This course studies the implications of research and learning theories on developing curriculum and assessment techniques for young children. Students investigate strategies for planning, teaching, using appropriate technologies, assessing, and evaluating young children's learning to promote physical, cognitive and social-emotional development. Teaching techniques for small-group, large-group and individual children are explored through observing and analyzing classroom interaction through major program models. Basic concepts in measurement are applied to select/develop and/or use assessment tools that yield reliable and valid data to inform instruction. Students discuss community resources, use of learning technologies, learner diversity and parent-teacher relationships to enrich children's learning.

**ECED-504. Early Language Acquisition, Assessment, And School-Family Intervention Strategies. 3 Hours.**

This course focuses on acquisition of language as young children develop phonemic, semantic, syntactic, morphemic and pragmatic understanding through receptive and expressive interaction with parents/caregivers. Based on brain research, the first three years of age are emphasized as critical time period for developing language. Parents'/caregivers' active involvement in children's verbal and nonverbal early language development, assessment and technology use are discussed. Students explore teaching and assessment techniques for preschool and school age children's development of language as a tool for communication and learning. Research on multiple languages and programs is discussed alongside cultural and linguistic diversity of families and classrooms.

**ECED-505. Technology Integrated Practice In ECED: Methods Of Teaching/Assessing Language Arts, Music, And Art. 3 Hours.**

This course explores advanced knowledge of the theoretical foundations, concepts, current research and methods of teaching and assessing language arts, music, drama and visual arts in Early Childhood. Students will learn how to facilitate language and literacy development and support culturally responsive artistic expression in young children through a variety of sensory experiences including art, drama, music, dance, and movement activities. Candidates will also analyze technological tools and develop appropriate assessments for creating, using and evaluating works of art.

**ECED-506. Methods Of Teaching STEAM And Assessing Learning In Early Childhood. 3 Hours.**

This course is designed to help students learn to teach Science, Technology, Engineering, Art and Math (STEAM) and Social Studies to preschool and primary school children and assess their learning. Students explore major concepts and approaches in all six areas and learn to plan and implement thematic units integrating content from all areas, and present it meaningfully to children. Students learn to develop and utilize a variety of assessment strategies and tools. Students also learn classroom management strategies and use of children's diversity as a resource for effective learning.

**Corequisite:** ECED-527B.

**ECED-507. Research Seminar In Early Childhood Education. 3 Hours.**

This capstone course presents fundamental concepts of systematic inquiry and assessment of learning in early childhood education. Various experimental designs and descriptive approaches to research are explored. Focusing on action research, students select research problems, develop and evaluate hypotheses/research questions, collect, organize and analyze data, and summarize findings to inform practice. Techniques for writing research proposals and reports are studied. Students examine strategies for maximizing reliability and validity of research and assessment processes to yield usable results. Students examine current technological tools to ease data organization, analysis and interpretation of findings. This capstone course requires a supervised research project.

**Prerequisite:** ECED-502 with a minimum grade of C and ECED-503 with a minimum grade of C and ECED-504 with a minimum grade of C and ECED-505 with a minimum grade of C and ECED-506 with a minimum grade of C and ECED-527A with a minimum grade of C and ECED-527B with a minimum grade of C and SPED-404 with a minimum grade of C and BLBC-440 with a minimum grade of C and LTCY-501 with a minimum grade of C.

**ECED-510. Early Acquisition & Maintenance Of Multiple Languages. 3 Hours.**

Students will study acquisition of multiple languages at an early age (by age 8), and analyze sociolinguistic factors that help maintain multiple languages throughout early childhood and beyond. Students will view and discuss language modules developed from brain research and relate them to individual experiences of early acquisition of multiple languages after interviewing individuals who grew up with two or more languages from early childhood and observing young children (0-8 years) who have been exposed to more than one language in their natural settings. Students will explore their personal philosophies of educating young children in multilingual classrooms.

**ECED-511. Evaluation & Use Of Research In Early Childhood Education. 3 Hours.**

This course introduces students to evaluating and using research in early childhood education, especially research on early brain development. Employing principles of systematic inquiry and fundamentals of early development and learning, students examine different kinds of research processes and reports to determine application within contexts of working with young children. In particular, students will analyze research reports on early development of the brain, and devise practical and contextually beneficial ways to utilize the research finding to enhance children's development and learning. Students will develop and use research-based, culturally and linguistically sensitive strategies to enrich children's experiences.

**ECED-512. Global Perspectives In Early Childhood Education. 3 Hours.**

Students will study, compare and contrast early childhood education policies, programs and practices in selected countries for the purpose of broadening and deepening knowledge about global education systems and how they interrelate. Students will create profiles of early education practices and the circumstances determining those practices. Electronic contacts will be created between NEIU students and students in other countries (preferably NEIU partnership schools) in order to provide opportunities for students to interact with teacher education candidates in other countries. Students will continue developing their personal philosophies of effective education for young children within multicultural and global contexts.

**ECED-527A. Clinical Experiences In Early Childhood Education - Infant To Preschool. 1.5 Hour.**

This 80-hour clinical provides two supervised field placements that allow candidates to be integrated into a classroom with children ages 0-2 (30 hours) and ages 3-4 years (50 hours) under the guidance of a Cooperating Teacher and a University Supervisor. The course unites the theoretical concepts, methods, developmental milestones, and strategies including the use of assessment tools and learning technologies with the application of interdisciplinary classroom approaches to promote personal, interpersonal and community health and safety in multi-ethnic classrooms. The supervised field experiences require weekly seminars. A grade of B or higher is required to pass the course.

**Prerequisite:** ECED-502 with a minimum grade of C and ECED-503 with a minimum grade of C and ECED-504 with a minimum grade of C and ECED-505 with a minimum grade of C and LTCY-501 with a minimum grade of C.

**ECED-527B. Clinical Experiences In Early Childhood Education - Kindergarten To 2nd Grade. 1.5 Hour.**

In this 80-hour clinical, teacher candidates interact with children in kindergarten, first, or second grades in multicultural school settings. They plan and carry out integrated language, literacy and Science, Technology, Engineering, Art and Math (STEAM) and Social Science activities that capture children's interest and incorporate health and life skills. Candidates are required to respect children's diverse linguistic, cultural and family backgrounds to ensure that learning activities are free from bias. The supervised field experiences require weekly seminars throughout the semester. A grade of B or better is required to pass the course.

**Prerequisite:** ECED-502 with a minimum grade of C and ECED-503 with a minimum grade of C and ECED-504 with a minimum grade of C and ECED-505 with a minimum grade of C and ECED-527A with a minimum grade of C and LTCY-501 with a minimum grade of C and SPED-404 with a minimum grade of C and BLBC-440 with a minimum grade of C.

**Corequisite:** ECED-506.

**ECED-529. Internship - Student Teaching In Early Childhood Education. 6 Hours.**

This course offers supervised teaching experience for graduate students in the Master of Arts in Teaching in ECED program. Candidates will spend 16 weeks full-time teaching in Preschool/Primary settings under the supervision of a Cooperating Teacher and a University Supervisor. Five University supervisor observations are integrated with weekly two-hour seminars throughout the semester. Candidates will reflect on their professional growth in planning, instruction, using authentic assessment, learning technology and differentiated instruction to address individual strengths and needs. Candidates will also complete edTPA portfolio as required by the State. A grade of B or better is required to pass the course.

**Prerequisite:** ECED-502 with a minimum grade of C and ECED-503 with a minimum grade of C and ECED-504 with a minimum grade of C and ECED-505 with a minimum grade of C and ECED-506 with a minimum grade of C and ECED-527A with a minimum grade of C and ECED-527B with a minimum grade of C and LTCY-501 with a minimum grade of C and BLBC-440 with a minimum grade of C and SPED-404 with a minimum grade of C.

# Earth Science (ESCI)

---

## Courses

### **ESCI-109. First Year Experience: Chicago Rocks! Geology In The City. 3 Hours.**

Chicago has been at the bottom of the sea, buried under a mile of ice, and set in a warm, tropical paradise. Such diverse changes have shaped Chicago and the surrounding region, including the lake, the rivers, the ground we walk on (and build on), and the decisions we make about land use, resources, and waste management. Explore Chicago Rocks - as well as water, weather, and land forms - in the context of current issues related to resource use and the environment. Field trips and hands-on experiences highlight the extent to which geology influences the character of the Chicago area.

### **ESCI-109W. First Year Experience: Chicago's Muddy Waters- Environmental Geology. 3 Hours.**

Chicago's vital bodies of water - Lake Michigan, Chicago River, and others - interact with the urban landscape and the soils and rocks of the ground beneath. Such interactions influence environmental issues in everyday life, including "What happens when water goes down the drain?" and "Why do certain areas flood after it rains?" These questions are explored in the context of Chicago's geology, to evaluate the critical factors affecting soil and water contamination, flooding, and our drinking water. Laboratory analysis of water and soil, collected on local field trips, will clear the 'muddy water' about environmental geology impacts in local neighborhoods. (Lecture 2 hr., lab 2 hr.).

### **ESCI-121. Introduction To Earth Science. 3 Hours.**

Basic concepts of geology, meteorology, oceanography, and the solar system. Discussion of topics of current interest in the earth sciences. Laboratory involves the study of minerals, rocks, maps and weather instruments. Lecture 2 hours, lab 2 hours.

**Prerequisite:** (MATH-091 - 499 or MATH-091A - 499Z or NEIU Math Placement Result 02 - 45 or ACT Math 19 - 36 or Accuplacer Elementary Algebra 060 - 084 or Accuplacer College Level Math 020 - 120 or Accuplacer Adv. Algebra & Func 200 - 300 or SAT Math 500 - 800).

### **ESCI-123. Environmental Geology. 3 Hours.**

Earth, its structure, composition and resources. Mineral and energy resources, their formation and distribution, their supply and demand projections for the future. Water resources and water quality. Environmental impact of resources, nuclear and other waste disposal, geological aspects of earthquake and volcanic hazards. Lecture 3 hours.

**Prerequisite:** (MATH-091 - 499 or MATH-091A - 499Z or NEIU Math Placement Result 02 - 45 or ACT Math 19 - 36 or Accuplacer Elementary Algebra 060 - 084 or Accuplacer College Level Math 020 - 120 or Accuplacer Adv. Algebra & Func 200 - 300 or SAT Math 500 - 800).

### **ESCI-150. Water: Science And Society. 3 Hours.**

This course is designed as an introduction to the importance of water for society and its unique characteristics from an Earth Science perspective. The course will focus on the major earth processes that govern water systems and resources and will offer a basic scientific background for understanding water occurrence, movement, and behavior. Students from any background will be given opportunities to connect the earth science of water to society, arts, and humanities through a variety of interactive activities, virtual field trips, assigned readings, and online discussions.

### **ESCI-180. Fundamentals Of Data Science. 4 Hours.**

Foundations of data science considers data from three perspectives: inferential thinking, computational thinking, and real-world relevance. Given data arising from some real-world phenomenon, how does one analyze that data to understand that phenomenon? The course teaches critical concepts and skills in computation and statistical inference, in conjunction with hands on analysis of real-world datasets, including economic data, document collections, geographical data, and data from social networks. It delves into social, ethical, and legal issues surrounding data analysis, including privacy and data ownership.

**Prerequisite:** MATH-173 with a minimum grade of C.

### **ESCI-201. Exploring America's National Parks. 4 Hours.**

This course blends an overview of U.S. national parks with a general understanding of how the earth works. We will explore how geologic processes control the landscapes and features in U.S. national parks and along the way learn about the concepts of geologic time, plate tectonics, and how the rock record can be used to reconstruct the geological story of the parks. The course investigates geological hazards including volcanic eruptions, earthquakes, and landslides that pertain to various parks. Additionally, we will critically examine how the geology relates to cultural aspects and values, native stewardship, and environmental issues in these parks.

### **ESCI-211. Physical Geology. 4 Hours.**

This course emphasizes basic geologic processes and concepts with a focus on understanding the Earth as a system. In this course we will study how the rock cycle, geotectonics, volcanoes, and earthquakes are interrelated, and examine the way internal and external processes interact at the Earth's surface to shape our landscape. Formation, relevance, and implication of water, mineral, and energy resources, as well as climate change, will be part of the fundamental intellectual inquiry into the past, present, and future of our planet.

**Prerequisite:** (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120 or SAT Math 530 - 800 or Accuplacer Adv. Algebra & Func 237 - 300).

**ESCI-303. Environmental Geology In The Field. 4 Hours.**

This course introduces students to standard approaches, equipment, and tools used in geological field investigations and lab-based methods in order to develop and test geological ideas and concepts. Special attention is given to the fundamental aspects of geologic mapping, field observations, data gathering, use of a geologic compass, topographic and geologic map use and interpretation, and the construction of geologic cross sections. A significant part of the course will involve case studies as well as hands-on field and laboratory analyses with a focus on Midwestern geological features and landforms. The course includes two mandatory weekend field trips.

**Prerequisite:** ESCI-121 with a minimum grade of C or ESCI-211 with a minimum grade of C.

**ESCI-306. Writing Intensive Program: Earth Materials. 4 Hours.**

This course focuses on identifying common rocks and minerals and understanding their association to plate tectonic settings and landscape dynamics. Observational skills and hand sample identification are emphasized.

**Prerequisite:** ESCI-211 with a minimum grade of C and ENGL-101 with a minimum grade of C.

**ESCI-307. Climate Change: Evidence, Causes, Effects. 4 Hours.**

This course will provide an integrative understanding of the components of the climate system, including the science behind climate change, the range of natural climate variability and external drivers of climate change, as well as impacts of a changing climate on multiple sectors. The course explores the basic science underpinning environmental dynamics and climate change, and the practical problem solving and communication skills to critically assess and discuss these topics. We will use case studies and media stories as backdrop to illustrate the many environmental and climate issues we face today.

**Prerequisite:** (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120 or SAT Math 530 - 800 or Accuplacer Adv. Algebra & Func 237 - 300).

**ESCI-308. Geology Of The National Parks. 3 Hours.**

Study of the geological processes producing and controlling the lands within the National Park System. Lecture 3 hours.

**Prerequisite:** ESCI-121 with a minimum grade of C or ESCI-211 with a minimum grade of C.

**ESCI-309. Geochemistry. 3 Hours.**

Chemical composition of the earth, element abundances, cosmochemistry, meteorites, origin of elements, geochronology, geothermometry, geobarometry, principles of trace element distribution. Igneous, metamorphic and sedimentary environments. Lecture 3 hours.

**Prerequisite:** CHEM-211 with a minimum grade of D and (ESCI-306 with a minimum grade of D or ESCI-206 with a minimum grade of D).

**ESCI-310. Geology Of The Chicago Region. 4 Hours.**

The geologic history of Chicago integrates the effects of changes in climate and sea level, varied sedimentary processes, and the influence of the tectonic framework of the Midwestern US region. This course explores the diversity in Chicago's geologic past and present, including the continuing evolution of a geologic landscape affected by glacial, stream, and coastal processes, and examines the impact of local geology on resources and land use, as well as the impact of human processes on the geologic environment. Interpretation of map evidence and real-time data, individual research, and local and regional field experiences supplement class discussion. Lecture 2 hours and Lab 3 hours.

**Prerequisite:** ESCI-211 with a minimum grade of C.

**ESCI-311. Mineralogy And Petrology I. 4 Hours.**

This course is an introduction to fundamental mineralogical and petrological principles. Igneous and metamorphic processes are explained using crystallization theory, phase diagrams, thermodynamics, and geochemistry. We survey the distribution, chemical composition, and mineral associations in rocks of the Earth's crust and upper mantle, and investigate the relationships between these and tectonic environments. Lab methods include studying physical and optical properties of rocks and minerals.

**Prerequisite:** CHEM-211 with a minimum grade of C and (ESCI-306 with a minimum grade of C or ESCI-206 with a minimum grade of C).

**ESCI-312. Historical Geology. 4 Hours.**

Evolution of the earth and its flora and fauna, paleoecology; principles of paleontological stratigraphy and techniques of relative and absolute age determination. Lecture 3 hours, lab 2 hours.

**Prerequisite:** ESCI-121 with a minimum grade of C or ESCI-211 with a minimum grade of C.

**ESCI-314. Paleontology. 4 Hours.**

Principles, study of invertebrate phyla, morphology, taxonomy, evolution and paleoecology as well as occurrence of various fossil types. Lecture 2 hours, lab 3 hours.

**Prerequisite:** ESCI-212 with a minimum grade of C or ESCI-312 with a minimum grade of C.

**ESCI-315. Glacial Geology. 4 Hours.**

This course focuses on interpreting glacial processes and glacial environments, both past and present. Applying techniques that include map interpretation and correlation, remote sensing, and comparison of sediment and topographic data, students will analyze glacier dynamics, the development of glacial landscapes, and the geologic record of glaciations and glacial processes. Lecture 2 hours, Lab 3 hours. Prereq: ESCI-121 or ESCI-211.

**Prerequisite:** ESCI-121 with a minimum grade of C or ESCI-211 with a minimum grade of C.

**ESCI-316. Volcanic Processes And Hazards. 4 Hours.**

This course will cover physical and chemical controls on the timing, style, and magnitude of volcanic eruptions, as well as the products (including natural resources) that form from volcanic activity. Data obtained from a variety of analytical techniques associated with physical and chemical processes at volcanoes will be evaluated and applied to solve volcanic problems. Impacts of volcanic eruptions on society and the strategies to reduce risk, such as volcanic monitoring, will be discussed.

**Prerequisite:** ESCI-211 with a minimum grade of C and CHEM-211 with a minimum grade of C.

**ESCI-317. Sedimentology And Stratigraphy. 4 Hours.**

This course introduces students to the basic principles used in the study of sedimentology and stratigraphy, including the knowledge and tools to investigate sediment formation, transportation, and deposition. Students learn the fundamentals of fluid flow, sediment transport, physical properties of sediments, and the formation of sedimentary structures, as well as how to connect these with the environments in which sedimentary rocks form. Special emphasis is placed on stratigraphic nomenclature and observation of thin sections in the lab, and the application of various concepts to stratigraphic columns in the field.

**Prerequisite:** ESCI-306 with a minimum grade of C or ESCI-206 with a minimum grade of C.

**ESCI-319. Petrology. 4 Hours.**

Classification of rocks. Study of mineralogical and textural relations of major rock groups in hand specimens and thin sections. Chemical composition of rocks. Chemical and petrographic data interpretation. Interrelation of petrological processes and plate tectonics. Description of selected and widely referred petrologic complexes. Lecture 2 hours, lab 3 hours.

**Prerequisite:** ESCI-311 with a minimum grade of C.

**ESCI-320. Limnology. 4 Hours.**

In this course, students will explore the geological aspects of freshwater systems, focusing on Lake Michigan. Topics that will be covered include the origin of Lake Michigan, tectonic and climatic settings of the Lake, physical sedimentary processes, sedimentary geochemistry, geochronology and paleolimnology. Students will also explore the multidisciplinary aspects of biogeochemical cycling of elements, the role of planktonic organisms in these cycles. Lecture 2 hours, Lab 3 hours.

**Prerequisite:** ESCI-211 with a minimum grade of C.

**ESCI-324. Oceanography I. 4 Hours.**

Ocean boundaries and bottom topography. Origin and evolution of ocean basins. Nature and characteristics of coastal and marine sediments. Gathering of oceanological data development of the marine sciences.

**Prerequisite:** ESCI-121 with a minimum grade of C and ESCI-207 with a minimum grade of C.

**ESCI-326. Independent Study In Earth Science. 3 Hours.**

Research in the geological sciences, oceanography, meteorology, or astronomy under the guidance of a faculty member. Independent Studies require the approval of the instructor, department chair and the appropriate College Dean.

**ESCI-327. Aqueous Environmental Geochemistry. 4 Hours.**

This course builds on students' fundamental knowledge of aqueous chemistry and highlights applications relevant to geological sciences. The course focuses on using chemical principles to study surface and near surface water and water-rock/water-soil interactions. Topics include basic thermodynamics, chemical speciation, mineral solubility, complexation, acid-base reactions, oxidation-reduction reactions, carbonate chemistry, and an introduction to geochemical modeling. The practical applications of these topics will develop quantitative skills required for addressing geological and environmental issues.

**Prerequisite:** ESCI-211 with a minimum grade of C and CHEM-212 with a minimum grade of C.

**ESCI-329. Soil Science. 4 Hours.**

Fundamentals of soil including origin, composition, and classification; physical, chemical and biological properties; significance of soil properties for evaluation of soil as a resource; soil fertility and amelioration, soil and watershed use and conservation, and environmental concerns, including soil contamination and remediation.

**Prerequisite:** ESCI-121 with a minimum grade of C or ESCI-211 with a minimum grade of C.

**ESCI-330. Structural Geology. 4 Hours.**

This course introduces the basic concepts of brittle and ductile deformation processes and how they control the strength, mechanical behavior and development of structures in the Earth's continental crust. The course provides a basic understanding of the forces driving deformation and associated displacements and strains. Emphasis is placed on (1) illustrating how deformation processes change under the influence of changing pressures and temperatures with increasing depth in the lithosphere, and (2) examining the types of structures produced by single episodes of deformation of crust, and how their styles and geometries vary as a function of depth in the continental crust.

**Prerequisite:** ESCI-303 with a minimum grade of C and ESCI-317 with a minimum grade of C.

**ESCI-331. Geological Structures And Map Interpretation. 4 Hours.**

Determination of the attitude and thickness of inclined strata and their bearing on outcrop patterns; preparation of geological maps from given field data; and interpretations of aerial photos, topographic maps, and geological maps depicting folds, faults, unconformities and intrusive bodies; preparation of geological cross sections. Lecture 2 hours, lab 3 hours.

**Prerequisite:** ESCI-211 with a minimum grade of C.

**ESCI-333. Internship In Earth Science. 3 Hours.**

Field experience at an off-campus site. Student will work a minimum of 150 hours with an earth science agency or organization. Evaluation will be based in part on the student's creation of a tangible product. Details of internship will be arranged by the student, faculty advisor and site supervisor.

**ESCI-335. Meteorology. 4 Hours.**

This course introduces the processes at work in the earth's atmosphere and the physical laws that control them; horizontal and vertical circulations, atmospheric stability, radiation balance, precipitation, air masses, frontogenesis, and severe weather. Laboratory work involves extensive use of maps and charts.

**Prerequisite:** PHYS-201L with a minimum grade of C or PHYS-206L with a minimum grade of C.

**ESCI-337. Principles Of Hydrogeology. 4 Hours.**

Introduction to the theory and principles of groundwater flow as well as streamflow. Topics include the hydrologic equation, evapo-transpiration, well drilling and testing, porosity and permeability, Darcy's law, confined and unconfined aquifers, flow-nets, geology of groundwater occurrence, water table maps, geophysical exploration methods, well logs, streamflow and hydrographs. Lecture 3 hours, Lab 2 hours.

**Prerequisites:** ESCI-211 and (MATH-185 or MATH-106 or NEIU Math Placement Result 35 - 45 or ACT Math 25 - 36 or Accuplacer College Level Math 031 - 120 or SAT Math 580 - 800 or Accuplacer Adv. Algebra & Func 250 - 300).

**ESCI-339. Field Hydrogeology. 4 Hours.**

Field techniques of measuring infiltration, soil moisture, aquifer permeability and hydraulic conductivity. Practice in conducting geophysical surveys and drilling, logging and developing ground water wells. Methods of sampling water for chemical analysis. Visits to drilling, monitoring and waste management sites. Methods of recording, analysing, mapping and reporting field data. Lecture 2 hours, lab 3 hours.

**Prerequisite:** ESCI-337 with a minimum grade of C.

**ESCI-340. Introduction To Geotechnical Engineering. 4 Hours.**

Introduction to basic concepts of design and engineering of earth materials. Geotechnical soil properties, engineering soil classification, site characterization, earthwork, interactions of water with Earth materials. Overview of engineering design of roadways, landfills, dams, levees, and tunnels. Especially useful for those interested in environmental aspects of geology. Lecture 2 hours, laboratory 3 hours.

**Prerequisite:** (MATH-104 or MATH-177 or MATH-185 or NEIU Math Placement Result 35 - 45 or ACT Math 25 - 36 or Accuplacer College Level Math 031 - 120 or SAT Math 580 - 800 or Accuplacer Adv. Algebra & Func 250 - 300) and.

**ESCI-341. Environmental Hydrology. 4 Hours.**

The course introduces surface water hydrology, emphasizing applications in urban and agricultural environments of the glaciated Midwest. The course includes basic principles of the processes, interrelationships, and measurement of precipitation, infiltration, evaporation, evapotranspiration, interflow, overland flow, stream flow, and ground water flow. Also covered are an introduction to quantification of watershed hydrologic budgets, hydrographs, flood routing, hydraulic drainage and control structures, and estimation of extreme events. Lecture 2 hrs., laboratory 3 hrs.

**Prerequisite:** ESCI-211 with a minimum grade of C and MATH-185 with a minimum grade of C.

**ESCI-347. Climate Change: Past, Present, Future. 4 Hours.**

This course investigates the characteristics and causes of short (1 year) to long-term (>1 million years) climate change over the past ~400 million years and ~100 years into the future. The course will present an overview of the methods and techniques used to reconstruct Earth's climate history in the past, and will investigate ongoing climate changes in the present, and those predicted for the future. Students will be introduced to an educational state-of-the-art climate model (EdGCM) to simulate, implement, and analyze the effects of climate change by using real-world data and scientific approaches.

**ESCI-350. Geotectonics. 4 Hours.**

Geotectonics is the study of large-scale motion and deformation of earth's crust and mantle, the relationship of geodynamics to volcanic activity, earthquakes, and surface features, as well as the deep structure and movement of the interior of the earth. Interdisciplinary instruction of geological, geophysical, and geochemical concepts will allow students to develop a broad working knowledge of classic and current plate tectonics. Historical and recent papers on plate tectonics will be read, discussed, summarized in written reports, and presented to the class. Laboratories will consist of analyzing geologic, geophysical, geochemical, and remotely sensed evidence of current and ancient geodynamics.

**Prerequisite:** ESCI-211 with a minimum grade of C.

**ESCI-356. Introduction To Geophysics. 4 Hours.**

This course is designed to be a survey of the various subdisciplines of geophysics. Students will be introduced to geophysical phenomena through the acquisition, reduction and interpretation of data from geophysical surveys and exercises. We will examine simple physics and processes that govern Earth's dynamic behavior and students will demonstrate their knowledge employing various survey methods including seismic refraction, ground penetrating radar (GPR), and electrical resistivity to address near surface environmental and geotechnical issues. Lecture 2 hours, Lab 3 hours.

**Prerequisite:** MATH-187 with a minimum grade of C and (PHYS-202L with a minimum grade of C or PHYS-207L with a minimum grade of C).

**ESCI-370. Interdisciplinary Seminar On Climate Change. 2 Hours.**

This university-wide seminar provides important views on the critical issue of climate change, drawing from many perspectives and disciplines. Faculty from different NEIU departments and other institutions will present an overview of socio-economic, political, cultural, racial, gender, ethical, and scientific perspectives on the issue of climate change. The main objective of the seminar is to gain an understanding of the dynamic linkages and feedbacks between the climate system and society and to critically evaluate climate change solutions in the context of sustainability and social & environmental justice.

**ESCI-390. Field Geology. 5 Hours.**

This course introduces standard geologic field techniques and data analysis. It is a multiple-week intensive course in geologic mapping and field investigation that focuses on: (1) Collecting and recording data using common geologic field methods and tools; (2) Synthesizing geologic data collected in the field by producing geologic maps and cross-sections; (3) Developing a reasonable geologic history based on multiple lines of evidence. Students will be exposed to a spectacular landscape, where different geologic processes are present and well-exposed. Lecture 3 hours, Lab 3 hours.

**Prerequisite:** ESCI-330 with a minimum grade of C and ESCI-311 with a minimum grade of C.

# Economics (ECON)

---

## Courses

### **ECON-100. Financial Literacy. 3 Hours.**

This course will provide students with an introduction to basic financial literacy. Students will cover the basics of the financial system, including basic banking, investment, budgeting, contracting and debt management. This course will cover both personal finance, small business organization and the relationships between households and businesses in the economy.

### **ECON-109. First Year Experience: Money Matters: The Chicago Economy. 3 Hours.**

This course is designed to provide students with an introduction to surviving in the Chicago economy. The five foundations of the First Year Experience (Future Planning, Integral Preparation, Research, Self-discovery and Transitions) are interwoven with the introductory field-specific concepts and terminology of economics. Students will be introduced to economic and financial literacy while learning what makes Chicago one of the greatest economic engines in the world. Students will examine the Chicago economy and collect data on major economic sectors in Chicago today with an eye on what it will take for workers, households and businesses to succeed in Chicago's future.

### **ECON-200. Essentials Of Economics. 3 Hours.**

This course will provide students with an overview of general economic issues, principles and concepts in both microeconomics and macroeconomics. Through its integrated design, students will have the opportunity to analyze individual firms and markets as well as aggregate economic indicators. Topics to be covered include: inflation, unemployment and economic growth, with a focus on the government's role in its attempts to regulate the economy. Upon completion of the course, students will have gained a basic understanding of how people make decisions, how people interact, and how the economy as a whole works so that they may be able to conceptualize how the economy works, make better business decisions and establish a framework for viewing and interpreting the economic world around them.

**Prerequisite:** MATH-091 with a minimum grade of D.

### **ECON-215. Principles Of Macroeconomics. 3 Hours.**

Elementary aggregate economics. Among the topics covered are economic instability, countercyclical economic policies, money, the banking system, government economic activity, fiscal policy, monetary policy and national income theory.

### **ECON-217. Principles Of Microeconomics. 3 Hours.**

Among the topics covered are supply, demand, prices, the working of markets, the markets of labor and for other factors of production, distribution of the product and contemporary economic problems.

### **ECON-220. Business And Economics Statistics I. 3 Hours.**

Introduction to the principal methods of statistical analysis as applied to business and economic problems. Topics covered include descriptive statistics, introductory probability and probability distributions, statistical estimation, hypothesis testing and regression and correlation analysis with computer applications.

**Prerequisite:** ECON-215 with a minimum grade of C and ECON-217 with a minimum grade of C and (MATH-165 with a minimum grade of C or MATH-167 with a minimum grade of C or MATH-177 with a minimum grade of C or MATH-185 with a minimum grade of C or MATH-187 with a minimum grade of C or MATH-202 with a minimum grade of C or MATH-203 with a minimum grade of C).

### **ECON-221. Writing Intensive Program: Tools For Economists. 3 Hours.**

This course introduces students to a wide variety of resources used by academic and applied economists. Students will learn the basics of word processing and spreadsheet design, with particular emphasis placed on the written description of data, tables and graphs, as well as academic and business writing styles. Students will also learn how to locate, interpret, and present publicly available economic data that are commonly cited in academic, business, and mass-audience publications. This is a reading- and writing-intensive course that satisfies NEIU's Writing Intensive Program (WIP) requirement for economics majors.

**Prerequisite:** (ECON-215 with a minimum grade of C or ECON-217 with a minimum grade of C) and ENGL-101 with a minimum grade of C.

### **ECON-300. Economic Perspectives. 3 Hours.**

This course uses a multidisciplinary pedagogical approach to introduce economic insights to students from all disciplines. This course is designed to engage students from outside economics to combine tools from other disciplines with tools from economics toward problem-solving. Students will be given an introduction to basic economic tools. Students will also identify a topical economic problem and present multiple analyses of the same topic from different perspectives.

### **ECON-303. Intermediate Macroeconomic Theory. 3 Hours.**

Consumption and investment theory, the definitions and determination of national income, employment and the price level. Also considered are the economic effects of fiscal and monetary policy.

**Prerequisite:** ECON-215 with a minimum grade of C and ECON-217 with a minimum grade of C and (MATH-165 with a minimum grade of C or MATH-167 with a minimum grade of C or MATH-177 with a minimum grade of C or MATH-185 with a minimum grade of C or MATH-187 with a minimum grade of C or MATH-202 with a minimum grade of C or MATH-203 with a minimum grade of C).

**ECON-304. Intermediate Microeconomic Theory. 3 Hours.**

A systematic study of the role of the price system in organizing economic activity and an evaluation of its effectiveness; price determination and resource allocation under competition, monopoly, oligopoly and monopolistic competition; theories of demand, cost, partial, and general equilibrium.

**Prerequisite:** ECON-215 with a minimum grade of C and ECON-217 with a minimum grade of C and (MATH-165 with a minimum grade of C or MATH-167 with a minimum grade of C or MATH-177 with a minimum grade of C or MATH-185 with a minimum grade of C or MATH-187 with a minimum grade of C or MATH-202 with a minimum grade of C or MATH-203 with a minimum grade of C).

**ECON-306. Labor Economics. 3 Hours.**

Analysis of supply and demand for labor, the determination of wage rates, employment, working hours and labor force participation; with emphasis on the effects of unionism and government activities on these areas.

**Prerequisite:** ECON-215 with a minimum grade of D and ECON-217 with a minimum grade of D.

**ECON-307. Money And Banking. 3 Hours.**

The nature and functions of money and the role of the monetary sector in the determination of income and employment with particular attention on the institutional framework, money markets, commercial banking, deposit expansion, the Federal Reserve System and monetary policy and its instruments.

**Prerequisite:** ECON-215 with a minimum grade of D and ECON-217 with a minimum grade of D.

**ECON-308. Comparative Economic Systems. 3 Hours.**

Analysis of the structure, institutions and performance of alternative economic systems: capitalism, socialism, communism. Selected countries are studied as examples of each system.

**Prerequisite:** ECON-215 with a minimum grade of D and ECON-217 with a minimum grade of D.

**ECON-309. Public Finance. 3 Hours.**

An investigation of the economic effects of governmental activities. The major types of taxes and expenditure proposals are considered. In addition, intergovernmental fiscal relations and fiscal policy are discussed. The course will emphasize, but not be restricted to American fiscal institutions.

**Prerequisite:** ECON-215 with a minimum grade of D and ECON-217 with a minimum grade of D.

**ECON-310. Writing Intensive Program: Business And Economic Statistics II. 3 Hours.**

This course is a continuation of ECON-220. Topics to be covered include analysis of variance, multiple regression and correlation, time series analysis, nonparametric tests, and decision theory with computer applications.

**Prerequisite:** ECON-215 with a minimum grade of D and ECON-217 with a minimum grade of D and ECON-220 with a minimum grade of D and ENGL-101 with a minimum grade of C.

**ECON-312. Mathematical Economics. 3 Hours.**

Conventional macro- and microeconomic theories are set out in mathematical form utilizing algebra and calculus. Topics to be covered include sets, functions, matrices, differential and integral calculus and optimization.

**Prerequisite:** ECON-215 with a minimum grade of C and ECON-217 with a minimum grade of C and (MATH-165 with a minimum grade of C or MATH-167 with a minimum grade of C or MATH-177 with a minimum grade of C or MATH-185 with a minimum grade of C or MATH-187 with a minimum grade of C or MATH-202 with a minimum grade of C or MATH-203 with a minimum grade of C).

**ECON-313. Economic History Of Europe. 3 Hours.**

Development of the modern economic systems and institutions of Europe from their late medieval and Renaissance beginnings; the revival of trade, the growth of towns, the commercial revolution, the development of new systems of economic thought to support capitalism, the industrial revolution, the rise of new economic forms such as socialism, modified capitalism, and "mixed" economies in the twentieth century.

**Prerequisite:** ECON-215 with a minimum grade of D and ECON-217 with a minimum grade of D.

**ECON-314. The Development Of Economic Thought. 3 Hours.**

Historical survey of the major streams of economic thought including classical, Marxian, Institutional, neoclassical, radical and monetarist thought. The course covers the origins, methods and validity of economic theories.

**Prerequisite:** ECON-215 with a minimum grade of D and ECON-217 with a minimum grade of D.

**ECON-316. Independent Study In Economics. 3 Hours.**

Intensive study of special topics of economics; faculty guidance.

**ECON-318. Introduction To Econometrics And Forecasting. 3 Hours.**

Introduction to the methods by which economic theories are tested with emphasis on applications. Topics include bivariate and multiple regression techniques, hypothesis testing, and violation of the common assumptions. Computer usage.

**Prerequisite:** ECON-215 with a minimum grade of D and ECON-217 with a minimum grade of D and ECON-220 with a minimum grade of C and (MATH-165 with a minimum grade of D or MATH-110 with a minimum grade of D or MATH-177 with a minimum grade of D).

**ECON-320. Writing Intensive Program: Non Profit Management, Administration & Communications. 4 Hours.**

This course is designed to prepare students for careers in the non-profit world and to introduce the principles of effective professional communications. Students will be required to volunteer a minimum of two (2) hours per week with a non-profit organization and to produce weekly correspondence related to the internship.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**ECON-321. International Monetary Theory & Relations. 3 Hours.**

This course will provide an analysis of the international monetary system and the institutions that link national economies through exchange rates, balance of payments, and international asset transactions. Particular attention will be paid to the evolving international monetary system of flexible exchange rates and highly mobile international capital. This course will be valuable to students interested in careers in international economic policy, international banking, and finance, and in international political economy.

**Prerequisite:** ECON-215 with a minimum grade of C and ECON-217 with a minimum grade of C.

**ECON-322. International Economics. 3 Hours.**

This course will examine international trade in goods and services, and international movements of labor capital, with a focus on the role of domestic and international political forces, regional issues, and urban systems. Traditional trade theories and policies will be discussed, as well as topical issues such as immigration, foreign direct investment, environmental policy, international political economy, and "global cities."

**Prerequisite:** ECON-215 with a minimum grade of C and ECON-217 with a minimum grade of C.

**ECON-323. Writing Intensive Program: Economic Development. 3 Hours.**

This course will examine the process of economic development primarily at the nation level throughout the world. Students will study important theories of development and will be expected to apply these to writing and research on a specific country, and to disseminate their work to the class.

**Prerequisite:** ECON-215 with a minimum grade of D and ECON-217 with a minimum grade of D and ENGL-101 with a minimum grade of C.

**ECON-324. The Economics Of The European Union. 3 Hours.**

This course will provide an overview of the history, objectives and economics policy issues of the European Union. The focus of the course will be on a theoretical analysis of the principal economic problems facing the European Union. These problems include: agricultural policy, trade policy, the creation of a single market and single currency, further expansion, and relations with the United States. The course requires that students have a background and sound understanding of the principles of macro and micro economics.

**Prerequisite:** ECON-215 with a minimum grade of D and ECON-217 with a minimum grade of D.

**ECON-330. Urban And Regional Economic Development. 3 Hours.**

This course introduces students to the basic theories and practice of local economic development. Subject matter is limited to topics most relevant to domestic (i.e. U.S.) local economic development. Topics covered include the history of local economic development policy, competing theories of development, and the structure and impact of various economic development policies. Methods for gauging the composition and health of a local economy are also reviewed in detail. The concepts and methods covered in this course are used regularly by local economic development practitioners. Students interested in urban/regional economics and/or urban planning will find this course especially insightful.

**Prerequisite:** ECON-215 with a minimum grade of C and ECON-217 with a minimum grade of C.

**ECON-332. Industrial Organization. 3 Hours.**

Analysis of the competitive structure of industries and the major determinants of industrial organization such as economies of scale, mergers, vertical integration, advertising and their effects on competitive firm behavior. Examination of the economic foundations and effects of government policies to regulate monopoly.

**Prerequisite:** ECON-215 with a minimum grade of D and ECON-217 with a minimum grade of D.

**ECON-333. Urban Economics. 3 Hours.**

Presentations of fundamental economic tools applicable to urban problems; identification of the economic causes of these problems and analysis of policies designed to correct them.

**Prerequisite:** ECON-215 with a minimum grade of D and ECON-217 with a minimum grade of D.

**ECON-334. Cost-Benefit Analysis. 3 Hours.**

Alternative economic policies resulting from weighing the merits of spending public expenditures on various public projects. A systematic approach to the evaluation of individual projects in the selection of the best project to accomplish a given purpose, and in the establishment of priority order among the projects competing for limited funds.

**Prerequisite:** ECON-215 with a minimum grade of D and ECON-217 with a minimum grade of D.

**ECON-336. Health Economics. 3 Hours.**

This is a course in applied economic theory that examines the determinants of health status as well as the determinants of the market quantity and price of health care services. Specific topics covered include: consumer factors which determine demand for health and health care utilization; the role of health insurance in determining health and health care utilization; behavior of health care providers under various types of financial reimbursement mechanisms and market structures.

**Prerequisite:** ECON-217 with a minimum grade of C and MATH-091 with a minimum grade of C.

**ECON-337. Environmental Economics. 3 Hours.**

This course allows students to explore and understand the role of economics in analyzing environmental issues and in the development of environmental policy. Some of the topics covered include: air and water pollution, transitioning from depletable to renewable resources; biodiversity and issues of sustainability, energy and transportation.

**Prerequisite:** ECON-217 with a minimum grade of C and ECON-215 with a minimum grade of C.

**ECON-340. Managerial Economics. 3 Hours.**

The application of economic theory to the analysis of business decision-making. Topics include the theory of production, cost, pricing, and capital budgeting. Specific tools such as constrained maximization and regression analysis are applied in a case approach to the estimation and forecasting of revenues and costs, and to the preparation of budget forecasts.

**Prerequisite:** ECON-215 with a minimum grade of D and ECON-217 with a minimum grade of D.

**ECON-343. Macroeconomic Data Analysis. 3 Hours.**

The manipulation, presentation, and interpretation of real macroeconomic data. Concepts include GDP, inflation, interest rates, exchange rates, and nominal and real variables. Students will gain experience applying formulas, preparing graphs, and uncovering basic statistical relationships among data series.

**Prerequisite:** ECON-215 with a minimum grade of C and ECON-217 with a minimum grade of C and (MATH-165 with a minimum grade of C or MATH-167 with a minimum grade of C or MATH-177 with a minimum grade of C or MATH-185 with a minimum grade of C or MATH-187 with a minimum grade of C or MATH-202 with a minimum grade of C or MATH-203 with a minimum grade of C).

**ECON-344. Financial Economics. 3 Hours.**

This course will provide students with the economic tools that are critical to understanding the idea of risk and return and how various factors affect the valuations of assets like bonds, stocks, mutual funds or houses. These concepts are also useful for the types of analysis done by financial experts in banks, financial institutions, and companies who also have to understand the risk-return of various assets and overall financial decisions. This course also emphasizes the deep interconnections of finance with macroeconomics more generally.

**Prerequisite:** ECON-215 with a minimum grade of C and ECON-217 with a minimum grade of C.

**ECON-345. The U.S. Federal Reserve. 3 Hours.**

This is an applied course on the U.S. Federal Reserve policy and practices. Students will be expected to research Fed policy and prepare briefings on the state and trajectory of the U.S. economy. The class will collaborate on a presentation to the Chicago Fed as part of the Student Fed Challenge, a competition involving Universities throughout the Chicago Fed district.

**Prerequisite:** ECON-215 with a minimum grade of C and ECON-217 with a minimum grade of C.

**ECON-346. Applied Economic Statistics Using R. 3 Hours.**

This course provides an introduction to the open-source statistical software R, including operations, packages, and coding principles. Students will apply statistical concepts using economic data, gaining experience with the software while deepening their knowledge of economics.

**Prerequisite:** (ECON-215 with a minimum grade of C or ECON-217 with a minimum grade of C) and (ECON-220 with a minimum grade of C or MATH-305 with a minimum grade of C or MNGT-368 with a minimum grade of C).

**ECON-349. Data Science Lab For Health Equity Research And Cancer Policy. 4 Hours.**

This is an applied data science course in health economics that combines economic theory and real-world data to research socioeconomic diversity, health equity research, and cancer risks and policy. The data science lab will benefit any student interested in developing these highly transferable skills, as well as improve the understanding of the socioeconomic dimension of health equity and cancer policy.

**Prerequisite:** ECON-215 with a minimum grade of C or ECON-217 with a minimum grade of C.

**ECON-377. Real Estate Economics. 3 Hours.**

This course provides an overview of the economics of real estate markets. Primary focus is on the interaction of supply and demand in determining real estate property valuations and other real estate-related assets such as mortgage-backed securities. Different methods of determining real estate valuations are examined, including residential, cost, hedonic, and income-based approaches for commercial and residential properties. Additionally, the link between real estate markets and the broader economy is examined, including emphasis on the mortgage industry and mortgage markets.

**Prerequisite:** ECON-215 with a minimum grade of C and ECON-217 with a minimum grade of C.

**ECON-3953. Internship In Economics. 3 Hours.**

The internship in economics is designed for students in the Department of Economics with a declared major or minor and who are approaching the terminus of their program and wish to apply their learned knowledge within a non-academic and professional setting. For many students, an internship constitutes a first glimpse into "how economists work" outside of the classroom and, consequently, serves as a guide for future career goals and opportunities. Additionally, well-received interns often obtain strong letters of recommendation and/or the option of permanent employment.

**Prerequisite:** ECON-215 with a minimum grade of C and ECON-217 with a minimum grade of C and ECON-303 with a minimum grade of C and ECON-304 with a minimum grade of C.

**ECON-3956. Internship In Economics. 6 Hours.**

See course description for ECON-3953.

**Prerequisite:** ECON-215 with a minimum grade of C and ECON-217 with a minimum grade of C and ECON-303 with a minimum grade of C and ECON-304 with a minimum grade of C.

**ECON-401. Fundamentals Of Business Economics. 4 Hours.**

Provides knowledge of microeconomic and macroeconomic theory necessary for advanced business analysis.

# Educational Foundations (EDFN)

---

## Courses

### **EDFN-109. First Year Experience: Schooling Chicago: Communities, Public Education And Change. 3 Hours.**

This course analyzes education in and outside Chicago Public Schools as a key social institution that both influences and is influenced by the larger society. You will be introduced to a wide array of topics and case studies that elaborate on the embeddedness of classrooms and schools in social environments across Chicago. This course will span a variety of school processes such as curricular differentiation, social and economic reproduction, voluntary associations (extra-curricular clubs, parent organizations), social groupings and peer influence. Particular attention is paid to questions about the relationship between social stratification and education. For example, how is the structure, content and funding of schools across Illinois affected by wider social and political conflicts? Does educational attainment affect an individual's economic status? Does education promote social equality? This course will introduce students to use of new information technologies in k-12 education.

### **EDFN-202. Laboratory In The Foundations Of Education. 1 Hour.**

Students will be guided toward appropriate experiences in a school setting that will increase their understanding and utilization of concepts developed in the foundations courses. Chicago metropolitan area schools and other settings will be used as the laboratory.

### **EDFN-203. Laboratory In The Foundations Of Education. 2 Hours.**

(See EDFN-202 for description.).

### **EDFN-204. Laboratory In The Foundations Of Education. 3 Hours.**

(See EDFN-202 for description.).

### **EDFN-206. Laboratory In Foundations Of Education. 1 Hour.**

(See EDFN-202 for general description) Specific to understanding and utilization of concepts developed in EDFN-306 (Educational and Individual Differences).

### **EDFN-207. Laboratory In Foundations Of Education. 1 Hour.**

(See EDFN-202 for general description) Specific to understanding and utilization of concepts developed in EDFN-307 (Psychology of Instruction and Learning).

### **EDFN-214. Technology In The Classroom. 3 Hours.**

This course focuses on instructional use of media technology and helps participants develop foundational skills in technology integration in the classroom. They will learn to use various programs and tools in the educational context. Participants will understand how to enhance teaching and learning experiences through the meaningful integration of technology.

### **EDFN-215. Schools As A Social Institution. 3 Hours.**

This course explores the underpinnings of American public education. Students explore key historical moments, within broader social, cultural, political and economic developments, that shape responses to questions about the role of schools in society. For example, what is the purpose of schools? Who should be educated? What should that education consist of? Students will unpack the different perspectives surrounding these questions and explore parallels to debates in education today. This course lays the foundations to understand schools as a complex social institution that can potentially empower individuals and simultaneously operate in contradictory ways.

### **EDFN-216. Child And Adolescent Development:Individual Differences. 3 Hours.**

Consideration of Human developmental individual differences, including diversity within physical, social, emotional, and cognitive domains from birth through adolescence. Focus will include: 1) genetic, maturational, and environmental factors effects on development; 2) impact of special education and other federal laws on working with children in the classroom; 3) building observational skills for assessing differences to aid student development; 4) study of selected individual children or adolescents; 5) application of principles to classroom practice. Ten hours of classroom observation required. Ten hours of service required.

### **EDFN-217. Educational Psychology. 3 Hours.**

Principles of educational psychology, focusing on learning, assessment of learning, motivation and classroom management for a diverse, global society, including special need students. Ten hours of classroom observation required. Ten hours of service learning required.

### **EDFN-302. Philosophical And Historical Foundations Of Early Childhood Education. 3 Hours.**

This course examines the philosophical, historical, and psychological underpinnings of early childhood education for children from birth to age eight in public and private school settings. It evaluates trends in the field, current social and family issues that affect young children and their families. It examines children's health, wellness, safety and nutrition and how families' access to resources often impacts these factors. The course also evaluates different types of programs and services for young children and families, and examines early childhood educators' professional standards with an emphasis on linking theory with classroom practice.

### **EDFN-303. Early Childhood Development. 3 Hours.**

This course is designed to study the growth and development of young children from birth through second grade, including physical, cognitive, language and socio-emotional development. The course presents major theories, principles, concepts and research in child development and how to provide learning opportunities that support these areas of development. Candidates learn how early brain development is promoted through developmentally and culturally appropriate learning experiences, and discuss how children differ in their development and approaches to learning. The course also addresses the basic principles of health, nutrition, children's safety needs, and trauma and resiliency.

**EDFN-305. Philosophical And Historical Foundations Of Public Education. 3 Hours.**

The exploration of differing views of the aims of public education in America. The study of the historic settings in which the system developed. Identification of major social and cultural problems in relation to their historic antecedents. The study of various philosophic schools of thought and their impact on educational theory and practice, past and present.

**EDFN-306. Education And Individual Differences. 3 Hours.**

Consideration of individual differences and principles of human development as factors in creating effective learning environments. Emphasis on: (1) understanding children and adolescents as individuals with differing abilities, aptitudes, interests, emotional responses and accomplishments as the result of genetic, maturational and environmental factors. Special attention given to children and adolescents covered by Public Law 94-142; (2) observational skills for assessing differences in order to aid student development. Focused study by each student of children or adolescents at a particular age level; (3) application of knowledge of developmental and individual differences to classroom practice. Twenty hours of classroom observation required. A federal background check will be required for in-person school observations.

**EDFN-307. Psychology Of Instruction And Learning. 3 Hours.**

Study and application to the teaching situation of theories and principles of learning (cognitive, affective, behavioral), motivation and classroom management including problems of mainstreaming. Also attention to establishing objectives, instructional design concepts, evaluation of learning and introduction to statistical analysis of scores. Focused study by each student of classroom in terms of application of theories and applications associated with learning and instruction. Twenty hours of classroom observation required. A federal background check will be required for in-person school observations.

**Prerequisites:** College of Education Admission YES and (EDFN-306 minimum grade of C or ZFND-306 minimum grade of C).

**EDFN-308. Teaching And Learning. 1.5 Hour.**

This course is designed to have the learner study and apply psychological theories and principles of instruction, learning (cognitive, affective, and behavioral), classroom and school-wide diversity, motivation, productive learning environments, assessment strategies, achievement, classroom management including inclusion, standardized testing and interpreting test scores. Offering this course concurrently with student teaching will allow students an authentic learning experience allowing them to directly apply theory learned in this course to real life issues that they are experiencing in their student teaching.

**Prerequisite:** College of Education Admission YES.

**EDFN-312. Seminar In Current Educational Literature. 3 Hours.**

An examination of current educational literature included would be recent research findings, important views of educational critics, newly developed theories of learning and education and innovative practices in educational institutions.

**EDFN-313. Problems, Issues And Practices In Education. 3 Hours.**

An in-depth examination of salient issues confronting contemporary American education. Topics selected are varied in accordance with student interest.

**Prerequisite:** College of Education Admission YES.

**EDFN-314B. Race, Identity, & Cultures In Education. 3 Hours.**

This course examines theories and methods of educating children of diverse racial, cultural and linguistic backgrounds in the U.S. school system. Students will learn how to identify cultural, and linguistic differences that may impede a person's progress in an educational system or in learning a new language or culture. Students will develop an understanding of how these differences can be used as a positive rather than negative resource in the teaching-learning process.

**EDFN-314K. Social Justice And The Politics Of Education. 3 Hours.**

In this course, students will examine social justice concerns in educational policy and practice. This course will explore theories and debates about social justice goals and themes, and education. Through our study of critical issues in education globally and locally, we will explore ideas about the role of education in society. The following questions are central to the course: What concepts and conditions constitute "social justice"? What kind of education is needed in a democracy? What is the relationship between schooling and participation in democratic life?.

**EDFN-314L. Gender, Race, And Class Issues In Education. 3 Hours.**

This course focuses on the role of the educational system in the constructions and reproduction of gender and racial inequality. Using both academic and popular literature to gain perspectives, we will examine relationships between school and society. Topics to be addresses include the historical constructions, representation of schooling and the teaching profession, popular culture and education, class and schooling, access and equity of schooling experiences, as well as sexuality and schooling.

**EDFN-319. Adolescent Development. 3 Hours.**

This course focuses on adolescent development of middle level students with attention to its impact on psychology and education. The content includes theories related to middle school students' self-concept, affect, motivation, effective thinking, interpersonal skills, classroom diagnosis, individualization, teacher effectiveness, roles and problems of teachers, moral development, diversity, inclusion, effective parenting, learning styles, and developing independent learners.

**Prerequisite:** College of Education Admission YES.

**EDFN-342. Teaching With Technology. 3 Hours.**

This course focuses on instructional use of computer technology and helps students develop technology integration skills. Students will understand how to enhance learning experiences through meaningful integration of technology. They will learn to use different programs and tools to facilitate teaching and learning in classrooms.

**Prerequisite:** College of Education Admission YES.

**EDFN-343. Using Technology In Classrooms. 2 Hours.**

This course focuses on the instructional use of computer technology and helps students develop foundational skills in technology integration in K-8 classrooms. Students will understand how to enhance learning experiences through meaningful integration of technology. They will learn to use different programs and tools to facilitate teaching and learning in classrooms.

**EDFN-350. Philosophy Of Curriculum Integration In Middle Grades. 3 Hours.**

This course focuses on the philosophical, theoretical, and practical tenets of middle level education. The course explores interdisciplinary project-, problem-, and challenge-based curriculum to learn various approaches for developing cohesive, integrated curriculum and authentic assessment in the middle grades 5-8. Particular attention will focus on developing skills through inquiry and justice-oriented projects that transcend disciplinary boundaries and are relevant and responsive to students' questions and curiosities.

**Prerequisite:** EDFN-305 with a minimum grade of C and EDFN-319 with a minimum grade of B and ELED-300 with a minimum grade of B and SPED-317 with a minimum grade of B and MLED-302 with a minimum grade of B and MLED-310 with a minimum grade of B and BLBC-338 with a minimum grade of B and MLED-328A with a minimum grade of B and ELED-303 with a minimum grade of B and MLED-309 with a minimum grade of B and MLED-305 with a minimum grade of B.

**EDFN-405. Development Of Educational Thought. 3 Hours.**

An examination of the historical development of American education and some of its antecedents. A study of the educational theories of selected philosophies; an examination of the purposes of education in pluralistic America; an evaluation of educational institutions and practices in terms of present circumstances.

**EDFN-406. Human Development And Learning. 3 Hours.**

The study of theories and principles of development of school age children and youth. Focus on current theories and research and their implications for learning and identification of teaching practices that facilitate the acquisition of intellectual and social skills of children and youth. Attention to characteristics covered by PL.94-142 as well as differences due to social, cultural and ethnic factors. Twenty hours of classroom observation required. A federal background check will be required for in-person school observations.

**EDFN-407. Learning Theories And Educational Practices. 3 Hours.**

Analysis of classroom learning and management in terms of principles and theories of learning and motivation and recent research on effective teaching. Twenty hours of classroom observations required. A federal background check will be required for in-person school observations.

**Prerequisite:** College of Education Admission YES.

**EDFN-409. Individual Differences And Educational Practice. 3 Hours.**

This course is designed to have candidates consider individual differences of human development and how these changes impact learning. Current educational and human development theories and research will be used to understand that children and adolescents are individuals with differing abilities, aptitudes, interests and emotional responses due to genetic, maturational, cultural, societal and environmental factors. Candidates will apply theories and principles of instruction, learning, diversity, motivation, bullying prevention and intervention, social emotional development and socially just classroom management to guide and inform teaching practice.

**Prerequisite:** College of Education Admission YES.

**EDFN-410. Education As A Social Institution. 3 Hours.**

Study of the school as a social system and as an institution which influences and is shaped by other institutions of society. Particular attention is given to urban education. Laboratory experiences are expected.

**EDFN-411. Comparative Education. 3 Hours.**

This course provides the student in the College of Education with an opportunity to study a variety of critical issues and current topics which relate to the fields of comparative and international education. This course will provide students with an opportunity to utilize Internet and other distance education opportunities. Students participating in this course will also have the option of participating in an educational experience outside of the United States. This international experience is designed to enhance the students's mastery of international and comparative education elements of the course topic.

**EDFN-411B. Leadership In Communities And School. 3 Hours.**

This course provides the student with an opportunity to analyze and examine leadership as a theoretical process with consideration of practical applications. Leadership models will be used to plan, evaluate, implement and facilitate positive change in and among schools and communities.

**EDFN-413. Power, Communities And Change. 3 Hours.**

The purpose of this course is to provide a forum and structure for community and school leaders to increase their understanding of school-community relations while enhancing their ability to implement effective programs and act as change agents. Participants will deepen their understanding of salient and critical global and local policy issues and develop skills to actively and participate in the public life of their communities. Course involves out of class time activities and community engagement.

**EDFN-415. Educational Thought And Secondary Schooling. 3 Hours.**

In this course, candidates examine critical issues in U.S. education and discuss them in light of the social, economic, and political conditions of the times. Throughout the course, candidates focus on the following recurring themes: (a) sociopolitical consciousness; (b) cultural competence; and (c) academic success. Candidates will analyze how these themes manifest in contemporary contexts, examine their own educational experiences and philosophies, and identify curricular and pedagogical strategies for promoting success among diverse students. This course includes a variety of instructional strategies: reading, research, lecture, guided discussion, small group discussion, candidate presentations, group projects, directed writing assignments and community engagement/experiences.

**Corequisite:** SCED-415.

**EDFN-416. Cultural Pluralism And Schools. 3 Hours.**

The study of multicultural groups: differences and commonalities. Special emphasis is on the investigation and evaluation of various concepts and models of cultural and subcultural relationships as manifested in the schools. Study and application of ethnographic methods to sub-cultures related to and within the educational context.

**EDFN-420A. Seminar In Development & Learning: Contemporary Issues In Middle Level Education. 3 Hours.**

This course examines theory and key components involved in middle level education settings relating to historical and contemporary issues facing middle schools. In focusing on historical, organizational, and philosophical characteristics of middle schools, and how these impact middle level education as well as educators, the course explores social and cultural issues and their impact on middle level students, and his/her school. Topics include but not limited to an overview of challenging curriculum and instruction, empowering and equitable schools and classrooms for all middle level students and their families, and dealing with special aspects of middle school design and development.

**EDFN-421. Middle School Advisory & Counseling. 3 Hours.**

This course emphasizes the ways middle school teachers can help meet the developmental needs of early adolescents through consultation, collaboration and counseling. Content includes key elements of an effective middle school guidance program and how to implement these elements in schools; the developmental characteristics and needs of early adolescents as related to the development of school guidance, advisory, special education and regular education programs and the teacher advisor as a communicator, student advocate, supporter-confidant and home-school liaison who can assess, coordinate and refer students for various health, social and special needs services.

**EDFN-441. Digital Literacy: Learning And Leadership. 3 Hours.**

This course is intended to foster digital literacy among participants as it applies to education and leadership. Course content will emphasize contemporary issues and utilize authentic learning experiences to improve participants' digital technology knowledge and skills. Through the improvement of technology knowledge and skills, participants' leadership capacity will be developed or enhanced so that they may be able to use technology effectively as school leaders or community leaders.

**EDFN-442. Media Technology For Educators. 3 Hours.**

The media technology course will encompass all types of curricular/learning materials in varied formats *i*. CD-ROM, laser disc technology, telecommunications, satellite learning, and online databases. Multimedia educational software will be integrated into computer instruction in multicultural/multiethnic learning presentations. Electronic data management, classroom application, and integrated learning systems will be utilized in educational settings.

**EDFN-443. Integrating Media Technology Into Elementary Classroom. 3 Hours.**

This class will familiarize participants with media and technology for instructional use in K-8 classroom settings. Participants will learn to utilize current media technology to enhance teaching, learning, and assessments. The learning activities in this class include the development of projects that enhance the creativity and media technology knowledge base of teacher candidates. This knowledge base will be developed through readings, interactive discussions, reflections, creative process, and presentations. This course focuses on both the knowledge and skills needed to use technology to teach, to design curriculum, and also to enable elementary students use the technology in their assignments.

**EDFN-450. African Studies Institute (AfSI). 3 Hours.**

As the origin of humanity, Africa's history is steeped in culture, biodiversity, and indigenous knowledge. The African Studies Institute (AfSI) introduces students to Africa and heightens their curiosity to research and explore more about this fascinating continent. AfSI is a good fit for students in education who are interested in learning about Africa and/or will be working with students, refugees and immigrants from Africa. Moreover, AfSI provides the necessary tools for teachers and other professionals who are interested in integrating African sociocultural, linguistic, historical, political, human rights, and economic contexts into their teaching practice and workplace.

**Requirement:** Graduate standing or approval from the instructor and the Dean of the College of Graduate Studies and Research for undergraduates.

**EDFN-451. Research Methods. 3 Hours.**

The purpose of this course is to help develop knowledge, skills and dispositions related to standardized and action research methods. This course will include quantitative, qualitative and mixed methods designs, data collection, analysis and interpretation as they relate to teaching and leadership. Students will understand how assessment is used to improve learning and achievement, how professional development improves learning and how leadership enhances learning and development.

**EDFN-452. Technology In Content Area Teaching. 1.5 Hour.**

This course intends to familiarize participants with technology for instructional use in secondary school classrooms. Participants will gain insights into how technology could be used for instructional applications, and learn to implement current technology to enhance teaching and learning in content areas. Participants in this course will gain hands-on experience in technology integration in instructional activities. The activities in this class include the development of projects that enhance the creativity and technology knowledge base of teacher candidates. This knowledge base will be developed through readings, reflections, interactive discussions, creative process, and presentations.

**EDFN-453. E-learning Design And Development. 3 Hours.**

This course is designed to empower participants to create effective e-learning experiences for instruction, training, professional development and other learning environments. Educators, instructional designers, trainers or anyone who is interested in e-learning will be equipped with the essential guidelines and multimedia programs to design and develop e-learning content and activities. Participants will also explore the trends of e-learning.

**EDFN-455A. Seminar I. 3 Hours.**

This seminar provides an opportunity for students to synthesize educational, intellectual and experiential interests. Students apply relevant research to their area of inquiry and utilize this research to write a master's level research paper. This process will involve both intensive individual work and significant engagement with peers' projects creating an interdisciplinary learning community through interaction and collaboration. Students are expected to follow a prescribed procedure under the direct guidance and supervision of the instructor that will produce a research proposal.

**EDFN-455B. Seminar II. 3 Hours.**

This seminar provides an opportunity for students to synthesize educational, intellectual and experiential interests. Students apply relevant research to their area of inquiry and utilize this research to write a master's level research paper. This process will involve both intensive individual work and significant engagement with peers' projects creating an interdisciplinary learning community through interaction and collaboration which implements a research proposal and culminates in a completed research study. Students are expected to follow a prescribed procedure under the direct guidance and supervision of the instructor.

**Prerequisite:** EDFN-455A with a minimum grade of C.

**EDFN-492. Social Justice Education In Schools. 3 Hours.**

This course engages students in an examination of historical and contemporary approaches to promoting equity and justice in K-12 education, including curricular, pedagogical, and policy-related interventions. Topics include but are not limited to the relationship between social justice education and student outcomes, strategies for enacting social justice in standards-based classrooms, and approaches to designing, implementing and evaluating social justice curriculum and policy.

**EDFN-497. Critical Race Theory In Education. 3 Hours.**

The purpose of this course is to provide an introduction to the tenets of Critical Race Theory (CRT) in legal scholarship and education as a means to interpret education in school and community contexts. Incorporating legal, historical, policy analysis and sociological approaches, this class develops analysis and praxis through CRT in the examination of educational concerns. Through the incorporation of various segments of critical theory (e.g. post-modern, post-structural, post-colonial, critical feminism, etc.) the class seeks to place CRT in the realm of education for social justice. This course is reading and writing intensive.

# Educational Leadership (ELAD)

---

## Courses

### **ELAD-109. First Year Experience:School's Out:Chicago's Bouquet Of Nontraditional Educational Programs. 3 Hours.**

Chicago is renowned for its world class museums, music, theaters, gardens, zoos, and other attractions. From the Museum of Broadcasting to the Art Institute- all of these institutions have educational programs open to the citizens of Chicago. Explore then via internet, interviews, guest presenters and field trips. Open your mind to the diversity of learning and teaching opportunities available outside of school in our city. This course will enable you to: Gain an appreciation of many of these programs, Raise your awareness of the various fields of knowledge involved, Use findings to create written, oral and electronic presentations about these programs, Sharpen your research, writing and thinking skills, Probe your career opportunities, and Expand your horizons and creativity.

# Education (EDUC)

## Courses

EDUC-322. Independent Study In Education. 3 Hours.

# Elementary Education (ELED)

---

## Courses

### **ELED-109. First Year Experience: Building Chicago One Teacher At A Time. 3 Hours.**

In this course the five foundations (Future Planning, Integral Preparation, Research, Self-discovery, and Transitions) of Northeastern's First-Year Experience program are taught alongside an introduction to content specific to the discipline of Teaching of Elementary Education. Introduction to Chicago schools, communities, and diverse student population as well as curricular models, school structures and best practices in teaching.

### **ELED-300. Instructional Design In The 21st Century Classroom. 1.5 Hour.**

This course prepares future elementary school teachers to teach all learners in today's classrooms. Special focus is given to teaching students in grades 1-6 with a variety of needs and abilities, including English language learners, students with disabilities, gifted/talented students, and reluctant students. This diversity brings some challenges for teachers. Strategies and practices are taught to prepare future teachers for these challenges in instruction and assessment.

**Prerequisite:** EDFN-305 with a minimum grade of C and EDFN-306 with a minimum grade of C.

**Corequisite:** SPED-317.

### **ELED-302. Writing Intensive Program: Foundation Of Teaching The English Language Arts. 3 Hours.**

This course is designed to provide candidates with an overview of learning theories, practices, curriculum design and materials used in teaching Language Arts in grades 1-6. Language Arts instruction includes mastery of six language arts competencies: reading, writing, listening, talking, viewing and visual representation. The course addresses differentiating instruction to meet the needs of diverse learners with attention to special needs students and English Learners (ELs). This is a writing intensive course affording students the opportunity to demonstrate competency in writing in various genres.

**Prerequisite:** EDFN-305 with a minimum grade of C and EDFN-306 with a minimum grade of C.

**Corequisite:** ELED-308.

### **ELED-303. Children's And Young Adult Literature. 1.5 Hour.**

This course familiarizes students with quality children's and young adult literature for elementary and middle grades. Students will learn to select, discuss, and critique books appropriate for this age range. Assigned readings and projects will enable students to develop critical, analytical and instructional skills for integrating culturally diverse children's literature across the curriculum.

**Prerequisite:** ELED-302 with a minimum grade of C and ELED-300 with a minimum grade of C and ELED-310 with a minimum grade of C and SPED-317 with a minimum grade of C.

**Corequisites:** ELED-309, ELED-328A.

### **ELED-304. Inquiry-Based Social Studies In The Elementary Grades. 3 Hours.**

This course explores teaching, learning, and curriculum for all elementary students in grades 1-6. The course has an emphasis on creating an inquiry-based social studies classroom, designing project-based curriculum units, and finding and teaching with real-world resources. The course explores the vital role of social studies in a democratic society, social responsibility, teaching critical thinking, decision-making, and problem solving skills, and includes a focus on curricular integration of cultural diversity, global awareness, technology, and integrating literature in social studies. Students will also explore integrating standards and teaching skills for reading and writing informational texts in social studies.

**Prerequisite:** ELED-300 with a minimum grade of C and SPED-317 with a minimum grade of C.

### **ELED-305. Teaching Science In The Elementary School. 3 Hours.**

This course focuses on the development of elementary science teaching skills and knowledge in grades 1-6. Emphasis is placed on designing inquiry-based science lessons to help linguistically and culturally diverse students engage in science. It addresses the importance of teaching scientific inquiry, the nature of science, and process skills using educational technologies and applying a 5E learning cycle to plan, teach, evaluate, and reflect on science lessons. The course content reflects the curricular emphases of the Next Generation Science Standards (NGSS).

**Prerequisite:** ELED-300 with a minimum grade of C and ELED-302 with a minimum grade of C and ELED-310 with a minimum grade of C and SPED-317 with a minimum grade of C.

### **ELED-306. Methods Of Literacy Instruction. 3 Hours.**

This course is designed for pre-service teachers to develop the knowledge and skills to teach literacy in elementary level classrooms, grades 1-6. Content includes: concepts of print, phonemic awareness, phonics, word knowledge, comprehension, and the writing process, assessment, grouping strategies and differentiated instruction. Issues of diversity and equity as they relate to literacy teaching and learning in today's 21st century context will be threaded throughout the course with an emphasis on working with diverse student populations.

**Prerequisite:** BLBC-339 with a minimum grade of C and ELED-328A with a minimum grade of C and ELED-303 with a minimum grade of C and ELED-309 with a minimum grade of C and ELED-305 with a minimum grade of C.

**Corequisite:** ELED-328B.

### **ELED-308. Instructional Design. 3 Hours.**

This course is an introduction to long and short-term curriculum planning and instruction. Candidates learn about the decisions involved in creating classroom communities that are inclusive, culturally responsive, and engaging.

**Prerequisite:** EDFN-305 with a minimum grade of C and EDFN-306 with a minimum grade of C.

**ELED-309. Content Area Literacy. 1.5 Hour.**

In this course, candidates will develop the knowledge, skills, and understandings to support the literacy development of students in elementary grades (1-6) with a focus on literacy in the content areas. Topics include: learning theories, literacy strategies in specific disciplines, assessment, differentiation, use of informational text, technology, and planning for instruction. Issues of motivation, engagement and cultural relevance are integrated throughout.

**Prerequisite:** ELED-300 with a minimum grade of C and ELED-302 with a minimum grade of C and ELED-310 with a minimum grade of C and SPED-317 with a minimum grade of C.

**Corequisite:** ELED-303.

**ELED-310. Methods Of Teaching Mathematics In The Elementary Grades. 3 Hours.**

This course is a study of instructional methods and materials for teaching mathematics to grades 1-6 elementary school level students, including linguistically, culturally diverse learners and exceptional children. Students explore theoretical and practical frameworks and develop materials, lessons, techniques, and assessments for the teaching of early and late elementary grade mathematics. Students engage in mathematical processes to promote critical thinking and explore elementary level math concepts and skills. Problem solving, modeling, teaching, and integrating elementary level mathematics in various content areas are emphasized.

**Prerequisite:** MATH-149 with a minimum grade of C.

**Corequisite:** ELED-308.

**ELED-313. Literature And Literacy In The Content Areas. 3 Hours.**

In this course, candidates will develop the knowledge and skills to support literacy development across the curriculum. Candidates will learn to select, analyze, and evaluate culturally diverse children's literature for use in the content areas.

**ELED-316. Critical Issues In Education. 3 Hours.**

In this course, candidates will examine pedagogical elements such as curriculum, instruction, assessment, classroom management, and more, through critical historical and contemporary perspectives.

**ELED-320. Classroom Management. 1.5 Hour.**

This course will provide teacher candidates with the theoretical and practical foundations necessary to manage and organize the classroom. The class will explore strategies and approaches for guiding student behavior, fostering engagement, and designing a classroom conducive to student learning. Candidates will develop a personal management plan based on the theorists examined and practical examples shared. Candidates will also design an ideal classroom to demonstrate understanding of creating learning contexts to motivate and engage all students.

**Prerequisite:** ELED-303 with a minimum grade of C and ELED-309 with a minimum grade of C and BLBC-339 with a minimum grade of C and ELED-328A with a minimum grade of C.

**ELED-328A. Clinical Experiences. 3 Hours.**

This course provides teacher candidates who are enrolled in BLBC-339 Culturally Responsive Teaching in Diverse Classrooms with intensive clinical experience in elementary classrooms with culturally and linguistically diverse (CLD) students. This course provides candidates with opportunities for supervised interactions with children in selected content areas. Candidates meet with a university supervisor in 3 weekly seminars. This course fulfills 100 clock hours of the 200 clinical experience hours required by the State for licensure.

**Prerequisite:** ELED-300 with a minimum grade of C and SPED-317 with a minimum grade of C and ELED-302 with a minimum grade of C and ELED-310 with a minimum grade of C.

**Corequisite:** BLBC-339.

**ELED-328B. Clinical Experience In Elementary Education. 3 Hours.**

ELED-328B provides intensive clinical experience in elementary schools for students enrolled in ELED-306. Involves supervised and graduated teaching interactions with children in literacy in 1-6 classrooms and includes weekly seminars. The seminars will provide intensive preparation and practice with EdTPA and a focus on the clinical context. This course fulfills 100 of the 200 required clock hours of clinical experiences.

**Prerequisite:** ELED-300 with a minimum grade of C and ELED-309 with a minimum grade of C and BLBC-339 with a minimum grade of C and ELED-328A with a minimum grade of C.

**Corequisite:** ELED-306.

**ELED-329. Student Teaching In Elementary Grades. 7.5-9 Hours.**

This course provides the teacher candidate with sixteen weeks of full day supervised classroom teaching experience combined with weekly class discussions.

**Prerequisite:** Illinois Content Area Test with a score of P.

**ELED-329B. Student Teaching In Elementary Grades. 3.75 Hours.**

This course provides the teacher candidate with sixteen weeks of full day supervised classroom teaching experience combined with a weekly seminar.

**Requirement:** Successful completion of all program courses with a minimum GPA of 3.0. Passing scores on content area tests.

**ELED-342. Classroom Assessment. 1.5 Hour.**

Provides the teacher candidates with a thorough understanding of the purposes, characteristics, and limitations of different types of assessments, including standardized assessments, universal screening, curriculum-based assessment, and progress monitoring tools. Candidates will examine the appropriate uses of formative and summative assessments for determining student needs, measuring student growth, and evaluating student outcomes. Candidates will understand how to make evidence-based decisions about curricular and instructional effectiveness and how to adjust practice to meet the needs of all students.

**Corequisite:** ELED-320.

**ELED-403. Teaching Mathematics In Elementary Grades. 3 Hours.**

This course is for prospective elementary school teachers to learn methods of teaching mathematics in grades 1-6, with an emphasis on culturally and linguistically diverse students, exceptional students, and gifted students in multicultural classrooms. The course provides teacher candidates an opportunity to reflect on their beliefs about teaching, learning, and expectations for students. Additionally, teacher candidates will become familiar with Common Core State Standards for Mathematics, different instructional models, teaching aids for learning mathematics concepts, and current technological resources for teaching mathematics.

**ELED-406. Research Skills For The Classroom Teacher. 3 Hours.**

Enables the regular classroom teacher to use tools and procedures that will demonstrate the working effectiveness of any instructional practice; thus, the teacher will develop data that will foster constructive decision-making for continued curriculum building.

**ELED-414. Principles Of Curriculum Development. 3 Hours.**

Fundamental criteria for curriculum planning and the principal types of curriculum patterns as they apply to various subject-matter disciplines; emphasis focused on the student's subject area of specialization and its applicability to the improvement of the curriculum in the classroom and in the school; study of selection and organization of learning experiences, as well as objectives and evaluation.

**Prerequisite:** EDFN-406 with a minimum grade of C.

**ELED-415. Teaching Science As Inquiry In Elementary Grades. 3 Hours.**

This course focuses on the development of elementary science teaching skills and knowledge in grades 1-6. Emphasis is placed on designing and implementing inquiry-based interdisciplinary science lessons to help linguistically and culturally diverse students engage in science. It addresses the importance of teaching scientific inquiry within the Next Generation Science Standard (NGSS) Framework, the nature of science, research and practices using classroom technologies, science misconceptions, differentiated instruction, classroom management, and informal and formal assessment strategies.

**ELED-416. Teaching Social Studies As Inquiry In Elementary Grades. 3 Hours.**

This course explores the theory and practice of teaching social studies in the elementary grades 1-6 with an emphasis on creating an inquiry-based classroom and designing project-based curriculum. Teacher candidates will learn about the vital role of social studies in a democratic society, teaching critical thinking and decision-making. The course includes a focus on cultural diversity, global awareness, technology, using children's literature in social studies, multiple forms of assessment, and standards. Candidates will also explore strategies for reading and writing informational texts in social studies. ELED-428C Clinical in the Content Areas will be taken simultaneously.

**ELED-417. Multicultural Literature And Drama In The Elementary Classroom. 3 Hours.**

Develops an in-depth understanding of multicultural literature and its application in the classroom through creative drama techniques which include improvisation, role-play, playmaking and guided imagery. Study, discussion and hands-on application through cooperative learning groups focusing on exploration of theoretical and pedagogical research and their relationship to thinking, listening, speaking, reading and writing competencies. Exploration of the use of visual arts and its application to the multicultural classroom.

**ELED-418. Theoretical Implications For Instruction In The Elementary Classroom. 3 Hours.**

The contributions of learning psychologists that are applicable to the teaching-learning process; areas explored include implications of learning in curriculum design, instructional methods, educational decisions and in the use of learning resources; relevant for the classroom teacher who attempts to utilize learning concepts in the classroom and in research.

**ELED-419. Current Issues In Elementary Language Arts Instruction. 3 Hours.**

Developmental of an understanding of principles and techniques of instruction in elementary school language arts; students to investigate research as it relates to the improvement of instruction in language arts.

**ELED-428. Clinical Teaching. 1 Hour.**

This 100-hour clinical teaching experience involves supervised, graduated, and interactive teaching situations with students in culturally and linguistically diverse school settings. This clinical experience and seminar focus on literacy instruction in elementary classrooms. Students will conduct classroom observations and practice teaching one-on-one, in small groups, and with the whole class. A university supervisor will observe students teaching a minimum of three times. Taken concurrently with ELED-504.

**ELED-428A. Clinical Teaching: Literacy. 1 Hour.**

This 50-hour clinical teaching experience involves supervised, graduated, and interactive teaching situations with students in culturally and linguistically diverse school settings. This clinical experience has a thematic focus on teaching reading, writing, and speaking. Clinical seminar is integrated into ELED-504 and ELED-435. Students will conduct classroom observations and will spend a minimum of 35 hours teaching one-on-one, in small groups, and with the whole class. A university supervisor will observe students teaching a minimum of two times.

**Prerequisite:** ELED-506 with a minimum grade of B and EDFN-442 with a minimum grade of B.

**Corequisites:** ELED-435, ELED-504.

**ELED-428B. Clinical Diversity. 1 Hour.**

This 50-hour clinical experience involves supervised, graduated, and interactive teaching situations with students in culturally and linguistically diverse school settings. This clinical experience has a thematic focus on teaching for human diversity, including cultural, linguistic, English language learners, students with special needs, gender, LGBTQ, and socioeconomic. Clinical seminar is integrated into BLBC-440. Students will conduct classroom observations and will spend a minimum of 35 hours teaching one-on-one, in small groups, and with the whole class. A university supervisor will observe students teaching a minimum of two times. Concurrency with EDFN-406 Human Development & Learning OR SPED-404 Survey of the Field of Special Education.

**Prerequisite:** ELED-506 with a minimum grade of B and (INMD-410 with a minimum grade of B or EDFN-442 with a minimum grade of B).

**Corequisite:** BLBC-440.

**ELED-428C. Clinical Teaching: Content Areas. 1 Hour.**

This 100-hour clinical teaching experience involves supervised, graduated, and interactive teaching situations with students in culturally and linguistically diverse school settings. This clinical experience has a content area and inquiry focus integrated through ELED-416 and a weekly seminar. Teacher candidates will observe as well as teach one-on-one, small groups, and the whole class in a content area. A university supervisor will observe students teaching a minimum of three times, once per subject. To be taken concurrently with ELED-416.

**ELED-429. Internship In Elementary Education. 6 Hours.**

In this course teacher candidates are engaged in full-time student teaching for the entire semester in an elementary classroom within grades 1-6. With support from their cooperating teacher and university supervisor, candidates gradually increase their classroom responsibilities and then assume responsibility for all curriculum planning and teaching for a minimum of five weeks. In this course, candidates complete their Illinois licensure requirement and present their MAT Exit Project. Teacher candidates will be observed a minimum of five times by their university supervisor.

**Requirement:** Completion of all MAT program courses, completion of all science and social science courses required by the Illinois State Board of Education, passing score on the ICTS Subject Area Test, and no more than two Cs in all program courses and a minimum grade of B in both clinical courses.

**ELED-429B. Internship In Elementary Education. 3 Hours.**

In this course teacher candidates are engaged in full-time student teaching for the entire semester in an elementary classroom within grades 1-6. With support from their cooperating teacher and university supervisor, candidates gradually increase their classroom responsibilities and then assume responsibility for all curriculum planning and teaching for a minimum of five weeks. In this course, candidates complete their licensure requirement and present their MAT Exit Project. Teacher candidates will be observed a minimum of five times by their university supervisor.

**Requirement:** Completion of all MAT program courses, completion of all science and social science courses required by the Illinois State Board of Education, passing score on the ICTS Subject Area Test, and no more than two Cs in all program courses and a minimum grade of B in both clinical courses.

**ELED-430. Trends And Issues In Assessment. 3 Hours.**

Reviews principles of educational testing and evaluation. Explores trends and critical issues in assessment with emphasis on the teacher's role in relating assessment to instructional objectives. Provides opportunities for students to study assessment strategies and issues specific to the level (elementary or secondary), linguistic-cultural background, and subject-matter area of their teaching or internship assignment.

**ELED-435. Children's And Young Adult Literature. 3 Hours.**

Students will read, peruse, and study all genres of diverse literature written for elementary and middle school students, grades 3-8, as well as some appropriate young adult literature. Topics emphasized are: identifying and locating high quality books, evaluating books for appropriate developmental stages, critical reading, integrating literature across the curriculum, designing curriculum with literature, teaching reading with literature, creating classroom libraries, using a wide variety of multicultural and global literature, connecting books to real-world resources, using literature to cover standards, motivating students to read, and appreciating good writing.

**ELED-453. Inquiry-Based Social Studies Instruction. 3 Hours.**

This course is a study of instructional methods and materials for teaching social studies through inquiry. Explores approaches to promoting children's cognitive and affective knowledge and understanding in the social sciences, including history, current events, and critical thinking skills. The course includes an exploration of teaching for cultural diversity, global awareness, and critical citizenship skills and dispositions, along with a focus on creating an inquiry-based social studies classroom, the teacher as a creator of curriculum and an in-depth examination of the literature within the field of social studies education.

**ELED-501. Curriculum And Instruction. 1 Hour.**

This course introduces teacher candidates to the fundamentals of curriculum and instruction: teaching and learning processes, instructional planning, classroom management, and critical thinking. Candidates explore the relationships between theory and practice and learn about the connections between individuals, classrooms and communities.

**ELED-504. Teaching Writing: Purpose, Voice, Craft. 3 Hours.**

This course is designed to provide teacher candidates with an in-depth exploration of Writer's Workshop and the theory, best practices, curriculum design and materials used in writing in the K-8 school setting. Candidates will engage in writing in a variety of genres using the Writing Workshop model. The course addresses differentiating instruction to meet the needs of diverse learners. To be taken concurrently with ELED-428 or MLED-428.

**ELED-506. Research Methodologies For Classroom Teachers. 3 Hours.**

A general survey of qualitative and quantitative research methods in educational research. The aim of this course is to develop candidates' abilities to design and conduct classroom-based inquiry related to teaching and learning. This course is designed to make candidates knowledgeable consumers of academic research. The survey of methods includes; a brief analysis of paradigms in qualitative and quantitative research, a discussion of the inquiry process, and an synthesis of research designs including; survey, narrative, experimental, ethnographic, correlation, case study, and action research. Action research design is discussed in details. This course is the first course in the sequence of 3 research courses (ELED-506, ELED-507, ELED-508).

**ELED-507. Action Research Design Seminar. 1 Hour.**

Candidates will design an action research plan that involves identifying a significant problem related to student learning in their current classroom. Candidates will locate and review relevant research on the designated problem, and design an intervention plan that will allow the candidate to examine the impact of instructional procedures or interventions on student learning. Candidates will develop reflective decision-making in using data to improve learning in elementary classrooms.

**Prerequisite:** ELED-506 with a minimum grade of B and ELED-525 with a minimum grade of B and ELED-520 with a minimum grade of B and BLBC-439 with a minimum grade of B.

**ELED-508. Action Research Project. 3 Hours.**

This course guides students through finalizing their action research design, implementing that design, collecting data, analyzing their data, and writing their action research paper. Students will implement their action research project in their classroom with a focus on understanding the process of data collection and analysis. Students will write their project as a major paper (including the literature study they completed in ELED-507 Action Research Design Seminar), and formally present their project as a PowerPoint to the class. This is a thesis-model hybrid course with some of the work and feedback given online and in conferences with the Instructor.

**Prerequisite:** ELED-506 with a minimum grade of B and ELED-525 with a minimum grade of B and ELED-520 with a minimum grade of B and BLBC-439 with a minimum grade of B and ELED-507 with a minimum grade of B.

**ELED-520. Curriculum And Inquiry. 3 Hours.**

This course is an overview of curriculum theory, development, design, and implementation for the experienced classroom teacher. The focus is on understanding the theory and practice of inquiry-based and project-based curriculum across subject disciplines, authentic literacy, and finding and using interesting and diverse real-world resources. Course emphasis is also on the history of curriculum development and schooling; and creating multicultural, critical, and creative curriculum that integrates technology, the arts, critical thinking, and standards. Students will critique and analyze their school curriculum and resources, and design curricular units for their own classroom.

**Prerequisite:** ELED-506 with a minimum grade of B and ELED-525 with a minimum grade of B.

**ELED-525. New Literacies For The 21st Century. 3 Hours.**

This course explores how the ideas and understandings of "literacy" have changed and evolved over the past century, the new literacies that are vital to life in the 21st century, and strategies for teaching those literacies. This course develops an understanding of designing curriculum and strategies for teaching critical thinking skills; collaboration; problem solving skills; media, technology, and information literacy; creativity and imagination; innovative thinking; civic, multicultural, and global literacy; critical literacy; environmental literacy; and systems thinking. The course will begin to study the theory and practice of inquiry-based, project-based, and problem-based teaching and learning, as well interdisciplinary curriculum and different forms of 21st century assessment, such as student exhibitions and presentations.

# English (ENGL)

---

## Courses

### **ENGL-101. Writing I. 3 Hours.**

ENGL-101 offers specialized instruction and practice in beginning level academic writing. Students will write several short essays, and by doing so, work with usage, grammar, style, and paragraphing.

**Requirement:** High School cumulative GPA 3.25 or stated prerequisites

**Prerequisites:** (ELP-120 or ELP-099 or NEIU English Placement Writing 7 - 9 or (Accuplacer WritePlacer 4 - 8 and Accuplacer Sentence Skills 095 - 120) or (Accuplacer WritePlacer 5 - 8 and Accuplacer Sentence Skills 020 - 120) or Accuplacer Writing 200 - 300).

### **ENGL-102. Writing II. 3 Hours.**

Continuation of practice in composition with emphasis on a variety of forms of writing and long essays, culminating in the annotated research paper.

**Prerequisite:** (ENGL-101 or NEIU English Placement Writing 8 - 9).

### **ENGL-109A. First Year Experience:Chicago's Literary Diversity: Reading The Neighborhoods. 3 Hours.**

This course explores how literary Chicago enters into discourses on race and ethnicity in twentieth century literature. Beginning with Great Migration, students sample literary history produced by people who settled or passed through Chicago. Writers have used Chicago as a setting for major works and sociological studies have attempted to focus on Chicago's neighborhoods and how they were formed as a result of immigration from other countries and migration from the American South. The course examines several works from popular perspectives, fiction, autobiography, journalism, humor, folktales, cultural criticism and regional studies to reach a better understanding of the city.

### **ENGL-109B. First Year Experience: Reading And Writing The Literary And Political Landscapes Of Chicago. 3 Hours.**

From the Haymarket "riot" of 1886 to the Pullman Strike of 1894 to the Black Sox scandal of 1919 to the trial of Abbie Hoffman and the Chicago Seven in the aftermath of the Democratic Convention of 1968, Chicago has, to say the least, a colorful and quite literally, explosive political history. As with any major urban center in the United States, Chicago bears the historical scars and contemporary fruits of vibrant and violent class conflict, labor insurgencies, racial strife, immigrant struggles, and activism for social justice. Part and parcel of this historical legacy is a rich spate of cultural production that attempts to comprehend this past in those historical moments and in our contemporary era.

### **ENGL-109C. First Year Experience:Drama And Diversity In Chicago. 3 Hours.**

In this class, we will analyze and experience Chicago theater. By emphasizing theater that challenges social cultural norms, we will consider how drama works to create and define diverse urban communities and how it offers alternative visions to the status quo. This class will emphasize writing and reading about drama, interviewing theater personnel and taking notes on actual theater performances, and relating art to social and political diversity. We will attend 3-4 performances during the course of the semester.

### **ENGL-109D. First Year Experience:Windy City Words: Ethnolinguistic Chicago. 3 Hours.**

This course integrates the five foundations of the First-Year Experience (Future Planning, Integral Preparation, Research, Self-Discovery, and Transitions) with concepts from the study of literacy and language. Using the city as a field site, students actively explore the linguistic and cultural diversity of Chicago through independent research, readings, online resources, speakers, and other experiences.

### **ENGL-109E. First Year Experience: Your Chicago: Write On!. 3 Hours.**

This course interweaves foundations of the First-Year Experience (Future Planning, Integral Preparation, Research, Self-discovery, Transitions) with specific concepts of creative writing. Explore and experience Chicago's vibrant cultural scene while cultivating literary culture in class. Students study their local literary heritage reading, analyzing, and discussing works of classic and contemporary Chicago authors and attending and annotating literary readings at local bookstores and cafes; experimenting with a range of writing exercises, prompts, and assignments, students will craft their own stories, recognize their unique writing process, and learn techniques to revise and polish their prose, culminating in a student reading.

### **ENGL-201. The World Of Poetry. 3 Hours.**

A literature course which has three main objectives: 1) to familiarize students with the literary conventions of poetry; 2) to develop in students a critical stance towards literature; and 3) to develop in students an appreciation of both western and non-western cultures as experienced through literature.

**Prerequisite:** ENGL-101 with a minimum grade of C.

### **ENGL-202. The World Of Drama. 3 Hours.**

A literature course which has three main objectives: 1) to familiarize students with the literary conventions of drama; 2) to develop in students a critical stance towards literature; and 3) to develop in students an appreciation of both western and non-western cultures as experienced through literature.

**Prerequisite:** ENGL-101 with a minimum grade of C.

### **ENGL-203. The World Of Fiction. 3 Hours.**

A literature course which has three main objectives: 1) to familiarize students with the literary conventions of the short story and novel genres; 2) to develop in students a critical stance towards literature; and 3) to develop in students an appreciation of both western and non-western cultures as experienced through literature.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**ENGL-203A. The World Of Creative Nonfiction. 3 Hours.**

The World of Nonfiction is a literature course which has three main objectives: 1) to familiarize students with the literary conventions of creative nonfiction forms, including memoir and personal essay; 2) to develop in students a critical stance toward literature; and 3) to develop in students an appreciation of both western and non-western cultures as experienced through literature.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**ENGL-205. Literatures And Literacies. 3 Hours.**

This course an introduction to language arts for elementary education majors. As such, it provides practical foundation in the methods essential to the study of language arts, including active reading, critical thinking, and purposeful writing, and it includes skills such as note taking, quoting, using MLA style, summarizing arguments, and synthesizing and documenting others' opinions. This course will also explore multiple perspectives on controversial topics relevant to literary and literacy studies.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**ENGL-206. The Bible As Literature. 3 Hours.**

This course introduces students to the major characters, settings, and literary devices of the Bible. It deepens students' understanding of the history of canon formation, textual scholarship, and interpretation as it relates to the Bible. Further, it expands their appreciation of the impact of the Bible on literature, history, and culture.

**Prerequisite:** ENGL-101 with a minimum grade of C and ENGL-102 with a minimum grade of C.

**ENGL-207. Banned Books: Challenges And Censorship. 3 Hours.**

This course considers book challenges / bans from different disciplinary perspectives. Students will read representative samples, learn about the history of book bans, and explore debates about reading challenged / banned texts as well as consider these issues within larger social and cultural contexts.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**ENGL-209A. Red Scare: Literature Of The McCarthy Era. 3 Hours.**

The course focuses on the perceived communist threat on 1940s/50s United States and how politics affected writers such as Arthur Miller, Langston Hughes, Lillian Hellman and others as well as screenwriters in Hollywood through such films as On The Waterfront and High Noon. Research papers and projects will draw connections between societal perceptions of the times and their influence on Hollywood films and literature through genres of fiction, poetry, and drama.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**ENGL-210. Writing Intensive Program: Methods for English Majors. 3 Hours.**

Writing Intensive course designed as first course for English majors. Provides practical foundation in the methods essential to English Studies: active reading, critical thinking, and purposeful writing. Skills such as note taking, quoting, using MLA style, summarizing arguments, and synthesizing and documenting others' opinions will be emphasized. Course will also explore multiple perspectives on controversial topics relevant to the discipline. Coursework develops strategies of effective critique, argument, and analysis, and will consist of informal writing, review essays, and thesis-driven analyses of rhetorical and literary texts. Open discussion and critical thinking required.

**Prerequisite:** ENGL-101 with a minimum grade of C and ENGL-102 with a minimum grade of C.

**ENGL-218. American Literature:Beginnings To 1865. 3 Hours.**

A course covering representative writing of the Colonial, Early National and Romantic periods in American literature, emphasizing both dominant and emergent themes and literary forms in each period where students will build the necessart cultural literacy for higher-level courses in American Literature.

**ENGL-219. American Literature:1865 To The Present. 3 Hours.**

A course covering representative writings of the Realist, Modern and Postmodern periods in American Literature, emphasizing both dominant and emergent themes and literary forms in each period. Here students will gain a broad background for higher-level courses in postbellum American Literature.

**ENGL-221. English Literature:The Beginnings To C. 1750. 3 Hours.**

Representative works in English literature from Beowulf to the middle of the eighteenth century.

**ENGL-222. English Literature: C. 1750 To The Present. 3 Hours.**

Representative works in English literature from the middle of the eighteenth century to the modern era.

**ENGL-235. Introduction To Creative Writing I. 3 Hours.**

This course, for any student across the University, introduces the terms, notions, and practices of Creative Writing, as a discipline that includes non-fiction, short fiction, poetry, and drama.

**ENGL-250. Bilingual Creative Writing: Spanish And English. 3 Hours.**

This course offers preliminary study in Creative Writing in Spanish and English. It enables students to study creative writing in the bilingual mode and to 1) develop effective approaches to the craft of writing, 2) explore new techniques of the craft, and 3) consider their own craft and techniques in the context of two languages.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**ENGL-291. Children's Literature. 3 Hours.**

Preparation for effective teaching of literature in the elementary school; wide reading of books for young children; story selection and story telling; authors and illustrators of children's books; classroom methods of stimulating creative expression; individual and group reading guidance.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-300. Russian Literature: From Gogol To Chekhov. 3 Hours.**

Works (primarily novels, novellas and stories) of the major figures in nineteenth-century Russian literature (Turgenev, Tolstoi, Dostoyevski, etc.), relating them to the social, political and religious issues they touched on.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-301. Independent Study In English. 1 Hour.**

An independent study on the tutorial model, initiated at the student's suggestion to an instructor; course content designed in consultation with the instructor. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-301A. Special Topics In Literature And Culture: Department-Taught Course. 1 Hour.**

A 1-credit, 8-week course taught by multiple faculty members of the English department. Every week, the course will be lead by a different professor. Sample special topics include "Popular Culture During the Great Recession"; "the Rhetoric of the Long Civil Rights Movement"; and "Romanticism and Revolution." No formal papers. No tests.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**ENGL-302. Literatures And Theories Of Love. 3 Hours.**

What does it mean to love? As philosopher John Armstrong writes, "This is to raise one of the deepest, and most puzzling, questions we can put to ourselves." This course explores diverse narratives and theories of love, especially emerging from marginalized thinkers such as bell hooks, James Baldwin, and Emma Pérez. As the course explores, love not only underwrites conceptions of the self, but more broadly, enables and generates new forms of community, ethics, and politics. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-303. Contemporary LGBTQ+ Literature. 3 Hours.**

This course uses an intersectional approach to explore fiction, film, and other texts that address the ways LGBTQ+ identities are layered, fluid, evolving, and sometimes conflicting. We will emphasize close reading of fiction, the ability to write clearly and analytically about literature, the history and culture of LGBTQ+ lives, and the role literature plays in our everyday lives. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisite:** and.

**ENGL-304A. Literary Editing. 3 Hours.**

Students will learn and implement skills involved in literary editing, including developmental and copy editing, and proofreading, supporting the production of the annual issue of SEEDS: A Literary & Visual Arts Journal or a collaborative anthology.

**Prerequisite:** ENGL-235 with a minimum grade of C.

**ENGL-305A. Literary Publishing. 3 Hours.**

Students will learn and implement skills involved in the publication of a literary journal, including navigation of process and product, supporting the production of the annual issue of SEEDS: A Literary & Visual Arts Journal or a collaborative anthology.

**Prerequisite:** ENGL-235 with a minimum grade of C.

**ENGL-307. Medieval Studies- The Development Of The Arthurian Legend. 3 Hours.**

The legend of King Arthur from allusions in early chronicles, through Welsh folk tales, through the courtly versions of twelfth-century France to the compilation by Sir Thomas Malory. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-308. English Literature From Beowulf To Malory. 3 Hours.**

A survey fo English Medieval literature that, in dealing with majore works (e.g. Beowulf, The Canterbury Tales, Morte D'Arthur, etc.), situates them in the revelant political and linguistic contexts, as well as the literary context of competing "minor" works and genres. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-309. Reading & Writing In A Changing Digital Economy. 3 Hours.**

Through hands on experience and theoretical and rhetorical analyses, students will explore processes and issues with writing and reading in digital environments. Topics include connecting visuality with the written word, exploring online textual identities, collaboration and intellectual property, and web design, with an emphasis on how writing in digital environments impacts English studies. Students will produce a variety of non-traditional and traditional academic texts in this course, using current presentation, web-based or freeware programs. The class is open to students who are new to digital writing but will also benefit those with experience in composing New Media and digital texts.

**ENGL-310. Writing Intensive Program:Introduction To Composition Studies. 3 Hours.**

Examines some contemporary issues in composition studies, such as process theory, the role of grammar in writing instruction, digital and visual literacies, and scholarly considerations of writers' subjectivities. Introduces the discipline's modes of inquiry: theory, empirical research, and practice. Provides instruction in professional resources and bibliographic databases so that students can become independent learners in the discipline. Written assignments include responses to readings and a literature review. This course fulfills the NEIU Writing Intensive requirement for Secondary Education English majors and for English majors who as transfer students may have already taken a course comparable to ENGL-210.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-311. Introduction To Popular Culture Studies. 3 Hours.**

This course introduces students to the theoretical debates and interpretative strategies of popular culture studies. Using an interdisciplinary approach, this course explores how popular culture is produced, distributed, consumed, and responded to in diverse, contradictory ways. Forms analyzed will include movies, comics, television, photography, music, fan fiction, and video games.

**ENGL-312. Literature Of Colonial Times. 3 Hours.**

Prose and poetry of the Puritan and Revolutionary eras. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-313. American Literary Renaissance-1830-1860. 3 Hours.**

Prose and poetry of Hawthorne, Melville, Emerson, Thoreau, Whitman, Dickinson, and others. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-314. Chaucer And His Age. 3 Hours.**

Close study of selected early poems of Chaucer (ballads, envoys, and narratives), to present and introduction to the language and themes of Chaucer's poetry and his age. The major portion of the course will be devoted to a close reading of *The Canterbury Tales* in the original Middle English. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-315. Literature Of The English Renaissance. 3 Hours.**

Prose and poetry (not drama) of the English Renaissance in the sixteenth century. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-316. Forms Of Poetry. 3 Hours.**

This course will examine some of the traditional poetic forms-lyric, narrative, and dramatic- which have been used by poets throughout literary history. Readings and discussion will engage students in an analysis of each form- its technical characteristics, its place in literary history, and its relevance to contemporary writers and readers of poetry. Students will write imitations of several poetic forms as well as critical essays about them. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-317. Modern American Drama. 3 Hours.**

This course considers the development of modern American drama, as well as the contributions of regional and storefront theaters. It also examines the convergences and divergences of drama as literature and performance, as well as other challenges and limits to understanding modern American drama, and concludes with original research presentations by students. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-319. Writing Culture And Identity. 3 Hours.**

In this course, students will explore theoretical, political, and cultural understandings of difference and identity through intensive reading and writing. Students will develop a deep understanding of cultural difference and the ability to write argumentative, personal, and theoretical essays about human diversity in a variety of forms.

**Prerequisite:** ENGL-101 with a minimum grade of C and ENGL-102 with a minimum grade of C.

**ENGL-320. Globalizing Literacies. 3 Hours.**

This course presents textual circulation as trade in cultural practices throughout early modern or protoglobalization (1600-1800) when European traditions were exported to the United States that, after being established through cultural syncretism, were exported to the rest of the world throughout the first (1870-1914) and second (1980-present) globalization periods. From these perspectives, students will examine central themes in textual production and consumption, such as the development of an American literary tradition and Americanization educational initiatives through particular genres, such as newspapers and magazines, as a part of a nationalized cultural identity, including ways this identity has been resisted and reconfigured.

**ENGL-321. Literature Of The Romantic Movement. 3 Hours.**

Poetry and prose from 1780 to 1830 including Blake, Burns, Wordsworth, Coleridge, Byron, Shelley, Keats, Lamb, Hazlitt, and DeQuincey.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-322. The American Short Story. 3 Hours.**

The evolution of the American short story as a self-conscious form of literature from Washington Irving to Joyce Carol Oates. The theories of Romanticism, Realism, Naturalism are illustrated. Each student selects one writer of short stories to explore in some depth through an individual report. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-323. Modern British Drama. 3 Hours.**

This course examines the development of modern British drama since the 1890s, studying writers like Shaw, Wilde, Yeats, O'Casey, Beckett, Pinter, Stoppard, and Churchill. Covering over a century of a dynamic period in the history of British drama, this course explores important influences such as Norwegian Henrik Ibsen's Realism, French "Symbolisme" Movement, Irish Literary Revival, poetic drama, the Theatre of the Absurd, and Postmodernist aesthetics. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-324. The Romantic Novel. 3 Hours.**

The nineteenth century novelists from England and the Continent are studied against the great socio-political movements of the age- the French, Russian and Industrial Revolutions. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-325. Gothics: Image, Music, Text. 3 Hours.**

This course examines American literature, film, music and art engaging in gothic aesthetics and/or traditions. Readings will be anchored in one or two major works of cultural theory (such as Barthes' Image-Music-Text). Coursework will stretch across geographic and historical contexts and be grounded in aesthetic, philosophical, psychological, and sociopolitical frameworks including the following: what is considered/constructed as abhorrent at a given time, and why? how have minoritized subjects played with fear towards self-empowerment and even resistance? what are the sociopolitical roots of figures such as vampires and (sometimes) ghosts? how have under-represented writers shaped, transformed and revised the traditional gothic?.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-326. Readings In World Literature. 3 Hours.**

Students will study a variety of genres and themes in literary and cultural traditions across the globe, involving works either written in English or in translation. Exploring the commonalities of human experience as well as the political and historical contexts that inform stark differences in the human condition and its expression, the course will be grounded in theories of race, gender and class even while it sharpens students' appreciation for unique cultural forms and the challenges posed in cross-cultural translation.

**Prerequisite:** ENGL-102 with a minimum grade of C and ENGL-210 with a minimum grade of C.

**ENGL-327. Chicago Drama. 3 Hours.**

This course examines the history of Chicago drama from the early performances of Joseph Jefferson to modern and contemporary playwrights, such as Lorraine Hansberry and David Mamet, who have found success in or been shaped by Chicago, as well as its contributions to drama in the U.S. and around the world. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-328. Seventeenth Century Literature. 3 Hours.**

Studies in seventeenth century literature exclusive of Milton. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-329. Milton. 3 Hours.**

Milton's work and the intellectual milieu of the period. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-330. Shakespeare: Comedies, Romances And Poetry. 3 Hours.**

This course explores Shakespeare's comedies, their late transformation into romances, and select narrative poetry. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-331. Shakespeare: Tragedies And Histories. 3 Hours.**

This course explores Shakespeare's works in the genres of tragedy and history, emphasizing close reading and historical context. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-332. Elizabethan And Jacobean Drama. 3 Hours.**

Exploration of English dramatic works from circa 1580-1642, including Marlowe, Greene, Middleton, Marston, Dekker, Jonson, Webster, and Beaumont. This course will pay particular attention to genres that dominate outside the Shakespeare canon (revenge tragedy, city comedy, tragicomedy), as well as detailing the social, cultural, and intellectual developments that characterize this golden age of English stagecraft. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-333. Mythological Backgrounds Of English And American Literature. 3 Hours.**

Middle-Eastern, Nordic and Graeco-Roman mythological systems; reading in archetypal interpretation of literature with representative illustrations from fiction, drama and poetry. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-334. Biblical Backgrounds Of English And American Literature. 3 Hours.**

Influence of the Bible, especially the King James version, on the style and content of famous English and American writers. Selected reading from Old and New Testaments and from writers influenced by them. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-335. Written Communications For Business. 3 Hours.**

Designed primarily for Business and Management majors covering principles and practices of writing required in professional work. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-336. Technical Writing. 3 Hours.**

This course asks students to study the ways writers prepare professional documents, including reports, proposals, and web sites, in a world where our languages are becoming increasingly technical, jargon-filled, and diverse. Students will write in these modes as well to give them experience with the kinds of technical writing they may encounter in fields such as business, science, engineering, and more.

**Prerequisite:** ENGL-101 with a minimum grade of C and ENGL-102 with a minimum grade of C.

**ENGL-337. DC And Marvel Superheroes: Aesthetics, Ethics, Politics, And Commerce. 3 Hours.**

Over the course of the twentieth century, superheroes have elevated into a popular artform. Moreover, they have become vehicles for thinking about political movements; figures for engaging in ethical debates; and intellectual properties buttressing multi-million-dollar, multimedia franchises. This course will focus on how mainstream US comics (DC and Marvel) imagine heroism and justice across the decades during different historical crises from the Great Depression to Black Lives Matter. As this course foregrounds, superheroes must be studied within the matrices of class, race, ethnicity, gender, sexuality, nationality, and disability. No prior knowledge of comics is necessary. Capes are optional.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-338A. Literature, Bodyminds, And Disability Studies. 3 Hours.**

This course studies literature that challenges what a "normal" bodymind is and literature that recognizes and critiques how ideologically "normal" bodyminds form the basis of dominant narratives, values, and institutions. Breaking away from the paradigm of ableism (disability discrimination), this course historicizes the various constructions of disability (cognitive, fatness, ugliness, illness, injury, motor, sensory, race, sexuality, and citizenship), and explores how creative writers and activists shatter the paradigm of ableism to imagine new narrative forms that foreground a more diverse, capacious, democratic, imaginative, and socially-just world.

**ENGL-340. Independent Study In English. 2 Hours.**

An independent study on the tutorial model, initiated at the student's suggestion to an instructor; course content designed in consultation with the instructor. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-340A. Elements Of Style For Creative Writers. 3 Hours.**

The course will cover style conventions of the English language, including: punctuation, grammar, usage, and sound. There will be a focus on sentence and line analysis. Students will consider how these conventions and their deployment impact a reader's experience, and the issues of perspective, power, and bias encoded therein. Students will also develop a working definition of their own writerly style while experimenting in using, subverting, and experimenting with conventions. Students will be encouraged to work within their own desired genre(s); the reading selections will be modern and contemporary texts which move across fiction, nonfiction, poetry, drama, and hybrid.

**Prerequisite:** ENGL-101 with a minimum grade of C and ENGL-235 (may be taken concurrently) with a minimum grade of C.

**ENGL-341. Restoration And Eighteenth Century Literature I. 3 Hours.**

Politics in England leading to the restoration of Charles II; his court; Restoration playwrights; the bawdy Restoration stage and reaction to it; the new sentimental drama; the newspaper and the essay. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-342. Restoration And Eighteenth Century Literature II. 3 Hours.**

Intensive study of contrasts in the Age of Enlightenment; interrelationship of politics and writers; neoclassic literature; beginning of the novel; eighteenth century criticism and biography. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-343. Global Ecologies: U.S. Literature In The Age Of Environmentalism. 3 Hours.**

This interdisciplinary course explores why studying the environment is one of the most urgent, intellectual responsibilities of all disciplines, including English. Global Ecologies centers on how the environment is represented, imagined, and refigured across a range of literary and cultural texts, and the course studies how the environment is inextricable from understanding a range of social relations from race and class to ethics and politics.

**ENGL-344. Literatures Of Incarceration. 3 Hours.**

This class will examine the literatures that emerge from or deeply engage experiences of prison and confinement. It may consider literature from around the globe and from various moments in history (from authors such as Dostoyevsky, Mandela, and Soyinka), but the focus will be on contemporary work that considers US incarceration from the 1950s through today. This course will also consider how narrative can give voice to those who are incarcerated as it illuminates the many ways mass incarceration traps us all.

**Prerequisite:** ENGL-101 with a minimum grade of C and ENGL-102 with a minimum grade of C and ENGL-210 with a minimum grade of C.

**ENGL-345. Practical Criticism. 4 Hours.**

This course provides an upper level survey of some of the more important critical approaches to literature, with an emphasis on practical applications as well as theory. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-346A. Critical Writing For Creative Writers. 3 Hours.**

This course is a seminar and writing workshop for creative writers. Students will examine assigned models; choose outside reading of their own; produce various creative, creative-critical, and critical-creative pieces; submit at least one book review for possible publication; and through this process "enter the discourse."

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-347. Rust Belt Literature. 3 Hours.**

This course will introduce students to literature (poetry, fiction, non-fiction) of the region of the United States known as the Rust Belt in its historical, political, social, aesthetic, and broader cultural contexts, including the process of its continual redefinition. Students will read representative texts from a diverse range of authors and periods, and discuss such issues as desegregation, clean water, racism, and classism, among others.

**Prerequisite:** ENGL-102 with a minimum grade of C and ENGL-210 with a minimum grade of C.

**ENGL-348. Prose And Poetry Of The Victorian Age. 3 Hours.**

Selected Victorian poetry, with consideration of the social background of the period (1837-1910). Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-349A. Toni Morrison: A Deep Dive. 3 Hours.**

In contrast to other advanced courses covering diverse writers working within a genre, literary period or cultural situation, this course is a "deep dive" into the particular social, political, and economic factors contributing to the work of a single author over the long arc of her career, along with her particular contributions to literary culture in her time. Extensive reading involving a representative array of Toni Morrison's work and a wide variety of critical essays on that work will provide students excellent bases for their research, writing, and class discussion, culminating in an essay or creative project suitable for public presentation or publication.

**Prerequisite:** ENGL-101 with a minimum grade of C and ENGL-210 with a minimum grade of C.

**ENGL-349B. James Baldwin: A Deep Dive. 3 Hours.**

In contrast to other advanced courses covering diverse writers working within a genre, literary period or cultural situation, this course is a "deep dive" into the particular social, political, and economic factors contributing to the work of a single author over the long arc of his career, along with his particular contributions to literary culture in his time. Extensive reading involving a representative array of James Baldwin's work and a wide variety of critical essays on that work will provide students excellent bases for their research, writing, and class discussion, culminating in an essay or creative project suitable for public presentation or publication.

**Prerequisite:** ENGL-101 with a minimum grade of C and ENGL-210 with a minimum grade of C.

**ENGL-349G. Gloria Anzaldúa: A Deep Dive. 3 Hours.**

In contrast to other advanced courses covering diverse writers working within a genre, literary period or cultural situation, this course is a "deep dive" into the particular social, political and economic factors contributing to the work of a single author over the long arc of her career, along with her particular contributions to literary culture in her time. Extensive reading involving a representative array of the author's work and a wide variety of critical essays on that work will provide students excellent bases for their research, writing and class discussion, culminating in an essay or creative project suitable for public presentation or publication. This section of the course focuses on the work of Gloria Anzaldúa, as well as her collaborators and literary intellectual/artistic successors.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-349W. August Wilson: A Deep Dive. 3 Hours.**

In contrast to other advanced courses covering diverse writers working within a genre, literary period or cultural situation, this course is a "deep dive" into the particular social, political, and economic factors contributing to the work of a single author over the long arc of his career, along with his particular contributions to literary culture in his time. Extensive reading involving a representative array of Wilson's work and a wide variety of critical essays on that work will provide students excellent bases for their research, writing, and class discussion, culminating in an essay or creative project suitable for public presentation or publication.

**Prerequisite:** ENGL-101 with a minimum grade of C and ENGL-102 with a minimum grade of C and ENGL-210 with a minimum grade of C.

**ENGL-350. The Victorian Novel. 3 Hours.**

A study of the development of the novel in England from Dickens to Hardy, seen against the contemporary social and literary background. Theme and technique of the novel, methods of publication, major and minor writers. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-351. The English Novel Of The Eighteenth Century. 3 Hours.**

The development of the English novel as a genre in the eighteenth century, including such precursors of the novel as Bunyan, Defoe, Lyly and Behn. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-352. Jewish-American Literature: People Of The Books. 3 Hours.**

This course studies how the United States shapes the meaning of Jewish identity and culture, and conversely, how Jewish literature helps shape the meaning of American identity and culture. Working in a range of forms from comic books to genre fiction, Jewish writers throughout the modern era creatively and critically interrogate and re-imagine what it means to be Jewish-American, and more broadly, investigate and challenge what it means to be American. Required: ENGL-210 and one other English course at the 200 level.

**ENGL-353. Writing About Music In The U.S.: Contemporary History And Criticism. 3 Hours.**

This is a course designed for students who want to read, write, and think about music—and, by extension, literature and culture—more critically. This is not a survey of canonical writing about music, but it will focus on predominantly American writing of the last 20 years that challenges various narratives about popular music, including hip hop, rock, pop, country, and jazz. The course will focus on argumentative and often scholarly writing about music, and each student will write an extended piece of writing about music. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisite:** ENGL-101 and.

**ENGL-354. Star Wars: Narratives, Politics, And Economics Of A Billion-Dollar, Multi-Media Franchise. 3 Hours.**

Star Wars is a billion-dollar franchise that spans multiple generations, nation-states, and media forms. The ever-expanding empire includes movies, novels, toys, comic books, video games, television shows, fan fiction, and cosplay. Taking a multidisciplinary and transmedia approach, this course studies how this fictional galaxy is informed by wider historical, political, economic, and cultural processes from the economic and energy crises of the 1970s to social justice movements in the present. The course explores questions such as: How do historical crises inform global franchises? How do marginalized voices occupy a franchise? No prior knowledge of Star Wars is necessary.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**ENGL-355. The Production Of "America": Work, Class, & Political Economy In U.S. Literature & Culture. 3 Hours.**

This class will explore U.S. literature and culture with an eye toward understanding the material conditions of production in the United States, particularly as represented in literary and cultural works, as well as how national identity is ideologically produced in U.S. culture. The class will foreground issues of class and political economy in reading literature and culture from a working-class perspective.

**Requirement:** English 101 with a C or better, and two of the following: ENGL-210 and one other English course at the 200 level

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-356A. Graphic Novels And Comics. 3 Hours.**

This course studies comics as a complex medium that offers new ways to think about and represent a range of social and cultural issues, such as gender, sexuality, race, ethnicity, class, national belonging, and the environment. Students will learn the critical vocabulary necessary to understand how the medium works, and read diverse comics in various historical and geographical contexts. Required: ENGL-210 and one other English course at the 200 level.

**ENGL-357. Land, Labor, & Literature: Studying The Works Of U.S. Working-Class & Colonized Writers. 3 Hours.**

We will study the representations of land and labor and the desire to reclaim them in the works of working-class and colonized writers in the U.S. Particular attention will be paid to the historical and cultural contexts in which texts are produced as well as theories of class and race.

