in Elementary Education. See the MAT in Elementary Education program in the Teacher Education Department Section in this catalog for admission and program requirements.

## Early Childhood Education B-2 ENDORSEMENT:

For more information on the B-12 Early Childhood Teacher Licensure Program, contact Ms. Ulisa Blakely at (773) 442-5389.

## Middle-Level Education 5-8 endorsement:

Please, contact the Teacher Education Department at 773-442-5380 for further information about the TLP option in middle-level education. NEIU has been approved to offer Middle-Level Education endorsements in the following areas:

- Language Arts
- Mathematics
- Science
- Social Science

## Music PK-12 Endorsement:

For information on the Music PK-12 licensure program, contact the Music Department or Ms. Vanessa King at (773) 442-5387.

## 9-12 OR PK-12 Education Endorsement:

Code	Title	Hours
	Requirements	
	Professional Sequence	28

Major area: Must meet Northeastern’s content coursework requirements in one of the following academic areas:

- Science: Biology 9-12
- Science: Chemistry 9-12
- Science: Earth Science 9-12
- Science: Physics 9-12
- English Language Arts 9-12
- Social Science: History 9-12
- Mathematics 9-12
- Music Education PK-12
- World Languages: Spanish PK-12
- Physical Education PK-12 (contact Ms. Marianne Morrisey at 773-442-4159)
- Visual Art PK-12

## Focused Programs for Subsequent Teaching Licensure

Per the Illinois State Board of Education and the Illinois Administrative Code Section 25, Northeastern Illinois University now offers Focused Programs for teachers who hold a valid and current Illinois Teaching License.

The Focused Programs allow licensed teachers to obtain subsequent endorsements in the areas of Early Childhood Education, Elementary Education, Middle-Level Education, Secondary Education, Bilingual Education, Physical Education, and other areas.

Candidates who complete a Focused Program for subsequent endorsements will be recommended for the endorsement. For further information, don't hesitate to contact the Teacher Education Department at (773) 442-5380.

# Nontraditional Degree Programs

---

Kimya P. Barden, Ph.D., Nontraditional Degree Programs Director

## Nontraditional Degree Programs (NDP) Advisory Council

Sara Aliabadi, Ph.D., Associate Professor

Kimya P. Barden, Ph.D., Associate Professor, NDP Director

Tim Barnett, Ph.D., Professor

Jennifer Blair, M.A., BAIS Advisor (non-voting)

Jacqueline Butler, M.A., BAIS Advisor (non-voting)

Gabriel Cortez, Ph.D., Professor

Joseph Hibdon, Ph.D., Associate Professor

Zada Johnson, Ph.D., Professor

Jin Kim, Ph.D., Associate Professor

Eleni Makris, Ph.D., Associate Professor

Erica R. Meiners, Ph.D., Professor

Nontraditional Degree Programs (<https://www.neiu.edu/academics/our-colleges-and-departments/nontraditional-degree-programs/>) provide expanded opportunities for quality education in two baccalaureate degree completion programs. These programs are self-paced and involve individualized academic advising to help students earn degrees. The programs, University Without Walls (UWW) and the Bachelor of Arts in Interdisciplinary Studies (BAIS), are designed for adult students who often have completed a number of credits at other institutions or who have acquired significant learning through their careers or community activities.

## Prior Learning Assessment

One of the outstanding features of our two Nontraditional Degree Programs (NDP) is that both award credit for prior experiential learning in order to acknowledge and validate college-level learning that occurs outside the classroom.

### BAIS: A Course-Based Approach

The Bachelor of Arts in Interdisciplinary Studies (<http://catalog.neiu.edu/nontraditional-degree-programs/bachelor-arts-interdisciplinary-studies/>) (BAIS) offers students a variety of options to complete graduation requirements, including coursework, credit-by-examination tests (such as DSST and CLEP), and Prior Learning Assessment (PLA). PLA helps BAIS students document experiential and other forms of learning obtained outside of school with integrity and rigor through a Prior Learning Portfolio. The program uses the course credit equivalency model of PLA. That is, students identify an existing credit-bearing course (or courses) offered by a regionally accredited American institution of higher education and consistent with their experiential learning. The student demonstrates through a portfolio how and when they gained knowledge equivalent to the content taught in the course and requests an award of credit. A faculty member with expertise in the relevant academic area evaluates the portfolio and determines the award to be credited. The total amount of credit awarded through PLA is limited to 36 credit hours for each student and may be applied to any BAIS degree requirement except residency. Learn more about BAIS and PLA by attending a prospective student meeting (PSM) offered each semester through NDP. Please note that PLA portfolios in the BAIS program can only be submitted to NDP after students have completed NDP 330: Creating a Prior Learning Portfolio. This one-credit course prepares students for the portfolio process and provides a hands-on opportunity for students to complete portfolios with expert guidance from faculty.

### University Without Walls

University Without Walls (<http://catalog.neiu.edu/nontraditional-degree-programs/university-without-walls/>) is a flexible program that also uses prior learning assessment to help students complete Bachelor of Arts degrees. Students enter this program if they have obtained deep, college-level learning over a number of years through their career, community involvement, and/or self-directed study. They complete the degree through independent study and coursework as determined by university faculty and student needs. UWW students are required to bring extensive knowledge in a particular field or area of study to the program. Once admitted, students work with an individual faculty advisor to build a personalized curriculum based on their prior learning, future interests, and university requirements. UWW students also complete portfolios, but the portfolios in this program are more comprehensive than those in BAIS and cover the students' learning in their Depth Areas, Breadth Areas (Humanities, Fine Arts, Social Sciences, and Natural/Technological Sciences), and Effective Communication. UWW students complete their portfolios in their last semester of study at the university and then meet with a review board. The board reviews the portfolio and discusses the students' program of study with them before determining whether students are ready to graduate. The best way to learn about the UWW program is to attend a prospective student meeting, or PSM, offered each semester at the university.

# Bachelor of Arts in Interdisciplinary Studies Program

---

The Bachelor of Arts in Interdisciplinary Studies (BAIS) is a degree completion program designed to meet the undergraduate needs of experienced adults in a manner compatible with career and family responsibilities. Students complete graduation requirements through an alternative, self-paced approach to higher education.

## Application Procedures

Before applying, prospective students attend an information meeting to learn about the many options of the program and how to apply. Stop by the NDP office in B-147, call us at (773) 442-6030, or find information about our Prospective Student Meetings (PSM) on our website (<http://www.neiu.edu/academics/nontraditional-degree-programs/prospective-student-meetings/>).

## Admission Requirements

Applicants must have a high school diploma or the equivalent, or special permission granted by the University Provost. An applicant holding a baccalaureate degree from a regionally accredited college or university will not be admitted to the Bachelor of Arts in Interdisciplinary Studies Program.

## Program Options

The unique structure, flexibility and availability of the Bachelor of Arts in Interdisciplinary Studies Program offers students a variety of options to complete graduation requirements. In addition to taking courses at NEIU and other universities/colleges, students may use a combination of transfer credits from regionally accredited institutions and credits earned through standardized **college level proficiency examinations**. Students also have the option of applying for academic credit through the assessment of a **prior learning portfolio**, which describes and documents college equivalent learning acquired outside the traditional college classroom. BAIS students who submit a portfolio are charged a fee equivalent to the cost of tuition for two credit hours.

Interdisciplinary Studies students also have options to prepare for future academic and professional pursuits as they design a unique curriculum based on personal interests, career, or academic goals. These options include a second major and/or a minor. In addition, Interdisciplinary Studies majors may elect to complete a concentration. The Program offers eight concentrations that maintain the flexibility of the Interdisciplinary Studies degree and allow students to frame their course of study. The eight areas are:

- Fine Arts
- Humanities
- Natural Sciences
- Social Sciences
- Leadership
- Community Development and Multicultural Studies
- Professional Studies
- Health Disparities

To fulfill a concentration in any of the first four areas, students complete 18 upper division hours (300-level) from the relevant departments and complete a form in consultation with an Interdisciplinary Studies advisor. To fulfill a concentration in any of the other four areas, students complete 18 credit hours of approved upper division (300 level) courses and fill out a form in consultation with a BAIS Advisor.

## Graduation Requirements

To graduate, students must successfully complete the following requirements:

- 120 total semester hours
- Flexible 36-hour general education requirement (12 semester hours each in the humanities and fine arts, the social sciences and the natural sciences/mathematics)
- Minimum of 40 semester hours at the upper division (300-level) and a minimum 2.0 grade point average for courses used to fulfill this requirement
- Minimum of 24 semesters hours of course work at NEIU
- English 101, Grade of "C" or better
- Writing Intensive Program course, Grade of "C" or better
- Math/Quantitative Reasoning requirement, Grade of "C" or better
- Improving Human Relations course
- Students must have a cumulative "C" (2.0) grade point average for all work applied toward degree requirements

For more information, please contact Nontraditional Degree Programs in B 147, (773) 442-6030 or [NDP@neiu.edu](mailto:NDP@neiu.edu) ([NDP@neiu.edu](mailto:NDP@neiu.edu)) or visit our [website](#).

**NDP-201. College Success For Adult Returning Students. 3 Hours.**

Students will examine college success strategies including self awareness, critical thinking, styles of learning, time management, reading and notetaking skills, writing techniques, study skills, test taking strategies, overcoming math anxiety and strengthening learning gaps. The course will also provide an orientation to the NEIU learning environment with focus on university engagement. NDP-201 is open to all incoming adult returning students from all academic disciplines.

**NDP-301. Putting It All Together: Projects For Academic And Career Goals. 2 Hours.**

This project-based course integrates out-of-college learning with the college curriculum and equips students with skills that can be applied across academic disciplines and in their careers. Students consider academic and career goals as they plan, develop and execute a personal project to accommodate those goals. Topics may include self-assessment, goal setting, learning theory, critical reading, project development and presentation.

**Requirement:** 45 credit hours completed.

**NDP-305. Introduction To Library Research And Information Fluency. 1 Hour.**

Introduction to Library Research and Information Fluency, Icr. This class will introduce students to library research and issues in information studies. Students will acquire the skills to find and evaluate information and will learn how to create a bibliography and write citations. The course is geared towards students interested in learning how to research for class assignments, prepare research in their major or for graduate studies.

**NDP-310. Writing Intensive Program: Diversity In The Workplace. 3 Hours.**

Workplace diversity is a hallmark of contemporary life. This course explores multiple dimensions of diversity, including race, class, gender, sexual orientation, and disabilities with the goal of preparing students to function in varied settings. The course is a writing intensive experience, offering the opportunity to develop and hone written communication skills applicable to the workplace.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**NDP-321. Correspondence On Current Biology Topics. 3 Hours.**

This course is designed for students interested in understanding current topics in the field of biology. The correspondence will vary based on instructor and student interest, but will focus on the appropriate biological background, experimental techniques, and the impact of these topics on health, society, and the environment. In addition, scientific reasoning and effective means of communicating biology to different audiences will also be discussed. Through the course materials, assignments, and regular correspondence, students will develop an appreciation for the living world around them, an understanding of experimental techniques in the natural sciences, and effective ways of communicating scientific information.

**Prerequisite:** (100 - 399 or 100A - 399Z).

**NDP-330. Creating A Prior Learning Portfolio. 1 Hour.**

This one-credit hour course guides students through the process of creating a portfolio that showcases prior learning experiences. The course examines issues relating to learning and life experience. It explores questions of academic specialization and professional development. Final portfolios can be used to request credit by assessment and as a testament to a student's personal and professional accomplishments.

**Prerequisite:** ENGL-101 with a minimum grade of C and ENGL-102 with a minimum grade of C.

**NDP-341. Human Rights: An Introduction. 1 Hour.**

Human rights principles have been explicitly enshrined in international documents since the 1948 United Nations Universal Declaration of Human Rights which American leaders helped formulate in the aftermath of the Holocaust. Human rights language is increasingly used in struggles for social justice worldwide. This course introduces students to the conceptions and debates about human rights in the US and globally, examining examples of the ways these values have and have not been implemented or secured.

**NDP-342. Environmental Justice. 3 Hours.**

This class will give students an overview of issues and concerns related to environmental justice. Understanding environmental issues is crucial today in the context of global warming. This course introduces new ideas through which to consider the environment and our ethical responsibilities living in it.

**NDP-351. Time And Project Management Skills. 1 Hour.**

This course explores the range and types of time and project management skills used in everyday life, academic and life-long learning, and in work settings. Students will analyze their own styles and theories of time management, learn how to set effective goals and objectives, and learn change management techniques that can be applied to new approaches, strategies, and techniques of time/project management.

**NDP-380. Project Management For Individuals And Organizations. 3 Hours.**

This three-credit hour course guides students through the process of creating a project management proposal including a timeline. The course examines issues related to project structure and stakeholders and considers the process from selection to completion. It explores responsibilities within a project as well as how to identify and delegate project tasks. Students will be exposed to project management as it relates to organizational and individual goals, preparing them to participate in projects while maintaining a professional perspective. Content for this course is skill-based and includes knowledge topical to project management through weekly topics in learning modules.

**Prerequisite:** ENGL-101 with a minimum grade of C and ENGL-102 with a minimum grade of C.

# University Without Walls Program

---

The University Without Walls (UWW) is a self-paced program that builds on prior college-level learning gained outside of school and leads to a Bachelor of Arts degree. UWW is geared to meet the adult student's learning needs and long range goals through a course of study that includes personalized curricula and independent study.

## Admission

Prospective student meetings are held each semester to explain the program and answer questions. All prospective students are strongly encouraged to attend a prospective student meeting prior to submitting an application. A schedule of prospective student meetings is available in the Nontraditional Degree Programs Office in B-147. You may also obtain a schedule by visiting our NDP website (<http://www.neiu.edu/academics/nontraditional-degree-programs/prospective-student-meetings/>) or calling (773) 442-6030.

UWW applicants design their own applications, addressing their need for UWW, outlining their prior learning, proposing new learning goals and identifying human resources. All previous college work must be verified by submitting official transcripts and if the applicant has earned less than 24 semester hours, an official high school transcript or General Educational Development (G.E.D.) test scores must be submitted.

## Program Participation

Each student, with an Academic Advisor (a Northeastern faculty member), a Community Advisor, and a UWW Faculty Advisor, develops a Learning Contract which outlines the student's individualized curriculum: prior learning experiences and new learning goals. The UWW student's individualized curriculum has three program requirements: depth, breadth, and effective communication. These three elements provide an organizational structure for the Learning Contract.

Students register for UWW Independent Study hours each semester. At the end of every semester, students submit a Semester Report that specifies learning activities and accomplishments of the semester in relationship to the learning outcomes identified for receiving Independent Study credit hours. Students who make satisfactory academic progress in the program receive a designation of Pass for the Independent Study credit hours in which they are enrolled. To ensure that UWW students make sufficient academic progress, UWW students are expected to meet with their academic and community advisors regularly during each semester of participation in accordance with the University's Credit Hour Policy.

## Graduation Requirements

The student's program is monitored closely each semester and upon meeting the Learning Contract terms, the student convenes a Graduation Review Board that has the sole authority to authorize graduation. In addition, students must also fulfill the Writing Intensive Program requirement, the Improving Human Relations requirement and the Math/Quantitative Reasoning requirement. Further details regarding these graduation requirements can be found under the heading "Bachelor's Degree Requirements" elsewhere in this catalog.

More information about the University Without Walls can be obtained in the NDP office, B-147 or at (773) 442-6030 or [NDP@neiu.edu](mailto:NDP@neiu.edu) or the **NDP website**

### **NDP-201. College Success For Adult Returning Students. 3 Hours.**

Students will examine college success strategies including self awareness, critical thinking, styles of learning, time management, reading and notetaking skills, writing techniques, study skills, test taking strategies, overcoming math anxiety and strengthening learning gaps. The course will also provide an orientation to the NEIU learning environment with focus on university engagement. NDP-201 is open to all incoming adult returning students from all academic disciplines.

### **NDP-301. Putting It All Together: Projects For Academic And Career Goals. 2 Hours.**

This project-based course integrates out-of-college learning with the college curriculum and equips students with skills that can be applied across academic disciplines and in their careers. Students consider academic and career goals as they plan, develop and execute a personal project to accommodate those goals. Topics may include self-assessment, goal setting, learning theory, critical reading, project development and presentation.

**Requirement:** 45 credit hours completed.

### **NDP-305. Introduction To Library Research And Information Fluency. 1 Hour.**

Introduction to Library Research and Information Fluency, 1cr. This class will introduce students to library research and issues in information studies. Students will acquire the skills to find and evaluate information and will learn how to create a bibliography and write citations. The course is geared towards students interested in learning how to research for class assignments, prepare research in their major or for graduate studies.

### **NDP-310. Writing Intensive Program: Diversity In The Workplace. 3 Hours.**

Workplace diversity is a hallmark of contemporary life. This course explores multiple dimensions of diversity, including race, class, gender, sexual orientation, and disabilities with the goal of preparing students to function in varied settings. The course is a writing intensive experience, offering the opportunity to develop and hone written communication skills applicable to the workplace.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**NDP-321. Correspondence On Current Biology Topics. 3 Hours.**

This course is designed for students interested in understanding current topics in the field of biology. The correspondence will vary based on instructor and student interest, but will focus on the appropriate biological background, experimental techniques, and the impact of these topics on health, society, and the environment. In addition, scientific reasoning and effective means of communicating biology to different audiences will also be discussed. Through the course materials, assignments, and regular correspondence, students will develop an appreciation for the living world around them, an understanding of experimental techniques in the natural sciences, and effective ways of communicating scientific information.

**Prerequisite:** (100 - 399 or 100A - 399Z).

**NDP-330. Creating A Prior Learning Portfolio. 1 Hour.**

This one-credit hour course guides students through the process of creating a portfolio that showcases prior learning experiences. The course examines issues relating to learning and life experience. It explores questions of academic specialization and professional development. Final portfolios can be used to request credit by assessment and as a testament to a student's personal and professional accomplishments.

**Prerequisite:** ENGL-101 with a minimum grade of C and ENGL-102 with a minimum grade of C.

**NDP-341. Human Rights: An Introduction. 1 Hour.**

Human rights principles have been explicitly enshrined in international documents since the 1948 United Nations Universal Declaration of Human Rights which American leaders helped formulate in the aftermath of the Holocaust. Human rights language is increasingly used in struggles for social justice worldwide. This course introduces students to the conceptions and debates about human rights in the US and globally, examining examples of the ways these values have and have not been implemented or secured.

**NDP-342. Environmental Justice. 3 Hours.**

This class will give students an overview of issues and concerns related to environmental justice. Understanding environmental issues is crucial today in the context of global warming. This course introduces new ideas through which to consider the environment and our ethical responsibilities living in it.

**NDP-351. Time And Project Management Skills. 1 Hour.**

This course explores the range and types of time and project management skills used in everyday life, academic and life-long learning, and in work settings. Students will analyze their own styles and theories of time management, learn how to set effective goals and objectives, and learn change management techniques that can be applied to new approaches, strategies, and techniques of time/project management.

**NDP-380. Project Management For Individuals And Organizations. 3 Hours.**

This three-credit hour course guides students through the process of creating a project management proposal including a timeline. The course examines issues related to project structure and stakeholders and considers the process from selection to completion. It explores responsibilities within a project as well as how to identify and delegate project tasks. Students will be exposed to project management as it relates to organizational and individual goals, preparing them to participate in projects while maintaining a professional perspective. Content for this course is skill-based and includes knowledge topical to project management through weekly topics in learning modules.

**Prerequisite:** ENGL-101 with a minimum grade of C and ENGL-102 with a minimum grade of C.

**UWW-201. Participated In University Without Walls. 1 Hour.****UWW-202. Participated In University Without Walls. 2 Hours.****UWW-203. Participated In University Without Walls. 3 Hours.****UWW-204. Participated In University Without Walls. 7 Hours.****UWW-208. Participated In University Without Walls. 8 Hours.****UWW-209. Participated In University Without Walls. 9 Hours.****UWW-210. Participated In University Without Walls. 10 Hours.****UWW-211. Participated In University Without Walls. 11 Hours.****UWW-212. Participated In University Without Walls. 12 Hours.****UWW-301. University Without Walls Independent Study. 1 Hour.**

University Without Walls students receive credit as they fulfill individualized curricula developed in consultation with and under the direction of the UWW Academic Advisor (or another faculty member recommended by the Academic Advisor), the UWW Community Advisor, and UWW Faculty Advisor.

**UWW-302. University Without Walls Independent Study. 2 Hours.**

University Without Walls students receive credit as they fulfill individualized curricula developed in consultation with and under the direction of the UWW Academic Advisor (or another faculty member recommended by the Academic Advisor), the UWW Community Advisor, and UWW Faculty Advisor.

**UWW-303. Introduction To University Without Walls--First Sem Independent Study. 3 Hours.**

Introduction to University Without Walls prepares students to receive credit as they fulfill individualized curricula developed under the direction of the UWW Academic Advisor (or another faculty member recommended by the Academic Advisor), the UWW Community Advisor and the UWW Faculty Advisor.

**UWW-304. Contemporary Topics In Depth Area Study. 3 Hours.**

This course will examine contemporary topics related to student's prior/proposed learning and depth area concentration. With the assistance of their UWW advisor, student will explore the socio-political, cultural and economic relationships between the contemporary topics they choose and their depth area. Completion of the course can be achieved through traditional research paper or other relevant project as determined by their UWW advisor.

**UWW-305. Independent Study In Health Services. 3 Hours.**

This individualized study course is designed for UWW students who have depth areas in health services fields (community health, health administration, healthcare systems, medical services, etc.). With the assistance of their UWW advisor, student will explore topics in the field of health services as they relate to their depth area concentrations and prior learning experiences. Completion of the course can be achieved through traditional research paper or other relevant project as determined by their UWW advisor.

**UWW-306. Independent Study In Violence Prevention. 3 Hours.**

This individualized study course is designed for UWW students who have depth areas in violence prevention fields (hospital responders, outreach workers, peace academy workers, etc.). With the assistance of their UWW advisor, student will explore topics in the field of violence prevention as they relate to their depth area concentrations and prior learning experiences. Completion of the course can be achieved through traditional research paper or other relevant project as determined by their UWW advisor.

**UWW-307. Independent Study In Research Methods. 3 Hours.**

Students will examine research methods specific to investigating prior learning/depth area processes and outcomes; including research design, theory, data collection, and reporting.

**UWW-308. Independent Study In Community, Human And Social Services. 3 Hours.**

This individualized study course is designed for UWW students who have depth areas in community, human service or social service fields (case managers, community service officers, family support, community outreach workers, etc.). With the assistance of their UWW advisor, student will explore topics in the field of community, human or social service as they relate to their depth area concentrations and prior learning experiences. Completion of the course can be achieved through traditional research paper or other relevant project as determined by their UWW advisor.

**UWW-309. University Without Walls Field Experience Independent Study. 3 Hours.**

Students will engage in in-depth experiential learning, integrating academic course work, prior learning experience, and/or on the job experience.

**UWW-310. Independent Study In Recreation Services. 3 Hours.**

This individualized study course is designed for UWW students who have depth areas in recreation services fields (recreation leaders, recreation assistants, event specialists, youth recreation/athletics workers, etc.). With the assistance of their UWW advisor, students will explore topics in the field of recreation services as they relate to their depth area concentrations and prior learning experiences. Completion of the course can be achieved through a traditional research paper or other relevant project as determined by their UWW advisor.

**UWW-311. Independent Study In Capstone Portfolio And Review Board Preparation. 3 Hours.**

University Without Walls Capstone Portfolio and Review Board is the capstone course for the UWW academic program. In this course, students will finalize their learning contract and compose an online portfolio that will be presented to a UWW board of evaluators.

**UWW-312. Independent Study In Education-Related Fields. 3 Hours.**

This individualized study course is designed for UWW students who have depth areas in education-related fields (paraprofessionals, teaching assistants, school office managers, etc.). With the assistance of their UWW advisor, student will explore topics in the field of recreation services as they relate to their depth area concentrations and prior learning experiences. Completion of the course can be achieved through traditional research paper or other relevant project as determined by their UWW advisor.

# Faculty, Administration, and Emeriti

---

Our faculty at Northeastern Illinois University are keen on developing such meaningful interactions. They combine broad knowledge of their fields, unique research pursuits, commitment to public service, and love of teaching.

Here is our most concise list of faculty and administration members that currently exist at Northeastern Illinois University.

# Faculty and Administration

---

**Acioli, Paulo H.**, Ph.D., University Of Illinois at Urbana-Champaign, Distinguished, Professor, Physics

**Adeodu, Rachel A.**, Ph.D., University Of Alberta, Associate Professor, Teacher Education

**Adler, William**, Ph.D., The Graduate Center- CUNY, Associate Professor, Political Science

**Agopian, Garo L.**, Ph.D., Lally School of Management, Assistant Professor, Management and Marketing

**Aguado, Patricia**, Ph.D., University Of Illinois at Chicago, Associate Professor, Social Work

**Ali, Sunni**, Ed.D., Roosevelt University, Associate Professor, Educational Inquiry & Curriculum Studies

**Aliabadi, Sara**, Ph.D., The University of Memphis, Associate Professor, Accounting, Business Law & Finance

**Ambriz, Kimberly R.**, M.F.A., University Of Iowa, Professor, Art + Design, Chair

**Amos, Maureen**, M.A., DePaul University, Executive Director, Financial Aid

**Anderson, Gregory**, Ph.D., University Of California - Berkeley, Professor, Physics, Chair

**Anderson, Jacqueline**, Ph.D., Loyola University Chicago, Associate Professor, Social Work

**Anil Pillai, Deepa**, Ph.D., Southern Illinois University Carbondale, Associate Professor, Management and Marketing

**Bae, Sangmin**, Ph.D., Purdue University, Distinguished, Professor, Political Science

**Bai, Hua**, Ph.D., Purdue University, Professor, Educational Inquiry & Curriculum Studies

**Ball, James**, Ph.D., Southern Illinois University Carbondale, Professor, Health Sciences and Physical Education, Chair

**Banas, Jennifer**, Ed.D., Northern Illinois University, Professor, Health Sciences and Physical Education

**Barden, Kimya**, Ph.D., Loyola University Chicago, Associate Professor, Educational Inquiry & Curriculum Studies, Interim Director, Nontraditional Degree Programs

**Barnett, Timothy P.**, Ph.D., Ohio State University, Professor, English

**Baron, Maura R.**, Ph.D., University Of Wisconsin - Milwaukee, Associate Professor, Communication, Media and Theatre

**Bazer, Nicki**, J.D., New York University Law School, Interim General Counsel

**Bedell, Michael**, Ph.D., Indiana University, Professor, Management and Marketing, Dean, College of Business and Management

**Bell-Jordan, Katrina E.**, Ph.D., Ohio University, Professor, Communication, Media and Theatre, Interim President of the University

**Benjamin, Russell**, Ph.D., University Of Florida, Professor, Political Science

**Bethea, Sharon L.**, Ph.D., University Of Missouri - Columbia, Professor, Counselor Education

**Beyda, Sandra**, Ph.D., Purdue University, Professor, Special Education, Executive Director for Innovations in Teaching and Learning, Center for Teaching and Learning

**Bird, Katherine**, Ph.D., University Of Illinois at Chicago, Associate Professor, Mathematics

**Birmingham, Rachel**, Ph.D., Auburn University At Montgomery, Associate Professor, Justice Studies

**Bisbey, Brandon**, Ph.D., Tulane University of Louisiana, Professor, World Languages and Cultures

**Bloom, Zachary D.**, Ph.D., Univeristy Central Florida, Associate Professor, Counselor Education, Chair

**Bolterstein, Elyse**, Ph.D., University Of Illinois at Chicago, Associate Professor, Biology

**Brake, Andrew G.**, Ph.D., University Of Chicago, Associate Professor, Biology

**Brelias, Anastasia G.**, Ph.D., University Of Colorado At Boulder, Associate Professor, Educational Inquiry & Curriculum Studies

**Brown-Pierce, Erica**, M.A., Northeastern Illinois University, Director, Project Success

**Brown-Xu, Samantha**, Ph.D., Ohio State University, Associate Professor, Chemistry

**Buell, Marcia**, Ph.D., University Of Illinois at Urbana-Champaign, Associate Professor, English

**Bueno, Christina M.**, Ph.D., University Of California - Davis, Distinguished, Professor, History

**Byard, Vicki**, Ph.D., Purdue University, Professor, English

**Cannon, Ellen S.**, Ph.D., University Of Massachusetts At Amherst, Professor, Political Science

**Cantu, Jorge Armando**, Ph.D., Northwestern University, Associate Professor, Biology

**Casey, John P.**, Ph.D., Loyola University Chicago, Professor, Philosophy

**Castaneda, Rona**, B.S., Holy Angel University, Senior Director of Budget, Planning, and Forecasting

**Castrejon, Jorge A.**, Ph.D., University of Nevada, Assistant Professor, Justice Studies

**Chang, Peter M.**, Ph.D., University Of Illinois at Urbana-Champaign, Professor, Music

**Chaudhri, Amina**, Ph.D., University Of Chicago, Professor, Teacher Education

**Childers, Christopher**, M.B.A., New York University, Executive Director of Marketing and Communications

**Ciecierski, Christina**, Ph.D., University Of Illinois at Chicago, Professor, Economics

**Cloonan, Denise L.**, Ph.D., University Of Delaware, Distinguished, Professor, World Languages and Cultures, Chair

**Cofer, R. Shayne**, Ph.D., University Of Iowa, Professor, Music, Interim Provost and Vice President, Academic Affairs

**Colak, Huseyin**, Ph.D., Indiana University, Associate Professor, Educational Inquiry & Curriculum Studies

**Cook, Robert A.**, Ph.D., University of Alabama, Assistant Professor, Management and Marketing

**Cordell, Sarah**, D.A., University Of Illinois at Chicago, Distinguished, Professor, Mathematics

**Cortez, Gabriel A.**, Ph.D., University Of Illinois at Urbana-Champaign, Professor, Literacy, Leadership and Development

**Cu, Tung (Francis)**, Ph.D., Louisiana State University, Associate Professor, Accounting, Business Law & Finance

**Davis, Lesa C.**, Ph.D., Southern Illinois University Carbondale, Professor, Anthropology

**Dawley-Carr, Ruth J.**, Ph.D., University of Wisconsin-Madison, Associate Professor, Educational Inquiry & Curriculum Studies

**de Bruyn, Martyn**, Ph.D., Purdue University, Professor, Political Science, Chair

**De La Torre, Maria Eugenia**, Ph.D., University Of Oregon, Associate Professor, Justice Studies

**Desta, Meseret Kassahun**, Ph.D., University Of Illinois at Chicago, Assistant Professor, Social Work

**Dhiensiri, Nont**, Ph.D., University Of Pittsburgh, Professor, Accounting, Business Law & Finance, Chair

**Dipre, Kirsis**, Ph.D., Syracuse University, Assistant Professor, Counselor Education

**Dorai, Sundaram**, D.B.A., Mississippi State University, Associate Professor, Management and Marketing

**Dorestani, Alireza**, Ph.D., The University of Memphis, Distinguished, Professor, Accounting, Business Law & Finance

**Downey, Liesl V.**, B.A., Indiana University, Vice President, Institutional Advancement

**Duggan, Timothy**, Ed.D., University Of South Dakota, Professor, Educational Inquiry & Curriculum Studies, Chair

**Dutil, Andy**, M.A.M., Columbia College, Executive Director, Student Union and Campus Recreation

**Dykema-Engblade, Amanda A.**, Ph.D., Loyola University Chicago, Professor, Psychology, Chair

**Elrod, Ashley L.**, Ph.D., Duke University, Assistant Professor, History

**Elshafie, Essam A.**, Ph.D., Kent State University, Professor, Accounting, Business Law & Finance

**Erber, Maureen**, Ph.D., University of North Carolina, Distinguished, Professor, Psychology

**Ermis-Demirtas, Huyla**, Ph.D., Texas A&M University, Associate Professor, Counselor Education

**Fabian, Sarah JHP**, M.F.A., Northwestern University, Associate Professor, Communication, Media and Theatre

**Farmer Jr., Alvin D.**, Ph.D., Penn State University, Associate Professor, Psychology

**Farzaneh, Mateo**, Ph.D., University Of California - Santa Barbara, Professor, History, Chair

**Filus, Lidia Z.**, Ph.D., University Of Warsaw, Professor, Mathematics, Chair

**Fuller, Laurie S.**, Ph.D., University of Wisconsin-Madison, Distinguished, Professor, Women's, Gender & Sexuality Studies

**Funk, Charles**, Ph.D., Washington University, Associate Professor, Management and Marketing

**Gallagher, Ryan**, Ph.D., University Of Illinois at Chicago, Professor, Economics

**Gallardo, Diana**, Ph.D., Pennsylvania State University, Assistant Professor, Counselor Education

**Gamboa-Turner, Valentina**, M.A., Northeastern Illinois University, Assistant Director, Angelina Pedroso Center for Diversity and Intercultural Affairs

**Garcia, Emily**, Ph.D., University Of Florida, Associate Professor, English

**Gebhardt, Lewis**, Ph.D., Northwestern University, Associate Professor, Linguistics

**Geddes, Pamela**, Ph.D., University Of Chicago, Distinguished, Professor, Biology

**Gilfillan, Beth H.**, Ph.D., Pennsylvania State University, Associate Professor, Counselor Education

**Goguen, Stacey**, Ph.D., Boston University, Associate Professor, Philosophy

**Goldstein, Adam**, M.F.A., Northwestern University, Associate Professor, Communication, Media and Theatre

**Gonul Kochan, Cigdem**, Ph.D., University Of North Texas, Assistant Professor, Management and Marketing

**Gonzales, Wendy**, Ph.D., University Of Illinois at Chicago, Assistant Professor, Special Education

**Goodwin, Kyle**, Ph.D., Northern Illinois University, Assistant Professor, Counselor Education

**Graham, Matthew D.**, Ph.D., Brandis University, Associate Professor, Mathematics

**Grammenos, Dennis**, Ph.D., University Of Illinois at Urbana-Champaign, Associate Professor, Geography & Environmental Studies

**Greenburg, Bradley M.**, Ph.D., State University of New York (Buffalo), Professor, English, Chair

**Hageman, Jon**, Ph.D., Southern Illinois University Carbondale, Professor, Anthropology, Coordinator, University Honors Program

**Hahn, M. Kate**, Ph.D., University Of Illinois at Urbana-Champaign, Executive Director, The Learning Success Center, Center for Academic Writing

**Hallett, Richard Wayne**, Ph.D., University Of South Carolina - Columbia, Professor, Linguistics

**Hand, Karen E.**, Ed.D., Northern Illinois University, Associate Professor, Health Sciences and Physical Education

**Hao, Yi**, Ph.D., State University of New York (Buffalo), Associate Professor, Teacher Education

**Harris, Orin M.**, Ph.D., University of Washington, Associate Professor, Physics

**Harris, Steven**, M.L.S., University Of Arizona, Associate Professor, Dean of University Libraries, Library

**Head, Elisabet**, Ph.D., Michigan Technological University, Associate Professor, Earth Science

**Heath, Travis**, D.M., Rutgers University, Professor, Music

**Hegerty, Scott**, Ph.D., University Of Wisconsin - Milwaukee, Professor, Economics, Chair

**Heitzinger, Robert**, D.Mus., Northwestern University, Associate Professor, Music

**Hibdon Jr., Joseph**, Ph.D., Northwestern University, Associate Professor, Mathematics

**Holland, Nicole E.**, Ph.D., The Graduate Center - CUNY, Professor, Educational Inquiry & Curriculum Studies

**Hollis-Sawyer, Lisa A.**, Ph.D., University Of Akron, Associate Professor, Psychology

**Holtschneider, Cathleen S.**, Ph.D., University Of Illinois at Chicago, Associate Professor, Social Work

**Hu, Wenqian**, M.A., Tilburg University, Assistant Professor, Accounting, Business Law & Finance

**Iacobelli, Francisco**, Ph.D., University Of Wisconsin, Associate Professor, Computer Science

**Ibrahima, Aissetu Barry**, Ph.D., University Of Illinois at Chicago, Associate Professor, Social Work

**Insel, Nadja**, Ph.D., University Of Michigan, Associate Professor, Earth Science

**Irwin, Todd**, MFA, Ohio State University, Assistant Professor, Art + Design

**Jatta, Amie**, M.S., University Of North Dakota, Project Director, TRIO Student Support Services

**Johnson, Brooke**, Ph.D., University Of California - Riverside, Professor, Sociology

**Johnson, Zada Nicole**, Ph.D., University Of Chicago, Professor, Educational Inquiry & Curriculum Studies

**Johnston, Craig S.**, Ph.D., Ohio State University, Associate Professor, Counselor Education

**Jonak, Jolanta**, Ed.D., National-Louis University, Associate Professor, Special Education

**Kahouadji, Nabil**, Ph.D., Universite Paris in Diderot-Paris, Distinguished, Associate Professor, Mathematics

**Kasmer, John M.**, Ph.D., University Of Michigan - Ann Arbor, Associate Professor, Biology

**Khaled, Ahmed E.**, Ph.D., Cairo University, Associate Professor, Computer Science

**Kim, Hyewon**, Ph.D., University Of Texas - Austin, Associate Professor, Teacher Education

**Kim, Jin**, Ph.D., University of Wisconsin-Madison, Associate Professor, Social Work

**Kim, Julie H.**, Ph.D., University Of Michigan - Ann Arbor, Professor, English

**Kim, Sung Doo**, Ph.D., University Of Cincinnati, Associate Professor, Management and Marketing

**Kimmel, Peter G.**, Ph.D., University Of Chicago, Professor, Computer Science

**Koyama, Miki**, Ph.D., Western Michigan University, Interim Director, Counseling Services

**Kritikos, Effie P.**, Ph.D., University Of Illinois at Chicago, Professor, Special Education, Interim Associate Provost/University Contract Administrator, Academic Affairs

**Kruzcek, Max**, B.S., DePaul University, Acting Associate Vice President of Human Resources

**Kuo, Hsiao-Chin**, Ph.D., Indiana University, Associate Professor, Literacy, Leadership and Development

**LaCivita, Gretchen**, D.N.P., Loyola University Chicago, Executive Director, Master of Science in Nursing Program

**Lamadrid-Quevedo, Maria Rebeca**, M.A., North Park University, Interim Director, El Centro

**Lasko, Jennifer**, DNP RN, University Of Illinois at Chicago, Interim Director, Student Health Services

**Lawson, Douglas**, M.Ed., Loyola University Chicago, Director, Student Disability Services

**Le, Huong (Anne)**, Ph.D., Louisiana State University, Associate Professor, Accounting, Business Law & Finance

**Lee, Senyung**, Ph.D., Indiana University, Assistant Professor, Teaching English to Speakers of Other Languages

**Li, Jian**, Ph.D., Purdue University, Professor, Management and Marketing, Chair

**Libretti, Timothy R.**, Ph.D., University Of Michigan - Ann Arbor, Professor, English, Acting Dean, College of Arts and Sciences

**Lis, Renata**, M.B.A., Northeastern Illinois University, Assistant to Vice President/ Provost, Academic Affairs

**Liu, Sheng**, M.S., Drexel University, Assistant Professor, Accounting, Business Law & Finance

**Liu, Ting**, Ph.D., Florida State University, Associate Professor, Geography & Environmental Studies

**Lopez, Alberto**, Ph.D., Ohio State University, Professor, Teacher Education, Associate Dean, Daniel L. Goodwin College of Education

**Luedke, Tracy J.**, Ph.D., Indiana University, Professor, Anthropology

**Madda, Christina**, Ph.D., University Of Illinois at Chicago, Professor, Literacy, Leadership and Development

**Makris, Eleni**, Ph.D., University Of Chicago, Associate Professor, Educational Inquiry & Curriculum Studies

**Maldonado, Lindsay**, Ph.D., Loyola University Chicago, Assistant Professor, Teacher Education

**Maleki, Amirhossein**, Ph.D., Washington State University, Assistant Professor, Management and Marketing

**Maljak, Kimberly**, Ph.D., Wayne State University, Associate Professor, Health Sciences and Physical Education

**Mandrell Jr, Nelson E.**, Ph.D., University Of Illinois at Urbana-Champaign, Associate Professor, Music

**Marfatia, Hardik**, Ph.D., University Of Wisconsin - Milwaukee, Associate Professor, Economics

**Martinez, Juan R.**, Ph.D., University Of Illinois at Chicago, Associate Professor, Sociology

# Academic Development (ACAD)

---

## Courses

**ACAD-101A. Special Programs Seminar I: Help Program. 3 Hours.**

**ACAD-101B. Success Program Seminar I: Project Success. 3 Hours.**

This course covers college success strategies by: 1) developing students' self-awareness and self assessment; 2) promoting a better understanding and appreciation of educational, cultural and professional environments and specifically, the NEIU environment and 3) cultivating and enhancing students' learning, organizational and critical thinking skills as well as helping students define career options while integrating computer technology. Students will also understand and apply appropriate general education concepts.

**ACAD-101C. Special Programs Seminar I: Proyecto Pa'Lante. 3 Hours.**

This course covers college success strategies by (1) developing students' self-awareness and self assessment; (2) promoting a better understanding and appreciation of education, cultural and professional environments and specifically, the NEIU environment, and (3) cultivating and enhancing students' learning, organization and critical thinking skills and define career options while integrating computer technology. Students will also understand and apply appropriate general education concepts.

**ACAD-101D. Special Programs Seminar I: Student Support Services. 3 Hours.**

**ACAD-102B. Success Program Seminar II: Project Success. 3 Hours.**

This course expands upon college success strategies as described in Acad Dev 101B- Success Program Seminar I: Project Success. The course is designed for students who successfully completed Acad Dev 101B- Success Program Seminar I: Project Success, but did not successfully complete the first Fall term at Northeastern, with a term grade point average of 2.0 or higher, based on the Project Success Achievement Agreement.

**ACAD-102C. Special Programs Seminar II: Proyecto Pa'Lante. 3 Hours.**

This course covers college success strategies as described in ACAD-101C Special Program Seminar I: Proyecto Pa'Lante and is designed for students who have not successfully completed the first Fall term or have not earned a C or better grade in ACAD-101C at NEIU based on the Proyecto Pa'Lante Participation Agreement.

**ACAD-102D. Special Programs Seminar II: Student Support Services. 3 Hours.**

**ACAD-102E. Special Programs Seminar II: Project Success' Topics On Pan Africanism. 3 Hours.**

Designed to further increase the retention of primarily African American students by developing their self-esteem through continued emphasis on increasing reading and writing/research skills acquired through the study of African/African American people, culture and experiences.

**ACAD-102F. Special Programs Seminar II: Topics In The Asian American Experience. 3 Hours.**

Designed to further increase the retention of primarily Asian American students by developing their self-esteem through continued emphasis on enhancing reading, writing and communication skills acquired through the teaching of topics concerning the Asian-American culture and experience.

**ACAD-103. University Seminar. 3 Hours.**

# Accounting (ACTG)

---

## Courses

### **ACTG-201. Introduction To Financial Accounting. 3 Hours.**

Accounting is a system for measuring economic activities. This course introduces to students the underlying assumptions, concepts, and methods of financial accounting regarding the recording, processing, and reporting of an organization's economic activities in financial statements to external decision makers. Prereq.: MATH-165.

**Prerequisite:** MATH-165 with a minimum grade of C.

### **ACTG-202. Introduction To Managerial Accounting. 3 Hours.**

This course focuses on managerial accounting. It emphasizes the use of accounting information for management planning and control decisions. Topics include analysis of cost behavior, budgeting, and other managerial issues. Prereq.: MATH-165 and ACTG-201.

**Prerequisite:** ACTG-201 with a minimum grade of C and MATH-165 with a minimum grade of C.

### **ACTG-300. Principles Of Accounting. 3 Hours.**

This course surveys the basic accounting concepts and procedures used in the preparation of financial statements, statement analysis and managerial planning and control. Topics covered include accounting for internal planning. The course is targeted toward undergraduate non-business-major students with no prior knowledge of accounting, to study and obtain an overall fundamental understanding and appreciation of the use of accounting information. This course cannot be counted for credit toward a major in business.

**Prerequisite:** (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120 or SAT Math 530 - 800 or Accuplacer Adv. Algebra & Func 237 - 300).

### **ACTG-301. Cost Accounting I. 3 Hours.**

The course expands upon the study of accounting information that is needed by management to plan and control various operations of an organization and to price products and services. Topics include job order and process costing systems, standard costing and variance analysis, budgeting, direct, absorption and throughput costing, and cost-volume-profit (including break-even) analysis.

**Requirement:** All Foundation Courses Including ACTG-202

**Prerequisite:** ACTG-202 with a minimum grade of C.

### **ACTG-306. Accounting For Non-Profit Organizations. 3 Hours.**

A study of the special techniques employed in recording and reporting financial data of non-profit government units and private non-profit organizations.

**Prerequisite:** ACTG-322 with a minimum grade of C.

### **ACTG-307. Auditing Theory And Problems. 3 Hours.**

Auditing contributes to the reliability of financial and other data. This course, comprised of theory and philosophy of auditing, makes it an essential part of an accountant's knowledge. Topics include standards-general, field work and reporting, evidential matter, review of internal control, auditing techniques, practices, problem-solving, and a study of A.I.C.P.A. industry audit guides.

**Prerequisite:** ACTG-322 with a minimum grade of C.

### **ACTG-308. Advanced Auditing. 3 Hours.**

This course enhances the students understanding of auditing principles. Included is a detailed study of statements of auditing standard, evidential matter, techniques, problem solving, and a study of AICPA industry audit guidelines.

**Prerequisite:** ACTG-307 with a minimum grade of C.

### **ACTG-309. Foundations Of Forensic & Investigative Accounting. 3 Hours.**

The purpose of this course is to cover important topics associated with contemporary forensic and investigative accounting. Topics include fraud auditing, litigation support, valuation, cybercrime, and other key forensic topics. Prereq. ACTG-201 and ACTG-202.

**Prerequisite:** ACTG-201 with a minimum grade of C and ACTG-202 with a minimum grade of C.

### **ACTG-310. Federal Income Tax (Individual). 3 Hours.**

Fundamentals of tax accounting and reporting with emphasis on individuals. Topics include gross income and exclusions, deductions to arrive at and deductions from gross income, gain or loss recognition, basis, capital gains and losses, credits and administration.

**Prerequisite:** ACTG-202 with a minimum grade of C.

### **ACTG-311. Federal Income Tax (Corporate). 3 Hours.**

Advanced development of topics discussed in the first tax course. Additional topics include matters specifically applicable to partnerships, corporations, and basic introductions to estate and gift taxes. Tax research techniques are also developed in the subject.

**Prerequisite:** ACTG-310 with a minimum grade of C.

### **ACTG-312. Cost Accounting II. 3 Hours.**

This course is a logical continuation of the prerequisite course with even greater emphasis on accounting information used for management planning and control. Topics include division performance measurement, transfer pricing, and application of quantitative techniques to cost accounting.

**Prerequisite:** ACTG-301 with a minimum grade of C.

**ACTG-313. Internal Auditing And Management Control. 3 Hours.**

Internal auditing is an independent appraisal activity within an organization for the review of operations aimed at promoting its efficiency and effectiveness. This course explores the concepts and standards of internal auditing and their applications. Topics include the discussion of the nature and environment of internal auditing, disciplines related to internal auditing, internal auditing process and the organization and administration of an internal auditing department.