**ENGL-358. Making Your Liberal Arts Degree Work: Writing For The Professional World & Internships. 3 Hours.**

This course provides a personal and professional communications orientation, covering the integrated landscape of digital media. Students will learn to adapt their writing for such practices as social marketing, blogging, headline writing, messaging, networking, community building and resumé development. Whether a students' ultimate career goals lead them to freelance, startup, non-profit or corporate endeavors, this course helps students learn more about putting their degree to work. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-359. Independent Study In English. 3 Hours.**

An independent study on the tutorial model, initiated at the student's suggestion to an instructor; course content designed in consultation with the instructor. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-360. Detective Fiction. 3 Hours.**

Literary and historical study of the detective story- from Poe and Sherlock Holmes- to Hammett and the present. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-361. Development Of The American Novel. 3 Hours.**

The novel as a developing form from Charles Brockden Brown to William Faulkner and beyond. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-362. United States Fiction: Traditions And Counter-Traditions. 3 Hours.**

A study of canonical and non-canonical fiction in the United States and the varieties of traditions composing U.S. literary history. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-364. Reading Film. 3 Hours.**

A course in film emphasizing methods of reading films as we would texts. Through close viewing, critical analysis of narrative structure, attention to visual form and representational practice, students will explore the complexity of film beyond the level of "entertainment." To paraphrase a famous question asked about poetry, this course will explore "how a film means." Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-365. Caribbean Literature. 3 Hours.**

This course will introduce students to literature (poetry, fiction, non-fiction, and drama) of the Caribbean in its his historical, political, social, and cultural contexts. Students will discuss such issues as cultural and racial hybridity, immigration/emigration/exile, and post-colonization, among others. Students will read representative texts from a diverse range of authors such as Jean Rhys, V.S. Naipaul, Earl Lovelace, Edwidge Danticat, and Junot Díaz. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-367. Re-Thinking Race And Gender. 3 Hours.**

We start with historical narrative, re-thinking how we learn to practice race and gender from within the larger systems of white supremacy and patriarchy. The course explores models for disrupting systemic patterns, and ways to turn rethinking into everyday action. The aim throughout is to interrogate structures and relations of race and gender, and how they get naturalized. Designed and cross-listed for advanced undergraduates, graduates, and teachers. When taught as a Summer Institute, course runs for eight days over three weeks. Required: Junior/Senior or Graduate status, or instructor consent. Prereqs: ENGL-101 with a grade of "C" or above.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**ENGL-368. American Realism. 3 Hours.**

An examination of the literature that reflects the movement from American romanticism to realism and through realism to literary naturalism, approximately 1865-1910. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-369. U.S. Latino/a Literature And Culture. 3 Hours.**

This course introduces students to Latino/a literatures in the US from the contact period to the present. It offers an overview of major forms and themes in literature from Latino/a native, immigrant and exiled writers with in-depth analysis of representative texts from various genres including essays, novels, poetry and drama. Writers will include Latino/as of North American, Central American, South American and Caribbean descent. The course is taught in English with readings in original English or translation. Readings, assignments, instruction and discussion will focus on questions of aesthetics, culture, politics and history, with an added emphasis on inclusion of under-represented groups and intercultural connections.

**ENGL-370. Folklore And The Fairy Tale. 3 Hours.**

Readings from both traditional and contemporary folktales, including modern adaptations of traditional stories. Emphasis on similarities in different tales, and the differences in similar ones, with the aim of learning how the same elements pervade the archetypal stories and how variations in detail bespeak different ethnic and cultural interests and concerns. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-371. Studies In Women's Literature. 3 Hours.**

Literature by or about women; includes writing by women, portrayals of female characters, attitudes toward women and women's roles; other thematic concerns. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-372. American Women Writers Of The Nineteenth Century. 3 Hours.**

Comprehensive study of texts and contexts of women's writing in the US during the nineteenth century, including the origins of its feminist tradition. Texts include a variety of genres (novel, short story, lecture, travel narrative) and traditions (sentimental, romantic, realist, political, utopian). Special emphasis on the social, political, economic and legal forces bearing upon women as professional writers along with the ways women's fiction articulates the realities of nineteenth-century women's lives. Assignments include close reading of individual texts and a more comprehensive final project involving primary research. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-373. Yiddish Literature In Translation. 3 Hours.**

Yiddish literature from its beginning to the present from Eastern European and West Germany to the East Side and West Roosevelt Road. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-374A. Hybrid-form Writing. 3 Hours.**

This course examines models related to and provides tools for the production of Hybrid-form Writing (writing in and across multiple genres/forms). Hybrid-form work takes place at both the discrete level (individual, usually long-form pieces) and the manuscript level (a book-length project that relies on multiple forms). The emphasis is on long-form/extended projects, which must be rooted in a considered line of inquiry. This inquiry happens at multiple stages and levels: students experiment with different forms, students engage in pre-writing to conceive of projects, and students consider how form affects content/why certain forms might be culturally or personally privileged.

**Prerequisite:** ENGL-235 with a minimum grade of C and (ENGL-384 with a minimum grade of C or ENGL-386 with a minimum grade of C).

**ENGL-374B. Creative Writing: Flash Forms. 3 Hours.**

Flash forms are often studied (if at all) as a footnote within a contemporary literature or creative writing course, the literary version of the short story's cute younger cousin. However, while flash forms have become increasingly popular over that past two decades, they have been around for centuries. In this course, students will investigate the form's origins and the cultural contexts and developments that gave rise to its current prevalence. Students will study and practice specific craft elements while also exploring the plasticity of the form. They will read and write stand-alone pieces and investigate the possibilities and varieties of collections and chapbooks of flash.

**Prerequisite:** ENGL-101 with a minimum grade of C and ENGL-235 with a minimum grade of C.

**ENGL-374N. Writing The Now: A Cross-Genre Writing Workshop. 3 Hours.**

Students will respond to current sociopolitical issues via creative writing work across genres including fiction, creative nonfiction/the personal essay, poetry, drama/screenwriting, graphic narrative, and more, while examining writers' and artists' responses to historic moments and movements. The course will also cover hyper-contemporary creative and theoretical texts, while considering how literary art gets politicized and otherwise activated in the moment. Students will work independently on a multi-genre semester-long portfolio and share writing within the classroom community, as well as in a public-facing symposium.

**Prerequisite:** ENGL-101 with a minimum grade of C and ENGL-235 with a minimum grade of C.

**ENGL-375. Becoming A Writing Tutor. 3 Hours.**

This class considers theories of writing and the teaching of writing and trains students to become writing tutors. Students will apply the knowledge gained in class as they work with undergraduate writers, helping them to create ideas, draft and revise essays, and edit their work. To succeed in this class, students need to be strong writers and collaborators and to have an interest in the practice and politics of writing.

**ENGL-376. Advanced Composition. 3 Hours.**

Interdependence of rhetoric, grammar, logic, semantics, psychology, and criticism in communication of ideas; practice in various types of writing with focus on students' interest.

**ENGL-377. Argumentative Prose. 3 Hours.**

An advanced course in which students will learn to write argumentative essays on a wide range of subjects, using as models for discussion the argumentative prose of professional writers. The course will cover many aspects of argumentative writing, including the study of inductive and deductive reasoning and logical fallacies and the analysis of organizational and stylistic techniques. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-378. Twentieth Century Fiction I. 3 Hours.**

Development of the modern novel from Conrad to writers of the 1930s and 1940s against a background of historical and literary movements; emphasis on Conrad, James, Joyce, Lawrence, Faulkner and Hemingway. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-379. Twentieth Century Fiction II. 3 Hours.**

Development of the novel in English in recent decades against a background of historical and literary movements; includes work of West, Green, Lowry, Durrell, Bellow, Nabokov, Burgess, Barth, Lessing, Murdoch, Mailer, Updike and Pynchon. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-380. Multi-Cultural Literature In America. 3 Hours.**

Designed for future teachers of English, the multi-genre course provides students with an awareness of representative literature from the various ethnic cultures that are a part of American Life. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-381. African-American Literature. 3 Hours.**

A survey of African-American Literature in its social, cultural, and political context, beginning with Phyllis Wheatly, continuing through the slave narratives of the pre-Civil War era to the masterpieces of the Harlem Renaissance and the works of contemporary writers, such as James Baldwin, Toni Morrison, Ishmael Reed, Alice Walker, August Wilson and Gwendolyn Brooks. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-382. Chicana/o/x Literature. 3 Hours.**

This course examines the emergence and development of Chicana/o/x literature in relation to the historical conditions that gave rise to it within the Chicana/o/x Movement and the definition and redefinition of Chicana/o/x identity and politics. The course will also focus on feminist and LGBTQ perspectives within Chicana/o/x Literature and the Chicana/o/ movement. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-383. Postcolonial African Literature. 3 Hours.**

A survey of African literature in its cultural, historical, social and political contexts. Africa is a continent of diverse peoples, cultures, languages, customs, food, economies, experiences of colonialism/imperialism and so on. With such diversity of daily life and historical and cultural experiences comes a wealth of literature; oral literature, drama, poetry, short stories and novels. This course will cover diverse authors such as Chinua Achebe, Wole Soyinka, Zakes Mda, Nuruddin Farah, Buchi Emecheta, Tsitsi Dangarembga, etc. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-383S. Special Topics In Latina/o And Latin American Literary And Cultural Studies. 3 Hours.**

Varying topics in the field of Latinx and Latin American literary and cultural studies.

**ENGL-384. Creative Writing: Poetry I. 3 Hours.**

Students write poetry which is discussed and critiqued in class by instructor and students.

**Prerequisite:** ENGL-101 with a minimum grade of C and ENGL-235 with a minimum grade of C.

**ENGL-384R. Research Poetry. 3 Hours.**

Research Poetry engages students in poetry writing which incorporates the research process as a method for exploring topical questions relating to the humanities, social sciences, poetic identity, and inquiry.

**Prerequisite:** ENGL-101 with a minimum grade of C and ENGL-235 with a minimum grade of C.

**ENGL-385. Creative Writing: Poetry II. 3 Hours.**

Students write poetry which is discussed and critiqued in class by instructor and students.

**Prerequisite:** ENGL-101 with a minimum grade of C and ENGL-235 with a minimum grade of C.

**ENGL-386. Creative Writing: Fiction I. 3 Hours.**

Students read published fiction and explore topics in craft while writing, and discussing one another's work.

**Prerequisite:** ENGL-101 with a minimum grade of C and ENGL-235 with a minimum grade of C.

**ENGL-387. Creative Writing: Fiction II. 3 Hours.**

Students read published fiction and explore topics in craft while writing, and discussing one another's work.

**Prerequisite:** ENGL-101 with a minimum grade of C and ENGL-235 with a minimum grade of C.

**ENGL-388. Modern British And American Poetry. 3 Hours.**

Introduction to modern poetry in English: its origins, dominant themes, and characteristic techniques. Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-389. Contemporary Poetry. 3 Hours.**

A survey of poetry in English from 1950 to the present. This course will examine the major themes and techniques of poets writing during the period.

Required: ENGL-210 and one other English course at the 200 level.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-390. Young Adult Novel. 3 Hours.**

Advanced study in literature for young adults, grades 7-10. Evaluation and selection of recent books in the area as well as the history of the genre.

Criteria for selection: Book lists, indexes, professional literature in the field. Individual work on problem of special interest.

**Prerequisites:** ENGL-102 and ENGL-210 - 236.

**ENGL-391. Seminar On One Woman Writer. 3 Hours.**

This course will give students the opportunity to study the full range of one woman writer's life and work, along with documents from a variety of disciplines (e.g., history, economics, psychology and its predecessor pseudo-sciences, law--both in secondary and primary forms). Out of this work, students will produce a research paper, presentation, or in some cases a website, video or podcast that allows them to enter the public discourse recovering the voices of women of all backgrounds from medieval times to the present day.

**Prerequisite:** ENGL-102 with a minimum grade of C and ENGL-210 with a minimum grade of C.

**ENGL-392A. Writing/Life: Advanced Creative Writing Practice. 3 Hours.**

Students engage in a semester-long independent creative writing project, while participating in collaborative service learning, and acquiring skills regarding the creative process, participating in creative communities, editing, and publication. Meetings are a combination of seminar, discussion, studio, and workshop.

**ENGL-393. Literature Live: Studying The Works Of NEIU Visiting Writers. 3 Hours.**

Each semester, the Creative Writing Minor hosts "The 82" reading series, named for the Kimball bus line that brings many of us to and from campus. In this course, students will study the works of these local writers and others who have visited or will be coming to campus and with whom they will have a chance to engage. Students will engage with the work of these writers with an eye toward understanding and exploring the subtleties of craft to assist in their own creative writing as well as developing the skills of literary analysis. Students will be expected to attend a certain number of public readings on and off campus.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**ENGL-394. Writing The Personal Essay. 3 Hours.**

In this course students will write in the creative non-fiction genre of the personal essay. This will involve work on techniques and approaches in a workshop setting, as well as critiques of other students' work. This course will also explore the personal essay as a literary form through readings of classic and recent examples.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**ENGL-3941. Creative Writing Internship. 1 Hour.**

This is a supervised field experience in a profession that utilizes creative writing (magazine or book publishing, journalism, advertising, arts non-profit, etc). With the approval of the department chair, students may enroll for academic credit from 1-6 hours. In consultation with a faculty advisor and field supervisor, the student will contract field service hours and create an individualized work plan. Students will also meet regularly with the faculty advisor and be evaluated qualitatively and quantitatively for a final grade. By department permission only.

**Prerequisite:** ENGL-235 with a minimum grade of C and (ENGL-384 with a minimum grade of C or ENGL-386 with a minimum grade of C) and (ENGL-385 with a minimum grade of C or ENGL-387 with a minimum grade of C or ENGL-374 with a minimum grade of C).

**ENGL-3942. Creative Writing Internship. 2 Hours.**

This is a supervised field experience in a profession that utilizes creative writing (magazine or book publishing, journalism, advertising, arts non-profit, etc). With the approval of the department chair, students may enroll for academic credit from 1-6 hours. In consultation with a faculty advisor and field supervisor, the student will contract field service hours and create an individualized work plan. Students will also meet regularly with the faculty advisor and be evaluated qualitatively and quantitatively for a final grade. By department permission only.

**Prerequisite:** ENGL-235 with a minimum grade of C and (ENGL-384 with a minimum grade of C or ENGL-386 with a minimum grade of C) and (ENGL-385 with a minimum grade of C or ENGL-387 with a minimum grade of C or ENGL-374 with a minimum grade of C).

**ENGL-3943. Creative Writing Internship. 3 Hours.**

This is a supervised field experience in a profession that utilizes creative writing (magazine or book publishing, journalism, advertising, arts non-profit, etc). With the approval of the department chair, students may enroll for academic credit from 1-6 hours. In consultation with a faculty advisor and field supervisor, the student will contract field service hours and create an individualized work plan. Students will also meet regularly with the faculty advisor and be evaluated qualitatively and quantitatively for a final grade. By department permission only.

**Prerequisite:** ENGL-235 with a minimum grade of C and (ENGL-384 with a minimum grade of C or ENGL-386 with a minimum grade of C) and (ENGL-385 with a minimum grade of C or ENGL-387 with a minimum grade of C or ENGL-374 with a minimum grade of C).

**ENGL-3944. Creative Writing Internship. 4 Hours.**

This is a supervised field experience in a profession that utilizes creative writing (magazine or book publishing, journalism, advertising, arts non-profit, etc). With the approval of the department chair, students may enroll for academic credit from 1-6 hours. In consultation with a faculty advisor and field supervisor, the student will contract field service hours and create an individualized work plan. Students will also meet regularly with the faculty advisor and be evaluated qualitatively and quantitatively for a final grade. By department permission only.

**Prerequisite:** ENGL-235 with a minimum grade of C and (ENGL-384 with a minimum grade of C or ENGL-386 with a minimum grade of C) and (ENGL-385 with a minimum grade of C or ENGL-387 with a minimum grade of C or ENGL-374 with a minimum grade of C).

**ENGL-3945. Creative Writing Internship. 5 Hours.**

This is a supervised field experience in a profession that utilizes creative writing (magazine or book publishing, journalism, advertising, arts non-profit, etc). With the approval of the department chair, students may enroll for academic credit from 1-6 hours. In consultation with a faculty advisor and field supervisor, the student will contract field service hours and create an individualized work plan. Students will also meet regularly with the faculty advisor and be evaluated qualitatively and quantitatively for a final grade. By department permission only.

**Prerequisite:** ENGL-235 with a minimum grade of C and (ENGL-384 with a minimum grade of C or ENGL-386 with a minimum grade of C) and (ENGL-385 with a minimum grade of C or ENGL-387 with a minimum grade of C or ENGL-374 with a minimum grade of C).

**ENGL-3946. Creative Writing Internship. 6 Hours.**

This is a supervised field experience in a profession that utilizes creative writing (magazine or book publishing, journalism, advertising, arts non-profit, etc). With the approval of the department chair, students may enroll for academic credit from 1-6 hours. In consultation with a faculty advisor and field supervisor, the student will contract field service hours and create an individualized work plan. Students will also meet regularly with the faculty advisor and be evaluated qualitatively and quantitatively for a final grade. By department permission only.

**Prerequisite:** ENGL-235 with a minimum grade of C and (ENGL-384 with a minimum grade of C or ENGL-386 with a minimum grade of C) and (ENGL-385 with a minimum grade of C or ENGL-387 with a minimum grade of C or ENGL-374 with a minimum grade of C).

**ENGL-395. The Craft Of The Short Story. 3 Hours.**

In this course students will combine the study of the form of the short story with writing short stories. Readings will include classical and contemporary works from across many countries and traditions. Emphasis will be on studying texts and working on craft in workshops.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**ENGL-396. Screenwriting: The Short Script. 3 Hours.**

This is a workshop course in screenwriting, concentrating on producing a short script. Students will study the particular form and conventions, as well as the specific format, of writing a screenplay. Readings will include exemplary screenplays in several genres, as well as essays on the philosophy and technique of screen writing. In workshop students will produce a short script.

**Prerequisite:** ENGL-235 with a minimum grade of C.

**ENGL-397. Summer Creative Writing Institute. 3 Hours.**

Offered only in summer as an intensive course that runs for ten extended class days. Experimenting with both prose and poetry, students participate in workshops as well as sessions with invited speakers covering subjects such as the craft of poetry and prose, the profession of writing and publishing, and the MFA. The emphasis is on an intense workshop experience and an atmosphere of constructive critique leading to the production of a significant portfolio of writing.

**Prerequisite:** ENGL-235 with a minimum grade of C.

**ENGL-398A. Creative Non-Fiction I. 3 Hours.**

Students write non-fiction prose which is discussed and critiqued in class by instructor and students.

**Prerequisite:** ENGL-235 with a minimum grade of C.

**ENGL-398B. Creative Non-Fiction II. 3 Hours.**

Students write non-fiction prose which is discussed and critiqued in class by instructor and students.

**Prerequisite:** ENGL-235 with a minimum grade of C.

**ENGL-402. Ecological Crises And Narratives. 3 Hours.**

How do literature and culture transform during periods of ecological crises? What new aesthetic forms and practices do writers and cultural producers develop in order to represent climate change, mass extinction, plastic pollution, and ecological genocide? How do ecological crises change the form of literature and culture, and moreover, change conceptions of class, race, ethnicity, gender, and belonging? This course considers these questions and more through the study of a wide range of genres, including canonical environmental literature, poetry, and science fiction.

**ENGL-403. Writing The Now. 3 Hours.**

Students will merge their training in analysis of sociopolitical issues and literary works that emerge from such with creative writing across multiple genres. As critical observers and creative beings, students will examine writers' and artists' responses to historic moments and movements. Students will read hyper-contemporary creative and theoretical texts, while considering how literary art gets politicized and otherwise activated. They will work independently on a multi-genre semester-long portfolio and share writing within the classroom community, and in a public-facing symposium. Literature of the moment will serve as models and source-texts, and students will respond through production of creative/critical manuscripts.

**Requirement:** 300-level undergrad creative writing course, graduate-level creative writing work, or permission of instructor.

**ENGL-404. Elements Of Style For Creative Writers. 3 Hours.**

The course reviews style conventions of the English language, including punctuation, grammar, usage, and sound, focusing on sentence and line analysis. Students will consider how deployment of conventions and issues of perspective, power, and encoded bias impact a reader's experience. Students will develop a working definition of their own writerly style while experimenting in using, subverting, and experimenting with conventions. Students will be encouraged to work within their own desired genre(s); modern and contemporary texts which move across genres will serve as models. Students seeking to develop editing and teaching skills will do the fine-detail work necessary to do so.

**Requirement:** 300-level undergraduate creative writing course, graduate-level creative writing work, or permission of instructor.

**ENGL-409A. Writing In Public: Community Literacies, Public Intellectuals, And Rhetorics Of Change. 3 Hours.**

This course looks at "public" writing and teaching in the work of marginalized communities, social movements, and public intellectuals. The primary goal is to understand writing as a contested, political act that can influence the public sphere but can also serve as a tool for oppression and control. This course is appropriate for students interested in theories and the teaching of writing and for students interested in critical and community education.

**Requirement:** At least six credits in the English MA program or by consent of instructor.

**ENGL-410. Literary Methods And Practice. 3 Hours.**

A foundation course that will build on existing skills and prepare for further graduate-level studies, with a goal of contextualizing and conceptualizing critical attitudes and approaches to literary text. Its aim is to provide advanced critical and scholarly tools for understanding literature and will address criticism and critical method, close reading and analysis and bibliographical and research technique. Required in the first year of study in the Literature Concentration.

**ENGL-411A. Cultural And Literary Studies: History, Theory, Practice. 3 Hours.**

This course introduces students to the institutional history, theoretical debates, and interpretative strategies of cultural studies, with a particular interest in how the study of culture, understood broadly, intersects and changes literary studies. Using an interdisciplinary approach, this course explores how cultural processes and forms are produced, distributed, consumed, and responded to in diverse, contradictory ways. Moreover, the course will emphasize how all culture must be studied on multiple scales, ranging from the local to the global.

**ENGL-413A. Crafting The MA List: Composing Literary, Cultural, And Compositional Fields. 3 Hours.**

This course examines some of the history and theories of English as a discipline to help students develop deep background knowledge of the field and conduct independent research that will help them construct their MA exam lists/fields of study. The collaborative work of the class helps students connect the various threads of English they are examining individually to the larger context of English Studies, and students are given extensive guidance as they work toward professional research agendas.

**ENGL-414. Seminar In Reading Film. 3 Hours.**

A seminar in film emphasizing methods of reading films as we would texts. Students will explore the complexity of film through close viewing, critical analysis of narrative structure, and attention to visual form and representational practice. To paraphrase a famous question asked about poetry, this course will explore "how a film means."

**Prerequisite:** ENGL-101 with a minimum grade of C.

**ENGL-416. Ekphrastic Practice: Responding To Art In Inquiry-Based Creative Writing. 3 Hours.**

Ekphrasis is, in its simplest sense, writing that examines and describes a piece of art. This Creative Writing course takes that as a starting notion and pursues its potential as a writerly practice. Students will: examine multiple-genre book-length and individual pieces of Ekphrastic writing; consider those works as sites of inquiry about the complex relationship between source and response, content and form; from their experiences and observations in this work as both writer and reader, plan and execute a small manuscript-length project of creative writing that is both in the ekphrastic mode and rooted in inquiry.

**ENGL-418. Studies In Shakespeare. 3 Hours.**

Advanced study of Shakespeare's work, organized by theme. This course will explore a number plays grouped together by an organizing principle (such as "Shakespeare and History," "Shakespeare and the Other," "The Roman Plays," "Romance"). These works will also be placed in their historical context, paying close attention to genre, structure, and language. Students will also study theoretical approaches to Shakespeare's work in reading of contemporary critical works.

**ENGL-419. Elizabethan And Jacobean Drama. 3 Hours.**

Exploration of English dramatic works from circa 1580-1642, including Marlowe, Greene, Middleton, Marston, Dekker, Jonson, Webster, and Beaumont. This course will pay particular attention to genres that dominate outside the Shakespeare canon (revenge tragedy, city comedy, tragicomedy), as well as detailing the social, cultural, and intellectual developments that characterize this golden age of English stagecraft.

**ENGL-420. Teaching Shakespeare. 3 Hours.**

This intensive summer course focuses on the teaching of Shakespeare's drama. In order to develop methods for teaching these plays at all levels we will study a few selected plays along with secondary literature. Moving from close textual analysis to a workshop will allow students to work on practical approaches to teaching the plays at the level of plot, characterization, theme, genre, performance, and more. Course material will be expanded with the help of documentaries, films, small group workshops, and guest faculty. Prerequisite: MA or at-large status. Or Permission of Instructor.

**ENGL-422. Milton. 3 Hours.**

Study of a turbulent and exciting "century of revolutions" by concentrating on the figure most associated with seventeenth-century English literature, John Milton. We will read all of his major poetry as well as some significant prose writings. We will also attempt to contextualize Milton in his period by studying other major figures such as Ben Jonson, Andrew Marvell, and John Bunyan.

**ENGL-426. Seminar In Romantic Literature. 3 Hours.**

Advanced study of the major poets of the Romantic period, involving oral reports, and culminating in a term paper.

**ENGL-427A. Pedagogies Of College Level Writing. 3 Hours.**

In this course, students apply theoretical learning to practical considerations of teaching writing at the college level through textbook and assignment analysis, syllabus design, and lesson design for writing aspects, such as developing rhetorical strategies, attending to grammar and responding to student work. The course also addresses everyday aspects of teaching such as incorporating effective discussions, setting up culturally sensitive classes, and understanding the realities of employment at the college level. The course is open to students in MA composition or literature students, and students with graduate standing in related field.

**ENGL-428. The English Novel. 3 Hours.**

Study of the English novel from its origins in the 18th century "Rise of the Novel" tradition, through Gothic/Romantic and Victorian Fiction, to Modernism and Post-Modernism. Individual readings may vary, but students are likely to read works by Defoe, Bronte, Woolf, Lawrence, Conrad, etc.

**ENGL-429. Writing Across The Curriculum. 3 Hours.**

Through class discussion and activities, textual analyses and inquiry-based research assignments, this class explores connections between writing and the creation and representation of knowledge within academic disciplines. Topics include defining what counts as appropriate evidence in various fields, and the role of English departments in writing in the disciplines pedagogy. Though not intended to be guided instruction in the mechanics of writing, students will gain deeper insight into what counts as quality writing in their disciplines, so in addition to MA Composition graduate students, this course is open to graduate students in other fields with written permission by the instructor.

**ENGL-430. Studies In Literary Criticism. 3 Hours.**

A study of some of the central problems and issues of contemporary criticism, as exemplified by the writings of major theorists.

**ENGL-431. Bibliography And Research In English. 3 Hours.**

Material, methods, and tools of literary research; use of libraries; preparation of scholarly papers.

**ENGL-432. Alternative Literacies. 3 Hours.**

This course will explore literacy theories within and beyond composition studies by considering competing models of literacy and the cultural dimensions of writings, such as economic class or multilingualism, as well as the implications of these for the practice of writing and writing instruction.

**ENGL-433. Seminar In Composition Theory. 3 Hours.**

This course includes an extensive examination of current composition methodologies with emphasis upon the eclectic needs of the composition student.

**ENGL-434. Seminar In Basic Writing Theory. 3 Hours.**

A survey of types of students in basic writing classes, a review of placement tests for identifying levels of writing competency, and a careful examination of various basic writing methodologies.

**ENGL-435. Writing Assessment: Theory And Practice. 3 Hours.**

Theoretical background on evaluating student writing, as well as practical training in how to diagnose and remediate problems with grammar and content at the secondary and college level.

**ENGL-436. Rhetorics Of Composition. 3 Hours.**

This course will provide students with a background in Classical Rhetoric and then examine how the conventions of Classical Rhetoric have been translated or transformed into rhetorics of composition, such as Expressionistic Rhetoric, Cognitive Rhetoric, Epistemic Rhetoric and Social Construct Rhetoric.

**ENGL-437. English Studies And Technology. 3 Hours.**

Many scholars in English argue that the computer is radically revising the way we read and write texts. Using sources from literary and rhetorical studies, this class will consider how computer technology is contributing to new notions of the author, text, and audience as well as to the ways computers affect students' reading and writing.

**ENGL-438. Research In Composition. 3 Hours.**

Materials and methods for library research in composition theory; preparation of scholarly work on composition; research designs and measurement techniques for qualitative and quantitative studies in composition.

**ENGL-439. Stylistics. 3 Hours.**

Examination of the historical relationship of style to rhetoric; techniques for improving prose style; aspects of style as a part of writing evaluation.

**ENGL-446. Critical Writing For Creative Writers. 3 Hours.**

This course is a seminar and writing workshop in one. Students will: examine models of texts that operate in the critical-creative or creative-critical mode; choose outside reading of their own through an inquiry-based process for the purpose of producing multi-modal work; produce various critical, creative, creative-critical, and critical-creative pieces; submit a book review/essay for possible publication; and through this process "enter the discourse," as writers working in multiple modes.

**Requirement:** 300-level undergraduate creative writing course, graduate-level creative writing work, or permission of instructor.

**ENGL-456A. Graphic Novels And Social Conflicts. 3 Hours.**

This course studies graphic novels as a complex medium that offers new ways to think about and represent a range of social conflicts, including class, race, gender, ecology, history, and national belonging. Students will learn the vocabulary necessary to understand how the medium functions and how to read diverse graphic novels from various contexts. Some questions considered are: How do the visual and verbal dimensions of the graphic novel enable forms of thinking not possible in other media? Why do some theorists identify graphic novels as a medium in which some of the most progressive forms of feminism are unfolding?.

**ENGL-466. American Renaissance Revisited. 3 Hours.**

A critical study of mid-19th century U.S. literature that explores the writers identified with the "American Renaissance" and their relationship to other important literary developments such as the slave narrative and women's domestic fiction.

**ENGL-467. The Age Of Literary Realism In The United States. 3 Hours.**

A study of U.S. literary realism, the cultural and socio-historical conditions of its emergence, and its relation to other later 19th century literary genres such as sentimentalism and naturalism. Authors might include Twain, Howells, James, Chesnutt, Wharton, Dreiser, Chopin, and others.

**ENGL-468. U.S. Literary Modernism & Its Others. 3 Hours.**

A study of literary developments in the United States from the early 20th century to the Cold War, focusing on the rise of modernism, proletarian literature, literature of the Harlem Renaissance, and other important bodies of literature.

**ENGL-469. Seminar In Southern Literature. 3 Hours.**

Intensive reading of twentieth-century Southern literature exclusive of Faulkner with emphasis on the sociological and psychological aspects of the literature as they mirror in America's South.

**ENGL-470. Seminar In Faulkner. 3 Hours.**

Intensive reading of the short fiction and novels of William Faulkner with specific attention on his development as a novelist and his place among twentieth century American authors.

**ENGL-471. Studies In The American Novel. 3 Hours.**

A study of major developments in the U.S. novel, this course might feature a variety of foci, including the rise of the novel in America, particularly literary periods or genres, key moments of transition in U.S. literary history, or other key evolutions in novelistic practice in the United States.

**ENGL-472. Graduate Seminar In Early American Women's Writing. 3 Hours.**

This seminar involves the study of women's writing in the US from the eighteenth and nineteenth centuries, including political and historical prose as well as gothic, sentimentalist, romantic and realist fiction. Critical readings present students the mid-20th century debates over the status of early women writers and popular fiction, literary-historical work recovering the social, political, economic and legal contexts in which women became professional writers, and contemporary feminist and historical work on women's writing of this period. Assignments may include close reading, critical engagement with new theoretical and historical criticism, and opportunities for research in primary sources.

**Prerequisite:** ENGL-410 with a minimum grade of C.

**ENGL-474A. Hybrid-form Writing In And Across Genres And Forms. 3 Hours.**

This course examines models related to and provides tools for the production of Hybrid-form Writing (writing in and across multiple genres/forms such as poetry, fiction, and nonfiction). Hybrid-form work takes place at both the discrete level (individual, usually long-form pieces) and manuscript level (a book-length project that relies on multiple forms). This course emphasizes long-form/extended projects, which must be rooted in a considered line of inquiry. This inquiry happens at multiple stages and levels: students experiment with different forms, engage in pre-writing to conceive of projects, and consider how form affects content/why certain forms might be culturally or personally privileged.

**ENGL-476. Oil Fictions: Reading Along The Transnational Pipeline. 3 Hours.**

This course brings together multiple literary genres and cultural forms to study diverse voices along the transnational oil pipelines, from privileged subjects whose desires, values, and lifestyles are enabled by mass oil consumption, to the communities and geographies that suffer the consequences of this oil dependency, social relations typically rendered invisible and inaudible by the dominant forms of globalization.

**ENGL-477. Producing "America":Issues Of Work, Class, And Political Economy In U.S. Literature And Culture. 3 Hours.**

This course will focus on literary and cultural works that represent the material conditions of production in the United States as well as on the way we ideologically produce American identity and culture in ways that obscure or make visible the work people do to make our material lives possible. The class will foreground issues of class and political economy in reading literature and culture from a working-class perspective.

**Requirements:** Admission to an English MA program or consent of instructor.

**ENGL-478. Screenwriting. 3 Hours.**

This is a workshop course in screenwriting, concentrating on producing a short to medium-length script. Students will study the particular form and conventions, as well as the specific format, of writing a screenplay. Readings will include exemplary screenplays in several genres, as well as essays on the philosophy and technique of screen writing.

**Prerequisite:** ENGL-410 with a minimum grade of C.

**ENGL-479A. Latina/o/x Literature. 3 Hours.**

This course offers graduate-level study of US Latina/o/x literatures, including writing from the early period to the present. Readings may offer a broad representation of writers from North America, South America, Central America and the Caribbean or may cover various genres including essays, novels, poetry and drama. Assignments, lectures and discussion will center on questions of identity, culture, history, politics and aesthetics. For students who are teaching or plan to teach, the course will also provide analysis of pedagogical methods in Latina/o/x studies.

**ENGL-480. Ethnic Literatures. 3 Hours.**

A study of "ethnic," "minority," and U.S. Third World literatures, of the conditions of their emergence as literary formations in relation to cultural, social, and literary developments, and of their relationship to racial and ethnic studies.

**ENGL-481. Latin American Literature. 3 Hours.**

This course explores major works in Latin American literature across various genres (novel, drama, poetry). The rich pre-colonial, colonial, and post-colonial periods will be studied through works which represent the struggles of different people from different classes, with differing origins, and who hold disparate religious beliefs in this large and diverse region.

**ENGL-482. Contemporary Poetic Forms. 3 Hours.**

A study of the diverse poetic forms emerging in American poetry since the 1960's- free verse, new formalism, and many experimental forms- as well as the hands-on experience of writing in these forms.

**ENGL-483. Postcolonial Literature. 3 Hours.**

This course studies literary works produced by or about peoples who have been colonized by European imperial powers. It situates these literatures within the philosophical frameworks that informed European imperial hegemonies as well as the colonized people's responses to them. While we will draw theoretical examples from every part of the world, our literary readings in this class will concentrate mainly on the literatures of Africa and Asia and their diasporas, especially in the Caribbean.

**ENGL-484. Contemporary U.S. Literature Since The Cold War. 3 Hours.**

A study of the Cold War critical construction of "American" literature and important literary developments from the 1950s to the present, including the rise of postmodernism, the Beat Generation, and a variety of ethnic literary developments, as well as other important literary phenomena of the period.

**ENGL-485. Contemporary European Literature. 3 Hours.**

The aim of this course is to examine some important works of European literature from the 20th century till date. The course explores major issues such as the place of ethics in literature, holocaust, the World War I & II, European identity etc.

**ENGL-487. Material Culture. 3 Hours.**

In this seminar, students will concentrate on the material contexts (legal, economic, social, technological) that inform cultural production. While the cultural forms and historical periods focused upon may vary by instructor, in every case the course will introduce students to the history of critical work in this area and involve projects in which students trace the marks of material forces in cultural forms.

**Requirement:** two additional courses at the 400 level

**Prerequisite:** ENGL-410 with a minimum grade of C.

**ENGL-488. Africana Literature: Slavery And The Literary Imagination. 3 Hours.**

Through the lens of former slaves and contemporary novelists and scholars, this course explores the ways in which the slavery narrative and the neo-slave narrative attend to the larger existential question of what it means to be free. The corollary notions of race, gender, citizenship, and labor, among others, will also be considered. In addition, this class will investigate the ways in which the re-inscription of slavery, in contemporary literature, has impacted the development of the Africana literary tradition in terms of content, genre, and form.

**ENGL-491. Sonnet: Not Just A Love Song. 3 Hours.**

This class will explore the sonnet's many voices and subjects-from plaintive to menacing, from romance to racial injustice. We will read across the centuries, from Shakespeare to Keats to Edna St. Vincent Millay. We will read sonnet-variations, and sonnet-spoofs by contemporary American poets and we will experiment with sonnets of our own. Our time will be spent on close readings, discussions, writing, and informal presentations.

**ENGL-491A. One Woman Writer. 3 Hours.**

In this course, students will investigate the life and work of a single woman writer, chosen on any given term for her significance to literary history, criticism, philosophy or political economy. Readings will include a full array of the writer's original work as well as bio-critical, theoretical and literary critical responses to that work.

**ENGL-495. Re-Thinking Race & Gender. 3 Hours.**

The course starts with historical narrative, re-thinking how we learn to practice race and gender from within larger systems of white supremacy and patriarchy. Students will explore models for disrupting systemic patterns and turning rethinking into everyday action. The aim throughout is to interrogate structures and relations of race and gender, and how they get naturalized. Cross-listed for advanced undergraduates, graduates, and teachers. When taught as a Summer Institute, the course runs for eight days over three weeks.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**ENGL-4991. Independent Study In English. 1 Hour.**

This is a 1-credit course focused on a carefully planned subject area and work plan approved by the professor of record.

**Prerequisite:** (ENGL-400 - 499 or ENGL-400A - 499Z).

**ENGL-4993. Independent Study. 3 Hours.**

This course is designed for students pursuing independent studies of topics not covered in our catalog of courses at the graduate level in English.

**Prerequisite:** ENGL-101 with a minimum grade of C and ENGL-235 with a minimum grade of C.

**ENGL-5901. Thesis Hours. 1 Hour.**

Graduate students complete an extensive, lengthy research or creative project under the guidance of a supervising committee. The thesis is optional for English graduate students and accounts for 6 of the 33 credit hours required for the M.A.

**ENGL-5902. Thesis Hours. 2 Hours.**

See course description for ENGL-5901.

**ENGL-5903. Thesis Hours. 3 Hours.**

See course description for ENGL-5901.

# English Language Program (ELP)

---

## Courses

### **ELP-096. Developmental Writing Workshop II. 3 Hours.**

(Does not count toward graduation or GPA calculation.) This course is an introduction to the basic principles used in writing expository essays based on personal experience, and intensive work to improve sentence level skills. Registration is by placement exam or permit.

**Prerequisite:** ELP-095 with a minimum grade of RC or ELP-112 with a minimum grade of C or Accuplacer WritePlacer with a score of 3.

### **ELP-098. Supportive Instruction Writing Skills Workshop. 3 Hours.**

(This course does not count toward graduation or GPA calculation.) ELP-098 must be taken concurrently with ENGL-101: Writing I. This course provides supportive instruction to reinforce or enhance content from the students' college-level writing course. The instructor works to meet the individual needs of the students emphasizing the skills one needs to develop a framework for writing including paragraph development, increased fluency in written English, and proofreading skills. Registration is by placement exam or permit.

**Prerequisite:** (Accuplacer WritePlacer 4 (and Accuplacer Writing 240 - 249) or ELP-096 or ELP-114).

**Corequisite:** ENGL-101.

### **ELP-112. ESL Writing Workshop I. 3 Hours.**

Open only to English Language Learners (ELLs). This course provides basic instruction aimed at guiding the ELLs' transition from their existing native language writing skills to academic English with an emphasis on sentence-level skills needed for writing personal narrative essays. Registration is by permit only.

### **ELP-114. ESL Writing Workshop II. 3 Hours.**

Open only to English Language Learners (ELLs). This course provides instruction aimed at continuing the ELLs' transition from their existing native language writing skills to academic English. Work centers on the writing of basic expository essays and intensive work on sentence level skills. Registration is by permit only.

### **ELP-120. ESL Writing Workshop III. 3 Hours.**

Open only to English Language Learners (ELLs). This course provides additional practice and instruction aimed at helping ELLs complete their transition from writing in their native language to writing in college-level academic English. Writing expository essays across various genre, with emphases on paragraph development, increased fluency and editing and proofreading skills form the core content of this course. Registration is by permit only.

### **ELP-121. English Grammar Skills. 3 Hours.**

Analysis of and practice in selected English grammatical patterns, with special emphasis on their academic application.

# English Second Language (ESL)

---

## Courses

### **ESL-108. Listening And Speaking. 3 Hours.**

(English language learners.) Practice in the listening and speaking skill used in American universities, with emphasis on comprehension of brief academic lectures, presentation of brief reports, and participation in class discussion. Registration by permit only.

# Environmental Science (ENVI)

---

## Courses

### **ENVI-101. Introduction To Environmental Science. 3 Hours.**

This course introduces environmental science as the interdisciplinary study of environmental issues related to human impact on the natural environment. The course addresses environmental science literacy and scientific methods through inquiry into and discussion of biogeochemical cycles, ecosystem dynamics, climate change, conventional and renewable energy, resources, and sustainability. Lecture (2 hrs) and laboratory (2 hrs).

**Prerequisite:** (MATH-091 - 499 or MATH-091A - 499Z or NEIU Math Placement Result 02 - 45 or ACT Math 19 - 36 or Accuplacer Elementary Algebra 060 - 084 or Accuplacer College Level Math 020 - 120 or Accuplacer Adv. Algebra & Func 200 - 300 or SAT Math 500 - 800).

### **ENVI-180. Fundamentals Of Data Science. 4 Hours.**

Foundations of data science considers data from three perspectives: inferential thinking, computational thinking, and real-world relevance. Given data arising from some real-world phenomenon, how does one analyze that data to understand that phenomenon? The course teaches critical concepts and skills in computation and statistical inference, in conjunction with hands on analysis of real-world datasets, including economic data, document collections, geographical data, and data from social networks. It delves into social, ethical, and legal issues surrounding data analysis, including privacy and data ownership.

**Prerequisite:** MATH-173 with a minimum grade of C or MATH-185 with a minimum grade of C or MATH-187 with a minimum grade of C.

### **ENVI-301. Methods In Environmental Science. 4 Hours.**

This problem-based interdisciplinary course builds on the knowledge and skills acquired in introductory biology, chemistry, earth science, mathematics, and physics. Topics covered include experimental design, sampling, and analytical techniques that are standard to the different scientific disciplines. Students are introduced to interdisciplinary field, laboratory, and data science methods, and develop skills in group collaboration as well as written and oral presentation. Laboratory activities will include both laboratory and fieldwork.

**Prerequisite:** BIO-202 with a minimum grade of C and CHEM-212 with a minimum grade of C and ENVI-101 with a minimum grade of C and MATH-275 with a minimum grade of C and (ESCI-121 with a minimum grade of C or ESCI-211 with a minimum grade of C) and (PHYS-202L with a minimum grade of C or PHYS-207L with a minimum grade of C).

### **ENVI-302. Beyond The Textbook: Science In Popular Literature. 2 Hours.**

In this course, students will read, discuss, and explore the foundations and implications of science literature written for a popular audience. The books chosen for this course vary from semester to semester and will be chosen to cover a broad, interdisciplinary range of perspectives in STEM. The books selected will provide insight into the pursuit of objective truth, while providing the lens that science is done and implemented by individuals and societies, and therefore has ethical, moral, and social implications. [This course can count toward meeting the ELE requirements if ENVI-303 is not used to fulfill the requirement.].

**Prerequisite:** (100 - 399 or 100A - 399Z or).

### **ENVI-303. Beyond Textbooks: Science In Popular Literature. 3 Hours.**

In this course, students will read, discuss, and explore the foundations and implications of science literature written for a popular audience. The books chosen for this course vary from semester to semester and will be chosen to cover a broad, interdisciplinary range of perspectives in STEM. The books selected will provide insight into the pursuit of objective truth, while providing the lens that science is done and implemented by individuals and societies, and therefore has ethical, moral, and social implications. [This course can count toward meeting the ELE requirements if ENVI-302 is not used to fulfill the requirement.].

**Prerequisite:** (100 - 399 or 100A - 399Z or).

### **ENVI-390. Environmental Science Research & Practice. 4 Hours.**

This course puts into practice the knowledge and skills acquired by students throughout the Environmental Science Program. Through case studies, literature review, group discussions, and a research project, students apply concepts from the various scientific disciplines. Working in small teams, students conduct practical scientific research on environmental issues relevant to the local, regional or global community.

**Requirements:** three electives in BIO, CHEM, ESCI, MATH, and/or PHYS; program approval

**Prerequisite:** ENVI-301 with a minimum grade of C.

# Exercise Science (EXSC)

---

## Courses

### **EXSC-210. Group Exercise Instructor. 3 Hours.**

In this course students will learn how to design resistance and cardiovascular training programs based on periodization principles that are specific to group exercise classes. Successful completion of this course will allow students to sit for the exam to become a Certified Group Exercise Instructor.

### **EXSC-215. Resistance & Cardiovascular Training For Health & Fitness. 3 Hours.**

In this course students will learn how to design a resistance and cardiovascular training program based on periodization principles that are specific to an individual. Successful completion of this course will allow students to sit for the exam to become a Certified Personal Trainer.

### **EXSC-304. Testing And Prescription For Health And Fitness. 3 Hours.**

This course focuses on the physiological rationale for health-related fitness tests (i.e., cardiorespiratory endurance, muscular strength/endurance, muscular flexibility, and body composition) and covers the procedures for utilizing the information collected from these tests. The course also provides laboratory and field experiences on how to conduct and evaluate health-related fitness tests.

**Prerequisite:** PEMT-306 with a minimum grade of C.

### **EXSC-315. Design Of Specific Exercise Programs. 3 Hours.**

In this course students will learn how to design a resistance and cardiovascular training program based on periodization principles that are specific to an individual or sport. Successful completion of this course will allow students to sit for the exam to become a Certified Strength and Conditioning Specialist.

**Prerequisite:** EXSC-215 with a minimum grade of C.

### **EXSC-350. Independent Study Exercise Science. 3 Hours.**

In this course the instructor will work with the student to develop classroom materials as well as field experiences that are directly related to the students' future career interests. This course is taken in the students' final semester and needs departmental approval to enroll in it.

**Requirement:** Departmental Approval.

### **EXSC-403. Research Methods In Exercise Science, Physical Education, Sport, And Recreation Settings. 3 Hours.**

This course provides an introduction to the types of research methods and design utilized in exercise science, physical education, sport, and recreation settings. Students will learn how to read and interpret peer-reviewed literature and use that literature to develop a research proposal.

### **EXSC-404. Exercise Testing And Prescription. 3 Hours.**

The laboratory component of the course provides instruction and experience in the performance of laboratory and field tests for the measurement of variables needed to evaluate the health-related fitness components (i.e., cardiorespiratory endurance, muscular strength/endurance, muscular flexibility, and body composition). The lecture component of the course focuses on the physiological rationale for these tests and covers the procedures for utilizing the information collected in laboratory and field testing. Specifically, students will be instructed on the evaluation the health-related fitness status of tested individuals and on the prescription of exercise training regimens for health-related fitness status alteration and physical performance enhancement. An equipment fee of \$125 is required.

### **EXSC-405. Applied Nutrition. 3 Hours.**

The course provides instruction in macronutrient requirements at rest and during exercise, energy balance for body composition alteration or maintenance (i.e., obesity prevention), fluid and electrolyte balance during exercise, and the vitamin/mineral concerns associated with exercise and performance. Additionally, the course will consider the preventative role of nutrition in various disease states including cardiovascular disease, degenerative bone disease, and diabetes.

### **EXSC-413. Development And Management Of Physical Education, Recreation, And Sport Programs. 3 Hours.**

The course provides instruction on the development and management of physical education, recreation, and sport programs in schools, universities, corporations, and recreational facilities. Specifically, an overview and the underlying principles of operating facilities, sales/marketing strategies, member/ staff recruitment, management practices, equipment purchase/ maintenance, health/ safety considerations, financial management, legal issues, and insurance considerations will be discussed.

### **EXSC-414. Program Development And Management In Health Promotion. 3 Hours.**

The course provides instruction in the area of organizational development and management in the health promotion field. Specifically, the procedures for needs assessment, planning, implementation, resource identification/ allocation, marketing and evaluation for health promotion programs will be discussed.

### **EXSC-415. Exercise Management In Chronic Diseases And Disabilities. 3 Hours.**

The course expands on the exercise testing and prescription information covered in EXSC-404 to include special population with chronic disease and/or disabilities. The course provides a pathophysiological overview of various cardiovascular, pulmonary, metabolic, immunological/hematological, orthopedic, neuromuscular, cognitive, emotional and sensory disorders. A major portion of the course deals with exercise management in people with these disease/ disabilities and, in particular, instruction on the special exercise testing and prescription considerations for these populations (e.g., abnormal exercise response potential, exercise interaction with commonly prescribed medication, etc.).

**Prerequisite:** EXSC-404 with a minimum grade of D.

**EXSC-416. Practices In Cardiac Rehabilitation. 3 Hours.**

The course provides the student with a concise and comprehensive overview of the research and currently accepted professional practice in the fields of heart disease primary prevention and cardiac rehabilitation. Specifically, the epidemiology, pathophysiology, diagnosis and treatment of heart disease will be discussed. Included in these discussions will be the diagnostic and prognostic use of exercise testing in cardiac patients. Additionally, a significant portion of the course will cover cardiovascular disease risk factor modification and the rehabilitation cardiac patients, including exercise prescription guidelines for this special population.

**Prerequisite:** EXSC-404 with a minimum grade of D.

**EXSC-418. Current Topics In Exercise And Sport Science. 3 Hours.**

The course provides students with the opportunity to explore the current research in the various areas that encompass the Exercise Sciences. Additionally, students are provided with a venue in which to discuss, with their peers and their professors, these topics salient to their professional growth and development. Understanding of these current topics is evaluated through the students' written reviews, oral presentations, and participation in class discussions of the presented reviews.

**EXSC-419. Psychology Of Exercise & Health Behaviors. 3 Hours.**

Research and psychological theories are examined in relation to Exercise and Physical activity behaviors across the lifespan; Psychological responses to exercise, sport and physical activity are examined in relation to behavior change and adherence. Students learn how to develop psychological interventions for increasing exercise participation and adherence.

**EXSC-420. Prevention Of Chronic Disease Through Diet & Exercise. 3 Hours.**

The course covers the molecular and cellular basis of prevention of chronic diseases. The emphasis is on the biological mechanisms of the causes of chronic diseases and on how dietary components and repeated stressful exercise alter the mechanisms of cause to reduce risk for these diseases. The major topics include: inflammation, obesity, metabolic syndrome and diabetes, atherosclerosis, and cancer.

**EXSC-421. Motor Control And Learning. 3 Hours.**

The course provides instruction in how humans control locomotion and how they learn/re-learn motor skills. Specifically, the course emphasizes the observable behavioral aspects of motor control/learning while detailing the neurophysiological and biomechanical processes that result in the aforementioned motor behaviors.

**EXSC-422. Biomechanics. 3 Hours.**

The course provides instruction in how the interaction between anatomy, physiology, and the laws of physics affect and control human movement and performance. Specifically, the biomechanics of work and energy, balance and movement control, force load and force production, and fatigue during exercise and performance will be discussed.

**EXSC-427. Adapted Physical Education, Recreation, And Sport Programs. 3 Hours.**

The course provides instruction on the history, current status, and future directions of adapted physical education, recreation, and sport programs within our society. The course will include discussions on the psychosocial and medical issues that must be considered when working with individuals with disabilities. Students will learn about existing sports, sport modifications, participation opportunities, and participation barriers for individuals with performance-altering impairments. Field work and visits to various agencies included in these programs.

**EXSC-430. Internship. 3 Hours.**

The course provides students the opportunity to gain practical exercise science (e.g., fitness, wellness, or human performance) career experience in corporate, commercial, institutional, community, educational, rehabilitative or research settings.

**EXSC-431. Independent Study/Research. 3 Hours.**

The course affords students the opportunity to conduct an independent experimental, descriptive, analytical or qualitative research project within the exercise sciences. The credit hours can also be used for faculty-monitored learning of advanced laboratory methodology not covered in the current curriculum. Planning of the proposed research project or independent study must be supervised and approved by an EXSC faculty member prior to course enrollment approval. Submission of a written report of the completed research project or independent study will be required for all students.

**Prerequisite:** EXSC-403 with a minimum grade of D.

**EXSC-433. Rehabilitation And Performance Injuries. 3 Hours.**

The course provides instruction in the prevention, management, and rehabilitation of performance injuries. The topics discussed include an overview of the prevention and care of injury, techniques for injury risk management, the pathology of injury, various injury management skills (e.g., psychosocial intervention, injury evaluation/emergency care, therapeutic modalities, and exercise rehabilitation), and an overview of the evaluation, care, and rehabilitation of various specific performance-related injuries.

**EXSC-434. Physiology Of Aging And Physical Activity. 3 Hours.**

The course provides instruction in the theories of the aging process and the age-related changes in the functioning of various physiological systems. Specifically, the age-related changes in bioenergetics, work capacity/ efficiency, cardiopulmonary function, muscular strength, endurance, motor control, motor performance, and psychosocial functioning, among other variables are discussed. Additionally, the potential role of physical activity and exercise in the alteration of these age-related changes, quality of life indices, functional capacity, and productivity in the elderly will be presented.

**Prerequisite:** EXSC-402 with a minimum grade of D.

**EXSC-435. Theory & Methodology Of Coaching. 3 Hours.**

The course provides instruction on the theories and methodologies of sport coaching. Specific emphasis will be placed on the planning, implementation and assessment aspects of coaching, including the philosophical foundations of coaching, technical and tactical coaching principles and player assessment strategies.

**EXSC-442. Sports-Specific Exercise Training. 3 Hours.**

This course integrates the cellular basis of performance enhancement with the components of fitness and of skill enhancement to develop an integrated and applied-science approach to exercise training for: the maximum-performance/moderate-skill sports of sprint & long-distance running, cycling, and swimming; the high-level fitness/high-skill sports of gymnastics, hockey, and soccer, and to the lower-level fitness/high-skill sports of basketball, football, and golf.

**EXSC-444. Cellular Physiology Of Exercise. 3 Hours.**

The course provides instruction in the bioenergetics of human movement. Specifically, cellular metabolism and its neuroendocrine control, at rest and in response to both acute and chronic exercise, will be discussed. Additionally, the processes and control of transcription, protein synthesis, and protein degradation will be covered.

**EXSC-445. Cardiovascular & Respiratory Physiology Of Exercise. 3 Hours.**

The course provides advanced instruction in the functioning of the respiratory, cardiovascular and skeletal muscular systems at rest and during exercise. Specifically, the course will provide instruction in pulmonary ventilation, myocardial functioning, circulatory response and skeletal muscle contraction, as well as neuroendocrine control of these processes, at rest and during exercise. Additionally, the exercise-specific application of these physiological processes will be discussed in reference to strength/endurance exercise training adaptations, neuro-muscular fatigue, ergogenic aids (i.e., human performance enhancement substances), gender-related performance differences, and youth exercise/performance.

**EXSC-5901. Thesis Hours. 1 Hour.**

For those students selecting the Thesis Option for the Master of Science in Exercise and Sport Science degree, the course provides faculty guidance in the areas of research question development, research design, data analyses, data interpretation, written research presentation and oral research presentation.

**EXSC-5902. Thesis Hours. 2 Hours.**

For those students selecting the Thesis Option for the Master of Science in Exercise and Sport Science degree, the course provides faculty guidance in the areas of research question development, research design, data analyses, data interpretation, written research presentation and oral research presentation.

**EXSC-5903. Thesis Hours. 3 Hours.**

For those students selecting the Thesis Option for the Master of Science in Exercise and Sport Science degree, the course provides faculty guidance in the areas of research question development, research design, data analyses, data interpretation, written research presentation and oral research presentation.

# Finance (FINA)

---

## Courses

### **FINA-109. First Year Experience: Financial Literacy And Making Smart Financial Decision In Chicago. 3 Hours.**

In this course the four foundations (Future planning, Academics, Self-discovery and Transitions) of the First-year Experience are interwoven with the field specific concepts of financial literacy. Students will be introduced to basic knowledge and skills to manage their financial resources effectively in college and beyond. Students will learn to understand the importance of financial literacy, identify important personal financial goals, and develop financial planning skills to achieve goals such as college financing, debt repayment, investment and retirement planning. Livelihood in Chicago is incorporated throughout the course to aid students to make better and more informed personal finance decisions in Chicago.

### **FINA-309. Foundations In Personal Finance. 3 Hours.**

This course introduces knowledge and skills necessary to understand, plan, and manage personal financial affairs. Topics include cash management, budgeting, goal attainment, spending and credit, insurance, tax, and savings and investing. This course will provide a foundational understanding for making informed and responsible personal financial decisions.

### **FINA-350. Foundations Of FinTech. 3 Hours.**

This course is to provide an overview of the technological innovations in the finance industry. Topics include new and disruptive financial products and services, new technology related to fintech, and fintech regulations.

**Prerequisite:** FINA-360 with a minimum grade of C.

### **FINA-360. Principles Of Financial Management. 3 Hours.**

The purpose of this course is to provide a broad overview of the fundamental concepts in financial management such as creation of value for the shareholders, ratio analysis, time value of money, stock and bond valuation, risk and return, cost of capital and capital budgeting.

**Requirement:** All Foundation Courses completed

**Prerequisite:** ACTG-201 with a minimum grade of C.

### **FINA-362. Investment. 3 Hours.**

An introduction to financial markets. Particular emphasis is placed on valuation and the characteristics of different financial assets.

**Prerequisite:** FINA-360 with a minimum grade of C.

### **FINA-363. Security Analysis. 3 Hours.**

This course analyzes the factors affecting the market valuation of securities utilizing fundamental analysis and modern portfolio theory.

**Prerequisite:** FINA-360 with a minimum grade of C.

### **FINA-364. Problems In Business Finance. 3 Hours.**

This course, employing the case method, is designed to help the student through problem-solving as well as learning skills for making financial decisions for corporations.

**Prerequisite:** FINA-360 with a minimum grade of C.

### **FINA-365. Personal Financial Planning. 3 Hours.**

This course is a broad-based introduction to a wide range of personal financial topics, including setting financial goals, budgeting, saving and credit management, insurance, tax planning, asset acquisition, investments, and retirement planning. It will provide the informational and decision-making tools needed for implementing a sound personal financial plan. Prereq.:MATH-165 and FINA-360.

**Prerequisite:** (MATH-110 with a minimum grade of C or MATH-165 with a minimum grade of C) and FINA-360 with a minimum grade of C.

### **FINA-366. Financial Institutions And Markets. 3 Hours.**

The course is designed to provide students with a broad and integrated view of the concepts and principles of the financial system as well as an understanding of pertinent issues faced by different types of financial institutions. Prereq.: FINA-360.

**Prerequisite:** FINA-360 with a minimum grade of C.

### **FINA-367. Short-Term Financial Management. 3 Hours.**

This course focuses on short-term assets and liabilities and discusses the implications of short-term financial management from the perspective of value creation. It also develops skills useful to a bank loan officer, a credit analyst, a cash manager, or a corporate treasurer. Prereq.: FINA-360.

**Prerequisite:** FINA-360 with a minimum grade of C.

### **FINA-368. Financial Management Of Financial Institutions. 3 Hours.**

The objective of this course is to expose the student to the techniques of financial management employed by the financial institutions and other financial intermediaries. The course emphasizes the use of tools for decision making within a financial institution framework which is in a state of transition.

**Prerequisite:** FINA-360 with a minimum grade of C.

### **FINA-369. Speculative Markets. 3 Hours.**

This course reviews the mechanics of the major futures contracts: commodities, financial, stock index, and currency futures. Particular emphasis is placed on hedging price risk with futures contracts, and speculating with futures and options contracts. The student is expected to complete a project involving a simulated trading game involving futures and options. Prereq.: FINA-360.

**Prerequisite:** FINA-360 with a minimum grade of C.

**FINA-370. Option Pricing:Theory And Strategic Applications. 3 Hours.**

The course is designed to familiarize students with the theoretical foundations of options pricing. This knowledge is then used to design strategies for profiting from mispriced options. Mathematical complexity will be kept to a minimum. The use of personal computers as decision-making aids will be strongly emphasized.

**FINA-371. International Financial Management. 3 Hours.**

The course focuses on the international aspects of finance management. Particular emphasis is placed on the control of exchange rate risk and financing multinational corporations.

**Prerequisite:** FINA-360 with a minimum grade of C.

**FINA-372. Portfolio Management. 3 Hours.**

The course covers the theory and the techniques of portfolio management. Particular emphasis is placed on definition of objectives for and the construction of portfolios. This course prepares the student for the first CFA exam.

**Prerequisite:** FINA-360 with a minimum grade of C and MNGT-368 with a minimum grade of C.

**FINA-373. Intermediate Financial Management. 3 Hours.**

This course is an extension of FINA-360. It seeks to build upon the theoretical framework developed in FINA-360, enabling students to acquire new conceptual and applied knowledge of corporate finance. The course covers, among other topics, advanced issues in capital budgeting, optimal capital structure theory, debt policy, dividend policy, buy versus lease decisions, current asset management, mergers, bankruptcies and reorganizations. Students are expected to have a familiarity with a spreadsheet package.

**Prerequisite:** FINA-360 with a minimum grade of C.

**FINA-374. Futures Trading Strategies. 3 Hours.**

The course is designed to emphasize the practical, rather than theoretical, aspects of futures markets. Students will be exposed to technical analysis, mechanical system development, and to disciplined money management techniques. The student is expected to participate in a simulated trading game involving futures. Prereq.: FINA-360.

**Prerequisite:** FINA-360 with a minimum grade of C.

**FINA-375. Debt Markets And Portfolio Strategies. 3 Hours.**

The first part of the course is designed to introduce students to some of the very recent innovations in the fixed-income securities market, as for example, zero coupon bonds, floating rate notes and convertible issues. The next segment familiarizes students with portfolio management considerations unique to debt instruments. Mathematical complexity, though inevitable, will be kept to a minimum.

**Prerequisite:** FINA-360 with a minimum grade of C.

**FINA-376. Technical Analysis Of The Futures Market. 3 Hours.**

This course will enable students to read and interpret futures price charts. Technical analysis (as opposed to fundamental analysis) stresses the information content of part and price data and is based on the premise that prices do not always move randomly. Students believing in this underlying philosophy ought to benefit from this course.

**Prerequisite:** FINA-360 with a minimum grade of C.

**FINA-377. Real Estate Finance. 3 Hours.**

The primary objective of this course is to provide an overview of real estate finance. This course involves an exploration of the characteristics, institutions, and markets through which financing of real estate occurs. This course focuses on the dynamic changes that have occurred in the real estate field in the past few years and also assess the impact that these changes have had on both the availability and costs of mortgage debt and the risks associated with its use.

**Prerequisite:** FINA-360 with a minimum grade of C.

**FINA-378. Introduction To Risk Management And Insurance. 3 Hours.**

The individual, family, business entity, and society are all exposed to accidental loss events that may have a significant bearing on their financial, analyzing, controlling, financing, and monitoring these loss exposures. The primary focus of this introductory course is to provide an understanding of the various risks that businesses and individuals are exposed to and the alternative methods that are available to manage these risks.

**Prerequisite:** FINA-360 with a minimum grade of C.

**FINA-380. Entrepreneurial Finance. 3 Hours.**

This course offers a framework for understanding fundamentals of entrepreneurial finance. Topics include introduction to entrepreneurial finance, financial statement analysis, cash flow management, valuation of business, raising capital, debt financing, equity financing and other sources of funding.

**Prerequisite:** ACTG-201 with a minimum grade of C.

**FINA-382. Internship In Finance. 3 Hours.**

**FINA-383. Internship In Finance. 4 Hours.**

**FINA-384. Internship In Finance. 5 Hours.**

**FINA-385. Internship In Finance. 6 Hours.**

**FINA-395. Independent Study In Finance. 3 Hours.**

**FINA-396. Independent Study In Finance. 2 Hours.**

**FINA-397. Independent Study In Finance. 1 Hour.**

**FINA-400. Fundamentals Of Financial Management. 2 Hours.**

This course centers on corporate financial management, providing students with an overview of essential financial concepts such as time value of money, the relation between risk and return, stock valuation, bond valuation, and the analysis of corporate financial performance.

**Prerequisite:** ACTG-400 with a minimum grade of C.

**FINA-402. Issues In Corporate Finance. 3 Hours.**

This course provides a broad exposure to the principles and techniques of Financial Management. The course discusses how important areas in Financial Management, namely, the Investment Decision, Financing Decision, and Payout Decision can contribute to the goal of shareholder value creation, from a domestic and international perspective. Prereq.: COBM-402 or undergraduate/graduate exposure to Financial Management.

**Prerequisite:** COBM-402 with a minimum grade of C.

**FINA-460. Financial Management. 3 Hours.**

**Prerequisite:** MNGT-368 with a minimum grade of C.

**FINA-462. Investment Strategies. 3 Hours.**

This course provides an overview of investing with an emphasis on the fundamental approach to investing. Students will be exposed to modern portfolio theory and its implications and gain an understanding of asset pricing models, bond portfolio management strategies, and equity portfolio management strategies. Prereq.: FINA-400 or equivalent and graduate standing.

**Prerequisite:** FINA-460 with a minimum grade of C.

**FINA-469. Mergers And Acquisitions. 3 Hours.**

This course involves an examination of the key elements of the mergers and acquisitions process. It provides the analytical framework and vital tools necessary to successfully plan and execute mergers, acquisitions, and corporate restructuring. One key goal of this course is for the students to develop a critical appreciation of the key financial and strategic criteria in a proposed acquisition. The primary purpose of this course is to make sure students understand what works and what does not, in the world of mergers and acquisitions.

**Prerequisite:** FINA-400 with a minimum grade of C.

**FINA-470. Corporate Financial Strategy. 3 Hours.**

Corporate financial strategy in practice is emphasized in this course. Topics to be discussed include: (a) financial planning, (b) strategies for raising capital, (c) strategies for allocating capital among different uses, and (d) strategies for working capital management.

**Prerequisite:** FINA-400 with a minimum grade of C.

**FINA-471. International Financial Management. 3 Hours.**

This course emphasizes the theoretical concepts of international finance such as currency arbitrage and interest rate parity and their practical ramifications. Particular emphasis is placed on the hedging of exchange risks for importers and exporters, swap financing, international capital budgeting, and the cost of capital for local and foreign currency borrowing. Prereq.: FINA-400 or equivalent and graduate standing.

**Prerequisite:** FINA-400 with a minimum grade of C.

**FINA-474. Seminar On Futures And Options Markets. 3 Hours.**

This seminar provides an overview of the commodity/financial futures and options markets. Particular emphasis is placed on hedging price risk with futures contracts, valuing options contracts, and speculating with trading strategies involving futures and options contracts. The course will emphasize trading strategies using the futures and options markets with the help of a simulated trading game. Prereq.: FINA-400 or equivalent and graduate standing.

**Prerequisite:** FINA-400 with a minimum grade of C.

**FINA-475. Management Of Financial Institutions. 3 Hours.**

This course focuses on the application of traditional finance concepts to the management of commercial banks and other depository intermediaries, which are part of the Financial Services Industry, operating in domestic and international markets.

**Prerequisite:** FINA-400 with a minimum grade of C.

**FINA-500. Project. 3 Hours.**

Approval of major advisor is necessary.

**FINA-501. Thesis. 3 Hours.**

Approval of major advisor is necessary.

# Foreign Lang Elem Schl Tchg (EFLM)

---

## Courses

EFLM-372. Methods Of Teaching Foreign Language In The Elementary School. 3 Hours.

# French (FREN)

---

## Courses

### **FREN-101. Beginning French I. 3 Hours.**

Development of basic skills in listening, speaking, reading and writing. Cultural appreciation.

### **FREN-102. Beginning French II. 3 Hours.**

Continuation of FREN-101.

**Prerequisite:** (FREN-101 or NEIU French Placement Score 283 - 310).

### **FREN-201. Intermediate French I. 3 Hours.**

Continuation of FREN-102.

**Prerequisite:** (FREN-102 or NEIU French Placement Score 311 - 445).

### **FREN-202. Intermediate French II. 3 Hours.**

**Prerequisite:** (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 311 - 445).

### **FREN-210. Reading Modern French. 3 Hours.**

Practice in reading modern texts of current interest and moderate difficulty.

**Prerequisite:** (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 311 - 445).

### **FREN-220. French Conversation I. 3 Hours.**

Development of oral-aural communication skills with emphasis on everyday situations. Conducted in French.

**Prerequisite:** (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 311 - 445).

### **FREN-221. French Grammar And Composition I. 3 Hours.**

Overview of grammar with emphasis on writing skills.

**Prerequisite:** (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 311 - 445).

### **FREN-230. French Phonetics. 3 Hours.**

Presentation, classification and analysis of the sounds of the French language with special emphasis on techniques and drills leading to habits of correct pronunciation. Conducted in French.

**Prerequisite:** (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 311 - 445).

### **FREN-251. French Conversation II. 3 Hours.**

Continuation of FREN-220.

**Prerequisite:** (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 311 - 445).

### **FREN-252. Grammar & Composition II. 3 Hours.**

Continuation of FREN-221.

**Prerequisite:** (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 311 - 445).

### **FREN-300. Introduction To French Civilization. 3 Hours.**

**Prerequisite:** (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 446 - 999).

### **FREN-312. French Conversation III. 3 Hours.**

**Prerequisite:** (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 446 - 999).

### **FREN-313. French Grammar And Stylistics. 3 Hours.**

Identification, analysis and use of French structure; extensive exercises in grammatical and logical analysis. Conducted in French.

**Prerequisite:** (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 446 - 999).

### **FREN-315. Applied French Linguistics. 3 Hours.**

A systematic comparison of French and English. Application of teaching techniques related to modern theories of language learning. Required for secondary school teacher certification.

**Prerequisite:** (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 446 - 999).

### **FREN-320. Introduction To French Literature. 3 Hours.**

Outline of French literature; outstanding authors and their works from the Middle Ages to the present. Conducted in French.

**Prerequisite:** (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 446 - 999).

### **FREN-350. Independent Study In French. 3 Hours.**

Project or research on a special topic relevant to the student's degree program. The course will be designed in consultation with an instructor who will also supervise the student's work.

**Prerequisite:** (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 446 - 999).

### **FREN-357. Contemporary French Society. 3 Hours.**

The study and discussions of major debates in French society today. Topics explored may include: family, gender, the media, fashion, music, culinary arts, the education system, urban problems, social stratification, immigration, and French politics. Taught in French.

**Prerequisite:** (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 446 - 999).

**FREN-361. Advanced French Conversation. 3 Hours.**

Development of communicative skills primarily in speaking and listening in French at the Advanced Level. This course may be repeated once.

**Prerequisite:** (FREN-201 - 399 or FREN-201A - 399Z or NEIU French Placement Score 446 - 999).

# Geography and Envir Studies (GES)

---

## Courses

### **GES-104. World Geography. 3 Hours.**

Students will study the major world regions using a geographic perspective which includes both the physical environment (e.g., climate, soils, natural resources, topography) and the human environment (e.g., population, economic, political, urban, trade, culture, language). The course includes map interpretation and a brief introduction to modern geospatial technologies.

### **GES-109A. First Year Experience: Global Chicago. 3 Hours.**

This First Year course provides a broad overview of the Chicago metropolitan area in the global context and within the framework of urban geography. Students will explore Chicago as a hub in the global economy and the many ways in which global forces have impacted the region.

### **GES-109B. First Year Experience: Humans And The Chicago Environment. 3 Hours.**

Students will explore the relationships between human settlement and the natural environment in the Chicago metropolitan area including local environmental problems, their causes, and their possible solutions. Issues such as waste disposal, recycling, brownfields, suburban sprawl, air and water pollution, water supply, flooding and drainage, invasive species, and urban parks are investigated with classroom discussion. Some field trips are possible.

### **GES-150. Introduction To Environmental Studies. 3 Hours.**

This is an introduction to the study of human-environment relations with a focus on sustainable solutions to environmental problems. Students will learn about fundamentals of environmental systems, human impacts on the environment, and sustainable solutions to environmental issues from local to global scales.

### **GES-180. Fundamentals Of Data Science. 4 Hours.**

Foundations of data science considers data from three perspectives: inferential thinking, computational thinking, and real-world relevance. Given data arising from some real-world phenomenon, how does one analyze that data to understand that phenomenon? The course teaches critical concepts and skills in computation and statistical inference, in conjunction with hands on analysis of real-world datasets, including economic data, document collections, geographical data, and data from social networks. It delves into social, ethical, and legal issues surrounding data analysis, including privacy and data ownership.

**Prerequisite:** MATH-173 with a minimum grade of C.

### **GES-199. Topics In Environmental Studies For Middle School Teaching. 4 Hours.**

### **GES-205. Physical Geography. 3 Hours.**

This course introduces students to the geographic distribution and interrelations of Earth's physical environment from a systems perspective. It emphasizes Earth-Sun relations, climate systems, soil, vegetation, and landform types and processes.

### **GES-218. Conservation Of Natural Resources. 3 Hours.**

This course introduces students to contemporary approaches to natural resource management emphasizing efforts toward conservation and preservation. Students will learn how to manage a range of resources such as air, water, soil, forests, grasslands, energy and minerals, and wildlife. They will study the processes, problems, and management methods for different resource types.

### **GES-250. Writing Intensive Program: Writing in GES. 3 Hours.**

In this writing intensive course students develop written communication skills relevant to Geography and Environmental Studies. Topics include note taking, outlines, drafts, writing styles, bibliography and references, essays, reviews, policy statements and reports of varying lengths. Library and online writing resources will be explored. Students will incorporate maps, graphs, and other visual aids.

**Prerequisite:** ENGL-101 with a minimum grade of C.

### **GES-301. Great Lakes Environmental Management. 3 Hours.**

This course will survey human/environmental issues in the Great Lakes basin with an emphasis on environmental policy, planning, governance, and management. Topics include water resource use and management, wildlife management, industrial, urban and agricultural pollution and abatement, inter-state and inter-national transportation, and resource conflicts and solutions. Some field trips are possible.

### **GES-302C. Regional Geography: Africa. 3 Hours.**

This is a descriptive and explanatory study of a major region. Emphasis is placed on the region's defining human/social and physical factors, on its distinct problems and opportunities, and its role in a wider spatial context.

### **GES-302D. Regional Geography: World Oceans. 3 Hours.**

Students will study the geography and distribution of the oceans: physical geography of the ocean floor, coastal landforms, earthquakes and volcanoes, oceans and climate, life in the oceans, ocean resources, and human impacts. Contemporary problems and future opportunities include laws of the sea; transportation, and the importance of the oceans to environmental quality of Earth.

### **GES-302F. Regional Geography: Australia And The Pacific Islands. 3 Hours.**

This is a descriptive and explanatory study of a major region. Emphasis is placed on the region's defining human/social and physical factors, on its distinct problems and opportunities, and its role in a wider spatial context.

**GES-302G. Regional Geography: Caribbean. 3 Hours.**

This is a descriptive and explanatory study of a major region. Emphasis is placed on the region's defining human/social and physical factors, on its distinct problems and opportunities, and its role in a wider spatial context.

**GES-302H. Regional Geography: Eastern Europe. 3 Hours.**

This is a descriptive and explanatory study of a major region. Emphasis is placed on the region's defining human/social and physical factors, on its distinct problems and opportunities, and its role in a wider spatial context.

**GES-302K. Regional Geography: East Asia. 3 Hours.**

This is a descriptive and explanatory study of a major region. Emphasis is placed on the region's defining human/social and physical factors, on its distinct problems and opportunities, and its role in a wider spatial context.

**GES-302L. Regional Geography: Southeast Asia. 3 Hours.**

This is a descriptive and explanatory study of a major region. Emphasis is placed on the region's defining human/social and physical factors, on its distinct problems and opportunities, and its role in a wider spatial context.

**GES-302M. Regional Geography: Russia And Central Asia. 3 Hours.**

This is a descriptive and explanatory study of a major region. Emphasis is placed on the region's defining human/social and physical factors, on its distinct problems and opportunities, and its role in a wider spatial context.

**GES-302N. Regional Geography: South Asia. 3 Hours.**

This is a descriptive and explanatory study of a major region. Emphasis is placed on the region's defining human/social and physical factors, on its distinct problems and opportunities, and its role in a wider spatial context.

**GES-302O. Regional Geography: Middle East. 3 Hours.**

This is a descriptive and explanatory study of a major region. Emphasis is placed on the region's defining human/social and physical factors, on its distinct problems and opportunities, and its role in a wider spatial context.

**GES-302Q. Regional Geography: Western Europe. 3 Hours.**

This is a descriptive and explanatory study of a major region. Emphasis is placed on the region's defining human/social and physical factors, on its distinct problems and opportunities, and its role in a wider spatial context.

**GES-302S. Regional Geography: Developing World. 3 Hours.**

This is a descriptive and explanatory study of a major region. Emphasis is placed on the region's defining human/social and physical factors, on its distinct problems and opportunities, and its role in a wider spatial context.

**GES-302V. Regional Geography: U.S. And Canada. 3 Hours.**

This is a descriptive and explanatory study of a major region. Emphasis is placed on the region's defining human/social and physical factors, on its distinct problems and opportunities, and its role in a wider spatial context.

**GES-302X. Regional Geography: Latin America. 3 Hours.**

This is a descriptive and explanatory study of a major region. Emphasis is placed on the region's defining human/social and physical factors, on its distinct problems and opportunities, and its role in a wider spatial context.

**GES-303. Geography And Disability: Space, Place, And Power. 3 Hours.**

Students will study the social and geographic processes rendering some bodies disabled and others abled in space and place. The landscape of experience at different scales, mobility, geography of disability services, mapping as a form of representation, urban policies, and planning will be covered. Instruction may include critical debates, field trips and guest speakers.

**GES-303A. Topics In Geography: Social Geography. 3 Hours.**

A current topic in geography will be explored in depth. See Schedule of Classes, course notes, and consult the department for more information.

**GES-303B. Topics In Geography: American Cities: Past, Present And Future. 3 Hours.**

This is an overview of geographic and historical development of American cities and an evaluation of contemporary urban issues. It emphasizes spatial processes within cities and within the larger urban system. Using fundamental aspects of urban theory students will discuss how cities developed and how processes such as suburbanization affect the social, economic and environmental aspects of city life.

**GES-305. Geography And Map Skills For Teachers. 3 Hours.**

Students will review the structure and content of both physical and human geography as well as the themes and standards of geography education. Basic educational concepts will be covered, as will instructional strategies for integrating geographic, geospatial, and GIS concepts into curriculum. This course is intended for those who plan to become formal or informal educators in Grades K-12.

**GES-307. Environmental Education. 3 Hours.**

This course offers an exploration and analysis of educational theory, various instructional methods, and the design of environmental education and outreach programs. Students will gain practical knowledge in lesson plan design and implementation, current research trends in environmental education, and various conservation-based field techniques related to environmental programming. Curricular development skills will be applied in the context of contemporary environmental issues.

**GES-308. Conservation Psychology. 3 Hours.**

Students will explore the emerging field of conservation psychology with an emphasis on the psychological characteristics of the relationship between humans and nature, such as environmental values, attitudes, behavior, and decision-making practices. Course topics, including environmental perception, identity, personal morals, ecopsychology, wilderness psychology, domestic nature, managed nature, community dimensions, and environmental education, will be investigated in the context of promoting environmental responsibility.

**GES-309. Principles And Methods Of Environmental Interpretation. 3 Hours.**

Students will explore the art of interpreting the natural environment of various settings (e.g., parks, camps, historical markers, places of cultural significance) for visitors. Students will practice a variety of interpretive activities and techniques including storytelling, interpretive talks, role-playing, interpretive signage, and guided programs. Projects include the creation of unique interpretive programming under instructor guidance and possibly with external clients. Some field trips are possible.

**GES-311. Social Dimensions Of Water Resources Management. 3 Hours.**

This course examines the social dimensions of water resources management and development by examining the relationship between humans and the hydrological cycle in the U.S. and world regions. Students will draw from key social theoretical frameworks to better understand and explain the development, use, management, and governance of water resources by humans at various scales and in different settings. Human impacts on natural water systems, the influence of natural water systems on humans, and water conflicts and resolutions will be highlighted. Field trips are possible.

**GES-314. Political Geography. 3 Hours.**

Students will study the relationship between geographical factors of the physical and human environments and political organization. Topics include territorial claims and conflicts, defining borders and districts, spatial patterns of legislation, development and evolution of nations, and changing patterns in the world political map.

**GES-315. Economic Geography. 3 Hours.**

Students will explore how economic activities are organized in space at the local, regional and global levels. Geographic frameworks, concepts, explanations and analytical tools will be used to show how space and location are critical elements affecting economic systems and why different places achieve different levels of well-being.

**GES-316. Location Analysis. 3 Hours.**

This course focuses on the use of location theory and economic modeling to understand spatial patterns of land use and to determine optimal spatial arrangements relating to location of business, services, resources and trade. Environmental influences and impacts are discussed.

**GES-319. Environmental And Natural Resources Policy. 3 Hours.**

This course analyzes environmental and natural resource policy development, implementation, and revision. It emphasizes contemporary political, environmental, economic, and legal aspects of US federal and state environmental policies in a global.

**GES-321. Environmental Impact Assessment. 3 Hours.**

Students will analyze the National Environmental Policy Act (NEPA) and its requirement of environmental impact assessment. Topics include NEPA requirements, categories and methods of environmental assessment; agency direction for implementing NEPA; impact assessment in planning and decision making; and public participation and conflict management.

**GES-322. Aerial Photo Interpretation. 3 Hours.**

This course introduces the use of aerial photographs for evaluating natural and built environments. Students will gather and study information in order to identify various cultural and natural features from aerial photographs.

**GES-323. Green Infrastructure Planning And Management. 3 Hours.**

This course focuses on the challenges and benefits of incorporating open space, native landscaping, street trees, etc. into urban planning to ameliorate problems such as erosion, storm water management, climate change, habitat loss, and pollution. Plans at differing scales will be compared; case studies of green infrastructure implementation will be examined; and management and maintenance of green infrastructure practices will be discussed. This is a GES-approved field class. Most classes will be held in the field.

**GES-327. Forest Resource Management. 3 Hours.**

Students will study forest values, management, policies and practices for public and private lands, including national wilderness areas, parks and forests, and the role of trees and forests in urban areas. Some field trips are possible.

**GES-328. Wildlife Resource Management. 3 Hours.**

This is a general wildlife management course designed for resource planners, environmental managers, interpretive naturalists, and educators. Fish and wildlife values, conservation principles and practices, and current policy issues will be covered.

**GES-329. Sustainable Energy Policy. 3 Hours.**

Students will study renewable energy resources such as solar, wind, hydro, and biomass sources as alternatives to nuclear energy and traditional fossil fuels. They will examine sustainable energy policy and other ways energy resources can be managed towards a sustainable future.

**GES-336. Solid Waste Issues. 3 Hours.**

This course examines trends in municipal solid waste generation, collection, disposal and management. Students will explore and discuss the roles of federal, state, county, and municipal governments and policies. International waste issues and management strategies will also be covered.

**GES-337. Cultural Geography. 3 Hours.**

This course will focus on the cultural landscape including patterns of language, religion, ethnicity, gender, and livelihoods as they vary from region to region around the world.

**GES-338. Sustainable Development. 3 Hours.**

Sustainable development is an alternative to traditional industrial-economic models of growth which often marginalize people and damage ecosystems. The course will cover specific strategies, policies, and implications of the sustainable development approach globally. Environmental, social, and economic aspects of development will be examined at various scales.

**GES-339. Geography Of Energy. 3 Hours.**

This course examines the changing spatial patterns of the distribution, consumption, and transportation of energy resources in the US and world regions. Students will investigate new technologies and management strategies for production and delivery of energy resources. Some field trips are possible.

**GES-344. Chicago River Issues. 3 Hours.**

This field class explores the geographic, environmental, historic, economic, engineering, recreation and other aspects of the Chicago River. Students will study water quality, land use and ownership issues, habitat restoration, and the importance of rivers in metropolitan areas. As a GES- approved field class, most classes are held in the field and will include light hiking and paddling.

**Prerequisite:** (100 - 399 or 100A - 399Z).

**GES-345. Medical Geography. 3 Hours.**

The course will cover health-related topics including infectious and non-infectious diseases, from a spatial perspective. Ecological, social, and spatial factors affecting health and disease will be studied, as will the tools and methods of intervention. Special attention is given to the effects of globalization and urbanization on health and disease.

**GES-346. Geography Of Metropolitan Chicago. 3 Hours.**

This is a detailed study of communities within Chicago and its surrounding area with an emphasis on the formation and spatial distribution of distinct regions. Some field trips are possible.

**GES-347. Gentrification And Urban Redevelopment. 3 Hours.**

Students will examine the processes and effects of gentrification, revitalization, restoration and urban redevelopment both in metropolitan Chicago and globally. Some field trips are possible.

**GES-348. Latinx Metropolis. 3 Hours.**

This course explores the processes of Latinx urbanization and urbanism in the United States and the spatialization of Latinx identities and experiences. As more Latinxs live and work in U.S. cities, they gradually transform the social relations and spatial practices that manifest the geographical and historical legacies of previous waves of urbanization, to suit their varied needs and to express their own diverse values. As U.S. urban spaces increasingly become loci that constitute, constrain and mediate the life experiences of Latinxs, they become sites laden with political and social potential poised to transform our collective urban futures.

**Prerequisite:** (100 - 399 or 100A - 399Z).

**GES-349. Environment And Urbanization. 3 Hours.**

The course focuses on urban development emphasizing the role of the natural environment in cities around the world. The rapid growth of urban areas both within and beyond core regions will be studied, with special attention paid to the environmental factors affecting urbanization and the impacts of urbanization on the natural environment.

**GES-350. Climate Change: International Policy And Politics. 3 Hours.**

This course covers international climate change policy and politics in the context of global capitalism, with a focus on efforts to limit the causes (mitigation) and impacts (adaptation) since the signing of the UN Framework Convention on Climate Change in 1994. The course emphasizes the disproportionate impacts of climate change on the global South and marginalized communities in the global North. Students will assess mitigation and adaptation strategies in countries and regions from a people-centered, place-based approach that respects local socio-ecological contexts and environmental justice perspectives.

**GES-351. Spatial Statistics. 3 Hours.**

This course introduces students to the fundamentals of spatial statistics. Students will explore statistical problems, principles, and techniques for the study of geographic and environmental phenomena with spatially referenced data.

**GES-352. Independent Study In Geography And Environmental Studies. 3 Hours.**

Students will study a topic of special interest under the supervision of a faculty member. See the Department policy on independent studies.

**GES-353. Independent Study In Geography And Environmental Studies. 2 Hours.**

(See GES-352 for description.).

**GES-354. Independent Study In Geography And Environmental Studies. 1 Hour.**

(See GES-352 for description.).

**GES-355. Metropolitan Transportation: Problems And Planning. 3 Hours.**

This course presents a study of the location, impact, causes, and mitigation of natural hazards globally. Example topics include earthquake, volcano, flooding, landslide, subsidence, extreme weather, wildfire, and tsunamis. Hazard mitigation will also be covered. Some field trips are possible.

**GES-357. Geography Of Natural Hazards. 3 Hours.**

This course presents a study of the location, impact, causes, and mitigation of natural hazards globally. Example topics include earthquake, volcano, flooding, landslide, subsidence, extreme weather, wildfire, and tsunamis. Hazard mitigation will also be covered. Some field trips are possible.

**GES-358. Museum Studies. 3 Hours.**

This course takes a multi-disciplinary approach to the study of museums, cultural heritage institutions, and natural history organizations and the contemporary issues and challenges facing them. Students will examine the theory and organization of museums as well as their historical and contemporary role in education, cultural preservation, research, and interpretation. This course will also take a critical look at the role of museums in colonialist endeavors, and at how they address social hierarchies, race, and ethnicity. Students will enrich their classroom learning with working visits to a diversity of institutions in the Chicago area. Course is open to all majors.

**GES-359. Environmental Planning. 3 Hours.**

In this course students will learn how to incorporate environmental factors into land use and resource planning. They will explore interrelations between physical systems and land use; they will identify tools and resources for ecologically sound analysis and planning; and will develop an environmental plan of their own.

**GES-360. Environmental Justice And Activism. 3 Hours.**

Students will investigate the history and process of environmental equity, grassroots activism, legislation and lobbying, and community organization. Some field trips are possible.

**GES-361. Urban Planning. 3 Hours.**

Students will study the historical development of urban planning in the United States, the components of a comprehensive plan, and the theory and practice of urban planning.

**GES-362. Population Geography. 3 Hours.**

Population structure, growth/decline, distribution, and migration from local to global scales will be covered. The impact of population structure on economic growth, and problems including environmental degradation and human suffering will be discussed. The course will also cover population policies and initiatives.

**GES-3631. Field Experience:Problems In Geography. 3 Hours.****GES-365. Urban Geography. 3 Hours.**

This survey course in urban geography focuses on processes and outcomes of urbanization. It will address the changes unfolding in the metropolitan landscape and will encourage students to develop a deeper and more nuanced understanding of cities and urban socio-spatial processes.

**GES-367. Geography Of Tourism. 3 Hours.**

Students will examine tourism from a geographic and environmental perspective. Topics include political and economic impact on communities, ecotourism, and the cultural consequences of tourism in different world regions. Students will investigate a local tourist site. Some field trips are possible.

**GES-368. Climate Change: Changing Climate, Changing Chicago. 3 Hours.**

This course focuses on climate change mitigation and adaptation efforts in the Chicago metropolitan region. Students will learn how physical geographers evaluate historical climate conditions as well as project future climates, and how to apply this information to planning problems. A majority of the class will emphasize the ongoing creation and use of local, county, state, and regional climate change mitigation and adaptation plans.

**GES-370. Interdisciplinary Seminar On Climate Change. 2 Hours.**

This university-wide seminar provides important views on the critical issue of climate change, drawing from many perspectives and disciplines. Faculty from different NEIU departments and other institutions will present an overview of socio-economic, political, cultural, racial, gender, ethical, and scientific perspectives on the issue of climate change. The main objective of the seminar is to gain an understanding of the dynamic linkages and feedbacks between the climate system and society and to critically evaluate climate change solutions in the context of sustainability and social & environmental justice.

**GES-371. Advanced Physical Geography. 3 Hours.**

This course will cover advanced topics in physical geography, focusing primarily on geomorphic systems (e.g., rivers, glaciers, deserts, coastal zones, karst) and biomes. It will cover contemporary approaches to physical geography as a discipline.

**Prerequisite:** GES-205 with a minimum grade of C.

**GES-372. GIS Across Disciplines. 3 Hours.**

This course introduces students to the fundamental concepts of Geographic Information Systems (GIS) and its application in a variety of disciplines including both social and natural sciences. Students will also gain hands-on experiences of collecting and manipulating spatial data and creating effective maps.

**GES-374. Research Methods. 3 Hours.**

This course explores the foundations and tools of research including quantitative, qualitative, and mixed-methods approaches used in Geography and Environmental Studies. Students will conduct original research from topic selection and development of a research question to a finished paper and presentation. They will gain skills in data collection, analysis, and interpretation as well as in professional writing and presentation.

**Prerequisite:** GES-250 with a minimum grade of C and (GES-104 with a minimum grade of C or GES-150 with a minimum grade of C).

**GES-376. Principles Of Cartography. 3 Hours.**

This course covers principles of map making, the history of cartography, evolution of modern techniques, projections, symbolization, visual appeal, thematic mapping techniques, design, production and interpretation.

**GES-377. Computer Cartography. 3 Hours.**

Students will design, create, and publish a variety of thematic maps using digital graphics programs. The course will include cartographic conventions, aesthetic considerations, and effective symbology.

**GES-380. Field Methods. 3 Hours.**

Introduction to the instruments, measurements, mapping techniques, and sampling procedures used to acquire primary data from field observations. Development of a field research plan, culminating research projects tailored to each student's interest. Approved for graduate credit.

**GES-383. Internship In Geography And Environmental Studies. 3 Hours.**

This is a supervised field experience with an agency related to the student's career interest. Prior course work and other disciplinary experiences are evaluated before approval is granted to enroll in the internship. Students will work closely with their advisor in advance of enrollment and will have regular contact throughout the course. There is a formal process for reporting and assessment and 160 work hours are required. This is a GES-approved field class.

**GES-387. Interactive Cartography. 3 Hours.**

This course focuses on cartographic techniques for web delivery of interactive maps. Students learn basic coding and script modification for interactive map images, and preparation of base maps and data. Emphasis is placed on widely available open source tools. Students will design and complete a research project using new skills for interactive mapping.

**Prerequisite:** (100 - 399 or 100A - 399Z).

**GES-388. Field Camp. 3 Hours.**

Students must consult the Schedule of Classes for specific destination and costs for this travel-based course. Departmental approval is required for enrollment. There will be classroom meetings prior to travel for discussion of the geographic and environmental issues of the destination. Student will perform a research project based on literature review and field work. This is a GES- approved field class.

**GES-389. Urban Design Studio. 3 Hours.**

This studio course presents perspectives, standards and techniques used in representing urban plans and projects. Cultural, economic, political and social dimensions of urban life are incorporated in the computer assisted design projects.

**GES-390. Remote Sensing And Digital Image Processing. 3 Hours.**

This course focuses on the analysis of remotely sensed data for geographic and environmental applications including the detection of a variety of resources in the natural and human environments, measurement of change, and human impact.

**Prerequisite:** (100 - 399 or 100A - 399Z).

**GES-391. Introduction To GIS. 3 Hours.**

This course is an introduction to Geographic Information Systems (GIS) technology for research applications. Students will study the conceptual and technical process of GIS research including project design, data acquisition, data manipulation, analysis, interpretation and display.

**GES-392. Geospatial Analysis. 3 Hours.**

This course introduces advanced skills in Geographic Information Systems (GIS), including the concepts, methods and techniques of geospatial analysis and modeling. A variety of spatial data geoprocessing tools will be explored, using both raster and vector formats. Students will apply GIS tools and skills to a real world problem.

**Prerequisite:** GES-391 with a minimum grade of C.

**GES-393. GIS Modeling And Programming. 3 Hours.**

This course focuses on advanced analysis of Geographic Information Systems (GIS) data using scripts and programming. Topics will include database management, model building, scripting and programming, and open source GIS. Students will complete several projects related to the course topics.

**Prerequisite:** GES-391 with a minimum grade of C.

**GES-395. GIS Internship. 3 Hours.**

This course is a supervised field experience using Geographic Information Systems (GIS) and related geospatial technologies. A proposal and departmental approval is required in advance of registration. There is a formal process for reporting and assessment, and 160 work hours are required. Students should consult Department materials for specific guidelines and instructions. This is a GES- approved field class.

**Prerequisite:** GES-391 with a minimum grade of C.

**GES-396. Food And The City. 3 Hours.**

In the face of growing awareness of the environmental impacts of conventional agriculture, food insecurity, and climate change, many view urban agriculture as a promising solution to a variety of socio-economic and environmental concerns. This course will examine the historical development, current versions, and future potentials of urban food production in a geographic context. Some field trips are possible.

**GES-401. Seminar In Cultural Geography. 3 Hours.**

This course will explore dimensions of the cultural landscape emphasizing the influence of location and place in the creation, shaping, and maintenance of cultural regions. Cultural change and interactions will be studied at various scales of analysis.

**GES-411. Scope And Philosophy Of Geography And Environmental Studies. 3 Hours.**

This is a historical and theoretical review of geography as a spatial discipline, and of the philosophy of conservation and environmental studies. The relationship between these two fields will be examined. The course also provides an overview of the M.A. program and graduate level studies.

**GES-413. Advanced Research Methods. 3 Hours.**

This course develops concepts and skills for those preparing for graduate research (thesis or research paper) in the Department of Geography and Environmental Studies or related social science fields. Research design, data-gathering techniques, data analysis, research planning, and quantitative, qualitative, and mixed method approaches will be covered. Students will interpret published research and produce a research proposal.

**Prerequisite:** GES-411 with a minimum grade of C.

**GES-415. Geospatial Data Analysis. 3 Hours.**

This course covers the use of contemporary tools used in the design and preparation of thematic maps. It also provides an overview of spatial analyses now possible with geographic information systems (GIS). Topics include data collection, input, storage, retrieval, manipulation and output.

**GES-416. GIS For Natural Systems Management. 3 Hours.**

This course introduces students to the theory and concepts of data storage, retrieval, visualization, modelling, and output for natural resource applications and management. Mainly with the use of raster GIS students will design and complete their own research projects.

**Prerequisite:** GES-391 with a minimum grade of C or GES-491 with a minimum grade of C.

**GES-417. Urban Information Systems. 3 Hours.**

This course focuses on the application of GIS in the urban environment. Topics will include suburbanization, segregation, economic development, network-based transportation and site location. Students' exploration will culminate in independently designed research projects.

**Prerequisite:** GES-391 with a minimum grade of C or GES-491 with a minimum grade of C.

**GES-424. Human Dimensions Of Global Environmental Change. 3 Hours.**

This course introduces students to the role of humans in driving environmental change at local to global scales. They will integrate knowledge of human and non-human systems to enhance their understanding of contemporary global environmental problems. By studying academic literature connecting social and ecological systems they will explore the causes and consequences of human activities in relation to anthropogenic issues such as climate change and biodiversity loss. They will also study ways to mitigate or adapt to these changes.

**GES-430. Research Seminar. 3 Hours.**

Students conduct a focused and comprehensive literature review, and write a research paper on an approved topic to fulfill requirements for the Master of Arts degree. Credit for both this course and the Thesis Seminar will not be permitted. A proposal must be approved by both committee members in advance of registration. See Departmental policies.

**GES-435. Seminar In Physical Geography. 3 Hours.**

Students will investigate geomorphic systems and the importance of physical geography for studying the Earth. This course will introduce contemporary principles, models, and theories of physical geography, with special attention paid to the application of physical geographic knowledge for G&ES scholars and professionals.

**Prerequisite:** GES-205 with a minimum grade of C.

**GES-437. Seminar: Global Wildlife Issues. 3 Hours.**

Wildlife ecology, management, and policy are studied from global to local scales. Topics will include evolution and distribution of wildlife, habitat and territory, biomes and ecosystems. Human impacts will also be studied. These include habitat loss/disruption, hunting, pollution, introduction of new species and conservation efforts, environmental ethics, and environmental policies.

**GES-440. Qualitative Research Methods In Geography And Environmental Studies. 3 Hours.**

Students will explore qualitative analytical tools and methods used in geography and environmental studies. They will develop the foundational philosophical knowledge of qualitative inquiry while practicing and applying various qualitative techniques related to the study of complex human-environment phenomena. Individual research projects will involve collecting, analyzing, and representing qualitative data.

**Prerequisite:** GES-411 with a minimum grade of C and GES-413 with a minimum grade of C.

**GES-442. Geographic Problems In Quantitative Measurements. 3 Hours.**

This course focuses on quantitative and statistical tools used in geography and environmental studies. It will cover common statistical measures and will emphasize geometrics and spatial analyses. Statistical projects are required.

**GES-445. Seminar In Resource Management And Decision-Making. 3 Hours.**

This research seminar incorporates principles of resource management and environmental governance through research projects conducted in the Chicago metropolitan area.

**GES-448. Seminar: Latinx Metropolis. 3 Hours.**

This course explores the processes of Latinx urbanization and urbanism in the United States and the spatialization of Latinx identities and experiences. As more Latinxs live and work in U.S. cities, they gradually transform the social relations and spatial practices that manifest the geographical and historical legacies of previous waves of urbanization, to suit their varied needs and to express their own diverse values. As U.S. urban spaces increasingly become loci that constitute, constrain and mediate the life experiences of Latinxs, they become sites laden with political and social potential poised to transform our collective urban futures.

**GES-449. Seminar In Land Use Controls. 3 Hours.**

Students will explore the rationale and methods of private land regulation: land subdivision, zoning, regulations, and growth control. Research projects are required.

**GES-450. Seminar In Urban Planning. 3 Hours.**

This is a broad overview of urban planning as it is practiced in the United States and in the Chicago metropolitan area. It focuses on the fundamental theoretical perspective as well as on the common regulatory and procedural tools utilized by planning professionals. Students will examine the historical context and evolution of the planning profession, the complex issues associated with urbanization, and of the role of planning in contemporary society.

**GES-453. Seminar In Sustainable Development. 3 Hours.**

This is an advanced study of sustainable development in the context of science, economics, politics, culture, ecology, and ethics. Development and globalization are critiqued from a political economy perspective and both strengths and limitations of conventional systems are investigated. Institutions, policies, and strategies are analyzed, as are indicators of sustainability and development.

**GES-454. Seminar: Population And Environment. 3 Hours.**

Students will investigate population dynamics at various scales, including distribution and structure, theories, trends, projections, and policies. Environmental constraints and impacts of population on the natural environment will be explored.

**GES-455. Seminar In Environmental Planning. 3 Hours.**

Proactive land use strategies to minimize pollution, protect biodiversity and water and energy resources, and reduce vulnerability to natural hazards will be explored. Issues such as smart growth, sustainable transportation, sprawl, watershed management, preservation, natural hazard mitigation, and green design will be discussed with emphasis on those in the Chicago area. Tools will include GIS, economic analysis, and environmental impact assessment. Some field trips are possible.

**GES-456. Seminar In U.S. Environmental Policy. 3 Hours.**

This is a detailed exploration of environmental law and policy in the United States, including legal structures, processes, and constraints, notable successes and failures, the role and influence of advocacy and interest groups, and major controversies relating to decentralization, market-based mechanisms, risk-based analysis, environmental justice, and others. Differences in state laws and performance will also be explored.

**GES-457. Seminar: International Environmental Policy. 3 Hours.**

Students will study international efforts to address global environmental problems such as deforestation, climate change, ozone depletion, fisheries decline, and toxic chemicals. They will analyze the effectiveness of these measures. The class will explore various theories and philosophies, international regimes, international cooperation, and the promoters of and obstacles to progress. The impact of globalization, of regional disparities, and of international organizations will be examined.

**GES-461. Independent Study In Geography And Environmental Studies. 3 Hours.**

This independent research is on a topic chosen by the student in consultation with the instructor and approved in advance of registration.

**GES-462. Seminar In Environmental Education. 3 Hours.**

In this course students will explore, analyze, and critique advanced environmental education theories and practices. Students will gain an understanding of pedagogical tools and techniques related to a variety of ages, locations, and mechanisms of conservation education. Foundational knowledge will be combined with current research trends in the context of individualized projects.

**GES-470. Seminar in Health & Medical Geography. 3 Hours.**

This seminar focuses on the intensive study of sociospatial patterns that characterize public health challenges and outcomes, including a host of health disparities across a broad spectrum of intersectionalities that include gender, race, ethnicity, class, sexuality, ability, age, etc. The students are immersed in a rigorous examination of relevant current scholarly literature. They learn how to apply key geographic concepts and methods on case-studies to analyze the health effects of interactions between people and their environments. Special attention is given to the impact of globalization and urbanization on health at various scales of analysis.

**GES-471. Seminar In Urban Geography. 3 Hours.**

Students will research and discuss current topics and theories from the academic literature in urban geography.

**GES-472. Seminar In Regional Geography: Third World Issues. 3 Hours.**

Students will examine the less developed world regions based on current geographical perspectives of development processes. Topics will include social inequity, resource exploration, economic development, and demographic change. Students will develop their own research areas, incorporating the academic literature.

**GES-483. Internship. 3 Hours.**

This is a supervised field experience (160 work hours) with an agency related to the student's career interest. Prior course work and other experience is evaluated before approval is granted to enroll in the internship. See Department policies and internship procedures.

**GES-487. Interactive Cartography. 3 Hours.**

This course focuses on cartographic techniques for web delivery of interactive maps. Students learn basic coding and script modification for interactive map images, and preparation of base maps and data. Emphasis is placed on widely available open source tools. Students will design and complete a research project using new skills for interactive mapping.

**GES-490. Remote Sensing And Digital Image Processing. 3 Hours.**

This course focuses on the analysis of remotely sensed data for geographic and environmental applications including the detection of a variety of resources in the natural and human environments, measurement of change, and human impact.

**GES-491. Introduction To GIS. 3 Hours.**

This course is an introduction to Geographic Information Systems (GIS) technology for research applications. Students will study the conceptual and technical process of GIS research including project design, data acquisition, data manipulation, analysis, interpretation and display.

**GES-492. Geospatial Analysis. 3 Hours.**

This course introduces advanced skills in Geographic Information Systems (GIS), including the concepts, methods and techniques of geospatial analysis and modeling. A variety of spatial data geoprocessing tools will be explored, using both raster and vector formats. Students will apply GIS tools and skills to a real world problem.

**Prerequisite:** GES-391 with a minimum grade of C or GES-491 with a minimum grade of C.

**GES-493. GIS Modeling And Programming. 3 Hours.**

This course focuses on advanced analysis of Geographic Information Systems (GIS) data using scripts and programming. Topics will include database management, model building, scripting and programming, and open source GIS. Students will complete several projects related to the course topics.

**Prerequisite:** GES-391 with a minimum grade of C or GES-491 with a minimum grade of C.

**GES-499. Capstone Portfolio. 3 Hours.**

This course serves as the capstone project for non-thesis students completing the Master of Arts degree in Geography and Environmental Studies. The capstone portfolio requires students to work closely with faculty members to compile completed work within the context of the goals and objectives of the MA program.

**GES-5901. Thesis Hours. 1 Hour.**

Under the supervision of three advisors students conduct independent research and write a thesis to fulfill requirements for the Master of Arts degree. Credit for this course and GES-430 will not be permitted. See Department policies.

**GES-5902. Thesis Hours. 2 Hours.**

Under the supervision of three advisors students conduct independent research and write a thesis to fulfill requirements for the Master of Arts degree. Credit for this course and GES-430 will not be permitted. See Department policies.

**GES-5903. Thesis Hours. 3 Hours.**

Under the supervision of three advisors students conduct independent research and write a thesis to fulfill requirements for the Master of Arts degree. Credit for this course and GES-430 will not be permitted. See Department policies.

# German (GER)

---

## Courses

### **GER-112. Beginning German I. 3 Hours.**

Beginning course in German for novice learners with no substantial prior knowledge or exposure to the language. This course will introduce you to the language, accents, and cultures of German speaking countries, using theme-related vocabulary, grammatical structures and authentic materials. You will practice listening, speaking, reading and writing in German.

# Gifted Education (GIFT)

---

## Courses

**GIFT-450. Psychology Of Individuals Who Are Gifted And Talented. 3 Hours.**

**GIFT-452. Education Of Individuals Who Are Gifted And Talented. 3 Hours.**

The course provides students with an opportunity to study and reflect on the theories, program models and strategies for teaching high-ability students. New theories of giftedness, research, identification, programming models, and legislation are continuing challenges for those professionals responsible for developing, implementing programs and services for the gifted and talented. At the completion of the experience of translating theory, research, and examples of current programming practices, the graduate student will be a reflective and responsive professional in the critical aspects of programming and services for high-achieving and high-ability students.

**Prerequisite:** GIFT-453 with a minimum grade of C.

**GIFT-453. Seminar In Curriculum And Materials For The Gifted. 3 Hours.**

**Prerequisite:** GIFT-450 with a minimum grade of C.

**GIFT-454. Teaching Gifted Students In The Inclusive Classroom. 3 Hours.**

**GIFT-455. Bibliography and Methodology In Research In Gifted Education. 3 Hours.**

**Prerequisite:** GIFT-450 with a minimum grade of C and GIFT-452 with a minimum grade of C.

**GIFT-456. Parenting And Advocacy For Individuals Who Are Gifted And Talented. 3 Hours.**

**GIFT-457. Research Seminar For The Gifted. 3 Hours.**

**Prerequisite:** GIFT-450 with a minimum grade of C and GIFT-452 with a minimum grade of C and GIFT-453 with a minimum grade of C.

**GIFT-458. Meeting Gifted Students' Social-Emotional Needs. 3 Hours.**

**Prerequisite:** GIFT-450 with a minimum grade of C.

**GIFT-459. Field Demonstration In Gifted Education. 3 Hours.**

**Prerequisite:** GIFT-450 with a minimum grade of C and GIFT-452 with a minimum grade of C and GIFT-453 with a minimum grade of C.

**GIFT-462. Identifying And Providing For Underserved Gifted Students. 3 Hours.**

This course provides in-depth understanding of the needs of a typical gifted/talented students, along with specific strategies that can be applied in identifying and providing educational services for gifted students who are commonly underrepresented and underserved in school today. Included are those in the following populations: Economically disadvantaged, Creatively gifted, Underachievers, Visual-spatial learners, Those with other needs, Racially, culturally & linguistically diverse, Low-incidence/ highly gifted, Gifted girls, Rural/ isolated gifted. The course will focus on recent videotaped interviews with leaders in the field of gifted education who are concerned with underserved gifted students.

# Global Studies (GS)

---

## Courses

### **GS-201. Thinking Globally: Global Perspectives On The Contemporary World. 3 Hours.**

This course introduces students to the multiple dimensions and impact of globalization as it is reflected across disciplines. Accordingly, we explore globalization through specific themes and approaches, including those of: 1) Culture, Society, and Identity; 2) Language, Knowledge, and Representation; 3) Power, Movements, and Political Economy; 4) Nature, Technology, and the Body; 5) Violence, Resistance, and Resolution. In this way, the course generates a comparative understanding of the significant implications arising in the wake of an increasingly globalized world.

### **GS-205. Writing Intensive Program: Interdisciplinary Research And Writing. 3 Hours.**

Interdisciplinary Research and Writing provides students with practical training in conducting research and writing effectively in an interdisciplinary field. Students will learn about the advantages and challenges of interdisciplinary scholarship through a series of stepped research and writing assignments, including literature searches and reviews, hands-on experimentation with field methods, and multiple formal and informal writing activities that guide students in creating rough drafts, conducting revisions, and producing polished work. The course serves students in all interdisciplinary fields.

**Prerequisite:** ENGL-101 with a minimum grade of C.

### **GS-303. Writing Intensive Program: The Power Of Writing: Interdisciplinarity As Critical Practice. 3 Hours.**

This course provides students with experience and training in interdisciplinary writing by focusing on three critical genres: writing for change through carefully crafted letters and social media posts, reflexive writing in the form of autobiographical essays, and academic writing based on empirical research. Students will learn about advantages and challenges of interdisciplinary writing through multiple formal and informal writing activities. The course encourages students to embrace writing critically and creatively in order to express themselves effectively in a broad range of contexts. The course, and the interdisciplinary writing skills on which it focuses, are relevant to students from many academic fields.

**Prerequisite:** ENGL-101 with a minimum grade of C.

### **GS-3901. Independent Study In Global Studies. 1 Hour.**

The Independent Study in Global Studies provides an opportunity for a student to propose and conduct a scholarly project that is not otherwise possible within existing courses. A Global Studies major or minor interested in doing an independent study must contact a Global Studies faculty member to propose their project and to confirm the faculty member's ability to support the student as mentor and instructor for the duration of the course. The student and mentoring faculty member must submit the necessary proposal and paperwork the semester before the independent study is to take place. Contact the program coordinator for details.

### **GS-3902. Independent Study In Global Studies. 2 Hours.**

The Independent Study in Global Studies provides an opportunity for a student to propose and conduct a scholarly project that is not otherwise possible within existing courses. A Global Studies major or minor interested in doing an independent study must contact a Global Studies faculty member to propose their project and to confirm the faculty member's ability to support the student as mentor and instructor for the duration of the course. The student and mentoring faculty member must submit the necessary proposal and paperwork the semester before the independent study is to take place. Contact the program coordinator for details.

### **GS-3903. Independent Study In Global Studies. 3 Hours.**

The Independent Study in Global Studies provides an opportunity for a student to propose and conduct a scholarly project that is not otherwise possible within existing courses. A Global Studies major or minor interested in doing an independent study must contact a Global Studies faculty member to propose their project and to confirm the faculty member's ability to support the student as mentor and instructor for the duration of the course. The student and mentoring faculty member must submit the necessary proposal and paperwork the semester before the independent study is to take place. Contact the program coordinator for details.

### **GS-397. Capstone Portfolio Global Studies. 1 Hour.**

In this one credit hour course, students will compile the written work they have accomplished across their Global Studies coursework and synthesize it through a carefully edited portfolio that includes an integrating essay. The course provides an opportunity for students to reflect on their work across the GS major and gather the strands together toward a comprehensive whole that highlights the synergies and dominant themes that have emerged from their body of work as Global Studies majors.

**Prerequisite:** GS-201 with a minimum grade of C and GS-303 with a minimum grade of C.

### **GS-399. Capstone Global Studies. 4 Hours.**

In this course students will examine and conduct research on global phenomena. We will read and debate a range of approaches to the study of the global, addressing both methodological and theoretical issues. Students will conduct individual research projects, working through all the stages from proposal to completed paper. As the capstone course for the Global Studies Program, the primary course goal is to provide students with practical experience in linking reading and discussion of published sources in Global Studies to the tasks of researching, analyzing, and writing about their own areas of interest in the field.

**Prerequisite:** GS-201 with a minimum grade of C and GS-202 with a minimum grade of C.

# Graduate College (GRAD)

---

## Courses

### **GRAD-498. Thesis Research Or Major Project. 1 Hour.**

Guidance of students conducting thesis research or a major project. Registration in this course is required every fall and spring for graduate students who are not currently registered for other credits, but who are working on theses or major projects. Registration is not required during summer sessions. The Course Schedule Maintenance for Thesis Research form must be submitted to the Graduate college by the end of the first week of classes.

### **GRAD-999. Continuing Enrollment. 1 Hour.**

This course serves to allow graduate students to meet the requirements of the Graduate Continuing Enrollment policy rather than any specific program credit hour requirements. By the design of the policy, it allows students to remain enrolled at the university as they fulfill any non-course requirements in their program (e.g. passing a comprehensive exam) if they are not otherwise enrolled, thus allowing students access to university resources, such as library, advisement, mentoring and assessment, computer software packages and platforms, and email privileges.

# **Greek (GREK)**

---

# Health Education (HLED)

---

# Health Sciences (HSCI)

---

## **HSCI-107. Health For Effective Living. 3 Hours.**

Consideration of concepts related to the physical, mental and social dimensions underlying personal health. Emphasis upon motivation for intelligent self-direction of health behavior based upon current scientific facts.

## **HSCI-109. First Year Experience: Health And Wellness In Chicago. 3 Hours.**

In this course the four foundations (Future planning, Academics, Self-discovery and Transitions) of the First-year Experience are interwoven with the field specific concepts of health, wellness, and the urban environment of Chicago. Students will learn basic skills and identify resources throughout the city to help them become successful students. Students will learn the importance of addressing issues related to health in the urban environment and the professions they might pursue to address these issues.

## **HSCI-200. Community Health. 3 Hours.**

This course is an introduction to community health, public health, and health education that includes health services, environmental health, behavioral health, public policy, healthcare systems, occupational health and other subfields. Students will explore the concepts of advocacy and health disparities on local and global levels in the context of historical and contemporary events. Students will locate and interpret valid health information, practice assessment skills, develop educational interventions for priority populations, act as a resource person, and advocate for the profession and health of others. This will be accomplished through course discussions, assignments, and presentations.

## **HSCI-203. Fitness Education. 3 Hours.**

This course will cover the development and implementation of numerous fitness-related activities and current trends in fitness for physical education. Students will be introduced to the components of health and skill related fitness, principles of training and fitness pedagogy through experiential activities. Students will achieve a thorough understanding of fitness.

## **HSCI-303. Human Sexuality And Sex Education. 3 Hours.**

This course provides a foundation for educating others in the area of human sexuality. Students will acquire knowledge about anatomy, pregnancy, childbirth, contraception, sexually transmitted infections, and the consequences of inadequate sex education at the individual, community, and societal levels. An emphasis will be placed on social, cultural, political, and religious influences and historical context. Students will evaluate their own values and beliefs and apply health education, learning, and behavior principles to the design and development of sex education.

## **HSCI-307. Human Diseases. 3 Hours.**

This course uses a multidisciplinary approach to discuss the etiology, the major underlying determinants, transmission, prevention, control, and treatment of communicable, chronic, and degenerative diseases. It examines the relationship between disease and political, social and economic development. Drawing upon the sciences, social sciences and humanities, students are introduced to the nature and determinants of communicable, non-communicable, and neglected tropical diseases; and they explore the factors shaping the distribution of disease, as reflected in local, national, and international health goals and research. They also will examine modern approaches disease prevention and health promotion priorities.

## **HSCI-309. Nutrition And Health. 3 Hours.**

This course provides a foundation in nutrition through the examination of the connection between eating and personal health. It also discusses the biological, socioeconomic, cultural, environmental and psychological factors that impact dietary intake. Using a prevention framework, students will explore chronic diseases and intuitive eating. Emphasis will be placed on the relationships between dietary nourishment, health, and quality of life.

## **HSCI-312. Global And Environmental Health. 3 Hours.**

This course will address the relationships between global health, environmental health, and political, social and economic development. Drawing upon the biological, social, and behavioral sciences, students will examine the determinants related to population health throughout the world. Understanding historical context and applying theoretical constructs are critical to this process. Local, national, and international goals, as well as current research, serve as both evidence and resources.

## **HSCI-314. Epidemiology And Human Diseases. 3 Hours.**

Presents principles and practices related to the cause, prevention and control of disease. Emphasis is placed on understanding the occurrence and distribution of disease, incidence and prevalence rates and descriptive and analytic epidemiological studies. Additional emphasis is placed on the application of epidemiologic data to primary, secondary and tertiary prevention.

## **HSCI-315. Writing Intensive Program: Writing In The Health Sciences And Physical Education. 3 Hours.**

This course is a writing intensive experience, offering students the opportunity to develop written communication skills in their profession. Topics include evaluating sources of information, conducting an annotated bibliography using library databases, citing references using APA format, ethical use of resources, utilizing a multi-step writing process, summarizing communications, building a persuasive argument, proposing a solution to a problem, and explaining a phenomenon. Exercises include developing press releases, memo, article critiques, newsletter articles, a grant application, resume, and cover letter in application for a job. Information sources include peer-reviewed and popular periodicals, videos, websites, textbook, and other appropriate media.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**HSCI-316. Health Disparities: Individual, Communities, And Systems. 3 Hours.**

In this course, learners will examine how health disparities are defined and discuss the major underlying determinants of poor health and the relationship between health and key socio-demographic variables, including race, sex/gender, age, income, education, and immigrant status. It explores the factors shaping the distribution of poor health, locally and globally, and their connection with historical, social, environmental, economic, and political systems. It also considers the impact of global income inequality on health risks, availability and access to health resources. Learners will explore local and global efforts to narrow and eliminate inequalities via a variety of interventions.

**HSCI-317. Age, Death, And Dying. 3 Hours.**

This course will provide students with an interdisciplinary understanding of the human experiences of aging, death and dying, focusing primarily on psychosocial, mental health, behavioral, and ethical issues. Students will examine the way individuals, communities, and societies perceive and manage the elderly and the issues surrounding the end of life. The causes and effects of attitudes towards these subjects will be explored as well as how these perceptions relate to health behavior.

**HSCI-318. Consumer Health. 3 Hours.**

Prepares the student to make wise choices in the selection of health products and health services. Emphasis on proper utilization of the health care system and evaluation of products and services with regard to cost and impact on physical and mental health. Includes identification of reliable sources of health-related information, laws and agencies to protect the consumer.

**HSCI-319. Substance Use And Abuse Education. 3 Hours.**

This course provides a foundation for educating others in the area of substance use and abuse. Students will acquire knowledge about addiction and legal/illegal drug use and the consequences of inadequate drug education at the individual, community, and societal levels. An emphasis will be placed on social, cultural, political, and religious influences and historical context. Students will evaluate their own values and beliefs about substance usage and apply health education, learning, and behavior principles to the design and development of drug education.

**HSCI-320. Cancer Health Policy. 3 Hours.**

This course on cancer-related policy cross-examines topics related to cancer as a chronic degenerative disease from diverse disciplinary lenses including public health, biology, economics, and social science. Students will be exposed to various cancer-related issues under the guidance of an instructor and experts in the oncological, social sciences and health policy fields. This course will also explore socio-political issues that influence cancer related policy in United States and other countries.

**HSCI-323. Mental And Emotional Health. 3 Hours.**

This course covers the principles of community and personal mental, emotional, and social well-being. Employing a socio-ecological approach, students study the individual, family, organizational, biological, historical, and societal factors influencing mental health. Students learn how to improve personal mental health through reflective practice and behavioral strategies, promote community mental health through educational strategies, and advocate for the mental health of others. Ethical use of technology to support learning, reflection, communication, and collaboration is foundational to this course.

**HSCI-340. Health Behavior Theory & Practice. 3 Hours.**

This course is an introduction to the fundamental theories in behavior. Because theory and practice are driven by research, the course will also introduce students to examples of health promotion research. Students will analyze constructs that explain or predict behavior including intrapersonal capacity, interpersonal supports, and environmental contexts. They also will apply individual and community-based theories to the design of a community health intervention.

**HSCI-350. Community And Public Health Education Methods. 3 Hours.**

In this course, students develop skills to communicate health information effectively and positively affect population health at the individual, community, and societal levels. Students apply health behavior, communication, and learning theories and models to develop, implement, and evaluate community and public health messages for selected audiences. Emphasis is placed on multicultural humility and competence, health literacy, empowerment, and equity. Ethical use of technology to support learning, reflection, communication, and collaboration is foundational to this course.

**Prerequisite:** College of Education Admission with a score of Y and HSCI-340 with a minimum grade of C.

**HSCI-355. Organization & Administration Of School Health. 3 Hours.**

This course introduces students to the connections between health and student learning and to the components of a coordinated school health approach. Students will explain the role of the school health coordinator, assess and advocate for school health needs, plan a school health initiative, and identify opportunities for professional growth. Collaboration and the ethical use of technology to support learning, reflection, and communication is foundational to this course.

**HSCI-357. Introduction To Health Care Management And Leadership. 3 Hours.**

This course will provide a general introduction to leadership and management in the field of health care. Students will explore concepts, processes, and theoretical content considered necessary for persons who intend to practice in a health care administrative position. Emphasis is placed on the differences between leadership and management, profit and nonprofit, and health care and other commodities with ongoing attention to social, cultural, economic, and environmental accountability.

**HSCI-360. Health Program Management & Evaluation. 3 Hours.**

In this course, students develop skills to design, develop, and implement a health promotion program that addresses population health. After identifying stakeholders and partners, students conduct a community health assessment, establish program goals, and develop implementation, management, and evaluation plans. Emphasis is placed on multicultural humility and competence, empowerment, and equity. Ethical use of technology to support learning, reflection, communication, and collaboration is foundational to the course.

**Prerequisite:** HSCI-340 with a minimum grade of C or HSCI-350 with a minimum grade of C.

**HSCI-364. Theories And Concepts Of School Health Education. 3 Hours.**

This course introduces theories and concepts of health education. Students will explain the role of the health education teacher as a resource person and consider professional and ethical issues in health education. Students also will apply principles and procedures for planning, implementing, and evaluating school health education. This process includes utilizing best practices in instructional and assessment strategies to foster health literacy in the health education classroom. Collaboration and the ethical use of technology to support learning, reflection, and communication is foundational to this course.

**HSCI-365. Health Education For The High School. 3 Hours.**

This course provides future and practicing educators the functional knowledge and skills needed to teach high school health education effectively. Developing a health education learning segment, that aligns with state and national standards, integrates technology to improve learning outcomes, and meets the needs of a diverse student population will form the focus of the course. Inquiry and theoretical approaches, collaboration, and reflective practice are employed.

**HSCI-370. Field Experience: Community Health. 9 Hours.**

The-200- hour community health field experience affords students the opportunity to integrate concepts and skills, learned in the curriculum, while immersed in a community and public health setting. A weekly seminar provides interns a forum to debrief field experiences, learn about the profession, and prepare for a job search. Completion of performance-based assessments aligned with public health competencies support the development of a professional portfolio.

**Prerequisite:** HLED-360 with a minimum grade of C.

**HSCI-375. Health Promotion Field Experience. 3 Hours.**

This course provides a 100-hour field experience for Community Health minors. Students meet weekly to share and debrief their field experiences, collectively solve instructional and site management problems, revisit research and theory regarding addressing the needs of a diverse learning audience, and learn about the health promotion profession. Observation, reflection, presenting, and assessment are critical activities in this course.

# History (HIST)

---

## Courses

### **HIST-109. First Year Experience: History Of Chicago. 3 Hours.**

Chicago is the most "American" of the major cities and has been at the forefront of change. In 50 years Chicago transformed from a fur-trading crossroads to a major industrial center, and that speed made it a city of stark contrasts. Enormous tensions emerged between the entrepreneurial forces that built the city and the countervailing social forces that strived to humanize it. A stream of immigrants played an integral role in shaping the city, contributing to economic and cultural development. Chicagoans faced huge challenges and as a result became pioneers of the economic, social, and political trends that shaped modern America.

### **HIST-110. World History I: From The Origins Of Human Civilizations To 1500. 3 Hours.**

The course examines world history up to roughly 1500. It focuses on how various peoples encountered each other, and how these interactions transformed their communities and cultures. Themes of conquest and imperialism, commerce, faith, and human relationships with the natural environment will be addressed.

### **HIST-111A. World History: The Origins Of The West, To 1500. 3 Hours.**

Survey of the formation of Western Civilization from its ancient Mediterranean origins until the European Renaissance.

### **HIST-111B. World History: The West And The World, 1500-Present. 3 Hours.**

Survey of Western Civilization from the Renaissance to the present age of expanded European influence.

### **HIST-111C. World History: East Asia. 3 Hours.**

Survey of the history and culture of East Asia, with emphasis on China and Japan from antiquity to the present.

### **HIST-111D. World History: Latin America. 3 Hours.**

Survey of the history and culture of Latin America, with emphasis on the last 500 years.

### **HIST-111E. World History: Africa. 3 Hours.**

Survey of the history and culture of Africa with emphasis on the relations between Africa and the wider world.

### **HIST-111F. World History: Islam. 3 Hours.**

Survey of the role of Muslims in World History, with emphasis on the diversity of their religious, social, cultural and economic lives and their change over time.

### **HIST-112. World History II: Global Connections And Conflicts Since 1500. 3 Hours.**

The course examines world history since roughly 1500. It focuses on how various peoples encountered each other, and how these interactions transformed their communities and cultures. Themes of conquest and imperialism, commerce, faith, and human relationships with the natural environment will be addressed.

### **HIST-114. Rethinking STEM In World History. 3 Hours.**

This course reconsiders the history of modern science in light of new research in social and cultural history, feminist and gender studies, and the history of race and colonialism. Since the 1960s, historians have recognized that a narrowly-focused history of science (usually centered on European "founding fathers" of modern scientific disciplines) fails to capture the diverse population of people who have contributed to the production of scientific knowledge and practices. HIST-114 centers the roles of enslaved Africans, indigenous Americans, colonized peoples, women, and laborers in the production of knowledge about the natural world.

### **HIST-214. American History To 1877. 3 Hours.**

This course explores the social, political, intellectual, diplomatic and economic development of the American colonies and the United States from the beginnings through 1877.

### **HIST-215. American History Since 1877. 3 Hours.**

This course explores the social, political, intellectual, diplomatic and economic development of the United States from 1877 to present.

### **HIST-300A. Ancient Greece. 3 Hours.**

Social, political and intellectual history of Greece, from the age of Homer through the Peloponnesian War. Readings include selections from poetry, drama, history and philosophy of the period. Required: Two courses in history or consent of instructor.

### **HIST-300B. Ancient Rome. 3 Hours.**

The history of Rome from prehistoric cultures to the end of the Roman Empire. Required: Two courses in history or consent of instructor.

### **HIST-300W. Writing Intensive Program: The Historian's Craft. 3 Hours.**

The purpose of this course is to introduce History majors to the methods and writing skills necessary to succeed in their chosen discipline. The writing assignments in the course are intended to help students develop skills in analyzing sources, evaluating books, and producing historiographical essays that will benefit students in the other courses they take for the major, and beyond. Instructors will choose content on a historical theme that highlights how historians interpret the past from diverse perspectives that change over time.

**Prerequisites:** (HIST-100 - 299 or HIST-100A - 299Z) and ENGL-101.

### **HIST-301. Medieval Europe. 3 Hours.**

Major themes of the Middle Ages in Europe with emphasis on Western Europe. Required: Two courses in history or consent of instructor.

**HIST-301C. The Crusades In The Middle Ages. 3 Hours.**

This course takes a multi-disciplinary approach to the study of the crusades in the Middle Ages. Students will examine the theory, context, causes, events, and results of the medieval crusades. This course will also take a critical look at the ways the crusades have been viewed both by scholars and the public in the modern world. The course is open to all majors.

**HIST-302A. Age Of Renaissance. 3 Hours.**

The political and cultural history of Italy and Northern Europe from 1300-1600. Required: Two courses in history or consent of instructor.

**HIST-302B. Religion, Rebellion, & War: The European Reformations, 1500-1700. 3 Hours.**

This course introduces students to the European Reformations from 1500 to 1700. The Roman Catholic Church once symbolized Christianity for much of western Europe, but Christianity is now composed of hundreds of different churches. HIST-302B investigates how the Reformations fractured Christianity into a variety of traditions and thereby transformed the development of the modern world. We will investigate the political, religious, and social causes of the European Reformations and examine a range of actors who shaped these changes, from popes and princes to renegade nuns, rebelling peasants, and Jewish leaders.

**HIST-303. Europe During The Ancien Regime 17th And 18th Centuries. 3 Hours.**

The political, economic, social and intellectual development of Europe in the seventeenth and eighteenth centuries. Required: Two courses in history or consent of instructor.

**HIST-304. Europe In The Age Of Revolution 1789-1871. 3 Hours.**

The historical forces in European society from the French Revolution to the completion of the unification processes. Required: Two courses in history or consent of instructor.

**HIST-305. European Imperialism And World War, 1871-1919. 3 Hours.**

This course addresses European history from the creation of global empires to the trauma of the First World War. Themes include: European efforts to dominate the global south; the interactions of industrialization with class, gender, and race relations; liberal politics and socialism.

**HIST-306. Europe 1919-1948: Fascism, Socialism, And The Second World War. 3 Hours.**

This course addresses European history from the Treaties that ended the First World War in 1919 to the Berlin Crisis and the start of the Cold War. Themes will include the Great Depression and crisis of liberal democracy, the challenges to it posed by Mussolini, Hitler, and Stalin, and the culmination of tensions among these in the Second World War. Particular attention will be paid to genocide and the Nazi attempt to destroy the European Jewish community.

**HIST-307A. The Age Of The Baroque. 3 Hours.**

An examination of the intellectual and cultural history of seventeenth-century Europe, with special emphasis on scientific, philosophical, political and religious thought. Required: Two courses in history or consent of instructor.

**HIST-307B. Freedom, Oppression, & Progress: The Contradictions Of The European Enlightenment. 3 Hours.**

This course introduces students to the European Enlightenment of the 1700s. The Enlightenment has been celebrated as an era of exciting intellectual discovery and unprecedented social progress, when figures like Locke, Kant, and Jefferson laid the foundations of modern human rights, representative government, social equality, and science-based reasoning. However, the eighteenth century was also a time in which European women, Europeans with disabilities or deafness, and Africans demanded access to the so-called universal rights celebrated by European philosophers. This course reexamines the contradictions of the Enlightenment era and challenges students to rethink our common narratives about modern progress.

**HIST-308. Human Rights In History, Literature, And Law. 3 Hours.**

This course examines the development of human rights from the eighteenth century to the Bosnian War of the 1990s. Using a variety of sources and disciplinary perspectives, students will study the origins of discussions of rights in the American and French Revolutions and debates over the nature of rights in the nineteenth century. The laws of war and crimes against humanity in the twentieth century will receive particular attention, along with the causes of the emergence of human rights as a goal of political actors across the globe in the late twentieth century.

**Prerequisite:** and.

**HIST-309. The History Of Disability. 3 Hours.**

This course examines the history of people with disabilities, a minority that makes up a substantial proportion of the U.S.'s and world's populations. The history of disability reveals how societies understand critical issues like civil rights, social identity, gender and sexuality, "normality," or a "healthy" body. Course topics will explore different facets of disability, including medicine, law, culture, and education.

**Prerequisite:** and.

**HIST-311A. History Of England To 1688. 3 Hours.**

Survey of English history to the revolution of 1688; emphasis on significant themes, such as the evolution of monarchy and parliament, medieval society, the Elizabethan world and constitutional crisis in Stuart England. Required: Two courses in history or consent of instructor.

**HIST-311B. History Of England 1688-Present. 3 Hours.**

The political, economic and cultural forces that shaped Great Britain. Emphasis on the class structure, the transition to an industrial society, Georgian and Victorian culture, contemporary Britain. Required: Two courses in history or consent of instructor.

**HIST-312. Tudor England. 3 Hours.**

Major political, social, intellectual and economic trends in sixteenth century England. Required: Two courses in history or consent of instructor.

**HIST-313A. History Of Prussia-Germany 1640-1918. 3 Hours.**

Study of the evolution of Prussia in the seventeenth and eighteenth centuries with emphasis upon her role in the political and social institutions of Germany, Europe and the world through 1918. Required: Two courses in history or consent of instructor.

**HIST-313B. Twentieth Century Germany. 3 Hours.**

Study of the problems faced by twentieth century Germany, including the demise of the Weimar Republic and the political and social origins of the Nazi Movement, and the situation of post-war Germany. Required: Two courses in history or consent of instructor.

**HIST-314A. The History Of Russia From Its Origins To The Height Of Empire, 988-1855. 3 Hours.**

This course addresses Russian and Eurasian history from the conversion of Vladimir to Orthodox Christianity to the Death of Nicholas I. Subjects include the reigns of Ivan the Terrible, Peter the Great, and Catherine the Great; the development of the Russian Orthodox tradition; the formation of the Russian Empire and its relations with Islamic and Jewish populations; and the enslavement of Russian peasants.

**HIST-314B. The Russian Empire And Soviet Union, 1855 To The Present. 3 Hours.**

Addresses Russian and Soviet history from the Great Reforms of Alexander II to Vladimir Putin's presidency of the Russian Federation. Central themes include social status and class, ethnic and religious differences, revolutionary movements, Soviet socialism, and the reassertion of authoritarian rule after the collapse of the Soviet Union.

**HIST-315. Women In Medieval Society. 3 Hours.**

Survey of the status of women in medieval Europe beginning with the settlement of the barbarians and ending with the high middle ages. Required: Two courses in history or consent of instructor.

**Prerequisite:** and.

**HIST-317. French Revolution, World Revolutions 1789-Present. 3 Hours.**

Survey of the French Revolution (1789-1795), with the special emphasis on the political and social principles of the Old Regime and the tension between established order and political discontent. Required: Two courses in history or consent of instructor.

**HIST-320. Empires And Indigenous People In Early America. 3 Hours.**

This course examines trade, warfare, and cultural and ecological exchanges between indigenous people, Africans, Creole people, and the British, French, Spanish, and Dutch in North America before the American Revolution.

**HIST-321. The American Revolution 1763-1789. 3 Hours.**

Intensive study of the events leading to American Independence; social and political changes accompanying independence; America under the Articles of Confederation; the writing and adoption of the Constitution. Required: Two courses in history or consent of instructor.

**HIST-324. The Civil War And Reconstruction 1860-1877. 3 Hours.**

The inevitability of the U.S. Civil War (1861-1865); the inevitability of the war's outcome; and the terms on which the Confederacy's eleven states, and what was left of the United States, reunited, will all be explored. The end of slavery, and the Reconstruction-era beginnings of black civil rights, are additional important topics. Required: Two courses in history or consent of instructor.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**HIST-325. Industrial And Progressive America 1877-1929. 3 Hours.**

Study of the formative years of modern America from the conclusion of reconstruction, through the Progressive Era and the administration of Herbert Hoover with emphasis on those ideas, institutions and factors which help explain the growth of present urban and industrial America. Required: Two courses in history or consent of instructor.

**HIST-326. The Era Of Franklin D Roosevelt 1929-1945. 3 Hours.**

In-depth study of the causes and consequences of the Great Depression, the New Deal response to the crisis, and the road to and involvement in World War II, with special emphasis on the leadership of Franklin D. Roosevelt. Required: Two courses in history or consent of instructor.

**HIST-327. The United States In The Age Of Crisis 1945 - Present. 3 Hours.**

General survey of the political, diplomatic, economic and social forces which have developed in the U.S. since 1945 with particular emphasis on the crisis in domestic America. Required: Two courses in history or consent of instructor.

**HIST-328. Surveillance And Privacy In The United States, 1898-Present. 3 Hours.**

This course examines the creation of a surveillance infrastructure in the United States and overseas from 1898 to the present, as well as the privacy and civil rights issues that have resulted from surveillance.

**HIST-329A. African American History To 1865. 3 Hours.**

Thematic survey of the history of Black Americans from the era of slavery to the conclusion of the Civil War with emphasis on racial ideologies, the experiences of both slaves and free people of color, and the abolitionist crusade. Required: Two courses in history or consent of instructor.

**HIST-329B. African American History And Race Relations Since 1865. 3 Hours.**

Thematic survey of the history of Black Americans from the end of the Civil War to the present day with an emphasis on such topics as Reconstruction, African American thought and experience during the era of segregation, the great Migration and Cultural Renaissance of the 20's and the modern Civil Rights Movement. Required: Two courses in history or consent of instructor.

**HIST-332A. The U.S. In The World, 1776-1914. 3 Hours.**

This class examines the close relationship between domestic and foreign policy in American statecraft from the American Revolution up to World War I, addressing many of the social, economic, and ideological impulses that shaped the U.S. as nation-state. The course offers a unique vantage point for tracing the evolution of American society from an agrarian society based on republican values and oriented toward territorial expansion, to an industrial capitalist economy competing with the imperialist Great Powers for global trade and investment outlets at the outset of the 20th century.

**HIST-332B. United States Foreign Relations 1914 - Present. 3 Hours.**

The United States as a world power, the aftermath of World War I, new relationships with Latin American, Asia and Europe; the United States and the Long Armistice; American involvement in World War II, and the Cold War. Required: Two courses in history or consent of instructor.

**HIST-332C. America In The Vietnam Conflict. 3 Hours.**

This class focuses on the American involvement in the Vietnam conflict from World War II to the Communist victory in 1975. It will provide a coherent narrative of the conflict from the 1940s when the U.S. began to take an active role in South East Asia. The class will examine the cultural, economic, ideological, political, strategic and military dimensions of the conflict. This broad perspective will explain why the United States eventually embarked on a large scale military campaign in Vietnam by the mid-1960s.

**HIST-333. International Migration In U.S. History. 3 Hours.**

The course addresses the migration of people over land and sea borders of the United States since 1800, with special emphasis on immigration, controversies over assimilation, American hostility to immigration, and emigration from the U.S. to countries of origin. Required: Two courses in history or consent of instructor.

**HIST-334. History Of American Sports. 3 Hours.**

The rise of organized sports from its simple pre-modern origins to its present complex state; the evolution of major amateur and professional sports in relation to prevailing historical developments, emphasizing the impact of industrial capitalism and urbanization with attention to the role of ethnic and racial groups, social classes, gambling, gender, politics, international relations and social mobility. Required: Two courses in history or consent of instructor.

**HIST-335. History Of Crime And Violence In America. 3 Hours.**

Survey of the historic patterns of crime and violence and the evolution of the criminal justice system in the United States from the colonial era to the present day. Required: Two courses in history or consent of instructor.

**HIST-336. Work, Money, And Shopping: The History Of Capitalism. 3 Hours.**

This course examines the development of capitalism from the eighteenth century until the present. Using sources from history, economics, and political theory, students will explore how capitalist labor, money and finance, and distribution of goods shape our social and political life and intersect with race and gender.

**HIST-337. History Of The South 1877 To The Present. 3 Hours.**

Intensive study of the politics of the South after Reconstruction; the emergence of the industrial South; the Black's place in this new situation, and the rise of segregation at the turn of the century with particular attention to the problem of the Black American and the value system of the South in light of civil rights consideration. Required: Two courses in history or consent of instructor.

**HIST-338. Women In American History. 3 Hours.**

Survey, from colonial times to the present, of the role of woman in America including women's reform movements. Required: Two courses in history or consent of instructor.

**HIST-339A. Sexuality And Intimacy In America. 3 Hours.**

This course studies the political and social histories of sexuality and private life in American contexts, especially what these histories reveal of the workings of power. Topics will include the history of same-sex love, the sexual revolutions and counterrevolutions of the twentieth century, struggles over reproductive rights, changing perceptions of marriage, and the development of homosexual identity politics.

**Prerequisite:** and.

**HIST-342. The City In American History. 3 Hours.**

General survey of urban America with emphasis on various topics such as the changing function and character of cities, immigration, reform, and urban planning. Required: Two courses in history or consent of instructor.

**HIST-343. Science, Magic, And Religion In History. 3 Hours.**

Where does knowledge come from? What authorities do we trust to provide accurate information about human nature, the natural world, or the mysteries of the universe? This course investigates three ways of knowing (or epistemologies) in European and U.S. history: science, magic, and religion. Science has become an important source of knowledge since the Renaissance, while magic and religion lost much authority they once held. However, the relationship between all three ways of knowing has been complex and interdependent into the present day. This course takes a historical approach combined with religious and gender studies, anthropology, and history of science.

**Prerequisite:** and.

**HIST-344. The History Of Islamic Spain: 711-1492. 3 Hours.**

The course addresses Muslim expansion and rule over Iberians, the development of a hybrid political system, cultural interactions, and causes of the demise of the Moors. This course will evaluate the legacy of Muslim rule in Spanish culture in Europe and in the new world.

**Prerequisite:** and.

**HIST-345. Mexican American History. 3 Hours.**

An introduction to major themes in the history of Mexicans in America from the colonial era to the present, including discussions of the social, political, and economic conditions Mexicans and Mexican Americans have confronted; examinations of how these conditions differ over time and between regions; and explorations of important issues in contemporary Mexican American history. Surveys a variety of primary and secondary sources from different mediums to offer a better understanding of Mexican-origin populations as immigrants to the United States, internal migrants within the U.S., and settled residents and citizens throughout the nation.

**Prerequisite:** HIST-111A with a minimum grade of D and HIST-111B with a minimum grade of D and HIST-214 with a minimum grade of D and HIST-215 with a minimum grade of D.

**HIST-346. Environmental History. 3 Hours.**

This course examines historical relationships between people—and their economic and political institutions—and non-human nature. Through lectures, discussions, and readings of secondary and primary source materials in history, economics, political science, and the natural sciences, students will examine how people of different races and genders have thought about, used, and been shaped by the natural environment over the last three centuries.

**Prerequisite:** and.

**HIST-350. History Of Brazil. 3 Hours.**

Survey of the history of Brazil; pre-Columbian roots in the Western Hemisphere, Western Europe's influence, and the present with emphasis on political and economic developments in the last two centuries. Required: Two courses in history or consent of instructor.

**HIST-351. Central America And The Caribbean. 3 Hours.**

History of Central America and of the major islands of the Caribbean, emphasizing the period since independence and the relation with the United States. Required: Two courses in history or consent of instructor.

**HIST-353. History Of Mexico. 3 Hours.**

Early Indian civilization; colonial and national periods with emphasis on race relations, the class structure, the church, latifundia, intellectual life, the revolution and the impact of industrialization in the twentieth century. Required: Two courses in history or consent of instructor.

**HIST-354. Contemporary Latin America. 3 Hours.**

A survey of twentieth century political events and socio-economic factors that have shaped Latin America, beginning with the U.S. intervention in the Spanish-American War to the Age of Privatization. Required: Two courses in history or consent of instructor.

**HIST-355. History Of Food And Drink. 3 Hours.**

This course explores scholarly approaches to food in a global context. It takes an interdisciplinary approach and draws from fields outside of history to examine the significance of food in a variety of cultural and temporal settings. The last segment of the course focuses on the problems associated with the contemporary industrialized food system.

**Prerequisite:** and.

**HIST-356. History Of Revolutionary Movements In Modern Latin America. 3 Hours.**

An examination of the origins and processes of revolutionary movements in Latin America since WWII, focusing on Guatemala, Cuba, El Salvador, Peru, Nicaragua, Chile, Colombia, and Mexico. The course looks at the domestic and international factors that have led to revolutionary crises in Latin America and addresses the role of U.S. intervention in the region.

**Requirement:** Undergraduate students- two courses in history or consent of instructor; Graduate students- Admission to graduate program and consent of instructor.

**HIST-358. Latin American History Through Film. 3 Hours.**

This course takes a multi-disciplinary approach to the study of how Latin American history has been portrayed in popular cinema. Students will analyze films from Latin America and the United States which grapple with various events in Latin American history as well as issues related to race, ethnicity, gender, and class. We will also draw on film theory to evaluate the intersection between form and content in film. The course is open to all majors.

**HIST-359. Museum Studies. 3 Hours.**

This course takes a multi-disciplinary approach to the study of museums, cultural heritage institutions, and natural history organizations and the contemporary issues and challenges facing them. Students will examine the theory and organization of museums as well as their historical and contemporary role in education, cultural preservation, research, and interpretation. This course will also take a critical look at the role of museums in colonialist endeavors, and how they address social hierarchies, race, gender, and ethnicity. Students will enrich their classroom learning with working visits to a diversity of institutions in the Chicago area. Course is open to all majors.

**HIST-360. History Of Pre-Modern China. 3 Hours.**

Introduction to the civilizations of China; philosophy, political history, religion, literature, art and material culture with emphasis on both the specific data and broad interpretations of Chinese history. Required: Two courses in history or consent of instructor.

**HIST-361. Modern Chinese History. 3 Hours.**

Modern Chinese history; institutional and intellectual changes and developments brought about in China by modernization, rebellion, revolution and war. Required: Two courses in history or consent of instructor.

**HIST-362. History Of Japan To 1850. 3 Hours.**

The development of Japan from its prehistory until the mid-nineteenth century emphasizing the data of Japanese history and the major paradigmatic approaches to its study. Required: Two courses in history or consent of instructor.

**HIST-363. History Of Japan Since 1850. 3 Hours.**

History of Japan from the mid-nineteenth century, including Japan's opening to the West; the Meiji Restoration, industrialization, constitutional government, imperialism, World War II, the American Occupation and postwar economic, political and cultural developments. Required: Two courses in history or consent of instructor.

**HIST-365. The History Of Women And Gender In Muslim Societies. 3 Hours.**

The course addresses the situation of women in Islamic societies, and the challenges and obstacles to female inclusion in civil society. The economic and social impact of gendering will be considered, and how regional variations inform gender expression. The nature and influence of native and western-inspired feminist movements will be assessed.

**HIST-366. War And Revolution In The Middle East Since 1900. 3 Hours.**

The course will examine sources of instability and tension in the Middle East, and how they produced revolution and war. Starting with rebellions against the Ottoman Empire in the early twentieth century, the course will conclude with study of the Arab Spring in the early twenty-first century.

**HIST-370. Precolonial Sub-Saharan Africa. 3 Hours.**

Historical survey of Sub-Saharan Africa until the early nineteenth century with emphasis on such topics as state formation and traditional African politics, the historical significance of African culture, the influence of Christianity and Islam, the slave trade and other consequences of contact with Europe. Required: Two courses in history or consent of instructor.

**HIST-371. Nineteenth And Twentieth Century Africa. 3 Hours.**

Critical issues in the history of sub-Saharan Africa during the nineteenth and twentieth centuries such as the historical significance of African culture, the structure and function of traditional political institutions, European imperialism, the administration of colonial rule and consequent socioeconomic change, the impact of the world wars, the growth of African nationalist movements and the achievement of independence. Required: Two courses in history or consent of instructor.

**HIST-372. History Of Southern Africa, 1800-Present. 3 Hours.**

This course covers the major themes in the history of Southern Africa in the last 200 years. The primary focus is on the lives of Africans and how people shaped their world, especially under the strains of colonialism and apartheid, and in their struggle for independence. Although the country of South Africa will occupy a significant place in the course, important processes like industrialization affected the entire region, and surrounding colonies and countries also will be studied. Required: Two courses in history or consent of instructor.

**HIST-373. Women & Gender In African History. 3 Hours.**

This course examines the related issues of women and gender in Africa, primarily in the last 200 years. Among the major topics it covers are women's experience in agricultural societies and in urban areas, and their roles as traders, laborers, and political leaders. It will also explore differences among women in Africa, for example in social standing, religion, and ethnicity. Required: Two courses in history or consent of instructor.

**HIST-379. History Of The Byzantine Empire. 3 Hours.**

This course offers an overview of the political, religious, cultural, social, and economic history of the Byzantine Empire (also known as the Eastern Roman Empire) from the time of Constantine until the conquest of Constantinople in 1453. The course takes an interdisciplinary and intersectional approach to the primary and secondary sources of Byzantine history. The class also provides an introduction to the many perspectives from which scholars study the past.

**HIST-380. History Of Christianity. 3 Hours.**

Analytical survey of the institutional, social and cultural origins of Christianity and the development of that religion from the ancient world to the present with attention to the dynamics of the relationships between Christianity and the various cultures in which it has been housed. Required: Two courses in history or consent of instructor.

**HIST-381. History Of The Second World War. 3 Hours.**

Intensive study of the Second World War, in its global aspects and implication, including post-war developments and the cold war. Required: Two courses in history or consent of instructor.

**HIST-382. The World In The Twentieth Century. 3 Hours.**

Contemporary world developments, including the causes and consequences of the two world wars, their impact on the non-European world, the rise of World Communism, the break up of the colonial empires, etc. Required: Two courses in history or consent of instructor.

**HIST-385. Presenting Public Controversies In History. 1 Hour.**

The course explores a particular contemporary public controversy in history. Students identify multiple viewpoints on the controversy and compile materials that illuminate that controversy. Students work with the instructor to present this controversy to a broad public at the university and beyond. The course culminates in a public panel discussion on the controversy.

**HIST-391. Contemporary Historical Problems. 3 Hours.**

Exploration and analysis of important current political, economic, social and cultural issues. Consult the schedule of Classes for specific topics. Required: Two courses in history or consent of instructor.

**HIST-392. Problems In History. 3 Hours.**

Exploration and analysis of topics in history; relevant sources and scholarly research. Consult the Schedule of Classes for specific topics. Required: Two courses in history or consent of instructor.

**HIST-393. Capstone Seminar In History. 3 Hours.**

The objective of the capstone seminar is for History majors to use the skills they have acquired in History 275 and in their 300-level history courses to write a substantial research paper. Students in the capstone seminar will identify primary and secondary sources and use them to write a research paper that engages an important issue of historical interpretation. Course instructors will choose the course content on a specific historical theme.

**HIST-394. Historical Tour. 6 Hours.**

Study of the history of a given region or country in conjunction with an on-the-spot investigation of historical and cultural sites and landmarks. Required: Two courses in history or consent of instructor.

**HIST-395A. Independent Study In History. 3 Hours.**

Intensive study in selected subject and periods of history. Independent Studies require the approval of the instructor, department chair and the College Dean. Required: Two courses in history or consent of instructor.

**HIST-395B. Independent Study In History. 2 Hours.**

(See HIST-395A for description.) Independent Studies require the approval of the instructor, department chair and the College Dean. Required: Two courses in history or consent of instructor.

**HIST-395C. Independent Study In History. 1 Hour.**

(See HIST-395A for description.) Independent Studies require the approval of the instructor, department chair and the College Dean. Required: Two courses in history or consent of instructor.

**HIST-396. Internship I. 3 Hours.**

Situates student interns in workplace positions- museums, research organizations, publishers, advertising agencies, government offices, business corporations, etc. - where historical background, analysis and methodology may be put to practical use. Helps students to improve research skills as well as explore career possibilities. Class consists of at least 8 hours per week at the workplace, in addition to periodic meetings with faculty and other students. Independent Studies require the approval of the instructor, department chair and College Dean.

**HIST-401. Historiography And Historical Method. 3 Hours.**

Historical understanding; philosophies of history and methods of historical research.

**HIST-407B. Freedom, Oppression, & Progress: The Contradictions Of The European Enlightenment. 3 Hours.**

This course introduces students to the European Enlightenment of the 1700s. The Enlightenment has been celebrated as an era of exciting intellectual discovery and unprecedented social progress, when figures like Locke, Kant, and Jefferson laid the foundations of modern human rights, representative government, social equality, and science-based reasoning. However, the eighteenth century was also a time in which European women, Europeans with disabilities or deafness, and Africans demanded access to the so-called universal rights celebrated by European philosophers. This course reexamines the contradictions of the Enlightenment era and challenges students to rethink our common narratives about modern progress.

**HIST-409. The History Of Disability. 3 Hours.**

This course examines the history of people with disabilities, a minority that makes up a substantial proportion of the U.S.'s and world's populations. The history of disability reveals how societies understand critical issues like civil rights, social identity, gender and sexuality, "normality," or a "healthy" body. Course topics will explore different facets of disability, including medicine, law, culture, and education.

**HIST-410. Readings In Medieval History. 3 Hours.**

Intensive reading and discussion on a selected topic in Medieval history, such as the Medieval family, church and state, economic organization, the growth of universities, peasant society or feudal society. Consult the Schedule of Classes for the specific topic.

**HIST-411. Readings In Early Modern Europe. 3 Hours.**

Intensive readings and discussions of aspects of European history during the early modern period.

**HIST-412. Readings In English History To 1688. 3 Hours.**

Topics in British history until the Glorious Revolution. Consult the Schedule of Classes for specific hours.

**HIST-414. Readings In Modern English History. 3 Hours.**

Intensive readings and discussion on aspects of the history of Modern England. Consult the Schedule of Classes for specific topics.

**HIST-414A. The History Of Russia From Its Origins To The Height Of Empire, 988-1855. 3 Hours.**

This course addresses Russian and Eurasian history from the conversion of Vladimir to Orthodox Christianity to the Death of Nicholas I. Subjects include the reigns of Ivan the Terrible, Peter the Great, and Catherine the Great; the development of the Russian Orthodox tradition; the formation of the Russian Empire and its relations with Islamic and Jewish populations; and the enslavement of Russian peasants.

**HIST-414B. The Russian Empire And Soviet Union, 1855 To The Present. 3 Hours.**

Addresses Russian and Soviet history from the Great Reforms of Alexander II to Vladimir Putin's presidency of the Russian Federation. Central themes include social status and class, ethnic and religious differences, revolutionary movements, Soviet socialism, and the reassertion of authoritarian rule after the collapse of the Soviet Union.

**HIST-415. Readings In 19th Century Europe. 3 Hours.**

Intensive readings and discussion on aspects on nineteenth century European history. Consult the Schedule of Classes for specific topics.

**HIST-416. Readings In 20th Century Europe. 3 Hours.**

Intensive readings and discussion on aspects of twentieth century European history. Consult the Schedule of Classes for specific topics.

**HIST-417. Readings In The History Of Weimar And Nazi Germany. 3 Hours.**

Intensive readings and discussion on aspects of Weimar and Nazi Germany.

**HIST-420. Seminar In Early Modern Europe. 3 Hours.**

Research on various topics in the history of early Modern Europe. A paper based on primary sources is required.

**HIST-421. Seminar In English History. 3 Hours.**

**HIST-422. Seminar In 19th Century Europe. 3 Hours.**

Research on various topics in English history. A paper based on primary sources is required.

**HIST-423. Seminar In Modern European Society. 3 Hours.**

Research on various topics in the modern history of Europe. A paper based on primary sources is required.

**Prerequisite:** HIST-401 with a minimum grade of C.

**HIST-424. Seminar In Impact Of War/Revolution In Europe. 3 Hours.**

Research on various topics related to war, revolution and their consequences for European history. A paper based on primary sources is required.

**HIST-430. Readings In Colonial America. 3 Hours.**

Intensive readings and discussion on aspects of Colonial American history.

**HIST-431. Readings In The American Revolution. 3 Hours.**

Intensive readings and discussion on aspects of the American Revolution.

**HIST-432. Readings In Early National America. 3 Hours.**

Intensive readings and discussion on aspects of the Early National Period.

**HIST-433. Readings In 19th Century America. 3 Hours.**

Intensive readings and discussion on aspects of nineteenth century American history.

**HIST-434. Readings In 20th Century America. 3 Hours.**

Intensive readings and discussion on aspects of twentieth century America. Consult the Schedule of Classes for specific topics.

**HIST-435. Readings In Cultural And Intellectual U.S. History. 3 Hours.**

Intensive readings and discussion on aspects of American cultural and intellectual history. Consult the Schedule of Classes for specific topics.

**HIST-436. Readings In Women's History Of The United States. 3 Hours.**

Intensive readings and discussions of American Women's history. Consult the Schedule of Classes for specific topics.

**HIST-437. Readings In Afro-American History. 3 Hours.**

Intensive readings and discussion on aspects of Afro-American history. Consult the Schedule of Classes for specific topics.

**HIST-439. Readings In American Social History. 3 Hours.**

Intensive readings and discussion on aspects of American social history. Consult the Schedule of Classes for specific topics.

**HIST-439A. Sexuality And Intimacy In America. 3 Hours.**

This course studies the political and social histories of sexuality and private life in American contexts, especially what they reveal about the workings of power.

**HIST-440. Seminar In Colonial America. 3 Hours.**

Research on various topics in Colonial American history. A paper based on primary sources is required.

**HIST-441. Seminar In The American Revolution. 3 Hours.**

Research on various topics in the American Revolution. A paper based on primary sources is required.

**HIST-442. Seminar In Early National America. 3 Hours.**

Research on various topics in the Early National Period. A paper based on primary sources is required.

**Prerequisite:** HIST-401 with a minimum grade of C.

**HIST-443. Seminar In 19th Century America. 3 Hours.**

Research on various topics in nineteenth century America. A paper based on primary sources is required.

**HIST-444. Seminar In 20th Century America. 3 Hours.**

Research on various topics in twentieth century America. A paper based on primary sources is required.

**Prerequisite:** HIST-401 with a minimum grade of C.

**HIST-445. Seminar In Cultural And Intellectual U.S. History. 3 Hours.**

Research on various topics in American cultural and intellectual history. A paper based on primary sources is required.

**HIST-446. Seminar In Women's History Of The U.S.. 3 Hours.**

Research on various topics in the history of American women. A paper based on primary sources is required.

**HIST-447. Seminar In Afro-American History. 3 Hours.**

Research on various in Afro-American history. A paper based on primary sources is required.

**HIST-449. Seminar In American Social History. 3 Hours.**

Research on various topics in American social history. A paper based on primary sources is required.

**HIST-450. Readings In Colonial Latin America. 3 Hours.**

Intensive readings and discussion on aspects of colonial Latin America to 1825.

**HIST-451. The Cold War In Latin America. 3 Hours.**

This course examines scholarly approaches to the Cold War era in Latin America. The conflict between the Soviet Union and the United States brought devastating violence to the region; it led to mass exiles, revolutionary upheaval, and authoritarian regimes that terrorized and murdered citizens. The course will examine Latin America in general and pay special attention to Guatemala, Cuba, and the Southern Cone as well as the role of the United States in the region's turmoil.

**HIST-452. Seminar In Latin American History. 3 Hours.**

Research on various topics in the history of Latin America. A paper based on primary sources is required.

**HIST-453. Seminar In The History Of Mexico. 3 Hours.**

Research on various topics in the history of Mexico. A paper based on primary sources is required.

**HIST-454. Commodities In Latin American History. 3 Hours.**

For the last five hundred years, Latin America has been a producer of commodities or raw materials, a persistent feature that has profoundly shaped the economies, societies, and politics of the region as well as its connections to the wider world. This course will examine this history through a variety of approaches, including ethnohistory and environmental, cultural, social, and labor history. It will also introduce students to some of the major issues, theoretical approaches, and thematic concerns in the study of Latin American history.

**HIST-455. History Of Mexico. 3 Hours.**

This course surveys the history of Mexico from the colonial period to the present. The course will focus especially on authoritarian regimes: the dictatorship of Porfirio Díaz in the late nineteenth century and the regime of the PRI which cast a long shadow over the state and society throughout much of Mexico's twentieth century. While the class will examine how the rich and powerful profited from these systems of domination, it will also study how ordinary Mexicans have endured and challenged them.

**HIST-460. Readings In Modern Japanese History. 3 Hours.**

Intensive readings and discussion on the development of the modern Japanese state and society since the nineteenth century.

**HIST-461. Readings In Classical Chinese History. 3 Hours.**

Intensive readings and discussion Chinese history from the Archaic Shang period (c. 1200 B.C.) through the seventeenth century.

**HIST-463. Readings In Modern Chinese Social History. 3 Hours.**

Intensive readings and discussion on various aspects of modern Chinese history from the nineteenth century to the present.

**HIST-470. Graduate Readings In African History. 3 Hours.**

This course is designed to provide the graduate students in history an introduction to the field of African history. Students will explore issues of sources and approaches which make African history distinct from other fields. Students will trace the development of African History in the last few decades, examine some of the major subjects and study the most recent works to see where the field is headed.

**HIST-471. Seminar In African History. 3 Hours.**

**Prerequisite:** HIST-401 with a minimum grade of C and HIST-470 with a minimum grade of C.

**HIST-479. History Of The Byzantine Empire. 3 Hours.**

This course offers an overview of the political, religious, cultural, social, and economic history of the Byzantine Empire (also known as the Eastern Roman Empire) from the time of Constantine until the conquest of Constantinople in 1453. The course takes an interdisciplinary and intersectional approach to the primary and secondary sources of Byzantine history. The class also provides an introduction to the many perspectives from which scholars study the past.

**HIST-480. Readings In History. 3 Hours.**

Exploration and analysis of topics in history. Consult the Schedule of Classes for specific topics.

**HIST-480A. Readings In History: Race, Ethnicity & Nationalism. 3 Hours.**

Exploration and analysis of topics in history. Consult the Schedule of Classes for specific topics.

**HIST-490. Independent Graduate Study In History. 3 Hours.**

Intensive and guided study in selected subjects and periods of history. Independent Studies require the approval of the instructor, department chair and the appropriate College Dean.

**HIST-496. Internship. 3 Hours.**

Situates student interns in workplace positions- museums, research organizations, publishers, advertising agencies, government offices, business corporations, etc. - where historical background, analysis, and methodology may be put to practical use. Helps students to improve research skills as well as explore career possibilities. Class consists of at least 15 hours per week at the workplace, in addition to periodic meetings with faculty and other students. Independent Studies require the approval of the instructor, department chair, and appropriate College Dean.

**HIST-5901. Thesis Hours. 1 Hour.**

Guidance of students conducting research and writing a thesis to fulfill requirements for the Master of arts degree in History. Independent Studies require the approval of the instructor, department chair and the appropriate College Dean.

**HIST-5902. Thesis Hours. 2 Hours.**

See course description for HIST-5901.

**HIST-5903. Thesis Hours. 3 Hours.**  
See course description for HIST-5901.

# Honors (HNRS)

---

## **ZHON-191. Honors Introduction To The Arts. 3 Hours.**

This course provides a stimulating introduction to the performing and fine arts. The course is structured around four modules covering the performing and fine arts offered at NEIU: visual arts, music, dance, and theater. The modules, while complete in themselves, will draw connections between the fine arts and explore the differences that make each of the fine arts unique. This course counts for General Education credit in the Fine Arts area.

## **ZHON-192. Introduction To The Humanities. 3 Hours.**

This lively introduction to the humanities at NEIU and to humanistic discourse in general is a discussion-oriented core course in the Honors Program. It is structured around a series of thought-provoking questions that will allow for the investigation of multiple methods of inquiry employed in the humanities. Various topics will be explored from the perspectives of English, Foreign Languages and Literatures, Linguistics, Philosophy, Communication and Women's Studies. Students will learn essential academic skills while exploring how these disciplines are both distinctive and in conversation with one another, sharing concerns common to the humanities in general. This course count for General Education credit in the Humanities area.

## **ZHON-193. Honors Introduction To The Social Sciences. 3 Hours.**

This spirited introduction to the social sciences at NEIU, and to the behavioral and social sciences in general, is a discussion-oriented core course in the Honors Program. It is structured around a series of thought-provoking readings and inter-related topics that will investigate multiple methods of inquiry employed in the social sciences. These themes and approaches will be explored from the perspectives of Anthropology, Economics, Geography, History, Justice Studies, Political Science, Psychology, and Sociology. Students will learn essential academic skills while gaining insight into how various disciplines connect with one another and inform various dimensions of interpersonal life. This course counts for General Education credit in the Social/ Behavioral Sciences area.

## **ZHON-194. Honors Introduction To The Sciences. 3 Hours.**

This course provides a stimulating introduction to a set of topics that are at the forefront of research in the natural sciences. The course is structured around a series of modules each covering a topic that is among the most significant in the fields of Biology, Chemistry, Earth Science, and Physics. The modules, while complete in themselves, will draw connections between scientific disciplines, and will explore how advance in one field have facilitated breakthroughs in other fields of science. The integration of computation into the course provides a strong link to the disciplines of Mathematics and Computer Science as well. This course counts for General Education credit in the Natural Sciences.

## **ZHON-360. Honors Seminar In Research & Creative Processes. 3 Hours.**

How do scientists test a hypothesis? What approach directs a jazz pianist's creative process? What form does analysis take in English or Educational Leadership or Archaeology? This practice-oriented seminar explores how research is conducted in a variety of academic areas. Students will examine methodologies and gain experience synthesizing literature and analyzing findings as they build the components of an Honors Thesis/Creative Activities Proposal. Faculty guests will offer perspectives on their own research/creative processes. Discussions and class assignments will lead students progressively toward developing a polished proposal in their own major field of study. Course themes will vary.

## **ZHON-375. Honors Colloquium: World Perspectives. 3 Hours.**

Specialized and intensive investigation of topics in broadly defined areas of current interest: reading, discussions, guest lectures.

## **ZHON-395. Honors Thesis/ Creative Project. 3 Hours.**

The Honors Thesis or Creative Project represents the culmination of your participation in the Honors Program. After completing an approved proposal, Honors Scholars register for ZHON-395 with their thesis/creative project faculty advisor and work one-on-one with him/her to conduct and complete the thesis/ creative project. Honors Scholar and faculty advisor continue to participate in regular meetings with others going through same process. ZHON-395 students strongly encouraged to present their work at the NEIU Student Research and Creative Activities Symposium or similar venue.

**Prerequisite:** ZHON-360 with a minimum grade of C.

## **ZHON-3951. Honors Thesis/ Creative Project Hours. 1 Hour.**

The NEIU Honors Program supports department-specific thesis options. Honors Scholars may conduct their Honors thesis/ creative project through departmental credit hours or by enrolling in ZHON-395. If the departmental thesis/creative project credits add up to less than 3, the student may use ZHON-3951-3 credits to bring the total number of Honors thesis/ creative project credits up to 3. See thesis advisor to determine if department has its own credit hours for senior thesis or creative project.

## **ZHON-3952. Honors Thesis/ Creative Project Hours. 2 Hours.**

The NEIU Honors Program supports department-specific thesis options. Honors Scholars may conduct their Honors thesis/ creative project through departmental credit hours or by enrolling in ZHON-395. If the departmental thesis/creative project credits add up to less than 3, the student may use ZHON-3951-3 credits to bring the total number of Honors thesis/ creative project credits up to 3. See thesis advisor to determine if department has its own credit hours for senior thesis or creative project.

## **ZHON-3953. Honors Thesis/ Creative Project Hours. 3 Hours.**

The NEIU Honors Program supports department-specific thesis options. Honors Scholars may conduct their Honors thesis/ creative project through departmental credit hours or by enrolling in ZHON-395. If the departmental thesis/creative project credits add up to less than 3, the student may use ZHON-3951-3 credits to bring the total number of Honors thesis/ creative project credits up to 3. See thesis advisor to determine if department has its own credit hours for senior thesis or creative project.

## **Courses**

**HNRS-397. Honors Colloquium. 3 Hours.**

**HNRS-398. Honors Seminar. 3 Hours.**

**HNRS-399. Honors Thesis/Project. 3 Hours.**

# Human Resource Development (HRD)

---

## Courses

### **HRD-202. Career And Life Planning I. 3 Hours.**

Designed to help students develop a greater understanding of themselves and to identify a satisfying career field that matches their talents and abilities. Students will identify their values, analyze their skills, discover their likes and dislikes and focus on their interests as they relate to possible career choices. A long range plan will be developed and a supportive resume describing capabilities and experience will be prepared.

### **HRD-300. Principles And Practices In Human Resource Development. 3 Hours.**

Students explore their aptitudes and interests in relation to the roles of educators in non-school settings. They familiarize themselves with the overall purposes of organizations and the role of educators within such organizations.

**Prerequisite:** (100 - 399 or 100A - 399Z).

### **HRD-301. Adult Teaching/Learning Process. 3 Hours.**

Students study the principles of adult learning and instruction and the range and types of desired educational outcomes related to the characteristics of adult learners. Required: HRD-300 or can be taken at the same time as HRD-300; Completion of a Minimum of 45 College-Level Semester Hours.

**Prerequisite:** (100 - 399 or 100A - 399Z).

### **HRD-310. Instructional Techniques And Technology. 3 Hours.**

Students apply a systematic approach to the development of instructional materials using the principles of instructional design. Topics covered include needs assessment, task analysis, objective preparation, design documents, material development, and evaluation.

**Prerequisite:** HRD-300 with a minimum grade of C and HRD-301 with a minimum grade of C.

### **HRD-313. Political Savvy In The Workplace. 3 Hours.**

This course will explore the concept of political savvy in the workplace as it relates to one's career success and development as well as for others whom the HRD professional might coach. Topics include: how political savvy is defined, the political nature of the workplace, power and the importance of leveraging one's power, personal influence, and the development of a political game plan.

**Prerequisite:** (100 - 399 or 100A - 399Z).

### **HRD-313B. Program Development In Human Resource Development. 3 Hours.**

This course will explore the range and types of desired outcomes related to planning programs for adult learners. Not designed or written as an instructional design course, this course looks at the barriers that impede discourages adults in pursuing educational goals and provides various way to enhance opportunities for the adult learning population.

### **HRD-315. Computer Utilization In Human Resource Development. 3 Hours.**

Students in this course will be introduced to the use of computers for instructional purposes. Course will focus on design, storyboarding, logic and authoring software. Students will develop computer-based training programs.

**Prerequisite:** HRD-300 with a minimum grade of C and HRD-301 with a minimum grade of C and HRD-310 with a minimum grade of C.

### **HRD-320. Dynamics Of Working With Groups And Individuals. 3 Hours.**

Students explore effective interpersonal and group behavior in organizations. Emphasis is placed on understanding the importance of such behaviors. Completion of a minimum of 45 college-level semester hours required.

**Prerequisite:** (100 - 399 or 100A - 399Z).

### **HRD-321. Designing Instruction In Human Resource Development. 3 Hours.**

Students apply major principles relating to the design and presentation of training/education programs for adults. Students demonstrate and improve their level of competency on major course tasks. Recommended: HRD-315 or may be taken concurrently.

**Prerequisite:** HRD-310 with a minimum grade of C and HRD-315 with a minimum grade of C and HRD-320 with a minimum grade of C.

### **HRD-323. Independent Study In Human Resource Development. 3 Hours.**

In-depth study of special areas in human resource development.

**Prerequisite:** HRD-310 with a minimum grade of C.

### **HRD-325. Writing Intensive Program:Communication In Human Resource Development. 3 Hours.**

This course explores the role of oral and written communication skills in the human resource development field. The student will practice the following: impromptu, informational, and persuasive oral presentations; and interviewing, questioning, organizing, researching, and active listening skills.

Additionally, the student will demonstrate competence with the following writing tasks: preparing a meeting agenda, project proposal manuscript with recommendations, an e-mail message, an elevator speech, a claims adjustment request, bad news memorandum, and decline of a request.

Professionalism; appropriate non-verbal messages; and accurate and effective organization, flow, and mechanics as appropriate for the context, content, and audience are emphasized.

**Prerequisite:** HRD-300 with a minimum grade of C and ENGL-101 with a minimum grade of C.

**HRD-328. Organizational Project Management. 3 Hours.**

This three-credit hour course guides students through the process of creating a project management proposal including a timeline. The course examines issues relating to project structure and stakeholders. It explores responsibilities within a project as well as how to identify project sponsors and project tasks. Students will be exposed to project management as it relates to organizational goals, preparing them to participate in projects while maintaining an organizational perspective.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**HRD-329. Internship And Seminar In Human Resource Development. 6 Hours.**

The internship and seminar will be the culminating activity for the Human Resource Development major. Internship will be in health care settings, business and industry, community, state and federal agencies, rehabilitation and recreation centers and professional associations. The purpose will be to synthesize what the student has learned in the classroom with practice in the field. Permission from the HRD Advisor or Program Coordinator required.

**Prerequisite:** HRD-301 with a minimum grade of C and HRD-310 with a minimum grade of C and HRD-315 with a minimum grade of C and HRD-321 with a minimum grade of C.

**HRD-362. Instructional Media In Human Resource Development. 3 Hours.**

The purpose of the course is to provide the student with a practical, hands-on approach to selecting and utilizing instructional media, consistent with theories and practices in instructional technology. The emphasis will be placed upon the tools (i.e., equipment and materials) which an instructional designer has available for the production of instructional materials. Students will learn how to operate equipment and will produce instructional materials for media programs.

**Prerequisite:** HRD-301 with a minimum grade of C.

**HRD-390. Computer-Based Training. 3 Hours.**

Systematic approach to the design and use of computer-based and interactive video instructional materials. Course includes courseware development, implementation, training techniques, documentation and state-of-the-art technology.

**Prerequisite:** HRD-300 with a minimum grade of C and HRD-301 with a minimum grade of C and HRD-310 with a minimum grade of C and HRD-315 with a minimum grade of C.

**HRD-400. Hrd And The Organization. 3 Hours.**

Study of the role of HRD in relation to the needs, purposes, structures and processes of organizations in order to maximize the effectiveness and value of HRD to the organization.

**HRD-401. The Adult Learner I. 3 Hours.**

An analysis of adult learning theory and research in relation to practice in the field of training and human resource development, including study of how adults acquire and use knowledge, skills and attitudes. Application of theory in varied adult learning situations will be emphasized.

**Prerequisite:** HRD-400 (may be taken concurrently) with a minimum grade of C or HR-400 with a minimum grade of C.

**HRD-402. Adult Learner II. 3 Hours.**

In-depth focus on individual difference characteristics of adults that affect learning. Consideration of such characteristics as motivation, learning styles, perception of self on other, culture, experiential background, memory/information processing, attribution, cognitive structures and metacognition. Research paper required that includes application to HRD field.

**Prerequisite:** HRD-401 with a minimum grade of D or HR-401 with a minimum grade of D.

**HRD-403. Leadership & Political Savvy In The Workplace. 3 Hours.**

Students will explore the relationship between leadership practices and politically-savvy behaviors in the workplace for human resource development professionals. Students will examine the theoretical and practical aspects of leadership, explore the political nature of the workplace, review the importance of power and influence, and refine interpersonal and communication skills necessary for personal career success.

**Prerequisite:** HRD-400 with a minimum grade of B.

**HRD-404. Applied Technology In Human Resource Development. 3 Hours.**

This course is an introduction to the use of computers and electronic communication devices for HRD-specific purposes. It focuses on the application of software tools and electronic communication devices in instructional design and workplace communication, utilizing storyboarding, mapping logic, and various platforms as authoring programs. Special emphasis is placed on development of proficiency with PowerPoint as an e-learning authoring tool.

**Prerequisite:** HRD-406 with a minimum grade of C and (HRD-400 with a minimum grade of C or HRD-401 with a minimum grade of C).

**HRD-405. Needs And Task Analysis In Hrd. 3 Hours.**

Defining gaps between desired and actual performance and specifying the cause of the gaps. Identifying and analyzing tasks and job content for the purpose of developing training designed to accomplish specific results in a job or organization. The design, development and application of techniques and instruments to use in obtaining information on needs and tasks.

**Prerequisite:** HRD-400 with a minimum grade of C or HR-400 with a minimum grade of C.

**HRD-406. Instructional Design In Hrd I. 3 Hours.**

The process of preparing objectives, defining content, selecting and sequencing learning activities for specific training/ education/ development programs. Includes selection of methodology, including use of media and computer technology, critique and redesign of off-the-shelf materials and evaluation.

**Prerequisite:** HRD-401 with a minimum grade of C or HR-401 with a minimum grade of C.

**HRD-407. Measurement And Evaluation In Hrd. 3 Hours.**

Determining the effectiveness of HRD learning programs and services. Making decisions on how, what and when to measure and what standards to use in evaluation. The design, development and application of techniques and instruments to use in obtaining measurement data. Cost/benefit analysis of the impact of HRD on the organization.

**Prerequisite:** HRD-406 with a minimum grade of C or HR-406 with a minimum grade of C.

**HRD-408. Instructional Design In Human Resource Development II. 3 Hours.**

In this course, students study advanced instructional design techniques as they go through the process of assessing needs, designing and developing instruction and developing both an assessment and an implementation plan for their training. Students develop an instructional program designed to meet client needs, giving them an opportunity to apply theories learned in earlier courses, as well as acquainting them with additional instructional strategies to developing an expanded instructional program.

**Prerequisite:** (HRD-406 with a minimum grade of D or HR-406 with a minimum grade of D) and (HRD-407 with a minimum grade of D or HR-407 with a minimum grade of D) and (HRD-490 with a minimum grade of D or HR-490 with a minimum grade of D or HRD-462 with a minimum grade of D).

**HRD-409. Television Production In Human Resource Development. 3 Hours.**

This course will explore techniques of television production and utilization as they apply to the field of human resource development. Students will learn the principles of camera operation, lighting, composition, video and audio recording, video editing, field production, directing and scripting. The approach will be hands-on; students will write and produce video training materials using instructional design principles.

**Prerequisite:** (HRD-362 with a minimum grade of C or HR-362 with a minimum grade of C) and (HRD-406 with a minimum grade of C or HR-406 with a minimum grade of C).

**HRD-410. Talent Management. 3 Hours.**

Exploration of the major aspects of talent management from developing core competencies to the design and employment of performance management systems. We will study the perspectives, methods, and theoretical framework employed by HRD practitioners in developing HRD strategies to improve organizational performance.

**Prerequisite:** HRD-400 with a minimum grade of C and HRD-401 with a minimum grade of C and HRD-405 with a minimum grade of C.

**HRD-411. Consulting In Human Resource Development. 3 Hours.**

This course examines the roles of both internal and external consultants within an organization as they analyze both training and non-training interventions to improve performance. Students work with case studies to examine various aspects of the consulting process. Topics covered include client-consultant relationships, diagnosing organizational situations, developing contracts, marketing your services, etc.

**Prerequisite:** (HRD-407 with a minimum grade of C or HR-407 with a minimum grade of C) and (HRD-406 with a minimum grade of C or HR-406 with a minimum grade of C).

**HRD-412. Project Management In Human Resource Development. 3 Hours.**

Study of the principles of project management as they relate to the development of HRD programs. Application of the principles to HRD projects that are both in the planning state and in progress will be emphasized.

**Prerequisite:** HRD-405 with a minimum grade of C or HR-405 with a minimum grade of C.

**HRD-413. Independent Study In Human Resource Development. 3 Hours.**

In-depth study of special areas in human resource development.

**HRD-414. Strategic Planning In Human Resource Development. 3 Hours.**

Study of principles of strategic planning as it relates to the HRD field. This course will explore various strategies that can be used to lead, facilitate, or teach others how to work through the strategic planning process. Application of the principles of strategic planning process will be emphasized.

**HRD-415. Seminar In Human Resource Development- Organizational Development. 3 Hours.**

This seminar guides students in developing a broad understanding of various aspects of Organization Development (OD), including: OD field and organizational change; the history of OD; how to manage the OD process; the elements of Action Research in OD; OD interventions; power, culture, and politics as an organization tool.

**Prerequisite:** (HRD-401 with a minimum grade of C or HR-401 with a minimum grade of C) and (HRD-400 with a minimum grade of C or HR-400 with a minimum grade of C) and (HRD-403 with a minimum grade of C or HR-403 with a minimum grade of C) and (HRD-405 with a minimum grade of C or HR-405 with a minimum grade of C) and (HRD-406 with a minimum grade of C or HR-406 with a minimum grade of C) and (HRD-407 with a minimum grade of C or HR-407 with a minimum grade of C).

**HRD-416. Masters Capstone. 3 Hours.**

Students in the MA in Human Resource Development program will complete a capstone course where they will complete one of three capstone projects:  
 Practitioner project: A front-end assessment or performance analysis, white paper, policy analysis, or program evaluation  
 Instructional design: A research-based lesson design and analysis project  
 Internship: A 15-week supervised practicum/internship, either in the field of training and development in an organization in which they are presently working, or in talent development within an appropriate, site-approved organization.  
 The selection of the capstone option must be approved by the instructor of record.

**Requirement:** Departmental Approval, completion of all required courses

**Prerequisite:** (HRD-401 with a minimum grade of C or HR-401 with a minimum grade of C) and (HRD-403 with a minimum grade of C or HR-403 with a minimum grade of C) and (HRD-405 with a minimum grade of C or HR-405 with a minimum grade of C) and (HRD-406 with a minimum grade of C or HR-406 with a minimum grade of C) and (HRD-407 with a minimum grade of C or HR-407 with a minimum grade of C).

**HRD-417. Practicum In Hrd II. 3 Hours.**

See description of Practicum in HRD I. Students have the option of taking additional practicum hours if the field setting provides an opportunity to design and present a training program that is more involved and will require an extended time commitment. Practicum in HRD I and Practicum in HRD II can be taken during the same term if it can be clearly established that the student will have time for an extended commitment.

**Prerequisite:** (HRD-401 with a minimum grade of C or HR-401 with a minimum grade of C) and (HRD-400 with a minimum grade of C or HR-400 with a minimum grade of C) and (HRD-403 with a minimum grade of C or HR-403 with a minimum grade of C) and (HRD-405 with a minimum grade of C or HR-405 with a minimum grade of C) and (HRD-406 with a minimum grade of C or HR-406 with a minimum grade of C) and (HRD-407 with a minimum grade of C or HR-407 with a minimum grade of C).

**HRD-418B. Topical Seminar: Human Performance Technology In Human Resource Development. 3 Hours.**

Study of improving human performance in the workplace. This course will develop awareness about the complexity of this area including the role of the HRD practitioner as the performance consultant. A practical and theoretical foundation for following HTP methodology to solve human performance problems in the workplace will be explored.

**HRD-418E. Topical Seminar In Global/Cultural Issues In Human Resource Development. 3 Hours.**

This course will explore the importance and necessity of HRD practitioners understanding the importance of globalization and the increasing diversity of the work-place and work-force. The design and delivery of instruction and the analysis of the dynamics of organizations requires an understanding of learning and organizational development theory and will be examined through the lens of global and cultural awareness.

**HRD-418F. Topical Seminar: Group Dynamics In Human Resource Development. 3 Hours.**

This course will explore the principles of group dynamics as they affect individuals, groups, and team in organizations. This highly interactive course will explore group and team issues including: the nature of groups, group formation, development and socialization, structure, influence power, decision making, conflict, and additional issues.

**HRD-419. Project In Human Resource Development. 3 Hours.**

Students prepare a project that involves the application and/or extension of the knowledge and skills developed in the courses that they have completed. The project may be in the form of an instructional program or a paper on a specific aspect of Human Resource Development.

**HRD-420. Thesis Seminar In Hrd. 3 Hours.**

Guidance of students conducting research and writing a thesis to fulfill the requirements of the program, Master of Arts in Human Resource Development.

**HRD-421. Leadership And Ethics In HRD. 3 Hours.**

This course presents historical and contemporary leadership theory and models and applies leadership theories and concepts in the context of Human Resource Development. This course also guides students through a personal assessment of leadership characteristics, utilizing different tools to measure the individual's strengths and focus on self-enhancement to better assist in ethical decision making.

**Prerequisite:** HRD-400 with a minimum grade of C and HRD-401 with a minimum grade of C.

**HRD-462. Instructional Strategies In Hrd. 3 Hours.**

This course will explore various strategies that can be used to facilitate learning in a variety of situations. Strategies such as advance organizers, concept mapping, imagery, etc. will be studied in terms of their advantages, limitations and applications. The course will explore different types of learning, such as declarative knowledge, concepts, motor skills, etc. The different types of learning will be studied in terms of their characteristics and the implications those characteristics have for selecting and using instructional strategies.

**HRD-490. Multimedia: Design And Application. 3 Hours.**

This course presents an overview of varied aspects of multimedia as used in the HRD field. Course content blends theory and application as students learn the basic elements of instruction, interaction and the impact of technology on instruction. Students use an authoring program to design instruction which meets criteria for effective teaching/learning. Students will use multimedia as a vehicle for research and communication through e-mail and Internet access.

**Prerequisite:** HRD-404 with a minimum grade of C.

# Inner City Studies Education (ICSE)

---

## Courses

### **ICSE-101. Development Of Inner City Children. 3 Hours.**

An examination of traditional theories of child growth and development in light of recent findings of interdisciplinary research on the behavior of disadvantaged children in urban settings. Special emphasis on inner city family structures as well as those informal and formal systems that contribute to personality formation.

### **ICSE-102. The Paraprofessional In The Inner City School. 3 Hours.**

Introduction to educational philosophies and teaching techniques relevant to inner city schools from pre-school through upper elementary grades as they pertain to the paraprofessional (teacher aide). Considerable focus on teacher aide-pupil relationships and teacher aide-parent relationships. Special projects will deal with practical classroom situations and motivational techniques. Students will be exposed to new materials and media and trained to select those especially applicable to inner city youth.

### **ICSE-103. Introduction To Inner City Studies. 3 Hours.**

An overview to of the problems of minority groups in large urban settings. Includes the study of mental and physical health and community services.

### **ICSE-201. History And Culture Of Ethnic Groups In America. 3 Hours.**

An examination of religious, social, economic, and political aspects of ethnic groups in the United States, namely: Spanish descent, African-Americans, American Indians, etc.

### **ICSE-301. Racism In Theory And Fact. 3 Hours.**

Study of race and culture as related to social and racist theories. Focus will be on such issues as prejudice, racial superiority and racial group interaction.

### **ICSE-302. The Inner City Community. 3 Hours.**

The study of the politics, economics, and social structure of the inner city. In addition, the ecological approach will be covered.

### **ICSE-303. Writing Intensive Program: Research Design And Methodology. 3 Hours.**

Research Design and Methodology examines the literature and theories that relate to research of urban communities. The course will focus on the design of research projects and the methods of data collection used in researching urban phenomena.

**Prerequisite:** ENGL-101 with a minimum grade of C.

### **ICSE-304. Communication In The Inner City. 3 Hours.**

An examination of the cultural barriers and racial myths which impede inter-cultural communication. Development of a theory of inter-cultural communication with emphasis on means of disseminating ideas, news, and propaganda in inner city communities.

### **ICSE-305. Business, Welfare, And Labor Systems In America. 3 Hours.**

A study of political, economic, and social aspects of the labor welfare economy as related to group structure. Problems posed by automation, cybernation, and discrimination will be studied in-depth.

### **ICSE-327. Seminar In Administrative Practicum. 2 Hours.**

Designed to provide orientation, overview and evaluation of practicum experience. Must be taken concurrently with ICSE-328.

**Prerequisite:** ICSE-305 with a minimum grade of D or ICST-305 with a minimum grade of D.

**Corequisite:** ICSE-328.

### **ICSE-328. Administrative Practicum. 4 Hours.**

A ten week assignment in an inner city administrative unit, governmental or private. Designed to give the student experience in administration and administrative problems of various agencies and organizations. The student will be supervised by a cooperating administrator working with the faculty practicum supervisor. Must be taken concurrently with ICSE-327.

**Prerequisite:** ICSE-305 with a minimum grade of D or ICST-305 with a minimum grade of D.

**Corequisite:** ICSE-327.

### **ICSE-329C. Inner City Organization And Institution Building. 3 Hours.**

This course is primarily a survey of the socio-political dynamics of inner city organization and institution building. An ecological framework will be utilized to guide our examination. The course will encompass three principal areas of concern: 1. an over-view of organizations and institutions within the context of social organization; 2. issues relevant to inner city organization and institution building; 3. methodological tools to develop a proposal to conduct an ethnographic study of the Jacob H. Carruthers Center for Inner City Studies at Northeastern Illinois University. Moreover, current social findings concerning inner city organization and institution building will be examined.

### **ICSE-329E. The Oral Tradition & The Inner City Community. 3 Hours.**

This course explores the social, political, and cultural forces that influence hip hop culture and the rap music industry. Ecological conceptual models will be used to determine if multinational media conglomerates function as one massive empire that uses some aspects of the rap music industry as cultural imperialism, or if they are simply involved with hip hop for classic capitalism purposes, or a combination of both.

**ICSE-329F. Contemporary Issues In The Inner City. 3 Hours.**

This course focuses on the contemporary issues surrounding inner city communities in the United States. It specifically examines the economic, political, educational, and environmental underpinnings of such communities. Throughout this course dilemmas effecting inner city communities, specifically, miseducation and the misuse and abuse of economic and political power are discussed, debated and researched. In addition, the discussion of racism as the underlying cause of the historic and contemporary issues in the inner city is explored.

**ICSE-329G. Comparative Inner City Communities. 3 Hours.**

Course examines historical and contemporary aspects of inner city life in major urban areas in the United States and abroad. It will include the study of the demographics, politics, economics, and social structure, as well as the systems and institutions which affect these inner city communities. The central focus of the course is the comparative exploration of the nature and function of the historical and contemporary role of inner city communities within major cities internationally. The course is research-oriented. Students are organized into teams to explore two major cities in each of the countries: United States, Africa, Caribbean, and Europe.

**ICSE-329H. Inner City Development. 3 Hours.**

This course examines the development in inner city communities in the city of Chicago since 1970 and tracks future plans for development. Students will examine the economic, political, social and cultural development of inner city communities and how this development impacts the residents of these communities. This examination will include a thorough look at the development efforts of the city, state, and federal governments, as well as the efforts of private and non-profit agencies.

**ICSE-329L. African Communications. 3 Hours.**

This course is designed to examine verbal and non-verbal communication in African and African American culture, including speaking, writing, the visual arts, song, instrumental music, dance, and film. Perspectives on linguistic and artistic expression will be explored. The role of the "Creative World" in communication will also be considered. Approaches to building cultural knowledge, competence, and literacy will be analyzed. Lectures and discussion will inform instruction.

**ICSE-329P. History Of Africa. 3 Hours.**

This course is designed to discuss and analyze various aspects of African Civilizations. It also focuses on the conflicts and historical development of various pre-colonial African kingdoms to the rise of Eurasian colonialism and the Slave Trade. Emphasis will be placed on analyzing the relationship between ancient Eurasian and African contacts in the past and the impact it has on present day dynamics and circumstances. The materials incorporated will reflect the cultural, anthropological, linguistic and psychological factors impacting the historical development and the current status of African people.

**ICSE-329V. Elite Theory & American Democracy. 3 Hours.**

The purpose of this course is to examine social organization and theories of power to determine who really rules America. Moreover, we will delve into the process of how the power elite maintain and enhance their power in society. Edward Shils reminds us that society has a center. Our goal will be to examine this "center" to determine how it impinges in various ways on those who live within American society.

**ICSE-329W. Inner City Institutions. 3 Hours.**

This course examines the various institutions in inner city communities and the roles they play within these communities. The course will specifically evaluate the political economy generated by these institutions which are created, funded, and operate from sources outside of the inner city community. The topic of fiscal budgeting and management of the city government and how it relates to inner city institutions, as well as the institutional generation and allocation of funds will be examined to analyze how the funding process facilitates structural advantages and/or disadvantages in the inner city community.

**ICSE-331. Literature Of Ethnic Groups. 3 Hours.**

Approach to the study of ethnic cultures through literature written by and about those groups; study of literary works concerned with African descendents, Southern Mountain Whites, American Indians, Cubans, Mexican and Puerto Ricans. Insight into the cultural attributes of these groups through the reading of novels, plays, biographies, essays, poems and short stories.

**ICSE-416. History And Culture Of Afro-Americans. 3 Hours.**

African derivation and the culture of American slavery; urban and rural existence; development of the emergent African-American middle-class.

**ICSE-425A. Comparative Religion & Philosophical Systems. 3 Hours.**

This course is designed to discuss and analyze the nature of the conflict between the growth of early African Christianity and its rival in Europe. It will examine the various African and European thinkers whose discourses were instrumental in the earliest development of Christian philosophy, dogma and praxis. It will also explore the various ecumenical councils that were convened to discuss philosophical issues impacting the current worldview in Western theology. In addition the course will assess the content and context of the notion of "heresy" as a tool in Western theological and intellectual warfare against early African thought.

**Prerequisite:** ICSE-411 with a minimum grade of C or ICST-411 with a minimum grade of C.

**ICSE-425B. African Civilization. 3 Hours.**

This course is designed to discuss and analyze various aspects of African Civilizations. It reviews the conflicts and historical development of various pre-colonial African kingdoms to the rise of Eurasian colonialism and the Slave Trade. Emphasis will be placed on analyzing the relationships and values of the world African community of the past and the impact it had on circumstances today.

**Prerequisite:** ICSE-411 with a minimum grade of C or ICST-411 with a minimum grade of C.

**ICSE-425C. The African World View. 3 Hours.**

This course is designed to discuss and analyze aspects of the African World View. It also focuses on the conflicts and historical developments of various ideas surrounding the question of African Centeredness and Pan-Africanism as it relates to educational, psychological, sociological, and political thoughts which impact the African world community.

**Prerequisite:** ICSE-411 with a minimum grade of C or ICST-411 with a minimum grade of C.

**ICSE-428. The Urban World. 3 Hours.**

This course is an examination of the urban communities in which peoples of African descent reside, the evolving urban patterns, and the changing nature of urban life in these areas of the world. It looks at the realities of "slum" existence, factors behind the creation of slums, the policies that govern urban communities, and the limitations of these policies in many developing countries. Many major cities were founded on "squatter-style" neighborhoods. We further explore the growing challenges and issues presented by these urban areas in an increasingly globalized world. Further we will conduct comparative analyses of some of these communities.

**Prerequisite:** ICSE-411 with a minimum grade of C and ICSE-442 with a minimum grade of C.

**ICSE-444. Methods Of Teaching In The Inner City. 3 Hours.**

Curriculum development and adjustment to meet the needs of inner city pupils; new approaches to teaching the "hard to reach" pupil; students to develop units in their own major teaching areas, utilizing new materials and techniques.

**Prerequisite:** ICSE-411 with a minimum grade of D or ICST-411 with a minimum grade of D.

**ICSE-454. Masters Project Research. 3 Hours.**

Supervision and advisement in evolving a research project and in writing research results.

# **Instructional Media (INMD)**

---

# Italian (ITAL)

---

## Courses

**ITAL-101. Italian I. 3 Hours.**

Development of basic skills in listening, speaking, reading and writing. Cultural appreciation.

**ITAL-102. Italian II. 3 Hours.**

Continuation of ITAL-101.

**Prerequisite:** ITAL-101 with a minimum grade of D.

**ITAL-103. Italian III. 3 Hours.**

Continuation of ITAL-102. Completes the study of the basic elements of Italian.

# Japanese (JPN)

---

## Courses

**JPN-101. Japanese I. 3 Hours.**

Development of basic skill in listening, speaking, reading and writing. Cultural appreciation.

**JPN-102. Japanese II. 3 Hours.**

Continuation of basic skill in listening, speaking, reading and writing. Cultural appreciation.

**Prerequisite:** JPN-101 with a minimum grade of D.

**JPN-103. Japanese III. 3 Hours.**

Continuation of basic skill in listening, speaking, reading and writing. Cultural appreciation.

**JPN-104. Japanese IV. 3 Hours.**

Continuation of basic skill in listening, speaking, reading and writing. Cultural appreciation.

# Jewish Studies (JS)

---

## **JS-301. Jewish Studies Applied Learning Internship. 3 Hours.**

Placement in an internship with a Jewish agency, either in social services, nonprofit, or other areas. Students will meet regularly with their instructor and complete assignments and readings relating to their internship work.

**Prerequisite:** (100 - 399 or 100A - 399Z).

## **JS-306. Europe 1919-1948: Fascism, Socialism, And The Second World War. 3 Hours.**

This course addresses European history from the treaties that ended the First World War in 1919 to the Berlin Crisis and the start of the Cold War. Themes will include the Great Depression and crisis of liberal democracy, the challenges to it posed by Mussolini, Hitler, and Stalin, and the culmination of tensions among these in the Second World War. Particular attention will be paid to genocide and the Nazi attempt to destroy the European Jewish community.

**Prerequisite:** (100 - 399 or 100A - 399Z).

## **JS-314B. Russian And Soviet History 1855 To The Present. 3 Hours.**

The political, diplomatic, intellectual and social development of the peoples of the Russian Empire and the Soviet Union from the accession of Alexander II to the present. The great diversity of the Russian Empire and Soviet Union's populations will be a particular focus, with emphasis on the Jewish and the Muslim communities.

**Prerequisite:** (100 - 399 or 100A - 399Z).

## **JS-316. Languages And Cultures: Middle East. 3 Hours.**

This course introduces students to the languages, cultures, values, preconceptions and misconceptions associated with the region known as the Middle East. A variety of sources, including academic texts, articles, fiction, poetry, film and the visual arts are incorporated to better grasp and appreciate the complex of languages and cultures of the region. Check the current schedule for the focus country.

## **JS-321. American Jewish Politics. 3 Hours.**

This course will cover: Conceptual frameworks of American Jewish political power, institutions and behavior; multiple theories of modern Jewish politics in America; internal and external advocacy institutions from 1820-present; American Jews and the legal process; American Jews and the Labor Movement; American Jews and Feminist politics; Anti-Semitism and the American Jewish response; American Jewish politics and Israel.

**Prerequisite:** (100 - 399 or 100A - 399Z).

## **JS-344. Narratives Of The Jewish Experience. 3 Hours.**

This course focuses on stories told in contemporary Jewish communities as illustrative of the Jewish experience. Narrative is representative and constructive of life experience, memory, and identity. We will analyze stories collected by others and available to wide audiences, and to stories we collect through interaction and interviews with members of the Jewish community. Analyses will be conducted within a narratological framework that blends discursive theory and practice. Students will gather oral narratives from family members, community members, political and religious leaders, and educators with the goal of analyzing how stories both reveal and construct personal and social identities.

**Prerequisite:** (100 - 399 or 100A - 399Z).

## **JS-352. Jewish-American Literature: People Of The Books. 3 Hours.**

This course studies how the United States shapes the meaning of Jewish identity and culture, and conversely, how Jewish literature helps shape the meaning of American identity and culture. Working in a range of cultural forms from comic books to genre fiction, Jewish writers throughout the modern era creatively and critically interrogate and re-imagine what it means to be Jewish-American, and more broadly, investigate and challenge what it means to be American.

**Prerequisite:** ENGL-101 with a minimum grade of C.

## **JS-396. Jewish Political Thought. 3 Hours.**

This course explores the Jewish political tradition, focusing particularly on the concepts of power, sovereignty, and community. Starting from the Biblical text, we will examine how both classical and modern thinkers within the Jewish tradition understood the ways in which power was created, the different meanings of leadership, the idea of national independence, and the ultimate question of belonging within a fragmented political community.

**Prerequisite:** (100 - 399 or 100A - 399Z).

# Justice Studies (JUST)

---

## Courses

### **JUST-101. Introduction To Social Justice. 3 Hours.**

Examines the theme of justice as a foundational goal of all social institutions in a democracy. Introduces students to critically examining social injustices, especially in institutions and social structures. In order to arrive at a vision and practice of justice we will study those "acceptable" injustices through the lens of justice and equality for all.

### **JUST-109. First Year Experience: Justice In Chicago. 3 Hours.**

Using Chicago as a lab, students will experience justice in many forms, from courthouse visits and artistic expressions, to discussions with attorneys, judges, and formerly incarcerated persons. In this course, the five foundations of the First-Year Experience (Future Planning, Integral Preparation, Research, Self-discovery and Transitions) are interwoven with the introductory concepts and terminology of the criminal and social justice systems to provide first-year students with an opportunity to critically examine social injustices in institutions and social structures through a critical lens.

### **JUST-201. Introduction To The Criminal Justice System. 3 Hours.**

Overview of police, court and prison practice with attention to class, race and sex discrimination in the criminal justice system. Emphasis on the relationship between crime and key political and economic structures.

### **JUST-202. Writing Intensive Program: Justice And Inequality. 3 Hours.**

This course focuses on the unfair and unequal treatment occurring in contemporary U.S. society based on people's race, gender, sexual orientation, and class. The course analyzes the ways in which race, class, gender, and sexual orientation work as interlocking systems of privilege and disadvantage affecting all of us. The course also focuses on biases and discrimination in the criminal justice system and in the delivery of justice. Discussions will also identify strategies for reducing injustice. This course fulfills the Writing Intensive Program (WIP) graduation requirement for Justice Studies majors.

**Prerequisite:** JUST-101 with a minimum grade of C and ENGL-101 with a minimum grade of C.

### **JUST-301. Theories Of Justice And Social Change. 3 Hours.**

Explores general theories of social change, such as social evolutionism and historical materialism and the relationship between social change and the pursuit of justice. The starting point is unjust social structures and processes, leading into analysis of how social change occurs, especially through social movements.

**Prerequisite:** JUST-101 with a minimum grade of C and JUST-202 with a minimum grade of C.

### **JUST-305. The Carceral State: A Contemporary System Of Punishment And Control. 3 Hours.**

This course extends students' understanding of mass incarceration and the current state of the criminal legal system by introducing a theoretical understanding of the Carceral State as a system of control and punishment. This course examines the Carceral State through an intersectional framework that considers the relationship between punishment and criminalized identities, such as race, ethnicity, nationality, gender, sexuality, class, and ability. The course focuses on prison abolition work as a response to dismantling the Carceral State.

**Prerequisite:** JUST-313 with a minimum grade of C.

### **JUST-307. Prisoner Reentry Systems. 3 Hours.**

This course examines how the prison reentry system works, the causes of recidivism, and how recidivism rates could be lowered. Students will gain applied knowledge of how the criminal justice system works and of patterns of incarceration and release, as well as trends in prisoner reintegration.

**Prerequisite:** JUST-313 with a minimum grade of C.

### **JUST-309. Portrayal Of Crime In Media. 3 Hours.**

Analysis of the media's presentation of crime with attention to the historical development of the portrayal of crime and its effect on current public attitudes regarding "crime" and the "criminal." Various forms of the media are individually considered, most notably television, film, and newspaper.

### **JUST-311. Women, Crime, And The Criminal Justice System. 3 Hours.**

This course explores the position of women in society; theories of female criminality; crimes committed by and against women, such as prostitution, rape, physical and psychological abuse, and forced sterilization; the treatment of women by various social and criminal justice agencies.

### **JUST-312. Theories Of Criminal Behavior. 3 Hours.**

Historic overview of theories of crime from the classical school to currently popular viewpoints including Marxist and radical theories with emphasis on the relationship between theory and criminal justice policy formulation.

**Prerequisite:** JUST-101 with a minimum grade of C or JUST-201 with a minimum grade of C.

### **JUST-313. Prisons And Jails. 3 Hours.**

Study of the historic development of prisons focusing on current practice and emphasizing consequences of expanding the prison population and community based alternatives to incarceration.

### **JUST-314. Police In The Minority Community. 3 Hours.**

Overview of the social, political and economic consequences resulting from historical and contemporary treatment of U.S. minorities by law enforcement personnel with emphasis on the development of policy focusing on police methodology in controlling and creating levels of crime within urban areas. Theoretical and practical issues involving bias, discretion and excessive force.

**JUST-316. Crime, Violence And Culture. 3 Hours.**

Exploration of interpersonal and structural violence and aspects of culture that promote it. The course considers: the criminalization of some and tolerance of other violence; competing theories of violence; and strategies for reducing and preventing violence.

**JUST-317. White Collar Crime & Elite Deviance. 3 Hours.**

This course examines the problems of defining crimes of the elite, theories related to white collar crime and elite deviance, and the impact of white collar crime and elite deviance on society and justice. We also examine the impact of social institutions upon white collar crime and elite deviance, reactions to these and the forms of punishment available.

**JUST-318. Gangs In Chicago. 3 Hours.**

This course provides an analysis of the history of, and theories about, gangs in Chicago. It examines how and why gangs develop, how they are structured, their gradual development, and how societal injustices impact the development of gangs generally, and in Chicago.

**JUST-319. Latinos/as & The Criminal Justice System. 3 Hours.**

Examines the relationship between Latinos/as and the criminal justice system. Issues addressed are what distinguishes Latinos/as from other racial and ethnic groups in the criminal justice system? What sociological and criminological theories can explain these differences. Key variables that are discussed are historical context, race and ethnic relations, current criminal justice policies.

**JUST-321. Violence Against Women. 3 Hours.**

Overview of the legal, sociological, psychological and medical aspects of rape, battering and related forms of gendered violence. Explores social and cultural context of violence against women, changing definitions of violence and the criminalization of sexual assault and family violence and response to violence, including the anti-rape and battered women's movements.

**JUST-322. Women, Justice And The Law. 3 Hours.**

A discussion of justice and its intersection with gender. The course focuses on federal statutes and their interpretation, on sexual harassment and employment and state statutes focusing on family law and criminal law.

**JUST-323. Introduction To Child Advocacy Studies. 3 Hours.**

This course provides a survey of the emerging field of Child Advocacy Studies, which researches and seeks remedies for the maltreatment of children and youth, including specific acts of violence and neglect, in the context of the pernicious effects of racism, poverty, sexism, and heterosexism, including the unique problems faced by immigrant and displaced children. The course examines the various economic, political, social and cultural circumstances that may contribute to the abuse and maltreatment of children and youth. It also teaches students about the strategies and tactics used by various local governmental and nongovernmental agencies, courts and medical establishments to address these problems.

**JUST-324. Women As Political Prisoners. 3 Hours.**

This course examines the three areas in which women can be defined as political prisoners: 1) women imprisoned for political acts; 2) women imprisoned for self-defense measures; 3) women imprisoned for petty 'economic' crimes such as prostitution.

**JUST-325. Women And Revolution: Theories Of Justice. 3 Hours.**

Theories of justice informing revolutionary practice with attention to the role played by women in revolution, especially in liberation struggles in Central America.

**JUST-326. Juvenile Justice System. 3 Hours.**

Socio-economic analysis of the history of the juvenile justice system in an effort to understand how the system functions and whom it serves.

**JUST-328. Social Justice & LGBTQ Issues. 3 Hours.**

This course explores lesbian, gay, bisexual, transgender and queer social justice issues. Students will study LGBTQ issues and theories in the context of both historic and contemporary social justice practices. This will include an examination of race, class, gender, and ethnicity in LGBTQ communities, along with a discussion of legal, social, and political steps taken and contemplated to end the oppression of LGBTQ people.

**JUST-329. Politics Of Punishment. 3 Hours.**

Exploration, from a global perspective, of the history, development and philosophies of punishment and of the debate within the United States and the countries of Western Europe over the purpose of correctional institutions.

**JUST-330. Legal Research And Bibliography In Criminal Law. 3 Hours.**

Study of basic reference and source materials. Visits to law libraries are required. Presentation of a written and oral argument.

**Prerequisite:** JUST-201 with a minimum grade of C and JUST-202 with a minimum grade of C and ENGL-101 with a minimum grade of C.

**JUST-331. Law And Racism In America. 3 Hours.**

The nature of racism, its essential features and their relationship to the legal, social and economic practices in the United States.

**JUST-332. Race & Ethnic Relations. 3 Hours.**

Course provides critical examination of the social construction of race focusing on how ethnicity, ancestry and phenotype are used historically to separate people. Students explore concepts, theoretical perspectives, and research patterns of cooperation and conflict between different racial and ethnic groups. Sources of prejudice, discrimination, power relations and stratification are discussed. Students examine contemporary problems and issues in the area of racial and ethnic relations and global justice.

**Prerequisite:** JUST-101 with a minimum grade of C and JUST-202 with a minimum grade of C.

**JUST-333. Community Law. 3 Hours.**

General introduction to the impact of law on the public: consumer law, family law and individual rights.

**JUST-334. Criminal Law And Procedure. 3 Hours.**

The basic principles of American criminal law, current issues and controversies surrounding the criminal justice process, and the constitutional rights of the accused.

**JUST-335. Legal Process I. 3 Hours.**

Analysis of common law and the role of precedent with emphasis on appellate courts, particularly the U.S. Supreme Court.

**JUST-336. Postmodern Law & Criminology. 3 Hours.**

This course will introduce the core concepts of postmodern analysis and their application to law, criminology and social justice. It will be a challenge to modernist thought that has dominated the social sciences whose basic assumptions evolved from the Renaissance period. Discourse analysis and chaos theory along with other emerging perspectives will be explicated. Causation, the subject, objectivity, order, linearity, neutrality of language, rationality, universals, among others, will be re-thought via postmodern analysis.

**JUST-337. Workers' Rights Clinic. 3 Hours.**

The Workers' Rights Clinic will critically examine theoretical, legal and practical aspects of workers' rights and acknowledges the dynamics of the employer-employee power relationship. Readings and classroom activity will ground students in doctrinal aspects of workers rights and the laws governing employment relationships. Students will attend and observe court and administrative and worker related legal cases such as employment termination, discrimination and wage litigation pending in state and federal courts and/or federal, state and municipal administrative agencies. Students will observe courtroom proceedings, examine court papers, and engage with lawyers, judges, court personnel, workers and clients.

**JUST-338. Introduction To Human Rights. 3 Hours.**

This course provides an introductory overview to human rights. Human rights are examined from several different points of view: as a legal and moral discourse in which justice claims are expressed; as an international regime consisting of many different treaties, legal bodies, United Nations agencies and non-profit organizations which seek to prevent, investigate, and punish human rights violations; as a global social movement that promotes minimum universal standards of human dignity and respect; as a contested philosophical concept that is compared and contrasted with other types of moral claims; and as an increasingly important strategy being used by various communities in the United States to overcome many different types of social injustice. The main human rights organizations and their methods of working will be explained. Each student will also get an opportunity to research one human rights issue in depth.

**JUST-339. Tenant's Rights Clinic. 3 Hours.**

Under the supervision of a licensed attorney, students study issues relating to landlord/tenant disputes and conflicts. Students are trained to define and negotiate such problems.

**JUST-340. Sociology Of Law. 3 Hours.**

This course concerns the development of law in society. We cover: historical development of law; functions of law; the connection between political economy and law; various perspectives in studying law; classical thinkers; current and emerging thought; the emergence of lawyers and their language and form of reasoning; the emergence of legal rights and the legal subject; substantive biases of law (gender, race, class, intersectional); how "realities" are constructed in the courtroom; and freedom and coercion in law.

**JUST-343. Conflict Transformation. 3 Hours.**

Conflict is part of human daily experience. When properly managed, it can lead to awareness, growth, and better human relationships. However, when misdiagnosed and mismanaged, it can sour things and destroy relationships. It also leads to intra and interpersonal, intra- and inter-group/organizational violence, as well as large scale intra-state and international violence. This course explores the connection between justice, peace, and conflict by seeking to understand social conflict and the mechanisms used in its transformation. We begin by examining the theories of conflict analysis and resolution and conclude by exploring methods and best practices.

**JUST-345. Practicum In Justice Studies. 3 Hours.**

Specific skills necessary for entry level agency/community work.

**Prerequisite:** JUST-202 with a minimum grade of C and JUST-101 with a minimum grade of C and JUST-241 with a minimum grade of C and JUST-301 with a minimum grade of C.

**JUST-346. Introduction To Oral History For Communities. 3 Hours.**

This course introduces students to oral history, a practice that has expanded to many disciplines for its ability to providing information on aspects of life missing from documentary sources and offering different perspectives on historical events and processes. Notably, oral history is used in recovering the experiences of ordinary people. Students will gain knowledge and skills for engaging people in communities in telling their own stories. Students will learn the principles of oral history methodology by analyzing theoretical, ethical, and practical challenges interviewers and researchers face. Students will also learn basic skills on interviewing, transcribing, and abstracting oral histories.

**Prerequisite:** JUST-241 with a minimum grade of C or LLAS-290 with a minimum grade of C.

**JUST-347. Restorative Justice Theories And Practices. 3 Hours.**

Restorative Justice (RJ) is one of several umbrella concepts gaining in prominence in the Justice Studies arena. It refers to philosophical strategies and diverse practices to resolve conflicts in a way that is less litigious than traditional, adversarial legal proceedings. This course will introduce students to the origins, theories, controversies and practices of restorative justice—both past and present—as an alternative response to harm. It will also interrogate such questions as: When is it appropriate to forgive rather than to punish? What is entailed in coming to forgiveness, both for the perpetrator and the victim? Students will come to understand the meaning of restorative processes by examining the ways in which they are practiced around the world.

**JUST-348. Research Methods In Justice Studies. 3 Hours.**

This course introduces majors to quantitative and qualitative research methods used in the social sciences with a focus on Justice Studies issues. Students develop analytical skills through learning how researchers construct and use data to answer questions about human behavior, beliefs, and institutions.

**Prerequisite:** (JUST-101 with a minimum grade of C or JUST-201 with a minimum grade of C) and MATH-090 with a minimum grade of C.

**JUST-350. Field Work Seminar. 6 Hours.**

Application of the specific skills learned in the practicum, as well as other classroom theories and concepts, in an agency/ community setting. 180 volunteer hours at work in the field and a 1 1/2 hour weekly seminar.

**Prerequisite:** JUST-345 with a minimum grade of D.

**JUST-351. Advocating For Social Justice In Illinois. 3 Hours.**

This course provides students with a practical introduction to advocating for social justice in Illinois. It is taught from the perspective of marginalized communities that historically have been significantly less able to influence elected officials by donating large sums of money. However, these communities have been able to impact public education, legislation and policy formation/implementation through strategic injections of expertise, organizing, smart coalition building, access to media, litigation, direct action and other techniques. The course will include analyses of such issues as: the legislative process at the local and state levels, an introduction to the players; how to follow the money; the types of power such communities are up against in Chicago and suburbia; strategies to access media and produce a coherent message; the necessity of and methods to reframe and label issues; and the use of organizing, coalition-building, direct action, the courts, initiatives and referendum.

**Prerequisite:** JUST-101 with a minimum grade of C and JUST-202 with a minimum grade of C.

**JUST-352. Economic Justice. 3 Hours.**

In this course students will analyze economic issues and related inequalities in the context of theories of social justice. Students will learn causes of such injustices and practical strategies to reduce them.

**JUST-355. LGBTQ Communities & Crime. 3 Hours.**

Research indicates that lesbian, gay, bisexual, trans, and queer (LGBTQ) identities are stigmatized and even criminalized in many nations, LGBTQ individuals are at a heightened risk of crime victimization and face barriers to receiving help, and heterosexism and transphobia play integral roles in the perpetration of crime by LGBTQ individuals as well as in how criminal justice systems respond to them. By applying social justice and criminological lenses, students in this course will explore the nature of and potential resolutions to crime related to LGBTQ people, both in the United States and globally.

**JUST-357. Social Justice, Mental Health, And The Law. 3 Hours.**

Though one of six Americans suffers from some form of mental illness, there has been little progress in the last fifty years in our protection and treatment of patients who suffer from mental illness. In this course, students will learn about the laws, rights, and treatment of mental illness. They will explore the definitions of mental illness and the stigma and discrimination which ensues for those who are labeled. Students will also examine the arbitrariness of labels and diagnosis in the mental health system, and the devastating impact that this labeling can have on patients and their families.

**JUST-361. Five-Hundreds Years Of Resistance. 3 Hours.**

This course is a basic study of the over 500-year history of colonization imposed by Europeans and Euro-Americans. It also examines indigenous resistance to colonization and globalization. In this course, critical thinking and reasoning are introduced through the evaluation of historical developments, key contributors, and principle issues of resistance and revolutionary theory.

**Prerequisite:** JUST-202 with a minimum grade of C.

**JUST-362. Justice Issues In Africa. 3 Hours.**

Having lived/living through probing explorers, colonists, imperialists, and natural resources hunters, Africa has also attracted good intentioned development and international collaboration. Even though independence gained from Western nations has improved self-determination in some of its 53 countries, the struggle for justice continues to dominate many political and social activities. This course examines factors that generate inequalities in South Africa; conflict, race, class, ethnic, gender violence, post-apartheid dynamics, neoliberal politics, access, housing, the environment, and exploitation issues in the light of global democracy and social justice.

**Prerequisite:** JUST-101 with a minimum grade of C.

**JUST-363. Globalization And The Pursuit Of Justice. 3 Hours.**

We live in a world interconnected through economics, politics, communications, entertainment and migration. This course explores the emergence of globalization in its contemporary form, and its implications for the lives of everyday people in the global north and south, east and west. Through case studies, we will examine how globalization affects movements for democracy and justice, and vice versa.

**Prerequisite:** JUST-101 with a minimum grade of C.

**JUST-364. Terrorism In Media & Law. 3 Hours.**

Whether used by governments, militaries, corporations, religious institutions, gangs or individuals, terror is an intense overpowering fear caused by the threat and use of violence. This course examines five categories of terrorism. One case study explores how the US responded to 9/11 by framing a long term "War of Terror." Students will learn how to analyze the constantly changing images, propaganda, and tropes manufactured by media to know how to distinguish between terrorists, and those who use violence to defend themselves from aggression and invasion. Also covered are how terrorism is addressed in law; how terrorism impacts institutions/practices; causes of terrorism; ways to prevent/stop terrorism.

**Prerequisite:** JUST-101 with a minimum grade of C and JUST-202 with a minimum grade of C.

**JUST-370. Immigration In Global Perspective. 3 Hours.**

This course looks at contemporary international population movements and state policies in highly developed countries through the prism of social justice. The course provides an overview of the major theories explaining the nature, causes and consequences of migration including key dimensions such as control policies, integration, security, and citizenship. The course also analyzes current public conversations debating unauthorized immigration, assimilation, and membership and belonging. Through readings, lectures, videos and newspaper articles the course offers students tools for a critical understanding of migration by addressing questions of justice such as the rights of people to mobility, to work, to equality and to inclusion.

**JUST-371. U.S. Immigration Policy & Human Rights In The Americas. 3 Hours.**

Historical overview of United States' relations with the Americas as these structure economic and security interests in the region and influence regime change, human rights violations, and immigrant and refugee flows. Analysis of contrasting U.S. immigration and refugee policies.

**JUST-382. Social Justice & Literature. 3 Hours.**

Writers and artists often reflect and inspire major social realignments and radical shifts in the social structure. They have a unique lens with which to focus on society and institutions of power. This course explores the work of several writers and filmmakers to understand how their works mirrored and ignited aspects of social justice. It analyzes how artistic works serve as social critique to enable or inspire social protest and change. The course traces the author's/filmmaker's point of view in each work studied, and examines how they developed their central themes through plot and character.

**JUST-383. Social Justice And The Visual Arts. 3 Hours.**

Visual artists are important critics of institutions of power and social inequality. Through an exploration of visual media, students will gain insights into issues of power and social inequality based on gender, class, race and sexual orientation. Students will analyze visual media and images utilizing social justice theories, and compare and contrast different visual media to consider their relevance to social change.

**Prerequisite:** JUST-101 with a minimum grade of C.

**JUST-390. Social Justice And The Environment. 3 Hours.**

This course is a comprehensive overview of the connections between environmental justice, social justice, and animal ethics. The topics will be viewed from the following perspectives: 1) Justice and Sustainability; 2) Poverty, Economic Development and Environmental Justice; 3) Eco-Feminist Perspectives on Environmental Justice; 4) Native American Perspectives 5) Animal Ethics and the Relationship to Environmental Justice; and 6) Environmental Law.

**JUST-391. Independent Study In Social Justice. 1 Hour.**

This course provides a student with the opportunity to undertake an individualized investigation into a topic of the student's choice, under the personalized supervision of a Justice Studies faculty member. The student must fill out the Justice Studies' department's Independent Study form and get the project approved two weeks before the semester begins. Justice Studies major with GPA of 3.0 or above. Approval of instructor, Chair and College Dean required.

**Prerequisite:** JUST-241 with a minimum grade of C.

**JUST-392. Independent Study In Social Justice. 2 Hours.**

This course provides a student with the opportunity to undertake an individualized investigation into a topic of the student's choice, under the personalized supervision of a Justice Studies faculty member. The topic cannot duplicate what is taught in a regularly offered course. The student must fill out the Justice Studies' department's Independent Study form and get the project approved two weeks before the semester begins. Justice Studies major with GPA of 3.0 or above. Approval of instructor, Chair and College Dean required.

**Prerequisite:** JUST-241 with a minimum grade of C.

**JUST-393. Independent Study In Social Justice. 3 Hours.**

This course provides a student with the opportunity to undertake an individualized investigation into a topic of the student's choice, under the personalized supervision of a Justice Studies faculty member. The topic cannot duplicate what is taught in a regularly offered course. The student must fill out the Justice Studies' department's Independent Study form and get the project approved two weeks before the semester begins. Justice Studies major with GPA of 3.0 or above. Approval of instructor, Chair and College Dean required.

**Prerequisite:** JUST-241 with a minimum grade of C.

**JUST-395. Hunger & Homelessness. 3 Hours.**

This class uses an intersectional approach to analyze challenges faced by people who are underfed, unhoused, and in precarious housing conditions, including LGBTQI youth in foster care, unhoused female veterans, and mothers and children living in poverty. It explores the paths to poverty and the experience of poverty in America, emphasizing structural barriers related to race, class, gender, sexuality, and other inequalities. Through lectures, readings, service learning, and guest speakers, students gain a deep understanding of poverty as a lived experience. They will also explore advocacy strategies for society's most vulnerable populations - women and children.

# Korean (KOR)

---

## Courses

**KOR-101. Korean I. 3 Hours.**

Development of basic skill in listening, speaking, reading and writing. Cultural appreciation.

**KOR-102. Korean II. 3 Hours.**

Continuation of basic skill in listening, speaking, reading and writing. Cultural appreciation.

**Prerequisite:** KOR-101 with a minimum grade of D.

**KOR-103. Korean III. 3 Hours.**

Continuation of basic skill in listening, speaking, reading and writing. Cultural appreciation.

**Prerequisite:** KOR-102 with a minimum grade of D.

**KOR-205. Business Korean. 3 Hours.**

Study of basic skills needed to conduct low-to-midlevel business transactions in Korean with emphasis on aspects of Korean culture that occur most frequently in a business environment. Conducted in English.

**Prerequisite:** KOR-103 with a minimum grade of D.

**KOR-220. Korean Conversation I. 3 Hours.**

Development of oral-aural communication skills with emphasis on everyday situations.

**Prerequisite:** KOR-103 with a minimum grade of D.

**KOR-221. Korean Grammar And Composition I. 3 Hours.**

Overview of grammar with emphasis on writing skills.

**Prerequisite:** KOR-103 with a minimum grade of D.

**KOR-222. Korean Conversation II. 3 Hours.**

Continuation of KOR-220 with emphasis on sophistication in speaking Korean through simulation and role playing.

**Prerequisite:** KOR-220 with a minimum grade of D.

**KOR-223. Korean Grammar And Composition II. 3 Hours.**

Continuation of KOR-221.

**Prerequisite:** KOR-221 with a minimum grade of D.

**KOR-313. Introduction To Korean Literature. 3 Hours.**

Overview of literary periods and significant trends in Korean and Korean-American Literature. Survey of major writers and their principal works.

**KOR-360. The Confucian Tradition In Korea. 3 Hours.**

An in-depth study of Korean ideas and values which explain some of the most fundamental traditional Korean assumptions about humanity, society and the world. This course will examine ideas and values, rooted in the Confucian tradition, which have influenced pre-modern Korean culture and in many ways remain in force in modern society.

LAT-102. Latin II. 3 Hours.

# Latino and Latin Amer Studies (LLAS)

---

## Courses

### **LLAS-101. Introduction To Latino & Latin American Studies. 3 Hours.**

This course is an introduction to Latino and Latin American Studies. It explores the diverse origins and conditions of the multiple groups encompassed by the terms "Latino" and/or "Hispanic." The course traces connections with ancestral Latin America in terms of its pre-Hispanic and colonial past, as well as its post-colonial present.

### **LLAS-109. FYE:Art, Thought, And Revolution In Chicago. 3 Hours.**

An introduction to the cultural life of Chicago Latino youth with its regional differences with key themes/symbols and cultural norms created by the historical interaction between Latinos and American society as expressed in literature, art, music, and folklore. Attention will also be given to change and continuity in Latino cultural norms on the basis of historical events. This class explores the history of art and its role in the civilizations from Modernism, the Mural Renaissance and the Civil Rights Movement. Using the rich artistic legacy of this area, the class examines the way art functions across borders and how borders have been constructed, debated and lived through in the art of the past.

### **LLAS-201. Writing Intensive Program: Culture & History Of Latinos. 3 Hours.**

Culture and History of Latinos is intended to insure that Latino and Latin American Studies students understand the religious, social, economic and political aspects of Latino groups. It explores their roles and conditions in the new demographic context of the United States as its largest ethnic minority group.

**Prerequisite:** ENGL-101 with a minimum grade of C.

### **LLAS-224. The Chicano Movement. 3 Hours.**

This course is an analytical overview of stories and histories of and about people of Mexican ancestry or origin in the United States of America. The course examines involvements, events, and conditions directly affecting the fates and opportunities of this constituency through time. The course focuses on regional, class and gender particularities as well as symbolic and epistemological characteristics.

### **LLAS-225. Puerto Ricans & The Caribbean. 3 Hours.**

This course is an overview of people in the Caribbean and/or in the U.S. with ancestral or migratory ties to the Caribbean.

### **LLAS-285. Mexican Chicago. 3 Hours.**

This course aims to examine the meaning, conditions, and prospective future of the extensive and long-established Mexican presence in the Chicago region. Beginning with a comparison of Mexican populations in major US urban centers, the course proceeds to urban and suburban dimensions in the Midwest. It examines the complexity of the Mexican population in terms of regional, generational and phenotypical characteristics, as well as in relation to other minority populations in the region. The course highlights specific profiles of members of Mexican communities in the region and incorporates field experiences and online tours of cultural sites and manifestations.

### **LLAS-290. Research Methods In Latino And Latin American Studies. 3 Hours.**

The course provides an introduction to the theories and processes of critical inquiry in the social sciences and humanities. Each student conducts a focused review of the literature in response to a specific, identified issue and is introduced to the elements of scholarly writing. The course creates a learning community of scholars working to explore meaningful solutions to identified research questions in Latino and Latin American Studies humanities and social sciences area.

**Prerequisite:** LLAS-101 with a minimum grade of D and LLAS-201 with a minimum grade of D.

### **LLAS-301. Field Seminar In Latino & Latin American Studies. 3 Hours.**

The course aims towards the formulation of a sophisticated understanding of social and political life of Latinos in the current context. It combines theoretical insights and documentary information to examine the assets and current challenges of these communities. This course serves as the capstone course for LLAS minors.

**Prerequisite:** LLAS-101 with a minimum grade of C or MCS-101 with a minimum grade of C and LLAS-201 with a minimum grade of C or MCS-201 with a minimum grade of C.

### **LLAS-312. Introduction To The Barrio. 3 Hours.**

Students do research on their residential neighborhoods using historical and demographic data, along with political and theoretical insights from the social sciences and the students' experiences.

### **LLAS-340. Latina/x Feminisms & Social Media. 3 Hours.**

This course has two goals: first, students will become familiarized with a panorama of texts exemplifying the historical trajectory of Latina/x intersectional feminist thought in the United States. During the second half of the course, students will research social media activism and contextualize popular Latina/x social media activists and representation, with special emphasis on the disputes and ongoing developments in group identities and senses of self, as well as broad social and political questions relevant to Latina/o/xs, with an eye towards citizenship, consumerism, and immigration issues.

### **LLAS-345. Race, Class, Gender & Latinos. 3 Hours.**

This course is an analytical overview of the complexity of Latino community/ies. The course aims towards the formulation of a sophisticated understanding of social and political life of Latinos in the current context. It combines theoretical insights and documentary information to examine the assets and current challenges of these communities.

**LLAS-346. Introduction To Oral History For Communities. 3 Hours.**

This course introduces students to oral history, a practice that has expanded to many disciplines for its ability to providing information on aspects of life missing from documentary sources and offering different perspectives on historical events and processes. Notably, oral history is used in recovering the experiences of ordinary people. Students will gain knowledge and skills for engaging people in communities in telling their own stories. Students will learn the principles of oral history methodology by analyzing theoretical, ethical, and practical challenges interviewers and researchers face. Students will also learn basic skills on interviewing, transcribing, and abstracting oral histories.

**Prerequisite:** LLAS-290 with a minimum grade of C or JUST-241 with a minimum grade of C.

**LLAS-347. The U.S.-Mexican Border. 3 Hours.**

This course examines the instrumental role that the international boundary plays in the regional and international contacts between Mexico and the United States. It examines origins and transformation of the current border demarcation and underscores the strategic role it plays in social and economic respects for both countries regarding trade, industrial production, and migration. Particular attention is placed on the contrasting impacts of this strategic role on the lives of the residents of this binational setting in terms of social, economic, environmental, and political characteristics. Symbolic aspects of the region in both countries will also be explored.

**LLAS-348. Mestiza/o Ways Of Knowing. 3 Hours.**

This course focuses on the hybrid character of Latino and Latin American identities. It focuses on the notion of Mestizaje, a central concept to refer to the blending of indigenous and other cultural roots in Latin America. It emphasizes the multi-racial and multi-cultural character of Latino and Latin American populations. Yet, the manifestation of these blendings varies--countries like Argentina and Chile, for example, manifest clearer European influences while Colombia, Dominican Republic, Haiti, and others, present more evident African influences. The course examines recent academic claims that hybridity influences the senses of the world.

**LLAS-349. Gloria Anzaldúa: A Deep Dive. 3 Hours.**

This course is a "deep dive" into the particular social, political and economic factors contributing to the work of a single author over the long arc of her career, along with her particular contributions to literary culture in her time. Extensive reading involving a representative array of the author's work and a wide variety of critical essays on that work will provide students excellent bases for their research, writing and class discussion, culminating in an essay or creative project suitable for public presentation or publication. This section of the course focuses on the work of Gloria Anzaldúa, as well as her collaborators and literary intellectual/artistic successors.

**LLAS-350. Latinos In A Transnational Perspective. 3 Hours.**

This course focuses on transnational contacts between Latinos and their communities of origin in Latin America. Latino immigrants, and often their U.S. born offspring, create and maintain support networks with family and other members left in their sending communities. Transnational networks involve individuals as well as groups. "Remittances," the money transferred through these networks from the U.S. to Latin American, have become the main source of foreign currency to Latin American Countries and are seen as a key promoter of development throughout Latin America. The course examines competing theoretical approaches to these networks and effects.

**LLAS-351. Latinos And Immigration. 3 Hours.**

The course examines social and cultural dimensions of the arrival and incorporation of Latin American immigrants to the United States. It reviews migratory flows across time and regions of the country. Through a discussion-based class, students explore immigration through diverse readings from a wide variety of fields (i.e. history, political science, sociology). The readings provide a comparative range of immigrant experiences from different Latin American countries and different time periods. This comparison will provide a broad exposure of the topic from which students will select a specific topic pertinent to personal and professional interest for their individual assignments.

**LLAS-353. Latino Diversities. 3 Hours.**

Latinos, the largest ethnic minority of the country, are far from comprising a homogeneous or cohesive group. This course examines various ways in which members of this umbrella group differ in their respective histories in this country, their integration processes, and potential outlooks. The examination goes beyond the distinction related to migratory or ancestral ties to Latin American countries to ascertain contrasts within and among groups. Thus, beyond contrast among Mexicans and Salvadorans, for example, students will explore differences within each of these two groups. Topics such as social mobility, educational attainments, labor force participation, and political involvement are some of many options students will be able to select for their research projects.

**LLAS-361. Queer Latin American Narrative And Film. 3 Hours.**

This course explores the representation of sexual diversity and gender nonconformity in Latin American cultural production (narrative and film) from a perspective informed by feminist theory, LGBT studies and queer theory. Students critically engage these theoretical paradigms while developing research skills and proficiency in oral and written expression through class assignments, including a final research paper.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**LLAS-381. Independent Study In Latina/o And Latin American Studies. 1 Hour.**

An intensive investigation of an area of Latina/o and Latin American studies.

**LLAS-382. Independent Study In Latina/o And Latin American Studies. 2 Hours.**

An intensive investigation of an area of Latina/o and Latin American Studies.

**LLAS-383. Independent Study In Latina/o And Latin American Studies. 3 Hours.**

An intensive investigation of an area of Latina/o and Latin American Studies.

**LLAS-383S. Special Topics In Latina/o And Latin American Literary And Cultural Studies. 3 Hours.**

Varying topics in the field of Latinx and Latin American literary and cultural studies.

**LLAS-384. Drugs, Intoxication And Addiction In The Americas. 3 Hours.**

This course is an interdisciplinary approach to drugs, intoxication and addiction in the Americas. Students will challenge received knowledge on these topics by analyzing cultural products that portray drug trafficking, consumption and addiction and by engaging with critical theory that problematizes the role of drugs in our society and the social harms caused by prohibition. Special emphasis will be given to the ways that various systems of oppression, such as capitalism, racism, (neo)colonialism and patriarchy, intersect in the economy of drugs and how peripheral perspectives from the Global South can indicate more liberating perspectives on the relationship between humans and intoxicants.

**Prerequisite:** (100 - 399 or 100A - 399Z).

**LLAS-391. Internship In Latina/o & Latin American Studies. 3 Hours.**

This capstone course is an opportunity for students to culminate their Latino studies concentration with an internship tailored to enhance their understanding of social and political life of Latinos . The internship will be an intense course that will give students the opportunity to apply the knowledge and skills developed over the course of their undergraduate career to an actual work setting. Students should expect to work closely with site supervisor, others at internship site, seminar classmates, and Professor.