**Prerequisite:** ABF-350 with a minimum grade of C and ACTG-307 with a minimum grade of C.

**ACTG-319. Fraud Examination. 3 Hours.**

This course is designed to introduce students to basic topics associated with fraud involving accounting information. It provides an overview of techniques to detect fraud, procedures to assess fraud risk, and measures to deter and prevent fraud.

**Prerequisite:** ACTG-321 with a minimum grade of C.

**ACTG-321. Intermediate Financial Accounting I. 3 Hours.**

This is the first course in the professional financial accounting sequence. This course emphasizes the conceptual framework underlying financial accounting, preparation of financial statements, and the accounting treatment of current assets, long-term assets, and current liabilities.

**Requirement:** All Foundation Courses including ACTG-202

**Prerequisite:** ACTG-202 with a minimum grade of C.

**ACTG-322. Intermediate Financial Accounting II. 3 Hours.**

This is the second course in the professional financial accounting sequence. This course emphasizes long-term liabilities, equity, revenue recognition and the statement of changes.

**Prerequisite:** ACTG-321 with a minimum grade of C.

**ACTG-324. Advanced Financial Accounting IV. 3 Hours.**

This is the third course in the professional financial accounting sequence. This course emphasizes consolidations for large multi-national and domestic corporations. Prereq.: ACTG-322.

**Prerequisite:** ACTG-322 with a minimum grade of C.

**ACTG-325. Contemporary Financial Accounting Issues. 3 Hours.**

The course covers an in-depth investigation of contemporary accounting issues and problems, including analysis and evaluation of most recent accounting pronouncements and articles in major accounting journals.

**Prerequisite:** ACTG-322 with a minimum grade of C.

**ACTG-330. Data Analytics For Accounting. 3 Hours.**

This course is intended to provide our students with critical skills and analytics mindsets to enable them to understand data structuring and data preparation, data quality, descriptive data analysis, data analysis through data manipulation, problem solving through statistical data analysis, data visualization, and relevant data reporting.

**Prerequisite:** ACTG-201 with a minimum grade of C and ACTG-202 with a minimum grade of C.

**ACTG-380. International Accounting. 3 Hours.**

This course is concerned with an examination of the environmental factors affecting accounting concepts and standards. Differences in the cultural, social, political, legal and economic environment are the determining factors in the selection of accounting concepts and standards. Coverage will include country and regional studies and accounting problems related to multinational businesses such as foreign currency translation.

**Prerequisite:** ACTG-322 with a minimum grade of C.

**ACTG-382. Internship In Accounting. 3 Hours.****ACTG-383. Internship In Accounting. 4 Hours.****ACTG-384. Internship In Accounting. 5 Hours.****ACTG-385. Internship In Accounting. 6 Hours.****ACTG-386. Independent Study In Accounting. 3 Hours.****ACTG-387. Independent Study In Accounting. 2 Hours.****ACTG-388. Independent Study In Accounting. 1 Hour.****ACTG-400. Fundamentals Of Accounting. 4 Hours.**

This course is designed for graduate students with no prior knowledge of accounting. Students will study and obtain an overall fundamental understanding and appreciation of the use of accounting information for making business decisions. This is a condensed, fast-paced course that addresses the topics of financial accounting for external reporting and managerial accounting for internal planning, control and decision-making of business operations.

**ACTG-402. Managerial Accounting. 3 Hours.**

This course focuses on managerial accounting. Managerial accounting is a company's internal language. It emphasizes the use of accounting information for planning, control, and decision making. Topics include relevant costing, cost behavior analysis, product costing, budgetary control, and performance evaluation. Undergraduate/graduate exposure to Financial and Managerial Accounting required. Prereq.: COBM-401 or equivalent and graduate standing.

**Prerequisite:** COBM-401 with a minimum grade of C.

**ACTG-406. Governmental & Not-For-Profit Accounting. 3 Hours.**

The course is designed to introduce students to the requirements of accounting for not-for-profit and federal, state, and local governmental entities. These entities are required to follow the pronouncements of either the Financial Accounting Standards Board or the Government Accounting Standards Board. The financial accounting and reporting concepts, standards and procedures applicable to federal, state, and local governmental entities and not-for-profit organizations will be discussed.

**Prerequisite:** ACTG-400 with a minimum grade of C.

**ACTG-407. Auditing Theory And Practice. 3 Hours.**

Integrates accounting standards, accounting systems, internal control structures and the dual auditing functions of obtaining and evaluating evidence- all within the context of a professional environment.

**Prerequisite:** ACTG-421 with a minimum grade of C.

**ACTG-408. Information Technology Auditing. 3 Hours.**

The purpose of this course is to teach students how to audit computer-based accounting information systems; therefore, this course focuses on evaluation of accounting systems controls, tests accounting data integrity, and discusses the nature and use of expert systems in accounting with emphasis on their use as an audit tool.

**Prerequisite:** ACTG-307 with a minimum grade of C.

**ACTG-409. Forensic And Investigative Accounting. 3 Hours.**

This course is designed to introduce students to basic topics associated with forensic and investigative accounting. It helps students to understand and design procedures related to fraud detection, computing economic damages, and business valuation, among other topics. To enroll in this course, you must have completed ACTG-307, with a graduate standing. If you have not met these prerequisites, you must withdraw from this class. Students who do not meet the course prerequisites and who do not drop voluntarily during the first week of class will be administratively withdrawn later in the semester.

**Prerequisite:** ACTG-307 with a minimum grade of C.

**ACTG-410. Seminar In Tax Planning. 3 Hours.**

This course focuses on a managerial approach to taxation through emphasis on major provisions of the income tax law and related administrative and judicial rulings as they affect business transactions. This course also includes consideration for the tax structure and its role as a tool for business planning.

**Prerequisite:** ACTG-400 with a minimum grade of C.

**ACTG-412. Accounting For Planning And Control. 3 Hours.**

This course provides for systematic and in-depth discussion and analysis of various accounting models which are useful to organizational planning and control, including the role of accounting systems in developing and refining data necessary for cost and managerial planning. Undergraduate/graduate exposure to Financial and Managerial Accounting required.

**Prerequisite:** COBM-401 with a minimum grade of C.

**ACTG-421. Current Topics In Financial Accounting. 3 Hours.**

This course provides a conceptual framework for current issues in financial accounting measurement and reporting, and valuation of assets, liabilities and income determination and other necessary disclosures of financial information. Undergraduate/graduate exposure to Financial and Managerial Accounting required.

**Prerequisite:** COBM-401 with a minimum grade of C.

**ACTG-422. Financial Statement Analysis. 3 Hours.**

This course is designed to prepare students to interpret, analyze and evaluate corporate financial statements effectively for the purpose of reaching informed lending, investment, and other business related decisions. Topics include overview of financial statements, assessment of accounting quality, tools of profitability and risk analysis, preparation of forecasted financial statements, and firm valuation models.

**Prerequisite:** ACTG-421 with a minimum grade of C.

**ACTG-430. Research Methodology In Accounting. 3 Hours.**

Provides a thorough understanding of research methodologies in accounting. The approach is to take a central research question and pursue its dimensions which include: importance of the question posed, the research design to evaluate that question, threats to the credibility of potential inferences drawn, research types that could be applied to the same question, and challenges in communication and interpretation. Undergraduate/graduate exposure to Financial and Managerial Accounting required.

**Prerequisite:** COBM-401 with a minimum grade of C.

**ACTG-440. Tax Research And Procedure. 3 Hours.**

The purpose and methods of conducting tax research and communicating tax research conclusions. The course will focus on Internal Revenue practice and procedures, tax policy, issues in taxpayer compliance, and tax payer and tax preparer responsibilities will also be addressed. Graduate Standing.

**Prerequisite:** ACTG-310 with a minimum grade of C.

**ACTG-441. Estate, Gift And Trust Taxation. 3 Hours.**

Current laws, cases, rulings and regulations useful for estate planning purposes are discussed. Topics include estate valuation, gift planning, estate planning and trusts, life insurance, joint tenancy, powers of appointment, pre-marital and marital dissolution agreements, community property, and generation-skipping transfer tax. Planning for estate tax minimization will be emphasized.

**Prerequisite:** ACTG-410 with a minimum grade of C.

**ACTG-451. Accounting Information Systems. 3 Hours.**

In-depth coverage of the concepts and techniques underlying the development, use and control of computerized accounting information systems are evaluated. Focus is on the understanding of accounting information and accounting information systems, and the underlying theory and practice of internal control systems. Particular emphasis will be placed on how information systems, including spreadsheets, databases, and other information technologies, serve as the basis for the functional areas of accounting and business through a case study approach. Prereq.: ACTG-400 or equivalent and graduate standing.

**Prerequisite:** ACTG-400 with a minimum grade of C.

**ACTG-480. Issues In International Accounting And Multinational Business Operations. 3 Hours.**

In-depth discussions of accounting issues and problems faced by companies with multinational operations. Topics include issues related to foreign currency translator, consolidation of foreign subsidiaries, foreign investment, international transfer pricing, analysis of foreign investment. Issues in the ethical conduct of multifunctional operations and in the Foreign Corrupt Practices Act will also be discussed.

**Prerequisite:** ACTG-421 with a minimum grade of C.

**ACTG-500. Project. 3 Hours.**

Approval of major advisor is necessary.

**ACTG-501. Thesis. 3 Hours.**

Approval of major advisor is necessary.

# Acct,Business Law and Finance (ABF)

---

## Courses

### **ABF-350. Management Information Systems. 3 Hours.**

This course centers on the use of computer based information systems (IS) to provide quality information upon which business decisions are made. The course presents the theory and practice involved with organization-wide usage of information technology (IT). The course also integrates the core business areas of management, marketing, finance, international activities, and ethics as they relate to information systems. Special attention is given to the tools available for providing decision makers with quality information and the implications of information systems for achieving a competitive advantage. Prereq.: Junior or Above.

### **ABF-360. Business Intelligence. 3 Hours.**

The course introduces students to emerging concepts, methods, and tools that provide effective business intelligence (BI). Rooting on a data-driven BI architecture, this course presents students with BI-related topics including business analytics continuum (e.g., descriptive analytics, predictive analytics, and prescriptive analytics), business performance management, Big Data and future trends. Special attention is given to the interplay between business and technology as a core approach for business organizations to make smarter decisions.

**Prerequisite:** ABF-350 with a minimum grade of C.

### **ABF-365. Enterprise Systems. 3 Hours.**

This course focuses on the role of enterprise resource planning (ERP) and business processes within and between organizations. Providing an introduction to enterprise systems (ES) for data and process integration. Topics include the requirements of ES, application architecture, and functionality of leading ES. Also covered are the life cycle and methodologies for systems integration, selection, implementation strategies and the emerging trends for ES, as well as, the relationship among component systems. Emphasis is placed on the use of ERP systems to integrate processes across marketing, finance/accounting, operations and HR management. The course tools include Excel, SAP and data flow diagrams.

**Prerequisite:** ABF-350 with a minimum grade of C.

### **ABF-370. Blockchain Technologies And Business Applications. 3 Hours.**

The course introduces students to essential concepts and techniques of blockchain and how to advance this knowledge in business applications. Starting with the fundamentals of what blockchain technology is, this course takes students on an interactive journey through different applications of blockchain such as bitcoin, cryptocurrencies, tokens, and smart contract. Special attention is given to discussions of blockchain as fundamentals of information security and the transformation from cryptocurrency to cryptoeconomics in shaping how future business will be conducted.

**Prerequisite:** ABF-350 with a minimum grade of C.

### **ABF-403. Management Of Information Systems & Technology. 3 Hours.**

ABF-403 Management of Information Systems and Technology, 3 cr. This course examines two major and related concepts: the management of information and the management of technology. Students investigate issues and approaches in managing the information system (IS) function and how the IS function supports and enables organizational capabilities and strategies. Principles underlying the acquisition, application, and management of technology are considered. Special attention is given to management information systems (MIS) and to information technology (IT) applications which support managerial decision-making and enhance organizational competitiveness. Relevant business cases are studied to reinforce conceptual learning.

# African & African Amer Studies (AFAM)

---

## Courses

### **AFAM-109. First Year Experience: Exploring Africa In Chicago. 3 Hours.**

The Exploring Africa in Chicago course is designed to provide first year students with a brief overview of the African continent, and an opportunity to understand the rich and varied diversity of Africa and its peoples. Using Chicago as a lab, students will use standard research methods, library databases, websites, readings, speakers, films, and field experiences to discuss the rich heritage of African culture, music and arts, the continent's geography, pre-colonial and colonial history, oral and written history, its languages and ethnicity, the family systems, and political, economic, and democratic systems. Students will be encouraged to get out of the classroom and into various communities and institutions in the Chicagoland area, seek out individuals of African descent in academia, healthcare, business, industry and other professions, and use standard interview techniques to critically examine their contributions to the city of Chicago, to the United States, and to the world.

### **AFAM-200. Introduction To African And African American Studies. 3 Hours.**

Introduction to African and African American Studies is an interdisciplinary and foundational course that introduces students to the field of African and African American Studies through an overview of the socio-economic, historical, psychological, political and cultural experiences of African peoples on the continent of Africa and throughout the Diaspora. Selected teachings are designed to give students a concise understanding of the heritage of African people in America and a framework to analyze the culture and institutional arrangements which both shaped the African Diaspora and was shaped by people of African descent throughout different parts of the world. Emphasizing an African-Centered philosophy and framework of analysis, the course content and emphasis includes a focus on students' acquisition of both an analytic ability and interdisciplinary skills of investigation and research and their development of a critical and comprehensive approach to challenging traditional Western orthodoxy, intellectual hegemony, and misinformation about Africa and its peoples. Particular emphasis is placed on the role of race, class, and gender in assessing similarities and differences in the African experience throughout the Diaspora.

### **AFAM-224. Contemporary African Culture. 3 Hours.**

This course introduces students to the diversity of contemporary African cultural life as it has been addressed by cultural anthropologists. In Africa, one can find unique cultural practices and ways of living, as well as evidence that Africa is very much integrated into global economic and cultural flows. In this course students learn about Africans' experiences, both the patterns and the particularities, and gain a greater appreciation for the roles that Africans and African culture play in the world, including in the U.S. This course is cross-listed in the Anthropology Program (ANTH-224).

### **AFAM-301. Foundations Of African Civilizations. 3 Hours.**

This is an interdisciplinary course examining African civilizations from the prehistoric past to contemporary periods utilizing an African centered perspective. The course uniquely employs a variety of multidisciplinary perspectives and materials from history, geography, anthropology, political science, art, sociology, linguistics and other disciplines. Course content and emphasis is placed on correcting misperceptions and stereotypes of Africa while exploring the rich and varied diversity of Africa, its rich history, the fundamental cultural commonalities shared by African peoples despite the diversity, and the significance and place of African civilizations on the world scene.

### **AFAM-302. Foundations Of Africans In The Diaspora. 3 Hours.**

Foundations of Africans in the Diaspora is an interdisciplinary course that focuses on the history, culture and experiences of African descendents in North America, South America and the Caribbean utilizing the research and writings from history, sociology, and anthropology conducted on and by the descendents of African peoples in these geographic areas. The objectives that form the foundation of the content for this course represent several topical areas that are in keeping with the overall goals of the minor in African and African American Studies. The topical areas are aligned into units of study and include: The African Diaspora, Africans in North America, The African American experience, Africans in Latin America and the Caribbean, and the Afro-Brazilian, Mexican, Columbian, Jamaican, French, Cuban experiences. Course objectives will be achieved through individual readings and study, and class activities and lectures. The methods used in this course include lectures, open discussions, seminar discussions, structured activities, and media and are designed to accommodate diverse learning styles.

### **AFAM-303. Global Collaborations-Ghana. 4 Hours.**

AFAM-303 provides students with an intensive, yet short-term cross-cultural exchange program that also provides significant experience in research and creative practices. Students travel to Ghana, West Africa, visit key cultural and historical sites, and engage in collaborative research and/or creative projects with students at Kwame Nkrumah University of Science and Technology (KNUST), guided by faculty from both NEIU and KNUST. Course sessions at NEIU before and after travel will frame the experience.

### **AFAM-319. Prehistory of Africa. 3 Hours.**

Africa is the sole source of evidence for the origins of human culture. Many significant cultural developments and technological innovations occurred first in Africa. This course surveys the archaeological evidence for the origins of human behavioral patterns from the earliest hominins to the eve of European colonization of this diverse continent. Principal course themes include: the origins of human culture; the Early, Middle, and Late Stone Ages; the origins of food production and complex societies; the history of ancient kingdoms including internal growth and external influences; the impact of Islam and the European contact with Africa. This course is cross-listed in the Anthropology Program (ANTH-319).

**AFAM-320. Religion And Healing In Africa and the African Diaspora. 3 Hours.**

In numerous contexts throughout Africa and the African Diaspora there are cultural institutions that bring together healing, religious practices, spirit possession, and expressive culture (including music, dance, and costume) and direct them toward resolving the bodily and social misfortunes of participants. This course will investigate variations and continuities amongst a range of examples of this cultural institution, including African independent Christian churches, Candomble, Santeria, Vodou, and the "cults of affliction" or "ngoma" of Africa, in order to understand the resilience and relevance of an institution by means of which participants both analyze and respond to the world around them. This course is cross-listed in the Anthropology Program (ANTH-320).

**AFAM-324. Black Girlhood Studies. 3 Hours.**

This course examines the complexities of Black girlhood, particularly from the perspectives of Black girls and women. From an examination of adultification to hypersexualization, this course offers a critical analysis of the various aspects and dynamics of Black girlhood, and how race/ethnicity, class, gender, sexuality, and ability specifically impact Black girls' lived experiences. This course spans a wide range of topics, from schooling experiences and representation of Black girlhood in popular culture, to the ways in which Black girls exert radical and humanizing agency — as artists, scholars, activists, and more, reframing dominant narratives about themselves and their communities.

**Prerequisite:** AFAM-200 with a minimum grade of C or WGS-101 with a minimum grade of C or SOC-100 with a minimum grade of C or SOC-105 with a minimum grade of C.

# Anthropology (ANTH)

---

## Courses

### **ANTH-109B. First Year Experience: Skeletons In Chicago's Closet. 3 Hours.**

Bones hold an enormous amount of information about individuals and populations. This active class investigates what can be learned from bones and teeth in the context of forensic anthropology, bioarchaeology, and paleobiology. We will start by learning the bones of the skeleton and move on to identifying age, sex, trauma, etc., in forensic and archaeological contexts. Finally, we will look at fossil bone and what it can reveal about past life. Students will work with bones and models in lab, complete group and individual projects, and will learn and apply useful techniques for college success. First year students only.

### **ANTH-109C. First Year Experience: Skin Of Chicago. 3 Hours.**

We wear about 9 lbs. of it every day, but we take most of its functions, adaptations, uses, and subtle cultural signals for granted. Skin is something everyone should know inside and out. For anthropologists, skin is a place where issues of biology, comparative anatomy, culture, evolution, archaeology, tradition, taboo, ritual, art, diversity, and race all come together. An understanding of human skin helps to turn over the judgments people make about others based on skin color. Using Chicago as a field laboratory, we will discover the wonders of skin, ever mindful of how we fit inside our own.

### **ANTH-109D. First Year Experience: Aliens, Curses, And The Chicago Cemetery: Explaining The Past. 3 Hours.**

Why have people proposed that aliens are responsible for the pyramids? This course explores how archaeologists evaluate data and reconstruct societies of the past by examining specific cases from scientific and other perspectives. You will also examine the implications of various interpretations of the past. The way we interpret the past can teach us a great deal about how modern thinking has informed, and is informed by, archaeology. This First Year Experience course counts for General Education credit in the Social/Behavioral Sciences.

### **ANTH-109E. FYE: Sweet Home Chicago: Identity And Culture In The Windy City. 3 Hours.**

Identities comprise our sense of who we think we are and can include but are not limited to those stemming from ethnicity, race, faith, gender, class, and ability. Using ethnographic readings, films about the city's subcultures, and students' own experiences, this course explores how Chicagoans identify with themselves and with one another. Students will use anthropology's insights to learn about different communities and neighborhoods and how and why identity matters. While covering a wide variety of topics, students will develop effective writing and communication skills that build a foundation for intellectual rigor and university success. First Year students only.

### **ANTH-201. Anthropology: Being Human. 3 Hours.**

Anthropologists study what it means to be human, across all regions of the world and from the origins of the human species to life today. ANTH-201 introduces students to the subjects, methods, and theories of the three major subfields of anthropology--cultural anthropology, archaeology, and biological anthropology--and examines both what makes the subfields distinctive and how they connect to and complement one another. We will apply the multiple perspectives of anthropology's subfields to contemporary issues in order to demonstrate the value of a holistic approach to understanding the human experience. Counts for either NS or SB GenEd credit.

### **ANTH-212. Introduction To Cultural Anthropology. 3 Hours.**

Cultural anthropology is the study of contemporary human social life. In this course, students learn about the discipline by reading its recent scholarship and experimenting with its research methods. The course addresses multiple, diverse domains of the human experience, including language and art, gender and sexuality, kinship and family, race and ethnicity, economics and politics, religion and health, globalization and migration. Students develop an appreciation for cultural diversity as they read the results of anthropological research conducted the world over and hone their analytical skills as they investigate the cultural worlds they engage with right here in Chicago.

### **ANTH-213. Introduction To Archaeology. 3 Hours.**

Archaeology focuses on past societies by uncovering and analyzing what they left behind. Students will explore the theories and methods archaeologists use to interpret, reconstruct, preserve, and ultimately learn from the past. This class highlights how archaeology can address important social, economic, and ideological questions including the origins of food production, social inequality, and civilization. This course fulfills General Education/UCC credit in the Social/Behavioral Sciences area.

### **ANTH-215. Human Origins And Adaptations. 3 Hours.**

This multi-faceted, data-oriented course explores the biological diversity of humans and other primates in the past and present. Using fossil casts, hands-on activities, and the scientific method, students will analyze the evidence for more than six million years of human evolution. This course reviews the principles of genetics and inheritance and examines the evolutionary processes that contribute to modern human variation. Students will also explore the ecology and behavior of lemurs, monkeys, apes, and other primates and their significance for understanding our origins.

### **ANTH-221. Peoples Of South America. 3 Hours.**

South America is home to the world's driest deserts, some of its highest mountains, one of its richest fisheries, and an immense area of lowland rainforest. Explore the contemporary peoples and cultures of South America from the colonial period to the 21st century from Panama to the tip of Argentina. Students will learn about the effects of European and later national policies on indigenous populations, as well as strategies of resistance to those external pressures. (C).

**ANTH-223. North American Indians. 3 Hours.**

This course examines the cultures of North American Indian populations from the time of European contact to the modern day. The record of Indian-non-Indian interactions and relationships from colonial times to the present is analyzed. Changes in Indian cultures are explored in light of external pressures from the state, environmental changes, and shifting internal dynamics. (C).

**ANTH-224. Contemporary African Culture. 3 Hours.**

This course introduces students to the diversity of contemporary African cultural life as it has been addressed by cultural anthropologists. In Africa one can find unique cultural practices and ways of living, as well as evidence that Africa is very much integrated into global economic and cultural flows. In this course students learn about Africans' experiences, both the patterns and the particularities, and gain a greater appreciation for the roles that Africans and African culture play in the world, including in the U.S. This course is cross-listed in the African and African American Studies Program (AFAM-224). (C).

**ANTH-225. Peoples Of Mexico/Central America/Caribbean. 3 Hours.**

This wide-ranging course surveys the contemporary peoples and cultures of Mexico, Central America, and the Caribbean Islands, focusing on the diversity of ethnicities, languages, and local perspectives and responses to colonialism and globalization. (C).

**ANTH-250. Latin American Archaeology. 3 Hours.**

Interested in the roots of Latin American culture? This course provides an introduction to ancient indigenous civilizations that rose in three different geographic regions of Latin America: The Maya of Belize, Guatemala, Honduras, El Salvador and Mexico; the Mexica or Aztec of the Central Mexican Highlands; and the Inka of the Andes Mountains of Peru, Bolivia, and Ecuador. The dramatic impact of Spanish contact and conquest on native populations will also be covered. This course is broadly comparative and relies heavily on visual media to convey essence of prehistory and early history of Latin American civilization. (A).

**ANTH-252. North American Archaeology. 3 Hours.**

This fascinating course explores the prehistory of Native Americans in the from the initial peopling of the New World through the subsequent domestication of plants and development of complex civilizations in the United States, Canada, and northern Mexico. The wide variation, and commonalities, in cultures, practices, and material remain are explored. (A).

**ANTH-257. Guts, Glory And Gridirons: Football As U.S. Culture. 3 Hours.**

Football plays an outsized role in U.S. culture. As the national pastime, football ramifies into diverse domains, such as cuisine, music, language and politics. This course surveys football historically and presently, including all age groups. Its purpose is to help students understand why we consider football as culture, controversial and a substratum of U.S. identity. Students will consider texts, films and podcasts from a variety of fields, such as anthropology, history, journalism, and literature. We will consider football as a reflection of contentious societal phenomena, such as physical well being, race, gender, class and sexuality.

**ANTH-261. Biology Of Behavior. 3 Hours.**

Why do we act the way we do? Are we at the mercy of our genes or does environment shape our behavior? This engaging course looks at the nature/nurture debate and will evaluate claims of the biological basis of behavior. Topics discussed include: communication and the origins of language, hormonal and genetic influences on behavior, sociobiology and the evolution of behavior, possible universals of human nature, and the use and misuse of biology to justify or condemn human behavior. Special emphasis on critical review of popular media claims of the biological basis of behavior. (B).

**ANTH-282. Primates Of The World. 3 Hours.**

Nonhuman primates pique our interests because they are simultaneously familiar yet exotic in their actions and interactions. From the bipedal hopping sifaka and the venomous loris to colorful monkeys and nepotistic chimpanzees, living nonhuman primates display an impressive assortment of behaviors, abilities, and adaptations. This class is an introductory survey of the diversity of our closest cousins, and will use readings, video, and lectures to highlight primate ecology, behavior, and the complex interactions between human and nonhuman primates. Students will learn how primatologists study primates in the wild and the different conservation efforts underway to protect their future. (B).

**ANTH-300. Writing Intensive Program: Writing In Anthropology. 3 Hours.**

This required course provides anthropology majors with practical training in all aspects of effective disciplinary writing, from the mechanical to the conceptual. Topics covered include: identifying and vetting sources, critical reading and note-taking skills, writing conventions, literature reviews, citations, crafting an argument, outlining, revision, academic integrity, and presentations. Students will engage in a series of stepped research and writing activities leading to a final project that demonstrates the skills accrued over the semester. This course fulfills the Writing Intensive requirement. It must be taken within 2 semesters of declaring the major and before taking most 300 level ANTH courses.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**ANTH-302. Human Osteology. 4 Hours.**

There are 206 bones in the adult human skeleton and more in that of a juvenile. Skeletal analysis is a core focus of biological anthropology with applications in archaeology, anatomy, medicine, forensics, and paleontology. This course represents an intensive study of the human skeleton focusing on bone growth, morphological variation (sex, ancestry, etc.), and identifying trauma/pathology. Students will learn to identify and side each bone, its landmarks, and bone fragments in fetal through adult skeletons. Class will include a mix of lecture and concentrated work with the osteology collection. Students will complete a comprehensive analysis of a human skeleton. (B).

**ANTH-303. Who Owns The Past?. 3 Hours.**

The past is not neutral, but is instead romanticized and glorified by political movements, sold for profit, re-enacted as entertainment, and consumed by tourists. This course examines the role of the past in the present from multiple perspectives, including those of scholars, museums, developers, collectors, descendant communities, local and national governments, NGOs, and the tourism industry. Understanding similarities and differences between multiple and often competing claims, valuations, and uses of the past demonstrate why the past matters in the present and, ultimately, for the future. (A).

**ANTH-305. Archaeology Of Conflict And Warfare. 3 Hours.**

This course adopts a comparative approach to the study of conflict and warfare in the ancient world. The scope includes prehistoric and historic time periods that represent a wide range in cultures and geography, and features examples from nearly all continents. Students will examine architecture, artifacts, bones, art, and more to explore the range and nature of human conflict, how it has changed over time, and some associated outcomes. Students will apply lessons of the past to modern situations and will also examine parallels with the modern era to emphasize the comparative perspective. (A).

**ANTH-306. The Rise Of Complex Societies: The Archaeology Of State Formation And Urbanization. 3 Hours.**

This course provides an in-depth, comparative exploration of the emergence of social hierarchy and centralized political formations in the Old and New Worlds. Students will become familiar with the political institutions, economic structures, and religious traditions of the world's earliest "civilizations" in the Americas, the Near East and China while probing anthropological theories on the rise of cities and states. Students will develop an understanding of the varied factors that drove parallel or divergent forms of social complexity and will partake in archaeological problem-solving involving both method and theory. (A).

**Prerequisite:** ANTH-213 with a minimum grade of C.

**ANTH-307. Anthropology Of Gender, Sexuality And The Body. 3 Hours.**

The course introduces students to approaches to gender in cultural anthropology, focusing especially on the body as the site where these historically and culturally specific notions of difference and identity are realized. Course materials address a variety of gendered bodily experiences cross-culturally and investigate the ways they are implicated in notions of masculinity and femininity. Course topics include initiation practices and other means of attributing sex/gender identities; reproduction and fertility control; beauty and body image; health and illness; warfare and violence; and sexuality and sexual orientation. (C).

**ANTH-309. Egyptian Archaeology. 3 Hours.**

This course explores ancient Egyptian society and culture from the Predynastic through the New Kingdom periods, with an emphasis on internal and external factors that helped shape and mold change and expansion of Egyptian society. Students will develop an understanding of long-term political, social, religious, and economic developments along the lower Nile River. (A).

**ANTH-310. Middle Eastern Archaeology. 3 Hours.**

The Middle East is widely known as "the cradle of Western Civilization," and this course explores the archaeological evidence for ancient cultures of the Middle East, particularly areas of modern-day Kuwait, Iran, Iraq, Syria, and Turkey, from prehistoric times to the fifth century B.C. Ancient Mesopotamian societies, including Akkadia, Assyria, Babylonia, and Sumer are examined through the end of the Iron Age. (A).

**Prerequisite:** ANTH-213 with a minimum grade of C.

**ANTH-311. Designing Your Future: Next Steps. 1 Hour.**

This course, open to all majors, highlights the relevance of a liberal arts education in today's world and the particular strengths it provides. The course guides students in identifying the key skills they have gained through completing their degree and in articulating the value of those skills to potential employers and graduate programs. Coursework includes a skills inventory, hands-on training in producing effective CV/resumes, cover letters, and graduate program statements of purpose, and a collaborative research project through which students will compile, analyze, and share information and planning regarding their postgraduation endeavors. Best taken in Jr. or early Sr. year.

**ANTH-313A. Chimpanzee 101: Community, Culture, And Conservation. 1 Hour.**

Field studies of wild chimpanzees in the 21st century have dramatically reshaped our understanding of these great apes and their kinship with us. It is clear that chimpanzees display an exceptional level of behavioral diversity and that some learned behaviors are passed through the generations within distinct communities. This one credit course takes a deep dive into chimpanzee behavioral ecology, hunting and tool culture, and will also detail recent community conservation efforts to protect chimpanzees and support their human neighbors. Prior anthropology coursework not necessary; just bring your curiosity to learn about our closest biological relatives. (B).

**ANTH-313C. 23 And Who?: Realities Of Personal Genetic Testing. 2 Hours.**

Millions of people – maybe you too – have sent a sample of their DNA to direct-to-consumer genetic testing companies who promise results indicating ethnicity, ancestry, mental health insights, disease risk, Neandertal-relatedness, and so much more. This 2 cr. class will explore the phenomenon of personal genetic testing, its benefits and limitations, and the nature of genetic indicators for ancestral origins. Students will also examine personal privacy concerns as well as ethics and group identity issues that arise from the industry, including use of the growing DNA databases by law enforcement, pharmaceutical and insurance companies, and governments. (B).

**ANTH-313D. Dog Is My Copilot: The Enduring Relationship Between Humans And Canines. 1 Hour.**

This interdisciplinary course addresses relationships between people and dogs across time and space. Dogs were the first animals domesticated by humans, and our physical and social evolutions were closely entwined. As in-between figures, straddling wild and domestic, animal and human, and nature and culture, dogs blur the boundaries of taken-for-granted categories. Dog-human relationships both point out the limitations and extend the possibilities of what and who we are, individually and in relation to one another. We will investigate what these relationships reveal about constructions of personhood, enactments of family and relatedness, and animal ethics.

**ANTH-313F. Anthropology And Film. 1 Hour.**

Anthropologists have long used film as research method and means of presenting findings. As do written ethnographies, ethnographic films raise questions about representation that have been at the heart of auto-critiques within the field. Whereas earlier ethnographic films sought to portray "disappearing worlds" and anthropologists as off-screen narrators, contemporary films are collaborative, reflexive, experimental, and challenge the boundaries between documentary and other kinds of filmmaking. We will read about and watch many examples of ethnographic films. In addition, we will look through the other end of the lens and examine how anthropology and anthropologists have been portrayed in popular film.

**ANTH-314. Anthropology Of Religion. 3 Hours.**

Study of the ways that religions, both past and present, act to support or alter the social systems or sub-systems with which they are associated. The ways that individuals respond to the value systems and world views of various religions are examined, as well as the individual motivations for adherence to the various religions. (C).

**Prerequisite:** ANTH-212 with a minimum grade of C.

**ANTH-315. Greek Archaeology: Bronze Age. 3 Hours.**

The archaeology of Aegean Greece, from 3600-1000 BCE, is the focus of this engaging course. It includes the ancient societies of mainland Greece, Crete, and the Cyclades. As the origins of dynamic city-states, urbanization, art, and a writing system in the eastern Mediterranean, these areas are not only fascinating in their own right, but also prefigured later Classical and Hellenistic civilizations. (A).

**ANTH-316. Greek Archaeology: Classical Age. 3 Hours.**

This course explores the archaeology of ancient Greece from the end of the Bronze Age (1000 BCE) through the death of Alexander the Great (323 BCE). This fascinating era includes an examination of the Greco-Persian wars and the Greek colonization of Spain, France, Italy, and the shores of the Black Sea. We will explore the roles that politics, religion, and commerce played in the development of Classical Greek society, as evidenced in the archaeological record. (A).

**Prerequisite:** ANTH-213 with a minimum grade of C.

**ANTH-317. Medical Anthropology. 3 Hours.**

This course presents cultural anthropological perspectives on the subjects of health, illness, and healing. Students are introduced to illness categories, healing practices, relationships between patients and healers, and notions of the body as they exist cross-culturally. Course materials will address health and healing as associated with biomedicine, religion, spirit possession, and a range of other cultural responses to human suffering and its resolution. (C).

**ANTH-319. Prehistory Of Africa. 3 Hours.**

Africa is the sole source of evidence for the origins of many significant cultural developments and technological innovations. This course surveys the archaeological evidence for human behavioral patterns from the earliest hominins to the eve of European colonization of this highly diverse continent. Principal themes include: origins of human culture; Early, Middle, and Late Stone Ages; origins of food production and complex societies; history of ancient kingdoms including internal growth and external influences; and the impact of Islam and the European contact with Africa. This course is cross-listed in the African and African American Studies Program (AFAM-319). (A).

**ANTH-320. Religion In Africa. 3 Hours.**

Religion is a subject that has fascinated anthropologists since the discipline's beginnings. In this course, we look at religion as it is practiced across the African continent, in all its diversity and complexity. Readings include ethnographic examples of African approaches to Christianity, Islam, spirit possession, and religious healing that reveal the relevance of practices by means of which participants both analyze and respond to the world around them. This course is cross-listed in the African and African American Studies Program (AFAM-320). (C).

**ANTH-321. Race And Language. 3 Hours.**

Communication is fundamental to human life and to who we are. This course explores how and why people talk, write, and interact, to establish, convey, and negotiate race. Students will use ethnographic examples, assigned readings, podcasts, and films to survey the anthropological understanding of race, language, and culture. Whether in the context of language socialization through storytelling, or multilingualism and language ideologies, everyday speech is social action that informs power, agency, representation, and identity. Cross-cultural examples include Black ASL, e-chat, landscape memories for Western Apache, "jock talk," and experiences of race, ethnicity, and nationality for Chicago Latinx youth. (C).

**ANTH-323. Evolution Of Skin Color. 3 Hours.**

Human skin color displays a magnificent range of variation that far exceeds the black and brown and white we speak of everyday. This class examines the biology and evolution of human skin pigmentation and how anthropologists study a feature that leaves no fossil trace. Drawing from a diversity of fields, students will explore the biology of skin pigmentation, the factors that affect it temporarily, and the evolutionary processes that have produced the range we see in the world today. Understanding the biological nature of skin color will help to temper the cultural biases we have ascribed to it. (B).

**ANTH-325. Archaeology Of Sex, Gender, And Sexuality. 3 Hours.**

This course explores sex, gender, and sexuality in archaeology, historically, theoretically, and methodologically. Students will engage with a variety of perspectives and frameworks, including feminist approaches, for understanding the construction of personhood in the past, with attention to the relationship between concepts, practice, and evidence. The course will cover case studies from a diversity of temporal periods and geographic regions, placing emphasis on the articulation of gender with other aspects of identity and difference. Students will also examine the political implications of archaeological studies of gender, including perspectives and practices that foster a diverse and inclusive discipline.

**ANTH-327. Dental Anthropology: Dental Morphology, Evolution, And Adaptation. 3 Hours.**

This class will explore the evolution of mammalian teeth with a specific focus on primates. Students will first study the morphology, development, and functional adaptations of dentition. Special attention will be paid to the relationship between dentition and feeding ecology. The second portion of the class will primarily focus on the human dentition. Topics covered will include dental traits, the genetics of trait inheritance, geographic variability, and the application of dental anthropology in the bioarchaeological context. Throughout the semester students will be able to handle and study dental casts and will complete in-class labs on a variety of topics.

**Prerequisite:** ANTH-215 with a minimum grade of C.

**ANTH-329A. Evolution Of The Human Diet. 3 Hours.**

The human diet is a product of evolution, culture, and the environment. This class will explore nutrition, its influence during development, the role of diet in human speciation events, and evidence of diet in the archaeological record. Students will examine foraging strategies in contemporary human populations and how food choice might be influenced by genetics. Health implications of dietary shifts, including the development of agriculture and industrialization, will also be discussed. Finally, a portion of the course will focus on how non-human primate dietary adaptations and behaviors can be used to better understand our own lineage's changing dietary profile. (B).

**Prerequisite:** (or) and.

**ANTH-332. Human Growth And Development In Evolutionary Perspective. 3 Hours.**

Anthropologists study the dynamics of human growth and development from an evolutionary perspective. In this course, we will investigate the history of the study of human growth and the biological principles of growth. Students will examine the genetic and hormonal effects on human and other mammal growth including nutrition, disease, socio-economic status, pollution etc. Highlighting unique features of human growth in its various stages, we will also examine how anthropologists interpret variation in growth patterns among human populations and the possible adaptive significance of this variation. (B).

**Prerequisite:** ANTH-215 with a minimum grade of C.

**ANTH-335A. Zooarchaeology. 3 Hours.**

Zooarchaeology focuses on the identification and analysis of faunal (animal) remains from archaeological sites and what they can tell us about past human ecology and behavior. Zooarchaeologists study which animals were hunted and how they were butchered, prey and camp seasonality, the role of hunting versus scavenging, and the processes of animal domestication. This course will introduce students to theory and method in zooarchaeology and the basics of faunal analysis using lecture, review of current professional literature, discussion, and hands on labs. Students will relate their findings to broader questions in archaeology, paleontology, and paleoanthropology. (A).

**Prerequisite:** ANTH-213 with a minimum grade of C.

**ANTH-337A. Anthropology Of Death. 3 Hours.**

In death, the human body is transformed by the living into a powerful symbol. Treatment of the corpse is linked to ideas of death, the afterlife, and social boundaries. Studies of ancient burials reveal the nature of funerary practice and belief, as well as social organization. Human remains are often involved in rites of passage where the deceased are separated from the living and transformed into ancestors and other beings. This course focuses on how anthropologists study funerary rituals and beliefs about death from a cross-cultural perspective, and will examine the meaning of human practices of death and burial. (A).

**ANTH-339. Paleoanthropology: The Fossil Record Of Human Evolution. 3 Hours.**

Paleoanthropology is the study of the human fossil record. This exciting course examines over 7 million years of human evolution and the biological processes that have shaped this most unique radiation. Using fossil casts, computer models of early humans as well as replicas of archaeological artifacts, students will explore the fundamentals of paleoanthropological research. The course will detail the controversies and differing interpretations of the fossil evidence for human evolution including the most current proposed evolutionary relationships of early humans to *Homo sapiens*. (B).

**Prerequisite:** ANTH-215 with a minimum grade of C.

**ANTH-343. Anthropology Of The Body. 3 Hours.**

The human body is a simultaneously biological and cultural entity—bones, blood, and flesh reveal the processes of biological evolution and also reflect cultural practices and ideas. This course takes a holistic approach to the body by juxtaposing perspectives from biological and cultural anthropology. For example, blood has adaptive biological qualities and is also a cultural metaphor for familial, ethnic, and national belonging. Senses reveal the evolutionary divergence of the human lineage and have prominent roles in different religious and healing practices. At the intersection of these perspectives lie significant insights regarding what it means to be a human being.

**ANTH-349E. Environmental Archaeology. 3 Hours.**

This course will provide an overview of how archaeologists study human-environment relationships. It will treat landscapes as dynamic products of natural processes, cultural activities, and social practices and expose students to the various techniques and methods by which archaeologists reconstruct ancient human-environment relationships, ranging from geomorphological to paleoecological methods. In addition to surveying techniques and methods useful to environmental archaeology, the course materials will include a series of empirical case studies detailing the anthropogenic landscape histories of several world regions. (A).

**Prerequisite:** ANTH-213 with a minimum grade of C.

**ANTH-349S. Archaeology of South Asia. 3 Hours.**

This course surveys the archaeology of South Asia, beginning with animal and plant domestication in the early Holocene and ending with the arrival of the British East India Company in the 17th century AD. Given the chronological breadth and spatial scope, the class will most fully detail archaeological and historical periods that contribute significantly to anthropological questions on the origins of domestication, the development of complex societies, the role of religion in early state authority, climate change and cultural change in the past, and the relationships between ancient agricultural and pastoral-based societies. (A).

**Prerequisite:** ANTH-213 with a minimum grade of C.

**ANTH-355. History Of Anthropology. 3 Hours.**

The course addresses developments in anthropology by tracing changes and continuities in the topics, theories, and methods employed in archaeology, biological anthropology, and cultural anthropology. Students will focus on the ideas and approaches that have informed the trajectory of a particular subfield. The course provides a historical context that enriches an understanding of anthropology not only as a field, but also as a part of a long, multidirectional disciplinary conversation.

**ANTH-356. Human Diversity And The Question Of Race. 3 Hours.**

Humans display a wide range of variation in their physical attributes. What is the relationship between this variation and racial categories and identities, and how has racial pseudo-science misled our understanding of actual biology? This thought-provoking anthropology course examines the hereditary, environmental, and evolutionary basis of how and why humans vary in features like skin color, eye shape, hair type, body proportions, freckles, blood type, disease susceptibility/resistance, and many other biological traits. Students will examine the range of human adaptations to different climates and environments and also learn why evolution sometimes operates to maintain deleterious traits in a population. (B).

**Prerequisite:** ANTH-215 with a minimum grade of C or BIO-303 with a minimum grade of C.

**ANTH-357. Economic Anthropology: Shells, Pigs, And Gold. 3 Hours.**

Is greed simply a part of human nature? do all humans simply have endless wants and desires for material goods? More than a century ago anthropologists began questioning assumptions of classical Western economics, and began to show that societies have diverse values as people pursue wealth and the good life. The course design gives students insights into the variety of economic systems by tapping into ethnographic literature that has overturned mainstream economic wisdom. Take a look at economics from a fresh and intriguing micro-level perspective that incorporates many other aspects of cultural life, including marriage and ecology. (C).

**ANTH-359. Museum Studies. 3 Hours.**

This course takes a multi-disciplinary approach to the study of museums, cultural heritage institutions, and natural history organizations and the contemporary issues and challenges facing them. Students will examine the theory and organization of museums as well as their historical and contemporary role in education, cultural preservation, research, and interpretation. This course will also take a critical look at the role of museums in colonialist endeavors, and at how they address social hierarches, race, and ethnicity. Students will enrich their classroom learning with working visits to a diversity of institutions in the Chicago area. Course is open to all majors.

**ANTH-360. Scientific Racism: Eugenics Then And Again. 3 Hours.**

Employing the new science of genetics, the early 1900's eugenics movement misused evolutionary principles to assert a racist, ableist agenda arguing for the inherent superiority and inferiority of different social groups. With widespread support from scientists, the movement resulted in laws governing marriage, immigration, incarceration, and reproduction. U.S. eugenics was so successful that its perspectives were adopted by the Nazis. This class will critically examine the misuse of science in eugenics and its legacy of racist ideas that continue to inform policy and popular imagination today. Students will also learn legitimate ways of invoking genetics relative to human variation. (B).

**ANTH-363. Anthropology Of Tourism. 3 Hours.**

This course introduces students to anthropological theories on tourism and to consider those theories in the contexts of the varied sites and forms of tourism practiced around the world today. The course will take a look at mass tourism as well as tourism that makes an effort to get "off the beaten track" in search of "authenticity" and "adventure" while also experiencing local tourist sites, commercialism, and cultural production of these contexts. Note that this course includes several field trips within Chicago.

**Requirement:** 45 credit hours completed.

**ANTH-364. Culinary Anthropology. 3 Hours.**

Anthropologists and historians research behaviors, origins, and traditions of human association with a variety of foodstuffs and foodways. We do so all in an effort to answer the "when", "how", and "why" questions connected to particular foods and the contexts in which eating them became appropriate and sought after. In this course we explore eating, foodstuffs, and cookery from nutritional, artistic, sensual, political, socioeconomic, and popular perspectives, among others. Students also explore Chicago's world cuisines by dining in and out in a variety of symposia, combining good eating and good thinking. (C).

**Prerequisite:** ANTH-212 with a minimum grade of C or HIST-111 with a minimum grade of C.

**ANTH-365. Anthropology Of Islam. 3 Hours.**

Do all Muslims practice their faith in the same way? Is there really only one type of Muslim society? Based on consideration of major Islamic beliefs, the history of Islamic expansion and civilization, and the cultures of contemporary Muslim societies, the thesis of this course is that there are numerous cultural approaches to Islam. Students learn by reading within and outside of anthropology to better inform themselves of contemporary issues and understandings of the dynamism that characterizes Islamic cultures. (C).

**ANTH-368. Primate Biology And Adaptation. 3 Hours.**

The primate adaptive radiation is over 50 million years old and exhibits some of the most striking anatomical adaptations found among mammals. This course focuses on the morphological diversity of primates. We will first examine the evolution of traits that distinguish primates from other mammals, and will then shift focus to features that differentiate species and lineages within the Order. Specifically, adaptations related to diet, feeding, foraging, communication, predator avoidance, positional behavior, habitat, reproduction, among others, will be highlighted. Students will work extensively with scientific literature and the bone and cast collection. (B).

**Prerequisite:** ANTH-215 with a minimum grade of C or ANTH-282 with a minimum grade of C or BIO-320 with a minimum grade of C or BIO-327 with a minimum grade of C.

**ANTH-371. Forensic Anthropology. 3 Hours.**

Forensic anthropology is an applied science that uses the methodology of biological anthropology to evaluate human skeletal remains in a medico-legal context. This course focuses on the theory and practice of building biological profiles and analyzing circumstances surrounding human death. Students will review the current state of forensic anthropology using published studies on estimating age/sex/ancestry/etc., identifying bone trauma and the postmortem interval, and applying methods of individuation (facial reconstruction, odontology, X-ray, DNA, etc.). The course also highlights the ethics and cross-disciplinary nature of forensic anthropology, and its central role in mass/natural disasters and worldwide human rights violations. (B).

**Prerequisite:** ANTH-215 with a minimum grade of C or ANTH-302 with a minimum grade of C.

**ANTH-373. Urban Anthropology. 3 Hours.**

Urban anthropology is the holistic study of human beings in cities. This course addresses various aspects of the broad sweep of urbanization, from the ancient urban revolution of the present shift to a majority of people living in cities, focusing especially on the urban United States. We will engage with anthropological work that balances social theory with rich ethnographic portraits, opening debates on the meanings and values of urban life. We will examine race, gender, inequality, institutions, and case studies on immigration, gentrification and sustainability, and using Chicago as our laboratory, students will conduct and write ethnographies of their own. (C).

**Prerequisite:** ANTH-212 with a minimum grade of C.

**ANTH-374. The Maya. 3 Hours.**

This is an exciting and in-depth exploration of ancient Maya society from its origins to Spanish contact. The course reviews chronologies, geography, and time periods used by Mayanists to help understand larger trends in Maya society. You will also evaluate issues and debates that currently exist within Maya studies. These include questions of economy, politics, social organization, religion, and ideology. Finally, the decipherment of the Maya script is examined. You will have the opportunity to critically examine a specific topic during the semester. (A).

**Prerequisite:** ANTH-213 with a minimum grade of C or ANTH-250 with a minimum grade of C.

**ANTH-375. Anthropology Of Globalization. 3 Hours.**

The course will address social forces, practices, and experiences related to the ever-increasing transnational interconnectedness of societies across the world. Through readings from the anthropological literature on globalization and related issues, we will critically address the ways "globalization" is conceived and theorized by contemporary scholars; its effects on the construction of identity; the roles of commodities, consumer culture, and the media; and the ways in which the processes referred to as globalization both broaden and expand notions of "community" and "culture", and present new varieties and intensities of difference, disjuncture, and marginalization. (C).

**ANTH-376. Primate Behavior. 3 Hours.**

One of the evolutionary hallmarks of being a primate is sociality and primates exhibit a diverse array of behavioral adaptations for navigating complex social groups. Primate behavioral ecology is a fascinating field that informs our understanding of primate interactions and the origins of our own behavior. This course will highlight how primatologists study behavior and how evolution and ecological variables shape primate sociality in the contexts of group structure, male/female dynamics, reproduction, feeding, predation pressure and social learning, among other topics. Students will examine the diversity of primate sociality using current primatological literature, discussion, video, assignments and zoo visits. (B).

**ANTH-377A. Anthropology Of Television. 3 Hours.**

Cultural anthropologists have long trained their sights on the ordinary practices of everyday life, understanding that careful study of mundane activities yields insights into the weightiest questions of human experience. However, despite its ubiquity in popular culture and centrality as a form of representation and forum for cultural debate, anthropologists have only slowly come to the study of television. This course addresses the relatively recent but burgeoning anthropology of television and suggests that attention to the ways people around the world make, watch, interpret, discuss, and critique television programs provides an important vantage on the workings of culture, power, and knowledge in the contemporary world.

**ANTH-378. Anthropology Of Power. 3 Hours.**

The study of politics concerns who gets what, why, and how in societies. Anthropologists study political systems by examining the varieties of human practices involving rules and laws, persuasion and coercion. This course surveys how politics have been studied by anthropologists for the past 130 years, from indigenous North Americans to Trobriand Islanders and especially how anthropologists increasingly became political themselves as more and more peoples began living under the authority of modern nation states. (C).

**ANTH-379A. Pan-African Association Internship. 3 Hours.**

Interns work 10 hours per week for the duration of a semester at the Pan-African Association, an organization that provides services to refugees in Chicago. Interns assist with in-home mentoring, English language training, job readiness training, and community outreach, among other duties and projects. The PAA Internship provides high-achieving Northeastern students with the opportunity to learn about the experiences of refugees in the U.S. and gain experience in the work of a refugee services organization and provides PAA with committed, hardworking students who can serve the goals of the organization and the needs of its clients.

**Prerequisite:** ANTH-212 with a minimum grade of C or GS-201 with a minimum grade of C.

**ANTH-380. Archaeological Field School. 6 Hours.**

Want to work on an archaeological site? In this intensive field course, students will explore field, lab and survey techniques on an actual archaeological dig. Students will learn excavation techniques and protocol in the treatment and recovery of artifacts, ecofacts, features, and structures. Students will also develop skills in mapping and use of various field technologies including GPS. Instruction will also include lab methods for processing, analyzing and curating material remains. Location of Field School may vary year to year. (A) Prereq.: ANTH-213 or ANTH-250 or ANTH-374 or consent of instructor.

**ANTH-3811. Independent Study In Anthropology. 1 Hour.**

Academic credit for special research project student conducts with individual guidance from a faculty member. Projects that could be completed in an established course are not appropriate for Independent Study. Student must submit project proposal to the faculty member in the semester prior to the one in which project is to be conducted; see "Individualized Study" in anthropology program entry for more information. Student must have completed two courses in the anthropological subdiscipline of proposed topic prior to enrolling in Independent Study. Independent Study requires approval of instructor, department chair and college dean. (A,B,C) Prereq.: Consent of Instructor.

**ANTH-3812. Independent Study In Anthropology. 2 Hours.**

See course description for ANTH-3811.

**ANTH-3813. Independent Study In Anthropology. 3 Hours.**

See course description for ANTH-3811.

**ANTH-3821. Fieldwork In Anthropology. 1 Hour.**

Academic credit for ethnographic, primatological, archaeological, paleontological, forensic, applied, or other relevant and typically off-campus anthropological fieldwork opportunities arranged for by the student. Student enrolls with anthropology faculty member who guides and oversees work. Fieldwork in Anthropology credits are designed to help students improve research skills, apply principles learned in the classroom, take advantage of fieldwork opportunities, and explore career options. Students must have completed two courses in the anthropological subdiscipline of the proposed fieldwork prior to enrolling in Fieldwork in Anthropology. Fieldwork in Anthropology requires approval of instructor, department chair and college dean. (A,B,C).

**ANTH-3822. Fieldwork In Anthropology. 2 Hours.**

See course description for ANTH-3821.

**ANTH-3823. Fieldwork In Anthropology. 3 Hours.**

See course description for ANTH-3821.

**ANTH-3824. Fieldwork In Anthropology. 4 Hours.**

See course description for ANTH-3821.

**ANTH-3871. Field Museum Internship. 1 Hour.**

Student intern assists Field Museum staff behind the scenes in the Mammals section (anatomy, prep, curation) or Anthropology section (scientific illustration). Work varies with assignment and can include specimen preparation/processing, collections management, resolving taxonomic issues, research, data management, apprenticeship with professional illustrator, and more. Internship requires significant commitment of 15-20 hours/week for the semester and a journal or final project depending on credit hours (1-6). Additional requirements listed in Anthropology entry of online Academic Catalog. Eligible students apply for internship through NEIU Anthropology Department. Approval is subject to consent of Field Museum staff. (B).

**Prerequisite:** ANTH-302 with a minimum grade of C or ANTH-368 with a minimum grade of C.

**ANTH-3872. Field Museum Internship. 2 Hours.**

(See ANTH-3871 for description.).

**Prerequisite:** ANTH-302 with a minimum grade of C or ANTH-368 with a minimum grade of C.

**ANTH-3873. Field Museum Internship. 3 Hours.**

(See ANTH-3871 for description.).

**Prerequisite:** ANTH-302 with a minimum grade of C or ANTH-368 with a minimum grade of C.

**ANTH-3874. Field Museum Internship. 4 Hours.**

(See ANTH-3871 for description.).

**Prerequisite:** ANTH-302 with a minimum grade of C or ANTH-368 with a minimum grade of C.

**ANTH-3875. Field Museum Internship. 5 Hours.**

(See ANTH-3871 for description.).

**Prerequisite:** ANTH-302 with a minimum grade of C or ANTH-368 with a minimum grade of C.

**ANTH-3876. Field Museum Internship. 6 Hours.**

(See ANTH-3871 for description.).

**Prerequisite:** ANTH-302 with a minimum grade of C or ANTH-368 with a minimum grade of C.

**ANTH-3891. Lincoln Park Zoo Research. 1 Hour.**

Student works with Lincoln Park Zoo biologists on a zoo-sponsored research project on primate or other mammal species. Focus can include: development and implementation of research design, ethological data collection including behavioral observations, analysis etc. Student arranges for project through NEIU Anthropology Department. These credit hours require a significant commitment on the part of the student and are only open to highly motivated, responsible students. Arrangements are subject to consent of Lincoln Park Zoo staff. Approximate credit to field hour ratios from 1cr., 50 field hours to 6 cr., 300 field hours. (B) Prereq.: ANTH-376.

**Prerequisite:** ANTH-376 with a minimum grade of C.

**ANTH-3892. Lincoln Park Zoo Research. 2 Hours.**

(See ANTH-3891 for description.).

**Prerequisite:** ANTH-376 with a minimum grade of C.

**ANTH-3893. Lincoln Park Zoo Research. 3 Hours.**

(See ANTH-3891 for description.).

**Prerequisite:** ANTH-376 with a minimum grade of C.

**ANTH-3894. Lincoln Park Zoo Research. 4 Hours.**

(See ANTH-3891 for description.).

**Prerequisite:** ANTH-376 with a minimum grade of C.

**ANTH-3895. Lincoln Park Zoo Research. 5 Hours.**

(See ANTH-3891 for description.).

**Prerequisite:** ANTH-376 with a minimum grade of C.

**ANTH-3896. Lincoln Park Zoo Research. 6 Hours.**

(See ANTH-3891 for description.).

**Prerequisite:** ANTH-376 with a minimum grade of C.

**ANTH-390A. Senior Thesis Research. 2 Hours.**

High achieving anthropology majors may enrich their academic experience by conducting a senior thesis. Student enrolls in Senior Thesis Research hours for the first semester and works one-on-one with faculty thesis advisor to develop project and outline steps and a timeline for completion. Grade earned will be based on the completed thesis proposal and other requirements as agreed to by student and thesis advisor. Other requirements may include obtaining necessary outside permissions, completion of literature review, data collection, etc. See anthropology program entry above for minimum GPA and additional requirements. Prereq.: Consent of faculty mentor.

**ANTH-390B. Senior Thesis Writing. 2 Hours.**

Student enrolls in Senior Thesis Writing for the 2nd semester of their thesis project in order to complete thesis. Student works one-on-one with faculty thesis advisor to develop project and outline steps and a timeline for completion. Grade earned will be based on the completed thesis. Final thesis product must follow departmental thesis format guidelines. Student is strongly encouraged to present their work at the annual NEIU Student Research/Creative Activities Symposium or similar venue. See "Senior Thesis Option" in anthropology program entry above for additional information. Prereq.: ANTH-390a.

**Prerequisite:** ANTH-390A with a minimum grade of C.

**ANTH-401. Independent Graduate Study In Anthropology. 3 Hours.****ANTH-477A. Anthropology Of Television. 3 Hours.**

Cultural anthropologists have long trained their sights on the ordinary practices of everyday life, understanding that careful study of mundane activities yields insights into the weightiest questions of human experience. However, despite its ubiquity in popular culture and centrality as a form of representation, anthropologists have only slowly come to the study of television. This course addresses the relatively recent but burgeoning anthropology of television and suggests that attention to the ways people around the world make, watch, interpret, discuss, and critique television programs provides an important vantage on the workings of culture, power, and knowledge in the contemporary world.

# Arabic (ARAB)

---

## Courses

**ARAB-101. Arabic I. 3 Hours.**

Development of basic skills in listening, speaking, reading and writing. Cultural appreciation.

**ARAB-102. Arabic II. 3 Hours.**

Continuation of ARAB-101.

**Prerequisite:** ARAB-101 with a minimum grade of D.

**ARAB-203. Arabic III. 3 Hours.**

Arabic III is the continuation of the sequence of Arabic I and Arabic II. Students develop proficiency of Modern Standard Arabic in listening, speaking, reading and writing at the Intermediate Low level, using Arab cultures as content for the development of these skills.

**Requirement:** must have course prerequisite or by placement exam

**Prerequisite:** ARAB-102 with a minimum grade of C.

# Aramaic (ARAM)

---

## Courses

### **ARAM-101. Aramaic Language. 3 Hours.**

This course is designed for students with little to no experience in the Aramaic language. Students will develop knowledge through an emphasis on reading, listening, writing and speaking. Basic grammatical structures and new vocabulary will be introduced, as well. Upon completion, students will be able to comprehend and respond in Aramaic at the Beginning-Mid level.

### **ARAM-102. Aramaic Language II. 3 Hours.**

This course is designed for students who have successfully completed ARAM-101. Students will continue to develop their reading, listening, writing and speaking skills through an emphasis on grammatical structures and new vocabulary to the Beginning-High level.

**Prerequisite:** ARAM-101 with a minimum grade of C.

# Art (ART)

---

## Courses

### **ART-109. First Year Experience: Art, Architecture And Urban Design In Chicago. 3 Hours.**

This field-based course explores art in an urban environment, examines the relationships between art and urban culture, and considers the role of art in an urban setting. Students will gain a familiarity with Chicago as a cultural home; they will evaluate the role of public art in Chicago, examine the design and purpose of open spaces, and gain a familiarity with the Chicago school of architecture.

### **ART-109B. First Year Experience: ChicaGo Create: Graphic Design For Fun & Communication. 3 Hours.**

This course examines the lively graphic design community of the city of Chicago. Lectures will focus on introducing graphic design topics to students, as well as learning the skills needed to succeed in college. Students will learn about our community, local arts, local graphic designers and get the opportunity to learn basic design principles. This course includes field trips.

### **ART-120. Drawing I. 3 Hours.**

This course focuses on basic drawing skills and stresses individual perceptual growth and the importance of physical and psychological factors in structuring visual experiences. Emphasis is placed on design and perception as well as the discussion of systems of perceptual interpretation and structure, concepts of abstraction and problems of evaluation.

### **ART-130. Two-Dimensional Design. 3 Hours.**

Systematic exploration of order in two-dimensional space and study of the interaction of method and technique in organizing form on a two-dimensional surface.

### **ART-140. Three Dimensional Design. 3 Hours.**

Studio experience and lecture exploring fundamental 3-D design theory and concepts through the solution of studio problems utilizing 3-D materials and techniques.

### **ART-170A. Studio Experiences: Photography. 3 Hours.**

Problem solving approach in studio experiences with lecture and discussion. This course does not count towards major or minor requirements in Art.

### **ART-170B. Studio Experiences: Painting. 3 Hours.**

Problem solving approach in studio experiences with lecture and discussion. This course does not count towards major or minor requirements in Art.

### **ART-170C. Studio Experiences: Sculpture. 3 Hours.**

Problem solving approach in studio experiences with lecture and discussion. This course does not count towards major or minor requirements in Art.

### **ART-170E. Studio Experiences: Printmaking. 3 Hours.**

Problem solving approach in studio experiences with lecture and discussion. This course does not count towards major or minor requirements in Art.

### **ART-170F. Studio Experiences: Ceramics. 3 Hours.**

Problem solving approach in studio experiences with lecture and discussion. This course does not count towards major or minor requirements in Art.

### **ART-170G. Studio Experiences: Drawing. 3 Hours.**

Problem solving approach in studio experiences with lecture and discussion. This course does not count towards major or minor requirements in Art.

### **ART-170H. Studio Experiences: Graphic Design. 3 Hours.**

Problem solving approach in studio experiences with lecture and discussion. This course does not count towards major or minor requirements in Art.

### **ART-220. Drawing II. 3 Hours.**

This course expands on perceptual drawing techniques through still-life, figure, and other subjects. Color theory and abstraction are explored for compositional, spatial, and expressive outcomes leading to individual growth.

**Prerequisite:** ART-120 with a minimum grade of C.

### **ART-230. Painting I. 3 Hours.**

This introductory painting course familiarizes students with the painting process. Using oil paint as medium, students will explore themes such as still life, abstraction, symbolism, and the landscape. Students will be exposed to a variety of oil painting techniques and materials.

**Prerequisite:** ART-120 with a minimum grade of C.

### **ART-234. Digital Foundations. 3 Hours.**

This course addresses foundational toolsets in the Adobe Creative Suite while introducing students to the basic logical processes required for using code as a creative material. This course combines technical training with processed based creative projects in order to familiarize students with the essential tools and modes of thinking for creating digital art and design. Students will gain an essential understanding of the importance of digital literacy and content creation within broad professional disciplines.

### **ART-240. Sculpture I. 3 Hours.**

This introductory sculpture course familiarizes students with traditional and contemporary sculpture concepts, and exposes students to an overview of processes, tools, and materials used in sculpture. Students will also explore modeling, casting, and construction techniques.

**Prerequisite:** ART-140 with a minimum grade of C.

**ART-250. Printmaking I. 3 Hours.**

This introductory printmaking course emphasizes the processes of intaglio and relief. This course will also explore the possibility of the monoprint, as well as introduce basic research methods associated with personal studio practice.

**Prerequisite:** ART-120 with a minimum grade of C.

**ART-261. Photography I. 3 Hours.**

This course will familiarize students with digital photography techniques and computer software to use photography as a creative medium. Students will be introduced to basic aesthetic grammar of photography and a preliminary historical context for visually analyzing and creating photographs.

**Prerequisite:** ART-130 with a minimum grade of C.

**ART-270. Ceramics I. 3 Hours.**

This introductory ceramic course explores building techniques, surface treatment, design and decoration of ceramic objects. Through class projects students will be introduced to a variety of methods of constructing sculptural as well as functional objects. Focus will be placed on technique, craftsmanship and the development of individual artistic direction.

**Prerequisite:** ART-140 with a minimum grade of C.

**ART-280. Art + Tech I. 3 Hours.**

Through tutorials, collaborative experimentation and guided studio time this course introduces students to a variety of topics related to the intersection of art and technology. The course will survey techniques to utilize web code as a creative medium, design and digitally fabricate objects, investigate modes of interactivity via physical computing and reshape the frame of moving images. Readings will provide a historical and technical framework for examining the ever-evolving role that technology plays within society. Lectures will encourage students to approach software and electronics as art materials, while hands-on tutorials and collaborative making will encourage skill development.

**Prerequisite:** ART-234 with a minimum grade of C.

**ART-281. Graphic Design I. 3 Hours.**

This course is an introduction to techniques and concepts of graphic design and visual communication. Lectures and studio time will be used to analyze and practice applied creative activities in design, which includes image-making, typography and layout, as well as its historical and contemporary social aspects.

**Prerequisite:** ART-130 with a minimum grade of C.

**ART-285. Image. 3 Hours.**

Image class offers a guided exploration of techniques and processes used to create images for the purpose of specific communication. The course pays special attention to current trends in graphic design and fine art and includes discussions of various contemporary illustration techniques. Special attention is paid to both visual form, as well as the design process, communication and interpretation of work to challenge the student's ability to generate innovative images with a regard for both visual form and conceptual content.

**Prerequisite:** ART-234 with a minimum grade of C.

**ART-289. Graphic Design (Survey). 3 Hours.**

This course chronicles the development of visual communication methods from prehistoric times to late 20th century. Emphasis will be placed on the period from the mid 19th century to late 20th century developments in the field of graphic design. The course is structured as a lecture and discussion class. The class will take a contemporary approach to the subject, drawing parallels between the historical movements and the way that things look in design today. Topics will involve a critical approach to the subject matter.

**ART-301. Contemporary Design. 3 Hours.**

This class combines academic study of late 20th century and contemporary Graphic Design practices with an exploration of the professional design world. Graphic Design of the present day is examined in relation to architecture and interiors, and wider theoretical and contextual issues. The interrelationship between the fine and decorative arts is a strong theme throughout the class. Visits to museums, professional events, galleries, design fairs and studios provide opportunities to examine objects and meet practicing designers first hand.

**Prerequisite:** ART-314 with a minimum grade of C.

**ART-302. Design In Nature. 3 Hours.**

Design in Nature will explore the ways evolution has led to various structures, behaviors, and body forms and will use these same processes to develop bio-inspired creative works. Special emphasis will be placed on biological perception, perspective, and process and how these can inform the design process. The course introduces topics in a workshop format, where students will work individually and in teams in both the field and in a studio environment to explore ideas and develop creative works.

**Prerequisite:** (100 - 399 or 100A - 399Z).

**ART-303. Gender And Sexuality In Art + Design. 3 Hours.**

This course focuses on the iconographical study of the depiction of gender identity, gender expression and sexual orientation spectrums in the visual arts. This exploration into stereotypes, archetypes and prototypes of gender and sexuality in the context of historical and societal conditions will intersect with race, ethnicity, class, disability, culture, and sub-culture. Primary literary sources, archaeological evidence, web archives, and contemporary creative output and practice will be used to support interpretive hypotheses.

**ART-314. Typography. 3 Hours.**

The second course in the graphic design sequence takes a deeper look at design and use of letter forms. Lectures and assignments focus on examining major type families and their characteristics, creating typographic contrast and hierarchy of information, history of type design and typographic grids. Students build skills for the art of typesetting and typographic layout, conceptual thinking and expressive typography.

**Prerequisite:** ART-281 with a minimum grade of C.

**ART-315. Letterpress. 3 Hours.**

Introduction to letterpress printing techniques including discussion of typographic rules using wood and metal type and image making using contemporary photopolymer plate making techniques.

**Prerequisite:** ART-281 with a minimum grade of C.

**ART-320. Drawing III. 3 Hours.**

This advanced drawing course emphasizes drawing concepts and techniques. Students will utilize a variety of traditional and nontraditional media in developing their own personal artistic vision. This course may be repeated up to three times.

**Prerequisite:** ART-220 with a minimum grade of C.

**ART-321. Drawing IV. 3 Hours.**

This advanced drawing course will continue the exploration of contemporary concepts and drawing techniques emphasizing personal expression. This course may be repeated up to three times.

**Prerequisite:** ART-320 with a minimum grade of C.

**ART-330. Painting II. 3 Hours.**

This course is designed as a continuation of the exploration of the painting process. During this semester, students will be using acrylic or oil paints to investigate themes both contemporary and historical such as abstraction, the figure, narrative painting and mixed media. Students will also learn about the use of mediums, brushes, and painting techniques.

**Prerequisite:** ART-230 with a minimum grade of C.

**ART-331. Painting III. 3 Hours.**

This advanced painting course will emphasize personal development and expression using the medium of choice. This course may be repeated up to three times.

**Prerequisite:** ART-330 with a minimum grade of C.

**ART-332. Painting IV. 3 Hours.**

This advanced painting course will focus on individual personal imagery, concepts, and ideas, with the goal of developing a personal voice. This course may be repeated up to three times.

**Prerequisite:** ART-331 with a minimum grade of C.

**ART-333. Mural Painting. 3 Hours.**

Working with a Chicago neighborhood, students will develop an understanding of the role of public art by collaborating on the planning and execution of a painted mural. This course may be repeated up to two times.

**ART-340. Sculpture II. 3 Hours.**

This intermediate sculpture course introduces students to the fundamentals of figure modeling and casting methods. Class time is devoted exclusively to modeling, mold making, and various casting techniques.

**Prerequisite:** ART-240 with a minimum grade of C.

**ART-341. Sculpture III. 3 Hours.**

This is an advanced level sculpture studio course, which revolves around wood and metal working techniques in relation to the sculptural object. This course will cover shop safety and also focus on experimentation with hand and power tools as well as finishing processes. This course may be repeated up to three times.

**Prerequisite:** ART-340 with a minimum grade of C.

**ART-342. Sculpture IV. 3 Hours.**

This advanced sculpture course continues to explore advanced sculpture techniques with an emphasis on independent studio practice and research. Students will demonstrate a working knowledge of advanced sculpture techniques by creating a body of coherent and creative work. This course may be repeated up to two times.

**Prerequisite:** ART-340 with a minimum grade of C.

**ART-343. Art & Culture Study Tour To China. 3 Hours.**

This course focuses on historic and contemporary art and culture in China, and includes a study tour to multiple cities in China. Students will have the opportunity to investigate a wide variety of art making processes as well as develop conceptual works based on both historic and contemporary practices as they relate to the travel experience in China. Together, the artistic and cultural experiences in this course will broaden student perspectives and provide new avenues for personal expressions in art and culture studies.

**Prerequisite:** (100 - 399 or 100A - 399Z).

**ART-344. Writing Intensive Program: Professional Practices In Graphic Design. 3 Hours.**

This writing intensive course will introduce students to writing and general business practices that are applicable to a career in graphic design. The course will cover such topics as: graduate school research, resume building, freelance business documents development (business plan, invoice and contacts for design services) and the development of a professional portfolio for pursuing a career in graphic design. Required for all Graphic Design majors and open to Studio Art majors with a concentration in Graphic Design.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**ART-350. Printmaking II. 3 Hours.**

This intermediate printmaking course will emphasize the planographic processes, which include screenprint, lithography and monotype. This course will also explore the possibility of the monoprint as it relates to these processes as well as continue a focus on research as it relates to personal studio practice.

**Prerequisite:** ART-250 with a minimum grade of C.

**ART-351. Printmaking III. 3 Hours.**

This advanced printmaking course introduces students to advanced techniques within traditional printmaking processes as well as experimental and non-traditional approaches. Students will investigate the possibilities of advanced printmaking techniques in relation to personal artistic vision and continue a focus on the development of independent studio practice and research. This course may be repeated up to three times.

**Prerequisite:** ART-350 with a minimum grade of C.

**ART-352. Printmaking IV. 3 Hours.**

This advanced printmaking course continues to explore advanced printmaking techniques with an emphasis on independent studio practice and research. Students will demonstrate a working knowledge of advanced printmaking techniques by creating a body of coherent and creative work. This course may be repeated up to two times.

**Prerequisite:** ART-351 with a minimum grade of C.

**ART-355. Studies In Art & Social Practice. 3 Hours.**

In this studio art course, students will be introduced to the concept of socially engaged art and produce studio projects that consider art in its relationship to social change. Students explore creative solutions that promote and affect social engagement, social interaction and community building. Social practice-based artwork includes a wide range of media and concepts in contemporary art practice and in this course, students connect their art practice to political, cultural and ethical conversations with an emphasis on participation, dialogue and action. Consult the Schedule of Classes for studio discipline and/or specific topic to be covered.

**ART-356. Studio Thesis Seminar. 1 Hour.**

This course will introduce students to practices associated with the creation of a coherent and comprehensive studio project, with an emphasis on research that compliments a creative practice. Students will gain experience with a project from start to finish, which will include preliminary assignments to explore formal and conceptual aspects of their work, group critiques and research. This course will give students the opportunity to work on a project outside of a specific studio course as well as provide experience for the senior capstone exhibition. Prerequisite: Completion of all seven Foundations courses with a minimum grade of C.

**Prerequisite:** ARTH-106 with a minimum grade of C and ARTH-107 with a minimum grade of C and ART-120 with a minimum grade of C and ART-130 with a minimum grade of C and ART-140 with a minimum grade of C and ART-220 with a minimum grade of C and ART-234 with a minimum grade of C.

**ART-358. Studies In Studio Art. 3 Hours.**

This course is a theme-based studio course that will give students an in-depth understanding of a particular topic in the studio arts that might not be included in permanent course offerings. Techniques and ideas appropriate to the topic will be explored through assignments, research, and critiques. Students will be encouraged to develop their individual interpretation and understanding of the topic through course discussion and studio work.

**Prerequisite:** Completion of all seven Foundations courses with a minimum grade of C.

**Prerequisite:** ARTH-106 with a minimum grade of C and ARTH-107 with a minimum grade of C and ART-120 with a minimum grade of C and ART-130 with a minimum grade of C and ART-140 with a minimum grade of C and ART-220 with a minimum grade of C and ART-234 with a minimum grade of C.

**ART-361. Photography II. 3 Hours.**

This course explores photography beyond the use of a single frame. Topics will emphasize themes of time and storytelling through use of moving images, documentary projects, long exposure photography, multiple exposure photography, combination of text and image, photographic books, photographs as objects, or installations.

**Prerequisite:** ART-261 with a minimum grade of C or ART-170A with a minimum grade of C.

**ART-362. Photographic Image Manipulation. 3 Hours.**

This course introduces students to a variety of digital manipulation techniques in Adobe Photoshop. Demonstrations of these techniques are complemented by the introduction of photographic artists in the field. Assignments incorporate the technical aspects of specific skills while emphasis is placed on conceptual application.

**Prerequisite:** ART-170A with a minimum grade of C or ART-261 with a minimum grade of C.

**ART-363. Photographic Lighting For In Studio And On Location. 3 Hours.**

This course will cover the tools and techniques used to control photographic lighting. Emphasis is placed on creating solutions to complex lighting situations.

**Prerequisite:** ART-261 with a minimum grade of C or ART-170A with a minimum grade of C.

**ART-364. Historic And Alternative Photographic Processes. 3 Hours.**

This course will cover a variety of historic photographic processes and alternative ways of making images. Students will create a portfolio that demonstrates conceptual maturation, advanced aesthetic skill, and technical competence in photography.

**Prerequisite:** ART-170A with a minimum grade of C or ART-170B with a minimum grade of C or ART-170C with a minimum grade of C or ART-170D with a minimum grade of C or ART-170E with a minimum grade of C or ART-170F with a minimum grade of C or ART-170G with a minimum grade of C or ART-170H with a minimum grade of C or ART-120 with a minimum grade of C.

**ART-365. Photography Seminar. 3 Hours.**

This course focuses on refinement of aesthetic and technical skills while developing a personal style in a self-directed, long-term photography project.

**Prerequisite:** ART-362 with a minimum grade of C.

**ART-366. View Camera. 3 Hours.**

This class explores the tradition and benefits of using the large format view camera. Emphasis is placed on technical proficiency with the camera to control perspective and manipulate the plane of focus. Topics range from landscape, architectural and portrait photography. Cameras are supplied to students for the duration of the class.

**Prerequisite:** ART-361 with a minimum grade of C.

**ART-370. Ceramics II. 3 Hours.**

This intermediate ceramic studio course will emphasize materials, techniques, and design within a problem solving environment. Specific aesthetic and technical criteria will be examined and individual development will continue to be emphasized.

**Prerequisite:** ART-270 with a minimum grade of C.

**ART-371. Ceramics III. 3 Hours.**

This advanced ceramics course focuses on continuing the development of strong craftsmanship and knowledge of ceramic processes and techniques including developing personal clay bodies, glazes and firing kilns. Emphasis will be placed on reinforcing the principles of ceramic building techniques while exploring a personal artistic direction. This course can be repeated up to three times.

**Prerequisite:** ART-370 with a minimum grade of C.

**ART-372. Ceramics IV. 3 Hours.**

This advanced ceramics course emphasizes advanced ceramic processes and thematic investigations for creating relevant and meaningful work using traditional and non-traditional approaches to clay. This class focuses on the development of an independent artist's practice through open assignments designed to engage students in self-directed research of conceptual themes and advanced technical processes. This course can be repeated up to three times.

**Prerequisite:** ART-371 with a minimum grade of C.

**ART-377. Geometry Of Space: Projection, Speculation, And Translation. 3 Hours.**

This course will explore geometry and some of its underlying mathematics through the lens of Art and Design. Coursework and topics will focus on the transition from two dimensional to three dimensional space. Course projects will be supplemented with historical contexts which have motivated the development of geometry as a field of study.

**ART-379. Interactive Arts: Web I. 3 Hours.**

This course is an introduction to the design processes and web code languages essential for building websites and creating art on the web. Course projects will center on current web design best practices, contemporary standards and will cover how to write syntactically correct HTML5 and CSS3. Students will gather information, explore potential concepts, and iterate on design mockups in order to design and implement responsive web projects, which address User Interface and User Experience.

**Prerequisite:** ART-234 with a minimum grade of C.

**ART-380. Interactive Arts: Web II. 3 Hours.**

Interactive Arts: Web II focuses on advanced modes of web interaction and User Experience/User Interface design. Students will expand their code knowledge to include PHP, AJAX and XML, with a focus on SASS and JavaScript. Students will be introduced to libraries, plugins and APIs, which allow for advanced control and creativity with web projects, including Dom and data manipulation, object oriented programming, and advanced animation. Students will navigate advanced programming concepts while iterating solutions with design thinking. Course projects will engage experimental & emerging approaches to design on the web, interactive pieces of net art, sequential animations and web apps.

**Prerequisite:** ART-385 with a minimum grade of C or ART-379 with a minimum grade of C.

**ART-381. Studio In Graphic Design. 3 Hours.**

Through a combination of digital and analog media, students will create applied design projects and discuss principles involved in the thought process, creation and production of a design project. Suggested readings supplement the class experience. This course may be repeated up to three times.

**Prerequisite:** ART-281 with a minimum grade of C and ART-314 with a minimum grade of C.

**ART-3841. Internship In Graphic Design. 1 Hour.**

On-site experience in a design studio, design department, advertising agency or approved design setting where a student will observe and participate in everyday activities and projects.

**Prerequisite:** ART-281 with a minimum grade of C and ART-314 with a minimum grade of C.

**ART-3842. Internship In Graphic Design. 2 Hours.**

On-site experience in a design studio, design department, advertising agency or approved design setting where a student will observe and participate in everyday activities and projects.

**Prerequisite:** ART-281 with a minimum grade of C and ART-314 with a minimum grade of C.

**ART-3843. Internship In Graphic Design. 3 Hours.**

On-site experience in a design studio, design department, advertising agency or approved design setting where a student will observe and participate in everyday activities and projects.

**Prerequisite:** ART-281 with a minimum grade of C and ART-314 with a minimum grade of C.

**ART-385. Code Is Not Neutral. 3 Hours.**

This studio course explores web code, design practices, and associated social injustice implications, specifically, the ways in which "big tech" and surveillance capitalism contribute to and uphold white supremacy and the carceral state. Students will be introduced to contemporary artists and designers as social practitioners, investigate the ways web-based technologies and web code are used to raise awareness and facilitate community, and create projects that push back against power structures.

**Prerequisite:** ART-234 with a minimum grade of C.

**ART-386. Interactive Arts: Form & Motion. 3 Hours.**

This course will examine intermediate approaches to 3d design, digital fabrication and time-based media. Through tutorials, collaborative experimentation and guided studio time, this course encourages students to experiment with new media technology and collaborative approaches to reach new audiences. Course projects are multidisciplinary in nature and are supplemented by the tools available in the Make Space, which students will be trained on at the beginning of the course. Guest lectures and readings will provide a cultural and technical framework for process-based projects. This course is open to novices and to those seeking to expand their existing studio practice.

**Prerequisite:** ART-280 with a minimum grade of C.

**ART-387. Special Topics In Graphic Design. 3 Hours.**

This course offers an opportunity for advanced study in the field of graphic design, focusing on one particular area within the broad spectrum of design practice. The topics examined in the class will rotate to cover a different area of focus each semester. The course is structured as a lecture and studio class offering an opportunity for in-depth analysis and practice. Topics covered include editorial design, branding and identity design, interactive design, art direction for advertising etc. This course may be repeated up to three times.

**Prerequisite:** ART-314 with a minimum grade of C.

**ART-388. Typography II. 3 Hours.**

Typography II focuses on advanced study of typographic form, as well as experimental approaches to typographic practice. In addition to advanced typesetting studies of multiple-page documents, students will work on customizing display typefaces, using non-traditional methods to generate unique typographic elements and exploring alternative methods for making meaning through the intersection of language and typography.

**Prerequisite:** ART-314 with a minimum grade of C.

**ART-389. Print Production. 3 Hours.**

This course will provide the information and techniques necessary to prepare graphics and text for professional printing. Projects will address pre-press procedures such as specifying output requirements, obtaining cost estimates, determining paper selection and performing press checks. Lecture topics cover techniques and terminology necessary for traditional and digital printing. Students will practice creating and preparing digital files for high resolution output and offset printing. The class will visit local companies involved in print production.

**Prerequisite:** ART-314 with a minimum grade of C.

**ART-3901. Independent Study In Visual Art. 1 Hour.**

Independent Study in Visual Art allows a student the opportunity to investigate a special interest that is not covered in a regularly scheduled course and is intended for the highly motivated student who has completed outstanding and significant coursework in a studio area of emphasis. To sign up for an independent study, the student must work with a faculty mentor to develop a proposal for a rigorous course of directed study, which will include goals and outcomes, and receive approval from the faculty mentor, the Art + Design Department Chair, and the College Dean.

**Requirement:** At least one 300 level course in studio area of proposed project, minimum grade of B.

**ART-3902. Independent Study In Visual Art. 2 Hours.**

Independent Study in Visual Art allows a student the opportunity to investigate a special interest that is not covered in a regularly scheduled course and is intended for the highly motivated student who has completed outstanding and significant coursework in a studio area of emphasis. To sign up for an independent study, the student must work with a faculty mentor to develop a proposal for a rigorous course of directed study, which will include goals and outcomes, and receive approval from the faculty mentor, the Art + Design Department Chair, and the College Dean.

**Requirement:** At least one 300 level course in studio area of proposed project, minimum grade of B.

**ART-3903. Independent Study In Visual Art. 3 Hours.**

Independent Study in Visual Art allows a student the opportunity to investigate a special interest that is not covered in a regularly scheduled course and is intended for the highly motivated student who has completed outstanding and significant coursework in a studio area of emphasis. To sign up for an independent study, the student must work with a faculty mentor to develop a proposal for a rigorous course of directed study, which will include goals and outcomes, and receive approval from the faculty mentor, the Art + Design Department Chair, and the College Dean.

**Requirement:** At least one 300 level course in studio area of proposed project, minimum grade of B.

**ART-3911. Internship In Art. 1 Hour.**

This internship course offers students on-site experience in a commercial or fine art studio setting where they will observe and participate in everyday activities and projects. Prerequisite: A 300 level Art course, minimum grade of C, in the medium related to the internship.

**ART-3912. Internship In Art. 2 Hours.**

This internship course offers students on-site experience in a commercial or fine art studio setting where they will observe and participate in everyday activities and projects. Prerequisite: A 300 level Art course, minimum grade of C, in the medium related to the internship.

**ART-3913. Internship In Art. 3 Hours.**

This internship course offers students on-site experience in a commercial or fine art studio setting where they will observe and participate in everyday activities and projects. Prerequisite: A 300 level Art course, minimum grade of C, in the medium related to the internship.

**ART-394C. Senior Exhibition In Graphic Design. 3 Hours.**

All students pursuing a BFA degree in Graphic Design are required to participate in a senior exhibition, under the guidance of a graphic design faculty mentor. Students are free to select their mentor, however the department recommends that this be someone that the student has worked with in the past. Students are responsible for creating exhibition level projects in cooperation with their faculty mentors in order to receive a passing grade. The final projects should have a specific, well-conceived theme, direction and intent and demonstrate the formal skills learned during the pursuit of a BFA in Graphic Design.

**Prerequisite:** ART-344 with a minimum grade of C.

**ART-395. Writing Intensive Program: Professional Practices In Studio Art. 3 Hours.**

This writing intensive course will introduce students to writing and general business practices that are applicable to a career in the visual arts. The course will cover such topics as: resume building, grant writing, statement writing, application writing for galleries, internships and residencies as well as other methods for sustaining a career in the visual arts. This course is an investigation, discussion and evaluation of what it means to live and work as an artist now and examines research strategies for both professional activities and personal artistic growth. Required for all Art majors with a concentration in Studio Art.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**ART-396. Senior Seminar And Exhibition. 3 Hours.**

Senior Seminar and Exhibition is a required capstone course for all Art majors with a concentration in Studio Art and will guide students to prepare and complete their senior exhibition. This course provides a studio-based experience with intensive critique sessions to facilitate the completion of the student's final body of work and offers the benefit of concentrated faculty input as well as critical dialogue among peers. Students will explore the concepts, theories, influences and experiences that inform and support the self-directed work they present for review up to and in their senior solo exhibition.

**Prerequisite:** ART-395 with a minimum grade of C.

# Art History (ARTH)

---

## Courses

### **ARTH-101. Art And Society. 3 Hours.**

Study the function of art in a variety of cultures with specific reference to American culture. Application of insights gained through inter-cultural analysis of contemporary issues. Slide lectures, films, gallery and museum visits.

### **ARTH-106. Introduction To Art History I. 3 Hours.**

A survey of the visual arts from ancient to medieval times, emphasizing the major styles in their historical contexts. Introduces the basic qualities of each medium, the descriptive and critical vocabulary of art history, and the concepts of style, subject matter and content in the visual arts. Topics include the patronage of, and audience for, art; the changing social status of the artist; and the social, political and religious functions of art and architecture. Slide lectures and museum assignments.

### **ARTH-107. Introduction To Art History II. 3 Hours.**

A survey of the visual arts from renaissance to modern times, emphasizing the major styles in their historical contexts. Introduces the basic qualities of each medium, the descriptive and critical vocabulary of art history, and the concepts of style, subject matter, and content in the visual arts. Topics include the patronage of, and audience for, art; the changing social status of the artist; and the social, political and religious functions of art and architecture. Slide lectures and museum assignments.

### **ARTH-108. Survey Of World Arts. 3 Hours.**

This course is a survey of artistic traditions of Africa, Oceania, Asia, and the Americas, emphasizing their cultural and historical contexts. It introduces a wide variety of perspectives that inform the style, subject matter, and content of art, architecture and material culture. Topics will reflect the richness and diversity of the arts in these regions.

### **ARTH-202. Writing Intensive Program: Methods Of Research In Art History. 3 Hours.**

This course is a focused and in-depth study of art historical research and methodology. It includes a critical review of the history of art historical studies, presentations on research methods for primary and secondary resources, and a systematic consideration of art historical methodology. Special attention is given to the critical and theoretical approaches of the "new" art history. The course is conducted in an informal seminar format with slide presentations and classroom discussions of artworks and required readings. It fulfills the university writing intensive requirement within the major.

**Requirement:** one 300-level ARTH course minimum grade of C

**Prerequisite:** ENGL-101 with a minimum grade of C and ARTH-106 with a minimum grade of C and ARTH-107 with a minimum grade of C.

### **ARTH-300. Contemporary Art. 3 Hours.**

This course examines American and European painting, sculpture, and related artworks from 1950 to the present. The major artists and styles of the period are presented chronologically and discussed in the context of contemporary culture and events. Other topics include the development of new media, the relationship of art to politics, the major critical and theoretical approaches to contemporary art, the concept of postmodernism in the visual arts, and the rise of the art market and its relationship to the avant-garde.

### **ARTH-305. Ancient Mesoamerican Art & Architecture. 3 Hours.**

This course introduces students to the art and architecture of ancient civilizations of Mesoamerica. We will discuss the art of the Olmec, Teotihuacan, Maya, and the Aztec Empire. The course focuses on the styles and iconography of these civilizations and takes an interdisciplinary approach to examine the function and symbolism of the works.

### **ARTH-306. Ancient South American Art & Architecture. 3 Hours.**

This course is an introduction to the art of the ancient civilizations that inhabited the Andean region (primarily Peru, Ecuador, and Bolivia). Since these cultures did not develop a written language, information about their worldview and religious practices comes from their art and the archaeological record. The course focuses on the styles and iconography of these civilizations and takes an interdisciplinary approach to examine the function and symbolism of the works.

### **ARTH-306T. Peru Study Tour. 3 Hours.**

This course is designed as a seminar that culminates in a Study Tour to Peru. Students will be able to explore the arts in Lima and Cusco while discussing important issues regarding the establishment of museum collections, the looting of ancient objects, the production of art forgeries, and the role of ancient art in Peruvian tourism.

### **ARTH-307. Art Of Latin America (1810-Present). 3 Hours.**

This course covers the art of Latin America from the period of Independence to the present. The focus will be primarily on the arts of Mexico and South America, although some time will be dedicated to movements in Cuba and Haiti as well. Topics include: Romanticism in Latin America, Modernismo, Mexican Muralism, Indigenismo, Constructivism, Surrealism, Concrete and Neo-Concrete Art, Geometric art, Optical and Kinetic art, Conceptual and Political Art, and contemporary issues.

### **ARTH-308. Art And Ritual: African, Oceanic, And Native North American Art. 3 Hours.**

This is an interdisciplinary course that will engage students in the study of artistic traditions outside of the Western world. Students will examine the relationship between art and ritual through specific case studies, with an emphasis on African, Oceanic, and Native North American traditions. Topics may include: art and rites of passage, masking and performance, and the use of objects as mediators with the supernatural realm.

**ARTH-309. Asian Art. 3 Hours.**

This course focuses on the arts of India, China and Japan. Lectures discuss representative works in painting, sculpture, architecture, calligraphy and decorative arts from each of these areas as well as the cultural and historical context in which they were created.

**ARTH-310. Early Christian And Byzantine Art. 3 Hours.**

Study of the arts from the early Christian period to the end of the Byzantine Empire in the east: stylistic and iconographic development of architecture, painting, sculpture, manuscript illustration and minor arts in context of contemporary politics and religion.

**ARTH-311. Medieval Art of the West. 3 Hours.**

This course examines the history of medieval western European art and architecture from the sixth to the fifteenth century. The major works, styles, and regions of this period are presented chronologically and discussed within the context of the culture and events of the day. Individual works of art are analyzed for style, subject matter, iconography, and content. Works of architecture are analyzed for style, function, materials, and structure. Special attention is given to the political and religious institutions, the religious and philosophical trends, and the social structures that shaped medieval art, architecture, and aesthetic theory.

**ARTH-312. Italian Renaissance Art. 3 Hours.**

This course focuses on the history of Italian art from the fourteenth century to the early sixteenth century. The major artists, styles, and regions are presented chronologically and considered within the context of the culture and events of the day. Individual works of art are analyzed for style, subject matter, iconography, and content. The social status of the artist and the patronage of works of art during this period are discussed, and special attention is given to the political and religious institutions, the religious and philosophical trends, and the social structures that shaped Italian Renaissance art and aesthetic theory.

**ARTH-312T. Study Tour In Italy: Venice, Florence, Rome. 3 Hours.**

This course focuses on Italian art from 1300 to 1550. It includes a two-week study tour to Venice, Florence, and Rome. The major artists, styles, and regions are presented chronologically and considered within the context of the culture and events of the day. Individual works of art are analyzed for style, subject matter, iconography, and content. The social status of the artist and the patronage of art during this period are discussed, and special attention is given to the political and religious institutions, the religious and philosophical trends, and the social structures that shaped Italian Renaissance art and aesthetic theory.

**ARTH-313. Art Of The United States Of America. 3 Hours.**

This course examines the history of painting and sculpture in the United States from colonial times to World War II. The major artists and styles are presented chronologically and considered within the context of the culture and events of the day. Individual works of art are analyzed for style, subject matter, iconography, and content. The changing roles of artists and patrons are discussed, along with the complex relationship of American art to European art and culture. Special attention is given to the political institutions, the religious and philosophical trends, and the social structures that shaped American art and aesthetic theory.

**ARTH-316. Seventeenth Century European Art. 3 Hours.**

This course examines the history of European painting and sculpture of the seventeenth century. The major works, artists, styles, and regions are presented chronologically and discussed within the context of the culture and events of the day. Individual works of art are analyzed for style, subject matter, iconography, and content. The social status of the artist, the mechanisms of patronage, and the location and function of works of art are discussed. Special attention is given to the political and religious institutions, the religious and philosophical trends, and the social structures that shaped the art and aesthetic theory of the period.