**Prerequisite:** LLAS-101 with a minimum grade of C and LLAS-201 with a minimum grade of C and LLAS-290 with a minimum grade of C.

**LLAS-392. Internship In Latin American Studies. 3 Hours.**

This capstone course is an opportunity for students to culminate their Latin American studies concentration with an internship tailored to enhance their understanding of social and political life of Latin Americans . The internship will be an intense course that will give students the opportunity to apply the knowledge and skills developed over the course of their undergraduate career to an actual work setting. Students should expect to work closely with site supervisor, others at internship site, seminar classmates, and Professor.

**Prerequisite:** LLAS-101 with a minimum grade of C and LLAS-201 with a minimum grade of C and LLAS-290 with a minimum grade of C.

**LLAS-393. Independent Studies In Latino & Latin American Studies. 3 Hours.**

Academic credit for special research project student conducts with individual guidance from a faculty member. Projects that could be completed in an established course are not appropriate for Independent Study. Student must submit project proposal to the faculty member in the semester prior to the one in which the project is to be conducted. Independent Study requires approval of instructor, coordinator of program, department chair and college dean.

**Prerequisite:** LLAS-101 with a minimum grade of C and LLAS-201 with a minimum grade of C and LLAS-290 with a minimum grade of C.

# Leadership (LEAD)

---

## Courses

### **LEAD-333. School Law For Teachers. 3 Hours.**

Provides K-12 teachers and prospective teachers with an understanding of the impact of the legal processes on schools. Attention is given to current issues and their implications for classroom teachers. Topics include: the legal system, sources and levels of law, contracts, tenure, records, collective bargaining, copyright, academic freedom, tort liability, student and teacher rights, discrimination and handicap issues.

### **LEAD-401. Instructional Leadership. 3 Hours.**

An analysis of the basic determinants of curriculum PreK-12. Emphasis on significant psychological theories and development, learning and motivation for curricula development including impact of sociological, cultural, and ethnic factor. Special education programs are included. Methods are outlined for evaluating the effectiveness of curricula and programs. Roles and responsibilities of an instructional leader are highlighted as well as a focus on the improvement of instruction for school improvement and student achievement for all.

**Prerequisite:** LEAD-421 with a minimum grade of B and LEAD-424 with a minimum grade of B.

### **LEAD-413. Human Relations And Leadership. 3 Hours.**

Study of basic concepts and principles of interpersonal relationships, communications, group interaction, and leadership and effectiveness. Emphasis on theory, application and skill development. Students will observe and assess interpersonal, group and organizational dynamics with attention to cultural factors and development of effective interaction and problem-solving skills.

### **LEAD-415. Historical And Philosophical Perspectives In Higher Education. 3 Hours.**

### **LEAD-421. Educational Leadership And Organizational Studies. 3 Hours.**

This course is designed to introduce the student to the field of educational leadership and management. The purpose of the course is to assist future educational leadership professionals to understand the philosophical, historical and organizational underpinnings of educational leadership. It provides students with a theoretical framework on which to develop and implement sound practical applications and decisions in the educational leadership tasks of communicating, planning, organizing, supervising, leading and evaluating strategies designed to build up highly effective learning communities. Further, it prepares the student to pursue alternative routes to excellence by understanding current education's challenges and by choosing the most successful leadership, management, motivational and decision-making strategies for a constantly changing educational environment.

### **LEAD-422. The Principalship. 3 Hours.**

The Principalship is an examination of PK-12 schools with an emphasis upon the transforming instructional leadership and school improvement roles of the principal to enhance student learning for all students. The course focus is on practical problem solving through working collaboratively and transformatively with staff through creating a vision of leadership and learning, developing a positive school culture, managing the school and interacting with the external school environment.

**Prerequisite:** LEAD-421 with a minimum grade of B and LEAD-424 with a minimum grade of B.

### **LEAD-424. Introduction To Evaluation Of Certified & Support Staff. 3 Hours.**

An analysis of the components of supervisory behavior in education and their influence upon the participants in the process of supervision; human and technical skills in personnel management; organizational factors affecting the performance of the supervisor; problematic areas within educational institutions and their influence upon supervisory behavior. Practical aspects of program and personnel evaluation; improvement of school learning climate and academic achievement will be emphasized as they relate to school reform and both multicultural and exceptional populations.

### **LEAD-425. Advanced Techniques In The Supervision And Evaluation Of Professional Staff. 3 Hours.**

The main focus of this course is to provide an in-depth analysis of advanced techniques in the supervision and evaluation of K-12 professional personnel. The course builds upon the concepts of LEAD-424 to develop effective and legally formative and summative evaluations. The evaluation functions of monitoring curriculum fidelity, directing personnel for improvement, making personnel decisions and working with incompetent personnel provide a framework for applying course content for k-12 settings.

### **LEAD-428A. Seminar In Educational Administration: Educational Decision-Making. 3 Hours.**

The purpose of LEAD-428A is to provide an in-depth analysis of problems and issues associated with program evaluation and school improvement for school leaders.

**Prerequisite:** LEAD-421 with a minimum grade of C and LEAD-424 with a minimum grade of C.

### **LEAD-428B. Seminar In Educational Administration: Administrative Theory And Practical Application. 3 Hours.**

The focus of this course is to explore the area of professional development as a vehicle for building capacity in your institution. As an educational leader you will be instrumental in designing or selecting opportunities for professional development as well as evaluating the success of those efforts.

**Prerequisite:** LEAD-424 with a minimum grade of C and LEAD-421 with a minimum grade of C.

### **LEAD-428F. Seminar In Educational Leadership In The Middle School. 3 Hours.**

The purpose of this course is to provide an in-depth study of the theory, research and best practices to support contemporary issues in middle level leadership. The course will focus on developing and leading middle level education that meets the diverse needs of emerging adolescents through mission development, program improvement, curriculum assessment, improvement of teaching and learning, staff development and more.

**Prerequisite:** LEAD-421 with a minimum grade of C and LEAD-424 with a minimum grade of C.

**LEAD-429. Research Design & Analysis Of Educational Data. 3 Hours.**

This course develops administrative skills in research design including program statements, hypothesis formulation, population/sample collection, data collection, statistical analysis and interpretation. Quantitative and qualitative research designs will be examined as they relate to effective schools, improving student achievement and administrative research.

**Prerequisite:** LEAD-421 with a minimum grade of B and LEAD-424 with a minimum grade of B.

**LEAD-430. Thesis Seminar. 3 Hours.**

This course provides guidance in the preparation and submission of a master of arts thesis under the supervision of faculty. It will extend the student's knowledge of standard techniques in the collection and analysis of data and facilitate the development of skills in advanced research design for possible future study at the doctoral level.

**LEAD-431. School & Community Relations. 3 Hours.**

The purpose of this course is to provide a forum for the transfer of theory to practice in the area of school-community relations. Additionally a teacher-as-researcher model and community-based research pedagogy are required in order to assist prospective school leaders in investigating their local school communities and increase their leadership skills. Effective school-community relationships begin at home facilitated by skillful leaders who have effective communication, research, collaborative and problem solving skills. These skills form bonds between schools and the local and global communities.

**LEAD-432. School Finance & Budgeting. 3 Hours.**

The goal of the course is to enable a student to demonstrate an understanding of school finance and related issues and to apply that knowledge in hypothetical school leadership situations. The content includes local, state and federal revenue sources, the legal and political settings that influence school finance, budgeting processes, revenue and expenditure management, research on the relationship of expenditures to achievement, the characteristics of a financially healthy school district, the operation of support services and measures to protect school funds and property.

**Prerequisite:** LEAD-421 with a minimum grade of B and LEAD-424 with a minimum grade of B.

**LEAD-433. School Law & Ethics. 3 Hours.**

This course studies the legal and ethical issues as related to practical problems of school administration. Constitutional provisions and court decisions are examined as they impact education. Issues of ethics pertaining to legal tenets will be integrated throughout the semester.

**Prerequisite:** LEAD-421 with a minimum grade of B and LEAD-424 with a minimum grade of B.

**LEAD-434. Internship I. 3 Hours.**

The major purpose of the internship is to comply with Illinois PA 96-903 and to provide the student with a supervised experience in the roles and responsibilities associated with the principalship in Pre-K through grade 12 during the course of a year. Each student will participate in administrative activities related to instructional leadership and school management. The three internships, LEAD-434, LEAD-435 and LEAD-437, are defined as all the experiences that result from applying the strategic, instructional, organizational, and contextual leadership guidelines in a workplace. This course is the first internship experience.

**Prerequisite:** LEAD-421 with a minimum grade of B and LEAD-424 with a minimum grade of B.

**LEAD-435. Internship II. 3 Hours.**

The purpose of this internship is to continue the instructional leadership and school management Pre-K through grade 12 tasks and experiences as described in the school intern's contract and developed in LEAD-434. This is the second internship experience.

**Prerequisite:** LEAD-421 with a minimum grade of B and LEAD-424 with a minimum grade of B.

**LEAD-436. Human Resources Administration In Education. 3 Hours.**

This course provides a general understanding of the personnel functions in educational settings. Decision-making and problem-solving will be emphasized. The functions of planning, recruitment, selection, placement, induction, staff development, motivation, compensation, performance, appraisal, negotiations and dismissal are included.

**Prerequisite:** LEAD-421 with a minimum grade of B and LEAD-424 with a minimum grade of B.

**LEAD-437. Internship III. 3 Hours.**

The purpose of this internship is to continue the instructional leadership and school management Pre-K through grade 12 tasks and experiences as described in the school intern's contract and developed in LEAD-434, and LEAD-435. This is the third internship experience.

**Prerequisite:** LEAD-421 with a minimum grade of B and LEAD-424 with a minimum grade of B.

**LEAD-438. Collective Negotiations. 3 Hours.**

The development and establishment of collective bargaining within the educational enterprise: the public and private sectors; in elementary-secondary education and colleges and universities; historical, sociological and legal perspectives; some consideration and evaluations of various issues (including tactics and process) concepts and current problems.

**LEAD-441. Independent Study In Educational Administration. 1 Hour.****LEAD-445. Practicum In School Business Management. 3 Hours.**

The purpose of the practicum is to provide the student with supervised experiences in the functions and duties of a school business official. The student is required to participate in activities related to finance, purchasing, planning and business management.

**LEAD-447. Introduction To School Business Management. 3 Hours.**

Provides a general understanding of the various task areas involved in the field of school business management including financial control, maintenance of buildings and grounds, maintenance of inventories, purchasing and bidding, transportation, insurance, personnel and office management, lunch programs and administrative relationships.

**LEAD-448. School Business Management II. 3 Hours.**

Incorporates principles of school fund accounting including a study of budgeting, personnel and payroll administration, auditing and reporting expenditures and receipts, assets and liability accounting, capital asset planning and management, cash management, bonded indebtedness, analysis of statements of position and extracurricular funds.

**LEAD-470. Administrative Use Of The Microcomputer. 3 Hours.**

An examination of the use of micro-computers in education administration and supervision. Topics include: Introduction to computers, overview of principles underlying computer-assisted instruction and computer-managed instruction, overview and use of available software, internal monitoring and program evaluation and elementary programming.

**LEAD-480. The Community College. 3 Hours.**

Provides the student with theoretical and practical knowledge about the philosophy, history, students, services, staff and organizational structure of the community college. National trends of the two year college will be analyzed.

**LEAD-481. Community College Administration. 3 Hours.**

Provides the student with practical knowledge about the day to day demands of administering the Community College. Stresses the importance of the Community College to the nation, state and local areas and how good administrators and administration can make a strong contribution to the proper and excellent performance of community colleges.

**LEAD-490. Adult Learner. 3 Hours.**

An examination of demographic changes fostering attention on adults as well as stages and phases of adult life and adult characteristics as a framework for effective planning, programming and marketing adult education.

**LEAD-491. Foundations In Higher Education. 3 Hours.**

This course provides students with knowledge of the historical development of higher education in the United States and its socio economic, political, legal and philosophical underpinnings. This course also provides students with an understanding of the structures and governance higher education in the U.S. Emphasis is given to current issues, opportunities and problems facing higher education and its stakeholders.

**LEAD-492. Resources, Institutional Planning And Finance In Higher Education. 3 Hours.**

This course prepares students to understand how institutions of higher education obtain and utilizes resources. It focuses on resource planning, policy development and implementation, and resource allocation. Topics include: institutional governance, research, marketing, budget development, financial allocation, environmental scans and oversight.

**LEAD-493. The Law Of Higher Education. 3 Hours.**

This course presents legal issues from the perspective of preventive law, policy development and implementation. Content includes the structure of the U.S. legal system, constitutional law, statute and case law. Topics include: affirmative action, employment law, intellectual property, due process, academic freedom, human-subjects research and collective negotiations.

**LEAD-495. Practicum In Higher Education. 3 Hours.**

This course consists of supervised experience in the functions and duties of leaders in higher education settings.

**LEAD-496A. Seminar In Higher Education: The Non-Traditional Student. 3 Hours.**

This course prepares the student to effectively meet the needs of the non-traditional students in higher education settings. Historical evolution and psychosocial factors impacting adult learners, development of student services, curriculum design issues and methods of building a sense of community among adult learners.

**LEAD-496B. Seminar In Higher Education: The Problematic Pipeline - Latinos And Latinas In Higher Education. 3 Hours.**

This course focuses on the contemporary Latino experience in the US educational system. It follows the growing numbers of Latinos with low high school completion rates and low levels of participation/completion in higher education. Emphasis is placed on the diversity of the experience by national origin, region of settlement, and gender as well as the histories of Latino immigration to the US compared to the receptions of other immigrants in history. Predominant theories of international immigration, relationships between the historical and contemporary context, immigration policy, and the adaptation of Latino immigrants in the United States are considered.

**LEAD-496C. Seminar In Higher Education: Critical Policy Issues In Latino Higher Education. 3 Hours.**

An analysis of the critical policy issues in Latino higher education as the US faces a growing increase in Latino college-enrollment (the largest minority), yet with low retention and a scarce presence in higher education discourse. Due to this increase, an exploration of ways to prepare postsecondary institutions for this and the role of more Latinos in the academy is explored. Including: the role of community colleges and four-year institutions in meeting this demand, understanding the historical processes and cultural differences of Latinos in the US, understanding various modes of thought, concerns and methodologies regarding Latino higher education.

**LEAD-496D. Seminar In Higher Education: Current Global Issues & The Latino Community. 3 Hours.**

This course provides an introduction to the cross-cultural, cross-national study of educational institutions and their relationship to society. This cross-national comparison of educational practices occurs in light of cultural, social organization, economic, political, and historical differences with a key goal being further development of understanding how perspectives on education in the United States have been shaped.

**LEAD-497. Student Personnel Work In Higher Education. 3 Hours.**

This course addresses issues relating to the philosophy, organization and administration of student affairs in post-secondary institutions, as well as, the development and implementation of student affairs policy and programs. It emphasizes the roles that student affairs professionals serve to promote intellectual, social, moral, ethical, spiritual, emotional, and physical development and wellbeing of students. Student affairs educators carry out their professional obligations by actively seeking collaborative relationships with each other across units, with students, faculty, and others on and off the campus in order to design, support, maintain, and/or change campus environments to optimally support student learning, wellness, and development.

# Leisure Studies (LEST)

---

## Courses

LEST-201. Principles And Practices Of Recreation And Leisure. 3 Hours.

# Linguistics (LING)

---

## Courses

### **LING-109. First Year Experience: Language And Diversity In Chicago. 3 Hours.**

Hands-on research, using Chicago's rich diversity of languages in contact as a laboratory, will enable you to understand the mechanisms, dynamics and manipulations of language and language use. Students will explore the following questions: What is language? What makes it universal? What makes it unique? How can it be used as a tool? How does it unite or divide? What is language contact and how does it affect you? What is the relationship between language and identity? What is language diversity and what brings it about? How does an awareness of language make you a stronger, more confident communicator?.

### **LING-110. Lexicology: The Study Of Words. 3 Hours.**

Introduction to the study of words, with particular attention to English from an historical, structural and sociolinguistic perspective. This course meets one of the Humanities requirements of the General Education Program.

### **LING-120. Language And Human Behavior. 3 Hours.**

Introduction to basic principles of psycholinguistics and sociolinguistics. Subjects covered may include dialect variation, language and the brain, child language acquisition, language and gender, conversational analysis, non-verbal behavioral, pidgins and creoles, and sign language. The course is designed for students having no background in linguistics. This course meets one of the Humanities requirements of the General Education Program as well as the Improving Human Relations requirement.

### **LING-201. Introduction To General Linguistics. 3 Hours.**

Nature and structure of languages and American English in particular. An overview of the description of language systems in terms of phonology (sound systems), morphology (word formation) and syntax (sentence organization). May also include an introduction to the areas of semantics (word meaning), pragmatics (the rules of the use of language in social contexts and conversation), and dialectology (cultural and geographical varieties of language use), and a look at the history of English and its relationship to other languages.

### **LING-300. English Grammar In The Classroom. 3 Hours.**

This course introduces the basics of sentence structure in English with the purpose of enabling future teachers to teach English grammar successfully in a multicultural classroom. To this end, students will learn forms and functions of spoken and written English and learn grammatical terminology. They will also investigate issues related to standard and non-standard varieties of English and to the relationship between grammar and language instruction.

**Prerequisite:** LING-120 with a minimum grade of C or LING-201 with a minimum grade of C.

### **LING-301. History Of The English Language. 3 Hours.**

Historical descriptive linguistic survey of English from its origins to modern English.

**Prerequisite:** LING-201 with a minimum grade of C.

### **LING-302. Theory Of Grammar. 3 Hours.**

### **LING-303. Grammars Of English. 3 Hours.**

A descriptive and historical analysis of English grammar.

**Prerequisite:** LING-201 with a minimum grade of C.

### **LING-304. Introduction To Phonetics & Phonology. 3 Hours.**

This class provides a foundation in the acoustic and articulatory properties of the sounds used in human languages and introduces theories about the systematic variation of sounds in ordinary speech. Through reading, problem solving and class discussion, students become familiar with basic phonetics, the analysis of sounds into features, both rule-based and constraint-based theories of sound variation, and the structure of sound at the segment, syllable and phrase levels. Prereq: or consent of instructor.

**Prerequisite:** LING-201 with a minimum grade of C.

### **LING-310. Historical/Comparative Linguistics. 3 Hours.**

**Prerequisite:** LING-201 with a minimum grade of C.

### **LING-316. Languages And Cultures: Middle East And North Africa. 3 Hours.**

This course introduces students to the languages, cultures, values, preconceptions, and misconceptions associated with the region known as the Middle East and North Africa (MENA). A variety of sources, including academic texts, articles, fiction, poetry, film, and the visual arts, may be presented to illustrate the complex of languages and cultures of the MENA region.

**Prerequisite:** LING-201 with a minimum grade of C or LING-322 with a minimum grade of C or ANTH-212 with a minimum grade of C or HIST-111F with a minimum grade of C or HIST-391 with a minimum grade of C.

### **LING-320G. Language And Culture: Aboriginal Australia. 3 Hours.**

This course focuses on the languages and cultures of Aboriginal Australia. It will examine a number of different linguistic features (phonological, morphological, and syntactic) found in a variety of Australian languages. In Addition to structural features, the course will examine Aboriginal languages and their interaction within the social and cultural setting of traditional life as well as issues involving language and cultural contact with European powers.

**Prerequisite:** LING-201 with a minimum grade of C.

**LING-320N. Language And Culture: Native American. 3 Hours.**

This course focuses on the languages and cultures of Native America. It will examine a number of different linguistic features (phonological, morphological, and syntactic) found in a variety of North American languages. In addition to structural features, the course will examine languages and their interaction with social and cultural domains as well as issues of language contact.

**Prerequisite:** LING-201 with a minimum grade of C.

**LING-322. Introduction To Sociolinguistics. 3 Hours.**

A look at language variation based on social contexts. Includes ethnic, regional and social dialects, language and gender, and pidgin and creole language systems.

**LING-323. First & Second Language Acquisition. 3 Hours.**

Survey of recent theories and research on children's acquisition of phonological, morphological, syntactic, semantic, and pragmatic systems of their first language. Survey of recent theories and research on second language acquisition.

**Prerequisite:** LING-201 with a minimum grade of C.

**LING-325. Language And Disability: Comparative Language Development. 3 Hours.**

This course introduces students to normative and non-normative modes of language development and use. We look at language through a critical disability lens to show how language differences create marginalization. We start by studying language development in the first years of life to understand how our environment influences our brain and language development. We then explore individual differences in language development, the pathology of language-related disorders, as well as non-normative ways of "doing" language to identify and challenge ableist beliefs about language. Topics covered include language acquisition, language modalities, sign language, language disorders, bilingualism, racialized language, language ideologies.

**LING-326. Narratives Of The Jewish Experience. 3 Hours.**

This course focuses on stories told in contemporary Jewish communities as illustrative of the Jewish experience. Narrative is both representative and constructive of life experience, memory, and identity. We will listen to and analyze stories collected by others and available to wide audiences, and to stories we collect through interactions and interviews. Analyses will be conducted within a narratological framework that blends discursive and psycho-analytic theory and practice. Students will gather oral narratives from family members, community members, political and religious leaders, and educators with the goal of analyzing how stories both reveal and construct personal and social identities.

**LING-330. Language, Gender, And Sexuality. 3 Hours.**

This course introduces students to gender and sexual identity as they connect to language, meaning, and interaction. We first consider how language mediates, and is mediated by, social constructions of sex, gender, and sexuality. We then explore how language is used to perform gender and sexual identity, and how gender and sexual identity are perceived through linguistic expression. Students will gain an understanding of how language creates, maintains, challenges, and reconfigures social hierarchies and structures. Areas investigated include language variation and gender stereotypes; expression and perception of sexual identity through language; power and women's status; male vs. female communicative styles.

**LING-335. Language And Discrimination. 3 Hours.**

This course examines the ways our beliefs about language lead to social discrimination in various public and private contexts. Language use is a powerful tool of social identity construction, and often an unrecognized way in which speakers are categorized into social groupings. We will explore issues concerning language-based discrimination in public institutions and private contexts, how children are taught to discriminate, how language discrimination affects us as adults, regional and ethnically linked dialects, ideologies about language and language variation, hate speech and political correctness, linguistic diversity and language policy, and language endangerment.

**LING-337. Ethnography Of Communication. 3 Hours.**

This course adopts ethnographic methodology to explore the acquisition and performance of communicative competence in a variety of professional settings. The concept of communicative competence has its origins in the field of sociolinguistics - the branch of linguistics that studies the relationship between language and culture or, as sometimes defined, language in society. Key to one segment of sociolinguistic research and practice is the field of ethnography of communication, initiated by anthropological linguist Dell Hymes and John Gumperz. Ethnography of communication focuses on identifying and analyzing "the situations and uses, the patterns and functions of speaking as an activity in its own right" (Hymes 1974). In so doing, the theory and application of this field focuses on identifying the norms of appropriate language use in interaction in given social domains.

**Prerequisite:** LING-322 with a minimum grade of B.

**LING-338. Introduction To Syntactic Theory. 3 Hours.**

Following the ground work established over the past 15 years, this course will introduce students to modern syntactic theory as practiced within the Minimalist Program. An emphasis will be placed on the methodological and theoretical achievements of this area of research as developed in the past decade. Students will further examine the notions of functional and lexical projections, empty categories, feature checking operations, various kinds of movement and merge operations, and locality constraints.

**Prerequisite:** LING-201 with a minimum grade of B and LING-303 with a minimum grade of B.

**LING-344. Linguistics And Reading. 3 Hours.**

Relationship between language and structure and the reading process with emphasis on the practical problems such as the variety of dialectically different sound-symbol-correspondences in English, the perception of speech sounds, the reader's interpretation of syntactic and semantic structures, various alphabetic systems for teaching beginning reading, and an analysis of linguistic texts for teaching reading. Designed to be useful to the in-service classroom teacher as well as to undergraduates.

**LING-347. The Origin Of Language. 3 Hours.**

Organized as a seminar, this course discusses recent theories concerned with how, when and why language appeared in the human lineage. Students are introduced to scholarship from a range of fields including linguistics, cognitive science, philosophy, anthropology, primatology and evolutionary biology to address questions including: What is language? What cognitive and social preconditions underlie it? What are the similarities and differences between human language and other animals' communication systems? What language-specific biological wiring may exist at the core of the human language faculty? How was language adaptive for those humans? Did language emerge relatively recently and suddenly, or gradually over millions of years? Permission of instructor required.

**Prerequisite:** LING-201 with a minimum grade of C or BIO-201 with a minimum grade of C or ANTH-212 with a minimum grade of C or ANTH-215 with a minimum grade of C.

**LING-352. Introduction To Psycholinguistics. 3 Hours.**

This course introduces and explores the links between the physiological, cognitive, structural and sociolinguistic aspects of language. Students receive a comprehensive overview of the mechanisms involved in the production and comprehension of language and the development of language, memory and learning, from childhood and throughout adulthood. Various models of language production and comprehension are considered as we look at the interface between current linguistic principles and the brain.

**Prerequisite:** LING 201 with a minimum grade of D.

**LING-361. Introduction To World Englishes. 3 Hours.**

Examination of issues involved in the development, spread, and maintenance of varieties of English throughout the world, now commonly referred to as Global or World Englishes. This course emphasizes the historical, political, and ideological issues of globalization, nativization, post-colonialism, standardization, and pedagogy of native and non-native varieties of English.

**Prerequisite:** LING-201 with a minimum grade of C.

**LING-362. Linguistics And Literature. 3 Hours.**

This course presents an introduction to linguistic and discourse-analytic approaches to style in literary works. The study of literary language, most typically the domain of courses in literature, is also undertaken by linguists for the obvious reason that literature, as language, is composed of the structures and used for the functions that are the focus of formal and applied linguistic analysis. Linguistics and Literature focuses on the stylistic use of phonological, morphological, syntactic and semantic features; paralinguistic features of intonation, pitch, rhythm, stress, loudness, and speed; and speech acts and pragmatic conventions of indirectness; entailment, presupposition, implication, and persuasion. By permission of instructor.

**Prerequisite:** LING-201 with a minimum grade of C.

**LING-363. Graphic Narratives: Linguistic And Visual Semiotic Approaches. 3 Hours.**

This course situates the graphic narrative as a complex, cultural form that deserves academic attention. Together, we will analyze how images and words interact in graphic narratives to create new identity formations, new cultural meanings, new knowledge webs, new histories, and new narratives.

**Prerequisite:** LING-120 with a minimum grade of C or LING-201 with a minimum grade of C.

**LING-366. Language And The Beatles. 3 Hours.**

This course introduces the music of the Beatles by focusing on the language they used, particularly in their song lyrics. Students will learn how the tools and theories of sociolinguistics, phonetics, phonology, and music can be applied in order to further appreciate and analyze the words of this culturally significant band. Music recordings, lyrics books, and academic writings in both linguistics and related fields will be used by the students to form their own conclusions and present them.

**Prerequisite:** LING-201 with a minimum grade of C.

**LING-380. Introduction To Corpus Linguistics. 3 Hours.**

This course aims to introduce students to theories and methods of corpus-based linguistic research. We will work with available tools and machine-readable corpora (large collections of texts) as a basis for linguistic description and language learning. Topics covered include language description and comparison, language change and current trends, genre and discourse analysis, first and second language acquisition, corpora in classroom instruction, etc. Students will learn how to analyze, visualize, and present data extracted from a corpus, as well as formulate and test hypotheses against evidence provided by a corpus. A basic understanding of language and grammatical categories is required.

**LING-391F. Advanced Grammatical Analysis: Mandan. 3 Hours.**

This is a course in advanced linguistic analysis. It focuses on the extremely endangered Siouan language, Mandan. Students will learn how to do linguistic research through a critical analysis of existent Mandan texts and explore various aspects of Mandan grammar. Topics may include any aspect of morphology, syntax, or narrative discourse structure.

**Prerequisite:** LING-201 with a minimum grade of B and LING-303 with a minimum grade of B and LING-322 with a minimum grade of B.

**LING-391N. Advanced Grammatical Analysis: Biloxi. 3 Hours.**

This is a course in advanced linguistic analysis. It focuses on the extinct Siouan language, Biloxi. Students will learn how to do linguistic research through a critical analysis of existent Biloxi texts and explore various aspects of Biloxi grammar. Topics may include any aspect of morphology, syntax, or narrative discourse structure.

**Prerequisite:** LING-201 with a minimum grade of B and LING-303 with a minimum grade of B and LING-322 with a minimum grade of B.

**LING-391O. Advanced Grammatical Analysis: Crow. 3 Hours.**

This is a course in advanced linguistic analysis. It focuses on the endangered Siouan language, Crow. Students will learn how to do linguistic research through a critical analysis of existent Crow texts and explore various aspects of Crow grammar. Topics may include any aspect of morphology, syntax, or narrative discourse structure.

**Prerequisite:** LING-201 with a minimum grade of B and LING-303 with a minimum grade of B and LING-322 with a minimum grade of B.

**LING-400. English Pedagogical Grammar. 3 Hours.**

This course introduces the basics of sentence structure in English with the purpose of enabling future teachers to teach English grammar successfully in multicultural classrooms. To this end, students will learn the forms and functions of spoken and written English and learn grammatical terminology. They will also investigate issues related to different varieties and registers of spoken and written English and to the relationship between grammar and language arts instruction.

**LING-401. Fundamentals Of Modern Linguistics. 3 Hours.**

Overview of language as a rule-governed system, with particular emphasis on the following subfields of linguistics: phonetics (the sounds of a language), phonology (the functioning and patterning of sounds), morphology (the analysis of word structure), syntax (the analysis of sentence structure), and semantics (the analysis of meaning). This course will also give a historical overview of the field of linguistics. Other topics may include historical linguistics, language typology, pragmatics, sociolinguistics, the brain and language, and computational linguistics. By permission of instructor.

**LING-405. Typology. 3 Hours.**

Typology studies the similarities and differences among human languages. We observe which categories (such as noun, verb, past) and which structures (such as questions, passive, causative) are universal, common or rare among the world's languages and how they are crosslinguistically similar and different. We then ask why languages seem to prefer some categories and constructions over others and what that might say about the human capacity for language. Through reading, problem solving and fieldwork, students learn about these language structures and discuss proposed explanations for why languages are the way they are.

**LING-416. Languages & Cultures Of The Middle East And North Africa. 3 Hours.**

This course provides an overview of languages and cultures associated with the region known as the Middle East and North Africa. This course will examine the structure of one or more language(s) spoken in this region, focusing on the phonology, morphology, and syntax of the language(s). The focus of the class may be on the culture(s) of one specific country or territory or from a larger sub-area of the Middle East. No prior knowledge of a Semitic, Turkic, or Indo-European language (other than English) is necessary.

**Prerequisite:** LING-401 with a minimum grade of C.

**LING-422. Phonetics & Phonology. 3 Hours.**

This class provides a foundation in the acoustic and articulatory properties of the sounds used in human languages and introduces theories about the systematic variation of sounds in ordinary speech. Through reading, problem solving and class discussion, students become familiar with basic phonetics, the analysis of sounds into features, both rule-based and constraint-based theories of sound variation, and the structure of sound at the segment, syllable and phrase levels. By consent of instructor.

**Prerequisite:** LING-401 with a minimum grade of C.

**LING-423. Advanced Phonetics And Phonology. 3 Hours.**

A sequel to LING-422 Phonetics and Phonology, this course advances students' understanding of principles and their ability to critically analyze problems concerning the acoustic and articulatory nature of sounds in human language. Topics include articulatory and acoustic phonetics, rule-based and constraint-based theories, segments and phonological features, syllables and moras, stress, tone and intonation and prosody. This course requires research in sound documentation using current recording technology. Students must evaluate various phonological theories and present findings orally and in written formats, to present data clearly and develop linguistics-oriented argumentation style, readying them for academic participation in scholarly journals, at conferences.

**Prerequisite:** LING-422 with a minimum grade of B.

**LING-427. Morphology. 3 Hours.**

The goal of morphology is to understand word structure and speakers' implicit knowledge of the components of words and their properties. By looking at data from many languages, students will become familiar with morphological processes such as derivation, inflection, compounding, incorporation and cliticization and with various proposals to account for word structure in languages. By consent of instructor.

**Prerequisite:** LING-401 with a minimum grade of C.

**LING-430C. Structure Of Language: Lakhota. 3 Hours.**

Lakhota is a member of the Mississippi Valley branch of the Siouan Language family. The language is an agglutinating one with many synthetic characteristics. This course will examine the structure of the Lakhota language, focusing on the phonology, morphology, and syntax of the language. This will be accomplished by reading and comparing a number of grammars and sketches as well as examining original Lakhota texts.

**Prerequisite:** LING-401 with a minimum grade of C and LING-422 with a minimum grade of C and LING-437 with a minimum grade of C.

**LING-433. Lexicography. 3 Hours.**

Review of the problems and trends of word study in the past, especially the notions surrounding the concepts of authority and usage of language: scrutiny of the various types and sources of English vocabulary; recent linguistic insights considered in the light of their value for various kinds of handbooks.

**Prerequisite:** LING-401 with a minimum grade of C.

**LING-435. Semantics. 3 Hours.**

What is meaning? How does word meaning contribute to sentence meaning? How are sentences semantically related to each other? How do words and sentences connect to the world and our thoughts about it? This course introduces the basic principles of semantics and how they are applied to a scientific analysis of meaning in language. Topics covered include the components of word meaning, the composition of words into sentence meaning, logic and truth conditions, lexical semantics, formal semantics and the pragmatic effects of context on meaning.

**Prerequisite:** LING-401 with a minimum grade of C and LING-437 with a minimum grade of C.

**LING-436. Advanced Semantics And Pragmatics. 3 Hours.**

Building on the introductory LING-435 Semantics course, this course pursues more substantive analyses of fundamental issues in semantics and pragmatics. Through readings of primary sources and analysis of original data, students deepen their understanding of concepts and problems in the field. Among the semantics issues examined are lexical semantics, reference, definiteness and specificity, quantification, and various formal methods for relating expressions to meaning and relating semantics to syntax. The semantic-syntax-pragmatics interface is also explored, with a more detailed study of Gricean implicature as well as recent analyses in neo-Gricean theory and relevance theory.

**Prerequisite:** LING-435 with a minimum grade of B.

**LING-437. Introduction To Generative Grammar. 3 Hours.**

This course introduces the study of sentence structure in natural language, with a goal of characterizing the unconscious knowledge that speakers have for recognizing, producing and interpreting any sentence in their language. Working within a Chomskyan generative approach, students analyze data in English and other languages to become familiar with issues such as constituent structure, argument structure and theta roles, case, movement and empty categories. Emphasis is placed on theory building and generalizing particular solutions to what might be universals about sentence grammar.

**Prerequisite:** LING-401 with a minimum grade of C.

**LING-438. Syntax. 3 Hours.**

This advanced course builds on Ling 437, reviewing basic principles of syntax and investigating them in greater detail. Students are introduced to recent literature on syntax, mostly within a generative perspective, but the strategy of the class is also to have students explore issues, analyze data and come up with their own proposals to various problems under Minimalist assumptions. The class also emphasizes theory building and justifying many assumptions that underlie syntactic theory. Topics include clause structure, noun phrase structure and the interface between syntax and semantics.

**Prerequisite:** LING-401 with a minimum grade of C and LING-437 with a minimum grade of C.

**LING-439. Research Methods And Statistics For Linguists. 3 Hours.**

LING-439 introduces statistics and research design for linguists, focusing on statistical methods most often used in the fields of language variation and change, meaning and grammaticality judgments, language production and perception, acquisition, etc. Topics include probability, statistical inference, sampling, and common tests such as t-test, chi-square, sign, analysis of variance, linear correlation and regression, each directed toward linguistics research.

**Prerequisite:** LING-401 with a minimum grade of C and LING-446 with a minimum grade of C and (LING-405 with a minimum grade of C or LING-437 with a minimum grade of C) and (LING-435 with a minimum grade of C or LING-422 with a minimum grade of C).

**LING-440. Linguistics And Literacy. 3 Hours.**

Differences between spoken and written languages; the functions of writing in a literate society; writing systems with particular reference to English orthography; current psycholinguistic research on the acquisition of written language skill; pedagogical implications of linguistic views on literacy.

**Prerequisite:** LING-401 with a minimum grade of C.

**LING-446. Sociolinguistics. 3 Hours.**

Sociolinguistics examines ways in which language practices of individuals and communities vary in relation to social, cultural, and individual factors. This course explores topics such as language and identity, language contact, social and regional dialectology, interactional discourse, ethnography of communication, and language and gender.

**LING-447. The Origin Of Language. 3 Hours.**

The course introduces theorizing about how, when and why language appeared in humans, by considering evidence from linguistics, anthropology, cognitive science, philosophy, primatology and evolutionary biology. The course asks four broad questions: Did language appear gradually or suddenly? Did it appear recently or millions of years ago? How was language adaptive for the individuals who had it? What conditions were necessary for language to appear? Caution: this course is NOT about historical linguistics, the study of language change through time. This course looks at how language evolved in the species.

**Prerequisite:** LING-201 with a minimum grade of C or LING-401 with a minimum grade of C or BIO-201 with a minimum grade of C or ANTH-212 with a minimum grade of C or ANTH-215 with a minimum grade of C.

**LING-448. Discourse Analysis. 3 Hours.**

Discourse analysis examines the structuring and use of language to promote social action - i.e. language produced in recognition of and response to its role in society and effects on others. Theory and research focus on gathering and analyzing naturally-occurring texts to gain understanding of the patterns of social action they respond to and initiate. Research explores spoken, written, and visual texts and sociolinguistic aspects of the relationship between languages, cultures, and individuals. Students will come to understand that identity - personal, social, national - as well as ideology - are constructed by and, in turn, serve to construct interactional discourse.

**Prerequisite:** LING-401 with a minimum grade of C and LING-437 with a minimum grade of C and LING-446 with a minimum grade of C.

**LING-449. Anthropological Linguistics. 3 Hours.**

Combining the theory and methodology of the ethnographic analysis of culture with the theory and methodology of the sociolinguistic analysis of contextualized talk and text, this course examines the social practice of language in use within and across cultures. Through collection and analysis of naturally-occurring culturally-grounded data, students will identify and come to appreciate how language structures and reveals the systems that both influence and expose cultural knowledge. Students can apply their awareness to culturally-bounded events in settings such as education, corporations, families, and the world at large.

**Prerequisite:** LING-401 with a minimum grade of C and LING-437 with a minimum grade of C and LING-446 with a minimum grade of C.

**LING-450. First Language Acquisition. 3 Hours.**

In this course we examine the stages through which a child passes towards native language mastery of the phonological, morphological, syntactic, and semantic systems. Various theories which attempt to account for the child's ability to acquire language will be considered in light of the context of monolingual and bilingual language acquisition.

**Prerequisite:** LING-401 with a minimum grade of C.

**LING-452. Psycholinguistics. 3 Hours.**

Theoretical studies in the area of linguistics and psychology; possible implications of the form of grammar for the language learning process; survey of relevant research.

**Prerequisite:** LING-401 with a minimum grade of C.

**LING-453. Language Contact And Multilingualism. 3 Hours.**

This course examines language contact as a sociolinguistic phenomenon and articulates its impact on individuals and society. It focuses on issues such as language choice, language maintenance and language death in multilingual communities, national and individual identity, the structure, function and impact of codeswitching, and controversial issues such as bilingual language acquisition and the relationship between bilingualism and cognitive, linguistic and social development.

**Prerequisite:** LING-401 with a minimum grade of C and LING-437 with a minimum grade of C and LING-446 with a minimum grade of C.

**LING-454. Language and Identity. 3 Hours.**

This course explores the role of language in the construction of identities and the significance of identity construction as a negotiated social action within language variation. The concept and construction of identity is investigated at the individual, community, and global levels. The focus of the course is on how these multi-leveled identities are developed and realized through the use of language. The course explores a wide range of theoretical and methodological perspectives on identity in mono- as well as multi-lingual contexts.

**Prerequisite:** LING-401 with a minimum grade of C or LING-446 with a minimum grade of C.

**LING-461. Issues In Multiple Language Acquisition. 3 Hours.**

This course examines how speakers of one dialect/language learn other dialects/languages. Going beyond the traditional research on second language acquisition, this course emphasizes the theoretical issues of the acquisition of phonology, morphology, syntax, semantics, and pragmatics in a third language. Also emphasized are the differences and similarities in learning a second dialect, which may be more difficult than second language acquisition for learners.

**Prerequisite:** LING-401 with a minimum grade of C and LING-422 with a minimum grade of C and LING-437 with a minimum grade of C.

**LING-462. Lexical Acquisition. 3 Hours.**

This course examines how language learners acquire/learn vocabulary. Going beyond the traditional research on second language acquisition, this course focuses solely on the theoretical issues of lexical acquisition. Though the primary emphasis is on the acquisition of vocabulary in a second or third language, first language vocabulary acquisition will also be discussed.

**Prerequisite:** LING-401 with a minimum grade of C and (LING-427 with a minimum grade of C or LING-435 with a minimum grade of C).

**LING-471. World Englishes. 3 Hours.**

Examination of issues involved in the development and maintenance of varieties of English throughout the world, now commonly referred to as World Englishes. Specifically, this course emphasizes the historical, political, and ideological issues of post-colonialism, globalization, nativization, standardization, hegemony, canon, and pedagogy of native and non-native varieties of English.

**Prerequisite:** LING-401 with a minimum grade of C and LING-446 with a minimum grade of C.

**LING-472. American English - History And Growth. 3 Hours.**

Phonology, morphology, syntax, lexicon of English in the United States as well as its cultural history with reference to the mother country and the New World, both in colonial and post-revolutionary times.

**Prerequisite:** LING-401 with a minimum grade of C.

**LING-473. The English Language - History And Development. 3 Hours.**

Survey of English phonology, morphology, syntax, lexicon and cultural history through Old English, Middle English, early Modern English and recent Modern English, using literary documents for the older periods, and literary as well as spoken records for the most recent times.

**Prerequisite:** LING-401 with a minimum grade of C.

**LING-475. Historical & Comparative Linguistics. 3 Hours.**

This course introduces students to the systematic comparison of languages to understand how languages change through time, and how they are thought to be related to one another and to their common ancestors. Students bring together the standard aspects of linguistics – the lexicon, morphology, phonology, syntax, and semantics – and see how these components of grammar changes over time. The course covers the history of the comparative method from the birth of modern linguistics and integrates modern theories about dialectology and sociolinguistics, and how language variation is related to language change. By consent of instructor.

**Prerequisite:** LING-401 with a minimum grade of C and LING-405 with a minimum grade of C and (LING-422 with a minimum grade of C or LING-427 with a minimum grade of C or LING-437 with a minimum grade of C).

**LING-480. Corpus Linguistics. 3 Hours.**

This course aims to introduce students to theories and methods of corpus-based linguistic research. We will work with available tools and machine-readable corpora (large collections of texts) as a basis for linguistic description and language learning. Topics covered include language description and comparison, language change and current trends, genre and discourse analysis, first and second language acquisition, corpora in classroom instruction, etc. Students will learn how to analyze, visualize, and present data extracted from a corpus, as well as formulate and test hypotheses against evidence provided by a corpus. A basic understanding of language and grammatical categories is required.

**LING-481. Language & Tourism. 3 Hours.**

Advanced work and individual projects in language and tourism, a growing area of applied linguistics. Topics will include the sociolinguistics of tourism, social/identity construction of not only tourists but also of touristic locations, language use in tourism, discursive, visual semiotic, and ethnomethodological analyses of tourism materials.

**Prerequisite:** LING-446 with a minimum grade of C and LING-401 with a minimum grade of C.

**LING-482. Stylistics. 3 Hours.**

Adopting theory and techniques of linguistic and discourse analysis, this course in stylistics focuses on the linguistic analysis of literary texts. Both in terms of their structure and their communicative functions, literary texts participate in the construction and presentation of nations, regional and social communities, and individuals. The language of literature -- including word choice, sentence structure, and paralinguistic cues -- functions to position characters and places by forging their identities. At the same, literary texts can be understood, in a social constructionist framework, to construct the identities of those who partake in their consumption. By consent of instructor.

**Prerequisite:** LING-401 with a minimum grade of C and LING-448 with a minimum grade of C.

**LING-483. Field Methods In Linguistics. 3 Hours.**

This course will introduce students to the goals and methods of linguistics research, including both qualitative and quantitative methodologies. Topics include the scientific method, data collection and transcription, corpus research, psycholinguistic research, field methods, argumentation, structuring of abstracts and research papers, APA vs. MLA style, conferences, ethical issues, professionalization, and interpretation of research articles.

**LING-484. Language Endangerment And Documentation. 3 Hours.**

This course focuses on language endangerment and documentation. It will look at issues of language shift and discuss how languages become endangered and lost. It will also discuss how languages are best documented and discuss how the field's Best Practices Guide has evolved.

**Prerequisite:** LING-401 with a minimum grade of C and LING-405 with a minimum grade of C and LING-422 with a minimum grade of C and LING-437 with a minimum grade of C.

**LING-488. Languages & Cultures Of Iran. 3 Hours.**

The language and culture of modern Iran are explored through academic readings, essays, autobiographies, and films as we delve into the question, Who are the Iranians? The languages and identities of this multilingual nation are explored through language variation, gender, age, class, and other social variables. Special attention is given to social and linguistic contact phenomena as we trace the history and evolution of the languages spoken in Iran and the communities who speak them. The structure and use of modern Farsi, along with its historical and social development will also be investigated.

**Prerequisite:** LING-401 with a minimum grade of C and LING-405 with a minimum grade of C and LING-437 with a minimum grade of C and LING-446 with a minimum grade of C.

**LING-489. Linguistics In The Professions. 3 Hours.**

Linguistics, defined as the scientific study of language, has both formal aims in describing the structural components of language and functional aims in applying understanding of these formal systems to addressing matters pertinent to interactional discourse, the presentation of self, and the co-construction of social and personal identity. Linguistics offers its graduates many varied opportunities for careers across numerous disciplines. This course offers students new to the field an introduction to many of those disciplines; as they continue their studies in our program, they can do so with the necessary schema for how they can apply what they learn.

**LING-491E. Translation And Linguistic Analysis: Aleut. 3 Hours.**

This course focuses on the translation of texts for a linguistic analysis of various aspects of the structure of the language in question. Students learn how to do a linguistic analysis of the target language focusing on some aspect of linguistics. The end project is a 15-20 page paper that can be presented at a professional conference. Students can focus on any area of the field of linguistics (these areas can include phonology, morphology, syntax, or discourse analysis).

**Prerequisite:** LING-401 with a minimum grade of C and LING-405 with a minimum grade of C and LING-422 with a minimum grade of C and LING-437 with a minimum grade of C.

**LING-491F. Translation: Mandan. 3 Hours.**

This course is an exercise in linguistic analysis. The Mandan language is an extremely endangered language comprising its own branch of Siouan. Employing a critical linguistic analysis of the existent texts, students will analyze some aspect of Mandan grammar. Topics can include any aspect of phonology, morphology, syntax, or discourse structure.

**Prerequisite:** LING-401 with a minimum grade of C and LING-405 with a minimum grade of C and LING-422 with a minimum grade of C and LING-437 with a minimum grade of C.

**LING-491N. Translation: Biloxi. 3 Hours.**

This course is an exercise in linguistic analysis. The Biloxi language is an extinct member of the Ohio Valley branch of Siouan. Employing a critical linguistic analysis of the existent texts, students will analyze some aspect of Biloxi grammar. Topics can include any aspect of phonology, morphology, syntax, or discourse structure.

**Prerequisite:** LING-401 with a minimum grade of C and LING-405 with a minimum grade of C and LING-422 with a minimum grade of C and LING-437 with a minimum grade of C.

**LING-5901. Thesis Hours. 1 Hour.**

Guidance of students conducting research and writing a thesis to fulfill the requirements for the Master of Arts degree in Linguistics. This course requires approval of the instructor, Department Chair and the appropriate College Dean(s). Students will have completed the required courses with a B average or higher, and have obtained the approval of their graduate advisor before registering for the thesis hours.

**LING-5902. Thesis Hours. 2 Hours.**

See course description for LING-5901.

**LING-5903. Thesis Hours. 3 Hours.**

See course description for LING-5901.

# Literacy Education (LTCY)

---

## Courses

### **LTCY-301. Foundations Of Literacy Instruction In Secondary Grades. 3 Hours.**

This course will introduce preservice teachers to literacy teaching and learning across disciplines in middle and high school settings. This class explores theory, practices, and issues in teaching disciplinary literacy, including complex disciplinary texts, reading comprehension processes and strategies, academic vocabulary instruction, and the use of both print and digital materials to support learning across disciplines. Prerequisite: Junior in standing.

### **LTCY-311. Foundations Of Literacy Instruction. 3 Hours.**

This course addresses foundations of PK-12 literacy teaching and learning including relevant theory, core components of the literacy curriculum, evidence-based practices, assessments, and materials to meet the needs of all learners across grades including within subject areas. Issues of diversity, equity, inclusion, motivation and engagement, as they relate to literacy learning, are emphasized.

### **LTCY-402. Literacy Instruction Across Grades. 3 Hours.**

This course provides an overview of literacy teaching and learning in PK-12 classrooms. Topics include curriculum development, the literacy environment, assessment, and meeting the needs of all learners including culturally and linguistically diverse students and students with reading difficulties.

### **LTCY-501. Literacy Instruction In Primary And Elementary Grades. 3 Hours.**

This course addresses emergent and early literacy development, teaching, and learning. Candidates will explore relevant theory, core components of the literacy curriculum, instructional methods, assessments, and materials to meet the needs of young learners through the elementary years. Additional topics include using a variety of print and digital texts to motivate and engage learners and building a literacy-rich learning environment for all students.

### **LTCY-502. Disciplinary Literacy Instruction In Secondary Grades. 3 Hours.**

This course addresses the components of academic literacy development with an emphasis on instructional approaches to support and motivate adolescent learners. Candidates will explore literacy instructional practices to support student learning in various subject areas. Topics include comprehension of complex disciplinary text, academic vocabulary, and multimodal text types. Meeting the needs of all adolescent learners, including culturally and linguistically diverse students, is emphasized.

### **LTCY-503. Theory And Research In Literacy Education. 3 Hours.**

Candidates develop a knowledge of major theoretical, conceptual, historical, and evidence-based understandings of literacy processes and development. Candidates are introduced to basic research design and methodologies, and will engage in the critical reading of scholarship in the field.

**Prerequisite:** LTCY-501 with a minimum grade of B and LTCY-502 with a minimum grade of B.

### **LTCY-504. Children's And Young Adult Literature For Literacy Instruction. 3 Hours.**

This course focuses on the integration of children's and young adult literature to support teaching and learning in all grades and across disciplines. Candidates will develop foundational knowledge about children's and young adult literature, explore instructional approaches, and address relevant topics, including cultural authenticity, multicultural literature, and issues of diversity, equity, and inclusion.

### **LTCY-505. Writing Instruction In Elementary Grades. 3 Hours.**

Candidates explore instructional practices for supporting students' writing development from K through fifth grade. Topics include motivation, assessment, and writing to support reading development. Meeting the needs of all learners, including culturally and linguistically diverse students, is emphasized.

### **LTCY-506. Writing Instruction In Middle & High School. 3 Hours.**

Candidates explore instructional best practices for supporting students' writing development in middle and high school. Topics include motivation, assessment, and writing to support reading development. Meeting the needs of all learners, including culturally and linguistically diverse students, is emphasized.

### **LTCY-507. Literacy Assessment And Instructional Planning. 3 Hours.**

In this course, candidates will learn about various types of literacy assessments, their purposes, strengths, and limitations. Candidates will select and administer multiple assessments to gather information about students' developing literacy skills, progress, and performance. Candidates will learn to analyze and interpret assessment results in order to plan instruction that meets the needs of a range of learners.

**Prerequisite:** LTCY-501 with a minimum grade of B and LTCY-502 with a minimum grade of B.

### **LTCY-508. Practicum In Literacy Assessment & Intervention: Elementary Level. 3 Hours.**

In this supervised clinical practicum experience, candidates demonstrate their literacy knowledge and skills as they conduct assessments, analyze and communicate assessment results, and plan appropriate instruction for a K-5 student reading below grade level. Candidates apply theory and evidence-based practices as they design and teach a series of lessons that address the specific word recognition, comprehension, vocabulary, fluency, motivation, and self-efficacy needs of their assigned K-5 student. Candidates also engage in professional learning such as collegial coaching and reflection.

**Prerequisite:** LTCY-507 with a minimum grade of C.

**LTCY-509. Practicum In Literacy Assessment & Intervention: Middle Level. 3 Hours.**

In this supervised clinical practicum experience, candidates demonstrate their literacy knowledge and skills as they conduct assessments, analyze and communicate assessment results, and plan appropriate instruction for a middle grades (6-9) student reading below grade level. Candidates apply theory and evidence-based practices as they design and teach a series of lessons that address the specific word recognition, comprehension, vocabulary, fluency, motivation and self-efficacy needs of their assigned student. Candidates also engage in professional learning such as collegial coaching and reflection.

**Prerequisite:** LTCY-507 with a minimum grade of C or READ-407 with a minimum grade of C.

**LTCY-510. Practicum In Literacy Assessment & Intervention: Secondary Level. 3 Hours.**

In this supervised clinical practicum experience, candidates demonstrate their literacy knowledge and skills as they conduct assessments, analyze and communicate assessment results, and plan appropriate instruction for a grades 6-12 student reading below grade level. Candidates apply theory and evidence-based practices as they design and teach a series of lesson plans that address the specific word recognition, comprehension, vocabulary, fluency, motivation and self-efficacy needs of their assigned student. Candidates also engage in professional learning experiences such as collegial coaching and reflection during the course's seminar component.

**Prerequisite:** LTCY-507 with a minimum grade of C.

**LTCY-511. Research Seminar In Literacy Education. 3 Hours.**

Candidates design and conduct an original action/teacher research study based on a research question of their choosing. After collecting and analyzing data, candidates report their findings following the conventions of scholarly writing and present their study to peers. Advanced study of research methodologies and paradigms is included.

**Prerequisite:** LTCY-503 with a minimum grade of C.

**LTCY-512. Leadership In Literacy Instruction. 3 Hours.**

This course addresses the multifaceted leadership roles of specialized literacy professionals. Topics include the concept of leadership, formation of literacy teams, professional learning, coaching, instructional roles, comprehensive literacy programs, assessment, and school-family-community partnerships.

**Prerequisite:** LTCY-507 with a minimum grade of C.

**LTCY-513. Literacy Instruction For Middle Level Grades. 3 Hours.**

This course addresses motivating middle school learners to read and building the literacy skills needed for learning in subject areas. Topics include nurturing a love of reading, using instructional materials and text types to engage learners, and addressing the developmental needs of young adolescents. Meeting the needs of all students, including culturally and linguistically diverse middle school students, is emphasized.

**LTCY-514. Language And Literacy Instruction For Culturally And Linguistically Diverse Students. 3 Hours.**

This course focuses on instructional approaches and materials to support language and literacy development among culturally and linguistically diverse (CLD) students. Candidates will explore topics and issues of second language acquisition, bilingual and multicultural education, identity and CLD students, language diversity, language policy, and home and community engagement. Candidates will be able to apply their multifaceted knowledge across disciplines and professional contexts.

**Prerequisite:** LTCY-501 with a minimum grade of C and LTCY-502 with a minimum grade of C or LTCY-513 with a minimum grade of C or (READ-416 with a minimum grade of C and READ-417 with a minimum grade of C or READ-440 with a minimum grade of C).

**LTCY-515. Technology For Literacy Instruction. 3 Hours.**

In this course, candidates explore technology tools and digital media to support literacy teaching and learning among students of diverse backgrounds and abilities. Topics include selection and evaluation of technology tools; technology to support the developing needs of all learners; social, legal, and ethical issues related to classroom technology use; and technology use that promotes critical thinking and meaningful learning.

**Prerequisite:** LTCY-501 with a minimum grade of B or LTCY-502 with a minimum grade of B.

**LTCY-516. Advanced Practicum In Literacy Education. 3 Hours.**

This course provides candidates with the opportunity to examine more closely a particular facet of literacy development and/or to explore innovative diagnostic or instructional practices within a clinical setting.

**LTCY-517. Language Development And Early Literacy. 3 Hours.**

This course focuses on the relationship between children's oral language and early literacy development. Emphasis will be on the instructional implications for teachers working with children from infancy through Grade 3. Meeting the needs of all learners, including culturally and linguistically diverse students, is emphasized.

**Prerequisite:** LTCY-501 with a minimum grade of C.

**LTCY-521. Independent Study In Literacy Education. 1 Hour.**

Candidates who have interests in specific literacy topics may be invited by faculty members to conduct independent studies. They must collaborate with faculty members to develop proposals for departmental approval. Credit will be awarded commensurate with the scope of the proposed study and commitment required of faculty.

**Prerequisite:** LTCY-501 with a minimum grade of B or LTCY-502 with a minimum grade of B or LTCY-513 with a minimum grade of B.

**LTCY-522. Independent Study In Literacy Education. 2 Hours.**

Candidates who have interests in specific literacy topics may be invited by faculty members to conduct independent studies. They must collaborate with faculty members to develop proposals for departmental approval. Credit will be awarded commensurate with the scope of the proposed study and commitment required of faculty.

**Prerequisite:** LTCY-501 with a minimum grade of B or LTCY-502 with a minimum grade of B or LTCY-513 with a minimum grade of B.

**LTCY-523. Independent Study In Literacy Education. 3 Hours.**

Candidates who have interests in specific literacy topics may be invited by faculty members to conduct independent studies. They must collaborate with faculty members to develop proposals for departmental approval. Credit will be awarded commensurate with the scope of the proposed study and commitment required of faculty.

**Prerequisite:** LTCY-501 with a minimum grade of B or LTCY-502 with a minimum grade of B or LTCY-513 with a minimum grade of B.

# Management (MNGT)

---

## Courses

### **MNGT-180. Fundamentals Of Data Science. 4 Hours.**

Foundations of data science considers data from three perspectives: inferential thinking, computational thinking, and real-world relevance. Given data arising from some real-world phenomenon, how does one analyze that data to understand that phenomenon? The course teaches critical concepts and skills in computation and statistical inference, in conjunction with hands on analysis of real-world datasets, including economic data, document collections, geographical data, and data from social networks. It delves into social, ethical, and legal issues surrounding data analysis, including privacy and data ownership.

**Prerequisite:** MATH-173 with a minimum grade of C.

### **MNGT-201. Introduction To Business. 3 Hours.**

The course provides a general overview of the field of business. Major components of business activity such as management, marketing, accounting, finance, and operations will be discussed. The course will enable students to identify potential careers or advanced coursework in business.

### **MNGT-350. Introduction To Entrepreneurship. 3 Hours.**

The course provides a general overview of the field of entrepreneurship. The focus is on introduction to entrepreneurship from the perspectives of start-up entrepreneurs and early stage investors. Special consideration is given to the processes of entrepreneurial mindset, design thinking, proof-of-concept testing and product-market fit. The course will enable students to identify potential ideas for advanced coursework in entrepreneurship.

### **MNGT-351. Data Visualization And Management. 3 Hours.**

This application-based course covers the core concepts of data retrieval, cleaning, and reporting implemented in current analytics software. The course focuses on data warehousing, accessing data from sources, data cleaning, data manipulation, and a wide range of data visualization methods.

**Prerequisite:** MNGT-368 with a minimum grade of C or MATH-275 with a minimum grade of C or MATH-305 with a minimum grade of C or ECON-220 with a minimum grade of C.

### **MNGT-352. Model-Based Decision Making. 3 Hours.**

This course introduces business intelligence and analytics techniques to develop skills for decision-making and complex business problem-solving.

These techniques focus on prescriptive analytics including optimization and simulation methods, and predictive analytics including data and text mining, machine learning, and forecasting. The course presents state-of-the-art decision support technologies required to solve real business problems primarily using Excel spreadsheets and SAP business analytics tools.

**Prerequisite:** MNGT-368 with a minimum grade of C or MATH-275 with a minimum grade of C or MATH-305 with a minimum grade of C or ECON-220 with a minimum grade of C.

### **MNGT-353. Supply Chain Analytics. 3 Hours.**

The course provides an introduction to supply chain management involving the flows of materials, information, and cash, from the source of raw materials to end customers. The focus is on decisions involving the investment in productive resources, configuration of processes, product designs, and development of partnerships with suppliers and channels of distribution. Perspectives on marketing (channels of distribution), logistics, and operations management will be analyzed.

**Prerequisite:** MNGT-377 with a minimum grade of C.

### **MNGT-354. Logistics Management. 3 Hours.**

Introduction to the business logistics environment. Detailed coverage of the use of concepts and quantitative techniques in facility location, distribution, warehousing, scheduling, order processing, storage, material handling and other logistics design and operating decisions.

**Prerequisite:** MNGT-377 with a minimum grade of C.

### **MNGT-355. Creativity And Innovation. 3 Hours.**

This course focuses on innovation and creativity from the perspectives of the organizations, teams and individual employees. Special consideration is given to the processes of creativity, the relationship between creativity and innovation, development of creativity, multiple facets of creativity, building and managing creative teams, and development of original thinking.

### **MNGT-368. Business Statistics. 3 Hours.**

This course introduces students to both descriptive and inferential statistics as they apply to business. Its focus is on descriptive measures, probability concepts, discrete and continuous probability distributions, sampling distributions, estimation, hypothesis testing, and simple linear regression. Prereq.: MATH-165.

**Prerequisite:** MATH-165 with a minimum grade of C.

### **MNGT-369. Introduction To Data Science. 3 Hours.**

The course exposes students to key concepts, techniques and tools of business data science. Using R-scripts, students apply tools to analyze business data for decision making. The topics covered include, but are not limited to, regression, regularization, classification, experiments, controls, factorization, text data, and nonparametrics.

**Prerequisite:** (MNGT-368 with a minimum grade of C or MATH-275 with a minimum grade of C or MATH-305 with a minimum grade of C) or ECON-220 with a minimum grade of C.

**MNGT-370. Writing Intensive Program: Managing Global Business Organization. 3 Hours.**

This course addresses four critical areas of the emerging management environment: globalization, diversity, leadership, and teamwork. Traditional and projected theories of organization management and organization behavior, as focused toward these four themes, are examined. Additionally, the writing intensive component of this course includes a variety of written communication activities to develop a discipline-focused writing skill.

**Requirement:** All foundation courses completed with a grade of C or better

**Prerequisite:** ENGL-101 with a minimum grade of C.

**MNGT-371. Organizational Behavior. 3 Hours.**

A broad survey analyzing the contributions of behavioral science to management and administration. Topics stressed are scientific method in organizational research, individual and group dimensions of organizational behavior, decision making, barriers to communication, work motivation, intergroup conflict, leadership, organizational climate and development, and analysis of power in organizations. Role playing, simulations, class exercises and case studies are used.

**Prerequisite:** MNGT-370 with a minimum grade of C.

**MNGT-372. Organization Theory And Design. 3 Hours.**

This course approaches the study of business organizations and their management from a macro perspective. The focus of organization theory is to study the structure and design of organizations. Students are presented with both the descriptive and prescriptive aspects of the discipline in order to provide insight into the planning and designing of organizations for effectiveness. Major topics include rational and social systems views of organizations; the social, technical, legal and economic environments of organizations; organizational characteristics such as size, technology, structure, climate and administrative philosophy; elements of organizational structure and design (authority structure); specialization; degree of centralization; policies; communication channels; and reward systems; organizational processes including goal setting; strategic planning; decision making; coordinating and controlling; and organizational survival.

**Prerequisite:** MNGT-370 with a minimum grade of C.

**MNGT-373. Human Resource Management. 3 Hours.**

Organization and operation of the personnel department. Role of the personnel department in the organization. Topics include task/job development (job analysis, job design, job specification, job enlargement, job enrichment, performance standards, work rules, work conditions); staffing the organization (recruitment, selection, placement, promotion, demotion, interviewing, testing); performance appraisal; training and development; compensation (wage and salary administration, supplementary benefits, incentives); collective bargaining (unionization, negotiation, grievance and arbitration); legal and other environmental issues are stressed.

**Prerequisite:** MNGT-370 with a minimum grade of C.

**MNGT-374. Staffing & Selection. 3 Hours.**

This course focuses on Staffing and Selection from the perspectives of the organization. Special consideration is given to the processes of Human Resource Planning, hiring, firing, the underlying legal environment, as well as ethical issues. The major topics include labor market, legal environment, HR planning, job analysis, measurement, recruiting, and selection. Prerequisites: (1) completion of at least 60 credit hours of course work, (2) completion of the eight 100-level and 200-level College of Business & Management Foundation courses, each with "C" or higher, and Foundation GPA of 2.50, and (3) MNGT-370 with a "C" or higher.

**Prerequisite:** MNGT-370 with a minimum grade of C.

**MNGT-375. Management And Organization Communications. 3 Hours.**

Formal structures, channels and mechanism for communication within the organization and its environment. Informal process of communication within the organization. Supervisory and management roles in organizational communication. Dynamics of communication in and between organization work units. Functional roles/ perspectives affecting organizational communications. Class exercises and case studies will be used.

**Prerequisite:** MNGT-370 with a minimum grade of C.

**MNGT-376. Small Business Management. 3 Hours.**

Application of management concepts and techniques to the small firm. Special attention will be given to the particular nature, opportunities, needs, and problems of small manufacturing, wholesale, retail, and business service firms. Topics include comparison of similarities, differences and relations between small and large firms, issues and methods in starting a small firm (including selecting the legal mode of organization, buying an existing firm, franchising); funding; risk and venture management for small firms; the role of local, state, and federal government. Case studies and field research may be included.

**Prerequisite:** FINA-360 with a minimum grade of C and MKTG-350 with a minimum grade of C and MNGT-370 with a minimum grade of C.

**MNGT-377. Production/Operations Management. 3 Hours.**

This course covers subjects related to the design of production, inventory and quality control systems. In the production systems design the following topics are covered: design of products and services, capacity planning, process design, work analysis and measurement, facility location, production scheduling. In the inventory control systems design the following issues will be discussed: relation of inventory system to the other functions of organizations, cost structure, deterministic and probabilistic control models. In the quality control design the following are covered: quality concept, statistical quality control methods such as control charts, sampling etc.

**Prerequisite:** MNGT-368 with a minimum grade of C and MNGT-370 with a minimum grade of C.

**MNGT-378. Managing Diversity In Organizations. 3 Hours.**

This class addresses the issues, knowledge, theories, and applications related to managing diversity in organizations. Topics covered in this class will enhance awareness of existence of diversity at the workplace and address approaches of creation of productive diverse workforce. Class discussion will include topics such as glass ceiling effect, stereotyping process, sexual harassment, work and family conflicts, and reverse discrimination. Readings related to the implementation of diversity training programs as well as fair recruitment and selection processes will be discussed.

**Prerequisite:** MNGT-370 with a minimum grade of C.

**MNGT-379. Business Analytics. 3 Hours.**

This application-based course covers descriptive, predictive, as well as prescriptive analytics. It focuses on data visualization, multiple regression, data mining, linear optimization models, integer linear optimization models, simulation and decision analysis.

**Prerequisite:** MNGT-368 with a minimum grade of C or MATH-275 with a minimum grade of C or MATH-305 with a minimum grade of C or ECON-220 with a minimum grade of C.

**MNGT-380. Entrepreneurship. 3 Hours.**

Examination of the entrepreneurial process and the role of entrepreneurship in new ventures and small businesses, obtaining financing for new businesses; marketing, R & D, and production of new products and services. Evaluation of the entrepreneurs and ways to encourage the entrepreneurial spirit in organizations of all sizes. Students will be required to write a realistic business plan.

**Prerequisite:** (FINA-360 with a minimum grade of C and MKTG-350 with a minimum grade of C and MNGT-370 with a minimum grade of C) or (MNGT-201 with a minimum grade of C and MNGT-350 with a minimum grade of C).

**MNGT-381. Managing International Business. 3 Hours.**

This course examines the following issues: Brief history of international business and globalization; opportunities and risks arising out of the economic, political, and socio-cultural similarities and differences among countries or regions; the role of governments, international institutions and agreements such as trade agreements in facilitating or influencing international business; variety of international business transactions including international trade and foreign direct investment and factors to consider while selecting and managing one or more of these business transactions and doing business abroad including cross-cultural management of stakeholders.

**Prerequisite:** MNGT-370 with a minimum grade of C.

**MNGT-382. Internship In Management. 3 Hours.****MNGT-383. Internship In Management. 4 Hours.****MNGT-384. Internship In Management. 5 Hours.****MNGT-385. Internship In Management. 6 Hours.****MNGT-386. Independent Study In Management. 3 Hours.****MNGT-387. Independent Study In Management. 2 Hours.****MNGT-388. Independent Study In Management. 1 Hour.****MNGT-390. Compensation Management. 3 Hours.**

This course provides students with a practical and theoretical understanding of compensation from the perspectives of managers (who make reward decisions), employees (who receive the rewards and are the "customers" of the reward system), and human resource practitioners (who assist in the design and maintenance of reward systems). It also provides an overview of the considerations necessary to develop a compensation system that is internally and externally equitable and fiscally responsible. Legislative and social issues affecting pay decisions and alignment of pay policies with business strategy and other human resource programs are also covered.

**Prerequisite:** MNGT-370 with a minimum grade of C and MNGT-373 with a minimum grade of C.

**MNGT-391. Human Resource Information System. 3 Hours.**

This course will help develop information system knowledge and skills that are necessary for Human Resource (HR) professionals. It will focus on the structure and strategic capabilities of a Human Resources Information System (HRIS); the identification of Human Resource information needs; the HRIS implementation process; and how HRIS supports various HR practices.

**Prerequisite:** MNGT-370 with a minimum grade of C and MNGT-373 with a minimum grade of C.

**MNGT-392. Business, Technology And Society. 3 Hours.**

Course deals with the environment of business. The role of technology in modern business organizations is considered as well as social change and social pressure on the business community. Other topics to be covered are the social responsibility of business; "The Social Adult" : its function in business organizations; managing modern business: changes and adaptability; technology transfer activities in modern business: the U.S. and developing countries' experiences.

**Prerequisite:** MNGT-370 with a minimum grade of C.

**MNGT-393. Strategic Management. 3 Hours.**

This advanced capstone course involves the study of the concepts and techniques of determining strategies and operational policies of business organizations. Primarily through the use of cases, student are exposed to theories of business policy, business environment, and the impact of different policy making scenarios on selected functions of the business organizations.

**MNGT-399. Management Of Change. 3 Hours.**

An advanced seminar course focusing on organizational change management by managers and employees who wish to initiate a change, are assigned responsibility to manage a change, or who are affected by change initiated by others. Major topics include: nature and dynamics of change and change management; dimensions of change; change management strategies; cycle theories; stability and change; resistance to change; the change manager as change agent or resister/defender.

**Prerequisite:** MNGT-370 with a minimum grade of C.

**MNGT-401. Fundamentals Of Business Statistics. 2 Hours.**

This course provides graduate students without a recent business academic background a foundation in the field of business statistics. It addresses the concepts of probability distributions and statistical inference and considers various methods of describing data, including the normal distribution. Statistical estimation, sampling and methods of testing hypotheses of means and proportions using various distributions are discussed. A brief consideration is given to quality control, analysis of variance, and linear regression.

**MNGT-402. Applied Business Research. 3 Hours.**

This course conveys the nature, purpose and method of applied business research for practicing managers and owner-operators and enables them to acquire research skills. Course topics include problem or project definition, data gathering, hypothesis testing, analysis of result, and developing and reporting of conclusions. Special attention is devoted to the communication process, reporting research findings at various stages, and the use of traditional and high-tech sources of business information.

**Prerequisite:** COBM-404 with a minimum grade of C or MNGT-368 with a minimum grade of C.

**MNGT-403. Leadership And Organizational Behavior. 3 Hours.**

This course addresses the concepts of perception, learning and motivation, and focuses on work-related attitudes and personalities of individual employees and managers. Organizational facets of stress, group dynamics and organization culture and socialization provide a foundation for the discussion of cooperation, conflict, and influence. The role of leaders and leadership upon organizational behavior and cultures is emphasized. Management communication methods and decision-making processes are considered.

**MNGT-404. Operations Management. 3 Hours.**

This course provides a general introduction to operations management in organizations. Emphasis is placed on the application of the main principles and concepts of operations management. Among the topics covered are: operations strategy, capacity analysis, queuing theory, service management, quality management, inventory management, and a brief introduction to supply chain management.

**Prerequisite:** COBM-404 with a minimum grade of C or (MNGT-368 with a minimum grade of C and MNGT-377 with a minimum grade of C).

**MNGT-474. Human Resources Policy And Decision Making. 3 Hours.**

This course addresses personnel policy formulation and implementation. Consideration is given to human resources planning, staffing, development and placement issues in the context of legal and collective bargaining constraints. A review of topical issues such as employment-at-will, drug testing, honesty in the workplace and other special topics is provided.

**MNGT-480. Entrepreneurship. 3 Hours.**

This course focuses on the initiation of new business ventures as contrasted with the management of on-going enterprises. Topics covered include the characteristics of successful entrepreneurs, methods of identifying market opportunities, appraising market potential, determining startup costs of acceptable purchase price, legal aspects of organization or acquisition, raising venture, capital, initial capital structure, selection of the board of directors and key managers, allocation of control among involved parties, and method of rewarding entrepreneurs and key managers. Cases, readings and some outside speakers will be used. The major emphasis, however, will be on the evaluation of prospective "real world" ventures.

**MNGT-481. International Management. 3 Hours.**

This course examines the salient features of decision-making and management practices in multinational firms. Particular attention is given to organizational planning and control functions, and to problems encountered by managers as they interact with host governments and institutions. Linkages between certain cultural factors and features of the managerial climate are also examined.

**MNGT-487. Strategy And Organization. 3 Hours.**

This course serves to integrate preceding courses through the study of strategy to integrate preceding courses through the study of strategy formulation and implementation functions and responsibilities of top-level management. The topics addressed include the concept of corporate strategy, the strategic planning and resource allocation, the design of formal organizational structure, management control systems, reward and sanction systems, the selection and training of key personnel and the leadership role of the chief executive officer. Cases and readings are drawn from a variety of types of organizations.

**MNGT-489. Management Of Organizational Change. 3 Hours.**

This course explores the concept of successful management of organizational and behavioral change, focusing on both "planned" and "unplanned" changes and emphasizing the development of change strategies and measurement of change effectiveness. Included will be group laboratory work using video tape systems. Attention will also be given in response to external (e.g., social) changes. Opportunities exist for field work in various institutional contexts.

**MNGT-490. Innovation And Creativity. 3 Hours.**

This course focuses on innovation and creativity from the perspectives of the organization and individual employees. Special consideration is given to the processes of creativity, the relationship between creativity and innovation, development of creativity, and multiple facets of creativity. Within these major emphases, topics include definition of creativity, inhibitors and activators of creativity in individuals, teams, and organizations, idea creation and evaluation, building and managing creative teams.

**MNGT-491. Strategic Technology & Innovation Management. 3 Hours.**

This course will discuss how technological changes create opportunities for value creation and capture; different types of product and process innovations; and challenges and opportunities created by technological changes. Students will explore how industries are transformed by technological changes; how managerial action shapes opportunities for value creation and capture from new innovations; analytical tools that are vital to understanding which innovations create value and which ones do not; and how technological changes and innovation affect competitive advantages. Emphasis will be on learning conceptual models and frameworks that help firms navigate the complex and dynamic technological changes.

**MNGT-498. International Business. 3 Hours.**

This course examines the cultural, social, political and economic factors which underlie certain business practices in foreign countries. Depending upon the expertise and preference of the instructor, the course may focus upon a few primary geographical areas (e.g., Eastern Europe, Far East) intensively, or it may present a wide array of cultural environments in survey fashion.

**MNGT-500. Project. 3 Hours.**

Approval of major advisor is necessary.

**MNGT-501. Thesis. 3 Hours.**

Approval of major advisor is necessary.

**MNGT-502. Business Policy And Strategy. 3 Hours.**

This course focuses upon strategy formulation and implementation at the highest level of organizations. Methods of obtaining resources and creating systems, structures and policies needed to attain strategic goals are addressed, as is the critical role of the chief executive officer (CEO) or the owner-operation of smaller entities. The common body of knowledge acquired from other graduate business courses is integrated and applied to policy and strategy issues or practices within a wide range of organizational frameworks, including multinational corporations, small-to-medium-sized enterprises (SMEs), and sole proprietorship. The case method of instruction is emphasized.

# Marketing (MKTG)

---

## Courses

### **MKTG-350. Principles Of Marketing. 3 Hours.**

This course provides a comprehensive overview of the marketing process by explaining its role in business and society. Major topics include market segmentation and research, purchasing behavior in consumer and industrial markets, the marketing mix (product, price, distribution and promotion) and the planning and evaluation of the overall marketing effort.

### **MKTG-351. Consumer Behavior. 3 Hours.**

This course examines: the buyer as a problem solver; buying decision processes; sociological and psychological factors affecting buyer behavior; and consumer behavior models. The course shows how consumer behavior concepts are used in the formulation of the firm's marketing strategy.

**Prerequisite:** MKTG-350 with a minimum grade of C.

### **MKTG-352. Integrated Marketing Communication. 3 Hours.**

This course provides an overview of the planning, execution, and evaluation of integrated marketing communication programs. Topics covered include creative and media strategies, budgeting, evaluation, and the roles of individual components of the communications mix, such as advertising, sales promotion, internet and interactive media, and direct marketing. Prereq.: MKTG-350.

**Prerequisite:** MKTG-350 with a minimum grade of C.

### **MKTG-353. Marketing Research. 3 Hours.**

An investigation of the research necessary for the formulation of marketing policies. Topics include research design; sampling; and statistical analysis.

**Prerequisite:** MKTG-350 with a minimum grade of C and MNGT-368 with a minimum grade of C.

### **MKTG-354. Personal Selling. 3 Hours.**

Introduction to the rationale and methods for effective person-to-person communications in the marketing of products, services and ideas. Application of the marketing concept of the personal selling process and development of customer relationships. Course makes use of in-class presentations and role-playing.

**Prerequisite:** MKTG-350 with a minimum grade of C.

### **MKTG-355. Digital Marketing. 3 Hours.**

This course provides an introduction to digital marketing. This course examines the integration of Internet, digital media, and interactive technologies in marketing strategy to leverage the impact of marketing mix. Current digital marketing driven applications for customer acquisition, retention, and management in e-business will be examined. Prereq.: MKTG-350 or consent of instructor.

**Prerequisite:** MKTG-350 with a minimum grade of C.

### **MKTG-356. Retail Management. 3 Hours.**

The various marketing activities involved in managing the retail enterprise are examined individually and as a part of the overall retail system. Emphasis is placed upon technological changes and upon factors determining store location, merchandise management, organization purchasing and competition in the retail environment.

**Prerequisite:** MKTG-350 with a minimum grade of C.

### **MKTG-357. Sales Management. 3 Hours.**

This course exposes students to the roles of professional sales people in the marketing system, It focuses on the development of essential selling skills and the management of sales people.

**Prerequisite:** MKTG-350 with a minimum grade of C.

### **MKTG-358. International Marketing. 3 Hours.**

This course examines the special problems of marketing in an international setting. Reasons for international expansion, both historically and in the present, are discussed. The cultural, political and legal environments for international marketing are examined. Problems of product, promotion, price, physical distribution, and organization on an international scale are also examined.

**Prerequisite:** MKTG-350 with a minimum grade of C.

### **MKTG-359. Marketing Management. 3 Hours.**

A capstone course designed to stress the managerial aspects of marketing. Consideration of product, pricing, distribution, promotion and organization design are related through student projects to the development of the firm's marketing strategy.

**Prerequisite:** MKTG-350 with a minimum grade of C.

### **MKTG-360. Marketing Channels. 3 Hours.**

This course is designed to prepare future managers to successfully handle the interrelationships among manufacturers, wholesalers, retailers and consumers. Topics covered include analysis of marketing channel structures, development of channel strategy and management of marketing channels. The course will emphasize how to plan, organize and control the economic, political and social relationships among institutions and agencies to make certain that products and service are available for use or consumption by industrial, commercial and household consumers.

**Prerequisite:** MKTG-350 with a minimum grade of C.

**MKTG-361. Social Media Marketing. 3 Hours.**

This course provides an overview of the core strategies used by companies to leverage the marketing power of social media. Through integration of concepts from marketing, communications, sociology, and web analytics, students will learn how to develop a social media plan and implement a persuasive social media campaign. Students will learn a variety of techniques and strategies for monitoring user behavior on social media platforms, with an emphasis on applying the analytical concepts and tools of marketing for business decisions.

**Prerequisite:** MKTG-350 with a minimum grade of C.

**MKTG-362. Mobile Marketing. 3 Hours.**

This course provides an overview of the core strategies used by companies to leverage the marketing power of mobile devices. Through integration of concepts from marketing, psychology, communications, and sociology, students will learn how to develop a mobile marketing plan and implement a persuasive mobile marketing campaign. Students will learn a variety of techniques and strategies for monitoring user behavior on mobile devices, with an emphasis on applying the analytical concepts and tools of mobile marketing.

**Prerequisite:** MKTG-350 with a minimum grade of C.

**MKTG-382. Internship In Marketing. 3 Hours.**

**MKTG-383. Internship In Marketing. 4 Hours.**

**MKTG-384. Internship In Marketing. 5 Hours.**

**MKTG-385. Internship In Marketing. 6 Hours.**

**MKTG-389. Independent Study In Marketing. 3 Hours.**

**MKTG-390. Independent Study In Marketing. 2 Hours.**

**MKTG-391. Independent Study In Marketing. 1 Hour.**

**MKTG-402. Marketing Management. 3 Hours.**

This course focuses on the techniques of management as applied to the functional areas of marketing.

**MKTG-451. Consumer Behavior And Marketing Action. 3 Hours.**

This course focuses on analyzing demand, identifying market segments and predicting customer response to alternative marketing strategies using concepts from the behavioral sciences.

**Prerequisite:** MKTG-402 with a minimum grade of C or MKTG-450 with a minimum grade of C.

**MKTG-453. Marketing Research - Techniques And Applications. 3 Hours.**

This course explores different approaches to planning, collecting, analyzing and communicating information from the marketplace, including techniques and applications for specific marketing areas.

**Prerequisite:** (MKTG-402 with a minimum grade of C or MKTG-450 with a minimum grade of C) and MNGT-368 with a minimum grade of C.

**MKTG-454. Digital Marketing Strategy. 3 Hours.**

This course introduces students to strategy and tactics in digital marketing in the context of a company's overall marketing strategy. Topics covered include an overview of existing and emerging digital trends, consumer experience in the cross-channel context, digital branding and positioning, and best practices in digital marketing strategy.

**Prerequisite:** MKTG-402 with a minimum grade of C.

**MKTG-456. Channel Distribution And Retailing. 3 Hours.**

This course provides for the study of retailing as an integral part of the economic system and examines retailing from both the manufacturer's perspective and consumer's perspective. It focuses on management and behavioral theories.

**Prerequisite:** MKTG-402 with a minimum grade of C or MKTG-450 with a minimum grade of C.

**MKTG-458. Global Marketing. 3 Hours.**

This course focuses on identifying and analyzing worldwide marketing opportunities and generating strategies for overseas marketing, and explores the impact of environmental differences on marketing strategies and customer response.

**Prerequisite:** MKTG-402 with a minimum grade of C or MKTG-450 with a minimum grade of C.

**MKTG-461. Services Marketing Management. 3 Hours.**

Perspectives on managing the distinctive aspects of services as opposed to the marketing and buying of physical goods. The course examines ways in which various kinds of services differ from tangible goods and from each other along social and technological dimensions. Topics include services value creation, services marketing strategies, management of service production and quality and means for balancing supply and demand for services.

**Prerequisite:** MKTG-402 with a minimum grade of C or MKTG-450 with a minimum grade of C.

**MKTG-500. Project. 3 Hours.**

Approval of major advisor is necessary.

**MKTG-501. Thesis. 3 Hours.**

Approval of major advisor is necessary.

# Mathematics (MATH)

---

## Courses

### **MATH-011A. Developmental Stretch I: Statistics In Daily Life. 2 Hours.**

Math 011A must be taken concurrently with Math 111A. These two courses comprise the first semester in a two semester sequence. Students completing each of Math 011A, 011B, 111A, and 111B with a C or better will have satisfied the Math 112 requirement and earned a total of 4 college credits. These courses comprise an elementary introduction to statistics. Students will learn: to process and classify observational, experimental, and sampling data; to make decisions using descriptive statistics; to use inferential statistics to test hypotheses and draw conclusions about a population; and to use spreadsheets to perform these tasks.

**Corequisite:** MATH-111A.

### **MATH-011B. Developmental Stretch II: Statistics In Daily Life. 2 Hours.**

Math 011B must be taken concurrently with Math 111B. These two courses comprise the second semester in a two semester sequence. Students completing each of Math 011A, 011B, 111A, and 111B with a C or better will have satisfied the Math 112 requirement and earned a total of 4 college credits. These courses comprise an elementary introduction to statistics. Students will learn: to process and classify observational, experimental, and sampling data; to make decisions using descriptive statistics; to use inferential statistics to test hypotheses and draw conclusions about a population; and to use spreadsheets to perform these tasks.

**Prerequisite:** MATH-011A with a minimum grade of C.

**Corequisite:** MATH-111B.

### **MATH-048A. Developmental Stretch I: Math For Elementary Teachers I. 3 Hours.**

Math 048A must be taken concurrently with Math 148A. These two courses comprise the first semester in a two semester sequence. Students completing each of Math 048A, 048B, 148A, and 148B with a C or better will have satisfied the Math 149 requirement and earned a total of 4 college credits. These courses comprise a mathematical introduction for elementary and middle school teachers. Topics include place value, models for and the development of arithmetic, mental math, estimation, word problems, algorithms, factors, primes, proofs, prealgebra, fractions, ratios, rates, and percentages. The development of elementary mathematics from an advanced standpoint is emphasized.

**Corequisite:** MATH-148A.

### **MATH-048B. Developmental Stretch II: Math For Elementary Teachers I. 3 Hours.**

Math 048B must be taken concurrently with Math 148B. These two courses comprise the second semester in a two semester sequence. Students completing each of Math 048A, 048B, 148A, and 148B with a C or better will have satisfied the Math 149 requirement and earned a total of 4 college credits. These courses comprise a mathematical introduction for elementary and middle school teachers. Topics include place value, models for and the development of arithmetic, mental math, estimation, word problems, algorithms, factors, primes, proofs, prealgebra, fractions, ratios, rates, and percentages. The development of elementary mathematics from an advanced standpoint is emphasized.

**Prerequisite:** MATH-048A with a minimum grade of C.

**Corequisite:** MATH-148B.

### **MATH-090. Elementary Algebra. 3 Hours.**

This course develops the foundations of algebra, beginning with the real number system and its operations. Topics include: variable expressions, linear equations, exponents and polynomials, applications of proportion, percent, and the use of formulas to develop problem solving skills. Freshman students are initially placed into mathematics courses by their MATH ACT scores, their NEIU Mathematics Placement Test scores, or by an appropriate score on the Advanced Placement Test in Calculus. (This course does not count toward graduation or GPA.)

**Prerequisite:** NEIU Math Placement Result 00 - 40 (or ACT Math 01 - 36 or Accuplacer Elementary Algebra 020 - 040 or SAT Math 200 - 800 or Accuplacer QR, Algebra, & Stat 200 - 300).

### **MATH-0901. Math Enrichment Workshop For Math 090. 1 Hour.**

Mathematics enrichment workshop for students currently enrolled in MATH-090. The workshops draw on the Peer Led Team Learning (PLTL) and Emerging Scholars Program (ESP) models, which have been nationally identified for increasing students' probability of earning higher grades in their required mathematics courses. Workshop participants will attend a workshop during the same day and time each week; collaboratively solve problems related to their standard Math 090 course within small peer groups; receive guidance from math instructors who are specially trained to facilitate the workshops; and participate in social events with workshop peers during the semester.

**Corequisite:** MATH-090.

### **MATH-091. Intermediate Algebra I. 3 Hours.**

This course develops the foundations of algebra, beginning with the real number system and its operations. Topics include: variable expressions, linear equations and systems of equations, exponents, polynomials, factoring trinomials, and solving equations by factoring. Freshman students are initially placed into mathematics courses by their MATH ACT scores, their NEIU Mathematics Placement Test scores, or by an appropriate score on the Advanced Placement Test in Calculus. (This course does not count toward graduation or GPA.)

**Prerequisite:** (MATH-090 or NEIU Math Placement Result 01 - 45 or ACT Math 17 - 18 or Accuplacer Elementary Algebra 041 - 059 or Accuplacer QR, Algebra, & Stat 237 - 249 or SAT Math 460 - 490).

**MATH-0911. Math Enrichment Workshop For Math 091. 1 Hour.**

Mathematics enrichment workshop for students currently enrolled in MATH-091. The workshops draw on the Peer Led Team Learning (PLTL) and Emerging Scholars Program (ESP) models, which have been nationally identified for increasing students' probability of earning higher grades in their required mathematics courses. Workshop participants will attend a workshop during the same day and time each week; collaboratively solve problems related to their standard Math 091 course within small peer groups; receive guidance from math instructors who are specially trained to facilitate the workshops; and participate in social events with workshop peers during the semester.

**Corequisite:** MATH-091.

**MATH-092. Intermediate Algebra II. 3 Hours.**

This course further develops the concepts and structures of intermediate algebra. A review of linear equations, polynomials, and factoring, prepares students for the study of linear, quadratic, exponential, and logarithmic equations and functions. Additional topics to prepare students for college algebra include: rational expressions and equations, complex numbers, rational exponents, graphing and applications of quadratic functions, and properties of logarithms. Freshman students are initially placed into mathematics courses by MATH ACT scores, NEIU Mathematics Placement Test scores, or by an appropriate score on the Advanced Placement Test in Calculus. (This course does not count toward graduation or GPA.).

**Prerequisite:** (MATH-091 - 499 or MATH-091A - 499Z or NEIU Math Placement Result 02 - 45 or ACT Math 19 - 36 or Accuplacer Elementary Algebra 060 - 084 or Accuplacer College Level Math 020 - 120 or Accuplacer Adv. Algebra & Func 200 - 300 or SAT Math 500 - 800).

**MATH-0921. Math Enrichment Workshop For Math 092. 1 Hour.**

Mathematics enrichment workshop for students currently enrolled in MATH-092. The workshops draw on the Peer Led Team Learning (PLTL) and Emerging Scholars Program (ESP) models, which have been nationally identified for increasing students' probability of earning higher grades in their required mathematics courses. Workshop participants will attend a workshop during the same day and time each week; collaboratively solve problems related to their standard Math 092 course within small peer groups; receive guidance from math instructors who are specially trained to facilitate the workshops; and participate in social events with workshop peers during the semester.

**Corequisite:** MATH-092.

**MATH-092C. College Algebra Express I. 3 Hours.**

MATH-092C College Algebra Express I must be taken concurrently with Math 173C College Algebra Express II. Math 092C and Math 173C are collectively a 6-credit co-requisite course that provides students a path to finish developmental coursework and college algebra in ONE semester. Background topics which are necessary for a student to successfully complete Math 173C will be covered in Math 092C. Such topics include fractions, factoring polynomials, functions, exponents, and operating with radical and rational expressions. Students who complete MATH-173C with a minimum grade of C will have satisfied the college algebra requirement.

**Prerequisite:** Accuplacer Elementary Algebra with a score of 60 or ACT Math with a score of 19 or SAT Mathematics with a score of 500.

**Corequisite:** MATH-173C.

**MATH-097. Mathematical Literacy. 4 Hours.**

Mathematical Literacy for College Students is a one semester course for non-math and non-science majors integrating numeracy, proportional reasoning, algebraic reasoning, and functions. Students will develop conceptual and procedural tools that support the use of key mathematical concepts in a variety of contexts. Throughout the course, college success content will be integrated with mathematical topics. Upon passing this course, one can enroll in Math 112 (Statistics) or Math 113 (Mathematical Reasoning). (This course is in place of the Math 091/092 sequence and has no college credit. This course does not count toward graduation or GPA).

**Prerequisite:** (MATH-090 - 499 or MATH-090A - 499Z or Accuplacer Elementary Algebra 041 - 120 or ACT Math 17 - 36 or Accuplacer QR, Algebra, & Stat 237 - 300 or SAT Math 460 - 800).

**MATH-101A. Basic Mathematical Reasoning 1. 2 Hours.**

This first part of a two-semester stretch course (equivalent to Math 113) provides a foundation for students to become confident and critical users of quantitative information of all kinds: numerical, graphical and verbal. Students analyze data and ideas from a variety of fields, such as psychology, economics, finance, sociology and political science. The course is taught in a computer laboratory environment, where students are introduced to tools for data analysis and presentation. Active learning and reasoning are emphasized. By completing Math 101A and 101B, students needing one credit math course will have completed their math requirement.

**Prerequisite:** (Accuplacer Elementary Algebra 041 - 120 (or (ACT Math 17 - 36) or (Accuplacer QR, Algebra, & Stat 237 - 300 or (SAT Math 460 - 800).

**MATH-101B. Basic Mathematical Reasoning 2. 2 Hours.**

This second part of a two-semester stretch course (equivalent to Math 113) provides a foundation for students to become confident and critical users of quantitative information of all kinds: numerical, graphical and verbal. Students analyze data and ideas from a variety of fields, such as psychology, economics, finance, sociology and political science. The course is taught in a computer laboratory environment, where students are introduced to tools for data analysis and presentation. Active learning and reasoning are emphasized. By completing Math 101A and 101B, students needing one credit math course will have completed their math requirement.

**Prerequisite:** MATH-101A with a minimum grade of C.

**MATH-111A. Stretch I: Statistics In Daily Life. 2 Hours.**

Math 111A must be taken concurrently with Math 011A. These two courses comprise the first semester in a two semester sequence. Students completing each of Math 011A, 011B, 111A, and 111B with a C or better will have satisfied the Math 112 requirement and earned a total of 4 college credits. These courses comprise an elementary introduction to statistics. Students will learn: to process and classify observational, experimental, and sampling data; to make decisions using descriptive statistics; to use inferential statistics to test hypotheses and draw conclusions about a population; and to use spreadsheets to perform these tasks.

**Prerequisite:** Accuplacer Elementary Algebra 020 - 040 (or Accuplacer QR, Algebra, & Stat 200 - 236).

**Corequisite:** MATH-011A.

**MATH-111B. Stretch II: Statistics In Daily Life. 2 Hours.**

Math 111B must be taken concurrently with Math 011B. These two courses comprise the second semester in a two semester sequence. Students completing each of Math 011A, 011B, 111A, and 111B with a C or better will have satisfied the Math 112 requirement and earned a total of 4 college credits. These courses comprise an elementary introduction to statistics. Students will learn: to process and classify observational, experimental, and sampling data; to make decisions using descriptive statistics; to use inferential statistics to test hypotheses and draw conclusions about a population; and to use spreadsheets to perform these tasks.

**Prerequisite:** MATH-111A with a minimum grade of C.

**Corequisite:** MATH-011B.

**MATH-112. Statistics In Daily Life. 3 Hours.**

Process of classifying and drawing conclusions from data obtained from observations, experiment, or sampling. Decision making under uncertainty with emphasis on the behavioral fields. Study of frequency distributions and their use in the decision making process. Usage of computer and prepared software make plus a graphic calculator (TI-83 or equivalent) is required.

**Prerequisite:** (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120 or SAT Math 530 - 800 or Accuplacer Adv. Algebra & Func 237 - 300).

**MATH-113. Quantitative Reasoning. 3 Hours.**

This course provides a foundation for students to become confident and critical users of quantitative information of all kinds: numerical, graphical and verbal. Students analyze data and ideas from a wide variety of fields, such as psychology, economics, finance, sociology and political science. The course is taught in a hands-on laboratory environment where students are introduced to computer tools for data analysis and presentation. active learning and reasoning are emphasized, and technology is an integral part of the course. Students write critiques of quantitative arguments, gather data and present arguments based on their analysis.

**Prerequisite:** (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120 or SAT Math 530 - 800 or Accuplacer Adv. Algebra & Func 237 - 300).

**MATH-141. College Mathematics I. 3 Hours.**

The purpose of this course is to introduce the students to several of the mathematical tools that are used in all areas of mathematics including subjects that are strongly mathematics driven; these tool facilitate (1) problem-solving in mathematics and (2) mathematical communication and connection with other branches and other disciplines. Graphing calculator will be required and used to facilitate better understanding of some mathematical models, algorithms and applications. Other topics include expressions, mathematical functions, equations, inequalities and complex numbers.

**Prerequisite:** (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120 or SAT Math 530 - 800 or Accuplacer Adv. Algebra & Func 237 - 300).

**MATH-143. College Mathematics II. 3 Hours.**

The purpose of this course is to introduce the new teachers to the structure of Mathematics which include: mathematical reasoning; mathematical communication and connection with other branches and other disciplines; and problem-solving. Topics: number theory, combinatorics, geometry, probability and statistics, mathematics of finance.

**Prerequisite:** (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120 or SAT Math 530 - 800 or Accuplacer Adv. Algebra & Func 237 - 300).

**MATH-145. Algebra Concepts For Educators. 4 Hours.**

This course focuses on algebra concepts. Course design incorporates the Illinois Learning Standards for Mathematics K-12, the National Council of Teachers of Mathematics Teaching Principles, Standards, and Expectations, and a focus on preparing future educators in the implementation of interdisciplinary math and science curricula. Students will engage in learning algebraic processes (creating and solving equations and inequalities, graphing, and transformations) as well as developing algebraic habits of mind (seeing structure in expressions and equations, generalizing from repeated reasoning, and modeling with mathematics). Concepts covered include linear, quadratic, and exponential functions, systems of equations, absolute value and inequalities, and basic probability. Problem solving and generalizing patterns with and without technology will be emphasized. Written assignments and reflections on the learning process will be introduced as appropriate. This course is paired and integrated with Bios 110, and it is strongly suggested that they are taken together.

**Prerequisite:** MATH-150 with a minimum grade of C or MATH-151 with a minimum grade of C.

**MATH-147. Statistical Concepts For Educators. 4 Hours.**

This course has been designed keeping in mind the NCTM teacher standards, Common Core Mathematical Practices, Content and ELA Standards in Mathematics and the ISBE mathematics teacher standards and the content within the paired interdisciplinary science course. There will be three principle components of the course: 1) descriptive statistics, 2) basic probability theory and central limit theorem, 3) applied statistics in the form of confidence intervals and hypothesis testing. Contemporary critical technologies such as data warehousing and mining, and concept modeling may be considered. This course is linked with BIO-104 Environmental Biology, and BIO-105 Environmental Biology Lab.

**Prerequisite:** MATH-141 with a minimum grade of C or MATH-108 with a minimum grade of C or NEIU Math Placement Result with a score of 30 or ACT Math with a score of 22 or ACT Math with a score of 23 or ACT Math with a score of 24 or Accuplacer College Level Math with a score of 020 or Accuplacer College Level Math with a score of 021 or Accuplacer College Level Math with a score of 022 or Accuplacer College Level Math with a score of 023 or Accuplacer College Level Math with a score of 024 or Accuplacer College Level Math with a score of 025 or Accuplacer College Level Math with a score of 026 or Accuplacer College Level Math with a score of 027 or Accuplacer College Level Math with a score of 028 or Accuplacer College Level Math with a score of 029 or Accuplacer College Level Math with a score of 030.

**Corequisites:** BIO-104, BIO-105.

**MATH-148A. Stretch I: Math For Elementary Teachers I. 2 Hours.**

Math 148A must be taken concurrently with Math 048A. These two courses comprise the first semester in a two semester sequence. Students completing each of Math 048A, 048B, 148A, and 148B with a C or better will have satisfied the Math 149 requirement and earned a total of 4 college credits. These courses comprise a mathematical introduction for elementary and middle school teachers. Topics include place value, models for and the development of arithmetic, mental math, estimation, word problems, algorithms, factors, primes, proofs, prealgebra, fractions, ratios, rates, and percentages. The development of elementary mathematics from an advanced standpoint is emphasized.

**Prerequisite:** Accuplacer Elementary Algebra with a score of 20.

**Corequisite:** MATH-048A.

**MATH-148B. Stretch II: Math For Elementary Teachers I. 2 Hours.**

Math 148B must be taken concurrently with Math 048B. These two courses comprise the second semester in a two semester sequence. Students completing each of Math 048A, 048B, 148A, and 148B with a C or better will have satisfied the Math 149 requirement and earned a total of 4 college credits. These courses comprise a mathematical introduction for elementary and middle school teachers. Topics include place value, models for and the development of arithmetic, mental math, estimation, word problems, algorithms, factors, primes, proofs, prealgebra, fractions, ratios, rates, and percentages. The development of elementary mathematics from an advanced standpoint is emphasized.

**Prerequisite:** MATH-148A with a minimum grade of C.

**Corequisite:** MATH-048B.

**MATH-149. Math For Elementary Teachers I. 4 Hours.**

This is a foundational class in mathematics for those interested in becoming elementary or middle grades teachers. Topics include place value, models for and the development of arithmetic, mental math, estimation, word problems, algorithms, factors, primes, proofs, prealgebra, fractions, ratios, rates, and percentages. Emphasis on the development of elementary mathematics from an advanced standpoint.

**Prerequisite:** MATH-092 with a minimum grade of C.

**MATH-150. Math For Elementary Teachers II With Problem Solving. 5 Hours.**

This is a foundational class in mathematics for those interested in becoming elementary or middle grades teachers. Topics include measurement, geometric reasoning, similarity and congruence, applications of geometry, geometric proofs, area, volume, surface area, and probability and statistics. Problem solving and mathematical thinking activities covering both number and operations and geometry content will be integrated. Emphasis is on the development of elementary mathematics from an advanced standpoint.

**Prerequisite:** MATH-149 with a minimum grade of C.

**MATH-151. Bridge Course In Mathematics For Elementary Teachers. 3 Hours.**

MATH-151 is a course designed for students who have completed two college-level courses in math for elementary teaching at a community college. The transferred courses should focus on numbers and operations and geometry and measurement, respectively. NEIU's College of Education requires that Elementary Education majors complete at least 9 semester hours in mathematics for teachers that meet a set of common outcomes adopted by the college. This course focuses on concepts addressed by the outcomes that are not typically covered in depth by most 2-course sequences in mathematics for teaching: algebra, data analysis, statistics, probability, problem-solving and mathematical thinking. Prerequisite: MATH-151 is restricted to students majoring in Early Childhood Education, Elementary Education, Bilingual/Bicultural Education, and TCP. Enrollment by permit only.

**MATH-163. Mathematical Modeling With Elementary Functions For Business. 3 Hours.**

This course, at the College Algebra level, is designed to provide quantitative understanding and tools for business students. Students work extensively with the most important functions and equations used for applications in their fields: linear, polynomial, rational, exponential, and logarithmic.

**Prerequisite:** (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120 or SAT Math 530 - 800 or Accuplacer Adv. Algebra & Func 237 - 300).

**MATH-164. Modeling With Elementary Functions For Business Seminar. 1 Hour.**

Enrichment Seminar accompanying MATH-163. Students engage in problem solving in collaborative learning groups on material derived from and complementing Mathematical Modeling with elementary functions in Business to gain a deeper understanding of concepts and application.

**Corequisite:** MATH-163.

**MATH-165. Finite Mathematics For Business And The Social Sciences. 3 Hours.**

Introduction to matrices, linear programming and probability with emphasis on mathematical models in the social, managerial and behavioral sciences and mathematics of finance.

**Prerequisite:** (MATH-163 - 499 or MATH-163A - 499Z or NEIU Math Placement Result 35 - 40 or ACT Math 25 - 36 or Accuplacer College Level Math 031 - 120 or SAT Math 580 - 800 or Accuplacer Adv. Algebra & Func 250 - 300).

**MATH-167. Business Calculus I. 4 Hours.**

Elements of analytic geometry, differential and integral calculus with application to business, economic and finance.

**Prerequisite:** (MATH-163 - 499 or MATH-163A - 499Z or NEIU Math Placement Result 35 - 40 or ACT Math 25 - 36 or Accuplacer College Level Math 031 - 120 or SAT Math 580 - 800 or Accuplacer Adv. Algebra & Func 250 - 300).

**MATH-173. College Algebra. 4 Hours.**

This course emphasizes the concept of a function as a unifying approach to the topics of college algebra. Families of functions studied in the course include: polynomial, rational, exponential and logarithmic functions. Other topics include conic sections, and sequences and series. Applications and problem solving skills are emphasized throughout the course.

**Prerequisite:** (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120 or SAT Math 530 - 800 or Accuplacer Adv. Algebra & Func 237 - 300).

**MATH-173C. College Algebra Express II. 4 Hours.**

MATH-173C College Algebra Express II must be taken concurrently with Math 092C College Algebra Express I. Math 092C and Math 173C are collectively a 7-credit co-requisite course that provides students a path to finish developmental coursework and college algebra in one semester. This course emphasizes the study of functions and their graphs, inequalities, and linear, quadratic, piece-wise defined, rational, polynomial, exponential, and logarithmic functions. Student will learn how to apply various technologies to these topics. Students who complete the co-requisite courses Math 092C and Math 173C with a minimum grade of C will have satisfied the college algebra requirement.

**Prerequisite:** Accuplacer Elementary Algebra with a score of 60 or ACT Math with a score of 19 or SAT Mathematics with a score of 500.

**Corequisite:** MATH-092C.

**MATH-173W. College Algebra & Math Enrichment Workshop. 4 Hours.**

This course emphasizes the concept of a function as a unifying approach to the topics of college algebra. Topics include: polynomial, rational, exponential and logarithmic functions, conic sections, sequences, and series. Each week students will participate in an enrichment workshop where they will collaboratively solve college algebra problems within peer groups while receiving guidance from a Peer Leader. The workshop draws on the Peer Led Team Learning and Emerging Scholars Program models, which have been nationally identified for increasing students' probability of earning higher grades in their mathematics courses. Students will pay a \$25 fee to support the workshop.

**Prerequisite:** (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120 or SAT Math 530 - 800 or Accuplacer Adv. Algebra & Func 237 - 300).

**MATH-174. Math Enrichment Workshop For College Algebra. 1 Hour.**

Mathematics enrichment workshop for students currently enrolled in MATH-173. The workshops draw on the Peer Led Team Learning (PLTL) and Emerging Scholars Program (ESP) models, which have been nationally identified for increasing students' probability of earning higher grades in their required mathematics courses. Workshop participants will attend a workshop during the same day and time each week; collaboratively solve problems related to their standard MATH-173 course within small peer groups; receive guidance from math instructors who are specially trained to facilitate the workshops; and participate in social events with workshop peers during the semester.

**Corequisite:** MATH-173.

**MATH-175. Trigonometry. 3 Hours.**

For students who intend to continue with Calculus I, this course uses the concept of a function as a unifying approach to the topics of trigonometry. The course studies trigonometric functions, trigonometric identities and equations, and inverse trigonometric functions. Other topics include: solving triangles, polar coordinates, complex numbers and DeMoivre's theorem; parametric equations, and vectors. Applications and problem solving skills are emphasized throughout the course.

**Prerequisite:** (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120 or SAT Math 530 - 800 or Accuplacer Adv. Algebra & Func 237 - 300).

**MATH-175W. Trigonometry & Math Enrichment Workshop. 3 Hours.**

This course uses the concept of a function as a unifying approach to the topics of trigonometry. Topics include: trigonometric functions, identities, and equations, inverse trigonometric functions, solving triangles, and polar coordinates. Each week students will participate in an enrichment workshop where they will collaboratively solve trigonometry problems within peer groups while receiving guidance from a Peer Leader. The workshop draws on the Peer Led Team Learning and Emerging Scholars Program models, which have been nationally identified for increasing students' probability of earning higher grades in their mathematics courses. Students will pay a \$25 fee to support the workshop.

**Prerequisite:** (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120 or SAT Math 530 - 800 or Accuplacer Adv. Algebra & Func 237 - 300).

**MATH-176. Mathematics Enrichment Workshop For Trigonometry. 1 Hour.**

Mathematics enrichment workshop for students currently enrolled in MATH-175. The workshops draw on the Peer Led Team Learning (PLTL) and Emerging Scholars Program (ESP) models, which have been nationally identified for increasing students' probability of earning higher grades in their required mathematics courses. Workshop participants will attend a workshop during the same day and time each week; collaboratively solve problems related to their standard MATH-175 course within small peer groups; receive guidance from math instructors who are specially trained to facilitate the workshops; and participate in social events with workshop peers during the semester.

**Corequisite:** MATH-175.

**MATH-177. Elementary Functions In The Sciences/Math. 3 Hours.**

This is an application inspired college algebra course which covers linear, quadratic, general polynomial, exponential and logarithmic functions using applications from science and mathematics. Arithmetic and geometric sequences are introduced as difference equations to motivate the study of quantities that change over time. Curve fitting is used to interpret data. A graphing calculator is required.

**Prerequisite:** (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120 or SAT Math 530 - 800 or Accuplacer Adv. Algebra & Func 237 - 300).

**MATH-178. Elementary Functions In The Sciences/Math Seminar. 1 Hour.**

Enrichment Seminar accompanying MATH-177. Students do problem solving in collaborative learning groups on material derived from and complementing Mathematical Modeling with Elementary Functions in the Sciences and Mathematics to gain a deeper understanding of concepts and applications. The content of the seminar is closely aligned with the content of MATH-177.

**Corequisite:** MATH-177.

**MATH-185. Precalculus. 4 Hours.**

A functional approach to College Algebra and Trigonometry, for students who intend to continue with Calculus I.

**Prerequisite:** (MATH-173 - 499 or MATH-173A - 499Z or NEIU Math Placement Result 35 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 031 - 120 or SAT Math 530 - 800 or Accuplacer Adv. Algebra & Func 250 - 300).

**MATH-185W. Precalculus & Math Enrichment Workshop. 4 Hours.**

This course offers a functional approach to college algebra and trigonometry, for students who intend to continue with Calculus I. Each week students will participate in an enrichment workshop where they will collaboratively solve precalculus problems within peer groups while receiving guidance from a Peer Leader. The workshop draws on the Peer Led Team Learning and Emerging Scholars Program models, which have been nationally identified for increasing students' probability of earning higher grades in their mathematics courses. Students will pay a \$25 fee to support the workshop.

**Prerequisite:** (MATH-173 - 499 or MATH-173A - 499Z or NEIU Math Placement Result 35 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 031 - 120 or SAT Math 530 - 800 or Accuplacer Adv. Algebra & Func 250 - 300).

**MATH-186. Mathematics Enrichment Workshop For Precalculus. 1 Hour.**

Enrichment workshop accompanying MATH-185. Students do problem solving in collaborative learning groups on material derived from and supplementing Precalculus to gain a deeper understanding of concepts and applications. Prereq.: Restricted to students taking MATH-185 concurrently.

**Corequisite:** MATH-185.

**MATH-187. Calculus I. 4 Hours.**

Introduction to analytic geometry, limits and derivatives, applications, integration, fundamental theorem of calculus.

**Prerequisites:** (MATH-185 - 499 or MATH-185A - 499Z or NEIU Math Placement Result 40 - 45 or ACT Math 28 - 36 or Accuplacer College Level Math 061 - 120 or (MATH-173 and MATH-175) or SAT Math 640 - 800 or Accuplacer Adv. Algebra & Func 276 - 300).

**MATH-187W. Calculus I & Math Enrichment Workshop. 4 Hours.**

This course provides an introduction to analytic geometry, limits and derivatives, integration, and the fundamental theorem of calculus. Each week students will participate in an enrichment workshop where they will collaboratively solve calculus I problems within peer groups while receiving guidance from a Peer Leader. The workshop draws on the Peer Led Team Learning and Emerging Scholars Program models, which have been nationally identified for increasing students' probability of earning higher grades in their mathematics courses. Students will pay a \$25 fee to support the workshop.

**Prerequisites:** (MATH-185 - 499 or MATH-185A - 499Z or NEIU Math Placement Result 40 - 45 or ACT Math 28 - 36 or Accuplacer College Level Math 061 - 120 or (MATH-173 and MATH-175) or SAT Math 640 - 800 or Accuplacer Adv. Algebra & Func 276 - 300).

**MATH-188. Mathematics Enrichment Workshop for Calculus I. 1 Hour.**

Enrichment Seminar accompanying MATH-107. Students do problem solving in collaborative learning groups on material derived from and supplementing Calculus I to gain a deeper understanding of concept and applications.

**Corequisite:** MATH-187.

**MATH-199S. Topics In Probability And Statistics For Middle School Teaching. 4 Hours.****MATH-202. Calculus II. 4 Hours.**

Integration techniques, applications, differential equations and series.

**Prerequisite:** (MATH-187 or MATH-107 or NEIU Math Placement Result 40 - 45 or Accuplacer College Level Math 061 - 120 or Accuplacer Adv. Algebra & Func 276 - 300).

**MATH-202W. Calculus II & Math Enrichment Workshop. 4 Hours.**

This course provides an introduction to analytic geometry, limits and derivatives, integration, and the fundamental theorem of calculus. Each week students will participate in an enrichment workshop where they will collaboratively solve calculus II problems within peer groups while receiving guidance from a Peer Leader. The workshop draws on the Peer Led Team Learning and Emerging Scholars Program models, which have been nationally identified for increasing students' probability of earning higher grades in their mathematics courses. Students will pay a \$25 fee to support the workshop.

**Prerequisite:** MATH-187 with a minimum grade of C or MATH-107 with a minimum grade of C.

**MATH-203. Calculus III. 4 Hours.**

3-D analytic geometry, partial derivatives, multiple integrals and vector fields.

**Prerequisite:** MATH-202 with a minimum grade of C.

**MATH-203W. Calculus III & Math Enrichment Workshop. 4 Hours.**

This course focuses on three-dimensional analytic geometry, partial derivatives and multiple integrals. Each week students will participate in an enrichment workshop where they will collaboratively solve calculus III problems within peer groups while receiving guidance from a Peer Leader. The workshop draws on the Peer Led Team Learning and Emerging Scholars Program models, which have been nationally identified for increasing students' probability of earning higher grades in their mathematics courses. Students will pay a \$25 fee to support the workshop.

**Prerequisite:** MATH-202 with a minimum grade of C.

**MATH-204. Math Enrichment Workshop For Math 203. 1 Hour.**

Mathematics enrichment workshop for students currently enrolled in MATH-203. The workshops draw on the Peer Led Team Learning (PLTL) and Emerging Scholars Program (ESP) models, which have been nationally identified for increasing students' probability of earning higher grades in their required mathematics courses. Workshop participants will attend a workshop during the same day and time each week; collaboratively solve problems related to their standard Math 203 course within small peer groups; receive guidance from math instructors who are specially trained to facilitate the workshops; and participate in social events with workshop peers during the semester.

**Corequisite:** MATH-203.

**MATH-251W. Introduction To Advanced Mathematics & Math Enrichment Workshop. 5 Hours.**

Math 251 is a bridge course between calculus and advanced mathematics. Students study the tools and proof techniques that serve as the basis for theoretical mathematics. Each week students will participate in an enrichment workshop where they will collaboratively solve Math 251 problems within peer groups while receiving guidance from a Peer Leader. The workshop draws on the Peer Led Team Learning and Emerging Scholars Program models, which have been nationally identified for increasing students' probability of earning higher grades in their mathematics courses. Students will pay a \$25 fee to support the workshop.

**Prerequisite:** MATH-187 with a minimum grade of C or (NEIU Math Placement Result with a score of 40 and ENGL-101 with a minimum grade of C).

**MATH-252. Math Enrichment Workshop For Math 251. 1 Hour.**

Mathematics enrichment workshop for students currently enrolled in MATH-251. The workshops draw on the Peer Led Team Learning (PLTL) and Emerging Scholars Program (ESP) models, which have been nationally identified for increasing students' probability of earning higher grades in their required mathematics courses. Workshop participants will attend a workshop during the same day and time each week; collaboratively solve problems related to their standard Math 251 course within small peer groups; receive guidance from math instructors who are specially trained to facilitate the workshops; and participate in social events with workshop peers during the semester.

**Corequisite:** MATH-251.

**MATH-253. Linear Algebra I. 3 Hours.**

This course covers matrix theory and linear algebra. Linear algebra is the branch of mathematics that studies systems of linear equations and the properties of matrices, which includes among other topics: vector spaces; linear transformations and the matrices that represent them; determinants and inner product spaces; and properties of vectors in n-dimensional space and their applications. Linear algebra has a broad range of applications and is critical to many disciplines such as physics, the social and natural sciences, engineering, and economics.

**Prerequisite:** MATH-187 with a minimum grade of C or MATH-107 with a minimum grade of C.

**MATH-262. Mathematics Enrichment Workshop For Calculus II. 1 Hour.**

Enrichment Seminar accompanying MATH-202. Students do problem solving in collaborative learning groups on material derived from and supplementing Calculus II to gain a deeper understanding of concepts and applications.

**Corequisite:** MATH-202.

**MATH-273. Statistics With Applications. 4 Hours.**

**Prerequisite:** (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120 or SAT Math 530 - 800 or Accuplacer Adv. Algebra & Func 237 - 300).

**MATH-275. Applied And Computational Statistics. 4 Hours.**

This course introduces students to the basic concepts, logic, and issues involved in statistical reasoning with wide variety of applications. It is designed to familiarize students with statistical vocabulary and concepts. Major topics include exploratory data analysis, an introduction to research methods, probability, statistical inference, and regression-based analysis of well-defined examples from biology, ecology, environmental sciences, finance, medicine, public health, psychology, and sociology. Computing will be carried out using R or any appropriate statistical software in the course.

**MATH-280. Geometry Concepts For Educators And Art. 4 Hours.**

This course focuses on the concepts of plane and solid geometry and trigonometry. Course design incorporates the Illinois Learning Standards for Mathematics K-12, the National Council of Teachers of Mathematics Teaching Principles, Standards, and Expectations, and a focus on preparing future educators in the implementation of interdisciplinary math and science curricula. The topics include basic definitions and properties of plane and solid figures, congruence, similarity, constructions, measurements, transformations, Pythagorean theorem, right angle trigonometry, and the unit circle trigonometry. Problem solving using a calculator and computer programs is emphasized throughout. Writing assignments, coding in geometric constructions, and art are also part of the course. This course is paired and integrated with PHYS-108, and it is strongly suggested that they are taken together.

**Prerequisite:** MATH-150 with a minimum grade of C or MATH-151 with a minimum grade of C.

**MATH-281. Number Concepts For Educators. 4 Hours.**

This course contains a wide range of topics across number theory and measurement and is intended to give students a grasp of the depth and breadth of mathematics outside of the traditional course structure. Course design incorporates the Illinois Learning Standards for Mathematics K-12, the National Council of Teachers of Mathematics Teaching Principles, Standards, and Expectations, and a focus on preparing future educators in the implementation of interdisciplinary math and science curricula. Problem solving, estimation, measurements, and construction of simple theories of numbers will be treated with and without the use of technology. Writing assignments, as appropriate to the discipline, are part of the course. This course is paired and integrated with CHEM-108, and it is strongly suggested that they are taken together.

**Prerequisite:** MATH-150 with a minimum grade of C or MATH-151 with a minimum grade of C or MATH-141 with a minimum grade of C.

**MATH-300. Interdisciplinary Seminar In STEM. 2 Hours.**

This course uses a hands-on approach to modern inquiry-based research problems and techniques in the physical and computational sciences. The course is structured around a series of modular problem-based exercises, covering topics from the fields of Chemistry, Computer Science, Earth Science, Mathematics and Physics and is designed to provide the content and pedagogical background for students to be successful peer leaders. The cross-disciplinary modules will draw connections between scientific disciplines, and showcase common research tools and techniques used in the sciences. The workshop will also incorporate discussions on a range of topics, from scientific ethics, scientific methodology and error analysis.

**Prerequisite:** MATH-185 with a minimum grade of C.

**MATH-301. Ordinary Differential Equations I. 4 Hours.**

This course focuses on the techniques and applications of solving ordinary differential equations, with a focus on first and second order differential equations. Topics include: constant coefficients, nonlinear, numerical methods, Laplace transform, series solutions, and geometric techniques.

**Prerequisite:** MATH-203 with a minimum grade of C.

**MATH-302. Ordinary Differential Equations II. 3 Hours.**

Linear and nonlinear systems, matrix methods and applications to problems in the sciences. Existence and stability theory. Boundary value problems and Fourier series.

**Prerequisite:** MATH-301 with a minimum grade of C.

**MATH-303. Partial Differential Equations. 3 Hours.**

This course covers linear partial differential equations that model physical problems and arise in a variety of contexts. Topics include the study of explicit formulas for solutions (when feasible) and study of the behavior of solutions. Equations covered include: wave equations, diffusion equations, and Laplace's equation on different domains. Other topics discussed are Fourier series, separation of variables, harmonic functions, and Green's functions.

**Prerequisite:** MATH-301 with a minimum grade of C.

**MATH-304. Introduction To Numerical Analysis. 3 Hours.**

Solutions of equations of one variable, interpolation and polynomial approximation, numerical integration and methods of solutions of linear systems.

**Prerequisite:** MATH-203 with a minimum grade of C and MATH-253 with a minimum grade of C and MATH-340 with a minimum grade of C.

**MATH-305. Probability And Statistics. 4 Hours.**

This course is an introduction to the probability and statistics. Topics include fundamental rules of probability, discrete and continuous distributions of random variables, central limit theorem, descriptive statistics, confidence intervals and hypothesis tests. Students will build on their basic knowledge of probabilities and distributions; illustrate statistical inference by constructing confidence intervals and hypothesis tests; and calculate basic statistical analysis manually and by computer software. Applications of probability and connections between probability and statistics are emphasized.

**Prerequisite:** MATH-202 with a minimum grade of C.

**MATH-306. Linear Programming And Extensions. 3 Hours.**

Linear Programming is the methodology that can be applied to optimize a linear function of several variables subject to linear constraints. This course focuses on geometric and algebraic foundations of Linear Programming and studies the Simplex Method and its variations, duality, Dual Simplex Method, sensitivity analysis, and methods of Integer Programming.

**Prerequisite:** MATH-203 with a minimum grade of C and MATH-253 with a minimum grade of C.

**MATH-307. Introduction To Stochastic Processes. 3 Hours.**

This course focuses on basic mathematical aspects of stochastic models with the emphasis on problem solving. Topics include Markov processes, Markov chains, and Queuing Theory.

**Prerequisite:** MATH-305 with a minimum grade of C or MATH-334 with a minimum grade of C.

**MATH-309. Numerical Analysis II. 3 Hours.**

Iterative methods for linear and non-linear systems of equations, approximation of eigenvalues, initial value problems, ordinary and partial boundary value problems and approximation theory.

**Prerequisite:** MATH-304 with a minimum grade of C.

**MATH-311. Writing Intensive Program: Introduction To Advanced Mathematics. 5 Hours.**

A bridge course between calculus and advanced mathematics. Students study the tools and proof techniques that serve as the basis for theoretical mathematics. Mathematical structure and the development of proficiency in reading, analyzing and constructing mathematical proofs are emphasized. Topics include logic, set theory, methods of proof, combinatorics, relations, functions and cardinality.

**Prerequisite:** (MATH-187 with a minimum grade of C or MATH-107 with a minimum grade of C or NEIU Math Placement Result with a score of 40) and ENGL-101 with a minimum grade of C.

**MATH-312. Foundations Of Geometry. 3 Hours.**

This course is a rigorous study of Euclidean and non-Euclidean geometries. Topics include transformational and projective geometry, axiomatic systems, and models.

**Prerequisite:** MATH-253 with a minimum grade of C and (MATH-251 with a minimum grade of C or MATH-311 with a minimum grade of C).

**MATH-315. Introduction To Applied And Computational Topology. 3 Hours.**

This course is an introduction to the mathematical field of topology, with a focus on applications and computational techniques. Examples of topology topics covered may include but are not limited to manifolds, complexes, sequences, homology and persistent homology, homotopy, the Euler characteristic, Morse theory. Examples of applications topics covered may include but are not limited to robotics, phylogenetic trees, topological data analysis (TDA,) and graph theory. Students will complete a project exploring a specific application of topology to a problem of their choice.

**Prerequisite:** MATH-311 with a minimum grade of C or MATH-251 with a minimum grade of C.

**MATH-321. History Of Mathematics. 3 Hours.**

History of Mathematics is a chronological survey of the historical growth of mathematical ideas from its non-Western origins to the modern day. This includes famous mathematicians and their contributions to the development of modern mathematics. Specific themes may be chosen to align with faculty and/or student interest.

**Prerequisite:** MATH-187 with a minimum grade of C and (MATH-251 with a minimum grade of C or MATH-311 with a minimum grade of C).

**MATH-322. Number Theory. 3 Hours.**

This course focuses on integers and their fundamental properties, congruences, quadratic residues, Diophantine equations, primitive roots and discrete logarithms, and cryptography.

**Prerequisite:** MATH-251 with a minimum grade of C and MATH-253 with a minimum grade of C.

**MATH-324. Independent Study In Mathematics. 3 Hours.**

This course offers students an opportunity to conduct an individualized investigation into a mathematical topic with a mathematics department faculty. The mathematical topic is a topic that would not normally be discussed in the current courses being offered by the math department. The course requires the approval of the instructor, department chair, and the Dean.

**MATH-326. Real Analysis. 3 Hours.**

An introduction to the methods of classical analysis as applied to the formulation of the theory of Riemann integrable functions and to the theoretical examination of the behavior of sequences and series of functions of a real variable.

**Prerequisite:** MATH-338 with a minimum grade of C.

**MATH-328. Complex Variables. 3 Hours.**

This course is an introduction to the functions of a complex variable. Topics include elementary functions of a complex variable, Cauchy-Riemann Equations, Cauchy integral theorems, Taylor and Laurent series expansions, contour integrals, and residue calculus.

**Prerequisite:** MATH-203 with a minimum grade of B or MATH-338 with a minimum grade of C.

**MATH-331. Abstract Algebra I. 3 Hours.**

This course is an introduction to the mathematical theory of groups. Topics include: properties of groups, homomorphisms, isomorphisms, Lagrange's Theorem and factor groups. Students will build on their basic knowledge of number systems, linear algebra, set theory, functions and mathematical proofs in order to understand, construct and apply algebraic proofs; illustrate algebraic concepts or disprove false statements by providing examples; and calculate with algebraic objects. Applications of algebra and connections between algebra and other fields of mathematical study are emphasized.

**Prerequisite:** MATH-253 with a minimum grade of C and (MATH-251 with a minimum grade of C or MATH-311 with a minimum grade of C).

**MATH-332. Abstract Algebra II. 3 Hours.**

This course is a continuation of Math 331 with a focus on the mathematical theory of rings and fields. Topics include: ideals, factor rings, finite fields, field extensions, and selected applications. Students will build on their prior knowledge of algebraic systems and algebraic proofs in order to understand, construct, and apply proofs about rings and fields; illustrate ring- and field- theoretic concepts or disprove false statements by providing examples; and calculate with algebraic objects. Applications of algebra and connections between algebra and other fields of mathematical study are emphasized.

**Prerequisite:** MATH-331 with a minimum grade of C.

**MATH-334. Mathematical Statistics I. 3 Hours.**

This course is an introduction to probability and mathematical statistics. Topics include fundamental rules of probability, expectations, moment generating functions, common distributions and central limit theorem. The mathematical theories to develop probability and statistical methods are emphasized in this course.

**Prerequisite:** MATH-203 with a minimum grade of C.

**MATH-336. Statistical Inference. 4 Hours.**

Statistical inference is the process of drawing conclusions about populations or scientific truths from data. This course presents the fundamentals of inference in a practical approach for statistical analysis procedures, such as interval estimation, tests of hypothesis, general procedures for developing tests, analyzing different types of data, and linear regression. After taking this course, students will understand the broad directions of statistical inference and use this information for making informed choices in analyzing data using computer software.

**Prerequisite:** MATH-334 with a minimum grade of C or MATH-305 with a minimum grade of C.

**MATH-337. Theory Of Equations. 3 Hours.**

This course is an advanced study of algebraic equations. Topics include the existence and properties of solutions, and algebraic, numerical, and algorithmic methods of solving equations.

**Prerequisite:** MATH-253 with a minimum grade of C and (MATH-251 with a minimum grade of C or MATH-311 with a minimum grade of C).

**MATH-338. Introduction To Real Analysis. 3 Hours.**

This course is an introductory course in the theory of functions of a real variable. It develops the properties of the real numbers as a complete ordered field and introduces the topological concepts of neighborhoods, open sets, closed sets, and compact sets. Based on this, the course provides a rigorous treatment of: a) sequences of real numbers (convergence, boundedness, upper and lower limits); b) real functions of a single variable including continuity, uniform continuity (optional), differentiability, integrability, and related properties; c) series of real numbers (convergence and absolute convergence); d) introduction to function series (power series).

**Prerequisite:** MATH-203 with a minimum grade of C and MATH-251 with a minimum grade of C.

**MATH-339. Vector Calculus. 4 Hours.**

This course is a natural extension of differential and integral calculus, where the variables and values of functions are vectors instead of numbers. Such concepts as limits and continuity, derivatives and integrals, extrema and approximation are generalized for multi-dimensional Euclidean spaces. The course also introduces vector fields, line and surface integrals as well as fundamental theorems based on these concepts.

**Prerequisite:** MATH-203 with a minimum grade of C and MATH-253 with a minimum grade of C.

**MATH-340. Computing For Mathematicians. 4 Hours.**

Fundamentals of computer programming, experimentation, and simulation in mathematics with Maple and Fortran programming language. Introduction to documentation, electronic communication and problem solving in mathematical sciences. No prior computer skills required.

**Prerequisite:** MATH-202 with a minimum grade of C.

**MATH-343. Linear Algebra II. 3 Hours.**

Linear Algebra arose from studying systems of linear equations and their geometric applications. Linear Algebra is the study of vector spaces and the linear maps between them. This second course in Linear Algebra will emphasize theoretical implications and will focus on “why” and “how” questions, such as how can we use eigenvectors and eigenvalues of a linear operator to study the operator itself and the vector space that it acts on. Particular topics that will be covered are: abstract vector spaces; invariant subspaces; Spectral Theorem; LU, QR, and SVD factorizations; Jordan Form; and various computational methods.

**Prerequisite:** MATH-203 with a minimum grade of C and MATH-253 with a minimum grade of C.

**MATH-347. Probability For Actuaries With Actuarial Exam Preparation. 4 Hours.**

This course is a probability class tailored for students/professionals pursuing a career in the actuarial profession (such as, but not limited to, insurance, finance, banking, and industries) and/or are preparing for the actuarial exams. The course provides knowledge of the fundamental probability tools for quantitatively assessing risk and the application of these tools to problems encountered in actuarial science is emphasized. Topics include general probability theory, counting techniques, combinatorial probabilities, random variables with univariate and/or multivariate probability distributions, and The Central Limit Theorem.

**Prerequisite:** MATH-203 with a minimum grade of C.

**MATH-357. Financial Mathematics For Actuaries With Actuarial Exam Preparation. 4 Hours.**

This course is a financial mathematics class tailored for students/professionals pursuing a career in the actuarial profession (such as, but not limited to, insurance, finance, banking, and industries) and/or are preparing for the actuarial exams. The course provides an understanding of the fundamental concepts of financial mathematics, and how those concepts are applied in calculating present and accumulated values for various streams of cash flows such as, loans, annuities, rate of return of an investment, bonds, stocks, and financial derivatives.

**Prerequisite:** MATH-347 with a minimum grade of C or MATH-305 with a minimum grade of C or MATH-334 with a minimum grade of C.

**MATH-361. Set Theory. 3 Hours.**

Set theory is one language/structure that mathematics is constructed within. In this course a brief, but rigorous, history of set theory will be given that pays particular attention to the necessary modifications that have been made throughout the twentieth century. Particular attention will be paid to understanding the Axiom of Choice, Zorn's Lemma, and the Well Ordering Principle. Additional topics might include gentle introductions to Category Theory, Topos Theory, Axiomatic Set Theory, or Gödel's Incompleteness theorem.

**Prerequisite:** MATH-311 with a minimum grade of C.

**MATH-362. Metric Spaces And Topology. 3 Hours.**

This course is an introduction to topological spaces with an emphasis on metric spaces. The covered topics include open neighborhoods, limits, closure/interior/boundary of topological/metric spaces; functions, continuity, homeomorphism between topological/metric spaces; and product of topological/metric spaces. The concepts of connectedness, compactness, and completeness will be studied along with fundamental results and examples. This course forms a foundation for all advanced courses in analysis and geometry.

**Prerequisite:** MATH-311 with a minimum grade of C.

**MATH-365. Statistical Computer And Data Analysis Packages. 3 Hours.**

This course introduces statistical programming packages R and SPSS. Students will use the statistical software to: study basic functions and graphs; give descriptive analysis; implement testing; and study various modeling techniques.

**Prerequisite:** MATH-305 with a minimum grade of C or MATH-334 with a minimum grade of C.

**MATH-370. Mathematical Modeling In The Natural Sciences. 4 Hours.**

This course focuses on the formulation, analysis, and interpretation of mathematical models describing certain phenomena in the natural sciences. Topics include: difference equations, systems of difference equations, nonlinear difference equations, continuous models, phase planes – stability analysis, and limit cycles.

**Prerequisite:** MATH-202 with a minimum grade of C.

**MATH-371. Mathematical Modeling For Cancer Risk Assessment. 4 Hours.**

The Cancer Modeling Seminar is an essential educational component for students from the Complex Systems minor, Physics, Chemistry and Biomathematics. The course consists of lectures, research projects, interdisciplinary collaborations, presentations and/or posters and conference trips. Students will experience first-hand the research process, employ data analysis tools, contribute, discuss and present their projects under the guidance of the course instructor and experts in cancer research. Students will also learn advanced, high-quality typesetting systems designed for technical and scientific documentation and presentation.

**Prerequisite:** MATH-187 with a minimum grade of C and (MATH-275 with a minimum grade of C or MATH-305 with a minimum grade of C).

**MATH-374. Modeling And Simulations Of Complex Systems Networks. 4 Hours.**

This course covers basic mathematical and statistical methods for analyzing computational spatial models in various applications, focusing on individual attributes (social influence or contagion) and network structure of groups. The course will incorporate simple graph theoretical approaches as well as construction and analysis of network-based models (NBM) and agent-based models (ABM) with complex systems applications from epidemiology, finance/business, medicine, psychology, and social sciences. The NBM involves the characterization of the structures of social networks or subsets of these networks to understand their influence on behaviors and outcomes. The ABM involves the use of stochastic analysis and simulations of individuals, in space, over time to understand how macro-level distribution patterns of outcomes may emerge from explicitly modeled, micro-level behaviors, social interactions, and movement of these individuals in their environments. Students will interpret published research and produce a research proposal by the end of the semester.

**Prerequisite:** (MATH-173 - 499 or MATH-173A - 499Z or NEIU Math Placement Result 35 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 031 - 120 or SAT Math 530 - 800 or Accuplacer Adv. Algebra & Func 250 - 300).

**MATH-376. Introduction To Risk Analysis. 3 Hours.**

The Introduction to Risk Analysis course is an applied method course focusing on the application of statistical analysis methods on economics using Risk Analysis approaches. Topics include but are not limited to basic concepts of risk analysis, probability theory, probabilistic modeling and application to research projects.

**Prerequisite:** MATH-187 with a minimum grade of C.

**MATH-380. Calculus Concepts For Educators. 3 Hours.**

This course provides a foundational experience in calculus through an emphasis on topics related to middle school teaching. Course design incorporates the Illinois Learning Standards for Mathematics K-12, the National Council of Teachers of Mathematics Teaching Principles, Standards, and Expectations, and a focus on preparing future educators in the implementation of interdisciplinary math and science curricula. Topics include: functions, deriving formulas for patterns, direct and recursive sequence formulas, arithmetic and geometric sequence formulas, limits of sequences, convergence/divergence of sequences, series, derivatives, integration, the fundamental theorem of calculus, and differential equations. Course integrates conceptual, content specific, and pedagogical knowledge. Course includes applications to ecology, finance, middle school teaching, and technology. This course is paired and integrated with BIOS-310, and it is strongly suggested that they are taken together.

**Prerequisite:** MATH-150 with a minimum grade of C or MATH-151 with a minimum grade of C.

**MATH-381. Concepts In Discrete Mathematics For Educators. 3 Hours.**

This course provides a foundational experience in discrete mathematics through an emphasis on topics in graph theory. Course design incorporates the Illinois Learning Standards for Mathematics K-12, the National Council of Teachers of Mathematics Teaching Principles, Standards, and Expectations, and a focus on preparing future educators in the implementation of interdisciplinary math and science curricula. Students will learn about mathematics as an active process of making conjectures, testing ideas, and proving conclusions. Special emphasis is given to mathematical communication, problem-solving, and applications to the sciences. Possible topics include: the Four Color Theorem, trees, digraphs, bipartite graphs, planar graphs, Platonic solids, Euler and Hamilton circuits, the P+NP Problem, algorithms and combinatorial explosion. Course integrates conceptual, content specific, and pedagogical knowledge.

**Prerequisite:** MATH-150 with a minimum grade of C or MATH-151 with a minimum grade of C.

**MATH-390. Capstone Seminar In Mathematics. 3 Hours.**

This course is one of the capstone experience options in the Mathematics Major program. Students will choose a topic in Mathematics or a Mathematics related field and study various approaches to solving the selected problem. At the end of the term students are expected to produce a paper with: description of the problem and its connections to students' professional and/or personal interests; survey of literature with formulations of competing mathematical methods for solving the problem; analysis of the efficiency of the surveyed methods. The course also includes discussions of students' professional development.

**MATH-406. Linear Programming: Theory And Practice. 3 Hours.**

Optimization models; theoretical foundations of simplex algorithms and duality; revised and dual algorithms; sensitivity and analysis; additional topics from extended LP integer programming, networks, recent trends.

**MATH-408. Mathematics Structures For Elementary School Teachers I. 3 Hours.**

Mathematics topics and techniques that are relevant to advanced mathematics learning and the teaching of mathematics in the schools: Elementary logic, elementary sets, binary operations, introduction to algebraic structures, number systems, geometry and elements of graph theory.

**MATH-409. Mathematical Functions For Elementary School Teachers I. 3 Hours.**

For elementary school teachers. The function concept; polynomial functions; solution of linear and quadratic equations; simultaneous equations; the binomial theorem; circular functions; solution of triangles; trigonometric identities and equations; exponential and logarithmic functions; rectangular and polar coordinate systems; the conic sections. Graphics calculator required.

**Prerequisite:** MATH-408 with a minimum grade of C.

**MATH-410. Modern Analysis For The Elementary School Teacher. 3 Hours.**

Limits and continuity, derivatives, applications, integral calculus, applications.

**Prerequisite:** MATH-435 with a minimum grade of C.

**MATH-421. Modern Geometry. 3 Hours.**

Classification of geometrical systems; introduction to Euclidean and non-Euclidean geometries, projective geometry; finite geometries.

**Prerequisite:** MATH-312 with a minimum grade of C.

**MATH-430. Discrete Mathematical Structures. 3 Hours.**

Provides a working knowledge of mathematical logic, sets, relations, functions, graphs, and counting techniques.

**MATH-432. Applied Combinatorics. 3 Hours.**

The course offers broad exposure to combinatorial mathematics using applications to emphasize fundamental concepts and techniques, including graph theory, inclusion/exclusion principle, graph algorithms, and network flows.

**Requirement:** Admission to MS in Mathematics program or approval of the instructor or graduate advisor in the math department.

**MATH-435. Mathematics Structure II. 3 Hours.**

The real number system, mathematical systems, inductive and deductive methods, permutations and combinations.

**Prerequisite:** MATH-408 with a minimum grade of C.

**MATH-436. Modern Algebra. 3 Hours.**

**Prerequisite:** MATH-331 with a minimum grade of C.

**MATH-439. Computers In Education. 3 Hours.**

Investigation into the use of computers for CAI, statistical packages and solutions of mathematical problems. Students learn to write programs in Basic.

**Prerequisite:** MATH-438 with a minimum grade of C.

**MATH-441. Multivariate Statistical Analysis. 3 Hours.**

The essential methods of the multivariate statistical analysis; Hotelling's T, discriminant function, principal components, factor analysis, canonical correlations and cluster analysis with emphasis on application and real data analysis.

**Prerequisite:** MATH-336 with a minimum grade of C.

**MATH-442. Applied Regression Analysis. 3 Hours.**

Methodology of regression analysis with attention to model building, evaluating fit, and examining reliability of the model; regression and general least squares theory, estimation of regression coefficients, polynomial regression, step-wise regression, residual analysis, choice of transformation for variable and forecasting; with applications and real data analysis.

**Prerequisite:** MATH-336 with a minimum grade of C.

**MATH-443. Experimental Design. 3 Hours.**

One-way and two-way analysis of variance, fixed and random effects models, multiple comparisons, completely randomized and randomized block designs.

**Prerequisite:** MATH-336 with a minimum grade of C.

**MATH-444. Problem Solving, Modeling, And Project In Mathematics With Technology. 3 Hours.**

This course is problem-solving and project-oriented and provides students with the background in computers and technology needed to effectively teach mathematics in middle or secondary schools. The course will introduce geometric visualization technology (e.g., Geometer's Sketchpad), statistical packages (e.g., Minitab, R), and other technologies (e.g., excel software) as problem-solving tools in mathematical modeling in geometry and statistics. Additionally, this course will provide an introduction to research methods and equity-based grading practices in the mathematical sciences.

**MATH-457. Recent Trends In Mathematics. 3 Hours.**

Extended applications of mathematical thinking, operations research, mathematical models, information theory, theory of games, and linear programming.

**Prerequisite:** MATH-435 with a minimum grade of C.

**MATH-465. Advanced Topics In Numerical Analysis. 3 Hours.**

This course aims to teach participants advanced theories, algorithms and computational techniques of numerical analysis. Topics include numerical linear algebra, iteration methods and convex programming, numerical methods for ordinary and partial differential equations, functional approximation and data analysis, digital spectral analysis, design and analysis of mathematical software, and mathematical methods in computer graphics. Participants will become familiar with the process of solving scientific and engineering problems by applying/modifying numerical algorithms that are implemented in standard software packages, designing new algorithms, conducting analysis on accuracy, efficiency and stability, as well as interpreting computational results through graphics and simulations.

**Prerequisite:** MATH-304 with a minimum grade of C.

**MATH-466. Galois Theory: Historical And Modern. 3 Hours.**

Classical and modern Galois theory. Cardano's formulas, symmetric polynomials, permutation groups, field extensions, field automorphisms, the fundamental theorem of Galois theory.

**Prerequisite:** MATH-331 with a minimum grade of C.

**MATH-471. Introduction To Stochastic Models. 3 Hours.**

Markov Chains: the Poisson process; continuous time Markov processes; Renewal Theory; Queuing Theory.

**Prerequisite:** MATH-305 with a minimum grade of C.

**MATH-472. Simulation Modeling And Analysis. 3 Hours.**

Design and analysis of computer simulations of complex systems. Network, discrete event and continuous models are treated in a unifying setting. Computer model of a variety of systems are implemented and analyzed using a general purpose simulation language.

**Prerequisite:** MATH-334 with a minimum grade of C.

**MATH-473D. Advanced Topics In Operations Research: Decision Theory. 3 Hours.****MATH-474. Mathematical Modeling. 3 Hours.**

Formulation, analysis and interpretation of mathematical models describing phenomena from the natural and social sciences. Topics may include: model construction, explicative versus predictive models, model fitting, optimization, empirical models, simulation models, dynamical models, dimensional analysis and other related topics. A term project (team or individual) will be required.

**MATH-475. Advanced Topics In Operations Research: Mathematical Programming. 3 Hours.**

This course offers an overview of deterministic optimization models and methods including linear programming methods, multi-objective optimization, methods of discrete optimization, and nonlinear programming methods.

**Prerequisite:** MATH-253 with a minimum grade of C and MATH-339 with a minimum grade of C.

**MATH-477. Risk Analysis. 3 Hours.**

This course introduces students to the application of statistical analysis in economics using risk analysis. Students will use probability theory, probabilistic modeling, and statistical tools to analyze case studies and current research in risk analysis.

**MATH-491. Independent Study In Mathematics. 1 Hour.**

Individual investigation into a topic of interest of the student's choice.

**MATH-492. Independent Study In Mathematics. 2 Hours.**

(See MATH-491 for descriptions.).

**MATH-493. Independent Study In Mathematics. 3 Hours.**

(See MATH-491 for descriptions.).

**MATH-495. Project In Mathematics. 3 Hours.**

Students prepare a project involving both the theory and computational tools learned in their concentration. Students present both written and oral reports to the department.

**MATH-5901. Thesis Hours. 1 Hour.**

Guidance of students conducting research and writing a thesis to fulfill requirements for the Master of Science degree in Mathematics is conducted in this course. Students may register for 1-4 credits per term with 6 credits required for the thesis option of the Master of Science in Mathematics. All MATH-590 credits must be earned within the equivalent of 2 academic years.

**MATH-5902. Thesis Hours. 2 Hours.**

See course description for MATH-5901.

**MATH-5903. Thesis Hours. 3 Hours.**

See course description for MATH-5901.

# Middle Schl Educ & Tchng (MLED)

---

## Courses

### **MLED-301. Curriculum & Instruction In The Middle School. 3 Hours.**

The relationship of theory to practice is studied in a variety of middle school curricula. Analyses and interpretations of teaching-learning processes are conducted. Special attention is directed to: (1) instructional objectives in planning, (2) application of theories of adolescent development, learning, classroom management, and instructional methodology to multicultural curriculum development, (3) unit and lesson planning, and (4) evaluation techniques. Strategies for meeting the needs of students with special needs are explored.

### **MLED-302. Writing Intensive Program: Foundations Of Teaching English Language Arts In Middle Grades. 3 Hours.**

This course is designed to provide candidates with an overview of the theory, best practices, curriculum design, and materials used in teaching language arts at the middle school level grades 5-8. Language Arts instruction includes mastery of six language arts competencies: reading, writing, listening, talking, viewing and visual representation. The course addresses differentiating instruction to meet the needs of diverse learners with attention to special needs students and English learners. This is a writing intensive course affording students the opportunity to demonstrate competency in writing in various genres.

**Prerequisite:** College of Education Admission with a score of Y.

**Corequisite:** ELED-308.

### **MLED-304. Inquiry-Based Social Studies In The Middle Grades. 3 Hours.**

This course explores teaching, learning, and curriculum in middle grade social studies. The course has an emphasis on creating an interdisciplinary inquiry-based social studies classroom, designing project-based curriculum units, and finding and teaching with real-world resources. The course explores the vital role of social studies in a democratic society, social responsibility, teaching critical thinking, decision-making, and problem solving skills, and includes a focus on curricular integration of cultural diversity, global awareness, technology, and integrating literature in social studies. Students will also explore integrating standards and teaching skills for reading and writing informational texts in social studies.

**Prerequisite:** College of Education Admission with a score of Y.

### **MLED-305. Methods Of Teaching Science In Middle School. 3 Hours.**

This course prepares middle level teacher candidates to teach science skills and content. Emphasis is upon the nature of science and scientific inquiry, interdisciplinary inquiry-based teaching, multicultural science teaching, classroom management, data-driven assessments, science and civic engagement (i.e., service learning), and contemporary research and practice for science pedagogy in grades 5-8. Innovative education technology is applied to promote candidates' problem solving and effective science teaching and learning as an integral aspect of the course.

**Prerequisite:** College of Education Admission with a score of Y.

### **MLED-306. Methods Of Literacy Education In Middle School. 3 Hours.**

This course is designed for candidates to develop the knowledge and skills to teach literacy in middle level classrooms, grades 5-8. Content includes: learning theories, vocabulary, comprehension, the writing process, assessment, and differentiation. Issues of diversity and equity as they relate to literacy teaching and learning in today's 21st century context will be threaded throughout the course and grounded in research on adolescent development.

**Prerequisite:** BLBC-339 with a minimum grade of B and MLED-328A with a minimum grade of B and ELED-303 with a minimum grade of B and MLED-309 with a minimum grade of B.

### **MLED-309. Reading And Writing In The Content Areas. 1.5 Hour.**

In this course candidates will develop the knowledge, skills, and understandings to support the literacy development of students in middle grades (5-8) with a focus on literacy in the content areas. Topics include: learning theories, literacy strategies in the disciplines, assessment, differentiation, use of informational text, technology, and planning for instruction. Issues of motivation, engagement, and cultural relevance are integrated throughout.

**Prerequisite:** ELED-300 with a minimum grade of B and SPED-317 with a minimum grade of B and MLED-302 with a minimum grade of B and (MLED-310 with a minimum grade of B or MLED-305 with a minimum grade of B or MLED-304 with a minimum grade of B).

**Corequisite:** ELED-303.

### **MLED-310. Math Methods In The Middle Grades. 3 Hours.**

This course is a study of instructional methods and materials for teaching mathematics to middle level students, including linguistically, culturally diverse learners and exceptional children. Students explore theoretical and practical frameworks and develop materials, techniques, and assessments for the teaching of middle school mathematics in grades 5-8. Students engage in mathematical processes to promote critical thinking and explore middle level math concepts and skills. Problem solving, modeling, and teaching middle school mathematics in interdisciplinary contexts are emphasized.

**Prerequisite:** College of Education Admission with a score of Y.

### **MLED-328A. Clinical Experience English Learners In Middle Grades. 3 Hours.**

This course provides teacher candidates who are enrolled in BLBC-339 Culturally Responsive Teaching in Diverse Classrooms with intensive clinical experience in grades 6-8 middle level classrooms with culturally and linguistically diverse (CLD) students. This course provides candidates with opportunities for observations and supervised teaching with English learners. Candidates meet with a university supervisor in weekly seminars. This course fulfills 100 clock hours of the 200 clinical experience hours required by the State for certification/licensure.

**Prerequisite:** ELED-300 with a minimum grade of B and SPED-317 with a minimum grade of B and MLED-302 with a minimum grade of B and (MLED-304 with a minimum grade of B or MLED-305 with a minimum grade of B or MLED-310 with a minimum grade of B).

**MLED-328B. Clinical Experience Literacy In Middle Grades. 3 Hours.**

This seminar provides clinical experience in middle school for students enrolled in MLED-306. The clinical involves observation and supervised teaching with a focus on literacy in grades 6#8 classrooms. The seminars will provide an overview and preparation to complete edTPA during student teaching. This course fulfills 100 of the 200 required clock hours of clinical experiences.

**Prerequisite:** BLBC-339 with a minimum grade of B and MLED-309 with a minimum grade of B and ELED-303 with a minimum grade of B and MLED-328A with a minimum grade of B.

**MLED-328M. Clinical Experiences In Elementary/Middle School Math. 1 Hour.**

A supervised clinical experience designed with less emphasis on observational experiences and more on direct involvement in the instructional process. Includes a biweekly seminar meeting on campus and 50 clock hours of individual visits to a local K-8 school with a strong emphasis on middle level mathematics teaching that effectively integrates science into the curriculum. Must be taken with the academic methods course and academic and clinical experiences courses for science. Currently taken only by MSTQE math-science minors in the term before student teaching and completion of the program.

**Prerequisite:** MLED-301 with a minimum grade of C and MLED-340 with a minimum grade of C and MLED-335 with a minimum grade of C.

**MLED-328S. Clinical Experiences In Elementary/ Middle School Science. 1 Hour.**

A supervised clinical experience designed with less emphasis on observational experiences and more on direct involvement in the instructional process. Includes a biweekly seminar meeting on campus and 50 clock hours of individual visits to a local K-8 school with a strong emphasis on middle level science teaching that effectively integrates mathematics into the curriculum. Must be taken with the academic methods course and academic and clinical experiences courses for mathematics. Currently taken only by MSTQE math-science minors in the term before student teaching and completion of the program.

**Prerequisite:** MLED-301 with a minimum grade of C and MLED-340 with a minimum grade of C and MLED-335 with a minimum grade of C.

**MLED-329. Student Teaching In The Middle School. 7.5-9 Hours.**

This course is 16 weeks of full#day student teaching under the tutelage of a licensed cooperating teacher in a middle school classroom in the candidate's endorsement area. Candidates are required to take full responsibility for a class of middle school students, attend weekly seminars, and prepare for regular visits with the university supervisor.

**Prerequisite:** Illinois Content Area Test with a score of P and MLED-328A with a minimum grade of B and MLED-328B with a minimum grade of B.

**MLED-329B. Student Teaching In Middle Grades. 3.75 Hours.**

This course provides the teacher candidate with sixteen weeks of full day supervised classroom teaching experience combined with a weekly seminar.

**Requirement:** Successful completion of all program courses with a minimum GPA of 3.0. Passing scores on content area tests.

**MLED-335. Teaching Science At The Middle School/ Elementary Levels W/ Problem Solving. 3 Hours.**

A study of instructional methods and materials for teaching science to all K-9 students, focusing on the development of lessons and units that promote scientific thinking, utilization of basic scientific principles, and inquiry approaches to learning. Strong emphasis on: (1) planning and methodology to meet the unique needs of middle school science students and (2) integrating mathematics throughout the middle school science curriculum. Includes 50 clock hours of clinical experience with local K-9 teachers of science who effectively integrate mathematics into curriculum.

**MLED-340. Teaching Mathematics At The Middle School/ Elementary Levels W/ Problem Solving. 3 Hours.**

A study of instructional methods and materials for teaching mathematics to all K-9 students, focusing on the development of lessons and units that promote mathematical thinking, utilization of basic mathematical principles, and inquiry approaches to learning. Strong emphasis on : (1) planning and methodology to meet the unique needs of middle school mathematics students and (2) integrating science throughout the middle school mathematics curriculum. Includes 50 clock hours of clinical experience with local k-9 teachers of mathematics who effectively integrate science into curriculum.

**MLED-350. Teaching Interdisciplinary Curriculum In Middle School. 3 Hours.**

This course focuses on the philosophy of teaching middle school and the theory and practice of designing interdisciplinary curriculum in the middle grades 5-8. The course explores the unique characteristics and integration of the organization of middle grades and teaching adolescents. The course includes designing projectbased learning across the disciplines, integrating 21st century skills, teaching through inquiry, and literacy across the curriculum. The course also studies thematic curriculum, integrating standards across the curriculum, working in collaborative teams, and a variety of authentic, formative, and summative assessments.

**Prerequisite:** BLBC-339 with a minimum grade of B and MLED-309 with a minimum grade of B and ELED-303 with a minimum grade of B and MLED-328A with a minimum grade of B.

**MLED-403. Methods Of Teaching Mathematics In Middle School. 3 Hours.**

This course involves the investigation and development of research, methodology, techniques, content, and teaching aids for the teaching of mathematical concepts to all middle grade students, grades 5-8, including special needs, EL, LEP, exceptional, and gifted in diverse, multicultural classrooms. Different instructional models will be explored, research methods considered, current resources identified, and collaborative efforts will be investigated. The course includes a focus on differentiation and appropriate classroom management techniques.

**MLED-415. Teaching Science As Inquiry In Middle School. 3 Hours.**

This course prepares middle level teacher candidates to teach science skills and content in grades 5-8. Emphasis is upon the nature of science and scientific inquiry, interdisciplinary inquiry-based teaching, multicultural science teaching, classroom management, formal and informal assessments, STEM (Science, Technology, Engineering, and Mathematics), science and civic engagement (i.e., service learning), and contemporary research and practice for science pedagogy for diverse adolescent learners. Innovative education technology is applied to promote candidates' problem solving and effective science teaching and learning as an integral aspect of the course.

**MLED-416. Social Studies As Inquiry In The Middle Grades. 3 Hours.**

This course is a study of the theory and practice of teaching social studies in middle grades 5-8. The course has an emphasis on creating an inquiry-based classroom and designing project-based units. The course explores the vital roles of social studies in a democratic society, including active and critical citizenship, social responsibility, teaching critical thinking, decision-making, and problem solving. The course focuses on curricular integration of cultural diversity, global awareness, technology, integrating literature, and strategies for reading and writing informational texts. The course includes teaching with standards and applying assessment strategies.

**MLED-428. Clinical Teaching In The Middle Grades. 1 Hour.**

This 100-hour clinical teaching experience involves supervised, graduated, and interactive teaching situations with students in culturally and linguistically diverse school settings. This clinical experience and seminar focus on literacy instruction in middle grade classrooms. Students will conduct classroom observations and practice teaching one-on-one, in small groups, and with the whole class. A university supervisor will observe students teaching a minimum of three times.

**MLED-428A. Clinical Experience: Literacy In The Middle Grades. 1 Hour.**

This 50-hour clinical teaching experience involves supervised and graduated literacy observation and teaching with middle level students in grades 5-8. This clinical experience has a thematic focus on teaching literacy (language arts). Students will conduct classroom observations and spend a minimum of 35 hours teaching literacy one-on-one, in small groups, and the whole class. A university supervisor will observe students teaching a minimum of two times.

**Corequisite:** ELED-504.

**MLED-428B. Clinical Experience English Learners. 1 Hour.**

This course provides teacher candidates who are enrolled in BLBC-440 Culture and Language in Diverse Classrooms with clinical experience in grades 5-8 in middle level elementary classrooms with culturally and linguistically diverse (CLD) students. This course provides candidates with opportunities for observation and teaching middle grade English learners. This course fulfills 50 clock hours of the 200 clinical experience hours required by the MAT/MLED program. MLED candidates will be observed teaching a minimum of two times by their University Supervisor.

**Corequisite:** BLBC-440.

**MLED-428C. Clinical Experience Endorsement Areas In The Middle Grades. 1 Hour.**

This 100-hour clinical experience involves supervised teaching with middle level students in grades 5-8 in the candidate's endorsement area (literacy, social studies, math, or science). All 100 hours will be in the endorsement area and participation in grade-level team activities. The clinical seminar is integrated into the methods courses being taken concurrently (LTCY-502, MLED-450 or EDFN-450, MLED-403, MLED-415, or MLED-416).

Students will conduct classroom observations and will spend a minimum of 75 hours teaching one-on-one, in small groups, and the whole class. A university supervisor will observe students teaching a minimum of three times. Taken concurrently with at minimum ONE of the following courses in the candidates' endorsement area: LTCY-502 Content Area Literacy; MLED-403 Teaching Math MG; MLED-415 Teaching Science MG; MLED-416 Teaching Social Studies MG.

**MLED-429. Internship In The Middle Grades. 6 Hours.**

This course is the seminar for student teaching in the middle grades. Candidates are engaged in full-time student teaching for 16 weeks in their endorsement area. With support from their Cooperating Teacher and University Supervisor students gradually increase their classroom responsibilities and then assume complete responsibility for all curriculum planning and teaching for five weeks. Students will design and teach an original instructional unit. In this course students complete their Teacher as Learner Presentation (TLP). The University Supervisor will observe candidates teaching a minimum of five times. Completion of all required content courses to earn the endorsement (math, science, literacy, social studies).

**Prerequisite:** ELED-506 with a minimum grade of C and EDFN-442 with a minimum grade of C and ELED-435 with a minimum grade of C and ELED-504 with a minimum grade of C and LTCY-402 with a minimum grade of C and SPED-404 with a minimum grade of C and BLBC-440 with a minimum grade of C and EDFN-405 with a minimum grade of C and ELED-525 with a minimum grade of C and MLED-450 with a minimum grade of C and MLED-428A with a minimum grade of B and MLED-428B with a minimum grade of B and MLED-428C with a minimum grade of B and (ELED-403 with a minimum grade of C or MLED-415 with a minimum grade of C or MLED-416 with a minimum grade of C).

**MLED-429B. Internship In The Middle Grades. 3 Hours.**

This course is the seminar for student teaching in the middle grades. Candidates are engaged in full-time student teaching for 16 weeks in their endorsement area. With support from their Cooperating Teacher and University Supervisor students gradually increase their classroom responsibilities and then assume complete responsibility for all curriculum planning and teaching for five weeks. Students will design and teach an original instructional unit. In this course students complete their Teacher as Learner Presentation (TLP). The University Supervisor will observe candidates teaching a minimum of five times. Completion of all required content courses to earn the endorsement (math, science, literacy, or social studies).

**Requirement:** Completion of all MAT MLED program courses, completion of all content courses required by the Illinois State Board of Education, passing score on the ICTS Subject Area Test, and no more than two Cs in all program courses and a minimum grade of B in both clinical courses.

**MLED-450. Interdisciplinary Curriculum Design In Middle School. 3 Hours.**

This course explores the unique philosophy of middle school and the design of interdisciplinary curriculum. MLED-450 includes the study of the theory, design, implementation, and practice of interdisciplinary curriculum in the middle grades 5-8. The course emphasizes designing authentic learning experiences, inquiry-based and project-based learning across the disciplines, and teaching literacy across the curriculum. The course also focuses on working in collaborative teams, connections to the school community, integrating standards, and a variety of forms of assessment. Taken concurrently with ONE of the following in the candidate's endorsement area: LTCY-502 Reading; MLED-403 Teaching Math; MLED-415 Inquiry Science MS; MLED-416 Social Studies MG.

**Prerequisite:** ELED-506 with a minimum grade of C and EDFN-442 with a minimum grade of C and ELED-435 with a minimum grade of C and ELED-504 with a minimum grade of C and LTCY-513 with a minimum grade of C and SPED-404 with a minimum grade of C and BLBC-440 with a minimum grade of C and EDFN-405 with a minimum grade of C and ELED-525 with a minimum grade of C.

# Military Science (MILS)

---

## Courses

### **MILS-101. Leadership & Personal Development. 1 Hour.**

This course introduces cadets and students to the personal challenges and competencies that are critical for effective leadership. Cadets learn how the personal development of life skills such as critical thinking, goal setting, time management, physical fitness, and stress management relate to leadership, officership, and the Army profession. The focus is on developing basic knowledge and comprehension of Army leader attributes and core leader competencies while gaining a big-picture understanding of ROTC, its purpose in the Army, and its advantages for the student.

### **MILS-102. Introduction To Tactical Leadership. 1 Hour.**

This course overviews leadership fundamentals such as setting direction, problem solving, listening, presenting briefs, providing feedback, and using effective writing skills. Cadets explore dimensions of leadership values, attributes, and competencies in the context of practical, hands-on, and interactive exercises. Continued emphasis is placed on recruitment and retention of Cadets. Cadre role models and the building of stronger relationships among the Cadets through common experience and practical interaction are critical aspects of the MILS-102 experience.

### **MILS-201. Innovative Team Leadership. 2 Hours.**

This course explores the dimensions of creative and innovative tactical leadership strategies and styles by examining team dynamics and two historical leadership theories that form the basis of the Army Leadership Requirements Model (trait and behavior theories). Students and Cadets practice aspects of personal motivation and team building in the context of planning, executing, and assessing team exercises and participating in optional leadership labs. Focus is on continued development of the knowledge of leadership values and attributes through an understanding of Army rank, structure, and duties, and basic aspects of land navigation and squad tactics. Case studies provide tangible context for learning the Soldier's Creed and Warrior Ethos as they apply in the Contemporary Operating Environment.

### **MILS-202. Foundations of Tactical Leadership. 2 Hours.**

This course examines the challenges of leading tactical teams in the complex COE. The course highlights dimensions of terrain analysis, patrolling, and operation orders. Further study of the theoretical basis of the Army Leadership Requirements Model explores the dynamics of adaptive leadership in the context of military operations. This course provides a smooth transition into MILS-301 for those cadets progressing into the Advanced Course of Army ROTC. Cadets develop greater self-awareness as they assess their own leadership styles and practice communication and team-building skills. COE case studies give insight into the importance and practice of teamwork and tactics in real-world scenarios.

### **MILS-301. Adaptive Team Leadership. 3 Hours.**

In this course you will study, practice, and apply the fundamentals of Army leadership, Officership, Army values and ethics, personal development, and small unit tactics at the team and squad level. At the conclusion of this course, you will be capable of planning, coordinating, navigating, motivating and leading a team or squad in the execution of a tactical mission during a classroom PE, a Leadership lab, or during a Situational Training Exercise (STX) in a field environment.

**Prerequisite:** MILS-101 with a minimum grade of C and MILS-102 with a minimum grade of C and MILS-201 with a minimum grade of C and MILS-202 with a minimum grade of C.

### **MILS-302. Applied Team Leadership. 3 Hours.**

This course is an academically challenging course where you will continue to study, practice, and apply the fundamentals of Army leadership, Officership, Army values and ethics, personal development, and small unit tactics at the team and squad level. At the conclusion of this course, you will be capable of planning, coordinating, navigating, motivating and leading a team or squad in the execution of a tactical mission during a classroom PE, a Leadership lab, or during a Situational Training Exercise (STX) in a field environment.

**Prerequisite:** MILS-301 with a minimum grade of C.

### **MILS-311. Developing Adaptive Leaders. 3 Hours.**

In this course, students are assigned the duties and responsibilities of an Army staff officer and must apply the fundamental principles of training, training management, the Army writing style and military decision making. Students will plan, execute and assess ROTC training and recruiting events; study the special trust proposed to Army Officers by the US Constitution and the President; study how Army values and leader ethics are applied today; and study the Army officer's role and career in the US Army today.

**Prerequisite:** MILS-301 with a minimum grade of C and MILS-302 with a minimum grade of C.

### **MILS-312. Leadership In A Complex World. 3 Hours.**

This course explores the dynamics of leading in the complex situations of current military operations in the contemporary operating environment (COE). You will examine differences in customs and courtesies, military law, principles of war, and rules of engagement in the face of international terrorism. You also explore aspects of interacting with non-government organizations, civilians on the battlefield, and host nation support. The course places significant emphasis on preparing you for future training, and your first unit of assignment.

**Prerequisite:** MILS-311 with a minimum grade of C.

# Music (MUS)

---

## Courses

### **MUS-101. The Musical Experience. 3 Hours.**

A non-technical course designed to increase the listener's understanding and enjoyment of music. Not applicable towards music major or minor requirements.

### **MUS-103. Basic Materials In Sight Reading. 1 Hour.**

This course is designed to develop the foundations of sight reading and increase the first year music student's awareness, understanding and enjoyment of sight reading through practical application exercises and lectures. Students will learn the basics of reading and writing music, sight reading and beginning music theory. Practice and application of sight reading techniques, ear training procedures and related aural and oral skills will be emphasized. This course is designed for students at the beginning level, as determined by a placement exam administered to all music major students at the beginning of the semester.

### **MUS-104. Music Concepts: An Introduction. 3 Hours.**

Elements of music, forms and styles; lectures, discussions, readings, recordings and attendance at musical performances. Open to all students; recommended for prospective majors and required for Elementary Education majors.

### **MUS-105. Basic Materials In Music Theory. 3 Hours.**

MUS-105 Basic Materials in Music Theory, 3 cr. Introduction to notation and perception of pitch and rhythm, including: intervals, triads, scales, meter, and key signatures, time signatures, and basic concepts of sight singing and ear training. Recommended as a remedial course for prospective majors whose music theory skills need enhancement in order to qualify for enrollment in MUS-121, Music Theory 1.

### **MUS-106. Orientation To Music Education. 1 Hour.**

A broad view of Music Education in Public School K-12 is required of all Music Education majors. Included are visits to all levels of music instruction in local schools. This course is designed to help students decide whether Music Education K-12 is the appropriate career choice and what the total job entails.

### **MUS-109. First Year Experience:Chi-Tunes: Music In Chicago. 3 Hours.**

In this course, the five foundations of the First-Year Experience (Future Planning, Integral Preparation, Research, Self-discovery and Transitions) are interwoven with the field specific concepts and terminology of music. This course is designed to increase the first year student's awareness, understanding and enjoyment of a variety of musical styles through attending live performances. Students will learn the basics of reading and writing music, music history, and music's place in society and culture through pre and post concert discussions.

### **MUS-110. Class Voice I. 2 Hours.**

For beginning students in voice; fundamentals of vocal technique.

### **MUS-111. Class Voice II. 2 Hours.**

Continuation of MUS-110.

**Prerequisite:** MUS-110 with a minimum grade of C.

### **MUS-112. Class Piano I. 1 Hour.**

Open to all students. Class Piano I is an introduction to keyboard techniques and concepts essential to the development of proficiency at the piano and other keyboard instruments. Topics include: Keyboard topography, foundations of technique, playing "by ear," improvisation, major scales & arpeggios, note and rhythm reading notation on the grand staff, primary chords, harmonization, transposition, solo and ensemble playing, and practice strategies. Requires outside-of-class practice at a piano or electronic keyboard instrument.

### **MUS-113. Class Piano II. 1 Hour.**

This course is a continuation of MUS-112. Students will learn expanded theoretical concepts and keyboard techniques. Topics will include minor scales and arpeggios, harmonization and transposition using secondary chords. This course requires outside-of-class practice at a piano or electronic keyboard instrument.

**Requirement:** or a passing the Level 1 piano proficiency assessment

**Prerequisite:** MUS-112 with a minimum grade of C.

### **MUS-114. Class Piano III. 1 Hour.**

This course is a continuation of MUS-113. Topics will include choral and instrumental score reading, intermediate level solo and ensemble repertoire, harmonization, using seventh chords and secondary dominants and performing from lead sheets. This course requires outside-of-class practice at a piano or electronic keyboard instrument.

**Requirement:** or passing the Level 1 piano proficiency assessment

**Prerequisite:** MUS-113 with a minimum grade of C.

### **MUS-115. Instrumental Music Studies Brass Instruments. 1 Hour.**

Introduction to the techniques and skills of playing brass instruments. Care and maintenance. Study and evaluation of the music literature available for the various brass instruments.

**Prerequisite:** MUS-121 with a minimum grade of C.

**MUS-116. Instrumental Music Studies Percussion Instruments. 1 Hour.**

Introduction to the techniques and skills of playing percussion instruments. The use of percussion instruments in various types of instrumental ensembles.

**Prerequisite:** MUS-121 with a minimum grade of C.

**MUS-117. Instrumental Music Studies String Instruments. 1 Hour.**

Introduction to the techniques and skills of playing string instruments. Care and maintenance. Study and evaluation of the music literature available for the various string instruments.

**Prerequisite:** MUS-121 with a minimum grade of C.

**MUS-118. Instrumental Music Studies Woodwind Instruments I. 1 Hour.**

Introduction to the techniques and skills of playing flute and clarinet. Care and maintenance of the instruments as well as study and evaluation of the music literature available for the instruments.

**Prerequisite:** MUS-121 with a minimum grade of C.

**MUS-119. Instrumental Music Studies: Woodwind Instruments II. 1 Hour.**

Introduction to the techniques and skills of playing oboe, bassoon, and saxophone. Care and maintenance of the instruments as well as study and evaluation of the music literature available for the instruments.

**Prerequisite:** MUS-121 with a minimum grade of C.

**MUS-120. Class Guitar I. 2 Hours.**

Basic skills in guitar; basic chords and chord progressions, strumming techniques, playing a simple melodic line, and reading guitar tablature as well as standard musical notation.

**MUS-121. Music Theory I. 3 Hours.**

Study of harmonic materials in tonal music and standard notational practice. Includes written and aural skills development. Structure, doubling, spacing, voice-leading, triads and inversions. Placement testing or consent of instructor.

**MUS-122. Music Theory II. 3 Hours.**

Continuation of MUS-121. Advancing written and aural skills. Phrase structure, cadences, harmonic progression, harmonization techniques, nonharmonic tones.

**Prerequisite:** MUS-121 with a minimum grade of C.

**MUS-123. Class Guitar II. 2 Hours.**

Continuation of MUS-120. More complex and varied chord formations and strumming techniques; note reading of more difficult melodic lines; basics of classical guitar technique.

**Prerequisite:** MUS-120 with a minimum grade of C.

**MUS-124. Sight Singing And Ear Training I. 1 Hour.**

Practice and application of sight-singing techniques, ear training procedures and related aural/oral skills.

**Prerequisite:** MUS-121 with a minimum grade of C and MUS-122 with a minimum grade of C.

**MUS-125. Sight Singing And Ear Training II. 1 Hour.**

Continuation of MUS-124.

**Prerequisite:** MUS-124 with a minimum grade of C.

**MUS-150A. Applied Music: Flute. 1 Hour.**

Individual study in voice or instrument for the development of performing skills and musical understanding; knowledge of the repertoire at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied lesson studio class. Students taking applied lessons at this level must be music majors, minors, or registered in an ensemble. Consent of instructor and department chairperson.

**MUS-150B. Applied Music: Oboe. 1 Hour.**

Individual study in voice or instrument for the development of performing skills and musical understanding; knowledge of the repertoire at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied lesson studio class. Students taking applied lessons at this level must be music majors, minors, or registered in an ensemble. Consent of instructor and department chairperson.

**MUS-150C. Applied Music: Clarinet. 1 Hour.**

Individual study in voice or instrument for the development of performing skills and musical understanding; knowledge of the repertoire at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied lesson studio class. Students taking applied lessons at this level must be music majors, minors, or registered in an ensemble. Consent of instructor and department chairperson.

**MUS-150D. Applied Music: Saxophone. 1 Hour.**

Individual study in voice or instrument for the development of performing skills and musical understanding; knowledge of the repertoire at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied lesson studio class. Students taking applied lessons at this level must be music majors, minors, or registered in an ensemble. Consent of instructor and department chairperson.

**MUS-150E. Applied Music: Bassoon. 1 Hour.**

Individual study in voice or instrument for the development of performing skills and musical understanding; knowledge of the repertoire at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied lesson studio class. Students taking applied lessons at this level must be music majors, minors, or registered in an ensemble. Consent of instructor and department chairperson.

**MUS-152X. Applied Music: Jazz String Bass. 2 Hours.**

One-hour weekly lesson for performance majors. Individual study in voice or any instrument for development of performing skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied music studio class. Students taking Applied Lessons must be music majors, minors or registered in an ensemble. Consent of instructor or department chairperson.

**MUS-152Y. Applied Music: Jazz Guitar. 2 Hours.**

One-hour weekly lesson for performance majors. Individual study in voice or any instrument for development of performing skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied music studio class. Students taking Applied Lessons must be music majors, minors or registered in an ensemble. Consent of instructor or department chairperson.

**MUS-152Z. Applied Music: Jazz Voice. 2 Hours.**

One-hour weekly lesson for performance majors. Individual study in voice or any instrument for development of performing skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied music studio class. Students taking Applied Lessons must be music majors, minors or registered in an ensemble. Consent of instructor or department chairperson.

**MUS-201. Music Theory III. 3 Hours.**

Study of seventh chords, secondary dominants, altered nonharmonic tones, modulation, borrowed chords, augmented sixth chords. Advancing analytical and written skills.

**Prerequisite:** MUS-122 with a minimum grade of C.

**MUS-202. Music Theory IV. 3 Hours.**

Writing and analysis. Study of Neapolitan sixth; diminished sevenths; altered dominants; chromatic mediant; modulation to foreign keys; ninth, eleventh and thirteenth chords.

**Prerequisite:** MUS-201 with a minimum grade of C.

**MUS-210. Diction For Singers I. 2 Hours.**

Introduction to proper pronunciation of English and Italian texts in classical vocal music. Use of the International Phonetic Alphabet symbols applied to the singing of songs and arias.

**Prerequisite:** MUS-122 with a minimum grade of C.

**MUS-211. Diction For Singers II. 2 Hours.**

Introduction to proper pronunciation of German and French texts in classical vocal music. Use of the International Phonetic Alphabet symbols applied to the singing of songs and arias.

**Prerequisite:** MUS-122 with a minimum grade of C.

**MUS-221. Concert Choir. 1 Hour.**

Vocal ensemble open to enrolled students. Opportunities for school and public performance. Audition and consent of instructor required.

**MUS-221A. University Chorus. 1 Hour.**

Vocal ensemble open to enrolled students. Opportunities for school and public performance. Audition and consent of instructor required.

**MUS-222A. Vocal Ensemble: Chamber Singers. 1 Hour.**

Vocal ensemble open to enrolled students. Opportunities for school and public performance. Audition and consent of instructor required.

**MUS-222C. Vocal Ensemble: Opera Workshop. 1 Hour.**

A practical workshop in learning and performing opera repertoire. Explore the art of singing and acting through research, preparation and performance of opera scenes or a complete opera production. Open to enrolled students. Opportunities for school and public performance. Audition and consent of instructor required.

**MUS-222D. Vocal Ensemble: Music Theater. 1 Hour.**

A practical workshop in learning and performing musical theater repertoire. Explore the art of singing and acting through research, preparation and performance of a complete musical theater production. Open to enrolled students. Opportunities for school and public performance. Audition and consent of instructor required.

**MUS-222E. Vocal Ensemble: Music Production. 1 Hour.**

A practical course in learning and executing the technical aspects of a full music theater/opera production. This course will encompass, but is not limited to: staging, costume design, set design and construction, lighting design and execution, props, wigs, make-up and stage crew.

**MUS-226. Orchestra. 1 Hour.**

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor required.

**MUS-231. Band. 1 Hour.**

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor required.

**MUS-231A. Wind Band. 1 Hour.**

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor required.

**MUS-234A. Instrumental Ensemble: Brass. 1 Hour.**

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor required.

**MUS-234B. Instrumental Ensemble: Percussion. 1 Hour.**

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor required.

**MUS-234C. Instrumental Ensemble: Strings. 1 Hour.**

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor required.

**MUS-234D. Instrumental Ensemble: Woodwinds. 1 Hour.**

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor required.

**MUS-234E. Instrumental Ensemble: Accompanying. 1 Hour.**

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor required.

**MUS-234F. Instrumental Ensemble: Piano Music For Four Hands. 1 Hour.**

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor required.

**MUS-234M. Instrumental Ensemble: Guitar. 1 Hour.**

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor required.

**MUS-235A. Instrumental Ensemble: Jazz Band. 1 Hour.**

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor required.

**MUS-235B. Instrumental Ensemble: Jazz Combo. 1 Hour.**

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor required.

**MUS-301. Counterpoint I. 3 Hours.**

Writing in two parts in various styles and modes, study of species and modal procedures. .

**Prerequisite:** MUS-201 with a minimum grade of C.

**MUS-302. Counterpoint II. 3 Hours.**

Writing in two parts in various styles and modes, study of species and modal procedures.

**Prerequisite:** MUS-301 with a minimum grade of C.

**MUS-305. Form And Analysis I. 3 Hours.**

Structural and stylistic features in their musical context; motif, phrase and period; binary and ternary form, theme and variations, rondo, sonata form and unique forms.

**Prerequisite:** MUS-202 with a minimum grade of C.

**MUS-306. Form And Analysis II. 3 Hours.**

Structural and stylistic features in their musical context, early to contemporary polyphonic forms, multi-movement forms. electronic music, aleatoric music. Consideration of several approaches to structural analysis.

**Prerequisite:** MUS-305 with a minimum grade of C.

**MUS-307. Class Composition. 3 Hours.**

Composition and performance of students' original works.

**MUS-308. Orchestration. 3 Hours.**

Instrumental timbres and the capabilities of instruments; scoring for instruments in a variety of combinations, including the orchestra and instrumental vocal combinations.

**Prerequisite:** MUS-202 with a minimum grade of C.

**MUS-312. Writing Intensive Program: Beethoven. 3 Hours.**

This seminar explores major issues in Beethoven study through the most relevant literature concerning Beethoven's life, musical style, aesthetics, influence on the next generation of composers, and the socio-cultural forces responsible for shaping his ideas and music. Students will carry out individualized research projects culminating in a research paper, as well as completing reading reports, keeping a listening journal, and analyzing the music studied in class.

**Prerequisite:** MUS-122 with a minimum grade of C and ENGL-101 with a minimum grade of C and MUS-203 with a minimum grade of C and (MUS-204 with a minimum grade of C or MUS-205 with a minimum grade of C).

**MUS-317. Music Of The Romantic Era. 3 Hours.**

Consideration from a historical point of view of structural, stylistic and formal aspects of the musical art of the Romantic era.

**Prerequisite:** MUS-122 with a minimum grade of C and MUS-203 with a minimum grade of C and (MUS-204 with a minimum grade of C or MUS-205 with a minimum grade of C).

**MUS-318. Music Of The Twentieth Century. 3 Hours.**

Consideration from a historical point of view of structural, stylistic and formal aspects of the musical art of the twentieth century.

**Prerequisite:** MUS-122 with a minimum grade of C and MUS-203 with a minimum grade of C and MUS-204 with a minimum grade of C and MUS-205 with a minimum grade of C.

**MUS-320. Independent Study In Music. 1 Hour.**

Consent of instructor, department Chair and College Dean.

**MUS-321D. Writing Intensive Program: Seminar In Music History:Stravinsky. 3 Hours.**

This seminar explores major issues in Stravinsky study through the most relevant literature concerning Stravinsky's life, musical style, aesthetics, impact on the development of twentieth-century music, and the socio-cultural forces responsible for shaping his ideas and music. Students will carry out individualized research projects culminating in a research paper, as well as completing reading reports, keeping a listening journal, and analyzing the music studied in class.

**Prerequisite:** MUS-202 with a minimum grade of C and MUS-203 with a minimum grade of C and MUS-204 with a minimum grade of C and MUS-205 with a minimum grade of C and ENGL-101 with a minimum grade of C.

**MUS-321F. Seminar In Music History: Jazz. 3 Hours.**

This seminar explores major issues in the history of jazz through most the relevant literature concerning development, musical style and prominent musicians through reading, listening and analyzing music, discussions over the reading material, and through individualized research projects.

**MUS-322. Independent Study In Music. 3 Hours.**

Consent of instructor, department Chair and College Dean.

**MUS-323. Music Of The Renaissance Era. 3 Hours.**

Consideration from a historical point of view of structural, stylistic and formal aspects of the musical art of the Renaissance Era.

**Prerequisite:** MUS-122 with a minimum grade of C and MUS-203 with a minimum grade of C and MUS-204 with a minimum grade of C or MUS-205 with a minimum grade of C.

**MUS-324. Independent Study In Music. 2 Hours.**

Consent of instructor, department Chair and College Dean.

**MUS-325A. Performance Seminar: Brass. 2 Hours.**

Performance and critical analysis of performances based upon stylistic, structural, and technical factors. Enrollment in applied lessons and consent of instructor.

**MUS-325B. Performance Seminar: Piano. 2 Hours.**

Performance and critical analysis of performances based upon stylistic, structural, and technical factors. Enrollment in applied lessons and consent of instructor.

**MUS-325C. Performance Seminar: Strings. 2 Hours.**

Performance and critical analysis of performances based upon stylistic, structural, and technical factors. Enrollment in applied lessons and consent of instructor.

**MUS-325D. Performance Seminar: Wind Instruments. 2 Hours.**

Performance and critical analysis of performances based upon stylistic, structural, and technical factors. Enrollment in applied lessons and consent of instructor.

**MUS-325E. Performance Seminar: Voice. 2 Hours.**

Performance and critical analysis of performances based upon stylistic, structural, and technical factors. Enrollment in applied lessons and consent of instructor.

**MUS-326. Songwriting. 3 Hours.**

Techniques of songwriting; consideration and analysis of classical and folk song models; emphasis on writing lyrics, melody and accompaniment.

**MUS-327A. Repertoire Seminar: Piano. 3 Hours.**

This is the first semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied. 300-level in applied lessons or consent of instructor required.

**MUS-327B. Repertoire Seminar: Strings. 3 Hours.**

This is the first semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied. 300-level in applied lessons or consent of instructor required.

**MUS-327C. Repertoire Seminar: Winds. 3 Hours.**

This is the first semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied. 300-level in applied lessons or consent of instructor required.

**MUS-327D. Repertoire Seminar: Voice. 3 Hours.**

This is the first semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied. 300-level in applied lessons or consent of instructor required.

**MUS-327E. Repertoire Seminar: Choral. 3 Hours.**

This is the first semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied. 300-level in applied lessons or consent of instructor required.

**MUS-327F. Repertoire Seminar: Brass. 3 Hours.**

This is the first semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied. 300-level in applied lessons or consent of instructor required.

**MUS-327G. Repertoire Seminar: Percussion. 3 Hours.**

This is the first semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied. 300-level in applied lessons or consent of instructor required.

**MUS-328A. Repertoire Seminar: Piano. 3 Hours.**

This is the second semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied. 300-level in applied lessons or consent of instructor required.

**MUS-328B. Repertoire Seminar: Strings. 3 Hours.**

This is the second semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied. 300-level in applied lessons or consent of instructor required.

**MUS-328C. Repertoire Seminar: Winds. 3 Hours.**

This is the second semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied. 300-level in applied lessons or consent of instructor required.

**MUS-328D. Repertoire Seminar Varies: Voice. 3 Hours.**

This is the second semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied. 300-level in applied lessons or consent of instructor required.

**MUS-328E. Repertoire Seminar: Choral. 3 Hours.**

This is the second semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied. 300-level in applied lessons or consent of instructor required.

**MUS-328F. Repertoire Seminar: Brass. 3 Hours.**

This is the second semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied. 300-level in applied lessons or consent of instructor required.

**MUS-328G. Repertoire Seminar: Percussion. 3 Hours.**

This is the second semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied. 300-level in applied lessons or consent of instructor required.

**MUS-329. Advanced Conducting. 2 Hours.**

**Prerequisite:** MUS-223 with a minimum grade of D or MUS-224 with a minimum grade of D.

**MUS-330. Music Technology Seminar: Current Topics. 3 Hours.**

A survey of the latest developments in music technology designed to keep today's musician up-to-date with current trends and applications, new gear and instruments, software upgrades and other current topics. Includes demonstrations and hands-on experience in the Computer/Electronic Music Lab.

**MUS-331A. Applied Music Pedagogy I: Piano. 3 Hours.**

Methods of teaching applied music for prospective and experienced teachers. 300 level in applied lessons and consent of instructor.

**MUS-331B. Applied Music Pedagogy I: Strings. 3 Hours.**

Methods of teaching applied music for prospective and experienced teachers. 300 level in applied lessons and consent of instructor.

**MUS-331C. Applied Music Pedagogy I: Brass. 3 Hours.**

Methods of teaching applied music for prospective and experienced teachers. 300 level in applied lessons and consent of instructor.

**MUS-331D. Applied Music Pedagogy I: Woodwinds. 3 Hours.**

Methods of teaching applied music for prospective and experienced teachers. 300 level in applied lessons and consent of instructor.

**MUS-331E. Applied Music Pedagogy I: Voice. 3 Hours.**

Methods of teaching applied music for prospective and experienced teachers. 300 level in applied lessons and consent of instructor.

**MUS-331F. Applied Music Pedagogy I: Percussion. 3 Hours.**

Methods of teaching applied music for prospective and experienced teachers. 300 level in applied lessons and consent of instructor.

**MUS-332A. Applied Music Pedagogy II: Piano. 2 Hours.**

A practicum for implementing the methods of teaching applied music learned in MUS-331.

**Prerequisite:** MUS-331 with a minimum grade of C.

**MUS-332B. Applied Music Pedagogy II: Strings. 2 Hours.**

A practicum for implementing the methods of teaching applied music learned in MUS-331.

**Prerequisite:** MUS-331 with a minimum grade of C.

**MUS-332C. Applied Music Pedagogy II: Brass. 2 Hours.**

A practicum for implementing the methods of teaching applied music learned in MUS-331.

**Prerequisite:** MUS-331 with a minimum grade of C.

**MUS-332D. Applied Music Pedagogy II: Woodwinds. 2 Hours.**

A practicum for implementing the methods of teaching applied music learned in MUS-331.

**Prerequisite:** MUS-331 with a minimum grade of C.

**MUS-332E. Applied Music Pedagogy II: Voice. 2 Hours.**

A practicum for implementing the methods of teaching applied music learned in MUS-331.

**Prerequisite:** MUS-331 with a minimum grade of C.

**MUS-332F. Applied Music Pedagogy II: Percussion. 2 Hours.**

A practicum for implementing the methods of teaching applied music learned in MUS-331.

**Prerequisite:** MUS-331 with a minimum grade of C.

**MUS-333. Internship In Music. 3 Hours.**

Field experience in schools, community organizations or industry. Detailed information is available in the departmental office. Departmental approval required.

**MUS-334. Basic Conducting. 2 Hours.**

Basic techniques of conducting; meter, dynamics, cuing, etc., applicable to both instrumental and choral conducting. Serves as prerequisite to specialized Instrumental and Choral Conducting courses.

**Prerequisite:** MUS-122 with a minimum grade of C.

**MUS-335. Choral Conducting. 2 Hours.**

Choral conducting techniques; ability to read and analyze choral scores; choral repertoire.

**Prerequisite:** MUS-122 with a minimum grade of D.

**MUS-336. Instrumental Conducting. 2 Hours.**

Techniques of conducting and score reading; rehearsal techniques and interpretation.

**Prerequisite:** MUS-122 with a minimum grade of D.

**MUS-339. Senior Project. 1 Hour.**

A culminating Project presented after the Bachelor of Arts in Music Major reaches their senior year. The Project topic must be approved by the Applied Instructor and Advisor as appropriate to the culminating genre of the student's focus. Format style may include, but is not limited to: Research Paper, Lecture Demonstration, Composition(s) (submitted and/or performed), or Recital. Students that choose to give a formal Recital performance must be at the 300-level in Applied Lessons. Students select a committee of three faculty members, in conjunction with, their applied instructor. The student must pass a hearing before a public presentation is given.

**Requirement:** a minimum of 4 semesters of Applied Lessons (MUS150 or MUS350).

**MUS-340. Junior Recital. 1 Hour.**

A formal 1/2 hour recital given after the music performance major reaches the 300 level in applied instruction and during their junior year. Students select a recital committee of three faculty members including, and in conjunction with, their applied instructor. The student must pass a hearing presented to the recital committee before the recital is given. Once the recital is presented, a grade of pass or fail will be determined by the recital committee.

**MUS-341. Senior Recital. 1 Hour.**

A formal recital of 50 minutes of music given after the music performance major reaches the-300 level in applied instruction and during their senior year. Students select a recital committee of three faculty members including, and in conjunction with, their applied instructor. The student must pass a hearing presented to the recital committee before the recital is given. Once the recital is presented, a grade of pass or fail will be determined by the recital committee.

**MUS-342. World Music. 2 Hours.**

A study of world music and various cultures for use by music education students in the classroom. Students experience world music through performance on ethnic instruments, listening to recordings of authentic music, as well as map study, and attendance at live performances. Students develop and implement lesson plans at various levels of music instruction.

**Prerequisite:** MUS-202 with a minimum grade of C.

**MUS-343. Music Before 1600. 3 Hours.**

Survey of musical styles, types and forms from Gregorian Chant through the Renaissance.

**Prerequisite:** MUS-121 with a minimum grade of C.

**MUS-344. Music From 1600 Through Beethoven. 3 Hours.**

Survey of musical styles, types and forms in representative composers of the Baroque and Classical Periods.

**Prerequisite:** MUS-121 with a minimum grade of C.

**MUS-345. Music After Beethoven. 3 Hours.**

Survey of musical styles, types and forms in representative composers of the Romantic Period, the Twentieth Century, and Global Music. By consent of instructor.

**Prerequisite:** MUS-121 with a minimum grade of C.

**MUS-350A. Applied Music: Flute. 1 Hour.**

Individual study in voice or instrument for the development of performing skills and musical understanding; knowledge of the repertoire at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied lesson studio class. Students taking applied lessons at this level must be music majors, minors, or registered in an ensemble. Consent of instructor and department chairperson.

**MUS-352W. Applied Music: Piano. 2 Hours.**

One-hour weekly lesson for performance majors. Individual study in voice or any instrument for development of performing skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied music studio class. Students taking Applied Lessons must be music majors, minors or registered in an ensemble. Consent of instructor or department chairperson required.

**MUS-352X. Applied Music: Jazz String Bass. 2 Hours.**

One-hour weekly lesson for performance majors. Individual study in voice or any instrument for development of performing skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied music studio class. Students taking Applied Lessons must be music majors, minors or registered in an ensemble. Consent of instructor or department chairperson required.

**MUS-352Y. Applied Music: Jazz Guitar. 2 Hours.**

One-hour weekly lesson for performance majors. Individual study in voice or any instrument for development of performing skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied music studio class. Students taking Applied Lessons must be music majors, minors or registered in an ensemble. Consent of instructor or department chairperson required.

**MUS-352Z. Applied Music: Vocal Coaching. 2 Hours.**

One-hour weekly lesson for performance majors. Individual study in voice or any instrument for development of performing skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate level of performing ability. Students will participate in small ensembles as part of the applied music studio class. Students taking Applied Lessons must be music majors, minors or registered in an ensemble. Consent of instructor or department chairperson required.

**MUS-360. Burn This Script: Censorship And The Stage. 3 Hours.**

Students will explore instances of censorship as occurring within a specific cultural context in an exploration of censorship in the world of live dramatic musical performance. Using both historical examples from centuries past and current developments in the 21st century, students will learn to identify what social, political, and economic environments can lead to dramatic musical pieces being censored. In addition to explicit censorship by governments and individuals, the course will also explore how structural biases and practices lead to de facto censorship of ideas and artistic output.

**MUS-391. Contemporary Music Education - Grades K-6. 3 Hours.**

This course is designed for music education students and includes a study of philosophy, methods, materials, and assessment techniques suitable for developing music potential in elementary school-aged children. Special areas of focus include long and short term lesson planning, sequencing concepts and skill, ethnic music, music in Special Education, and assessment correlated with State and National Standards for Arts Education.

**Prerequisite:** MUS-202 with a minimum grade of C.

**MUS-393L. Clinical Field Experience. 2 Hours.**

A supervised clinical experience designed with less emphasis on observational experiences and more on direct involvement with the instructional process. Requires 100 hours experience with a broad range of students. Taken with TED SCED-303I and 303V. Completion of all education courses required.

**Prerequisite:** MUS-391 with a minimum grade of C.

**MUS-396A. Practicum In Music: Chamber Music. 1 Hour.**

The purpose of this course is to give the student an opportunity to explore and perform this selected topic in music. Consent of instructor required.

**MUS-396B. Practicum In Music: Computer Music. 1 Hour.**

The purpose of this course is to give the student an opportunity to explore and perform this selected topic in music. Consent of instructor required.

**MUS-396D. Practicum In Music: Choral Music. 1 Hour.**

The purpose of this course is to give the student an opportunity to explore and perform this selected topic in music. Consent of instructor required.

**MUS-396K. Practicum In Music: Orchestra. 1 Hour.**

The purpose of this course is to give the student an opportunity to explore and perform this selected topic in music. Consent of instructor required.

**MUS-397A. Practicum In Music: Chamber Music. 2 Hours.**

The purpose of this course is to give the student an opportunity to explore and perform this selected topic in music. Consent of instructor required.

**MUS-397B. Practicum In Music: Computer Music. 2 Hours.**

The purpose of this course is to give the student an opportunity to explore and perform this selected topic in music. Consent of instructor required.

**MUS-397C. Practicum In Music: Computerized Notation. 2 Hours.**

The purpose of this course is to give the student an opportunity to explore and perform this selected topic in music. Consent of instructor required.

**MUS-397K. Practicum In Music: Orchestra. 2 Hours.**

The purpose of this course is to give the student an opportunity to explore and perform this selected topic in music. Consent of instructor required.

**MUS-398A. Practicum In Music: Chamber Music. 3 Hours.**

The purpose of this course is to give the student an opportunity to explore and perform this selected topic in music. Consent of instructor required.

**MUS-398B. Practicum In Music: Computer Music Studio. 3 Hours.**

The course addresses a broad range of technical and aesthetic issues relevant to the creation of music and artistic manipulation of sound. The course combines theoretical, conceptual and practical information with hands-on experience with software and hardware. Students design and realize projects in consultation with the instructor for presentation in class or public forum. Projects may incorporate elements of audio recording, audio editing, MIDI, sound synthesis, sound design, combined media or other innovative concepts which develop as technology and the arts combine.

**MUS-398K. Practicum In Music: Orchestra. 3 Hours.**

The purpose of this course is to give the student an opportunity to explore and perform this selected topic in music. Consent of instructor required.

**MUS-405. Form and Analysis. 3 Hours.**

This course focuses upon advanced analysis of linear, vertical and structural dimensions of western music. Large and small scale works from various historical periods and for a variety of media will be considered. Procedures as appropriate to style and period will be applied with an emphasis upon development of analytical skill as an interpretive tool leading to more insightful performance.

**MUS-411. Vocal Ensemble: Chorus. 1 Hour.**

The University Chorus is a large choral ensemble which explores the great choral literature from the Middle-Ages and Renaissance periods to the present day in preparation for public and school performances. Emphasis is on choral rehearsal techniques, appropriate vocal technique, historical performance practice for the works being prepared and research on composers and compositions being studied.

**MUS-412. Chamber Singers. 1 Hour.**

Chamber singers explores the art of ensemble singing through the preparation and performance of choral literature composed for a smaller ensemble. Emphasis is on choral rehearsal techniques, appropriate vocal technique and performance practice for the works being prepared, as well as research about the composers and the compositions being prepared.

**MUS-413. Opera Workshop. 1 Hour.**

A practical workshop in learning and performing opera literature and exploring the art of singing opera through research, preparation and performance of scene excerpts and complete opera productions. Graduate students are expected to sing the leading roles and/or assist the director in staging, managing and research.

**MUS-414. Musical Theater. 1 Hour.**

A practical workshop in learning and performing musical theater repertoire and exploring the art of singing and acting through research, preparation and performance of a complete musical theater production. Graduate students are expected to sing the leading roles and/or assist the director in staging, managing and research.

**MUS-415. Music Production. 1 Hour.**

A practical course in learning and executing the technical aspects of a full music theater/opera production. This course will encompass, but is not limited to: staging, costume design, set design and construction, lighting design and execution, props, wigs, make-up and stage crew.

**MUS-416. Seminar In Music History: Beethoven. 3 Hours.**

This seminar explores major issues in Beethoven study through the most relevant literature concerning Beethoven's life, musical style, aesthetics, influence on the next generation of composers, and the socio-cultural forces responsible for shaping his ideas and music. Students will carry out individualized research projects culminating in a research paper, as well as completing reading reports, keeping a listening journal, and analyzing the music studied in class.

**MUS-417. Seminar In Music History: Stravinsky. 3 Hours.**

This seminar explores major issues in Stravinsky study through the most relevant literature concerning Stravinsky's life, musical style, aesthetics, influence on the next generation of composers, and the socio-cultural forces responsible for shaping his ideas and music. Students will carry out individualized research projects culminating in a research paper, as well as completing reading reports, keeping a listening journal, and analyzing the music studied in class.

**MUS-420. Independent Study In Music. 1 Hour.**

Individual investigation into a topic of the student's choice. Consent of instructor, department Chair and College Dean.

**MUS-421. Independent Study In Music. 2 Hours.**

(See MUS-420 for description.)

**MUS-421A. Independent Study In Music. 2 Hours.**

(See MUS-420 for description.)

**MUS-421B. Independent Study In Music. 2 Hours.**

(See MUS-420 for description.)

**MUS-422. Independent Study In Music. 3 Hours.**

(See MUS-420 for description.)

**MUS-422A. Independent Study In Music. 3 Hours.**

(See MUS-420 for description.)

**MUS-423. Band. 1 Hour.**

Band is a large performing ensemble exploring standard wind band repertoire. Performance of two public and school concerts each semester is required. Graduate students are expected to perform solos, be section leaders, and assist the director in conducting rehearsals.

**MUS-424. Music Bibliography And Research. 3 Hours.**

Study of basic reference and research materials in music and introduction to methods of research appropriate to music.

**MUS-425A. Music Performance Seminar: Brass. 2 Hours.**

This seminar is an extension and compliment to the applied lesson and focuses on the art of performance. Enrollment in applied lessons and consent of instructor.

**MUS-425B. Music Performance Seminar: Piano. 2 Hours.**

This seminar is an extension and compliment to the applied lesson and focuses on the art of performance. Enrollment in applied lessons and consent of instructor.

**MUS-425C. Music Performance Seminar: Strings. 2 Hours.**

This seminar is an extension and compliment to the applied lesson and focuses on the art of performance. Enrollment in applied lessons and consent of instructor.

**MUS-425D. Music Performance Seminar: Woodwind. 2 Hours.**

This seminar is an extension and compliment to the applied lesson and focuses on the art of performance. Enrollment in applied lessons and consent of instructor.

**MUS-425E. Music Performance Seminar: Voice. 2 Hours.**

This seminar is an extension and compliment to the applied lesson and focuses on the art of performance. Enrollment in applied lessons and consent of instructor.

**MUS-425F. Music Performance Seminar: Percussion. 2 Hours.**

This seminar is an extension and compliment to the applied lesson and focuses on the art of performance. Enrollment in applied lessons and consent of instructor.

**MUS-426. Orchestra. 1 Hour.**

Open to all students with instrumental experience by audition. Opportunities for school and public performance.

**MUS-427. Repertoire Seminar. 3 Hours.**

This is the first semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied.

**MUS-427A. Repertoire Seminar: Piano. 3 Hours.**

This is the first semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied.

**MUS-427B. Repertoire Seminar: Strings. 3 Hours.**

This is the first semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied.

**MUS-427C. Repertoire Seminar: Woodwinds. 3 Hours.**

This is the first semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied.

**MUS-427D. Repertoire Seminar: Voice. 3 Hours.**

This is the first semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied.

**MUS-427F. Repertoire Seminar: Brass. 3 Hours.**

This is the first semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied.

**MUS-427G. Repertoire Seminar: Percussion. 3 Hours.**

This is the first semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied.

**MUS-428A. Music Repertoire Seminar: Piano. 3 Hours.**

This is the second semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied.

**MUS-428B. Music Repertoire Seminar: Strings. 3 Hours.**

This is the second semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied.

**MUS-428C. Music Repertoire Seminar: Woodwinds. 3 Hours.**

This is the second semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied.

**MUS-428D. Music Repertoire Seminar: Voice. 3 Hours.**

This is the second semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied.

**MUS-428F. Music Repertoire Seminar:Brass. 3 Hours.**

This is the second semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied.

**MUS-428G. Music Repertoire Seminar:Percussion. 3 Hours.**

This is the second semester of a two-semester sequence of courses that survey the standard repertoire for different performance areas. Content varies according to the performance area studied.

**MUS-431A. Advanced Applied Music Pedagogy I: Piano. 3 Hours.**

At an advanced level, this course explores various aspects of the field of teaching applied music. The course will explore available methods and materials and techniques of teaching students at various ages and levels of advancement. It will also focus on various approaches to teaching technique, placing them in a historical context and learning how to apply them to students at various levels of advancement.

**MUS-431B. Advanced Applied Music Pedagogy I: Strings. 3 Hours.**

At an advanced level, this course explores various aspects of the field of teaching applied music. The course will explore available methods and materials and techniques of teaching students at various ages and levels of advancement. It will also focus on various approaches to teaching technique, placing them in a historical context and learning how to apply them to students at various levels of advancement.

**MUS-431C. Advanced Applied Music Pedagogy I: Brass. 3 Hours.**

At an advanced level, this course explores various aspects of the field of teaching applied music. The course will explore available methods and materials and techniques of teaching students at various ages and levels of advancement. It will also focus on various approaches to teaching technique, placing them in a historical context and learning how to apply them to students at various levels of advancement.

**MUS-431D. Advanced Applied Music Pedagogy I: Woodwinds. 3 Hours.**

At an advanced level, this course explores various aspects of the field of teaching applied music. The course will explore available methods and materials and techniques of teaching students at various ages and levels of advancement. It will also focus on various approaches to teaching technique, placing them in a historical context and learning how to apply them to students at various levels of advancement.

**MUS-431E. Advanced Applied Music Pedagogy: Voice. 3 Hours.**

At an advanced level, this course explores various aspects of the field of teaching applied music. The course will explore available methods and materials and techniques of teaching students at various ages and levels of advancement. It will also focus on various approaches to teaching technique, placing them in a historical context and learning how to apply them to students at various levels of advancement.

**MUS-431F. Advanced Applied Music Pedagogy I: Percussion. 3 Hours.**

At an advanced level, this course explores various aspects of the field of teaching applied music. The course will explore available methods and materials and techniques of teaching students at various ages and levels of advancement. It will also focus on various approaches to teaching technique, placing them in a historical context and learning how to apply them to students at various levels of advancement.

**MUS-432A. Advanced Applied Music Pedagogy II: Piano. 2 Hours.**

This course builds upon the knowledge gained in Pedagogy I and continues its exploration of advanced topics in applied music pedagogy. These include music learning theories and their application to the teaching of applied music, analysis from a pedagogical point of view of teaching repertoire, and further exploration of technique in relation to teaching students of various levels of advancement. Special emphasis will be placed on the difficult problem of choosing appropriate repertoire for students which challenges the student in terms of his/her musical, technical, and psychological development.

**Prerequisite:** MUS-431A with a minimum grade of B.

**MUS-432B. Advanced Applied Music Pedagogy II: Strings. 2 Hours.**

This course builds upon the knowledge gained in Pedagogy I and continues its exploration of advanced topics in applied music pedagogy. These include music learning theories and their application to the teaching of applied music, analysis from a pedagogical point of view of teaching repertoire, and further exploration of technique in relation to teaching students of various levels of advancement. Special emphasis will be placed on the difficult problem of choosing appropriate repertoire for students which challenges the student in terms of his/her musical, technical, and psychological development.

**Prerequisite:** MUS-431B with a minimum grade of B.

**MUS-432C. Advanced Applied Music Pedagogy II: Brass. 2 Hours.**

This course builds upon the knowledge gained in Pedagogy I and continues its exploration of advanced topics in applied music pedagogy. These include music learning theories and their application to the teaching of applied music, analysis from a pedagogical point of view of teaching repertoire, and further exploration of technique in relation to teaching students of various levels of advancement. Special emphasis will be placed on the difficult problem of choosing appropriate repertoire for students which challenges the student in terms of his/her musical, technical, and psychological development.

**Prerequisite:** MUS-431C with a minimum grade of B.

**MUS-432D. Advanced Applied Music Pedagogy II:Woodwind. 2 Hours.**

This course builds upon the knowledge gained in Pedagogy I and continues its exploration of advanced topics in applied music pedagogy. These include music learning theories and their application to the teaching of applied music, analysis from a pedagogical point of view of teaching repertoire, and further exploration of technique in relation to teaching students of various levels of advancement. Special emphasis will be placed on the difficult problem of choosing appropriate repertoire for students which challenges the student in terms of his/her musical, technical, and psychological development.

**Prerequisite:** MUS-431D with a minimum grade of B.

**MUS-432E. Advanced Applied Music Pedagogy II: Voice. 2 Hours.**

This course builds upon the knowledge gained in Pedagogy I and continues its exploration of advanced topics in applied music pedagogy. These include music learning theories and their application to the teaching of applied music, analysis from a pedagogical point of view of teaching repertoire, and further exploration of technique in relation to teaching students of various levels of advancement. Special emphasis will be placed on the difficult problem of choosing appropriate repertoire for students which challenges the student in terms of his/her musical, technical, and psychological development.

**Prerequisite:** MUS-431E with a minimum grade of B.

**MUS-432F. Advanced Applied Music Pedagogy II: Percussion. 2 Hours.**

This course builds upon the knowledge gained in Pedagogy I and continues its exploration of advanced topics in applied music pedagogy. These include music learning theories and their application to the teaching of applied music, analysis from a pedagogical point of view of teaching repertoire, and further exploration of technique in relation to teaching students of various levels of advancement. Special emphasis will be placed on the difficult problem of choosing appropriate repertoire for students which challenges the student in terms of his/her musical, technical, and psychological development.

**Prerequisite:** MUS-431F with a minimum grade of B.

**MUS-434A. Instrumental Ensemble: Brass. 1 Hour.**

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor.

**MUS-434B. Instrumental Ensemble: Percussion. 1 Hour.**

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor.

**MUS-434C. Instrumental Ensemble: Strings. 1 Hour.**

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor.

**MUS-434D. Instrumental Ensemble: Woodwinds. 1 Hour.**

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor.

**MUS-434E. Instrumental Ensemble: Accompanying. 1 Hour.**

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor.

**MUS-434F. Instrumental Ensemble: Piano Ensemble. 1 Hour.**

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor.

**MUS-434M. Instrumental Ensemble: Guitar. 1 Hour.**

Open to enrolled students with instrumental experience. Opportunities for school and public performance. Audition and consent of instructor.

**MUS-442. World Music. 3 Hours.**

A study of world music, cultures and their values, as reflected in the arts; experiencing their music through performance on ethnic instruments, singing and dancing, listening to recordings, map study, with focus on methodology suitable for public school teaching.

**MUS-450A. Applied Music: Flute. 0.5 Hours.**

Individual study in voice or any instrument for continued development of performing skills and musical artistry: knowledge of the repertoire for the specific voice or instrument at an appropriate level of performing ability.

**MUS-450B. Applied Music: Oboe. 0.5 Hours.**

See course description for MUS-450A.

**MUS-450C. Applied Music: Clarinet. 0.5 Hours.**

See course description for MUS-450A.

**MUS-450D. Applied Music: Saxophone. 0.5 Hours.**

See course description for MUS-450A.

**MUS-450E. Applied Music: Bassoon. 0.5 Hours.**

See course description for MUS-450A.

**MUS-450F. Applied Music: French Horn. 0.5 Hours.**

See course description for MUS-450A.

**MUS-450G. Applied Music: Trumpet. 0.5 Hours.**

See course description for MUS-450A.

**MUS-450H. Applied Music: Euphonium. 0.5 Hours.**

See course description for MUS-450A.

**MUS-450J. Applied Music: Trombone. 0.5 Hours.**

See course description for MUS-450A.

**MUS-450K. Applied Music: Tuba. 0.5 Hours.**

See course description for MUS-450A.

**MUS-450M. Applied Music: Percussion. 0.5 Hours.**

See course description for MUS-450A.

**MUS-450O. Applied Music: Jazz Piano. 0.5 Hours.**

See course description for MUS-450A.

**MUS-450P. Applied Music: Violin. 0.5 Hours.**

See course description for MUS-450A.

**MUS-450Q. Applied Music: Viola. 0.5 Hours.**

See course description for MUS-450A.

**MUS-450R. Applied Music: Cello. 0.5 Hours.**

See course description for MUS-450A.

**MUS-450S. Applied Music: String Bass. 0.5 Hours.**

See course description for MUS-450A.

**MUS-450T. Applied Music: Guitar. 0.5 Hours.**

See course description for MUS-450A.

**MUS-450U. Applied Music: Harp. 0.5 Hours.**

See course description for MUS-450A.

**MUS-450V. Applied Music: Voice. 0.5 Hours.**

See course description for MUS-450A.

**MUS-450W. Applied Music: Piano. 0.5 Hours.**

See course description for MUS-450A.

**MUS-450X. Applied Music: Jazz String Bass. 0.5 Hours.**

See course description for MUS-450A.

**MUS-450Y. Applied Music: Jazz Guitar. 0.5 Hours.**

See course description for MUS-450A.

**MUS-450Z. Applied Music: Jazz Voice. 0.5 Hours.**

See course description for MUS-450A.

**MUS-451A. Applied Music: Flute. 1 Hour.**

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

**MUS-451B. Applied Music: Oboe. 1 Hour.**

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

**MUS-451C. Applied Music: Clarinet. 1 Hour.**

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

**MUS-451D. Applied Music: Saxophone. 1 Hour.**

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

**MUS-451E. Applied Music: Bassoon. 1 Hour.**

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

**MUS-451F. Applied Music: French Horn. 1 Hour.**

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

**MUS-451G. Applied Music: Trumpet. 1 Hour.**

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

**MUS-451H. Applied Music: Euphonium. 1 Hour.**

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

**MUS-451J. Applied Music: Trombone. 1 Hour.**

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

**MUS-451K. Applied Music: Tuba. 1 Hour.**

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

**MUS-451O. Applied Music: Jazz Piano. 1 Hour.**

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

**MUS-451P. Applied Music: Violin. 1 Hour.**

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

**MUS-451Q. Applied Music: Viola. 1 Hour.**

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

**MUS-451R. Applied Music: Cello. 1 Hour.**

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

**MUS-451S. Applied Music: String Bass. 1 Hour.**

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

**MUS-451T. Applied Music: Guitar. 1 Hour.**

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

**MUS-451U. Applied Music: Harp. 1 Hour.**

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

**MUS-451V. Applied Music: Voice. 1 Hour.**

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

**MUS-451W. Applied Music: Piano. 1 Hour.**

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

**MUS-451X. Applied Music: Jazz String Bass. 1 Hour.**

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

**MUS-451Y. Applied Music: Electric Bass. 1 Hour.**

Individual study in voice or any instrument for development of performance skills and musical understanding; knowledge of the repertoire for the voice or specific instrument at an appropriate college freshman/sophomore level of performing ability.

**MUS-452A. Applied Music: Flute. 2 Hours.**

One-hour weekly lesson. Individual study in voice or any instrument for continued development of performing skills and musical artistry; knowledge of the repertoire for the specific voice or instrument at an appropriate level of performing ability. Consent of instructor or department chairperson and graduate standing.

**MUS-452B. Applied Music: Oboe. 2 Hours.**

One-hour weekly lesson. Individual study in voice or any instrument for continued development of performing skills and musical artistry; knowledge of the repertoire for the specific voice or instrument at an appropriate level of performing ability. Consent of instructor or department chairperson and graduate standing.

**MUS-452C. Applied Music: Clarinet. 2 Hours.**

One-hour weekly lesson. Individual study in voice or any instrument for continued development of performing skills and musical artistry; knowledge of the repertoire for the specific voice or instrument at an appropriate level of performing ability. Consent of instructor or department chairperson and graduate standing.

**MUS-452D. Applied Music: Saxophone. 2 Hours.**

One-hour weekly lesson. Individual study in voice or any instrument for continued development of performing skills and musical artistry; knowledge of the repertoire for the specific voice or instrument at an appropriate level of performing ability. Consent of instructor or department chairperson and graduate standing.

**MUS-452E. Applied Music: Bassoon. 2 Hours.**

One-hour weekly lesson. Individual study in voice or any instrument for continued development of performing skills and musical artistry; knowledge of the repertoire for the specific voice or instrument at an appropriate level of performing ability. Consent of instructor or department chairperson and graduate standing.

**MUS-452W. Applied Music: Piano. 2 Hours.**

One-hour weekly lesson. Individual study in voice or any instrument for continued development of performing skills and musical artistry; knowledge of the repertoire for the specific voice or instrument at an appropriate level of performing ability. Consent of instructor or department chairperson and graduate standing.

**MUS-452X. Applied Music: Jazz String Bass. 2 Hours.**

One-hour weekly lesson. Individual study in voice or any instrument for continued development of performing skills and musical artistry; knowledge of the repertoire for the specific voice or instrument at an appropriate level of performing ability. Consent of instructor or department chairperson and graduate standing.

**MUS-463. Women In Music. 3 Hours.**

A study of some of the most notable women composers and musicians from the Middle Ages to the present. Designed both for musicians and non-musicians, the course will focus equally upon aspects of the music of the historical, social and cultural milieu.

**MUS-471. Seminar In Music History:Baroque. 3 Hours.**

In-depth study of selected topics in the music history and literature of the Baroque. Individual research topics.

**MUS-472. Seminar In Music History:Classic Era. 3 Hours.**

In-depth study of selected topics in the music history and literature of the Classic era. Individual research topics.

**MUS-476A. Theory Seminar: 20th Century Analytical Procedure And Compositional Techniques. 3 Hours.**

The purpose of this course is to give the student an opportunity to explore this selected topic in music. Consent of instructor.

**MUS-5901. Thesis Hours. 1 Hour.**

Guidance of students preparing a thesis, project or recital to fulfill requirements for the Master of Arts in Music.

**MUS-5902. Thesis Hours. 2 Hours.**

See course description for MUS-5901.

**MUS-5903. Thesis Hours. 3 Hours.**

See course description for MUS-5901.

NSCI-094. Natural Science. 3 Hours.

# NEIU-Interdisciplinary (NEIU)

---

## Courses

### **NEIU-100. ACE The Sciences: Research Community I. 3 Hours.**

NEIU-100 creates a research community among student participants in Agua en Comunidades Experimentales (ACE) project through a series of community-building activities, research experiences, academic supports, and social activities. In this course, students participate in activities that introduce research in the fields of water science, create a community of science scholars, and build relationships with faculty mentors. Activities include local field trips, laboratory experiences, and building academic success skills. Only students accepted in the ACE program are eligible to register for the course.

**Requirement:** By instructor permission only.

### **NEIU-201. Social Justice Living Learning Community Seminar. 1 Hour.**

The Social Justice Living Learning Community Seminar is a 1-credit course restricted in its enrollment to students who have been accepted into the Social Justice Living Learning Community. The course includes leadership training and instruction on an experiential learning project related to a social justice topic of interest. Students will identify a social justice cause and engage in an approved form of activism.

### **NEIU-225. Social Justice Foundations I: Key Concepts And Issues. 3 Hours.**

This interdisciplinary course is restricted to students who have been accepted into NEIU's Social Justice Leadership Program for new first-time, full-time freshmen and transfer students. This course fulfills the fall course requirement for students in this program. Students study social justice concepts including systemic oppression and privilege and then apply principles of justice to social constructions of identity, including race, gender, socioeconomic class, sexual orientation and gender identity, disability, and nationality. The course is worth 3 credit hours.

### **NEIU-275. STEM Living Learning Community Seminar. 1 Hour.**

The STEM Living Learning Community Seminar is a 1-credit course restricted in its enrollment to students who have been accepted into the STEM Living Learning Community. Students will gain knowledge of the scientific process, explore STEM career pathways, and interact with STEM professionals. Students will participate in activities to identify paid summer internships in STEM-related fields to strengthen their career opportunities. Course instruction will be supplemented with co-curricular activities including monthly campus events and STEM-related outings, such as visiting museum exhibits or local nature preserves, among others.

### **NEIU-289. Honors Living Learning Community Seminar. 1 Hour.**

The Honors Living Learning Community Seminar is limited to Honors Program students accepted to the Honors Living Learning Community. Students will learn about the opportunities and academic requirements of the Honors Program at NEIU, including honors interdisciplinary General Education courses, adapted courses, and the senior project/thesis. Students will also discover how to identify and apply for scholarships, internships, study abroad programs, research opportunities, and leadership and service roles that align with their personal and professional goals. Regular co-curricular activities, including performances, events, and team-building activities, will supplement classroom instruction.

### **NEIU-300. ACE The Sciences: Research Community II. 3 Hours.**

NEIU-300 continues the development of a research community among student participants in the Agua en Comunidades Experimentales (ACE) project. Students will be engaged in a series of community-building activities, research experiences, academic supports, and social activities. Students will participate in activities that apply research methods in the field of water science to create a community of science scholars and build relationships with faculty mentors. Activities include local field trips, laboratory experiences, and building academic success skills. Only students accepted in the ACE program are eligible to register for the course.

**Requirement:** By instructor permission only

**Prerequisite:** NEIU-100 with a minimum grade of C.

### **NEIU-301M. Developing A Research Thesis. 1 Hour.**

An integrative, collaborative, research-based introduction to the process of thesis writing. Each student conducts a focused search of the literature and prepares a research proposal in response to a specific, identified issue and is introduced to the elements of scholarly writing. Epistemological-and ethical issues of inquiry are explored.

### **NEIU-302M. College Teaching For TA's. 1 Hour.**

A seminar class to introduce students to college teaching skills and prepare them for teaching assistanships. Class discussion, assignments, and activities focus on the theory and practice of teaching and learning at the post-secondary level. Students draw on their own college learning experiences to evaluate instructional techniques and materials for effectiveness and meaning.

### **NEIU-303. Preparing For Graduate Study. 1 Hour.**

This one credit hour course supports the planning and implementation of applying to graduate programs in various disciplines of the humanities, sciences, and social sciences. The course will focus on core competencies of creating admission essays and curriculum vitae, identifying graduate schools and programs, and maximizing standardized test scores.

**NEIU-305. Future Teachers Living Learning Community Seminar. 1 Hour.**

The Future Teachers Living Learning Community Seminar is a 1-credit course restricted in its enrollment to students who have been accepted into the Future Teachers Living Learning Community. Students must be in their junior or senior years of a teaching-related program in the Goodwin College of Education. The course includes leadership training, professional development and networking opportunities with professionals in the field of education. In addition, team building activities are implemented to encourage a sense of community and to educate students on building community in their future classrooms. Prerequisite: Consent of Instructor.

# Nontraditional Degree Programs (NDP)

---

## Courses

### **NDP-201. College Success For Adult Returning Students. 3 Hours.**

Students will examine college success strategies including self awareness, critical thinking, styles of learning, time management, reading and notetaking skills, writing techniques, study skills, test taking strategies, overcoming math anxiety and strengthening learning gaps. The course will also provide an orientation to the NEIU learning environment with focus on university engagement. NDP-201 is open to all incoming adult returning students from all academic disciplines.

### **NDP-301. Putting It All Together: Projects For Academic And Career Goals. 2 Hours.**

This project-based course integrates out-of-college learning with the college curriculum and equips students with skills that can be applied across academic disciplines and in their careers. Students consider academic and career goals as they plan, develop and execute a personal project to accommodate those goals. Topics may include self-assessment, goal setting, learning theory, critical reading, project development and presentation.

**Requirement:** 45 credit hours completed.

### **NDP-305. Introduction To Library Research And Information Fluency. 1 Hour.**

Introduction to Library Research and Information Fluency, Icr. This class will introduce students to library research and issues in information studies. Students will acquire the skills to find and evaluate information and will learn how to create a bibliography and write citations. The course is geared towards students interested in learning how to research for class assignments, prepare research in their major or for graduate studies.

### **NDP-310. Writing Intensive Program: Diversity In The Workplace. 3 Hours.**

Workplace diversity is a hallmark of contemporary life. This course explores multiple dimensions of diversity, including race, class, gender, sexual orientation, and disabilities with the goal of preparing students to function in varied settings. The course is a writing intensive experience, offering the opportunity to develop and hone written communication skills applicable to the workplace.

**Prerequisite:** ENGL-101 with a minimum grade of C.

### **NDP-321. Correspondence On Current Biology Topics. 3 Hours.**

This course is designed for students interested in understanding current topics in the field of biology. The correspondence will vary based on instructor and student interest, but will focus on the appropriate biological background, experimental techniques, and the impact of these topics on health, society, and the environment. In addition, scientific reasoning and effective means of communicating biology to different audiences will also be discussed. Through the course materials, assignments, and regular correspondence, students will develop an appreciation for the living world around them, an understanding of experimental techniques in the natural sciences, and effective ways of communicating scientific information.

**Prerequisite:** (100 - 399 or 100A - 399Z).

### **NDP-330. Creating A Prior Learning Portfolio. 1 Hour.**

This one-credit hour course guides students through the process of creating a portfolio that showcases prior learning experiences. The course examines issues relating to learning and life experience. It explores questions of academic specialization and professional development. Final portfolios can be used to request credit by assessment and as a testament to a student's personal and professional accomplishments.

**Prerequisite:** ENGL-101 with a minimum grade of C and ENGL-102 with a minimum grade of C.

### **NDP-341. Human Rights: An Introduction. 1 Hour.**

Human rights principles have been explicitly enshrined in international documents since the 1948 United Nations Universal Declaration of Human Rights which American leaders helped formulate in the aftermath of the Holocaust. Human rights language is increasingly used in struggles for social justice worldwide. This course introduces students to the conceptions and debates about human rights in the US and globally, examining examples of the ways these values have and have not been implemented or secured.

### **NDP-342. Environmental Justice. 3 Hours.**

This class will give students an overview of issues and concerns related to environmental justice. Understanding environmental issues is crucial today in the context of global warming. This course introduces new ideas through which to consider the environment and our ethical responsibilities living in it.

### **NDP-351. Time And Project Management Skills. 1 Hour.**

This course explores the range and types of time and project management skills used in everyday life, academic and life-long learning, and in work settings. Students will analyze their own styles and theories of time management, learn how to set effective goals and objectives, and learn change management techniques that can be applied to new approaches, strategies, and techniques of time/project management.

### **NDP-380. Project Management For Individuals And Organizations. 3 Hours.**

This three-credit hour course guides students through the process of creating a project management proposal including a timeline. The course examines issues related to project structure and stakeholders and considers the process from selection to completion. It explores responsibilities within a project as well as how to identify and delegate project tasks. Students will be exposed to project management as it relates to organizational and individual goals, preparing them to participate in projects while maintaining a professional perspective. Content for this course is skill-based and includes knowledge topical to project management through weekly topics in learning modules.

**Prerequisite:** ENGL-101 with a minimum grade of C and ENGL-102 with a minimum grade of C.

# Ped Cntnt Kldg Tch Ele Mid Mth (MTHE)

---

## Courses

### **MTHE-401. Number And Operations For Elementary And Middle School Teachers. 3 Hours.**

Number and Operations for Elementary and Middle School Teachers examines the three main categories in the Number and Operations strand of Principles and Standards of School Mathematics (NCTM)-- understanding numbers, representation, relationships, and number systems; the meanings of operations and relationships among those operations; and reasonable estimation and fluent computation. Topics include: what is a number system?; number nets, infinity, and zero; place value; meanings and models for operations; divisibility tests and factors; fractions and decimals; rational numbers and proportional reasoning; and fractions, percents, and ratios. Students will also examine how course topics connect to the elementary and middle school curriculum.

### **MTHE-402. Patterns, Functions, And Algebra For Elementary And Middle School Teachers. 3 Hours.**

Patterns, Functions, and Algebra for Elementary and Middle School Teachers explores the "big ideas" in algebraic thinking. Topics include: finding, describing, and using patterns; using functions to make predictions; understanding linearity and proportional reasoning; understanding non-linear functions; and understanding and exploring algebraic structure. Students will also examine how course topics connect to the elementary and middle school curriculum.

### **MTHE-403. Geometry And Measurement For Elementary And Middle School Teachers. 3 Hours.**

Geometry and Measurement for Elementary and Middle School Teachers introduces geometric reasoning as a method for problem-solving and examines some of the major ideas in measurement. Topics include: properties of geometric figures; making constructions using pencil and paper; using dynamic software; practice using mathematical language to express ideas and justify your reasoning; the basis of formal mathematical proofs and solid geometry; procedures for measuring and learning about standard units in the metric and customary systems; the relationship among units; and the approximate nature of measurement. Students will also examine how course topics connect to the elementary and middle school curriculum.

### **MTHE-404. History Of Mathematics For Elementary And Middle School Teachers. 3 Hours.**

The History of Mathematics for Elementary and Middle School Teachers examines the historical development of mathematical ideas with an emphasis on connections to the elementary and middle school curriculum and the mathematical contributions of a diversity of world cultures. Special attention will be given to the interplay between mathematical ideas and the social and cultural context in which these ideas developed. Mathematical topics include numeration systems, number theory, algebra, geometry, probability and combinatorics.

### **MTHE-438. Data Analysis, Probability, And Statistics For Elementary And Middle School Teachers. 3 Hours.**

Data analysis, Probability, and Statistics for Elementary and Middle School Teachers introduces statistics as a problem-solving process. Students will build their skills through investigations of different ways to collect and represent data and to analyze and interpret variation in data. The course covers the following topics: statistics as problem solving; data representations; describing distributions; the five-number summary; variation about the mean; designing experiments; bivariate data and analysis; probability; and sampling and estimation. Students will also examine how course topics connect to the elementary and middle school curriculum.

### **MTHE-439. Technology For K-8 Math Teachers. 3 Hours.**

This course provides students with opportunities to explore modeling, computational, and communication tools used in teaching K-8 mathematics. The course will focus on: (a) the technological, pedagogical and content knowledge (TPACK) required for implementing software and technological devices effectively in the teaching and assessment of K-8 mathematics and (b) research on the use of technology in teaching and learning K-8 mathematics.

### **MTHE-450. Equitable Mathematics Teaching For Elementary And Middle School Teachers. 3 Hours.**

This course is designed to provide elementary and middle school teachers with opportunities to discuss equity issues in mathematics education. Participants will explore the meanings of equity by reading and discussing mathematics education research articles, including those that draw on sociocultural and sociopolitical theories of learning. In this course, equity broadly refers to thinking about how to provide elementary and middle school students with access to meaningful mathematical learning opportunities and outcomes within school boundaries and how this access is tied to students' intricate experiences in broader contexts. Issues of equity include, but are not limited to, race, culture, gender, SES, disabilities, language, and sexual orientation.

### **MTHE-451. Research Trends In Elementary And Middle School Mathematics Education. 3 Hours.**

This course is designed to provide elementary and middle school teachers with opportunities to acquire knowledge about current research in mathematics education and its application to the practice of teaching. Topics include teachers and teaching, student outcomes, student learning and assessment.

### **MTHE-496. Graduate Seminar For Elementary & Middle School Mathematics Teachers. 3 Hours.**

This course is designed as a capstone for students in the Masters in Pedagogical Content Knowledge for Teaching Elementary and Middle School Mathematics program. Students are given the opportunity to explore mathematical topics of interest to them and they will connect their understanding of that topic to the teaching of elementary and middle school mathematics. Requirements include a project and presentation in addition to course assignments. Problem solving and the study of elementary mathematics from an advanced standpoint will be emphasized. Mathematical topics will vary. Program portfolios are collected at the end of this course.

# Philosophy (PHIL)

---

## Courses

### **PHIL-101. Argument And Reasoning. 3 Hours.**

This course teaches the skills necessary to make and evaluate arguments. We cover how arguments are structured and properly used in reasoning, persuasion, deliberation, and inquiry. Students will learn how to distinguish good arguments from bad, to identify common fallacies of argumentation, and to avoid cognitive biases in reasoning.

### **PHIL-102. Introduction To Philosophy. 3 Hours.**

Introduction to the main problems of philosophy, i.e. knowledge, reality, morality, religion and art.

### **PHIL-201. Logic I. 3 Hours.**

Introductory course in symbolic logic, dealing with propositional calculus, quantification theory and the logic of relations and classes.

### **PHIL-213. Ethics. 3 Hours.**

Introduction to some of the main problems of ethics, including the nature of morality, the meaning of ethical terms, standards for evaluating choices and actions, and the major ideas of important moral philosophers.

### **PHIL-215. Business Ethics. 3 Hours.**

Philosophical introduction to the ethical content of some of the current problems confronting the business community, such as the social responsibility of business, poverty and equal rights, the ethical implications of ecology, advertising and consumerism.

### **PHIL-218. Philosophy Of Sex. 3 Hours.**

In this course we will look at a wide range of philosophical topics related to human sexuality-perversion, prostitution gender roles, and sex roles. Along the way will examine the role of power and coercion in sex and we will examine some of the psycho-social implications of sexual violence. The course will have a decidedly normative bent insofar as our analysis and discussion will be conducted through the lens of ethics.

### **PHIL-250. Ethics In Science And Research. 3 Hours.**

In this course, students will investigate how ethical issues and values (such as safety, autonomy, well-being, and justice) play a role in contemporary and historical case studies in the sciences. They will develop a skill set for asking ethical questions in the sciences and evaluating different ethical theories and philosophical concepts, giving them a foundation for thinking about responsibility and objectivity in scientific research and public policy. Topics may include: safety concerns with new technology; privacy, rights, and autonomy in genetic engineering; public policy concerning under-studied health conditions; and which communities of inquiry should be recognized or categorized as science.

### **PHIL-251. Philosophy Of Art. 3 Hours.**

An examination of art and aesthetic experience, including personal, social and political significance. Issues explored may include artistic concepts pertaining to form and content, representation and expression, meaning and truth critical interpretation and evaluation.

### **PHIL-300. History Of Ancient Philosophy. 3 Hours.**

This course introduces some of the major thinkers and themes of Ancient Western Philosophy. It will focus in particular on the work of Plato, Aristotle, and the Hellenists.

### **PHIL-301. History Of Medieval Philosophy. 3 Hours.**

Critical survey of the development of philosophy in the West from the rise of Christendom to the dawn of the Renaissance.

### **PHIL-302. History Of Modern Philosophy. 3 Hours.**

A critical survey of the development of philosophy in the West in the seventeenth and eighteenth centuries.

### **PHIL-303. Logic II. 3 Hours.**

Study of the theory and development of axiomatic systems, including the problems of definability, completeness and consistency.

**Prerequisite:** PHIL-201 with a minimum grade of D.

### **PHIL-305. Comparative Religion. 3 Hours.**

A comparative study of the epistemological, metaphysical, and ethical beliefs and practices of a range of world religions including Hinduism, Buddhism, Confucianism, Taoism, Judaism, Christianity, and Islam.

### **PHIL-311. Writing Intensive Program: Reasoning In Writing. 3 Hours.**

This is a workshop and discussion-based course that teaches students techniques for reading, writing, and researching philosophy, which form a foundation set of skills for other philosophy courses. Students will learn how to identify an author's philosophical project, how to motivate an introduction, how to assess their own arguments in writing, how to practice philosophical charity, how to further an academic conversation in the service of a real-world issue, and how to engage with multiple sources and authors.

**Prerequisite:** ENGL-101 with a minimum grade of C.

### **PHIL-313. Ethical Theory. 3 Hours.**

Study of theories about the meaning and justification of moral judgements: good and bad, right and wrong, human rights, justice, punishment, freedom and responsibility, self-interest, the common good, pleasure and happiness, religion and morality, relativism, subjectivism and scepticism.

**PHIL-315. Medical Ethics. 3 Hours.**

This course will focus on the ethical dilemmas both doctors and patients confront as practitioners and patients in medicine. We will pay careful attention to the issues of paternalism, voluntary informed consent and personhood and apply these ideas to actual cases.