**ARTH-318. 19th Century European Art. 3 Hours.**

This course investigates the history of nineteenth-century western European painting and sculpture. The major works, artists, styles, and countries are presented chronologically and discussed within the context of the culture and events of the day. Individual works of art are analyzed for style, subject matter, iconography, and content. The rise of the avant-garde, the decline of the art academies, and the beginnings of the commercial gallery system are discussed. Special attention is given to the political institutions, the philosophical and intellectual trends, and the social structures that shaped nineteenth-century European art and aesthetic theory.

**ARTH-319. European Art 1900-1950. 3 Hours.**

This course focuses on European painting and sculpture from 1900 to 1950. The major works, artists, styles, and countries are presented chronologically and discussed within the context of the culture and events of the day. Individual works of art are analyzed for style, subject matter, iconography, and content. The rise of the avant-garde is discussed, as are the decline of the traditional art academies, the beginnings of the commercial gallery system, and the introduction of new media. Special attention is given to the political circumstances, the intellectual trends, and the historical events that shaped the art and aesthetic theory.

**ARTH-360. History Of Photography: 1820's To Present. 3 Hours.**

Students investigate the history of photography, including social, aesthetic, theoretical, and technical aspects, through lectures, discussions, field trips to relevant photographic exhibitions, readings, group projects, writing assignments, and/or exams.

**Prerequisite:** (100 - 399 or 100A - 399Z).

**ARTH-3901. Independent Study In Art History. 1 Hour.**

Independent Study is available for juniors and seniors who are prepared to formulate and execute an independent research project in Art History, working under the direction of a faculty member. Students are expected to write a research paper. Independent Studies require the approval of a faculty mentor, the Art Department chair and the College Dean.

**Requirement:** at least one 300-level ARTH course minimum grade of B

**Prerequisite:** ARTH-106 with a minimum grade of C and ARTH-107 with a minimum grade of C.

**ARTH-3902. Independent Study In Art History. 2 Hours.**

Independent Study is available for juniors and seniors who are prepared to formulate and execute an independent research project in Art History, working under the direction of a faculty member. Students are expected to write a research paper. Independent Studies require the approval of a faculty mentor, the Art Department chair and the College Dean.

**Requirement:** at least one 300-level ARTH course minimum grade of B

**Prerequisite:** ARTH-106 with a minimum grade of C and ARTH-107 with a minimum grade of C.

**ARTH-3903. Independent Study In Art History. 3 Hours.**

Independent Study is available for juniors and seniors who are prepared to formulate and execute an independent research project in Art History, working under the direction of a faculty member. Students are expected to write a research paper. Independent Studies require the approval of a faculty mentor, the Art Department chair and the College Dean.

**Requirement:** at least one 300-level ARTH course minimum grade of B

**Prerequisite:** ARTH-106 with a minimum grade of C and ARTH-107 with a minimum grade of C.

**ARTH-3931. Art History/ Museum Studies Internship. 1 Hour.**

This internship allows students to get supervised professional experience in an art museum, gallery, or arts center. Hands-on experience may include: art handling, cataloguing, exhibition installation, research, acting as docents for exhibitions, writing and editing informational materials, press releases, and proposals, as well as participating in the daily operations of a museum, gallery, or arts center. The course can be repeated up to a maximum of 6 credits.

**Requirement:** the approval of the instructor and the department chair, and the consent of the museum, gallery, or arts center staff

**Prerequisites:** ARTH-106 and ARTH-107 and (ARTH-300 - 392 or ARTH-300A - 392Z).

**ARTH-3932. Art History/ Museum Studies Internship. 2 Hours.**

This internship allows students to get supervised professional experience in an art museum, gallery, or arts center. Hands-on experience may include: art handling, cataloguing, exhibition installation, research, acting as docents for exhibitions, writing and editing informational materials, press releases, and proposals, as well as participating in the daily operations of a museum, gallery, or arts center. The course can be repeated up to a maximum of 6 credits.

**Requirement:** the approval of the instructor and the department chair, and the consent of the museum, gallery, or arts center staff

**Prerequisites:** ARTH-106 and ARTH-107 and (ARTH-300 - 392 or ARTH-300A - 392Z).

**ARTH-3933. Art History/ Museum Studies Internship. 3 Hours.**

This internship allows students to get supervised professional experience in an art museum, gallery, or arts center. Hands-on experience may include: art handling, cataloguing, exhibition installation, research, acting as docents for exhibitions, writing and editing informational materials, press releases, and proposals, as well as participating in the daily operations of a museum, gallery, or arts center. The course can be repeated up to a maximum of 6 credits.

**Requirement:** the approval of the instructor and the department chair, and the consent of the museum, gallery, or arts center staff

**Prerequisites:** ARTH-106 and ARTH-107 and (ARTH-300 - 392 or ARTH-300A - 392Z).

# Bilingual/Bicultural Education (BLBC)

---

## Courses

### **BLBC-328A. Clinical Experiences. 3 Hours.**

This course provides teacher candidates who are enrolled in BLBC-339 Culturally Responsive Teaching in Diverse Classrooms with intensive clinical experience in elementary classrooms with culturally and linguistically diverse (CLD) students. This course provides candidates with opportunities for supervised interactions with children in selected content areas. Candidates meet with a university supervisor in weekly seminars. This course fulfills 100 clock hours of the 200 clinical experience hours required to complete the program.

**Prerequisite:** ELED-300 with a minimum grade of C and SPED-317 with a minimum grade of C and ELED-302 with a minimum grade of C and ELED-310 with a minimum grade of C.

**Corequisite:** BLBC-339.

### **BLBC-328B. Clinical Experiences. 3 Hours.**

BLBC-328 B provides intensive clinical experience in elementary schools for students enrolled in ELED-306. The course involves supervised and graduated teaching interactions with children in literacy in grades 1-6 and includes weekly seminars. The seminars will provide intensive preparation and practice with edTPA and a focus on the clinical context. This course fulfills 100 of the 200 required clock hours of clinical experiences.

**Prerequisite:** ELED-300 with a minimum grade of C and SPED-317 with a minimum grade of C and ELED-302 with a minimum grade of C and ELED-310 with a minimum grade of C and BLBC-339 with a minimum grade of C and ELED-328A with a minimum grade of C and ELED-303 with a minimum grade of C and ELED-309 with a minimum grade of C and ELED-305 with a minimum grade of C and Illinois Content Area Test with a score of P.

**Corequisite:** ELED-306.

### **BLBC-329. Student Teaching In Elementary Grades. 7.5 Hours.**

This course provides the teacher candidate with sixteen weeks of full day supervised classroom teaching experience combined with weekly class discussions. Teacher Candidates must submit a completed edTPA portfolio.

**Requirements:** completion of Blocks 1, 2 and 3; and all remaining required program courses

**Prerequisite:** Illinois Content Area Test with a score of P and ELED-306 with a minimum grade of C and BLBC-328B with a minimum grade of C and ELED-320 with a minimum grade of C and ELED-342 with a minimum grade of C.

**Corequisite:** EDFN-308.

### **BLBC-329B. Student Teaching In Elementary Grades. 3.75 Hours.**

This course provides the teacher candidate with sixteen weeks of full day supervised classroom teaching experience combined with a weekly seminar.

**Requirement:** Successful completion of all program courses with a minimum GPA of 3.0. Passing scores on content area tests.

### **BLBC-338. Bilingualism And Education. 3 Hours.**

This course introduces the fundamentals of bilingual education through the understanding of language and cultural diversity and the emergence of different bilingual teaching and learning situations in schools and communities. It is necessary to understand the politics and policies that govern those situations and the problems associated with them and the manner in which the emerging problems are handled and solved. All instructional problems and solutions are managed in line with the latest philosophies, theories, and principles of bilingual education and their application to culture and language diverse classroom situations.

### **BLBC-339. Culturally Responsive Teaching in Diverse Classrooms. 3 Hours.**

This course will explore the social and educational issues faced by teachers in diverse classrooms. Students will examine the different cultural groups to which students and their families belong, paying special attention to issues of race, ethnicity, gender, class, language, sexual orientation, religion, ability, geography and age. This course will explore instructional strategies and culturally responsive practices for diverse learners.

### **BLBC-340. Teaching English Learners In Diverse Classrooms. 3 Hours.**

This course presents candidates with the necessary academic and pedagogical preparation for teaching culturally and linguistically diverse (CLD) students in elementary classrooms who are limited English proficient (English learners). The aim of this course is to provide candidates with the research-based knowledge and skills necessary to differentiate instruction and assessment practices in the content areas for English learners. The focus is also on enabling candidates to create an effective learning environment in which English learners develop English language proficiency and literacy skills. Requisite: Admission to the College of Education.

### **BLBC-341. Methods of Teaching in Bilingual Classrooms. 3 Hours.**

This course provides the necessary academic, pedagogical, sociocultural, and clinical preparation for teaching in diverse classrooms that serve culturally and linguistically diverse (CLD) students who are learning through the medium of the first (L1) and second languages (L2). A primary focus is on analyzing, evaluating, and developing the most appropriate materials, approaches, methods, and strategies that foster an effective learning environment in which CLD students acquire literacy, content knowledge and essential academic skills as well as respect for diverse languages and cultures.

**BLBC-342. Assessment In The Bilingual Classroom. 3 Hours.**

This course provides bilingual teacher candidates with the knowledge and skills to effectively plan appropriate instructional objectives and performance based, classroom assessments for students who are English learners (ELs). Candidates will fully understand the difference between formative and summative assessments as well as large-scale versus classroom assessments. Candidates will also understand the process for developing and administering appropriate assessments, both formal and informal, for bilingual students in both the native language and in English. Candidates will properly assess students in all areas of the curriculum.

**BLBC-429. Student Teaching In Bilingual Classrooms - Elementary. 6 Hours.**

This course requires full-day student teaching under the tutelage of a certified bilingual cooperating teacher. Teacher candidates are required to take full responsibility for a class of culturally and linguistically diverse elementary students. Candidates attend weekly seminars and prepare for regular observations and conferences with university supervisors. Candidates are provided the opportunity to plan and implement longitudinal instructional units. Candidates apply knowledge and performance indicators as specified by the IL Professional Teaching Standards (IPTS) during an entire semester by assuming the full range of professional teaching duties in a classroom setting.

**Requirement:** Permission from Office of Student Teaching; Completion of all MAT program courses, completion of all science and social science courses required by the Illinois State Board of Education, and the successful completion of all program courses with no more than two Cs and a minimum grade of B in both clinical courses

**Prerequisite:** Illinois Content Area Test with a score of P.

**BLBC-429B. Student Teaching In Bilingual Classrooms-Elementary. 3 Hours.**

This course requires full-day student teaching under the tutelage of a certified bilingual cooperating teacher. Teacher candidates are required to take full responsibility for a class of culturally and linguistically diverse elementary students. Candidates attend weekly seminars and prepare for regular observations and conferences with university supervisors. Candidates are provided the opportunity to plan and implement longitudinal instructional units. Candidates apply knowledge and performance indicators as specified by the IL Professional Teaching Standards (IPTS) during an entire semester by assuming the full range of professional teaching duties in a classroom setting. In this course, candidates complete licensure requirement and present their MAT Exit Project. Teacher candidates will be observed a minimum of five times by their university supervisor.

**BLBC-438. Foundations Of Bilingual Education. 3 Hours.**

This course introduces the fundamentals of bilingual education through the understanding of language and cultural diversity and the emergence of different bilingual teaching and learning situations in schools and communities. It is necessary to understand the politics and policies that govern those situations and the problems associated with them and the manner in which the emerging problems are handled and solved. All instructional problems and solutions are managed in line with the latest philosophies, theories, and principles of bilingual education and their application to culture and language diverse classroom situations.

**BLBC-439. Cultural Diversity In Our Schools. 3 Hours.**

This course explores various aspects of social and cultural diversity. It focuses on the development of richer and more systematic interpretations of the foundations of multicultural educational history, philosophy, policy and practice. The course aims to develop the ability to understand and describe how educational problems are often rooted in and are symptomatic of social issues. These challenges extend well beyond the classroom into families, communities, and local, national, and global economics and politics.

**BLBC-440. Methods For Teaching English Learners In Diverse Classrooms. 3 Hours.**

This course prepares candidates with the necessary academic and pedagogical preparation for teaching linguistically and culturally diverse students in elementary classrooms. The aim of this course is to provide candidates with the research-based knowledge and skills necessary to differentiate instruction and assessment practices in the content areas for English learners. The focus is also on enabling candidates to create an effective learning environment in which English learners develop English language proficiency and content knowledge.

**BLBC-441. Methods For Teaching Content In Bilingual Classrooms. 3 Hours.**

This course provides bilingual teacher candidates with the knowledge and skills to effectively plan and evaluate program models, materials, instruction, and assessments for culturally and linguistically diverse (CLD) students who are learning English as a new language. Candidates will apply curricular models and pedagogical skills for meeting the needs of English learners (ELs) in the native language and in English. Candidates will teach students literacy skills through the content areas in both languages to foster biliteracy. Candidates will evaluate content area instructional materials for bilingual students.

**BLBC-442. Assessment In Multilingual Classrooms. 3 Hours.**

This course provides bilingual teacher candidates with the knowledge and skills to effectively plan appropriate instructional objectives and performance based, classroom assessments for students who are English learners (ELs). Candidates will fully understand the difference between formative and summative assessments as well as large-scale versus classroom assessments. Candidates will also understand the process for developing and administering appropriate assessments, both formal and informal, for bilingual students in both the native language and in English. Candidates will properly assess students in all areas of the curriculum.

**BLBC-443. Methods For Teaching Reading And Writing In Bilingual Classrooms. 3 Hours.**

This course is designed to enable teacher candidates to plan and implement a content based, balanced, comprehensive biliteracy program for elementary students who are learning to read and write in two languages. Components of the course include understanding research on biliteracy instruction as it relates to first and second language acquisition in a diverse society. This course also addresses advanced methods for teaching reading and writing and the use of materials, including traditional print and digital media. Attention is given to reading and writing across content areas.

**Requirement:** Admission to the Graduate College.

# Biology (BIO)

---

## Courses

### **BIO-100. Introduction To Biology. 3 Hours.**

This course addresses the structures and functions of living things with emphasis on human physiology and the propagation of life, covering major biological concepts and principles. Topics include functions of cell components, how organisms obtain and process energy, genetics and inheritance, and evolution. Laboratory exercises emphasize scientific methods, hypothesis testing and data interpretation, and include required dissection. Lecture and laboratory. (The course does not fulfill major or minor requirements in biology).

### **BIO-104. The Changing Natural Environment. 3 Hours.**

A biological approach to understanding the natural environment. This course introduces basic ecological principles including biogeochemical cycling, energy flow, the origins of biodiversity, and population growth; considers how humans interact with natural systems; examines the origins of contemporary environmental issues, including the role of humans in contributing to environmental changes; and explores potential solutions to environmental issues that are based on biological and ecological principles. Lecture only. (Does not fulfill major or minor requirements in biology.).

### **BIO-109A. First Year Experience: Exotic Species In Chicago. 3 Hours.**

Global trade and travel spreads microbes, plants and animals across great distances and over previously insurmountable barriers. This course will survey the diversity of species that have invaded ecological communities in the Chicago area, look at the factors that allowed them to become invasive, review examples of how ecological principles are being applied to control them, and examine the ecological and economic impacts. Students will meet with local experts in the field, in order to get first-hand experience with some of the more infamous invasive species and to see Chicago from the perspective of urban ecologists. Lecture, laboratory, and field trips.

### **BIO-109M. First Year Experience: Microbiological Maladies And Chicago. 3 Hours.**

In this introduction to basic microbiology, students learn about the tremendous potential for microbes to impact human physiology and disease. Laboratory and lecture exercises clarify how bacteria and viruses are different from human cells and what it looks like when microbes replicate in and amongst human cells. The knowledge of how bacteria and viruses affect human health (in both positive and negative ways) helps students to more adequately assess their own health and the health of others in their community. A specific focus of study is how the response to disease has impacted the citizens of Chicago.

### **BIO-150. Essential Skills For Biologists. 2 Hours.**

A practical approach to providing students with the basic skill they will be expected to have in upper-division biology courses, including lab safety; methods and units of scientific measurement; scientific record-keeping, communication and library research skills; and summarizing and presenting data. Lecture and laboratory.

**Prerequisites:** (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 45 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120 or SAT Math 530 - 800 or Accuplacer Adv. Algebra & Func 237 - 300) and (ESL-120 or ELP-099 or NEIU English Placement Writing 7 - 9 or ENGL-101 - 102 or (Accuplacer WritePlacer 4 and Accuplacer Sentence Skills 095 - 120) or (Accuplacer WritePlacer 5 - 8 and Accuplacer Sentence Skills 020 - 120)) and (READ-095 - 116 or ACT Reading 20 - 36 or NEIU English Placement Reading 5 - 9 or Accuplacer Reading Comp 080 - 120).

**Corequisite:** BIO-201.

### **BIO-201. General Biology I. 4 Hours.**

The first course of the general biology series focuses on the cell and molecular aspects of biology, including: the basic structure of animal and plant cells; intracellular organelles; metabolic pathways; the cell cycle; and basic genetics. Laboratory exercises emphasize scientific methods, hypothesis testing, data interpretation, and writing. These exercises include experience with basic techniques such as microscopy, biological assays, and gel electrophoresis. Lecture and laboratory. Can be taken concurrently with BIO-250.

### **BIO-202. General Biology II. 4 Hours.**

In this second course of the general biology series we introduce the diversity of life in the context of evolutionary theory, studying biological processes at levels of organization ranging from populations to ecosystems. Laboratory exercises emphasize scientific methods, hypothesis testing, data interpretation, and writing. These exercises include surveys of major groups of organisms and dissections. Lecture and laboratory. Can be taken concurrently with BIO-250.

### **BIO-250. Essential Skills For Biologists. 3 Hours.**

Students will gain proficiency with basic biological skills that will be further developed in upper-division biology courses. These skills include hypothesis development, experimental design and execution, analyzing and presenting data, scientific record-keeping, communication and library research skills, methods and units of scientific measurement, and lab safety. In addition, students will explore career options, identify post-baccalaureate goals, create a resume, and develop academic and career plans. Can be taken concurrently with BIO-201 or BIO-202.

### **BIO-300A. Foods And Drugs: Biology And Society. 3 Hours.**

This course explores the biological effects of food and drugs. Topics include, but are not limited to, the structures, types, and metabolism of various macronutrients (carbohydrates, fats, proteins) and legal and illegal substances (opioids, alcohol, cannabinoids). The course also covers relevant aspects of human physiology; the role of foods and drugs in causing, treating, and preventing disease; and critiques of current and historical views on food and drugs. Although it doesn't count as an elective toward the biology major or minor, this course fulfills the boundary crossing (ELE-X) requirement for graduation.

**BIO-301. Cell Biology. 4 Hours.**

Basic molecular and cellular processes. Structures of biomolecules. Energetics: enzymes, photosynthesis, respiration. Genetic control: chromatin, DNA replication, RNA transcription and regulation, protein synthesis. Cell functions, including: protein secretion; cell membrane structure; transport and surface interactions; cell cycle; cell motility; cell growth; cell origins. Lecture and laboratory.

**Prerequisite:** BIO-201 with a minimum grade of C and (BIO-250 with a minimum grade of C or BIO-150 with a minimum grade of C) and CHEM-211 with a minimum grade of C.

**BIO-302. Design In Nature. 3 Hours.**

Design in Nature will explore the ways evolution has led to various structures, behaviors, and body forms and will use these same processes to develop bio-inspired creative works. Special emphasis will be placed on a biological perspective and how this can inform the design process. The course introduces topics in a workshop format, where students will work individually and in teams in both the field and in a studio environment to explore ideas and develop creative works. Although it doesn't count as an elective toward the biology major or minor, this course fulfills the boundary crossing (ELE-X) requirement for graduation.

**Prerequisite:** (100 - 399 or 100A - 399Z).

**BIO-303. General Genetics. 4 Hours.**

This course is designed to provide students with a comprehensive background in genetics including classical/Mendelian genetics, bacterial and phage/viral genetics, the chromosomal and molecular basis of heredity, and population genetics. Lecture and laboratory.

**Prerequisite:** BIO-201 with a minimum grade of C and BIO-202 with a minimum grade of C and (BIO-250 with a minimum grade of C or BIO-150 with a minimum grade of C).

**BIO-305. Writing Intensive Program:General Ecology. 4 Hours.**

In an introduction to the basic concepts of ecology, students will examine the factors and interactions that determine the distribution and abundance of species at the individual, population, community, and ecosystem levels. Students will satisfy the writing intensive requirement by developing persuasive arguments supported by data, writing a primary research paper, creating graphs to present experimental results, and keeping a field and laboratory notebook. Lecture, laboratory, and fieldwork, with up to two field trips scheduled on a Friday, Saturday, or Sunday.

**Prerequisite:** BIO-201 with a minimum grade of C and BIO-202 with a minimum grade of C and (BIO-250 with a minimum grade of C or BIO-150 with a minimum grade of C) and ENGL-102 with a minimum grade of C.

**BIO-306. Botany Of Desire. 3 Hours.**

Humans desire plant products like sugar, drugs, soothing aromas, and oxygen. Satisfying these needs can provide food, oppress peoples, or create healing environments. Students will develop a working knowledge of plants by studying them from seed to flower, growing them in the greenhouse or in gardens, and designing ways of using plants to meet community needs. Culturally relevant examples of how plants and humans have changed each other will show how plants have revolutionized life on Earth. Although it doesn't count as an elective toward the biology major or minor, this course fulfills the boundary crossing (ELE-X) requirement for graduation.

**BIO-307A. Interdisciplinary Research Skills I. 3 Hours.**

This course provides an introduction to a set of topics that are at the forefront of research in the sciences. The course is structured around a series of modules, each covering a topic that is among the most significant in the fields of Biology, Mathematics and Psychology (see course schedule below).

The modules, while complete in themselves, will also draw connections between scientific disciplines, and explore the inter-relationships between them.

**BIO-308. Interdisciplinary Research Skills II. 3 Hours.**

In this second course of our research skills series we introduce a set of topics that are at the forefront of research in the natural sciences with emphasis on quantitative analysis and interpretation of research articles. The course is structured around a series of modules, each covering a topic in the fields of Biology and/or Mathematics. The modules, while complete in themselves, will also draw connections between scientific disciplines, and explore the inter-relationships between them. The modules will vary depending on the assigned faculty to teach this course.

**Prerequisite:** BIO-307A with a minimum grade of C.

**BIO-310. Evolution. 3 Hours.**

This course will examine the evolutionary history of life on Earth, and the mechanisms (both Darwinian and non-Darwinian) that lead to evolutionary change. Students will interpret diagrams showing evolutionary relationships and will use modeling techniques and statistical analyses to investigate changes in populations over generations. The study of evolution is relevant to students interested in many areas of science, including medicine and human health, genetics, biological anthropology, paleontology, ecology, biogeography, animal behavior, environmental science, and conservation.

**Prerequisite:** BIO-201 with a minimum grade of C and BIO-202 with a minimum grade of C.

**BIO-311. History of Science. 3 Hours.**

This course will outline development of the scientific method and knowledge of the natural sciences from ancient civilization to the present. Students will examine the great diversity of cultural contributions, from many different parts of the world, to the historical development of modern science. Particular attention will be paid to the disciplines of astronomy, biology, chemistry, mathematics, philosophy, and physics. The prerequisite requirement for this course is a minimum of eight credits at the 200-level or above in STEM.

**Prerequisite:** BIO-201 with a minimum grade of C and (BIO-202 with a minimum grade of C or CHEM-211 with a minimum grade of C or ESCI-211 with a minimum grade of C or MATH-275 with a minimum grade of C or PHYS-201L with a minimum grade of C or PHYS-206L with a minimum grade of C).

**BIO-315. Communicating Science. 3 Hours.**

Students will explore the basics of communicating science to non-scientists, scientists, and interested stakeholders. Through discussions, group work, and individual assignments, students will practice techniques associated with writing, presenting, and sharing biology and biological results. The assignments consist of formal and informal writing, presentations, and graphical design products. The prerequisite requirement for this course is a minimum of eight credits at the 200-level or above in STEM. This class is also offered at the 400-level for graduate credit.

**Prerequisite:** (BIO-201 with a minimum grade of C or CHEM-211 with a minimum grade of C or PHYS-201L with a minimum grade of C or PHYS-206L with a minimum grade of C) and (BIO-202 with a minimum grade of C or CHEM-212 with a minimum grade of C or PHYS-202L with a minimum grade of C or PHYS-207L with a minimum grade of C or ESCI-211 with a minimum grade of C).

**BIO-316. Advanced Medical Terminology. 3 Hours.**

Advanced Medical Terminology provides an in-depth understanding of specialized terms, concepts, and techniques in health care. It is not a basic terminology class; rather, it is an advanced exploration of medical terminology and its relevance in health-related contexts and applications. Medical terminology will be applied to study disease, anatomy of body systems, pathophysiology, microbiology, immunology, and genetic disorders. Students will read and evaluate the primary literature on recent medical advances. They will synthesize information and use medical terminology in writing assignments and in oral presentations. Case studies on health disparities and inequities in healthcare will be a core focus.

**BIO-318. Human Anatomy And Physiology I. 4 Hours.**

In the first of a two-course series in human anatomy and physiology, students examine the integumentary, skeletal, muscular, and nervous systems. Interrelationships between structures and functions at the macroscopic and microscopic levels of organization are covered. In the laboratory component, students examine and identify each system through cadavers, models, slides, and physiology-based experiments. Medical terminology is covered and the pathological conditions of each system are discussed, including recent advances in treatment. Lecture and laboratory.

**Prerequisite:** BIO-202 with a minimum grade of C and BIO-301 with a minimum grade of C.

**BIO-319. Human Anatomy And Physiology II. 4 Hours.**

In the second of a two-course series in human anatomy and physiology, students examine the cardiovascular, respiratory, digestive, urinary, and genital systems. Interrelationships between structures and functions at the macroscopic and microscopic levels of organization are covered. In the laboratory component, students examine and identify each system through cadavers, models, slides, and physiology-based experiments. Medical terminology is covered and the pathological conditions of each system are discussed, including recent advances in treatment. Lecture and laboratory.

**Prerequisite:** BIO-301 with a minimum grade of C and BIO-318 with a minimum grade of C.

**BIO-320. Animal Kingdom. 4 Hours.**

The animal kingdom will be explored through the anatomy, physiology, and developmental histories of the major animal clades. Students will examine the ecological significance of select clades and the niches and adaptations found among the major animal phyla. Our dynamic understanding of the relationships between the branches of the animal kingdom will be investigated through both cladistics and the traditional Linnaean approach. Lecture and laboratory.

**Prerequisite:** BIO-201 with a minimum grade of C and BIO-202 with a minimum grade of C and (BIO-250 with a minimum grade of C or BIO-150 with a minimum grade of C).

**BIO-322. Invertebrate Zoology. 4 Hours.**

This course surveys the diversity of invertebrates, which are the vast majority of animal life. Students will examine the development, physiology, reproduction, and evolutionary relationships among the invertebrate animals and our evolving understanding of invertebrate anatomy and physiology. The class will investigate the diverse biomechanical adaptations of animal life and use select phyla to explore their potential for biomimetic applications in medicine, industry, and design. Lecture and laboratory.

**Prerequisite:** BIO-201 with a minimum grade of C and BIO-202 with a minimum grade of C and (BIO-250 with a minimum grade of C or BIO-150 with a minimum grade of C).

**BIO-323. Entomology. 4 Hours.**

Insects, their identification, classification, habits and ecological relationships are examined, with special emphasis on insects common to the Chicago area. Materials are introduced for a foundation in forensic, medical, agricultural, and environmental entomology. It includes an exploration of insects as disease vectors, the mechanisms of insect control, and integrated pest management. Lecture, laboratory, and fieldwork.

**Prerequisite:** BIO-201 with a minimum grade of C and BIO-202 with a minimum grade of C and (BIO-250 with a minimum grade of C or BIO-150 with a minimum grade of C).

**BIO-324. Ornithology. 4 Hours.**

Ornithology is the study of birds, one of the most spectacular, successful, and best-studied animal groups. This course will survey the evolution, physiology, ecology, and behavior of birds. Labs will include field trips to watch and identify birds in their natural habitats and dissections to better understand their physiology and functional morphology. Lecture, laboratory, and fieldwork.

**Prerequisite:** BIO-201 with a minimum grade of C and BIO-202 with a minimum grade of C and (BIO-250 with a minimum grade of C or BIO-150 with a minimum grade of C).

**BIO-325. Local Fauna. 4 Hours.**

This course provides a survey of local animal groups in various ecosystems in the region, with an emphasis on field identification of vertebrate taxa. Class will regularly meet off-campus, and may have up to two field trips scheduled on a Friday, Saturday, or Sunday. Lecture, laboratory, and fieldwork. In addition to stated prerequisites, General Ecology (BIO-305) is recommended.

**Prerequisite:** BIO-201 with a minimum grade of C and BIO-202 with a minimum grade of C and (BIO-250 with a minimum grade of C or BIO-150 with a minimum grade of C).

**BIO-326. Animal Parasitology. 4 Hours.**

Taxonomy, anatomy, physiology and significance of parasitic and parasitoid organisms and their hosts are explored. The course examines host-parasite interactions, distribution of parasites across ecosystems, and effects of their presence and life cycles and on the surrounding environment. The class also explores the diversity of human parasitic infections, their impact on the economy, and our changing understanding of what constitutes a "parasite." Lecture and laboratory.

**Prerequisite:** BIO-201 with a minimum grade of C and BIO-202 with a minimum grade of C and (BIO-250 with a minimum grade of C or BIO-150 with a minimum grade of C).

**BIO-327. Mammalian Anatomy. 4 Hours.**

Gross architectural elements of the mammalian body, with emphasis upon correlation of form and function. Lecture and laboratory.

**Prerequisite:** BIO-150 with a minimum grade of C and BIO-201 with a minimum grade of C and BIO-202 with a minimum grade of C.

**BIO-328. Animal Behavior. 3 Hours.**

Comparative ethology with an emphasis on understanding the impact of adaptation, evolutionary history, anatomy, physiology, and developmental processes on the behaviors of animals. Topics include learning, intelligence and emotional impacts, social organization, and physiological integrating mechanisms.

**Prerequisite:** BIO-201 with a minimum grade of C and BIO-202 with a minimum grade of C.

**BIO-330. Plant Anatomy And Morphology. 4 Hours.**

Plants are a diverse and important group of organisms. In this course students compare the morphology and anatomy of vascular and nonvascular plants, use scientific method to answer a question about plants using microscopy and other anatomical or morphological techniques, and communicate results of their studies to classmates. The course includes instruction in plant identification techniques and in taxonomic methods. Lecture and laboratory.

**Prerequisite:** BIO-201 with a minimum grade of C and BIO-202 with a minimum grade of C and (BIO-250 with a minimum grade of C or BIO-150 with a minimum grade of C).

**BIO-331. Plant Physiology. 4 Hours.**

In this course students study fundamental biological processes, such as how plants harvest and store energy, obtain and transport water and nutrients, and receive and process environmental signals. The scientific method is applied to develop and test hypotheses, and oral and written presentation skills are developed as students present their experimental findings. Students read research articles and other high-quality literature to learn what is currently known, to explore new concepts and techniques, and to examine connections between plant physiology and human cultures. This class is also offered at the 400-level for graduate credit. Lecture and laboratory.

**Prerequisite:** BIO-202 with a minimum grade of C and BIO-301 with a minimum grade of C.

**BIO-332. Local Flora. 4 Hours.**

This course provides a study of local plant species and ecosystems, with emphasis on phylogenetic relationships, systematics, and ecological relationships. Also included will be the geological processes and history that have shaped the region. Focus will be on species that are flowering during the semester that the course is taught, usually summer. Lecture, laboratory, and field trips.

**Prerequisite:** BIO-201 with a minimum grade of C and BIO-202 with a minimum grade of C and (BIO-250 with a minimum grade of C or BIO-150 with a minimum grade of C).

**BIO-333. Economic Botany. 3 Hours.**

Plants of particular economic significance to humans as sources of food, fibers, flavoring agents, drugs and industrial chemicals are examined. Areas of emphasis will be on how the biology/chemistry of the plant determines its use to humans, plant domestication and use from cultures world-wide, and how plants have shaped human societies.

**Prerequisite:** BIO-201 with a minimum grade of C and BIO-202 with a minimum grade of C.

**BIO-334. Biology Of Fungi. 4 Hours.**

Fungi, a distinct kingdom of unicellular and filamentous organisms, have tremendous importance to medicine and to the environment. Drugs from antibiotics to immunosuppressants are produced by fungi. Fungi play essential roles as decomposers as well as parasites and symbionts. Fungi also have significant economic importance in the food and beverage industries. In this subdiscipline of microbiology, students will examine all aspects of fungal biology, including laboratory culture, natural history, morphogenesis, genetics and physiology, and health applications. Lecture and laboratory.

**Prerequisite:** BIO-201 with a minimum grade of C and BIO-202 with a minimum grade of C and (BIO-250 with a minimum grade of C or BIO-150 with a minimum grade of C).

**BIO-340. Molecular Biology. 4 Hours.**

This course is designed for upper-level undergraduates and builds on Cell Biology and General Genetics. Molecular biology is rapidly advancing the fields of biomedical and agricultural sciences. Understanding the chemistry of DNA, RNA and proteins has allowed scientists to manipulate these macromolecules to more fully understand cellular functions, treat human diseases and engineer more viable crops and livestock. The course will provide students with a broad understanding of molecular biology as well as teach modern molecular biology techniques routinely used in research labs, forensics labs and hospital diagnostic labs. Lecture and laboratory.

**Prerequisite:** BIO-202 with a minimum grade of C and (BIO-301 with a minimum grade of C or BIO-303 with a minimum grade of C) and CHEM-211 with a minimum grade of C.

**BIO-341. General Microbiology. 4 Hours.**

Students examine the diversity of microorganisms and viruses and their impacts on health and the environment. Topics include taxonomy and identification, ultrastructure and function, nutrition and growth, physiology, metabolism, molecular genetics, host-microbial interactions, immunology, ecology, and biotechnology. Laboratory safety and techniques related to the isolation, staining, identification, morphology and growth characterization, and control of microorganisms are practiced. Lecture and laboratory.

**Prerequisite:** BIO-202 with a minimum grade of C and BIO-301 with a minimum grade of C.

**BIO-342. Pathogenic Microbiology. 3 Hours.**

Students examine the distinctive cellular and molecular properties that make some microorganisms pathogenic in humans, including their mechanisms of infection, how they replicate, the diseases they cause, how they are diagnosed, as well as treatment and control options. This class is also offered at the 400-level for graduate credit.

**Prerequisite:** BIO-201 with a minimum grade of C and BIO-202 with a minimum grade of C and BIO-341 with a minimum grade of C.

**BIO-343. Virology. 4 Hours.**

The course is designed to give students a background of animal, plant and bacterial viruses with further emphasis on animal viruses. Topics covered will include but are not restricted to, replication strategies and life cycle, molecular mechanisms of infection, virus host interactions, viral evasion of body's immune response and various pathological conditions. Laboratory exercises will include growth and isolation of virus, plaques assays, DNA cloning and expression of heterologous genes using a viral vector. Upon completion of the course, students will have a knowledge base useful towards medical or other health related careers. Lecture and laboratory.

**Prerequisite:** BIO-202 with a minimum grade of C and BIO-301 with a minimum grade of C.

**BIO-344. Vertebrate Histology. 4 Hours.**

This course will focus on the basic characteristics and identification of the primary vertebrate tissues, as well as their organization into organ systems. Where appropriate microanatomy will be integrated with organ functions. Examination of microscope slides, light micrographs, and electronmicrographs of tissues and organs will be used in the study of vertebrate histology. Lecture and laboratory.

**Prerequisite:** BIO-150 with a minimum grade of C and BIO-201 with a minimum grade of C and BIO-202 with a minimum grade of C and BIO-301 with a minimum grade of C.

**BIO-345. Emerging Infectious Diseases. 3 Hours.**

Emerging infectious diseases are those that have not previously been seen and those that are re-emerging after having been controlled. This course will provide an introduction to significant emerging infectious diseases in humans. Through a combination of lecture, discussion, and in-class activities, this course will focus on factors that contribute to emerging infectious diseases, mechanisms of disease transmission, as well as analysis of specific diseases, their associated diagnosis and prevention.

**Prerequisite:** BIO-201 with a minimum grade of C and BIO-202 with a minimum grade of C and BIO-341 with a minimum grade of C.

**BIO-346. Parasites And Human Health. 3 Hours.**

In-depth study of the major helminth, protozoan, and arthropod parasites of humans. The course will compare these organisms to other human pathogens and provide insight into their unique historical and contemporary importance at the individual host, population, and global scales. Using a mathematical epidemiological approach, this course is designed to give students a hands-on experience with topics including transmission, pathology, immunology, and distributions of parasites within and among human hosts. The course will also provide students with a broad understanding of diagnosis, control, treatment, and prevention. Lecture. Prerequisites: BIO-150, BIO-201, BIO-202, BIO-305, MATH-187 OR MATH-275. BIO-326 recommended.

**Prerequisite:** BIO-201 with a minimum grade of C and BIO-202 with a minimum grade of C and BIO-305 with a minimum grade of C and (MATH-187 with a minimum grade of C or MATH-275 with a minimum grade of C).

**BIO-350. Plant Ecology. 4 Hours.**

An introduction to how the concepts of ecology have been developed for and applied to plant systems. This course is an extension of General Ecology and emphasizes not only the ways in which general principles have been applied to plants, but also concepts and methodology unique to plants. Lecture, laboratory and fieldwork.

**Prerequisite:** BIO-150 with a minimum grade of C and BIO-201 with a minimum grade of C and BIO-202 with a minimum grade of C and BIO-305 with a minimum grade of C.

**BIO-351. Biology Of Algae. 4 Hours.**

In this subdiscipline of microbiology, students will examine a diverse group of photosynthetic organisms with emerging biotechnological potential. The evolution, physiology, and ecology of algae provide the basis for advances in medicine, food production, and environmental protection. In field trips to wetlands, lakes, and rivers, students will investigate local environmental problems and their solutions. Students will design and conduct original research projects involving identification and study of algal taxa. The course qualifies as a botany elective for undergraduate students. It is also offered at the 400-level for graduate credit. Lecture, laboratory, and fieldwork.

**Prerequisite:** BIO-201 with a minimum grade of C and BIO-202 with a minimum grade of C and (BIO-250 with a minimum grade of C or BIO-150 with a minimum grade of C).

**BIO-352. Aquatic Biology. 4 Hours.**

Aquatic organisms have complex behaviors and interactions with their environment. Animals, plants, and microbes also serve as biological indicators of water quality. Course topics include physiology, energy flow, nutrient cycling, ecology, and restoration and management of aquatic resources. Students will apply what they learn to understand the impact of water resources to health and society. In hands-on field and laboratory exercises, students will sample aquatic systems, measure important limnological variables, and interpret data. There will be several field trips to local lakes, rivers, and wetlands, and students will design and conduct original research projects. Lecture, laboratory, and fieldwork.

**Prerequisite:** BIO-201 with a minimum grade of C and BIO-202 with a minimum grade of C and (BIO-250 with a minimum grade of C or BIO-150 with a minimum grade of C) and CHEM-211 with a minimum grade of C.

**BIO-356. Microbial Ecology. 3 Hours.**

Recommended for students interested in medicine or the environment, this course focuses on the essential roles played by Bacteria, Archaea, and Fungi in the world around us and within us. The course builds on fundamental biological and ecological principles; explores ways that microbial communities are similar to plant and animal communities, and ways in which they are unique; examines microbial drivers of major biogeochemical cycles and ecosystem services; characterizes relationships of microbes with other organisms; and considers the history of microbial interactions with humans, as antagonists (diseases), symbionts (microbiomes), and tools (food and biofuels).

**Prerequisite:** BIO-201 with a minimum grade of C and BIO-202 with a minimum grade of C.

**BIO-357. Community Ecology. 3 Hours.**

This course applies our understanding of ecological communities and their organizing principles to conservation biology and the restoration of degraded ecosystems. Examples from marine, terrestrial, and freshwater communities will be addressed through active discussion of the primary literature. This course may be taken for graduate credit.

**Prerequisite:** BIO-305 with a minimum grade of C.

**BIO-358. Biogeography. 3 Hours.**

This course covers the geographic distribution of living organisms and the biological principles underlying this distribution, including the evolutionary patterns of dispersal in both fossil and contemporary species. Biogeography has important implications toward understanding conservation management, economic production, and public health. Discussions and papers will include an overview of the history of biogeography through current techniques and theories. This class is also offered at the 400-level for graduate credit.

**Prerequisite:** BIO-202 with a minimum grade of C.

**BIO-359. Ecological Methods. 4 Hours.**

Field and laboratory methodology for the ecologist. Includes instruction on experimental design, quantitative sampling, data acquisition and interpretation as well as the preparation of project reports. Lecture and laboratory.

**Prerequisite:** BIO-150 with a minimum grade of C and BIO-201 with a minimum grade of C and BIO-202 with a minimum grade of C and BIO-305 with a minimum grade of C and MATH-275 with a minimum grade of C.

**BIO-360. Vertebrate Physiology. 4 Hours.**

Functions and interrelationships of organ systems. Lecture and laboratory.

**Prerequisite:** BIO-150 with a minimum grade of C and BIO-201 with a minimum grade of C and BIO-202 with a minimum grade of C and BIO-301 with a minimum grade of C.

**BIO-361. Human Genetics. 4 Hours.**

This course builds on General Genetics, and emphasizes human medical genetics. Topics covered include but are not restricted to: known human genetic disorders; use of karyotyping, microsatellite analysis, and sequencing in the diagnosis of genetic disorders; use of pedigrees, epidemiological and molecular studies in the identification of genetic contributions to multifactorial conditions and diseases. This class is also offered at the 400-level for graduate credit. Lecture and laboratory.

**Prerequisite:** BIO-303 with a minimum grade of C.

**BIO-362. Biochemistry. 4 Hours.**

Biochemistry examines the chemistry that underlies the biological processes common to all living organisms. The course will explore the chemical nature of the four major biological molecules and the processes that drive their activities. Topics include the structures of proteins, nucleic acids, carbohydrates, and lipids, and processes that include thermodynamics, acid-base reactions, catalysis, and energetics. This class is also offered at the 400-level for graduate credit. Lecture and laboratory.

**Prerequisite:** BIO-202 with a minimum grade of C and BIO-301 with a minimum grade of C and CHEM-231 with a minimum grade of C.

**BIO-363. Immunology. 4 Hours.**

Students will examine the role of cells and organs of the immune system in health and disease. Topics covered will include but are not restricted to innate and adaptive immunity, molecular mechanisms of antibody diversity, major histocompatibility complex, complement system, immunodeficiency, allergies, immunology of cancer and organ transplantation. Recent developments in techniques and immunotherapies will also be discussed. The course will give the students theoretical and practical knowledge applicable to medical and other health related fields. This class is also offered at the 400-level for graduate credit. Lecture and laboratory.

**Prerequisite:** BIO-202 with a minimum grade of C and BIO-301 with a minimum grade of C.

**BIO-364. Endocrinology. 4 Hours.**

Hormones play a huge role in daily function and in health. Endocrinology focuses on the study of hormones and other signaling molecules and their functions in growth and reproduction, mood control, and metabolism. Human and animal examples will be discussed, making the course relevant to students interested in careers in healthcare, veterinary science, and conservation fields. This class is also offered at the 400-level for graduate credit. Lecture and laboratory.

**Prerequisite:** BIO-202 with a minimum grade of C and BIO-301 with a minimum grade of C and CHEM-231 with a minimum grade of C.

**BIO-365. Neurobiology. 4 Hours.**

This course provides an in-depth examination of nervous systems in vertebrates and invertebrates. Topics covered include but are not restricted to: excitable membrane physiology, synaptic mechanisms, and neuronal organization with emphasis on the integrative aspects of neural function. This class is also offered at the 400-level for graduate credit. Lecture and laboratory.

**Prerequisite:** BIO-202 with a minimum grade of C and BIO-301 with a minimum grade of C.

**BIO-366. Cancer Biology. 3 Hours.**

The molecular and cellular basis of cancer are examined. Topics covered include epidemiology of cancer, genetics of cancer, molecular mechanisms behind cancer, impact of viruses on human cancer development, and the biochemistry of cancer. This class is also offered at the 400-level for graduate credit.

**Prerequisite:** BIO-301 with a minimum grade of C and BIO-303 with a minimum grade of C.

**BIO-367. Developmental Biology. 4 Hours.**

This course examines patterns of normal and abnormal development in the embryo, emphasizing development interactions between cells and systems and how these systems are disrupted during development leading to birth defects. The course is designed to give students the basic knowledge needed to go on into research or health professions. This class is also offered at the 400-level for graduate credit. Lecture and laboratory.

**Prerequisite:** BIO-301 with a minimum grade of C and BIO-303 with a minimum grade of C.

**BIO-368. Genomics and Proteomics. 3 Hours.**

Genomics and Proteomics involves the use of high throughput methods and state of the art techniques, databases, and computations to generate, organize, explore, and analyze large data sets of DNA and/or protein sequence. This course will provide an introduction to the fields of genomics and proteomics. Through a combination of lecture, discussion, and hands-on activities, students will focus on the methods and techniques used in gathering and interpreting genomic and proteomic data to answer questions important to modern day biology. This class is also offered at the 400-level for graduate credit.

**Prerequisite:** BIO-303 with a minimum grade of C.

**BIO-372. Biochemistry Of Metabolism. 3 Hours.**

This course focuses on the processing of carbohydrates, lipids, proteins, and nucleotides, offering a mechanistic view of metabolic pathways related to each macromolecule group, including feedback control. Topics will be linked to clinical situations and will incorporate current primary research literature in the field of metabolism. Quantitative analysis of chemical reactions, bioenergetics, thermodynamics and interpretation of research articles will be incorporated as part of the lectures. This class is also offered at the 400-level for graduate credit.

**Prerequisite:** BIO-362 with a minimum grade of C or CHEM-362 with a minimum grade of C.

**BIO-380D. Topics In Biology:Microbial Genetics. 3 Hours.**

**Prerequisite:** BIO-150 with a minimum grade of C and BIO-201 with a minimum grade of C and BIO-202 with a minimum grade of C and BIO-341 with a minimum grade of C.

**BIO-380E. Topics In Biology:Introductory Bryology. 3 Hours.**

**Prerequisite:** BIO-150 with a minimum grade of C and BIO-201 with a minimum grade of C and BIO-202 with a minimum grade of C.

**BIO-380H. Topics In Biology: Sensory Mechanisms. 3 Hours.**

This course is designed for students interested in learning how organisms (including humans) detect, process and respond to sensory stimuli such as light, odors, touch, taste, and sound. Students will also learn about the mechanisms used by a wide range of organisms to sense both their internal and external environments. This comparative approach will emphasize common principles of sensory coding and transduction as well as unique strategies used to address specific biological needs. Lectures and associated readings will focus on physiological, neurobiological and behavioral analyses to understand both the proper functioning and dysfunction of sensory systems.

**Prerequisite:** BIO-201 with a minimum grade of C and BIO-202 with a minimum grade of C.

**BIO-381. Independent Study I. 1 Hour.**

Library study of a biological topic, including a thorough literature search and production of a review paper on the chosen topic.

**BIO-382. Independent Study II. 2 Hours.**

(See BIO-381 for description and prerequisites.)