**Prerequisite:** PHIL-213 with a minimum grade of C.

**PHIL-316. Ethics Bowl. 1 Hour.**

Ethics Bowl provides students with a unique opportunity to apply moral argumentation to real world cases. The Intercollegiate Ethics Bowl combines the excitement a competitive tournament with a valuable educational experience. Students will examine a series of case studies from a number of practical contexts, including engineering, law, medicine, personal relationships, school, and politics, both nationally and internationally. During the semester students will research and prepare these cases for competition. All students in the course will practice and present on cases, but students may decide if they wish to compete in the actual Ethics Bowl competition in November.

**PHIL-332. Contemporary Philosophy. 3 Hours.**

Critical survey of the salient schools of contemporary philosophy, notably idealism, pragmatism, logical positivism, analytic philosophy, phenomenology and existentialism.

**PHIL-333. American Philosophy. 3 Hours.**

Intensive study of the trends prevalent in the modern American philosophical scene, notably pragmatism, idealism, naturalism, positivism, philosophical analysis and phenomenology.

**PHIL-335. Analytic Philosophy. 3 Hours.**

Critical survey of the development of analytic philosophy in the twentieth century.

**PHIL-337. Existentialism. 3 Hours.**

Intensive study of selected works of existentialist thinkers such as Kierkegaard, Nietzsche, Sartre and Camus.

**PHIL-339. Post Modernism. 3 Hours.**

This course will examine the rise of modernity as an "age of unrest", and therein delineating the confrontation between contemporary philosophy and the current epoch. To this end, we will assess the precise ways in which modernity has cast itself forward as a historical and epistemological rupture of devastating proportions, one that irrevocably alters our understanding of knowledge, society, power, technology, language, and the question of human experience.

**PHIL-341. Metaphysics. 3 Hours.**

Systematic analysis of some of the main problems of metaphysics, such as existence, substance and attribute, change and permanence, essence and accident, universals and particulars, mind and body, identity, individuation and causality.

**PHIL-344. Buddhism. 3 Hours.**

The course will begin with an analysis of Buddhism's origins within Hinduism and the early development of its religious beliefs and philosophical concepts in India. It will continue with an in depth look at its spread throughout Asia and the transformation of its core beliefs and concepts within the main traditions of Theravada, Mahayana, and the Vajrayana. The course will include a study of current global trends, such as the rise of political and social engagement and the impact of Buddhism on western philosophical traditions including existentialism and phenomenology.

**PHIL-345. Social And Political Philosophy. 3 Hours.**

Systematic investigation of some of the salient issues currently discussed by social and political philosophers, such as the nature and origin of the state, political obligation, justice, human rights, authority, liberty and evaluation of social and political institutions.

**PHIL-346. 19th Century Continental Philosophy. 3 Hours.**

This course focuses on the development of German Idealism and its relation to Continental Philosophy. Thematically the class will cover topics such as freedom, epistemology, aesthetics, philosophy of history, and politics in the work of Kant, Fichte, Schelling, Hegel, and Marx.

**PHIL-347. Phenomenology And Hermeneutics. 3 Hours.**

This class introduces students to the basic methods, themes, and critiques advanced in the philosophical movements known as phenomenology and hermeneutics. This class will survey three types of phenomenology: transcendental phenomenology, genetic phenomenology, and hermeneutical phenomenology. We will explore the intersections between these types of phenomenology and the analysis of time, embodiment, culture, art, and politics.

**PHIL-348. Computer Ethics And Public Policy. 3 Hours.**

This course discusses ethical and social issues related to the development and use of computer technology. The course provides students with historical and philosophical context to understand the evolution of ethics and its intersection with the use of technology as well as an examination of major ethical issues currently affecting the use of computer technology. Topics involve ethics, public policy, privacy, responsibility and the law.

**PHIL-349. The Political Thought Of Karl Marx. 3 Hours.**

In this course, we investigate the work of Karl Marx on politics, political economy, and society. Our primary aims will be to read Marx on his own terms, to address impediments to reading his work such as the failures of state socialism and the American reception of Marx during the Cold War, and to consider the effects of his work across academic disciplines. Specific course topics may include Marx on questions of identity and prejudice, the persistence of inequality, and his influence in the humanities and the social sciences.

**PHIL-350. Philosophy Of Art. 3 Hours.**

This course examines philosophical issues that arise concerning the creation, interpretation and viewing of art, primarily though not exclusively in the western art tradition. Topics to be discussed include: what is the "aesthetic," and who is the best judge of it? Is good art beautiful? Should art be viewed dis-interestedly? What is it to get at the meaning of a work of art? How does new technology affect the meaning and experience of art? We will also examine the role of aesthetics in other fields of philosophy, especially in environmental ethics.

**PHIL-353. Feminism And The Philosophy Of Science. 3 Hours.**

Analytic examination of the concept of femininity as found in the biological and social sciences in order to facilitate discussion of the nature of objectivity and scientific investigation.

**PHIL-362. Philosophy Of Law. 3 Hours.**

In this course, we will engage in an examination of law and legal systems, as well as of the ideas, ideologies, and principles that are at the core of the establishment and interpretation of law. The pervasive presence of law in our lives should encourage us not only to understand it, but to scrutinize its foundations and presuppositions. Toward this end, we will pay special attention to three aspects of philosophy of law: analytic jurisprudence, normative jurisprudence, and critical law theory.

**PHIL-364. Critical Race Theory. 3 Hours.**

This course begins with the recognition that racism is prevalent in the United States. Critical Race Theorists confront the historical centrality of white supremacy and the complicity of the law in upholding, indeed constructing, racism. Following the challenge to ahistoricism and acontextualism embedded in standard legal practice brought by Critical Legal Theorists, Critical Race Theorists address racism as embedded in U.S. legal structure. We will examine the law's role in the construction and maintenance of social domination and subordination in order to understand and articulate a critical race theoretical approach to the intersections of race, gender, class and the law.

**PHIL-365. Environmental Ethics. 3 Hours.**

How ought we behave towards nature and what are the implications of human interaction with ecosystems? We will pay special attention to the value of restored nature and whether it is a form of human domination or whether restoration is a legitimate endeavor to be pursued out of moral obligation. We will integrate actual cases into the class in order to flesh out the policy implications of our philosophical commitments.

**PHIL-366. Feminist Ethics. 3 Hours.**

What is feminism? What is Feminist Ethics? How do feminists differ in their ways of thinking about the good life and acting in the world than a non-feminist? Why do they differ in their understanding of these issues? How should we live our lives in a way that reflects feminist values? These are just some of the questions we will explore in this class. Specifically, we will explore the key concepts of different types of feminist ethics and the ways to apply it to our everyday lives.

**PHIL-367. Postcolonialism. 3 Hours.**

In this course we will move toward not a postcolonialism that transcends colonialism, but thinking with those who work toward a practice of decolonial thinking. While there have been many empires which have plundered pre-existing cultures and civilizations, modern colonialism did more than extract tribute, goods and wealth from conquered countries. It restructured economies, societies, languages, histories. Thus, while political colonialism is over in many locales, economic and cultural colonialism reverberate within both former colonies and colonizing countries. Postcolonial theorists write from the margins of and in resistance to reverberating colonial cultural productions.

**PHIL-370. Re-Thinking Race And Gender. 3 Hours.**

We start with historical narrative, re-thinking how we learn to practice race and gender from within the larger systems of white supremacy and patriarchy. The course explores models for disrupting systemic patterns, and ways to turn rethinking into everyday action. The aim throughout is to interrogate structures and relations of race and gender, and how they get naturalized. Designed and cross-listed for advanced undergraduates, graduates, and teachers. When taught as a Summer Institute, course runs for eight days over three weeks. Required: Junior/Senior or Graduate status, or instructor consent. Prereqs: ENGL-101 with a grade of "C" or above.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**PHIL-371. Theory Of Knowledge. 3 Hours.**

Systematic inquiry into the nature of knowledge, with a consideration of such topics as ways of knowing, perception, memory, personal identity, and other minds.

**PHIL-373. Feminist Philosophy. 3 Hours.**

Analytic investigation of the latest feminist theory in order to study the development of feminism.

**PHIL-374. Philosophy Of Sex. 3 Hours.**

Students will examine philosophical topics related to human sexuality, such as the metaphysics of sex acts; political philosophy of sexual coercion and violence; ethical issues of sex work; and analysis of different types of sexual and romantic relationships, such as monogamy and polyamory.

**Prerequisite:** and.

**PHIL-375. Philosophy Of Science. 3 Hours.**

Examination of some of the main problems currently discussed by philosophers of science, such as the methodology and foundations of empirical science, the meaning and verification of scientific statements, theories, laws, hypotheses and explanations.

**PHIL-376. Philosophy Of Disability: Society And Self. 3 Hours.**

In this course, students will explore philosophical issues regarding society, the self, and the human body (including brain) through the lens of disability. All humans have variance in their bodies, abilities, and thinking, but many social institutions, spaces, and norms do not cater to and value those variances equally (ableism). How does ableism influence ideas about fairness, the good life, and what it means to be human? What insights arise when we consider variance and change core aspects of human life? What tools does disability studies offer everyone, and what new questions, problems, and reflections come to light when we use them?.

**PHIL-380. Happiness. 3 Hours.**

Achieving happiness is one of life's most valuable goals and one of the goals of this class. This class will examine the psychological factors that influence happiness and the diverse philosophical arguments for the value of happiness. Students will engage in projects designed to implement psychological research with the goal of maximizing their happiness.

**Prerequisite:** (100 - 399 or 100A - 399Z).

**PHIL-381. Independent Study In Philosophy. 3 Hours.**

Readings, discussions, and reports on a special topic with faculty supervision. Normally open to majors in their junior or senior year.

**PHIL-384. Philosophy Of Religion. 3 Hours.**

This course examines questions concerning the existence, nature and evidence for the primary and fundamental objects of religious belief. Topics may include the following: 1) Can we demonstrate God's existence? 2) Is faith irrational? 3) Can we know anything about God? 4) Is the existence of evil evidence against the existence of God? 5) Is religion necessary for morality?.

**PHIL-385. Philosophy Of Mind. 3 Hours.**

This course examines the central issues and debates in philosophy of mind from both historical and contemporary perspectives. Topics covered may include theories of the mind's relation to the body (dualism, monism, functionalism, behaviorism, identity theory, eliminative materialism), theories of mental content, free will, personal identity and first-person experience, among others.

**PHIL-387. The Political Thought Of Hannah Arendt. 3 Hours.**

This course investigates the work of Hannah Arendt on politics, society and political action. Our primary questions will be: what does political action require and what can it accomplish? Specific course topics may include civil disobedience, the relationship between history and political theory, the meanings of power and violence, colonialism, totalitarian rule during the Third Reich and the Soviet era, and racial prejudice as a political tool.

**PHIL-388. Philosophy Of Language. 3 Hours.**

This course focuses on language use and begins with theoretical challenges from both the analytic (Wittgenstein) and continental (Derrida) traditions in philosophy to idealized theories of language, particularly the reference theory of language <the idea that words are mere labels for things> as well as the idea that language is a pure and formal unity. We will explore strategies of using language to construct consensus through both syntax and semantics, generating commitment to particular and tacit understandings. We will also work on theories of metaphor and performatives to become skilled in articulating practical complexities of language use.

**PHIL-389. Inter-Disciplined Foucault. 3 Hours.**

This course explores Michel Foucault's theories of language, truth, knowledge, and power across academic disciplines. Topics covered will include his work in the philosophy of inquiry, and his studies of prisons, sexuality, the legal order, art, and literary representation.

**PHIL-390. Classical Political Theory. 3 Hours.**

This course studies the political thought of Socrates, Plato and Aristotle in the broad historical and cultural context of the classical era. Readings may include literary works and histories from Greek, Roman, Biblical and Chinese sources. We will attend carefully to the distinctiveness of ancient texts and historical experiences with the goal of considering how classical formulations of enduring concepts and themes inform and contrast with contemporary ethical and political practices.

**PHIL-391. Modern Political Theory. 3 Hours.**

This course studies the development of modern political philosophy and practice. We will address the emergence of modern humanism and republican self-rule, analyze obligation and the rule of law in the contract tradition, and examine ongoing conflicts between authority and freedom and power and equality in the 19th, 20th and 21st centuries. Readings may include works by Hegel, Hobbes, Machiavelli, Marx, J.S. Mill, Nietzsche, Rousseau, Wollstonecraft, and American literary perspectives on the problem of race and racism in democratic politics.

**PHIL-393. Seminar In Ethics. 3 Hours.**

This course involves an intensive study of a topic or philosopher important to the field of ethics. Students should be prepared to engage in critical analysis of current research in the field and be prepared to present a research paper at the end of the course.

**Prerequisite:** (PHIL-100 - 399 or PHIL-100A - 399Z or ZPHI-100 - 399 or ZPHI-100A - 399Z).

**PHIL-394. Seminar In Epistemology. 3 Hours.**

This course involves an intensive study of a topic or philosopher central to the subfield of Epistemology. Students should be prepared to engage in critical analysis of current research in the field and be prepared to present a research paper at the end of the course.

**Prerequisite:** (PHIL-100 - 399 or PHIL-100A - 399Z or ZPHI-100 - 399 or ZPHI-100A - 399Z).

**PHIL-395. Seminar In Metaphysics. 3 Hours.**

This course involves an intensive study of a topic or philosopher central to the subfield of Metaphysics. Students should be prepared to engage in critical analysis of current research in the field and be prepared to present a research paper at the end of the course.

**Prerequisite:** (PHIL-100 - 399 or PHIL-100A - 399Z or ZPHI-100 - 399 or ZPHI-100A - 399Z).

**PHIL-396. Seminar In The History Of Philosophy. 3 Hours.**

This course involves an intensive study of a topic or philosopher central to the field of the History of Philosophy. Students should be prepared to engage in critical analysis of current research in the field and be prepared to present a research paper at the end of the course.

**PHIL-397. Seminar In Social And Political Philosophy. 3 Hours.**

This course is an intensive study of a topic or philosopher central to the field of social and political philosophy. Students should be prepared to engage in critical analysis of primary sources and current research in the field. Students should also be prepared to present a research paper at the end of the course.

**Prerequisite:** (PHIL-100 - 399 or PHIL-100A - 399Z or ZPHI-100 - 399 or ZPHI-100A - 399Z).

# Phys Education Activity (PEMA)

---

## Courses

### **PEMA-105. Beginning Swimming. 1 Hour.**

The course is designed for participants with little or no swimming ability or experience. Students will acquire basic swimming and water safety skills.

### **PEMA-110. Yoga For Beginners. 1 Hour.**

The course is designed for participants with little or no yoga experience. Students will acquire basic yoga skills and practice yoga poses.

### **PEMA-115. Meditation For Stress, Anxiety, And Mental Clarity. 1 Hour.**

In this course students will practice a range of meditative techniques ranging from guided meditation, mantra meditation, silent sitting and yoga nidra-deep dreamless yoga sleep. Each class will consist of practice and reflection. Outside class work will include select readings to assist students in understanding the benefits of meditation. Students will develop their own practice using a practice guidebook of their own making.

### **PEMA-152. Judo And Self-Defense. 1 Hour.**

Examination and practical application of judo and self-defense techniques. Special emphasis on proper training methods, physical conditioning, teaching techniques, and rules and regulations in contests.

### **PEMA-161. Badminton. 1 Hour.**

Introduction to basic skills: clear shots, serves, drop shots, smashes, offensive and defensive strategies. Rules, singles and doubles; tournaments.

### **PEMA-162. Bowling. 1 Hour.**

Theory and practices; rules, regulations, skill practice, tournament play and handicapping and coaching.

### **PEMA-163. Golf. 1 Hour.**

Instruction designed for beginning and experienced golfers in proper use of woods; long, middle, and short iron shots; putting, and specialty shots. Etiquette and rules of golf; visitation to driving range and golf course.

### **PEMA-166. Recreational Games. 1 Hour.**

Choosing, teaching and organizing informal recreational activities, including non-traditional, creative activities, sedentary, competitive and cooperative play situations.

### **PEMA-172. Basketball. 1 Hour.**

This course will cover the basic skills of basketball including dribbling, passing, and shooting as well as offensive and defensive strategies. Students will be introduced to small game play and team strategies. They will gain a basic understanding of basketball rules and officiating. Students will achieve proficiency in the fundamentals of basketball.

### **PEMA-203. Weight Training. 3 Hours.**

Basic principles of weight training and its effects on the body; proper lifting and training technique, individualized programs for general fitness or athletics, isometrics and safety procedures.

### **PEMA-210. Lifeguard Certification American Red Cross. 2 Hours.**

This course is designed to teach the skills required to become an American Red Cross Lifeguard. This will include swimming skills in order to perform lifeguarding skills, Cardiopulmonary Resuscitation (CPR), and Automated External Defibrillation (AED). Students who qualify may be certified as a Lifeguard. Student must pass a pre-course swimming skills test and meet all the requirements by the American Red Cross Lifeguard Course in order to be certified. This will include attendance at a minimum of 25 hours in class and passing the written and skills exams.

### **PEMA-215. Water Safety Instructor Certification American Red Cross. 2 Hours.**

This course is designed for physical education students and other professionals who will be expected to teach aquatics. It includes progressive swimming instruction, observation, and participation in other aquatic activities and peer teaching. Students who qualify may be certified as Water Safety instructors (WSI). Students must pass a pre-course swimming skills test and meet all the requirements by the American Red Cross WSI in order to be certified. This will include attendance at a minimum of 32 hours in class.

### **PEMA-332. Fundamentals Of Yoga Philosophy And Practice. 3 Hours.**

Introduction to the philosophy and practice of yoga. The philosophical view will be based on Pantanjali's yoga system. In addition, proper breathing techniques, nutrition, positive thinking, relaxation, concentration and stress management will be covered.

### **PEMA-334. Philosophy And Practice Of Yoga II. 3 Hours.**

This course builds on PEMA-332: Fundamentals Of Yoga Philosophy And Practice. Through reading, discussion, and practice the following will be covered: anatomy and body systems in relation to advanced yoga asana, advanced yoga asana practice, overcoming obstacles to develop your own personal practice and teaching of advanced asana yoga, historical concepts of Western and Vedic ideas, and metaphors present in Eastern thinking.

**Prerequisite:** PEMA-332 with a minimum grade of C.

## Courses

### **PEMT-109. First Year Experience: Chicago Body Works. 3 Hours.**

This course will give students a comprehensive and practical view of the importance of fitness and nutrition in their daily lives. Students will be engaged in activities that they can participate in for life. They will learn the underlying fundamentals of a fit for life attitude. Each student will be provided with the knowledge and understanding of how to assess their current level of fitness and how to make improvements in the five health-related fitness component areas (cardiovascular fitness, body composition, flexibility, muscular strength and muscular endurance) through various physical and skill related activities. Also emphasized will be the importance and application of proper nutrition. A strong focus will be the multifaceted and diverse challenges faced by individuals committed to pursuing wellness in Chicago.

### **PEMT-109B. First Year Experience: Adventure In Chicago. 3 Hours.**

This course is a hands-on experiential based approach to learning about and using cooperative learning, teams, challenge and adventure education, simulations and debriefing processes to create positive learning environments that promote engaged active learning. The course will focus on themes of self-knowledge, diversity, dealing with conflict, classroom dynamics, establishing effective learning environments, building peer and teacher-student trust and relationships that promote a "caring classroom".

### **PEMT-151. Fundamentals Of Rhythms. 3 Hours.**

This course will cover basic locomotor movements, choreography skills (movements with music), and several genres of dance (i.e. ballet, jazz, and modern). Students will be introduced to a wide range of dance forms (social, cultural, and creative dance) and dance pedagogy. Students will achieve proficiency in a variety of fundamental dance skills and basic teaching strategies.

### **PEMT-201. Introduction To Principles And Methods In Physical Education. 3 Hours.**

Principles, methods, aims and objectives of physical education; the place of physical education in the school curriculum; general and specific objectives; general techniques in teaching; principles of selecting content; progressions, building curricula to fit varying schools; lesson planning leadership, and squad organizations; co-operation with teachers, supervisors and administrators.

### **PEMT-203. Fitness Education. 3 Hours.**

This course will cover the development and implementation of numerous fitness-related activities and current trends in fitness for physical education. Students will be introduced to the components of health and skill related fitness, principles of training and fitness pedagogy through experiential activities. Students will achieve a thorough understanding of fitness.

### **PEMT-231. Teaching Target, Net, And Wall Activities In Physical Education. 3 Hours.**

A content course focused on movement skills and knowledge for students in grades 3-12 within activity categories aligned to National Standards and Grade Level Outcomes for K-12 Physical Education. Teacher candidates will develop common and specialized content knowledge related to target, net, and wall activity categories. In addition, teacher candidates will recognize and understand academic language and theory related to teaching and learning target, net, and wall activity categories.

### **PEMT-235. Teaching Physical And Health Education Concepts For Classroom Teachers. 3 Hours.**

This course will cover the fundamental principles and basic methodology of teaching physical and health education concepts for elementary classroom teachers. Students will be introduced to fundamental content knowledge and introductory teaching methodology. Students will achieve a broad understanding of quality physical and health education concepts and a variety of strategies to successfully implement them into active, developmentally appropriate lessons.

### **PEMT-242. Cooperative Learning In Adventure Education. 3 Hours.**

This course is a hands-on experiential based approach to learning about and using cooperative learning, teams, challenge and adventure education, simulations and debriefing processes to create positive learning environments that promote engaged active learning. The course will focus on themes of self-knowledge, diversity, dealing with conflict, classroom dynamics, establishing effective learning environments, building peer and teacher-student trust and relationships that promote a "caring classroom".

### **PEMT-251. Fundamentals Of Rhythms. 3 Hours.**

This course will cover basic locomotor movements, choreography skills (movements with music), and several genres of dance (i.e. ballet, jazz, and modern). Students will be introduced to a wide range of dance forms (social, cultural, and creative dance) and dance pedagogy. Students will achieve proficiency in a variety of fundamental dance skills and basic teaching strategies.

### **PEMT-276. Teaching Invasion, Striking, And Fielding Activities In Physical Education. 3 Hours.**

A content course focused on movement skills and knowledge for students in grades 3-12 within activity categories aligned to National Standards and Grade Level Outcomes for K-12 Physical Education. Teacher candidates will develop common and specialized content knowledge related to invasion, striking, and fielding activities. In addition, teacher candidates will recognize and understand academic language and theory related to teaching and learning invasion, striking, and fielding activity categories.

### **PEMT-300. Adventure Education Programming. 3 Hours.**

Course will focus on how to integrate an interdisciplinary adventure-based program into traditional school curricula. The following topics will be investigated: Philosophical knowledge of adventure education, liability and safety in program design and developing interdisciplinary education units.

**PEMT-302. Kinesiology. 3 Hours.**

A systematic approach to the analysis of the responses of the human organism to both internal and external forces. The human body as an instrument for solving environmental challenges in movement will be investigated from both qualitative and quantitative perspectives. Lecture and laboratory.

**PEMT-303. Adapted Physical Education And Recreation. 3 Hours.**

The purpose of PEMT-303 is to provide students with the knowledge and basic skills required to meet the professional and legal mandates pertaining to kinesiology for individuals with disabilities. This course encompasses all sub-specialties in the profession with particular emphasis on children and their physical and motor development in schools. The course provides lesson plan writing, practical teaching opportunities and experiences for each student enabling each learner to gain the following; understanding of the knowledge and skills for students with disabilities, and planning and teaching students with disabilities in K-12 setting.

**PEMT-305. Functional And Structural Human Anatomy. 3 Hours.**

This course will cover the fundamental functional and structural anatomical aspects of the human body. Students will be introduced to the skeletal, muscular, nervous, respiratory, cardiovascular, endocrine and reproductive systems. Students will achieve a broad understanding of the function and structure of these systems and how this knowledge can be applied in health and physical activity settings.

**PEMT-306. Exercise Physiology. 3 Hours.**

This course will cover a broad understanding of the metabolic processes and various physiological systems that underlie human movement. Students will be introduced to the specific adaptations that occur within the body as a result of various types of physical activity. Students will achieve a strong understanding of how physiological concepts, related to human movement, explain the impact of exercise and physical activity on the body. Additionally, students will be able to apply their knowledge of these systems to provide more effective exercise, sport and physical activity programs. Departmental approval required.

**PEMT-307. Assessment In Physical Education. 3 Hours.**

This course will cover the role of assessment in k-12 physical education programs. Students will be introduced to the development of assessments in the psychomotor, cognitive and affective learning domains. In addition they will learn basic statistics, introductory data manipulation, presentation, and analysis. Students will achieve an understanding of the basic principles of assessment, creation of developmentally appropriate assessments, and achieve proficiency in the manipulation, presentation, and interpretation of assessment data.

**PEMT-308. Motor Skill Behavior. 3 Hours.**

This course will cover the central theories of motor skill behavior, concepts of motor skill behavior, and their practical application in instructional settings. Students will be introduced to motor skill learning theories, concepts explaining central and sensory control of movement, childhood motor development, and factors influencing motor skill learning. Students will achieve a broad understanding of how to apply these theories and concepts in practitioner based settings such as teaching, coaching, clinical and therapeutic environments.

**PEMT-309. Sport & Exercise Psychology. 3 Hours.**

This course will cover the psychological theories and constructs that underlie performance in sport, exercise and physical activity settings. Students will be introduced to the foundational theories that explain individual and contextual factors that influence behavior in the physical realm. A theory to practice approach will be used to understand the psychology of sport and exercise behavior.

**PEMT-310. Socio-Cultural Influences On Physical Activity. 3 Hours.**

This course will cover the contemporary and historical perspectives on social and cultural issues that influence youth in physical activity settings. Students will be introduced to issues including race, gender, sexuality, body image, and socioeconomic status and how they influence physical activity. Students will achieve a broader understanding of how these issues influence physical activity and strategies to encourage participation.

**PEMT-311. Introduction To The Theory And Methodology Of Coaching. 3 Hours.**

This course will cover the basic theory, methodology, and principles of athletic coaching. Students will be introduced to sport and exercise science theory, instructional methodology, and pedagogical principles related to athletic coaching. Students will achieve a broad understanding of how theory and methodology underpin quality athletic coaching and the ability to apply these concepts in practice. Requires Departmental authorization/approval.

**PEMT-341. Physical Education Curriculum Design. 3 Hours.**

This course will cover the design and implementation of current physical education curricular models. Students will be introduced to developmentally appropriate methodologies for lessons, units, and semester planning for a variety of models. Students will achieve an understanding of how to develop and apply these models in k-12 physical education settings.

**Prerequisite:** PEMT-201 with a minimum grade of C and PEMT-203 with a minimum grade of C.

**PEMT-343. Foundations Of Physical Education In Early And Elementary Education. 3 Hours.**

This course will cover the basic pedagogical principles and methodologies for the design and implementation of physical education in PreK thru 6th grades. Students will be introduced to planning, pedagogy, behavior management, assessment, and evaluation of student performance. Students will achieve the theoretical knowledge (classroom) and the practical experiences (field experience) required to fulfill the professional responsibilities of a successful elementary school physical educator. Additionally, students will be required to observe 20 hours in an elementary physical education setting.

**Prerequisite:** PEMT-201 with a minimum grade of C and PEMT-203 with a minimum grade of C.

**PEMT-344. Foundations Of Physical Education For Middle & High Schools. 3 Hours.**

This course will cover the basic pedagogical principles and methodologies for the design and implementation of physical education at the middle and high school levels. Students will be introduced to planning, pedagogy, behavior management, and assessment and evaluation of student performance. Students will achieve the theoretical knowledge (classroom) and the practical experiences (field experience) required to fulfill the professional responsibilities of a successful middle or high school physical educator. Additionally, students will be required to observe 20 hours in middle or high school physical education settings.

**Prerequisite:** PEMT-201 with a minimum grade of C and PEMT-203 with a minimum grade of C.

**PEMT-351. Independent Study In Physical Education. 1 Hour.**

Special project of the student's choosing relating to some facet of physical education.

**PEMT-352. Independent Study In Physical Education. 2 Hours.**

(See PEMT-351 for description.).

**PEMT-353. Independent Study In Physical Education. 3 Hours.**

(See PEMT-351 for description.).

**PEMT-355. Physical Education Clinical Experience. 3 Hours.**

In this course students will be introduced to authentic physical education classroom settings and the planning, implementation, and assessment processes that occur. Students will be required to complete a minimum of 100 hours of clinical observation (50 elementary, 50 secondary) during this course. This course also will cover basic components of the edTPA portfolio, including a review of planning, implementation, and assessment in physical education. Students will achieve a broad understanding of the edTPA process and the factors that influence quality physical education within the school setting. Departmental Authorization/Approval required.

**PEMT-375. Student Teaching And Seminar In Physical Education. 12 Hours.**

This course requires sixteen weeks of full-day student teaching and practical teaching experience in a preK-12 physical education setting. Students enrolled in this course are supervised by a cooperating teacher and a university supervisor, who conducts a weekly seminar associated with student teaching.

**Prerequisite:** PEMT-355 with a minimum grade of C.

**PEMT-375B. Student Teaching And Seminar In Physical Education. 6 Hours.**

This course requires sixteen weeks of full-day student teaching and practical teaching experience in a preK-12 physical education setting. Students enrolled in this course are supervised by a cooperating teacher and a university supervisor, who conducts a weekly seminar associated with student teaching.

**Prerequisite:** PEMT-355 with a minimum grade of C.

**PEMT-400. Adventure Education. 3 Hours.**

The course will focus on how to integrate an interdisciplinary adventure-based program into physical education and recreational settings. The course is an experiential based approach to learning that uses cooperative learning, team building, simulations, and debriefing processes to create positive learning environments that promote engaged active learning. Liability and safety measures to consider when designing and developing adventure education programs will be addressed as well.

**PEMT-410. Socio/Cultural Influences On Physical Activity, Sport, And Recreation. 3 Hours.**

This course will cover contemporary and historical perspectives on social and cultural issues that influence youth and adults in physical activity, sport, and recreation settings. Students will be introduced to issues including race, gender, sexuality, body image, and socioeconomic status and how these factors influence physical activity, sport, and recreation.

**PEMT-440. Contemporary Curricula In Physical Education. 3 Hours.**

This course will cover the design and implementation of current physical education curricular models. Students will be introduced to developmentally appropriate methodologies for lessons, units, and semester planning for a variety of models. Students will discuss the application of these curricula and how to implement them into their current physical education teaching setting.

**PEMT-445. Contemporary Teaching Methods In Physical Education. 3 Hours.**

This course will cover contemporary pedagogical principles and methodologies for the design and implementation of physical education at the elementary, middle, and high school levels. Students will discuss, apply, and implement the most current theoretical knowledge and practical experiences within physical education pedagogy.

# Physics (PHYS)

---

## Courses

### PHYS-103. Introduction To Astronomy. 3 Hours.

An introduction to the field of Astronomy. Course topics include: the history of astronomy and the philosophy of science; methods of observational astronomy; an overview of the scientific method; gravitation and orbital dynamics; the origin, dynamics, and composition of our solar system; descriptions of asteroids, comets, and planets; the formation, evolution and death of stars; white dwarfs, neutron stars and black holes; novae and supernovae; star clusters, galaxies, and galactic clusters; the Big Bang theory, cosmology, dark energy and dark matter; the possibility of extraterrestrial life.

### PHYS-104. Energy. 3 Hours.

A course for non-science majors requiring no previous college-level mathematics or science background. Physics and its application to the problems of energy consumption and production are discussed. Topics include the need for nuclear reactors and the implications thereof, the dumping of nuclear waste at sea and alternatives, better energy sources and energy depletion, the motion of pollutants through the environment, and other related topics.

### PHYS-108. Physics Concepts For Educators. 4 Hours.

A laboratory-oriented course designed to support future educators in the implementation of interdisciplinary math and science curricula by integrating concepts from geometry, algebra, and trigonometry. Central concepts of physics (the laws of mechanics and electricity, the properties of light, atoms and nuclei) and how they are applied in the modern world (rockets, electric motors, automobiles, fuel cells, alternative fuels, stationary i.e. power plant and non-stationary i.e. aircraft, green technology etc.) are investigated. Issues of smart materials, nanotechnology, quantum computing and other contemporary technologies may be investigated. Discussions include topics and concepts related to robotics, kinematics and dynamics of particles and rigid bodies and electrostatics, electric fields, electric potentials, currents, magnetic fields, and wave motion. Basic concepts of geology, meteorology, oceanography, the solar system, or any other related discipline are threaded throughout. Course content is aligned to the National Science Teachers Association and the Next Generation of Science Standards. This course is paired and integrated with MATH-280 and it is strongly suggested that they are taken together.

**Prerequisite:** MATH-149 with a minimum grade of C.

### PHYS-110. Physics In Everyday Life. 3 Hours.

A laboratory oriented course for the non-science major. Central concepts of physics (the laws of mechanics and electricity, the properties of light, atoms and nuclei) and how they are applied in the modern world (rockets, electric motors, optical instruments, automobiles, toys, etc.). Knowledge of basic algebra skills is assumed. Lecture 2 hours, lab 2 hours.

**Prerequisite:** (MATH-092 - 499 or MATH-092A - 499Z or NEIU Math Placement Result 30 - 40 or ACT Math 22 - 36 or Accuplacer College Level Math 020 - 120 or SAT Math 530 - 800 or Accuplacer Adv. Algebra & Func 237 - 300).

### PHYS-180. Fundamentals Of Data Science. 4 Hours.

Foundations of data science considers data from three perspectives: inferential thinking, computational thinking, and real-world relevance. Given data arising from some real-world phenomenon, how does one analyze that data to understand that phenomenon? The course teaches critical concepts and skills in computation and statistical inference, in conjunction with hands on analysis of real-world datasets, including economic data, document collections, geographical data, and data from social networks. It delves into social, ethical, and legal issues surrounding data analysis, including privacy and data ownership.

**Prerequisite:** MATH-173 with a minimum grade of C or MATH-185 with a minimum grade of C or MATH-187 with a minimum grade of C.

### PHYS-200. Introduction To College Physics. 3 Hours.

**Prerequisite:** MATH-106 (may be taken concurrently) with a minimum grade of D.

### PHYS-201. College Physics I. 3 Hours.

This is the first course of a two-term algebra-based lecture sequence intended for non-physics majors: PHYS-201 and PHYS-202. The companion laboratory is PHYS-203. Kinematics and dynamics of a particle and systems of particles, momentum, energy, angular momentum, conservation laws, applications to problems involving collisions, oscillatory motion and motion in a gravitational field, rigid body motion, temperature, heat, the laws of thermodynamics, application to thermodynamic engines, and ideal gases are discussed. Lecture: 3hrs.

**Prerequisite:** MATH-185 with a minimum grade of C or MATH-106 with a minimum grade of C.

### PHYS-201L. College Physics I With Lab. 5 Hours.

This is the first course of a two-term algebra-based lecture and laboratory sequence intended for non-physics majors: PHYS-201L and PHYS-202L. Kinematics and dynamics of a particle and systems of particles, momentum, energy, angular momentum, conservation laws, applications to problems involving collisions, oscillatory motion and motion in a gravitational field, rigid body motion, temperature, heat, the laws of thermodynamics, application to thermodynamic engines, and ideal gases are discussed. Lecture: 4hrs. Lab: 2 hrs.

**Prerequisite:** MATH-185 with a minimum grade of C or (MATH-173 with a minimum grade of C and MATH-175 with a minimum grade of C) or (MATH-173W with a minimum grade of C and MATH-175W with a minimum grade of C) or (MATH-173C with a minimum grade of C and MATH-175 with a minimum grade of C) or MATH-187 with a minimum grade of C.

**PHYS-202. College Physics II. 3 Hours.**

This is the second course of a two-term algebra-based lecture sequence intended for non-physics majors: PHYS-201 and PHYS-202. The companion laboratory is PHYS-204. Electrostatics, Coulomb's law, electric fields, electric potentials, currents, Ohm's law, magnetism, magnetic fields, the forces on or due to moving charges, induction, electromagnetic radiation, wave motion, physical and geometrical optics will be discussed. Time permitting concepts in modern physics such as special relativity, quantum physics and radioactivity will also be discussed. Lecture: 3 hrs.

**Prerequisite:** PHYS-201 with a minimum grade of C or PHYS-201L with a minimum grade of C.

**PHYS-202L. College Physics II With Lab. 5 Hours.**

This is the second course of a two-term algebra based lecture and laboratory sequence intended for non-physics majors, PHYS-201L and PHYS-202L. Electrostatics, Coulomb's law, electric fields, electric potentials, currents, Ohm's law, magnetism, magnetic fields, the forces on or due to moving charges, induction, electromagnetic radiation, wave motion, physical and geometrical optics will be discussed. Time permitting concepts in modern physics such as special relativity, quantum physics and radioactivity will also be discussed. Lecture: 4 hrs. Lab: 2 hrs.

**Prerequisite:** PHYS-201 with a minimum grade of C or PHYS-201L with a minimum grade of C or PHYS-206 with a minimum grade of C or PHYS-206L with a minimum grade of C.

**PHYS-203. Physics I Laboratory. 1 Hour.**

This is a laboratory course covering the subject matter of Physics I, and it is meant to be taken concurrently with either PHYS-201 or PHYS-206.

**Prerequisite:** PHYS-201 with a minimum grade of C or PHYS-206 with a minimum grade of C.

**PHYS-204. Physics II Laboratory. 1 Hour.**

This is a laboratory course covering the subject matter of Physics II, and it is meant to be taken concurrently.

**Prerequisite:** PHYS-202 with a minimum grade of C or PHYS-207 with a minimum grade of C.

**PHYS-206. University Physics I. 3 Hours.**

This is the first term of a two-term calculus-based lecture sequence intended for students majoring in physics, biology, chemistry, earth science or mathematics: PHYS-206 and PHYS-207. The companion laboratory is PHYS-203. Kinematics and dynamics of a particle and systems of particles, momentum, energy, angular momentum, conservation laws, applications to problems involving collisions, oscillatory motion and motion in a gravitational field, rigid body motion, temperature, heat, the laws of thermodynamics, application to thermodynamic engines, and ideal gases are discussed. Lecture: 3 hrs.

**Prerequisite:** MATH-187 with a minimum grade of C.

**PHYS-206L. University Physics I With Lab. 5 Hours.**

This is the first term of a two-term calculus-based lecture and laboratory sequence intended for students majoring in physics, biology, chemistry, earth science or mathematics: PHYS-206L and PHYS-207L. Kinematics and dynamics of a particle and systems of particles, momentum, energy, angular momentum, conservation laws, applications to problems involving collisions, oscillatory motion and motion in a gravitational field, rigid body motion, temperature, heat, the laws of thermodynamics, application to thermodynamic engines, and ideal gases are discussed. Lecture: 4 hrs. Lab: 2 hrs.

**Prerequisite:** MATH-187 (may be taken concurrently) with a minimum grade of C.

**PHYS-207. University Physics II. 3 Hours.**

This is the second course of a two-term calculus-based lecture sequence intended for students majoring in physics, biology, chemistry, earth science or mathematics. The companion laboratory is PHYS-204. Charges, Coulomb's and Gauss's laws, conductors and dielectrics, Ohm's law, magnetic fields, Ampere's law, motion of charges in a magnetic field, Faraday's law, inductance, simple L.R.C. circuits, magnetic properties of matter, electromagnetic waves, kinematics of wave motion, reflection, refraction, interference, and diffraction are discussed. Lecture: 3 hrs.

**Prerequisite:** (PHYS-206 with a minimum grade of C or PHYS-206L with a minimum grade of C or PHYS-201 with a minimum grade of C or PHYS-201L with a minimum grade of C) and MATH-187 with a minimum grade of C.

**PHYS-207L. University Physics II With Lab. 5 Hours.**

This is the second course of a two-term calculus based lecture and laboratory sequence intended for students majoring in physics, biology, chemistry, earth science or mathematics. Charges, Coulomb's and Gauss's laws, conductors and dielectrics, Ohm's law, magnetic fields, Ampere's law, motion of charges in a magnetic field, Faraday's law, inductance, simple L.R.C. circuits, magnetic properties of matter, electromagnetic waves, kinematics of wave motion, reflection, refraction, interference, and diffraction are discussed. Lecture: 4 hrs. Lab: 2 hrs.

**Prerequisite:** PHYS-201 with a minimum grade of C and MATH-187 with a minimum grade of C or (PHYS-206 with a minimum grade of C or PHYS-206L with a minimum grade of C).

**PHYS-211. Physics I Seminar. 1 Hour.**

Enrichment Seminar accompanying PHYS-201 or PHYS-206. Students do problem solving in collaborative groups on material derived from and supplementing University Physics I or College Physics I to gain a deeper understanding of concepts and applications.

**PHYS-212. Physics II Seminar. 1 Hour.**

Enrichment Seminar accompanying PHYS-202 or PHYS-207. Students do problem solving in collaborative groups on material derived from and supplementing University Physics II or College Physics II to gain a deeper understanding of concepts and applications.

**PHYS-215. Physics III. 4 Hours.**

Introduction to the physics of the twentieth century, including application to related fields such as biology, chemistry, earth science, and engineering. Fundamental concepts of special relativity, quantum mechanics, and statistical physics as applied to atomic, molecular, nuclear and solid state physics.

**Prerequisite:** PHYS-202 with a minimum grade of D or PHYS-207 with a minimum grade of D.

**PHYS-300. Interdisciplinary Seminar In STEM. 2 Hours.**

This course uses a hands-on approach to modern inquiry-based research problems and techniques in the physical and computational sciences. The course is structured around a series of modular problem-based exercises, covering topics from the fields of Chemistry, Computer Science, Earth Science, Mathematics and Physics, and is designed to provide the content and pedagogical background for students to be successful peer leaders. The cross-disciplinary modules will draw connections between scientific disciplines, and showcase common research tools and techniques used in the sciences. The workshop will also incorporate discussions on a range of topics, from scientific ethics, scientific methodology and error analysis.

**Prerequisite:** MATH-185 with a minimum grade of C.

**PHYS-301. Independent Study In Physics. 1 Hour.**

Research, laboratory work, study or tutorial in a specific area of physics under faculty supervision.

**PHYS-302. Independent Study In Physics. 2 Hours.**

(See PHYS-301 for description.).

**PHYS-303. Independent Study In Physics. 3 Hours.**

(See PHYS-301 for description.).

**PHYS-304. Physics For Elementary School Teachers I. 3 Hours.****PHYS-305. Modern Physics I. 3 Hours.**

This course covers advances made in physics during the first half of the twentieth century. These advances lead to many of the technologies we have today and they continue to drive innovation. The course content includes an introduction to the theory of relativity, particle-wave duality, elementary quantum theory, and the application of quantum theory to atomic, molecular, and nuclear physics.

**Prerequisite:** (PHYS-207L with a minimum grade of C or PHYS-207 with a minimum grade of C or PHYS-202L with a minimum grade of C or PHYS-202 with a minimum grade of C) and MATH-202 with a minimum grade of C.

**PHYS-306A. Modern Physics II. 3 Hours.**

Modern Physics II is the second part of a two-course sequence covering advances made in physics during the twentieth century. This course introduces students to statistical physics and focuses on applications of statistical physics, relativity, and quantum mechanics. These applications include atomic and molecular physics, condensed matter physics, nuclear physics, particle physics, astrophysics, and cosmology.

**Prerequisite:** PHYS-305 with a minimum grade of C.

**PHYS-307. Writing Intensive Program: Modern Physics Lab. 3 Hours.**

An introduction to intermediate-level experimental methods, scientific writing, and investigations which provided the experimental foundation for the major revolutions in 20th century physics. Students will perform classic modern physics experiments which demonstrate quantization in nature, wave particle duality, and the properties and interactions of fundamental particles. Students will present written results of their investigations in a variety of formats common in the discipline.

**Prerequisite:** ENGL-101 with a minimum grade of C and PHYS-305 with a minimum grade of C.

**PHYS-308. Introductory Mathematical Physics. 3 Hours.**

This course is an introduction to mathematical methods in physics, which include partial differentiation, multiple integration, vector analysis, complex numbers, complex variables, linear algebra, Fourier series, ordinary differential equations, special functions, and tensor analysis.

**Prerequisite:** MATH-203 with a minimum grade of C and (PHYS-207 with a minimum grade of C or PHYS-207L with a minimum grade of C).

**PHYS-309. Computing For Scientists. 3 Hours.**

Introduction to the use of computers in modeling scientific problems; modern programming languages are introduced and used to model several phenomena in the natural sciences and engineering.

**Prerequisite:** MATH-187 with a minimum grade of C.

**PHYS-311. Mechanics I. 3 Hours.**

Statics of particles and rigid bodies, kinematics and dynamics of particles (including damped and forced harmonic oscillators), work and energy, linear and angular momentum, conservation laws, dynamics of rigid bodies, introduction to special relativity.

**Prerequisite:** (PHYS-201L with a minimum grade of C or PHYS-206L with a minimum grade of C) and MATH-202 with a minimum grade of C.

**PHYS-321. Electricity And Magnetism I. 3 Hours.**

Coulomb's law, electric fields and electrostatic potential, Gauss's law, Poisson's equation, capacitance, dielectric media, current density, simple circuits, magnetic fields, Lorentz force, magnetic media, induction, Ampere's law, inductance, Maxwell's equations.

**Prerequisite:** (PHYS-202L with a minimum grade of C or PHYS-207L with a minimum grade of C) and MATH-203 with a minimum grade of C.

**PHYS-324. Advanced Classical Physics. 3 Hours.**

This course is an introduction to advanced topics in classical physics. Topics include the Lagrangian formalism of classical mechanics and its application to the theories of planetary motion, small oscillations, rigid body mechanics; Maxwell's equations, radiation, and propagation of electromagnetic waves.

**Prerequisite:** PHYS-311 with a minimum grade of C and PHYS-321 with a minimum grade of C.

**PHYS-330. Writing Intensive Program: Experimental Methods. 3 Hours.**

This course is an introduction to scientific measurement procedures, with special attention paid to scientific writing, the examination of error and uncertainty, and to widely used experimental techniques and their applications. Experiments are chosen according to the student's needs and interests. Students will present written results of their investigations in a variety of formats common in the discipline.

**Prerequisite:** (PHYS-202L with a minimum grade of C or PHYS-207L with a minimum grade of C) and ENGL-101 with a minimum grade of C and MATH-187 with a minimum grade of C.

**PHYS-331. Optics. 4 Hours.**

This course covers the fundamental principles of geometrical and physical optics and their application to the design of modern instruments as well as atomic spectra, properties of photons, and lasers. Principles discussed in lecture will be explored in various lab exercises. Lecture 2 hours, Lab 4 hours.

**Prerequisite:** (PHYS-207L with a minimum grade of C or PHYS-207 with a minimum grade of C or PHYS-202L with a minimum grade of C or PHYS-202 with a minimum grade of C) and MATH-202 with a minimum grade of C.

**PHYS-332. Electronics. 4 Hours.**

This course covers, through both lecture and laboratory, the basic structure of various electronic components, and their use and behavior in circuits. The course begins with linear elements, such as resistors, inductors and capacitors and proceeds through various semiconductor devices, diodes, transistors and operational amplifiers and culminates with the structure and use of logic circuits. Major emphasis is placed on laboratory work where the properties and interactions of various circuits are investigated. Lecture 2 hours, lab 4 hours.

**Prerequisite:** (PHYS-207L with a minimum grade of C or PHYS-207 with a minimum grade of C or PHYS-202L with a minimum grade of C or PHYS-202 with a minimum grade of C) and MATH-202 with a minimum grade of C.

**PHYS-333. Vibration And Sound. 3 Hours.**

**Prerequisite:** (PHYS-201 with a minimum grade of D or PHYS-206 with a minimum grade of D) and PHYS-203 with a minimum grade of D.

**PHYS-335. Thermal Physics. 3 Hours.**

Thermal Physics provides an introduction to thermodynamics and statistical mechanics. Course content includes the relationship between volume, pressure, heat, work, energy, temperature, entropy, free energy, enthalpy, chemical potential, heat capacities, and other quantities. Topics presented in this course include the first, second, and third laws of thermodynamics; heat engines, refrigerators, and heat pumps; mechanical, thermal, and chemical equilibrium, phase diagrams, phase transitions, Boltzmann and Gibbs distributions, partition functions, the equipartition theorem, blackbody radiation, and degenerate fermi gasses.

**Prerequisite:** PHYS-305 with a minimum grade of C.

**PHYS-336. Quantum Mechanics. 3 Hours.**

This course provides an introduction to Quantum Mechanics and is intended for physics majors/minors, and math or chemistry majors. The knowledge base covered is an essential foundation for students seeking to understand physical phenomena at a microscopic level. The Schrodinger equation is introduced and applied to problems in quantum mechanics including square wells, potential barriers, the harmonic oscillator, angular momentum, and the hydrogen atom. Time permitting, spin and many-particle systems will be discussed.

**Prerequisite:** PHYS-305 with a minimum grade of C and MATH-203 with a minimum grade of C.

**PHYS-338. Quantum Mechanics II. 3 Hours.**

This second course in quantum mechanics is intended for Physics majors who seek to build a solid background in the applications of quantum mechanics. It builds on the foundations introduced in Quantum Mechanics and covers applications of exact and approximate methods in quantum mechanics to real physical systems.

**Prerequisite:** PHYS-336 with a minimum grade of C.

**PHYS-340. The Science Of Sustainable Energy. 3 Hours.**

Sustainable energy provides a quantitative understanding of energy use and energy resources on both global scales and local settings. This courses will identify and quantify current energy resources, provide an understanding of energy conservation, efficiency, and the conversion of energy from less useful to more useful forms. PHYS-340 investigates the environmental consequences of our energy use, and emphasizes an interdisciplinary approach required to solving real-world problems. This course focuses on the science which informs development, policy, and management decisions.

**Prerequisite:** (PHYS-207L with a minimum grade of C or PHYS-202L with a minimum grade of C) and MATH-187 with a minimum grade of C.

**PHYS-344. Introduction To Solid State Physics. 3 Hours.**

Crystal structure, crystal bonding, thermal properties of solids, dielectric properties, free electron model of metals, band theory of solids, magnetism, superconductivity, current applications.

**Prerequisite:** PHYS-305 with a minimum grade of C.

**PHYS-350. Field Experiences In Physics. 3 Hours.**

Practical experience in industrial or government physics laboratories under the joint supervision of the department and the laboratory. There are six hours of field experience required per week. This course may be taken up to three times.

**PHYS-361. Materials I: Structural, Mechanical And Thermal Properties. 3 Hours.**

An introductory course on the properties of materials for students in all areas of science and technology. Topics include structural, thermal and mechanical properties of metals, alloys, ceramics and plastics, and their explanation in terms of molecular and atomic properties. Lecture 2 hours, lab 2 hours.

**Prerequisite:** PHYS-305 with a minimum grade of C.

**PHYS-362. Materials II: Electric And Optical Properties. 3 Hours.**

Companion course to Material I with primary emphasis on the electronic properties of materials and their industrial use. Topics include conductors, semiconductors, superconductors, ferromagnetism and ferroelectricity, optical and infra-red properties. Lecture 2 hours, lab 2 hours.

**Prerequisite:** PHYS-305 with a minimum grade of C.

**PHYS-366. Communication Electronics. 3 Hours.**

The course covers tuned circuits, radio frequency amplifiers, intermediate frequency amplifiers, cavity resonators and U.H.F. amplifiers, modulation, detection, R.F. power amplifiers, transmitters, transmission lines, antennas, television and special topics in communication electronics, including digital methods and telemetry. Lecture 2 hours, lab 2 hours.

**Prerequisite:** PHYS-332 with a minimum grade of D.

**PHYS-367. Transducer And Special Purpose Electronics. 4 Hours.**

Lecture and laboratory on the characteristics of devices which convert physical quantities such as heat, light, motion and sound into electrical signal. This includes both the practical aspects of using such devices and the intrinsic physical properties which make their use possible. Sensors used include thermistors, thermopiles, microphones, solar cells, and piezoelectric/ pyroelectric films. The course culminates with each student doing a major project, which may include computer interfacing to the transducers. Lecture 2 hours, lab 4 hours.

**PHYS-369. Instrumentation Electronics. 4 Hours.**

Lecture and laboratory course on the properties and uses of electronic scientific instruments used in making physical measurements, including computer interfacing. The instruments are studied from input transducer to final output. A major emphasis is placed on laboratory work, where actual instrumentation circuits are built and tested. The course culminates with each student building an actual scientific instrument. Lecture 2 hours, Lab 4 hours.

**PHYS-391. Astrophysics. 3 Hours.**

Astrophysics applies the laws of physics to celestial objects and phenomena. Course content includes orbital mechanics, the formation and evolution of the solar system, and solar system objects like planets, asteroids, comets, and satellites. This course covers the physics of stars including the birth, evolution, and death of stars, nuclear fusion, stellar atmospheres, solar cycles, HR diagrams, supernovae, white dwarfs, neutron stars and black holes. On larger scales, this course discusses clusters of stars, galaxies, the interstellar medium, and galactic clusters.

**Prerequisite:** PHYS-305 with a minimum grade of C.

**PHYS-392. Cosmology. 3 Hours.**

Cosmology is the study of the history, structure, constituents, and dynamics of the universe. Course content includes primordial nucleosynthesis, cosmological and astronomical observations, the Friedmann equation, dark matter and dark energy, the cosmological constant, cosmic inflation, the accelerating and expanding universe, the cosmic microwave background, inflation, and baryogenesis.

**Prerequisite:** PHYS-305 with a minimum grade of C.

**PHYS-400. Introduction To Quantum Mechanics. 3 Hours.****PHYS-401. Advanced Experimental Physics. 3 Hours.****PHYS-402. Atomic Physics. 3 Hours.****PHYS-403. Solid State Physics. 3 Hours.****PHYS-404. Advanced Electronics For Scientists. 3 Hours.**

**Prerequisite:** PHYS-393 with a minimum grade of D.

**PHYS-405. Elementary Particles. 3 Hours.****PHYS-406. Statistical Mechanics. 3 Hours.****PHYS-407. Relativity And Gravitation. 3 Hours.****PHYS-408. Independent Study In Physics. 3 Hours.****PHYS-409. Thesis Seminar-Physics. 6 Hours.****PHYS-410. Electrodynamics. 3 Hours.**

**Prerequisite:** PHYS-323 with a minimum grade of D.

**PHYS-411. Classical Dynamics. 3 Hours.**

**Prerequisite:** PHYS-312 with a minimum grade of D.

# Polish (POL)

---

## Courses

**POL-101. Polish I. 3 Hours.**

Development of basic skill in listening, speaking, reading and writing. Cultural appreciation.

**POL-102. Polish II. 3 Hours.**

Continuation of POL-101.

**Prerequisite:** POL-101 with a minimum grade of D.

**POL-103. Polish III. 3 Hours.**

Continuation of POL-102.

**Prerequisite:** POL-102 with a minimum grade of D.

# Political Science (PSCI)

---

## Courses

### **PSCI-101. Introduction To Politics. 3 Hours.**

### **PSCI-109. First Year Experience:Civic Engagement, Community And Social Change In Chicago. 3 Hours.**

This colloquium is a three-credit course that combines the traditional classroom setting and community service to explore the meaning and interconnection of community, citizenship, politics, diversity, civic engagement and social change. Students enrolled in this course spend time developing their interpersonal and intrapersonal skill (such as, self-awareness, critical thinking and problem-solving skills, leadership skills); become skilled at civic engagement (action strategies and plan, project management, communication, negotiation and teamwork); as well as reading academic literature that examines concepts of democracy, power and justice.

### **PSCI-210. Introduction To Political Science. 3 Hours.**

An introduction to the discipline through an examination of the concepts and skills utilized in the contemporary study of politics. The course provides an overview of political science, including its various sub-fields, and a framework for further study.

### **PSCI-216. American National Government. 3 Hours.**

Description and analysis of national political institutions and processes. Current issues and problems of American government.

### **PSCI-251. Writing Intensive Program: Comparative Political Systems. 3 Hours.**

This course is an introduction to comparative politics. In this course students will study different political systems (democracies, semi-democracies, and authoritarian regimes) by way of selective case studies. Major issues in comparative politics, such as democratization, political culture, political economy, constitutionalism, political leadership, and political parties and elections will be discussed in some detail. Even though this is not a course in American politics, comparisons with the United States will be drawn where appropriate.

**Prerequisite:** ENGL-101 with a minimum grade of C.

### **PSCI-275. Introduction To World Politics. 3 Hours.**

General introduction to world politics with emphasis on current issues and events of importance at the international or global level. Basic concepts and methods of political analysis are introduced.

### **PSCI-291. Concepts Of Political Science. 3 Hours.**

Analysis of a number of crucial political concepts, such as equality, justice, political obligation, representation, rights and law.

### **PSCI-301. Independent Study In Political Science. 3 Hours.**

Intensive investigation of a special area of political science or a contemporary political issue.

### **PSCI-302. Independent Study In Political Science. 2 Hours.**

( See PSCI-301 for description.).

### **PSCI-303. Independent Study In Political Science. 1 Hour.**

( See PSCI-301 for description.).

### **PSCI-304. Field Experience. 3 Hours.**

Placement in a government agency, political office or related institution for 8 hours per week. Opportunity for testing classroom concepts and theories, career exploration and the development of problem solving, research and social skill. Meeting arranged.

### **PSCI-305. Internship I. 6 Hours.**

(See description for PSCI-304. Hours in placement increased to 16 hours per week.).

### **PSCI-306. Internship II. 6 Hours.**

(See description for PSCI-304. Hours in placement increased to 16 hours per week.).

### **PSCI-307O. Topics: Democracy, Responsiveness & Accountability. 3 Hours.**

To whom - what interest, whose demands - do elected politicians respond when making policy? In the last thirty years, the number of countries that select their rulers through competitive elections has increased sharply. This class explores the practical implications of ideals like responsiveness and accountability for elected officials, and how these operate in conjunction with the separation of powers, independent judiciaries, political party discipline, pressure from international actors, as well as more base incentives, such as personal ambition and corruption.

**Prerequisite:** PSCI-210 with a minimum grade of C and (PSCI-251 with a minimum grade of C or PSCI-275 with a minimum grade of C).

### **PSCI-308. Research Methods And Techniques In Political Science. 3 Hours.**

This course is designed for upper-division students or those intending to undertake graduate study in the social sciences. Students will learn to think conceptually, evaluate and develop research designs, and become more familiar with how to collect, organize, and analyze data. Students will learn about different methodological approaches and techniques from across the social sciences.

**PSCI-309A. Moot Court And Appellate Advocacy. 3 Hours.**

This course involves a role-playing simulation where students discharge the responsibilities of attorneys arguing a hypothetical case before an appellate-level court. Students will argue the case from the perspective of both the petitioner and respondent, and some students may have an opportunity to play the role of a justice. Although students will be exposed to background readings about courtroom process, procedure, etiquette, and legal doctrine, the simulation itself will be based on a closed universe of legal authorities. The course is designed to prepare students for a formal moot court tournament, and participation in such a competition is expected.

**PSCI-309B. Model United Nations. 1 Hour.**

This course is designed to provide an orientation to the activities of the United Nations, as well as to provide an understanding of the modalities of international diplomacy. This course will include current events, pressing international issues, the basics of international law and some of the protocol and procedures of diplomacy. This course will prepare students to participate as distinguished diplomats at the entirety of the American Model United Nations conference in Chicago.

**Prerequisite:** (100 - 399 or 100A - 399Z).

**PSCI-310. Congress And The Legislative Branch. 3 Hours.**

Introduction to the U.S. Congress as a political and legislative body; includes analysis of the committee system, rules and differences between House and Senate; examines problems of representation and executive-legislative relations.

**Prerequisite:** PSCI-216 with a minimum grade of C or AMER-216 with a minimum grade of C.

**PSCI-311. The American Judiciary And The Judicial Process In American Government. 3 Hours.**

An analysis of the judicial policy - making process at all levels of the American judiciary with special emphasis on the Supreme Court's role in constitutional development, separation of powers, and the historical and political context of constitutional law doctrines. Critical cases are examined.

**Prerequisite:** PSCI-216 with a minimum grade of C or AMER-216 with a minimum grade of C.

**PSCI-312. American Presidency And The Executive Branch. 3 Hours.**

The role of the President and the executive branch in the American governmental system. Contemporary problems of the Presidency and the bureaucracy.

**Prerequisite:** PSCI-216 with a minimum grade of C or AMER-216 with a minimum grade of C.

**PSCI-313. State Government And Politics. 3 Hours.**

Examination of political institutions at the state level: governor, legislature, judiciary, constitution, parties, and administration. Analysis of state politics within and outside the institutional framework. Discussion of major problems and functions of state governments today. Emphasis on Illinois government and politics.

**Prerequisite:** PSCI-216 with a minimum grade of C or AMER-216 with a minimum grade of C.

**PSCI-315. Electoral Politics. 3 Hours.**

A review of major developments in electoral politics (including political parties and electoral law) and voting behavior in recent years, and an analysis of current elections.

**Prerequisite:** PSCI-216 with a minimum grade of C or AMER-216 with a minimum grade of C.

**PSCI-316. Pressure Groups: Power, Participation And Public Policy. 3 Hours.**

Examination of the role of interest groups in political systems, with emphasis on groups in American politics-their membership, organization, activities, goals, and impact on American public policy with special attention on the role of groups as representative agents and their functioning as facilitators or resisters with regard to social change.

**Prerequisite:** PSCI-216 with a minimum grade of C or AMER-216 with a minimum grade of C.

**PSCI-317. Public Opinion, Mass Media And American Politics. 3 Hours.**

The role of public opinion in American politics, techniques of polling and survey research, the impact of mass media on opinion and on candidate preferences; introduces concepts of political culture and socialization.

**Prerequisite:** PSCI-216 with a minimum grade of C or AMER-216 with a minimum grade of C.

**PSCI-318. Pop Culture And Politics. 3 Hours.**

This course explores the relationship between popular culture and politics, how celebrities affect political events, the impact of popular culture on politics, and political representations in pop culture especially as they intersect with issues of race, gender, and sexuality. The first half of the course examines the rise of a celebrity-infused political culture and analyzes the changing influence of Hollywood on political campaigns. The remainder of the course considers political representations in TV, film, theater, and music, both in the American context as well as in international relations.

**PSCI-319. The Politics Of Law. 3 Hours.**

Consideration of various definitions of law, the impact of law on the behavior of various actors; the political, social and economic forces which mold law; the influence of the legal system on the various actors within it; and theoretical efforts to explain the relationships of law and society, with emphasis on the trial courts, the organization of the bar, the origin of litigation and the political consequences of lower court involvement in social conflicts.

**Prerequisite:** PSCI-216 with a minimum grade of C or AMER-216 with a minimum grade of C.

**PSCI-320. Constitutional Law. 3 Hours.**

The role of the Supreme Court and its impact on the constitutional development of the due process clause, civil liberties, First Amendment freedoms, and the equal protection of the law are traced with particular emphasis on the assessment of the role of the Supreme Court vis-a-vis the states and the national government in protecting and restricting civil liberties.

**Prerequisite:** PSCI-216 with a minimum grade of C or AMER-216 with a minimum grade of C.

**PSCI-321. American Jewish Politics. 3 Hours.**

This course will cover: Conceptual frameworks of American Jewish political power, institutions and behavior; multiple theories of modern Jewish politics in America; internal and external advocacy institutions from 1820-present; American Jews and the legal process; American Jews and the Labor Movement; American Jews and Feminist politics; Anti-Semitism and the American Jewish response; American Jewish politics and Israel.

**Prerequisite:** PSCI-216 with a minimum grade of C.

**PSCI-322. Women And Political Influence In The 21st Century. 3 Hours.**

This course will examine the changing influence of women both in the American and global context. Some of the questions we will examine include: What does political influence mean in the 21st century and how does it motivate different women in different contexts and cultures to become politically involved? Do certain policy issues appear to increase women's influence more than others? To what extent has capitalism and global entrepreneurship impacted the influence of women? What structural, political, ideological, military, and educational limitations and barriers do women continue to face? How has the meaning of violence against women altered if at all in the 21st century? Do women with political power work to improve the lives of women or do women continue to see the impact of class, race, and gender irrespective of the increase of women's political influence?.

**Prerequisite:** PSCI-216 with a minimum grade of C.

**PSCI-323. American Ideologies. 3 Hours.**

Exploration of various ideologies that attempt to explain the nature of American society and politics; a discussion of belief systems and value orientations; consideration of diversity and change in a system of fundamental stability; analysis of variants of left and right ideologies.

**Prerequisite:** PSCI-216 with a minimum grade of C or AMER-216 with a minimum grade of C.

**PSCI-325. Public Policy. 3 Hours.**

Introduction to the analysis of public policy, including the policy-making institutions and processes; normative and empirical models of policy-making, and case studies of specific public policies.

**Prerequisite:** PSCI-216 with a minimum grade of C or AMER-216 with a minimum grade of C.

**PSCI-326. Educational Policy In America. 3 Hours.**

This course examines the politics and policies of education. Education policy encompasses the basic interests and values of society. But in a pluralistic society such as the United States, there is often deep disagreement over those values. Such is the case with education. This course will focus on this struggle with an aim to demonstrate that educational policy is never really about education per se but about politics and struggle over specific interests.

**Prerequisite:** PSCI-216 with a minimum grade of C or AMER-216 with a minimum grade of C.

**PSCI-327. Government And Economy. 3 Hours.**

Exploration of the role and purpose of government and market in the American economy; discussion of contemporary issues (e.g., income distribution or government regulation); international comparisons.

**Prerequisite:** PSCI-216 with a minimum grade of C or AMER-216 with a minimum grade of C.

**PSCI-328. Politics Of Poverty. 3 Hours.**

This course examines poverty within the context of the American political system. In particular, it examines public policymaking and public policies in regard to poverty, and the historical and political factors that have impacted upon poverty in this nation. This course also includes an examination of theories that have influenced government policies regarding the poor. Finally, it examines recent changes in poverty programs, a discussion of possible alternatives to these programs, and policies regarding payday loans and similar financial practices that impact the working poor.

**Prerequisite:** PSCI-216 with a minimum grade of C or AMER-216 with a minimum grade of C.

**PSCI-329. Minority Politics In The United States. 3 Hours.**

This course provides an exploration of the politics of various minority groups in the United States. In a society that is becoming increasingly diverse, it is essential that students gain an appreciation of ethnic, racial, and gender groups in their society. While the course touches upon many groups, the primary focus is upon African Americans, Latinos, and women.

**Prerequisite:** PSCI-216 with a minimum grade of C.

**PSCI-330. Writing Intensive Program: African American Politics And Social Change. 3 Hours.**

This course will familiarize students with the political challenges of and strategies employed by African Americans in the United States. The course examines the impacts of these attempts at social and political change. A critical issue is the extent to which black Americans have gained democracy in American society. Additionally, internal black political issues are examined. Further, the American political system itself is examined as part of the global political community.

**Prerequisite:** PSCI-216 with a minimum grade of C and ENGL-101 with a minimum grade of C.

**PSCI-331. Latinos & Public Policy. 3 Hours.**

This course explores the social, economic and political status of Latinos through a public policy lens. Its goal is to provide a basic understanding of public policies on key issues impacting Latino communities. The course provides a brief history of various Latino populations in the U.S. Most significantly, it provides basic foundations for understanding what public policy is, how it is made, how it affects Latino communities, and how it can be impacted to effect positive change for Latinos.

**Prerequisite:** PSCI-216 with a minimum grade of C.

**PSCI-332. Latinos & The Law. 3 Hours.**

This course critically examines legal topics related to Latinas/os in American society. Students will read and discuss landmark court decisions, law review articles, and chapters from interdisciplinary texts in order to analyze legal doctrines, litigation strategies and the socio-political context in which these legal matters occur. After an initial introductory unit that is heavily historical, we will place a strong emphasis on significant social, political and legal events from the 1940s to the present.

**Prerequisite:** PSCI-216 with a minimum grade of C.

**PSCI-333. Immigration, Ethnicity, And Citizenship. 3 Hours.**

This course is an introduction to the most important political and academic debates surrounding the topic of immigration: How are citizenship and nationhood defined? What is the relationship between ethnicity and citizenship? What comprises our national and ethnic identity? How do our perceptions of citizenship, nationhood, and ethnicity influence each other as well as our outlook on immigration? What are current immigration policies and immigration policy debates in the U.S. and elsewhere? In addressing these questions, this course will explore five major themes: immigration, identity, ethnicity, (trans)nationalism, and citizenship.

**Prerequisite:** PSCI-210 with a minimum grade of C or PSCI-216 with a minimum grade of C.

**PSCI-334. Intergovernmental Relations. 3 Hours.**

Impact of federalism on policy-making and administration in the American system; focuses on the interaction between federal government and states, metropolitan areas, and cities in the development and implementation of public policy.

**Prerequisite:** PSCI-216 with a minimum grade of C or AMER-216 with a minimum grade of C.

**PSCI-335. Urban Politics. 3 Hours.**

Types of urban government and politics; ability of the governmental institutions to meet the demands and respond to the needs of urban areas; community power and control; citizen participation and decentralization of governmental services.

**Prerequisite:** PSCI-216 with a minimum grade of C or AMER-216 with a minimum grade of C.

**PSCI-336. Urban Government Administration. 3 Hours.**

Introductory survey of local governmental administration; powers of municipal corporations, special districts and other jurisdictions; taxation, revenue and budgeting, common administrative structures, and institutionalized forms of urban leadership and control.

**Prerequisite:** PSCI-216 with a minimum grade of C or AMER-216 with a minimum grade of C.

**PSCI-338. Chicago Politics. 3 Hours.**

The structure of the government of the City of Chicago and its associated politics; the development of the Daley machine and its aftermath with particular focus on the impact of race on contemporary political behavior; including analysis of voting patterns and blocs within the City Council.

**Prerequisite:** PSCI-216 with a minimum grade of C or AMER-216 with a minimum grade of C.

**PSCI-339. Laboratory In Urban Politics. 3 Hours.**

First-hand observation of urban governmental organization, political parties, and politically active citizen groups; written and oral reports and class discussion of field observations.

**Prerequisite:** PSCI-216 with a minimum grade of C or AMER-216 with a minimum grade of C.

**PSCI-341. Public Administration. 3 Hours.**

Introduction to the role of public bureaucracies in the political system. A general overview of major concepts, processes and problem areas in the field of public administration. Intended for undergraduate students; graduate students seeking a general overview of the field should take PSCI-441.

**Prerequisite:** PSCI-216 with a minimum grade of C or AMER-216 with a minimum grade of C.

**PSCI-344. Writing Intensive Program: Public Organization Theory. 3 Hours.**

Review of theories concerning public bureaucracies, their internal functioning and societal roles; analysis of the organizational setting of work and its implications; organizational effectiveness, decision-making, leadership and policy formulation, and change in public organizations. Writing Intensive course.

**Prerequisite:** (PSCI-216 with a minimum grade of C or AMER-216 with a minimum grade of C) and ENGL-101 with a minimum grade of C.

**PSCI-345. Government Budgeting. 3 Hours.**

Fiscal policy and budget process: historically changing functions of budgeting-from emphasis on control to managerial effectiveness; reassertion of Congressional authority in 1974 and the new budget cycle; zero-based budgeting; impoundment, transfer payments, and grant-in-aid.

**Prerequisite:** (PSCI-216 with a minimum grade of C or AMER-216 with a minimum grade of C).

**PSCI-346. Public Personnel Administration. 3 Hours.**

Organization and administration of the personnel function in public bureaucracies; relations of personnel management to operating departments and agencies; the scope of public personnel services; appraisal of policies and practices in selected areas of personnel management, such as selection and training, human relations and motivation.

**Prerequisite:** PSCI-216 with a minimum grade of C or AMER-216 with a minimum grade of C.

**PSCI-347. Disaster Policy & Politics. 3 Hours.**

This course focuses on the evolution of U.S. disaster policy and the practice of emergency management, with particular attention to the roles of local governments, public agencies, and nonprofit agencies in disaster management. The course examines the major policy issues, including the utility of the "all-hazards" model of emergency management; the role of all first responders in disaster operations (police, firefighters, physicians, and medical emergency personnel); military, state and local capacity building; and the design and implementation of hazard mitigation policies and programs. Particular attention will be given to nuclear waste leaks, chemical biological and nuclear attacks, and urban wildfires.

**Prerequisite:** PSCI-216 with a minimum grade of D.

**PSCI-348B. Topics In Public Administration: The Federal Role In American Cities. 3 Hours.**

**Prerequisite:** PSCI-216 with a minimum grade of C or AMER-216 with a minimum grade of C.

**PSCI-350. International Relations In Asia. 3 Hours.**

The foreign policies of various Asian nations with special attention to the relations among these nations as well as their relations with other areas of the world.

**Prerequisite:** PSCI-275 with a minimum grade of C or IR-201 with a minimum grade of C or PSCI-251 with a minimum grade of C or COMP-211 with a minimum grade of C or PSCI-210 with a minimum grade of C.

**PSCI-351. Government And Politics Of Japan. 3 Hours.**

The modern Japanese political system; the relationship between the Japanese people and their institutions, including the interrelationships between the traditional and the modern with emphasis on the structures and processes of Japanese government and politics since World War II.

**Prerequisite:** PSCI-251 with a minimum grade of C or COMP-211 with a minimum grade of C or PSCI-275 with a minimum grade of C or IR-201 with a minimum grade of C or PSCI-210 with a minimum grade of C.

**PSCI-353. Government And Politics Of China. 3 Hours.**

The structure and activities of the Chinese Communist party and state communist outlook; ideologies and significant internal and foreign problems.

**Prerequisite:** PSCI-251 with a minimum grade of C or COMP-211 with a minimum grade of C or PSCI-275 with a minimum grade of C or IR-201 with a minimum grade of C or PSCI-210 with a minimum grade of C.

**PSCI-354. Islamic Civilization II: Government And Politics. 3 Hours.**

Islam is not only one of the major religions of the world but also a political ideology claiming nearly one billion adherents~ about one-fourth of the entire world population. Its impact on the world within the last 1400 years is so powerful that one cannot study History, Religion, Culture, Politics, Economics and Civilizations without correctly understanding Islam not only as a Religion but also as a force affecting world events.

**Prerequisite:** PSCI-251 with a minimum grade of C or COMP-211 with a minimum grade of C or PSCI-275 with a minimum grade of C or IR-201 with a minimum grade of C or PSCI-210 with a minimum grade of C.

**PSCI-355. The Politics Of Islam. 3 Hours.**

Discussion of the religion of Islam and the Islamic political institutions; influence of Islamic political thought and religion on political systems currently operating in major Muslim countries.

**Prerequisite:** PSCI-251 with a minimum grade of C or COMP-211 with a minimum grade of C or PSCI-275 with a minimum grade of C or IR-201 with a minimum grade of C or PSCI-210 with a minimum grade of C.

**PSCI-357. Politics Of The European Union. 3 Hours.**

Politics of the European Union is an introduction to the history, the institutions, and the policies of the European Union. Students will discuss topics ranging from theories of integration to economic and social policy and issues of democracy in the EU. Students are required to participate in an EU simulation in which they take on an alter ego and learn first hand how to negotiate through the complex system of EU decision making.

**Prerequisite:** PSCI-210 with a minimum grade of C or PSCI-251 with a minimum grade of C or PSCI-275 with a minimum grade of C.

**PSCI-358. Modern European Governments. 3 Hours.**

Comparative study of the politics and governments of several major European nations.

**Prerequisite:** PSCI-251 with a minimum grade of C or COMP-211 with a minimum grade of C or PSCI-275 with a minimum grade of C or IR-201 with a minimum grade of C or PSCI-210 with a minimum grade of C.

**PSCI-360. Politics Of Sub-Saharan Africa. 3 Hours.**

Examination and comparison of the politics of selected African states; particular emphasis on traditional heritage, colonial background, ideological setting, political parties, role of the military, governmental structure, and problems of nation building.

**Prerequisite:** PSCI-251 with a minimum grade of C or COMP-211 with a minimum grade of C or PSCI-275 with a minimum grade of C or IR-201 with a minimum grade of C or PSCI-210 with a minimum grade of C.

**PSCI-363. Politics Of The Middle East. 3 Hours.**

The impact of the physical environment, the economic conditions, and the historical heritage on the political structures presently operating in the region; analysis of the region in its world context.

**Prerequisite:** PSCI-251 with a minimum grade of C or COMP-211 with a minimum grade of C or PSCI-275 with a minimum grade of C or IR-201 with a minimum grade of C or PSCI-210 with a minimum grade of C.

**PSCI-364. Islamic Civilization I: Political Ideology And Theory. 3 Hours.**

This course will provide an in-depth view of Islamic Civilization, its development, its rich heritage, and its effects on the social and political life of societies in several parts of the world.

**Prerequisite:** PSCI-251 with a minimum grade of C or COMP-211 with a minimum grade of C or PSCI-275 with a minimum grade of C or IR-201 with a minimum grade of C or PSCI-210 with a minimum grade of C.

**PSCI-365. Politics And Government Of Mexico, Central America And The Caribbean. 3 Hours.**

The political systems in Mexico, Central America, and the Caribbean; comparison of the social, economic and political conditions of each; the strategic importance of this region to the United States.

**Prerequisite:** PSCI-251 with a minimum grade of C or COMP-211 with a minimum grade of C or PSCI-275 with a minimum grade of C or IR-201 with a minimum grade of C or PSCI-210 with a minimum grade of C.

**PSCI-366. Politics And Governments Of South America. 3 Hours.**

Examination of the various political systems on the continent of South America with comparisons of social and political institutions of the various countries.

**Prerequisite:** PSCI-251 with a minimum grade of C or COMP-211 with a minimum grade of C or PSCI-275 with a minimum grade of C or IR-201 with a minimum grade of C or PSCI-210 with a minimum grade of C.

**PSCI-367. Government And Politics Of South And North Korea. 3 Hours.**

Based on a comparative perspective, this course will focus on the two Koreas' political, economic, military, social, educational and cultural developments since the end of the Second World War in 1945. The two Koreas have had different ideologies and different political systems and both of them, like China and Taiwan, have played and will play an extremely important role in the security of the Asian-Pacific Rim. In other words, whether or not the peace in Asia can be maintained depends on the political wisdom of the top leaders in North and South Korea and in the United States.

**Prerequisite:** PSCI-251 with a minimum grade of C or COMP-211 with a minimum grade of C or PSCI-275 with a minimum grade of C or IR-201 with a minimum grade of C or PSCI-210 with a minimum grade of C.

**PSCI-368. The Politics Of The Soviet And Post-Soviet World. 3 Hours.**

Political history of the Soviet period, including the structure and operation of the Soviet Communist Party. Dissolution of the Soviet system, analysis of present transition period and future economic and political prospects for Russia and bordering states.

**Prerequisite:** PSCI-251 with a minimum grade of C or COMP-211 with a minimum grade of C or PSCI-275 with a minimum grade of C or IR-201 with a minimum grade of C or PSCI-210 with a minimum grade of C.

**PSCI-369. Russia In International Politics. 3 Hours.**

Analysis of the new Russian state as a leader of the former Soviet states and its former Warsaw Pact allies, tensions and new developments; relations with the United States and with the European Community; Russia as a major actor in global politics.

**Prerequisite:** PSCI-275 with a minimum grade of C or IR-201 with a minimum grade of C or PSCI-251 with a minimum grade of C or COMP-211 with a minimum grade of C or PSCI-210 with a minimum grade of C.

**PSCI-371. Canadian Government & Politics. 3 Hours.**

The Canadian political system with analysis of the constitutional development, the structure of government, political parties and pressure groups, problems of regionalism and nationality, questions of foreign policy and relationship with the United States.

**Prerequisite:** PSCI-251 with a minimum grade of C or COMP-211 with a minimum grade of C or PSCI-275 with a minimum grade of C or IR-201 with a minimum grade of C or PSCI-210 with a minimum grade of C.

**PSCI-372. Democracy, Responsiveness, & Accountability. 3 Hours.**

In recent decades the number of countries that select their rulers through competitive elections has increased sharply. The performance of many of these regimes, however, raises serious doubts about the extent to which elections guarantee a close correspondence between citizen preferences and policy outputs. This class explores the practical implications of ideals like responsiveness and accountability for elected and appointed officials, and how these operate in conjunction with separation of powers, judiciaries, party discipline, pressure from international actors as well as more base incentives, such as personal ambition and corruption.

**Prerequisite:** PSCI-210 with a minimum grade of C or PSCI-251 with a minimum grade of C or PSCI-275 with a minimum grade of C.

**PSCI-373. Gender And Politics. 3 Hours.**

A study of the relationship of gender and gender roles to political attitudes, beliefs and behavior. The nature of political socialization is considered as well as political and economic structures pertinent to gender distinctions. The approach is comparative.

**Prerequisite:** PSCI-251 with a minimum grade of C or COMP-211 with a minimum grade of C or PSCI-275 with a minimum grade of C or IR-201 with a minimum grade of C or WSP-101 with a minimum grade of C.

**PSCI-375. Contemporary International Relations. 3 Hours.**

Basic principles and problems; emphasis on contemporary issues in international political life.

**Prerequisite:** PSCI-275 with a minimum grade of C or IR-201 with a minimum grade of C or PSCI-251 with a minimum grade of C or COMP-211 with a minimum grade of C or PSCI-210 with a minimum grade of C.

**PSCI-376. Writing Intensive Program: Principles Of International Relations. 3 Hours.**

Principles of International Relations is a course that critically evaluates theories and practices of international relations. This course provides undergraduate and graduate students with a thorough understanding of the key paradigms in international relations: Realism, Liberalism, Constructivism, Marxism, and Feminism. Students will not only learn about these paradigms, but also learn how to apply them to real world affairs. Topics discussed in this course include international law, human security, cybersecurity, climate change, nuclear non-proliferation, violence against women, and capital punishment.

**Prerequisite:** PSCI-275 with a minimum grade of C or PSCI-251 with a minimum grade of C or PSCI-210 with a minimum grade of C.

**PSCI-377. International Organization: Theory And Practice. 3 Hours.**

Evolution of existing theories in the area of worldwide and region-wide cooperation among sovereign states. Survey of writings of recognized scholars, as well as commentaries.

**Prerequisite:** PSCI-275 with a minimum grade of C or IR-313 with a minimum grade of C or PSCI-251 with a minimum grade of C or COMP-211 with a minimum grade of C or PSCI-210 with a minimum grade of C.

**PSCI-378. International Political Economy. 3 Hours.**

This course provides a study of the structure and development of the global political economy. To this end, the course will cover topics including: the structure of the international system, historical and present globalization, international trade policies, exchange-rate policies, and domestic and international institutions. The course is designed to stress theory, in addition to key events and developments in the world economy. We will explore theoretical and substantive explanations found in the international system as well as those found within domestic political-economies.

**Prerequisite:** PSCI-210 with a minimum grade of C or PSCI-251 with a minimum grade of C or PSCI-275 with a minimum grade of C.

**PSCI-379. War And Peace. 3 Hours.**

This course is about the pursuit of peace and an understanding of the causes of war. To that end, the course begins with theoretical debates on the causes and consequences of war, violence, and oppression, and moves to address significant international initiatives that alleviate the causes of war. Topics to be covered include interstate war, intrastate conflict such as ethnic conflict and genocide, as well as the roles of conflict-resolution agents: governmental and nongovernmental organizations, norms and ethics, international law, the United Nations, and the International Criminal Court.

**Prerequisite:** PSCI-275 with a minimum grade of C or PSCI-210 with a minimum grade of C or PSCI-251 with a minimum grade of C.

**PSCI-380. International Law. 3 Hours.**

This course discusses the evolution of international law from theological statements to modern jurisprudence and the ramifications of the state as the single most important actor in international relations. Students will learn how to analyze case studies as a method of studying international law. In analyzing the processes for making and upholding international law, this course will introduce cases related to international trade, human rights, the use of force and armed conflict, criminal responsibility and the International Criminal Court, and environmental protection.

**Prerequisite:** PSCI-275 minimum grade of C or IR-201 minimum grade of C or PSCI-251 minimum grade of C or COMP-211 minimum grade of C or PSCI-210 minimum grade of C.

**PSCI-381. International Terrorism. 3 Hours.**

Investigation of terrorism, beginning with the problem of definition. Origins and evolution of terrorism as well as motivation and inspirations of those who have embraced terrorism. A selection of terrorist organizations will be studied.

**Prerequisite:** PSCI-275 with a minimum grade of C or IR-201 with a minimum grade of C or PSCI-251 with a minimum grade of C or COMP-211 with a minimum grade of C or PSCI-210 with a minimum grade of C.

**PSCI-383. United States Foreign Policy Since Worldwar II. 3 Hours.**

Description and analysis of the important changes in traditional American foreign policy that have occurred since World War II; the international responsibilities that the United State has shouldered as a world power; the political, economic, and social factors that are conditioning and limiting American foreign policy today.

**Prerequisite:** PSCI-275 with a minimum grade of C or IR-201 with a minimum grade of C or PSCI-251 with a minimum grade of C or COMP-211 with a minimum grade of C or PSCI-210 with a minimum grade of C.

**PSCI-384. United States And The World Economy. 3 Hours.**

A study of the nature and structure of the world economy and the role played by the U.S. in the post-World War II economy. Topics such as the Bretton Woods System, the Gold Window and flexible exchange rates and their political, social, economic and strategic dimensions.

**Prerequisite:** PSCI-275 with a minimum grade of C or IR-201 with a minimum grade of C or PSCI-210 with a minimum grade of C or PSCI-251 with a minimum grade of C or COMP-211 with a minimum grade of C.

**PSCI-386. Globalization & Politics. 3 Hours.**

This course provides a conceptual foundation for understanding the intensifying global system and its impacts on politics, economics, cultures, and transnational relations. In particular, the course explores the effects of economic globalization - and political responses to economic globalization - in nations of Latin America, Africa, and Asia; examines the roles and possible reforms of major global financial institutions; extends analysis to the cultural and ideological aspects of globalization; and assesses prospects for transnational cooperation on human rights and for expanded global governance and citizenship.

**Prerequisite:** PSCI-210 with a minimum grade of C or PSCI-251 with a minimum grade of C or PSCI-275 with a minimum grade of C.

**PSCI-388. International Relations In The Middle East. 3 Hours.**

Struggles for power and peace in this strategic region of the world; nature and frequency of interactions between the nations of the region and between these nations and the great powers.

**Prerequisite:** PSCI-275 with a minimum grade of C or IR-201 with a minimum grade of C or PSCI-251 with a minimum grade of C or COMP-211 with a minimum grade of C or PSCI-210 with a minimum grade of C.

**PSCI-390. Classical Political Theory. 3 Hours.**

Analysis of the concept of a political community in terms of obligations, rights, the public interest, the just state, and the just individual. Selected writing of Plato, Aristotle, Sophocles, Aristophanes, Xenophon, and others.

**PSCI-391. Modern Political Theory. 3 Hours.**

Analysis of the tensions between the individual and society. Concepts of society, natural rights, political obligation, consent, the rule of law, social contract, and revolution examined through selected writings of Machiavelli, Hobbes, Locke, Rousseau, Burke, Mills, Marx and Pateman.

**PSCI-392. Writing Intensive Program: Contemporary Political Philosophy. 3 Hours.**

State and governance are among the most traditional, and one might think settled, themes in modern political thought. But recent 21st century events have given these themes a new significance. Were these events, and related problems, prefigured in earlier crises of political order? How does "globalism" affect theories of state and governance? Are the liberal democratic and republican traditions able to meet the dilemmas of security and freedom presented by an increasing inter-connectedness among nation-states? To investigate these questions, this course will explore classics on state and governance and also read selected contemporary theories, histories and literary perspectives on political order.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**PSCI-393. Contemporary Political Analysis. 3 Hours.**

Analysis of behavioralism, decision-making theories, quantitative approaches to politics, structural-functionalism, systems theory, game theory, political development theory, and interest group theory.

**Prerequisite:** PSCI-291 with a minimum grade of C or THRY-213 with a minimum grade of C.

**PSCI-394A. Selected Political Theorists: Plato. 3 Hours.**

**PSCI-394B. Selected Political Theorists: Machiavelli. 3 Hours.**

**PSCI-394C. Selected Political Theorists: Hobbes. 3 Hours.**

**PSCI-394D. Selected Political Theorists: Locke. 3 Hours.**

**PSCI-394E. Selected Political Theorists: Rousseau. 3 Hours.**

**PSCI-394F. Selected Political Theorists: Adam Smith. 3 Hours.**

**PSCI-394G. Selected Political Theorists: John Stuart Mill. 3 Hours.**

**PSCI-394H. Selected Political Theorists: Marx. 3 Hours.**

**PSCI-394I. Selected Political Theorists: John Rawls. 3 Hours.**

**PSCI-395. Early American Political Thought. 3 Hours.**

Topics including the American revolution, the writing of the constitution, and the crisis of the Republic will be examined through selected writings of the following theorists and activists: Winthrop, Adams, Paine, Jefferson, Hamilton, Madison, Calhoun, Stanton, Thoreau, Douglass, Grimke, and Lincoln.

**PSCI-396. Jewish Political Thought. 3 Hours.**

This course explores the Jewish political tradition, focusing particularly on the concepts of power, sovereignty, and community. Starting from the Biblical text, we will examine how both classical and modern thinkers within the Jewish tradition understood the ways in which power was created, the different meanings of leadership, the idea of national independence, and the ultimate question of belonging within a fragmented political community.

**Prerequisite:** (100 - 399 or 100A - 399Z).

**PSCI-397. African Political Thought. 3 Hours.**

African political thought is examined through selected writings of important African leaders and writers dealing with political developments in the new states of Africa with particular focus on the problems of African identity (African values versus westernization), African socialism, Pan-Africanism, and the one party state.

**PSCI-398. Law And Social Change. 3 Hours.**

An assessment of the possibilities and limitations of law as an instrument of social change through an examination of the status of minorities and women, the social control of corporate behavior, and the politics of rights.

**Prerequisite:** PSCI-216 with a minimum grade of C or AMER-216 with a minimum grade of C.

**PSCI-399H. Proseminar In Political Theory: Political Concepts Through Literature. 3 Hours.**

**PSCI-401. Classics Of Political Science. 3 Hours.**

An examination of selected classics of the discipline of political science, with a special emphasis on major contributions of the modern era. This course provides students with an opportunity for close analysis of complex works in political science.

**PSCI-402. Research Methods In Political Science. 3 Hours.**

Introduction to the various techniques in political science with emphasis on developing skills necessary for graduate work in the department. Areas of concentration: development of research designs, identification of appropriate data sources, discussion of alternative methodologies, data analysis techniques.

**PSCI-405. Independent Study In Political Science. 3 Hours.**

Research and investigation into selected topics and preparation for a research paper(s) under individual faculty guidance.

**PSCI-405A. Independent Study In Political Science. 3 Hours.**

Research and investigation into selected topics and preparation for a research paper(s) under individual faculty guidance.

**PSCI-406. Independent Study In Political Science. 2 Hours.**

(See PSCI-405 for description.)

**PSCI-407. Independent Study In Political Science. 1 Hour.**

(See PSCI-405 for description.)

**PSCI-408. Graduate Internship. 3 Hours.**

Placement in government agency, voluntary or third-sector organization, advocacy group, political office, or related institution. Opportunity for career-exploration, skill-development, or specialized training. (Hours in placement: 10 per week).

**PSCI-412. American Political Elites. 3 Hours.**

The nature and impact of elites in the American political system. Readings and discussion will include Plato, Marx, Michels and various contemporary treatments of the nature of American society. Special topics will be covered on the basis of students' particular interest.

**PSCI-414. Political Parties And Elections In The U.S.. 3 Hours.**

This graduate course examines both the historical development of political parties in the United States as well as contemporary issues in the study of parties and elections. Students will analyze how political parties are created and the functions they perform in our political system. Topics will include American political parties, presidential nominations, partisan polarization, and issues of race and gender in recent elections.

**PSCI-417. Seminar In Political Behavior. 3 Hours.**

Sociological and psychological perspectives in political science; how political attitudes and preferences are formed; comparative political cultures; social and psychological determinants of political cultures; social and psychological determinants of political participation and political decision-making; American voting behavior; discussion of current research in these areas; writing and presentation of seminar papers.

**PSCI-420. Religion & Politics In America. 3 Hours.**

This course investigates the religious factor in American political life by examining the historical and contemporary effect of religion on political culture, political coalitions, individual political behavior, and public policy. The perspectives of the American founders on the relationship between church and state and the religion clauses in Article IV and the First Amendment will be assessed. We will also look at the major Supreme Court decisions on the meaning of the establishment clause and free exercise clauses in the US Constitution. We will examine the role of the courts in refereeing conflicts over religion in America.

**PSCI-421. Congress & The Bureaucracy. 3 Hours.**

In this seminar, we will focus on subgovernments in the United States--that is, the administrative agencies, congressional committees, and interest groups associated with a particular policy area. In particular, we will examine the nature of the relationship between congress and regulatory agencies, what congress intended various agencies to do, and whether these agencies generally meet or fail to meet the expectations of congress. We will examine how a bill becomes a law, and then what happens to that law afterwards.

**PSCI-424. Law And Equality. 3 Hours.**

The course explores how the United States Supreme Court interprets and applies the Equal Protection Clause of the 14th Amendment in situations where a statute or policy contains a classification based race, gender, or sexual orientation. In conjunction with this emphasis on the Court's jurisprudence, other readings will focus on the philosophical underpinnings of the Court's decisions, disparities in power and privilege contained in the law, and personal accounts that detail how the human experience is affected by these disparities. The final segment of the course considers whether the law can be used as a vehicle for social change, and how courts have approached legislative remedies designed to redress past discrimination.

**PSCI-425. Presidential Power & The Executive Branch. 3 Hours.**

This graduate course explores the power and development of the American presidency and its relationship to other institutions of government. American presidents are at the center of politics, both at home and abroad. But too often our fixation on one individual obscures how other institutions interact with and constrain the presidency. Instead of considering each president as an isolated case, this course analyzes the presidency throughout history, identifying patterns of change as well as continuities in presidential power. We will consider the presidency's design in the Constitution and what has led to departures from that framework.

**PSCI-427. Seminar In American Policy-Making Process. 3 Hours.**

Analysis of legislative, executive, administrative and judicial policy-making processes at the national government level with emphasis on current research, case studies in policy-making and presentation of seminar papers.

**PSCI-437. Seminar In Urban Politics. 3 Hours.**

Analysis of the politics of metropolitan areas, with emphasis on the mobilization of resources for urban problem-solving, and the political forces that impede the solution of such problems. Students will write and present research papers on urban politics in the Chicago metropolitan area.

**PSCI-439. Minority Economic Development. 3 Hours.**

This course investigates political and social factors related to the economic development of minority groups in the United States. The demise of legalized segregation has meant racial and ethnic minorities no longer face official barriers to economic success. However, most minority groups (particularly black Americans and Latinos) continue to have lower levels of overall employment, income, and wealth than do whites. This course investigates political and social phenomena contributing to these patterns, as well as efforts by minority groups, supportive whites, and government actors in addressing minority economic issues. There is a particular interest in minority entrepreneurship and employment issues.

**PSCI-440. Research Methods In Public Administration. 3 Hours.**

Research techniques in the study of public administration. Methods taught will include techniques utilized by both political scientists and public administrators: case studies, decision-making analysis, cost-benefit analysis and others.

**PSCI-441. History And Literature Of Public Administration. 3 Hours.**

A review of major historical periods in public administration theory and practice and consideration of present tendencies and possible future developments. Consideration of standard summaries of the development of the discipline and primary, classical sources as well as key theorists and concepts of the discipline.

**PSCI-442. Public Bureaucracies: Theory And Practice. 3 Hours.**

Review of classic and contemporary literature on bureaucracy; analysis of the concept of bureaucracy; examination of selected public bureaucracies; strengths and limitations of the bureaucratic form of work organization; proposed alternative forms of work organization in the public sector; problems of accountability and public control.

**PSCI-444. Comparative Public Administration. 3 Hours.**

Study of the significance of public administration in a comparative setting with particular emphasis on the Third World; cultural impact on bureaucratic behavior; international and United States technical assistance in public administration; bureaucracy and development; comparative public policy; Third World perspectives and the recent critiques of administratively generated and First World inspired development.

**PSCI-446. Homeland Security: Policies, Politics, And Administration. 3 Hours.**

In the wake of the events of September 11, 2001, America has struggled to both re-write its understanding of "security" within its borders and to reorganize its resources committed to maintaining "security". This course is designed to explore the revamping of the bureaucracy responsible for "homeland security," and the impact on the population of the sense of uncertainty within borders. Students will examine the impact of these developments on state and local resources committed to "security" in communities, evaluating the strengths and weaknesses of the new "homeland security" efforts on the national, state, and city levels.

**PSCI-447. Seminar In Public Policy Analysis. 3 Hours.**

Study of governmental policy and program implementation from the perspective of policy choice, decision-making, and evaluation. Topics include criteria for evaluation of policy, techniques of analysis such as forecasting and scenario development, impact analysis, client satisfaction, and inequalities of result.

**PSCI-460. Comparative Democratic Institutions. 3 Hours.**

This course develops an understanding of the relationships between citizens' underlying interests and values and the policy output produced in democratic countries. We will explore the ramifications of different constitutional designs and electoral systems for the provision of representation. Furthermore, we will examine: the development of policy preferences, citizens' issuing of mandates, government responsiveness, and the ability of citizens to hold governments to account. The operation of bureaucracies as well as nominally independent arms of government, such as central banks, will also be considered.

**PSCI-465. Seminar In African Politics. 3 Hours.**

An examination of crucial problems in African politics with particular emphasis on modernization and creating political order. Research will focus on political participation, political institutions, national integration, ideology, the strains of modernization the role of the military.

**PSCI-469. Democratization & Capitalism In The 21st Century. 3 Hours.**

To understand the "third wave" democratization in the late 20th century, this course engages theories about the causes, meanings, and challenges of "democracy", including its complex relationships with capitalism. What were the roles of elites, classes, and social movements in recent democratic transitions, what types of systems emerged, what conditions can cause "de-democratization", and how does the post-Cold War hegemony of market capitalism affect the prospects for sustaining and deepening democracy in the early 21st century?.

**PSCI-475. Seminar In The Behavioral Aspects Of International Relations. 3 Hours.**

Research, seminar papers, and discussion on the socio-psychological approaches to the study of international relations; topics include the role of nationalism in international relations; topics include the role of nationalism in international conflict, decision-making in international relations, national and international image formation, and the socio-psychological determinants of foreign policies.

**PSCI-476. Unified Germany In Changing Europe. 3 Hours.**

The course will review the historical background of post-WW II Germany; the reunification process (its problems and potentials); and the role of the "new" Germany in the "new Europe." Still politically and economically dominant in Europe, the question to be explored is whether Germany's future complements or competes with the attempt to bring all of Europe together.

**Prerequisite:** PSCI-402 with a minimum grade of C or PSCI-421 with a minimum grade of C.

**PSCI-477. Political Integration In Western Europe. 3 Hours.**

Focus on post-World War II political integration in Europe; examination of various European international and supranational organizations, with emphasis on the dynamics of political integration in the European Community.

**PSCI-478. EU - US Transatlantic Relations. 3 Hours.**

Relations between the United States and Europe have been challenged frequently during the post-WWII era. These challenges have become more significant after September 11, 2001. The sympathy for the United States directly after the terrorists attacks quickly dissolved over Iraq. Europe itself was divided between supporters of the United States (UK, Spain, Italy, Poland) and opponents (Germany, France, Belgium). The severe strain in diplomatic relations did, however, little harm to the important trade relations. While differences in values between Americans and Europeans should not be marginalized, shared values significantly outnumber values that divide them. This course discusses the continued challenges in the transatlantic relationship.

**PSCI-479. International Politics Of East Asia. 3 Hours.**

This course is designed for graduate students interested in international relations in East Asia. It examines the political, economic, and social challenges facing East Asian countries from a comparative perspective. The emphasis will be on theories that inform our understanding of international affairs and foreign policy decision-making, as each is related to East Asia, the military security and economic issues in international relations, though we will also study the domestic conditions driving those relations. Major themes include defense and security, trade and development, and human rights. This course is not aimed to survey a general history of these countries but to discuss major issues and challenges associated with their political, economic and social change and development.

**PSCI-481. International Human Rights. 3 Hours.**

Human rights issues have been central to many of the top international news stories in recent years, including "ethnic cleansing" in Bosnia and Kosovo, genocide in Rwanda, self-determination in East Timor and Tibet, and humanitarian intervention in Somalia and Sudan (and in Afghanistan and Iraq, more controversially). The way in which the international community has responded to each of these examples demonstrates the complex relationship between state sovereignty and the promotion of universal human rights. Looking at human rights in both comparative and international perspectives, we will discuss the philosophical and political bases for the international human rights movement and probe the ongoing debate over universality and culture relativism.

**PSCI-483. International Political Economy. 3 Hours.**

This course will simultaneously provide students with a broad and deep overview of international economic relations. We will draw from the literature in international relations, comparative politics, and economics to develop an understanding of international political economy. We will examine the interaction between disparate national economies, national politics, and the international system writ large.

**PSCI-491. Seminar On The Work Of Hannah Arendt. 3 Hours.**

This course investigates the work of Hannah Arendt on politics, society and political action, and provides an introduction to public realm theory that will work toward mastery of Arendt's understanding of politics as, in Latin, the *res publica*, "the public thing." Our primary questions will be what does political action require and what can it accomplish? Our readings will include texts on civil disobedience, the relationship between history and political theory, the meanings of power and violence, colonialism, totalitarian rule during the Third Reich and the Soviet era, and on racial prejudice as political problem and as political tool.

**PSCI-5901. Thesis Hours. 1 Hour.**

This course is designed to provide structure, guidance, and support for graduate students in political science in the research and writing of a Master's thesis. The objective of the course is to deepen the understanding of theories and methods related to research on the specific subfield in political science and to apply them to a chosen topic. Specific focus includes: (a) identifying a significant research problem on an political science issue and specifying a research question to address it; (b) analyzing the scholarly literature in relation to your research; (c) describing research design and evidence; (d) shaping coherent arguments and assessments; (e) developing skills in formal academic writing and oral presentation.

**Requirement:** consent of the thesis advisor, graduate coordinator, department chair and the College Dean.

**PSCI-5902. Thesis Hours. 2 Hours.**

See course description for PSCI-5901.

**PSCI-5903. Thesis Hours. 3 Hours.**

See course description for PSCI-5901.

# Portuguese (PORT)

---

## Courses

**PORT-101. Portuguese I. 3 Hours.**

Development of basic skill in listening, speaking, reading and writing. Cultural appreciation.

**PORT-102. Portuguese II. 3 Hours.**

Continuation of PORT-101.

**Prerequisite:** PORT-101 with a minimum grade of D.

**PORT-103. Portuguese III. 3 Hours.**

**Prerequisite:** PORT-102 with a minimum grade of D.

# Psychology (PSYC)

---

## Courses

### **PSYC-100. Survey Of Psychology. 3 Hours.**

An introduction of the study of psychology as a dynamic and changing system of interrelated and interacting areas.

### **PSYC-110. Life Span Development. 3 Hours.**

An introductory class on human development across the life span, from conception to death. Explores the description, explanation, and function of different aspects of development: physical, psychological and social. Designed as a general education course for non-majors, the main purpose of the course is to present the general underlying structures and mechanisms of development. Some of the major theories and research findings will also be covered.

### **PSYC-200. General Psychology. 4 Hours.**

General introduction to the study of psychology as a science. A personalized system of instruction permits flexible scheduling and different rates for fulfilling requirements. The text covers approximately 25-30 units of material. Tutoring and instructional aides are available.

**Prerequisite:** ENGL-101 with a minimum grade of C and ENGL-102 with a minimum grade of C.

### **PSYC-202. Writing Intensive Program: Statistics And Research Methods I. 3 Hours.**

The first half of a sequence that is intended to prepare students to be consumers/ producers of research. In this course students will learn basic descriptive statistics, correlation and regression, basic elements of research design and APA style. Students will be required to design a project and write the introduction and method. This is a Writing Intensive course.

**Prerequisites:** ENGL-101 - 102 and PSYC-200 and (MATH-092 - 499 or MATH-092A - 499Z or MATH-0092 - 4999 or NEIU Math Placement Result 30 - 45 or Accuplacer College Level Math 020 - 120 or Accuplacer Adv. Algebra & Func 237 - 300).

### **PSYC-210. Parenting. 3 Hours.**

Parenting integrates concepts, data and methods from child development, learning theory and applied behavior analysis and utilizes them in the context of a positive parenting philosophy to advance normal child skills development.

### **PSYC-215. Child Psychology. 3 Hours.**

Basic theories, concepts, principles and research data concerning the physical, intellectual, emotional and social aspects of development in children.

### **PSYC-300J. Special Topics In Psychology: Human Neuropsychology. 3 Hours.**

**Prerequisite:** PSYC-202 with a minimum grade of C.

### **PSYC-300N. Proseminar In Psychology: Psychopathology In Film And Literature. 3 Hours.**

### **PSYC-302. Statistics And Research Methods II. 3 Hours.**

This course is the second half of a sequence that is intended to prepare students to be consumers/producers of research. In this course students will learn parametric and nonparametric inferential statistics through three-way analysis of variance, elements of complex experimental and quasi-experimental design, and research elements of APA format. Students will be required to collect data, analyze and discuss results, and write a formal result and discussion section.

**Prerequisite:** ENGL-102 with a minimum grade of C and PSYC-200 with a minimum grade of C and PSYC-202 with a minimum grade of C.

### **PSYC-305. Issues Of Ethics And Diversity In Psychological Research. 1 Hour.**

This class will examine events that have impacted psychological research in regard to the ethical treatment of human and animal subjects. The examination will include a consideration of how the subjects' status as a member of a marginalized or vulnerable population has contributed to their victimization. Additionally, the course will include a review of the impact of marginalized populations in higher education in shaping the conversation.

**Prerequisite:** (100 - 399 or 100A - 399Z).

### **PSYC-307. Psychological Tests And Measurements. 3 Hours.**

Principles and methods of measurement and evaluation: elementary statistical concepts, reliability and validity, interpretation of test results, standards for psychological and educational tests, principles of test construction and use of psychological and educational tests.

**Prerequisite:** PSYC-202 with a minimum grade of C and PSYC-200 with a minimum grade of C.

### **PSYC-308. Laboratory, Research Methods In Psychology: Tests And Measurements. 5 Hours.**

Development, construction, scoring, standardization, determination of reliability and validity of simple tests in psychology.

**Prerequisite:** PSYC-302 with a minimum grade of C and PSYC-200 with a minimum grade of C.

### **PSYC-310. Developmental Psychology. 3 Hours.**

Longitudinal study of the development of behavior throughout the life span, including physiological factors and their bearing on the psychological adjustment of the individual in childhood, adolescence, adulthood, and later maturity.

**Prerequisite:** (PSYC-202 with a minimum grade of C or PSYC-301 with a minimum grade of C) and PSYC-200 with a minimum grade of C.

### **PSYC-311. Psychosexual Development. 3 Hours.**

Study of the development of sex differences, from the acquisition of sex role identity in childhood through sex differences in adult personality, cognition and role behavior.

**Prerequisite:** PSYC-200 with a minimum grade of C.

**PSYC-312. Psychological Development In Women. 3 Hours.**

Psychological development and identity formation in women with emphasis on personality , psychosexual and cognitive development.

**Prerequisite:** PSYC-200 with a minimum grade of C or PSYC-100 with a minimum grade of C or WSP-101 with a minimum grade of C.

**PSYC-314. Psychology Of The African American Family. 3 Hours.**

The purpose of this course is for students to gain an understanding of how African American families have evolved in America. The experiences of slavery and racism have influenced the development of African American families and the social policies and practices toward them. These have resulted in the proliferation of myths and perceptions of African American families that often emphasize the negative end results of years of discrimination. The goal of this course is to examine the history of African American families, research performed on African American families, issues facing African American families, and interventions offered to African American families.

**Prerequisite:** AFAM-200 with a minimum grade of C or PSYC-200 with a minimum grade of C.

**PSYC-316. Laboratory, Research Methods In Psychology: Child Development. 5 Hours.**

Examination and application of research techniques and methods used in child and developmental psychology. Students will collect, analyze, interpret and present research data.

**Prerequisite:** PSYC-302 with a minimum grade of C and PSYC-200 with a minimum grade of C and (PSYC-215 with a minimum grade of C or PSYC-310 with a minimum grade of C).

**PSYC-317. Latino Psychology: Mental Health & The Latino Experience In The USA. 3 Hours.**

This course is designed for students to explore and gain an understanding the multiplicity of factors (biological, psychological, environmental and cultural) that impact and shape the mental health of different Latino groups living in the USA. Immigration, stereotyping, discrimination and prejudice are key topics in determining how Latinos view themselves in American culture.

**Prerequisite:** PSYC-200 with a minimum grade of C.

**PSYC-318. Psychopathology Of Childhood. 3 Hours.**

Study of the dynamics of pre-adolescent neurotic disturbances.

**Prerequisite:** PSYC-200 with a minimum grade of C.

**PSYC-320. Adolescent Psychology. 3 Hours.**

Nature of adolescent development and adjustment: physical, intellectual, emotional, and social aspects.

**Prerequisite:** PSYC-200 with a minimum grade of C or PSYC-100 with a minimum grade of C or PSYC-110 with a minimum grade of C.

**PSYC-322. Emotional Disturbances Of Adolescence. 3 Hours.**

Study of the psychological dynamics and of the problems and conflicts which the adolescent may experience during this distinct phase of his/her life.

**Prerequisite:** PSYC-310 with a minimum grade of C or PSYC-200 with a minimum grade of C.

**PSYC-324. Geropsychology. 3 Hours.**

This course will introduce students to the study of aging and the progression of gerontology. The course focuses on the physical, psychological, social and cognitive aspects of aging from a number of disciplinary perspectives. Micro (individual's process of aging) as well as macro (societal) issues of an aging population will be examined. The course will also introduce students to a number of controversies and debates in gerontology, many of which have implications for social policy.

**PSYC-325. Psychosocial Development And Aging. 3 Hours.**

Exploration of behavioral development and of the influence of social and environmental factors on the psychosocial development throughout the life span.

**Prerequisite:** PSYC-200 with a minimum grade of C.

**PSYC-328. Seminar In Aging. 3 Hours.**

Integrated and critical evaluation of problems and issues related to aging; assessment of research and of its application to the establishment of programs for the aged.

**Prerequisite:** PSYC-200 with a minimum grade of C.

**PSYC-330. Psychology Of Personality. 3 Hours.**

Contemporary theories of personality development and personality dynamics and definitions of the healthy personality.

**Prerequisite:** (PSYC-202 with a minimum grade of C or PSYC-301 with a minimum grade of C) and PSYC-200 with a minimum grade of C.

**PSYC-331. Laboratory, Research Methods In Psychology: Personality Development. 5 Hours.**

Research methods used in the study of "personality." Collection, analysis and interpretation of research data, and reporting results.

**Prerequisite:** PSYC-302 with a minimum grade of C and PSYC-200 with a minimum grade of C and (PSYC-330 with a minimum grade of C or PSYC-340 with a minimum grade of C).

**PSYC-340. Abnormal Psychology. 3 Hours.**

Overview of psychopathology; similarities and differences between "normal" and "abnormal" groups.

**Prerequisite:** (PSYC-202 with a minimum grade of C or PSYC-301 with a minimum grade of C) and PSYC-200 with a minimum grade of C.

**PSYC-341. Laboratory, Research Methods In Psychology: Clinical. 5 Hours.**

Application of the techniques learned in the Statistics and Research Methods courses to actual research topics in the clinical field of psychology. The format is one hour of lecture and four hours of laboratory, in which student actually collect and analyze data. Fulfills department major lab requirement.

**Prerequisite:** PSYC-302 with a minimum grade of C and PSYC-200 with a minimum grade of C and (PSYC-330 with a minimum grade of C or PSYC-340 with a minimum grade of C).

**PSYC-345. Theories And Methods Of Individual Therapy. 3 Hours.**

Overview of various approaches to psychotherapy.

**Prerequisite:** (PSYC-330 with a minimum grade of C or PSYC-340 with a minimum grade of C) and PSYC-200 with a minimum grade of C.

**PSYC-346. Introduction To Group Psychotherapy. 3 Hours.**

Study and application of the underlying principles of several approaches to group processes; e.g., T-groups, growth (Rogerian) groups, rational-emotive groups, Gestalt groups, T.A. groups.

**Prerequisite:** (PSYC-330 with a minimum grade of C or PSYC-340 with a minimum grade of C) and PSYC-200 with a minimum grade of C.

**PSYC-348. Community Psychology. 3 Hours.**

Introduction to the field of community psychology, including its historical context, key theories, research methods, and practical applications. Community psychology extends beyond the traditional individual focus of psychology to examine social, cultural, and environmental influences on both individuals and the larger social systems in which they are embedded. Practical applications of community psychology include a range of prevention and intervention strategies to promote both individual and community-level well-being.

**Prerequisite:** PSYC-200 with a minimum grade of C.

**PSYC-350. Physiological Psychology. 3 Hours.**

Lectures on physiological research techniques; ablation, lesioning, electro-physiology, and neurochemistry. The neuron, synaptic, electrical and chemical events, sensory physiology, psychopharmacology, memory mechanisms, emotions and vegetative functions are covered.

**Prerequisite:** (PSYC-202 with a minimum grade of C or PSYC-301 with a minimum grade of C) and PSYC-200 with a minimum grade of C.

**PSYC-351. Laboratory, Research Methods In Psychology: Physiological Psychology. 5 Hours.**

Techniques employed in the investigation of brain functions including surgical and testing procedures such as ablation, electrolytic lesions, implants of permanent electrodes, operant conditioning techniques, pharmacological experiments and demonstrations.

**Prerequisite:** PSYC-302 with a minimum grade of C and PSYC-200 with a minimum grade of C and (PSYC-350 with a minimum grade of C or PSYC-370 with a minimum grade of C or PSYC-373 with a minimum grade of C or PSYC-375 with a minimum grade of C).

**PSYC-352. Introduction To Neuropsychopharmacology. 3 Hours.**

Discussion of neuronal synapse and neurotransmitter action, and the physiology and basic chemistry of the better known putative neurotransmitters; overview of the major and minor tranquilizers, the antidepressants, and the hallucinogens; examination of the better known relationships between neurochemistry, psychopharmacology and behavior.

**Prerequisite:** PSYC-200 with a minimum grade of C.

**PSYC-353. Physiological Bases Of Mental Disorders. 3 Hours.**

Physiological and genetic aspects of mental disorders; major theories and current research models with emphasis on current literature and primary sources.

**Prerequisite:** PSYC-202 with a minimum grade of C and PSYC-200 with a minimum grade of C and PSYC-350 with a minimum grade of C.

**PSYC-354. Seminar In Drug Abuse. 3 Hours.**

Lectures, discussions and selected readings concerning the psychological, sociological and physiological aspects of drug abuse.

**Prerequisite:** PSYC-200 with a minimum grade of C or BIO-100 with a minimum grade of C or BIOL-100 with a minimum grade of C.

**PSYC-355. Experimental Psychology Of Zebrafish. 3 Hours.**

The course will provide a survey of different experimental psychology methods that are used in animal models to understand the corresponding human behavior. Topics discussed in class will focus on the use of animals in research as model systems to understand the neural circuits that underlie normal and abnormal behavior. During the course students will replicate previous research studies to develop an understanding of some of the common methodological issues and to better understand and interpret data from different sources.

**Prerequisite:** (100 - 399 or 100A - 399Z).

**PSYC-360. Social Psychology. 3 Hours.**

Basic principles and research techniques in social perception, attitude formation, group dynamics, interpersonal attraction, and social influence.

**Prerequisite:** (PSYC-202 with a minimum grade of C or PSYC-301 with a minimum grade of C) and PSYC-200 with a minimum grade of C.

**PSYC-361. Laboratory, Research Methods In Psychology: Social Psychology. 5 Hours.**

Application of techniques learned in Statistics and Research Methods to actual research topics in social psychology. Through lecture and laboratory, in which students actually collect and analyze data.

**Prerequisite:** PSYC-302 with a minimum grade of C and PSYC-200 with a minimum grade of C and PSYC-360 with a minimum grade of C.

**PSYC-364. Theories Of Intimate Relationships. 3 Hours.**

The advanced study of the field of intimate relationships. Coursework covers social psychological theories and research on romantic relationships and addresses topics such as attraction, communication, attachment, love, infidelity, jealousy, conflict, and relationship dissolution.

**Prerequisite:** PSYC-360 with a minimum grade of C and PSYC-200 with a minimum grade of C.

**PSYC-365. Industrial Psychology. 3 Hours.**

An introductory survey of the diverse field of industrial psychology. Personnel selection, business organizations, marketing and advertising, human factors and human engineering, worker-supervisor relations and executive behavior.

**Prerequisite:** PSYC-200 with a minimum grade of C.

**PSYC-367. Psychology Of Food. 3 Hours.**

Food and eating play an important role in how we define ourselves and how we relate to other people. This course will explore many aspects of food and food consumption, primarily through the lens of a social psychological perspective. Topics will include: emotions and food (i.e., food and mood); food and health (e.g., obesity and disordered eating); cross cultural perspectives on food; and contextual cues that influence our eating choices. In short, the course will explore the psychological aspects of why we eat, what we eat and how much (or little) we eat. Note: If course is taken as capstone, the prerequisites needed will include PSYC-302 and at least one course from two Psychology core areas with a minimum grade of C.