**BIO-383. Independent Study III. 3 Hours.**

(See BIO-381 for description and prerequisites.)

**BIO-390. Biology Senior Seminar. 3 Hours.**

Students will integrate knowledge gained from courses taken throughout the biology major to explore topics of particular interest to them through writing and oral presentation. Students will also have the opportunity to further develop and obtain feedback on career preparation materials such as a resume, cover letter, and personal statement. This course fulfills the capstone requirement for the biology major.

**BIO-391. Internship In Biology. 3 Hours.**

Through an internship in the biological sciences, students gain laboratory or field experience at an off-campus site. Students engage in research or industry projects, guided by a faculty advisor and a site supervisor. Requirements include submission of the planned internship project, a review of relevant literature, and presentation of the project results in a written report and symposium presentation. This course fulfills the capstone requirement for the biology major.

**BIO-392. Independent Research I. 2 Hours.**

In this first of a two-course series, students engage in a field or laboratory study of a biology topic or question. Requirements include design and execution of the research project, review of relevant scientific literature, production of a scientific style paper describing the project and results, and presentation of the project in either podium or poster format. Successful completion of both BIO-392 and BIO-393 will fulfill the capstone requirement for the biology major.

**BIO-393. Independent Research II. 2 Hours.**

In this second of a two-course series, students engage in a field or laboratory study of a biology topic or question. Requirements include design and execution of the research project, review of relevant scientific literature, production of a scientific style paper describing the project and results, and presentation of the project in either podium or poster format. Successful completion of both BIO-392 and BIO-393 will fulfill the capstone requirement for the biology major.

**BIO-394. Seminar In Teaching Of Biology. 3 Hours.**

Under the direction of a faculty mentor, students gain experience as peer leaders in the classroom. Students assist in designing and presenting lecture material and in designing, setting up, and directing laboratory exercises. As they help develop curricular and assessment materials, they integrate knowledge and skills learned in prior courses. Students should identify a faculty mentor to advise and guide this teaching experience no later than the term before they register for the course. This course fulfills the capstone requirement for the biology major.

**BIO-405. Biological Literature. 3 Hours.**

Overview of scientific communication in biology with the focus on the researching, critiquing, and synthesizing of primary scientific literature. Other activities may include, but are not limited to writing grant proposals, presenting research, creating scientific posters, participating in peer review, and engaging in professional development to help further students' careers in biology.

**BIO-408. Environmental Biology for Middle School Teaching. 4 Hours.****BIO-411. Spreadsheet Modeling In Ecology & Evolution. 3 Hours.**

This course will introduce students to the use of basic and advanced spreadsheet applications to model a wide variety of ecological and evolutionary processes and systems. Graphing capabilities, complex nested functions, and advanced software functions including writing macros, sampling from statistical distributions, using lookup tables will be used extensively. Students will complete independent projects in which they generate their own models using data from the literature and present their results both orally and in writing. Extensive work outside of the classroom will be required. Students are expected to have completed coursework in ecology and statistics before taking this course.

**Prerequisite:** BIO-405 with a minimum grade of C.

**BIO-412. Chronobiology. 3 Hours.**

Most living organisms display oscillations in many biological, physiological, and behavioral processes. These oscillations confer adaptive advantages for survival on a planet that revolves on its axis once every 24 hours. Chronobiology is the study of these adaptations. Through a combination of group activities, discussion, and lecture this course focuses on the physiologic and genetic generation of 24 hour rhythms, as well as the behavioral and physiological processes that they control in various species.

**Prerequisite:** BIO-405 with a minimum grade of C.

**BIO-413. Evolutionary Biology. 3 Hours.**

This course provides a comprehensive analysis of evolutionary patterns in both fossil and contemporary species. Topics addressed include an overview of the history of evolutionary biology, Hardy-Weinberg equilibrium assumptions about non-evolving systems, Darwinian and non-Darwinian mechanisms of evolutionary change, the Biological Species Concept and alternative species definitions, pre-zygotic and post-zygotic mechanisms of speciation, and current views on the origin and natural history of life on Earth.

**Prerequisite:** BIO-405 with a minimum grade of C.

**BIO-414. Comparative Biology Of Aging. 3 Hours.**

This course provides a comparative analysis of aging, longevity, and mortality patterns in diverse prokaryotic and eukaryotic species. Topics addressed include an overview of the history of biological gerontology, life-table construction and analysis, populational and physiological measurements of senescence, theoretical models of aging and longevity, use of vital statistics mortality data, biochemistry of free-radicals and antioxidant molecules, and therapeutic intervention to prolong lifespan in various species.

**Prerequisite:** BIO-405 with a minimum grade of C.

**BIO-415. Animal Behavior. 3 Hours.**

This course provides advanced study and analysis of selected topics within the field of Animal Behavior with emphasis on topics that are currently at the forefront of the discipline. Depending on the term, the course may emphasize studies of animal behavior within an ecological, evolutionary and/or neuroethological context.

**Prerequisite:** BIO-405 with a minimum grade of C.

**BIO-415G. Communicating Science. 3 Hours.**

Students will explore the basics of communicating science to non-scientists, scientists, and interested stakeholders. Through discussions, group work, and individual assignments, students will practice techniques associated with writing, presenting, and sharing biology and biological results. The assignments consist of formal and informal writing, presentations, and graphical design products.

**Prerequisite:** (BIO-201 with a minimum grade of C or CHEM-211 with a minimum grade of C or PHYS-201L with a minimum grade of C or PHYS-206L with a minimum grade of C) and (BIO-202 with a minimum grade of C or CHEM-212 with a minimum grade of C or PHYS-202L with a minimum grade of C or PHYS-207L with a minimum grade of C or ESCI-211 with a minimum grade of C).

**BIO-421. Biochemical Genetics. 3 Hours.**

This course explores the biochemistry of the genetic material and the cell's ability to replicate, transcribe and translate genetic information. Recent discoveries in gene manipulation are discussed. Lecture and discussion.

**Prerequisite:** BIO-405 with a minimum grade of C.

**BIO-424. Analysis Of Development. 3 Hours.**

This course provides an analysis of the mechanisms underlying developmental processes in the embryo and adult organisms with special emphasis on the role of the genes in development. Lecture only.

**Prerequisite:** BIO-405 with a minimum grade of C.

**BIO-425. Animal Models of Human Disease. 3 Hours.**

Because of the ethical and logistical challenges of studying disease using human subjects, biologists use model organisms and model systems to understand the underlying mechanisms responsible for diseases, and to identify potential treatments and cures. Through lecture, literature research, and discussion this course will examine examples of how animal models are being used in biomedical research. Systems covered include mammalian species, non-mammalian vertebrate species, and invertebrate species. Course may be repeated for credit with permission from the Graduate Advisor.

**BIO-427. Current Topics In Genetics. 3 Hours.**

This course provides students with advanced study and analysis of selected topics within the field of Genetics, with emphasis on topics that are at the forefront of advances in the discipline. Course may be repeated for credit one time with permission from the Graduate Advisor.

**Prerequisite:** BIO-405 with a minimum grade of C.

**BIO-428. Current Topics In Human Genetics. 3 Hours.**

This course provides an advanced study and analysis of selected topics within the field of Human Genetics, with emphasis on topics, such as the Human Genome and HapMap projects, epistasis, etc., that are at the forefront of advances in our understanding of human heredity, development and disease.

**Prerequisite:** BIO-405 with a minimum grade of C.

**BIO-431G. Plant Physiology. 4 Hours.**

In this course students study fundamental biological processes, such as how plants harvest and store energy, obtain and transport water and nutrients, and receive and process environmental signals. The scientific method is applied to develop and test hypotheses, and oral and written presentation skills are developed as students present their experimental findings. Students read research articles and other high-quality literature to learn what is currently known, to explore new concepts and techniques, and to examine connections between plant physiology and human cultures. Lecture and laboratory.

**BIO-441. Biology Of Viruses. 3 Hours.**

The structure and replication of viruses, strategies of host defense and viral evasion, and use of viruses in biotechnology. RNA- as well as DNA-viruses will be included. Current research papers will be discussed to make students aware of advances being made in the field.

**BIO-447. Current Topics In Cell Biology. 3 Hours.**

Advanced study and analysis of selected topics within the field of Cell Biology, with emphasis on topics that are at the forefront of advances in the discipline. Course may be repeated for credit one time with permission from the Graduate Advisor.

**Prerequisite:** BIO-405 with a minimum grade of C.

**BIO-450. Foundations Of Ecology. 3 Hours.**

Students will engage in readings and discussions of foundational papers in ecology, and classic case studies of field and laboratory experiments in ecology. The readings will provide an overview of the development of ecology as a science, look at the major debates in ecology, and examine the development of both theory and methodologies in ecology. Students will also present and discuss contemporary papers in light of these historical contexts. Students are expected to have completed coursework in ecology before taking this course.

**Prerequisite:** BIO-405 with a minimum grade of C.

**BIO-451. Biological Diversity. 3 Hours.**

The course covers contemporary and historical patterns of biodiversity, current hypotheses for local, regional and global diversity trends, diversity case studies from plant and animal communities in aquatic and terrestrial systems. Lecture and discussion.

**Prerequisite:** BIO-405 with a minimum grade of C.

**BIO-451G. Biology Of Algae. 4 Hours.**

In this subdiscipline of microbiology, students will examine a diverse group of photosynthetic organisms with emerging biotechnological potential. The evolution, physiology, and ecology of algae provide the basis for advances in medicine, food production, and environmental protection. In field trips to wetlands, lakes, and rivers, students will investigate local environmental problems and their solutions. Students will design and conduct original research projects involving identification and study of algal taxa.

**Prerequisite:** BIO-201 with a minimum grade of C and BIO-202 with a minimum grade of C.

**BIO-452. Quaternary Ecology. 4 Hours.**

This course provides an introduction to the principles and techniques of paleoecology with emphasis on the effects of global and regional climate/ environmental change on ecosystems, communities, and populations during the Quaternary Period. Lecture and laboratory.

**Prerequisite:** BIO-405 with a minimum grade of C.

**BIO-453. Conservation Biology. 3 Hours.**

This course will explore how ecological theory (including mathematical models), principles, and methodologies are applied to the conservation of populations, species, communities, and landscapes. Covered topics include biodiversity, the demographic and genetic structure of populations, population viability analysis, the problems that small populations face, extinction as a historical and contemporary process, current tools applied in conservation (e.g., GIS, molecular tools), and the application of ecological principles to nature reserve design and ecosystem management. Students will read extensively from the primary literature, lead class discussions, and solve applied and quantitative problems.

**Prerequisite:** BIO-405 with a minimum grade of C.

**BIO-454. Conservation Genetics. 3 Hours.**

Advanced study of genetic theory and practice applied to the conservation of organisms. Current primary literature will be incorporated into the course through written assignments and discussions. Current conservation genetic techniques and computer-based data analysis methods will be practiced in the laboratory.

**Prerequisite:** BIO-303 with a minimum grade of C and BIO-305 with a minimum grade of C.

**BIO-455. Restoration Ecology. 3 Hours.**

This course explores how ecological research and concepts can be applied to the restoration of disturbed ecosystems. It will take into account current trends and challenges in restoring populations, communities and ecosystems. Students are expected to have completed coursework in ecology prior to taking this course.

**Prerequisite:** BIO-405 with a minimum grade of C.

**BIO-456. Bio-Environmental Analysis. 3 Hours.**

Individual and group field projects providing experience in techniques appropriate to the analysis of natural communities and their environmental components. Studies include contrasts between selected natural areas and similar ones altered by humans. A summary interpretive paper, using data acquired, is required from each student. Lecture, laboratory, and fieldwork.

**BIO-457. Current Topics In Ecology & Evolution. 3 Hours.**

This course provides graduate students with an opportunity to explore a current topic in ecology and evolutionary biology from a variety of perspectives and scales, ranging from theory to molecular biology to community ecology. Each semester will be organized around a single book or edited volume. Students will read, present, and lead discussions on chapters from the selected book, along with related papers chosen from the recent primary literature. Students may take the course twice for credit, as long as the focal topic of the course is different.

**Prerequisite:** BIO-405 with a minimum grade of C.

**BIO-458G. Biogeography. 3 Hours.**

This course covers the geographic distribution of living organisms and the biological principles underlying this distribution, including the evolutionary patterns of dispersal in both fossil and contemporary species. Biogeography has important implications toward understanding conservation management, economic production, and public health. Discussions and papers will include an overview of the history of biogeography through current techniques and theories.

**Prerequisite:** BIO-202 with a minimum grade of C.

**BIO-461G. Human Genetics. 4 Hours.**

This course builds on General Genetics, and emphasizes human medical genetics. Topics covered include but are not restricted to: known human genetic disorders; use of karyotyping, microsatellite analysis, and sequencing in the diagnosis of genetic disorders; use of pedigrees, epidemiological and molecular studies in the identification of genetic contributions to multifactorial conditions and diseases.

**Prerequisite:** BIO-303 with a minimum grade of C.

**BIO-462. Enzymology. 3 Hours.**

The course covers enzymes as protein catalysts. The structure of a biological catalyst as discerned by x-ray diffraction, chemical modification, nuclear magnetic resonance, and kinetic studies is analyzed and related to function. Lecture, demonstration, discussion, and laboratory.

**Prerequisite:** BIO-362 with a minimum grade of C.

**BIO-462G. Biochemistry. 4 Hours.**

Biochemistry examines the chemistry that underlies the biological processes common to all living organisms. The course will explore the chemical nature of the four major biological molecules and the processes that drive their activities. Topics include the structures of proteins, nucleic acids, carbohydrates, and lipids, and processes that include thermodynamics, acid-base reactions, catalysis, and energetics.

**Prerequisite:** BIO-202 with a minimum grade of C and BIO-301 with a minimum grade of C and CHEM-231 with a minimum grade of C.

**BIO-463. Plant Biochemistry. 3 Hours.**

This course focuses on metabolic pathways of particular importance to plants, such as photosynthesis, the dissemination of starch, nitrogen fixation, and the formation of certain secondary products. Also covered are metabolic pathways common to plants and other groups of organisms, and phytohormonal control. Lecture and discussion. Students are expected to have completed coursework in biochemistry or plant physiology prior to taking this course.

**Prerequisite:** BIO-405 with a minimum grade of C.

**BIO-463G. Immunology. 4 Hours.**

Students will examine the role of cells and organs of the immune system in health and disease. Topics covered will include but are not restricted to innate and adaptive immunity, molecular mechanisms of antibody diversity, major histocompatibility complex, complement system, immunodeficiency, allergies, immunology of cancer and organ transplantation. Recent developments in techniques and immunotherapies will also be discussed. The course will give the students theoretical and practical knowledge applicable to medical and other health related fields.

**Prerequisite:** BIO-202 with a minimum grade of C and BIO-301 with a minimum grade of C.

**BIO-464. Biochemistry And Molecular Biology Methods. 4 Hours.**

This is a graduate-level lecture and laboratory course that provides training in essential experimental methods used in modern Biochemistry and Molecular Biology, including both wet-lab and computer analysis tools, while reviewing basic structure and function of biological molecules. Students are expected to have completed coursework in biochemistry or molecular biology prior to taking this course.

**Prerequisite:** BIO-405 with a minimum grade of C.

**BIO-464G. Endocrinology. 4 Hours.**

Hormones play a huge role in daily function and in health. Endocrinology focuses on the study of hormones and other signaling molecules and their functions in growth and reproduction, mood control, and metabolism. Human and animal examples will be discussed, making the course relevant to students interested in careers in healthcare, veterinary science, and conservation fields. Lecture and laboratory.

**Prerequisite:** BIO-202 with a minimum grade of C and BIO-301 with a minimum grade of C and CHEM-231 with a minimum grade of C.

**BIO-465G. Neurobiology. 4 Hours.**

This course provides an in-depth examination of nervous systems in vertebrates and invertebrates. Topics covered include but are not restricted to: excitable membrane physiology, synaptic mechanisms, and neuronal organization with emphasis on the integrative aspects of neural function.

**Prerequisite:** BIO-202 with a minimum grade of C and BIO-301 with a minimum grade of C.

**BIO-466G. Cancer Biology. 3 Hours.**

The molecular and cellular basis of cancer are examined. Topics covered include epidemiology of cancer, genetics of cancer, molecular mechanisms behind cancer, impact of viruses on human cancer development, and the biochemistry of cancer.

**Prerequisite:** BIO-301 with a minimum grade of C and BIO-303 with a minimum grade of C.

**BIO-467G. Developmental Biology. 4 Hours.**

This course examines patterns of normal and abnormal development in the embryo, emphasizing development interactions between cells and systems and how these systems are disrupted during development leading to birth defects. The course is designed to give students the basic knowledge needed to go on into research or health professions.

**Prerequisite:** BIO-301 with a minimum grade of C and BIO-303 with a minimum grade of C.

**BIO-468G. Genomics And Proteomics. 3 Hours.**

Genomics and Proteomics involves the use of high throughput methods and state of the art techniques, databases, and computations to generate, organize, explore, and analyze large data sets of DNA and/or protein sequence. This course will provide an introduction to the fields of genomics and proteomics. Through a combination of lecture, discussion, and hands-on activities, students will focus on the methods and techniques used in gathering and interpreting genomic and proteomic data to answer questions important to modern day biology.

**Prerequisite:** BIO-303 with a minimum grade of C.

**BIO-470A. Seminars In Biology. 1 Hour.****BIO-471. Comparative Animal Physiology. 3 Hours.**

This seminar course explores selected topics in the physiology of vertebrate (including human) and invertebrate animals, with an emphasis on the basic principles of physiology placed within an evolutionary and ecological context. Our perspective will be integrative, exploring physiological processes from the cellular to the organismal level of analysis. In addition, we will discuss the ways in which understanding physiology informs our understanding of, and behavior toward the human and non-human animals with which we interact daily. Course meetings will include foundational lectures, student presentations, and group discussions.

**Prerequisite:** BIO-405 with a minimum grade of C.

**BIO-472G. Biochemistry Of Metabolism. 3 Hours.**

This course focuses on the processing of carbohydrates, lipids, proteins, and nucleotides, offering a mechanistic view of metabolic pathways related to each macromolecule group, including feedback control. Topics will be linked to clinical situations and will incorporate current primary research literature in the field of metabolism. Quantitative analysis of chemical reactions, bioenergetics, thermodynamics and interpretation of research articles will be incorporated as part of the lectures.

**Prerequisite:** BIO-362 with a minimum grade of C or CHEM-362 with a minimum grade of C or BIO-462G with a minimum grade of C or CHEM-462G with a minimum grade of C.

**BIO-475. Advanced Immunology. 3 Hours.**

This course examines contemporary issues in immunology, related to diversity in immune response. Lecture and discussion of current papers on inheritance of immune response, tolerance, cancer immunology and immunotherapy. Lecture and discussion.

**Prerequisite:** BIO-405 with a minimum grade of C.

**BIO-4821. Independent Investigations. 1 Hour.**

Students registering for this course will conduct a field or laboratory study of a biological topic or question, to be carried out over the course of 1-2 terms. Requirements include two or more of the following- design and execution of the research project; review of relevant scientific literature; production of a scientific style paper describing the project and results; presentation of the project in either podium or poster format. No more than 3 credits of BIO-482 can be applied to the requirements for the Biology MS.

**Prerequisite:** BIO-405 with a minimum grade of C.

**BIO-4822. Independent Investigations. 2 Hours.**

See course description for BIO-4821. This is a 2-credit version of BIO-482.

**Prerequisite:** BIO-405 with a minimum grade of C.

**BIO-4823. Independent Investigations. 3 Hours.**

See course description for BIO-4821. This is a 3-credit version of BIO-482.

**Prerequisite:** BIO-405 with a minimum grade of C.

**BIO-485L. Advance Topics In Biology: Applied & Environmental Microbiology. 3 Hours.**

**BIO-491. Seminar In Biology. 1 Hour.**

In this seminar experience, students select a specific topic of interest to them, research the topic, and give an oral presentation on the topic to a peer group. Time commitment is approximately 2 hrs per week. Departmental approval is required.

**Prerequisite:** BIO-405 with a minimum grade of C.

**BIO-5901. Library Thesis Hours. 1 Hour.**

Guidance of students conducting literature/library research and writing a Thesis to fulfill requirements for the Master of Science degree in Biology, Option II. Students may register for 1-3 credits per term with a minimum of 4 credits required for Option II of the Biology M.S. All BIO-590 credits must be earned within the equivalent of 2 academic years.

**Prerequisite:** BIO-405 with a minimum grade of C.

**BIO-5902. Library Thesis Hours. 2 Hours.**

See course description for BIO-5901. This is a 2-credit version of BIO-590.

**Prerequisite:** BIO-405 with a minimum grade of C.

**BIO-5903. Library Thesis Hours. 3 Hours.**

See course description for BIO-5901. This is a 3-credit version of BIO-590.

**Prerequisite:** BIO-405 with a minimum grade of C.

**BIO-5991. Research Thesis Hours. 1 Hour.**

This course is for students conducting research and writing a thesis to fulfill the requirements of the Research Thesis Option in the M.S. program in Biology. Students may register for 1-4 credits of BIO-599 per term; a total of 6 credits of BIO-599 is required for the Research Thesis Option. All BIO-599 credits must be earned within the equivalent of 2 academic years.

**Prerequisite:** BIO-405 with a minimum grade of C.

**BIO-5992. Research Thesis Hours. 2 Hours.**

See course description for BIO-5991. This is a 2-credit version of BIO-599.

**Prerequisite:** BIO-405 with a minimum grade of C.

**BIO-5993. Research Thesis Hours. 3 Hours.**

See course description for BIO-5991. This is a 3-credit version of BIO-599.

**Prerequisite:** BIO-405 with a minimum grade of C.

# Biology Education (BIOS)

---

## Courses

### **BIOS-110. Introduction To Biology For Educators. 4 Hours.**

Designed specifically for prospective elementary and middle grades teachers, this inquiry-based biology course incorporates current content standards in biology for educators and meets NEIU College of Education science course requirements. Content includes cell/molecular biology, evolution, genetics, organismal biology and biotechnology. During laboratory activities, students will develop hypotheses, collect and analyze data, communicate experimental results, and apply mathematics concepts to biological problems. Can be taken concurrently with MATH-149. If students are pursuing a math and/or science teaching endorsement, it is strongly suggested to concurrently take MATH-145.

**Prerequisite:** MATH-149 with a minimum grade of C.

### **BIOS-310. Ecology Concepts For Educators. 3 Hours.**

This interdisciplinary course focuses on ecology concepts and their mathematical underpinnings, and is designed for future elementary and middle school teachers. Lectures and inquiry-based field and laboratory activities will focus on population growth, species interactions, flows of matter and energy through ecosystems, and environmental justice issues including pollution and climate change. Students will design and present an original ecology teaching project for elementary or middle school students, which may then be incorporated into a teaching portfolio to use with job applications. If students are pursuing a math and/or science teaching endorsement, it is strongly suggested to concurrently take MATH-380.

**Prerequisite:** BIOS-110 with a minimum grade of C and (MATH-150 with a minimum grade of C or MATH-151 with a minimum grade of C).

### **BIOS-410. Problems In STEM Teaching: Engaging With Biology. 3 Hours.**

The course will help educators conceptually integrate Science, Technology, Engineering, and Math (STEM) using Biology for middle and high school learners. Through literature, discussion, and hands-on practice, teachers will refine and apply problem-based, culturally relevant, and place-based methods for STEM to promote engagement and inclusion for all students. Teachers will also explore using science communication, labs, and assessments to foster equitable learning environments and nurture student's science identity. Additionally, teachers will cultivate symbiotic relationships in the community to leverage local resources to create an engaging curriculum outside of the traditional classroom.

**Requirement:** BA, Minor, Professional Educator License (PEL) or subsequent endorsement in a STEM field.

# Business Law (BLAW)

---

## Courses

### **BLAW-109. First Year Experience: Professionalism, Ethics, Law & Chicago Scandals. 3 Hours.**

This course examines the intersection between professionalism, ethics and law from a business perspective. We will look at these issues through the lens of major business-related Chicago scandals, predominantly non-political, and we will take multiple trips to visit some of the actors involved in these scandals, such as judges, lawyers and businessmen, who will further inform students about the importance of professionalism, ethics and compliance with laws. The topics covered in this course include defining professionalism, comparing professionalism to ethics, critically evaluating the differences and the importance of both, and discussing the legal process as it applies to white collar crimes.

### **BLAW-285. Legal Environment Of Business. 3 Hours.**

This survey course traces the history and development of the legal environment of business. Topics include elements of the law and the judicial process, elements of traditional business law, and the government regulation of business. Prereq.: 30 credit hours of college work.

### **BLAW-310. Legal Issues In International Business Transactions. 3 Hours.**

The study of laws, policies, and institutions associated with international business practice, including the international sale of goods, multimodal transportation and logistics, international and regional trade agreements, U.S. import/ export regulation, and transnational dispute resolution.

**Requirement:** Completion of all foundation courses required for COBM majors

**Prerequisite:** BLAW-285 with a minimum grade of C.

### **BLAW-380. Business Law I. 3 Hours.**

The study of the law of contracts, including mutual assent, consideration, legality, capacity, statute of frauds, third parties, performance, breach, discharge, and remedies; UCC sales, including transfer of title, risk of loss, bulk sales, product liability and strict liability.

**Prerequisite:** BLAW-285 with a minimum grade of C.

### **BLAW-381. Business Law II. 3 Hours.**

Continuation of BLAW-380 and covers: Agency, partnerships, corporations and UCC commercial paper. The rights and liabilities of corporate and partnership forms of business organization are covered. Negotiation, warranties, holder in due course, bank items are covered as part of UCC commercial paper.

**Prerequisite:** BLAW-285 with a minimum grade of C.

### **BLAW-383. Legal Aspects Of Entrepreneurship. 3 Hours.**

This course offers a framework for understanding legal aspects of entrepreneurial process. Topics include selecting a business form, obtaining financial capital, marshaling human resources, securing and protecting intellectual property rights, anticipating and managing risks, and engaging in e-commerce.

### **BLAW-384. Labor & Employment Law. 3 Hours.**

The course provides a broad overview of major areas of law concerning the regulation of the workplace, including the law of labor relations. The course focuses primarily on federal laws governing employment and examines specific employment issues, such as unfair labor practices, regulation of union activities, discrimination laws, pay equity laws, employee privacy topics, wage and hour laws, dispute settlement laws, health and occupational safety laws, and employment relations laws.

### **BLAW-391. Intellectual Property Creation And Management. 3 Hours.**

This survey course provides an overview of the United States' system of intellectual property protection. Topics covered include trademark law, copyright law, patent law trade secrets, domain names, and geographical indication. Besides substantive laws, the course covers other issues related to intellectual property, such as marketing strategy for licensing intellectual property assets, negotiations involving intellectual property rights, valuation of intellectual property, taxation of intangible assets, and commercialization and monetization of intellectual property assets. In addition to legal and business aspects of intellectual property rights, this course examines the interplay between cultural appropriation and intellectual property laws.

### **BLAW-400. Legal Environment Of Business And Management. 2 Hours.**

This course centers on the American legal system as one sphere of influence in the business operations of an organization. Topics include anti-trust laws, mergers and acquisitions, securities regulations, equal employment, and labor management regulations, product liability, and consumer protection. Litigation and arbitration as methods for resolving disputes are also covered. The social responsibilities, ethical concerns, and dilemmas of the organization's manager are stressed as part of the practical decision making environment.

### **BLAW-410. International Business Law. 3 Hours.**

This course will include material on the international legal environment, international economic associations, such as WTO, conflicts of law, international contracting, letters of credit, exporting/importing issues, including tariffs and other aspects of international business transactions. The purpose is to prepare an MBA student to be able to understand the legal issues that are involved in international business transactions.

# Chemistry (CHEM)

---

## Courses

### **CHEM-103. Chemistry And Society. 3 Hours.**

Introduction to chemistry based on the study of some of the processes and materials which chemistry contributes to our civilization. Elementary chemical principles are used to explain the behavior of synthetic polymers, toxic substances, food additives, cleaning products, and other chemically manufactured materials. Knowledge of basic algebra skills assumed. Lecture 3 hours.

**Prerequisite:** (MATH-091 - 499 or MATH-091A - 499Z or NEIU Math Placement Result 02 - 45 or ACT Math 19 - 36 or Accuplacer Elementary Algebra 060 - 084 or Accuplacer College Level Math 020 - 120 or Accuplacer Adv. Algebra & Func 200 - 300 or SAT Math 500 - 800).

### **CHEM-108. Chemistry Concepts For Educators. 4 Hours.**

This lab-oriented course covers the basic principles of chemistry while supporting future educators in the implementation of interdisciplinary mathematics and science curricula. Topics include atomic theory, solution chemistry, inorganic and organic chemistry, states of matter, physical and chemical properties, appropriate use of nomenclature, chemical bonding, and use of quantitative calculations using appropriate number techniques in science. The historical context of how chemistry contributes to our civilization will also be considered. Elementary chemical principles will be used to explain the behavior of everyday chemicals (including food and cleaning supplies) in addition to more scientific and industrial applications. Issues of contemporary critical technologies, such as biomaterials, natural products, alternative fuels, bioremediation, fuel cells, green technology, biodefense, and smart materials may be examined. This course is aligned to the Next Generation of Science Standards and the National Science Teachers Association Standards. Course outcomes include developing students' ability to apply knowledge of chemistry to a variety of real-world problems and settings with particular emphasis on scientific inquiry, the nature of science, civic engagement, and applications to teaching.

**Prerequisite:** MATH-150 with a minimum grade of C.

### **CHEM-110. Chemical Concepts. 3 Hours.**

Lab-oriented survey course in chemistry designed for the non-science major including such topics as the historical development of chemistry, atomic theory, solution chemistry, organic and biochemistry. Knowledge of basic algebra skills assumed. Lecture 2 hours, lab, 2 hours.

**Prerequisite:** (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120 or SAT Math 530 - 800 or Accuplacer Adv. Algebra & Func 237 - 300).

### **CHEM-180. Fundamentals Of Data Science. 4 Hours.**

Foundations of data science considers data from three perspectives: inferential thinking, computational thinking, and real-world relevance. Given data arising from some real-world phenomenon, how does one analyze that data to understand that phenomenon? The course teaches critical concepts and skills in computation and statistical inference, in conjunction with hands on analysis of real-world datasets, including economic data, document collections, geographical data, and data from social networks. It delves into social, ethical, and legal issues surrounding data analysis, including privacy and data ownership.

**Prerequisite:** MATH-173 with a minimum grade of C.

### **CHEM-211. General Chemistry I. 5 Hours.**

Introduction to general inorganic chemistry, including stoichiometry, concentration units, gas laws, atomic structure, bonding, periodic laws, states of matter, solutions, acid-base theories, rate, equilibrium and oxidation-reduction theory. Lecture and Laboratory. Lecture 4 hours, lab 3 hours.

**Prerequisite:** (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120 or SAT Math 530 - 800 or Accuplacer Adv. Algebra & Func 237 - 300).

### **CHEM-211C. Enrichment Seminar In General Chemistry I. 1 Hour.**

Enrichment seminar accompanying CHEM-211. Students do problem solving in collaborative learning groups on material derived from and supplementing General Chemistry I to gain a deeper understanding of concepts and applications. Lecture 2 hours.

**Corequisite:** CHEM-211.

### **CHEM-212. General Chemistry II. 4 Hours.**

This is the second course in the General Chemistry sequence. Topics include reaction kinetics, gaseous and aqueous phase equilibria, acids and bases, entropy, free energy and electrochemistry.

**Prerequisite:** CHEM-211 with a minimum grade of C and MATH-173 with a minimum grade of C.

### **CHEM-212C. Enrichment Seminar In General Chemistry II. 1 Hour.**

Enrichment seminar accompanying CHEM-212. Students do problem solving in collaborative groups on material derived from and supplementing General Chemistry II to gain a deeper understanding of concepts and applications. Lecture 2 hours.

**Corequisite:** CHEM-212.

### **CHEM-213. Writing Intensive Program: Quantitative Analysis. 5 Hours.**

Statistical analysis of data, chemical equilibrium, simultaneous equilibria, classical and non-classical gravimetric and volumetric techniques, acid-base and oxidation-reduction reactions, spectrophotometric and potentiometric measurements. Lecture 3 hours, lab 6 hours.

**Prerequisite:** CHEM-212 with a minimum grade of C and ENGL-101 with a minimum grade of C.

**CHEM-231. Organic Chemistry I. 4 Hours.**

Study of the structure, properties, reaction mechanisms and nomenclature of aliphatic and aromatic hydrocarbons and their derivatives. Lecture and laboratory. Lecture 3 hours, lab 3 hours.

**Prerequisite:** CHEM-212 with a minimum grade of C and CHEM-211 with a minimum grade of C.

**CHEM-231C. Enrichment Seminar In Organic Chemistry I. 1 Hour.**

Enrichment seminar accompanying CHEM-231. Students do problem solving in collaborative learning groups on material derived from and supplementing Organic Chemistry I to gain a deeper understanding of concepts and applications. Lecture 2 hours.

**Corequisite:** CHEM-231.

**CHEM-232. Organic Chemistry II. 4 Hours.**

Continuation of CHEM-231. A study of structure, properties, reaction mechanisms, synthesis and infrared and nuclear magnetic resonance spectroscopy of the alcohols, acids, amines and other monofunctional compounds. Lecture and laboratory. Lecture 3 hours, lab 3 hours.

**Prerequisite:** CHEM-231 with a minimum grade of C.

**CHEM-232C. Enrichment Seminar In Organic Chemistry II. 1 Hour.**

Enrichment seminar accompanying CHEM-232. Students do problem solving in collaborative learning groups on material derived from and supplementing Organic Chemistry II to gain a deeper understanding of concepts and applications. Lecture 2 hours.

**Corequisite:** CHEM-232.

**CHEM-300. Interdisciplinary Seminar In STEM. 2 Hours.**

This course uses a hands-on approach to modern inquiry-based research problems and techniques in the physical and computational sciences. The course is structured around a series of modular problem-based exercises, covering topics from the fields of Chemistry, Computer Science, Earth Science, Mathematics, and Physics, and is designed to provide the content and pedagogical background for students to be successful peer leaders. The cross-disciplinary modules will draw connections between scientific disciplines, and showcase common research tools and techniques used in the sciences. The workshop will also incorporate discussions on a range of topics, from scientific ethics, scientific methodology, and error analysis.

**Prerequisite:** MATH-185 with a minimum grade of C.

**CHEM-305. Independent Study In Chemistry. 3 Hours.**

An introduction to original chemical research under faculty supervision. Independent Studies require the approval of the instructor, department chair and the College Dean.

**Prerequisite:** CHEM-213 with a minimum grade of C and CHEM-232 with a minimum grade of C.

**CHEM-311. Physical Chemistry I. 4 Hours.**

Theoretical and experimental study of the structure and properties of matter, including the gaseous state, chemical thermodynamics, chemical equilibrium, liquids and phase equilibria, solutions of nonelectrolytes and ionic solutions. Lecture and laboratory. Lecture 3 hours, lab 3 hours. It is strongly suggested that the student has completed a year of physics with laboratory.

**Prerequisite:** CHEM-231 with a minimum grade of C and MATH-187 with a minimum grade of C and MATH-202 with a minimum grade of C and (PHYS-206 with a minimum grade of C or PHYS-201 with a minimum grade of C or PHYS-207 with a minimum grade of C or PHYS-202 with a minimum grade of C).

**CHEM-311C. Physical Chemistry I Seminar. 1 Hour.**

This course accompanies Physical Chemistry I, CHEM-311. Students will do problem solving in collaborative learning groups on material derived from and supplementing Physical Chemistry I lecture, in order to gain a deeper understanding of concepts and applications.

**Corequisite:** CHEM-311.

**CHEM-312. Physical Chemistry II. 4 Hours.**

Continuation of CHEM-311, including the kinetic-molecular theory, transport properties, chemical kinetics, statistical mechanics, quantum theory, atoms and diatomic molecules and spectroscopy. Lecture and laboratory. Lecture 3 hours, lab 3 hours.

**Prerequisite:** CHEM-231 with a minimum grade of C and MATH-202 with a minimum grade of C and MATH-187 with a minimum grade of C and (PHYS-206 with a minimum grade of C or PHYS-201 with a minimum grade of C or PHYS-207 with a minimum grade of C or PHYS-202 with a minimum grade of C).

**CHEM-312C. Physical Chemistry II Seminar. 1 Hour.**

This course accompanies Physical Chemistry II, CHEM-312. Students will do problem solving in collaborative learning groups on material derived from and supplementing Physical Chemistry II lecture, in order to gain a deeper understanding of concepts and applications.

**Corequisite:** CHEM-312.

**CHEM-316. Inorganic Chemistry. 4 Hours.**

A thorough study of bonding in non-transition and transition elements, periodic trends and tendencies, structural relationships and mechanisms of inorganic reactions. Lecture and laboratory. Lecture 3 hours, lab 3 hours.

**Prerequisite:** CHEM-212 with a minimum grade of C.

**CHEM-319. Chemical Aspects Of Environmental Chemistry. 3 Hours.**

A survey of the chemical principles involved in environmental problems. Topics include atmospheric, aquatic and geographic chemistry, sources of pollutants and the consequences of pollution. Lecture 3 hours.

**Prerequisite:** CHEM-212 with a minimum grade of C.

**CHEM-320. Industrial Aspects Of Environmental Chemistry. 3 Hours.**

Industrial aspects of environmental chemistry covering specific topics such as energy, water and wastewater treatment, treatment and disposal of domestic and industrial wastes, techniques for detecting and analyzing chemical pollutants, environmental modeling and analyzing chemical pollutants, environmental modeling and recycling strategies. Lecture 3 hours.

**Prerequisite:** CHEM-213 with a minimum grade of C and CHEM-232 with a minimum grade of C.

**CHEM-321. Environmental Chemistry In The City. 2 Hours.**

This is a laboratory and field course that will concentrate on topics of environmental interest in the city of Chicago. Field work will include visits to the Chicago River, Lake Michigan, the Chicago Forest Preserve, and other locations in the metropolitan area. Students will learn proper methods of sample collection, storage, and transport. Chemical analysis of collected samples by titrimetric, gravimetric, spectroscopic, chromatographic, and electrochemical methods will take place in the field and in the laboratory. Lecture 1 hr, Lab/Field 2.5 hrs. Prerequisite: CHEM-213 with a Grade of C or better.

**Prerequisite:** CHEM-213 with a minimum grade of C.

**CHEM-330. Instrumental Analysis: Spectroscopy. 4 Hours.**

The course includes an intensive laboratory introduction to infrared spectroscopy, mass spectrometry, nuclear magnetic resonance spectroscopy and Raman spectroscopy. Research projects are part of the course to develop instrumental methods for qualitative and quantitative analysis of various chemical materials used in everyday life. Lecture and laboratory. Lecture 3 hours, lab 6 hours.

**Prerequisite:** CHEM-231 with a minimum grade of C.

**CHEM-331. Instrumental Analysis: Quantitative Methods. 5 Hours.**

In this course, students will learn about instrumental methods used to determine composition of materials, including gas and liquid chromatography, UV-Vis spectroscopy, fluorescence emission spectroscopy, atomic absorption and emission spectroscopy, X-ray diffraction, and potentiometry. The course emphasizes the theory and practice of designing an analytical method.

**Prerequisite:** CHEM-231 with a minimum grade of C.

**CHEM-333. Introduction To Polymer Chemistry. 3 Hours.**

This course provides an introduction to the broad field of polymer chemistry. Topics will focus on the properties, synthesis, processing, and applications of polymers that have industrial and commercial importance. The properties of biological polymers and environmental concerns of polymers will also be discussed.

**Prerequisite:** CHEM-231 with a minimum grade of C and CHEM-232 with a minimum grade of C.

**CHEM-347. Advanced Organic Chemistry: Polyfunctional Compounds. 3 Hours.**

Chemistry of polyfunctional compounds, condensed aromatic and heterocyclic systems, electrocyclic reactions and molecular rearrangements. Lecture 3 hours.

**Prerequisite:** CHEM-232 with a minimum grade of C.

**CHEM-348. Advanced Organic Chemistry: Bio-Organic Compounds. 3 Hours.**

The chemistry of complex molecules such as proteins, nucleic acids and carbohydrates is studied from the point of view of their physical properties and their reaction, synthesis and structure-function relationships. Lecture 3 hours.

**Prerequisite:** CHEM-232 with a minimum grade of C.

**CHEM-349. Organic Synthesis. 4 Hours.**

A systematic approach to the synthesis of complex organic compounds will be developed. The retrosynthetic approach will be taken, with a final target molecule being the goal of the synthesis. It will be taken apart, step-by-step to arrive at reasonable starting materials for the synthesis. Availability and expense of potential starting materials, necessity of protecting groups, and production of isomeric and/or stereoisomeric mixtures will be among the points of consideration for each synthesis. An accompanying laboratory will involve several multistep syntheses, which serve to illustrate principles developed in lecture and build upon experimental techniques encountered in prerequisite organic chemistry courses.

**Prerequisite:** CHEM-232 with a minimum grade of C.

**CHEM-350. Principles Of Toxicology. 3 Hours.**

This course offers an introduction to the basic principles of the broad field of toxicology. The mechanisms involved in what constitutes a toxic response will be explored, including examples of toxic chemicals targeting specific biochemical pathways in the human body. Major groups of toxic chemicals such as pesticides, metals, solvents, vapors, radiation and radioactive materials, animal venoms and poisons, will be surveyed. Also addressed are the applied areas of food, forensic/ analytical, and occupational toxicology.

**Prerequisite:** CHEM-231 with a minimum grade of C.

**CHEM-353. Principles of Pharmacology. 3 Hours.**

This course will focus on the action of drugs on major organ systems, including the nervous, cardiovascular, gastrointestinal, respiratory, and reproductive systems, as well as drugs for cancer, infectious, and inflammatory diseases. It is also covers pharmacokinetics, drug-receptor interactions, and drug metabolism for these categories of therapeutic agents.

**Prerequisite:** CHEM-231 with a minimum grade of C.

**CHEM-355. Principles Of Medicinal Chemistry. 3 Hours.**

This course offers an introduction to the principles of drug design and the molecular mechanism by which drugs act on the human body. It covers basic structure and function of drug targets, lead compound identification, optimization of drug-target interaction and improvement of pharmacokinetic properties of drugs. Tools in the modern drug discovery and development such as high-through-put synthesis and screening, structure–activity relationships, and computer-aided drug design will be also addressed.

**Prerequisite:** CHEM-231 with a minimum grade of C.

**CHEM-356. Bioorganic Chemistry Laboratory. 4 Hours.**

This course offers a laboratory introduction to bioorganic chemistry, with experiments involving each of the main classes of biomolecules, including proteins, carbohydrates, lipids, and nucleic acids.

**Prerequisite:** CHEM-231 with a minimum grade of C and CHEM-232 with a minimum grade of C.

**CHEM-357. Chemical Kinetics. 3 Hours.**

The study and evaluation of various theories of reaction rates and mechanisms of chemical reactions. Lecture 3 hours.

**Prerequisite:** CHEM-311 with a minimum grade of C.

**CHEM-362. Biochemistry. 4 Hours.**

Biochemistry examines the chemistry that underlies the biological processes common to all living organisms. The course will explore the chemical nature of the four major biological molecules and the processes that drive their activities. Topics include the structures of proteins, nucleic acids, carbohydrates, and lipids, and processes that include thermodynamics, acid-base reactions, catalysis, and energetics. This course is also offered at the 400-level for graduate credit. Lecture and laboratory.

**Prerequisite:** BIO-202 with a minimum grade of C and BIO-301 with a minimum grade of C and CHEM-231 with a minimum grade of C.

**CHEM-365. Internship In Chemistry I. 6 Hours.**

Experience in chemistry in an off-campus location, e.g. business or government. The student registering selects well-defined academic goals to be achieved. These goals will be selected in cooperation with an on-campus advisor. Independent studies require the approval of the instructor, department chair and the College Dean.

**CHEM-366. Internship In Chemistry II. 6 Hours.**

Continuation of CHEM-365. Independent studies require the approval of the instructor, department chair and the College Dean.

**CHEM-372. Biochemistry Of Metabolism. 3 Hours.**

This course focuses on the processing of carbohydrates, lipids, proteins, and nucleotides, offering a mechanistic view of metabolic pathways related to each macromolecule group, including feedback control. Topics will be linked to clinical situations and will incorporate current primary research literature in the field of metabolism. Quantitative analysis of chemical reactions, bioenergetics, thermodynamics and interpretation of research articles will be incorporated as part of the lectures.

**Prerequisite:** BIO-362 with a minimum grade of C or CHEM-362 with a minimum grade of C.

**CHEM-391. Chemistry Capstone Seminar. 3 Hours.**

Critical review of research presented by visiting university and industrial chemists and student preparation of original and library research topics. The course will also explore issues related to becoming a morally responsible scientist and will include ethical problem solving. Lecture 4 hours. May be taken concurrently with CHEM-311.

**Prerequisite:** CHEM-311 with a minimum grade of C or CHEM-312 with a minimum grade of C.

**CHEM-399. Undergraduate Research. 3 Hours.**

Original laboratory research conducted with a faculty member. The course will usually require some library research, 10-12 hours per week laboratory work and the preparation of a formal, typed report. The course is useful for those students seeking recognition under the guidelines authorized by the American Chemical Society.

**Prerequisite:** CHEM-311 with a minimum grade of C and CHEM-330 with a minimum grade of C.

**CHEM-401. Carbohydrates. 3 Hours.**

Structure, stereochemistry and reactions of monosaccharides, disaccharides, oligosaccharides and polysaccharides. Lecture 3 hours. Graduate Standing.

**Prerequisite:** CHEM-312 with a minimum grade of C.

**CHEM-402. Organometallic Chemistry. 3 Hours.**

The metal-carbon bond including organometallic synthesis, structure, reaction mechanisms and thermodynamics. Main group metal-carbon compounds, transition metal-carbon compounds and such special topics as Grignard compounds, ferrocenes, carbonyl complexes and inorganic multiple bonding. Lecture 3 hours. Graduate Standing.

**Prerequisite:** CHEM-312 with a minimum grade of C and CHEM-316 with a minimum grade of C.

**CHEM-403. Physical Methods Of Organic Chemistry. 3 Hours.**

Various physical techniques of interest to the organic chemist are discussed including spectroscopic methods as proton and carbon-13 nuclear magnetic resonance, infrared and electronic spectroscopy and mass spectrometry, with emphasis on interpreting the combined data. The three credit hours include 2 hours of lecture and 1 hour of lab. Graduate standing.

**Prerequisite:** CHEM-312 with a minimum grade of C.

**CHEM-404. Chemical Thermodynamics. 3 Hours.**

Principles of thermodynamics and their application to chemical problems with particular emphasis on partial molal qualities, the chemical potential and the thermodynamics of chemical equilibria. Lecture 3 hours. Graduate Standing.

**Prerequisite:** CHEM-312 with a minimum grade of C.

**CHEM-405. Quantum Chemistry. 3 Hours.**

Application of quantum mechanism to chemistry. Topics include the Schrodinger equation and simple applications, the postulates and general principles of quantum mechanics, the harmonic oscillator, three-dimensional systems, atoms and molecules, and molecular spectroscopy. Lecture 3 hours. Graduate standing.

**Prerequisite:** CHEM-312 with a minimum grade of C.

**CHEM-406. Coordination Chemistry. 3 Hours.**

Scope of transition metal coordination complexes, coordination number and structure, ligand types, isomerization, complex stability, bonding, reaction mechanisms, magnetic moments. Lecture 3 hours. Graduate Standing.

**Prerequisite:** CHEM-312 with a minimum grade of C and CHEM-316 with a minimum grade of C.

**CHEM-407. Symmetry In Chemistry. 3 Hours.**

Introduction to those aspects of group theory and symmetry which are particularly relevant to chemistry including point groups, molecular vibrations, hybrid orbitals and crystal field theory. Lecture 3 hours.

**Prerequisite:** CHEM-312 with a minimum grade of C or PHYS-335 with a minimum grade of C.

**CHEM-408. Independent Study In Chemistry. 3 Hours.**

Research in a particular area of chemistry under faculty supervision.

**CHEM-408A. Independent Study In Chemistry. 3 Hours.****CHEM-411. Organic Reaction Mechanisms. 3 Hours.**

Reaction pathways in organic chemistry including isotope effects, linear free energy relationships, stereochemistry, configurational analysis and pericyclic reactions. Lecture 3 hours. Graduate Standing.

**Prerequisite:** CHEM-312 with a minimum grade of C.

**CHEM-412. Reaction Kinetics. 3 Hours.**

Methods of studying reaction rates and mechanisms, derivation of mechanisms from rate laws. Theories of unimolecular and bimolecular reactions, and chain mechanisms and appropriate mathematical analysis. Lecture only. Lecture 3 hours. Graduate Standing.

**Prerequisite:** CHEM-312 with a minimum grade of C.

**CHEM-413. Modern Inorganic Chemistry. 3 Hours.**

In-depth survey of modern developments in inorganic chemistry, including noble gas chemistry, multiple bonding in coordination complexes, unusual oxidation states of elements, template reactions, inorganic polymers, and inorganic catalysis. Lecture 3 hours. Graduate Standing.

**Prerequisite:** CHEM-316 with a minimum grade of C.

**CHEM-414. Advanced Analytical Chemistry. 3 Hours.**

Electronic and computer-instrument interface, practical aspects of modern instrumental techniques based on various methods of optical spectroscopy and chromatography. Lecture 3 hours.

**Prerequisite:** CHEM-331 with a minimum grade of C.

**CHEM-416. Nanoscience. 3 Hours.**

This course introduces the students to the modern field of nanoscience and develops concepts and methodology for creation of new functional nanomaterials. Emphasis is put on the molecular self-assembly approach. The methods of film deposition, lithography, chemical synthesis and atom optics are covered as well. Scanning probe microscopy is introduced as a method of choice for studying and building nanoscale materials. Applications in the fields of electronic devices and nanomedicine are discussed.

**Prerequisite:** CHEM-312 with a minimum grade of C.

**CHEM-417. Inorganic Chemistry. 4 Hours.**

This course will consist of a thorough study of bonding in main-block and transition metal compounds, periodic trends and tendencies, structural relationships, and mechanisms of inorganic reactions. Lecture and laboratory. Lecture 3 hours, lab 3 hours.

**Prerequisite:** CHEM-232 with a minimum grade of C.

**CHEM-418. Instrumental Analysis: Spectroscopy. 5 Hours.**

The course includes an intensive laboratory introduction to infrared spectroscopy, mass spectrometry, nuclear magnetic resonance spectroscopy and Raman spectroscopy. Research projects are part of the course to develop instrumental methods for qualitative and quantitative analysis of various chemical materials used in everyday life. Lecture and laboratory. Lecture 3 hours, lab 6 hours.

**Prerequisite:** CHEM-232 with a minimum grade of C.

**CHEM-419. Instrumental Analysis: Quantitative Methods. 5 Hours.**

In this course, students will learn about instrumental methods used to determine composition of materials, including gas and liquid chromatography, UV-Vis spectroscopy, fluorescence emission spectroscopy, atomic absorption and emission spectroscopy, X-ray diffraction, and potentiometry. The course emphasizes the theory and practice of designing an analytical method.

**Prerequisite:** CHEM-232 with a minimum grade of C.

**CHEM-430. Fourier Transform Spectroscopy. 3 Hours.**

**Prerequisite:** CHEM-311 with a minimum grade of C and CHEM-312 with a minimum grade of C.

**CHEM-431. Separation Methods. 3 Hours.**

Review of thermodynamic and kinetic parameters as their impact on selectivity and efficiency of separation process, classification and application of modern chromatographic techniques. Lecture 3 hours.

**Prerequisite:** CHEM-331 with a minimum grade of C.

**CHEM-433. Introduction To Polymer Chemistry. 3 Hours.**

This course provides an introduction to the broad field of polymer chemistry. Topics will focus on the properties, synthesis, processing, and applications of polymers that have industrial and commercial importance. The properties of biological polymers and environmental concerns of polymers will also be discussed.

**Prerequisite:** CHEM-231 with a minimum grade of C and CHEM-232 with a minimum grade of C.

**CHEM-450. Gas Chromatography. 3 Hours.**

Principles and instrumentation, including classification and methods for selection of stationary phases, optimization of operational parameters, and various detection systems. Separation techniques prior to analysis, applications and hyphenated methods will be discussed. Lecture 3 hours. Graduate Standing and Consent of Instructor.

**Prerequisite:** CHEM-331 with a minimum grade of C.

**CHEM-451. Liquid Chromatography. 3 Hours.**

Review of thermodynamic and kinetic parameters as they impact on selectivity and efficiency of liquid chromatographic separations. Classification of mobile phases, including selection and ways to improve resolution. Principles of conventional liquid chromatographic techniques and their applications, including hyphenated methods. Lecture 3 hours. Consent of instructor. Graduate Standing.

**Prerequisite:** CHEM-331 with a minimum grade of C and CHEM-450 with a minimum grade of C.

**CHEM-455. Method Development And Validation In Liquid Chromatography. 3 Hours.**

Systematic approaches to the successful development of HPLC-based analytical methods and their optimization. Practical tools based on the use of computer simulation in method development. HPLC-methods validation presented on the basis of the currently accepted United States Pharmacopeia terminology.

**Prerequisite:** CHEM-451 with a minimum grade of C.

**CHEM-456. Advanced Chromatographic Methods. 3 Hours.**

Principles, methods and applications of various advanced chromatographic techniques of interest to the analytical chemist, including such chromatographic methods as chiral separations, ligand exchange chromatography, capillary electrophoresis, micellar chromatography, micellar electrokinetic capillary chromatography, and supercritical fluid chromatography. Lecture 3 hours.

**Prerequisite:** CHEM-451 with a minimum grade of C.

**CHEM-462G. Biochemistry. 4 Hours.**

Biochemistry examines the chemistry that underlies the biological processes common to all living organisms. The course will explore the chemical nature of the four major biological molecules and the processes that drive their activities. Topics include the structures of proteins, nucleic acids, carbohydrates, and lipids, and processes that include thermodynamics, acid-base reactions, catalysis, and energetics. Lecture and laboratory.

**Prerequisite:** BIO-202 with a minimum grade of C and BIO-301 with a minimum grade of C and CHEM-231 with a minimum grade of C.

**CHEM-472G. Biochemistry Of Metabolism. 3 Hours.**

This course focuses on the processing of carbohydrates, lipids, proteins, and nucleotides, offering a mechanistic view of metabolic pathways related to each macromolecule group, including feedback control. Topics will be linked to clinical situations and will incorporate current primary research literature in the field of metabolism. Quantitative analysis of chemical reactions, bioenergetics, thermodynamics and interpretation of research articles will be incorporated as part of the lectures.

**Prerequisite:** BIO-362 with a minimum grade of C or CHEM-362 with a minimum grade of C or BIO-462G with a minimum grade of C or CHEM-462G with a minimum grade of C.

**CHEM-5901. Thesis Hours: Chemistry. 1 Hour.**

Guidance of students conducting research and writing a thesis to fulfill the requirements for the Master of Science degree in Chemistry.

**CHEM-5902. Thesis Hours: Chemistry. 2 Hours.**

See course description for CHEM-5901.

**CHEM-5903. Thesis Hours: Chemistry. 3 Hours.**

See course description for CHEM-5901.

# Child Advocacy Studies (CAST)

---

## Courses

### **CAST-210. Children And Poverty. 3 Hours.**

This course examines causes and consequences of childhood poverty in the United States. The impacts of poverty on physical, emotional, behavioral, academic and social outcomes will be explored. Further, the intersectional nature of poverty will be addressed, with focus given to how poverty differentially impacts women, girls and children of color. Strategies that successfully promote resiliency amongst children living in poverty will be identified.

### **CAST-301. Introduction To Child Advocacy Studies. 3 Hours.**

This course provides a survey of the emerging field of Child Advocacy Studies, which researches and seeks remedies for the maltreatment of children and youth, including specific acts of violence and neglect, in the context of the pernicious effects of racism, poverty, sexism, and heterosexism, including the unique problems faced by immigrant and displaced children. The course examines the various economic, political, social and cultural circumstances that may contribute to the abuse and maltreatment of children and youth. It also teaches students about the strategies and tactics used by various local governmental and nongovernmental agencies, courts and medical establishments to address these problems.

### **CAST-302. Psychosocial Advocacy For Developmental Maladjustment. 3 Hours.**

This course is designed to provide the student with a survey of the various psychosocial, developmental, and public health difficulties that are faced by children and adolescents with specific focus on prevention and intervention strategies that are being employed by mental health and social service professionals at both community and societal levels. This course will also introduce the student to the ways that prevention/intervention strategies are developed, employed, and evaluated.

**Prerequisite:** CAST-301 with a minimum grade of C.

### **CAST-303. Child Advocacy Studies: Assessment And Evaluation. 3 Hours.**

This is the third required course of the Child Advocacy Studies minor. It focuses on a combination of knowledge and skills necessary to providing direct service to children. The course begins with an examination of the mezzo- and macro-level systems and institutions that provide services for children and youth in the United States. The skills portion of the course supports students in gaining a beginning level of mastery in interviewing, assessment, and evaluation pertinent to serving children and youth who become identified as potential victims of abuse and neglect. The age-focus in this course includes early childhood, middle childhood, and adolescence.

**Prerequisite:** CAST-301 with a minimum grade of C and CAST-302 with a minimum grade of C.

### **CAST-304. CAST Internship Seminar. 3 Hours.**

The focus of the CAST seminar course is to increase the student's sense of confidence in practicing as beginning level practitioners. This goal is achieved by building the student's awareness of her/his own strengths and limitations as a worker, along with the integration of knowledge, values and skills used in the generalist approach to practice with children, adolescents, and their families. Utilizing a collaborative supervision model, this experiential course supports students in achieving further mastery in the knowledge and skills obtained throughout the CAST coursework.

**Prerequisite:** CAST-301 with a minimum grade of C and CAST-302 with a minimum grade of C and CAST-303 with a minimum grade of C.

### **CAST-324. Black Girlhood Studies. 3 Hours.**

This course examines the complexities of Black girlhood, particularly from the perspectives of Black girls and women. From an examination of adultification to early hypersexualization, this course offers a critical analysis of the various aspects and dynamics Black girlhood, and how concepts of race/ethnicity, class, gender, sexuality, and ability specifically impact Black girls. This course spans a wide range of topics, from schooling experiences and representation of Black girlhood in popular culture, to the ways in which Black girls exert radical and humanizing agency -- as artists, scholars, activists, and more, reframing dominant narratives about themselves and their communities.

**Prerequisite:** (100 - 399 or 100A - 399Z).

# Chinese (CHIN)

---

## Courses

**CHIN-101. Chinese I. 3 Hours.**

Development of basic skills in listening, speaking, reading and writing. Cultural appreciation.

**CHIN-102. Chinese II. 3 Hours.**

Continuation of CHIN-101.

**Prerequisite:** CHIN-101 with a minimum grade of D.

**CHIN-201. Chinese III. 3 Hours.**

This course is a continuation of CHIN-102 and focuses on the listening, speaking, and writing of Mandarin Chinese at the intermediate-low level.

This course also explores cultural expressions and values in contemporary Chinese Society. **Prerequisite:** CHIN-102, placement exam, or consent of instructor.

**CHIN-202. Chinese IV. 3 Hours.**

This course is a continuation of CHIN-201 and focuses on the listening, speaking, and writing of Mandarin Chinese at the intermediate-mid level.

This course also explores cultural expressions and values in contemporary Chinese Society. **Prerequisite:** CHIN-201, placement exam, or consent of instructor.

**Prerequisite:** (CHIN-103 with a minimum grade of D or CHIN-201 with a minimum grade of D).

# Coll of Business & Management (COBM)

---

## Courses

### **COBM-382. Internship In Business. 3 Hours.**

This course is designed to provide students with an engaged learning experience in a business organization through an internship. The students will interview for, and gain an internship assignment and employment agreement. The students will then continue in counsel with the instructor and under the guidance of an employer-specified supervisor to complete the employment assignment. A workload of at least 120 hours of work is required to complete the internship.

**Requirement:** Must be approved by a Program Adviser for having met Academic Department requirements, and must be either 1) Senior standing or 2) Junior standing with a declared major and completion of at least four 300-level courses from the business-core listing.

### **COBM-401. Accounting For Managers. 3 Hours.**

This course is designed for graduate students who have no prior knowledge of accounting. Students will study and obtain an overall fundamental understanding and appreciation of the use of accounting information for making decisions. The course covers topics in financial accounting for external reporting, and managerial accounting for internal planning, control, and decision making of business operations. This course is provided for the user of the accounting information rather than the preparer and emphasizes how accounting reports are used by managers, investors, and other business stakeholders.

### **COBM-402. Business Economics And Finance For Managers. 3 Hours.**

This course is designed to provide graduate students an introduction to economics and finance from business managers' perspective. The course is composed of three parts. The first part covers the topics of Macroeconomics such as market forces of supply and demand, measuring of national income, measuring of cost of living, unemployment, monetary policy and inflation, etc. The second part covers the topics of Microeconomics such as elasticity, cost of production, market for factors of production, and organization of industry, etc. The third part covers the essential topics of financial management such as financial statement and ratio analysis, time value of money, risk and return relationship, valuation of bonds and stocks, and capital budgeting, etc.

### **COBM-403. Topics In Management And Marketing. 3 Hours.**

This course addresses the basics and application of management and marketing processes for successfully managing an organization and building marketing structure in a competitive business environment. The course will emphasize development of functional skills in management and marketing through readings and case analysis exercises.

### **COBM-404. Business Statistics And Operations Decisions For Managers. 3 Hours.**

This course is designed to cover key concepts and tools from managers' perspective in two subjects: Business Statistics and Operations Decisions, with focus on their application and connection to practices. The topics covered in Business Statistics include, but are not limited to, descriptive measures, discrete probability distribution, continuous probability, sampling distribution, point estimate, interval estimate, and hypothesis test. The topics covered in Operations Decisions are: measures of process, production and service processes, supply chain processes, quality and six-sigma, demand management and forecasting, as well as inventory management.

### **COBM-482. Business Internship/ Practicum For Graduate Students. 3 Hours.**

This course is designed to provide students with an opportunity to gain experience in a business organization through an internship or practicum. Students will seek an internship assignment and employment agreement. Students will counsel with the instructor and an employer-specified supervisor to complete the employment assignment. A workload of at least 100 hours for the duration of the internship is required (80 hours for international practicum trip). Students cannot take this course with their current employer. International students must meet the requirements of their visa for paid employment, however these restrictions do not apply to unpaid internships.

**Requirement:** Must be approved by a COBM Graduate Coordinator or Program Adviser for having met Academic Department requirements. Must be a graduate student with a declared MBA or MS in Accounting and have already completed at least four 400-level courses from the Business Graduate Course listing.

# Comm, Media & Theatre-Comm (CMTC)

---

## Courses

### **CMTC-100. Introduction to Communication. 3 Hours.**

The study of human communication with emphasis on how we communicate, the factors that influence the success of our communication interactions, and the areas in which communication take place.

### **CMTC-101. Public Speaking. 3 Hours.**

The development of skills common to all forms of oral communication with emphasis on public speaking. Students will study organization, delivery, sources of materials and language usage.

### **CMTC-102. Public Speaking For STEM. 3 Hours.**

In this course, students will study argumentation, organization, delivery, sources of evidence, and language usage when preparing informative and persuasive presentations in STEM. Students will apply their knowledge to present several speeches throughout the semester, possibly including an academic conference-style presentation.

### **CMTC-202. Voice and Diction. 3 Hours.**

Emphasis on improving voice quality, volume, projection, rate, articulation, and pronunciation.

### **CMTC-210. Advanced Public Speaking. 3 Hours.**

Concentrated study of public speaking and research for public speech, with attention to speech criticism and providing experience in various types of public speaking. Students will videotape selected talks for critique.

### **CMTC-213. Interpersonal Communication. 3 Hours.**

This course studies how humans relate through the use of verbal and nonverbal symbols. Through participation and involvement, students explore how communication creates, maintains, and deteriorates relationships. Students also examine messages, meanings, feedback, nonverbal elements, listening, barriers and breakdowns as they affect relationships.

### **CMTC-214. Business And Professional Communication. 3 Hours.**

This course focuses on the development of oral and written communication skills that are essential for professional life, including topics such as problem solving, listening, interviewing, and presentational skills.

### **CMTC-215. Small Group Communication. 3 Hours.**

This course provides an in-depth study of small group communication processes. Students explore topics such as decision-making and problem solving, leadership, conflict, and diversity issues. Students are required to participate in group project.

### **CMTC-300. Mediated Communication. 3 Hours.**

This is an investigation of the effects media and technologies have on social interaction and communication behaviors such as speaking, listening, understanding, and interpreting.

### **CMTC-301. Nonverbal Communication. 3 Hours.**

This course explores the nature of non-verbal messages such as body language, facial expression, and artifacts in various communication contexts.

### **CMTC-305. Writing Intensive Program: Writing In Communication, Media & Theatre. 3 Hours.**

This course is a writing intensive experience designed to introduce students to the functions and applications of various writing practices and theories in communication, media, and theatre. Students will gain an understanding of the foundations of these disciplines; recognize the broad categories of theoretical perspectives, such as humanistic, social scientific, and critical; and evaluate the contributions of various theories in interpersonal, rhetorical, organizational, media, dramatic, and intercultural contexts. This course includes formal (graded) and informal writing exercises of varying length and complexity, including but not limited to: free-writing, reading responses, and article critiques, as well as more advanced analysis and application papers.

**Prerequisite:** ENGL-101 with a minimum grade of C.

### **CMTC-306. Special Topics In Communication. 3 Hours.**

This special topics course provides undergraduate students with the opportunity to study in depth a particular topic of communication. Topics will include, but are not limited to, the role and importance of communication in religion and science, politics, negotiation, intimacy and desire, and social difference.

### **CMTC-308. Independent Study in Communication. 3 Hours.**

Individual investigation into a topic of the student's choice. Requires approval of instructor, chair and dean.

### **CMTC-310. Persuasion. 3 Hours.**

This course examines contemporary theories and practices of persuasion through analysis and evaluation of persuasive messages in society from the used car lot to the presidential campaign.

### **CMTC-313. Communication, Gender & Identity. 3 Hours.**

This course investigates some of the effects that gender and other identities have on communication behaviors, such as naming, language acquisition, professional orientation, conflict management, self-image, dress and social roles.

**CMTC-314. Organizational Communication. 3 Hours.**

This course examines organizational communication processes such as organizational culture, diversity, workplace participation and democracy. Students will assess (in)effective communication practices in organizations.

**CMTC-315. Leadership Communication. 3 Hours.**

This course examines the theory and practice of the social-emotional and task-related aspects of leadership processes. Students will explore standard works in classical leadership theory and contemporary frameworks related to motivation, emotional intelligence, and toxic leadership dynamics.

**CMTC-316. Family Communication. 3 Hours.**

This course studies the family system with a focus on the role communication plays in maintaining it. Students explore the functions of family roles, rules, and power and ways to increase or decrease communication effectiveness in this system.

**CMTC-317. Intercultural Communication. 3 Hours.**

This course explores issues in intercultural communication. Students will examine their own as well as other people's cultures. Major topics include race and ethnicity, immigration, social class, intercultural conflict, and social justice and how these reflect and/or affect verbal and nonverbal communication processes.

**CMTC-319. Conflict Communication. 3 Hours.**

This course examines the communication processes in interpersonal, organizational, and intercultural conflict, with attention to theories, research and practice related to conflict management.

**CMTC-329. Health Communication. 3 Hours.**

This course is designed to provide an introduction to communication processes in various health care contexts. The course will integrate interpersonal, small group, organizational, and mass communication theory and research into a survey of areas such as communication between patients and caregivers, the role of culture in health practices, images of health in the mass media, and new directions in health communication technologies.

**CMTC-330. Communication Research Methods. 3 Hours.**

An introduction to the principles and methods of social scientific research as they relate to the antecedents, processes and outcomes of communication behaviors. This course is intended to cultivate skills necessary for interpreting and critically evaluating research results and for designing research projects. Topics include forming research questions and hypotheses, reviewing and critiquing literature, applying quantitative and qualitative research techniques, coding and analyzing observations and writing research reports.

**CMTC-383. Professional Internship 1. 3 Hours.**

Professional activities in a selected field of communication, performed and supervised at public or private facilities, corporate communication sites, businesses, agencies, etc.

**CMTC-384. Professional Internship 2. 6 Hours.**

(See CMTC-383 for description.).

**CMTC-385. Professional Internship 3. 9 Hours.**

(See CMTC-383 for description.).

**CMTC-386. Professional Experience Seminar. 3 Hours.**

The course will provide students with an opportunity to work in a professional communication, media or theatre position while examining the experience with a faculty member and their peers. For many students, a professional placement is a new, unfamiliar experience with a set of demands that are distinct from the academic world. This course will allow students to earn credit for an internship in their desired field, while enhancing their professionalism through discussion and reflection. Consent of the instructor is required.

**CMTC-400. Special Topics In Communication. 3 Hours.**

This special topics course provides graduate students with the opportunity to study in depth a particular area (e.g., intercultural, group, gender, family, organizational, interpersonal), topic (e.g., identity and difference, intimacy and desire, corporate consulting, political rhetoric), or method (e.g., rhetorical criticism, auto/ethnography, content analysis) of communication. The focus will be on critically examining foundational and contemporary works that advance the theory, research, and practice about this area, topic, or method.

**CMTC-401. Introduction to Graduate Study. 3 Hours.**

Problems, methods and resources involved in graduate study and research in all areas of communication, media and theatre.

**CMTC-402. Seminar In Research Methods. 3 Hours.**

An introduction to the principles and methods of Communication, Media and Theatre research. This course is intended to cultivate skills necessary for interpreting and critically evaluating research results and for designing research critiquing literature, applying quantitative and qualitative research techniques, coding and analyzing observations, and writing research reports.

**CMTC-404. Communication Theory. 3 Hours.**

An analysis of communication theories, including the nature of theories, message design and reception. Course covers a broad range of theories in the communication discipline, including both humanistic and social scientific approaches. Nonetheless, particular theories analyzed each semester will vary, depending on the instructor.

**CMTC-414. Seminar In Organizational Communication. 3 Hours.**

This course will provide an advanced look at the major elements of organizational theory that apply to organizational communication. This field, in a modern sense, began in the 1950's and since then has grown to be one of the biggest forces in communication today. We will examine what theories direct the reality of organizations and how much of that reality is managed for the purposes of controlling individuals, whether overtly or symbolically.

**CMTC-416. Seminar In Interpersonal Communication. 3 Hours.**

This is a seminar exploring the basic themes, concepts and debates in research on personal relationships. Students will learn to critically analyze theory and research about relationships. The course requires a major paper on one particular facet of communication in personal relationships.

**CMTC-434. Independent Study In Communication. 3 Hours.**

Individual investigation into selected topics in the theory and practice of communication. This course requires approval of the instructor, Department Chair and the appropriate College Dean(s).

**CMTC-5901. Thesis Hours. 1 Hour.**

Guidance of student work toward the completion of a thesis to fulfill the requirements for the Master of Arts degree in Communication, Media, and Theatre. Students may register for 1--#3 credits per term with a total of 6 credits required to complete the thesis project. This course requires approval of the instructor, Department Chair, and the appropriate College Dean(s).

**Requirement:** Approval of the graduate advisor.

**CMTC-5902. Thesis Hours. 2 Hours.**

See course description for CMTC-5901.

**CMTC-5903. Thesis Hours. 3 Hours.**

See course description for CMTC-5901.

# Comm, Media & Theatre-Educ (CMTE)

---

## Courses

### **CMTE-490. Instructional Communication. 3 Hours.**

Selected topics in methods and materials related to speaking and listening; instructional problems relative to type of programs, trends in instruction, sources, resources and research. Individual projects will adapt resources and methodology to a particular type of school and classroom, such as the inner city.

### **CMTE-492. Teaching College Speech. 3 Hours.**

This course examines the tasks of the communication teacher; philosophy, objectives, materials and methods of instruction, communication curricula and departmental operations; and professional relationships in the community.

# Comm, Media & Theatre-Media (CMTM)

---

## Courses

### **CMTM-105. Introduction To Journalism. 3 Hours.**

This survey course introduces students to the field of journalism, its basic concepts, processes and practices. It is intended as a guide to the workings of the journalism industry, including its various branches, the basis of news judgment, and the nature of journalism in the era of new media. Its hands-on approach is designed to provide a theoretical as well as "real world" understanding of the news and application of principles related to the production and dissemination of the news.

### **CMTM-109A. First Year Experience: Chicago On Video: One Pixel At A Time. 3 Hours.**

In this course, the five foundations of the First-Year Experience (Future Planning, Integral Preparation, Research, Self-discovery and Transitions) are interwoven with the field-specific concepts and terminology of video production. Students in this dynamic, hands-on class will turn the lens on other students engaged in hands-on learning....producing children's theatre, testing water samples, conducting fieldwork, examining issues of social justice... and get a taste of both documentary production and advanced undergraduate coursework at NEIU. Students will also get to explore uses of video at the community level - from high school students covering sports events, to local immigrants keeping their cultural ties alive.

### **CMTM-160. Introduction To Cinema. 3 Hours.**

This course introduces students to the basic elements of cinema (editing, cinematography, sound, etc.) and explores how these elements contribute to our understanding of the themes and meanings of a particular film. After gaining a foundational understanding of these formal elements, students assess how topics such as genre, narrative, authorship, and ideology help to shape cinema.

### **CMTM-205. Fundamentals Of Media Writing. 3 Hours.**

This course helps students solidify grammar and writing skills so they can enter the competitive field of media. It focuses on punctuation and spelling issues and introduces the "Bible" of print media, The Associated Press Stylebook. Fundamentals of Media Writing picks up where Introduction to Journalism, CMTM-105, leaves off by moving students from talking about and analyzing journalistic writing to learning the basic tools to begin practicing the profession. The course serves as a skill-building foundation and prerequisite for News Writing, CMTM-367.

### **CMTM-250. Introduction To Audio Production. 3 Hours.**

This course introduces students to the process of audio production. The course also explores sound as an industry and an art form, as well as a tool of self-expression and of story telling. Through a series of production exercises, working individually and in groups, the student becomes familiar with the process of audio production from concept to field recordings, to scripting and editing, to producing and mixing and then to sharing the finished work with others.

### **CMTM-260. Introduction to Video Production. 3 Hours.**

This class will introduce students to the principles and practices of digital video production, with an emphasis on single camera field production and digital, non-linear editing. Aesthetics and conventions of television programs, independent/ art videos, and documentaries will also be examined.

### **CMTM-265. Mass Media and Society. 3 Hours.**

Development and problems of the media; the history, regulation, and social and economic implications of the media; American media systems and their relation to the media's cultural content and function.

### **CMTM-310. Independent Study In Media. 3 Hours.**

Individual investigation into a topic of the student's choice. Must have approval of instructor, chair and dean.

### **CMTM-3111. Fieldwork in Video Production. 1 Hour.**

Academic credit (1-6 cr.) for guided video production fieldwork. Reserved for students who have been invited to participate in documentary, narrative, experimental, commercial or other relevant and typically off-campus field production opportunities. Student enrolls with media faculty who directs project and oversees student performance. Students will utilize research skills, apply principles learned in classroom, contribute meaningfully to a long-strand production, earn credit in a broadcast or higher-profile production, and explore career options. May be taken more than once, for a maximum of six credit hours.

**Prerequisite:** CMTM-260 with a minimum grade of C or MASS-260 with a minimum grade of C.

### **CMTM-3112. Fieldwork in Video Production. 2 Hours.**

See CMTM-311 for course description.

**Prerequisite:** CMTM-260 with a minimum grade of C or MASS-260 with a minimum grade of C.

### **CMTM-3113. Fieldwork in Video Production. 3 Hours.**

See CMTM-311 for course description.

**Prerequisite:** CMTM-260 with a minimum grade of C or MASS-260 with a minimum grade of C.

### **CMTM-3114. Fieldwork in Video Production. 4 Hours.**

See CMTM-311 for course description.

**Prerequisite:** CMTM-260 with a minimum grade of C or MASS-260 with a minimum grade of C.

### **CMTM-3115. Fieldwork in Video Production. 5 Hours.**

See CMTM-311 for course description.

**Prerequisite:** CMTM-260 with a minimum grade of C or MASS-260 with a minimum grade of C.

**CMTM-3116. Fieldwork in Video Production. 6 Hours.**

See CMTM-311 for course description.

**Prerequisite:** CMTM-260 with a minimum grade of C or MASS-260 with a minimum grade of C.

**CMTM-350. Podcasting And Audio Documentary. 3 Hours.**

This course will focus on the production of podcasts from conception to completion. Students will analyze and understand the history of the growing medium. They will learn basic audio production skills such as recording and mixing and then create their own podcast episode using digital audio tools. Students will develop interviewing and storytelling skills to compose stories with dialogue, ambient sound, and music. Students will learn from professionals in the industry and examine how podcasts are promoted to reach niche and/or mass audiences.

**CMTM-360. Advanced Video Production. 3 Hours.**

This hands-on class will expand students' understanding and application of the tools of video production. Student projects will primarily be individually produced, single camera video programs. We will screen many examples of video works, of a variety of genres and with an eye for the impact of the mode of transmission on the product. We will pay critical attention to audio for video, focus on the development of one's own "voice," and emphasize constructive criticism and revision.

**Prerequisite:** CMTM-260 with a minimum grade of C or MASS-260 with a minimum grade of C.

**CMTM-361. Digital Video Editing. 4 Hours.**

This hands-on class introduces students to the principles and practices of digital, non-linear video editing, including the aesthetics and conventions of film and video cutting, history and theories of editing, and technical aspects of editing. Students will use sample footage to edit, present and critique several projects, and they will edit a final piece using footage of their own choosing.

**Prerequisite:** CMTM-260 with a minimum grade of C or MASS-260 with a minimum grade of C.

**CMTM-362. Video Production Workshop. 3 Hours.**

In this intensive, hands-on class students will produce short non-fiction video modules, linked to a specific theme each term. Students will work in small production teams, and will write, direct, shoot and edit their segments, rotating responsibilities. Students will screen, critique and revise modules, create finished shows, and organize and promote screenings.

**Prerequisite:** CMTM-260 with a minimum grade of C or MASS-260 with a minimum grade of C.

**CMTM-363. Documentary Film. 3 Hours.**

Historical survey of the international non-fiction film, including creative films, anthropological films, and television journalistic documentaries.

**CMTM-364. Writing For Media - Revolving Topics. 3 Hours.**

This revolving topics course provides exposure to a variety of writing topics and writing formats that will give students studying media the opportunity to develop in-depth written works in a workshop environment, with an emphasis on constructive criticism and revision. Consult the Schedule of Classes for specific topics.

**CMTM-364A. Writing The Sitcom. 3 Hours.**

This is a course devoted to writing the television half-hour situation comedy - a highly conventionalized television form. Students will discuss theories of comedy, analyze the structure of the sitcom, and learn industry standards for formatting and developing a script from initial idea to final script. Students will work in an approximation of a television "writers' room" in which feedback and critique are part of the creative process.

**CMTM-364B. Solutions Journalism. 3 Hours.**

This version of Writing for Media will focus on a new way of covering the news called "Solutions Journalism." Students will read, analyze, and write news stories that address problems but also focus on the solutions.

**CMTM-365. Contemporary Issues in Mass Media. 3 Hours.**

This course provides an advanced study of the socio-psychological impact of the media upon contemporary society.

**Prerequisite:** CMTM-265 with a minimum grade of C or MASS-265 with a minimum grade of C.

**CMTM-366. Multimedia Storytelling. 3 Hours.**

This course will involve writing for various media platforms with practice in the multimedia creation of original works; experience in writing forms and content typical of various media and criteria for evaluating written work; discussion of career opportunities.

**Prerequisite:** CMTM-260 with a minimum grade of C or CMTM-250 with a minimum grade of C.

**CMTM-367. News Writing. 3 Hours.**

This course will take students through the basics of news writing and reporting. The course will demand in-class writing assignments that will help students prioritize information and write with accuracy under deadline. Students will discuss and be tested on current affairs and evaluate a variety of news sources. Students will cover local events and generate story ideas.

**Prerequisite:** CMTM-205 with a minimum grade of C.

**CMTM-368. Community Media. 3 Hours.**

The course will familiarize students with the important journalistic function uniquely served by community-based media, a function increasingly important in today's media landscape of centrally produced content controlled by fewer and fewer owners focused primarily on the economic needs of those owners and the advertisers. The course will introduce students to different forms of community media - print, video, audio, and new technologies - and how these contribute to the building of community.

**CMTM-369. Special Topics In Journalism. 3 Hours.**

This special-topics course will cover a particular aspect of journalism each time it is offered. Example topics include: Journalism of Impact, News and Social Media, Sports Journalism, Health Reporting, and The Future of News. Students in each class will take a deep analytical dive into a topic within the field of journalism. Depending on the topic, students may be expected to do original reporting, produce news stories, or complete a research project. Students will also be encouraged to work with campus media outlets.

**CMTM-370. Public Relations. 3 Hours.**

Examination of the history, development and practice of the public relations field, with attention to the planning, implementation and execution of public relations campaigns and the survey techniques and strategies used by public relations practitioners.

**CMTM-371. American Cinema (Origins-1950). 3 Hours.**

This course is an investigation of the evolution of American film history from its origins to the end of World War II. Students are introduced to the creative, industrial, and technological developments of the given period using a variety of analytical approaches. Films are investigated according to their historical, technological, aesthetic, and ideological significance as well as their genre placement.

**CMTM-372. American Cinema (1950-Present). 3 Hours.**

This course is an investigation of the evolution of American film history from the end of World War II until the present. Students are introduced to the creative, industrial, and technological developments of the given period using a variety of analytical approaches. Films are investigated according to their historical, technological, aesthetic, and ideological significance as well as their genre placement.

**CMTM-373. World Cinema. 3 Hours.**

An examination of the major influential film movements and filmmakers from around the world and their impact on the language of cinema. This course is intended to develop an understanding of the evolution of narrative film history by analyzing films according to their historical, technological, aesthetic and ideological significance.

**CMTM-374. Special Topics In Film. 3 Hours.**

This revolving topics course provides exposure to a variety of topics that will give students studying film the opportunity to engage in broader as well as more in-depth investigations of the history, concepts and theoretical approaches to film studies and the body of scholarship in this field. Consult the Schedule of Classes for specific topics.

**CMTM-374A. American Horror Film. 3 Hours.**

As one of the revolving topics in the Studies in Film course, this class will introduce the history, evolution, and important themes of the American horror film, serving as an overview of the genre and locating it in American historical, cultural, and literary contexts. Approaches will include close readings of films as well as psychoanalytic, ideological, and feminist analyses. A number of films and clips will be screened and discussed in the context of course readings.

**CMTM-375. Contemporary Hispanic Cinema. 3 Hours.**

An introduction to some of the major contemporary films and filmmakers from Spain and Latin American countries. The course will not only analyze the artistic merits of the films, but also examine the social, economic, historical and political context within which they were created and how their themes are related to national identity, as well as international concerns.

**CMTM-376. Television History. 3 Hours.**

An overview of the cultural history of television from its origins in radio to cable and satellite communication, primarily in the U.S., but with some comparison to international contexts. Television programs are the primary focus and will be used to explore topics such as technology, regulation, audience measurement, commercial and educational/public broadcasting, advertising and programming strategies.

**CMTM-377. Gender And Media. 3 Hours.**

This course examines representations of gender and sexuality in popular media. Students will begin with feminist theories of representation and follow theoretical developments that include issues of race, ethnicity, masculinity, and queer theory as they relate to film, television, and new media.

**CMTM-378. New Media Technologies. 3 Hours.**

This course explores emerging media technologies, including descriptions of the technologies, how their implementation affects existing media institutions, and social implications of the technologies. Emphasis is on historical perspectives on emerging media technologies in the global information society including digital audio-visual media, computers and consumer electronics, and various networking technologies. The course provides students with an understanding of the background, structure, functions, and current status for each technology. Emerging convergent media revolutionizing the global knowledge system will also be covered, including deregulatory policies, corporate mergers, and industrial restructuring.

**CMTM-379. Media Law & Ethics. 3 Hours.**

This course introduces students to the study of legal and ethical issues affecting U.S. mass media from journalistic and business perspectives. Specifically, the course will explore the legal and ethical responsibilities and rights of communicators and media professionals across various issues, including the First Amendment, defamation, privacy, newsgathering, regulation over media content, intellectual property rights, and regulation of electronic media and advertising industry. It will also help students think through media issues from a moral reasoning perspective by taking a variety of cases through an ethical framework.

**CMTM-380. Special Topics In Television. 3 Hours.**

This special topics course provides exposure to a variety of topics in television studies. Students will investigate historical, industrial, theoretical, and critical approaches to television studies. Consult the Schedule of Classes for specific topics.

**CMTM-380A. Television Genres. 3 Hours.**

Television Genres will cover a variety of scholarly approaches to the study of television programs. Genres can be studied for how they change over time, in response to cultural changes or economic exigencies. This course will take up theoretical questions of televisuality (the aesthetic conditions of the television text), and then focus on a number of particular genres. We will be primarily focusing on U.S. television, but there will be some attention to global questions, especially those of flow and format.

**CMTM-381. Video Games & Interactive Media Studies. 3 Hours.**

This course will cover a brief overview of the history of video games and then explores academic approaches to considering video games' cultural values, analytical interpretations of games, and consideration about the evolving interactive media landscape. Students study the rich world of video games and interactive media through experiential and community learning and auto-ethnographic and academic research/writing lenses.

**Prerequisite:** (100 - 399 or 100A - 399Z).

**CMTM-383. Professional Internship 1. 3 Hours.**

Professional activities in a selected field of media, performed and supervised at public or private facilities, corporations, business agencies, etc.

**CMTM-384. Professional Internship 2. 6 Hours.**

(See CMTM-383 for description).

**CMTM-385. Professional Internship 3. 9 Hours.**

(See CMTM-383 for description).

**CMTM-390. NEIU Cinémathèque. 1 Hour.**

A "cinémathèque" is a small, specialized theater where important films are screened, discussed, archived, preserved, and loved. Drawing upon the tradition of cinémathèques across the world, this course will provide an opportunity for students to screen, discuss, and research important works of cinema here at Northeastern Illinois University. With on-campus resources such as 35mm prints screened by the Chicago Film Society and our extensive holdings of the Criterion Collection in the Ronald Williams Library, students will learn about the material practices surrounding film such as archival collection, preservation, and restoration as well as distribution, exhibition, criticism, and reception.

**CMTM-410. Independent Study In Media. 3 Hours.**

Individual investigation into selected topics in theory and practice of media. Independent studies require the approval of the instructor, Department Chair and appropriate College Dean (s).

**CMTM-465. Mass Communication Theory. 3 Hours.**

This course is designed to investigate the concepts, ideologies, and resulting scholarship that are relevant to the study of mass communication. Students will study a variety of mass communication theories and will critically evaluate the merits of these perspectives. Students will develop research projects to further interpret and utilize mass communication theories.

**CMTM-466. Media And Cultural Studies. 3 Hours.**

This graduate seminar is designed to expose students to a "cultural studies" approach to media. Cultural studies scholars are primarily concerned with issues of power, and this approach has long informed the discipline of critical media studies. The focus on media will explore structures of power and inequality as they relate to the politics of identity and experience. Drawing upon foundational readings in the field as well as current media and cultural studies scholarship, students will spend the semester exploring the way in which these structures of power materialize in media texts and industrial formations.

**CMTM-467. Special Topics In Film & Television. 3 Hours.**

This special topics course provides graduate students an opportunity to explore historical and theoretical approaches specific to studies of film and television. Special topics may include film history and theory, television history, national cinemas, genres, industrial technologies and trends, and issues of representation such as race, class, and gender. Required: Graduate standing.

**CMTM-468. Seminar In New Media. 3 Hours.**

This course will explore critical approaches to "new media" by considering the dual meaning of the term. On one hand it describes the sense of "newness" often accompanying emerging media technologies throughout history, but it also describes the important contemporary shift from analog to digital media. Students will examine the history of several media technologies at critical moments of development, change, or rupture as well as analyze issues relevant to digital media such as file sharing, social networking, identity theft, surveillance, and cyberwarfare.

# Comm, Media & Theatre-Theatre (CMTT)

---

## Courses

### **CMTT-109. First Year Experience: Staging Chicago: Performances In, For, & About Chicago. 3 Hours.**

In Staging Chicago students will read, watch, write, and perform plays about Chicago. Special attention will be paid to plays that premiered in Chicago and were produced by Chicago artists. In addition to reading plays, students will have an opportunity to stage scenes and present their own theatrical interpretation of the Second City.

### **CMTT-130. Introduction to Theatre. 3 Hours.**

Survey of the components of theatrical experience and the function of the various contributors to theatrical production. Attendance at selected theatrical productions is required.

### **CMTT-203. Voice For The Performer. 3 Hours.**

This course offers an intensive exploration of spoken vocal performance technique for the actor. Students will examine the function and usage of breath, create healthy connection between breath and sound, build resonance, and improve articulation skills leading to dynamic performances in a variety of texts and forms.

### **CMTT-220. Improvisation. 3 Hours.**

Emphasis on mastering improvisational theatre games for both actor training and performance.

### **CMTT-221. Acting 1. 3 Hours.**

The basic skills of acting including the actor's internal preparation for playing a role and the development of his/her external technique for projecting the role to the audience.

### **CMTT-240. Foundations Of Theatrical Design. 3 Hours.**

This course introduces the elements of art and principles of visual design as they relate to the theatrical design areas of scenery, costumes and lighting. Students will learn how to analyze a play for design and apply this foundational knowledge to a dramatic text by creating the scenery, costumes and lighting design ideas based on text analysis, point of view, and research in the form of a production notebook.

### **CMTT-242. Costume Construction. 3 Hours.**

Students will learn theatrical costume construction techniques through the study of basic fabric handling, pattern cutting, hand and machine sewing, and fabric dyeing. Students will also learn costume care and storage.

### **CMTT-249. Makeup. 3 Hours.**

Fundamentals of stage and television makeup for straight and character roles; emphasis on the application of makeup, historical periods and uses of masks.

### **CMTT-309. Independent Study in Theatre. 3 Hours.**

Individual investigation into a topic of the student's choice. Approval of instructor, department chair and dean.

### **CMTT-321. Acting 2. 3 Hours.**

Building on the skills developed in Acting 1, this course deepens the student's exploration of the professional craft and demands of acting. Class sessions will take a rigorous approach to theatrical movement, character analysis, safe emotional connection, and the embodiment of action, intention, and point of view necessary for impactful storytelling. Course materials will focus on current plays and playwrights driving the national and global theatrical conversations of today.

**Prerequisite:** CMTT-221 with a minimum grade of C.

### **CMTT-331. Western Theatre History. 3 Hours.**

This course charts the history and development of theatre and drama of the "West" from the approaches of the ancient Greeks through the early twenty-first century. Students will engage in active study of the societal conditions that sparked theatrical response as well as the evolution of civic and artistic approaches that have been synthesized into the Western branch of today's common theatrical forms.

### **CMTT-332. History Of Theatre 2. 3 Hours.**

Chronological survey of the development of theatre and drama of the Western World from the Renaissance period to the twentieth century.

### **CMTT-333. Contemporary Theatre. 3 Hours.**

This course is an intensive survey of contemporary theatre from the twentieth century to the present with an emphasis on the past five years of theatrical culture and global contributors to the field. Students will learn about dramatic structure and characters. They will read, analyze and discuss a variety of dramatic works that are in dialogue with the emerging socio-political climate around the globe. As a capstone of this course, students will research a given topic and write an original ten-minute play, and submit it to the Nuevas Voces: A Ten-Minute Playwriting Contest.

### **CMTT-334. Special Topics In Theatre. 3 Hours.**

In-depth study of the major works of a single dramatist or movement, the relationship of those works to the period in which they were produced, and their place in the history of dramatic literature. Consult the Schedule of Classes for specific topics.

### **CMTT-337. Women In Playwriting. 3 Hours.**

This course examines the work of the dynamic women who have shaped theatre through their words and stories. The class will investigate the lens of women playwrights and the diverse range of art created through that lens.

**CMTT-339. Technical Theatre Production. 3 Hours.**

The study and practice of technical theatre production in the areas of scenery, lighting, costumes, and props. Students collaborate and execute the designs for the Stage Center Theatre Mainstage Season.

**CMTT-340. Scenic Design. 3 Hours.**

This course offers a comprehensive study of the principles of scenic design theory and practice. Students will analyze dramatic text, conduct visual research, execute renderings, write design concept statements, and design and build a scaled, color model of their concept.

**Prerequisite:** CMTT-130 with a minimum grade of C.

**CMTT-341. Lighting Design. 3 Hours.**

This course is a comprehensive study of the principles of lighting design theory and practical application.

**Prerequisite:** CMTT-130 minimum grade of C or PERF-130 minimum grade of C.

**CMTT-342. Costume Design. 3 Hours.**

In-depth study of the basic design skills, identification of textiles, as well as analysis of dramatic texts for costuming and coordinating designs with a theatre production team.

**Prerequisite:** CMTT-130 with a minimum grade of C.

**CMTT-343. Stage Management. 3 Hours.**

In-depth study of the job of the Stage Manager, including production planning, prompt book design, scheduling and managing rehearsal time, and actually stage managing and calling a show.

**Prerequisite:** CMTT-130 with a minimum grade of C.

**CMTT-345. Directing. 3 Hours.**

Principles and techniques of the director's art.

**Prerequisite:** CMTT-130 with a minimum grade of C or CMTT-221 with a minimum grade of C or CMTT-350 with a minimum grade of C or CMTT-351 with a minimum grade of C or CMTT-359 with a minimum grade of C.

**CMTT-346. American Musical Theatre. 3 Hours.**

Survey of the history and evolution of American musical theatre, particularly focusing on the "Broadway musical", within the context of the political, economic, social and cultural events.

**CMTT-347. Playwriting. 3 Hours.**

Study of dramatic art with practice in the writing of plays for dramatic production. An attempt will be made to provide laboratory productions of outstanding student works.

**CMTT-349. Summer Theatre. 3 Hours.**

A laboratory class covering all phases of theatre production in conjunction with the production of a play script. Includes acting, directing, set and costume design, choreography, lighting, props publicity and theatre management as related to the production of a play script.

**CMTT-350. Children's Theatre Workshop:Elementary. 4 Hours.**

This course offers a comprehensive look at all facets of creating and producing theatre for Elementary school aged youth. Students research professional approaches to theatre for young audiences, rehearse, design, market, create youth engagement experiences, and build education strategies in order to generate critical storytelling experiences for young people. The course culminates in a class mounted production of a play for Chicago Public School student audiences in Stage Center Theatre.