**Prerequisite:** PSYC-200 with a minimum grade of C and PSYC-202 with a minimum grade of C.

**PSYC-368. Consumer Psychology. 3 Hours.**

This course is designed to provide the student with an introduction to the field of consumer psychology. The course will emphasize a social psychological perspective. The class will focus on theoretical and applied applications of consumer behavior and advertising through the lens of the psychology field. Topics such as persuasion, the psychology of decision-making, motivation, and income/social class will be discussed as they relate to consumer behavior.

**Prerequisite:** PSYC-200 with a minimum grade of C.

**PSYC-369. Conservation Psychology. 3 Hours.**

Students will explore the emerging field of conservation psychology with an emphasis on the psychological characteristics of the relationship between humans and nature, such as environmental values, attitudes, behavior, and decision-making practices. Course topics, including environmental perception, identity, personal morals, ecopsychology, wilderness psychology, domestic nature, managed nature, community dimensions, and environmental education, will be investigated in the context of promoting environmental responsibility.

**Prerequisite:** (100 - 399 or 100A - 399Z).

**PSYC-370. Theories Of Learning. 3 Hours.**

Psychological study of the processes of learning, problem-solving, and memory. Major historical theories of learning; demonstration of some basic research techniques.

**Prerequisite:** (PSYC-202 with a minimum grade of C or PSYC-301 with a minimum grade of C) and PSYC-200 with a minimum grade of C.

**PSYC-371. Neuropsychology. 3 Hours.**

Neuropsychology is an upper level course that will examine the neural basis of human behavior, and cognition. Students will examine the different methodologies that are used to characterize the underlying neurological function that drives human behavior and cognition under normal conditions. The course will also cover some clinical applications of neuropsychology to explore and understand causes of cognitive dysfunction and pathology. Topics that are discussed will incorporate research from studies using animal models, but always with emphasis on the connection to humans.

**Prerequisite:** PSYC-200 with a minimum grade of C and PSYC-202 with a minimum grade of C.

**PSYC-373. Human Perception. 3 Hours.**

Study of how our perceiving and performing systems convert information from the environment and the self to action in everyday life.

**Prerequisite:** (PSYC-202 with a minimum grade of C or PSYC-301 with a minimum grade of C) and PSYC-200 with a minimum grade of C.

**PSYC-374. Laboratory, Research Methods In Psychology: Perception. 5 Hours.**

Research techniques and experiments in perception, cognition and learning.

**Prerequisite:** PSYC-302 with a minimum grade of C and PSYC-200 with a minimum grade of C and (PSYC-373 with a minimum grade of C or PSYC-350 with a minimum grade of C or PSYC-370 with a minimum grade of C or PSYC-375 with a minimum grade of C).

**PSYC-375. Cognitive Psychology. 3 Hours.**

This course is an introduction to cognitive psychology, the study of human thought, information processing, and consciousness. It covers the following topics normally associated with the study of cognition: pattern recognition, learning and memory, language, reasoning, decision making, cognitive neuropsychology, and artificial intelligence.

**Prerequisite:** PSYC-200 with a minimum grade of C and PSYC-202 with a minimum grade of C.

**PSYC-376. Social Neuroscience. 3 Hours.**

The purpose of this course is to gain an understanding of how the nervous system affects social relationships, and how social relationships affect the nervous system. Although the main focus is on humans, many of the studies we cover will be on non-human animals. We will focus mainly on the macro-level (i.e. parts of the brain), but some information will also be presented at the micro-level (cellular and chemical).

**Prerequisite:** PSYC-202 with a minimum grade of C and PSYC-200 with a minimum grade of C.

**PSYC-377. Visual Neuroscience. 3 Hours.**

Visual Neuroscience is an upper level course that will examine how data based and knowledge based processing determines an individual's visual experience. To better understand the interaction between data and knowledge, students will learn about the different techniques and methodologies that are used to address research questions in visual perception. Students will explore how visual information is encoded at the early synapses in the retina and is processed as neural signals move into cortex. The effect of different conditions on human visual perception will be further examined to understand how data and knowledge interact to determine a single perceptual experience.

**Prerequisite:** PSYC-200 with a minimum grade of C and PSYC-202 with a minimum grade of C.

**PSYC-378. Laboratory, Research Methods In Psychology: Cognitive. 5 Hours.**

Examination and application of research techniques and methods used in cognitive psychology. Students will collect, analyze, interpret, and present research data.

**Prerequisite:** PSYC-302 with a minimum grade of C and (PSYC-350 with a minimum grade of C or PSYC-370 with a minimum grade of C or PSYC-371 with a minimum grade of C or PSYC-373 with a minimum grade of C or PSYC-375 with a minimum grade of C).

**PSYC-380. Happiness. 3 Hours.**

Achieving happiness is one of life's most valuable goals and one of the goals of this class. This class will examine the psychological factors that influence happiness and the diverse philosophical arguments for the value of happiness. Students will engage in projects designed to implement psychological research with the goal of maximizing their happiness.

**Prerequisite:** (100 - 399 or 100A - 399Z).

**PSYC-381. Independent Study In Psychology. 1 Hour.**

Special study projects in psychology specifically and individually contracted with the instructor. Arrangements should be made in the term prior to registration.

**Prerequisite:** (PSYC-202 with a minimum grade of C or PSYC-301 with a minimum grade of C or PSYC-317 with a minimum grade of C or PSYC-317A with a minimum grade of C) and PSYC-200 with a minimum grade of C.

**PSYC-382. Independent Study In Psychology. 2 Hours.**

(See PSYC-381 for description.).

**Prerequisite:** (PSYC-202 with a minimum grade of C or PSYC-301 with a minimum grade of C or PSYC-317 with a minimum grade of C or PSYC-317A with a minimum grade of C) and PSYC-200 with a minimum grade of C.

**PSYC-383. Independent Study In Psychology. 3 Hours.**

(See PSYC-381 for description.).

**Prerequisite:** (PSYC-202 with a minimum grade of C or PSYC-301 with a minimum grade of C or PSYC-317 with a minimum grade of C or PSYC-317A with a minimum grade of C) and PSYC-200 with a minimum grade of C.

**PSYC-385. Capstone Seminar. 2 Hours.**

The capstone seminar is to be taken in conjunction with the completion of the student's capstone project. The aim of the course is to provide capstone students with additional, structured contact hours with their advisor/instructor in order to facilitate efficient and superior work.

**PSYC-391. Field Experiences In Psychology I. 3 Hours.**

Experiential learning in psychology-related settings (such as psychiatric hospitals and schools) integrating both academic work and on-the-job experience. Arrangements should be made in the term prior to registration.

**Prerequisite:** PSYC-200 with a minimum grade of C.

**PSYC-393. Seminar In The Teaching Of Psychology. 3 Hours.**

Introduces students to the theories and methods of post-secondary teaching as relevant to the field of psychology. Students participate with faculty in active teaching activities of an undergraduate psychology course.

**Prerequisite:** PSYC-200 with a minimum grade of C.

**PSYC-395. History Of Psychology. 3 Hours.**

Psychology as a science from Wundt to present day. The course examines systems and describes and evaluates theories.

**Prerequisite:** PSYC-302 with a minimum grade of C and PSYC-200 with a minimum grade of C.

**PSYC-396. Senior Seminar In Psychology. 3 Hours.**

Research and preparation of papers; provides for individual work by the student, and guidance through criticism by fellow students and faculty.

**Prerequisite:** PSYC-302 with a minimum grade of C and PSYC-200 with a minimum grade of C.

**PSYC-397. Capstone: Applied Service Learning Lab. 5 Hours.**

This capstone course meets the needs and interests of students wishing to seek careers in community settings. Students integrate psychology knowledge and apply it to real world situations and problems as they are immersed in hands-on, community-based learning experiences. Course activities include participation in an agency/institutional setting, reflections on these experiences, and interpretation via an academic/scholarly lens. Students work closely with both a peer-team and with members of a community organization. The capstone project requires on-site volunteer hours and the development and execution of a project specific to the site's needs and demands.

**PSYC-401. Gerontology: An Overview. 3 Hours.**

Presents an overview of the field of gerontology. It provides an introduction to the demographic, economic and social implications of the growth in the population of older individuals.

**PSYC-402. Developmental Processes In Later Life. 3 Hours.**

Examines research on how individuals age psychologically throughout adulthood and into advanced old age.

**Prerequisite:** PSYC-401 with a minimum grade of C.

**PSYC-403. Developmental Processes In Aging:Physiological Aspects. 3 Hours.**

In order to understand the aging individual, it is important to understand the normal and pathological physical changes that occur as the person ages. This course is intended to provide students of gerontology with this basic grounding in the physiology of aging and thus is aimed at graduate students with only minimal background in biology. Using a combination of text material and journal readings, it will cover the development changes in all the major biological systems.

**Prerequisite:** PSYC-401 with a minimum grade of C.

**PSYC-406. Aging And The Family. 3 Hours.**

Acquaints students with the research on the inter-generational roles on the nuclear, extended and non-traditional forms of 20th century families in providing physical, emotional, and financial support to members over the life-span in a society that has increasing numbers of three, four, and five generation families.

**Prerequisite:** PSYC-401 with a minimum grade of C.

**PSYC-408. Research Methods. 3 Hours.**

This course introduces research methods and methodological problems encountered in theoretical and applied studies in the field of gerontology and provides guidance in preparing research or program proposals.

**Prerequisite:** PSYC-402 with a minimum grade of C.

**PSYC-412. Psychopathology And Aging. 3 Hours.**

Enables students to differentiate between the psychological characteristics of normal aging in later life and those associated with psychopathology. Differences between chronic mental illness and late onset psychopathology are clarified. Questions of assessment and treatment for these populations are included.

**Prerequisite:** PSYC-401 with a minimum grade of C.

**PSYC-414. Psychotherapy Of The Elderly. 3 Hours.**

This course assists students interested in direct service to develop an awareness of the range of psycho-therapeutic modalities that are effective with elderly clients.

**Prerequisite:** PSYC-401 with a minimum grade of C.

**PSYC-415. Practicum In Gerontology. 3 Hours.**

A supervised practicum, typically 120 clock hours, is required of all students who lack formal experience in working directly with the elderly. It is also recommended for students who have previously worked with this population and whose career objectives make a different type of experience in another setting desirable.

**Prerequisite:** PSYC-402 with a minimum grade of C.

**PSYC-416. Internship In Gerontology. 3 Hours.**

This 120 clock hour supervised field work course is required of all students. Those with no prior experience in gerontology must complete PSYC-415 before registering for this course. The internship site varies according to the interests of the student. The faculty will determine the suitability of the site.

**Prerequisite:** PSYC-402 with a minimum grade of C.

**PSYC-418. Public Policy And Aging. 3 Hours.**

This course will examine major health care, social, and economic policies that affect the elderly. Students will learn to assess and understand the differential impact on life style and quality of life experienced in old age by individuals of various socioeconomic classes.

**Prerequisite:** PSYC-401 with a minimum grade of C.

**PSYC-420. Seminar In Proposal Writing. 3 Hours.**

This seminar covers the whole process of proposal writing as it applies to either grant or thesis proposals. Students are expected to produce an acceptable proposal as part of the course.

**Prerequisite:** PSYC-408 with a minimum grade of C.

**PSYC-424. Independent Study In Gerontology. 3 Hours.**

This course provides an opportunity to specialize in an area of interest not sufficiently covered in either the required or elective courses offered. The plan for independent study (the specific topic, list of possible readings, and plan for a final paper) must be approved in writing by the sponsoring faculty member in the term prior to registration.

**Prerequisite:** PSYC-402 with a minimum grade of C.

**PSYC-426. Values, Decision Making And The Elderly. 3 Hours.**

This course sensitizes students to their own and other's social and personal values pertain to aging and the aged. It covers the ethical issues and dilemmas that arise for the elderly, their advocates, and caretakers when age is a primary factor in making difficult decisions.

**Prerequisite:** PSYC-401 with a minimum grade of C.

**PSYC-428. Aging And Cultural Diversity In The U.S.. 3 Hours.**

This course familiarizes students with the literature and research-in-progress on variations in the process of aging, attitudes toward aging and the aged, and assistance provided to the aged among various major ethnic groups found in the United States.

**Prerequisite:** PSYC-401 with a minimum grade of C.

**PSYC-432. Meanings Of Old Age. 3 Hours.**

This course explores the range of external perceptions and personal experiences of old age and old people by comparing what research scholars say about aging with the writings of older people themselves. Societal ageism and personal beliefs about aging, old age and old people are considered.

**Prerequisite:** PSYC-401 with a minimum grade of C.

**PSYC-434. Aging Services Network. 3 Hours.**

This course examines the wide range of services and programs fostered by the Older American Act and referred to as the "aging network." Interviews with service providers and onsite observations give students an awareness of the issues involved in designing and implementing programs for older people.

**Prerequisite:** PSYC-401 with a minimum grade of C.

**PSYC-501. Human Developmental Science Core I. 3 Hours.**

This course is an overview of theories and research related to human development, with a focus on conception to adolescence. Students will examine the development of complex human behavior through interactions of the individual with the environment. Students will learn about procedures and methods that can be used to explain and study human behavior in different populations.

**PSYC-502. Human Developmental Science Core II. 3 Hours.**

This course is an overview of theories and research related to human development, with a focus on emerging adulthood to late adulthood. Students will examine the development of complex human behavior through interactions of the individual with the environment. Students will learn about procedures and methods that can be used to explain and study human behavior in different populations.

**Prerequisite:** PSYC-501 with a minimum grade of C.

**PSYC-509. Special Topics In Human Developmental Science. 3 Hours.**

This course is an advanced examination of contemporary topics in human developmental science. As a seminar class, topics will vary based on the expertise of the faculty teaching the class.

**PSYC-510. Research Design And Statistical Analysis I. 3 Hours.**

This course will provide students with basic principles of research design and statistical analysis in the areas of human development and behavior. Topics will include core experimental, correlational, and developmental research designs and the foundations and applications of regression and ANOVA. Use of computer-based statistical software packages for data analysis and interpretation is stressed.

**PSYC-511. Research Design And Statistical Analysis II. 3 Hours.**

This course will provide students with advanced principles of research design and statistical analysis in the areas of human development and behavior. Topics will cover contemporary research designs, specialized research methods, and advanced regression analysis. Use of computer-based statistical software packages for data analysis and interpretation is stressed.

**Prerequisite:** PSYC-510 with a minimum grade of C.

**PSYC-520. Values, Decision Making For Responsible Conduct In Research. 3 Hours.**

Students will learn about the ethics of research. Topics will include ethics related to both human and animal subjects research and ethics related to scientific misconduct in data management and presentation.

**PSYC-521. Research Colloquium. 1 Hour.**

Students will take two semesters of the research colloquium to actively engage in the research community of the Human Developmental Science program. Students will develop communication skills by presenting research findings that were previously published or reflective of their own body or work.

**Prerequisite:** PSYC-501 with a minimum grade of C or PSYC-502 with a minimum grade of C or PSYC-511 with a minimum grade of C.

**PSYC-5901. Thesis Hours. 1 Hour.**

This course involves guidance of students writing a master's thesis as part of the requirements for the MA. in Gerontology.

**Prerequisite:** PSYC-420 with a minimum grade of C.

**PSYC-5902. Thesis Hours. 2 Hours.**

See course description for PSYC-5901.

**Prerequisite:** PSYC-420 with a minimum grade of C.

**PSYC-5903. Thesis Hours. 3 Hours.**

See course description for PSYC-5901.

**Prerequisite:** PSYC-420 with a minimum grade of C.

# Public Health (PH)

---

## **PH-400. Introduction To Public Health. 3 Hours.**

In this course, students will be introduced to the profession and science of public health, inclusive of its history, philosophy, values, and roles. Students also will be introduced to the intersecting factors influencing human health and healthy equity including environmental, biological, genetic, behavioral, psychological, social, political, racism, and economic. With a particular focus on marginalized communities, students examine major trends of morbidity and mortality, explain the role of prevention, and compare the US's and other countries' health care systems. Instruction recognizes students' lived experiences and insights and integrates these into discussions and other exercises that promote critical thinking and analysis.

## **PH-405. Social And Behavioral Health Theory. 3 Hours.**

This course will cover theories of social and behavioral health and their application to the assessment, implementation, and evaluation of public health initiatives. In this course students will learn how to implement health behavior interventions that use intrapersonal, interpersonal, and ecological/community theories and models to create positive health behavior changes within individuals, communities, and societies. The assessment, implementation, and evaluation of health behavior interventions will focus particularly on marginalized communities with specific and ongoing attention to the intersections they experience including, but not limited to, race, ethnicity, sexuality, socio-economic position, gender, age, trauma, ability and location.

**Requirement:** Accepted to the MPH program or Program coordinator approval.

## **PH-410. Epidemiology. 3 Hours.**

This course provides a foundation in the occurrence, distribution, and determinants of health, diseases, injuries, disability, and mortality in populations. Content includes epidemiological measurements and study designs, their key ethical issues, and their relationship to disease prevention, treatment, and control. Students examine the social, behavioral, and psychological determinants of vulnerability to disease among groups classified by race, ethnicity, sexuality, gender, socio-economic position, gender, age, ability, and location, as well as the intersections of these classifications. Students also practice strategies for designing and supporting public policies that appropriately and effectively promote health in the communities where they live.

## **PH-415. Biostatistics. 3 Hours.**

This course provides an introduction to statistical methods with a focus on public health. Topics include collection, summarization, and analysis of data and the interpretation of and inferences from results. It will include analyses of data that demonstrate how bias affects marginalized communities, with specific and ongoing attention to the intersections they experience including, but not limited to race, ethnicity, sexuality, socio-economic position, gender, age, trauma, ability and location. Students will study current research articles to develop their ability to distinguish bias in data collection, data analysis, and resulting government policy. The course includes a project focusing on health disparities.

**Requirement:** Accepted to the MPH program or Program coordinator approval.

## **PH-420. Environmental Health. 3 Hours.**

This course addresses topics in Environmental Health as they relate to public health. Students develop the knowledge to discuss topics such as air quality; water quality; food safety; risk assessment; indoor health; vector and pest management; and the management of chemical, biological, and physical environmental agents. The context will focus on marginalized communities with specific and ongoing attention to the intersections they experience including, but not limited to, race, ethnicity, sexuality, socio-economic position, gender, age, trauma, ability and location. This will be accomplished through case analyses and with the goal to advocate for equity and justice in legislation and policy.

**Requirement:** Accepted to the MPH program or Program coordinator approval.

## **PH-425. Global Health. 3 Hours.**

This course uses a multidisciplinary approach to discuss the major underlying determinants of poor health. Students will be introduced to the evolution of modern approaches, the setting of global health priorities, the functions and roles of global health systems, and an overview of current global health practices. Students will explore the factors shaping the global distribution of disease and their connection with issues of social, economic, and political development. Students will also consider the impacts of globalization, climate change, and other environmental factors on health risks and availability of health resources.

## **PH-430. Health Literacy & Health Communications. 3 Hours.**

In this course, students critically examine the implications of health literacy on health and health outcomes and the role of health communication in helping individuals and populations to access, obtain, understand and act on health information. Students will develop skills in conducting a needs assessment; identifying communication goals, objectives, and strategies; designing and testing messages and materials; and developing an implementation and evaluation plan. Central to this process is the accurate measurement of literacy and sensitivity to marginalized communities, with specific and ongoing attention to the intersections they experience including, but not limited to, race, ethnicity, sexuality, socio-economic position, gender, age, trauma, ability and location.

## **PH-440. Health Disparities & Health Advocacy. 3 Hours.**

This course provides students with the theoretical applications to conduct research and to identify the primordial, historical, and contemporary sources of health disparities in the United States and around the world. Content focuses on how health disparities are defined, their prevalence, why and among whom they exist, issues and methods of measurement, and approaches to addressing them. Students learn why scholars and practitioners describe health disparities as unnecessary, avoidable, and unfair. Using multidisciplinary, multisectoral, and culturally-appropriate approaches, students will develop advocacy strategies to target and eliminate health disparities.

**PH-450. Health Care Program And Services Administration. 3 Hours.**

This course is designed to develop skills in healthcare program and services administration, including organizational structures, management styles and challenges in public health and healthcare organizations. Students will practice how to successfully manage change, appropriately solve problems, and make ethical decisions with consideration for social determinants of health. Examples will focus on marginalized communities with specific and ongoing attention to the intersections they experience including, but not limited to, race, ethnicity, sexuality, socio-economic position, gender, age, trauma, ability and location. Achieving quality outcomes through planning, organizing, administering, managing, and evaluating public health policy is integral to this course.

**PH-460. Design And Development Of Public Health Programs. 3 Hours.**

This course develops public health program planning, management, and evaluation skills. Planning activities include conducting a needs assessment, setting goals and objectives, selecting intervention strategies, and building an implementation timeline. Management activities include preparing a budget and developing a marketing plan. Evaluation activities include establishing program performance standards and developing an evaluation plan. Emphasis will be placed on evidence-based approaches to reduce health disparities among marginalized communities with specific and ongoing attention to the intersections they experience including, but not limited to, race, ethnicity, sexuality, socio-economic position, gender, age, trauma, ability and location.

**Prerequisite:** PH-400 with a minimum grade of C.

**PH-470. Research Methods In Public Health. 3 Hours.**

This course will cover all aspects of conducting qualitative and quantitative research in the social sciences. Students will learn how to collect and interpret data in an ethical and diversity-sensitive manner. The assessment, implementation, and evaluation of research-related processes and outcomes will include discussion of the general public as well as marginalized communities with specific and ongoing attention to the intersections they experience including, but not limited to, race, ethnicity, sexuality, socio-economic position, gender, age, trauma, ability and location. Students will learn about the proper reporting of data, the accurate interpretation of findings, and the use of ethical inferential procedures.

**Prerequisite:** PH-400 with a minimum grade of C.

**PH-480. Internship I. 3 Hours.**

This course is a mentored learning experience that serves as a bridge between public health training and practice. During the internship, students complete a site-based project related to one or more core areas of public health and with a focus on marginalized communities and the intersections they experience including, but not limited to, race, ethnicity, sexuality, socio-economic position, gender, age, trauma, ability and location. In addition to the project, the course includes coaching meetings, ongoing self-assessment and reflection, synthesis of professional ethics, collaborative and peer-driven problem-solving, and case-based learning exercises that require critical analysis, systems-based thinking, and transformative approaches.

**PH-485. Internship II. 3 Hours.**

This course is an expansion of Internship I, a mentored learning experience that serves as a bridge between public health training and practice. This course includes additional field experience hours and professional development exercises and opportunities. Internship I and II can be taken in the same semester if it can be clearly established that the student has time for the extended commitment and that the field experience site and site supervisor have the capacity and interest to support this commitment. Department, program, and academic advisor approval are required.

**PH-490. Capstone. 3 Hours.**

This course is an individualized, mentored, culminating learning experience to support students in synthesizing and integrating their public health coursework. Guided by evidence-based approaches, students conduct mixed-method research to identify community health needs, assets, and resources. Students present their findings in ways that reveal a deep understanding of public health functions, an ecological perspective of health, and a capacity to be competent, reflective, collaborative, transformative, and ethical public health researchers, practitioners, and managers. Students also participate in a self-study project during which they examine and reflect on their career interests, personal values, and experiential capital.

**PH-498. Public Health Independent Research Project. 3 Hours.**

This course is for students majoring in public health who choose to fulfill graduation requirements via an approved Independent Study. Directed research, analysis, and presentation of a research paper on an important topic in public health are the focus of the course.

**PH-503. Human Sexuality And Sex Education. 3 Hours.**

This course provides a basic foundation in the area of human sexuality and sex education. In addition to acquiring knowledge in anatomy, pregnancy, childbirth, contraception, sexually transmitted infections, and relationships, students also will examine the evolutionary factors, historical foundations, and contemporary influences on human sexuality and sex education. Students will locate and interpret health data and information, evaluate policy, reflect on personal beliefs, develop educational interventions, and acquire the skills to act as a resource person and advocate for science-based instruction and policies.

**PH-519. Substance Use And Abuse Education. 3 Hours.**

This course is an introduction to substance use and abuse including the role of and effects on human behavior, the neurobiology and complexity of addiction, the impact on health and society, historical foundations and outcomes of substance use laws, and the influence of religion, politics, and other factors on substance use, abuse, and perceptions. Students will locate and interpret health data and information, evaluate policy, reflect on personal beliefs, develop educational interventions, and acquire the skills to act as a resource person.

**PH-523. Mental Health Education And Promotion. 3 Hours.**

This course develops knowledge and competencies related to mental health, education, and promotion. Learners gain insight into the factors that impact mental health across the lifespan, including historical, environmental, biological, genetic, behavioral, psychological, cultural, sociological, political, and economic. Learners administer a community-level mental health assessment, develop culturally and linguistically appropriate mental health curricula, evaluate mental health promotion interventions, and advocate for transformative mental health policies, programs, and services. They also conduct a self-care self-study, examine personal dispositions, and create personal and professional action plans. Cultural humility, ethical practices, and ecological approaches are emphasized throughout.

**PH-555. Organization And Administration Of School Health. 3 Hours.**

This course provides foundational content and builds skills related to the organization and administration of school health. Emphasis is placed on the factors that contribute to a healthy school environment and the social determinants that impact PK-12th grade students' motivation and ability to learn. Learners interpret data to identify school health needs; conduct a personal inventory; make plans to engage stakeholders in the formation of a school health council; select and use sources to advocate for school health; interpret and analyze school health policies; design and develop school health initiatives; and prepare to become a school health leader.

**PH-564. Theories And Concepts Of School Health Education. 3 Hours.**

This course provides foundational knowledge about effective school health education curricula, health behavior theories, health education standards, the whole child approach, risk and protective factors, and the multidimensionality of health. Students practice assessing learners' needs, applying principles of learning towards curriculum design, employing instructional strategies to engage learners, utilizing multiple methods of assessment, and cultivating an inclusive classroom environment. Students also analyze the role of the health education teacher as a resource person; consider professional and ethical issues in health education; and make plans for ongoing professional development.

# Reading (READ)

---

## Courses

### **READ-096. Developmental Reading Workshop I. 3 Hours.**

(Does not count toward graduation or GPA calculation.) This course is designed to meet the needs of those students who need to improve their English reading comprehension. Active reading of English is promoted through intensive reading, vocabulary development, conversation and writing. Reading for meaning is emphasized. Understanding the importance of intercultural communications and understanding the relationship between language and culture is developed. Registration is by placement exam.

**Prerequisite:** Accuplacer Reading Comp with a score of 020.

### **READ-097. Developmental Reading Workshop II. 3 Hours.**

(Does not count toward graduation or GPA calculation.) This course is designed to meet the needs of those students who have English language proficiency and need to further develop their reading comprehension. Advanced reading skills such as interpretation, inference, critical analysis, evaluation, application, author style and tone are emphasized in order to improve comprehension of more complex literary genres, including content-specific materials. Registration is by placement exam or permit.

**Prerequisite:** Accuplacer Reading Comp with a score of 051 or READ-115 with a minimum grade of C or READ-096 with a minimum grade of RC.

### **READ-115. ESL Reading Workshop I. 3 Hours.**

Open only to English Language Learners (ELLs). This course is designed to guide ELLs in making the transition from academic reading in their native language to reading basic academic English. The core of the course focuses on building active reading skills through intensive reading aimed at improving English reading comprehension, vocabulary development and intercultural considerations as they apply to academic works' genre, style and organization. Registration by permit only.

### **READ-116. ESL Reading Workshop II. 3 Hours.**

Open only to English Language Learners (ELLs). This course is designed to continue building advanced English language reading proficiency through intensive instruction in interpretation, inference, critical analysis, evaluation, application, author style and tone, and technical and literary terminology across more complex literary genres and content-specific materials. Registration by permit only.

### **READ-117. Vocabulary Enrichment. 3 Hours.**

Designed to meet the needs of students who wish to enhance their vocabulary to promote success in reading college text and work-related materials. Strategies for coping with unfamiliar words in text are emphasized. Registration by permit only.

# Recreation Management (RECR)

---

## Courses

**RECR-201. Principles And Practices Of Recreation And Leisure. 3 Hours.**

Development of the recreation movement relative to leisure time. Emphasis on the principles and practices relative to a recreation and leisure program.

**RECR-202. Camping And Outdoor Recreation. 3 Hours.**

Present status, purposes and organization administration of outdoor recreation programs for public, voluntary and commercial agencies. Organization and administration of camps; program planning and staffing; health and safety.

**RECR-203. History And Philosophy Of Leisure. 3 Hours.**

**RECR-204. Leisure, Culture And Society. 3 Hours.**

The relationship of social structure to leisure; the impact of leisure on values; recreation as a social and socializing leisure activity. Comparative studies of leisure, leisure values and leisure activities in different culture and sub-cultures.

**RECR-205. Introduction To Travel And Tourism. 3 Hours.**

**RECR-206. Commercial Recreation. 3 Hours.**

**RECR-302. Leisure Economics. 3 Hours.**

Leisure phenomena and the work ethic; the impact of leisure on the economy; the economic significance of discretionary time, discretionary income and discretionary values.

**RECR-303. Recreation And Leisure Facilities. 3 Hours.**

**RECR-304. Organization And Administration Of Leisure Programs. 3 Hours.**

An examination of the organization and administration of recreation and leisure programs in public and private agencies. Included will be an emphasis on personnel, programs, evaluation, finance and liability.

**RECR-305. Commercial Recreation Attractions And Facilities. 3 Hours.**

**RECR-306. Development Of The Recreation Resource. 3 Hours.**

**RECR-320. Leisure Studies Internship And Seminar. 12 Hours.**

# **Russian (RUSS)**

---

# Secondary Education (SCED)

---

## Courses

### **SCED-301. Writing Intensive Program:Methods Of Teaching On The Secondary Level. 3 Hours.**

This course prepares students to become professional secondary educators by examining theories and methods of effective teaching, including: selecting, organizing, and using materials and methods common to varied subject areas in the secondary schools to meet individual student needs, including the needs of exceptional children; developing and writing of lesson plans and unit plans; facilitating class discussion; and managing discipline.

**Prerequisite:** EDFN-305 with a minimum grade of C and EDFN-306 with a minimum grade of C and College of Education Admission with a score of Y and ENGL-101 with a minimum grade of C.

### **SCED-303A. Contemporary Art Education In The Secondary School. 3 Hours.**

Designed to develop inquiry and understanding of many problems of communicating or teaching art in the secondary school. Emphasis on planning and methodology to meet individual student needs, including needs of exceptional students. To be taken before student teaching in the Spring semester.

**Prerequisite:** College of Education Admission with a score of Y.

**Corequisite:** SCED-304A.

### **SCED-303E. Methods Of Teaching English In The Secondary School. 3 Hours.**

Introduction to the methods, techniques and materials for teaching English in secondary school. Emphasis on planning and methodology to meet individual student needs, including needs of exceptional students. To be taken with SCED-304E.

**Prerequisite:** SCED-301 with a minimum grade of C and College of Education Admission with a score of Y.

### **SCED-303F. Teaching Modern Foreign Languages In The Secondary School. 3 Hours.**

Introduction to the methods, techniques and materials for teaching foreign languages in the secondary school. Emphasis in on mastery of selected skills on a performance basis and meeting individual student needs. Prior to taking methods in foreign language ( SCED-303F ), students must score an "Advanced Low" or higher rating on the Oral Proficiency Interview (OPI).

**Prerequisite:** College of Education Admission with a score of Y.

**Corequisite:** SCED-304F.

### **SCED-303H. Methods Of Teaching History In The Secondary School. 3 Hours.**

Demonstration of specific organizational patterns and teaching methods in history, teaching for critical thinking and trends in the teaching of history. Emphasis on planning and methodology to meet individual student needs, including needs of exceptional students. To be taken with SCED-304H.

**Prerequisite:** SCED-301 with a minimum grade of C and College of Education Admission with a score of Y.

### **SCED-303I. Methods And Techniques Of Teaching Music In Secondary School:Instrumental. 3 Hours.**

Methods and materials utilized in teaching instrumental ensemble classes in middle and high schools; emphasis upon performance based instructional design and rehearsal strategies to meet individual student needs, music literacy, methods of reading, and reading in the content area in instrumental music.

**Prerequisite:** MUS-391 with a minimum grade of C and SCED-311 with a minimum grade of C and College of Education Admission with a score of Y.

### **SCED-303M. Methods Of Teaching Mathematics In The Secondary School. 3 Hours.**

Strategies for teaching concepts, principles and mathematical skills. Emphasis on problem solving, proof and planning and methodology to meet individual student needs, including needs of exceptional students. To be taken with SCED-304M.

**Prerequisite:** SCED-301 with a minimum grade of C and College of Education Admission with a score of Y.

**Corequisite:** SCED-304M.

### **SCED-303R. Materials And Methods For Teaching High School Science. 3 Hours.**

Interpretation of the content and structure of those areas of natural sciences generally included in secondary school curricula; recent developments in curriculum organization and teaching materials; methods of teaching in the classroom and laboratory, including team teaching and other individualized guided study programs. Emphasis on planning and methodology to meet individual student needs, including needs of exceptional students. Offered during Fall term only.

**Prerequisite:** SCED-311 with a minimum grade of C.

### **SCED-303V. Methods And Techniques Of Teaching Music In Secondary Schools:Vocal. 3 Hours.**

Methods and materials utilized in teaching vocal ensemble and general music classes in middle and high schools; emphasis upon performance based instructional design and rehearsal strategies to meet individual student needs, music literacy, methods of reading, and reading in the content area in vocal music.

**Prerequisite:** MUS-391 with a minimum grade of C and SCED-311 with a minimum grade of C and College of Education Admission with a score of Y.

### **SCED-304A. Clinical Experiences In The Secondary School:Art. 1 Hour.**

A supervised clinical experience designed with less emphasis on observational experiences and more on direct involvement in the instructional process. Requires experience with broad range of students, including exceptional students. To be taken with the academic methods course, SCED-303A.

**Prerequisite:** College of Education Admission with a score of Y.

**Corequisite:** SCED-303A.

**SCED-304B. Clinical Experiences In The Secondary School: Biology. 1 Hour.**

A supervised clinical experience designed with less emphasis on observational experiences and more on direct involvement in the instructional process. Requires experience with a broad range of students, including exceptional students. To be taken with the academic methods course SCED-303R.

**Prerequisite:** College of Education Admission with a score of Y.

**Corequisite:** SCED-303B.

**SCED-304E. Clinical Experiences In The Secondary School: English. 1 Hour.**

A supervised clinical experience designed with less emphasis on observational experiences and more on direct involvement in the instructional process. Requires experience with a broad range of students, including exceptional students. To be taken with the academic methods course, SCED-303E.

**Prerequisite:** College of Education Admission with a score of Y.

**Corequisite:** SCED-303E.

**SCED-304F. Clinical Experiences In The Secondary School: French. 3 Hours.**

Score of Advanced Low or higher on OPI.

**Prerequisite:** College of Education Admission with a score of Y.

**Corequisite:** SCED-303F.

**SCED-304H. Clinical Experiences In The Secondary School: History. 1 Hour.**

A supervised clinical experience designed with less emphasis on observational experiences and more on direct involvement in the instructional process. Requires experience with a broad range of students, including exceptional students. To be taken with the academic methods course, SCED-303H.

**Prerequisite:** College of Education Admission with a score of Y.

**Corequisite:** SCED-303H.

**SCED-304J. Foreign Language Clinical Experience In The Secondary School. 1 Hour.**

A supervised clinical experience designed with less emphasis on observational experiences and more on direct involvement in the instructional process. Requires experience with a broad range of students, including exceptional students. To be taken with the academic methods course, SCED-303F.

**Prerequisite:** SCED-311 with a minimum grade of C.

**Corequisite:** SCED-303F.

**SCED-304M. Clinical Experiences In The Secondary School: Mathematics. 1 Hour.**

A supervised clinical experience designed with less emphasis on observational experiences and more on direct involvement in the instructional process. Requires experience with a broad range of students, including exceptional students. To be taken with the academic methods course, SCED-303M.

**Prerequisite:** College of Education Admission with a score of Y.

**Corequisite:** SCED-303M.

**SCED-305A. Secondary Student Teaching And Seminar In Art. 9 Hours.**

Sixteen weeks of full-day student teaching providing practical teaching experience in one or more levels of secondary school art. Supervised by secondary school personnel and a university supervisor, who conducts a weekly two-hour seminar associated with student teaching. Requires experience with a broad range of students, including exceptional students. To be taken during Spring semester.

**Prerequisite:** SCED-301 with a minimum grade of C and SCED-303A with a minimum grade of C and Illinois Content Area Test with a score of P.

**SCED-305B. Secondary Student Teaching And Seminar In Biology. 9 Hours.**

Sixteen weeks of full-day student teaching providing practical teaching experience in one or more levels of secondary school biology. Supervised by secondary school personnel and a university supervisor, who conducts a weekly two-hour seminar associated with student teaching. Requires experience with a broad range of students, including exceptional students.

**Prerequisite:** SCED-301 with a minimum grade of B and Illinois Content Area Test with a score of P.

**SCED-305E. Secondary Student Teaching And Seminar In English. 9 Hours.**

Sixteen weeks of full-day student teaching providing practical teaching experience in one or more levels of secondary school English. Supervised by secondary school personnel and a university superior who also conducts a weekly two-hour seminar associated with student teaching. Requires experience with a broad range of students, including exceptional students.

**Prerequisite:** Illinois Content Area Test with a score of P and College of Education Admission with a score of Y.

**SCED-305F. Secondary Student Teaching And Seminar In French. 9 Hours.**

Sixteen weeks of full-day student teaching providing practical teaching experience in secondary school foreign language. Supervised by secondary school personnel and a university supervisor, who conducts a weekly seminar associated with student teaching. Requires experience with a broad range of students, including those with exceptionalities.

**Prerequisite:** SCED-303F with a minimum grade of B and SCED-304J with a minimum grade of C and Illinois Content Area Test with a score of P.

**SCED-305H. Secondary Student Teaching And Seminar In History. 9 Hours.**

Sixteen weeks of full-day student teaching providing practical teaching experience in one or more levels of secondary school history. Supervised by secondary school personnel and a university supervisor who also conducts a weekly two-hour seminar associated with student teaching. Requires experience with a broad range of students, including exceptional students.

**Prerequisite:** Illinois Content Area Test with a score of P and College of Education Admission with a score of Y.

**SCED-305J. Secondary Student Teaching And Seminar In Spanish. 9 Hours.**

Sixteen weeks of full-day student teaching providing practical teaching experience in secondary school foreign language. Supervised by secondary school personnel and a university superior, who conducts a weekly two-hour seminar associated with student teaching. Requires experience with a broad range of students, including exceptional students.

**Prerequisite:** Illinois Content Area Test with a score of P and SCED-304J with a minimum grade of C.

**SCED-305K. Secondary Student Teaching And Seminar - Health Education. 12 Hours.**

Sixteen weeks of full-day student teaching providing practical teaching experience in secondary school health education. Supervised by secondary school personnel and a university supervisor, who conducts a weekly seminar associated with student teaching. Requires experience with a broad range of students, including those with exceptionalities.

**Prerequisite:** SCED-301 with a minimum grade of C and HLED-304 with a minimum grade of C and HLED-305 with a minimum grade of C and HLED-302 with a minimum grade of C.

**SCED-305M. Secondary Student Teaching And Seminar In Mathematics. 9 Hours.**

Sixteen weeks of full-day student teaching providing practical teaching experience in one or more levels of secondary school mathematics. Supervised by secondary school personnel and a university supervisor who also conducts a weekly two-hour seminar associated with student teaching. Requires experience with a broad range of students, including exceptional students.

**Prerequisite:** SCED-301 with a minimum grade of C and Illinois Content Area Test with a score of P and College of Education Admission with a score of Y.

**SCED-305N. Secondary Student Teaching And Seminar In Music. 9 Hours.**

Sixteen weeks of full-day student teaching providing practical teaching experience in K-12 school music. Supervised by K-12 school personnel and a university supervisor, who conducts a weekly two-hour seminar associated with student teaching. Requires experience with a broad range of students, including exceptional students.

**Prerequisite:** SCED-301 with a minimum grade of C and SCED-303I with a minimum grade of C and SCED-303V with a minimum grade of C and SCED-311 with a minimum grade of C and Illinois Content Area Test with a score of P.

**SCED-305P. Secondary Student Teaching And Seminar In Physical Education. 12 Hours.**

Participation in directing learning experiences in secondary physical education at several levels under the supervision of one or more regularly assigned secondary teachers; observation of experienced teachers; familiarization with the daily program of the secondary school; weekly two-hour seminar and critique. Requires experience with a broad range of students, including exceptional students. (full-day, Spring term).

**Prerequisite:** SCED-301 with a minimum grade of C and PEMA-344 with a minimum grade of C and Illinois Content Area Test with a score of P.

**SCED-311. Writing Intensive Program: School Curriculum. 3 Hours.**

Designed for students in Physical Education, Health, Music, Visual Arts, World Languages, and Special Education, this course prepares students to develop and implement curriculum. Focal topics include objectives, unit planning, lesson planning, classroom management, higher order thinking, interdisciplinary collaboration, developmental considerations, and assessment techniques. Specific emphases include strategies for differentiating effectively to meet the needs of academically, culturally, and experientially diverse learners in mainstream classrooms.

**Prerequisite:** EDFN-305 with a minimum grade of C and ENGL-101 with a minimum grade of C and EDFN-306 with a minimum grade of C and EDFN-307 with a minimum grade of C and College of Education Admission with a score of Y.

**SCED-315. Teaching Writing In Junior And Senior High School. 3 Hours.**

This course covers the teaching of writing in the intermediate and upper grades. Mini-lesson design and placement, methods and strategies for teaching sentence completeness, for teaching sentence structure, and for punctuation and capitalization are covered. In addition, students will learn methodology that will be useful and effective with writing genres (e.g. expository, descriptive) and the research paper. The assessment of writing (e.g. rubrics, conferencing, portfolios) approaches for language-and-dialect different learners, and uses of technology in writing instruction. Finally, program issues are approached: the development of writer's workshop, and writing across the curriculum.

**Prerequisite:** College of Education Admission with a score of Y.

**SCED-401E. New Directions In Teaching English In The Junior And Senior High School. 3 Hours.**

Designed for the in-service teacher of middle-secondary school English; study and discussion of new perspectives for the school English program growing out of the reform effort of the past decade.

**SCED-402E. Methods Of Teaching English Language Arts In Secondary Schools. 3 Hours.**

This course is the first of two discipline-specific English Language Arts methods courses. In this course, candidates will explore conceptual, curricular, and pedagogical aspects of teaching English Language Arts in secondary schools. Topics include text selection, differentiation, assessment, and strategies for teaching literature and writing in diverse classrooms.

**SCED-402H. Methods Of Teaching History And Social Sciences In Secondary Schools. 3 Hours.**

This course is the first of two discipline-specific history methods courses. In this course, candidates will explore conceptual, curricular, and pedagogical aspects of teaching history and the social studies in secondary schools. Topics include materials selection, differentiation, assessment, and strategies for teaching history and the social studies in diverse classrooms.

**SCED-402M. Methods Of Teaching Mathematics In Secondary Schools. 3 Hours.**

This course is the first of two mathematics methods courses for prospective secondary mathematics teachers. It examines goals, materials, and methods of instruction and assessment suitable for teaching mathematics to diverse students in middle and high school classrooms. The course will emphasize strategies that promote the development of students' conceptual understanding, procedural fluency, mathematical reasoning and problem solving skills, and their appreciation of mathematics.

**SCED-402S. Methods Of Teaching Science In Secondary Schools. 3 Hours.**

This course is the first science methods course in the SCED MAT/Teacher Licensure program sequence. It explores the interpretation of the content and structure of those areas of natural science generally included in secondary school curricula, recent developments in curriculum organization and teaching materials, and methods of teaching in the classroom and laboratory, including team teaching and other individualized guided study programs. The course emphasizes planning and methodology to meet individual student needs, including the needs of exceptional students.

**SCED-403E. New Directions In Teaching English Language Arts In Secondary Schools. 3 Hours.**

This course is the second discipline-specific course in the SCED MAT/Teacher Licensure program sequence. Study and discussion will focus on an exploration of recent trends and innovations in teaching English Language Arts, including, but not limited to, examination of Common Core State Standards, exploration of 21st Century literacies in the ELA classroom, strategies for teaching English Language Arts in linguistically diverse classrooms, and sustained practice in considering and developing the roles of reading, writing, speaking, listening, language, media, and critical theory in teaching.

**Prerequisite:** SCED-402E with a minimum grade of B and SCED-415 with a minimum grade of B.

**Corequisite:** SCED-404E.

**SCED-403H. New Directions In Teaching History In The Secondary Schools. 3 Hours.**

This course is the second discipline-specific course in the SCED MAT/Teacher Licensure program sequence. In this course, candidates explore key themes related to teaching history, including organizational patterns and teaching methods in history, teaching history for critical thinking, intellectual and practical challenges related to the teaching of history, strategies for teaching history in culturally and linguistically diverse classrooms, and links between theoretical perspectives and practical methodology of teaching history at the secondary level. After completing this course candidates should be able to creatively plan, implement, and assess teaching and learning for culturally and educationally diverse student populations.

**Prerequisite:** SCED-402H with a minimum grade of B.

**Corequisite:** SCED-404H.

**SCED-403M. New Directions In Teaching Mathematics In Secondary Schools. 3 Hours.**

This course is the second mathematics methods course for prospective secondary mathematics teachers. It focuses on an exploration of recent trends, issues, and innovations in mathematics teaching, including strategies for teaching mathematics in culturally and linguistically diverse contexts. It engages candidates in the study of methods of instruction that foster mathematical understanding, mathematical habits of mind, and a positive disposition towards mathematics. Students will concurrently participate in a 70 hour clinical experience where they will observe and apply these methods in secondary mathematics classrooms.

**Prerequisite:** SCED-402M with a minimum grade of B.

**Corequisite:** SCED-404M.

**SCED-403S. New Directions In Teaching Science In Secondary Schools. 3 Hours.**

This course is the second science methods course for prospective secondary science teachers. The course focuses on an exploration of recent trends, issues and innovations in science teaching and engages candidates in the study of methods of instruction that foster scientific understanding, scientific reasoning, and a positive disposition towards science among culturally and linguistically diverse students. Candidates will concurrently participate in a 70-hour clinical experience where they will observe and apply these methods in science classrooms.

**Prerequisite:** SCED-402S with a minimum grade of B.

**Corequisite:** SCED-404S.

**SCED-404E. Clinical Experience In Secondary Schools: English Language Arts. 1 Hour.**

This course is a supervised clinical experience designed with less emphasis on observational experiences and more on direct involvement in the instructional process. It requires experience with a broad range of students, including exceptional students. It is taken concurrently with the academic methods course SCED-403E: New Directions in Teaching English Language Arts in Secondary Schools.

**Prerequisite:** SCED-415 with a minimum grade of B and SCED-402E with a minimum grade of B.

**Corequisite:** SCED-403E.

**SCED-404H. Clinical Experiences In Secondary Schools: History. 1 Hour.**

This course is a supervised clinical experience designed with less emphasis on observational experiences and more on direct involvement in the instructional process. It requires experience with a broad range of students, including exceptional students.

**Prerequisite:** SCED-415 with a minimum grade of B and SCED-402H with a minimum grade of B.

**Corequisite:** SCED-403H.

**SCED-404M. Clinical Experience In Secondary Schools: Mathematics. 1 Hour.**

This course is a supervised clinical experience designed with less emphasis on observational experiences and more on direct involvement in the instructional process. It requires experience with a broad range of students, including exceptional students.

**Prerequisite:** SCED-415 with a minimum grade of B and SCED-402M with a minimum grade of B.

**Corequisite:** SCED-403M.

**SCED-404S. Clinical Experiences In Secondary Schools: Science. 1 Hour.**

This course is a supervised clinical experience designed with less emphasis on observational experiences and more on direct involvement in the instructional process. It requires experience with a broad range of students, including exceptional students.

**Prerequisite:** SCED-415 with a minimum grade of B and SCED-402S with a minimum grade of B.

**Corequisite:** SCED-403S.

**SCED-407A. Teaching Multicultural Young Adult Literature In The Secondary School With Clinical Experience. 3 Hours.**

This course for pre-service secondary English teachers will emphasize curricular design and instructional techniques for selecting and using multicultural young adult (YA) literature in a well-rounded English Language Arts curriculum. Students will read and analyze a wide range of award-winning multicultural YA fiction, non-fiction, and poetry and will develop curriculum for middle and high school students, using YA and canonical multicultural literature. Students will also complete a concurrent, supervised clinical experience of at least 50 clock hours in a secondary English classroom. Prerequisites: Full admission into the MAT: Language Arts--Secondary Program. Apply to CEST Office for placement at least one year in advance.

**SCED-407B. Teaching Multicultural Literature In Middle And Secondary Schools Without Clinical Experience. 3 Hours.**

Designed for middle school and secondary school teachers who have limited knowledge and experience in teaching ethnic minority literature. The course will emphasize curriculum design, teaching techniques and the assessment of appropriate instructional resources. The ultimate purpose of the course is to enable teachers to integrate effectively the multi-ethnic literary experience into traditional literature programs.

**SCED-408. The Nature Of Mathematical Abilities In School Children. 3 Hours.**

An exploration of mathematical learning by all students (K-12), with emphasis on the processes used by exceptional students. The differences that are shown by these students when doing mathematics will be examined, and with this information the class will focus on teaching practices that are most appropriate to these student's needs.

**SCED-409. Teaching Mathematical Problem Solving In The Secondary Schools. 3 Hours.**

An examination of the logical understanding of mathematical problem solving with emphasis on improving competence in teaching problem solving to secondary students; includes theoretical study, preparation of materials, and observations and demonstrations in the teaching of problem solving.

**SCED-410. Computers In The Teaching Of Secondary School Mathematics. 3 Hours.**

A computer application course, using BASIC, designed for teachers of secondary school mathematics. Examples from algebra, geometry, trigonometry, number theory, and probability and statistics will serve as the basis for programming activities. Strategies for effectively using the computer and computer software in the teaching of mathematics will be discussed.

**SCED-415. Introduction To Secondary School Curriculum. 3 Hours.**

Candidates taking this course will develop skills in and strategies for curriculum planning and delivery, with emphasis on meeting urban students' diverse needs. Taken concurrently with EDFN-415, the course will help candidates consider the relationships among subject-area practices, teacher beliefs, learner characteristics, school and community contexts, and other influences on teaching (e.g., educational research, accreditation processes, standards implementation, standardized testing, etc.). Candidates will examine how these relationships impact classroom practice and will apply their understandings by collaborating with peers seeking licensure in different subject areas to develop a critical, interdisciplinary unit of curriculum for students in a specific context.

**Corequisite:** EDFN-415.

**SCED-421. Research In Teaching In Middle And Secondary Schools. 3 Hours.**

This course is the culminating course in candidates' MAT sequence, and is designed to acquaint candidates with research on contemporary trends in teaching. Candidates will critically appraise and discuss classical and contemporary studies in disciplinary and interdisciplinary teaching to identify specific strategies useful in classroom practice. Candidates will examine the role of classroom research in planning, implementing, and assessing the impact of instructional strategies and have the opportunity for individual in-depth study of specific areas related to their needs and interests. This course reinforces candidates' professional literacy and writing skills as related to reading, reviewing, and writing about research.

**Prerequisite:** SCED-404E with a minimum grade of B or SCED-404M with a minimum grade of B or SCED-404S with a minimum grade of B or SCED-404H with a minimum grade of B.

**SCED-429. Student Teaching In Secondary Schools. 6 Hours.**

This course is a capstone course for candidates who plan to teach in grades 6-12. It includes sixteen weeks of full-day student teaching under the supervision of school and university personnel. Candidates will synthesize and apply principles of effective instruction, reflective practice, and culturally responsive teaching in a secondary school setting.

**Corequisite:** SCED-430.

**SCED-430. Student Teaching Seminar: Reflection And Assessment Of Student Learning. 3 Hours.**

In this seminar, candidates will reflect upon their student teaching experiences and examine their impact on student learning. Candidates will prepare formal curricular materials, evaluate their classroom pedagogy, and analyze trends in individual and collective student performance. Additional topics for discussion include classroom management strategies, collaborating with peers, engaging with parents, completing state licensure procedures, and the job search. This course requires co-enrollment in SCED-429: Student Teaching.

**Corequisite:** SCED-429.

**SCED-431. Integrating Engineering, Robotics, And AI In STEM Teaching. 3 Hours.**

This graduate-level course prepares preservice and in-service middle and high school science and math teachers to navigate the exciting intersection of engineering, robotics, and artificial intelligence (AI) within STEM education. Participants will dive into theoretical concepts and apply them through modeling projects, such as building robots and coding them for an instructional purpose, to grasp how these advanced technologies enhance educational settings. The goal of this course is to empower teachers to integrate these innovations into their curriculums, leveraging constructivism, project-based learning, and inquiry-based instruction to prepare students for the 21st-century workforce.

# Social Work (SWK)

---

## Courses

### **SWK-200. Introduction To Social Work. 3 Hours.**

Overview of the social work profession, its philosophical basis, historical development and future growth; introduction to the concept of generalist practice.

### **SWK-202. Community Analysis. 3 Hours.**

Methods of conducting research on local communities and racial/ethnic backgrounds. Role of culture in human behavior and how one's culture interfaces with other cultures. This is a values and knowledge elective course.

**Prerequisite:** SWK-200 with a minimum grade of C.

### **SWK-203. Analysis Of Cross Culture Interaction. 3 Hours.**

This is a pre-practice elective. Development of sensitivity when interacting with persons of diverse racial- ethnic backgrounds. Role of culutre in human behavior and how one's culture interfaces with other cultures.

### **SWK-207. Social Welfare Policy I. 3 Hours.**

This course covers content on the history of social welfare, characteristics of current social welfare programs, and the social, economic, and political contexts of social welfare policy.

**Prerequisite:** SWK-200 (may be taken concurrently) with a minimum grade of C.

### **SWK-250. Issues In Social Service Delivery. 3 Hours.**

Covers major problems and issues in the field of social work. Topics vary. This is a values and knowledge elective course.

### **SWK-300. Human Sexuality And Social Work. 3 Hours.**

Knowledge of sexuality as it is expressed in a variety of lifestyles and the application of social work values and ethics when working with sensitive issues in sexuality. This is a values and knowledge elective course.

### **SWK-301. Social Work And The Law. 3 Hours.**

This course will introduce and provide a basic understanding to the social work student of the law, legal processes, and legal systems as they relate to social work fields' of practice. This course will challenge students to consider and begin to understand how the fields of social work and law intersect. They will develop an understanding of how the practice of social work is continually influenced and, often time regulated, by legislative and judicial decisions. The student will begin to explore how to advocate within the legal system on behalf of the populations that they serve. This is a values and knowledge elective course.

**Prerequisite:** SWK-200 with a minimum grade of C.

### **SWK-303. Writing Intensive Program: Human Behavior And The Social Environment I. 3 Hours.**

A first course of a two-part sequence designed to develop understanding about human behavior and the social environment. Students will enhance their critical thinking skills by focusing on analyzing how people understand themselves, how people create meaning in their lives, how people change, and how your own perspective influences understanding client-systems. The generalist practice model is used to understand the central principles of empowerment: client capacity, resiliency, opportunities, context, constitution and construction. As a writing intensive course students develop the fundamentals of professional writing skills for the social work field.

**Prerequisite:** SWK-207 with a minimum grade of C and SWK-200 with a minimum grade of C.

**Corequisites:** SWK-304, SWK-309.

### **SWK-304. Social Work Practice I. 3 Hours.**

A first course in a two-part sequence designed to provide the student with a foundation in generalist social work practice i.e. knowledge, values and skills. The central premise is that generalist practice is about client empowerment through collaborative work with clients. This involves empowerment of clients through preparation for first contact, learning how to dialogue across client systems, learning how to define directions with the client and collaborating about the client needs and resources. Bridging knowledge from HUBSE I is done through practical application.

**Prerequisite:** SWK-200 with a minimum grade of C and SWK-207 with a minimum grade of C.

**Corequisites:** SWK-303, SWK-309.

### **SWK-305. Social Work Practice II. 3 Hours.**

The second course of a two-semester practice foundation. Course content will focus on the social work processes of goal setting, application of models for action, and integrating gains in the generalist method of practice. The social worker's role and activities will be examined in light of the values and ethics of the profession, which includes conducting oneself as an ethnically sensitive worker with diverse client systems in the urban environment.

**Prerequisite:** SWK-200 with a minimum grade of C and SWK-207 with a minimum grade of C and SWK-303 with a minimum grade of C and SWK-304 with a minimum grade of C and SWK-309 with a minimum grade of C.

**Corequisites:** SWK-306, SWK-357.

**SWK-306. Human Behavior In The Social Environment II. 3 Hours.**

This is the second course in the Human Behavior and Social Environment (HBSE) foundation area. It is designed to examine the dynamic interplay between the individual's development and the functioning of groups, families, organizations and communities and builds on the objectives of SWK-303: HBSE I. Each unit integrates the student's knowledge about the generalist model, the concepts and assumptions within, understanding of the concept of self, the value of honoring diversity and the commitment of the social work profession to social and economic justice.

**Prerequisite:** SWK-303 with a minimum grade of C and SWK-304 with a minimum grade of C and SWK-309 with a minimum grade of C.

**Corequisites:** SWK-305, SWK-357.

**SWK-307. Services To Children & Adolescents. 3 Hours.**

This course focuses on culturally competent social work practice with children and adolescents living in diverse family arrangements. The continuum of services and resources available to children and adolescents and the roles and functions of the social worker in these settings are examined. Economic, social, and psychological concerns of vulnerable children are identified, and intervention strategies that will effectively meet these needs are addressed. Students are presented with specialized knowledge and skills essential for working with children and adolescents. Students will be exposed to fundamental training that prepares them for DCFS Licensure. This is a skills elective course.

**SWK-308. Social Work Practice With Immigrants & Refugees I. 3 Hours.**

Professional social work in the United States began in the late 19th century largely as a response to what was then the largest wave of immigration to this country. Jane Addams's Hull House settlement house served many of Chicago's newly arrived European migrants helping them adjust to life in their new home. Today, we are in the midst of another great wave of migrants; 12% of the U.S. population is foreign-born, representing over 35 million individuals. This group of immigrants are much more diverse racially, ethnically, and socio-economically than ever before. This diversity presents a unique set of challenges for policymakers and practitioners trying to facilitate their adaptation to the US. This course is thus designed to help students planning to work with foreign-born populations (and their offspring) gain the knowledge and skills necessary to address their needs. This is a values and knowledge elective course.

**Prerequisite:** SWK-200 with a minimum grade of C and SWK-207 with a minimum grade of C.

**SWK-309. Introduction To Social Work Research. 3 Hours.**

SWK-309 is the first of the three required research courses in the bachelor of social work (BSW) program. This course focuses on the foundation content in research methods and designs that may be utilized by social workers to evaluate practice and programs and to advance practice knowledge. Specifically, this course will (1) introduce students to the contributions of research to the social work profession; (2) enable students to develop and apply the scientific research method; (3) help students acquire a working knowledge of the research methods/research designs; and (4) help students learn how to critically analyze and evaluate social work research.

**Prerequisite:** SWK-200 with a minimum grade of C and SWK-207 with a minimum grade of C.

**Corequisites:** SWK-303, SWK-304.

**SWK-310. Research Seminar I. 3 Hours.**

This course is designed to prepare students to conduct qualitative and quantitative research in their field practicum agency. At the completion of the course each student will complete a detailed proposal for research that will be completed in the subsequent term. The course will cover the various approaches to qualitative and quantitative research methods. Special attention will be given to problem formulation, literature review, and data collection techniques.

**Prerequisite:** SWK-200 with a minimum grade of C and SWK-207 with a minimum grade of C and SWK-309 with a minimum grade of C.

**Corequisites:** SWK-353, SWK-355.

**SWK-311. Research Seminar II. 3 Hours.**

This course is designed to enable students to complete the research study that they proposed in SWK-310 – Research Seminar I. While some conceptual information will be provided, primary focus will be on the use of basic qualitative and statistical methods to complete the tasks of data collection, data analysis, interpretation and discussion of results, and presentation of completed research projects. Attention will be given to ethical considerations and considerations of race, gender, culture, and sexual orientation.

**Prerequisite:** SWK-310 with a minimum grade of C.

**Corequisites:** SWK-354, SWK-356.

**SWK-312. Women And Social Work. 3 Hours.**

Women and Social Work is an elective course focusing on women's issues in social work, both for women as social work practitioners and for women as clients/ participants in social service delivery systems. The course will cover aspects of feminist thought, non-sexist therapy, feminist therapy, sexist biases in research, feminist research in social work and social welfare policies and practice which have an impact on women. This is a values and knowledge elective course.

**SWK-313. Child Advocacy Studies: Assessment And Evaluation. 3 Hours.**

This course provides a survey of the emerging field of Child Advocacy Studies, which researches and seeks remedies for the maltreatment of children and youth, including specific acts of violence and neglect, in the context of the pernicious effects of racism, poverty, sexism, and heterosexism, including the unique problems faced by immigrant and displaced children. The course examines the various economic, political, social and cultural circumstances that may contribute to the abuse and maltreatment of children and youth. It also teaches students about the strategies and tactics used by various local governmental and nongovernmental agencies, courts and medical establishments to address these problems. This is an elective class for Social Work majors and minors, and one of the required courses in the sequence for a Child Advocacy Studies minor.

**SWK-314. Social Work Advocacy. 3 Hours.**

This course is designed to enhance students' understanding of social work advocacy. It is an elective course and is geared to develop an awareness about social work advocacy and its role in: organizational change, political campaigns and lobbying. This is a values and knowledge elective course.

**SWK-315. Recidivism And Reentry From Social Work Perspectives. 3 Hours.**

In this class, students will explore the reasons for mass incarceration and the changing population of incarcerated people from a social work perspective. Recidivism will be defined and explored using social work terminology and concepts. In particular, this class considers how incarcerated people re-enter society: how they obtain housing, find jobs, create community, and navigate legal issues and social services associated with parole and probation. The class will explore the Communities most impacted by mass incarceration, and will analyze the complexity and layers of re-entering society for those who have been confined by the state.

**SWK-320. Domestic Violence Social Work:Theory And Practice. 3 Hours.**

This course will explore the theory and research on the causes of abuse, including individual and family factors, intergenerational aspects, gender issues, community and societal influences, as well as cultural factors. Strategies and treatment for alleviating family violence will be explored, including systems which are currently in place and other societal systems of response to this social problem. This is a skills elective course.

**Prerequisite:** SWK-200 with a minimum grade of C and SWK-207 with a minimum grade of C.

**SWK-321. Social Work Practice In Schools. 3 Hours.**

This elective course will present essential knowledge and skills for engaging in effective generalist social work practice with youth and families in public elementary, middle, and high schools. It will focus on four key domains of social work practice in school settings: 1) culturally competent practice, 2) social emotional learning, 3) positive youth development, and 4) community collaboration. Drawing upon a comprehensive community schools framework, students in this course will be exposed to the current research, critical issues, and essential practice skills relevant to generalist social work practice in schools.

**Prerequisite:** SWK-200 with a minimum grade of C and SWK-207 with a minimum grade of C and SWK-303 with a minimum grade of C and SWK-304 with a minimum grade of C.

**SWK-322. Writing Intensive Program:International Social Work. 3 Hours.**

This course is intended to provide students with an understanding of social policy issues and programs in other countries. Examination of the political, economic, and social conditions that either enhance or impinge upon the wellbeing of people and policy development will be explored. Students will utilize critical thinking skills to deepen their understanding of international social work issues. Students will be able to understand how cultural values and beliefs are translated into policies and enacted through programs. This is a skills elective course.

**Prerequisite:** ENGL-101 with a minimum grade of C and SWK-303 with a minimum grade of C and SWK-304 with a minimum grade of C.

**SWK-323. Social Work Practice With Immigrants & Refugees II. 3 Hours.**

This course is designed to help students planning to work with immigrant and refugee populations gain the knowledge and skills necessary to address their needs. This course connects the social work profession's values of diversity, social justice, and social change to social policy and direct practice with the foreign-born. This is a skills elective course.

**Prerequisite:** SWK-200 with a minimum grade of D and SWK-207 with a minimum grade of D.

**SWK-324. Social Work With Latino Communities. 3 Hours.**

This course is designed to help students gain the knowledge and skills necessary to address the needs of the Latino community. This course will use applied learning and participatory action research methods to connect the social work profession's values of diversity, social justice, and social change to positively affect the development of local Latino communities. This is a skills elective course.

**Prerequisite:** SWK-303 with a minimum grade of C and SWK-304 with a minimum grade of C.

**SWK-326. Independent Study In Social Work. 3 Hours.****SWK-327. Social Work Practice With Families. 3 Hours.**

This is a post-practice elective course. Overview of the field of family therapy; various approaches, differences in their underlying theoretical assumptions and their application in social work, family assessments and interventions. This is a skills elective course.

**SWK-328. Social Work With Groups. 3 Hours.**

This is a post-practice elective course, majors only. The purpose of this course is to emphasize concepts, methods and issues in social group work practice beyond what has been learned in SWK Practice I & II. The focus will be on group work theory and practice as it applies to different practice settings and different populations. Emphasis will be placed on the social worker's developing self-awareness, ethical competence and practice skills in working with groups. This is a skills elective course.

**Prerequisite:** SWK-304 with a minimum grade of C and SWK-303 with a minimum grade of C and SWK-207 with a minimum grade of C and SWK-200 with a minimum grade of C.

**SWK-329. Administration And Planning In Social Work. 3 Hours.**

This is a post-practice elective course, majors only. It is designed to expose the beginning level practitioner to administrative and planning functions with emphasis on how these impact the direct service practitioner. This is a skills elective course.

**SWK-330. Social Work Practice In Community Settings. 3 Hours.**

This is a post-practice elective course. Structure and functions of communities and models of community organizing; development of community organizing skills. This is a skills elective course.

**SWK-337. Child Welfare II. 3 Hours.**

This is an elective course that focuses on culturally competent social work practice with children and adolescents living in diverse family arrangements. The continuum of services and resources available to children and adolescents and the roles and functions of the social worker in these settings are examined. Economic, social and psychological concerns of vulnerable children are identified. Intervention strategies that will effectively meet these needs are addressed. Students are presented with specialized knowledge and skills essential for working with children and adolescents. Students will be exposed to fundamental training that prepares them for DCFS Licensure. This is a skills elective.

**Prerequisite:** SWK-307 with a minimum grade of C.

**SWK-353. Field Seminar I. 3 Hours.**

Field Seminar I is taken concurrently with the Field Practicum I. The goal of the Field Seminar Courses is to increase students' sense of confidence in practicing as beginning-level practitioners. The seminar classes are designed 1) to integrate theory and knowledge from the classroom with the students' experiences from the field placement, and 2) to reinforce generalist social work values and skills to be used as a beginning level practitioner. The class format will consist of a combination of structured discussion and experiential exercises and role-plays.

**Prerequisite:** SWK-305 with a minimum grade of C and SWK-306 with a minimum grade of C and SWK-357 with a minimum grade of C.

**Corequisites:** SWK-310, SWK-355.

**SWK-354. Field Seminar II. 3 Hours.**

Field Seminar II is taken concurrently with Field Practicum II. The goal of the Field Seminar Courses is to increase students' sense of confidence in practicing as beginning-level practitioners. This goal is achieved by students' awareness of their own strengths and limitations as a worker, along with the integration of knowledge, values, and skills used in the generalist approach to social work practice. The goals of the seminar classes are 1) Integrate theory and knowledge from the classroom with the students' experiences from the field placement, and 2) Reinforce generalist social work values and skills to be used as a beginning-level practitioner.

**Prerequisite:** SWK-305 with a minimum grade of C and SWK-306 with a minimum grade of C and SWK-357 with a minimum grade of C.

**Corequisites:** SWK-311, SWK-356.

**SWK-355. Field Practicum I. 3 Hours.**

SWK-355 provides beginning field experience and is taken concurrently with SWK-353. Students are placed in a social work agency providing the opportunity to develop, test, and reinforce social work knowledge, values, and skills.

**Prerequisite:** SWK-305 with a minimum grade of C and SWK-306 with a minimum grade of C and SWK-357 with a minimum grade of C.

**Corequisites:** SWK-311, SWK-354.

**SWK-356. Field Practicum II. 3 Hours.**

SWK-356 is a continuation of SWK-355 and is taken concurrently with SWK-354. Students work in a social work agency, providing the opportunity to develop, test, and reinforce social work knowledge, values, and skills.

**Prerequisite:** SWK-310 with a minimum grade of C and SWK-353 with a minimum grade of C and SWK-355 with a minimum grade of C.

**Corequisites:** SWK-311, SWK-354.

**SWK-357. Social Welfare Policy II. 3 Hours.**

Covers content on the rationales and goals for government intervention and provides an introduction to the professional practice of policy analysis.

**Prerequisite:** SWK-207 with a minimum grade of C and SWK-303 with a minimum grade of C and SWK-304 with a minimum grade of C and SWK-309 with a minimum grade of C.

**Corequisites:** SWK-305, SWK-306.

**SWK-358. Social Work Advocacy. 3 Hours.****SWK-400. Overview Of The Social Work Profession. 3 Hours.**

Overview of the Social Work Profession is a 3 credit hour course for students who have a bachelor's degree in a major other than social work. This course is designed to provide students with an overview of the profession providing a context of the knowledge, values, and skills in the social work profession. The course covers the history of social work, the values and ethics of the profession, the perspectives of empowerment and social justice, the varied fields of social work practice, and how social workers help individuals, families, groups, and society.

**SWK-401. Oppression, Decolonization And Equity In Social Work. 3 Hours.**

The course provides an overview of the conceptual and theoretical knowledge related to difference, oppression, social justice, and empowerment.

Students explore power issues in race, class, gender, sexuality, and other societal forces that affect individuals. This course provides a forum for students to critically examine their assumptions, beliefs, and behaviors and reflect on how these personal ethics and values enhance or hinder their work with people of diverse backgrounds.

**SWK-402. Human Behavior And The Social Environment I. 3 Hours.**

This is the first half of a two-semester sequence designed to inform students about human development throughout the life course. Students will gain an understanding of the reciprocal interaction between individuals and the ecological context in which they live and grow. This course focuses on theories and research findings related to 1) the Eco-systemic approach to social work practice; 2) the functioning of individuals, families, and communities; and 3) the analysis of human development theories from birth through late-childhood and preadolescence.

**SWK-403. Generalist Practice I. 3 Hours.**

This course introduces students to generalist social work practice and addresses values, knowledge, skills, issues and processes relevant to social work practice regardless of client population, size of client system, or type of agency setting. The course focuses on basic social work practice principles, concepts, goals, and methods. Particular attention is paid to culturally diverse and oppressed populations. This course includes a practice skills laboratory in which students have the opportunity to practice their relationship building, interviewing, and assessment skills. The practice skills laboratory is also designed to give students the opportunity to integrate fieldwork experiences with classroom learning.

**Corequisite:** SWK-402.

**SWK-404. Human Behavior And The Social Environment II. 3 Hours.**

This is the second of a two-semester sequence that examines human development throughout the life cycle and the interaction of individuals with environmental conditions. This course explores traditional and non-traditional paradigms in examining human behavior and the social environment. Students will examine human behavior in the context of the larger macrosystemic environment that includes groups, organizations, communities, and globalization. Students will recognize the range of social systems in which people live and the effects of diversity and oppression on the development and functioning of individuals.

**Prerequisite:** SWK-402 with a minimum grade of B.

**SWK-405. Generalist Practice II. 3 Hours.**

Generalist Practice II is the second part of a two-semester sequence and addresses values, knowledge, skills, issues and processes which are relevant to clinical social work practice regardless of agency setting. This course uses an ecosystems assessment perspective and a problem solving process as the framework for intervention. Particular attention is paid to cultural diversity and the dynamics of oppression in clinical social work practice. This course also includes a concurrent practice skills laboratory in which students have the opportunity to practice their clinical social work practice skills.

**Prerequisite:** SWK-403 with a minimum grade of B.

**Corequisite:** SWK-404.

**SWK-406. Social Welfare Policy. 3 Hours.**

This course is designed to provide students with an overview of the major social welfare policies such as health care, children and families, poverty, mental health, and substance abuse, and provides a conceptual framework in which these policies are analyzed. Students learn the underlying values that are used to formulate such policies as well as debate the direction of policy changes. It examines the government's role in the development of social policies and the social work role in advocating for change. Special emphasis is placed on how these social welfare policies affect diverse population.

This course is for graduate social work students.

**Requirements:** Bachelor's Degree and admission to the graduate program in social work.

**SWK-407. Social Work Research. 3 Hours.**

This foundation research course is designed to provide the students with an overview of the scientific research process, to enable students to critique research, and prepares students to develop a research proposal. The course covers the research formulation process, research methodology, and research findings and their implications for further research. Emphasis is placed on critiques of actual research appearing in the social work literature and the development of a research proposal on a topic in social work. It is expected at the completion of this course students will be prepared to engage in a research project in the advanced curriculum.

**SWK-415. Foundation Field Practicum I. 3 Hours.**

This course is the first of a 2-semester sequence and provides students with a generalist practice experience with individuals, families, small groups, and communities. Students spend 240 clock hours in an agency for the 3 credit hours of course work. Students are integrating classroom learning such as communication skills, professional values and ethics, and practice models with multiple system levels. They also are learning to employ a bio-psycho-social assessment model and utilize a strengths perspective with client systems. In addition, students are learning how important it is to evaluate their practice.

**Requirement:** Admission to the graduate social work program and approval of the Field Placement Application.

**SWK-416. Foundation Field Practicum II. 3 Hours.**

This course is the second course in a 2-semester sequence and provides students with a generalist practice experience with individuals, families, groups, and communities. Students spend 240 clock hours in an agency for the 3 credit hours of course work. Students are integrating classroom learning such as communication skills, professional values and ethics, and practice models with multiple system levels. They also are learning to employ a bio-psycho-social assessment model and utilize a strengths perspective with client systems. In addition, students learn to evaluate their practice.

**Prerequisite:** SWK-415 with a minimum grade of B.

**SWK-421. Critical Social Work In Schools: Policy, Practice & Leadership. 3 Hours.**

This course presents knowledge and skills for critically engaging in social work policy, practice, and leadership when serving and advocating for children, youth and families in public elementary, middle and high schools. It focuses on four key domains for effective social work in schools: 1) positive youth development, 2) trust, collaboration and community partnerships, 3) culturally sustaining practice, and 4) school mental health. Drawing on a comprehensive community schools framework students in this course will learn the key roles and responsibilities of social workers in helping lead schools to be more equitable, inclusive and just places for learning and support.

**Requirement:** Completion of the foundation curriculum or admission to the advanced standing graduate degree program in social work. This course is required for all students in the School Social Work specialization.

**SWK-422. Social Work Practice In Global Cross-Cultural Contexts. 3 Hours.**

This elective course will present essential knowledge and skills for engaging in international and global social work practice with individuals, families and communities. Students will study theoretical models to consider processes of social development in a global, cross-cultural context. Dynamics of power in global social work will be a central focus as well as understanding diverse roles and activities in which social workers engage. Students will critically assess policies and programs designed to increase the responsiveness of social, economic, and political institutions to human needs. Issues of culture, vulnerable populations, and social and economic justice will be explored.

**Requirement:** Completion of the MSW Foundation Curriculum.

**SWK-423. School Social Work With Exceptional Students. 3 Hours.**

This advanced practice course prepares social work students to effectively advocate for and serve students with exceptional learning needs in public K-12 schools. Categories of exceptional children and youth are examined, as defined by federal and state legislation, including the Individuals with Disabilities Education Act (P.L. 94-142) and the Vocational Rehabilitation Act (Section 504). Particular emphasis is placed on how school social workers provide equitable, inclusive, and just school mental health services and supports to students and their families. Evidence-informed approaches for assessment, evaluation and advocacy for developing equitable and inclusive school policies and practices are all discussed.

**Prerequisite:** SWK-421 with a minimum grade of B.

**SWK-425. Assessment And Diagnosis In Social Work With A Critical Lens. 3 Hours.**

This elective course will present essential knowledge and skills for understanding clinical diagnosis using the Diagnostic and Statistical Manual of Mental Disorders, 5th edition (DSM-V) and competency-based and strengths-based assessments applied in the social work field. It focuses on application of diagnostic criteria for mental disorders with careful consideration of the role of intersectionality, stigma and systems of oppression influencing assessment and treatment. This course reflects current issues in mental health access and culturally sensitive treatment from a social justice lens, reflecting the need for funding, equitable policies and research to support effective practice.

**Requirement:** Completion of the MSW Foundation Curriculum or admission to the MSW Advanced Standing Program.

**SWK-426. Independent Study. 3 Hours.**

Students wishing to develop their own course of study not covered in the standard curriculum may do so by registering for an Independent Study under the supervision of a full-time Social Work Department faculty member. An Independent Study requires the signature of the faculty member, department chairperson, college dean, and Academic Affairs on the Independent Study/Tutored Study request form. To initiate the planning of an independent study, students should consult with the faculty member with whom they intend to be supervisor for the independent study, as well as the Social Work Department Advisor.

**Prerequisite:** SWK-400 with a minimum grade of C and SWK-402 with a minimum grade of C and SWK-403 with a minimum grade of C and SWK-415 with a minimum grade of C and SWK-401 with a minimum grade of C and SWK-404 with a minimum grade of C and SWK-405 with a minimum grade of C and SWK-416 with a minimum grade of C and SWK-406 with a minimum grade of C and SWK-407 with a minimum grade of C.

**SWK-429. Nonprofit Management & Leadership In Social Work. 3 Hours.**

This elective course will present essential knowledge and skills for nonprofit managers, supervisors and administrators working in nonprofit or human service organizations. This course will examine the evolution of the nonprofit sector and explore some of the critical management, leadership, and policy issues that are key to running an effective nonprofit organization. It will also focus on the philosophies and theories of leadership and management; understanding management systems, internal and external ecology of organizations; strategic planning, managing technology and information; resource/financial development and philanthropy; human resources practices and development; board development; marketing strategies; and monitoring and evaluating organizational effectiveness.

**Requirement:** Completion of the MSW Foundation Curriculum or admission to the MSW Advanced Standing Program.

**SWK-430. Transition To The Advanced Curriculum. 4 Hours.**

This course is designed to enable those who have a Bachelor's in Social Work to transition to the advanced curriculum. This course provides an overview of the foundation curriculum and ensures the consistency in exposure to this foundation curriculum between those who are full-program students and those who are advanced standing degree program students. The students will then complete short papers that allows the demonstration of the primary concepts and principles in the foundation areas.

**Requirements:** Admission to the Advanced Standing Degree graduate program in social work; a bachelor's degree in social work within the past 10 years.

**SWK-431. Social Work Practice With Families. 3 Hours.**

Building on a bio-psycho-social spiritual framework, this advanced practice course utilizes a case analysis format to focus on clinical practice skills within the context of culture. Specific strategies and tools for evaluating clinical social work practice and ethical dilemmas that arise in clinical social work practice are addressed. The course emphasizes the ways in which socio-economic status, ethnicity, sexual orientation, race, gender, and physical and mental disability affect the processes of clinical assessment and intervention. In addition, this course addresses the role of the clinical social worker when advocating for social and economic justice on behalf of their clients.

**Requirement:** Completion of the Foundation Curriculum or Admission to the Advanced Standing Degree Program.

**SWK-432. Family-centered Policy. 3 Hours.**

The course enables students to learn about child and family-centered policy and to critically analyze these policies using a conceptual framework. This course examines the various effects policies and programs have on different types of families and different aspects of family functioning. The course focuses on the connections between public policies and the values that enter into policy debates and explores the reciprocal linkages between family functioning and public policies at the federal, state, and local levels.

**Requirement:** Completion of the foundation curriculum or admission to the advanced standing graduate degree program.

**SWK-433. Social Work Practice With Children. 3 Hours.**

This course is designed to enhance knowledge, values and skills for practice with children. The course prepares advanced practitioners to provide culturally competent services for a broad range of families and children. This course emphasizes the provision of services for children and their families that enhance and support family life as well as substitute a home life for those who need this. The course focuses on a full range of services available for children and families and emphasizes the impact of these various services. The course also covers various treatment approaches especially for children who are traumatized.

**Prerequisite:** SWK-431 with a minimum grade of C.

**SWK-434. Child Welfare Policy And Legislation. 3 Hours.**

This course is designed to enable students to analyze policies affecting children and to prepare students to function in the legal system on behalf of children. This course provides students an overview of the federal and state policy in child welfare and the legal system which provides oversight of these policies. The course equips students with the knowledge and skills to advocate on their behalf children.

**Requirement:** Completion of the foundation curriculum or admission to the advanced standing graduate degree program.

**SWK-441. Anti-Oppressive Social Work Practice. 3 Hours.**

This course provides an understanding of both the theoretical roots and the specific work of anti-oppressive social work practice. In this course, students examine how social work has been complicit in creating and reinforcing structures of oppression. Students explore strategies to critically challenge power structures maintaining these practices as well as learn approaches to effectively carry out anti-oppressive, socially just social work practice in their daily work.

**Requirement:** Completion of the generalist curriculum or admission to the advanced standing graduate degree program in social work.

**SWK-442. Political Advocacy. 3 Hours.**

This course provides an overview of the role of social workers within the electoral and legislative arenas. The nature of the legislative policy making process and the role of partisan politics in the policy-making process is explored. The course focuses on selected strategies and tactics of advocacy aimed at changing legislation. Topics covered include lobbying, coalition-building, and legal and ethical dilemmas in building or strengthening the power base for advocacy.

**Requirement:** completion of the Foundation Curriculum or admission to the Advanced Standing program in social work.

**SWK-443. Social Justice And Social Change. 3 Hours.**

Through the lenses of power, resistance, and identity, this course examines a range of social movements, such as: labor, civil rights, feminist, LGBTQ, Black Lives Matter and immigrant justice. Students will examine under what conditions people successfully mobilize to achieve change and translate these lessons to the unique challenges of the current political moment.

**Requirement:** Completion of the generalist curriculum or admission to the advanced standing graduate degree program in social work.

**SWK-444. Community Practice. 3 Hours.**

This course is designed to prepare students to lead the development of socially just activities that will bring about change for communities. This course focuses on the work of grassroots community organizing as well as that of nonprofit organizations and critically examines this work through relevant social, economic and political contexts. Students gain strategies and skills related to outreach, capacity-building, marketing, communications, and coalition-building.

**Requirement:** Completion of the generalist curriculum or admission to the advanced standing graduate degree program in social work.

**SWK-450. African Studies Institute (AfSI). 3 Hours.**

As the origin of humanity, Africa's history is steeped in culture, biodiversity, and indigenous knowledge. The African Studies Institute (AfSI) introduces students to Africa and heightens their curiosity to research and explore more about this fascinating continent. AfSI is a good fit for students in any field who are interested in learning about Africa and/or will be working with refugees and immigrants from Africa. Moreover, AfSI provides the necessary tools for teachers, social workers and other professionals who are interested in integrating African sociocultural, linguistic, historical, political, human rights, and economic contexts into their workplace.

**SWK-451. Introduction To Genocide And Human Rights Studies In Africa And The Diaspora. 3 Hours.**

This course introduces the concept of genocide and human rights in Africa and the diaspora exploring accounts of genocide in different countries around the globe. It investigates the possibilities and limitations of justice and reconciliation in societies emerging from genocide and mass atrocities. This course also analyzes the uses of truth commissions and trials in transitional societies, and the roles of civil society, political elites, and international actors. Students are challenged to analyze the roles of resisters, rescuers, bystanders, victims, survivors, perpetrators, and collaborators, and ways to exert their leverage and responsibility in preventing genocide and protecting human rights.

**SWK-470. Social Work Practice With Immigrants And Refugees. 3 Hours.**

This course examines the diverse migration experiences of individuals and families with a focus on vulnerability and challenges faced. Students will learn and apply concepts relevant to social work that define specific needs and issues facing immigrant and refugee populations at the practice and policy levels. Students will explore the social, political and economic context of migration and resettlement, organizational and structural barriers, and culturally relevant, trauma-informed practices in services to immigrants and refugees.

**Requirement:** Completion of the generalist curriculum or admission to the advanced standing graduate degree program in social work; or permission of the instructor.

**SWK-471. Practice With Lesbian, Gay Bisexual, Transgender And Queer Population. 3 Hours.**

This course is designed to enhance student understanding of issues related to LGBT populations in the U.S. Students will be exposed to empirical literature on LGBT issues that will inform an understanding of past, present and future challenges facing the LGBT communities. Raising students' awareness of personal, interpersonal and institutional values and biases is examined and a life cycle perspective is presented to highlight the unique issues of LGBT communities. Students are introduced to the history of the LGBT civil rights movements and the underlying theories of sexual orientation and sexual identity formation.

**Requirement:** Completion of the foundation curriculum or admission to the advanced standing graduate degree program.

**SWK-472. Trauma Treatment With Children And Families. 3 Hours.**

This course is designed to provide students with intermediate knowledge and skills to assess the impact of potentially traumatic events and to plan for evidence informed interventions across a variety of family system. The impact of trauma is considered within the context of biological, developmental, psychological, economic, educational, cultural, and social factors. The role of the therapist is covered and intervention techniques that empower families is presented. Consideration is given to those factors that enhance the protective capacity, strengths and resilience of children and their families who have been exposed to violence, abuse and trauma.

**Requirement:** Completion of the foundation curriculum or admission to the advanced standing graduate degree program in social work.

**SWK-473. Topics In Advocacy. 3 Hours.**

The purpose of this course is to enable students to design an advocacy project in a specified topic area. Students select a topic of their choice and complete the project in its entirety. The class focuses on the steps or process for launching an advocacy project from assessing the need, mobilizing resources, and engaging in activities. At the conclusion of the course students evaluate their efforts and identify the next steps.

**Requirement:** Completion of the foundation curriculum or the Bachelor's Degree in Social Work.

**SWK-474. Social Work And The Law. 3 Hours.**

This course examines the law, legal processes, and legal systems as they relate to social work fields' of practice. The course challenges students to consider how the fields of social work and law intersect. Throughout the course, students critically analyze how the practice of social work is continually influenced by judicial decisions. The students also attain skills in advocating within the legal system on behalf of the populations that they serve.

**Requirement:** Completion of the foundation curriculum or admission to the advanced standing graduate degree program.

**SWK-475. Social Work Practice With Latino/a/x Communities In The United States. 3 Hours.**

This course prepares social workers in training to provide culturally sensitive services to members of Latino/a/x communities in the United States. It examines aspects of service delivery and is designed to provide an applied approach to social work with Latino/a/x communities in the United States. Students will learn specific skills and competencies to work with Latinos from different backgrounds in diverse settings. Barriers and best practices to social services with Latino communities such as education, healthcare, and mental health care will be discussed throughout the course.

**Requirement:** Completion of the MSW Foundation Curriculum or admission to the MSW Advanced Standing Program.

**SWK-491. Advanced Research I. 3 Hours.**

This advanced research course will provide students with the skills necessary to conceptualize, plan, and evaluate social work practice. The course will focus on evaluation as a means for assessing social work practice, including the identification of needs, process, and outcomes. It will cover topics such as developing research questions, conducting literature reviews, sampling, data collection and analysis techniques, and the reporting and dissemination of findings, including the limitations and significance of research. This course will cover ethical considerations in evaluation research and will provide students with hands-on experience planning evaluations in a variety of settings.

**Corequisite:** SWK-495.

**SWK-492. Advanced Research II. 3 Hours.**

This course is designed to afford students the opportunity to implement the research project for which they developed a research proposal in SWK-491. This course is designed to assist students in the collection and analysis of their data as well as the identification of the contributions and limitations and the implications of this research.

**Prerequisite:** SWK-491 with a minimum grade of B.

**Corequisite:** SWK-496.

**SWK-495. Advanced Field Practicum I. 3 Hours.**

This is an advanced practicum designed to engage students in experiences and activities in their concentration. This is the first semester of a 2-semester sequence and is designed to expose students to the roles and tasks of a professional social worker in their desired concentration.

**Requirement:** Completion of the foundation curriculum or admission to the advanced standing graduate degree program in social work

**Corequisite:** SWK-491.

**SWK-496. Advanced Field Practicum II. 3 Hours.**

This is an advanced practicum designed to engage students in experiences and activities in their concentration. This is the second semester of a 2-semester sequence and is designed to further students learning and advance their understanding of the roles and tasks of a professional social worker in their desired concentration.

**Prerequisite:** SWK-495 with a minimum grade of B.

**Corequisite:** SWK-492.

# Sociology (SOC)

---

## Courses

### **SOC-100. Introduction To Sociology. 3 Hours.**

Fundamental concepts involved in understanding human societies. Socialization, culture, social interaction, social institutions, social stratification, and social change are discussed.

### **SOC-104. Schools And Society. 3 Hours.**

This course examines the different roles that educational institutions play in fostering, perpetuating, and challenging inequalities for different social groups in American society.

### **SOC-105. Social Inequalities And Social Change. 3 Hours.**

Examines critical sociological explanations of the causes and consequences of classism, racism, sexism, homophobia and other social inequalities; explores how inequalities are institutionalized, legitimized, and experienced by different groups of people; examines collective efforts to promote social change, including collective action and social movements.

### **SOC-109A. First Year Experience: Investigating Chicago: Immigration & Migration. 3 Hours.**

In this course, the five foundations of the First-Year Experience (Future Planning, Integral Preparation, Research, Self-discovery and Transitions) are interwoven with the field-specific concepts and terminology of sociology. Using the city as a lab, freshmen explore Chicago's immigrants and immigration patterns, actively discovering the complexity and diversity of Chicago as an immigrant destination through readings, films, speakers, and out-of-class experiences.

### **SOC-204. Sociology Of Small Groups. 3 Hours.**

A study of the individual and group relationships in society in terms of the various types of social collectives; primary and secondary groups, crowds and publics, collective behavior and social movements with emphasis on the symbolic nature of social interaction.

**Prerequisite:** SOC-100 with a minimum grade of C.

### **SOC-205. Contemporary Social Issues. 3 Hours.**

Analysis and interpretation of major contemporary social issues, such as war and peace, poverty, racism, sexism, power structures; critical evaluation of present and suggested programs to meet current problems.

### **SOC-206. Drugs And Society. 3 Hours.**

Review of literature and current research on drug use. Examination of patterns of drug use, drug-related policies and their enforcement, and examination of responses to addiction.

### **SOC-214. Sociology Of Intimacy, Marriages And Families. 3 Hours.**

Examination of dynamics and trends in relationships and families. Areas of study include history of families, changing demographic patterns, family structures, gender, sexuality, reproductive technology, power in relationships, and divorce.

### **SOC-250. Sociology Of Deviance. 3 Hours.**

Employs sociological approach to deviance in society. Origins and functions of deviance; the ambiguous institutionally and socially constructed nature, definitions, and measurement of deviance; the impact of deviance on personal and social identity; deviant behavior; and deviance and social change. Major theoretical perspectives on deviance, current research, and portrayals of deviance in popular culture.

### **SOC-270. Sociology Of Latinas. 3 Hours.**

This course examines the diversity of Latina experiences in the United States and other countries. Students will explore social, economic, cultural, and political issues that affect the lives of Latinas. The course will examine the historical and contemporary construction of Latina identities, communities, and political struggles. Of particular interest will be the impact of social inequalities on Latina lives as well as Latina responses to these inequalities.

### **SOC-300. Queering Sociology. 3 Hours.**

This course introduces students to radical queer activism and scholarship aimed at creating a more just and inclusive world. Using a queer intersectional perspective, this course explores alternatives to traditional notions about sex, gender, sexuality, relationships, family, assimilation and democracy. Students learn to examine how interdependent oppressions (e.g., homophobia, transphobia, racism, classism, sexism) interact to shape the lives of queer and trans people—and straight and cisgender people too. Topics include incarceration, gender violence, homelessness, policing, education, marriage, sex, intimacy, (dis)ability, health and disease, immigration, gentrification and war.

**Prerequisite:** SOC-100 with a minimum grade of C and SOC-105 with a minimum grade of C or (WGS-101 with a minimum grade of C or WGS-210 with a minimum grade of C).

### **SOC-302. Sociology Of Aging. 3 Hours.**

The aging process, examined from both an individual and societal perspective; problems, potentials, and realities of aging. Topics of study include the nature and quality of relations among members of different generations, age norms, age constraints, and adult socialization as well as historical and cross-cultural comparisons of aging.

**Prerequisite:** SOC-100 with a minimum grade of C.

### **SOC-304. Sociology Of Law. 3 Hours.**

This course explores key issues and debates in the sociological study of law, legal systems, and legal institutions. Students will analyze theories of law and justice, examine the relationship between law and society, and investigate how law reinforces inequalities and shapes social change.

**SOC-305. Sociology Of (Dis)ability. 3 Hours.**

This course employs the social/minority group model of disability — the view that the status of minoritized people shapes their experiences in society, challenging dominant societal attitudes about disability and (ab)normality that stigmatize, dehumanize, and/or pathologize people with disabilities. It employs a critical framework that considers how thinking surrounding disability is constructed through social, political, cultural, and economic forces rooted in colonialism, capitalism, white supremacy, and patriarchy. From an intersectional, interdisciplinary perspective and based on knowledge created by disabled people, this course centers the experiences of disabled people, with a special focus on resistance and disability justice.

**SOC-306. Women, Gender And The "F Word". 3 Hours.**

Analyzes changing representations of women in popular culture. Critically explores Western feminist struggles, commitments, and perspectives with special emphasis on the intersections of gender, race, ethnicity, social class, sexuality, and nation of origin in women's lives.

**Prerequisite:** SOC-100 with a minimum grade of C or SOC-105 with a minimum grade of C or WSP-101 with a minimum grade of C.

**SOC-307. Men & Masculinities. 3 Hours.**

Addresses the central themes that have emerged in the feminist-inspired sociological research on men and masculinities. These themes include men's institutionalized power and privilege over women, inequalities among different groups of men (e.g., power disparities across race, ethnicity, class, sexuality, and nation of origin), and the costs men and women pay for men's conformity to rigid notions of masculinity. In our exploration of these themes, we will discuss masculinities at the individual, interpersonal, institutional, societal, and global levels.

**Prerequisite:** SOC-100 with a minimum grade of C or SOC-105 with a minimum grade of C.

**SOC-309. Sociology Of Racism. 3 Hours.**

Survey of the sociological and historical development of the theories of race and racism and the impact these theories have had on the implementation of social policy. Black experience in America is highlighted and special attention is given to institutional expressions of racism in the Western World.

**Prerequisite:** SOC-100 with a minimum grade of C or AFAM-200 with a minimum grade of C.

**SOC-310. Social Movements. 3 Hours.**

A systematic analysis of selected social and political revolutions and/or revolutionary movements in the United States and globally.

**Prerequisite:** (LLAS-101 with a minimum grade of C or MCS-101 with a minimum grade of C) or SOC-100 with a minimum grade of C.

**SOC-311. Sociology Of Sports. 3 Hours.**

This course examines the ways in which sports are entangled in socio-political, cultural, and economic forces. To view sports sociologically means to investigate how people think about sports themselves, the individuals who participate in them, and the people who watch them. These elements cannot be separated from social norms, practices, and inequalities based on race, class, gender, sexuality, ability, age, etc. This course covers a wide range of topics as they relate to the consumption and performance of sports in American culture and beyond, from consequences, risks, and ethical issues, to community, socialization, and violence in sports.

**SOC-312. Sociology Of Health And Illness. 3 Hours.**

Examines the social, political, economic and cultural aspects of health and illness. Emphasis on the interaction between social inequalities and health/illness. Topics will include social factors and illness, the meaning and experience of illness, health care systems and providers, bioethics, environmental injustice, violence, and militarism. Also explores the links between patterns of health/illness in the United States and globally as well as activism around health/illness.

**SOC-313. Social Demography. 3 Hours.**

Population characteristics and population dynamics in a variety of cultural settings; political, economic and sociological implications of population trends, resources and approaches in demographic analysis.

**Prerequisite:** SOC-100 with a minimum grade of C.

**SOC-314. Urban Sociology. 3 Hours.**

This course examines population characteristics, social structure, social policy and social change associated with cities and urban communities. This course emphasizes class, race, gender and sexual inequalities and their relationship to gentrification, urban-suburban relations, and urban movements for social justice.

**SOC-316. Race And Ethnic Relations. 3 Hours.**

A cross-cultural study of the patterns of interaction between racial and ethnic groups, analysis of the sources of prejudice and discrimination; examination of the relationships between race and ethnic relations and patterns of stratification.

**SOC-317. Sociology Of Religions And Spirituality. 3 Hours.**

Study of the social aspects of religious beliefs, practices and participation. The Church as a social institution and its relationship to social class, social control. Religion as a form of expressive behavior. The function of religion for the individual and for different social groups.

**Prerequisite:** SOC-100 with a minimum grade of C.

**SOC-318. Sociology Through Film. 3 Hours.**

This course utilizes different types of films (i.e. narrative feature-length and documentary) to illuminate sociological phenomena. In addition, this course teaches students how to apply relevant sociological concepts and research to film and to the real world. Topics may vary widely, ranging from gentrification to globalization. This course also facilitates critical analysis of film, where students become active participants, identifying ways in which films can uncritically transmit stereotypes, misconceptions and ideologies regarding race/ethnicity, gender, class, social and political life, and more.

**SOC-320. Sociological Analysis. 3 Hours.**

An introduction to when and how to do sociological analysis of popular and scholarly opinion, with a focus on developing and/or improving communication and critical thinking skills. The course integrates sociological theory and methods and requires students to analyze and critique theories, opinions, and research found in a variety of popular and scholarly materials using a sociological perspective.

**Prerequisite:** SOC-100 with a minimum grade of C or SOC-105 with a minimum grade of C.

**SOC-321. Class, Labor Inequalities, And Work. 3 Hours.**

Examines how social and economic relations produce and reproduce class and labor inequalities. Analyzes the intersections of class with multiple forms of oppression; the conditions faced by low-wage workers in industrial, agricultural and service jobs; the impact of globalization on labor markets, labor organizations and politics in the U.S. and globally; and how class and labor inequalities are resisted and changed.

**Prerequisite:** SOC-100 with a minimum grade of C or SOC-105 with a minimum grade of C.

**SOC-324. Power, Politics & Society. 3 Hours.**

Centers on the intersection of politics and social change. Critically examines political relations with respect to, but not limited to, the social roles of power, conflict, cooperation, practices, influence, authority, identities, nationalism, and transnational processes. Explains how power and politics structure society to consistently advantage particular groups and disadvantage other groups.

**Prerequisite:** SOC-100 with a minimum grade of C or SOC-105 with a minimum grade of C.

**SOC-328. Extreme Right Groups. 3 Hours.****SOC-329. Sociology Of Violence. 3 Hours.**

This course covers cross-cultural examinations of violence. It explores the implications of and responses to violence.

**Prerequisite:** SOC-100 with a minimum grade of C or SOC-105 with a minimum grade of C.

**SOC-331. Militarization, Power, And Inequality. 3 Hours.**

Examines the interplay between race, gender, class, sexualities, globalization, power and militarization through engagement with sociological scholarship. Additionally, analysis of the historical and sociopolitical conditions, complex processes, and multiple practices that enable the militarization of a society are examined. Resistance and alternatives to militarization are also examined.

**Prerequisite:** SOC-100 with a minimum grade of C or SOC-105 with a minimum grade of C.

**SOC-332. Schools, Domination & Liberation: Sociology Of Education. 3 Hours.**

Introduces the major theoretical trajectories in the sociology of education. Examines the structure, practices and outcomes of schooling in light of their relationships to the wider society in which schools are situated. Studies the links between schools and social inequality, educational opportunity, educational stratification by race, class, gender, ability, immigration, and sexuality. Analyzes sociological perspectives on contemporary education reform.

**Prerequisite:** SOC-100 with a minimum grade of C or SOC-105 with a minimum grade of C.

**SOC-335. Sociological Theory. 3 Hours.**

Explores how different sociological theorists make sense of society with particular emphasis on capitalism, white supremacy, patriarchy and homophobia. This course is an overview of social theory including both classic and modern theorists paying close attention to how historical power and inequality shaped "the canon" and the voices at the center and margins of social theory.

**Prerequisite:** SOC-100 with a minimum grade of C or SOC-105 with a minimum grade of C.

**SOC-336. Contemporary Sociological Theory. 3 Hours.**

A survey of contemporary sociological theories and paradigms, with a focus on writings that have most influenced the development of contemporary sociological theory and the way sociologists currently approach and analyze their subject matter. The course will explore theories, perspectives, ideas and works from voices generally unheard in discussions of formal sociological theory - namely, the voices of people of color and women.

**Prerequisite:** SOC-100 with a minimum grade of C and (SOC-211 with a minimum grade of C or SOC-335 with a minimum grade of C).

**SOC-337. Sociological Research Methods. 3 Hours.**

Emphasis on increasing student's abilities to communicate their understanding of social science research. Focus on learning social science research vocabulary, developing an understanding of issues in the philosophy of the social sciences, learning steps and procedures in sociological research, and using writing skills relevant to social science research.

**SOC-338. Environmental Sociology. 3 Hours.**

This course examines the relationship between social change, social systems, and the environment. It explores multiple perspectives in the field of environmental sociology, including political economy, environmental inequalities, environmental discourse, and environmental justice, and the intersections of race, gender, class, nation, and environmental disruptions.

**SOC-339. Introduction To Social Statistics. 4 Hours.**

This course is an introduction to descriptive and inferential statistics which are the basic statistical methods used in sociology and other social and behavioral science disciplines. Students will also learn to use a statistical software package to analyze and interpret survey data.

**Prerequisites:** ((SOC-100 and SOC-105 and ((SOC-211 and SOC-211 or (SOC-337 and SOC-337) and ((MATH-092 - 499 or (MATH-101B - 147Z or (MATH-148B - 499Z and MATH-148B - 499Z or (ACT Math 22 - 36 and ACT Math 22 - 36 or (Accuplacer Adv. Algebra & Func 237 - 300 and Accuplacer College Level Math 020 - 120 or (SAT Math 530 - 800 and SAT Math 530 - 800 or Accuplacer Adv. Algebra & Func 237 - 300 or NEIU Math Placement Result 30 - 45).

**SOC-340. Sociology Of Sexualities. 3 Hours.**

Examines sexualities across dimensions of time, place, social institutions, race, class, sex and gender. Emphasizes the dual themes of social construction and social control. This course challenges the binary construction of sex, gender, and sexuality and encourages students to view sex as a positive life force rather than one based on shame, guilt, danger or morality. Explores individual and collective resistance to oppressive sexual norms and practices.

**Prerequisite:** SOC-100 with a minimum grade of C or SOC-105 with a minimum grade of C.

**SOC-341. Independent Study In Sociology. 3 Hours.**

Research study in an area of special interest to the student involving research methodology and field studies. Independent Studies require the approval of the instructor, department chair and the College Dean.

**Prerequisite:** SOC-100 with a minimum grade of C.

**SOC-341A. Independent Study In Sociology. 3 Hours.**

This independent study covers a sociological research study in an area of special interest to the student. Independent Studies require the approval of the instructor, department chair and the College Dean.

**Prerequisite:** SOC-100 with a minimum grade of C or SOC-105 with a minimum grade of C.

**SOC-341B. Independent Study In Sociology. 2 Hours.**

This independent study covers a sociological research study in an area of special interest to the student. Independent Studies require the approval of the instructor, department chair and the College Dean.

**Prerequisite:** SOC-100 with a minimum grade of C or SOC-105 with a minimum grade of C.

**SOC-341C. Independent Study In Sociology. 1 Hour.**

This independent study covers a sociological research study in an area of special interest to the student. Independent Studies require the approval of the instructor, department chair and the College Dean.

**Prerequisite:** SOC-100 with a minimum grade of C or SOC-105 with a minimum grade of C.

**SOC-342. Sociology Internship Seminar. 3 Hours.**

Taken concurrently with SOC-345. The Sociology Internship Seminar investigates the application of sociological knowledge and skills to an actual organizational setting. Investigates interpersonal relationships, internal organizational relationships and dynamics, and the social context of organizations within the larger community and society at large. Critical examination of the relationships between organizations, social inequalities, and social justice. Exploration of career and graduate school resources and information.

**Prerequisite:** SOC-100 with a minimum grade of C and SOC-105 with a minimum grade of C and (SOC-211 with a minimum grade of C or SOC-337 with a minimum grade of C) and SOC-335 with a minimum grade of C.

**Corequisite:** SOC-345.

**SOC-343. Sociological Practice And Social Action Seminar. 3 Hours.**

This seminar provides students with an opportunity to do service and research in an applied organizational setting. It includes problem solving through involvement and social action research in one organizational setting. As an applied sociologist, the student will learn to produce information that is useful in resolving problems in community organizations, social service organizations and grass roots social change organizations.

**Prerequisite:** SOC-100 with a minimum grade of C.

**SOC-344. African American Women:Feminism, Race, And Resistance. 3 Hours.**

A systematic examination of the collective experiences of African American women, historical and contemporary; the myths versus the realities of their everyday lives, including the interrelatedness and simultaneous effect of race, class, gender, sexual orientation and age in their lived experiences.

**Prerequisite:** SOC-100 with a minimum grade of C or AFAM-200 with a minimum grade of C.

**SOC-345. Sociology Internship Placement. 3 Hours.**

Taken concurrently with SOC-342. Students will complete 144 hours at an internship placement in an organization chosen in collaboration with the professor. Performance of various tasks under the direction of a site supervisor to enhance the understanding and application of sociological theories and concepts and to gain experience relevant to career and/or graduate school interests. Prereq.: Senior status; SOC-100; SOC-211; SOC-335.

**Prerequisite:** SOC-100 with a minimum grade of C and SOC-211 with a minimum grade of C and SOC-335 with a minimum grade of C.

**Corequisite:** SOC-342.

**SOC-346A. Writing Intensive Program: Critical Writing For Sociology. 3 Hours.**

Teaches different types of critical sociological writing for different audiences through the examination of different sociological themes. Includes library and online research, ASA citation style, organizational structure, thesis statements, summary and analysis, and plagiarism. Fulfills the Writing Intensive Program requirement.

**Prerequisite:** SOC-100 with a minimum grade of C and SOC-105 with a minimum grade of C and ENGL-101 with a minimum grade of C.

**SOC-347. Sociology Of Media. 3 Hours.**

A systematic examination of mass media as a social construction of knowledge. Major focus is on the social and historical contexts within which the media are created, the powerful influence of the various media on the socialization process, and the intersections of race, class, gender, sexual orientation and age in the images and knowledge created by mass media.

**SOC-349. Black Social Movements. 3 Hours.**

Examination of the African American civil rights movement. Analysis of the origins and development of the modern civil rights movement, a movement that emerged in the South during the 1950s. Exploration of organized, collective forms of social change and theories of social movements and collective action. Emphasis on local, regional and national civil rights campaigns; the development, achievements, and disintegration of the national civil rights coalition; and the contributions of the male and female unsung heroes of the movement.

**Prerequisite:** SOC-100 with a minimum grade of C.

**SOC-350. Sociology Of Black Communities. 3 Hours.**

This course is designed to explore institutional variation and social change within African-American communities. We will examine African-American populations in different settings, both contemporary and historical, and attention will be given to major traditions of sociological theory and research related to these communities. We will additionally explore the origin, structure, reproduction, and outcomes of racism and white supremacy, and how this relates to labor market processes and outcomes, social mobility and living standards, and major social institutions such as healthcare, education, and criminal justice systems, as they relate to African Americans.

**SOC-351. Senior Seminar In Sociology. 3 Hours.**

Discussion, critical review and integration of student's work with current research. Preparation of a research paper with ongoing feedback from the instructor.

**SOC-352. Sociology Of HIV/AIDS. 3 Hours.**

Examination of the sociological aspects of the AIDS crisis. Socio-history of the HIV/AIDS crisis in the United States and globally. Emphasis on how racial, class, gender and sexual inequalities have shaped the epidemiology of HIV/AIDS. Responses of dominant social institutions to the AIDS crisis. Collective action by impacted communities around issues of education, prevention, research, health care and support services. Contemporary issues facing people living with HIV/AIDS including stigma, discrimination, mental health, access to treatment, legal issues, and empowerment.

**Prerequisite:** SOC-100 with a minimum grade of C.

**SOC-358. Sociology Of Youth And Youth Culture. 3 Hours.**

An analysis of youth and youth culture including the historical context of adolescence, sociopolitical issues confronting youth and youth culture as a form of social and political resistance. Each topic will be explored through detailed analyses of relevant literature, discussions with professionals who work with youth, and student research projects.

**Prerequisite:** SOC-100 with a minimum grade of C.

**SOC-360. Sociology Of Occupations And Professions. 3 Hours.**

Exploration of the historical, theoretical and empirical literature on occupations and professions. Issues to be explored include the relationship between occupations and the family, education, technology and the political environment.

**Prerequisite:** SOC-100 with a minimum grade of C and SOC-221 with a minimum grade of C.

**SOC-362. Identity And Social Policy. 3 Hours.**

Critically examines the relationship between social policy, culture, identity, and change. Explores different perspectives on American and international social policy development, identity, and advocacy.

**Requirement:** noted prerequisites or permission of instructor

**Prerequisite:** SOC-100 with a minimum grade of C or SOC-105 with a minimum grade of C.

**SOC-365. Sociology Of Globalization. 3 Hours.**

Globalization is the worldwide integration of government policies, cultures, social movements, and financial markets through trade and the exchange of ideas. This course analyzes the processes that produce globalization and the outcomes of globalization, with a special focus on Chicago. Using a sociological lens we examine the development of globalization and its effects upon nation-states, individuals, culture, politics, inequality, and other aspects of society. Students will critically evaluate the effects of globalization with the goal of becoming engaged and empowered members of the global community.

**Prerequisite:** SOC 100 with a minimum grade of C.

**SOC-370. Sociology Of Food. 3 Hours.**

This course examines the relationship between food, society, and the environment. It explores the ways in which social structures and relations affect what people eat, how politics and economics affect the kinds of food that is produced, and where, how, and by whom it is produced. It also examines the social and environmental problems associated with food and agriculture, with a special emphasis on how global capitalism and inequalities affect both.

**SOC-371. Sociology Through Service Learning. 1 Hour.**

This course offers students an opportunity to acquire sociological content knowledge and develop analytical skills while providing important service at self-selected sites within the Chicagoland area that specifically serve marginalized populations. Students learn by applying course material to their experiences, and reflecting on those experiences. Students are expected to develop a sociological understanding of issues impacting marginalized communities and a commitment to civic responsibility and social justice.

**SOC-373. Community Action And Resistance. 3 Hours.**

Chicago metropolitan field investigation of community conditions, local institutions and action programs. Field investigations may be broad or concentrate on a particular school or community.

**Prerequisite:** SOC-100 with a minimum grade of C and (SOC-211 with a minimum grade of C or SOC-337 with a minimum grade of C).

**SOC-375. Government Intelligence Agencies. 3 Hours.**

A study of the various government agencies which collect intelligence within the U.S. and in foreign countries with emphasis on the kinds of intelligence gathered and the political uses to which it is put. The work of the CIA and the FBI are critically examined.

# Spanish (SPAN)

---

## Courses

### **SPAN-101. Beginning Spanish I. 3 Hours.**

This course will develop and review basic skills in listening, speaking, reading and writing for both heritage and non-heritage learners. This course will include cultural appreciation.

### **SPAN-102. Beginning Spanish II. 3 Hours.**

Continuation of SPAN-101.

**Prerequisite:** (SPAN-101 or NEIU Spanish Placement Score 234 - 311).

### **SPAN-109. First Year Experience: Chicago's Latina/o Cultures. 3 Hours.**

Freshmen explore Chicago's vibrant Latina/o culture as an integral part of the city's cultural landscape through short stories, poetry, films, speakers, and field trips to cultural venues or activities. In the course, the five foundations of the First-Year Experience (Future Planning, Integral Preparation, Research, Self-discovery, and Transitions) are interwoven with concepts and terminology specific to cultural and literary studies. Taught in Spanish and English. **Prerequisite:** Score of 384 or above in the Spanish placement exam (available online at [www.neiu.edu/~flddept/placement.htm](http://www.neiu.edu/~flddept/placement.htm)).

### **SPAN-123. Accelerated Spanish I-II-III. 9 Hours.**

Accelerated study of Spanish, covering SPAN-101, SPAN-102, SPAN-103.

### **SPAN-201. Intermediate Spanish I. 3 Hours.**

Continuation of SPAN-102. Completes the study of the basic elements of Spanish.

**Prerequisite:** (SPAN-102 or NEIU Spanish Placement Score 312 - 383).

### **SPAN-202. Intermediate Spanish II. 3 Hours.**

Review of grammar. Short readings and practice in writing brief compositions. Exercises in oral communication.

**Prerequisite:** (SPAN-201 or NEIU Spanish Placement Score 384 - 445).

### **SPAN-206. Spanish For First Responders. 3 Hours.**

This course is designed to provide students with the specific medical vocabulary and terminology necessary to communicate with and help treat Spanish-speaking patients with limited English proficiency. Course includes specific vocabulary groups relating to assessment and care of patients, vocabulary to establish rapport, and discussions leading to cultural competencies. Course uses pre-designed dialogues to review and learn vocabulary and grammar structures, as well as workshops settings designed to put students into scenarios where they can use both their speaking and listening skills. Course is taught in almost entirely in Spanish; students are expected to have some prior experience with Spanish.

### **SPAN-209. Spanish For Spanish Speakers I. 3 Hours.**

This course is the first in two-semester sequence of intermediate-level Spanish designed for students who speak Spanish at home and/or in the community, but have not studied it formally and /or whose reading and writing abilities in Spanish are limited. The focus of the first semester is on orthography while the focus of the second semester is on syntax. Both semesters include reading comprehension and basic literary analysis of short texts.

### **SPAN-211. Spanish For Spanish Speakers II. 3 Hours.**

This course is the second in a two-semester sequence of intermediate-level Spanish designed for students who speak Spanish at home and/or in the community, but have not studied it formally and/or whose reading and writing abilities in Spanish are limited. The focus of the first semester is on orthography while the focus of the second semester is on syntax. Both semesters include reading comprehension and basic literary analysis of short texts.

### **SPAN-220. Conversation Skills For Community Action. 3 Hours.**

Course develops specialized conversational skills and vocabulary for non-profit organizations, political campaigning, and community organizing, among other topics. Conducted primarily in Spanish.

**Prerequisite:** (SPAN-202 or NEIU Spanish Placement Score 446 - 999).

### **SPAN-224. The World Of Texts: Developing Essential Reading Skills In Spanish. 3 Hours.**

This course focuses primarily on short-form texts ranging from advertisements, newspaper articles, movie descriptions and critiques, as well as blogs in Spanish. Students are equipped with strategic, concrete approaches to reading, empowering students to rely less on the dictionary and more on filling in gaps in comprehension through deduction skills based on context and background knowledge. This course also focuses on the acquisition of new vocabulary and language registers. This course is conducted entirely in Spanish.

**Prerequisite:** (SPAN-202 or NEIU Spanish Placement Score 446 - 999).

### **SPAN-225. Practical Writing: An Introduction To Personal Expression In Spanish. 3 Hours.**

This course is designed as a workshop to develop students' practical writing needs based on personal preferences, daily routines, common events, and other topics related to their own experiences and immediate surroundings. Writing tasks focus on short, simple formats such as letters, diary entries, and descriptions. The course also addresses different tenses and moods in Spanish, normative orthography, correct use of accents, and building of vocabulary. Taught in Spanish.

**Prerequisite:** (SPAN-202 or SPAN-211 or NEIU Spanish Placement Score 446 - 999).

**SPAN-251. Oral Skills For Public Speaking And Podcasting. 3 Hours.**

Course focuses on public speaking skills in Spanish, including stage presence, voice control, and audience relations. Course also provides students with an in-depth understanding of podcasting as a genre. Course evaluations include the creation of podcasts to be published on course podcast station. Conducted in Spanish.

**Prerequisite:** SPAN-220 with a minimum grade of C.

**SPAN-252. Introduction To Literary & Cultural Analysis. 3 Hours.**

This course is an introduction to the analysis of literature and culture as a concept, practice and form of representation, including a consideration of the debates that the idea of culture has provoked in different contexts. The course will provide analytical and methodological tools to discuss a full range of cultural forms and to develop key skills in the analysis of culture. Course represents diverse geographical and cultural locations, with special emphasis on materials that explore cultural issues in the context of Spain, Latin America and U.S. Latinos/a/xs. Conducted in Spanish.

**Prerequisite:** SPAN-224 with a minimum grade of C.

**SPAN-253. Academic Research & Writing In Spanish. 3 Hours.**

This workshop-style course develops students' critical writing skills in preparation for 300-level courses in the Spanish major, with special emphasis on the Spanish-speaking world. It also serves as an introduction to research skills in the humanities, including techniques to read cultural and literary texts critically. Taught in Spanish.