**CMTT-351. Children's Theatre Workshop:Middle and High School. 4 Hours.**

This course offers a comprehensive look at all facets of creating and producing theatre for Middle and High School aged youth. Students research professional approaches to theatre for young audiences, rehearse, design, market, create youth engagement experiences, and build education strategies in order to generate critical storytelling experiences for young people. The course culminates in a class mounted production of a play for Chicago Public School student audiences in Stage Center Theatre.

**CMTT-357. Interpretation Of Shakespeare. 3 Hours.**

This course will offer an in-depth examination of the life, legacy, and theatrical craft of William Shakespeare. Through an interactive exploration of selected works, performance techniques, and global productions of the bard's work, we will seek to humanize Shakespeare the playwright, and examine the artistic voice that has resonated across centuries and continues to impact every aspect of our lives and every stage on which we perform.

**CMTT-358. Acting 3. 3 Hours.**

This course will serve as a professional preparatory laboratory for advanced acting students. Students will engage in a rigorous, practice-based study of professional acting practices, audition technique training, audition repertoire building, the business and industry of theatre, and career preparation. Actors in the course will work to cultivate a body of work that truly represents their true artistic self and then share that body of work with the profession. The course arc leads directly to a professional showcase of student work for invited leading members of the professional Chicago theatre community including directors, producers, casting directors, and management reps.

**Prerequisite:** CMTT-321 with a minimum grade of C.

**CMTT-359. Experimental Theatre. 3 Hours.**

In this course, students will study and perform experimental modes of theatre. Methods may include collaborative devising, verbatim theatre, playback theatre, physical theatre, relational performance, solo storytelling, game theatre, and live art techniques.

**CMTT-383. Professional Internship 1. 3 Hours.**

Professional activities in a selected field of theatre, performed and supervised at public or private facilities, theatres, organizations, schools, etc.

**CMTT-384. Professional Internship 2. 6 Hours.**

(See CMTT-383 for description.).

**CMTT-385. Professional Internship 3. 9 Hours.**

(See CMTT-383 for description.).

**CMTT-393. Drama For Teaching And Learning. 3 Hours.**

CMTT-393 is a practical, process-oriented course designed to introduce students to techniques for using drama as a teaching tool. From 20th century techniques for using drama as a teaching tool in elementary and middle schools, to contemporary approaches to drama as a means of community engagement and social intervention with youth and adults, students will explore multiple methods for applying drama and theatre in a variety of pedagogical settings. Course assignments are hands-on and emphasize various techniques in a space conducive to developing increased proficiency, both individually and in groups.

**CMTT-423. Independent Study in Theatre. 3 Hours.**

Individual investigation into selected topics in methods and materials for dramatic activities. Permission of instructor, chair, dean & graduate director.

**CMTT-430. Performance Theory. 3 Hours.**

This graduate level course will examine the theory and study of performance creation and interpretation through the lenses of narrative and aesthetic. Students will explore a variety of theoretical, philosophical, and performative approaches to understanding diverse performance narratives and the visual interpretation, composition, and storytelling that render such narratives meaningful to artist and audience alike.

**CMTT-446. Arts Administration. 3 Hours.**

This course will examine best practices in arts administration including institutional approach, mission development, structures, strategies, policies, and success assessment in the not-for-profit, commercial, and educational arts sectors. Students will investigate active and current "real world" case studies in an exploration of the competitive landscape of artistic producing and presenting.

**CMTT-473. Special Topics In Theatre. 3 Hours.**

This revolving topics course allows graduate students the opportunity to study in-depth, specific theatre methods, movements and motivators. Consult the Schedule of Classes for specific topics.

# Computer Science (CS)

---

## Courses

### **CS-100. Computers And Society. 3 Hours.**

This course provides an introduction to the history of computing and how computers have affected society. Furthermore, it covers the basic computer skills needed to be truly computer literate in modern society. Topics include, but are not limited to the history of computing, the social context of computing, ethical issues in computing, computer security and privacy, the impact of the Internet and the World Wide Web, an introduction to computer architecture and operating systems, and basic computer programs utilized for school, work, and home.

### **CS-101. Creative Problem Solving. 3 Hours.**

The goal of this course is to focus on the skills required to analyze a problem and create a step-by-step (algorithmic) solution to that problem. Basic computation using arithmetic, relational, and logical operators will be covered as well as an in-depth treatment of decision and repetition control structures to create algorithms based on mathematical concepts such as summation, averages, exponentiation, prime and perfect numbers, algebraic and geometric sequences, etc.

**Prerequisite:** MATH-092 with a minimum grade of C.

### **CS-108. Computer Science For All. 3 Hours.**

Computer science has revolutionized many disciplines and it is no longer only for computer scientists. By studying computer science students will use computational thinking and apply programming to real world scenarios and interdisciplinary examples from science, math and teacher education. Robots and web and mobile-based coding platforms will be used to expose students to coding through different technologies. Students will learn computer science concepts such as algorithms, loops, and conditionals. Each week students will engage in hands-on computational thinking or coding exercises. Finally, students will complete a project using coding to demonstrate scientific, mathematical, or concepts from other disciplines.

**Prerequisites:** ENGL-101 and Accuplacer College Level Math 020 - 120 (or Accuplacer Adv. Algebra & Func 237 - 300 or NEIU Math Placement Result 30 - 45).

### **CS-109. First Year Experience: The Information Age: Its Impact On Chicago's Culture. 3 Hours.**

The 21st century has seen the genesis of the Information Age. Advances in computer technology have made immediate access to information and sophisticated processing of information commonplace in business, science, medicine, education, various professional areas and many aspects of personal life. This course focuses on how this has impacted Chicago's culture and its diverse communities. This course fulfills the First Year Experience (FYE) requirement. FYE-109 courses are intended for Freshmen only. Students may not take more than one FYE-109 course.

### **CS-180. Fundamentals Of Data Science. 4 Hours.**

Foundations of data science considers data from three perspectives: inferential thinking, computational thinking, and real-world relevance. Given data arising from some real-world phenomenon, how does one analyze that data to understand that phenomenon? The course teaches critical concepts and skills in computation and statistical inference, in conjunction with hands on analysis of real-world datasets, including economic data, document collections, geographical data, and data from social networks. It delves into social, ethical, and legal issues surrounding data analysis, including privacy and data ownership.

**Prerequisite:** MATH-173 with a minimum grade of C.

### **CS-200. Programming Fundamentals. 4 Hours.**

This course serves as an introduction to principles of computer programming. It covers fundamental concepts including input/output, data types, arithmetic, relational and logical operators, branching, looping, arrays, classes and objects, wrapper classes and strings. Programming projects involving these concepts will be assigned for interactive applications, numeric computations, and analysis of data.

**Prerequisite:** MATH-173 with a minimum grade of C.

### **CS-201. Discrete Structures. 3 Hours.**

Introduction to the fundamental number theoretic, logical, algorithmic, combinatoric, and computational concepts from discrete structures and their applications to computer science. This course involves no programming.

**Prerequisite:** MATH-173 with a minimum grade of C or MATH-104 with a minimum grade of C.

### **CS-203. Introduction To Problem Solving & Computational Thinking. 2 Hours.**

The goal of this course is to focus on the skills required to analyze a problem and create a step-by-step solution to that problem using the Bransford's IDEAL problem-solving approach (Identify the problem, Define the problem, Examine the options, Act on a plan, look at the consequences) and hone their problem-solving skills by applying the IDEAL approach to a variety of problems in a wide range of domains. Students integrate computational thinking into the IDEAL and Duke's 7 steps problem-solving approaches, recognize patterns in the problems they are solving (similarities and differences), identify abstractions, decompose a problem, and convert a real-world problem to its computational equivalent problem.

**Corequisite:** CS-200.

### **CS-207. Object-Oriented Programming And Data Structures. 5 Hours.**

This course provides an in-depth study of object-oriented programming and abstract data structures implementation and application. It covers inheritance and polymorphism, abstract classes and interfaces, exception handling, file operations, stacks, queues, lists, trees, heaps, and graphs. Additional topics include recursion, searching, and sorting algorithms.

**Prerequisite:** CS-200 with a minimum grade of C.

**CS-260. Computer Security. 3 Hours.**

This course serves as an introduction to computer security. It covers the basic components of modern computers, and the fundamental concepts of security including assets, threats, adversaries, cryptosystems, confidentiality, integrity, availability, assurance, authenticity, anonymity, privacy, and security principles. Building upon these fundamental concepts, this course also covers user authentication, security management and risk assessment, implementation of security plans to keep systems secure, and physical and infrastructure security. Finally, the course introduces human resources security, and legal and ethical aspects of security practices.

**Prerequisite:** CS-200 with a minimum grade of C.

**CS-300. Client Side Web Development. 3 Hours.**

The course discusses web site design issues and the requirements of e-commerce. Furthermore, it covers the creation of web pages. Hands-on development and group projects are an essential part of this course.

**Prerequisite:** CS-200 with a minimum grade of C.

**CS-301. Computer Organization. 3 Hours.**

Representation of data, machine arithmetic, processor and memory organizations, instruction execution, assembly and machine languages, addressing mechanisms, and implementation of high level language constructs. Students will gain a vision of levels of abstraction in hardware and software, the nature of the Von Neumann machine and the nature of high level languages.

**Prerequisite:** CS-200 with a minimum grade of C and CS-201 with a minimum grade of C.

**CS-302. Systems Programming. 3 Hours.**

Introduction to systems programming, including use and implementation of assembler, macros, loaders, compilers, and operating systems.

**Prerequisite:** CS-207 with a minimum grade of C and CS-308 with a minimum grade of C.

**CS-304. Data Structures. 3 Hours.**

This course provides experience implementing and manipulating basic data structures, as well as analyzing their applications in Computer Science. Topics covered will include: Stacks, Queues, Linked Lists, Binary Tree Structures, Heaps, Graphs, and Sorting Algorithms.

**Prerequisite:** CS-201 with a minimum grade of C and CS-207 with a minimum grade of C.

**CS-305. Computer Logic And Circuitry. 3 Hours.**

Introduction to logical design of computers and some of their applications. Included are Boolean algebra, switching theory, number systems, numerical codes, and computer organization. Engineering problems are de-emphasized. Computer word organization, languages and use of computers for simple problems will be explained.

**Prerequisite:** CS-200 with a minimum grade of C.

**CS-307. Programming Languages. 3 Hours.**

This course provides an introduction to the fundamental concepts of programming languages their structural definition and run time implementation. It equips the students with the tools necessary for the critical evaluation of existing programming languages, and the learning of new ones. In addition, it prepares students for the study of computer design.

**Prerequisite:** CS-207 with a minimum grade of C or CS-424 with a minimum grade of C.

**CS-308. Operating Systems. 3 Hours.**

A general overview of the ideas underlying operating systems. Included are traditional topics such as file systems, CPU scheduling, memory management and device scheduling, along with the topics of more current interest such as deadlock handling, process synchronization and distributed systems. No single operating system is studied; examples are drawn from many sources.

**Prerequisite:** CS-207 with a minimum grade of C and CS-301 with a minimum grade of C.

**CS-309. Compiler Theory. 3 Hours.**

Introduction to basic structure and components of a compiler. Finite automata, lexical analysis, regular grammar, context free grammar, top-down and bottom-up parsing techniques.

**Prerequisite:** CS-207 with a minimum grade of C.

**CS-310. Algorithmic Thinking In Problem Solving. 1 Hour.**

In this course, students focus on learning advanced problem-solving strategies and apply them to more challenging problems in computer science and business. Students synthesize information that they have learned across different computer science courses, in particular data structures, to solve complex problems efficiently and communicate solutions to teammates and industry professionals. The course provides practice on problems drawn from different domains, characterized by incomplete, vague, and possibly inconsistent specifications. Emphasis is on problems that have practical and real-world relevance.

**Prerequisite:** CS-203 with a minimum grade of C.

**Corequisite:** CS-207.

**CS-311. Modern Computer Architecture. 3 Hours.**

This course is intended for those students who wish to understand the architecture and operation of computer systems. Methods for interconnecting processors, memories and I/O devices are discussed. The addressing modes and instruction techniques for manipulation of more complex data structures such as queues, lists and trees are covered.

**Prerequisite:** (CS-207 with a minimum grade of C or CS-406 with a minimum grade of C) and CS-301 with a minimum grade of C.

**CS-314. Independent Study In Computer Science. 3 Hours.**

An opportunity for an individual research or applications project under the direction of an advisor knowledgeable in the field of endeavor. The project will be designed by the student and his/her project advisor, and must be approved by the chairperson of the Department of Computer Science before the project itself is undertaken.

**CS-315. Modern Database Management. 3 Hours.**

Theoretical foundations and state-of-the-art data base management systems. The relational, hierarchical and network approaches to data base management systems and representative systems are described. User interfaces are emphasized.

**Prerequisite:** CS-200 with a minimum grade of C.

**CS-317. Event-Driven Programming. 3 Hours.**

This course serves as an introduction to techniques and tools for the design of graphical user interfaces and event-driven applications. Topics covered include layering, domain logics, form and control basics, custom control, database mapping, and application embedded support. Students will be expected to apply these concepts in programming projects.

**Prerequisite:** CS-207 with a minimum grade of C.

**CS-319. Writing Intensive Program: Fundamentals Of Software Engineering. 3 Hours.**

This course serves as an introduction to the life cycle of the software development process. Topics covered include each phase of the cycle, and techniques and paradigms that result in the successful realization of each stage. Students will be expected to apply these concepts in a large-scale project.

**Prerequisite:** CS-207 with a minimum grade of C and ENGL-101 with a minimum grade of C.

**CS-320. Object-Oriented Programming. 3 Hours.**

This course provides an introduction to Object-Oriented Design (OOD) and Object-Oriented Programming (OOP), which is a highly used contemporary programming paradigm. The three main features of OOD, namely encapsulation, polymorphism and inheritance are discussed. The student must implement these concepts in a project.

**Prerequisite:** CS-207 with a minimum grade of C.

**CS-321. Server Side Web Development. 3 Hours.**

This course is an introduction to techniques and tools for designing server side web applications. Topics covered include web application flow, object oriented programming, design of classes, dynamic content, scripting languages, implicit objects and database accessing. Students will be expected to apply these concepts in the development of a website.

**Prerequisite:** CS-207 with a minimum grade of C and CS-300 with a minimum grade of C.

**CS-322. Applied Research And Statistical Data Analysis. 3 Hours.**

This course provides an in-depth study of research methods in computer science, probability theory, and modern statistical data analysis using the Binomial (discrete) and Normal (continuous) distribution, the Linear Regression model, Analysis of Variance, Nonparametric methods and Computer Random Sampling techniques. In addition, students will become experienced in the actual implementation of these statistical models with data sets using modern computer statistical software packages.

**Prerequisite:** CS-200 with a minimum grade of C and MATH-173 with a minimum grade of C.

**CS-323. Cyberlaw. 3 Hours.**

This course presents an introduction to the legal issues relating to the use of computers and the Internet. Topics covered include privacy, freedom of speech, intellectual property in cyberspace, encryption and interception of communication, computer crime, professional ethics and codes of conduct and work related ethical and legal issues.

**CS-324. Introduction To The Design Of Algorithms. 3 Hours.**

Methods for analyzing algorithms are discussed including an introduction to asymptotic notation. Several approaches to designing algorithms are covered using theory, examples and problems. Those approaches include divide-and-conquer, dynamic programming, the greedy approach backtracking and branch-and-bound. Different approaches are applied to the same problem to illuminate the relative advantages.

**Prerequisite:** CS-201 with a minimum grade of C and CS-207 with a minimum grade of C.

**CS-325. Theory Of Computation. 3 Hours.**

This course discusses several models of computation, including finite automata, pushdown automata and deterministic and nondeterministic Turing machines. The notions of undecidability, computational complexity, intractability and NP completeness are also discussed. The course is mainly theoretical in nature, but some applications, such as finite state systems and parsing, will be discussed.

**Prerequisite:** CS-201 with a minimum grade of C and CS-207 with a minimum grade of C or (CS-424 with a minimum grade of C).

**CS-326. Numerical Methods Using Fortran Programming. 3 Hours.**

An introduction to structured Fortran programming, Computational errors, Solving nonlinear equations, Solving sets of Equations, Determinants and matrix inversions, Interpolating polynomials.

**Prerequisite:** MATH-106 with a minimum grade of C or MATH-185 with a minimum grade of C.

**CS-327. Computational Methods In Biology. 3 Hours.**

Bioinformatics is the discipline that applies mathematics, statistics, computer science, chemistry, and biology to solving problems in biology using biological data sets. The problems investigated are usually at the molecular level. These problems include sequence alignment, genome assembly, models of evolution and phylogenetic trees, analyzing gene expression data, and gene linkage analysis. One of the most important statistical tools used in bioinformatics is the Bayesian network. This course introduces the techniques used in bioinformatics, in particular Bayesian networks, and provides solutions to several bioinformatics problems.

**Prerequisite:** (CS-201 with a minimum grade of C or MATH-251 with a minimum grade of C) and (BIO-100 with a minimum grade of C or BIO-201 with a minimum grade of C) and CS-200 with a minimum grade of C.

**CS-329. Decision Theory. 3 Hours.**

This course covers probabilistic networks, influence diagrams, and decision trees, and their application to making decisions in the face of uncertainty. It addresses modeling one-time decisions and also modeling repeatable decisions as done by an expert system. An expert system is a system that makes the judgments and decisions of an expert. Classical examples of expert systems are systems that make financial decisions and ones that perform medical diagnosis. This course will concentrate more of the latter. Methods for building expert systems and for doing inference with them will be covered.

**Prerequisite:** CS-201 with a minimum grade of C and CS-207 with a minimum grade of C.

**CS-331. Computer Networks. 3 Hours.**

This course covers concepts in data communications, emphasizing protocols. An overview of all protocol layers will be covered, with emphasis on OSI and TCP/IP.

**Prerequisite:** CS-207 with a minimum grade of C or CS-406 with a minimum grade of C or CS-424 with a minimum grade of C.

**CS-334. Open Source Systems. 3 Hours.**

This course is an introduction to the open source domain, including the Linux operating system and other technologies. Topics covered include open source licensing, Linux administration and characteristics of open source applications. Students will be expected to understand the main concepts, and become capable of researching available resources and participating in open source communities.

**Prerequisite:** CS-308 with a minimum grade of C.

**CS-335. Artificial Intelligence. 3 Hours.**

This course covers strong artificial intelligence methods, which have resulted in the development of systems that solve open problems in specialized domains. Such methods include 1) AI models based on logical reasoning, in particular decision trees and learning decision trees, rule-based expert systems, semantics nets, and frames; 2) AI models based on probabilistic reasoning, in particular Bayesian networks and learning Bayesian networks, influence diagrams, and class probability trees; and 3) AI models based on emergent intelligence, in particular evolutionary computation and swarm intelligence. Lastly, the course discusses an important endeavor in AI, namely language processing.

**Prerequisite:** CS-207 with a minimum grade of C and (CS-201 with a minimum grade of C or CS-400 with a minimum grade of C).

**CS-336. History Of Computing. 3 Hours.**

This course discusses the history of computing beginning with the earliest computational devices and continuing to current technologies. The history of computing is much more than the study of computers. It also involves the study of how computing is done and approached and how it has evolved over time. This course covers the following aspects of computing history: technology, both hardware and software; business history; and sociological impacts and key turning points. Within those aspects, trends and evolution are covered as well.

**CS-338. Science, Women, And Technology. 3 Hours.**

This course includes an overview of the women who have made major contributions to computing from Grace Hopper to Ellen Spertus. Furthermore, it provides a life-course analysis of women in computing from an early childhood interest, through university, to graduate school and finally into the work place. This analysis will provide the seed for research topics. Each student will choose a research topic, conduct the research, and present the results to the class.

**CS-339. Fundamentals Of Information Technology Project Management. 3 Hours.**

An Information System is a well-coordinated collection of technological and human resources that gathers and transforms data into information that enables decision making and process improvement within organizations. Information Technology Project Management is the application of knowledge, skills, tools, and techniques to project activities in order to meet project requirements. This course serves as an introduction to these concepts. Students will be expected to apply these tools and techniques in a group based project.

**Prerequisite:** CS-207 with a minimum grade of C.

**Corequisite:** CS-319.

**CS-340. Fundamentals Of Computer Graphics. 3 Hours.**

This course provides a unified introduction to computer graphics and computer vision for students with an interest in imaging or digital visual arts. Topics covered include the fundamentals of display hardware and applications, interactive techniques and color models, 3D viewing pipeline, 3D polygon rendering (clipping, scan conversion, and visibility algorithms), illumination models, transparency, and ray-tracing. The student must write programs using these methodologies.

**Prerequisite:** CS-207 with a minimum grade of C.

**CS-341. Parallel Computing And Distributed Systems. 3 Hours.**

This course works on the fundamental concepts of building systems that work across multiple computing platforms. The course includes topics of distributed operating systems and network protocols for process communication, synchronization, scheduling, and exception and deadlock resolution; understanding of client-server, web-based collaborative systems; parallel computing; concurrency issues; and API's for distributed application development. Several distributed computing environments are discussed and used in developing experimental projects in a cluster of networked computers. Building systems using cloud-based and service-oriented architectures may also be included.

**Prerequisite:** CS-308 with a minimum grade of C and CS-207 with a minimum grade of C.

**CS-342. Introduction To Human Computer Interaction. 3 Hours.**

A good understanding of how a system/device interacts with its users is what differentiates a product that is technically sound from a usable one. HCI is the science that explores these interactions. HCI is at the intersection of many disciplines including cognitive psychology, linguistics, design and engineering. HCI considerations are increasingly cited as key factors in product design. In this course we will explore the science behind HCI and we will put parts of it into practice.

**CS-343. Introduction To Natural Language Processing. 3 Hours.**

Computers have tried to understand humans since the beginning. Today, with social media, globalization and the widespread use of computing devices the task of understanding is facing new challenges. In this course the students will learn the core techniques used by computers to understand and generate language, as well as state of the art research in the field.

**Prerequisite:** CS-207 with a minimum grade of C.

**CS-345. Network Security. 3 Hours.**

This course discusses the principles and practice of network security applications and standards that are widely used on the internet and on corporate networks. Building upon a review of networking and cryptographic algorithms, topics covered include network access control, network attacks and countermeasures, Internet security protocols, intrusion detection systems, firewalls and intrusion prevention systems, tunneling and virtual private networks, proxy firewalls and servers, anonymizing proxies, and cloud computing security.

**Prerequisite:** CS-331 with a minimum grade of C.

**CS-346. Interdisciplinary Seminar In STEM. 2 Hours.**

This course uses a hands-on approach to modern inquiry-based research problems and techniques in the physical and computational sciences. The course is structured around a series of modular problem-based exercises, covering topics from the fields of Chemistry, Computer Science, Earth Science, Mathematics and Physics, and is designed to provide the content and pedagogical background for students to be successful peer leaders. The cross-disciplinary modules will draw connections between scientific disciplines, and showcase common research tools and techniques used in the sciences. The workshop will also incorporate discussions on a range of topics, from scientific ethics, scientific methodology and error analysis.

**Prerequisite:** MATH-185 with a minimum grade of C.

**CS-347. Mobile Application Development. 3 Hours.**

This course covers programming applications for mobile platforms. Students will learn about mobile application environments and platforms and how to design and develop applications to account for the limited screen size, memory, and access to the internet. Students will incorporate graphics, networking, security, media to create new, real world, practical applications. Development, design, implementation, testing, debugging, and maintaining these applications will also be covered. Students will use a variety of programming languages to create these applications.

**Prerequisite:** CS-207 with a minimum grade of C and CS-300 with a minimum grade of C.

**CS-348. Computer Ethics And Public Policy. 3 Hours.**

This course discusses ethical and social issues related to the development and use of computer technology. The course provides students with historical and philosophical context to understand the evolution of ethics and its intersection with the use of technology as well as touching on major ethical issues currently affecting the use of computer technology. Topics involve ethics, public policy, privacy, responsibility and legal considerations.

**CS-349. Introduction To The Internet Of Things. 3 Hours.**

Internet of Things (IoT) is an emerging technology that actively brings informative and interactive dimensions to the spaces we live and work in. IoT is about creating a fully integrated Internet that includes both cyber elements and physical devices, where the interactions and interconnections between them build smart spaces and trigger applications in many areas (e.g., home automation, transportation, healthcare). This course introduces the fundamentals of IoT, ad-hoc systems, and sensor networks. The topics covered include the different architectures and platforms, communication modules and protocols, hardware accessories and devices, application models and IoT programmability. The course then focuses on the different challenges, limitations, security threats and attacks, and privacy and security measures and protocols.

**Prerequisite:** CS-200 with a minimum grade of C and CS-331 with a minimum grade of C.

**CS-351. Data Wrangling For Data Analysis. 3 Hours.**

Data is messy, comes from different sources and it is seldom complete. This course provides an in-depth study of how to prepare data coming from various sources, in different formats, with noisy information, in order to perform meaningful and sound analyses. Contents include grouping data, visualizing data, and aggregating data from the web and other sources.

**Prerequisite:** MATH-173 with a minimum grade of C.

**CS-355. Cryptography. 3 Hours.**

This course covers cryptography and a wide range of cryptographic applications. Theory discussed includes the design and analysis of cryptographic algorithms such as private key and public key cryptosystems used to secure data transmission and electronic system communications. Cryptographic applications such as digital signatures, entity identification, key exchange and e-commerce transactions are discussed.

**Prerequisite:** CS-324 with a minimum grade of C or (CS-400 with a minimum grade of C and CS-404 with a minimum grade of C).

**CS-359. Machine Learning. 3 Hours.**

This course provides an introduction to machine learning and its underlying fundamental statistical concepts. Building upon basic probability theory and linear algebra, the course addresses several concepts essential to the understanding of machine learning, including approximation, generalization, overfitting, underfitting, and linear and nonlinear systems. Several supervised and unsupervised learning algorithms are covered and used to solve real-world problems. The course will also introduce neural networks, ensemble learning, and active learning. Hands-on projects and in-class laboratories of the application of machine learning to the broad field of computer science and related fields will be given.

**Prerequisite:** CS-207 with a minimum grade of C.

**CS-360. Cybersecurity. 3 Hours.**

This course covers various advanced security concepts, tools, and models. Topics covered include denial-of-service attacks, web security and client- and server-side attacks, email security, database security, payment system security, digital rights management, network security, and incident response. Building upon the introduced security fundamental concepts, advanced enterprise security topics such as static and dynamic malware analysis, security auditing architecture and trails, incident response, and threat intelligence frameworks will be introduced. Hands-on experience will be provided through several laboratory sessions and a final module on penetration testing.

**Prerequisite:** CS-260 with a minimum grade of C and CS-331 with a minimum grade of C.

**CS-361. Secure Programming And Testing. 3 Hours.**

This course details how to design, build, and test programs in order to make them more secure. The course will discuss the following topics: concepts of secure programming (including risk management), techniques and tools used to build secure systems, techniques to test for security in programs and systems, specific vulnerabilities to avoid (and how to do so), and how to test for those vulnerabilities. Specific common classes of programming-induced vulnerabilities will be included such as buffer overflows, race conditions, off-by-one errors, integer overflow, and improper use of randomness functions.

**Prerequisite:** CS-331 with a minimum grade of C.

**CS-362. Writing Intensive Program: Digital Forensics. 3 Hours.**

Digital forensic science concerns the acquisition, recovery, and investigation of digital data. This course provides an introduction to computer components, storage devices, and file systems. Topics covered include forensic algorithms, operating systems artifacts analysis, files analysis, network attacks and forensics, Internet artifacts with emphasis on browser and mail applications, and memory forensics. Students will use tools and create scripts for digital forensic investigation.

**Prerequisite:** CS-207 with a minimum grade of C and CS-260 with a minimum grade of C and ENGL-101 with a minimum grade of C.

**CS-390. Supervised Field Study I. 3 Hours.**

(Internship) The student completes a computer programming project for an institution at the institution site. The institution defines the project which must be approved by the Department of Computer Science for the purpose of satisfying the course requirement. The project should take approximately 168 hours to complete. NOTE: CS-390 is repeatable for a maximum of 9 credit hours.

**CS-391. Supervised Field Study II. 6 Hours.**

(Internship) Same as CS-390 except that project should take approximately 336 hours to complete.

**CS-392. Supervised Field Study III. 9 Hours.**

(Internship) Same as CS-390 except that project should take approximately 504 hours to complete.

**CS-400. Discrete Modeling And Analysis. 3 Hours.**

This course provides necessary tools to develop mathematical maturity through the study of important topics such as combinatorial analysis, discrete structures, algorithmic thinking and mathematical reasoning. Topics include Advanced Enumeration Methods, Recurrence Relations (Equations), Graph Theory, Automata and Formal Languages, Proof Techniques and Probability and Statistics.

**Prerequisite:** CS-201 with a minimum grade of B or CS-405 with a minimum grade of C.

**CS-401. Software Engineering. 3 Hours.**

The complete software development process: requirement specification, design, coding, testing and maintenance. Various software engineering methods for the development of large-scale quality software are presented.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-404. Analysis Of Algorithms. 3 Hours.**

This course provides various methodologies to design and analyze algorithms. Topics include incremental, divide-and-conquer, dynamic programming, greedy, backtracking, and branch-and-bound methodologies. Additional topics include sorting and searching algorithms, and computational complexity and Intractability.

**Prerequisite:** CS-207 with a minimum grade of B or CS-425 with a minimum grade of C.

**Corequisite:** CS-400.

**CS-408. Advanced Operating Systems. 3 Hours.**

Advanced operating system design and construction concepts such as memory, processor, process and secondary device management, synchronization and communication, security and protection, system performance and evaluation, network, distributed and fault-tolerant systems. Study of operating systems highlighting these concepts.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-409. Topics In Compiler Theory. 3 Hours.**

This course describes the procedures used to develop a compiler for a high level language. First a simple high level language is defined and a simple program is written using this language. Then the concepts of a scanner and a parser are presented and students write the software for a scanner and a parser. Gradually, software for all phases of a compiler is developed and by the end of the semester, every student has developed a compiler that can produce assembly code for a microprocessor for a program written in a predefined simple high level language.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-411. Professional Computing. 3 Hours.**

This course introduces the technical and communication skills needed for a successful career in the field of Information Technology. This course is designed to enhance the student's technical research, writing, and presentation skills, as well as to empower the student to use and understand technology more effectively. Utilizing Computer Science-focused topics, this course equips the student with today's technological knowledge and prepares the student for their future career. The student will learn methods for gathering information, writing good documentation, rendering technical information usable to the intended audience, and delivering presentations.

**CS-412. Web Application Development. 3 Hours.**

This course serves as an introduction to different techniques and tools for the design of web applications. Topics covered include web applications flow, object oriented programming, design of classes, dynamic content, scripting languages, implicit objects, and database accessing. Students will be expected to understand and apply these concepts into the generation of sample websites.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-413. IT Project Management. 3 Hours.**

IT Project Management is the discipline that applies management principles to the development of information systems projects. It uses techniques developed by Industrial Engineers and used by other engineers and business managers to bring in projects within time and budget. This course supplements Software Engineering by focusing on the management aspects of investing in the development of information systems. Required: CS-401 or can be taken concurrently.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-414. Independent Study. 3 Hours.**

An opportunity for advanced study under the direction of an advisor knowledgeable in the field. The area of study will be selected by the student and his/her advisor, and must be approved by the department chair.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-415. Design Of Data Base Systems. 3 Hours.**

This course covers various concepts associated with design and construction of data base systems. Topics include data base architecture, relational model, relational languages (SQL), normalization theory, Entity-Relationship theory and physical data base design. Students will develop a simple data base system.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-416. AI And Robotics. 3 Hours.**

This course serves as an introduction to aspects of Artificial Intelligence applied to the robotics field. Students will learn different techniques to approach problems using simple robotics. Students will be expected to understand the main concepts, research for available resources, and participate in projects where these concepts will be applied.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-417. Video Game Programming. 3 Hours.**

The aim of this course is to explore the basics game programming and the gaming industry, including elements of computer graphics and computer vision as well as advanced stereoscopic computer applications. Following the nature of computer/video games development as a team effort, for this course, we shall design and implement one large class project for game prototype as a team.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-418. Research Topics In Artificial Intelligence. 3 Hours.**

This course covers current research topics in artificial intelligence (AI) theory and applications. Topics will vary from semester to semester, and will include a detailed study of one or more of the following: the application of Bayesian networks and other machine learning methodologies to artificial intelligence; the use of decision theory to model intelligent agent behavior; genetic algorithms and programming; evolutionary strategies; multi-agent systems and models; hybrid heuristics and non-deterministic optimization algorithms.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-419. Informatics. 3 Hours.**

Information is the discipline that applies the methodologies of science and engineering to information. It concerns organizing data into information, learning knowledge from information, learning new information from knowledge and making decisions based on the knowledge and information learned. This course concerns computational methods for analyzing data and processing information in applications to business decisions.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-420. Object-Oriented Design. 3 Hours.**

This course provides student with a solid foundation in object oriented design (OOD) and programming (OOP), a contemporary and highly used programming paradigm. OOD involves the presentation of three main concepts: encapsulation, polymorphism, and inheritance. These concepts and implementation techniques are presented in an object oriented programming language and students become experienced in OOD projects.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-421. Applied Programming Fundamentals I. 3 Hours.**

This is a course that covers the principles of computer programming using an object-oriented programming language. Topics will include fundamental constructs of an applied object-oriented programming language such as variables, methods/functions, classes, dynamic object construction, and elementary data structures as well as abstract thinking techniques. A key component of this course is the presentation of programming concepts with relevant and interdisciplinary examples, and project-based experiences. Students will learn how to read and understand documentation, as well as install and access code management tools. This is a project-oriented course.

**CS-422. Data Mining. 3 Hours.**

Data mining is a powerful technology that extracts useful knowledge hidden in large datasets. This knowledge can be utilized to help people make decisions and predict future events. Data mining has its wide application in many areas, including science and engineering, finance and marketing research, medicine and healthcare, etc. This course covers common data preprocessing techniques and data mining algorithms, such as data preparation, aggregation and visualization, classification, regression analysis, clustering, and model evaluation. Some special topics will also be discussed in this course.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-423. Enterprise Architecture & IT Strategy. 3 Hours.**

Enterprise Architecture (EA) is the process of translating organizational vision & strategy into effective & agile business processes that utilize integrated management information systems. These systems allow for; timely decision making, speed to market for competitive advantage or to create a significant barrier to entry. This course studies organizational strategy and its interrelationship & importance with major supporting business systems. The student will gain an understanding of Enterprise Resource Planning (ERP), Product Lifecycle Management (PLM), Customer Relationship Management (CRM), Business Intelligence, & Ecommerce systems and how the use & selection of these systems are critical to an overall IT Strategy.

**Prerequisite:** CS-413 with a minimum grade of C.

**CS-425. Applied Programming Fundamentals II. 3 Hours.**

This is an introductory course covering the principles of object-oriented programming and data structures. Topics include fundamental constructs such as inheritance, polymorphism, exception handling, and commonly used data structures. A key component is the presentation of programming concepts with relevant, interdisciplinary examples and project-based experiences. Students will learn how to utilize data structures and object-oriented techniques to develop large-scale projects. This is a project-oriented course where a variety of teaching methods will be introduced. These methods can include pair programming, in-class presentation of topics, and class projects utilizing communication and collaboration tools.

**Prerequisite:** CS-421 with a minimum grade of C.

**CS-426. Advanced Numerical Methods. 3 Hours.**

This course covers the elements of the design and analysis of numerical methods. Topics include errors in numerical methods, floating-point and interval arithmetic, measuring and efficiency of numerical methods, interpolation and curve fitting, numerical differentiation, numerical integration, and numerical optimization.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C and MATH-301 with a minimum grade of C.

**CS-427. Cross-Platform Mobile Application Development. 3 Hours.**

The course introduces the student to modern mobile application development languages. Then, through hands-on projects, the students will gain experience with paradigms, app architecture, and user interfaces. The course culminates in a final project for which students implement an app entirely. Students will incorporate graphics, networking, security, media to create new, real world, practical applications. Development, design, implementation, testing, debugging, and maintaining these applications will also be covered. Students will use a variety of programming languages to create these applications.

**Prerequisite:** CS-412 with a minimum grade of C.

**CS-435. Expert Systems. 3 Hours.**

An expert system is a program that is capable of making the judgements and decisions of an expert. An example of an expert system is a program that does medical diagnosis. This course covers methods for designing expert systems and for reasoning using expert systems.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-440. Computer Graphics. 3 Hours.**

Graphics hardware. Scaling and data charting. Representation of two-dimensional objects. Translation and rotation of objects. Two-dimensional line clipping. Three-dimensional object representation. Perspective in three-dimensional object representation. Line- clipping and hidden line and face removal in three dimensions.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-442. Topics In Network Design. 3 Hours.**

Protocols for computer networks. Performance requirements, evaluation and analysis. Case studies of actual networks.

**CS-450. Advanced Computer Architecture. 3 Hours.**

Computer system structure and design issues such as ALU design, arithmetic algorithms, memory hierarchy, control, microprogramming, instruction sets, addressing, input-output. Comparison of specific examples of computer models and selected topics on parallel processors.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-460. Computer Security. 3 Hours.**

Study of existing hardware and software techniques for implementing security. Passwords, encryption and authorization schemes. Special security problems presented by distributed and network environments.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-490. Master's Project. 3 Hours.**

Large scale software project and associated documentation. Topic for the project is chosen in conjunction with a project advisor. Master's Project requires the approval of the instructor, the Department Chair, and the appropriate College Dean.

**Prerequisite:** CS-400 with a minimum grade of C and CS-404 with a minimum grade of C.

**CS-5901. Thesis Hours. 1 Hour.**

Student conducts and writes a thesis in Computer Science. This is an alternative to CS-490 for those who want to pursue a more ambitious project. Master's Thesis requires the approval of the instructor, the Department Chair, and the appropriate College Dean.

**CS-5902. Thesis Hours. 2 Hours.**

See course description for CS-5901.

**CS-5903. Thesis Hours. 3 Hours.**

See course description for CS-5901.

# Consortium Course (ZZZZ)

---

ZZZZ-100. Consortium Agreement Course. 1-6 Hours.

# Counselor Education (COUN)

---

## Courses

### **COUN-401. Professional Orientation & Legal/Ethical Practices. 3 Hours.**

This course offers an orientation to the counseling profession, including professional identity issues and the professional career options. Students will study the history of the profession, ethical and legal standards and practices, credentialing, professional organizations, functions of a counselor, and professional journals. Students will also be oriented to skills required for multicultural counseling competency.

### **COUN-402. Developmental Counseling. 3 Hours.**

Course focuses on the concept of developmentally oriented counseling. It is based upon lifespan theory which makes the assumption that there is developmental logic to behavior. Counselors learn to assess and understand the client's developmental processes and provide appropriate helping strategies for clients working through developmental blocks. Students study developmental theories, concepts and principles, including psychosocial, cognitive, moral, emotional, family, career, self and cultural development.

### **COUN-403. Theories Of Counseling. 3 Hours.**

Focuses on various theories of counseling and their associated techniques. Students study a range of theories and their application in various professional settings and are required to synthesize their own approach. This course contributes to the theoretical foundations of the helping relationships component of the program and is required of all students.

### **COUN-404. Assessment And Evaluation In Counseling. 3 Hours.**

Principles of test construction, basic statistical concepts, study of commonly used standardized tests and other evaluative procedures. Interpretations of test data are an integral part of this course.

### **COUN-405. Individual Counseling Skills. 3 Hours.**

A laboratory course providing competency-building experiences to prepare counselors for helping relationships. Supervised counseling of fellow students and outside clients is required. Both a knowledge base and a skill base are developed. In all aspects of this course, confidentiality and ethical-behavior are stressed. The course contributes to the helping relationships component of the program and is required of all students.

**Prerequisite:** (COUN-401 with a minimum grade of C or COUN-433 with a minimum grade of C) and COUN-403 with a minimum grade of C and COUN-430 with a minimum grade of C.

### **COUN-406. Group Counseling. 3 Hours.**

Course focuses on groups and group leadership. Knowledge base includes theory, group processes, group dynamics, interventions, roles of members and leaders, facilitative and debilitating behaviors, characteristics of developmental stages, ethics and therapeutic ingredients of group work. Experiential group activities develop self-awareness, interpersonal skills and leadership ability. Confidentiality and ethical behavior are stressed. Course contributes to the helping relationships and group work components of the program and is required of all students.

**Prerequisite:** COUN-405 with a minimum grade of B.

### **COUN-407. Advanced Clinical Mental Health Counseling. 3 Hours.**

This advanced clinical mental health counseling course will address the contextual complexity of the constructs of "mental health" and "mental illness." Students will review service delivery strategies and evaluate the effectiveness of clinical mental health counseling approaches through the lenses of strengths-based and wellness-informed practices. Students will work to foster resilience in their clients and practice self-care strategies to prevent against burnout in themselves. Students will apply these skills within a theoretical framework, consistent with best practices, in a laboratory setting with community clients under live supervision of the faculty supervisor.

**Prerequisite:** COUN-405 with a minimum grade of B.

### **COUN-408. Research Seminar. 3 Hours.**

Introduces students to the nature of scientific research, with particular reference to the research methods and statistical treatments that are appropriate to the study of problems and issues related to professional counseling. Students demonstrate their critical understanding by designing a research proposal. Course contributes to the research and evaluation component of the program and is required of all students.

**Prerequisite:** COUN-404 with a minimum grade of C.

### **COUN-409. Career Development. 3 Hours.**

This introductory course provides an overview of the field of career development with applications appropriate to the student's sequence. The focus is on career development theories; occupational and educational information; career and leisure counseling; lifestyle and career decision making; and program planning and evaluation. A whole life perspective facilitates the personal, social and career development of children, adolescents and adults. This course contributes to the lifestyle and career development component of the program. Required of all student in the Counselor Education Program.

### **COUN-410. Seminar In School Counseling. 3 Hours.**

This course provides an overview of the field of school counseling in elementary, middle and secondary schools. Emphasis is on the role of the school counselor as well as an examination of the history and current trends in school counseling programs and services. The developmental school counseling model offers a foundation for understanding various interventions, including individual and group counseling, crisis intervention, consultation, appraisal and coordination of counseling services. Required of all students in the School Counseling Program.

**COUN-411. Post Secondary College & Career Counseling. 3 Hours.**

This course is intended to provide school counseling students with specialized information about the college and career search, admissions, and financial aid processes. This course will provide an overview of the field of college counseling and the basics of the college admission and selection process. It will emphasize the role of the school counselor in providing information, assistance, and support in the students' and families' decision-making.

**Prerequisite:** COUN-410 with a minimum grade of B.

**COUN-412. Topics In School Counseling. 3 Hours.**

This course examines important topics for professional school counselors: collaboration and consultation in schools; crisis management in schools; and academic development of students. It also addresses current Illinois Learning Standards for counselors: reading methods, social/emotional learning, and bilingual/bicultural education. Critical analysis of best practice is considered as well as strategies to maximize learning and development of Pre K - Age 21 students.

**Prerequisite:** COUN-410 with a minimum grade of C.

**COUN-414. Advanced Career Counseling. 3 Hours.**

Advanced Career Counseling provides students with an in-depth laboratory experience in career counseling which will require them to integrate their knowledge of career and counseling theories, individual counseling skills, evaluation techniques and skills related to the job search process. Students will be required to formulate, present and write and in-depth client case study. This course is required of all students in the career development sequence.

**Prerequisite:** COUN-409 with a minimum grade of C.

**COUN-415. Children And Youth In School And Family Systems. 3 Hours.**

This clinically-focused graduate course offers an in-depth exploration of play therapy, blending theory, research, and practice. Students will study its application in diverse settings, engage in comparative analysis of therapeutic models, and develop practical skills through supervised laboratory experience. This course aims to advance student's clinical practice with children and youth using play-based assessment and therapeutic techniques.

**Prerequisite:** COUN-402 with a minimum grade of C.

**COUN-416. Introduction To Play Therapy. 3 Hours.**

Study of play therapy theory, research, and utility in school and clinical settings. Application of play-based assessment, treatment planning, and therapeutic skills through supervised laboratory experience.

**Prerequisite:** COUN-401 with a minimum grade of B and COUN-402 with a minimum grade of B and COUN-403 with a minimum grade of B and COUN-405 with a minimum grade of B and COUN-415 with a minimum grade of B.

**COUN-420. Introduction To Family Counseling. 3 Hours.**

Course focuses on major theories and techniques of family counseling. Lectures, student research and role playing are utilized as presentation forms.

**Requirement:** Master's degree candidacy in Counseling or consent of the instructor.

**COUN-421. Advanced Couple And Family Counseling. 3 Hours.**

This advanced clinical class and lab experience in couple and family counseling will increase the student's knowledge and skills in the practice of relational therapy within a culturally-responsive framework. Students will study couple and family therapy treatment models which focus on promoting relational wellness and strengths. Students will apply these skills in a laboratory setting with community clients under the live supervision of the faculty instructor. Skills in clinical assessment and record-keeping will be taught and practiced. Introductory self-supervision strategies will be explored.

**Prerequisite:** COUN-401 with a minimum grade of C and COUN-403 with a minimum grade of C and COUN-420 with a minimum grade of C.

**COUN-422. Interventions For Grief & Traumatic Bereavement Across The Lifespan. 3 Hours.**

This skill-building course will present an overview of clinical interventions for grief and traumatic bereavement across the lifespan. Evidence-based, developmentally-appropriate and culturally-informed intervention models to build and repair attachment bonds and resilience will be taught. Students will practice skills in active role plays during class sessions.

**Prerequisite:** (COUN-401 with a minimum grade of C or COUN-433 with a minimum grade of C) and COUN-403 with a minimum grade of C and COUN-420 with a minimum grade of C.

**COUN-423. Counseling For Business And Industry. 3 Hours.**

This course is designed for students in the Career Development Sequence. Focuses on the counseling needs in business and industry. The course builds on the work done in COUN-414 Advanced Career Counseling, with the emphasis on the career counseling needs of the adult worker. Course is of value to students seeking careers in the business world, community colleges and vocational agencies.

**Prerequisite:** COUN-409 with a minimum grade of C.

**COUN-424. Resiliency, Wellness, And Self-Care In Trauma Counseling. 3 Hours.**

This course provides an overview of the complexities of working with trauma survivors and the role of mental health professionals within the context of lifespan development of resiliency, posttraumatic growth, resistance, and recovery skills during prevention and intervention. Students learn about countertransference reactions, vicarious trauma, and symptoms of compassion fatigue. The course provides an overview of stress management techniques to enhance sense of well-being, develop resilience and skills to apply self-care strategies. Each student designs, implements and evaluates a personal self-care program appropriate to their own needs and resources. Students engage in research and support group activities to work with various aspects of self-care.

**COUN-425. Diagnosis And Treatment Of Addictive Disorders. 3 Hours.**

This course is an introduction to alcoholism, substance abuse, and other addictive disorders. The course provides an overview of screening, assessment, and treatment models of addictive disorders. The course is presented in three modules: 1) a contextual understanding of substance addiction including the pharmacological, socioeconomic and psychological aspects of addiction; 2) screening, assessment, treatment planning, referral and counseling, interventions; and 3) specialty addiction areas such as gambling, sexual, food, and relationship addictions. An overview of current best practices in counseling is presented such as motivational interviewing and cognitive/ behavioral approaches.

**Prerequisite:** (COUN-401 with a minimum grade of C or COUN-433 with a minimum grade of C) and COUN-403 with a minimum grade of C.