**Prerequisite:** SPAN-225 with a minimum grade of C.

**SPAN-255. Bilingual Creative Writing: Spanish And English. 3 Hours.**

This course offers preliminary study in Creative Writing in Spanish and English. It enables students to study creative writing in the bilingual mode and to 1) develop effective approaches to the craft of writing, 2) explore new techniques of the craft, and 3) consider their own craft and techniques in the context of two languages.

**Prerequisite:** SPAN-225 with a minimum grade of C.

**SPAN-301. Advanced Spanish Grammar. 3 Hours.**

Comprehensive review of Spanish grammar for students at the Advanced Level. Focus on the structure of the Spanish sentence (morphology and syntax) as a means to successfully master normative writing styles.

**Prerequisite:** SPAN-253 with a minimum grade of D.

**SPAN-310. Creative Writing In Spanish. 3 Hours.**

Creative Writing in Spanish introduces students to creative writing in two different genres: poetry and short story. Students will learn the defining characteristics of these genres through the production, reading and analysis of their own texts and the text of peers. Student will also learn how to produce a literary publication through their participation in Consenso, the literary magazine run by students in the Masters program in Latin American Literatures and Cultures. Local authors who publish in Spanish will be invited to class to read from their work, share their experience and give advice. Taught in Spanish.

**Prerequisite:** SPAN-253 with a minimum grade of C.

**SPAN-312. Advanced Conversation. 3 Hours.**

Continuation of SPAN-251. Mastery of various speaking skills leading toward communicative competence. Conducted in Spanish.

**Prerequisite:** SPAN-251 with a minimum grade of D.

**SPAN-314. Latin American Culture. 3 Hours.**

This course offers students an introduction to Latin American culture from pre-Columbian times to the present, through the contextualized study of representative cultural texts, including literature, music, painting, and film. Topics include pre-Columbian civilizations, the European Conquest, Colonial Baroque culture, Independence movements, 19th century nation building, 20th century revolutions, and contemporary issues. Taught in Spanish.

**Prerequisite:** SPAN-253 with a minimum grade of D.

**SPAN-315. Spanish Culture. 3 Hours.**

This course offers students an introduction to Spanish culture from its roots in pre-Roman times to the present, through the contextualized study of representative cultural texts, including literature, music, painting and film. Topics include the legacy of the Roman Empire, Muslim, Jewish and Christian coexistence during the Middle Ages, the Spanish Golden Age, Bourbon Spain, the Second Republic, Spain under Franco, and contemporary issues. Taught in Spanish.

**Prerequisite:** SPAN-253 with a minimum grade of D.

**SPAN-319. Applied Spanish Linguistics. 3 Hours.**

Linguistic principles and their application in the preparation of teaching materials and of microlessons.

**Prerequisite:** SPAN-253 with a minimum grade of D.

**SPAN-321. Latin American Literature I. 3 Hours.**

This course offers students an introduction to Latin American Literature from pre-Columbian times to the end of the 19th Century, through a critical analysis of representative works of poetry, narrative and drama. Topics include Nahuatl, Inca and Maya cosmogonies and poetry, literary perspectives on the Conquest, the New World Baroque, Latin American Romanticism, and Modernismo. Taught in Spanish.

**Prerequisite:** SPAN-252 with a minimum grade of D and SPAN-253 with a minimum grade of D.

**SPAN-322. Independent Study In Spanish. 3 Hours.****SPAN-323. Latin American Literature II. 3 Hours.**

This course offers students an introduction to Latin American Literature of the 20th and 21st centuries, through the critical analysis of representative works of poetry, narrative, drama, and the essay. Topics include Posmodernismo, Vanguardias, Social Realism, Regionalism, Indigenismo, Negritud, the Neobaroque, Magical Realism, Feminist Literature, Testimonio, U.S. Latina/o Literature, and contemporary trends. Taught in Spanish.

**Prerequisite:** SPAN-252 with a minimum grade of D and SPAN-253 with a minimum grade of D.

**SPAN-324. Advanced Composition. 3 Hours.**

Advanced study of Spanish composition using complex grammatical structures with special attention to style. Conducted in Spanish.

**Prerequisite:** SPAN-253 with a minimum grade of D.

**SPAN-326. Spanish Literature I. 3 Hours.**

This course offers an introduction to Spanish literature written between 1200 and 1700, through a critical analysis and contextualization of representative works of poetry, fiction and drama. Topics include Medieval secular and sacred literature, the literature of the Spanish Golden Age, the rise of the modern novel, Renaissance poetry, and literature of the Baroque. Taught in Spanish.

**Prerequisite:** SPAN-252 with a minimum grade of D and SPAN-253 with a minimum grade of D.

**SPAN-327. Business Spanish I. 3 Hours.**

Foundations of business vocabulary, business writing, basic business and cultural concepts, and situational practices to be successful in today's Spanish-speaking business world. The course interweaves three thematic threads: a business context, a geographic context and a cultural context.

**Prerequisite:** SPAN-253 with a minimum grade of D.

**SPAN-328. Spanish Literature II. 3 Hours.**

This course offers an introduction to Spanish literature written between 1700 and the present, through a critical analysis and contextualization of representative works of poetry, fiction and drama. Topics include Romanticism, Realism and Naturalism, Generación del 98, Generación del 27, literature of the Spanish Civil War and its aftermath, and recent literature. Taught in Spanish.

**Prerequisite:** SPAN-252 with a minimum grade of D and SPAN-253 with a minimum grade of D.

**SPAN-329. Introduction To Spanish American And Spanish Literature. 3 Hours.**

Overview of literary periods and significant trends in Spanish-American and Spanish Literature. Survey of major writers and their principal works. Conducted in Spanish.

**Prerequisite:** SPAN-312 with a minimum grade of D or SPAN-317 with a minimum grade of D.

**SPAN-331. Hispanic World Cultures. 3 Hours.**

Study of the various aspects of the cultures of the Hispanic World. Conducted in Spanish.

**Prerequisite:** SPAN-317 with a minimum grade of D.

**SPAN-351. Generation Of 1898. 3 Hours.**

Analysis of the general character of the period called Generation of 1898 in Spanish Literature. Conducted in Spanish.

**Prerequisite:** SPAN-326 with a minimum grade of D or SPAN-328 with a minimum grade of D.

**SPAN-352. Puerto Rican Literature. 3 Hours.**

Survey of Puerto Rican literature from 1650 to the present; principal literary movements in novel, short story, poetry, and drama. Conducted in Spanish.

**Prerequisite:** SPAN-321 with a minimum grade of D or SPAN-323 with a minimum grade of D.

**SPAN-353. Spanish For Teachers Of Spanish. 3 Hours.**

This capstone course is designed for the Spanish major, and in particular, for those seeking K-12 certification. In terms of language pedagogy, expressions such as student-centered and teaching-centered approaches figure prominently. In this course different pedagogical approaches will be explored as they relate to the teaching of grammar, writing, reading, vocabulary acquisition, pronunciation and intonation in Spanish. The course is conducted entirely in Spanish.

**Prerequisite:** SPAN-253 with a minimum grade of D.

**SPAN-354. Spanish American Literature To 1888. 3 Hours.**

Reading and study of Spanish-American literature from its beginning up to and including the Romantic period. Conducted in Spanish.

**Prerequisite:** SPAN-329 with a minimum grade of D.

**SPAN-356. Realism And Naturalism In Spanish American Literature. 3 Hours.**

Reading and study of Spanish-American literature emphasizing "criollismo", "indianista", and Gaucho literature. Conducted in Spanish.

**Prerequisite:** SPAN-321 with a minimum grade of D or SPAN-323 with a minimum grade of D.

**SPAN-357. Prose Of The Golden Age. 3 Hours.**

Reading and study of the literary prose of the Spanish Golden Age. Emphasis on Don Quixote and the Picaresque novel. Conducted in Spanish.

**Prerequisite:** SPAN-326 with a minimum grade of D or SPAN-328 with a minimum grade of D.

**SPAN-358. El Modernismo. 3 Hours.**

Reading and study of the prose and poetry of the Modernist authors of Spanish America. Conducted in Spanish.

**Prerequisite:** SPAN-321 with a minimum grade of D or SPAN-323 with a minimum grade of D.

**SPAN-359. Spanish Literature Of The 19th Century. 3 Hours.**

Study of Romanticism, Realism, and Naturalism in Spain. Conducted in Spanish.

**Prerequisite:** SPAN-326 with a minimum grade of D or SPAN-328 with a minimum grade of D.

**SPAN-363. The Generation Of 1927. 3 Hours.**

Works of the principal figures of the Generation of 1927. Conducted in Spanish.

**Prerequisite:** SPAN-326 with a minimum grade of D or SPAN-328 with a minimum grade of D.

**SPAN-364. Chicago's Latin@ Literature & Culture. 3 Hours.**

Contributions of Spanish-American to Chicago and their impact on the city. Conducted in Spanish.

**Prerequisite:** SPAN-321 with a minimum grade of D or SPAN-323 with a minimum grade of D.

**SPAN-366. Literatura Indígena En Las Américas. 3 Hours.**

In this course, we will engage contemporary indigenous literature published bilingually (Maya T'aan, Zapotec, Tzotzil, etc. - Spanish), as well as indigenous oral traditions, textiles, musical production and performances, social relations, politics, and other forms of expressive culture. From within those (con)texts, we will consider the cultural combinations that emerge from Latin America's tripartite indigenous, Iberian and African heritage. Topics will vary and include indigenous cosmology, coloniality, hegemony, ontology and cultural reification, ethnogenesis, identity politics, indigenous resistance and revitalization, diaspora, transnationalism, globalization, migration, modernity and tradition, cultural authenticity and social transformation.

**SPAN-367. Business Spanish II. 3 Hours.**

Advanced business vocabulary, business writing, basic business and cultural concepts, and situational practice for success in today's Spanish-speaking business world. Course develops along three primary inter-related thematic threads: A business context, a geographic context and a cultural context.

**Prerequisite:** SPAN-327 with a minimum grade of D.

**SPAN-368. Latin American Cinema. 3 Hours.**

This course offers students a panoramic overview of Latin American cinema through the critical study of representative films in their political, economic and aesthetic contexts. Conceptually, the course is a cultural history of Latin America in the twentieth and twenty-first centuries, as seen through paradigmatic films of the Silent Period, the Avant-Garde, Studio Cinema, Neorealism, New Latin American Cinema, and contemporary cinema. Taught in Spanish.

**Prerequisite:** SPAN-314 with a minimum grade of C.

**SPAN-369. Latin America Culture Through Music. 3 Hours.**

This course develops an understanding of Latin American music as a cultural artifact, traces its roots and origins in Europe, Africa and indigenous cultures, and explores its central role in shaping cultural values and identities, both in Latin America and in U.S. cities like Chicago. Taught in Spanish.

**Prerequisite:** SPAN-314 with a minimum grade of C.

**SPAN-370. Seminar On Don Quixote. 3 Hours.**

This course explores the many and complex fictional worlds of Miguel de Cervantes's Don Quixote, the two-part novel which is widely considered to be one of the greatest pieces of fiction ever written. Through a complete reading of Parts I and II, students will investigate the interplay between this important masterpiece and its socio-historical contexts in Renaissance Europe.

**Prerequisite:** SPAN-326 with a minimum grade of D or SPAN-328 with a minimum grade of D.

**SPAN-371. Seminar: José Martí. 3 Hours.**

Critical study of the life and work of Cuban poet, essayist and political philosopher José Martí (1853-1895).

**Prerequisite:** SPAN-321 with a minimum grade of D or SPAN-323 with a minimum grade of D.

**SPAN-372. Alejo Carpentier. 3 Hours.**

Critical study of selected works by Alejo Carpentier, a leading 20th century Latin American writer and critic.

**Prerequisite:** SPAN-321 with a minimum grade of D or SPAN-323 with a minimum grade of D.

**SPAN-373. Latin American Short Story. 3 Hours.**

Critical study of the development of the short story in Latin America from the 19th century to the present, and as part of broad movements such as Romanticism, Realism, Modernismo, Criollismo, Magical Realism, and Feminism. Emphasis on short-stories published during the last two decades.

**Prerequisite:** SPAN-321 with a minimum grade of D or SPAN-323 with a minimum grade of D.

**SPAN-374. Isabel Allende. 3 Hours.**

Critical study of short stories and novels by Isabel Allende, a popular contemporary Latin American writer whose commercial and critical success rests on the combination of Magical Realism and Feminism.

**Prerequisite:** SPAN-321 with a minimum grade of D or SPAN-323 with a minimum grade of D.

**SPAN-375. Literature Of The Southern Cone. 3 Hours.**

Critical overview of the historical evolution of the literature of Southern South America (Argentina, Chile and Uruguay) from the 19th Century to the 21st Century.

**Prerequisite:** SPAN-321 with a minimum grade of D or SPAN-323 with a minimum grade of D.

**SPAN-376. Gabriel García Márquez. 3 Hours.**

Critical study of the fiction of Nobel Prize Winner Gabriel García Márquez, including One Hundred Years of Solitude, the paradigmatic novel of Magical Realism, as well as his more recent work.

**Prerequisite:** SPAN-321 with a minimum grade of D or SPAN-323 with a minimum grade of D.

**SPAN-377. Caribbean Literature. 3 Hours.**

Critical study of Caribbean literature, with special emphasis on the literature of Puerto Rico, Cuba, and the Dominican Republic in the 20th and 21st centuries. The course explores the Caribbean as a socio-cultural area where the interaction between Indigenous, European, and African cultures over five centuries has created hybrid identities and worldviews.

**Prerequisite:** SPAN-321 with a minimum grade of D or SPAN-323 with a minimum grade of D.

**SPAN-378. Mexican Literature. 3 Hours.**

This course explores Mexican literary production from pre-Hispanic times to the present, including key texts by Netzahualcōyotl, Sor Juana Inés de la Cruz, Juan Rulfo, Rosario Castellanos, Octavio Paz, and Carlos Fuentes, among others. Conducted in Spanish.

**Prerequisite:** SPAN-321 with a minimum grade of D or SPAN-323 with a minimum grade of D.

**SPAN-379. Latin American Theater. 3 Hours.**

This course provides students with a thorough overview of Latin American theater through the study of key plays and theories of drama. Conducted in Spanish.

**Prerequisite:** SPAN-321 with a minimum grade of D or SPAN-323 with a minimum grade of D.

**SPAN-380. Literary Criticism. 3 Hours.**

This course explores the origins and evolution of a variety of literary genres as a starting point to analyze and evaluate the relationship between content, form and context in specific works. Conducted in Spanish.

**Prerequisite:** SPAN-321 with a minimum grade of D or SPAN-323 with a minimum grade of D or SPAN-326 with a minimum grade of D or SPAN-328 with a minimum grade of D.

**SPAN-380C. Seminar In Latin American Literary & Cultural Studies. 3 Hours.**

This course prepares students to frame, conduct, explore the origins and produce research on Latin American literature evolution of a variety of literary genres as a starting point to analyze and culture; students are required to take it before graduating from the BA evaluate the relationship between content, form and context in Spanish. specific works. The course has three overlapping learning objectives: (1) to develop students' ability to analyze literary and cultural texts; (2) to develop strategies and methods to locate, evaluate, and manage primary and secondary sources related to a specific research project; (3) to acquaint students with some of the major critical and theoretical debates in the field. Taught Conducted in Spanish. Students in the Accelerated Program should enroll in SPAN-401 instead 380C.

**SPAN-381. Contemporary Latin American Narrative. 3 Hours.**

This course is a critical study of major works and currents of contemporary Latin American narrative, as well as relevant critical and theoretical perspectives. Primary texts studied may include novels, short stories, testimonials, chronicles and narrative film. Students develop research skills and proficiency in oral and written expression through class assignments, including a final research paper. May be repeated for credit when primary texts studied vary.

**SPAN-382. Literature, Indios & The Yucatec Maya. 3 Hours.**

In this course, we will delve into the literary and cultural traditions of Latin America in order to answer the following question: who is the Indio? Students will discover that the answer to this question depends greatly on the social, economic, and political context in which the idea of Indio is constructed. Course emphasizes the context within Mexico's Yucatán peninsula, focusing on the nineteenth-century Caste War, henequen monoculture, and the environmental effects of tourism.

**Prerequisite:** SPAN-321 with a minimum grade of C or SPAN-323 with a minimum grade of C.

**SPAN-383S. Special Topics In Spanish-Language Literary And Cultural Studies. 3 Hours.**

Study of a selected theme in Spanish, Latin American, or Latina/o/x literature, culture, or linguistics depending on the professor's area of expertise. Consult with department for more information. Course is taught in Spanish. May be repeated for credit when topic is different. A student needs intermediate to advanced fluency in Spanish in order to enroll in this course.

**SPAN-384. Drogas, Intoxicación Y Adicción En Las Américas. 3 Hours.**

In this interdisciplinary approach to drugs, intoxication and addiction in the Americas students challenge received knowledge on these topics by analyzing cultural products that portray drug trafficking, consumption and addiction and by engaging with critical theory that problematizes the role of drugs in our society and the social harms caused by prohibition. Emphasis is given to the ways that various systems of oppression, such as capitalism, racism, (neo)colonialism and patriarchy, intersect in the economy of drugs and how perspectives from the Global South can illuminate more liberating perspectives on the relationship between humans and intoxicants. Taught in Spanish.

**Prerequisite:** SPAN-321 with a minimum grade of C or SPAN-323 with a minimum grade of C.

**SPAN-391. Internship: Community Spanish. 3 Hours.**

This capstone course is an opportunity for students to demonstrate what they have acquired in their Spanish language, literature and culture concentration through an internship tailored to enhance their understanding of the social and political life of Latinos in the surrounding communities. The internship will be an intense course that will give students the opportunity to apply the knowledge and skills developed over the course of their undergraduate career to an actual work or service setting. Students should expect to work closely with site supervisor, others at internship site, seminar classmates, and the assigned Professor.

**Prerequisite:** SPAN-314 with a minimum grade of C.

**SPAN-3981. Independent Study In Spanish. 1 Hour.**

An intensive investigation of an area of Spanish studies.

**Prerequisite:** SPAN-252 with a minimum grade of C and SPAN-253 with a minimum grade of C.

**SPAN-3982. Independent Study In Spanish. 2 Hours.**

An intensive investigation of an area of Spanish studies.

**Prerequisite:** SPAN-252 with a minimum grade of C and SPAN-253 with a minimum grade of C.

**SPAN-3983. Independent Study In Spanish. 3 Hours.**

An intensive investigation of an area of Spanish studies.

**Prerequisite:** SPAN-252 with a minimum grade of C and SPAN-253 with a minimum grade of C.

**SPAN-400. Visión De América I. 3 Hours.**

This course explores the images of and ideas about "America" contained primarily but not exclusively in literary works prior to the twentieth century. May address issues relevant to the field of Cultural Studies. Must be taken within the first 12 hours of enrollment in the M.A. Program.

**SPAN-401. Introduction To Latin American Literary & Cultural Studies. 3 Hours.**

Designed as a workshop, this course prepares students to frame, conduct, and produce research on Latin American literature and culture; students are required to take it upon entering the program. The course has three overlapping learning objectives (1) to develop students' ability to analyze literary and cultural texts; (2) to develop strategies and methods to locate, evaluate, and manage primary and secondary sources related to a specific research project; and (3) to acquaint students with some of the major critical and theoretical debates in the field. Taught in Spanish.

**SPAN-407. Latin American Baroque Literature And Culture. 3 Hours.**

This seminar will explore key aspects of the Latin American Baroque as an original contribution to global baroque culture in the seventeenth and eighteenth centuries, and as a period when a Latin American identity began to crystallize. Taught in Spanish.

**SPAN-408. Topics In Latin American Cinema. 3 Hours.**

This seminar will examine one or more modes of production and/or representation in Latin American Cinema. Possible topics include periods, genres, auteurs, and national cinemas, and the role of theory and criticism in the reception and evaluation of specific films and cinematic movements. Taught in Spanish.

**SPAN-410. History Of The Spanish Language. 3 Hours.**

Study of the historical, geo-political, sociological, and linguistic (phonological, morphological, syntactical) factors that have shaped the evolution of the Spanish Language.

**SPAN-413. Spanish Dialectology. 3 Hours.**

Phonetics and phonology of Spanish, evolution of Spanish from its Latin roots to the present, and general dialectal tendencies of the Spanish language from each of the Spanish-speaking nations in the Americas. Research project requires theoretically informed analysis of student-gathered data. Taught in Spanish.

**SPAN-414. U.S. Latina/o Literature & Culture. 3 Hours.**

This course supplements these offerings by focusing on the literary production of Hispanophone and Latino/a-identified writers and artists in the US, including native Latinos, exiles and immigrants. Assignments, lectures and discussion will center on questions of identity, culture, history, politics and aesthetics. Readings will offer a broad representation of writers from North America, South America, Central America and the Caribbean and will cover various genres including essays, novels, poetry and drama. The course is taught in Spanish with readings in Spanish and English. For students who are teaching or plan to teach, the course will also provide analysis of pedagogical methods in Latino/a studeies.

**SPAN-415. Andean Literature & Culture. 3 Hours.**

Critical study of the literary and cultural production in the Andean region of South America, with special emphasis on the worldviews of its predominantly indigenous and mestizo populations. Taught in Spanish.

**SPAN-416. Latin American Avant-Gardes. 3 Hours.**

Critical study of experimental literature and art in 20th century in Latin America, with special emphasis on the historical avant-gardes (i.e., 1920s and 1930s), and their legacy on subsequent cultural production. Taught in Spanish.

**SPAN-418. Novels Of The Mexican Revolution. 3 Hours.**

This course explores the representation of the Mexican Revolution and its aftermath in Mexican literature, and the novel in particular. Conducted in Spanish.

**SPAN-419. Topics In Contemporary Mexican Literature. 3 Hours.**

This course offers a critical study of major works and currents in contemporary (1960s-present) Mexican literature, focusing on literary trends and the role of criticism in the reception and evaluation of works and literary movements. Taught in Spanish.

**SPAN-420. Visión De América II. 3 Hours.**

This course explores the images of and ideas about "America" contained primarily but not exclusively in literary works of the twentieth and twenty-first centuries. Must be taken within the first 12 hours of enrollment in the M.A. Program.

**SPAN-421. Spanish Pedagogy: How To Teach Grammar, Vocabulary, Culture, Literature And Writing. 3 Hours.**

This graduate level seminar will begin by briefly exploring the pedagogical history of language teaching: approaches, methods and techniques. The course will focus more specifically on the pedagogical challenges posed by the teaching of culture, literature, grammar, vocabulary, writing and conversation in the diversified classroom with students of varying levels of linguistic proficiency. The students will develop classroom skills and strategies by designing materials for these pedagogical issues. The students will be able to formulate contextualized lesson plans and assessment measures in accordance with the National Standards for Foreign Language Learning. The course is conducted entirely in Spanish.

**SPAN-428. Topics In Pre-Columbian Art. 3 Hours.**

Selected topics in Pre-Columbian art. Advanced research papers and presentations. Content changes. May be repeated for 6 credits. Taught in Spanish.

**SPAN-431. Latin American Romanticism. 3 Hours.**

Critical study of the origins, evolution and legacy of Romanticism in Latin American literature. Authors include José María Heredia, Gertrudis Gómez de Avellaneda, Ricardo Palma, Jorge Isaacs, José Mármol and Manuel de Jesús Galván and in particular their adaptation of Rousseau's project for a utopian society to a Latin American context.

**SPAN-432. Latin American Modernismo. 3 Hours.**

Critical study of the origins, evolution and legacy of Modernismo, the first autochthonous literary movement to emerge in Latin America. Authors include José Martí, Rubén Darío, Manuel Gutiérrez Nájera and Amado Nervo.

**SPAN-433. José Martí. 3 Hours.**

Critical perspectives on the life and work of Cuban poet, essayist and political philosopher José Martí (1853-1895).

**SPAN-434. Latin American Magical Realism. 3 Hours.**

Critical study of the origins, evolution and legacy of Magical Realism in Latin American Literature. Representative works by Alejo Carpentier, Miguel Ángel Asturias, Gabriel García Márquez, Isabel Allende, Cristina García, and Laura Restrepo.

**SPAN-435. Gabriel García Márquez. 3 Hours.**

Critical perspectives on the writings of Gabriel García Márquez, and in particular his seminal *One Hundred Years of Solitude*.

**SPAN-436. Hablares En Contacto: El Español En Estados Unidos. 3 Hours.**

Language change accelerates when two or more languages or dialects are in contact; such is the case between English and Spanish, and between different dialects of Spanish in the United States. This course will examine the lexical, structural, phonological, morphological and syntactic influences from English and various dialects of Spanish on U.S. Spanish, and their impact on the linguistic landscape and the construction of identity in the United States. Taught in Spanish.

**SPAN-440. Teaching Spanish-Language Heritage Learners. 3 Hours.**

This seminar is an exploration of the research and practice of teaching Spanish to Heritage Language (HL) learners, a term broadly defined as students who choose to formally study a language they speak or hear (or spoke or heard in childhood). We will consider the goals and principles in HL instruction, as well as ways to adopt HL pedagogy in mixed classrooms with Second Language (L2) learners, or those who study a language with which they have little to no prior experience.

**SPAN-460. Literatura(s) trans\*. 3 Hours.**

In this seminar, we approach the study of Spanish-language novels, art, and essays from multiple geopolitical spaces in order to consider how trans\*-identifying authors, activists and artists represent trans\*ness and queerness writ large as redefining of subjectivity and belonging. We will define and complicate the asterisk in Trans\* theory in order to discuss relationality with belonging mediated by the state and by cisheteronormative practices. This course is taught in Spanish, with texts in Spanish, Spanglish, and English.

**Requirement:** Near-native Spanish language proficiency as demonstrated by major standing in LALC program or department approval.

**SPAN-466. Literatura Indígena En Las Américas. 3 Hours.**

In this course, we will engage contemporary indigenous literature published bilingually (Maya T'aan, Zapotec, Tzotzil, etc. - Spanish), as well as indigenous oral traditions, textiles, musical production and performances, social relations, politics, and other forms of expressive culture. From within those (con)texts, we will consider the cultural combinations that emerge from Latin America's tripartite indigenous, Iberian and African heritage. Topics will vary and include indigenous cosmovision, coloniality, hegemony, ontology and cultural reification, ethnogenesis, identity politics, indigenous resistance and revitalization, diaspora, transnationalism, globalization, migration, modernity and tradition, cultural authenticity and social transformation.

**SPAN-470. Feminismos Decoloniales Desde Abya Yala. 3 Hours.**

The course defines and contextualizes decolonial feminist praxis among Indigenous/Native and Latin American activists and academics. In the first part of the course, we begin to make sense of what decoloniality is via the notion of coloniality and its extension and antecedents beyond academia. In the second part of the course, we will think beside Sara Ahmed's notion of "the personal is theoretical," via the oppressive structures of coloniality and how they affect every aspect of one's lived experience, from ways of thinking and being to enactments of labor, sexuality, gender, and reproduction.

**SPAN-481. Contemporary Latin American Narrative. 3 Hours.**

This course is a critical study of major works and currents of contemporary Latin American narrative, including novels, short stories, testimonial narrative, chronicles and narrative film. The course also focuses on the role of criticism in the reception and evaluation of narrative works. Taught in Spanish.

**SPAN-484. Drogas, Intoxicación Y Adicción En Las Américas. 3 Hours.**

In this interdisciplinary approach to drugs, intoxication and addiction in the Americas students challenge received knowledge on these topics by analyzing cultural products that portray drug trafficking, consumption and addiction and by engaging with critical theory that problematizes the role of drugs in our society and the social harms caused by prohibition. Emphasis is given to the ways that various systems of oppression, such as capitalism, racism, (neo)colonialism and patriarchy, intersect in the economy of drugs and how perspectives from the Global South can illuminate more liberating perspectives on the relationship between humans and intoxicants. Taught in Spanish.

**SPAN-485. Study Tour: Latin America. 3 Hours.**

This course is designed as a seminar that culminates in a Study Tour to a Latin American country. Students will be able to research and discuss subjects related to the Study Tour before the trip and will continue exploring these subjects while visiting the country.

**SPAN-493. La Voz Del Pueblo: Eye Dialect And The Regional Text. 3 Hours.**

Regional authors embed national and regional history and culture in their writing, validating the voice and identity of marginalized community/ies. This course approaches regional texts from a linguistic perspective, exploring how authors code speech phenomena using spelling representative of pronunciation instead of standard orthography. This technique, known as eye dialect, emphasizes power imbalances between characters whose dialect follows orthographic conventions and those who do not. Students will decode eye dialect and regionalisms in diverse texts to discover what direct and indirect messages they convey about class, privilege and prestige.

**Prerequisite:** SPAN-413 with a minimum grade of C.

**SPAN-5901. Thesis Hours. 1 Hour.**

**SPAN-5902. Thesis Hours. 2 Hours.**

**SPAN-5903. Thesis Hours. 3 Hours.**

# Special Education (SPED)

---

## Courses

### **SPED-109. First Year Experience: Gusty Chicago: Explore Your Inner Rush. 3 Hours.**

In this course, the student will discover strategies to help him or herself and others learn optimally. The student will visit off and on campus resources to become a robust learner and to learn the many pathways that are available for personal and academic success. Also, the student will communicate orally and in writing about the current field of special education and how it affects the lives of individuals with special needs. The student will obtain an opportunity to gain conceptual understanding of Chicago's resources designed to support and broaden strengths, which are critical in a first year experience.

### **SPED-272. The Development And Characteristics Of Children And Youth With Exceptional Learning. 3 Hours.**

The development and characteristics of children and youth with exceptional learning needs is examined. Exceptionalities include but are not limited to Intellectual Disabilities, Learning Disabilities, Emotional and Behavior Disorders, ADD, Giftedness, Communication disorders, Physical Disabilities, Traumatic Brain Injury, Severe and Multiple Disabilities, Autism, Health Impairments, and Sensory impairments. Emphasis will be on understanding causes, theories and factors associated with the manifestation of various exceptional learning conditions.

**Prerequisite:** SPED-371 with a minimum grade of C.

### **SPED-316. Professional Development Of The Special Educator. 1 Hour.**

Special Education 316 provides special education teacher candidates the opportunity to develop critical skills indicative of a prepared and highly qualified special educator. Candidates will demonstrate the foundational development of cultural competency/reciprocity to work with students from culturally/linguistically diverse (CLD) backgrounds, articulate specific practices/policies regarding professional obligations (e.g., child protection laws, digital etiquette and safety, rights on intellectual property and fair use), discuss collaborative approaches in working with various members of the school/home/community, examine the significance of self-initiated, continuous professional development and improvement for all educators and provide evidence of meeting the professional competencies required of a beginning special educator. Prerequisites: All Bachelor of Arts in Special Education coursework (Block I and II) prior to student teaching.

### **SPED-317. Inclusive Teaching Strategies. 1.5 Hour.**

Inclusive Teaching Strategies is designed to provide pre-service teachers with an overview of curricular design and strategies used in teaching students with exceptional learning needs in inclusive elementary school classrooms. Specially designed instructional strategies include the integration of Universal Design for Learning (UDL) tenets to build differentiated learning structures which support learners of varying abilities. The course emphasizes curricular adaptation with focus on anchor skills within Common Core Student Standards (CCSS). The ability to develop instructional plans using multiple means of representation, engagement, and expression will be assessed.

### **SPED-323. Consultation In Special Education. 3 Hours.**

This course is designed to foster effective communication skills in dealing with students, families, school professionals and outside agencies to build collaborative partnerships with an understanding of the roles of responsibilities of various stakeholders. Background, theory, and models of consultation and collaboration, co-teaching, pre-referral interventions and inclusion will be covered. Procedure for assuming leadership roles when planning and conducting collaborative meetings, parent participation and staff development will also be addressed.

### **SPED-371. Writing Intensive Program: Foundations Of Special Education. 3 Hours.**

Presentation of the philosophical and historical foundations of the field of special education. Discussion of existing law, legal applications, current trends, practices, professional behavior and ethical considerations. Overview of methods of inquiry utilized by the profession. Development of professional writing skills used in the field of special education. This course meets the NEIU Writing Intensive requirement for majors in SPED.

**Prerequisite:** ENGL-101 with a minimum grade of C.

### **SPED-374. Supervised Field Experience I. 3 Hours.**

Students will be placed in a school setting, with supervision, to observe and help teach pupils with disabilities. Emphasis will be placed on higher incidence disabilities. Both primary and secondary school placements will be available.

**Prerequisite:** SPED-272 with a minimum grade of C.

### **SPED-376. Teaching Learners With Moderate To Severe Disabilities. 3 Hours.**

This course addresses methodologies for teaching individuals with moderate to severe disabilities. Emphasis will be given to the basics of instructional design across the academic and social arena, including assessing and prioritizing skills for instruction, writing goals and objectives and using antecedent and consequence based instructional procedures. The special needs of students with communication deficits, severe cognitive, health and physical disabilities will be addressed.

**Prerequisite:** SPED-373 with a minimum grade of C.

### **SPED-377. Supervised Field Experience II. 3 Hours.**

Candidates will be placed in a school setting, with supervision, to observe and help teach students with exceptional learning needs. Emphasis will be placed on assessment and the integration of technology appropriate for meeting the needs of diverse learners.

**Prerequisite:** SPED-373 with a minimum grade of C and SPED-374 with a minimum grade of B.

**SPED-379. Managing Behaviors In The Classroom. 3 Hours.**

The principles of behavior management will be explored. Topics will include managing student progress, classroom management, student interventions, improving social skills, aggressive behavior, and working with autistic behaviors.

**Prerequisite:** SPED-272 with a minimum grade of C.

**SPED-381. Student Teaching In Special Education. 12 Hours.**

Supervised classroom teaching experience combined with seminar discussions. Study of the school community as a social unit; classroom management; candidate teacher's professional disposition and behavior; culture and personality dynamics; instructional/assistive technology; parent/family relationships; diagnoses of disability conditions; recommended teaching techniques and curriculum organization.

**Requirement:** Passing score on LBS I Exam (#155) and Special Education General Curriculum Exam (#163); Evidence of TB test (negative results); Satisfactory completion of all coursework (major and cognate categories) with acceptable final grades, Acceptable rating (or higher) on all key assessments.

**SPED-382. Strategies For Differentiating Instruction For Students With Exceptional Learning Needs. 3 Hours.**

This course focuses on evidence-based instructional strategies appropriate for individuals with disabilities who access the general education curriculum. Specialized strategies to build initial acquisition of knowledge and skills in the areas of reading, spoken and written language, mathematics, social/emotional development, and study skills will be addressed, as well as techniques across the curriculum that enable meaningful inclusion of individuals with a range of abilities. Emphasis will also be given to the development and planning of the individualized educational program (IEP).

**SPED-383. Informal Assessment And Progress Monitoring. 3 Hours.**

Special Education 383 establishes an understanding of the principles of assessment as a means to evaluate and address the academic and/or behavioral needs of students at-risk and students with disabilities. The course provides candidates the opportunity to develop professional skills in assessment administration, score interpretation of psychometric and curriculum-based measurements (CBM); use outcome data results to plan instruction, appropriate accommodations and modifications, monitor student progress, and use assessment data for problem-solving decision making and special education eligibility.

**Prerequisite:** SPED-382 with a minimum grade of C.

**SPED-384. Instructional Design For Individuals With Exceptional Learning Needs. 3 Hours.**

This course focuses on establishing an evidence-based framework for instructional planning appropriate for individuals with exceptional learning needs and grounded in the community assets and real life issues of the learner. Content will address critical features of instructional design including the impact of various cognitive processes and diversity characteristics that impact student learning. Emphasis will be on the developing short-and long-term objectives in an instructional sequence that supports learners' academic and social/emotional learning as well as language/communication needs.

**Prerequisite:** SPED-382 with a minimum grade of D.

**SPED-385. Community Partnership And Advocacy. 3 Hours.**

This course provides undergraduate candidates the opportunity to work collaboratively with peers and community partners to identify needs in Chicago and area communities through service learning projects. Candidates will examine key components in the development of effective community partnerships and the cultivation of advocacy/ leadership skills on behalf of students with exceptionalities. Candidates will engage in establishing partnerships among private and/or public organizations for the purposes of evaluating and improving the family-school-community relationship.

**Prerequisite:** SPED-377 with a minimum grade of B and SPED-379 with a minimum grade of C.

**SPED-395. Technology And Special Education. 3 Hours.**

Candidates will study administrative, assistive and instructional technology applications in the field of special education. Review of research and practices in the field regarding assistive and instructional technology.

**Prerequisite:** SPED-272 with a minimum grade of C and SPED-375 with a minimum grade of C and SPED-378 with a minimum grade of C and (SPED-304 with a minimum grade of D or SPED-404 with a minimum grade of D).

**SPED-400. Vocational/Career Planning For Adolescents With Disabilities. 3 Hours.**

Issues in vocation/career planning for special education secondary students utilizing assessment information, interest, and aptitude findings for vocational/ career planning, including methodology, material, resources, and alternative programs.

**Prerequisite:** SPED-404 with a minimum grade of C.

**SPED-404. Survey Of The Field Of Special Education. 3 Hours.**

Review of the legal, psychological, sociological and educational aspects of the lives of children and youth with disabilities including the learning disabled. For students needing 100 hours of clinical experience, arrangements will be made through SPED-404.

**SPED-417. Inclusive Teaching Strategies For Secondary Teachers. 1.5 Hour.**

Inclusive Teaching Strategies is a course designed to provide candidates with an overview of curricular design and strategies used in teaching students with exceptional learning needs in inclusive secondary school classrooms. Specially designed instructional strategies include the integration of Universal Design for Learning (UDL) tenets to build differentiated learning structures, which support learners of varying abilities. The course emphasizes curricular adaptation with focus on anchor skills within Common Core Student Standards (CCSS). The ability to develop instructional plans using multiple means of representation, engagement, and expression will be assessed.

**SPED-451. Creativity. 3 Hours.**

Discussion and inquiry into the nature and nurture of creative ability, review of research in creativity, practical application of creative processes, ways to develop creative thinking.

**SPED-454. Teaching Gifted Students In The Regular Classroom. 3 Hours.**

Overview of teaching strategies, materials and classroom organization to enhance and foster the potential of student who are gifted and talented.

**SPED-466. Assessing Students With Limited English Proficiency (LEP) And Disabilities. 3 Hours.**

This course provides an overview of strategies and instruments that can be used to assess the academic and social behavior of pupils with limited English proficiency identified as or suspected of having special education needs.

**Prerequisite:** SPED-404 with a minimum grade of C and SPED-409 with a minimum grade of C and SPED-410 with a minimum grade of C.

**SPED-467. Teaching Students With Limited English Proficiency (LEP) And Disabilities. 3 Hours.**

This course will provide a theoretical framework to critically analyze the problems faced by students with LEP and special needs. The focus of the course is on instructional practices and approaches which seem to be effective with handicapped language minority students.

**Prerequisite:** SPED-404 with a minimum grade of C and SPED-409 with a minimum grade of C and SPED-410 with a minimum grade of C.

**SPED-470. Administration And Supervision In Special Education. 3 Hours.**

Introduction to special education administration including legal and financial aspects, staff and community relations, mainstreaming, facilities and curricular design; students will have an opportunity to solve problems using case studies and simulated materials.

**SPED-481. Principles Of Diagnosis And Teaching The Child With Special Needs Aged Three To Six Years. 3 Hours.**

Principles of diagnosis and teaching the young child with special needs. Aspects of assessment include screening, formal and informal tests, and use of diagnostic information to plan individualized educational program. Theory and practice of teaching techniques for the young child with special needs; discussion of the role of the special education teacher in working with other members of the multidisciplinary team and with parents. Current research and issues.

**SPED-482. Principles Of Diagnosis & Teaching The Child With Special Needs: Birth To Six Years. 3 Hours.**

This course applies the principles of diagnosis and teaching infants, toddlers and young children with special needs. Students will use diagnostic information to design an individual family service plan and individualized education program. Topics include theory and practice of instructional techniques, adaptations, and modifications for infants, toddlers and young children with special needs. Course content will also address the role of the special educator in working with other members of the multidisciplinary team and with parents. Current research and issues will be reviewed.

**SPED-483. Working With Parents Of Young Children With Special Needs. 3 Hours.**

This course will develop skill in working with families of young (birth to six year old) children with special needs. Issues such as family systems approaches, communication skills, parent empowerment, legal rights and working with service agencies are covered.

**SPED-484. Psychology Of Language And Cognitive Development. 3 Hours.**

This course introduces the student to the basic concepts of developmental psycholinguistics and the principles of intervention in language processes.

**SPED-488. Practicum In Early Childhood Special Education: Teaching Young Children With Special Needs. 3 Hours.**

Advanced supervised professional clinical experience in educating young infants, toddlers, or preschoolers with special needs in an appropriate setting; seminar discussions.

**Prerequisite:** SPED-481 with a minimum grade of C and SPED-482 with a minimum grade of C and SPED-483 with a minimum grade of C and SPED-502 with a minimum grade of C and (ECED-403 with a minimum grade of C or ECED-338 with a minimum grade of C).

**SPED-490. Research Seminar In Special Education. 3 Hours.**

Review of research literature on special problems in exceptionality. Research project under the supervision of a faculty advisor.

**SPED-491. Thesis Credit In Special Education. 3 Hours.**

Research project within the area of applicant's field of specialization.

**SPED-494. Research Seminar In Exceptionality. 3 Hours.**

Experimental method applied in a group research project in a specialized area of exceptionality.

**SPED-500. Research I:Special Education. 3 Hours.**

Communicate orally and in writing about the current research in the field of special education and how it affects the lives of individuals with special needs.

**SPED-501. Characteristics Of Children And Youth With Disabilities. 3 Hours.**

Review the psychological, sociological, and educational aspects of the lives of children and youth with disabilities, including legal foundations of special education services. Additionally, graduate students will be able to address the unique needs of working with children/adolescents with disabilities from culturally/linguistically diverse backgrounds as well as demonstrate initial skills in professional reflections as educators.

**SPED-502. Language, Learning And Cognition. 3 Hours.**

This is a graduate level human development course emphasizing cognitive and language development and acquisition and how these processes impact learning throughout the lifespan. Major learning theories and their implications for practice will be examined. Candidates will examine course concepts from the vantage point of supporting the learning of diverse students.

**SPED-503. Foundations Of Special Education. 3 Hours.**

This course examines the historical, philosophical and legal aspects of education that have defined the field of special education.

**SPED-504. Assessment I: Principles Of Educational Assessment In Special Education. 3 Hours.**

Special Education 504 establishes a foundational understanding of the principles of formal and informal assessment to evaluate and address the academic and behavioral needs of students with disabilities. It provides candidates the opportunity to develop professional skills in assessment administration, score interpretation of psychometric and curriculum-based measurements, utilizing ascertained score results to plan instruction and monitor student progress, a working understanding of the principles and practices of Response to Intervention, and understanding of critical considerations in working with students from culturally/linguistically diverse backgrounds.

**Requirement:** Earned minimum grade of C in program courses with no more than 2 'C' grades.

**SPED-505. Consultation & Collaboration. 3 Hours.**

This course prepares the special educator to develop collaborative relationships with a variety of stakeholders and to serve as an informed professional resource for school personnel and families. Topics covered include inclusion, consultation needs, conferencing techniques, collaboration models, in-service education and parent education supports and programs. Also, issues, resources and strategies for integration and transition of students from most restrictive to least restrictive environments will be addressed with emphasis on students who exhibit behavioral challenges.

**Requirement:** Earned minimum grade of C in program courses with no more than 2 'C' grades.

**SPED-506. Instructional & Assistive Technology In Special Education. 3 Hours.**

This course prepares special educators to understand, implement and utilize technology, fostering learning and social outcomes within the context of the Least Restrictive Environment. The course examines special technology used in the assessment and implementation of technology. The legal ramifications of selecting and operating assistive devices are also covered. The relationship of technology theory is also included.

**Requirement:** Earned minimum grade of C in program courses with no more than 2 'C' grades.

**SPED-507. Clinical Experience I: Fundamentals Of Teaching. 2-3 Hours.**

Candidates work on-site in special education programs where services are provided for children and youths with special needs with mild to moderate disabilities. The focus of this experience is on assessing student learning needs and making sound instructional recommendations for students with disabilities who access the general education curriculum. Field-based settings allow candidates to engage in assessment, lesson planning and collaborative activities in school settings.

**Requirement:** Earned minimum grade of C in program courses with no more than 2 'C' grades.

**SPED-507A. Clinical Experience I: Fundamentals Of Teaching. 2 Hours.**

Candidates work on-site in special education programs where services are provided for children and youths with special needs with mild to moderate disabilities. The focus of this experience is on assessing student learning needs and making sound instructional recommendations for students with disabilities who access the general education curriculum. Field-based settings allow candidates to engage in assessment, lesson planning and collaborative activities in school settings. SPED-507A is for students who were admitted prior to FA-2020.

**SPED-508. Methods II: General Curriculum & Methods In Special Education. 3 Hours.**

This course addresses general principles of teaching, including the modifications/ adaptations for individuals (P-21) with disabilities who access the general education curriculum. Candidates will apply individualized goals and planning in the context of the general education curriculum.

**Prerequisite:** SPED-506 with a minimum grade of C and LTCY-402 with a minimum grade of C.

**SPED-509. Methods I: Specialized Curriculum & Methods In Special Education. 3 Hours.**

This course develops candidates' ability to understand the theoretical basis for and implementation of evidence-based strategies to facilitate the meaningful inclusion of students with mild to moderate disabilities in the least restrictive environment. Methodology and strategies to promote development of reading, oral and written expression in the content areas, including language arts, mathematics, science and social studies instruction will be addressed, as well as strategies to support students' social and emotional development. Candidates will demonstrate understanding of Universal Design for Learning to address individual student needs including individual educational goals and objectives.

**SPED-510. Methods III: Strategies Of Behavior Management. 3 Hours.**

Graduate candidates with the principles of applied behavior analysis, positive behavioral supports, and other contemporary approaches for behavior management. Additionally, candidates will be able to address the unique needs of working with children/adolescents with disabilities from culturally/linguistically diverse backgrounds.

**SPED-511. Methods IV: Alternative Programming And Curriculum In Special Education. 3 Hours.**

This course addresses the programming and curriculum issues for students with moderate to severe disabilities who, because of the nature of their disabilities require alternative programs and/or curriculum adaptations within the context of the Least Restrictive Environment.

**Requirement:** No more than 2 C grades in program.

**SPED-512. Clinical Experience II: Intermediate Teaching. 2-3 Hours.**

The purpose of SPED-512 is to involve candidates in working on site in special education programs where services are provided for children and youths with moderate to severe disabilities. It provides initial special education candidates opportunities to apply and reflect upon elements of teaching including instructional design based on the strengths, characteristics, cultural assets and needs of the learner, assessment of student learning, engagement of the learner and implementation of evidence-based strategies in the field. Candidates will learn more about the collaborative role special educators play within the context of the Least Restrictive Environment.

**Prerequisite:** SPED-507 with a minimum grade of C and SPED-509 with a minimum grade of C.

**SPED-512A. Clinical Experience II: Intermediate Teaching. 2 Hours.**

SPED-512A involves candidates in working on site in special education programs where services are provided for children and youths with moderate to severe disabilities. It provides initial special education candidates opportunities to apply and reflect upon elements of teaching, including instructional design, based on the strengths, characteristics, cultural assets and needs of the learner, assessment of student learning, engagement of the learner and implementation of evidence-based strategies in the field. Candidates will learn more about the collaborative role special educators play within the context of the Least Restrictive Environment. This course is for students admitted prior to Fall 2020.

**Prerequisite:** SPED-507 with a minimum grade of C and SPED-509 with a minimum grade of C.

**SPED-513. Assessment II: Applied Diagnostic Testing. 3 Hours.**

Techniques of testing and interpretation of tests in educational diagnosis, familiarity with commonly used assessment instruments, techniques and practice in administering individual diagnostic tests, methods of informal assessment, and interpretation of clinical reports.

**Prerequisite:** SPED-508 with a minimum grade of C and SPED-509 with a minimum grade of C and SPED-510 with a minimum grade of C and SPED-511 with a minimum grade of C.

**SPED-514. Student Teaching In Special Education. 3,6 Hours.**

The candidate will participate in supervised professional experiences in a school setting as a candidate teacher of pupils with disabilities (5-21). Applied teaching will be combined with seminar discussions and required assignments.

**Requirements:** Program approval.

**SPED-514A. Student Teaching In Special Education. 3 Hours.**

The candidate will participate in supervised professional experiences in a school setting as a candidate teacher of pupils with disabilities (5-21). Applied teaching will be combined with seminar discussions and required assignments. SPED-514A is for candidates who entered the program prior to Fall of 2020.

**Requirements:** Program approval

**Prerequisite:** SPED-508 with a minimum grade of C and SPED-509 with a minimum grade of C and SPED-510 with a minimum grade of C and SPED-511 with a minimum grade of C and SPED-520 with a minimum grade of C.

**SPED-514B. Applied Diagnostic Teaching In Special Education. 3 Hours.**

The candidate will participate in supervised professional experiences in the William Itkin Children's Service Clinic in the role as a graduate clinician. Diagnostic teaching will be combined with seminar discussions and required activities.

**Prerequisite:** SPED-508 with a minimum grade of C and SPED-509 with a minimum grade of C and SPED-510 with a minimum grade of C and SPED-511 with a minimum grade of C and SPED-513 with a minimum grade of C.

**SPED-516. Professional Development Of The Special Educator. 1 Hour.**

SPED-516 provides special education teacher candidates the opportunity to develop critical skills indicative of a prepared and highly qualified special educator. Candidates will demonstrate the foundational development of cultural competency/reciprocity to work with students from culturally/linguistically diverse (CLD) backgrounds, articulate specific practices/policies regarding professional obligations (e.g., child protection laws, digital etiquette and safety, rights on intellectual property and fair use), discuss collaborative approaches in working with various members of the school/home/community, examine the significance of self-initiated, continuous professional development and improvement for all educators and provide evidence of meeting the professional competencies required of a beginning special educator. Prereq.: All Master of Arts in Special Education coursework (Block I, II and III) prior to student teaching.

**SPED-518. Practicum In Special Education. 3 Hours.**

The candidate will participate in supervised professional experiences in a school setting as a candidate teacher of pupils with disabilities (5-21) in the Least Restrictive Environment. Applied teaching will be combined with seminar discussions and required assignments.

**Prerequisite:** SPED-501 with a minimum grade of C and SPED-503 with a minimum grade of C and SPED-506 with a minimum grade of C and SPED-504 with a minimum grade of C and SPED-509 with a minimum grade of C and SPED-510 with a minimum grade of C and SPED-511 with a minimum grade of C and SPED-513 with a minimum grade of C.

**SPED-519. Collaborative Relationships In Special Education. 3 Hours.**

SPED-519 prepares advanced credential special education candidates to develop skills and dispositions, which promote leadership in collaborative relationships relating to students with disabilities in school settings. Collaboration with a variety of stakeholders, including peer teachers, parents, community agencies, and related service providers, will be examined. Topics covered include the culture of schools, conferencing techniques, mentoring new teachers, and in-service education. Clinical experience involves mentoring a novice special education teacher.

**SPED-520. Assessment Lab-Applied Diagnostic Assessment. 3 Hours.**

Graduates students will apply assessment principles to design an instructional sequence for children/youth with disabilities served a clinical setting.

**Prerequisite:** SPED-504 with a minimum grade of C and SPED-508 with a minimum grade of C and SPED-509 with a minimum grade of C and SPED-511 with a minimum grade of C.

**SPED-521. Issues & Interventions For Individuals With Autism Spectrum Disorder, Social Communication Disorder. 3 Hours.**

This course presents the knowledge and skills necessary for the professional to understand issues and demonstrate interventions appropriate for individuals with Autism, PDD, and low incidence disorders and syndromes. Content will address cognitive, language, and behavioral/social characteristics, methods and applications in working with and on behalf of these individuals. Emphasis will be on supporting and promoting improvements in the areas of behavior and communication.

**Prerequisite:** SPED-522 with a minimum grade of C and SPED-523 with a minimum grade of C.

**SPED-522. Foundations & Practices In Challenging Behaviors. 3 Hours.**

This course presents the knowledge and skills necessary for the professional to understand the philosophical, historical and legal foundations addressing the management of behavior and to apply various individual and group strategies to meet the needs of individuals who demonstrate challenging behavior in a variety of educational settings.

**SPED-523. Educational Assessment & Planning For Positive Behavior Management. 3 Hours.**

This course presents the knowledge and skills necessary for the professional to interpret various methods of assessment and diagnoses in order to meet the individual needs of students with emotional and behavioral disorders.

**SPED-524. Practicum In Behavior Disorders. 3 Hours.**

This course involves candidates in working on-site in special education programs where services are provided for children and youths with behavioral disorders. Through guided support, candidates employ the advanced elements of behavioral intervention and planning, including the assessment and diagnosis of behavioral disorders and use of functional behavioral analyses (FBA) to support effective intervention strategies. These elements will be applied in field-based settings to allow students, through direct interaction and facilitation of learning, to learn more about the children and youths' characteristics and needs and school-based programming within the context of the least restrictive environment (LRE).

**Prerequisite:** SPED-522 with a minimum grade of C and SPED-521 with a minimum grade of C and SPED-523 with a minimum grade of C.

**SPED-525. Alternative Assessment & Test Accommodations. 3 Hours.**

This course presents the knowledge and skills necessary for the professional to apply various methods of assessment in order to meet the individual needs of students with disabilities. Content will address alternative assessment methods, test accommodations, and applied curriculum based assessment. The instructor will model collaboration and consultation skills for working with families and other professionals.

**SPED-526. Adaptations Of Curriculum. 3 Hours.**

This course provides instruction to students in making adaptations and accommodations to the general curriculum based on an understanding of the academic and non-academic needs of learners with special needs. It prepares the learner to understand how students differ in their approaches to learning, and how to design and adapt instruction to engage all learners, promote positive interactions and develop students' intellectual, social and personal development. Course content will also address sources of specialized materials and resources for assistive technology. Methodology to support the curriculum infusion of real life issues will also be addressed.

**SPED-527. Language Based Disorders. 3 Hours.**

This course addresses the development of auditory and visual symbol systems from the perspective of psycho-neurological learning research. Listening, speaking, reading and written language will be covered. The relationship of these symbol systems to the underlying semiotic function will be emphasized. Diagnosis and remediation of disorders of auditory and visual symbol systems will be covered in depth.

**SPED-528. Teaching Mathematics To Individuals With Special Needs. 3 Hours.**

This course will address the issues of assessment and remediation in mathematics for individuals with special needs. It is based on the understanding that competence in mathematics is a necessity for effective resolution of psychosocial and cognitive developmental life tasks, and as a means of assuring a good quality of life. Candidates will examine the scope and sequence of mathematics curriculum, assessment of mathematics-based learning disabilities, and strategies for teaching mathematics to learners with special needs.

**SPED-529. Curriculum Practicum. 3 Hours.**

This course provides opportunities for students to employ, under supervision, methods and procedures useful for the successful support of learners with special needs in the regular education curriculum. Such guided experiences include the use and modification of assessments, development of curriculum for an individual learner, modification and adaptation of curriculum appropriate to the students learning style, modification of learning environments to meet individual needs, monitoring and assessing the success of curriculum adaptations as well as the selection of research supported instructional strategies.

**Prerequisite:** SPED-526 with a minimum grade of C and SPED-527 with a minimum grade of C and SPED-525 with a minimum grade of C.

**SPED-530. Capstone Project. 3 Hours.**

This course requires candidates for the LBS II Masters Program to apply relevant research to their area of inquiry and utilize this research to write a master's level research paper or conduct an applied clinical/action research project. While papers and projects are individual in nature, each candidate is expected to follow a prescribed procedure under the direct guidance and supervision of the instructor.

**Prerequisite:** (SPED-525 with a minimum grade of C and SPED-526 with a minimum grade of C and SPED-527 with a minimum grade of C and SPED-528 with a minimum grade of C) or (SPED-505 with a minimum grade of C and SPED-521 with a minimum grade of C and SPED-522 with a minimum grade of C and SPED-523 with a minimum grade of C).

# Swahili (SWAH)

---

## Courses

**SWAH-101. Swahili I. 3 Hours.**

Development of basic skills in listening, speaking, reading and writing. Culture appreciation.

**SWAH-102. Swahili II. 3 Hours.**

Continuation of SWAH-101.

# Tchng Engl Second Lang (TESL)

---

## Courses

### **TESL-109A. First Year Experience: Chicago Speaks: Helping Immigrants Communicate. 3 Hours.**

In this course, the four foundations (Future Planning, Academics, Self-Discovery and Transitions) of the First-Year Experience are interwoven with the field specific concepts and terminology of teaching English as a second language (TESL). This course introduces the structure of the English language and methods of teaching it to speakers of other languages. This involves investigating the pronunciation and grammar of English as well as looking at ways to teach these subjects along with listening, speaking, reading and writing skills to English Language Learners (ELLs). The course will involve a service learning component in which students will tutor ELLs in various sites throughout Chicagoland. As students study the basics of teaching English as a second language, they will develop academic skills that will contribute to their success in college and beyond.

### **TESL-301. The English Language For Teachers. 3 Hours.**

All language teachers must understand how the English language works and must be able to describe how it works. This course is designed for future teachers of the English language. It covers the structure of sounds, words, phrases, and sentences; language use; and the structure of meaning of the English language, with applications of each topic to the teaching of the English language and English language arts. The history of the English language will also be included, as background to English word and sentence structure.

**Prerequisite:** ENGL-101 with a minimum grade of C.

### **TESL-310. English Grammar: Description & Instruction. 3 Hours.**

All teachers of English as a second or foreign language must have a good descriptive knowledge of English grammar as well as an arsenal of techniques for instructing their students. This course is intended to help future ESL/EFL teachers develop an understanding of the structure of English sentences and the problems that non-native students face when learning English grammar. This course will also investigate ways of teaching grammar to English language learners.

**Prerequisite:** ENGL-101 with a minimum grade of C.

### **TESL-320A. Language & Culture: General. 3 Hours.**

**Prerequisite:** ENGL-101 with a minimum grade of C.

### **TESL-320D. Language & Culture: Japan. 3 Hours.**

**Prerequisite:** ENGL-101 with a minimum grade of C.

### **TESL-320G. Language & Culture: Southeast Asia. 3 Hours.**

**Prerequisite:** ENGL-101 with a minimum grade of C.

### **TESL-320H. Language & Culture: Thailand. 3 Hours.**

**Prerequisite:** ENGL-101 with a minimum grade of C.

### **TESL-320K. Language & Culture: Latin America. 3 Hours.**

**Prerequisite:** ENGL-101 with a minimum grade of C.

### **TESL-320N. Language & Culture: Native American. 3 Hours.**

**Prerequisite:** ENGL-101 with a minimum grade of C.

### **TESL-320O. Language & Culture: Afro-American. 3 Hours.**

**Prerequisite:** ENGL-101 with a minimum grade of C.

### **TESL-320P. Language & Culture: The Deaf. 3 Hours.**

**Prerequisite:** ENGL-101 with a minimum grade of C.

### **TESL-320Q. Language & Culture: Maya. 3 Hours.**

**Prerequisite:** ENGL-101 with a minimum grade of C.

### **TESL-321. 1st & 2nd Language Acquisition. 3 Hours.**

Survey of recent theories and research on children's acquisition of phonological, morphological, syntactic, semantic and pragmatic systems of their first language. Survey of recent theories and research on second language acquisition.

**Prerequisite:** ENGL-101 with a minimum grade of C.

### **TESL-330. Language, Society, And Education. 3 Hours.**

Researchers who study the relationship between language and society or culture are in a unique position to provide insight into language- and culture-related social problems. This course is based on the notion that many educational problems are related to differences between students' home language or dialect and the "official" school variety. It examines the relationship between language, society, and culture with particular attention to how factors such as class, gender, race, and ethnicity impact student performance in the classroom. Issues of identity, bilingualism, and language prejudice will also be addressed.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**TESL-331. Investigation Of African American English. 3 Hours.**

TESL-331 offers the opportunity to explore longstanding questions about African American English, a variety of English that is prevalent in Chicago and nationwide. As a foundation, students will learn about the features of African American English. With the support of the instructor, students will choose and develop their own research questions and hypotheses, a research proposal, and conduct a short study. Students will learn, as they progress, how to create an abstract, annotated bibliography, literature review, and research methodology. Students will conduct their studies with the support of the instructor. This course culminates in the sharing of the research findings.

**TESL-340. Practices & Procedures. 3 Hours.**

Practices and techniques related to the teaching of English as a second language, in ESL or bilingual education programs; meant for those students who are not yet teaching in the field.

**Prerequisite:** ENGL-101 with a minimum grade of C and (TESL-321 with a minimum grade of C or TESL-341 with a minimum grade of C).

**TESL-341. Principles Of Language Teaching. 3 Hours.**

Theories and principles underlying the teaching of English as a second language to limited-English speaking children and adults. Survey of various methodologies in second language teaching and bilingual education. Reviews relationships between language and culture and discusses the major problems in language education.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**TESL-343. Introduction To Language Assessment. 3 Hours.**

This is an introductory language assessment course that offers an opportunity to gain knowledge in the basic concepts in language assessment. It covers basic principles and procedures of assessment, with an emphasis on the second language context. In addition to theoretical foundations, students will gain practical experience in how to construct test items with considerations of reliability and validity, use alternative assessment, analyze test results, and communicate test results with diverse audiences.

**Prerequisite:** TESL-340 with a minimum grade of C or TESL-341 with a minimum grade of C.

**TESL-345. Linguistics & Reading. 3 Hours.**

Relationship between language structure and the reading process with emphasis on the practical problems such as the variety of dialectally different sound-symbol-correspondences in English, the perception of speech sounds, the reader's interpretation of syntactic and semantic structures, various alphabetic systems for teaching reading. Designed to be useful to the in-service classroom teacher as well as to undergraduates.

**Prerequisite:** TESL-301 with a minimum grade of C.

**TESL-399. Clinical Experience In TESL. 1 Hour.**

This course is designed to provide on-site experience in teaching English to non-native speakers in grades K-12. Students will observe and work with a master teacher and be supervised by a TESL/TEFL professor. Student will engage in classroom discussion and various projects based on their classroom work.

**Prerequisite:** TESL-340 with a minimum grade of C.

**TESL-402. Principles Of Linguistics For Teachers. 3 Hours.**

This course examines the components of the science of language and how these relate to teaching English as a second/foreign language. Although the emphasis is on the linguistic components of English, a comparison with other languages and implications for teaching a second/foreign language will be integral to the course. Among other topics, it will cover English phonetics, phonology, morphology, syntax, and semantics and offer classroom-oriented applications of linguistic principles for effective instruction of English as a second or foreign language.

**TESL-406. Adult Needs, Design And Assessment. 3 Hours.**

Adult English language learners represent a wide variety of linguistic backgrounds, cultural experiences and personal needs. They may learn English for survival/life skills, job improvement or academic preparation. This course provides instructors with an appreciation for cross-cultural learners and their communication skills. In addition, this course looks at adult program options and their relationship to curriculum design. Principles of assessment, and varied assessment tools used in the adult education setting will also be addressed. Website tools aiding course management, assessment and self-study will be utilized.

**Prerequisite:** TESL-410 with a minimum grade of B.

**TESL-409. Research Design & Methods. 3 Hours.**

Survey course, reviewing the major trends and methodologies used in linguistics, language acquisition, and language teaching. Exploration of quantitative approaches used in language-specific inquiry through the examination of a variety of studies from the literature, their questions, their underlying assumptions, and their design. Prior knowledge of statistics is not required.

**Prerequisite:** TESL-402 with a minimum grade of C.

**TESL-410. Techniques Of Teaching English As A Second Language. 3 Hours.**

Survey of techniques specifically relevant to the teaching of English as a second language. Questions relating to the design and sequencing of ESL courses, to procedures for evaluation of ESL students and to criteria for choosing, adapting and creating teaching materials.

**Prerequisite:** TESL-414 with a minimum grade of C and TESL-402 with a minimum grade of C.

**TESL-414. Theories Of Teaching English As A Second Language. 3 Hours.**

Survey of theories of the teaching and learning of English as a second or foreign language. A look at the historical growth and development of second language methodologies from grammar-translation and the direct method, through the audio-lingual method and its offspring, and up to the current natural and eclectic period.

**TESL-420. Structure Of Modern English. 3 Hours.**

Description and analysis of the major grammatical structures of spoken and written English in light of traditional and descriptivist theories. This course covers practical issues and procedures involved in teaching grammar to ESL/EFL learners.

**TESL-426. Advanced Linguistic Analysis. 3 Hours.**

Advanced analysis of the structure of language, including phonology, morphology, syntax and semantics. Each topic will be explored through detailed analysis and comparison of data from a variety of languages in addition to English.

**Prerequisite:** TESL-402 with a minimum grade of C.

**TESL-427. Teaching Pronunciation. 3 Hours.**

This course covers practices and procedures involved in helping English Language Learners (ELLs) improve their intelligibility and increase their speech perception. Through an applied approach, students will develop a deeper understanding of English phonetics and phonology at both the segmental and prosodic levels. They will learn how to apply this knowledge to teaching pronunciation to English language learners (ELLs) of all ages. The course will also cover societal attitudes about accent through an investigation of current research.

**Prerequisite:** TESL-402 with a minimum grade of C and TESL-414 with a minimum grade of C and TESL-410 with a minimum grade of C.

**TESL-430B. Structure Of Language: Latin. 3 Hours.**

**Prerequisite:** TESL-402 with a minimum grade of C and TESL-420 with a minimum grade of C and TESL-426 with a minimum grade of C.

**TESL-430C. Structure Of Language: Lakhota. 3 Hours.**

**Prerequisite:** TESL-402 with a minimum grade of C and TESL-420 with a minimum grade of C and TESL-426 with a minimum grade of C.

**TESL-430D. Structure Of Language: Rotuman. 3 Hours.**

**Prerequisite:** TESL-402 with a minimum grade of C and TESL-420 with a minimum grade of C and TESL-426 with a minimum grade of C.

**TESL-430E. Structure Of Language: Thai. 3 Hours.**

**Prerequisite:** TESL-402 with a minimum grade of C and TESL-420 with a minimum grade of C and TESL-426 with a minimum grade of C.

**TESL-430F. Structure Of Language: Tai, Kirundi, Tun, Arabic. 3 Hours.**

**Prerequisite:** TESL-402 with a minimum grade of C and TESL-420 with a minimum grade of C and TESL-426 with a minimum grade of C.

**TESL-433. Lexicography. 3 Hours.**

Review of the problems and trends of word study in the past, especially the notions surrounding the concepts of authority and usage of language: scrutiny of the various types and sources of English vocabulary; recent linguistic insights considered in the light of their value for various kinds of handbooks.

**TESL-440. Language & Literacy. 3 Hours.**

Differences between spoken and written languages; the functions of writing in a literate society; writing systems with particular reference to English orthography; current psycholinguistic research on the acquisition of written language skill; pedagogical implications of linguistic views on literacy.

**Prerequisite:** TESL-402 with a minimum grade of C.

**TESL-442. Using Technology With Second Language Learners. 3 Hours.**

In this class, students will explore the interface between current approaches to second language pedagogy, theories of language learning, and technology. They will examine questions of the development and current status of computer applied language learning; the digital divide and language minority students; appropriate and inappropriate uses of technology for language learning; use of technology to support student instruction in listening, speaking, reading, writing, culture, pronunciation, vocabulary and grammar; technology and learner variation; and issues of technology and assessment.

**Prerequisite:** TESL-410 with a minimum grade of C.

**TESL-445. Language Variation. 3 Hours.**

All languages vary- across time, distance, social class, gender, situation, and ethnicity. This course examines the societal and cultural influences on both the forms and uses of different varieties of English as well as other languages, and demonstrates how one's language and language variety affect one's identity, school achievement, etc. Topics include language attitudes and stereotypes, ideology, intercultural and interethnic communication, and the spread of English. Special emphasis will be placed on how these notions of language varieties apply to the teaching and learning of second and foreign languages.

**TESL-447. Pragmatics. 3 Hours.**

Study of the interface between language and meaning at the level of discourse. Focuses on communication as dialogic interaction and the nexus of word meanings and speaker intentions in language use. Considers the multiple layers of context as factors that affect the interpretation of speaker role and appropriateness of use. Additionally, examines intercultural pragmatics as it pertains to the acquisition of second language culture and the communicative differences between cultures.

**Prerequisite:** TESL-445 with a minimum grade of C.

**TESL-451. Lexically-Based Instruction. 3 Hours.**

This course is built on the notion that the optimal second-foreign language syllabus is a lexically-based one. The course covers vocabulary knowledge and acquisition from the perspectives of both the second language learner and the teacher. Topics covered include what it means to "know a word", memory, dictionaries and other tools, learner strategies, vocabulary assessment, selection criteria, and teaching techniques.

**Prerequisite:** TESL-402 with a minimum grade of C and TESL-410 with a minimum grade of C.

**TESL-452. Content-Based Instruction. 3 Hours.**

Exploration of content-based instruction as an approach to teaching English language learners. Functioning as both a method in the English as a second or foreign language classroom and as a technique for meeting the needs of English language learners in the content area classroom, its theory and practice are examined through the various models and the standard-based curriculum. Additionally, practices and strategies related to planning, implementing, and managing ESL and content instruction, including classroom organization, teaching strategies for developing and integrating language skills, and choosing and adapting classroom resources are addressed.

**Prerequisite:** TESL-414 with a minimum grade of C.

**TESL-460. Second Language Acquisition. 3 Hours.**

This course provides a general introduction to the field of second language acquisition (SLA), giving a broad overview of the history of the field and helping students attain foundational SLA literacy. Through developing an understanding of linguistic, social, affective, and cognitive influences, students will familiarize themselves with key SLA concepts, review pedagogical implications of empirical research and explore ways of modifying instruction to facilitate the acquisition of a primary and a new language in and out of classroom settings.

**Prerequisite:** TESL-410 with a minimum grade of C and TESL-420 with a minimum grade of C.

**TESL-465. Experiential Preparation For Teaching English As A Second Language. 3 Hours.**

Emphasis on the preparation of materials and the development of teaching strategies for specific ESL classroom uses. Students examine and evaluate commercially prepared and teacher made materials and lesson plans and devise a limited set of materials of their own. Students will either demonstrate these materials or observe their use in an actual classroom or tutoring situation.

**Prerequisite:** TESL-402 with a minimum grade of B and TESL-410 with a minimum grade of B and TESL-414 with a minimum grade of B.

**TESL-468. Principles Of Language Assessment. 3 Hours.**

The purpose of the course is to familiarize students with the fundamental concepts and principles of second language (L2) assessment. The students will gain hands-on experience in designing and administering language assessments in the areas of L2 reading, writing, listening, speaking, including vocabulary and grammar. In addition, this course is intended to train teachers how to evaluate popular standardized tests (e.g., iBT TOEFL, ACCESS for ELLs, IELTS) and help them interpret and write clearly about test results.

**Prerequisite:** TESL-410 with a minimum grade of C.

**TESL-471. Evolution Of Laws & Policies In Language Instruction. 3 Hours.**

Survey of the historical and current ideologies, the laws which they informed, and the policies and practices which resulted regarding language use in the educational system. Use will be explored in terms of language as a medium of communication, language as a medium of instruction, and language as a content area. Comparisons will be drawn between the US and international contexts. After extensive readings in the literature and in class preparation, students will be expected to design a grant proposal and make a presentation on a topic directly related to an area of their choice.

**TESL-490A. Seminar In TESL: Materials Preparation. 3 Hours.**

**Prerequisite:** TESL-426 with a minimum grade of B and TESL-445 with a minimum grade of B and TESL-460 with a minimum grade of B.

**TESL-490C. Seminar In TESL: Special Education. 3 Hours.**

**Prerequisite:** TESL-426 with a minimum grade of B and TESL-445 with a minimum grade of B and TESL-460 with a minimum grade of B.

**TESL-490E. Seminar In TESL: Current Research. 3 Hours.**

**Prerequisite:** TESL-426 with a minimum grade of B and TESL-445 with a minimum grade of B and TESL-460 with a minimum grade of B.

**TESL-490F. Seminar In TESL: Language & Culture. 3 Hours.**

**Prerequisite:** TESL-426 with a minimum grade of B and TESL-445 with a minimum grade of B and TESL-460 with a minimum grade of B.

**TESL-490J. Seminar In TESL: Vocabulary. 3 Hours.**

**Prerequisite:** TESL-426 with a minimum grade of B and TESL-445 with a minimum grade of B and TESL-460 with a minimum grade of B.

**TESL-490K. Seminar In TESL: 1st & 2nd Language Acquisition. 3 Hours.**

**Prerequisite:** TESL-426 with a minimum grade of B and TESL-445 with a minimum grade of B and TESL-460 with a minimum grade of B.

**TESL-5901. Thesis Hours. 1 Hour.**

Guidance of students conducting research and writing a thesis to fulfill the requirements for the Master of Arts degree in TESL/TEFL. This course requires approval of the instructor, Department Chair and the appropriate College Dean(s).

**Prerequisite:** TESL-402 with a minimum grade of C and TESL-420 with a minimum grade of C and TESL-426 with a minimum grade of C.

**TESL-5902. Thesis Hours. 2 Hours.**

See course description for TESL-5901.

**Prerequisite:** TESL-402 with a minimum grade of C and TESL-420 with a minimum grade of C and TESL-426 with a minimum grade of C.

**TESL-5903. Thesis Hours. 3 Hours.**

See course description for TESL-5901.

**Prerequisite:** TESL-402 with a minimum grade of C and TESL-420 with a minimum grade of C and TESL-426 with a minimum grade of C.

# Teacher Education (TED)

---

## Courses

**TED-316A. Middle Level Literacy. 3 Hours.**

**TED-401. Clinical Experience In Teacher Mentoring. 1.5 Hour.**

This introductory course will help experienced, practicing teachers (mentors) develop knowledge, skills and dispositions to coach early career practicing teachers (mentees). Examination of common problems of practice will include classroom environment, planning and preparation, instruction, and professionalism. Mentors will support a minimum of two mentees throughout the course, designing and enacting support plans for their mentees, and reflecting on the effectiveness of their mentorship to aid their mentees in navigating the teaching profession. Site observations at mentees' schools, weekly mentor-mentee touch points, and biweekly meetings with the supervising faculty member are required.

**TED-402. Advanced Clinical Experience In Teacher Mentoring. 1.5 Hour.**

This advanced course will help experienced, practicing teachers (mentors) examine the relationships between common problems of practice for early career teachers (mentees) in the areas of classroom environment, planning and preparation, instruction, and professionalism. A focus on interrelationships will aid mentors in transformative goal-setting, multi-perspectival analysis, and content and culture integration. Mentors will coach a minimum of two mentees to design and enact support plans, and reflect on the effectiveness of their mentorship. Site observations at mentee schools along with weekly mentor-mentee touch points are required, along with biweekly meetings with the supervising faculty member.

# Technology (TECH)

---

## Courses

TECH-251. Introduction To Media Utilization. 3 Hours.

TECH-316. Computer Utilization In Education. 3 Hours.

TECH-317. General/Specialized Computer Concepts In Education. 3 Hours.

TECH-319. Microcomputer Software Applications For Teachers. 3 Hours.

TECH-321. Classroom Computer Curriculum. 3 Hours.

TECH-331. Functions Of The School Library. 3 Hours.

TECH-332. Technical Processes In School Libraries. 3 Hours.

TECH-351. Selection, Utilization And Evaluation Of Instructional Material. 3 Hours.

TECH-352. Design And Production Of Instructional Materials. 3 Hours.

# University Without Walls (UWW)

---

## Courses

**UWW-201. Participated In University Without Walls. 1 Hour.**

**UWW-202. Participated In University Without Walls. 2 Hours.**

**UWW-203. Participated In University Without Walls. 3 Hours.**

**UWW-204. Participated In University Without Walls. 4 Hours.**

**UWW-205. Participated In University Without Walls. 5 Hours.**

**UWW-206. Participated In University Without Walls. 6 Hours.**

**UWW-207. Participated In University Without Walls. 7 Hours.**

**UWW-208. Participated In University Without Walls. 8 Hours.**

**UWW-209. Participated In University Without Walls. 9 Hours.**

**UWW-210. Participated In University Without Walls. 10 Hours.**

**UWW-211. Participated In University Without Walls. 11 Hours.**

**UWW-212. Participated In University Without Walls. 12 Hours.**

**UWW-301. University Without Walls Independent Study. 1 Hour.**

University Without Walls students receive credit as they fulfill individualized curricula developed in consultation with and under the direction of the UWW Academic Advisor (or another faculty member recommended by the Academic Advisor), the UWW Community Advisor, and UWW Faculty Advisor.

**UWW-302. University Without Walls Independent Study. 2 Hours.**

University Without Walls students receive credit as they fulfill individualized curricula developed in consultation with and under the direction of the UWW Academic Advisor (or another faculty member recommended by the Academic Advisor), the UWW Community Advisor, and UWW Faculty Advisor.

**UWW-303. Introduction To University Without Walls--First Sem Independent Study. 3 Hours.**

Introduction to University Without Walls prepares students to receive credit as they fulfill individualized curricula developed under the direction of the UWW Academic Advisor (or another faculty member recommended by the Academic Advisor), the UWW Community Advisor and the UWW Faculty Advisor.

**UWW-304. Contemporary Topics In Depth Area Study. 3 Hours.**

This course will examine contemporary topics related to student's prior/proposed learning and depth area concentration. With the assistance of their UWW advisor, student will explore the socio-political, cultural and economic relationships between the contemporary topics they choose and their depth area. Completion of the course can be achieved through traditional research paper or other relevant project as determined by their UWW advisor.

**UWW-305. Independent Study In Health Services. 3 Hours.**

This individualized study course is designed for UWW students who have depth areas in health services fields (community health, health administration, healthcare systems, medical services, etc.). With the assistance of their UWW advisor, student will explore topics in the field of health services as they relate to their depth area concentrations and prior learning experiences. Completion of the course can be achieved through traditional research paper or other relevant project as determined by their UWW advisor.

**UWW-306. Independent Study In Violence Prevention. 3 Hours.**

This individualized study course is designed for UWW students who have depth areas in violence prevention fields (hospital responders, outreach workers, peace academy workers, etc.). With the assistance of their UWW advisor, student will explore topics in the field of violence prevention as they relate to their depth area concentrations and prior learning experiences. Completion of the course can be achieved through traditional research paper or other relevant project as determined by their UWW advisor.

**UWW-307. Independent Study In Research Methods. 3 Hours.**

Students will examine research methods specific to investigating prior learning/depth area processes and outcomes; including research design, theory, data collection, and reporting.

**UWW-308. Independent Study In Community, Human And Social Services. 3 Hours.**

This individualized study course is designed for UWW students who have depth areas in community, human service or social service fields (case managers, community service officers, family support, community outreach workers, etc.). With the assistance of their UWW advisor, student will explore topics in the field of community, human or social service as they relate to their depth area concentrations and prior learning experiences. Completion of the course can be achieved through traditional research paper or other relevant project as determined by their UWW advisor.

**UWW-309. University Without Walls Field Experience Independent Study. 3 Hours.**

Students will engage in in-depth experiential learning, integrating academic course work, prior learning experience, and/or on the job experience.

**UWW-310. Independent Study In Recreation Services. 3 Hours.**

This individualized study course is designed for UWW students who have depth areas in recreation services fields (recreation leaders, recreation assistants, event specialists, youth recreation/athletics workers, etc.). With the assistance of their UWW advisor, students will explore topics in the field of recreation services as they relate to their depth area concentrations and prior learning experiences. Completion of the course can be achieved through a traditional research paper or other relevant project as determined by their UWW advisor.

**UWW-311. Independent Study In Capstone Portfolio And Review Board Preparation. 3 Hours.**

University Without Walls Capstone Portfolio and Review Board is the capstone course for the UWW academic program. In this course, students will finalize their learning contract and compose an online portfolio that will be presented to a UWW board of evaluators.

**UWW-312. Independent Study In Education-Related Fields. 3 Hours.**

This individualized study course is designed for UWW students who have depth areas in education-related fields (paraprofessionals, teaching assistants, school office managers, etc.). With the assistance of their UWW advisor, student will explore topics in the field of recreation services as they relate to their depth area concentrations and prior learning experiences. Completion of the course can be achieved through traditional research paper or other relevant project as determined by their UWW advisor.

# Urban Community Studies (UCS)

---

## **UCS-103. Introduction To Urban Community Studies. 3 Hours.**

Introduction to Urban Community Studies is an overview of the Urban Community Studies program and its interdisciplinary approach to examining the political, economic, social, and cultural forces that impact urban communities in this country and throughout the world. The course is designed to introduce students to core analytical concepts and build their critical thinking and analytic writing skills.

## **UCS-201. Power And Oppression In The Urban Community. 3 Hours.**

The purpose of this course is to examine social organization and theories of power and oppression to determine who rules the United States. Moreover, review the “center” of power as a matrix to decide how it impinges in various ways on those who live within the United States society.

## **UCS-203. Activism And Community Engagement In The Urban Context. 3 Hours.**

Activism and Community Engagement in the Urban Context explores historic and contemporary forms of activism and community engagement in local, national and global urban communities. Students will become familiar with the analytic frameworks that inform community activism and trace the connections between activism and community engagement. Through an examination of course readings, guest lecturers and visits to community events, students will investigate forms of activism and community engagement as they relate to issues including education, food security, violence prevention, police reform, equal rights, homelessness, health and wellness and voting rights.

## **UCS-302. Urban Education And The Art Of Critical Pedagogy. 3 Hours.**

The course provides educational practitioners with multimodal approaches to better engage students in a curriculum to improve the child's learning experiences. Research-based strategies are reviewed to enhance teachers' delivery of instruction to promote student outcomes.

## **UCS-303. Writing Intensive Program: Research Writing In Urban Community Studies. 3 Hours.**

Research Writing in Urban Community Studies provides an overview in research methodology. In this course students will learn how to design and write a scholar-activist oriented research proposal on a social science topic pertinent to the urban community. The course covers the following topics: the selection of a research topic, the articulation of research questions, writing a literature review, the development and application of social science theory, the development of methodology, research design, data analysis, research ethics, and research dissemination.

**Prerequisite:** ENGL-101 with a minimum grade of C.

## **UCS-304. Contemporary Issues In Urban Community Studies. 3 Hours.**

This course focuses on the contemporary issues surrounding urban communities in the United States. It specifically examines the economic, political, educational, and environmental underpinnings of such communities. Throughout this course the major issues affecting the environment of urban communities, specifically educational inequalities, and the misuse and abuse of economic and political power are discussed. In addition, the discussion of racism as the underlying cause of the historic and contemporary issues in the urban community is explored.

**Prerequisite:** College of Education Admission with a score of Y.

## **UCS-305. Urban Entrepreneurship. 3 Hours.**

Urban Entrepreneurship explores the fundamentals of entrepreneurship and its connections to community engagement in the urban context. Students will learn the stages of entrepreneurship including idea generation, developing a business model and financing an entrepreneurship venture. Students will also have an opportunity to explore their own entrepreneurship interests and learn the ways that community engagement and social entrepreneurship can play a role in their entrepreneurial ventures.

**Prerequisite:** (100 - 399 or 100A - 399Z).

## **UCS-327. Media And Popular Culture In Urban Communities. 3 Hours.**

Media and Popular Culture in the Urban Community will examine basic concepts of popular culture as they apply to the urban experience. The course will focus on the socio-cultural factors that influence popular culture as well as the way urban communities are represented in mainstream media.

## **UCS-328. Trauma, Resilience, And Resistance In Urban Communities. 3 Hours.**

Trauma, Resilience, and Resistance in Urban Communities explores psychological trauma symptomatology and interventions in an urban context. In this course students will use books, articles, and film to learn about: 1) the relationship between trauma and neurobiology; 2) historical trauma impacts affecting multigenerational communities of color, 3) structural factors that impact community violence-induced trauma; and 4) contemporary trauma treatments for individuals, children, families, and groups.

## **UCS-329. Structural Violence In The Urban Community. 3 Hours.**

In an attempt to present a holistic perspective of violence in urban spaces, this course will delve into the systemic causes of violence in the urban community. Also, the course will identify the common contributing factors associated with violence, like individual-level influences, to probe deeper into the root causes of violence like misguided public policies, environmental injustices, and the United State's culture producing industries.

## **UCS-330. Film Analysis In The Urban Context. 3 Hours.**

This course examines featured films and historical dramas on various topics to provide evidence and information as an alternative source for understanding critical issues and social events.

**UCS-341. Motherhood Studies In The Urban Community. 3 Hours.**

Motherhood Studies in the Urban Community will explore the institution and experience of motherhood as a site of power and healing. Specific emphasis will be given to theorizing about the specific ways African American, Latinx, indigenous, and immigrant mothers experience mothering in an urban context. In addition, this course will use memoirs, articles, and film to explore: 1) the labors of motherhood; 2) how race, socioeconomic status, and sexuality impact mothering; 3) how mothers navigate and resist structural oppression found in education, economic, and political systems; and 4) mothers' hope and resiliency in the wake of urban community violence.

**UCS-342. A Critical Analysis Of Hip Hop Culture. 3 Hours.**

This course explores the social, political, and cultural forces that influence hip hop culture and the rap music industry. Ecological conceptual models will be used to determine if multinational media conglomerates function as one massive empire that uses some aspects of the rap music industry as cultural imperialism, or if they are involved with hip hop for classic capitalism purposes or a combination of both.

**UCS-343. Racism, Xenophobia, And Bias In The Urban Context. 3 Hours.**

Racism, Xenophobia, and Bias in the Urban Context addresses how the construct of race and racism produces economic inequities, biased policy formations, and social injustices toward people of color. The course is designed and framed around contemporary and historic topics allowing students to critically analyze and review the concept of racism as a destructive philosophy and theoretical application.

**UCS-344. Seminar In Urban Community Studies. 3 Hours.**

Seminar in Urban Community Studies explores selected topics in Urban Community Studies including urban history, urban sociology, urban education, urban art/literature, urban social services, urban structural violence, urban politics, urban architecture, and urban culture. Course content varies. Course can be repeated on different topics up to three times.

**Prerequisite:** UCS-303 with a minimum grade of C.

**UCS-411. Theoretical Foundations In Urban Community Studies. 3 Hours.**

This is the orientation for the Master's Degree program in Urban Community Studies. This course is designed to provide students with a rigorous grounding in the theoretical frameworks that analyze and understand the Inner City. This course will explore the intellectual foundations of the human condition in the part of urban America referred to as the "inner city" by comparative investigation of cultural, education, economic, social, and political issues in these spaces.

**UCS-412. Methods In Urban Community Research. 3 Hours.**

Research design and analysis of data; methods for collecting and interpreting data, observation, formulation of hypotheses, techniques of interviewing, questionnaire construction, and writing of reports. The primary objective of the course is to train students to read research studies with understanding and to apply the findings to their own research projects.

**UCS-415. Urban Ethnography. 3 Hours.**

Urban Ethnography introduces students to ethnographic data collection methods associated with the study of urban environments. Students will explore the foundations of urban ethnography through classical sociological and anthropological studies. Students will conduct their own ethnographies and learn how to incorporate ethnographic analysis into their research writing.

**Prerequisite:** UCS-411 with a minimum grade of C.

**UCS-416. The African-American Experience In Urban Communities. 3 Hours.**

This course explores how pull and push factors influence social, political, and economic outcomes for African Americans living in urban spaces. Students will examine how issues of race, class, gender, urban development gentrification and displacement impact African-American urban life.

**UCS-420. Migration And Diaspora In Urban Communities. 3 Hours.**

Migration and Diaspora in Urban Communities is an examination of movement and diaspora in the historical, cultural and socio-political development of urban communities. Special emphasis is placed on the Great Migration and the Bronzeville community as well as migration experiences in local Chicago communities such as Englewood, Austin, Humboldt Park and Pilsen.

**Prerequisite:** UCS-411 with a minimum grade of C.

**UCS-421. Faith Institutions As Political Instruments. 3 Hours.**

The focus of this course is to examine faith institutions as sites of political discourse, engagement, and activism. Special attention is given to examining the history of Black institutions, the intersection of race and gender on religiosity, and the role of resistance movements from contemporary faith-based institutions.

**UCS-426. History And Philosophy Of Urban Education. 3 Hours.**

Examine the various theoretical constructs, pedagogy, and policies defining urban education since the Post Reconstruction Era. Navigate the journey of how school reform from a philanthropic paradigm and urban policy-planning framework develop and influence textbook selections, curriculum benchmarks, testing requirements, school arrangements, and employment trends.

**Prerequisite:** UCS-411 with a minimum grade of C.

**UCS-431. Systemic Challenges In Public Education. 3 Hours.**

The course contrasts and compares how educational ordeals and outcomes are universal throughout many school districts. From addressing minority teacher shortages to cultural curriculum applications, the course will examine a variety of best practices, policy interventions, and instructional strategies required to better teach and service marginalized and traditional youth impacted from external school forces, e.g. family issues, parental arrangements, drugs, social media, poverty.

**UCS-432. Curriculum And Pedagogy In Urban Schools. 3 Hours.**

The course offers a historical analysis, contemporary examination, and ethnographic review of educational policies and school initiatives framing urban America's curriculum pedagogy. The purpose of the course is to advance an interpretive understanding of how urban policy planning and school equity influences the construction of a school curriculum.

**UCS-433. Popular Culture. 3 Hours.**

Popular Culture is an examination of critical issues and theoretical approaches to the study of popular culture with special attention of popular culture within an urban context. The course will explore the way that Popular culture analysis occurs in a number of different fields, including Sociology, Communications, Anthropology, History, Cultural Studies, English, Women's Studies, Ethnic Studies, and Urban Studies. Special focus will be placed on the relationship between urban communities and several areas of popular culture including television, film, advertising, popular music, and social media.

**Prerequisite:** UCS-411 with a minimum grade of C.

**UCS-441. Urban Culture. 3 Hours.**

Urban Culture examines the social practices and shared expression of groups that live in urban settings. This course is intended to introduce students to the changing nature of community, social inequality, political power, socio-spatial change, technological change, and the relationship between the built environment and human behavior. Special emphasis will be placed on the urban cultures of various ethnic groups in Chicago.

**UCS-443. Research Writing. 3 Hours.**

This course will offer instruction in writing reports, proposals, papers and the thesis with consideration given to form and style. Moreover, this course is intended to help you master the strategies and conventions of academic research writing. In the broadest terms, we do research whenever we gather information to answer a question that solves a problem. At its most fundamental level, the basis for research writing is to collect all of the available information/data (within reason) on a specific topic, read it, categorize and analyze the information (process) and produce a written report of your findings.

**UCS-445. Critical Analysis Of Hip Hop Culture. 3 Hours.**

This course explores the social, political, and cultural forces that influence hip-hop culture and the rap music industry. The conceptual paradigm used in this course will be guided by an activist-scholarship paradigm which involves the shaping of public policy via participatory research and community empowerment. The research presented and conducted in this course is intended to contribute to the forces of activism for social justice in the inner city. An outcome of this course will be to use hip-hop to mobilize inner-city populations to become involved in the shaping of public policy and civic engagement.

**Prerequisite:** UCS-411 with a minimum grade of C.

**UCS-446. Urban Health And Wellness. 3 Hours.**

Urban Health and Wellness examines the historical development and current state of urban health and wellness particularly the ability of urban health agencies to meet community health needs. The course will pay special attention to contemporary public health issues and the ways these issues are addressed by urban health agencies and communities as a whole.

**Prerequisite:** UCS-411 with a minimum grade of C.

**UCS-447. Urban Youth Culture And Development. 3 Hours.**

The focus of this course is to examine complexities of youth development within an urban context. Specifically, this course will use critical race theory and systems theory to explore youth development within the context of neurobiology, violence management, sexuality, civic engagement, and media consumption.

**Prerequisite:** UCS-411 with a minimum grade of C.

**UCS-452. Field Internship. 1 Hour.**

The field internship allows students to receive professional training aligned to their existing research topics and thesis to support their completion of the master thesis requirement. Students are not only directly engaged in the fields of varied organizational agencies to gain work-related experience, but also asked to write reflective exercises as a means to apply various data tools to summarize varied learning experiences. Furthermore, students are to develop a portfolio/e-portfolio that captures the intellectual and practical experiences encountered servicing people in urban environments. To be taken concurrently with UCS-453. Students are required to complete 100 intern hours.

**UCS-453. Seminar. 3 Hours.**

ICSE-453 is the seminar section of ICSE-452, which allows students to review and analyze qualitative methodology and data collection tools in the fields including social work, criminal justice, and education. The seminar research course also investigates the theories, perspectives, and data used to assess and interpret urban challenges and social phenomena. To be taken concurrently with UCS-452.

**UCS-5901. Research And Thesis. 1 Hour.**

Supervision and advisement in the research and writing of a thesis to fulfill the requirements for the Master of Arts degree in Urban Community Studies. This course requires the approval of the instructor, program facilitator and the appropriate College Dean(s). Students will have completed the required courses with a B average or higher, and have obtained the approval of their graduate advisor before registering for the thesis hours.

**UCS-5902. Research And Thesis. 2 Hours.**

Supervision and advisement in the research and writing of a thesis to fulfill the requirements for the Master of Arts degree in Urban Community Studies. This course requires the approval of the instructor, program facilitator and the appropriate College Dean(s). Students will have completed the required courses with a B average or higher, and have obtained the approval of their graduate advisor before registering for the thesis hours.

**UCS-5903. Research And Thesis. 3 Hours.**

Supervision and advisement in the research and writing of a thesis to fulfill the requirements for the Master of Arts degree in Urban Community Studies. This course requires the approval of the instructor, program facilitator and the appropriate College Dean(s). Students will have completed the required courses with a B average or higher, and have obtained the approval of their graduate advisor before registering for the thesis hours.

# Women's and Gender Studies (WGS)

---

## Courses

### **WGS-101. Introduction To Women's, Gender & Sexuality Studies. 3 Hours.**

This course introduces students to major issues and debates within the interdisciplinary field of women's, gender, and sexuality studies. (This is a General Education course in the area of Humanities.)

### **WGS-109A. First Year Experience: Sex Lives In Chicago. 3 Hours.**

FYE: Sex Lives in Chicago critically examines sexualities in the social and physical space of Chicago from a feminist, sex-positive standpoint. In this course, the five foundations of the First-Year Experience (Future Planning, Integral Preparation, Research, Self-discovery and Transitions) are interwoven into the concepts of sexualities, gender and power. This course explores the diversity of sexual identities, practices, and behaviors in historical and modern Chicago. Students will discover the diversity and complexity of sexualities in Chicago through readings, speakers, films, and field experiences while simultaneously building personal and academic skills that ensure success at NEIU.

### **WGS-150. Women's Self-Defense. 1 Hour.**

This course develops a framework for understanding violence and self-defense. Major focus is on learning and practicing awareness, prevention, assessment, verbal boundary setting and physical self-defense skills in simulated scenarios. (This course is not repeatable.)

### **WGS-201. Writing Intensive Program: Writing For Social Change. 3 Hours.**

Examines the importance of writing for resistance and advocacy in struggles for social change and justice. Students also learn and practice writing in the discipline of Women's, Gender & Sexuality Studies.

**Prerequisite:** (WSP-101 with a minimum grade of C or WGS-101 with a minimum grade of C) and ENGL-101 with a minimum grade of C.

### **WGS-210. Introduction To Lesbian, Gay, Bisexual, Transgender & Queer Studies. 3 Hours.**

The Introduction to Lesbian, Gay, Bisexual, Transgendered and Queer (LGBTQ) Studies offers an introductory and interdisciplinary approach to studying the lives, histories and cultures of LGBTQ communities and allies. This course focuses on the multiplicity and diversity in gender and sexual expression including how race, class, ability and other identity markers shape LGBTQ lives. Examining introductory questions in gender and sexualities studies, the course addresses the intersection of identity, knowledge and action through critical thinking, analysis, active learning and social engagement.

### **WGS-300. Feminist Activism. 3 Hours.**

This course focuses on the many forms of feminist activism in the U.S. and beyond, including examining the ways that racism, gender and class politics are intertwined with feminist activism of the past and present. This course also explores feminist struggles against domestic and sexual violence, as well as their fight for personhood, citizenship, legal rights, property rights, disability rights, personal freedom, suffrage, education, reproductive rights, workplace equality, and more. Students in the course will create and participate in activist projects during the semester.

**Prerequisite:** WGS-101 with a minimum grade of C.

### **WGS-302. Feminist Theory. 3 Hours.**

This course examines feminist theory and the complex issues that feminist activism raises including the multiple ways that feminist theory challenges students to imagine justice and liberation.

**Prerequisite:** WSP-101 with a minimum grade of C or WGS-101 with a minimum grade of C.

### **WGS-303. Writing Intensive Program: The Power Of Writing: Interdisciplinarity As Critical Practice. 3 Hours.**

This course examines the importance of writing for resistance and advocacy in struggles for social change and justice. Students learn and practice writing in the discipline of Women's, Gender & Sexuality Studies. The course encourages students to embrace writing critically and creatively in order to express themselves effectively in a broad range of contexts. The course, and the interdisciplinary writing skills on which it focuses, are relevant to students from many academic fields.

**Prerequisite:** ENGL-101 with a minimum grade of C.

### **WGS-310. Lesbian & Queer Cultures: Identities, Histories & Resistance. 3 Hours.**

This interdisciplinary course introduces students to historical and theoretical research through a series of topics: Identity, Sex, Violence, Activism, and Beyond. This will form the contexts for exploring issues and questions surrounding lesbian and queer cultures. Books, articles, magazines, videos, films, music, art, and more will be used. What makes up, establishes, creates, develops, organizes lesbian and queer cultures? This will be examined, in the context of various struggles over meanings and identities, considering that those meanings change over time and context and differ across race, class and other identity markers.

### **WGS-311. Power, Knowledge & Communities: Feminists Engagements With Education. 3 Hours.**

This course focuses on the role of the educational system in the constructions and reproduction of gender and racial inequality. Using both academic and popular literature to gain perspectives, we will examine relationships between school and society. Topics to be addressed include the historical constructions, representation of schooling and the teaching profession, popular culture and education, and sexuality and schooling.

### **WGS-312. Women & Global Human Rights. 3 Hours.**

Women's issues have recently been viewed through the lens of human rights. Increasingly they are included in the goals, programs and policies of international human rights organizations, from the United Nations to Amnesty International. This course will examine this shift in perspective and the impact it is having on women's lives worldwide. We will explore international human rights as they apply to women. What do we mean by "human rights"? How have these rights been socially defined, struggled over, and, in some cases, won? To what extent have women and women's rights been included in these conversations and struggles?.

**WGS-313. Radical Feminist Imagination. 3 Hours.**

Examination of literary works broadly representative of something called feminist imaginative response to U.S. patriarchy. The meaning of radical feminism will be explored as authors from a range of racial, class, and sexual identities are placed in dialogue with each other and with their respective socio-historical and cultural contexts. Focus will be on textual interpretation and exploring how each work attempts to develop its version of feminist consciousness. The course will investigate how these texts formulate a narrative of women's liberation against the dominant patriarchal narratives that inform cultural consciousness and social relations.

**WGS-316. Science And The Gendered Body. 3 Hours.**

This course traces the history of how gender and sex are identified and studied in scientific and medical fields and how cultural conception of gender and sex can influence the interpretation of scientific phenomena. Readings draw from the primary scientific literature, the history and philosophy of science, and cultural anthropological analyses of science and medicine.

**Prerequisite:** (or).

**WGS-318. Fatness, Feminism And Critical Weight Studies. 3 Hours.**

We will consider alternatives to the dominant biomedical size discourse that unproblematically considers a large body size as a gendered and racialized "health risk factor." To this end, this course makes use the term "fat" as a reclaimed descriptive term, like short or tall, instead of terms like terms "overweight" and "obese," which reflect medical pathologizations of body size. We will first explore Fat Studies and the ways it challenges dominant belief systems while speaking to power, oppression, and privilege. Then, we will historicize those belief systems as they developed during the 20th century to the present.

**WGS-320. Feminisms In Islam. 3 Hours.**

This course examines theories, political goals, strategies and activism(s) of the emerging global trend of Islamic feminism(s). Understood as part of a much broader trend in post-colonial and transitional feminisms, Islamic feminism is one of the responses to the hegemonic tendencies of which secular, Western, white, and middle-class focused feminism often accused. This class analyzes Islam through a gendered lens and focuses on how Islamic feminists promote gender equality and social justice based on a feminist reading of Islam's sacred texts. (Please note: this course is not a theology course).

**WGS-321. Internship In Women's, Gender And Sexuality Studies. 1 Hour.**

Placement in a university or community agency that provides services to women. This will be an opportunity to test classroom concepts in a field setting.

**Prerequisite:** WGS-101 with a minimum grade of C.

**WGS-322. Internship In Women's, Gender And Sexuality Studies. 2 Hours.**

Placement in a university or community agency that provides services to women. This will be an opportunity to test classroom concepts in a field setting.

**Prerequisite:** WGS-101 with a minimum grade of C.

**WGS-323. Internship In Women's, Gender And Sexuality Studies. 3 Hours.**

Placement in a university or community agency that provides services to women. This will be an opportunity to test classroom concepts in a field setting.

**Prerequisite:** WGS-101 with a minimum grade of C.

**WGS-324. Black Girlhood Studies. 3 Hours.**

This course examines the complexities of Black girlhood, particularly from the perspectives of Black girls and women. From an examination of adultification to hypersexualization, this course offers a critical analysis of the various aspects and dynamics of Black girlhood, and how race/ethnicity, class, gender, sexuality, and ability specifically impact Black girls' lived experiences. This course spans a wide range of topics, from schooling experiences and representation of Black girlhood in popular culture, to the ways in which Black girls exert radical and humanizing agency — as artists, scholars, activists, and more, reframing dominant narratives about themselves and their communities.

**Prerequisite:** WGS-101 with a minimum grade of C or AFAM-200 with a minimum grade of C.

**WGS-331. Independent Study In Women's, Gender And Sexuality Studies. 1 Hour.**

An intensive investigation of a special area of Women's, Gender and Sexuality Studies.

**Prerequisite:** WGS-101 with a minimum grade of C.

**WGS-332. Independent Study In Women's, Gender And Sexuality Studies. 2 Hours.**

An intensive investigation of a special area of Women's, Gender and Sexuality Studies.

**Prerequisite:** WGS-101 with a minimum grade of C.

**WGS-333. Independent Study In Women's, Gender And Sexuality Studies. 3 Hours.**

An intensive investigation of a special area of Women's, Gender and Sexuality Studies.

**Prerequisite:** WGS-101 with a minimum grade of C.

**WGS-340. Latina/x Feminisms & Social Media. 3 Hours.**

This course has two goals: first, students will become familiarized with a panorama of texts exemplifying the historical trajectory of Latina/x intersectional feminist thought in the United States. During the second half of the course, students will research social media activism and contextualize popular Latina/x social media activists and representation, with special emphasis on the disputes and ongoing developments in group identities and senses of self, as well as broad social and political questions relevant to Latina/o/xs, with an eye towards citizenship, consumerism, and immigration issues.

**WGS-349. Gloria Anzaldúa: A Deep Dive. 3 Hours.**

This course is a "deep dive" into the particular social, political and economic factors contributing to the work of a single author over the long arc of her career, along with her particular contributions to literary culture in her time. Extensive reading involving a representative array of the author's work and a wide variety of critical essays on that work will provide students excellent bases for their research, writing and class discussion, culminating in an essay or creative project suitable for public presentation or publication. This section of the course focuses on the work of Gloria Anzaldúa, as well as her collaborators and literary intellectual/artistic successors.

**WGS-350. Women's, Gender And Sexuality Studies Seminar. 3 Hours.**

This interdisciplinary capstone course builds on knowledge gained in other Women's, Gender and Sexuality Studies courses. Students are asked to reflect on their anti-racist and intersectional feminist learning, produce a portfolio of their work and participate in the WGS student symposium. This course is a requirement for students completing the WGS Major and Minor.

**Prerequisite:** WGS-101 with a minimum grade of C.

**WGS-352. Politics Of Women Of Color. 3 Hours.**

"Women of Color" names a feminist coalitional politics that emerged in the 1960s among women differently racialized as non-white in the United States. Foundational to this politics is an understanding of racial, gender, sexual, class and colonial oppressions as interdependent, historically specific, and always occurring simultaneously. This course explores the elaboration of the coalitional politics of Women of Color from its emergence into the present, emphasizing the conceptual and praxical strategies that feminists of color have developed in resistance to the divide-and-conquer legacies encountered both within community and the mainstream feminist movement.

**WGS-359. Queering Disability. 3 Hours.**

This course questions the "normal" and "natural" bodymind and argues that disability is not natural or biological, but a category invented and managed through powerful institutions - for example law and medicine. Building on the analysis and scholarship of feminist, queer and critical race scholars, we will engage queer theory to explore systems of oppression and how constructions of disability produce presumed deviancy and deficiency. Course materials will engage scholarship in fields including fat studies, ethnic studies, and animal studies. Throughout the course students explore, question, and queer various issues affecting the sexual lives and subjectivities of persons with disabilities.

**Prerequisite:** (100 - 399 or 100A - 399Z).

**WGS-360. Queer Theory. 3 Hours.**

Queer theory developed in the early 1990s out of the conjunction of feminist theory, sexuality studies, and queer activism. This course introduces students to some of the key authors and texts in queer theory, shows students how queer theory may be applied in a variety of academic fields, and examines critiques of queer theory as androcentric, Eurocentric, overly intellectual, and impractical. This course aims to foster critical thinking, writing, and discussion. We will go beyond merely digesting theorists' work to actively engaging with the material and critiquing both commonly held assumptions and academic theories about gender and sexuality.

**WGS-361. Queer Latin American Narrative And Film. 3 Hours.**

This course explores the representation of sexual diversity and gender nonconformity in Latin American cultural production (narrative and film) from a perspective informed by feminist theory, LGBT studies and queer theory. Students critically engage these theoretical paradigms while developing research skills and proficiency in oral and written expression through class assignments, including a final research paper.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**WGS-362. Gender And Sexuality In Latin American And Latinx Resistance Movements. 3 Hours.**

The course Gender and Sexuality in Latin American and Latinx Resistance Movements will take a cross-border, feminist, and queer approach to the analysis of the histories of resistance movements in the United States, Mexico, Central America, South America and the Caribbean. The course will explore the comprehensive history of resistance movements through cross-border, feminist, and queer theory and the visual arts, music, and literature that played an integral part in their development and sustainability.

**WGS-370. Trans\* Feminism: Theories And Approaches To Life Beyond Binaries. 3 Hours.**

In this course, we explore activist and academic world-making approaches to the eradication of the gender binary. In the first part of the course, we define trans\* feminism—where the asterisk indexes an opening up of the term to include a greater range of gender identities, following Avery Tompkins—via its central assumption that all forms of social oppression are implicated by the logics of gender. From there, we discuss how (gender) binaries are upheld and curated by the state and social cisheteronormative practices while exploring the poetry, art, and intellectual expression of people who seek to live outside those boundaries.

# World Languages & Cultures (WLC)

---

## Courses

### **WLC-190. Language Immersion. 3 Hours.**

Language immersion affords a multidimensional approach to language learning that facilitates successful acquisition. By its very nature, immersion provides experiences in multiple linguistic contexts so that the student is exposed to more than just academic input in the target language. This course is designed for students that undertake the study language in both formal and informal environments. While the academic portion of this course is guided by the established curriculum, both the quality and quantity of the informal experience is determined by the student according to his/her individual needs and interests, leading to the integration of formal and informal contexts.

### **WLC-191. Language Immersion II. 3 Hours.**

As a continuation of WLC-190, this second semester course is designed for students who wish to continue the study of language in both formal and informal environments. While the academic portion of this course is guided by the established curriculum, both the quality and quantity of the informal experience is determined by the student according to his/her individual needs and interests, leading to the integration of formal and informal contexts.

### **WLC-200A. Introduction To Arab Cultures. 3 Hours.**

This course introduces students to the wealth of literary, artistic, and musical cultures in the Arabic-speaking world. You will learn to describe, contextualize, and analyze representative cultural texts from literature (e.g., poems, short stories, folk tales and legends), fine arts (e.g., painting and photography), and popular culture (e.g., popular music, films, comics), and to evaluate how they reinforce, question or subvert normative constructions of gender, ethnicity, race, sexuality and nationalism specific to but not limited to the Arabic-speaking world. Taught in English. Sophomore standing or above.

### **WLC-200B. Introduction To Brazilian Culture. 3 Hours.**

This course introduces students to the wealth of literary, artistic, and musical cultures in Brazil. You will learn to describe, contextualize, and analyze representative cultural texts from literature (e.g., poems, short stories, folk tales and legends), fine arts (e.g., painting and photography), and popular culture (e.g., popular music, films, comics), and to evaluate how they reinforce, question or subvert normative constructions of gender, ethnicity, race, sexuality and nationalism specific to but not limited to Brazil. Taught in English. Sophomore standing or above.

### **WLC-200C. Introduction To Chinese Culture. 3 Hours.**

This course introduces students to the wealth of literary, artistic, and musical cultures in China. You will learn to describe, contextualize, and analyze representative cultural texts from literature (e.g., poems, short stories, folk tales and legends), fine arts (e.g., painting and photography), and popular culture (e.g., popular music, films, comics), and to evaluate how they reinforce, question or subvert normative constructions of gender, ethnicity, race, sexuality and nationalism specific to but not limited to China. Taught in English. Sophomore standing or above.

### **WLC-200E. Intermediate Studies In Foreign Language: Introduction To Korean Culture. 3 Hours.**

### **WLC-200F. Introduction To French And Francophone Cultures. 3 Hours.**

This course introduces students to France and francophone cultures and to the French and francophone influences in Chicago and the Midwest. Students will learn to describe, contextualize, and analyze representative cultural texts from literature (i.e., poems, short stories, folk tales, and legends), fine arts (i.e., painting and photography), and popular culture (i.e., popular music, films, comics), and to evaluate how they reinforce, question or subvert normative constructions of gender, ethnicity, race, sexuality and nationalism in France and the international francophone community. Taught in English. Sophomore standing or above.

### **WLC-200I. Introduction To Italian Culture. 3 Hours.**

This course introduces students to the wealth of literary, artistic, and musical cultures in culture of Italy. You will learn to describe, contextualize, and analyze representative cultural texts from literature (i.e., poems, short stories, folk tales and legends), fine arts (i.e., painting and photography), and popular culture (i.e., popular music, films, comics), and to evaluate how they reinforce, question or subvert normative constructions of gender, ethnicity, race, sexuality and nationalism specific to but not limited to culture of the Italian peninsula. Taught in English. Sophomore standing or above.

### **WLC-200J. Introduction To Japanese Culture. 3 Hours.**

This course introduces student to the wealth of literary, artistic, and musical cultures in Japan. You will learn to describe, contextualize, and analyze representative cultural texts from literature (e.g., poems, short stories, folk tales and legends), fine arts (e.g., painting and photography), and popular culture (e.g., popular music, films, comics), and to evaluate how these texts reinforce, question or subvert normative constructions of gender, ethnicity, race, sexuality and nationalism specific to but not limited to Japan. Knowledge of Japanese language is not required, but because the Japanese often integrate their culture and language, a discussion of some elements of the Japanese language will be part of the class. Taught in English. Sophomore standing or above.

### **WLC-200K. Kurdish Culture. 3 Hours.**

This course introduces students to various aspects of Kurdish society. The course incorporates a number of perspectives: anthropological, sociological and cultural studies. It provides an overview of Kurdish society with special attention given to questions of identity, history, important literary and cultural texts and figures, music and dance, food and folkways. Finally, contemporary challenges faced by various parts of Kurdish society will be explored in relation to statelessness and diaspora.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**WLC-200L. Introduction To Latin American Cultures. 3 Hours.**

This course introduces students to the wealth of literary, artistic, and musical cultures in Latin America. Students will learn to describe, contextualize, and analyze representative cultural texts from literature (e.g., poems, short stories, folk tales and legends), fine arts (e.g., painting and photography), and popular culture (e.g., popular music, films, comics), and to evaluate how they reinforce, question or subvert normative constructions of gender, ethnicity, race, sexuality and nationalism specific to but not limited to Latin America. Taught in English.

**WLC-200P. Introduction To Polish Culture. 3 Hours.**

This course introduces students to the wealth of literary, artistic, and musical cultures in Poland. Students will learn to describe, contextualize, and analyze representative cultural texts from literature (e.g., poems, short stories, folk tales and legends), fine arts (e.g., painting and photography), and popular culture (e.g., popular music, films, comics), and to evaluate how they reinforce, question or subvert normative constructions of gender, ethnicity, race, sexuality and nationalism specific to but not limited to Poland. Taught in English. Sophomore standing or above.

**WLC-200S. Introduction To Assyrian Culture. 3 Hours.**

This course will serve as an introduction to the literary, artistic, and musical traditions in the Assyrian culture. You will learn to describe, contextualize, and analyze representative cultural texts from literature, fine arts, and popular culture, and to evaluate how they reinforce, question or subvert normative constructions of gender, ethnicity, race, sexuality and nationalism specific to but not limited to Assyrian culture. Taught in English.

**WLC-220. French Culture Through Film. 3 Hours.**

Explores the successive historical, political, social and aesthetic climates of modern France and francophone countries through the study of film. Conducted in English.

**WLC-220A. Arab Culture Through Film. 3 Hours.**

This course uses cinema as a tool to think critically about key topics of modern Arab cultures, including ethnicity, nationalism, religion, and gender roles, among others. Students will learn to situate films in specific political and cultural contexts, and to discuss how aesthetic choices guide possible interpretations. Taught in English. Sophomore standing or above.

**WLC-220T. Italian Culture Through Film. 3 Hours.**

This course uses cinema as a tool to think critically about key topics of Italian culture, including national identity, religion, and gender roles, among others. Students will learn to situate films in specific historical and cultural contexts, and to discuss how aesthetic choices guide possible interpretations. Taught in English.

**WLC-221J. Japanese Culture Through Film. 3 Hours.**

This course uses cinema as a tool to think critically about key topics of Japanese culture, including nationalism, religion, and gender roles, among others. Students will learn to situate films in specific historical and cultural contexts, and to discuss how aesthetic choices guide possible interpretations. Taught in English. Sophomore standing or above.

**WLC-302. Introduction To Teaching World Languages. 3 Hours.**

The nature of language and language-learning processes; demonstration of specific organizational patterns and teaching methods in keeping with these; the changing status of foreign language teaching; and the importance of language teaching in an interdependent world. Implications for foreign language teaching of recent developments in linguistics, psychology, psycholinguistics, curriculum, teaching materials and technology. Emphasis on designing, presenting and evaluating specific classroom procedures in the linguistically oriented teaching of the communicative skills.

**WLC-320. Feminisms In Islam. 3 Hours.**

This course examines theories, political goals, strategies and activism(s) of the emerging global trend of Islamic feminism(s). Understood as part of a much broader trend in post-colonial and transitional feminisms, Islamic feminism is one of the responses to the hegemonic tendencies of which secular, Western, white, and middle-class focused feminism is often accused. This class analyzes Islam through a gendered lens and focuses on how Islamic feminists promote gender equality and social justice based on a feminist reading of Islam's sacred texts. (Please note: this course is not a theology course).

**WLC-333. Writing Intensive Program: Cross-Cultural Communication. 3 Hours.**

In this course the student will be provided with multiple opportunities for writing in English about the study of world languages in both literary and linguistic contexts. The language professional will need to be prepared for writing various types of texts including: description, narration, exposition and argumentation. The broader focus of cross-cultural communication is explored in this course via the fundamentals of translation with a narrow focus on the cultural nuances embedded in the lexicon. A comparison of texts written in their original language and in their translated version will be one of the many components explored in the course.

**Prerequisite:** ENGL-101 with a minimum grade of C.

**WLC-340. Latina/x Feminisms & Social Media. 3 Hours.**

This course has two goals: first, students will become familiarized with a panorama of texts exemplifying the historical trajectory of Latina/x intersectional feminist thought in the United States. During the second half of the course, students will research social media activism and contextualize popular Latina/x social media activists and representation, with special emphasis on the disputes and ongoing developments in group identities and senses of self, as well as broad social and political questions relevant to Latina/o/xs, with an eye towards citizenship, consumerism, and immigration issues.

**WLC-383S. Special Topics In Latina/o And Latin American Literary And Cultural Studies. 3 Hours.**

Varying topics in the field of Latinx and Latin American literary and cultural studies.

**WLC-384. Drugs, Intoxication And Addiction In The Americas. 3 Hours.**

This course is an interdisciplinary approach to drugs, intoxication and addiction in the Americas. Students will challenge received knowledge on these topics by analyzing cultural products that portray drug trafficking, consumption and addiction and by engaging with critical theory that problematizes the role of drugs in our society and the social harms caused by prohibition. Special emphasis will be given to the ways that various systems of oppression, such as capitalism, racism, (neo)colonialism and patriarchy, intersect in the economy of drugs and how peripheral perspectives from the Global South can indicate more liberating perspectives on the relationship between humans and intoxicants.

**Prerequisite:** (100 - 399 or 100A - 399Z).