**COUN-426. Advanced Treatment Of Addictive Disorders. 3 Hours.**

This course focuses on the examination and evaluation of evidence based treatment practices for addictive disorders, including process addictions. The course also examines core functions of the alcohol and other drug therapist. Clinical concepts, terminology, and treatment modalities including group, individual, couple, and family counseling techniques are reviewed. The importance of the clinical continuum of care is discussed with additional emphasis on prevention, intervention, treatment and aftercare. Other topics relevant to the ATOD counselor from the treatment perspective, ethical practices, and legal aspects are presented.

**Prerequisite:** COUN-425 with a minimum grade of C.

**COUN-427. Diagnostic Systems For Counseling. 3 Hours.**

This course acquaints counselors with descriptive, research-based and clinical knowledge that contributes to the diagnosis and treatment of mental disorders, including disorders of behavior and impulse control, mood and anxiety as well as the various personality disorders and disorders involving loss of contact with reality. Students study the current Diagnostic and Statistical Manual of Mental Disorders of the American Psychiatric Assn. and the ways the manual is used in clinical practice.

**Prerequisite:** COUN-403 with a minimum grade of C.

**COUN-428. Advanced Issues In Co-occurring Disorders And Counseling Interventions. 3 Hours.**

This advanced course builds on foundation knowledge from Diagnosis and Treatment of Addictive Disorders (COUN-425) and Crisis and Trauma Counseling (COUN-438). This course explores selected theories and methods for engaging and retaining clients in substance abuse and trauma treatment. In addition, the course reviews and discusses advanced issues resulting from co-morbid substance abuse and mental health problems and identifies system interventions and support strategies for this population. The course specifically focuses on the intersection of traumatic experiences, substance misuse, and mental illness. The behavioral health model and dual-diagnosis are also covered. This course meets curricular requirements for CACREP standards.

**COUN-429. Psychopharmacology. 3 Hours.**

This is an introductory course to psychopharmacology for non-medical, helping professionals. Students will be informed about the pharmacological aspects of addiction, psychotherapeutic medications and drugs of abuse. Emphasis is placed on the basic principles of pharmacology, the effects of drugs on the human central and peripheral nervous systems; and psychoactive drug effects and side effects. It is also designed to provide an overview of pharmacological classification systems and pharmacological interventions for psychiatric disorders. It will address benefits and side effects, trends and physiological principles as well as medical and pharmacological lexicon.

**COUN-430. Social & Cultural Diversity In Counseling. 3 Hours.**

Students will be introduced to the training model for multicultural competency, which includes awareness of cultural assumptions, knowledge of cultural diversity and racial/ethnic issues, and skills for social and cultural diversity counseling. Students will gain understanding of the impact of their own cultural identity on behavior, functioning, and the therapeutic relationship. Skills for successful social and cultural diversity counseling will be taught, including assessment of cultural identity and worldview, acculturation, spirituality, gender, socioeconomic status, and oppression.

**COUN-431. Couple And Family Systems Study. 3 Hours.**

An in-depth look at family systems, including a family's developmental and life cycles. Attention will be given to various contemporary family structures with a focus on family assessment of contemporary problems such as substance abuse, domestic violence and sexual dysfunction. Comparison of a systemic view and the traditional medically modeled psychological and psychiatric view will be addressed. Students will also study the assessment of families through the use of standardized instruments.

**Prerequisite:** COUN-420 with a minimum grade of C and COUN-405 with a minimum grade of B.

**COUN-432. Couples Counseling And Human Sexuality. 3 Hours.**

This course provides students with knowledge and understanding of principal theoretical frameworks and the existing clinical approaches to human sexuality and counseling couples. The course exposes students to a variety of clinical topics a counselor is most likely to encounter in clinical work with couples and when addressing issues of human sexuality.

**Prerequisite:** COUN-420 with a minimum grade of C and COUN-405 with a minimum grade of B.

**COUN-433. Foundation Of Rehabilitation Counseling. 3 Hours.**

This course will provide students with the foundations of rehabilitation and the rehabilitation counseling profession. The course will introduce students to relevant aspects of rehabilitation history, philosophy, values and practice, with an emphasis on the operational aspects of the rehabilitation service delivery system. The course will examine current issues, community resources, services and the vocational rehabilitation process.

**COUN-434. Medical & Psychosocial Aspects Of Disability. 3 Hours.**

Involves study of medical information on a wide range of disabilities from systems perspective. The psychological, social and vocational implications of the experience of the various disorders will be integrated into the course. Medical terminology, medical specialty practices and health care systems providing diagnosis, treatment, restorative services, or therapy to individuals with disabilities will be discussed. The course, nature, etiology, effects and prognosis of physical, sensory, mental, neurological, developmental and other disability/disease processes will be covered. Case studies of system-related disabilities will be presented with emphasis on understanding the psychosocial, functional and vocational implications of disease, congenital and adventitious disability.

**COUN-435. Work & Disability. 3 Hours.**

This course involves both didactic and experiential modes of instruction enabling students to build competencies in the career development and job placement of persons with disabilities. Students will learn the procedures in developing effective job development and placement strategies and obtain knowledge of labor market trends, employment law, and vocational issues surrounding the acquisition and maintenance of competitive employment in today's society. Specific emphasis will be placed on the unique challenges faced by people from non-majority and traditionally underserved groups.

**Prerequisite:** COUN-433 with a minimum grade of C.

**COUN-436. Case Management In Rehabilitation Counseling. 3 Hours.**

The course is intended to be a capstone experience whereby the rehabilitation counselor-in-training applies principles, skills and knowledge to simulated case examples. Topics include: the goals and models of case management in rehabilitation; client/consumer interviewing and assessment; planning for appropriate and effective intervention strategies, services and benefits included in a rehabilitation plan; plan monitoring and evaluation; and job placement, closure and follow-up. Various models of case management will be presented with a primary focus on the State-Federal Vocational Rehabilitation model.

**Prerequisite:** COUN-433 with a minimum grade of C and COUN-434 with a minimum grade of C and COUN-435 with a minimum grade of C.

**COUN-437. Trauma-Focused Assessment And Integrative Counseling Interventions. 3 Hours.**

The purpose of this course is to advance the student's knowledge and skills in trauma-informed integrative approaches. The course covers commonly used trauma-informed counseling assessments and interventions with an emphasis on the integration of neuroscience. Students will learn the roles and responsibilities of helping professionals working with clients who have experienced trauma by examining the affective, neurobiological, developmental, cognitive, behavioral, and systemic issues that emerge from exposure to crisis and trauma.

**Prerequisite:** COUN-405 with a minimum grade of B and COUN-427 with a minimum grade of C.

**COUN-438. Trauma And Crisis Counseling. 3 Hours.**

This course provides the counseling student with an introduction to research, theory, and practices within the field of trauma and crisis diagnosis, assessment and intervention. The course will cover the historical evolution of the field; biopsychosocial underpinnings of trauma and trauma spectrum disorders; issues in diagnosis, assessment, and intervention from a culturally diverse and systemic framework; and a synthesis of best practices as they are currently evolving.

**Prerequisite:** COUN-405 with a minimum grade of B and COUN-427 with a minimum grade of C.

**COUN-439. Case Conceptualization & Treatment Planning. 3 Hours.**

This course will focus on using integrative conceptualization and counseling models and a basis for on-going assessment (clinical understanding of the client), diagnosis (identification and labeling of a problem), and treatment planning (interventions and strategies) to help clients make changes and improve their coping and resiliency. The course builds on the knowledge of theories of counseling (COUN-403) and diagnosis of mental disorders with the current, Diagnostic and Statistical Manual of Mental Disorders of the American Psychiatric Association (COUN-427).

**Prerequisite:** COUN-403 with a minimum grade of C and COUN-427 with a minimum grade of C.

**COUN-442. Practicum I: Group Supervision In School Counseling. 3 Hours.**

This course focuses on the integration of counseling skills and conceptual frameworks to create strategies to assist children in the areas of personal, social, education and career development. Clinical experiences in school counseling, in which these strategies are applied in supervised counseling sessions with individuals and groups, will be discussed in group supervision. This course contributes to the counseling proficiency component of the program, and is required of all students enrolled in the school counseling program.

**Prerequisite:** COUN-401 with a minimum grade of C and COUN-402 with a minimum grade of C and COUN-403 with a minimum grade of C and COUN-404 with a minimum grade of C and COUN-405 with a minimum grade of B and COUN-406 with a minimum grade of B and COUN-409 with a minimum grade of C and COUN-410 with a minimum grade of C and COUN-412 with a minimum grade of C and COUN-430 with a minimum grade of C.

**COUN-444. Practicum: Group Supervision In Clinical Mental Health Counseling. 3 Hours.**

This course focuses on group supervision of clinical experiences. Students receive weekly supervision from university supervisor and site supervisor, while practicing their skills in conducting intake, mental health assessment, diagnosis, case conceptualization, treatment planning, and mental health counseling. This course contributes to the counseling proficiency component of the program and is required of all students in the Clinical Mental Health Counseling program.

**Prerequisite:** COUN-403 with a minimum grade of C and COUN-404 with a minimum grade of C and COUN-401 with a minimum grade of C and COUN-402 with a minimum grade of C and COUN-405 with a minimum grade of B and COUN-406 with a minimum grade of B and COUN-407 with a minimum grade of B and COUN-409 with a minimum grade of C and COUN-420 with a minimum grade of C and COUN-427 with a minimum grade of C and COUN-430 with a minimum grade of C.

**COUN-445. Practicum I:Group Supervision In Couple And Family Counseling. 3 Hours.**

Practicum I focuses on group supervision of the clinical experiences as well as on assessment and planning procedures for counselors within the context of legal and ethical guidelines. A review of major theories and Couple/ Marriage & Family techniques are applied to case material generated from the field experience of Practicum I. This course contributes to the counseling proficiency component of the program and is required of all students in the family counseling program.

**Prerequisite:** COUN-401 with a minimum grade of C and COUN-402 with a minimum grade of C and COUN-403 with a minimum grade of C and COUN-404 with a minimum grade of C and COUN-405 with a minimum grade of B and COUN-406 with a minimum grade of B and COUN-409 with a minimum grade of C and COUN-415 with a minimum grade of C and COUN-420 with a minimum grade of C and COUN-421 with a minimum grade of B and COUN-427 with a minimum grade of C and COUN-430 with a minimum grade of C and COUN-432 with a minimum grade of C.

**COUN-446. Practicum In Rehabilitation Counseling. 3 Hours.**

Students will apply rehabilitation counseling knowledge and skills introduced in previous courses. The purpose of the course is to enhance basic rehabilitation counseling skills including interviewing, listening skills, assessment, documentation and case recording, referral and follow-up services. There will be periodic and direct communications throughout the semester between the site supervisor and the faculty through site visits, conference calls, electronic communications and either video-taping or audio-recording of individual counseling sessions between the student and client.

**Prerequisite:** COUN-402 with a minimum grade of C and COUN-403 with a minimum grade of C and COUN-404 with a minimum grade of C and COUN-405 with a minimum grade of B and COUN-406 with a minimum grade of B and COUN-409 with a minimum grade of C and COUN-433 with a minimum grade of C and COUN-434 with a minimum grade of C and COUN-435 with a minimum grade of C and COUN-436 with a minimum grade of C.

**COUN-462. Internship I:School Counseling. 3 Hours.**

This is the first of two supervised internship courses required for the school counseling program. The focus of the course is on the implementation of the role of the school counselor in school settings. Interns work under the supervision of a site supervisor and a university faculty person. The course will require the intern to complete 300 hours of field related activities and participate in an on-campus seminar every other week.

**Prerequisite:** COUN-442 with a minimum grade of B.

**COUN-463. Internship I:Rehabilitation Counseling. 3 Hours.**

Students will apply rehabilitation counseling knowledge and skills introduced in previous courses through classroom-based activities and supervision provided by university-based certified rehabilitation counselor. The purpose of the course is to enhance basic rehabilitation counseling skills through Socratic, individualized and group supervision including interviewing, listening skills, ethical/professional issues, case studies, community resource reports, assessment, documentation and case recording, referral and follow-up services in actual community-based settings serving persons with disability.

**Prerequisite:** COUN-446 with a minimum grade of B.

**COUN-464. Internship I: Clinical Mental Health Counseling. 3 Hours.**

The course focuses on group supervision of students in the Clinical Mental Health Counseling program during their internship experience. Students receive supervision from faculty supervisor and site supervisor while they master skills learned throughout their program by demonstrating effective counseling skills with actual clients in individual and group counseling sessions. Students are required to complete a minimum of 300-hours of supervised field-related experience such as intake, mental health assessment, diagnosis, case conceptualization, treatment planning, and mental health counseling.

**Prerequisite:** COUN-444 with a minimum grade of B.

**COUN-465. Internship I:Group Supervision In Couple And Family Counseling. 3 Hours.**

This is the first of the supervised internship courses required for the family counseling program. The focus of this course is on the implementation of the role of the family counselor in a community agency, family guidance clinic, community mental health center, hospital, substance abuse treatment program, aging center or court services setting. Interns will be working under the supervision of a site supervisor and a counselor education faculty person. The course will require the intern to complete 300 hours of field-related activities, including participation in an on-campus seminar every other week.

**Prerequisite:** COUN-445 with a minimum grade of B.

**COUN-466. Independent Study In Guidance And Personnel Work. 3 Hours.**

Intensive guided study in selected areas of guidance and personnel work. Consultation with instructor prior to registration is mandatory.

**COUN-468H. Seminar In Counseling:Student Personnel Work In Higher Education. 3 Hours.****COUN-469. Independent Study In Guidance And Personnel Work. 1 Hour.**

Intensive guided study in selected areas of guidance and personnel work. Consultation with instructor prior to registration is mandatory.

**COUN-470. Independent Study In Guidance And Personnel Work. 2 Hours.**

(See COUN-469 for description.).

**COUN-472. Internship II:School Counseling. 3 Hours.**

Second of two supervised internship courses required for the school counseling program. A continuation of COUN-462 focusing on the implementation of the role of the school counselor in school settings. Additionally, Illinois Professional Teaching Standard 6: Reading, Writing, and Oral Communication is addressed in the course. Interns work under the supervision of a site supervisor and a counselor education staff person. The course requires the interns to complete 300 hours of field-related activities and participate in an on-campus seminar every other week.

**Prerequisite:** COUN-442 with a minimum grade of C.

**COUN-473. Internship II: Rehabilitation Counseling. 3 Hours.**

Students will apply rehabilitation counseling knowledge and skills introduced in previous courses in a community-based, field experience. The purpose of the course is to further develop rehabilitation counseling skills including counseling interventions, intake interviewing and eligibility determination, assessment, rehabilitation plan development and construction, documentation and case recording, case management and follow-up services. There will be periodic and direct communications throughout the semester between the site supervisor and the faculty through site visits, conference calls, electronic communications and either videotaping or audiorecording of individual counseling sessions between the student and client.

**Prerequisite:** COUN-463 with a minimum grade of B.

**COUN-474. Internship II: Clinical Mental Health Counseling. 3 Hours.**

This course is a continuation of COUN-464 which further involves the intern in mastering individual and group counseling skills. Students are required to complete a minimum of 300-hours of supervised field-related experience such as intake, mental health assessment, diagnosis, case conceptualization, treatment planning, and mental health counseling.

**Prerequisite:** COUN-464 with a minimum grade of B.

**COUN-475. Internship II: Group Supervision In Couple And Family Counseling. 3 Hours.**

This course is a continuation of COUN-465 and further involves the intern in the implementation of the role of the family counselor in an approved internship placement. Interns will be working under the supervision of a site supervisor and a counselor education staff person. The course will require the intern to complete 300 hours of field related activities, including participation in an on-campus seminar every other week.

**Prerequisite:** COUN-465 with a minimum grade of B.

**COUN-476. Internship II: Rehabilitation Counseling. 3 Hours.**

Students will apply rehabilitation counseling knowledge and skills introduced in previous courses in a community-based, field experience. The purpose of the course is to further develop rehabilitation counseling skills including counseling interventions, intake interviewing and eligibility determination, assessment, rehabilitation plan development and construction, documentation and case recording, case management and follow-up services. There will be periodic and direct communications throughout the semester between the site supervisor and the faculty through site visits, conference calls, electronic communications and either videotaping or audiorecording of individual counseling sessions between the student and client.

**Prerequisite:** COUN-466 with a minimum grade of B.

**COUN-477. Current Issues: Marriage And Family Therapy. 1 Hour.**

Presents detailed treatment of selected issues and concerns in Marriage and Family Therapy. Consult the Schedule of Classes for current offerings. Prospective topics will include the Theory and Treatment of Sexual Dysfunction, Treating the Sexually Abusive Family, and Divorce Mediation.

**COUN-478. Advanced Counseling. 3 Hours.**

The purpose of this course is to provide the counselor education students with advanced practice in individual counseling. Students will serve as graduate mentors to those who are taking COUN-405 Individual Counseling Skills. The students in this course will assist the instructor in demonstrations of proper counseling skills, in supervision of counseling sessions held in the counselor education laboratory, and in giving feedback to students in COUN-405.

**Prerequisite:** COUN-405 with a minimum grade of C.

**COUN-479. Supervision: Marriage And Family Therapy. 3 Hours.****COUN-490. Thesis Research. 3 Hours.**

This course includes the preparation and submission of a master of arts thesis under the supervision of a faculty committee. Thesis topics will reflect students' interest in a variety of counseling areas. Theses may be based on quantitative and/or qualitative methodologies.

**Prerequisite:** COUN-408 with a minimum grade of C.

**COUN-499. Clinical Supervision. 3 Hours.**

This course will examine clinical supervision theory and techniques currently used in counseling and psychotherapy and introduce students to supervision as a specialty. Focusing on developmental issues of both supervisors and clinicians, this course will study methods that can be used to enhance counselor competency and issues related to supervising multiple counseling models. Students are expected to be supervising already, as a group and individual supervision-of supervision will be a component of the class.

**COUN-5901. Thesis Research. 1 Hour.**

This course includes the preparation and submission of a Master of Arts thesis under the supervision of a faculty committee. Thesis topics will reflect students' interest in a variety of counseling areas. Theses may be based on quantitative and/or qualitative methodologies. Students will enroll in a total of 3 credits of thesis hours over one or more semesters while working on the thesis.

**Requirement:** consent of Department or Instructor

**Prerequisite:** COUN-403 with a minimum grade of C and COUN-404 with a minimum grade of C and COUN-408 with a minimum grade of C.

**COUN-5902. Thesis Research. 2 Hours.**

This course includes the preparation and submission of a Master of Arts thesis under the supervision of a faculty committee. Thesis topics will reflect students' interest in a variety of counseling areas. Theses may be based on quantitative and/or qualitative methodologies. Students will enroll in a total of 3 credits of thesis hours over one or more semesters while working on the thesis.

**Requirement:** consent of Department or Instructor

**Prerequisite:** COUN-403 with a minimum grade of C and COUN-404 with a minimum grade of C and COUN-408 with a minimum grade of C.

**COUN-5903. Thesis Research. 3 Hours.**

This course includes the preparation and submission of a Master of Arts thesis under the supervision of a faculty committee. Thesis topics will reflect students' interest in a variety of counseling areas. Theses may be based on quantitative and/or qualitative methodologies. Students will enroll in a total of 3 credits of thesis hours over one or more semesters while working on the thesis.

**Requirement:** consent of Department or Instructor

**Prerequisite:** COUN-403 with a minimum grade of C and COUN-404 with a minimum grade of C and COUN-408 with a minimum grade of C.

# Curriculum K-12 (CURR)

---

## Courses

### **CURR-417. Learning Through The Arts. 3 Hours.**

This K-12 course develops an in-depth understanding of the use of creative arts in the classroom. Study, discussion and hands-on application and use of the arts in the classroom is addressed through structured participation in creative drama activity, integrating movement (dance), music and vocal expression through creative playmaking, improvisation, role-play and guided imagery. Emphasis is placed on the application and integration of arts education methodology, including the "reading of pictures" formulating an understanding of art aesthetics and methodology relating to exploration of pedagogical research and relationships to thinking, listening, speaking, reading, writing, viewing and visually representing competencies.

### **CURR-430. Trends & Issues In Assessment K-12. 3 Hours.**

Reviews principles of educational testing and evaluation. Explores trends and critical issues in assessment with emphasis on the teacher's role in relating assessment to instruction. Provides opportunities for inservice and preservice teachers to study assessment strategies and issues specific to the level (early childhood, elementary, or secondary), linguistic-cultural background, and subject-matter area of their teaching or internship assignment.

### **CURR-450. Teaching For Critical Literacy. 3 Hours.**

The purpose of this course is to develop an understanding of the theories and methodologies of critical pedagogy and critical literacy. This includes the basic history of critical pedagogy; and examination of our own literacies, school experiences, cultures, and perspectives; exploring issues of culture and race, economic class, gender, sexual orientation, media literacy, and ecological literacy in society, schooling, and curriculum; the purposes of critical literacy in the development of the self, community, society, and world; and the creation of curriculum to teach for critical literacy, including using children's and young adult literature.

### **CURR-451. Classroom Organization & Management. 3 Hours.**

This course explores methods and strategies through theoretical, practical and case study methods, which are employed by teachers to organize their classrooms, manage their instruction and create effective learning environments. These strategies are also applicable to student behavior and management techniques for utilization in the classroom to further develop and maintain a learning-conducive environment. The emphasis is to develop teacher practices that encourage and cultivate good behavior within learning communities. This course encourages teachers to develop a personal, eclectic understanding of classroom management techniques.

### **CURR-501. Research-Based Curriculum & Instruction In A Multicultural Society. 3 Hours.**

This course focuses on the contributions of researchers and learning theorists to the planning and implementation of curriculum for multicultural classrooms. Areas explored include uses of educational research and data, implications of learning theory in curriculum design, development of instructional methods, use of learning resources, and the importance of reflective decision-making. The course is designed for the classroom teacher who focuses on connecting theory, research and practice.

### **CURR-502. Teaching In Diverse Classrooms. 3 Hours.**

This course provides an examination of the theoretical background and implications of planning and delivering instruction to diverse learners, as well as instruction in practical strategies that can be applied in classroom settings. Topics of study include the following: cultural, linguistic, personal, and academic diversities in today's schools; different grouping structures; implications of the standards movement for curriculum differentiation, classroom workshop models and their implementation; engaging student inquiry; selecting and managing multiple texts in one classroom, assessment issues as related to differentiated instruction and response to intervention.

**Prerequisite:** CURR-501 with a minimum grade of C and (READ-416 with a minimum grade of C or READ-410 with a minimum grade of C or READ-417 with a minimum grade of C).

### **CURR-503. Research Methodologies For Classroom Teachers. 3 Hours.**

This course focuses on preparing candidates with the tools, skills and procedures required to enter the professional discourse as teacher action researchers. Basic research methodologies will be explored including quantitative, qualitative, ethnographic, and action research. Candidates will demonstrate their working knowledge of an instructional practice or instructional issue through the development of an action research proposal that will foster constructive decision making for ongoing examination of practice and curriculum building.

**Prerequisite:** CURR-501 with a minimum grade of C.

### **CURR-504. Action Research Project Seminar. 1 Hour.**

This seminar course involves implementing an action research project in a school setting based on a project proposal developed in CURR-503 Research Methodologies for Classroom Teachers. As a result, candidates will collect, analyze and report data that will foster constructive decision-making for continued curriculum building and instructional effectiveness.

**Prerequisite:** CURR-501 with a minimum grade of C and CURR-503 with a minimum grade of C.

### **CURR-505. Reflective Professionals Building Learning Communities. 3 Hours.**

This course focuses on understanding the teacher as change agent. Perspectives on leadership and the change process are explored. The facilitation, management, assessment, and context of change are viewed from a planning perspective. Conflict resolution within the change process is explored. The orientation to change focuses on building a multicultural community of learners: Educational professionals within the school, parents, and all community stakeholders. Teaching and learning is viewed from the perspective of group work, collaboration, and team building in classrooms and the school community. Issues of equity and empowerment provide a framework for the course.

**Prerequisite:** CURR-501 with a minimum grade of C.

**CURR-506. Theories Of Teaching, Learning & Best Practices. 3 Hours.**

This course provides teacher leaders an in-depth study of educational research and theories that focus on the improvement of academic achievement of all students and particularly students at risk of academic failure through analyses of student work, assessment data, cognitive peer coaching (teachers coaching teachers), differentiated instruction, positive response to intervention systems, and appropriate instructional interventions. Teacher leaders work with professional partners in classrooms to improve the academic achievement of students and groups of students using best practices and effective intervention plans. Analysis of progress of teaching and learning will be on-going throughout the course.

**Prerequisite:** CURR-501 with a minimum grade of C.

**CURR-507. Human Relations, Leadership, & Curriculum Development. 3 Hours.**

This course focuses on the analysis of interpersonal relationships, communication, group interaction, and leadership in the implementation, evaluation, and revision of appropriate curriculum for specific groups of culturally and linguistically diverse children. Teacher leaders reflect on human relations, interpersonal communication, leadership styles, collaborative group practices, organizational dynamics, and the transformative nature of school improvement initiatives. Teacher leaders comprehend how these interactions impact curriculum development, instruction and student learning. Teacher leaders analyze strategies for problem-solving and improving communication among all stakeholders. Teacher leaders utilize the effective, data driven strategies for improving educational environments for P-12 students.

**Prerequisite:** CURR-501 with a minimum grade of C.

# Dance (DANC)

---

## Courses

### **DANC-101. The Dance Experience: Introduction To The Art Of Dance. 3 Hours.**

A non-technical introduction to the art of dance designed to enhance appreciation of styles, tradition, history, choreography, aesthetics and personalities. Lectures, films, discussion and participatory classes.

### **DANC-109. First Year Experience: Steppin' Out: Dance In Chicago. 3 Hours.**

A course designed to increase the student's awareness, understanding and enjoyment of a variety of styles of aesthetic/theatrical dance. The course incorporates both movement and non-movement based approaches to learning about dance as an art form, and will focus on learning about ballet, modern, jazz and ethnic dance through lectures, discussions, films, the attendance of outside performances, and written assignments. In this course, the five foundations of the First-Year Experience (Future Planning, Integral Preparation, Research, Self-discovery and Transitions) are interwoven with the field specific concepts in dance.

### **DANC-131. Introduction To Spanish Dance. 3 Hours.**

This course is an introduction to the three styles of Spanish dance: Classical, Regional and Flamenco with emphasis on basic technique, and on Spain's varied music from the 13th through 21st centuries.

### **DANC-161. Spanish Dance I. 2 Hours.**

This course is open to beginning students as a continuation of DANC-131 with an emphasis on the mastery of four important repertory styles and their dances: Classical, Regional, Flamenco, and Escuela Bolera. The course is repeatable up to 3 times for credit towards graduation.

**Prerequisite:** DANC-131 with a minimum grade of C.

### **DANC-203U. Field Experiences:Dance In Chicago I. 3 Hours.**

Field experience in studios or schools. Detailed information is available in the departmental office.

### **DANC-203V. Field Experiences:Dance In Chicago II. 3 Hours.**

Advanced field experience in studios or schools. Detailed information is available in the departmental office.

### **DANC-203W. Field Experiences:Hispanic Dance I. 3 Hours.**

Hispanic dance field experience in studios or schools. Detailed information is available in the departmental office.

### **DANC-204. Dance Performance Ensemble. 2 Hours.**

This course is open to enrolled students with beginning to intermediate skills in dance technique (ballet, modern, jazz or combination). The course is repeatable up to 3 times for credit towards graduation.

### **DANC-251. Modern Dance I. 2 Hours.**

This course is open to beginning students as an introduction to the fundamental theories and techniques of modern dance. It is an exploration of movement as an art form, emphasizing body alignment, strength, flexibility and musicality. The course is repeatable up to 3 times for credit towards graduation.

### **DANC-254. Modern Dance II. 2 Hours.**

This course is open to intermediate students as a continuation of concepts explored in DANC-251. The course emphasizes coordination, balance, locomotor phrases, and improvisation. The course is repeatable up to 3 times for credit towards graduation.

**Prerequisite:** DANC-251 with a minimum grade of C.

### **DANC-255. Jazz Dance I. 2 Hours.**

This course is open to beginning students as an introduction to fundamental techniques of jazz dance. The course emphasizes musicality, posture and coordination through theatrical and classical styles. The course is repeatable up to 3 times for credit towards graduation.

### **DANC-256. Ballet I. 2 Hours.**

This course is open to beginning students as an introduction to fundamental ballet concepts, movement vocabulary and basic terminology. The course emphasizes body alignment, coordination, strength and flexibility. The course is repeatable up to 3 times for credit towards graduation.

### **DANC-261. Spanish Dance II. 2 Hours.**

This course is open to intermediate students as a continuation of concepts explored in DANC-161. Students will further explore the Classical, Regional, Flamenco, and Escuela Bolera styles with an emphasis on mastery of technique, music, and theatrical history. The course is repeatable up to 3 times for credit towards graduation.

**Prerequisite:** DANC-161 with a minimum grade of C.

### **DANC-351. Modern Dance III. 3 Hours.**

This course is open to advanced students as a continuation of concepts explored in DANC-254 utilizing elements of Graham, Limon and Cunningham Techniques. The course emphasizes movement quality, efficiency, power, and performance skills through varied styles of progressions and center work. The course is repeatable up to 3 times for credit towards graduation.

**Prerequisite:** DANC-254 with a minimum grade of C.

**DANC-355. Jazz Dance II. 2 Hours.**

This course is open to intermediate students as a continuation of jazz dance techniques explored in DANC-255. Students will gain a greater understanding and expression of more refined classical, theatrical, and street techniques with increasing agility, coordination, flexibility, and stylized combinations. The course is repeatable up to 3 times for credit towards graduation.

**Prerequisite:** DANC-255 with a minimum grade of C.

**DANC-356. Ballet II. 2 Hours.**

This course is open to intermediate students as a continuation of ballet techniques, movement vocabulary and terminology explored in DANC-256. The course emphasizes control, speed, coordination, balance, and ballet combinations through adagio, allegro, and center work. The course is repeatable up to 3 times for credit towards graduation.

**Prerequisite:** DANC-256 with a minimum grade of C.

**DANC-357. Ballet III. 2 Hours.**

This course is open to advanced students as a continuation of the ballet techniques, movement vocabulary and terminology explored in DANC-356. Students will learn greater development of speed, coordination, balance, movement quality and performance skills through adagio, allegro, and center work. The course is repeatable up to 3 times for credit towards graduation.

**Prerequisite:** DANC-356 with a minimum grade of C.

**DANC-360. Dance Composition. 3 Hours.**

This course addresses practical aspects of dance creation and design as well as theoretical aspects of dance as an art and form of communication. The creation of choreographic studies is required. The course is repeatable up to 2 times for credit towards graduation.

**Prerequisite:** DANC-204 with a minimum grade of C or DANC-261 with a minimum grade of C or DANC-390B with a minimum grade of C or DANC-390D with a minimum grade of C or DANC-390E with a minimum grade of C.

**DANC-365. Dance Production. 3 Hours.**

This course covers the practical aspects of production principles including budgets, timelines, marketing, costuming, make-up and lighting for dance.

**DANC-370. Musical Resources For Dance. 3 Hours.**

Music sources of particular interest to the dancer and choreographer from primitivism to trends in new music. Students develop research techniques and resource files in major areas: jazz, ballet, modern and world music forms, new music, etc.

**DANC-371. Theory And Philosophy Of Dance And The Related Arts. 3 Hours.**

The nature of dance and its historical interrelatedness with other art forms: poetry, drama (opera), painting and music; the role of the critic.

**DANC-380. Contemporary Dance Education. 3 Hours.**

This courses addresses the practical aspects of the theory and application of educational methods to the field of dance in various settings, such as conservatory, community and age-specific interest groups.

**DANC-382. Dance Management And Grantsmanship. 3 Hours.**

**DANC-390B. Seminar In Dance Performance: Jazz Dance. 3 Hours.**

This course is open to advanced students as a continuation of jazz techniques and styles explored in DANC-355. This course provides students with practical experience in the area of Jazz dance technique, movement development and expressive movement performance while integrating and maintaining correction. The course is repeatable up to 3 times for credit towards graduation.

**Prerequisite:** DANC-355 with a minimum grade of C.

**DANC-390D. Seminar In Dance Performance: Spanish Dance. 3 Hours.**

This course is open to advanced students as a continuation of DANC-261. This course provides students with practical experience via the study and rehearsal of Spanish dance technique, styles, choreographic works and history. Students will focus on the professional expectations of the field through regular class instruction, performance, lectures and films. The course is repeatable up to 3 times for credit towards graduation.

**Prerequisite:** DANC-261 with a minimum grade of C.

**DANC-390E. Seminar In Dance Performance: Styles. 3 Hours.**

This course is designed to provide students with practical experience in the areas of dance technique, movement development, and expressive movement performance. The goal of the course is to provide students with the opportunity to improve their ability to integrate and maintain correction in the areas of technique and movement development. Course is repeatable up to 3 times for credit towards graduation.

**Prerequisite:** DANC-204 with a minimum grade of C or DANC-254 with a minimum grade of C or DANC-261 with a minimum grade of C or DANC-355 with a minimum grade of C or DANC-356 with a minimum grade of C or DANC-357 with a minimum grade of C.

**DANC-391. Internship In Dance. 3 Hours.**

Practicum in art agencies, dance companies, community organizations or arts-related industries designed by the student, a dance faculty advisor and generally an off-campus agent.

# Early Childhood-Bilingual (ECBL)

## Courses

ECBL-301. Curriculum And Instruction In Early Childhood Education. 4 Hours.

ECBL-306. Methods Of Teaching Reading In Early Childhood. 3 Hours.

ECBL-328I. Clinical Experiences In Early Childhood/Infants And Toddlers. 1 Hour.

ECBL-328M. Clinical Experiences In Early Childhood Educ/Kindergarten & Primary Grades/Multicultural Emphasis. 1 Hour.

ECBL-328T. Clinical Experiences In Early Childhood Educ:Preschool-Kindergarten & Primary/Technology Emphasis. 1 Hour.

ECBL-329. Student Teaching In Early Childhood. 9 Hours.

ECBL-352. Methods Of Teaching Language Arts, Music And Art In Early Childhood. 3 Hours.

# Early Childhood Education (ECED)

---

## Courses

### **ECED-301. Curriculum And Instruction In Early Childhood Education. 3 Hours.**

In this course, candidates learn to create developmentally appropriate lesson plans and implementation strategies for infants and toddlers (ages 0-3), preschool and kindergarten (ages 4-5), and primary grade children (ages 6-8). Appropriate classroom layouts, curricular materials, activities, learning centers, educational play, individualization of instruction, child guidance and classroom management techniques for each age range are discussed. Lesson plans created for infant/toddler, preschool and the primary grades are implemented within the course.

**Prerequisite:** EDFN-302 with a minimum grade of C and EDFN-303 with a minimum grade of C.

### **ECED-306. Methods Of Teaching Reading In Early Childhood. 3 Hours.**

This course presents methods, techniques, materials and assessments for early literacy instruction. It examines the nature of the literacy processes (listening, speaking, reading, writing, viewing and visual representation), literacy development in the typically developing child, and the child with special needs. Attention is given to the five major areas of literacy instruction (phonological awareness, phonics, fluency, vocabulary and comprehension). Candidates learn how to use authentic assessment data to monitor children's progress and create flexible groupings for instructional purposes. They also learn strategies to differentiate instruction and support struggling and advanced readers. The course is integrated with technology.

**Prerequisite:** EDFN-302 with a minimum grade of C and EDFN-303 with a minimum grade of C.

### **ECED-313. Writing Intensive Program: Language Development And Educational Implications. 3 Hours.**

This Writing Intensive Program (WIP) course is a study of young children's language development, communication theory and analysis of the five aspects of language knowledge-phonemes, semantics, syntax, morphemes and pragmatics. Major language acquisition theories, basic language development inventories and research on early brain development with regard to language growth are studied. Culture, gender, and socio-economic differences as well as the function of the home language in young children's development are discussed in relation to their effect on communication in the classroom. Developmentally appropriate screening tools, observation methods and language assessment approaches, are examined.

**Prerequisite:** ENGL-101 with a minimum grade of C and EDFN-302 with a minimum grade of C and EDFN-303 with a minimum grade of C.

### **ECED-316. Child, Family And Community. 3 Hours.**

This course focuses on how to build trusting relationships with families and engage them in the education of their children. It examines various models of family involvement, advocacy and strategies for utilizing families' funds of knowledge, assets and resources that they bring to the school. Candidates create home learning activities that support families in engaging their children and locate, classify and catalogue community resources and programs that support children and families. Community health appraisal procedures are evaluated and emphasis is placed on building a culturally responsive classroom environment that fosters family, school and community cooperation.

**Prerequisite:** EDFN-302 with a minimum grade of C and EDFN-303 with a minimum grade of C.

### **ECED-325. Children's Literature Across The Curriculum. 3 Hours.**

Methods, strategies and materials are presented for integrating children's literature across the curriculum in the early grades. Instruction focuses on how to choose books that are developmentally appropriate for children birth through 3rd grade, and how to provide them with enjoyable reading experiences of both fiction and non-fiction. Emphasis is on developing critical thinking skills and generating understanding in children through in-depth exploration of literary element in different genres. Text analysis is guided by reader response theory, which emphasizes the reading transaction balance between the reader, the text and the context. Focus is placed on non-fiction and various text structures.

**Requirement:** minimum cumulative GPA of 2.75 in professional courses is required

**Prerequisite:** EDFN-302 with a minimum grade of C and EDFN-303 with a minimum grade of C and ECED-301 with a minimum grade of C and ECED-306 with a minimum grade of C and ECED-313 with a minimum grade of C and ECED-316 with a minimum grade of C and ECED-338 with a minimum grade of C and ECED-355 with a minimum grade of C and ECED-327A with a minimum grade of B and BLBC-340 with a minimum grade of C.

### **ECED-327A. Clinical Experiences In Early Childhood Education: Infant To Preschool. 3 Hours.**

This 100-hour clinical provides a supervised field experience that allows candidates to be integrated into a classroom environment with children from age 0 to 4 under the guidance of a Cooperating Teacher and a University Supervisor. The course unites the theoretical concepts, methods, developmental milestones, and strategies including the basic principles and practices of personal, interpersonal and community health and safety. It emphasizes integrated language and literacy activities that encourage intellectual curiosity using interdisciplinary approaches in multi-ethnic classrooms. The supervised, field experiences are integrated with conferences and weekly classes. A grade of B or better is required to pass the course.

**Requirement:** minimum cumulative GPA of 2.75 in professional courses is required

**Prerequisite:** EDFN-302 with a minimum grade of C and EDFN-303 with a minimum grade of C and ECED-301 with a minimum grade of C and ECED-306 with a minimum grade of C and ECED-313 with a minimum grade of C and ECED-316 with a minimum grade of C.

**ECED-327B. Clinical Experiences In Early Childhood Education: Kindergarten To 2nd Grade. 3 Hours.**

This 100-hour clinical provides opportunity to interact with children in kindergarten, first, or second grade in school settings. Candidates will use interdisciplinary approaches to plan integrated language and literacy as well as Science, Technology, Engineering, Art and Math (STEAM) activities that encourage intellectual curiosity in multi-cultural classrooms. Emphasis is on differentiated instruction for all students. The supervised field experience is integrated with individual conferences and require weekly 3-hour class meetings throughout the semester. A grade of B or better is required to pass the course.

**Requirement:** a minimum cumulative GPA of 2.75 in professional courses

**Prerequisite:** EDFN-302 with a minimum grade of C and EDFN-303 with a minimum grade of C and ECED-301 with a minimum grade of C and ECED-313 with a minimum grade of C and ECED-316 with a minimum grade of C and ECED-306 with a minimum grade of C and ECED-338 with a minimum grade of C and ECED-355 with a minimum grade of C and ECED-327A with a minimum grade of B and BLBC-340 with a minimum grade of C.

**ECED-329. Student Teaching In Early Childhood. 9,12 Hours.**

Student Teaching is the culminating experience of the teacher education program. Teacher candidates spend 16 weeks of full-time teaching in a Preschool, Kindergarten or Primary setting under the supervision of a licensed Cooperating Teacher and a University Supervisor. Teacher candidates apply theory to practice, referencing research-based topics including developmentally appropriate practice and integrating developmental domains into all curriculum areas. Teacher candidates reflect on their professional growth in planning, implementing, assessing and differentiating instruction to address individual strengths and needs and on using authentic assessment data to plan instruction. A minimum cumulative GPA of 2.75 in professional courses is required.

**Requirement:** Successful completion of all Block 4 courses and PASS Illinois Content Area Test

**Prerequisite:** ECED-327A with a minimum grade of B and ECED-327B with a minimum grade of B.

**ECED-329B. Student Teaching In Early Childhood. 6 Hours.**

Student Teaching is the culminating experience of the teacher education program. Teacher candidates spend 16 weeks of full-time teaching in a Preschool, Kindergarten or Primary setting under the supervision of a licensed Cooperating Teacher and a University Supervisor. Teacher candidates apply theory to practice, referencing research-based topics including developmentally appropriate practice and integrating developmental domains into all curriculum areas. Teacher candidates reflect on their professional growth in planning, implementing, assessing and differentiating instruction to address individual strengths and needs and on using authentic assessment data to plan instruction. A minimum cumulative GPA of 2.75 in professional courses is required.

**ECED-338. Developmental Assessment Of Young Children. 3 Hours.**

This course presents approaches, strategies, and tools for authentically assessing young children's development and learning from birth through second grade. Emphasis is on physical, socio-emotional, and mental/cognitive growth. Teacher candidates study varieties of academic achievement and screening tools to monitor children's progress in content-area benchmarks and developmental outcomes. Assessment is presented as an ongoing, informal practice that monitors children's interests, motivation and engagement in instruction, as well as the collection, organization and aggregation of data for communicating academic progress to stakeholders. Candidates discuss family involvement in assessing children's development and learning and how to create positive, high quality learning environments.

**Requirement:** minimum cumulative GPA of 2.75 in the professional sequence

**Prerequisite:** EDFN-302 with a minimum grade of C and EDFN-303 with a minimum grade of C and ECED-301 with a minimum grade of C and ECED-306 with a minimum grade of C and ECED-313 with a minimum grade of C and ECED-316 with a minimum grade of C.

**ECED-352. Methods Of Teaching Language Arts, Music And Art In Early Childhood. 3 Hours.**

In this interdisciplinary course, ECED candidates learn how to facilitate and support language development and children's creative expressions within the aesthetic domain through a variety of sensory experiences including art, drama, music, dance, and a variety of fine and gross motor movement activities. Candidates explore approaches to teaching art, and discuss methods and materials for supporting culturally responsive artistic expressions in young children. Candidates examine cultural dimensions of the visual arts, as well as the interrelations of visual arts and other forms of art, including drama, music, dance and movement. Candidates analyze technological tools for creating works of art.

**Requirement:** Minimum GPA of 2.75 in the professional sequence

**Prerequisite:** EDFN-302 with a minimum grade of C and EDFN-303 with a minimum grade of C and ECED-301 with a minimum grade of C and ECED-306 with a minimum grade of C and ECED-313 with a minimum grade of C and ECED-316 with a minimum grade of C and ECED-338 with a minimum grade of C and ECED-355 with a minimum grade of C and BLBC-340 with a minimum grade of C and ECED-327A with a minimum grade of B.

**ECED-355. Methods Of Teaching Mathematics, Science And Social Science In Early Childhood. 3 Hours.**

This course explores methods and materials for teaching mathematics, science, and social science to young children in multicultural classrooms. ECED candidates explore major concepts and interdisciplinary approaches to learning, including connections to language and literacy. ECED candidates learn to teach U.S. history, world economic systems, and how to summarize and use data in Social Science with the integration of technology. Candidates study children's mathematical development, increase pedagogical knowledge and math proficiency. Science methods and principles include active exploration and experimentation within everyday environments. Emphasis is on preschool, kindergarten and primary grades. Classroom-management techniques conducive to successful individual and group lessons are discussed.

**Requirement:** minimum cumulative GPA of 2.75 in the professional sequence

**Prerequisite:** EDFN-302 with a minimum grade of C and EDFN-303 with a minimum grade of C and ECED-301 with a minimum grade of C and ECED-306 with a minimum grade of C and ECED-313 with a minimum grade of C and ECED-316 with a minimum grade of C.

**ECED-375. Capstone Experience In Early Childhood Studies. 6 Hours.**

The capstone provides students the opportunity to participate in high-level inquiry in an area of specialization within the field of early childhood. Capstone projects will be applied experiences that are inquiry-based and will bridge theory and practice. The capstone aligns student interests and needs within the early childhood field including, original research projects, literature reviews, program development and evaluation, and curriculum development and assessment. The capstone may also build on prior field experiences as appropriate. The capstone supervision and associated course will support students in the creation of their capstone project and provide opportunities for reflective practice.

**Requirement:** Minimum grade of C in not more than two courses completed in the Early Childhood Studies program. A minimum cumulative GPA of 2.5 in professional courses is required.

**ECED-403. Early Childhood Assessment. 3 Hours.**

Focuses upon the use and development of evaluation instruments for collecting information about young children. Instruments used will focus on individuality of the child and his unique growth trends and patterns of developmental needs. The materials studied will help the teacher to identify where the child is developmentally and to use instruments and techniques to evolve ways to help the individual child grow.

**Prerequisite:** PSYC-212 with a minimum grade of C and SPED-303 with a minimum grade of C.

**ECED-408. Language Acquisition And Intervention Strategies For Teachers Of Young Children. 3 Hours.**

Focuses upon the acquisition of language as the young child develops syntactic, semantic and pragmatic understanding. Differing viewpoints of language learning and cognitive interaction are presented. Techniques for both language assessment and intervention by the teacher of the young child are discussed. Reviews recent research and its applicability to assist the preschool teacher in facilitating language learning and evaluating existing language programs for using language as a tool of communication.

**Prerequisite:** (ECED-313 with a minimum grade of D or CIEC-313 with a minimum grade of D) and PSYC-215 with a minimum grade of C.

**ECED-411A. Clinical Experiences In Early Childhood Education: Infant To Preschool. 3 Hours.**

This 100-hour clinical provides a supervised field experience that allows candidates to be integrated into a classroom environment with children from age 0 to 4 years under the guidance of a Cooperating Teacher and a University Supervisor. The course unites the theoretical concepts, methods, developmental milestones, and strategies including the use of assessment tools, learning technologies, and practices of personal, interpersonal and community health and safety. It also emphasizes integrated language and literacy activities that encourage intellectual curiosity using interdisciplinary approaches in multi-ethnic classrooms. The supervised, field experiences are integrated with conferences, and weekly seminars. A grade of B or better is required to pass the course.

**Requirement:** acceptance to master's degree candidacy and 15 credit hours in core courses (ECED-402, ECED-410, ECED-452, LTCY-501, and ECED-408).

**ECED-502. Theories, Philosophies And Technologies Informing Early Childhood Education And Assessment. 3 Hours.**

This course reviews early philosophies, developmental theories and current technologies that inform/influence the understanding of young children's development, learning and assessment. Classroom implications are discussed, highlighting constructivist theories, approaches, strategies and techniques for effective instruction to meet individual needs of diverse groups of young children. Candidates are introduced to key concepts about how to assess children's development and learning through the observation method, play-based and other assessment techniques, and using assessment to inform instruction. Technological tools that promote children's development and learning as well as those used in collecting and organizing assessment information are discussed.

**ECED-503. Early Childhood Curriculum And Assessment. 3 Hours.**
